Daily Life 2031

Chapter 2031 Female Cultivator Who Stole Magic Treasures (1/86)

After all, he had found the same person back then, so Sun Yiyuan understood Lotus Sun's intention almost instantly.

As expected of a descendant of the Sun family, she was indeed an active and resolute person!

As he dived to the bottom of the sea, Sun Yiyuan couldn't help but feel happy.

But he also knew very well that even if Lotus Sun already knew that the Sun family ancestral land was hidden in the belly of the spirit whale, it wouldn't be easy to find that senior spirit whale..

Yes, that spirit whale had lived for an unusually long time, and even Sun Yiyuan had to call it senior.

It wasn't just him. When he had taken over the position of family head, even Sun Yiyuan's own father, who was Lotus Sun's great-grandfather, had respectfully addressed the spirit whale as senior.

Although Sun Yiyuan understood his granddaughter's thoughts, everything still had to be done according to the family rules. If he were to rashly search for that senior spirit whale, he was afraid that it would disturb that senior's cultivation.

With this in mind, Sun Yiyuan couldn't help but speed up his actions. When he dived more than 3,000 meters into the sea, the enormous water pressure had already begun to make his body feel slightly uncomfortable.

Human cultivators weren't creatures that had grown up in the ocean to begin with, and they also had their limits when diving to the bottom of the ocean with their cultivation bases. In addition, the elemental spirit roots were mutually reinforcing and counteracting each other, if cultivators with water-type spirit roots hadn't been sealed in the ocean for a long time, it was normal for them to feel uncomfortable no matter how high their cultivation bases were.

But Wang Ling and Lotus Sun's spirit energy signals were still further down, so Sun Yiyuan immediately understood that Lotus Sun had probably used the submarine she had hidden on her body to dive so deep.

“It’s too dangerous, Lotus...”

Sun Yiyuan was famous for protecting his children. After all, danger lurked everywhere in the depths of the ocean, and no one knew exactly what would happen. If the submarine malfunctioned and was trapped in the deep sea, it would be troublesome!

At this thought, Sun Yiyuan frowned slightly and directly took out a conch from his storage bag.

Grandma Sun had once given it to him in the sect.

In Sun Yiyuan’s era, there was still no complete modern cultivation education system.

At that time, cultivation education was almost always carried out in the local sects that were allocated by the government.

The unified entrance examination was then filled in with the sect’s wishes according to the results, but it was not a guarantee that one would be able to enter the sect if the results were sufficient.

When the test scores reached the standard, the first thing that entered the sect was a personal file.

Then, the major sects would carefully review the file materials to confirm whether the disciples in the file met the sect’s cultivation philosophy.

This was also to better match resources according to talent, so as to avoid a situation like a cultivator who practiced water magic entering a sect that specialized in fire magic.

Sun Yiyuan remembered that not long after he entered the sect, during lunch.

In order to reserve a seat in advance, he had placed one of his voice transmission magic treasures on his seat, but it was directly taken away by a female cultivator from the same sect..

If he didn’t ask for it, he would steal it.

At that time, Sun Yiyuan was a little annoyed.

The most important thing was that not only was that female cultivator unreasonable, she even exaggerated his matter and published it on the sect's recording wall.

"The senior brother who sat in my seat in the school cafeteria today took your dharma treasure with me when I was sorting things out. After all, you're sitting in my seat, so the teleportation Dharma Treasure distributed by the school is the same. I don't know if this is mine or not."

"I'll know when I go back and take a look. Oh, so I have two. I Can't be bothered to scold you.". "I didn't mean to target you, but sitting in someone else's seat is very disgusting. Don't embarrass our school. If you want something, come and get it yourself. Don't accuse me of stealing your things when the time comes."

If it weren't for someone speaking up in the end, Sun Yiyuan wouldn't have had a good life in the sect after that.

At that time, the first person to speak up for Sun Yiyuan was Grandma Sun.

Not only did she reprimand the junior sister from the same sect for her actions, but she also helped him get the magic treasure back. She also exchanged all her sect points as the sect's chief inner disciple and gave him a conch magic treasure.

Sun Yiyuan would never forget what Grandma Sun had said to him when he was young.

"I'm sorry, Junior Brother Sun. My junior sister in the same group is very reckless. I apologize to you on her behalf."

No comparison, no harm.

It was almost the first time in Sun Yiyuan's life that he had seen such a gentle, dignified, and generous woman.

It was also from that moment that he was certain.

His life must be hers..

As his thoughts returned, Sun Yiyuan injected his spirit energy into the conch. After the palm-sized conch was injected with spirit energy and activated, it instantly enlarged and emitted a protective golden light, completely enveloping him.

This time, he felt comfortable..

Sun Yiyuan suddenly felt comfortable in his heart. He felt as if his wife was constantly stroking him and accompanying him.

“Rong Rong, Grandpa is coming to look for you...”

Sun Yiyuan said in his heart. Then, he kicked his leg and accelerated to dive again.

In fact, it was not impossible to enter the ancestral land, but he had to follow the procedure.

Moreover, it would not be good to disturb that senior spirit whale’s rest if he went searching like this.

..

On the other side, the bright moonlight woke up, but the world in front of him made him a little confused for a short time.

He remembered that he was clearly eating a kind of natural and rare coral as a healing tonic... that was a coral island he had accidentally found, and just as he was eating happily.., a huge wave suddenly hit him..

No!

It wasn’t a huge wave... he seemed to have been swallowed by a huge whale..

In other words, he was now in the Whale’s stomach?

When Bright Moon night recalled everything, the shock in his heart turned into endless shock.

Because he had never thought that with the current level of Spirit Beasts on Earth, there would actually be a spirit beast in his body that could form its own world..

Although he was sure that he was in the spirit whale's stomach, the endless mountain range and lush forest in front of him told him that the spirit whale had already formed its own world in its body.

Bright Moon night immediately sat cross-legged to regulate his breath. After being forced to become the weapon spirit of the magic staff, his strength was still damaged and he needed to find a shortcut to recover as soon as possible.

Therefore, he had to devour a large number of heavenly treasures to strengthen the magic staff. The stronger the magic staff, the stronger the weapon spirit would be.

"God is helping me!"

After sitting cross-legged on the spot for a moment, Bright Moon night opened his eyes in surprise.

He could sense that in this world in front of him, there might be a huge benefit that he could not imagine! This was a rich mine with the aura of countless natural treasures. If he could devour all these natural treasures here... His strength might be even stronger than when he was in his human form!

The heavens never forsake a path..

Ming Yue ye laughed maniacally.

Then, he didn't think much and directly took a step forward, following the path in front of him into the Sun family mountain range,

Chapter 2032 2028, Sun Family's Ancestral Land, 100,000 Mountains (1/86)

The legendary Sun family's ancestral land was actually a maze made up of countless mountains combined with jungle terrain. Although there were many natural treasures inside, it was also fraught with danger.

Hence, it was also known as the 100,000 mountains for short.

As soon as the Bright Moon entered this place, it felt like there was a different world here. It was completely different from Earth because the spiritual energy of the natural treasures helped each other grow and gush out, as a result, the spiritual energy density of the world inside the whale's belly was actually higher than that of Earth.

The origin of this ancient whale seemed to be very unusual..

Bright Moon night immediately came up with a plan. If he could devour most of the heavenly materials and earthly treasures here to recover his strength, then he could think of a way to stew and eat this ancient whale. Perhaps it could directly help him cross a major realm!

Of course, Bright Moon night also knew that such an ancient whale, which had been hidden on earth for so many years and had yet to be discovered by human cultivators, could not grow to such a stage by itself.

In other words, was there a powerful existence behind this..

When Bright Moon night thought of this, his heart became somewhat vigilant.

In the universe, there were quite a number of people who raised kun. In the divine realm, there were even people from the ten great families who set up Kun farms. Those who were raised Kun with good talent were trained to be mounts and war beasts, they guarded the family's important land.

Even if their talent was lacking, they could still be cooked into delicacies on the table.

As for this ancient whale, although bright moon night was in its stomach, she could feel that the ancient whale's bloodline composition was very complicated..

As a professional illusionist, it was not difficult for bright moon night to guess that its transformation into a spirit whale was probably just a disguise.

Big Skin Spell..

Bright Moon night immediately thought of an illusion-type Heavenly Dao spell.

This time, things became interesting.

Bright Moon night curled the corners of her lips, and her smile gradually became crafty.

An “Ancient whale”that knew how to use the Heavenly Dao to disguise itself and had been hiding in the depths of the Earth for a long time, what was its true body?

Who was its master who had been able to support it and keep it in captivity all this time?

The Bright Moon was very curious about all this.

..

The great skin spell.

At the same time, Wang Ling thought about this almost at the same time on the submarine.

He had no choice. He had a lot of heavenly dao spells under his control, and with a total of 30,000 heavenly dao spells in ten universes, the amount of data was too large, so it would be a bit troublesome to cross-check them one by one.

It was especially so for spells like this type of illusion, the great skin spell and the Great Transfiguration Spell. The two could easily be mistaken.

After all, the ancient whale that could survive for so long definitely had more than just a spirit whale in its bloodline structure. This ancient whale had been existing since before earth leveled up, while the regular ocean spirit whale only had a lifespan of three thousand years.

Three thousand years was a key point for a spirit whale. If it could transcend realms and transcend itself, it could live up to five thousand years.

Thus, it was very unusual for this “Ancient whale”to be able to live for so long.

But Wang Ling planned to use the “Great blood source spell”to observe what the other party’s bloodline was after coming into direct contact with it.

It would be more accurate at close range.

After all, this concerned Daofather Wang, so Wang Ling felt that he couldn’t afford to be careless in the slightest.

“Eh? Ling Zhenren said that it’s the great skin spell? This ancient whale actually knows Heavenly Dao... it really does seem a little unusual.”

In the group voice transmission spell, Immortal Toya heard Wang Ling’s analysis and looked at him in puzzlement.

The great shapeshifting spell was a spell that could reshape or fine-tune one’s face. In general, it was more suitable for human cultivators. In theory, as long as one mastered this spell, they could transform into anyone.

Furthermore, most heavenly dao-type illusions had the effect of “Real illusions”, just like Wang Ling’s “Real clone”, crispy noodles dao monarch.

The “Real clone”had intelligence, and it wouldn’t be forced back because of an injury to its original body. It could also bleed and be injured, and at critical moments, it could shift position and take the attack on behalf of its original body.

But Wang Ling didn’t need to shift position to take the attack on the original body. Sending crispy noodles out was like inserting an eye into the coordinates in advance, and he could shift position and teleport there whenever necessary, crispy noodles would finish the rest of the battle.

In this vast universe, probably only Wang Ling himself had changed this “Shift position”life-saving method into an offensive change..

The “Real illusion”was even easier to understand; it was a type of spell that couldn’t be easily deciphered by illusions under the Heavenly Dao.

If the same Heavenly Dao spell was used to decipher it, it would depend on who had the more profound level of Heavenly Dao.

There were many creatures in the universe, and the big skin spell was used to perfectly blend in with the group and instantly transform into the appearance of the creature you had seen without revealing any flaws.

“In other words, the ancient whale that has been guarding our Sun family’s ancestral land all this time might not be a real spirit whale?”Lotus Sun asked telepathically.

“Ling Zhenren’s analysis can’t be wrong. It’s very likely that this is the case, Miss Sun. Think about it, how many spirit beasts on Earth can comprehend the Heavenly Dao?”

Immortal Toya replied, “And I have a feeling that this ancient whale isn’t a spirit beast. Maybe it’s a holy beast or a divine beast.”

While everyone was discussing in the group’s voice chat, Mr. Hidden Fox suddenly cried out in alarm, “Attention everyone, a life signal has appeared!”

On the radar screen in front of them, there was a high-speed moving creature that seemed to have descended from the sky and was rapidly approaching their submarine.

The light spot was moving too fast, and people couldn’t help being on guard.

Seeing this, Wang Ling almost instinctively used the hexagram array to continue controlling the sea ape outside, planning to counterattack against the creature that was flying at high speed.

When the creature approached, Mr. Hidden Fox’s eyebrows instantly shot up. “This is...”

He rubbed his eyes to make sure that he wasn’t seeing things; it was a huge golden conch that was speeding toward them!

Why was there a huge golden conch flying toward them at this time?

Before he could figure it out, Wang Ling was already about to make his move.

Just as he was about to raise his hand and cast a spell to restrain this creature that had suddenly attacked them, lotus sun suddenly grabbed his wrist, he hurriedly sent a voice transmission. “Student Wang Ling, wait a minute... I keep feeling that this huge golden conch looks a little familiar...”

These words reminded Wang Ling.

Immediately after, he scanned it with his spiritual sense and was instantly stunned.

“It’s old Mister Sun,”Wang Ling replied, and at the same time, he secretly heaved a sigh of relief.

It was a good thing that Lotus Sun had recognized the origin of this golden conch; otherwise, although his attack just now wouldn’t have directly taken Sun Yiyuan’s life, he was afraid that he wouldn’t be able to keep this golden conch.

He should have been more cautious. It was just that Sun Yiyuan had come too suddenly. In addition, he had been thinking about the problem just now, so when he saw the enemy approaching, he had subconsciously planned to protect the submarine and hadn’t been able to use his spiritual sense to carefully identify it.

“Grandpa... Why is Grandpa Here?”Lotus sun almost instantly became nervous.

“It seems that old Mister Sun already knows that we’re trying to find the Sun family’s ancestral land,”immortal Toya said.

“Then what should we do?”

“Don’t be nervous, Miss Sun. Let’s take it one step at a time.”

“Okay.”

Lotus sun nodded, but at the same time, she sent a voice transmission with lingering fear. “By the way, did student Wang Ling almost kill my grandfather just now?”

Wang Ling:”...”

The next second, Sun Yiyuan’s face appeared on the submarine’s glass screen with a bang.

Grandfather Sun’s hair was completely scattered by the seawater, and he looked like a water ghost, his slightly swollen face and octopus-like feet were stuck firmly to the submarine’s external image recording equipment. “Rong Rong, it’s me, I’m your grandfather... quickly let me in...”

Lotus Sun:”...”

Wang Ling:”...”

As expected, this old man Sun was a comedian..

Chapter 2033 2,029 On The Double Standards Of The Leader Of The CP (1/86)

It was clear that grandfather Sun had come all the way here because he was worried about Lotus Sun’s consolation. He had even risked the unknown risks of the seabed to quickly dive down in search of Lotus Sun’s spirit energy, this spirit of protecting his son was truly touching.

In fact, Sun Yiyuan was full of doubts because he knew that Lotus Sun had taken leave from No. 60 high school today and said that she was going for special training for the war sect, but why had she suddenly used a submarine to search for the other ancestral lands of the Sun Family?

Could This also be part of the special training?

But after entering the submarine, the old man saw the scene in front of him and started to imagine it in his mind. “Why is the cave immortal here? Could it be that he brought student Wang Ling and My Rong Rong to the deep sea for special training?”

Immortal Toya bowed respectfully to Sun Yiyuan and said, “Old Mister Sun, please don’t take offense. This is indeed the special training session I’ve arranged. It was only because he mentioned the story between Grandmaster Lao Jun and the ancestor of the Sun family during the war sect that the two children became curious.”

“Oh, I see.”Sun Yiyuan nodded. As he said, why did he suddenly come to the Sun family’s ancestral land at the bottom of the sea instead of having a good special training in the war sect.

However, after hearing Immortal Toya’s explanation, Sun Yiyuan felt that the reason given by Immortal Toya was reasonable.

After all, he was the descendant of the Old Lord and had an unusual relationship with the Sun family. As the descendant of the Old Lord, Immortal Toya had a fixed seat at the ancestral worship event that was held once every five hundred years.

Just This alone was something that no one else could compare to.

Immortal Toya now had many different identities. In addition to being the island owner of Chrysanthemum Island, he was also the leader of the spirit herbs group of the war sect and a special alchemy consultant of the Huaguo Water Curtain Group.

He was also highly praised in the alchemy industry and enjoyed a special allowance from Huaxiu’s Institute of Medicinal Research.

“Grandpa, I’m sorry. It’s all my fault... I was too willful,”lotus sun quickly apologized. She hadn’t actually thought that Grandpa Sun would come directly here.

After all, Grandpa Sun had no idea of her current true strength. The seabed of Earth was full of many mysterious and unknown risks, so it was reasonable for him to be worried.

“Sigh, it’s actually a good thing for young people to be curious, but they also have to pay attention to their safety, understand? It’s not that the ancestral land isn’t allowed, but it has to follow the procedures and rules,”Sun Yiyuan said with a smile, as benevolent as ever.

“Eh? So people who aren’t of the Sun family bloodline are also qualified to enter?”Lotus Sun asked.

“It all depends on the relationship. If they are good friends and have credentials, of course they can enter.”

Sun Yiyuan said, “Look, isn’t there a pendant passed down from Old Lord on the body of a cave immortal that symbolizes friendship?”

“Eh? What about classmate Wang Ling?”

“You already said that classmate Wang Ling is your classmate. Aren’t you a witness yourself?”

“Is that okay...”

For some reason, Lotus Sun felt that this explanation was a little forced, and then asked, “Then... then what about this Mr. Hidden Fox? Grandfather should also know him, he’s a famous scientist in the Cultivation Circle.”

“Yes, of course I know of him. But he can’t enter.”Sun Yiyuan nodded.

”...”Mr. Hidden Fox.

The name of Mr. Hidden Fox was naturally well-known in the cultivation circle, and Sun Yiyuan had heard of it before.

He had also seen the videos of identifying popular online spirit beasts, but he hadn’t expected that this Mr. Hidden Fox’s real person was actually a hidden fox.

From the looks of it, he must have been possessed after cultivating.

“Mr. Sun... I was rescued by Miss Lotus Sun on this trip, so I accidentally got on this submarine. I wasn’t interested in the Sun family’s ancestral land either. The only thing I was really interested in was that ancient whale.”

“I’m sorry, but you can’t enter either,”Sun Yiyuan said flatly.

“Why? Miss Lotus Sun is also a fan of mine...”

“It has nothing to do with whether or not it’s true. After all, you’re still an outsider.”

“Then isn’t student Wang Ling...”

“Student Wang Ling, I’ve known him for a long time. Moreover, there’s a fated connection between him and Lotus, so he’s my friend from the Sun family.”

”...”Wang Ling.

“Fated connection?”Immortal Toya was also curious. “May I ask, Old Sir Sun, where does this fated connection come from?”

“Look, student Wang Ling’s name and strokes add up to nine strokes, while Rong Rong’s name and strokes add up to nineteen strokes. There are nine characters in all of them!”

“I see...”

Immortal Toya nodded. “Old Sir Sun, do you mean that there’s a fated connection between nine and nine?”

The more Sun Yiyuan spoke, the more he couldn’t hide the smile on his face. “It’s not that profound, but it means long-lasting...”

Immortal Toya could tell that this was the aunt’s smile when the leader of the CP was kowtowing to the CP..

Lotus Sun’s face turned red from all the talking, and she quickly covered Sun Yiyuan’s mouth. “Grandpa... Please, stop talking...”

Sun Yiyuan sighed in his heart.

He had only told the truth, but he hadn’t expected Lotus Sun to blush like this.

He was still a young man, after all.

Unlike when he had chased after Grandma Sun when he was young, he had completely thrown caution to the wind and had even used shameless methods to trick Grandma Sun.

But in Sun Yiyuan’s eyes, it was better not to mention those old things.

He stared at Mr. Hidden Fox in front of him, he frowned and said, “How about this, Dr. Xiao. The ancestral land of the Sun family is indeed an important place in our clan. Indeed, no outsiders have entered it. However, you are, after all, a science scholar who studies the cultivation world. I can allow you to enter the stomach of that senior ancient whale, but you can only stay within the range that I have specified. Don’t wander around casually, understand?”

“My Sun family’s ancestral land is within the Hundred Thousand Mountains in senior ancient whale’s stomach. It’s very complicated. If you walk around casually without anyone leading you, there will be risks.”

”...”this straightforward statement also caused Mr. Hidden Fox to feel a wave of fear.

Because right now, he seemed to have heard an incredible secret..

It turned out that the Sun family’s ancestral land was hidden in the stomach of the ancient whale, and that ancient whale really did exist! What he had seen earlier wasn’t an illusion!

“I really don’t know what to say to old Mister Sun’s support for my research work...”

Sun Yiyuan smiled and hurriedly waved his hand. “Actually, it doesn’t matter because of the ancestral land’s restrictions. When Mr. Hidden Fox comes out of senior ancient whale’s belly later, he’ll forget everything that happened inside.”

”...”Mr. Hidden Fox: “So, the cave immortal and student Wang Ling will also...”

“Oh, they won’t. They’re not outsiders, but you are.”

”...”

Wang Ling hadn't expected grandfather Sun to get involved in this matter either. He had thought that his operation with Lotus Sun and the cave immortal would be quite secretive.

Who would have thought that grandfather Sun would coincidentally think of Lotus Sun, so he had conveniently used the Sun family's spirit energy monitoring device to probe her spirit energy, and had gone all the way to the bottom of the sea.

This was not intentional surveillance by Sun Yiyuan. It was just like when the elders in the family suddenly thought of you and suddenly sent you a wechat message asking where you were and what you were doing. It was just a sign of longing.

After knowing that Lotus Sun's spirit energy signal had appeared in East Ocean, grandfather Sun's first reaction was not to blame Lotus Sun for going to the Sun family ancestral land without informing her, but to worry that his granddaughter had been deceived by someone, or perhaps she had been kidnapped by someone and forced into eastern sea.

Parents had always been very good at imagining things, especially for those who were famous for protecting their children.

Not to mention the Sun family. With his ancestral brain power, Old Man Sun had already finished a whole novel in his head on the way to Eastern Sea.

Although it would be inconvenient to move around with grandfather Sun around, it was a good thing that with his assistance, Wang Ling could use a method that wouldn't harm other sea creatures to find the ancient whale safely.

"Grandfather, do you have any way to contact senior ancient whale?"Lotus Sun asked.

"Senior ancient whale can be summoned using a specific sound wave signal, just like Morse code. "Moreover, this kind of spell has been passed down from generation to generation through the research of our Sun family's ancestors. The sound waves it emits are extraordinary. If the realm is not high enough, the human ear can not distinguish it, but senior Gujing can hear it."

Sun Yiyuan explained, "But in the past, when I summoned Senior Gujing, it was above the surface of the sea. After it appeared, it would directly swallow me into its stomach. It's the first time I summoned it at the bottom of the sea."

As the old man spoke, he gently closed his eyes and saw the magic seal flower in his hand.

After a series of complex hand seals, the old man put his sword fingers together and pressed them against his temples, while his mouth began to tremble and emit a high-frequency sound wave.

Soon, in the depths of the ocean, Wang Ling heard a strange rhythmic sound.

It wasn't exactly the cry of a spirit whale, but the voice of the ancient whale itself was responding to Sun Yiyuan.

It was like a huge island hidden at the bottom of the sea, and when its huge body floated up, its huge shadow directly rolled up the endless sea water.

The enormous sword whales paled in comparison to this astonishing body size. Then, Wang Ling saw the electronic screen in front of his eyes turn black as the ancient whale swallowed it whole.

When the screen regained its brightness, the entrance to the Hundred Thousand Mountains of the Sun family's ancestral land appeared in front of him! It was as magnificent as what he had seen on the bright moon night before.

The core world had been cultivated in his body.

When Wang Ling saw this scene, he instantly understood what was going on.

He put his hand in his trouser pocket and shook it with his finger, completing the seal formation of the "Great blood source spell".

"How is it? Does Ling Zhenren know the origin of this ancient whale?"

In the group voice transmission spell, Immortal Toya asked.

"Mm."

Wang Ling nodded and replied concisely, "It's a mixed-blood kun."

Just as he had guessed, this creature that had used the great skin spell to disguise itself as an East Sea Spirit Whale was a mixed-blood kun, and wasn't even a true ancient whale.., although there was a small amount of divine whale blood in this hybrid Kun's body,. In theory, it was more appropriate to call it an ancient kun!

Wang Ling could actually think of a hybrid kun, but he hadn't expected that the complexity of this hybrid Kun's bloodline was far more terrifying than he had imagined.

Out of the forty-nine bloodlines, apart from one that was a divine whale bloodline, the remaining forty-eight bloodlines contained the bloodlines of almost all the divine beasts of the Kun race born in the present chaos.

So it was very obvious that this senior ancient whale definitely didn't have the power of these bloodlines naturally, but had been artificially created a long, long time ago.

And the Sun family's ancestor clearly didn't have this ability.

The only explanation was that there must be a connection between this senior ancient whale and Dao ancestor Wang! And there was probably a fated connection between the Sun family's ancestor and Dao ancestor Wang.

Furthermore, Wang Ling guessed that the Sun family's progenitor might not know Dao ancestor Wang's true identity.

After all, monks could also act as so many characters in so many reincarnations, so it was naturally not difficult for Dao ancestor Wang to act as someone else.

After everyone got off the submarine.

Sun Yiyuan bowed to each of them in four directions, he said, "This junior is bringing my granddaughter, two friends, and an outsider to visit the ancestral land. We have disturbed senior, and we hope that senior Gujing will forgive us. "This Mr. Hidden Fox will stay on the submarine to guard the house later. His range of activity is limited to a radius of three kilometers, and he will not enter the Hundred Thousand Mountains of our Sun family."

Mr. Hidden Fox:”...”

This was already the nth critical strike he had received in a short period of time.

As a rigorous science scholar, Mr. Hidden Fox had never felt that he was so unpresentable.

However, this was the ancestral land of the Sun family after all. He did not have a good relationship with Sun Yiyuan, so it was normal that he was not qualified to enter.

Although Sun Yiyuan only gave him a range of three kilometers around the submarine, Mr. Hidden Fox felt that it was enough. After all, his goal from the beginning was not to come to the ancestral land of the Sun family, he just wanted to study this prehistoric ancient whale in depth.

Now, not only had he found this prehistoric ancient whale with his own eyes, but he had also swallowed it. For Mr. Hidden Fox, even if he couldn’t figure anything out later, this trip wouldn’t have been in vain.

“I’m sorry to disturb senior ancient whale.”Lotus Sun also cupped her fists and bowed to Sun Yiyuan. She had thought that this senior ancient whale would respond with a specific sound wave.

Unexpectedly, a voice suddenly entered everyone’s ears. It was ancient whale communicating with them in human language. What was unexpected was that.., this senior ancient whale’s voice was not only solemn and deep, but also very magnetic. It was a magnetic subwoofer. “Friend... Person?”

It was just two words, but old man sun immediately reacted. “This apothecary behind us is Old Lord’s successor. As for classmate Wang, I’ve known him for a long time. Is there a problem, senior?”

Sun Yiyuan had thought that Gu Jing would have something to say about Wang Ling’s arrival, so he was very worried.

But in the next second, this senior Gu Jing actually replied with a sentence that he didn’t understand. “I don’t dare have...”

Don’t dare have?

What did this mean..

Sun Yiyuan was confused.

Before he could think carefully, he heard senior Gu Jing speak again. “There are bugs in my stomach.”

“A bug in my stomach?”

Sun Yiyuan was immediately alarmed by these words. “Senior, do you mean that someone has already entered our Sun family ancestral land?”

He was shocked; he had never expected that a real outsider had actually snuck into the Sun family ancestral land!

On the contrary, Wang Ling was very calm about this matter.

He could guess who had snuck in.

And he had already caught the aura of the bright moon night.

Chapter 2035 2031 Transcended Beyond The Three Realms And Was Not Among The Five Elements (1/86)

An outsider had infiltrated the ancestral land of the Sun family.

This was something that had rarely happened in the history of the Sun family.

Although there had been a few incidents of trespassing in history, Sun Yiyuan knew very well that this senior ancient whale had never used the word “Bug”to describe the other party.

This was because those trespassers had never ventured deep into the ancestral land. Some had even been in a coma from the beginning to the end and had not woken up.

The word “Bug”made Sun Yiyuan feel the seriousness of the problem.

This meant that this intruder was trying to plunder the hidden wealth within the ancestral land of the Sun family.

This person was really bold.

Sun Yiyuan snorted in his heart.

After all, the internal construction of the Sun family's ancestral land was mostly built by the ancestors of the Sun family. There were countless ancient formations, traps, and all kinds of magical mechanisms in there. If one was not careful, they might die in there.

Even after Sun Yiyuan inherited the position of the family head, he had to review the ancestral land's blueprint every day to understand the layout of all the traps.

"This person is very dangerous. If he has the guts to invade the Sun clan's ancestral land and walk into the Hundred Thousand Mountains, he must not be an ordinary person. "I hope the cave immortal will protect my two children for me. "The three of you must follow me closely and don't wander around randomly,"Sun Yiyuan said.

"Old Mister Sun, please rest assured. I will do my best,"Immortal Toya bowed respectfully.

At the entrance to the Hundred Thousand Mountains, there was an old stone tablet that looked ancient and full of spirit.

This stone tablet was quite old. It was lifted up by the spirit energy of the ancient array and suspended in the air. It was surrounded by eight ancient locks, as if to prevent the stone from ascending.

On the stone tablet, there were these words: beyond the three realms, not within the five elements.

Lotus Sun remembered that she had heard these words before, and felt that they were very familiar.

That's right, it was a sentence recorded on the last page of the Sun family's group training!

“Did Grandpa progenitor say this sentence? Did he also carve the words on the stone tablet? But it doesn’t seem like it.”Lotus Sun had actually seen the handwriting of the Sun family’s progenitor, it was a type of bold and vigorous handwriting that had a transcendent feeling.

It was the complete opposite of the immortal-like and sage-like temperament on the stone tablet.

Immortal Toya understood it at a glance, and couldn’t help smiling. “It’s not like that, Miss Sun. The words on it were written by My Grandmaster, Old Jun. .”

In an instant, Wang Ling and lotus sun let out an “OH”in their hearts almost at the same time, and it dawned on them.

If it had come from Old Jun, then this type of writing was very normal.

To be honest, lotus sun was quite moved by this kind of friendship, and even a little envious.

What kind of friendship could leave such an inscription on a friend’s ancestral land after they had died.

Er, no, the grandfather of the first ancestor might not be dead yet.

After all, Wang Ling guessed that the Sun family’s ancestor might still be alive, and that he had been planted with a soul.

If these words had come from someone else, Lotus Sun would definitely have taken them as a joke.

“The inscription on this fixed immortal stone was left behind by senior senior senior Jun, Lord Ancestor’s best friend back then.”Sun Yiyuan looked at the immortal stone in the air, and was deep in thought.

“It’s rumored that the ancestor’s grandfather jumped out of the stone?”

“You said it yourself, it’s just a rumor.”. The ancestor was a human, and of course, he was also born of a human. However, this immortal-fixing stone meant a lot to the ancestor. It was said that the

ancestor sat on it to comprehend the Dao. He stepped into the realm of true immortal at a very young age."

"Is the ancestor very strong?"

"The number of ancient self-cultivators is far less than it is now. The spiritual energy on Earth is abundant, and there is no restriction of the International True Immortal Convention. Naturally, his strength is higher than that of modern self-cultivators. Although the number one modern venerated immortal is that Immortal Zhenyuan. But if it was a long time ago, before the modern civilization of the cultivation world was built, there were actually many venerated immortals."

Sun Yiyuan smiled. "Fortunately, the Earth has already been upgraded, and modern human cultivators can finally reach the heights of ancient humans."

The four of them spoke as they walked.

A few minutes later, Wang Ling followed Sun Yiyuan to the entrance of a cave.

This was the first stage of the Hundred Thousand Mountains, called: Another World.

In front of them were a total of three cave entrances.

"As the saying goes, one lives three, and three lives all things. This place is the [another world] of the Hundred Thousand Mountains. After choosing the right one to enter from here, the second stage is six cave entrances. You have to make the only choice from these six cave entrances. If you choose the right one, you can enter the next stage."Sun Yiyuan stroked his beard

"This is... a maze formation? Does it mean that every time you choose the right one, there will be six more entrances, Mr. Sun?"Immortal Toya asked.

"That's right. No matter how many entrances there are, there's only one correct answer. The other caves are all deadly traps."

As Sun Yiyuan spoke, he laughed heartily. “I think that intruder couldn’t even pass the first stage of the Hundred Thousand Mountains in our Sun family’s ancestral land. If we go in this time, I’m afraid we’ll have to collect his corpse.”

“Grandpa, do you remember the sequence of so many caves?”Lotus Sun asked concernedly.

“Of course, I’m the head of the Sun family,”Sun Yiyuan said confidently. Then, he led Wang Ling, Lotus Sun and Immortal Toya into the cave.

After passing through the first few caves, Sun Yiyuan’s performance could be considered smooth sailing. By the time the forty-eight entrances appeared in front of him, Old Man Sun’s mind was clearly in a mess.

“I remember... it seems like this...”

Sun Yiyuan pointed at one of the entrances and said, then looked at the one on the right. “But it seems like this is also a bit like...”

At that moment, Old Man Sun reminded Wang Ling of his friends who were doing multiple-choice questions.

Especially when they didn’t count the answers, in their hearts, almost all of the answers seemed to be correct.

Even if they managed to get rid of two wrong answers with great difficulty, when faced with the final choice, they would often perfectly evade the correct answer..

Wang Ling and Lotus Sun:”...”

Immortal Toya smiled. “How about this junior go in and take a look?”

“Absolutely not. The more caves there are at the checkpoint, the more dangerous the trap will be.”

Sun Yiyuan stopped immortal Toya and smiled as he awkwardly scratched his head.

He looked left and right, and finally took a deep breath. He looked at one of the caves and made up his mind. “Okay! This is it! There’s no mistake! I’ll go in first. If there’s no problem, you can go in again.”

“Yes, Senior.”Immortal Toya bowed respectfully.

A minute later, Sun Yiyuan walked out of the cave, but his shoulder was bleeding, and there was a heaven-cleaving axe on it.

“Grandpa, are you okay? !”Lotus sun exclaimed.

“I’m Fine, Haha. It was just a small accident.”Sun Yiyuan pretended to be calm.

It could only be said that grandfather sun was indeed grandfather Sun. As the head of the Sun family, grandfather Sun still maintained his integrity even when he was hit by a trap.

He pulled out the heaven-cleaving axe from his shoulder, and at the same time, his body released a burst of fiery-red spiritual energy. In an instant, the wounds caused by the heaven-cleaving axe healed at a visible speed.

“I’ve already ruled out one wrong option. This time, there’s definitely no problem!”

It was clear that he was very confident in his choice.

This time, it was Old Master Sun who took the lead in exploring the cave.

Wang Ling waited for another minute.

Then, he saw Sun Yiyuan walk out of the cave with his head covered in blood, carrying a big shining golden sword

Chapter 2036 2,032, Heavenly Demon Disintegration Sword (1/86)

In the end, Wang Ling found that he had still somewhat underestimated the Sun family’s wealth.

Especially when Old Man Sun came out of the cave with a holy weapon-grade treasure sword on his head and his head covered in blood, he even felt a little incredulous in his heart.

Wang Ling could casually forge a holy weapon-grade item, and it wasn't anything extraordinary in Wang Ling's eyes. However, in the eyes of many ordinary cultivators, a holy weapon-grade spirit weapon was something they would fight over.

But the Sun family's ancestor had actually used a saint-level spirit Qi to set up a trap. It was really hard to imagine how rich he was.

Although the foundation of the ancestral land was still far from that of the king's treasure pants, looking at the history of human cultivators, it was indeed astonishing that the Sun family could have such a foundation. They were truly as rich as a country.

Even if future generations didn't have jobs, they could still live extremely well in the peaceful modern cultivation world by using up this foundation.

Therefore, the Sun family group had a rule that all of the Sun family's wealth in the ancestral land would forever belong to the descendants of the Sun family.

The secret meaning was that these wealth must be passed down intact. It did not mean that as long as one ascended to the position of family head, one could legally have the right to control these "Ancestral heritage.".

This was a very wise decision. Not only did it preserve the heritage of the family's ancestral land and allow it to be passed down forever for future generations to learn, it also prevented the Sun family from fighting among themselves to obtain the heritage of the ancestral land.

On the other hand, it also encouraged future generations to work hard and advance in cultivation. There was a saying that one could not be rich for more than three generations. If one only relied on the ancestral land's heritage to survive, it would certainly not be long-term.

From the looks of it now, the Sun family had a long history, and this inspirational legacy from the ancestor of the Sun family was still well preserved.

"Old Mister Sun, Are You Alright?"Immortal Toya saw the bloody Sun Yiyuan and was so shocked that he broke out in cold sweat on the spot.

A saint weapon level plug was actually still alive..

You're the real senior who's courting death!

"It's fine. It's just a small injury. There's no need to mention it."Just like before, Sun Yiyuan's face remained calm. He smiled casually and then reached out to pull the saint sword from his head.

The saint weapon level Saint Sword didn't directly pierce through his head. Instead, it only pierced the tip of the sword into his scalp. Because Sun Yiyuan's body was very dense, he forcefully clamped the tip of the saint sword with his scalp.

Sun Yiyuan pulled out the holy sword, took out a handkerchief, and carefully wiped off the blood on it, then he revealed a surprised look. "Eh? This isn't the Skyfiend disintegration sword recorded in the ancestor's history. It was actually used by the ancestor to set up a trap."

Lotus Sun was curious. "Grandpa, skyfiend disintegration sword? What's This?"

"It was a holy sword used on the ancient battlefield during the ancient cultivation era. It's rumored that a sect unsealed a secret realm filled with evil spirits, allowing those evil spirits to spread out and wreak havoc on the human world."

"These evil spirits have no physical bodies. They will devour the negative emotions of the cultivators and rely on the negative forces to strengthen themselves. Theoretically, as long as they live long enough, their strength will increase infinitely

"In the ancient cultivators'era, the battles between them were never-ending. However, in order to deal with the common enemies, the ancient cultivators were rarely united

"They collectively called these evil spirits Sky Devils, and named them the Sky Devil extermination war."

"Later, it was said that Lord ancestor was the first to create this sky devil disintegrating sword, which was mass-produced by the most powerful sects at that time. When the Sky Devils were stabbed by this holy sword, they would directly explode. That's why it's called the sky devil disintegrating sword."

“I see.”Lotus Sun and Immortal Toya nodded in unison.

Wang Ling, on the other hand, was deep in thought.

The timeline of the cultivation world could be divided into the eternal, the ancient, the ancient, the near ancient and the modern.

From what grandfather Sun had described, the Sun family’s ancestral history could be directly traced back to the ancient times, but Wang Ling felt that this timeline could be extended a little further.

The possibility that the Sun family’s ancestor was an eternal warrior wasn’t completely zero.

Although most of the powerful immemorial cultivators were recorded in the supreme corpse painting by Daofather Wang for protection, a portion of them still managed to escape.

Some of those who managed to escape became the servants of the race in the universe in order to survive. However, it could not be ruled out that there were still some who managed to escape to Earth and became the first batch of cultivators to appear in history.

After checking Sun Yiyuan’s injuries and confirming that the old man was indeed fine.., lotus Sun’s worried heart finally relaxed. “Hey, Grandpa. You’d better think about it again. These two entrances aren’t the same. What should we do next? Do you still remember how to go back?”

“I’m getting old, so there are always mistakes. But it’s really strange. Logically speaking, it should be one of these two holes.”Sun Yiyuan stared at the two holes that had been set up with traps, his face full of doubt.

“Perhaps old Sir Sun didn’t remember wrongly, but could it be that the traps have changed formations?”Immortal Toya asked.

“Changed formations? There are many holes in other grotto-heavens. If we add the change formation mechanism, I’m afraid we’ll be trapped here for the rest of our lives.”

Sun Yiyuan touched his chin. “But I’m sure this old man didn’t remember wrongly... it was one of these two holes, and in the end, there were actually traps.”

At that moment, Wang Ling sighed in his heart and calmly walked into the third cave with his hands in his pockets.

“Classmate Wang Ling, it’s dangerous! You’re too rash to go in like this!”Sun Yiyuan had just shouted when he saw lotus sun follow closely behind Wang Ling.

Immediately after, Lotus Sun’s voice came from inside the cave. “Grandpa, don’t worry, come in. This place is open!”

“It’s open? Am I really too old to Remember?”

Sun Yiyuan had an incredulous look on his face.

After passing through the cave entrance, he hurriedly looked at Wang Ling. He had wanted to ask Wang Ling how he knew which entrance was the correct one.

But when the words came to his mouth, he had an epiphany!

This was student Wang Ling!

The Legendary No. 60 high school mascot!

His luck had always been very good!

It didn’t seem strange that this blind cat had met a dead mouse.

At this thought, sun Yiyuan couldn’t help sighing. “As expected of student Wang Ling, your luck is really too good. This is what we cultivators often call immortal destiny. Talent isn’t enough on the road of cultivation. Luck is also very important, and it’s also a part of strength

“Moreover, student Wang Ling isn’t just lucky; he also has guts! You clearly know that there might be dangerous traps in my cave, but you still dare to walk over by yourself. Rong Rong, you have to learn more from student Wang Ling.”

Lotus Sun couldn’t help laughing. “Grandpa Is Right!”

Wang Ling:”...”

It was at this moment that Immortal Toya noticed something strange.

He looked up at the sky. On the stone wall at the top, which had been illuminated by the eternal lamp in the other grotto-heaven, there was a large pool of blood that was clearly visible

Chapter 2037 2,033, The Mountain-Guarding Knight Of The Sun Family (1/86)

This was a pool of dried blood, but judging from the color of the blood, it hadn’t been formed for too long and was stained with a portion of spirit energy.

Wang Ling had a quick glance and already knew that this blood didn’t come from the bright moon night, because he had already become a weapon spirit, which wouldn’t bleed, once he was hit, spirit energy powder would constantly fall off his body, which could also be called tool crumbs.

In addition to injuries that would cause spirit crumbs to fall off his body, using normal procedures to recycle and destroy spirit energy would also produce spirit crumbs.

In the city’s old spirit tool recycling market, there were spirit tool merchants who recycled these “Tool crumbs”to make brand new spirit tools.

The higher the quality of the spirit tool, the higher the quality of the spirit scraps. For example, if he had shot out spirit scraps on the bright moon night, one gram of these spirit scraps would be worth a thousand gold coins, enough to buy a warehouse full of crispy noodle snacks.

Putting away his thoughts, Wang Ling turned his gaze to the row of holes in front of him.

Seeing this, immortal Toya immediately understood and hurriedly followed Wang Ling’s line of sight. In the end, he found a similar blood stain at the hole.

“It looks like this is a guide. Old Mister Sun, you don’t have to worry about whether you remember correctly. But where did this blood stain come from?”

Immortal Toya half-squatted down and wiped the blood stain with his fingertips. Then, he put it in front of his nose and sniffed it.

A mature alchemist could distinguish the smell of thousands of spirit plants and herbs just by relying on his memory. There was no need to doubt his sense of smell.

“I don’t know what old Mister Sun is thinking. If this junior is right, this blood doesn’t seem to be the blood of an ordinary living creature,”immortal Toya said at this moment.

“It seems that the mountain-guarding knight in the ancestral land has activated it,”Sun Yiyuan said with a slight frown.

“Mountain-guarding Knight? May I ask Old Mister Sun, is this a kind of protection mechanism?”

“That’s right.”Sun Yiyuan nodded. “Since Lord ancestor has the ability to hide the ancestral land in this hundred thousand mountains and set so many traps, of course, we can’t rule out how to effectively defend it if an external enemy insists on invading.”

“The trap is dead, but the person is alive. But it’s unrealistic to always send people to guard it, so the existence of the mountain-guarding knight is also born. From the perspective of modern cultivation, everyone can think of it as a type of battle puppet.”

“I see.”Hearing this, Wang Ling, Lotus Sun, and Immortal Toya all nodded.

Battle puppets had a long history, but they had never thought that they would actually be born so long ago. In the modern cultivation world, it wasn’t difficult to use scientific means to assist in mass production of puppets.

Wang Ling had already seen this in the spirit world trial ground. A large number of golden core stage battle puppets were rapidly formed using electronic software, and they could even be customized to pinch their faces.

But in such a long time ago, when science and Technology weren't so advanced, these battle puppets had to be hand-made.

In essence, the "Ancient divine weapons"created by the tomb god were also "Battle puppets,"but the quality of the ancient divine weapons was clearly higher.

Although they had been beaten up by Wang Ling, they were much stronger than the battle puppets on Earth.

So how strong was the "Mountain-guarding knight"that the Sun family's ancestor had created?

Wang Ling felt that it should be between the ancient divine weapons and the ordinary battle puppets on Earth.

"So this blood comes from the Mountain Guardian Knight?"Lotus SUN's expression was a little surprised. "Grandpa, although modern combat puppets can replicate flesh and blood in their bodies, they're all made using bionic means, right?"? "How did the previous combat puppets do it?"

"By collecting the blood of Spirit Beasts, Holy Beasts, and even higher-level ancient fierce beasts that we've never seen before, and then using a certain spell to achieve the effect."

Sun Yiyuan replied, "Therefore, the mountain-guarding knight designed by the ancestor is extremely powerful, and is a sharp weapon to resist the invasion of foreign enemies. However, under normal circumstances, the mountain-guarding knight can not be easily awakened. His body has a perception array, and under normal circumstances, he will fall into a petrified state. Only when he senses that there is a hostile foreign enemy invasion in the ancestral land will he activate it."

At this point, Sun Yiyuan's expression suddenly turned nervous. He had thought that the intruder who had tried to break into the Sun family's ancestral land wasn't an impressive figure.

But now that the mountain-guarding knight had been activated, the danger was completely different.

That mountain-guarding knight wouldn't even budge an inch when a true immortal invaded..

And now that it had been activated, it proved that the intruder’s realm and strength were above that of a true immortal.

“I’m very sorry, Rong Rong and... Student Wang Ling, I think this tour of the ancestral land is over.”

The more Sun Yiyuan thought about it, the more he felt that something was wrong, and then turned around with an apologetic expression, looking at Wang Ling and Lotus Sun, he said, “For safety reasons, this old man feels that it’s safer to take you out. This intruder isn’t easy to deal with. Even the Mountain Guardian Knight has been beaten up, so the two of them should still be fighting. After I confirm that the danger in the ancestral land has been eliminated, I’ll bring you here.”

This was Sun Yiyuan’s logical thinking as a normal person, and it was for the sake of Wang Ling and Lotus Sun’s safety that he had made this decision.

After all, Old Man Sun didn’t know that one of them was the newly promoted number one golden core on Earth.

The other was a seemingly harmless monster..

“Immortal Toya, I’ll leave the children in your care. This old man will go check on the situation. This old man will send you back to the submarine right now.”Sun Yiyuan didn’t say anything else, he directly took out a teleportation golden talisman from his sleeve and stuck it on Lotus Sun, Wang Ling, and Immortal Toya’s heads.

Then, he circulated his spirit energy and formed a seal with his hands. A white light flashed in front of Wang Ling’s eyes, and he was immediately sent back to the fixed immortal stone that had been engraved with the words “Beyond the three realms and beyond the five elements.”.

“In the end, it still ended up like this.”Wang Ling sighed in his heart.

Although he had been sent back by grandfather Sun, it was much more convenient for him to use his fists and feet without the old man’s accompaniment.

Bright Moon night was a dangerous person.

Wang Ling didn’t know how strong the mountain-guarding knight developed by the Sun family’s ancestor was, but if grandfather sun went in to investigate without knowing anything about it, the old man would probably be the one to suffer in the end.

Grandfather Sun was a good person.

After several encounters, Wang Ling actually felt that he and the old man’s personalities were quite compatible.

He had originally wanted to use a long line to catch a big fish, and save Mingyue Ye’s life so that he could lure out more extraterrestrial beings who were hiding on earth, hostile and malicious.

But now, it seemed that he had no choice but to kill Mingyue Ye.

Because otherwise, as the head of the Sun family, Old Man Sun would definitely make Mingyue ye a new target to kill after this trip to the Sun family’s ancestral land.

“Wait for me here.”

Wang Ling said expressionlessly.

His eyes were calm and unruffled, as if he was a butcher who was about to kill a chicken, afraid that the blood would get on him. As he spoke, he rolled up his sleeves.

Chapter 2038 2,034: Caring For The Elderly Is Everyone’s Responsibility (1/86)

Sun Yiyuan, who was in a hurry to send Wang Ling and lotus sun away, had actually left out one thing: once the mountain-guarding knight was activated, it often indicated that the ancestral land might have fallen into a huge crisis that couldn’t be reversed.

While Sun Yiyuan urgently transferred Wang Ling and Lotus Sun away, he was also mentally prepared to defend the ancestral land to the death. After all, no one knew all the secrets of the ancestral land better than him, the current head of the Sun family.

Following the blood of the mountain-guarding knight in the other world, Sun Yiyuan successfully passed through and was greeted by a glacier filled with wind and snow.

Each of the Hundred Thousand Mountains in the Sun family's ancestral land had its own geographical features, and any type of terrain could be seen here. The glacier in front of him was the "Purgatory of frost"after the "Other world." The temperature was maintained at minus seventy-eight degrees Celsius.

The wind and snow here had a bone-eroding power. Once it touched the skin, it would immediately mix with the power of Ultimate Yin to penetrate deep into the bones. It was a cold that even nascent soul stage cultivators could not withstand.

If those below the soul formation stage did not have sufficient means of warmth and protection from magical equipment, they would be directly frozen into ice sculptures here.

Sun Yiyuan was still wearing the exquisite suit that he had originally participated in the "Songhai city cultivators'representative association". He walked on the glacier with a solemn expression, following the blood stains. As he walked, he took off his coat.

Then, he took off his tie and unbuttoned his white shirt one by one. He stored it all into his storage space, revealing his astonishing and muscular upper body.

It was hard to imagine that this old patriarch of the Sun family was actually a hidden muscular man after taking off his coat. This was completely different from the gentle and gentle image that Sun Yiyuan had always portrayed.

The falling ice and snow covered the back of Sun Yiyuan's head, eyelashes, and beard with frost.

Then.

Boom!

A raging fire started to burn on grandfather Sun's skin.

Flame of the Wise King!

This was the protective effect after cultivating the ACALANĀTHA technique to the highest level. It could resist the extreme cold of-120 degrees Celsius.

When the technique was activated, a special spell effect that was surrounded by a raging fire would appear on the body, just like a venerable who was walking.

Sun Yiyuan exercised his muscles and bones as he walked.

Modern life was too comfortable.

He had not fought for too long.

Due to the fact that he had not switched to such a battle form for a long time, Sun Yiyuan was not used to it.

The intense sounds of fighting in front of him attracted Sun Yiyuan’s attention.

A Ray of light flew across the sky. A knight wearing a silver dragon skin light armor, wearing a silver dragon helmet and holding a large sword in both hands, violently collided with a glacier.

In an instant, the glacier was directly penetrated. After which, the entire mountain collapsed. Endless ice crystals fell from the sky, raining down hail on the spot.

The mountain-guarding knight was directly kicked away. This scene was unimaginable to Sun Yiyuan.

Only at this moment did he clearly see the appearance of the intruder. It was a man wearing a blindfold and a black long robe. There was a crafty smile on his face, his snow-white teeth were especially eye-piercing under the refraction of the nearby glaciers.

It was filled with a dangerous smell..

Sun Yiyuan slightly frowned.

This was a man that even the mountain-guarding knight could not take down directly. Moreover, his body was exuding the smell of natural treasures. He must have eaten a lot of natural treasures after sneaking into the ancestral land of Sun family.

“Even so, Sun Yiyuan is neither servile nor overbearing. He straightened his back and showed his pride as a descendant of the Sun family. “Who are you? How dare you intrude into the ancestral land of the Sun family.”

“I see. This is the ancestral land. I was wondering why there are so many good treasures here.”

Ming Yue ye laughed even more wildly, he stared at Sun Yiyuan. “Old Man, I came here today to tell you. Your ancestral land can change owners. Not only this ancestral land, but even the whale outside will have to be tamed. From now on, this will be my desolate territory.”

After saying that, a ray of light once again came from afar.

This was a huge sword thrown by the Mountain Guardian Knight. Its speed was unbelievably fast.

However, Bright Moon night did not even look at the trajectory of the sword. He directly raised his sword finger and firmly clamped the huge sword.

He chuckled coldly and looked in the direction of the mountain-guarding knight. “One by one, it’s really endless. Taking advantage of my words to launch a sneak attack, you combat puppet, aren’t ordinary at all.”

Bright Moon night naturally saw through the origin of this mountain-guarding knight. No matter how similar the mountain-guarding knight was to a real person, it would bleed and shed tears. It had the same battle logic as a normal cultivator, or even a bit more brilliant, but a fake was still a fake.

It was unknown whether Mingyue ye wanted to show off to Sun Yiyuan, but she didn’t directly attack Sun Yiyuan. Instead, she waved her hand and directly sucked the mountain-guarding knight over from afar.

In front of Sun Yiyuan, she tightly grabbed the mountain-guarding Knight’s neck, she couldn’t stop laughing coldly. “Old Man, do you really think that setting up a toy like this in the ancestral land is useful? But this toy is above the level of a true immortal. From the perspective of an earthling, it is indeed extraordinary.”

Sun Yiyuan’s brows furrowed even tighter. “Your Excellency, you are not an Earthling?”

“Yes or no, it is no longer that important. From now on, I am an Earthling. Furthermore, the future of Earth will be decided by the primeval era.”

As Ming Yueye spoke, he suddenly pinched and twisted off the mountain guardian Knight’s entire head. It was as if he was disassembling a toy, emitting a rampant size, from the head to the limbs.., he directly tore the mountain-guarding knight of the Sun family into pieces.

“I was just playing with this battle puppet and moving around to restrain him. Yet, he naively thought that he could defeat me.”

Mingyue ye helplessly shrugged, and then looked at Sun Yiyuan. “You’re a true immortal, yet you want to contend against me?”

He snorted coldly.

Then, he raised his hand once again and aimed at Sun Yiyuan.

An invisible force was generated from the void. That supreme spiritual pressure that didn’t belong to a dimensional level instantly overflowed down, pressing down until Sun Yiyuan’s entire body couldn’t move.

At the same time, Sun Yiyuan also felt that this force was strangling his neck.

Mingyue ye used the same trick again, intending to use the same spell to suck Sun Yiyuan into his palm.

However, at this moment, he suddenly felt that something was wrong.

For some reason, Mingyue ye found that Sun Yiyuan’s body seemed to have suddenly become much heavier.

No..

It wasn’t that the old man’s body had become heavier, but that there was another force fighting against him.

Who Was it! ?

At this moment, behind Sun Yiyuan, Mingyue ye saw a familiar and terrifying figure of a youth in No. 60 high school’s uniform, who was slowly walking in the blizzard with his hands in his pockets..

At that moment, the fear that came from his soul instantly surged into Mingyue Ye’s heart.

He couldn’t help but curse loudly in his heart.

Why..

Why was it this haunting kid again!

He was simply like a ghost!

Chapter 2039 2035, Bright Moon Night, Don’t Scratch It (1/86)

This time, the situation was urgent, and Wang Ling had no choice but to make a move. Although he was hiding in the snow, Sun Yiyuan still sensed the spirit energy when it surged out.

The old man, who was surrounded by flames, suddenly widened his eyes, his face filled with disbelief.

He felt his neck stiffen, and like a machine, he slowly turned his gaze behind him to see the youngster in a school uniform calmly walking on the glacier with his hands in his pockets.

Wang Ling couldn’t care less now. It didn’t matter even if Sun Yiyuan saw him; Mingyue ye wasn’t an ordinary cultivator on earth, and was a little harder to kill.

After all, her strength was comparable to that of an immemorial.

Under the seal, Wang Ling could at most cripple her with a single palm strike. If he wanted to completely eliminate any future trouble, he would have to use a move that was even more powerful than an ordinary palm strike.

But that kind of one-hit-one-kill move usually caused quite a stir.

Thus, Wang Ling had made ample preparations before he came. This time, Sun Yiyuan would definitely notice that he was different from the rest.

However, with the “Great memory spell”, it actually didn’t matter if he was seen, as long as he could perform a memory swap.

For example, he could swap the memory of Sun Yiyuan seeing him do it for the memory of Odd Zhuo doing it.

In any case, according to this old man Sun’s original imagination, he and Odd Zhuo’s master and disciple positions were reversed, and Odd Zhuo had become his master instead.

So replacing Odd Zhuo was a relatively reasonable option.

But memory substitution was actually risky. Although Wang Ling had already fixed and upgraded many of the commonly used heavenly dao spells, if he used them multiple times, there might still be irreversible side effects.

In the end, it was all because Wang Ling himself was too strong.

Even a true immortal expert like Old Man Sun, one of the few cultivators on earth, couldn’t withstand the repeated whipping of heavenly dao spells.

So after using the great memory spell on Old Man Sun this time, Wang Ling had to record it in private in order to avoid repeated use on a person, which would have irreversible effects.

But now, seeing Wang Ling appear...

The Shock in Sun Yiyuan’s heart was self-evident.

This old man’s eyes were wide open as he looked at him, his face full of doubt. “Student Wang Ling?”

No matter how much imagination he had, it was impossible for him to imagine that Wang Ling’s realm was actually so unfathomable.

He was just a high school student.

Walking in the sun family’s “Frost Purgatory”in the Hundred Thousand Mountains in a normal school uniform like nothing had happened... was this something a normal high school student could do?

At that moment, Sun Yiyuan’s mind was in a whirl, like a snowstorm that was falling all over the place, and he was even starting to feel a little dazed and confused.

Since he had already decided to lay his cards on the table, Wang Ling no longer restrained his spirit energy. He let out a long sigh, and powerful spirit energy seeped out of every pore, melting the surrounding ice on the spot, it turned into a white mist that rose up.

Then, the ice under his feet began to split apart.

Boom!

With a loud sound, the glacier under his feet rapidly split apart in all directions like a Spiderweb!

His spirit energy was extremely powerful, and with just a little bit of it, it directly broke apart the large glacier in this frost purgatory.

Sun Yiyuan was so shocked that he was speechless. The huge tremor on the ground nearly knocked him down; his true immortal level balance had completely lost its balance under Wang Ling’s spirit pressure.

He felt like a duckweed rolling in a fierce wave, completely losing the posture that a true immortal should have.

But now, this old man Sun couldn’t feel any sense of shame at all, because his mind was filled with horror.

Because this just so happened to show that Wang Ling’s realm had already surpassed that of a true immortal!

Otherwise, he wouldn’t have been able to bring about such an astonishing sense of oppression just by relying on spirit energy and spiritual pressure.

What an astonishing realm and strength this was!

With one hand in his trouser pocket, Wang Ling gently touched the old man’s back with his finger. A streak of golden light shot out, which turned into ripples that spread out from Sun Yiyuan’s back and then completely covered his body.

This was a protective golden light.

It was also Wang Ling’s usual way of protecting his friends from harm when he made a move.

At that moment, Wang Ling raised his head and glanced at Mingyue Ye.

He was trying to embed his body into the iceberg behind him to stabilize his body.

However, under Wang Ling’s gaze, this was in the end useless.

With a look.

Mingyue ye fell directly under the heavy pressure, and his entire body fell vertically along the mountain.

He split the iceberg with his face and tore a huge crack in it. Then, he lay on the ice like a toad.

Sun Yiyuan couldn’t help covering his face when he saw this.

Bright Moon night was really too miserable..

The visual effect of directly splitting an iceberg with his face was very painful!

If it had been a normal person, his face would already be covered in blood.

But because bright moon night was no longer a human, a part of his body was directly turned into spirit dust as he split the iceberg with his face.

“It seems that not everyone who isn’t a human can become stronger.”

Wang Ling walked up to Bright Moon night and sighed inwardly.

He had already given bright moon night a chance, but he hadn’t expected him to actually dare show up in front of him.

At that moment, the fear in Bright Moon Night’s heart had already reached its limit. With a roar, he began to use what he had learned all his life, manipulating the terrain to condense the countless ice shards in the surroundings into sharp blades that stabbed at Wang Ling.

Wang Ling didn’t Dodge or evade; he just looked at him.

After a flurry of bombardment, he slowly half-squatted in the midst of the storm of ice blades and looked at bright moon night, who was lying on the ground trying hard to cast a spell. He sighed slightly. “Stop scraping.”

These three words were extremely insulting.

Not to mention that bright moon night hadn’t even reached the Dao ancestor realm yet, even reaching the Dao ancestor realm was only scraping for Wang Ling.

Back then, Peng Xiren had thought that he was invincible at the Dao ancestor realm, but in the end, that kind of damage was still not enough for Wang Ling.

Behind him, Old Master Sun’s expression said it all. His chin was about to fall to the ground, and he could almost swallow an ostrich egg. His entire person was in a daze, he couldn’t think logically at all.

“You killed me... My Master will send others! Those people are more brutal and inhuman than me!”Mingyue ye said, his eyes filled with terror.

In front of Wang Ling, he felt like he had become a lowly paramecium.

This time, Wang Ling didn’t waste any more time talking to Mingyue Ye.

He just slowly got up and aimed his palm at his head.

5% of Lu Ling’s palm.

In the next second, spirit energy gathered in Wang Ling’s palm, and in an instant, it exploded with a dazzling light!

Boom!

A red light cannon shot out from Wang Ling’s palm.

Wherever the light wave from Lu Ling’s palm passed, everything was destroyed..

Chapter 2040 2036:5% Law Ling Palm (1/86)

5% law Ling Palm was a sure-kill skill that was based on the spirit energy Wang Ling possessed in an ordinary palm strike, which could directly pulverize an enemy into powder.

The instant the red light cannon shot out, Sun Yiyuan had already seen an illusion. He felt that what shot out from Wang Ling’s palm wasn’t an ordinary spirit energy cannon.

It was a dragon that had transcended time and witnessed the rise and fall of the universe, and had been born from the most brilliant star..

It had only fused five percent of Wang Ling's spirit energy in his sealed state, but its destructive power was astonishing.

Wang Ling's palm had directly changed the Sun family's ice purgatory.

The glaciers under their feet had all melted, and steam rose everywhere.

Countless icebergs around him melted in an instant, and a large amount of glacial water gathered into a torrent that poured down the cliff along the abyss created by Wang Ling's palm strike.

Even Wang Ling himself hadn't expected that he could actually cause such great damage to the Sun family's ancestral land's ice purgatory by using only 5% of his spirit energy in the sealed state.

Looking at the Abyss in front of him, which seemed to have been crushed by a giant dragon, Wang Ling was at a loss.

Although he knew how to repair the terrain, he wasn't very good at it. If he were to personally repair the damaged map in front of him, not only would he not be able to restore the original appearance of the Sun family's ancestral land's ice purgatory, but he would also be able to directly fix even more bugs, he might even be able to directly fix even more bugs.

There were already enough problems on Earth right now, and Wang Ling was afraid that his cultivation would add another miracle to the Sun family's ancestral land

Fortunately, Wang Ling had already anticipated this situation.

At such a critical moment, it was still up to the key people to make a move. For example, immortal Zhenyuan and Lightning Dharmaraja were a very good combination.

Immortal Zhenyuan had experience repairing planets to begin with, and Lightning Dharmaraja, as the successor of the Divine Thunder Innate God, was essentially a "Welder". With these two people around.., it wasn't difficult to restore this ice purgatory to its original appearance in a short time.

To put it bluntly, Wang Ling was quite embarrassed to have turned the Sun family's ancestral land into this state.

He was just about to turn around and apologize to grandfather sun when he found him lying down in the water.

It was as if the bright moonlight had left in peace, and grandfather Sun had also left in peace.

Wang Ling:"..."

Sure enough, his direct attack had had a huge impact on grandfather Sun.

Even if he was at true immortal level, it was normal for him to be unable to bear this scene in front of him.

In addition, the Sun family ancestral land had been destroyed by him with a single palm strike, which was probably even more unacceptable to grandfather sun.

Wang Ling sighed silently, then raised his hand again and helped grandfather Sun to the side. He then drew the next round of teleportation array on the ground, sending the people who had been arranged beforehand directly here using the array.

Lotus Sun was dumbfounded. "What happened? is grandfather okay?"

Wang Ying revealed himself and crossed his arms. "Don't worry, Grandpa Sun was just scared. Your Lord has already replaced his memory. He'll be fine once old Mister Sun wakes up normally."

"What is this place?"

"It's a space after passing through a different world."

"I didn't expect our Sun family's ancestral land to be so special, to have such a huge steam abyss."

"No, Miss Rong, this steam abyss was created by Ling Ling's palm strike,"said Wang Ying.

"..."

“Before you came, this was originally an ice purgatory; it was a proper glacial world.”

Lotus sun was scared out of her wits, and she didn’t know whether to laugh or cry. “Now I finally know why grandfather fainted...”

But she didn’t blame Wang Ling. After all, in essence, she had destroyed bright moon night to protect Sun Yiyuan.

Understanding this, lotus sun naturally wouldn’t mind this much. She just looked gently at the youth in front of her and asked, “Then student Wang Ling will be in charge of repairing it, right?”

“Mm...”Wang Ling nodded.

“Ling Zhenren has already informed immortal zhenyuan and Dharmaraja; they’re on their way.”Immortal Toya looked at the Abyss in front of him, he couldn’t help smiling bitterly. “I think we should leave this teleportation array here for now. They’ll be directly teleported here by the array later.”

“How about this, I’ll stay here and take care of grandfather. Senior Immortal Toya and student Wang Ling can continue to go deep into the ancestral land. Don’t you still have something you want to know?”

At that moment, lotus sun suddenly suggested, “Grandfather isn’t awake yet, so it’s a good time. It’ll be more convenient for me to stay and take care of him. In addition, I can also lead the way for senior immortal Zhenyuan and senior Dharmaraja.”

“That’s fine. Miss Rong’s suggestion is completely feasible.”

Immortal Toya bowed, he smiled. “Miss Rong, don’t worry. I’ll follow Ling Zhenren deep into the ancestral land, and I’ll definitely remind him to restrain himself so that he doesn’t use too much force again and cause irreversible damage to the Sun family’s ancestral land.”

Lotus Sun also stood up and bowed. “Then I’ll have to Trouble Senior Immortal Toya.”

Wang Ling:"..."

..

To be honest, Wang Ling hadn't expected that old man sun would be so shocked that he would directly faint.

In any case, Old Man Sun's memories were all going to be replaced, so after that palm strike, Wang Ling had already prepared the words to lay his cards on the table for Old Man Sun, but he hadn't expected that after much deliberation.., in the end, old master sun had actually fainted on his own.

Fortunately, after Immortal Toya's thorough examination, old master sun had only fainted because of a huge shock to his soul and a temporary high blood pressure.

As a true immortal expert, this little bit of physical reaction wasn't life-threatening.

However, this indeed gave Wang Ling a chance to go deep into the Sun family's ancestral land.

Although his palm strike had destroyed the ice purgatory, it had definitely caused quite a stir.

In fact, Wang Ling was testing his theory. In the face of such a huge commotion, the person who had been hiding in the Sun family's ancestral land and steadily commanding from behind the scenes might really be unable to sit still and directly surface.

Although the Sun family's ancestral land seemed calm on the surface now, Wang Ling had a feeling that if he went a little deeper, he might really be able to meet the Sun family's ancestor.

But at that time, it wasn't certain whether this sun family's ancestor would still be the original Sun family's ancestor.

With this in mind, Wang Ling Willed Immortal Toya to be directly transferred to his core world.

He had a feeling that the road ahead would be very dangerous. Even if Immortal Toya was Old Jun's successor, he couldn't guarantee that he would encounter any accidents in the Sun family ancestral land.

Thus, he had to protect Immortal Toya.

He could only take it one step at a time.

Speaking of which, Wang Ling hovered in the air, turned into a golden light, and flew up into the air, speeding along the abyss in front of him.

Two hundred kilometers ahead, Wang Ling's King's eye saw an old stone door embedded in the middle of the cliff. Water vapor was condensing on it, and the entire stone door was covered in water droplets.

Clearly, this place had been frozen before the 5% law ling palm had been unleashed.

So, was this the entrance to the next map?

Wang Ling frowned slightly, then touched the handle of the stone door.

In that instant, the surrounding space began to shake.

Countless golden teleportation arrays lit up in the air.

Mountain-guarding knights on stone horses rushed out of the array one after another. They held all kinds of weapons in their hands and charged at Wang Ling in a short moment

Seeing this, Immortal Toya hurriedly sighed. "Oh no, Ling Zhenren. Without grandfather Sun following us, we're defined as Intruders!"
