

Dan God 1811

[Chapter 1811](#)

Devil-killing Heavenly God had already been informed that this time they were not heading towards the giant arena from before, but to another place, still above all divine palaces.

Each level of the all divine palaces was not simple at all, the most famous being the eighteen levels of Purgatory, which were all prepared for the god of heaven. Furthermore, the War God's Trial was also in there, which contained all sorts of scenes, all of them used to test one's strength.

The second round of the competition was a collaboration between teams. Devil-killing Heavenly God guessed that they might use it for either Purgatory or the training grounds of the War God.

The divine gods and their disciples had gathered at the first level of all divine palaces. After arriving, they would follow the Penalty Heavenly God into a stone room, where they could be teleported to.

Not long after, Chen Xiang and the others arrived at a barren land. Devil-killing Heavenly God said: "This is still inside all divine palaces, this should be a training ground."

It was only the first time that Chen Xiang and the others had been to this place, and they couldn't help but be surprised. This was only the first floor of the all divine palaces, but the inside was so wide that they couldn't see the end of it.

An old man dressed in a white robe suddenly appeared in the sky, he said loudly: "I am the hall master of all divine palaces, the second round of the competition will begin here."

This old man was the Zhong Gao Shan who had a good relationship with Wealth Divine Palace, looking at his kind eyes, he did not seem like a bad guy.

"Isn't this the War God's training field? Although it's just a part of the War God's training field, it's still quite taxing for a true god." He had already decided that he did not want the True Gods to continue joining in the fun here.

Zhong Gaoshen chuckled, "If you're worried that a true god will die here, you can choose not to. I have yet to announce the details. You just wait patiently."

"This is the training ground of the second phase of the War God. As long as one is able to complete the mission, the minimum score will be two points, while the True God, profound God and the God of Heaven can all stay at this training field. This mission is not too difficult, only with the strength of a True God, with the help of a profound God, it will not be difficult to complete it."

"This level has a limit of five spots. You should carefully consider which combination you want to send into this level."

Devil-killing Heavenly God thought for a moment, then said: "Old Ten, you, the little baldy and Tai Qiang are here. The rest will go to the other levels."

There were only three True Gods from the Devil-killing Divine Palace and there was still one more from the profound God on this floor. Clearly, this was to reduce the number of points the Devil-killing Divine Palace received.

But Devil-killing Heavenly God had made this arrangement. In other words, he was going to send Chen Xiang to another floor.

"Next up is the War God Stage 4 trial. There are five slots and the lowest four can be obtained if you complete the corresponding mission on this level."

"Little Shi, go with Chen Xiang." The Devil-killing Heavenly God said.

Chen Xiang was only a True God, but he was actually going to train at the place where the Level Four Martial Immortal assessment was held.

"I know what I'm doing. You guys will definitely score." The reason why Devil-killing Heavenly God arranged things like this was to let Ren Tianyong, Yuan Baibing, and the fat fifth brother to go to a higher place to get more points.

"Next is the wargod level 6 exam. If you can get six points, you'll get five spots"

The sixth phase of the War God's trial, this was something else entirely different from the Sky God level.

"Fatty, Fifth, Little Soldier, Tian Yong, you three go. Don't die."

Ren Tianyong and the other two had very serious expressions, because this floor was very dangerous.

"Finally, the wargod level 9 training field, the lowest score is 9 and the number of spots is 5."

"Zu Chao, the four of them are going to this place."

Only, who was a god, could make it to Stage Nine of the War God's training field. Now, he actually told Zu Chao and the others to go, all for the sake of getting a higher score.

Right now, the various shrines were discussing about what to do, and the Devil-killing Divine Palace had long planned it all out.

"You did not go to that place to pass the assessment, so the difficulty is not as high as you imagined. When you go in, you will obtain a map, and as long as you complete the mission together, you might be able to get a higher score."

When you guys go in, we will have the divine gods of the divine halls drip their blood onto the divine beads and dye them with the blood, this way, they won't be able to copy it. When you come out, the divine gods will be able to discern your own blood energy, so there will be no cheating.

As long as it was Penalty Heavenly God who released them, everyone was at ease, because Penalty Heavenly God had never been partial to any side.

If you find these pearls, you can come back. The corresponding training field will give you the corresponding points, and if you find one pearl, you will be able to come back. Each hall can only calculate a maximum of five pearls.

Each shrine had five spots at different levels of the training field. Even if a few of them entered, they would be able to get a lot of points if they found the same amount of pearls.

"Although there are many pearls in there, if I go alone to look for them, it will definitely be difficult. This way, we will need to work together." Zhong Gushan said.

The rules weren't too harsh, it was just that the disciples that came from the Devil-killing Divine Palace were few and far between. If it wasn't for the matters with the Devil Yang Valley, there was no lack of low-level disciples in the Devil-killing Divine Palace.

"Tenth, keep an eye on them. Try your best to find the five pearls and bring them back."

The Tenth Elder didn't normally talk much. With a simple and honest smile, he nodded his head, then patted Xiao Chou's bald head and walked into the Transmission array with Xiao Chou.

The other halls were also arranged by the profound God and the True God to enter the War God Stage Two training field.

"Xiao Shi, Chen Xiang, it's just the two of you, so I don't need you to find all the pearls, it's enough to get two of them."

"Tian Yong, the three of you have to get three as well."

The Devil-killing Heavenly God's expression was extremely serious as he said to Zu Chao and the other two: "This War God's Stage Nine Trial Field is very dangerous. You all must obtain at least two of them before you can leave.

They could only calculate the score of five beads at most. Now, the Devil-killing Heavenly God did not need them to get all of the beads, as long as they could get more or less, they could leave the training grounds, because this War God Stadium was not a playground.

Chen Xiang and Wang Jinshi's group also had relatively weaker overall strength, because Wang Jinshi was a woman and Chen Xiang wasn't even a profound God.

"The time limit is one month. We just have to wait patiently here." Zhong Gaoyan smiled: "Don't worry, Penalty Heavenly God has already brought his disciple in to supervise. If there's any crime in killing and stealing, Penalty Heavenly God will definitely throw them in Divine Prison."

The disciples of the various halls all entered the training field, and the nine stages of the training field were filled with experts. The four disciples of the God of Fortune all entered the training field, and the God of Fortune's requirements for them were very strict.

[Chapter 1812](#)

Chen Xiang and Wang Jinshi were teleported to a stone forest. Around them were many strange stones that had been erected everywhere. There were no flowers or trees, it was completely lifeless.

"Senior Sister, why did Master arrange for us to be together? Did he have some other purpose?" Chen Xiang could not understand why Devil-killing Heavenly God would do this. His strength was very weak and Wang Jinshi was a woman.

It was them, the two weakest, who were actually placed together. Furthermore, they were in the middle of the War God's Stage Four Trial Field.

"I don't know. The three of them may be able to go to a higher training field, but you and I are the best here. It might be more wasteful for you to stay in the second section of the training field, and your strength alone isn't enough. So let me accompany you." Wang Jinshi laughed: "You can't be thinking that Master intends to match us, right?"

Chen Xiang was startled, then laughed: "Where is it, do we look like we are compatible? Moreover, I already have a wife, it's not like I don't know Master."

Wang Jinshi took out the Smoke sword, looked at the scorching sun, and sighed: "I finally have the chance to use this sword."

Even if they were in this place, Wang Jinshi did not dare to use the God Murdering Sword Techniques because the divine gods were very powerful.

Suddenly, a jade plate fell from the sky. There was a map drawn on it. There were five marks on the board and it was the location of the five beads.

"The location of each of those pearls is further away than the previous one. I wonder if I can get two of them within a month's time." Wang Jinshi asked: "Can your spatial energy be used here?"

Chen Xiang shook his head: "No, the space here is sealed with time, we can only walk over."

"Senior apprentice-sister, do you have that sort of magic treasure? It's just that its speed is extremely fast, and it'll be able to reach its destination in an instant."

Chen Xiang missed the Azure Dragon Cloak, the speed of the cloak was very scary. Only now did he realise that the cloak was not an ordinary thing, even Yuan Baibing would find it hard to refine.

"I have a flying treasure, but it's not fast. Also, do you think we can really fly over and retrieve the bead? If that's really the case, then it's too easy." Wang Jinshi said, "The War God's Trial Field that I went to previously is extremely scary. The reason why you feel safe now is because the place we teleported to is safe."

Chen Xiang saw that the surroundings were extremely quiet, there were no beasts around, it was indeed abnormal, and it was not as scary as the legends said.

"Let's go, we'll go to the nearest place to retrieve the bead. If it's really dangerous, you can just run according to the situation. You can't use your spatial energy right now, it's very dangerous." Wang Jinshi also felt that this mission was extremely difficult to complete.

"Senior Sister, I'm sorry for dragging you down." Chen Xiang said somewhat helplessly.

"Don't say that. Master must have let you be with me because he thinks we can help each other. Also, you have so many tricks up your sleeve, so perhaps you might be able to help me out a lot." Wang Jinshi chuckled, "Don't worry, even though I, your senior sister, am a woman, I am not as weak as I seem to be."

Wang Jinshi waved the Smoke sword in his hand a few times, making him even more confident.

After Chen Xiang stood up, he released the Heaven tour method and released many wisps of his soul to wander around, to guard against sudden danger.

If it was before, Chen Xiang was a little worried that his own strength would be too weak, but now that Long Xueyi was in the Yin Yao Ring, if that really wasn't possible, he could directly borrow Long Xueyi's power. If it was before, Chen Xiang was a little worried that his strength would be too weak, but now that Long Xueyi was in the ring, if that really wasn't possible, he could directly use Long Xueyi's power.

Chen Xiang took out the middle grade pill furnace that Yuan Baibing had given him. When Wang Jinshi saw it, he asked curiously: "You want to concoct pills?"

Chen Xiang laughed: "It's nothing, I've even tried refining pills in an even worse environment. What I'm trying to do now is to refine pills, not ordinary pills, it's very different from the pills you've seen before."

"Oh, what pill? What's the difference?" Wang Jinshi's face was filled with curiosity, she already knew that Chen Xiang's pill refining skills were extraordinary.

"I call this pill the Weapon Pill. It can be used to attack like a weapon, but it is usually a one-time use pill with a great power. For example, this ..." Chen Xiang took out a Destruction Ice seal Dan and threw it down the Frisbee.

However, this type of ice was very weak, and the True God would be able to easily destroy it. This was because this pill was refined a long time ago by Chen Xiang and it did not have a lot of power.

"I refined this in the Nine Heaven World. At that time, the quality of the materials were relatively low, so its power was only this much. If placed in the Gods Realm, it would not even amount to much, so I plan to use the materials here to refine stronger ones." Chen Xiang said: "When I'm fighting others, I'll throw one on their body, hehe."

This is a good item, just like the divine talisman. However, the process of refining a divine talisman is very complicated and complicated, and the price is very expensive as well as the materials required. Normally, I don't even want to use it. Wang Jinshi said somewhat excitedly: "When the time comes, sell me some, I will collect them at a high price."

"Senior sister, who are you and me? What are you talking about selling? I'll just send you off." Chen Xiang snickered, and took out some of the materials for him to refine the weapon pill.

Seeing Chen Xiang take out a pot of fiery-red liquid, Wang Jinshi frowned: "Isn't this from those demons?"

"That's right, these liquids are all good stuff. I have collected a lot of them, and it will be enough for me to use for a long time." That's right, these liquids are all good stuff, and I have collected a lot of them, and it will be enough for me to use them for a long time.

"At that time, I had tested the strength of the weapons and the pills that were refined were pretty good. Now, I have to refine stronger ones and refine ones that possess Spiritual Lights. Fortunately, I have this pill furnace. Otherwise, I wouldn't dare to try it out recklessly."

With a Spiritual Light Pill, a fierce collision was required. The other normal pills were already extremely powerful, not to mention this kind of extremely explosive pill, its might was difficult to imagine.

"Hurry up and refine it. Let me see how it looks like." Wang Jinshi was looking forward to it.

[Chapter 1813](#)

Right now, Chen Xiang had not only refined these kinds of soldier pills with normal compressed energy. He had also used the fastest time to condense these pills and engraved s that were even more stimulating inside and out. This was the most difficult part.

"You don't have to fly that fast. It's best for you to fly slower. As long as I refine this thing, if you use it well, your overall strength will increase a lot."

Chen Xiang suddenly took out a big book, and started to look through it. This Divine Book was a good thing left behind by the Nine Divine Kings, it contained many powerful divine formations and Spirit grain s, and the women of Liu Meng'er's group also had great breakthroughs in refining because they had grasped so many powerful divine formations and Spirit grain s.

"You refined this kind of soldier pill the same way you refined the divine talismans. Do you need to inscribe something on it?" Wang Jinshi saw that Chen Xiang was studying some complicated Spirit grain and asked.

Chen Xiang nodded his head: "The Spirit grain s are very useful, you should be clear that after the transformation of the Spirit grain s, normal energy can have all kinds of different powers, and become even more powerful. The Spirit grain s are like a human's brain and soul, controlling the flow of their energy, if not, with just a body of brute force, it would be useless for them to not know how to use it."

Wang Jinshi raised her eyebrows: "Little junior brother, you aren't starting to study these Spirit grain right now are you?"

"I've seen it before, but I want to learn a few more powerful Spirit grain. After all, this is the Gods Realm, and they are much stronger than us."

Chen Xiang knew what Wang Jinshi was worried about, and laughed: "Don't worry, my learning ability is very strong, I won't take too long."

Regarding this point, Wang Jinshi did not doubt that it would take them a lot of time to learn the Seven devil-slain kungfu, not to mention their group of disciples, even the previous two batches of disciples from Devil-killing Heavenly God s had all failed to learn the Seven devil-slain kungfu, but Chen Xiang had learnt it with just a few moves.

In order to allow Chen Xiang to refine such a powerful soldier pellet, Wang Jinshi flew very slowly, and even though he was still in the stone forest, he did not encounter any danger.

After Chen Xiang read the Spirit grain s for an entire day and night, he finally closed the book. He found a few sets of Spirit grain s from above and felt that they were all suitable to be used on the soldier pellet.

Before, when he refined the Annihilating Ice seal Dan and the God Fire Destruction Pill, their attack range was very wide. Without concentration of power, the effect of dealing with a single target was very weak, and many divine talismans were the same.

But now, if he were to forge a Battle Pill, the explosive power would have to be concentrated in a very small area, creating a very strong destructive force. The prowess would be even greater, and unlike the previous times, when he had to dodge at close range, he would still have to avoid the attack.

"Explosive Flame Pill." Chen Xiang already had a general idea of what it was, and immediately put a pot of fiery-red liquid into the pill furnace. It was a type of demonic liquid that belonged to the fire element.

"The combination of the Spirit grain in the Explosive Great Formation should be able to help me refine the Explosive Flaming Pill that I'm satisfied with." Chen Xiang was also looking forward to see how the refinement process would turn out.

After Chen Xiang purified the basin of liquid, it was reduced by half. The remaining liquid contained pure Flame power s and had turned into liquid.

The liquid inside the furnace started to bubble, and was already boiling. Under Chen Xiang's constant compression, it gradually shrank and became solid.

Seeing this, Chen Xiang divided it into three parts, and then used the method of refining Lingguang Dan, and let the three clumps of fiery-red mud violently collide.

A rumbling sound suddenly came out, causing Wang Jinshi to scream in shock, her flying discs also started to tremble violently, she reacted quickly and stabilized her flying discs.

Chen Xiang never thought that there would be such a strong reaction when he clashed with the beast. Although it was the same for the Lingguang Dan he was refining previously, he was using a low-grade pill furnace and the pill furnace he was using now was a mid-grade divine furnace that was worth several million gold coins.

It could only be said that this was because the strength generated from refining a soldier pill was even greater.

"This method consumes a lot of pill furnaces. It seems that I need to find a better pill furnace to refine this kind of weapon pill." When Chen Xiang saw that a sun like little pill had been formed inside the furnace, he knew that it was a success.

Right now, what he needed to do was to quickly engrave some of the Spirit grain s, stabilize the berserk energy inside the pellet and seal it. At the same time, he would allow the Spirit grain s to fuse with that ball of energy, making that ball of energy become even more powerful.

"Youngest junior brother, is your pill furnace alright? No matter what, it is a medium-grade divine furnace and can be considered very good. For it to have such a commotion, it seems the soldier pills you refined are very powerful." Wang Jinshi became even more excited: "You haven't even been an hour and you're already about to condense a pill, the refining speed is much faster than I imagined. It will take at least a few days for Second Brother to refine a divine talisman."

Chen Xiang had already understood before that if he were to become proficient in it in the future, this kind of military pill would be refined much faster than the divine talisman.

The technique of carving the array on the pellet was not difficult for Chen Xiang, he had often refined this kind of pellet before, but now that he wanted to inscribe the Spirit grain s, it took a lot of effort and energy, and he needed to condense his Spirit Power into visible threads, connecting the inside and outside of the pellet that had not solidified into a pattern.

A powerful divine formation required many sets of profound Spirit grains to form, so it required a large amount of energy and time.

Chen Xiang took a full six hours to complete it, and at this time, he also felt a bit dizzy, so he quickly consumed a few pills to recover.

"Success." Wang Jinshi wiped Chen Xiang's perspiration and asked.

"Yes, I should have succeeded. I can start the furnace now." Chen Xiang smiled slightly: "I'm not familiar with it yet, so I took quite a bit of time. It's still very tiring."

Wang Jinshi opened the pill furnace and did not feel any strong Qi. She took out a bead that was emitting red light and looked at it carefully.

The Explosive Flame Pill was like the red day when he went down the mountain. On the surface, however, there were many very small Spirit grains. Although these Spirit grains were very complicated, they did not look messy at all.

"This is called Explosive Flame Pill." Chen Xiang took it from Wang Jinshi's hands and started to carefully look at his work.

"How powerful is it?" Wang Jinshi really wanted to try.

Chen Xiang shook his head: "I don't know either, this thing is not like the ones I refined before, I made it before, it was placed in a certain place with a very large covering area, the power is not concentrated in that place, this thing will be concentrated in a very small area, its power is very strong."

"As for the specifics, I'll have to give it a try. After I rest up, I'll fly out of this stone forest and try to find something."

Wang Jinshi nodded, and also took out a few low rank Holy Fruits for Chen Xiang to eat, so he could quickly recover, and then, he could test the power of the Explosive Flaming Pill.

[Chapter 1814](#)

Wang Jinshi brought Chen Xiang and flew out of the Stone Woods, but just as they left, they felt a terrible stench approaching them, followed by a low growl.

"Senior sister, when you entered this wargod training field before, you usually met something that killed you" When Chen Xiang smelled the stench, he had a bad premonition. This was the training ground of a Fourth Stage War God, even a profound God like Wang Jinshi had to be cautious.

"The more powerful ones in the training grounds are usually the kind of demons that are locked up here." Wang Jinshi said: "Most of them were brought in by the Penalty Heavenly God."

"These demons ..." are they all profound God? " Chen Xiang felt that he had still underestimated this kind of War God Trial Field.

Wang Jinshi nodded: "They are profound God, all of them are fellows who have made a mistake. They were originally meant to go to hell, but since they honestly admitted their wrongs, they are imprisoned

in this kind of place ... Actually, these fellows were only able to throw them in when they handed over quite a bit of divine money and their strengths were not bad. "

"I threw it here to test you guys." Chen Xiang thought that this method was not too good, if they were to come in and die at the hands of these villains, wouldn't that mean they had died unjustly?

"profound God s with decent strength usually enter the War God Trial and don't die. Although there are some unlucky fellows who die here, that is a very rare occurrence, unless you enter a training field that is outside of your limits. For example, right now."

Wang Jinshi saw that Chen Xiang's face was a little ugly, so he giggled: "I'm just scaring you, I'm also a Stage Four Martial Immortal now, so I can still easily deal with it. Moreover, Little Junior Brother, you have so many tricks up your sleeves, what are you afraid of."

"So you've been here before." Chen Xiang remembered that the first time he had met Wang Jinshi, he had heard that she was a Level Four Martial Immortal.

"I've been to this training field before, but not here, so I'm not familiar with this place either." Wang Jinshi wrinkled his nose, the stench was getting thicker, and the low growls were getting clearer, no matter how you looked at it, it looked like there was a ferocious beast nearby.

Chen Xiang said: "Although my Explosive Flame Pill is powerful, if used against profound God whose strength is about the same as yours, I'm afraid that it won't work.

"He's coming." Wang Jinshi quickly grabbed Chen Xiang's arm and pulled him to the side. Wang Jinshi dodged, only to see her Frisbee smashed into pieces by a black shadow that was swooping down from the sky.

That black figure only appeared for an instant before disappearing. This made Chen Xiang recall the first time he encountered the Azure Dragon when he was at the second bane of Divine Prison, and how fast the Azure Dragon at that time was.

The black shadow he saw now was probably only slightly slower than the green dragon.

However, Wang Jinshi was able to discover, and even brought him to avoid it. It had to be said that Wang Jinshi was not as weak as she looked on the surface, and was also a very strong woman.

"You're sneaking around, come out." Wang Jinshi shouted loudly. The Smoke sword suddenly appeared and was tightly held by her.

"It's been a long time since I've seen a delicate beauty. It looks like the taste must be pretty good, I really like eating these kinds of female profound God. Just thinking about it makes me drool." The voice laughed.

The one emitting the stench and low growls wasn't a ferocious beast, but a villain who liked to eat human flesh.

Wang Jinshi took out a small ice pearl and stuffed it into Chen Xiang's hands. "Take this, you'll have to pay attention to this later, don't get ambushed by this guy."

Chen Xiang also didn't know what use Wang Jinshi gave him the ice pearl, but just when he wanted to ask, he felt the stench suddenly become very strong, and then he was dragged away by Wang Jinshi.

"Seal." With Wang Jinshi's shout, an extremely thick layer of ice suddenly appeared outside of Chen Xiang, and some Demon Slaying Spirit grain even appeared on top of the ice.

The reason why Wang Jinshi did that was also to protect Chen Xiang, because the main target of the cannibal villain was Chen Xiang, and it was to disturb Wang Jinshi.

"This ice seal will be able to hold on for a period of time. It's enough for me to deal with this bastard." Wang Jinshi transmitted to Chen Xiang and then in a flash, he disappeared.

Now Chen Xiang understood that the ice pearl Wang Jinshi had given him just now was for the sake of preventing frostbite.

The thick ice that had sealed him was attacked by a very powerful force, but was blocked by the devil slayer Spirit grain outside the layer of ice. The thick ice that Wang Jinshi had released was also very strong.

"You are from the Devil-killing Divine Palace." Seeing those Demon Slaying Spirit grain, the villain was a little shocked. The ice that Wang Jinshi had released in such a short time was able to resist his attack, so it could be seen that Wang Jinshi was stronger than him.

"Not bad, I'll send you to hell." A wave of snow floated over, and Wang Jinshi appeared from within the drifting snow, as if she was a goddess formed from ice and snow.

The villain thought that Wang Jinshi had been beaten away by him just now, but did not expect that he would appear in such a manner. When he was about to attack, he discovered that his entire body was stiff, unable to move.

Wang Jinshi did not use her Smoke sword, but used her powerful ice divine power to create an ice sword, and pierced through the evil being's forehead.

"Break." Wang Jinshi's fist was wrapped in a layer of ice, it looked extremely stiff, as it smashed into the villain's head and smashed it into pieces.

After that, she threw out a few punches at lightning speed. The villains who were frozen by the ice were shattered by Wang Jinshi's punches just like that.

"You want to eat me with a guy like that? Go dream in hell." Wang Jinshi kicked the villain out of the wreckage.

With a wave of his hand, Wang Jinshi retracted the ice that had sealed his body. The ice quickly turned into a silver-white river and flowed into his body.

"Senior apprentice-sister, your icy divine power is so powerful. It can actually block such a powerful attack." Chen Xiang handed over the pearl that Wang Jinshi had given him earlier.

Wang Jinshi laughed: "You can keep this pearl, but it might be useful in the future. To tell you the truth, this is my innate divine power. Usually when I dance with the sword, I can only scare others, my strongest point is still the Ice Magic Force."

Chen Xiang put away the pearl properly, and laughed: "It seems that it won't be that easy to bite Senior Sister."

"What? You want to eat me too?" Wang Jinshi smiled and rubbed Chen Xiang's head before taking out a flying disc.

"I want to eat it, but I can't." Chen Xiang sat on the Frisbee, and gave the Explosive Flaming Pill to Wang Jinshi.

"When you can bite, try again." Wang Jinshi laughed as she played with the Explosive Flame Pill.

This time, Chen Xiang was a little disappointed that he did not see the might of the Explosive Flame Pill.

The flying disc that Wang Jinshi took out was a lot slower, but it was too fast for Chen Xiang, so he quickly distanced himself from the stone forest.

[Chapter 1815](#)

In front of him was a mountain range shrouded in dense fog. Wang Jinshi took out the jade tablet with the map drawn on it, and said: "The closest bead is inside here, so it should be the most dangerous place within."

Chen Xiang said in a somewhat depressed manner: "My strength is so weak, I can't even help much by coming here, and I'm dragging you down as well."

If the space here wasn't sealed, Chen Xiang wouldn't be able to help much, but he would at least not be a burden to Wang Jinshi.

"Alright, stop blaming yourself. Although you won't be able to play any role, you can stay with me. Also, maybe Master brought you here to broaden your horizons." Wang Jinshi gently caressed Chen Xiang's head, as if he was comforting a child. This made Wang Jinshi smile even more sweetly.

The more Wang Jinshi said this, the more Chen Xiang felt apologetic in his heart. This was the first time he felt that he was a burden, even though it was understandable.

"Leave everything to me. I've passed the level four wargod trial, even if it's me alone I can easily deal with it." Wang Jinshi looked ahead. Although she was smiling mischievously, she was on guard against all four sides.

This is not a War God trial, but a competition that has lasted for a million years. Although that all divine palaces Palace Master said it was easy, I do not believe his lies. Chen Xiang said.

Just as the flying discs entered the dense fog, Wang Jinshi stood up, his brows knitted tightly: "Be careful, I feel that there are many terrifying things hidden inside."

Chen Xiang immediately became vigilant, looked around silently, and released his soul.

Wang Jinshi who was originally laughing and talking suddenly became so serious, he knew that the situation here was not normal.

Long Xueyi sent a sound transmission to Chen Xiang, "Don't you think that the power of spatial laws can help you make another breakthrough? You have already come to the Gods Realm, the space here was

originally different from the one in the Nine Heaven World, and there are also many large scale Divine City here that have super divine formations that seal spaces. Your spatial laws are too weak, they are basically useless here."

"I think it's time for you to try breaking through to the Space Laws. Now is a good time."

Chen Xiang looked at Wang Jinshi's back figure. Now, he could only trust Wang Jinshi to protect him. In this kind of place, even if he wanted to escape, it would be useless.

He had fused with the spatial Rule spiritual bead, but only because of the laws of space was he able to use the spatial energy to break through the limitations of space.

As for the specific usage of spatial energy, he needed to comprehend it on his own before he could break through more restrictions.

Chen Xiang began to comprehend the spatial laws. He felt that his body was a little cold and he immediately understood that Wang Jinshi had used her innate ability to freeze him, as if she was protecting him.

"The power of this innate technique should be the strongest power she has. Now that it's being used to protect me, a lot of her power will be weakened." Chen Xiang, who was sealed in ice, felt his surroundings tremble. It was obvious that Wang Jinshi was engaged in battle.

"She's fighting with a few guys. Your senior sister is indeed very strong. The guys she's facing are all much stronger than the ones we met back then, but she can handle them herself." Long Xueyi never thought that Wang Jinshi would be so strong.

Wang Jinshi was currently being besieged outside, and there was no one who could help him right now. It could be said that it was more dangerous, while Chen Xiang was being frozen.

Chen Xiang, who was initially very anxious, suddenly quieted down. He knew very well that the more he panicked, the more useless it was. What he needed to do now was to calm down quickly and properly comprehend the power of the spatial laws.

"The restrictions here are somewhat similar to those in the Divine Prison, they also have a layer of Time Formation s added to disrupt the balance of time and space here. The spatial energy that I use, uses time on the outside, so coming to this place where time is disturbed, coupled with the fact that space is sealed, it is difficult for me to unleash my spatial energy."

"If I want to break through this seal, I must master the Time Laws like the Azure Dragon."

"Looks like I can only try using the time changes in the Seven devil-slain kungfu. I'll also try using the time in the Heavenly Alchemy to see if there's any breakthrough in the grasp of time."

Chen Xiang already had a general idea of what was happening. He did not need to control time, nor did he need to use time energy. As long as he could understand the laws of time circulation where he resided, he could coordinate with his spatial energy and circulate the spatial energy around him, allowing him to break through space.

"I also need to increase the power of my Space Laws. This place should be a joint arrangement by the god of the shrine. My Space Law is too weak. Even if I can control the flow of time here, using the power of the Space Law won't be able to break through the shackles of space."

Chen Xiang calmed his heart down and began to combine the Heavenly Alchemy and the Seven devil-slain kungfu to familiarize himself with the time here. As long as he could capture the chaotic time movements here, it was possible for him to combine the spatial energy to break the spatial seal here.

Chen Xiang, who was immersed in comprehension, did not notice the flow of time. Even the disturbance from outside could not wake him up.

Chen Xiang only felt that he was lying in darkness, but there were a lot of floating black ribbons of energy beneath his body. He couldn't see them, but he could feel them.

"Even though I have fused with the spatial Rule spiritual bead, I have never been able to understand what kind of power is spatial energy. It is just a rule that allows me to break through space at will, using spatial energy to carry out unnatural spatial transformations, such as taking things out from space, teleporting things in the air, but is this really the true way of using spatial energy?"

"It should be, but it isn't everything that I use the power of space. There should be a lot of space waiting for me to explore."

The frozen Chen Xiang, in the process of comprehending, had already gradually gained some clarity. Unknowingly, the power of the spatial laws he used had already become stronger.

"How is it?" Chen Xiang suddenly woke up. As for whether he could break through the spatial seal, he was not very sure. He just wanted to give it a try.

"You've slept for more than ten days, and this woman has been carrying you everywhere. She's fought everywhere, and she's already killed dozens of groups of villains, and she's still fighting outside. She hasn't even rested yet, and the power of a level four wargod is truly terrifying. She should be able to become a god soon." Long Xueyi said: "She should be able to go to the Level Five Martial Immortal's training field."

"How are you? It looks like you're in good shape. You should have gotten something."

Chen Xiang had indeed obtained some benefits, but he didn't know how it would turn out right now. He wanted to give it a try, and when he found out that Wang Jinshi had been trying for more than ten days and couldn't even make it through, he felt really bad.

He used the Heaven tour method and his divine power covered the entire area, quickly finding Wang Jinshi. She was currently using her already weakened divine power to fight against the five red-robed elders.

"Senior sister, let me try, if I can't move you to my side, when you feel my Spatial Force, don't resist it. If you succeed, then quickly withdraw the power that sealed me and I will use Spatial Force to take you away."

Wang Jinshi had just heard Chen Xiang's sound transmission, and she immediately sensed Chen Xiang's spatial energy. This made her extremely happy.

Chen Xiang never thought that he would actually succeed, with a thought, Wang Jinshi appeared by his side.

Wang Jinshi immediately withdrew his innate ability, Chen Xiang anxiously pulled her back and teleported, at the same time releasing a Space Domain, allowing him and Wang Jinshi to produce an alternate power in the air. Although they were still walking around in the space, it had nothing to do with the space.

This way, their auras would be completely concealed and would not be discovered.

If it was outside, Chen Xiang would be able to do it easily, but in the Divine Prison and in this place, it was impossible for him to do it.

"Senior sister, you must be tired." Chen Xiang saw that Wang Jinshi was drenched in sweat and her face was pale white.

"Not bad. You sure are powerful. In this sort of sealed space, you were able to break through the seal. My master once said that even an Empyrean God would find it hard to do so." Wang Jinshi could finally take a breath of relief. After taking out a pill and eating it, her beautiful face finally recovered a bit of color.

"Even if I can't, I still have to. How could I bear to see a beauty sacrifice her life in order to protect me?" Chen Xiang laughed, "Now that we are safe, we can directly take away those pearls. There are still seventeen days left right?"

Wang Jinshi also felt very safe inside Chen Xiang's Space Domain. Only she and Chen Xiang were in the teleportation space, so even if they were talking loudly here, as long as they were outside the domain, they would not be able to hear anything, unless Chen Xiang controlled his voice to be heard.

"Senior Sister, I have another idea." Chen Xiang laughed craftily: "The villains here are all from profound God, and they are quite strong as well. "Hehe, you know what I mean."

"No, those fellows have imprints inside their Divine Deity. Those imprints were left behind by the Penalty Heavenly God. If you manage to obtain those Divine Deity, the Penalty Heavenly God will definitely track you down." Wang Jinshi hurriedly shook his head: "That's why I didn't dare to take the Divine Deity when I came here to train, otherwise I would have been thrown into the Divine Prison."

"Don't worry, when the time comes, I'll use a spatial barrier to wrap up the Divine Deity so that he won't be able to track us. Right now, even if Hell Devil Emperor were to give me the Tracing mantra, I wouldn't be afraid of being caught by him. Chen Xiang was very confident in this. He said in a low voice, "Senior Sister, if you want to get your father out of the Divine Prison, a large amount of divine money is required."

Wang Jinshi nodded his head, "Little madman, I'm going all out this time. I'll go crazy with you once, get those pearls, then we'll go hunt for Divine Deity."

[Chapter 1816](#)

Wang Jinshi had worked hard for more than ten days, but now she could finally relax. Originally, she thought that it would be good if she could obtain one pearl, but now, it seemed that obtaining all five

pearls wouldn't be a difficult task. This was because Chen Xiang had made a new breakthrough in the use of the power of the spatial laws.

Other than that, they might even be able to get some Divine Deity to sell.

"The bead is placed in a cave in that mountain. This mountain is a great formation. This formation has been gathering a large amount of divine energy all year round, so there will be many villains gathered in the vicinity. It will not be easy to enter that cave." Wang Jinshi smiled sweetly, "If it was before, I would definitely suffer a lot. But now, I should be able to take it away easily."

"Senior sister, how many villains have you killed before?" Chen Xiang only knew that Wang Jinshi had killed a man-eating villain.

"It's not easy to kill them. I only chased them away and brought you with me to escape." Wang Jinshi looked at the mountain in front of him, pointed to the side of the mountain and said: "There's a cave there, do you see it or not, I don't know if there are villains inside, if there are, I will go and pester them, you go and retrieve the bead."

After resting for four hours, Wang Jinshi had fully recovered and was able to cope with the upcoming great battle.

"Youngest junior brother, can we directly go over now? There are definitely many villains hidden in this forest, and this place is a precious cultivation ground for them." Wang Jinshi pulled Chen Xiang's arm.

Chen Xiang looked at the mountain cave, estimated the distance, then nodded: "It should be possible."

Wang Jinshi anxiously hugged his waist, and laughed: "Then let's hurry."

Chen Xiang used the power of the spatial laws and instantly teleported. In the blink of an eye, he appeared at the mouth of the cave.

If Wang Jinshi had flown over by himself, he would have been able to move so quickly. However, he would have alarmed the villains around the mountain range and he would have even been stopped by a few array formations.

"Is there anything else in there?" Wang Jinshi whispered to Chen Xiang.

"Not yet." Chen Xiang still released the Space Domain, slowed his footsteps, and walked forward.

The spiritual energy in the cave was very dense, but there was a formation blocking the entrance. Without some ability, it was very difficult to enter.

Not long after, Chen Xiang and Wang Jinshi arrived at the end of the cave. On the ground, there was a round bead that was emitting a white light, and although the inside of the bead was red, the outside was emitting a white light, which was very strange.

"This is it." Wang Jinshi picked up the bead and sighed a breath of relief: "I finally got one."

"There's movement."

The spatial perception domain that Chen Xiang had released covered the cave passage. At this moment, he could clearly sense that two tall men had entered the cave.

"This should be the place where the spirit pearls are stored in the Devil-killing Divine Palace, they probably haven't come yet. We'll take away the spirit pearls here, and as long as they can't find it, they won't get any points."

"Senior Brother, will the Penalty Heavenly God watch? Is this a violation of the rules?"

"Penalty Heavenly God is only trying to scare us. If he was watching us get rid of the other two disciples from the divine hall, he would have already made his move."

Chen Xiang and Wang Jinshi could clearly hear their conversation.

"It's the Fire Divine Palace's War God, he's very strong." Wang Jinshi transmitted to Chen Xiang: "Try your best to avoid them. If they only have one, I might be able to handle it."

The War God of Fire Divine Palace actually knew where to store these beads. Didn't they say that only the Penalty Heavenly God knew where to store these beads?

"I really want to kill these two." Wang Jinshi clenched her teeth, she was furious in her heart. If Penalty Heavenly God did not pay attention to this place, she would have started a massacre as well, but she wanted to focus on the big picture right now. Furthermore, she could only deal with one person.

"Who's inside?" This voice belonged to the senior brother. It was rather rough, and its tone was extremely cold.

"Quick, dodge."

Wang Jinshi anxiously leaned on the wall and pulled Chen Xiang over, only to see two balls of fire shooting over, striking on the stone wall at the end, directly piercing through, who knows how deep it went through.

Chen Xiang was extremely shocked. He had just released a Space Domain, he thought that the two flames would not penetrate his Space Domain, but how could he have known that his Space Domain would be instantly destroyed?

"Haha, it's the little girl from Devil-killing Divine Palace, and also that Chen Xiang." The voice laughed out loud. Chen Xiang and Wang Jinshi had already seen them and came over in a moment.

Wang Jinshi dragged Chen Xiang as he dodged left and right, barely dodging, and at the same time, shouted angrily: "You guys want to kill us?"

"Of course." Once he said that, a terrifying flame Qi surged forward, Chen Xiang anxiously teleported and brought Wang Jinshi out of the cave.

Just as they left the cave, terrifying red flames shot out from the mouth of the cave and a large amount of boiling lava gushed out from the top of the mountain.

"Let's go, they've already caught up." Wang Jinshi anxiously transmitted to Chen Xiang, and Chen Xiang also felt the approaching danger and immediately used his spatial energy to teleport.

"Don't stop, they're chasing us too closely." Wang Jinshi also didn't know how these two Fire Divine Palace s knew the exact direction they were heading, but they had actually chased after them.

Now that Chen Xiang had experienced the strength of these two profound Gods, he understood why Wang Jinshi said that she couldn't handle two of them. She was really strong, and he had almost killed them just now.

"These two bastards, how dare they use such vicious methods?!" Wang Jinshi was furious. If she did not have enough people on her side, she would have retaliated and killed the two profound Gods.

Chen Xiang had teleported with Wang Jinshi tens of times consecutively, and they were already far from the cave from before. Now, they did not even know where they were.

"It's safe now. It seems like we have to find the remaining beads quickly. If we are found by those two guys, then our score will be greatly reduced."

When Wang Jinshi saw that Chen Xiang was extremely tired, he took out a pill and fed it to him. "You rest first, they shouldn't be chasing you anymore."

"Why do they know where our bead is hidden? Could someone have purposely told them where our bead is hidden?" Chen Xiang was very suspicious about this.

"It should be, that fellow is most likely the hall master of the all divine palaces. Besides this bastard, who else would the Penalty Heavenly God do such a thing to reduce their price?" Wang Jinshi's face was full of anger: "You saw it too, those two fellows earlier actually wanted to kill us, hmph, since it's like this, don't blame me for being ruthless."

If they hadn't run fast, Wang Jinshi and Chen Xiang would very likely have been killed by the two Fire Divine Palaces just now.

"These two guys are really strong, why didn't I see them appear in the competition?" At that time, Chen Xiang had also observed them very carefully, especially towards the Fire Divine Palace, Hell Divine Palace, and the Gods of the divine halls.

Hence, his impression of these two profound Gods was very deep.

"It seems that our Devil-killing Divine Palace has been scammed by those shrines. We have to be extra careful." Wang Jinshi frowned: "We better hurry and retrieve the bead in front of those two fellows. They should have passed the Level 5 War God's assessment, their strength is much stronger than me, and when the two of them teamed up to deal with me, I'm not their match at all."

Chen Xiang recovered very quickly. In just an hour, he had already recovered to his peak condition.

"I have confirmed your position. I will now guide you to the next location." When Chen Xiang recovered from his rest, he walked around and determined their location.

Chen Xiang used teleportation techniques and continuously teleported. Right now, he was not being hunted down, so his teleportation was not so continuous, there would be a pause in between, and in his mouth there was even a pill.

It had only been three days, but they had already found the fourth bead. The entire journey was extremely easy because Chen Xiang had the spatial strength, so they did not meet any villains blocking their way. Even if they met him, Chen Xiang could easily avoid them.

"The last one. Take the last one and we'll go back and tell Master about this as soon as possible." Wang Jinshi held back his anger and had no place to vent it. He could only go out and tell Devil-killing Heavenly God to help her vent it out.

The fifth bead was placed on a small mountain, on top of it was a platform, it was constructed by humans. When Chen Xiang and Wang Jinshi arrived, they did not see anyone, but just as they were about to go to the Origin beads, three black figures suddenly jumped out.

"Leave it to me." Looking at these three auras, Wang Jinshi felt that they were not very strong and that he could handle them.

Previously, Chen Xiang said that he wanted to kill a few villains and get a few Divine Deity s. However, because of the sudden appearance of the Fire Divine Palace's powerful profound God, they had no choice but to change their plans and return early. They were facing the greatest danger here, and it was not these powerful villains, but the Fire Divine Palace s.

Now, Wang Jinshi also wanted to get rid of these three villains and take out their Divine Deity.

Chen Xiang received the bead, but Wang Jinshi and the three villains were already battling in the distance.

Because of the two profound God s, Wang Jinshi had been holding back her anger for the past few days. Now that she had coincidentally met three villains, she completely vented her anger on them.

Chen Xiang immediately rushed over, as he was trying to retrieve his Divine Deity.

Taking out the Divine Deity also required some means, otherwise, if one were to accidentally destroy the Divine Sense Sea, the Divine Deity would also dissipate.

Wang Jinshi carefully took out the three Divine Deity s. Just as she and Chen Xiang were brimming with joy, the two familiar scorching auras suddenly appeared.

Fire Divine Palace of the Fire Divine Palace had come.

They were also at this place, and Wang Jinshi felt that it was not a coincidence.

"You actually killed them. Do you know that they are profound God s of our Fire Divine Palace?" That relatively tall middle-aged man said coldly: "You killed the profound God of my Fire Divine Palace, pay with your life."

[Chapter 1817](#)

But Wang Jinshi felt that it was not so, because during the battle, the three profound God s did not use the Fire Divine Palace's cultivation methods at all, and did not even use the power of fire.

"Huo Liao, Huo Lie, it really is you two brothers. Although you two have disguised yourselves, I recognize you two." Just as Wang Jinshi said this, a flaming long blade appeared in the hands of the two brothers and hacked towards Chen Xiang and Wang Jinshi.

Wang Jinshi had thought that Chen Xiang would teleport and bring her away, but he did not, it was obvious that something unexpected happened, but she still quickly reacted, using her own ability to release an ice wall, in the nick of time, to block the two blades.

Her innate divine ability could form very solid layers of ice, but the ice wall had already been split open.

"What's wrong?" Wang Jinshi asked quickly.

"I don't know. My teleportation failed." Chen Xiang's face turned ugly, it was okay before, but now it is not.

Seeing Chen Xiang's change in expression, Huo Liao sneered: "Brat, your Spatial Force is rather strong, but we were already prepared for it."

Wang Jinshi suddenly understood that the three villains who had lost their Divine Deity must have come here to set up some array. Huo Liao and Huo Lie had long been lying in ambush here.

"You guys are really despicable. Huo Liao, Huo Lie, you two are famous War Gods." Wang Jinshi scolded angrily, she had already sealed Chen Xiang with her life ability.

Wang Jinshi had to face an enormous pressure from facing these two powerful stage five wargods. Chen Xiang was even more worried, and at the same time, he was staring at Huo Lie and Huo Liao with anger.

"Zhong Gao Shan, you must have done it. Just you wait." Chen Xiang was furious to the extreme, it was impossible for Penalty Heavenly God to leak out the location of those beads. As the hall master of the all divine palaces, Zhong Gao Shan could definitely get this information out of Penalty Heavenly God.

Since the Penalty Heavenly God didn't pay attention to this place, then it must be because Zhong Gaoshan purposely distracted the Penalty Heavenly God's attention so that the Fire Divine Palace could make a move.

Wang Jinshi used his Smoke sword and fought with Huo Liao Huo Lie not too far away. Through the layer of ice, Chen Xiang could clearly see that Wang Jinshi had already been madly hacked several times, with blood continuously flowing out.

"I won't lend you my power. I will forcibly break the spatial seal set up by those two fellows." Long Xueyi said: "If you don't save your senior sister, she will die."

After Long Xueyi finished speaking, Chen Xiang immediately felt a familiar yet somewhat unfamiliar power surge into his body.

This kind of feeling made Chen Xiang feel an indescribable beauty. It was the first time that he felt the power within his Supreme god bone being stimulated, causing the strength of his body and soul to surge explosively by multiple times.

"Xue Yi, how did you become so strong?" Chen Xiang reckoned that Long Xueyi's strength had already reached the profound God Realm.

"Hmph, I possess a Supreme Dragon blood. Don't look down on me, especially since I have just awakened a little of the memories of the Primordial Era." Long Xueyi urged her: "Hurry up and go save your senior sister."

was already heavily injured and one of her arms had almost been chopped off. She had used her own innate ability to protect Chen Xiang and could not use her full strength, so Huo Liao and Huo Lie knew that if they did not kill Wang Jinshi, it would be difficult for them to break through his innate ability.

Wang Jinshi was severely injured, and stood on the ground. Her vision was blurry, and her entire face was covered in blood, her originally beautiful face was currently haggard and haggard. She panted, and her beautiful eyes were currently filled with endless anger as she looked at Huo Liao and Huo Lie who were in front of her.

"Chen Xiang, I'm sorry. Senior Sister cannot protect you ..." Wang Jinshi clenched his teeth, feeling extremely guilty.

"Girl, what a pity. If we were to give you a few thousand years of growth, even we brothers together might not be a match for you." Huo Liao laughed sinisterly.

Wang Jinshi spat out. "Even if I die, I'll drag someone down with me."

Wang Jinshi who was holding onto the Smoke sword had already decided to use God Murdering Sword Techniques. Huo Lie and Huo Liao suddenly felt a strong sword intent coming from the Smoke sword, causing them to feel an extreme sense of danger.

"You have no chance." Huo Lie shouted anxiously and slashed at Huo Liao fiercely. The current Wang Jinshi was so terrifying that it made them tremble, but they were confident that they would not let Wang Jinshi retaliate before his death.

In that instant, Wang Jinshi's despair dropped to the bottom because she knew very well that she was unable to even execute God Murdering Sword Techniques. This Huo Liao and Huo Lie were simply too strong, and too fast.

Chen Xiang shouted out explosively, and a wave of berserk spatial energy rippled outwards. It was like a calm wave, and the space around him began to undulate up and down. The mountains and the earth became extremely uneven, and it was as if there were waves crashing down.

And just now, because of the spatial ripple, Wang Jinshi had avoided the position she was at with Huo Liao and avoided the fatal two slashes.

Due to the fluctuations in space, the surrounding terrain had completely distorted, and the spatial sealing enchantment that was originally laid out had become ineffective.

After successfully breaking through the seal, Chen Xiang immediately teleported Wang Jinshi to his side, but Huo Liao and Huo Lie's reactions were extremely fast;

Chen Xiang hugged Wang Jinshi and quickly dodged, but he still felt a burning pain on his back. After being cut in half, the scorching energy quickly spread to his entire body, and he did not dare stay there. He had to teleport multiple times, otherwise, the two brothers would chase after him.

This time, both Chen Xiang and Wang Jinshi were heavily injured, and their oil was completely used up. Fortunately, they had some medicinal pellets on them.

After teleporting tens of times consecutively, Chen Xiang had already gotten rid of the two brothers and could finally stop to recuperate from his injuries.

Wang Jinshi's entire body was covered with terrible wounds, the blood had already been stopped by her cold divine power.

"My soul is fine, but my body isn't light. How about you?" Wang Jinshi's pale face revealed a hint of a smile. She saw that Chen Xiang's expression was also not good and knew that Chen Xiang was definitely injured.

"I just used up a lot of energy, and my back had a big cut, so it's not too bad." Chen Xiang took out the Lingguang Dan that he had refined before. The Dragon Blood Saint Dan could heal one's vital energy and blood, and if the vital energy and blood were sufficient, it could allow him to quickly repair his own injuries.

"Fortunately, you were able to save me at the critical moment. Otherwise, we would have been dead for sure." Using the only hand that could move, Wang Jinshi took out a jade bottle. There were milky-white liquids scattered all over the place, dripping onto the arm that was about to break, and then, he ate a few pieces of the Shangpin holy Dan.

It had only been half a day, but both Chen Xiang and Wang Jinshi's expressions had improved quite a bit. However, the injuries on their bodies had not completely healed yet.

"I'll be fine in two days. What about you?" Wang Jinshi had also dripped that milky white liquid on Chen Xiang, so there weren't even any wounds on his back. Right now, the scorching energy was flowing through his body, all he needed to do was refine it.

"I will be fine when the time comes. Senior Sister, you must seek revenge." When Chen Xiang saw the anger on Wang Jinshi's face, he knew that she would not let it go.

"Find them, no matter what, I have to get rid of one of them. This time we were ambushed by them, that's why we became like this. The next time it will be us ambushing them. Wang Jinshi took out the Smoke sword, and said coldly: "I will use the God Murdering Sword Techniques to defeat them this time."

[Chapter 1818](#)

Wang Jinshi wanted to use the God Murdering Sword Techniques to get revenge on the two profound Gods, which made Chen Xiang a little worried. It was not because she was worried that Wang Jinshi couldn't win, but rather, she was worried about the consequences of exposing the God Murdering Sword Techniques.

It could be seen that Wang Jinshi was already full of rage, causing her to no longer care about this.

Chen Xiang said in a low voice: "Senior Sister, this isn't so good right?"

Wang Jinshi kept his Smoke sword and snorted lightly: "Whatever, let's not get rid of these two fellows here, we won't have another chance in the future. You saw it earlier, these two fellows have a killing intent towards us, their moves are so ruthless."

Chen Xiang only knew that the God Murdering Sword Techniques could not be used casually, but he did not know what the serious consequences would be after it was exposed. He asked, "Senior Sister, what will happen if the news of you using the God Murdering Sword Techniques were to be leaked?"

Wang Jinshi pondered for a while, and said sternly: "I don't know, but the God of Fortune Even more powerful people would appear, force me to hand over the God Murdering Sword Techniques, and cause great trouble for Devil-killing Divine Palace, so I want to kill them in one strike. "

Wang Jinshi patted Chen Xiang's head and asked: "You brat, why were the powers on you different just now? It's very strange, they don't seem to be yours at all.

"This..." Chen Xiang's eyes moved swiftly, and he was speechless. He did not expect Wang Jinshi to notice this in such a critical situation.

Long Xueyi suddenly came out, and laughed: "It's me I lent him my power. "

When Wang Jinshi saw Long Xueyi last time, she knew that he was Chen Xiang's wife. She did not expect that he was actually hiding inside Chen Xiang's Storage magic treasure.

"Brat, you actually brought your wife with you ... Did she know my secret? " Seeing how beautiful Long Xueyi was, Wang Jinshi could not help but chuckle.

"I'm sorry, I didn't hear it on purpose. I definitely won't leak it." Long Xueyi lowered his head and whispered.

Chen Xiang didn't expect Long Xueyi to actually admit it, so he promptly explained: "Senior Sister, it's all my fault. I didn't mention this to you in advance;

Seeing how anxious Chen Xiang and Long Xueyi were, Wang Jinshi laughed and said: "Alright, I believe you two, but in order to be fair, I also want to know a few secrets that you two cannot divulge."

Long Xueyi rolled the ends of his hair and moved his eyeballs, thinking about what kind of secret he should tell Wang Jinshi.

Chen Xiang said: "Let me say it first, I have the Supreme god bone, this is a very powerful thing, and this is my secret. I have told all of you now, even Xue Yi doesn't know about it."

Chen Xiang originally thought that Long Xueyi and Wang Jinshi did not know about the Supreme god bone, because Feng Yujie had told him before that only the Nine Divine Kings knew about the Supreme god bone.

Now that they saw Wang Jinshi and Long Xueyi's expressions, Chen Xiang knew that they had heard of this matter before.

Wang Jinshi asked anxiously: "Supreme god bone, this is a bone that only the strongest flesh body has, even god does not have it, how did you get it?"

"I got it unexpectedly." What Chen Xiang had said was also the truth. Back then, he did not know how this Supreme god bone fused into his body.

"With the Supreme god bone, I can enter the Supreme Divine Palace." Long Xueyi said in an excited voice, "I heard that many deities of the divine hall have gone to great lengths to not be able to enter the Supreme Divine Palace."

Chen Xiang was even more curious now, how did Long Xueyi know about these things? "Xue Yi, why have I never heard of it?"

Wang Jinshi also felt that it was a little strange, "Xue Yi, didn't you just arrive in the Gods Realm? How do you know about the Supreme Divine Palace? Master only told me about it by chance. I heard that the people in the Supreme Divine Palace are all very powerful ancient fellows.

If even the Devil-killing Heavenly God did not have the qualifications, then probably no god in the entire Gods Realm would be able to enter.

Long Xueyi continued to speak: "Supreme Divine Palace only accepts Supreme Gods, or rather, they possess Supreme god bone s, so even powerful Emphyrean Gods cannot enter."

Wang Jinshi helped smoothen through Long Xueyi's messy hair for a while, and asked curiously: "Xue Yi, how did you know about these things? Tell me your secret as well, only then can we be considered equal."

Seeing Long Xueyi stick out her tongue cutely, Wang Jinshi couldn't help but stroke Long Xueyi's pretty face and say with a sweet smile: "Xue Yi, don't you feel bored staying in Junior Brother's Storage magic treasure all day. How pitiful, you can stay at my place from now on.

Long Xueyi nodded and smiled, "Mn, when this little scoundrel didn't bring me out with you, I was together with you. Now I will tell you my secret, in fact, I am a dragon from the Primordial God period, but my memories are incomplete, they are all vague and intermittent."

"Really." Wang Jinshi was in a state of disbelief. She had thought that Long Xueyi was just a little girl, but she hadn't thought that he was actually a dragon, and a dragon at that.

Long Xueyi sighed lightly, "To be more precise, I died during the Primordial God period. The Nine Divine Kings used a strand of my incomplete divine soul to revive me, and I have only now awakened a tiny bit of my memories. My remaining divine souls are still all over the Gods Realm, so I need to gather these divine souls in order to be able to recover to my original self."

Wang Jinshi nodded his head, "I also heard that many powerful beasts died during the Primordial Era, but I am not clear about the details. Especially back then, there were many dragons, and even though there are some now, they would usually hide themselves, because once they appeared, they would be captured and used as mounts, such as the God of Fortune's ice dragon ..."

's face was immediately filled with grief and indignation when he mentioned the ice dragon.

Long Xueyi lowered his head and sighed, "He's my good friend, he should also be from the Primordial God period, I wonder if he has any memories."

Wang Jinshi looked at Chen Xiang, she did not expect Chen Xiang's wife to have such a great background, it could be seen that Chen Xiang also had a heavy responsibility.

Chen Xiang lightly patted Long Xueyi's back, and then asked: "Back then in the Primordial Era, was it because the beasts were too strong, and that's why they were exterminated?"

Wang Jinshi answered his question, "On the contrary, because beasts are too weak and do not obey the control of certain fellows, they resist on a large scale. Afterwards, they implicate powerful beasts and in the end, some powerful totem beasts were all killed.

Wang Jinshi caressed Long Xueyi's face, and asked with a smile: "Xue Yi, do you need my help?"

Long Xueyi replied with a "En" and laughed, "If I need Senior Sister's help, you don't have to refuse."

"Alright." Wang Jinshi seemed to like Long Xueyi a lot and even kissed her on the cheek.

Chen Xiang said, "It looks like we have a lot of things to do next. We need to save the Azure Dragon, Ice Dragon, and senior sister's Sword God father to help Xue Yi find her remnant soul."

He himself still had to find the Four Symbols Divine Weapons, delve into the Heavenly Alchemy, and practice alchemy. Although he had a lot of things to do, it gave him a sense of fullness.

Wang Jinshi and Long Xueyi sat together as they leaned against each other. Long Xueyi also liked Wang Jinshi a lot, so she took out her treasured holy fruit and some delicious meat. She made Chen Xiang start a fire, then relied on fish and various types of beast meat.

When it came to eating, Wang Jinshi had better not think about it. He took out the good things he brought along and shared them with Long Xueyi.

Wang Jinshi laughed: "After a full meal, go and kill Huo Liao and Huo Lie, the two of them. Their Divine Deity must be worth a lot of money, after I kill them, I will go back into closed door cultivation and attempt to break through the bottleneck of the God of Heaven. When you see me again, I will be a God."

At this moment, Wang Jinshi was extremely confident. Thinking about how Huo Liao and Huo Lie could die under her sword, she felt extremely pained in her heart, even though she hadn't went to look for them yet.

After eating most of it, Long Xueyi entered the Serene Jade Ring, and Chen Xiang and Wang Jinshi went to look for Huo Liao and Huo Lie.

Chen Xiang sat on the flying discs, looked around and said: "How do I find these two fellows?"

At this moment, Wang Jinshi was releasing his own cold God Power: "They probably haven't left yet, it is most likely that they are waiting for us at the stone forest, because that is where we appeared. If we want to return, we have to go to that stone forest."

The stone forest was a safe zone. After finding the bead, all one had to do was go to the stone forest and wait. When the time came, it would automatically be sent out.

Wang Jinshi controlled her flying discs and flew quickly towards the stone forest. She was constantly releasing divine power, if her perception was strong, she would be able to sense things from afar.

Time was running out and they were about to leave. This made Wang Jinshi even more anxious, she and Chen Xiang were circling around the stone forest everyday.

Suddenly, Wang Jinshi sent a sound transmission to Chen Xiang: "Quickly hide, they are here. As expected, they are waiting for us in the forest."

They were outside the stone forest, but Huo Liao's Ice Magic Power had already been sensed by Huo Liao and Huo Lie, so they quickly rushed over.

Chen Xiang used the Seventy-two changes and released a Space Domain to hide at the same time. He turned into a bird and flew towards a forest far away.

Wang Jinshi kept her flying discs and looked at the two balls of flame that were shooting towards her. She did not expect that at the last moment, Huo Liao and Huo Lie would actually appear by themselves.

"Little girl, you've recovered quite well. From the looks of it, you have come to find me for revenge. Where is that brat?" Huo Liao laughed disdainfully: "That brat couldn't possibly be unable to defend against my Flame power, right?"

Wang Jinshi took out the Smoke sword, his face darkened, his divine sword shook, the terrifying sword concept suddenly appeared.

Last time, Huo Liao and Huo Lie felt it too, but in the end, they still stopped Wang Jinshi and did not let her carry out her final attack.

Chen Xiang carefully observed Wang Jinshi from afar. He wanted to see how the God Murdering Sword Techniques looked like in the end.

[Chapter 1819](#)

As one of the Taboo magic, the God Murdering Sword Techniques was what most gods wanted to obtain, because it was much easier to learn than the Heavenly Alchemy. Legends said that the Heavenly Alchemy was the hardest to master, while the God Murdering Sword Techniques was the easiest.

Huo Liao and Huo Lie had a tacit understanding with each other. When they attacked together, they would merge together and become stronger.

In order to prevent Wang Jinshi from using such a terrifying sword technique, the two brothers slashed at the same time. The fire energy that surged out from the blade was extremely violent, but when the two flame blade energies clashed, they did not produce any form of rejection, and perfectly merged together, becoming even more powerful, as though lightning was striking at Wang Jinshi.

Although their blades had changed, their speed was still very fast. It was hard for Wang Jinshi to dodge, but the Smoke sword in her hands slashed across with an unbelievable speed.

What was astonishing was that after the flame was split apart, it quickly dissipated without any aftershocks.

"Hmph. Last time, I was just worried. Since all of you are so ruthless, then I won't care too much. I will make it so that you won't even have the chance to go to hell."

The extremely furious Wang Jinshi, looked extremely calm on the surface, but the Smoke sword in his hand suddenly moved, and his sword strangely floated past. It was extremely fast, but what was hard to

understand was that Wang Jinshi had actually disappeared, and there was only one Smoke sword dancing in the air.

However, when Wang Jinshi appeared, a streak of blood appeared on the foreheads of Huo Liao and Huo Lie. Wang Jinshi was still standing at his original position.

"This is the God Murdering Sword Techniques." Chen Xiang had already obtained the God Murdering Sword Techniques from Wang Jinshi, but he did not learn it. He did not know what it was like, but after seeing it now, he felt extremely shocked.

"God Slaughtering... Impossible, it can't be the God Murdering Sword Techniques ... " Just as Huo Lie finished his sentence, a red line appeared on his neck and his head fell off.

Huo Liao saw that he was about to press his hand on his head anxiously. There was a line of blood on his neck that was already cut, but for some reason, it was only cut off now.

"So that's how it is. I understand, this is the fast and slow transformation within the Seven devil-slain kungfu, this God Murdering Sword Techniques must also have a way to break through the power of the Ancient Code. Senior Sister disappeared just now because she broke through the laws of space and her head was severed just now, she should have broken through the laws of time."

Chen Xiang suddenly realized, of course, that the most powerful sword qi was that terrifying Sword Qi, it was formless and soundless, but it was extremely powerful.

Huo Liao and Huo Lie were both elite gods among the Fire Divine Palace, and definitely had expensive high grade divine armor on them. Their bodies were also extremely tough, but Wang Jinshi had casually slashed their heads off with just two swords.

"Die." Just as Wang Jinshi was about to kill Huo Liao, a purple light suddenly appeared in his palm.

A thunderous sound rang out, shaking the entire world. The exploding purple light produced a terrifying heat, and as the purple light shone down, the surrounding vegetation, mountains and rivers, in the blink of an eye, were all destroyed.

In order to avoid the ball of purple light, Wang Jinshi had no choice but to use his God Murdering Sword Techniques's special ability to break through the incoming force, and the light caused Chen Xiang's skin to burn even more painfully.

The purple light disappeared, and when Chen Xiang opened his eyes, he only saw an injured Wang Jinshi vomiting blood that floated down.

"The God Murdering Sword Techniques she used just now, she should have done her best. Who knew that such a situation would happen?" Long Xueyi said.

Chen Xiang immediately flew over, caught the fallen Wang Jinshi, and quickly killed him. Then, he took out his Divine Deity.

"This bastard actually used such a powerful Deity talisman." Wang Jinshi wiped off the blood from the corner of his mouth and said anxiously to Chen Xiang: "Quickly go chase that guy, he has already escaped. If he is allowed to leave this place alive, he will definitely leak out the news of me possessing the God Murdering Sword Techniques."

Wang Jinshi had only been injured by the attack just now. Now, after taking a breather, she was already able to move.

Chen Xiang brought her and used teleportation to chase after the fleeing Huo Liao.

Very quickly, they entered the stone forest. Because the competition wasn't going to end long ago, a small spatial passageway appeared within the stone forest.

"Dammit, I let this guy run away." Wang Jinshi gritted his teeth as he cursed, his expression becoming extremely ugly: "This is it."

Without a second word, Chen Xiang brought Wang Jinshi and charged through the spatial tunnel and appeared in one of the great halls of the all divine palaces. At this moment, many god gods and disciples were waiting there, and Chen Xiang and his group seemed to be the last group.

"Master, I ... I saw the God Murdering Sword Techniques ... " Huo Liao was extremely frightened, his finger trembling, he pointed at Chen Xiang and Wang Jinshi who had just came out, his head was still missing, but he had used his hand to hold them down, causing his head to not fall.

The four words "God Murdering Sword Techniques" seemed to possess a breathtaking magic power. When the gods present heard it, they felt as if their souls had been struck, because they had not heard of this terrifying sword technique in a long time.

Originally, they did not dare believe it, but now, when they carefully felt the trace of sword intent Huo Liao was participating in, all of the divine gods trembled in their hearts. This kind of familiar sword intent had once shrouded them in endless fear.

Afterwards, all the divine gods looked towards Wang Jinshi and Chen Xiang. They didn't know who used the God Murdering Sword Techniques yet, but they felt that it was very possible that it was Chen Xiang.

Chen Xiang suddenly sensed the undulations from Wang Jinshi's body and anxiously shouted: "This bastard wants to kill us all while he's inside, and even knows the whereabouts of our bead, he has already broken the rules, die!"

Finished speaking, the ancient sword suddenly appeared in Chen Xiang's hand, which was the one he named the God Slaughtering Sword. Following that, a terrifying and berserk sword concept appeared, enveloping the entire hall.

Even Wang Jinshi was shaken, she did not understand how Chen Xiang could suddenly possess such a terrifying God-killing sword, it was something that only she and her Sword God father could do, even if Chen Xiang had learnt the God Murdering Sword Techniques, without the inheritance of the God Slaughtering Blood, it was impossible for him to have it, she knew this very clearly.

Chen Xiang himself didn't know why he suddenly comprehended God Murdering Sword Techniques, he only knew that he couldn't let the other gods know that Wang Jinshi was the Sword God's daughter, so he felt that it would be better for him to take responsibility for this matter.

Chen Xiang's God-killing sword was extremely terrifying, even a bit more powerful than Wang Jinshi's.

New Year's Eve. I wish everyone a happy new year and money and girls.

At this time, the image of the sword strike Wang Jinshi used to kill Huo Lie earlier appeared in his mind. That was because he had used the power of the laws of space and time, and the Seven devil-slain kungfu that he had previously cultivated had also been learned in the area of time.

This sword attack was extremely inconceivable. He felt that at that moment, the surroundings had become very slow. He could even clearly see the Fire God slowly walking over, and the flames on the Fire God's body also very slowly appeared.

The Fire God didn't walk over, but quickly flashed by. However, in Chen Xiang's eyes, he appeared very slow and every step was extremely difficult.

After using the God Murdering Sword Techniques, Chen Xiang felt that everything around him was incredibly slow. Everyone seemed to be frozen in place, their expressions frozen, their floating hair also hanging in the air, and only the Fire God slowly walked over.

In this hall, only Chen Xiang could move at a normal speed.

Chen Xiang himself quickly understood this point, so when he saw the Fire God approaching, he immediately rushed over and sliced Huo Liao's sword into eight pieces, then took out Huo Liao's Divine Deity and returned to his original position.

But in everyone's eyes, Chen Xiang had disappeared just now, and only the sword started to move strangely, exactly the same as when Chen Xiang saw Wang Jinshi brandishing out his sword just now.

When Chen Xiang appeared in front of everyone's eyes, they all knew that Huo Liao was already dead.

Huo Liao looked to be fine, but was already speechless. His soul had already been destroyed by Chen Xiang, and when Fire Divine Palace rushed over, Huo Liao suddenly dropped to the ground in a few pieces.

Huo Liao's death did not feel strange to the divine gods. It even made them feel like it had been a long time.

This was one of the most terrifying sword moves in the God Murdering Sword Techniques, the space-time style.

Chen Xiang, who originally wanted to speak out, became even more dumbstruck. She understood that Chen Xiang had done so in order to not let the divine gods of the divine hall suspect her, so that she wouldn't be in so much trouble in the future.

Although Devil-killing Heavenly God looked to be shocked, his sharp eyes seemed to flash with a look that made people want to think, as though he was excited. He was the fastest and immediately rushed to Chen Xiang's side, as though he wanted to prevent Chen Xiang from being attacked by the Fire God.

The furious Fire God, the long white beard was already burning with fire, at this time, a tall and sturdy man suddenly came to Chen Xiang's side, thinking that he wanted to punish Chen Xiang, but who knew that he did not reveal that kind of stern expression, as though he wanted to protect Chen Xiang too.

"This is the all divine palaces. As the Penalty Heavenly God, I am specially responsible for this kind of thing. I absolutely cannot let you guys mess around here and disrupt order." Penalty Heavenly God's low voice swept a glance at the Fire God and the God of Fortune who were about to make a move.

The appearance of the God Murdering Sword Techniques caused many of the divine gods who had given up on stealing Chen Xiang's Heavenly Alchemy to have the idea of capturing Chen Xiang rise once again. The Heavenly Alchemy was hard to refine and even if one managed to obtain it, it would be extremely difficult to comprehend its essence.

But God Murdering Sword Techniques was different. As long as one was a god, with their many years of cultivation, it was much easier to cultivate them.

Everyone could clearly see that Chen Xiang used the forbidden God Murdering Sword Techniques to kill my Fire Divine Palace's disciple. I remember that there was a rule in the past, this kind of Taboo magic was not allowed to be used, so you should be clear whether that was the God Murdering Sword Techniques just now or not. Back then, you were also heavily injured by the Evil Demon Sword.

The Penalty Heavenly God said coldly: "Whether or not the God Murdering Sword Techniques is prohibited, there is no such rule in all divine palaces. It is only because the weak feared this sword technique that they decided to use it."

"I know that Chen Xiang killed Huo Liao at the beginning, and Fire Divine Palace has already committed a grave breach." Penalty Heavenly God waved his hand and released a curtain. The scene of Huo Liao and Huo Lie ambushing Chen Xiang and Wang Jinshi appeared inside the curtain.

"I don't know how they found the hiding place of the Devil-suppressing Divine Palace's Pearl, but if they did that, it would be a grave violation of the rules."

The Penalty Heavenly God had such records at every single point. They could even hear the conversation between Huo Liao and Huo Lie.

After the Devil-killing Heavenly God finished looking through, he said furiously, "Who gave them the map? The punishment, and the location of the pearl was all placed by you.

Devil-killing Heavenly God releasing such vicious words was already showing no mercy. It could be seen how angry Devil-killing Heavenly God was at this moment, that he would say such words to Penalty Heavenly God.

At this time, Hall Master Zhong Gao Shan suddenly laughed heartily: "Since Fire Divine Palace was the one who violated the rules first, and almost caused the disciples of Devil-killing Divine Palace to lose their lives, this disciple of Devil-killing Divine Palace has chased out to seek revenge, and this is also the extent of the rule, I think this matter will end here."

Seeing Zhong Gao's smiling face and helping everyone, Chen Xiang and Wang Jinshi was even more certain that this matter was related to him. He was worried that if they continued to investigate, they would implicate him, so he said this.

The Devil-killing Heavenly God and the Penalty Heavenly God were definitely aware of this matter, they never thought that Zhong Gao Shan would actually be so daring to do such a thing, if not for the fact that Chen Xiang and Chen Xiang had sufficient strength, they might already be dead.

"We got five beads." Wang Jinshi handed the pearl over to Devil-killing Heavenly God, who handed it over to him.

"It's the pearl I placed, with the highest total score in the Devil-killing Divine Palace. Devil-killing Divine Palace will be able to get first place in this competition, and will be able to enter the highest point in the Devil-killing Divine Palace, where there will be a reward." The Penalty Heavenly God announced.

Chen Xiang looked at Xiao Chou, Ren Tianyong and the others. They seemed to be in a sorry state, and were not injured at all.

Devil-killing Heavenly God came in front of the God of Fortune and extended his hand: "You have lost, according to our bet, you have to give me 100 billion God of War. Of course, it's fine if you don't, I'm not afraid of declaring war on both Hell Divine Palace and your Wealth Divine Palace."

This Devil-killing Heavenly God was about to go crazy, he actually dared to say such arrogant words. Just now, they had already formed an enmity with him, and before, they even had enmity with him.

Of course the Wealth Divine Palace was not afraid of the Devil-killing Divine Palace, but if he were to renege on the bet, he would definitely become a huge laughingstock for the Gods Realm in the future.

"Here you are, you can receive the divine money from any native bank." The God of Fortune gave Penalty Heavenly God a jade token, and then coldly looked at Chen Xiang, and took his Wealth Divine Palace disciples away.

When Devil-killing Heavenly God came, he was very confident that they could win, but it was only such an outstanding result, which surprised him very much, especially Chen Xiang's performance.
