

## Dan God 1881

### [Chapter 1881](#)

If they were to leave just like that, it would mean that they were afraid of Devil-killing Heavenly God. If they did not leave, they were also worried that Devil-killing Heavenly God would attack them.

"I've already said it before, if Chen Xiang isn't here, it's up to you guys to believe me or not." Devil-killing Heavenly God swept his eyes across the few Pill Gods. Right now, he was not afraid of anything at all.

They had personally witnessed the Devil-killing Heavenly God's true strength. Although they were both Pill Gods and were quite strong, so it was not impossible for them to defeat the Devil-killing Heavenly God together, but there was no need for them to do so, and they would also have to pay a huge price.

"Hmph." Seeing that this group of people had left, the Devil-killing Heavenly God returned to the Devil-killing Divine Palace. Today, after all that had happened, it would be spread out very quickly.

Chen Xiang teleported away from the Devil-killing Divine City, and was already far away from the battlefield. However, the anger and pressure that Devil-killing Heavenly God felt just now had reached him, which made him extremely shocked, and felt that the Devil-killing Heavenly God would become a god very soon.

"Super God Restricted Area, another damned place." Chen Xiang sighed, he started to hurry to Super God Restricted Area.

The Super God Restricted Area was a very big region, it was said that it took up more than half of the Gods Realm's land, but it was very dangerous, so no one dared to enter.

Chen Xiang naturally knew where the Super God Restricted Area was, but he wanted to find a good entrance.

Although the Super God Restricted Area was dangerous, it was also the place that many explorers liked to go to the most. Over the years, many safe entrances had already been opened, allowing them to safely enter deeper parts of the Super God Restricted Area.

If they entered from other places, they might encounter an unexpected danger and lose their lives.

Chen Xiang travelled for a few days and saw a Divine City. Just as he was about to go over, a white light flashed and a woman dressed in white appeared in front of him.

"Xue Yi." The one standing in front of him right now was the Long Xueyi who had been in a deep sleep for many years.

In the past, Long Xueyi was always a mischievous person with a mischievous smile, giving people a sweet and beautiful feeling.

But now, Long Xueyi in front of him, gave off a cold aura. She looked like a lonely and proud winter plum in the snow, filled with a cold and prideful aura, a feeling that prevented others from seeing her for a thousand miles, making Chen Xiang feel that she was a stranger.

"Are you going to the Super God Restricted Area?" Long Xueyi asked, her voice also become colder.

"Yes." Chen Xiang nodded, and asked with a frown: "Xue Yi, what's wrong?"

Long Xueyi took a light breath, and his expression became a lot more relaxed. He shook his head: "I don't know, that while I was sleeping, I unknowingly recovered some memories. Right now, I feel like I have two types of memories."

Chen Xiang walked over and fiercely held her in his arms, looked at her deeply and solemnly: "Those are not two types of memories, but your previous life. But that is already a thing of the past, you are the real you now that you have been reborn, you have to suppress the effects of your previous life's memories on your emotions and personality."

Long Xueyi looked at Chen Xiang in shock, then nodded his head. He leaned his head on Chen Xiang's chest and closed his eyes, following Chen Xiang's instructions.

Chen Xiang lightly patted her back, "Xue Yi, you must find yourself again and become my old Little Naughty Dragon."

He knew that Long Xueyi's situation was a little complicated, because the memories of her previous life were only a portion, and they slowly awakened, causing Long Xueyi's memories to be incomplete.

If he inherited the memories of his previous life that could bring about negative emotions, it would be bad for Long Xueyi. Chen Xiang did not want Long Xueyi to be like before, cold and indifferent, and bear a deep grudge against him.

Just like that, Chen Xiang hugged Long Xueyi for an entire day and night, and only after hearing Long Xueyi's playful laughter did Chen Xiang heave a sigh of relief.

"Little Naughty Dragon, you scared me to death." Chen Xiang pinched her face tightly, he chuckled, and was already feeling assured.

Long Xueyi smiled sweetly, stood up on her tiptoes and kissed Chen Xiang's lips, then smiled: "Relax, I'm fine now."

Chen Xiang nodded and hugged her again. He was still very worried that she would become like before.

"You passed the trial, how did you pass?" Long Xueyi was very interested in Chen Xiang's training.

Chen Xiang held her hand and walked toward the Divine City in front of them. He slowly told her about what had happened in the trial grounds ...

"Ah... It's been decades since we last saw it." Long Xueyi stuck out his tongue, then laughed:

"Fortunately, I got something from sleeping this time, I didn't expect my broken divine soul to be so powerful, to actually absorb each other, and gather all of them together, so I didn't have to look everywhere."

"Where are they?" Chen Xiang was also very happy, because searching for these remnant souls for Long Xueyi was also a headache. Now that they had all gathered together, it would save him a lot of time.

"In the Super God Restricted Area, I died in the Super God Restricted Area back then, where the residual souls were the most. That's why I ended up gathering in there." Long Xueyi said: "As far as I know, the profoundwu clothing is inside there as well. The was created by the Nine Divine Kings."

profoundwu clothing was the first version of the profoundwu diamond armour, and it was also the most powerful one. It was created by the Nine Divine Kings, one could imagine how powerful it was.

Chen Xiang's profoundwu diamond armour was destroyed during the trial, so when he gathered at Four Symbols Divine Weapons, he already knew where the Four Symbols Divine Weapons was.

"You don't want to enter the ring anymore?" Chen Xiang asked.

"I'm not going in, I'm not too weak now." Long Xueyi waved her fist, and laughed: "I'm very powerful now, do you want to try?"

Long Xueyi had not slept for so long for nothing, she had indeed become very strong.

"I don't know where Sister Qilian and the others went. I didn't manage to find them when I went to the Goddess City." Chen Xiang wanted them to be prepared, because in two years, the Divine Prison would be destroyed and the villains would come running out.

Chen Xiang told Long Xueyi about how he offended the Pill God and was forced to leave the Goddess City.

Long Xueyi said: "Don't worry about them, Sister Feng will definitely be with them. Maybe they have already started developing secretly, and just want to keep a low profile."

Chen Xiang nodded, he raised his head and looked at the gigantic city gate, and read the words "Divine City Supreme Forbidden" above the city gate.

Back then, this Divine City was known as the largest and strongest Divine City. Part of Long Xueyi's memories contained the matter of the Divine City.

The reason why they called themselves Super God Restricted Area was also related to the Supreme Forbidden Divine City. And right in front of another gate in the Divine City, there was a safe entrance that led to the Super God Restricted Area.

## [Chapter 1882](#)

In this Divine City, there were many experts who went to the Super God Restricted Area to search for treasures every day. They would gather here to prepare and gather sufficient medicinal pellets and to find out where there would be a genius in there. Most of them would use their divine money to buy useful information.

Teams of them could be seen everywhere, and it was more likely that they would enter together to survive.

The reason why Chen Xiang and Long Xueyi entered the Divine City was obviously not to make preparations, but to check if there were any hidden records left behind by Lv Qilian and the others, and to inquire whether they had come here before.

They walked around the Divine City and asked a few waiters in the hotels but didn't find anything related to Lv Qilian and the others.

"Strange, could it be that they are not selling pills? Where did they go? Or did they already have enough money? Now, they can hide somewhere and refine a divine pill to raise their strength." Chen Xiang looked at the table full of sumptuous dishes, but he did not have much appetite.

Long Xueyi was also nibbling on his food. She and Chen Xiang had asked around in the city for at least half a day and found out that the shop that sold Purple profound Dan s and other famous sacred pills had been closed for a long time. After the shop closed, those famous sacred pills had all disappeared, causing many people to feel extremely regretful.

In other words, after Lv Qilian and the others left, they had not sold any more Holy Pellets, which made Chen Xiang think that they were hiding somewhere.

Of course, at this time, he had also spread news of him. As soon as he came back, he crippled Li Zhonghan, infuriated the Feng Shen and then went to the Devil-killing Divine City to refine the black clouds. After that, the Devil-killing Heavenly God made his move on Feng Shen.

Chen Xiang and Long Xueyi did not manage to learn anything about Lv Qilian and the others, but they did know that an important matter was that the War God Shrine had sent a group of experts into the Super God Restricted Area.

"We should be full. We need to hurry up and catch up with the War God Shrine. From the information we gathered, the woman they were hunting was most likely Bai Ziqian or Lv Qilian." Chen Xiang said to Long Xueyi as he nodded his head. After eating the last dish, he sucked his finger.

Chen Xiang understood that the woman being hunted was not very strong. It was most probably because of what the profound God s did, but the War God Shrine had sent out their Sky God level s and a group of profound God s.

"Don't you want to enter the ring?" Chen Xiang asked.

Long Xueyi held onto Chen Xiang's arm, and laughed: "No need, I want to see from the outside, my current strength is not weak at all."

Chen Xiang also wanted to chat and laugh with Long Xueyi, since Long Xueyi had sufficient strength now, he didn't need to worry about anything.

"Let's go." Chen Xiang pulled Long Xueyi and disappeared from the in a flash, appearing on a patch of black land that was steaming hot.

The area was surrounded by volcanoes that were emitting thick smoke. There were quite a few cracks in the pitch-black ground, and one could clearly see those cracks emitting a red light.

"This is the safest entrance." Long Xueyi looked around. The lava here made her feel hot.

"En, I don't care about random teleportation right now, we should just follow a safe route first, just in case we teleport to a place where we can't escape." Chen Xiang saw a group of people riding on Frisbee in front of him and confirmed that this was the safe entrance.

Back then, Bai Ziqian, Bai Youyou and Su Meiyao had left together, but Lv Qilian was going with Little Lizhi. Chen Xiang thought that the one who used the poison was very likely Bai Ziqian, because Lv Qilian and Little Lizhi would be together with him.

Although it was surrounded by volcanoes, it was indeed a safe entrance. After Chen Xiang and Long Xueyi carefully passed through, they saw a fiery-red haze shrouding the land in front of them.

"After passing through this red fog, you will be able to see the Super God Restricted Area. As long as you follow this warm stream, you will be able to pass through safely." Chen Xiang pointed ahead, as he and Long Xueyi saw many people get off the flying discs and enter on foot.

A dense red haze covered the world. There was an unending amount of thunder and lightning, causing it to be filled with endless danger. According to the guide for entering Super God Restricted Area, as long as one followed the warm flow of the volcanoes, one would be able to enter the Super God Restricted Area safe and sound.

With a relaxed expression, Long Xueyi held hands with Chen Xiang and stepped into the red haze. Even though blood-red lightning constantly flashed inside and eerie howls came from inside, Chen Xiang did not sense any danger inside, as it was indeed very safe.

"This Super God Restricted Area is also a place to escape. Many people who have offended the Great Shrine would try their best to drill into this place. Although it is very dangerous inside, it is better than being hunted outside." Long Xueyi looked around: "This place is still covered by the red fog like before, I wonder what changes are going on inside."

Only now did Chen Xiang remember that Long Xueyi was once a powerful Divine Beast in the Beast Divine Palace, she might even be someone else from the Great God level.

"Xue Yi, do you know about the matters concerning the Beast Divine Palace? You should be from the Beast Divine Palace." Chen Xiang said: "Yue'er told me this. She was the one who ran out of Beast Divine Palace."

Yes, back then only Beast Divine Palace gathered a large amount of powerful beasts, but they were all taken care of in the end, hah. Long Xueyi shook his head: "Regarding this matter, I only have a fragmented memory. It gives me a headache just thinking about it."

Chen Xiang laughed, and caressed her head: "Then don't even think about it, I will help you retrieve your incomplete memories very soon."

The area that the mist covered was very wide, and was like a barrier that separated Super God Restricted Area. Chen Xiang wanted to try to use his spatial teleportation, but he was affected by an unstable, strange power, which was why he did not try.

It was reasonable to say that after he used the Six Realms' Power, his use of the spatial laws would become even stronger. But right now, he was still unable to use it in this red fog.

This Super God Restricted Area was initially a place of chaotic battles between gods, and after the war, they were enveloped by a mysterious power, causing the place to be extremely dangerous and mysterious. Moreover, there were a lot of Armour of Inherent Equipment left behind by strong Gods scattered everywhere, there were also a lot of geniuses and treasures, causing a lot of people to come here to participate in the Treasure Seeking Trials.

Three days later, Chen Xiang and Long Xueyi finally cleared the blood red fog, and a cold current suddenly attacked them, causing them, who possessed a powerful physique, to shiver.

"What a terrifying cold power." Long Xueyi said as his brows furrowed, "How can this be? Super God Restricted Area has become a world of ice and snow. This place was extremely beautiful in the past, it shouldn't have been like this even after the battle."

Chen Xiang could not help but shiver. With the Supreme god bone s in this state, wouldn't it be even worse if his other bodies were weaker? He and Long Xueyi had already seen many people lying on the ground, frozen in front of them.

### [Chapter 1883](#)

In order to prevent himself from being frozen in such pain, Chen Xiang channeled the Chuangzao fire in his body to protect himself as well as to release the Space Domain at the same time, isolating him and Long Xueyi from the cold outside.

"This kind of ice-cold power is too terrifying. What exactly is the reason for it?" Chen Xiang could not help but ponder, he looked at Long Xueyi: "Do you have any impression of him?"

Long Xueyi shook his head: "No, when I was dying, this place was at most a little shabby, but there should still be a lot of trees, I never thought it would become like this."

"Let me feel this cold energy. I feel that it's a bit strange. You can feel it for yourself. Maybe you will be able to discover something." Long Xueyi told Chen Xiang to leave the Space Domain.

After Chen Xiang withdrew, he only felt a little cold because he had already used the flames to warm his body.

"I don't see anything wrong with it." Chen Xiang took in a few deep breaths of cold air, and felt nothing special in his body.

"There are two types of icy cold power here, although both of them are icy cold power s, they all have different special abilities, for example, one of them possesses the power to revive, as long as you cover one object, you can absorb the energy of heaven and earth to strengthen yourself, causing the air here to become colder and colder, while the other type constantly devours the other icy cold power s to strengthen, and then release even stronger cold energy." Long Xueyi said.

Chen Xiang crouched down and grabbed a piece of ice, crushed it with great force, and then used flames to burn it. Then, using his spirit essence to examine it, he discovered that there were indeed two threads of origin power wrapped around it.

The two different icy cold power s relied on each other, causing the Super God Restricted Area to become so cold over the years.

"There must be a source. As long as we can find the source, we'll be able to figure out what's going on." Long Xueyi's face suddenly became serious, as though this matter was very important to her.

Chen Xiang took out the Jade Tiger that the Devil-killing Heavenly God had given him. Sensing that Jade Tiger was trembling slightly, he pointed the Jade Tiger in several directions, and one of the directions shook the most violently, indicating that there was someone he needed to look for.

"Let's go find our friends from Devil-killing Heavenly God first."

nodded. Helping the Devil-killing Divine Palace escape was a top priority, so Chen Xiang had no choice but to put aside the matter of finding Bai Ziqian. Moreover, once the group of experts from the War God Shrine entered, there was no further news.

Chen Xiang and Long Xueyi realized that the other people who had entered were actually walking in the same direction as them. Furthermore, they were all in the same group as well, so they didn't recognize any of these small teams.

At first, Chen Xiang and Long Xueyi thought that their identities had been exposed, this group of people were following them, but after they deliberately slowed down, the hundred of them still headed towards that direction.

After walking for a good half a day, Chen Xiang and Long Xueyi finally understood that there was actually a small city built out of ice in front of them. Chen Xiang and Long Xueyi had not asked around about anything after entering the Super God Restricted Area, so they did not know about this small city.

The buildings of the small city were all made of ice. Some were tall, some were short, all were very solid. The roads were made of white ice, and the entire city was covered with a vast expanse of white.

Chen Xiang and Long Xueyi walked along an ice path as they passed a shop. Suddenly, they saw something that made them feel as if they were struck by lightning.

That thing was really the profoundbing that they were very familiar with.

In the Nine Heaven World's mysterious profound Cold Ancient Realm, there were many of these profoundbing, and this type of profoundbing contained a very strange cold energy.

These profoundbing had a very strong defense that could block Soul consciousness from entering. If these profoundbing were to be broken through, there was a definite chance that a genius earthly treasure would appear inside.

Back then, Chen Xiang had used the Chaos Divine Eye to look at this kind of profoundbing and obtained a lot of treasures.

Seeing that the profoundbing had appeared here, Chen Xiang and Long Xueyi both had a wild guess, that this might be the profound Cold Ancient Realm.

profound Cold Ancient Realm was also originally very beautiful, with a large number of strange flowers and herbs, because she became like this after a godly battle.

And Super God Restricted Area became like this just because of a godly battle.

"No, back then the White Tiger said that that place was frozen only later on, and when the God Battle began, it started much earlier than Qi Shi and the others." Chen Xiang frowned: "So this isn't the same place."

Long Xueyi nodded his head, "After I was reborn in Nine Heaven World, my profound Cold Ancient Realm had not been frozen yet. That was only when the ice was sealed later on and the ice was also sealed due to the death of a god who used cold energy. Or perhaps it's too godly. "

"However, this kind of profoundbing should be caused by the same type of cold energy. There must be a connection between these two places." Chen Xiang faintly felt that this place had a path to the profound Cold Ancient Realm. It was a mysterious path that led to the Nine Heaven World.

Long Xueyi nodded. "It's possible, I can only wait until I retrieve my complete memories. I sensed it, it's somewhere in the vicinity."

Chen Xiang looked at the profoundbing s in the shops. He was looking at them with the Chaos Divine Eye, and Long Xueyi was the same. Back then, she was the one who passed down the Chaos Divine Eye to Chen Xiang, so she was very proficient in it.

"This one has something." Long Xueyi sent a sound transmission to Chen Xiang, and the voice carried pleasant surprise: "Can you tell what it is?"

"It's an Inferior Grade Divine Medicine, Beast Strength Divine Fruit." Chen Xiang said: "As long as you absorb the beast type beast core into this divine fruit, you will be able to possess the power of that beast, but it is only temporary."

Long Xueyi nodded: "Buy it."

As long as it was a divine medicine that Chen Xiang did not have, he would buy it.

"How much is this?" Chen Xiang patted a piece of profoundbing and asked.

"Fifty thousand gold coins. Since you asked, you should have asked. If you're lucky, you might get more than fifty thousand gold coins in return. Even five hundred million is possible." An old man chuckled.

Chen Xiang nodded his head: "Even though this is my first time here, I have long heard of it.

He bought three pieces in one go. After giving him the divine money, the old man broke the record without Chen Xiang's permission.

After the profoundbing was broken through, it became a pile of dust, the same as what was found in the profound Cold Ancient Realm.

"This is ..." "Divine medicine." Just as he was about to pick it up, it was taken away by Long Xueyi.

The old man's face was filled with regret as he looked at Chen Xiang unwillingly: "This is a divine medicine."

Chen Xiang laughed: "Of course I know, I never thought my luck would be so good."

The old man said with a sad face, "Your luck is too good. This small city can sell ice for at most three thousand yuan a day. Sometimes, you can't get any treasures out of it for a month and you can get some divine medicines."

The old man's startled shout had already spread throughout the entire small city. Many shops selling profoundbing s had rushed over, they initially did not believe it, but after seeing the old man's regretful face turning green, they immediately believed it.

If they sold a piece of profoundbing s with divine medicine inside, they would do the same.

"What divine medicine is it? Take it out for me to see."

"Let's open our eyes."

"It's been a long time since I've talked about the treasures that came out of the ice."

Chen Xiang and Long Xueyi were surrounded by a large group of people, as though they would not be able to leave until they took out some divine medicine to open their eyes.

Long Xueyi took out the beast spirit fruit, and said: "Did you see that, it's just this fruit, I don't even know what kind of divine medicine it is, can you let us go now?"

When everyone saw it, they could not tell what it was. Long Xueyi kept the fruits well.

After the crowd dispersed, they suddenly saw a group of people rushing over. Seeing this group of people, Chen Xiang's and Long Xueyi's heart jumped, because they were the experts of the War God Shrine.

"The divine medicine is here, I want to take a look as well." A youth who was walking in front said.

As expected, the War God Shrine sent out their gods. The profound Gods had twenty of them as well, which was a very strong force, while the youth walking in the front was a Super profound God. He was the kind of man who wanted to become a god, and was not weak at all.

"Young Master Yuan, it's this man and woman. That divine medicine seems to be of high quality." The old man pointed at Chen Xiang and Long Xueyi.

Young Master Yuan of the War God Shrine was very famous here because he had been here several times. Every time he had come, he would buy a large number of profound things.

After Young Master Yuan walked over, he looked at Chen Xiang and Long Xueyi, and his gaze finally fell on Long Xueyi's body.

Long Xueyi and Chen Xiang had changed their appearances and looked like ordinary people, but Young Master Yuan's gaze towards Long Xueyi was strange, as if he had seen a treasure.

"It's a dragon, but I can't see what it is." Clearly, Young Master Yuan had sent him a mental message, telling him to confirm the matter.

Young Master Yuan laughed. "A dragon, and a female dragon at that. That's great. If we catch her, she'll definitely be better than the God of Fortune's ice dragon. Hmm, I want her to become my female slave."

Hearing that, Chen Xiang and Long Xueyi were enraged, they knew that Young Master Yuan's status was not low, if not, the heavenly god would not listen to him.

"Let's go." Chen Xiang pulled Long Xueyi and immediately teleported away, but he was blocked by the god. This god from the War God Hall wasn't an ordinary god either, he was actually able to determine the direction of Chen Xiang's teleportation.

Long Xueyi immediately entered Chen Xiang's ring. Both she and Chen Xiang had not expected that Young Master Yuan and the God of Heaven would actually be able to see through her true form.

"You are all members of the War God Shrine. Why would you do such a despicable thing?" Chen Xiang said in a heavy voice.

"We are only catching dragons, not humans. How can this be considered despicable? Aren't all beasts supposed to be so easily caught?" Young Master Yuan saw that Long Xueyi had disappeared, and was not anxious at all. He laughed, "That twin dragon is pretty close to you, hehe, after snatching her away from your side, seeing you in such pain, I will be even more happy."

#### [Chapter 1884](#)

The Ice Dragon was now the mount of the God of Fortune, and Black Turtle had been chased before. Now that he knew there was a female dragon, forget about Young Master Yuan from the War God Shrine wanting it, even profound God with a little strength wanted to help him.

"I won't let you take her away." Chen Xiang looked at the surrounding profound God. Although they were all profound God s from the War God Shrine, he did not put them in his eyes.

Young Master Yuan laughed, "I, Yuan Tailiang, will definitely get what I want. If you know what's good for you, obediently release her and come into contact with the Master-servant Contract. This is your last chance."

The old man selling the profoundbing said: "You should hand over the dragon. Young master Yuan is the eldest son of Bai Zhan, the Pill God of the War God Shrine. You cannot offend the Super profound God."

Chen Xiang had already clenched his fists tightly. Making him hand Long Xueyi over was tantamount to letting him die, something he couldn't do.

"If you hand over the dragon and join the War God Shrine, I'll give you a good position." Young Master Yuan had already walked over, while the God of Heaven behind him released a strong divine might, wanting to intimidate Chen Xiang.

Chen Xiang said coldly: "What if I don't give it to you?"

Young Master Yuan sneered, "You won't die even if you don't give me one. But I will catch you and cut your flesh off bit by bit until you give me one."

Young Master Yuan wanted to do it himself, because Chen Xiang posed no threat to him at all. After all, there was a powerful Heavenly God behind him, and if anything went wrong, he would be able to stop him at such a close distance.

"I will shout three times ..." "One, two, three ..."

After Young Master Yuan shouted, he took out a sharp sword and was about to attack, but then something strange happened. Chen Xiang suddenly disappeared and his body released a terrifying sword intent.

God-killing sword.

The face of the War God Shrine's Emphyrean God of War paled. He wanted to attack, but it was too late.

Chen Xiang who had suddenly disappeared, appeared again, but the sword in his hand had already pierced into Young Master Yuan's chest, his voice was filled with anger, he bellowed: "If you all take a step closer, I will destroy his Divine Deity, I, Chen Xiang, will keep my word."

This person was actually Chen Xiang.

The surrounding people subconsciously scattered, and they knew that the terrifying sword intent they had felt just now was the God-killing sword.

"Something that can't withstand a single blow." Chen Xiang pulled out his sword, and slapped Young Master Yuan fiercely, after that he punched him in the chest, and said to the Heavenly God who had an ugly expression: "Let me go, or else he will die."

Young Master Yuan was the son of the God of Pills. A God like him must rely on the God of Pills to advance, so he didn't dare to act rashly right now.

Chen Xiang grabbed Young Master Yuan and teleported away, leaving the small city. After getting far away from the small city, Chen Xiang smashed Young Master Yuan heavily onto the ground and stepped on his face.

"I'm crazy! So what if you're the son of the God of Pills? I can kill you if I want to!" Chen Xiang said sinisterly as he trampled down with his foot mercilessly. He had trampled on Young Master Yuan's face until it was unrecognizable.

Young Master Yuan shouted, "Return your Divine Deity to me, return your Divine Deity to me! Otherwise, my father will lead the entire War God Shrine to kill you, and even destroy your Devil-killing Divine Palace."

"Pfft." Chen Xiang kicked him on his stomach, "I'm the least afraid of threats. If you want to return to Divine Deity, then go dream on."

Chen Xiang beat him up badly, then bent down and activated Soul Absorbing Devil Spell on him. He searched through the memories in his head and quickly found what he was looking for.

"It's indeed Ziqian." Chen Xiang thought, that group of people from the War God Shrine were really chasing after Bai Ziqian, but Bai Ziqian was alone, she was not with Su Meiyao and the others.

Bai Ziqian had obtained a very powerful poison, which had killed a Super profound God in the War God Shrine. This Young Master Yuan also wanted to use that poison to protect himself, so he suggested to personally capture Bai Ziqian.

"Go to hell." Chen Xiang brandished the God Slaughtering Sword and pierced it towards the terrified Young Master Yuan, releasing a large amount of flames.

At the same time that Young Master Yuan's body was penetrated, the flames also entered his body, causing him to unceasingly howl and churn.

Just as Chen Xiang was about to leave, he sensed the aura of the God of Heaven approaching him, so he immediately teleported. However, the God of Heaven released a burst of power that interacted with his spatial passageway, making it very unstable, causing Chen Xiang's teleportation to fail.

Seeing that half of Young Master Yuan's body had been burnt and was dying, the God of Heaven was enraged and threw a punch towards Chen Xiang.

"Not good." Chen Xiang dodged hurriedly but the blood red palm that flashed past in an instant followed him and struck his body in an instant.

Boom! Boom! Boom!

When the palm landed on Chen Xiang's body, he felt as if the sky was spinning and his body was about to explode. If not for the power that Long Xueyi had channeled into her during that critical moment and fused with his, his body might have already exploded.

Chen Xiang laid on the ground, spitting out a few mouthfuls of blood before he slowly crawled back up.

He was only a middle stage profound God, and profound God and the gods were split into different mountains and rivers. He did not know how many times stronger they were than him, and it was already a miracle that they were not destroyed after being angrily attacked by him.

The God of Heaven was right next to Young Master Yuan, checking the situation. Suddenly, his body trembled as he shouted in anger, "Young Master Yuan is dead!"

Chen Xiang laughed coldly: "It's good that he died, who asked him to seek death."

"You have to die too." The War God Shrine's deity let out a crazy roar. The surrounding ice cracked open and began to shake violently. Large amounts of ice began to crack and explode. It was as if the ice itself was boiling.

Chen Xiang immediately turned around, took out his Six Realms mirrors, and then, the God of Heaven mercilessly threw a palm at him.

The violent palm power whistled through the air, ruining all the tall ice mountains nearby. This showed just how powerful that palm attack was.

"Six Realms mirrors, it's all up to you." Chen Xiang quietly held onto the Six Realms mirrors, and used all his ability of spatial energy, using the spatial laws to teleport away.

"Pfft." Chen Xiang spat out a mouthful of blood, the force of that palm strike was too strong, just the incoming pressure was unbearable.

"Let's go, I'm also heavily injured." Long Xueyi shouted. Her divine soul had fused together with Chen Xiang's;

The Six Realms mirrors in Chen Xiang's hand suddenly released a burst of white light that wrapped Chen Xiang up, and in a flash, it left the area when the palm attack came.

"Don't even think about escaping." The Heavenly God looked around, trying to find any trace of Chen Xiang, but he could not find anything. Previously, Chen Xiang had brought Young Master Yuan here, and he could sense where Young Master Yuan was.

The War God Shrine's deity left while carrying half of Young Master Yuan's corpse. This matter wasn't entirely his responsibility, but his heart was still heavy.

After he returned to the War God Shrine, he reported all that had happened, causing the hall master to be angry. After all, Young Master Yuan was the son of his only Pill God.

The news of Chen Xiang's appearance in the Super God Restricted Area immediately spread. Feng Shen and a few other Pill Gods who had been looking for Chen Xiang also rushed over. In addition to this, there was also a large group of powerful War Gods from the War God Shrine.

Feng Shen did not go by himself, but had also brought a large group of Wealth Divine Palace's War Gods with him. What was unknown was that the Hell Devil Emperor had also sent a group of experts there, and capturing Chen Xiang was something that the Hell Devil Emperor had been wanting to do for many years. He would definitely not allow others to rush to the front, and if the Hell Devil Emperor did not want to deal with the Devil-killing Divine Palace, he would have personally gone there himself.

... ..

Inside the Devil-killing Divine Palace, when the Devil-killing Heavenly God heard this news, he could not help but scold: "This brat Chen Xiang, how did he come up with such a stupid thing again, sigh."

Wang Jinshi said, "We cannot blame him. The Battle God Shrine's kid, Yuan, is indeed rampant. If they were to meet, it would not be strange for a conflict to occur."

Devil-killing Heavenly God nodded his head: "I hope he can find my old friends, if not, our Devil-killing Divine Palace will be completely destroyed."

... ..

Chen Xiang used the Six Realms mirrors to obtain a large amount of Six Realms' Power, opened up an extremely stable spatial passageway, and successfully escaped. However, both he and Long Xueyi were severely injured.

Especially the powerful palm attack from the Heavenly God behind them, it almost tore his and Long Xueyi's divine soul apart. Fortunately, they ran away quickly or else the consequences would have been unimaginable.

Long Xueyi asked: "How is it, are your divine soul heavily damaged?"

Chen Xiang sighed: "It's quite serious, I almost dissipated, it seems like I will need a long period of time to recover, although my body is also heavily injured, but my body's self-recovery ability is very strong, and will recover very quickly."

Long Xueyi said: "I was also severely injured, I did not expect that guy to be a God. It's too scary, luckily you ran very fast, or else we would all die."

Thinking back, Chen Xiang still felt a lingering fear. How terrifying was it for the God of War, who was inside the War God Shrine, to attack with all his might in anger.

"My broken divine soul is just around the corner. If you have a good look, go over there and take a look."  
Long Xueyi said: "I'll heal up first."

Chen Xiang opened up a very deep cave in an ice mountain. After entering, he sealed up the cave and started to heal his injuries.

He took out the Six Realms mirrors, absorbed the Six Realms' Power and used it to nourish his own divine soul. He did not have any good healing panacea, so he could only use this method.

Chen Xiang used up all the Six Realms' Power s stored in the Six Realms mirrors in an instant. It would take a month for him to fill them up again, but his injuries did not improve at all.

"This is bad, my divine soul injuries have not healed even after a hundred and eighty years. I don't even have a pill to heal my wounds right now, and I'm in a damned place like Super God Restricted Area." Chen Xiang took out a few divine soul healing pellets, but because the grade was too low, they were all useless.

He looked at his own divine soul. It was dispirited, like a skinny old man who was lifeless and on the verge of death.

As long as his divine soul was severely injured, no matter how good his physical condition was, he would not be able to use the Six Realms' Power, and his strength would be greatly weakened, because divine soul was like the heart and brain of a Divine Sense Sea.

"Use the Six Realms mirrors to try and see if it can bring your divine soul back to before you get injured. The Six Realms' Power can control many different types of laws and you need to use the Time Laws to reverse your Yin and Yang." Long Xueyi said: "My injuries aren't too optimistic either, but I'll be able to find my broken divine soul, and then I'll be able to immediately recover."

had thought about using the Six Realms' Power to reverse the time. However, he did not have the Time Laws, and did not know how to do it, so the only way to break through it was to rely on the time changes in the Seven devil-slain kungfu to comprehend it. It was extremely difficult, not to mention repairing his divine soul's injuries.

"I can only try. This is the only way to quickly treat my injuries." Chen Xiang nodded his head. The God Murdering Sword Techniques he was using and the Devil-killing Heavenly God s he was using both had a little bit of usage of the Time Laws, so he was not completely clueless.

Chen Xiang held onto the Six Realms mirrors tightly, and studied the wondrous methods inside the Six Realms magic kungfu, searching for the method to reverse the flow of time.

... ..

"Father, we really want to become enemies with Chen Xiang. He had already eaten the Nine Qi Divine Fruit long ago, so it's impossible for him to hand it over. Moreover, for him to obtain the Nine Qi Divine Fruit, it's only because his own abilities are outstanding. Ye Qin looked at the surrounding Ice Emperor and said.

Originally, she did not plan to come here. Because she was afraid of Chen Xiang and did not want to get involved in this anymore.

Dan God Ye sighed: "I am only here to take a look, it is equivalent to saying that I care more about this matter. I cannot let others say that my Dan God Ye has been robbed of the divine medicine, but I did not do anything, so others will think that I am afraid of Chen Xiang."

I was just beside him the last time he attacked Li Zhonghan. I felt that he could kill me at any time, and that kind of feeling was really scary. I didn't wish for Father to oppose him at all. "

The Dan God Ye nodded his head: "I understand, Chen Xiang must have gone somewhere in these eighty years he's been missing, which is why he has become so powerful. Furthermore, I found out that Feng Yujie has quite a deep relationship with him, so I must have definitely helped him a lot in the dark."

"Old Ye, Chen Xiang probably did not come to the Super God Restricted Area to kill his son, nor did he come to seek refuge. He must have a reason, because he was in the Devil-killing Divine Palace before." Dan God in Blue Costume suddenly flew over and said.

"That's right, the Devil-killing Heavenly God must have let him come. Previously, the Devil-killing Heavenly God had stayed in the Super God Restricted Area for a period of time, so we were just expressing that it would be best to look at the situation clearly. I don't want to get into a conflict with Chen Xiang, it won't be good for me." Even if Ye Qin did not say it, Dan God Ye still had that thought.

Although Chen Xiang had killed Li Zhonghan, Li Zhonghan and the Dan God in Blue Costume did not have anything to do with each other.

At this time, all the passersby who were rushing into the Super God Restricted Area had their own ulterior motives, but Feng Shen and Unwearying Fighting Dan God truly hated Chen Xiang to the bones.

## [Chapter 1886](#)

Han Deyuan was an outstanding War God within the War God Shrine, and was extremely loyal to the War God Shrine. Although Young Master Yuan died this time, he did not receive any blame, but he had a new mission to give him, which was to cooperate with the search for Chen Xiang.

Chen Xiang and Long Xueyi were heavily injured by Han Deyuan, and Han Deyuan had been hiding his strength very well. Neither Chen Xiang nor Long Xueyi had been able to see that he had the strength of a God.

"Even though Chen Xiang had already escaped, his divine soul had already been severely injured by me. Even if he had divine pellets, it would have taken him at least half a year to recover. When he fled back then, he had obviously overused his strength, so he must still be hiding in Super God Restricted Area right now." He stood on top of a huge Frisbee. On top of this Frisbee were a few white-robed old men, as well as a Unwearying Fighting Dan God filled with killing intent.

Although Han Deyuan was a God, he couldn't help but feel a bit panicked under the powerful aura of these Upper Heavenly Gods. He even more so, did not expect that the Four Great Elders of the War God Shrine would all take action this time.

"Chen Xiang, I must capture him and refine him." Unwearying Fighting Dan God was furious. He was a rare genius of the War God Shrine, a famous War God and also a pill god. Among the pill gods, he was publicly acknowledged to be the strongest.

A white robed old man said, "We have to find Chen Xiang quickly. Hell Devil Emperor, Feng Shen and the others have all come, and a few old fellows from Fire Divine Palace are also secretly entering the Super God Restricted Area. They are probably here for the God Slaughtering Sword on Chen Xiang's body."

In this place, only Han Deyuan had come into contact with Chen Xiang, so it was more likely that they would be the first to find him at the War God Shrine.

... ..

Chen Xiang sat inside a huge ice mountain with his eyes tightly closed. He was bitterly pondering on how to use the Six Realms mirrors to combine various kinds of cultivation techniques and unleash a power that could reverse the flow of time.

"The Six Realms' Power already contained the power of the Time Laws. However, I do not know how to use it. Although there is a power inside the Six Realms magic kungfu, I do not understand it." Chen Xiang only used two days' time to unravel a method to apply the Time Laws from the Six Realms magic kungfu. The mental cultivation methods written on the Six Realms magic kungfu were extremely few.

Chen Xiang shook his head and relaxed his mind. In the two days he had spent researching the Six Realms magic kungfu, not only did his divine soul injuries not improve, they even showed signs of worsening.

"I can only find an opening from the Seven devil-slain kungfu and the God Murdering Sword Techniques." Chen Xiang sighed, he realized that his body was still too weak, and actually could not block the attack of the God of Heaven, which resulted in his divine soul being heavily injured.

With the help of the Philosophic stone, Chen Xiang's progress quickly had a breakthrough. With the help of the Seven devil-slain kungfu and the God Murdering Sword Techniques, he barely understood the incantations for the Six Realms magic kungfu's Time Laws to circulate its energy.

This indeed required the cooperation of Six Realms mirrors, and it would even cause some damage to the Six Realms mirrors.

"Just this once and let me pass this time." Chen Xiang also didn't wish for the Six Realms mirrors to fail. If he had to, he would definitely not use it in the future.

He allowed the Six Realms mirrors to enter the collapsed majority of his Divine Sense Sea World, floating above the frail and dispirited divine soul. Following his understanding of the mental cultivation method, he slowly activated the calm Six Realms' Power in his Divine Sense Sea.

Originally, his divine soul had suffered heavy injuries and thus was unable to circulate large amounts of Six Realms' Power. However, since the Six Realms mirrors was currently in the Divine Sense Sea and he was using the secret method inside the Six Realms magic kungfu, the Six Realms' Power in the Divine Sense Sea began to surge crazily and gush forth.

The Six Realms mirrors released a burst of white light, shining on the dispirited divine soul, following that, it started to spin quickly, and started to reverse the flow of time.

Chen Xiang could control as he pleased the portion of time that needed to be reversed, and he could not return the memories within the divine soul back then. Otherwise, he would lose a portion of his

memories for a period of time, which was why he had used the secret method inside the Six Realms magic kungfu to isolate a portion of the memories.

When the Six Realms mirrors was operating, it required a large amount of Six Realms' Power, but Chen Xiang had a lot of Divine Sense Sea s, and currently, they were frantically being drawn out, so in a short period of time, more than half of them were gone.

Not even an hour had passed before the Six Realms' Power was mostly already sucked by the Six Realms mirrors and at this time, the Six Realms mirrors also stopped. Chen Xiang also saw that the divine soul inside the Divine Sense Sea had become lively and strong, recovering to the point where he was not injured at all.

"The Six Realms mirrors is damaged." Chen Xiang saw that there were cracks on the Six Realms mirrors and felt his heart ache. He did not expect that in such a short period of time, the Six Realms mirrors would be heavily injured.

Long Xueyi said: "The reason the Six Realms mirrors received even more serious of damage before, should also be because of overuse. If the time between your reversal was not too far, and it was only by a few days, then there shouldn't be any problems."

Chen Xiang gently caressed the cracks on the Six Realms mirrors's surface, then putting it into his body. The Six Realms mirrors could self-repair itself by absorbing the Six Realms' Power, and it was only a crack on the surface right now, the injury wasn't too serious.

Originally, it would have taken Chen Xiang a hundred years to recover from his serious injuries. However, with the help of the Six Realms mirrors, he recovered in just a few days.

"Let's first recover the Six Realms' Power in my body first."

When Chen Xiang was cultivating, because his divine soul had been refined and baptized by the Six Realms' Power, after his divine soul absorbed the Spirit Qi of heaven and earth, it would be converted into Six Realms' Power.

A drop of the Six Realms mirrors's Six Realms' Power contained the same amount of energy as the ten great vats he had condensed. The difference was many times greater, if there was a day he could cultivate his divine soul to the level of a Six Realms mirrors, he wouldn't need to rely on the Six Realms mirrors anymore.

Chen Xiang rested for two days and had already recovered to his peak state. Afterwards, he left the ice mountain and set off to search for the incomplete divine soul that Long Xueyi had left behind.

Long Xueyi was still heavily injured, she needed to absorb the remnant soul to recover.

"In that direction, it should be deeper within the Super God Restricted Area. Be careful." Long Xueyi said.

Chen Xiang did not know that there were already a few groups of Rankers that had entered the Super God Restricted Area to specially capture him, but he was still extremely careful as he released a very large spatial sensing domain.

After more than ten consecutive teleports, he was already far away from the safer region outside. If not for the Transmission array, even if the God of Heaven was flying, it would take more than ten days to reach him.

"It's colder in the depths." Chen Xiang released the Space Domain to prevent the cold from invading, but he still felt a bit of coldness.

The place he was at was covered in snow and cold wind. He couldn't see anything, so he could only rely on his senses. From time to time, large chunks of ice would fly out and strike the ground, causing the ground to tremble.

"This sort of place isn't for humans to stay in at all." Chen Xiang muttered to herself as she continued walking in the direction that Long Xueyi had pointed, because her residual soul was nearby. Furthermore, she wasn't sure of her exact location, so she was sure that it would allow Chen Xiang to go according to her perception.

### [Chapter 1887](#)

Chen Xiang advanced in the blizzard, and slowly approached the location of Long Xueyi's residual soul.

"There's a mountain ahead." Chen Xiang passed through the snowstorm and saw a black shadow in front of him. It was actually not an ice mountain, but a mountain of black stone.

Strangely, even though it was a black mountain, it should be covered by a layer of white snow in this snowy land. However, it was black.

Because of the violent snowstorm, Chen Xiang did not see the shape of the black mountain clearly, he only knew that it was extremely huge.

"It's right inside. Open a path and enter." Long Xueyi said: "I don't have any memories related to this mountain and I don't know what's going on either."

Chen Xiang arrived at the side of the mountain and hacked down a few times with the God Slaughtering Sword. He thought that he could pierce through the mountain like he was hitting an iceberg, but he didn't think that there would be no reaction at all.

"So sturdy." Chen Xiang did not believe in evil. His God Slaughtering Sword was extremely sharp, even though it could not be channeled with divine power or Six Realms' Power, it was still able to deal with these stone mountains.

He used the strongest power in his body and crazily hacked at the black stone mountain, but there was still no reaction. He was so strong that he could not understand.

"Just what is this material made of? Even if it's a Top stone, they should at least have some traces of it after being destroyed by my God Slaughtering Sword. However, these stones do not have any traces at all." Chen Xiang touched the mountain wall and actually felt a sense of warmth.

In a place where a True God could freeze to death, this mountain was actually warm. It was truly strange.

"Use fire, use your strongest flame." Long Xueyi said: "I have some impression that this is the way to use this kind of stone."

Chen Xiang withdrew his God Slaying Sword and punched towards the mountain wall in front of him. An extremely scorching flame condensed and his fist became as red as the iron ore in a furnace.

Bang.

When Chen Xiang's fist landed on the mountain wall, it actually caused a violent explosion, causing his chest to feel a burning pain. He lowered his head and saw that a piece of his skin was burnt and his flesh was torn apart.

"What's this?" Chen Xiang sat in the snow and wind, the skin of his entire body was covered with cuts and bruises, his strong physique was unexpectedly injured to such an extent, if his body wasn't a very strong profound God, he might even be smashed.

"Shouldn't this be a good thing for you?" Long Xueyi laughed tenderly: "You should be able to refine this thing into a pill, this is the best material."

Chen Xiang nodded his head in excitement. He had been looking for these ingredients, although he had used other ingredients to concoct Explosive Flaming Pills and Destruction Pills, their effects were not very good. They did not have much of an impact on the powerful profound God.

This kind of natural explosion would be able to cause injuries all over his body. If it was compressed after he refined it with his Heavenly Alchemy, the power would definitely be even more terrifying. It might even be able to fend off profound God or even the gods.

Right now, Chen Xiang not only wanted to open a path to the center of the cave, he also wanted to move the entire mountain away.

"Let's go in first." Chen Xiang waited for a long time, the injuries on his body had already healed, so he walked over again.

"Just avoid them." Chen Xiang punched again, but this time he released Space Domain in time, preventing the energy from the explosion from hitting his body, so that he wouldn't be injured again.

After half a day had passed, Chen Xiang had already opened up a very long path. His fist that was ignited in flames violently struck against the pitch-black stone wall, blasting it away with a wave of wild and scorching firelight.

"We're here." Long Xueyi suddenly emerged from the ring and entered the vast white space in front of him.

The moment Long Xueyi entered, the light disappeared, and she saw Long Xueyi sitting cross-legged on the ground, the remnant soul had already entered her Divine Sense Sea World, and she was in the process of fusing with him.

"I need some time." Long Xueyi sent a sound transmission to Chen Xiang: "Seal the entrance."

Chen Xiang nodded his head. Along the way, he had also collected a lot of black broken rocks. He had originally wanted to refine them, but he was afraid that the explosion would affect Long Xueyi, so he could only use some Divine Deity to do so.

Right now he was refining the Divine Deity of the profound God s, so he wanted to refine the Divine Deity of several profound God s together to condense them into a pellet.

He was already very familiar with the method to refine Divine Deity into pellets. Even though he had refined a few of the profound God's Divine Deity into pellets at the same time, he did not feel any pressure at all. In half a day's time, he had refined them into a pellet using the Magic method furnace.

The elixir here could be considered a divine elixir. However, this kind of divine elixir would not make the rounds. Otherwise, he would be hunted down by a great shrine.

After Chen Xiang swallowed this pellet, he entered into a quiet cultivation state as well. As for Long Xueyi, who was wrapped in a layer of sparkling and translucent white light, he gave off a cold aura, which startled Chen Xiang who had just entered a meditative state. He was worried that Long Xueyi would become ice-cold.

Seeing that Long Xueyi was calm, with a sweet smile on her delicate face, Chen Xiang felt more at ease, and continued to cultivate.

... ..

The Super God Restricted Area was very big, it would not be easy to find Chen Xiang here. However, as long as there was a direction, the Feng God Realm and the War God Shrine would not give up.

was also an important target of the War God Shrine, so her current situation wasn't too bad. She had originally been hiding at the edge of the Super God Restricted Area's danger zone and was extremely safe, but she didn't know that her whereabouts would be exposed, causing her to have no choice but to hide everywhere.

In ten days, Chen Xiang was able to refine the pill, and at the moment, his refining speed was extremely fast, even he himself was surprised.

However, Long Xueyi was still quietly sitting there while fusing with her soul fragment. Chen Xiang did not disturb her and took out a set of Heavenly God's Divine Deity.

This god was one of Highest Old Devil's disciples. When he first went to hell, the old man he met with Younger Nine Girl was killed by him when he found an opportunity to obtain this precious Heaven God's Divine Deity.

"Damn it, I'm already a Super profound God. I wonder if this thing can help me become a god." Chen Xiang used the power of space to isolate the Divine Deity and prevent the Highest Old Devil from feeling it.

"I need to cooperate with the Six Realms mirrors." Chen Xiang looked at the Six Realms mirrors and noticed that the crack on its surface had already been repaired, and there was even a Six Realms' Power inside it.

"Weird, Six Realms mirrors normally only fill up once a month before, but now that they have been repaired, it's full." Chen Xiang felt that it was very strange, but after thinking about it carefully, he finally understood. It was because he had broke through to Super profound God in the last ten days, so the Six Realms mirrors also broke through with him.

When Six Realms mirrors fused with his body, their potential would increase along with his own cultivation realm.

Chen Xiang took five days just to refine this Deity's Divine Deity to melt, and following that, to refine it to remove the impurities within, and then compress it to condense multiple steps, it would still take a lot of time.

"It's really not easy. It took me two months." Chen Xiang looked at the light purple pill in his hand, sighed, and then placed it in his mouth.

"If I want to become a god, I need to condense an innate Divine Deity, as well as a divine soul. This also means that I have an additional innate divine ability." Chen Xiang had already found out that the most basic characteristics of gods were that they had two divine soul s, two Divine Deity s, and that their first set of divine soul s were normally hidden very deeply.

The last time Chen Xiang killed that disciple of the Highest Old Devil, she did not find his second Divine Deity, which should be hidden within the Divine Sense Sea.

Possessing three Divine Deity meant that they were Gods, and four Divine Deity meant that they were Upper Heavenly God s. Five, six, and even seven Divine Deity meant that they were Gods as well, as for how many Divine Deity there were, Chen Xiang had never understood them before.

So Devil-killing Heavenly God and Feng Shen were both Upper Heavenly God, but Devil-killing Heavenly God's Divine Deity was much higher than Feng Shen's, so her strength was much stronger.

To condense the second Divine Deity, one must first have divine soul, so after Chen Xiang ate the pellet, he focused on condensing divine soul, and after condensing divine soul, he would need to strengthen his divine soul to a certain degree, and then he would be able to cultivate his own Divine Deity, which would then be considered as breaking through to the Empyrean God Realm.

"When condensing the second divine soul, you better choose a good cultivation technique to cultivate with. This way, your second life ability will be closely related to the cultivation technique." Long Xueyi suddenly said to Chen Xiang.

"Got it, Xue Yi, how are you now?" Chen Xiang asked.

When I completely fuse with them, I will have [Twin Divine Deity]. We can talk about the details later, so it would be best for us to become gods as soon as possible, because the situation at Divine Prison is very bad.

After Long Xueyi finished speaking, he no longer communicated with Chen Xiang.

At this time, Chen Xiang was wondering what kind of method he should practice to condense the second divine soul. He had mastered the Four Great Taboo magic and a little bit of it.

"The Heavenly Body is the only Taboo magic that I haven't cultivated. Penalty Heavenly God said that cultivating this technique will have serious consequences, but I will go to the Supreme Divine Palace in the future. The old man there might help me eliminate the serious danger." Chen Xiang felt that it was imperative to strengthen his body right now. That way, even if he met an even stronger god, his body would at most be injured. As long as his divine soul wasn't injured, it wouldn't shake his very foundation.

Otherwise, like before, he would have to use up a hundred years of time to recover even if his divine soul was heavily injured once, not to mention that he would need to use two sets of divine soul in the future.

The of the 'Heavenly Body' was used to strengthen the body, Penalty Heavenly God said that it was very scary, but it must be powerful, which was why it caused Sky Law to come into play.

"I'll first cultivate the Heavenly spirit kunfu to condense my divine soul. In the future, it won't be too late to use other Taboo magic s as well, but I don't know what kind of special abilities my innate ability will have after using this Heavenly spirit kunfu to condense my divine soul." Chen Xiang's previous life ability was the creator's fire, hence it was extremely useful for him to refine pills.

Chen Xiang was running out of time right now, because the Devil-killing Divine Palace couldn't hold on for too long, and he had already been in here for quite some time.

#### [Chapter 1888](#)

To condense divine soul was an extremely important matter, and one must not be careless. However, Chen Xiang wanted to use the Heavenly spirit kunfu that he had never cultivated to condense his soul, so in the eyes of some old god, this was definitely an extremely hasty method.

Chen Xiang was also clear on this point, because it would affect the quality of his second Divine Deity. If the second Divine Deity was affected, his overall strength would also be affected.

With his current situation, he did not have much time to think. Cultivating the Heavenly spirit kunfu would allow him the most basic of defensive capabilities in the future.

Very quickly, Chen Xiang comprehended some key points of cultivation from the Heavenly spirit kunfu. He had already started to refine the pellet made from the Divine Deity of the god, using the Heavenly Alchemy to refine the internal medicinal power, and then use the Heavenly spirit kunfu to merge it into his body.

Not long after, his body began to change. Sometimes it was cold, sometimes it was hot, sometimes it was black, sometimes it was white, and sometimes it even released flames.

Chen Xiang himself didn't know about this change, because he was currently focused on circulating the special energy to refine his body.

If he used the Heavenly spirit kunfu to circulate that force, it would produce a very weak and unique soul power. He channeled this soul power into the Divine Sense Sea.

Each cycle only contained a sliver of his soul power, and to condense the second divine soul, he needed to condense this sliver of soul power together, and in the end, fuse it into a divine soul.

At first, he had even planned to give up. As he didn't have much time, he wanted to find a friend from Devil-killing Heavenly God in one or two years.

However, after he cultivated for more than a month, he realized that his divine soul had already begun to take shape, and the speed at which he channeled that energy was also getting faster and faster. Previously, he could only circulate ten cycles in an hour, but now, it was a hundred cycles.

"Looks like condensing Divine Deity isn't a problem. This Heavenly spirit kunfu is indeed scary." Chen Xiang never thought that his speed would be so fast, he paid close attention to the situation. There were other reasons that could allow him to condense divine soul so quickly, and one of the most important reasons was those Six Realms' Power.

Every time it started a cycle, the Six Realms' Power in the Divine Sense Sea would consciously circulate with someone, and the wisp of soul energy that was produced would also contain the Six Realms' Power.

"Even though this divine soul is growing at a slow pace, I feel that once it condenses into a Divine Deity, it might even be stronger than my own." Chen Xiang had this premonition.

As he became more and more familiar with the Heavenly spirit kunfu, his progress became faster and faster. Almost every second, he would be able to circulate that surge of energy in a cycle and produce a trace of soul power, allowing his soul power to enter the Divine Sense Sea unceasingly.

His Six Realms' Power was also being rapidly consumed, and was being replenished by the Six Realms mirrors. Adding on the strong medicinal power of the Divine Deity Pellet, he did not need to stop and replenish it.

"divine soul completed." Chen Xiang saw that the Divine Sense Sea was growing a baby-like divine soul. As he continuously poured in more and more soul energy, the baby-like divine soul was growing at a visible rate.

In the past, when he first cultivated in divine soul, passing a stage was extremely difficult, but now, it had gone by with a whoosh.

Before long, his divine soul grew to be the same as an adult's.

"It's time to condense Divine Deity." Chen Xiang became excited, as long as this divine soul could condense Divine Deity, he would let this divine soul be responsible for cultivating the Heaven's Body, and his first divine soul would be to cultivate the Heavenly Alchemy.

With two sets of divine soul, he wouldn't waste any effort at all when cultivating in various types of Taboo magic. He could even allow another set of divine soul to cultivate it every day and night while the other set of divine soul could maintain an abundant amount of mental energy.

This was the benefit of having two souls.

Chen Xiang's second divine soul was condensed out from the Six Realms' Power, which was why it was so powerful and he did not know it yet.

"I want to become an Empyrean God." When Chen Xiang saw that his divine soul had matured, he was immediately filled with confidence. His body continuously flickered with white gaseous flames, and in

every instant, a surge of boundless energy circulated within his body. As it quickly strengthened his body, it also gave birth to a strand of soul energy that could condense Divine Deity.

Long Xueyi, who was at the side, was completely covered by ice. If Chen Xiang had opened his eyes at this moment, he would have definitely been scared silly, because the layer of ice surrounding Long Xueyi was exactly that kind of profoundbing.

Therefore, no matter how big the commotion caused by Chen Xiang during cultivation, he did not disturb Long Xueyi.

Under normal circumstances, the more he cultivated, the slower his progress would be, but Chen Xiang was exceptionally fast. After he condensed his divine soul, it only took him ten days to form his own Divine Deity, which made him doubt whether or not this Divine Deity was his own.

"This is the Heavenly God level's other Divine Deity. What is this innate ability? I don't think I have cultivated it yet, so I can only continue."

Chen Xiang did not sense the second divine soul's innate ability, so he was not considered a god. However, the Six Realms' Power in his Divine Sense Sea, as well as his first divine soul had become much stronger, as long as he could cultivate the second life ability, he would be able to become a god. At that time, his Six Realms' Power and first divine soul would increase by leaps and bounds.

Chen Xiang did not have high requirements for his second life ability, he only hoped to be like the Heavenly spirit kunfu, and gain the powerful ability to defend his fleshly body. Last time, he was heavily injured by Han Deyuan's divine soul, and there were already shadows in his heart.

Chen Xiang had already trained in this strange black stone mountain for half a year. When he sensed the birth of the second life ability, he suddenly opened his eyes and revealed a happy smile on his face.

"I'm already an Empyrean God, haha." Chen Xiang almost wanted to punch and shatter this black mountain, only then did he remember to look for Long Xueyi.

"Where is he?" Chen Xiang looked around, originally it was a black stone room, but now it was surrounded by ice, and he did not feel Long Xueyi's Qi at all.

He thought that the cold air had seeped inside, causing the room to be covered in ice. However, he carefully felt that the inside of the stone room was releasing a weak cold air.

Chen Xiang looked in that direction. That was the place where Long Xueyi had originally been sitting, and upon closer inspection, he discovered that there was an ice cube that was emitting silver rays of light inside, only that there was a very large layer of ice outside.

"Hiss ..." Chen Xiang took in a breath of cold air, because he realized that the ice in the stone room was not ordinary ice, but rather the kind of profoundbing.

This kind of profoundbing was actually produced by Long Xueyi's body.

Chen Xiang thought back to when Long Xueyi had regained a bit of consciousness and turned ice-cold again, causing him to worry secretly.

"I can only wait patiently." Chen Xiang was indulging in his thoughts because these profoundbing were created by Long Xueyi. The reason why the Super God Restricted Area s and the profound Cold Ancient Realm s had become so cold was because of those profoundbing.

#### [Chapter 1889](#)

In order to protect Long Xueyi, Chen Xiang did not go anywhere, nor did he do anything else. He only condensed spirit liquid as he watched Long Xueyi, who was sealed in ice.

Ten days later, when Chen Xiang heard the sound of cracking sounds, he became excited.

Bang! With a loud sound, all of the ice in the room shattered. A beautiful lady in white floated out from the ice and landed in front of Chen Xiang like a leaf.

Chen Xiang looked at Long Xueyi as his heart thumped in his chest. He was very worried that Long Xueyi would become the female devil who was not even recognizable to her parents, but the current Long Xueyi had a very different aura than before.

But, Long Xueyi suddenly revealed a sweet smile, and stuck her tongue out at him.

"Little Scoundrel, I'll scare you like that. If you see my true strength, wouldn't you be scared to the point of pissing your pants?" Long Xueyi laughed.

Chen Xiang sighed, this was just a false alarm, he pinched Long Xueyi's face: "Quickly tell me, what are these profoundbing, when you were cultivating, you actually condensed profoundbing."

Long Xueyi hugged Chen Xiang and whispered, "I almost didn't come back, and I almost turned into that ice-cold appearance.

Chen Xiang kissed her cheeks, and laughed: "It's not good now, I'm scared too."

Long Xueyi raised his head and looked at Chen Xiang, pouting his lips. Chen Xiang understood her meaning, so he moved his lips closer and kissed her passionately.

After they passionately kissed for a while, Long Xueyi said in a soft voice: "Little Scoundrel, I want to dual cultivate Alive Slain Method with you, you have been waiting for too long right?"

's eyes immediately lit up. Previously, he and Long Xueyi were already extremely intimate, but they were still unable to break through the last level. He knew that Long Xueyi had his difficulties, but the time was ripe.

"Little Dragon, you've been waiting for a long time, right?" Chen Xiang laughed sinisterly, while the long skirt she was wearing had already fallen off, revealing her enchanting jade body caused Chen Xiang's breathing to become heavier.

"See how I'll deal with you." Long Xueyi smiled and pounced towards Chen Xiang, pouncing Chen Xiang to the ground. The ground also had an additional layer of soft white carpet.

"Who's afraid of who?" Chen Xiang laughed, then rushed in, straight towards Huang Long.

... ..

Long Xueyi's divine soul had already merged with his body, and the two of them were hugging each other with incomparable satisfaction, speaking words of love in hushed tones, as if they had already forgotten why they had come to the Super God Restricted Area.

"Get dressed, we still have work to do." Seeing Chen Xiang being "ready to make a move" again, Long Xueyi scolded and patted his face.

Chen Xiang also anxiously dressed himself and asked: "What exactly is going on with the profoundbing, there shouldn't be a need for you to hide anything from me right now."

When Long Xueyi was wearing the clothes, it was very seductive. One could tell that she was giggling on purpose and knew that she was teasing Chen Xiang on purpose.

Chen Xiang snickered and went over to touch her body a few times.

"That's the power of my second life's sacred art. Of course, that caused the Super God Restricted Area to become like this, and was the second divine soul and Divine Deity of my primordial spirit to be destroyed once again. However, I have already created it now." Long Xueyi sighed: "The fellow who fought against me back then also destroyed her cold divine soul, thus this place had two types of icy cold power, I never thought it would become like this, and even affect Nine Heaven World."

"profound Cold Ancient Realm was also affected, what's going on?" Chen Xiang didn't mind it at all. He had already predicted that Long Xueyi's previous life would most likely have been filled with the strength of the Supreme God.

Long Xueyi said, "Nine Heaven World's profound Cold Ancient Realm and this Super God Restricted Area are separated by a very thin spatial wall. Back then, when a large number of Nine Heaven Divine Palace's gods were surrounded and attacked from that place, there were dozens of Heavenly God's so they broke through the walls of Nine Heaven World and Gods Realm."

The riddle in Chen Xiang's heart had already been solved, which made him feel much more comfortable.

"Little Naughty Dragon, you were too godly in the past, if you want to become too godly, how much divine soul do you need to use?" Chen Xiang asked.

"Guess." Long Xueyi mischievously smiled.

"Speak." Chen Xiang pinched her face.

"It's so easy to guess at ten divine soul s." Long Xueyi curled his lips.

Chen Xiang stroked his chin, and said: "To condense ten divine soul, that shouldn't be too hard, I just need a few months to condense a set of divine soul."

Long Xueyi was very surprised, because when she and Chen Xiang were dual cultivating, she only discovered that Chen Xiang's body had become much stronger, and did not discover his second divine soul.

Chen Xiang also did not discover her second divine soul, which meant that he had obviously hidden himself.

"Of course it's true. My second divine soul's ability isn't to attack, but to defend." Chen Xiang said: "This sacred art's ability should be called Celestial Phenomenon."

"Celestial Phenomenon." Long Xueyi was a little confused: "You cultivate the Heaven's Body, is there a great relationship between your innate ability and the Heaven's Body?"

Chen Xiang nodded his head, "Celestial Phenomenon is a transformation of the sun, moon, stars, and wind. Logically speaking, this should be an attack that's more useful, but inside the body of the heavens, this is all just main defense. There is no method to use it to attack."

Long Xueyi said: "I know that guy who cultivates the Heaven's Body, I never thought that he was Penalty Heavenly God's father. When I was still in Beast Divine Palace, Penalty Heavenly God was just a little brat there."

Chen Xiang asked in shock, "Penalty Heavenly God is from Supreme Divine Palace."

Long Xueyi nodded: "But he doesn't know, he and Devil-killing Heavenly God both came from the Supreme Divine Palace, they grew up in the Supreme Divine Palace, but their parents and masters did not tell them about what happened in the Supreme Divine Palace, and only until something happened in the Supreme Divine Palace did their parents send them to the Gods Realm quietly."

"The elders in the Supreme Divine Palace have always been in contact with them and have been secretly taking care of them. However, the Penalty Heavenly God and the Devil-killing Heavenly God are currently in a difficult situation and the elder did not lend a hand. Something must have happened."

Devil-killing Heavenly God and Penalty Heavenly God actually had such history.

Chen Xiang asked again, "What happened to Supreme Divine Palace back then?"

Long Xueyi sighed: "At the time Beast Divine Palace was exterminated, there was a large difference between Supreme Divine Palace and Six Realms Divine Palace. Some said that they wanted to help Beast Divine Palace, while some said that they were worried about being exterminated, so they opposed it."

"However, the Beast Divine Palace still survived in the end, but suffered heavy losses and was controlled for many years. The reason why we attacked the Beast Divine Palace back then was mainly to attack the four beasts, the Dragon Tribe and the White Tiger."

Previously, when Chen Xiang was in the Supreme Divine Palace, he heard from the old man that the Beast Divine Palace, Supreme Divine Palace and the Six Realms Divine Palace were just places where gods gathered, and there was even a super power that stood above them.

That super strong power was obviously related to the disappearance of the Nine Divine Kings, and at the same time caused the entire Beast Divine Palace to almost be destroyed.

## [Chapter 1890](#)

"What kind of terrifying person is actually able to cause your Beast Divine Palace to become like this above the three great divine halls? Furthermore, the three great divine halls are clearly under control." Chen Xiang took out the God Slaughtering Sword. He felt that this sword was related to those existences.

Long Xueyi laughed: "You still remember what Big Sister Qilian said before, that Gods Realm does not have a Divine Nations, so she wants to build a Divine Nations, and become the Divine Nations Emperor."

Chen Xiang nodded: "Of course I remember, she has the Emperor's ambition."

Long Xueyi received the God Slaughtering Sword from Chen Xiang's hands and said, "I already had it a long time ago, there were nine of them altogether. Back then, Beast Divine Palace almost developed into a Divine Beast Nation, which was why he was suppressed."

Chen Xiang was shocked, nine Divine Nations existed, but there was no news about them, this was too terrifying, and it was obvious that they had existed for a long time.

"Could it be that the Nine Divine Kings is the king of this Nine Gods Nation?" Chen Xiang asked again. The origin of the Nine Divine Kings had always been mysterious.

Long Xueyi shook his head: "No, originally there were ten Divine Nations, and one of them was destroyed. Nine Divine Kings is the son of the Divine Nations Emperor, they are nine brothers, they built the Nine Heaven World and resurrected us, it was to rebuild the Divine Nations, but they did not succeed."

The Nine Divine Kings was so powerful that it was difficult to rebuild it. Having suffered such a huge resistance, it was still unclear whether he was dead or alive. This showed just how strong the Nine Gods Nation was.

"Where is the Nine Gods Nation?" Chen Xiang asked: "Can we go?"

Long Xueyi knew that Chen Xiang was very curious, so she shook her head: "I don't know where it is, I just heard about it. Anyway, those who have hopes of forming the tenth Divine Nations, will be hindered by them."

"So, as long as there's a little target, the Nine Gods Nation will frantically suppress them. They don't seem to allow another Divine Nations to appear, this is a tacit understanding between them."

Chen Xiang pointed to the God Slaughtering Sword and asked, "Do you know what this is? Devil-killing Heavenly God picked it up here."

Long Xueyi nodded his head: "I do, this sword is from those Divine Nations, you are currently unable to infuse any energy into it, because there is no Divine Deity in this sword, the Divine Deity inside has already dissipated many years ago."

"High grade Divine Weapons are considered the strongest when compared to Gods Realm. If you can condense Divine Deity from Divine Weapons, then it would be called a Divine Tai grade Divine Weapon. Right now, your Divine Weapon is at most a good High grade Divine Weapon."

Chen Xiang took it, and looked at the inside of the sword, and sighed: "So that's how it is, there should be a location where Divine Deity are placed, right?"

Long Xueyi nodded: "But you must first have divine soul before you can place the Divine Deity inside. You can help this sword cultivate it out, or you can also find a match."

Chen Xiang put away the God Slaughtering Sword and said, "I think all of the Four Symbols Divine Weapons should be inside there."

"I don't know. Nine Divine Kings aren't used for fighting, but rather, they have a special meaning. You'll understand when you find them." Long Xueyi said: "I only know that the Four Symbols Divine Weapons was not created by them, but by their royal father."

"Let's go out and look for the profoundwu clothing now." Chen Xiang followed the instructions of the four imitation Four Symbols Divine Weapons on him and knew that there was one of them.

Long Xueyi laughed: "Take this mountain away, you can use it to refine on the way here too. As long as you meet hot flames, this mountain will explode.

"How are we supposed to take it away? This mountain is quite large, and I'm afraid the ring won't be able to hold it." Chen Xiang said.

"Using Six Realms mirrors, Six Realms mirrors are also from Storage magic treasure." Long Xueyi stood on his tiptoes and patted Chen Xiang's head, then laughed: "How stupid, you don't even know how to use this treasure."

Chen Xiang and Long Xueyi left the cave, but the snowstorm outside had already stopped, and the ice here had gradually melted, revealing their original appearances.

Long Xueyi said, "The power of this world of ice and snow has been absorbed by me. There are a large number of profoundbing inside my Divine Sense Sea, and I will use it for cultivation in the future. This is mostly my Super God Realm's power, and a lot of it has been lost after so many years."

Chen Xiang spread out his consciousness, enveloping this black mountain, and then kept it inside the Six Realms mirrors.

"The profoundwu clothing is in that direction. Once we have them, we'll go find those friends of the Devil-killing Heavenly God." Chen Xiang pointed to a stone mountain in front of them.

The cold inside the Super God Restricted Area had already become a legend. It was not as frightening as before, but there were still many profoundbing buried deep in the ground. These profoundbing were all formed from the special cold energy that Long Xueyi cultivated.

"All these profoundbing have a spiritual nature, and know how to find treasures of heaven and earth by themselves, then enveloping these treasures of heaven and earth. Some profoundbing will continuously nurture these treasures of heaven and earth, absorb the spirit energy of heaven and earth, and transform them to cultivate strange flowers and herbs, and then slowly absorb the special energy from these strange flowers and herbs. This way, the profoundbing will nurture a spiritual body, and these spirits will slowly evolve into life forms, becoming beasts."

"And some profoundbing are empty, it's because strange flowers and plants have already nurtured a large number of spirit bodies."

Long Xueyi was very familiar with the profoundbing at the moment. While walking on the road with Chen Xiang, she could also see a few birds and beasts. These birds and beasts had very strong adaptability.

After the snow and ice disappeared, traces of a fierce battle could be seen on the ground. Some petrified beast bones and rusted pieces of divine artifacts were scattered all over the place. This showed just how tragic that battle had been.

"More than half of the beasts in the Beast Divine Palace participated. The ones fighting the Beast Divine Palace were a group of villains from the Divine Nations. These villains were all imprisoned in the Divine Prison s. Long Xueyi took out a damaged lance. "Divine Nations is very powerful, and this time they will release the people from Divine Prison once again, making chaos in Gods Realm."

Chen Xiang wanted to ask more about the Divine Prison, now that Long Xueyi had said it this way, he understood why.

So it turns out that the Divine Prison was also built by the Divine Nations, and there were a lot of villains inside.

"The Divine Prison is still very strong, but no one can stop the Divine Nations from opening. At that time, it will be a calamity again, and even the gods of the various divine halls will not know about this." Long Xueyi said, "Otherwise, Hell Devil Emperor wouldn't be so foolish as to waste so much time with Devil-killing Divine Palace."

Chen Xiang could not help but be worried, the whereabouts of Lv Qilian and the others were still unknown, and after the Divine Prison opens it, will it affect the Nine Heaven World? He came from the Nine Heaven World, so he did not want the Nine Heaven World to be destroyed.
