

D Emperor 5201

Chapter 5201: Lu Ming's power, fisted out

Everyone's hearts are sinking.

Is Tang Feng dying?

If Tang Feng falls, then all hope is gone.

The primordial universe will eventually decline completely.

Fortunately, Tang Feng was not dead, although his body exploded, but immediately reunited, but his face was a little pale.

He is also a taboo body. Although he has taken a completely different path from Lu Ming, his vitality is equally astonishing. It is not so easy to kill him.

Seeing that Tang Feng was not dead, the Nine Tribulations quasi immortals in the outer universe screamed at him again.

Yuqing Universe, Shengguang Universe, Styx Universe, Skeleton Universe...

There are still some beings who don't know what universe they come from, and are shrouded in the glow of sunlight.

"The universe, which is the same as the sun, why do you want to kill them all? As long as you retreat from the creatures in the sun, we can forget the blame for today's incident..."

Feihuang opened his mouth, and his gaze swept towards the Great Universe of Holy Light, Great Universe of Yuqing, and some other creatures in the Yang room.

She can help Tang Feng make a decision. As long as these people retreat, Tang Feng will not deal with these people after becoming immortal.

But these masters in Yang Jian had cold eyes and showed no signs of giving up. They were murderous and vowed to kill Tang Feng.

"Why don't talk nonsense to them, there are some people in Yangjian, who are even more despicable. The reason why my father died in the past, I suspect that there is a strong person in Yangjian in the dark. Can't handle it..."

"He was already injured before the battle with Dique."

The villain king shouted.

what?

Everyone was shocked.

Is Wang Xuanyuan's death hidden behind a shocking secret?

Was he conspired by a strong man in the sun, and finally fought with Dique before he died?

Especially Lu Ming's heart was ups and downs, and it was difficult to calm down.

He couldn't help thinking of Renwang Broken Sword.

There was a clear fingerprint on the body of the Renwang Broken Sword, as if the Renwang Sabre was pinched by a finger.

He doesn't believe that Dili has this strength.

Human King's Sabre, but a genuine fairy soldier, born out of chaos, let alone in the hands of Human King, who can pinch it off with his fingers?

Dila's combat power is at most equal to that of the King of Humans, and this step is definitely not possible.

The villain Wang once said that before the battle between Wang Xuanyuan and Dique, he was injured.

Then, before the battle with Dique, was it really that the strong man in the Yang world had conspired to break the immortal soldier, was seriously injured, and finally encountered Dique, and as a last resort, he split his body and suppressed Dique?

Also, when the primordial universe was destroyed, there was no help in the sun, which is very strange.

The Primordial Universe was ranked eleventh in the Yangjian at that time, and belonged to the top universe in the Yangting. Several powerful men even served as elders in the Yangting.

Such an important universe has been madly invaded by the underworld, and there is no help, which is unreasonable.

Could it be that the primordial universe was destroyed, and there was the shadow of the Yang universe behind it?

Yuqing Universe, or Shengguang Universe?

If there is really a big universe in the sun that makes a move behind the scenes, these two big universes have reasons to make a move.

Yuqing Universe, ranked tenth in Yangjian.

The Holy Light Universe, ranked eighth in Yangjian, belongs to the bottom of the top ten. The grand universe is extremely powerful. Once its strength continues to increase and it rushes into the top ten, both of these two universes will be squeezed out. risk.

Especially Yuqing Universe.

These thoughts just flashed through Lu Ming's mind.

The most urgent task is to stop these masters in the outer universe and let Tang Feng rush through.

Now, the quasi immortal of the prehistoric universe is almost dying, and it is impossible to delay time by self-destruction.

At least more than twenty Nine Tribulations quasi immortals killed Tang Feng, wanting to wipe out Tang Feng completely.

Tang Feng was under great pressure when he was knocking at Xianguan, and he could hardly be distracted to deal with other people.

You know, knocking at Xianguan is very dangerous. Don't fight with other people. Many people who knock Xianguan wholeheartedly will die under the power of Xianguan's backlash.

How strong your offensive power is at knocking on Xianguan, and how powerful the backlash you receive may be.

On the one hand, he had to resist the backlash of Xianguan, on the other hand, there were so many powerful men besieging him, even if Tang Feng's strength was strong, he would fall.

"Stop it for me!"

"kill!"

Feihuang, the villain king, Lu Ming, the three ancestors, the demon phoenix, and the eight Cangqing people, made crazy moves, trying to hold the masters of the outer universe.

However, there are too many opponents, even if they disregard their injuries, they can't hold back.

Lu Ming was covered in blood, mobilizing everyone's power, including his own power.

Even though he knew that with his own power, it had no effect on the Nine Tribulations Quasi Immortal, but now, he couldn't care about it, it would be a little bit more hopeful.

At this moment, in the sea of knowledge, the ancient **** stone glowed.

On the surface, nearby runes were shining, and then, a figure appeared on the surface of the ancient **** stone.

"this is..."

Lu Ming was shocked.

He naturally knew this figure.

In the place where the immortals were buried, in front of a large grave, Lu Ming fought against this figure for many years, relying on this figure, greatly increased the power of his origin skills, and improved a lot.

Finally, the figure flew into the ancient sacred stone, causing the ancient sacred stone to fall off the next layer of stone skin, revealing its original appearance.

This figure was the figure that flew into the ancient **** stone in the place where the immortals were buried.

The figure is very small, like a small person, standing on the surface of the ancient **** stone, stepping on the mysterious step, swinging his fists, as if he was hitting a boxing technique.

Lu Ming unconsciously followed the figure with his blessing heart, his feet on the void, his fists waved, and he shot out.

Huh!

The next moment, Lu Ming's speed suddenly increased. In a flash, he overtook several Nine Tribulations quasi immortals, and bombarded one of them with his fists.

At this moment, Lu Ming's fists exploded with immeasurable power, bombarding them, unstoppable, everything was destroyed and turned into nothingness.

bump!

The heavy defenses under the Nine Tribulations quasi-immortal cloth were instantly penetrated, and the fist crushed down, and the person's body directly exploded.

Even his soul did not escape and was completely wiped out by Fist Jin.

A quasi immortal of the Nine Tribulations was killed in this way.

This is today's battle, the third fallen Nine Tribulations quasi immortal.

Before, Tang Feng killed one, and Qing Niu killed another.

Now, Lu Ming killed one.

Even Lu Ming himself was a little stunned, never expected that the power would be so powerful.

"it is good!"

Feihuang, Xiaorenwang and others were also slightly stunned at first.

Although they were also shocked, they couldn't figure out why Lu Ming had soared in combat power.

But no matter what the reason, Lu Ming's soaring combat power was a good thing for them, and there was no harm in it.

The Nine Tribulations Quasi Immortals in the outer universe were shocked.

The vitality of the Nine Tribulations Quasi Immortal is so tenacious that it was killed in this way, making their hearts chill.

Chapter 5202: Top 20 alone

Although Lu Ming was taken aback for a moment, his figure kept going.

This is a rare opportunity to know how long the figure on the ancient **** stone can last, and will it disappear soon?

On the surface of the ancient **** stone, that figure was still punching.

Lu Ming's body followed the figure closely, and at the same time he threw his fists.

Wow!

Lu Ming seemed to hear that the power in his body was running like running water.

The power on Lu Ming's body came from the blood crystal of the Lord of the Supreme Immortal Dynasty. It was too strong and Lu Ming could not use it at all.

But now, when Lu Ming shook his fist, this power was fully mobilized, and the power was fully utilized.

boom!

Lu Ming's pair of fists seemed to be pushing the universe, containing unparalleled power, as if they could blow everything up and destroy the heavens.

bump!

Ahead, another Nine Tribulations quasi immortal exploded, and his body and spirit were destroyed.

This Nine Tribulations quasi immortal was not without resistance. On the contrary, he tried his best to resist, but he still ended up like the previous one. He was killed by a punch, and all obstacles were unnecessary.

too strong!

Kill a quasi immortal of the Nine Tribulations with one punch, with unmatched punching power.

Lu Ming's blood was boiling, and he roared, "Kill!"

"Shoot together!"

"Don't be broken by him!"

In an instant, a total of eight Nine Tribulations quasi immortals joined forces to launch a strong blow to Lu Ming.

Eight Nine Tribulations quasi immortals made their best moves, their power was earth-shattering, and they could also wipe out an existence at the same level.

Lu Ming was not afraid, and fisted to meet him, one after another, punching through the world, horizontally and horizontally, and resisted the eight Nine Tribulations quasi immortals.

Boom boom boom...

The continuous roar erupted, hundreds of millions of miles of void turned into chaos, the destructive energy rolled wanton, a scene of apocalypse.

In the chaos, the eight figures retreated violently.

It was the eight Nine Tribulations quasi immortals, each of them looked extremely ugly, with incredible colors in their eyes.

Their eight Nine Tribulations quasi immortals joined forces, and they were actually invincible. They were repelled by their unmatched punches, and they were even shocked, with blood spilling from the corners of their mouths.

"You all leave it to me."

Lu Ming roared and shook his fists continuously. As he shook his fists, instead of weakening, his fist strength became stronger and stronger.

The powerful fist power not only covers the eight Nine Tribulations quasi immortals just now, but also covers the other Nine Tribulations quasi immortals.

Twenty!

Lu Ming's fist strength covered the twenty Nine Tribulations quasi immortals, and pulled the 20 Nine Tribulations quasi immortals into the battle group.

Lu Ming's fist strength was full of deadly threats. The Nine Tribulations Quasi Immortal who was attacked by Lu Ming could only stop the counterattack, unable to attack Tang Feng.

Lu Ming alone blocked the 20 Nine Tribulations quasi immortals, greatly reducing the pressure on others.

In the outer universe, there are now a total of thirty-seven Nine Tribulations quasi immortals left.

Xue Bi'an was entangled by the villain king, and 36 people remained.

Lu Ming entangled twenty people, and sixteen were left.

Feihuang, the three ancestors, the demon phoenix, and Cangqing, shot with all their strength, sniping the remaining sixteen Nine Tribulations quasi immortals.

In this way, Tang Feng finally got a chance to breathe, mobilize all his strength, and cut out a sword again.

boom!

This sword slashed on the top of Xianguan, Xianguan huge earthquake, dense cracks appeared on it, and broken stones splashed.

Xianguan, about to break open!

The three ancestors, the demon phoenix, and Cang Qing are all overjoyed.

Almost successful!

During their peak period, they were real immortal-level existences, and they had broken through the fairy gate. It was very clear that Tang Feng's fairy gate was about to be broken.

One sword!

Perhaps, only one more sword is needed to break through the immortal gates and achieve the status of immortal way.

The Nine Tribulations Quasi Immortals in the outer universe were a little panicked.

"Using fairy soldiers, now the heart of the universe is merged, and the primordial universe is much stabilized. Broken fairy soldiers will not cause the destruction of the universe."

"Yes, kill them with broken fairy soldiers!"

Someone yelled.

"kill!"

Wang Gu of the Styx universe sacrificed a pitch-black war sword.

At the very beginning, it was Wang Gu who used this war sword to break the seal of the Cangqing Divine Realm.

This is a broken fairy soldier!

"Help me revive the fairy soldier!"

Wang Gu roared, several masters of the Styx Universe shot together, urging the fairy soldiers.

Hum!

The immortal soldier shook, revived, and exploded with an astonishing aura, turning into a terrifying sword light, beheading Xiang Lu Ming.

Lu Ming's hair suddenly stood upside down, feeling a fatal crisis.

Fairy soldier!

Even the incomplete fairy soldier, once recovered, the strength is extremely terrifying, unmatched.

Because that is the power of immortality.

"Block me!"

Lu Ming roared, fists madly, and in a flash, he hit ninety-nine punches.

Ninety-nine fist strengths came together in one go, bombarding the sky-shaking sword light.

when! when! when! ...

In a flash, ninety-nine roars erupted.

With each roar, the sword light of the fairy soldier's sword would weaken by one point. After ninety-nine sounds, the fairy soldier's sword was abruptly blocked and flew back.

How can it be?

All the creatures in the outer universe have their eyes widened, they are all incredible.

The fairy soldier sword was actually blocked.

Although this is a broken fairy soldier, there are scars on it and it is not complete, and there is a gap between the power and the complete fairy soldier.

But it was also absolutely close to the power of the Immortal Dao, which was no small matter. The ordinary Nine Tribulations quasi immortal would die in one hit.

Now, I was actually blocked, if I hadn't seen it with my own eyes, it would be unbelievable.

"A few more people come to help, not all of the power of the Immortal Soldier War Sword has recovered."

Wang Gu roared.

"I'll help you!"

"I'm coming too!"

Several Nine Tribulations quasi immortals appeared behind Wang Gu and input their power into the immortal war sword.

This time, the Immortal Soldier's War Sword really exploded with even more terrifying power, and once again slashed towards Lu Ming.

Not only that, in the other direction, a fairy mountain, extremely huge, suppressed towards Lu Ming.

Another fairy soldier!

It is still incomplete, with wounds on it, it is a broken fairy soldier, exuding immeasurable holy light, coming from the holy light universe.

Sure enough, these big universes have brought big killers.

It was not used before, one was unnecessary, because the seal of the Cangqing Divine Realm had already been broken.

The second is that the cosmic heart of the previous primordial universe has not merged. The primordial universe is very weak and cannot withstand the inability of the broken fairy soldiers, and will be completely destroyed.

But now, the heart of the universe is fused, and the rules of order are radiating, and the primordial universe is many times more stable than before. They judged that it should be able to withstand the power of the broken fairy soldier, and it has reached a critical moment, and Tang Feng must be blocked.

Two broken immortal soldiers slammed to Lu Ming, and about ten Nine Tribulations quasi immortals urged them.

The remaining Nine Tribulations quasi immortals culled Xiang Tang Feng to prevent him from continuing to break through.

Facing the attack and killing of the two broken immortal soldiers, Lu Ming trembled, his musculoskeletal force was under tremendous pressure, as if he was about to collapse.

The ten Nine Tribulations quasi immortals tried their best to mobilize two broken immortal soldiers to attack and kill, Lu Ming couldn't stop it.

This has been separated from the quasi-xian-level power.

Chapter 5203: Tang Feng Chengxian

"Come out to me."

At the critical moment, Lu Ming scratched his brow.

In the sea of consciousness, a piece of metal flew out and was caught by Lu Ming.

The broken metal was obtained from the dark-skinned old man in the Supreme Immortal Capital.

At the beginning, the dark-skinned old man blocked Renwang's Broken Sword with metal fragments, showing extraordinary power.

In the previous war, the metal fragments had been silent, apparently unwilling to help Lu Ming.

At this moment, Lu Ming was arbitrarily caught out, and the power from the blood crystal of the lord of the Supreme Immortal Dynasty was madly input into the broken metal.

boom!

Amidst the broken metal, a terrifying force revived. The metal fragments exuded a bright brilliance, and a black metal rod appeared in Lu Ming's hand.

Of course, most of the metal rods are imaginary, composed of energy, and only the piece of metal is physical.

This should be the true appearance of the fairy soldier to which the metal piece belongs.

A long stick!

boom!

Lu Ming blasted out with one hand holding the cudgel.

The first to bear the brunt is the black sword.

when!

When the two collided, the sky shook and roared, the black war sword was trembling, the light of the sword collapsed, and it flew out.

Lu Ming kept turning the direction of the metal rod, bombarding the giant mountain above his head, and flying the giant mountain away.

"kill!"

Lu Ming roared, like an invincible war fairy, the metal stick swept out, and the stick burst out, unmatched.

Not only attacked the two incomplete immortal soldiers, but also enveloped the other Nine Tribulations quasi immortals.

The huge shadow of the stick filled the sky, as if a piece of the world was pressing down.

"not good!"

The faces of those Nine Tribulations quasi immortals changed wildly and felt a deadly threat.

If this stick hits, few Nine Tribulations quasi immortals can resist it.

At the critical moment, a green pagoda rushed out of the body of a quasi-immortal of the Nine Tribulations in Yuqing Great Universe.

The blue pagoda has only three floors, and it is obviously also a broken fairy soldier.

As the tenth big universe in the Yang room, this time he came, obviously also carrying a big killer.

The blue pagoda grew sharply, flew upwards, and collided with the stick shadow.

boom!

The terrible energy swept through, downwind, and the bodies of those Nine Tribulations quasi-immortals shook wildly, backing back and forth, and many of them vomited blood.

They couldn't even bear the aftermath of the broken fairy soldiers on the bombing.

The blue pagoda was knocked out, and the shadow of the stick that Lu Ming swept away also dissipated.

"Come again!"

Lu Ming roared.

Continuously manipulating the metal fragments, bursting out the most powerful power, Lu Ming felt the power from the blood crystal of the Lord of the Supreme Immortal Dynasty was rapidly consuming.

After all, the energy of the blood crystal is only a trace of the lord of the Supreme Immortal Dynasty, and there is not much left. After continuous battles, it was originally consumed. Now it is fully urging the fragments of the fairy soldiers.

But as long as he can persist until Tang Feng breaks through the immortal gates and proves that he becomes immortal, it is enough.

Lu Ming did not hesitate to consume the energy quickly, and urged with all his strength, the stick shadow vibrated, and one was divided into three, separated into three stick shadows, and bombarded three directions.

Under the pressure of the stick shadow, the Nine Tribulations quasi immortals, it is difficult to find a chance to attack Tang Feng.

Hum!

The earth-shaking sword erupted, Tang Feng mobilized all the power, and all of his spirits broke out at once, turning into the strongest sword in his history.

boom!

The strongest sword light slashed above Xianguan.

Click!

bump!

Xianguan finally gave out a dazzling glow, like the last afterglow, and then burst open with a touch.

An extremely terrifying force poured down after Xianguan and enveloped Tang Feng.

Tang Feng's breath rose instantly.

The skyrocketing speed is amazing, his body, his soul, and his power are all undergoing rapid transformation.

This is the ultimate sublimation, from one life to another life level.

It's a success!

Feihuang, the three great ancestors, the demon Phoenix, Canglin, etc., were all in ecstasy.

Knock open the immortal pass, proving Taoism into immortality.

Tang Feng has succeeded, is undergoing rapid transformation, has surpassed the quasi-immortal, and has become another kind of life.

The strongest, immortal, immortal creature.

"not good!"

The faces of the Nine Tribulations Quasi Immortals in the outer universe all changed wildly.

To be honest, this is really beyond their expectations.

No one could have imagined that someone could prove to be immortal under such circumstances.

Even the great power behind them can't think of it.

Even if the heart of the universe merges, it is just merging. The Primordial Universe wants to be truly complete and suitable for becoming immortals. It is still early, and it will take some time to recover.

Under such conditions, they should not be able to become immortals.

However, Tang Feng did it, turning the impossible into possible, creating a miracle.

It's horrible to rise up in the ruins and become immortals in the ruins.

"Retreat!"

Xue Bi'an was the most decisive, retreating directly and hurried away.

He knew that there was no room for change. Tang Feng became an immortal, the heart of the universe, they could no longer seize the heart of the universe.

A new immortal, based on the heart of the universe, succeeded in breaking through the barriers, which means too much and complements each other.

This immortal is immortal, and the heart of the universe will never be broken again.

Sure enough, the heart of the universe glowed, exuding infinite aura, and the rules of order, like infinite silk threads, extended to the primordial universe.

At this moment, the prehistoric universe has become extremely stable.

The immortal will not die, the heart of the universe will not be broken, and the primordial universe will not be destroyed forever.

"go!"

Seeing Xue Bi'an retreating, the other Nine Tribulations quasi immortals, not stupid, suddenly retreated, and retreated wildly.

"kill!"

Suddenly, Tang Feng shouted, his eyes full of cold murderous intent.

He is now proving Dao to become immortal, how can he let these people go back.

Raising his hand, the infinite sword light burst out, shattering the void, killing these quasi immortals in the outer universe.

Those who bear the brunt are the ordinary quasi immortals.

This time, only the Styx Universe and Shengguang Universe, which came here first, brought ordinary quasi-immortals, those quasi-immortals and origins that had previously besieged the Cangqing Divine Realm.

In other large universes, the Nine Tribulations Quasi Immortals came.

These ordinary quasi immortals, without even screaming, were annihilated by the sword light and completely wiped out.

And there is more sword light, killing those Nine Tribulations quasi immortals.

This is a real blow, unmatched.

"Do not..."

Many Nine Tribulations quasi immortals roared and desperately resisted.

But everything is in vain. Their attacks and defenses, under the sword light, are like pieces of paper, which are broken in one blow.

Puff puff...

The light of blood flashed, and the blood stained the void.

In a flash, there were 21 Nine Tribulations quasi immortals who were completely killed by Jianguang.

Lu Ming took a deep breath.

Is this the power of the true fairy?

Tang Feng just broke through, and with a single blow, these previously incomparable Nine Tribulations quasi immortals were completely vulnerable to a single blow, and 21 of them died in an instant.

These are all nine calamities quasi immortals, hard work, and after many calamities, can we get to this step.

Only one step away will be able to prove the Dao and become immortal.

But now, under one move, twenty-one died.

It's like cutting melons and vegetables.

The remaining dozens did not die because they were sheltered by the broken fairy soldiers.

Chapter 5204: Immortal King Yingzhao

Before, Lu Ming killed two Nine Tribulations quasi immortals.

In the outer universe, there are thirty-five Nine Tribulations quasi immortals, Xue Bi'an who went out and took the lead to escape, and thirty-four others.

The remaining thirteen, under the protection of three broken immortal soldiers, were able to save their lives.

However, the sword light that Tang Feng slashed out was terrible.

Although it was blocked, the backlash still caused the thirteen Nine Tribulations quasi immortals to vomit blood and suffered severe injuries.

"Hmph, wanting to block me with broken fairy soldiers, it's ridiculous!"

Tang Feng spoke indifferently, stepped out in one step, and appeared above the thirteen Nine Tribulations quasi immortals, and grabbed the palm of his hand.

Hum! Hum! Hum!

The three broken immortal soldiers shook, and they escaped from the control of Wang Gu and others and flew towards Tang Feng.

Finally, Tang Feng waved his hand and put it away.

The remaining thirteen quasi immortals of the Nine Tribulations had pale faces.

"Tang Feng, you are now proving Dao and becoming immortal, and you will return to Yang Ting. If you kill us, it will be difficult to explain to Shengguang Universe in the future."

A quasi immortal of the Nine Tribulations in the Holy Guangda Universe called.

"Yes, I, the ancestor of the Yuqing Universe, served as the deputy chief of the court in Yangting. If you want to develop in the Great Universe, you'd better make friends with us."

A quasi immortal of the Nine Tribulations in Yuqing Universe was also called.

They are really scared, and now they can only lift out the universe behind them.

According to the laws of Yang Ting, the great universe has risen from its ruin to a new true immortal. As long as certain conditions are fulfilled, it can return to Yang Ting, be sheltered by Yang Ting, and receive its resources.

But Yuqing Great Universe and Shengguang Great Universe are all giants in the Yang Court.

Their status is very important, and if the Great Universe wants to develop smoothly, they can't offend them.

Now they can only use this to save their lives.

"ridiculous!"

Tang Feng showed a mocking smile, raised his hand, and the sky was full of sword energy.

"Ah, Tang Feng, the fairy of Yuqing Universe will not let you go."

"The fairy king of the Shengguang Great Universe will definitely make you worse than death."

The Nine Tribulations quasi immortals of Yuqing Universe and Shengguang Universe roared in despair.

And the Nine Tribulations Quasi Immortals of the Styx Universe and the Skeleton Universe also roared frantically.

They are not reconciled. They are only one step away from the true immortal. They have worked so hard, and after many catastrophes, they are only one step away, and they are about to prove the truth.

They were really unwilling to fall in this way.

However, their unwillingness is useless.

Jianguang cut down, and the remaining thirteen Nine Tribulations quasi immortals all fell.

"Good, good kill!"

Liu Song, Yao Ye, and the other origins of Cangqing Divine Realm all roared, shaking with excitement.

Before, they watched the Cangqing Divine Realm and the quasi immortal of the Demon Race, one by one blew themselves up, they were too frustrated and powerless.

At this moment, a breath of bad breath finally came out.

Those quasi immortals finally did not die in vain.

"Xue Bi'an..."

After killing the thirteen Nine Tribulations quasi immortals, Tang Feng raised his head and looked in the direction of Xue Bi'an's escape.

With a wave of his hand, the void split, and through the split void, he saw a figure far away, fleeing frantically.

It is Xue Bi'an.

Xue Bi'an was standing upside down at this moment, and with keen spiritual sense, he felt a fatal crisis.

He knew that Tang Feng would not let him go, and had to escape from the prehistoric universe.

He flees desperately to a cosmic passage.

As long as you escape the passage of the universe, you are safe.

"kill!"

Tang Feng whispered, holding a war sword, and slashed out with one sword.

A sword light slashed out along the crack, surpassing an infinite distance in an instant, suddenly appeared on top of Xue Bi'an, and fell down towards Xue Bi'an.

Roar!

Xue Bi'an roared like a wild beast, urging the broken fairy soldier with all his strength to revive the broken fairy soldier, struggling to cut upwards, hoping to block this sword light.

However, the broken fairy soldier is only a broken fairy soldier, and there is a gap between it and the real fairy after all, and it is not controlled by the real fairy, how can it block Tang Feng's sword light.

With a sound, Xue Bi'an's broken fairy soldier was knocked out.

Jian Guang kept on cutting towards Xue Bi'an.

Xue Bi'an's face is pale, is he really going to fall here?

He is unwilling!

To tell the truth, with his strength, he can knock at the immortal gate at any time and prove the Dao to become an immortal.

It's just that he has bigger ambitions, he doesn't want to become immortal so easily, he wants to accumulate more.

He doesn't want to be an ordinary true immortal, he wants to become a powerful Taiyi true immortal, even a peerless true immortal.

But everything is not too late.

Jianguang cut down, he couldn't stop it.

Seeing, the sword light was about to fall.

Xue Bi'an's body suddenly glowed, and a hazy figure emerged from his body, patted Tang Feng's sword light with a palm.

boom!

Tang Feng's sword light was blocked.

"Ancestor!"

Xue Bi'an shouted in surprise.

This figure is an ancestor of the Great Universe on the other side, with incredible strength, and it is a fairy king-level existence.

"The Immortal King, this is the Immortal King, which is reflected by Xue Bi'an's body..."

The ancestor of Wunian exclaimed.

After all, he is a veteran true immortal. At his peak, he almost reached the peak of true immortal, and he could see his name at a glance.

The others were shocked.

The fairy king has come?

As soon as the primordial universe became stable, it attracted such powerful men.

The king of immortality, the king of immortals, is not just talking, it is really too strong, almost to the extreme of immortality.

How can Tang Feng just prove the truth?

"The ontology is far away in the universe. If you want to rely on the power of reflection, you want to save him. Dreaming, your ontology is almost here."

Tang Feng was very strong, stepped out, shattered the void, and came to Xue Bi'an not far away.

Huh!

The sword light shocked the sky, and the dazzling light illuminated the entire primordial universe.

At this moment, no matter where you are in the universe, you have seen this sword of light.

Amazed by the sword light of the universe, he cut to Xue Bi'an.

In front of Xue Bi'an, the hazy figure waved his hands in succession, as if pushing a marvelous force, bombarding Tang Feng's sword light.

Rumble!

Two terrifying forces collide in the void. The endless void is endless, constantly destroying, and constantly recovering...

The cycle repeats.

This collision is really amazing, it is the real power of immortality.

If before Tang Feng became immortal, before the heart of the universe, the power of this blow would destroy the entire primordial universe and completely disappear into the chaos.

But now, naturally nothing will happen.

After a blow, the sword light collapsed, Tang Feng's figure took three steps back, and the figure took two steps back.

The shadowy figure, with a dazzling radiance in his eyes, seemed very surprised.

"It's a miracle that such power can erupt as soon as the Dao is proclaimed..."

The shadowy figure whispered.

"kill!"

Tang Feng didn't say much, only a cold word 'kill'. His own sword disappeared, and at infinity, where the original Cangqing Divine Realm was, the human king's broken sword turned into a ray of light, broken into the void, and appeared in Tang Feng's hand.

Jianzu held the Renwang Broken Sword in his hand, and his breath rose again.

At the same time, massive forces in the primordial universe gathered towards Tang Feng.

Chapter 5205: Desire to be completely destroyed, the true fairy comes

In the great cosmos, countless fragments of continents have the power to soar, and in the depths of the void, there is also a huge amount of power rushing towards Tang Feng.

If the cultivation level is high enough, you can even see that in the universe, endless 'silk threads' converge towards Tang Feng, densely covering his body and sword.

This is the rule order of the prehistoric universe.

Tang Feng is borrowing the power of the rules and order of the prehistoric universe.

This sword is extremely stunning, surpassing the past and present, and it is powerful and appalling.

Even the ancestors of the Great Universe on the other side of the universe changed their expressions, and quickly pinched the tactics with both hands, drew the power of the immortal way, and cut out a terrifying knife light.

The other side knife!

boom!

Swords collided, the universe trembles, and the next moment, the light of the sword shattered directly, and the face of the ancestor of the Great Universe changed wildly, and his figure retreated violently.

"go!"

Then, the ancestor of Bi'an Universe waved his sleeves and rolled Xue Bi'an, hurriedly far away.

His body is far away in the Bi'an universe, and now he is only using Xue Bi'an's body to reflect a power.

The distance is too far, the power reflected is limited after all.

And Tang Feng, rising from the ruins and becoming immortal in the ruins, based on the heart of the universe, this kind of immortality is no trivial matter.

In a sense, he can represent the primordial universe and use the primordial universe to confront the enemy.

As long as he is in the wild cosmos, Tang Feng's power will be astonishing, far beyond his realm.

Under such circumstances, it is not advisable to stay for a long time and can only retreat first.

Xue Bi'an cannot die here.

"Want to go, stay!"

Tang Feng yelled, his sword light broke the sky, and he made another sword.

This is the sword of the Supreme Sword Immortal, the real flying immortal from the sky, shattering everything, and instantly overtook the ancestor of the Universe Universe, taking Xue Bi'an straight away.

The Great Universe on the other side continuously fought a dozen defenses, but when Jianguang cut down, the dozens of defenses collapsed one after another.

boom!

Finally, the ancestor of the Bi'an Universe, one arm bounced out, and Xue Bi'an among them let out a panic cry.

"Set it to me!"

The ancestors of the Great Universe on the other side took full action and sniped the sword light. Although the power of the sword light was constantly weakened by him, it was still a step too late in the end.

Xue Bi'an was swept by the sword light, screamed, and half of his body exploded.

The ancestor of the Bi'an Universe, with a wave of his hand, grabbed the remaining half of Xue Bi'an's body, tore the space, and disappeared completely into the world with a scream.

Tang Feng's face was a little ugly.

Xue Bi'an still ran away.

After all, he has just become an immortal, and his cultivation base has yet to be consolidated in the future. Although he can draw on the power of the primordial universe, it is ultimately limited, and the opponent is obviously a powerful immortal king.

It is already very good to be able to achieve such a result.

Xue Bi'an was hit by a sword, and he had already damaged the foundation. Without a long time, he would definitely not be able to recover.

Even in the future, it will be difficult to knock on Xianguan and prove Dao to become immortal.

For a peerless evildoer, this may be more uncomfortable than killing him.

"Awesome, really amazing!"

This scene was seen by Lu Ming and others, because the crack that Tang Feng had torn before had mirrored the scene.

Young people like Lu Ming, Liu Song, and Yao Ye are the most excited.

Killed well!

At the same time, he was deeply impressed by Tang Feng's invincible demeanor.

"My father-in-law, reliable...like me."

Lu Ming muttered in his heart.

After Xue Bi'an was rescued, Tang Feng did not return. Instead, he sat cross-legged on the spot. Immediately, there were figures walking out of him.

Doppelganger!

This is different from Feihuang's incarnation of all spirits, which is just an ordinary clone, or Xianli clone.

Once immortal, the original power in the body will be completely transformed into the power of immortality.

This is a kind of supreme power, with infinite power, infinite changes, and infinite mystery.

Squeeze all the forces in the world.

These clones were all made by Tang Feng with a trace of immortal power.

There are a hundred avatars in total, tearing apart space one after another, flying to all parts of the prehistoric universe.

There is an ancient ruin here on a piece of mainland debris.

A powerful man in the big universe in the underworld broke through the ruins here before and sacked all the treasures in the ruins. Now, there are still many people doing raids.

The void split, and a figure suddenly appeared.

Naturally Tang Feng's clone.

"who?"

A quasi immortal of Six Tribulations coldly shouted, blasted out with a punch, and killed Tang Feng.

They didn't know the previous battle, they just felt that the primordial universe had changed, and naturally they didn't know Tang Feng.

"kill!"

Tang Feng spoke indifferently, and between waving his hands, boundless sword light exploded.

"The power of immortals, no..."

The Six Tribulations quasi immortal roared in horror, and the next moment he was crushed by sword light and vanished into ashes.

The rest of the sword light swept across the ruins, and all the masters of the outer universe here were wiped out.

At the same time, such things happened in many places in the primordial universe.

Tang Feng wanted to leave behind all the creatures who invaded the primordial universe.

On the other side of the universe, the master of the Holy Light Universe is located.

A figure suddenly appeared above them, naturally Tang Feng's clone.

"not good!"

As soon as Tang Feng appeared, the master of Shengguang Great Universe felt bad.

Their Nine Tribulations quasi-immortals have gone to besiege the Cangqing Divine Realm, but now, there is a powerful person from the prehistoric universe suddenly appearing here, is there an accident in the Cangqing Divine Realm battle.

"kill!"

After Tang Feng's clone appeared, he didn't talk nonsense and shot directly, and the sky was full of sword light.

Infinite sword light, shrouded everyone in it, unmatched.

The people of Shengguang Great Universe all showed hopelessness.

But at this time, the void suddenly burst, and in the depths of the dark void suddenly burst out infinite holy light.

These holy lights flew out and hit above the sword light, completely blocking the sword light.

Then, a figure appeared, suddenly enlarged, standing upright, and crowded with the void of the universe.

It's too big, the fragments of the mainland are not as big as his palm, his eyes are like electricity, staring at Tang Feng, the vastness, the supreme, and the eternal and immortal aura fills the entire void.

"Master True Immortal!"

The master of the Universe screamed in surprise.

"True fairy!"

Tang Feng frowned slightly.

What he could see was that this was not a mark, nor a reflected power, but a real body.

A real immortal-level powerhouse, his true body has arrived.

"Congratulations to the immortal friend for proving Dao into immortality. From now on, you can transcend the universe and enjoy eternity."

The true fairy of Shengguangda Universe was very polite and gave Tang Feng a fist.

"Do you want to keep them?"

Tang Feng said.

"How about the next face of the fairy friend?"

Shengguangda Universe True Immortal Dao.

"Your face is not so great, these people must stay today."

Tang Feng is very strong, and the fairy king dares to use his sword, let alone a real fairy?

"Friends of the fairy, you are now a fairy. According to the laws of the Yang Ting, you can re-enter the Yang Ting as long as you complete one more task. Being aggressive will not do you or your prehistoric universe in any way."

The true immortal of Shengguangda Universe was very polite, but the threat in his words was obvious.

Chapter 5206: The immortal king comes

Tang Feng frowned slightly.

He had to worry about what the other party said.

If it's just himself, he doesn't care.

However, he has a wife, children, disciples, friends...

He had to hesitate.

Moreover, nowadays, the prehistoric universe is full of arrogance, and it needs time to develop, and it needs a stable environment.

In this way, joining Yang Ting is the best choice.

Joining Yang Ting, not only can get shelter from the Yang Ting, from the attack of the Yin world, but also a large amount of resources in the Yang Ting, which is very important for the development of the primordial universe.

And the Shengguang Great Cosmos, the power in the sun court is no small thing, once it really becomes a mortal enemy, it will be very detrimental to the future development.

The juniors compete with each other and fight with each other, it is just a small fight, but once the real immortal goes to war, it will be a big deal.

There were countless thoughts in Tang Feng's mind.

If it were himself, he would definitely take action, not only to leave these true immortals and origins, but also the true immortal in front of him.

After killing, he left after a big deal.

But now the hope of the development of the prehistoric universe lies in him...

"It seems that it's not just me here."

The true fairy of Shengguangda Universe suddenly looked in several other directions.

I saw many terrifying figures in many places in the universe, all of them from the great celestial cosmos of the Yang.

These figures, extremely huge, squeezed the void and protected the masters of their universe.

Tang Feng frowned and suddenly looked in another direction of the universe.

"The underworld is really immortal!"

Tang Feng whispered.

.....

not long ago.

The other side of the universe.

This is where the masters of the Styx universe are stationed.

Although there are many masters in the Styx Universe, going to the Cangqing Divine Realm, there are still many masters stationed here.

Tang Feng's clone appeared, and immediately started to cut down the trembling sword light.

But it's the same on the other side of the Universe.

The sword light was resisted, and a shattered figure appeared in the void, standing upright, swallowing mountains and rivers, surrounded by a huge Styx.

A real immortal-level powerhouse.

"kill!"

Facing the true immortal in the underworld, Tang Feng didn't have the slightest scruples, and his camp was different, even if he killed all the creatures in the underworld, it was fine.

The splendid sword light, but entrained the power of life-threatening, slashed towards the true fairy of the Styx universe.

"Hmph, I just broke the real fairy, and I want to do it with me, looking for death."

The true immortal of Styx Universe snorted coldly. He is a veteran true immortal. I don't know how many years he has entered the path of immortality. Tang Feng just dared to do something against him just as he was just proving the Dao.

Then take the opportunity to get rid of it!

The Styx Universe shot out with a palm, and immediately, the Styx surging, trying to swallow Tang Feng in.

boom!

Jianguang slashed on the Styx, the big waves were soaring, and the Styx rolled down.

The real fairy of Styx Universe changed his face, screamed, and pushed out his hands continuously.

The Styx collapsed, and above it, the creatures appeared, roaring and launching a terrorist attack.

After all, Tang Feng was just a clone, after all, he couldn't resist it and retreated steadily.

In the distance, Tang Feng's true body was originally sitting cross-legged, but at this moment, he suddenly stood up and took a deep breath. All the clones in the universe returned at the same time, submerged in his body.

He stepped out of his true body in one step and appeared near the true immortal of the Styx Universe. The sound of swords rang through the universe, and the sword light soared across the ten directions, continuously cutting down.

The true immortal of the Styx universe roared, offering his Nine Tribulations quasi immortal soldiers to fight with all strength.

That's right, it is the Nine Tribulations quasi-celestial soldier, not the fairy soldier.

There are too few real fairy soldiers after all.

The fairy soldiers of the true celestial beings cannot be refined. Only when the great universe is first opened, can they be bred from the depths of the chaos of the winners.

The fairy soldiers in the entire universe can count how many pieces there are, and each piece has a record and a name.

Most true immortals do not have immortal soldiers, and they are used as quasi immortal soldiers who accompany their enlightenment.

However, the true immortal of the Styx Universe was horrified to discover that he was actually not an opponent.

Tang Feng's sword light was endless and sharp, as if it could break everything, but he could not stop it.

Boom boom boom...

In the void in all directions, figures continued to appear, one by one standing upright, with a shocking aura.

All are immortal-level existences.

They even used mysterious methods to mirror the universe and project all the conditions in this place.

Let the whole universe see the scene here.

"This is... true immortals, all true immortals."

The three great ancestors, Yaozu Phoenix, Cang Qing, etc. exclaimed.

There are at least a dozen true immortals.

They felt tremendous pressure and did not know the purpose of these real immortals.

These true immortals are watching the battle seriously, and some people are shocked.

"It's really amazing that he can suppress He Luo without using the power of the prehistoric universe."

"He Luo is a veteran true immortal. He has been enlightened for countless years, but he is not an opponent. Could it be that this person has achieved the position of Taiyi true immortal?"

"The position of Taiyi True Immortal?"

These people are silent, with complex eyes, jealous, and envy.

what!

The true fairy of Styx Universe roared and fought back frantically, but it was useless. He felt that the pressure Tang Feng put on him was also increasing.

puff!

In the end, the Styx he shot was cut off, the sword light swept over him, he vomited blood, and the fairy body was almost cut in two.

The remnant of Jianguang swept past, and there were more than a dozen masters of the Styx Universe, their bodies exploded and their bodies and spirits disappeared.

"kill!"

Tang Feng yelled coldly, aggressively attacking, to completely kill the true fairy of the Styx Universe.

"You are too much!"

An indifferent voice sounded, and then a huge bone claw grabbed Tang Feng.

The bone claws are like human bone claws, and the bones are jade-colored, crystal clear.

But what is strange is that under the crystal clear bone, there is actually a trace of golden blood flowing.

The bone claws are huge, covering the void of one side, and the power is boundless, and everything is dying and melting wherever it passes.

"The fairy king!"

The true fairy of Shengguang Great Universe exclaimed.

Other true immortals also changed their colors.

This is the immortal king's shot.

It's not like the immortal king in the Great Universe before, it's just a reflection of the body, but the real body descends.

Tang Feng roared, the immortal king was too strong, unmatched, and he felt that the immortal body would not be able to bear it and would be destroyed before his claws arrived.

He screamed, the forces in the universe converged towards him again, and his body was densely covered with the infinite rules of order, and he cut out a sword with all his strength.

The sword light slashed on the bone claws, and with a sound, the sword was shaking, Tang Feng's body violently retreated, and a mouthful of blood was spit out.

After all, he just broke through, even if he can use the power of the prehistoric universe, he can't match a real fairy king.

"kill!"

Behind the bone claw, there was an indifferent shout, and the bone claw only paused for a while, and then continued to grab Tang Feng.

This is obviously to completely kill Tang Feng.

There were more than a dozen immortal Dao-level powerhouses around Yangjian, but these people were indifferent, and none of them helped.

Tang Feng roared, drew his sword and fought again.

Chapter 5207: From heaven

Tang Feng swung his sword to attack, and with the help of the power of the prehistoric universe, he raised his combat power to its peak.

But compared to the fairy king, there is still a big gap.

Grabbing the bone claws, the sword light continued to collapse, and the rules and order of the universe were bursting and annihilating.

This scene was reflected in the eyes of every creature in the universe, Lu Ming, the three ancestors, Feihuang and others, all saw it.

Many people showed hopelessness.

Could it be that Tang Feng won't work after becoming a fairy, or will he die in battle?

The prehistoric universe is still hopeless after all?

At this moment, in front of the bone claw, a jade-like palm appeared, slashed lightly, and slashed on the bone claw.

This jade-like palm looks light and fluttering. There is no strength, and it has not caused any vision, as if it was a palm cut by an ordinary person.

However, when the palm of the hand was cut on the bone claw, dense cracks appeared on the bone claw, and then it exploded with a touch.

"what!"

In the void, there was a cry of pain, and then a huge bone exploded and retreated violently.

In front of Tang Feng, a woman appeared.

Barefoot, short skirt, slim figure, beautiful face.

She just stood in the void, detached from the dust, immortal.

"This is... Terran? Is it the predecessor of Terran?"

The first thing Lu Ming thought of was the senior powerhouse of the human race.

In the final battle, although a large number of masters died in the battle, it is speculated that some masters were still alive, sealed the prehistoric universe, and then left.

Could it be that the hearts of the universe merged, and those seniors have come back?

Injure an immortal king with one blow, what a powerful combat power is this?

In the history of Human Race, there are only a handful of women with this level of combat capability?

The eternal woman king?

Lu Ming suddenly thought of the peerless woman king who was one of the three kings.

"It's not the ancestors of the human race, but the heavenly race!"

On the edge, the ancestor Wunian said, his brows furrowed, and his eyes were uncertain.

"Unexpectedly, today even the Cangtian clan will come. The Cangtian clan has always been detached from things, and the grudges and grievances of the major universes have never been dealt with, unless it is a major event..."

At the edge, the prehistoric demon clan Phoenix spoke, equally surprised.

"The Clan of Heaven? What is the Clan of Heaven?"

Lu Ming asked.

Although he heard several ancestors mention it last time, it was only a brief mention, and Lu Ming did not ask in detail. (Although I have talked about the Heavenly Clan in detail in the previous article, the protagonist is not clear about it.)

"The No. 1 universe in Yang, the leader of Yang Ting. According to legend, they were born in the universe of Yang. They are extremely ancient. No one knows how long they have been born. They are the earliest creatures in Yang."

"Corresponding to it is the Huangtian clan of the Yin Realm. The Yin Realm ranks first. It was born in the Yin Universe Sea and is as old as the Cangtian clan. They are collectively called the Clan of Heaven.

The ancestor of Wunian quickly explained it again.

"The sky, the yellow sky, the clan of the sky?"

"It's no wonder that destroying the heavenly army is a taboo, and the heaven and human race don't dare to use the name 'Heaven'."

Lu Ming was stunned.

The clan of heaven and sky, the clan of yellow sky, is known as the clan of heaven, and if the name of the army of exterminating the heavens is spread out, it will indeed cause catastrophe.

To destroy the sky and destroy the sky, which 'heaven' do you want to destroy, the clan of heaven?

As for the Celestial Race, that also violated the taboo. In the name of Heaven, except for the Cangtian and Huangtian tribes, the others were not qualified.

This peerless woman who wounded an immortal king with one stroke came from the heavenly clan.

But why does it look so similar to the human race?

Not only appearance.

There is temperament and breath.

Seeing Lu Ming's doubts, the ancestor of Wunian explained: "The ontology of the Heavenly Clan is like this. Why are countless races in the Universe Sea transformed into human forms? Actually speaking, they are not transformed into human forms, but transformed into human forms. It's the 'Sky Shape'."

"The legend says that the form of the Celestial Race is the most perfect form. The Human Race is naturally close to the Celestial Race. In the universe, many races have natural appearances similar to those of the Celestial Race, all approaching their perfect form."

Lu Ming was stunned.

It's no wonder that many races, such as monster races, as well as strange races in the outer universe, can transform into human forms when they are strong.

Lu Ming used to wonder why these races were in line with the Humans, but now he understood that they were not in line with the Humans, but in line with the Heavens.

The human race, with a natural appearance and aura, is exceptionally like the heavenly race.

It is not the human race that is in line with each other, but the heaven or the yellow race.

This form is the most perfect form in the universe, and the form most suitable for cultivation.

"I have seen you!"

Those immortal creatures in the other universes in Yangjian were originally standing in the distance watching the excitement. When they saw the women of the heavenly clan, they were all moved and bowed to see them.

The heavenly clan, in the sun, has the supreme position.

He is the well-deserved leader of Yang Jian.

If there was no Cangtian clan against the Huangtian clan in the Yin Realm, Yang Jian would have been destroyed long ago.

What's more, the woman in front of her is an extremely powerful fairy king.

And the immortal creatures in the underworld had their pupils contracted, showing fear.

"The Cangtian clan takes action, do you want to cause an all-out war between Yin and Yang?"

The immortal king in the skeletal universe roared, very afraid.

"The matter of the prehistoric universe, so far, you all take your people and get out of the prehistoric universe."

The woman of the heaven clan spoke indifferently.

"go!"

The fairy king of the skeletal universe, the true fairy of the Styx universe, and the other masters of the underworld, were very decisive, and took the people from their respective universes, quickly left, and headed for the passage of the universe.

The creatures in the underworld began to retreat, rushing to the passage of the universe from all parts of the universe.

In the past, the primordial universe was just a dilapidated universe. Regardless of the masters of Yang Ting, they could naturally come and go freely and grab resources here.

But now that the fairy kings of the Cangtian clan have all intervened, then the only way to evacuate.

Although the primordial universe is located at the junction of the Yang and Yin worlds, it is actually biased towards the Yang and is in the boundary of the Yang.

Really going to war is not good for the underworld.

"Why not keep them."

Tang Feng asked the woman of the Cangtian clan.

"It's not yet time for a full-blown war."

The woman of the heavenly clan shook her head.

Tang Feng was silent for a while, then held a fist and said, "Thank you!"

"According to the laws of Yang Ting, you rise from the ruined universe, proving Taoism and becoming immortal, and you can re-enter the Yang Ting and be sheltered by the Yang Ting. Of course, if you want to truly join the Yang Ting, there are still conditions..."

Speaking of this, the women of the Cangtian clan waved their hands, and their figures quickly disappeared before the eyes of other creatures in the universe.

"saved."

Many people couldn't help cheering at the Cangqing Divine Realm.

It seems that the prehistoric universe is safe.

This time, after paying such a big price, twenty quasi immortals blew themselves up, and they finally got a good result.

Although Tang Feng seems to be discussing matters with the Immortal King of the Heavenly Clan and other immortal creatures, it seems that it should not be detrimental to the Primordial Universe.

Otherwise, the previous masters of the Heavenly Clan would not make a move.

Chapter 5208: Breakthrough

"It's weird. The Heavenly Clan has rarely intervened in the affairs of other large universes. When the Primordial Universe was destroyed, they didn't even see them make a move. How could they suddenly make a move this time?"

The ancestor of non-consciousness whispered, very surprised.

"It's really strange!"

The other two ancestors, the Phoenix of the Demon Race, and Canglin, were equally strange.

They are all immortal creatures who have survived from the last era, knowing a lot, and knowing a lot.

"But no matter what, at least the Great Universe has been preserved, which is a good thing."

Finally, Yaozu Phoenix nodded.

They were waiting quietly, waiting for Tang Feng's news.

After a while, the void split, and Tang Feng's figure appeared.

He stepped forward and landed on the highest mountain in the heart of the universe, sitting cross-legged.

"I am consolidating my cultivation base now, and you will heal your injuries first."

Tang Feng's voice came.

"go!"

The villain king, the ancestor of Wu Nian and others, showing a trace of joy, stepped forward, came to Tang Feng's surroundings, and sat cross-legged one after another.

"Lu Ming, let's go, Tang Feng has just broken through the immortal gates, and now we are consolidating our cultivation base. We can also get some benefits by being next to us. It can play a very good role in recovering our injuries."

Feihuang said to Lu Ming.

Lu Ming nodded, and together with Feihuang, came to Tang Feng and sat cross-legged.

"The power is fading!"

Lu Ming felt that his own strength was fading rapidly.

This is the power from the blood crystal of the lord of the Supreme Immortal Dynasty, which quickly faded at this time, and finally, a blood crystal was recondensed on Lu Ming's chest.

However, the volume of this blood crystal was several times smaller than it was at the beginning.

Only one-fifth of the original remains.

"It consumes so much."

Lu Ming's heart is heavy.

Perhaps, the Lord of the Supreme Immortal Dynasty planned to regenerate with that blood crystal at first, but now it consumes so much, can it still work?

There was not much hope, but now it may be even more slim.

"In the future, if I have the ability, I will definitely find a way to regenerate seniors."

Lu Ming whispered silently, and then collected the blood crystal into the sea of knowledge.

At the same time, the figure above the ancient **** stone also disappeared.

At this moment, a mysterious and powerful force spread out from Tang Feng's body.

Lu Ming inhaled a burst of energy, and the injury on his body quickly recovered.

Tang Feng was consolidating his cultivation, and mysterious energy was constantly permeating out.

The villain king, Feihuang, the ancestor of Wunian, and others are all absorbing this energy, repairing the wounded body and soul.

In addition to them, the original origins of the Cangqing Divine Realm, and the few remaining quasi immortals, are also absorbing this energy to heal their wounds.

In the previous battle, everyone was seriously injured.

Especially the Flying Phoenix, the villain king, the three ancestors, the Phoenix, and Cangqing.

They fought dozens of Nine Tribulations quasi immortals, and died several times. The injuries were unimaginable. If they were to recover normally, it would take endless years of sleep to recover slowly.

But now, with the help of Tang Feng consolidating the energy permeated from the cultivation base, their injuries are actually recovering quickly.

Just to prove the Dao, just break through the immortal gate, you will surely get the blessing of mysterious energy.

Moreover, what Tang Feng broke was not an ordinary immortal gate, and what he accomplished was not an ordinary true immortal...

Relatively speaking, Lu Ming's injuries were fairly minor.

He has the energy body of the Lord of the Supreme Immortal Dynasty. Although he was also injured, the injury was not that serious. In addition, the forbidden body itself was extremely strong. It didn't take long before his injury completely recovered.

"Lu Ming, continue to practice. Now is a rare opportunity. Tang Feng has just passed the barrier. This kind of energy can be hard to find, and he can refine his body and soul. When his realm is completely consolidated, this kind of energy will radiate again. "

Feihuang's voice sounded in Lu Ming's mind.

"Senior, in that case, I will bring Xiaoqing and the others..."

Lu Ming responded.

"I have separated my avatar and brought it out, so you can practice with peace of mind."

Feihuangdao.

Lu Ming was relieved now.

He closed his eyes, absorbed this energy, and began to temper his soul and body.

Sure enough, I felt that the soul and the body, under the nourishment of this energy, were rapidly improving.

His body and soul had originally reached the level of the Second Tribulation. At this moment, he continued to climb upward.

Soon after, the avatar of Feihuanghuang returned, bringing with him Xie Nianqing, Tang Jun, Tang Jian, the First Heaven Sword, the Second Excalibur, the Third Demon Sword, Pao Bao, Dan Dan and others.

There are hundreds of people.

Lu Ming's relatives and friends, as long as they have enough talent, have brought them, his son Lu Shenhua, granddaughter Lu Chi, disciples Lu Xiangxiang, Ouyang Moli and so on.

There are also a number of masters from the "Premier League".

Everyone sat around, absorbing this energy, and practicing meditation.

From Lu Ming's wrist, the ball also flew out, opening his mouth wide, absorbing this energy.

Two hours later.

Lu Ming felt that his body and soul were metamorphosing at the same time, reaching a higher level, unexpectedly reaching the level of the Three Calamities.

At the end of the origin, it actually reached the level of the three-knack body and the three-knack soul, which is rare in the entire universe.

boom!

Around Lu Ming, a powerful breath rose up.

It's the ball!

The ball is actually breaking through.

In the Supreme Immortal Capital, the ball swallowed a quasi-celestial soldier of the dark-skinned old man, but it never made a breakthrough because it could not refine the quasi-celestial soldier very well.

But now, with the help of Tang Feng's breakthrough energy, he finally refined the quasi-immortal soldier, and his cultivation reached the peak of his origin in one fell swoop.

At this moment, not only Lu Ming and the ball broke through.

Most of the others broke through.

Xie Nianqing, Tang Jun, Qiuyue and others have also made significant progress in their bodies and souls.

While they were practicing, the changes in the primordial universe were getting bigger and bigger.

With the heart of the universe as the core, the rules of infinite order permeate in all directions. These rules of order are invisible to the naked eye, but like countless silk threads, they are connected to all continent fragments.

These continent fragments, shattered into the void, flew toward the heart of the universe quickly.

Not long after Lu Ming's body and soul broke through, some fragments of the mainland that were relatively close had already flown in and merged with the heart of the universe.

Rumble!

Piece by piece of continent fragments, connected together to form a larger continent.

The prehistoric continent of the last epoch is slowly recovering.

I believe it won't be long before the original appearance of the Primordial Continent will be able to reappear.

With the accumulation of continental debris, the order and rules of the primordial universe have become more perfect.

The creatures of the primordial universe are able to come into contact with the rules of order more clearly, not knowing how many times easier than before.

Many masters were originally stuck in a realm, and it was difficult to improve for many years.

At this moment, the bottleneck began to loosen, some people broke through directly, and their realm improved.

And with the passage of time, more and more people break through the cultivation base.

Many cards existed at the peak of the gods, breaking through and attacking the original realm.

It's not that their talents are not high, but that the previous cultivation environment was too bad, the rules of order were incomplete, and the environment was overwhelmed.

Chapter 5209: The reason for the soul and fate, the wrong person

In the great universe, many people are making breakthroughs.

The people of the Primordial Alliance, the people of Cangqing Divine Realm, the Primordial Demon Race, and the races of the Primordial Universe.

For example, the Buddha family, the demon family, the metal family, the top ten plant royal families, the spirit family, etc...

And the Yaxian!

Many of these races in the cosmic starry sky, many people who have been stuck in the bottleneck for a long time, are also breaking through their cultivation.

It is not just that the **** master peaks breaking through the origin, there are people breaking through many realms.

With the perfection of the primordial universe, it is destined to usher in a wave of breakthroughs.

This is the accumulation of the past, which broke out at this moment.

Soon after, Tang Feng finally consolidated his cultivation base, and the strange energy disappeared completely.

Feihuang, the villain king, the three ancestors, Phoenix and Cangqing's injuries were about 60 to 70% better.

This is already very rare.

If they were to recover step by step, it would be difficult to recover to such a level without dozens of hundreds of sidereal years.

Although he has not healed yet, but based on this foundation, he will recover soon afterwards.

"Lu Ming..."

Xie Nianqing, Qiuyue and others came to Lu Ming one after another.

Lu Ming also talked to them about the previous battle, and everyone heard it with fear and turmoil.

"father!"

Tang Jun flew directly to Tang Feng with a happy smile on his face.

"Okay, just come back!"

Looking at his daughter, Tang Feng also smiled.

"Is that... Sword Ancestor?"

Xie Nianqing looked at Tang Feng with a complicated expression in her eyes.

At this time, Tang Feng's gaze also looked at Xie Nianqing, his gaze was as deep as the stars and the universe, but also a bit complicated.

For a long time, he nodded slightly to Xie Nianqing, showing a slight smile.

He already knew that the personality of Xie Nianqing in charge of this body was Tang Qing in this life, not the previous life.

Although there are memories of previous lives, to be precise, Tang Qing is no longer complete.

Just another person with the same memory.

However, reincarnation is inherently risky, and it is very rare to be able to awaken memories.

"Xiaoqing, go, go see you, and ask if you have any questions."

Lu Ming took Xie Nianqing's little hand.

Xie Nianqing hesitated, and finally stepped forward and came to Tang Feng.

"She... is she okay?"

Xie Nianqing said, with concern in his eyes.

Tang Feng smiled, he naturally knew who Xie Nianqing was asking?

Ye Xin, his wife, Xie Nianqing and Tang Jun's mother.

Xie Nianqing also worried about the safety of her mother in her previous life, indicating that she still has feelings for them, which is enough.

"Don't worry, although she is seriously injured, I am now an immortal and I will definitely find a way to cure her."

Tang Feng nodded solemnly.

Xie Nianqing felt relieved, looked at Tang Feng, and finally said 'I'm sorry', then turned around and went to Lu Ming, Lu Shenhua and the others.

At the side, Tang Jun, Tang Xiao, Feihuang, First Day Sword and others all sighed in their hearts, and their eyes looked at Tang Feng with a trace of heartache.

How sad it is that my own biological daughter does not recognize me in front of me.

"At the moment, the most important thing is to reunite all the continent fragments and reappear the wild continent. I need to control the Heart of the Universe. It will take at least half a year. You all go to your own business."

Tang Feng's voice spread throughout the audience, and then his figure sank into the earth. To be precise, he entered the heart of the universe.

Suddenly, the rules of order emanating from the Heart of the Universe became stronger, and the continent fragments everywhere in the primordial universe moved closer to this side more quickly.

Even those planets in the original universe starry sky, as well as the mother stars of those big races, are all moving closer to the heart of the universe.

Those planets in the cosmic sky, the parent stars of those big races, such as the dragon family parent stars, are all evolved from continental debris, and they are naturally drawn at this time.

Even some ancient ruins are the same, moving closer to the heart of the universe.

Rumble!

Every moment, there are fragments of the continent flying in and gathering together.

With the heart of the universe as the center, this continent is constantly getting bigger.

"Master, do we want to go back? Now all the fragments of the continent are gathering here, and the fragments of the continent where the old lady and the master are located will also fly in, and they will meet the masters of the outer universe halfway..."

Qiuyue said softly, a little worried.

"Ok!"

Lu Ming nodded, he had to guard against this.

The continents where the Cangqing Divine Realm was transferred are located in remote areas, but they will definitely gather towards this place. It is not impossible to meet the masters of the outer universe halfway through.

"Wait for a moment, I'll ask a question."

Lu Ming said, his figure flashed, and he drove in front of someone.

This person is the fate of soul!

"Senior Soul Fate, goodbye again, how is your injury?"

Lu Ming asked.

"Fortunately, I can't die, it's 50 or 60% better, but unfortunately, the four old guys from the demihuman race were too cunning and they ran away."

Soul Ming replied, very unhappy.

Before, he almost died in the hands of four quasi immortals of the demihuman race.

Thanks to his being a taboo body, his vitality is extremely strong, and the Nine Tribulations Armor, the Nine Tribulations quasi-celestial body guard, only saved his life.

But he was near death and his injuries were extremely serious. However, under the energy overflowing from Tang Feng's breakthrough, his injuries had recovered by 50 to 60%.

The four Seven Tribulations quasi immortals of the Demi-human race were very cunning. Seeing that Tang Feng had a successful breakthrough before, he left his soul and fled.

"That's good, senior, want to ask a question."

Lu Ming said.

"You want to ask me, why did you give you the precepts?"

Soul and Fate could see the doubt in Lu Ming's heart at a glance.

amount.....

"Senior, do you know that the Heart of the Universe is in the Precious Ring?"

Lu Ming asked.

"Nonsense, of course I know that the heart of the universe was sealed and refined by myself, how can I not know?"

"The reason I gave it to you in the first place was because I confessed to the wrong person."

Soul Fate Road.

Lu Ming: "..."

I recognized the wrong person.

Lu Ming thought about thousands of reasons, but he never thought it was such a reason.

"I once acquired a ray of heaven in a ruin by chance, and vaguely perceived that I would have a catastrophe, and in the future, there will be a new taboo body that will rise in the ruin, and prove it. Cents."

"When I first got out of trouble, I found that you were a forbidden body. I thought that the person who could prove the Tao to become an immortal was you. That's why I handed over the Precious Precepts to you and wanted to help you. The person mapped in the heavenly secret is not you at all, but Tang Feng, so I admitted wrong."

Soul and Fate explained it in detail.

Lu Ming was really speechless.

Unexpectedly, it was such a reason.

But finally resolved the doubts in my heart.

"Farewell!!"

Lu Ming clasped his fists, took Xie Nianqing, Qiuyue, Lu Shenhua and others, left here and returned to the continents where the Cangqing Divine Realm had moved.

These continents were indeed moving fast, toward the direction of the heart of the universe.

Lu Ming and others stayed here.

Chapter 5210: The Great Retreat of the Races in the Universe

The prehistoric universe ushered in a new era.

Countless continental fragments, continental fragments scattered throughout the universe, all converged in one direction.

It doesn't take a year for all the continents to reunite, and the prehistoric continents of the last era will reappear in the world.

But at this time, the creatures in the outer universe are undergoing a great shift, quickly withdrawing from the prehistoric universe.

The creatures of the underworld retreat the fastest.

Those who came from the real fairy, led by the real fairy, withdrew from the prehistoric universe.

The creatures without true celestial beings are also rushing towards the passage of the universe.

They have already learned that in the prehistoric universe, new immortal masters have been born.

If you don't leave, you may never be able to leave.

The creatures in the sun are also retreating.

In every big universe in Yang, almost all true immortals handed down the decree and asked them to retreat.

There are also some large universes, where immortal creatures descend directly and take away the creatures of the various large universes.

"Liu Shugong, why are we retreating? Why, my cosmic heart fragments flew away, please Liu Shugong to help me get it back."

Yuqing Great Universe, a powerful immortal, took Shan Xiong, Shan Ying and others, and flew to the passage of the universe.

But Shan Ying was extremely unwilling, and kept asking the immortal god.

"Don't think about the fragments of the heart of the universe. The heart of the universe of the primordial universe has been merged. Someone has used the heart of the universe to prove that Dao becomes immortal, and they can't take it away."

The immortal master of Yuqing Universe shook his head and said.

"How about becoming a fairy? We Yuqing Universe, with a group of immortals, are we afraid that a guy who has just become a fairy will directly destroy him and take away the complete heart of the universe."

Shan Yinghong stared.

His mentality completely collapsed.

The fragments of the heart of the universe have fallen into his hands. They are the foundation of his enlightenment. They just flew away. His mentality exploded and he was almost hysterical.

"This is an order from the Heavenly Clan, you give me a clearer mind, wouldn't you be able to become enlightened without the Fragment of the Heart of the Universe."

The immortal creatures of Yuqing Universe scolded.

"What? The Heavenly Clan..."

Shan Ying's face changed drastically, and she shuddered violently.

The order of the heavenly clan gave him 10,000 courage, and he did not dare to violate it.

"Six-uncle, the heavenly clan, have never interfered with the grievances of other universes in the Yang world. They will only take action unless there is a war with the Yin Realm. This time, how can they suddenly make a move?"

Shan Xiong asked, he was much calmer than Shan Ying.

"I do not know either!"

The immortal creatures of Yuqing Universe shook his head, and he couldn't figure out why the heavenly clan would suddenly intervene.

"However, depending on what the adult of the Cangtian clan means, he will not give the Primordial Universe much preferential treatment. Therefore, if you encounter a person from the Primordial Universe on the battlefield or in the sun court in the future, you can do what you should do, don't worry."
"

The voice of the immortal creatures in Yuqing Universe turned.

"Understood Liu Shugong!"

A ray of murder flashed in Shan Xiong's eyes.

Yuqing Universe, Shengguang Universe...

Everyone's universe is retreating. As time goes by, there are fewer and fewer creatures in the outer universe.

On this day, another group of people appeared at the passage of the universe.

This is a creature from the Yuanmo universe.

The Yuanmo universe ranks twelfth in the universe of Yang.

This is also a top-level universe.

It can be seen that there are some special figures standing in the Yuanmo universe.

Zixuan!

It turned out to be the Zixuan of the demon clan.

Since Zixuan's fusion of the blood crystal of the Demon Ancestor, her strength has skyrocketed, and she has long become the leader of the demon clan.

Beside Zixuan, there were also a few masters of the demon clan, they all stood respectfully behind the creatures of Yuanmo Great Universe.

That's right, Zixuan led the demon family, had already taken refuge in the Yuanmo Great Universe, ready to follow the Yuanmo Great Universe to leave the prehistoric universe.

As for the other demons, they have been taken into the space treasure.

"After all, I am leaving, Lu Ming, goodbye if you are destined!"

Zi Xuan sighed slightly in her heart.

After all, the demons do not belong to the prehistoric universe. They stay in the prehistoric universe. If the creatures in the prehistoric universe are happy or not, let's not talk about it, and it is not good for their own development.

And to take refuge in the Yuanmo Universe, even with a low status, is better than staying in the prehistoric universe.

"Let's go!"

An immortal creature in the Yuanmo Universe waved his hand and led everyone into the passage of the universe.

.....

A month passed in a hurry.

At this time, almost all the creatures in the outer universe have retreated, and the vast and wild universe has become empty again.

And the fusion of mainland fragments is also increasing.

It turned out that a huge and boundless continent appeared at the location of the Cangqing Divine Realm.

This is the fusion of countless pieces of continental fragments.

Of course, this is far from the end, and some mainland fragments that are too far away have not yet arrived.

However, it has begun to take shape, and this continent can already be called a prehistoric continent.

Five months later, half a year had passed since the battle between Cangqing Divine Realm.

The fragments of the continent where Lu Ming and the others were located finally merged with the prehistoric continent.

"It's a vast land, it needs strong energy..."

Lu Ming and others flew high into the sky, looking around, completely unable to see the edge.

It's too vast.

The Primordial Continent at this time was already 80% the size of the Primordial Continent of the last era.

The primordial aura is very strong, much stronger than the previous Cangqing Divine Realm.

Because of the collision and fusion of continental debris, huge mountain ranges have appeared on the mainland, which are full of vitality and plants, and even magical medicine has appeared.

If this continues, many top magic drugs will be born soon.

The people of the Cangqing Divine Realm and the people of the Primordial Alliance were scattered, flying over the vast continent.

On the easternmost part of the continent, planets merged with the primordial continent.

These planets are all creatures from the starry sky of the previous universe.

Although there have been endless wars over the years, many races in the starry sky have been extinct, but many races have survived.

Now, these races are extremely excited, flying over the vast continent, looking for a place to establish their clan.

Now, there are too few creatures on the prehistoric continent, and the land is vast and sparsely populated.

Various sacred places for cultivation can be chosen at will.

The native creatures of the primordial universe slowly dispersed and took root on the primordial continent.

At this time, Tang Feng's figure reappeared, appearing high in the sky.

The Primordial Continent has been completed 80%, and the rest does not need to be taken by him. The remaining fragments of the continent will slowly fly to merge by themselves.

"The demihumans, it's time to solve them completely. Who will be with me?"

Tang Feng's voice sounded.

"Dehuman!"

"Tiangong!"

"When it's gone!"

Suddenly, many people flew towards Tang Feng.

"Yuwei, let's go, let's go together."

Lu Ming looked at Ling Yuwei.

The elves were destroyed by the Heavenly Palace, Ling Yuwei always wanted to step on the Heavenly Palace. Now, the time has come.
