

D Emperor 5181

Chapter 5181: Cangqing Divine Realm, the start of the war

The three of Liu Song informed that the Cangqing Divine Realm had been completely sealed and could not enter or leave. At the same time, several ancestors ordered them not to go back.

In the Cangqing Divine Realm, most of the existence above the original origin remained in the Cangqing Divine Realm, coexisting and dying with the Cangqing Divine Realm, guarding the Cangqing Divine Realm.

Only a small number of masters above the original source moved here.

For example, Liu Song, Yao Ye, and Feng Qiushan are all very talented, not very old, and have good potential. They can be regarded as saving the fire for the Cangqing Divine Realm, and at the same time, they are not weak and can protect those in the Cangqing Divine Realm. A tribe with a low cultivation base.

Lu Ming was helpless, it seemed that Cangqing Divine Realm could not go back for the time being.

At the same time, he is also a little worried.

Now that ten years have passed since the Great Tribulation of the Origin, the great abilities of the outer universe must be fully deducing the remaining fragments of the heart of the universe.

Although Hong Huang Jie is placed in the belly of the ball, it can isolate the secret to a certain extent, but it is not guaranteed when it will be deduced.

"Here, I can't stay for a long time, how should I deal with the prey."

Lu Ming frowned.

Continue to stay here, if the prevalent precept is pushed, it will only hurt others.

"Unfortunately, Senior Feihuang's clone left after waking up, and was nowhere to be seen. Otherwise, I could hand over the Precious Ring to her, she would definitely have more ways than me."

Lu Ming sighed in his heart.

At this moment, Liu Song's expressions suddenly changed, and they took out the sound transmission jade symbols to watch them.

"No, there is a strong man in the universe, who has gone to the Cangqing Divine Realm."

The three exclaimed at the same time.

Lu Ming's heart was also abrupt, and he asked, "What's the matter?"

"Although we can't return to the Cangqing Divine Realm, we have left a monitoring formation in the void outside the Cangqing Divine Realm, and we always observe the situation in the Cangqing Divine Realm. Just now, I saw that there are a large number of masters in the Great Universe. Outside the Cangqing Divine Realm."

Feng Qiushan explained quickly.

"Let's go and see!"

Liu Songdao.

At the moment, they quickly returned and came to a large hall.

In the middle of the hall, there is a huge mirror, which reflects a picture.

At this moment, there were at least dozens of people in the hall, all in a hurry.

Everyone's eyes are staring into the mirror.

What was reflected in the mirror was a cosmic void, and Lu Ming could see that in the distance were the original entrances of the Cangqing Divine Realm.

At this moment, outside the entrance of Cangqing Divine Realm, a group of people appeared.

"It is the tenth largest universe in the underworld, the people of the Styx universe."

Lu Ming recognized it for the first time.

Because Lu Ming had seen and dealt with some of them.

Of course, more are strange faces.

"This is the Cangqing Divine Realm?"

In the Great Universe of Styx, someone spoke, and the voice came over clearly.

"The ancestor has already deduced that this Cangqing Divine Realm is the third piece of the heart of the universe. These guys must have been prepared long ago and have been completely sealed."

"Hmph, how can we completely seal it? How can it stop our footsteps and break it open, all the human races inside are destroyed."

People in the Styx Universe spoke one after another, their voices indifferent.

At this moment, a middle-aged man suddenly turned his head and looked at Lu Ming and the others.

To be precise, he looked at the area where the monitoring array was located.

Humph!

The middle-aged man snorted coldly, his eyes burst into darkness.

With a touch, the picture on the mirror disappeared.

Obviously, the monitoring formation was broken.

The faces of everyone at the scene were extremely ugly.

What should come is finally here.

The people in the outer universe finally deduced that the Cangqing Divine Realm is the heart fragment of the universe. It is conceivable that the Cangqing Divine Realm is bound to fight against the sky next.

"Go and see!"

Liu Songdao was obviously uneasy.

"With our strength, going back is also going to die."

Someone sighed.

Needless to say, there must be quasi-celestial powerhouses in the Styx universe, and the number will not be small.

With their strength, facing the immortal, they couldn't stop a move.

"We are not going back and desperate, mainly because we can't rest assured. When we go back and check the situation, we will hide in the distance and will not come close."

Liu Songdao.

"I agree. We are hiding in the distance and we can tell the situation back at any time."

Yao Ye also said.

In the end, Liu Song and other five people were sent to Cangqing Divine Realm to observe the situation.

"Everyone, I will go with you."

Lu Ming said.

He originally planned to leave here, and at the same time, he also wanted to know how the battle of Cangqing Divine Realm would eventually go.

Liu Song and others nodded but did not refuse.

Everyone set off immediately.

Nowadays, the primordial universe is constantly recovering, the rules and order are becoming more and more perfect, and the environment has undergone earth-shaking changes from the original ruins of the universe.

At the beginning, the rules and order of the ruins of the universe were chaotic, and even wormholes were difficult to open.

But not now. Not only is the wormhole easy to open, but it is also stable and can last for a long time.

Therefore, in the current prehistoric universe, wormholes are vertical and horizontal, and travel has become faster and easier.

Lu Ming and the others flew some distance away, and there were many wormholes. They took the wormhole and hurried to the Cangqing God Realm.

.....

Outside the Cangqing Divine Realm.

There are at least hundreds of masters in the Styx Universe. Of course, most of them are in the Origin Realm, but there are also many experts at the Quasi-Xiang level.

"The Cangqing Divine Realm turned out to be the remnants of the Primordial Human Race. It turned out that you occupied a piece of the Heart of the Universe, but that's the end. We can take the initiative to open the seal and hand over the Fragment of the Heart of the Universe. We can keep you alive."

A middle-aged man in the Styx Universe looked at an entrance of the Cangqing Divine Realm and opened his mouth indifferently, his eyes seeming to penetrate the seal of the Cangqing Divine Realm.

However, his voice did not reach the Cangqing Divine Realm and was blocked.

Now, the Cangqing Divine Realm was completely sealed, and it was impossible to enter or exit, even if it was a quasi-immortal, it was impossible to enter or leave, let alone the sound of entering.

But, I can understand the shape of lips.

There are many people guarding the entrances and exits of the Cangqing Divine Realm. Through the seal, they can see the lips of the middle-aged man in the Styx universe and understand the meaning of the other person.

"Do you really want to kill all the fragments of the heart of the universe. If all the fragments of the heart of the universe are taken away, then the prehistoric universe will be completely abolished. In any case, we must keep a piece of the heart of the universe."

In Cangqing God's territory, an old man spoke. Of course, his voice could not be heard, but the other party could see the shape of his lips.

This old man is extremely old with a gully expression on his face. This is a quasi immortal who has survived from the last era.

"Leave a piece of the heart of the universe, do you want to recover? It's ridiculous, since the primordial universe has been blown up, then it doesn't need to exist anymore. Since you are stubborn, then the human race doesn't need to exist anymore, it should be wiped out."

The middle-aged man in the Styx Universe spoke with a cold voice, as if he was about to destroy the whole family. In his eyes, it was just a trivial matter.

"It's a mere seal, and I want to stop me from waiting, just break it."

Another master of the Styx Universe.

Chapter 5182: Completely sealed

The Styx Universe is very domineering, don't want to waste time, just start it.

They did not put the seal of Cangqing Divine Realm in their eyes.

They are quasi immortals, what kind of seal can stop them in the fragmented wild universe?

Many of the relics left over from the prehistoric period also have powerful forbidden formations or various seals, but weren't they broken in the end?

Bang bang bang!

A few figures stepped out, and an extremely astonishing breath erupted from their bodies. The void around them, like paper, collapsed instantly, forming a large swath of chaos.

Quasi-cent!

These people are all quasi immortals, their breath is shocking.

But just when these quasi immortals were about to take action, they suddenly stopped and looked in one direction.

Wow!

The void in that direction suddenly split open, and figures appeared out of nowhere.

These figures are also extremely powerful, all of them are masters.

"Holy Light Universe!"

The pupils of the people in the Styx Universe suddenly shrank.

"Holy Light Universe, what are you doing here?"

The middle-aged in Styx Universe said coldly.

They had already sent someone to block the surroundings before, and the voice they had just spoken couldn't be heard. Others shouldn't know what happened here, or that the Cangqing Divine Realm was a fragment of the heart of the universe.

"So far, there is nothing to pretend, do you think that only your ancestors can deduce that this is the Fragment of the Heart of the Universe?"

A person in the Universe sneered.

The faces of the Styx universe were gloomy.

Obviously, the power of the Shengguang Great Universe has also been deduced.

Originally, they wanted to make a quick battle and take this piece of the heart of the universe into their hands before the other big universes deduced that this place was the fragment of the heart of the universe.

Unexpectedly, the movements of Shengguang Great Universe were not slower than theirs.

They had just arrived here, and just said a few words, and the Shengguang Great Universe arrived.

"If that's the case, let's do it by your own ability!"

The middle-aged man in the Styx universe.

Since the Shengguang Great Universe has arrived, there is nothing to say, and in the end, it has to rely on the ability to speak.

It is impossible to back down on either side, and it is useless to say more.

The masters on both sides exploded and collided with each other, and the atmosphere suddenly became tense.

"The human race of the Cangqing Divine Realm, listen, we are from the Shengguang Great Universe, which is the eighth-ranked Great Universe in Yangjian, and you must have heard of it."

An old man of the Holy Light Universe, facing the direction of the entrance to the Cangqing Divine Realm, said: "The fragments of the heart of the universe are of great importance. They must not fall into the hands of the underworld, otherwise, they will only increase the power of the underworld. Therefore, you It is best to take the initiative to hand over the fragments of the heart of the universe to us for safekeeping."

"How shameless he is."

Many people scolded in the Cangqing Divine Realm.

They are extremely unhappy.

The people of the Shengguang Great Universe are really shameless enough. They just want to take the Fragment of the Heart of the Universe and say it straight. They actually say it is to stop the Underworld and prevent the Fragment of the Heart of the Universe from falling into the hands of the Underworld.

I really need to set up an archway when I become a biaozi.

"Since they are both Yangs, why don't you protect me and so on, so as not to be attacked by the people of the Yin world and lose the Fragment of the Heart of the Universe?"

Someone in Cangqing Divine Realm spoke.

Many people in the Universe sneered.

The legacy of these primitive human races is simply naive and ridiculous?

Let them take shelter and block the masters of the underworld?

Are you stupid?

There is no benefit, they will do it?

"The Primordial Universe has long been kicked out of the Yang Court and is not eligible for our protection. The old man said it last time and took the initiative to give us the Fragment of the Heart of the Universe, otherwise the Fragment of the Heart of the Universe would fall into the hands of the Yin Realm. , To strengthen their power, you will be the sinners of the ages, and the genocide will be unavoidable."

The old man from Shengguangda Universe sneered coldly.

Many people in the Cangqing Divine Realm wanted to swear.

He's so shameless.

"Hehe, it's said that you, the Great Universe of the Holy Light, have a holy sun on the surface, and secretly all hypocrites, really well-deserved reputation."

A master of the Styx universe sneered.

"Go ahead, lest nights have many dreams."

There was another person in the Styx universe.

The shot now is only to compete with the people of Shengguang Great Universe. If it is delayed, if there is no guarantee that other Great Universes will come, there will be more competition. It will be even more troublesome if you want to take the Fragment of the Heart of the Universe into your hands.

boom! boom! boom! boom!

There are a total of four masters in the Styx universe.

They stepped out, breathtakingly breathtaking, and when they turned their hands, four long rivers flew out, as if rushing to the entrance and exit of the Cangqing Divine Realm.

The four quasi immortals teamed up to strike, and the power was earth-shattering.

Four attacks, combined to bombard the entrances and exits of the Cangqing Divine Realm, there was a shocking roar. The surrounding void completely burst and turned into chaos. A series of terrifying spatial cracks formed, spreading to the distance, I don't know how much. long.

However, the entrance and exit of the Cangqing Divine Realm did not break open, but ripples appeared.

"What a strong defense!"

At the scene, whether it was Styx Universe or Shengguang Universe, their expressions changed.

The four quasi immortals took action, and they were all quasi celestial beings above the four calamities, and they couldn't break the defense of the Cangqing Divine Realm.

"Break it for me!"

"Break!"

The four quasi-immortals of the Styx Universe burst out with all their strength, urging their combat power to the pinnacle, and launched the strongest blow.

The surrounding space continued to explode, being lifted like turf, but still did not break the seal of the Cangqing Divine Realm.

"It seems you can't do it, you can help them."

The old man of Shengguangda Universe, ordered several masters of Shengguangda Universe.

On the side of the Great Universe of the Holy Light, there were also four masters stepping out, the power of the source of the Holy Light rushed into the sky, and turned into four war swords, each of which was hundreds of millions of miles long, and they cut to the entrance and exit of the Cangqing Divine Realm together.

The eight masters joined forces, and the power was really terrifying, but in the end, the entrance to the Cangqing Divine Realm was still not opened.

"The Cangqing Divine Realm has been completely sealed, and the entrance and exit are no longer pure formations, but the most primitive seal."

In the distance, on a small fragment of the mainland, Lu Ming and others, watching from a distance, Liu Song said at this time.

They passed through the wormhole and just arrived.

However, they dared not come close and could only watch from a distance.

The Cangqing Divine Realm was completely sealed, in the state before it was opened by Mulan, and the power of the seal was extremely powerful.

Obviously, this is a let go.

Otherwise, just relying on the arrangement of defensive formations would definitely not be able to stop Zhunxian's attack.

"You retreat, I'll come."

The middle-aged man in Styx Universe spoke.

The four masters of the Styx Universe immediately retreated.

The four masters of the Great Universe also retreated, because they knew that the middle-aged man in the Great Universe of Styx was extremely powerful. If they did not retreat, they might have been affected early.

boom!

The middle-aged man in Styx Universe stepped out, his breath was full.

At this moment, the world pales.

Chapter 5183: Nine Tribulations

The middle-aged man in the Styx Universe was too strong. As soon as his breath came out, the heavens and the earth faded and everything was exhausted.

Even though they were far away, Lu Ming and others felt the pressure of horror, and their faces were a little pale, like a terrifying behemoth, hardly able to resist.

"This breath..."

Lu Ming was shocked.

It's not that Lu Ming hasn't seen the world at all. At the beginning, he had seen the body of the King of Humans, and the King of Little Humans had a fight against Dili.

I have personally felt the horror.

But at this moment, the breath of a middle-aged man in the Styx universe exploded, giving him a feeling of seeing the battle between the villain king and Dique.

I learned from several ancestors of the Cangqing Divine Realm that the universe is shattered, and the true power of immortality cannot be revealed.

At the beginning, the power of the little human king and the human king's physical battle with Dique was mostly the power close to the immortal way.

The middle-aged man in the Styx Universe also gives people this feeling.

The power of approaching immortality!

Could it be the existence of the Nine Tribulations Quasi Immortal, who has survived the Nine Tribulations.

boom!

The middle-aged man in the Styx Universe, named Wang Gu, stretched out a big hand and grabbed it towards the Cangqing Divine Realm.

The big hand was so big that it almost enveloped the entire Cangqing Divine Realm, and grabbed the Cangqing Divine Realm.

The void exploded, destruction-like power swept across the sky, and everything seemed to cease to exist.

The Cangqing Divine Realm originally had only a few entrances and exits, which were connected to the void of the universe, visible to the naked eye.

The rest is hidden in the depths of the void, making it difficult to see.

But at this moment, the void on the surface of the Cangqing Divine Realm, like a turf, was stripped away layer by layer. In the end, the entire Cangqing Divine Realm was exposed to everyone.

It can be seen that the Cangqing Divine Realm is a huge continent, surrounded by a curtain of light.

This light curtain is the seal of the Cangqing Divine Realm.

Wang Gu's big hand and five fingers pierced the light curtain like five immortal spears with infinite power.

The light curtain kept shaking and ripples appeared.

At this moment, the entire continent of Cangqing Divine Realm was also violently shaking.

"Nine Tribulations Quasi Immortals, I didn't expect that even the Nine Tribulations Quasi Immortals would be dispatched. Aren't they afraid of hurting the foundation and never becoming immortals?"

A quasi-celestial elder in Cangqing Divine Realm whispered.

It's too difficult to go forward step by step, through a heavy calamity, and get to the Nine Tribulations quasi immortal.

At this point, it was really only the last step away from Immortal Dao.

Knock Xianguan!

As long as you open the celestial gate, you can prove to be immortal, transcend the universe, and achieve another level of beings, high above, eternal and immortal.

Of course, the last step is difficult.

It can be said to be extremely difficult and more dangerous than crossing the immortal calamity. If one is careless, the previous efforts will be wasted and completely wiped out.

Therefore, the Nine Tribulations quasi immortals rarely walk around, they are practicing in retreat, adjusting their state, and keeping themselves in their peak state.

Knocking at Xianguan is no trivial matter. If you are in an incorrect state or injured, it will have a great impact.

In the past, many Nine Tribulations quasi immortals were ultimately defeated because of a trivial impact.

This time, for the Heart Fragment of the Universe, the Styx Great Universe also counted the blood base, and even the Nine Tribulations Quasi Immortals were dispatched.

Just because of the Fragment of the Heart of the Universe? or other reasons?

"Drive me!"

Wang Gu's blow was unsuccessful, he gave a cold shout, and shot again.

This time, he sacrificed the quasi-celestial soldiers and launched a shocking blow.

This quasi-celestial soldier accompanied him through time after time, and reached the nine-tribulation quasi-celestial soldier, almost reaching the extreme of acquired weapons.

Because real fairy soldiers can't be refined at all, they are all naturally bred.

The beginning of the universe, or in the endless chaos, gave birth to fairy soldiers.

Historically, no one has refined a real fairy soldier.

The Nine Tribulations Quasi Immortal, together with the Nine Tribulations Quasi Immortal Soldiers, launched a strong blow, causing the Cangqing Divine Realm to vibrate crazily. The light curtain around the Cangqing Divine Realm was also trembling crazily, as if to be torn apart.

However, this seal was really tough. Although it seemed to tremble very badly, it never broke and resisted the attack.

Without breaking the seal in two consecutive moves, Wang Gu did not continue to attack, his expression gloomy.

"It seems that it is really the seal made by the fairy soldier, and these human races are really willing to destroy one piece of the fairy soldier."

The old man of Shengguangda Universe said.

Based on the fairy source of the fairy soldier, it turned into a seal. Although the strength of the seal would be amazing, the fairy soldier was also ruined.

"If you want to break this seal, you must be infinitely close to the power of Immortal Dao, otherwise, even if you and I work together, you will definitely not be able to break it."

Wang Gu looked at the old man in Shengguang Universe.

The old man in the Shengguang Great Universe is an existence at the same level as him, and is also a Nine Tribulations Quasi Immortal.

"Are you not prepared for the power of the Styx universe?"

The old man of Shengguangda Universe asked rhetorically.

"It is prepared, but it is difficult to urge me alone. Let's join hands."

After Wang Gu finished speaking, a war sword appeared in his hand.

The sword was pitch black and filled with an astonishing cold atmosphere.

The old man from Shengguang Universe flashed brightly in his eyes and said in shock: "You are really willing to bring all the fairy soldiers, not afraid...huh? It's a broken fairy soldier, that's okay, you can join hands."

"Go ahead!"

Wang Gu didn't want to say more, his body was like a huge amount of power, madly pouring into the war sword.

Hum!

The pitch-black war sword trembled, a force that was so terrifying that it could not be imagined, permeating it.

The fairy soldier recovers!

The war sword quickly grew in size, turned into a giant sword, and flew towards the Cangqing Divine Realm.

Behind Wang Gu, the masters of the Styx Universe also took actions one after another, inputting power into the fairy soldiers.

But Wang Gu's body still couldn't help trembling, his face pale.

"Hurry up!"

Wang Gu shouted to the people of Shengguang Universe.

Even if it is a broken fairy soldier, it is not the Nine Tribulations quasi-celestial being able to spur and recover.

"Help them once."

The old man of Shengguangda Universe gave a low cry, and led the masters of Shengguangda Universe to take action and input power into the fairy soldiers.

Hum!

The aura from the fairy soldier became even more terrifying, and flew out, with a sword slashed on the light curtain of the Cangqing Divine Realm.

boom...

Here, it is as if the sky and the earth are turning upside down, the sun and the moon are dark, and the entire universe is shaking.

"Crack..."

An abnormal noise came from the light curtain of the Cangqing Divine Realm, and a crack appeared in the strong and immortal seal.

"You dare to use immortal soldiers to show the power of immortality, are you not afraid that the universe will be completely destroyed and you will be ruined?"

An old man in the Cangqing Divine Realm roared.

Today's primordial universe cannot support the true immortal power. If there is a real immortal power erupting, the primordial universe will overturn and be completely destroyed.

The universe is completely destroyed, and the forces formed are terrifying. Even true immortals, even immortal kings, cannot resist and will be buried together.

Chapter 5184: The seal was torn, the ancestors shot

Without the heart of the universe, the universe is unstable.

This is also the reason why no true celestial being descended into the prehistoric universe.

But now, Wang Gu and others urged the immortal soldiers, showed the power of the immortal Dao level, and forcibly broke the seal of the Cangqing Divine Realm, how could they not let the people of the Cangqing Divine Realm be angry.

The seal of the Cangqing Divine Realm was cut open by a crack, so the voice could be heard clearly.

"It's just a broken fairy soldier, not a complete fairy soldier. The power is just infinitely close to the power of the fairy road. What does it matter?"

Wang Gu sneered and continued to spur the broken fairy sword to seal the cracks in the Cangqing Divine Realm and continue to expand.

Rumble!

In the universe, between the Cang Ming, there was a rumbling explosion, and the law of order between heaven and earth seemed to be ruining.

"No, the prehistoric universe really can't bear it anymore."

"Hurry up and put away the fairy soldiers!"

Several people in the Shengguang Great Universe yelled.

Wang Gu's face also changed drastically.

Even if it is a broken fairy soldier, fully recovered, the power is too strong, and the prehistoric universe seems to be unable to bear it.

Wang Gu didn't dare to continue pushing, otherwise, the prehistoric universe would really be destroyed.

He didn't care about the destruction of the primordial universe, the key is that he himself was still in the primordial universe, and would also be destroyed along with it. He was 10,000 unwilling.

"Come!"

Wang Gu shouted loudly, taking back the broken fairy soldiers with all his strength.

The seal has been broken, and the broken fairy soldiers are no longer needed.

With a hum, the broken fairy sword turned into a ray of light and was taken back by Wang Gu.

That kind of fluctuation in the universe disappeared.

After all, it's just a broken fairy soldier, not intact, and it's only used for a while, and it won't cause much impact.

Of course, if you continue to use it, it's hard to say.

When Wang Gu took back the broken fairy sword, the old man from Shengguang Great Universe screamed, put out his hands, and grabbed it in the air.

Two huge hands were formed, grabbing the two sides of the crack cut out by the broken fairy crystal, and breaking them outwards, trying to expand the crack and even tear the seal completely.

"Block them!"

"Knock them back, the cracks in the seal will automatically heal."

The people inside the Cangqing Divine Realm roared.

Within the Cangqing Divine Realm, there are many people, and the total number is no less than 1,000.

However, most of them are just the existence of the Origin Realm, and the quasi immortals are only a very small number.

These are all the elites of the Cangqing Divine Realm, and they work together to form an array.

It's not a combined attack formation, but the top source-level formation.

With quasi-xian as the core, thousands of origins and foundations, the top-level source-level formation is laid.

This is an ancient formation handed down from the last epoch, and its power is amazing.

Obviously, the Cangqing Divine Realm had already prepared for it, and set up a large formation in advance.

The large formation was activated and turned into a prehistoric divine dragon, rushing out, the dragon's roar shook the world, and the dragon claws protruded and grabbed the two big hands gathered by the old man of Shengguang Great Universe.

Two big hands were shaking violently.

"Hmph, a bunch of ants want to break me too, naive, let me drive."

The old man of the Shengguang Great Universe sneered coldly. He was a quasi-immortal of the Nine Tribulations. He was really strong. With a sharp scream, his power exploded, his two big hands became more solid, and he actually widened the crack in the seal.

"Today, the remnants of the prehistoric human race shall be completely wiped out."

Wang Gu put away the broken fairy soldier, eased his breath, opened his mouth indifferently, and stretched out his hand to grab it. Two big hands were also formed, grabbing the crack and tearing the seal away completely.

The Nine Tribulations Quasi-Xiang is too strong, the strong of the Cangqing Divine Realm, even if the top-level source-level formation is deployed, it is difficult to stop.

It's too far.

boom!

At this moment, from the depths of the Cangqing Divine Realm, a terrifying aura burst out, and a dry palm stretched out and blasted towards the crack.

In the end, at the crack, it collided with Wang Gu's palm.

boom!

It was as if two universes collided, the heavens and the earth roared, the power of terror erupted, and the earth of the blue **** realm shook wildly, and many places continued to explode.

The mountains and rivers are bursting and the rivers are drying up.

Fortunately, this is a fragment of the Heart of the Universe. If it were replaced with fragments of other continents, it would have been destroyed by this blow.

There were dense cracks in Wang Gu's condensed hand, and then it exploded.

He staggered back, his face pale.

"True fairy?"

Wang Gu spoke, startled and uncertain.

In the depths of the Cangqing Divine Realm, an old figure walked out step by step.

"Ancestor!"

The people of Cangqing Divine Realm exclaimed.

If Lu Ming were here, he would definitely recognize that this was an ancestor of the Cangqing Divine Realm.

"Several juniors, don't have to make an inch of it, so as not to ruin yourself."

The ancestor of the Cangqing Divine Realm spoke, looking very old, but the aura exuding at this moment was earth-shattering and overwhelming.

"The heart of the universe of the primordial universe is broken. There is no real immortal. Even if it was a true immortal, with the breaking of the heart of the universe, it has already fallen into a realm. Now, it is no different from us."

The old man from Shengguangda Universe opened his mouth, shocked and shocked, causing Wang Gu's heart to be shaken and he instantly recovered.

Just now, when he fought against each other, he felt the breath of a real fairy on the opponent, and he was shocked and confused.

Don't even look at them as the Nine Tribulations quasi immortals, they are only one step away from the true immortal.

But the combat power is absolutely different.

It really wouldn't be difficult for a real fairy to kill them, just a matter of a finger.

However, after being reminded by the elder of Shengguangda Universe, he immediately reacted.

The cosmic heart of the primordial universe has long been broken, and the other party has not left, staying in the primordial universe, the realm has long since fallen.

Moreover, if the opponent really has true celestial power, he is already dead with the move just now.

"Hmph, old man, even if you were a real fairy before, I will slaughter the fairy today!"

Wang Gu coldly shouted, and stepped out again, approaching the crack in the Cangqing Divine Realm, and a river of Styx appeared on his body, surrounding him.

The Nine Tribulations quasi-celestial soldiers also appeared in his hands.

"Go out to fight, otherwise, the aftermath of our fight will help them break the seal."

In the depths of the Cangqing Divine Realm, another voice sounded, and an old white-haired woman appeared and stepped into the air.

Another ancestor, appeared.

"Another Remnant Immortal!"

Wang Gu sneered, full of irony, and referred to the two ancestors as 'can'.

The two ancestors were unmoved, turned into two rays of light, and rushed to the crack of the seal.

The two rays of light, like two peerless sharp swords, slashed on the two big hands of the old man of Shengguang Great Universe. With two touches, the two big hands exploded.

The figures of the two ancestors have already appeared outside the seal.

The crack on the seal was constantly squirming and seemed to be slowly recovering.

"Don't give them time to let the seal recover."

Wang Gu shouted, took the lead, and killed one of the ancestors.

boom!

In the second confrontation between the two, Wang Gu trembled wildly, retreated violently, and a trace of blood overflowed from the corner of his mouth.

In a head-to-head confrontation, he was completely lost, and he was at a disadvantage.

Chapter 5185: The three ancestors, the seven and nine calamities

"Even if the old man is not at the peak and falls into the realm of real immortality, it won't be too difficult to kill you."

The ancestor Dao of the Cangqing Divine Realm, although old, still charged into the sky with a fighting spirit, full of invincible beliefs.

In his heyday, he was a real immortal, a powerful immortal.

Even if he fell to the realm, it was not comparable to the ordinary Nine Tribulations quasi immortal, and invincible at the same level.

He stepped out, the aura on his body was extremely strong, the whole body was glowing, and between his waves, a big seal flew out, excited by the wind and clouds, and pressed towards Wang Gu.

This is a quasi immortal soldier of the Nine Tribulations.

True fairy soldiers, born in chaos, or conceived at the beginning of the great universe, won the world, so the number is not large, it can be said to be extremely rare.

There are not many immortal masters who can possess immortal soldiers.

Many immortal figures don't have immortal soldiers, and they use Nine Tribulations quasi immortal soldiers.

For example, in the Cangqing Divine Realm, there is only a handful of fairy soldiers. At the end of the prehistoric period, in order to avoid the catastrophe, the fairy soldiers were self-destroyed, the source of the fairy was extracted, and a seal was made.

However, the Nine Tribulations quasi-celestial soldiers of the immortal figures are actually different from the Nine Tribulations quasi-celestial soldiers.

The Nine Tribulations quasi-celestial soldiers of the immortal figures have been continuously tempered and nurtured with the power of immortality. In fact, they have undergone an abnormal change. Although they have not become real fairy soldiers, they are more powerful than the general nine-tribulation quasi-celestial soldiers.

This is the case with this great seal.

When the Da Yin suppressed it, Wang Gu's face changed drastically, and he shouted, "I'm not going to do anything yet."

boom!

Behind Wang Gu, the void exploded, and a figure stepped out, holding Zhan Ge, cut it out, and joined forces with Wang Gu to strike a strong blow, blocking the Great Seal.

Another quasi immortal of the Nine Tribulations.

Also from the Styx universe.

There is more than one Nine Tribulations quasi immortal from the Styx universe.

"Sure enough, there are still people hiding in the dark. Are there any more, let's come out together."

The ancestor of Cangqing Divine Realm.

"Today, Tu Canxian!"

Another cold drink sounded, and another figure appeared on Wang Gu's right.

There is no doubt that a person who dares to slay an immortal is considered to be a quasi immortal of the Nine Tribulations.

Facing a powerful person like the ancestor of the Cangqing Divine Realm, the ordinary Bajie quasi immortal is not enough to look at.

The third Nine Tribulations quasi immortal was a woman with a slender figure, surrounded by a river of Styx, with an overwhelming breath.

"The Great Universe of Styx is such a big handwriting. There are three Nine Tribulations quasi immortals, so today, you all stay." The ancestor of the Cangqing Divine Realm shouted, urged the big seal, and shot with all his strength.

"Tu Xian!"

The three masters of the Styx Universe teamed up and launched a shocking battle with the ancestor of the Cangqing Divine Realm.

After a few moves, the ancestor of the Cangqing Divine Realm fell into a disadvantage.

Although he was a true immortal at his peak, he finally fell into a realm. Today's realm is only the Nine Tribulations quasi-celestial. It is more than natural to deal with an existence of the same level, but facing the three, he is completely invincible.

There is not a single one who can survive the Nine Tribulations and achieve the Nine Tribulations Quasi Immortal. They are all peerless evildoers, and they are all extraordinary, and their combat power is extremely powerful.

The weak have already died under the immortal robbery, and can't make this step.

On the other side, the other ancestor of Cangqing Divine Realm, the old white-haired woman, was in a more dangerous situation.

Because, Shengguang Great Universe actually came to four Nine Tribulations quasi immortals.

The four people joined forces, just one move, and the white-haired old woman was injured.

"Ancestor!"

The people inside the Cangqing Divine Realm roared and worried.

Liu Song, Yao Ye and others also clenched their fists nervously.

However, at this critical juncture, another figure walked out from the depths of the Cangqing Divine Realm.

This is a young man, at least on the surface, a young man who looks like in his twenties, with heroic appearance, but his eyes reveal the vicissitudes of life, as if he has gone through the ages.

"The ancestor! It is the ancestor of no-mind."

Liu Song and others cried out in surprise.

"The legend is true, the ancestor of Wunian is still there."

Yao Ye was also very excited.

"Ancestor of Wu Nian?"

Lu Ming asked curiously.

"It is said that there are three ancestors in our Cangqing Divine Realm. In the last epoch, they were all immortal masters, and the ancestor of Wu Nian was the strongest. However, it is said that he was seriously injured in the great battles of the last epoch. , So after sealing the Cangqing Divine Realm, I have been sleeping all the time, no one has seen it."

Liu Song explained.

"There were rumors secretly before that the ancestor of Wunian was injured too badly and may have fallen. Now it seems that everything is false."

Liu Songdao.

Lu Ming couldn't help but remember that in the ancestral hall deep in the Cangqing Divine Realm, there were a total of three ancient altars. Two of the altars had appeared before, and they were the two ancestors in front.

There was only an altar in the middle, and no one had ever appeared. Now it seems that the carbon deposit in the middle corresponds to the ancestor of nonsense.

The ancestor of Wunian stepped out in one step, appeared outside the seal, and blasted the two Nine Tribulations quasi immortals of the Shengguang Great Universe with one palm.

Boom!

The two Nine Tribulations quasi immortals of the Shengguang Great Universe retreated violently.

The ancestor of Wu Nian did not say a word, and continued to shoot, with continuous palm prints, completely suppressing the two Nine Tribulations quasi immortals of the Shengguang Great Universe.

And when he took the shot, he was distracted to take a shot at a Nine Tribulations quasi immortal in the Styx Universe, pulling him into the battle, and fighting the three masters alone with one person.

In this way, the pressure on the other two ancestors was greatly reduced and the situation was stabilized.

The ten masters fought in a big battle, turning that piece of void into chaos, the scene was terrifying, and outsiders could not intervene.

"You take action, continue to break the seal, and wipe out the remnants of the human race."

A quasi immortal of the Nine Tribulations in the Styx Universe.

"kill!"

The other masters of the Styx Universe yelled, at least a dozen masters slew towards the Cangqing Divine Realm.

They are all quasi immortals, and many of them have survived the eight calamities of the eight calamities. They shot, and powerful force bombarded the crack in the seal.

The crack, without the influence of external forces, was healing slowly, but it was attacked at the moment, and it was slowly torn apart, and the gap was getting bigger.

"Block them."

Inside the Cangqing Divine Realm, there are a dozen quasi immortals, leading thousands of origins, and laying down a top-level source-level large formation, urging the large formation, turning into a giant dragon, and attacking the powerful men in the Styx universe.

Suddenly, many people were repelled.

"If you want to die, then kill you first."

The people in the Styx Universe shouted angrily, and many people rushed directly into the seal, first to annihilate the masters of the Cangqing Divine Realm.

"Rush in and kill them."

Shengguang Great Universe also shot, at least twenty quasi immortals rushed into the crack.

The two universes added up to a total of more than 30 people, almost forty as the standard immortal. They attacked together and defeated the dragon at once.

Boom boom boom...

A series of gorgeous and terrifying attacks attacked the people in the Cangqing Divine Realm.

The attacks of the two sides kept colliding, and the entire Cangqing Divine Realm was shaking.

Puff...

In the Cangqing Divine Realm, many people turned pale and vomited blood.

Chapter 5186: Resurrection

If it hadn't been for the people of the Cangqing Divine Realm to set up the formation, those origins would not be able to participate in the battle at all, and they would die in an instant.

"Fight to the death and leave them all behind."

"Yes, since we want to seize our home, we must make them pay the price."

The people in Cangqing Divine Realm roared.

Many of the Origin Realm's existences are desperate, burning the origin power with all their strength, and even a few people burn the Origin Root.

The price paid is naturally very heavy, and the sequelae are huge, but now, I can't take care of it.

Under the leadership of more than a dozen quasi-immortals, the people of Cangqing Divine Realm exploded the power of the formation to the extreme, condensing nine huge prehistoric dragons at once, attacking the powerhouses of the two universes, and wanting to bring them all Stay.

"court death!"

"I can't help myself."

There are nearly forty quasi immortals in the two universes, and even eight calamity quasi immortals are so easy to kill. The two sides are inextricably separated in a one-time battle.

As a result, no one attacked the seal, and the cracks in the seal were slowly healing.

"Separate the manpower to enlarge the gap in the seal." An Eight Tribulations Immortal in Shengguang Great Universe instructed.

"Don't think about it, you must hold them back."

The people in the Cangqing Divine Realm roared, there are more people's burning roots, and they are desperately urging the formation method, the purpose is to drag the strong of the two universes and let the gap in the seal heal.

The nine prehistoric dragons roared, huge, almost crowded with the Azure God Realm. For a time, the masters of the two universes could hardly escape.

The two battlefields became anxious for a while, and in a short period of time, it may be difficult to tell the winner.

But at this time, the void split open, and four figures suddenly appeared.

The four figures were all shrouded in white light, and from the outside, they looked a lot like the people of the Great Universe.

But Lu Ming could tell at a glance that this was not a person from Shengguang Da Universe, but... the Celestial Race!

That's right, it's the Celestial Race.

Lu Ming had had countless dealings with the Celestial Race, and was so familiar with the atmosphere of the Celestial Race that he would never admit his mistakes.

The four elders of the Celestial Race had a strong aura, far above any Celestial Race that Lu Ming had ever seen.

What the master of the four heavenly palaces, in front of these four celestial races, that is ants, dust.

As soon as the four elders of the Celestial Race appeared, they shot directly, and the four terrifying sword lights slashed into the gap in the seal of the Cangqing Divine Realm.

Rumble!

The gap is slowly getting bigger, which shows how powerful these four Celestial Elders are.

"Damn it, four guys, where did they come from."

Liu Song roared.

"The Celestial Race, to be precise, is the subhuman race."

Lu Ming spoke.

"The Demihumans? I remember. I read the record in an ancient book. The Demihumans were the slaves of the Humans in the last era."

Yao Yedao.

"What, slavery, now I dare to rebel."

Liu Song roared.

Lu Ming didn't speak, it was definitely not easy for the four masters of the Celestial Race to appear here in such a timely manner.

The Great Universe of the Holy Light and the Great Universe of Styx have been able to deduced that the Cangqing Divine Realm is a fragment of the heart of the universe, and they are only here.

Lu Ming didn't believe that someone from the Celestial Race could deduce it. This is impossible. The Celestial Race's strongest ancestor, Ye Immortal, is still in the original state. The Celestial Race does not have such a strong person.

Obviously, the Celestial Race had been staring at the Cangqing Divine Realm in secret.

Perhaps this is related to their identity.

The celestial race was enslaved by the human race in the last epoch, so after knowing that the human race remains in the Cangqing Divine Realm, the heart must be very jealous, and it is normal to pay attention to it all the time.

But now, seeing the two universes taking action and wanting to destroy the Cangqing Divine Realm, the Celestial Race immediately took action, and the united two universes would completely annihilate the Human Race.

Solve the big troubles in their hearts.

Of course, this is just Lu Ming's guess.

Perhaps the Celestial Race had already taken refuge in Shengguang Great Universe.

When Lu Ming returned to the eastern universe, he was besieged by the Celestial Race. The Celestial Race had a forbidden territory. Lu Ming had suspected that the Celestial Race had taken refuge in other universes.

And to take refuge in the Great Universe is the most possible.

Because the cultivation power of the Celestial Race is quite similar to the Shengguang Great Universe.

"It's a demihuman race!"

"These rebellious."

In the Cangqing Divine Realm, there was an old quasi immortal who recognized the four celestial elders and suddenly roared.

Rumble!

The four elders of the Celestial Race, without a word, attacked the gap in the seal with all their strength, allowing the gap to continue to expand.

If this continues, over time, the seal of the Cangqing Divine Realm may really be torn apart completely.

These four Celestial Race elders are extremely powerful, all of them are quasi-celestial celestial beings who have survived the seven immortal calamities.

Over time, they are fully capable of tearing the seal completely.

The people in the Cangqing Divine Realm were furious, but unfortunately, they were powerless to stop them.

They were already desperate to stop the quasi immortals in the two universes, so it meant that they were going to stop the four Seven Tribulations quasi celestial beings.

"Well done, I, Shengguang Universe, will remember this matter."

A master in the Universe laughed.

Huh!

Suddenly, a sword light slashed out of nothingness, and suddenly slashed towards one of the old men of the Celestial Race.

However, the elders of the Celestial Race had already prepared.

In such a battlefield, it is impossible not to pay attention to the surroundings, otherwise, you don't know how to die.

As soon as Jianguang came out, the old man of the Celestial Race felt it.

The old man of the Celestial Race roared, fighting with all his might. However, the sword light was very terrifying and its power was amazing. Even if the Celestial Race old man reacted, he did not resist it. He was blown out. A sword mark appeared on his chest, almost smashing him. hack.

Then, a figure appeared, holding a war sword, and slashed towards the other three Celestial Elders.

The sword light whizzed, the power was too strong, and the three elders of the Celestial Race had to stop attacking the seal and resist.

Boom boom boom!

After three consecutive roars, the three elders of the Celestial Race retreated, and the figure drifted backwards.

"Soul Fate, it's you."

One of the celestial elders growled.

Lu Ming was shocked.

Soul fate?

The Lord of Life Soul Heavenly Court?

Lu Ming watched carefully, and as expected, that figure was indeed the soul of the lord of the heavenly court?

It has been more than ten thousand years since the farewell that year, and finally reappeared.

The state of soul and fate now is much stronger than it was in the past, and the aura is like a stormy sea, and one person is alone against the four seven-caliber quasi-celestial immortals of the Celestial Race.

Lu Ming really wanted to rush out to ask Soul Fate, why he gave him the precept of Hong Huang? Have you already known that the Prestige Ring is a fragment of the heart of the universe?

"You four old dogs have all come out, and the demihumans are all masters. Fortunately, you will be killed today."

Soul Fate grinned, very overbearing.

"Soul Fate, you were seriously injured and dying. Although you have recovered a little now, you are only recovering to the six calamity quasi immortal. The four of us are all the seven calamity quasi immortal. You want to kill the four of us too?"

An old man from the Celestial Race sneered.

"What about the Six Tribulations Quasi Immortal? It is enough to kill your four old dogs. If it weren't for the immortality, I would have cut off your four dog heads long ago."

Soul Ming smiled contemptuously, and then suddenly shot.

Chapter 5187: Two more universes are coming

Soul Fate, he looked like a middle-aged man with a burly physique and full of domineering spirit.

He was wearing battle armor and holding a war sword, and his breath was shocking.

Lu Ming recognized that the battle sword and battle armor on the soul was one of the four treasures of the soul heaven, and it was as famous as the soul stone and the prehistoric ring.

At the beginning, Soul Fate took away the other three things, leaving Hong Huang Jie to Lu Ming.

The armor and sword are called Nine Tribulations Jia and Nine Tribulations Sword.

Lu Ming couldn't help guessing, could it be the Nine Tribulations quasi-celestial soldier?

At the peak of the soul life, it should not have reached the realm of the Nine Tribulations Quasi Immortal, if it was the Nine Tribulations Quasi Immortal Soldier, it should have been dug out from a certain ruin.

Soul and Fate is very strong, and now it is only the cultivation base of the Six Tribulations Quasi Immortal. Facing the four Seven Tribulations Quasi Immortal level masters of the Celestial Race, he didn't care about it.

The four quasi immortals of the Seven Tribulations of the Celestial Race did not dare to be careless at all, and the four joined forces to fight the soul and fate.

They knew that at the peak of their soul and fate, they were in the same realm as them, the seven calamities quasi immortal.

However, the power of soul and fate was too strong, and they were too far behind in a battle at the same level.

Back then, the reason why he was able to suppress the soul and almost kill the soul was relying on the strongest ancestor of the Celestial race, ye immortal.

And the cooperation of their masters.

You know, at the peak of the Celestial Clan, there were more than four Seven Tribulations Quasi Immortals.

There were more than a dozen Seven Tribulations quasi immortals, but under that battle, three Seven Tribulations quasi immortals were killed by their souls and exploded a heavenly palace, which was a heavy loss.

Up to now, the Celestial Race has only four Seven Tribulations quasi immortals left, and they are considered to be the strongest combat power.

They have a shadow in their hearts and minds of soul and fate, even if their soul and fate are not as good as their cultivation base, they all use their full strength when they make a move.

For a time, the two sides are inextricably linked.

The soul and life are strong enough, but unfortunately the injuries were too heavy back then, and now it is far from recovering to the peak period. It can only be considered to be barely recovering to the six calamity quasi-celestial.

"The people from Styx Universe and Shengguang Universe came quite early."

"Fortunately, the fragments of the heart of the universe have not fallen into their hands. We still have a chance."

Voices echoed in the void.

Then, the void trembled, and light and shadow appeared.

Around the Cangqing Divine Realm, a group of figures appeared out of thin air.

There are six figures in total.

Surrounded by the light of the whole body, the breath is shocking and extremely powerful.

It can be seen that three of the figures are three bones, one human-shaped bone, and two animal-shaped bones.

The other three figures, all covered with blue light, wore blue robes, and looked like a fairy tale.

"Yuqing Universe, Bone Universe..."

At this moment, the three ancestors of Cangqing Divine Realm, as well as others, recognized the origin of the six figures.

Especially the three ancestors, their hearts kept sinking.

Because these six figures are all Nine Tribulations quasi immortals.

Obviously, Yuqing Great Universe, the great power behind the Skeletal Universe, has also been deduced, and the Nine Tribulations quasi-immortals were sent to go here first.

"hateful..."

The master of the Holy Light Universe and Styx Universe growled in his heart, his face was ugly, and he was very unhappy.

With the arrival of the Yuqing Universe and the Skeleton Universe, the competition has become even greater, and it has become more difficult to seize the Fragment of the Heart of the Universe.

Previously, only two companies were fighting, but now they have become four.

"Since you are here, you don't want to take action yet. First break the seal and solve the remnants of the primordial universe. We are discussing how to distribute the fragments of the heart of the universe."

A quasi immortal of the Nine Tribulations in the Styx Universe coldly drank.

"You don't need to say much."

A middle-aged man in Yuqing Universe responded indifferently, and then waved his hand, and a blue light flew out. It was a sword light, terrifying, and cut to the gap of the seal.

Originally, no one intervened, and the gap on the seal was slowly creeping and slowly recovering.

At this moment, the cyan sword light was cut off, the seal shook frantically, the gap was torn open, and the gap was getting bigger.

"Break the seal first."

An existence in the skeletal universe said, stretched out a bone claw, and grabbed the seal.

The six Nine Tribulations quasi immortals were too strong to make a breakthrough. They used the gap in the seal as a breakthrough, and they continued to expand the gap.

Slowly, the gap widened to the entire seal.

"broken!"

In the end, the six Nine Tribulations quasi immortals shouted, and the offensive broke out in an instant.

boom!

There was a loud bang, and the seal was finally unbearable by the car, and the continuous explosion slowly turned into a rain of light and dissipated into the void.

The seal was completely broken.

Many people in the Cangqing Divine Realm showed hopelessness.

The seal is broken, and the opponent has too many masters, how to fight this?

In the end, there is only one way to lose.

"Fight with them."

Many people yelled, and there were more people burning their roots, frantically desperate.

Since it is impossible to escape death in the end, it will die vigorously, and even if you die, these people in the outer universe will have to pay the price.

On the Cangqing Divine Realm, more than a thousand masters from the Cangqing Divine Realm desperately urged the big formation, and it really achieved results. In the Great Universe of the Holy Light and the Great Universe of the Styx, a few had a weaker cultivation base, and one was careless. , Was abruptly killed by the formation.

However, Cangqing Divine Realm also paid the price.

The formation shook back, and it was just an instant. There were dozens of masters bursting into pieces, and their bodies and spirits disappeared.

The six Nine Tribulations quasi immortals stood on the void, overlooking the entire battlefield.

Among them, the human-shaped skeleton in the Skeleton Universe flashed with disgust when he swept his soul.

"The body is full of a strong atmosphere of the wild universe, is it the power of the universe? The will of the universe is not reconciled, and it wants to resist and kill."

The human-shaped bone drank coldly, and he held a bone knife, which turned golden, like the ribs of a certain creature.

The bone knife slashed out, and a horrible golden blade light slashed towards the soul.

Soul Fate's complexion changed drastically, he backed away frantically, his figure flashed quickly, trying to avoid the light of the sword.

However, this was a blow from the Nine Tribulations Quasi Immortal, it was too strong, far beyond the soul fate, even in the heyday of the soul fate, it was a far cry.

The blade light seemed to have locked the soul fate, no matter how he dodged the soul fate, he couldn't avoid it.

In an instant, the light of the sword appeared not far in front of Soul Life.

Soul fate shouted, burst out with all strength, urging the combat power to the extreme, a ball flew out from the center of his eyebrows, which was the soul stone of fate.

The soul of life became bigger sharply, blocking the soul of life.

Keng!

The blade light slashed on the life soul essence stone, and with a touch, the life soul essence stone exploded into fragments, turned into a rain of light, and flew back into the soul life body.

However, the light of the sword was not blocked, and continued to slash towards the soul.

At the moment when the Minghun Yuanshi flew out, the Mingxing struggling to cut out a sword, after the Minghun Yuanshi shattered, the Nine Tribulations Sword slashed above the blade.

Hum!

Just as the Nine Tribulations Sword shook wildly, Soul Life's body retreated violently, vomiting blood.

The terrifying power of the golden blade light impacted on Soul Life, and was blocked by the Nine Tribulations Armor, which saved the Soul Life.

However, there are still terrifying powers that have severely damaged souls and lives through the Nine Tribulations Armor.

Chapter 5188: Reinforcements arrive

One move, the soul fate was hit hard, this was the combat power of the Nine Tribulations Quasi Immortal, which exceeded the soul fate too much.

Crossing the Immortal Tribulation, every time you go through the Immortal Tribulation, your combat power will be qualitatively improved.

"It turns out that there are Nine Tribulations quasi-celestial soldiers, no wonder they can block me from a blow."

The human-shaped skeleton of the Bone Universe said that he did not continue to make a move, and he did not kill a Six-Tribulation quasi-immortal with one move.

However, the soul and fate had been hit hard, and the four old guys of the Celestial Race were enough to solve it.

Sure enough, the four elders of the Celestial Race had killed their souls, and their souls were retreating. For a time, they could only barely protect themselves, and for a long time, they might be dangerous.

"Join us to kill these remnants."

The old man from Shengguangda Universe spoke.

"The remnants of the old age shouldn't stay in this age at all. They should disappear as the heart of the universe is shattered, and they will survive to this day. What is the meaning of sending you on the road."

The humanoid skeleton in the Bone Universe was very domineering, holding a bone knife, and directly shot, killing the strongest ancestor in the Cangqing Divine Realm.

But when he was about to make a move, he stopped immediately and looked over his head.

"Your opponent is me."

Above the head, there was a long howl, the void split open, a claw, grabbed it, and grabbed the human-shaped skeleton of the Skeleton Universe.

This is like a bird's paw.

Like the claws of a phoenix.

The human-shaped bones, the soul beating in the eye sockets, were extremely dignified, because he felt a fatal threat.

He screamed, and the golden bone knife slashed out.

In an instant, the golden bone knives grew sharply, and slashed on the claws, but there was a sound of gold and iron clashing, sparks shot in all directions.

Then, the human-shaped skeleton retreated, the golden sword in his hand buzzed and shook, and the soul fire in his eyes also dimmed for a while.

Obviously, this blow, human-shaped bones, suffered a lot.

The other nine calamities quasi immortals were all shocked.

What kind of master is this capable of crushing a quasi-immortal of the Nine Tribulations in the skeletal universe?

"Another Remnant Immortal."

Human-shaped bones whispered.

Wow! The void split, and a giant bird emerged.

Phoenix!

This is a phoenix, extremely huge, with its wings spread out, like a continent, shrouding the blue gods below.

"The prehistoric demon clan, the phoenix clan, unexpectedly, the phoenix clan, and the remnant celestial surviving."

Someone whispered.

"It's you, you are still alive."

The old woman in the Cangqing Divine Realm showed a hint of surprise when she saw the phoenix.

They are all immortal masters in the prehistoric continent, and they naturally have intersections, and they have known each other a long time ago.

It's just that they thought that the other party had died in the war, but they didn't expect that they were still alive.

"Fortunately, I survived and hid in Ten Thousand Monster Mountain. I only woke up not long ago."

Honghuang Phoenix explained.

Bang bang bang...

Behind Honghuang Phoenix, the void continued to explode, and more than a dozen figures appeared in succession, all of which belonged to the Primordial Monster Race, a huge figure, like a star.

One of the green cows had a particularly terrifying aura, and was actually not weaker than the prehistoric phoenix.

Another Canxian!

Two prehistoric monsters.

The other monster races all exist at the quasi-celestial level.

"It's the wild demon clan of Ten Thousand Demon Mountain."

In the distance, Lu Ming's heart moved.

At the beginning, in order to save the Phoenix Spirit, he Zeng Jin entered the Ten Thousand Demon Mountain, walked through the Ten Thousand Demon Road, and also got the Demon King Emperor's Pattern.

Unexpectedly, there are so many powerful monster races inhabiting the Ten Thousand Monster Mountain.

However, it was normal. When Lu Ming entered the Ten Thousand Demon Mountain, he was still in the Primordial Tribulation, and the truly powerful monster races were all professing themselves to be asleep.

It is very similar to the situation of Cangqing Divine Realm.

"Okay, I didn't expect the prehistoric monster clan, there will still be strong ones left."

Liu Song and others were quite excited.

The prehistoric monster race, that is also the creatures of the prehistoric universe, in the era of the prehistoric continent, together with the human race, the witch race, and called the three strongest races.

Although not as good as Terran, in fact, the overall strength is not much worse.

The reason why the human race is capable of suppressing the Lich race is mainly because the peak power is too strong. The three human kings of the human race are unmatched and suppress the world.

In the entire Monster Race, there is only one who can rank alongside the three human kings of the Human Race.

The same goes for the witches.

"You go to help the human race, these six guys, leave it to us."

Honghuang Phoenix ordered the other monster races.

"Yes!"

More than a dozen quasi-xian-level monster races rushed to the Cangqing Divine Realm, helping the human masters, fighting against the quasi-xian-level masters of the Shengguang Universe and the Styx Universe.

Without the Nine Tribulations Quasi Immortal, it is difficult to contend with the Nine Tribulations Quasi Immortal.

"With you two celestial beings, you also want to compete with us."

The tough bones of the Skeleton Universe are very domineering and coldly open their mouths.

"In the heyday of this seat, you can swallow six of you in one bite."

The great phoenix roared and took the initiative, spreading its wings, and all of the three Nine Tribulations quasi immortals in the skeletal universe were enveloped.

Mou!

The green cow roared and spouted a huge beam of light, killing the three Nine Tribulations quasi immortals in Yuqing Great Universe.

A more terrifying battle broke out.

This was an extremely terrifying battle. The Nine Tribulations quasi immortals who participated in the war reached thirteen, and there were five remnant immortals.

However, despite the participation of the Primordial Demon Race, the situation is still very unfavorable for the Primordial Universe.

There are too many masters in the outer universe.

The two demon immortals of the prehistoric demon clan dealt with the three Nine Tribulations quasi immortals separately.

And even more dangerous is soul and fate.

He was hit hard by a move before, and now facing the four masters of the Celestial Race, he is in danger and danger.

And the five remnant immortals are not having a good time.

A few minutes later.

puff!

The green bull was cut by a cyan sword light, and one leg was almost cut off, blood splattered.

"The immortal body has also degraded, and today is Tuxian."

The master of Yuqing Universe shouted.

Mou!

The green cow roared, shaking Cangyu.

If he was in his heyday, the three Nine Tribulations quasi immortals would be just one move.

Unfortunately, as the heart of the primordial universe shattered, he had fallen to the realm.

Not only that, but after a long time, his fairy body has also degenerated and is no longer solid and immortal.

Otherwise, an immortal Dao exists, even if it falls to the realm, the immortal body is still strong and immortal, and it cannot be injured by the Nine Tribulations Immortal.

But now, their immortal bodies are all degraded, not much better than Zhunxian.

From this, it can be seen that the broken heart of the universe has had much influence on the powerful immortals.

Almost all aspects of the impact.

Green Bull was injured and gradually lost.

Although Honghuang Phoenix was stronger, he could only barely contend against the three Nine Tribulations quasi immortals, and it was difficult to rescue them.

The same is true for the three ancestors of the Cangqing Divine Realm.

If this continues, once Qing Niu is defeated and the other Nine Tribulations quasi immortals are freed up, everyone else will be in danger.

Above the Cangqing Divine Realm, the battle between the ordinary quasi-immortal and the origin was even more tragic.

The dozens of quasi immortals who joined the monster clan, the Cangqing Divine Realm side, barely stabilized the situation, but the situation was still not good.

There is still the source of burning and the root of the transition and death.

Chapter 5189: Lack of quasi-cents

This is irreversible. They set up a large array, and they can only fight the quasi-immortal when they run the large array at their full strength. However, the counter-shock force of the large array is not ordinary origin and can be contended.

Up to now, in the Cangqing Divine Realm, hundreds of Origins have died in battle.

In addition, the ordinary quasi-immortals of the Yuqing Universe and the Skeleton Universe have not yet appeared. Once they do, the situation will be even worse.

Bang bang bang...

At this moment, there are a few more of the Origin Realm being unable to withstand the power of backlash, their bodies burst, and their bodies and spirits are destroyed.

"Uncle Jiu!"

"Uncle Six!"

Liu Song, Yao Ye and others screamed mournfully, their fists clenched tightly together, trembling all over.

Among those who died in battle, some were their elders, but they were helpless and watched their relatives continue to fight to death.

They can't wait to break out of a big battle.

However, they did not lose their minds, knowing that with their combat power, even if they rushed out, there was only a dead end, and the battle situation would not have any effect.

They hate why they are so weak.

"Why is there no Nine Tribulations quasi immortal in Cangqing Divine Realm? And why are there so few quasi immortals."

Lu Ming asked.

Although he was also very angry, he finally restrained it.

At the same time, he is very strange.

In the Cangqing Divine Realm, there was not even a Nine Tribulations quasi immortal.

And the number of quasi immortals is only more than ten, much less than he imagined.

Among the major forbidden areas, there are definitely more than this number of quasi cents.

"In the earliest days, there were nine quasi immortals in the Cangqing Divine Realm, and the number of quasi immortals of other levels was not limited to these. It is just that over the long years, many quasi immortals have failed to cross the triumph and fell under the tribulation. "

"And because conditions do not allow, the Nine Tribulations quasi immortals cannot become immortals. The only two Nine Tribulations quasi immortals who forcibly knock on the celestial gates eventually fell."

Liu Song explained.

"It's not because the Cangqing Divine Realm has been sealed, and you can't get the top heaven and earth essence to temper the body and soul, which makes the body and soul not strong, and it is naturally difficult to survive the immortal catastrophe."

"Furthermore, the existence of the Origin Realm does not dare to begin to cross the Tribulation, because of lack of resources and insufficient background. Once you start to cross the Tribulation, there is only a dead end. Therefore, many powerful Tianjiao have been trapped in the peak of the origin for their entire lives."

Yao Ye explained.

Lu Ming was silent and had to say that this was a kind of sorrow.

To overcome the immortal catastrophe, the body and soul are indispensable.

But the Cangqing Divine Realm was sealed, lacking these two essences of heaven and earth, and it was too slow to polish it by itself, and it was not enough at all.

As a result, many of the original quasi immortals failed to cross the immortal calamity and fell.

Very few can survive.

And the subsequent origin, because of this, did not dare to begin to cross the immortal catastrophe.

In the history of the Cangqing Divine Realm, it was not that there was no forcible crossing of the Immortal Tribulation.

Those arrogances, unwilling to be trapped forever at the pinnacle of the source, forcibly crossed the immortal catastrophe, and eventually fell.

As a result, there are fewer and fewer quasi immortals in the Cangqing Divine Realm.

Until now, there are only more than ten.

The situation of the Primordial Demon Race is similar.

Several people are communicating with spiritual sense, but their eyes are constantly staring at the battlefield, becoming more and more nervous.

Because the situation is getting more and more unfavorable on the side of the prehistoric universe.

Especially Soul Fate and Blue Bull are the most dangerous.

puff!

The soul hit the sword, and was chopped in the heart by an old man of the Celestial Race. Even with the Nine Tribulations Armor, it was difficult to completely block it. The sword energy entered the body, almost tearing the body of the soul.

Soul Fate wanted to retreat, but was stopped by another Celestial Elder.

"Soul Fate, I failed to kill you completely back then, today, I will completely send you on the road."

"kill!"

The four elders of the Celestial Race spoke indifferently, killing like a knife, attacking like crazy, and constantly killing towards their souls and fate.

"You couldn't kill me back then, don't want to kill me today."

Soul and life roared, energy boiled, and the body was recovering quickly.

Soul and fate is also a taboo body, with extremely strong vitality and amazing resilience. Even if it is severely injured, it is impossible to completely kill him for a time.

On the other side, Qingniu's situation is also extremely unfavorable.

His combat power is not as good as that of the phoenix and the strongest ancestor of the Cangqing Divine Realm, because the cultivation base during the peak period is far inferior to the two.

At this moment, he was besieged by the three Nine Tribulations quasi immortals of Yuqing Great Universe, and a dozen wounds had appeared on his body.

His breath is getting weaker and weaker.

If this goes on, it will sooner or later be defeated.

Some quasi-celestial level demon cries, blue cows, true celestials, but fell to this point, are they really going to fall here?

Since ancient times, true immortals were killed by quasi immortals, how many are extremely rare, this is a kind of sadness.

"Even if I fall, I will pull you guys back."

The green cow roared, his body was filled with blood, and his huge body became even stronger.

Mou!

The young man's nose was bleeding and red smoke, and his combat power was greatly improved. Two horns were cut out like sky swords, and a Nine Tribulations Immortal of the Yuqing Universe was spit out blood, and he retreated violently. .

Then there was a collision, and another master was knocked into flight.

Qingniu desperately tried his best. This was burning immortal blood regardless of the cost. The sequelae were extremely serious. Even if he didn't die in this battle, it might be difficult to return to the realm of immortality in the future.

"hateful..."

The three masters of Yuqing Great Universe roared, their faces gloomy, and they were very jealous.

In the heyday of Qingniu, after all, they were true immortal powerhouses. If they were crazy and desperate, even if they could kill the youth in the end, it was very possible for the youth to pull one or even two of them back.

Who wants to be the backing one?

Not only them, but other Nine Tribulations quasi immortals also have this concern.

Their opponents were all Canxians, and they were desperately desperate in the end. It was normal to pull them back.

Even if they could kill all these remnant immortals in the end, they would have suffered heavy losses.

No one wants to be the one who is pushed back.

"You guys, do you still want to go to the theater?"

The old man from Shengguangda Universe suddenly shouted.

"If you want to sit on the mountain and watch the tiger fight, sit back and reap the benefits of the fisherman, thinking that we are fools, and if we don't take action, then everyone should not want to fight for the fragments of the universe."

A master of the Skeleton Universe also coldly drank.

Many people in the Cangqing Divine Realm, including Lu Ming, Liu Song and others, had their pupils contracted and a bad feeling came out in their hearts.

Could it be that there are still masters lurking in the dark?

"I think it's better to solve the problem of the cosmic heart fragment first by the people of the primordial universe, you guys, how about it?"

Suddenly a voice came out in the empty space of the universe.

"can!"

"it is good!"

In the void, several voices responded.

The next moment, the void trembles, and a group of figures emerges.

one two Three...

There are more than a dozen channels in total.

Every figure is shrouded in a thick glow, and the appearance is not clear.

It can only be roughly seen that there are both yang and yin realms.

There is one thing in common, and that is strong.

The breath of every figure is terrifying.

Nine Tribulations quasi immortal!

Chapter 5190: The villain joins the war

The dozen or so figures that appeared behind were actually all Nine Tribulations quasi immortals.

Because the aura they exude is very similar to those of the Nine Tribulations Quasi Immortals before, and they are powerhouses of the same realm.

The Nine Tribulations quasi immortal, it is usually rare to see, they are all in retreat preparing to open the immortal gate, and now there are so many, it is really scary.

This shows that the attraction of the primordial universe is really great.

After all, in its heyday, it was the eleventh largest universe in Yang, and the treasures left behind were too attractive.

If it weren't for the true immortal to come, I'm afraid the true immortal would come.

Now although there are only two of the top ten universes in the Yang and Yin worlds, who knows if there is a master in the higher-ranking universe, but their identity is hidden.

No one can tell.

For example, if these dozen or so of them are covered by glowing light, and they can't see their appearance, there may be even stronger masters in the universe.

Among these people behind, most of them did not receive a powerful reminder from behind to come here, mainly because of the big battle here, and there was too much movement.

More than a dozen Nine Tribulations quasi immortals gave their lives to fight, and even on the other side of the universe, they could feel that these people were all rushed by the great war.

After they arrived, they didn't make a move. They had the idea of sitting on the mountain and watching the tigers fight.

But when someone pointed it out, he simply showed up.

The masters of the Holy Light Universe, the Yuqing Universe, the Skeleton Universe, and the Styx Universe are not fools, and will not give them the opportunity to sit on the mountain and watch the tiger's head and reap the benefits of the fisherman.

"All of them are quasi immortals of the Nine Tribulations, how could this be?"

"Do not!"

Many of the origins of the Cangqing Divine Realm even roared, showing hopelessness.

The original four universes, the 13 Nine Tribulations quasi immortals, have already overwhelmed the five remnant celestial beings of the two races, plus a dozen Nine Tribulations quasi immortals, how can this fight?

with no doubt.

In the prehistoric universe, there is a deep despair in everyone's hearts.

The masters of the outer universe are endlessly emerging.

Mainly, there are too many large universes here.

The entire universe, tens of thousands of universes, how many universes come here?

Too much.

Maybe these are not all.

Who knows if there are any masters hiding in secret, or if there are any masters coming.

How to fight this?

Could it be that the result of the prehistoric universe is already doomed?

Are they destined to be unable to keep the fragments of the heart of the universe, and the primordial universe is destined to enter the Age of Doom, to decline completely, until it disappears into the boundless chaos?

Are they unwilling?

But what if you are unwilling?

Lu Ming, Liu Song, Yao Ye and others clenched their fists, their eyes were blood red, and they wanted to rush out to fight.

However, their strength is too weak, what's the use of rushing out, nine calamities quasi immortal, blowing a breath can blow them to death.

There will be no impact on the game.

"Damn it, if the three kings were alive, would these people dare to be so arrogant?"

Liu Song roared, his body trembling.

boom!

When Liu Song's voice fell, a void exploded somewhere, and a huge fist blasted past one of the three masters of Yuqing Great Universe.

The Nine Tribulations quasi immortal was shocked, and quickly set aside the blue cow, with all his strength to resist.

But it can't stop it.

The fist smashed past, and all the attacks and defenses of Yuqing Great Universe, the Nine Tribulations Immortal, instantly collapsed, and then, a huge fist bombarded him.

what!

The person screamed, his body exploded with a bang, and flesh and blood flew across.

what?

Everyone at the scene, including all the quasi immortals, and the five remnant immortals, were shocked.

One punch, exploded a Nine Tribulations quasi immortal, what kind of combat power was this?

Sin?

impossible.

In today's prehistoric universe, it is impossible for the true immortal power to appear, otherwise the entire universe will be completely destroyed.

Wow!

The Nine Tribulations Quasi Immortal of the Yuqing Great Universe was not dead yet, and his flesh and blood flew to the distance, gathered together, and reappeared.

Although he was not dead, he was extremely injured and his breath was extremely weak.

He stared at the front, staring at the place where the fist appeared.

At this moment, a figure appeared in the void.

This is a middle-aged man, burly and tall as a mountain, standing there at will, giving people an illusion of invincibility.

"The King of People!"

"Ren Wang Xuanyuan!"

The people of Cangqing Divine Realm shouted excitedly.

Lu Ming, Liu Song and others were equally excited and almost jumped up.

But Lu Ming calmed down quickly.

It is the human body, not the human king.

In other words, it is the villain king.

At the beginning of the battle with Dique, the bones of the villain king was destroyed, and the soul entered the body of the king. Now it reappears. Is the king of the villain and the king's flesh blended?

Thoughts turned in Lu Ming's mind.

"Ren Wang Xuanyuan!"

"It's the King of People!"

Those Nine Tribulations quasi-immortals in the outer universe were violently shocked, and the whole body's hairs were erected, and a chill rushed from the soles of their feet to the heavenly spirit cover.

You will run away subconsciously.

The name of the person, the shadow of the tree.

Among them, although most of them have never seen Wang Xuanyuan, who has never heard of Wang Xuanyuan?

But looking at the universe, they are all peak powers.

Even the Shengguang Great Universe, Yuqing Great Universe, which ranks among the top ten in Yang, can rival Wang Xuanyuan, and there are only a handful of existences.

Want to kill them, don't be too easy.

"No, it's not the real King of Humans. Human King Xuanyuan has long been dead. Before fighting Dique, he was just instinct and he couldn't exert much power at all."

A master of the Skeleton Universe shouted.

"Yes, the great power behind me has been deduced before. Wang Xuanyuan has completely fallen. There is no trace of it. In order to seal the truth, it consumes a lot of money. Now it is the soul of the villain who has fallen. It's not to be afraid of being under the immortal way.

The Nine Tribulations Quasi Immortal whose body was exploded before Yuqing Great Universe also shouted.

The villain king was strong in his lifetime, with a cultivation base, far surpassing ordinary true immortals, and reached the realm of immortal kings.

But no matter how strong it is, as long as it is in the prehistoric universe, it will fall to its realm.

The hearts of everyone are determined.

Not to be afraid.

"Those who dare to seize the heart of the prehistoric universe will kill without mercy!"

The King of Humanity spoke physically, with a low voice, but there was a penetrating majesty that people did not dare to despise.

"The villain king, it really is you."

A master who was shrouded in the sun opened his mouth, with a compelling breath, without fear, even stepping forward, showing a strong fighting spirit.

"Today just happens to catch you all in one go."

Another master who was covered in Xiaguang moved forward. This was a strong man in the underworld.

"Everyone, Human King Xuanyuan has long since fallen, and now it's just the soul of Little Human King who has entered the Lord, and the realm is the same as ours, so what's the fear? Let's do it together and destroy him in the same way."

A master of Yuqing Universe shouted.

"Yes, shoot!"

Boom boom boom...

Powerful beings stepped forward and forced their way toward the human body.

"kill!"

The human body, to be precise, was the villain king yelling and slamming his fist, staring at one of the masters.
