

Dan God 1111

[Chapter 1111](#)

Chen Xiang hid to the side and watched the battle between Long Huishan and that old man Wang. What he did not expect was that Long Huishan's strength was actually very strong, which made him feel that Long Huishan had faintly reached the level of that Purple Moon, causing this old man Wang to be unable to succeed for a long time.

The power that Long Huishan was using was actually the Dragon Power, and it was even an ice-cold Dragon Power. When the longsword was swung out, it could always set off gusts of cold wind, and if it was struck, it would definitely be extremely uncomfortable. However, that old man Wang could actually block Long Huishan's sword with a pair of flaming fists.

"This old bastard is a Alchemist, you better not tell me you have a Fire Soul ..." Chen Xiang muttered in his heart: "Motherf * cker, there really is one!"

"White Fire Soul!" Chen Xiang was startled for a moment. This kind of Fire Soul was an abnormal Fire Soul.

"sister Meiyao, this white Fire Soul is obviously for you!" Chen Xiang took out the Death-haunting arrow, waiting for the chance to take action. He felt that he and Long Huishan were on the same side now, and if he wanted Old Man Wang's corpse, she would definitely give it to him.

Just as Chen Xiang had guessed, a change had happened to the Long family. Long Huishan's father, the Patriarch, had died, and according to the rules, the position should be given to the Patriarch's children. Other than Long Huishan, all of the other sons of the Patriarch had been killed.

In order to obtain the position of clan leader from his uncle, he wanted to kill Long Huishan no matter what, but Long Huishan was being protected by a powerful warrior from the clan, and that expert was obviously the one that Chen Xiang sensed earlier, he should be dead now.

"This girl is really secretive. She's trying to trick old man Wang into wanting to know who killed her great-uncle. Without even guessing, you can already tell that it's her uncle's group!" "If it's me, just kill those people if you have the strength to do so in the future. Stop wasting your breath on old man Wang right now." Chen Xiang could see the terrifying Dragon Power in Long Huishan's body.

"No, she seems to be poisoned. Even though she can't use her full strength, she still has to suppress the poison in her body!" Long Xueyi said.

Chen Xiang suddenly thought of the pellet Old Man Wang had given them, but Old Man Wang had said that it could quickly recover his strength, he did not expect it to be a poison pellet, but he remembered that neither he nor Long Huishan had eaten it and only kept it.

He immediately took out the poison pill and examined it carefully. He discovered that the poison was concealed on the surface, and any touch would result in poison!

"This old thing, I'll let him see what the most powerful poison is and how he dares to play this trick in front of me!" Chen Xiang decided to test the Drunk god powder using this Old Man Wang.

"Haha ..." You must have already discovered that you are poisoned, you will definitely die today! " Old man Wang laughed.

"When did you poison it? This should be the Origin Sealing Poison! " Long Huishan's face turned ugly. If she was not poisoned, she would have killed this Old Man Wang a long time ago.

"When you took the pill from me, you were poisoned! "Don't worry, I'll send you to see that kid very soon. He died in such a pitiful way and I don't even know why he was killed by me." Although Elder Wang knew that Chen Xiang was not simple, he believed that if he were to use his palm, even Long Huishan would be heavily injured, let alone a poisoned brat.

"The Ice dragon sword and Jade Dragon Flower on him are mine now, haha ..." Old man Wang fought with Long Huishan as he laughed loudly.

Long Huishan suddenly spat out a mouthful of blood. Right at this time, Old Man Wang's palm landed on her abdomen, causing the poison in her body to spread even faster.

"Hmph, you want to fight for the position of the Long family's Patriarch with your master? You overestimate yourself!" Elder Wang took out a big blade, but he did not know that Chen Xiang, who was hiding in the treetop, was aiming at him with his Death-haunting arrow.

"An old fellow dares to kill a Leader like me? You overestimate yourself!" Chen Xiang sneered in his heart, took out a Drunk god powder, and let the transparent powder condense inside the crossbow arrow.

The crossbow arrows were condensed out of his powerful strength. Once the Drunk god powder was placed inside, as long as it pierced the enemy's body, the Drunk god powder would scatter inside, and the poison would spread at a rapid pace.

"Old bastard, don't get cocky!" Chen Xiang steeled his heart and released an arrow.

Old man Wang immediately sensed it and instinctively released a barrier of light. However, a powerful Dragon Power condensed on top of the crossbow arrow and directly pierced through his barrier of light. The crossbow arrow accurately pierced into his heart from his back.

Old man Wang's body was extremely strong. The arrow exploded within his body, but it could not shatter his heart. He immediately howled, but his expression suddenly became very ugly.

Because he couldn't do it anymore, his entire body was soft and weak. He quickly discovered that this poison was not simple. It was very likely to be the kind of poison that was rumored to be found in legends.

"Drunk... "Drunken god ..."

Chen Xiang did not let him speak, he rushed forward and waved his green sword, cutting off the head of the old man Wang. Then, he activated Devouring magic kungfu and started to absorb the white Fire Soul from his body, condensing it into a bead!

Long Huishan just sat on the ground and looked at this scene in shock. She thought that Chen Xiang had been killed with a single palm, but she never thought that he would actually appear and kill the old man.

"You should have the antidote pill, right?" Chen Xiang removed the old man Wang's Storage magic treasure s and took out a hundred thousand or so Spiritual crystal s and a bottle of that poison pill.

Seeing that Chen Xiang did not do anything to her, Long Huishan heaved a sigh of relief and took out an antidote pill to swallow. At this moment, she felt that the person in front of her was extremely mysterious, being able to easily pull out the Ice dragon sword, and furthermore, using the legendary Super Old poison s.

That sword was formed from Chen Xiang's Green dragon demon-slain broadsword, just so that it would not attract attention.

"Thank you!" Long Huishan took off the black veil, revealing a beautiful yet haggard face, giving people a shocking feeling. It was Chen Xiang's first time seeing her complete appearance.

"You're welcome. I just think that you have the chance to take back the position of Long family's head. If I wish you success, then I will be very convenient here in the future, no?" Chen Xiang laughed.

"Of course, I need your help right now. If you can wish for my success, there will definitely be benefits!" She knew that Chen Xiang was a smart person and already knew the situation she was in.

If Long Huishan wanted to succeed, she would need to obtain the inheritance of the Ancestral Dragon from the Dragon Cave, which allowed her to obtain a very strong power!

"When I have fully recovered, we will immediately rush over. If this old man Wang fails, my uncle will definitely send someone to wait for us on the road to Dragon Cave!" Long Huishan sighed lightly. She felt that the whole journey would be very difficult.

[Chapter 1112](#)

Long Huishan had quite a few good pills, and she was a strong Ranker herself, so it wouldn't be long before she recovered to her peak.

"Miss Long, my strength is far inferior to yours. If your uncle sends someone, your strength should be about the same. When you and I are together, I'm worried that I won't be able to withstand their full strength. At that time, I might even implicate you!"

Chen Xiang did not retreat, but instead, he did not plan to walk together with Long Huishan.

Long Huishan nodded his head: "You are right, the person my uncle sent to kill me is definitely not weaker than me. If there were only a few of you, you would be in danger."

Chen Xiang said: "I plan to follow you in the dark. If you fight with those people, I can also provide support in the dark!"

Long Huishan immediately laughed softly: "What a good method to secretly support you, then let's make a deal, your methods are indeed not easy to use."

She already knew about Chen Xiang's Drunk god magical poison, but she did not ask or bring it up. She was very clear that Chen Xiang exposing this kind of thing was because he saved her. Even though Chen Xiang's strength was not strong, she was her savior and the only person she could trust. Before being

poisoned, that was when she was at her weakest. Any one of them could have crippled her, but Chen Xiang did not do anything to her.

"Young Master Yun, I shall slow down so that you can keep up! You must be careful along the way. "

"If you use 80% of your speed, I can keep up." Chen Xiang was very confident in his own speed.

Chen Xiang maintained a distance with Long Huishan, dodging some of the nearby stealth and followed closely behind her. If Long Huishan chose to stay in the forest, it would make it easier for him to hide.

She thought that Chen Xiang would not be able to keep up with her, so she stopped for a while before receiving Chen Xiang's sound transmission. This made her a little surprised, as she could not understand why Chen Xiang was so weak, but had a higher concealment ability than her.

Chen Xiang had merged with a Caomu heavenly Dan before, and he had Grass Wood Spirit afterwards, which allowed him to merge with nature, causing others to not be able to sense his existence. He felt that after the Caomu heavenly Dan fused with his Grass Wood Spirit, it might become even more powerful, but that would still require more time.

"Young Master Yun, our Long family has domesticated a Spirit Beast called a Dragon Dog. This kind of Dragon Dog is not very strong, but its speed and final ability are very powerful, especially for those with the Dragon Bloodline!"

Long Huishan followed the imprint Chen Xiang had left in her sea of consciousness and transmitted sound. If it wasn't for that, she wouldn't have been able to find Chen Xiang.

"Then won't it be easy for them to find you?"

Chen Xiang was not worried that the dragon dog would notice him. Although he had a lot of dragon blood in his body, his concealment skills were very strong, so it was not easy to break through.

"My uncle will definitely ambush me on the way. As long as I am heading towards the Dragon Cave, I will definitely encounter an ambush on the way."

Chen Xiang made Long Xueyi execute Heaven tour method, and wandered around Long Huishan to prevent people from lying in ambush. If he could find them in time, he would use Death-haunting arrows and Drunk god powder s to strike first.

"Something is coming!" Long Xueyi shouted, "It's a few dogs, they are fast!"

Chen Xiang immediately reminded Long Huishan: "The dragon dog is coming towards you, it's speed is fast, I believe that those people are nearby, be careful!"

Long Huishan was very surprised, the dragon dog's sense of smell was very sensitive, not only was its tracking ability strong, its concealing ability was also clever, but Chen Xiang could see that she really wanted to know the background of this "Young Master Yun".

"There are ten dragon dogs!" Chen Xiang then told it to Long Huishan.

"Ah... For all these years, the Long family has only nurtured ten. I never thought that all of them would actually make a move! " Long Huishan was already prepared for battle.

Long Xueyi said: "I'll go kill those dogs. Seeing the dragon blood on their bodies makes me feel uncomfortable."

Chen Xiang thought as he swam out and looked around him. Suddenly, he saw three figures flying over, looking like they had jumped from a very far distance, it was evident how powerful these three people were, following that were the ten dragon dogs pouncing towards him, the three old men and their ten big dogs surrounding Long Huishan!

Just when the three old men wanted to put the dragon dog back into the profound beast bag, Long Xueyi shouted, "Die!"

The ten dragon dogs suddenly howled and fell to the ground and died, Chen Xiang guessed that it was Long Xueyi's mental attack, so dealing with these Spirit Beasts would not be difficult.

"Kill her!"

The three old men were furious. The dragon dogs were a rare item, over the years, they had only grown ten, which had cost them a lot of resources. However, they were suddenly killed, and thought that Long Huishan had killed them.

Long Huishan was being attacked by three strong elders. Although she looked like she was being suppressed, she was not at a disadvantage, and could even make the old men's bodies get punched or two from time to time. Clang clang clang clang clang.

"No wonder Uncle Long Huishan was so worried about her. With her strength being so strong, she definitely has the qualifications to be the Patriarch of the Long family. Her strength should be the same as the Super Yuan Sect Leader, just a step away from becoming an Immortal King! "Although I am just a step away, there is still a huge gap in strength!" Long Xueyi said.

Chen Xiang watched from the side, waiting for the best opportunity to make his move. He had a lot of experience in sneak attacks, and there were countless people who had suffered from his schemes, and the majority of them didn't even know how they died, or who caused them to die.

"Then how did Super Yuan Sect Leader manage to kill that Three horns Dragon King? The Three horns Dragon King should be more powerful than the human Immortal King. The strength of the Super Yuan Sect Leader is not even on the Immortal King level. "

Chen Xiang had been wondering the whole time.

"There is only one possibility, Super Yuan Sect Leader used Drunk god scent! He is very familiar with that group of Primal Chaos Barbarians, so it is not strange that he could get his hands on Drunk god scent. Although Three horns Dragon King is a Poison Dragon, if he was facing a large number of Drunk god scent, he would still have to kneel. " Long Xueyi felt that this was the only explanation.

Chen Xiang had already condensed a crossbow arrow that contained a large number of Drunk god scent. These three elders surrounding and attacking Long Huishan were only slightly weaker than him in terms of strength, but if it was those Tong Tian Aristocratic Families and sage realm giants, they would definitely not be able to block ten moves.

The Sacred Dan Realm was indeed the same as the Heaven Realm. There were as many experts as clouds in the entire Long family.

"So what if you're an expert? Aren't you going to die because of me?"

Chen Xiang took a deep breath and continued to gather his energy. He planned to shoot three arrows at a time.

"Miss Long, quickly dodge it!" Chen Xiang sent a sound transmission to Long Huishan, and this was also a good opportunity for Long Huishan to escape.

The moment Long Huishan dodged, Chen Xiang activated his Death-haunting arrow and released three arrows that pierced through the air. Although they did not hit the place Chen Xiang locked onto, the three crossbow bolts that contained a large number of Drunk god powder still struck the three elders.

[Chapter 1113](#)

These three old men were even more powerful than the old man Wang. They were able to quickly discover that they were being plotted against, and immediately circulated all the energy in their bodies to resist the Drunk god powder's poison. However, after the crossbow arrows had pierced into their bodies, the gathered Drunk god powder's burst out, their spreading speed was extremely fast, in a blink of an eye, they had reached their four limbs, and in a short period of time, their entire bodies were anesthetized.

Long Huishan seized the opportunity to avoid any unforeseen events, and wielding the light blade, he came to the side of the three elders.

"Super Old poison, drunk god! Who was it ...? "What is it..."

Long Huishan did not allow him to waste any more words. With one slash, three heads fell off.

"They didn't bring anything with them. It seems like they are worried that they won't be able to go back!" Long Huishan used his blade to pick at the corpses of the elders, but he did not find any Storage magic treasure s.

"Let me clean it up. Go far away!" Chen Xiang walked over. He was worried that when he was burning the corpses, the Drunk god magical poison would float out.

Only after Long Huishan left the area did Chen Xiang set fire to the corpses of the three people. He originally planned to take out the three people's Heaven Pills, but the Heaven Pills were destroyed due to the intoxicating poison.

"This woman should be at the late stage of Immortal Monarch, or even at the peak of Immortal Monarch. Even if you don't kill those three old fellows, giving her some time would be enough to kill those three old turtles." Long Xueyi said.

"Immortal Monarch?"

This was the first time Chen Xiang had heard this name, so he continued to rush forward. Just like before, Chen Xiang continued to separate with her.

"After transcending the nine Nirvana Tribulations, one would become a Worldly Immortal, also known as Immortal. Demons are called Devil Immortals, while Demons are Demon Immortals!" Above them will be Celestial Immortals, Celestial Demons, and Celestial Demons. There are many people at this stage. Long Xueyi said.

"sister Meiyao, Sister You You You, how strong were you in the past?" Chen Xiang was extremely curious, because they needed the Holy level's medicinal pellets in order to recover their peak strength.

Su Meiyao and Bai Youyou did not answer, but Long Xueyi guessed, "It should at least be a mid or late stage Immortal King! The Immortal cultivation realms were divided into four levels: the front, middle, back, and peak. Under normal circumstances, the strength of each small level was far different. "If it's you and me, you can't use common sense!"

"The strength of a late stage Immortal King? Isn't that close to the strength of Ten Heavens Supreme Lord? " Chen Xiang said in shock.

"Far from it." Long Xueyi said.

"Then what about Lv Qinlian? She is the Demon Empress, so she should have the strength of the Immortal King! " Chen Xiang asked again.

"She should be a Little Immortal King, but she isn't that type of attack. She specializes in poison, so she doesn't look that powerful." but it's also very powerful. It's poison, you know. "

As he got closer and closer to the Dragon Cave, Chen Xiang guessed that if Long Huishan talked about the Ice Dragon Inheritance, she would probably become a Immortal King. With this person as a backer, he wouldn't need to worry about any unspoken rules anymore.

In front of him was a huge iceberg. The cold wind blew and the nearby forest was covered in frost. After leaving the forest, the cold wind became stronger. When it blew across his face, it felt as if he was being cut by a blade.

Even up to here, Chen Xiang still maintained a distance from Long Huishan.

The facts proved that this was true, because just as Long Huishan walked out of the forest and headed towards a gigantic cave, a man in a red robe suddenly appeared. This man looked pretty delicate and pretty, and was similar to Long Huishan.

"My dear sister, you are truly amazing! The three elders were all killed by you, and not to mention so fast. From the looks of it, you seemed to be very relaxed back then! "But now ..."

The red robed man had an evil smile on his face and his voice sounded weird. When Long Huishan saw him, his face turned ugly.

"You ... Why are you here? Weren't you already sealed by my father? " Long Huishan anxiously took a few steps back, but suddenly there was a burst of red Qi around her, causing her to be unable to move.

Chen Xiang could already tell from her expression that this red robed man was very powerful.

He took out the Death-haunting arrow, and just as he was about to attack, the red robed man suddenly flashed and slapped Long Huishan's lower abdomen. Long Huishan let out a miserable cry as he fell onto the ground.

The red robed man grabbed onto Long Huishan's long hair and laughed sinisterly: "Your blood must taste good, but I will let you live for a while longer, you better hand over the Ice dragon sword, otherwise I won't let you die happily."

"Death-haunting arrow is useless, this guy has a powerful aura. Judging from his strength, he should be at the peak of Immortal Monarch!" Long Xueyi said.

"The Ice dragon sword is not in my hands!" Long Huishan said in pain. Not only was the red robed man's strength strong, his methods were also strange. Chen Xiang could not understand why he could knock Long Huishan down with a single palm.

"Humph, that kid isn't with you, he must have died on the way, the Ice dragon sword is definitely in your hands!" The red-robed man's knee fiercely smashed into Long Huishan's abdomen, bringing with it a burst of red Dragon Power, but the blood that Long Huishan spat out, was actually all sucked away by the red-clothed man.

Chen Xiang's eyes lit up. He had thought of a brilliant plan, but it was extremely risky!

Although he was hiding at the side, he was not discovered, and Long Huishan did not say that he was nearby either. Furthermore, Long Huishan had a face full of despair, clearly hoping that Yun Che would not come out and save him, because that would only harm him.

Chen Xiang took out all the Drunk god powder s, and quickly refined the Drunk god powder into a gaseous state. After he was done, he absorbed the large amount of intoxicating poisonous gas into his body, and then took out the Ice dragon sword s, and poured them into the Ice dragon sword!

"Long An, even if I die, I won't hand over the Ice dragon sword to you. Just give up on this thought of yours. If you kill me, you won't get anything!"

"Let's see how long you can last!" Long An struck towards Long Huishan's abdomen again, and some red, evil Dragon Power were even injected into it. One could tell at a glance that it was that kind of thing that caused Long Huishan to be in extreme pain.

"Stop! The Ice dragon sword is with me!" Chen Xiang suddenly rushed out.

Long Huishan glared at Chen Xiang and sent a sound transmission to Chen Xiang: "Why did you come out? You absolutely cannot let the Ice dragon sword fall into his hands. You and I have no chance of winning against him! "

Chen Xiang did not respond to Long Huishan. When he saw that Long An was going to attack him, he immediately shouted: "If you dare touch me, I will kill myself, and my Storage magic treasure will disappear with me!"

"You want to use the Ice dragon sword to exchange for this woman?" Long An looked at Chen Xiang with disdain. In his eyes, Chen Xiang was just a little bug that he could squash at any time.

"That's right, let him go, I will hand the Ice dragon sword to you!" Chen Xiang said.

"How do I know if you have a Ice dragon sword?" Long An sneered. "This woman has some ability. I don't want her to have the chance to counterattack me."

[Chapter 1114](#)

Long Huishan anxiously transmitted to Chen Xiang: "Don't ever take out the Ice dragon sword. He can control you in an instant!"

Long An struck Long Huishan again, and the red colored Evil Dragon Power caused Long Huishan to feel excruciating pain. Chen Xiang furrowed his brows, and took out the Ice dragon sword!

Seeing Chen Xiang take out the Ice dragon sword, Long Huishan shut his eyes in despair!

Indeed, just as Long Huishan said, Chen Xiang was instantly suppressed and was unable to move at all, while Long An had already rushed over. After grabbing the Ice dragon sword in Chen Xiang's hand, he sent it flying with a palm, and all of this happened in an instant!

Chen Xiang was struck heavily with his palm. In the eyes of Long Huishan and Long An, he should be dead, but not only was Chen Xiang not dead, he had even arrived at Long Huishan's side in an instant. He held Long Huishan up, stepped on the Shrinking step, and dodged Long An's palm strike from afar.

Long An saw how cunning Chen Xiang was and was enraged. He pulled out his Ice dragon sword and a cold wind blew across the sky. At the same time, Long An laughed crazily: "Haha The Ice dragon sword is mine now, only I can pull it out of the Long family, haha ... "

But his laughter quickly stopped, his face suddenly turned green, and he threw away the Ice dragon sword s!

The moment Long An pulled out the sword, the cold energy within the Ice dragon sword gushed into his body crazily, while Chen Xiang poured a large amount of Intoxicated Divine Poison into the Ice dragon sword.

Chen Xiang put down the stunned Long Huishan, took out the Green dragon demon-slain broadsword that had turned into a green sword, and walked over with a smile: "Since you can pull out the Ice dragon sword before you die, you should be able to die with peace in your eyes!"

Long An collapsed onto the ground. He used all his strength he had, but he could only make his body tremble, his handsome face was sinister and angry. His hateful eyes seemed to want to bite off all of Chen Xiang's flesh one bite at a time.

"Little bastard, what did you do to me!?" Even now, Long An still didn't know that it was a Drunk god magical poison.

"Haha ..." You want to know? But I won't tell you. I'll make it worse for you after you die! " Chen Xiang laughed out loud, and instantly released hundreds of sword attacks.

The Divine Weapon could destroy everything. Long An, who had been struck by the Drunk god magical poison, was instantly chopped into minced meat like tofu, before finally being burnt to ashes.

Chen Xiang kept his Divine Weapon and patted the red Evil Qi on his body. With a smile on his face, he walked towards Long Huishan, but along the way, Long Huishan witnessed him killing many powerful warriors!

Although his strength was very weak, his methods were heaven defying. At this moment, she was somewhat fearful of Chen Xiang, she had thought that she was someone who was about to become the Long family's patriarch, and was considered quite an influential person in the Sacred Dan Realm. However, the man in front of her was clearly more powerful, and this was the second time she had been saved!

Moreover, she was saved by someone who was much weaker than her!

Chen Xiang laughed, "What is this guy's background? "Why does he call you little sister? This guy has such a beautiful little sister like you, it really makes people jealous!"

In the Sacred Dan Realm here, as long as they talked about Long An, no one would not be afraid! But Chen Xiang did not know, Long Huishan suspected that Chen Xiang came from that Sacred Dan Realm, but she understood Sacred Dan Realm very well, other than the stronger Chaotic Mountain, the rest of them would not even be able to enter the stage, for such a place to actually have this kind of [Innate].

"Long An is the eldest son of my uncle. 300 years ago, because he killed hundreds of thousands of people, he was sealed by my father, but I don't know where he obtained this evil art, which was especially used to absorb other people's flesh and blood to strengthen himself. After killing hundreds of thousands of people, he has already reached the early Immortal King Stage!"

Long Huishan consumed a pill that looked like a ruby, making her complexion look much better.

"I never thought that my uncle would actually release such a fellow. Back then, it wasn't easy for my father to control him, but now ..."

Long Huishan thought back to when he was hit by Chen Xiang's swift sword just now, and his heart had a lingering fear. But what was fortunate was that Chen Xiang had treated her very well, and did not have any ill intentions.

"I am truly ashamed. My strength is clearly much stronger than yours, yet it is so useless. I have been helped by you to this extent, and we have only known each other for a short period of time." Long Huishan faintly sighed.

"Hehe, those stronger than me, I've killed quite a number of them, don't mind them!" Chen Xiang laughed a little complacently.

"Where did you come from?" You are definitely not from here! "

Long Huishan's injuries were much better now, so he and Chen Xiang walked towards the ice mountain's large cave.

Chen Xiang asked, "Am I from Di Tian? Have you heard of Di Tian? "

Long Huishan's face regained its rosiness as he said happily, "I heard of it, but it broke at that time and is slowly forming again. I heard that Di Tian is very big, when I have the chance, I really want to go and take a look."

Chen Xiang giggled: "Miss Long, if you can get the position of Clan Leader, at that time, I'll need you to help me get some precious medicine."

Long Huishan was surprised: "I didn't expect you to be a Alchemist, it's so rare, I've rarely seen a Alchemist running around by himself! "Oh yeah, if you don't mind, just call me Sister Long ..."

"My brothers and sisters are dead. I will definitely become the Long Family's Patriarch and kill those bastards who persecuted my family!"

Long Huishan turned his grief into strength, his face full of stubbornness!

"Sister Long, you will definitely succeed!" Chen Xiang encouraged her, then asked: "Big sister Long, do you know anything about that Sacred Dan Realm over there? "A while ago, something big happened over there."

Long Huishan frowned, a look of surprise flashing across her beautiful face: "Prince Imperial Dragon was killed by a person called Chen Xiang. Dragon Emperor was furious, and used her unparalleled strength to open a path to come here, but in the end, she knew that the person who killed Prince Imperial Dragon, Super Yuan Sect Leader, had returned after killing him."

Long Huishan looked at Chen Xiang weirdly. She had heard quite a lot about that Chen Xiang before, and she even asked about him in detail.

"Your surname isn't Yun, right?"

Chen Xiang scratched his head and laughed: "Is it because my surname is not Yun that I can't call you big sister?"

Long Huishan scoffed, "You lied to me for a long time!"

In her mind, she recalled the cyan colored long sword that Chen Xiang often took out, she suspected that it was the Green dragon demon-slain broadsword, but it did not look like a blade at all.

"Sister Long, you need to be clear, if the strong people here knew I was here, do you think I would be alright? I risked my life to tell you who I am. "

Long Huishan laughed tenderly, "Alright, you will still be Young Master Yun in the future! Oh right, you already have a Green dragon demon-slain broadsword, why do you still have your eyes on my Ice dragon sword? "

Chen Xiang deliberately revealed a face full of worry. "Sister Long, do you want to act like a spoiled child and then ask me for it back?"

[Chapter 1115](#)

Ice dragon sword s were the keys to the three Treasure Chests. Even if Long Huishan wanted to return it, he would absolutely not return it. 13800100.

"Of course not, Ice dragon sword are actually not suitable for battle, but they are very scary. Back then, my grandfather used this sword to scare a lot of strong warriors, and like I said before, if you can pull it out, I will give it to you! "Don't think so little of me."

As the daughter of the Patriarch, Long Huishan definitely had a lot of good things on her. Furthermore, she was very strong, and might even be the Patriarch of the Long family in the future. She was also an Immortal King.

After entering the Dragon Cave, a burst of cold wind suddenly blew, as if it had penetrated Chen Xiang's body, causing him to feel as if his insides were frozen, even the Divine Sense Sea seemed to have been frozen over.

On the other hand, Long Huishan was fine, at least Chen Xiang's physique and various protective measures were extremely heaven defying, but right now his entire body was shivering, and he had no choice but to use the Heaven fire in his body to defend against the cold.

"After my Long family's bloodline became an ice dragon, I heard that the Ice Dragon's Ancestral Founder and a dozen or so human girls had gotten along well in order to have my bloodline, but after inheriting it for so long, the bloodlines have become very thin. Even the purest of bloodlines, up until now, only a few can awaken the Ice Dragon's bloodline, and I'm one of them. Long Huishan narrated the history of the Long family.

Back then, my father knew that the bastard might usurp the position and use all sorts of methods to buy back some of the clan's elders. My father was outnumbered, and later on because my brother and brother were captured and threatened, he was distracted during the great battle and was eventually killed, and my brother and brother were not spared either!

When Long Huishan talked about these things, she was abnormally calm. She was already able to control her emotions, but that did not mean that she was not angry.

"You have always been hiding your strength, and your uncle knew that you possess the Ice dragon sword, so he planned to keep it for you. On the way, he would also use your value to marry you to a disciple of some power, and try to establish a relationship with you!" Chen Xiang guessed.

"That's enough, but after he found out I was going to the Dragon Cave, and was worried that I would obtain the inheritance of the Dragon Cave, and adding that I gave you the Ice dragon sword, he took action against me. But there was an elder protecting me in the dark previously, and this elder had been unable to break through for many years, so he was already burnt out.

The elder protecting her was already dead, and if she wanted to take back the Patriarch's position, she needed to have super strong strength to intimidate the entire Long family, kill all the elders who colluded with her uncle, and her hope was the Ice Dragon's inheritance in the Dragon Cave!

"This Dragon Cave is where the Ice Dragon Ancestral Founder lived all those years ago. We don't know whether he passed away or not, but my grandfather said before that there is something here that the Ice Dragon Founder left for us, and that we can only obtain it if we possess his bloodline. But over the years, the number of experts the Long family have entered the Dragon Cave, and most of them returned seriously injured, unable to go any further!"

Long Huishan looked around carefully along the way. On one hand, he had to protect Chen Xiang.

"It should be the Sea Suppressing Blood Bead that the Ice Dragon left behind. It contains the inheritance memories and the Ice Dragon's purest bloodline, and even the Dragon Pearl is fused inside. If the girl

can obtain it, her power will definitely increase by leaps and bounds, and you might even find out from her what dirty deeds the Ice Dragon has done." Long Xueyi said.

Chen Xiang also had a Ocean Subduing Pearl, and inside his Divine Sense Sea, his divine soul was wrapped within the Ocean Subduing Pearl, so he was a little doubtful about this: "The Ocean Suppressing Orb was left behind? Could the ice dragon be dead? Isn't the divine soul inside the Ocean Suppressing Orb? "

"Who said there can only be one Pearl of the Sea? There were still two Dragon Pearls from the Prince Imperial Dragon. There were quite a few powerful Primordial Dragons, Sea Suppressing Pearls and Dragon Pearls, but there were also some that were very large. For example, that poisonous dragon. Back then, the Ice Dragon couldn't find another female dragon to inherit its bloodline, so it had no choice but to find human women. These human women must be very strong, or else they wouldn't be able to stand him! "

Hearing Long Xueyi's words, Chen Xiang immediately said indignantly: "This bastard ice dragon, actually harmed so many women, it's really not a thing!"

The Dragon Cave was deep inside the ground, and this place was extremely cold. Chen Xiang felt that this kind of coldness was not caused by an ice dragon, but a natural one.

The entrance to the Dragon Cave was very big, but it gradually decreased in size later on, but it was still very wide, able to pass through dozens of people at a time. The passage spiraled downwards, and at first the passage was surrounded by ice, but after reaching the bottom, the walls were filled with rocks, only very smooth, with some traces.

"Isn't the Dragon Cave in danger? On the other hand, this icy cold power is very strong. If ordinary people were to enter, they would have been frozen to death at the door. " Heaven fire were moving inside Chen Xiang's body at any time, in case he got frozen.

Chen Xiang realized that the You Ming Deep Abyss that imprisoned the Super Old Fire Beast also had this kind of terrifying cold energy, and this place was much more powerful than the You Ming Deep Abyss.

Long Xueyi said: "The big lion was indeed sealed by this ice dragon, I really don't know the reason but what I can confirm is that this ice dragon is Ten Heavens Supreme Lord's friend. After Ten Heavens Supreme Lord died, the Ice Dragon Gang Ten Heavens Supreme Lord did a lot of things, such as placing the Green dragon demon-slain broadsword inside, and even created a passage leading to the core of the earth.

Chen Xiang curled his lips and said: "He even took twenty-six treasure chests. Oh right, the icy cold power here does not have the aura of a dragon, how do you know that the You Ming Deep Abyss's cold power is very similar to this place? "

Long Xueyi scoffed, "Are you doubting my feelings? I can tell you, the frost power here has a special attribute! I think this ice dragon definitely knows how to extract the energy inside the profoundbing, so it must be very dangerous for him to build this Dragon Cave! "

Last time, Chen Xiang melted those profoundbing that were turned into powder together and even lost control! If not for the sudden appearance of the White Tiger, if it were to erupt at that time, the people in the entire city might have been in trouble.

In the dark passage, Chen Xiang suddenly felt a dangerous aura, and anxiously grabbed onto Long Huishan's jade hands, pulling her back with force!

"What's wrong?" Long Huishan was also shocked by Chen Xiang. He immediately took out a long blade and looked around vigilantly.

Chen Xiang took out the Green dragon demon-slain broadsword, and then, prodded it forward. A translucent white light screen suddenly appeared in front of them, and the Green dragon demon-slain broadsword was immediately covered with a kind of light purple frost.

"It really is this kind of thing!" Chen Xiang pressed his palm against the blade of the sword, and the ice on the Green dragon demon-slain broadsword immediately turned into powder, becoming exactly the same as those Primordial profoundbing.

[Chapter 1116](#)

Long Huishan looked at the ice crystal powder on the ground and was a little taken aback.

Chen Xiang said with fear still lingering in his heart, "We were almost frozen to death in there. It is possible that countless years later, someone found us and broke the ice to discover us ... "13,800,100."

If they were caught in the ice, the bottom of the tunnel would roll down, and if they were rolling to the end, no one would be able to get them out.

"Then how do we get there?" Long Huishan already felt the terror of blocking the transparent wall in front of him.

"Haha ..." Within the cave, an extremely sinister laughter resounded.

Long Huishan suddenly squeezed Chen Xiang's hand, and even in the dim light, he could still see the unsightly expression on her face.

"It's Long Song!" Long Huishan said as he grinded his teeth.

"Is that your uncle the bastard?" Chen Xiang never thought that this fellow would catch up to him here, and even so fast. According to Long Xueyi's judgement, this Long Song fellow was an Immortal King level expert. If he did not have this kind of strength, he probably would not be able to usurp the throne.

"It's him. What should we do?" Although Long Huishan wanted to kill Long Song now, he was not strong enough. If he was killed here, he would not have the chance to turn the tables in the future.

"If you have the guts, then step over! I've come to Dragon Cave before, with your current strength, it's impossible for you to pass through the profoundbing wall! " When Long Song's loud laughter came through, Chen Xiang and Long Huishan had already seen a tall and big figure.

Chen Xiang sneered in his heart as he pulled Long Huishan, activated the power of the spatial laws, and then traveled through space to pass through the so-called profoundbing wall!

"Let's go, he won't be able to come here for the time being!" Chen Xiang immediately sprinted forward. Reacting to his shock, he quickly followed behind Chen Xiang.

Chen Xiang controlled the Green dragon demon-slain broadsword to float in front of him, which was equivalent to exploring the way, in case he encountered something similar to the profoundbing wall.

"Did you teleport through space? Even an immortal king would find it hard to achieve such a power, especially in such a high-grade realm with such a sturdy space. How did you do it?" Long Huishan's heart was filled with curiosity. She had already been wondering how Chen Xiang could do so many things, but now she understood, because Chen Xiang's abilities could not be judged using common sense.

"I'll tell you a small secret later!" Chen Xiang didn't want others to know that he had mastered the power of the spatial laws.

They had run for more than an hour, but did not discover that Long Song had caught up.

"That fellow left, he did not go over the profoundbing wall!" Long Xueyi said as she used her Divine Vision to look at the situation.

Even so, Chen Xiang did not let down his guard and watched the Green dragon demon-slain broadsword flying in front.

"Something's wrong!" Chen Xiang hurriedly switched back the Green dragon demon-slain broadsword s. On the ground in front of him, there were quite a few ice cubes of different shapes and colors. This made Chen Xiang think of those profoundbing s.

He guessed that there were some of people who came to explore the Dragon Cave being frozen inside!

"It's best if you don't go over. Although my blade didn't detect anything out of the ordinary, for these ice cubes to suddenly appear here, it must not be a simple task!"

Chen Xiang's eyes shone with a gold light as he used the Chaos Divine Eye to look at the dark cave to see if there were any hidden traps.

had many times experience with this kind of exploration, so she could not compare to him in this area. Originally, she planned to lead the way, but she did not expect Chen Xiang to take her as the host.

"Is there anyone in the ice?" If there is an ancestor of our Long family, they might help me! " Long Huishan's eyes lit up as he said.

"Hard to say, but even if there were, I'm afraid they're already dead! This ice has a very strong freezing ability. If a small piece of ice is placed in your room, it will be able to freeze your room after a period of time. " Chen Xiang understood these profoundbing very well.

Chen Xiang didn't see anything, but he didn't dare continue walking forward. Previously, he had seen how powerful the profoundbing wall was, and because he understood the profoundbing, he had no choice but to treat them with caution. Especially right now, there were a few large profoundbing s lying on the ground, and these profoundbing s were all connected to the ground, not rolling down from above.

"The Ice Dragon's Ancestral Founder built this place and left behind his legacy, but why did he set up so many traps on the road and cause the deaths of many of the Long family's heroes over the years?!" Long Huishan started to complain to the Ice Dragon Grandmaster.

"These traps weren't created by him, they were called the profoundbing and they were extremely strange. There's a place called the profound Cold Ancient Realm in Di Tian and all the profoundbing we dug out were like that, and we don't know the reason why. At that time, the profound Cold Ancient Realm was an extremely dangerous place called Di Tian, and it was a place that didn't dare to go into for ten days.

Chen Xiang did not think that this kind of power could be controlled by the ice dragon. He felt that the ice dragon must have obtained this kind of profoundbing and gained intelligence, that was why it laid these traps.

"I feel that the trap should be under these profoundbing. I'll move these profoundbing away!" Chen Xiang immediately used his Shadow Shifting Technique and pulled all the profoundbing over. There were a total of six or seven of them, and all of them were linked together.

After moving over, Chen Xiang used the Green dragon demon-slain broadsword s to chop them into pieces. These profoundbing s were very solid, and it took a lot of effort for him and Long Huishan to break them all.

There was no one inside the profoundbing, but Chen Xiang noticed the auras of some people. In other words, the people who were initially sealed in the ice had all turned into profoundbing, unless they were some genius or rare flower or herb that was able to suppress the ice seal on the profoundbing.

"As expected!" After Chen Xiang removed the profoundbing, the Red Chaos Divine Eye could clearly see that there was a very powerful formation at the bottom of that place. It seemed to be formed naturally, and the power was a type of icy cold power.

"Sister Long, break that place. There is a basin-sized dark array there, but its power can cover a large distance ahead. If we had taken a few more steps forward, we might have been frozen!" Chen Xiang pointed to the ground where the profoundbing was.

Long Huishan did not hesitate at all. Her jade palms danced as she released waves after waves of Qi that divided into berserk, plowing the entire path in front of her. The ground was also covered with ice crystals that were scattered everywhere.

Chen Xiang used the Chaos Divine Eye to observe the hidden array. Under Long Huishan's fierce attacks, the hidden array was seriously damaged and was gradually disappearing.

"It should be fine, I'll go take a look first!" Sister Long, you stay here! "

Chen Xiang strode across it in a single step, took another long walk, and then carefully examined it with the Chaos Divine Eye. After confirming that there was no danger, he asked Long Huishan to come over.

Long Huishan couldn't help but sigh. If not for Chen Xiang, she also didn't know if she could make it here. Chen Xiang was just like her protective talisman, considerately protecting her.

"It's safe!" Chen Xiang laughed, but at the same time, the ground suddenly trembled.

The passage was actually moving, causing them to fall down at a very fast speed.

[Chapter 1117](#)

At this time, no matter how much they retreated, they were unable to leave their original position. They were currently frozen in place by some kind of powerful force, and were allowing this route that would "walk" lead them into the depths of unknown danger

After a while, Chen Xiang and Long Huishan were suddenly enveloped by a burst of intense light. It was at this time that they realised that they were no longer in the dark tunnel, but instead inside a tunnel filled with white ice crystals.

This caused Long Huishan to suddenly feel safe, and the path that he could walk slowly became slower and slower, until a huge ice door appeared in front of them!

"We're here!" Long Huishan took a deep breath, she was extremely excited, she never thought she would use this kind of method to arrive in front of the Ice Dragon Ancestral Gate.

Chen Xiang walked to the front of the gate, took out the Ice dragon sword and inserted it into a hole, then he started to spin it.

Chen Xiang was now certain that the one who had constructed the entrance to the core of the You Ming Deep Abyss was this ice dragon. Because the structure here was similar to that of the other place, when he found this hole, he knew how to use a Ice dragon sword to open it.

The door slowly opened, revealing a huge ice palace. The floor of the ice palace was carved with a dragon that bared its fangs and brandished its claws, and huge, lifelike dragons coiled around the huge ice pillar.

On top of the dragon throne, there was a box that seemed to be made of ice. Seeing this box, Chen Xiang's pupils shrank, because this box was the same as the three Treasure Chests he had obtained.

"Your Ice Dragon Ancestral Founder's inheritance should be inside this treasure chest!" Chen Xiang was cursing the ice dragon for taking away twenty-six treasure chests in one go. If he had only taken away twenty, he would have at least seven or eight of them now.

This ice dragon was too greedy. If there was a chance, Chen Xiang would definitely let Long Xueyi scold him.

Chen Xiang and Long Huishan walked over together. He inserted the Ice dragon sword into the hole in the white ice treasure chest and easily opened it, unlike the three treasure chests that he had obtained, which required a very powerful force to open them. Furthermore, opening them once would consume a whole bunch of Ice dragon sword's energy, and it would take a very long time before he could open them again.

"What is this?" Long Huishan held up a melon sized white bead.

"Zhenhai Blood Bead, you can use it with just a drop of blood." Chen Xiang said, causing him to look at her with a strange gaze.

Long Huishan could not help but suspect that Chen Xiang was the messenger sent by her Ice Dragon Founder, who had escorted her all the way here. Furthermore, she understood this place very well, opening the door, opening the treasure chest, Chen Xiang's movements were extremely skilled, as if she had already known this long ago and now he was telling her what this bead was.

Chen Xiang, the outsider from Di Tian actually knew about something that even her Ice Dragon bloodline didn't know.

"Elder sister Long, don't thank me. After you become the Long family's head, it will be fine as long as I have a place to eat and drink." Chen Xiang chuckled.

Long Huishan kissed Chen Xiang on the cheek: If I can become the Patriarch of the Long family, then the Long family will be your home. You can come anytime you want.

"Then I'll help you guard it and let you fuse with this thing!" Chen Xiang stayed away from the Dragon Throne.

Long Huishan sat cross legged on the Dragon Throne, cut his finger and dripped a drop of blood on the Sea Suppressing Blood Pearl.

With a flash of white light, the pillar wrapped Long Huishan in a circle of white light.

"Sister Long... Elder sister Long ... My surname is Long too. I've never seen you call me so gently before. " Long Xueyi imitated Chen Xiang's tone and teased him.

"Little Naughty Dragon, don't forget that back then, you were the one who acted young and turned into a big fart little girl. In my eyes, you will forever be that little girl." Chen Xiang thought back to the matter of him meeting Long Xueyi back then and he felt quite happy in his heart.

"Humph, I am the reincarnation of the Heavenly Dragon Supreme Lord, you just wait and see! When that happens, I'll make you call me the Great Emperor, haha ... " Long Xueyi laughed madly.

"So what? Wasn't it still ridden by me? "

Chen Xiang was extremely pleased in his heart. Although it was a god-like relationship, but at least they had a relationship. After all, at that time, when both of their divine soul were tangled, they were very satisfied.

"What are you thinking about? Don't think that just because you've befriended me, you'll get me! Stinking brat, don't be too complacent, Heavenly Dragon Supreme Lord isn't that easy to conquer! " When Long Xueyi heard what Chen Xiang was thinking, she immediately sent a sound transmission to Chen Xiang. This matter, she was very worried about and Bai Youyou finding out.

"Little Naughty Dragon, didn't you say you would get the Yulong blood on me? Unless you find a living Jade Dragon and kill it. " Chen Xiang chuckled.

"Hmph, even if it's like that, I'll still ride you." Long Xueyi retorted.

"Is there a difference? "If you have the guts, come and ride me now. I'll definitely wash my body and let you ride it, haha ..."

If he had nothing to do, he would flirt with this future Heavenly Dragon Supreme Lord of his. It would also be a joyous event in Chen Xiang's life.

"Little Scoundrel, when the time comes, I will definitely make it so that you won't be able to stand up." Long Xueyi did not get angry, but pouted.

If it wasn't because of this place, Chen Xiang would definitely let this beautiful and voluptuous White Dragon Lady come out and take advantage of him. He who had not eaten anything for a long time would only be able to have his eyes on Long Xueyi at the moment.

Long Huishan did not know when he would have to finish the mission nor did he do anything else. Although it was currently safe in this place, he was still worried that an accident might happen.

"Eh? Why would an outsider come here? Only those who possess the bloodline of an ice dragon or a Ice dragon sword can come in. " A man's voice with a female surname appeared beside Chen Xiang's ears.

This scared Chen Xiang so much that he stood up abruptly and looked around cautiously, but he did not realize anything. He was sure that he had heard correctly, and that voice came from his Divine Sense Sea.

"You, a human, why are you such a powerful cultivator of the Divine Path? Tsk tsk, you even have the Sea Suppressing Orb! This is incredible! " the voice said again.

"Who are you?" Chen Xiang asked from the Divine Sense Sea.

"Me? My name is Long Han, what about you? "What a strange little fellow!" Long Han said.

"My name is Chen Xiang, could it be that you are an ice dragon?" Chen Xiang asked in surprise.

"That's right, I am an ice dragon and an ice dragon is me. How do you know that? Could it be that you have hooked up with my Long family's daughter? " Long Han said with a smile.

Chen Xiang really wanted to seduce a few. Who told this ice dragon to harm so many human girls, but he didn't dare to say it out loud. Being able to talk with the ice dragon made him extremely excited, as he didn't want to anger this Long Han.

[Chapter 1118](#)

Long Han could be considered a very powerful ancient dragon. What remained here was only a wisp of his divine will. It could be seen that he wasn't dead, but he didn't know where he was now.

Long Han could only see the situation inside Chen Xiang's Divine Sense Sea and not the white dragon that was Long Xueyi. Otherwise, he would definitely be even more shocked.

"How can I hook up with your Long family's woman? She's only giving me face and asking me to call her elder sister. She's just right there to assimilate your inheritance." Chen Xiang scratched the back of his head and laughed.

"Although you said that, I kept on feeling that you were very powerful. I kept on feeling that you had a lot of powerful things on your body. But sadly, my original body wasn't here so I couldn't see through you." Long Han smiled, "But you have helped my Long family, I am grateful to you!"

Chen Xiang also stopped wasting time with Long Han, and directly asked him about some things he wanted to know: "Senior, I want to ask you, did you take away the twenty-six treasure chests in Chaotic Mountain? What's in it? "

"Ah?" How do you know? Have you been there? It must be what the Mountain Spirit told you! " Long Han chuckled, "Only the descendants of traitors can enter that place. You can't be the descendant of those traitors, right?"

"Of course not, I was just sneaking in! There were many things that happened there. In the end, we went there, and because there were only four treasure chests, there was a dispute. However, I managed to obtain three in the end, but was unable to open them. " Chen Xiang sighed.

"There should be a lot of people going, but you actually managed to get three! Not bad!" You can use my Ice dragon sword's scabbard to open it, but you will need a bit of effort. Back then, I spent a lot of effort to create this key too, so those treasure chests are indeed hard to open. " Long Han said with a sigh, "To tell you the truth, don't hold too much hope in the treasure chest. I spent a lot of effort to get 26 of them, but they were all useless in the end."

"Don't hit me! What are they? " Chen Xiang felt his heart go cold, he had spent a lot of effort to get that back.

"It's hard to say. The items in each treasure chest are different. In any case, they're not good stuff in my eyes." Long Han smiled, "You should open it yourself, perhaps it's a treasure to you."

Chen Xiang heaved a sigh of relief. Just what kind of powerful existence was this ice dragon?

"Senior, there's one more thing, it's the Super Old Fire Beast, I've met him before, he said that he was tricked by a dragon and got him trapped, I wonder if it was senior who did it?" Chen Xiang thought about it, then asked.

Long Han suddenly exclaimed, "Crap, I actually forgot about this guy!"

The corner of Chen Xiang's mouth twitched, the Super Old Fire Beast not being released, had actually been forgotten by this guy. If he told the Super Old Fire Beast, the big Flame Lion would probably be angry.

"Back then, this guy was very impulsive and wanted to fight with some of the stronger guys. However, he knew his own limits. So, I'll first go find a Earthly fruit and use this thing to increase my strength. I'll go with him when that time comes. "

"In the end, he really did find out, but I was worried that once he ate the Earthly fruit, he would go find those powerful guys, so I temporarily sealed him away. After that, I was too busy with other things and even left Di Tian, so I forgot about this matter. If you didn't mention it, I wouldn't even remember it! "

Chen Xiang was speechless. He would never personally tell the Super Old Fire Beast about this, in case the Super Old Fire Beast's anger would burn through his body. Thinking back to how the Super Old Fire Beast had been trapped for so long, because of this, he couldn't help but feel sympathy for them.

"Senior, do you know where the Ten Heavens Supreme Lord's mausoleum is?" Chen Xiang boldly asked about this matter.

"I don't know. I had previously searched for his grave, but I still couldn't find it. This fellow is very sinister!" Come to think of it, what is your background, and how do you know so many things that even I have almost forgotten? " Long Han was extremely curious.

"This is what Senior White Tiger told me!" Chen Xiang was not afraid to let the ice dragon know of his relationship with the White Tiger, and this would reduce the amount of things he had to explain.

"So that's how it is. I didn't expect him to still be alive. If he's still in Di Tian, then he should be very confident!" How could it be like me coming to this place without even being able to find a root? Sigh ... "Flame Lion will definitely thank me for sealing him. Otherwise, when I kidnapped him here, he would definitely scold me a few times everyday now."

Chen Xiang was stunned. Even if the ice dragon was at that place, two scallions wouldn't count? You have to understand that this ice dragon is a good friend of the Ten Heavens Supreme Lord. Even though it didn't have the strength of the Ten Heavens Supreme Lord back then, it was still ranked very high up in the sky.

Chen Xiang guessed that it should be an even higher realm, to which he could only look up, in the Immortal World, his strength was merely at the bottom. If he met a Immortal Monarch, he would have to run away with his tail between his legs.

"Don't say anymore, I'll leave some power for you guys!" This Ice dragon sword has some of the power that I left behind sealed within it. If you need it, you can summon it once, but of course, it can only be used once! As long as it was what kind of power? It's hard to say, it should be enough for you to overcome this obstacle! "

Long Han let out a long sigh filled with helplessness. It seemed that he was not going to live a good life as he had been in the past.

"Senior, I will definitely come and find you in the future. Although I have never seen you before, I will at least have your help in making it to this day." Chen Xiang said.

"If you have the guts, then come! This is the grave of the strong, but it is also the place where they can become stronger. "

Chen Xiang's thoughts were in a mess at the moment, he suspected that the place Long Han was currently in should be the Primal Chaos world!

There was some movement from Long Huishan's side, and the circular light barrier surrounding her became much more transparent. Through the light barrier, Chen Xiang could see that a set of ice armor, seemingly crafted from ice crystals, had appeared on Long Huishan's body.

The inheritance that Long Han had left him was not only him, but it was also a very powerful set of ice armor.

The light enveloping Long Huishan had already disappeared. The only thing that could be seen was that she was wearing a set of ice armor and sitting on the dragon throne, looking like a queen. Her speed of fusing with the Ice Dragon's inheritance was extremely fast, and she could clearly feel how powerful she had become!

This was the power of an Immortal King! It made Chen Xiang feel as if he was facing the Three horns Dragon King.

Just when Chen Xiang was able to see her spirit, Long Huishan opened her eyes. Her bright and beautiful eyes revealed a sharp light that could not be hidden, and when she looked at Chen Xiang, it made him feel extremely pressured.

[Chapter 1119](#)

Long Huishan smiled at Chen Xiang, and her eyes became gentle and spirited again. The ice dragon armor on her body had also become a set of snow-white long skirt, making her look extremely refined and refined.

"Scared me to death!" Chen Xiang laughed and wiped off the sweat on his forehead. No matter who it was that was being watched by a powerful Ranker, they would not be able to do it easily.

"Big sister won't eat you, what are you afraid of?" Long Huishan laughed like a silver bell, her mood extremely good. If it wasn't for Chen Xiang here, she would have found it hard to contain her oppressive aura and would have definitely charged out to find Long Song for revenge. She would definitely go to the Long family to exterminate all the elders who colluded with Long Song.

Chen Xiang suddenly thought that since Long Huishan had obtained the Ice Dragon's inheritance, and the Ice Dragon had very rarely mentioned it in the Imperial Dragon Clan's inheritance of memories, and even more so, did not use any Ice Dragon's technique. If Long Huishan could pass some of these techniques to him, he would have another powerful cultivation technique in the future.

"Sister Long, the Ice Dragon's inheritance that you've obtained, do you have any powerful martial skills?" Chen Xiang shamelessly asked, after all, asking others about their cultivation technique was not a very polite thing to do.

Long Xueyi had said that the majority of dragons cultivated the gods, so he could use Nine-turn dragon god mantra to exchange for them. Moreover, Long Xueyi herself also wanted to learn the Ice Dragon's technique, so even though she was a White Dragon, she knew how to use other cultivation methods.

"Yes, you want to learn it? I can teach you!" She did not see Chen Xiang as an outsider at all. She even thought that Chen Xiang was an envoy sent by the Ice Dragon, if not she would not have been able to obtain the Ice Dragon's inheritance so smoothly.

"The first style is called Icewind magic kungfu ..."

"I have this, I didn't expect it to be for the ice dragon!" Liu Meng'er had already passed this information to him, but he did not learn it. Instead, he wanted Bai Youyou to learn it.

"You actually know the Icewind magic kungfu ... The other method is called 'Frozen Under Heaven', which in theory can freeze anything and is extremely powerful. Our Long family's current techniques are all based on this adaptation, but it's too weak!"

Long Huishan thought for a while, then said: "Only these two sects can be passed down to you, the others can only be used if you have the Ice Dragon's bloodline ... This is a spirit cultivation item. Elder sister, I am also a spirit cultivation person now."

Chen Xiang had already guessed that Long Huishan would definitely become a spirit cultivator after obtaining the Ice Dragon's inheritance. He never thought that this could actually be passed on.

"Then does Sister Long have any spiritual cultivation technique?" asked. If not, he would pass the Nine-turn dragon god mantra to Long Huishan.

It's called the Nine-turn dragon god mantra, but you need the divine soul. It's very difficult for humans to cultivate divine soul, if I didn't obtain the inheritance of the Ice Dragon's Ancestor, I don't know how long it would take me!

This ice dragon's spiritual cultivation method was actually Nine-turn dragon god mantra! Chen Xiang was only able to grasp a bit of it at the moment. Even the White Tiger and Ten Heavens Supreme Lord back then were unable to completely unearth the essence of the Heaven Earth Killing Method.

"Relax a bit, I'll pass down the Frozen End World technique to you!" As Long Huishan said this, she pointed her jade finger at Chen Xiang's forehead. Without waiting for Chen Xiang to prepare himself, she directly passed on the Frozen End World Confining Technique to him.

At this time, Long Huishan astonishedly discovered that Chen Xiang actually had a Divine Sense Sea. Although it was much smaller than hers, they had already condensed a Ocean Subduing Pearl, which wrapped around her divine soul!

After being discovered, Chen Xiang felt a little awkward and couldn't help but blush.

Frost Sealing World was powerful, but Chen Xiang didn't have the time to learn it yet, and Long Huishan was also in a hurry to go back and take revenge.

"So you are a spirit cultivator too!" Seeing Chen Xiang's face blushing, Long Huishan laughed and scolded: "You really have a lot of secrets on you. Don't worry, big sister won't blame you."

Chen Xiang laughed and said: "I originally planned to pass the Nine-turn dragon god mantra to you, who would have known that you would already have it."

"You've helped me so much, it's nothing if I give you the method of freezing the world. Don't take it to heart. What's more, who will follow who!" Long Huishan laughed and pinched Chen Xiang's face like a big sister.

Chen Xiang laughed: "Let's get out of here quickly. I know you can't wait to get revenge on those bastards."

Long Huishan was really anxious, she anxiously pulled Chen Xiang and walked to one of the walls of the hall, her jade palm pressing on the wall, releasing a burst of strong coldness here, only to see a small door suddenly open, there was actually a secret door!

Entering the secret door was a long path, but after Long Huishan obtained the inheritance of the ice dragon, his strength and speed had increased by leaps and bounds, pulling Chen Xiang along as he rushed through the path. Chen Xiang felt that the originally gentle and kind Long Huishan had now become a female tyrannosaur, her entire body filled with killing intent.

This secret door was something that Long Huishan learned from the Ice Dragon's inheritance. Furthermore, she also knew some of the Ice Dragon's secrets, those were all equivalent to inheritance

memories. She quickly pulled Chen Xiang out of the Dragon Cave and arrived at the mountain top above the Dragon Cave.

What they did not expect was that Long Song had actually brought people to guard outside!

Seeing Long Huishan suddenly appearing at the top of the mountain above Dragon Cave, Long Song and a few other elders all revealed looks of shock. Although this had always been a legend, the Long Family still firmly believed that as long as they could get close to the Dragon Cave, most of them, who had the bloodline of the Ice Dragon, could feel the summons coming from the depths of the Dragon Cave.

Long Huishan had appeared, and judging from her aura, her strength must have increased by a lot. She glared at the group of people below her, and anger surged in her heart.

Although he was a little afraid of Long Huishan, who had the inheritance of the Ice Dragon, he still had to eliminate Long Huishan first. Otherwise, he wouldn't be able to sit still in his position as the Long Family Patriarch.

"Kill!"

Long Song bellowed as he transformed into a streak of light, and in the next moment, he was even stronger than Long Huishan. At the same time, he swung his Mountain Splitting Axe with an extremely strong force, slashing down ferociously, causing the entire ice ground to shatter, and large and small pieces of ice cubes to jump about from the impact.

After Long Huishan threw Chen Xiang far away, a white light flashed from his body as that domineering ice armor appeared. Then, with a vigorous wave of his hand, he used the sturdy ice armor on his arm to sweep across fiercely, breaking the attack of the pair of huge axes. The force that was released almost made Long Song's huge axes fly out of his hands, and the huge axes were also covered with ice!

"You go, I can handle this!"

Long Huishan sent a sound transmission to Chen Xiang, and at the same time, the few powerful old men all rushed towards Long Huishan to attack him, with their swords and sabers striking from all directions.

A few people who were watching below knew that they could not get in his way, and thus kept their distance from the battlefield, but they noticed that Chen Xiang was slipping away.

[Chapter 1120](#)

Seeing Chen Xiang slip away now, the people who had followed Long Song all thought that his strength was not that great. He was just a lucky guy who managed to pull out the Ice dragon sword and shamelessly followed Long Huishan into the Dragon Cave. It must have been Long Huishan's protection that kept him alive until now.

But when they saw that Long Huishan did not use the Ice dragon sword, they knew that the Ice dragon sword was still in Chen Xiang's hands. They thought that Long Huishan would not be able to pull it out, so they immediately chased after Chen Xiang.

"These idiots are really catching up! If this daddy wants to run away, even if you have eight more legs, you won't be able to catch up to me! " Chen Xiang snickered in his heart.

Long Huishan had already started fighting with Long Song and the others, Long Song was a Immortal King, and the elders were all close to an Immortal King, but even so, Long Huishan still had the upper hand.

They were all experts of the Long family and used icy cold power. Now that the battle had started, waves of terrifying cold wind swept through the entire Dragon Cave like ice blades.

"Among them, two of them are Long Song's sons. Be careful, although they don't have Long An's strength, they're still very difficult to deal with." Long Huishan had no choice but to worry about Chen Xiang. Although she knew that Chen Xiang had a lot of methods, but Chen Xiang was surrounded by more than ten people, all of them were the experts of the Long family's younger generation.

"You can deal with those guys with ease. Don't worry about me!"

Chen Xiang could already see that among the people surrounding him, a few were Immortal Cultivators, while the rest had just crossed eight Nirvana Tribulations.

After Chen Xiang took out the Ice dragon sword, the howling, violent, cold wind actually avoided him. He never thought that the Ice dragon sword would actually have this kind of power.

"Do you want to attack together?" Chen Xiang shouted, "Come if you have the guts, but if it's like this, there's no use in snatching my Ice dragon sword!"

"Wait!" A black-clothed man shouted at those who wanted to make a move. One could tell that he had a lot of power, and was able to intimidate these people.

"The Ice dragon sword is a Holy level Dragon Tool. If you can defeat me fair and square, the Ice dragon sword will naturally submit to you, but if you bully the less with numbers, if I die, the Ice dragon sword will also follow me!" Chen Xiang sneered: "Aren't you chasing this nobody just for the Ice dragon sword? I'm not afraid to tell you, the reason why Miss Long was able to enter the Dragon Cave was all because of this Ice dragon sword, and the fact that there are many treasures in the Dragon Cave!"

"As long as you can obtain the Ice dragon sword, you can freely enter and leave the Dragon Cave!"

If it was before, no one would believe Chen Xiang's bullshit, but now, Long Huishan had obtained the inheritance of the Ice Dragon Ancestral Founder in the Dragon Cave, and was suppressing Long Song and a few elders, which made people unable to not believe him, because they previously thought that with Long Huishan's strength, it would be difficult to enter the depths of the Dragon Cave, because none of them could!

Long Huishan had succeeded after he brought in a nameless person who could pull out Ice dragon sword!

Now, Chen Xiang had said that the Dragon Cave still had some treasures, and that these were the most tempting things. The treasures left behind by the Ice Dragon's Ancestral Founder were priceless!

"The Ice dragon sword was something left behind by the Ice Dragon's Ancestral Founder. I will use my strength to prove that only I am worthy to have it!" The black clad man spoke in a very relaxed manner, as if he could destroy Chen Xiang with a single slap.

The cold wind blew much weaker than usual. As Long Huishan and Long Song fought, they went far away, and the people who surrounded Chen Xiang spread out, allowing the man to fight with Chen Xiang impartially.

"Long Yi, finish him quickly. Then we'll enter the Dragon Cave so we don't have to split the spoils with those old fellows." a man beside him urged.

Long Yi rubbed his fists together as he looked at Chen Xiang in disdain, "Even if he has Ice dragon sword s, I can defeat him easily. Just look at his aura.

This Long Yi was also very sinister. At first he looked very casual, but the next moment, he was as ferocious as a tiger, holding onto a large sword as he charged forward.

This was an immortal. No matter how powerful Chen Xiang was, there was still a huge gap in strength. It was difficult to make up for the disparity, but he still pulled out his Ice dragon sword and went forward to fight.

Dang, dang, dang!

After Chen Xiang clashed with Long Yi's broadsword a few times, both of his arms were numbed by the enemy's strong power, making him feel as if the bones in his arms were about to split open. However, Long Yi was extremely relaxed, the broadsword was only covered with a little bit of ice.

It's a pity that you're too weak. If you had my strength, I would have already been frozen by then, and the Ice dragon sword would be mine! "Ling Chen:"

Long Yi laughed out wildly. He wielded his sword with both hands and instantly appeared above Chen Xiang, slashing down with great force. His speed and strength had reached his peak.

While the people at the side were admiring the strength of the Ice dragon sword, they were also secretly shocked by Long Yi's strength.

"Haha ..." Long Yi laughed loudly, because he believed that this strike would definitely injure Chen Xiang and then stab Chen Xiang to death.

Just when everyone was looking forward to the moment Chen Xiang was killed, Long Yi's wild laughter suddenly stopped, and his face was still filled with shock!

Chen Xiang's mouth curved up, suddenly he brandished his sword and thrust out, the sword was so fast that no one could see how he did it, in a moment ago Chen Xiang was still standing there holding the sword in a daze, but in the next moment, the sword had already pierced Long Yi's throat, and Long Yi's sword had also slashed down, although it landed on Chen Xiang's shoulder, it did not cut into his flesh!

Everyone was startled and their bodies involuntarily trembled. This scene was too strange. The attack of Long Yi's peak level was unexpectedly not enough to cause a Nirvana Tribulation person to see blood. Instead, his throat was pierced!

The cold power released by the Ice dragon sword flowed from Long Yi's throat into his entire body, instantly freezing his blood and bones!

"You overestimate yourself!"

Chen Xiang's arm shook, causing hot steam to rise. With a berserk flame energy, it struck Long Yi's Dantian, causing the Heaven fire to enter Long Yi's body, and the cold energy was strangely absorbed by the flames, becoming even more violent. In a few moments, Long Yi was burnt to ashes.

There was still a Drunk god magical poison remaining inside the Ice dragon sword, and just now it drilled a little into Long Yi's body, so when Long Yi triggered the power in his entire body, he let the Drunk god magical poison quickly spread, causing the energy behind him to suddenly be anesthetized and then being pierced through by Chen Xiang!

It was too strange. If they didn't see it with their own eyes, the people around them definitely wouldn't believe that Long Yi would be killed like this. Not only that, he was even Long Song's son!

"You ... Forget about the Ice dragon sword, kill this evil being. " Long Song's other son shouted, holding onto his sword, he and a group of people rushed towards Chen Xiang.
