

## Dan God 1791

### [Chapter 1791](#)

The person who was lying in ambush was extremely cautious, upon sensing that something was amiss, he slowly moved, as though he did not plan to attack Chen Xiang and the rest.

When they got closer, Chen Xiang sent a sound transmission to Xiao Chou and Tai Qiang: "This guy is worried that he won't be able to take us down, so he doesn't plan to attack. You two hurry up and stay far away from me, that way he would sneak attack me.

"Master, is this appropriate?" Xiao Chou was a little worried for Chen Xiang.

"When the time comes, you can act a bit faster and everything will be fine." Chen Xiang was not afraid at all. Although that person was strong, it was almost impossible to succeed in ambushing him under the circumstances that he knew.

Xiao Chou and Tai Qiang sped up their footsteps, purposely leaving Chen Xiang behind.

Sure enough, the person made the same move as Chen Xiang had expected. His movements were extremely quick and violent, and he shot over like a black ray of light.

Tai Qiang and Xiao Chou who were already prepared, were extremely fast, in an instant they flashed to Chen Xiang's side and unleashed a violent attack, in an instant launching several moves, they had all used Devil-killing magic kungfu and released a divine light that rushed forward like a wave.

Chen Xiang had already dodged, taking out his Suzaku bow, he released an arrow at the person that was drowned in the Demon Slaying God Power.

It was a split-second of attack, but it was the full power of both Xiao Chou and Xiao Chou's attacks. The remnant shockwave caused a large portion of the trees to shake, and the person was burnt black by the energy, falling flat on the ground.

"It's from the Hell Divine Palace. I didn't expect us to meet so soon." Xiao Chou walked over and kicked him twice. He did not die, he just lay on the ground naked.

Chen Xiang walked over, held onto the man's head and used a devil art to absorb his soul.

"Let's throw away this Divine Deity. There's the mark of the Hell Devil Emperor inside." Xiao Chou said.

"It's fine, I'll keep it." Chen Xiang placed the Divine Deity inside the ring, inside the ring was a space for channeling his spirit power, after which it would be isolated from the outside world, so the Hell Devil Emperor wouldn't be able to sense it.

This Divine Deity could not be sold, but to Chen Xiang who had the Heavenly Alchemy, this Divine Deity was a good material for refining pills.

"Looks like the people from Hell Divine Palace have been lying in ambush here. If not for Master, we might have been ambushed by that guy. These bastards have such strong concealment abilities, it's really troublesome." Xiao Chou cursed, he looked around, afraid that there would be more ambushes.

Chen Xiang laughed: "With me here, even if they were hiding on the ground, I would be able to discover them. Let's quickly go deeper in to find those demons, I think there will be more demons outside Devil Yang Valley."

Xiao Chou and Tai Qiang nodded in agreement. Afterwards, the three of them rushed to Devil Yang Valley as they approached the gate through it.

"We're almost at the Devil Yang Valley. There are already a lot of demons here." Xiao Chou looked at the footprints on the ground.

Tai Qiang said, "These demons are the result of the Hell Divine Palace's fusion. They might even merge with some beasts, so they definitely won't be too weak. Let's not underestimate these demons."

Xiao Chou said: "As long as it's not a group, we are not afraid."

Chen Xiang suddenly frowned and looked in a direction: "There are monsters over there, there are quite a few of them. Do you want to go over to take a look?"

"A few." Xiao Chou hesitated for a moment, then shouted: "Let's go."

They had not killed any monsters for a long time, and now that they had finally encountered them, it was only natural that they wanted to experience the strength of these demons.

The three of them carefully walked over. They wanted to use a sneak attack.

Inside Chen Xiang's Space Domain, the three of them had concealed themselves very well, and they could already see the five demons, they looked like gorillas, but they were covered in a kind of black armor, their back had sharp thorns, and their mouths revealed two long steel fangs that were flashing with sharpness.

"Old Tai, leave the highest one to me. Pick one yourself, Master. Don't move from here." Xiao Chou whispered to Chen Xiang and Tai Qiang.

Tai Qiang nodded his head, then the two of them quickly attacked together, like two bolts of golden lightning, they shot forward, in the blink of an eye, Xiao Chou's spear, which carried a strong Demon Slaying God power, pierced through a demon's head.

Tai Qiang's scissor cut off the demon's upper body.

Xiao Chou quickly pulled out his spear and stabbed it towards another monster like lightning. At the same time, he avoided the black liquid that the other monsters were spraying at him.

"There's poison here. Be careful." Chen Xiang sent a sound transmission to Xiao Chou: "The demon you attacked did not die."

The demon monster whose head was pierced by Xiao Chou roared out, the hole in its head suddenly leaked a thick black liquid, and the wound immediately healed.

As for the demon monster that had its body cut off by Tai Qiang, after its two halves merged together, they actually linked together, and also completely recovered.

"What are these monsters?" Xiao Chou fiercely leaped into the air, avoiding the black light shot out by the demons. The black light was laced with light green poison, if it took even a bit, then nothing good would happen.

Tai Qiang also frowned, his scissors had already cut off the heads of a few monsters, but those heads and bodies seemed to have a suction force, even if he kicked them off, they could quickly return back to their bodies.

Tai Qiang, use your fastest speed to cut off their heads. Leave the rest to me. Chen Xiang said.

Tai Qiang immediately followed their orders. After avoiding the demon s attacks, he quickly cut off their heads.

Chen Xiang used his spatial energy and opened a crack that led to a tyrannical space. Afterwards, he put the two heads inside, and just when he thought he had taken care of them, the two five demon heads actually grew out of it quickly.

"It won't work if this goes on, you guys try using the Devil-killing magic kungfu first."

Chen Xiang sent a sound transmission to them and then used the Chaos Divine Eye to check the black crystal in the demons' bodies. That was their energy source, as long as they could take the black crystal out, these demons would be easy to deal with.

"It's actually in a place like this, and it's so small at that." Using the Chaos Divine Eye, Chen Xiang saw the black crystals. The bones hidden in his thighs were only the size of walnuts.

At this time, a few demons came again. Xiao Chou and Tai Qiang had to struggle with them, because these demons were not weak, and their attacks were poisonous, unable to inflict heavy injuries on them.

"Divide through space." After Chen Xiang locked onto the black crystals on the legs of the demons, he used the power of the Space Law to separate them out.

Twelve black crystals suddenly appeared in front of Chen Xiang and at this time, the attacks of the monsters had already stopped. They couldn't even stand steadily and were blasted by Xiao Chou and Tai Qiang into black smoke.

"Why did he suddenly fall down?" After a moment of doubt arose in Xiao Chou's heart, he immediately turned to look at Chen Xiang's location only to see twelve black crystals floating in front of him.

Chen Xiang chuckled: "Although these guys are powerful, they don't have brains. They don't know how to defend against me.

## [Chapter 1792](#)

Seeing that Chen Xiang had revealed such a move, Xiao Chou's face was filled with shock. He placed his hand on top of his heart, "Master, wouldn't that mean you can casually pull out my heart?"

Chen Xiang laughed: "Of course it's not that easy, if you feel a weak power of space approaching you, you will definitely take action, as long as you react quickly, I will not be able to do anything, and will only be more effective in dealing with these demons."

"Unless I can do it silently and without the slightest fluctuation of spatial energy, then I might be able to easily take out your heart."

Xiao Chou immediately became excited: "Then let's go to Devil Yang Valley. When the time comes, Old Tai and I will divert the attention of the demons."

Chen Xiang nodded. "We better hurry up, the wargod teams are so powerful. If we were a little slower, they might kill us all."

Tai Qiang laughed: "Those demons are also not easy to deal with, there might be more powerful demons in Devil Yang Valley."

After figuring out the Magic Beast's speciality, Chen Xiang also felt that there was nothing to be afraid of for the Demon Beast. As long as they didn't meet any extremely powerful Demons, he would be able to take out the black crystal in a few seconds.

Their position was already very close to the Devil Yang Valley.

The leaves of the forest were pitch black, it was difficult for one's vision to penetrate through, so it was dark inside the forest. Currently, there was a very strong light in front, meaning that they would be able to exit the forest very soon, and they would be able to see the entrance to Devil Yang Valley.

"He's finally out. He's the Devil Yang Valley." Xiao Chou pointed to a large area in front that was covered in black Qi.

"The demonic energy is soaring into the sky. I wonder what powerful things are hidden inside. Those wargod teams should have already entered inside." Tai Qiang said, "Even though Master said that we are not allowed to enter without the help of a War God, but with the strength of the three of us combined, it shouldn't be too weak. Furthermore, Brother Shen possesses formidable spatial strength, so if you are in danger, you can escape quickly."

There were a lot of demons outside Devil Yang Valley, but it was not enough for Chen Xiang and the other two. Furthermore, they were scattered and needed to search in the forest.

Just like this, the three of them did not take Ren Tianyong's warning to heart and directly entered the Devil Yang Valley without profound God.

When they were at the entrance of the valley, an extremely strong demonic pressure made their chests feel stuffy.

"It's really dangerous inside." Xiao Chou exclaimed, but his face showed no fear, as did Tai Qiang.

Chen Xiang was not afraid at all. With a smile on his face, he replied, "If there really are a lot of demons inside, and everything goes smoothly, we should be able to get a middle ranked Divine Weapon for each of us."

When he mentioned the middle grade Divine Weapon, Xiao Chou was immediately excited, he laughed: "Quickly kill your way in, it's good with master here, we can save a lot of energy."

The three of them faced the dense Evil Qi and walked towards Devil Yang Valley.

Not long after, waves of eerie and low howls came from within. It was creepy to hear, and it was shrouded in a faint black mist that made it impossible to see into the distance, giving this place an even more eerie feeling.

"Master, I cannot use my divine power to sense too far from here." Xiao Chou became extremely vigilant.

"Me too." Tai Qiang was a lot slower.

"I'm fine, the black fog here can corrode God Power." Chen Xiang used spatial energy, so he was still very clear about the movements in his surroundings.

In order to prevent Xiao Chou and Tai Qiang from leaking their auras, the Space Domain he released also surrounded them.

"The ten wargods have entered" Chen Xiang could already feel a weak ripple from far away. Moreover, there was already a huge battle going on inside, so most of the demons and monsters here were attracted over.

Xiao Chou and Tai Qiang never thought that the inside of the Devil Yang Valley would have such a vile environment. If not for Chen Xiang, they would have already left, because they felt that they were currently blind and this place was filled with dangers.

"Don't worry, this black fog is just outside. There shouldn't be any black fog inside." Chen Xiang brought Xiao Chou and the others and gradually approached the depths of the Devil Yang Valley.

After walking out of the black fog region, there was a desolate, chaotic land in front of them. It was extremely vast, and Chen Xiang and the other two saw many black demons of various sizes in the distance.

These demons were different from the last time when they attacked Devil-killing Divine City. They were all of different colors, but they all had one thing in common, and that was that they had strong regenerative abilities.

"The powerful monsters have all gone to deal with the War God profound God, the remaining ones aren't that powerful." Chen Xiang laughed.

Tai Qiang saw the monster in front attacking a sturdy man holding a rainbow colored umbrella, and shouted in shock: "It's that guy, he's my Big Senior, the umbrella in his hand is a good low ranked Divine Weapon."

Xiao Chou said: "Let's not go to his place. This guy's temper is bad, if we go there, we will definitely be scolded by him."

Tai Qiang looked in that direction and said: "No, he seems to be having a hard time right now."

Chen Xiang also saw that the big sized man's Demon Slaying God Power was weakening, it was obvious that it was extremely strenuous. Although his attacks were fierce, and there were even some demons that were turned into minced meat by his attacks, but the regenerative abilities of the demon monsters were extremely strong. As long as the black crystal was not separated from the monster's flesh, it would quickly regenerate.

"Eldest Senior Brother, why is it just you? Where are the others?" Tai Qiang used his large scissors to cut off a few dozen of the legs of the demons. Then, he used his Suzaku bow to burn all of those thighs off, at the same time collecting the black crystals.

"Do you kids want to die? Our team already lost more than ten people, Master's whereabouts are unknown, the people sent by Hell Divine Palace were very powerful, they have been lying in ambush for us for a long time, now we have to retreat." The man shouted, "You guys hurry up and leave. I'll help you block these monsters. Quickly ..."

Before he finished speaking, Chen Xiang had already opened a dimensional door. Then, Xiao Chou kicked him in and sent him flying out of the Devil Yang Valley.

"Begin."

A burst of God Power surged out from under his feet, and the ground started to burst into flames as it turned into a Taiji array. When the Taiji array revolved, it produced an extremely strange suction force when coupled with Chen Xiang's spatial energy, it caused the surrounding demons to appear as if they were taking a few steps in their original spot.

Xiao Chou and Tai Qiang saw that the hundred demons around them were frozen in place by Chen Xiang in an instant. At the same time, they were shocked, and they had already made their move, using the Demon Slaying Palm to attack the demons around them, crippling their bodies and dispersing their defensive powers so that Chen Xiang could take out the black crystal.

The moment Chen Xiang released his spatial energy, the black crystals that he had locked onto instantly disappeared into the legs of the demons, and came around him.

"Attack!" When Xiao Chou shouted, it was as if Tai Qiang used an even stronger devil slayer divine power, as if he was slapping an ant. The devil slayer palm struck out, turning the bodies of the demons into black ashes.

Chen Xiang's face became serious, "More than ten members of the First War God's team actually died. It seems like there are a lot of ambushes here, you guys can still leave first, I'm worried that I won't be able to care about you guys later. If it were just me, I would have escaped much easier."

Xiao Chou and Tai Qiang looked at each other and nodded.

"Just send us out into the forest." Xiao Chou said.

Chen Xiang opened up the spatial tunnel. Xiao Chou and Tai Qiang walked in and left the Devil Yang Valley.

"Change." Chen Xiang immediately turned into a gorilla like monster, even the aura emitted from his body was the same as those monsters.

Along the way, Chen Xiang met many demon monsters, but none of them attacked him. Just as he had guessed, these demon monsters had very simple minds, they could only differentiate one another through their Qi.

Just like this, Chen Xiang blended into the group of demons, and while they were not paying attention, he locked onto the black crystal in their legs and used the power of space to retrieve those crystals.

A black crystal is about a jin of weight. I've already gotten more than 300 jins, but that's only 300 jins. Only 10,000 jins is enough to reach 100,000 jins. Chen Xiang calculated in his heart and realized that it would not be easy to gather 100,000 points. At least killing 10,000 of these demons was enough.

The Devil Yang Valley was very big, Chen Xiang could get his hands on over 300 jin so quickly, so he could be considered as very fast, as long as he could gather 1000 jin, he would be able to get 10 thousand yuan in exchange, and he would be able to get an Inferior Grade Divine Weapon that was worth 500 thousand gold coins, which was not bad for many people.

"Hopefully there will be more demons here. It will be enough for me to obtain 30,000 jins of this black crystal for three medium-grade divine tools." Chen Xiang had already calculated Xiao Chou's and Tai Qiang's share.

Other than that, Chen Xiang also wanted to know what had happened inside. 's group had lost ten people, which was a huge loss.

"I wonder how senior sister is doing. She should also be here, right?" Chen Xiang was a little worried for Wang Jinshi, as she was ranked ninth, and although she was the Sword God's daughter, she could not use the God Murdering Sword Techniques, so her strength would be greatly reduced.

There were many demons outside, and there were thousands of them. It had only been four hours, and Chen Xiang had already collected all of the black crystals on their bodies, but he did not kill any of them.

"This is Yuan Baibing's flaming aura, what a fierce battle." Chen Xiang did not hear any sounds, but he sensed a strong aura of flames coming from them. It was clear that the battlefield was still far away.

"If these demons run away like that, it will cause quite a bit of casualties. How did the Hell Devil Emperor manage to get these demons, they are pretty well-fused. Without using any methods, it would be hard for normal people to kill them." Chen Xiang looked at the demons around him. He secretly admired the Hell Devil Emperor, who had used the evil powers of the Infernal Realm to create such a strong army of demons.

However, if the Devil-killing Divine Palace knew about it, it meant that this group of demons was destined to be exterminated.

"There's no more fire energy. Is the battle over?" Chen Xiang did not sense the aura of Yuan Baibing's flames and he suspected that there was definitely another world deep within the Devil Yang Valley.

### [Chapter 1793](#)

Chen Xiang walked along the way as he obtained some black crystals of some demons and monsters.

"In front of us is the place where Yuan Baibing fought." Chen Xiang saw a pitch black scorching scar in front of him. The ground was burned down to a layer of crater, and there was still a scorching aura left.

The burnt ground was very wide, Chen Xiang guessed that Yuan Baibing used it to kill demons just now.

"The black crystals of these monsters are very hard to melt and they contain very turbid and violent energy. They are not suitable for refining pills, and they are different from the crystals of the monsters from before." Chen Xiang had tried it out on the way here.

Having been in Demon Yang Valley for such a long time, Chen Xiang had yet to encounter any strong demons. Even if he met them, he wouldn't be attacked because he had disguised himself well and was able to easily weave through the horde of demon beasts.

After passing through that burnt area, Chen Xiang once again sensed Yuan Baibing's flame aura, and discovered that it wasn't too far away from him.

"This guy can quickly obtain the black crystal even after burning all the monsters. This way, I will have a hard time meeting any monsters on the way. It seems like I shouldn't go in his direction." Chen Xiang had originally planned to take a look at Yuan Baibing, but now he guessed that Yuan Baibing was quickly killing demons in order to obtain a large amount of black crystals. Previously, he had learnt from Wang Jinshi that Yuan Baibing was very short on money during this period.

Changing directions, Chen Xiang very quickly encountered a group of demons, and after using his spatial energy, he took out the black crystal in the monsters' bodies.

"I wonder where Senior Sister is? Ren Tianyong's group has already lost more than ten people." Chen Xiang used his Heaven Tour and released a few threads of his divine soul to fly in every direction to search for Wang Jinshi.

"Five thousand jin. It seems it won't be too hard to get thirty thousand jin." It had only been half a day since Chen Xiang arrived here, yet he had easily obtained five thousand kilograms of that kind of black crystal.

Just as he took away the black crystal of a group of demons, a black wind suddenly blew over, enveloping the entire Demon Yang Valley within. The divine soul he released to look for Wang Jinshi had been corroded by the black wind and dissipated.

"What a powerful demonic storm. It seems that some powerful demonic beasts have taken action. Could it be the gods of hell?" Chen Xiang thought, and walked towards the direction of the gust of wind.

This black wind did not last long before stopping. What made Chen Xiang incredible was that right after this black wind disappeared, a large number of demons appeared around him. These demons were actually blown by this gust of wind.

"Could it be that he was cultivating a devil just now? How on earth did he do it?" Chen Xiang looked around at the dense demons and monsters in shock. These demons looked much stronger than the ones before, and the armor on their bodies were very sturdy, so much so that normal Divine Weapons would not be able to pierce through them.

Chen Xiang used the Chaos Divine Eye to observe, and saw that the black crystals of the demons were still hidden in his thighs. Furthermore, he had disguised himself as one of the demons and had not been discovered, so he used the power of space to easily take out a batch of the black crystals.

"How did these demons come into being? If not for the strength of a True God, even a demigod would find it hard to deal with these demons." Chen Xiang was shocked. If the Demon Emperor were to place these demons in the Nine Heaven World, the consequences would be severe.

Chen Xiang suspected that the Demon Emperor of Hell had this plan all along. Only if even more people died, would he be able to obtain a large number of dead souls, and then level up even faster.

Worried that the Demon Emperor of Hell would do such a thing, Chen Xiang took the black crystal from the bodies of the demons even more mercilessly.

The demons did not have black crystals. Although they could still live, they would gradually die if they were unable to absorb energy and store it in their bodies.

One day passed. It had only been one day since the start of the operation, but many things had already happened.

"Eldest Brother, what's going on inside? Why haven't they come out yet?" Tai Qiang looked at the mouth of the valley with a worried expression.

It was now night, and the moon hung in the sky was a bit red. From time to time, demonic winds would blow out from the Demon Sun Valley, making eerie whistling sounds.

After Xiao Chou and Tai Qiang came out, they also found the man at night.

"I don't know, I can't enter the Demon Sun Valley now, and the people inside won't be able to come out either. Master told me to do this, and at night, the entire Demon Sun Valley will become even more terrifying. Not only our squad, but the other martial uncle's squad will suffer heavy losses."

The big man's face was filled with grief because his companions who had gone through life and death with him were all inside. Moreover, more than ten of them had already died.

"What, why is it like this? When we came, didn't we say that there would be a second group of disciples coming to deal with the Hell God Hall?" Xiao Chou hurriedly asked.

"No, the demons in this Demon Yang Valley are not just born from the Temple of Hell ..." The big man clenched his fist. "Master said so. Anyways, we're screwed this time. The monsters inside will only get more and more terrifying."

"Maybe the demons that attacked the city might appear inside as well. If they did not have the power of god, they would be in great danger. Now, we can only see if the Main Heavenly God will appear."

Xiao Chou and Tai Qiang were not very worried about Chen Xiang, because Chen Xiang possessed that strong spatial energy.

At night, Chen Xiang also felt that something was wrong. Right now, the black crystal he had obtained was already more than two thousand kilograms, he was very satisfied because there were still a lot of demons here. On the way, all the demons he met would not be able to escape his hands.

"The space has been sealed." Chen Xiang encountered a group of demons, but he was unable to use his spatial power. This made his heart jump, which meant that he was unable to open the spatial passageway to leave this place quickly.

"What happened? Everything was fine before." Chen Xiang was currently in a group of demons. He had just found a group of demons, and just as he was about to attack them, the spatial energy was ineffective.

A low and deep bird's cry suddenly sounded out in the valley, it sounded a little similar to a goshawk, but it was very heavy, and when Chen Xiang heard the sound, the demons around suddenly started to walk quickly.

These demons were all in human form. However, they looked like gorillas with barbed armor on their bodies. They looked very cumbersome, but at this moment, they were running agilely.

Chen Xiang wanted to find out what was going on, so he snuck into the group of demons and started running with them.

In front of them was a tower-shaped tower that looked like an altar. This altar was extremely large, and there were many spikes on it. A few bloody corpses were stabbed on the spikes just like that, and under the light red moonlight, it was extremely eerie.

"They are all disciples of the Devil Slayer Temple."

Chen Xiang's heart skipped a beat again. Out of those small teams, there were actually more than a hundred who died, and they were all part of the War God's squad.

More and more demons gathered here. There were more than 200,000 of them. These demons suddenly began to loudly howl. That terrifying roar shook the ground, and after echoing in the valley, the sound became even more strange.

"This is ..." Chen Xiang suddenly sensed a few strong auras, one of them belonged to Yuan Baibing and the other one was approaching quickly.

#### [Chapter 1794](#)

Chen Xiang was secretly excited, although there were only a few, but since they dared to come, they must have a very good chance of winning.

"Senior Sister is here too ..." Only a few of the ten wargods have come, the rest are coming. Chen Xiang could not help but think in a bad direction.

"Ren Tianyong, Yuan Baibing, Fifth Elder, Senior Sister and Tenth Elder, are there only the five of them?"

Chen Xiang had already seen the five War Gods land on the altar. He had even released a fire and burned the disciples who were in a miserable state to ashes.

"For so many years, the Old Demon Destroyer has been extremely cautious and confident. In the end, he also suffered a huge blow, haha ..." The piercing laughter was accompanied by a chilly wind. The previously restless group of demons had now all quieted down.

At first, Chen Xiang had thought that the one who had spoken was the Demon Emperor of Hell, but after careful consideration, he didn't think so. He had come into contact with the Demon Emperor before, and no matter if it was his voice or his aura, he didn't sound like the Demon Emperor of Hell.

"Evil God, the reason why you were able to be reborn was because the Demon Emperor of Hell was secretly helping you. The Demon Emperor of Hell, as a member of the Pantheon Monastery, had actually released an evil being like you, who is a threat to the Gods Realm. He will definitely be punished by the

Pantheon Monastery." Ren Tianyong's voice was ice-cold. This time, so many of his companions and fellow disciples had died.

An Evil God had appeared out of nowhere. Furthermore, it had been killed by a Devil Slayer God. It must have been sent to hell. Now that it had revived, it was clear that it had something to do with the Devil Emperor of Hell.

"Now, who knows that I've come out. Furthermore, you're just a bunch of corpses. I'll send you all to meet the Demon Emperor of Hell." The Evil God laughed wildly, "You guys are not my match at all. Even if the other five fellows are still alive, you guys still won't even be able to harm my fur."

While the Evil God was laughing maniacally, Ren Tianyong took out a sword and was already prepared to fight with his life on the line.

The ground suddenly shook. It was not the Evil God who made a move, nor Ren Tianyong nor the rest of the five.

"It's Master." Wang Jinshi shouted in surprise.

"Evil God, I was unable to purify your divine soul last time. This time, I definitely won't let you off." Upon learning that five of his disciples had died, the Devil Slayer was enraged.

Rays of golden light shot down from the sky that had been filled with evil energy. The giant golden palm passed through the black cloud and smashed apart the Demon Yang Valley's divine array.

In that moment, the seal on space was removed, Chen Xiang was extremely happy, he anxiously used his strongest spatial energy and locked onto the demons around him.

"Come here."

Chen Xiang moved extremely quickly, taking away more than a hundred thousand black crystals in an instant, and a large number of demons fell down in an instant.

"Who did it?" An angry voice sounded. This was the voice of the Evil God. The other hundred thousand plus demons suddenly turned into a black wind and disappeared. It was obvious that the Evil God was protecting these demons.

This group of demons came from the back, and were even stronger than when Chen Xiang met them. Although they were considered treasures to the Evil God, to be able to kill more than a hundred thousand in an instant, made him extremely angry.

Right now, only Chen Xiang was still standing there. Although he had turned into a monster, but with a thought, he knew that Chen Xiang had done it. That Evil God knew very clearly that the monster in front of him was not one that he had created.

"Bastard, you killed so many of my treasures. Die!" The Evil God was on the verge of going crazy, his voice carried incomparable hatred.

In that instant, Chen Xiang was locked onto by an extremely terrifying evil energy.

"The one who died was you." The Devil Slayer let out a loud shout and completely destroyed the divine formation. The golden light illuminated the entire Demon Yang Valley, purifying all the demon corpses on the ground. All of the evil aura in the valley disappeared in an instant.

Right now, it had been unleashed to its limit. It was like a blazing sun in the dark night, and even in the incomparably vast Demonic Sun Forest, all the demons and monsters were purified, turning into a white mist and dissipating.

This kind of shocking power clashed head-on, causing Chen Xiang's heart to thump wildly. He finally experienced how terrifying the gods of this ancient Divine Palace were.

Before the Devil Slayer God's Demon Slaying Palm had even landed, the Evil God had already let out a painful cry. A black figure had appeared in the sky, it was the Evil God who was about to flee, he was extremely tall, but Chen Xiang and the others could clearly see the Evil God melting bit by bit.

"I will get even with the Demon Emperor of Hell."

This time, the Evil God's divine soul could not escape; even the powerful Divine Deity were completely destroyed.

The remaining palm power was still very terrifying, but the Devil Slayer God was able to immediately retract it. This bit of control was admirable to Chen Xiang, at least he couldn't do it, it would be extremely difficult to retract the attack, and if he couldn't control it well, he would still be injured.

The silver moonlight scattered down and the cool breeze returned to its previous calm state. The Devil Slayer God slowly descended from the sky, and while he was dressed in plain clothes, he had a long, white hair and was standing straight up. Although he was currently feeling very sad and angry, he did not give off a strict feeling, which showed that he was normally very benevolent.

Originally, he would not have given others a very aged feeling, but after knowing that he had lost so many disciples and five beloved disciples due to his negligence, he had become much older.

"Master..." Ren Tianyong called out softly.

The Devil Slayer closed his eyes and let out a long sigh. However, the moment he opened his eyes, it was as if he had become a completely different person. His eyes, which were originally filled with grief, suddenly became extremely sharp as they flickered with a threatening glint, as though an incomparably sharp sword had been unsheathed.

"Go back and rest for three months. Three months later, at sunrise, we will gather at the entrance of the Temple of Hell." The voice of the Fiendgod was filled with killing intent.

Chen Xiang had now changed back to his original appearance. The Devil Slayer God looked at him, "Will you come when the time comes?"

The one who killed more than a hundred thousand demons in one go was actually Chen Xiang. The five of them could never have imagined that it was this brat who had not even learned the Devil Slayer Divine Art. Even if it was them, they probably couldn't have killed those demons that quickly just now.

"Of course. I'm also a member of the Devil Slayer Temple." Chen Xiang said, "Moreover, I also have a grudge with the Demon Emperor of Hell. In the past, he always came to deal with me, but now I have the chance to attack him."

Three months of time to prepare was still a bit urgent for Chen Xiang, but when the time came, with the Devil Slayer God to suppress the Infernal Demon Emperor, he didn't have to worry about anything else.

"Mm." The Fiendgod nodded, then flew into the air and disappeared in the blink of an eye.

"Go back and prepare. This time, it's different. We are finally going to attack the Hellshrine." Ren Tianyong clenched his fists.

Chen Xiang opened up a spatial passageway, saying, "Leave from my place, you can leave Demon Sun Valley as soon as possible."

At this moment, everyone was feeling very heavy. One reason was because they wanted to fight the Hell's Shrine, while the other reason was that so many of their comrades had died.

Ren Tianyong and the others left through Chen Xiang's spatial tunnel and arrived at the forest outside. Through the communication of the jade tablet, they quickly gathered together.

After the Devil Slayer left Devil Sun Valley, he had already told this matter to the disciples outside. Thus, everyone was in the same mood.

Without a word, everyone returned to the Devil Slayer Temple in grief.

On the other hand, Chen Xiang and the others had returned to the Villa and arrived at Xiao Chou's residence. The Tai Qiang's residence had already been destroyed by Chen Xiang and was in the process of being rebuilt.

"Master, what's going on inside?" Xiao Chou asked after he came back with a sigh.

This was also what Tai Qiang wanted to know.

Chen Xiang roughly explained the Evil God's matter, "Anyway, our Devil Slayer Divine Hall has suffered severe losses this time. Main Heavenly God is also blaming himself, so he has made the decision to start a war with the Hell God's Hall."

"The two of them are fighting. I wonder if the other halls will stop them. This usually violates the rules of the other halls." Xiao Chou rubbed his bald head. He was going to have a big fight in three months. Even though he loved fighting, he was still looking forward to it.

"No, if the Devil Slayer God Palace declares war on the Hell's Temple and the Hell's God Hall accepts the battle, then there will be no violation of the rules. It's just that at that time, the other halls and Divine City will not be implicated." Tai Qiang understood these rules very well.

Chen Xiang asked, "What if the Hell God Hall doesn't agree to battle?"

Tai Qiang poured a bowl of wine for Chen Xiang and replied: "If you don't accept the challenge, then continue to declare war. If the opponent doesn't accept the challenge after declaring three times in a row, then attacking would not be a violation of the rules."

"Of course, declaring war requires five hundred million god coins, so if our Devil Slayer Temple wants to attack the Temple without being punished by the other halls, we need to spend 1.5 billion god coins."

For a powerhouse like the Devil Slayer Temple that didn't have any industry, this 1.5 billion was no small amount.

"How can we do that? Aren't we supposed to be led astray by the nose by the Deities Templar? It's obvious that they want us to declare war on them, but we're not willing to spend money." Chen Xiang curled his lips and said.

At this time, Wang Jinshi pushed open the door and entered the room, saying, "Our Devil Slayer Divine Hall doesn't need to spend money, because the Evil God was released by the Demon Emperor. According to the agreement, as long as the Evil God appeared in Gods Realm, it would be the fault of the Evil God.

"The Temple of Hell will definitely choose the latter. If they are attacked by all the other Temples, even two of them might not be able to survive."

Tai Qiang and Xiao Chou quickly bowed to Wang Jinshi. After all, he was their senior.

"Ninth Martial Uncle, what was the Evil God all those years ago? Very few people seem to have talked about it in this period of history." Taiqiang loved to collect stories like this.

"Because the Evil God and the God of Fortune are brothers ... In short, this matter is extremely complicated, and I am not too clear about the specifics. Back then, it was because Master was wary of the God of Fortune that we did not completely eradicate the Evil God." Wang Jinshi whispered.

Chen Xiang and the other two were very surprised that such a thing had happened.

Wang Jinshi sighed, "Back then, the God of Fortune was not like that. My master suspects that he has been controlled for many years. Maybe the God of Fortune is no longer the God of Fortune now."

This suddenly made Chen Xiang think of the matters of the Mei Emperor. Back then, the Mei Emperor was also controlled by an extremely ingenious method.

### [Chapter 1795](#)

Chen Xiang had always thought that the God of Fortune was actually like that. Because the ice dragon was enslaved by the God of Fortune, the image he got from the God of Fortune was extremely bad.

"Ninth Martial Uncle, you came so late. Is there anything you want to tell us?" Wang Jinshi was usually very enthusiastic, so if he asked for their help, they wouldn't refuse.

Wang Jinshi said, "My team only has 12 people left, I hope you guys can join!" "My team lost the most ..."

Wang Jinshi sighed sadly. Originally, there were dozens of them, but now there were only 12 left. She had experienced this many times over the years, so she had already let it go.

"This..." Xiao Chou said with some difficulty: "Old Tai is the disciple of Master Uncle and I am also the disciple of Fat Master. It wouldn't be good for me to join your team!"

"Don't worry about that. Their team has more people than me, so they won't mind." Wang Jinshi said, "If the two of you join, I'll find a way to get you a set of good Divine Equipment as soon as possible. We'll attack the Hell's Shrine three months from now!"

Tai Qiang said, "As long as Master doesn't object, I have no objections."

Xiao Chou also nodded.

Wang Jinshi looked at Chen Xiang, "What about you?"

"It doesn't matter. As for the matter regarding the Divine Equipment ... Leave it to me! They are my two good friends, and I will help them deal with them. " Chen Xiang asked: "When we were leaving earlier, did the matter of exchanging our points for a Divine Weapons weapon still hold?"

When they mentioned this, Xiao Chou and Tai Qiang's eyes lit up. They knew that Chen Xiang had used that method to get a lot of Black Crystals, but he had gotten so many.

"Of course, many disciples are waiting in line at the shrine now. How many do you have?" Wang Jinshi asked. Although she saw Chen Xiang knock down over a hundred thousand demons, she did not know that he had used his spatial energy to store the crystals into a treasure.

Chen Xiang scratched his face and said: "It should be more than a hundred thousand kilograms. I have never weighed the specifics!"

Chen Xiang actually managed to get over a hundred thousand kilograms, that was over a million points, it was enough to get him a Superior Grade Divine Weapon.

"There are roughly one hundred forty thousand pieces of black crystal and a hundred fifty thousand kilograms of black crystal." Chen Xiang quickly counted the black crystals stored in the ring before speaking again.

Wang Jinshi exclaimed, "Then those hundred thousand monsters that instantly fell were all taken away by you?"

When she thought about how Chen Xiang had mastered the spatial energy, Wang Jinshi was not that surprised anymore. She realized that she had still underestimated Chen Xiang.

"Ninth Martial Aunt, the Devil Slayer Divine Hall has suffered a great loss. Would Brother Shen be unable to exchange them for divine artifacts?" Tai Qiang still couldn't believe that Chen Xiang got so many black crystals. That was much more than the ten great warlord squads combined.

Wang Jinshi replied, "Don't worry, our Exorcist God Hall will not go back on our words. Chen Xiang killed so many demons and this is a huge contribution, even if he did not manage to obtain so many crystals, Master has already planned to reward him."

"This can be exchanged for a high-grade divine tool and two mid-grade divine tools. Does our Devil Slayer Divine Hall really have that many good divine weapons?" Chen Xiang was worried that his demands would be too high, making it difficult for him to enter the Devil Slayer Temple.

Wang Jinshi said with a smile, "Since Master has declared war on the Temple, he must use all of his power. When that happens, senior brother will definitely appear, and he will be Master's first batch of disciples. He has always been very mysterious and powerful!"

Thinking about those ten mysterious disciples, Chen Xiang and the other two became even more confident.

"Let's go. Let's go to the Devil Slayer Temple and give your black crystals to Master. He needs them." Wang Jinshi said.

Chen Xiang followed Wang Jinshi to the Devil Slayer Divine Palace and sat in the same room as the Devil Slayer God. Ren Tianyong, Yuan Baibing and a few other disciples were there.

"There's a total of 140,000 jin. You alone managed to get so much, causing the Demon Emperor to lose so many of these monsters. It should be enough to make his heart ache for a while." The Devil Slayer God looked at Chen Xiang with great comfort. "You haven't learned the Devil Slayer Divine Art yet, but when you deal with these evil beings, you are this impressive. I am not mistaken about you!"

Ren Tianyong and the others secretly curled their lips. They all knew that the Devil Slayer Divine Art that Chen Xiang learned was precisely that darn seven moves of the Devil Slayer Clan. Back then, they had all learned them many years ago, and couldn't even learn half a move.

"What godly weapon do you want? Just say it directly!" The Devil Slayer came to Chen Xiang's side and lovingly caressed Chen Xiang's head.

"A high-grade divine sword, then a mid-grade great scissor, a middle-grade spear or even a long spear." The Superior Grade Divine Sword was what Chen Xiang wanted, the scissors and spear were from Tai Qiang and Xiao Chou.

The body of the sword was a bit rusty, and it looked a bit old. It didn't have that threatening aura either, as though it was an extremely ancient item.

"Master... This sword is too terrible!" Yuan Baibing was a Refiner, he immediately determined that this was not a good divine sword, "Although it is a Superior Grade Divine Weapon, it is too ancient, and the divine spirit inside is too weak."

Devil Slayer chuckled twice. "Little soldier, which set of Divine Armor is the most stiff on you? Take it out and try it out."

Yuan Baibing curled his lips and said: "Master, you're so amazing, even using a tree branch can pierce through my divine armor, what more this thing."

The Devil Slayer laughed, "I let Chen Xiang stab me, that should be fine, right? Don't you have confidence in your own divine armor? The divine sword in my hand is an old relic. If you're even afraid of this, then the divine armor that you're refining would be mediocre!"

Yuan Baibing was provoked, and shouted: "Who's afraid of who, come!"

He took out a black, round shield and placed it on the ground. "This is the best mid-grade Divine Shield I have. Even if it's a Superior Grade Divine Weapon, if the person using it didn't have a brush, it would still be difficult to damage this shield."

The Devil Slayer God gave the ancient sword to Chen Xiang and said with a smile, "Just cut off the edge as long as he doesn't hate me."

Seeing that the Devil Slayer God was so confident, Chen Xiang was a little unsure. This ancient looking sword, when used against this godly shield, could it really cut through iron like mud?

The sword's hilt was a little cold. He slightly activated his divine power, wanting to pour the divine power into the divine sword, but it seemed to be blocked by something, so he was unable to pour it into the sword. Clang!

"Don't use divine power!" "There's a threshold to using this sword," the Fiendgod said. "Not just anyone can easily inject divine power into it. Even a few of them might not be able to do so."

"I don't believe it!" Wang Jinshi looked unconvinced.

Ren Tianyong, the fifth brother and the tenth sister also thought that they could do it.

The Devil Slayer patted Chen Xiang's shoulders, "First cut off a bit of the edge of this Divine Shield, then let them try it out. This group of brats are getting more and more arrogant, hehe ..."

Chen Xiang held the Divine Sword, and lightly scraped at the side of the Divine Shield. Just this wave of the Divine Sword caused Yuan Baibing's eyeballs to almost pop out, making him completely confident that the Divine Shield was just like other people who shaved, and with a light stroke, got a layer off.

Chen Xiang was also stunned, he never thought that the sword would actually be so powerful, it must have a huge history!

"Hehe, you must be scared!" "Give this sword to Little Shi. Let her try and see if she can inject her divine power into it."

Yuan Baibing withdrew his Divine Shield in a daze. It seemed that he had a lot of questions to ask, but he held it back.

Chen Xiang handed the God Sword over to Wang Jinshi, and Wang Jinshi immediately transferred her Super profound God level God Power into it. After that, she frowned, and her body continued to release the God Power.

"I really can't!" Wang Jinshi tried it for a moment, her beautiful face turning red, she handed the sword over to Yuan Baibing.

After Yuan Baibing received it, he carefully observed it carefully. After all, it was able to easily cut off a layer of his Divine Shield's skin, so he naturally wanted to carefully look at it, but he couldn't really see anything, because this sword hid many important things inside, while the outside was very simple and concise, making it hard to see how it was made.

"No way!" Yuan Baibing shook his head, he too, tried for a while.

After that, Ren Tianyong, the fat fifth brother and the tenth brother tried it all, but no one was able to send their divine power in.

"Master, I admit that this is a good sword, but you give it to Chen Xiang, whether or not it will harm him, and I cannot channel divine power into the sword. Yuan Baibing said.

Wang Jinshi also nodded. Her father was the God of Swords, she had practiced the sword since she was young and many sword techniques required godly powers to coordinate with her.

"Chen Xiang, if you feel that it's not appropriate, I can help you change it again. The Devil Slayer looked at Chen Xiang with a smile.

Chen Xiang received the ancient sword, and asked: "This sword should have some sort of history, what is its name?"

Seems like Chen Xiang had already decided to take it, this made Ren Tianyong and the others puzzled, although the sword was powerful, it was not practical at all!

Ren Tianyong said: "Chen Xiang, although this sword is sharp, when fighting with others, other people would have divine power to protect themselves, this sword has no divine power to support it, it is difficult to break through other people's divine power defense, it is not useful!"

"Yeah, but I really like this sword. Although I can't channel divine power into it right now, I might be able to step over this threshold by refining it every day." When Chen Xiang received the sword, he already liked it a lot.

"This sword doesn't have a name. I picked it up from a place in the past."

"So it's like that!" Yuan Baibing said: "Is that place called Super God Restricted Area?"

"Right. That place has many of these things. When you become Emyrean Gods in the future, it would be best for you to go there and gain some experience." Devil slaying god sat down and said with a long sigh, "Super God Restricted Area isn't that dangerous for an Emyrean God. As long as one's luck isn't too bad, one can survive after entering."

"In the future, when you become Emyrean Gods, your first trial will be to the Super God Restricted Area."

When Chen Xiang saw that Wang Jinshi and the rest did not say a word with a serious face, he knew that Super God Restricted Area was a damned place.

### [Chapter 1796](#)

"I'll have the scissor and spear sent over in a few days." Devil-killing Heavenly God said, "Go back and prepare first. In another two days, I will bring you all to all divine palaces. At that time, you must spar with those fellows from the other divine halls. You must win.

The Devil-killing Heavenly God laughed sinisterly in the end, causing Ren Tianyong and the others to shudder.

"Am I going too?" Chen Xiang asked.

At that time, you will let the other divine halls know that you, Chen Xiang, have already joined my Devil-killing Divine Palace. Whoever dares to have any ideas about you, you will have a falling out with him on the spot. " The Devil-killing Heavenly God snorted coldly.

Ren Tianyong asked: "Master, when the time comes, we will first understand what we need to compete for."

"The last time all divine palaces sat together for our disciples to compete, you all didn't seem to be born yet. So many years passed in the blink of an eye."

There are a total of three stages to the competition: God of Heaven, profound God, True God, profound God, which are all of you. God, you do not have to worry about it, Chen Xiang will handle the competition of True God, when that time comes, you can call upon Titan's descendant and the brat called Tai Qiang.

Yuan Baibing said: "Chen Xiang is already a True God, why can't I tell?"

Wang Jinshi and Ren Tianyong also thought that it was strange. They remembered that when Chen Xiang first joined the Devil-killing Divine Palace, he should have been a semi-god.

"Yes, I just broke through before I attacked the Devil Yang Valley." Chen Xiang nodded.

"All of you should go back and prepare well. You can't lose even one match." The Devil-killing Divine Palace looked at Chen Xiang and the others with sinister eyes, as if telling them that if they lost, the consequences would be severe.

After Chen Xiang returned home, talking to Xiao Chou about this matter, Xiao Chou was so excited that he tumbled a few times.

"That's great, to be able to fight against the people from the other halls, at that time I will definitely unleash my strongest ability, letting them experience the power of my Devil-killing Divine Palace." As Xiao Chou got excited, he drank tens of thousands of beers in succession, but was still unable to suppress the joy in his heart.

Chen Xiang laughed and asked Tai Qiang: "Old Tai, what about you, are you ready?"

Although Tai Qiang was not an extremely talented person, he had muddled along for many years and was still alive. He was currently in the Upper True God and had a lot of experience, so he was very calm.

"Since the Main Heavenly God has such great confidence in me, I naturally will not disappoint him."

The three of them drank until midnight before returning to their respective rooms to rest.

Chen Xiang sat on the bed, took out the ancient sword, and gently caressed the sword's body. He said in his heart: "Since you and I are fated to meet, and I have chosen the sword as my weapon, and this is also related to the God Murdering Sword Techniques, then I shall name you the God Slaughtering Sword."

After saying that, he dripped his blood on the surface of the sword and established a connection with it. As long as he could use this sword frequently in the future, the sword would have the feeling of being connected by blood, allowing him to become more proficient at using it.

Chen Xiang did not dare to stay here to cultivate the Seven devil-slain kungfu, because he had already destroyed Tai Qiang's house last time. He planned to go to the Devil-killing Divine Palace's training room to cultivate.

For the sake of the all divine palaces's competition, he planned to familiarize himself with it during these ten days. If possible, he also planned to comprehend the third form to prevent unexpected situations.

At dawn, Xiao Chou and Tai Qiang did not even bother to greet each other and directly went to Devil-killing Divine Palace's training room. Chen Xiang went there a bit late because the good training rooms were all full, with the rest being very small.

"Senior Sister, it's better if you stay here. It's quite quiet." Chen Xiang arrived at the floor Wang Jinshi was on, where she had a spacious and comfortable training room.

"From now on, you can just come in directly. I don't really cultivate here anymore, I'm just going to a higher place. Master has prepared a training room specifically for us." Wang Jinshi patted Chen Xiang's face, "Senior Sister has left. We'll meet again in ten days, work hard."

Ten days was still a little short for Chen Xiang, he could only do the two changes in quantity now. If he felt that there was still time to comprehend, he would try to comprehend the third change.

In the blink of an eye, eight days had passed and Chen Xiang had never left Wang Jinshi's training room before.

"There are still two days. Let's try and see if I can comprehend the third change." Chen Xiang felt that the seven changes to the first style should all be related.

"Among the seven transformations, I have already grasped the changes in strength and time. With the combination of the two, I can carry out the attack of time. Then, the third change should be related to this, and it can be done with the strength of the body at that." Chen Xiang started to ponder.

After thinking for a day, Chen Xiang suddenly opened his eyes.

"The combination of time and strength can produce different kinds of force. If it is flexible, then it can be considered two different types of power, and it can be mainly used for defense."

After Chen Xiang thought about it, he began to try combining the chants of the Heavenly Alchemy and the Seven devil-slain kungfu, circulating his physical body's energy, controlling his energy to undergo a firm and gentle change.

Flexibility can produce rebound or cushion power, while toughness can resist piercing attacks. Hardening and softening can coordinate changes, which requires strength to work together, and if you add in time changes, the effects will definitely be extraordinary. The original seven changes can all be fused together.

Chen Xiang channeled his mental cultivation method, and he could already feel that his muscles and bones had become extremely stiff under the coordination of his own strength.

"Among the seven transformations that I changed, the basic change should be the change in strength. There should be two kinds of changes in time, the quick and slow transformations, and then the hard and soft transformations. That means there are only two left in the seven transformations.

Chen Xiang was ecstatic, he then activated his mental cultivation method that had turned gentle. One of his arms drooped down, and with his other hand, he pulled at it.

He should be able to use the first form of the Seven devil-slain kungfu to talk about the use of the basic strength of the body. No wonder it's so hard to cultivate it, it's fortunate that I have the Heavenly Alchemy and the Philosophic stone, otherwise I would not have been able to start training so easily. "

Devil-killing Heavenly God didn't tell Chen Xiang which seven transformations he had comprehended, because if he had comprehended them himself, he would have a clear direction of cultivation. If he had to tell Chen Xiang directly, it would instead have a bad effect.

That year, Devil-killing Heavenly God guided Ren Tianyong and the others in this way too. After they were unable to comprehend it later on, Devil-killing Heavenly God told them the main points of the seven changes.

When Chen Xiang walked out of the training room, he saw Wang Jinshi sitting on a rocking chair, looking up at the decorations on the ceiling.

"Senior sister, what are you daydreaming for?" Chen Xiang laughed: "You look so depressed, are you afraid of losing the competition?"

Master told us that if anyone loses, then that person would have to run through all the streets and alleys in Devil-killing Divine City. Not only that, it's a slow jog.

Chen Xiang's brows twitched, this kind of punishment was indeed very frightening.

"As long as we don't lose, that's fine." Chen Xiang laughed: "Senior Sister is so powerful, to be able to obtain the Smoke sword, you will definitely not lose."

"Of course. Senior, I will definitely not lose. I'm just worried about you." Wang Jinshi began to giggle, "But thinking of how you called yourself an idiot, I feel really good about it."

### [Chapter 1797](#)

Chen Xiang said snappily: "Senior Sister, I thought you were unhappy and wanted to comfort you. But now you're actually laughing at me."

Wang Jinshi laughed tenderly: "My mood is much better now. To be honest, if I am able to go to all divine palaces with Master tomorrow, I think I would be very excited."

Chen Xiang nodded his head, he was the same way. Going to the all divine palaces to spar with the other experts in the shrine, and to meet the other War Gods, what was more important was that the Devil-killing Heavenly God was bringing a large amount of killing intent, because he wanted to declare war on the Hell Divine Palace at that time.

Xiao Chou and Tai Qiang had already gotten their favorite middle grade Divine Weapon, they were very grateful to Chen Xiang, they originally thought they would need the strength of the profound God to obtain it.

"How are you preparing? We're leaving tomorrow." Chen Xiang chuckled: "You are in my group, so don't drag me down when the time comes."

Xiao Chou smiled indifferently: "I'm actually worried that you will drag us down with you, Master."

Chen Xiang slapped Xiao Chou's head, and scolded him: "You can't get rid of your arrogant problem, you already have some strength, and you dare underestimate me, Master."

Tai Qiang chuckled: "Brother Shen, there is no need to doubt your strength, if not, you would not have been able to obtain so many black crystals. If you can get these divine weapons for us, we are already prepared and look forward to the competition in all divine palaces."

Xiao Chou and Tai Qiang were both very confident. Chen Xiang nodded, "Then let's have a good rest and recuperate. Maybe tomorrow will be the day of the competition when we get to all divine palaces."

and the others were all looking forward to the competition that would take place between the disciples that were going to all divine palaces and the other halls.

The next morning, Chen Xiang and the others rushed to Devil-killing Divine Palace early. Ren Tianyong and the other five wargods were already here, they had been living in Devil-killing Divine Palace since the beginning. Seeing that Chen Xiang, Xiao Chou and Tai Qiang were all energetic, their eyes filled with a confident light, the Devil-killing Heavenly God nodded in satisfaction.

When the time comes, some old fellows will suggest the rules of the competition. Of course, there will be battles only, and that competition is very dangerous, it might even cost you your life. At that time, just don't try to be brave and show off. Devil-killing Heavenly God warned with a serious expression.

Chen Xiang and the others nodded.

"Let's go." Devil-killing Heavenly God took out an array disc for everyone to stand on. After that, he opened it and arrived at a plaza filled with Transmission array s of all sizes.

"This is the Divine City, the largest city in the Gods Realm. If you came in yourselves, you would have to pay a huge sum of money." The Devil-killing Heavenly God said to Chen Xiang and the others.

"Only Gods who have the qualification to become a Martial Immortal can freely enter and exit this Great Divine City." Tai Qiang nodded his head: "Looks like we have to take advantage of this for a few days."

The Devil-killing Heavenly God laughed: "If you win, then just go and play."

Everyone already knew the punishment for losing the competition, but Devil-killing Heavenly God suddenly changed his punishment, laughing sinisterly: If one of you guys loses, then all of you will receive your punishments.

Everyone's heart jumped, they focused on Chen Xiang, Xiao Chou and the rest.

"Little brats, don't drag us down." Yuan Baibing was a little worried, he looked at the fatty and said: "Fatty Ol 'Five, is your bald disciple good? He looks a little weak."

The fat fifth brother laughed: "My disciple isn't that great, if you don't want him to lose the competition, you should give him some good equipment, even if you want to lend it to him for a period of time."

Ren Tianyong laughed: "Ol 'Two, don't be stingy now, that kind of punishment is no joke. After running around the city, you still call yourself an idiot."

Amongst the group of people, only Chen Xiang was relatively calm: "That kind of punishment is nothing to me, I'm not famous anyway."

Chen Xiang and the other two little brats were not famous, but the five War Gods were. No matter how thick-skinned they were, they wouldn't be able to stand it anymore and be made a joke by others in the future.

The all divine palaces was very grand, there were hundreds of gigantic towers standing in the middle of the gigantic Divine City, all of these towers were constructed by the various shrines here, all of them had representatives stationed here, all of them had businesses with the various shrines in the Divine City.

"This is the shrine our Devil-killing Divine Palace built in the Divine City. Why is it that it is so low compared to other people's shrine." Xiao Chou compared the other giant towers with his own, and said with a bit of disappointment.

"What's the point of being so tall? Others are so tall, but we are short as well, so many people would place their attention on us, the ones they love the most, when they come here. This will attract attention." Devil-killing Heavenly God spoke in a righteous tone: "You brats are too inexperienced, you don't even know how to recruit disciples."

After entering the shrine, everyone greeted the hall master and went to the tallest and largest tower in the middle, which was the all divine palaces.

"These shrines were built so tall, they should be empty, right?" Chen Xiang looked around at the giant towers that towered into the clouds and felt that there were not many people in these towers.

"That's not it, for example the all divine palaces in the middle has many strange things, and the competition will also be held inside." The Devil-killing Heavenly God curled his lips and said, "Back then, when we constructed this all divine palaces, our various divine halls used up a lot of energy. It was not as simple as just a shell."

Chen Xiang had some understanding of the uses of the all divine palaces s, but he didn't understand why they would put in so much effort to build such a shrine.

From the first level to the eighteenth level, every level contains all kinds of dangers. Furthermore, every level is equivalent to a dangerous place, which is very magical, and the War God trial is also inside. If you pass through the eighteen levels, then you are a qualified god of heaven, and you can create your own divine hall. " Ren Tianyong explained the use of the all divine palaces.

Forget about War Gods, even the profound God was a very distant matter to Chen Xiang.

"This all divine palaces should be the God of Fortune's territory, most of the businesses here are his, this guy specifically created godly money, all day long he used it to buy many precious things, so he's very strong, and his four disciples are also very powerful." Yuan Baibing's face was filled with jealousy, they had risked their lives to earn some divine money, but the God of Fortune and his disciples were all made directly.

Chen Xiang had stayed in the Divine Prison before, so he knew how the God's money worked. Besides being able to buy things, the God's money could also be used to refine treasures, which could increase speed and quality.

Ren Tianyong and the others followed the Devil-killing Heavenly God into the all divine palaces, arriving at a very large venue. This should be a gigantic beast battle arena, where there was a bright and beautiful sunlight, making it hard to imagine if this was the all divine palaces's place.

A lot of people were already seated on the round and huge beast battle arena, and many of the spectators were split into different regions. Devil-killing Heavenly God led Chen Xiang and the others to the region that was designated by the Devil-killing Divine Palace.

"The Devil-killing Divine Palace is here, and there are so few of them. Hey, haven't those divine gods disciples come? Only Ren Tianyong and the rest, don't tell me they don't plan to compete anymore."

"We still haven't started yet. Perhaps we'll be there in a bit. I wonder if the first batch or the second batch will come. Although the second batch is also very powerful, the first batch is quite mysterious."

"Devil-killing Divine Palace suffered a big loss at Devil Yang Valley. Out of the ten War Gods that Ren Tianyong and the others had, there are only five left. The number of squads has also decreased by half."

"Devil-killing Heavenly God can still sit, or is he afraid of Hell Devil Emperor?"

"..."

Seeing that the Devil-killing Heavenly God had arrived, the disciples of the other shrines started to discuss among themselves.

There were a total of three hundred people in the Sacred Palace. If all of them were to come, this place would also be very lively because there would be a hundred or so people in the Sacred Palace.

Chen Xiang had also heard that the Devil-killing Divine Palace had the least number of people in the Three Hundred Temples, and was also the poorest one.

"Old Senior Brother, are they not here yet?" Yuan Baibing asked in a low voice: "Master, the four disciples of the God of Fortune are all very strong, if they don't come, then even if we win it would be useless."

Devil-killing Heavenly God smiled slightly: "Calm down, of course they will come, you don't have to worry, at that time, all of you have to work hard, if you lose, the punishment for your juniors will be even heavier, if you were to be hated by those fellows, you will definitely be abused by them in the future."

The expressions of Ren Tianyong and the others changed.

"Master, you're too vicious. To be hated by our old fellow disciples is quite tragic." The fat five could not laugh anymore, he looked at Xiao Chou: "Chief Guang, no matter what the competition is, you cannot lose."

Chen Xiang asked: "Main Heavenly God, did any of the old senior brothers learn Seven devil-slain kungfu?" When he asked, Ren Tianyong and the other War Gods became curious.

Devil-killing Heavenly God sighed helplessly, "If you can't learn it, then I will regret it my entire life until now. Other than me, no one else can use the Seven devil-slain kungfu one and a half moves, it's all up to you now."

Tai Qiang and Xiao Chou both knew that Chen Xiang had the Seven devil-slain kungfu, but Chen Xiang had instructed them not to say it.

"Even they won't be able to learn it. Master, passing the Seven devil-slain kungfu to this brat is really too much." The fat fifth brother looked at Chen Xiang with sympathy.

The Devil-killing Heavenly God snorted, "You have studied for thousands or even tens of thousands of years. Even though you have yet to learn it, in the end, all of your studies in the Devil-killing magic kungfu and cultivation were not smooth sailing, what do you know?"

At this time, Wang Jinshi called out softly, "The God of Fortune is here, there's also his four disciples and four God of Wealth."

Everyone immediately looked over, and Chen Xiang saw Yang Yan and his father following behind Brilliant God.

Currently, the God of Fortune was the overlord of the Gods Realm. He held a large amount of wealth, had great strength, and was rumored to be powerful. It was said that any one of the God of Fortune's four disciples could shake up a few mid-sized Deities Templar.

### [Chapter 1798](#)

What surprised Chen Xiang was that the God of Fortune was actually a young man. He looked so young, and if not for the fact that there were four gods behind him whose might were oppressing him, Chen Xiang would not have believed it at all.

As soon as the God of Fortune entered, he looked towards Devil-killing Heavenly God and smiled faintly. "Devil Slayer, I heard that you have some important announcement today, otherwise, I wouldn't bother to come here. To be honest, this competition is definitely won by our Wealth Divine Palace."

His words were not arrogant at all. Their Wealth Divine Palace was extremely rich, and just by using high-grade divine tools, he was able to cause others to lose their temper.

"Brat, one hundred billion, do you dare to bet?" Devil-killing Heavenly God sneered.

Although the God of Fortune looked like a teenager, his Wealth Divine Palace had already been in the Gods Realm for many years, and was one of the ancient shrines. The reason the Devil-killing Heavenly God called him a little kid was not because he looked young, but because the Devil-killing Heavenly God was an antique in the first place.

"Okay, but. I can take out 100 billion God's Coins, that is something that there is no need to question, but for you ..." The God of Fortune chuckled and shook his head, "Back then, I remember that the Fire God also made a bet with me. If his father didn't step in, he would have lost Fire Divine Palace to me already."

There was actually such a thing, which caused the disciples of the Fire Divine Palace to immediately feel that they could not lift their heads.

"It's been so many years, and we haven't gotten together yet. After all these years, everyone must have accumulated quite a bit of divine money. How about we gamble for a few rounds right now?" The God

of Fortune's soft and tender voice drifted to every corner of the hall, causing everyone to start discussing amongst themselves.

As long as one was a normal person, he or she would not gamble with the God of Fortune.

Devil-killing Heavenly God took out a fiery-red bead that was as big as a head. He raised it high up and said, "How about I use this as a collateral?"

"Alright." The God of Fortune's eyes immediately lit up. He smiled in delight and said, "I really didn't come here for nothing today. I'm taking this Divine Flame Pill for sure."

Chen Xiang looked at the fire pellet, and only felt a formless wave of heat attacking his Divine Sense Sea. If not for Devil-killing Heavenly God putting it away, he felt that he would have been burnt.

Not long after Devil-killing Heavenly God had raised the Supreme Flame Pellet, the bodies of many people started to blaze. If not for the fact that their gods had hastily extinguished the flames, they would probably have been burned to death.

"What a powerful item." Chen Xiang exclaimed in his heart.

Tai Qiang said as his brows knitted together, "This is a Flame Essence Pill condensed from the primordial flame formed by the primordial spirit that cultivates fire. This is a very precious thing."

"What is the Supreme God?" Chen Xiang asked in a low voice.

"Above the God of Heaven is the Supreme God. With this Supreme God Flaming Pill, one might be able to become a Supreme God. This is something that even God's money can't buy, otherwise, the God of Fortune would already be a Supreme God." Tai Qiang said.

Then, a group of people dressed in black walked in. The God of Fortune immediately looked over, and judging from the Evil Qi on their bodies, they were clearly from the Hell Divine Palace.

"Hmph." Devil-killing Heavenly God suppressed the anger in his heart and snorted coldly, no longer looking at the group of people in black robes and black hoods.

The Hell Devil Emperor was inside, and Chen Xiang could clearly feel that aura.

The meeting began at noon, and all would have to wait a while.

"The Divine Female Palace is here." Xiao Chou whispered into Chen Xiang's ear.

After Wang Jinshi heard it, he snorted lightly: "You little brats, you can go for those goddesses of the Divine Female Palace. The consequences will be severe."

Chen Xiang looked at the group of women dressed in light gold dresses. He did not find anyone familiar from inside, and even though those Goddess were beautiful, Chen Xiang was not interested in them.

Divine Female Palace attracted the eyes of many men, but Chen Xiang sighed lightly and stopped looking at it.

"There are still a few other shrines that haven't arrived yet. They are all brats that can't afford to lose face." A thunderous voice suddenly rang out, startling everyone. Everyone immediately quieted down as

they looked at the vast arena below. There stood a large man with a dignified face, dressed in black armor, holding a large saber in his hand.

"I am Penalty Heavenly God, and am in charge of supervising the competition." Penalty Heavenly God suddenly looked towards Devil-killing Divine Palace and used a rough voice to ask: "Devil-killing Heavenly God, you say you have something to announce, but what exactly is it?"

"I want to declare war on Hell Divine Palace. Hell Devil Emperor will let the Evil God return to Gods Realm, and will cause my five beloved disciples and hundreds of divine hall disciples to all die." Devil-killing Heavenly God roared in anger, the divine power on his body was released, scaring many of the younger generation so much that their faces turned pale.

Everyone had heard of this matter, but no one knew that it was done by the Evil God. No wonder the Devil-killing Divine Palace suffered such heavy losses.

"Penalty Heavenly God, the reason Hell Devil Emperor let the Evil God escape is obviously to harm Gods Realm. Shouldn't you do something?" An Empyrean God of the Radiant Temple said.

A familiar voice of Chen Xiang sounded. It was the voice of the Hell Devil Emperor.

"The Evil God caused a huge commotion in hell, I could not suppress him, and allowed him to run out. This is my fault, I am willing to accept punishment, but I will not accept Devil-killing Divine Palace's declaration of war." Hell Devil Emperor's voice was very calm, but it carried a very uncomfortable sinister feeling.

Devil-killing Heavenly God had already expected that Hell Devil Emperor would not fight him directly.

"Then I will continue to declare war." Devil-killing Heavenly God glared at Hell Devil Emperor angrily, then said loudly: "Chen Xiang has already joined the Devil-killing Divine Palace, whoever dares to have any plans against him, if I knew, I would immediately destroy the divine hall he is in. This is in accordance with all divine palaces's rules."

Chen Xiang who possessed the Heavenly Alchemy had already arrived at the Gods Realm and even joined the Devil-killing Divine Palace. No wonder the Hell Devil Emperor would retaliate, in order to release the Evil God.

Chen Xiang had caused great losses for the Hell Devil Emperor, even the God of Fortune had been scammed, but now that the Devil-killing Heavenly God had said it this way, the people from the other halls did not dare do anything.

"Alright, since there's nothing much to announce, let's begin the competition for this year's conference. This is also the rule set by the construction of the all divine palaces back then. It's a competition that occurs once every million years." Penalty Heavenly God didn't seem to care about this at all, and he had already seen too much.

Chen Xiang had already sensed a few waves of energy approaching him, but were all blocked by the Devil-killing Heavenly God.

"Is that an ice dragon?" Chen Xiang looked at a tall and slim man standing beside the God of Fortune. His expression was wooden, as if he was a servant.

"This bastard." Chen Xiang glared at the God of Fortune. Back then, the ice dragon was forced to become a slave by the God of Fortune.

Just as Penalty Heavenly God was about to announce the start of the battle, Chen Xiang suddenly felt a light breeze blow past.

There were four very young men and two men and two women. They were all handsome and looked like two couples.

"Father."

"Master."

The two men called out 'father', while the two women called out 'master'.

At this moment, everyone was waiting for Penalty Heavenly God to announce the rules, but Penalty Heavenly God didn't.

Four young men suddenly appeared beside Devil-killing Heavenly God. It was obvious that even Penalty Heavenly God did not notice their arrival, causing a commotion.

"You two girls have been married for so long, but you still can't change your mind." Devil-killing Heavenly God laughed: "It's good that you guys are here."

There were not ten of them, only four. Among them, two were the sons of the Devil-killing Heavenly God and the other two were the wives of his sons. However, they were also disciples of the Devil-killing Heavenly God.

Devil-killing Heavenly God actually had a son. Forget about the juniors, only now did the divine gods know that the other divine gods didn't understand these four youths at all. However, they knew that they were very strong.

### [Chapter 1799](#)

Legends said that the first batch of disciples in Devil-killing Heavenly God had ten, and now only ten. As for whether there were any other disciples, maybe only the Devil-killing Heavenly God knew.

"You are the old senior brothers." Ren Tianyong immediately stood up and bowed to the old seniors.

"Ren Tianyong, actually, you have seen me many times, it's just that you did not recognize me." A short-haired man smiled. His smile was a bit stiff. It seemed that he didn't like to smile, and he gave people a strange feeling. First of all, he didn't have any aura on him, giving people a very blurred feeling.

Devil-killing Heavenly God said, "These two are my sons, the one with short hair is the eldest son and the one with long hair is the second son."

After the four disciples introduced themselves, Chen Xiang and the others only knew their names, and did not understand them at all.

The eldest son of the Devil-killing Heavenly God was called Zu Chao and the second son was called Zu Ming. Their wives were also disciples of the Devil-killing Heavenly God, and they grew up together, so

they seemed to have some background. Otherwise, they wouldn't be the first batch of disciples in the Devil-killing Heavenly God.

Zu Ming's wife called herself Old Third, named Liang Yunling. She was pretty, but gave off a gentle feeling, just that she did not like to talk.

Right now, Ren Tianyong and the others were certain that the first batch of disciples in Devil-killing Heavenly God only had four people, and that was these two couples in front of them.

The purpose of the competition is not to let our beloved disciples fight and fight, but to improve and to find their own inadequacies in the competition. This is because there are very few opportunities and the rules set by the all divine palaces are extremely binding, so it is impossible for everyone to understand their own strength.

Penalty Heavenly God did not immediately announce the rules. Instead, he first told everyone that during the competition, it was better to end it there and then.

However, judging from the postures of the various divine halls, they would definitely not act in such a manner. They glared at each other with murderous intent, as if they were ready to fight to the death at any moment.

After the all divine palaces was established, even if the various halls had conflicts with each other, they wouldn't be able to settle them by using extreme methods, because they would have to pay a huge price. For example, to declare war, they would normally have to declare war three times consecutively, and each time, they would need a lot of divine money, and they might not even be able to beat the other.

If a war were to break out in private, there would be many shrines that would attack them.

Therefore, all the grudges and grudges that they had accumulated over the years would be settled through their own outstanding disciples of the Radiant Temple. All the Emyrean Gods felt that this was their true goal.

"Master, you guys should have already competed once before. At that time, haven't the senior apprentice-brothers participated yet?" Ren Tianyong asked.

"No, at that time, they were in the second batch, so for the sake of the final victory, I had no choice but to send them out. Last time, although our Devil-killing Divine Palace's rankings were not very bad, I felt very uncomfortable." The Devil-killing Heavenly God said.

This first batch of disciples was actually making an appearance publicly for the first time, making Chen Xiang even more confident that they would win.

"Right now, I am not worried about them, but you little brats. Bring out your strongest strengths and you must win, otherwise, my Supreme Flame Pill will be given to the God of Fortune. When that time comes, I will definitely punish you twice as harshly." Devil-killing Heavenly God threatened.

Xiao Chou muttered: "Do we really look that weak?"

The fat five touched Xiao Chou's bald head and laughed: "We look very weak, that's a good thing, haha."

Penalty Heavenly God did not announce the rules, but had his men take out a giant monument, and placed it in the middle of the wide fighting arena below.

The giant monument lit up with red light, revealing the name of the shrine.

"If you win, then it's a point. After all the matches are over, the one with the highest score will also be the first. Only the first will be rewarded." The Penalty Heavenly God said.

This rule was only known to the old gods. Although Ren Tianyong and the others were very old, they were still too young for the history of the Gods Realm's divine hall.

"The content of the competition is very comprehensive. There are pills, duels, weapons, formations, these four main themes. Pills are pills, a battle, a battle, a battle for equipment forging, a battle for formations, a battle for formations."

and the others thought that it was just a simple duel.

"This is a test for individuals, and there is even a group battle for the overall aspect. This is also a test with many points. After the individual competition is over, I will announce it again."

Devil-killing Heavenly God frowned and whispered: "There are so many tricks, looks like it is not beneficial for us."

Yuan Baibing said: "Master, I'm good at refining, but I'm concocting pills."

Ren Tianyong and the others immediately looked towards Zu Chao and the others, only to see them shaking their heads.

"Master, I only know how to refine divine pills. I don't know if that's possible." Yao Shuang said.

"This will depend on the rules. If not, then let's not participate in the Pill Refining Competition. It's fine to lose a single point." Devil-killing Heavenly God nodded.

"I know how to concoct pills as well. Currently, I can only concoct low-grade saint pills. If the conditions allow, I would like to try my luck as well." If it was just a competition to refine a low grade saint pill, he was confident that he would win.

Chen Xiang and the others did not know about the matter of refining the Holy Pellet. Chen Xiang was only a lower True God, but to have such a level of cultivation was already considered not bad.

Yao Shuang was a god. Although she didn't focus on pill concocting, she knew that it wasn't easy to concoct a sacred pill.

The Penalty Heavenly God continued to announce the rules, and said: "The first round of the competition is to refine pills. Each shrine only allows the dispatch of five Alchemists."

"Our Devil-killing Divine Palace's good Alchemists are all hiding away, we won't be able to find them even after a while. Are we really going to waste this opportunity to score points?" Devil-killing Heavenly God sighed with regret.

"How do you get first place? Do you want to refine some divine pills?" An Empyrean God asked loudly.

There weren't many divine pill refiners, and none of them were restricted by the shrine. They were usually very adept at contacting the divine pill refiners, but it was impossible for them to compete with the divine pill refiners.

"Just concocting a Holy Pellet would be fine, it would be fine even if it is a low, medium, or high quality pellet. Now, all Alchemists of the various halls are invited to enter." The Penalty Heavenly God replied.

Devil-killing Heavenly God looked at Chen Xiang and Yao Shuang and said, "You guys go ahead. Refining pills is not your specialty after all.

With Devil-killing Heavenly God's words, Chen Xiang and the others were at ease. From the expressions of Zu Chao and the others, they could tell that they too, were afraid of being punished by the Devil-killing Heavenly God.

### [Chapter 1800](#)

When Chen Xiang walked down, he revealed his appearance. This was because Hell Devil Emperor and God of Fortune had long seen through his identity, so there was no need for him to hide anything.

"This brat is Chen Xiang. Even the God of Fortune had lost a lot of money to him."

"To be able to master the Heavenly Alchemy, I wonder how good his alchemy skills are."

"Isn't Heavenly Alchemy mainly used for battles? It might not be able to be used to refine pills, he should be a True God now, he is not strong enough."

Yao Shuang was also shocked. She did not know that the brat who had entered the arena with her was Chen Xiang, who had a deep grudge with the Hell Devil Emperor.

"I've heard a lot about you." Yao Shuang smiled at Chen Xiang.

"This is not a good name." Chen Xiang laughed helplessly.

The most eye-catching person on the other hand was the old man who walked out from the Wealth Divine Palace area. The white haired old man was calm and collected as he slowly walked into the arena.

However, this old man from the Wealth Divine Palace was a famous Dan Saint Title, which meant that he was able to refine Shangpin holy Dan.

"The Heavenly Mystery Realm's Pill Saint. He is truly powerful, to be able to make such a Dan Saint Title follow him at any time."

"Look, the Divine Female Palace is also a Dan Saint Title. If I'm not wrong, then this should be a Rosy clouds Dan Saint. It's so beautiful, she's a powerful god herself, and she even knows how to refine divine pills."

"Only the Fire Divine Palace is impressive, sending out two Dan Saint Titles, and they are also famous Gemini Pill Saints."

The Pill Saints in Fire Divine Palace were a pair of twins. The middle-aged man's appearance put a lot of pressure on them, because right now, they were facing two very powerful Pill Saints.

Chen Xiang looked at the Rosy clouds Dan Saint in the Divine Female Palace. It was one of the most popular Rosy clouds Dan Saint in the Dan Saint Title, because she was a very beautiful woman.

"Four Dan Saint Title s have already appeared. This should be a contest between Dan Saint Title s, what's the matter with the other Alchemist?"

"That's right, previously, when Devil-killing Divine Palace was filled with confidence, he could only send some brats to keep up the show."

"Look at that man in black, he's from Hell Divine Palace. I heard that he's a weird Pill Saint who uses corpses to concoct pills."

"That's right, this is the Dan Saint Title of the Hell Divine Palace. I have heard of him before, I think his name is the Hell Pill Saint or something."

Dan Saint Title were existences very close to the God of Pills, and were the treasure of many shrines.

"I will now announce the rules for the victory. It's good that you all are careful." Penalty Heavenly God suddenly shouted, causing the ground to tremble.

"Every Alchemist chose to refine a kind of Holy Elixir, one of the lower, middle, or high quality. They have ten sets of medicinal ingredients, and if they can refine a Holy Elixir that has the Holy Elixir's light, they will obtain first place.

This was the first time Chen Xiang had heard of such a thing.

"Excuse me, what is the Holy Elixir Spiritual Light?" Chen Xiang asked, only to hear the many Alchemist around mocking him, and looking at him with contempt.

"You don't even know about the sacred pills, yet you still dare to compete."

"That's right. Even though he hasn't reached this level, he still dares to call himself a Pill Saint."

Penalty Heavenly God's face darkened as he stared at the mocking Alchemist, then explained: "The Holy Elixir's spiritual light is the Holy Elixir you refined, there is a layer of spiritual light surrounding it, this kind of light is equivalent to the Holy Elixir's soul, it can grant the Holy Elixir a higher quality, a Holy Elixir with spiritual light, it is ten times higher quality than the Holy Elixir with high quality spiritual light."

Chen Xiang never thought that there would actually be a Holy Pellet in this form. He had never refined one before, so he was not confident that he could refine one now.

"In order to refine a Holy Elixir with the Spiritual Light, it is usually done in the process of condensing the elixir. For example, the pill that is about to condense into many pills will be fused together by force." The one who spoke was Divine Female Palace's Rosy clouds Dan Saint.

Chen Xiang nodded and sent a grateful look over. Right now, there was no one teaching him all this, so he only knew a little.

"Even if you knew how to refine it, it's already too late. It's not just a day or two for you to learn how to refine a Holy Pellet with Spiritual Light. Even I, who have a pretty good Inherent Skill, have learned it for almost a thousand years." One of the two pill masters said.

There were more than eight hundred Alchemists and all of them were alchemists who could refine Holy Pellets. There were three hundred shrines and each shrine could send five Alchemists in, but there were a few shrines that sent fewer Alchemists, so there weren't as many as expected.

Chen Xiang received ten batches of Dragon Blood Saint Dan's medicinal ingredients from an elder in charge of distributing medicinal ingredients. After that, he casually found a seat and took out a pill furnace to sit down.

When all the Alchemists were ready, the Penalty Heavenly God announced loudly that the competition had begun.

"Second brother, it's all your fault. He refused to give him a good pill furnace. Look, the worst pill furnace on the stage is the one he bought for five dollars." Wang Jinshi scoffed.

"This... If he didn't say so earlier, I could have given him a medium-grade divine furnace." Yuan Baibing spread his hands.

Devil-killing Heavenly God swept his eyes across the other Alchemists' pill furnaces, shook his head and sighed, "Indeed, his pill furnace is the worst off.

"Main Heavenly God, you don't have to worry about him. He has never relied on pill furnaces for his pills." Xiao Chou was very confident in Chen Xiang's pill refining skills, he had witnessed it many times.

Because the pill furnace was weak, Chen Xiang had to be ridiculed by the other Alchemists.

"The appearance of this pill furnace has affected my mood. As a pill saint, I don't even have a decent pill furnace. I wonder if this kid will be able to concoct such a pill."

"Even my grandson used mud to knead the pill furnace better than him, haha..."

Chen Xiang turned a deaf ear to this, he knew that with his own strength, he did not rely on the pill furnace, the pill furnace was only used as support.

Just now, when he noticed that the Penalty Heavenly God said that he was going to refine a Holy Elixir, the famous Dan Saint Titles all frowned. It could be seen that refining a Holy Elixir with a Holy Elixir with a Holy Elixir wasn't easy either.

Penalty Heavenly God had also said that the time limit was ten days. For outstanding Pill Saints, refining high quality Holy Pellets required a longer period of time, even ten days was barely enough, let alone refining difficult Lingguang Dans.

Chen Xiang had placed a set of Blood ginsengs into the furnace from the start, releasing flames and igniting them. When many Alchemists heard about it, they all started to laugh softly.

It was only then that Chen Xiang realized that all the Alchemists had five portions at once. Furthermore, before they refined it, they would take out a jade plate and simple process of refining the medicinal ingredients outside, such as mashing them, wrapping them up with their divine power, and fusing the five portions into one.

"Refining a Holy Elixir with Spiritual Light requires at least five batches, and in total there are only ten batches of medicinal herbs. In other words, if he failed the first time, there will be a second time. But as for this kid, he wouldn't be able to succeed even if he gave a hundred batches."

Yao Shuang was getting a little anxious and whispered to Chen Xiang, "Where did you learn pill refining?"

"I must have taught myself." Chen Xiang answered honestly. Almost all of the pills at the end of the refining process were fished out by him.

Yao Shuang was speechless. "Work hard. Don't give yourself too much pressure. I'm still holding on."

At this time, in the eyes of many Alchemist, Chen Xiang was just like a little kid who had just started learning pill refining. He did not know anything, messed around and wasted his medicinal ingredients.

"Isn't it just the Lingguang Dan s? Back then, I had refined a pill that had a medicinal glow, and it should be around the same. It should be the sacred pill from the Peak quality. It's just that the sacred pill is different from the other pills."

Chen Xiang was still more relaxed, he did not feel flustered just because he did not know how to refine. To him, this was a very good chance to level up.

"I'll try refining the Lingguang Dan now."

Chen Xiang had refined three Dragon Blood Saint Dan in a single furnace, but many Pill Saints had limit of two. The number of Dragon Blood Saint Dan that came out was very few, so Chen Xiang had to choose, because only pills with a lot of pills would be able to condense spirit light easily.

Without any external interference, Chen Xiang refined the pill very quickly, using Tai Chi.

He was now a True God, and the True Divine Energy he used was much stronger than the ones before. This Taiji refinement was also much stronger than before.

For example, in the past when he used Tai Chi to refine pills, people would still be able to see the changes inside, but now when he tried to refine pills, the situation inside the furnace would always be very stable. There would be no movements, and it would be hard to feel.

When concocting pills, a lot of God Power was used up, all of it was for the fire. And after the flames fused with the Medicine aura, it would evaporate a lot of the Medicine aura along with the heat emitted from the furnace.

But now, Chen Xiang had completely overcome this, so his pill furnace was extremely cold, without a trace of heat, as though he had not done anything after throwing the ingredients inside.

With regards to the pill furnace's internal control, he could be said to have reached the acme of perfection. Even the Dan Saint Title would find it difficult to compare to him, but they still thought that Chen Xiang had not started to burn the furnace to refine pills.

"He started concocting pills." Devil-killing Heavenly God looked doubtful, "But I can't sense any trace of flame Qi at all. What is this brat doing?"

"My master has already entered the best condition for refining pills, just wait for him to surprise all of you." When Xiao Chou saw Chen Xiang's current expression, he knew that Chen Xiang was extremely serious.

Zu Chao frowned: "This is impossible, I specifically train in fire. Furthermore, I have also integrated with fire Rule spiritual bead, I can sense the flames inside every single pill furnace below, only Chen Xiang's flames did not appear."

"If he's really concocting pills and I can't sense his flames, this only means that the flames he's using have broken through the normal laws of fire and are different from normal flames."

Yuan Baibing was a refiner, and was primarily made out of flames, but he had never heard of such a thing.

"Senior brother, what is abnormal flame?" Yuan Baibing asked humbly.

While abnormal flames, on the other hand, are the opposite. Those are not common Fire Laws, nor can they even be considered to be flames. However, they possess the special name of flames.

The Devil-killing Heavenly God said, "They are the ancient Chuangzao fire, Fire of Chaos, fire of life. Although there are a few ways to call them, they are all the same."
