

Dan God 1261

[Chapter 1261](#)

When the two Immortal King Stage Great Leaders of Fire Divine Palace arrived, Chen Xiang and the others did not dare to act rashly. Furthermore, they felt a small pressure, but everyone else believed that Chen Xiang could handle it.

If it was the Immortal Monarch, he would naturally be able to solve the problem with Bai Zhan. However, the Immortal Monarch who cultivated the divine way was indeed very powerful, and could fight Bai Zhan to a standstill.

"Hall Master, almost all of our disciples have died." The Immortal Monarch said angrily.

"I know." The hall master's face became gloomy and cold, Wang Qiongjin also clenched his fists, and wanted to attack.

Chen Xiang laughed coldly: "We've waited so long for you all to come and attack us so I can only make the first move. Furthermore, we can't possibly allow you all to attack us from so far away."

The higher ups of the Fire Divine Palace understood what Chen Xiang meant, he did not expect the Chen Martial Continent to attack them, nor did he expect them to attack him.

"I'm going to kill you." That hall master's expression suddenly turned sinister.

Sensing the Palace Master's killing intent, Chen Xiang and the others started to panic. However, at this time, a ball of black aura suddenly appeared between the two parties.

After the black Qi dissipated, he saw that it was actually a White Tiger, the Great Clan Elder of the Dragon Subduing School.

If you want to take revenge, then wait until Di Tian fully matures before attacking again. Your Fire Divine Palace has a very ancient foundation, but you still lost to this group of juniors today.

The White Tiger lightly looked at the people from Fire Divine Palace, but that group of people could feel an incomparably strong killing intent.

Previously, the Palace Master and Wang Qiongjin had only thought that the Great Elder of the Dragon Subduing School was also an Immortal King or a rather powerful Immortal King, but now that they had seen the Great Elder, they knew that he was definitely not just an Immortal King. As for his strength, they could not see through it either, but he had already far surpassed the Immortal King level, and could easily kill them.

Even in the Heaven Realm, these two Immortal King Level Rankers had never seen such a terrifyingly strong expert. They had never been pressured by this kind of pressure either.

When the White Tiger appeared, Chen Xiang knew that it was finally going to end.

"Chen Xiang, you better not fly to Heaven Realm. Otherwise, you won't live for long." The hall master spat out a few harsh words before leading his men away through the array disc.

"Will they be able to return to the Heaven Realm? If I fly up to the Heaven Realm in the future and can't meet them, it would be too boring." Chen Xiang wasn't afraid at all, he was grateful that the White Tiger hadn't killed them yet, because he wanted to do it himself.

"They will definitely return. There are so many people who have surpassed the Nirvana Stage. It will be difficult for them to grow by staying here." The White Tiger looked at the bloody scene around it, shook its head, and sighed. "You can all go back now."

Immortal King level beings could not meddle in too many things. For the White Tiger to have Bai Zhan come out to help was already an exception, Chen Xiang could understand.

In the future, they would have to rely on themselves to ensure peace in the Human Realm.

Everyone left one after the other. Their losses could not be considered heavy, but some good seedlings had died, thus many of the Great Leaders were somewhat heavy. However, from then on, they removed the threat of Fire Divine Palace.

After solving the problem that was the Fire Divine Palace, everyone still had to discuss how to deal with the demon and completely drive it away. They did not believe that the demon and human race could live peacefully together, because they had already witnessed the savagery of the demon and had wanted to find the demon for negotiations many times but most of the envoys they sent did not come back.

Without Fire Divine Palace, this sh * t guy who was messing around in the three realms of the Human Demon Realm, the various forces in the Human Realm could join hands. To deal with the demons, there was no longer a need for Dragon Subduing School to do anything.

The matter of exorcising the demons would be handled by the Devil-subduing College. Of course, it would not be done by the Devil-subduing College himself, but the Devil-subduing College would gather the various sects in the Human Realm and discuss the best strategy.

It was a rare opportunity, so Chen Xiang, Yun Xiaodao and the others got together with them. At this moment, everyone's goal was to break through quickly and rise as fast as possible.

"The person who ascended the fastest here should be the boss of the Leader." Xiao Chou laughed.

"Ah... Wouldn't it mean that our Dragon Subduing School will not have any more Leader in the future? " Lan Lan laughed: "How about this, after Leader flies up, Leader will temporarily do it for me."

"Lan Lan, it's not easy to be a Leader. If you're just playing with him in front of everyone, you might as well create your own sect." Yan Yanran chuckled.

Chen Xiang shook his head: "Don't worry, I will definitely be the last one to ascend."

Even though he looked extremely powerful, the further he went, the harder it was for him to break through.

They were all young, and looked forward to the Heaven Realm. Furthermore, Huang Jintian, Gu Dongchen and the others had already gone to the Heaven Realm, they thought that if they could follow Gu Dongchen and the others, they would be able to get along well, and would not have to worry about not having any relatives or relatives.

Even if the Heaven Realm did not have anyone familiar with him, Chen Xiang was not worried. Furthermore, he planned to go to the Heaven Realm in the future and not find anyone he knew. Furthermore, he felt that many of the old fellows in the Heaven Realm were waiting for him to go to the Heaven Realm as his Green dragon demon-slain broadsword was very famous in the Heaven Realm.

"Celestial Slain Method, Ground killing, God slain method. Currently, I only have these three killings, as well as Alive Slain Method and Beast Slain Method, I have yet to find them. I wonder if they are all still in Di Tian."

If he had not gathered all of the Heaven Earth Killing Method, Chen Xiang did not want to leave Di Tian at all. Otherwise, who knew how many years it would take for him to return to Di Tian.

"Go and ask the tomb robber." Long Xueyi said.

Chen Xiang was on his way now and he wanted to go find him. Back then, Duan Chong knew where the Sacred Beasts Ancient Realm was.

Duan Chong opened the door and saw Chen Xiang. He also knew the reason why Chen Xiang was here.

"You really want to go to Sacred Beasts Ancient Realm?" Duan Chong asked.

"I have to go. If I can't find the Heaven Earth Killing Method, I just need to cultivate in the other three sects, but I won't be able to find anything. I keep having the feeling that cultivating the Heaven Earth Killing Method up will require me to be complete." Chen Xiang said.

"Sacred Beasts Ancient Realm is the birthplace of many powerful beasts, famous sacred beasts from all four directions. Phoenix, Dragon and Ten Heavens Supreme Lord came from there." Duan Chong said.

And that Super Old Fire Beast, Chen Xiang knew this.

That would be very dangerous, but Chen Xiang had to go. He knew that he was definitely not going to die, and he also had a lot of experience escaping this place.

"Alright, I'll give you a map, but this map belongs to the Heaven Realm. After you go up, find out about this place and prepare to head there again."

Duan Chong took out a map and handed it to Chen Xiang. When Chen Xiang opened it, he was stunned.

"This ..." He had seen this map before, and it was from a treasure chest he took out the map of the mysterious Dan Emperor. The White Tiger had previously said that this map was in the Heaven Realm, and it was in a very powerful place at that.

He carefully looked at the map. The mark on the map was exactly the same as the one on the treasure chest.

"How did you get this map?" Chen Xiang asked curiously.

"It was passed down from our ancestors. I only know that this is the Sacred Beasts Ancient Realm, and as for the marked place, I don't know what's there either." Duan Chong said: "However, if we follow the route, it might be safer."

Duan Chong's map did not have the Dan Emperor's logo, it was just a copy, and what he had taken out from the Treasure Chest was personally drawn by the Dan Emperor himself.

It could be seen that the things that were hidden in this place were definitely not simple. After knowing that the place was the Sacred Beasts Ancient Realm, Chen Xiang suspected that the Beast Slain Method might be hidden there.

The Heaven Earth Killing Method was obtained by the White Tiger. Back then, the White Tiger had distributed it to other powerful Holy Beasts in the Sacred Beasts Ancient Realm to learn together. Many Holy Beasts had modified and created cultivation techniques suitable for them and passed them down, such as the Imperial Dragon Clan's divine arts.

"If the Beast Slain Method is in the Heaven Realm, then what about the Alive Slain Method?" Chen Xiang felt that the Alive Slain Method might be of great help to him, because that Dragon cohesion kungfu might actually be the Alive Slain Method.

[Chapter 1262](#)

Ever since the disappearance of the Fire Divine Palace, the previously rampant demons did not dare to be overly arrogant. Some of them had already left the Human Realm, and the demons that did not have a clear view of the current situation had all been killed.

Right now, Di Tian could be said to be very stable. Most people all planned to prepare for ascension. But of course, if they had the choice, there would still be many that wouldn't ascend so early.

After all, the top of Heaven Realm was a high level world and they were considered the top experts of Di Tian. However, after going to the Heaven Realm, they became the weakest group of people.

However, there were also many people who wished to be able to quickly reach the Heaven Realm that they had been yearning for for for a long time.

From there, Chen Xiang was busy, because if he were to fly up in the future, no one would be able to provide him a large amount of high level pellets to support his Dragon Subduing School's growth, so before he ascended, he had to use the creation divine liquid to obtain more high level pellets for Li Baojun to keep. He did not know when he would be able to return to Di Tian, but it would definitely be a long time.

Although Li Baojun and Duan Chong had surpassed the strength of immortals, they could not head to the Heaven Realm now, so they could only stay here. However, they did not have to worry about not being able to raise their strength because there was a dragon vein here, and although the dense Spirit Qi was not comparable to the Heaven Realm's Spirit Qi, it was enough for them.

Chen Xiang would also give them some Longevity fruit and let them refine it into a Ten Thousand Life Pill. At that time, they would have their lifespan increase.

Inside the Dragon Vein, Chen Xiang was condensing creation divine liquid. In the remaining time, he would put all his effort into condensing creation divine liquid s, and not only would he need to duplicate a large amount of high grade medicinal ingredients, he would also need to refine some pills for himself to eat in the future. Only then would he be able to break through and quickly ascend.

This was also why he previously said that he would be the last one to ascend. It was because he still had to lay a solid foundation for the Dragon Subduing School, especially in the area of pills.

For the current Di Tian, Hunyuan Dan s were more than enough, but even if it was Hunyuan Dan s, it was enough for Chen Xiang to suffer for a long time.

But for a very big sect, to be able to get ten sets of medicinal herbs a year was already not bad. This was also why so many people wanted to become the hanger-ons of the Dragon Subduing School before this.

After Fire Divine Palace was gone, he would no longer need his hanger-ons. Even if Chen Xiang knew how to duplicate medicinal herbs, he wouldn't be able to keep so many hanger-ons for so long.

Of course, these hanger-ons would have to sacrifice some during the great war, and those who survived would feel that they earned something even though Dragon Subduing School persuaded them to leave. It was just one year, but they could get one of the Hunyuan Dan, which was worth it in their eyes.

Although Chen Xiang did not really manage the Dragon Subduing School, he did a lot of things for the Dragon Subduing School, and it was also very important. Furthermore, the Dragon Subduing School now had a very solid foundation and a safe environment, so as long as it continued to develop smoothly, sooner or later, it would become a very powerful sect.

Many of the disciples who were able to enter the Evil Dragon Graveyard had passed through layers and layers of tests and were also seen as core disciples. However, many of them had never seen their Leader before.

They didn't know that in order to get more pills for these disciples, Chen Xiang had sacrificed a lot of time to do so, and went into closed-door training for thirty years. He had gathered a total of more than thirty-six hundred batches of Hunyuan Dan's medicinal ingredients, and if he were to refine them for him, he could refine more than ten thousand of them.

"Elder Li, I think these medicinal ingredients should be enough ..." Once Chen Xiang came out, he gave all these medicinal ingredients that he had "cooked" for thirty years to Li Baojun.

If he were to spend thirty years of his time cultivating, he would probably be in the Heaven Realm already.

Li Baojun looked at the large amount of Hunyuan Dan medicine inside, and was immediately stunned. Such a large amount of Heaven level medicine, to a Alchemist like him, was more shocking than anything.

"That's enough. Don't worry, I will definitely reach your level. You can produce four pills in a single furnace. If not, you will be unworthy of these medicinal ingredients." When Li Baojun saw Chen Xiang's bitter expression, he knew that Chen Xiang had toiled for this for the past thirty years.

"Right, where are Xiao Dao and the rest?" Chen Xiang asked: "They are about to ascend right? These guys are actually walking in front of me."

Duan Chong, who had just walked in, smiled and said, "They had already ascended five years ago ... They were in a hurry to find you. "

Chen Xiang stared blankly before sighing, "Forget it, sooner or later, I will also go to Heaven Realm."

"The Leader's wife and your recognized sister have also ascended. They left rather early, and had already left ten years ago. They had all come to find you, and we had also sent Elder Tie to call for you at that time. However, you did not respond." Li Baojun said.

Duan Chong chuckled, "Young people nowadays really live in a good era. A reorganized Di Tian, has become more talented, the spirit energy has become denser, and the rate of improvement is really fast. During this period of time, I often heard about some young people from famous sects flying to Heaven Realm."

"I'm relieved that they were able to successfully ascend." Chen Xiang laughed bitterly: "I may still need some time before I can head up. My current cultivation has encountered a bottleneck, and it's very difficult to break through."

"That's right, Dan Fragrance Pure Land's Leader. Where's Wu Qianqian, has she ascended yet?" Chen Xiang asked, but neither Duan Chong nor Duan Chong mentioned it.

When mentioning Wu Qianqian, Li Baojun's face immediately revealed an expression of admiration, and said: "It also rose, it happened two years ago. However, this girl is not kind, before flying up, she came to me to borrow a set of Hunyuan Dan's medicinal ingredients to refine pills ... Furthermore, she used your God purification, this little girl did it on purpose to attack this old fellow. "

After Chen Xiang heard it, her face immediately revealed shock: "This is real, how did she do it?"

Using God purification required a very strong consciousness. Chen Xiang thought that they had to have divine soul to be able to step into the divine way, but Wu Qianqian actually was able to do it.

He had only explained the refining process in detail, as well as the chants that he had comprehended from the Heavenly Alchemy. As for Wu Qianqian, he had crossed the river by himself and successfully refined a batch of Hunyuan Dan, and he had even succeeded in the first attempt.

After all, I have mastered the Foreseeing Alchemy, so I can refine Heaven level Pills, which is why my attitude towards self-study is too passive. "Feng Feiyun said with a smile. Li Baojun said with shame.

Since Wu Qianqian could not refine the Heaven level, and if she wanted to use the Foreseeing Alchemy, it would take too long.

[Chapter 1263](#)

Chen Xiang passed the Leader position down to Duan Chong. Although he was the head of the tomb robbers, he still had a good management system. Li Baojun could also do that, but he had to concoct pills.

After creating a large expanse of Hunyuan Dan's medicinal ingredients, Chen Xiang felt much more relaxed. However, he still had to make some more, and he felt that he would need at least tens of them.

Chen Xiang did not need to care about the matters of the Dragon Subduing School in the future.

He used more than a year to duplicate fifty Longevity fruit for Li Baojun, then left the Evil Dragon Graveyard to visit his old friend Zuo Zhenxuan, as well as the White Tiger Fighting Race inside.

Then, they would go to the Chen Martial Continent to see the current Leaders of the sects. Divine Weapons Heavenly Country and Icy Wind Valley's Leader were still women, Pan Yunlan would support the new Leader.

Chen Xiang suspected that the Divine Weapons Heavenly Country's successors were female because there was a type of skill that could help the female quickly increase their strength. Or perhaps it was some other method, because he found out that whether it was the Icy Wind Valley or the Icy Wind Valley, the majority of the female experts were female.

Dan Fragrance Pure Land was currently an old man. He was quite famous in the pill refining world, and was able to refine high grade Heaven level pills.

The island master of the Lotus Island had already changed, but he was still Lian Yingxiao's son, and was the younger brother of the previous island master. Lian Yingxiao had many sons, and even more grandsons, and many of them were very outstanding, not lacking in successors.

As for the Super Martial School, of course the Leader had also changed. He was a very sturdy old man whom Chen Xiang recognized in the past, and when Chen Xiang appeared in the Super Martial School, the elders treated him like a senior.

In the end, Chen Xiang came to the Icy Wind Valley. When he was in the Chen Martial Continent, many rankers knew that he had flown up, and many people thought that he had done so.

"Elder Pan, you didn't tell Xianxian and the others about me cultivating the divine way right?" Pan Yunlan asked. To Di Tian, Pan Yunlan was a very strong existence, close to the strength of the Immortal Monarch. Furthermore, he also had divine soul.

"Of course not."

Moreover, she had already assisted many Leaders. Furthermore, with her current strength being so strong, she was a person that many disciples respected greatly, not to mention that she had been a peerless beauty ever since she was young. Her mature and charming temperament was extremely harmful to many men.

Even Chen Xiang would sometimes be captivated by this woman.

"Kid, I didn't expect that you haven't ascended in over 30 years ..." Pan Yunlan realized that Chen Xiang was staring at him, and lowered his head, and said softly: "Although Di Tian is big, he doesn't have many strong warriors, and you have the chance and strength to go to Heaven Realm to take a look."

Pan Yunlan was clearly aware of what kind of person Chen Xiang was, who had already lost to him.

Chen Xiang coughed dryly and said, "Elder Pan, I'm sorry. I only remembered something very important now ... You definitely cannot continue to cultivate in your Spirit Cultivation Method. There is a big problem with the Divine Devil Cult's technique, I am here to pass on to you a cultivation technique that cultivates the way of the gods. "

"I said that I would give it to you before, but now that I think about it, I'm really sorry."

Chen Xiang felt very guilty, he had wasted 30 years of his family's time.

Pan Yunlan chuckled: "What's there to be sorry about? You saved me, after all.

"Then let's begin." Chen Xiang laughed and then patiently passed the incantation to Pan Yunlan. This was a Nine-turn dragon god mantra and he had repeatedly reminded her not to spread it.

Chen Xiang stayed in the secret room with Pan Yunlan for many days.

After completely imparting this to Pan Yunlan, Chen Xiang said: "I have delayed you for more than thirty years. If your lifespan is insufficient in the future, go to my Dragon Subduing School and ask for a Longevity Pill from him. I told him before that he would definitely give it to you."

"Got it. You are quite capable. No wonder Meng Er and her disciple like you so much." Pan Yunlan laughed.

"Well... "Heh heh." Chen Xiang did not say much.

"What I am going to do next is to busy myself with matters of ascension. When I see you again in the future, maybe it will be time for Di Tian to recover his status. By then, you should also be a very strong Ranker in Elder Pan."

"Mm, don't worry. I will definitely not let you down by helping me. At that time, I will definitely become a powerful person." Of course, she knew that with Chen Xiang's personality, he would definitely have many enemies in the future. The only way she could help Chen Xiang in the future was to make herself strong.

After leaving the Icy Wind Valley, Chen Xiang wandered around the Chen Martial Continent, looking at the places he had previously visited. He stood beside the You Ming Deep Abyss.

"sister Meiyao and Sister You You You haven't woken up." Chen Xiang asked.

"No, they are still sleeping. Don't worry, they are doing very well. The divine soul has already grown. Who knows, when they wake up, their cultivation level will be very high as well." Long Xueyi said.

Chen Xiang had not improved much in the past thirty years, but his strength must have increased by a lot. When Chen Xiang thought of this, he felt unbalanced in his heart.

"Little Naughty Dragon, you haven't eaten all the food inside yet, right?" Chen Xiang was already mentally prepared when he asked that question, but he was still provoked by Long Xueyi's words.

"No, I have kept one for each breed. I can make a lot of copies for you." Long Xueyi said proudly, just like a child who thought that he had done something great.

"You're so good. You didn't finish all of them, and even left me some." Chen Xiang took a deep breath before speaking.

"Of course. Oh right, when are you going to help me refine the Heaven level pills? I'm almost out of food." Long Xueyi said.

Although this little dragon could eat a lot, Chen Xiang felt that it wasn't raised for nothing, because she was very strong, furthermore, he had already treated this little dragon as his own woman. After being together with her for so long, it was impossible for him not to have deep feelings for her.

You'll have to wait for me to raise my cultivation in the divine way, and I don't know what kind of pill is suitable for you to eat, but right now, I'm really lacking the ingredients for the low grade Heaven level pills. Chen Xiang said.

Long Xueyi said magnanimously: "Alright then, I'll barely starve for a period of time. You go and ascend to Heaven Realm first, then we'll talk."

Chen Xiang did not expect that after cultivating for 30 years, the little dragon had already mostly eaten the herbs in the ring, but she had left a portion of them all, so Chen Xiang was able to replicate them using creation divine liquid s in the future.

Returning to the Evil Dragon Graveyard, Chen Xiang immediately ran into the Dragon Vein. He felt that the little dragon he raised was more edible than the Dragon Subduing School, he had to rest easy on Long Xueyi's stomach.

[Chapter 1264](#)

The difficulty for Chen Xiang to cultivate now was that he needed to condense more and more Innate Qi s. If not for him being able to condense creation divine liquid and duplicating a large amount of medicinal herbs to cultivate, it would be extremely difficult for him to grow by himself.

He had absorbed a lot of energy from the Dragon Veins. Adding the energy from the Hunyuan Dan, he felt that he would need to ascend very quickly.

I'm only at the seventh level of the Nirvana Tribulation. I still have eight trials, but nine trials ... it seems I'll still need a long time. I originally planned to train in the Dao of the Gods and raise my power in the Dao of the Gods.

Chen Xiang had cultivated for more than a year, the progress was extremely slow, but it was much faster than when he was sealed. After all, this was the inside of the dragon vein, and he was also consuming Heaven level pills like the Hunyuan Dan.

"Little Scoundrel, I have a way to speed up your training in the Dao of the Gods." Long Xueyi suddenly said.

"What method?" Just as Chen Xiang finished asking, he suddenly thought of something that made his entire body feel hot.

"Other than that method, what else can I do? I'll let you, little scoundrel, get away with it." Long Xueyi scoffed.

The method Long Xueyi spoke of was to combine two different types of cultivation at the same time. Previously, Long Xueyi had used the "Gods join method" to help Chen Xiang recover his divine power quickly, but Chen Xiang did not know that the Gods join method could be used in such a way.

"Hmph." Long Xueyi said, "Don't think too much about other things. If you were to dual cultivate, with your current Body of Heavenly Sage, it won't even be enough for this emperor to torture you with."

"I don't believe it. No matter what, I'm still the youngest. Come, we'll know after we try." Chen Xiang laughed sinisterly.

"Little Scoundrel, I knew you'd be after my body. Don't even think about it." Long Xueyi shouted.

Chen Xiang let go of Divine Sense Sea and let him in.

Amongst the Divine Sense Sea, after seeing the naked Long Xueyi, it could be said that no matter if it was the figure or the appearance, Long Xueyi was definitely one of the best of the best. Although Chen Xiang had seen many women's jade bodies, compared to seduction, the Long Xueyi in front of him was definitely one of the best.

Just as Chen Xiang was about to pounce on her and put her on the spot, Long Xueyi had snatched a step ahead of him and pushed him down as soon as he rushed over, then very roughly sat on his waist ...

At night, Chen Xiang and Long Xueyi trained in the divine way using the Gods join method, and during the day, they refined Hunyuan Dan. He originally thought that he would have a very boring life, but after Long Xueyi and his cultivation of the Gods join method, he lived a very carefree life.

"I didn't raise you for nothing. Your God Power has improved a lot faster than before." Inside Chen Xiang's Divine Sense Sea, he held Long Xueyi's divine soul and unrestrainedly touched her body. He had never been polite to Long Xueyi and Long Xueyi treated him the same way.

"Little Scoundrel, you raised me for this, for no reason at all. Don't think that just because divine soul sleeps with this Dragon Emperor, that's the same as conquering me."

Long Xueyi impolitely pinched Chen Xiang's chest. She also admitted that she and Chen Xiang had been extremely happy during this period of time and there were a few times where she really wanted to come and see Chen Xiang. However, that would indeed harm Chen Xiang, so she endured it.

Chen Xiang made Long Xueyi lie down beside him, hugged her from behind, and kissed her on the cheek. "Xue Yi, I can tell that your White Dragon race is not simple, can't you tell me that?"

Long Xueyi turned over and leaned into Chen Xiang's embrace. The two of them held each other tightly, and this was the first time Chen Xiang had used such a gentle tone to speak to her.

"I don't need you to worry, this is my problem." Long Xueyi gently rubbed Chen Xiang's chest. Although she had said that, her voice was still filled with tenderness.

"Your matters are my matters. Many of my matters, didn't you also interfere in them before?" Chen Xiang looked at her intelligent eyes, and gently caressed her hair.

"Your matters are nothing to me, but mine are big matters. If you interfere, you will lose your life." Long Xueyi pinched his face: "Don't think that you're invincible under the heavens just because you have powerful things like Green dragon demon-slain broadsword and Heaven Earth Killing Method s."

She knew Chen Xiang a lot more than Su Meiyao. Although they often bickered, they had a very good relationship with each other.

And now, it was the first time they showed any emotion.

"For you, I am invincible." Chen Xiang laughed, and rubbed her sweet and beautiful face.

Leng Youlan had awakened her White Dragon Vein, but she had not told Chen Xiang about it. It could be seen that she also knew a lot about the matters of the White Dragon Clan, and it was very dangerous as well, so she did not tell Chen Xiang about it.

This was what Chen Xiang thought. He saw that Long Xueyi's face was currently filled with melancholy, and then, with her small mouth, he kissed her.

After a fierce kiss, Chen Xiang asked again, "You Lan also knows about the matter regarding your White Dragon race."

"She definitely knows. However, you don't have to worry about her. I won't let her interfere. Even if she has the strength, you can't let her interfere." Long Xueyi sighed.

"Why do you want to face it alone? Can't I help you? Don't tell me I don't have that strength."

Long Xueyi shook his head: "Little Scoundrel, I can't live with you forever. All these years, I have been really thankful to you.

Chen Xiang was very disappointed, but he continued to look at Long Xueyi deeply. His eyes told Long Xueyi that he did not want to leave her.

"Let's put it this way, my White Dragon Clan's ancestor died because of the same reason as the Ten Heavens Supreme Lord, and also ... At that time, many of the strong warriors who were related to the Ten Heavens Supreme Lord, such as the White Tiger, were implicated. The White Tiger had a huge life and had reincarnated, if not for Ten Heavens Supreme Lord telling them to do something, the Great Flame Lion and the Ice Dragon under the You Ming Deep Abyss would have all died. "

Long Xueyi leaned his face against Chen Xiang's chest and said those words softly, but it made Chen Xiang feel extremely shocked.

"Don't ask me, in short, you are the man I have decided on in my life. Even if I leave you in the future, I will still be your Little Naughty Dragon." Long Xueyi suddenly laughed, and vigorously bit off the beans on Chen Xiang's chest.

"Little pervert, this isn't a medicinal pill." Chen Xiang patted her buttocks as he scolded her with a smile.

Chen Xiang now knew that there was something about the Ten Heavens Supreme Lord in Long Xueyi's inheritance of knowledge, but she had never mentioned it.

"Didn't you say that the White Dragon Sword is in a place in Heaven Realm? But when I saw you helping You Lan that day, I took it out." Chen Xiang asked.

"That isn't the real White Dragon Sword, the real White Dragon Sword is in the Heaven Realm, I only have the Legacy's Body Protection Dragon Sword, You Lan also has it, her armor and the big sword in her hands are the same, our White Dragon Tribe is very strong, we can pass on our legacy, even a Holy Dragon would not be able to do that."

[Chapter 1265](#)

Inside the dragon vein, Chen Xiang was staring blankly at a Nature fruit. Originally, he had many Nature fruit, but in the past thirty years, Long Xueyi had eaten most of them, leaving him with only one.

"Why don't you get Li Baojun to refine a batch of Manifestation Pills for you? With the Nature Manifestation Pills, it will be even faster than eating Hunyuan Dan s." Long Xueyi suddenly ran out from within the ring. He was still lying on Chen Xiang's back, using his soft and proud snowy mountain to rub against Chen Xiang.

At this moment, Chen Xiang and Long Xueyi had become very close. Chen Xiang put away the Nature fruit, pulled Long Xueyi into his embrace and laughed, "Xue Yi, we don't think we have ever kissed like this before."

Long Xueyi pursed his lips and snorted: "If you want to kiss, then so be it. When did you become so childish?"

With that, Long Xueyi moved his lips closer to her, the active force making Chen Xiang feel ashamed. In terms of kissing, Long Xueyi already had a lot of experience, it was something that he learned when cultivating the Gods join method with her.

At this moment, Chen Xiang only felt Long Xueyi's soft and sweet tongue stirring violently in his mouth, but of course, he could not show weakness, as he wrapped Long Xueyi's tongue around his own, and just like that, the two of them fiercely kissed.

"If Sister You You and sister Meiyao wake up, don't tell them about me and you." Long Xueyi laid on Chen Xiang's lap, who knew where she got the Spirit Fruit from, as she ate she asked.

Chen Xiang gently caressed her face and watched her eat. He smiled: "What, you're afraid that sister Meiyao will get jealous."

Long Xueyi laughed tenderly: "No way, she's definitely jealous, but she already knew what kind of person you, a little scoundrel, were like, I just thought that it would be more exciting if we came here secretly."

"Little mysterious girl, I won't be training with you for this period of time. I need to get a few Nature fruit s for Elder Li to refine the Good Fortune Pill." Chen Xiang lowered his head and kissed her lips that were covered with fruits.

"Little Scoundrel, you have to quickly grow up so that I can have even more delicious things to eat." Long Xueyi giggled, also kissing Chen Xiang's face, and then entering into the ring.

The Good Fortune Pill was a middle grade Heaven level pill, it could strengthen the physical body, the Innate Qi and the spiritual sense at the same time. It was more comprehensive and had significant effects, but it was very precious to many people who were at the Nirvana Realm.

Right now, Chen Xiang could eat Hunyuan Dan s to a great extent, but regarding the situation with the Heaven Pellets in his body, no matter how many effects the Hunyuan Dan s had, it would not be able to raise his cultivation in a short period of time and form a pill.

He was able to condense a copy of the Hunyuan Dan's medicinal ingredients within three days, but the Good Fortune Pill would require fifteen days. Previously, he had used a long time to replicate the Holy level's medicinal ingredients or the Immortal Grade's medicinal ingredients.

"This Good Fortune Pill only needs the main ingredient, the Nature fruit. If you need two like the Hunyuan Dan, who knows how long it will take."

After Chen Xiang replicated a Nature fruit, he quickly went to find Li Baojun and gave the Nature fruit to him to refine.

Refining a middle Heaven level pellet was completely different from refining a low rank pellet. The difficulty of refining the Good Fortune Pellet was many times harder than the Hunyuan Dan, but Li Baojun was still willing to refine it, because it could increase his refining level.

"Elder Li, how many pills can you produce?" Chen Xiang asked. Looking at his eyes, it was as if he wished for Li Baojun to refine a basket all of a sudden.

"Don't even think about it. One pill is my limit. This Manifestation Pill is extremely difficult to refine. However, if it's a freak like you, there should be no problem with two pills." Li Baojun said.

Chen Xiang was a little disappointed. He did not know how much a Good Fortune Pill could help him to improve.

"Alright, how long will it take for you to finish?"

Li Baojun thought for a moment, then said: "Five days at the earliest, or at the most eight days at the slowest, this Destiny Pellet is really not easy to refine, to have this kind of speed, it is considered one of the top speed amongst the intermediate Dan King."

This speed was still too slow. Chen Xiang couldn't wait and asked again: "Elder Li, do you have any high grade pills on you? Can you give me some immortal pills?"

Li Baojun laughed bitterly: "Forget about immortal pellets, I don't even have a Heaven level Pellet. I have already eaten them all, but there are a lot of Hunyuan Dan, but you definitely don't need them Oh right, I have three Longevity Dans with me, do you want them? "

"My life is still long. I don't need it for now." Chen Xiang also laughed bitterly.

Since Li Baojun was able to refine the Longevity Pill, it meant that he was already a Dan Immortal. However, in terms of immortal medicines, he was extremely lacking, and Chen Xiang did not have much.

"Where's the Mixed diamond Dan?" Chen Xiang asked again, he remembered that he had given the Diamond fruit to Li Baojun before.

"It hasn't been refined yet. This item isn't easy to make. I'll need some time." Li Baojun took out the Diamond fruit.

Chen Xiang's face was full of helplessness, as long as he returned to the dragon vein and continued to eat his Hunyuan Dan.

"If I don't absorb the dragon fountain's power to refine it, it shouldn't be able to harm me. This dragon fountain's speed of growth is very fast. If I find anything wrong with it, I will immediately stop it." Long Xueyi said.

Chen Xiang had thought of this since long ago, but he was very clear that if he could absorb the power, it could only be described as "drinking with the cow". The speed of absorption was very fast, and the amount was huge.

"I still won't. If I accidentally let something go wrong with this dragon fountain, then it'll be troublesome. At most, I'll be spending more time here. Anyway, I have plenty of time." Chen Xiang pondered for a moment, before replying.

Closing his eyes, he started to refine the Hunyuan Dan's medicinal power while at the same time condensing it into a creation divine liquid. After a long time, a dragon's roar suddenly sounded out from within the dragon vein.

This woke Chen Xiang from his stupor, and he opened his eyes. The dragon's roar continued to echo out, and he quickly realised that the dragon's roar did not come from the dragon's vein. It was a very strange feeling, and it was likely that only he could hear it.

"Little Naughty Dragon, can you hear the dragon's call again?" Chen Xiang anxiously asked: "Are you the one shouting?"

Long Xueyi was sleeping. After he was woken up by Chen Xiang, he yawned and said: "When I was hungry, the voice I shouted out didn't sound like a dragon's cry at all. It wasn't me.

"He's still shouting, but it's not coming from his ears, nor is it in my mind. It's a very strange feeling, as if he's calling me." Chen Xiang said.

Long Xueyi pondered for a moment, then shouted in shock: It's the dragon vein, but it's not the dragon vein, it's the Chen Martial Continent's vein.

had always been curious as to where the Chen Martial Continent's dragon meridians were located. Since he had one of his own, he naturally wouldn't think about finding other dragon meridians. Furthermore, he would leave that to the powers of the Chen Martial Continent to find in the future.

But now, the Chen Martial Continent's dragon fountain was calling for him.

[Chapter 1266](#)

After Chen Xiang's Imperial Crystal and this dragon vein fused, it was equivalent to him fusing with this dragon vein. The two dragon veins were separated by a great distance, it was understandable if there was a connection between them, but why did they call out to him?

"I have to go take a look." Chen Xiang immediately left the deep underground dragon fountain. The moment he went out, he saw Li Baojun entering the deep grounds.

"Leader, it's good that you came out. Something big happened in Chen Martial Continent." Li Baojun said anxiously.

"What big matter? Hurry up and say it." Chen Xiang was shocked, because it was also the Chen Martial Continent's Dragon Bloodline that was calling out to him.

"It is said that Devil Continent's Devil Continent was suddenly struck by an extremely large meteor, and the entire Devil Continent was covered by that meteor." Li Baojun said with a face full of shock.

"Really." Chen Xiang could not believe it, the Devil Continent was very big, and the entire Devil Continent was destroyed by the meteorite. That was not surprising, because when the meteorite landed, it did not need to be very big to destroy the entire Devil Continent, but Li Baojun said that it would cover the entire Devil Continent.

If it was really such a huge meteorite, then wouldn't it be able to destroy the entire Chen Martial Continent?

"But the Chen Martial Continent was not destroyed. Although the meteorite was smashed down, it did not have a huge impact. It was only suppressing the Devil Continent." Li Baojun said.

Chen Xiang thought about this along with the incident with the dragon vein. His eyes suddenly opened wide as he thought of something.

"I'm back." Chen Xiang rushed into the Transmission array: Elder Li, you don't need to come with me.

After Chen Xiang used the Transmission array to arrive at the Chen Martial Continent, he immediately rushed towards the place where the Devil Continent was. Very quickly, he saw the "meteorite" that Li Baojun had mentioned, from afar. From afar, it looked like an extremely huge mountain was standing there, and it was so tall that one couldn't see its peak, but one could be sure that this "meteorite" didn't come from the Heaven Realm.

Outside at this place, Chen Xiang saw Pan Yunlan and walked towards him.

"Elder Pan, this is the world I was born in, right?" Chen Xiang asked, he had disguised himself.

When Chen Xiang returned, Pan Yunlan was not surprised. She nodded her head: "Mn, I don't know why she would suddenly appear here. I originally planned to go up to take a look, but was stopped by a very strong formation."

Many Rankers looked up at the mountain that had suddenly appeared and let out exclamations because the spiritual energy that was gushing out from it was extremely dense. This made Chen Xiang feel that this was quasi-immortal energy, and it was even richer than what he felt when he stayed in the dragon vein.

"I didn't expect the dragon fountain to be in the mortal world where you were born." Long Xueyi said: "It's very obvious, there is a dragon vein inside, and it is much stronger than ours."

Chen Xiang's thoughts raced. If this was really the world he was born in, then it was very likely that his father was here.

When he got near, he could feel that Pan Yunlan was trying to break the big formation. He wanted to punch it down, but the big formation was so powerful that even though he couldn't attack, he couldn't move it.

Chen Xiang threw out a very strong punch, but before the slightest fluctuation of energy could be felt, all of his strength was absorbed.

Chen Xiang urgently wanted to know whether or not his father was still alive. He crazily punched a few times, but to no avail.

"Don't mess around, there's a very powerful guy in there. Even if it's me, I won't be able to protect this Chen Martial Continent if I alert that guy."

Chen Xiang suddenly heard the voice of the White Tiger in Chen Xiang's mind. The White Tiger was in Chen Martial Continent, and this matter suddenly happened.

"Senior White Tiger, can you enter? This place could very possibly be the place I was born in. My father is up there." Chen Xiang asked anxiously.

"No, I can't do anything about this formation. This could possibly be the legendary tomb. The powerful person inside has already revived, but he is still sleeping." The White Tiger said solemnly.

An existence that even the White Tiger found difficult to deal with was definitely very strong. Chen Xiang had also calmed down at this moment.

"The dragon vein is below here, that's why it appeared here. There shouldn't be any problems in a short period of time, it's as strong as the fellow inside. It will take a very long time to completely revive him." The White Tiger said.

The dragon vein was originally hidden in the depths of the Devil Continent, but following the appearance of the mortal world, this dragon vein was activated, and released an extremely rich amount of spirit energy.

In a short period of time, the spiritual energy in the entire Chen Martial Continent increased by many times.

Many people did not know what was going on, but they felt that it was a good thing because the spiritual energy had increased by a lot.

"Just whose tomb is that?" Chen Xiang asked the White Tiger. This was the legend of the Chen Martial Continent, but not many people believed it.

Su Meiyao and Bai Youyou seemed to also know this legend.

"I don't know. When I was very young, I already knew of this legend, and we searched for it, but didn't find it. I only found it later on in this Chen Martial Continent, but I still couldn't find it.

Chen Xiang was startled, even the White Tiger did not know who the owner of the tomb was, and this tomb was even more ancient than the White Tiger's. What was even more shocking was that after experiencing so much, even now, there were still people who knew of the legends surrounding the tomb.

Chen Xiang remembered that at that time, someone had told him that the mortal world would disappear every so often and then reappear again.

"The revival of the person in this tomb should be when the new era truly opens. It might also be when Di Tian is once again destroyed." The White Tiger mumbled as it looked up at the mist-shrouded mountain.

Chen Xiang, on the other hand, was very worried. He originally thought that before he had flown up, he wouldn't be able to see the world that he had returned to. Now, even though he had seen it, he wouldn't be able to enter.

"You don't have to worry, the people up there are all tomb guards, the tomb lord will not treat them unfairly. If they can leave this tomb in the future, they must be very strong existences." The White Tiger said, "To tell you the truth, the strongest Beast God in the Sacred Beasts Ancient Realm that I was born in used to be a small eagle guarding the tomb."

Chen Xiang clenched his fists, looked at the ordinary world before him, and nodded. "I will definitely enter it in the future."

"Go to the Heaven Realm first, you might be able to find out some information about this tomb there. If you can find the person who is still guarding the tomb, then you should be able to find something more detailed." The White Tiger said.

After Chen Xiang bid farewell to Pan Yunlan and the White Tiger, he returned to his own dragon fountain.

"That's right, maybe I can use the method I used to enter this dragon fountain." Chen Xiang was overjoyed. Walking out of the dragon vein, he quietly headed towards the Chen Martial Continent.

[Chapter 1267](#)

Last time, it was with great difficulty that Chen Xiang managed to enter the dragon's resting area from the center of the earth. He felt that he could also use this method to enter the Chen Martial Continent's Dragon Vein.

Long Xueyi did not stop Chen Xiang, although it was a bit risky.

"Little Naughty Dragon, do you have anything related to the tomb in your memories? Don't hide it from me, it's very important to me." At this time, he had already went through the passage below the You Ming Deep Abyss and entered the depths of the earth. With Fire Dragon Sword by his side, he did not need to resist the powerful Flame Essence.

The core of the earth's fire essence was constantly growing stronger. If not for the Fire Dragon Sword, Chen Xiang would never be able to walk around this place so easily.

Long Xueyi did not reply, he was obviously considering something. Chen Xiang did not rush her, he already knew that Long Xueyi was hiding a lot of things.

Chen Xiang confirmed the direction he was heading and headed towards the direction of Devil Continent. On the way there, he could use a very fast speed and at this moment, he was secretly impressed by the power of the fire dragon that could refine such a powerful Fire Dragon Sword and force the Flame Essence to retreat.

"Even the White Tiger doesn't know about the matter of that tomb. Do you think that I would know about it?" Long Xueyi finally spoke, but Chen Xiang had waited for her for a long time, and was only waiting for these words, he was extremely unhappy.

"That may not be so." Chen Xiang said: "Just let me know a little bit, whether the owner of that tomb is a good person or not."

"Alright, that guy is a good person." Long Xueyi's answer was very direct, and caused Chen Xiang to not believe it somewhat.

"Say more." Chen Xiang continued to closely pursue the matter: "Tell me, when I get back, I will definitely make you even more delicious food. There will definitely be Earthly fruit and such."

"Don't tempt me with this method. I won't be able to hold it in." Long Xueyi's favorite thing was to eat Earthly fruit s, it was just that there were very few of them, and all of them had been eaten long ago, but Chen Xiang had the Earthly fruit's core, so he could definitely produce one.

Chen Xiang continued to speak, "You and I are already considered to be husband and wife, so don't be shy about it. Saying it out won't do any harm to me either.

"You heartless fellow, you only talk sweetly to me when you're trying to trick me." Long Xueyi scolded with a smile.

Chen Xiang became anxious, because Long Xueyi knew some things about this grave. "What relationship do I have with you?

Long Xueyi sighed: "I will tell you a bit, but I won't tell you too much. You have to ask me also, there are some things that I can't tell you, but I have my own difficulties, you don't need to know the reason ... Also, you must fulfill your promise and get me a Earthly fruit. I have almost forgotten the taste of these delicious fruits. "

Chen Xiang remembered the first time he ate a Earthly fruit, when he was still a little girl who was carved from jade. He never thought that she would grow up to be this big in the blink of an eye, and that they had already grown up to be like this.

"Don't worry, I'll definitely make it for you to eat." Chen Xiang said with an anxious voice.

Long Xueyi chuckled, then said: "That guy in the tomb was training in a very strange technique, so he had to die once every so often. However, every time he revived, he would become extremely powerful, and the last time something happened in the Ten Heavens Supreme Lord, it just happened to be when he died, so that guy didn't participate in the great battle. Otherwise, Di Tian wouldn't have ended up like this."

Chen Xiang was shocked: "So that means this guy is a good person?"

Long Xueyi "En" responded: "It's good, but he isn't human."

"He's not a human, is he a beast?"

In ancient times, the strong were mostly beasts, because beasts were born with excellent conditions.

"Not really. That guy should be a god, a real god." Long Xueyi said: "Alright, just know all this, and don't ask where that guy came from."

Chen Xiang never thought that a God would actually appear in Di Tian, and right here in the Chen Martial Continent.

"Could he be from the chaosworld?" Chen Xiang asked. In his eyes, the Primal Chaos Realm was a world of a higher level than the Heaven Realm.

"No." Long Xueyi said.

"Where is that?" Chen Xiang asked.

Long Xueyi did not reply, but Chen Xiang still had to go to the mortal world. He would only be at ease if he saw with his own eyes that his father was alive.

As he walked through the earth's core, he carefully observed its surface. If he were to find some small holes, it would very likely be where the dragon veins were. The dragon veins in Evil Dragon Graveyard were exactly like this.

When the news spread, many people rushed over, wanting to enter to take a look. However, no matter how many people attacked together, they were unable to break through the formation. What they did not know was that even an existence like the White Tiger was unable to break through the formation.

"Little Naughty Dragon, I'm going to the tomb of the Thief God right now. Are you not going to stop me?" Chen Xiang chuckled.

"Men of my Heavenly Dragon Supreme Lord, it doesn't matter if we steal the tomb." Long Xueyi chuckled.

found it weird when listening to about a man from the Heavenly Dragon Supreme Lord, but when he heard how Long Xueyi laughed, he knew that the Divine Tomb shouldn't be too dangerous.

"Elder Duan, it's not that I don't want to bring you here, but this place is really dangerous. Only I can come here myself. I'm really sorry." secretly said in his heart. Entering this kind of tomb was the thing he wanted to do the most, but this was indeed very dangerous.

"I found it. It seems that the formation of the dragon's vein is like this." Chen Xiang immediately turned into a strand of black silk, drilled into a small hole, and followed the flow of the air to the top of the mountain.

These small holes were completely formed by lines and lines. Once the hot air rose from the earth's core, it would go through these small, veined tunnels and turn into a very dense spiritual energy.

Chen Xiang followed the rising airflow of the small hole and arrived at a very large passage. The passage was much larger than his own Evil Dragon Graveyard, like a huge river, and the water here was spirit liquid formed from spirit qi.

"This is the true dragon vein. Compared to this dragon vein, mine is like an ant and an elephant." Chen Xiang was shocked and jealous. The spirit qi turned into spirit liquid, forming countless huge underground rivers flowing under the Devil Continent. Finally, they condensed into dragon veins.

Chen Xiang followed the flow of the water and eventually arrived at a very large pit. It was a hundred times bigger than the one in the Evil Dragon Graveyard, and looked like a heavenly pit, but the bottom of the pit was filled with spirit liquid. In the middle of the pit was the body of a dragon with dragon veins.

[Chapter 1268](#)

Chen Xiang was still at the bottom of the Dragon Vein. He ascended along the dragon's body that was at the top, and felt the waves of spirit energy emitted by the Dragon Vein, which gushed out of the Dragon Vein like a gale, shocking Chen Xiang, this Dragon Vein was far superior to the Evil Dragon Graveyard's.

"This dragon vein should have existed for a long time, but why is there no movement from before?" Chen Xiang was very curious, if the Fire Divine Palace knew that the dragon vein was here since a long time ago, then he would have probably descended here, and occupy the Devil Continent first before anything else.

"I think it was sucked away. It should have been sucked away by this world that suddenly appeared. Maybe some of the formations above have the ability to absorb spiritual energy through the air." Long Xueyi said.

The place Chen Xiang was at was the underground place of the Devil Continent, but now that he was pressed down by a mortal world, Chen Xiang flew up there and stood at the head of the dragon vein. But to get to the surface, he still had to pass through the mortal world that was pressing down on him, and that would take a period of time.

"We'll be at the top soon. I wonder how Dad and the others are doing." Chen Xiang was secretly excited. Using the power of the Ancient Code of Space and Form Displacement Shadow, he ignored the obstructions of the rock and soil and moved forward quickly.

More than two hours later, Chen Xiang, ignoring everything else, exhausted the Innate Qi in his body. In a short period of time, he finally arrived at the top.

When he came out, he was in a lake. When he floated to the surface, he saw a large group of giant crocodiles on the shore, basking in the sunlight.

"This is an Archaic Giant Alligator, an Archaic species." Long Xueyi anxiously said: "Look at their scales."

Chen Xiang took a closer look and saw that the scales on these Giant Alligators were dark and shiny. They looked like they had been polished black gems, different from normal Giant Alligators.

The largest crocodile on the shore was over a hundred meters long, and its thick body was lying on the shore. Beside it were other smaller crocodiles, which looked extremely shocking.

"Are these guys good?" Chen Xiang transformed into a butterfly and flew into the sky. Previously, he had used this method to safely enter the Ten Heavenly Sacred Mountain.

"Very powerful, you shouldn't have provoked them. Go straight to your father and don't create unnecessary trouble. Many things must have happened here, otherwise, how else would there be so many Archaic species appearing here in such a short amount of time?" Long Xueyi's voice carried a rare heaviness.

Back then, Chen Xiang did not stay in the mortal world for too long, so he was not very familiar with this place.

The lake was beside a forest, and Chen Xiang did not fly into the forest filled with giant trees. In his opinion, there might be something more powerful than those giant crocodiles inside.

"The spiritual energy here has already evolved to become immortal qi. It's only just entering the immortal qi stage, but it'll definitely become stronger in the future. I really don't understand why those Archaic descendants that should be extinct appear here." Seeing that Chen Xiang was far away from the Giant Alligators, Long Xueyi heaved a sigh of relief.

"Aren't there a lot of huge Archaic beasts outside the Sacred Mountain as well?" Chen Xiang said: "There shouldn't be anything strange about that."

"That's different, that place is the profound Realm that has been sealed for many years, and this place was originally not the profound Realm. Let alone this kind of huge giant alligator, even if it was normal giant alligators, it's still rare." Long Xueyi said.

Chen Xiang nodded. He had only read a few records about giant alligators that were more than ten meters long.

"There's a battle over there." Long Xueyi suddenly said: "Seems like it's a battle between humans and beasts."

When Chen Xiang got closer, he could feel a wave of air coming from that place. The situation was extremely intense, and he did not know what kind of battle it was.

He used his Divination Technique to take a look and saw, high up in the sky, more than twenty young men holding spears against a giant golden bear the size of a small house.

"This is a little gold bear. It's said that all of its fur is some very tough black gold iron. Ordinary weapons would find it very difficult to injure this kind of thing." Long Xueyi said in shock.

"It's good that I can see them, but why do these people look so much like primitive people?" The people attacking the little golden bear were all young and strong men. There was a beast skin wrapped around their waist and their muscles were developed. It seemed that they had a lot of strength.

"They are not weak either. They are all Nirvana stage brats." Long Xueyi said.

"Roar ..." After the little golden bear was pierced by the spear, it let out a furious roar. That sound wave was extremely violent, causing those people to all retreat backwards.

At this time, a young man with disheveled hair came out of nowhere and rushed towards the golden bear with his bare hands. His hands were like a giant axe and released a strong Innate Qi, ruthlessly smashing towards the golden bear's head.

"It's very similar to the Sky Sun Axe Slash, but it's much more powerful than the Sky Sun Axe Slash. Don't tell me these people are from my Shen family?" Chen Xiang said in shock.

"Can't you just go down and ask? These people are no match for you." Long Xueyi laughed: "If it's someone from your Shen family, you will be able to see your father very soon."

It had to be said that the group of people had a very good teamwork. After taking down the little gold bear, they quickly killed it, put it into the Storage magic treasure and quickly left.

The roars of a bear that came from the distance meant that the parents of the little gold bear were currently daring to come, and that kind of big fellow was the strongest.

Several mountain valleys were pushed flat by the berserk Great Golden Bear. Seeing it from high up in the sky, Chen Xiang couldn't help but be surprised.

Chen Xiang secretly followed the group of youths who were retreating quickly. He guessed that this group of youths was here to hunt, and looking at their attire, Chen Xiang guessed that the mortal world had become extremely unsafe. Everyone here had to be on guard against those Ancient Giant Beasts at all times.

"These guys are so cautious." Chen Xiang followed them the entire way and discovered that these people had first entered a small river, dived into the bottom of the river, followed the river far away from the place where they killed the little golden bear, then climbed over the mountains.

"We're finally here." Chen Xiang saw a small village in front of him, but there were a lot of huge rocks surrounding the village, forming a thick wall. From high up in the sky, it looked like there were huge rocks surrounding the village, which meant that the walls were used to defend against the beasts.

Those people entered the village from a flowing cave. There were already many people waiting for them inside.

Chen Xiang searched for familiar faces among the crowd, and after he swept his eyes over thousands of people, he was immediately disappointed, because he did not find anyone he was familiar with.

"My great-uncle and my father aren't in the crowd." Chen Xiang sighed. His great-uncle Shen Luzong should be very strong in the Shen family, and he should be in here as well.

Just when he was disappointed, a burly, bearded middle-aged man walked out from a small house.

[Chapter 1269](#)

The moment this middle-aged man appeared, everyone immediately opened up a path. Moreover, everyone looked at him with reverence in their eyes. The previously noisy and joyous village also became extremely quiet.

This burly middle-aged man who was filled with dignity was none other than Chen Xiang's father, Shen Tianhu.

"Is this your dad? He looks very similar to you." Long Xueyi said.

"That's right, that's him." Chen Xiang said excitedly, "Father is still alive."

He had wanted to meet with Shen Tianhu first, but then he saw a group of people walking out from the huge mountain rocks surrounding the village. There were some caves inside, and there were actually some people living inside as well.

"Old Village Chief, you've already sent your villagers to their deaths again. This time, they are truly fortunate to be able to return alive. I wonder what they have hunted down."

The one who spoke was a tall and thin man. He looked very young, but the middle-aged and elderly people behind him all seemed to have to listen to him.

"What does this have to do with you guys? You guys only know how to hide in caves all day long. Don't even think about stealing our prey." A youth shouted to the group.

Hmph, why are these not our business? You guys go hunt down those huge beasts, and if you anger the families of those huge beasts and chase after us, we will also be in trouble. We have to bear a huge risk, so you have to split half of it with us. The words of the lanky middle-aged man caused the villagers to be immediately angered.

Chen Xiang understood, in this kind of environment, humans were definitely lacking in all kinds of resources. Even if there were people outside, they would not have the strength to extract them, because there were too many huge beasts and there were not many humans. Right now, even eating a lot of them was a problem, which was why they were sent out to hunt huge beasts.

"You all ... Hurry up and scram, I, Shen Luzong is still alive for one day, so I will definitely not let you ride on top of us. " An angry voice suddenly echoed in the valley.

Shen Tianhu's entire body was filled with killing intent, his eyes were completely red, as though he could kill the tall and skinny middle-aged man at any time.

However, the tall and skinny man wasn't afraid at all. He only laughed, and the two hundred men behind him also laughed.

"Come, do you dare to fight with us? You may be able to eliminate us, but I'm afraid more than half of you will die." The tall and skinny middle-aged man laughed sinisterly.

Chen Xiang could already see that the tall and skinny middle aged man was not very strong, but it would not be easy for Shen Tianhu to deal with him either. Although he could kill him, but it would take some time, and the people behind the tall and skinny middle-aged man were not weak, if there was a conflict, many people in the village who did not have any force would be killed.

"Granduncle is still alive, but his lifespan is almost up." Chen Xiang realized that the situation here wasn't as optimistic as what the others had told him, and it was very bad as well.

Shen Luzong was supported by two young men and looked like he was about to run out of oil. However, there was a terrifying power within his body that frightened Chen Xiang.

"How could the strength of the Immortal Monarch be so fast?" Long Xueyi had also told her about his father and grandfather.

"Old Village Chief, you look pretty good." The tall and skinny middle-aged man laughed, because Shen Luzong's situation was getting worse.

Chen Xiang, who had turned into a butterfly, had already flown back and changed into his original form. At this moment, everyone was looking at Shen Luzong, but they did not notice a stranger appearing here.

"Why don't you compete with us again and concoct another batch of pills. As long as you win, we'll let you off this time." The tall and skinny man laughed.

"Li Mu, you ungrateful fellow, who taught you how to refine pills, and who saved your life?" Shen Luzong said angrily.

"Who told you not to pass down the position of the village chief to me? Look at the power behind me. You know that I am qualified to be the village chief." Li Mu took out a blade, and played with it in his hand.

Shen Tianhu walked forward with a pair of giant fists with popping veins: "The people behind you have all committed a huge mistake. Bastards imprisoned in cages, if you release them, you will sooner or later reap the consequences."

Li Mu glared at him and laughed coldly: "I'll count to three. Either we'll spar with you, or you will hand over half of the prey you've just killed. Otherwise, even if we have to risk our lives, we will fight you guys today."

Who knew that Li Mu was so sinister in his heart that if he were to continue competing with Shen Luzong in alchemy, Li Mu might very well die right away.

Shen Tianhu was angry, and the other youths in the village were angry as well. They had all prepared to fight, and just as Shen Tianhu raised his fist, Shen Luzong sighed: "Forget it, let's compete then."

As long as they could buy some time for the youth in the village to become stronger, they would no longer need to be threatened by these people.

"How about I compete with him?" Chen Xiang suddenly walked up, his unfamiliar voice surprised many people, but Shen Luzong and Shen Tianhu trembled and turned away in disbelief.

Chen Xiang had a smile on his face, he was the same as before, only, he had become much more mature. Although no one could feel the aura of the Innate Qi from his body, no one dared to underestimate him.

"Oh, I didn't think that old fogey would be able to produce a disciple so quickly. But what are you going to use to compete with me? If old fogey fights with me, then his lifespan will be shortened by more than 10 years." Li Mu said with disdain, but he was curious to know if there was a face in the village that he had never seen before.

Shen Tianhu and Shen Luzong were initially very excited, but they quickly calmed down. They knew what Chen Xiang wanted to do, so they couldn't expose his identity now.

had a lot of confidence in his son. Back then, the Shen family's pill business was started by Chen Xiang, as for why Chen Xiang was here, although they were curious, they should not ask about it now.

"If I lose, I'll break my own arm." Chen Xiang walked over and said indifferently.

Li Mu laughed: "Hey, newborn calf isn't afraid of tigers, I dare say. But since the old fellow didn't stop you, you should have some strength, that's fine too, if you lose, I can see how others chopped off their own arms."

"How do we compete?" Chen Xiang asked.

"Whoever refines the Zhenyuan Dan will win. This is for the speed of refining pills, the quality of the pills, and the quantity of pills that can be produced." Li Mu said, this was also a very common method of comparison.

One of the men in the village shouted: "Zhenyuan Dan, where did we get this pill's medicinal ingredients? These medicinal ingredients were all stolen by you back then, you despicable fellow."

"If you don't, then just take it as your loss." There was laughter.

Without a second word, Chen Xiang took out the Mystical True Grass, Myriad Spirit Fruit, Big Yuan Fruit and a bottle of Spirit Crystal Milk.

All of these things were of low quality in Long Xueyi's eyes, hence he did not suffer a calamity.

Seeing Chen Xiang taking out the Zhenyuan Dan's medicinal ingredients, Li Mu was very surprised, because he thought that the village did not have any more medicinal ingredients left.

"Okay, if you lose and you succeed, the Zhenyuan Dan must be given to me." Li Mu said.

Pills were extremely precious here, even for low-grade ones.

"No problem. If you lose, you have to give it to me as well." As Chen Xiang said this, he sat on the ground and began to gather the ingredients.

Li Mu snorted, and immediately took out the pill furnace, and threw all the ingredients that he had prepared before into the furnace. Seeing that he had used the medicinal ingredients that he had prepared a long time ago to concoct pills, everyone immediately started cursing, but Li Mu did not care, as he was extremely thick-skinned.

Chen Xiang already knew what kind of trash this Li Mu was, but he was secretly blaming Shen Luzong for his blindness. He took this fellow in as his disciple and even swindled a large amount of medicinal ingredients away with him.

"Brat, what are you so slow for? Do you think my alchemy skills are terrible? Back then, I was known to be a genius in alchemy in the mortal world. Prepare to break your own arms." Li Mu said with complete confidence.

To Chen Xiang, refining Zhenyuan Dan was not difficult at all. Although he had not refined one for a long time, he knew that the pill he refined the most was probably Zhenyuan Dan.

After handling the medicinal herbs, Chen Xiang released a Magic method furnace and placed the medicinal herbs inside, igniting the flames. All of this happened very quickly and skillfully.

Before anyone could react to what he was about to do, they already saw the medicinal ingredients floating in the air, being burned by the raging flames. At the same time, they emitted a dazzling multicolored light that dazzled everyone's eyes.

Li Mu was stunned when he saw this scene. How could he not know that the Zhenyuan Dan was being refined?

The person in front of them didn't even use a pill furnace when he was concocting pills and just used it to concoct pills. This shocked everyone here. What kind of pill refining technique was this?

Shen Luzong's eyes were opened wide. He was a Alchemist, and when he saw this scene, he knew that Chen Xiang had already walked on a unique path in the Pill Dao, and had even reached a very high level. This made him very proud, because this was a disciple of his Shen family.

"Just who are you?" Li Mu's voice trembled a little, because in just a short moment, Chen Xiang was about to condense a pill. Even a fool would know that the pill refiner in front of them was extremely powerful, especially regarding the flame.

If one wasn't very strong, the flames wouldn't be that strong.

"Chen Xiang." Chen Xiang replied indifferently. Following a powerful burst of multicolored light that flashed out, five Zhenyuan Dan had already formed. They slowly revolved inside the transparent Magic method furnace, and emitted a green colored light.

After knowing that the person in front of them was Chen Xiang, and that everyone was dumbstruck, and that five Zhenyuan Dan had appeared at the same time, everyone was extremely shocked.

Most of the people here had heard of Chen Xiang's name, he was a genius of the Shen family, and the Shen family's pill business was started by Chen Xiang. In the end, he went to Mortal Martial Realm, and it was said that he was a famous person there.

"You lost." Chen Xiang's eyes suddenly became gloomy and cold.

Bang! Li Mu's pill furnace exploded, because he was already distracted by the killing intent that was being emitted from Chen Xiang's body. In that moment, he thought that he was going to be killed by Chen Xiang.

"I... "I've lost. I'll leave now." Li Mu felt Chen Xiang's terror, and naturally did not dare to cause any more trouble.

Chen Xiang said coldly. "You can't go, I still want to compete with you."

When Li Mu saw that so many people had such proud expressions and their faces all filled with ridicule, he was immediately enraged in his heart. "Why would I want to compete with you?"

"If you don't compete with me, I'll kill all of you." Chen Xiang suddenly stood up, took out his Green dragon demon-slain broadsword, and threw it towards the group of people in front of him. In the blink of an eye, his countless blade shadows had all appeared beside Li Mu and the other two hundred people.

Then, some of their legs suddenly went soft, because Chen Xiang's blade just now had cut off most of their hair, which also meant that Chen Xiang's blade just now could have cut off their heads.

"Let's not compete." Chen Xiang shouted angrily: "If you don't compete with me, all of you will die."

Just a moment ago, Li Mu had also used this method to threaten Shen Luzong, but not long after, he was used by others on their body.

"To... "What pill should I refine?" Li Mu gulped down his saliva. He was not weak himself, but Chen Xiang was stronger than him.

In the face of absolute strength, Li Mu could only yield.

"If you lose, break one of your arms and one of your legs. You have no other choice." Chen Xiang's words immediately made Li Mu's face turn ashen. He was very angry and wanted to rush over and fight with Chen Xiang, but he knew that Chen Xiang's one slash was enough to kill him.

"Let's compete in the refinement of Relive Dan." Chen Xiang said.

"Also ... "Life back..." Li Mu immediately broke out in a cold sweat.

When the crowd heard about the high grade Ground level pill, they were extremely shocked. How could there be such a pill here, even if they went to the Mortal Martial Realm to look for it, they would not be able to find it.

Chen Xiang took out the medicine used to refine Relive Dan. When they felt the spirit energy from the medicine, they knew that it wasn't fake.

"Those medicinal ingredients that you have not refined, they represent that you have lost. Hurry up and break one of your arms and one of your legs." Chen Xiang snorted, and kept the ingredients.

Li Mu was enraged, her face suddenly turned sinister: "Fight them to the death, even if we have to drag them down, we have to drag a few behind us, watch out for those kids and the elderly."

Just as Li Mu finished speaking, his head had already disappeared, and so had Chen Xiang. The headless Li Mu, who had not even fallen down, had already let out a series of wails behind him. Those people were all burnt to ashes by Chen Xiang's flames.

Five-coloured flames were extremely intense, burning the bodies of these people, causing them to struggle and jump about on the ground. Very soon, they were burnt to ashes, and the valley was enveloped in heat.

In just a moment, Chen Xiang had completely exterminated the group of people, causing the villagers to cheer, many of the youths looked at Chen Xiang with reverence.

"Father, granduncle." Chen Xiang walked in front of them and held their hands.

When Shen Luzong saw how powerful Chen Xiang was, he immediately cried. Seeing that his lifespan was almost up, Chen Xiang anxiously took out two Longevity fruit s and handed them over.

"Don't say anymore, eat it first. It can help increase your lifespan, uncle." Chen Xiang anxiously said. Shen Luzong had the strength of the Immortal Monarch, but because he was too old, he was unable to use it. If he ate the Longevity fruit, after extending his lifespan, he would become younger, and at that time, he would have enough strength to protect the village. Of course, Chen Xiang would think of a way to bring them away.
