[Chapter 1161](#)

At this moment, Lv Qinlian's jade palm was close to Evil Snake King's palm and she felt a power that felt like a vast ocean pounding against it. She was extremely shocked, what Evil Snake King said was true, the demonic energy was far above her, causing her expression to turn serious again.

If he were to withdraw his palm now, Lv Qinlian would definitely be severely injured by the dense power released from the Evil Snake King. If it was serious, he could even kill her with it, at least because the Spirit Demon Core was damaged or if her meridians were severely injured.

Lv Qinlian's cultivation was not weak either, she could also severely injure the Evil Snake King, thus, in the end, both of them would suffer, unless the two of them stopped their cultivation at the same time, but at the moment, it seemed that it was impossible.

Chen Xiang was currently surrounded by a few female demons, chattering away passionately.

"Sisters, all of you heal your wounds first. I'm going to help your big sister." Chen Xiang had only eaten a Qi Shen Dan, allowing himself to recover the energy that he had lost earlier.

"This... Young Master Shen, that Evil Snake King is so powerful, you better not go. Our big sister can handle it, we are worried that you will be affected. "

When she looked at Chen Xiang, her coquettish eyes seemed to be dripping with water. Furthermore, she had even held onto Chen Xiang's big hand, and caressed him gently, causing Chen Xiang's heart to waver.

Although the Spirit Demons of the Demon Charming Association were not really close to men, once they got close to him, they would definitely be extremely passionate, as if they wanted to swallow him whole. This was the situation Chen Xiang was in right now.

"They're right. If you come here, you're just looking to die. But I usually like to send people to their deaths."

Then, an extremely evil force surged over. Although they could not see the evil force, Chen Xiang and the others felt as if they were standing on the shore of a ocean, looking at the frightening waves that were crazily surging towards them.

Without even thinking, he knew who the person who released this power was, it was the Evil Snake King.

Chen Xiang bellowed, he took out the Holy Devil-suppressing seal and had it form a golden shield of light above him, enveloping him and the female demons. Just as the golden barrier of light appeared, the evil force immediately rushed over, like a gigantic and transparent shovel, lifting up a thick layer of the ground.

If not for the protection of the Holy Devil-suppressing seal, Chen Xiang and the rest would have been blown away along with the soil, and would have been injured by the Evil Spirit Qi.

"You guys leave this place first, I'll block this guy." Chen Xiang looked at the handsome man who was standing in the sky. It had to be said that even the Banshee Immortals beside Chen Xiang were a little jealous of his face.

"Hurry up and leave." Chen Xiang pushed the few ladies by his side, his voice becoming extremely serious: "This is not him, it's just a clone of him, but its strength is very strong, all of you are injured, and after using up a bit of strength, you guys cannot continue fighting with this guy."

The five Banshee Immortals softly muttered a few words to each other, then quickly left to find the other demonic spirits to meet up with them.

"Don't even think about leaving. My people are all dead. You can't live on either." Evil Snake King extended her slender hand, her palm facing the Banshee Immortals that had already flown far away. Then, a ray of grayish-black evil light shot out from her palm.

Just at that moment, Chen Xiang shuttled through space, took out the Holy Devil-suppressing seal, and used the seal to face Evil Snake King's avatar. The evil light shot over, and became extremely huge, condensing a terrifying evil energy that shook the earth.

Chen Xiang felt the Holy Devil-suppressing seal more and more. He originally thought that this Holy Devil-suppressing seal was just some kind of seal or something similar, but the power to restrain demons surpassed that of the Green dragon demon-slain broadsword.

"No wonder. So it's a Holy Devil-suppressing seal. Why is the Devil-suppressing Heavenly Venerable's Destiny Seal in your hands? Hmph, if I let the people from Devil-suppressing Divine Palace find out, you would have been torn apart by them when you went to Heaven Realm."

Before, Evil Snake King had a relaxed expression, she thought that her clone could easily kill Chen Xiang, but after seeing this Holy Devil-suppressing seal, her face had a never before seen grave expression.

This Evil Snake King was truly powerful, while fighting with Lv Qinlian, he could even use a supreme secret technique to split up his clones to deal with Chen Xiang and the others. Furthermore, he was very strong, so Chen Xiang wasn't confident that he could defeat his clones, unless he could borrow Long Xueyi's strength.

Although this is my doppelgänger, it is enough to deal with you. Although you have Green dragon demon-slain broadsword s and Holy Devil-suppressing seal s, you can only bring out a small part of the power of these two Divine Weapons.

Evil Snake King opened his mouth and spat out a ray of red light, that looked like a snake or apricot, towards Chen Xiang's throat.

When Chen Xiang saw this, he immediately used his Holy Devil-suppressing seal to block in front of him. However, what he did not expect was that this frightening red light that was like a snake's apricot could actually penetrate space and avoid the Holy Devil-suppressing seal's Holy Light, directly piercing through and appearing in front of his throat.

Just as the snake apricot was about to pierce Chen Xiang's throat, a layer of flaming red scales suddenly appeared on Chen Xiang's throat. This was a dragon's scale, it looked like a burning red ruby, and it flickered with lightning as it blocked the vicious snake apricot.

Chen Xiang's martial spirit was the Fire Thunder Dragon Soul, it had the nature of fire and lightning, but because his martial spirit had not fully matured, it had not become a Five Elements Dragon Soul, so he rarely used it.

The thing that shot out from Evil Snake King's mouth was really his snake apricot, but it was extremely powerful, its speed was like light, and it could even penetrate space. No wonder he was so confident in killing Chen Xiang.

"Do you want me to take action?" Long Xueyi asked. She was a White Dragon, and was as powerful as a Holy Dragon in the Imperial Dragon Clan. Furthermore, she had a lot of inherited memories.

"Not for now. I destroyed his avatar and also killed his original body. If I borrow your power, once I'm done, I'll have to lie in bed for a while to recover." Chen Xiang said anxiously, but at the same time, the snake apricot shot out once again.

Chen Xiang was already a special character of Snake Apricot, so he immediately used the power of the spatial laws to strengthen the space in front of the Holy Devil-suppressing seal, preventing the Snake Apricot from penetrating through the space. As a result, when the Snake Apricot hit the Holy Devil-suppressing seal, it was like a burning red iron plate that was burned, causing Evil Snake King's handsome face to turn sinister.

"When I attack and kill him in one go, those fellows who look down on me will not have a good ending."

Chen Xiang clenched his fists tightly, his eyes suddenly became as deep as the ocean, and a map of the mountains and rivers suddenly appeared behind him. On his head was a star map, and below his feet was a giant elephant, it was as tall as a mountain.

The most shocking thing was that it was constantly emitting killing intent. That killing intent enveloped the entire Sparite vein, making people feel like this was an ancient battlefield filled with endless killing intent and death aura.

Chen Xiang's Killing heart crazily throbbed, and with a "putong putong" sound, the murderous aura continuously released a wave of killing intent, causing the sky to change color.

"Everything is destroyed."

The Mountain Sea and River Diagram on Chen Xiang's back, the Great Void Constellation Diagram above his head, and the gigantic deity image below his feet, suddenly turned into a bright red light and merged into one with Chen Xiang.

Chen Xiang held the Green dragon demon-slain broadsword, it merged with the Green dragon demon-slain broadsword and with a force that could destroy the heavens and the earth, he slashed at the Evil Snake King's clone in the distance.

"Slash!"

Chen Xiang roared, the divine blade slashed, the sky shook, space ruptured, the Evil Snake King's clone could not move at that moment, he was already completely engulfed by Chen Xiang's killing intent and was locked onto by it. He only had one outcome, and that was death.

Boom.

The blade light enveloped the ground, with a rumbling sound, Evil Snake King's body was struck by the unparalleled killing intent, accompanied by the powerful Devil-suppressing holy power, his soul was also attacked by the extremely strong God Slaying Art, the avatar's soul disappeared, its flesh was destroyed, and it was burnt to ashes by the last bit of force.

"Since ancient times, evil has never been righteous. Demons are demons." Chen Xiang heaved a sigh of relief, his face looked somewhat haggard, he anxiously swallowed a few Qi Shen Dan s, that was his full force attack just now, the energy consumption was huge.

[Chapter 1162](#)

When the Evil Snake King's clone was destroyed, the original body was also affected greatly. At this moment, his face was extremely ugly, causing Lv Qinlian to be secretly happy, because she had the chance to get out of this predicament, but suddenly, she caught a glimpse of the sinister look that flashed past Evil Snake King's eyes, causing her heart to immediately tremble.

"Hahaha ..." Evil Snake King's handsome face suddenly contorted, and he laughed sinisterly: "Don't expect to knock me down like this."

"Go to hell, bitch."

Both of Evil Snake King's eyes were suddenly filled with blood red light waves. He looked extremely terrifying as he laughed crazily and maliciously, his slender arm suddenly becoming obese, with his sleeves swollen to the point where it revealed a black arm full of scales.

When Lv Qinlian saw the look in Evil Snake King's eyes earlier, he had already known that Evil Snake King intended to perish together with her.

Boom.

A loud explosion sounded suddenly, the intense sound wave split the ground and the layer of smoke that was shrouding the entire area should not be blown away, the red light shot out, and then and Evil Snake King slowly descended onto the ground. They did not die, but blood leaked out of their mouths, their faces were pale white, it was obvious that they suffered heavy internal injuries.

Chen Xiang used the power of the spatial laws to the limit, traveled a large distance, and arrived at the place where the Evil Snake King and Lv Qinlian had landed.

The moment Evil Snake King touched the ground, Chen Xiang suddenly appeared. The Holy Devil-suppressing seal and the Green dragon demon-slain broadsword had fused together, and the Devil-suppressing holy power was being used to the extreme by Chen Xiang, so the moment he appeared, he fiercely slashed down at the Evil Snake King with his blade. The blade glow was thirty thousand meters long, and the killing intent was intermittent, even Lv Qinlian, who was at the side, felt the incomparably powerful strength concealed within Chen Xiang, making her feel as if she was facing the mysterious Great Elder of the Dragon Subduing School.

Chen Xiang's sudden arrival and sudden attack were completely unexpected to Evil Snake King. He predicted that Chen Xiang would definitely rush over, but he never expected that Chen Xiang would actually be so fast.

Although Evil Snake King was heavily injured, a skinny camel was still bigger than a horse. His body instinctively moved to dodge, which was a type of instinctive power that he accumulated through his years of fighting.

"Ahh ..." Evil Snake King cried out in pain. Even though he dodged, his shoulder was still cut by Chen Xiang's blade, and half of his body, along with his entire arm, had been cut off by Chen Xiang.

"Just you wait, Evil Snake Mountain will not let you off." The Evil Snake King's sinister and resentful voice echoed in the horizon layer by layer, and when Chen Xiang made his second slash, his body had already turned into a layer of black mist, which then seeped into the ground and disappeared.

"What a shame. Such a good chance for him to run away."

At this moment, her face was completely pale. However, there was a Holy Lotus Seed in her body, which allowed her to recover her injuries by absorbing the power inside the Holy Lotus Seed. However, when Chen Xiang helped her up now, he could feel that her body was extremely cold.

"I've been poisoned." Lv Qinlian, who had just stood up, immediately fell into Chen Xiang's embrace after saying that. Chen Xiang held her tightly and immediately released a warm fire Qi to help Lv Qinlian expel the poison.

At this time, Chen Xiang felt more and more that the delicate body that was being embraced by her was releasing an oppressive cold aura. He looked at Lv Qinlian who had an ugly expression and hastily asked: "Sister Lian, what poison are you infected with? Why are you so powerful that even you cannot withstand it?"

"I've been severely injured, and I don't have the power to expel the poison ..." Lv Qinlian tightly hugged Chen Xiang's warm and sturdy body, and slowly closed his eyes, as though he could not hold on much longer.

Chen Xiang was extremely anxious, he immediately cut open his wrist and let out a bit of blood, which entered into Lv Qinlian's mouth. Although his blood could not be detoxified by Wang Quan, but he could still resist the poison's invasion.

He carried Lv Qinlian and left the Sparite vein s who were full of scars, arriving in a quiet mountain forest. Lv Qinlian's complexion had improved a lot, but the cold poison in her body was still wreaking havoc in her body.

"It's the profoundhan poison ... I never thought that this Evil Snake King would have this kind of poison, and that they would even completely infuse it into my body at the last moment. It signaled that the profoundhan poison is the weakest kind of Super Old poison, otherwise I would have died a long time ago. "

Lv Qinlian was able to speak now and she was still lying in Chen Xiang's embrace. Because the anger Chen Xiang had released made her feel very comfortable and she didn't want to leave.

Seeing that Lv Qinlian had woken up, Chen Xiang could still speak. He let out a light breath and said, "Sister Lian, you scared me to death. How are your injuries?"

Lv Qinlian stuck her face on Chen Xiang's chest, it was her first time being in such close contact with a man, moreover it was when she was at her weakest and when she needed help the most, she, who was cold all over, did not want to leave Chen Xiang's embrace at all, and only wanted to be hugged by him forever.

My internal injuries are very serious. My beast core is damaged, but I have the holy lotus seed in my body. I can absorb the power of the holy lotus seed and quickly stabilize my injuries.

Although Lv Qinlian was heavily injured and poisoned, lying in Chen Xiang's embrace, his heart throbbed inexplicably, giving him a strange feeling that was hard to describe.

"Then take a good rest, Sister Lian. Why did that Evil Snake King suddenly appear?" Chen Xiang felt that Lv Qinlian was hugging him tightly, and was even rubbing against his body from time to time. This made him feel a strange feeling in his heart.

Lv Qinlian felt that Chen Xiang's hand was gently stroking her hair and was stunned for a moment. Then, he said quietly: "I think it's the people from Demon Realm and Devil Realm who are trying to provoke him to come out to weaken my strength, although he is a Snake Demon, he is still using power from the Heaven Demon World. Currently, he is at Di Tian's side, he definitely has a good relationship with the Devil Realm, because the Demon Charming Association is the best at fighting against the Evil Snake Mountain, they are not afraid of our poison."

"Sister Lian, he used the profoundbing's evil poison, since it's one of the Super Old poison, if we were to spread the word, will his situation be very dangerous?" Chen Xiang touched Lv Qinlian's beautiful face, it was not as cold as before.

Lv Qinlian nodded and said: "I will definitely reveal this matter. As long as this matter gets out, regardless of whether others believe it or not, I will still be wary of the Evil Snake King. Of course, if it's the Heaven Realm, as long as I appear and let others see the profoundbing's evil poison that I speak of, the Evil Snake King will definitely be hunted."

"Sister Lian, that Xiao Yao over there, he's that little demon." Chen Xiang looked at the flower on Lv Qinlian's hairpin, and did not sense the aura of the spirit demon at all.

"She's in me. Inside my Spirit Demon Core is a lotus flower, Xiao Yao is sleeping inside." Lv Qinlian chuckled, "I was already like this, but I still wasn't able to wake the little girl up."

Speaking of Xiao Yao, the little demon, Chen Xiang thought of those Primordial profoundbing s. He had just obtained a large number of profoundbing from a warehouse set up by the Fire Divine Palace in profound Cold Ancient Realm, and he even knew about the dirty deeds that the Fire Divine Palace had done in the profound Cold Ancient Realm.

Chen Xiang told this to Lv Qinlian, causing him to frown: "No wonder when my Demon Charming Association's spirit demon goes to profound Cold Ancient Realm, he would meet some fellows from Fire Divine Palace. However, our spirit demon wasn't attacked, could it be that Fire Divine Palace is afraid of the poison of those spirit demons?"

"Anyways, this matter must definitely be spread. We cannot let Fire Divine Palace continue like this ... That's right, the reason why Fire Divine Palace does this seems to be to revive a guy called Ice Emperor ... "

Just as Chen Xiang spoke of Ice Emperor, the frail beauty in his arms suddenly trembled. Lv Qinlian widened his beautiful, soul-stirring eyes and looked at Chen Xiang with a face full of shock.

"You are talking about the Ice Emperor, I have heard of him before, he is a very impressive person, I never thought that he could be revived, please do not let him come back to life." Lv Qinlian looked at the sky and fell into deep thought.

The Ice Emperor was a very amazing person, but why couldn't he revive them? With Di Tian in this kind of terrible situation, he needed a strong capable person to intimidate the entire Di Tian and maintain order in the Di Tian.

Chen Xiang caressed his face that was as beautiful as jade with Lv Qinlian, and asked softly: "Sister Lian, what kind of background does Ice Emperor have, can you tell me?"

[Chapter 1163](#)

Many people in the current Di Tian had heard of the matters regarding the Ten Heavens Supreme Lord. However, the detailed history of the time when the Ten Heavens Supreme Lord fell, and what happened after that, very few people knew that. After the fall of the Ten Heavens Supreme Lord, many things happened.

Although Di Tian had been reborn, it did not mean that he would continue to live. Perhaps he would end up like the past, shattering once again and turning into a low level little world.

Lv Qinlian held Chen Xiang's big hand and gently rubbed it, feeling the warmth from the hand, she who was immersed in her memories, looked far away and said: "Ninth Heaven and Ten Great Earth ... In those nine days, there were already nine Emperors. They were known to be the kings of the land and the skies. Rumor has it that this was the history of those nine Emperors and the Ten Kings of the Nine Emperors ... However, after the appearance of the Ten Heavens Supreme Lord and the unification of the Nine Heavens and Ten Earth, as well as the establishment of Di Tian, the Ten Heavens Supreme Lord still retained the authority of the Nine Emperor Ten Kings and let the Nine Emperor Ten Kings manage their respective territories. "

"So that's how it is. What exactly is the hidden meaning of that piece of history? That's why it didn't come down." Chen Xiang was very suspicious.

Lv Qinlian caressed Chen Xiang's handsome face with her somewhat ice-cold jade hand and said, "I'm not sure, because I only know a few insignificant things. Carrying on with the matter of the Ice Emperor, you should be able to guess right now, the Ice Emperor is one of the emperors among the ten kings of the Nine Heavens and is in charge of the Ice Heaven. The reason I call him a figure is also because I've heard about him.

"In short, back then the Ten Heavens Supreme Lord wanted to have a good order, and those who made him their enemy were mostly those who wanted to break the rules. And among the ten emperors of the

Nine Emperor Empire, the strength of those emperors were not weak, it is normal for them to want to defeat the Ten Heavens Supreme Lord and obtain the position of the Ten Heavens Supreme Lord."

Lv Qinlian paused for a moment, before continuing, "Therefore, I feel that the Ice Emperor is not a good person. If he is allowed to revive, then Di Tian will be in great danger."

Chen Xiang naturally understood, but he now felt that it was very strange that there was any connection between profound Cold Ancient Realm and him. Ice Emperor could use those profoundbing s to revive, and Ice Emperor appearing in profound Cold Ancient Realm was clearly not a coincidence, moreover, the hidden dangers of profound Cold Ancient Realm, were things that could only be touched by people like the White Tiger and Ten Heavens Supreme Lord. It could be seen how mysterious profound Cold Ancient Realm was, Chen Xiang did not want to take any risks right now, because for someone with his strength, going to profound Cold Ancient Realm was simply courting death.

"Sister Lian, rest well. I will carry you to sleep tonight. Don't let out that Poisonous scent." Chen Xiang said smilingly as he looked at Lv Qinlian's better complexion.

Lv Qinlian pouted playfully, urged Chen Xiang on his chest, and shrunk into Chen Xiang's embrace. She closed her eyes and stabilized her injuries with the help of the holy lotus seed in her body.

Chen Xiang looked at the Goblin Beauty in his arms as he sighed in his heart. If it was before, many forces would take advantage of Demon Charming Association and not dare to go against him, but it was different now. Lv Qinlian from Demon Charming Association was severely injured, and he would not be able to recover to his peak condition in a short while.

At night, the insects in the forest chirped, and with the help of the breeze, Lv Qinlian slept even better. Chen Xiang carried her, and stared unblinkingly at her beautiful face, suddenly wanting to go over to her cherry red lips, but he didn't dare do so. If Lv Qinlian were to release those Poisonous scent s, he would be in trouble.

"This Poison Beauty's entire body is covered with thorns, sigh ..." Chen Xiang sighed, but he still kept stroking his face that was able to cause people's divine soul to turn upside down.

Chen Xiang raised his head and looked at the stars in the sky through the gaps between the leaves, and thought to himself: "This is a new world, so it should be us newcomers challenging it. It seems like this is already destined to happen.

Lv Qinlian could be considered a completely old person here, as he could be said to have broken the balance of this new era. This made Chen Xiang feel that it was possible that this was deliberately arranged by someone, which caused the Evil Snake King, who was hiding in the shadows of Di Tian, to be subjected to this kind of thing.

The Evil Snake King was definitely in a tough spot, and he was definitely heavily injured. As for whether or not there were any other powerful existences in the new Di Tian, it was unknown, but Chen Xiang had to prepare in this regard.

On the second day, when Lv Qinlian woke up, her body was no longer cold, but the profoundhan poison s in her body had not been completely expelled. This profoundhan poison was not the type to immediately cause her death, however, at that time when Chen Xiang had not used his own blood to

help Lv Qinlian, coupled with the fact that Lv Qinlian had a certain resistance to poisons, she would have been poisoned to death by the cold poison long ago.

Although Lv Qinlian looked fine now, the cold poison in her body made it impossible for her to unleash a strong power. When she used her poison to attack, she needed a very strong power to inject the poison into the enemy's body.

After Lv Qinlian recovered, her delicate and refined face revealed a smile that she never had before. Her pair of beautiful eyes revealed a strange luster, and she looked like she liked to be more lively and gentle than before.

At this time, Chen Xiang's heart was heavy. Without the Demon Charming Association, he had to come up with many new plans to protect the Dragon Subduing City or ally with the Chen Martial Continent.

Seeing his expression, Lv Qinlian immediately pouted and said, "Little guy, big sis is so energetic, why are you so unhappy."

Chen Xiang came back to reality and smiled at her: "Of course, because I can't carry you anymore. I really want to hug you like that every day."

Lv Qinlian said in a tender voice, "Little Scoundrel, you're being dishonest again. Don't tell me you forgot about the matter of the Poisonous scent I carried last time."

Although she said this, she was smiling inside.

"I would be willing to be poisoned to death." Chen Xiang laughed shamelessly.

"Heh heh ..." Lv Qinlian lovingly snorted a few times, before sighing softly, "Chen Xiang, I promised to help you protect the Chen Martial Continent, but now ... I'm so sorry. "

Lv Qinlian felt extremely guilty. She had done what Chen Xiang had done to her, but now it had become like this, making her hate herself, hated herself for being too weak to fight against the Evil Snake King, resulting in this situation.

"Don't mind it." Chen Xiang didn't blame Lv Qinlian in the slightest. He said in a serious tone: "Sister Lian, don't feel guilty. If you feel that you owe me a lot, promise me one thing."

Seeing Chen Xiang being so serious, Lv Qinlian asked anxiously: "What's the matter?"

"That is to have the Demon Charming Association withdraw from Di Tian's dispute. I feel that this place is not suitable for you all for now."

Lv Qinlian was very smart, and would very soon find out Chen Xiang's thoughts. She let out a light sigh, and suddenly nodded: "I'll listen to you."

Chen Xiang and Lv Qinlian found those Fey and Fairies and Fairies who came with them. Since Chen Xiang didn't have any other urgent matters at the moment, he started to speak amicably with those Fairies and Fairies in front of Lv Qinlian.

What made Lv Qinlian grind his teeth in anger was that, not only did Chen Xiang use his words to tease these Spirit Demon beings, he even made his move. He either rubbed his thighs, or rubbed his chest, or pinched his cheeks, and that group of Spirit Demons was very happy.

Once news of Lv Qinlian's heavy injuries got out, the Spirit Demon beings of the Demon Charming Association would probably be in big trouble, so Lv Qinlian immediately gathered the Spirit Demons of other places and transferred all the businesses back to the Demon Charming Association. Originally, she wanted to give it to Chen Xiang, but Chen Xiang didn't.

In just ten short days, all of the Spirit Demons of the Demon Charming Association in various places of Di Tian had disappeared.

The rumors about Lv Qinlian and the great battle of the Evil Snake King spread out. Of course, the fact that the Evil Snake King had profoundhan poison s was also known by many.

Now, many great powers had adjusted their original plans. Because the Chen Martial Continent had lost the protection of the Demon Charming Association, those powers who had always regarded the Chen Martial Continent as their thorn were all ready to make a move.

The reason why the Chen Martial Continent was so important was because the Chen Martial Continent might very well become the center of New Imperial Heaven World. This meant that there was a high chance that new dragon veins would appear in the Chen Martial Continent, something many old fellows of the Heaven Realm had predicted.

Of course, right now, they were not foolish enough to have any powers immediately attack Chen Martial Continent, because no one was sure if the Demon Charming Association would really stop protecting the Chen Martial Continent. Moreover, who didn't know the relationship between Chen Xiang and the Chen Martial Continent, and that this young "brat" was the nightmare of many old fellows, who would dare to provoke him?

Although it was the Dragon Subduing School, if someone offended him, that person would not be reduced. They would be exterminated, abused, and slaughtered.

[Chapter 1164](#)

Evil Snake King did not die, so he would make a comeback in the future. However, Chen Xiang was really looking forward to that moment, he was confident that if there was a day he could definitely kill the Evil Snake King's main body.

More than ten days had passed since Chen Xiang helped the Demon Charming Association. He was in a very secretive place, using the Chaos Divine Eye to look through the Primordial profoundbing that he snatched from the underground palace.

He had looked at more than a hundred pieces consecutively, but he did not find anything inside. Although the special cold power released by the profoundbing was extremely strong, from their outer appearance, they were all top-grade items. If he were to auction them, he was sure that they would fetch a high price.

"What the f * ck! There's already more than a thousand pieces of Archaic profoundbing, not even a single one is inside!" Chen Xiang laid on his back on the ground, rubbing the opened Chaos Divine Eye

between his brows with both hands. At this moment, he was in the belly of a mountain, his face full of fatigue. After looking carefully at so many profoundbing s for more than ten days in a row, it was impossible for him to not be tired.

These profoundbing all looked very good, but there were more than a thousand of them now, and there was nothing inside, which made Chen Xiang extremely disappointed. Of course, he could sell these profoundbing or give them to him to use as profoundbing pills, as the value of using them was still very high.

"The last time I entered those underground palaces, I heard those guys mention that the profoundbing would. Maybe when the time came, I would be able to get profoundbing with treasures."

Chen Xiang suddenly thought of this matter, and the profoundbing conference was about to begin. He did not continue to look at the remaining two thousand profoundbing, that would take too much time, if he finished, he would not be able to participate in the profoundbing conference.

"I still have two Treasure Chests. When I have time, I will think of a way to replenish the energy in the Ice dragon sword's sheath and open those two Treasure Chests." Chen Xiang had always been thinking about the two Treasure Chests, but it would be extremely difficult for him to replenish the power of the Ice dragon sword's sheath.

Chen Xiang did not have that kind of patience, he also believed that he would be able to find the power to replenish the key and open the remaining two Treasure Chests.

The Hammer of God that he had gotten from opening the Treasure Chest last time was a supreme treasure. This could allow him to avoid using Green dragon demon-slain broadsword in the future, and at least have a powerful weapon that he could use.

Chen Xiang used a large number of Spar s and finally understood what was going on with the profoundbing.

The profoundbing would be held in the "profound Ice City", and the profound Ice City would be located at the outskirts of the profound Cold Ancient Realm, where the Transmission array would exist. In that way, the Northern Goblin City, which the Demon Charming Association was in control of, would lose its advantage, but the Demon Charming Association did not care at the moment, as Lv Qinlian needed to recuperate from her injuries.

Therefore, when Lv Qinlian had initially decided to withdraw from the New Imperial Heaven World's competition, he had also considered this point. Her Demon Charming Association had a lot of resources, after quitting, she had transferred all her assets to him, and had also gained a large sum.

At first, Chen Xiang thought that the profound Ice City was a city covered in snow and ice, but after arriving here, he found it hard to believe that the profound Ice City was located in the snow and ice outside the profound Cold Ancient Realm.

The only difference was that the entire city was enveloped by a faintly golden barrier of air that could be seen with the naked eye. The cold wind could not blow in, and the ice and snow would not appear here either. The light from the outside penetrated through the barrier of light, making the entire city seem as if it was being illuminated by warm sunlight.

To be able to create such a city meant that the power that controlled the city had set its sights on it, and used its greatest strength to build the city well, attracting a large number of people. From this, it could also mean that the power that controlled the city was very powerful, because the powerful formation that enveloped the city was not something that a normal power could build.

The qualifications to participate in the profoundbing s meeting in profound Ice City is very high, one must either have high quality profoundbing s with stones, or have three hundred billion Spar s, because when the profoundbing meets, there will be giant auctions, or gambling with profoundbing s, and the activities of profoundbing exhibitions will all require a large number of Spar s.

The profoundbing s were divided into four ranks, upper, middle, and top. The lower tier was the worst, and of course, this was determined by the cold Qi and appearance that the profoundbing released. Due to psychological effects, many people believed that this kind of profoundbing had a higher chance of producing treasures.

Chen Xiang obtained the qualifications to have three hundred billion Spar, it was not like he did not have ten high quality profoundbing s. He had over three thousand of these profoundbing, it was just that he stole all of these profoundbing, if he took them out, they would definitely recognize him.

Although he did not know which power was in charge of the profound Ice City, Chen Xiang could roughly guess that only the Fire Divine Palace had this kind of arm.

Regardless if it was held by the Fire Divine Palace, Chen Xiang planned to join in the fun. If he saw profoundbing s with treasures inside, he would use any means to get them.

After obtaining the qualifications to participate in this Great Assembly, Chen Xiang waited in a restaurant to begin.

After a few days passed, Chen Xiang could hear people exclaiming in the streets every day, saying that some important figures or big shots of some kind had come. Although Chen Xiang did not know who those big shots were and he had not heard of them, he knew that there were a lot of strong people who had come to participate in the profoundbing Conference, and they seemed to be newly formed powers.

In the morning, Chen Xiang was walking on a wide and uninhabited street. Because of the profoundbing s meeting, this street was sealed today, and only those who had qualifications to participate in the profoundbing s meeting could enter.

When Chen Xiang arrived at the entrance, he could feel a very familiar fire aura. It belonged to the Fire Divine Palace, but this could only mean that the Fire Divine Palace was participating in the competition, which did not mean that this villa was the lair of the Fire Divine Palace. However, it made Chen Xiang more or less certain that this profound Ice City was somehow related to the Fire Divine Palace, or it could be done by the Fire Divine Palace allied forces.

The villa was called the Raging Flames Villa. Upon entering the villa, he immediately felt a warm wave of heat that made his body feel indescribably comfortable.

Entering the Villa, Chen Xiang heard the question of the servants guarding the road and knew where the main hall was. That was the place where the profoundbing s were displayed, and was also the place where the participants of the profoundbing s meeting would show off the unique profoundbing s that he

had obtained. If anyone had their eyes on them, he could directly buy them here, but the prices required both parties to communicate with each other.

There were at least three hundred billion Spar, or ten high quality profoundbing, and a few mid quality profoundbing that were able to participate in the profoundbing s. Although they couldn't be sure that there were treasures in the profoundbing s, they were all expensive.

When Chen Xiang arrived at the Exhibition Hall, he saw that there were trillions of ancient profoundbing s called Gold dragon ice s. They were dazzling in gold and looked like a golden dragon made out of gold, hovering above a pillar while holding a golden pearl in its mouth.

A naturally formed profoundbing could look like this, it was truly strange. Furthermore, the cold Qi that the Gold dragon ice was releasing was also very strong, it was much stronger than the high quality profoundbing.

Chen Xiang strolled around a few times, and finally stood in front of the Gold dragon ice, and then carefully looked at it. He could use the Chaos Divine Eye to look at the extremely valuable treasures inside, because he also felt that this Gold dragon ice was very special.

There were a lot of people watching the Gold dragon ice, and it wasn't easy for Chen Xiang to squeeze in, so he could look even more closely, and he heard the people around talking about the Gold dragon ice. Most people thought that the Gold dragon ice had good things, but no one bought them, because the price of the Gold dragon ice was 1.8 trillion.

There were many people who wanted to buy it, but they were embarrassed and could only drool. They cursed the wastrel who took out the Gold dragon ice to sell, this sort of thing should have been left for them to sell, they actually dared to take it out.

Chen Xiang snickered in his heart, because more and more people used the profoundbing's appearance to determine if there were any treasures inside.

If it was possible, Chen Xiang would really like to see those normal profoundbing, because he felt that the possibility of these normal profoundbing having treasures was much higher than those beautiful profoundbing. The more than three thousand profoundbing he got from the Fire Divine Palace already had a thousand of them, but they did not have any treasures right now.

[Chapter 1165](#)

Many people were commenting about the Gold dragon ice, only Chen Xiang was looking at it very carefully, with a focused expression. Some people thought that he was pretending to understand the profoundbing, especially those who often played with it, because they believed that they were certain that there were definitely treasures inside.

Chen Xiang used the Chaos Divine Eye to look carefully a few times, but he still could not find anything inside the profoundbing. He could not help but shake his head and sigh, such a beautiful piece of profoundbing with no treasures inside, which made him feel that it was a pity. At the same time, he was even more sure that these gaudy profoundbing actually had nothing inside.

"Brother, what are you sighing for? It's normal that you can't afford it. Just now, you were squeezing around this Gold dragon ice. Do you really think you can see if there's anything inside?" An old man who

was trampled on by Chen Xiang just now was kept in mind. Seeing Chen Xiang looking at him in such a serious manner, his heart was in a mess, so he started to complain.

Chen Xiang was currently a long bearded middle-aged man. He shook his head and said, "No, I'm sighing because this Gold dragon ice looks so good, but there's nothing inside."

Chen Xiang was speaking the truth. Although his voice was low, the people who were able to come here had good hearing, and could hear what Chen Xiang said. Hearing Chen Xiang say that, everyone was enraged, and scolded themselves: "What do you know?"

Seeing everyone's expressions, Chen Xiang did not say anymore, he was indeed speaking the truth just now.

"Nonsense, such a strange piece of profoundbing, naturally formed dragons, how can there not be treasures inside? If there aren't any treasures, how did this profoundbing turn into a dragon?" A black clothed man coldly snorted.

Chen Xiang said: "I have seen many strange profoundbing, but very few of them were able to produce treasures, so I would like to ask why these strange profoundbing do not have any treasures, these profoundbing do not have any treasures, but the profoundbing are still unique."

There were a lot of things like what he said just now, and those people were speechless at this moment. However, the black clothed man still said resolutely: "Didn't you see that the Gold dragon ice were incomparable to those strange profoundbing? There must be treasures inside the Gold dragon ice."

Chen Xiang laughed coldly: "It's useless to say anything unless you break it down and take a look."

"That's right, but if you want to break through the profoundbing, then you have to buy it. This is a huge gamble, which one of you two would dare to do that?"

"Don't just talk, arguing is meaningless. Call him and do something."

"Buy it, break it."

Everyone jeered.

Chen Xiang said loudly towards the black clothed man: "If my guess is right, then this Gold dragon ice should belong to this brother. Since you are so sure that there are treasures inside the Gold dragon ice, why not open it yourself and shout it out? What are your intentions?"

Hearing Chen Xiang's words, everyone began to discuss softly, especially when they saw the muscles on the man in black's face twitch, they were even more certain that this Gold dragon ice was his.

Chen Xiang originally did not dare to be sure, so he was only casually saying that even if the Gold dragon ice was not the black-clothed man's, he did not suffer any losses.

Since he was so sure that there were treasures inside the Gold dragon ice, why did he not break through the profoundbing and instead sell it here at a high price? As long as he was not stupid, everyone would understand that this guy did not have much confidence in his Gold dragon ice, but he was sure that there were treasures inside the Gold dragon ice.

Seeing that the black clothed man had nothing to say, Chen Xiang laughed secretly in his heart.

The reason he came here today, was to join in on the fun, and then, to cause some trouble. With such a high quality of cold energy like this Gold dragon ice, he definitely could not let the Fire Divine Palace take it away to revive the Ice Emperor.

Therefore, Chen Xiang decided to destroy the profoundbing.

The man in black took a deep breath, and cursed at Chen Xiang many times in his heart before he said slowly: "There must be some treasures inside the Gold dragon ice, but there are also some treasures of various grades, and I am not sure what this treasure is, so I took out the Gold dragon ice to sell. If everyone wants to bet a bet, I can sell one million and five hundred billion of them right now."

The crowd was in an uproar, but there were definitely not many people who wanted to buy it, the risk was too high, the price was too high, even a huge being like the Fire Divine Palace could not bear the price.

Chen Xiang laughed coldly: "You just said it before, there's a treasure inside the Gold dragon ice, but it can also be a treasure that's not good, your words aren't bad."

"That's right, there must be treasures inside the Gold dragon ice." The man in black said with determination.

"And if not." Chen Xiang looked at the Gold dragon ice and said: "If I buy this Gold dragon ice, and there are no treasures inside, you can return to the one hundred and fifty billion Spar and give it to me. What do you think?"

had also expected this, so he continued to say something extremely tempting: "How about this, because I think that there are no treasures in the Gold dragon ice, if I buy your Gold dragon ice, if there are no treasures inside, then you can return one hundred and fifty billion to me."

"If you have the treasure, the treasure will belong to you and the one hundred and fifty billion will belong to you. What do you think?"

The man in black thought for a moment and then shouted, "No problem."

Chen Xiang immediately took out a hundred and fifty billion Spar. Dragon Subduing City had made a lot of Spar, and he had it with him.

Everyone immediately did not dare to look down on him anymore, because Chen Xiang was not using one hundred and fifty billion to buy the profoundbing, but to gamble. Furthermore, what he was betting on was not only the Spar, but the treasures inside the profoundbing.

If the profoundbing really had a precious treasure, he would definitely lose a lot.

Everyone immediately retreated, far away from the Gold dragon ice. They did not expect that the guy who kept saying that the Gold dragon ice did not have any treasures was actually buying it now. Furthermore, he handed it over to the Spar happily, which was truly admirable.

Everyone was guessing the identity of this person. To have this kind of action, he definitely wasn't an ordinary person.

The Gold dragon ice was bought, and there was even a bet made. If this bet was won by Chen Xiang, then Chen Xiang would get nothing, and at most, make sure that there were no treasures inside the Gold dragon ice. And if that man in black won, not only would he obtain treasures, he would also get a hundred and fifty billion Spar.

The person who broke through the profoundbing was the one who would be sent by the profoundbing, and he used a sharp knife. As long as he stimulated the profoundbing to the point where it could be broken into pieces, the Gold dragon ice could be broken into pieces.

"Old mister, sorry for the trouble." After Chen Xiang finished speaking, he retreated far away, lest others think that he was cheating, and the black clothed man did the same as they kept their distance from Chen Xiang, the three man tall Gold dragon ice.

The old man used his sharp knife and stabbed into the profoundbing, only to see the Gold dragon ice suddenly shatter, turning into a piece of ice and falling to the ground.

There was a thick pile of ice crystal powder on the ground, and it was still unable to confirm if there were any treasures inside. The old man waved his sleeve, and used his strength to hold up the ice crystal powder, and then floated up like a curtain of water.

Chen Xiang laughed: "Brother, don't tell me you want to go back on your words?"

The man in black clenched his fists tightly, appearing very excited. He rushed up and carefully examined the ice crystal powder. After searching carefully, he did not find any treasure.

The one hundred and fifty billion Spar that did not have any warmth were about to be returned to Chen Xiang, which made the man in black feel extremely unresigned in his heart. Although from the looks of the bet, he had gained a lot, but if he lost, his losses were not small either.

Chen Xiang stored away the ice crystal powder on the ground. This was his final goal, which was to obtain this Gold dragon ice without spending a single Spar. This ice crystal powder was trash in the eyes of many people, but in Chen Xiang's eyes, the high grade materials for refining pills could become a very powerful killing tool in his hands.

... ..

"Who is this guy? A perfectly fine piece of Gold dragon ice was destroyed by him like this. Investigate carefully for me. If he's not that powerful, teach him a lesson and destroy our plan." An old man from the Manor said angrily.

"Before this, we had already investigated everyone who was qualified, but only this person was unable to find out. I think he used a disguise technique and a fake one, he must have a huge background, I'm sure he doesn't know if he is hostile towards us Fire Divine Palace or not."

The old man from the Fire Divine Palace snorted: "Regardless of whether or not he is hostile to our Fire Divine Palace, he must be taught a lesson for destroying a good profoundbing like the Gold dragon ice."

[Chapter 1166](#)

The profoundbing's showcase hall was very big. The Gold dragon ice had already been broken down, and there were no treasures inside, causing those who wanted to buy the profoundbing to give up on the idea of taking the risk.

Clearly, the other profoundbing were more or less the same. Although everyone knew about this, it was all because of the psychological effects of the, so whenever they saw some of the more peculiar looking profoundbing, they all thought that it was possible that there were treasures inside.

In this place, perhaps only Chen Xiang could see whether or not there were treasures inside the profoundbing, but he did not have much hope for them. He felt that it would be very difficult to find treasures within the profoundbing, especially this kind of high quality profoundbing, he was just curious how these profoundbing were formed.

Chen Xiang did not believe that these profoundbing were naturally formed. He felt that these profoundbing were all created on purpose and were discovered by people many years later.

There were a lot of people in the exhibition hall, but there were many big shots or strong people gathered here, they had a lot of Spar and there was nowhere for them to spend them, so naturally they wanted to try their luck here, because some treasures were priceless treasures, no matter how many Spar you had, they would not be willing to sell them to you.

"Brother, my tone of voice just now was a bit presumptuous, please forgive me." A black clothed man walked to Chen Xiang's side and cupped his hands.

Chen Xiang never thought that he would actually take the initiative to apologize to him. But from the way things were going, although this man was a little aggressive on the inside, he was extremely upright. Although he had lost the bet, but he was very straightforward and also admitted defeat.

"I'm fine... I wonder what your name is?" Chen Xiang waved his hand at him and said.

"My name is Bi Xian, where's Brother?" The black clothed man laughed and said, it was obvious that he wanted to become friends with Chen Xiang.

Chen Xiang also wanted to know the location of the Gold dragon ice and smiled apologetically: "Cai Gui."

Bi Xian was a little shorter than Chen Xiang, but he had a tall and sturdy physique. Even though he was not handsome, he looked extremely charismatic, with a sharp horn on his face and a sense of steadiness, but the things that he had done before, were clearly too impulsive. He understood now, and decided to become friends with Chen Xiang.

The two did not have any conflicts, and they were not narrow-minded people either, so they soon started talking.

Chen Xiang felt that this Bi Xian was not simple. Although he looked like someone who had endured the six Nirvana Tribulations, Chen Xiang could feel that he was looking at flowers through the fog.

"Brother Bi, how did you get that Gold dragon ice? It might not be easy to get hold of it." After Chen Xiang and Bi Xian talked about a lot of things, they suddenly sent a sound transmission to Bi Xian and went straight to the point.

Bi Xian was also not surprised. He replied with a sound transmission: "I got it from the profound Cold Ancient Realm. This Gold dragon ice was buried very deeply Actually, there is a secret which only very powerful forces know about. "

"What secret." Chen Xiang had always been curious about the origins of these unique profoundbing.

"Some of the deeper parts of the profound Cold Ancient Realm have hidden rivers, and most of these unique profoundbing are submerged in these rivers. Although many of the powerful forces know about them, they cannot bring them up ... Because those underground rivers are exceptionally cold, and even the powerful immortals can turn into profoundbing. "

Chen Xiang was secretly surprised. There was actually this kind of underground river in the profound Cold Ancient Realm, he thought that it should be the reason behind the profound Cold Ancient Realm's appearance. Those profoundbing were probably formed this way too, he planned to take a look at those underground rivers.

"Brother Bi, could it be that your Gold dragon ice was obtained from there? It seems that you are not a simple person." Chen Xiang looked at a three-headed, tiger-shaped profoundbing, and secretly whispered to Bi Xian.

"I didn't get it, it was just a coincidence. When I met the gushing river, the Gold dragon ice gushed out from the hole dug by someone else, but this situation is very rare, I was lucky."

Chen Xiang did not believe that Bi Xian was lucky, but this was a secret to other people getting rich. He was not too familiar with Bi Xian right now, so he would naturally not pursue the details to prevent others from feeling disgusted, but he already had a way to get Bi Xian to bring him to search for those underground rivers.

"Big Brother Cai, why are you so sure that there are no treasures in my Gold dragon ice? Don't say that you're just lucky, I can see that you were quite confident back then, and weren't those lucky gamblers." Bi Xian asked, he only planned to befriend Chen Xiang because he had thought of this point.

Chen Xiang would definitely not say that he was able to tell that there was something inside the profoundbing, so he replied: "It's just a little family heirloom secret technique, but not every profoundbing is fine, especially those very ordinary profoundbing, I can't really tell, but if it's these high quality profoundbing, I can easily see through them, but not all of them, then I'll be able to see through the Gold dragon ice with a single glance."

Hearing Chen Xiang's words, Bi Xian was extremely excited.

"I never thought that there would be someone as amazing as Big Brother Cai, who can see if there are any treasures inside the profoundbing. Although not all profoundbing can see it, this is pretty impressive." Bi Xian exclaimed in shock and secretly sighed in his heart. The only thing he had done in his bet with Chen Xiang was to lose a piece of profoundbing.

With regards to this, it allowed him to have a much better impression of Chen Xiang, and also gave him the chance to meet someone like Chen Xiang.

"Big Brother Cai, since you have such a family heirloom secret technique, why don't we cooperate and use the profoundbing to make a fortune?" Bi Xian whispered to Chen Xiang.

Chen Xiang knew that it wouldn't be long before he would be able to follow Bi Xian to the profound Cold Ancient Realm to look for the place where the hidden river gushed out.

"Brother Bi, I do not lack Spar, I just want more high quality profoundbing, because I feel that these broken profoundbing can be used for a high price." Chen Xiang said.

Bi Xian was shocked, it was not as if no one had done this before, but he knew that this "Big Brother Cai" in front of him had a secret technique, he might be able to use these profoundbing s to create some powerful objects.

Chen Xiang released a little bit of sweetness to lure Bi Xian. If nothing unexpected happened, after the profoundbing ends, he should be able to follow Bi Xian to the profound Cold Ancient Realm.

Inside the showcase, not all the profoundbing were unique profoundbing of high quality, and there were also many so called "inferior profoundbing", which were all ordinary. It was precisely from these inferior profoundbing that Chen Xiang had produced this kind of impressive thing called Philosophic stone.

Chen Xiang and Bi Xian walked over to those inferior profoundbing s who had lost their luster in the showroom. Chen Xiang noticed a round yellow profoundbing, and when he looked over, the Chaos Divine Eye seemed to be able to see something from inside.

"There seems to be something inside this piece of profoundbing. I never thought that I would be able to see if there was anything inside this inferior profoundbing. This is my first time seeing it." Chen Xiang sent a sound transmission to Bi Xian. In order for Bi Xian to believe in his secret technique, he had to prove it.

Bi Xian was immediately overjoyed, "Can you see what treasure is inside?"

"No, I can only see if there's anything inside. Treasures or something are hard to see." Chen Xiang was telling the truth.

"How much is this profoundbing worth?" Chen Xiang asked.

An old man in charge walked over and said: "These are not for sale, these are all gifts. Only by purchasing the designated profoundbing s can you obtain these gifts, this is not a place to sell inferior profoundbing s."

Chen Xiang nodded his head: "So that's how it is. Didn't I say it before, how can we sell low quality profoundbing here?"

He looked at Bi Xian and asked with a smile: "I didn't buy anything from your Gold dragon ice just now."

Ever since the bet just now, Chen Xiang and Chen Xiang had been noticed by everyone here. The fact that they could become friends made many people quite surprised.

"That's because someone else prepared the gift, and someone else didn't." He knew that the two of them were old men. One of them could take out a Gold dragon ice and the other could throw out more than a trillion Spar in one breath; these were not people he could afford to offend.

Chen Xiang laughed: "Oh, I don't know what kind of profoundbing I have to buy to be able to obtain this oval shaped profoundbing, but I am actually a person who likes to take small advantages of others."

Chen Xiang was not so stupid as to directly say that he wanted to buy the oval shaped profoundbing.

[Chapter 1167](#)

Under the guidance of the old man, Chen Xiang quickly found the seller and bought a high quality profoundbing that was worth more than five hundred billion then went to a resting room with Bi Xian.

Chen Xiang took out the Hammer of God, and lightly struck the head of it, opening that oval shaped profoundbing, only to see a thumb-sized piece of immortal jade rolling inside.

"There is indeed something. Furthermore, it is a celestial jade. However, this is a bit of a loss." This piece of immortal jade was indeed not worth 500 billion Spar, but Chen Xiang had proven that he could see if there was anything inside the profoundbing or not.

The Celestial Jade was very small, but Chen Xiang could see it, if it was a big guy, it would be even easier.

"Then what about that piece of profoundbing that was bought with 500 billion, does that have a profoundbing inside?" Bi Xian asked anxiously.

Chen Xiang shook his head: "I can't tell."

Because Chen Xiang could not let this Bi Xian know that he could see very accurately. He wanted to create an illusion that Bi Xian would think that he was accurate at times and would not be able to see through him.

Following that, Chen Xiang broke through the profoundbing he had bought, but there was nothing inside. Chen Xiang and Bi Xian could only sigh in disappointment.

Although Chen Xiang had lost a lot, he believed that the loss now was worth it, because it would allow him to obtain even more high quality profoundbing, so he might not need to spend too much effort. Although he already had a lot of high quality profoundbing, but he did not think that it would be enough.

"The profoundbing's exhibition hall will not close. If everyone has enough Spar, you can come again. The next event will be a big one, and everyone should be looking forward to it." A middle-aged man said in a clear voice.

Chen Xiang looked at the middle aged man and frowned because the middle aged man had the aura of a Fire Divine Palace. Just a moment ago, he felt that the middle aged man was looking at his cultivation level.

"As expected of the Fire Divine Palace." Chen Xiang clenched his fists tightly, he felt that he was in danger. This was the territory of the Fire Divine Palace, and Fire Divine Palace was related to him, so he must not be weak.

Everyone headed towards the auction house. Chen Xiang walked in vigilantly as well as he sat in the middle row with Bi Xian.

After everyone had left, the middle-aged man from earlier stepped onto the platform. Holding a bronze mirror in his hand, he swept his gaze over the crowd.

Just as his gaze landed on Chen Xiang's body, Chen Xiang's body suddenly started to exude a gold light, which surprised Chen Xiang greatly, because he felt that his disguise was disappearing.

At this moment, everyone's eyes were focused on him, because the multicolored light surrounding his body was very dazzling. Even in this very wide hall, he was still very attractive.

Bi Xian was even more surprised. He thought that Chen Xiang was about to do something out of bounds, even though he still wasn't too familiar with Chen Xiang, but he knew that Chen Xiang was an extraordinary person who could use some trouble to see through the contents of the profoundbing.

After the golden light surrounding Chen Xiang disappeared, everyone in the auction venue sucked in a breath of cold air because Chen Xiang's transformation had been cancelled.

"Chen Xiang, I never thought that it would actually be you, haha ... Under the Skysoul Mirror, your true form is revealed. " The middle-aged man on the stage laughed out loud: "You're a dignified Dragon Subduing School of a Dragon Subduing School, and yet you don't dare to use your real body to appear.

The one who was even more shocked was Bi Xian, because he did not expect that the mysterious person who could see if there was anything inside the profoundbing was actually Chen Xiang.

The Leader of the Dragon Subduing School had grasped dragon veins, knew how to refine pills, and had done many heaven and earth shocking things. In the New Imperial Heaven World, it was really difficult to find out, as his portraits were all over the streets.

Although he was now a Leader of the Dragon Subduing School and had very powerful strength, there were still powers placing bounties on him, namely the Tong Tian Aristocratic Family s and some of the sage realm experts. Although none of these powers had strong experts, their foundations were very thick and there were many Spar s and such.

Although it would be difficult to get ahold of Chen Xiang with such a high bounty, it was enough to make Chen Xiang not dare to show his face in the New Imperial Heaven World, especially at a situation like this.

"Chen Xiang... Great devil. "

It was unknown who shouted, but the crowd quickly scattered and left Chen Xiang, and it was the same for Bi Xian. Although Chen Xiang was very strong, he had made too many enemies, and the middle-aged man on the stage clearly wanted to deal with Chen Xiang as well.

You guys are from Fire Divine Palace right? It's not like you have any rules about whether or not you can take part in the profoundbing s. Do you know how long I had to take part in the s?

Chen Xiang was extremely furious in his heart. His identity had been exposed, because he had only dared to let Bi Xian know that he had the ability to see through the profoundbing before after changing his appearance. If others knew that his Dragon Subduing School had this kind of heaven defying ability, then it would be very difficult for him to buy a set of profoundbing in the future.

Everyone could feel Chen Xiang's anger, and a monstrous killing intent immediately filled the entire arena.

Chen Xiang suddenly disappeared, he flew across the space, took out his Green dragon demon-slain broadsword, and fiercely slashed at the Heaven's Spirit Mirror.

He controlled it well, and he hacked it with great precision. He only destroyed the mirror in the middle-aged man's hand, not harming him.

Initially, he had wanted to put away the Heavenly Spirit Mirror, but who knew that Chen Xiang's speed was so fast that he arrived right in front of him in an instant, and even made a slash. If Chen Xiang's blade was even more ruthless, he might already be dead on the spot.

"Impudent, don't think that my Fire Divine Palace is a persimmon that you can pinch as you please. If you think that we are trash like the Tong Tian Aristocratic Family, then you are completely wrong."

Chen Xiang was shocked in his heart. He had long since known that there was a very powerful fellow hidden within the Fire Divine Palace, but he didn't expect that there would be an old fellow here.

"Hmph, it was you who first destroyed my disguise. You were the one who acted presumptuously." Chen Xiang shouted angrily, even though the opponent was very strong, he would definitely not show any weakness in terms of aura.

"Boy, I do not wish to attack you. Furthermore, you are not qualified for me to attack you. However, that does not mean that I will spare you." The old man was clearly a bit angry as well. His strength was so great, but he was actually being contradicted by a little kid.

"It's the Immortal King ..." This old fellow is an Immortal King. " Long Xueyi shouted, she was saying, let Chen Xiang quickly escape.

Just as Long Xueyi realised the old man's strength, the entire auction place was enveloped in a powerful seal. This was a barrier created by the Immortal King using a lot of energy, sealing off the surrounding space, so even if Chen Xiang used the power of the spatial laws, he would not be able to escape.

The moment Chen Xiang destroyed the Heavenly Spirit Mirror, the old man could tell that Chen Xiang knew some secret methods to travel through space, which was why he immediately sealed it. He could not let Chen Xiang escape, because this was the best opportunity to capture Chen Xiang.

Previously, the old man was still a little worried, because there was a very powerful and mysterious Great Elder by Chen Xiang's side. However, he didn't need to worry about him now, because he was sure that the Great Elder wasn't present.

The rest of the people in the auction house were trapped here with Chen Xiang, and just when they were complaining incessantly in their hearts, the old man chuckled and said, "Friends, this old man swears on Fire Divine Palace that he won't let you hurt a single hair on your head. If our Fire Divine Palace is able to capture Chen Xiang today, then from today onwards, we will not decline your request."

"And right now, everyone can also immediately watch an intense battle, to witness the elegance of Dragon Subduing School."

Everyone could feel the powerful aura exuding from the old man. Although the people here were all heavyweights, when faced with an Immortal King, they were still nothing more than ants.

Chen Xiang took a deep breath. Right at that moment, the middle aged man in front of him suddenly attacked.

After receiving the orders from the powerful old man, he immediately took action. When his palm struck towards Chen Xiang, a few sharp blade tips suddenly appeared in his palm. If he were to be struck by the palm, his body would definitely be pierced.

The middle-aged man thought that Chen Xiang would dodge or block, but unexpectedly, Chen Xiang did not move an inch, and his body released a strong traction force that firmly sucked the middle aged man's hand onto his shoulder. When the knife on the middle aged man's palm stabbed onto Chen Xiang's body, it actually bounced off, as if he was stabbing a piece of Vajra with great force.

"With your little strength, you still want to kill me? Scram." Chen Xiang struck out his palm, striking the middle-aged man's face and sending him flying out. He crashed into a pillar at the auction house and after breaking the pillar, he fell to the ground spitting out blood.

[Chapter 1168](#)

After Chen Xiang's transformation was broken through by the Heavenly Spirit Mirror, he revealed his true form, causing many of Chen Xiang's plans to be disrupted.

"Brother Shen, how are you now?" Bi Xian thought about it for a long time before finally sending a sound transmission to Chen Xiang.

"I only need to escape. Can you help me?" Chen Xiang was currently sealed within a strong barrier and this barrier was shrinking. As long as it was within a certain range, the people trapped within would be able to leave and at that time, only Chen Xiang would be able to escape.

"This is very difficult. The old man who laid the Spirit Formation was an Immortal King, and the power of the Spirit Formation is getting stronger and stronger. There is a very powerful formation here, and as long as that formation is activated, you will not be able to escape. Bi Xian sent a sound transmission to Chen Xiang, but when it was transmitted over, the voice became softer, showing just how powerful the barrier was.

"It seems that I can only work with you in the future. I will escape as soon as possible. You should leave this place for now. If a great battle breaks out, it might affect you." Chen Xiang sighed.

The rest of the people in the auction venue weren't in the enchantment anymore, so he immediately left to avoid any misfortunes.

"Chen Xiang, you have some skills. If I didn't intervene, it would be difficult for anyone in my Fire Divine Palace to kill you. Right now, let's seal you here temporarily, this is also to allow my New Imperial Heaven World to have some peace and quiet." The old man's words made Chen Xiang flustered and exasperated.

Chen Xiang could feel that the enchantment around him had become stronger. He guessed that the Fire Divine Palace used some sort of formation plate or other to reinforce him, making it harder for him to escape.

"Seal him for ten years. If no other powerful forces appear within these ten years, we will make our move and take down the Chen Martial Continent before we rule over the entire New Imperial Heaven World."

Chen Xiang used up all of his divine power and could only barely break out, so he could hear this sentence.

"Did I really get sealed? What is this guy trying to do?" Chen Xiang used all of his strength to frantically strike at the invisible barrier, causing rumbling sounds. However, he did not release any of his strength outwards, as all of it exploded inside the barrier.

Originally, there were many tables and chairs in this auction venue, but now, all of them had been destroyed by Chen Xiang. He was sealed here.

Chen Xiang was furious when he thought about how he was going to be sealed for ten years. He took out the Green dragon demon-slain broadsword and hacked at it randomly, but like before, it was completely useless.

He also used some escape techniques, such as the Water Escape Technique and the Earth Escape Technique, but this barrier was too powerful. It was as if this barrier was customized for him, and he was still unable to escape.

"Use the Hammer of God." Long Xueyi reminded.

Chen Xiang immediately took out his Hammer of God and hammered at the invisible barrier a few times, but to no avail. Following that, Chen Xiang used all sorts of powerful techniques, but were unable to break through the barrier.

"If I have the power of the Space Laws, I'll definitely be able to travel through space." Chen Xiang felt so, because he had used the power of the spatial laws, allowing space to fluctuate slightly. It was just that space had been strengthened and strengthened by the power released by the formation.

One must know that when the Fire Divine Palace sealed Chen Xiang, he used two formation plates, so they naturally had the strength to kill Chen Xiang. However, who would have known that Chen Xiang was a living treasure trove?

Furthermore, Chen Xiang was a Alchemist, he definitely had a Fire Soul on him, and it was very powerful. Fire Divine Palace had been staring at his Fire Soul for a long time, but he couldn't tell what kind of Fire Soul it was.

... "Palace Lord, are we just going to keep him trapped like this for ten years? Chen Xiang is a treasure all over his body, we should torture him to the point of forcing him to hand over the valuable things on us." a man asked.

Whoever goes torture him, you go, or I go, that's just courting death. Although I'm an immortal king, you should know that there are a lot of experts who have died at the hands of this kid, so he must have some way to kill those experts. So, we must be careful.

He already saw Chen Xiang as someone who could kill him, which was why he decided to first seal him for ten years. Furthermore, he could not go to at least as long as he could not give Chen Xiang the opportunity to do so.

"In that case, if we just seal him like this, we won't be able to get back the resources used by the formation." The man asked again. Those who could question the hall master like this were no ordinary people.

First seal him for ten years. If the Great Clan Elder does not come to save him within these ten years, that would mean that the Great Clan Elder is not in the Dragon Subduing School. At that time, we would go to the Chen Martial Continent and capture his wife and recognized sister as a form of threat.

The man smiled and said, "As expected of the hall master. As expected, the older you are, the wiser you are."

The Fire Divine Palace Lord sighed, "Regarding Chen Xiang, we can't not be cautious. The Emperor Dragon Guards that the Prince Imperial Dragon had brought along were instantly killed by the Great Elder, then the Great Elder's strength should be above mine. If we were to fight, it would be difficult for me to deal with him."

Chen Xiang, who was sealed within the Villa, still didn't know the Fire Divine Palace Lord's plan right now. However, he did know that the Fire Divine Palace Lord was planning to attack the Chen Martial Continent ten years later.

Half of the power in his body had already been used up, but this formation was still unbreakable. No matter how powerful his attack was, it could not move it in the slightest.

"Ten years is enough time for you to raise your strength by quite a lot. Maybe you'll be able to get out when the time comes." Su Meiyao said.

How could Chen Xiang not be anxious when such a thing had just happened when the Demon Charming Association had just been lured out? If his heart wasn't that good, he might have already gone mad with anxiety by now, because he could see through the intentions of the old man who sealed him here. One was to see if the White Tiger would appear, and if it didn't, the people from the Fire Divine Palace would go to the Chen Martial Continent to capture the person with the best relationship to coerce him.

Although he wasn't sure if this would happen, he was very worried. If the White Tiger didn't come, and he continued to be sealed here, it was hard to say.

Chen Xiang lied on the ground and took deep breaths. He hoped that Xue Xianxian and Leng Youlan would not come here, otherwise it would be equivalent to walking into a trap.

"Fire Divine Palace, remember this father. After I leave, the first thing I'll do is shovel Fire Divine Palace out." Chen Xiang's anger soared to the skies as killing intent surged from his body.

Chen Xiang was sealed here, and even spirit energy could not enter, so the people of Fire Divine Palace were not worried that Chen Xiang would raise his strength here. In order to ensure the stability of the array, they did not set up any surveillance array, and felt that it would be relatively easy to trap Chen Xiang for ten years.

Chen Xiang had stored a large amount of things that could help him increase his own strength, and in this aspect, those old fellows from the Fire Divine Palace who did not even consider anything to do with this item. This was also the only thing Chen Xiang could rely on to leave this place.

"Let's refine a super Qi Shen Dan first." Su Meiyao said.

Chen Xiang had also planned to do this. If he were a super Qi Shen Dan, consuming a few pills in a row would allow his cultivation to increase a lot. In the end, he would still be able to breakthrough a bottleneck with the help of a Philosophic stone.

In the later stages of the Nirvana Realm, one could not rely on elixirs to break through. One still had to comprehend the martial way or else it would not be possible to draw in Nirvana Doom.

"If you can attract Nirvana Doom, perhaps you can use Nirvana Doom to break this barrier. However, this barrier came from the Heaven Realm and you are worried that the Nirvana Doom will form inside, so you can only rely on your own strength to break this seal." Su Meiyao said.

Chen Xiang could only give it a try, there was no other way.

The Qi Shen Dan was very easy to refine, so Chen Xiang had a large amount of creation divine liquid in his reserve.

"A Qi Shen Dan made from five thousand sets of medicinal ingredients, the results should be pretty good, right?" Chen Xiang planned to first use one month's time to condense a large number of creation divine liquid, then duplicate five thousand sets of Qi Shen Dan's medicine, and finally use the Ten Thousand Refinements Technique to quickly refine the Qi Shen Dan.

"I can leave very soon. Bastards of the Fire Divine Palace, just wait to be squeezed to death by me one by one. You actually schemed against me like this.

Chen Xiang calmed his heart down, then slightly closed his eyes and began to circulate the Dragon cohesion kungfu, condensing those mystical creation divine liquid.

[Chapter 1169](#)

In the blink of an eye, Chen Xiang was trapped for over a month. When he was at the auction house, many people were there, so it was difficult to hide the matter, and Fire Divine Palace did not plan to hide it from the beginning. Furthermore, he even spread the news of Chen Xiang being captured.

The reason why Chen Xiang was captured was because he was causing trouble at the profoundbing s' association. However, Chen Xiang did not have any soldiers, this was all made up by the Fire Divine Palace, if Chen Xiang knew about this, he would be even angrier.

Many of Chen Xiang's acquaintances knew that he had been captured, but most of them were very calm and did not plan to save him. This was because in a place where even Chen Xiang was trapped, they were also unable to rescue him.

Even Chen Xiang had been trapped there, so if they were to go, they would definitely be caught. Although they were a little anxious in their hearts, if they were to go, it might even cause trouble for Chen Xiang.

Chen Xiang did not wish for others to come and save him. Of course, if it was the White Tiger, he would be very happy to see it.

"It's finally enough for five thousand sets of Qi Shen Dan s." Chen Xiang had been busy for more than a month. If the Fire Divine Palace had this kind of crazy ability, he would definitely vomit blood, because this was simply too dangerous. Trapping Chen Xiang was equivalent to allowing him to cultivate and raise his strength in peace.

Chen Xiang hated the feeling of being sealed up by someone, so in order to quickly leave this place, he would definitely increase his strength and allow himself to leave this damned place as soon as possible.

To prevent others from spying on him, Chen Xiang took out some materials from the ring and built a house in the hall. Then, he set up a variety of formations in the house to prevent others from spying on his body.

Dawan refining method could refine many batches of pills at the same time, especially those that Chen Xiang had mastered them extremely well. If others saw this, they would be in great danger, because the White Tiger had warned him not to reveal anything regarding the Heavenly Alchemy.

The Heavenly Alchemy was something that was even scarier than the Heaven Earth Killing Method, so he was extremely cautious in this regard.

"This place should be enough for 15 batches of ingredients."

This was what Chen Xiang had planned to do when he wanted to refine five thousand sets of super Qi Shen Dan s. He would first use the Dawan refining method to burn the medicinal ingredients to a certain degree at the same time, and then transfer the mostly burnt Medicine aura s and medicinal powders into the Yanlong furnace for fusion.

In this way, he would be able to increase his speed.

If it was in a place where the spiritual energy outside was dense, he could absorb a large amount of it into his body and release a very strong flame. It could instantly melt the Qi Shen Dan's medicine because he could establish a connection with the Qi Shen Dan's medicine and incinerate it from the inside.

Chen Xiang placed the Yanlong furnace in the middle, let out a low growl, and activated Dawan refining method, condensing fifteen translucent pale golden pill furnaces and surrounding the Yanlong furnace in the middle.

"Fire Divine Palace, it would be best if you all don't trap me for ten years. If you really do trap me for ten years, it would be hard to say just how far my strength will reach." Chen Xiang thought.

A super Qi Shen Dan with five thousand sets of medicinal ingredients was considerably strong, equivalent to a Heaven level Pill. This was something that only Chen Xiang could refine with such a strong foundation.

This was all to leave this place and punish Fire Divine Palace.

The fifteen batches of Qi Shen Dan began to refine. The flames within the pill furnace burned the medicinal ingredients and the red light within flickered, illuminating the entire room. The strong light even emitted a slight warmth, causing one to feel extremely comfortable.

Very quickly, the medicinal ingredients in the fifteen pill furnaces had reached the stage where they could be refined. Chen Xiang immediately placed the refined Medicine aura and medicinal powders inside, then started to refine another fifteen batches. At the same time, he also had to control the fusion of the Medicine aura and medicinal powders inside the Yanlong furnace.

He would have to repeat this many times, and the more last, the more pressure he would feel, because at that time, the Yanlong furnace would already have absorbed a large amount of medicinal ingredients.

... "Senior Sister ... Brother, he's been captured by the Fire Divine Palace, I really want to save him. " After Leng Youlan was caught, she shouted to Xue Xianxian everyday. She knew that her strength was limited, and saving Chen Xiang was like a moth to a flame, but she was very anxious, so she could only do this to ease her emotions.

Xue Xianxian was the same, but she was very clear on the reason behind Fire Divine Palace's actions. Fire Divine Palace did not kill Chen Xiang, but instead trapped him, and from this, it could be seen that they had other plans. She did not believe that Fire Divine Palace had the ability to trap Chen Xiang, but they could not kill Chen Xiang on the way.

I think that the Fire Divine Palace will definitely trap him for a very long time. I want to see if there are any powerful people who can save him. Xue Xianxian's face sank. "Maybe it's against Dragon Subduing City, or maybe it's against Chen Martial Continent ... and those of us who are closest to him. "

Leng Youlan shouted angrily: "These bastards, they must come when the time comes, let's see how this old lady will kill them."

Xue Xianxian nodded his head: "So we don't need to trouble your brother, we only need to increase our strength, and don't let him get away with it. Your brother has too many good things on him, and furthermore, he can endure the torture.

"Now that the Demon Charming Association has retreated, and with so many people watching us at the place where the Chen Martial Continent is, the only powerful Dragon Subduing School has been captured. In the following days, we should guard the Chen Martial Continent well and not let anyone else occupy it."

Leng Youlan nodded her head heavily, she wanted someone to come to the Chen Martial Continent to cause trouble, when that happened, she would be able to use her skills to eliminate those bastards.

Due to the fact that Chen Xiang was captured by the Fire Divine Palace, the various powerhouses of the Chen Martial Continent started to get nervous once again. Earlier, when the Demon Charming Association had hidden himself to retreat, they were already prepared to go to war with him at any time, and now that Chen Xiang was captured, it meant that the Chen Martial Continent had lost the last of the powerful forces to protect them.

Inside Dragon Subduing City, Li Baojun and the rest were also discussing.

"If there really is a day that we have to go to the Chen Martial Continent to assist them, many people would think that it would be easy to take down the Dragon Subduing City without Chen Xiang here. Actually they are wrong, the Dragon Subduing City's powerful defense is not something they can imagine." Li Baojun said.

Duan Sanchang nodded his head: "We must pry more news about them during this period of time, and we must also use this time to increase our strength, those fellows won't take any action in the near future, it might take a few years until they are sure that the Great Clan Elder won't go save the Leader, then they will take action."

Earlier, the outside world had heard that although the Great Clan Elder of the Dragon Subduing School was incomparably powerful, his movements were secretive, and even Chen Xiang was unable to find him for a short period of time. If they did not save Chen Xiang for a long period of time, the great powers who coveted for the Chen Martial Continent would dare to take action.

"Send someone to the Devil-subduing College to notify him. The principal there is on good terms with the Leader and he can look after him when the time comes." Li Baojun said.

"Then what about Leader, I don't want to save him anymore." Lan Lan asked.

If the Great Clan Elder does not appear, then only he will be able to save himself. Regarding his ability, we do not need to doubt it, we just need to protect this place well, and at that time, we can just support the Chen Martial Continent. "Su Yun said. Li Baojun said.

Yan Yanran said: "Then I will focus on spying on the Fire Divine Palace and create some rumors, letting those powers that want to curry favor with the Fire Divine Palace know about some of Fire Divine Palace's dirty secrets, and then discredit the Fire Divine Palace."

Everyone divided their work. Although their strengths weren't very strong, their movements were extremely strong. With Duan Sanchang, the God of Escape, here, they had learnt a lot of abilities to escape.

Inside the White Tiger profound Realm, the White Tiger had already found out about the news, and it was from the Patriarch of the White Tiger Fighting Race, Bai Zhan.

"Prophet, are we not going to save him?" Bai Zhan asked.

Instead of saving him, it's a good thing. I believe his friends are aware of this, so I won't allow any too strong people to cause trouble in the Chen Martial Continent. This is New Imperial Heaven World, it's the heaven and earth of the new generation. The White Tiger said.

[Chapter 1170](#)

Chen Xiang was sealed in a villa in the profound Ice City and was currently focusing on refining pills. From the very beginning, he did not wish for anyone to save him, unless it was a white tiger or a strong one.

When five thousand sets of Qi Shen Dan's medicinal pellets were combined together, the quality could be imagined. If so many of them were condensed into a pellet, the quality would be extremely terrifying.

The Qi Shen Dan in Chen Xiang's hand was very heavy. Even though it was only as big as a thumb, holding it in his hand was as heavy as holding a Hammer of God.

This pill took him two months to concoct.

He looked at the pill in his hand that was emitting a strong green light, thinking to swallow such a pill into his own stomach, he felt a little afraid, afraid that he would not be able to control the violent and surging Medicine aura.

At this stage, just relying on pills was not enough to break through, he still needed to comprehend it, otherwise he would not be able to refine and absorb the energy inside. Only when he comprehended the true meaning of martial dao, would he be able to quickly absorb the energy and use it to expand his own Dantian, strengthening his own body, this was extremely important.

If Chen Xiang did not have a Philosophic stone, he would not have dared to eat this kind of Qi Shen Dan that contained a boundless energy. If he was unable to comprehend something, the inside of his body would be filled with a strong power that would not leak out, and that would only cause him to be injured and go berserk.

Comprehension referred to guiding one's strength to develop the hidden strength within one's body, while strengthening the body and the soul. As for how the process was, everyone was different, so at this point in time, one could only rely on themselves.

Some people could suddenly understand how to use their own strength to strengthen themselves, but at this time, they lacked the resources to cultivate. Some people had their own resources, but it was difficult for them to comprehend them, so they became stagnant and finally died of old age.

After eating that super Qi Shen Dan, Chen Xiang circulated his divine arts and quickly refined it, refining it into Innate Qi and God Power. Then, it condensed into a Heaven Pellet in his Dantian.

Not long after, Chen Xiang's forehead started to perspire, with a serious expression on his face. It was obvious that he had encountered difficulties in his cultivation.

Although the divine power could crazily rush into the Divine Sense Sea, it was unable to open up the Divine Sense Sea, nor could it strengthen the divine soul. The Innate Qi could also enter the dantian smoothly, but it could not enter the five Beast statue s and could not nurture the heavenly pellets.

Obviously, he had encountered bottlenecks that would often occur after he reached the Nirvana stage. He tried using the method he had previously used to cultivate, and poured all of the vigorous energy into his dantian and Divine Sense Sea. However, these energies were clearly outside his control, and after entering the dantian and Divine Sense Sea, he was not allowed to freely command them.

Chen Xiang anxiously took out the Philosophic stone and used his mind consciousness to enter the Philosophic stone. Suddenly, many mysterious Spirit grain s appeared in his mind, making him feel as if he had fallen into a sea made of Spirit grain. Unknowingly, he realized that the Spirit grain inside the Philosophic stone seemed to have intelligence, and had slowly turned into a person.

If one looked carefully, the human figures formed by the countless Spirit grain looked like the innumerable meridians in the human body.

"What's going on?" Chen Xiang only felt the Spirit grain s figure floating towards him, and in the blink of an eye, it pounced on him. The power in his Divine Sense Sea and Dantian that seemed to have been cut off, surged out like a flood that had broken through the dam.

Chen Xiang had entered into a very wonderful state, and he couldn't tell what it was like either. He only felt that the five Beast statue in his dantian were all filled with dense energy, and the Divine Sense Sea was also expanding bit by bit under the impact of the divine power.

He knew that the Philosophic stone could help him relax a little, but he never thought that it would actually help him get through this crisis so quickly. No wonder the Philosophic stone were so precious.

Previously, he had only been able to refine those profoundbing by using them.

"This Philosophic stone is really something." Chen Xiang sighed in admiration in his heart, then concentrated on cultivating. As long as one could condense a core embryo within each Beast statue, the Nirvana Doom would arrive.

However, Chen Xiang was not sure if his Nirvana Doom could penetrate such a powerful barrier. If not, then he would not be able to pass through Nirvana Doom.

After three months, he finally finished digesting the entire [Super Qi Shen Dan], but the seventh Heaven Pill's embryo was extremely dim.

"A single Qi Shen Dan like that can only have this kind of effect." Although Chen Xiang was already prepared in his heart, he didn't expect that the Qi Shen Dan that he had created in three months, would have so little effect.

"The next three tribulations of the Nirvana Doom are the hardest and the hardest to break through. You should be satisfied with how you were able to achieve such a result in a short half a year." Su Meiyao said.

"Ah, so you're saying that I haven't made much progress in ten years." Chen Xiang felt that he had to speed up his concocting process. Otherwise, he wouldn't be able to leave even ten years later.

"That may not be so. If you are able to break through the seven Nirvana Tribulations, you might have a great chance." Bai Youyou said, "Those who pass through the seventh tribulation, after going through the baptism of the seven Nirvana Tribulations, will normally possess a body with strength called Devastating Golden Body, which is based on the strength of your original body.

"Even if my physical body is powerful, I might not be able to escape this place. Furthermore, I am sealed here. It is hard to say whether or not I will be able to escape the Nirvana Tribulation." Chen Xiang sighed.

Long Xueyi yawned and said: "Little Scoundrel, don't think that you're the only one who's trapped here. This Dragon Emperor isn't good, so if your physical body is strong enough, then my power can completely fuse with yours."

"I don't want to strike you down. Honestly speaking, even though you are a genius, you are still a human after all. No matter how fast your cultivation is, you can't be faster than me. "Tsk tsk, you can't even catch up to me when you flatter me."

Chen Xiang had not considered Long Xueyi's power before, and he had indeed admitted that Long Xueyi was much stronger than him. He had borrowed Long Xueyi's power many times in the past, so he had a deep understanding of this.

"Regardless of whether or not I can get out, the most important thing for me right now is to constantly strengthen myself." Chen Xiang clenched his fist and said.

"Of course, I feel that your Dawan refining method can be increased to thirty, forty, or even fifty batches per batch. This will save you a lot of time." Su Meiyao said.

Refining such a big pill required time, even though Chen Xiang's refining skills were superb, he would first need a large number of ingredients, and then a large number of creation divine liquid would be required to duplicate a large number of ingredients. During the process of refining, he would need to smelt them one by one, and then fuse them all together.

Otherwise, with his previous speed, he would need more than three months to successfully refine one pellet, and the effect would not be very good. Hence, he planned to refine ten thousand sets of super Qi Shen Dan s, and the effect would be much greater, as the energy contained in ten thousand sets of herbs would be condensed together, one could imagine how high the quality would be.

Chen Xiang could use it multiple times to multitask, and as he was condensing creation divine liquid s at the same time as comprehending the Heaven Earth Killing Method, he had only touched on a little of these Killing techniques, so he was not too familiar with them. However, they gave him a very strong power, so as long as he had time, he would definitely try to comprehend the three Heaven Earth Killing Method s that he had obtained.

Time flew by, in a blink of an eye, three years had already passed, and the room that Chen Xiang built here had grown a lot. In order to be able to contain more pill furnaces, he could now control eighty pill furnaces.

Chen Xiang had already eaten a few supreme Qi Shen Dan with the grade of ten thousand medicinal ingredients, but he was still a ways away from breaking through. However, what made him happy was that in the past three years, he had been using Philosophic stone nonstop, and this not only allowed him to cultivate, it also allowed him to comprehend some methods of using the spatial laws.

In terms of spatial laws, there were probably not many people that had this kind of power, thus no one could guide Chen Xiang. He could only rely on himself to comprehend, otherwise, he would only waste this kind of divine object.
