

Dan God 1831

[Chapter 1831](#)

Yang Yan had told the owner of this hotel that as long as someone came to find him, he would be treated well. At this moment, Chen Xiang enjoyed bathing in the hotel.

He waited for a long time before Yang Yan returned to the hotel. A waiter came to notify him.

Arriving at the hall where Yang Yan was entertaining guests, when Chen Xiang saw Yang Yan, he immediately used the Voice Transmission Technique to tell Yang Yan: "Big brother Yang, this is Chen Xiang."

Yang Yan nodded his head, and laughed heartily: "I knew you would come, let's talk inside."

Chen Xiang and Yang Yan arrived at a secret room, and Yang Yan sighed emotionally: "The last time you were in the Divine Prison, I knew that you would definitely have some accomplishments in the future. I didn't think that it would be so quick to verify what I was thinking."

During the last meeting with the all divine palaces, the strength Chen Xiang had displayed had left a deep impression on him.

"Big brother Yang, you're not bad too. You've hidden your strength well enough, I still can't tell what kind of strength you have." Chen Xiang laughed.

When Devil-killing Divine Palace defeated Hell Divine Palace, he no longer had a shrine, and he even brought out some evidence, asking Penalty Heavenly God to punish Hell Devil Emperor. Now that Hell Devil Emperor had already ran away, all of his subordinates were taken away by Penalty Heavenly God.

Although he lacked the threat from the Hell Divine Palace, Chen Xiang was still very careful.

The last time Chen Xiang came to look for Yang Yan, was to ask him to help her buy some Holy level medicinal herbs, or look for a way to buy them. Chen Xiang had to start refining the middle grade Holy level pills and the high grade pellets.

Many shops that specialize in producing Holy Elixirs are out of stock. If you need a good price to buy a lot of them, I suggest that you go to the Goddess City and have a look around. The women there grow these types of plants and flowers are very extraordinary. Yang Yan took out an envelope and handed it over to Chen Xiang: "If you encounter any inconvenience when you are at that place, you can pass this to the City Lord of the Goddess City. She is my wife and after I finish all the work here, I will also go to the Goddess City."

Chen Xiang took it, and said with some surprise: "Big Brother Yang, you're quite impressive, the City Lord of the Goddess City is actually your wife."

Yang Yan shook his head and laughed: "It's all because of my father."

Chen Xiang currently did not have divine money, so even though he had some Divine Deity s, he was not willing to sell them.

"I need to get some good money." This gave Chen Xiang a headache. Fortunately, he had grasped the method to refine Lingguang Dan s earlier, and could refine quite a bit. As long as he sold it, he would be able to get a lot of divine money in a short period of time.

Divine Maiden City was a city that was built by the Divine Female Palace, and there were a lot of people within the city. Chen Xiang felt that this place was much more lively after coming here from the Brilliant Divine City, he had heard that a lot of men came here to try their luck, to see if he could marry a Divine Maiden ...

Just as Chen Xiang arrived at the Goddess City, he heard an astonishing piece of news.

Feng Yujie had actually come to the Gods Realm, and was even the Second Palace Master of the Divine Female Palace at that. It is said that she will be the one in charge of the Divine Female Palace in the future.

"For Feng Yujie to be able to reach such a position, it seems that she has already been restored to her peak strength. At the very least, she should be a god." Chen Xiang thought.

Since Feng Yujie was the Second Palace Master of the Divine Female Palace, Chen Xiang felt that he would be able to borrow some medicinal ingredients from the Divine Female Palace even if he didn't have divine money.

Long Xueyi said: "Since Feng Yujie is here, Meng'er and Xianxian should be following him."

Back then, all the women had separated and gone about their own business. Only Liu Meng'er, Xue Xianxian, Dongfang Xinyue and Dongfang Jing.

Chen Xiang was already impatient to go to Divine Female Palace, so his walking speed became much faster.

Arriving in front of the Divine Female Palace, Chen Xiang secretly despised the Devil-killing Heavenly God. The main hall of the Divine Female Palace was much more imposing than the Devil-killing Divine Palace, it was tall and big, square-shaped, like a pillar that supported the heavens, it was so tall that one couldn't see the top.

"How do we get in?" When Chen Xiang saw the valiant Goddess wearing the War God Armor, he did not dare to act recklessly.

He still walked over, and when he got through the grand doors of the Divine Female Palace, he was stopped in his tracks.

"Men stop." A female gatekeeper shouted coldly.

"I am looking for your Second Palace Master. Could you help me pass on the message?" Chen Xiang anxiously said.

"No, please go back."

Chen Xiang still wanted to say something, but after thinking about it, he turned around and left. If he wanted to see Feng Yujie, he could only reveal his identity, but he was worried that it would affect Feng Yujie.

"It's still better to wait for a chance to meet Feng Yujie alone in the future. After all, she is the Second Palace Master ... Devil-killing Divine Palace's Palace Masters normally do not appear much in public. "

After using his meagre amount of money to rent a room, Chen Xiang took out two Blood ginseng s. He had already eaten all of the Dragon Blood Saint Dan s that he had refined with Divine Light.

"It should be able to refine three Lingguang Dan s. I wonder how much they will sell for then." Chen Xiang took out a pill furnace with cracks on it. This was the divine furnace that Yuan Baibing had gifted him, and because he had refined fifteen Lingguang Dan last time, it cracked three times.

"The Divine Stove has to be changed too. I wonder how Elder Sister Meng'er and the rest are currently forging." Chen Xiang was still thinking about his Divine Ship.

After a few hours, the house that Chen Xiang rented suddenly shook, and a large amount of dust fell, causing the Divine Stove to shatter into pieces and crumble.

The Divine Stove that Yuan Baibing had given him was indeed not a good thing, and it broke just like that.

"Fortunately, I succeeded. I should be able to sell him for quite a bit of money." Chen Xiang looked at the three Dragon Blood Saint Dan that had a burst of spiritual light and felt a lot more comfortable in his heart.

If he wanted to sell the sacred pills, he would have to wait outside the pill shop. As long as it was cheaper than the pill shop, he could sell it to the pill shop here. However, the price was very low.

Inside the Goddess City, the best medicine shop was obviously opened by the Divine Female Palace. Chen Xiang casually asked around and found it.

When he arrived at the entrance of the shop, he saw many people surrounding them. From the conversations of these people, he found out that the Rosy clouds Dan Saint was inside the shop. It was said that there would be a chance to see her concocting pills in the next few days.

had already sparred with the Rosy clouds Dan Saint before, and this Rosy clouds Dan Saint was quite powerful as well. Chen Xiang also squeezed into the crowd to join in on the fun.

"Feng Yujie is also an alchemist, I wonder which is stronger between her and this Rosy clouds Dan Saint." Chen Xiang pondered in his heart. He had hidden his strength well, and now that he possessed the strength of a Heavenly God, he might be able to refine some divine pellets.

[Chapter 1832](#)

During the competition, although Rosy clouds Dan Saint and other famous Dan Saint Title would not be able to get first place, it did not affect their reputation. The appearance of the Rosy clouds Dan Saint at this time could be seen from how it had attracted so many people.

Chen Xiang was mixed in the crowd, patiently waiting for the Rosy clouds Dan Saint to appear. Unexpectedly, the one who walked out was a beautiful girl, she told everyone that it was not convenient for Rosy clouds Dan Saint to refine pills outside right now.

This made everyone very disappointed, they had waited for so long, and this was actually the result. Just as everyone was sighing in disappointment, the girl said: "Although Rosy clouds Dan Saint s cannot refine pills outside, but we can do it inside, and the hall in our shop is also not small. As long as we do not make any noise inside, we can go in and watch the Rosy clouds Dan Saint refine pills."

This was the territory of the Divine Female Palace, whoever dared to make a ruckus inside would definitely not get anything good, and then everyone lined up in an orderly manner and went into the main hall of the shop.

Chen Xiang naturally followed them in. When he and several thousand people arrived at the great hall, it was indeed very big.

The hall was divided into two parts, one side was very spacious, and the people who came in to see the pill refining were at that part, the other side was separated by a transparent crystal wall, and over there were a few dozen Alchemist s pill refining, among them were Rosy clouds Dan Saint.

Everyone could see that the Alchemist was concocting pills with their eyes closed, but everyone's attention was on the Rosy clouds Dan Saint.

"What pill are they refining?" A man said in a low voice: "Isn't it common for Alchemist to refine pills in their own pill refining rooms? Gathering together to refine pills should be considered a competition."

The young lady from the Divine Female Palace replied: "They are indeed competing. They are all the outstanding Alchemist s from our Goddess City, even if they are not Divine Female Palace's disciples, as long as they contribute to the Goddess City, they can all participate in the competition here. The three Alchemist s who win will have the opportunity to receive the pointers of the Pill God."

Everyone heard and exclaimed in surprise. To be able to get the guidance of the Pill God, it also meant that there was a Pill God visiting Divine Female Palace right now, which was why these Alchemist had the chance.

It was said that every great shrine was on good terms with the Pill God. There were even Pill God overseeing the shrines, but those were rarely seen and were even very mysterious.

Although Rosy clouds Dan Saint s were very famous and had a high level of alchemy, it was still a very rare opportunity for her to get the guidance of the Pill God.

Chen Xiang's heart was moved, he had never seen the Pill God before, he wanted to give him pointers too, but he did not have the chance.

"What pill are they concocting? How are they going to rank the top three?" An old man asked.

The young lady answered with a smile: "The refining method of the Shangpin holy Dan is to refine them into pills for the Pill God to see and let him choose."

The pills they refined were meant for the Pill God to see, so the pressure on Alchemist was not small.

Chen Xiang saw the Rosy clouds Dan Saint, but it was still far away. Originally, he wanted to look at it a little longer, but he knew that refining the Shangpin holy Dan required a lot of time. He did not want to wait any longer, so he decided to leave the hall.

The girl saw that he was about to leave, so she walked over and asked, "Brother, where are you going? Don't run around. I'll bring you out."

With that, the girl looked at the crowd and asked softly if anyone was leaving.

When the people inside saw that Chen Xiang was about to leave, they looked at Chen Xiang in disdain. After entering not long ago, they left, not giving him any face as a Rosy clouds Dan Saint at all.

Chen Xiang ignored their gazes. He was just here to join in the fun, he was mainly here to sell the Holy Pellets in exchange for divine money.

Only Chen Xiang was leaving, so the girl brought him out of the hall. At this time, Chen Xiang opened his mouth and asked: "Miss, do you guys buy the sacred pills here? I have a few pills with me, if the price is right, I would like to exchange them for some divine money."

The girl smiled and nodded: "Of course! Please come with me. I will take you there but there is a limit to how many of us can purchase. If there is too much then we have to inform the elders so that they can arrange it."

"I only sell a few." Chen Xiang was only going to check the price.

"That will depend on the quality of your Holy Elixir. At that time, there will be a special Alchemist to evaluate it." The girl walked a few steps and came to a door. She opened the door and said in a soft voice, "You just have to wait patiently inside."

After Chen Xiang entered, he saw that there were more than 20 large round tables, and every round table had over 10 chairs. There were a lot of people seated, and there were only a few empty seats.

Chen Xiang found an empty seat and sat down. He knew from the conversations of the others that they were all here to sell pills.

"Lil 'Bro, are you here to sell pills or medicine?" A black-robed old man who was sitting beside Chen Xiang asked.

"Senior, how about you, a pill seller?" Chen Xiang laughed, and then asked.

The black-clothed old man took out a small box and smiled, "This old man also sells pills. Because my luck is good, I managed to refine a high quality low-grade saint pill."

Chen Xiang smiled and said: "In that case, congratulations."

Chen Xiang found it funny that he was able to concoct such a high quality pill. It was all because of his good luck.

A bearded middle-aged man sitting opposite to Chen Xiang laughed: "That is at most a medium quality low rank Holy Pellet, it won't sell for much god's money, so does Divine Female Palace want it or not?"

The black clad old man ignored the man and continued their conversation with Chen Xiang. "Little brother, are you also a Alchemist?"

Chen Xiang nodded his head, and said humbly: "I refined it myself, and because my luck was good, there were three batches."

"What quality?" The old man quickly asked.

Just as Chen Xiang wanted to answer, the bearded middle-aged man said sarcastically: "He should be grateful to the heavens for being able to refine an Inferior Grade Holy Pellet."

Chen Xiang laughed faintly: "I refined a high quality low rank Holy Pellet, the one facing me, seems like you are also a Alchemist, could it be that you are concocting a divine pellet?"

He purposely spoke loudly so that everyone in the hall could hear him. Indeed, everyone was looking in his direction.

The bearded middle-aged man stood up abruptly and shouted with a vicious expression, "Kid, you are itchy, right?"

Chen Xiang sat there leisurely, and smiled faintly: "My skin is indeed a little itchy, it's good as long as I scratch it, but it's still much better than those fellows with a cheap mouth that spew feces all over their mouth. Right, Lord Pill God, I wonder if you can refine such a cheap mouth pill?"

Everyone could not help but burst out laughing, causing the middle-aged man to fly into a rage. He rolled up his sleeves, although he was well-built, his mind was not simple, and did not immediately start a fight with Chen Xiang. After all, this was the Divine Female Palace's shop, and causing trouble here was simply courting death.

"Kid, if you have the guts, come with me out of the city." The big man said angrily.

"Beat me up if you have the guts. You want to beat me up, and you want me to run all the way out of the city to beat you up myself. Do you think I'll be as stupid as you?" Chen Xiang chuckled: "Of course, if you carry me out of the city, I will consider it."

[Chapter 1833](#)

Chen Xiang knew that this middle-aged man was a weakling. If he really had the ability, he wouldn't have allowed him to go outside of the city to duel with others.

The big bearded middle aged man was so angry that his face was flushed red, his fists were clenched tightly, he looked very fierce, and although he looked scary, but Chen Xiang was not afraid, the big bearded man did not dare make a move.

"Be quiet." A sudden soft voice made the bearded man's expression soften. This was because this was a woman from the Divine Female Palace, he did not dare be so fierce here.

"What happened?" A girl in blue with delicate features walked over and inquired in a light voice. Seeing her frown, the bearded middle-aged man hid his gaze, no longer having that ferocious and ferocious appearance from before.

The blue clothed lady looked at Chen Xiang because when she walked out of the room earlier, she saw the big bearded man glaring at Chen Xiang.

Chen Xiang laughed: "Nothing, it's just that the person on the other side wants to invite me out of the city to fight with him."

The blue-clothed woman's face revealed a look of disgust, as if she was extremely disgusted with the idea of fighting and killing.

"Put the pills you need on the table. If I think you can buy it, I will offer a direct price." The blue clothed lady raised her voice. When she appeared, everyone became extremely reserved, with only Chen Xiang smiling mischievously.

This was because Chen Xiang did not know the identity of this woman in blue. However, based on Chen Xiang's surname, even if he knew, he would not think much of it.

"Lil 'Bro, you better be polite, don't stare at Miss Ye." The black clad old man sitting beside Chen Xiang whispered to Chen Xiang, because Chen Xiang was looking at the "Miss Ye" with a slightly dishonest gaze.

Chen Xiang had already guessed that the identity of the blue clothed female was not simple. He asked the black clothed elderly man via sound transmission, "Who is this Miss Ye?"

The black clad old man answered: "Her name is Ye Qin, her father is a pill god and she is also a pill saint. Although she is not Dan Saint Title yet, but she is already considered to be a pill god that can refine pills, but there is no proof that she is a pill god.

"Now that her father has returned, he is currently working as a guest in the Divine Female Palace. The Divine Female Palace doesn't allow men to enter, but the God of Pills is an exception. Furthermore, Miss Ye has grown up in the Divine Female Palace, and will become an important leader of the Divine Female Palace in the future."

When Chen Xiang heard about Ye Qin's identity, he couldn't help but be shocked. He was actually the daughter of the Pill God, and this made him look at Ye Qin more carefully.

The black clad old man once again transmitted his voice to Chen Xiang: "There is a rumor that Miss Ye is the daughter of the Pill God and the Divine Female Palace's Palace Master. Although it is only a rumor, it is most likely true. "Be careful not to anger Miss Ye."

Everyone placed their pills on the table. The black clothed elder also placed his black coloured pills on the table.

Chen Xiang took out a jade box. He did not open the box because there were three Lingguang Dan s inside that could blind dogs.

Ye Qin walked around with graceful steps, but only frowned slightly, showing that she did not take a fancy to any pellet.

Chen Xiang also looked at the other pills on the table. Although there were some mid-grade Holy Pellets, some even had Shangpin holy Dan s, but the quality was not very good. For high-end shops like the Divine Female Palace, they would definitely not sell low-grade Holy Pellets.

"Are you here to sell jade boxes?" Ye Qin saw a jade box in front of Chen Xiang, and asked softly.

Although she was the daughter of the Pill God and her status was honorable, Ye Qin was not such a high and mighty girl. Otherwise, she would not have come to take over this job.

Chen Xiang quickly explained: "The inside of my body is made of Lingguang Dan, although it is only a low rank Holy Pellet, the light is still quite strong, so I won't take it out."

The Lingguang Dan, made the black clad old man beside Chen Xiang stare with his old and wrinkled eyes wide open. The big bearded man who had fought with Chen Xiang just now was also a little surprised and in disbelief.

"You can refine Lingguang Dan, you will be short of money." The black-clothed old man said, "If you have that ability ..." You shouldn't rely on selling pills for a living. "

Ye Qin came behind Chen Xiang and picked up the jade box. Opening the box a little, a red light immediately spurted out.

"It's the Dragon Blood Saint Dan." Ye Qin was extremely shocked. As a daughter of the Pill God, she naturally understood the standards of the Dragon Blood Saint Dan in the jade box. Even the top Dan Saint Title s would not be able to easily refine one.

"Yeah, how much can I sell it for?" This was what Chen Xiang was most concerned about.

To make Ye Qin have this kind of expression, it meant that the Dragon Blood Saint Dan was not ordinary. However, from how poor Chen Xiang was, it looked like he had not eaten a single meal in hundreds of years, and this Dragon Blood Saint Dan was not created by him.

"Who gave it to you?" Ye Qin asked, she did not believe that this fellow could refine such a pill. If he could concoct this pill, how could he possibly lack money, and even more so know the value of this pill.

This was more than twenty times the price of a normal Dragon Blood Saint Dan, it was worth ten thousand divine coins.

"I... "I picked it up. Do you guys want it? If you don't, I'll switch places and sell it." Chen Xiang originally wanted to say that he refined it himself, but after thinking about it for a while, he decided to forget about it.

"Thirty-five thousand." Ye Qin did not pursue any further and stated his price.

Ordinary Dragon Blood Saint Dan would only cost fifty Spirit Stones per pellet, and Dragon Blood Saint Dan with Spirit Light was twenty times more expensive. Adding all three of them together, this was the price that Chen Xiang wanted.

"Alright." Chen Xiang agreed immediately.

He took the divine money from Ye Qin's hands while grinning. After saying goodbye, he rushed out of the hall.

After leaving the shop, Long Xueyi said: "Didn't Yang Yan give you a letter? He said that his wife is currently in City Lord and can go find her."

"I don't want to go. It's better to rely on myself." Chen Xiang had a small sum of money. He planned to buy a few low quality, middle quality Holy Medicines and then use the Spirit Liquid to refine them.

Chen Xiang walked over to the market that held the stalls, and suddenly saw a familiar secret mark on one of the walls. When he walked over to take a look, he was immediately overjoyed, because the secret mark was left by Lv Qilian.

Lv Qilian had finally come to the Gods Realm.

"The mark was just left." Chen Xiang obtained simple information from the combination of these scrolls. After that, he left the market and arrived at a residential area. There were many small houses constructed here, all of them were the same size, and were mainly used for rental purposes.

"The environment here is not bad, Lv Qilian should have a lot of divine money." Chen Xiang followed the house's house number to where Lv Qilian was.

He knocked on the door of the mansion and soon someone came to open it.

After the door opened, Chen Xiang saw a lady with an ordinary appearance but an extremely impressive figure. He could immediately guess that she was Lv Qilian, only that she had changed her appearance.

"Sister Qilian." Chen Xiang asked with a smile.

The woman nodded. "Come in."

[Chapter 1834](#)

Lv Qilian could be considered a strong Ranker in the Nine Heaven World, but with the arrival of the large amount of shrines, many True God profound God s had appeared in the Nine Heaven World.

So she had to rely on Chen Xiang, and Chen Xiang had been waiting for her to come up.

"When did you come?" After Chen Xiang entered the room, he very impolitely sat down and picked up the fruits on the table to eat.

Lv Qilian took off the disguise on her face and recovered her beautiful complexion. Seeing this, Chen Xiang couldn't help but laugh wickedly.

"You've been here for a long time, and I've heard about your matters. You're still the same as always, tormenting yourself wherever you go." Lv Qilian's tone was laced with reprimand. She did not wish for Chen Xiang to be so high-profile, as it would not be bad for him.

Chen Xiang laughed and caressed Lv Qilian's face: "Big Sister Qilian, thank you for your concern. I'm fine now, okay?"

Lv Qilian sighed: "Let's not talk about that anymore, I didn't think that you would really come here. I heard that there will be a pill god in the Goddess City, so I came here too, to see if I could contact you."

When Chen Xiang came, it was not for Pill God.

"Sister Qilian, do you know where her little girl is? They came to the Gods Realm." Chen Xiang had only met Lv Qilian.

Lv Qilian shook his head: "No, but you don't have to worry. At that time, they were together, and it wasn't for long. After a period of time, when they have sufficient strength, they will definitely contact us."

Chen Xiang said: "Feng Yujie is already in the Divine Female Palace. It's definitely very easy for you to enter the Divine Female Palace right now."

Lv Qilian propped up her cheeks and said faintly: "Could it be that you don't understand me? You should be the man who understands me the best."

Chen Xiang laughed: "That's right, with your surname, you should be building your own shrine."

Lv Qilian chuckled: "Actually, Deities Templar is just that kind of a place. I only want to become stronger, and do not need to be afraid of anything. I want to establish an empire in the Gods Realm, and I want to become the emperor of the gods."

"Such ambition, but I like it ..." Hehe, when the time comes, I will be your man, the Emperor. " Chen Xiang laughed.

She had been in the Gods Realm for a long time and she had always felt lonely. Now that she had met Chen Xiang, she was very happy.

"Sister Qilian, is the divine money enough to spend?" Chen Xiang took out the divine money that he had just earned. No matter what, Lv Qilian was still considered half a woman to him, giving some money to his own woman, was a matter that was only natural.

"Keep it for yourself. Are you afraid that I won't make enough money?" Lv Qilian rejected him. She smiled and said to Chen Xiang: "If you have something to say, just say it. Do you and I need to be so formal?"

Chen Xiang laughed: "Sister Qilian, I want to practice that technique with you. Alive Slain Method, I want to get some Holy level medicinal herbs, and also test out our current level, to see what it would be like to cultivate that Alive Slain Method. "

Lv Qilian snorted and laughed: "I knew that you would think of this, but I actually also want to try."

Cultivating the Alive Slain Method together meant that they had to kiss. In the bottom of their hearts, they didn't just want to cultivate the Alive Slain Method together, they also wanted to cultivate the deep feelings of love that came with being together.

Chen Xiang was the most proactive. Once Lv Qilian agreed, he would go over and hug Lv Qilian, and make her sit on his lap while he pouted Lv Qilian's lips ...

The two of them kissed once, then started to operate the Alive Slain Method, condensing that type of spirit pearl ...

After two hours, the two of them separated. Lv Qilian spat out a cherry sized silver pearl from his mouth. It was even larger than the spirit pearls they condensed in the past, and the color was also different.

"This Spiritual Bead should have become a lot more powerful. If only it could condense high quality Holy Medicine quickly." Lv Qilian said: "With my current strength, what you and I need the most should be Shangpin holy Dan."

Chen Xiang nodded his head: "That's right, but I heard that there are not many high-grade Holy Medicines, and that refining Shangpin holy Dan requires a pill formula, it is not easy to refine."

"Then let's go look for the intermediate grade Holy Elixir first. How much divine money do you have there?" Lv Qilian didn't keep that Spiritual Bead properly, it was the result of her violently kissing with Chen Xiang. At this moment, she had already acknowledged Chen Xiang, and her feelings for him had grown deeper and deeper.

"Thirty-five thousand, this is the price I got from selling the Dragon Blood Saint Dan ..." Chen Xiang told the process of him selling the pellet to Lv Qilian. Lv Qilian's brain worked very quickly.

Lv Qilian leaned into Chen Xiang's embrace, like a docile little kitten, Chen Xiang lovingly caressed her hair.

"Looks like the Lingguang Dan you refined has already reached a very high level. Ye Qin might even take out the three Dragon Blood Pills and show them to her alchemist father." Lv Qilian heard Chen Xiang's heartbeat, and suddenly felt a trace of other strength: "What is this, is it that white dragon?"

Long Xueyi laughed: "Sorry to bother you."

Lv Qilian wanted to struggle free from Chen Xiang's embrace, but she did not succeed. Chen Xiang hugged her tightly, and at the same time, Long Xueyi ran out from the ring. Just as she came out, her delicate body was hugged by Chen Xiang's other hand.

Just like this, Chen Xiang laughed out loud as he hugged the two beauties who wanted to struggle free from his embrace.

Lv Qilian snorted helplessly, she was not unfamiliar with Long Xueyi either, furthermore, Long Xueyi was the famous Heavenly Dragon Supreme Lord back then, so she had a good impression of him.

"Sister Qilian, quickly bite this little scoundrel." Long Xueyi laughed.

"The more he bites, the happier he'll be." Lv Qilian used quite a bit of strength, and finally got rid of Chen Xiang's bad hand that was caressing her body.

Lv Qilian rolled his eyes at Chen Xiang, and his voice became serious: "Get to the point."

The current Lv Qilian had the demeanor of a female emperor.

Long Xueyi also quieted down and obediently sat there. She asked in a low voice, "Big Sis Qilian, do you have any ideas to let this little scoundrel earn even more divine money?"

Lv Qilian shook his head: "No, at the moment, what he needs is not divine money, but to refine higher quality divine pellets. However, it's hard to find upper quality divine medicine and medicinal formulas, and it's also hard to find middle quality divine medicine, so he needs a certain amount of divine money to concoct it."

Chen Xiang asked: "Then what are we going to do, are we going to sell Dragon Blood Saint Dan s?"

"When Ye Qin takes your Dragon Blood Saint Dan back, he will definitely know that you refined it, because when you competed in the pill refining competition that day, you refined fifteen Dragon Blood Saint Dan with spiritual light at the same time. At that time, the Rosy clouds Dan Saint was also present." Lv Qilian said: "In other words, now that the Divine Female Palace knows that you have come here, it would be best for you to hide your identity, even though Feng Yujie's status in the Divine Female Palace is not low."

Chen Xiang and Long Xueyi were a little suspicious. It was obvious that Lv Qilian was saying this to guard against the Divine Female Palace.

[Chapter 1835](#)

Lv Qilian saw that Long Xueyi and Chen Xiang were confused as to why she said that, and explained, "The main point of it is not to guard against the Divine Female Palace, but against the Pill God who is in the Divine Female Palace. If you practice the Heavenly Alchemy, as long as he wants to, you have to be wary of him."

Chen Xiang nodded: "Before I find out what kind of person the Pill God is, it would be best if I don't expose myself, so I can't interact with Feng Yujie right now, right?"

Lv Qilian shook his head: "No, you have to think of a way to secretly contact Feng Yujie, only she knows the exact location of the Pill God, I think that it's a little strange for the Pill God to suddenly appear here, because I heard that the Pill God has already left his daughter here for many years, he hasn't visited her many times."

Chen Xiang didn't know much about this Pill God, he only knew that Ye Qin was his daughter, and that this Pill God and the Divine Female Palace's hall master seemed to have an ambiguous relationship.

"Will Ye Qin be the daughter of the Pill God and the Divine Female Palace's Palace Master?" Chen Xiang only heard what the black-robed old man said.

"No, Divine Female Palace's Hall Master cannot have children and partners, so it is impossible. Previously, Feng Yujie had told me about some of Divine Female Palace's matters, so it was just a rumor, but I suspect that the relationship between this Pill God and Divine Female Palace's Hall Master is not shallow.

Because Feng Yujie wanted to invite Lv Qilian to join the Divine Female Palace earlier, Lv Qilian took the opportunity to ask him a lot of things about the Divine Female Palace, so he understood more about these things.

Lv Qilian said: "Leave the matter of contacting Feng Yujie to me, you and Xue Yi will go find the cheap, middle-ranked and high-ranked divine medicine."

Chen Xiang and Long Xueyi nodded their heads. They left the house and split into two, going to the medicine stores to inquire about the market price by themselves, to see if there were any cheap mid-grade Holy Medicines.

The Spirit Orbs that Chen Xiang and Lv Qilian cultivated together could make quality inferior medicinal herbs become very good, so it could save them a lot of money.

"Divine Han Pill Shop, this is a pill shop, right? It seems like business is not bad. So many people are inside." Chen Xiang passed by a shop that was decorated elegantly. It was a few storeys high and had a very good seat, one look was enough to tell that it was not opened by an ordinary person.

The moment Chen Xiang entered, he saw a banner hanging on the wall, with the words "Exclusive Secret Method's Special Price of Shangpin holy Dan" written on it.

The fact that the shop had Shangpin holy Dan s for sale showed that the shop had a good alchemy saint, which meant that the shop was very powerful, especially the Shangpin holy Dan, which required unique secret pill formulas, and to obtain these pill formulas was not easy, one would have to pay a lot of money.

These pill formulas were not allowed to be spread around as well. Once found, there would even be a punishment from the Pill God, so in order to obtain the Shangpin holy Dan's pill formulas, one would have to ask the Pill God for them.

"The Heaven holy Dan s that we concoct with our family's secret recipe are acknowledged by many saints and gods. After eating it, they can strengthen their divine powers, and even profound God would have a good effect if they were to eat them."

Chen Xiang asked an old man what this unique Shangpin holy Dan was and he got such an answer.

The Shangpin holy Dan s had quite a few names, but this was because there were too many pill formulas, and many of them were similar, only the difference in their effects were different. If the Shangpin holy Dan s had outstanding effects, most of them would be very famous, and Chen Xiang had heard of several of them.

The famous Shangpin holy Dan s' pill formulas were all developed over the years by some Pill Gods. Thus, not only were they precious, they were also extremely difficult to obtain.

"This Heaven holy Dan has yet to be sold. We've already sold a few batches before, and there are a lot of people fighting over each batch. So right now it's just a promotional campaign, let everyone prepare some divine money." The old man said again.

Chen Xiang left the Divine Han store and went outside to ask around. He found out that the Heaven holy Dan was not bad, after eating it, his divine power had become stronger, especially the ones that had weaker divine power, the effect was even more obvious.

Heaven holy Dan was not meant to increase one's cultivation or reserves of divine power, it was only meant to increase one's divine power, which was why it was very popular.

Following that, Chen Xiang also inquired about the origins of the Divine Han store. He never thought that it would actually be related to the eldest disciple of the God of Fortune.

This disciple was someone Chen Xiang was very familiar with, it was the Feng Shen, and the one who opened the shop was the son of Feng Shen, his name was Li Zhonghan.

After that, he also found out about an interesting thing, that was that Li Zhonghan had come all the way here to open a shop, and his main goal was actually to woo the Pill God's daughter, Ye Qin.

Li Zhonghan was very strong, he was a profound God and did not know how to refine pills, but he had called over two Dan Saint Titles to take care of his shop, so other than the Divine Female Palace, his shop had the best business and earned the most money.

"A single Heaven holy Dan costs a hundred thousand, and each time, he would sell a batch for a hundred, but he would earn ten million." Chen Xiang exclaimed in his heart, it was indeed easy to earn money from selling high ranked Holy Pellets, "If I sold mid ranked Lingguang Dan, it would probably only be twenty or thirty thousand pellets. It would be extremely difficult to refine, and it wouldn't take much out of the pellet."

It was not easy to refine a mid-grade saint pill. Even though it didn't require that type of secret recipe, it required a variety of mid-grade saint medicines. Refining it all together was extremely difficult.

Refining a Medial Grade Holy Elixir was as difficult as refining a Shangpin holy Dan. The reason why Shangpin holy Dants were a stage higher than Medial Grade, was because Shangpin holy Dants required a secret recipe and some high-grade Holy Medicines.

Chen Xiang went to a few of the pill shops and found that all of the mid-grade divine medicines were relatively more expensive. Ordinary ones would cost more than five thousand, while the rare ones cost more than ten thousand.

At night, he and Long Xueyi both returned to Lv Qilian's house and reported the price to him.

"The price of the pills have risen a lot. Maybe it's because the Hell Divine Palace fell." Long Xueyi said: "I have asked a few people, and they say that they have risen a lot recently."

Chen Xiang asked: "Why does it have to do with the fall of Hell Divine Palace, there's no reason."

Long Xueyi stuck his tongue out: "How do I know? In short, all these merchants have good reasons to increase the price, no matter what it is, because the price of the pills have been too low for many years, and the pill business people right now also have large amounts of pills, so they have colluded with each other to increase the price."

Lv Qilian shook his head: "It shouldn't be like that. In the past, my Hundreds of Flowers Palace would need to slow down their sales because of certain circumstances, and in order to ensure a certain number of pills for sale, we would raise their prices by a large amount. For example, we are facing a huge war and need to consume a large amount of pills ourselves.

Chen Xiang frowned: "Could it be that during this period of time, all of the pill sellers in the shrine are in urgent need of their own consumption of medicinal pellets? What the hell is going on here?"

Lv Qilian said: "I have already contacted Feng Yujie, she might come to my place tomorrow, I think she should be clear about what happened."

[Chapter 1836](#)

Lv Qilian had managed to contact Feng Yujie so quickly, which made both Chen Xiang and Long Xueyi admire him a little.

"Feng Yujie's current situation isn't too good either, otherwise, based on her relationship with us, she would definitely come over to meet us immediately. However, she said that she wants to meet us tomorrow, and she's not even sure when tomorrow will be, which means to say, she has to be extremely careful when meeting us. This might be because of you." Lv Qilian thought of many things, which were all her intuition.

Seeing Chen Xiang and Long Xueyi's serious faces, Lv Qilian laughed lightly: "Maybe I was just thinking too much, don't worry, Feng Yujie's origins are not small, and now that he has the strength of a god, it can be considered as having quite the strength."

"Chen Xiang, how are you going to use the divine money we have to earn more?"

Chen Xiang sighed: "I want to refine a Shangpin holy Dan directly, but I don't have a pill formula. In terms of difficulty in refining, a Shangpin holy Dan is the same as a mid-grade Holy Pellet, if possible, it would be better to refine a Shangpin holy Dan directly."

Lv Qilian didn't just go out to contact Feng Yujie today, he also finished his homework on the [Holy Elixir] area, and said: "Refining the Shangpin holy Dan s will require at least two high quality Holy Medicines and three mid-quality Holy Medicines to be combined to form the pellet, and the high quality Holy level s, one of the medicinal ingredients, will cost at least twenty thousand Spirit Stones. Even with the recipe, the amount of medicinal ingredients needed to refine the Shangpin holy Dan s is at least sixty to seventy thousand Spirit Stones."

Chen Xiang nodded his head: "That's right, you don't have to worry about this little bit of money, as long as you have the pill formulas, these will not be a problem."

Lv Qilian said: "The so-called pill formulas, are all the different types of high quality medicinal ingredients used to match each other, as well as the time between each medicinal ingredient entering the furnace, the amount of medicinal ingredients used, and the heat of the different medicinal ingredients when smelting. During this period of time, there is a coordination between them, so in a situation where there is no pill formulas, one would have to conduct many experiments to figure it out on their own."

Chen Xiang sighed, and nodded his head: "That's right, when refining Shangpin holy Dan, it isn't just any divine medicine that can be used to create a pill. If it's five top tier divine medicines that have been combined to make a pill, it might not even be as good as a low tier divine pill, but if there is a good pill formula, combined with a normal high tier divine medicine, it would be much better than any other top tier medicinal ingredients."

Long Xueyi lied on the table and said: "Then how can I get the pill formula? Oh right, Feng Yujie seems to be able to refine Shangpin holy Dan s, when she comes tomorrow, I'll ask her."

This was also Chen Xiang's previous plan. He asked Feng Yujie for it, and Feng Yujie definitely would not reject his request.

It was already night, Chen Xiang smiled evilly, and said: "Sister Qilian, let's do some proper business. In a night time, we will be able to create many of those Spiritual Beads."

Of course Long Xueyi knew what they were doing, and with a laugh, he entered Chen Xiang's ring. Chen Xiang had already walked over, picked Lv Qilian up, and walked into the room.

"Don't act recklessly..." Just as Lv Qilian finished speaking, Chen Xiang's hand touched the most sensitive part of her chest and even lightly kneaded it, causing her to yell out.

"Scoundrel, don't touch randomly." Lv Qilian retaliated, he pinched Chen Xiang's body.

Chen Xiang and Lv Qilian's divine soul had already been dual cultivated before, and that was only for divine soul. In real life, when Lv Qilian came into such intimate contact with her, she was still a little not used to it.

An entire night quickly passed by. To Chen Xiang, this was extremely sweet and short. In his deep sleep, he was awakened by Lv Qilian's shouts.

"Hurry up and organize everything, Feng Yujie will be here soon, you can't let her know that you and I are already ..." As Lv Qilian looked at the tinge of captivating red on the snow-white bed, he lightly bit his lips. He couldn't help but recall the crazy and sweet scene that she had with Chen Xiang last night, and it was truly unforgettable for her forever.

Seeing that Chen Xiang was still smiling evilly while looking at her beautiful snow-white body, she pinched Chen Xiang's nose fiercely. "Hurry."

Only then did Chen Xiang slowly put on his clothes, and laughed: I never thought that after our true dual cultivation, the results would be so good, the condensed spirit pearl is still a crystal, we will have to use it more and more in the future.

Lv Qilian scoffed, she had already put on her clothes, and started to comb her hair. At the same time, she looked at the over ten purple crystal beads on the makeup table, which were the spirit pearls condensed from the Alive Slain Method that Chen Xiang and her entangled together. It seemed that they were much better than the ones they had condensed previously.

Chen Xiang hugged Lv Qilian from the back. At this time, Lv Qilian was already his woman, and being able to completely possess Lv Qilian made him incredibly satisfied, which made him love Lv Qilian even more.

"Sister Qilian, I never thought that you would be so strict. Last night, I thought that you would be tormented to death, I never thought that you would be so gentle in your clothes." Chen Xiang thought back to Lv Qilian's tenderness, and only had an indescribable sense of tranquility in his heart. "I love you to death."

Lv Qilian gently said: "Enough, stop being so numb. Prepare yourself, don't let Feng Yujie see that you and I have already had that relationship."

Chen Xiang didn't understand why Lv Qilian would do such a thing, and asked: "Why?"

Lv Qilian lightly patted his head. "Idiot, right now, I don't want too many people to know about the relationship between you and me. If Feng Yujie knew, she would definitely tell Meng'er and the others. There's no need to even mention that."

Chen Xiang laughed, "I understand, my female emperor of Divine Nations doesn't want others to know that I am her husband."

Long Xueyi laughed tenderly: "Don't worry, even though I witnessed the entire process, I won't say anything."

Lv Qilian's jade face instantly flushed red, "What, Xue Yi can see it from inside, and ... "Witnessing the entire process ..."

"Little girl, you ... You're worse. " Lv Qilian was so angry that she couldn't say a word, she didn't know about this.

"Forget it, it doesn't matter. In any case, many things have happened between you and I. This Little Naughty Dragon has always been a bystander." Chen Xiang laughed.

Lv Qilian took a few deep breaths before slowly accepting it.

There was suddenly a knock on the door. Feng Yujie had already arrived, so Chen Xiang quickly tidied up and went out to welcome him.

After opening the door, he saw a man wearing a black robe and a silver mask walking in. This was Feng Yujie, it was just that she had hid herself like this, as if to avoid being followed.

She was this cautious even in her own territory, and it was just as Lv Qilian had guessed before. Feng Yujie had encountered a few situations in the Divine Female Palace, causing her to be extremely cautious in her actions.

After entering, Feng Yujie was still worried, he quickly waved his hand to lay down a few enchantments on the ground, and then took off his mask, revealing his extremely haggard face, Chen Xiang secretly felt his heart ache, and anxiously helped her to sit.

Lv Qilian was the same, she anxiously asked: "Sister Feng, what's wrong?"

[Chapter 1837](#)

Feng Yujie did not look like he was injured, it was just that he looked haggard, as if he had consumed too much energy.

Chen Xiang and Lv Qilian waited for her to speak. She closed her eyes and took a few deep breaths before taking out a golden pellet and consuming it.

"I'm fine. I just used up too much of my divine power." Feng Yujie's voice was very low, and with a single glance, one could tell that she was very weak.

Chen Xiang asked: "Why would it be like this? You should be very safe in this city.

Feng Yujie was now a god. If a god were to fight here, it would be known as long as they were in the city, unless they were in the space inside all divine palaces.

Feng Yujie shook his head: "No, I just used a secret technique, to not reveal myself, I have been monitored the entire time, so in order to see you guys, I can only use that secret technique."

and Lv Qilian looked at each other. Previously, Lv Qilian had already guessed that Feng Yujie was in a bad situation in Divine Female Palace, but it seemed to be true.

"Is it that Pill God?" Lv Qilian asked: "Your current strength is not weak, even the more powerful god, I am afraid they are unable to threaten you."

Feng Yujie shook his head again: "It's not Dan God Ye, but a guy named Highest Devil God. He's inside Divine Female Palace right now."

Hearing Highest Devil God, Chen Xiang's heart suddenly jumped.

Highest Devil God believed that the Six Realms mirrors was stolen by Younger Nine Girl, and Feng Yujie and Younger Nine Girl were like sisters. That was why she was being targeted by Highest Devil God right now.

"This guy is looking for a treasure. He said that the Younger Nine Girl took the item away, and he thought that the Younger Nine Girl would come find me. That's why he has been keeping an eye on me." Feng Yujie said somewhat helplessly: "Only now do I know that we have always been wrong about Younger Nine Girl."

The Mei Emperor in Nine Heaven World was not Younger Nine Girl at all, he was only a substitute.

This was all told to Feng Yujie by the Highest Devil God.

Feng Yujie did not know that the Six Realms mirrors was with Chen Xiang, and even more so did not know that Chen Xiang had seen the Younger Nine Girl before. Now, Chen Xiang would definitely not speak carelessly, because the Highest Devil God was monitoring him.

"Sister Feng, aren't you in danger now?" Chen Xiang asked. He wanted to keep Feng Yujie far from the Highest Devil God.

Feng Yujie said: "You don't have to worry about my safety, Highest Devil God still doesn't dare to kill me, if he kills me, he will face a great calamity himself."

Chen Xiang heaved a sigh of relief in his heart. He did not expect that the acquisition of the Six Realms mirrors would implicate Feng Yujie, which made him feel a little apologetic.

Lv Qilian did not know the background of the Highest Devil God, and asked: "What is the strength of the Highest Devil God, to actually cause Feng Jie to behave like this."

Feng Yujie sighed: "This guy is too godly, he was enemies with the Nine Divine Kings since long ago, and in order to find a treasure, he controlled the Hell Devil Emperor. He said that he had already found the treasure himself, but the Younger Nine Girl took it away."

Then, Feng Yujie told Lv Qilian that there was something related to the Younger Nine Girl, and that it was equivalent to her younger sister, who still had no name.

Chen Xiang really wanted to tell Feng Yujie about the Younger Nine Girl, but he didn't dare to. He was worried that he would harm Younger Nine Girl and Feng Yujie, who knows if the Highest Devil God was actually nearby.

"Let's not talk about this anymore. It's great to be able to see all of you. I'm really happy." Feng Yujie's complexion had turned much better, and revealed a charming and moving smile.

Lv Qilian chuckled and nodded.

Chen Xiang asked: "Where are Elder Sister Meng'er, Xianxian and the others, have they come to Gods Realm yet?"

Feng Yujie laughed: "Of course they came, it's just that they aren't in the Divine Female Palace. As soon as they arrived, they went to the Divine Weapon Hall. They went with Jiang Sheng, probably because they want to learn something."

When they went with Jiang Sheng, Chen Xiang was not too worried. They were able to come to the Gods Realm, so they already had a certain amount of strength.

"Sister Feng, the number of pills we have recently increased so much. Do you know the reason behind this?" Lv Qilian asked. This was something she and Chen Xiang had always been suspicious about.

Hearing Lv Qilian's question, Feng Yujie let out a long sigh: "The main thing is that the various divine pills have returned, once this group of divine pills gather, the first thing they do is to compete and refine the divine pills. Moreover, refining the divine pills would require a large number of sacred pills as the formula, for example, refining the Xiaping Dan, they say that there are at least a hundred thousand of them and there would be a lot of them."

"For these alchemy gods, refining pills is not as simple as just refining one or two pellets. Therefore, all the large and small Alchemist in the hall are currently refining a sacred pellet for the alchemist."

This was the first time Chen Xiang heard that the divine pellet recipe required the help of so many divine pellets.

Although Chen Xiang wanted to go and take a look at refining the Divine Pills, he felt that he would not have the chance.

Chen Xiang laughed: "Big sister Feng, are you a pill god now? The last time you said that you were beginning to refine a divine pill."

Seeing Chen Xiang's mischievous smile, Feng Yujie knew that Chen Xiang had something in mind for her, and snorted: That's right, I'm a pill god now, but don't expect me to help you refine pills. I don't have time right now, I need to quickly raise my strength, I don't want to be closely watched by the Highest Devil God.

Chen Xiang laughed: "Sister Feng, I just want you to give me some pill formulas, I'm going to refine the Shangpin holy Dan now."

Feng Yujie had fought with Chen Xiang twice, and both times they lost miserably. Now that Chen Xiang wanted her to give him the pill formulas, she couldn't help but laugh: "Brat, aren't you very strong? You should be able to create your own pill formulas.

Chen Xiang curled his lips: "Don't be so stingy, didn't I beat you twice before?"

Feng Yujie pouted: "I want to be so stingy, who told you to not know how to give way to others, not to mention that I'm still a girl."

Seeing Feng Yujie acting so coquettishly, Chen Xiang was completely out of options. He looked at Lv Qilian helplessly, causing Lv Qilian to laugh softly.

"How do I get the pill formula?" Chen Xiang knew that he wouldn't be able to get the pill formula from Feng Yujie unless he bled a little.

Feng Yujie's face was filled with a proud smile, and he giggled: You promised to refine a hundred Shangpin holy Dan for me, and I'll give it to you, but this is a mission given to me by the Dan God Ye, it's pretty tiring.

If it was an Inferior Grade Holy Pellet, would have agreed without even frowning, let alone a hundred or even a thousand.

But this Shangpin holy Dan was different. He had never refined one before, and if he was able to refine one in a few days, it would be extremely difficult to refine a hundred of them.

[Chapter 1838](#)

"Right now, I can only refine Dragon Blood Saint Dan. If I want to refine a hundred of them, I will need some time ... You are now the Second Palace Master and also a God of Pills. Since you have so much divine money, you can just go and buy it. " Chen Xiang replied: "Why do you think it's unnecessary."

Feng Yujie laughed: "Whether you agree or not, if you don't mind, Dan God Ye has designated that I am the only one to refine a Shangpin holy Dan and I don't even have a pill formula for it. So I can only refine it myself."

Feng Yujie already knew that Chen Xiang had sold three Spirit Soul Dragon Blood Saint Dan here. His progress was extremely fast, so she believed that Chen Xiang had definitely completed the task she had given him.

Chen Xiang calculated in his heart, and in the end, still agreed to it. A pill formula was not something that could be bought with divine money, otherwise the Dan God Ye would not need Feng Yujie to refine those Shangpin holy Dan.

"Just leave the ingredients to me. I'll refine them within a year." Feng Yujie tossed a Storage bag to Chen Xiang, and then tapped Chen Xiang's forehead with his fingertip: "Now, I'll give you the pill formula. This recipe is for the Pill God King that was among the Nine Divine Kings back then."

Chen Xiang quickly obtained the pill formula. It seemed to be a little complicated, but it was not difficult for him.

"Sister Feng, doesn't this mean that you have a lot of good pill formulas?" Chen Xiang asked happily.

"Of course, but don't expect me to pass it on to you, because I promised him that some secret formulas cannot be passed on to outsiders." Feng Yujie stuck his tongue out and laughed: "Chen Xiang, if you want to become a Pill God in the future, you must create your own pill formulas."

The recipe for the Divine Pill must be even more complicated and precious, Chen Xiang felt a headache just thinking about it.

"The Dan God Ye must have given you a lot of benefits, if not you would not have helped him refine the pills. Now, pass the hard work to me, the most satisfying of all will be you." Chen Xiang said with a bitter face.

Feng Yujie laughed: "You have gained a lot from this task, if you don't believe me, go and ask about the value of my Shangpin holy Dan's pill formula, if Dan God Ye wanted me to, I wouldn't even give it to him, unless he used a divine pill formula to exchange for it."

She patted Chen Xiang's bitter face and said to him, "I'm leaving now. If there's nothing important, it's best that we avoid meeting each other. I don't want the Highest Devil God to know that I have good friends here, I'm worried that it will affect you all."

Lv Qilian nodded. "Be careful."

After Chen Xiang and Lv Qilian sent Feng Yujie out, Chen Xiang immediately took out a piece of paper to list the necessary Holy Medicines for the pill formula.

"Shengyuan holy Dan, after consuming this kind of sacred pill, the main effect is that within two hours, the divine power will be strengthened a lot." Shengyuan holy Dan, after consuming this kind of sacred pill, the main effect is that within two hours, the divine power can be strengthened a lot.

Chen Xiang exclaimed: "This Shengyuan holy Dan is pretty amazing, it can actually increase the strength of my divine power by several times, and there won't be any side effects. No wonder this recipe is so rare, I wonder how many times stronger it will be after I eat it."

"There are two high-grade elixirs, three middle-grade elixirs, and they are all very expensive. The high-grade elixirs are Fire Fang Grass and Bear Roar Flower, and the middle-grade elixirs are Weirdo Fruit, Berserker Fruit and Berserk Fruit. These three kinds of fruits are also called Three Saint Fruits." Chen Xiang listed the names of the medicinal ingredients.

He naturally did not need to buy them now, because Feng Yujie had already given him a hundred sets of medicinal ingredients.

It did not mean that one would be able to create a Shengyuan holy Dan just by combining these five herbs. The quantity of the ingredients, the timing of refinement, and the order in which the ingredients were sent to the furnace were all different. This was the most crucial aspect of the pill formula.

If one knew what kind of medicinal herbs one needed, it would take a very long time even if one searched through them himself. In fact, one would never be able to find it.

Only a small number of powerful pill gods could use their experience and experience to quickly create the best pill formula based on the quality of the ingredients and combinations.

Lv Qilian took out a Spirit Orb, which she condensed when they were kissing. It was not the purple type that was the strongest when they were cultivating in bed last night.

"Let's try this first." Lv Qilian took out a bowl of water and placed the silver pearl inside. The pearl quickly melted and the bowl of clear water immediately turned silver, like a bowl of melted silver, it was extremely thick.

Chen Xiang asked: "Sister Qilian, according to your experience, how much Fire Fang Grass can this bowl of spirit liquid replicate?"

Lv Qilian shook his head: "I don't know, I don't have any concept of divine medicine, let's give it a try first."

She took out the Flaming Tooth Grass. It was like a tooth, a fiery red color, like a tooth on fire. She carefully cut the Flaming Tooth Grass in half and then put it into the bowl of silver water.

The silver energy was completely absorbed by the Fire Fang Grass. The Fire Fang Grass that was originally split into two halves had now become two complete Fire Fang Grass, and the quality was much better than before.

"So powerful." Lv Qilian was a little surprised, that was a high grade Holy Elixir, she and Chen Xiang could casually kiss a congealed Spirit Clan cultivator, and she would be able to make a copy of a high grade Medicinal Pill with just one pill, she was very satisfied with that.

Chen Xiang laughed: "Try that purple one. The purple one is definitely stronger, after all, that's us ... "Heh heh."

Lv Qilian snorted, he took out the purple spirit pearl and placed it into the water, which immediately released a purple light, and turned the bowl of water into a dense purple liquid.

"This should be able to change into four." Lv Qilian cut a stalk of Flaming Tooth Grass into four uniform portions and placed it into the bowl. Not long after, the Purple Light Spirit Liquid disappeared and saw that there were four pieces of Flaming Tooth Grass inside the bowl.

Lv Qilian laughed: "The effect is really good, in the future when our strength increases, even if we copy some divine medicine, it will be very fast."

"It's a pity that this Shengyuan holy Dan is not suitable for raising my cultivation. It's just that it can instantly release an explosive force. I have to get a pill to quickly increase my strength." Chen Xiang could only complete this task temporarily, only then would he be able to get Feng Yujie to provide him with the pill formulas.

Lv Qilian nodded his head: "I will copy a few pills for you to practice, these pills will not help us much in raising our strength, it will only temporarily increase its effect, so I will not copy too many of them."

Although he did not have a good pill formula, Chen Xiang was still very happy. "Sister Qilian, I knew that our cooperation is the best, we will have to work together more in the future ... "Cough, cough."

Chen Xiang now carefully analyzed the pill formula and memorized the difficult points. He had to avoid them as much as possible when refining it.

"According to this pill formula, you can only refine one medicinal ingredient per set, and you even have to intentionally put away a portion of the medicinal ingredients in order to succeed. The person who

created this pill formula is too irresponsible." Chen Xiang was a little unhappy. When refining pills, he would intentionally use up most of the amount of the pills, which would make him feel hurt.

[Chapter 1839](#)

Lv Qilian said: "This pill formula is already like this, even if you are not happy, but what can you do about it, do you still want to modify this formula?"

Chen Xiang was very clear that the reason why he deliberately lost spirit pellets like that, was because he wanted to make a compromise with the success of the process. He had this thought in his mind, and wanted to change the pill formula a bit, but it was easier said than done, so he could only try to refine more, and familiarize himself with the Shengyuan holy Dan's refining methods.

Before Chen Xiang refined one, he went to the pill furnace sale area and spent a few hundred divine coins to buy the weakest kind.

After returning, he entered a small secret room and started to refine a Shengyuan holy Dan.

Chen Xiang had a solid foundation to refine Lingguang Dan, and now that he had the complete Shengyuan holy Dan's medicinal formula, it was relatively easy for him to refine. He only wasted a few medicinal ingredients and successfully refined a fairly good quality Shengyuan holy Dan.

This took him more than ten days.

Feng Yujie had only given him a hundred sets of ingredients and he could only refine one pellet per pellet, so he could not fail multiple times. Otherwise, he would have to fill in the missing ingredients himself.

After Chen Xiang refined a few pills, he no longer had the mood to continue refining them, because in his opinion, if the rich medicine qi was not lost, at least one pot could have three pills.

He had tried to preserve the medicinal energy and wanted to see how it would turn out. Unexpectedly, after he deviated from the general direction of the pill formula, he started to make serious mistakes and almost blew up the cheap pill furnace he had just bought.

"The Infinite refining and Tai Chi are both useless." Because Chen Xiang wanted to preserve some of the medicinal qi, he had refined a few more of them.

"I can only see if there's any way to make up for this problem in the Heavenly Alchemy." Chen Xiang was not in a hurry to comprehend the Heavenly Alchemy at the moment. Instead, he had to first find the reason for his failure so that he could have a direction to go.

After careful analysis, he found the reason for his failure, the main reason was that all sorts of medicinal Qi would need a proper amount of energy to fuse together, otherwise it would explode. Even using Tai Chi to forcefully merge would not be possible, because all of these medicinal Qi were relatively strong.

Previously, Tai Chi could only be used to refine two or three kinds of pellets made from a single medicinal ingredient, but now, not only was there Shangpin holy Dan, there were also several high quality Holy level medicinal ingredients. Thus, the combined power of the pellets had already surpassed the control range of Tai Chi.

If it was any other method used by the Alchemist, it would be about the same. It would be difficult for them to control the explosive power of the medicine, so they could only weaken the medicine's Qi, and once a certain amount had been gathered, the medicine's Qi would actually be able to fuse together on its own accord.

Chen Xiang followed the pill formulas that Feng Yujie had given him and precisely controlled the amount of different types of medicinal Qi. As long as they reached the standard of the different pill formulas, he would basically be able to succeed.

If he didn't have the pill formula, he would have to try many times in order to get the proper quantity. He might not even be able to try it out.

Chen Xiang thought about it carefully, and said in his heart: If I can solve this problem, then I just need to know which ingredients to use to concoct the other pills, and I will be able to obtain the recipe.

After solving this major problem, the order and timing of the medicinal herbs entering the furnace were no longer important. This was because this was also a step required to fuse various types of medicinal energies.

Chen Xiang believed that there was definitely a solution within the Heavenly Alchemy, one of the Four Great Taboo magic, which was able to refine all things under the heavens. Previously, when Chen Xiang encountered many difficulties in refining pills, he basically had to comprehend the Heavenly Alchemy and learn a few methods from it.

Chen Xiang who was in deep thought stayed in the secret room for ten days without any results. After he came out from the secret room, he saw Lv Qilian instructing Long Xueyi on something.

"Are you imparting the Alive Slain Method to her?" Chen Xiang chuckled.

"What are you so happy about?" Long Xueyi stuck out her tongue at him. She had learnt it very seriously, and it seemed that she had learnt it pretty well.

Lv Qilian rolled her eyes at him and asked, "How many Shengyuan holy Dan have you refined?"

When he asked about this, Chen Xiang could not laugh, because he did not refine a single pill.

"I didn't concoct any pills. According to the method of concocting that pill, I don't have the slightest motivation. This is really too deceitful." Chen Xiang sighed: "Wait until I think about it carefully, whether or not I can find a new method from the Heavenly Alchemy, when that time comes, I won't be able to sullenly refine pills like this."

If he were to refine according to someone else's recipe and waste so many medicinal ingredients, it would be a very sullen refinement for Chen Xiang.

Chen Xiang often did not take the normal route of refining pills, and Lv Qilian and Long Xueyi were very clear about this, so they could understand Chen Xiang at this moment.

"I can't help much with alchemy." Lv Qilian sighed, she could only encourage Chen Xiang.

"It's fine, I'm very happy to be with you." Chen Xiang laughed and walked over to pull her over.

"I'm covered in sweat. I'll go take a bath first." Lv Qilian pushed Chen Xiang away.

Chen Xiang smiled evilly and held her tightly, then carried her into the bathroom. Soon after, he heard all sorts of pouting and soft moans from Lv Qilian ...

Long Xueyi also wanted to go in and join in on the fun, but she had some sort of worry in her heart, so for all these years, she hadn't been able to cross the final hurdle with Chen Xiang, even though their souls were already filled with joy many times.

After Lv Qilian became the female emperor of the Divine Nations, he had to comprehend a method to refine pills that did not require a pill formula. This was a method that would make Lv Qilian become a female emperor sooner rather than later.

After entering the secret room, Chen Xiang quickly immersed himself within the ocean of the Heavenly Alchemy's chant, quickly deciphering and understanding it, in order to find a solution to the problem that he was currently facing.

The process of comprehending was very long, and Chen Xiang did not notice the passage of time either. Very quickly, a month had passed.

After using a month of time, Chen Xiang also gained something. He finally discovered from the Heavenly Alchemy that there was a possibility of it being able to solve the problem he was facing.

"The origin is the same, and all the flowers and plants in the world grow by absorbing the essence energy from the world." The origin is the same, and all the flowers and plants in the world grow by absorbing the essence energy from the world.

Chen Xiang's eyes lit up, and he rejoiced in his heart: "Which is to say, all of these strange flowers and plants are born from the same root. In this way, it's equivalent to having a blood relation.

Chen Xiang named it the "Original source refining". As long as he successfully found and combined all the s that had the roots of all the medicinal ingredients, it would be able to cause the spiritual energy of other types that were difficult to fuse with to gather.

In this way, he wouldn't have to follow the pill formula.

[Chapter 1840](#)

Chen Xiang immediately took out a portion of Shengyuan holy Dan s' medicinal ingredients. He rested for a while to recover his spirit to its peak state, then he threw those medicinal ingredients into the furnace.

This was the method for Original source refining. According to the recipe, he would first need to place in the Fire Fang Grass, refine it until it was about done, and then add in the other ingredients.

In order to use the Original source refining, one had to burn the medicinal ingredients to a certain degree at the same time, in order to be able to find the same "Spirit blood" within the medicinal ingredients. Logically speaking, all of the medicinal ingredients had the same number of Spirit blood s, and could very easily fuse together.

The difficulty was finding the Spirit blood, as well as pulling out its roots and fusing them together.

If Chen Xiang did not have the method inside the Heavenly Alchemy, and only knew of this principle, he might not be able to do it even if he used his entire life. This was also why the Heavenly Alchemy was so powerful.

Chen Xiang did not allow the five Holy Medicines to fuse together, he only smelted the five Holy Medicines inside the pill furnace, and also used his divine power to separate them one by one.

In order to find the Spirit blood, he had to smelt it to a certain degree.

"I should be able to cultivate it now." Chen Xiang followed the chants and channeled his spirit power, then released it into the furnace. The divine power turned into spirit pupils, which were specially used to search for Spirit blood s.

This meant that he did not see any Spirit blood, and needed to continue burning the herbs. At this moment, he had weakened the fire, and if he burned too much, he would also burn the Spirit blood.

However, this was the first time he had used it to look for a Spirit blood. If he was familiar with these herbs and knew how strong the burn would be, he only needed to burn them for a short period of time in the future.

Half a day later, what was originally a pitch-black source spirit eye, suddenly saw a flickering flame, like teeth.

"It's the Spirit blood of the Flaming Tooth Grass." He immediately stopped burning the Flametooth Grass and remembered to say the extent to which it needed to be burned.

The next thing that appeared was a ripple-like light formed by the mist. This was the Spirit blood of the Bear Roar Flower, it was very easy to distinguish, and was somewhat related to the shape of these strange flowers and plants.

The two high-grade divine medicine, Spirit blood, appeared, and it was the first to appear. And the next three white silk things that appeared were the Strange Fruit, the Brute Force Fruit, and the Wild Fruit, these three Saint Fruit Spirit blood.

He had already solved the difficult problem of finding Spirit blood. What he needed to do next was carefully mix the five divine medicine's Spirit blood together. This required a very strong and very precise control.

Chen Xiang was the best at this aspect. At this moment, he released his divine power and carefully touched the five Spirit blood s, using the Heavenly Alchemy's mental cultivation method to change his divine power so that his divine power would have the same special properties as the Spirit blood s. This way, he wouldn't be met with any resistance.

Through his Source Spirit Eyes, he could see the two large hands formed by his God Power carefully push and knead the five Spirit blood s together. This process did not take a long time, and in just a moment, it was completed.

"It's done." Chen Xiang closed his Spirit Essence, but there was no change to the interior of the furnace. The Spirit blood could not be seen or felt, it was a very mysterious existence.

He put away the divine powers that were separated by five Medicine aura. The originally extremely repulsive five Medicine aura fiercely collided together. There was no need to think about converging them together, as they were automatically and perfectly fused together.

Seeing that, Chen Xiang was extremely excited, because he had succeeded, all he needed to do was to use a normal method of refining the pill.

"Right now, I can use the Tai Chi Refining and Infinite refining to condense a core. I never thought that using the Original source refining would have such a good effect, and after fusing with it, it would even produce so many Medicine aura, I originally thought that I would only be able to condense three Shengyuan holy Dan, but now it seems like there is still one more."

The following steps were the same as refining other pills. He divided the large cyclone into four parts, and then used the Infinite refining to quickly condense the pills.

He was very satisfied with the results of refining four pellets per pot. He felt that it should not be difficult to refine a Shengyuan holy Dan with Spiritual Light now.

This was an extremely difficult task for many Dan Saint Title. Even if they were to refine the Pill God, it would take a long time and would even fail. However, to Chen Xiang, this was as simple as refining a Dragon Blood Saint Dan.

Other than that, there was another requirement to be able to refine a Shangpin holy Dan. The more powerful Dan Saint Title was able to refine a middle-ranked Holy Pellet with Spiritual Lights, and they would have to refine a Shangpin holy Dan at the limit.

Generally speaking, this meant that one could refine a divine pill. As long as one had the divine pill formula, they could begin to break through into the realm of the alchemy god.

"A hundred Shengyuan holy Dan s is way too easy for me right now." Chen Xiang laughed heartily. After he refined a hundred pills, there were still a portion of the medicinal ingredients remaining.

With his previous successful experience, the later stages would become very easy. He didn't need to think about it too much as he could refine five batches a day. In a few days time, a hundred Shengyuan holy Dan would suffice.

Feng Yujie had given him a year's time, and he had already finished it long ago.

"All of these are mine. I have to deal with Feng Yujie frequently in the future, they can only do this since it's quite profitable." Before, Chen Xiang thought that this was a quest that was difficult to complete, but now, he had tasted the sweetest part.

"I wonder how is the Spirit Soul Shengyuan holy Dan?" Chen Xiang had already completed his mission, he planned to use the extra medicinal ingredients to refine high grade Lingguang Dan.

Shangpin holy Dan with Spirit Light was a few times more effective than normal Spirit Dan, not twenty times more effective, but the effect was still pretty good, especially against Spirit Dan like the Spirit Dan, which could instantly increase one's strength.

If it was a Spirit Soul Shengyuan holy Dan, even if the Super profound God ate it, it would still have a pretty good effect. Its power would definitely increase by one or two times, so it would definitely be expensive.

Shengyuan holy Dan were originally only effective towards lower and middle profound God s, but if they had spirit light, then even Super profound God s would be able to eat them, and it could even increase the strength of their divine power by one to two folds within two hours. It was extremely useful, especially when hunting powerful divine beasts.

And after the lower and middle profound God s ate it, the increase in power would also be a little higher than that of the normal ones.

"This Shengyuan holy Dan only works for two hours, and we have to eat it at a distance of twelve hours before it's effective. Otherwise, it would be too heaven defying. If I were to sell this, I will definitely make a huge profit." Chen Xiang had already seen the divine money rolling towards him.
