Chen Xiang was eavesdropping on the conversation between Zhan Xi and the few Purple Smoke Divine Mountain Gods. After the competition, Zhan Xi had promised those Purple Smoke Divine Mountain Gods that he would think of ways to lure Chen Xiang out and kill him.

This Zhan Xi seemed to have a refined and refined appearance, he did not seem to be one of those evil villains! Yet, he actually colluded with other forces to kill his own people ...

Chen Xiang never thought that he would actually meet this Zhan Xi here. This caused killing intent to rise from his heart.

Although it was dark in the middle of the night, Chen Xiang and Zhan Xi were both gods. Even in the night, they could still see things clearly ...

"Brother, I think you must have just come out from the ancient village? I also just left that village." Zhan Xi said with a smile.

Chen Xiang also laughed back, "That's right, may I know where this friend is from?"

Zhan Xi came over to Chen Xiang's side. Seeing that Chen Xiang did not ask him amicably, he relaxed his guard and laughed, "I am your brother from Six Realms Divine Palace."

Chen Xiang laughed coldly in his heart. Zhan Xi was obviously from the Supreme Divine Palace, but when he heard Zhan Xi's words, he pretended to be surprised and said, "It's really not easy to meet Six Realms Divine Palace's disciples.

Zhan Xi laughed indifferently: "Absolutely true, I am a disciple of the Six Realms Divine Palace. I never lie to you, my friend.

"I am from Supreme Divine Palace." Chen Xiang did not hide his name and he boldly said it, "My name is Chen Xiang and I am the Dan Hall. I have just joined the Supreme Divine Palace and do not know much about the Six Realms Divine Palace but I am very interested in it now.

Zhan Xi was dumbstruck. He had just walked on the road and was thinking about how he could befriend Chen Xiang and lure him out to Purple Smoke Divine Mountain's God of Heaven to kill him. But now, Chen Xiang was right in front of him ...

He had also seen Chen Xiang's portrait in the Supreme Divine Palace, but he did not expect that Chen Xiang would so casually reveal his name and background to a stranger, even though he was not very deep into the world.

Chen Xiang did this on purpose to embarrass Zhan Xi and see what methods he would use in the Supreme Divine Palace to trick him into letting others kill him.

Just as Chen Xiang was feeling proud in his heart, Zhan Xi's next words made him secretly curse.

"So it's Brother Shen. I've long heard of your great name! To tell you the truth, I'm actually the third hall's Zhan Xi. I just said that I'm from the Six Realms Divine Palace, and that I'm actually here to protect myself. It's because there are some people around here who are not friendly with the Supreme Divine Palace, so please forgive me."

Zhan Xi did not find it strange that such a cunning person like Zhan Xi had such a thick skin. That was the most basic of quality ...

"So it's the young disciples of the three halls. I heard the hall master say that today's reputation is indeed worthy of its reputation." Chen Xiang laughed: "Brother Zhan, you are talking about exiting the sect with great care. I was being careless just now, shouldn't you tell me your real name and background? I still have to thank Brother Zhan for the reminder."

Zhan Xi did not know if what Chen Xiang said was true or not, but from the few god gods in Purple Smoke Divine Mountain, he found out that when Chen Xiang stole the blue divine flowers, he immediately revealed his name, so Zhan Xi thought that Chen Xiang should be rather high-profile.

"Brother Shen, where are you going now? Do you want to return to the Supreme Divine Palace?" Zhan Xi seemed to hope that Chen Xiang could return to the Supreme Divine Palace quickly so that he could carry out the plan to lure Chen Xiang to the purple-clothed men and kill him.

Chen Xiang was naturally aware of Zhan Xi's schemes. He said, "I had originally planned to return, but I knew that there was a type of divine fruit that was said to be a Shangpin medicine nearby. I planned to look for it first before returning."

Hearing that the high grade divine fruit, Zhan Xi's eyes flashed with a faint light. In the dark night, Chen Xiang caught sight of signs that this greedy and treacherous person was taking the bait with a single glance.

Zhan Xi immediately became serious, "Brother Shen, is the information you received accurate?"

"I bought it from a young man in the village. That's what he said anyway." Chen Xiang said: "I used ten thousand Shen Yuan stone anyway so it's not a lot. Anyway, we might as well take it as luck to come to this divine medicine trove."

Zhan Xi also clearly knew what kind of village it was. All the Grass Wood Elves and other Grass Wood Elves had a type of power that allowed them to sense the location of the divine medicine. Thus, he felt that although what Chen Xiang said should be true, it would not be easy for them to find the high quality divine fruit ...

With a quick thought, he thought of an ingenious plan and said to Chen Xiang: "Brother Shen, it is very likely that you have been tricked. The villagers in the village can know where the divine medicine is, but they can also sell it there many times."

Hearing Zhan Xi's request, Chen Xiang secretly thought for a while and understood what Zhan Xi was trying to do. Zhan Xi did not want him to make up those high-grade divine fruits, but was looking for an opportunity to set up a trap for him.

Chen Xiang said, "Alright!"

Afterwards, Chen Xiang truthfully said some things ... Of course, Yue'er taught him these things, and Yue'er understood divine medicines very well. Only by doing this would she be able to deceive Zhan Xi.

After Zhan Xi finished listening, he pretended to be very serious and attentive as he took out a jade tablet, handing it over to Chen Xiang. "Brother Shen, take this well.

Chen Xiang nodded his head and took the Communication jade Symbol paper: "No problem, thank you Brother Zhan. If I find you, I will inform you too."

Zhan Xi laughed and patted Chen Xiang's shoulders as he patted him on the shoulder, "It's best if we don't go too far away from this forest. Otherwise, we won't be able to contact each other if we go too far away from the place that the youth has told us to go."

Chen Xiang pretended to be oblivious and nodded his head heavily.

Zhan Xi greeted Chen Xiang and disappeared in the blink of an eye. Chen Xiang immediately sent a sound transmission to Yue'er and laughed, "This guy is most likely going to find those Purple Smoke Divine Mountain's gods ..."

[Chapter 1972](#)

Chen Xiang had originally planned to kill this Zhan Xi after the Large Competition, but he had met him now, and this Zhan Xi seemed to not be merciful to him, so Chen Xiang steeled his heart, and did not care about anything else.

"Yue Er, can you find any place with a godly fruit?" Chen Xiang was also planning on how to kill Zhan Xi, he did not know how strong Zhan Xi was right now, so he could not recklessly clash with Zhan Xi. If Zhan Xi returned to Supreme Divine Palace alive, it would bring him a lot of trouble.

Thus, in order to have a 100% chance of killing Zhan Xi, he had to use other methods to ensure that there wasn't a drop of water that leaked out.

Although it was night, the starlight was concealed by the thick clouds, and the starlight could not penetrate the clouds. Chen Xiang was worried that Yue'er was unable to communicate with the stars and moon, and could not find the divine fruit.

When I communicated with Xingyue, the information they gave me was not from today. It was from a few days ago, or even a few years ago, or perhaps even more. Littlemoon smiled. "I've already asked around. There's a fruit tree nearby. Because this tree looks rather ordinary and its location is rather remote, it wasn't discovered."

Yue'er had told him about the middle grade divine fruit that Chen Xiang had just described to him. Now that he thought about it, Yue'er had long since found that fruit tree.

"Let's set up the trap first and then call that guy over." Yue'er laughed, she had also guessed Chen Xiang's plan.

Chen Xiang followed the direction Yue'er pointed and quickly arrived at the location of the tree. The place where the tree grew was indeed very remote and even though it was very close to the village, it was not discovered.

"Although this fruit is a high-grade divine fruit, its main purpose is to be eaten. It is not suitable for alchemy." Yue Er said.

Chen Xiang entered through a crack in the mountain. After arriving inside, the crack had become much wider, large enough for a few people to walk in side by side. There were also many poisonous thorns blocking the crack, so it had not been discovered.

"Using Six Realms mirrors to set up traps is for the best. Go and see if the Six Realms mirrors has this kind of effect. I heard our patriarch in Star Moon Divine Race mention that Six Realms mirrors have this kind of ability." Yue Er said.

Chen Xiang did not notice that even though he had merged with a Six Realms mirrors, he did not have a lot of understanding of it, and would need to excavate a bit. He silently blamed this Six Realms mirrors, and should have told his master about his abilities when it was time to fuse with it.

He could feel the Six Realms mirrors in his body, the mysterious communication between them, and soon he knew how to use this ability.

"This Six Realms mirrors is really magical, to think that it has this kind of power, I actually didn't know about it before." Chen Xiang took out the Six Realms mirrors, and with a thought, he activated the Six Realms mirrors's killing array ability. At this time, more than half of the Six Realms' Power in his body was taken away.

Yue'er was pleasantly surprised. "Does it really have this ability? Besides killing arrays, there are also other formations?"

After absorbing a large amount of Six Realms' Power, and adding the ones stored in the mirror, the Six Realms mirrors in Chen Xiang's hands already possessed a very strong Six Realms' Power, at this moment, it flickered with a white light. Following Chen Xiang's mental control, the white light exploded, turning into a killing array formed by the Spirit grain, and seeped into the stone walls and ground on both sides of the mirror.

"There are only a few that I can use now. Although there are a few other powerful formations, my current Six Realms' Power cannot support them." Chen Xiang's Six Realms mirrors also left his body and sunk into the ground.

He was not worried that the Six Realms mirrors would be snatched away by others, because he only needed a thought to allow the Six Realms mirrors to travel through space and return to his body.

After finishing all this, he immediately took out the Communication jade Symbol paper that Zhan Xi had given him and sent a message to Zhan Xi: "Brother Zhan, I've already found that divine fruit. I'm not familiar with it enough, and I don't know if this is the time to pick it.

The moment Zhan Xi saw the village, he suddenly received Chen Xiang's sound transmission and couldn't help but be suspicious. However, he didn't really understand Chen Xiang well enough, so he thought that Chen Xiang was a guy who liked to show off his simple brain.

After knowing that Chen Xiang had found a divine fruit, Zhan Xi was hesitant. He wanted to immediately look for Chen Xiang or first look for the Purple Smoke Divine Mountain's divine gods.

If Chen Xiang really could find the divine fruit, and if he went over with those Purple Smoke Divine Mountain Gods, he would definitely share the divine fruit with them. In his heart, he did not want to know too, that it was a high-grade divine fruit, even if it was inferior in quality, it would sell for a lot of Shen Yuan stone.

After struggling in his heart for a while, Zhan Xi still decided to believe in Chen Xiang. Because he felt that Chen Xiang trusted him a lot, he didn't think that Chen Xiang would lie to him.

Chen Xiang waited for less than an hour within the crevice before he sensed that someone was outside. Zhan Xi had arrived, and even though he was near, Zhan Xi did not leak out any of his aura, showing just how cautious he was.

When Zhan Xi came here and saw the many poison vines outside that had been eradicated, he knew that the crack in the mountain was well-hidden. That was why he did not get discovered after so many years, it was very possible that there were divine fruits growing inside.

After arriving at this place, Zhan Xi became even more careful. He was still extremely vigilant, and after walking through a narrow crevice for a while, he finally arrived at a spacious place. As expected, he saw a tree.

There were more than ten topaz like fruits on the tree. Although it was in the dark night, they emitted a faint yellow light, and these fruits were exquisite and transparent, one could see the core of the fruits. It was exactly as Chen Xiang had said, and it was obvious that they were ripe.

"Brother Zhan, you've finally come. Do you know what kind of fruit this is? I don't know what kind of fruit this is. It doesn't look like it can be used to refine pills." Chen Xiang laughed when he saw Zhan Xi. At the moment, he was casually sitting on the ground, leaning on a mountain wall.

This is the Mystic Yellow God Fruit. It is indeed not suitable for alchemy, but it is still extremely delicious. When the fruit core is immersed in the God's Water, it can produce a very delicious and fragrant Mystic Yellow Fruit Juice. Zhan Xi's eyes lit up, these ten odd profound yellow divine fruits and this tree were all extremely precious in his eyes, a wave of greed suddenly rose up from his heart.

Zhan Xi was a very greedy person in the first place, otherwise, he wouldn't have risked agreeing to the Purple Smoke Divine Mountain's deities to lure Chen Xiang out. If the Supreme Divine Palace found out that he had colluded with an outer sect to harm a fellow sect disciple, the consequences would be extremely serious.

However, Zhan Xi was willing to take such risks just for the sake of tens of millions of Shen Yuan stone. One must know that the matter of him betraying Chen Xiang and the gods of those Purple Smoke Divine Mountain s knew that they would very likely leak it out, so the risk was extremely high.

Zhan Xi lowered his head and took out a Storage bag, and the moment he did so, his eyes became sinister and fierce, but it was only for a moment, and he took out a jade pot. He smiled at Chen Xiang: "Brother Shen, you must have expended a lot of effort when you came in, let us drink first."

[Chapter 1973](#)

Chen Xiang had already expected that Zhan Xi would kill him to rob their goods. He had guessed that Zhan Xi would fight with him and either release a Yin Blade behind his back or use an array disc to attack him, but he never expected that Zhan Xi would give him poison.

Zhan Xi walked over with a smile. Looking at his elegant appearance, he looked like an elegant scholar, and it was difficult to tell that he had a stomach full of evil tricks.

He poured a big bowl of golden colored fruit juice for Chen Xiang. When he just opened the bottle, Chen Xiang smelled a rich fragrance, causing him to uncontrollably swallow his saliva.

"Good stuff." Chen Xiang immediately praised. At the same time he praised the juice, he was also praising Zhan Xi's good methods. He actually thought of using this thing to poison others.

Yue'er sent a sound transmission to Chen Xiang, "This thing must be poisonous, do you want to drink it or not?"

Chen Xiang replied with a smile: "Of course I drink. I have profound strength, I want to see how strong this poison is."

Zhan Xi handed a big bowl of fruit juice to Chen Xiang and Chen Xiang hurriedly took it. After smelling the rich fragrance, he praised it and then took a big gulp to finish it.

"Do you still have more? Delicious." Chen Xiang praised her as he handed the bowl over.

Seeing Chen Xiang drink so heartily, Zhan Xi also laughed happily: "Of course there is. This is a very precious thing, I used a special technique to refine it, and not just anyone can drink it."

Otherwise, he wouldn't have said these words out loud. In order to let Chen Xiang be completely poisoned, he poured a bowl full of poison for Chen Xiang.

Just like that, Chen Xiang burped after drinking three big bowls.

Originally, Zhan Xi did not plan to kill Chen Xiang on his own, because he was worried that the weakness would fall into the hands of the Purple Smoke Divine Mountain Gods, and now that there was poison grass outside the crevice, he could tell the gods that Chen Xiang had been poisoned, and that he could take away the fruit tree and divine fruit, it was truly two birds with one stone.

Chen Xiang suddenly frowned, and shouted: "Aiyo!"

It was only when he really reacted that he cried out. He clutched his stomach and chest and shouted in shock, "What's going on, his stomach and chest are both stinging."

This was the reaction of the poison. Chen Xiang was also secretly shocked in his heart that this poison could actually make him feel this way, and the poison was also spreading, but the anti-poison energy in his body was also quickly gushing out, enveloping all the poison.

"When I entered earlier, I saw many poisonous grasses and poisonous thorns outside. Brother Shen might have bumped into them before, but I have an antidote pill here. Brother Shen, hurry up and consume it to suppress the spread of the poison." Zhan Xi looked anxious as he took out a black pill.

Chen Xiang secretly admired this Zhan Xi. He could tell that the pill here was a poisonous pill with just one look, and it was refined with several poisons at that. The poison was even more terrifying than those bowls of fruit juice.

Chen Xiang immediately received it. He didn't even frown as he ate the poison pellet. After that, he closed his eyes and pretended to refine the poison pellet.

Seeing Chen Xiang close his eyes, the corner of Zhan Xi's mouth raised slightly, revealing a very pleased and treacherous smile. Then, he took out a jade box and carefully plucked the ten over divine fruits.

He was worried that Chen Xiang would say something, so he did not immediately put the divine fruit into the Storage magic treasure, but continued to dig for the tree. This tree's value was the same as the divine fruit.

Zhan Xi was very careful when digging up trees. That degree of meticulousness surprised Chen Xiang, he actually did a very good job on this kind of meticulous work. He had to pay attention to the roots of these trees when digging up trees, it wouldn't hurt a single root or else it would affect the growth of the fruit trees in the future.

The place where this tree grew was entirely made of hard rocks. The fruit tree had already dug into the rocks, and it would be difficult to dig it out without damaging its roots.

Just as Zhan Xi finished, Chen Xiang immediately used the spatial extraction technique to retrieve the jade box that contained the Profound Illusion Divine Fruit.

With his sudden movement, Zhan Xi immediately noticed it. She was shocked and quickly said: "Brother Shen, don't move recklessly, or the poison will spread."

Chen Xiang laughed: "Thank you brother Zhan for the antidote, I am much better now."

After saying that, he waved his hand and the divine tree that had just been dug out disappeared. It had been taken away by Chen Xiang, "Thank you for your hard work, Brother Zhan."

Zhan Xi was stunned, he saw the smile on Chen Xiang's face, and it was as if he understood something, he finally realised that Chen Xiang had been pretending from the beginning, he had initially schemed against Chen Xiang, but he never expected that Chen Xiang had always been scheming against him.

"You ... "You weren't poisoned." When Zhan Xi saw that Chen Xiang was completely fine, he didn't look like a person who had taken both his poisons. If it was a normal person, they would have already been poisoned to the point that their minds were muddled.

"I was poisoned, but Brother Zhan gave me a precious antidote pill and saved my life." Chen Xiang continued to smile, and his smile became even more brilliant.

Zhan Xi frowned, he finally could not continue pretending and coldly said: "Hmph, consider yourself powerful, don't think that you are stronger than me just because you can play tricks, let's see your true abilities right now."

This time, Zhan Xi had truly failed miserably, and it had even turned completely upside down. He was so angry that even the dregs would not come out, taking out a spear, releasing his killing intent. He immediately rushed towards Chen Xiang and stabbed it into Chen Xiang's throat.

He suddenly pulled out his spear, causing blood to spurt out from Chen Xiang's throat and splatter all over his face. The blood was still warm, which made Zhan Xi unable to believe it, because this victory was too easy, it was almost impossible.

Of course, Zhan Xi was not that easy to obtain, he had only pierced the doppelgänger Chen Xiang created using the Six Realms' Power, it could even condense fresh blood, thus it looked very real.

And the real Chen Xiang was already outside the crevice.

After Zhan Xi realized that something was wrong, he immediately ran outside, but suddenly felt that his feet were being sucked in, and immediately activated the Mysterious power inside the Divine Sense Sea, wanting to break away from his body, but the more he used the Mysterious power, the faster the Mysterious power would escape from his feet.

The killing array that Chen Xiang had set up had already started to activate, first locking down the target, then releasing the condensed Six Realms' Power, through the array formation inside the Six Realms mirrors, transforming into a terrifying form of power, attacking the target inside the array.

The array was activated, and Zhan Xi was unable to move at all. On the walls of the mountain crevice, countless Six Realms' Power suddenly shot out from all directions, the first round of piercing did not manage to break Zhan Xi's defense, the Divine Armor on his body was still very strong.

However, she was unable to endure the second round anymore, and her body was immediately riddled with holes and turned into a bloody mess. Chen Xiang saw that it was enough and walked in.

"Brother Zhan, I just came out to pee, and you became like this? What's going on?" Chen Xiang said as he laughed, a hand was already pressing on top of Zhan Xi's head, although Zhan Xi was looking at him viciously, he pretended not to see it.

Zhan Xi was very young, only a few decades old. Compared to an old fellow like Chen Xiang who had lived for thousands and thousands of years, he was really a little too young.

"You ... You have no reason to harm me. " Zhan Xi felt that Chen Xiang was searching his memories, and asked in shock. He couldn't understand why Chen Xiang would scheme against him like that.

"I'll send the Purple Smoke Divine Mountain guys over to accompany you later. When the time comes, you can ask them if I have a reason. " His words and his smile made Zhan Xi feel as if he had fallen into a bottomless pit of despair.

[Chapter 1974](#)

- Tianhai flower

Zhan Xi had already given up all hope. He didn't have any chance now, he understood that since Chen Xiang knew he was this kind of person, then there was no way she could spare him.

"You must send them to me." Zhan Xi said coldly: "There is something related to them in my memories, it might be useful to you."

At this moment, Zhan Xi hated Chen Xiang very much, but he also hated those few Purple Smoke Divine Mountain's gods, because they were the ones who were too careless back then, causing this kind of thing to be leaked out. Otherwise, he wouldn't have fallen into Chen Xiang's hands right now.

"Definitely." Chen Xiang immediately swallowed Zhan Xi's memories and took out his Divine Deity.

Zhan Xi's divine soul had already been destroyed, and his body should not be burned by Chen Xiang either. He wanted to destroy the corpses and wipe out the evidence, as he had killed a relatively good young Alchemist in the Supreme Divine Palace.

From what he knew from Zhan Xi's memories, the gods of those Purple Smoke Divine Mountain s were famous all over the place. They would specially inquire about the Alchemist s who often gathered divine medicines, and after finding them in the precious land of the divine medicines, they would secretly follow them. As long as they found any divine medicines, they would immediately jump out to snatch them.

The last time they stole Xie Ao, they did not hide their identity, so Xie Ao was able to immediately see through their Purple Smoke Divine Mountain.

Other than that, Chen Xiang also knew that Zhan Xi often worked together with these robbers from the Purple Smoke Divine Mountain. Because Zhan Xi was very deceitful, he stayed in the Alchemist circle very well.

Furthermore, Zhan Xi and this bandit god had also discovered a few divine medicines, and those places were all extremely secretive. When the divine medicines matured, they would gather together and then go harvest them together.

And now, there was a place in this treasure land where the divine medicine was about to mature, and that was a Shangpin medicine.

Zhan Xi did not know what kind of divine medicine it was, he only knew that it was an ancient divine medicine from the mouths of those bandits, but it was very precious.

Chen Xiang estimated the time, there was still some time before the divine medicine would mature so he immediately rushed over. The route in Zhan Xi's memories was extremely detailed, he had to hurry in order to harvest it before the purple-clothed bandits did.

Chen Xiang told Yue'er about the flower's appearance. Although Yue'er didn't refine pills, she was an expert in this field, and even though this little guy often pretended to be cute and win over girls, she was definitely an old demonic cat.

After Yue'er heard Chen Xiang's description, she said: "This kind of flower is called the Tianhai flower, after eating it, it can increase the power of the Divine Sense Sea by a little. Of course, the main purpose of this flower is not to eat, but to store the power of the Divine Sense Sea."

"Your Six Realms' Power should be able to be stored in this kind of Tianhai flower as well. If you don't normally need it, you can store it inside, and when you rest during the night, you can replenish it. When you continue to store the Six Realms' Power, eating this kind of flower will allow you to immediately obtain the Six Realms' Power that you stored in the flower."

After Chen Xiang heard it, he felt that it was a little familiar. He frowned and said, "This effect is the same as the Divine Sense Sea Pellet. The Divine Sense Sea Pellet is a Shangpin dan.

The Divine Sense Sea Pill formula was chosen by Feng Yujie when she passed the Intermediate Alchemy God assessment, or was it chosen for her by Chen Xiang? It was just that he did not know the formula, and because he could not refine the Shangpin dan back then, he did not ask Feng Yujie.

"Tell me, what is the use of the Divine Sense Sea Pill? This Tianhai flower only has a limited amount of Divine Sense Sea's power." Yue Er said.

Chen Xiang told Yue'er about the effects of the Divine Sense Sea Pellet. Yue'er said: "The Divine Sense Sea Pellet that you mentioned is able to contain the power of one of the nine soul heavenly gods, it is many times stronger than a Tianhai flower and it cannot hold much. This Tianhai flower should be one of the ingredients to concoct the Divine Sense Sea Pellet without fail."

Since this was the divine medicine that he needed, Chen Xiang wanted to obtain it even more. He was initially running wildly in the forest, but right now he was using the power of teleportation to rush to a cave.

He travelled through the night. Two days later, he was far away from Grass Wood Elves Village. He arrived at a small mountain and circled around it to look for the entrance to the cave.

This cave was already covered up by Zhan Xi and the violet-clothed bandit, and had even set up restrictions. It was to prevent people from discovering it, and to wait for the Tianhai flower to mature naturally, they could go and harvest it.

If you don't have a special ability to maintain this kind of wild medicine, you can never pick it before it has ripened, or else it will be hard to maintain the best quality if you go to other places to cultivate it. So if you find a divine medicine, you won't be in a hurry to pick it unless you have no other choice.

The divine medicine treasured land had a different kind of nourishment compared to other places. The divine medicine here naturally grew at a rate of ten to a hundred times faster than other places. Legend has it that even some Divine Nations would send people here to search for rare divine medicine.

Chen Xiang originally did not understand much about this treasure land, but after he devoured some of Zhan Xi's memories, he found out that this treasure land was extremely special and magical. Even though this place should be very small at the border between the six realms and the Sovereign Realm, but for some reason, this place gave birth to a space, causing the entire treasure land to continuously expand for a long time.

"I've found it. Those guys aren't here yet. I have to hurry up and make a move." Chen Xiang discovered the mark of the restriction and immediately teleported, passing through that place and entering the cave.

Chen Xiang originally thought that after entering the passage, it would be very dark, but he never expected that the entire passage would be filled with green light, and these strong green light rays were somewhat glaring.

He was inside the passage, and when he looked forward, he discovered that the light had come from the end of the passage. The source of the light was emitting an even more piercing green light, and he could not see what it was.

If it matures, it will not emit this strong light. This kind of flower is rather special, and it also has a certain spirit, he only emits light to protect himself because he sensed someone approaching him, and if he matures, he can burrow into the ground by himself. But there should already be a barrier placed around this place to prevent the Shangpin medicine from escaping. "Yue'er said, "If you pick it now, it might affect your future quality. As for this flower, it should be maturing soon."

Chen Xiang took out a jade bottle, inside it was the spirit liquid he condensed. Whenever he wasn't with Feng Yujie, he would cultivate this kind of spirit liquid like the Alive Slain Method.

"Then I'll let him mature." Chen Xiang laughed, and walked towards the bright light.

[Chapter 1975](#)

When they approached the Tianhai flower, the originally green light had instantly turned blood-red, looking extremely frightening. At this moment, the entire cave was covered in a bloody light, and there was even a thick smell of blood, as if warning Chen Xiang that if he went any closer, there would be a disaster that would appear.

But Chen Xiang was very clear that this Tianhai flower was only scary, it did not have any power at all.

"Little guy, I'll make you grow up faster." Chen Xiang grinned as he squatted down. Then, he poured out all the spirit liquid from the jade bottle and dripped it onto the exquisite Sky Sea.

The Tianhai flower was very small, it was only six inches tall, the size of its palm, its leaves and stems were all transparent. Even though the flower was also transparent, it had a very strange power that could emit different colored clouds of light, and it was also very strong.

After Chen Xiang dripped the spirit liquid, the Tianhai flower suddenly grew taller, and the flower also grew larger. It was as big as a palm, and it started to emit a strong blood light, but now it had dimmed down, and the entire flower was transparent, as though it was carved out of crystal, it was extremely beautiful.

"What's this?" Yue'er was a little curious about the spirit liquid in Chen Xiang's hands. Of course she could tell that this spirit liquid had a strong ability to accelerate maturity.

"I used the Alive Slain Method to cultivate it, but it's not the best." Chen Xiang laughed, the most powerful thing was that he and the woman had dual cultivated Alive Slain Method s and condensed Spirit Orbs, even if it was just kissing, it would be much stronger than the Spirit Liquid that he condensed himself.

"The Alive Slain Method in the Heaven Earth Killing Method, is it? This godly skill is also a mysterious skill." Yue'er said, sticking out her small head, looking at the crystal-like Tianhai flower, and lightly laughed: "What a pity, this isn't something delicious."

"It's fully matured." When Chen Xiang saw the Tianhai flower move, his hand shot out like lightning and grabbed onto the stem of the flower. Then, he quickly dug out the root and sealed it in a jade box.

Just as he was about to pluck it, a sound came from outside the cave.

"There's someone here, and judging from this aura, it should be those violet-clothed bandits." Yue'er replied, "What do you plan to do?"

Chen Xiang allowed his divine soul to travel through space to check around, and discovered that there was only one purple clothed man, he was currently removing the restriction, and the restriction they had set up had taken a lot of effort, it was not easy to remove, and would take some time.

"There's only one. Let's do it." Chen Xiang took out the Six Realms mirrors and started to lay down the killing array.

After doing all of this, he hid in a corner of the cave wall and waited for the purple-clothed man to come in.

"This guy should have come by himself. These violet-clothed bandits aren't that united." Chen Xiang sent a sound transmission to Yue'er as he smiled.

"If that's the case, why did they still give fifty million to Zhan Xi to trick you out of it and kill you?" Yue'er had some doubts, for them to be able to spend so many Shen Yuan stones just to avenge their comrades, it seemed that they had a good relationship with each other.

From Zhan Xi's memories, Chen Xiang understood that the relationship between these violet-clothed bandits was indeed not very good, and they often fought for a little benefit, and the fact that they were willing to pay fifty million Shen Yuan stone to avenge their dead comrades really did not make sense.

The killing array had already been set up, and when the man in purple saw the exquisite Tianhai flower, he could not help but be ecstatic. He quickly walked over, because he did not expect that the Tianhai flower would have matured so early.

"After getting rid of the blame, just blame it on Zhan Xi, the brat, for him to cooperate with us for so long and earn a lot, it's time for him to return the blame." The moment the purple clothed man stepped into the killing array, Chen Xiang immediately activated it.

This time, he used the Killing Array with all his might, because the purple-clothed man was from Upper Heavenly God, his strength was much stronger than Zhan Xi's. He was even a bit worried that his Killing Array wouldn't be able to stop the purple-clothed man.

The killing formation activated, and from the very beginning, it locked the purple-clothed man in place. His legs could not move, and at the same time, it also quickly absorbed the divine power within his body.

The purple-clothed man sensed that something was wrong and shouted loudly. The divine power in his body surged out and he actually lifted a leg.

"So powerful." Chen Xiang felt the Six Realms' Power inside the Six Realms mirrors quickly disappearing. Terrified, he took out the God Slaughtering Sword and immediately used the God Murdering Sword Techniques.

Sensing the terrifying God-killing sword, the purple clothed man immediately exclaimed: "God Murdering Sword Techniques, Chen Xiang!"

The time inside the God Murdering Sword Techniques made Chen Xiang's time speed up, thus his speed of drawing the sword was many times faster. Just as the purple robed man shouted out, his body had already been pierced by dozens of swords, all of them aimed at his vital points.

"How do you know I'm Chen Xiang?" Chen Xiang thought it was strange, his appearance had already changed before, he shouldn't be able to recognize this purple-clothed man.

After the purple-clothed man had been struck by Chen Xiang's God Murdering Sword Techniques, the God Slaughtering Sword's energy entered his body, and had already caused him a great deal of harm.

And because Chen Xiang was worried that the purple clothed man would retaliate against him before he died, she had even stabbed a sword into his Divine Sense Sea, causing the purple clothed man's divine soul to suffer a heavy injury.

"Only you know..." The purple clothed man had not finished speaking when Chen Xiang saw a streak of golden light suddenly flash out. It was a vile person, and it was the purple clothed man's divine soul.

If Divine Sense Sea and his flesh were to suffer heavy losses, his divine soul could escape and he could quickly be reborn.

However, Chen Xiang basically did not give him this kind of opportunity. He grabbed at the air, broke through the space, and directly grabbed onto the divine soul.

The main reason why he used the Soul Absorbing Devil Spell was because he wanted to use it on the divine soul. Now that he had the divine soul in his hands, it was easier for him to use the Soul Absorbing Devil Spell.

Thus, he easily found some information he wanted to know from this purple robed man.

Not long ago, he and Yue'er had been wondering why these purple-clothed bandits would be willing to pay fifty million Shen Yuan stone for Zhan Xi to lure him out and kill him.

"So you are here for my God Murdering Sword Techniques and Heavenly Alchemy, that means the Purple Smoke Divine Mountain also has people inside, they got the news about me from an elder." Chen Xiang found a Divine Deity from the man's Divine Sense Sea.

The purple-clothed man had hidden his Divine Deity very well. He was a Upper Heavenly God and he had at least three Divine Deity s, but Chen Xiang could only find one.

"This guy had originally been deceived by Zhan Xi once, so in order to take revenge, he didn't care if Zhan Xi would lure me out in the future or not, he just wanted to use this matter to slander Zhan Xi, and then take all the Tianhai flower for himself." Chen Xiang burned the purple-clothed man's body, leaving behind a bit of Zhan Xi's aura.

The Storage magic treasure s like Zhan Xi would usually hide in the Divine Sense Sea. Even if they devoured their memories, they wouldn't know where they were hiding. When they were storing the Storage magic treasure and Divine Deity, they didn't leave behind any memories, and summoned them out as they pleased.

[Chapter 1976](#)

Chen Xiang finished off Zhan Xi and a purple-clothed man, and even obtained a Tianhai flower. His harvest was very rich, which caused him to happily hum a small tune in the mountain forest, skipping and walking around.

On the other hand, Yue Er was resting inside her bag. If she sensed anything, she would wake up.

Chen Xiang picked a wild flower and sucked the sweet juice from the flower. Then, he gently shook the flower off and used his finger to release a burst of energy to scatter the flower and cause the petals to fall. This would allow the flower to be sowed and grow even more in the forest in the future.

A few of the petals slowly became beautiful, and just as they were about to land on the ground, a gentle breeze suddenly blew into the forest. The petals that were about to fall to the ground were blown up by the wind.

The strange thing was, after these petals were blown away, they actually clashed against each other. At first, Chen Xiang thought it was a coincidence, but the next scene he saw made him feel like he was facing a great enemy.

A few petals were suddenly blown together by the light breeze, and at the moment of collision, they actually produced faint traces of white light. The petals that were initially scattered by Chen Xiang, actually merged together, and became beautiful flowers again.

This was definitely not a coincidence. Rather, it was caused by a very powerful force.

"Who is it?" Chen Xiang stopped in his tracks and shouted loudly.

"This guy is very strong. It seems like he has been following you for a long time." Yue'er hurriedly stuck her head out from her backpack and looked around, her voice also becoming more serious.

Knowing that he had been followed, Chen Xiang felt a chill down his spine. If that was the case, then wouldn't he have been the one to let the purple-clothed man off the hook?

Chen Xiang turned around and looked behind him. At this time, he only felt the wind grow stronger, and just as he was about to continue walking forward, he suddenly saw a man with long hair standing in front of him.

This almost made Chen Xiang scream out in shock. He had used his Spatial Perception just now, but he still did not notice this man. Even when he closed his eyes, he could not feel that this man was right in front of him.

Even if it was a god, he wouldn't feel such terror.

The man in white had a very handsome face, and his eyebrows were meticulously trimmed. The hand holding the bamboo flute was very long, and his nails were carefully trimmed. He seemed to care even more about these things than the women.

Chen Xiang, on the other hand, was tall and sturdy, his clothes were tattered, his hair was messy, there was even some mud under his nails, the bottom of his pants were rolled up to reveal his extremely dense leg hair, and although he was handsome, his unkempt personality prevented his handsome face from appearing.

Chen Xiang and the white clothed man in front of him were like two polar opposites.

"Who are you and why are you following me?" Chen Xiang asked with a frown and a vigilant expression. He had already taken out the God Slaughtering Sword.

The man in white smiled. His smile was very charming and his voice was filled with a strange charm. "I didn't follow you. I've been in this place for quite a while. I only came to take a look after noticing that someone has entered this place."

Sunlight shone through the gaps in the treetops, causing beams of light to fall from the trees. The man in white waved his hand, and a gentle breeze blew, causing the flower to float in the wind and land in his palm.

"I'm so sorry to bother you." Chen Xiang cupped his fist and turned to leave. Before he had taken a few steps, the white clothed man suddenly appeared in front of him.

"I just want to ask, were you the one who used the God Murdering Sword Techniques?" The white clothed man asked: "I was attracted by your terrifying God-killing sword."

This man in white was very strong. Chen Xiang was not able to see his strength, and only felt that this man in white was capable of killing him at any time.

"Yes." Chen Xiang replied.

"Where did you get it?" With a gentle blow of his white robe, the flower in his palm floated away with the wind. It was unknown where he had drifted to. From his appearance, it seemed that he doted on these flowers.

"A senior sister passed down the God Murdering Sword Techniques to me, and this senior sister's father passed down the God Murdering Sword Techniques to him. As for how his father obtained it, I don't know." Chen Xiang spoke the truth.

"Oh, it won't be easy to cultivate this God Murdering Sword Techniques, especially one with a God-killing sword at your level. As far as I know, the first thing you need to do is to have the God Slaughtering Bloodline, but you obviously don't." The white clothed man spoke indifferently, but his eyes were staring straight at Chen Xiang.

Chen Xiang immediately felt a great pressure pressing down on him. His back was covered with cold sweat.

"I'm not too sure either. This might have something to do with the Divine Deity that I fused with before." Chen Xiang had already determined that the Divine Deity he had fused with should have belonged to that whatever Six-Daos Divine Monarch. It was said that he was the son of the Six-Daos Divine King and was a legendary figure in the Six Realms Divine Palace.

After the white clothed man heard this, he slightly frowned. After pondering for a moment, he no longer pursued the matter of the God Murdering Sword Techniques, and asked about another matter instead:

"Are the Star and crescent beast in your bag?"

Yue'er stuck her head out. "I am a Star and crescent beast, do you want to eat me?"

Chen Xiang was startled, but Yue'er had an impatient tone when she asked that. It seemed like she had some understanding of the man in white, and even asked him "Do you want to eat me?"

The white clothed man smiled: "Why do you want to know if I want to eat you? Don't tell me I look like someone who specializes in eating Star and crescent beast."

Yue'er snorted lightly: "Your Divine Wind Valley has always had this kind of tradition. As far as I know, most of our Star and crescent beast were captured by your Divine Wind Valley."

In Divine Wind Valley, Chen Xiang suddenly understood that this man had always been using wind power, so this Divine Wind Valley should be one of the powers in Super God Realm.

"I am from the Divine Wind Valley, not bad, but I have been separated from the Divine Wind Valley for many years. Now, I am from the Six Realms Divine Palace." The white clothed man smiled. "Moreover, the Divine Wind Valley that you mentioned is from many years ago. The current Divine Wind Valley doesn't eat Star and crescent beast anymore, nor do they dare to eat Star and crescent beast."

"Hmph." Yue'er was still very unhappy, "What kind of background do you have? As far as I know, Six Realms Divine Palace doesn't have a person like you."

The white clothed man laughed: "My name is Xiao Changle, although I have joined the Six Realms Divine Palace, I have rarely shown my face. I have been training in this treasured land all year round."

Chen Xiang replied: "If Senior doesn't have anything else, then I'll be leaving first. I still have to rush back okay."

This land had a strange power, so it was normal for Xiao Changle to be hiding here to cultivate. Now, Chen Xiang just wanted to return to the Supreme Divine Palace and leave this mysterious expert behind, even though this person had no ill intentions towards him.

"You must be from the Supreme Divine Palace." Xiao Changle asked with a smile.

"Yes." Chen Xiang didn't think that he would be seen through so easily. He didn't have the characteristics of a Supreme Divine Palace.

"I will be going to the Supreme Divine Palace soon. I think you should be from there, otherwise, you wouldn't have collected such a precious medicine. I didn't expect that there would be a little kid like you in the Dan Hall." Xiao Changle chuckled: "You can go back first, I think we won't be seeing each other for long."

[Chapter 1977](#)

Chen Xiang didn't know much about Xiao Changle, but this guy knew a lot of things about him. The matter of him killing the purple robed man in the cave, must have been found out by Xiao Changle.

"Don't worry, I didn't see what you did in the cave." Xiao Changle patted Chen Xiang's shoulder.

Chen Xiang nodded, then cupped his fists: "Thank you senior for understanding, farewell."

Chen Xiang immediately ran, Xiao Changle said that he was from Six Realms Divine Palace, and the killing array that he had set up with the Six Realms mirrors in the cave was probably seen by Xiao Changle, so

he must have already known that had Six Realms mirrors, thus he ran so fast. He was worried that Xiao Changle might want to see his Six Realms mirrors.

Chen Xiang continuously teleported, only stopping to rest after walking out of the great mountain and arriving at a piece of prairie did not stop until he had dashed madly for two consecutive days.

"Do you have a clue? Just what kind of background does this guy have? It's too scary. Even when facing strong people like Yi Bidong, I don't feel this kind of pressure." Chen Xiang exhaled, then released Little Lightning. Riding on Little Lightning's back, he returned to Supreme Divine Palace.

Yue'er said: "I have never heard of his name, but I can roughly guess his strength. He should be someone who has reached the pinnacle of the Supreme God Realm, and is only a little bit away from surpassing the realm of the Supreme God. He should be a Supreme God who possesses nineteen Divine Deity."

Chen Xiang exclaimed: "No wonder it's so scary, is there such a powerful being in the Supreme Divine Palace?"

Yue'er crawled out from her backpack and ran into Chen Xiang's embrace, saying, "Yes, Supreme Divine Palace's Palace Master should have that kind of strength."

Chen Xiang had never seen the hall master of the Supreme Divine Palace before, he had only heard that this hall master rarely appeared. Unless something big happened, he would never come out to settle things, even if it was the Large Competition.

"Doesn't that mean that this Xiao Changle possesses the same terrifying power as the Supreme Divine Palace's Hall Master? Does that mean that there are a lot of these fellows in the Six Realms Divine Palace? said in surprise. said that he was from the Divine Wind Valley and joined the Six Realms Divine Palace later on.

"In the past, Six Realms Divine Palace was very powerful, especially during the time of the Six Daos Divine Monarchs ... However, after the disappearance of the Six Daos Divine Monarchs, the Six Realms Divine Palace also declined. Everything Yue'er knew, she knew from the higher-ups in the Beast Divine Palace. She had a noble position in the Star Moon Divine Race, so she knew a lot of things.

Chen Xiang returned to the Supreme Divine Palace. He did not expect that it would take him so long to walk out of the depths of the treasure grounds.

Returning back to the Tenth Dan Hall, Chen Xiang saw Shui Bingyan and Feng Yujie organizing some medicinal herbs in the courtyard outside.

Seeing Chen Xiang and Yue'er return, Shui Bingyan walked over happily, "Elder Brother Shen, Yue'er, how do you do?"

Yue'er really liked Shui Bingyan. She flew out from her backpack and threw herself into Shui Bingyan's embrace, playing with him with her cute little paws.

"Has BingYan adapted yet." Chen Xiang sat down and helped Feng Yujie get those dried up miracle medicines, he did not know what they looked like.

Feng Yujie chuckled: "Your worries and mine are superfluous. Although this girl is simple, she is not easy to deceive. She has a very strong sense of perception and is very sensitive to whoever has ill intents towards her. She doesn't need to adapt to our human environment."

Chen Xiang looked at Shui Bingyan's innocent and brilliant smile, and sighed: "I hope our human environment isn't so treacherous to her heart."

"What are these?" asked. There were many divine medicines, and all of them looked like gray fruits, but the roots of the fruits were intertwined together.

"The Divine Aura Fruit and the Void Primordial Spirit Fruit, the main two kinds of Zhongpin medicine in refining the Divine Concealment Pellet, are intertwined together. Now we need to separate them one by one." Feng Yujie said: "Did you get anything from going to the divine medicine trove?"

"My harvest is not bad. How did you get these medicinal ingredients? Did you buy them?" Chen Xiang asked.

"I don't know why that guy called Xie Ao gave it to me, but for some reason, he gave it to me without taking my Shen Yuan stone." Seeing Chen Xiang's smile, Feng Yujie knew that it had something to do with Chen Xiang, and quickly asked: "What exactly is going on?"

Chen Xiang chuckled: "I saved this guy, moreover, he can be considered to be someone I know. He is Nine Heaven World."

Feng Yujie opened her mouth in shock and exclaimed: "So it's Evil Emperor, how did he become like this, I can't even recognize him, no wonder the Qi on his body gave me a familiar feeling."

"You've met him." Chen Xiang didn't think that Feng Yujie would enter the Evil Emperor and see her. What was strange was that she didn't recognize him.

"Of course I've added him. However, at that time, he was completely different from how he is now. He was basically two different people. He had also seen me before. Merely, at that time, I had used a different appearance." Feng Yujie said.

Chen Xiang took out that blue colored flower. When he met Xie Ao in the Divine Medicinal Treasure's grounds, it was precisely because of these blue colored flowers that he simply told Feng Yujie about the past.

Feng Yujie spun the blue flower, and said with a frown: "I don't know what kind of flower this is, but from your description, it seems like the effects are not ordinary."

"I even suspect whether it is a Zhongpin medicine. I just ate a petal, and the effects are already very scary." Chen Xiang said. Right now, the blue flower in Feng Yujie's hand was missing a petal.

Suddenly, a voice came from the direction of the small yard, "This is the [Dead Profound Evil Flower]. You can still live after eating a petal, this is your fate. If you don't know how to handle it, a hole will be blasted in your stomach."

This was the voice of hall master Luo Tianjun, he had already come out of seclusion.

He walked out of the room, and instantly arrived beside the table, taking the Death Profound Evil Flower from Feng Yujie's hands.

After Yue'er heard this, she immediately flew over and said in shock, "This is the legendary Death Profound Evil Flower that could let the Supreme God pierce through the heart easily."

Hearing Yue'er's description, Chen Xiang's heart suddenly had a lingering fear. He was glad he only ate a petal back then, otherwise he definitely wouldn't be able to sit here so comfortably right now.

Luo Tianjun glanced at Yue'er. Even though he was in closed-door training, he knew a little about what was happening outside.

When Yue'er and Shui Bingyan came in a while ago, he immediately found out. Yue'er was, after all, a Star and crescent beast, so it was very easy to see through her.

"This is only a Medial Grade Death Mysterious Black Evil Flower. If it were a Superior Grade flower, then this little demon's reputation would probably grow back." Luo Tianjun returned the flower to Chen Xiang, and then warned her sternly: "You can't eat it anymore. This flower is an evil medicine that can kill people."

Chen Xiang immediately nodded his head, but he was ecstatic in his heart, if he refined the pill, the power would definitely be great. The stone on the mountain where Long Xueyi's remnant soul was previously on, also had a terrifying power, he had not refined it yet.

"Hall Master, have you heard of Xiao Changle?" Chen Xiang suddenly asked, upon hearing his question, both Feng Yujie and Luo Tianjun's face changed, they actually knew who Xiao Changle was.

[Chapter 1978](#)

Luo Tianjun let out a long sigh: "No wonder this kind of flower would appear in such a precious land of divine medicine, it was planted by this guy. He's still the same as always, always like to plant this kind of thing."

Chen Xiang was startled, Xiao Changle truly loved flowers, and this kind of terrifying [Death Profound Evil Flower] was actually planted by him.

Luo Tianjun looked at Feng Yujie: "Girl, do you recognize this guy as well?"

Feng Yujie nodded. "I'm young ... We were quite familiar with him when we were young, I didn't expect him to be here. "

At that time, the Nine Divine Kings was extremely prestigious, and since Xiao Changle was able to recognize Feng Yujie, it meant that Xiao Changle had a pretty good status at that time.

"Hall Master, he said that he is from the Six Realms Divine Palace. What is his position in the Six Realms Divine Palace?" Chen Xiang asked, this Xiao Changle knew some of his secrets, he had to figure out Xiao Changle's identity now.

"He is the hall master of the Six Realms Divine Palace. Although this guy is from the Six Realms Divine Palace, he is also an alchemist, and strictly speaking, he can be considered my martial uncle, no one

knows his identity in the Six Realms Divine Palace, only a few elders and hall masters of the Supreme Divine Palace know about him."

Luo Tianjun's words caused Chen Xiang and Yue'er to be extremely shocked. They never thought that Xiao Changle was actually the Hall Master of the Six Realms Divine Palace.

Feng Yujie frowned: "He was originally from the Divine Wind Valley, why did he run to Six Realms Divine Palace?"

Luo Tianjun said, "He controls the wind laws. Later on, because the Divine Wind Valley and the Purple Smoke Divine Mountain jointly did something that would harm the disciples of both sides, at that time, Divine Wind Valley and the Purple Smoke Divine Mountain both sent a portion of their disciples away. That was when he entered the Six Realms Divine Palace.

Chen Xiang suddenly thought back to when Xiao Changle asked him about the God Murdering Sword Techniques. Obviously, Xiao Changle already knew that he had fused with the Divine Deity of the Six Daos Divine Monarchs, and even knew that he had the Six Realms mirrors, but he did not say anything.

"How is he?" Chen Xiang asked.

"Not bad, just that she likes to dress up more than women and flowers more than women. The rest are still quite good." Luo Tianjun laughed mischievously: "You should have seen him in the precious land of divine medicine."

Chen Xiang nodded his head. It was indeed just as Luo Tianjun had said.

"Hall Master, he said that he will be coming to the Supreme Divine Palace soon, what is he doing here?" Chen Xiang asked.

"He should be the one who brought the disciples of the Six Realms Divine Palace to join in the fun. Our Hall Master should have made an agreement with him that the competition this time will possibly compare to the other forces. When the time comes, the three great halls will be gathered together and other forces like the Divine Wind Valley and the Purple Smoke Divine Mountain will also come." Luo Tianjun said: "It will be more lively later on."

"That's what Hallmaster told me before. That's why I went into seclusion, because when the time comes, we old bones will have to go up on stage and regain some face."

"Camel." Someone suddenly shouted from outside the door, his voice was like thunder.

Hearing the voice, Chen Xiang knew who it was. It was the chief hall master of the Soul Hall, Zhu Xiangyuan.

Chen Xiang helped him find the Dao heart stone, but half of the compensation he gave Chen Xiang had not been paid off, which was equivalent to giving him a decent set of divine soul.

The reason he's here now, should be to send us off with his divine soul.

The moment Zhu Xiangyuan came in, and saw Chen Xiang, without saying a word, he threw a pearl over to Chen Xiang. Chen Xiang took the pearl, and felt that it was very scalding to the hand.

"This is a fire attribute divine soul. I've already finished refining it so it's very easy for you to fuse it." Zhu Xiangyuan smiled and said: "Be careful when fusing with them. This fire attribute divine soul is extremely overbearing, don't get burned."

Luo Tianjun thought it was strange. He had only closed himself off for a few months, yet Zhu Xiangyuan had already gifted him with divine soul. It had to be known that even old bones like them would find it difficult to obtain such a high quality divine soul from Zhu Xiangyuan.

"What's going on?" Luo Tianjun felt that it was strange, so he looked at Zhu Xiangyuan and asked.

"He helped me find the Dao heart stone ..." Just as Zhu Xiangyuan finished speaking, he realized that he had leaked his mouth, because he had promised Chen Xiang not to tell him about this matter.

Hearing that, Luo Tianjun's eyes immediately became round, he glared at Chen Xiang, and then left. It seemed like he went to Supreme Hall to look for the old man.

Zhu Xiangyuan chuckled at Chen Xiang: "Don't worry, I won't let your hall master cause any trouble, I'll go watch him right now."

Zhu Xiangyuan left as well as he let out a helpless sigh.

Yue'er continued to play with Shui Bingyan, they were both chasing after him and playing around. When Chen Xiang and the others were talking earlier, Shui Bingyan also sat obediently by the side and listened quietly.

"Sister Feng, how did you know that Xiao Changle?" Chen Xiang asked: "If he sees you now, would he still recognize you?"

Feng Yujie laughed: "Of course I recognize him. Back then, Nine Divine Kings had set his eyes on this guy, so he was doing quite well in Divine Wind Valley. The God King had often given him pointers, so when I was young, I often cultivated with him.

"Let's not talk about this anymore. I even found this in the divine medicine land." Chen Xiang took out the Tianhai flower and laughed, "Is this a Tianhai flower?"

When Feng Yujie saw it, she cried out in surprise, "It's the Tianhai flower! This is great! This is a divine medicine that is difficult to find in order to refine the Divine Sense Sea Pellet."

Chen Xiang said: "Seems like I'm not mistaken."

Feng Yujie carefully stored it away. This was a very precious thing to her.

"Brat, I have already improved the Regeneration Dan." Feng Yujie also had some good news to tell Chen Xiang. Seeing her pleased smile, Chen Xiang couldn't help but reach out and caress her face.

"How did it go?" Chen Xiang knew that Feng Yujie was using this to vent his anger towards the young Alchemist that had refined the Regeneration Dan.

"Although Regeneration Dan s can regenerate their flesh and bones, their speed is very slow and they aren't very effective against gods who have relatively stronger flesh and bones." Feng Yujie said: "But the Jadeback Divine Pellet that I refined could regenerate bones and flesh quickly. If my body was just a

bit weaker, I could complete it in an instant, and it would be much better than the Regeneration Dan by many times."

Feng Yujie faintly sighed: "The only thing that is lacking is that this kind of pill is slightly more difficult to refine, and we need to add another Zhongpin medicine. Although the effects are very good, the price would definitely be very high, if not it would be difficult to reverse the price."

Chen Xiang looked at the divine soul in his hands and said: "I have a way, that fellow's Regeneration Dan s are not endless, I think that he already has some in stock, and he is only selling them to a few people. If we can quickly copy the Regeneration Dan's medicinal ingredients and quickly refine them, then we can definitely compete with him."

"I know that as well, but how do we solve this problem? Replicating the medicinal ingredients is not a difficult task, what's more difficult is to quickly refine the ingredients, after all, this is a Zhongpin Dan. It requires a batch of Shangpin holy Dan s to concoct." This gave Feng Yujie a headache.

[Chapter 1979](#)

The reason why Chen Xiang did not start refining Zhongpin Dan was because he was looking for a solution to the problem that caused all the Pill Gods to feel a headache! It was that all the Zhongpin Dan needed to add a lot of Shangpin holy Dan as support when they were refining!

The majority of Zhongpin Dan's pill formulas were like that, while the supporting Shangpin holy Dan only had a stable effect, its medicinal strength would not be merged into the divine pellet, which also meant that even if the Shangpin holy Dan did not refine it, the quality of the divine pellet would not change.

However, without Shangpin holy Dan, it would be hard to maintain stability in the furnace. This was mainly because when the Zhongpin medicine was being burnt, it needed to consume some energy in order to be docile and not be irritable! Therefore, when they were in the ancient times, the Pill God had thought of this method. When refining Zhongpin Dan, they would add in Shangpin holy Dan and let the Zhongpin medicine melt to the Zhongpin medicine to swallow.

"I'll go into seclusion for a few days to see if I can succeed!" Chen Xiang said: "Give me two sets of Regeneration Dan s' medicinal ingredients!"

Feng Yujie handed over the ingredients to Chen Xiang, his face was slightly flushed, and he said: "There aren't many spirit pearls left, we need to take some time to get more!"

Chen Xiang laughed sinisterly, and quickly entered the basement!

He did not start to refine pills, but took out the divine soul that Zhu Xiangyuan had just delivered. He was still an Inferior Divine God, he only had two divine soul s.

Chen Xiang's first life ability was that the Chuangzao fire would be of great help to him in refining pills, and his second life ability was the Celestial Phenomenon Art. This was what he got from cultivating the Heavenly spirit kunfu, it allowed him to have a strong defense.

And after that, he would cultivate the third divine soul and condense the third Divine Deity. At that time, he would also have the third life ability!

Right now, he was training in the Heavenly Alchemy. He planned to use the Heavenly Alchemy to cultivate the third and third Divine Deity, which would affect his third life and abilities.

"It's exactly because Xiao Chou has this kind of thing that he can advance by leaps and bounds! I will fuse with this divine soul first, and when the time comes I will cultivate the third Divine Deity, and then I will become a God! " When Chen Xiang thought about the ten Divine Deity s that were required to become the Supreme God, he felt that he still had a long way to go, so he had to speed up a little.

The divine soul that Zhu Xiangyuan had refined, was placed inside the Divine Sense Sea, and had actually easily fused with him. Now, he only needed to cultivate a little, to make himself more compatible with the divine soul, and after that, he only needed a long time of seclusion to condense the third Divine Deity.

"Regeneration Dan!" Chen Xiang took out a portion of Regeneration Dan's medicinal ingredients. This was only medicinal ingredients, there were no Shangpin holy Dan s.

Feng Yujie had told him before that even if he used the Heavenly Alchemy, if he did not join the Shangpin holy Dan s inside, it would be very difficult to maintain the stability of the pill furnace.

Feng Yujie had taught her the Heavenly Alchemy, so she definitely did not have as much understanding towards it as Chen Xiang, so when she was refining pills, more or less, she still had the method to refine pills from before. That was why she did not understand and change the way she used the Heavenly Alchemy, and it would take a long time to comprehend and change the way Chen Xiang did.

Feng Yujie had already told Chen Xiang the timing of the appearance of these few Spirit blood s. Therefore, Chen Xiang did not need to test them a little, he could directly burn these few Zhongpin medicine to a certain degree!

"It appeared! Sister Feng, you seem to know a lot about the Regeneration Dan's divine medicine!" When Chen Xiang saw the Spirit blood inside the few divine medicines, he immediately captured all of them and then merged them all together.

It seemed like it would succeed, but in the instant the fusion occurred, the things that Chen Xiang expected did not happen. Instead, they were all separated.

"This is bad!" Chen Xiang immediately opened the lid on the pill furnace, releasing a few more berserk Medicine aura from the furnace bit by bit.

"Zhongpin medicine are really different. They could have fused together, but why are Spirit blood suddenly rejecting each other and even breaking apart!" Chen Xiang sank into deep thought.

He had never encountered such a situation before. He had used the Original source refining, so Spirit blood were extremely important to him. If the Spirit blood were to shatter, it meant that he would fail.

Feng Yujie had said before, that if the Shangpin holy Dan s had smelted and added in the energy after the Holy Pellet was refined, it would allow the Zhongpin medicine s to swallow the energy, allowing them to integrate with the Spirit blood s bit by bit smoothly. During this process, he would also need to continuously refine a large number of Shangpin holy Dan s, and also have to evenly distribute the energy that the Holy Pellet produced.

If Chen Xiang wanted to solve this problem, he had to first understand why Zhongpin medicine would reject each other and even self-destruct when they fused with each other.

He only had one portion of Regeneration Dan's medicinal ingredients in his hands, while Feng Yujie only had one portion of medicinal ingredients to duplicate.

He took a deep breath and placed the divine medicines on top of a jade plate. Then, he used his spiritual eye to carefully observe them.

Thus, he continued to read. It took him three whole days before he had a clue.

"It should be like this. These Zhongpin medicine have all developed a stronger spirit, and they also have gathered a bit of energy inside the divine medicine. It's similar to Divine Deity and things like that! If the energy within the few divine medicines was too different, they would not be able to fuse together and the Spirit blood would also reject each other! And when I forcefully gathered the Spirit blood together, it would cause it to shatter. "

Chen Xiang frowned as he thought about it: "There is a huge difference in the energy hidden within the Zhongpin medicine, and the strength of the energy depends on the strength of the Spirit blood! If I were to forcefully merge them together, it would cause the weak Spirit blood to explode! That's why it happened before. "

This was just like him using an egg to touch a rock. The difference between the two was too great, so they couldn't fuse together! As for the Shangpin holy Dan, it would have the effect of protecting the weak divine medicine with an energy shield. Once the weak divine medicine had reached a certain level of balance, it would fuse together without causing a weak explosion, and after successful fusion, it would then disperse the energy that the Shangpin holy Dan had turned into.

"If I use the Original source refining, I can only start from the original Spirit blood! As long as we strengthen the Spirit blood, it won't explode when we fuse with it! "

Chen Xiang had already found a way to solve it, but he still hadn't found the way to use the Strong Spirit blood!

"There should be something inside the Heavenly Alchemy. When I first comprehended the Original source refining, I saw something related to it, but I didn't pay it much attention at that time!" When Chen Xiang thought of this, he couldn't help but exclaim in his heart about how profound the Heavenly Alchemy was.

[Chapter 1980](#)

It took Chen Xiang a few days to understand the method of the strong Spirit blood from the Heavenly Alchemy.

"Looks like it uses up a lot of Divine Sense Sea's power. I wonder what effect the Six Realms' Power of my Divine Sense Sea will have if I use it on it!" What was expended was the power within the Divine Sense Sea. Because Chen Xiang cultivated the Six Realms magic kungfu, all he had right now were six streams of godly power.

And what the Mysterious power could do, the Six Realms' Power could too.

After finding the method, Chen Xiang started refining the Regeneration Dan. He first burnt the few types of divine medicines to a certain degree, then used his Spirit Essence to see the Spirit blood and used the "Strengthening Technique" that he had just comprehended.

Before using this method, he had to first figure out which divine medicines were too weak, and then strengthen the Spirit blood of these divine medicines. All he had to do was balance these Spirit blood.

The only thing he needed to do was to use a powerful spirit technique, and the Six Realms' Power in his body would quickly rush out of the Divine Sense Sea, turning into a light green glow and flowing out of his palms. It would enter the pill furnace through the fire entrance of the pill furnace and then wrap around the divine medicine and permeate into the divine medicine little by little, strengthening those weak Spirit blood.

At this time, Chen Xiang also used his Spirit Eyes, and carefully observed the Spirit blood. When the Spirit blood was weak, its color would slightly change, and as it grew stronger, its color would also deepen, so it was very easy to see.

As long as the color depth of the divine medicines were similar, they could begin to fuse together!

This kind of situation wouldn't happen to low quality divine medicines. Although low quality divine medicine Spirit blood would also have a large difference in strength, but because the energy contained within the divine medicine wasn't enough to detonate, it could be forcefully merged!

On the other hand, the middle grade and above divine medicines were different. The powerful energy concealed within would explode if the Spirit blood was not stable at all!

"It's about time!" Chen Xiang never thought that he would have to spend three days to get the color of the Spirit blood to be identical, and that he would have to use up a lot of Six Realms' Power s.

"It's because I'm not familiar with this technique that I have to use it bit by bit. Therefore, if I'm familiar with it after such a long period of time, the time I need can be shortened by a lot. It's not a problem for me to produce a pill quickly!" Chen Xiang used his divine sense to form a hand, grabbing the Spirit blood inside the ball of Medicine aura and fusing them together.

At this moment, Chen Xiang's heart was thumping hard, he was nervous, if he failed, he would have to find a new method! However, if he succeeded, it would be much easier and faster to refine Zhongpin Dan than other Alchemist s. He did not even need to refine a large number of Shangpin holy Dan, this was something that made him very excited.

When the few Spirit blood fused together, Chen Xiang's forehead could not help but exude a large amount of sweat. When he saw the Spirit blood fuse into a ball, he let out a long sigh.

"Done!" Chen Xiang was overjoyed and heaved a sigh of relief. At this moment, the Medicine aura s and medicinal powders had all fused together into a very dense ball of air.

"As expected of Zhongpin medicine. If we combine several of them together, we can produce such a dense amount of Medicine aura. Seems like we can condense quite a few pills!" Chen Xiang was extremely happy in his heart: "If you use the Holy Pellet as support, after the fusion is done, you have to release the Holy Pellet's energy. When the energy is released, a large portion of the Medicine aura will be lost, so the amount of Medicine aura that leave the pellet is very small!"

Chen Xiang had understood it before, the young Pill God who made Supreme Divine Palace only had two pills, but he was still not sure how many pills Feng Yujie could make out of these pills. He still had to continue burning these Medicine aura s to make them purer.

"According to this method, if you can only condense an ordinary pill, you should be able to condense at least five pills!" Chen Xiang was even more excited, the more he could condense, the better. This way, he wouldn't feel like he was losing out even if he sold them at a low price.

Now that he had solved the problem, he did not need to add Shangpin holy Dan s to refine the pill. This could reduce a lot of costs and the amount of energy needed to refine the pill, at the same time increasing the number of pills!

After Chen Xiang refined that large lump of Medicine aura to a very pure state, he was somewhat agitated in his heart.

"Seven pills!" It should not be a problem! "

He rewarded this group of Medicine aura with seven points, and then carried on with the process of condensing the pellet!

After a short while, Chen Xiang succeeded in condensing the pellet. He opened the furnace and saw that there were seven light yellow Regeneration Dan s inside.

"Great, as long as I copy a little more, I can quickly refine a large amount!" Chen Xiang wiped his sweat and hurriedly walked out of the basement with the seven Regeneration Dan.

When they arrived at the top, Feng Yujie was currently sleeping on the same bed as Shui Bingyan, while Yue'er was sprawled on the ground next to Shui Bingyan.

Shui Bingyan slept soundly and looked good in her sleep. Feng Yujie, who was at the side, woke up early, and when she heard the door to the basement opened, her eyes shone open. She had been waiting for Chen Xiang's good news.

"Do you want to kiss her?" Feng Yujie laughed.

"I don't dare, she's strong!" Chen Xiang curled his lips.

Feng Yujie had already walked down from the bed and arrived beside a table.

Chen Xiang laughed: "Look!"

Feng Yujie saw that Chen Xiang had opened a jade box and there were seven Regeneration Dan inside. She almost shouted out happily, but she was worried that she would disturb Shui Bingyan, so she restrained herself.

"How did you refine it?" Without using Shangpin holy Dan s, you can use two portions of Regeneration Dan s' medicinal ingredients to refine seven pellets! " Feng Yujie placed the Regeneration Dan on his palm and carefully examined them, "They are even of high quality!"

Chen Xiang chuckled: "My first furnace was a failure! These seven pills you saw were all refined in the same furnace! "

"Impossible!" Feng Yujie shouted lightly. She had refined Regeneration Dan many times, she knew Regeneration Dan well enough, she felt that her four pellets were already the limit, and she had to use her best to be able to condense four.

Chen Xiang laughed but did not speak. He took a close look at these Regeneration Dan and discovered that they were all hot. The temperature was about the same.

But she still quickly shook her head. She could not accept this kind of thing that she felt was impossible!

"Sister Feng, you can do it too. I'll teach you tomorrow. I'm a bit tired now, so I'll go take a bath first!"
Chen Xiang walked into the bathroom and quietly washed off the perspiration on his body. Then, he sat on a chair and crossed his legs to rest.

Feng Yujie also leaned over, laid in Chen Xiang's embrace, and gently caressed his cheeks as she gently said: "I'll accompany you!"

Chen Xiang kissed her red lips and laughed. Then, he hugged her and went to the other bed, where they slept in each other's embrace.
