

D Emperor 5211

Chapter 5211: Sword Slashing Heavenly Palace

Ling Yuwei nodded and flew towards Tang Feng with Lu Ming.

Xie Nianqing, Qiuyue and others accompanied him.

Not only them, Tang Xiao, the first day sword and so on.

A large number of figures flew towards Tang Feng.

Most of the prehistoric alliances have great feuds with Tiangong.

Not only that, but many people in the Cangqing Divine Realm also set off.

In the last epoch, the demihumans were merely enslavements by the human races, but in the first battle six months ago, the Heavenly Palace actually dispatched four Seven Tribulations quasi immortals to deal with the Cangqing Divine Realm.

The human race of the Cangqing Divine Realm naturally couldn't bear it.

"go!"

With a wave of his hand, Tang Feng wrapped up the crowd, stepped out in one step, the void inverted, and the stars shifted. The next moment, he appeared in a void in the eastern universe.

In the dark and cold void, five palaces are suspended.

The five palaces are exactly the five heavenly palaces.

It can be seen that in the heavenly palace, the flickering figures are all demihumans.

Tang Feng waved his hand, and a large number of figures appeared in the void.

"Start the formation!"

As soon as they found Lu Ming and others, the demihuman clan roared, and immediately, the five heavenly palaces were filled with dense runes.

They are all top-level source-level formations, based on the original bones, solid and immortal.

"Humph!"

Tang Feng snorted coldly, a murderous flash in his eyes.

Since he entered the prehistoric universe, he has been besieged and killed by the demihumans many times, with two wives killed and wounded.

This account should have been cleared long ago.

Tang Feng didn't do anything, but his eyes burst out with five sword lights, which turned into a sky-shaking giant sword, and slashed down at the five heavenly palaces.

Unstoppable!

This was a real immortal's move, and all source-level formations and defenses were like paper, and could not withstand a single blow.

Bang bang bang...

Jianguang cut down, and the five heavenly palaces were all shattered.

A large number of figures flew out, shouting in panic.

"Ok?"

Tang Feng frowned.

Among the demihumans, he did not find the figure of Zhunxian.

Not a single immortal.

Especially some of his familiar faces, existences that have fought him before, such as Ye Immortal, Ye Chu Zhan Kuang, etc., have not been seen.

Lu Ming and others also immediately discovered the problem.

"Yeah immortal, Yeqiu immortal is not there."

Lu Ming glanced at his spiritual consciousness and found no trace of Ye Immortal or Ye Qiuxian.

Even some of the younger Tianjiao among the demi-human races have not seen it.

Tang Feng stretched out his hand and grabbed it. An old man at the pinnacle of origin was grasped by Tang Feng, without any resistance.

Tang Feng reached out and clicked on this person's eyebrows. This was the beginning of a soul search.

After a while, Tang Feng waved his hand, and the demihuman old man was wiped out.

"The high-level demihumans have left, including a group of young Tianjiao. These people who are left do not know where those people have gone. These people have been abandoned."

Tang Feng said.

Everyone's faces sank.

"It seems that Ye Immortal and others have taken away the quasi immortals from the demihuman race, and a group of tianjiao, and left the prehistoric universe. They are likely to take refuge in the holy light universe."

Lu Ming said.

This is not hard to guess.

Obviously, Ye Immortal and others took away a group of backbone forces of the demihumans. The reason why they did not take all the demihumans away was mostly deliberate.

Take it away together, the movement is too loud, for fear of attracting Tang Feng's attention.

The four demi-human tribes who participated in the battle of the Cangqing Divine Realm, most of them knew that Tang Feng had become immortal. Taking all the demi-human tribes with them would easily attract Tang Feng's attention and be sniped and killed. People can't walk away either.

Take away a small part of the backbone, leaving most of the demihumans, attracting the attention of Tang Feng and others.

What a ruthless method.

In order to get away by yourself, you can sacrifice a clan.

"I walked for a while, did I walk for a lifetime?"

Tang Feng's voice was indifferent.

"You have to do it, do it!"

Finally, Tang Feng spoke, but he didn't make a move.

His main enemies are Ye Immortal, Ye Chu Zhan Kuang, and those quasi-celestial old guys.

Moreover, with his current identity and cultivation base, these ordinary demi-human races, he disdains hands.

"Kill! These demihuman races can't stay."

"kill!"

Tang Feng didn't make a move, and many others did.

In the Primordial Alliance, there are many big clans who were destroyed by the Heavenly Palace before. Such deep hatred and hatred cannot be easily exposed.

One after another, they killed the demihuman race.

"kill!"

Ling Yuwei also rushed out, bent her bow and set an arrow, and an arrow cut through the void, exploding a demihuman origin.

Ling Yuwei gained the inheritance of the immortal in the land of the burial of the immortal, and has improved a lot in all aspects, with extremely strong combat power and profound background.

But now, her cultivation base has also reached the peak of the early roots. With her combat power, it is not difficult to kill the middle roots of the heavenly human race.

You know, the Celestial Clan is also suppressed in the primordial universe, especially above the source, the suppression is even stronger.

Fighting alone, fighting at the same level, is often not the opponent of the origin of the prehistoric universe.

"kill!"

Ling Yuwei drank, her beautiful eyes were full of murderous intent.

At this moment, scenes about the elves, scenes about her father, kept flashing in her mind.

Clan members were annihilated, relatives were killed, this is an unshakable hatred.

Shoo...

A series of terrible arrows were shot out continuously, and the general early stage and middle stage of the original source could not stop her from shooting an arrow.

In addition, it is aimed at the Celestial Race in the Divine Realm.

Every arrow will take away the life of a Celestial Race.

"Die me!"

With a roar, an old man of the Celestial Race stared at Ling Yuwei and killed Ling Yuwei.

This is a strong man at the pinnacle of origin, and his combat power is not weaker than that of the Lord of Heaven.

This is the lord of the heavenly palace of the previous generation. After abdicating, he has been closed to the fifth heavenly palace and rarely appears in this world.

He is such an old fritters, but now I don't know that they have been abandoned.

Ye Immortal took the Tiangong's approved immortal and a group of Tianjiao and left silently, even he didn't know it.

Now as soon as he saw Tang Feng and others kill, he knew that they had become abandoned sons. He knew that Tang Feng and others would never let them go. They simply worked hard, even if they died.

boom!

Lu Ming stepped out and threw a punch.

The Lord of the Heavenly Palace of the previous generation screamed, his body exploded and he was smashed to pieces.

With Lu Ming's current combat power, it was too easy to kill the ordinary pinnacle of Origin.

Lu Ming protects by Ling Yuwei's side, Ling Yuwei can't deal with it, he solves it.

This area, screaming ups and downs with each other, this is a total slaughter.

Heavenly palace masters all left, how can the morale of the rest of the people be?

Besides, there is no accident at all with Tang Feng, a true immortal sitting in town.

After half an hour, the hands-on people stopped.

Including Ling Yuwei, they all stopped.

The main thing is that the masters of the demihuman race have all been killed.

Divine Lord and Origin are almost completely destroyed.

The rest is under the Lord of God.

In their eyes, under the gods, it is not worth killing, not to mention, there are a large number of ordinary demihuman races.

Although they have a deep hatred with the demihumans, they can't do it to let them slaughter the ordinary demihumans who can't fight back.

Chapter 5212: Kill to forbidden land

"Leader, what about the remaining demihuman races?"

Lion asked Tang Feng.

Tang Feng is now the leader of the Primordial Alliance.

"I come!"

Tang Feng said, stretched out his hand and grabbed it in the air, suddenly, the sky was turned upside down, and the shadows of several worlds appeared in the void.

"The prison..."

Lu Ming's eyes moved.

One of the worlds is clearly the place where other races were imprisoned in the Tiangong, known as the Tianja.

Lu Ming had gone in before.

Lu Ming didn't know the other worlds.

However, the territory of the city is vast and very huge. It should not be a small thousand world, but a middle thousand world.

Several huge vortexes suddenly appeared, bursting out with huge devouring power, covering all the demihuman races.

The densely packed demihuman races, without the slightest resistance, were swallowed into these worlds.

After a while, all the demihuman races were swallowed into those worlds, not one left.

"The demihuman races are all sealed in those worlds, and will be used as a place of experience for our prehistoric universe..."

Tang Feng said.

"This method is good." Many people's eyes lit up.

It is impossible for them to slaughter those ordinary demihuman races, but it is absolutely impossible to let them go.

These demi-human races are sealed in several different worlds according to their different cultivation bases. In the future, the gods of the primordial universe can enter these worlds, slay the demi-human races, and temper themselves.

Kill two birds with one stone.

"Now, those worms, it's time to fix it."

Tang Feng's gaze swept across the universe.

Then with a wave of his hand, he led everyone back to the prehistoric continent, but Tang Feng did not stay, his figure flashed, and he disappeared without a trace.

"He's going to take action on the forbidden lands."

No thought of the ancestor Tao.

Everyone was shocked.

The sword ancestor Tang Feng is about to take action on the forbidden lands. This is definitely an earth-shattering event.

Today, the creatures in the outer universe have all left the prehistoric universe, but the major forbidden areas are still intact, at most they just recalled their respective clansmen, still shrouded in the forbidden areas.

Can Tang Feng do it?

You know, all the forbidden places have passed endless years, and in a very early age, they came to the prehistoric universe.

In the last epoch, when the king was king, they still existed forever, never being destroyed, which shows how powerful they are.

Now Tang Feng has just become an immortal, how can he deal with the forbidden lands?

Many people are worried.

"The sword ancestor Tang Feng, although he was shocked and brilliant, I am afraid that what he accomplished is not an ordinary true immortal, and he has risen from the ruin, becoming the first immortal after the prehistoric shattered. As long as he is in the prehistoric universe, he can use the predominantly. The power of the universe and the combat power will increase many times, but in the forbidden area, there are immortal kings sitting in the forbidden area. I am afraid that even if Tang Feng can draw on the power of the primordial universe, he will not be the opponent of the immortal king."

Canglin, the ancestor of the Yaxian clan, also showed worry.

Now, the place where the Yaxian clan lives is also integrated with the prehistoric continent, and the Yaxian clan also lives on this continent. Naturally, the ancestor of the Yaxian clan led the Yaxian clan and merged into the prehistoric alliance.

Now, all the forces in the primordial universe have merged into one.

All races, all creatures, are very clear.

Now the primordial universe is waiting to be flourished. Compared with other complete universes, it is far different.

If they want to have the right to speak, want to rise, and want to keep their homes, they must work together.

And now the land is vast and sparsely populated, there are some resources, and there is no need to compete for resources.

This also helps to twist the creatures of this prehistoric universe into one.

"He is not an impulsive person, he should have a plan."

Feihuangdao.

She has fought side by side with Tang Feng for many years and knows Tang Feng very well.

"Now!"

The ancestor of Wunian pinched Yinjue, and suddenly, in the void, a huge picture emerged.

A terrible place.

Lu Ming recognized at a glance that what appeared on the screen was an extremely evil place.

Above the terrible land, Tang Feng stood volley in the sky, his eyes gleaming like a divine sword.

But at this moment, the extremely evil land is like a great enemy, and a large array shining with its dazzling brilliance, shrouded the entire extremely evil land.

The big array is extremely terrifying, the air is shocking, even through the screen, there is a kind of pressure that makes people breathless.

"This is one of the foundations of the great forbidden areas. The immortal formations are based on immortal soldiers. They are powerful and can destroy real immortals. Even the immortal kings are difficult to break. This is also one of the reasons why the great forbidden areas can survive forever. ."

"Of course, the masters of the major forbidden lands are strong enough, and all are the existence of the fairy king level."

The ancestor of Wu Nian explained.

Fairy formation!

Lu Ming was shocked.

He has entered the forbidden area more than once.

Dan Dan once said that in the forbidden area, there is a terrifying formation, but in the silence, it has never recovered.

Lu Ming once saw it in the Demon King Emperor pattern.

Now, the fairy array has recovered, emitting a boundless light, like a beacon in the dark and cold void.

"Senior, I heard that the forbidden areas came to the prehistoric universe very early in the last era. Why on earth?"

Someone asked several ancestors.

"I didn't know if it happened at a very remote time. At that time, the Lich races had not yet risen, and the primordial universe was not strong in the entire Yangjian. It was ranked behind ten thousand, and there was no record in the ancient books."

The ancestor of Wu Nian shook his head.

Everyone was surprised.

Even the first ancestors do not know how old they are.

But it is strange.

At that time, the Primordial Universe had not risen, the Lich races had not yet contended for hegemony, and the Human race was even weaker. The three kings were far from being born. The Primordial Universe was ranked behind tens of thousands in the tens of thousands of universes in the sun, which can be said to be ordinary. Pass, unremarkable.

Why do those immortal king-level powerhouses in the underworld bring people to the primordial universe and turn them into a forbidden land.

Over the years, a large number of masters of the underworld have entered the prehistoric universe.

The creatures of the Yin Realm have a better understanding of the origins of these forbidden lands, and the origin of these forbidden lands has gradually spread. Therefore, Lu Ming and others have a better understanding of the origins of the forbidden lands than before.

The more you understand, the stranger it is.

The predecessors of these forbidden lands were all big clans in the underworld, and there were immortal kings in charge, which could be said to be very powerful.

However, why these big clans invaded the primordial universe and turned them into forbidden places?

Can't figure it out!

"I heard some news from the predecessors of the Demon Race. It is said that the reason why the various races of the Underworld killed the primordial universe and turned into a forbidden place is to find a breakthrough..."

Yaozu Phoenix Road.

"Opportunity for breakthrough? You mean, breakthrough above the fairy king?"

The complexion of the ancestor of Wu Nian changed greatly.

"Not bad!"

The demon Phoenix nodded solemnly.

"Impossible, the prehistoric universe, how can there be an opportunity to break above the immortal king, if there is, my father will not be stuck in the immortal king realm."

Xiao Ren Wang shook his head, a little unbelieving.

"It's just a rumor from the predecessors of the Yaozu, but I don't really believe it either."

Yaozu Phoenix also shook his head.

Chapter 5213: Immortal King Out

"Seniors, above the fairy king, is there a higher realm?"

Lu Ming asked curiously.

Many people also look to you true immortals.

Over the years, the invasion of the powerful from the outer universe has also brought a lot of information.

Didn't it mean that the three kings of humanity are all pinnacle masters in the universe?

Isn't it that the fairy king is the pinnacle?

On top of it, is there a realm?

"I don't know. In my heyday, I was far from the fairy king. As for the realm above the fairy king, I don't know whether it exists or not."

Yaozu Phoenix Road.

"It's all legends, anyway, I have never seen a creature at that level."

The ancestor of Wu Nian also shook his head.

"Have!"

At this time, the villain king spoke again.

Everyone's eyes all looked at the villain king, taking away the deep curiosity.

At the peak of the villain king, he had already entered the realm of the fairy king.

And his father, Ren Wang Xuanyuan, the pinnacle of the immortal king, reached the limit of the immortal king.

Is there anything above the Immortal King? Is there anyone who knows better than Wang Xuanyuan.

"My father once said that the immortal king has not yet reached the limit of cultivation. He sensed that there should be a realm above the immortal king, which is mysterious and unpredictable, but it definitely exists, and he also said that there is definitely a realm in the heavenly clan. As for the existence of that level, as for the top ten big universe in Yangjian, whether there is any existence of that level, the father did not say."

"At that time, I was still young. Later, I never heard my father mention it again, but I always felt that there might be that level of existence in the top ten universe."

The villain is king.

"I once heard people from other universes in Yangting talk about it. Some people said that the three kings of the universe, once someone breaks through, the universe will immediately enter the top ten in the sun. Therefore, among the top ten, not necessarily all There is that level of existence."

Cang Lin said.

After that, Zhuxian was silent and didn't say more.

"Isn't the immortal king the end? It should be so, otherwise, Wang Xuanyuan, why would he be seriously injured and fall?"

Lu Ming's thoughts were flying, but he was immediately attracted by the image of the void.

Keng!

The sword light soared into the sky, and Tang Feng directly acted, and the extremely brilliant sword light slashed towards the extremely evil place.

This sword, Tang Feng draws on the energy of the prehistoric universe, is unmatched.

boom!

Jian Guang slashed above the big formation, causing the big formation to vibrate violently.

The extremely evil tribe in the large array turned pale and covered with cold sweat.

The sword light is terrible, if it weren't blocked by a big formation, they would definitely be wiped out in the sword light.

"Why are you aggressive? I can promise that my clan will only stay in the forbidden area and not go out, so you just let it go, how about?"

In the depths of the terrible land, a figure stood there, shrouded in endless power, exuding a terrifying breath.

This is the lord of the extremely evil forbidden land, an existence that has slept for endless years, and a true immortal king.

"You moths, get out of the prehistoric universe all for me."

Tang Feng drank coldly, with a firm attitude, beyond doubt.

These forbidden lands, left in the primordial universe, are all time bombs, maybe they will explode sometime.

"Huh, a little guy who just became a fairy, do you really think we can do anything about us? Even in the last era, the three kings of humans, the king of ten thousand demons, and the strongest witch king can't help us, you think You can?"

A gloomy voice sounded.

It is an old man standing behind the lord of the extremely evil forbidden land.

This is a powerful true immortal.

In the forbidden land, there are not only the fairy king, but also the true fairy.

He didn't pay attention to Tang Feng at all.

They have a strong immortal formation, based on the immortal soldiers, under the impetus of the immortal king and the true immortal, they are infinitely powerful, even the immortal king would never want to break open.

In the last epoch, even if it was Wang Qiang, he had to pay a price.

"kill!"

Tang Feng was too lazy to talk nonsense and shot again.

The sword light was shocking, and the endless rules and order were densely covered on the war sword, which raised Tang Feng's combat power to a peak.

Shoo...

The endless sword light, like raindrops, kept falling down, slashing on the immortal array in the extremely evil land.

The immortal formation was trembling, the face of the Lord of the Forbidden Land changed, and with a soft drink, the energy of the immortal king level poured into the immortal formation to consolidate the power of the immortal formation.

"The combat power of the Immortal King level, how can this person, who has just broken through the immortal gate, display the combat power of the Immortal King level."

The old true fairy of the extremely evil clan roared in shock.

Unbelievable, unbelievable.

Even if it can draw on the power of the prehistoric universe, it can't be so exaggerated.

"Awesome, really amazing. After consolidating the realm, he can actually display the battle power of the immortal king class. The future can be expected. When the king is young, this is only the case."

The ancestor of Wu Nian sighed repeatedly.

The villain king was silent and did not refute.

Tang Feng is really amazing enough, and he also agrees with this statement.

He was called the villain king, and he was absolutely stunning. He was not very young, and he became the realm of the immortal king. Everyone believed that he was called the fourth human king of the human race.

However, he just became immortal, and he seems to be inferior to Tang Feng.

Before, Tang Feng had just broken through, so he was not the opponent of the fairy king, and was suppressed by the fairy king of the Skeleton Universe.

But after half a year of consolidation, Tang Feng, with the help of the power of the prehistoric universe, actually reached the Immortal King level.

It can be said that in the prehistoric universe, Tang Feng is equivalent to a fairy king.

At this moment, even the immortal king of the extremely evil tribe had an ugly face.

"This person is too enchanting, and he can do that when he just becomes an immortal. If he becomes the immortal king in the future, how strong should he be with the help of the power of the prehistoric universe? Will there be a way for us to survive?"

Silently, outside the extremely evil place, a figure appeared.

The aura is terrifying, and he is not weaker than the immortal king of the extremely evil tribe.

"Nine Yin Demon Spider!"

Tang Feng's eyes narrowed.

This is probably the master of the Nine Yin Demon Spider.

"Old spider, what are you going to do?"

In the other direction, a figure also appeared.

He was burly in shape, wrapped in pitch-black iron armor, exuding a gloomy breath.

Another fairy king, from the black sky warrior clan.

"Get rid of it as soon as possible, otherwise, when he grows up, there will be no place for me to wait for all races."

The fairy king of the Nine Yin Demon Spider opened his mouth, and the eight spider legs deep behind it, like eight peerless guns, can penetrate the universe.

The ancestor of Wu Nian, Lu Ming and others, their expressions changed drastically.

The masters of the major forbidden lands unexpectedly dispatched continuously to kill Tang Feng.

If you really do it, it will be a lore, and Tang Feng will definitely not be able to stop it, and there will be a dead end.

The palms of everyone could not help but see cold sweat.

They comforted themselves that Tang Feng should have a back hand, otherwise he wouldn't be so anxious to take action on the forbidden areas.

"You probably forgot that this place belongs to the Yang world, and you are from the Yin world..."

Tang Feng sneered, his face still calm in the face of several immortal kings.

When Tang Feng's voice fell, a group of figures suddenly appeared around him.

One, two, three...

There are a total of eight, all of whom are immortal kings.

Chapter 5214: Forbidden retreat

Around Tang Feng, a number of figures appeared. These figures were unparalleled in power, swallowing the world, and standing upright, as if to fill the void of the universe.

The size of each statue is bigger than the entire terrible place.

All of them are immortal king-level existences, coming from the top big universes in Yang.

Such as Shengguang Great Universe, Yuqing Great Universe, Shangqing Great Universe, Taiqing Great Universe, Fairy Insect Great Universe and so on.

All are the top ten universes in the sun.

One of the women was beautiful and unparalleled in temperament, she was the female fairy king of the heavenly clan.

Several forbidden land masters, their faces changed wildly, and they couldn't help but step back, ready for the battle.

"You want to intervene in this matter?"

The Lord of the Nine Yin Devil Spiders asked with an ugly expression.

"Nonsense, the primordial universe belongs to the sun, you people in the underworld have been hiding here, and your heart is shameful. If you don't retreat, then stay here forever."

A burly big man said, this person is an immortal king from the Great Universe of the Qing Dynasty.

"Retreat as soon as possible. We will not intervene. If we do not retreat, we can only leave you all here."

The female fairy king of the Cangtian clan also followed.

Several forbidden land masters have ugly faces.

They stay in the prehistoric universe, and naturally have their important purpose.

Waiting for endless years, just leave like this, really unwilling.

Moreover, if there is to be a battle, there are now eight forbidden lands in the Primordial Universe, and the eight forbidden lords are all extremely strong among the immortal kings. If the eight people join forces, they may not be afraid of these immortal kings in the sun.

However, this is the sun room.

The fairy king in the sun will come to help at any time, and there will be an endless stream of masters. If a big battle really breaks out, they will die.

Now that the other party lets them leave safely, obviously they are also afraid of their strength, and they don't want to work hard now.

How to do?

These forbidden land masters thought quickly in their minds.

They feel strange.

In the past, they hid in the wild universe, these big universes in the sun, they didn't know, but they never intervened, why are they suddenly intervening now?

"If you don't leave, then stay forever."

The female fairy king of the heavenly clan spoke indifferently, her breath was icy, and murderous intent emerged.

"Okay, let's go."

Finally, a forbidden land master spoke.

The other forbidden land masters sighed, but also helpless.

The heavenly clan intervened, and they had to go if they didn't go, otherwise, they would only die.

In the entire universe, apart from the Huangtian clan, there is no big universe or race that can compete with the heavens.

Unless they moved to the Huangtian clan.

But now that the time has not yet come to a real decisive battle, the Huangtian clan will not fight the Cangtian clan for some selfishness.

Swish...

Secretly, a figure left.

The faces of the immortal kings in Yang Jian were cold, not surprising.

Those who left in secret are the masters of other forbidden land, who have come long ago, but have not shown up, hiding in the dark.

Obviously, the Lord of the Forbidden Land just discussed it secretly and agreed to retreat.

Rumble!

Soon after, an ancient city flew out of the extremely evil land, broke through the void, and flew towards the passage of the universe.

At the same time, other forbidden areas are similar, with various treasures flying out and leaving the place where they have been hiding for endless years.

It didn't take long for the eight forbidden lands to retreat, not one left.

"Tang Feng, we have already done what we promised you, and we owe nothing to each other."

A figure shrouded in white holy light said coldly, this person is a fairy king from the holy light universe.

After finishing speaking, the immortal king disappeared from the same place as soon as he moved, without a trace.

Some of the remaining immortal kings disappeared without saying a word, while others just said something polite to Tang Feng and disappeared one after another.

The last female fairy king of the Heavenly Clan also smiled friendly at Tang Feng and left the prehistoric universe.

Tang Feng returned to the Primordial Continent.

"Tang Feng, what conditions have you reached with them? Why do these fairy kings in the outer universe help and expel the forbidden lands?"

Fei Huang asked curiously.

"It's very simple. I promised to let the creatures of the various universes leave, letting go of the past, and they promised to help expel the forbidden places."

Tang Feng said.

"That's it!"

Feihuang, Lu Ming and the others suddenly appeared.

With Tang Feng's strength, with the help of the power of the universe, he is already comparable to the fairy king. If he wants to keep the creatures and celestial arrogances of the outer universe, the true celestial and fairy kings of the outer universe may not be able to be preserved.

Tang Feng let him go, and the other party agreed to join forces to expel the forbidden areas, which was logical.

"I always feel that it is not that simple. In the last era, the heavens and other large universes were completely indifferent to the forbidden lands. Some people speculate that this is the way the large universes contain the prehistoric universe, so as to avoid the rise of the prehistoric universe. It's too fast."

"But now, how could it be so easy to agree to expel major forbidden areas?"

The villain king was very puzzled.

If the Heavenly Clan, or other large universes, are willing to help the Great Universe to expel the forbidden lands, do they need to wait for the present?

The last epoch has already become.

Could it be that the current primordial universe is ruined and the strength is insignificant, so it doesn't matter?

Everyone couldn't figure it out for a while, so they stopped thinking about it.

"Next, there is one more important thing that concerns whether the Primordial Universe can return to Yang Ting."

Tang Feng's voice turned.

"Yang Ting made a condition?"

The ancestor of Wunian's eyes lit up.

These former true immortals all know that to join Yang Ting, not only local true immortals need to sit in the town, but also to complete certain conditions in Yang Ting.

"Yes, but it's very difficult."

Tang Feng nodded.

Afterwards, Tang Feng glanced at Lu Ming, Xie Nianqing, Tang Xiao, Shi and others, and said: "You may not know the benefits of joining Yang Ting, I will talk to you in detail..."

In Yang Jian, if a big universe wants to develop, it must join the Yang Ting.

First, you can get shelter from the sun court by joining the sun court.

If there is no shelter from the sun court, then it will be attacked by the Yin world, and if there is no help, it will only be destroyed.

Second, by joining Yang Ting, you can get the resources of Yang Ting, which is vital to the development of the universe.

Yang Ting controls the top resources in the Yang room, and the top sacred place for cultivation.

With these resources, the cultivation speed of many Tianjiao will be greatly accelerated.

The upper limit in the future will also increase.

It not only affects Tianjiao, but also affects the cultivation of all beings in the entire universe.

For example, the current location of the Primordial Universe is relatively close to the junction of the Yang and Yin worlds, and it is extremely far away from the Yang Universe Sea.

If you are too far away from the cosmic sea, it will be more difficult to penetrate the cosmic bridge. Even if you traverse the cosmic bridge, because the distance is too far, it will be more difficult to understand the origin.

Although practitioners can enter the universe through the cosmic bridge.

But that is not actually entering the universe, it is just a reflection of the universe, projecting the universe into the consciousness, but the practitioner himself feels as if consciousness has entered the universe.

Chapter 5215: Conditions for reentering the sun court

The farther the universe is from the cosmic sea, the more illusory the reflection, and the weaker the energy of the cosmic sea.

And the closer you are to the cosmic sea, the more real the reflection will be, and the faster you will be able to understand the origin.

Joining the Sun Court, as long as certain conditions are fulfilled, the Primordial Universe will be able to move toward the Sun Universe Sea and get closer to the Universe Sea.

It is said that the celestial universe is close to the universe, and it is the tens of thousands of universes among the sun, the closest to the universe sea.

The other top ten universes are also very close to the universe.

These benefits can only be obtained by joining Yang Ting.

There is no big universe that can take care of itself. If you don't join the universe, it will not only be difficult to develop, but will not be protected by the sun, and sooner or later will be wiped out by the underworld.

The primordial universe is waiting to be thriving, and it is even more necessary to join the Yang Ting and obtain the resources of the Yang Ting to practice.

Of course, resources cannot be given in vain, and some price needs to be paid.

After Tang Feng's explanation, everyone knew that joining Yang Ting was very important.

"Yang Ting has already set the conditions. In the wild universe, if you want to re-enter the Yang Ting, you must complete one condition. No, to be precise, there are three conditions."

"First, let the true immortal of the prehistoric universe kill a true immortal of the underworld!"

"Secondly, the quasi immortals of the prehistoric universe will slay the nine quasi immortals of the Nine Tribulations in the underworld."

"Third, from the origin of the primordial universe, kill the three top evildoers in the underworld, and accumulate three thousand combat exploits."

Tang Feng said.

"What? Why are the conditions so harsh?"

The three ancestors, Yaozu Phoenix, Cang Lin, etc., their complexions changed drastically, and Cang Lin exclaimed.

Lu Ming and others also had serious expressions.

It is very difficult to know this condition as soon as I hear it.

Kill a true fairy in the underworld.

That can only be done by Tang Feng, but the true immortal is known as eternal and immortal, how easy to kill, besides, Tang Feng just broke through.

"If you want to kill the true immortals in the underworld, you must enter the fairy-level battlefield, the fairy-level battlefield, which is full of crises, and the master is like a cloud. In the fairy-level battlefield, you can't use the power of the prehistoric universe. You just broke through. To kill a true immortal in the underworld, I'm afraid..."

The ancestor of Wunian is full of worries.

"I, you don't have to worry, I'm an immortal, and I am invincible at my level."

Tang Feng spoke, speaking without urgency, but revealed an invincible self-confidence and undefeated belief.

Thinking of the miracles that Tang Feng had created along the way, Wunian Ancestor and others stopped talking.

"The second condition is not easy. Killing nine level nine quasi immortals must be accomplished by quasi immortals. Seniors, you used to be true immortals or kings. Now, although you have fallen to the realm, you can't be regarded as quasi immortals. Not eligible, now only..."

Finally, Tang Feng set his gaze on Feihuang.

Nowadays, there are very few quasi immortals in the primordial universe, and the realm is not high, only relying on the flying phoenix.

"Nine Nine Tribulations quasi immortals, give it to me."

Feihuang spoke.

"Ok!"

Tang Feng nodded, obviously trusting Feihuang.

"I am most worried about the third condition."

Tang Feng continued: "The third most difficult requirement is to kill the three top evildoers in the Underworld, and these three evildoers must be the evildoers on the Underworld List."

"What? It must be the evildoer on the list of evil evildoers in the underworld? Isn't this deliberately embarrassing?"

Cang Lin was shocked.

The other remnants also had ugly faces.

There is no origin list in the underworld, but there is a list of evildoers in the origin realm.

To be on the evildoer list is all the top evildoers of the younger generation, because only two hundred people are listed on the evildoer list.

In the tens of thousands of universes in the underworld, plus the Huangtian clan, there are only two hundred people, and on average one or two hundred universes, there is only one person. It can be seen how rare it is.

These two hundred people are all peerless evildoers, masterpieces of the world, and everyone can easily enter the source list when they get the sun.

Who can deal with today's prehistoric universe?

Everyone looked at Lu Ming.

Lu Ming had hope, but his cultivation base was too low, and it was only in the late stage of his origin.

"The most important point is that one of the three evildoers is given a specific name, named Xue Shenzang, and the other two are free, as long as it is the evildoer of the evildoer list."

Tang Feng said.

"Then Xue Shenzang, very strong?"

Feihuang knew Tang Feng better, and he could guess something just by looking at Tang Feng's face.

"Very strong, I have inquired about the true fairy of the outer universe. This person is from the other side of the universe. He is ranked thirty-six on the evildoer list. Moreover, this person is very young and has great potential. In time, many people think that he can rush forward. twenty."

Tang Feng said.

At this moment, the expressions of the three great ancestors, Cang Lin and others, were really hard to look at.

This condition is no longer difficult, it is simply harsh.

It is already extremely difficult to kill the evildoers on the three evildoers list.

And one of them is still designated.

If this person hides in a certain place and never comes out, how can you kill it?

Moreover, this person is still the 36th-ranked peerless evildoer on the evildoer list. This kind of person has outrageously strong combat power, and is young and has unlimited potential. This kind of person's combat power will increase at any time. How can this be killed?

What to kill?

As for the following three thousand battle exploits, it is not important. Relatively speaking, it is easier to obtain.

"Such harsh conditions are obviously deliberately making things difficult."

Cang Lin said.

"I originally thought that those people in Yangting, who had changed their tempers, would not make things difficult for our primordial universe. Unexpectedly, they were still like birds."

The villain Wang snorted coldly, and his face was not good.

Three conditions, one is more difficult than the other.

Which big universe where a real fairy was born can be completed?

Kill a true fairy?

[illegible]

It is also extremely difficult to kill nine Nine Tribulations quasi immortals.

Both are the Nine Tribulations quasi immortal, who is worse than whom?

How hard is it to kill?

And it's still nine.

As for the conditions of the original state, it is even more difficult to reach the blue sky.

"The third condition, leave it to me."

At this time, Lu Ming spoke.

The Great Universe, he is the only one who has the hope of fulfilling this condition. At this time, Lu Ming must bear it.

"Lu Ming, I will go with you." Xie Nianqing said.

"Master, I will go too."

Qiuyue followed.

"I am going too..."

"I also need to go."

All the gods, Paobao, Dan Dan, Ling Yuwei and others all agreed to go with Lu Ming.

"No, there are so many people who are useless, and most of you have insufficient combat power. If you go there, you won't be able to help. Instead, Lu Ming will be involved."

Tang Feng shook his head and refused directly.

The faces of Xie Nianqing and others were a little ugly, but they knew in their hearts that what Tang Feng said was right.

"I can do it alone."

Lu Ming said.

"It's not right to go alone. If you want to kill the masters of the underworld and gain military exploits, you must go to the original battlefield. The battlefield is complex and changeable, and you need someone to assist. If you are proficient in the power of time and space, you can also go with you."

Tang Feng looked at Dan Dan and Bao Bao.

Chapter 5216: Rose Trio

"Hahaha, Lu Ming, I know that no matter how powerful you are, you can't do without me."

Being named by Tang Feng, Dan Dan laughed, triumphantly, and felt like it was going to float.

In the end, Lu Ming did not refuse.

Although he has the Demon King Monarch Pattern, but the Demon King Monarch Pattern can only be seen, he is not very proficient in the formation of flaws and the like.

Bubbles, proficient in the power of time and space, come and go freely, and are very useful at critical moments.

"There is also this little guy, who has a special physique, and he can also work with you to hone."

Afterwards, Tang Feng's gaze turned to the gods.

The gods were overjoyed and said: "Yes, after I accepted the inheritance of the immortal, Gengen has become very special, able to incorporate the essence and blood of different races, making Gengen metamorphose..."

"How could this be?"

At this moment, not only Lu Ming was eating, even the ancestor of Wunian, Canglin and other remnant immortals were very surprised, their eyes flickered, and they looked at the gods and were amazed.

Being able to integrate the essence and blood of different races, is the root of the transformation, this kind of talent is simply against the sky.

The body, soul, and root of origin, the most difficult thing to transform is the root of origin.

The treasures that can transform the root cause are the least.

After many people breakthrough the origin, the level of the origin is fixed. Unless there is a special opportunity, the level of the origin is difficult to improve.

Only when crossing the Immortal Tribulation and undergoing numerous immortal Tribulation tempering can it be possible to transform.

Of course, many people died under the immortal calamity before the transformation was completed.

It is really unheard of that the gods have such talents.

Lu Ming guessed that this might have something to do with the origin of the gods.

All gods were conceived from the essence and blood of dozens of primitive gods, and they themselves possessed the essence and blood of dozens of primitive gods.

Now that he has reached his origin, he has also obtained the inheritance of the immortal way, so he has the talent of Dao.

Looking at it this way, Wanshen is indeed suitable to go with Lu Ming.

Going to the origin battlefield, you will surely face countless races and draw the essence and blood of many races, and the gods will surely be able to quickly improve, causing the origin root to change.

"Okay, that's it. Other people, I will send you to another place to improve your cultivation."

Tang Feng said.

Although Xie Nianqing, Qiu Yue and others wanted to go, they knew that they couldn't help much, so they stopped talking, and finally did not speak.

"Lu Ming, I also found a few other helpers to go with you. They should be coming soon."

Tang Feng said again.

"How many helpers are you looking for?"

Lu Ming was puzzled.

In today's prehistoric universe, what are the origins that are capable of helping him?

Even at the pinnacle of origin, it doesn't help him much, right?

Unless it is someone like Gu Changfeng, but Gu Changfeng hasn't broken through his origins yet.

"coming?"

Tang Feng looked to the east.

Shoo!

In the east direction, there were three streams of light coming quickly toward this side, the next moment, as soon as the light converged, three figures appeared.

"It's them..."

Lu Ming was surprised.

These three people were actually Dark Night Qiangwei, Di Jianyi and Lingheng.

What surprised Lu Ming most was that the three of them had reached the late stage of their roots.

And the body exudes a high, profound aura.

The breath of immortality!

Dark night Qiangwei's three people actually exudes a faint atmosphere of immortality.

"Could it be the cause of the immortal legacy."

Lu Ming's heart moved.

Lu Ming had never seen Dark Night Rose since his departure from Zixiao Cave.

When he was in Zixiao Cave, Lu Ming felt that Dark Night Qiangwei was extremely mysterious, with many secrets hidden in her body.

In the last life, Dark Night Rose was only Xie Nianqing's favorite. According to Xie Nianqing's memory, Dark Night Rose didn't seem to have any secrets in the last life.

This was very strange, and Lu Ming couldn't figure it out.

Anyway, in Zixiao Dongtian, Dark Night Rose had an amazing harvest. Not only did he get a whole source tea, he also got the immortal legacy.

It now appears that the three of Dark Night Qiangwei, Emperor Jianyi, and Lingheng have gained a lot from the immortal legacy, leading to great advancement in their cultivation.

I am afraid that the strength will never be weak.

"Lu Ming, Xie Nianqing, long time no see."

Dark Night Qiangwei smiled at Lu Ming and Xie Nianqing, dazzling.

"I haven't seen you for a while, your cultivation level is really surprising."

Lu Ming said.

"You are not weak, it seems that it is really difficult to surpass you."

Dark Night Qiangwei smiled.

Emperor Jianyi and Lingheng stood behind Dark Night Qiangwei, without speaking.

However, although Di Jianyi didn't speak, when he looked at Lu Ming, his eyes showed a strong sense of war.

As for Lingheng, his eyes were flat, and when he looked at Lu Ming and the others, he responded with a friendly smile.

To be honest, Lu Ming would not underestimate Emperor Jianyi and Lingheng.

The talents of the two are absolutely top-notch.

Di Jianyi, like him, walked out of the small world, rose all the way, and once competed with him for hegemony, not much weaker than him.

Lingheng, once ranked No. 1 on the list of Ten Thousand Clan Tianjiao, has been recognized by two ancient characters of origin, which is absolutely extraordinary.

"Lu Ming, this time the three of them will go to the original battlefield of the universe with you. You must help each other."

Tang Feng told.

Lu Ming and Dark Night Qiangwei nodded.

Although there were some grievances between the two sides before, they passed away long ago.

Now the camp is the same, the goal is the same, all for the development of the great universe.

"Well, we will leave in a month."

After Tang Feng said, his figure disappeared, and everyone dispersed.

.....

Twenty days later, Tang Feng sent Xie Nianqing, Qiuyue, Tang Jun and other talented young talents to a place to practice, so that they could improve their cultivation as soon as possible.

During this period of time, the primordial universe has recovered more severely, the cultivation environment has become better and better, and many people have broken through their realms.

Such as the lion, the existence of the original peak of the gods has also broken through and entered the original state.

Most importantly, Gu Changfeng also broke through.

Gu Changfeng is a taboo.

For the body of taboo, there is no difference in talent, otherwise it will not be recognized by the power of taboo.

Even if it is not as good as Tang Feng Feihuang, it will not be much worse.

His age was earlier than Tang Feng Feihuang, but he was seriously injured back then and has been sleeping all these years. Fortunately, Lu Ming's Five Elements Fairy Tears plus a bunch of other treasures of heaven and earth did he recover.

After experiencing the test of life and death, Gu Changfeng's understanding of practice is extremely deep.

Having been trapped by the injury all the time, the cultivation base did not break through.

At this time, as soon as he broke through, his cultivation level skyrocketed, breaking through consecutively, reaching the peak of the mid-primary period.

I believe that as long as we consolidate for a period of time, we can break through again.

This is accumulation.

A month later, Lu Ming and the others officially set off.

Tang Feng and Feihuang lead Lu Ming and Dan Dan. Bubbles, Pantheon, Dark Night Qiangwei, Dijianyi, Lingheng and his group headed towards the passage of the universe.

Of course, the ball has been by Lu Ming's side, so naturally he went with him.

As soon as he left the passage of the universe, there was chaos around him, and nothing was visible and blurred.

Chapter 5217: The universe is the battlefield

As soon as he left the passage of the universe, there was chaos around him.

The chaos was surging, and each strand was as heavy as a mountain, and Lu Ming and others had to carry the power of the source to resist.

"I heard that outside the universe, there is a chaos. The big universes are suspended in the boundless chaos. I don't know how the big universes communicate with each other?"

Lu Ming asked curiously.

Is it shuttled in the chaos?

It should be unlikely.

He is no longer stunned when he didn't understand anything, and he knows a lot of secrets.

Outside of the universe, there is boundless chaos and boundless territory.

A big universe like the Primordial Universe is in chaos, as small as a grain of dust.

The distance between each universe is infinitely far away. If you travel through chaos, you don't know how long it will take.

Moreover, he also heard that in the chaos, there are many dangers, there are all kinds of terrible chaotic thunderstorms, chaotic storms, and true immortals may be dangerous when they encounter them. Under the true immortals, generally they dare not enter the chaos at will.

Although in the chaos, rare treasures, such as fairy soldiers and even fairy skills, may be bred, it is too dangerous.

Under the real immortal, he hastily entered the chaos and died nine deaths.

"In the chaos, it is extremely dangerous, how can it be easily traversed, in fact, in every big universe, there are 'chaotic channels' connected."

Tang Feng said.

"Chaos Channel?"

Everyone is curious.

"I went to Yangting during this period of time, and I also learned a lot of information. I have a rough map of the universe and sea in my hand. I will show it to you so that you can know it."

After speaking, Tang Feng waved his hand and a picture appeared in the air.

On both sides of the picture, there are two rounds of light, extremely huge, emitting dazzling brilliance, like the ocean, but also like the big sun.

The light ball on one side exudes a hot glow, and the light ball on the other exudes a cold breath.

"The light clusters on these two sides are the Yin and Yang Universe Sea, the hot side is the Yang Universe Sea, and the other side is the Yin Universe Sea."

Tang Feng explained.

In the middle of the two cosmic seas, there is a vast chaotic space.

If the map is divided into four directions: east, west, south, and north, the universe of Yin and Yang is in the east and west.

The middle of the universe, and the entire north-south direction, are all chaotic spaces, filled with endless chaos.

Among them, in the middle of the yin and yang universe, there are small spots of light, which look very small, like dust.

Farther away from the north-south direction, there is no light spot.

After scanning Lu Ming's spiritual consciousness, he found that there were more than 70,000 light spots.

Some of these light spots are relatively close to the cosmic sea, and some are very far away from the cosmic sea.

"These light spots are big universes."

Tang Feng explained.

"Senior, in the north-south direction of the map, there is no big universe there, what exists?"

Pantheon asked.

"There is boundless chaos, because it is too far away from the universe sea, and there is no big universe. After all, if the big universe is too far away from the universe sea, it can't be connected to the universe sea and can't understand the origin of cultivation."

"The chaos in those two directions is boundless, not to mention the true immortal, even the immortal king cannot detect its borders."

"Some people speculate that chaos is boundless."

Tang Feng said.

"Look, these big universes are connected by tiny threads. This is the channel of chaos."

Tang Feng pointed to the map.

Everyone nodded and saw these threads.

"These chaotic passages were opened up by the second largest universe in Yang, the chaotic universe, connecting all the universes, through the chaotic flying boats of the chaotic universe, and traveling between the universes, not only at extremely fast speeds, And there will be no danger in chaos."

"Look, our prehistoric universe is located here."

Finally, Tang Feng pointed his finger in one direction.

This place is in the middle of the yin and yang universe.

Among them, there is a light spot, which is slightly leaning toward the Yang Universe Sea. You can see that it still belongs to the Yang room, but it is close to the junction of the Yang room and the Yin world.

"This area at the junction of the Yang and Yin worlds, because in the long past, the two powers often broke out in shocking wars. Therefore, in this area, all the dangerous things in the chaos have been wiped out. The chaos in this area, On the contrary, it is not dangerous, so many creatures in Yin and Yang can come to our primordial universe..."

There are not only chaotic passages between the various universes, but also many post stations. These post stations, as transit platforms, can go to these transit platforms first, and then go to the various universes.

Not far from the prehistoric universe, there is a transit platform.

Previously, the major universes first came to this transit platform, and then went through the chaos around the Primordial Universe to the Primal Universe.

Because this place is close to the junction of the two worlds, the crisis in the chaos has long been wiped out, and there is no danger in the chaos.

If it is in other places, even the chaos near the universe is full of danger.

Most of the universe, cosmic channels, are connected to the chaotic channels of the outside world.

Because the primordial universe was sealed, it had been wandering in chaos before, so the passage of the universe had long been disconnected from the chaotic passage outside.

There are chaotic passages in the yang universe, and similar passages in the Yin world. Naturally, they were not created by the chaos universe, but by the Yin universe.

"There are two main battlefields between Yang and Yin. One is the fairy-level battlefield. The quasi-immortals, true immortals and even the fairy kings are fighting on the fairy-level battlefield. Let's not talk about this first, let's talk about the other battlefield. That is The original battlefield..."

"Look, at the junction of the Yang and Yin worlds, are there any spots of light?"

Tang Feng said.

Everyone nodded.

At the center of the junction of the two circles, there are about dozens of light spots.

However, the light of these light spots is relatively dim, far inferior to other light spots.

These light spots are in the exact center, and in the Primordial Universe, they are actually close to these light spots, slightly leaning toward the sun.

"These spots of light are all abandoned universes in the underworld. The heart of the universe shattered and disappeared, and eventually became a battlefield. The dozens of abandoned universes here are all original battlefields."

"As for the fairy-level battlefield, it is not at the junction of the Yang and Yin worlds, but in other places. When you step into the quasi-immortal, you will naturally understand."

Tang Feng explained.

Actually so!

Lu Ming and others were secretly afraid.

In the primordial universe, if the heart of the universe is lost, will it also be the battlefield of the two worlds?

That really is no more day to turn around.

"Your destination this time is one of the cosmic battlefields. This big universe is very peculiar. It floats from the endless chaos in the north. It is dead and silent, without any creatures, but it is very mysterious. I don't know when it was left. Yes, it contains a lot of great opportunities, and it has attracted countless masters of the source of Yangjian Yin realm."

Tang Feng said.

Chapter 5218: Enter the origin battlefield

"Amidst the boundless chaos, there will be an abandoned universe?"

Lu Ming and others were stunned.

Even Feihuang seemed to be curious about it for the first time.

"The boundless chaos, the boundless, the mysterious, no one can find out, there are some wonderful things in it, and it's normal."

"In the beginning, the immortal masters of the underworld of the Yang and Yin world, in order to fight for this abandoned universe, they fought each other, and finally decided to seal this universe and put it at the junction of the two realms as the original battlefield, which contains the opportunity. , Let the origins of the two realms go forward to explore, whoever can get it, even if it has an opportunity."

"This big universe, which appeared about hundreds of years ago, has attracted some top big universes and most of the top masters in the two worlds. Fortunately, it was attracted by this abandoned big universe, so the masters and big universes who entered the wild universe, It's not that much."

Tang Feng explained.

Lu Ming and others suddenly.

No wonder that there are tens of thousands of universes in the two realms, and only about hundreds of creatures in the universe have entered the wild universe, and only a few of the top ten universes in the two realms have come to the wild universe.

It turned out to be attracted by this big universe.

"Although it has been developed and explored by countless origins of the two realms for hundreds of years, there are still some opportunities that have not been discovered. There are still a large number of masters stationed and become one of the most tragic origin battlefields. That Xue Shenzang is here. In the battlefield, you must be careful when you enter, let's go."

Tang Feng wrapped up the crowd with immortal power, broke through the chaos, and hurried to the original battlefield.

When approaching the original battlefield, Tang Feng stopped, naturally others in Yang Ting responded.

There are regulations in the yang and underworld that in the center of this original battlefield, quasi-immortal or immortal creatures cannot easily step into it.

Otherwise, it is easy to cause a battle between the two worlds.

There are immortal creatures stationed in the yang and yin world, at the junction of the yang and yin world, with the purpose of preventing the other side from invading.

But in fact, it can't be completely prevented.

The main thing is that the border between the two realms is too long. The central area is infinite distance, and most of them are chaotic spaces. How can it be prevented?

Every once in a while, intrusions will occur.

For example, a master of the yin world, lurking into the yang, suddenly attacked a certain universe.

Or, a master in the yang, lurking into the yin realm, attacking a certain universe in the yin realm.

Such things happen from time to time.

Otherwise, the original prehistoric universe would not be attacked by the underworld.

The purpose of stationing the strong at the junction is to prevent the other side from invading aggressively.

Because, near the junction, those large universes far away from the universe, the strength is the weakest, there is no ability to resist the invasion of the other side.

"Then Xue Shenzang, if you can't kill it, you can't kill it. Don't force it. The most important thing is to protect yourself. The big deal is that I will cut one more immortal. I believe it can offset some of the conditions..."

Tang Feng spoke to Lu Ming and others, and then turned around with Feihuang and disappeared into the chaos.

"Come with us!"

They were met by a team of sergeants in battle armor.

The breath is unfathomable, Lu Ming guessed, they should all be quasi-celestial creatures.

Lu Ming and others followed the pair of sergeants and flew towards the original battlefield in Central Asia.

Soon after, a cosmic channel was looming in the chaos.

This cosmic channel leads to the great universe floating in the chaos.

"Go in. According to the agreement signed between the two realms, you can't enter above the quasi-immortals. Also, this big universe is restricted by the immortal creatures of the two realms. Inside, weapons, runes, etc., beyond your cultivation base, are all prohibited. Can't be used, the Origin Realm can only be used with the Origin Level Divine Weapon."

"This is for the fairness of the battlefield, so as to prevent people from killing indiscriminately with the seal of the true fairy."

The sergeant headed by the introduction.

"It seems that Renwang Broken Sword cannot be used anymore."

Lu Ming's heart moved.

Renwang Broken Sword lent it to Tang Feng before, but Tang Feng returned it to him later.

Lu Ming originally wanted to give the Renwang Broken Sword to Tang Feng, but thought that the Renwang Broken Sword was given to him by the Xiaorenwang, the Xiaorenwang did not speak, and he was not good to give it to others.

But this is better.

This is the original battlefield, if you can use the true immortal rune, then it is the original battlefield, it is clearly a fairy-level battlefield.

"Seniors, goodbye!"

Lu Ming and the others clasped their fists, and then headed towards the passage of the universe.

Soon after, they entered a strange universe.

Feeling a breath completely different from that of the Great Universe, everyone's hearts are a bit complicated.

This is the first time they have entered other universes.

In this big universe, they did not feel oppressed.

The main thing is that this big universe is completely ruined and withered.

If the universe is compared to beings, then this universe is dead.

The prehistoric universe is alive.

The living universe will suppress the intrusive alien creatures.

The dead universe will not suppress external creatures.

In the front is a huge city, protecting the passage of the universe behind it.

This city, in front of the passage of the universe, was used as a supply place for life in the sun, and it was shrouded in heavy arrays.

The creatures in the Yang room are fighting outside, and if they are injured or lack the elixir of immortality, they will return to this city for training or supply.

There are heavy troops stationed in the city, and there are heavy arrays. The masters of the underworld will definitely not be able to kill here.

In this city, it is absolutely safe.

Once out of the city, that is the real battlefield, always facing crisis.

Everyone walked into the city, intending to learn more about the situation on this battlefield first, and then make plans.

The city is very lively, and when you look up, there are creatures from different universes.

There are more than 30,000 large universes in the Yang, with countless origins.

Even if only a small number of people enter this battlefield, the number is staggering.

In the entire universe, which realm has the most creatures is undoubtedly the original realm.

Because the lifespan of the Origin Realm is almost infinite, coexisting with the universe.

Under the original source, although the difficulty of practicing is lower, in the end, the lifespan is limited and will continue to age and die.

And above, the quasi-celestial level, not only is difficult to practice, but also is full of dangers, and it is easy to fall under the immortal calamity.

As for the immortal creatures, it goes without saying that the number is the least.

The origin realm, lifespan is endless, there are many origin peaks, and they dare not go to cross the immortal catastrophe, staying at the origin peak all the time.

Since the endless years, the origin of the entire universe is hard to count.

Lu Ming casually scanned his spiritual consciousness and discovered more than 100,000 creatures, all of which were origins, and many of them were at the peak of origins.

This is still only a corner of the city.

The peak of the origin, that is equivalent to the existence of the Lord of the Heavenly Palace, but here, a lot of sweeping, like weeds on the street.

No way, this is the original battlefield.

And it contains great opportunities, attracting countless origins.

Chapter 5219: Top 100 masters in the origin list

Moreover, Lu Ming and the others discovered that most of the creatures are in human form.

Perhaps the body is not in human form, but it is transformed into human form.

Of course, there are many kinds of things that maintain their original appearance.

Lu Ming and his group walked on the street without any notice.

On both sides of the street, there are various small shops selling all kinds of magic pills, magic soldiers or materials.

Where there are people, there is business.

"Sell the list of original sources."

"I have a list of the evil evildoers of the underworld here, and I have detailed information."

"In addition, there are some information on the top masters in the deserted battlefield. They are coming quickly, and they are slow."

Suddenly, a shout drew the attention of Lu Ming and others.

Lu Ming and others immediately became interested.

They just came out of the prehistoric universe, what are they lacking? Lack of information.

All kinds of information about the underworld of the Yang, all kinds of Tianjiao evildoers, information about the supreme master.

Knowing yourself and the enemy will never end in a hundred battles.

They came to a booth.

The stall owner is a gray-haired old man, his eyes are flowing, and his face is shrewd.

"Senior, the original list, the enchanting list of the underworld, and some information about the powerhouses in this barren battlefield. Give us a copy."

Pantheon spoke.

"Three thousand fairy crystals."

The old man smiled.

"One thousand yuan!"

Lu Ming directly countered the offer.

This is not a secret, they are all widely circulated things, three thousand immortal crystals are expensive, they are not taken advantage of.

"Two thousand and eight."

"One thousand two!"

.....

After some bargaining, Lu Ming finally won 1,500 spars.

Three jade charms were in Lu Ming's hands.

A piece of jade symbol is the information of the source list.

A piece of jade talisman recorded the evildoers of the two hundred source rankings in the underworld.

A piece of jade charm records the information of some top masters active in this barren battlefield.

Everyone took turns watching.

"Black gold Taoist, ranked 221 in the origin list, good at metal doubles..."

Suddenly, Lu Ming saw a name.

"It turns out that the old guy, called the Black Gold Daoist, ranks 221 in the origin list. No wonder the strength is so strong."

Lu Ming whispered.

In the Supreme Immortal City, he fought against the black gold Taoist for many years, and finally his original technique improved, plus the ball, unexpectedly, only to kill him.

The Black Gold Daoist's combat power is extremely strong, and Lu Ming's single present or future body can't help the opponent, at most it will be a tie.

You know, in the prehistoric universe, the opponent is still suppressed.

If there is no suppression in this barren battlefield, Lu Ming may not be the opponent's opponent.

Of course, if the present body and the future body join forces, it will be different. Lu Ming is confident to outperform each other.

Of course, that was the year.

Now, Lu Ming's soul and body have entered the Three Tribulations, and his combat power has improved again. Lu Ming can be fearless of the black gold Daoist by relying on his present body alone.

His cultivation base is still too weak, if the cultivation base is raised to the peak of the origin, it won't be too difficult to kill the black gold Taoist.

Soon, Lu Ming watched all three pieces of information and recorded it deeply in his heart.

Others watched it again.

Xue Shenzang, ranked thirty-six on the evil evil list of the Yin world, if he were placed on the Yangjian origin list, he would definitely be ranked in the top 100.

The strength is far above the black gold Taoist, with their current combat power, it is very difficult to kill them.

This is still under the premise of the help of the ball.

The ball has now broken through the peak of its origin, and its combat power has soared, and it is already above Lu Ming.

"If you want to kill Xue Shenzang, you must make a breakthrough. Unfortunately, it only takes ten years. Can it work?"

Lu Ming thought, thinking about countermeasures.

There are only three directions if you want your combat power to skyrocket.

One is the breakthrough of the cultivation base. Once the cultivation base reaches the peak of the origin, Lu Ming is confident and will not be weaker than Xue Shenzang.

By then, now and the future body will join forces, plus the ball, and the cooperation of other people. If you want to kill Xue Shenzang, you will be sure.

Either the level of the source roots has increased to reach the top source roots, or the source of power surges.

But the latter two are more difficult, and it is almost impossible to improve in a short time.

The conditions that Yang Ting gave were not indefinite, but only ten years.

In ten years, the task must be completed.

Dark night Qiangwei, Emperor Jianyi, and Lingheng were also thinking about countermeasures.

Obviously, with their cultivation base, it is impossible to deal with Xue Shenzang.

Their task is to accumulate three thousand battle exploits in ten years and kill the three enchanting evildoers in the underworld evildoer list.

The three evildoers, named Taoist surnames, only Xue Shenzang, and the other two, as long as they are the evildoers on the list of evildoers.

Three thousand battle exploits, in fact, are easy to accumulate. Killing the common source of the underworld can accumulate battle exploits.

In the early stage of killing the origin, remember a battle exploit.

Killing the middle stage of the origin, remember two battle exploits.

At the end of the origin, three battle exploits, the peak of origin, five battle exploits.

The barren battlefield has countless origins, and it is not difficult to accumulate three thousand battle exploits.

The real difficulty is the three evildoers, Xue Shenzang.

"Boy, it's you."

A cold drink interrupted the thoughts of Lu Ming and others.

"Sing Ying!"

Lu Ming was taken aback for a moment.

Unexpectedly, I ran into Shan Ying here.

Obviously, after Shan Ying left the prehistoric universe, he also came to the deserted battlefield.

Beside Shan Ying, there is a young man with a strong breath, giving people a very dangerous feeling.

Shan Yingwang, Lu Ming and the others, their eyes were cold, and his face became a little sordid, new hatred and old hatred rushed into his heart together.

At the beginning, he was first defeated by Lu Ming and fled in embarrassment. Later, the fragment of the Heart of the Universe he obtained flew away.

Later, he learned from the immortal master of Yuqing Universe that the fragments of the heart of the universe were forcibly attracted back by Tang Feng.

The heart of the universe in today's prehistoric universe is complete, and Tang Feng has become a fairy with this.

Hate the house and the Wu, any creatures in the prehistoric universe, are all hated.

The Fragment of the Heart of the Universe belongs to him, and the hot chickens of the Primordial Universe are all **** good.

"Boy, you also came to the deserted battlefield, well, very well, I will make you die miserably."

Shan Ying's cold voice sounded.

"It's up to you to lose your opponent?"

Lu Ming responded coldly.

"Hmph, in the prehistoric universe, I was suppressed. Here, without suppression, how could I lose to you."

Shan Ying's murderous intent was as cold as a knife.

"Get out of the way, you are in the way."

Lu Ming responded coldly, too lazy to talk nonsense with them.

boom!

On the side of Shan Ying, the young man exploded with a strong aura, forming a huge pressure, and pressed them towards Lu Ming.

The pressure was like a mountain, and Lu Ming and others had to use the power of their origins to counteract this pressure.

Danger!

Lu Ming felt extremely dangerous from this young man.

"They are brothers Shan Xiong and Shan Ying."

"What is the origin of those people? How did they provoke the two brothers."

"These two brothers are both evildoers."

The people around were alarmed, crowded onlookers and whispered.

"Single Xiong, 96 in the original list."

Lu Ming's heart moved.

Chapter 5220: separate

Shan Xiong, the 96th peerless evildoer in the origin list, can rank in the top 30 among the evildoers of the young generation in Yang, and may be stronger than Xue Shenzang.

No wonder it feels extremely dangerous.

"You want to do it here? Yang Ting law stipulates that in the battlefield, you are not allowed to kill each other. Do you want to violate the law?"

Dark night Qiangwei said.

"Who said we are going to do it here?"

Shan Xiong smiled and put away his breath, but his eyes were cold, and he lowered his voice: "In this city, you can't do it, but if you leave the city, who knows what you are dead? I only think that you are dead in the hands of the underworld creatures? "

After speaking, Shan Xiong sneered.

Rules are dead, people are alive.

Before coming here, Tang Feng had warned them that in the barren battlefield, not only should be careful of the creatures of the Yin world, but also the masters of the Yang.

Although there are provisions in the Yang Ting Law, one is not allowed to kill each other on the battlefield.

However, the battlefield is chaotic and people are killed. Who knows who killed them?

Although many people who have died on the battlefield have died in the hands of beings in the underworld, many have died in the hands of people in the world.

As long as no one sees it, no one will care.

"A good dog doesn't get in the way, get out of the way."

Lu Ming drank coldly.

Anyway, in this city, the opponent dare not do anything, so why bother to the opponent?

Come out of the city, let's talk about it.

"Hmph, now despite being arrogant, unless you stay in this city for the rest of your life."

Shan Xiong sneered, not angry, but his eyes became colder.

"Fuck, can't you hear me, bastard."

Dan Dan clamored, an expression of unhappy you came to hit me, the angry Shan Xiong almost broke his strength.

"See how long you can be arrogant."

Shan Ying gritted his teeth.

Finally, the two brothers retreated.

"You, those people who are staring at the Primordial Universe, once they leave the city, report it immediately."

Not far away, Shan Xiong ordered some masters in Yuqing Universe.

"Yes!"

.....

"Lu Ming, I think we'd better act separately."

After a while, Dark Night Qiangwei suddenly spoke.

"Dark Night Rose, what do you mean?"

Dan Dan was immediately upset, squinting at Dark Night Qiangwei.

"The meaning is very simple. You have offended too many people, and you will definitely encounter a lot of resistance or even interception. This is very unfavorable for us to complete the task."

"If we separate, we will have a greater chance of completing the task."

Dark night Qiangwei said.

"You are trying to use us as a target to attract Yuqing Universe, etc., so that you can complete the task, but you think that without us, you can kill Xue Shenzang without us?"

Dan Dan said with a gloomy expression.

"You don't need to worry about this. I have my own method. I am also thinking about the great universe. Our most important task is to make the great universe re-enter the sun court..."

Dark Night Qiangwei smiled.

"you..."

Dan Dan wanted to say more, but was stopped by Lu Ming.

"Ms. Qiangwei is right. In case we are killed by Shan Ying, Shan Xiong and others, staying together will be dangerous. Dispersing can spread the risk, and the chance of completing the task will be greater. Right."

Lu Ming said.

To be honest, what Dark Night Qiangwei said was exactly what he wanted.

He is not accustomed to cooperating with people who are not familiar with, not to mention that he has some secrets in his body and does not want others to know.

Such as the future body.

If we work together, it will inevitably be exposed.

It's better to separate.

He knew that Dark Night Qiangwei was very mysterious, and he probably had a lot of secrets he didn't want them to know, so even if there was no such thing as Shan Ying and Shan Xiong, he would probably find other reasons and act separately.

Although they all have the same purpose and are in the same camp, they are obviously not the same.

"Then say goodbye, Lu Ming, I hope you take care, to be honest, I am still very optimistic about you, the great cosmos wants to develop, it is indispensable for you, so you don't die here."

Dark Night Qiangwei smiled slightly, her grace was outstanding, and then she drifted away.

Emperor Jianyi and Lingheng followed closely and disappeared in a blink of an eye.

"Hmph, it's nothing more than fear of being implicated by us, so high-sounding."

Dan Dan was very upset, and still feels unhappy.

"Let's go, let's observe in the city for a few days before leaving the city."

Lu Ming said.

.....

Dark night Qiangwei, Di Jianyi and Lingheng did not stay in the city, but went directly outside the city.

Sure enough, the people of Yuqing Universe did not monitor the three of them.

"Where are we going now?"

After leaving the city, Di Jian asked.

"With our current strength, Xue Shenzang will definitely not be able to kill, so let the task go first, first raise the cultivation base, wait for the cultivation base to rise, and then complete the task not too late."

"This big universe is very old and contains a lot of opportunities. I will now use my secret method to find it."

After Dark Night Qiangwei said, a stone disk appeared in his hand. On the stone disk, there were two pointers, both of which were made of stone, which looked extremely old.

Dark Night Qiangwei quickly pinched the seal with both hands, and runes one after another, hit the stone plate, and patterns suddenly appeared on the stone plate, mysterious and ancient.

On the stone plate, the two hands keep turning.

"Go in this direction."

Dark night Qiangwei took the lead.

Both Di Jianyi and Lingheng's eyes flashed with curiosity.

In their eyes, Dark Night Rose is really very mysterious, knowing many incredible secrets.

They had long ago investigated the origin of Dark Night Rose. He was born on a remote planet in the starry sky of the universe, and his father was just a god-king-level existence, extremely weak.

In the previous life of Dark Night Qiangwei, they also knew that they were with Tang Qing, Tang Feng's daughter, and later died in a battle with Tang Qing, reincarnation.

But even with this identity, he shouldn't know so many secrets.

They can be sure that there is a bigger secret in Dark Night Qiangwei that they don't know.

This is also the reason why they have been with Dark Night Qiangwei. Following Dark Night Qiangwei, they can obtain a lot of great opportunities, so that their cultivation base can be continuously improved.

It's just that they can't get it by practicing alone.

If it weren't for Dark Night Qiangwei, their cultivation base would definitely not improve so fast.

.....

In the city, a huge courtyard.

Here is the residence of the Shengguangda Universe in this city, and a large number of origins of the Shengguangda Universe are stationed here or cultivated here.

Sheng Wushuang was also in the other courtyard. He had just received news about Lu Ming and others.

"The people of the primordial universe have actually entered the deserted battlefield. They have just given birth to a new immortal. According to the rules, they have to complete one condition before they can re-enter the sun court. They are here in such a hurry. Mission related."

Sheng Wushuang quickly figured out Lu Ming's purpose here.

"Send someone to return to the universe to inquire about the ancestors of the Immortal Dao. What are the conditions for the primordial universe to re-enter the Sun Court?"

Holy Wushuang immediately ordered to go down.

"Lu Ming, since you have come to the barren battlefield, stay here forever."

Holy Wushuang whispered, and the cold murderous intent flashed past his eyes.
