

Dan God 1021

[Chapter 1021](#)

Chen Xiang did not dare to try again. Just now, his Divine Sense Sea had almost collapsed, the power that could attack the mind was too terrifying.

"I feel that there's a very powerful soul inside the Killing-god heart!" Chen Xiang's expression became much better, "Moreover, he's deep in his sleep, so he's carrying out self-protection!"

"Could it be the soul of the Ten Heavens Supreme Lord?" Su Meiyao shouted in shock.

"No, I have to think of a way to get that soul out, otherwise your soul will be devoured!" Bai Youyou's face changed, he felt that this was not a good thing.

"It isn't from Ten Heavens Supreme Lord. Ten Heavens Supreme Lord made a great sacrifice in order to cut off contact with the Green dragon demon-slain broadsword. Her soul should have been destroyed long ago! I have come into contact with the Heaven Earth Killing Method and the Lion Mountain's stone tablets, I understand this very well!" Chen Xiang revealed a pondering look.

"When I see White Tiger, I must ask him clearly and get him to think of a way to get the soul of the Killing-god heart out. I always feel like it's a disaster." Bai Youyou's voice was ice-cold, and she had a bad premonition in her heart.

Previously, the White Tiger had said that the Killing-god heart was following the Ten Heavens Supreme Lord and should not appear inside it. However, after Chen Xiang's Killing heart shattered, the Killing-god heart suddenly appeared, making people feel that it was not a coincidence!

"Forget it for now!" Chen Xiang was currently very tired and needed to rest. In any case, he would soon be able to meet the White Tiger.

Chen Xiang stayed inside the dragon vein for ten days, he did not dare cultivate here, and was worried that he would draw out a large amount of spirit energy, affecting the growth of the dragon vein.

"I keep having the feeling that there is something unspeakable going on in Three Realms Talk!" Bai Youyou suddenly said, "With my understanding of the Demon and Devil Realms, they shouldn't be able to compromise so easily. I think you should ask that Demon Empress or Ji Meixian! I feel like those ancient powers are plotting something."

"There are not only Human Realms in the ancient powers, there are also Demon and Devil Realms. In the three realms, the ancient powers are the strongest as well. If the ancient powers of the three realms calmly sit down and negotiate, that would mean that they are planning something and then bringing in some of the other powerful forces."

Su Meiyao said, "Didn't they say that Di Tian was complete back then, and did not differentiate between human and demon? So they should have had contact back then, and the Ten Heavens Supreme Lord should have been considered a demon beast that could be followed by many humans. It can be seen that many races were very harmonious back then!"

Chen Xiang also felt that there were still many things hiding in this world. For example, when the Three Realms Talk was about to begin, the Heaven Thunder Purgatory appeared, and many experts from the

Heaven Realm came down regardless of the consequences. It seemed like they did not plan to return, and then, there would be the most powerful peace between the three realms, which was very different from the few times in the legends!

Since the three realms had merged into one, it was reasonable to say that the battle had become even more intense. Now that they were able to sit down and negotiate calmly, everyone felt as if there was a force behind this.

When Chen Xiang came out of the dragon vein, the Dragon Subduing City had become even more lively. In order to ensure that the Dragon Subduing City would not be invaded from the inside, the Transmission array was established outside the city.

The closest to Dragon Subduing City was Pill City. The huge city had become extremely quiet, with only a dozen or so large shops inside. They never thought that there would be a power that dared to oppose the Dan Alliance on this land.

In the past, there were many forces that wanted to build a city near Dan City, but they were all afraid that it would be destroyed by the Dan Alliance, so no one dared to, even if it was a little further away.

Now that they were near the Three Realms Talk, many different forces were busy with various matters. Chen Xiang heard that many different forces would bring a group of people over, and a great battle might even break out. There were many demon armies stationed outside the Heaven Thunder City, and now, many disciples of the different Human Realm powers were all gathered outside the Heaven Thunder City.

This information was all collected by Li Baojun, which made him a little worried, because there were only a few people in the Dragon Subduing School. Although the Earth's Core Race was a very powerful force, it could not shine under the sun.

Inside the City Lord's Mansion, Li Baojun said: "Leader, when the time comes, we can only go alone. If I stay and defend the city, would you be able to go alone?"

Chen Xiang laughed: "Didn't I say we have a very powerful Great Clan Elder?"

Li Baojun was still a little worried: "If only there was someone who could guard the city on my behalf. I want to go with you."

At this moment, a sweet voice rang out, "Leave the defense of the city to us!"

The moment the voice appeared, two beautiful figures appeared. Lan Lan and Yan Yanran slowly appeared, scaring Chen Xiang!

Lan Lan used his Invisibility Inherent Skill and suddenly appeared with Yan Yanran, so Chen Xiang did not notice!

"Can you do it?" Li Baojun understood the strength of these two women very well. Even though they were not bad, they were still lacking to protect the entire city.

"They may not be enough!" This voice startled Chen Xiang. It was actually a White Tiger!

Furthermore, the White Tiger had brought a strong old man with it. That old man was the patriarch of the White Tiger Fighting Race, Bai Zhan!

Chen Xiang calmed down very quickly, and laughed: "Elder Li, this is our Great Clan Elder, you can just call him Clan Elder Bai!"

When Li Baojun saw the White Tiger, his heart couldn't help but shiver. Although the middle-aged man in front of him was very ordinary and didn't have any aura, he still felt a sense of danger! Although Bai Zhan's aura was overbearing, he felt that the White Tiger was even more terrifying.

"Bai Zhan will stay behind to defend the city. Three Realms Talk is more complicated than I thought. As the White Tiger spoke, there was a touch of solemnity between its brows.

Chen Xiang had already guessed what was hidden in the Three Realms Talk, but seeing how cautious the White Tiger was, he was even more sure.

Li Baojun immediately passed some matters on to Lan Lan and Yan Yanran, while Bai Zhan was only responsible for the fight, the patriarch of White Tiger Fighting Race was not an easy person to deal with, even Chen Xiang wanted to see his strength.

Chen Xiang and the White Tiger were in a secret room. The White Tiger spread its hands: "I know you have a lot of questions, so I'll ask!"

"Is the Killing-god heart your former heart?" Chen Xiang pondered for a moment, and decided to ask this question. He thought that it would be strange if he had someone else's heart inside his body.

The White Tiger also thought for a moment before saying, "That's the heart that I've used before!"

"Used it before?" Chen Xiang's face revealed a look of surprise.

"My heart was once torn to pieces by a dragon. At that time, I searched for a long time before finding a strange stone to substitute for it." The White Tiger said.

[Chapter 1022](#)

The White Tiger spoke very easily, but Chen Xiang's heart was in turmoil. It seemed that the White Tiger's heart had actually been grabbed and broken before.

"I've discovered that the Killing-god heart has a very strong soul. Would that affect me?" Chen Xiang immediately spoke out the thing he was most worried about.

"Oh? You actually discovered it? You've only been fusing with it for a few days! It took me a long time to realize it back then, and it was the same for Qi Shi. " The White Tiger was extremely shocked. According to his experience, Chen Xiang wouldn't have discovered it so early.

Chen Xiang was even more shocked than the White Tiger. The mysterious soul of the Killing-god heart had actually existed for such a long time.

"Then how did the Killing-god heart form?" Chen Xiang continued to ask: "Why are there two in White Tiger Divine Weapon?"

The White Tiger stroked its chin and said: "Let's put it this way, at that time, there was a guy who knew that there was a very strong soul within my Killing-god heart. When that guy saw through the origins of that soul, he proposed to refine both the Killing-god heart and the soul into a Divine Weapon."

"You don't need to know who that guy is!" When the White Tiger saw that Chen Xiang wanted to ask questions, it immediately stopped him. Then, it continued: "But at that time, more than half of the mysterious soul in the Killing-god heart was devoured by me and assimilated into my body. That fellow refined my body into the Slaughter God's Hand, then refined that heart into a Killing-god heart! At that time, I gave the Killing-god heart to my first disciple, Qi Shi. I hid it away, and after I reincarnated, I took the Slaughter God's Hand out to wait for others to retrieve it. "

"Why did you give the Slaughter God's Hand to someone else? That was refined from your own body! " Chen Xiang touched his chest. He already knew that the soul inside the Killing-god heart was extremely mysterious and even the White Tiger did not know about it.

"There was another reason why I was reincarnated. It was to get rid of that mysterious soul. At that time, I also felt that guy was very dangerous." The White Tiger said in a low voice.

Seeing the smile that was not a smile on the White Tiger's face, Chen Xiang really wanted to take out the Killing-god heart s. He felt that he had obtained something extremely dangerous, and it was at the location of his heart.

"Hehe, to be honest, Heavenly Alchemy and Heaven Earth Killing Method were both extracted from that stone by me. I feel that the stone is very special, and then I used it to differentiate my own heart!" The White Tiger said again.

"What?" Chen Xiang was shocked yet again, "The Heaven Earth Killing Method was actually spread out from you!"

"That's right, I shared it with the other three guys. Those three guys passed it down to their disciples, and then evolved a lot of powerful martial skills. Many of them could be considered divine skills, but only the lowest ones."

Chen Xiang now understood why the divine arts of the Four-phase Magic Kungfu, Taiji Dragon-suppressed kungfu and those Imperial Dragon Race s were so similar.

"That rock is very powerful! I'm afraid of the guys inside! But you don't have to worry, you're different from me! You already have the three Four Symbols Divine Weapons s in your possession. As long as you collect the last one, you will be able to find out the origins of the soul inside the Killing-god heart! "

Chen Xiang said: "Senior, you should also know that Suzaku Divine Weapon is on Elder Sister Meng'er, it seems like he won't be able to fuse with me anymore. Elder Sister Meng'er and that Suzaku Divine Weapon already have feelings for each other, I understand the relationship between the two of them."

"But I have the Vermillion Bird's skeleton."

The white tiger slightly opened its eyes and said, "Back then, that guy separated the Vermillion Bird's feathers from its bones. He first refined the feathers into Suzaku silk and he succeeded on his first try, so he didn't refine the Vermillion Bird's bones!"

"The Vermillion Bird's bones are for reserve. That fellow is worried that the feather refinement will fail!" I remember he said he was going to make a bow out of the skeleton. " The White Tiger rubbed its nose.

Chen Xiang was very curious about who that fellow was. He actually refined the bodies of the White Tiger and Vermillion Bird? He suddenly thought about the mysterious divine book that had many divine formations recorded within, and Dongfang Xinyue and Liu Meng'er even found the blueprint of a bow!

Now, he was sure that the Divine Book was left behind by the "fella" that White Tiger spoke of.

"Senior, I also have the blueprints, please help me refine the Suzaku bow!" Chen Xiang said excitedly.

"Unfortunately, I'm not that guy. I can't refine it!" The White Tiger sighed: "I also want to know what medicine that guy bought from the bottle gourd. The reason he created the Four Symbols Divine Weapons is to suppress the soul inside the Killing-god heart.

"Find that fellow!" Chen Xiang said again. If he did not ask the White Tiger about the Killing-god heart before, he would not be this worried. Now that he knew that even the White Tiger was afraid of the soul inside the Killing-god heart, he was even more afraid.

"I can't find it." The White Tiger shook its head, before consoling Chen Xiang, "Don't be afraid. With this Killing-god heart, your comprehension of the Heaven Earth Killing Method will be twice the result with half the effort. This is a good item, and it's only because of this that Qi Shi and I were able to obtain such powerful strength in the past."

The White Tiger patted on Chen Xiang's shoulder: "Maintain a good attitude. If that soul is going to be deceived, I believe you will be able to restrain it. Right now you should be worried about Three Realms Talk.

Chen Xiang sighed, then sternly asked: "What are they trying to do? Are they those ancient powers? "

I'm not sure for now, but it's definitely not a good thing for them to gather together. Back then, when they betrayed the Ten Heavens Supreme Lord, they all received benefits from that mysterious power, and they all had something in their hands. If they put that thing together, I wonder what would happen, but it's definitely not a good thing for you all.

"Are we going to stop them?" Chen Xiang asked.

"No, you won't be able to stop it anyway! The best is to urge them to do it in front of us. If they were to do it in the dark, we will not know or be able to stop them when they come up with something powerful! " The White Tiger seemed to know something.

When Chen Xiang and the White Tiger walked out of the secret room, Li Baojun had already made the arrangements. Afterwards, the three of them went on their way and went through a simple disguise, so they didn't want to cause too much trouble in advance.

Chen Xiang, White Tiger and Li Baojun travelled to Heaven Thunder City through the Transmission array.

"Maybe the place where Heaven Thunder Purgatory appeared was hiding something. Otherwise, Heaven Thunder Devil Lord would not choose to heal there." The White Tiger said in a low voice.

"Could it be that this is also the reason why they chose to hold the Three Realms Talk here?" Chen Xiang activated Heaven tour method, he wanted to find something to do, since there was still some time before it would begin.

"Brat, keep a low profile. I don't want to be scooped up by you to be a super fighter." The White Tiger was very clear about Chen Xiang's intentions. If someone came to attack them, the White Tiger would definitely attack.

[Chapter 1023](#)

The Heaven Thunder City was originally established because of a nearby Heaven Thunder Purgatory. At that time, there were a lot of resources inside the Heaven Thunder Purgatory, although it was destroyed now, the city was still very busy, and the power in charge of the city was one of the four great powers in the east.

The Purple Moon Imperial Land was relatively strong overall, even in the Heaven Realm, it was the same. That was why the area that the Purple Moon Imperial Land controlled was wider.

The Purple Moon Imperial Land suffered heavy losses in the Heaven Thunder Purgatory, but did not lose her position as the Eastern Autarch because the Purple Moon Imperial Land was also very strong in the Heaven Realm. She could send some experts to make up for the vacancies, and now, it was that old lady, Ling Feng, who took over the position.

"Hehe, they can't stay in Pill City anymore, and the entire Dan Alliance has moved here, they have some brains, so they didn't stay in Continent of the King to guard it," Chen Xiang heard from some passersby that there were a few large pill stores that had suddenly appeared, without even needing to think he knew that it was brought back from Pill City.

"I'm afraid they haven't taken back their funds yet, these people originally used a hundred million Spar s to buy back the land we bought in Pill City, thinking that they could chase us away. Who knew that we would establish a city near Pill City and completely destroy them," Li Baojun thought of this as he let out a proud smile, he had participated in this event back then too.

The White Tiger laughed: "This is just like lifting a rock to smash one's own foot. Although they have been cheated by you guys with a lot of Spar, but they are definitely going to use their strength to earn people back in other ways."

"That's right, so we have to take care of their pill shop right now," Chen Xiang looked at Li Baojun and gave him a meaningful glance.

"You can't be thinking of causing trouble, right?" The White Tiger's brows slightly rose. "We made a promise once again, and I only promised you that you would be safe and sound when you were at Three Realms Talk. Don't do anything rash at a time like this."

"What's there to be afraid of? When the time comes, you won't have to do anything, we can handle it." Chen Xiang had already excitedly walked towards the grand and beautiful pill shop in the distance.

Purple Moon Imperial Land and Gold Sun Saint Realm experts were both in the Eastern Sage Realm and their strengths were similar. Moreover, they were experts in using fire, and the disciples of Purple Moon

Imperial Land could cultivate purple fire using their own cultivation methods. The majority of Gold Sun Saint Realm disciples used golden flames.

"Could this Purple Moon Imperial Land be related to Hua Xiangyue? Didn't this Little Flower Demon say that she came from the Purple Moon Realm, and that she also has Purple Moon Fire Soul? Although there are many people in the Purple Moon Imperial Land that can use purple flames, none of them have Fire Soul s," Long Xueyi said.

"I'll find a chance to ask her, I keep having the feeling that it wasn't that simple when she came to Mortal Martial Realm from the Purple Moon Realm back then, and that there might be some other secret behind it," Chen Xiang walked very quickly and arrived at the entrance of the Golden Yang Building in an instant. Standing at the entrance, he could feel a strong and slightly scorching aura floating out from within, which meant that the majority of the pills inside were refined by the Golden Sun Saint Realm.

When they saw the White Tiger's helpless expression, Li Baojun laughed and said: "Maybe this brat is just going to go in and buy some pills or something. Don't worry, how about this, we'll pretend that we don't know him and just watch from the side.

Chen Xiang now looked like a very simple and honest young lad. He looked harmless, with a silly look on his face.

The White Tiger accepted Li Baojun's suggestion and pretended not to know Chen Xiang, but they kept a distance.

After Chen Xiang entered the Golden Yang Building, many handsome, beautiful young men and women looked at him with contempt, because regardless of whether it was the outside or inside, the decorations of the Golden Yang Building were all extremely luxurious. Although Chen Xiang's attire was not bad, many people with statuses felt that this kind of person should not appear here.

There were many transparent crystal counters along the walls of the hall. There were many elixirs, as well as some small jade bottles that contained low-grade pills. Generally, high quality pills were rarely displayed, because those wealthy people had set those pills at a high price.

Even though there were no high-grade pills, it still attracted a lot of attention. For the younger generation members of famous families, low-grade pills were a luxury good for them, so they often gathered here to discuss about the medicinal ingredients and pills. Although many of them did not refine pills, they were still very knowledgeable in the field of pills.

"If I could eat a Beauty Dan every year for a thousand years, my face would not be old, but it's a pity that the Beauty Dan's medicinal ingredients are extremely rare and also extremely scarce. It's not easy to gather a thousand of them," a man in green clothes said as he looked at a small blade of grass.

That small grass was a Snow muscle jade grass and the main ingredient used to refine it looked like a girl's snow-white skin. Although the quality of the Snow muscle jade grass in the display cabinet wasn't that good, it was still eye-catching in the hall.

Chen Xiang immediately walked over to have a look. He had a lot of these Snow muscle jade grass s, so Bai Youyou often treated these Snow muscle jade grass s as food to help her learn the Icewind magic kungfu.

"Shopkeeper, is this Snow muscle jade grass for sale?" Chen Xiang suddenly shouted loudly. He realized that the Snow muscle jade grass in the crystal cabinet was strange, it was completely different from the one he was familiar with, but it looked exactly the same.

"It's just for sale here, but you won't be able to afford it," a lady in a red dress looked at Chen Xiang with her charming phoenix eyes in disdain.

"What a country bumpkin, yelling and shouting, not even knowing how to behave," A girl in a yellow dress looked at Chen Xiang, then looked at the green clothed man who was talking about Beauty Dan just now, shook her head and sighed, "We are all men, why is the difference between this guy and Young Master Ying so huge?"

Young Master Ying, Chen Xiang actually knew that one of the two great Tong Tian Aristocratic Family s in the east was the Ying Family.

An old man walked over impatiently, he frowned and looked at the big, simple and honest guy in front of him, and said: "Of course I want to sell, can you afford the four billion Spar?"

When the surrounding people heard this price, they could not help but secretly take a deep breath. When Snow muscle jade grass s were auctioned off, they were all around thirty-five years old or so.

"Can you sell it?" The charming red dressed lady looked at Chen Xiang with contempt and laughed coldly.

[Chapter 1024](#)

Chen Xiang replied impatiently, "If I can sell them, why don't you take off all your clothes and walk around the city?"

"Little girl, it's my own business whether I can afford it or not. What are you talking about on the side, are you going to be able to afford it?"

"You ..." The red dressed woman immediately shouted in anger.

Chen Xiang did not let her continue speaking as he quickly threw out a Storage bag. "Innkeeper, take a look. This is the 4 billion Spar here, I'm going to get off this Snow muscle jade grass."

He was a Leader of the Dragon Subduing School, sitting on a dragon's vein, with countless Spar, he would definitely lack these few.

The shopkeeper was stunned for a moment and immediately sent his consciousness into the Storage bag. There was indeed a huge pile of Spar inside, even with his level of consciousness, he still had to take a look for a while.

After a while, the old shopkeeper nodded his head, the way he looked at Chen Xiang had changed. It was as if he had discovered a treasure mountain, and did not dare to look down on Chen Xiang anymore.

"It is indeed four billion Spar." That shopkeeper was only a shopkeeper, so he naturally knew that someone who could casually toss out four billion Spar would definitely have a huge background.

The shopkeeper could see a group of well-dressed, cultured and refined young men and women strolling around, but there were very few people like Chen Xiang who bought the pellets so easily. The disciples of the famous sects only showed off their talent, and were able to win the favor of the girls.

The red and yellow dressed women who mocked Chen Xiang just now were completely speechless. Although they knew a lot of young masters, although they all seemed to have a great temperament and self-control, and were even more wealthy than the young masters of many small families, for a guy like him who could throw out four billion Spar s just because he didn't feel much pain, perhaps even the heavenly girls would not be able to do it.

Li Baojun immediately came over, and carefully looked at the Snow muscle jade grass in Chen Xiang's hand. He slightly frowned and said: "Little brother, this is not a Snow muscle jade grass."

Chen Xiang knew that Li Baojun and the White Tiger had pretended to know him, so he did the same. "Old man, you're an expert too, to be able to tell what this is," he replied.

The people in the hall were still surprised that the young man in front of them had spent four billion Spar to buy the Snow muscle jade grass, but then they suddenly heard that it was not a Snow muscle jade grass.

After hearing it, Young Master Ying frowned slightly, "How can it not be the Snow muscle jade grass, I have brought a lot of people to admire it, and the Dan King of Golden Yang Building has also been resolute before."

Li Baojun laughed: "There are also times when Dan King sees wrongly, let me tell you this, this is called Black Jade Snow Grass, it looks similar to a Snow muscle jade grass, but because this Profound Jade Snow Grass is not properly stored, a large amount of spirit energy has been lost, it looks similar to a Snow muscle jade grass."

This was one of the main ingredients used to refine the Face Preserving Pill. The Face Preserving Pill was a high-grade Ground level pill, you only needed to eat one pill to be able to maintain your complexion for a long period of time, and it was much more effective than eating thousands of Beauty Dan s.

"Old man, you have good eyes. I bought this Profound Jade Snow Grass for four billion, is it worth it?" Chen Xiang laughed.

Everyone in the hall was discussing softly, many people expressed their disbelief, thinking that Chen Xiang was just fooling around.

The main ingredient of the Face Preserving Pill, Chen Xiang, was very familiar with it. He had previously obtained it from the medicinal garden that Dan King Li Tianjun had left behind, at that time when Li Baojun was still guarding the medicinal garden.

Although he could not refine pills, he was very familiar with it, so he came to join in on the fun, "Just now, Young Master Ying said that this is a Snow muscle jade grass, he should be a descendant of the Ying Family, there's no mistake about it."

Chen Xiang laughed secretly in his heart. It was obvious that the White Tiger was trying to make trouble for Young Master Ying, and it was trying to make things difficult for him.

He is this old man, the fire Qi surrounding his body is this strong, he is probably an outstanding figure in the Dan King, he is just a junior, "Chen Xiang said disdainfully." I, this wild boor, have also refined a few batches of Broken Pills, so I still have a rather good understanding of medicinal ingredients. "

The occurrence of such a thing here immediately attracted the attention of several Golden Yang Building's Pill Sect. These were all Alchemist s who were able to refine three high-grade Ground level pills.

"Little brother, can you take a good look at this?" A Pill Sect member asked. They were extremely suspicious of this, if the four billion Spar could sell a stalk of Snow Jade Grass for it, it would be a huge loss.

"No, what if you guys want to go back? You guys are members of the Gold Sun Sacred Realm and are a huge force. At that time, who would I find to reason with?" Chen Xiang had not put down the Storage magic treasure yet, he had only placed his hands behind his back.

This made the few Pill Sect members slightly angered. He really wanted to snatch it away from them.

Li Baojun smiled and said: "Little brother, if you trust this old man, let me help you refine the Profound Jade Snow Grass into a batch of pills. I think that my pill refining skills are good, I can produce two pills in one furnace, at that time I will only need one pill, and I will need some other ingredients to concoct the Face Preserving Pill.

Being able to produce two Face Preserving Pills in one pot made many of the Alchemist present feel deep veneration for Li Baojun. They didn't think that such an unremarkable old man would actually be such a powerful Alchemist.

Li Baojun had eaten a lot of Beauty Dan and Face Preserving Pills to make himself look very young, but as an elder of the Dragon Subduing School, he had fought with many great powers on many occasions. In order to not be recognized, he disguised himself as an old man.

"Alright, I trust you. Old man, prove it and show this bunch of people that don't understand anything," Chen Xiang immediately gave the Profound Jade Snow Grass to Li Baojun.

The few people from the Pill Sect secretly sneered in their hearts. Even now, they did not think that it was a Snow muscle jade grass. They were very confident in themselves and thought that they would not be mistaken.

Li Baojun immediately took out his Pill Refining Furnace after receiving the herb, and very cleanly and cleanly processed some of the herbs. If one looked carefully, they would be able to distinguish the quality of the herbs, especially those supplementary herbs, which were all very old and could be sold very well.

Chen Xiang was extremely confident in Li Baojun, as he was Li Tianjun's successor.

Li Baojun's pill furnace looked ordinary, but everyone felt the fire from it, and did not dare look down on it anymore. It was because the fire only overflowed some heat, and it made people feel that it was terrifying, and the inconspicuous pill furnace could withstand it.

[Chapter 1025](#)

Li Baojun's flames were indeed very terrifying, because he was already a Five elements heavenly fire. Even Chen Xiang was ashamed of himself, but if his Heaven fire could evolve into a Heaven Fire, then it would also be very powerful.

Seeing Li Baojun being so serious and refining for a period of time, the few Pill Sect Elders became anxious. If it was the real Snow Jade Grass, they would not be able to get it back, because it had already become a pill.

If it was before, they might have been able to buy back with a few more Spar. Now, they regretted not stopping Li Baojun.

Everyone patiently waited. Besides, it was rare to see a Face Preserving Pill being concocted, let alone a very strong Alchemist. All of the Alchemist present guessed that Li Baojun might be a Dan King.

Li Baojun's furnace was very stable, and the weak hot air it was emitting was very stable. Alchemist could tell that the situation inside was very stable, and normally, only high level Alchemist would be able to make it, then it would at least be at Dan King's level.

Li Baojun opened his eyes and smiled: "It's already been refined, my luck is not bad, I can condense two pellets, although the quality of the Mystical Jade Snow Grass has dropped a lot, but I will use the auxiliary ingredients to melt the Medicine aura and raise the Mystical Jade Snow Grass, only by raising its quality will I be able to condense two pills."

Just then, he opened the furnace and saw two light yellow Dan King s floating out. Looking at the color and rich pill fragrance, he could tell that they were of high quality, and that this was not Beauty Dan s, but real, fresh out of the furnace, Face Preserving Pill.

Li Baojun laughed: "Everyone, you all can see it now, I and this little brother have not misjudged it, that is indeed a Profound Jade Snow Grass, I have successfully used it to refine two Face Preserving Pills."

When Young Master Ying saw Chen Xiang's complacent expression, he secretly hated him. The women around him were also like this, but they wanted the Face Preserving Pill even more.

On the other hand, the shopkeeper and the few Dan Sect disciples of Golden Yang Building were regretting their decision. If they were to sell this Face Preserving Pill for auction, it would be worth tens of billions of Spar, and maybe even higher. Yet, they were willing to sell the Snow Jade Grass for four billion, something that could be sold for an even higher price.

"Please wait a moment. Since you two are knowledgeable, I believe you two want to earn more with your clairvoyant eyes." At this time, a middle-aged man wearing a golden robe walked over.

"Elder Wan." The few people from the Pill Sect and the shopkeeper saluted again and again.

The Elder Wan nodded his head. When he received the news, he also felt uncomfortable in his heart, they had actually made a mistake and made the other party buy a stalk of Snow Jade Grass for such a cheap price.

"Oh, you want us to continue strolling around here," Chen Xiang didn't buy the Profound Jade Snow Grass to earn some Spar s, he didn't lack it at all.

"Of course not. The first place where this Snow Jade Grass grew is a place covered in cold all year round, and the conditions for its growth are extremely harsh. Don't you want to know where this Snow Jade Grass came from?" The Elder Wan said.

At this time, a youth in the crowd said, "It should be the profound Cold Ancient Realm from the far north. It is said that during the Primordial Era, there were strange flowers and strange plants blooming in the precious lands.

"I've also heard that the ice is called the Primordial profoundbing and it has all sorts of colors. Even if it was baked under the blazing sun, it would be difficult to melt, and even the flames of some Alchemist s are unable to melt those Primordial profoundbing. In these past few years, there has been no snowstorm in the far north of the profound Cold Ancient Realm.

The Elder Wan nodded his head: "If the profoundbing s with the strange ice flowers are most likely different from the others, then we just obtained a group of profoundbing here. Since you two have such good taste, why don't you check if the profoundbing s have the strange flowers and plants?"

"One must know that all those strange flowers and herbs were from the Primordial Era, and this piece of land back then was the place where Di Tian stood above the Nine Heavens and Ten Great Earth. That was definitely not an ordinary plant, it was most likely something from the Immortal Grade's Holy level."

"I heard that many ancient powers have sent people to the profound Cold Ancient Realm to dig for profoundbing, and even bought some strange profoundbing. It seems that some ancient power had once obtained a spirit flower of the Heaven level."

This was the first time Chen Xiang and Chen Xiang had heard of this kind of thing. They immediately nodded and agreed to go take a look at the profoundbing.

"Senior White Tiger, do you know anything about profound Cold Ancient Realm?" Chen Xiang asked hurriedly.

"I know a bit, that place is indeed a treasure land filled with strange flowers and plants, but it is extremely dangerous, and Qi Shi and I could only reluctantly stroll around inside. Afterwards, we don't know why that place was frozen over, so we'll go take a look at those profoundbing s, maybe I'll be able to see something," the White Tiger replied.

Chen Xiang was extremely shocked in his heart. Even the White Tiger did not dare to casually walk around, so the profound Cold Ancient Realm was indeed an extraordinary place.

Elder Wan led Chen Xiang and Li Baojun, followed by a large group of people, they arrived at a courtyard where there were many square or irregular round rocks, a total of dozens of them, with a variety of colors. After entering, many of the students were unable to endure the cold, and they had no choice but to immediately leave the courtyard and stand on a long corridor to watch.

In order to avoid the cold air spreading out and affecting others, this courtyard was surrounded by a huge magic formation. Even Young Master Ying and the few girls beside him couldn't withstand the cold air, retreating one after another.

Chen Xiang and Li Baojun would naturally be fine, but that cold Qi was indeed very strong. It was able to make people like them, who had strong flames, feel cold.

Originally, there were more than a hundred people who had followed him in, but there were only about ten or so people who were still able to walk in the courtyard. Seeing Chen Xiang's simple and honest looking face, everyone knew that he was someone who played the role of a pig and ate tigers, someone who could resist the cold air.

Chen Xiang frowned, he tried to use his powerful divine power to see through the colorful profoundbing, but he was met with a huge obstruction.

"Leader, I can't see through you, but what about you?" Li Baojun whispered to Chen Xiang.

"It's the same for me," Chen Xiang replied. Then, he asked the White Tiger, "Senior, can you see what's inside these profoundbing s?"

The largest piece of the profoundbing was like a coffin, and the smallest was half the height of a human.

"No," the White Tiger's reply made Chen Xiang extremely suspicious.

[Chapter 1026](#)

The White Tiger immediately explained: "Although I have obtained the Heaven Earth Killing Method, I don't cultivate it much. I learned the Beast Slain Method myself, and only then can I learn the essence. I only slightly dabbled in other aspects."

"This kind of profoundbing is very strange, and the one who released this kind of cold energy is very strong. Adding on to that, the thing that is frozen inside produced a kind of energy, allowing these profoundbing to absorb more cold energy. In other words, the reason the things inside these profoundbing have made them strong and are unable to detect anything is so that they can protect themselves. "

"Could the things inside be strange flowers and herbs?" Chen Xiang asked again. Since Long Xueyi had not made any movements, she probably could not see anything either.

"I don't know. Can't you just take one and open it?" The White Tiger was very curious about these profoundbing s.

The Elder Wan saw that Chen Xiang and the others were all silent, he looked at the profoundbing seriously and laughed: "You are very powerful, I know that you all wish to get rid of these profoundbing, but I want to tell you all, these profoundbing are very difficult to break through! If you want to get rid of these profoundbing, you still have to buy them. These profoundbing s are rather special in the profound Cold Ancient Realm, it took a lot of effort to get them out, and many people even died. "

Chen Xiang said: "Are you planning to sell all these profoundbing that you don't know about? It seems like you guys are willing to pay a good price for it! "

"That's right, this is something that we have sacrificed a lot to get back!" The Elder Wan said.

"I think you guys forced others to go, who doesn't know about what you did in Heaven Thunder Purgatory? It's very normal for you to do such a thing in profound Cold Ancient Realm! " From the looks of it, he was an expert among rogue cultivators.

The Elder Wan did not care about him and continued: "Even if you go to the profound Cold Ancient Realm, you will not be able to guarantee that you can find this type of profoundbing. You should have seen how powerful these profoundbing are."

Chen Xiang asked: "Are you really unable to open these profoundbing and see what's inside?"

The Elder Wan sighed, "It's not impossible for it to melt. A senior from our Gold Sun Saint Realm came over and used his immortal equipment to break it open. There really is something inside, it's a small piece of immortal jade."

Celestial jades were a rare ore that surpassed Spiritual crystal s. There was a lot of rich immortal qi contained within, not many in the Heaven Realm.

"If that's the case, then why did you take it out to sell?" Li Baojun was puzzled: "There are a lot of good stuff inside."

"Because some profoundbing have nothing inside." A fragrant wind blew over, and the Demon Empress Lv Qinlian walked into the courtyard with two mature women who had the charm of the wind. Her face was covered with a thin veil, causing her extremely beautiful face to appear and disappear, making her look even more captivating.

Of course, many rankers would choose to keep their breath and filter the fragrance off Lv Qinlian's body to prevent themselves from being poisoned.

Lv Qinlian did not recognize Chen Xiang, but she was wary of him. At the same time, she felt that the White Tiger was very dangerous, especially when they were close to the White Tiger, she couldn't help but break out in a cold sweat. Even though she was shocked and fearful in her heart, she did not dare to look at the White Tiger again.

"This woman has a very special spirit sense. She seems to have noticed something about me." The White Tiger told Chen Xiang.

"She has a good relationship with me. She's on her own, so you don't have to worry about her." After Chen Xiang finished answering the White Tiger, he asked Lv Qinlian with a silly smile, "Does the Demon Empress have this kind of profoundbing as well?"

"We got more than ten pieces, and after great effort, we managed to break it open. Only one piece had something inside, but it was only an unformed immortal medicine, so it has some value, and all the shops are selling profoundbing s now." Lv Qinlian was extremely fearful of the White Tiger, he was extremely fearful, but he maintained a calm expression.

Chen Xiang caressed these profoundbing, he wanted to try and see if he could refine these profoundbing into a pill. He felt that if it could be refined, it would also be a pill with a cold attribute, it was very suitable for cultivators with cold energy to eat.

The Elder Wan laughed and said, "The Little Demon Empress said just now, there might be good things inside, and the two of you have sharp eyes, that's why I recommended you to buy these things! You should be able to see what's inside from these profoundbing. "

"Isn't this just testing my luck?" Chen Xiang rubbed his hands and asked: "How much are the profoundbing sold here?"

Many people knew about the profoundbing, but this was the first time they had heard of it being sold in this way.

"This piece of twenty billion Spar, this piece is thirty billion, and this piece is a little bit fifteen billion. This is mainly in terms of size, because when these profoundbing were formed, they were all fixed in size." The price that Elder Wan offered made many people curse in their hearts. To return with tens of billions of dollars to buy such a broken profoundbing, it would still take a lot of effort to open it, and there was no guarantee that there would be something inside.

Lv Qinlian had also said earlier, only by breaking more than 10 pieces would there be something to be found. Furthermore, from her tone, she felt that she had just gotten lucky, if her luck was bad, the 100 pieces wouldn't even be worth it, wouldn't she die? These profoundbing sellers could also earn money with death.

"Only with a lot of people buying the Spar!"

"Exactly!"

"Don't be so ruthless, if there was an immortal medicine or a celestial jade in there, then we would definitely be able to make a fortune!"

The surrounding crowd discussed animatedly.

Chen Xiang looked at a piece of blue profoundbing, touched it, and felt that it was abnormally cold. He carefully looked at it, and did not see any traces of ice on it, he could tell that after this profoundbing was formed, it had been sleeping in the profound Cold Ancient Realm for tens of thousands of years, and would only see daylight once if it was dug out, but what exactly was frozen inside? And how did these multicolored Primordial profoundbing form? Even the White Tiger was wary of profound Cold Ancient Realm. Just what was happening there?

"Chen Xiang, the God slain method might be able to help you figure something out!" The White Tiger suddenly said to Chen Xiang: "Didn't I tell you before? The Killing-god heart is a rock that I picked up.

At this time, Chen Xiang also wanted to use the God slain method to do something, but unfortunately, he didn't have enough control over the God slain method.

"That big white cat definitely hasn't learned God slain method! I think our ancestors in the Imperial Dragon Race created this Nine-turn dragon god mantra from the God slain method, so we might as well try using the 'Chaos Divine Eye' in the Nine-turn dragon god mantra! " The Long Xueyi who had been silent for a long time finally made a sound. It seemed that she could also not see through the contents of the profoundbing.

The Nine-turn dragon god mantra was not only there to help Chen Xiang cultivate his spirit, there were also many mystical techniques inside, such as the "Chaos Divine Eye".

[Chapter 1027](#)

Everyone saw that Chen Xiang was very interested in these profoundbing. Previously, when they were outside, this guy, who was considered big and foolish, had caused Golden Yang Building to vomit blood. Although he had a simple and honest appearance, he must have some skills to be able to recognize the Snow Jade Grass.

Lv Qinlian carefully glanced at the White Tiger. The White Tiger had changed its appearance before, so of course she wouldn't be able to recognize it. If it appeared with its original appearance, the Heaven Thunder City would definitely explode, because Chen Xiang had once used the White Tiger's appearance to pass himself off as the Great Clan Elder of the Dragon Subduing School.

Chen Xiang said to the Elder Wan: "Can I take a closer look? I mean using my own special technique, I'm very interested in these profoundbing! "

"Alright, do whatever you want!" Elder Wan believed that Chen Xiang was a tycoon, so he was very willing.

Chen Xiang came to the front of a deep purple profoundbing. This profoundbing was shorter than him by a head, and stood upright in place, leaning against the courtyard wall, it released a purple cold Qi, which could be considered the heaviest part of the cold Qi.

Chen Xiang took a deep breath, closed his eyes, only to see a gold light suddenly flowing out from between his brows, as though he had suddenly opened his eyes, and after seeing this scene, the people in the crowd started to stir, and started to shout in shock.

Elder Wan's face changed. He was really worried that Chen Xiang would be able to see through it with this technique. At that time, they would be at a disadvantage again.

"Chaos Divine Eye!" Lv Qinlian was extremely shocked. She had just met a mysterious person with extremely strong powers, and seeing someone using such a strange technique that could cause a huge sensation even in the Heaven Realm made her think that Di Tian had already recovered to his peak condition.

"Chen Xiang, can you see anything? This Chaos Divine Eye is from the God slain method, I truly regret not learning it back then! " The White Tiger quickly said.

"No, I want to see a few more!" After Chen Xiang finished speaking, he moved to another place, but it was not easy to execute Chaos Divine Eye.

Chen Xiang came to the side of a square shaped blood red profoundbing. This profoundbing looked like a square stone table, he opened up the eye between his brows again, and used Chaos Divine Eye, shooting out a golden light.

Everyone could see that when the golden light entered the profoundbing, it did not reflect the light.

Chen Xiang continued to look at a few pieces, but his expression was currently not looking very good. With one look, he could tell that he had exhausted a lot of energy, and this Chaos Divine Eye, with just a few moves, had consumed a lot of his divine power.

"I want this piece, how many Spar?" Chen Xiang pointed to a greyish black profoundbing and asked.

The Elder Wan was a little nervous in his heart, but he had previously said that it was calculated based on size. Naturally, he did not dare to name a high price, as there were many people watching right now.

"Two billion eight hundred million Spar!" Elder Wan hesitated for a while before saying.

Chen Xiang immediately threw a Storage bag over to the Elder Wan. Seeing this scene, everyone was emotionally moved, their hearts becoming more and more excited. They did not think that such a foolish person would actually buy a profoundbing, even though it seemed to be a little tricky.

Everyone wanted to know what was inside the profoundbing, but they understood that the profoundbing was not that easy to open.

"Elder Li, cut this profoundbing open. It shouldn't be difficult for you to release your flame on the sword and saber!" Chen Xiang sent a sound transmission to Li Baojun.

Li Baojun immediately said: "Little friend, this profoundbing is hard to open, but I want to try. If it succeeds, you can immediately see if there is anything inside!"

Everyone was delighted. They just saw this old man concoct a batch of Face Preserving Pills so easily. He must be a very powerful fellow.

"Alright!" Chen Xiang casually replied.

The White Tiger, Lv Qinlian and more than ten other Rankers in the courtyard all wanted to know what exactly was inside the courtyard.

Li Baojun rolled up his sleeves, and shouted out loud. A ball of flame suddenly appeared in his hand, which then turned into a red sharp blade, but many people could see that it was not forged, but condensed out of extremely dense flame energy!

After Li Baojun created this blade, the cold energy in the courtyard was actually suppressed. However, it was only for a short period of time.

This grey black profoundbing was not small, and was as big as a water tank. If there was something small hidden inside, it had to be shattered, and if it was to be roasted by fire, it would easily damage the fragile things inside, thus the profoundbing was not easy to break open.

"Be careful, don't cut anything good!" Chen Xiang reminded.

"Don't worry, I am here to refine pills. I have to be extremely careful when smelting medicinal herbs in the cauldron!" Li Baojun said, then began to cut down.

The blade formed from his flames was powerful as expected, the incomparably sturdy profoundbing was like tofu, and it was easily cut down by him.

Just then, the black profoundbing suddenly trembled, then exploded into a pile of black ice crystals. There was nothing inside!

The crowd was stunned for a moment before letting out waves of sighs. 28 billion just went down the drain like that.

"You dare to buy anything inside?" The White Tiger was very confused, "Didn't you notice something?"

Li Baojun also asked Chen Xiang about this through sound transmission.

Chen Xiang immediately responded: "I saw through it, but it also exposed my Chaos Divine Eye. If I see too accurately, then what if others don't let me buy it in the future?"

Li Baojun and the White Tiger immediately understood that Chen Xiang purposely made others think that his third eye was useless.

Chen Xiang immediately muttered: "What dogshit inherited secret method, it's completely useless. Not only did it waste Spar s, it also makes me so tired!"

Seeing his expression, everyone secretly cursed the wastrel in their hearts. Their feelings towards Spar were not important at all, if a normal person allowed these twenty billion Spar to go for broke, they would definitely cry for their parents.

The Elder Wan let out a long sigh. In the eyes of many people today, Chen Xiang's Chaos Divine Eye was only a feint, and everyone was rejoicing in his misfortune, while the people of the Golden Yang Building were all smiles and smug, because they had sold a useless and broken profoundbing to an unbelievable high price.

Just as everyone was planning to leave, Chen Xiang suddenly shouted: "No, I can't let this go to waste, I must earn back some money! Old man, wait a moment, you have to cut open the profoundbing for me, the moment there is a gap, these profoundbing will explode on their own, you don't need to waste any effort!"

Chen Xiang squatted down and put away the pair of profoundbing that had turned into crystal sand. He felt that these profoundbing were useful and at the same time, gave them to Bai Youyou and Su Meiyao to study.

"What?" His brain was kicked by a donkey. Just now, he suffered greatly, but his brain still didn't grow! There are really a lot of stupid Spar, where did this guy come from a prodigal son? " A man said.

[Chapter 1028](#)

Seeing that someone was scolding Chen Xiang for having his head kicked by a donkey, the experts of Golden Yang Building were immediately dissatisfied, and looked at the man with eyes filled with killing intent. Although they thought so, when the man said those words, Chen Xiang did not continue, but in their eyes, Chen Xiang was a Sparite vein in human form, and was currently giving away the Spar to the Golden Yang Building.

At this time, Chen Xiang bought a yellow profoundbing that was even bigger, with a total of 35 billion Spar. Everyone felt that he was just messing around and did not use his third eye anymore, because he had never seen that yellow profoundbing before.

Actually, Chen Xiang's mastery of the Chaos Divine Eye had already increased, so he did not need to open his third eye, because the third eye was the most powerful Chaos Divine Eye. Using his original two eyes was enough, he had already used the Chaos Divine Eye to look at this piece of yellow profoundbing, and did not notice anything strange, which meant that there might not be anything inside the profoundbing.

"Old man, go ahead!" Chen Xiang anxiously said as he tossed a Storage bag to the Elder Wan.

The Elder Wan was overjoyed. He had already forgotten about the loss of the Snow Jade Grass, he believed that it had already gone back to normal.

Li Baojun only used a finger that was as red as fire to lightly touch the yellow profoundbing and it shattered!

It was another pile of ice crystals as small as a pile of sand. Seeing Chen Xiang prying open that pair of sand like ice crystals, everyone immediately sighed out repeatedly, at the same time laughing at Chen Xiang for throwing away another thirty-five billion Spar!

"Leader, delivering the Spar to Golden Yang Building, this isn't your style!" Although Li Baojun knew that Chen Xiang was confident in being able to get something out of these profoundbing, he was still very uncomfortable in his heart. This was because Chen Xiang had already given the Golden Yang Building many Spar s for free.

"Don't worry, I will make them vomit all of it in a moment!"

Chen Xiang came to the front of a white profoundbing. This piece of profoundbing was extremely big, and looked like a huge bed, the price must be very high. This piece of profoundbing was something Chen Xiang had not seen before with his third eye, so everyone now believed that Chen Xiang was just fooling around.

"This one!" Chen Xiang patted the profoundbing: It's so big, there must be something inside. How many Spar?

"100 billion!" The Elder Wan's voice trembled with excitement, and he had even raised the bid a little.

Chen Xiang frowned, how could he not see that the profoundbing's price had slightly increased? He said: "Elder Wan, all of you know the rules of the bet? The kind that play with Destiny box, use the broken herbs inside to refine them into pills, not only will you gift the ingredients, you can also waive the cost of buying the Destiny box. "

The Elder Wan nodded his head: "Of course I know, if we fail to refine the pill, you have to give us another set of Spar!"

Chen Xiang laughed: "That's it, how about we play like this too. If there is something inside this profoundbing, not only will you give me back my hundred billion Spar, you will also have to give me another hundred billion!" If you don't have anything, I'll give you another 100 billion! "

Chen Xiang took out another Storage bag and threw it on the ground, telling everyone to pour their spiritual sense in.

Chen Xiang's wealth shocked many of the young people, and they all wanted to gamble!

The Elder Wan hesitated, he looked at the few experts, saw that the experts nodded, and immediately nodded: "Alright, I will play with you, making the guests happy, is the main theme of our Golden Yang Building!"

Everyone all agreed that it would be worth it if someone as foolish as Chen Xiang didn't scam him!

Chen Xiang said to Li Baojun: Old man, let's do it! "If you win, I'll give you 10 billion!"

Li Baojun believed that there must be something inside this huge profoundbing, if not Chen Xiang would not play like this! His fingers gently touched the huge white profoundbing and everyone's heart skipped a beat. When they saw that the profoundbing had turned into ice and scattered on the ground, they all held their breaths.

Just as Chen Xiang was about to go and rummage through the ice crystals, the Elder Wan said, "Wait, we can't let you go inside with us to search for this. This is a gamble, we need to give a fair certificate! Why don't we let the Demon Empress handle it? I wonder if the Demon Empress can give us some face? "

Lv Qinlian nodded his head: "I am willing!"

Lv Qinlian waved her hand, and the pile flew up into the air after all, floating in the air, separated into different pieces. From afar, it looked like a shimmering curtain, with nothing to be seen, which meant that the inside of the gigantic white profoundbing was empty!

Looking at this scene, the peerless beauty sighed, "Sir, I have let you down!"

Everyone exclaimed, because not only did this foolish big guy spend a hundred billion to buy a pile of white sand, he also lost a hundred billion. Two hundred billion Spar entered Elder Wan's storage ring just like that, and if they were not here, Elder Wan would definitely laugh maniacally.

"Leader, what are you doing!" Li Baojun replied to Chen Xiang painfully.

"Don't be so anxious. If you win, you can only win a little. Do you think that's enough? Last time, when we tricked the one trillion Spar in Dan Alliance, even they felt that it wasn't enough! Thus ... I did it on purpose. Otherwise, how would they be willing to bet more? The Demon Empress is my friend, when the time comes, all of you should cooperate a bit, and we will scam him to death! " Chen Xiang replied Li Baojun and the White Tiger with his sound transmission, dispelling their confusion.

He never thought that Chen Xiang would actually be so sinister! Of course, Li Baojun knew that when Chen Xiang had used the name of the good man Li, he had already used this move, and he was already at the peak of perfection.

"Elder Wan, count these few pieces, I want them all!" Chen Xiang pointed to a large piece of profoundbing in the corner.

"He must have had a Qigong deviation, right?"

"This kid must be crazy!"

"This isn't the way to use many Spar, it's so good to give it to me!"

"Every year, idiots appear. This year, there are even more, and they are even more foolish!"

"This idiot gave another Spar to me!"

Elder Wan coldly looked at the noisy crowd and asked them to quiet down. This group of people were giving him Spar s, if they talked too much, Chen Xiang would go back on his words.

"A total of 520 billion, I'll give you a discount, just 520 billion!" Right now, Chen Xiang was the God of Fortune in his eyes. He wanted to get a luxurious chair for Chen Xiang to sit on, and arrange a few beauties to massage his back and legs, to entertain Chen Xiang with the Spar s.

Chen Xiang scratched his chin, "There's really a lot. Didn't you guys just use the method of betting pills to play with me?"

"Sir, as far as I know, many powers would have to break through hundreds or even hundreds of profoundbing in order to obtain something from it ..."

"Demon Empress, that's not right. If this Young Master was lucky, maybe he would be able to get something good soon?" The Elder Wan interrupted Lv Qinlian, but he did not reply to his question.

[Chapter 1029](#)

This time, Chen Xiang wanted to buy nine profoundbing s at once. If he could get something out of them, then all the profoundbing that Golden Yang Building had previously earned would go back to Chen Xiang.

Everyone also understood why Chen Xiang bought so many at one go. Wasn't it all for the sake of flipping a book? This was very normal. In the gambling den, many gamblers did the same thing, but not many succeeded.

Elder Wan was too complacent, he forgot the identity of the Demon Empress, and recalled how he interrupted Lv Qinlian earlier. He could not help but be worried.

Lv Qinlian was also a little angry in her heart. She glared at Elder Wan: "This young master is giving you guys so many Spar for free. Are you afraid now?"

The people of Golden Yang Building were indeed worried, if Chen Xiang really got lucky and managed to get anything out of the profoundbing, they would really die.

"We agree. Since this little friend is so generous, how can we be so petty?" An old man with a white beard and white hair walked over and spoke with a booming voice.

"It's the Golden Yang Building of the Golden Yang Building, Shi Fengrong!"

"He's finally appeared, no wonder. After all, this is a huge matter!"

"If that stupid big guy turns the tables, Golden Yang Building will cry!"

This old man was the Dan King in charge of Golden Yang Building, so his authority was naturally lacking.

The fact that Golden Yang Building agreed so readily was outside of Chen Xiang's expectations. He had originally planned to let the Demon Empress step out and think of a way to make the Golden Yang Building gamble with him.

"If you want to bet, fine, but you have to first buy these profoundbing for us five hundred billion, then prove that you have five hundred billion!" To be honest, he didn't want to bet at all.

Chen Xiang laughed and threw out two Storage bag, each holding 500 billion Spar. One was used to buy the nine pieces of profoundbing, the other was used to gamble. This was exactly one trillion Spar. If he lost, it would be equivalent to giving everything to Golden Yang Building for free. However, if he won, not only would he get the best things from the profoundbing, he would also be able to win back everything he lost previously.

"Alright, let's begin then!" At the same time, he said to Lv Qinlian, "Wait a moment, I still have the Demon Empress to be our notary to check on the powder."

Lv Qinlian nodded in agreement. She knew a lot about profoundbing, and there was a group of them who did not break it. Furthermore, there was an Ancient Treasure within the profoundbing, which was something that many great powers had obtained from the profoundbing.

Li Baojun focused his Sky Fire on his finger, and at this time, Chen Xiang sent a sound transmission to him: "Elder Li, leave that disc shaped green profoundbing for last!"

Li Baojun immediately understood that the profoundbing must have something inside.

After the first profoundbing was broken, there was nothing inside, which made everyone very disappointed. Many rogue cultivators looked forward to see Golden Yang Building suffer a big loss.

The second piece was light purple in color, but it still contained nothing.

Third, fourth, fifth ...

It was only until the eighth piece that Lv Qinlian let out a long sigh. Many people thought that Chen Xiang had definitely lost this time, although there was still one more, but no one believed that there was anything inside. They had heard Lv Qinlian mention it before, there were some large powers that had broken through hundreds of profoundbing, and there were no items inside.

The last piece! The people of Golden Yang Building were also very excited, because the last piece of the green profoundbing's cold Qi was very weak. It looked like there was nothing inside, and it was relatively small.

In the eyes of many, this was a piece of inferior profoundbing. The people present did not think that this profoundbing would have anything good, and many people sighed.

Just as everyone's eyes were focused on Li Baojun's finger, Chen Xiang suddenly said to Lv Qinlian: "Big Sis Lu, I'm Chen Xiang, do me a favor! Immediately bet on your participation! "

Lv Qinlian's shoulders trembled slightly, she was extremely shocked inside, but she immediately calmed down and did not look at Chen Xiang, but instead shouted out: "Wait!"

Li Baojun had just extended his hand out when he immediately stopped, because Chen Xiang had already greeted him.

"What's the matter?" Chen Xiang immediately asked, he knew that Lv Qinlian had already understood his thoughts.

"Young master, I want to gamble with you too. Do you have any more Spar?" Lv Qinlian said faintly.

Li Baojun immediately laughed, "Demon Empress, you are in the wrong. I am about to lose right now, then you say you want to bet."

"Exactly!" The White Tiger quickly added, "I also want to join right now, but that's not too kind!"

Chen Xiang laughed: "How about this, since I have already gone all the way, if I lose, I will compensate you with half of the wager, and if I win, I will take all of yours, what about that?"

"Little brother, don't do such a stupid thing, you can't be so wasteful even with so many Spar!" Li Baojun tried to dissuade her.

"What does your old man know?" Why would this little brother reject the Demon Empress, this peerless beauty? "

"Since ancient times, it has always been a hero feeling sad for a beauty! Even if you want to lose, you can't refuse a beauty, haha! "

"It's a pity that we're not beauties. Otherwise, we could still take part in the bet!"

Chen Xiang immediately shouted: "Everyone, if you want to bet, that's fine, but I will only accept stakes that are over two hundred billion."

Lv Qinlian laughed: "Young Noble is straightforward indeed, I bet 500 billion!"

Chen Xiang immediately transmitted to Li Baojun and the White Tiger, "Brothers, smash him hard for me, Golden Yang Building will definitely follow you!"

Just like Chen Xiang had guessed, Shi Fenggrong and the other higher ups of the Golden Yang Building couldn't hold it anymore, and started to discuss whether they should follow him!

"Little brother, that means this old man only needs two hundred billion?" Li Baojun smiled: Then I will not be courteous anymore, people die for money, birds die for food, even if little brother lost, from today on you are still the old man's friend, it is rare to have a gambling friend like you! I will also bet 500 billion, I wonder if little brother still has a Spar on you? "

"A little more, it should be enough!" Chen Xiang laughed, it seemed that he planned to lose to the end, he was not worried at all.

"Only a little more?" It seems that I was too late! " The White Tiger shook its head and sighed.

Everyone was shocked. These guys were truly spendthrift, but these people were powerful. This was normal.

"Although there are no Spar, you can use something to replace them. I can take a Eternal Dan!" Chen Xiang said.

"Let's add another one trillion and bet on your Eternal Dan." Shi Fenggrong shouted loudly, "Whether you win or lose, little friend, you are a VIP guest of our Gold Sun Saint Realm!"

"Regardless of victory or defeat, young master is still a distinguished guest of our Demon Charming Association!" Lv Qinlian's charming and gentle laughter was extremely soul-stirring, causing people to be unable to help themselves from envious of Chen Xiang.

[Chapter 1030](#)

Now, everyone understood the intentions of this foolish big guy in front of them. Even if they lost, it would be worth it to be able to get to know so many powerful people, especially the powerful Spirit Demons of the Demon Charming Association. /. *

And it was very hard to become friends with Dan King like Li Baojun!

"Then I'll begin!" Li Baojun laughed, his face had a pleased smile, everyone thought that he was going to win, which was why he was laughing so shamelessly.

Li Baojun's trembling fingers touched that piece of profoundbing. At that moment, everyone held their breath, especially the people from Golden Yang Building, as long as they could reach that point, they would be able to determine whether they had won or lost!

Many people wanted to stop at this moment because they too wanted to take part in the bet, but they did not have enough Spar s.

Li Baojun's finger, like red-hot iron, lightly tapped on that piece of green profoundbing. In that instant, everyone gulped their saliva, and also at that instant, that green profoundbing exploded with white light!

Seeing this array, everyone's heart stopped. This was clearly the light of a treasure being born, Chen Xiang had actually turned the tables on the last piece of profoundbing! Many people could not believe it, because Chen Xiang had won far too many!

After the white light flashed, everyone waited for the profoundbing to break. Inside, they saw a palm-sized green rock with many Spirit grain s densely packed on it. At this time, many people suddenly shouted out, and sat on the ground with their hands clutching their heads.

These people had used their spiritual sense to search for this green stone, but for some reason, their heads suddenly hurt, as if they were about to explode.

"Hehe, I've won!" Chen Xiang laughed and picked up the green stone.

Lv Qinlian sighed: "If you're willing to admit defeat, then take it!" She was only cooperating with Chen Xiang's acting, and Chen Xiang would return it to her afterwards.

"Two trillion Spar!" After Chen Xiang took Li Baojun and Lv Qinlian's Spar, he looked at Shi Fenggrong and the others.

They had completely lost, so it was only natural that they would give up to Spar Chen Xiang. After all, if they were even willing to admit defeat while betting on the Demon Empress, how could they, the group of men, lose? And there were still a lot of people watching!

The other hundred billion were the Spar s that Chen Xiang had bought from these profoundbing. In the eyes of the audience, the Spar were all fools, but now, they had earned around three trillion wildly, which was something that could only be obtained by a large power mining a lot of mines.

Of course, what they were most curious about was what exactly was that green stone inside the profoundbing. Not to mention those who were weaker, even those who believed that they were not weak, would have a splitting headache if they used their soul consciousness to look at that rock!

"What is this?" Li Baojun held his head and walked over, even he was not spared.

"It's a Great Way Stone, also known as the Philosophic stone! It could be said that it was a stone that could comprehend the Great Dao itself. Although it did not have any power in it, its comprehension of the Great Dao was beyond ordinary. It could even be said that this stone was a soul possession of the Great Dao! As long as you hold this stone in your hands, you will be able to comprehend the great Dao of nature with half the effort and twice the effort. His face was filled with shock. He did not expect that the profoundbing s would actually contain the thing he had been bitterly searching for all these years.

After this incident, the matter with the profoundbing would probably become famous. It could actually get something like it from the inside that helped people to defy the heavens!

"Even in Heaven Realm, this Philosophic stone is a priceless treasure!" Lv Qinlian took a deep breath, and didn't dare look at the Philosophic stone anymore. "Only those who possess Philosophic stone can use it!"

When the group of Golden Yang Building's people heard it, their faces turned even more green. They truly regretted not breaking these profoundbing open and selling them like this, giving them to others for almost three trillion without a use, and even losing the chance to obtain this Philosophic stone!

Chen Xiang immediately dripped his blood on the Profound Sky Sect Master, only to see the Philosophic stone releasing a strange green glow that enveloped the entire courtyard. In that moment, everyone felt a very strange feeling, that kind of feeling was hard to describe, and it was also this kind of feeling, that made them feel like they were suddenly enlightened. Previously, when they were struggling with their cultivation, they had been able to solve it easily, many people thought that if they went back to cultivate, they would be able to break through their bottlenecks!

This Philosophic stone was indeed a rare treasure. If the Golden Yang Building knew that the profoundbing had this thing, even a hundred million Spar would not sell it. This made Shi Fenggrong and the others wish that they could immediately snatch it, but they did not dare, because the Little Demon Empress was here.

"There are so many profoundbing here, name a price!" Chen Xiang swept his gaze across the profoundbing in the courtyard. Looking at him, he knew that he was going to kill them all in one go, since he had just defeated so many Spar and he was a rich person, it would definitely not be a problem for him to swallow all the profoundbing.

"You guys don't want to sell it?" Chen Xiang shook his head and laughed: "Then forget it, if it was me, I wouldn't sell it now either!"

When Lv Qinlian saw the people of the Golden Yang Building being tormented by Chen Xiang to such an extent, he could not help but laugh: "The possibility of a treasure being taken out of a profoundbing is very slim, it has a very large element of luck, if we are unlucky, even if we break through over a thousand of them, I'm afraid there won't be a single item."

"The profound Cold Ancient Realm is very vast, there are millions and thousands of profoundbing inside, but the treasures are probably only as rare as phoenix feathers and qilin horns."

Shi Fengleng took a lot of effort to make himself look better. After some thought, he said, "My friend, we are not going to sell it, unless you offer a very high price! No one can deny that our profoundbing s can produce treasures, so it is normal for us to raise the price temporarily. "

"How much?" Chen Xiang asked.

"Three trillion Spar!" Shi Fengrong's words made many people secretly look down on him. It was not because they did not want to sell, but if Chen Xiang could get good stuff out of the remaining ten profoundbing s, their Golden Yang Building would be better off.

Chen Xiang shook his head: "Five trillion Spar, I want them all. Are you selling them?"

"No!"

"8 trillion!" Chen Xiang said again.

Shi Feng Rong suddenly thought that Chen Xiang could tell if there was something inside the profoundbing or not, that's why he kept bidding.

"I just said, I want 3 trillion!" Shi Fengrong said.

Seeing Chen Xiang continuously raise the price, everyone else felt the same as Shi Fengrong. They felt that Chen Xiang possessed the ability to watch over profoundbing, which was why he had decided to buy all the profoundbing here.

"One trillion!" Chen Xiang frowned, and his tone was slightly anxious, he could tell that ten billion was already his baseline. Everyone started to become suspicious, just what kind of background did this idiot have, to have such shocking amounts of Spar, even the Tong Tian Aristocratic Family and Sheng Domain wouldn't be able to take so many out so quickly.

"Not selling, and we've decided to break these profoundbing s apart now, unless you can take out 30 trillion!" Shi Fengrong said resolutely.
