[Chapter 1271](#)

Although Shen Luzong did not recognize Longevity fruit, Chen Xiang had said that he could live longer, so he did not eat it politely.

Back when Chen Xiang left the mortal world, Shen Luzong knew that he would definitely have a great future. Now that he had appeared here, he had displayed great strength.

Chen Xiang and Shen Tianhu supported Shen Luzong into the house. At this time, Shen Luzong's complexion was much better, he was no longer that old, the wrinkles on his face had lessened, and although his hair was still white, he looked to be full of tenacious vitality.

The Longevity fruit was an immortal fruit, and the effect was very obvious. Shen Luzong was a Immortal Monarch, so Chen Xiang gave him two, which would have a greater effect.

"Dad, what happened here? Where are the cities?" Chen Xiang asked, he knew that all these years, the people here had not been doing well.

The cities here have been destroyed by those huge beasts. Back then, all of a sudden, the earth started to shake violently, and many houses collapsed, and many people died at that time, then the world turned pitch black, and after a month of darkness, we finally saw the sun, but many huge beasts appeared. After all these years, many people have died tragically in the mouths of these huge beasts, and I'm afraid that we are the only ones left here. Shen Tianhu sighed.

"If your great-uncle hadn't had a fortuitous encounter and fell into a pool of blood and absorbed the powerful blood inside, his bones would have greatly changed." If your great-uncle hadn't had a fortuitous encounter and fell into a pool of blood and absorbed the powerful blood inside.

Shen Luzong sat at the side, refining the two Longevity fruit. Seeing that he was getting younger, Shen Tianhu was secretly surprised that his own son had such a good thing. If Shen Luzong could regain his youthful vitality, they wouldn't need to be afraid of the huge beasts here.

"Have you ever tried to leave here?" After Chen Xiang finished speaking, he told her about the disappearance of the mortal world, and then he also told her about the mysterious tomb.

Shen Luzong opened his eyes. His current appearance was extremely spirited, just two Longevity fruit s had such an effect, he was sure that Chen Xiang had given him immortal fruits.

"There really is a tomb here. A while ago, something seemed to have happened to the tomb, causing some of my lifespan to be sucked away. At that time, I was worried and did not say anything, because I was not sure if the tomb could absorb the lifespan of others."

Shen Luzong's face was solemn as he said, "We cannot leave this place. If we leave, we will definitely die.

Shen Tianhu's face was filled with surprise, because he did not know about these things. If his lifespan had unknowingly been absorbed, it would truly be terrifying, and even the thought of it was terrifying.

But now you don't need to worry, this guy just said, there is a powerful dragon vein below us, the tomb can completely absorb the dragon vein's power to revive, as for the tomb watcher, I feel that we are indeed, it's just that some accidents have happened, causing a large number of huge beasts to appear here, I believe that other places still have those kinds of pools of blood, as long as we can find those kinds of pools of blood, then we can let the people here change their bodies, and advance by leaps and bounds just like me, so we won't have to be afraid of those huge beasts.

"Uncle, didn't you say that it was because of the blood pool that your lifespan ran out so quickly?" Of course, Shen Tianhu wanted to become a strong Ranker. Although he was already in the Nirvana Realm, it could also be said that because of the environment here, even with the help of the pills, his cultivation had increased a lot faster.

Shen Luzong shook his head: "No, when I'm completely recovered, I will go and search for a blood pool. At that time, depending on the situation, I will let you guys enter the blood pool to change your bodies."

Shen Luzong understood things much better than Shen Tianhu. Furthermore, Chen Xiang and Shen Tianhu could both tell that there were some things that he had not mentioned.

After staying in this place for so long, there were only a few people. Both Shen Tianhu and Shen Luzong wanted to know what was going on outside.

Chen Xiang was extremely willing to tell them about Di Tian's matter that happened over the past few years, causing them to be shocked. In order to not let them worry, Chen Xiang left out many of the heaven opposing things that he had done, because Shen Tianhu and Shen Luzong still could not leave this place for the time being. Chen Xiang was worried that they would be very worried for him in the future.

"Time flies so fast, in the blink of an eye it's about time for this kid to ascend. I wonder if I'll still be staying here after I pass through the tribulation of ascension." Shen Tianhu was also at the Nirvana stage.

"I'll know when the time comes. Oh right, dad, is Xianxian's father here?" Xue Xianxian was the same as him, she had never had a mother since young, and Xue Xianxian was also very worried about her father.

"Her father had ascended a long time ago. At that time, this place hadn't returned yet, but was on the other side instead. At that time, there were a few other fellows who had ascended as well." Shen Luzong said.

Shen Tianhu nodded his head: "In that period of time, Uncle's strength was relatively strong, and was able to ensure a safe environment for us to cultivate in. Everyone was also very bold to hunt and kill huge beasts, and eat huge beasts to nourish them, making their growth speed to be very fast. It's just that your father was unlucky, and accidentally received heavy injuries, which was why he was slower than others."

Chen Xiang looked at Shen Luzong and said, "Uncle, if father overcomes his tribulation here, can he also ascend to Heaven Realm?"

Shen Luzong thought for a moment, then shook his head: "It's hard, even though this place is currently with Di Tian, space is cut off, and it's hard to enter or exit. I think that even if you pass through the nine Nirvana Tribulations, you wouldn't be able to fly up."

"I'll find a way to take you out."

Shen Luzong walked over to Chen Xiang's side, patted his head and smiled: "No need, we are probably the chosen person to guard the tomb, if we leave, there will definitely not be a good ending, I am a little worried that we cannot go against it, although we temporarily do not know what our roles are here."

Chen Xiang was a little depressed in his heart, but he still nodded his head, "I will stay here for a while. Grandfather, at that time, I will go with you to look for a blood pool."

Shen Luzong nodded his head and laughed: "Of course you can, it's not early anymore, go back and rest. You must be very tired to be able to come here."

Shen Tianhu led the way and made a very comfortable room for Chen Xiang. He was indeed a little tired after coming here from the Earth Core Realm and fell asleep very quickly.

Early in the morning, Shen Luzong came to wake him up in high spirits. Seeing the old elder become so lively, the people of the village knew that Chen Xiang had brought a good pill with him.

"Let's go find a blood pool and get something for everyone to eat." Shen Luzong laughed.

[Chapter 1272](#)

After Shen Luzong ate the Longevity fruit, he was not half dead like before.

Chen Xiang followed him out of the valley. Initially, he had wanted to call Shen Tianhu to go with him, but the village needed an expert to guard against some of the giant birds and beasts that could fly.

Searching for the blood pool was a very important thing to Shen Luzong, because it would allow him to quickly cultivate a large number of strong warriors.

"Grandfather, do you think those pools of blood were taken by the giant beasts?" Chen Xiang asked.

"Of course it's possible, but don't worry, those giant beasts will enter our stomachs sooner or later." After Shen Luzong finished speaking, he thought of something and continued: "When we ate those huge beasts before, our strength increased very quickly. It could be because those huge beasts ate the blood in the blood pool."

Chen Xiang and Shen Luzong were flying in the air, and were very close to the ground.

Most of the trees on the ground were formed from forest that were incomparably tall, and whenever Shen Luzong saw any huge beasts, he would strike out with his palm to kill the huge beasts on the ground. Although those huge beasts were strong, they were nothing in front of an Immortal Monarch like him.

It was rare for Shen Luzong to regain the vigor of his youth, so Chen Xiang did not even need to take action.

On the way, Chen Xiang found that Shen Luzong also had some pretty good martial arts, but after asking, they actually obtained them from somewhere else.

"It's carved on those giant mountains. There are some circulation diagrams and some chants, but they're not suitable for you to cultivate ..." As long as you learn those techniques, you will have to stay here and guard the tomb. Only I know of this, you better not tell Tian Hu, otherwise, they will not learn it in order to leave, but right now there is no turning back. "

Just by learning those martial arts, he was already restricted. He originally wanted to go and take a look, but he had already given up on the idea.

After Long Xueyi helped him calculate for a bit, it had been five years here and only one year outside, he finally understood why Shen Luzong could possess the strength of the Immortal Monarch so quickly.

However, he had also heard from Shen Luzong that after the secular world disappeared, the space that they were in was even more terrifying compared to the outside world.

Back then, I was chased by a huge beast for a few days, and in the end, I had no choice but to jump into the blood pool. After I slept for a while in the blood pool, I discovered that my body was in pain, and when I woke up, my Nirvana Doom had already been knocked down, and the blood in the pool had already dried up. Shen Luzong said.

After finding the blood pool, Chen Xiang wanted to try and see if his body still had room to reform. If he could raise his strength through the blood pool, then he wouldn't need to take a long time to refine a large number of pills. He could ascend very quickly.

After more than ten days, Chen Xiang and Shen Luzong were still unable to find a pool of blood outside. On the way, Chen Xiang also had a hearty feast in his mouth as he ate a lot of tasty flesh of Ancient Giant Beasts and gave it to Long Xueyi as well.

With Shen Luzong by his side, Chen Xiang basically did not need to make a move, so he could secretly create a few creation divine liquid s as well. He needed to get a few more Longevity fruit s for Shen Luzong and other spirit medicines.

Shen Luzong and Chen Xiang did not fly in the sky, but were instead walking in the forest. Although it was slow, they were able to search even more comprehensively.

He could not find the blood pool, but he managed to find some spirit medicines. Most of them were from the Spiritual level, but they were not bad either, indicating that there were still quite a few spirit medicines here.

"Uncle, if I use that blood pool on me, will I improve?" Chen Xiang asked.

"Of course there is. Although I'm called the pool of blood, what's inside isn't blood. It's a red-coloured liquid. As for what it is, I'm not too sure. In short, it allows people to suddenly gain very strong power." Shen Luzong kept a giant tiger back into the Storage magic treasure and continued running forward with quick steps.

Originally, the Storage magic treasure in this place were extremely scarce, but when Chen Xiang came, he brought a large pile of them with him, so whenever Shen Luzong saw them, he would immediately kill them.

However, right at this moment, the roar of a huge beast sounded, and Long Xueyi shouted, "I sense something."

"There's a blood pool nearby." Shen Luzong said excitedly. He must have been taken over by a huge beast, I'll go over and kill that guy right now.

Shen Luzong turned into a gust of wind and disappeared, following that, a direction started to tremble, and some of the trees started to fall apart, accompanied by a gust of wind.

"Kid, come over here quickly." Shen Luzong shouted.

Chen Xiang immediately rushed over, and saw a huge red pool, although it was full of holes, but the pool of blood was still in good condition, because the pool of blood was protected by a powerful array.

"This blood pool has not been destroyed. It's about the same size as the one I used before." Shen Luzong said.

The round blood pool was ten meters wide and had water that looked like fresh blood. It emitted a berserk energy aura and looked very dangerous, and if he did not know that this pool of blood could help raise one's strength, Chen Xiang would not even think of jumping into it.

"Do you want to go down and try it out? I'll wait for you at the side, and it's just as I guessed, there should be a lot of blood pools like this, and many giant beasts rely on these blood pools to become strong. That guy just now was very powerful, allowing me to use a little more time." Shen Luzong chuckled.

Chen Xiang nodded his head: "I will be going down now."

After he finished speaking, he jumped into the blood pool. He originally wanted to experience the process of upgrading and the strangeness of the blood pool, but after he jumped in, his eyes went black and he fainted.

When he opened his eyes, he saw the blinding sunlight and felt an excruciating pain all over his body.

"What happened? Where's my great-uncle?" Chen Xiang shouted as he jumped out of the dried up blood pool.

"You have passed through the eight Nirvana Tribulations." Long Xueyi said in an unexpected manner, "But no Nirvana Doom has descended."

It was a clear characteristic of someone who had passed the eighth Nirvana Tribulation. Looking at his Dantian, through the grayish black mist that enveloped his Dantian, Chen Xiang could see that there were eight Heaven Pellets inside each of the five Beast statue. Furthermore, the ninth Heaven Pellet was already in its half finished state.

"This is going to be a terrifying upgrade." Chen Xiang cried out in alarm: "How long have I been sleeping for?"

"Three months." Long Xueyi said: "It is indeed ridiculously fast, this should be a gift from the tomb master. I have observed this blood pool, and it is connected to a certain power, although it is now dried up, but there will definitely be that red liquid again in the future. As long as I soak in it, I can still quickly improve."

[Chapter 1273](#)

"Granduncle." Chen Xiang roared as he immediately flew over from afar.

Chen Xiang looked around, all of the trees within a radius of several hundred meters had disappeared, and there were even traces of burn wounds on the ground.

"Your Nirvana Doom is here, so I can only hide in the distance. I didn't expect it to be so powerful, are you alright?" Shen Luzong looked at Chen Xiang's confused face and asked.

"I'm fine... My Nirvana Doom have already passed. " Chen Xiang was stunned, but she said that she did not land.

Your Nirvana Doom is very strange, and most of the Robbery power have mysteriously disappeared. However, you have still caused a lot of trouble. Shen Luzong replied: "It's good that you're fine."

Chen Xiang looked at the dried up pool of blood, and said: "It's possible that even the Robbery power has been absorbed by this pool. Grandfather, you must remember the location of these pools of blood.

"Really, I know where the pond I used the last time is. I'll take you there right now." Shen Luzong anxiously pulled Chen Xiang and ran in one direction.

After using two days of time, Shen Luzong and Chen Xiang finally arrived at the blood pool, and there was also a rather strong gigantic beast there.

"Sure enough." Shen Luzong saw that although there was only half a pool of blood, it verified Chen Xiang's words.

"Looks like that giant beast ate a lot of this place." When Shen Luzong took care of the gigantic beast earlier, he knew that the gigantic beast was much stronger than ordinary beasts.

"Do you still want more? You should be able to cross the nine Nirvana Tribulations very soon. If you can't ascend here, even if you leave here, you can't ascend. If that's really the case, you can't go to the Heaven Realm." Shen Luzong said.

Chen Xiang nodded and said, "I will cultivate outside."

After that, Shen Luzong brought Chen Xiang back to the village. Chen Xiang said that he wanted to stay here for a while, but in reality, he wanted to gather more creation divine liquid so that he could duplicate the Longevity fruit that he gave to Shen Luzong.

With Chen Xiang thinking about it here, Shen Tianhu also felt at ease to follow Shen Luzong to use the blood pool. When he returned, two months had already passed, and Shen Tianhu had already passed through the nine levels of Nirvana Tribulations, so he indeed had not ascended. However, there was also immortal energy here, and there were also many blood pools.

At this time, Chen Xiang had already created ten Longevity fruits, which were enough for Shen Luzong to use. At this time, the amount of people going out was also increasing more and more, as they searched for spirit medicines. In the future, Shen Luzong would also become a high ranking Alchemist.

"You've already grown up and you're also a strong person. I won't say much. Take care." Although Shen Tianhu had a smile on his face, his mood was extremely heavy.

Chen Xiang also did the same. He passed the things to them, bid them farewell with a smile, and then quickly left. As long as everyone continuously increased their own strength, they would definitely meet again in the future.

When Chen Xiang left this time, it wouldn't be long before he ascended. It would probably take a very long time for them to meet again in the future.

He only came outside after tossing and turning in the earth's core for a while. Moreover, Di Tian's spirit energy was far inferior to the place with a large amount of beasts.

He stayed inside for a period of time, but did not stay long outside, and now that he confirmed that nothing was wrong with his father, Chen Xiang did not have anything to worry about.

"I am not far from the Heaven Realm. I wonder if I can find my former friends if I can go up there." Don't worry, sister Meiyao and You You Ye are very familiar with the place. Long Xueyi laughed: "When the time comes, I will definitely get more Immortal Grade fruits. I will definitely be able to get a lot of them from the Heaven Realm."

Chen Xiang said, "Are they still sleeping? We still don't know when they'll wake up."

Long Xueyi said: "Don't worry, it should be soon. They are asleep because their divine soul needs to grow quickly."

Chen Xiang made a trip back to Evil Dragon Graveyard, and Li Baojun gave him a Good Fortune Pill.

"Elder Li, when I go out this time and return, there will be a lot of things that will happen in the future." Chen Xiang said.

Li Baojun immediately understood and nodded. "We will definitely lay our foundation for Dragon Subduing School, and when the Celestial Emperor and the Heaven Realm are on good terms, the Dragon Subduing School will definitely become a powerful sect that can contend with the great powers of the Heaven Realm."

"Then tell Elder Duan for me." Chen Xiang patted Li Baojun's shoulder, then left the Evil Dragon Graveyard.

He found a very quiet little valley. The reason he did not go inside the Evil Dragon Graveyard was because his ninth calamity was coming.

After eating the Good Fortune Pill, they held the Philosophic stone in their hands and had it guide the energy in his dantian before pouring it into the Beast statue to form the core embryo.

"I missed the eighth calamity. I don't know how powerful it is, but the ninth should be quite powerful." Chen Xiang thought, he used a month to refine the Good Fortune Pill.

Although there was only one Good Fortune Pill, the effect was very good. He could feel that the Innate Qi and his spiritual sense had both improved after consuming the Good Fortune Pill.

"Of course it's powerful, you better hurry up and cultivate your divine soul up. If your Nirvana Doom sense anything, there will be Robbery power s aimed at your divine soul. If you can't block it, your divine soul will be injured, and it might even be wiped out." Long Xueyi said.

Chen Xiang's current divine soul was considered stronger, so there were no good pills that could help him quickly improve it. However, the speed of upgrading his cultivation technique was very slow, so he could only cultivate Gods join method with Long Xueyi.

"What are you shy about? I don't mind. What do you care about?" Long Xueyi chuckled, she never thought that Chen Xiang would actually be a little unwilling to practice the Gods join method with her.

"This... I just don't mind, I was worried that it would affect you. Although it was the divine soul, I could feel that they had absorbed a lot of energy from your divine soul every single time. " Chen Xiang said, these were his heartfelt words.

"My divine soul is stronger than yours, and I cultivate the Gods join method with you. My divine soul is rising very slowly, but the part that I raised is enough for you to absorb. Long Xueyi laughed, at this time she had already entered Chen Xiang's Divine Sense Sea.

"Woman, why are you in such a hurry?" When Long Xueyi's divine soul saw Chen Xiang, it immediately flew over.

"What, you don't want anything that I've delivered to your doorstep?" Long Xueyi laughed.

Chen Xiang smiled, kissed her once, and then, he got back to business.

At this time, the New Imperial Heaven World had already stabilized and the demons in the Human Realm had been chased away. However, the demons would not let this matter rest, in the future they would definitely invade the Human Realm again, so many of the great powers in the Human Realm were working hard to raise their strength, and the Devil-subduing College was also becoming more and more lively.

The Dragon Subduing School had also gradually faded out of the New Imperial Heaven World, developing at a low profile. Even the Dragon Subduing City was gradually losing the shadow of the Dragon Subduing School.

[Chapter 1274](#)

After the New Imperial Heaven World stabilized, many powerhouses started flying towards the Heaven Realm. Although most of them hoped that their powers would become stronger in the New Imperial Heaven World, so that when the Heaven Realm and Di Tian were on good terms, they would have a certain amount of strength.

Chen Xiang was also doing his best to raise his strength. He was about to cultivate the ninth embryo very quickly, and it had taken him over thirty years to reach this stage, and the further he got, the harder it was to cultivate. He thought that he would be able to achieve it in at most ten years, but as he cultivated, every little bit of improvement was extremely difficult.

This was when he had a large amount of pills. If he did not have the pills, Philosophic stone, or the powerful martial arts he mentioned, he could not imagine how long it would take.

"My divine power is still unable to condense into God wind." Chen Xiang was a little disappointed, because the breakthrough was just around the corner, but the improvement of the divine way was not very fast.

"Just think about it, it took me a lot of effort to cultivate it." Long Xueyi said. In this period of time, she had frequently trained in Gods join method with Chen Xiang, causing their relationship to become extremely close, and their relationship to deepen.

Chen Xiang ate four Hunyuan Dan s, which he had just refined.

"Just a little bit more. The ninth core is about to appear, and the nine Nirvana Tribulations are about to arrive. I wonder how powerful it will be." Chen Xiang was very much looking forward to the Ninth Nirvana Tribulation. Most of his Nirvana Doom were abnormal and very powerful, but to him, it was a cruel test that had great benefits.

"Don't fall into a trap. Even though you won't lose your soul after failing your tribulation, you still have to start over from the beginning. Just think about how painful it will be." Long Xueyi said in a stern voice.

"Got it."

"They haven't reacted yet." Chen Xiang had waited for many years, but Su Meiyao and Bai Youyou had never woken up. Every time he thought about this, he was extremely worried.

"No, I'm still the same." Long Xueyi had also answered many times, she had thought that Su Meiyao and Bai Youyou would wake up soon, but dozens of years had passed and even she was starting to worry, she didn't know what to do.

"The final tribulation is here. Don't lose your mind, you have to get through it." Long Xueyi said in a stern voice.

Refining four Hunyuan Dan took Chen Xiang ten days, and he was extremely careful in doing so while the core embryo of the ninth day pellet had already formed.

"Did you come?" When Chen Xiang opened his eyes, he felt that the Innate Qi inside the Ninth Heaven Pill had undergone a tremendous change and had become extremely strong. Although the Ninth Heaven Pill had only produced an embryo, it seemed to have fused with the rest of the Heaven Pills.

Chen Xiang was currently in an underground stone room, but his surroundings had gradually become a vast expanse of whiteness. He did not know if this was an illusion or if he had entered a bizarre space.

"You shouldn't have stepped into this realm. This means that you must die in my hands." Chen Xiang turned around to take a look, and was shocked.

The one who spoke was the White Tiger.

"Senior White Tiger, why are you here?" Chen Xiang called out to Long Xueyi a few times in his heart, but Long Xueyi did not reply.

"It must be an illusion." Chen Xiang thought: "It should be some sort of mental attack method, it won't be difficult for me."

The ordinary looking face of the White Tiger suddenly turned dark and cold. An incomparably powerful killing intent surged out from its body. At the same time, a black mist appeared around its body. One could tell with a glance that this was the power of the Law of Darkness.

Chen Xiang's face turned solemn, he was not sure if this was an illusion or not, and he had never heard of such a thing happening during a transition tribulation.

This is not an illusion. I am the person in charge of this land. If a person like you continues to grow stronger, it will only destroy this land.

Hearing the White Tiger's words, Chen Xiang laughed coldly: "Stop fooling around. Although you don't know what the situation is, you're definitely not a White Tiger, don't think you can trick me."

Chen Xiang's mind was firm, he was not easily bewitched by his opponent. He took out his Green dragon demon-slain broadsword and used his strongest strength to greet it, and with one slash, he chopped the white tiger in front of him into a cloud of black Qi.

"You can't kill me, I control the law of darkness." The White Tiger laughed coldly and struck its palm forward, releasing a ball of black energy that enveloped Chen Xiang.

Chen Xiang's body trembled, he released the Devil-suppressing holy power, the Holy Light instantly purifying the darkness.

"With your little strength, you still want to pretend to be the White Tiger? Come on, if it really was the White Tiger, I would have died long ago. Without that strength, what are you pretending to be a powerful expert for?" Chen Xiang laughed. He had already confirmed that the person in front of him was not the real White Tiger.

He guessed that he had read from his memories that the White Tiger was the strongest existence that he had come into contact with before, and now, he was going to get the White Tiger out. However, the White Tiger's strength was way beyond Chen Xiang's, so even if it was an illusion, it was unable to simulate its true strength, because Chen Xiang had never seen the White Tiger's true strength.

"Is the ninth tribulation just a mental tribulation?" Chen Xiang released all of his God Power and punched the beautiful White Tiger's body, dispersing it.

After exterminating the White Tiger, the white space disappeared, followed by a series of explosions. Chen Xiang felt that he was struck by a powerful force, causing the Qi in his body to be destroyed.

Even if his internal organs were injured, as long as he was still alive, it would not affect him much. If it was anyone else, without Body of Heavenly Sage, their previous attack would have been completely destroyed.

The stone room that Chen Xiang was in was completely destroyed by that power, and a large part of the ground had collapsed as well. When he rushed out from the ground, all he saw was a pitch-black sky, shrouded by a thick layer of black clouds.

"First, mind attacks to confuse me, stall for time, then the Robbery power will brew and attack me while I'm unprepared. Hmph, the Nine Nirvana Tribulation is indeed powerful, you actually know how to play tricks." Chen Xiang thought.

Even though the Robbery power that had attacked Chen Xiang just now was powerful, even though it had caused some damage to Chen Xiang, he had already recovered from it. He had previously fused a large amount of the things in his dantian, causing his abilities in all aspects to increase greatly.

"Come." Chen Xiang stood at the summit of a mountain and watched as a gigantic red palm emerged from the dense dark clouds and smashed down ruthlessly. That wave of destructive energy was enough to destroy a mountain range.

However, when it came down, it was disintegrated by Chen Xiang's punch.

[Chapter 1275](#)

After Chen Xiang punched out, an invisible shock wave was sent towards the sky, instantly shaking the dark clouds that covered the sky. The shockwave was so strong that it seemed like it was about to dissipate, but it was absorbed by a force.

As long as they were destroyed, they could pass through the ninth Nirvana Tribulation. However, it was extremely difficult to destroy, and before the Robbery power even landed, Chen Xiang had already sent two punches towards the sky, both of them containing the power of the Ground killing.

Although it looked like the black clouds would be scattered soon, but they would be retracted soon enough. Chen Xiang knew that this method was not feasible, it would be very difficult to destroy the foundations of the Robbery power.

The Robbery power of the ninth tribulation was many times stronger than what Chen Xiang had encountered before. However, it was not too strong for the current Chen Xiang.

"This is all the ninth level tribulation can do." Chen Xiang then smashed apart a gigantic red sword with his fist. It was slashed out from the black clouds, and all gathered extremely terrifying Robbery power.

Chen Xiang's current physical body was at the Body of Heavenly Sage level. It could allow him to possess the same kind of power as Worldly Immortals, and this Robbery power was set for the Nine Nirvana Tribulation. It was at most half of the strength of the Nine Nirvana Tribulation.

Amongst the many Robbery power s under the Nine Nirvana Tribulations, Chen Xiang's were considered very terrifying because he was a Alchemist himself. However, what he drew Nirvana Doom from was only the power of the Innate Qi, not his physical body or the power of the divine way.

Chen Xiang suddenly took out the Philosophic stone, and at the same time, a golden eye appeared on his forehead. He opened up Chaos Divine Eye and took out the Philosophic stone, wanting to see how the ninth Nirvana Tribulation was formed.

The Chaos Divine Eye released a burst of extremely bright golden light. Chen Xiang immediately saw many dense, hair-like, tiny runes within the black clouds. Although it looked extremely messy, the spirit power it contained shocked Chen Xiang.

This was the most primitive and most powerful natural Spirit grain. If he used the Grain force to release it, it might be able to brew a Nirvana Doom to attack others.

Chen Xiang could do two things at once, while blocking the attacks of the Robbery power, and at the same time, memorize the array patterns that were releasing these powerful Robbery power s. The Robbery power had a long duration, even people that were thousands of miles away were alarmed, no one dared to come over.

Seeing this terrifying Robbery power last for such a long time, everyone guessed who was crossing the Nirvana Doom, and how could it hold on for so long. If it was an ordinary person undergoing eight Nirvana Tribulations, they would have already been smashed to dust by this level of Robbery power.

But Chen Xiang acted like he was playing, and he was even peeping into the principles behind the Robbery power, memorizing those complicated Spirit grain s.

Seven days and seven nights. The piece of land Chen Xiang resided in, was as if it had been peeled of several layers of skin, and was even covered with the Icy cold power, power of fire, and various types of strength.

"It's finally over. I've already completely memorized those runes. I never thought I would consume so much energy." Chen Xiang was very tired, he was especially mental.

In the clear sky, a golden rift suddenly appeared, and Chen Xiang was just about to be sucked in by the golden light released by the rift.

"Remember what formation pattern." Long Xueyi asked. She did not dare to appear casually during Chen Xiang's tribulation.

"There are many array patterns during the formation of the Nine Nirvana Tribulation. However, with the help of the Philosophic stone, I was able to record them down in a short period of time. The Philosophic stone is truly a good item." Chen Xiang said.

He has flown up to the Heaven Realm, and upon reaching there, you must be careful, it has been a place where many geniuses have gathered for countless years, with many talented people and strong people gathering. In that vast world, there might be people with the same strength as the Nine Emperors and Five Venerables back then.

The person who spoke was Bai Youyou, and when Bai Youyou woke up, he calmed down immediately. At the same time, he also entered the golden spatial rift.

Chen Xiang was currently floating in a tunnel, his body was being pulled by a gentle force and was being led into the Heaven Realm, and at this time, he was also refining the Power of giving, completing the ninth Heaven Pellet.

"Sister You You You, you're finally awake, I was really worried for you guys, but where's sister Meiyao, has she woken up yet?" Chen Xiang asked.

"Little Scoundrel, I only slept for a bit and you flew up. You didn't disappoint me, did you?" Hearing Su Meiyao's coquettish voice, Chen Xiang heaved a sigh of relief.

"You've all slept for a long time, for decades." Long Xueyi said, her voice was weak, because she had almost finished eating all the food in the ring, she was worried that she would be blamed.

However, Su Meiyao and Bai Youyou had always doted on her, and after knowing about this, they did not say much.

As long as they broke through, they would have Power of giving, which was a very mysterious power. The existence of Nirvana Doom, was in order to prevent life forms from becoming stronger, and kill them off in a timely manner.

After refining the Power of giving, Chen Xiang's ninth Heaven Pellet was completed. At the moment, there were forty-five Heaven Pellets in the five Beast statue in his dantian.

"We're at the Heaven Realm." Sunlight appeared in front of Chen Xiang's eyes, and at the same time, he could feel the dense immortal energy. When he fell out of the passage, the interior of his dantian changed.

The nine Heavenly Pellets in each Beast elephant suddenly fused into one, and that was in an instant, and the fused Heavenly Pellet was actually not circular in shape, but rather had some shape. Upon closer inspection, it was actually a shape very similar to the Beast statue, only with a vague outline.

Chen Xiang landed on a big plain that was filled with dense immortal energy. For people like him who came from the Heaven Realm, any place would have dense immortal energy.

"Could it be that my Heavenly Core needs to grow into a Beast statue?" Chen Xiang realized that the beast-shaped Heaven Pellet was very small, a hundred times smaller than the one inside his Dantian.

"The Heaven Realm is different from before. The immortal qi is denser and the space is very stable. It seems that after so many years, the quality of the entire world is increasing. I wonder if it will be able to evolve to a higher realm in the future." Bai Youyou's slightly cold voice held a trace of nostalgia. She had lived in this place for a very long time.

Chen Xiang gave it a try and sure enough, using the power of the spatial laws, it was not possible to travel too far. It was only six meters, he could only use the Shrinking step to travel.

"How are your divine soul?" Only now did Chen Xiang have the time to ask Su Meiyao about the two of them.

[Chapter 1276](#)

The reason why Su Meiyao and Bai Youyou were sleeping was because of the divine soul. After they were submerged in the God Demon Pool, they gave birth to their divine way soul. It was just that they did not know what had happened, which caused them to sleep for a long time.

"The appearance of a fifteen or sixteen year old girl is very green. I have already entered their sea of consciousness and have seen them, but they are still naked." Long Xueyi laughed.

The appearances of Su Meiyao and Bai Youyou at the age of fifteen or sixteen, and even naked, immediately caused an incomparably evil and bloody scene to appear in Chen Xiang's mind.

"I want to see it. Can you let me see it?" Chen Xiang could not help but blurt out the words in his heart.

"Hmph, don't even think about it." Bai Youyou immediately snorted coldly, she knew what this little scoundrel Chen Xiang was thinking.

"Bad boy, are you that interested in me when I was 15 or 16 years old?" Su Meiyao chuckled. That charming voice ignited a ball of fire in Chen Xiang's lower abdomen.

"Of course not, I'm just curious. When I was young, all of you could have looked at me ..."

"Didn't you already see us? We're even now." Bai Youyou didn't want to let Chen Xiang pester him any further, so he gave him a death order: "You are not allowed to bring up this kind of thing again."

Chen Xiang did not give up and hurriedly said: "Little Naughty Dragon told me before that her Imperial Dragon Clan has a dual cultivation method for divine soul called the Gods join method. Their dual cultivation method can quickly increase the strength of their divine soul."

"Don't even think about it."

Bai Youyou could not accept such a thing. Although she knew about the thing between a man and a woman and had seen Chen Xiang, Xue Xianxian and Hua Xiangyue do it many times, she felt uncomfortable just thinking about it.

"Oh." Su Meiyao was suddenly very interested: "Little Scoundrel, I actually really want to try fighting with you."

Long Xueyi scoffed, "Don't even think about it, sister Meiyao, your strength is so weak. If your divine soul is too strong, you won't be able to balance with your body and the cultivation of the Innate Qi, there will be a problem."

Chen Xiang cursed in his heart: "Damned Little Naughty Dragon."

But he knew that it was true. Su Meiyao had already determined that he would be the one to cook it for him in the future, but he could only look and not eat it.

He had already passed through the Heaven Realm that he had come to, and he didn't have many other concerns. Previously, due to a few things, he had to bear the pressure for a very long time, but now that he had suppressed it for so long and there was also a beautiful woman around him, he naturally wanted to start a meat business.

Although he and Long Xueyi had always been training Gods join method inside the Divine Sense Sea, that was only in terms of divine soul, and not real physical body. Therefore, Chen Xiang felt that it couldn't be considered as it was, but of course, if he could practice Gods join method with Su Meiyao and her, he would still be very willing.

"What kind of place is this? After ascending, he was casually thrown in another place." Chen Xiang ran across the vast prairie, and could not see the end of it.

"Normally, you would appear in the welcoming hall of the immortal palace. This situation is rare, it can only be said that your luck is bad." Su Meiyao said.

"What is an immortal palace?" Chen Xiang felt that his luck was not bad. If he landed in those immortal palaces full of enemies, it would be troublesome.

A palace here should be about half the size of a Chen Martial Continent. There are many immortal palaces in a Heaven Realm, and they vary in size, so immortal palaces are usually controlled by a large power. If it's a Fire Divine Palace, then their immortal palace would be called the Fire God Immortal Palace, and the Fire Divine Palace would be in the best position in the Fire God Immortal Palace." Su Meiyao said.

However, this was the first time Chen Xiang found out about it. Previously, when she was chatting with Su Meiyao, she didn't mention it.

"There is also another situation. There are many Immortal Palace secret manuals located in one place, and that place will be called Immortal Country. The Immortal Palaces there will all be controlled by one person, and the kings of the Immortal Country will all be at the Immortal King's level, while the immortal palaces will all be controlled by Immortal Monarch." Bai Youyou added: "Generally, dozens of immortal palaces are needed to form a Immortal Country."

"Of course, there are also those that are not named after their countries, for example, some Fire Divine Palace s or Devil-suppressing Divine Palace s. In short, Heaven Realm s are very big, have a lot of power, and have a lot of strong warriors." Su Meiyao said.

"If you run in one direction, you should be able to see the immortal palace. When the time comes, you will be able to see the Transmission array."

"Then how do we get to the ninth day?" Chen Xiang asked.

"In the past, the nine days were divided into different levels, and required a certain amount of strength to go there, but now, it should be equal. If you look up at night, you will be able to see eight balls of light, which are the other eight days. They are very far away from here, and require one to travel through the starry sky to reach there. Long Xueyi said, "Imperial Dragon Clan is hiding in one of the skies, called Long Tian. I think the powers up there were all secretly supported by Imperial Dragon Clan."

Now that you have the Transmission array, you don't need to travel through the starry sky anymore. When you get the Spiritual crystal, you can go. Su Meiyao said.

After sprinting for a good half a day, Chen Xiang finally saw the legendary immortal palace. From afar, he could see that it was a gigantic bull crawling on the ground, and Chen Xiang could only see a shadow of it.

"It's the Heavenly Bull Immortal Palace. I didn't expect you to be in this area." Su Meiyao said: "The walls of this immortal palace is 30,000 meters high and it took many years to construct it, and when the huge immortal formation absorbed the immortal energy outside, it would cause the immortal palace to look like an ox, and over time, people would call it Heavenly Bull Immortal Palace."

Chen Xiang was shocked. The wall of light that surrounded the palace was 30,000 meters tall, and the palace was half the size of a Chen Martial Continent. It was surrounded by a hundred thousand meter high wall, and it was even possible to set up an immortal formation.

"It seems that my Evil Dragon Graveyard is still too weak." Chen Xiang had thought that his own Evil Dragon Graveyard s were relatively powerful, but now, he knew that they were nothing more than mediocre.

It's all because of the contribution of these giant walls. Even if the Immortal King came, he would have to expend a lot of energy in order to create a gap in front of him, in order to build these giant walls. The reason is that the Heaven Realm has been in constant battles for many years, whether it be from Demons, Demons, or the attacks of other days, or the battles between the various immortal palaces. Su Meiyao said.

[Chapter 1277](#)

Chen Xiang was very happy to be able to come to a place where there were people gathered. He did not care where he was, he urgently needed to know some things that had happened here, to find friends that had ascended earlier than him.

"Heavenly Bull Immortal Palace belongs to the neutral zone, and rarely interferes with any disputes. However, the business competition inside is still very intense."

Chen Xiang arrived at the entrance of the Heavenly Bull Immortal Palace. Entering the place did not require any entrance fee, which left a good impression on Chen Xiang.

"You just came to the Heaven Realm, it's best if you don't rush to find your friends and relatives, this is temporarily meaningless, everyone's strength is not the strongest here, so if you cause trouble, it will implicate them, you better act alone, with Xue Yi's help, you can escape from danger easily." Back then, when she and Su Meiyao roamed the Heaven Realm, they had a certain level of experience.

Su Meiyao completely agreed with Bai Youyou's words, and said: "There are many people in this Heaven Realm that are very sinister, able to use all sorts of methods, you should have already seen it before right?"

Chen Xiang could only give up the idea of searching for his friends and relatives. What Su Meiyao said made sense, as there were many treasures on his body, that would be enough for many people to do whatever they wanted.

After entering the Heavenly Bull Immortal Palace, Chen Xiang looked at the many streets, he did not know which one to take, and it was extremely big, so very few people would be able to visit this place. As expected of the Immortal Palace above the Heaven Realm, just entering the door would cause people to be stunned.

At this time, a well-dressed handsome youth ran over with a smile. He tugged on the youth's sleeves and asked: "This big brother, you have just entered the Heavenly Bull Immortal Palace, a large immortal palace, do you need me to help you get familiar with this place?"

Chen Xiang still had a little Spiritual crystal on him, which he had obtained from the Sacred Dan Realm. He said: "I need a lot of Spiritual crystal, I'm a poor bastard, don't be too expensive, I can't afford it."

Before he came, he had already emptied the entire Spar, because there was no use in bringing it here.

Ten Spiritual crystal s are enough, but you have to shelter and feed me, I will lead you for three days, I will do my best to let you have a meal in this Heavenly Bull Immortal Palace. It looks like he's a professional doing this.

Chen Xiang took out five Spiritual crystal and handed them over to him: "Give me half of them first, pay me in the next half and wait for three days."

The young man accepted it and said: "No problem, the young lad's name is Chang Jiancai, you can call me to see my talent, what about you, Big Brother?"

Chen Xiang laughed: "Common wealth, not a bad name, my name is Shen Yi."

After arriving at the Heaven Realm, Chen Xiang was also extremely cautious. He did not reveal his true appearance, but only changed his appearance a little, making others look like middle-aged people. That way, it would be difficult to recognize him even with a portrait.

Chen Xiang had already known before, that he had some fame in the Heaven Realm, but this was not a good thing for him, because others knowing about him was all because of his Green dragon demon-slain broadsword, as well as his Heaven Earth Killing Method.

However, there were a lot of people of this level in the Heaven Realm. As the Heaven Realm did not lack in medicinal pills to help with the tribulation, it was relatively easy to pass the tribulation here.

Chang Jiancai brought Chen Xiang to a middle class inn. This was Chen Xiang's request, it was too expensive, and he couldn't afford to live in it, it was too poor, and it wasn't too comfortable. The place he was currently in, was an area within the Heavenly Bull Immortal Palace, and it could be considered a bustling area.

"Look at the money, what's the price of the pills here? For example, a high grade Ground level pill, or a low grade Heaven level pill." Chen Xiang asked, these two pills should be more commonly used in Heaven Realm.

"The Relive Dan s for the Superior Grade Ground level Pellet are two hundred Spiritual crystal s per pellet, and the prices for the High Grade Ground level Pellets are almost this high. As for the Inferior Grade Heaven level Pellets, they need a thousand Spiritual crystal s per pellet." Chang Jiancai replied. He was very familiar with the owner of this inn, so he could rent two rooms at a very cheap price.

"This price... So low. " Chen Xiang was extremely shocked, and so was Su Meiyao. Su Meiyao had told him just now, extremely shocked, that in the past, the High Rank Ground level Pill would cost over a thousand Spar, and the Low Rank Pill would cost at least seven to eight thousand Spar.

"Big Brother, you couldn't have ascended from the heavens right? If that's really the case, then your luck is too terrible. No powers would want the Flowing Gold Immortal that didn't appear in the Hall." Chang Jiancai looked at Chen Xiang in shock, his eyes filled with admiration.

This was because the people who could ascend from the lower realms were all extremely powerful and possessed extremely powerful abilities. Only then would they be able to stand out in that world and arrive in this higher realm.

"That's right, but I heard that the pills shouldn't be so cheap. Don't tell me all the herbs here are like cabbages and can be grown all at once?" Chen Xiang continued to ask, he felt that there must be a reason behind this.

He laughed and said, "This is all thanks to Sacred Dan Realm merging into the Heaven Realm a while ago. The Sacred Dan Realm has a lot of medicinal ingredients, and in order to snatch the Heaven Realm's medicine market, they have put the price very, very low."

and Su Meiyao were both extremely shocked that the Sacred Dan Realm had actually become one with the Heaven Realm.

Isn't your big sister Long Huishan the Long family's patriarch? She's also a Female Dragon King, you can go and find her. Long Xueyi said with a tinge of jealousy.

Chen Xiang didn't plan to look for Long Huishan now. Although Long Huishan was a Female Dragon King, and was considered to be at the top in terms of strength, and was also very loyal, Chen Xiang was worried that he would bring her trouble.

"Look at the money, can you find out how many people have flown up in recent years? Where have they gone?" Chen Xiang asked, although he did not plan to look for them, he still wanted to find out more.

"I heard that most of the people who ascended during this period of time were from the Worldly King Immortal Palace." Chang Jiancai thought about it and said.

Isn't the Human King's Immortal Palace the Human Emperor Hall? Chen Xiang remembered that it was created by an expert back then in the Continent of the King.

"How many years of history has that Worldly Immortal Palace been?" Chen Xiang asked, because he had never heard of the Human King's Immortal Palace.

"It's been so many years. Originally, it was not called the Human King's Immortal Palace, but rather the Jade Dew Immortal Palace, but later on, the master of the palace seemed to have been defeated and lost an immortal palace." It has been so many years, originally it was not the Human King's Immortal Palace, but the Jade Dew Immortal Palace, but later on, the master of the palace seemed to have been defeated and lost an immortal palace.

Su Meiyao said, "Jadesea Immortal Palace should be that Bi Xia Dan Immortal. You should still remember that."

Of course, Chen Xiang remembered that back then when he was sparring with one of the Fire Divine Palace s in order to refine pills, that guy had boasted about how powerful his master, the Bi Xia Dan Immortal, was.

And that Bi Xia Dan Immortal had also lost to Su Meiyao before. Chen Xiang asked at this time: "sister Meiyao, did you guys have any immortal palaces or anything like that in the past?"

[Chapter 1278](#)

"How could that be possible? I have too many enemies. We don't dare to establish an immortal palace; we would only let our enemies have the opportunity to build one." Su Meiyao said.

"I did have a devil art once, in the Demonic World, it was also known as Devil." Bai Youyou said: "After I gave it to my sister, I didn't know how she would deal with it."

After resting for a day, Chen Xiang followed Chang Jiancai to the big pill shop. He had to see the price of the herbs here, he needed to collect some medicinal herbs to make a copy.

When he was in Sacred Dan Realm, there were not many high level herbs, but there were quite a few lower and Ground level s, which was just that Chen Xiang did not need them at that time.

The Heaven Realm was so vast, Chen Xiang believed that he could purchase even the Immortal Grade's medicine, but the condition was that he had to have sufficient wealth.

The Heavenly Bull Immortal Palace was divided into five areas, east, south, west, and fourth each, and then there was a central area. The central area was surrounded by a very high wall, and was considered a noble area.

The Heavenly Bull Immortal Palace was very big, even if one did not enter the center, there were many places to live. There were not only streets and houses, there were also mountains and rivers, only that there were no immortal beast s within the mountains and rivers.

Aside from the walls, this place was also very safe.

"Elder Brother Shen, this is a fairly good pill shop outside of the Realm of Flame Heaven." Chang Jiancai followed Chen Xiang's instructions and brought him to a medicine shop. From here, he could see the huge walls that surrounded the central area.

The central region was also known as the Heavenly Domain, it was a region of people who lived and dressed well, and they were all very expensive. The central region was also known as the Heavenly Region, it was a region of people, and the food and clothing were all very expensive, and

The Sky Realm only had a thousand feet high wall, and it wasn't as tall as the ones that surrounded the entire sky palace.

Chen Xiang and Chang Jiancai were able to reach here through the Transmission array, there were many teleportation points in the Immortal palace, and because the teleportation area was inside the Immortal palace, it was not expensive, so many people could teleport there.

Of course, Chen Xiang wanted to enter the Heaven Realm to see. Moreover, he had already heard from Chang Jiancai that there was such a Heaven Realm in almost every immortal palace, and the immortal aura there was the densest and most abundant.

"Elder Brother Shen... In order to enter the Heavenly Region, ten thousand Spiritual crystal would need to buy a pass, and that would only be enough for a month's time.

Chang Jiancai immediately reminded Chen Xiang when he saw that Chen Xiang was staring at the big door of the wall and wanted to look inside. Although Chen Xiang was very generous and teleported people were all out with him, Chang Jiancai did not think that he had enough Spiritual crystal to buy the permit.

Chen Xiang replied with an "Oh". He did not say that he would enter from the main gate, as even an Immortal King would not be able to enter in a place like Evil Dragon Graveyard. However, he was able to enter, so he felt that entering the Heavenly Realm was not too difficult.

Ten thousand Spiritual crystal was not easy to earn, one Hunyuan Dan was only able to push a thousand Spiritual crystal to their deaths, and he would not casually sell Longevity fruit and Nature fruit, he did not want Longevity fruit's immortal fruits that could extend his life to fall into the hands of his enemies.

"The Relive Dan and Hunyuan Dan that were sold at such an expensive price are all here as cabbages. It seems that the Heaven Realm has a lot of resources now." Chen Xiang muttered to himself, and then followed Chang Jiancai into the pill shop that was relatively well decorated.

"Of course, in the Heaven Realm, there are many big powers that have had breakthroughs in the Time Formation, especially those that are used to grow medicinal herbs, so those medicinal herbs that take a very long time to mature can all be produced in a short period of time. However, that kind of large formation can only be established by big powers, and only those big powers can maintain it, and they can also make profits from it." The one speaking was an old man in the pill shop. From his appearance, he should be here to buy pills.

Previously, Chen Xiang had heard from him that some large powers were indeed researching on great formations that could speed up the growth of medicinal herbs. But now, after such a long period of time, they had already made a breakthrough in this area.

However, this is only limited to a portion of the medicinal ingredients. There are some medicinal ingredients that should not be increased in speed, and if those high tier medicinal ingredients are grown by this method, they will also end up growing in a bad state. The old man continued.

"Lucky kid, your luck is pretty good these days. You can always find a business to do it." The old man patted Chang Jiancai's head and laughed.

Chen Xiang could already tell that this old man should be the shopkeeper.

"However, this guest of mine is not lucky. He flew up and did not appear at the welcoming immortal palace." Chang Jiancai said.

The old man smiled at Chen Xiang, and said: "It doesn't matter if he doesn't appear in the welcoming immortal hall, powerful people can shine anywhere, do you need any medicinal pills?"

Chen Xiang was going to ask, but he didn't have any Spiritual crystal now, so the herbs that he needed was not something that the Spiritual crystal could afford.

"Do you have the Sacred animal Dan's medicinal ingredients?"

Chen Xiang still asked, because the Sacred animal Dan was given to him to eat, and the medicine inside was a type of medicine that could be grown, the lowest rank was the lower one of the Heaven level, and the highest was the Holy level, which was why it was called the Sacred animal Dan, but the Holy level's Sacred animal Dan had never appeared before.

"Yes, but a Sacred animal fruit with only one heart." The old man said.

Sacred animal fruit s were transparent, and in the center, they would grow a small fruit core. Growing one would mean that they could refine pills, and Sacred animal Dan that could refine lower quality Heaven level s would be able to refine middle quality Heaven level s such as this.

"How much?" Chen Xiang was definitely going to take it. Even if he didn't refine a pill, if he gave it to Long Xueyi to eat, it would temporarily help her satisfy her craving.

The people around him immediately turned to look at him. Most of the people here were people that knew Chang Jiancai very well, and they knew that the people Chang Jiancai had brought were mostly poor people, yet they dared to ask about the price of the Sacred animal fruit, even though they knew it wholeheartedly.

"Two million Spiritual crystal. This is a pretty generous offer. If it's in the Heavenly Region, I would need at least another two hundred thousand Spiritual crystal to win it."

Chen Xiang was so shocked by the price that his face changed drastically. He anxiously asked Su Meiyao: "sister Meiyao, is this old fellow disrespecting me? Is it that expensive?"

"In the past, a million Spiritual crystal could be taken down, but now ... Because of the appearance of those large arrays, the price of medicinal herbs will rise, especially for those medicinal herbs that can be promoted, it should be around this price. If you can use this to grow the Triple Core, then take out the fruit and plant it, then you can get three." Su Meiyao said.

[Chapter 1279](#)

Chen Xiang had previously asked Chen Jiancheng about the price of the herbs here, and it was indeed higher than the price of the pills. Because many of the herbs were now treated as seeds and the price was relatively high, and those who bought the seeds would definitely be able to earn back, so using them to refine pills was not worth it.

"It seems that there are no wild Alchemist s here, and many great powers have mastered a large amount of medicinal ingredients. Alchemist has always been relying on those powers, and have a large amount of medicinal ingredients to use in the refining process. Don't worry about the matters of the medicinal ingredients, this can indeed attract many Alchemist." Su Meiyao said. Although the Heaven Realm had changed a lot, she could quickly accept it.

Hearing that the price was so expensive, Long Xueyi's heart went cold and he sighed in disappointment.

Chen Xiang anxiously said: "About that ... Can I use other medicine to exchange for it? I don't have that many Spiritual crystal around me right now. "

"Honestly, the reason why this Sacred animal fruit is so expensive is because this thing can grow into a Holy level's medicinal ingredient, so normal medicinal ingredients cannot compare to it. Tell me, what kind of medicinal ingredient do you plan to use to exchange for it?" the old man asked.

Chen Xiang felt that this pill shop was also controlled by a great power.

"Nature fruit." said. This was a low grade Heaven level medicine, he felt it should not be that bad.

"You have fifteen, I'll trade with you." The old man said.

Fifteen Nature fruit were enough to fight against more than two million Spiritual crystal.

"Go on, this old fellow is quite generous. In the past, although Nature fruit s were lacking, they weren't as expensive as those who were sold." Su Meiyao said.

To the Heaven Realm, Nature fruit still held a pretty good position because they were not of a high level, but not low either. Many of the peak Nirvana stage or late stage or Immortal Monarchs could afford to buy them. This was also the reason why Su Meiyao and Bai Youyou wanted Chen Xiang to be able to get their hands on the Nature fruit very much.

Chen Xiang wanted to trade, but he didn't have that many Nature fruit at the moment. He only had one by his side, a foundation that he could use to duplicate things, so he couldn't use it.

"Do you want to use a Longevity fruit, or a Diamond fruit ..." Chen Xiang asked, the price of Longevity fruit would definitely not be low here, it was a fruit that could let people who were about to die of old age to obtain rebirth.

"Don't use it, don't let these things leak out." Long Xueyi anxiously said: "Those high levelled medicinal herbs, they cannot be leaked out."

Chen Xiang said to the old man: "Can you save some for me? I will save enough Spiritual crystal to buy more."

The old man looked troubled. "I'm afraid I can't ..." There are already a lot of people who have reserved this Sacred animal fruit with me. The three in the Heaven Realm have all been sold off very quickly, so I'm afraid that I won't be able to protect this Sacred animal fruit for long. "

Just then, Chang Jiancai ran in and said: "That Young Noble Feng is here. I remember that the last time he was here, he wanted to buy Sacred animal fruit too, but it was not enough, right?"

Chen Xiang panicked. Then, his mind flashed as he immediately said: "Old senior, do you want to exchange for half of the Longevity fruit?"

Without the whole fruit, it would be very difficult to grow it, but Chen Xiang could tell that the shopkeeper was pretty strong, he should be at the late stage of the Immortal Realm or even the Immortal Monarch. There must be a lot of Spiritual crystals, even if he was here to help look after the store, he could still produce his own batch of Spiritual crystal.

Although it was just half of it, but if the fire in the Alchemist was enough, they could still refine a Myriad Life Pill. Although it might not be able to extend their lifespan by ten thousand years, it was still possible to refine a Myriad Life Pill after a few thousand years.

"Enough." This shopkeeper wasn't a fool; this kind of thing was something that could only be encountered by luck and not sought after. He kept it for later use. If it stagnated in the future and his lifespan ran out, it would be of great help.

It only flowed out halfway, Chen Xiang felt that it was nothing, but when he took it out, the old man was a little disappointed, as this side was a little small.

This was cut by Su Meiyao, she cut it to be as small as possible, enough to make a Longevity Pill, and she couldn't let anyone plant it through those arrays.

But even so, the shopkeeper still changed and gave the Sacred animal fruit to Chen Xiang.

"Manager, hurry up and take out that Sacred animal fruit. I brought the Spiritual crystal here. Two million Spiritual crystal, right?" Before the person appeared, his voice had already reached his ears.

Following that, a man wearing blue clothes walked in with big steps. He held this fan in his hand and a few big men followed behind him.

Seeing that set of clothes, Chen Xiang was sure that this Young Noble Feng was someone from the Feng Clan, and that these Tong Tian Aristocratic Family had a lot of power and influence, so they could not be underestimated.

When Young Master Feng came in, he immediately saw that the Sacred animal fruit was in Chen Xiang's hands, and when Chen Xiang saw him come in, he anxiously packed it away and brought Chang Jiancai along with him to leave.

"Wait." When Young Master Feng came in, he was elated, but after knowing that the Sacred animal fruit had just been bought, his face immediately became gloomy.

"Enemies have a narrow path." Chen Xiang thought in his heart. He had just arrived at the Heaven Realm, and he had already started fighting with the Feng Clan. Previously, he had a huge enmity with the Feng Clan, so the Feng Clan should be very clear about this as well.

"Can you sell me your Sacred animal fruit?" Even though Young Master Feng asked this, his handsome face was not friendly at all. It was dark and gloomy, and he looked very deceitful.

"Not selling, I have great uses for it." Chen Xiang was about to leave after answering the question. He did not want to confront the Feng Clan right now, as he did not have the energy to do so.

The people around them were all watching the commotion, a person who had just ascended had met with Feng Clan Lord, the person who had ascended was once a peak character in that world, naturally he had his own pride, and Feng Clan Lord was not weak, he had some strong experts by his side.

"You know ..."

"You don't have to do this with me. Even if I knew who your family is, I wouldn't sell it to you. I have great use for it, and I don't lack Spiritual crystal s." Chen Xiang said directly, then brought Chang Jiancai out of the shop without even turning his head.

"Don't even think about leaving." With a wave of his hand, he released a strong suction force that sucked Chang Jiancai over.

Seeing this scene, the medicine store's shopkeeper frowned slightly and said in a deep voice: "Young Noble Feng, this matter does not have anything to do with the little kid, right? Please take note of the rules of the Heavenly Bull Immortal Palace, this place is not the Feng Clan's Divine Wind Immortal Country, so you should not be too presumptuous here."

Although Chang Jiancai did not have much strength, he was the most sweet of all. Many people knew him very well.

The young master of the Feng Clan was probably used to being unreasonable. He pinched the back of Chang Jiancai's neck and coldly shouted at him: "Sell the Sacred animal fruit to me, otherwise I will break this brat's neck."

The people around them were enraged, they didn't say anything about dealing with Chen Xiang, but Chang Jiancai was just a little kid who only ran errands to earn his living, he had nothing to do with Chen Xiang at all, and was actually used by the Feng Clan's Young Noble to threaten others.

[Chapter 1280](#)

Seeing the faces of the people around them, the men hurriedly gathered their power to prevent them from attacking their young master.

Young Noble Feng shouted: "I will count to three. If you don't take out the Sacred animal fruit, I will attack. One ..."

Just as he counted to one, the angry people around him wanted to shout to stop Young Noble Feng, but Chen Xiang suddenly disappeared from his original position. When Young Noble Feng saw Chen Xiang suddenly disappearing, he did not continue shouting.

Suddenly, a red light flashed, then, Young Noble Feng suddenly grabbed Chang Jiancai's arm and broke it off from his shoulder, causing Chen Xiang to appear beside Young Noble Feng, in the encirclement of the big men.

At the same time, grabbed Chang Jiancai and threw him towards the old shopkeeper. Everyone could see that Chen Xiang was holding onto a dagger that was emitting a red light, and at the same time, stabbed it into Young Noble Feng's neck. Chen Xiang then grabbed Chang Jiancai and threw him over to the old shopkeeper.

"Ah... "You actually ..." Young Master Feng turned pale with fright. Although he lost an arm and had a stab on the side of his neck, he didn't feel any pain.

"Go to hell."

The incomparably furious Chen Xiang, however, looked terrifyingly calm, causing people to shudder in fear. No one could understand, that under such a furious situation, the person in front of them was able to maintain such a calm demeanor, and turn his anger into strength.

Chen Xiang held the Devil emperor dagger tightly, and pierced into Young Noble Feng's abdomen, then he took out the heavenly pellets inside, and the few big sized men reacted, and immediately threw a punch towards him, with great strength, but in the next moment, Chen Xiang strangely disappeared, causing all of their power to land on Young Noble Feng's body.

The few burly men all had the strength of Late period of human immortal s, and when they attacked at the same time, they released power that caused half of the pill shop to collapse.

To make a move inside the Heavenly Bull Immortal Palace, and even destroy a relatively high-end medicine shop, the Feng Clan would either compensate the s with a large sum or make preparations to be hostile to the Heavenly Bull Immortal Palace. Although the Heavenly Bull Immortal Palace rarely fought with other forces, if there were people provoking them here, the Heavenly Bull Immortal Palace would definitely retaliate viciously.

After Chen Xiang escaped from Young Noble Feng's Heavenly Pellet, he used a transformation technique on the smoke and dust of the collapsed shop, leaving no one's sight and went to a place devoid of people, before changing into a new appearance.

"This guy is simply courting death, what a pity, I almost got my hands on that guy's storage ring, there are two million Spiritual crystal inside." Chen Xiang sighed in his heart.

"When the time is right, let's do it this way. This time, you did a good job." Bai Youyou said coldly: "If it was me, I would have killed the big men beside him. I would have taken out all of the heaven pellets, and made them completely strong."

Chen Xiang had already known from the beginning that if someone offended Bai Youyou or them, as long as they caught them, there was a high chance that they would suffer the same fate as what Bai Youyou had just said.

Chen Xiang would not go look for Chang Jiancai again. He only dared to help because he saw that many people were worried about Chang Jiancai. This was because even if the Feng Clan were to pursue the matter further, it would have nothing to do with Chang Jiancai.

"If you can get the Sacred animal fruit, that's fine. But don't you have a little more creation divine liquid? Enough to copy one for me, right?" Long Xueyi said, she liked to eat fruits more and the taste was much better than refining pills.

This Little Naughty Dragon, his appetite is getting bigger and bigger. Fortunately, he is here in the Heaven Realm, otherwise, it would be very difficult to get suitable for you to eat. " Chen Xiang scolded jokingly, and then he went to a place close to the Central Sky Region, which was very close to the pill shop, and asked around to find out how big of a commotion that would cause.

At that time, Chen Xiang's attack was very heavy. When he took out that fellow's Heaven Pellet, he poured a very strong power into it, breaking all of his meridians and releasing a very strong soul attack to wipe out that person's soul.

On one hand, there were people who broke the rules of the Heavenly Bull Immortal Palace, which was equivalent to provoking the dignity of the Heavenly Bull Immortal Palace, so according to the ways of the Heavenly Bull Immortal Palace, they would try to hold the two sides accountable, but now that Chen Xiang had escaped, the people of the Feng Clan were still around. Although the young master had died, the Feng Clan was still required to compensate.

Only now did Chen Xiang know that the disciple of the Feng Clan that he had killed had a high status.

The former Son of Heaven was known as the Holy Prince. If it was the other children of the Immortal King of the Divine Wind Immortal Country, they would all be called princes or princesses, and their descendants would be princes or princesses.

And the person Chen Xiang had just killed was a grandson, the son of a prince of the Divine Wind Immortal Country.

"There is no one here who would dare to claim to be an emperor, at most they would be a king. Didn't you kill an immortal king before, what's so good about a Divine Wind Immortal Country?" Long Xueyi said.

Chen Xiang never thought that those Tong Tian Aristocratic Family s and sage realms would all be able to form a Immortal Country here. If that was the case, then Ji Meixian and Zhao Yiprofound's standing inside would definitely not be low.

"Immortal Country Bai Hai should exist. If you have time, ask around and see how those two little maid s are doing." Chen Xiang said while rubbing his chin.

"You don't have to worry about them, Ji Meixian is a very mysterious person in the past, she can definitely help Zhao Yiprofound, this little maid, to achieve a very high status, and at the same time, help Zhao Yiprofound to raise his strength and obtain more resources." Su Meiyao said.

Chen Xiang came to an inn, laid on the bed and said: "Wait till my strength increases a little, I have to properly pay a visit to these old rivals of mine. Back then, they didn't have much use for me when they were at Di Tian's, but here I'm sure it was a lot."

"Dogs." Long Xueyi suddenly said.

"Could it be Tengu?" Su Meiyao cried out in alarm: "Quickly run, this kind of beast has a very keen sense of smell. No matter how hard you try to conceal yourself, you will be able to smell your scent and follow them for millions of miles."

Chen Xiang immediately teleported through space, left the tavern, and rushed in the direction of the Transmission array. He wanted to immediately leave this Heavenly Bull Immortal Palace, and leave the area where the heavenly dog was searching for him.

"Are there a lot of these things in the Heaven Realm? If there are a lot, I won't be able to survive." Chen Xiang teleported to the entrance of the Heavenly Bull Immortal Palace.

"Not many, but it's still very easy to get powerful people. Leave the Heavenly Bull Immortal Palace first and come back after some time." Su Meiyao said.

Not long after Chen Xiang entered, he had to leave Heavenly Bull Immortal Palace, but he did have a good harvest after entering and collected Sacred animal fruit.

"They're here, this group of people are very professional." Long Xueyi shouted.

Chen Xiang never thought that he would follow closely behind. He immediately stepped onto the Shrinking step and used his fastest speed to escape the tracking radius.

"There are a total of three Tengu's. If you drip three drops of blood, I'll help you control the three drops and send them away. They should be able to chase after the blood." Long Xueyi said.
