

## Dan God 1701

### [Chapter 1701](#)

"Hurry up!" The domain released by the Arrogant Wolf God had already begun to loosen. Chen Xiang immediately opened a spatial tunnel and quickly left with Jiang Sheng and the others.

The sudden arrival of the White Tiger gave Chen Xiang and the others a very valuable opportunity to avoid a fierce battle with the Arrogant Wolf God.

The place where Chen Xiang and the others appeared in was an ice land, and this place was still Cold Wind Forest.

"Why is he still in Cold Wind Forest? I traveled a long way. " Chen Xiang looked around: "I wonder how Senior White Tiger is doing, that Arrogant Wolf God is really amazing."

If Master is able to break through the domain of the Arrogant Wolf God, even if he cannot beat the Arrogant Wolf God, he can still run. But let's hurry up and enter the Divine Fire Forest, it would be safer inside. Qi Shi said.

"The flames and heat emitted by the Divine Fire Forest can very well destroy the power of the domain. Even if the Arrogant Wolf God were to release his domain, it would not trap us to death!" Lv Zhen nodded his head: "I also want to take a look at the Life Forest's third barrier."

Just as they were about to act, a mass of black fog appeared in front of them. The black fog turned into a white tiger.

"Master, what about Arrogant Wolf God?" Seeing that the White Tiger was able to catch up with them, Qi Shi was overjoyed.

"This fellow is temporarily trapped by my power of darkness. However, that won't last for long." "This Arrogant Wolf God is very powerful. If it weren't for the fact that I have a breakthrough in my comprehension of the Laws of Darkness, we would definitely not have survived today."

"I'm only using the power of the Law of Darkness to force the Arrogant Wolf God into a dark world. However, his strength is very strong, and he will be able to break through very soon."

Lv Zhen said: "How long does he need to come out? If we enter the Divine Fire Forest, will it be much safer? "

"This period of time is enough for us to enter the Divine Fire Forest, it will be much safer for us there. At least, we won't be able to unleash the power of the devils that he obtained in hell in the Divine Fire Forest. The flames inside the Divine Fire Forest are the same as your devilish suppression power, they have the effect of purifying the devils."

The White Tiger smiled at Lv Zhen. He knew that Lv Zhen was very strong and they had never communicated before, but they all knew each other well.

"Big white cat, have you seen the Vermillion Bird in there? I didn't expect you to be fine! " Long Xueyi chuckled.

"Of course I saw her. It was she who told me to do it for you guys ... She was worried about a girl called Warm Moon trying to comfort her. " The White Tiger looked at Chen Xiang. He knew that Dongfang Xinyue was inside Chen Xiang's ring.

Jiang Sheng took out his boat and said: "Let's go to Divine Fire Forest quickly. It would be best if we go to a place with relatively strong flames."

Originally, they were relatively close to the Divine Fire Forest, but in just six hours, they could see the flames in front of them rising into the sky. Those flames were all coming from the huge trees that were three hundred meters tall.

Dongfang Xinyue once said that the flowers, plants and trees in the Divine Fire Forest were all special. To be able to continuously burn those flames without extinguishing, and the more strongly one burned those flames, the more exuberant the life force of those plants and flowers was.

"Old Jiang, can this boat of yours withstand the flames inside? "Without any strength, every Saint Beast that enters will turn to dust." The White Tiger said.

"Don't worry. This ship was created by me. It's only a tiny bit away from a divine artifact. That bit of flame can't do anything about it." Jiang Sheng had already sensed the powerful flames in front of him. He was an artificer and was extremely sensitive to flames.

Chen Xiang asked: "I wonder where the flames are the most powerful, Arrogant Wolf God shouldn't be too willing to go there right?"

The White Tiger replied, "You'll have to ask the Vermillion Bird. She's been here for a long time, so she knows a lot about Divine Fire Forest."

Jiang Sheng's boat quickly entered the Divine Fire Forest. Even though there was a thick layer of Space black iron s in between, the people in the cabin could still feel a sense of warmth. This was the heat emitted from the flames in the Divine Fire Forest.

"What a terrifying flame!" Chen Xiang exclaimed: "Even if it's a Holy Lord, I'm afraid you can't come in!"

"As long as the fire resistance ability is strong, then it's fine. But if the fire resistance isn't strong enough, then even if a Saint comes in, he'll still be burnt to ashes." Jiang Sheng was obviously very excited:

"These flames are not bad, I want to stay here for a while and see if there is any way to make my Fire Soul have this flame's special name, so that when I deal with the Evil Demon in the future, I will have twice the result with half the effort."

Lv Zhen laughed: "I can pass you a cultivation technique called Demon Suppressing Flame Technique. If you cooperate with your own cultivation technique with the Fire Soul, I think you can absorb these flames to change your own fire attribute, and thus have a stronger demonic suppressing power."

"Then I can't thank you enough!" Jiang Sheng laughed, which made him even happier.

Qi Shi said: "Master, did you also condense Divine Deity? Why did you suddenly become so powerful, you actually stopped a guy like Arrogant Wolf God. "

"You're my disciple. In the past, you were much more powerful than me, and you even possessed Divine Deity. If I don't have Divine Deity now, wouldn't my rebirth be a waste?"

With regards to the White Tiger that had died once, felt that it was not strange that it could condense Divine Deity at all. Furthermore, the White Tiger and the Dark Rule spiritual bead were able to help him condense his Divine Deity.

Long Xueyi scoffed, "Big Lion, my Divine Deity is right on that Arrogant Wolf God. If you kill that fellow, you can return it to me."

"Didn't I give you some pears?"

At most, I will temporarily not pursue the matter with you. However, I did not say that you would not be allowed to pay it back, so if it is possible, you still have to return the Divine Deity back to me. " Long Xueyi stuck out his tongue.

Chen Xiang said: "If Arrogant Wolf God also enters the Divine Fire Forest, if we join hands, would it be easier to kill him?"

White Tiger frowned, he thought for a while and said: "It will be easier, but that does not mean that we have complete confidence, and that we might even be injured. That guy is truly powerful, he should be a god, but his strength has been weakened! Since he was once a god, just his divine body is not something that we can easily touch. "

Lv Zhen nodded his head: "The divine body is very powerful, even if he had a divine weapon, it would not be that easy. He would also need a considerable amount of strength to work with the divine weapon to break through the defense of his divine body."

Jiang Sheng asked, "Where is the Vermillion Bird? "If you add her to the mix!"

"This is not something that I can persuade. After I found her, I was beaten up and scolded by her. While my anger has greatly lessened, it does not mean that I can persuade her to do something so dangerous." The White Tiger shook its head.

"Let me say it, I have a way!" Long Xueyi was very confident: "Isn't it easy to deal with her?!"

After getting rid of the Arrogant Wolf God, Long Xueyi would be able to recover her Divine Deity. Adding her Supreme Dragon blood, she would be able to cultivate a Divine Dragon Body in the future, and would be a true Divine Dragon. At that time, she would be even more powerful, able to fight against gods of Arrogant Wolf God's level by herself.

The flames released by the trees, flowers, and plants here were of the same degree and were extremely mystical. As the third barrier of the Life Forest, not only was the Divine Fire Forest filled with the power of fire, there were also many hidden dangers inside.

## [Chapter 1702](#)

"Let's go out together. It's not good to stay in this ship, it's too restrictive. Especially in this Divine Fire Forest, we cannot immediately sense anything approaching us." The White Tiger said.

The group left the living room of the ship and entered the blazing forest.

"The flames here are really powerful!" Chen Xiang came to the side of a small flower as the flower heart burned with an intense flame. He stabbed his finger deep into the flower heart, and actually felt a slight burning pain.

He had always been a fire expert, and his physical body was also extremely powerful. Even a small flower was enough to burn him to a crisp, causing him to sigh in amazement.

"As long as I strip it off, it won't burn!" Chen Xiang pulled out that small flower and carefully observed it. He discovered that this small flower contained a special energy, as long as it fused with another flower's energy, it would ignite into flames.

"Life Forest is indeed not simple!" Jiang Sheng also carefully observed the plants that were burning in flames.

The first barrier was the Purple Leaf Forest, and the purple colored plants were also very special. The cold energy in the Cold Wind Forest was able to give birth to a large number of strong Poisonous beast that possessed the Profound Frost Evil Emperor, and this Divine Fire Forest was even more special.

Just the flames released by any one of these little flowers or grasses was enough to burn a Immortal-becoming realm Ranker to death.

"The mischievous spirit has appeared. You guys be careful. Although this thing isn't strong, it's very troublesome. If you don't pay attention, you might even get injured." The White Tiger frowned.

Chen Xiang and the others did not realize, but after the White Tiger gave the order, they looked around. On the branches of the trees, there were things about the size of human beings, their bodies burning with flames, almost like human beings.

"What is this?" We didn't discover anything. " Chen Xiang said.

"Fire Demons. Because they are born from the flames here, their auras are one with the environment here. It's definitely not easy to discover them." The White Tiger said, "Don't bother with them. Let's leave quickly. This should be their territory."

Chen Xiang and the rest followed closely behind, but before they could take more than a few steps, the Fire Demons had already pounced down from the trees, covering the sky with their attacks.

Chen Xiang punched in the air, releasing a rippling force that brought along a burst of gales, with which one punch scattered dozens of Fire Demons.

However, his attacks didn't have much of an effect. The scattered flames quickly regrouped, especially those that fell to the ground. After transforming from a new Fire Demon, they continued to charge towards them.

"So hot!" Jiang Sheng shouted. He took out a Jasper gourd, which produced a strong suction force that instantly sucked the dozen or so Fire Demons that were flying over.

Seeing this, Chen Xiang anxiously took out the Demon God's Suppressing Pagoda and stored the Fire Demons inside.

Jiang Sheng had the most magic treasures, and in order to quickly deal with these Fire Demons, he took out the divine furnace to collect more Fire Demons. However, the number of Fire Demons decreased by a lot in an instant.

"Alright, now we can leave quickly!" The White Tiger said, "We just need to pay attention to one thing and not enter the territory of some powerful individuals. We won't encounter any battles."

The White Tiger was more familiar with the Divine Fire Forest. Ever since he met the Fire Demons, he became more cautious, avoiding the powerful fire beasts and rushing straight towards the Vermillion Bird's territory.

The Vermillion Bird's territory was a very large short mountain. She lived in the belly of the mountain, and this mountain was filled with small trees, all of them burning with fire.

There was no such fire in the cave, but there was still an uncomfortable heat.

After arriving here, Chen Xiang released Dongfang Xinyue. The reborn Vermillion Bird was very strong, it might even have Divine Deity. After arriving here, everyone felt much more relaxed, even if the Arrogant Wolf God appeared again, they would no longer be afraid.

Inside the mountain was a small palace, and inside it was the Vermillion Bird itself. She was already sitting in the hall waiting for Chen Xiang.

The Vermillion Bird was a bold woman, Chen Xiang had known this before. However, he didn't think that the Vermillion Bird would actually look like a cute, round-faced woman, and it even looked a little soft.

"It's good that you didn't die." The Vermillion Bird laughed lightly, she anxiously walked over and looked at Dongfang Xinyue, worried that he was injured, then she frowned and looked at him.

The Vermillion Bird was wearing a red skirt, its face was round and sweet and beautiful, and it didn't look as spicy as Long Xueyi had said. At least, she gave Chen Xiang a good first impression of it.

"You are the one who overturned Endless Heaven Realm and Endless Heaven Realm, Chen Xiang." The Vermillion Bird circled around Chen Xiang once, then laughed sweetly: "You're out of the blue and you're out of the blue. You're even better than Qi Shi!"

Long Xueyi laughed complacently: "That's for sure, go and see who is guiding him from behind. Little Fire Bird, we haven't seen each other for so many years, you seem to have gotten fatter. "

The Vermillion Bird patted Long Xueyi's towering chest and said, "Same here!"

Jiang Sheng chuckled, "Lord Vermilion Bird, I am only halfway through the task you entrusted to me, please forgive me!"

"Don't worry, my old bones can be refined into Suzaku bow for Warm Moon and the others. "However, you are too useless. You did not die, and even after living for so long, you are still that weak." The Vermillion Bird curled its lips, "Don't be afraid of me, I won't pursue the matter of the Suzaku silk!"

Jiang Sheng laughed heartily: "About this ... I never thought that after you, Vermillion Bird, were reborn, your temper would become better and your strength would become stronger. I was originally just a

piece of trash, and after thinking about it for so many years, I still don't know how to cultivate Divine Deity.

Long Xueyi, White Tiger and Vermillion Bird all wanted to obtain Divine Deity. If Qi Shi didn't die back then, he would have one now.

"That's because you're useless. Senior Lu is also a human, and you can cultivate Divine Deity?" Long Xueyi laughed.

Lv Zhen laughed and said: "I think we should first discuss how to deal with the Arrogant Wolf God. This guy will most likely come chasing us."

The Vermillion Bird frowned, "You guys want to deal with someone like the Arrogant Wolf God? Do you want to join hands and get rid of him here? "

Long Xueyi nodded: "It's really so. If you had joined, then we would have definitely taken him down. This guy has my Divine Deity on him!"

"Don't expect me to make a move, Arrogant Wolf God is not easy to deal with!" The Vermillion Bird replied, "Although I have always been here, I am more familiar with the matters of the Infernal Realm and the Gods Realm."

"Why? The flames here can weaken his strength! " Long Xueyi said. The Vermillion Bird's temper had improved by a lot, this was beyond her expectations, but she still did not agree.

The Vermillion Bird said, "It's not that I don't want to help you get your Divine Deity back, it's that Arrogant Wolf God isn't an ordinary guy who has been suppressed. Someone who has caused so much trouble in the Gods Realm like him should have his Divine Deity removed, then his body destroyed, and his soul suppressed! But he hasn't, his physical body and soul are all here. "

"Right now, he is only supporting a body that isn't in a good condition to deal with you. He isn't being suppressed in hell, and with his terrifying recovery speed, it won't be long before he recovers a lot of strength. The flames here can't do anything to him."

Lv Zhen took a light breath, "That's right, Arrogant Wolf God's evil reputation is very famous in the Gods Realm. Logically speaking, he should be severely punished, but from the looks of it, he shouldn't be a big deal. But releasing Arrogant Wolf God now is equivalent to releasing him in disguised form. "

"The situation in the Infernal Realm is very complicated, so Hell Devil Emperor can do whatever he wants. With one Arrogant Wolf God, there will be two of them. With our current strength, even if we add all of them together, we won't be able to withstand it for long." The Vermillion Bird sighed, "If we want to kill him, it will be even more difficult to reclaim his Divine Deity."

Dongfang Xinyue asked in a low voice, "Then will Arrogant Wolf God be here soon? Ancestor Suzaku, didn't your position here already become exposed? "

"Don't worry, I've been here for so many years. I've wanted to walk around for a long time, it doesn't matter if I'm exposed." The Vermillion Bird smiled faintly at Dongfang Xinyue. She was very good to Dongfang Xinyue.

"So you're saying, we should now think of a way to get rid of the Arrogant Wolf God?" Jiang Sheng said: "I originally planned to cultivate here."

The White Tiger and Vermillion Bird looked at each other and nodded.

"The only good thing about the Divine Fire Forest is that it can prevent his Domain from being released. He cannot use his powerful strength to seal it off, so even if we meet him, we can still run away." The Vermillion Bird said.

After Chen Xiang thought about it carefully, he sighed, "Arrogant Wolf God's goal is me, so all of you don't have to follow me and take the risk."

"How can that be? You have also seen the Arrogant Wolf God. That guy is scary." Qi Shi said: "If you face it yourself, it will definitely be even more dangerous."

The Vermillion Bird said, "Arrogant Wolf God definitely has a backer, as long as he completes the deal with Hell Devil Emperor and kills you, Hell Devil Emperor will definitely help him return to Gods Realm, and in order for Gods Realm to help him get rid of his crimes, he will also secretly give him a certain amount of support. What you are facing right now is not only Arrogant Wolf God, but the power behind Arrogant Wolf God as well."

Chen Xiang said: "I want to enter the depths of Life Forest, the dark area behind the third barrier, but I will stay at the edge for a while. When Arrogant Wolf God finds me, I will bring him in."

"No way, this is too dangerous! That area is terrifying!" The Vermillion Bird hurriedly said, "Warm Moon is connected to you by life."

"Just undo the Master-servant Contract." Chen Xiang said: "I want to go in and take a look. If I can't get out, there's no need to worry, as long as I have sufficient strength and use the power of space well, I can still get out later."

Chen Xiang felt that if he was unable to deal with Arrogant Wolf God, there would still be a Chaos fire in the end.

### [Chapter 1703](#)

The dark region was extremely dangerous, only the Vermillion Bird had ever entered here, so she was the most against Chen Xiang entering.

"I'll go with you. I believe you'll be fine." Dongfang Xinyue clenched her teeth, she really wanted to go with Chen Xiang, she felt that this would give him some mental support.

The Vermillion Bird sighed, "Alright, you must bring the Warm Moon back. I hope that when you come out, you will have the strength to shake off the Arrogant Wolf God, and we will work harder to see if we can increase our strength quickly. At that time, we might be able to help you a little."

"Then I will leave now. If I stay here for too long, it will bring you trouble." Chen Xiang would be located by the Hell Devil Emperor at any time. As long as he stayed in one place for too long, a large group of experts would catch up to him very quickly.

Long Xueyi and Dongfang Xinyue entered the ring. After Chen Xiang and Qi Shi bid farewell to him, they left the Vermillion Bird's cave and went outside into the world of flames.

Although the fire beasts in the Divine Fire Forest were strong, they were not as terrifying as the ones in the Arrogant Wolf God. found it easier to deal with the domain that could seal off his surroundings.

In order to not stray from the direction, he ran for a distance and traveled through space. This way, he would be able to travel far away from the Vermillion Bird at an extremely fast speed, and he had stayed at the Vermillion Bird's location for too long. If the Arrogant Wolf God wanted to catch up, the distance between them might be very close.

"Time is really too tight, who would have known that a Arrogant Wolf God would suddenly appeared, if not we could get him to use his Space black iron to refine a ship that can cut off space, we could have avoided the Tracing mantra of the Hell Devil Emperor." Long Xueyi was a little helpless as he sighed.

Dongfang Xinyue laughed: "Sister Xue Yi, are you underestimating me? I can refine here too, it's just that I'm not as proficient and fast as Senior Jiang."

Chen Xiang said: "Warm Moon, will that type of ship really be able to get rid of the Tracing mantra, and just hide inside?"

"It should be possible, if it is all made by Space black iron, adding a few spatial array Spirit grain s, it can make the boat inside a space for reading. It is not connected to Endless Heaven Realm and Nine Heaven World, but it can move between Endless Heaven Realm and Nine Heaven World, and maybe the Tracing mantra can know where you are inside the boat, but it doesn't know where your boat is." Dongfang Xinyue said.

To get the Space black iron, you need to refine it out of so many stones. This is a huge project, if it is the Old Jiang, he would use the flames here to refine it quickly. But right now, you are the only one who is refining the Space black iron in the ring. Long Xueyi muttered: "Seems like I have to help too, refine the Space black iron out."

Chen Xiang suddenly stopped and said: "How about I call Xianxian and the others over, I can open a spatial tunnel and send a sound transmission to them, telling them to come over by themselves, that way I won't have to go back."

He did not return to the Nine Heaven World because he did not want to lead this trouble to the Nine Heaven World, where a stable development was needed right now.

"Then let's hurry, they should be inside the Hundreds of Flowers Palace." Long Xueyi said.

Chen Xiang first opened up a small spatial passageway, allowing his own divine power to enter, entering the Hundreds of Flowers Palace.

"Who is it?"

Not long after, Chen Xiang felt his divine power being almost shattered by a voice. This was Lv Qilian's divine power, yet it had actually become so strong, which surprised him greatly.

"Sister Qilian, didn't your father say that you were in closed door cultivation?" Chen Xiang anxiously replied, to prevent himself from being shaken by Lv Qilian.

I am currently in closed-door training, but I have to constantly pay attention to the situation outside. I heard that Hell Devil Emperor is using his Divine Deity to place a bounty on you. Lv Qilian suddenly asked a bunch of questions.

"It's a long story, Hell Devil Emperor has already offered three Divine Deity rewards to me, and for Life Forest who is in Sacred Water Heavenly Realm, I met your father here, and it was all thanks to his sudden appearance that I was able to escape this calamity. Meng'er and Xianxian are with you, I need them to come over and help me." Chen Xiang said anxiously, "There's also You Lan, Jing'er, Lingling. Are they in Hundreds of Flowers Palace?"

"Meng'er, Xianxian, Jing'er and You Lan are all here. Hui Shan brought Lingling back to the Ice Dragon Clan. Lv Qilian could tell from Chen Xiang's tone that he was extremely anxious, so he did not say much. "I'll get Little Lizhi to find them, how are you doing now, and whether or not you need my help, I can immediately come out and help you."

Chen Xiang had not been in contact with Lv Qilian for a period of time, and the situation on Chen Xiang's side was not looking good. Lv Qilian had always been worried in her heart, but she realized that her feelings for Chen Xiang had sunk deeper and deeper, and it was difficult for her to break away from them. After all, she had once trained with Chen Xiang on the Gods join method for a period of time.

"No need for now, use the Divine Deity that Senior Lu gave you properly. I'm doing fine here." Chen Xiang said: "Let Little Lizhi take them to a quiet and spacious place, I'll bring them over."

"Alright, I heard that Xiang Yue and Qianqian found traces of Dan Emperor. In order to learn more profound alchemy, they got up and went to search for Dan Emperor, they aren't here." Lv Qilian said.

"Yes." Chen Xiang had already seen Liu Meng'er and the other girls bringing Little Lizhi to a deserted place in the forbidden grounds.

He immediately increased the power of space and opened a slightly larger Space Gate.

"I have a very strong flame on my side. Be careful when you come over, it might be a little hotter."

Liu Meng'er and the others heard Chen Xiang's voice coming from the spatial gate and nodded, then stepped into the spatial gate.

Very quickly, Chen Xiang saw a few beautiful female figures appear in the blazing world. Seeing these beautiful women, he felt extremely happy in his heart.

"What is this place? It's so hot." Leng Youlan shouted, her face full of smiles, because Chen Xiang had finally brought her out for an adventure.

"I won't say much. I'm being hunted down right now. You should know that to a safe place first." As Chen Xiang said this, he brought the few girls into the ring, allowing Long Xueyi and Dongfang Xinyue to properly tell them about his experiences during this period of time.

"Chen Xiang, do you need any more helpers?" Little Lizhi asked Chen Xiang through the dimensional door. She knew that Chen Xiang had introduced many strong female rankers, and she even had a kind of indescribable emotion towards Chen Xiang. Even she herself had some unspeakable feelings for Chen Xiang.

"No need for now. If you need me, I'll look for you guys again." Chen Xiang replied.

"Mm, then be careful." Little Lizhi already knew about the Hell Devil Emperor's bounty on Chen Xiang, and this matter had long spread like wildfire.

Chen Xiang closed his spatial door and rushed towards the darkness. If not for the fact that he was worried about the Arrogant Wolf God chasing him, he would have had a good chat with the girls.

"Xue Yi, was the Vermillion Bird Divine Art taught to me by you?" Back then, when Chen Xiang was in danger, a mysterious woman passed down her powers to her.

"It's not me..." Long Xueyi laughed heartily: "It's the other big sister. She knew about Little Scoundrel before me, it was them who brought Little Scoundrel onto the streets."

"Them." Xue Xianxian slightly furrowed his brows.

"Yes, they are very powerful, but they are injured ..." It's a long story, I'll tell it slowly. " Long Xueyi said. Now, there was no need to hide the matter between Su Meiyao and himself.

After hearing everything, Leng Youlan and the other girls sighed endlessly, because Long Xueyi, Su Meiyao and his wife had all accompanied him through so many things, and had witnessed all kinds of things that had happened between them and Chen Xiang.

Xue Xianxian and Liu Meng'er's faces were a little red because they were already Chen Xiang's people. Especially Liu Meng'er, who would often get lustfully teased by Chen Xiang, and there were three other women watching from the sidelines.

"I never thought that Bai Youyou and Su Meiyao, who have been missing for so many years, would always be together with Little Scoundrel. If they could recover their strength, they would definitely be very strong, right?" Xue Xianxian sighed with emotion: "They helped Little Scoundrel so much. Fortunately, Little Scoundrel didn't disappoint them."

Leng Youlan laughed: "I really want to see them, they have witnessed the way I know them, and they have definitely helped me a lot, I need to thank them properly, I heard that Bai Youyou is difficult to fight, and it's a woman with a heavy Killing heart, I want to fight with her."

"You Lan, I promise you that you won't be disappointed when the time comes. Although elder sister You You is usually cold, she is very aggressive." Long Xueyi laughed, as he stroked her long hair: "You still look so domineering when you're white-haired, but this is also good, you look more like a woman."

Dongfang Jing said: "Sisters, shouldn't we start refining Space black iron s and help brother refine a boat? That way, we can be together with brother, I can't even see him right now."

Dongfang Xinyue patted Dongfang Xinyue's head and laughed: "Jingjing, did you learn a lot of skills from Meng'er and the rest? Your hands are itchy, and you want to try your hand at them, right?"

When Kong Bailing and Pearl finally finished cultivating, they saw that there were still two women left. Both Xue Xianxian and Liu Meng'er harrumphed in their hearts, under Long Xueyi's introductions, they quickly found out how powerful Kong Bailing and Pearl were.

Especially Leng Youlan, who clamored to taste a pearl's tears ...

"If Scorpion Sis was here, she would definitely be very happy. She really likes this kind of strange poison." Xue Xianxian looked at the beautiful white feathers on Kong Bailing's head and laughed.

"That Scorpion Sis, didn't she have a long braid that hung down her chest? There was a hook at the end of the braid. Her eyes were purple and she looked extremely cold." Long Xueyi asked.

Leng Youlan and Xue Xianxian shook their heads.

"We only know that her name is Zi Scorpion. Usually, she covers her face and leads the way by covering it. She's so scary that I don't even dare to fight with her. However, she is very polite to us." Leng Youlan said.

#### [Chapter 1704](#)

"She is Bai Youyou's older sister, Devil Scorpion Princess Bai Ziqian. You all should know her, right?" Long Xueyi laughed: "This Devil Scorpion Princess and Little Scoundrel's relationship isn't bad, of course she's polite to you guys. Little Scoundrel helped her a few times, and gave her some Super Old poison s."

"No wonder she joined the Hundreds of Flowers Palace. It turns out it was all because of Little Scoundrel." Xue Xianxian scoffed, "It seems like the majority of the women who have good relations with the little scoundrel are now the four sisters Zi Lan, Yao Shumei, her mother, and Yu Xuelian, the Lotus Goblin ... And little sister Mu Qianxiang is also Boss Hua's disciple. "

Long Xueyi chuckled: "Big Sister Little Fairy, then in the future, you should be mentally prepared. This little scoundrel's hands will stretch out really long."

Liu Meng'er scoffed softly, "Also, the little scoundrel has saved Xue Ying before, and she has always kept him on her lips."

Leng Youlan laughed out loud: "Big bro is so awesome, I have everything. In the future, there will be more beautiful big sisters fighting with me."

Just as Leng Youlan finished speaking, he was pinched on his face by Xianxian as he rolled his eyes at her, causing all the girls present to laugh.

"Come, come, come. Let's eat something good before we start our work. This is Holy Snow Pear, a very tasty and sweet sacred fruit."

Long Xueyi very generously took out these holy fruits, and then took out a set of tools, and began to make these Golden jade fish s. Other than that, there were also some extremely delicious, sweet, and high-grade immortal fruits that squeezed out the juice.

"It's such a pity that Little Sister Qianxiang isn't here. These things are way too extravagant." Leng Youlan's eyes shone as he looked at the precious Holy Fruit and Immortal Fruits on the stone table.

"No wonder you were able to stay in this place for so long. It's so delicious." Xue Xianxian took a light bite of the Holy Snow Pear.

Liu Meng'er and Dongfang Jing also savored the taste, with Leng Youlan being the only big and tall one, finishing one in two or three bites.

Dongfang Xinyue, Pearl and Kong Bailing had been here for a few days already, so they had already tasted it.

"Jing Jing, this is the inheritance fruit from the Vermilion Bird Ancestor. Eat it now, and cultivate well here. Only by obtaining the Vermilion Bird Ancestor's inheritance will you become stronger, and only then will you be able to help your brother." Dongfang Xinyue gave Dongfang Jing a fiery-red fruit.

Dongfang Jing nodded, and she listened to Dongfang Xinyue's words very carefully: "Aunt, it's been hard on you, I'll definitely make good use of it."

"Jingjing, hurry up and become stronger. This way, I won't always win against you in fights in the future." Leng Youlan laughed. "In the future, we can go and kill the Night Devil together."

After Dongfang Jing ate it, he entered a secret room and went into closed door cultivation. There were instructions for him on what to do next.

Chen Xiang gave some Blood Pills to the girls, but they did not eat them now, as they still had urgent matters to attend to.

"There are no crafting furnaces here, so it shouldn't be a problem for you." Long Xueyi asked.

"The effect isn't too big. We are mainly cultivating the Divine Path. Although we don't have a soul yet, we can already use our soul consciousness and our Saint Force to forge artifacts in the void. It shouldn't be a problem for us to work together." Liu Meng'er said.

Liu Meng'er and Xue Xianxian had already turned into saints, although they were only at the Divine Immortal level, their foundation was very stable, and they had very high attainments in artifact forging.

Long Xueyi said: "How about this, I will use my divine power to create a cauldron for you guys, when the time comes I will cooperate with you, this will save you some energy."

"You guys don't have a soul, this isn't good. Once I've done this, I'll have the little scoundrel think of a way to get a soul for each of you." Long Xueyi said.

"I don't need it." Leng Youlan laughed, "It existed when my White Dragon Vein awakened."

"I don't need it. I obtained it through the Vermillion Bird Legacy Fruit." Dongfang Xinyue said.

Chen Xiang didn't hear the conversation of the few women inside. He was currently approaching the dark area continuously, he was only approaching it first, and wouldn't enter it for the time being unless he was forced to.

Now that he had brought a few of his beloved women with him, he didn't want to risk his life with them. Thus, he had to be even more careful.

As Chen Xiang travelled, he suddenly felt a very weak change in the temperature of his surroundings. This was because his Divine Deity was a little special, so he was very sensitive to everything around him.

There is an aura that is different from the aura of the Divine Fire Forest's flames. Although it seems to be close, and it means that something is approaching, Xue Yi, help me look at what is approaching. It seems to be a fire beast, but its aura shouldn't be like this. Chen Xiang said.

Hearing Chen Xiang's voice, other than Long Xueyi, Dongfang Xinyue and the others, Xue Xianxian, who just entered the Youyao Ring, became anxious. They knew that Chen Xiang's situation was similar to what it had been for many years, but they had never experienced it with Chen Xiang personally, so they could not help but be anxious. However, this helped them understand more about how difficult it was for Chen Xiang to be outside, and it was not like they imagined it would happen.

Long Xueyi's detection abilities were a little stronger than Chen Xiang's, but because she was in the Serene Jade Ring, her senses were not as sharp as Chen Xiang's.

"The aura of this flame is very special, and it has a hint of the odour of hell. It's just like the Arrogant Wolf God, but it's not the kind of extremely evil power that the Arrogant Wolf God possesses." Long Xueyi frowned, "Could it be the Hell Suppressing Guardians of the Infernal Realm? I heard that the flames these things emit are extremely harmful to the demons of the Infernal Realm.

Chen Xiang immediately increased his speed, raising it to the limit. He was also traveling through space a lot of distance, and the guy chasing him now also came from hell, he looked to be about as strong as the Arrogant Wolf God.

"These prison guards aren't real gods, but their strengths are very strong. They should be specially used in the Infernal Realm to deal with some of the weaker little devils, but if they can obtain Divine Deity, then they can become real gods. Therefore, Divine Deity is a great temptation for them." Long Xueyi said.

In this Divine Fire Forest, the power that the Hell Suppressing Guardians unleashed was far stronger than that of the Arrogant Wolf God. In order to kill him, the Hell Devil Emperor had spent a lot of effort and used all kinds of power from hell to give him this treatment. In the ten days ago, Great Yan Jing did not have this kind of treatment.

"Could it be that she's about to force her way into the darkness? I don't know what's inside, but the Vermillion Bird didn't remind me. Could it be that even she didn't truly enter into the darkness?" Chen Xiang looked ahead. Although he did not see the dark area, he felt that they were approaching.

#### [Chapter 1705](#)

The Hell Suppressing Guardians was not an evil demon who cultivated evil powers, and he himself also knew how to use the powerful Prison God's Flame. Even if he wasn't as powerful as the Arrogant Wolf God, he still wouldn't be able to deal with it easily.

"What I can rely on is spatial energy!" In order to shorten the distance between Chen Xiang and the Hell Suppressing Guardians, he had no choice but to enter the tyrannical space first, and then travel through it to increase the distance between him and the Hell Suppressing Guardians.

"Can't I hide in the tyrannical space?" Xue Xianxian asked.

"It can be done, but you can't stay for too long because the situation inside is very complicated. At all times, you have to maintain the highest state of vigilance, or else if you aren't careful you will encounter big trouble. It would be very tiring." Chen Xiang said: "Don't worry about me, I still have other methods to avoid encountering that guy."

At this time, Chen Xiang braced himself and continued to move closer to the dark region. Two days later, he saw a black floating wall in front of him, and from afar, it looked like a belt of black fog that went straight to the top, enveloping the mysterious dark region inside.

"We're here, the dark area is inside. It's not simple!" Looking at it from here, you can feel a very stifling power. "Chen Xiang frowned: "There is still a very strong sealing power for space, it seems that entering it will not be that easy."

"Don't go in for the time being. Let's see what can be done to deal with the Hell Suppressing Guardians outside. I am also a little afraid of the dark area right now. It really is scary." Long Xueyi said.

Chen Xiang did not continue moving forward. He felt that if he took another step forward, it would make his heart feel very uncomfortable, so that kind of strange feeling was hard to describe.

"Hell Suppressing Guardians uses flames. If you think of a way to suppress his flames, it might be a lot easier." Long Xueyi said.

Chen Xiang looked at his surroundings and sighed: "All around us are these strange flames. If the Hell Suppressing Guardians was able to control these flames, then it would be even more powerful! Even if not, this environment is very advantageous for him. "

"How many God-eclipse powder are there?" Long Xueyi said: "Use the God-eclipse powder, Magical corruption gas and Drunk god magical poison, use all of the strange poison, I don't believe that I can't beat this guy."

Chen Xiang clenched his teeth, and said: "Alright, I will use up all of my stock, and see if there are any effects!"

The only thing was that he was currently using them against a Hell Suppressing Guardians from hell. These Hell Suppressing Guardians s were all experts who had cultivated in the Gods Realm before. Although they did not have Divine Deity, their strength was not to be underestimated.

The Hell Suppressing Guardians had not come yet, so Chen Xiang decided to refine all of them together.

If he were to flee all over the place, the Hell Suppressing Guardians would not be able to catch up with him, but there was no other way. Right now, there was only one Hell Suppressing Guardians chasing him.

Taking advantage of the fact that there was only one Hell Suppressing Guardians left, and during a easier time, he would try his best to kill it and obtain its powerful soul.

What he needed to do now was to continuously strengthen his own soul, let him possess Emperor soul, and then strengthen his own body so that he could become a true Strong of Lord Stage. At that time, relying on those divine tools would not mean he had to be afraid of the strong warriors that Hell Devil Emperor had sent from hell.

"You're not running anymore? Were you waiting for me? " A big tree suddenly cracked open, and a middle-aged man in a red robe walked out. His entire body was burning with flames, and he was holding two huge blades in his hands.

Chen Xiang never thought that the Hell Suppressing Guardians would arrive so quickly. Fortunately, he was very fast in refining the strange poison, he had already refined many different kinds of poison together, but the God-eclipse powder were different, because when the two were mixed together, the strange poison would be corroded by the God-eclipse powder.

"You came pretty fast!" Chen Xiang was calm and composed, he smiled at Hell Suppressing Guardians: "From the looks of it, you don't seem like someone who would work for Hell Devil Emperor at all."

Flames gushed out of Hell Suppressing Guardians's eyes, and he said coldly: "That's right, but I need Divine Deity. I killed you and obtained the Divine Deity. This is a very fair deal, I didn't work hard for him."

"How much am I worth now?" Seeing that the other party had walked in step by step, Chen Xiang also slowly backed off. Hell Suppressing Guardians's two giant blade with a burning red ghost head was simply too frightening and gave Chen Xiang a lot of psychological pressure.

"Four!" Hell Suppressing Guardians roared, he slashed with his two blades, and two pillars of flame shot out, transforming into two demons baring their fangs and brandishing their claws, they pounced towards Chen Xiang.

It had actually risen to four Divine Deity s! Even Chen Xiang himself wanted to hand him over for those four Divine Deity. This was just too enticing, it was simply too hard to resist, and right now, he also felt a headache. If he did not have absolute strength, he would become the target of many strong enemies from now on!

"Don't think that the four Divine Deity s are so good!" Chen Xiang stomped his feet, and a flame Tai Chi Diagram Array appeared on the ground. The Green dragon demon-slain broadsword appeared in his hands, and the Tai Chi Diagram Array that was thrown into the ground started spinning furiously as the Tai Chi Diagram Array spun.

The two powerful flames that Hell Suppressing Guardians had released were instantly cut apart. When Hell Suppressing Guardians saw the taiji diagram, he hastily jumped out, otherwise his entire body would have been twisted into knife scars.

"You're so amazing, there's no need for you to hide!" Chen Xiang sneered, he suddenly disappeared along with the Primal Chaos Divine Saber Formation and then reappeared next to the Hell Suppressing Guardians, allowing his own blade formation to envelop the Hell Suppressing Guardians.

The blade formation frantically rotated, and countless Green dragon demon-slain broadsword like numerous green dragons, began to revolve wildly around Chen Xiang, like a tornado. And the things that were swept in, were all shattered into pieces.

"Break!" The Hell Suppressing Guardians roared, a burst of blood red flames burst out of his body, shaking out a burst of scorching Qi wave, engulfing everything in its path, and annihilating a large amount of giant trees that were burning with flames.

Chen Xiang's Primal Chaos Divine Saber Formation had also been scattered. His entire body was blown away by that wave of energy and both his body and soul felt a scorching pain.

"So this is the Hellholding Godfire!" You are no different from a demon from hell. Hell Suppressing Guardians held a thick black iron chain, on it burned a blood red blaze, he swung the iron chain, fiercely lashing at Chen Xiang, and in an instant it had struck Chen Xiang's body. The speed was extremely fast, it was as though the space was shortened.

B000M!

Chen Xiang's chest was hit by the iron chain, producing a huge explosion. A huge crater was formed on the ground, and the flames were like giant wolves as they surged, engulfing the entire forest.

"How could an ordinary body like yours be able to withstand the power of the prison? To be able to enjoy it before death is already quite good. This is something that only the famous Fiends of the Infernal Realm can experience. " Seeing Chen Xiang being sent flying and vomiting blood on the ground, Hell Suppressing Guardians felt that his victory was within his grasp and laughed complacently.

B000M!

B000M!

B000M!

Hell Suppressing Guardians frantically whipped Chen Xiang, sending Chen Xiang flying time and time again! He just stood there and did not move his body. Chen Xiang was slapped too far away, he had once again used the iron chains to wrap around him, and continued to hit him!

"Let me break your hand first!" The Hell Suppressing Guardians was very skilled, laughing evilly while increasing his strength, aiming at Chen Xiang's arm, he aimed at it and ruthlessly lashed out with the iron chain, lashing at Chen Xiang's arm, causing it to bend at will. It looked to be extremely painful.

Chen Xiang clenched his teeth, endured the pain, and did not shout out!

"Over here!" "Haha ..." Hell Suppressing Guardians was currently very excited, because he had already tightly suppressed Chen Xiang and had no power to resist him. Previously, he had guessed that Chen Xiang was very weak, otherwise, he would not have kept on running.

Chen Xiang's other arm was immediately broken after it was hit, and fresh blood dripped out. Even though it was a very sturdy metal bone, it had completely shattered.

"Then the legs!" Hell Suppressing Guardians continued to swing the fiery red chain that was as thick as his thigh. Although it looked huge and heavy, it was extremely nimble in his hands.

B000M!

B000M!

Chen Xiang's legs had already been cut off, but he continued to grit his teeth, kept quiet, and endured the enormous pain!

"Prepare to return to the Infernal Realm. I wonder if I can bring the living back with me. Would I be able to get a better reward?" Hell Suppressing Guardians was very happy and walked to Chen Xiang's side.

At this time, Chen Xiang's four limbs had already been ripped apart, all of his bones were smashed into pieces, his flesh was mangled and his abdomen was split open with a large hole, the broken ribs had popped out, and it was obvious that it was a golden bone.

Hell Suppressing Guardians lifted Chen Xiang up, fiercely punched his face a few times, and said with disdain: "Isn't it just a little stinky brat, actually worth four Divine Deity. Hell Devil Emperor is making a big fuss out of nothing."

"But this is just right for me. Four Divine Deity pellets, haha ..."

"Pfft!" Chen Xiang aimed at Hell Suppressing Guardians's opened mouth and fiercely spat out a large mouthful of blood, which was spat into Hell Suppressing Guardians's mouth.

"You're courting death!" The Hell Suppressing Guardians was enraged and sent Chen Xiang flying with a slap.

Chen Xiang laid on the ground like a pile of mud. However, he was laughing crazily like a madman.

"Hahahaha..." Chen Xiang's body was in great pain, and when he laughed, he even cried out in pain, which sounded extremely strange.

"What are you laughing about? You're about to die!" Just as Hell Suppressing Guardians brandished the iron chain in his hand, his expression suddenly changed. He discovered that his energy was rapidly draining away.

"Those who are still in danger of death, who do you still not know!" Chen Xiang endured his pain and laughed: "The blood I spat out just now, tasted good right?!"

Hell Suppressing Guardians's face paled. "Poisonous ... It's the Super Old poison! "

#### [Chapter 1706](#)

Hell Suppressing Guardians suddenly felt his body turning soft and cold. Two other powers were flowing in his blood.

This Hell Suppressing Guardians was just too powerful. After he found out about the poison, he immediately used his powerful strength to suppress the Super Old poison.

"Just how many types of Super Old poison are there?" Hell Suppressing Guardians's expression turned uglier and uglier. He could feel that there were several types of poison, and they were very powerful, all at the Super Old poison's level.

"Not many, just five." Chen Xiang laughed out loud: "What, you're scared, aren't you invincible? I want to see how you can get rid of these five Super Old poison, how you can enjoy yourself enjoying so many Super Old poison s before you die, I'm afraid you're the first person in history, your luck is good."

Chen Xiang had previously hidden those gentle Super Old poison inside his body, and spat out a poisonous pill while spitting out blood.

Hell Suppressing Guardians was anxious and angry, he bellowed, he did not dare to shout, afraid of triggering the poison.

"Don't be happy too early, to tell you the truth, we came in a small team, we have a total of four people, and I still have three other companions on the way. Although the Super Old poison are powerful, I can

still hold on, and as long as my companions send me back to hell, I will have a way to expel the poison." The Hell Suppressing Guardians sat on the ground and closed his eyes to suppress the Super Old poison.

Chen Xiang laughed coldly: "You had intended to keep the four Divine Deity pellets for yourself just now, but now you call them your companions. You didn't think of all these companions just now."

"You're so heavily injured right now, you should just lie there and wait for death." Hell Suppressing Guardians opened his eyes and glared at Chen Xiang. At this moment, his entire body was covered in sweat, because those Super Old poison s were truly too strong.

Chen Xiang also felt that it was unbelievable, that Magical corruption gas, Drunk god magical poison, Blood Orchid Mantra, Blood Orchid Mantra and Old Man Gu were mixed together, and the quantity was so large, but this Hell Suppressing Guardians could actually endure it.

"There are still three Hell Suppressing Guardians s coming. It looks like I have to enter the dark area now." Chen Xiang had already sensed the auras of the other three Hell Suppressing Guardians s.

"My comrade is here. You will die today." The Hell Suppressing Guardians heaved a sigh of relief. Right now, he did not dare to use his powers carelessly.

After saying that, Hell Suppressing Guardians suddenly felt his body moving.

"What are you doing?" Hell Suppressing Guardians looked around and realized that the land he and Chen Xiang were on was actually moving swiftly towards the dark area ahead.

"Of course it's to go inside. I heard that it's very scary inside. In any case, you and I are about to die, so why don't we just die inside?"

Chen Xiang laughed. Although he was lying there and did not move, his soul was not harmed at all, and his god powers were vast, allowing him to use spatial powers and perform spatial techniques similar to the Earth Shrinking Art to move to the other side.

"Bastard, stop it. Do you really not know how scary it is inside?" At this moment, he was getting closer and closer to the dark region. He could clearly see the black aura floating outside the darkness region and as long as he passed through the huge black belt, he would enter the darkness region.

"I truly do not know. No matter how frightening it is inside, since I am going to die, I might as well drag you down with me." Chen Xiang laughed very easily.

"You ..." It was unknown whether Hell Suppressing Guardians was so angry that he could not speak, or was scared speechless.

In the blink of an eye, Chen Xiang and Hell Suppressing Guardians were wearing a black belt, it was pitch black inside.

But the darkness did not last long before they saw some light, and then they felt themselves falling.

"The space is changing." Chen Xiang frowned, they were originally going forward, but now they suddenly dropped, going left and right at the same time.

"Can you go back?" Long Xueyi asked.

"I don't know yet, but the changes in space here are very strange. Even if I have the Space Laws, it would still be difficult to find out." Chen Xiang said: "Looks like the power that separates here, other than the power of space, there is also another type of Law Energy. When these two powers are combined together, and then mixed together in reverse, it's very difficult to fathom."

"What is the power of the other law?" asked curiously. Other than Long Xueyi, no one else knew of Chen Xiang's miserable state.

"It should be the Time Laws. The power of time has always been mysterious, I'm not too sure either. In short, the chaos in space plus the confusion in time forms a very strong barrier. It's very difficult to leave this place after entering." Chen Xiang said.

After a while, neither Chen Xiang nor the Hell Suppressing Guardians moved. They were both lying in the same place and there was the scent of the soil in this place. They had already arrived at a relatively normal place but this place was completely dark.

"Nine Crimson Star, Nine Calamity God's Punishment, finished, everything is finished ..." The Hell Suppressing Guardians watched as the nine blood stars formed in a straight line, emitting a blood-red glow that enveloped the entire ground.

The ground was eerily dark red, and the surroundings were a desolate place. The faint blood-red light shone through, and one could see the dark red, withered hills, which added to the eerie atmosphere of the place.

"What Divine Punishment of the Nine Disasters?" Chen Xiang asked.

"Hmph, we were killed by you. Without sufficient strength, we cannot leave this place." The Hell Suppressing Guardians glared at Chen Xiang. "You better give me a quick death right now so that my soul can quickly descend into hell ... However, looking at you, you don't have the ability to kill me. "

All the bones in Chen Xiang's body shattered, but he could still move. He could make his divine power seep into his four limbs, and then use his divine power to replace the bones and allow himself to move flexibly.

"Weren't you afraid before? Why are you in such a hurry to die?" Chen Xiang was very confused.

"If you don't die soon, as long as the 9 stars circulate, you won't be able to die even if you want to. You will be tortured until the next time the 9 stars form a new line." Hell Suppressing Guardians looked up in fear, seeing the nine blood-red stars that were emitting red light in the sky, "That is the God's Punishment, the power that specializes in punishing the Gods. If one receives the highest punishment in Gods Realm, they will be thrown here, and only after nine consecutive rounds will they be released.

Chen Xiang exclaimed: "Doesn't that mean there are other gods here?"

"This place is an ancient God's Punishment Grounds, it has already been sealed for a very long time, but the energy that is circulating here is still here, so it will be sealed here. There are no gods left in this place, you can leave after being tortured here for 981 times." This is an ancient God's Punishment Grounds, it has already been sealed for a very long time, but the energy that is circulating here is still here, so it will be sealed here.

Hell Suppressing Guardians's face was filled with despair. "And when the great calamity descends, you will not die, because this place will make you endure endless pain at all times."

#### [Chapter 1707](#)

Chen Xiang and the others were shocked that the dark area of the Life Forest was actually a God Realm punishment grounds. Now that they had barged into this place and were unable to leave, and the punishment energy had not disappeared, it meant that the punishment energy would continue. As long as there was a creature inside, it would be activated.

Chen Xiang tried to use his spatial energy, but it was completely useless. The space and time here were extremely strange, and the spatial laws he mastered were not applicable here at all.

"If you want to die, then don't resist the poison in your body. Just let the poison spread and you can die." Chen Xiang was calm, but he used his divine power to support his body and slowly moved towards Hell Suppressing Guardians.

"This won't do. If those strange poisons destroy my body, then a power will be born here. It will invade my body to restore my body, and my soul will also be forcefully pulled back into my body by that power to continue bearing the punishment." Hell Suppressing Guardians snorted: "Even if you wanted to kill me now, you wouldn't be able to."

"There is another power in this place that can revive dead people. Otherwise, the Life Forest outside would not have been so strange, it would have been affected by the life force here."

Chen Xiang laughed, "I can't kill you? If I kill you, don't regret it .... Of course, the dead cannot be regretted. "

"Come at me!" Hell Suppressing Guardians was very confident that Chen Xiang wouldn't be able to kill him.

All of the bones in Chen Xiang's body had been broken, and his muscles had been severely injured. However, his divine power was very strong, he could use it to attach to his four limbs, and then use it to move his limbs.

"Then I'll thank you first!" Chen Xiang snickered and took out a special wooden box. After opening the wooden box, there was some white powder.

"Thank me? What is that thing in your hand? " The Hell Suppressing Guardians frowned. Chen Xiang had many kinds of strange poisons in his hands, he thought that this might be a very strong poison.

"Something that can take your life!" Chen Xiang poured the powder from the wooden box onto Hell Suppressing Guardians's body. "This thing is called God-eclipse powder, you should ..."

"Ah — —" Before Chen Xiang could finish his words, the Hell Suppressing Guardians let out a wild roar. His body was emitting mist and was being corroded.

Chen Xiang laughed, "Thank you for your divine soul. To be able to obtain such a powerful divine soul like yours, my injuries are worth it!"

He channeled his Devouring magic kungfu and the Soul Absorbing Devil Spell, quickly extracting the Hell Suppressing Guardians's soul from it, then devouring it into his own Divine Sense Sea, before placing it into the Divine Deity.

Hell Suppressing Guardians's body had already turned into mist and dissipated. His soul had also been swallowed by Chen Xiang and had already died!

In Chen Xiang's eyes, this place that punished the gods was not as scary as what the Hell Suppressing Guardians had said.

After entering and killing the Hell Prince, he had gained the Hell Prince's Divine Deity and divine soul, as well as the Eagle Emperor's three beast emperors' divine souls. Furthermore, he had also obtained the Hell Suppressing Guardians's divine soul, so his harvest was extremely bountiful.

"Start to heal, then properly digest the soul that has been devoured these days! If only these souls could be moved." Chen Xiang wanted to give these divine souls to Liu Meng'er and Xue Xianxian.

"That's not good. It's better for the soul to cultivate it itself, or to use other methods to help it grow. For example, the methods in the Divine Devil Cult, using someone else's soul as the base of their soul is not good." Long Xueyi said: "Other people's soul is only suitable for cultivation."

Chen Xiang said: "When the Divine Devil Cult's Sect Leader's memories were searched, I know that they have cultivated the secrets of the God Soul. Once I leave this damned place, I will return to the Nine Heaven World and help Xianxian and the Elder Sister Meng'er develop their God Soul."

"Hurry up and refine the Space black iron. If you want to return to Nine Heaven World, you will need to rely on the artifacts refined by the Space black iron to be safe."

Liu Meng'er and the other girls were busy inside the ring, understanding that the presence of so many Space black iron was a huge project. If they were to do it in the Divine Fire Forest, with Jiang Sheng's help as a Divine Craftsman, it would be much easier.

Chen Xiang started to cultivate. Since the nine blood colored Bane Stars in the sky did not make any movements, it meant that there would not be any danger for the time being.

"Using the Heavenly Alchemy to refine those divine souls should be a lot faster. When my divine soul becomes stronger, I can then refine the Divine Deity of the Hell Prince into my own Divine Deity so that my Divine Deity can become even stronger." Chen Xiang thought.

His body was extremely weak when compared to the cultivation of his soul, and looking at his current cultivation level of Divine Deity, plus the fact that he could cultivate Emperor souls in the future, he would need to have at least the jade bones to be able to balance himself.

Cultivating the physical body was extremely difficult, and the quickest way was through high level pills, such as sacred pills!

Back then, the Pill Saint relied on eating the Holy Elixir to cultivate to become a powerful Jade Bone, Chen Xiang was very confident that he would be able to obtain a powerful physical body in the future. As long as he could refine a Holy Elixir and find a medicinal ingredient to strengthen his body, he would definitely be able to do so.

Chen Xiang had Divine Deity. As long as he could settle down and cultivate, he could quickly refine the soul that had been devoured, and make his own soul stronger.

The divine souls of Hell Prince, Dragon Emperor and Hell Suppressing Guardians were all extremely strong, and were not easy to refine. Only when Chen Xiang combined with his Divine Deity, could there be any obvious progress, and even then, it still required a period of time to complete.

As he trained, he did not feel the passage of time, especially when Chen Xiang was studying the Heavenly Alchemy and cultivating at the same time. During this time, he did not have much contact with the girl inside the Youyao ring, nor did they disturb Chen Xiang, which was why he was able to concentrate on cultivating.

It had already been a year, and in this blood-coloured starlight covered punishment grounds, only Chen Xiang was left. The surroundings were deathly still without any sound, but this place was filled with an extremely dense amount of life force.

Even if the previously heavily injured Chen Xiang didn't heal himself, he would still be able to recover quickly after lying here for a period of time. This was exactly as the Hell Suppressing Guardians had said, it would be extremely difficult for him to die here.

"I've finally finished refining those Divine Deity!" Chen Xiang opened his eyes and exhaled. There was a look of disappointment on his face.

"You haven't cultivated a Emperor soul?" Long Xueyi asked. If it was like this, she could understand Chen Xiang's disappointment.

Chen Xiang shook his head: "No, those fellows' souls can only absorb a little too little energy. The rest will turn into impurities and be refined away during refinement, the main reason is that these fellows' souls are not pure enough."

Although the souls of Hell Prince and the Dragon Emperor were strong, there were too many elements of evil that could not be absorbed. Therefore, although Chen Xiang had devoured a lot of the souls, although the souls were strong, only a small amount of them could be absorbed.

"Don't be discouraged, how can cultivating Emperor soul be so easy? In the past, the Strong of Lord Stage s would at least take ten thousand years to cultivate. " Long Xueyi comforted her: "Do you need my help?"

Long Xueyi's help was to cultivate the Gods join method!

### [Chapter 1708](#)

"I don't need it for now. This place isn't suitable for me. I should take the opportunity to copy some of the poison now!" Chen Xiang had used up all of his Super Old poison s, so he had to refine some of them just in case.

It had taken him three months to duplicate the poison and then refine it again, and the progress of the ring was also very slow. After refining the Space black iron, they had to refine it a step further to be able to raise the quality of the Space black iron, otherwise the refined treasure would not be good.

Chen Xiang had stayed here for more than a year, but he had not encountered any danger. The nine blood colored Bane Stars in the sky were still the same as before, lining up in a straight line without any movement!

Although it was safe until now, Chen Xiang was still rather worried. The only thing that made him feel at ease was that he would not die here, but from the description of the Hell Suppressing Guardians, he would definitely die rather than live.

"What are your plans now?" Long Xueyi said: "There's no danger right now, it seems that it will take a while before this place will start to circulate. You can continue to cultivate, it would be best to refine that Divine Deity."

Chen Xiang asked: "If my Divine Deity becomes stronger, will it be of help in my cultivation of Emperor soul?"

Long Xueyi immediately replied. "Of course it's helpful, you can try if you don't believe it, you should know the benefits of having a strong Divine Deity in order to cultivate the divine soul. If you don't have the divine soul, do you think that you can refine those swallowed divine souls that quickly?"

"Of course not, it's just that I feel that it's very difficult for me to cultivate a Emperor soul, unlike other people!"

This was not an illusion on Chen Xiang's part, Long Xueyi had the same feeling. His soul was already very powerful, stronger than even some of the Strong of Lord Stage's Emperor soul's, but his soul was still not that of a Emperor soul.

Long Xueyi said: "This is a good thing, it means that your Emperor soul will be very powerful! But don't worry too much about your Emperor soul's abilities. It should be related to refining pills and it will definitely be of help to you. "

"Mn, I will start refining the Hell Prince's Divine Deity now, don't be so tired while you're inside, I still haven't thought of a way to get out of here."

If it wasn't for the dangers of this place, he would have let the girls out and had them have a good chat.

Chen Xiang began to cultivate and refine the Divine Deity!

Inside his Divine Sense Sea, a cauldron appeared. It was formed by him using the Heavenly Alchemy, and inside the furnace was a Taiji array that was filled with the composition of Spirit grain. The Divine Deity was suspended above the Taiji array, and following the rotation of the Taiji array, the Divine Deity continuously released some black qi, forcing the evil consciousness inside the Divine Deity to come out.

"Hell Devil Emperor, no matter how strong you are, I will not lower my head to you. Just you wait! Sooner or later, I will let you know how powerful I am. Don't think that hiding in hell will allow you to rest easy. "

Determined, Chen Xiang clenched his fist and the Divine Deity of the Hell Prince inside the Divine Sense Sea immediately shattered, turning into a sheet of sparkling and translucent light, all of it being absorbed by his own Divine Deity.

As expected, after his Divine Deity absorbed the powder, it had become much more powerful. At least, he could feel that his perception towards strength was much sharper than before and was able to unleash the greater potential of his body.

Previously, Lv Zhen had said that if he wanted to become stronger, he would have to grab it from his physical body. Only when his physical body becomes stronger would his Divine Deity and divine soul become stronger, and only after balancing would they be able to unleash their strongest powers.

"Now I'm training my fleshly body!" If my physical body cannot keep up, maybe I won't be able to cultivate Emperor soul! " Every time Chen Xiang devoured and refined a few divine souls, even though he felt that he had clearly improved, and always felt that he was not too far away from becoming a Emperor soul, he was still unable to cultivate a Emperor soul after so long.

Therefore, he now decided to cultivate his fleshly body to an even stronger level!

"There is a Spirit Refinement Method and a Body Refinement Method in the Heavenly Alchemy. I will try it now!" Chen Xiang stood up, his legs slightly opening up, his fists clenched, he steadily stood on the ground, and started circulating the Heavenly Alchemy's body tempering manual.

A circular Array appeared under his legs, the mystical mystical Spirit grain that was drawn with the divine power was releasing waves of piercing gold light. Following the appearance of countless Spirit grain, a red light suddenly spurted out and enveloped his body.

Chen Xiang's body was wrapped up by the red light. The red light was like an air flame, constantly pulsating and coiling around Chen Xiang's body. Within the red light, there were also a lot of small Spirit grain s, which looked extremely strange.

It was difficult to explain it clearly, but in short, it was extremely uncomfortable. The clearest feeling was that his body felt like it was being pulled, like it was melting, and his bones felt like they were cracking, but it wasn't really that painful, only a little sour and itchy, which were occasionally accompanied by a weak stinging sensation.

The reason why he used the Heavenly Alchemy to cultivate his fleshly body was because he was constantly using up the vast amounts of God Power in the Divine Sense Sea. These God Power could still be cultivated even after exhausting it, and the use of these God Power did not seem to be a waste.

Of course, only in this situation would he dare to use his God Power to cultivate.

When he used the Heavenly Alchemy to refine his body, the consumption of divine power was extremely fast. In merely half a day, Chen Xiang already felt that his extremely robust divine power had been reduced by eighty percent!

If this was an ordinary situation, it would be hard for him to suddenly lose so much divine power!

Now he stopped cultivating and ate some immortal pills that helped him recover his spiritual power. It took him four hours to recover and then he continued to cultivate his physical body.

After going on like this for more than ten days, Chen Xiang felt that his body had improved significantly, but it was still rather slow. This method of cultivating the body was the fastest way to not eat high level

pellets, but it still required a lot of time. He felt that he would need at least hundreds, or even thousands, of years to see the best result.

"There's no other way. If I want to make my body stronger quickly, the only way is to concoct the sacred pill. It seems that I need to learn to concoct the sacred pill here." Chen Xiang said.

"You can refine Sacred animal Dan and Tianlong Dan. These are the herbs in your possession that can continuously evolve." Long Xueyi laughed.

Chen Xiang already knew how to refine the Jadeite Divine Pellet for the Level Seven Spirit Pellet, but he didn't have the materials for the next Level Eight and Nine, so he had never tried it.

The refined ingredients for Sacred animal Dan and Tianlong Dan could evolve. If it really wasn't possible, then using these to refine one's hands was also possible. It wasn't that good, but it could more or less be used to raise one's level.

"I can only give it a try. As long as I have time, I will refine a Grade Eight or Nine Sacred animal Dan. Then, I will continuously try to refine some Divine Pills." Chen Xiang had already planned to stay here for a while, until he could concoct the Holy Pellet.

Refining Sacred animal fruit and Tianlong Dan, even if their grade had increased, it would not be too difficult to refine them. Because the refining method was always like that, the only thing that needed to be altered was the control over the temperature of the furnace, so if he kept refining the two pellets, it would at most allow Chen Xiang to familiarize himself with the control of the fire during refining process.

As long as the temperature of the fire increased, it would be beneficial to him in concocting the Holy Pellet. After all, he was using the Heavenly Alchemy when concocting pills, not the Foreseeing Alchemy!

For Foreseeing Alchemy to raise his level, he would need to go through a lot of training. For example, Chen Xiang only knew how to refine Level 7 immortal pills, if he wanted to refine Level 8 immortal pills, he would need to use the Foreseeing Alchemy to refine a lot of Level 7 immortal pills.

Furthermore, there was no need for God purification. As long as one had a certain level of experience, with a soul and flames that were strong enough, they would know how strong the flames were when refining a Grade Seven Celestial Pellet.

"You have quite a lot of Holy level medicinal ingredients, and some are useful to your body. If you were to use them to concoct a sacred pill, it wouldn't be a problem for you to obtain a strong physical body as soon as possible." Long Xueyi said.

"Meng'er, do you need to eat some high grade immortal pills to improve your cultivation?" Chen Xiang asked: "You can put aside the work at hand, I'm not in a hurry to get that ship anyways, I care more about your strength being raised."

"Let's not use that for now. Refining every day is also a form of cultivation. If you can refine a Holy Pellet, so what if our progress is slower?" Liu Meng'er smiled and said: "You already have a Holy Pellet, when the time comes, wouldn't it be even easier for us to become stronger? It's much better than training hard now! "

"That's right, it would be even better if you had a soul by then. You should start concocting the Holy Elixir as soon as possible." Xue Xianxian chuckled, "Sister Xue Yi gave us so many delicious things everyday, it's not much worse than those immortal pills. Don't worry about me."

"That's good, then I'll be troubling you." Chen Xiang's heart suddenly filled with an indescribable warmth.

"Don't be polite with us." Dongfang Xinyue scoffed, "You really don't treat us as your own people!"

Chen Xiang chatted with the girls for a while before he started to refine the [Immortal Grade Eight Sacred animal Dan].

When a Level Eight Immortal Sacred animal fruit was placed inside the Yanlong furnace, Chen Xiang used the Sacred Flame to heat it up and began to refine it. He now had a deeper understanding of the Heavenly Alchemy, so he felt that it would be much easier to refine it in the future.

Now, when he was refining the Sacred animal Dan, he felt that it had become much simpler!

In the past, if he wanted to refine the medicinal ingredients, he would need to continuously use his divine power to attack the spirit within the ingredients, and at the same time, control the powerful flames to burn them.

Furthermore, after he gained a deeper understanding of the Heavenly Alchemy, he had improved it when he was using it. When he started refining the herbs, it was not that difficult anymore, but he needed to release a flame that had a spiritual nature. The flame was released through some methods of the Heavenly Alchemy, although it was only a small flame, it consumed a lot of mental strength.

Right now, Chen Xiang had to control the strength of the spirit fire. After finding a suitable temperature, he would be able to quickly refine the Sacred animal fruit, although he needed to adjust his body a little at the beginning, but once he found the right spot, he could quickly refine the spirit fire.

## [Chapter 1709](#)

To Long Xueyi, refining the eighth or ninth grade Sacred animal Dan s, they were nothing more than snacks. If he wanted to help with cultivation, he would need to obtain the Holy Pellet.

"If you can concoct a Holy Elixir, and it is very fast, then it will definitely be under your control." Just thinking about it made Long Xueyi excited, because Chen Xiang had created many amazing miracles in pill refining.

The number of Pill Saints in Nine Heaven World and the Endless Heaven Realm could be counted on one hand, but most of these Pill Saints lacked a large amount of Holy level medicinal ingredients and their refining techniques were similar and used the cumbersome Foreseeing Alchemy.

Chen Xiang laughed: "I have no intention of beating the world, I only want to refine some higher level pills, and look for higher level medicinal ingredients to make myself and the other important people around me stronger, to be able to explore everywhere, my ambition is not that big."

"That's true. If you can concoct so many sacred pills in the future, you will definitely find it boring to fight and kill everywhere." Long Xueyi thought for a while, then laughed: "It's better to eat and drink until the food is good."

The Yanlong furnace had always been stable, but this was the first time Chen Xiang used this kind of Holy level Spirit Fire to refine a pill, he never expected it to have such an unexpected effect.

"Everything is going smoothly, just like how I refined a Tier 6 or 7 immortal pill! It seems like this [Eight Rank Sacred animal Dan] is very easy. " Chen Xiang was a little surprised: "Could this be because of the Sacred animal Dan?"

He had refined Sacred animal Dan all the way here. Although refining high level Sacred animal Dan required high level Sacred animal fruit, he was very clear about its special characteristics. Adding on to the fact that he had a stable spirit fire, it was only because of this that it had gone so smoothly.

"I wonder how is the Tianlong Dan being refined!" Chen Xiang was suddenly looking forward to using this Holy level Spirit Fire to refine the other Grade Eight Pills.

"Since the refining process was so smooth, I might as well refine a few more." Long Xueyi laughed and said: "Although it won't help me cultivate much, but this pill is very delicious, eating more won't hurt me."

Chen Xiang scoffed, "All you know is to eat and eat all day, don't lead Xianxian and the others astray. If they were to eat all day like you did, I would be in pain."

At this time, Xue Xianxian's sweet, clear, bell-like laughter rang out: "Blossom Heart Big Radish, we will eat to the end of the world. Sister Xue Yi said that you need to eat more before you can become stronger."

"Xianxian, don't listen to her. Her understanding of food is different from yours!" Chen Xiang said with a bitter face: "I've raised enough greedy Dragons, you guys don't have to blindly meddle in this."

"Serves you right, who told you to go around stirring up trouble, you don't have that kind of ability, to have mercy on others back then, as far as I know ... .." My future sisters might fill this place, hmph. " Xue Xianxian scoffed, "In the future, ask Xue Yi to teach you more about eating. I want to see if you have the power to control so many women."

Hearing Long Xueyi's gloating laughter, Chen Xiang really wanted to pull her out, tie her up and put her in front of a pile of delicious food. If she couldn't eat it, Chen Xiang would torture her to death.

"Actually, there's nothing to be afraid of. When the time comes, I will definitely be able to deal with it." Chen Xiang suddenly became very confident, because he thought of a person who could help him in this aspect, and that person was Lv Qilian!

When the spirit liquid he condensed mixed with Lv Qilian's spirit liquid, it would be extremely powerful, and he and Lv Qilian would still be able to grow in the future. At that time, they might even be able to be even more powerful, and would be able to help him duplicate many high grade medicinal ingredients.

"Alright!" Chen Xiang opened his pill furnace. This was an eighth ranked Sacred animal Dan, but Chen Xiang did not feel much accomplishment because the difficulty of refining this Sacred animal Dan was too low.

"I used four hours to refine four pills!" "He's really strong, not bad, not bad at all. If I were to put in more effort, I should be able to make a furnace out of it in just two hours." Long Xueyi tasted the [Eighth] class Sacred animal Dan s refined by Chen Xiang, and praised it endlessly.

Although Long Xueyi liked to eat them, she was also very generous. She gave the ingredients to Kong Bailing and Pearl respectively.

Following that, the Tianlong Dan s were the same as the Sacred animal Dan, and everything went smoothly.

In order to test the Holy level Spirit Fire, he had repeatedly refined the Immortal Grade Eight Sacred animal Dan and the Tianlong Dan. After refining dozens of them, he finally stopped.

"Grade 8 immortal pills are more famous than Spirit Consolidating Pills. They are mainly used to stabilize the soul!" Chen Xiang sighed with his head raised, "It would have been great if I could get it back then."

Grade eight immortal pills were usually eaten by Saint Immortals or Saint Lords, and at this level, one would usually focus on cultivating the soul. Moreover, there were very few people who could transform into a Saint realm and only after reaching the Saint realm would they be able to cultivate the soul. At this time, a lot of attention was being paid to cultivating the soul.

Therefore, grade seven and eight pills were extremely helpful to the soul and could be sold at an exorbitant price.

"Lad, you want the materials for the Solidified Spirit Pill?"

Just as Chen Xiang was letting out a long sigh, a voice suddenly came out, startling him. There was actually someone else inside.

"Who is it?" Chen Xiang suddenly stood up, looked around, and saw nothing.

He had been here for more than a year. Although he did not encounter any danger, he still maintained his high vigilance. However, he did not discover anyone during this period of time.

"Don't worry, I'm a human, I won't hurt you." A chubby middle-aged man with a black bag on his shoulder walked over with a smile on his face. He looked like a martyr who was eyeing his prey.

"Are you human? What are you doing here? " Chen Xiang asked, clenching his fists tightly, he was wary of his opponent.

"I'm a merchant. I can bring anything the people here need!" The fat middle-aged man smiled and said: "My name is Peng Renyi, most people call me the benevolent and righteous husband."

Chen Xiang looked at his deceptive smile and muttered: "No matter how I look at it, he looks like a annihilator."

"Why are you here? Isn't this place the God's Punishment Ground? " Chen Xiang pointed to the nine blood colored Bane Bane Stars in the sky.

Peng Renyi laughed: "This was indeed a God's Punishment Ground in the past, but that was a long time ago. You must have been here for a while, have you encountered any disasters? "Obviously not, because the nine stars were sealed a long time ago."

"Let's return to the main topic at hand. You mentioned earlier that you need the materials to concoct the Solidified Spirit Pill, right? I can get it for you! "

Chen Xiang said: "I want to go out, can you help me? How the hell did you get in? If this place is not a God's Punishment Ground, then what kind of place is it? "

"You don't need to know where this is, and you don't need to worry about not being able to leave in the future. Just stay here for a while longer and you will understand. You've been here for so long, you haven't been around, have you? " Peng Renyi laughed: "This place is not as scary as the guy you killed said. This place is still filled with love."

### [Chapter 1710](#)

In this dark place that was shrouded in blood-red light all day, no matter how one looked at it, it didn't seem like love at all. It was more accurate to say that there were ghosts, and this fellow in front of him was full of nonsense.

"I just want to get out now." Chen Xiang said: "You are a merchant, as long as you can pay the price, you should help me get out, right?"

Peng Renyi smiled and nodded: "It is indeed like this, as long as I can pay the price, I can help you out. However, I have stayed here for over a hundred thousand years and have not been able to earn enough money, so it's best that you don't think of it. With the sudden appearance of a new member, we will definitely welcome you. "

Chen Xiang was startled, the fatty in front of him had actually stayed here for more than a hundred thousand years, yet he was still unable to leave.

"I remember that someone came in before and even went out. You're lying!" Chen Xiang said. The Vermillion Bird had come in before and had even gone out smoothly.

"Um ..." We were surprised that she could get out. We discussed it for a few months and thought she was lucky, but you didn't have that kind of luck and neither did we. " Peng Renyi said: "Don't worry, this place is similar to your outside world, it's just that there are not many people here, and your devilish technique that devours others should not be used carelessly. We have a lot of love here, we do not wish to see people die, if not it will be very boring."

Chen Xiang curled his lips: "You're already bored to death, how many people are there here?"

"Only 500,000 yuan, right? But most of them are very powerful. With your current strength, you're only at the bottom." Peng Renyi laughed: "But you don't have to worry, I won't bully you, the people here are all good."

Chen Xiang was in disbelief: "If he's a good person, how could he be locked in this God's Punishment Ground?"

Peng Renyi shook his head and sighed: "Honestly speaking, most of us are imprisoned here, this place is equivalent to a cell, only a few unlucky fellows like you can't enter and leave. We were locked in here not because they thought we were bad, but because some even worse people are worried that we would ruin their good fortune, so they threw us in."

"Alright, I'll believe you for now." Chen Xiang felt that the fatty in front of him was not simple, his strength must be very strong, if not he would not have quietly been staring at him for over a year.

"Brother Renyi, if you want to go out, what do you need to do?" Chen Xiang still wanted to leave. Although Peng Renyi said that this place was filled with love, this kind of lifeless place made people not want to stay.

"You only need to get a thousand gold coins!" Peng Renyi took out two round coins that were faintly emitting a silver light.

Chen Xiang looked carefully, the surface looked very smooth, but if he looked closely, he would realize that on the smooth surface, there were very thin and fine lines, it was a kind of Spirit grain that was very thin and engraved, and there were a lot of of of them.

Peng Renyi flipped over another side, and on top of it was written the word "God", this ancient character was taught by Long Xueyi, and this character was also formed from a large number of complicated Spirit grain s, and this side also had many floating strange diagrams, which were also formed by Spirit grain.

"Just how much energy did you put into creating this kind of coin?" Was it necessary? "What is the purpose of this coin?" Chen Xiang reached out and picked one up, looking at it carefully. This kind of coin was unlike the Holy stone and immortal stones he used before, they could absorb the energy inside it to cultivate.

"Hehe, little brother, your eyesight is quite good. You can see the power of this godly money with a single glance. If I gave you the material, would you be able to make an exact copy of it?" Peng Renyi asked with a smile.

"No, it's too complicated. Even if I could, I would need to do it over and over again, and adding the time spent on it, I might barely be able to do it. However, I might need to consume a lot of materials, and I also need to use a lot of time to memorise all of the Spirit grain. " Chen Xiang frowned, thinking about the complex situation that had happened, he felt a headache.

"Who the hell made this thing?" Chen Xiang felt that this person's smithing skills must be even better than Jiang Sheng's.

"This man is the Gods Realm's God of Fortune, and these kinds of things were created by him. We have an old man here who took three hundred thousand years to make a face." Peng Renyi sighed: "And if we want to go out, we can just give a thousand of these to the Penalty Heavenly God, I only have around fifty of these divine money."

Hearing that, Chen Xiang could not help but be startled, and then he returned the divine money back to Peng Renyi.

Even though Peng Renyi had been in here for more than a hundred thousand years, he could only get around fifty or so. This showed just how precious this type of divine money was, but he was still generous and showed it to Chen Xiang.

"How do we do a thousand? "How much money is there exactly?" Chen Xiang asked: "If one has very little divine money, doesn't that mean that battles to steal and rob often happen? How can there be love in this place? "

Peng Renyi laughed out loud: "When I first came in, I also felt the same way, but after this divine money drips blood, as long as it is taken away by someone, you can return it to your hands with a thought. If you are killed, the divine money will also disappear."

"So powerful!" Chen Xiang exclaimed: "No wonder it's so complicated to create!"

An old fellow had taken three hundred thousand years to create one. If the other side could be created, it would take at least three hundred thousand years, six hundred thousand years to create one. Just thinking about it was terrifying.

"Of course, this was created by the God of Fortune, the God of Fortune in Gods Realm is a very powerful being! And this kind of divine money is always released and reclaimed by him. It is said that the ones responsible for making it are only a few of his disciples, and they produce quite a bit every year. " Peng Renyi said, "This place can be seen as the Divine Prison, a special place to imprison harmless people. Those who commit many evil deeds are all in hell."

"So that's how it is!" Chen Xiang looked at the nine Bane Calamity Stars in the sky and asked, "Then what do I need to buy to buy the Spirit Consolidating Pellet's medicinal ingredients from you? I just came in, so I don't have that kind of money. "

You are an alchemist genius, refining the Sacred animal Dan of the eighth stage of the Immortal realm and the Tianlong Dan of the Tianlong Dan. That speed is shockingly fast, although the majority of the people imprisoned here are above Gods Realm, they are not strong, and there are a few beasts around, so I guarantee that they will not lose out if you help me refine those Sacred animal Dan. Peng Renyi said.

"There are two different ingredients for the Soul Consolidating Pellet. The Cyan Jade Ginseng and the Palm Flower, how many Sacred animal Dan s do you need in exchange?" Chen Xiang asked.

"How about 20 Sacred animal Dan s and 20?" Peng Renyi laughed: "That's very kind of you."

"Five Sacred animal Dan, five Tianlong Dan." Chen Xiang curled his lips: "My ten pills are all Grade Eight Pills, and the quality is even better, yet you only need to give me two Grade Eight immortal medicines, you have already made a huge profit."

Chen Xiang did not lack Sacred animal Dan s, but he was not willing to be at a disadvantage, not to mention that his opponent was so evil.

"Alright!" Peng Renyi laughed: "I'm a businessman, so it's normal to seek higher interests for myself. Please don't mind me."

"I understand, I've met many people like you before." Chen Xiang took out twenty Sacred animal Dan s and twenty Tianlong Dan s, all from Long Xueyi.

"In the future, let's work together more. My channels are wider, and if you have more medicinal pills, I can sell them for you." Peng Renyi was more satisfied with this transaction.

Chen Xiang asked: "Are all the trades here conducted by trading items?"

The denomination of divine money was very large. A divine money's value was very high, so the things it bought would definitely be very precious. If it was an ordinary item, then it would definitely not be just exchanging for an item.

There are a lot of Black Holy Iron here. After repeatedly forging these Black Holy Iron, you will be able to make the same divine silver iron as the divine money. We will turn it into silver, but we usually use this kind of silver iron to trade. Peng Renyi took out a "silver coin" that was the size of a god's money. The only difference between this silver coin and a god's money was that there weren't any Spirit grain carved on it.

"This kind of money is not easy to get, a level eight Immortal Sacred animal Dan would need five of this kind of money to buy one, and one of this kind of money needs ten thousand pounds of Black Saint Iron to create it, some veterans need a month to make one." Peng Renyi said: "I can also give the money I made to the God of Fortune. After the God of Fortune recovers, they can use it to refine God's money."

Chen Xiang started to understand: "So if you want the divine money, you need to use this silver to exchange? How much do I need in exchange for a divine coin? "

"One hundred million silver taels can be exchanged for a divine coin from the God of Fortune!" Seeing Chen Xiang was frightened, Peng Renyi laughed: "Are you surprised? But let me tell you, this is how I got my thirty divine coins! "

30 gold coins, was exchanged for 3 billion silver coins, just thinking about it, it was not easy! And to leave this place, would require 1000 gold coins, Chen Xiang's head suddenly hurt, it was truly difficult!

"Is there any black holy iron anywhere?" Chen Xiang asked: "Why didn't I see it?"

"That's because you haven't gone anywhere yet. The place you're at right now is very desolate and has long been excavated. Look up, the nine stars have the weakest radiance." Peng Renyi asked.

"The first one." Chen Xiang pointed.

"Right now, most of the people are on this planet. It's very big, you'll know when you go up and take a look." Peng Renyi laughed: "It's best if you get used to it first before you run around. Those Bane Stars are also full of danger."

"These Bane Bane can actually go up!" Chen Xiang was very surprised.

"Of course, you will know once you get to the higher ups. Once you get there, everything will be normal! I'm going back now, so I'll take you up with me. If you want to fly up by yourself, it will take a long time."  
"

Peng Renyi took out a disk and stood on top of it with Chen Xiang. Then, he quickly controlled the disc to rise above the ground, and it disappeared into the distance in the blink of an eye.

This abandoned God's Punishment Land had actually been turned into a prison specially used to imprison prisoners of Gods Realm. Peng Renyi said that most of these prisoners were good, which made him feel that the ruling class of Gods Realm was not something good.

And the biggest use of this place was to produce that kind of silver, and then send it to the Gods Realm to process it into divine money, which would circulate in the Gods Realm.
