

Dan God 1321

[Chapter 1321](#)

The royal bird of the Imperial Avian Race was not weak. Chen Xiang pondered for a moment, then said: "What kind of strength does it have, I don't need poison to deal with it."

"Fine, we haven't reached the Immortal Monarch yet. As for the Late period of human immortal, you can just take out the Hammer of God. If no one comes to help, you can just get rid of him." Long Xueyi laughed: "If that doesn't work, I'll help you in the dark again."

After knowing the true strength of Late period of human immortal, Chen Xiang was relieved. He immediately rushed out from a deep ravine and took out his Hammer of God.

The royal bird immediately noticed him and immediately unleashed a palm towards his direction, releasing a burst of golden feathers. Those feathers were all golden arrows, densely packed like a storm, enveloping Chen Xiang.

"It's a Small gold eagle. It's a big profit." Long Xueyi was extremely excited: "Quickly get rid of him."

Chen Xiang was not afraid of the golden feathered sword released by the Small gold eagle, waving the Hammer of God to open up a path, when approaching the Small gold eagle, he raised his Divine Hammer, flew through space, and arrived beside the Small gold eagle, then directly struck down.

Even though this Small gold eagle looked young and immature, it had a lot of battle experience. It turned its hand and released a golden long spear, fiercely thrusting towards Chen Xiang's chest.

The divine hammer had already smashed down, and just as it was about to slam down, Chen Xiang had no choice but to evade the sudden spear attack. Although he had the protection of the profoundwu diamond armour, if he got stabbed, he would definitely be seriously injured.

"Humans are actually not from the Imperial Dragon Clan, they are wasting their strength." Although Chen Xiang's attack just now was considered quite strong, it was nothing in his eyes. In his eyes, only the Imperial Dragon Clan's Emperor Dragon was worthy to be his opponent.

"Imperial Avian Race is too arrogant, I really want to go out and teach him a lesson." Long Xueyi said angrily.

"I want to see if you can survive if you don't waste your strength." Chen Xiang smashed his hammer down once again. After knowing that his opponent had a spear, he would not fight face to face with him.

"You want to hurt me with this hammer?" The Small gold eagle's eyes slanted and waved the golden spear in its hands, sweeping it across. Although there was not a very violent fluctuation of energy, the power contained in the spear was extremely terrifying.

Chen Xiang anxiously changed his direction of attack, striking the spear head, he ruthlessly smashed it, using the strongest Dragon Power, coupled with the power of earthquake.

Bang, the hammer accurately smashed onto the spear head, causing the golden spear to shake violently. The Small gold eagle did not expect the hammer to be so powerful, it made it feel as if he was struck by a gigantic star.

"It hurts." Chen Xiang sneered, then extended his hand and grabbed the sharp spear head, causing the Small gold eagle to be stunned once again. At this time, his hand was indeed in extreme pain, he immediately grabbed the spear with his other hand, intending to pull it out of Chen Xiang's hand.

He did not expect that the tip of his spear would be grabbed in such a way, he fiercely swung his spear, wanting to cut Chen Xiang's palm apart. However, Chen Xiang's palm seemed to be made of divine iron, dragging it backwards while holding onto it tightly, he did not dare to twitch at all.

"Idiot." Chen Xiang looked at the Small gold eagle, and two red rays of light suddenly shot out from his eyes. After the red rays of light shot out, they became tens of large threads of light that penetrated the Small gold eagle's body.

"Heart Piercing Demon Eye." The Small gold eagle was shocked, he never thought that there would be such a powerful demon dweller on this battlefield that knew how to use this lost demonic technique.

The Small gold eagle had already let go of Chen Xiang's hand, because the blood vessels on his arm were pierced through by Chen Xiang's Piercing Heart Demon Eye.

"Don't let him transform." Long Xueyi shouted.

Chen Xiang kept his spear and hammered the Small gold eagle's head, using all of his power from the Three Killing Techniques, Heaven Slaughter Divine Slaughter Unity. With the addition of the Dragon Power and the Divine Hammer's impact power, the hammer strike was extremely terrifying, the sky and earth suddenly changed color, the wind and clouds surged, and the earth trembled violently.

"Go to heaven." Chen Xiang never thought that after he entered the Worldly Immortal Stage, he would be able to use all his strength. The great momentum he had created had already attracted the attention of many Immortal Kings and Immortal Monarch.

The divine hammer landed on the Small gold eagle's head, but it did not hit it so hard that its brains were splattered everywhere. This was because when the divine hammer smashed onto the Small gold eagle, the super pressure that surged out from the divine hammer had already crushed the Small gold eagle's head into powder.

"Quickly put it into the ring, the Small gold eagle after death will become very big, and when the time comes, the Great Golden Roc King will be back. That's a fellow at the Immortal King level." Long Xueyi anxiously shouted.

Chen Xiang threw the headless body into a relatively spacious area of the ring, then quickly burrowed into a crevice nearby.

Just as he left, an angry screech sounded out from within the immortal palace, shocking everyone to the point that their hearts trembled. The Golden Roc King was infuriated, some people had already guessed that his son had died.

"Who is it?" The Golden Roc King's angry roars shook the heaven and earth.

"It's you and me." At the place where he was fighting with the Small gold eagle, a group of Immortal King level Rankers suddenly appeared. Among them, there were two Bird Kings from Imperial Feather Race, and the first and second princes were also present.

"It's the Dragon Power, it seems to be the The power of the holy dragon." The first prince said.

"Imperial Dragon Clan, I'll fight it out with you." The Golden Roc King roared angrily and flew towards a place far away where the Dragon Power was thicker.

After getting rid of two Immortal Monarch, he knew that Imperial Avian Race had fallen. He cursed in his heart, "Damned brat, to think that he actually got himself a Small gold eagle. I really regret not being with him, he's really struck the jackpot."

Because the Small gold eagle had died, the Golden Roc King was furious. He killed a large group of the Sixth Prince's Immortal Monarch s and killed two Immortal Monarch Emperor Dragons. He was currently fighting a great battle with a few Immortal Kings and a Dragon King.

"It's Fire Divine Palace's turn. If I don't get rid of a few of the Fire Divine Palace's, I won't be happy even if I get rid of the Small gold eagle." Chen Xiang gritted his teeth and said: "Little Naughty Dragon, quickly help me find those fellows from Fire Divine Palace. No matter what methods you use, let them die a few core members."

"That's easy. They all have Fire Soul s and there's a huge difference between their fire auras and those without them. They really can't let the people from Fire Divine Palace off easy." Long Xueyi said.

"If necessary, just use your Magical corruption gas and Drunk god magical poison. It would be best if you can kill those at the Immortal King level when you use them." Bai Youyou said coldly.

Chen Xiang took a deep breath, swallowed a pill, and meditated in the depths of the crevice. He had indeed made a fortune by killing that Small gold eagle, but he felt that it was still not enough.

"I'll help you find those tired Immortal Fire God King. It's easier to succeed in ambushing those guys." Long Xueyi said.

[Chapter 1322](#)

Long Xueyi expanded his search for Immortal Kings in the Fire Divine Palace, but after searching for a while, he only found a few, there were not many Immortal Kings in the Fire Divine Palace, and Wang Qiongjin was one of them, the others were all stronger, and it was difficult to succeed in ambushing them.

"These Fire Divine Palace people always avoid the Immortal Kings that are stronger than them. They still have a lot of energy left, so it seems like we can only wait." Long Xueyi said.

"What about that old woman Wang Qiongjin? Even if I can't kill her, I have to make her suffer a little, or else I won't feel well." Last time, when Wang Qiongjin forced him to teach her alchemy, she made him very angry.

"Unless... Unless I join hands with you, it is possible for her to suffer a great loss with the Super Old poison. However, there are a few days of powerful Emperor Dragon Kings here, the moment my strength appears, they will discover me. " Long Xueyi pondered for a moment, then continued: "When you join hands with me and use the Super Old poison, regardless of whether or not you can kill Wang Qiongjin or not, you have to leave this place as soon as possible. I am worried that something might happen that I did not expect."

"No problem, I'll go find that old woman Wang Qiongjin right now." Chen Xiang immediately left the place and hid in the deep ravine. At the same time, the battle up there was getting more and more intense, all because of the death of the Small gold eagle. The angered Golden Roc King started killing everywhere, causing many of the Immortal Monarchs and Worldly Immortals on the side of the Sixth Prince to die.

If not for the two dragon kings from the Imperial Dragon Clan being able to stall the Golden Roc King in time, more would have died.

Chen Xiang was already thousands of metres away from Wang Qiongjin. Using the Heaven Tour, he could see clearly that Wang Qiongjin was fighting with a middle aged man.

This old lady specially found some weaker ones to fight with. Seems like she's also very afraid of death, I wonder which power she's from. Although she's an Immortal King, her level is still too low. Chen Xiang said.

"The main reason is that this old lady's flames are too strong. Even if it's the Immortal King, if her flames were to invade your body, the consequences would be very serious. As long as you stay in Heaven Realm for a period of time, you would know that you cannot touch her flames." Su Meiyao said: "It's best that you don't go and try, her kind of strange fire, until now, has no one been able to figure out what kind of flame it is."

Wang Qiongjin also knew how to refine pills, and she was also an Immortal King in the Fire Divine Palace. It was natural for her flames to be strong, but no one knew what kind of flame she had.

"It feels like it's made from the fusion of the heavenly fire and demonic fire, so it can be used for alchemy. At the same time, it has an evil aura and the color is also purplish-red." Long Xueyi said.

Chen Xiang observed Wang Qiongjin's battle. Her battlefield was considered more gentle, with not too much of a commotion. It was unlike the others who had fought until it seemed like the heavens were crumbling and the earth was cracking.

"Wang Qiongjin is really crafty, she purposely wasted time here with a not so strong Immortal King, this way she won't meet any powerful Immortal Kings, and can easily pass through this big battle herself." Chen Xiang said.

"If it wasn't for that, this old woman would probably have died a long time ago. If she had met the crazy Golden Roc King on the main battlefield just now, she most likely would have been severely wounded." Bai Youyou sneered: "Back then, he was also like this, a guy who bullies the weak and fears the strong."

Chen Xiang breathed in lightly and counted the Drunk god magical poison inside the Storage magic treasure. After confirming the quantity, he said to Long Xueyi: "Little Naughty Dragon, I'm going to make my move."

"I will lend you my power later. You should decide how to use it." Long Xueyi said.

Chen Xiang observed Wang Qiongjin's battle and said: "Alright, lend me your power."

In just a short moment, Chen Xiang felt an additional burst of power in his body, as though his body was going to explode. This was the power that Long Xueyi had lent him, he felt that although it was not Long Xueyi's full strength, it was extremely strong.

He controlled this energy to fuse with his own, and then, he urged the power of the spatial laws. In an instant, he traversed three thousand meters and arrived behind Wang Qiongjin.

The man fighting Wang Qiongjin was shocked, but he thought that Chen Xiang was definitely on his side. Otherwise, he wouldn't have ambushed Wang Qiongjin.

Wang Qiongjin immediately sensed someone from behind, she immediately turned around and unleashed a palm strike. The purple-red flame was like a poisonous snake, spitting out a snake's apricot tree as it bit towards Chen Xiang.

The fire snake had pierced through Chen Xiang's body, but Wang Qiongjin immediately discovered that it was just an illusionary shadow. The real Chen Xiang had already flashed to Wang Qiongjin's side, his hand holding onto the Devil emperor dagger.

The monstrous Demonic Qi on the dagger startled Wang Qiongjin, but what surprised her the most was the Devil-suppressing holy power, which was also exceptionally strong.

"Old woman." Chen Xiang clenched his teeth, and poured all of the condensed Magical corruption gas into the Devil emperor dagger.

The Devil emperor dagger flew out with the powerful energy that Chen Xiang poured into it. Like an arrow, it emitted a gold-red glow.

Wang Qiongjin's body immediately erupted with a strong protective demon aura, wanting to block the Devil emperor dagger, but the Devil emperor dagger itself was a terrifying demon weapon, adding the extremely strong Devil-suppressing holy power that had the ability to restrain demons, although Chen Xiang's strength was weak, he still managed to pierce through Wang Qiongjin's protective demon aura, but he only managed to pierce half of it before stopping.

"Hmph, so you were that weak ..." Wang Qiongjin saw that the dagger was blocked by her barrier, and laughed coldly, but just as she finished speaking, the Devil emperor dagger suddenly exploded, and another force hidden inside burst out, causing the colorless and tasteless Magical corruption gas and Drunk god magical poison to float out.

Her complexion was unsightly to the extreme, it was already turning slightly black. Although she had only taken in a little bit of Magical corruption gas, it was enough to take her life, she never could have predicted that someone would use a Super Old poison on this kind of battlefield.

Very quickly, she discovered that not only was there a Super Old poison, there was also a Drunk god magical poison. Someone could actually control two kinds of strange poison; it was too terrifying.

"Hurry up and leave." shouted. Just now, Chen Xiang had used a lot of power in her attack on the dagger, and her White Dragon power had already been revealed. Long Xueyi could already feel that some of the royal dragons were using their divine powers to investigate this side.

"Damned old woman, today is your last day." Just as Chen Xiang wanted to attack, he heard Wang Qiongjin's sharp shout.

"Super Old poison..." Wang Qiongjin exhausted all his strength and roared, causing many Immortal Kings to quickly rush over.

Chen Xiang waved his hand and called back the Devil emperor dagger. He ran as fast as he could and jumped into a huge crevice, leaving this place far behind.

[Chapter 1323](#)

Following Wang Qiongjin's shout, everyone stopped. The words "Super Old poison" held a lot of power, and the despair that Wang Qiongjin's voice contained just now also made people's hair stand on end. The Immortal King present more or less knew that this old woman was hard to deal with, and for her to do this, it was only Super Old poison.

Previously, Bai Ziqian was listed on the bounty because of the use of the Super Old poison. When the Devil-suppressing Divine Palace came here to kill her, she had already lost to one of the Demon Suppressing Immortal Kings, so these people knew, that now that Wang Qiongjin had been tricked, everyone immediately suspected that the Devil Scorpion Princess was here causing trouble.

More than thirty Immortal Kings were standing far away from Wang Qiongjin. Wang Qiongjin's face was currently purple and black as she laid weakly on the ground. She was only able to use the energy in her body to barely defend herself from the poison.

"It really is a Super Old poison, and it's even a rather strong one. There are quite a few of them by her side." The First Prince's face was solemn, he took out a jade box, took out a handful of crystal powder and sprinkled it towards Wang Qiongjin.

When the powder floated past, it immediately became purple black and light pink. Looking at the light pink powder, the First Prince's body trembled: "There's actually a Drunk god magical poison s These are two strange poisons, did Devil Scorpion Princess get another one? "

"It's not that slut. The one that attacked me wasn't strong, but he used a very powerful Demon Weapon and even knew how to suppress the demon's power. After breaking through my defense, he released poison gas to ambush me." Wang Qiongjin said fiercely.

The Golden Roc King coldly snorted and said, "Are you still fighting? My son has already died here. Today, we must get to a conclusion." His eyes blazed as he looked at Imperial Dragon Clan and the group of people.

"Hmph, a few dragons from our Imperial Dragon Clan also died. Your Imperial Feather Race won't be able to get away with it today." An old man from the Imperial Dragon Clan said angrily.

The Sixth Prince's expression turned cold as he took out a pill and threw it towards Wang Qiongjin: "Eat it, and you can temporarily suppress the poison. Today, we will definitely get a result of this and I also want to uncover the person who is causing trouble here."

Someone was causing trouble here, and it was a guy with a lot of tricks despite not being very strong.

"Father, you are right. Someone ambushed me earlier, using a Black blood magic sunflower and even stealing my celestial sword." He Feng said angrily.

Everyone was familiar with the Black blood magic sunflower, because the incident of the Heavenly Bull Immortal Palace's Jade Rabbit being robbed had caused the appearance of the Black blood magic sunflower.

"This person is definitely an expert poison user. My strength should be below the Immortal Monarch's, but I was able to release a sneak attack and sneak attack." He Feng said again, and then looked around at his surroundings.

One of the Immortal Kings also said: "I found a lot of dead bodies, but none of the Heavenly Pills, Storage magic treasure, or weapons could be seen. One time, I saw a figure very quickly pass by the two corpses and skillfully snatch all these things."

"When this person ambushed us, he killed two birds with one stone."

From the distant Chen Xiang, after hearing all this from him, he immediately guessed that it was Huang Jintian who did it, and he did not have that kind of ability.

Huang Jintian, who was hiding nearby, scolded in his heart: "This little brat Chen Xiang, actually used Super Old poison s, and two of them. This little bastard, even if you have this kind of good stuff, you still won't give it to me."

Chen Xiang left the 20th palace and returned to the main palace.

"It's still quiet here ..." Right, they will probably fight for a while more. If I take this opportunity and enter the main palace to loot, it might go smoothly. "

Chen Xiang's eyes lit up, a few powerful princes would be bringing a large group of experts to fight in the 20 Immortal Palaces, the defense here would definitely be much weaker.

"Let's go to the sixth shop first." Chen Xiang made up his mind that he would definitely go to the palace to take a look.

Arriving at the sixth store, Long Xueyi immediately investigated the hidden rankers. He discovered that there were only two Immortal Monarch s inside, but there were more than ten in the past.

Chen Xiang came to a place with no one around, changed into the appearance of He Feng, and then entered the sixth shop. When he entered, he was still holding He Feng's Immortal Sword, so when Manager Ma saw it, he did not doubt it at all.

"Eldest Young Master, weren't you over there? Why are you back?" When Manager Ma saw that this "He Feng" had a head full of messy hair, he knew that it must have been a huge battle.

"Quick, bring all the high level pellets here. There's an urgent need to heal the wounds and restore the Innate Qi." Chen Xiang said, his transformation technique was extremely mystical, being able to change into an Qi that was similar to He Feng's, his voice was also the same.

Seeing how anxious Chen Xiang's voice was, Manager Ma immediately ordered people to gather the High Rank Pellets from the underground Alchemy Palace.

"Now that I only have these, I don't know if it's enough." Manager Ma gave Chen Xiang a bottle of Hunyuan Dan with more than 500 pills inside, as well as a bottle of Restoration Pills for healing purposes with more than 300 pills.

"Enough." Chen Xiang knew that he shouldn't be too greedy, otherwise he would be seen through. "Just you wait, I'll be the first prince soon."

After Chen Xiang finished speaking, he left quickly. Manager Ma let out a sigh of relief.

"This Immortal Sword is really good stuff. I'll sell it off after a while." chuckled in his heart. He was very satisfied that he managed to deceive so many Heaven level Pills.

Chen Xiang continued to act like this He Feng, and sprinted all the way to the palace entrance.

The palace was located right in the middle of this main palace, surrounded by a very tall giant wall. Usually, it would be extremely difficult to enter, but now that Chen Xiang had entered it with his appearance, it was like he was strolling in the streets.

"Let's go to the place where they grow the herbs." Su Meiyao laughed, "Take everything that you can take."

Chen Xiang was excited and wished that he could run over immediately. However, that would be too suspicious. He only walked around quickly, and the problem right now was that he did not know where the medicine garden was.

"This palace is too big. It wouldn't be easy to loot it." Chen Xiang sighed helplessly, he was going to use the Heaven Tour with Long Xueyi right now to look for the place where the medicinal herbs were grown.

Long Xueyi was more familiar with this place, so she quickly got an idea.

"The last time you were concocting pills in here, you should have been in the Sixth Prince's territory, so you should go in first." Long Xueyi said.

Under Long Xueyi's guidance, Chen Xiang entered the huge villa. The ones in charge of guarding the gates were the two Immortal Monarchs, and they did not suspect him in the slightest. Because Chen Xiang had pretended to be in a hurry to enter and it was currently the middle of a huge battle, this seemed to be natural in the eyes of many.

Of course, it was mainly because Chen Xiang could imitate the Qi unique to He Feng's body, so no one would doubt him.

"This Sixth Prince is amazing. There are even a few immortal kings hidden in there. You should be careful, Keke." Long Xueyi said.

"There are still a few Immortal Kings. It's quite troublesome. I wonder if there are any Immortal Kings at the place where the medicinal herbs are planted." Chen Xiang was worried that he wouldn't be able to hide from the Immortal Kings.

[Chapter 1324](#)

The herbs in the sixty thousand shops were all of low-grade Heaven level s, which meant the Hunyuan Dan could be obtained just by having them, and the things that were grown in the Sixth Prince's residence were definitely good stuff that might even have Immortal Grade s.

"I found it. It's a valley, but there are two Immortal Kings inside." Long Xueyi said, but Chen Xiang hesitated, there were two Immortal Kings in that place, if they were to be seen, he would be in deep trouble.

"Xue Yi, take a look and see if there are any precious herbs. If there's anything worth taking risks with, go and try. Anyway, this little scoundrel didn't escape from the Immortal King's hands once or twice." Su Meiyao said.

Although Chen Xiang had escaped from the Immortal King a few times, he would still feel pressured if he went there now. However, if it was like what Su Meiyao had said, taking a risk once was not a problem with the Immortal Grade medicinal herbs that were worth taking risks.

"Send what you saw into my mind, let me see what's inside ..." Su Meiyao said as he walked toward the valley.

After a while, Su Meiyao exclaimed: "Myriad Dan Immortal Country is indeed powerful, to actually have such a thing."

Hearing Su Meiyao's words, Chen Xiang was sure that he had to enter that valley.

"What's that?" Chen Xiang asked anxiously.

"The Tianshan holy fruit Tree has already formed a Tianshan holy fruit above. That is the Holy level's medicinal herb." Su Meiyao said excitedly: "One of the main ingredients to concoct that pill."

In order for Su Meiyao and Bai Youyou to recover their strength, they had to eat that type of Holy Pellet, the main ingredients required were all Holy level s, and there were already Jade Dragon Flower, Blood ginseng, and Holy Lotus Seeds. Chen Xiang did not know how much more he would need, but if he could get it now, he would definitely try his best to get ahold of it.

"There are still some immortal fruits inside, but they are far worse than the Tianshan holy fruit. After you enter, your main target will be the Tianshan holy fruit, so don't worry about anything else to prevent yourself from being suspected." Su Meiyao warned.

The one guarding the door was a Immortal Monarch, he didn't ask much, and let Chen Xiang in. The eldest son of the Sixth Prince, He Feng, who had once annihilated a Demon Palace, was a very respectable person in the eyes of many Immortal Monarch. If the Sixth Prince could become the new King, then He Feng might become the future King.

Chen Xiang enjoyed this feeling a lot, but his main goal was the Tianshan holy fruit. In the future, when he becomes a very powerful Alchemist, even the Immortal Country King would have to be respectful to him.

"Little Feng, aren't we fighting in the 20th palace right now? Why are you back?"

An old man with a long white beard slowly floated in front of Chen Xiang, and at this moment, Chen Xiang saw that the valley was filled with many precious herbs that made people drool, it was as if Long Xueyi had ran out and eaten everything.

"You said you were poisoned, and you wanted the Tianshan holy fruit to detoxify it. This kind of fruit is indeed useful for detoxifying poisons, especially the Super Old poison." Su Meiyao said.

Chen Xiang sighed: "I've been infected with the Super Old poison, right now I'm only using the power in my body to suppress the spread of the poison."

Hearing the Magical corruption gas, the old man immediately retreated a few steps, this was something many people would do, he frowned and said: "I want to look at your blood."

At this time, another Immortal King appeared. It was a very short old man, and he said: "If the poison is too deep, we can only use Tianshan holy fruit. Let's first see your blood, and see to what extent you can suppress the spread of the poison."

To Chen Xiang, this was nothing at all. He took out a jade bowl, then took out He Feng's immortal sword, cut open his finger and squeezed out a few drops of purplish black poisonous blood.

If not for the fact that your own Innate Qi was powerful enough to suppress this strange poison, I'm afraid that you would have died a long time ago.

The short elder sighed with a look of reluctance on his face. However, he still flew towards the snow-jade-like tree. There was a silver-white fruit on it, and it looked like it was only the size of an egg.

"I never thought that a Magical corruption gas would appear. We had already heard that people from the Devil-suppressing Divine Palace were chasing after the Devil Scorpion Princess, and they were even chasing after him at twenty palaces. We never thought that she would actually use poison on you." The long-bearded old man said.

"Who asked me to destroy a Demon Palace last time. Maybe the Devil Scorpion Princess has a grudge against me, and he doesn't want me to die too quickly. She's very strong, and it's a sneak attack as well, I can't guard against it." Chen Xiang said while pretending to be angry.

"Wait until your father calls her king. When that happens, you have to place a bounty on her." The long-bearded old man patted Chen Xiang's shoulder.

The short elder took the Tianshan holy fruit and gave it to Chen Xiang.

When Chen Xiang received it, he was extremely excited, and he tried his best to control his emotions to calm down.

"I will return now and go into seclusion to refine this holy fruit. By the time I come out, my royal father should have already become the new king." After Chen Xiang finished speaking, he kept the holy fruit and bowed to the two elders. He did not dare say anything else as he was worried that he would become a spy.

Chen Xiang walked out of the valley and almost sprinted towards the palace's gate. Although he had obtained the Tianshan holy fruit, he was still in the palace.

"Quickly, those two old fellows took out the jade talismans and sent a message. I wonder who they were sending a message to. If it was the Sixth Prince, you would definitely have been discovered." Long Xueyi suddenly urged Chen Xiang to speed up.

Chen Xiang had already arrived at the gate, but he saw the two Immortal Monarchs at the gate take out trembling jade talismans.

Chen Xiang immediately ran out of the door, and the two Immortal Monarchs did not stop him, because they did not see the information inside the jade token. However, when they saw it, their expressions became ugly, and he immediately looked outside the door, where Chen Xiang had long disappeared.

"Haha, it's here! This group of idiots were fighting to the death in the 20 palaces, yet their own lair was raided by me."

Chen Xiang laughed in his heart, at that moment he had already reached the exit, but just as he was about to exit, the door suddenly closed.

"The use of Transmission array is also prohibited." Chen Xiang looked in the direction of the Transmission array, and saw many people complaining.

"That's for sure. The matter of losing the Holy level's medicinal ingredients is extremely serious, so this kind of action is normal." Su Meiyao laughed tenderly: "It's fine to stay here for a few more days, since they can't find you. If I'm lucky, I might be able to see He Feng's flustered look."

Chen Xiang did not know what the battle situation was like right now, nor did he want to understand. What he cared more about was the outcome, and to see who would become the new King of the Myriad Dan Immortal Country in the end.

"I wonder how teacher is doing, this old lunatic is so strong, he must have gotten quite a bit of benefits." From the window of Chen Xiang's hotel room, he could see the door of the number 6 shop in the distance. At this moment, the main street had already been sealed and the shop's big doors were also tightly shut.

[Chapter 1325](#)

Chen Xiang was lying on his bed, when he suddenly heard loud yelling. He opened his eyes and looked out the window, it was already late at night, but it was so lively outside, he immediately guessed that the battle was over, and there was already a conclusion.

Sure enough, shouts came from outside. It was all from the direction of the sixth shop, and Chen Xiang knew that the Sixth Prince had obtained victory right away.

"If the Sixth Prince is pretty powerful, he could successfully ascend the throne against six others. The princes who lost can no longer stay in the main palace, they can only stay in some of the nearby immortal palaces." Su Meiyao said.

"Even if he won, he still stirred up a lot of hatred, at least the Golden Roc King of Imperial Avian Race would hate him." chuckled, he had not touched the Small gold eagle's corpse yet, so now was not the right time, and this place was not suitable either.

"Actually, you're also a big winner." Su Meiyao laughed.

Chen Xiang swindled the Sixth Prince's Tianshan holy fruit away and obtained He Feng's Immortal Sword. He killed a Small gold eagle and indeed, his harvest was plentiful.

Right now, he really wanted to leave this main palace, but the matter of the Tianshan holy fruit being swindled away had caused this place to be sealed.

"There should be a lot of people leaving the Main Palace right now. For example, those big powers that have come to participate in the battle. If the blockade is too long, then the sixth prince will just become the new king, which will arouse many people's disgust." Su Meiyao said.

After Chen Xiang obtained the Tianshan holy fruit and a Small gold eagle, he wanted to quickly find a safe place to look around. Only by leaving this Ten Thousand Pills Palace would it be safe.

In a magnificent palace, many immortal king level experts were gathered here. Even though they had obtained the final victory, they were not very happy because they had suffered heavy losses.

Wang Qiongjin's face turned ugly, she could be said to have taken back her life, but she was unable to use all of her strength in this short period of time, it was already not bad that she could still walk.

The faces of the Imperial Dragon Clan's Dragon Kings were heavy. Out of the few little Emperor Dragon that they had brought with them, a few had died, and two of them were unknown.

The Sixth Prince's brows were knitted tightly as he listened to the reports from the two Immortal Kings protecting the medicinal garden in the valley. Everyone was also carefully listening to the two Immortal Kings' narration of the Tianshan holy fruit being swindled away.

He Feng's expression was the ugliest, because that person was pretending to be him. Not only did that person swindle the Tianshan holy fruit away, he even swindled some Heaven level Pills from the sixth shop.

"Who exactly is this person? What we can be sure of is that this person is the one who used the Magical corruption gas, ambushed Feng'er, and used poison to attack Hall Master Wang." An old man said.

"This guy isn't very strong, he might just have just entered the Immortal Monarch, but he has countless of tricks up his sleeve, and is also very cunning." He Feng said angrily: "We must find this guy."

The Imperial Dragon Clan Dragon Kings gave a similar look. One of the middle-aged men said, "I think this guy might not be human ... It was a dragon, a white dragon that had not appeared in our Imperial Dragon Clan for many years. At that time, we could sense a very weak white dragon aura. "

"Furthermore, what he is using is not the appearance changing technique, but the sacred art, the transformation technique from our Imperial Dragon Clan. This kind of high level cultivation technique is not something that just anyone can learn. For example, we cannot master it."

The experts here more or less knew about the affairs of the Imperial Dragon Clan.

"It is said that the White Dragon is extinct in your Imperial Dragon Clan, and only existed in the Primal Era. That means this White Dragon should be considered to be from your Imperial Dragon Clan. " An Immortal King of Fire Divine Palace said.

Back then, the White Dragon Clan was expelled by the Imperial Dragon Clan. The White Dragon Clan was not willing to accept this and went back to Imperial Dragon Clan to fight. A huge battle broke out, at that time, all the old dragons in the Imperial Dragon Clan were dispatched, and all the White Dragons were annihilated. When the Dragon King said this, everyone understood that if Bai Long was still alive, then he would definitely be filled with hatred and would be opposing the Imperial Dragon Clan.

Wang Qiongjin said in a cold voice, "But the fellow who attacked me, he grasped an extremely strong power to suppress devils as well as the power of devils. Of course there are Dragon Powers as well, so how can you explain this?"

The Dragon King sighed, "That's even more certain, that's the White Dragon. What's amazing about the White Dragon is that they can cultivate many types of powers without conflict. The White Dragon is like a huge piece of white paper that can be painted with all kinds of colors ..."

The Sixth Prince realized that although this unknown enemy was weak, it was very difficult to deal with. "If that's the case, I'm afraid there's no need to seal off the entire immortal palace, we simply can't find him."

"The White Dragon possesses a lot of memories and inheritances, and one of the Ancestral Dragons has a White Dragon, but it's actually quite strong. Because the White Dragon can control a lot of different types of powers, the White Dragon possesses a lot of different kinds of techniques and methods, not to mention capturing it, it would be hard to find it even if you wanted to." The Dragon King said.

At this moment, the faces of these royals were grave. Everyone could guess that they were worried that the white dragon would grow, and then seek revenge.

Long Xueyi was indeed very powerful, growing up very quickly. She had mastered many abilities, and her origins were also very mysterious. At this moment, she was humming a song, fantasizing about eating bird meat ...

"The blockade has been lifted." At daybreak, Chen Xiang heard someone shouting outside the window.

"Hurry up and go eat the bird meat. I can't wait any longer and will come back after eating. The new king's position will definitely be very lively." The corpse of the Small gold eagle was frozen inside the ring, but she did not move, because she did not know how to bake. Even if she wanted to, it would not be as delicious as Chen Xiang's bake, she was worried that it would be wasted.

Chen Xiang also wanted to quickly try it, so he immediately left the hotel and walked towards the Transmission array. On the way, he heard many people talking about things that he was more concerned about, such as how people used Magical corruption gases during the great battle, causing Wang Qiongjin to be half-dead. However, no one knew who used Magical corruption gases.

Devil-suppressing Divine Palace paid more attention to this matter. He immediately posted their bounty with a high bounty related clues.

At this time, Chen Xiang had become a young man with a common face. Passing by the Myriad Dan Building, he unintentionally raised his head to look at the third floor, and thought about the mysterious Elder Uncle Li. What made him surprised was, he saw the Elder Uncle Li standing next to a window on the third floor.

Elder Uncle Li had a smile on his face, as if he was looking at him.

"This old guy is very secretive. It seems like he saw through my transformation technique and even discovered me." Chen Xiang felt a burst of fear, then anxiously walked toward the Transmission array.

"He doesn't seem to have any ill intentions. Let's have a private chat and see what his background is." Long Xueyi said.

Chen Xiang stood in front of the Transmission array and asked Long Xueyi where they should go.

"Let's go to the Flying Snow Palace. It's quieter there, and it's snowing all year round, so it's very suitable for eating barbecue." Su Meiyao chuckled, "When the time comes, we can find a safe ice valley and eat together with you."

[Chapter 1326](#)

"Really." Chen Xiang was overjoyed. Then, he told the manager of the Transmission array that he would be teleported to the Flying Snow Palace. There was only one person here who wanted to go to this palace, so the price was very expensive.

Chen Xiang left the busy city and headed towards the desolate plains of the palace. He traveled through a large group of tall and big snow mountains and ran wildly as he pleased.

At the bottom of the ravine was a pond, and right now, Chen Xiang was at the edge of the pond. A fire was rising, and he was currently roasting the Golden Roc meat.

Long Xueyi had already run out of the ring. She was originally wearing a snow-white dress, but she had already taken it off and changed into a light one. She rolled up her sleeves and held the roasted meat in her hands.

It was rare for Su Meiyao and Bai Youyou to come out, although Chen Xiang could always chat with the two girls, he rarely saw them. At this time, seeing this pair of beautiful and delicate woman wearing luxurious clothes appeared made him a little dazed.

Bai Youyou appeared to be extremely cautious, holding onto a plate that was filled with meat that Chen Xiang had cut up. She placed it in her mouth as she watched her surroundings, but Su Meiyao had a charming smile on her face as she ate, while looking at Chen Xiang with her mesmerizing eyes, and chattering continuously with him, occasionally teasing him with her charming eyes.

"That Small gold eagle is not small, it's enough for us to eat for a while. Right now, we are only eating the flesh of a big wing." Long Xueyi's mouth was full of meat, and a little bit of meat juice was stuck on his mouth and face, making both Chen Xiang and Su Meiyao laugh.

Bai Youyou and Su Meiyao sat beside Chen Xiang. In the beginning, it was Chen Xiang who sliced their flesh, but at the end, it was them who helped Chen Xiang and Long Xueyi to enjoy the Golden Roc feast.

"Sister You You You, you still have gravy on your mouth? Quickly let this little scoundrel lick it for you. Don't waste it." When Long Xueyi saw it, he giggled.

Chen Xiang really wanted to go over and kiss Bai Youyou's small mouth that was covered in meat juice, but he didn't dare.

Bai Youyou licked her lips, rolled her eyes, and said softly: "No need."

"Senior Sister, I never thought that we would be able to eat Golden Roc meat in our lifetime. Back then, Master always brought this matter up on his lips." Su Meiyao laughed.

"Mmm, the Golden Roc meat is really good, but it's missing something." Bai Youyou faintly smiled, and then looked towards Chen Xiang.

"Something's missing." Chen Xiang frowned and asked.

"There's less to drink." Long Xueyi called out, then took out a jug of wine, and poured out a few cups of water that emitted a sweet fragrance. Chen Xiang didn't know where she got this water from, but after drinking it for a while, he still wanted to drink it again, but this little dragon treated it like a treasure, and only gave him half a cup.

"It should be about now. I should go to the Myriad Dan Immortal Country to take a look. The new King's position is very lively." Su Meiyao said.

Bai Youyou and Su Meiyao's eyes were filled with reluctance. To be able to return to the Heaven Realm from their new life and to eat and chat while reminiscing about the past had made them extremely happy in their hearts, but they were soon going to return to the ring. Right now, they were looking forward to such a simple life, and it was the easiest for many people.

Chen Xiang flew out of the ravine, and madly ran amidst the flying snowflakes, filled with worry. He really wanted Su Meiyao and Bai Youyou to walk out of the ring without being worried at all.

"There will be a day." Chen Xiang told himself.

The main immortal palace of the Myriad Dan Immortal Country was currently gathered with people from all over the place, and the majority of them were Alchemist. As the new king, most of the activities would be in favor of the Alchemist, and in the eyes of many of the Alchemist, this was also a gathering of the Alchemist.

Once Chen Xiang returned, he immediately went to the Myriad Dan Building. Here, he would quickly learn some good things about the Alchemist.

As expected, the Elder Uncle Li was here. Chen Xiang had also changed his appearance, but when he arrived, the Elder Uncle Li opened his eyes slightly, looked at him for a bit, and then closed his eyes.

There were only a few idle people who surrounded Elder Uncle Li's pill refining stalls. This was because Elder Uncle Li's pill refining skills were extremely brilliant. Those who were watching him wanted to learn something from him, or comprehend something.

"Elder Uncle Li, can you help me refine a batch of pills?" Chen Xiang immediately asked as soon as he arrived at the side. Everyone looked at him strangely, because asking others to help him concoct pills was extremely rude.

"Sure." The people from Elder Uncle Li were also surprised.

Chen Xiang smiled faintly as he took out a portion of Relive Dan's medicinal ingredients and passed it over. Elder Uncle Li himself took out a few supplementary medicinal ingredients and threw them into the furnace.

Elder Uncle Li refining the Relive Dan was also very fast, everyone knew that. Not long after Chen Xiang opened the furnace, Elder Uncle Li only had one Relive Dan.

When Chen Xiang received the Relive Dan, he felt something inside, and turned around to leave after receiving it. He originally wanted to use his divine sense to talk to the Elder Uncle Li, but the Elder Uncle Li did not respond to him.

"No wonder he was only able to cultivate one pellet. The peak level of a Elder Uncle Li should be three." One of them said as he watched Chen Xiang leave.

Chen Xiang brought the Relive Dan to the first floor. He was not in a hurry to see what was inside, because he heard about the palace selection competition as well as the pill refining competition.

What was worth noting was that this pill refining competition was not as simple as just a competition, but also a challenge from the Myriad Dan Immortal Country to the fused Sacred Dan Realm.

When the time comes, the competition would be split into three parts, one representing the Sacred Dan Realm, the other representing the Myriad Dan Immortal Country, and then there would be an individual or a representative representing their own forces participating.

"If it's a challenge to the Sacred Dan Realm, the rewards will definitely be very rich, I wonder what the rewards will be like." Chen Xiang was very much looking forward to this, he planned to join in the fun.

"I might even meet someone I know." Chen Xiang walked out of the Myriad Dan Building, and then, he crushed the Relive Dan Elder Uncle Li had refined for him. He saw that there was actually a small slip of paper hidden inside.

"Late at night. Wu She Mountain." There were only these few words on it.

[Chapter 1327](#)

Chen Xiang didn't know where the Five Snake Mountain was, but after asking around, he knew that it was not too far away from the main palace's center, and there was a mountain there that looked like five snakes coiling together.

It was only dark now, but Chen Xiang had already arrived at Five Snake Mountain, waiting for the Elder Uncle Li to arrive. Before he came, he had already asked about the Elder Uncle Li and only knew that the Elder Uncle Li had suddenly appeared, without any background and without any strength, but his pill refining skills were extremely brilliant. Even though he was just staying at the third floor to help the people concoct the Ground level pills, many people thought that he was a Dan Immortal.

He had been in that Myriad Dan Building for more than ten years, and during this period of time, many great powers had tried to rope him in, but none of them succeeded.

Late at night, the silver moonlight shone down onto the Five Snake Mountain's summit. Chen Xiang was lying on a flat rock, bathing in the moonlight as he admired the dazzling stars in the sky. The stars here were exactly the same as the one he saw when he was at Di Tian's place.

"Dragon Subduing School, I'm guessing you're very early."

These words caused Chen Xiang to jump in fright, but at the same time, caused him to become cautious.

"You know me." Chen Xiang's face was filled with caution as his entire body tensed up as if he was about to face a great enemy.

If I had any ill intentions towards you, I would not have arranged to meet you here. However, we should be considered to be on the same side, and my disciple is living a good life in your Dragon Subduing School. The Elder Uncle Li laughed.

Chen Xiang was startled, then exclaimed: "You are Li Tianjun."

Back then, when he was still in Mortal Martial Realm, his name was very resounding, and Li Baojun was his disciple. However, later on, he heard that Li Tianjun lost to an old granny and had nothing left to lose.

"How did you recognize me? I managed to deceive many powerful people." Chen Xiang was still wary.

"I don't know what that feeling is, but it's because of the experience I gained from refining pills. As long as you get near, I will feel that wonderful feeling, and it's hard to say for sure. I heard my disciple talk about you, so I guessed that it was very possible that it was you." When Li Tianjun mentioned this matter, his face was also at a loss, he himself did not know what was going on.

"Maybe it's because the alchemy dao you walked in was different from mine, but your goal is the same, so I have this feeling."

"When did the Elder Li tell you about me?" Chen Xiang asked: "Are you still able to contact him?"

The information here is very difficult to transmit. At that time, he had mentioned to me about your unique method of refining pills, so the last time you were refining the Relive Dan, I already knew that it was you. "" What method? Li Tianjun said.

Now that Chen Xiang saw his old appearance, of course it was not his original appearance.

"I'm just curious as to why you are not staying in the palace at all. Weren't you staying in the sixth shop very well in the beginning, then why did you come out again? I even heard that you came from the Devil-killing Summit." Li Tianjun asked curiously.

"That Sixth Prince is not a good person, so I ran away." Chen Xiang sighed: "Now that he is the King, I have to be more careful."

Li Tianjun obviously did not know about the other things he had done here.

"Senior Li, why are you here as well? I heard that you lost to a fellow called Bi Xia Dan Immortal." Chen Xiang asked, not afraid of the pain of stabbing Li Tianjun, because Li Baojun had said that he, his master, was very easy to get along with.

Li Tianjun shook his head and laughed: "There's nothing I can do, I'm also a human. There will always be a time when I lose, I have to say that Bi Xia Dan Immortal is really powerful, I was too arrogant back then, but it was a good thing for me, I grew up a lot."

"It's good to meet someone I know here, even though it's our first time meeting." Li Tianjun patted Chen Xiang's shoulder and laughed.

"Senior Li, to be honest, I have to thank you. Although I've never met you before, the medicinal fields you left behind are of great help to me." Chen Xiang said with a solemn face.

"You're welcome. The things I left behind are useless to me." Li Tianjun looked at the busy city in the distance: "It's just that I never thought that a guy like you would actually have such great abilities, and walk a different path."

"I can teach you that pill refining technique." Chen Xiang immediately said.

"There's no need. I also want to try and see if I can break through that rigid rule and walk my own path. That will give me a bit more of a sense of accomplishment." Li Tianjun smiled in relief.

This made Chen Xiang admire him even more.

"Before long, Bi Xia Dan Immortal will come here. At that time, we might be able to fight against her again." Li Tianjun sighed softly.

"Oh, could it be that this is a competition organized by the new King? When the time comes, I will also be participating." Chen Xiang said: "I'm going to take the prize. This new king shouldn't be too stingy."

Li Tianjun laughed: "He Peiqing has always been generous with his rewards, the prizes will definitely be good stuff, but at that time, the ones who can last until the end will all be at Dan Immortal's level, and the specifics will depend on the competition rules."

"Isn't this competition supposed to be a show of power for all Alchemist?" Chen Xiang frowned.

"That's true, but anyone can participate. When the time comes, all the Alchemist s will be allowed to participate, but the pill refining level of the Dan Immortal will definitely be much higher than the other Alchemist s. In the layers of the competition, I'm afraid only the Alchemist would be able to stand out." Li Tianjun said: "But if it's you, then maybe you can break out of this situation."

Furthermore, this Li Tianjun would also want to participate. Although he had used the Heavenly Alchemy to walk on a different path of pill dao, he was still too young.

It can be said that it's a contest between Alchemist s and Alchemist s of the entire Myriad Dan Immortal Country. However, at that time, I won't be able to represent Myriad Dan Immortal Country, and would be able to defeat both Sacred Dan Realm s in one fell swoop. That would be more interesting. " Li Tianjun smiled, his eyes full of ambition as he looked into the distance.

Chen Xiang slightly clenched his fists, and laughed: "If I could defeat a large group of Dan Immortal, it would be even more interesting."

Li Tianjun looked at Chen Xiang and laughed: "I look forward to it."

But come to think of it, you don't need to take first place, as long as you can make it to the last place, it will be enough to slap those Dan Immortal's face. But you have to be careful, don't expose your identity. Li Tianjun's face became serious.

[Chapter 1328](#)

He did not have any good impressions of this Dragon Emperor, and it could be said that he had a lot of hatred towards him. If the Dragon Emperor knew the true cause of his own son's death, then Chen Xiang would not be at ease right now.

"What does a fellow like the Dragon Emperor want to do here, isn't that too disrespectful?" Chen Xiang obviously did not wish for such a powerful Ranker to come here, at that time, he would also be participating.

"I am only guessing, but this competition is not a joke. It is very meaningful for Sacred Dan Realm and Myriad Dan Immortal Country, or the entire Heaven Realm." Li Tianjun said.

"It's going to start in a few days. Go and prepare." Li Tianjun patted Chen Xiang's shoulder.

"A few more days." Chen Xiang did not expect it to be so fast, he felt that there was at least another month left. "If it was so quick, then many people would not have had the time to prepare."

"This match was originally not held for a lot of people." Li Tianjun laughed, then leaped down from the mountain peak and flew into the distance, disappearing into the night sky.

Chen Xiang stared at his disappearing figure in a daze. Only a few days had passed, and he didn't know if he would be able to achieve an outstanding result in this kind of competition. Even a powerful Dan Immortal like Li Tianjun had come to participate, and at that time, there would be even a Bi Xia Dan Immortal like him.

For such a large scale competition, we would not fight to refine immortal pellets. Usually, we would fight in private, because that would require a lot of time, at most, it would be a high grade Heaven level pellet, but it is too late for you, not to mention a high grade Heaven level, even a middle grade Heaven level would be difficult for you. Su Meiyao said.

"I hope the rules will be a bit more fair to Alchemist of my level." Of course, Chen Xiang wouldn't place his hopes on the rules. In the next few days, he first went to register, and then concocted a batch of Relive Dan s on the spot to gain the right to participate.

The last time he turned into He Feng, he went to the sixth shop and swindled a bottle of low-grade Heaven level healing pellet. This kind of pellet was sold for more than Hunyuan Dan, and the healing effect was many times better than Relive Dan's, moreover, the refining difficulty was higher, and the materials were not easy to grow. Thus, when Chen Xiang bought the ingredients for the Origin Restoring Pellet, he felt pained.

"Fortunately, we only have one set of main medicinal ingredients. If we use the God purification, we can consider it as having completed half of the mission as long as we settle this Baiyuan fruit. This is yet another new challenge."

Chen Xiang rented a pill refining room, it was the first prince's property and although seizing the throne failed, their business here would not be affected.

"Aren't you going to refine that Sacred animal Dan first?" Long Xueyi asked softly. Chen Xiang already had the Sacred animal fruit, but he had never refined it.

"Don't worry, the difficulty in refining this Sacred animal Dan is not high. If I can concoct this Yuan Dan, the Sacred animal fruit would not be too difficult." Chen Xiang removed some of the impurities from the Baiyuan fruit and placed them on his palm, releasing the Five elements heavenly fire.

His current flames were much stronger than before, and he could even release the Rainbow Heaven Flame. However, that would consume a lot of energy, and even with Five elements heavenly fire, the consumption rate of his Innate Qi was extremely fast.

"Looks like the Five elements heavenly fire are not that useful either. I'll have to use the Heaven Flames." Chen Xiang fused the five elements of a Five elements heavenly fire together.

The spirit of the Baiyuan fruit had to have a strong mental attack and strong flames in order to make it submit and then refine it bit by bit.

Although the Heaven Flames of the Heaven and Earth were powerful, they consumed a lot of energy. After using it for three to four hours in a row, most of his Innate Qi was exhausted, so right now he could only use the Heaven Flames and the Five elements heavenly fire back and forth.

"I still can't do it. It seems that the medicinal spirits of every single medicinal herb are very different." Chen Xiang sighed in his heart. The Baiyuan fruit on his palm had already been burnt to a red iron state.

The Hunyuan Dan was also a low-grade Heaven level pill, but when he had just started refining it, his progress had been rather smooth, but this Baiyuan fruit made him feel like he was blocked by a threshold that was difficult to buy.

"It's only a Baiyuan fruit. Even if it's the Foreseeing Alchemy, it's inevitable that it will fail the first time." Su Meiyao said.

"Different from the Foreseeing Alchemy, although using it is complicated, I still feel that it will succeed sooner or later. But now that I am using the God purification, I feel a sense of powerlessness, and that it will be very difficult to refine this Baiyuan fruit." Although Chen Xiang said that, he still took out a Baiyuan fruit.

These high-grade herbs had a very special ability to protect themselves. If one wanted to cut them into pieces, it was a relatively simple matter. But because of this, they had destroyed the complete nature of these herbs, causing the energy within to be lost.

However, the medicine spirits of these medicinal ingredients would not allow you to do it so easily. They would resist, so when using flames to deal with these medicinal ingredients, it would become extremely difficult. If one was even the slightest bit careless, they would cause these medicinal ingredients to self-destruct.

The Foreseeing Alchemy could predict the internal changes of the spirit medicine, and could correct the temperature of the flame as well as some small mistakes in various aspects. It could prevent the spirit medicine from destroying itself, and then slowly burn it.

However, the God purification that Chen Xiang was currently using, wanted to refine it all. This required a strong flame as well as a strong mental energy to attack the spirit within the spirit medicine, making it unable to resist.

The problem Chen Xiang was facing right now was that it was very difficult to deal with those spirits.

He consecutively failed four times, but on the fifth time, he finally broke through to a point where he could save a little bit of the medicinal powder. However, he no longer had any extra Baiyuan fruit, so he could only get Su Meiyao to copy some of them using the creation divine liquid inside the ring.

Chen Xiang rested for four hours, then he refined the Baiyuan fruit once again. This time, he opened his eyes and looked at the Baiyuan fruit on his palm.

From the start of the competition, it was only one day before Chen Xiang walked out of the refining room. He had already lost more than ten Baiyuan fruit s, but this did not affect his enthusiasm for participating in the competition.

When Chen Xiang, who had been staying in the pill refining room, came out, he heard many shocking news, such as that the new generation genius, Heavenly Immortal Li Tianjun, would participate in the competition, and his old rival, the Bi Xia Dan Immortal, would also be participating. Other than that, many other famous Dan Immortal s had already come, and these Dan Immortal were all the pillars of their power.

Although the Dan Immortal s were not very famous, no one dared to look down on them. It was said that there were still Seventh Rank Dan Immortal s in the Sacred Dan Realm s, but they did not participate in the competition.

"I never thought that even the Long Family of the Sacred Dan Realm would come. The one participating in the competition is a fifth grade Dan Immortal. The four great families of the Sacred Dan Realm should be the opponents that the Myriad Dan Immortal Country values the most."

Hearing the words of an old Alchemist, Chen Xiang's heart was moved. If the Long family was here, then Long Huishan, the Female Dragon King, would also be present.

[Chapter 1329](#)

"I wonder if Xiao Ling has followed them over. If He Feng found out that Xiao Ling was following Big Sis Long, there might be some trouble." Chen Xiang touched his chin as he walked towards Myriad Dan Building.

The Myriad Dan Building was now even more lively, and there were even more Alchemist s. Chen Xiang walked around and was not able to find Li Tianjun, so he left a little disappointed, but just as he walked out of the main gate of Myriad Dan Building, he saw an old acquaintance.

Du Hai, Du Hai is a third grade Dan Immortal. At this time, he was following a few old men, chatting and laughing as he walked into the Myriad Dan Building.

This made Chen Xiang think of Du Yanyao. Du Yanyao was also a female Alchemist, but she did not follow him.

"I wonder if that lass Xiangyue and Qianqian will come." Chen Xiang did not go and recognize Du Hai. His identity could not be revealed easily, otherwise the effects would be great, and he might not be able to participate in the tournament. Furthermore, he would be surrounded and killed by a large group of powerful forces.

Chen Xiang came to a shop that was opened here by the Divine Saber Immortal Palace, which specializes in selling magical equipment and immortal equipment. The Divine Saber Immortal Palace was a refining power, so the things that were refined there were pretty good.

He had come here to pick out the pill furnaces, because he had heard that the pill furnaces used in the competition were all brought personally by himself, so he could not use the Yanlong furnace anymore, because there were too many people in Heaven Realm that could be found easily.

"Buying a lower grade immortal pill furnace is enough, the main thing is that it can withstand heat and is sturdy." Su Meiyao warned him, she also did not recommend Chen Xiang to use the Yanlong furnace s to compete, it was the Holy level Dragon Equipment Pill Furnace.

"I can't afford it, it's too expensive." Chen Xiang had seen quite a few, all of them had to have at least ten million Spiritual crystal.

"This little brother, from the looks of it, you seem to be a bit short on money. What kind of pill furnace do you need? What rank?" The shopkeeper saw that Chen Xiang was frowning and shook his head with a sigh, so he asked while laughing.

"I want a low grade immortal pill furnace, but it's too expensive, I only have 6 million Spiritual crystal." Chen Xiang said honestly. The thousand Spiritual crystal that he had previously won had been used up after just a few teleports.

"This is indeed a bit difficult. If you don't mind using old ones, there's one that's more suitable. It has a proper origin, so it won't bring you any trouble." The shopkeeper thought for a moment and took out a gray pill furnace that was about half the height of a person and had a appearance similar to a water jar.

The appearance was very rough, with the appearance of a water tank. It was round and fat, and if one did not look carefully at the entrance to the fire below, one would see that it was clearly a water tank.

Chen Xiang opened the lid, looked inside and knocked it. He was quite satisfied with the materials, they were also low grade immortal equipment and the high grade materials were abundant, the array formations carved inside were all very good, just that their appearances were a little hard to accept.

"The person who created this pill furnace should have a rich experience in refining. However, why did he create such a shape?" Chen Xiang frowned.

"Good eye, this really is the work of a master, it's only six million Spiritual crystal, how about it?" The shopkeeper said with a smile.

Su Meiyao said: "Other than its poor appearance, everything else is pretty good, let's push down the price."

Chen Xiang had the same thought, he said: "4 million Spiritual crystal, this pill furnace looks quite new, but I can see that it has been sold for more than 10 people's hands, and their appearance is not beautiful, if you keep it, it would be difficult for it to be sold."

The shopkeeper looked around, and lowered his voice: "Young man, this pill furnace is from the Devil-killing Summit I won't lie to you, there is a small immortal formation that only the people of Devil-

killing Summit can draw, it's called the Seven Stars Sky Fire Formation. When refining pills, it absorbs the power of the stars, strengthening the flame. "

"It is indeed the Devil-killing Summit's Small Immortal Array. Only a small portion of people in the Devil-killing Summit would know about it. I don't understand it at all." Su Meiyao was also surprised.

Chen Xiang said in a low voice: "You were saying earlier that it was a proper place, what kind of place is the Devil-killing Summit? If the enemies of the Devil-killing Summit were to find out that I am using this pill furnace, then I would be in deep trouble.

"Don't worry, we will give you a proof that the Divine Saber Immortal Palace sold it, it has nothing to do with you." The storekeeper hastily smiled apologetically.

"About 4 million Spiritual crystal. I really don't have enough money on me. Besides, you should be able to tell that I'm going to participate in the competition. At that time, I might need some Spiritual crystal to help me circulate my wealth." Chen Xiang said.

"Four million five hundred thousand Spiritual crystal, each to take a step back." The manager sighed.

"Forget it, I'll buy it. The proof I got has to be reasonable. Otherwise, if I want to buy this pill furnace, it would be equivalent to buying a lethal weapon." Chen Xiang warned the shopkeeper repeatedly.

After Chen Xiang came out of the shop, his face was filled with smiles because he felt that the pill furnace was not bad. Although it couldn't compare to his Yanlong furnace, it wouldn't be too bad if he used it to compete in competitions. This pill furnace also had a good name, called the Seven Stars Treasure Furnace, which was slightly stronger than the Yanlong furnace.

"Go to the registration place and see what kind of powerful Alchemist are there." Chen Xiang came to a palace not too far away from the palace. This was the Myriad Dan Immortal Palace, every floor was as large as a plaza and as tall as fifty floors, and a portion of the floors below were for spectators. This Immortal Palace was usually used for large scale competitions and auctions.

Chen Xiang walked in, looked around, and noticed that there were some Qi coming out from some of the VIP rooms, he knew that when the time came, those strong warriors would hide inside the private rooms to watch the competition.

The competition grounds in the middle was extremely huge, and there were seats placed everywhere, surrounded by many floors. There were a lot of people who could do it, and Chen Xiang guessed that they would definitely have to charge a lot of entrance fees when the time came.

"of Divine Wind and Immortal Country of Bai Hai are actually fighting. who came to participate in the competition are threatening to not put Myriad Dan Immortal Country in their eyes, and are even saying that when the time comes, there will be a contest between them."

Once Chen Xiang entered, he heard these words, and immediately looked towards the direction of the voice, where a few old men were chatting.

"Immortal Country Bai Hai should be the White Sea Imperial Land. I wonder how Ji Meixian and Zhao Yiprofound, the two little maid, are, I miss them a lot." She was once the famous Yu Yi Immortal Fairy, but she had been beaten up by him, and she was even his female slave.

"Myriad Dan Immortal Country has offended too many people. They say that this competition has the greatest relationship with their Myriad Dan Immortal Country and Sacred Dan Realm, and does not even put others in their eyes. Thus, the other powers are not satisfied." Another old man said.

Chen Xiang walked over and asked: "Seniors, the final reward has been announced yet."

[Chapter 1330](#)

Chen Xiang felt that the rewards of this competition wouldn't be too bad.

"For the time being, I don't know. But the new King will definitely not give us anything inferior, so it would be too embarrassing for him to take it." An old man said. If someone called them seniors, they would naturally respond politely.

Chen Xiang knew that these few old men had stayed here for a long time and knew a lot of information. He also chatted with them and asked them about some things that he wanted to know.

"I heard that the newly established Human King Immortal Country also sent a group of Alchemist to join in on the fun."

"That's for sure, this is a good chance to become famous, even the Imperial Dragon Clan who rarely participate in these kinds of things would send an Emperor Dragon who knows how to refine pills."

There were also pill refiners in the Imperial Dragon Clan, Chen Xiang was a little shocked.

"What I'm more concerned about is the fight between this Li Tianjun brat and Bi Xia Dan Immortal. This guy lost miserably last time, I don't know if he can win this time."

"Bi Xia Dan Immortal is the head Dan Immortal, the's core Dan Immortal. However, I feel that Devil-suppressing Divine Palace's core Dan Immortal is quite interesting. Rumor has it that they're Dan Immortal s who know how to use the Demon Suppressing Holy Fire, and I don't know how powerful they will be. I really want to take a look."

Chen Xiang clenched his fist tightly. He could definitely use this kind of flame as well, it was ignited from the Devil-suppressing holy power. This could not be counted as true Holy level flame, the Holy level flame was above the heavenly fire after all.

Just as Chen Xiang listened to the old geezers talk excitedly, the whole venue suddenly released a low voice from a man. Chen Xiang could tell that it was the kind of lecherous shout a man would make when he sees a beauty.

This was the location for the competition, and was also the place to register for the competition. Currently, there were 7000 people there, Chen Xiang immediately looked at the pathway for the competition and was startled.

Even though her face was covered with a light veil, she was still extremely beautiful. Beside her, there was a mature beautiful woman who was on par with her, also wearing a veil, but that noble and dignified temperament, and that pair of gentle eyes, caused people to feel ashamed and inferior, and not dare to look directly at her.

One of them was middle-aged, had a beard, had a very handsome face, looked very steady, and gave off a very strong feeling. On his face hung a light and gentle smile, while Liu Meng'er and the dignified beautiful woman stood at his two sides.

"That girl should be Liu Meng'er's mother, and the man must be her father. They are indeed two very powerful people." Long Xueyi said: "For the time being, I can't see their strength clearly."

Other than Liu Meng'er's family of three, there were two other handsome youths who seemed to be quite strong. With a single glance, one could tell that they were disciples of famous sects.

"Elder Sister Meng'er is becoming more and more interesting." Chen Xiang praised in his heart. Thinking about what had happened with Liu Meng'er, his heart rippled.

"Humph, hurry up and meet her." Long Xueyi scoffed.

"I won't do it, her parents are too awesome, what if they know about Elder Sister Meng'er's Master and disciples and me ... Ahem, I will be beaten to death." Chen Xiang curled his lips and said.

When Liu Meng'er and the others arrived, the place became much quieter. It was obvious with a glance that they were not ordinary people, and had also come to register for the competition.

What surprised everyone was that the one who registered was Liu Meng'er's mother. Chen Xiang remembered that Liu Meng'er did not say that her mother was also a pill refiner.

"I'm only registering for someone else's place. It should be okay if that person still hasn't come." Liu Meng'er's mother said softly.

"Of course you can ... "Name." The old man nodded.

"Shao profoundyun."

Hearing the name, Chen Xiang only frowned his eyebrows slightly, because he had never heard of the name before, but the others started exclaiming in surprise. From the discussions of the crowd, Chen Xiang found out that this Shao profoundyun was his senior brother's wife.

Back then Hua Xiangyue had said it before, that her master was Senior Brother Chen Xiang's wife. He had already been in the Heaven Realm for a while, but until now, he hadn't seen Senior Brother.

Chen Xiang's eldest senior brother and wife were people that were at the same time as her parents, so it was normal that they had a good relationship with each other. What made him a little depressed was that at that time, he might even fight with Shao profoundyun.

"Teacher, this old lunatic didn't mention anything about eldest senior brother to me last time, so I should take me to see him." Chen Xiang complained in his heart.

Chen Xiang watched from afar. He really wanted to go and see Liu Meng'er, but now was not the right time.

"Meng'er, you're here too. Is Xiangyue not coming?" Long Huishan suddenly walked in, her entire body releasing a dense dragon Qi, donning a set of armor, giving off the aura of a Female Dragon King, although her beauty was already very attractive, her imposing manner made her even more charming.

Another incredible female expert had arrived. Everyone was secretly surprised.

"Her master is already here, she definitely won't participate. I heard that the person sent by your Long family is a fifth grade Dan Immortal." Liu Meng'er asked with a smile.

"The person I sent is definitely a very strong Dan Immortal. We will definitely get first place this time." Long Huishan said very confidently.

"Didn't you already register? Who are you registering for now?" Her relationship with Long Huishan was not bad, and all of this was because of Chen Xiang.

"I came to see if that little bastard Chen Xiang had registered. He had already ascended, yet he was cowering like a tortoise all day. Even at a time like this, he still didn't show himself." When Long Huishan talked about Chen Xiang, he was a little angry in his heart.

Of course Chen Xiang wanted to, but he had done a lot of things recently. If he were to jump out now, there would definitely be people who would connect the dots, and at that time, he would definitely not be able to participate in the tournament smoothly.

"I'm afraid he won't come. If he does, then no one will fight anymore. Just killing him and stealing his treasures is enough." Liu Meng'er said in a low voice.

"What's there to be afraid of? I'll protect him. I'll behead whoever dares to snatch him away." Long Huishan said loudly.

Chen Xiang left through the other door. He was worried that he would be pushed to the point of jumping out.

From the start of the competition, there were many famous Alchemists who came one after another, and only after carrying out the examination would they be able to obtain the qualifications to participate.

Chen Xiang did not do anything else. Instead, he spent his time strolling around, inquiring about some information that was useful to him, such as the recent movements of the great powers that had enmity with him, and the number of people who came.

"I wonder where Master is. I wonder where this crazy old man is hiding, eating and drinking." Chen Xiang sat on the roof, looked at the setting sun, and softly sighed.
