

Dan God 1001

[Chapter 1001](#)

After Chen Xiang swallowed the Earth Profound Core, he felt as if he had swallowed a volcano, and a large amount of Innate Qi s crazily erupted from his dantian. He activated the Fire god method, and used the fastest speed possible to refine the Innate Qi brought by the Earth Profound Core.

If he wanted to step into the Nirvana tribulation, he would have to condense a core seed, which would require a very large amount of Innate Qi s to condense it. As long as the core seed appeared, the Nirvana Doom would descend, cultivate the Nirvana Doom, and acquire the Power of giving, allowing the core seed to take shape. At that time, the core would be very small, and all he had to do was continuously press in the Innate Qi to improve the quality of the heavenly pill.

Now, he had to pour the Innate Qi into the last formed Heaven Pellet of every Beast statue, and let these Heaven Pellets grow to the Great Perfection Stage, which also meant that he would have to cultivate the current Heaven Pellet to the extreme. The higher the quality of the Heaven Pellet, the more Innate Qi would be stored inside, and once the Innate Qi entered the Heaven Pellet, it would immediately become very strong.

Ordinary immortals would only be able to condense one Heaven Pill, but Chen Xiang was able to condense a dozen of them, and they were all under the Nine Nirvana Tribulation.

The rainbow colored flame thunderclouds had already floated above them, releasing a barrier that would prevent them from escaping. The rainbow colored clouds were surging, brewing the largest Robbery power ...

Although Duan Chong and Chen Xiang did not go through the tribulation, they were here, so after Nirvana Doom sensed him, they would gather more energy while brewing Robbery power. Right now, the ones undergoing the tribulation were Yun Xiaodao and the rest, but Chen Xiang had already eaten the Earth Profound Pill, so maybe by then, he would be able to catch up to his own Nirvana Doom.

"These brats are really crazy. Originally, this was the Nirvana Doom attracted by the six brats after they made their breakthroughs, but now they continue to forcefully break through, and it looks like they can still break through another level, and perhaps even attract another wave of Robbery power. If Chen Xiang also made a breakthrough, he would also attract another wave of Robbery power, but that would only be a tribulation, a fusion of three tribulations."

Chen Xiang had also thought that the fusion of the three tribulations would happen, and the Nirvana Doom would definitely be very terrifying, but this was their way of survival through danger, because even if they were able to pass through the Five elements heavenly fire and tribulation, they would definitely wake up the Heaven Thunder Devil Lord, and at that time, the weak Heaven Thunder Devil Lord would definitely kill them regardless of everything.

But if it was the fusion of the three tribulations, then all the energy extracted would belong to the Heaven Thunder Purgatory. Even if Heaven Thunder Devil Lord was woken up, his power would be weakened a lot.

At that time, Chen Xiang's strength would also increase by a lot.

In another five days, the Heavenly Lightning Fire Tribulations would descend. If Chen Xiang and the others broke through during this period, they might even attract two sets of Robbery powers that were even more powerful.

The Heavenly Thunder Vortex had already stopped absorbing Di Tian's energy, which was very surprising. The Heaven Thunder Purgatory was constantly absorbing Di Tian's energy through this enormous vortex, so why did it suddenly stop absorbing? Furthermore, it had turned into a rainbow vortex, and although the multicolored light was beautiful, it made people feel that it was very dangerous.

In a tall stone tower in Heaven Thunder City, many people walked to the window of a hall and looked at the rainbow colored cyclone that covered the sky.

Lv Qinlian was also very worried about Chen Xiang. Chen Xiang was a very good partner, she said in a low voice: "What happened inside."

Huang Jintian frowned and said: "Seems like this is the Five Elements Heavenly Lightning Flame, one of the ten great tribulations of Nirvana Doom. It will take five days and five nights to prepare."

The Peach Blossom Imperial Land, Chen Martial Continent, Demon Charming Association and the other allied forces were all gathered together. They were waiting here for the Three Realms Talk to begin, in order to prevent sneak attacks from the Feng Clan, so that they would not be trapped inside the tower. This way, even if there were experts attacking them, they would have to pay a heavy price.

"Several months have passed, and they are still able to endure the heavenly tribulation. This is good news," Wu Kaiming laughed.

"That's right, it's impossible for Heaven Thunder Devil Lord to receive this kind of Nirvana Doom. Only they can do that, but the Five Elements Thunder Fire Tribulations are very powerful and make people uneasy," Huang Jintian said as he nodded.

The people outside did not know what happened to Chen Xiang and the others in Heaven Thunder Purgatory, so many people thought that they would be killed by the Heaven Thunder Devil Lord from the start.

Liu Meng'er and Dongfang Xinyue were both Chen Xiang's female slaves. With Master-servant Contract, they could feel that Chen Xiang had not died yet.

Lian Yingxiao shook his head and sighed, "I hope that Ming Dong can live on."

Yao Shumei asked: "Senior Huang, what should we do if Dragon Subduing School's Leader appeared in our midst?"

Huang Jintian chuckled, "If Dragon Subduing School's Leader will really appear, then you will know how to deal with him. He is an extraordinary fellow, in short, my Super Martial School won't have any designs on Dragon Subduing School, I don't want my clan to be exterminated."

Hearing Huang Jintian's words, everyone was shocked, they never thought that Huang Jintian would actually know Dragon Subduing School from the Dragon Subduing School.

She could not see through Huang Jintian. Although the outside world believed that Huang Jintian's strength was only that, but Huang Jintian was now the leader of their small alliance.

Huang Jintian knew that Chen Xiang was Dragon Subduing School of the Dragon Subduing School, he did not know how strong Chen Xiang was right now, but he could still kill people like the Purple Moon anyway.

"If he really appears, you will know by then," Huang Jintian looked at the gigantic rainbow colored cyclone in the distance. Chen Xiang was still inside, and he did not know whether Chen Xiang could make it in time to participate in the Three Realms Talk.

Gu Dongchen pondered for a long time before saying: "I guess this Dragon Subduing School must be a Dragon extinction that cultivates very powerful, which is why he has such a name. Look, the Evil Dragon in the Evil Dragon Graveyard was subdued by him, and the dragon vein underground is his as well.

Chen Xiang glared at him. Chen Xiang was his disciple, so according to the seniority of the disciples, he could still go to the Dragon Subduing School to become an elder or something in the future. Of course, he did not know that there was currently a group of brats that were acting as elders in the Dragon Subduing School.

On this day, the entire Heaven Thunder City was shaken because the Great Clan Elder had appeared here. However, after appearing for a moment, he had disappeared without a trace.

Back then, when the various Rankers had surrounded Evil Dragon Graveyard, Chen Xiang had used the White Tiger's appearance to trick them. Now that the White Tiger could not stay in White Tiger profound Realm and had come out to walk around, it was recognized as such.

With the White Tiger's intelligence, he quickly figured out what was going on and secretly scolded Chen Xiang for using his appearance to flaunt and deceive. He sensed that people were eyeing him and immediately hid himself.

[Chapter 1002](#)

The sudden appearance of the Great Clan Elder of the Dragon Subduing School caught the attention of many big shots of the powers. However, they did not really welcome the arrival of the Dragon Subduing School as most of them wanted to take note of him anyway!

Soon enough, he found out about Chen Xiang's situation. Right now, he could only wait for Chen Xiang to come out as he knew a lot about that Heaven Thunder Purgatory. However, he was not sure if Chen Xiang could still come out.

Inside the Heaven Thunder Purgatory, the sky was filled with rainbow colored clouds and the Robbery power was frantically brewing. All of the power it had drawn came from the Heaven Thunder Purgatory, and in this way, it could effectively weaken the Heaven Thunder Devil Lord. However, if the Robbery power descended, Chen Xiang and the others would have to pay a heavy price.

If they did not do this, there would be no way for them to escape. Furthermore, Chen Xiang had a very high chance of passing this Five elements heavenly fire tribulation!

Five days had passed and the Robbery power did not descend. Instead, it continued to brew, because Yun Xiaodao and the others followed Chen Xiang's instructions, compressed the Innate Qi to its limit, allowing them to hold more Innate Qi in their dantians. They ate the Earth Profound Pills that Chen Xiang gave them, and relied on the large amount of compressed Innate Qi's to surpass their limits!

They thought that once they reached the limit, they would need to cross a Nirvana Doom bottleneck to continue increasing their strength, but this time, due to the immense pressure, they had no choice but to take on another type of challenge, an unprecedented challenge! And now they had succeeded!

They had originally been able to feel the time when the Nirvana Doom had descended, but now it was suddenly delayed, and it was even for ten days. This made them even more surprised, as the Five elements heavenly fire's lightning tribulation had already caused them a lot of pressure, let alone now?

Yun Xiaodao and the others were looking at Chen Xiang, but Chen Xiang still had his eyes closed, and was still refining that Earth Profound Core.

"Elder Brother Shen, if I were to make a breakthrough, what would happen to the Nirvana Doom that I would attract? The six of us only attracted them twice, plus Elder Brother Shen, the abnormal Alchemist, and Elder Duan ... Fuck, can this even be called a peerless great calamity?" Yun Xiaodao muttered.

The last great calamity that Chen Xiang had experienced was caused by a few thousand people, but this time, although there were few, it was a very rare opportunity to do so. The Nirvana Doom that they had to face, was probably not as powerful as the tribulation that Chen Xiang had to face.

Seeing that Chen Xiang's body was trembling violently and the multicolored light was shining brightly, emitting a heat that was even hotter than the rainbow clouds in the sky, Duan Chong and the others' hearts shrunk. After consuming the Earth Profound Pill there, Chen Xiang had already activated multiple divine arts to swiftly refine it, and now that he had formed a Heavenly Core from none of the Beast statue, it meant that he could activate Nirvana Doom!

"Alright, looks like your Nirvana Doom will be much stronger this time, each of you have twenty Relive Dan's!" Chen Xiang took out a jade box and gave the Relive Dan to Zhu Rong and the others.

Chen Xiang had the Relive Dan's medicinal ingredients, but he was still unable to refine them. He had already consumed quite a bit, and after distributing them to Yun Xiaodao and the rest, he only had around fifty pills left!

"And the Five Elements Profound Dan, 20 pills per person, used to recover the Innate Qi!"

These pills were useless against Duan Chong, but Chen Xiang had still given him two Eternal Dan's. These were for saving lives, so whether or not they could successfully pass through the Nirvana Doom would still depend on Duan Chong.

"The reason why we were able to survive the last tribulation is because a group of experts joined hands to resist the Robbery power, while I was only able to survive by hiding by their side! Old Man Duan is very strong, so it shouldn't be a problem for him to hold on to the Robbery power, but that will cause him to lose a lot of energy!"

Chen Xiang now began to explain his plan to deal with Nirvana Doom. "So in the beginning, we shouldn't let Elder Duan go, we should block the Robbery power and protect him! We cannot let Old Man Duan suffer any injuries. No matter what, we must endure until the strongest part of the Robbery power! "

"The Robbery power is usually the most concentrated in the end, and it is also very strong!" Chen Xiang learnt from his experience during the tribulation.

"As everyone knows, there is one more benefit to Nirvana Doom, and that is to test one's strength while at the same time refining oneself in all aspects. Although the Robbery power in the previous stage is also very strong, I feel that we can still endure it!"

Zhu Rong and the others all nodded. Since the last Robbery power was the strongest, they wouldn't be able to block it, so they might as well give it to Duan Ling Tian.

"After we experience our previous stages of Nirvana Doom, we would definitely be severely injured, but when Elder Duan is defending me, we can use this opportunity to restore our condition to its peak, so that Elder Duan won't be unable to withstand it. Then, we can buy Elder Duan some time so that he can use the Eternal Dan s to recover!"

If Chen Xiang didn't have so many high class pellets, he definitely wouldn't have such confidence!

This time, not only did they have to deal with the Nirvana Doom, they also had to deal with the Heaven Thunder Devil Lord escaping the Heaven Thunder Purgatory.

"Elder Duan, this time it's all up to you!" Chen Xiang's expression was gloomy.

Duan Chong nodded his head, "If I can succeed this time, I might be able to make a breakthrough. It's been a while since I've seen how Nirvana Doom are like!"

The rainbow light became stronger, and the released Robbery power became even more oppressive, making people unable to breathe. What was astonishing was that there was actually a layer of purple red clouds above the rainbow clouds, who knew what kind of power it was!

"Is that all you can do for the third tribulation?" Yun Xiaodao frowned: "It feels a little weak!"

When Duan Chong saw the purple-red cloud, his face immediately turned ugly. "That purple-red cloud isn't a cloud, it's an energy that was once known as the Grain force back in the Primordial Era!"

Grain force! Hearing those two words, Chen Xiang's face became even uglier than Duan Chong's, his entire body perspiring in sweat!

"What is the Grain force?" When Zhu Rong saw the expressions of Chen Xiang and Duan Chong, he was shocked. "You two, hold on!"

Chen Xiang said: "You should all know that the array needs Spirit grain to be constructed, and when we set up the array, only the Spirit grain would be carved, using the Spar's power, or the energy in some other things to activate the Spirit grain! But there is a kind of power in the world that is most suitable for activating Spirit grain s. It can completely unleash the power of these Spirit grain s and that is the Grain force! "

This is also the kind of energy that many formation masters dream of. Right now, using all sorts of methods to activate the Spirit grain, we can at most release half of the Spirit grain's power, but if there is this kind of Grain force, then it is fully utilized and the formation it sets up is extremely powerful! "Su Yun said in a low voice.

Duan Chong nodded his head. As the patriarch of the Duan Clan, he was naturally well versed in array formations. They had to frequently break array when robbing tombs, and also had to find a suitable terrain when searching tombs.

[Chapter 1003](#)

Seeing that Chen Xiang was relatively more proficient in array formations, Duan Chong was surprised. Chen Xiang knew so much already, at such a young age, that it was extremely rare. Many people had lived for a long time, yet they were still unable to learn as much as Chen Xiang.

"Then what does the appearance of the Grain force mean?" Yun Xiaodao looked at the purple-red clouds in the sky, which were slowly merging into the rainbow colored clouds.

Chen Xiang looked at Elder Duan and softly sighed, "This means that in the great calamity that we face, a natural Great Formation may appear. In order to strengthen this Great Formation, the Grain force has appeared! Very soon, we will be able to see a few Spirit grain in the rainbow clouds in the sky. They will then form a great array and then, the great calamity will befall! "

Lian Mingdong asked: "So that means that the array is very powerful? What kind of person would he be? "

Chen Xiang and Duan Chong shook their heads. Duan Chong said: "I don't know yet, but it's very possible that it's an offensive great formation.

"Perhaps the Five-coloured Lightning Fire is already the strongest Robbery power, which is why a Grain force appeared and a nature formation was constructed. Doing so would require a large amount of energy to support it and would still consume a lot of power from the Heaven Thunder Purgatory, which would be impossible for the Heaven Thunder Devil Lord to stop all of this even if she were to wake up now." Duan Chong said.

Outside of Heaven Thunder City, many people could already tell that the colossal Heavenly Thunder Vortex had turned into a multicolored vortex because someone was crossing Nirvana Doom inside, attracting the Five Elements Sky, Fire, Lightning and Fire Tribulation.

Now, many people could guess that Chen Xiang and the others inside were not dead, and had even invited the Five Elements Desolation Lightning Fire!

The Avalon of Five Elements' thunder and fire tribulation rarely appeared, unless there were thousands of people gathered here, and coincidentally, there were quite a few who would need to undergo it. But even then, it would at most amount to an unparalleled tribulation of a thousand people, and the Avalon of Five Elements' thunder and fire tribulation still rarely appeared!

The Avalon of Five Elements' Lightning and Fire Tribulation had taken five days and five nights to brew, but six days had already passed and the rainbow clouds had not dispersed. This caused even more

people to guess that the Nirvana Doom crossing was only a day, and the rainbow clouds had not dissipated yet, so everyone believed that the Robbery power was still in the process of brewing!

"Even if they gather more people together, they won't be able to attract such a great calamity, even though there's a powerful old man by their side!" Gu Dongchen looked at Huang Jintian in puzzlement, wanting to see what Huang Jintian knew.

"According to what the Purple Moon Imperial Land people said, the old fellow beside them is very strong, his strength is comparable to the Little Demon Empress!" Yao Shumei said. When Duan Chong made his move, they were not there, and at that time, the people from Feng Clan, Purple Moon Imperial Land and Flying Immortal School had all seen it.

"But that still won't do. Since ancient times, this kind of thing has happened quite a few times in Heaven Realm. I was careless once and entered the range of a junior's Nine Nirvana Tribulations. The Demon Empress shook her head.

"Chen Xiang is a Alchemist, so the Nirvana Doom he has to face is very strong. Furthermore, he is a very heaven defying person, there is a possibility that they might have something up their sleeves. It might even be possible that they dragged that Heaven Thunder Devil Lord along with them when they were undergoing their tribulation!" Hua Xiangyue said.

"If it's about the Heaven Thunder Devil Lord, it's really possible!" Huang Jintian nodded!

The people outside were guessing whether Chen Xiang and the others would return alive. Those ancient powers, who had sworn that Chen Xiang would not stand a chance, were now worried now. They had initially seen a very powerful old man by Chen Xiang's side and were very familiar with him.

The rainbow cloud had been around for ten days. At this moment, Chen Xiang and the others could see the purple-red Spirit grain continuously appearing from the high up clouds.

Chen Xiang and Duan Chong watched intently. They wanted to comprehend something from within, since this was a naturally formed great formation!

"The five elements are incomplete, and lack of metal. There is only wood, water, fire, and earth!" Duan Chong said as he furrowed his brows.

"There's ice in the water, there's wind and thunder, there's fire and thunder, earth and wind, and there's even a group of Spirit grain with many different types of energies fused together. This formation is very simple, but it's also very powerful!" Chen Xiang said.

Duan Chong nodded his head. Although Chen Xiang was simple, that was only for formation masters, so it was actually not simple at all. If one did not have a lot of knowledge on Spirit grain s as a foundation, it would be difficult to discern.

"Why is there no gold? Gold is also one of the stronger of the five types of energy. Chen Xiang asked doubtfully.

"That's right, there should be, adding a few Spirit grain to the mix, could it be that something went wrong?" Duan Chong was also very suspicious about this.

Teng Ying also turned into a bolt of lightning, shooting out from the ground. In an instant, he crashed into the lightning, which burst out with a strong gold light, enveloping the entire area, and the burst of energy caused the ground to split into pieces!

"It's here again!" Chen Xiang shouted. He had just blocked a bolt of heavenly fire lightning and was sent flying by the force, but now, another bolt had fallen. He immediately used his lightning speed to meet it head on, punching out towards the heavenly fire lightning and extinguishing the momentum of the heavenly fire lightning.

"There's more!"

Teng Ying did not attack once, but only used his strongest power. It was only two attacks, and he felt like he was going to die under the continuous attacks of another ranker!

"I'll break it!" Teng Ying flapped his wings, and faced the few strikes of the violent thunderbolts!

Chen Xiang and the others were gathered together, so if the lightning attacks were to fall from the sky, one person would be able to block them!

"Bald Eagle, let me help!" Xv Weilong suddenly jumped, and shot straight towards the Sky Fire Thunder, who was chopping down from the sky. His speed was not slower than Teng Ying at all.

Pow!

Xv Weilong and Teng Ying had actually received two bolts of Sky Fire Lightning respectively. Xv Weilong was a human, the strength of his body was not as strong as Teng Ying's, and the skin on his fists had already been split open, releasing waves of mist.

"All of the power of the fire and earth has been consumed on that huge boulder. And right now, the sky fire and thunder should be created using the thunder and lightning method!" Just as Chen Xiang finished speaking, another wave of wild thunder came crashing down, followed by an extremely terrifying pressure. A black hole suddenly appeared in the middle of the rainbow cloud, where a large amount of terrifying energy was being released from.

"Attack!" Yun Xiaodao, Zhu Rong and Lian Mingdong all leaped into the air to stop the attack of the heavenly fire lightning bolts.

The secret manual's heavenly lightning fire poured down like a waterfall. It was as though a hole had appeared in a world that contained the Thunder power. All of its strength surged out!

Yun Xiaodao and the others joined hands, and displayed extremely powerful strength. Although all of them had varying degrees of injuries on their bodies, they could not retreat at all, and all of the blood in their bodies was boiling, as they viewed this Nirvana Doom as a great enemy!

Two hours of crazy Sky Fire Thunder had beaten them all up until their bodies were charred black, and fresh blood dripped down, but they still stood straight and resisted the ferocious Sky Fire Thunder. Chen Xiang, Duan Chong and the currently recovering Xiao Chou watched intently from below, they were not affected by the Sky Fire Thunder!

Following the disappearance of the final clap of heavenly fire lightning, the world became quiet. Zhu Rong and the other three were already heavily injured, and most of the energy in their bodies had already been used up.

"Eat the Relive Dan and leave the rest to me!" Chen Xiang said, then he stared at the black hole in the middle of the rainbow cloud, which was the heavy center of the array.

The great natural formation constructed by the mysterious Grain force was extremely powerful. If it was Chen Xiang alone, it would not be easy for him to defend against the two waves of Robbery power.

"What will happen next?" Chen Xiang did not dare to let his guard down.

"It's a Heavenly Lightning Flame, and it's even stronger than before." Duan Chong's expression changed greatly. "You must be careful, the Sky Fire Thunder this time is different from last time!"

Chen Xiang had already felt that mysterious and terrifying power!

"It's a lightning formation formed by the Grain force!" Chen Xiang suddenly saw a purple red array that was flickering with lightning descend!

"Motherf * cker, why would such a thing appear?" Chen Xiang's expression was very ugly. This lightning array also had a golden-red thread connecting it with the Five-coloured Cloud. The Five-coloured Cloud would provide power to the lightning array, causing it to become even more terrifying!

[Chapter 1005](#)

Facing this mysterious and terrifying lightning array, Chen Xiang could not dodge it, or else the people below would be affected. Yun Xiaodao and the others had previously resisted a lot of Robbery power s, so they were heavily injured.

Originally, Chen Xiang thought that the Grain force had drawn out a big array and hid inside the rainbow cloud.

When the lightning array appeared, the attacking speed wasn't very fast. It could even be said to be leisurely smashing towards him, and there wasn't any very strong aura around. However, Chen Xiang felt a very huge pressure when facing this lightning array.

There were many profound ancient Spirit grain s inside the lightning array, it contained the power of great dao that caused people to tremble. Chen Xiang's fists filled with Dragon Power, all of them struck towards the incoming lightning array, the power that exploded out while rushing caused the air to tremble.

A pair of fierce dragon fists struck the center of the lightning array ruthlessly, but an astonishing scene happened. Chen Xiang did not destroy the lightning array, and when his strong fists made contact with the lightning array, the berserk Dragon Power inside immediately dissipated.

The moment he touched the lightning array, he felt as if he had hit a soft blanket. The lightning array paused for a moment, then continued to move forward, its speed suddenly increasing as it entered Chen Xiang's body.

"So terrifying," Chen Xiang exclaimed.

"Do you want it to explode inside your body," Duan Chong saw something, his words scared Yun Xiaodao and the others so much that their faces turned green. They could feel the power of the lightning formation if it were to enter his body and explode inside, it would be extremely dangerous.

Chen Xiang did not answer. His body was currently trembling, he was currently channeling his strongest energy to seal the lightning formation that was drilling into his body.

Although Chen Xiang's reaction was fast, the lightning formation still started to wreak havoc in his body.

"Ahhh!"

Chen Xiang screamed in pain, his chest suddenly exploded, causing a blood hole to burst out, a terrifying ray of purple lightning burst out from inside, the purple lightning streaked across the sky, as though there was a purple crack in the sky, the terrifying Thunder power caused people to tremble.

This was not the end yet. Although the lightning array had exploded inside Chen Xiang's body and a large portion of the Thunder power had been forced out by Chen Xiang, there were still many remnants of power wreaking havoc in his body.

Chen Xiang was in so much pain that he started to sweat profusely. He roared in his heart, and activated the few divine arts he cultivated, coordinating with each other to control the flow of the energy in his body, and then completely absorbing the Grain force which was wreaking havoc in his body.

The violent Thunder power had all been forced out by him, and what was left was only the Grain force. It could be said that his flesh had been burnt by the lightning array just now and fused into his body. Then, using his mystical power, he opened the big formation and absorbed the outside energy to wreak havoc.

and the others were extremely worried, they originally thought that Chen Xiang would immediately take out some top grade spirit medicine to recover from, but what shocked them was, not only did Chen Xiang not take any pellets, he even healing the wound himself at an extremely fast speed.

"Be careful, it's coming again," Duan Chong shouted, and was about to attack.

"I can handle it," Chen Xiang shouted. Then, he opened his mouth wide and sucked with force, creating a huge suction force that even the rainbow clouds in the sky turned into a tornado.

Chen Xiang had fused the Devouring magic kungfu and the Dragon Absorbing Water together, evolving it into a Dragon Swallowing the Sea, which was used for a large amount of devouring.

"Come in," Chen Xiang said as he permeated his divine power into the black hole at the center of the rainbow cloud. He sensed many Grain force and then increased his strength, intending to devour all of the Grain force.

The lightning array that flew out was swallowed by him, following that, an explosive sound came out, and a purple lightning bolt shot out from Chen Xiang's mouth. This time, the lightning array did not harm him again.

Duan Chong was startled. If it was him, dealing with the lightning array formed by the Grain force would definitely take a lot of effort, but Chen Xiang actually swallowed it in one gulp.

Chen Xiang had even sucked out a purple-red vapor from the black hole in the rainbow cloud. It was the Grain force that had been hidden in the clouds before.

Chen Xiang was unable to refine these Grain force, and he did not plan to refine them either, this was a power that was specially used to set up the array. These Grain force were all compressed by him like Magical corruption gas, and were stored in a corner of his Dantian.

There were a lot of Grain force, and from seeing Chen Xiang frantically devouring them for so long, they knew it was true. This made Duan Chong and the others gape with their mouths agape.

If he had devoured quite a few Grain force, perhaps he would have been able to weaken their Nirvana Doom this time around.

Just as Chen Xiang was about to devour for an hour, a muffled sound came from within the rainbow colored clouds. Multicolored light flashed and the clouds moved.

In the midst of his surprise, Chen Xiang's reaction was fast and quick.

Bang! With a loud sound, the five-colored lightning was dispersed by Chen Xiang, and one of Chen Xiang's arms was also full of cracks. The sleeves on his arm were also shattered, revealing streaks of blood all over.

"It's about time for me to take action," Duan Chong's face sank. It was obvious that the Five Elements Tribulation Lightning was extremely terrifying.

"Elder Duan, wait, I feel like we can still hold on for a while," Just as Chen Xiang had finished speaking, a blinding multicolored light suddenly exploded above his head, and the entire ground seemed to be covered by this light, causing people to feel as if they were in a space filled with multicolored light, and the center of the light was extremely glaring, making them unable to look directly at it.

Rumble ...

The rumbling thunder came one after another, the momentum was terrifying, shaking the world, a large multicolored cloud suddenly shot out a multicolored lightning, the power was all directed at Chen Xiang, causing people to feel that this rainbow cloud was like an enraged beast, frantically venting its anger at Chen Xiang.

In the blink of an eye, it had all landed on Chen Xiang's body, scaring them so much that their faces paled. This was because this terrifying Five-Colored Lightning seemed to be able to destroy everything in the world.

In that moment, Chen Xiang truly thought that he was done for. He had swallowed a large amount of Grain force, causing the rainbow colored clouds to become angered, but as the countless Five Elements Tribulation Lightning struck over, a gold light suddenly appeared on his body. A powerful golden set of armor appeared, with an imposing manner.

Even though he was protected by the profoundwu diamond armour, he was still struck down by the countless Five Elements Tribulation Lightning and smashed heavily onto the ground.

[Chapter 1006](#)

If he did not have the profoundwu diamond armour protecting him, in that instant just now, Chen Xiang would have been hacked to the point where not even dregs would remain.

This great calamity was not as simple as they had imagined. Although they were all very strong, it was not something they could deal with so easily.

The Robbery power locked onto Chen Xiang and exploded out with a burst of multicolored light. Numerous multicolored bolts of lightning descended from the rainbow colored cloud like a rain, all striking towards Chen Xiang.

Duan Chong waved his hand, and a black crack suddenly appeared on top of Chen Xiang, the extremely terrifying Five Element Tribulation Lightning was sucked into the crack, disappearing without a trace.

"Leave it to me," Duan Chong said and immediately leaped into the air. With a crazy wave of his hands, a black vortex appeared above him, and he released all of his power, pouring it all into that black vortex. At this time, the Five Elements Tribulation Lightning descended once again, and this time, it was even thicker than the previous ones, and the amount was more than the previous one, and it became stronger.

Bang bang bang bang. Waves of wild thunder roared and struck towards Duan Chong, but all of them poured into the black vortex which Duan Chong had released with all his strength.

Chen Xiang crawled up and ate a Relive Dan. He looked at the complexions of Yun Xiaodao and the others and said: "We have to continue.

Duan Chong was indeed strong, the black vortex she had released was as if it had completely cleared up the Netherworld. Countless terrifying lightning bolts poured into it, but none of them made a sound.

-n0ve1、 com "Hurry and dodge," Duan Chong suddenly roared.

Chen Xiang, Yun Xiaodao and the rest immediately sensed the Qi undulations from underground, and immediately jumped away from the spot they were in. Waves of water like violent lightning shot out from the ground, and one of the terrifying lightning struck a huge boulder that fell from the sky, turning it into powder.

"Looks like my previous plan won't work," While Yun Xiaodao was speaking, countless fire bombs shot out from the ground and like vicious cobras, they stared straight at him and flew towards him. Furthermore, countless of them descended from the sky and surrounded him from all directions.

In just an instant, Yun Xiaodao was struck by hundreds of lightning bolts, making it impossible for him to escape. Even if he used his fastest speed to dodge, the lightning bolts would still follow him.

Yun Xiaodao screamed miserably. At the same time, Zhu Rong, Xv Weilong, Teng Ying, Xiao Chou and the others also let out miserable cries. They were all ambushed by a large number of fire lightning bolts from the heaven and earth.

Of course, Chen Xiang was also surrounded, but his defense was extremely strong, and the damage received was reduced to the lowest. Even so, his body was in extreme pain, and he had not recovered from the severe injury caused by the Five Elements Tribulation Lightning.

The Robbery power did not just descend from the sky, it also came from all directions. It could penetrate space, making it hard for people to guard against it.

"Everyone, gather together," Duan Chong shouted, "Come to my side right now."

Chen Xiang and the rest immediately used all their strength to fly up to Duan Chong's side. At the same time, they swallowed a Relive Dan.

Chen Xiang released the profoundwu diamond armour. With the Green dragon demon-slain broadsword in his hand, the Slaughter God's Hand appeared, increasing his strength.[please visit panda\(-\)NOve1.co\)m](http://panda(-)NOve1.co)m)

On the ground, an incomparably large flame bolt suddenly burst forth. With a single glance, one could tell that it was the fusion of thousands of tiny flame bolts. This was because they had all gathered together.

Chen Xiang dove down, held onto the divine blade, and surged forth with all his strength. He used the Canglang Slash on the thick fire lightning that shot towards him from the ground, causing a tsunami of Dragon Powers to appear.

The explosive force was extremely hot, bringing about a wave of heat wave that swept in all directions. Chen Xiang's power was weaker by a level, the hands that held onto the blade were also shaken until they were bleeding, and his body was also struck by hundreds of fire lightning bolts. Only profoundwu diamond armour could defend against it.

Chen Xiang was responsible for resisting the ground that had come from, Duan Chong was responsible for the top, Yun Xiaodao and the rest of the six were responsible for the surrounding, and so they continued like this for more than two hours. Other than Duan Chong, Chen Xiang and the others were also heavily injured, their faces completely pale white, and they had already eaten several Relive Dan s.

This time, the fierce attack of the Robbery power caused them to not even have time to breathe as they continuously attacked them.

"It's going to become the Five Elements Tribulation Lightning," Chen Xiang said with a serious voice. After that the Five Elements Tribulation Lightning came surging from all directions like the previous bolts of lightning, bringing along a heavenly might that seemed to want to destroy everything in the world, as if it was going to destroy the world.

In that moment, Chen Xiang and the rest of the eight were enveloped by the beautiful multicolored lightning. The attacks that were striking towards them were like giant waves of roaring waves, crashing onto them, and from the looks of it, they were merely ants within the waves.

"Persevere! We can persevere," Chen Xiang shouted loudly, the sound of thunder billowing, but his voice was extremely powerful, bringing with it a powerful mental thought, causing Yun Xiaodao and the others' bodies to tremble. They, who could not persevere anymore, the hidden strength in their bodies suddenly exploded, raising their palms, resisting the ruthless Five Elements Tribulation Lightning.

Time passed by bit by bit, and every moment felt like a month had passed. Every moment caused great pain in their bodies, making them feel as if their bodies were about to explode.

Duan Chong and the others were in an even more miserable state, the broken bones in their bodies could clearly be seen. Although Chen Xiang had the protection of the profoundwu diamond armour, his internal injuries were also extremely severe, and many of his important meridians had already been broken.

The feeling of being on the verge of death made him feel like he was in purgatory. They had had countless despairing thoughts in their minds, but in the end, a kind of faith in the depths of their hearts seemed to have an unending stream of power, allowing them to survive the violent lightning tsunami time and time again.

As soon as there was time, they immediately ate the Relive Dan and two of them at the same time. This was because the rainbow colored clouds in the sky had not dispersed, but it had become much dimmer, indicating that the Robbery power was dissipating.

The rainbow clouds in the sky suddenly contracted, causing Chen Xiang and the others' hearts to race. They were worried that some powerful technique or trick would appear.

"It's the Robbery beast," Duan Chong's voice sank as he immediately ate a piece of the Eternal Dan. "You can't deal with it, leave it to me."

Chen Xiang had never heard of Robbery beast before, but he did know about it. It was just that right now, she had no contact with Chen Xiang, otherwise, the Robbery power would be even more terrifying.

"How is the Robbery beast," Yun Xiaodao asked. He ate the Relive Dan and quickly recovered, the exploded bones and flesh on his body slowly grew back, all these Relive Dan were of high quality, they had the effect of living corpses and bones, if not they would not be so precious, and would not be called the divine pellet for tribulation.

[Chapter 1007](#)

Duan Chong did not answer Yun Xiaodao's question because there was no longer any need to reply anymore.

The rainbow colored tribulation clouds gathered together, finally forming a massive bull covered in multicolored fire thunder. This bull's body was the same as a normal bull's, and the most terrifying aspect of this bull was its terrifying body of multicolored fire thunder as well as its two seemingly invincible horns.

"Does this thing have flesh and blood?" Chen Xiang asked.

"No, it's formed from the Robbery power, but it's very strong, and it has a certain amount of intelligence, and normally it appears in a very strong tribulation, but I can deal with it," Duan Chong waved his hand, and a black mist appeared, condensing into a black curved blade.

The rainbow colored tribulation cloud had already turned into a Robbery beast. If they were to kill the Robbery beast, they would be considered to have passed through this great tribulation.

The Robbery beast Fire Bull ran towards Duan Chong furiously, using its head to ram towards him.

Just by running through the air, the bull could split space and even the earth, creating waves of air currents.

Duan Chong held a black scimitar in his hand, and with agile movements, he avoided the impact of the cow-like beast and swept past the cow's back. He even slashed at the cow's back, creating a deep mark, causing a burst of colorful lightning energy to gush out from the cow's back.

Not only that, he also activated the Earth Swallowing Art and started to devour the land around him, turning it into energy to speed up his energy consumption. At the same time, he could also drain the power of the Heaven Thunder Purgatory.

The Robbery beast immediately felt Chen Xiang devouring its lightning energy and immediately rushed towards Chen Xiang. Duan Chong immediately blocked it and threw the curved blade in his hand towards the Robbery beast.

When the Robbery beast sensed him, it turned its head fiercely and opened its mouth, allowing the blade to enter into its mouth. It then rushed towards Duan Chong, with its foot stepping on the air, it unleashed a terrifying force, showing how furious the Robbery beast was.

Obviously, Duan Chong had dealt with Robbery beast before, so he knew about the habits of these Robbery beast. Seeing the Robbery beast rush towards him like a bolt of lightning, he avoided it cleverly, and the Robbery beast thought that it could crash into Duan Chong.

A black curved blade appeared in Duan Chong's hand. It was clearly condensed from energy, but it was extremely terrifying. It easily cut open the Robbery beast's back and tore open a hole, allowing the energy to spill out.

"Elder Duan is exhausting his energy," Chen Xiang said. If his dantian was strong enough, he really wanted to swallow this Robbery beast.

Now, he had devoured another wave of Robbery beast's power, making him feel that his Fire Dan Tian could no longer hold it, causing him to stop using the Earth Swallowing Art. Furthermore, refining the Five Elements Heavenly Lightning Fire was extremely difficult, but if he refined it, he would be able to obtain a very powerful energy.

"If we can pass through this Nirvana Doom, we can be considered to have passed through the fifth tribulation," Yun Xiaodao said.

"What? I've only transcended four tribulations?" Chen Xiang was a little surprised, he never thought that Yun Xiaodao's strength would increase so fast.

"Hehe," Yun Xiaodao laughed smugly, but when he thought of Chen Xiang's terrifying fighting strength, he sighed in his heart.

"Younger Brother Shen, if we were to pass through Nirvana Doom, how do we get out?" Zhu Rong asked.

"The space of this Heaven Thunder Purgatory is much weaker now, I thought that I would be able to break it open and teleport us out, but I would have to pay a huge price, maybe I will destroy one of my treasures," Chen Xiang said with a sigh. Luotian Gate were extremely useful objects, and now, he could only sacrifice them.

Duan Chong fought with the raging bull, sometimes he would cut off a horn, but this Robbery beast could quickly grow another one.

The Robbery beast's attacks were extremely terrifying, and it had attacked Chen Xiang and the others multiple times, but they were all avoided by Chen Xiang and the others. At this time, the flames on the Robbery beast's body were becoming weaker and weaker.

"Fortunately you devoured a lot of Grain force, otherwise this Robbery beast would have killed us long ago. This guy doesn't have any arrays on him, his strength is much weaker," Duan Chong said as he weakened the strength of the Robbery beast. This required a lot of time, and this was the last remaining Robbery power.

"Elder Duan, leave it to me, I will refine this fellow into a pill," Chen Xiang said hastily. Furthermore, he also released a Magic method furnace that could accommodate this cow.

"This is not easy, this cow is not easy to deal with. You have to at least make it behave, only then can you concoct pills," Duan Chong said as he shook his head.

"Beast Trapping Technique," Chen Xiang shouted in his heart, and the Magic method furnace immediately covered the Robbery beast, but it was quickly broken by the Robbery beast.

"It won't be that easy, I'll weaken this guy first." Duan Chong continued to use his scimitar to "cut" the Robbery beast's power out.

Chen Xiang took a deep breath: "I will try again, I will use my strongest power."

Earlier, he only used some divine power to test the Beast Trapping Technique. The Beast Trapping Technique was inside the Heavenly Alchemy, and it was used to suppress and burn powerful beasts.

This time, he used all of his divine power to unleash the Beast Trapping Art.

The Magic method furnace covered the mad bull that was rushing forward, following that, a gold light flashed, and the cow smashed into the translucent golden wall of the Magic method furnace, causing the Magic method furnace to tremble, causing the entire ground to shake as well.

Duan Chong, Yun Xiaodao and the others were stunned, they never thought that Chen Xiang was really able to control this ferocious Robbery beast, what made them excited was that this Robbery beast might really turn into a pill.

Chen Xiang gave a low laugh as a strong wave of Heaven fire emerged from his palms. After entering the Magic method furnace, he used the method of burning on the Heavenly Alchemy to make it even more intense, otherwise, it would be difficult to incinerate this Robbery beast formed from the Heavenly Lightning Fire Robbery power.

Duan Chong heaved a sigh of relief and wiped the sweat off his forehead, but he did not slacken his pace, because the Robbery beast was still rampaging inside, and with every clash, it would release a powerful force, causing people to be worried that the Magic method furnace would be scattered.

However, Chen Xiang was confident that he could stabilize it, but he exhausted a lot of God Power, because the Beast Trapping Technique consumed a lot of God Power.

"Bastard, don't even think about resisting. You wanted to destroy us, but who would've thought that we would end up like this, right?" Chen Xiang said with a cold smile.

Duan Chong and Zhu Rong were speechless. Chen Xiang, the crazy pill refiner, had actually refined the Robbery power, which was a very heaven defying action. They felt that since ancient times, only Chen Xiang had ever done such a thing.

Only Duan Chong knew that Chen Xiang was using the Heavenly Alchemy, able to refine everything in the world. Chen Xiang had only grasped a little bit of it now, and it had become so strong.

The Magic method furnace shone with a rainbow light. The Robbery beast no longer charged towards the Magic method furnace and the Robbery power on its body started to dissolve. Under Chen Xiang's miraculous refinement, it turned into a pure rainbow energy and rushed into the Magic method furnace's head. It looked like the Robbery beast would condense into a core very soon.

"Motherf * cker, this is truly a good item. Just a few more will do," Chen Xiang could feel how great the five-colored energy was.

"Do you want it or not, it's time to condense a core," Chen Xiang said to Yun Xiaodao and the others.

Yun Xiaodao and the others looked at each other, then shook their heads.

Duan Chong sighed: "This kind of thing is better left for you to eat."

"We are afraid that we can't take it. Although it looks good, it must be terrifying," Chen Xiang did not expect the big foodie Zhu Rong to actually say such nonsense.

He split the Rainbow Swirl into two balls. He planned to give Long Xueyi one, after all he had pushed the big milk dragon away from the soul previously, so he had to give her some compensation or something.

[Chapter 1008](#)

When they saw this scene, many people became worried, because this continued for a very long time, which meant that Chen Xiang and the others could very likely pass through Nirvana Doom. If Chen Xiang did not die, then they would definitely return and fight against the ancient powers.

"The Power of giving is here, it feels a lot!" shouted excitedly. As long as he made a breakthrough, he would be able to obtain the mysterious Power of giving.

Yun Xiaodao and the others immediately calmed down and refined all of the energy. Chen Xiang continued to refine pills as he fused the Power of giving into the five Heaven Pellet embryos, forming the shape of the Heaven Pellet.

"Hehe ..." There's something good to eat again! " Long Xueyi laughed sweetly, as if she did not remember what she did in Chen Xiang's Divine Sense Sea at all. Furthermore, she did not tell Su Meiyao and Bai Youyou about what had happened.

"Little Naughty Dragon, when are we going to make a real move again?" Chen Xiang joked.

"Humph!" Long Xueyi said: "Don't worry, once you have mastered Yulong blood, this Dragon Emperor will definitely harvest you!"

After they went through Nirvana Doom together, their vitality were greatly injured, but the benefits they received were not small, especially for Yun Xiaodao and the rest, they had broken through multiple times and their cultivation had surpassed Chen Xiang's. Only Duan Chong did not have any gains, because he had went through Nirvana Doom long ago, but when he looked at his face, it was filled with a kind smile.

After Chen Xiang entered the Heaven Thunder Purgatory, he went through three stages of Nirvana Trials and four stages of tribulation. After going through the third tribulation, he was wrong and wrong, and was able to use the Celestial Slain Method to fuse with the Robbery power, and he even managed to cultivate a Heaven Pellet ahead of time. During the fourth trial, even though there were many dangers involved, and he was completely tormented by the Robbery power, but in the end, they were able to endure through it.

These Grain force were precious treasures to formation masters. At that time, he had swallowed quite a bit, and it could be said that he had taken away ninety percent of the Grain force within the rainbow colored tribulation cloud.

Chen Xiang had previously used the Heavenly Alchemy to refine pills, so he was already very familiar with the way to refine the Robbery beast. Hence, it was very smooth and quickly formed two rainbow-coloured glittering pellets, which he then immediately gave one to Long Xueyi who couldn't wait any longer. After scooping the pellet into his hands, he excitedly licked it a few times before putting it into his mouth.

Chen Xiang did not eat it immediately. He still had to refine some Power of giving s and condense the fourth pellet from each Beast statue.

Inside the Heaven Thunder Purgatory, the sky was still covered in red clouds, which looked lifeless. After the great calamity before, the Heaven Thunder Purgatory's energy had weakened a lot, and her spirit energy had thinned out, causing the space to become much thinner.

Chen Xiang was confident that he could leave the Heaven Thunder Purgatory after absorbing the Power of giving!

They were all worried that the Heaven Thunder Devil Lord would wake up. Such a big thing had happened here, as the master of this place, it was impossible for him not to know about it.

However, what made them feel at ease was that even though they had stayed here for half a day, the Heaven Thunder Devil Lord did not make any movements. At the moment, Chen Xiang had already completely absorbed the Power of giving, so his cultivation method could be completed quickly.

But Yun Xiaodao and the others could not do it, they had to cross Nirvana Doom twice in a row, there were a lot of Power of giving s, so Chen Xiang reckoned that it would take them at least ten days to complete it!

"If we go out now, we won't affect you, right?" Chen Xiang said, he was worried that the Heaven Thunder Devil Lord would wake up if he continued to stay.

"Mm, let's go now. It won't hinder us." said, Xiao Chou and the others nodded immediately, leaving this damned place was something they wished for the most.

Chen Xiang looked at Duan Chong and said, "Elder Duan, let's go together!"

Duan Chong looked around at the scarred Heaven Thunder Purgatory, sighed, and nodded.

Although the Heaven Thunder Purgatory's space had become a lot weaker now, if he were to open a spatial door, it would definitely cause damage to the Luotian Gate and if it became serious, it would not be used anymore.

He transferred the power of the spatial bead into the Luotian Gate and let the ring on top of it spin, forming a very powerful formation. It fluctuated the space around it, and then opened a spatial door.

"Don't even think about leaving!" Heaven Thunder Devil Lord's angry shout came out.

Chen Xiang saw a yellow-skinned, skinny man with a body like firewood in the distance. He wore a black robe and carried a black gale as he flew towards them at a very fast speed.

"Hurry up and leave! Leave this place to me!" Chen Xiang shouted to Duan Chong and the others.

"Quick!" I can deal with him! " Chen Xiang's body suddenly released a white mist, the dense dragon aura caused people to tremble, his current Dragon Power was even more terrifying, it made people feel like he was facing an Ancient Giant Dragon.

Yun Xiaodao and the others were hesitating, but Duan Chong's face was filled with determination, it seemed like he did not plan to step into the spatial gate.

"If I don't leave now, I won't have a chance. If no one can leave by then, I won't die!" Chen Xiang looked at the Luotian Gate that was cracking open. "Dragon Subduing School cannot lack you!"

Chen Xiang looked at Duan Chong, that gaze could not help but make Duan Chong's mind tremble, as though he had seen something!

"Elder Duan, I'm counting on you!" Chen Xiang replied back, "I have profoundwu diamond armour on me, you don't have to worry about me!"

"Let's go!" Duan Chong clenched his teeth, released a wave of power, and pushed Yun Xiaodao and the others into the dimensional door. In that instant, he also followed them out!

At the same time, the disk in Chen Xiang's hands shattered. The Luotian Gate turned into powder, and the angry Heaven Thunder Devil Lord also arrived at the same time.

Chen Xiang borrowed Long Xueyi's power to instantly increase his own by a lot, and quickly struck out with a palm, striking the blood colored ball of light that was brimming with evil and destructive energy.

When the palm came in contact with the blood-red light ball, the evil power suddenly exploded, creating a burst of blood-red clouds that covered an area of thousands of meters. Evil energy surged in all directions, and the sound was like thunder.

"Humph!" let out a cold snort, his body releasing a pure gold light, the Devil-suppressing holy power cleansed the blood red evil energy, and even though he was shaken by the power until his hair was in a mess, he still stood there as steady as a mountain.

Heaven Thunder Devil Lord's originally handsome face had now become the same as Heaven Thunder Purgatory's. It was deathly still, and shriveled and bloodless, looking like a dried up corpse, which was a bit scary.

Chen Xiang had refined so many huge mountains and swallowed so much land before that it had even triggered a great calamity and extracted the power of many Heaven Thunder Purgatory, resulting in his current appearance.

This was exactly as Chen Xiang had speculated before. Heaven Thunder Purgatory and him had a very close relationship!

"Your strength has regressed a lot!" Chen Xiang revolved the Devil-suppressing holy power in his body, to remove the Evil Qi that wanted to turn him into an evil being. The main purpose of the Heaven Thunder Devil Lord, was to use this power to turn him into an evil being.

"I can still kill you. Originally, I planned to wait for those few brats to absorb the Power of giving before making a move. That way, I could obtain a lot of energy. Heaven Thunder Devil Lord said angrily: "I will eat you little by little! "Although you are the only one left, it seems that your nutrition is sufficient for me to return to my original appearance."

[Chapter 1009](#)

Chen Xiang summoned his Green dragon demon-slain broadsword, he had just broken through and his strength had increased by a lot, but the Heaven Thunder Devil Lord in front of him had regressed a lot. He wanted to try and see if he could kill this Heaven Thunder Devil Lord, otherwise, he would not be able to leave this place.

"Do you think the old man can get out of here?" Those little ghosts can do it, but that old guy was cursed by me with his power. I think that when he enters the Space Gate, he will definitely be sucked into the other chaotic spaces, haha ... "

Chen Xiang was immediately enraged, he shouted "Elder Duan" in his heart and slashed towards the Heaven Thunder Devil Lord, bringing with him a overflowing Devil-suppressing holy power, the divine blade was like an angry golden dragon's roar!

At this time, Chen Xiang had brought out the complete might of the Angry dragon slay. The aura that it had exploded out was like hundreds of angry dragons shaking their heads, bringing with it the power to overturn rivers and seas.

This blade was fast and fierce, with the roar of an angry dragon. The previously laughing Heaven Thunder Devil Lord was also stunned, and when that imposing aura enveloped over, he truly felt as if he was facing an angry dragon.

"You want to kill me? You're still too inexperienced!" Heaven Thunder Devil Lord reached out with his devil hands and grabbed the blade edge that carried the divine blade. Although the Devil-suppressing holy power on it made Heaven Thunder Devil Lord feel uncomfortable, even to the point of him feeling uncomfortable, but he was strong, and would not be harmed by it.

Chen Xiang's fierce and furious slash was suddenly stopped, and was actually blocked by Heaven Thunder Devil Lord!

"I will definitely kill you!" Chen Xiang roared, a burst of golden Devil-suppressing holy power gushed out of his mouth, forming the word "suppress".

Seeing the unfathomable power of the word "suppress", Heaven Thunder Devil Lord's face turned serious. He anxiously let go of Chen Xiang's Green dragon demon-slain broadsword and dodged the word "suppress" from the side. The power of the word was too strong, so he did not dare to recklessly block it.

But the Heaven Thunder Devil Lord underestimated Chen Xiang's control over the Devil-suppressing holy power. The moment he dodged, the word 'suppress' was immediately retracted by Chen Xiang, and he stepped on the Shrinking step, rushing towards the Heaven Thunder Devil Lord!

"Demon, die!" Chen Xiang suddenly summoned his Holy Devil-suppressing seal, released his strongest Devil-suppressing holy power and poured it into the Holy seal, causing it to become like a small mountain, suddenly smashing down from the sky and pressing onto Heaven Thunder Devil Lord's body.

The huge seal pressed down, it was as if it had wounded the whole land, causing several deep and unfathomable cracks to appear on the ground.

Heaven Thunder Devil Lord roared out, he had actually blasted away the Holy seal, and leaped into the air. His face was filled with rage, because his head had been smashed so hard that it had caved in.

"I will cut your flesh off bit by bit. I will not let you die comfortably." The Heaven Thunder Devil Lord said in a sinister and terrifying voice. Suddenly, many black bats appeared in the sky, and like a black cloud, they floated over from all directions, enveloping the entire sky!

Heaven Thunder Devil Lord raised one of his arms high up in the air. Countless bats swooped down towards his arm! His arm was like an endless abyss. When the bats came into contact with his arm, their skin and flesh would turn black, just like liquid.

Chen Xiang released the Devil-suppressing holy power, wanting to use the light rays to disperse the bats, but to no avail. Only after that did he realize that these bats were not real bats, but rather, a type of power that could transform into bats.

Heaven Thunder Devil Lord's skin suddenly turned black, his teeth grew longer, and a pair of bat like wings appeared on his back. His eyes turned red, making him look extremely evil, the Evil Qi on his body became even more violent, even if it was a True Martial Realm warrior, facing this kind of Evil Qi, they might immediately lose their mind and go berserk.

Chen Xiang controlled the Holy Devil-suppressing seal to release a huge "Subduing" word towards the Heaven Thunder Devil Lord who was transforming. With an incomparably divine power, he bombarded it forward, as if he could suppress all the demons in the world.

"Hah!" Heaven Thunder Devil Lord roared, a gush of blood surging out from his mouth, blocking the word "stop" from coming over.

Chen Xiang frowned, that word 'control' had actually been pushed back, and with a grasp of the blade's hilt, the Dragon Power and Dragon Power fused together and flowed into the blade's body.

Chen Xiang could tell that he was just a hair's breadth away from killing the Heaven Thunder Devil Lord. Up till now, the Heaven Thunder Devil Lord was still just a spent force and with the support of the Heaven Thunder Purgatory, he had already expended a lot of energy.

"Don't get cocky too early!" Chen Xiang scooping out a piece of Chaos fire, this was the only thing he could rely on.

"Chaos fire!" Heaven Thunder Devil Lord suddenly screamed. He was not afraid, but excited, as his red eyes stared at the Chaos fire in Chen Xiang's hands, filled with disbelief.

Heaven Thunder Devil Lord laughed coldly: "You want to use the protective Sovereign's light to stop me? Then you're completely wrong. Although you can lock me down, you can't kill me during that period of time. I won't die, haha ..."

Chen Xiang felt that his Killing heart had been completely destroyed, and was extremely furious. Just as he was about to merge his blood into the Chaos fire, he suddenly had a very wonderful feeling!

"This is ..." Chen Xiang was shocked, this kind of call was actually related to the Slaughter God's Hand.

At this time, the Heaven Thunder Devil Lord also sensed something. When he sensed the aura, his face actually revealed a terrified expression.

Chen Xiang and Heaven Thunder Devil Lord both suddenly looked towards the sky that was filled with killing intent, because they could clearly feel that the thing was heading their way.

A streak of white light suddenly slid down from the sky, looking like a shooting star. Although it was beautiful, it carried a terrifying killing intent, as if it was a falling star. When it fell from the sky, it actually devoured the killing intent produced by Chen Xiang's broken Killing heart, and it was even for a few short moments!

"This is the Killing-god heart!" Heaven Thunder Devil Lord's sinister face was filled with fear. He immediately threw a few punches towards the white light, the shadows of his punches were like an ocean, like a gale that swept out, charging straight towards the white light that was emitting a terrifying 'killing' force!

Even though Chen Xiang's Killing heart had been broken, he was exceptionally excited at the moment. He could clearly feel that the Killing-god heart was the other half of White Tiger Divine Weapon and when it was borrowed by the Ten Heavens Supreme Lord back then, even the White Tiger found it difficult to retrieve it.

Stepping on the Shrinking step, he used his fastest speed to rush towards the white light, and the white light actually flew towards him!

Chen Xiang could clearly see that it was a delicate heart that was like a white jade that had been refined. It looked so pure and holy, but it was precisely this kind of thing that released such a murderous aura that could intimidate the Snake God Ox Ghost from the Three Realms!

The Killing-god heart flew over extremely quickly, and actually entered Chen Xiang's chest in an extremely bizarre manner. When it came into contact with the blood inside, it quickly fused with Chen Xiang!

In that instant, it was as if Chen Xiang was reborn. The Slaughter God's Hand on his hands released waves after waves of white light, flickering along with the Killing-god heart that Chen Xiang had just merged with. Every time that Killing-god heart jumped, it seemed to give Chen Xiang an extremely powerful strength.

"Great Void Stellar Seal!" Chen Xiang bellowed, his hands danced, as though he was holding something, and it was as if he was using all his strength to smash it down.

A star formation formed by a large amount of small stars appeared in the sky, and following Chen Xiang's hand gesture, it smashed down fiercely. This small star formation was extremely terrifying, when it fell, it produced a force that could lock onto Heaven Thunder Devil Lord.

So when Heaven Thunder Devil Lord dodged as fast as he could, the Great Void Star Seal still appeared on top of Heaven Thunder Devil Lord's head!

Bang! Bang! Bang!

The Great Star Seal that suddenly fell down smashed onto Heaven Thunder Devil Lord ruthlessly. It even smashed a deep hole into the ground, as if the earth itself had been smashed through. Its terrifying power caused Chen Xiang to sigh in shock.

He suspected that the Killing-god heart might have some insights towards the Heaven Earth Killing Method. Back then when the Ten Heavens Supreme Lord borrowed the Killing-god heart from the White Tiger, it was probably to bring out the strongest power of the Heaven Earth Killing Method.

"You actually got the Killing-god heart!" Heaven Thunder Devil Lord's entire body was covered in terrifying purplish black cracks, the flesh on the wound looked extremely disgusting, he had just climbed out of the bottomless pit, and Chen Xiang's move just now had injured him severely.

"This is all thanks to you!" Chen Xiang sneered, and once again used the Great Void Star Seal.

Heaven Thunder Devil Lord immediately flew towards Chen Xiang. He seemed to understand the Great Void Star Seal very well, and thought that if he was to use it, Chen Xiang would not be smashed into it, because it would also affect him.

However, he did not expect Chen Xiang to suddenly disappear, and the Great Void Star Seal to suddenly appear where Chen Xiang had disappeared, rushing towards him! Chen Xiang had used Shadow Shift to change his position from the Great Void Star Seal!
