

D Emperor 5221

Chapter 5221: Void

A few days later.

"Brother Lu Ming, these days, I always feel that someone is watching us."

Paobao communicated to Lu Ming and the others.

"It should be from Yuqing Universe. Don't pay attention to it. After we leave the city, throw them away."

Lu Ming said.

In a few days, it was almost time to inquire, and they walked out of the city gate.

"Hmph, I'm finally out of the city, very good, just outside the city is your burial place."

In a pavilion, Shan Xiong put down his wine glass, flashed with Shan Ying's figure, and disappeared in place.

After a while, Lu Ming and the others left the city gate.

"go!"

As soon as they left the city gate, they turned into a few rainbow lights and rushed into the distance.

With the power of time and space, the bubbles enveloped everyone. They seemed to travel through time and space, and their bodies were vacant and real, and a few flashes disappeared completely.

Bubble's cultivation base has now greatly increased, and has been inherited from the power of immortality. The power of time and space is incomparably mysterious, and it is too fast to assist everyone on the road, and it can also erase all traces of aura.

"hateful..."

The two brothers Shan Xiong and Shan Ying chased them for a while, and they completely lost sight of Lu Ming and others. They could only return to the city with a gloomy expression and send people to keep an eye on Lu Ming and their movements.

After shaking off Shan Ying, Shan Xiong and the others, Lu Ming began to slow down, and at the same time converged his breath, his spiritual sense radiated, and he always paid attention to the surrounding movement.

Outside the city, it is the real battlefield.

The battlefield is changing rapidly, and dangers are hidden all the time.

The universe is huge, containing tens of thousands of universes, and even more races.

All kinds of peculiar races, containing peculiar abilities, may encounter assassinations, ambushes, etc. at any time. If you don't have the spirit of twelve points, you will not know how to die.

Lu Ming, in particular, also carried the Demon King Emperor's pattern, and Dan Dan also turned into a prototype, and the tortoise shell rune flashed, constantly sensing whether there was an array around him.

On the battlefield, the most dangerous thing is actually the formation.

Many powerful universes have many masters of origin. They will choose a good place, and then arrange a terrible killing array, waiting for the rabbit.

Once you step into the killing formation, even the top players on the source list are dead.

For example, the opponent's hundreds of top source-level formations arranged by the pinnacle of the source, even if a character like Shan Xiong stepped into it, he would die.

Therefore, in the battlefield, you must always be careful, and you must never stray into those formations.

Lu Ming and others slowed down and flew slowly.

The farther you are from the city, the more dangerous you will encounter people in the underworld.

"stop!"

Suddenly, Lu Ming let out a low voice.

All gods, Dan Dan and Bubble, stop immediately.

"What did you sense?"

Dan Dan asked, a pair of eyes squirming around, looking around, just for a moment, and thirty-six layers of defensive formations have been placed around his body.

"Nothing? I felt wrong."

Lu Ming smiled slightly.

"You guy is so surprised, it makes me nervous."

Dandan breathed a sigh of relief and withdrew the defensive formation.

Pantheon and Bubble also relax.

Several people continued to fly forward.

More than ten minutes later.

suddenly...

call out!

Lu Ming shot out violently, his spear pierced into the void like electricity.

The void exploded and a scream came out. Then, a figure appeared, pierced by the spear, struggling constantly on the spear, and his face was full of horror.

This is a master of the late origin, with a transparent body, constantly twisting, with a cold breath permeating out.

Master of the underworld.

Dandan, Wanshen and Paobao were shocked.

Beside them, there was a master of the underworld, but they didn't know it. If the opponent suddenly assassinated, the consequences would be disastrous.

"Void Race..."

Lu Ming narrowed his eyes slightly, and information about the Void Race emerged in his mind.

The Void Race, from the Void Universe, can rank ninth among the tens of thousands of Universes in the Underworld.

This is a top-level universe, from this it can be seen how terrifying the Void Race is.

In the void, the body can melt into the void, mainly to assassinate.

The various races in the Yang are very jealous of the Void Race.

The powerhouses of the Void Race can often lurch to the frontiers of the Yangjian and assassinate the masters of the Yangjian.

On the battlefield, once being watched by the Void Race, it is very dangerous.

Wanshen, Dandan and Paobao all looked a little ugly.

Unexpectedly, as soon as they came to the battlefield, they were spotted by the void race.

"You... how did you find me?"

The master of the Void Race was not dead yet, struggling constantly, making an incredible sound.

Among them, Lu Ming had the highest cultivation base, but it was only in the late stage of the origin, at the same level as him.

At the same level, before he took a shot, he could find him, and the entire universe didn't have much.

"Sorry, there is no need to explain to you."

Lu Ming spoke indifferently, his spear shook, and terrible power erupted, and the master of the Void Race screamed, and his body and spirit disappeared.

"Lu Ming, did you find him the first time you stopped just now?"

Dan Dan asked.

"Not bad!"

Lu Ming nodded.

In fact, strictly speaking, it was discovered by the 'future body'.

The soul of the future body is extraordinarily strong, stronger than the present body, and has practiced various soul secret arts, and has exceptionally keen spiritual sense.

The Void Race stared at them, and soon after they appeared, they were discovered by Lu Ming.

However, Lu Ming stopped for the first time and did not make a move because he was not sure that one blow would kill him.

The void clan body melts into the void, coming and going like electricity, if there is no one blow, it is not easy to leave the opponent.

So Lu Ming pretended to be wrong, the purpose was to paralyze the opponent, lower the opponent's alertness, and then suddenly shot, as expected, he hit.

"You kid, you even lied to us..."

Dandan pouted.

"If you don't lie to you, how can you kill the enemy?"

Lu Ming smiled.

At this time, Lu Ming flew out to look at a piece of jade, sucking a ray of black light into the jade.

On the jade, a number suddenly appeared: 3.

Three points of merit.

This piece of jade was given to them by the master of Yang Ting before they entered this battlefield, one piece for each.

As long as the people in the underworld are killed, Jade will inhale a trace of the opponent's soul mark into it, and then calculate the corresponding battle exploits.

In the early stage of the origin, one battle exploit, the middle stage of the origin, two battle achievements, and the latter stage, three battle achievements.

As for the peak of the origin, five battle exploits.

The master of the Void Race, rewarded three combat exploits.

Of course, some of the more famous Tianjiao evildoers in the underworld, or some of the more famous masters, will be rewarded with more merits.

These masters have information records in the jade, and once they are killed, they will give corresponding rewards.

"It's really stingy, only three battle exploits in a late stage of origin."

Dandan pouted.

In Yangting, military exploits are a good thing, with endless magical uses.

Similar to the merits of many big forces.

Military exploits can be exchanged for some treasures in Yangting.

Military exploits are divided into personal exploits and cosmic exploits.

Personal military exploits are those obtained by individuals.

Cosmos war exploits, the sum of the war exploits of all creatures in the entire universe.

Chapter 5222: A battlefield full of crises

The more cosmic military exploits in a large universe, as long as it reaches a certain standard, it can move towards the universe.

The greater the universe, the closer the universe can be.

The closer you are to the universe, the easier it is for the creatures of this universe to cultivate, and the effort will be doubled with half the effort, and the strength of the entire universe will become stronger and stronger.

The stronger the strength, the more combat exploits will be gained, and the closer to the universe will be, forming a virtuous circle.

Otherwise, it will form a vicious circle.

Moreover, the military exploits are also related to the ranking of the universe.

Although the ranking of the major universes in the sun is not entirely based on military merits, it is also based on the overall strength of the entire universe.

But military exploits are also an important part of it.

In fact, there is a similar rule system in the underworld.

Therefore, the more war merits, the more the better.

After winning the battle, everyone left here.

Later, they were more cautious and slowed down again.

However, half a day later, the people in the Yang room met quite a few, but they did not meet the creatures in the Yin world.

Here, after all, it is close to the direction of the Yang, and there are few creatures in the Yin world who dare to come here.

They kept walking towards the middle of the battlefield.

Only in the central area of the battlefield can you encounter a large number of underworld creatures.

Of course, it's even more dangerous there.

For the next two days, they were near the center of the battlefield, without any surprises or dangers.

"There are a lot of masters lurking in that Hubo."

Lu Ming and the others stopped in the distance, and the runes flickered in Lu Ming's eyes, staring at a huge moor in the distance.

"Moreover, there is a terrible source-level formation."

Every time he spoke.

Lu Ming nodded, he could also clearly see with the Demon King Emperor pattern that the entire Hu Po was enveloped in a formation.

Among them, there are at least thousands of masters in the original realm, all beings in the underworld.

There are too many masters in the origin battlefield, the origin realm.

The Cangqing Divine Realm is just a remnant of the human race, with thousands of origins.

It is conceivable that the primitive continent of the last epoch had many origins.

In other big universes, it has accumulated countless years, the origin masters, so many amazing.

These origins are lurking here, arranging a large array, waiting for the rabbit.

"Let's go."

Lu Ming said.

Such a big formation is not something they can deal with. Once trapped, there is only one dead end.

Everyone backed away and bypassed this big formation.

"They found it."

In the great formation, a big man's face was gloomy.

They not only arranged killing formations, but also numerous illusion formations, capable of covering up their breath, but they were still discovered.

"Look at the other party's cultivation base, it's not high, should we kill them? Leave them behind?"

Another humane.

"It's wrong, the opponent's cultivation base is not high. Even if we kill, we won't get much combat exploits. On the contrary, it will completely expose our formation here, and the gain will not be worth the loss."

The previous big man opposed.

Everyone fell silent again, waiting for the next prey to be hooked.

"This battlefield is really dangerous. If you hadn't discovered the formation, once you stepped into it, it would be really dangerous."

The gods were secretly afraid.

Not everyone is as proficient in formations as Dan Dan, there may also be Lu Ming's Demon King Emperor pattern, without special means, it is impossible to see through such formations.

Once you step into the formation, even the strong on the source list will drink hate.

And this kind of formation, the entire battlefield, secretly did not know how much was hidden.

This battlefield is almost always in crisis.

Lu Ming and the others flew all the way, far away from the formation.

boom!

Just as Lu Ming and the others passed a pile of rocks, the ground vibrated, and the huge rocky hand came out from below and grabbed it at Lu Ming and the others.

bump!

Without hesitation, Lu Ming stepped down.

The violent power rushed out, bombarding the giant rock hand, the giant rock hand burst into pieces,

咻咻咻,,,

Underground, those piles of rocks changed drastically like currents, turned into spears, and shot towards everyone in the sky.

"Time and Space!"

Bubbles drank low, pressed out with both hands, the void was distorted, time and space were affected, and the stone spears changed directions one after another and flew into the distance.

"A bunch of stone men."

Lu Ming's eyes were like electricity, and he could see through the bottom.

In the pile of rocks below, there are more than a dozen stone people who were previously fused with the rocks. Without distinguishing each other, they actually concealed Lu Ming's perception.

Of course, these stone men did not set up a formation here, otherwise there would be a formation that could not hide from Lu Ming and Dandan.

"Get out of here."

The gods yelled, their body grew sharply, and they bombarded with fists in series, bombarding them fiercely one after another, bombarding them on the rock pile.

Boom boom boom!

The ground exploded and rocks splashed.

Wan Shen, Dan Dan, Bubble, the current cultivation base, all are the peak of the early roots, only one step away from the middle of the roots.

In addition, they have been inherited from the Immortal Dao and have practiced in the burial land for many years. They have extremely strong combat power and can fight against the existence of the mid-primary period.

In the sky full of rubble, more than a dozen figures rushed out.

More than a dozen figures, all of which are earthy yellow, seem to be really carved out of rock.

Needless to say, looking at the breath, it clearly comes from the underworld.

"Humph, just a few roots in the early days, the combat power is not weak."

A stone man with a height of about five meters snorted coldly, his eyes scanned Lu Ming and others, but he paid more attention to Lu Ming.

Because Lu Ming's cultivation base was the highest, he reached the late stage of his origin.

Dandan, Paobao and Wanshen were only at the beginning of the origin, no matter how strong their combat power was, they didn't put them in their eyes.

As for the ball, they didn't find it.

Once the ball has condensed its breath and is in a silent state, it really looks like a bracelet, unless the cultivation base is stronger than him, otherwise it is difficult to find the clues.

The stone man is looking at Lu Ming and the others, and Lu Ming and the others are also looking at the stone man.

There are a total of fifteen stone men.

Among them, there are three at the peak of the origin, six in the late origin, and the remaining six, all of which are in the middle origin.

There is no original origin.

In fact, in the barren battlefield, there are very few in the initial stage of the origin. After all, they are at the bottom of the origin realm, and they will die if they come, unless they are of the evildoer level.

"Leave it to me for those above the late stage of the origin, and you deal with the others?"

Lu Ming gave voice to Wanshen, Dandan and Paobao.

"Okay, just to my liking."

The gods showed a strong will to fight.

Come to the battlefield, not to play, to fight, to fight, not to fight, how to make progress?

"kill!"

More than a dozen stone men, also very simply, started directly, wanting to fight and make a quick decision.

Lu Ming shook his palm in the air, a spear appeared, and with a wave of the spear, the sky was full of spear lights, covering the three peaks of the origin and the six late origins, and dragging them into the battle group.

The six mid-primaries were left to the three of the ten thousand gods.

"Kill, kill..."

The gods roared like a beast, his muscles agitated, his breath was violent, and he killed the stone man.

At the same time, Bubbles waved his hands, the power of time and space exploded, and the void was like a quagmire, making six stone men like stepping into the quagmire.

But Dan Dan, infinite runes flew out of his body, and began to make formations.

The three people work together, and the cooperation is seamless and complementary.

Chapter 5223: A terrible terrain

Lu Ming pulled the nine masters into the battle group, and did not immediately hurt the killer, but maintained an unbeaten situation.

He wanted to kill these people, it was very simple, but once the nine masters were killed, the six stone men in the mid-primary stage would definitely be scared to death. Where could they fight with the gods and the others?

Now, it is a good opportunity to hone the gods and them.

Wanshen and others have not had a long time to break through the origin and lack the opportunity to fight against the origin.

All the gods fight with all their strength, the flesh is unparalleled.

Most of the bloodlines of primitive gods are inherited from the Primordial Witch Race and the Primordial Demon Race, and their bodies are extremely powerful.

This aspect of Pantheon is particularly outstanding.

The stone man in the Yin world is also very powerful, but compared with the gods, it is actually at a disadvantage.

Of course, they are affected by the time and space power of Bubbles, and they are 10% of their strength, but not 50%, and at all times, there are endless time and space blades cutting on him.

In addition, there are those terrifying formations of Dandan...

Wanshen, Dandan and Paobao worked perfectly together, and they actually suppressed the six stone men.

The stone man's attack method is too single after all, and the three of the gods, Dandan, and Baobao complement each other and cooperate with each other in a tacit understanding.

As time passed, the advantages of the three of them became more and more obvious.

The nine masters who fought with Lu Ming wanted to rush to support, but they couldn't rush out at all, they would be bombarded by gunfire every time.

The hearts of these stone people sink.

Until now, they don't know where they are, they have kicked the iron plate, and they have encountered a top evildoer.

"escape!"

At this moment, their next thought was to rush out and escape.

Unfortunately, their idea is destined to not be realized.

"Send you on the road."

The indifferent voice sounded, and the gun light suddenly skyrocketed.

Puff puff...

The nine stone masters were all pierced by guns, their roots shattered and their souls annihilated.

A trace of soul imprints were absorbed by the jade, and the number on the jade became 36.

A total of thirty-six battle exploits were obtained.

Seeing the nine masters being killed, the six stone men in the mid-primary stage were shocked and immediately confused.

Pantheon they seized the opportunity to perform their ultimate move.

bump!

One of the stone figures was blown by the gods in two consecutive punches.

But Dan Dan arranged the formation, condensed the sword light, and killed a stone man.

The remaining four stone men wanted to escape, but were blocked by Bubbles with the power of time.

The result was doomed, and soon, the remaining four stone men were all killed.

call!

Wanshen took a deep breath, and a drop of stone man's essence and blood flew into his mouth, melted into the roots by him, and slowly refined.

Before, the essence and blood of the Void Race had also been absorbed by the gods.

Pantheon has unique talents, and can continuously integrate the essence and blood of other races into the roots to enhance their talents and potential.

Even the roots can evolve.

This is a miracle of the natural creation of the universe, and there is no second place in the world.

Killed the six stone men in the mid-primary stage, Wan Shen, Dan Dan and Bao Bao, and also flew out a jade stone, absorbed a soul mark, and obtained four points of combat merit.

He collected the spoils, his figure flashed, and he left here.

In the next half month, they occasionally met people from the underworld who were singled or in large numbers but did not have an array, and went through many fights.

With Lu Ming's current combat power, as long as the opponent is not a large number and has a source-level formation, Lu Ming is not afraid.

Even with the combined attack formation, Lu Ming was not afraid.

Gradually, their combat exploits added up to more than 300.

One-tenth is completed. If this goes on, it may not take a year to gather all three thousand military exploits.

It's a pity that I haven't encountered the evildoers on the list of evildoers in the underworld.

The task of beheading the three evildoers, I don't know when it will be completed.

On this day, they stopped in front of a big mountain.

To be precise, there are nine mountains.

These nine big mountains are very peculiar, each one is like a stove, one big and eight small.

There are eight big ones and one small one in the middle.

The nine peaks, without any vegetation, are bare, and all are fiery red, like fire jade.

Even if they are far apart, one can feel a huge pressure coming from the nine mountains.

"This is a peculiar topography, a terrible topography. Once this topography gets close, it will be refined by the nine peaks..."

Dandan whispered.

Dan Dan bluntly said that this kind of terrain is likely to be formed naturally by heaven and earth, with terrible murderous intent.

"It's actually here!"

Lu Ming looked at the other one in the opposite direction.

On the side of the nine mountain peaks, there was a hill. Lu Ming clearly saw with the pattern of the Demon King Emperor that there was a formation on the hill.

Densely dense, infinite runes, engraved in the ground and void, although they are well hidden, they still cannot escape Lu Ming's magic eyes.

In the formation, at least more than a thousand masters are hidden.

"These people are actually here, it's weird..."

Dan Dan also whispered.

In this terrible terrain, how can you kill other creatures?

As soon as other creatures see the nine terrible furnace-shaped peaks, they will retreat.

Lu Ming circulated the Demon King Emperor's pattern and looked at the formation carefully, and found that someone was also looking at them in the formation.

"Let's go."

Finally, Lu Ming spoke, and they turned and walked in the other direction.

"It's that guy, Lu Ming..."

In the formation, a young man spoke, and he actually recognized Lu Ming.

"What's the origin of this person?"

Next to the young man, a young man wearing a silver robe with silver pupils asked.

"Prince prince, this person comes from the prehistoric universe and is extremely talented. When he was in the Divine Master Realm, he broke the extreme five times, and broke through the Origin Realm under the Great Tribulation of the Origin..."

This young man had obviously been to the Great Universe and talked about Lu Ming's origins.

"Five times of extreme evildoers, it is interesting. Killing such evildoers will definitely reward you with a lot of rewards. You continue to complete your tasks and I will hunt down a few prey."

Yin Tong youth said.

"My son, let's go with you, the old man."

An old man said.

"Do you think I can't deal with a kid from the wild universe?"

Yin Tong youth said coldly.

When he was in the God Realm, although he did not reach the limit of five times, he has reached the limit of four times. Now he is ranked among the evil evildoers in the underworld. In the original state, how many opponents are there in the world?

Even if Lu Ming broke the extreme five times in the Divine Master Realm, he is still only in the late stage of the origin. How can he not get it?

"My son, my job is to keep my son safe. If something happens to you, the old man will die."

The old man said.

"Okay, okay, let's come together!"

The silver pupil young man waved his hand impatiently, and then disappeared in place with a flash. The old man smiled and followed him.

Lu Ming and the others flew slowly and suddenly stopped.

"It seems that someone is unwilling to let us go."

Lu Ming said.

Chapter 5224: Wang Tian of Silver Eyes and Silver Shirts

All gods, Dan Dan and Bubble immediately stood on alert and looked around.

"It deserves to be the enchanting evildoer of the prehistoric universe. He has a keen sense of spirit with the existence that has broken the extreme five times."

A stern voice with a hint of arrogance sounded.

The figure flashed, and two figures appeared in front of Lu Ming and the others.

It was the silver pupil young man and the old man.

Lu Ming was not surprised that the other party recognized him.

After all, many people from the underworld had entered the primordial universe, and there were not a few who had seen Lu Ming.

However, after seeing the Yin Tong youth, Lu Ming showed a hint of joy instead.

"Silver pupil silver shirt, are you Wang Yan?"

Lu Ming asked.

In his mind, some information about the enchanting list of the underworld could not help appearing.

Wang Yin, the existence of 188 on the list of evil evildoers in the underworld, is a peerless evildoer with a strong combat power.

This kind of person, placed in the sun, can be properly ranked in the source list, and even not too far behind.

"It seems that you still have some knowledge, I will make your death easier."

Wang Yin spoke indifferently, with silver pupils, radiant light, and turned into two cross rays of light, slashing towards Lu Ming.

"You enter the Supreme Immortal City first."

Lu Ming quickly transmitted voices to the gods and others, and an attraction broke out on him, and the three of them entered the Supreme Immortal City.

Wang Yin's existence is too strong. With a single move, he can kill the gods and others.

Moreover, the old man who came with Wang Yin was definitely not weak, giving Lu Ming a kind of pressure vaguely, and he was definitely a ruthless character.

Once the war broke out, Lu Ming was not sure that he would be able to keep the gods and others, or let them enter the Supreme Immortal City, so that he could do his best.

The God of War gun, silently appeared in his hand, swept out, blocking the two cross rays of light.

However, the light in the eyes of the silver pupil youth is even brighter, and the sky is full of silver light, turning into various weapons, such as battle axes, sabers, long swords, spears, etc...

There were at least dozens of silver divine soldiers, shattering the void, and attacking Lu Ming.

Every magic weapon has amazing power and can easily slay the peak of the general origin.

Lu Ming used the source technique, thrust forward, his spear pierced through the air, and launched a battle with the opponent.

In a blink of an eye, the two confronted dozens of moves.

After dozens of moves, Lu Ming had probably figured out the opponent's strength.

Wang Yin's overall combat power was about a little weaker than Shan Ying.

However, there are not many weak ones, not much difference.

Of course, this is not a prehistoric universe, and there is no cosmic suppression.

However, Lu Ming's current strength is much stronger than when he fought against Shan Ying. At this moment, even with a fair fight against Shan Ying, Lu Ming is confident that he can suppress the opponent.

After trying out the opponent's strength, Lu Ming no longer concealed, he burst out with all his strength, and the spear light was overwhelming, and he suppressed Wang Tan all at once.

Dangdang...

With every shot Lu Ming slapped, a silver soldier was thrown into the air. Lu Ming broke through the siege of the soldier. The terrifying spear light directly took Wang Yin's vitals.

Wang Yin's face was cold, wearing a silver armor and holding a silver war sword, burst out and collided with the God of War Spear.

A violent roar broke out, a wave of vigor swept through, and Wang Qian's body retreated violently.

"kill!"

Lu Ming took advantage of the momentum and wanted to kill Wang Yin in one fell swoop.

However, the old man who had followed Wang Yin had made a move at this time.

This person was surrounded by spirits and spirits, holding a pitch-black sword, slashing towards Lu Ming's waist and abdomen, as fast as lightning.

Lu Ming's spear changed, blocking the attack and killing of the sword.

"Sixteen Slashes in Yinshan Mountain!"

The old man drank low, and launched a storm-like offensive. The sword's momentum was endless, and the offensive was as swift as a storm.

This is the old man's own source technique, which has been practiced to the extreme by the old man.

Everyone's source art is based on the power of the source he has mastered, and they have different forms and thousands of forms.

There are also strong and weak powers, but even the weakest source technique, with the ultimate comprehension, is amazing.

For example, Lu Ming's Origin Technique is far from reaching its extreme.

Lu Ming brandished the God of War spear and resisted with all his might.

This old man's combat power was surprisingly amazing, a little stronger than Wang Tian.

This is also the fact that there is no source list in the Yin world. If there is a source list, this veteran must be positioned among them, and even rank higher than Wang Yan.

Lu Ming couldn't take this old man down for a while.

Wang Yin also eased his breath, his eyes were extremely murderous, he killed him again, and joined forces with the old man to fight Lu Ming.

Lu Ming retreated as he fought, and fell completely at a disadvantage for a time.

He didn't immediately let the future body take a shot, nor did he let the ball help him, instead he played against the two masters alone, just using the pressure of the other party to hone his original skills.

Under such extreme pressure, it is easiest to make progress.

Under this kind of extreme pressure, Lu Ming dealt with the opponent dozens of moves, and he really felt that he had a new experience with Yuan Shu.

However, at this time, Lu Ming was almost at his limit. The old man slashed his body, and the top source-level battle armor was cut open.

The top-level source-level battle armor can withstand the multiple attacks of the general source peak powerhouse, but it cannot stop the attacks of Wang Tian or this old man.

In a sense, the offensive power of this kind of person is far beyond the original state, even if it is compared with some weaker quasi immortals, it is not much worse.

The origins of some stronger people are completely capable of suppressing the quasi-celestial tribulation, or even killing them.

"Ball ball..."

Lu Ming passed the sound of the ball.

"I'm so impatient to wait, look at me."

The sound of the ball came out, and the body had already flown out, turning into the form of the King's Sabre, facing the old man with a sword cut out.

laugh!

The sword light broke through the void, and the void seemed to be divided into two, and the blade light cut out by the old man directly collapsed.

The old man's complexion changed wildly, his figure retreated violently, but he was still a step too late, and a crack was cut out of the top source-level magic weapon level armor on his body.

The blood is constantly flowing out.

The old man was sweating coldly, and the sword just now almost slashed him.

"Can stop me with a sword, not bad, kill!"

The sound of the ball hadn't fallen yet, and Jian Guang slashed again, slashing towards the old man.

Lu Ming didn't take care of the old man. He knew very well that the old man was dead.

When the ball is turned into a king of war sword in the late stage of the origin, the combat power will not be much worse than that of him.

Breaking through the peak of the origin and skyrocketing combat power had already pushed Lu Ming far away.

Unless Lu Ming breaks through the peak of his origin, he is definitely not an opponent of the ball.

Sure enough, no matter how old the old man resists, he will be under the ball. Sooner or later he will lose.

Lu Ming concentrated on dealing with Wang Yin.

To deal with a Wang Xian, with more than a few strokes, Wang Xian was knocked into the air again.

"Not good, retire!"

Wang Yin greeted the old man, planning to retreat.

"Want to leave now?"

When Lu Ming killed him, his dantian position suddenly glowed, and a lightsaber slashed towards Wang Tan, the speed was extremely alarming, and it was inevitable.

Soul attack!

This is the future.

The lightsaber slashed directly into Wang Yin's body, attacking the soul in his source.

Chapter 5225: Stove topography

In front of Wang Yin's soul, there is a shield floating, which is a treasure of soul defense.

Characters such as Wang Yin, even if they are not proficient in the method of soul attack, their own souls will still be guarded by soul soldiers to avoid being attacked by other people's souls.

However, the future body is best at soul attacks, and the attack power exceeds Wang Qian's imagination.

when!

The soul war sword slashed on the shield soul soldier, sending out a huge shock, terrifying power, through the shield, bombarding Wang Yin's soul.

A tearing pain came from Wang Yin's soul, and he almost couldn't control the power of his own source, causing the power of the source to run away.

How could Lu Ming miss such an opportunity?

This was originally a joint attack between him and Mirai, and it was very abrupt.

Wang Yin and Lu Ming fought a lot of moves, and they didn't notice Lu Ming's soul attack. It was absolutely unexpected that Lu Ming's soul attack would be so strong.

Breaking the sky!

call out!

The man and the spear were one, and a bright spear pierced Wang Tan.

what...

Wang Yin whistled for a long time, madly running the power of the source, trying to resist, but it was obviously too late.

Pouch!

The gun light penetrated Wang Yin's body, shattered his roots, and even his soul was annihilated in an instant.

The jade flew out automatically, swallowing a trace of Wang Qian's soul mark into it.

One hundred battle exploits.

After swallowing Wang Yin's soul mark, the battle exploits on the jade were a hundred more.

Generally, the peak of origin is only five points of combat merit, while Wang Qian's combat merit is a full 100, which is twenty times higher than the peak of general origin.

The three evildoers on the list of evildoers finally completed one third.

At this time, on the other side, a scream came from the old man.

The old man was cut in half by the ball with a sword, and his roots were shattered, but his soul escaped and fled towards the distance.

Lu Ming made a decisive move, and the God of War spear flew out like a javelin, stabbing in front of the old man's soul.

The timing is very accurate. If the old man continues to fly, he will head straight into the God of War gun.

The soul hits the God of War Spear, and the consequences are self-evident.

As a last resort, the old man's soul stopped, but the ball rushed to the back and cut it off with a sword, completely solving the old man's soul.

Jade absorbed a ray of soul imprint of the old man, and he gained another thirty points in his battle exploits.

Although the old man's combat power is better than Wang Yin, his combat achievements are far from it.

Obviously, the old man's potential and talent are far inferior to Wang Tian's. The ability to have such a combat power is entirely accumulated by the years.

The total combat exploits on the jade became one hundred and sixty-six.

Putting away the two men's trophies, they shook their bodies and left the place, and soon after, they appeared on a mountain thousands of miles away.

All gods, Dandan and Paobao all came out of the Supreme Immortal City.

"Lu Ming, you solved those two guys?"

Dan Dan asked.

"I can't do it alone, thanks to the ball."

Lu Ming said.

Having said that, Lu Ming frowned slightly.

A Wang Tian is so difficult to deal with, this time the task is really difficult.

You know, Wang Yin wants to be on the list of evil evildoers in the underworld, only ranking 188, and Xue Shenzang is ranked in the 30s.

It is said that he is still young, has amazing potential and talent, and is always improving.

It used to be in the 30s, but now I don't know how much it has improved.

Even if the ball is shot, it is probably not an opponent.

If you want to complete this task, relying on your current strength is definitely not enough, you must break through.

Thinking of this, Lu Ming couldn't help but think of the peculiar terrain composed of nine stoves?

It's very strange that the people Wang Yin led were deployed there.

It is impossible to hunt and kill other creatures in the formation there. In this case, there must be other purposes.

Lu Ming discussed this doubt with Dan Dan and others.

"I also find it weird. I have a guess. Maybe they set up their formations not to hunt other creatures, but to cover what?"

Dan Dan said.

"They are cracking that terrain and want to enter it."

Lu Ming continued.

Dan Dan's guess coincided with him.

Those people Wang Yin were probably paying attention to that kind of terrain.

That kind of terrain, although very dangerous, may also contain great opportunities.

"Let's go back and have a look."

Lu Ming said.

They converged their breath and quietly returned to the nine furnace-like peaks not far away.

The people Wang Yin brought were still hidden in the formation.

This time, Lu Ming ran the Demon King Emperor's pattern and observed it more carefully. After a while, he found out.

The place where the opponent is deployed is about a thousand miles away from the terrain of the nine furnaces.

But on the other side near the top of the stove, a large hole was dug in the ground, and people came in and out from time to time.

Could it be that these people want to enter the stove topography from underground?

This big universe floated from the chaos and contained great opportunities and attracted countless masters. For hundreds of years, many people had obtained great opportunities here.

Under this terrain, there may be real opportunities.

Lu Ming and others were moved.

However, the opponent's origin is more than one thousand, and it is impossible for them to enter from here.

"Lu Ming, we may be able to enter from another direction."

Dan Dan said.

"Are you sure?"

Lu Ming asked.

The terrible terrain actually contains the same truth as the rune formation.

Legend has it that the earliest rune formations were derived from the insights into the nature of the heavens and the earth and from various wonderful terrains.

The two are homologous.

"Go and have a look first, and then you will know."

Ball fairway.

"Well, let's go to the other side of the stove topography."

Lu Ming said.

Immediately, they circled to the other side.

This time they were well hidden, and they were not discovered by the existence of the formation.

Soon, they came to the other side of the stove topography.

Close to the top of the stove, I felt tremendous pressure, and there was a scent of heat.

The mountain peaks in the form of nine furnaces are like nine real furnaces, and the temperature is astonishing.

Nine small furnace peaks enclose the largest furnace peak in the middle.

They landed at the foot of a small stove mountain, more than a thousand miles away, so they stopped because they felt it would be dangerous to go further.

call out!

Lu Ming sacrificed a source-level magic weapon and flew forward.

Suddenly, a few red lights floated on the ground, sweeping the source-level magical soldiers, and the source-level magical soldiers immediately melted into a pool of liquid.

What a terrible heat, what a terrible power.

This is a source-level magic weapon, solid and immortal, containing immortal matter, even if it has been for a long time, it will not decay, but it is swept away by a few red lights, and it turns directly into a pool of liquid.

Then, Lu Ming successively sacrificed several source-level magic soldiers and flew in different directions, but they were all the same as before. Red light would fly out of the ground, melting the source-level magic soldiers.

This kind of power, when they enter, it is also bad luck.

Chapter 5226: Research ground veins

Dandan pinched Yinjue with both hands, and runes flew out and sank into the ground.

He closed his eyes and seemed to be sensing it.

After a while, Dan Dan opened his eyes and said: "There are countless ground veins criss-crossed in the underground of this land, like countless runes, intertwined to form this terrain, very terrifying, like a peerless killing array. Moreover, it is constantly moving and changing, it is difficult to find a pattern, and it is impossible to crack."

Dan Dan frowned.

"I'll take a look."

Lu Mingyun formed the Demon King Emperor's pattern, and immediately, the surface of the ground seemed to become transparent, and underground, strips of light, suspended in Lu Ming's eyes.

These light bands are ground veins.

The dense ground veins, like meridians in the human body, crisscross and crisscross, like long snakes, as if there is life, constantly moving, one here and the other there.

But no matter how you move, they are intertwined mysteriously and can burst out terrifying power at any time.

This is the terrible part of this terrain.

If these ground veins can be broken, these terrains can be broken.

But with their cultivation skills, they couldn't do it at all.

Unless there is a high-level quasi-immortal, directly break it with a powerful force.

"Well, there is a weakness."

Suddenly, Lu Ming's eyes lit up.

He found that when the earth veins were intertwined, weaknesses occasionally appeared, but they disappeared quickly.

Sure enough, like formations, many formations will have weaknesses.

There are very few formations without weakness.

However, the weaknesses here are constantly changing and cannot be grasped or eliminated at all.

"Dan Dan, there are weaknesses, but unfortunately, the changes are too fast to grasp."

Lu Ming said.

"Is there really a weakness? Lu Ming, you will tell me the specific weakness and the direction of each change."

"Any formation has a regular pattern. This kind of change seems chaotic. It is because the change is too complicated, but it is regular. As long as I can find this pattern, I can enter and leave this terrain. ."

Dan Dan said hurriedly, with bright eyes and very excited.

This kind of natural terrain is hard to come by. If he can infer the laws of this terrain based on his weaknesses, it will be of great help to him, and he will be able to improve his attainments in rune formation.

"It is good!"

Lu Ming nodded.

Immediately, Lu Ming fully mobilized the Demon King Divine Mark and told Dandan the location of the weakness he had observed.

Dan Dan turned into a prototype, lying on the ground, densely packed tortoise shells, covered with runes, and submerged into the ground. While observing the changes in the ground veins, he combined with the weaknesses of Lu Ming's theory to deduce the law of ground vein changes.

Time passed day by day.

In a blink of an eye, half a month passed.

On the other side of the stove topography, the people Wang Yan had brought could not sit still anymore.

Wang Yin took a master to hunt Lu Ming and others, but he never returned. There was no news for half a month, and many people panicked.

During this period of time, people were constantly sent to leave the formation and went out to look for it.

On this day, someone finally discovered Lu Ming and others.

"It's them, Prince Wang went out to hunt them, these people are not dead, they are still here..."

There was a bad feeling in these people.

However, among these people, the one with the highest cultivation level is only in the late stage of the origin. How could it be the opponent of Young Master Wang?

What's more, there was a stronger master on the side of Young Master Wang Qian.

Could it be that Mr. Wang Qian didn't meet these people in the prehistoric universe, but had other things and left?

It is also impossible. If there is something important to leave, they will be notified.

Moreover, their presence here is also a major event.

If you can break through the terrain here and get the treasures inside, it is also a great opportunity.

In this case, Wang Qian couldn't leave without saying a word.

The problem must lie with people like Lu Ming.

Swish...

Five figures appeared not far from Lu Ming and the others.

"How many, have you seen my son?"

A beautiful woman asked, and with a wave of her hand, a portrait of Wang Qian emerged.

"never seen it!"

Lu Ming shook his head directly.

"You lied, you've definitely seen it, and said, where has my son gone?"

A big man shouted angrily.

"Where did your son go, you didn't know, but you came to ask me? It's ridiculous."

Lu Ming sneered.

"Boy, no matter how you quibble, it's useless. Today, you have to speak without saying it."

The big man showed a hideous look and slapped a secret signal. Suddenly, more than a dozen people flew over.

There are a total of eighteen people, all of whom are at the pinnacle of origin.

Eighteen people glowed, and they laid a joint attack formation, condensing a fierce tiger.

Roar!

The tiger roared and killed Xiang Lu Ming and others.

"court death!"

Lu Ming's eyes were cold, his spear was in his hand, soaring into the sky, his spear flashed, and he was fighting with the tiger.

Eighteen players joined forces, and they were all at the pinnacle level of the origin, and the combat power they exerted was extremely astonishing.

However, he was not Lu Ming's opponent after all. After dozens of moves, the tiger burst open with a bang. Lu Ming swung his gun straight up, exploded the combined attack formation, and killed twelve masters in a row, leaving six people in embarrassment. escape.

The jade flew out, absorbing the mark of the twelve original pinnacle souls, and gained another sixty points.

At the same time, Wanshen also flew up, absorbing the blood of twelve masters.

Although these twelve masters came from the same universe, they were divided into several races and contributed several kinds of blood to the gods.

The body of the gods emits red light, sitting cross-legged on the ground, and the various breaths on the body are changing.

Lu Ming and Dan Dan continued to cooperate to study the changes in the earth veins.

"Damn it, that kid's combat power is so amazing, it's definitely not weaker than Prince Wang Xian. Maybe Prince Xian Wang will be planted in his hands."

"What to do, this kid is too strong, even if there are two more team attacks, I am afraid it can't help him."

"Don't just forget it?"

"Young Master Wang, if something happens, I can't escape the blame. The only thing we can do now is to hide it first, and then think of a solution."

Several people discussed it, and returned to the source-level formation without any further action on Lu Ming and the others.

They know very well that if they want to deal with a master like Lu Ming, they can only bring Lu Ming into the source-level formation, but will Lu Ming and the others be fooled?

Or, use a stronger combination of strikes.

For example, a combined attack of thirty-six players, with thirty-six strong men at the pinnacle of origin, can definitely win Lu Ming.

However, they don't have the carrier of thirty-six players.

The original source realm's combined attack formation is inherently difficult to refine, and the thirty-six players' combined attack formation carrier is even rarer.

Only some top-level universes can be refined.

Since he couldn't deal with Lu Ming, he had to leave it alone.

In a blink of an eye, it was three months.

After months of continuous cooperation and research, Dan Dan finally found the law of earth vein changes.

"Lu Ming, let's go!"

Dan Dan said.

Chapter 5227: Chaos Fire Spirit

Lu Ming let Wanshen and Paobao enter the Supreme Immortal City, and he and Dandan set off.

In this case, in the event of an accident, it will be easier for them to get out.

"Thirty meters ahead to the left, 0.07 seconds later, change direction and go to 23 meters..."

Dan Dan said a large number of figures, this is the law he deduced.

Lu Ming firmly remembered.

Swish!

The next moment, the two turned into two rainbow lights, rushed forward, falling on the first weakness, 0.07 seconds later, the two fell on the second weakness again.

Accurate, no accidents.

Two figures, in this area, constantly flickered, like two lightning bolts, each time they stepped on the weak spot and moved forward fast.

Soon, they rushed past the eight small furnace peaks on the periphery and came to the largest furnace peak in the center.

On the peak of the central furnace, there was a passage, and the two rushed in.

The Stove Mountain is really like a stove. The inside is hollow. The strange thing is that the temperature inside is not high, and there is no ground veins gathering underground, and there is no danger.

"That is..."

Dan Dan's eyes widened, staring at the surrounding walls.

I saw that on the surrounding walls, there was a kind of plant, the whole body was fiery red, even the leaves were fiery red, growing along the wall.

It looks like a fire-red vine, and on the vine, a kind of fire-red fruit grows.

The fruit is the size of a thumb and exudes a strong fragrance. You can even see that there are runes shining in the fruit.

That is the original imprint, a very rich original imprint.

"Is this blood and fire bodhi."

Lu Ming's eyes lit up, and his breathing became a little quick.

Blood and Fire Bodhi, a legendary top-level source-level magic medicine, although it is only a top-level source-level magic medicine, it is more precious than immortal medicine to practitioners in the Origin Realm.

Because blood fire generally contains a rich and incomparable original imprint, and the absorption rate is very high, which can easily reach 90%.

You know, although the immortal crystal also contains the imprint of origin, it is not rich, and the absorption rate of the origin is generally only 30%.

The difference is too far.

In other words, as long as there is blood and fire bodhi, the cultivation base can skyrocket in a short time.

Really dozing off, he gave him a pillow. With the blood and fire bodhi, Lu Ming can quickly rush to the peak of his origin, and he will have a lot more confidence in dealing with Xue Shenzang.

Huh!

Dan Dan was already a little impatient, and rushed to one side of the rock wall, trying to pick two blood and fire bodhi to try the effect.

But Lu Ming suddenly felt a rainbow light from the ground, rushing towards Dan Dan.

"Be careful!"

Lu Ming yelled, burst out with all his strength, rushed out, and the God of War spear shot out, piercing the red light.

The God of War spear is like lightning, and will catch up with this red light in an instant.

The red light stopped abruptly and turned around.

Yes, it turned around.

Only then did Lu Ming see the true face of this red light.

This red light looked like a liquid flame, but it was vaguely human-shaped, changing between flame and human-shaped.

The next moment, the humanoid flame stretched out his palm and grabbed it on the God of War Spear.

Chi Chi Chi Chi...

The God of War spear made a scoffing sound, and it was slowly melting.

Lu Ming was shocked.

The God of War Spear is a top source-level magic weapon. He has been fighting with Lu Ming for many years, but he was melted by a human-shaped flame.

Then, with a scream, it turned into a billowing flame and rushed towards Lu Ming.

Lu Ming couldn't pay attention to the heartache war gun, the power of the original source ran wildly, the original technique was used, and dozens of punches were continuously blasted, dozens of punches rushed into the human-shaped flame.

A series of roaring sounds, human-shaped flames are terrifying, and they melted Lu Ming's fist strength, and wisps of flames penetrated in and rushed towards Lu Ming.

Lu Mingfei retreated quickly, but was still entangled by a trace of flame, trying to spread his whole body and burn him to ashes.

Fortunately, Lu Ming's taboo origin power is no small matter, reaching a high level. Under the impact, this flame is extinguished.

Dan Dan took the opportunity to set up a series of formations and came to Lu Ming's back.

"Dan Dan, you also enter the Supreme Immortal City."

Lu Ming said, the future body urges the Supreme Immortal City, and takes Dandan into the Supreme Immortal City.

Huhu...

The human-shaped flame did not work in one blow. It seemed very angry and screamed, causing the temperature inside the furnace mountain to rise sharply, and countless flames emerged out of thin air, endless flames, gathered towards the human-shaped flame, and then rushed towards Lu Ming.

"Chaotic Fire Spirit."

At this time, the future body sent a message to Lu Ming, letting Lu Ming know the origin of this human-shaped flame.

The future body has received the inheritance of the Supreme Immortal City, read many classics, and knows more than Lu Ming's current body.

Chaos fire spirits are generally conceived in the chaos. Once the innate things are fully mature, they will immediately become immortal creatures.

This is extremely terrifying, fully mature, it is a creature of immortal Dao, and the talent is really terrifying.

However, this kind of innate thing is extremely rare and rare, even in the chaos, it is extremely rare.

And the stove topography here is actually gestating a chaotic fire spirit.

The mature Chaos Fire Spirit was extremely terrifying, and Lu Ming naturally ran as far as he could.

But this Chaos Fire Spirit was far from the mature body.

Without a mature chaos fire spirit, it is a peerless treasure, containing innate energy, if it can be refined, it can make the roots complete a transformation.

Thinking of this, Lu Ming felt extremely hot in his heart.

His current source is high-level, and if he transforms again, it will be top-level.

It is absolutely rare for the origin realm to reach the top level.

In the future, crossing the immortal catastrophe will create the strongest road.

Lu Ming's body glowed, and his future body also appeared.

Now the future body rushed forward at the same time, proactively attacking, wanting to suppress the Chaos Fire Spirit, and then refine it.

Chaos Fire Spirit screamed, slaughtered frantically, and fought against Lu Ming.

The strength of the Chaos Fire Spirit is indeed terrifying, even if the two bodies come out together and join hands together, there is no way the Chaos Fire Spirit can help.

And, in the future, you have to be careful everywhere.

Because the source of the future body is not high-level, but intermediate.

It is not so easy to achieve advanced roots, it can be said to be extremely difficult and extremely difficult.

In the present body, he originally mastered the power of taboo, and comprehended the three thousand ancient mysteries, so that the taboo body was transformed, and then broke through under the great calamity of the original source, and only then achieved the high-level source root.

Although the future body has the same talents as the present body, it is not bad to be able to achieve Intermediate Root Root without such opportunities.

The power of the Intermediate Origin Roots corresponding to the Intermediate Origins can't stop the flames of the Chaos Fire Spirit, so you can only be careful everywhere.

Finally, Lu Ming called out the ball to help.

But the effect is still small.

The ball turns into the form of the King's War Sword, although its attack power is amazing, it can cut away the chaotic fire spirit.

But after the Chaos Fire Spirit was cut away, it could be restored instantly, nothing happened.

Chapter 5228: Trinity

Lu Ming's two bodies joined the ball, but they couldn't suppress the Chaos Fire Spirit.

The Chaos Fire Spirit became more and more courageous as it fought, and the entire furnace mountain peak was full of flames.

Fortunately, that kind of blood and fire bodhi seems to have no fear of flames, but radiates radiance in the flames, nothing at all.

"You cover me, and I will perform a soul attack. The Chaos Fire Spirit is far from mature. Although the body is powerful, the soul is still very weak."

Future body way.

Now the body and the ball hit forward, dragging the Chaos Fire Spirit.

As for the future body, when he came, he performed a soul attack, one after another soul war sword, and turned to the chaotic fire spirit.

Sure enough, the effect was immediately achieved.

The soul war sword slashed on the Chaos Fire Spirit, causing the Chaos Fire Spirit to scream, and the body trembled, and it kept shrinking back.

Seeing this, the offensive of the future body is even more violent.

But now the body and the ball are entangled in the Chaos Fire Spirit with all their strength.

Shoo...

The densely packed soul war swords constantly slashed towards the chaotic fire spirit.

The chaotic fire spirit screamed, the flames on his body were getting smaller, and the surrounding flames were disappearing.

Finally, the Chaos Fire Spirit shrank into a ball, the size of a fist.

"Refining!"

Lu Ming's present body was grasped with a big hand, and the power of the taboo origin surged out, wrapped the Chaos Fire Spirit, and began to refine.

Chaos Fire Spirit kept struggling, and terrifying energy burst out of his body, trying to rush to Lu Ming's taboo origin power.

Lu Ming sat cross-legged, wholeheartedly, refining with all his strength, and at the same time, the future body was also sitting cross-legged in front of the 'present body'.

The present body and the future body are one and the same, and the coordination is seamless. Although the power of control is different, they can complement each other.

The two joined forces, and the power skyrocketed.

After a while, Lu Ming frowned. Now that he joins hands in the future, he still can't refining.

Ok?

At this moment, Lu Ming's eyes lit up, revealing a hint of joy, and then with a wave of his hand, a copper coffin appeared.

The copper coffin was self-appointed when the origin of the catastrophe came. On the surface of the coffin, dense runes appeared.

However, when the origin of the catastrophe passed, the runes on the surface of the copper coffin disappeared, but the 'past body' never came out.

Now, Lu Ming sensed that the "past body" was about to appear.

Click!

The lid of the copper coffin was opened, and a figure rushed out and landed on the ground. It was the 'past body'.

It can be seen that the temperament of the past body has changed a lot from before.

The body of the past body is a bit more sturdy and burly than before, with well-proportioned muscles and perfect lines, but it is full of explosive power.

As if a punch can blast through the void of the universe.

What a strong physical power!

Such a thought came to mind at the same time in the present body and the future body.

It can be clearly felt that the qi and blood in the past body are extremely thick and the flesh is domineering, somewhat similar to the original gods, but more powerful than the original gods.

The past body nodded to the 'present and future body', and a message was transmitted into the minds of both bodies at the same time. Suddenly, both bodies knew what the 'past body' had experienced over the years and the secret of the copper coffin.

In the copper coffin, there is a wrecked immortal, from the witch clan, sleeping.

It is a fairy-level great witch, but in the battle of the last era, he was seriously injured and dying, hiding himself in a copper coffin for healing.

Later, the copper coffin drifted to the starry sky of the eastern universe somehow, and was inspired by some primitive gods.

Most of the primitive gods inherited the blood of the Wu clan, and some inherited the blood of the Yao clan.

Primitive gods with the blood of the witch clan are extremely sensitive to the remnants of the witch clan in the copper coffin, thinking they have a great opportunity.

Because that is a kind of attraction from the depths of the blood, leading many primitive gods to fight for the copper coffin.

In the end, Canxian took action and suppressed a dozen primitive gods, put them in the copper coffin, and controlled them by means of puppets.

This is why Lu Ming once saw a primitive **** stepping out of the copper coffin with a silk thread on the back of his head.

This is controlled by Canxian.

However, the injured immortal was too severely injured, hiding in the copper coffin for endless years, the injury not only did not recover, but became more and more serious, and was about to reach its limit.

Canxian knew that he was going to die, he was unwilling to learn what he had learned all his life, so he buried it.

Especially the inheritance of the witch clan.

Although he hid in the copper coffin, he probably knew the situation of the prehistoric universe from the mouths of those primitive gods.

In the prehistoric universe, the Wu clan has disappeared.

It is very likely that he is the last remaining Wu clan, and once he dies, the inheritance of the Wu clan will be truly cut off.

At this time, he found that the 'past body' had a good talent.

In the past, the body practiced "The Universe Ten Thousand Ways", controlled a variety of divine powers, and awakened a variety of original divine power factors.

What is divine power? It is the power controlled by the primitive gods, called primitive divine power.

Where did the original gods come from? Isn't it the Primordial Witch Clan, or the Primordial Demon Clan?

Among them, most of the primitive gods came from the prehistoric witch tribe.

In the past, he practiced "The Universe and Ten Thousand Ways", which can be said to be of the same origin as the Wu clan.

Therefore, the Witch Clan's Remnant Immortal would pass his body and take it into the copper coffin.

Over the years, the past body has been following the Witch Clan's Remnant Immortal and cultivating the way of the Witch Clan. Until not long ago, the Witch Clan's Remnant Immortal was completely transformed into the Tao. On this scene.

I don't know if it's a coincidence or what the reason is. The cultivation base of the past body is also in the late stage of the source, and the source root, like the future body, is the intermediate source root.

The three minds and bodies have aura. In the past, the body sat cross-legged in another position, and joined the refining chaos fire spirit.

The trinity of past, present, and future, and simultaneous shots, has actually produced a wonderful qualitative change.

The power of the three bodies, entangled, and then merged together, unexpectedly gave birth to a new force, extremely powerful and powerful.

what...

Chaos Fire Spirit screamed in horror, rushing outwards frantically, trying to rush out.

But he was completely cut off by the power of the three bodies.

The forces of the three bodies converge, constantly refining the Chaos Fire Spirit.

Slowly, the Chaos Fire Spirit was refined, turned into a wonderful energy, poured into the three bodies, and circulated in the three bodies.

Sanshou immediately felt that the root of his own was slowly changing.

it works!

Lu Ming was secretly happy.

Refining Chaos Fire Spirit is really of great help to Source Root.

It is a pity that the power of the three bodies circulates, and it is impossible to input the power of the Chaos Fire Spirit to other people. Otherwise, he wants to lose a part of his power to the gods, Dandan and Paobao, and also make them profit.

Time, one minute and one second passed.

In a blink of an eye, a day passed.

One day later, Chaos Fire Spirit was refined by a fifth.

Most of this one-fifth power is given to the future body.

The source of the future body, the rate is advanced, from intermediate to advanced, the power of the source has changed, becoming more condensed, stronger, and more mysterious.

Chapter 5229: Breakthrough, soaring combat power

Another day later, the source of the past body evolved from intermediate to advanced.

Afterwards, all the energy of refining was given to the present body.

In the past three days, all the remaining Chaos Fire Spirits were refined, and the source root of Lu Ming's 'present body' finally completed its transformation, from a high-level source root to a top level.

There were smiles on Lu Ming's three faces.

Both the past body and the future body have reached a high level of origin, and their combat power has greatly increased, and they will not be worse than the previous 'present body'.

The most important thing is that the present body, the source root level, is promoted to the top level.

The top source root has reached the apex of the source root.

Many Nine Tribulations quasi immortals, after undergoing many trials and tribulations, cannot raise their roots to the top level.

And Lu Ming, in the original realm, has reached the top of the origin, and the entire universe is rare.

Yuangen was promoted to the top level, and Lu Ming's current combat power was undoubtedly improved a lot.

Now if Lu Ming faced the black gold Taoist, he would definitely be able to easily suppress the opponent, and even kill the opponent, it wouldn't be too difficult.

Of course, if the three players attack at the same time and use the three-in-one method, the combat power will skyrocket.

"Shan Ying, Shan Xiong..."

A ray of cold flashed in Lu Ming's eyes.

Before, I had to avoid Shan Xiong when I met Shan Xiong, but now I don't have to.

It's not difficult for the three to converge and add the ball to kill each other.

The three bodies glanced at each other, their hearts are bright, the past body and the future body, turned into a light, rushed into the body of the 'present body', sitting cross-legged on both sides of Yuangen.

While guarding the roots, you can hide your body shape.

No one would have thought that in Lu Ming's body, there were actually two of himself, who would provoke troubles, and even opponents who were stronger than him would suffer a big loss.

This is a killer feature, if it is not necessary, it will not be used.

After hiding the two bodies, Lu Ming released Dandan, Paobao and Wanshen from the Supreme Immortal City.

"The Chaos Fire Spirit has been resolved, now we are picking the Blood Fire Bodhi, refining it on the spot, and improving the cultivation."

Lu Ming said.

"Right on my mind!"

Once his eyes glowed, he started to do it.

He stretched out his hand and grabbed it, and he grabbed a few blood and fire bodhi in his hand, stuffed it into his mouth, and began to refining.

Bubbles and Pantheon also shot one after another.

Lu Ming moved too, and took off ten of them at once. Six of them flew into his body and gave them to the past body and the future body.

The other four were swallowed by the present body and began to refine.

There are two main reasons why it is necessary to refine on-site.

First, the blood and fire bodhi is quite special. It cannot be too far away from the growing environment. Once it is picked, if it leaves too far away from the growing environment, the efficacy of the medicine will be lost and its effect will be lost.

Second, this is an excellent retreat place. Don't worry about being disturbed, just break the barrier here. If the cultivation base can be raised to the peak of the origin, the assurance of killing Xue Shenzang will be much greater.

At the top level of Yuangen, coupled with the cultivation base of Yuanyuan Peak, Lu Ming is confident to compete with those perverts on the Yuanyuan list.

In Blood and Fire Bodhi, the original imprint is astonishing, and it is also astonishingly rich. When refining, the cultivation level rises very quickly.

However, it is not easy to refine the Bodhi of Blood and Fire.

Blood and Fire Bodhi contains the power of blood and fire, and this power of blood and fire must be purified first in order to absorb the original imprint inside.

After half a month, a few blood and fire bodhi were refined, Lu Ming then took off a few and continued refining.

In a blink of an eye, they stayed inside the furnace mountain for three years.

It took them a full three years to finally wipe out the blood and fire bodhi here, and all of them were refined.

The cultivation base of everyone has skyrocketed.

Dandan, Paobao and Wanshen's three cultivation bases reached the peak of the late origin.

Their original cultivation base was at the peak of the origin, and this time they surpassed two levels at once.

Of course, they have improved so quickly because of the originally low cultivation base.

Lu Ming also made a major breakthrough.

The three broke through together, all reached the peak of their origins, and their combat power skyrocketed again.

"Essence pinnacle, on this Essence battlefield, there is no need to be afraid."

Lu Ming whispered, his eyes full of confidence.

All three bodies have reached the peak of the origin, especially the current body, the origin is at the top level, and his combat power is extremely strong.

Now, even if it is a quasi immortal, he is sure to kill.

If the three bodies work together, even if it is the Second Tribulation Zhunxian, they dare to touch it.

Of course, it refers to the more ordinary quasi immortal, and the enchanting is another.

"Go, kill Xue Shenzang."

Dan Dan called, full of spirits.

There are no other treasures in this furnace mountain peak, and everyone is planning to leave.

For the earth veins here, Dan Dan has almost fully understood, has studied the rules, and it is easy to find a way out.

Soon, they left Stove Mountain.

It was discovered that the subordinates brought by Wang Yin were still arranging in another direction, and they were still struggling to find a way to enter the furnace mountain.

After observing for a while, Lu Ming finally chose to retreat.

After all, it was a source-level formation deployed by thousands of origins, and it was extremely powerful. Even if Lu Ming's combat power was soaring now, he was not sure to break through this formation.

It's not wise to look for other creatures in the underworld to kill, and head-on with this top-notch big formation.

After leaving this place, they went all the way to the deserted battlefield, and continued to deepen.

In the central area of the barren battlefield, there are a lot of masters in the underworld, and you can see the fight from time to time.

Naturally, there are also many powerful men in the underworld who wanted to kill Lu Ming and the others, but they all died in the hands of Lu Ming and the others, turning them into military exploits.

Lu Ming did not take action in all the battles. If the enemy was not very strong, Lu Ming would not take action and hand it over to the three of Dandan, Paobao and Wanshen.

The three of Dandan teamed up, complemented each other, and their cultivation base increased greatly. Even if there were a few original peaks, they would not be their opponents, and they would eventually die in their hands.

While killing the creatures in the underworld, accumulating combat exploits, hone yourself.

Dandan, Paobao, and Wanshen are getting deeper and deeper in their understanding of their source art, and their combat power is gradually increasing.

In the course of the war, I gradually passed on the immortal way and turned it into my own use.

Especially the Ten Thousand Gods, killing the creatures in the underworld, fusing the essence and blood of the other party, his roots, there are signs of transformation.

Time flies, and they stayed on the deserted battlefield for another year.

They have entered the barren battlefield in total, and it has been more than four years.

Three thousand battle exploits, more than two thousand five hundred have been accumulated, just five hundred short, it is three thousand.

It's a pity that the enchanting evildoer on the evildoer list beheaded and killed one king, and there are only two.

"In Suihan Mountain, there is a monster named Fugang on the list of evil evildoers. It is ranked eighty-nine in the list of evil evildoers and can be killed."

Lu Ming and the others are discussing.

They just found out the news not long ago. At Sui Hanshan, there is a monster of the underworld list of evil evildoers, not far from here.

Chapter 5230: The second evildoer

Fugang, ranked eighty-nine in the list of evil evildoers of the origin of the underworld, is well-known in the entire underworld, as the top evil evildoer, and will have the posture of an accomplished fairy king in the future.

He comes from the top universe of the underworld, the evil universe, and the underworld ranks fifth.

In the Origin Realm, there are hardly many opponents, and even fewer can kill him.

He was very confident of his own strength, so he only brought a few dozen of his subordinates and set up a simple source-level formation on Suihan Mountain.

And I am exploring this cold mountain, looking for opportunities.

In the sky, several figures suddenly appeared.

It was Lu Ming and Dan Dan.

"A source-level formation of thirty-six people, very good."

Lu Ming said.

This is not a combined attack formation, but a source-level formation of thirty-six people based on various materials.

And these thirty-six people, as the eyes of the formation, are very powerful in urging the formation.

Different from the combined attack formation method, the combined attack formation method can be moved at will. Once this type of formation is deployed, it cannot be moved.

"This is a small formation, I came to break this formation."

Dan Dan said, after finishing speaking, he began to pinch Yinjue, countless runes flew out and sank into the void.

Lu Ming naturally wouldn't refuse.

This formation is not too powerful. Lu Ming is sure to break through, but he can save his energy. Why should he break through?

Soon after, countless runes suddenly appeared around Suihan Mountain, and these runes were intertwined with the opponent's source-level formation.

"who?"

Someone drank.

"Someone wants to break the formation, hurry up, urge the formation."

Someone drank again.

Thirty-six masters of the Yinxie Great Universe, using themselves as the array eyes, activated the array, trying to stop Dandan.

But it was too late.

"broken!"

Every time he drank, those runes exuded a brilliant glow and exploded continuously.

The opponent's source-level formation was abruptly blasted through a huge hole.

The formation is torn, it is equal to breaking, the power is greatly reduced.

Lu Ming's figure flashed, and he rushed in through this gap.

The spear swept out, and the three masters at the pinnacle of origin, without even screaming, were exploded and fell on the spot.

The spear is naturally not the **** of war.

When fighting the Chaos Fire Spirit, the God of War Spear was completely destroyed.

But Lu Ming has a lot of top-level source-level magic soldiers, and there are five or six spear-type top-level source-level magic soldiers.

You can use it easily if you change one.

Hum!

Then, the spear flicked, and bursts of spear lights burst out. In an instant, another eight original pinnacles were killed.

Thirty-six masters are all at the pinnacle level of the source, most of them are very old, because they dare not overcome the immortal catastrophe, they have been stuck at the pinnacle of the source.

But the combat power is definitely not weak, and there is no suppression here, no one will be weaker than the God of Heaven.

Some were even stronger than the Lord of Heavenly Palace, but facing Lu Ming today, there was no difference, it was all a flash.

"Back, fast back!"

"Retreat to the mountain to find Young Master Fugang."

The rest of the original source was horrified, backing one after another, rushing towards Sui Hanshan.

Lu Ming, who was in the shape of electricity, ran after him.

The spear was pierced at will, and there was an existence at the pinnacle of origin was killed, and five points of combat exploits were achieved.

boom!

At this time, in the depths of Suihan Mountain, a terrifying breath rose.

"court death!"

A cold voice sounded, and a figure stepped into the air.

This is a young man who looks less than thirty years old, wearing a black robe, with a sinister face.

Around the body, the evil spirits rushed into the sky.

"Young Master Fugang!"

The rest of the Yinxie universe is overjoyed.

Seeing Young Master Fugang, it seemed to see a life-saving straw.

"You are Fu Gang, very good, borrow your head for use."

Lu Ming whispered and shot at.

"Arrogant!"

There was a murderous flash in Fugang's eyes, and the horrible evil spirit roared, transforming into twelve evil evil beasts, and slaughtered Xiang Lu Ming.

And he himself, holding the Yinxie War Sword, turned into a black light, and slashed towards Lu Ming.

"Try your strength."

Lu Ming's spear swept across, and the void exploded where the spear light passed, turning into a billowing force of destruction, and swept forward.

Wherever he goes, everything is destroyed.

The twelve Yin Beasts condensed from Fugang also bounced out and turned into nothingness.

Then, the spear light collided with the Yinxie War Sword, and Fu Gang shook his body with a sound, and retreated violently.

"you...."

Fu Gang showed a shocked expression.

He had already used 90% of his power with that move just now, and he was actually defeated by Lu Ming and was repelled by Lu Ming.

Where did this master come from?

"That's your strength?"

Lu Ming spoke in disappointment. He stepped forward, his spear like a mountain, pressed down towards Fugang.

Fugang roared, and this time he exploded with all his strength, urging the power of the source technique to the extreme, the sky full of Yin and Evil sword light, converging into one, slashing towards Lu Ming, destroying everything.

However, when the gun light was pressed down, the sword light collapsed, Fu Gang vomited blood and retreated, his face pale.

"The strength is not as good as the black gold Taoist..."

Lu Ming had a thought in his heart.

Fugang, ranked eighty-nine in the evil spirits list of the underworld, was slightly worse than the black gold Taoist ranked 221 in the Yangjian Origin List.

Before Lu Ming could break through, he would be able to confront the Black Gold Daoist.

At this time, both the cultivation base and the source root broke through, and it was too easy to deal with a Fugang.

The combat power is completely crushed.

Originally, I wanted to use Fugang to try my own strength, but I didn't expect it to be of no use at all. The opponent's strength was too low to test his own depth.

"Since it is such a waste, I will completely send you on the road."

Lu Ming's eyes were cold, and a stronger source of power burst out.

boom!

The overwhelming power has turned into a monstrous gun shadow.

A series of huge gun shadows, like the Optimus Prime, smashed down towards Fugang.

The sky is full of gun shadows, and Fu Gang is completely locked, and Fu Gang can't dodge at all.

Fugang roared, feeling a fatal crisis, urged his combat power to the extreme, and shot frantically.

boom!

The first gun shadow was crushed by Fu Gang, but he himself vomited blood, six of his bones were broken, and a dozen muscles were torn apart.

"who are you?"

Fugang showed a look of despair.

He was seriously injured by a gunshot, and there were more than a dozen huge gunshots behind him.

He knew that he was absolutely unable to resist, and he must fall here today.

He is unwilling to wait for death, and does not know who killed him?

Lu Ming was able to understand the list of evil evildoers in the underworld, the masters of the underworld, and naturally knew the masters on the Yangjian origin list.

However, there is no such person as Lu Ming on the original list.

Being so young, but being able to crush him easily, this combat power is too terrifying.

At least one of the top 100 characters in the source list.

"The Great Universe, Lu Ming."

Lu Ming spoke indifferently, and then more than a dozen shots fell.

"Unexpectedly the prehistoric universe..."

Fu Gang flashed for the last time, and was turned into ashes in the shadow of the gun.

Even the other masters at the pinnacle of origin were all killed and completely fallen.
