

Dan God 1031

[Chapter 1031](#)

If the prices for these profoundbing in the backyard of Golden Yang Building were right before, it would at most be over a trillion, and now that someone offered 10 billion to buy these profoundbing, they would definitely be able to see that there were treasures in them. As long as they were not crazy, they wouldn't be sold out at this time.

"This old sir, I wonder if you can help us break these profoundbing?" He was a Dan King and could see that Li Baojun's flames were extraordinary.

In this period of time, Three Realms Talk was going to start, it was not strange for many reclusive experts to come out. After all, this piece of land was Di Tian, who once stood above all the ten great lands of the Nine Heavens and Ten Great Earth!

"Elder Li, just help them out, there's nothing inside these profoundbing!" Chen Xiang's joyful voice rang in Li Baojun's mind, causing him to secretly admire Chen Xiang. This made Golden Yang Building's heart ache even more.

Li Baojun immediately took action, because there were a lot of profoundbing here, his speed was very fast. In just a few moments, he had already counted all the profoundbing here!

All of the profoundbing broke into pieces and turned into piles of ice crystal powder. The people from Golden Yang Building carefully checked the powder, trying to find a bird from it.

"One trillion Spar, if I sold it just now, I would be at a loss to that big dumb guy!"

"Golden Yang Building is too unlucky!"

"They're going to die from heartache, they must be very regretful. Why didn't they break open the profoundbing back then? Why didn't you sell all of the profoundbing here to me back then ... "

When Lv Qinlian saw the pleased look in Chen Xiang's eyes, he exclaimed in his heart. Others say that their Demon Charming Association's women are extremely beautiful and gentle, but are actually as poisonous as a snake or scorpion! looked simple and honest at the moment, but her heart was unfathomably dark. She felt that compared to Chen Xiang, the Demon Charming Association's Poison Spirit was like a sky and a earth. Furthermore, after Chen Xiang tricked her, the others didn't even know what had happened.

"What a pity. The next time a new profoundbing comes, I will definitely come again." Chen Xiang looked at those elders whose faces were filled with dejection, let out a long sigh, and then turned around and walked out.

"Young master, can you show me some face by going to my residence?" Lv Qinlian said softly, his voice was extremely flirtatious, causing people to look at him with fire and envy.

"We are extremely honored!" Chen Xiang laughed.

Actually, Lv Qinlian wanted to take back the five hundred billion Spar. She was a little worried about this fellow Chen Xiang, she was afraid that she would be tricked by him and be unable to react.

Chen Xiang bade farewell to Li Baojun and the White Tiger, then left with Lv Qinlian. At the same time, he had also destroyed his plan of following Chen Xiang around the Golden Sun Sheng Domain.

Along the way, he saw many beautiful and seductive bewitching girls, each and every one of them were extremely enchanting and dressed in thin clothing, their snow-white bodies still releasing a fragrance. When looking at people, their lovely eyes seemed to be able to hook away their souls, making Chen Xiang wish he could live here forever.

Seeing Chen Xiang's naughty expression, Lv Qinlian snorted and warned him with her eyes. She knew that Chen Xiang was not an easy person to deal with women, and was worried that her Demon Charming Association Demons would be harmed by Chen Xiang. Back when Chen Xiang was trapped in Heaven Thunder Purgatory, she had already seen how anxious Liu Meng'er, Dongfang Xinyue and Hua Xiangyue were. At that time, she was also very surprised, especially towards Liu Meng'er, who was Xue Xianxian's and Leng Youlan's master!

After Lv Qinlian withdrew all the spirit demons from the third floor, he stretched out his jade-like hand. "You can give it back to me now, right?"

"Tsk, who do you think I am? Would I lack this much Spar?" Chen Xiang tossed the Storage bag over. He was very familiar with Lv Qinlian now, and he used the Magical corruption gas and Lv Qinlian to exchange for the Holy Lotus Seed.

"Why are you so restless right now? You made such a big scene in the Heaven Thunder Purgatory just now, why didn't you just hide properly and come out to cause trouble?" Lv Qinlian said sternly, as if she was a big sister reprimanding her little brother.

"I came out to cause a ruckus. How could I possibly have such a great harvest?" Chen Xiang laughed.

Lv Qinlian took off her veil, revealing her elegant and beautiful jade face. Snorting softly, she poured Chen Xiang a cup of tea. Even though she was the Demon Empress, she had always been very polite to others and did not put on any airs. Furthermore, the feeling she gave others was that of a refined and refined girl, gentle like water. Now that she and Chen Xiang had gone through that transaction once again, their relationship was extremely deep. It was probably because they felt that their most fatal secret had already been discovered by the other party that they acted in such a manner! Of course, after the two of them got to know each other, there was also a sense of trust!

"Can you let me see that Philosophic stone?" Lv Qinlian sat down and smiled at Chen Xiang: "I never thought that you would actually understand something like the Chaos Divine Eye. Can you use the Chaos Divine Eye to see what's inside?"

Chen Xiang took out the Philosophic stone and handed it over to Lv Qinlian's jade palm. When he retracted his hand, he even gently stroked her soft and smooth jade hand, causing Lv Qinlian to fiercely glare at him.

"If I said I couldn't see it with the Chaos Divine Eye, would you believe me?" Chen Xiang laughed.

"I don't, you played such tricks in the Golden Yang Building, and you expect me to believe you?" Lv Qinlian held the Philosophic stone tightly, and looked at the Spirit grain above. She sent her consciousness inside, and was immediately shocked in her heart, because it seemed as if there was an

endless sea of Spirit grain inside, every single Spirit grain contained a large amount of information, and that was the power of the natural way.

"My Demon Charming Association is very close to the profound Cold Ancient Realm. After the Three Realms Talk passes, can you come to the Demon Charming Association?" Lv Qinlian returned the Philosophic stone to Chen Xiang: "I won't treat you badly!"

Chen Xiang understood what Lv Qinlian meant. If Lv Qinlian wanted to let him see the profoundbing, her Demon Charming Association must have obtained a lot.

"Hehe, you know about my wealth, Big Sis Lu. It's not easy to bribe me!" Chen Xiang laughed.

"You already called me big sis Lu, can't you give big sis some face?" Lv Qinlian pouted.

"I can make a trip to the Demon Charming Association, but you have to do something for me." Chen Xiang's face suddenly became serious.

"Speak!" Lv Qinlian's beautiful eyes flickered.

"No matter what happens in the future, we must ensure that the Chen Martial Continent area does not get attacked by any powers! Even if your Demon Charming Association were to be hostile to me in the future, you have to guarantee the safety of that place!" Chen Xiang said.

"Even if I don't do anything, your master can still protect that place!" Lv Qinlian frowned, she did not understand why Chen Xiang asked her to do this in such a serious manner.

[Chapter 1032](#)

Chen Xiang shook his head: "Chen Martial Continent is not simple, there are many hidden secrets! Right now, I am not sure what kind of shocking secret is hidden there, but I am sure that not long from now, many of the stronger powers will find out and plan to go there!"

Four Symbols Divine Weapons had appeared on top of the Chen Martial Continent, there was a passage to the core of the earth, there were Super Old Fire Beast s, Long Xueyi this white dragon was born from there, and there was also the world he was born in.

"Alright, I promise you!" Lv Qinlian nodded his head: "Our Demon Charming Association has always been part of the alliance led by Huang Jintian. This will benefit us all!"

"Big Sis Lu, how long will you stay in Di Tian? You won't be able to go back after a while!" Chen Xiang asked.

Lv Qinlian smiled sweetly, "I don't plan to go back now. The entire Demon Charming Association has been secretly moved down by me, we plan to build a solid foundation with Di Tian and scratch it with our bare hands. When Di Tian is completely reborn, our Demon Charming Association will be the strongest!"

"This isn't good!" Chen Xiang frowned.

"Why?" Lv Qinlian did not understand.

"I just think that when the time comes, a new Great Emperor will be born. When the time comes, the strongest amongst you will be the one that this Great Emperor fears the most. Either take you in, or annihilate you!"

Lv Qinlian's face immediately turned serious: "Don't tell me you're not the new Ten Heavens Supreme Lord?"

Chen Xiang shook his head, falling into deep thought. After a long while, he finally said: "Although I have obtained the Ten Heavens Supreme Lord's inheritance, this does not mean that I am the new Great Emperor! Because I only inherited the legacy of the Ten Heavens Supreme Lord, even if I can surpass the Ten Heavens Supreme Lord, I can't become a new Great Emperor! "

"Do you understand? The new Great Emperor simply did not have the Ten Heavens Supreme Lord's legacy. He had his own powerful divine arts and weapons, as well as his own powerful subordinates! If he wants to become the new Great Emperor, he must break all of the inheritances of the original Great Emperor. At that time, he will definitely exterminate all of me! "

"Is there such a person?" Lv Qinlian had never thought about this issue before, many people believed that Chen Xiang had obtained the inheritance of the Ten Heavens Supreme Lord, and that his fame had spread to the Heaven Realm, and many people believed that as long as he continued his growth, he would be able to become a new Ten Heavens Supreme Lord.

"Yes!" Do you think that wanting to become the great Emperor of the Nine Heavens and Ten Earth is enough to annihilate those powers? Big Sis Lu, although you are a Ranker in Heaven Realm, are you sure that you are very strong yourself? " Chen Xiang shook his head and laughed.

Lv Qinlian immediately thought of the White Tiger she met before. She felt like she was an ant being kneaded by the White Tiger, she rarely felt that kind of powerlessness, even when she met the Heaven Thunder Devil Lord before.

"Looks like I'll have to put in a lot more effort in the future if I want to become an expert from the nine heavens and ten earth!" Lv Qinlian sighed: "If Di Tian had recovered to how he was back then, Imperial Dragon Race would have definitely come up. This is a strong race that can control all nine heavens and ten earth!"

The strength of the Imperial Dragon Race was not to be underestimated.

Chen Xiang suddenly laughed: "If I knew earlier, I wouldn't have chatted so much with you. I should have gone to all the shops to buy profoundbing s.

"Who would dare to sell it when they see you?" Lv Qinlian chuckled.

"Who would recognize me if I changed my appearance?" Chen Xiang stood up: "I'll go first, after Three Realms Talk, I'll go to Demon Charming Association."

After exiting the Aroma Pavilion, Chen Xiang immediately changed his appearance and ran towards a nearby big shop that was run by the Purple Moon Imperial Land. Originally, there were profoundbing s that were being sold inside, but after knowing that there were people who were selling Philosophic stone s, the shops all broke these profoundbing s apart, so they wanted to try their luck.

Before, Lv Qinlian had said that if one wanted to obtain treasures from the profoundbing, they could only try their luck. With good luck, a few profoundbing could obtain treasures.

Many people were looking for that simple and honest big guy. Although he had gone to the Demon Empress' place, he wouldn't stay for long, and Lv Qinlian had also said that he had already left the pavilion long ago.

Li Baojun and White Tiger had also changed their appearances. When White Tiger and Li Baojun looked at the Philosophic stone, they took it and sent their consciousness inside, and just like Lv Qinlian, both were immersed in a world of Spirit grain that resembled an ocean. Other than that, they did not have any other gains.

"Leader, you have dripped your blood on it, could it be that only you can use it?" Li Baojun returned the Philosophic stone back to Chen Xiang.

"I don't know. I don't know how to use it now either." Chen Xiang looked at the White Tiger: "Senior, you don't know how to use it either?"

"How should I know? I had been searching for it for a long time, but I couldn't find it! All of these things are legends, but there are people who have obtained them before. This will depend on luck! " The White Tiger shook its head. "This kind of thing is pitifully few in number. Legend has it that the natural way of life only gave birth to ninety-one pieces, and in the entire Nine Heavens and Ten Lands, that's all!"

"In those heyday, the strongest guys far exceeded this number."

Holding the Philosophic stone, Chen Xiang once again immersed his consciousness inside. Just like before, all he saw was an endless sea of Spirit grain. All kinds of curved and profound Spirit grain swam about, forming a single space!

Just at this moment, Chen Xiang realized that although these Spirit grain were swimming around chaotically, they were not moving alone. Some of them were moving together, while others moved together in the millions, forming groups.

"How does the Philosophic stone actually work? Wasn't it supposed to allow people to comprehend the power of the Great Dao of Nature? Why can't I feel it at all? " Chen Xiang muttered in his heart, he once again tried to use his divine power to control the Spirit grain inside, but to no avail.

But this time, he realized that when controlling a single Spirit grain, he could move that Spirit grain a little. He immediately understood that if he wanted to control the movement of the Spirit grain, he would need a very strong and powerful divine power!

He immediately poured a large amount of God Power into it and concentrated all of it on controlling one Spirit grain to move. It was effective as expected, but it only moved slowly, and it also consumed a lot of God Power! Just as he moved the Spirit grain some distance away and changed its trajectory, a group of dozens of Spirit grain suddenly charged over, fusing the lone Spirit grain into them!

"Could it be that the correct way to use all of the scattered Spirit grain is to combine them together and make the Philosophic stone complete?" Chen Xiang's heart was moved.

Chen Xiang kept the Philosophic stone. He already had a few ideas on how to use the Philosophic stone, but that would require him to train in seclusion for a while before he could finish the vast project.

"Leader, there are a lot of people looking for you outside. That Philosophic stone is truly too rare.

Li Baojun was not exaggerating at all, many of the branches of the large powers that were stationed in the profound Cold Ancient Realm all received orders to look for the profoundbing in large numbers.

"That place isn't for fun, just let them go. In short, I don't want to go in again." It seemed like he already had a shadow over that place. This was also the thing that made Chen Xiang the most surprised. He really wanted to know what exactly made the White Tiger so afraid.

The craziest way to find Chen Xiang was probably because they wanted to dig up the entire Heaven Thunder City to see. They had suffered such a huge loss, and they did not even know who had made them suffer such a loss.

The White Tiger and Li Baojun were walking around the city, while Chen Xiang was studying the powder of the profoundbing in his room.

"Although the color of these profoundbing are different, and the cold energy they emit is also different, there isn't much of a difference overall. After turning into ice crystal powder, every grain's mass is the same! As for whether or not I can successfully forge a pill, you can give it a try. Bai Youyou said. From the intense cold Qi these profoundbing released, it was extremely useful, but she was unable to use any of them.

Chen Xiang threw a pile of profoundbing particles inside and injected it into the flame. It immediately caused him to be greatly shocked, because his flames were unable to melt these profoundbing!

"Even if Xue Yi uses her fire, it won't melt! I'm afraid that even Li Baojun's will will not be able to melt them, at most, they will just be shattered into pieces. " Bai Youyou sighed: "I tried to use the cold Qi inside to devour, but to no avail."

"Let me burn it again!" Chen Xiang used his strongest firepower to burn the profoundbing particles inside the Yanlong furnace, and also urged the array inside the Yanlong furnace to speed up the incineration process.

Four hours later, Chen Xiang stopped his incineration. He poured out all the ice crystal particles from the Yanlong furnace s, but not a single one of them melted. Furthermore, after he burned them with his strongest firepower for four hours, the cold air coming out from these particles became even more intense.

"What exactly are these profoundbing? The hotter it gets, the colder it gets! " Chen Xiang grabbed a handful of ice particles, and the cold immediately drilled into his body, which was something that had never happened before. Just when he thought he could absorb the cold air, something unexpected happened again. The cold air that just entered his body suddenly returned to those particles, and even brought back some of his energy.

Chen Xiang immediately scattered all of the ice particles on the ground. In just an instant, he lost a lot of energy, and even though the ice particles released a very strong cold energy, he was still able to keep

the cold energy in a certain range. He used the cold energy to drag in more spirit energy, and then continued to emit the cold energy.

These strange profoundbing granules actually had this kind of heaven opposing cultivation method, which caused Chen Xiang to be extremely shocked!

"This is a very strange thing, its ability to reproduce itself is very strong, I can promise you, if you throw away this small grain, many years later, a huge profoundbing will appear! And when this piece of profoundbing is attacked by a very strong power, it would immediately turn into a pile of tiny particles, and then dissipate along the wind. After many years of self-cultivation, those countless tiny particles will definitely turn into countless pieces of profoundbing! "

Bai Youyou already had a basic understanding of these profoundbing, and he speculated about their method of reproduction: "If a tiny profoundbing floated onto a few strange flowers and herbs, it can let these strange flowers and plants thrive and grow, and at the same time, condense into profoundbing for protection!"

"In other words, the treasures within the profoundbing were all because of the many tiny particles that suddenly fell from the profound Cold Ancient Realm all those years ago. No one knows what happened after that, but these tiny particles all grew into gigantic profoundbing! At that time, there were many treasures being protected inside, and there might even be corpses, or even corpses of people inside profoundbing s! "

When Chen Xiang was in the Golden Yang Building's backyard, he took away all of the profoundbing's granules. Although he couldn't use these ice granules, he still thought that these were treasures.

"I don't believe that these things aren't worth it!" Chen Xiang looked at the ice particles that were releasing cold air and released one of them to cover the pile of ice particles on the ground.

It could refine everything! This godly skill was terrifying even to the White Tiger, and was something that caused the Ten Heavens Supreme Lord to be killed!

He circulated the Heavenly Alchemy in his Dantian and ignited the flames, causing the flames to be released in a specific way within the Heavenly Alchemy, creating a strange type of firepower. He injected the flames into the Magic method furnace, burning those particles!

Not long after he used the Heavenly Alchemy, the granules suddenly released a ray of multicolored light, looking like a pile of golden sand. The golden light was sparkling, causing Chen Xiang to be extremely happy.

"It's working, haha!" Chen Xiang became excited and continued to burn these crystals using the Heavenly Alchemy.

"There's a change!" Bai Youyou was the same, but she suddenly saw the fire baked particles inside the Magic method furnace shrinking together.

"What's going on?" Chen Xiang frowned, and looked carefully. Although he could make these particles glow, he could not melt them.

A moment later, the pile of grains fused into a single grain the size of a grain of rice!

Seeing this, he continued to take out more profoundbing granules and placed them all inside the Magic method furnace, using the Heavenly Alchemy to refine them.

He had collected dozens of pieces of profoundbing's granules, and there were quite a few of them. However, he had only used an hour to melt all of the profoundbing's granules into rice sized white colored ice crystals!

"Damn it! I've been busy for so long, but I still haven't figured out how to use it!" Chen Xiang looked at the pressing cold white particle in the center of his palm and couldn't help but let out a long sigh.

He took out the Philosophic stone and looked at these two things helplessly. These two things were both extremely mysterious and had a lot of power, but he did not know how to use them. He sighed, and just as he was about to put away the profoundbing, the rice sized profoundbing suddenly flickered with a red glow, and the Philosophic stone also emitted a weak green glow.

These two things unexpectedly resonated with each other, shocking Chen Xiang yet again!

[Chapter 1034](#)

Chen Xiang immediately held onto the Philosophic stone tightly and channeled his divine power into the beast that was the size of a grain. At this moment, he suddenly felt a type of extremely destructive cold energy from the profoundbing, and it was even a very strange energy.

Previously, he had tried to use his divine power to spy on these profoundbing, but they were all blocked outside. Now, after taking out the Philosophic stone, he could actually clearly see the inside of the profoundbing, and he could clearly feel the quality of the energy.

Through the Philosophic stone, Chen Xiang could now see what kind of character the profoundbing had!

"Seal, destroy!" Chen Xiang did not know why, but all of these information suddenly appeared in his mind, and he felt that it was something that could only be seen through Philosophic stone s.

"What does that mean?" Bai Youyou asked curiously.

"I think it should be some kind of powerful strength that specifically used these profoundbing to kill something that was difficult to destroy. First, it released a strong sealing power, and then, during the sealing process, it gradually released a destructive power!" Chen Xiang said.

"Could it be that there was something very powerful in the profound Cold Ancient Realm back then? So they were destroyed by this power? It seems like those profoundbing all contain a very strong power of the natural way! " Su Meiyao said: "You should wait until you are stronger before heading to profound Cold Ancient Realm!"

"That's right, the profound Cold Ancient Realm has many terrifying things, but these profoundbing cannot destroy those things. It seems that not long from now, those things will be resurrected!" Chen Xiang released the Magic method furnace, threw it inside, and then activated Burning Fire!

"I don't know why, but only by holding onto the Philosophic stone can I deal with it!" Chen Xiang was very confused. Now that he held the Philosophic stone, he could burn it like it was a normal thing.

The profoundbing released waves after waves of white colored light. The profoundbing was not as stubborn as before, but now that Chen Xiang was using the Heavenly Alchemy, it was as if it was refining a normal thing, and was refining the profoundbing into a pellet.

"These profoundbing are indeed mysterious. They don't need to be compressed in any way to melt into small pellets. What I want to do now is to refine these profoundbing into edible pellets!" Chen Xiang was currently trying very hard. The reason he could see the mysterious power within the profoundbing was also because of this mysterious power, which was difficult for the profoundbing to see through.

If not for the Philosophic stone and the Heavenly Alchemy, it would have been difficult to deal with these profoundbing, and all of them were missing. But now, the strange powers of those profoundbing were being separated by him, and he saw those powers as the power of nature, because after separating, they immediately disappeared without a trace.

After the magical power within the profoundbing was separated out, Chen Xiang's expression immediately changed, because he felt that the intense ice power inside the profoundbing went out of control. It was originally the combined power of dozens of profoundbing, but now, without the magical power controlling it, it suddenly exploded!

Chen Xiang released his divine power to suppress it, but the ice cold Qi was too dense, it was not something he could suppress with his current strength!

"This is trouble!" Chen Xiang was shocked, he never thought that after so many profoundbing lost control, they would actually produce such a dense ice cold Qi.

"Can it be swallowed?" Bai Youyou asked anxiously.

"I can't. There's too much of it. Furthermore, it's too muddy to directly refine!" Chen Xiang sweated profusely: "If I don't control it, Heaven Thunder City will become an ice city! A radius of five hundred kilometers will turn into a world of ice and snow, I never thought that profoundbing would actually contain so much ice cold energy. After dozens of large profoundbing were compressed into a single piece by me, they became even more powerful! "

That was equivalent to squeezing a mountain's immense and violent strength into a single point, and then releasing it to explode. Its might was boundless!

"Brat, what are you doing?" The White Tiger fiercely rushed into Chen Xiang's room and broke through a door. It looked at the ball of white mist and ice energy within the Magic method furnace and its eyes revealed a trace of fear.

"Senior, I'm going to lose control of this ball of energy, hurry up and think of a way!" Chen Xiang was ecstatic, and anxiously shouted.

At this moment, Li Baojun also felt the terrifying destructive power from the white mist. He estimated that if Chen Xiang let go now, everything within thousands of miles would turn into a world of ice and snow!

The White Tiger's palm cleaved through the air, creating a black spatial rift.

"Throw your stuff in!" The White Tiger shouted anxiously.

Chen Xiang immediately threw the ball of air that was about to lose control into the spatial crack, and in that instant, the spatial crack suddenly closed, and the ball of terrifying cold energy exploded outside the dimension. However, the entire Heaven Thunder City suddenly turned chilly, and the temperature plummeted.

Chen Xiang collapsed to the ground. If he could not control himself, he would have been in for a beating as well!

"How did you do that?" The White Tiger let out a long sigh.

"When I refined and fused the pieces of the profoundbing, it became like this. At the beginning, I easily refined all the pieces into a single pill, and then I separated some of the energy out of the stone and became like this!" Chen Xiang said.

Chen Xiang took a deep breath and continued: "I feel that I can refine these profoundbing into a pill. This time, I'm only using too many of them.

He was very confident in the Heavenly Alchemy.

The White Tiger sent a sound transmission to him, "Were you refined using the Heavenly Alchemy?" "Then be careful!"

"Why? I am not a river refiner!" Chen Xiang asked curiously.

"Back then, Qi Shi tried to refine this stuff, which was why he started stirring up trouble. I can't say too much about this, or I'll be in trouble! However, I do not object to you refining, because you have done better than Qi Shi. Back then, Qi Shi was still unable to do what you have done now. The White Tiger told Chen Xiang.

Chen Xiang nodded his head, the white tiger only told him to be careful, which meant that he could still refine the pill.

"Elder Li, where does the city have profoundbing?" did not have any more profoundbing in his hands anymore, so thinking about the previous ones, he felt that it was a pity. But this also allowed him to have a deeper understanding of these profoundbing, he planned to gather more profoundbing s and make them into a small pellet.

Li Baojun shook his head: "Because Philosophic stone can appear within these profoundbing, so the current profoundbing are all very expensive, and are all sold by weight, with one kilogram and one hundred million Spar! Only the ones that are to be formed are bought, while the ones that are to be broken are worthless. "

Chen Xiang could imagine that in the future, there would be many fragments scattered within Di Tian. After many years, those fragments would become

[Chapter 1035](#)

"Not only that, there is another job called the Icebreaker job at profound Cold Ancient Realm! Breaking through a piece of profoundbing can get one hundred million Spar!" The White Tiger looked at Elder Li and laughed: "If Elder Li makes a trip to profound Cold Ancient Realm, I can definitely earn a lot more easily, faster than refining pills!"

Li Baojun shook his head and laughed: "If Leader were to go, he would definitely earn more than me. He can tell whether there is anything inside the profoundbing or not with the help of the profoundbing.

Chen Xiang only wanted to use those profoundbing to refine pills, the Earth Profound Pills needed to swallow the Earth, and the Mysterious Ten Thousand Moons Pill needed a large number of mountains and rivers. If he refined too much, it would be punished by the heavens, so Chen Xiang did not dare to play around with them anymore.

The temperature of the Heaven Thunder City dropped suddenly, the cold Qi pressing down, it shocked many of the strong warriors here, they all thought that the giant who cultivated the power of ice exploded with power after his breakthrough, although it surprised many people, it did not cause too much of a commotion.

Chen Xiang, Bai Hu and Li Baojun were just about to go to the place where the Heaven Thunder Purgatory had disappeared from, when the earth suddenly shook violently. A surge of energy came from outside the city, it was the direction where the Heaven Thunder Purgatory had disappeared to.

"This power is very strong!" Chen Xiang's expression changed slightly. "Quickly go over and take a look!"

Just as Chen Xiang finished speaking, many Rankers in the sky, who did not care about the restriction of flight, started flying out of the city, all flying towards the direction of the surge of energy.

"Let's go as well!" The White Tiger leapt up and followed closely behind the group of people, with Chen Xiang and Li Baojun following closely behind.

After reaching a high altitude, many people saw that on the ground below where the Heavenly Lightning Whirlpool had once appeared, a hole as large as a city had appeared. A burst of white light was gushing out from below!

No one dared to go near because that force was too powerful. They were separated by several hundred zhang as they stood in the air, looking at the thing that was rising from the giant pit.

At this time, when Chen Xiang saw the expressions of the ancient powerhouses, he was actually very excited!

In the midst of the crowd, a beautiful figure that Chen Xiang was familiar with suddenly appeared. It was Ji Meixian!

Ji Meixian followed closely behind the Leader. At this time, her position in the White Sea Imperial Land was very high, she was herself a Ranker from the Heaven Realm, and her strength had risen quickly. She also had Zhao Yiprofound, the super strong female slave, to provide her with resources, and Chen Xiang had also given her many benefits.

"Fairy Beauty, it's me!" What exactly happened? " Chen Xiang sent a sound transmission to Ji Meixian, causing him to be slightly surprised. She immediately searched for Chen Xiang within the crowd, but did not discover him.

Ji Meixian and Zhao Yiprofound knew that Chen Xiang was about to establish a sect called Dragon Subduing School. When the Dragon Subduing School's reputation rose, they all felt very surprised, especially the dragon vein!

"Leader, your current situation is very dangerous. All the ancient powers have sent powerful experts from the Heaven Realm with strength similar to Ling Feng's, at that time, they might even encircle and annihilate our Dragon Subduing School. If they were to see you here, it would be even more troublesome!" Ji Meixian did not answer Chen Xiang's question. Instead, he was extremely concerned about Chen Xiang's safety.

"I'm not afraid. Tell me what happened." Chen Xiang was using Heaven tour method to explore the hole that was emitting the white light, but he was blocked by a force. Furthermore, the white light inside the huge pit was slowly floating.

At this time, the Demon Empress Lv Qinlian, Huang Jintian, Gu Dongchen, Liu Meng'er, Hua Xiangyue and other rankers familiar with the place had all arrived, and they all looked at the gigantic pit with grave expressions.

Ji Meixian replied: "My current status is already very high in the White Sea Imperial Land, but they still hold some reservations towards me. Yi Xuan might know a bit more, but she's already in the Heaven Realm, so it's hard for me to contact her!"

"Tell me what you know."

"I know this is an altar, called Sacred Sacrificed Alter!" Ji Meixian said: "That's all I know!"

Chen Xiang immediately sent a sound transmission to the White Tiger, "Senior, do you know anything about the Sacred Sacrificed Alter?"

"It really is the Sacred Sacrificed Alter. Could it be that they want to use the Sacred Sacrificed Alter to summon a Saint Devil?" The White Tiger's voice carried a sneer.

"What is a Saint Devil?" Hearing this name, Chen Xiang felt that it was powerful.

"A powerful existence between gods and immortals, humans are called saints, demon beasts are called saints, sages or demon beasts are called saints! This thing is many times stronger than the Demon Lord!"

Hearing the White Tiger's explanation, Chen Xiang was stunned, the Heaven Thunder Devil Lord that he killed earlier had suffered heavy injuries and its power was so terrifying, he had expended a lot of effort to kill it, but if another Holy Demon appeared, wouldn't this group of Di Tian be done for?

"Senior, are you saying that those ancient powers want to bring out a Saint Devil?" Chen Xiang asked in shock, "Is there such a fellow in the Nine Heavens and Ten Hells?"

Chen Xiang suddenly felt that this White Tiger was a Holy Beast, this kind of existence!

"I will not let this Saint Devil be reborn!" The White Tiger's words made Chen Xiang feel a lot more at ease.

Huang Jintian seemed to know something as he immediately shouted towards the ancient powers, "You bastards, your ancestors were all bastards. Other than knowing how to collude with this kind of thing, what else can you do? You guys will definitely bring disaster to Di Tian by doing this! "

"Hmph, if we don't do that, we will be the ones to suffer!" Feng Quan from the Feng Clan sneered.

The people who brought out this Sacred Sacrificed Alter were really from an ancient power like them. Chen Xiang really wanted to know who these traitors had colluded with before?

Of course, he guessed it was a Saint Devil, but that Saint Devil was defeated in the end and was about to die. Now they had to revive a Saint Devil!

Looking at the happy faces of the traitors, the corners of Chen Xiang's mouth twitched as he chanted the Heavenly dragon seal's incantation.

"Little Naughty Dragon, quickly tell me. One is powerful, and can keep my Heavenly dragon seal hidden!" Chen Xiang anxiously asked, he also stopped chanting the incantation, because if he used it, his identity would be exposed, and now that news of his identity had been spread to the Heaven Realm, his previous battle records were all here, and many of the Heaven Realm experts knew that he was using the Imperial Dragon Race's Heavenly dragon seal.

"Even if you use the strongest Heavenly dragon seal now, it will be useless. Your strength is too weak! This Sacred Sacrificed Alter is not that easy to destroy, but I can still damage it. " Long Xueyi sighed softly, "Let me teach you another technique that I don't want to teach you!"

"You little colored dragon, taking advantage of me like this, you actually have a powerful ability that you won't teach me!" Chen Xiang said with dissatisfaction.

At this moment, the altar had already floated up. It was extremely large, and from afar, it looked like a city. It emitted a white glow, and its shape was that of a huge circular plate!

[Chapter 1036](#)

"I won't teach you, it's for your own good! A human who uses this move will be hunted down and killed by the Imperial Dragon Race. With your current strength, if you were to be targeted by the Imperial Dragon Race, the big white cat won't be able to treasure you! " Long Xueyi scoffed, "However, since you still have some methods to protect your life, I'll take the risk and teach you! Let me explain in advance, if you get targeted by those old dragons of the Imperial Dragon Race because of this, don't blame me! "

"Cut the crap, I even sent you to the Imperial Dragon Race's Sky Dragon Great Yan Jing, what's there to be afraid of? My dragon lady wife, hurry up and teach me! " Chen Xiang laughed and said without the slightest bit of embarrassment.

"Who was it that you sent? That is only in terms of the divine soul! " Long Xueyi pouted. "I am a Heavenly Dragon Supreme Lord, how can I casually let a human kid get involved?"

As she said that, she had already passed down the common god secret method to Chen Xiang, and her figure assumed that the abilities that the Imperial Dragon Race had learned were based on the God slain method and its comprehension, and should be further improved upon.

Chen Xiang's foundation was very solid, furthermore, Long Xueyi used that strange secret method to pass his techniques, so he could understand it very quickly!

"This is too scary, this should not have been refined from the Heaven Earth Killing Method!" Chen Xiang's heart was thumping wildly. After hearing about the divine ability, he was deeply shocked.

"Who knows? In any case, I haven't used it yet, but your current strength shouldn't be enough. Otherwise, I won't be able to use the Primal Chaos Dragon Curse! "

The Chaos Dragon Curse was the name of that sacred art. After using this sacred art, it could convert the energy gathered from the surroundings into Chaotic Force, and then form a type of curse that could unleash extremely powerful energy.

"Come on, let's combine!" Chen Xiang said excitedly, at the same time, his mind quickly practiced the method of unleashing the ability a few times.

Sensing Long Xueyi's energy surging over, Chen Xiang's eyes suddenly opened. After using the sacred art, the Innate Qi and God Power in his body suddenly surged out, penetrating through the space and appearing in the air above the Sacred Sacrificed Alter, they quickly formed into a ball of air, the ball of air had many spatial cracks around it, the tyrannical energy in the disordered space frantically rushed out and gathered in the ball of air.

At this time, the surrounding spirit energy was gathering towards the black ball of air, its speed was extremely fast, even the Sacred Sacrificed Alter's energy was being absorbed, and 90% of the power and divine power in Chen Xiang's body had already been sucked out, leaving him only able to float a little.

Seeing this scene, the expressions of the ancient powers' giants changed greatly. They didn't expect something like this to happen, and they didn't even know who had acted in such a way!

The White Tiger looked at Chen Xiang because he recognized that it was a Primal Chaos Dragon Curse. It was a very powerful attack that even many of the orthodox bloodline Emperor Dragons in the Imperial Dragon Race wouldn't be able to learn!

"Ugh ..." A deep dragon's roar came out. The sky above Sacred Sacrificed Alter suddenly split open, revealing a very large black hole, inside which was the chaotic space. The chaotic energy inside rushed out crazily and condensed into the black ball of air.

"Destroy that thing!" The big boss reacted and quickly shouted.

But it was already too late, because the black ball of air had already cracked open, and countless black dragon shadows appeared, enveloping the land, causing the world to sink into darkness. But in a very short period of time, the dragon shadows converged, forming a few incantations, suppressing towards the Sacred Sacrificed Alter, and bringing along a low but sufficient imposing chant that sounded like several dragons chanting at the same time, causing the entire land to sink into a destructive atmosphere.

"It's the Chaos Dragon Curse!" Lv Qinlian was extremely shocked, she knew more than anyone else.

"It's that brat again! Isn't the little white dragon trying to harm him by passing on the Primal Chaos Dragon Curse to him?" Ji Meixian blamed Long Xueyi in her heart. She was from the Imperial Feather Race and knew about the Primal Chaos Dragon Curse.

The black incantations seemed to have the power to destroy the heavens and earth, as they struck down directly onto the Sacred Sacrificed Alter, causing it to sway violently. There were even some shallow cracks appearing on the surface of the Sacred Sacrificed Alter.

Everyone could see that someone was secretly attacking the Sacred Sacrificed Alter, and this person was very strong, so he had to hide here!

The duration of the Chaotic Dragon Curse's attack was very short, and it disappeared in an instant. The space cracks in the sky closed, and the world returned to its original state. Everyone was still immersed in the shock from before.

The giant crater was also sealed by a mysterious power. Although it was attacked by Chen Xiang just now, it was after all, a Sacred Sacrificed Alter. Furthermore, Chen Xiang and Long Xueyi's strength was too weak; If this was the case, then the ancient factions would have to start repairing them!

"That little white dragon really isn't afraid of your death. It's passed down this kind of sacred art to you!" The White Tiger laughed.

"Hehe, I told her to teach me!" Chen Xiang laughed.

"You guys are still too inexperienced, and your might is too weak. If an old dragon were to use it, this Sacred Sacrificed Alter would definitely be torn to pieces!" The White Tiger sighed, "You don't have to care too much about this Sacred Sacrificed Alter. I will stop them."

At this time, Ji Meixian also sent a sound transmission to Chen Xiang, "There are many old fellows here who are watching you. When you were sparring with others before, many people saw the Heavenly dragon seal you used. If Imperial Dragon Race knew that you knew about the Primal Chaos Dragon Curse, he might even come to Di Tian to look for you! "

"It would be best if I could send a dragon over. As a Leader, I am specialized in dealing with dragons!" Chen Xiang didn't mind at all, and this was something that Long Xueyi was very much looking forward to.

"Humph!" Ji Meixian was a little angry, she felt that Chen Xiang should keep a low profile and increase his strength, before going back to fight against the other powerhouses.

After he massacred the Demon Masters, many of the higher ups in Heaven Realm had noticed him, but most of them wanted to capture him, because he had the Green dragon demon-slain broadsword and he also knew about Devil-suppressing holy power!

Chen Xiang was now a dead pig that was not afraid of boiling water. He had already been targeted by many people, he would not stop at one thing and would not hesitate to do the opposite.

Lv Qinlian swept the crowd with her gaze, wanting to look for Chen Xiang. She knew that Chen Xiang was hiding inside, and she knew that Chen Xiang understood the Imperial Dragon Race's secret technique, so she was sure that the Primal Chaos Dragon Curse was cast by Chen Xiang. This made her suspect that Chen Xiang was a member of the Imperial Dragon Race, to think that he actually knew of this Emperor Dragon's Sacred Art which was almost lost throughout.

After the white light from the Sacred Sacrificed Alter disappeared, the big shots of the ancient powers all flew over, and they even stopped many people from getting near. Only the ancient powers like them could not get close to them.

After the Sacred Sacrificed Alter was attacked, the ancient powerhouses were very angry, because this would cause their plan to be delayed for a while, and now they were all pouring energy into the altar. After the Sacred Sacrificed Alter absorbed their energy, it once again emitted a white light to repair itself.

"Senior, if you had acted just now, you would have definitely destroyed this Sacred Sacrificed Alter. Just now was the most fragile time for this Sacred Sacrificed Alter." Chen Xiang sighed as he transmitted his voice to the White Tiger.

"If I were to make a move, I wouldn't be able to accompany you to enter the Three Realms Talk, and even I would have to use a lot of strength to completely destroy this Sacred Sacrificed Alter, but that would expose my identity, so I can't let the people who are hiding know that I'm still alive right now." The White Tiger said.

Other than the Peach Blossom Imperial Land, the other ancient powers and sects all came to the side of the Sacred Sacrificed Alter. Those ancient powers in the past were all traitors of the past.

"If I find out anything related to the altar, I will immediately inform you. Don't attack this Sacred Sacrificed Alter anymore, it's useless." Ji Meixian whispered to Chen Xiang.

Many people felt bored when they saw that it was a work of the ancient forces, and quickly left. However, there were also many people who noticed that the ancient factions were planning to do something, and they were going to do it with the help of the Three Realms Talk.

"Let's go, they still have to repair Sacred Sacrificed Alter, they won't be able to open it for a while, I think they should at least be after Three Realms Talk!" The White Tiger transmitted its voice to Li Baojun and Chen Xiang.

Afterwards, the three of them also left and returned to their residence.

"It won't be easy for the Sacred Sacrificed Alter to open! I should need some offerings or something like that. " When Chen Xiang thought about offerings, he had a bad premonition. In his knowledge, offerings at powerful altars like these were all made of blood.

"Un, I need something special. I think all of those traitors should have it. If it's using a person's life as a sacrifice, then we definitely can't spare them! " The White Tiger said, "I don't think they will revive the Saint Devil! If the Holy Demons were to descend, they would be under the control of the Holy Demons as well. They are currently living a carefree life, and do not wish to be enslaved by others. "

There were still ten days before the Three Realms Talk's start. It was said that there would be events that would be held when one approached the Three Realms Talk.

Chen Xiang had been using the Philosophic stone for the past few days, and now he realised one of the uses of the Philosophic stone, which was to circulate his technique and allow the Innate Qi to circulate in his body at a much faster rate. This Philosophic stone could allow him to train at a much faster rate than before, allowing him to more thoroughly integrate into the divine arts, allowing him to be able to understand the natural way even more.

"Leader, there's good news!" Li Baojun knocked on Chen Xiang's door and shouted excitedly.

"What good news?" Chen Xiang opened the door and asked.

"When profoundbing came, finally someone sold them, and it was by auction! There will be an auction later on to sell profoundbing! " Li Baojun said.

"Will anyone buy it?" Chen Xiang found it funny. He didn't even know if there was anything inside those profoundbing s, but they were actually being auctioned off too. They were competing with each other until their heads bled, losing a large number of Spar.

"Of course there are, many tycoons have always wanted to try their luck, and get their own profoundbing s to test their luck, but you also know that these profoundbing s are not something normal people can get their hands on. Only those large powers have enough manpower and resources to mine in the profound Cold Ancient Realm, and of course some powerful rogue cultivators would go in to find them." Li Baojun said.

"Then let's go take a look! And the Great Clan Elder? " Chen Xiang asked.

"The Great Elder has occupied a seat inside. We can't reveal our identities right now, so we can't get a VIP box!"

Chen Xiang and Li Baojun quickly arrived at the entrance of the auction house. The place where the auction was held was actually the property of the Purple Moon Imperial Land, and the person selling the profoundbing was actually the Purple Moon Imperial Land.

The admission fee was very expensive, it required ten million Spar s each, but Li Baojun had already paid them before, so they could enter with a single plate.

The position that the White Tiger occupied was in the front row, which made it easier for Chen Xiang to look more carefully.

"I heard that the profoundbing being auctioned is not simple. They are not the kind that we have seen in the Golden Yang Building before, so they attracted a lot of people. It is said that the profoundbing being auctioned now has a very high chance of producing treasures!" The White Tiger looked at its surroundings, then sent a sound transmission to Chen Xiang: "The Sacred Sacrificed Alter is almost completely repaired, and the big shots of the ancient powers are all here, you have to be careful, don't expose the Chaos Divine Eye!"

Chen Xiang nodded, releasing his divine power and kept watch on his surroundings.

"Oh yeah, one of the clan elders from the Purple Moon Imperial Land said, if we buy the profoundbing here, they will help us break it. That clan elder also said that in order for the Purple Moon Imperial Land to gather information on the profoundbing, we must break it on the spot!" The White Tiger said.

"This isn't good!" Chen Xiang was confident that he could use the Chaos Divine Eye to see if there was anything inside the profoundbing.

"Senior, you and Elder Li can go to the seats at the back!" Chen Xiang sent a sound transmission to Li Baojun and the White Tiger. This way, the three of them would be able to bid for the three profoundbing s and not be targeted. Otherwise, if they wanted to leave, it would be troublesome.

"Everyone, quiet! "The auction is about to begin." A handsome middle-aged man walked onto the stage and said loudly.

There were a lot of people at the auction place, especially those sitting below. There were more than 20,000 people and there were also quite a few in the private rooms.

"The profoundbing that we are auctioning today is very unique, and is very different from the profoundbing that everyone knows about. Furthermore, there is an extremely high possibility of treasures appearing inside! That's why we all need to be mentally prepared. We, the Purple Moon Imperial Land, are not responsible for this. " The middle-aged man said.

Buying a profoundbing was equivalent to gambling. Everyone knew that it was interesting to buy one.

"Bring the first profoundbing up!" The middle-aged man said, only to see four people carrying a square table, the profoundbing on top of the table was covered with a cloth, it looked extremely mysterious.

The middle-aged man laughed: "Everyone, be prepared, this profoundbing is very dazzling!" As he said that, he pulled the cloth away, releasing a burst of white light. At that moment, everyone felt pain in their eyes, and some of them even started to cry.

The glow of the profoundbing had dimmed down by a lot. Everyone could now see what kind of profoundbing it was.

It was a huge, snow-white lotus with white clouds swirling around it. It was incredibly holy, as if it were carved from snow-white jade, but it seemed to have been formed naturally. It was vivid and lifelike, and although it gave off bursts of chilliness, people could feel that this white lotus was giving off a true life of its own.

[Chapter 1038](#)

This lotus shaped profoundbing was not small, it was like a bathtub, when people first saw this profoundbing, they all thought that there was a treasure inside, no wonder the Purple Moon Imperial Land took it out to auction!

When the middle-aged man saw everyone's surprised gaze, he immediately said: "We don't know if this profoundbing was formed naturally, but in short, it was dug out by our people deep within the profound Cold Ancient Realm, and it was like that back then!"

"Everyone knows that profoundbing are very sturdy, but they aren't unbreakable. As long as the profoundbing is stimulated strongly, it will shatter and turn into tiny ice crystals. Many people should have seen it in the Golden Yang Building back then. Therefore, there was no suspicion of forgery! We don't know if there are any treasures inside, but we felt that there might be some inside the profoundbing, so we sold this opportunity to get lucky, the higher the price, the better it would be! "

"30 billion Spar!" Someone had already begun calling out prices.

"50 billion!"

"70 billion!"

"..."

Right now, only the people sitting in the hall were bidding so intensely. It could be seen that there were many rich people gathered in Heaven Thunder City.

Chen Xiang had already secretly opened his Chaos Divine Eye, and the power of his divine eye was in his eyes as he carefully looked at the Lotus profoundbing. When he first saw the profoundbing, he thought it was very likely that there were treasures inside, because this profoundbing was truly too strange and mystical.

"39 billion!"

Unknowingly, Chen Xiang had already observed that the price had already soared to this high point, and the people in the private rooms hadn't even started to bid yet.

"Leader, should we bid?" Li Baojun also believed that the possibility of the profoundbing possessing such a treasure was extremely high.

Chen Xiang did not answer because he was not completely sure. He carefully observed the profoundbing over and over again, and after a while, he confirmed that there was nothing inside the profoundbing.

"800 billion!" The people in the room finally called out a price.

"830 billion!" This was actually a woman's voice, but many people knew the voice of the Demon Empress.

Lv Qinlian's real body was like a lotus flower. If she took action, everyone would suspect that she had sensed something, which caused the bidding to become even more crazy, especially the big shots in the private rooms. At this time, the people in the main hall were no longer able to intervene, because the bidding quickly passed a trillion! Furthermore, the main competitor was the Little Demon Empress, Lv Qinlian.

"Big Sis Lu, if you trust me, then don't continue. There's nothing in this thing!" Chen Xiang whispered to Lv Qinlian.

"You're actually here?" As expected, Lv Qinlian did not increase the price. She knew that Chen Xiang could use the Chaos Divine Eye to see if there was anything inside, and she did not plan to increase the price among the other profoundbing.

"If I don't have enough Spar s, lend me some!" Chen Xiang replied with a smile.

This was a Ranker who came down from the Heaven Realm. There were no Spar on the Heaven Realm, but after he took charge of the Flying Immortal School, all of the Spar in the Flying Immortal School were under his control.

Han Kang came to the auction platform. After handing over the Spar, he let an old man from Purple Moon Imperial Land break it.

The elder gathered all of the flames on his finger and made one of his fingers turn purple. The flame was burning purple and dancing in the air. It looked very hot. It was just that he was covered in sweat and was not as relaxed as Li Baojun.

"It's about to begin!" This made Han Kang so excited that his face turned red. He felt that even if it wasn't the Philosophic stone, it should be something similar to it, and he opened his eyes wide and stared at the White Lotus profoundbing that was slowly shattering.

Very quickly, the beautiful white lotus profoundbing turned into a pile of tiny ice crystals on top of the table. Han Kang waved his sleeve, and all of those crystals floated into the air.

Han Kang, who was initially excited, now looked as if he had eaten a fly as his expression became extremely unsightly. He had given one hundred and thirty billion Spar to the Purple Moon Imperial Land for nothing.

The crowd burst into an uproar as they secretly laughed in their hearts.

"Thank you, good brother!" Lv Qinlian sent a sound transmission to Chen Xiang and giggled.

"You're welcome."

That made many people vigilant. The people from the Purple Moon Imperial Land knew that the next bidding war would not be this high, so no one wanted to compete like Han Kang.

"Unfortunately, Leader Han, please do your best." The middle-aged man smiled apologetically as he consoled her.

"Hmph, what a cheat!" Han Kang's face turned green, did she still want him to come again?

The auctioneer coughed dryly and continued: "Next, bring the profoundbing up."

The second piece of profoundbing was much worse than the beautiful White Lotus profoundbing from before. This made everyone curse the shamelessness of the Purple Moon Imperial Land and they placed the best part in front to scam others.

Although this piece of profoundbing was not as big as the previous one, it was still very strange. It was a half man tall gourd, and the purple and golden clouds were changing back and forth. The only bad thing was that the surface of the gourd was bumpy, and it did not look pretty at all.

"This is the second profoundbing. It was found in a large crevice deep in the profound Cold Ancient Realm, and is even harder to obtain than the previous White Lotus profoundbing. Furthermore, there are two colors that change between each other, so it's very possible that a treasure will appear!" The middle-aged man talked about the origins of the profoundbing.

"Keep talking!"

"The idiot will believe it again!"

"It's exactly the Spar that was wasted to come in. I'm so disappointed."

"Not bad, to be able to see someone cheated for over a trillion inkstones, our luck is very good."

Because he was unable to see the inside of the profoundbing, and did not know how to see if there was anything inside, the most basic basis of determining the profoundbing was its appearance. Otherwise, that beautiful white lotus profoundbing would not have been snatched away by so many people.

The appearance of such a rough profoundbing had attracted a lot of criticism. With a single glance, one could tell that it was not easy to sell.

After the auctioneer boasted for a while, he said with a smile: "The starting bid is 100 billion Spar s, each bid increase must be no less than 100 million. Everyone, please bid!"

Seeing everyone's attitude, they had no choice but to set the starting price. Otherwise, they would lose their lives. With that experience, many people became obedient.

"10.1 billion!" Chen Xiang shouted.

Hearing Chen Xiang call out a price, both the White Tiger and Li Baojun were startled. They never thought that this unremarkable profoundbing gourd would actually have something inside.

Lv Qinlian also wanted to see what was inside the bottle gourd profoundbing.

After Chen Xiang called out the bid, it was quiet. Although someone wanted to try their luck, with the scene of Han Kang suffering, coupled with the 100 billion Spar, many people gave up on the idea. Even if they tried their luck, they would at least need to find a decent profoundbing.

The host gently sighed, and shouted: "Deal, please allow this friend here to deliver the Spar, then we will break the profoundbing on the spot!"

[Chapter 1039](#)

Chen Xiang never thought that no one would snatch the profoundbing away from him after he yelled out the price. To be able to obtain it at this price was far beyond his expectations.

"Is there really a treasure inside this profoundbing gourd?" Lv Qinlian, White Tiger and Li Baojun immediately asked him via sound transmission when they saw him walk onto the stage.

Long Xueyi, Su Meiyao and Bai Youyou who were still in the ring also asked.

"My Chaos Divine Eye cannot completely see what is inside, it only has a shadow inside, so it might not be a treasure but something else," Chen Xiang replied as he took out a Storage bag and handed it over to the auctioneer.

The old man responsible for breaking the profoundbing walked over, held out the purple flame on his finger and extended his hand towards the profoundbing.

At this time, many people stood up to watch. Although the profoundbing did not look like much, it was after all a piece of profoundbing. Moreover, it was rather strange with two different colors changing between each other.

At that moment, Chen Xiang's eyes became extremely sharp. Like lightning, he reached out his hand and grabbed towards the pile of shattered pieces, and many sharp-eyed people already saw that there was a light blue stone within the pile of ice crystal fragments. Although it was only the size of a walnut, it gave off a very unique feeling, as if it was a huge mountain.

Chen Xiang grabbed the light blue stone in his hand and shouted fiercely, because that stone was very heavy. If he did not react, he would not have been able to grab it.

"It's the Void Heavenly Stone! It's actually so big!" An elder in the private room exclaimed.

It was said that a Nihilism God Stone the size of a grain of sand was equivalent to the weight of a mountain and was extremely sturdy. If a Nihilism God Stone was added in during the refining process, it was very likely to become a high quality immortal equipment.

"It really is the Void Heavenly Stone. Seeing how much effort it took to lift it, it was definitely correct."

"I heard the Green dragon demon-slain broadsword's blade was made from this sort of thing."

"A Heavenly Stone the size of a grain of sand can be sold for an astronomical price in the Heaven Realm, let alone such a large one."

The big shots in the room were all sighing and jealous of Chen Xiang. They saw how easily Chen Xiang kept the Void Heavenly Stone into the Storage magic treasure and knew that Chen Xiang had an extremely powerful Storage magic treasure. This kind of person was definitely not someone to be trifled with.

Ling Feng, who was in the Purple Moon Imperial Land, was currently green in the face. She had been in the Heaven Realm for a long time, so she naturally knew how precious a Heavenly Crystal was, and that was something that couldn't be evaluated. Especially for those large powers, having such a Heavenly Stone meant that they could refine a high quality saint artifact.

Chen Xiang was very excited to receive the Void Heavenly Stone, but he calmly walked back to his seat, as if nothing had happened, and calmly sat there. Even if someone beside him wanted to get close to him, he would not care.

Many people were extremely jealous of him, because he only used a hundred billion Spar to buy such a huge piece of Void Heavenly Stone. What kind of dog shit luck was this, many people extremely regretted not bidding just now.

The upper echelons of the Gold Sun Sacred Realm were finally much more balanced in their hearts. Although the Heavenly Void Stone was not more valuable than the Philosophic stone, they were still inexplicably happy when they saw the expressions on the group of Purple Moon Imperial Land s.

"Everyone has seen, our Purple Moon Imperial Land's profoundbing did not fake anything, everything depends on luck and luck. This old mister just now used 101 billion Spar s to obtain such a large sky stone," the host forced a smile, he had known earlier that the price would be even higher, but he did not.

The second piece of profoundbing made a divine stone like the Void Heavenly Stone, making the Purple Moon Imperial Land not want to continue auctioning it. He wanted to break all the remaining profoundbing, but he would definitely be despised by many people.

The third piece of profoundbing was brought up, this piece of profoundbing looked much better than the previous bottle gourd profoundbing, it also had a shape, it looked like a tiger lying on the ground, only it was grayish-black, but its surface was extremely bright, and there was a cold Qi on the surface, it looked somewhat Evil, and its size was also very big.

There are no treasures inside the profoundbing, you can't just look at its outer appearance, just a bottle gourd profoundbing is an example, "The host saw that everyone was hesitating, and continued to speak:" If you want to obtain the treasure, you must first fight for it, like that old mister just now, you are not stingy with the treasures, and buy that unremarkable bottle gourd profoundbing, and in the end, you will get an incalculable Heavenly Stone. "

"The starting price is one hundred and fifty billion, and each bid increase must not be lower than one hundred million Spar. Starting now ..."

Then, Chen Xiang immediately called out a bid: "Fifteen hundred and twenty-two billion."

When everyone saw that it was this lucky star calling out a price, they immediately started bidding, because Chen Xiang gave off a very calm and collected feeling, looking at him, he looked like an expert. Everyone did not understand anything about these profoundbing, so when they saw Chen Xiang bid, they also followed along.

Lv Qinlian sent a sound transmission to Chen Xiang, because Chen Xiang's bidding was very fierce and fierce. Every time he bid, it would bring in billions of treasures and it would also attract many strong people from the private rooms.

"No treasures, I was just toying with them," Chen Xiang replied with a smile.

After being together with Li Baojun for a long time, they knew Chen Xiang's tricks, so they could tell that Chen Xiang was purposely misleading others. Moreover, Chen Xiang had said before that if the second profoundbing with a treasure appeared, he would absolutely not buy it himself.

The more Feng Quan looked at it, the more he felt that there was a treasure inside the Black Tiger profoundbing. Feng Quan was currently in charge of the Feng Clan that had been tormented by Chen Xiang many times, and the number of Spar was also limited. However, he also wanted to try his luck.

This piece of profoundbing had already exceeded the price of the first piece, and many people had already stopped bidding.

After the hammer landed, Feng Quan walked up the stage to hand over the Spar. However, he regretted his actions now, and regretted his impulsiveness, but the Void Heavenly Stone from before was too enticing, which was why he took the risk to bid for the Black Tiger profoundbing.

"Leader, you tricked me, but this also made Purple Moon Imperial Land make a lot of money," Li Baojun laughed.

"It's nothing. It's not like I'm making my Spar anyway, and it can also make the relationship between Purple Moon Imperial Land and myself worse," Chen Xiang didn't care at all.

[Chapter 1040](#)

Just as the old man from the Purple Moon Imperial Land was about to break open the profoundbing, he was stopped by Feng Quan.

"Can I do it myself?" Feng Quan was a Ranker from Heaven Realm, it would be easy for him to break this profoundbing, he felt that the probability of him dropping a treasure like this was higher.

To him, breaking through profoundbing consumed a lot of energy. Every time he broke a piece of the profoundbing, it would seem as if he had aged a few years.

A white glow suddenly seeped out of Feng Quan's fingertip and entered the Black Tiger profoundbing. The profoundbing was stimulated by the immense power from the outside and immediately turned into a pile of ice crystals.

Feng Quan immediately rummaged through the pile of ice crystal particles with his eyes wide open, looking extremely anxious, but no matter how much they rummaged, they couldn't find anything inside. This made him secretly curse in his heart, and an indescribable rage arose in his heart.

He deeply felt that he had been deceived. The Purple Moon Imperial Land had obtained such a peculiar group of profoundbing.

let out an angry snort and returned to the private box. Giving Purple Moon Imperial Land so many Spar for free, no one would be happy about it, but Purple Moon Imperial Land had also taken a huge risk.

He earned another one hundred and forty billion Spar, which made the higher ups in Purple Moon Imperial Land feel a lot more comfortable.

The auctioneer said that there were a total of fifteen unique profoundbing. The profoundbing that were brought up next, all had different shapes and colors, and compared to the profoundbing from Golden Yang Building, they were all extremely special, because it was very hard to understand why these profoundbing that did not have anything in them could be so beautiful. For example, the white lotus profoundbing from before.

In the next few auctions of the profoundbing, Chen Xiang only participated a few times. He released the fog, causing people to think that he stumbled upon it by chance, but he did not participate anymore, because he did not even manage to see what was inside the profoundbing.

Very quickly, it was the last piece. The profoundbing s from before were all bought, but their prices were all very low, with the highest price being 500 billion, and no treasures appeared at all. As long as the number of distinguished guests in the box exceeded 300 billion, they would not increase their bids.

He had already auctioned fourteen profoundbing s, but aside from one that had sold Sky Stone, the other profoundbing s had nothing. Moreover, there were many strange profoundbing s that looked very beautiful, but they were still empty inside, and everyone understood now, the more beautiful the profoundbing, the less treasures would be inside, because the profoundbing that had produced Sky Stone and Sky Profound Stone previously did not look very pretty.

Finally, they reached the last piece. However, everyone's mood was very low. It seemed that it wasn't going to be easy to sell.

What was brought up was a very huge profoundbing, it was as big as a bed, elliptical in shape and pitch black in color. However, there were many dots of light on the surface, which made people feel like it was a star chart, because those dots of light on top of the profoundbing wanted to see what was formed in the night sky.

This piece of profoundbing was actually like a star map, it was extremely magical, causing many people's hearts to palpitate. Although this piece of profoundbing looked very good, but when everyone thought

about the beautiful profoundbing s from before, they all gave up on thinking about it. It seemed not bad, but there was a high possibility that there were no treasures inside.

"The starting price is 500 billion Spar," the host shouted. Since the starting price was already so high, many people had to give up, and if they had to fight over it, they might even reach the top price of a trillion. There were more than ten examples in the past, and many people had already become very rational, not losing their ability to think just because of their appearance.

"Senior, seize him," Chen Xiang looked inside the Chaos Divine Eye, and saw that there was something strange going on, he hurriedly sent a sound transmission to the White Tiger.

The White Tiger immediately raised the bid, "50.1 billion."

Before, because two giants had lost over a trillion Spar, later on there were only a few hundred million or so Spar, but now the starting price was too high, so it had exceeded the limit of many people.

This is my last chance, the profoundbing looked like a small starry sky. If it suddenly became pitch black here, no one would be able to tell if the stars on the profoundbing are real or fake, "the host said, as he thought the price was too low.

"So what? Don't tell me there really is a treasure inside? You can be certain, don't fool people. You guys sold so many profoundbing and only one treasure came out."

"Looks like it won't work. If it doesn't look good, I think I'll think about it."

Now, many people were certain that they would not be buying beautiful profoundbing. The previous example told them that beautiful profoundbing did not contain any treasures.

"I can buy quite a few ordinary profoundbing with five hundred million. It's just a test of luck anyway, so I might as well use those profoundbing. Now, it seems that these strange profoundbing are no different from those ordinary profoundbing."

Everyone agreed with this statement. Many of them had heard that there was a trend to sell profoundbing at the profound Cold Ancient Realm, but because many people could not get anything from the profoundbing, they did not plan to sell it themselves.

"Deal!" The host sighed in his heart and shouted.

He was a little excited in his heart, because he knew that there must be something inside. Although he was strong, to be able to experience this kind of joy in the ordinary world made him feel that it was very meaningful, especially when he was together with Chen Xiang, the great swindler.

There were also quite a few Spar on the White Tiger's body. After he finished delivering them, he hurriedly said, "Don't get rid of them yet, I want to take a look so that I won't be able to see such a magical thing again."

The White Tiger was speaking the truth. He caressed the star-like dots of light above the profoundbing and when he got closer, he could see that other than the glare of the multicolored light, there was nothing else special about it.

Everyone felt that the Purple Moon Imperial Land must have gotten a lot of these strange profoundbing, but they could not get any good stuff from them, so they took them out to sell. Thinking of this, those people that bought the profoundbing before felt very unhappy.

"En, we can shatter it now," Bai Hu said as he took a step back. He didn't want to show off his strength, so he let the old man from Purple Moon Imperial Land do it.

The old man took a deep breath and gathered all the strength in his body into his fingertip, causing a strong flame to gather on the tip of his finger.

His fingertip lightly tapped on the huge black profoundbing and coincidentally tapped on a light blue colored light that was emitting from it. The entire profoundbing also crumbled in an instant, turning into a large piece of debris.

Suddenly, with a "hua" sound, the ice shards were blown away by a force. He saw three black beads emitting waves of terrifying black air. This piece of profoundbing actually produced a treasure.
