

D Emperor 5161

Chapter 5161: Heavenly Clan

The battle outside the heart and soul is getting more and more fierce and extremely tragic. People fall from time to time. Those who can come here are all masters. At least they are the existence of Origin Peak, and most of them are considered masters in Origin Peak .

In order to fight for the heart and soul, in order to fight for the heart fragment of the universe, all parties are desperate and bloody.

"True Immortal Seal!"

Finally, Xu Liangfu couldn't help it anymore, and played a big killer move, sacrificing the seal of the true immortal.

As soon as the true immortal law was printed, a hazy figure condensed and pointed a finger.

In the underworld, an old man comparable to a master in the source list was knocked into the air like a sack, he vomited blood and almost died.

If it weren't for him to retreat early and have a life-saving hole card, he would be completely killed this time.

"Do you think that only you have the seal of the true immortal."

The young black panther snorted coldly, and he also typed a seal, which was also the seal of the true immortal.

On the other side, Jia Qing also printed a true immortal seal.

The three true immortal seals, exuding ten thousand meters of glow, suspended in the void, filled with terrifying coercion, and collided with destructive forces.

Others, such as the two elders of Kamikawa and others, their complexions changed wildly, backed madly, and did not dare to stay nearby.

They don't have the seal of true immortality.

Although the two elders of Kamikawa and others also have combat power comparable to the original list, ranking no worse than Xu Liangfu, Jia Qing and others, but their potential is far worse than Xu Liangfu and others.

In the future, they may be trapped at the pinnacle of the origin for the rest of their lives.

And Xu Liangfu, Jia Qing and other enchanting Tianjiao, it is extremely possible that they will survive the immortal catastrophe and prove to become immortal.

It can be said to be a future immortal.

Therefore, the true immortal behind them will give the true immortal seal at any cost.

The true immortal seal protects the way for them.

The second elder of Kamikawa, an old guy who has almost exhausted his potential, does not have this qualification.

boom!

The roar sounded like thunder, and the three-zhang true immortal seal, confronting each other, was deadlocked for a while, and it was difficult to distinguish the superior from the superior.

Below, the three figures lie horizontally and horizontally, continuing the battle.

However, the three of them only fought more than ten moves, and then stopped.

"The three of us fighting like this is not a solution. At that time, it will only be cheaper for the old guys."

The young Black Panther glanced around, extremely cold.

"Yes, it's better to solve these old guys first."

Xu Liangfu also said.

The true immortal seal cannot be used indefinitely.

The true immortal mark on it will eventually be exhausted after a long time.

Moreover, the true immortal mark is exhausted, and it will have a certain impact on the true immortal behind him.

Therefore, the True Immortal Dharma Seal is generally not used easily unless it is facing a critical moment of life and death.

For example, Xu Liangfu was attacked by a quasi-celestial beast before, or at this time, in order to compete for the fragments of the heart of the universe, he sacrificed the true immortal seal.

Otherwise, use the True Immortal Dharma Seal for no reason, and after exhaustion, it will affect the true immortal and cause the true immortal's dissatisfaction, and the consequences will be serious.

Although they have the posture of becoming immortals, as long as they do not become immortals in one day and their status is different from the true true immortals, it is a huge difference.

If you don't become a fairy in one day, you will be an ant after all.

Around, those old guys had solemn faces and their figures couldn't help but retreat again, facing the True Immortal Seal, they had only a dead end.

"Unfortunately, I wanted to wait for you two to lose out before you come out and pick a cheap one, but now it seems that I can only do it myself."

At this moment, a faint voice sounded, followed by a flash of light and shadow, and a figure appeared not far away.

This person, wearing a Taoist robe, a tall and burly figure, was a young Taoist priest.

"Shan Ying, it's you."

Jia Qing and Xu Liangfu exclaimed at the same time.

The face of the young black panther changed wildly.

Shan Ying, the peerless genius of the Yuqing Universe in Yangjian, ranks a lot higher than Xu Liangfu, Jia Qing and others on the source list, ranking 499.

Hundreds higher than Jia Qing and Xu Liangfu.

Those who can make it into the top five hundred in the source list are even more terrifying and unfathomable.

Most importantly, Shan Ying also has a big brother, even more enchanting, ranking in the top 100 in the origin list, known as the first master in the origin realm of the Yuqing universe.

Those who can be ranked in the top 100 on the origin list are enough to be in the top 30 among the origins of the younger generation.

This is extremely scary. You must know that Yuqing Universe is only ranked tenth among the tens of thousands of Universes in Yang, and there are nine more powerful Universes, and there are more geniuses.

Especially the number one in Yangjian, with an endless heritage, endless ancient, incomparably powerful, eternal and immortal universe, the heavenly universe.

The heavenly clan of the heavenly universe, the supreme clan, has always been the most terrifying Tianjiao in the sun, mostly from this clan, occupying most of the top spots.

Shan Ying's eldest brother can squeeze into the top 30, which shows that it is terrible.

The Black Panther youth, Xu Liangfu and Jia Qing, their eyes flickered constantly, looking around, it seemed that the big brother who was afraid of Shan Ying suddenly jumped out.

"Don't read it, my eldest brother is not here, I am enough to deal with you."

Shan Ying stepped forward, seemingly not afraid of the three true immortal seals on his head.

"You two, do you want to compete with me?"

Shan Ying glanced at Xu Liangfu and Jia Qing.

Xu Liangfu and Jia Qing's faces changed.

Asking them to give up their hearts and souls and the hearts of the universe is really unwilling.

However, they know Shan Ying better.

They are both geniuses of Yang Jian, and they naturally fought against each other. In a battle at the same level, there is a big gap with Shan Ying. Even if they join forces, they may not be Shan Ying's opponent.

As for the use of the True Immortal Seal, it is even more seeking death.

The Yuqing Great Universe, but the tenth largest Universe in Yang, has a group of immortals in all directions, and there are more than one and two immortal kings, and he must have the seal of the true immortal.

Moreover, the seal given by the extremely strong true immortal was not comparable to them.

Bizhen Immortal Seal, that is purely looking for abuse.

"I quit!"

Xu Liangfu shook his head, stepped back, made clear his position, and stopped participating in the competition.

"Since Brother Shan is here, the heart of the universe belongs to Brother Shan."

Jia Qing also squeezed out an ugly smile and stepped back.

After retreating, the two also quickly collected the Seal of the True Immortal Law.

Use it for a while, it will consume more, they feel heartache.

At the scene, only one young black panther was left.

Shan Ying looked at the young Black Panther, and said lightly: "Are you not going to quit?"

"Quit? Hahaha, ridiculous, Shan Ying, who is ranked 499th in Yang Jian Yuan Yuan, I want to learn something."

The young Black Panther licked his lips, his eyes showed madness.

"If you want a battle, I will complete you. However, put away the seal of the true immortal. It is meaningless for you and me to sacrifice the seal of the true immortal."

Shan Yingdao.

Chapter 5162: Who is this person? So strong

The Black Panther young man waved his hand and put away the true fairy defense.

Tianjiao who reached their level will not lack the True Immortal Seal. When they fight against each other, they will sacrifice the True Immortal Seal.

In the end, you still have to rely on your own combat power to determine the outcome.

Roar!

The young black leopard roared, his body bulged, and turned into a ten-meter-high giant leopard, wrapped in black armor, and then if there was a black lightning, he pounced on Shan Ying.

In the face of Shan Ying, the Black Panther youth dared not be the slightest carelessness, urging the combat power to the extreme.

Keng!

With a blast of swords, a cyan long sword appeared in Shan Ying's hand.

One after another, the cyan sword light slashed out, towards the young black leopard.

Keng! Keng! Keng! ...

The sound of metal collision sounded intensively, and the two figures fought together, and they fought dozens of moves in an instant.

"This guy, with such a strong combat power, can actually find so many fights against Shan Ying."

Jia Qing whispered, obviously, the combat power of the Black Panther youth surprised them.

However, Shan Ying was able to rank in the top five hundred in the source of Yang Jian. His combat power was really strong, not just to talk about it. Not only did he comprehend the extremely powerful source art, he also learned the source art to a very deep realm. .

Gradually, the young Black Panther finally lost.

After dozens of moves.

puff!

Blood was splashing everywhere, and two leopard legs flew out.

The young black panther retreated quickly, turned into a black lightning, and quickly went away.

"Shan Ying, I took down the account today."

The young black panther roared, and when the voice came out, the figure had already gone.

"Humph!"

Shan Ying snorted coldly, but didn't chase after him. The most urgent task was to refine his heart and soul.

The longer the delay, the more complicated the situation.

This time, there were a lot of masters who entered the primordial universe, and there were many on the original list.

A large number of powerhouses also came from the underworld.

In the original realm, he dare not call invincible, who knows if there is a stronger existence, the primordial universe.

Refining the heart and soul first, so as not to have many dreams at night.

Sweeping around, Shan Ying stepped out, rushing towards the heart and soul like the sun.

Around, others were envious, but after all, they did not compete with Shan Ying, knowing that they were not Shan Ying's opponent.

I can only look at Shan Ying with envy, and walk into his heart and soul.

"You...who are you?"

However, as soon as Shan Ying walked into the soul, they heard Shan Ying's roar.

Then, Shan Ying's figure flashed and reappeared outside of his heart and soul, staring fiercely in his heart and soul, his eyes burning with raging flames.

what happened?

Xu Liangfu, Jia Qing and others are puzzled.

Could it be that before them, someone had stepped into their hearts and souls earlier?

Has already begun to refine the heart and soul?

They are a little gloating.

They can't get it, but they can see Shan Ying deflated, and they are just as refreshing.

"Who, get out of here."

Shan Ying stared at her heart and soul and roared again.

Then everyone saw that there really was a figure in their hearts and souls, stepping out step by step, and finally emerged, a young man with a tall figure.

This person is naturally Lu Ming.

At this time, Lu Ming had almost refined the soul matter in his heart and soul.

Shan Ying swept Lu Ming and found that Lu Ming was only in the late stage of his origin, and his eyes became colder.

What entered the heart and soul one step in advance was actually only a late stage of origin.

Around, Xu Liangfu, Jia Qing and others were also looking at Lu Ming curiously.

Everyone at the scene did not know Lu Ming.

Lu Ming retreats for hundreds of years in the place where the immortals are buried. These people have only recently entered the prehistoric universe, and Lu Ming was born in the prehistoric cosmos, they did not take the remaining creatures of the prehistoric cosmos to their hearts at all.

What eye-catching existence can be born in an incomplete universe?

"Everyone, you continue, the heart and soul of the heart of the universe, I have not refined it."

Lu Ming spread his hands and planned to leave.

His original purpose was not to refine the heart and soul, but to refine the soul matter. Now that the soul matter has been refined, he can go.

However, Shan Ying obviously had no plans to let Lu Ming leave.

Keng!

The sound of Jianming sounded, and a cyan sword light slashed towards Lu Ming. Lu Ming's figure flashed, avoiding the sword light, and coldly looked at Shan Ying, and said, "Brother Tai, what do you mean?"

"After refining the soul matter in the heart and soul, still want to leave?"

Shan Ying said coldly, her eyes flashing with terrible murderous intent.

Just now, he glanced into his heart and soul and found that the soul matter inside had been refined.

His heart was bleeding.

Soul matter is so precious and priceless that it can transform a person's soul. It originally belonged to him, but now it has been refined by Lu Ming.

This person, **** it!

Does this person refine soul matter?

Jia Qing, Xu Liangfu, the two elders of Shenchuan and others looked at Lu Ming, first flashed with envy, but was immediately replaced by pity.

In a mere late stage of the origin, he actually refined the soul material and took things that he shouldn't take. It is conceivable that the end will be miserable.

Shan Ying is not so easy to talk about, and he is known for his cruelty.

Otherwise, they would not retreat without a fight before. Shan Ying is leaning on Yuqing Great Universe with a cruel heart. If he retaliates afterwards, it will be very troublesome.

"I will leave my heart and soul to you, it's already pretty good, what else do you want?"

Lu Ming responded.

Although he doesn't want to cause trouble, he is not afraid of it.

"Nonsense, relying on you, how can you be qualified to get involved with soul matter and kill."

Shan Ying coldly drank, and immediately shot, the sword light flashed, and in an instant, nine cyan trainings went to Lu Ming to kill.

Lu Ming's eyes were cold, and the God of War spear swept out, smashing the nine swords of light.

Ok?

Shan Ying's eyes narrowed.

Lu Ming's combat power was beyond his expectations.

Even though he didn't use his full strength for the move just now, he was more than enough to slay the late stage of the origin, and even the general peak of the origin could not stop it.

But it was defeated by Lu Ming.

He knew that he underestimated Lu Ming.

There is no weak person who can come here, even in the late origins, the combat power is extremely strong.

"A bit capable, but it's far from enough. Today, you must die."

Shan Ying coldly drank, really moved and used Yuanshu.

Shoo...

Shan Ying seemed to be fused with the long sword, turned into a dazzling sword light, and killed Lu Ming.

"The top five hundred in the original source list, I would like to learn."

Lu Ming was fearless, running the Origin Technique, and advancing against him.

boom!

The two confronted each other in the air, full of energy, swept all directions, and even exploded the liquid fire in the upper and lower directions.

The two of them shook slightly and fought together again.

The sword light and the spear light, faster than lightning, kept flashing, constantly clashing, and instantly blasted dozens of moves.

"Who is this person, such a strong combat power."

Xu Liangfu, Jia Qing and others took a breath.

Before, they hadn't taken Lu Ming to heart. At this moment, they were all shocked.

Chapter 5163: Shan Ying

Xu Liangfu, Jia Qing, the two elders of Kamikawa and others were all shocked.

Lu Ming was able to fight against Shan Ying with dozens of moves, but he was not defeated. This kind of combat power was really amazing.

What's more, Lu Ming still only has the cultivation base of the late origin.

"Looking at his breath, it seems to be of the same origin with the prehistoric universe. He is a person from the prehistoric universe."

"It's incredible that such a character can be born in this broken universe."

"It deserves to be the prehistoric universe. It was originally ranked 11th in the world. Even if it is broken, it is extraordinary."

"It is said that if the great universe hadn't been broken, it would have rushed to the top ten in the sun."

Some old guys are talking.

At this time, Lu Ming and Shan Ying had already gone through a hundred moves, and the more they fought, the more intense they were.

"Sword Lotus comes out with a thought!"

Shan Ying drank coldly, raised his hands and gestures, with immeasurable divine light, around his body, green lotus flowers appeared.

Each lotus flower is a manifestation of Origin Art and a fusion of infinite sword energy, and its killing power is shocking.

These lotus flowers rushed towards Lu Ming together, and the endless sword aura was about to drown Lu Ming.

"Breaking style!"

Lu Ming held the gun in both hands and turned into a spear light, as if eternal and immortal, bursting with infinite sword energy, and then blasted out with a palm, a continent formed, suppressing Xia Ying.

When Lu Ming was in his current state, he used the Breaking Heaven and Primordial Style to make the power of the two styles reach the point of horror.

These two types of secret techniques are Lu Ming's original creation, and it can be said that they are the basis for the insight into the source technique.

Before he could comprehend his own source art, Lu Ming comprehended these two ultimate moves by relying on what he had learned all by himself.

These two killer moves are also extremely compatible with Lu Ming, and they are now unimaginable by Lu Ming.

A continent emerges, mountains and rivers are clearly visible, and the rules of the roads on it are staggered, like a real world, down towards Shan Ying's suppression.

Feeling the crisis, Shan Ying looked up to the sky and screamed, spouting a stunned sword light from his mouth, slashing towards the prehistoric continent.

boom!

The Great Earthquake on the Great Desolate Continent did not fail to be cut off for the first time, but continued to be suppressed.

And Lu Ming seized the opportunity to launch a stormy offensive.

bump!

After all, Shan Ying's game was missed. She was hit by the God of War spear, her body retreated violently, and a mouthful of blood spurted out.

The top source-level battle armor on his body was sunken in a large piece.

Si Si Si...

The people around took a breath.

Shan Ying was actually at a disadvantage, and the other party was still a late-stage existence, which was unbelievable.

Shan Ying is not an ordinary person, but a top enchanting evildoer, even in the vast universe, he has a very high reputation.

"Damn it, kill!"

Shan Ying yelled, angrily rushed, and was moved to kill Lu Ming.

With a wave of his hand, a talisman seal flew out, with a shocking breath.

True Immortal Seal!

The real immortal seal glowed, and a figure condensed out, the figure was hazy, but it gave people an irresistible coercion.

The imprint of the true immortal is irresistible.

"This is the so-called genius. If you can't beat it, you can get the seal of the real immortal. It's shameful..."

Lu Ming ridiculed, but didn't dare to neglect the slightest, his figure retreated violently.

"kill!"

Shan Ying drank.

The hazy figure took a palm.

It's just a random palm, but it seems to have turned the universe upside down, and the years have been reversed, so that Lu Ming can't move his body, as if he has fallen into the abyss of hell.

Fortunately, Lu Ming had already taken out the Renwang Broken Sword when Shan Ying made the True Immortal Seal.

At this time, Renwang Broken Sword was trembling violently as if it was being stimulated.

Keng!

The sound of the sword chirping resounded through Jiu Xiao, and then it flew out automatically, exuding infinite brilliance, and slashed at the hazy figure with a sword.

With a loud noise, the palm of the dim figure's outstretched hand was blocked, a crack appeared, and it retracted.

"Bold!"

The hazy figure seemed to be angry, and he shouted, his figure seemed to be clearer, his eyes skyrocketed, as if two sword lights, tearing the space of the universe.

Then, he stretched out his hand again to pat it out and grabbed Renwang Broken Sword.

The king broke the sword without fear. It seemed that the power in the sword had been stimulated and recovered, and the body of the sword suddenly became larger, and he rushed forward.

Two horrible auras collided in mid-air, both trying to kill and obliterate each other, but they couldn't do it for a while, and it seemed to be deadlocked.

"Fairy soldier, you actually have a broken fairy soldier."

Shan Ying lied, feeling extremely surprised.

"Now, your True Immortal Seal is useless."

Lu Ming responded indifferently, stepped forward, and took the initiative to kill Shan Ying.

"Kill, a sword lotus comes out with a thought."

Shan Ying yelled and greeted Lu Ming, and the two were killed together again.

Both of them tried their best, this time more intense than before.

After dozens of moves, Shan Ying was hit again, coughing up blood and retreating, and the top source-level armor was almost pierced.

what...

Shan Ying yelled, feeling extremely aggrieved.

Because he always felt that there was a powerful force suppressing him from the outside world, making it difficult for him to do his best, and his combat power could not be pushed to the extreme, and he was repeatedly suppressed by Lu Ming.

He knew very well that this was because he was a creature in the outer universe and was suppressed by the prehistoric universe.

He is very aggrieved, if he is not suppressed, he will not fall into the wind.

"Happy, come again."

Lu Ming drank low, his whole body glowing. In the fierce battle, his body seemed to shrink again.

Although it was only a little bit difficult for outsiders to see, Lu Ming himself felt very clear.

He knew that Yuan Shu had improved a bit.

It was the first time Lu Ming tried his best to make a move since he walked out of the immortal burial ground.

Before the Lord of Heavenly Palace, or other masters, there was no need to use all their strength.

From this we can see that Shan Ying is really strong.

Needless to say, the cultivation base of the pinnacle of the origin, the magic weapon is naturally the top level of the origin, the root of the origin is also advanced, and the origin technique is also very powerful.

The top five hundred in the original list is not just talking, it is really strong.

There are more than 30,000 universes in the Yang, how many geniuses are there, how many are there in the Origin Realm? It's hard to count.

And among them, 70% of them are senior figures. It is really not easy to make it into the top five hundred. Every one of them is a masterful evildoer.

On the surface, Shan Ying is stronger than Lu Ming.

However, Lu Ming's actual combat ability is obviously stronger, and the power of the Origin Technique is also stronger than that of many parties. Another point is that the opponent is suppressed by the prehistoric universe.

Therefore, Lu Ming can have the upper hand.

After dozens of moves, Lu Ming began to gain the upper hand, hitting Shan Ying consecutively.

Click!

All of Shan Ying's top source-level battle armor had cracks open. Lu Ming's destructive force rushed in. Shan Ying's body was almost destroyed. He retreated madly, and dodged it dangerously and dangerously. Yuangen was hit hard.

"Boy, I remember you. If I am not suppressed, I will not be defeated. I will definitely kill you next time."

Shan Ying roared, turned and ran.

Chapter 5164: Have a master

Shan Ying turned around and ran, the real immortal seal wrapped Shan Ying, at an amazing speed, and disappeared here in a blink of an eye.

Lu Ming didn't pursue it.

Shan Ying's strength is not much different from him. He wants to escape, he may not be able to keep the opponent.

And if the other party is really pushed to a desperate situation and fights hard with him, the result is really hard to tell.

Behind these characters is Yuqing Universe, who knows if there are any powerful cards to save their lives.

Soon, Shan Ying disappeared in this area.

Xu Liangfu, Jia Qing and others began to flicker again.

Shan Ying is gone, and this Lu Ming doesn't seem to have the idea of refining the heart of the universe, otherwise, it should be done before, and there is no need to wait until now.

Wouldn't they have a chance.

Lu Ming glanced at it, then chose another direction, galloped away, and disappeared in a blink of an eye.

boom! ...

Lu Ming didn't fly far, he heard a violent roar from behind.

Obviously, as soon as he left, the others started fighting.

"unfortunately..."

Lu Ming shook his head.

If he wants to merge his heart and soul, he has a chance.

But even if it is integrated, it cannot be kept, there is no need.

Just let these people fight, anyway, he refined the soul material and gained a lot.

Soon, Lu Ming moved away from here and continued to explore, hoping to find other treasures that tempered his body and soul, especially treasures that were useful to Yuangen.

Unfortunately, Lu Ming found nothing in the next few days.

Treasures that are of great use to the body, soul, and even roots are extremely rare in the first place, rare in the world, and even in the heart of this universe, there are not many.

With so many people coming in, it is too difficult to get something.

Lu Ming was able to obtain body lotion and refine soul matter, which was a great harvest.

Rumble!

On this day, the sky trembled, and the endless liquid fire in the sea of flames actually flowed and gathered in one direction.

"This is... someone has merged his heart and soul."

"Someone initially succeeded in fusing their minds and souls. They can no longer stay here and leave."

Many people rushed upward.

Once someone has integrated the heart and soul, he can initially control the heart of the universe, mobilize the internal energy, and expel other creatures that have invaded the heart of the universe.

If they continue to stay, they may be attacked.

"hateful!"

Someone growled, very unwilling.

"Let's find out, it's a fusion of heart and soul. It's not that easy to get the cosmic heart fragment."

Some people spoke indifferently, and didn't give up.

Even if the heart and soul are temporarily integrated, it may not be possible to obtain 100% of the heart fragments of the universe.

As long as the Fragment of the Heart of the Universe is still here and has not been taken away, others will have a chance.

But for the time being, we still have to evacuate.

A group of figures rushed upwards, Lu Ming also mixed in the crowd, leaving the Fragment of the Heart of the Universe.

"Who is it that merges the heart and soul?"

Many people are discussing.

Lu Ming mingled in the crowd, listening to other people's discussions.

"It's Shan Ying. I heard that it was Shan Ying who combined his heart and soul."

Someone whispered and gave the answer.

"What, it's Shan Ying? I heard that Shan Ying was defeated when he first fought for his heart and soul. How could he merge his heart and soul later?"

Some people are curious.

Lu Ming was also very curious. This was really beyond his expectation. Before, Shan Ying was beaten away by him. Didn't he run away? After he left, he killed him again?

"I heard that his eldest brother Shan Xiong arrived, and Shan Xiong personally protected him, letting Shan Ying merge his heart and soul."

Humane.

"What? Shan Xiong is here!"

The others took a breath.

"Shan Xiong protects Shan Ying, doesn't Shan Xiong himself want the Fragment of the Heart of the Universe?"

Some people are puzzled.

"Shan Xiong, one of the top 100 characters in the Yangjian Origins list, can be ranked in the top 30 among the origins of the younger generation. This kind of person has too much talent and is very confident. He firmly believes that he can do without the heart of the universe. Proving Dao to become immortal, and even becoming the king of immortals, so it is normal to give the fragments of the heart of the universe to Shan Ying."

Humane.

indeed!

Many people nodded.

Characters like Shan Xiong are really too strong, unmatched, and amazingly talented. There is no doubt that they will become immortals in the future. Even if they become the king of immortals, the probability is extremely high.

"With Shan Xiong, there is no suspense in this cosmic heart. It will definitely fall into Shan Ying's hands, and no one else can compete with it."

"Shan Xiong, damn..."

Some powerhouses who are still unwilling to give up on the fragments of the Heart of the Universe screamed after hearing Shan Xiong, with deep fear and helplessness in their eyes.

Shan Xiong is too strong. In the age when quasi-immortals are not coming out, Shan Xiong is almost invincible.

It's not that there is no better than him, but he hasn't come to the prehistoric universe at all.

Among the temporarily appearing Origin Realms, Shan Xiong is the strongest.

With his guardian, how can other people compete?

The key is that behind Shan Xiong, Yuqing Universe is still behind him.

Sure enough, a few days later, Shan Xiong appeared, with a large number of masters of the Yuqing Great Universe, and began to arrange an array around the heart of the universe, intending to refine the fragments of the heart of the universe into a kind of space treasure that can be carried with him.

Otherwise, such a large piece of the heart of the universe can't be taken away at all, and if it can't be taken away, there will be variables.

However, it is temporarily impossible to bring out the prehistoric universe.

Unless the owner completely refines and completely controls the fragments of the heart of the universe, otherwise, it will encounter resistance from the entire universe.

Therefore, even if these people temporarily control the Fragment of the Heart of the Universe, they can only stay in the Primordial Universe.

Shan Xiong was protecting the Fa, and he was backed by Yuqing Great Universe. The other powerful Great Universes did not compete. People such as Shengguang Great Universe and others all left one after another.

Lu Ming stood in the air, stared silently, and then dashed away.

"The Halo World, the continent in the Primordial Ring, and the Cangqing Divine Realm, why is the aura so similar?"

"Could it be that Cangqing Divine Realm and Honghuang Ring are fragments of the heart of the universe?"

Lu Ming has been thinking about it.

Legend has it that the heart of the universe was broken into five pieces.

Two pieces have now appeared, and three pieces are still missing.

If Honghuangjie and Cangqing Divine Realm are the remaining fragments of the heart of the universe, it is not impossible.

But if the prehistoric ring is a fragment of the heart of the universe, who made it into a space treasure? Is it fate?

With the strength of soul and life, it can be done.

There is no chance that the immortal will make a move. Those big universes can refine the fragments of the heart of the universe into space treasures, and the cultivation of soul and life, at its peak, is definitely a quasi-xian-level existence.

Otherwise, it would be impossible to fight against the Celestial Race, and even exploded a Celestial Palace.

However, why did Soul Ming give Lu Ming the Hong Huang Jie in the first place?

Lu Ming couldn't figure it out.

Only when I have the opportunity to ask Soul Fate and ask questions later, I don't know where Soul Fate has gone. Since he got out of trouble, there has been no trace.

"Go back to Cangqing Divine Realm and ask some ancestors."

Lu Ming whispered.

Chapter 5165: The secret of Cangqing Divine Realm

The ancestors of the Cangqing Divine Realm had arranged for their evacuation very early, and they continued to strengthen the seal of the Cangqing Divine Realm.

I know something for sure.

Why do you want to do this?

If the Cangqing Divine Realm is a fragment of the heart of the universe, it can be explained.

Because several ancestors knew the power of the outer universe, they would predict that sooner or later, the Cangqing Divine Realm would be catastrophic, so they arranged for evacuation in advance.

Of course, all of this is speculation, and to be specific, I still have to ask a few ancestors for advice.

Lu Ming embarked on the ancient teleportation road, left the eastern universe, and arrived at the Cangqing Divine Realm.

"Lu Ming, you happened to be here, and several ancestors were looking for you, and they said they would notify you directly after seeing you."

Not long after Lu Ming came back, he met several elders in the original realm.

"Okay, I'll pass right away."

Lu Ming said.

He was looking for a few ancestors, and a few ancestors had something to look for him.

When Lu Ming came to the sleeping place of the ancestors, he actually found that there were other people already there. There were more than a dozen elders sitting across the hall, seeming to be waiting. After seeing Lu Ming, they all smiled to Lu Ming. Nod.

Lu Ming also learned everything, sitting cross-legged.

Later, people came one after another, but they were all masters of the Cangqing Divine Realm. Lu Ming secretly sensed and found that the cultivation base was almost always in the late origin or even the peak of origin.

In the end, more than thirty people gathered here.

Suddenly, the two altars in the main hall lit up, and then two figures emerged. They were the two ancestors Lu Ming had seen last time.

"See the ancestor!"

In the hall, everyone got up and saluted.

"It's almost here."

The white-haired old woman swept her eyes to the crowd and said.

"This time, I am calling you here to tell you about the Fragment of the Heart of the Universe."

Another ancestor Tao.

Lu Ming's heart moved.

Coincidentally, he was also about to ask about the Fragment of the Heart of the Universe.

"In your hearts, it must be very strange, why did we arrange the transfer before."

The old white-haired woman asked.

"Also please the ancestors expressly."

Everyone bowed.

They were really curious in their hearts, and they didn't know what the ancestors meant for arranging the evacuation of the Cangqing Divine Realm.

Is it to avoid risks, but in other places, where is Cangqing Divine Realm safe?

The Cangqing Divine Realm had a powerful seal.

"By now, there is no need to hide from you. In fact, our Cangqing Divine Realm itself is a piece of the heart of the universe."

The white-haired old woman said.

what?

The others exclaimed, revealing extremely shocked expressions.

Even if Lu Ming had guessed, his heart jumped.

The Cangqing Divine Realm is really a fragment of the heart of the universe, that prehistoric ring...

Lu Ming already had the answer in his heart.

After a while, everyone calmed down.

"At the beginning, the empire was broken, and the heart of the universe was divided into five pieces. Now two of them have been discovered by the outer universe. I believe that the one in the eastern universe is about to belong. In the back, the powers of the outer universe will definitely think. Try to figure out the whereabouts of the remaining three pieces."

The white-haired old woman said.

In fact, the cosmic heart in the eastern universe already had a place and was obtained by Shan Ying, but the news hadn't come back so quickly. After all, Lu Ming returned by taking the ancient teleportation formation, much faster than the others.

Even if other people have powerful treasures, it will take at least a few years to return from the eastern universe to the western universe.

On the court, the faces of the people in the Cangqing Divine Realm became very solemn.

They finally understood why the ancestors arranged for the transfer.

The Cangqing Divine Realm is actually a fragment of the heart of the universe. In the future, once it is deduced by the power of the outer universe, it will definitely become a land of many cosmic competitions and chaotic battles.

The people in the Cangqing Divine Realm would definitely be wiped out.

Even if the Sky God Realm has a powerful seal, it may not be able to stop it from facing so many powerful universes outside.

Once the seal is broken, it will be a disaster.

"Ancestor, once the hearts of the five universes are obtained by the outer universe, what will happen?"

Someone asked.

"The heart of the universe is the foundation of the universe and the core of the rules and order. Once it is acquired by the outer universe, it will be brought out of the primordial universe, and the primordial universe will move to the Age of Doom and become a place where you can't practice at all, even us. Practitioners who have already achieved something will also regress in their cultivation base. It is hard to say how far back they will be..."

The male ancestor sighed.

The faces of the people at the scene were very ugly.

Once that happens, the prehistoric universe will really cease to exist.

No one can practice, so what is the future?

"Five pieces of the heart of the universe, at least one must be kept in order to maintain the operation of the universe and form a cultivable environment. Although it is impossible to give birth to immortal figures, at least under the immortal Dao, it can be continuously produced."

"But if the heart of the universe can't be kept, then the wild universe is really over."

The old white-haired woman also sighed.

"Ancestor, if the heart of the universe really cannot be kept, can we take the people and leave the prehistoric universe and go to other universes?"

Someone asked.

"It is too difficult to cross the universe, and the price to be paid is also great. Maybe a few people can, but it is impossible for so many people of our race to cross the universe and go to other big universes together. The universe may not accept it either."

The male ancestor explained.

"Why go to other universes, in my opinion, it is enough to keep the Cangqing Divine Realm to your death. As long as you keep the Cangqing Divine Realm, you will not enter the Age of Domination."

"Yes, Cangqing Divine Realm is our home, and we must not lose it."

Many people spoke with firm eyes and saw death as home.

"Well, the morale is good. The old guys of us have the same plan. We can't fight for other fragments of the heart of the universe, but the Cangqing Divine Realm must definitely be kept."

"The Cangqing Divine Realm has a powerful seal. During this period of time, several entrances and exits have been reinforced. As long as we work together, we may not be able to hold them."

The white-haired old woman said.

"Oath to coexist and die with Cangqing Divine Realm."

Everyone yelled at the scene.

Preserving the Cangqing Divine Realm means preserving the primordial universe, and also preserving a cultivable environment for later.

For myself, but also for future generations, for the entire ethnic group.

"it is good!"

The male ancestor nodded approvingly.

"The Cangqing Divine Realm is enveloped by a powerful seal, and now it is the Great Tribulation Period of the Origin, which seriously interferes with the secrets of the heavens. Even if the great powers of the outer universe want to deduct, it is difficult. Therefore, we still have decades to go. Prepare to take advantage of this time to reinforce the seal and strengthen several entrances and exits."

"In addition, those who should be transferred, continue to transfer, if we can't keep it, we can also leave some blood for the human race."

The white-haired old woman said.

Everyone led the way.

Chapter 5166: Sun court

We must prepare for the worst.

After all, they may face attacks from countless universes, and even with a strong seal, they may not be able to keep it.

Those who can transfer must transfer, and it's best to transfer everything under the original realm.

"Ancestor, at that time, will there be immortals coming from the outer universe to fight for the fragments of the heart of the universe?"

Lu Ming clasped his fists and asked.

According to the meaning of the ancestors, now because of the great calamity of the origin, the heavenly secret has been disturbed, and the Cangqing Divine Realm has a powerful seal, the power of the outer universe should not be deduced in a short time.

But once the origin of the catastrophe is over, it is difficult to conceal it, and most of it will be deduced.

At that time, without the great calamity of the origin, how many masters will come?

Will there be immortals?

"No, now the primordial universe is shattered and the heart of the universe is shattered. The true immortal figures will not come in, because the immortal figures are too strong, and the broken universe cannot hold up their energy. Once they move, they may It will burst the entire universe and lead to the destruction of the entire universe. The universe is truly completely destroyed, even if it is a fairy, it will not be able to hold it, and it will be destroyed together with the universe."

"So, under normal circumstances, immortal figures don't dare to come in. Even if they do, they can't exert their true immortal power."

The old white-haired woman explained.

"Can't use the power of the immortal rank? Then the little human king, there was also the battle between the human king's body and Dique, isn't it the power of the immortal rank?"

Lu Ming was puzzled.

The villain king, as well as the characters like Dique, are absolutely unimaginable powerful, even in the existence of the immortal level, they are extremely powerful.

At the beginning, they were clearly in a battle to give up their lives.

"No!"

The old white-haired woman shook her head and said: "They are in very poor condition. They are too far from the peak period. Although the battle was fierce, at most it only exerted the fighting power of the Nine Tribulations quasi immortal, and it was difficult to play the immortal. Power level."

"That's it!"

Lu Ming nodded.

Di Que's soul, divided into five, has been sealed for endless years, has not been wiped out, it is considered good, how much power can it exert.

And the villain king, there is not much difference, only a white bone, sitting on a broken warship, wandering in the ruins of the universe, the state is really bad, although not dead, there is not much power left. Up.

There is also the human body, not to mention, it is just a physical body, one is divided into five, suppressing the lack of truth, and consuming too much energy.

In that big battle, it didn't show any immortal combat power at all.

It's just that Lu Ming's cultivation base is too low, too different from them, and I can't feel it. At first, he thought it was a battle of the immortal rank, but now it seems that it is not the battle strength of the immortal rank.

Less than the battle power of the immortal rank, it is as terrible, how strong will the real battle strength of the immortal rank?

"If the immortals of the outer universe can't get in, wouldn't the ancestors easily suppress those invaders?"

Someone showed joy.

Because the ancestors of Cangqing Divine Realm were all immortal figures.

"No!"

The old white-haired woman shook her head, sighed deeply, and said: "Up to now, there is nothing to hide. The heart of the universe is broken, and it has a huge impact on the immortal figures. Our foundation is the heart of the universe. Therefore, in the universe After the broken heart, our cultivation base has been falling, and it has already fallen below the immortal level."

what?

Did the ancestor's cultivation base fall below the immortal level?

The faces of the people in the Cangqing Divine Realm were pale and unbelievable.

"This is no way. The broken heart of the universe may have little impact on the immortal level and below, but for the immortal level, the impact is huge. Staying in the prehistoric universe is the end, unless it is broken soon in the heart of the universe, Then leave the primordial universe, enter other universes, and slowly adapt to other universes in order to maintain cultivation."

"Therefore, only some people in the Primordial Universe who have not died in the battle will all leave the Primordial Universe."

The white-haired old man explained.

"Ancestor, is there no way to recover?"

Someone asked tremblingly.

"Unless the heart of the universe is reunited and the primordial universe is fully recovered, then our cultivation base will slowly recover, and we will come back to Immortal Dao."

The white-haired old woman said.

Everyone looked ugly.

Now that a piece of the heart of the universe cannot be kept, it is completely impossible to reunite the heart of the entire universe.

"The ancestors, those immortal figures in the forbidden land, will they also fall into the realm?"

Someone then asked.

"No, we will fall to the realm, because we have been cultivating in the primordial universe, and the foundation is connected with the primordial cosmos, and the creatures of the forbidden land, they are not the creatures of the primordial universe, and naturally they will not be affected by the broken heart

of the universe, but you can rest assured , Their immortal figures, even if they haven't fallen into the realm, dare not exert their immortal powers, they are no different from ours."

The white-haired old woman said.

"It's actually like this."

Lu Ming also had an ugly face, and years after years had passed in his mind.

It is said that there are immortals in the Yaxian clan, but now it seems that they are not real immortals.

Because the Yaxian tribe is also the creatures of the prehistoric universe, the ancestor of the Yaxian tribe is mostly the same as the ancestor of the Cangqing Divine Realm.

"Ancestor, I am a predecessor of the universe, as a member of the Yangjian, will the great universes of the Yangjian help, take shelter, and watch the desolation and destruction of the prehistoric universe."

Someone couldn't help but said.

"When the Heart of the Universe is not broken, maybe it will, now, definitely not. After the Heart of the Universe is broken, the Primordial Universe has been kicked out of the 'Sun Court', so naturally it will not be protected."

The white-haired old woman said.

"Yang Ting?"

Many people were puzzled, and Lu Ming was the same, it was the first time he heard this term.

"Many of you may not have heard of Yang Ting, so I will tell you in detail that Yang Ting, in short, is an alliance of the big universes between the Yangs."

"In the earliest days, it was to deal with the invasion of the Underworld, led by the top ten universes, supplemented by other universes, forming a huge alliance."

"In this way, the resources of the Yang can be integrated to cultivate the strongest Tianjiao, and the power of the various universes in the Yang can be mobilized to contend with the Yin world."

"The court lord of Yang Ting is the patriarch of the Cangtian clan, plus some other great powers of the universe as deputy court lords. He has promulgated a series of laws. All the big universes that join Yang Ting must act in accordance with the laws. Of course You will also receive the shelter of the Sun Court. In this way, the power of the tens of thousands of universes in the sun can be twisted into one, and the combat power will be greatly increased."

"You know, before the establishment of Yang Ting, the universes were in their own hands, with a basin of scattered sand, let alone joining hands. Very often, they would fight each other in order to compete for resources. In that way, where they could compete with the Yin world, they would still be caught by the Yin world. Hold the opportunity and break each one, and the vast universe will be destroyed."

"After the establishment of Yang Ting, it was changed..."

Chapter 5167: A ray of hope

After the white-haired old woman's explanation, everyone had a general impression of Yang Ting.

The Yang Ting is an alliance of the universes between the Yang, integrating resources, integrating power, and confronting the Yin world to avoid a mess of sand.

At the same time, a series of laws are formulated. Anyone who joins the universe of Yang Ting must abide by these laws, and at the same time, they can also be protected by Yang Ting.

In the Yang Court, there is a court master who is assumed by the chief of the Cangtian clan, and there are several deputy court masters, all of whom are the top masters in the Yang room.

In addition to the chief and deputy chief of the court, there are also some elders who hold great power in the Yang Ting.

However, not all universes can join the Yang Ting. If you want to join the Yang Ting, you must have conditions.

One of the most important conditions is that this big universe must have a 'immortal'.

Only with the birth of the 'Xian' universe, and the power of immortality, can they join the Yang Ting, share the resources of the Yang Ting, and also receive the shelter of the Yang Ting.

And those big universes that have not been born with 'fairies' can only be attached to other powerful big universes, so as to avoid being invaded by the underworld.

"At the beginning, our primordial universe was also an important member of Yang Ting. It was powerful. There were several peerless powerful men who served as elders in Yang Ting. But now, the heart of the universe is broken and the universe is in ruins. We stay here. The immortal figures who descended also fell into a realm. According to Yang Ting's laws, they were automatically removed from Yang Ting, and they were no longer protected by Yang Ting..."

The old white-haired woman sighed deeply, her tone full of helplessness.

What a glorious primordial universe, it has overwhelmed the universe, and in the vast sun, only ten universes can overwhelm one end of the primordial universe.

And at that time, countless people believed that by giving the Primordial Universe some more time, they would surely be able to rush to the top ten in the sun.

It's a pity that such a powerful universe once collapsed...

"Then how can I enter the Yang Court again?"

Someone asked.

"A new fairy is born."

The old white-haired woman said: "According to the law of Yang Ting, rise from the ruin, resurrect in the deadly silence, and give birth to a brand new immortal. He will automatically enter the Yang Ting and become a member of the Yang Ting, but..."

The white-haired old woman did not continue, and everyone was silent. They all understood what the white-haired old woman meant.

In this situation, it is almost impossible to give birth to a new immortal figure.

Because, if you want to prove the Tao to become immortal, the heart of the universe must be complete.

It must be based on the heart of the universe in order to prove Taoism and become immortal.

But now, the heart of the universe is broken, the outer universe is strong, and two of the five pieces of the heart of the universe have fallen into the hands of others. It is almost impossible to reunite the heart of the universe.

In this way, a vicious circle is formed. Without a complete heart of the universe, immortals cannot be born, and without immortals, one cannot join the sun court and get shelter, and the primordial universe will continue to decline.

Of course, some top-level Tianjiao can leave the primordial universe and go to the outer universe to become immortals, but that immortality is based on the outer cosmos, not on the primordial universe. It is not an orthodox fairy of the primordial universe and it is difficult to get sun Recognized by court regulations.

Everyone was silent, feeling a deep sense of helplessness and powerlessness.

This is the sorrow of the weak.

In the final analysis, the power is too weak.

"Okay, what should be said has already been said, the cause and effect, you already understand, the next time, be prepared, no matter what, we must keep the heart of the universe in the Cangqing Divine Realm. In this way, the great universe can have A glimmer of life, a glimmer of hope."

The white-haired old woman said.

After finishing speaking, the white-haired old woman looked at Lu Ming again and said: "When it is really impossible, we old guys will find a way to send a few top talents to leave the prehistoric universe and go to the outer universe. Lu Ming, you are one of them. In the future, if I can prove Dao and become immortal, try my best to regain the heart of the universe. In this way, I can also have hope in the prehistoric universe."

"senior..."

Lu Ming was silent, not knowing how to speak.

He knew that this was the last resort of the ancestors, and the worst plan.

Once all the fragments of the heart of the universe fall into the hands of the creatures of the universe, the primordial universe will enter the age of the end of the law, and it is inevitable that it will not be able to cultivate and will completely decline.

They sent a few Tianjiao away, this is to leave the fire of hope.

If someone can become a fairy in the outer universe, even if they are not the orthodox fairy of the wild universe, they cannot be recognized by Yang Ting, but as long as that person has the heart, he can help the wild universe and regain the fragments of the heart of the universe.

Although it is difficult, it is a way.

But now, Honghuang Universe is most likely to do this step, and only Lu Ming.

.....

Lu Ming left with great thoughts and returned to his place of residence.

"Qiuqiu, do you think the continent in the prehistoric ring looks like a fragment of the heart of the universe?"

Lu Ming took out the prehistoric ring, watched it carefully, and asked about the ball.

The ball has often entered the prehistoric ring and is very familiar with the atmosphere of the prehistoric ring.

"Like, I dare to conclude that the continents in the prehistoric ring are fragments of the heart of the universe."

Ball fairway.

"That seems to be true."

Lu Ming said, he actually had a judgment in his heart long ago, asking about the ball, just want to further confirm it.

"Lu Ming, what are you going to do?"

The ball asked.

"Find a dangerous and hidden place to hide, and you can't stay in the realm of Cangqing God."

Lu Ming said.

Hong Huangjie stays in the Cangqing Divine Realm, and if the Cangqing Divine Realm is lost, it will be overwhelmed, and both cosmic hearts will be lost.

However, it is also very dangerous if it is carried with Lu Ming. Once it is deduced by the power of the outer universe, he will not be able to keep it.

"Where do you want to hide?"

Asked the ball.

"Of course the more dangerous the better, even if the specific coordinates are deduced by the power of the outer universe, they will have to pay the price if they want to get them."

"But what I am worried about is that if I leave the Azure God Realm now, I will be deduced by the power of the outer universe..."

The Cangqing Divine Realm has a seal. Although it cannot be completely isolated and deduced, it can also have a certain effect.

But if he left the Cangqing Divine Realm with the Honghuang Ring, without the seal of the Cangqing Divine Realm, would he be deduced by the power of the outer universe soon?

Once he was pushed forward, countless strong men from the outer universe swarmed in, no matter how strong he was, he couldn't keep it.

"It can be put in my stomach. After I become the source, my body will transform, and my stomach will become a space of its own. It can digest the magic weapon, and can also isolate the world. I can put it in

my stomach. I am sure that before the source of the catastrophe has passed. , Will not be deduced by the power of those outer universes."

Ball fairway.

"Really?"

Lu Ming's eyes lit up.

"Of course it is true. Since I entered the source, my body has transformed, and a lot of information has been poured out of my body inexplicably. There is absolutely nothing wrong with it. It can even isolate the secrets of heaven than the seal of the Cangqing Divine Realm."

"However, the great abilities of the outer universe are unfathomable and powerful. After the tribulation of the origin, I am not sure that I can isolate them from their deductions. Of course, if my strength enters the immortal, it may not be completely impossible. ."

Ball fairway.

Chapter 5168: Taishang Xiandu

With the ball, Lu Ming was pleasantly surprised and his eyes lit up.

In this way, even if he leaves the Cangqing Divine Realm, he is not afraid of being deduced in a short time.

Moreover, according to Qiuqiu's statement, even if the origin of the disaster is over, it should be deduced after the Cangqing Divine Realm.

In this case, Lu Ming doesn't need to rush to send Hong Huangjie into a dangerous place.

"Qiuqiu, you have stepped into the quasi cents, is it really possible to completely isolate the secret and block the deduction?"

Lu Ming asked.

"This...I'm not completely sure, but one calamity and two calamities are quasi immortal, four calamities and five calamities, it should be possible."

The ball muttered.

Mainly, those great abilities of the outer universe, he also didn't know what realm the other party had reached.

The gap is too big to grasp.

"The ball, these source-level magic soldiers, are given to you, you can enter the quasi-celestial level as soon as possible."

Lu Ming waved his hand, and a large number of source-level magic soldiers appeared.

Although he was not sure about the ball, he still decided to give it a try and let the ball break through the quasi cents as soon as possible.

"No way, source-level magic weapon, it's already very difficult for me to evolve, at least I must be a quasi-immortal soldier."

The ball shook his head.

Lu Ming was speechless.

Quasi fairy soldiers, where to find them.

Finally, Lu Ming gritted his teeth and took out the Renwang Broken Sword.

Unexpectedly, the ball's head shook harder, and said: "No, I was lucky to be able to swallow the essence of Renwang's Broken Sword last time. It is the result of Renwang Broken Sword's mercy. If I swallow it again, Renwang Judging the sword will be angry, I will die without a whole body..."

"Then we can only go to those ruins to find quasi-celestial soldiers."

"Go, let's leave the Cangqing Divine Realm and go to those ancient ruins to meet chances."

Lu Ming said.

Lu Ming hadn't planned to stay in the Cangqing Divine Realm, and the original catastrophe had completely passed in less than a hundred years. This period of time was very important to Lu Ming.

Because the current prehistoric universe, with Lu Ming's combat power, is almost the pinnacle of the handful.

Those who can play against him must at least be on the original list.

Therefore, Lu Ming planned to take advantage of this time to explore the major relics and obtain resources as much as possible.

Now that the ball needs quasi-celestial soldiers, these relics need to be explored.

As for asking for quasi-celestial soldiers from the Cangqing Divine Realm, Lu Ming had thought about it, but it was rejected.

Quasi-immortal soldiers are too precious, and the Cangqing Divine Realm has been sealed before, and there is absolutely no quasi-immortal soldiers.

Even if there are, there are certainly not many, and most of them are in the hands of those quasi-immortals.

Moreover, the few quasi-celestial soldiers may not allow the ball to evolve.

A large number of quasi fairy soldiers are required to keep the ball evolving.

If the ball can really isolate the secret of heaven, it will be able to save a piece of the heart of the universe.

Lu Ming handed Hong Huang Jiu to the ball, and the ball swallowed Hong Huang Jiu into his mouth. As expected, Lu Ming suddenly lost contact with Hong Huang Jiu.

One person, one ball, left the Cangqing Divine Realm, and chose a direction to fly.

Lu Ming remembered that in this direction, the distance was not very far, there was a huge ruin.

This ruin was occupied by multiple creatures in the outer universe, and they wanted to break through the ruins' forbidden formations and seize the treasures remaining inside.

However, this relic is very dangerous, and the forbidden formation is very powerful, and it should have been left over by a powerful orthodoxy in the last epoch.

Soon after, Lu Ming came to this ruin.

This is a majestic mountain, larger than a planet, suspended in the void.

There are many creatures around the mountain.

There are many creatures who are observing around this mountain, and they are obviously masters who are proficient in the formation, studying the method of breaking the formation.

Lu Ming revolved the Demon King Monarch pattern, and suddenly the mountain changed in Lu Ming's eyes, and dense runes appeared on the surface of the mountain.

These runes are intertwined with huge and terrifying formations.

It is conceivable that these formations were absolutely strong in their heyday, and even after endless years, they still retained their powerful power.

During this period of time, many creatures in various universes have fallen under this formation.

Lu Ming ran the Demon King Emperor Run with all his strength, trying to find the flaw.

"There are few flaws, but you can try."

Finally, Lu Ming took the ball and rushed towards the mountain.

"Who? We have already taken care of this place, and we will leave immediately."

Someone drank.

"roll!"

Lu Ming was too lazy to talk nonsense and shot strongly.

Today, in the original realm, there are not many people who can rival Lu Ming. Lu Ming shot through the siege and rushed into the mountains.

"The mountain is full of forbidden formations, rushing in is just looking for death."

Someone drank coldly.

This big mountain is indeed very dangerous, even if Lu Ming has the Demon King Emperor's pattern, it is dangerous.

Half a day later, Lu Ming rushed out of the mountain, covered in blood, and there were multiple wounds on his body. The body that had been torn apart by the terrible formation before, if not for his strong vitality, would have to be seriously injured if he was not dead.

Even so, it still suffered a lot.

The point is that he didn't go to the depths of the mountains, and there were even more terrifying formations in the depths of the mountains.

"unfortunately..."

Lu Ming sighed.

This trip was dangerous, but didn't get any useful treasures, not to mention the powerful quasi-celestial soldiers, the source-level magical soldiers didn't get much.

Not all relics have treasures left behind.

At the time the primordial universe was invaded, and some powerful men from the Yin world entered. Many treasures were taken away by the strong men in the Yin world. Some of the ruins were completely searched by the strong men in the Yin world.

There are only a few treasures left.

Lu Ming left here a little disappointed, looking for other relics.

In the following year, Lu Ming continuously explored several relics and almost died several times, but he received very little. The quasi fairy soldiers only obtained one, and it was still broken, and he ate the ball.

The main reason is that he is not strong enough. There are ruins of broken quasi-celestial soldiers. There are definitely more treasures in the depths. Unfortunately, he can't get in. In order to get the broken quasi-celestial soldiers, he almost died and was almost killed. Law obliterated.

If he hadn't relied on the Demon King Emperor's Pattern and the Human King Broken Sword, he wouldn't be able to get out.

"The prohibition of the Supreme Immortal Capital suddenly weakened today, and it seems that it is about to collapse."

"What? There is such a thing. The Supreme Immortal Dynasty is the top orthodoxy of the prehistoric universe. The Supreme Immortal Capital left behind is definitely not trivial. There have been strong prohibitions before, how could it suddenly decline?"

Around a ruin, Lu Ming heard many people talking.

"Any formation can't be immortal, and it will weaken over time. Those forbidden formations in Taishang Xiandu are estimated to have reached a critical point and will automatically collapse, which is normal.

"This is a relic left by a top orthodoxy. There may be a lot of treasures in it. Let's go and take a look."

"Quickly, it's too late."

A large number of creatures are heading towards the Supreme Immortal Capital.

Nowadays, a ruin without a forbidden formation is an opportunity for the Origin Realm.

Once the great calamity of the origin is over, the quasi immortals will come, and they will lose their share.

Chapter 5169: Within Xiandu

"Tai Shang Xian Dynasty, that terrible Xian Dynasty that is as famous as Qingyang Xian Dynasty?"

Lu Ming's heart moved.

In the last epoch, the human race had many terrifying traditions. The Qingyang Immortal Dynasty and the Taishang Immortal Dynasty were the top-level traditions among them.

This kind of Taoism has an unfathomable heritage. Legend has it that there are more than one immortal figure, and there is a king of immortality.

The Taishang Xiandu, as the name suggests, is the capital of the Taishang Xian Dynasty.

Nowadays, not only is the present world, but the restraining formation on it is actually about to fall apart.

Lu Ming was also very excited, this kind of opportunity should not be missed.

If there are treasures left in the Supreme Immortal Capital, with his combat power, he will be able to gain something.

Just like what others have said, this is a great opportunity for the Origin Realm, because when the Origin Tribulation is over, the quasi immortals of the various universes will surely swarm in.

At that time, nothing will happen to their original state.

Lu Ming no longer hesitated, and hurried towards the Supreme Immortal Capital.

When Lu Ming rushed to the area where the Supreme Immortal Capital was located, he found that there was already a sea of people, the number was astonishing, and it was not much worse than the original battle for the fragments of the heart of the universe.

The eyes of most creatures are all looking in one direction.

Lu Ming followed everyone's gaze.

A void in front of it is constantly twisting and hazy. In the hazy void, you can see the shadow of a giant city.

The giant city is huge, but also very hazy, not real.

Lu Ming mixed in the crowd and learned that this was because the forbidden formation of the Supreme Immortal Capital had not completely collapsed.

Originally, the Supreme Immortal was sealed in the depths of the void, and there was no clue from the outside. Now it is because the forbidden formation on it is about to collapse, so the Supreme Immortal will emerge.

It's just that it hasn't fully emerged yet, and now it's still impossible to get in. Once it gets close, it will be attacked by the forbidden formation that has not completely collapsed.

"The Supreme Immortal Capital, what is the relationship with the Supreme Immortal City?"

Lu Ming pondered.

At the beginning, a great immortal city appeared in the starry sky of the universe, attracting the fight between the heavenly army and the heavenly palace.

The masters of the two sides entered it to compete for the opportunity. Later, Lu Ming defeated the heroes and defeated Ye Qiuxian for the first time to get the first place. It was also at that time that Lu Ming condensed the original seed.

Moreover, in the Supreme Immortal City, he also cultivated the future body with the technique of cutting the three corpses. The future body has been cultivating in the Supreme Immortal City. Following the Supreme Immortal City, he entered the depths of the ruins of the universe, which has not reappeared so far.

Taishang Xiandu and Taishang Xiancheng both have the word "Taishang". Lu Ming didn't think it was a coincidence. Most of them had an internal connection.

"It's been more than ten thousand years. The future body hasn't appeared yet? Maybe this time when I travel to the city of immortals, I will see the future body."

Lu Ming thought, this is a feeling in the dark.

Thinking of the future body, he thought of the past body.

He used to be in a copper coffin, and the copper coffin is still guarded by him somewhere in the prey.

Since the Great Tribulation of the Origin, the copper coffin has been densely sealed, and there is still no intention to untie it.

It seems that only when the origin of the catastrophe is completely over, the seal of the copper coffin will be completely unlocked.

Don't know what happened to being in the copper coffin in the past?

Moreover, Lu Ming was also very curious about what was inside the copper coffin. It is estimated that he would only be able to understand all of this after he came out.

Taishang Xiandu's forbidden formation, in the process of self-collapse, there is no way to enter, only to wait.

A large number of creatures surrounded the surroundings, waiting quietly.

In a blink of an eye, a month passed.

There are more and more creatures in this area, and masters from other universes are coming over all the time.

Rumble!

In the direction of Taishang Xiandu, there was a violent roar, and there was a burst of bright sunlight.

Everyone moved in their hearts, knowing that it was the last juncture.

Those rays of light were the rays of light emitted by countless runes, but this was the last brilliance. Then, those runes began to dim, and then collapsed.

A huge ancient city, clearly greeted everyone's eyes.

The ancient city is really huge, like a continent, with a wall of hundreds of millions of miles, and ordinary creatures in front of it, like dust.

Of course, after reaching the original state, the size of the creature doesn't matter anymore, it's all imaginary.

Because many creatures can be large or small, they can transform into a body larger than a planet with a movement of their minds.

All creatures, choose the most comfortable body type, and will not blindly seek big.

"Broken giant city."

Lu Ming's heart moved.

When the Supreme Immortal Capital is clearly revealed, it can be clearly seen that this ancient city is broken and incomplete.

In some places, the city wall was shattered and a large hole appeared, which looked like a palm print.

Some places, like sword marks, were cut through by sword light.

Obviously, there was a terrible battle here.

The immortal Taishang Xiandu was broken.

"go!"

The restraining formation was completely disintegrated, and countless figures rushed towards the Supreme Immortal City.

Lu Ming observed with the demon king's emperor pattern, and indeed did not see any rune formations, and found no danger. He followed the crowd and rushed towards the capital of the Supreme Immortal.

The Taishang Immortal Capital is too huge. Although their number is large, compared with the Taishang Immortal Capital, they still enter the sea like dust.

The crowd dispersed and rushed everywhere.

Lu Ming also chose a direction and rushed away.

The interior of Taishang Xiancheng is like a world, with lofty mountains and rivers, but it has dried up.

There are also all kinds of ancient buildings, but many of them have collapsed or been blown up.

Lu Ming's figure kept flickering, his spiritual sense radiated, and he kept scanning, trying to search for possible treasures.

"Well, there are dead bodies..."

Lu Ming found a huge dilapidated palace with some corpses lying backwards.

Lu Ming stepped out and entered this palace.

These corpses, dressed in ancient clothes, haven't decayed yet, but their bodies are shriveled, like dry corpses.

Obviously, they were all left over from the last era.

"Some of them are filled with cold breath, they are creatures of the underworld."

Lu Ming judged.

Among the corpses, some were from the human race, obviously from the Supreme Immortal Dynasty, while some were from the underworld.

Obviously, it was the master of the underworld invading the Supreme Immortal Dynasty, and a great war broke out.

This is somewhat similar to Zixiao Dongtian, where there is also a human race battle between the Yin Realm and Zixiao Dongtian, leaving a large number of corpses.

However, the corpse here is not alienated.

"Source-level magic weapon!"

Lu Ming swept his eyes and found that there were several source-level magic soldiers remaining here, damaged and intact.

Lu Ming waved his hand and put it away, and then looked around, and when he found nothing else, he rose into the sky and planned to leave.

But Lu Ming suddenly tightened his muscles, his hair stood upside down, and a biting chill rose from his heart.

A terrible sense of crisis suddenly appeared.

Without any hesitation, Lu Ming's figure suddenly fell.

A cold light flew over Lu Ming's head.

Chapter 5170: Broken knife and puppet head

A stream of light flew over Lu Ming's head, and was evaded by him dangerously and dangerously.

It is an arrow, composed of energy, terrifying power.

what!

Not far away, there was a scream, Lu Ming saw that a strong man of the late origin was shot and exploded by an arrow, and his body and spirit were destroyed.

"It's that arrow tower!"

Lu Ming successfully captured the source of the arrow.

In the distance, there is a mountain peak with an ancient arrow tower made of bronze, covered with patina, and a large piece broken on one side.

Before, Lu Ming had seen this arrow tower. He thought it was useless. It had been destroyed. Unexpectedly, he could still launch an attack.

This kind of arrow tower was obviously built by Taishang Xiandu to deal with invading enemies.

If someone attacks Taishang Xiandu, they will be attacked.

In its heyday, it was absolutely terrifying, even if it was half ruined, you could shoot and kill the source at will.

Even Lu Ming felt a strong crisis.

Lu Ming had no doubt that the intact arrow tower might be able to shoot the immortal.

call out!

An arrow shot towards Lu Ming.

There is more than one arrow tower. In fact, in this area, there is a row of arrow towers, which are all glowing at this time, and arrows are constantly shooting out.

Lu Ming used the source technique, and a pair of wings appeared behind him, quickly instigating, avoiding this arrow.

But if he can avoid it, it doesn't mean that others can avoid it.

Ahhhh...

People kept screaming and being shot by arrows, whether it was in the middle, late, or peak of the origin, as long as they were shot, without exception, all their bodies would burst and their body and spirit would be destroyed.

Everyone did not expect that the forbidden formation was broken, and there was still a terrible crisis inside.

The relics left by this powerful orthodoxy are indeed crises and no small matter.

"Go around these arrow towers."

"After all, these arrow towers are half destroyed, and the speed of condensing energy is very slow, there are gaps, and they fly over."

One after another roar sounded.

A large number of figures flew in all directions.

However, there were still people who were shot by arrows and fell on the spot.

Of course, more creatures rushed through the arrow tower and disappeared in the depths of the Supreme Immortal Capital.

Lu Ming avoided five or six arrows before and after, and also avoided these arrow towers.

The crowd dispersed completely and disappeared into the vast Immortal City of Supreme Being.

Lu Ming flew in one direction, looking for treasures, but unfortunately, he did not find any treasures that were too precious.

Although a few source-level magical soldiers were found, the source-level magical soldiers were of no great use to Lu Ming.

It's useless to eat the ball.

As for the quasi-celestial soldiers, they didn't even see it.

Quasi fairy soldiers, after all, are not comparable to source-level magic soldiers in value.

Not all top source-level magical soldiers can follow the master through the immortal catastrophe and become quasi-celestial soldiers.

In fact, there are only a handful of people who can follow the master through the immortal calamity and become quasi-celestial soldiers.

Most of the top-level source-level magic weapons, the foundation is not deep enough, or the material level created is not enough, they will be completely destroyed in the immortal robbery.

To be able to survive the immortal catastrophe, the material is the most important, it must be the top material, a peerless treasure.

Therefore, quasi-celestial soldiers are rare.

In a blink of an eye, Lu Ming searched this Supreme Immortal City for several days, but did not find a quasi-celestial soldier.

In the past few days, Lu Ming has also gone deeper and deeper into Taishang Xiancheng and entered the deepest part of Taishang Xiancheng.

Except for the arrow towers that he encountered, he didn't wait for other dangers.

"Well, there is a huge mountain there."

Lu Ming looked into the distance.

Ahead, I don't know how far away, there is a huge mountain, huge, it has been towering into the depths of the sky, very far away from Lu Ming.

The strange thing is that I was outside of Taishang Xiancheng before, why I couldn't see it.

This huge mountain is definitely far higher than the city wall. It stands to reason that you should be able to see it outside the ancient city, but in fact, you can't see anything before.

It can be seen that around the giant mountain, there is a light curtain covering the giant mountain.

"The front should be the central area of the Supreme Immortal City. There is a huge mountain. It is definitely not simple, and there seems to be a rune formation covering it. It is definitely not simple. Go and see."

Lu Ming's figure flashed, and he approached the giant mountain.

Not long after, Lu Ming finally approached the Giant Mountain.

The huge mountain is huge, shrouded by a light curtain.

Around the giant mountain, there are eight ancient cities.

This is a city within a city.

However, the eight ancient cities all collapsed and were in shattered condition.

"Well, a corpse."

Lu Ming saw a corpse in a city, and suddenly attracted Lu Ming's eyes.

Because, in the surrounding cities, there is only one corpse here, which is particularly eye-catching.

This is a human race man with a burly figure, wearing a battle armor, holding a broken knife, half kneeling on the ground, and using a half battle knife to support his body.

There was a **** movement between his eyebrows, and wisps of black air came out in it.

There is also a big hole in his abdomen.

This was the fatal blow, completely defeating this person's broken roots and soul.

This person is not physically corrupt, but he can't die anymore.

Not far from this person, there is a huge head.

Not a body of flesh and blood, but made of bronze, very huge, like a big mountain.

"Metal life? Or the head of a puppet?"

Lu Ming's thoughts changed sharply.

This bronze head did not exude the aura of the yin world, it should also come from the Immortal City of Supreme, and it is most likely an extremely powerful puppet.

But what attracted Lu Ming's gaze most was the half sword in the figure's hand.

"The quasi fairy soldier is definitely a quasi fairy soldier."

Lu Ming's eyes brightened.

The broken knife exudes an amazing breath, far surpassing the top source-level magic weapon, and it is definitely a quasi-immortal soldier.

Moreover, among the quasi-celestial soldiers, the ranks are all considered high, and at least they have survived several times of immortal calamity.

"I want to eat, I want to eat..."

The ball is already a little impatient.

"Ball ball, your good luck has arrived."

Lu Ming smiled and rushed towards the figure.

boom!

Suddenly, on the top of Lu Ming's head, with violent energy, a black gold palm, as large as a mountain, covered Lu Ming.

Lu Ming's body seemed to be locked in by an air current.

"Blast me!"

Lu Ming drank in a low voice, the power of the taboo revolved, blasted the air current, and blasted upward with his fist.

Quan Jin collided with the black and gold palms, bursting out with an earth-shattering roar.

Lu Ming's figure flickered and drifted back.

Then the black and gold palms also retracted.

"It's interesting to be able to take my hand."

An old voice sounded, and a figure emerged from high in the sky.

This is an old man, adult type. The strange thing is that his skin is black and gold, like black metal.

He stood high in the sky with his hands on his back, looking down condescendingly, with a faint smile.

Look at the breath, it should come from the Yang room.

Lu Ming's eyes narrowed slightly, and he could feel a terrible threat in this person.

This person can threaten him.
