

D Emperor 5191

Chapter 5191: Flying Phoenix and Jian Ancestor

boom!

The villain king entered the body of the master king, and his strength was amazing. After a period of adjustment and recovery, it was stronger than when it was in the original battle.

The Nine Tribulations Quasi Immortal, even though he tried his best, was still lost and was defeated at once.

puff!

The fist of the little king directly penetrated this person's body, and then split and tore, this person's body was torn apart.

However, the Nine Tribulations quasi immortal is really hard to die.

After the Nine Tribulations, it can be said that it has survived nine deaths, and it can be said that it possesses a trace of the true celestial characteristics.

His body turned into light rain and condensed not far away.

It's just that, like the one from Yuqing Universe before, he was hit hard and his breath was sluggish.

"Shoot, don't let him target one person."

"kill!"

In an instant, at least six quasi immortals attacked the villain king together.

Even if the villain king is stronger, facing the six Nine Tribulations quasi immortals, he still faces great pressure.

One-on-one, he can crush his opponent strongly, and then take advantage of the situation to attack frantically, wanting to completely wipe out one person, it is not difficult.

But in the face of a siege of many people, he could not concentrate his strength to deal with one person at all.

Will be severely disturbed.

When he wants to concentrate on one person, others will block him.

After all, he has also fallen to the realm. To be precise, the realm is also the Nine Tribulations Quasi Immortal. Just like other people, relying on the strength of the human king's flesh can crush the powerful at the same level.

The main thing is that this is the human body of the King of Humans, not his own, and he can't use it freely. Many methods can't be used, and he can only use brute force.

The six Nine Tribulations quasi immortals temporarily held back the villain king.

"Resolve the others first, and work together to deal with the villain king."

Someone spoke, intending to take action to solve the other five remnant immortals.

Relatively speaking, the other five remnant immortals are better to deal with, because their immortal bodies have already degraded and it is not difficult to kill them.

And the flesh of the little king is the flesh of the king. Although it has been somewhat degraded because of the lack of repression, the king is too strong during his lifetime, and his flesh is solid and immortal. It is too difficult to destroy.

Only to kill the other remnants first, concentrate on dealing with the villain king, and destroy the soul of the villain king by the method of soul attack.

The other quasi immortals must take action to help Yuqing Great Universe, etc., to obliterate the five remaining immortals.

But at this moment, all the Nine Tribulations Quasi Immortals suddenly stopped, and in the midst of it, I felt a crisis.

"Who?"

Suddenly, a quasi immortal of the Nine Tribulations yelled and slapped a palm towards the void in a dazed manner.

boom!

The void burst and turned into chaos.

In the chaos, a palm was stretched out.

It is the palm of a woman, with white palms and onions like onions, very beautiful.

The white palm of his hand collided with the palm of the Nine Tribulations Quasi Immortal, and there was an earth-shattering roar.

With two palms as the center, the void of hundreds of millions of miles burst, the power of destruction roared, and there was chaos.

The Nine Tribulations quasi immortal snorted and retreated violently.

It can be seen that his palm, including his entire arm, is like porcelain, covered with cracks.

puff!

The man vomited blood with a horrified expression on his face.

The other Nine Tribulations quasi immortals were also shocked.

who? Could it be that it's another candid immortal? The combat power is so terrible?

Ahead, chaos surging, a figure emerged.

It's a woman, dancing in a black long dress, she is beautiful and graceful.

"Senior Feihuang!"

Lu Ming couldn't help exclaiming.

It's actually a flying phoenix!

The one who shot just now was actually Feihuang, who injured a Nine Tribulations quasi immortal with one palm. The combat power was incredible.

The flying phoenix in the era of the Heaven Extinguishing Army barely matched the original source of combat power.

"The Senior Feihuang at that time was just an incarnation, and the body has been cultivating in a mysterious place. This must be the real body of Senior Feihuang, but the strength is too strong."

Lu Ming's thoughts turned sharply, still feeling shocked.

Of course he didn't know that Feihuang and Tang Feng had been practicing in the same Jedi for thousands of years. They had gone through deaths, but they had made great progress and passed the barriers continuously.

"Feihuang?"

Liu Song and others were surprised.

They have not heard the name.

"East Universe, a senior I know."

Lu Ming quickly explained.

"Eight Tribulations Quasi Immortals!"

The Nine Tribulations quasi-immortals in the outer universe completely covered Feihuang with spiritual sense, and the cultivation level of Feihuang could be seen all at once.

Only the Eight Tribulations quasi immortal.

This was beyond their expectations.

One palm wounded a Nine Tribulations Immortal. From their point of view, the person who shot was at least the Nine Tribulations Immortal, or even a Remnant Immortal. Why else would he have such combat power?

Unexpectedly, it was just a quasi immortal of the Eight Tribulations, which was a bit scary.

Especially the Nine Tribulations Quasi Immortal who was injured by Feihuang just now, his face was gloomy, and his eyes flashed with murderous intent.

"It's just a quasi immortal of the Eight Tribulations, how strong it can be, kill!"

Another Nine Tribulations quasi immortal, covered by nine cold halos, was a master from the underworld. He held a battle axe and slashed towards Feihuang with an axe in his hand.

Feihuang stood there, motionless, with no intention of fighting back.

In an instant, the axe approached Feihuang, and it was about to hit Feihuang, but Feihuang still did not move.

The hearts of Lu Ming, Liu Song and others couldn't help being raised.

Even the three ancestors of the Cangqing Divine Realm and the two demon immortals of the Demon Race had their hearts raised.

They don't know Feihuang, but they can see that Feihuang is a creature of the prehistoric universe.

In the Primordial Universe, in addition to these remnant immortals, a powerful person like the Eight Tribulations Quasi Immortal was born, which was beyond their expectations.

You know, the former great universe was in ruins, and the rules of order were chaotic.

The cultivation conditions were too bad, and although he recovered later, he ushered in a catastrophe of origin.

In other words, in such a cultivation environment, being able to cultivate to the Eight Tribulations Quasi Immortal is simply a miracle.

There is also a fate.

They could see that in the heyday of soul and fate, it should be the seven calamities quasi immortal.

These people in later generations have amazing talents.

But why not dodge? Don't fight back?

They are anxious and want to be rescued, but where can they be too late?

Even if it is too late, they are entangled and can't take care of themselves. How can there be more energy?

Keng!

The sound of sword ming resounded through the void, as if it had come from ancient times.

Afterwards, behind Feihuang, a sword light flew like a flying fairy outside the sky.

Gorgeous, fast, unstoppable.

when!

Jianguang slashed on the axe, and the axe shook tremendously, and the infinitely small sword energy rushed along the axe towards the Nine Tribulations Quasi Immortal.

The face of the Nine Tribulations Quasi Immortal changed drastically, and he realized that he could not hold the battle axe.

This battle axe is a quasi-celestial soldier of the Nine Tribulations. He has spent the nine immortal Tribulations together with him. It is simply a part of his body. Under normal circumstances, it is impossible to get out.

But the power of that sword light was too strong, and it was useless for him to try his best to contend.

With a buzzing sound, the battle axe flew out, and the sword light kept slashing from the head of the Nine Tribulations Immortal.

puff!

The sword light flashed, and the Nine Tribulations Quasi Immortal stiffened, with an incredible color in his eyes.

"I'm not reconciled..."

The person yelled, but before he could say anything, infinite sword energy burst out of his body, tearing him to pieces.

The root and soul also turned into nothingness in the sword qi.

Chapter 5192: Xue Bi'an, one of the strongest creatures under the immortal

Both form and spirit are destroyed!

A quasi immortal of the Nine Tribulations was beheaded by a sword, and his body and spirit were destroyed.

impossible?

The first reaction of everyone was that it was unbelievable and impossible.

But the facts are in front of them, and they cannot tolerate their unbelief.

This is a quasi immortal of the Nine Tribulations, who survived the ninefold immortals and survived, only one step away, he was detached and became immortal.

Now, he was actually beheaded by a sword.

This is the first Nine Tribulations quasi immortal to fall since the outbreak of this war.

Before the villain king shot, he could not kill a Nine Tribulations Quasi Immortal. Although the Nine Tribulations Quasi Immortal was torn apart, it was not completely killed.

But now, a sword light completely wiped out a Nine Tribulations quasi immortal.

Some of the Nine Tribulations Quasi Immortals in the outer universe felt chills in their hearts.

At this time, they saw the true face of that sword light.

It is a long sword.

The sword body is simple and simple, filled with calamity light, this is a quasi immortal soldier of the nine calamities.

Huh!

The long sword flew into the hands of a man.

This is a young man who looks like a young man in his twenties. He is tall and straight, with sword eyebrows and star eyes, between the eyebrows, filled with unspeakable domineering.

This person, from behind Feihuang, step by step, stepped into the air.

"Sword Ancestor, Sword Ancestor!"

Lu Ming couldn't help getting excited.

How could he not know this person, although it was the first time I saw him.

But for this person's appearance, it has long been clear to the chest.

Jianzu Tang Feng, the father of Xie Nianqing's previous life.

Speaking of which, he is his old man.

Ever since he came into contact with the people from the Heaven Extinguishing Army, he has often heard people mention the sword ancestor, and when everyone mentions it, he has a look of admiration.

Because he is a legend.

Like Lu Ming, he walked out of the small world, but rose against the sky and created the Heaven Extinguishing Army to fight against the Heavenly Palace.

I have to say that the situation at that time was more difficult, much more difficult than the situation Lu Ming faced at the beginning.

Because, at that time, Tang Feng, Feihuang and others had no backers behind them, no one to support them, and they had no choice but to fight the Heavenly Palace alone.

Unlike Lu Ming, at least there is an Exterminating Army behind him.

Therefore, Jianzu Tang Feng also paid an unimaginable price.

Two wives, one dead and one injured.

The two daughters also died in battle.

If it hadn't happened to have reincarnation matter, Xie Nianqing and Tang Jun would be difficult to reproduce.

Lu Ming has always admired this legend, but he has never been able to see the true face.

Unexpectedly, they would meet on such an occasion, and as soon as they shot, they would kill a Nine Tribulations quasi immortal, shocking the audience.

"Forbidden Sword Ancestor, Tang Feng!"

The four elders of the Celestial Race were shocked at this time, and their eyes were full of horror.

For Sword Ancestor, they uttered instinctive fear.

Especially now, it is incredible to be able to kill the Nine Tribulations quasi immortal.

When I saw Tang Feng last time, Tang Feng was only five calamities quasi-immortals. How many years have passed since, how could he make such rapid progress?

They couldn't read it wrong, Tang Feng's breath had clearly reached the Nine Tribulations Immortal.

At the time of the Five Tribulations Quasi Immortals, their combat power was already shocking the world. Although they were the Seven Tribulations Quasi Immortals, they were not opponents at all.

How strong is it to reach the Nine Tribulations Quasi Immortal now?

They were shocked, and their shots were a little chaotic, allowing Soul Fate to find a chance to breathe.

"Is this the taboo body that appeared behind me? It's really too strong."

Even the soul fate, they all sighed.

This level of combat power seems, possible, certain... better than him.

"Today, wait, it's all gone."

The sword ancestor Tang Feng appeared, with only such a sentence, before the words fell, he shot again.

Another sword light astounded ancient and modern times, and slashed towards another Nine Tribulations quasi immortal.

The Nine Tribulations quasi-immortal was shocked, instantly boosting his power to the extreme, evading with all his strength, and at the same time defending with all his strength. In an instant he deployed thirty-six layers of defense.

However, Jian Guang seemed to lock him, no matter how he dodges, it is useless.

puff!

The next moment, he was cut by Jianguang, and all 36 defenses were penetrated.

In the end, Jianguang slashed on the battle armor on his body. The battle armor only whispered for an instant before being penetrated. The person screamed, his body flew out, and he constantly vomited blood.

It can be seen that in his body, sword energy is constantly rushing out, and flesh and blood are flying everywhere, which is terrible.

But in the end, he resisted and did not die.

But although he was not dead, he was already weak, and he was seriously injured.

"The battle armor of the Eight Tribulations quasi-celestial soldiers was actually penetrated."

Some people's faces are extremely solemn.

This time, although a Nine Tribulations Quasi Immortal was not completely obliterated, it was equally shocking.

Because this Nine Tribulations Quasi Immortal, under full defense, was useless, even the Eight Tribulations Quasi Immortal Armor was penetrated.

It's horrible.

With another sword, this person will die.

Lu Ming, Liu Song and others, as well as the origin of the Cangqing Divine Realm and all the quasi immortals, were all excited.

Tang Feng is so powerful, can he block the people in the outer universe and keep a piece of the heart of the universe.

"Get together, don't be broken by him."

Someone yelled.

The remaining Nine Tribulations quasi immortals moved closer together, blended in their auras, ready to join forces to fight Tang Feng.

But one person did not move.

This is a figure about three meters in height, adult-like, with a mysterious glow shrouded in the body, and the appearance is not clear.

He had shot with the other Nine Tribulations quasi immortals before, but he hadn't shot or moved, just stood there quietly.

It seems that there is no plan to make a move, and he has not spoken.

"Interesting, really interesting. I didn't expect that there are such masters in this broken universe. I didn't come here in vain."

At this moment, this figure spoke.

His eyes were like two stars, shining brightly, staring at Tang Feng, and then, step by step, walking towards Tang Feng.

boom!

A horrible breath erupted from this person, and the level of horror was far higher than the other Nine Tribulations Quasi Immortals.

The glow on his body also converged, revealing his true expression.

This is a handsome and excessive young man, three meters tall, covered in black armor, and on the center of his eyebrows, there is a strange notch, like a petal.

Judging from the breath, there is no doubt that this person is from the underworld.

"Xue Bi'an, he is Xue Bi'an."

After seeing this person's appearance, someone exclaimed.

"It's really Xue Bi'an."

"Yes, it's him, it's Xue Bi'an, he actually dared to come to the prehistoric universe."

Even the Nine Tribulations quasi immortals of the Shengguang Great Universe, the Yuqing Great Universe, and the Bone Great Universe all exclaimed.

Without him, Xue Bi'an is too famous and too strong.

This person comes from the universe beyond the underworld.

The Great Universe on the other side ranks third among the tens of thousands of Universes in the Underworld.

The overall strength is much stronger than that of the Skeleton Universe and the Holy Light Universe.

And Xue Bi'an, dare to use the name "Bi'an", you can imagine how extraordinary it is.

He is known as the quasi immortal number one in the universe.

Not only that, in the entire universe, among all the quasi immortals, he can rank in the top twenty.

Under the Immortal Dao, the twenty strongest creatures.

Chapter 5193: Desperate situation

Xue Bi'an, known as one of the twenty strongest creatures under the Immortal Dao.

Note that this is the entire universe, including the Yang and Yin worlds.

This is terrifying.

Because, there is the big universe between the sun and the universe with the yellow sky in the yin realm. The two are at the peak of the yang and the yin realm, respectively ranking first.

The Cangtian and Huangtian tribes are extremely ancient. It is impossible to tell how many years they have existed. Their talents are amazingly high. In the universe, there is no third race that can compare with the two races.

According to ancient legends, the two races are creatures bred from the Yin and Yang universe, and they are closely related to the universe.

Almost all of the strongest people in the past were occupied by the Cangtian and Huangtian clans. Few people in other universes and races could compete with these two 'celestial clans'.

Among the strongest group of people under the Immortal Dao, most are occupied by the two 'celestial clan'. Xue Bi'an can be ranked in the top twenty, which shows how strong he is.

In the future, this person will be a creature that can become a 100% immortal king.

Those nine calamities quasi immortals in the outer universe showed joy.

With Xue Bian's move, Tang Feng was carefree.

"Leave this person to me, and you can deal with others."

Xue Bi'an stared at Tang Feng with a hot flame in his eyes, as if staring at the prey.

"kill!"

Tang Feng was very overbearing, too lazy to talk nonsense, and shot directly, with sword light shaking the sky, and slashing towards Xue Bi'an.

"The flowers on the other side bloom, the blade of extinguishing immortals!"

Xue Bi'an drank low and waved his hand, a terrible light broke out.

The sword light and the sword light seemed to have broken through the universe and collided in the chaos. Suddenly, the endless and terrifying sword energy and the sword light swept all directions.

"Retreat!"

Around, the other Nine Tribulations quasi immortals were shocked, and they dared not get too close, retreating into the distance.

Even with their strength, they are afraid of being swept in.

Boom boom boom...

The speed of Tang Feng and Xue Bi'an's confrontation was too fast, and they fought dozens of moves in an instant.

At this moment, everyone's discoloration changed suddenly.

Especially those masters in the outer universe were shocked.

Tang Feng could really fight Xue Bi'an.

Horror, shock, incredible.

Is this still a broken universe?

"The human race is really terrifying. The three kings of humans were born that year, and they rose quickly and almost rushed into the top ten of the world. People of this race really can't stay, they should be destroyed."

"Yes, today, they must be killed."

"To join forces, kill other people first, then kill that guy, you must get rid of him, or in the future, maybe you will be another king."

Those strong men in the outer universe quickly reached an agreement, and then they attacked with all their strength.

The three ancestors of the Cangqing Divine Realm, the two remnants of the demon clan, had fought for so long and fought extremely horribly. They were all injured, their bodies were covered with wounds, and the blood was flowing non-stop.

And the villain king, facing the six great nine calamities quasi immortals alone, he can barely contend.

His body is unparalleled, but his soul is not that strong.

At the peak of the villain king, the soul was naturally extremely powerful, but in the past few years, it has fallen to the realm. In the first battle with Dique, the soul was even more seriously damaged, and it has not recovered in these years.

Of the six masters who besieged him, two of them were good at soul attacks, which restrained the villain king.

In addition to these, there are still five Nine Tribulations quasi immortals.

There were originally seven people who were shot by Tang Feng, one dead and one injured. The injured one was difficult to shoot in a short time, and only five were able to shoot.

The five Nine Tribulations quasi immortals focused on Feihuang and forced them to leave.

"kill!"

The five Nine Tribulations quasi immortals shouted, and together they slew towards Feihuang.

Feihuang was fearless, facing up, boundless demonic energy erupted, and fought against the five Nine Tribulations quasi immortals.

What is shocking is that with the cultivation base of the Eight Tribulations Quasi Immortals, Feihuang actually temporarily resisted the five Nine Tribulations Quasi Immortals.

The people in the Cangqing Divine Realm are overjoyed, can it be possible to block the masters of the outer universe today?

However, overjoyed immediately turned into anger.

Because the situation on the battlefield changed again in a flash.

In the void, several figures appeared again, all exuding an astonishing breath.

The Nine Tribulations quasi immortal is also the Nine Tribulations quasi immortal.

One, two...

There are a total of twelve courses.

"Do not..."

Many people yelled and looked desperate.

The masters of the outer universe are endlessly emerging, constantly coming.

Before, there were already more than 20 Nine Tribulations quasi immortals. At this time, twelve appeared again. How do you fight this?

At this moment, even the three ancestors of the Cangqing Divine Realm and the two demon immortals of the Demon Race all showed a look of despair.

Thirty Nine Tribulations quasi immortals, this is an extremely terrifying number.

In some weak and small universes, there are no immortal creatures sitting here, and nine calamities quasi immortals, that is the ruler of a universe and can be called the king of the universe.

But now, it is like a Chinese cabbage on the side of the road, continuously appearing.

It can only be said that the treasures left by the prehistoric universe are so attractive that even the Nine Tribulations Quasi Immortal cannot sit still.

These Nine Tribulations Quasi Immortals cannot belong to the same universe.

In the same big universe, it is very difficult to dispatch so many Nine Tribulations Quasi Immortals at once.

These Nine Tribulations quasi-immortals come from different universes, both in the Yang and Yin realms.

At this time, they all have a common idea, which is to get rid of these masters in the prehistoric universe.

Some people have arrived before and have been hiding in the dark without taking any action. Some people have just arrived.

But they couldn't help but want to shoot now.

"kill!"

Among the twelve new immortals of the Nine Tribulations, two of them drank softly and killed the villain king.

In this way, the eight Nine Tribulations quasi immortals besieged the villain king.

Moreover, these two Nine Tribulations quasi-immortals are also good at soul attacks. As a result, the villain king becomes more passive. His soul is continuously attacked. You can see that there is a ray of light and rain on his body. dissipate.

This is a symptom that some souls are broken up.

If it hadn't been for the soul of the villain king to be tough and tough, he would be able to stand it down, and if he changed to another person, his soul would have dissipated long ago.

bump! bump!

Two more people stepped out, and they killed the ancestor of Wunian in the Cangqing Divine Realm and the phoenix of the Demon Race respectively.

The ancestor of Wunian and Phoenix had fought independently against the three Nine Tribulations quasi immortals. They were very passive and fell in the wind.

At this moment, a quasi immortal of the Nine Tribulations was added, and their situation immediately became very bad.

The phoenix screamed, one wing was pierced by a black and gold spear, and flesh and blood feathers flew randomly.

The ancestor of Cangqing Divine Realm, Wunian, was also invincible. He was slashed by a war sword and coughed up blood.

The new Nine Tribulations Quasi Immortal shot, completely changed the battle situation.

There were also eight Nine Tribulations quasi immortals who did not take action. They scanned the audience, sweeping the battlefield between Feihuang and the five Nine Tribulations quasi immortals, the battlefield of the other two ancestors of the Cangqing Divine Realm, and the blue cow's. battlefield...

They are all with one enemy and many, if there are more powerful players to join, the situation will be overwhelmed.

"You can't do it alone, so come here."

Deep in the distant void, there was a loud shout, and then the sound of the sword sounded, and a few terrible sword lights burst out, slashing towards the remaining eight Nine Tribulations Quasi-Sages.

It was the sword ancestor who made the move.

Chapter 5194: Xianyu

Tang Feng, the taboo sword ancestor, took action when he was fighting Xue Bi'an, cutting out the terrible sword light, and wanted to drag the remaining eight Nine Tribulations quasi immortals into the battle group with one person.

He knew very well that the eight Nine Tribulations quasi-immortals had taken action, and the others couldn't hold them, and they would definitely die.

"Your opponent is me."

Xue Bi'an roared.

Tang Feng looked down on him too much. While fighting him, he actually wanted to bring other people into the battle group.

But after a battle, he really felt more and more pressure, and he felt that the opponent's sword light was endless, and gradually, he actually had a tendency to fall behind.

This is simply incredible.

Who is he, the number one master under the immortal path of the Great Universe, ranks in the top ten among the quasi immortals of the entire underworld.

Except for the abnormalities of the Huangtian clan, he is almost invincible under the Immortal Dao, but now, in a dilapidated universe, there are people who can suppress him.

He screamed and tried his best to reverse the situation, but it was useless.

The eight Nine Tribulations quasi immortals took action together, blocking Tang Feng's sword light.

"Crazy person, then kill you first."

A Nine Tribulations quasi immortal snorted coldly.

"Yes, you can get rid of this person first."

Someone else nodded.

Are ordinary people who can reach the Nine Tribulations Immortal? They are peerless evildoers when they are young, and the strong of one party are all arrogant.

Now, while Lu Ming was fighting Xue Bi'an, he still wanted to attack them, making them extremely unhappy.

Some people shifted the target and planned to join forces with Xue Bi'an to get rid of Tang Feng.

Swipe it!

At the same time, five quasi immortals of the Nine Tribulations rushed into the battlefield between Tang Feng and Xue Bi'an and launched a lore on Tang Feng.

Xue Bi'an looked gloomy, but did not refuse the help of these people.

He knew very well that he alone could not help Tang Feng today. He had to join hands with others.

The addition of five Nine Tribulations quasi immortals greatly increased Tang Feng's pressure, and the offensive could not help being slowed down, turning into less offense and more defense.

There are still three Nine Tribulations quasi immortals who have not moved.

bump!

One of them took the shot and joined the battle group that besieged Feihuang.

As a result, there were as many as six Nine Tribulations quasi immortals besieging Feihuang.

Even if Feihuang was against the sky, it would be invincible.

After all, she is only eight calamities quasi-celestial, and she has fought less than others. She was able to fight five with one battle before, which is already against the sky.

That is the ultimate display, in a short period of time, the combat power will be urged to the extreme.

Over time, Feihuang will lose.

At this moment, another Nine Tribulations Quasi Immortal joined the battle group, and the balance was instantly broken.

Two sword lights slashed towards Feihuang's face and back of his head.

Above the head, a pagoda was suppressed, and a spear stabbed at the back.

A battle sword and a long spear directly hit the key points of Feihuang's Dantian.

Feihuang drank lightly, the devilish energy rushed into the sky, and the sky was full of flowers and rain, turning into infinite sword light, and slashed in all directions.

At the same time, she waved her hands repeatedly, bombarding her with infinite palm prints, shaking the firmament of the universe, so powerful that even the Nine Tribulations Quasi Immortal would change color.

If she fights alone, she can instantly severely injure a Nine Tribulations quasi immortal.

But after all, the other party has six people.

Five of them were blocked, but a single blade of light broke through Feihuang's defense and almost cut her in two.

Feihuang flew out, his face was a little pale, and a terrible wound appeared on his chest.

On the wound, there were countless tiny blade lights that were invisible to the naked eye, continuously destroying Feihuang's body.

Feihuang uses the power of the taboo origin to get rid of these blade lights and quickly repair the wounded body.

"Hit my extinction knife, it's not so easy to recover, so I will destroy her completely in one go."

The Nine Tribulations quasi immortal with the knife shouted, the sword light burst into the sky, and he launched a frenzied attack.

The same was true for the other five people, a terrifying offensive that almost drowned Feihuang.

Feihuang could only dodge with all his strength, and for a time, it was difficult to fight back.

And the other two Nine Tribulations Quasi Immortals who didn't make a move also made a move.

One joined the battle group and besieged the blue cow.

An old white-haired woman who joined the battle group and besieged the Cangqing Divine Realm.

The two of them were invincible at first, and now they are completely side by side.

Mou!

The green bull howled, a corbel was chopped off, blood-stained field control.

The old white-haired woman with disheveled hair was pierced with a punch in her chest, and her front and back were translucent.

"dead!"

Besieged their masters and attacked frantically.

This time, Qing Niu's head was chopped off, and someone punched it down, exploding Qing Niu's head.

"Do not!"

The Yaozu phoenix roared and wanted to rescue.

But she herself was besieged by four Nine Tribulations quasi immortals, which was precarious. At this moment, she was distracted and almost had her head beheaded.

Other people are also unable to rescue.

It's too awful!

The prehistoric universe exists here. Although the combat power is extremely high, the number is too small, and there are too many masters facing each other. Everyone is besieged by many powerful men, and it is impossible to protect themselves, let alone save people.

"Damn, damn..."

Liu Song, Lu Ming and others clenched their fists tightly together, trembling all over, their eyes flushed.

They hate that their cultivation base is too low, and they hate that they can't participate in the war.

"I want to go to war, I want to go to war, the king will break the sword, recover, and give me strength."

Lu Ming roared and took out the Renwang Broken Sword, expecting Renwang Broken Sword to recover.

It's a pity that he didn't dare to input power, but the king broke the sword without any reaction.

"Mou!"

At this moment, a bull roar resounded throughout the universe.

Although the blue cow had its head decapitated, it would not die as long as the soul did not die.

His head was reborn, the blood was boiling, and he suddenly rushed out, knocking a Nine Tribulations quasi immortal into flight.

The Nine Tribulations quasi-immortal's chest collapsed, and even his body armor burst to pieces, his bones and flesh flew across, and he was severely injured.

However, the attacks of the other two all fell on Qing Niu, tearing Qing Niu's body to pieces.

But Qing Niu is still alive, and the body is rapidly reorganizing.

"My primordial universe will rise, kill, and eventually kill all of you little people..."

The green bull roared, ignoring the injury and other people's attacks, staring at the wounded person exclusively.

Huh!

The blue cow turned into blue light, and rushed to the injured Nine Tribulations Quasi Immortal, the sky filled with blue light, and this person was drowned.

"Come and save me."

In the clear light, the frightened voice of the Nine Tribulations Quasi Immortal came out.

"you dare..."

"kill!"

The other two showed their lore, and slammed to the blue cow.

That area was completely blown up.

boom!

Then there was a terrible roar and a screaming scream.

The scream came from the injured Nine Tribulations quasi immortal.

The Nine Tribulations Quasi Immortal was completely wiped out.

However, Qingniu also paid the price of his life.

His soul was torn and wiped out.

boom!

The blue light suddenly boiled, and the two Nine Tribulations quasi-immortals quickly retreated and withdrew from the blue light.

One of them, in tatters, was obviously severely injured.

"Hmph, finally killed, what about the immortal, isn't it about to die?"

A Nine Tribulations quasi immortal snorted coldly.

I saw the blue light turned by the blue cow, quickly dissipating, and in the end, only a phantom appeared in the void.

"Green Bull."

The phoenix roared.

Chapter 5195: Tang Feng Kouxianguan

The phoenix roared, his voice full of anger and sorrow.

She knew that the blue cow had fallen, this was a ghost, just a leftover mark of the blue cow.

"Goodbye, old friend!"

Qing Niu Xuying glanced at Phoenix, then quickly became dim, and was about to dissipate completely.

"I firmly believe that the great famine will rise here and return to the original prosperity, but unfortunately, I can't see it anymore..."

"Latecomers, the Great Universe, I will leave it to you."

The last voice of Qing Niu reverberated in the universe, and his phantom, completely dissipated, disappeared between the heaven and the earth.

At this moment, the universe is shaking, Tianhe is dim, and it seems to be mourning the fall of an immortal.

what!

The phoenix roared, and furiously launched a counterattack. With wings like a heavenly sword, he flew a Nine Tribulations quasi-immortal and vomited blood.

But after all, she was only one person. She was attacked by other people, and she was also wounded. The sky was full of Phoenix feathers.

Other people in the primordial universe are also boiling with blood, and those primordial monster races are screaming desperately.

"Human King Broken Sword, revive me, aren't you King of Man's Sabre? Now that the Majestic Universe is facing a critical moment, you still don't revive and take me to war..."

Lu Ming growled low.

Hum!

This time, Ren Wang Duanjian reacted.

"The sword is coming!"

The sword ancestor Tang Feng, with long hair dancing wildly, like a **** or devil, with a loud roar, the war swords of the whole universe tremble, like a pilgrimage.

At this time, as long as it is in the primordial universe, no matter where it is, as long as it is a war sword, it trembles slightly.

"what happened?"

"My war sword, how could there be a change?"

Everywhere in the universe, many powerful people in the outer universe are all in awe, and they are all trying to control their war swords.

Even the existence of the quasi-celestial level is like this.

The Man Wang Broken Sword in Lu Ming's hand throbbed even more severely, and then flew out of his hand, shattering the void, and instantly appeared in the hands of the sword ancestor Tang Feng.

Renwang Broken Sword, after appearing in Tang Feng's hands, the weather burst out, a terrifying sword light crossed out, and Xue Bi'an and the others who besieged him retreated sharply, avoiding the sword light.

"Broken fairy soldier, do you want the Primordial Universe to be completely annihilated?"

Xue Bi'an's face was gloomy.

At the same time, a war knife appeared in his hand.

This is also a broken fairy soldier.

A breath of terror emerged from the saber.

boom!

The breath of the human king's broken sword collided with the breath of the saber, and the universe was roaring.

The faces of the others changed.

Even the broken fairy soldiers were urged to the extreme, and if they confronted each other, their power would be extremely terrifying, and the broken prehistoric universe might not be able to bear it.

Therefore, although a few people came with broken fairy soldiers, such as Wang Gu of the Styx Universe, they have not used them except for breaking the seal of the Cangqing Divine Realm before. They are just afraid of this.

"Humph!"

Jian Ancestor snorted coldly, swept out a sword, forcibly retreated other people, and then turned into a sword light and rushed out of the siege.

After he rushed out of the heavy encirclement, he rushed towards the Cangqing Divine Realm and landed on the highest mountain in the Cangqing Divine Realm.

In an instant, Tang Feng's breath seemed to merge with the Cangqing Divine Realm.

His breath suddenly strengthened.

Then, in Tang Feng's hand, a small tower appeared, the size of a thumb, like a beautiful jade.

bump!

Tang Feng squeezed his finger and the small tower was crushed. In the next moment, a continent emerged out of thin air, rapidly growing, and finally joined the Cangqing Divine Realm.

This continent has a part of the gap, which is completely consistent with the part of the gap on the edge of Cangqing, and is perfectly glued together.

"The Fragment of the Heart of the Universe is the Fragment of the Heart of the Universe."

"He also has one in his hand."

Many people yelled.

The others are shocked.

Tang Feng actually had a piece of the Heart of the Universe in his hands.

Take it out at this moment, and the two cosmic hearts are fused together.

"The heart of the universe, all appeared."

Lu Ming whispered.

The people in the outer universe got two pieces. Now, Tang Feng took out one piece, and the other piece was Cangqing Divine Realm.

The last piece should be Hong Huang Jie, in Lu Ming's hands.

It's five yuan in total, and we are all here.

boom!

The two cosmic hearts merged, and the ancient aura that it exudes became even stronger.

And Tang Feng's breath blended with the fragments of the heart of the universe, becoming stronger, billowing like wolf smoke.

"He wants to knock on the fairy gate and hit the fairyland."

The Nine Tribulations Quasi Immortal of the outer universe exclaimed.

"Knocking on Xianguan in the war, this guy is crazy."

"The heart of the universe has only two pieces. It is incomplete and the rules are chaotic. It is impossible for him to break through successfully."

Nine Tribulations quasi immortals spoke in succession.

It's not so easy if you want to knock on the immortal gates and prove the Dao to become immortal.

Knock Xianguan can be said to be more dangerous than the Nine Tribulations. Otherwise, there would not be so many Nine Tribulations quasi immortals staying at this step. Even in history, countless Nine Tribulations quasi celestials fell in the Kwun Xianguan. At this step, the ashes disappeared, and the death disappeared.

Moreover, it was in a perfect environment and well prepared.

Now, in an environment like the prehistoric universe, how could it be possible to open the fairy gate? It's impossible.

"Don't be careless, go all out to stop him."

Xue Bian said.

I don't know why, he instinctively feels crisis towards Tang Feng.

He himself is the peerless evildoer among the peerless evildoers. He knows that the existence of this level cannot be measured by common sense. He can often turn the impossible into possible and create miracles.

Although this chance is very small, he will be obliterated in the cradle.

Xue Bi'an urged the broken sword of the immortal soldier to kill Tang Feng.

Tang Feng brandished the King Broken Sword, the swords intersected, the heaven and the earth roared, and the universe shook.

Fortunately, Tang Feng stepped on the Fragment of the Heart of the Universe, and at this moment, the two pieces of the Heart of the Universe were fused, and most of the power was absorbed by the Heart of the Universe, and it did not cause cosmic turbulence.

Suddenly, the sword in Xue Bi'an's hand showed a figure, standing upright, with strong aura and unparalleled dominance.

That was the figure of the owner before the sword.

This voice stretched out a big hand and grabbed Tang Feng.

But at this moment, Renwang Broken Sword also appeared a figure.

"Father!"

The villain king roared.

This figure is exactly the same as the human body.

It's Wang Xuanyuan!

However, this was not the will left by Ren Wang Xuanyuan, but the power of Ren Wang Sabre was revived. Because he was always with Wang Xuanyuan, his form would be the same as Human Wang Xuanyuan.

Two figures collided in the air.

The two broken immortal soldiers froze in a stalemate and resisted each other.

"Kill! Stop him from breaking through."

Xue Bi'an killed Tang Feng.

The other five Nine Tribulations quasi immortals also killed Tang Feng and prevented Tang Feng from breaking through.

"roll!"

Tang Feng drank coldly, holding his own sword, slashing out the sky-shattering sword aura, sweeping across the six masters including Xue Bi'an.

Xue Bi'an was extremely strong, not much weaker than Tang Feng, broke through the heavy epee light, and slammed close to Tang Feng.

The six masters besieged Tang Feng's momentum to rise.

"Plus us."

The two Nine Tribulations quasi immortals who had besieged Qingniu before also slew Tang Feng.

Besieged Tang Feng by the eight masters.

Chapter 5196: Lu Ming joins the war

Eight masters besieged Tang Feng, and with such masters as Xue Bi'an, Tang Feng's breakthrough was blocked, and the situation was extremely bad.

It is too far-fetched to fight against eight masters and Xue Bi'an with one person's power. Not to mention a breakthrough, even if it is self-protection.

After a few moves, Tang Feng was wounded and hit by Xue Bi'an, bloody.

In fact, Tang Feng's situation was not the worst. The others were even worse. Everyone was injured and the situation was quite bad.

"Block them, you must block them, and let Tang Feng break through. Only if you break through to become an immortal, there is hope in the great universe." Feihuang shouted, fighting with all his strength, trying to kill Tang Feng.

She almost melted away, covered in blood, and the strength of the source was boiling, and she repelled the attacks of the two Nine Tribulations quasi-immortals continuously, and finally paid a certain price, and finally rushed out of the encirclement, approached Tang Feng, and shot continuously for Tang Feng Block two people.

On the other side, the villain king roared, ignoring his own defenses, and took the opponent's attack with the body of the human king, and also broke out of the siege, approaching Tang Feng, and wanted to stop others for Tang Feng.

The three ancestors of the Cangqing Divine Realm, as well as the Phoenix, were unable to get out of the siege. Their situation was precarious, and they might follow in the footsteps of the Blue Bull at any time.

Unfortunately, the number of them was too small after all. Feihuang and the villain Wang approached Tang Feng, and the dozens of Nine Tribulations quasi immortals who had besieged them were also killed. Their situation was still quite passive.

"Ah, I want to kill the enemy."

Liu Song, Yao Ye and others shouted, eager to go up to the war.

Lu Ming's blood was also boiling, and his blood was burning.

At this moment, that piece of blood crystal in Lu Ming's sea of consciousness suddenly radiated a bright brilliance, and then with a touch, it exploded and turned into whistling energy, which merged into Lu Ming's body.

This power was too strong, and a layer of blood-red light was suspended on the surface of Lu Ming's body.

At the same time, another voice rang in Lu Ming's mind.

"For the sake of the prehistoric universe, for the human race, I shall die on the battlefield, shrouded in horse leather, now, I will lend you the remaining power and soul power to kill."

When the voice fell, Lu Ming felt his soul enveloped in an extremely powerful soul power.

The Lord of the Supreme Immortal Dynasty!

Lu Ming understood that this was the lord of the Supreme Immortal Dynasty.

In the Supreme Immortal Capital, the Lord of the Supreme Immortal Dynasty refined the enemy and left a blood crystal on himself.

Inside the blood crystal, there was even a ray of remnant soul of the Lord of the Supreme Immortal Dynasty.

Lu Ming once guessed that the Lord of the Supreme Immortal Dynasty might be able to rebirth.

But now, the lord of the Supreme Immortal Dynasty, self-destroying the blood crystal, lent his power to Lu Ming, and wanted to participate in the war.

This is cutting off all retreat from oneself.

In an instant, Lu Ming figured this out, and there was a sorrow in his heart, as well as a strong anger.

"kill!"

Lu Ming roared, stepping out in one step, and the void burst directly into pieces. The next moment, Lu Ming appeared directly on the battlefield of the Nine Tribulations Quasi Immortal.

A punch towards the Nine Tribulations quasi immortal who besieged Wunian ancestor.

This is a quasi immortal of the Nine Tribulations from the Shengguang Great Universe.

This punch is full of terrifying power.

Lu Ming felt that his punch could break everything and obliterate everything.

This is the remaining power of the Lord of the Supreme Immortal Dynasty.

Who is the Lord of the Supreme Immortal Dynasty? At its peak, that was the king of immortality, and even the blood crystals left behind were extremely terrifying.

The Nine Tribulations quasi immortal of Shengguang Great Universe was shocked, no matter how he could attack the ancestor of Wunian, and resist it all.

"Sky Profound Sacred Armor, Sacred Sword of Ten Thousand Magic!"

This person screamed wildly, condensing a huge armor on his body, and wrapped his body tightly.

At the same time, a terrifying sword light was also condensed, slashing towards Lu Ming.

This is not a source technique, but a quasi-celestial technique!

Quasi-Xianshu is generally born out of Xianshu. It is extended on the basis of Xianshu. Naturally, its power is far inferior to Xianshu, but it is more powerful than Yuanshu.

There are also amazing talents who have evolved from their own source skills, achieved a leap, and promoted to quasi fairy skills. Of course, this kind of situation is rare, and it is rare throughout history.

However, this kind of quasi-xianshu is often extremely powerful, most suitable for oneself, and its power is stronger than the quasi-xianshu born out of the magic.

The Nine Tribulations quasi-immortal of the Shengguang Great Universe naturally did not have this talent. His quasi-celestial art was born out of a kind of immortality of a great figure in the Shengguang Great Universe, but it was also strong and terrifying.

But now, he couldn't stop Lu Ming's punch.

Lu Ming's fist was wrapped in a layer of blood-red light, and with one punch, the holy sword condensed by the Nine Tribulations Immortal of Shengguang Great Universe, it was directly shattered.

The fists kept hitting the opponent's armor.

boom!

The armor vibrated madly, and dense cracks appeared on it, and finally burst open with a touch.

The Nine Tribulations Quasi Immortal of Shengguang Great Universe snorted, his body retreated hundreds of thousands of miles, and then a mouthful of blood spurted out, his face pale.

It can be seen that his chest was sunken into a big pit, and he was almost penetrated by his punch.

"you..."

This person's spiritual sense swept away Lu Ming and found that Lu Ming was only in the original realm, but there was a terrifying power in him.

"Be careful, the power of a strong man is attached to him, with the help of him..."

Someone yelled.

These people are quasi immortals of the Nine Tribulations, with unique eyesight, so they can see through Lu Ming's details at a glance.

But Lu Ming kept his figure, and continued to kill the Nine Tribulations Immortal of the Shengguang Great Universe.

Taking advantage of his illness to kill him, this person has just been injured by a punch by Lu Ming, and now is a good opportunity.

Boom boom boom!

Lu Ming waved his fists and blasted out continuously, and in a flash, he blasted out hundreds of punches.

At this moment, he felt that he had to vent the endless power in his body, so he shot without hesitation, every punch was full.

Hundreds of punches directly drowned the opponent.

boom!

In the end, the opponent exploded in the sky full of fist strength.

However, not dead, a ray of radiance, wrapped in a broken body, fled into the distance and reunited.

"It won't die like this..."

Lu Ming's face was gloomy.

Only after real fighting did I understand the horror of the Nine Tribulations Quasi Immortal, the vitality was too strong, it was almost like an immortal body, the body was blown up, and the soul was about to annihilate, but it was immortal and stood firm.

No wonder that since the start of the war, only Qing Niu desperately pulled one person away before his death, and one person was killed by the sword ancestor Tang Feng. Other than that, no Nine Tribulations Quasi Immortal died in battle.

This kind of existence has experienced the Nine Immortal Tribulation and has tempered itself extremely powerfully.

Nine Immortal Tribulation can't kill, how strong is the vitality?

However, although this person was not dead, he was also severely injured.

This person also knew his own situation, retreated frantically, and wanted to leave the battlefield.

Lu Ming didn't pursue it. If he pursued this person wholeheartedly, he would probably be able to kill him completely in the end, but that would take a lot of time.

The situation of other people is very bad, and it is possible to follow in the footsteps of the blue cow at any time.

The other people must be aided first.

Chapter 5197: Fragment of the Heart of the Universe escaped

Huh!

These thoughts only flashed in Lu Ming's mind, and Lu Ming made a decision in an instant, his body shape did not stop at all, and after turning around, he rushed to another battlefield.

The battlefield of the other two ancestors of the Cangqing Divine Realm.

These two ancestors have already joined together, but the masters who besieged them have also gathered together. Their situation is very dangerous, and they have been seriously injured in many places. If this continues, it will not be long before they will be in the footsteps of the blue cow.

Boom boom boom!

As soon as Lu Ming arrived, he slammed his fist frantically, violently fisting, exploding the void, and slaying a Nine Tribulations quasi immortal.

This Nine Tribulations quasi immortal also coughed up blood and retreated, his face pale.

In the distance, Liu Song, Yao Ye and others were dumbfounded.

I couldn't figure out how Lu Ming, who was with them, suddenly burst out with such a powerful force, injuring two Nine Tribulations quasi immortals in a row.

But what followed was excitement.

"it is good!"

Seeing Lu Ming wounding the second Nine Tribulations quasi immortal, Liu Song and the others shouted in excitement, wishing that they would be like Lu Ming and slay on the battlefield.

"Don't be defeated by him, join forces to deal with him."

A quasi immortal of the Nine Tribulations in Yuqing Universe yelled and slammed towards Lu Ming.

To be precise, they are two Nine Tribulations quasi immortals.

Originally, there were three Nine Tribulations quasi immortals in Yuqing Universe who joined forces to besieged and killed Qing Niu. One was taken away by the Qing Niu dying, and one was severely injured. The remaining one was originally involved in the siege of Tang Feng. At this time, he was killed with another master. Lu Ming.

The two terrifying sword lights slashed towards Lu Ming as if opening the sky and the earth.

Lu Ming smashed his fist, shattering two sword lights, and confronted the two masters of Yuqing Universe.

But in the other direction, there was another attack to Lu Ming, a master who besieged the monster Phoenix.

This person left the phoenix and killed Lu Ming.

The three masters pounced on Lu Ming like lightning.

Lu Ming stopped, punched and bombarded, fighting with the three masters.

Participating in a battle of this level, Lu Ming's origin technique is of course useless, relying entirely on brute force.

Lu Ming relied on brute force, fisted frantically, and fought against the three masters, but he still had the upper hand.

However, this can only be done at best. The three masters cooperated with each other to disperse Lu Ming's strength. Lu Ming wanted to defeat him, but he couldn't do it for a while.

However, with Lu Ming participating in the war, the pressure on the others was slightly less.

As soon as Lu Ming shot, he wounded two Nine Tribulations quasi immortals, and these two Nine Tribulations quasi immortals, at this moment, withdrew from the battlefield to heal their injuries, and attracted three Nine Tribulations quasi immortals, whether they were the three ancestors of the Cangqing Divine Realm. , Or the Phoenix of the Monster Race, or Tang Feng, Feihuang, and Xiaorenwang, the pressure was slightly less.

Tang Feng stood on the two fragments of the heart of the universe, his breath blended with them, and his breath rose again.

He wants to knock on the fairy gate here and hit the fairyland.

Hum!

At this time, the new continent where the two pieces of the heart of the universe were fused together, exuding an invisible energy, permeated the entire primordial universe.

The entire primordial universe was sensed, especially those continental fragments, all trembled and resonated with it.

The other side of the primordial universe is far away from the Cangqing Divine Realm.

In an ancient ruin, a group of masters are stationed here.

People from Yuqing Universe, temporarily stationed here, Shan Ying and Shan Xiong are here.

After Shan Ying got a piece of the heart of the universe, she has been retreating here, looking forward to the complete refining of the fragments of the heart of the universe as soon as possible, and complete integration with it.

With Shan Ying's cultivation as the realm, it is not so easy to completely refine a piece of the heart of the universe, it will take a long time.

Suddenly, Shan Ying's cosmic heart fragments trembled violently.

"What's the matter? How could the fragments of the heart of the universe tremble suddenly and violently."

Shan Ying's face changed a lot while holding a bracelet.

In the Yuqing Great Universe, a piece of the heart of the universe was made into a space treasure by the method of formation, which is this bracelet.

Buzzing...

The bracelet glowed, and the tremor became more and more severe, and Shan Ying seemed to be unable to control it.

"what happened?"

Shan Xiong rushed over and asked.

"I don't know, I feel like I can't control it. I want to get out and fly away."

Shan Xiong's face was ugly.

At this moment, figures are constantly coming here, all masters of Yuqing Universe, and there is no shortage of quasi immortals.

In the Yuqing Great Universe, only some people went to conquer the Cangqing Divine Realm, and many masters remained here.

After all, the Fragment of the Heart of the Universe in Shan Ying's hand hasn't been completely refined yet, and he has to worry about being secretly attacked by others.

Click!

At this time, dense cracks appeared on the bracelet, which exploded afterwards, and a piece of the heart of the universe emerged, rapidly becoming larger.

The Fragment of the Heart of the Universe, out of Shan Ying's control, shook slightly, and the void collapsed, trying to shatter the void and leave.

"The Fragment of the Heart of the Universe is going to escape, stop it, stop it..."

Shan Ying roared.

Don't need to call him, the quasi-immortal-level experts in Yuqing Great Universe have already taken action, and they have tried to confine the heart fragments of the universe.

However, the fragments of the heart of the universe shuddered, and they broke free of these forces, shattered the void and left, and in a blink of an eye, they disappeared without a trace.

"Ah, my cosmic heart fragment, my cosmic heart fragment, get me back..."

Shan Ying yelled hysterically.

His mentality completely collapsed.

The fragments of the heart of the universe are the foundation of his enlightenment.

With the help of the latest fragments of the universe, not only will he greatly increase his talent potential, but he can also quickly overcome the Nine Tribulations and achieve immortality.

Even with this, set foot on the king of immortality.

The immortal king, also known as the immortal king.

The king of immortals.

Even in the entire universe, the fairy king is also the top powerhouse, the overlord of one party.

Many big universes don't even have immortals, let alone immortal kings.

In the Yuqing Universe, the fairy king is the top big man, there are not many in total.

Except for his elder brother Shan Xiong, who is rare in the world, who would dare to set foot in this field?

With his own talent, he may not be 100% sure of becoming an immortal, let alone an immortal king, there is absolutely no hope.

But if there are fragments of the heart of the universe, there is hope.

But now, this hope is gone, and he ran away from him, how could he not be crazy.

"chase!"

The quasi immortal of the Yuqing Universe is chasing through the air, but there is still the shadow of the fragment of the heart of the universe.

The same situation happened on the other side of the universe.

In the skeletal universe of the underworld, there is also a Tianjiao who has obtained a fragment of the heart of the universe, but at this moment, this fragment of the heart of the universe has also 'escaped' and left.

Cangqing Divine Realm!

boom! boom!

The void exploded, and two continents suddenly appeared and merged with the continent under Tang Feng's feet.

The two continents that suddenly appeared were naturally Shan Ying's two pieces of the heart of the universe.

"It's a fragment of the heart of the universe."

"Damn it!"

The masters of Yuqing Universe and Skeleton Universe shouted with ugly expressions.

Chapter 5198: Crazy sniping, the immortal gate is difficult to break

The masters of Yuqing Universe and Skeleton Universe looked ugly to death.

This fragment of the Heart of the Universe, which should have belonged to their cosmic arrogant, actually appeared here.

Obviously, it was drawn.

Tang Feng's breath blended with the hearts of the two universes, and he wanted to hit the fairyland, which aroused the hearts of the universe and attracted the other two fragments of the hearts of the universe.

The four fragments of the heart of the universe merged and blended with Tang Feng's breath, making Tang Feng's breath soar again.

"Stop him!"

Xue Bi'an yelled, shot frantically, and slashed towards Tang Feng frantically to prevent Tang Feng from breaking through.

"There are only four cosmic hearts, and the rules of order are incomplete, and he can't break through."

Someone spoke, not afraid that Tang Feng could break through.

If you want to open the fairy gate and prove the Tao to become a fairy, how easy is it.

Even in a complete environment, it is a life of nine deaths.

The fusion of the hearts of the four universes is also incomplete, and it is impossible to break through successfully.

Sure enough, Tang Feng's breath rose to a certain height, which seemed to be blocked, and was greatly hindered.

"The complete heart of the universe, the prehistoric ring, the ball, take out the prehistoric ring."

Lu Ming used the ball to pass the sound.

The belly of the ball is a space of its own, isolated from the outside world, Hong Huangjie did not take the initiative to fly out.

"Okay, Hong Huangjie changed just now and was suppressed by me. That's how it is..."

The ball cried, opened his mouth, and the Hong Huang Ring flew out of it.

As soon as Hong Huangjie flew out, he quickly flew towards Tang Feng.

In the middle of the journey, the Prestige Ring broke open, and the continent inside emerged, fusing with the heart of the universe under Tang Feng's feet.

The five cosmic hearts merge, and the complete cosmic heart reappears.

"It really is the heart of the universe!"

Lu Ming was overjoyed.

He had long suspected that the prehistoric ring was a piece of the heart of the universe. In order to be afraid of being deduced by the power of the outer universe, he had already cleaned up all the treasures in the heart of the universe and put it in the storage ring or too In the fairy city.

Inside, he had taken away a piece of the Star Continent today, and it had also been released long ago.

There was nothing in the prehistoric ring for a long time.

The five cosmic hearts merge, the complete cosmic heart reappears, and the boundless rules of order permeate the entire primordial universe.

These rules of order, invisible, are like invisible threads, with the heart of the universe as the core, spreading to the entire universe, connecting with all the continent fragments of the entire universe.

At this moment, in the primordial universe, countless fragments of continents were shining, shaking, and then flying quickly toward the heart of the universe.

At this moment, all the creatures of the primordial universe feel a little different. They feel that their own things seem to be in harmony with the heavens and the earth, as if they can clearly capture the rules and order of the universe, and their minds are much more sober. Many of them couldn't understand. Suddenly got inspiration and sentiment.

The three ancestors of the Cangqing Divine Realm, the strong monsters, and all the origins and quasi immortals of the Cangqing Divine Realm, were all ecstatic and extremely excited.

After so many years, how many years have passed, the complete heart of the universe has finally reappeared.

This time, as long as you can survive this barrier and keep the heart of the universe, there is hope for the rise of the cosmos.

Desperately, we must keep the heart of the universe.

In the hearts of all the people in the cosmos, they roared like this, and then furiously counterattacked.

boom!

The complete heart of the universe reappeared, and Tang Feng's originally blocked aura rose again.

"Drive me!"

Tang Feng roared, as if an ancient gate appeared in his body, and the gate was closed tightly. At this moment, a terrible sword light burst out of Tang Feng's body and bombarded the ancient gate.

boom!

The door was still closed due to a huge shock, and Tang Feng seemed to have suffered some backlash, staggering and spitting out a mouthful of blood.

However, his eyes were still bright, and once again he roared, an even more astonishing sword light rushed out and slashed on the door again.

Knock Xianguan!

This door is Xianguan.

As long as you knock on the fairy gate and break through this door, you can jump up, achieve detachment, prove Taoism and become immortal, and become another kind of life form.

But knocking at Xianguan is very dangerous. Every blow will be backlashed by Xianguan, and you will die.

boom!

Tang Feng's second sword stood on the gate, and the gate vibrated more violently.

The gate looks stone, at this moment, it seems to see stone fragments flying, and rubble splashing.

All the quasi immortals of the Nine Tribulations in the outer universe changed their expressions drastically.

This is a tendency to break open the immortal barrier.

how can that be?

The five pieces of the heart of the universe have just merged, and the rules of order are not perfect. This requires a process and a certain amount of time before the primordial universe can be transformed into a complete universe, suitable for breakthroughs and becoming immortals.

But now, just fusion, theoretically speaking, it is still unlikely to become immortals, and besides, are still fighting with them, how can there be spare power to knock on immortals?

However, Tang Feng's breath is too strong, it is really possible to succeed.

"Stop him!"

"Once he breaks through successfully, we all have to die."

"He is knocking on Xianguan now, most of his power will be placed on Xianguan, unable to stop us, and take the opportunity to kill him."

.....

Dozens of Nine Tribulations quasi immortals roared, all went crazy, and launched a frenzied attack.

Tang Feng was recruited, and was hit by a palm print. His body trembled and he spit out a mouthful of blood.

Mainly, there are too many masters.

The Nine Tribulations quasi immortals at the scene, dozens of them, more than half, were besieging Tang Feng.

"Go away!"

The villain king roared, his body became as large as a star, and his fists kept bombarding, alone, blocking the eight Nine Tribulations quasi immortals.

His fist is even stronger than the Nine Tribulations Quasi-Sage Soldier.

However, these quasi-immortals are good at soul attacks, and the body of the villain is trembling, and there is tearing pain from the soul.

Feihuang also tried his best to block the five or six Nine Tribulations quasi immortals.

But this is already the limit. There are still five or six Nine Tribulations quasi immortals who attack Tang Feng, including Xue Bi'an, a strong man.

The biggest threat to Tang Feng was Xue Bi'an.

Tang Feng glowed all over, and sword energy overflowed from every pore. Around the body, a sword energy shield was formed, with amazing defensive power, but every time, it was broken by Xue Bi'an.

Since the arrival of the masters of the Styx Universe and the Holy Light Universe, there have been as many as thirty-nine people of the Nine Tribulations quasi immortals before and after the outer universe.

Among them, one person was killed by Qingniu's death, and one person was killed by Tang Feng.

Thirty-seven people survived.

Of these thirty-seven, one was severely injured by Tang Feng's sword, two were severely injured by the villain Wang, and two were severely injured by Lu Ming just now.

These five people are hiding in the distance to heal their injuries.

There are thirty-two quasi immortals in the Nine Tribulations who are still participating in the war.

Three besieged the ancestor of Wunian, three besieged the monster Phoenix, five besieged the Cangqing Divine Realm, two remnants, and three besieged Lu Ming.

There are eighteen immortals who prevented Tang Feng from the Nine Tribulations.

Chapter 5199: Ancestor of Yaxian

It is impossible for Tang Feng to pass through the barrier with peace of mind by relying on Feihuang and Xiaorenwang to block the 18 Nine Tribulations quasi immortals.

boom! boom!

Tang Feng was hit continuously, staggering, vomiting blood, and he was unable to cut out the third sword to knock at Xianguan for a long time.

"roll!"

Tang Feng screamed, slashing out with all his strength, slashed towards Xue Bi'an, Xue Bi'an swung his sword to block, and his figure quickly retreated, but the next moment, he killed him again.

Xue Bi'an's strength was not much worse than Tang Feng's. With Tang Feng's strength, he was about to break through the immortal gate at this moment, and he couldn't hurt him at all.

"You must block Xue Bi'an to allow Jian Ancestor to break through with all his strength, but with my strength, I am afraid it will be difficult to stop Xue Bi'an."

"what can we do about it?"

Lu Ming quickly thought while fighting against the three masters.

At the scene, there is only one person who can stop Xue Bi'an, and that is the villain king.

Xue Bi'an is not good at soul attacks. With his powerful body, the villain king can entangle Xue Bi'an.

But without the villain king, who can resist the eight Nine Tribulations quasi immortals who are currently fighting against the villain king?

"No matter, fight it!"

Lu Ming yelled in his heart, disregarding his defenses, attacked with all his strength and bombarded one person.

boom!

The person was knocked into the air, but Lu Ming was also hit by a move. The blood light on his body dimmed for a while, and there was even a terrible force that impacted the blood light and impacted on Lu Ming.

Fortunately, most of the power was weakened by the light of blood, and the power that fell on Lu Ming's body was not one in a hundred, but even so, Lu Ming was still injured and vomited blood.

The power of the Nine Tribulations Quasi Immortal is too terrifying, if there is no weakening of the blood light, Lu Ming will definitely be wiped out.

In this way, Lu Ming rushed out of the three people's siege and slew towards the battlefield on the side of the villain king.

Before the person arrived, he bombarded with a series of double fists, hundreds of punches, to drown the eight masters.

"Senior, go get around Xue Bi'an and leave these people to me."

Lu Ming passed on to the villain Wang.

"here you are?"

Xiao Ren Wang hesitated for a moment.

He could see that Lu Ming had only used external force and could not hold so many Nine Tribulations quasi immortals.

But is there a choice now?

Only he can block Xue Bi'an.

Only by blocking Xue Bi'an, Tang Feng has a chance to open the fairy gate and prove that he becomes a fairy.

"Go away!"

The villain king yelled, ignoring his defenses and rushing into the flesh.

Keng!

He suddenly punched and smashed a war sword, this Nine Tribulations quasi immortal soldier level war sword, full of cracks, the sword's master quickly retreated.

Another punch also smashed a Nine Tribulations quasi immortal back.

These eight Nine Tribulations quasi immortals, because of Lu Ming's intervention, were distracted, and were surrounded by the villain king with a powerful body.

The villain king killed Xue Bi'an.

"Little boy, your opponent is me."

The iron fist of the little king, like a huge meteorite, hit Xue Bi'an.

Xue Bi'an had to deal with it intently and fought against the villain king.

"broken!"

Tang Feng took this opportunity to cut out a sword once again to break through the immortal gate.

boom!

Xianguan vibrated, and more rubble flew out. You can see that the gate of Xianguan was cut out of a pit.

If this continues, it is really possible to break open.

"kill!"

"Don't let him succeed."

The Nine Tribulations quasi immortal of the outer universe madly attacked Tang Feng.

Tang Feng's body guard, sword and shield were dim, and there were several terrible wounds on his body.

Lu Ming tried his best to stop these Nine Tribulations quasi immortals, but it was too difficult.

How could he stop the eight Nine Tribulations quasi immortals who originally besieged the villain king, as well as the three who originally besieged him, plus a few who had already attacked Tang Feng.

On the contrary, he was recruited, and the blood tremors kept trembling.

"Boy, kill you first!"

Many Nine Tribulations quasi immortals joined forces to encircle and kill Lu Ming.

Lu Ming whistled for a long time, exerting his strength to the extreme, but in the end he could barely entangle the five Nine Tribulations quasi immortals.

Other masters, kill Tang Feng together.

If this continues, it will be difficult for Tang Feng to break through.

boom!

At this time, the void exploded, and a flame lightsaber slashed out, knocking out a master who rushed towards Tang Feng, and then the sword light flashed and slashed towards several others.

A figure appeared, enveloped in flames, holding a flame war sword, breathtakingly breathtaking.

Canxian!

Another candid immortal.

"It's the Yaxian!"

Lu Ming could tell at a glance that this person was from the Yaxian clan.

Is it the ancestor of the Yaxian tribe?

Lu Ming's heart moved.

He once heard Cangqiang mention that there is a true celestial ancestor in the Yaxian clan.

At the beginning, when vying for the immortal's legacy in Zixiao Cave, the sky finally succeeded in seizing a kind of immortal's imprint with the imprint of the immortal.

Not enough, the ancestor of the Yaxian tribe, just like the ancestor of the Cangqing Divine Realm, had already fallen into the Lower Immortal Realm.

"Canglin, it's you, you are not dead yet."

The ancestor of Wunian cried out in surprise.

"You are not dead, how can I die first."

Cang Lin responded.

"The Yaxian clan has always been greedy for life and fear of death, and it is normal to survive."

The monster Phoenix said coldly, as if he didn't catch a cold to the Yaxian tribe.

The Yaxian race is actually not a monster race, nor a human race.

In the Primordial Continent Period, in addition to the Human Race, the Demon Race, and the Witch Race, there were actually many other races, but they were not as powerful as the three races, and the Yaxian race was one of them.

"Today, for the great universe, for the sake of future generations, the old man will fight!"

The ancestor of the Yaxian clan yelled, ignoring the Phoenix's sarcasm, and shot with all his strength, blocking the three Nine Tribulations Quasi Immortals.

However, it can be seen that Canglin, the ancestor of the Yaxian clan, was not as powerful as the Wunian ancestor and Phoenix. He fought against the three Nine Tribulations quasi immortals, which was very reluctant.

"How many of the remnants of the primordial universe have come out, and they are all removed today."

The master of the skeletal universe shouted and attacked with all his strength.

Obviously, the Nine Tribulations quasi immortals in the outer universe have also worked desperately, no longer hiding the clumsy, and using the method of pressing the bottom of the box.

Because once Tang Feng proves that he becomes immortal, he will never let them go.

Although Feihuang, Xiaorenwang, Lu Ming, and Cang Lin were blocking them with all their strength, they still couldn't stop everyone. Seven others were besieging Tang Feng.

What was even more frightening was that the five Nine Tribulations quasi immortals who had been healed outside the battlefield, whose injuries had stabilized, returned to the battlefield again.

They did not attack other people, and immediately besieged Tang Feng.

They knew very well that as long as Tang Feng was killed, others could deal with it.

In this way, twelve people besieged Tang Feng.

bump!

Tang Feng's body was torn directly under the distraction when he was knocking on Xianguan.

Although he reunited immediately, his breath was obviously weaker than before.

Everyone's hearts are sinking.

If this continues, Tang Feng will definitely not be able to break through Xianguan.

If they can't become immortals, they can't keep the heart of the universe.

"Ah, fight it!"

"Die together!"

The origins and quasi immortals of Cangqing Divine Realm were desperate.

Boom boom boom!

Many strong people of Origin Realm rushed out, and then their bodies exploded.

Blew!

Yes, many of the origins of Cangqing Divine Realm are self-destructive roots.

Chapter 5200: Tragic

Yuangen blew himself up, and the power compressed to the extreme burst out in an instant, even the quasi immortal couldn't ignore it.

What's more, multiple origins blew themselves together.

Terrible energy, surging surgingly, rushed back the quasi-immortals in the outer universe.

As a result, the Cangqing Divine Realm and the quasi immortal of the Demon Race seized the opportunity, rushed out of the encirclement, and rushed to the battlefield where Tang Feng was.

"court death!"

Nine Tribulations quasi immortals drank coldly, with cold eyes.

These quasi immortals, the highest cultivation base is only eight calamity quasi immortals, and there are not many of them, the others are weaker, and they want to stop them.

"Die together!"

The quasi-immortals of the Cangqing Divine Realm and the Yaozu quasi-xian, their faces were crazy, their bodies swelled with dazzling light.

boom!

In an instant, five quasi immortals blew themselves up.

The quasi immortal blew himself up, instantly exploding the origin, the power of the origin, the body, and the soul, forming the most terrifying power.

The self-explosion of the quasi immortal is absolutely terrifying, and the spirit of the whole body turns into an instant firework, bursting out with brilliant light, even the quasi immortal of the Nine Tribulations cannot ignore it.

Five extremely powerful forces swept out, and the Nine Tribulations quasi immortals that besieged Tang Feng were repelled one after another.

"what..."

Tang Feng roared, his voice full of grief and anger.

He knew very well that these quasi immortals, at the expense of himself, just wanted to buy him some time, so that he had time to knock at the immortal pass.

This is the time these quasi immortals have bought for him, and he must not miss it.

Essence and energy exploded, and another sword energy rose up into the sky, standing on Xianguan.

This time, Xianguan was chopped off a large piece of stone, and it can be seen that a pit appeared in the middle.

"kill!"

The twelve Nine Tribulations quasi immortals were killed again.

However, another five quasi immortals from Cangqing Divine Realm and Monster Race rushed forward and blew themselves collectively.

The energy formed by the self-detonation sent these twelve quasi immortals flying out again.

"Damn it!"

Lu Ming, Feihuang, Xiaorenwang, the three ancestors of the Cangqing Divine Realm, and the Demon Phoenix Phoenix were all sad and angry.

They could only watch these quasi immortals, one by one, they blew themselves and fell in front of them.

Tragic, tragic...

They have a deep sense of powerlessness.

Afterwards, there was a terrible murderous intent.

kill! kill! kill! ...

They are all fighting frantically, regardless of injury or danger...

This also achieved results, and the Nine Tribulations quasi immortals were blown up and their bodies were torn apart.

However, they all paid the price, and they were bloodied and wounded more seriously.

Feihuang's face was pale, and his body was penetrated in several places, relying on strong vitality and tenacious support.

The demon phoenix suffered more severe injuries. His body was torn three times back and forth. Each time, he burned the fire of the phoenix, reunited with the power of Nirvana, and continued to fight.

The three ancestors were also seriously injured and dying, and the two weaker ancestors nearly died several times.

Little King, Cang Lin, the situation is similar.

Cang Lin was covered in blood, and those who had enemies also had their own.

The little human king is unparalleled in flesh, but if you can observe his soul through the body, you can see that his soul is full of cracks, like porcelain, which will shatter at any time.

Soul injuries are more difficult to recover and more damage than physical injuries.

Only Lu Ming, who was slightly better, had his blood-light protective body. Although he was also injured, he was within the range of his tolerance.

"Strength, I need strength, it's still too weak..."

Lu Ming growled low.

Although the blood crystals left by the Lord of the Supreme Immortal City gave him incomparable strength, this strength far exceeds the average Nine Tribulations Immortal.

However, he can't use it.

The realm of his own cultivation is too far from that of the Nine Tribulations Quasi Immortal.

His own source technique etc. could not support such a powerful force.

Therefore, he can only use brute force against the enemy, and in this way, he can't use the power of the blood crystal at all.

How can this powerful force be used effectively?

Lu Ming couldn't help it.

At this time, Tang Feng continued to seize this rare opportunity and knocked on Xianguan again.

He raised his spirit and spirit to the top, and slashed out a stunning sword.

Click!

This time, there was a crack on Xianguan.

In the cracks, there seemed to be a supreme breath, permeating out, eternal and immortal.

All the quasi immortals of the Nine Tribulations in the outer universe changed their expressions drastically.

Is this going to succeed?

"You trash, don't try to stop him, wait for him to break through, you will all die..."

Xue Bi'an yelled and shot with all his strength, but unfortunately, he was not good at soul attacks and was entangled tightly by the villain king.

Xue Bi'an is strong, but the flesh body of the villain king is the flesh body of the human king, just to restrain him.

The other Nine Tribulations quasi immortals in the outer universe looked a little ugly, and anyone who was called a trash would feel uncomfortable.

But they also knew that it was not the time to care about Xue Bi'an at this moment, and they had to stop Tang Feng.

The twelve Nine Tribulations quasi immortals who besieged Tang Feng, their whole bodies exuded brilliant brilliance, they were really desperate to kill Tang Feng.

Not only that, the masters who fought against the Feihuanghuang, the masters who fought against Lu Ming, and the masters who fought against the three ancestors...

All the Nine Tribulations quasi immortals left their opponents and wanted to kill Tang Feng.

"Stop me!"

"Your opponent is me!"

The three great ancestors, Phoenix and others, tried their best to stop it.

But they are at a disadvantage, and the opponent is a lot of masters, where can they stop?

One by one, the masters killed Tang Feng.

"burst!"

This time, ten quasi immortals rose up into the sky, burst apart, and turned into splendid brilliance.

Among these ten quasi immortals, there are several Eight Tribulations quasi immortals.

The Cangqing Divine Realm and the Primordial Universe originally totaled only 20 quasi immortals.

After such a while, twenty positions were lost.

After this battle, the quasi-celestial powerhouses in the prehistoric universe were almost exhausted.

It is too tragic.

In the distance, Liu Song, Yao Ye and others had blood red eyes and tears.

what!

In the Cangqing Divine Realm, there are five or six hundred original sources left, and they are all roaring, tears rolling.

Ten quasi immortals blew themselves up, and there were even eight calamity quasi immortals, and the formed power was too strong. Those twelve nine-tribulation quasi celestial beings were the first to bear the brunt, and they retreated violently by the powerful force and impact.

He was even injured and in tatters.

The Eight Tribulations quasi immortals blew themselves up, which could already pose a threat to them.

Tang Feng took this opportunity to cut out a sword again.

boom!

Click!

Above Xianguan, there was a clicking sound. This time, several cracks appeared in succession.

Xianguan is really about to be broken open.

The powerhouses in the outer universe were a little panicked.

"Can't let him cut the next sword!"

"kill!"

The twelve masters once again killed Tang Feng.

Not only that, but there are other masters who have also made it.

Dozens of terrible attacks rushed towards Tang Feng and drowned Tang Feng.

Tang Feng's body exploded in an instant.

"Do not..."

Everyone in the Great Universe roared in their hearts, their eyes splitting.

Is Tang Feng dead?

At such a big sacrifice, it is still difficult to succeed in the end?
