

Dan God 1301

[Chapter 1301](#)

"She's not weak. She just became an Immortal with the same strength as you." Long Xueyi said unhappily: "I never thought that they would use such a method to keep the Alchemist, it's too despicable."

Chen Xiang agreed with her: "It's indeed too despicable, but I like it ..."

"Hmph, little scoundrel." Su Meiyao and Long Xueyi scoffed at the same time.

"Although I already have two female slaves, they are not real female slaves. This one before me ..." "Heh heh." Chen Xiang laughed sinisterly.

At this time, Xiao Ling gave Chen Xiang a beast skin. Chen Xiang opened it and saw many treaties on it.

"Manager Ma asked me to hand this over to you. If you think there's no problem, then sign this contract." Little Ling said.

Chen Xiang looked carefully at the contents of the contract and muttered, "The contract with the Pill Sect requires one to go to the pharmacy to gather medicinal ingredients every month to refine five hundred high grade Ground level pellets. The reward is fifty thousand Spiritual crystal s per month."

"Mm, not bad." Chen Xiang nodded.

"This is the most basic requirement. If Lord Yan can concoct a hundred thousand high grade Ground level pills, you will not be bound by this contract in the future. At that time, you can leave our pill shop anytime." Little Ling said.

Chen Xiang still didn't quite understand, and asked: "Why do I have a servant? Do the other Alchemist s have her?"

As for the cost of the medicinal ingredients, one is equivalent to fifty Spiritual crystal. If Lord Yan can refine one or two of the medicinal ingredients, that would be eight hundred Spiritual crystal, and five hundred Spiritual crystal per month, then at the very least, we would be able to earn one hundred fifty thousand Spiritual crystal. The contract says that it's one hundred thousand Spiritual crystal, so you can make a lot of Spiritual crystal for us. "

"The others don't have personal maidservants. Senior Yan was chosen by Manager Ma, so he might want to focus on cultivating you."

Chen Xiang rubbed his chin and asked: "I can only earn thirty or forty million Spiritual crystal for you guys. In your opinion, it shouldn't be much.

Chen Xiang was still considering whether he should sign this contract and refine one hundred thousand pills to get rid of this contract.

"Sign it. From now on, you don't need to refine it yourself. Just hand in 500 pills every month, and it will be no big deal." Su Meiyao said: "Right now, you need this place to understand the situation here, furthermore, this little girl is not bad, when the time comes, we can take her away."

"At that time, if Lord Yan wants to bring me away, he can help me redeem myself." Little Ling stuck out her tongue.

"How much?" Chen Xiang asked.

"Ten million Spiritual crystal." Little Ling laughed and said, "I'm quite expensive, am I not?"

Chen Xiang signed the contract with blood dripping onto the table. He passed it to Xiao Ling and said, "We'll talk about it at that time."

This medicine store was extremely large and had a large amount of medicinal ingredients. To him, five hundred pills per month was a small matter. He felt that he could settle this in a few days and save a lot of medicinal ingredients for himself.

"I'll pass it to Manager Ma. Please wait a moment, I'll be back soon." Little Ling disappeared in the blink of an eye. Her speed was extremely fast.

"Tens of millions of Spiritual crystal can be considered a large number here, and only a few Immortal Kings can afford that. In the long run, they really think that you can make a huge profit for them." Su Meiyao said.

Of course Chen Xiang knew, but it didn't matter to him now. He just wanted a place to settle down, and then he would wait for the chance to earn some money.

Manager Ma was the old man. When he saw that Chen Xiang had signed the contract, he laughed: "Xiao Ling, he will be your master from now on. Serving him well, his future is limitless."

Little Ling nodded and said, "Little Ling knows."

Chen Xiang laid on the sleeping chair in the courtyard lazily. He did not want to move the slightest bit right now.

Little Ling came back and stood behind him without saying a word.

"Little Ling, this medicine store doesn't seem to have a name, why is it like this?" Chen Xiang asked.

"I heard that it was because I still don't know who the Sixth Prince is planning to give over the pill shop to. The Sixth Prince has seven children, but now the Eldest Young Master is in charge. Little Ling said.

"How long have you been here?" Chen Xiang was very curious. Although Xiao Ling looked like a girl, but she was actually an immortal. However, she was only worth millions of Spiritual crystal.

"It's been sixteen years. I was born here, but my natural talent is good, so I could become an Immortal. However, that's all I can do." Although Xiao Ling always had the sweet smile of a professional on her face, there was a trace of sadness on her face.

Chen Xiang had thought it was weird that such a good seedling would be used as a servant to serve him. There must be something fishy about it.

"He was forced to break through using a secret technique. This kind of thing is very normal. Many big forces train slaves like this. However, these people are all homeless orphans. Being able to do this is a pretty good fate for them." Su Meiyao said.

"Can you show me your body?" Chen Xiang asked.

"Ah, this ..." "Sure." Little Ling's face slightly blushed, and then she started to take off her clothes.

Chen Xiang anxiously shouted. "Don't move, we're not looking at this ... Looking at the situation in your body, I want to see why you can't improve anymore. "

Now, Chen Xiang finally understood what a real female slave meant.

"Get dressed and stand in front of me." Chen Xiang got up from the couch and placed his palm on Xiao Ling's abdomen. He wanted to see how much damage that technique would cause to her.

After a moment, Chen Xiang frowned: "What's with the Heaven Pellet?"

"Before Little Ling had even cultivated in Nirvana Doom, when I was still in the Extreme realm, I had already been embedded with a Heavenly Pellet. After that, adding on some other secret techniques, I could perfectly fuse with the Heavenly Pellet, learn how to control the powers within it, and then become an Immortal." Little Ling slightly smiled, but her smile was a little forced.

Chen Xiang had already seen the pain she had to endure at that time, even though it could make her very strong.

"If something goes wrong, you'll definitely die." Chen Xiang said with slight anger in his heart.

"Yes, only I can survive in the same group as me." Little Ling slightly lowered her head, the sweet smile on her face had already disappeared. She also had feelings for them. The companions that she grew up with had all died at that time. The fatherless her was the closest companion.

Long Xueyi said: "It's very difficult for her to grow again, the Heaven Pellet was not cultivated by herself, these people really aren't things."

"I don't blame them, because without them, we would have already died." Little Ling said.

"However, it cannot be denied that what they did was inappropriate. They allowed your lives to continue, yet they were tormenting your lives. At that time, if you all had a choice, you all would have chosen that road." Chen Xiang sighed.

"I don't know, but we've all enjoyed life because of this. Life was bestowed by them, so it's only right that they take it back." Xiao Ling did not expect her master to be so conflicted over such a matter, she did not understand.

Chen Xiang sighed helplessly, and said: "Come out for a walk with me, it's the first time coming to this kind of place, you should be familiar with this place."

"Yes." Ling nodded and didn't ask any more heavy questions. She immediately revealed a sweet smile.

Now, Chen Xiang already knew that the Sixth Prince and He Feng were definitely not good people, they just looked good on the surface.

[Chapter 1302](#)

Chen Xiang brought Little Ling out of this pill shop and onto the streets. When he came out, he discovered that there were a few Alchemist s with similar servants by their side, but most of them were young and delicate.

Xiao Ling, why are all the servants beside the other Alchemist men, while you are female? There aren't many cute and beautiful girls like you, right? Chen Xiang was walking on the road, with Xiao Ling following closely behind him.

Little Ling said in a low voice, "Master Yan, in fact..." The other Alchemist s do not want me, they think me to be a little girl and can't help them much, but they need a very capable assistant when they are refining pills, that way they can refine the pills quickly and save a lot of trouble. "

"Just call me big brother." Chen Xiang laughed: "Those Alchemist s are too useless, they also need other people's help in pill refining."

Xiao Ling was a little surprised and said, "For the past two years, Manager Ma had pushed me onto a dozen or so Alchemist s, but those Alchemist s had immediately let me go. It's useless to say me out."

"Ignore them. They are useless. To think that they would want the help of someone else for their pill forging. It is just a small matter." Chen Xiang was extremely disdainful. In his opinion, for such a good girl to be looked down upon, those people must be blind.

"Big Brother Yan, where are you going? Don't you want to concoct pills?" Little Ling asked.

In her eyes, many Alchemist s were very busy, they would need to spend at least half of the day concocting pills. This was because she had heard from the young servants that they were very tired after all the hard work they did with the Alchemist s.

"What's the hurry? We'll talk about it at the end of the month." When Chen Xiang came out, Manager Ma had given him fifty thousand Spiritual crystal.

"Xiao Ling, where are the Alchemist s located? In the central region, it would be best if we could see some high level Alchemist sparring."

This was the Myriad Dan Immortal Country. Although Chen Xiang could see quite a few Alchemist s on the road, most of them were not that good. He wanted to see those with better standards.

"Myriad Dan Building, I will bring you there right away. Inside, there are many Dan King that compete in pill refining all day, it's very lively. Manager Ma once brought me there." Little Ling smiled sweetly.

Chen Xiang followed Xiao Ling to the Myriad Dan Building. This Myriad Dan Building only had five floors, but every floor was as big as a plaza.

Upon entering, he saw that there were many people in the spacious hall. The medicinal fragrance was also very rich and had all kinds of medicinal fragrance.

"So many people, what are they doing?" Chen Xiang saw that there were a lot of people gathered around.

"They are all watching others refine pills. There are many famous Alchemist s here, and they will often be refining pills in public for others to see." Xiao Ling replied, "This is the first floor, which is of the

lowest grade, the highest being the fourth, and the fifth floor is the territory of the Dan King. Furthermore, ordinary people cannot go there."

Chen Xiang could smell the scent of the medicine, and knew what kind of pills the majority of the people here were.

"What's that?" Chen Xiang saw a counter. There was an old man there, people would go over from time to time.

"Some people who have their own ingredients and need the Alchemist to refine them would come here to look for famous Alchemist s. Many of them are of decent standard, but they lack practice or are all Alchemist s who want to show off their skills in refining pills."

"Is anyone allowed to go and get it?" Chen Xiang asked again.

"No, only the famous Alchemist can receive it, and only after refining it will you get paid." Little Ling shook her head.

Chen Xiang and Xiao Ling arrived at the third floor in one breath. There were quite a few people here who were concocting high quality pills of the Ground level.

Coming here, Xiao Ling seemed to have seen someone she recognized, and quickly hid behind Chen Xiang, afraid that he would be recognized.

"Isn't she the little girl from the sixth shop? She actually has an owner." A young man dressed in red walked over and looked at Little Ling evilly.

The young man also had a follower behind him, one of them was a middle-aged man with strong cultivation, Late period of human immortal, and the other two were young servants.

Chen Xiang pulled Xiao Ling towards a Alchemist who was refining pills. There were fewer people watching, and there was no need to squeeze in.

"Oh? This little girl's master is not bad, huh? She can actually be so calm." The red-clothed youth teased and actually followed him.

"Big Brother Yan, that's why he was so jealous of me the other time. He's one of the first prince's sons, a grandson of the king, and his name is He Hong. You should hurry back to the shop." Xiao Ling told Chen Xiang through sound transmission.

"No, just ignore him." What bullsh * t Wang Sun, Chen Xiang was not afraid, the son of Dragon Emperor was still eaten by him, he was afraid of this guy.

Chen Xiang came to the side of the stall that was refining pills, and many people surrounded and watched quietly.

Xiao Ling said in a low voice: "This is Elder Uncle Li, he has great achievements in refining high grade Ground level pills. When we competed to refine high grade Ground level pills, he took first place before."

Once the He Hong came, the others all made way for him. This was a Wang Sun, who always wore red clothes, and was a regular customer of the Myriad Dan Building, he always made the Alchemist in his shop come here and gamble with others. He always made them lose miserably, so many of them always hid far away when they saw that they had lost.

The He Hong had come, but Chen Xiang did not even move his head a bit. He did not even look at him, but only held onto Xiao Ling's hand, and watched the Elder Uncle Li concoct pills.

"Why is it that there are so few people who are looking at Elder Uncle Li refining pills? There should be a lot of them, right?" Chen Xiang asked. The other Alchemists were all surrounded, but this Elder Uncle Li who had such powerful pill refining skills was not surrounded by many.

Elder Uncle Li had a head full of white hair, his beard and eyebrows were completely white, but his face did not have any wrinkles, and he did not look very old.

"Because he sometimes doesn't concoct pills, but sleeps. His pill furnace is very strange and doesn't emit any heat. That's why it's hard to see what happens when he concocts pills. Maybe he's sleeping right now." The He Hong was also by the side, giving her a lot of pressure. She was worried that she would cause trouble for Chen Xiang.

The Elder Uncle Li had his eyes closed as he sat on the ground with his legs crossed, breathing slowly. He really did look like he was sleeping, and if he was observing from the sidelines for a day or two and discovered that he was sleeping instead of concocting pills, it would definitely be very deceptive.

"Little girl, this is your new master. Since old man Ma has arranged a personal maid for him, it seems that his pill refining level is not bad, right? This is a Alchemist who just joined the sixth shop, I really want to see how he is." The He Hong's words attracted a few people.

The sixth shop was the one that Chen Xiang had just joined. Because it was owned by the Sixth Prince and had no name, it was named after him.

Many people here knew that for the Alchemist in the number 6 shop, having a servant meant that they were valued highly. To be able to bring great benefits to the number 6 shop, it was a very good Alchemist.

[Chapter 1303](#)

Although Chen Xiang heard the He Hong's words, he did not pay any attention to it. He focused on the Elder Uncle Li's pill furnace, the furnace was truly powerful, at the beginning he thought that the Elder Uncle Li was just lying down, but upon closer inspection, he realized that he was really concocting pills.

But the condition of the Elder Uncle Li was very strange, it was like he was in a half asleep state, if he could concoct pills in this state, it would be too amazing.

"sister Meiyao, do you recognize this pill furnace?" Chen Xiang asked, this kind of pill furnace should have some background.

"I don't know him, but this old man is very powerful, he's not an ordinary Alchemist." Su Meiyao also noticed it.

"It's about to form the core." Chen Xiang felt a weak change in the pill furnace, and thought.

Xiao Ling did not bother with the He Hong, as Chen Xiang had told her to ignore him. At the moment, she was still nervous as she held Chen Xiang's big hand tightly and looked at the Elder Uncle Li that seemed to be dead.

"Little girl, didn't you and your master hear what I said?" The He Hong frowned slightly. There was actually someone who looked down on him, even if the sixth shop's Manager Ma came, he would have to smile at him.

Chen Xiang was currently frowning as he looked at the Elder Uncle Li earnestly. He casually replied, "I heard.

The He Hong was a little angry because Chen Xiang didn't even look at him.

"What are you pretending for, are you afraid? You purposely looked at the old Sleeping Bug concocting pills and pretended that you could see something. It seems like you are trying to escape, the Alchemist that was just hired by number six shop is only mediocre." The He Hong sneered.

"Say what you like. However, Elder Uncle Li is indeed powerful, he was almost able to condense the pill successfully, but I wonder what pill he is refining, it is not something that is commonly seen. " Chen Xiang muttered, making some people confused, because after looking at it for a long time, he still could not see through it.

"Acting arrogantly..." Just as the He Hong finished speaking, the Elder Uncle Li opened his eyes and opened the lid of the pill furnace. Just as the lid was slightly ajar, the red light shot out and disappeared.

"I failed." Elder Uncle Li sighed.

Everyone was shocked, because what Chen Xiang said was true, but Elder Uncle Li did not succeed in concocting the core, causing the people around him to be respectful towards him. Someone who could see through the mysteries of Elder Uncle Li, must also be very powerful.

"Elder Uncle Li, what pill is this?" an old man asked. Although he looked older than Elder Uncle Li, he still addressed him like that.

The Elder Uncle Li swept his gaze across the crowd. At this time, there were more and more people here, partly because the He Hong was challenging them, and partly because Elder Uncle Li was asleep for a few days. Finally, he opened the lid of the pill furnace.

"Guess." Elder Uncle Li laughed out loud.

"Guess your head. If I knew, would I even need to ask you?" The old man immediately said.

Although he was usually arrogant, he was not stupid. He knew that the Elder Uncle Li was very powerful and that his first shop wanted to win over the Elder Uncle Li, but it was to no avail. However, he still wanted to continue challenging Chen Xiang so he could see what level the new Alchemist at the sixth shop had reached.

"It's the Heaven Blood Pill." Chen Xiang said.

"But you could tell from what happened just now. Have you ever refined one before? Or have you seen someone refine one, or have you heard of one?" Elder Uncle Li looked at Chen Xiang in shock.

The others were puzzled, and the He Hong did the same. He quickly took out a jade and called down their number one shop's Alchemist from the fourth floor's fifth floor.

The name 'Heaven Blood Pill' was easy to understand. It should be related to blood, but many people had never heard of it.

If Su Meiyao had not said so, Chen Xiang himself would not know what pill this Elder Uncle Li was refining just now.

Chen Xiang smiled slightly: "I have only heard that there is a type of pill that would cause blood light to soar into the sky after condensing a pill. Its main function is to produce a very powerful blood, so it should be considered a middle grade Heaven level pill.

Everyone was stunned. Elder Uncle Li was actually refining a middle grade Heaven level pill, then he should have rolled to the fourth and fifth floor. That was a place for him to stay.

"Do you still have any medicinal materials for the Heaven Blood Pill?" The He Hong quickly asked: "I am willing to buy it at a high price."

"No more." Then, he threw a large pile of medicinal ingredients into the pill furnace, closed the lid and continued to concoct pills with his eyes closed.

At this time, a few old men came to the He Hong's side, they were all from Alchemist, and came down from the fourth floor to the fifth floor. One could imagine their level of alchemy, after Xiao Ling discovered this, she lightly pulled on Chen Xiang's hand, indicating him to quickly leave.

Chen Xiang did not want Xiao Ling to worry either and walked out from the crowd of people, but he was stopped by the He Hong in front of her.

"Alchemist of the number six store, this is your first time here, right? This is your first time here, I'm sure you have some skill, if you don't make it past one or two batches, you might not be able to make it out alive." The He Hong said with a smile that did not reach his eyes.

"Seventh Young Master, Big Brother Yan is going back to rest. He joined the sixth shop today and has already made a few batches of pills. He's just out for a walk." Xiao Ling also did not wish for Chen Xiang to bet with the He Hong, because there would usually be no good results.

"What are you talking about? Is there anywhere to talk?" The He Hong said coldly.

"So you're the one who opened this place. Whether or not you can speak will depend on your expression. In that case, you are the one who should decide whether or not to bet pill refining here. What else can we do? Let's go." Chen Xiang pulled Xiao Ling, and just as he took a step forward, he was stopped by the middle-aged man.

If he did not have to hide here, Chen Xiang would not have such a good temper. If they were to be together, those who were intentionally blocking his way, he would definitely make them lie down.

There were quite a lot of Alchemist who were forced by He Hong to make a bet. Everyone was already used to this kind of thing, and it was also something many people were looking forward to.

"Won't you leave?" Chen Xiang's tone became much colder.

"This little girl has talked back to me before. You can leave, but she has to stay." The He Hong glanced at Xiao Ling viciously.

If you lose, don't lose anything. Just respectfully call me Young Master, and if I lose, you can have one hundred thousand Spiritual crystal. "Ling Chen:" The He Hong said: "This should be very worthwhile."

The He Hong did not lack Spiritual crystal s, but it was very boring. Most of these young masters were like this, always looking for existence and acting tyrannically.

Chen Xiang laughed coldly, "Not interesting at all."

After all, it was just a furnace of pills. However, Chen Xiang felt that if he wanted to play with this kind of fellow, he had to play big ones and make him lose even more miserably, so that he could remember this name.

"Not enough." The He Hong suddenly laughed: "Someone actually dares to play big with me, then you must at least see how big of a bet you have."

Chen Xiang also laughed out loud: "Do you dare to play with your life?"

He actually wanted to gamble his life! Everyone thought that Chen Xiang was joking, but it didn't seem like it.

Hearing that he was going to play with his life, the He Hong could not laugh anymore. It only frowned and glared at Chen Xiang, because it really did not dare to play.

"Who do you think you are? What right do you have to risk your life and fight with Seventh Young Master? With your life, are you even worthy? " An old man beside the He Hong said in a hurry.

Chen Xiang laughed coldly: "Fine, if you want to compete with me in refining pills, then kill yourself. Your Seventh Young Master should be very happy, because the one dying is not him, it's just a dog slave beside him, it doesn't matter how many he dies."

However, she could tell from Chen Xiang's words and actions that this "Big Brother Yan" in front of her was extraordinary, to actually dare to speak to this He Hong in such a manner.

At this time, the Elder Uncle Li that everyone had forgotten about suddenly spoke up: "I also think gambling with one's life is more fun. If you lose, you wouldn't be afraid of losing, because you don't have your life, you wouldn't be afraid of anything.

The He Hong gritted his teeth, of course he did not dare to casually decide such a thing. Although he had many good Alchemist s with him, if he were to kill one of them, his father the prince would definitely punish him.

"If you don't dare to play, then get out of the way!" Chen Xiang knew that this group of fellows would be like this. They were previously so arrogant, but now that they talked about putting their lives on the line, all of them shrunk.

"This is just an ordinary spar, there's no need for it to be so extreme, right? If you win, you will gain even more benefits. If you win, other people will die, but you won't be able to obtain anything of your own. " The old man beside the He Hong said.

Chen Xiang said: "As long as I am happy, I do not wish to win anything good from you guys."

He actually dared to look down on Wang Sun! Everyone was secretly looking forward to the day when both sides would come up with something powerful.

"What you're saying is that you want to play big, right? Then we'll have to see what kind of bet you have. Your life isn't worth much in my eyes. Bring out some meaningful items." This was the first time the He Hong had met such a person. He could tell that Chen Xiang was very confident.

"You can help Xiao Ling ransom her body from the sixth shop. You should know how many Spiritual crystal s are needed." Chen Xiang said.

"Ten million Spiritual crystal!" The He Hong secretly took a deep breath. This was indeed too big, even if it was just one million Spiritual crystal, for someone like him, as Wang Sun, it was still heavy. If it was used to buy something, it would be alright, since the things they bought would work, but if they lost, it was equivalent to throwing them away.

Little Ling bit her lips. Chen Xiang wanting to redeem her body moved her a lot, but she didn't think that Chen Xiang needed to spend so many Spiritual crystal s for her.

"Then you have to have at least ten million Spiritual crystal. Don't leave empty-handed." The He Hong said, but right after he finished speaking, he regretted it, because once Chen Xiang took out ten million Spiritual crystal, if he did not gamble, then others would definitely laugh at him.

Everyone knew that the He Hong had no way to dismount and had kicked the metal board.

"That's enough!" Chen Xiang took out a pearl which contained a small cluster of red flames.

Everyone's heart was thumping hard, because this was a Fire Soul, and although it was the lowest level red Fire Soul, it was still extremely precious. Someone actually used this thing to make a bet, and this made many people want to jump out and compare themselves to Chen Xiang.

"If it's the Red Fire Soul, I'm afraid that even tens of millions of Spiritual crystal would not be able to buy it." Elder Uncle Li was also surprised, someone actually threw out such a thing casually, it was very precious, although there were many people with Fire Soul in Heaven Realm, but very few people took it out to sell, let alone gamble.

Chen Xiang did not lack Fire Soul, as long as the Fire Divine Palace was not destroyed, he would have a lot of opportunities in the future to get even better Fire Soul, and this red Fire Soul was nothing in his eyes.

The He Hong stood there in a daze, unable to speak. He only wanted to leave this Myriad Dan Building right now, because he couldn't afford to play. Ten million Spiritual crystal gave him a lot of pressure.

The He Hong was sweating profusely. Looking at his appearance, many people were gloating secretly in their hearts. The normally overbearing He Hong was now forced to such a state.

"If we bet with him, wouldn't we have millions of Spiritual crystal?" A gentle voice suddenly sounded. The He Hong was relieved and quickly turned to look at a middle-aged man who was slowly walking over.

"Late stage Immortal Monarch!" Long Xueyi said.

The He Hong's face revealed a smile: "Big Brother, why are you here?"

"He is the big brother of the He Hong, the eldest grandson of the Immortal King of Myriad Dan Immortal Country. His name is He Tang and he is very powerful. Xiao Ling transmitted to Chen Xiang.

To be able to take charge of the first shop, ten million Spiritual crystal were indeed nothing. Seeing that He Tang had arrived, a few Alchemist s bowed to him.

Although He Tang looked like a middle-aged man, he looked very lively and lively. He looked very young, and the aura he emitted was very similar to that of He Feng from before.

"I also want to see how powerful the new Alchemist from number 6 shop is, to actually dare to take out the Fire Soul to gamble. This is probably the first time in the Heaven Realm." He Tang smiled.

"I will decide on the rules." Chen Xiang said.

"No problem, please speak." He Tang was very polite.

"To refine a Qi Shen Dan, the winner will be decided in a single pot. The most pills will be produced, and the highest quality will be. The fastest is the winner." Chen Xiang said indifferently. This Qi Shen Dan was a middle grade Ground level pill, and was also one of the fastest pills that he could refine.

"Just a middle Ground level? Can it be higher? " He Tang replied: "It's too easy, there's no meaning."

"Relive Dan s, this kind of pill has the most extensive uses. It will sell the best, which is something that everyone is familiar with. When the time comes, everyone will witness the victory or defeat." Chen Xiang continued: "Actually, my level is only that of a high-grade Ground level Pellet."

In order to be more fair, during the competition, he would use some common pill furnaces to buy one Spiritual crystal from the counter. This would test the standards of the Alchemist.

He did not expect that the moment Chen Xiang joined the sixth store, he would come here to have a bet with someone, but when he heard that it was a competition to refine a Relive Dan, he immediately heaved a sigh of relief. He had personally seen Chen Xiang's refining level before, and it was very impressive.

"The Relive Dan, right? "This is the medicinal herb!" Manager Ma hastily took out a high-quality medicine and said, "You should have the supplementary medicine. Don't lose. If you win, the Sixth King might summon you."

If he won ten million Spiritual crystal from store number one, it would definitely cause quite a sensation. This was also a contest between store number one and number six.

Since he was not using Chen Xiang's name, Chen Xiang was not afraid of drawing attention to himself now. He felt that it would be better this way, maybe he could get closer to the Imperial Palace. If he could enter, maybe he could better understand the current situation.

[Chapter 1305](#)

Manager Ma really wished for Chen Xiang to win. If that was the case, then it would mean that the sixth shop was stronger than the first shop, which also meant that the sixth shop could attract stronger Alchemist s.

"Master Yan, if you win, then Little Ling will be yours from now on. You don't need to use ten million Spiritual crystal to redeem her, I can make that decision. This will help the sixth shop vent ..." Manager Ma told Chen Xiang through sound transmission.

Right now, the battle for the throne was a contest of strength in all aspects, and the pill shop was also more important. A small victory here could let many see the Sixth Prince win by a sliver, and let many know how to stand in a line.

"That's what you said. Alright, I will definitely win."

Chen Xiang was processing the Relive Dan's medicinal ingredients, White jade lotus seed, Returning herb ... He was extremely familiar with these herbs and could make them very good with his eyes closed.

The Alchemist that He Hong He Tang had sent out came from the fourth, fourth, and fifth floor. Even though he was an old man, Chen Xiang could tell from the whispers of the surrounding people that this old man was a Dan King who could refine Heaven level Pills.

"Grandmaster Zhong is a Dan King, he is ranked amongst the top grade Ground level pills. Who knows how many Relive Dan s he has successfully refined. It's more than enough to defeat him." The He Hong sneered.

The two normal pill furnaces were placed, and everyone began to inspect them. These were the rules for the competition within the Myriad Dan Building, and after there were no problems, they returned to Chen Xiang and Master Zhong.

"Little scoundrel, don't look down on Alchemist's Alchemist. This place is a crouching tiger and hidden dragon, my little master had said many times before that there are many powerful Alchemist hidden inside this Myriad Dan Immortal Country. Be careful." Although she knew that Chen Xiang would not be arrogant, she still hoped that Chen Xiang would bring out his strongest power.

"I know." Chen Xiang was very calm at the moment. He would always be like this during competitions, not affecting his pill refining state because of anything else.

"Are you still planning to use the Foreseeing Alchemy? These old fellows will definitely be more proficient in using the Foreseeing Alchemy than you are, if they can also refine the same number and quality of Relive Dan, and if the time is slightly faster than yours, you will lose. This is Heaven Realm, the other party has such confidence in winning, so they will definitely not send out ordinary Alchemist." Bai Youyou said. Although she did not know how to refine pills, but she did understand a lot of these things.

"I know what to do." Chen Xiang placed the main ingredient and the secondary ingredient into the furnace. On this point, he was slower than the other party, so some people already thought that he would lose.

If it was a Alchemist of the same level, time would be the key to determining the victor.

"He really is powerful." Chen Xiang could feel the rapid and steady change in the other party's pill furnace, and was secretly surprised. This kind of Alchemist was even stronger than what he had encountered in the Sacred Dan Realm.

Some nodded their heads in praise of Master Zhong. The furnace was operating smoothly and quickly. The fact that the main ingredients could be quickly refined showed that the pill condensation process was extremely fast and the quality was also very high.

In comparison, what made people more suspicious was that the fire inside Chen Xiang's pill furnace was chaotic, it was not at the level of a Alchemist that was favored by others, causing them to furrow their brows.

"It's just my mouth. The Fire Soul is ours." The He Hong laughed contemptuously.

If Chen Xiang lost, the sixth shop would lose its face. One must know that there were very few matches between the princes' shops, but if they fought, one would have to have absolute confidence in winning, otherwise, they would be ridiculed for a very long time by the other party.

"What's wrong with this guy? Just a moment ago, I thought he was very powerful, so why is there such a mess inside the pill furnace?"

"That's right, my disciples are all better at controlling them than him. Whether he is crazy or not, with this level, he can take out the Fire Soul and make a bet."

"Is the sixth shop blind? Even a Alchemist like this can have a maid."

He had seen Chen Xiang refine Relive Dan before, but now, Chen Xiang did not have the same level of strength as before. This made him feel that Chen Xiang was not performing well, probably because of the pressure of winning or losing.

Just as everyone was discussing amongst themselves, Elder Uncle Li, who was left out by someone else, actually kept his pill furnace and squeezed into the crowd to watch.

It was said that many shops had offered generous conditions to recruit him, but he did not go. Furthermore, in some of the competitions, he would often obtain a high ranking, and could be said to be one of the more authoritative figures in the Myriad Dan Building.

"Elder Uncle Li, what do you think?" One of them asked. This Elder Uncle Li was good at concocting pills, but he did not put on any airs.

"You're asking me who will win, right?" The Elder Uncle Li asked.

"Yeah, from your experience, who would win?" the man asked again.

Elder Uncle Li frowned as he looked at Chen Xiang's pill furnace. The change inside was also beyond his expectations. Previously, when Chen Xiang could tell that he had concocted the Heaven Blood Pill and also saw the activity inside his furnace, it meant that his skill was not bad.

Elder Uncle Li did not believe that Chen Xiang could only reach that level. He did not answer that person, and carefully felt the changes in Chen Xiang's pill furnace ...

The reason why the furnace was so unstable when Chen Xiang was refining the pills was because he did not use the Foreseeing Alchemy but rather the God purification.

He had already used his powerful God Power to divide the medicinal ingredients into several areas, including a region for the supporting medicinal ingredients and a region for the other main medicinal ingredients. After dividing them, he then used the God purification's method to quickly melt the main medicinal ingredients into medicinal powder and Medicine aura.

In the past, when he was refining the Hunyuan Dan, he did it on top of his palm, which made it easier to control. Now that he was in the pill furnace, it was a little difficult, but this was a Superior Grade Ground level pill, and he was very knowledgeable about the Relive Dan's ingredients.

The God purification was precisely to use a strong spiritual energy and an extremely strong flame to burn down the stubborn spirit within the medicinal herbs, and to refine it, one would need to use the profound and mysterious incantations contained within the Heavenly Alchemy in order to succeed.

"Weird, weird. This little brother uses a strong flame to burn medicinal ingredients when he's refining pills ..." "This is a taboo in refining pills. Under normal circumstances, it would have exploded a long time ago, but it's very stable." The Elder Uncle Li muttered.

That's right, the hot air that Chen Xiang was giving off, was like this. Normally when he was refining pills, burning a lot of ingredients was taboo.

"Then we have won. The fire was so fierce from the start, the spiritual energy in the herbs will be destroyed." The He Hong was now even more confident. Looking at its excited expression, it was as if it had already obtained the Fire Soul.

[Chapter 1306](#)

There were many people pointing fingers at them and talking about things that would affect their mood, but Chen Xiang remained unmoved. He had already entered a very stable state, and before long, he would be able to refine all of the main ingredients.

"That fellow called Elder Uncle Li is quite powerful. He can actually sense the changes in your furnace. However, he shouldn't be able to tell what exactly happened." Su Meiyao did not expect Chen Xiang to actually use the God purification at the beginning, she now knew that the God purification could also be used this way. Although it would consume a bit more energy, it was still possible to use it to refine Relive Dan.

Chen Xiang opened his eyes and looked at Master Zhong. He was very surprised, because the Master Zhong was extremely fast, and according to his estimation, maybe Master Zhong could even refine two Relive Dan.

While concocting the pills, he was still observing his opponent, causing many people to be unable to understand what Chen Xiang was doing, and to not be alarmed at all.

"This old man is very powerful. I never thought that the entire refining level of the Heaven Realm has improved by so much over the years." Bai Youyou said.

Maybe because of the increasing number of herbs, in the past, it would take Alchemist who knows how many years to refine a batch of higher levelled pills, but now it's different. Just by using an array formation, one can quickly grow a large number of pills that have a lot of uses, like the Relive Dan, which requires even more to refine. Su Meiyao said.

Chen Xiang closed his eyes, took in a small breath, and said to himself: "I'm going to start condensing the cores."

In that moment, a huge change occurred in Chen Xiang's pill furnace, because he had refined all the main ingredients at the same time, causing the pressure in the pill furnace to decrease by a lot, and the fire intensity to decrease quickly.

Chen Xiang moved all the partitioned areas within the pill furnace away, allowing all the Medicine aura s and medicinal powder to fuse together and release his divine power. It created an extremely strong pressure and made everything inside into a ball.

"How many pills can it be? Can it be four?" Su Meiyao asked.

The limit for Chen Xiang to refine Relive Dan s was three pellets, but four would be extremely difficult, because there were only those that had the spirit energy needed to refine all of the herbs. If she divided the ingredients into four parts, it would cause the Medicine aura and the medicinal powder to be insufficient, making it unable to condense the Relive Dan into a pellet. Su Meiyao was clear about this fact, but she knew that Chen Xiang would always be able to create miracles.

"Sure." Chen Xiang agreed, and then he split the ball of air into four parts.

"If I use the Foreseeing Alchemy, during the process of refinement, I will slowly consume a portion of the Medicine aura, and if I use the God purification, I will cleanly and cleanly refine the medicinal ingredients. The Medicine aura and medicinal powders will not leak out, so condensing four pellets is not a problem." Chen Xiang said confidently.

The change in Chen Xiang's pill furnace could be felt by everyone. The berserk fire Qi that suddenly disappeared, became very stable, but it was too stable, this was not a pill condensation, because when pill condensation took place, the pill furnace was the most unstable, it would produce a weak tremble.

When Elder Uncle Li felt that Chen Xiang's furnace had suddenly split into four parts, he opened his eyes wide, but quickly returned to his original state, but his heart was still in turmoil.

Just then, Master Zhong's pill furnace started shaking. Using such a low quality furnace to refine pills, it was normal for something like this to happen in Dan King.

No one was surprised by Master Zhong's pill refining speed. Right now, Master Zhong was already preparing for the pill refining process, and it wouldn't be long before he would produce one.

As for Chen Xiang, he had only entered into a stable state. Everyone believed that he had only just begun stabilizing the situation inside the pill furnace.

Xiao Ling watched from the side, she had a certain understanding of pill refining too, she bit her lower lip, worried that Chen Xiang would lose the Fire Soul, it was a very precious thing, she did not want Chen Xiang to lose the precious Fire Soul because of her.

Just as everyone was focusing their attention on Master Zhong, unexpectedly, Chen Xiang suddenly opened his eyes, sighed, and said: "I'm done."

The always calm Master Zhong was originally secretly happy in his heart and even mocked Chen Xiang a little. But when he heard Chen Xiang's words, he immediately opened his eyes and looked at Chen Xiang.

Under the astonished gazes of the crowd, Chen Xiang stood up, stretched his body and said: "In the end, I still need to request for a more authoritative person to confirm the matter. I don't want others to think that I am cheating."

"Elder Uncle Li, what are you waiting for? Go up and take a look." A person asked, many people could not believe that Chen Xiang had succeeded, the speed was too fast, and too sudden, even Master Zhong would need some time to condense a pill.

The He Hong stopped talking and clenched its teeth as it watched.

He Tang said: "Elder Uncle Li, I'll be troubling you."

Elder Uncle Li took a deep breath, looked at Chen Xiang and said, "I never thought that refining pills is not just a method."

When everyone saw Elder Uncle Li say this, they knew that Chen Xiang was definitely not an ordinary fellow. He did not use any normal refining method when he was refining the pill, but other than that, was there any other method? Everyone was shocked, and if what Elder Uncle Li said was true, then Chen Xiang's refining method was different from theirs.

Elder Uncle Li opened the lid of the pill furnace and a faint mist of light emitted from inside. The mist surged out and a medicinal fragrance wafted in the air.

"Hai." Chen Xiang sighed softly.

Elder Uncle Li took out four Relive Dan s from the furnace and said, "Why are you sighing? Are you not satisfied with this result?"

Looking at the four Relive Dan in Elder Uncle Li's hands, everyone was shocked. They stared at the Relive Dan in Elder Uncle Li's hands in disbelief.

Impossible, this was what everyone immediately thought of, because looking at the Relive Dan's medicinal ingredients, the limit was still three pills. Furthermore, that was something that could only be refined by the very powerful and powerful Alchemist, while this simple and honest middle-aged man in front of them had four pills, which had already exceeded that limit, a limit that was absolutely impossible to break through.

"I've lost." After the silence lasted for a while, Master Zhong sighed. His pill furnace also shook a little. Obviously, he had given up on concocting pills and had no intention of continuing.

"millions of Spiritual crystal, take it." If he lost, then He Tang would throw a Storage bag to Chen Xiang, and leave with the He Hong with a face filled with unwillingness and doubt.

"Impossible, he cheated. The maximum number of pills the Relive Dan's main ingredient can produce is three. This is something the Dan Immortal told me a long time ago. It's impossible for him to produce such a pill." The He Hong shouted, he was not willing to admit defeat.

[Chapter 1307](#)

Elder Uncle Li passed four Relive Dan pills to He Tang and the others, saying, "You can take a look for yourselves."

"There's no need to look." He Tang was very calm. Even though he was shocked, he did not suspect.

"The reason why three pellets came out is because of the conclusion given by the Foreseeing Alchemy, but this little brother did not use the Foreseeing Alchemy. I think he used the most direct and fastest way to refine the ingredients, and that can indeed reduce the loss of Medicine aura s. If we are serious, four pellets is not a problem." Elder Uncle Li said, he was also surprised in his heart, this pill refining technique must be very powerful, but he knew that it was not easy to master.

"Let's go." He Tang pulled the He Hong and left. Everyone originally wanted to chat a bit more with Chen Xiang, but Ma Dong anxiously brought Chen Xiang and Xiao Ling away.

"Come often when you have time." This is what the Elder Uncle Li said to Chen Xiang.

Chen Xiang knew that the Elder Uncle Li was a guy that hid his strength, and instantly saw through many things.

"Master Yan, don't go out during this period of time. Stay here, I'll go inform the young master." Manager Ma brought Chen Xiang back to the shop and arranged for a few experts to protect Chen Xiang.

"Then what about Little Ling?" Chen Xiang looked at Xiao Ling and asked.

"From now on, she is yours. This is her blood contract." Manager Ma threw a beast skin piece to Chen Xiang and quickly left.

Chen Xiang brought Little Ling back to his own house and then gave her the blood contract. He said with a smile, "From now on, you are free to go."

"Thank you ... "Thank you, Big Brother Yan." Little Ling's eyes were red as she put away the blood contract, "I will definitely serve Big Brother Yan well from now on, for the rest of my life."

"Little girl, you don't have to follow me in the future. You can do whatever you want to do. It's not fun to follow me, you might even get chased down." Chen Xiang smiled as he pinched her exquisite face.

"I'm not afraid." A sweet smile appeared on Xiao Ling's face again. However, this was the smile that came from her heart, not the stiff and emotionless professional smile from before.

"Mhm, Little Ling is so brave." Chen Xiang also knew that this little girl had no relatives or reasons. He didn't want her to feel lonely so he wouldn't reject her at the moment.

"Big Brother Yan, you're really amazing. Your pill refining level is already considered very strong in Myriad Dan Immortal Country. Even the geniuses that the princes were proud of are not as good as you." Little Ling said.

"Little Ling, do you have a surname?" Chen Xiang caressed her head and asked lovingly.

"Nope." Little Ling shook her head.

"Then from now on, I will be surnamed Shen." Chen Xiang smiled.

"Why should I be surnamed Shen? Can't I be surnamed Yan with Big Brother Yan's surname?"

"You'll know in the future. Don't ask now." Chen Xiang took out a spirit fruit for her to eat. This was given to her by Long Xueyi, and it was rare for her to be so generous.

"I'll be Shen Lingling from now on. Big Brother Yan, are you saying that you're my big brother?" Shen Lingling was currently very happy. Although her own identity was very lowly, this Big Brother Yan was very good to her. In her eyes, he was a good person.

"Yes, I have two younger sisters. From now on, we are family." Chen Xiang said in a low voice: "Don't tell this to anyone else."

Chen Xiang had treated her so well, but he just felt pity for her. Furthermore, they were fated to meet, and what he had done was very simple, to make Shen Lingling, who had lived in this cruel world since he was young, feel warmth. Seeing Shen Lingling happily dancing in the courtyard, Chen Xiang felt extremely happy in his heart.

"Is there any way for her to continue to raise her strength? Even though she's a Worldly Immortal, her foundation is very weak, and her Innate Qi is very weak. I guess her cultivation technique is not that good." Chen Xiang asked Long Xueyi and the others.

"If it was our previous peak strength, we might have been able to help her. But now, it's very difficult. Even if we use immortal pills, we would still need high grade ones." Su Meiyao said.

is now a Dragon King, and she should have already stepped into the divine way. At that time, she will cultivate out a Twin Dragon Pearl and let Long Huishan give her a Dragon Pearl. It won't hurt Long Huishan at all, she can still condense one more Dragon Pearl. Long Xueyi said: "If my cultivation is sufficient, I can give it to her."

"Dragon beads can be used in this way? Then wouldn't it be fine if I go kill the holy dragon now?" Chen Xiang said.

"This won't do. Those dragon pearls are useless. First of all, it's a man, and that's a Yang Dragon Pearl. Moreover, that dragon bead would not be willing to fuse with this little girl. Only those dragon beads that it willingly gives out will be useful." Long Xueyi said.

Chen Xiang said: "After I finish what I have to do here, I will go and find Big Sis Long and help me to the end."

Now that the Sacred Dan Realm had fused with the Heaven Realm, it would be much easier for Chen Xiang to find Long Huishan. Furthermore, Du Hai was also here, he hoped that he would be able to find the Dan Immortal at that time.

"Master Yan, there's a very slovenly old man outside who wishes to meet you. He said that he and your master are friends, and that his strength is not bad at all." a guard shouted from the doorway.

At first, Chen Xiang suspected who this old man was, but after he thought about it for a moment, he knew that this slovenly old man was definitely his master, Huang Jintian.

"Give him some clothes. Tell him to come see me after he takes a shower and changes. You have to be polite with him." Chen Xiang said. He was now a master, and the fact that he had been defeated by Number 1 Shop was already known to everyone, his status was incomparably respected.

After Huang Jintian was cleaned up, he had a rather expert appearance. When he heard the news that came from the Myriad Dan Building, he immediately guessed that it was his enchanter disciple and rushed over to eat and drink.

"Little guy, you're amazing." Huang Jintian laughed out loud. If he did not see Shen Lingling here, he would definitely laugh crazily.

Seeing Chen Xiang's sullen face, Huang Jintian patted his shoulder and said: "I'll be staying here for a while, I don't need you to take out anything to eat or drink, this sixth shop will definitely treat me like a lord, don't worry, don't worry, I won't take any of your ten million Spiritual crystal."

Chen Xiang said: "Those ten million Spiritual crystal have helped Xiao Ling to redeem herself."

Huang Jintian looked at Xiao Ling and laughed sinisterly: "You brat, there's a bunch of women waiting for you in the Human King's Immortal Palace."

"Old Yellow, how are they now?" Chen Xiang asked anxiously.

"Cough cough ..." Little Girl brought her two disciples with her parents, and Hua Xiangyue brought her disciple to the Hundreds of Flowers Immortal Country.

Chen Xiang asked again, "Then... Where's Dongfang Xinyue. "

"This blacksmith girl is yours too." Huang Jintian was a little surprised.

"She took Dongfang Jing to other places. She said that there is a connection between that place and her Dongfang family. Oh right, this Dongfang Jing said that she is your little sister, and you have quite a few little sisters." Huang Jintian joked.

Chen Xiang glanced at Xiao Ling, and said: "This is also my little sister, don't go crazy in front of her."

"Oh... "Alright, make the arrangements. I will be by your side in the future, and also investigate the matters in the palace. There is no news from there, and it will not be easy to enter." Huang Jintian said.

[Chapter 1308](#)

Although there were many people who had discussed the matter of Imperial Dragon Clan coming to the Myriad Dan Immortal Country, there was no important news. It was clear that they were all in the strict palace and not a single piece of information could be spread out.

"Then you will be my personal follower from now on." Chen Xiang thought, and decided to arrange Huang Jintian like this.

"Can't you be a bit more advanced?" Huang Jintian was a little unwilling.

"Too high level. Others will suspect you. This is better." Chen Xiang said.

Huang Jintian could only agree because he didn't need to sleep on the street all day as he ate and drank with Chen Xiang.

Manager Ma returned very quickly. When he came in and saw Huang Jintian, he said: "This must be your master's friend. I don't know how to address him."

"Just call me Old Yellow." In order to not let others know who he was, Huang Jintian had changed his appearance slightly. He was Chen Xiang's master, had control of the Taiji Dragon-suppressed kungfu, and was a figure that many great powers paid more attention to.

"Manager Ma, he's a distant relative of my master. If I let him be my follower, can I make it easier for him to enter and leave this place? Sometimes I can get him to do something for me." Chen Xiang said.

Chen Xiang had done a great deed and made him look even more proud. The Sixth Prince had even exaggerated his good taste and recruited such a powerful Alchemist.

Huang Jintian also got a job here, so he was quite satisfied with being able to receive the Spiritual crystal.

In two days, the Sixth Prince will come over. If you perform well and get the attention of the Sixth Prince, maybe you will be able to enter the palace. I will give you some information, the Old Immortal King is about to leave Myriad Dan Immortal Country, and at that time, the seven princes will engage in an intense battle. Manager Ma said in a low voice.

was of course very willing to enter the palace, and he also sent a sound transmission to Huang Jintian, telling him to do his best to enter the palace to investigate the situation and understand the strength of the Emperor Dragons.

"Mm, I will definitely perform well when the time comes." Chen Xiang nodded.

After Manager Ma left, Huang Jintian burst out laughing. At this time, Shen Lingling ran over and asked Huang Jintian curiously what was laughing at.

"Little Ling, don't worry about him. There's something wrong with his head." Chen Xiang said as he pulled Shen Lingling over. He was currently considering how to make the arrangements for Shen Lingling, and when he enters the palace, he could not bring Shen Lingling in.

"Big Brother Yan, your alchemy skills are so strong. When the time comes, you will definitely receive important treatment from the Sixth Prince. Who knows, you might even be able to enter that palace." Shen Lingling said somewhat excitedly.

"Yes, but I can't bring you in. The inside is very dangerous, and if you accidentally anger some powerful guys inside, you will face a disaster." Chen Xiang said seriously.

Shen Lingling nodded, as if she knew something as well: "Then where should I go then? I'm not a girl from the sixth shop anymore, I'm not related to anyone for no reason. If Big Brother Yan isn't by my side, I don't even know where I should go to."

Chen Xiang looked towards Huang Jintian and sent a sound transmission to him: "Master, help me arrange this little girl. Her condition is a little special, even though she has the strength of a Worldly Immortal, she was raised up using a few secret techniques, which is very harmful to her."

The moment Huang Jintian heard it, he immediately frowned and walked over: "Little Ling, I'm going to check on your cultivation situation and stretch out my hand."

When Shen Lingling saw that Huang Jintian had become so serious and not as crazy as before, she became a little fearful for him, but she still extended her hand out.

"As expected, these fellows really dare to use this method to cultivate their slaves. This is unforgivable." Huang Jintian said a few plain words, but you could tell that he was extremely angry.

"Little Ling, is this all the work of the sixth shop? Will the other forces do the same?" Huang Jintian asked, his expression becoming much gentler.

"I heard that all the princes do it this way. Only they know how to use this kind of secret technique." Shen Lingling said in a low voice.

Chen Xiang said: "They need to grow a large amount of medicinal herbs, and need some stronger people to protect them, which will reduce the cost."

Shen Lingling said in a low voice: "I also heard that some of the people who succeeded in inserting Heaven Pills would also be sent to dig Spiritual crystal."

Huang Jintian looked at Chen Xiang and sent a sound transmission to him, "I hate others treating these pitiful little imps the most. Brat, think of a way to take care of all seven princes and bring out your ability to cause trouble at Di Tian's place."

"This... "It's a bit difficult, so you should help me arrange it first." Chen Xiang thought for a while and decided to send Xiao Ling off right now. He felt that something big was going to happen here very soon.

"Master, have you heard of the Long family in the Sacred Dan Realm?" Chen Xiang asked.

"Of course I have, little sister Xiangyue also told me that Female Dragon King is your big sister, if you want to bring this little girl there, that's not a problem, but if you need some Spiritual crystal, the cost of teleporting back and forth should be more than a million, right? That place is too far away."

Chen Xiang still had ten million Spiritual crystal, he immediately took out a million and gave it to Huang Jintian: "Come back as soon as possible and give this jade token to her. After she sees it, she knows how to take care of Xiao Ling."

At first, Shen Lingling was unwilling, but after Chen Xiang tried to persuade her, he told her that he would take her to a big sister's place so that she could cultivate there and become a strong warrior in the future ...

Huang Jintian brought Xiao Ling and left for the Sacred Dan Realm. That place was currently called the Sacred Pill Domain, and the alchemy resources there were still very abundant, especially the Sacred Dan Realm on the other side, which was ruled by the Four Major Clans.

Huang Jintian left at noon and returned at night.

"The Female Dragon King asked if she could help and she knew what you are doing here. She said that she is very free right now." Huang Jintian did not actually come back empty-handed. He had brought a lot of delicious food with him.

Chen Xiang could tell from the taste of the dishes that they were from the Long family's hotels. He had eaten there a few times before, but he had already guessed that Huang Jintian would be shamelessly eating special food there.

"There's definitely no need for her help. The fewer people here, the better, and it would affect the Imperial Dragon Clan When the time comes, they will definitely form two forces. One is to help the Sixth Prince obtain the throne, and the other is to stop the Sixth Prince." Chen Xiang said.

"The Imperial Avian Race is also here. This is great, I have never eaten royal bird meat before." Huang Jintian became excited, and suddenly the immortal beast meat on the table became much worse.

"Master, you have heard of the Imperial Feather Race." Chen Xiang asked curiously.

"Of course I have, but Imperial Avian Race has always kept a low profile, and Imperial Dragon Clan has always been like this. However, in recent years, he has become very high-profile, and I don't know which side helped the Sixth Prince. Huang Jintian laughed.

"Someone's coming." Huang Jintian's body trembled. "A strong guy, could it be the Sixth Prince? What is he doing here so late?"

[Chapter 1309](#)

Coming in the middle of the night really made people feel shocked, Chen Xiang could even feel He Feng's Qi.

"Three people. Manager Ma, He Feng, and the Immortal King. They should be the Sixth Prince." Long Xueyi said.

Chen Xiang said to Huang Jintian: "Hide yourself a little, now that we are pretending to sleep, they will still need some time to come over."

After a while, Steward Ma knocked on Chen Xiang's door and shouted: "Master Yan, an important guest is here."

Chen Xiang and Huang Jintian did not understand, a prince would always be so sneaky when he comes, so he got up to open the door.

After opening the door, he saw He Feng and the Immortal King. However, this Immortal King was wearing a black mask and his appearance could not be seen.

When He Feng saw Chen Xiang, he respectfully saluted and shouted: "Master Yan, sorry for disturbing you. I have something important to say, please forgive me."

The tall man with the mask said: "Master Yan, let us cut to the chase, I can let you enter the palace, but after you enter, you must complete the mission in strict accordance to the time limit, we urgently need the Relive Dan right now, if you can do it, we won't treat you unfairly,"

Chen Xiang pretended to think for a moment and said, "If it's not a long period of time required to refine pills everyday, I can."

"Okay, Feng'er, you make the arrangements. I still have other things to do." The Sixth Prince then left full of energy.

"Young Master, can I bring one of my followers in? This is a relative of my master. With his help, I think I'll be able to concoct pills faster." Chen Xiang looked at Huang Jintian who was inside the house.

Huang Jintian gave the impression that he was an honest and honest old man, especially when he revealed that simple and honest smile.

"Late period of human immortal, not bad. You can follow me." He Feng nodded.

Huang Jintian only had the strength of Late period of human immortal, so Chen Xiang didn't really believe it. He kept having the feeling that this crazy old master of his wasn't that good, that he had to be very strong to slay a dragon.

Just like this, He Feng brought them into the palace overnight. On the second day, when it was dawn, many people wanted to see him, but after knowing that they had entered the palace, they all left in disappointment.

The inside of the palace was not as luxurious as Chen Xiang had imagined, but instead was extremely simple. There was a dense aura of an old man, clearly a result of the passage of time, even though it was not luxurious, it gave people a solemn and grand feeling.

There were countless buildings inside, Chen Xiang and Huang Jintian sat on a carriage pulled by a heavenly horse, they were called out of it after walking until dawn broke, and He Feng was the one driving the carriage.

It could be seen that the inside of the palace was very complicated. Otherwise, He Feng would not have brought Chen Xiang in himself.

After getting off the carriage, Chen Xiang and Huang Jintian followed He Feng into a heavily guarded villa.

"Eldest young master, I still have a contract with the shop ..." Chen Xiang said, that contract was a little troublesome, if he did not refine the Relive Dan on time, he would be tortured.

"Destroy it yourself, you are not affected by the contract, you just need to stay here and concoct pills, I will get someone to send the Relive Dan over later." He Feng passed over the contract that he had signed to Chen Xiang.

After Chen Xiang burned it down, he asked, "First Young Master, what do you need so many Relive Dan s for?"

"Master Yan doesn't need to know about this, I can't tell you yet." He Feng shook his head: "Currently, the Relive Dan outside are all very expensive, and the quality is also not good. Furthermore, we have a large number of Relive Dan herbs.

A portion of medicinal ingredients, would make two higher level Alchemist s, with the majority of them being one pellet. However, Chen Xiang had four pellets per himself, and his speed was much faster than many Alchemist s.

The Sixth Prince and the others had their eyes on Chen Xiang, the person who could make use of the medicinal ingredients and his extremely fast speed.

"Don't wander around here. We need to make enough pills to get you to leave." He Feng then left, followed by a hundred batches of Relive Dan's medicinal ingredients.

Chen Xiang and Huang Jintian lived in a small hut at the bottom of the mountain. He had not started to refine pills yet and was busy processing the herbs.

"Master, do you have a way to investigate the situation in the palace? Although we can enter, we've encountered many restrictions. We can't leave right now, and the palace is very large as well." Chen Xiang was being transmitted by Huang Jintian, he was worried that someone else might be eavesdropping.

"It's best if we can come in. There are two benefits to coming in, one is that we can observe the situation from the inside, and the other is that if a fight happens here, we are very close to the battlefield, and outside, it might not be easy to come in." Huang Jintian said.

Of course, Long Xueyi was the best at investigating such things, so Chen Xiang did not need to worry.

Huang Jintian was also helping Chen Xiang with the processing of the medicinal herbs, but he felt very annoyed.

"Kid, let me show you something." Huang Jintian sent a sound transmission to Chen Xiang, and then, he took out a little bird that looked like it was made from a transparent crystal.

"Fly." Huang Jintian gently flung, and the transparent little bird flew up into the air. After flying out of the window, Chen Xiang immediately stretched his head out to take a look, but then disappeared into the sky.

"Hehe, this little bird is a very powerful immortal equipment. Being able to be linked with my spiritual sense, I can use this little thing to check and understand the situation here. I already have a plan." Huang Jintian chuckled and transmitted to Chen Xiang: "It's just that the array of the palace is too powerful, it's very hard to fly in, but we're not afraid anymore, we're all inside."

"Amazing, I'm going to start concocting pills now. Be careful, don't let anyone catch you." Chen Xiang took out the Yanlong furnace. With the help of the Yanlong furnace, he felt even more relaxed, and could quickly finish off a hundred sets of medicinal ingredients. However, he would be slower, because He Feng had given him three days time.

After Chen Xiang concocted some pills, he would go out and take a walk, as long as he did not leave the small hut.

If he wanted to eat something, as long as he shouted, it would be delivered soon, so Huang Jintian was very satisfied. As he ate the precious delicacies sent by the palace, he used his lousy bird to observe the movements of the palace.

Long Xueyi's harvest was also not small. In merely a day's time, Long Xueyi had already determined the number of Imperial Feather Race and Imperial Dragon Clan, and both parties were fifteen. What surprised Chen Xiang was that the Imperial Dragon Clan was on the side of the Sixth Prince, and from the looks of it, he could be considered to be on the same side as him.

On the other hand, Imperial Feather Race was the eldest prince's side. There were seven princes and six of them joined forces to fight against the strongest Sixth Prince. Furthermore, Long Xueyi was also observing that there were more and more strong rankers rushing over.

"I saw someone I know, it's that old woman Wang Qiongjin again ... And there's also the hall master of the Fire Divine Palace, Di Tian. They are actually all on the side of the Sixth Prince. Long Xueyi replied.

During Di Tian's time, had always kept it in his heart that he was unable to get rid of the two Immortal King Stage powerhouses from the Fire Divine Palace. Of course, it was impossible here now.

Huang Jintian sent a sound transmission to Chen Xiang, "I saw that old woman called Wang Qiongjin. When you were at Di Tian, you should have sparred with her before.

Chen Xiang couldn't help but praise Huang Jintian's transparent bird for being able to see and hear so many things. Although it was a bit slower than Long Xueyi, it was already not bad to be able to do this much.

"Are they going to fight? Right here in the palace." Chen Xiang asked: "If that's not the case, why did they call in such a strong Ranker, could it be that they want to suppress the other party using their aura?"

"Who knows? But if they don't fight, then your dream of getting rich and my dream of slaying a dragon will be ruined. We have to make them fight and make them bite each other." Huang Jintian smiled and sent a sound transmission to Chen Xiang.

Chen Xiang had taught him all the tricks and tricks he knew, and Huang Jintian had also become proficient with them. At the same time, Chen Xiang had also thought the same way.

"I also want to eat royal bird meat. Grilled royal birds are very delicious." Long Xueyi shouted from inside the ring.

On the second day, Huang Jintian and Long Xueyi released their vigilant voices at the same time.

"He Feng is bringing Wang Qiongjin over."

If she had not requested for it, He Feng would definitely not have brought her here. Chen Xiang had a bad premonition, he had fought with Wang Qiongjin before, so he was worried that he would be recognized.

He had a huge grudge with the Imperial Dragon Clan and him, so he definitely could not reveal it.

"Master Yan, this is one of the twenty hall masters of Fire Divine Palace, Senior Wang." He Feng was worried that Chen Xiang did not know him, so he quickly introduced him, in order to not anger Wang Qiongjin.

Chen Xiang and Huang Jintian both came up to greet the old woman, but they were cursing her in their hearts.

"I heard that when you refined Relive Dan, you were able to produce four pellets in a single furnace. I wonder what method you used?" Wang Qiongjin asked.

felt that the situation was not good. If Wang Qiongjin forced Chen Xiang to teach him the pill refining skills, even he did not know how to end this situation.

"This is a secret." Chen Xiang said neither humbly nor arrogantly, he would not say anything more in the area of pill refining.

He Feng asked at this time: "Master Yan, my father asked me to come and ask you about the progress of the pill refining now."

"I have already refined eighty sets of medicinal ingredients and three hundred and twenty Relive Dan. I can definitely complete it by tomorrow night." Chen Xiang replied.

If it was a normal Alchemist, then it would take three hundred and twenty sets of ingredients. Even the stronger ones would need a hundred and sixty sets, and Chen Xiang was very steady, he had not failed even after concocting so many batches of ingredients, so it was the same for concocting pills. This achievement made Wang Qiongjin extremely envious.

"I can buy your Alchemy skills from the Spiritual crystal, or trade them for something else." Wang Qiongjin did not give up. At this time, her voice became stern, and released an oppressive aura, as if telling Chen Xiang that he was just a bug.

Chen Xiang frowned, He Feng's forehead was also covered in sweat.

"Even if I die, I won't tell anyone. This is what my master told me. I'm sorry." Chen Xiang's voice sank, feeling somewhat angry.

"Call your master out, I want to talk to him." Wang Qiongjin said in a cold voice: "If he sees me, he will definitely agree to make a deal with me."

Chen Xiang and Huang Jintian sneered in their hearts, with that old woman's appearance, even a drawing of a portrait hanging on the bed would be able to repel evil spirits.

"I'm also looking for my master. If you can find him, that's for the best." Chen Xiang said.

Huang Jintian was Chen Xiang's master, but Huang Jintian knew that Chen Xiang definitely had another formidable person who could guide him in refining pills.

"Who is your master?" Wang Qiongjin saw that the person in front of him was extremely stubborn, and was not afraid of her at all.

"I don't know his name either. Other than him, no one else knows either." Chen Xiang spread his hands.

"Where did he come from?" A person immediately appeared in He Feng's mind and anxiously asked.

"Devil-killing Summit." Chen Xiang said, this was what Su Meiyao had taught him.

Hearing those three words, Wang Qiongjin's face changed, he became even more gloomy and cold, then turned and left.

"You came from the Devil-killing Summit." He Feng asked in surprise.

"No, I've never been there. My master also told me not to go there." Chen Xiang said. The master he was referring to was Su Meiyao's master back then, and although no one knew his name, he was extremely famous. Even Wang Qiongjin had directly left upon hearing his name.

At this time, He Feng looked at Huang Jintian, who was behind Chen Xiang, and said with an astonished expression: "You said that this old mister was your master's relative. What relationship does he have with your master?"

Hearing He Feng's words, Wang Qiongjin immediately walked back and looked at him.

Huang Jintian said indifferently: "I am his master's cousin, I don't know how to refine pills, but I do when fighting, so don't think about it too much."

"Nonsense, how could he have a cousin?" Wang Qiongjin sneered: "You really are his cousin. You would be in this place."

Huang Jintian said: "What am I doing here, aren't you also here? Although I am not his master, if you want to touch him, you have to pass through me first."

Right now, I am even more unconvinced that he is the disciple of Devil-killing Summit. All of you must have been planning to lie to me, this brat wants to lie to me, I must capture him and bring him back for punishment.

Just as Wang Qiongjin finished speaking, Huang Jintian gave a furious shout, and a golden multicolored light spurted out from his body. The entire Villa started to tremble.

"Old Demon Girl, I'm from the Devil-killing Summit, it's normal for me to kill you with my bare hands. I didn't want to cause any trouble, but now I can't take it anymore."

Huang Jintian struck out with his palm. On the palm of his hand, there was a flashing red "Punisher" word, which emitted an incomparably powerful aura.

"Devil Slayer Palm." Wang Qiongjin was startled, and immediately dodged, but after dodging, Wang Qiongjin quickly kept his distance.

"What's going on?" The Sixth Prince flew over from afar, his face was still wearing the mask, and his voice was full of surprise.

Chen Xiang, Su Meiyao and Bai Youyou were also very shocked. Originally, they only planned to use Devil-killing Summit to deceive that Wang Qiongjin, but they never thought that Huang Jintian would really use Devil-killing Summit's ultimate skill, the Demon Destroying Palm.

"Ask this old woman. She angered us time and time again, and she even forced others to hand over their Alchemy skills. Only this kind of devil likes to do things that are forbidden from doing anything." Huang Jintian said coldly.

At this time, not only was the Sixth Prince there, a large group of people had also arrived, including Imperial Dragon Clan. At this time, the strength of this group was clear, this was something that Huang Jintian had deliberately used his Demon Punisher Palm to lure here.
