

## **Dan God 2001**

### [Chapter 2001](#)

The Star Moon Divine Race's Second Leader had actually personally come to find Yue'er. This was clearly because of a very important matter, Chen Xiang, Bai Hu and the others immediately thought of the Samsara Sacrifice!

The Samsara Sacrifice was extremely important to the higher ups of the Star Moon Divine Race. Now that the elder had personally come out to look for him, it meant that the time for the Samsara Sacrifice was coming!

As long as the time for the Samsara Sacrifice was up, a surge of energy would descend upon Yue'er. If they couldn't find Yue'er, once they missed the time for the Samsara Sacrifice, it could cause a lot of trouble.

In the past, Yue'er was very obedient, but ever since Yue'er met Chen Xiang, she would often run around randomly, and it was very difficult to find her. This time, Star Moon Divine Race came early to find Yue'er, to prevent her from missing out.

"Yue Er left by herself. She said she wants to go back by herself!" Although she does not have much strength, her speed is very fast, so there shouldn't be any problems. "

Chen Xiang said. He couldn't tell anyone about the Samsara Sacrifice right now, otherwise, if the Star Moon Divine Race knew about this, they would inevitably do something crazy. Moreover, right now, they were already enemies with the Divine Lion Race.

Yi Bidong nodded, "Then that's what I'll say to them! Are these three your friends? Why haven't I seen it before? "

Yi Bidong only felt that the White Tiger looked very familiar to the Vermillion Bird. Of course, he had heard of the Vermillion Bird and the White Tiger before, he had only seen vague images on some of the ancient books.

Chen Xiang laughed: "They are the seniors White Tiger and Vermillion Bird, they both belonged to the Beast Divine Palace back then! You should have heard of Elder Yi! "

This caused Yi Bidong to be greatly shocked, and he immediately bowed to the White Tiger and the Vermillion Bird respectfully. Back then, All-beast Divine Lord had sat down as the second protector, and that was an extremely famous existence.

"What about this person?" Yi Bidong looked at Jiang Sheng and asked.

"I am from the Nine Heaven World, and I am just a nameless nobody. Don't you treat me as some senior! You are my senior, that's more like it. " Jiang Sheng chuckled.

These words made Yi Bidong smile: "Those who come are guests, furthermore, you are Chen Xiang's friends, so you are mine!"

"Elder Yi, you guys have discussed how you would deal with the assault of the Divine Lion Race! It just so happens that Senior White Tiger has his own debts to settle with Divine Lion Race. " Feng Yujie said.

Yi Bidong nodded his head: "Then, I will bring the two seniors to see Hall Master!"

The White Tiger and Vermillion Bird followed Yi Bidong to meet Mu Chen. As far as they were concerned, with these two Divine Beasts here, they wouldn't have to worry too much when the Divine Lion Race attacks them. Yi Bidong was only curious about how much power the White Tiger and Vermillion Bird had recovered after their rebirth. This was because the White Tiger and Vermillion Bird back then were extremely terrifying existences.

"I will take a walk around this city myself and then head over to that Beast Divine Palace to take a look ... Cough cough, do you have Shen Yuan stone? I just came to this place, and you know it." Jiang Sheng laughed.

Feng Yujie took out five million Shen Yuan stone and gave it to him: "Don't spend it randomly. If there's news of Qi Shi, you must come back quickly and tell us!"

Seeing how straightforward Feng Yujie was, Jiang Sheng laughed, "As expected of the Nine Heavens Goddess, you're so generous!"

They could easily earn that much. To sell a hundred Regeneration Dan today, that was a hundred million Shen Yuan stone, and tomorrow, they still had to continue selling.

In the hall, there were only Chen Xiang, Feng Yujie and Shui Bingyan. Chen Xiang had not completely recovered, but Shui Bingyan was still massaging him.

"What are you worried about?" Feng Yujie could see through Chen Xiang's thoughts.

"Yue Er, I'm most worried about her right now!" Chen Xiang said, "I was worried that Star Moon Divine Race would find her and try again."

Shui Bingyan was also worried, and said: "How about we go find her, I have a way to find her, that way we can protect her!"

"Although every day's preparations is for that competition, Littlemoon is more important!" You and Bingyan can go find Yue Er together, and I am not at ease with her. She doesn't have any strength at the moment, and Star Moon Divine Race will definitely know her like the palm of his hand. Feng Yujie said. After being together with Yue'er for a while, she was also extremely fond of Yue'er.

Chen Xiang nodded his head: "When I'm fully recovered, we will leave immediately!"

He took out more than twenty Dao heart stone s and gave them to Feng Yujie: "These are the Dao heart stone s. When the time comes and I haven't come back yet, you should send some out based on the situation.

"Hall Master and Elder Yi must give it to them, and there are still the three Senior Brothers Gu. As for Hall Master and that Xiao Changle, you should have already made your decision long ago." Chen Xiang said.

Dao heart stone s were extremely precious to cultivators who wanted to control the power of the Great Dao. As long as they had one, they could make themselves stronger.

At first, when Chen Xiang assured Yue'er, he let her leave on her own, because they didn't know that Samsara Sacrifice would arrive so soon. Samsara Sacrifice was a matter that concerned the advancement of the powers of the higher-ups in the Star Moon Divine Race, and other than that, they paid more attention to Yue'er obtaining the power of Star Moon Descent as it was extremely possible for Yue'er to awaken all her memories.

Now that Chen Xiang knew that the Star Moon Divine Race's Second Leader had personally come to find Yue'er, he started to worry secretly. All these years, their Samsara Sacrifice had gone smoothly, so the Star Moon Divine Race must have some methods to find Yue'er.

Therefore, he must find Yue Er quickly and bring her to hide. He wanted her to undergo a baptism; even if she didn't awaken her memories, she would definitely become very strong.

Feng Yujie lightly caressed Chen Xiang's face, encouraging him, "You must get Yue'er back. She's one of us, you definitely can't let her endure that kind of pain again.

"Definitely!" Chen Xiang kissed her cherry lips and firmly laughed.

Very quickly, Yi Bidong received news that the Star Moon Divine Race's Elder had left in a very nervous manner after learning of Yue'er's departure.

Chen Xiang only recovered at night, so he also brought Shui Bingyan and left Heroes Gathering Divine City at night!

"BingYan, how do you know where Yue Er is?" Chen Xiang asked.

"Water... There is water vapor in the world, but you can't see it. Therefore, Yue Er is always in contact with water, and she will also participate in some of the auras that fuse with the water. I only need to sense it and I will be able to tell." Yue'er chuckled. "I can already sense it. Let's go this way!"

Using this method, Shui Bingyan was able to sense Yue'er's trace, which also made Chen Xiang less worried. At the very least, they could quickly find Yue'er.

Chen Xiang brought Shui Bingyan and carried out a spatial legend without stopping for three days straight!

"Yue Er ran really fast. She just left us not long ago, but I chased her for three days and still couldn't catch up." Chen Xiang could not help but exclaim at Yue'er's speed. She was simply too fast, but this was also a good thing. At the very least, the elders of the Star Moon Divine Race would not be able to catch up to her.

Just when Chen Xiang thought so, Shui Bingyan said: "Not good, there are other beasts' auras in front, and they are very strong. He is now in his human form!"

After sensing it, Shui Bingyan opened up her palm. There, on top of her palm, was a little person formed from water vapor. This was the little person she saw just now.

"Could this fellow be the second in command of the Star Moon Divine Race?" Chen Xiang frowned: "We have to hurry up and catch up. This guy is even faster than us, and he seems to be able to track Yue'er."

[Chapter 2002](#)

After learning that the elders from the Star Moon Divine Race had come to capture Yue'er, Chen Xiang and Shui Bingyan became even more anxious, and advanced forward at full speed.

"They probably used some secret methods to track Yue Er after finding out that Yue Er had left. Using this kind of secret technique might have had some effect on them. Otherwise, they wouldn't have come to the Heroes Gathering Divine City to look for Yue Er previously, and would have been following her directly." Chen Xiang analyzed in his heart, he guessed that after the Clan Elder used a secret technique, there was a high chance that his power would drop.

If this elder was really the Star Moon Divine Race's Second Leader, then his power must be very strong, even Shui Bingyan would not be able to deal with him. At that time, not only would he not be able to save Yue'er, he might even be killed.

Chen Xiang advanced at full speed. In merely half a day's time, Shui Bingyan had already sensed that Yue'er was nearby.

"Elder Brother Shen, you can stop now. That old man is already with Yue'er." Shui Bingyan said. Even though she was innocent, she knew that it was not good to be discovered by the other party.

After Chen Xiang stopped, he used the Space Domain s to envelop both him and Shui Bingyan, preventing them from being discovered by the other party.

This place was filled with black boulders and strange stones that spanned a thousand miles. Chen Xiang only found out that these black boulders were star fragments that had fallen from the sky after he had felt a trace of star power from these stones.

"Yue Er stopped here." Shui Bingyan said.

Chen Xiang suddenly understood that the elder of the Star Moon Divine Race did not have the ability to track Yue'er. He had only guessed that Yue'er would come to this place because there were countless pieces of stars here that could very likely be related to Yue'er.

He could also tell from the fragments of the stars that these boulders had existed for a very long time. There were still traces of star power inside them. It was obvious that the stars that had fallen here were not ordinary stars.

"Yue Er, now is not the time to be grumpy. Something big has happened within the clan. Furthermore, you have been out for so long, and everyone has missed you. You must go back now."

Chen Xiang heard the old voice. The voice sounded extremely benevolent, it did not seem to be scheming at all.

"I'm not going back right now. I want to stay here for a while longer. Elder, go back and tell them that I miss them very much. When my mood is better, I will naturally go back."

Yue Er was also very clear, she didn't directly ask this elder about the Samsara Sacrifice, because she was very clear that if she asked now, there would definitely be no good ending, and she would definitely be caught. That was why she pretended that she didn't know anything and fought with this elder.

Seeing that Yue'er was adamant on not returning, this elder did not suspect anything, but was a little angry, because the time for the Samsara Sacrifice was about to come. If he could not kill Yue'er at that time, the living Yue'er would obtain those powers.

"Yue Er, no matter what, you must return with me today." The elder's expression darkened as he solemnly said, "If you don't obediently return with me, then I can only forcefully bring you back."

Although it was daytime, and the sky was only a blue sky, Yue'er could see a spirit. She suddenly meowed and said, "Before, did I do this many times? Every time I come here, I don't want to go back."

Hearing this, the elder's body trembled as he blankly stared at Yue Er, who was squatting on top of a black rock. Yue Er wagged her tail, continuing, "This is my sudden feeling, this feeling is very familiar, it is as if I have experienced it many times."

Chen Xiang was also very nervous at this moment. If Yue'er said something like that, this elder would definitely strike with killing intent.

"Come back with me." After the elder recovered from his shock, he gave a loud shout and waved his hand, forming a huge white net. Just as it was about to envelop Yue'er, the black stone that Yue'er was sitting on turned red and burst into a blinding red light.

Chen Xiang, who was standing far away, was extremely shocked.

"Star Blood Shield." The elder shouted in alarm. The net he released was empty, and he didn't catch Yue'er. At this moment, she was squatting on another black stone.

Yue'er lightly said, "So this is the Star Blood Shield. It's a very familiar name."

Chen Xiang, who was originally very nervous, was now secretly overjoyed. It could be seen that Yue'er's memories were gradually recovering.

"This is happening again." It seemed that they had already experienced this before. Yue'er would eventually awaken some memories before the arrival of the Samsara Sacrifice.

Yue'er suddenly asked in a mocking tone, "How many more days until Samsara Sacrifice comes? All these years, you have carried on so many times yet you only have this little power. You all are useless. I really have died so many times for nothing."

Hearing Yue'er's words, the elder was surprised at first, but after thinking about it carefully, Yue'er did not awaken her memories, so her knowledge of the Samsara Sacrifice should have been told to her by someone else.

"Who told you these things? Since you already know about the Samsara Sacrifice, then I don't need to hide it anymore." The elder took out a disk that looked like an incredible treasure. "Only the few of us elders and clan leaders know about the Samsara Sacrifice. I am very curious, who exactly told you?"

"Did you believe what All-beast Divine Lord told me?" Yue'er laughed coldly, "Wu Cang, you people have been here for so many years, don't tell me you don't feel the slightest bit guilty?"

"No, because your sacrifice will allow us to obtain great power, and not long after, all of us will become Divine Lord." The Elder called Wu Cang said expressionlessly: "But we will thank you in our hearts. This is

because without the Samsara Sacrifice, we will definitely not be able to break through and would only be eliminated. Using you, Xingyue, to obtain powerful strength is a tradition of the Star Moon Divine Race for many years."

Yue'er said angrily: "The only one who benefits is you, right? It has nothing to do with the entire Star Moon Divine Race."

Wu Cang scoffed, "Who said there isn't. If not for our power, how would Star Moon Divine Race be on equal footing with the other three Great God Clans?"

Yue Er's eyes suddenly turned red as she shouted, "If you don't kill me that many times, with my current strength, let alone being on equal footing with the other three god race, we won't have a problem forcing them to surrender."

"It is precisely because you are strong that we want to kill you even more. Your rise will only threaten our position." Wu Cang said cruelly as he threw out the disk in his hand.

### [Chapter 2003](#)

The moment the disc flew out, it shone with a white light, shining on Yue'er's body. Yue'er originally wanted to use the Star Blood Shield, but who would have thought that after the white light shot over, it had turned into a small white cage.

This cage was created by Divine Lord Xingyue and the few elders years ago and was specially designed to deal with you. We have used it many times over the years, and every time, you were unable to escape. Don't worry, when we kill you will not feel any pain. Wu Cang walked over and picked up the cage as he laughed.

It was obvious that during all these years, Yue'er had not been obedient until now, which was why she refined such a magical equipment specifically to deal with her. Yue'er, who was trapped in the cage, struggled and screamed, but couldn't come out.

Yue'er could use the power of the Space Laws, but she couldn't use them in her cage right now.

"The Samsara Sacrifice is about to start. There are still ten days." Wu Cang lifted up the cage, and laughed at Yue'er: "Little darling, behave yourself, and take the chance to enjoy it properly, after a while, you will forget about all these."

As long as they completed Samsara Sacrifice, and waited for Yue'er to be reborn, they would take away this memory and let Yue'er continue to live as she had in the past. Yue'er wouldn't know either, and the clan members inside Star Moon Divine Race wouldn't notice.

This meant that Yue'er's memories would be searched once, and everything regarding her and Chen Xiang would be exposed by then. This was something Yue'er didn't want to see happen, and what made her heart ache was that she didn't want to lose the memory she had with Shui Bingyan, Chen Xiang, and the others. This memory was extremely precious to her.

"BingYan, do it." Chen Xiang sent a sound transmission to Shui Bingyan, and she was ready for it. Upon hearing the sound transmission from Chen Xiang, she immediately used her strongest power, and her entire body erupted with blue light.

Wu Cang and Yue'er both suddenly sensed an extremely terrifying icy cold power. After Yue'er sensed this familiar aura, she was ecstatic in her heart, but she was also a little worried, because she knew Wu Cang's strength. She was worried that Shui Bingyan wouldn't be able to handle it.

Shui Bingyan and Wu Cang were separated by a long distance, but Shui Bingyan was able to use a very mysterious method to seal Wu Cang's wife with ice just a short distance away from him.

Chen Xiang took advantage of this moment to retrieve the cages that held Yue'er. Then, he quickly teleported away with Shui Bingyan.

Just as Chen Xiang had teleported away, a very strong explosion occurred at the place he was originally at, and in an instant, it turned into a huge crater.

Shui Bingyan's ice seal could only freeze Wu Cang for an extremely short period of time, but it was enough for Chen Xiang to save Yue'er.

"I can beat him." Shui Bingyan said in a low voice.

"We can't fight him even if we can. Our goal is to save Yue Er." Chen Xiang brought her and teleported. Although Shui Bingyan said that, but after the fight breaks out between Shui Bingyan and Yue Yang, maybe the elders from the Star Moon Divine Race will come to support them. At that time, Shui Bingyan will not be able to fight everywhere.

Chen Xiang was very confident in his escaping abilities, adding that he had concealed his own presence, that Wu Cang was definitely unable to discover him. When he was near Shui Bingyan, Wu Cang did not notice anything, but what infuriated Wu Cang the most was that he did not know who saved Yue'er, nor did he leave any trace of his presence behind.

Three days had passed, and Chen Xiang did his best to teleport for three days. He had already returned to the Supreme Divine Palace, but he did not go there because he felt that it was not safe enough.

In the basement of the Tenth Dan Hall, Chen Xiang took Yue'er out from the cage.

"This is great, I have this thing that is specifically meant to catch you in my hands. Let's see how they will catch you in the future." Chen Xiang smiled, looked at the round plate in his hand, and then put it away.

Yue'er threw herself into Shui Bingyan's embrace, and Shui Bingyan held her tightly.

"Chen Xiang, thank you. Littlemoon looked at her gratefully.

"There's no need to be polite. We're friends. Oh right, why did you go there? That old man clearly knew where you would go." Chen Xiang said.

"I don't know either. I just felt that I was suddenly going there, which was why I went there. Who knew that he would suddenly come?" Yue'er said, "When I went to that place, a very familiar feeling suddenly emerged in my mind. The Star Blood Shield that I used previously was also a memory that came from that time."

Shui Bingyan asked: "Then if you want to recover your memories, are you going to that place as well?"

That place had definitely been sent by Wu Cang and the others to search for it, so they definitely could not return there.

Yue'er shook her head. "I don't know either. Right now, I feel that even if I don't search through those memories, it doesn't matter. It's enough to have the memories of the two of you together."

Yue'er only felt that the memories she had with Chen Xiang and the others were real. Previously, the memories she had were all injected into others and had been modified.

When Chen Xiang returned, he had covered the cage with something, and it was at night, so no one had discovered him. Now, he definitely could not let Yue'er show herself casually, if not, the Star Moon Divine Race would definitely do everything he could to catch her.

Feng Yujie immediately returned to the tenth hall when he found out that Chen Xiang had returned.

"Yue Er." When Feng Yujie saw Yue'er flying over, he hurriedly wrapped her up. Then, he lovingly stroked her fur.

"I won't make you worry anymore." Yue'er and Feng Yujie's relationship was also very good, just like Shui Bingyan, as if they were relatives.

Chen Xiang laughed: "Fortunately, I can still make it to the competition."

Feng Yujie said: "Because multiple powers are fighting at the same time, there's a delay in time. The competition starts in a month, and there's still plenty of time."

"Chen Xiang, can you help me go to that place to find something? I feel that there is something extremely important there, so every time Samsara Sacrifice is about to arrive, that thing would always call for me to go to that place. Wu Cang and the others probably don't know about this. Yue'er felt that restoring her memories wasn't important anymore, but she desperately needed more powerful energy. She needed people she could protect right now, so Feng Yujie and Shui Bingyan might be implicated because they were together.

"Alright." Yue'er was also aware that it was very safe for Chen Xiang to travel alone.

In order to help Yue'er, Chen Xiang would definitely not delay it, and he hoped that Yue'er would be able to wield a powerful strength.

#### [Chapter 2004](#)

After Chen Xiang and Shui Bingyan saved Yue'er, Wu Cang, the second in command of the Star Moon Divine Race, started to attack crazily in the "Star Graveyard". He didn't know who saved Yue'er, but before he could even see her, the other party had disappeared without a trace.

Yue'er had disappeared, and furthermore, they already knew about the matters of the Samsara Sacrifice. Furthermore, there were still powerful friends helping her, which made the higher ups of the Star Moon Divine Race extremely worried, because if they didn't find Yue'er before the arrival of the Samsara Sacrifice, they might be facing Yue'er's revenge in the future.

"Wu Cang, you have always been extremely cautious, but at this critical moment, you made a mistake. Now, the little thing's whereabouts was unknown, and the only cage that you could grab was also

taken." An old man stomped his feet in anger. Although he was not as strong as Wu Cang, he could not help but scold Wu Cang when he was angry.

Wu Cang's expression was extremely ugly as he said in a cold voice, "You can't blame me for this. For all these years, you have often miscalculated the matters of the Samsara Sacrifice, and I was the one who saved them at every critical moment. This time, it's also your responsibility, and also the time of the Samsara Sacrifice.

"Samsara Sacrifice's time is unstable, how could it be so easy to calculate? Back then, it was also because of the frequent miscalculations of the Star-Moon Divine Lord and the others that they refined that cage in order to catch the little thing more easily. Now that the cage is gone, even if we find the little thing, it would still be difficult to catch it." The old man retorted, "Calculating the time in the Samsara Sacrifice is originally uncontrollable, but you grabbed onto the little thing so easily. You made a mistake on this matter, it's your responsibility."

If something were to happen, they would not think of a way to solve it. Instead, they would criticize one another and evade responsibility. Compared to them, they were all worried that they would be blamed by that Clan Chief.

"Don't tell this to the Patriarch for now. If he knows that Lil Thing and the cage have been lost, we'll all be in trouble." Wu Cang also knew that now was not the time to argue, so they had to hurry up and think of a way to get Yue'er back.

The old man said, "What can you do? We don't have any leads right now. There are too many gods that are using the power of the ice. Where are we going?"

Wu Cang said: "To the Supreme Divine Palace, Lil Thing went to the Supreme Divine Palace earlier, investigate who she has been in contact with, and then start from there. Go with the rest of you, Supreme Divine Palace's Mu Chen is famous for protecting Lil Thing, at that time, even if you find out who is related to Lil Thing, I think he will protect you, for the sake of protecting a little imp, he would definitely form a huge grudge with the Prince Divine Lions."

As one of the God Clans, they definitely knew about it. For them right now, the Supreme Divine Palace was the only clue they had, even if it was Mu Chen who offended the Supreme Divine Palace, they would have to do it.

After all, if they were to face the strong experts of the Supreme Divine Palace alone, they would feel unconfident. Wu Cang did not go, but rather, stayed in the Star Graveyard. Every time the Samsara Sacrifice was about to start over the years, Yue'er would always come to this place.

He had this doubt a long time ago, but he could catch Yue'er in the past and search her memories for information. However, this time, Yue'er ran away, so he decided to carefully explore this Star Graveyard to see what secrets were hidden here.

... ..

Chen Xiang rested inside the Supreme Divine Palace for a day, then left to head towards the Star Graveyard. Originally, Shui Bingyan wanted to go with him, but he was still somewhat worried, so he let

Shui Bingyan accompany Yue'er. After all, Shui Bingyan was very strong, and she said that she could fight with the hall master herself.

Before he left, Chen Xiang had also learned something about that place from Yue'er. Yue'er had told him that that place was called the Star Graveyard, and was extremely famous in the Star Moon Divine Race. It was just that according to the legends, there were many stars that had appeared in that place for unknown reasons, and had existed there for many years.

But Yue'er had said that there was something there that was calling her, which was why she had asked Chen Xiang to look for it.

It took Chen Xiang five days to reach the Star Graveyard. He didn't need to flee, he also slowed down when he came, and started to conceal himself when he was near the Star Graveyard. He could sense the remnant of an aura in the surroundings from afar, which was the result of Wu Cang's reckless attacks when he was angry.

"This old fellow should still be here." Chen Xiang was extremely cautious. He released his probability divine soul and flew into the air, then looked down at the ground. Soon after, he discovered that Wu Cang was sitting on top of a large black boulder.

Yue'er also didn't know where the thing that was calling her was, so Chen Xiang needed to search for it bit by bit. It was extremely difficult, not to mention that Wu Cang was still at that place.

Chen Xiang did not enter the Star Graveyard. He was worried that he would be discovered by Wu Cang.

Two days had passed and Wu Cang still hadn't left. He had already exchanged for a few large rocks, and he had even broken quite a few of them.

"What is he doing? Is he looking for something?" Chen Xiang was shocked, he did not wish for Wu Cang to find the thing that called Yue'er.

Chen Xiang couldn't care so much now, he quietly entered the Star Graveyard. He didn't know how to look for it, he could only use his own mystical techniques.

The Chaos Divine Eye and the Source Spirit Eyes allowed him to see things that were difficult to see with his naked eyes. He had just used the Chaos Divine Eye, but he did not discover anything, and after using the Chaos Divine Eye to search for more than two hours, he did not find anything, and then used the Source Spirit Eyes.

"I wonder if the Chaos Divine Eye and the Source Spirit Eyes can be merged together." Chen Xiang's heart stirred. He immediately used the Philosophic stone and began to comprehend the two methods, he wanted to find a fusion point from within.

"Let's leave this place first, we don't want any disturbance when we merge together." Chen Xiang immediately left the Star Graveyard. Before he left, he also paid attention to Wu Cang. This Wu Cang was still looking for something, but he did not discover anything.

After leaving the Star Graveyard, Chen Xiang once again calmed down and tried to comprehend the two cultivation techniques used to cultivate the eyes. The two techniques had something in common, but the usage of the two techniques were different.

## [Chapter 2005](#)

Although Chen Xiang was far away from the Star Graveyard, he could still hear waves of muffled booms that were accompanied by the shaking of the earth. It was clear that Wu Cang was smashing apart the black boulders, wanting to see what was hidden inside.

Wu Cang also lost his patience. Previously, he was still probing with the stones, but after more than ten days, he did not discover anything, so he was now floating in the air. He used his powerful strength to destroy a large area, shattering the pieces of the stars.

Chen Xiang was very worried that Wu Cang would discover something, and right now, he had already made progress on the two methods of fusing the Chaos Divine Eye and the Source Spirit Eyes.

He was immersed in the cultivation method combination practice, and two days had passed before he knew it. At this time, the sky had just brightened. He opened his eyes and faintly smiled. "He should have succeeded."

When he was in the forest, he immediately used this newly merged technique to look around him. When he saw the trees, he could clearly see the energy circulating and the water circulating inside the trees.

"I didn't consume too much energy, and now I have directly consumed my Six Realms' Power. Moreover, I have also fused the effects of the Chaos Divine Eye and the Source Spirit Eyes. Other than that, I can see much more clearly than before." Chen Xiang closed his eyes and stopped the technique.

"Let's call it Dao heart Eye." Because when he was looking, not only did he use his eyes to look, he also used his heart to look.

Chen Xiang familiarized himself for a moment, and then activated Dao heart Eye once again. This time, he was not only startled, because when he used his full strength, he could actually see all sorts of different colored things around him.

Some were ribbon-spinning, some were spiraling, some were globes, some were pulsing like flames, some were flowing like a river, flowing in all directions, and some were like a suspended spider web that covered the entire land.

After activating the Dao heart Eye with all of his strength, the entire world had fallen into this multi-colored world. He only felt that when he went to another world, he would be surrounded by all kinds of strange shapes and colors, with floating objects in all four directions.

"This should be the divine energy of the fire attribute." Chen Xiang looked at the small, flickering clusters of flame floating back and forth. It was pitifully few in number here, especially when compared to the large amount of blue mist.

Chen Xiang used his fingertip to absorb a bit of it, and he could feel that it was water-attributed. No wonder Shui Bingyan was so powerful, in this world, water-attributed energy was the strongest.

There were originally only a few types of elemental energy in the world, but over the years, they had undergone various collisions and fuses, resulting in the birth of all sorts of elemental energy.

"If I were to compare them, perhaps they would be able to give birth to a Dao spirit." Chen Xiang saw an extremely glaring flame in the distance. It was a ball of fire type divine spirit Qi that had gathered together and was gradually fusing together, preparing to merge into one.

He kept his Dao heart Eye and then closed his eyes to take a few deep breaths. To be able to see so much energy of this world and this existence made him extremely excited.

"We can leave for that place now. That old fellow probably hasn't found it yet." Chen Xiang could still hear the rumbling sounds, he had not found the thing that was hidden inside the Star Graveyard.

Chen Xiang quietly snuck over and arrived at the Star Graveyard. Originally, there were many gigantic shattered rocks here, but they had all become small now and had already been flattened by more than half of Wu Cang's effort over the past few days.

When Chen Xiang arrived, he immediately used the Dao heart Eye. He split the Dao heart Eye into three layers, and the first layer allowed him to directly see through the things that were moving inside, such as the paths of energy flow inside the plants, while the second layer allowed him to see the Spirit blood s and the like. This was only used when refining pills.

And the third level, was where one could see the natural power of the Great Dao in the world, just like before.

Now that he was using his second layer of strength, he could see things that could be seen on the second layer. Moreover, he needed to see things even more thoroughly than his Source Spirit Eyes, and he felt that it was enough to find the things that were hidden here.

When he used the second stage of the Dao heart Eye's power, he could see that there were many white and light yellow floating clouds. These faint clouds of air were originally made from the power of the stars, and were originally hidden inside the black boulders.

He could clearly see the various large and small black rocks on the ground. The stones seemed to have blood vessels and meridians, and a faint white or yellow energy flowed within them. The "veins" in the rocks would intertwine, so they could circulate within the rocks.

What Chen Xiang found strange was that although these stones had already been broken, there was still a large amount of star power that had yet to flow out from within the stones and continued to circulate.

It was not easy to find things inside stones of all sizes, furthermore he had to avoid being discovered by Wu Cang.

This Star Graveyard was also very large. Wu Cang was currently destroying them on the other side, while Chen Xiang was searching this area. Even though he did not find them, he had discovered some strange phenomena.

For example, the star power inside the stone would not flow out of the stone, unless the stone was completely broken down. For example, the star power inside the stone would not flow out of the stone, unless the stone was completely broken down.

After careful observation, Chen Xiang found another shocking phenomenon. It was that a large amount of star power that was scattered all over the place was revolving at an extremely slow speed, just like the Milky Way.

If he did not use the Dao heart Eye to observe carefully, it would be difficult to discover it just by relying on his senses.

"This should be a circular whirlpool. If that's the case, then the center of the whirlpool must be hiding something, which is why it can cause so many stars to revolve." Chen Xiang was suddenly secretly happy in his heart. If it was really like this, then it was very likely that the thing was not hiding inside the rock. Instead, it was underground, and it was even more likely that it was underground.

It was because the object could produce a weak force to drive the star power to rotate, but the speed of the rotation was extremely slow. It was obvious that the power of the object was obstructed.

After Chen Xiang observed the rotation of the whirlpool, he found a direction and walked towards the center. As long as he got near, he might be able to see the center of the whirlpool.

"It's clear that he is absorbing the star power, but the rate at which he is absorbing it is very slow. Wu Cang is the second in command of the Star Moon Divine Race, so he should be the one cultivating the star power as well, but he did not realize that the power he had obtained was all from the Samsara Sacrifice. This has caused him to gradually lose his most acute perception of the star power." Chen Xiang guessed that when he got closer, he could already see the center.

## [Chapter 2006](#)

Chen Xiang made some important discoveries, but he did not let his guard down, and continued to be cautious of that Wu Cang. Just as he neared the center of the vortex, he sensed that something had entered his spatial perception. Other than Wu Cang, there was no one else here.

When Wu Cang came over, he immediately turned into a black stone.

"Who is here? Although you have hidden yourself well, I have already discovered you." Wu Cang arrived here very quickly, but he did not discover anything.

He was sure that he wasn't mistaken. Just now, he had sensed traces of aura fluctuations.

being so cautious was within Chen Xiang's expectations, so he was not surprised, he was already lying quietly on the ground like a rock, and Wu Cang did not notice him.

Right now, Chen Xiang was close to the center of the vortex of star power. Even though Wu Cang had arrived here, he did not discover the vortex.

"Could it be that my senses were wrong?" Wu Cang muttered as he looked around him. The surroundings were completely flat and there was no way to hide, and there was even a trace of other people's aura, which he could clearly feel.

Wu Cang flew to another place to investigate, then became a smaller stone, controlling himself to float slowly towards the vortex.

Not long after, Chen Xiang arrived at the center of the whirlpool. Upon arriving here, as long as one gave it a careful sensing, one would realize that a weak portion of the star power was being slowly absorbed by something below.

Just as Chen Xiang was about to leave, Wu Cang flew back.

"No wonder I sensed movement here just now. So the star power here is being gathered by something. It's just that because it's too weak, I didn't notice it before." Wu Cang descended to the ground and looked at the center of the vortex with furrowed brows.

In truth, there was nothing here, it was just that when Chen Xiang used the Dao heart Eye, he could see the movement of the star power here, while Wu Cang could feel it through his senses.

Chen Xiang scolded himself in his heart. Right now, Wu Cang was right beside him, and Wu Cang did not know that there was a rock that had turned into a person right next to his feet.

The center of Wu Cang's palm faced that whirlpool, and condensed into a ball of white light. After a "boom" sound, the ground trembled, rocks and dirt flew everywhere, and the place turned into a huge pit.

Chen Xiang anxiously teleported high up in the sky. Looking down from the sky, he could see that there was a triangular slab of stone within the pit. There were Spirit grains on it and it was emitting a weak light.

After the stone tablet was exposed, large amounts of star power crazily flowed into it, causing the Spirit grain on the triangular stone tablet to emit even more intense rays of light.

"The Stellar Hell ..." Wu Cang shouted in alarm, and his face was full of fear.

Chen Xiang also felt that something was wrong. Seeing Wu Cang fleeing so quickly, he immediately teleported as well. With how powerful Wu Cang was, to even fear this thing, it could be seen that this stone was extremely dangerous.

As the two of them were fleeing, they suddenly felt a suction force on them.

It was also at this time that Chen Xiang, who had somehow turned into stone, turned back into his human form.

"Who are you?" Wu Cang saw Chen Xiang, because both he and Chen Xiang were being pulled towards the triangular flagstone.

Chen Xiang did not reply, but did his best to activate the Six Realms' Power, to help himself break free from the suction force, because if he continued absorbing, he would be swallowed by the stone.

"Was that little thing saved by you? What a clever concealment technique. I was by my side the whole time, but I didn't notice it. Don't struggle anymore, we'll definitely be sucked in." Wu Cang's face became sinister: Although I'm being sucked in, I'm not dead. At most, I'll just be trapped inside, but before I go in, I'm going to kill you.

Wu Cang raised his hand and released a powerful white light towards Chen Xiang. When Chen Xiang flew over, he felt a scorching Qi and became terrified.

However, this force was absorbed by the triangular flagstone in the middle of the process.

Chen Xiang heaved a sigh of relief. He did not have the slightest understanding towards that stone tablet. All he knew was that Wu Cang had called it "Star Hell".

The Triangle Slate absorbed the force that Wu Cang used to hit it, causing an even stronger suction force, allowing Chen Xiang and Wu Cang to be pulled towards it quickly.

Approaching the stone tablet, Chen Xiang's vision went black, and then appeared in a world with a dusky sky.

After swallowing Chen Xiang and Wu Cang, the Triangle Slate sucked all the broken rocks and soil over and buried himself deep underground again, as if he had a mind of his own.

"Old bastard, if you hadn't violently blasted that thing out, we wouldn't have come to this damned place." After Chen Xiang arrived at this place, he realized that his Six Realms' Power could not leave his body at all. As long as it left his body, it would immediately be absorbed.

Wu Cang was also like this, as he was from the Star Moon Divine Race, and naturally trained in the power of the stars and moon, which was very strong as well, and he was still too godly with about twenty Divine Deity. The power of the stars and moon in the Divine Sense Sea was very vast, but no matter how hard he tried, the moment the power of the star and moon left his body, it would immediately lose control and sink into the ground beneath his feet. If a large amount of the power of the stars and moon appeared in the Divine Sense Sea, it would all be drawn out of his body.

"Human brat, what sort of origin do you have? After saving this little thing, you actually came back to search for the things hidden here. What secret did this little thing tell you?" Wu Cang was also very angry at this moment. He was several tens of meters away from Chen Xiang, and when he asked, he had already rushed towards Chen Xiang with quick steps.

Wu Cang could not use his valiant power of the moon and stars, but he was extremely confident in the strength of his own body. His current speed was also very fast, and like a gust of wind, he flew over, and his hand that was like a sharp and powerful eagle claw, fiercely grabbed towards Chen Xiang's throat with lightning speed.

"Old bastard!" let out a cold laugh. His fist was as fast as lightning, the Supreme god bone allowed his body to wield a strong and dense power, his reaction was also extremely fast. He dodged in a flash, and smashed his fist onto Wu Cang's face.

Bang! Chen Xiang's fist was extremely ruthless as it smashed from the side into Wu Cang's skinny old face, causing a loud sound to ring out. Wu Cang's teeth were also knocked out a few times, and he was sent flying while spitting out blood.

Wu Cang never thought that the human Chen Xiang would have such a strong and robust body. With such power, he rarely fought with humans and usually, he would only fight with beasts, so in his eyes, humans were usually many times weaker than beasts.

But now, Wu Cang's attack that was launched at such a fast speed was actually avoided by Chen Xiang. At the same time that Chen Xiang dodged, he gave him a heavy punch.

## [Chapter 2007](#)

"You are not human." Although Wu Cang punched Wu Cang, he could still quickly crawl back up and cover his face as he shouted towards Chen Xiang. Then, he spat out the blood and broken teeth in his mouth.

"You're not human, don't think of humans as weak." Chen Xiang snorted. Wu Cang was an elder of the Star Moon Divine Race, a strong Star and crescent beast.

Wu Cang found it hard to believe and rushed over once again: "Impossible, a human's body is not that strong. What kind of beast are you?"

Previously, Wu Cang had been careless and got hit by Chen Xiang because of that. Now, he knew that Chen Xiang also had a decent amount of strength, so he was on guard.

Being unable to use Six Realms' Power, Chen Xiang's power had been restricted greatly, but he felt that it was still possible to deal with this Wu Cang. Back when he was at Nine Heaven World, he had already learnt a few offensive techniques that specialized in using the power of the fleshly body.

This time, Wu Cang's attack was changed to a palm strike. He did not have any sort of palm technique, but his palm strike's speed was extremely fast, and in the blink of an eye, it had already landed on Chen Xiang's body.

This time, Wu Cang struck Chen Xiang, his palm was extremely strong, just as he was about to punch out, Chen Xiang suddenly grabbed his wrist.

"You ..." Wu Cang was startled, because this was not what he expected. Originally, he thought that if he struck Chen Xiang with his palm, Chen Xiang would be injured to a certain degree, and that he would be able to defeat him in one go.

When Chen Xiang grabbed Wu Cang, he sneered and then directly slapped Wu Cang with his palm.

Pa!! With a crisp sound, Chen Xiang gave Wu Cang a very vicious slap on his face. His old face was swollen just a moment ago, and now he had even slapped it ruthlessly.

"Old bastard, this is for Yue Er." When Chen Xiang thought about Yue'er, he became extremely furious. He kicked at Wu Cang's abdomen, causing him to scream in pain.

"Tell me honestly, where did Yue'er come from and why did Divine Lord Xingyue use such a method to deal with her." Chen Xiang's finger was like a sword, instantly tapping dozens of times on Wu Cang's body, causing the Bones of his veins to be broken.

Although Chen Xiang asked, he did not give Wu Cang the chance to reply, as he frantically slapped Wu Cang's face, to the point where Wu Cang was stunned.

"Roar ..." Suddenly, a white light flashed on Wu Cang's body, and turned into a golden tiger, roaring madly at Chen Xiang.

"So his original form was a tiger." Chen Xiang was not afraid in the slightest as he jumped over. Both of his feet kicked frantically, and the shadows of his feet were like a torrential storm.

When Wu Cang transformed into a tiger, his body became even bigger and clumsy. Furthermore, after being beaten up by Chen Xiang, his reaction became even slower, and he was unable to dodge at all. In just an instant, the tiger head was kicked by Chen Xiang over a hundred times, until he fell to the ground.

Wu Cang then transformed back into his human form, wailing as he laid on the ground and said angrily: "Human brat, you will definitely die a horrible death. Don't think that Yue'er can find yourself by staying away from this Samsara Sacrifice, I'll tell you this, if Yue'er doesn't sacrifice herself like last time, when the Star Moon Ancestor Emperor revives, let's see how you handle this."

"Who is the Star Moon Ancestor Emperor, speak clearly." Chen Xiang grabbed his hair and stared at him.

He is the father of the Divine Lord, he is much stronger than the All-beast Divine Lord. He has been cultivating in deep sleep, and every once in a while, we have to conduct a session of the Samsara Sacrifice to allow him to absorb a large amount of the star and moon's energy. At that time, we would only be able to absorb a little. Wu Cang laughed sinisterly: "If Ancestor Emperor does not have the power, he will definitely wake up. Even if All-beast Divine Lord revives, it won't be able to stop him."

Chen Xiang's expression became heavy. He believed what Wu Cang had said, because he remembered something big that Huang Jintian calculated using the Heaven extended method, something that would change the flow of the world because of him.

It was because he left Yue'er that the Samsara Sacrifice could not continue. This would wake up the so-called Star Moon Ancestor Emperor, and at that time, the world's situation would definitely change greatly.

"You must be from Supreme Divine Palace. You don't want the entire Supreme Divine Palace to be destroyed, so you better hurry up and think of a way to have Yue'er obediently return ..."

"Wishful thinking." Chen Xiang slapped him, "What's wrong with this Star-moon Hell? I want to get out of here as soon as possible."

Wu Cang was scared of Chen Xiang's beating. He himself was scared of death and was also afraid of pain, so he could only cooperate with Chen Xiang obediently.

"This is a special technique that our Star Moon Divine Race used to imprison moon and star creatures. If it violates the laws, the moon and stars would land and use this kind of stone to imprison these moon and star creatures. And we accidentally saw it, so we were sucked in." Wu Cang said.

Chen Xiang felt that this was extremely unbelievable. "Who made this rock, it couldn't have been born naturally, could it?"

Wu Cang said: "This was made by the Star Law Divine Realm, I presume that it was used to imprison us back then but for other reasons, it did not succeed. Yue'er should have come over at that time, she should be the law enforcer, but she was caught by the Star Moon Ancestor Emperor and used by the Star Moon Ancestor Emperor, that's why the Samsara Sacrifice appeared."

Star Law Divine Realm, these Divine Nations were already very powerful in Chen Xiang's eyes, but now this Star Law Divine Realm looked even more terrifying.

"Don't even think about it, we can't get out." Wu Cang sneered: "We will only die here, this way we can avoid the anger of Ancestor Emperor after he wakes up."

Chen Xiang shook Wu Cang to the side, then grabbed a handful of soil. He realized that the soil here was a little different, as it actually contained a very dense amount of star power, just that it could not be absorbed.

"Old bastard, I remember the last time you captured Yue'er, didn't you say that there were still ten days until Samsara Sacrifice? It should have already been ten days since then. Chen Xiang said.

That's when our Samsara Sacrifice begins, just by being prepared, we have to use over ten days to set up the array, and we also have to let a large portion of the power of the stars and moon rush into the Ancestor Emperor's underground palace, so right now there should be another seven days until the power of the stars and moon descends, it's already too late, the Ancestor Emperor will definitely wake up, no one can stop us. Wu Cang laughed.

"You can't be that absolute. The Ancestor Emperor you all speak of is just a fugitive from death who violated the laws of the stars and moon."

The sudden voice that came from the sky startled Chen Xiang and Wu Cang. There was someone else in this empty prison.

### [Chapter 2008](#)

From the way he spoke, the person who spoke should have a very good understanding of the Ancestor Emperor. Chen Xiang rejoiced in his heart, this way, he would have a higher chance of getting out.

"Who is it?" Wu Cang shouted, "Who the hell are you? Weren't you supposed to use this Star Moon Hell to seal the Ancestor Emperor?"

Chen Xiang had already heard the sound of footsteps, he immediately turned his head to the side, there was a faint white mist, and someone was quickly running over from that direction.

"Very quickly." Chen Xiang was shocked, in a few seconds, the man rushed over from that far away location, you have to know that this place can only use the power of the flesh, and that speed was already close to teleportation.

This was a middle-aged man with long, messy hair. He had thick eyebrows and big eyes, a full beard, and he was extremely tall. He wore gray clothes, and had a stone sword at his waist. It was made very rough.

"You ... "Who are you?" Wu Cang was frightened, the power of his flesh body was enough to tyrannize over him, and the middle-aged man looked even more terrifying.

"I am the first guest here. I am very happy that you all have come here. I very much welcome you all." The middle-aged man laughed out loud.

Chen Xiang cursed inwardly. He was not happy to be here.

"Just who are you?" Wu Cang asked.

This Star Moon Hell was prepared for me. After I was locked in here, I was sealed in a very large star, and then I seemed to have landed in some other place, but I don't have anything to do here, and as for the you mentioned, he should be my little buddy from Star Law Divine Realm. It's a pity that he didn't come in, but there are two more inside. The middle aged man patted on Chen Xiang's shoulder, making Chen Xiang feel pain.

Chen Xiang asked: "Senior, then do you know Yue'er? She is a cute little white cat."

So it turned out that this Star-moon Hell could hold many prisoners. The reason why this Star-moon Hell came here, was probably to bring in the Ancestor Emperor. However, there was an accident and so it did not succeed.

"Yue Er." The middle-aged man stroked his chin. "I've never heard of this name, but I do know about the cute little white cat. This little white cat is very famous for sending people into Star-Moon Hell. I already knew that she was going to bring in a big guy."

Wu Cang sneered: "She is dealing with our Ancestor Emperor, it is normal for her to fail because our Ancestor Emperor is so powerful."

Chen Xiang had guessed it many times, but he didn't think it would be like this.

"She has failed, but it is definitely not because of your Ancestor Emperor. Your Ancestor Emperor's strength alone is not enough to make her fail, and there are other reasons that I am not too clear about." The middle-aged man said, "Your Ancestor Emperor is an ox. Although he is not very famous, I have heard of him before."

Wu Cang did not reply, he was afraid of angering the middle aged man, and getting beaten up again. Right now, he was the weakest among them, maybe when Chen Xiang was bored, he would still beat him up. Wu Cang thought to himself that he would have to stay here for a long time, and would get beaten up any time, causing his face to turn green.

"Senior, why were you brought in?" Chen Xiang asked curiously: "You don't look like an evil person either."

"It was just an accident that I accidentally killed an important figure inside the Star Law Divine Realm and was brought inside. At most, I could have just gone into exile, but I thought about it and decided to obediently accept the judgement of the Star Law Divine Realm." The middle-aged man laughed and said, "I'm not bad indeed. It's just that sometimes I'm impulsive and often cause trouble."

Chen Xiang also laughed: "I also cause trouble quite a bit, I have been here for quite some time now, little brother Chen Xiang, I wonder what big brother's name is?"

"Yang Tianyi, you brat, although you don't seem strong, you are actually so terrifying when it comes to beating people up." Yang Tianyi could obviously tell that Wu Cang's cultivation was higher than Chen Xiang's, but his body was not as strong as Chen Xiang's. He was weaker than Chen Xiang by a lot, to the point that he was oppressed by Chen Xiang.

Chen Xiang chuckled before asking, "Big Brother Yang, do you have any way of getting out of here? I can't stay here forever."

Yang Tianyi sighed: "There's no way out, my strength is also very strong. If the Ancestor Emperor the old man spoke of came, I might be able to kill him immediately, but I have no way of leaving this place."

"I don't believe you." Wu Cang said softly. He was extremely confident in his Star Moon Divine Race and did not believe that he would be defeated instantly by this sloppy-looking burly man.

Yang Tianyi only smiled slightly and said to Chen Xiang: "Don't worry, even though you can't get out, if the Enforcer knows that the people here shouldn't be locked up, then you can get out. This Star-moon Hell should be managed by that little white cat, only she can let you out."

"Really? But I can't get in touch with her right now." Chen Xiang originally thought that there was some hope, but after thinking about Yue'er's current situation, she couldn't help but let out a long sigh.

Although her memories have been erased, every once in a while, Xingyue will give her the power to be reborn, and at that time, she will also get new memories. As long as she recovers her memories and knows that there is a Star-moon Underworld here, then it will be fine. Yang Tianyi laughed: "That's why you don't have to worry about how terrifying that Ancestor Emperor is."

Wu Cang grunted softly, because he understood that Yang Tianyi was right. No matter how strong their Ancestor Emperor was, they would be dragged in no matter what. When Yue'er recovered her memories, she would first find this Xing Yue Hell and then use it to deal with their Ancestor Emperor.

Seeing Chen Xiang's face relax, Yang Tianyi continued, "Although you don't have to worry about that Ancestor Emperor, you still have to pay attention to who defeated that little white cat and let that whatever Ancestor Emperor take advantage of you."

This was probably something only Yue'er knew, what Chen Xiang could do now was to patiently wait here.

Yang Tianyi suddenly grabbed Chen Xiang's arm and pinched it hard, causing Chen Xiang to scream out in pain.

"Brother Yang, what are you doing?" Chen Xiang shouted in pain.

"You don't have Bones, I thought you did. Sorry." Yang Tianyi laughed awkwardly: "However, your body is still very scary. You can possess such a degree of power without Bones. It seems that you have definitely gone through a lot of tough training over these years."

"Big Brother Yang, don't tell me you have Bones." Chen Xiang asked curiously, he was a little excited, because this was the first time he had met someone who possessed Bones.

"Of course there is. If I didn't have Bones, I would have died a long time ago." Yang Tianyi laughed: "Do you want to cultivate or not, I can help you."

## [Chapter 2009](#)

Of course, Chen Xiang wanted to cultivate Bones, but the conditions to cultivate Bones were extremely harsh, just like Wu Cang. He definitely did not have any Bones right now, otherwise, he would not have been beaten so badly by Chen Xiang.

"Is it easy to cultivate it?" Chen Xiang wanted to understand first. If it took too long, he did not plan to cultivate here, because there were still some important things he needed to do after he left.

Cultivating Bones is the hardest. Some people would rather give up on raising their cultivation and cultivate their Bones as well. Yang Tianyi said.

Wu Cang mocked from the side: "This brat, is he even strong enough to cultivate Bones? Judging by his appearance, he should only have two Divine Deity s in his hands, which is too far away."

Cultivating Bones has nothing to do with Divine Deity, it's mainly about the foundation of the body. Although your Divine Deity is more than his, you are far inferior to him in terms of body, so he has the conditions to cultivate Bones now. Of course, this does not mean that he will definitely be able to cultivate it. Yang Tianyi said to Wu Cang very seriously.

Wu Cang stopped talking. The strength of Chen Xiang's body had indeed made him feel afraid, and if Chen Xiang cultivated his Bones again, it would definitely be terrifying in the future.

Yang Tianyi took out a pile of flowers and plants, which he placed in a broken basket, and said: "If there's fire, then it's best that I refined it."

Chen Xiang carefully looked at the things in the basket and said in shock: "These herbs are the Bone level Dan's medicinal ingredients."

Yang Tianyi replied with an "oh". "You know the Bone level Dan too, and you can even recognize that this is the Bone level Dan's medicinal herb. You have seen the Bone level Dan before."

Chen Xiang laughed: "I am just a pill god, and am already able to refine Zhongpin Dan s. I have Bone level Dan s' medicinal ingredients, but I have not been able to gather them, because they are too rare."

Chen Xiang asked Feng Yujie to be in charge of the purchase, it had already been many days since then, but there was no news of him, he never thought that he would see all of the Bone level Dan's ingredients here.

"This is a low quality divine medicine, if it is a middle quality medicine, then the effects will be better, and eating it directly would also be fine. Of course, if it can be refined into a divine pill, then it would be easier for you to cultivate Bones." Yang Tianyi said: "Even though you are a Pill God, there is no way to release fire here, and you cannot refine pills."

Chen Xiang tried to release the Chuangzao fire but just as the flames appeared, the fire energy was suddenly dispersed and was completely absorbed by the strange energy in the place.

"I really can't." Chen Xiang sat on the ground and grabbed a handful of soil, and said: "All of this soil contains a very dense amount of star power."

Yang Tianyi said: "This dirt is formed from the power of the stars, but you can't absorb it, nor can you use it. This mud has been formed from the power of the stars, but you can't absorb it, nor can you use it."

The only thing he could use was his feeble divine intent, which could still be used to retrieve items from the spatial storage. Chen Xiang looked at the sand in his hands and said: "As long as my energy does not leave my body, I can still use it."

Yang Tianyi said: "That's good, but what's the use of not leaving your body."

Chen Xiang laughed: "I can concoct pills in the Divine Sense Sea. Although I have never concocted pills before, I feel that I can give it a try."

As long as one had the cultivation of a god, they would be able to change their Divine Sense Sea into their own storage space.

"The Divine Sense Sea refining pills is indeed a good breakthrough, but it requires a very large and stable Divine Sense Sea, can you?" Yang Tianyi's eyes also lit up, he had never thought of this method before.

The Divine Sense Sea looked very big when he looked at it from the inside, that was because his divine soul and Divine Deity were very small to begin with, and would compress even smaller after entering the Divine Sense Sea. Normally, he would only put in a few very small Storage magic treasure s and such, but he would need to put in a pill furnace, and that was also very unstable.

It had to be known that the Divine Sense Sea was very weak, especially in the insides. If the pill furnace exploded inside the Divine Sense Sea, it would seriously injure the Divine Sense Sea.

"No problem." Chen Xiang was not going to use that kind of cauldron to refine pills, he could directly use Magic method furnace s.

"Big Brother Yang, how many of these medicinal ingredients do you have? Bone level Dan's medicinal ingredients are extremely rare, where did you get them from?" Chen Xiang looked at the flowers and plants in the basket. The quality was not bad, but because he had stored them for a long time and did not pay too much attention to them, they looked a little lifeless.

"I still have a dozen or so. Back then, I bought a lot to eat, and after eating the Bone level Dan, I have kept them until now. If you want, you can take them all." Yang Tianyi said as he took out another big pile.

Bone level Dan s had a total of three types of medicinal ingredients, which were considered rare among the divine pellets.

Chen Xiang picked up a long blade of green grass, which was shaped like a flat band. On the surface, it was covered with very thin hair, and at the top of the tip of the hair there was a very fine granule, which emitted a very weak glow, this was called Heavenly Muscle Grass. After the first stage of maturation, it would be around nine feet long, and it would become a low grade divine medicine.

The Bone level Dan's medicinal ingredients could continuously evolve, so the Bone level Dan had an upper rank as well.

The second type was a pure black colored flower called the Blood Bone Divine Flower, where the stamens were like Bones s. Upon closer inspection, one could see that each stamen had something that looked like blood, and the petals also had vein-like patterns. If the petals were to be destroyed, a blood-like red liquid would seep out.

The last kind was also a flower, but the flower was special, its petals were red, while the heart of the flower was light colored, the special thing was the pattern on the flower's center, the patterns formed by the Spirit grain looked like a sad face, it was said that if the flower was full of vitality, the pattern on

the heart of the flower was a smiling face, so the flower was also known as the Seven Emotions Flower, it had seven human emotions.

"Can you succeed? If you can concoct a divine pellet, after eating it, your chance of cultivating Bones will be greater. If you can just eat it directly, then you can only try your luck." Yang Tianyi said.

Eating the Bone level Dan didn't guarantee that it could cultivate the Bones, but it was just that the Bone level Dan could summon an opportunity, and whether or not it could succeed all depended on him. It was said that the process of condensing the Bones was also very difficult, but to have the opportunity to condense the Bones was even more difficult.

Chen Xiang took out his own spirit liquid and dripped it on top of all of them, improving their quality. When the Seven Deity Flower turned into a smiling face, it meant that their current quality was the best.

"Big Brother Yang, is there a lot of this type of medicinal material in your place?" Chen Xiang had heard Yang Tianyi's tone just now, as if he was eating the Bone level Dan's medicine ingredients as food.

### [Chapter 2010](#)

Yang Tianyi came from that mysterious Star Law Divine Realm, which seemed to be stronger than Nine Gods Nation.

"More is not a lot, but as long as you have enough Shen Yuan stone, you can still buy them. At that time, I used all of the Shen Yuan stone I bought a lot, but I only bought three Bones s, so the ten batches of medicinal ingredients I gave you, the chances of you cultivating Bones were very slim." Yang Tianyi said.

When Wu Cang found out that Yang Tianyi possessed three Bones, he couldn't help but be alarmed. He knew what this signified, and adding the three Bones s in the Divine Sense Sea, the amount of energy that exploded out was extremely terrifying, but generally speaking, cultivation Bones would only be considered when one reached the peak of the Supreme God Realm. If Yang Tianyi was at the peak of the Supreme God Realm, cultivating three Bones out of him was unimaginable.

Seeing Wu Cang being so afraid, Chen Xiang secretly exclaimed in his heart, as he desired more to cultivate Bones.

"Big Brother Yang, I heard that you can at most cultivate up to nine Bones. If you could, how powerful would you be?" Chen Xiang asked with a look of yearning.

"Having Bones can only increase the strength of my physical body by a lot, but if the Bones is merged with a strong divine soul, then the strength will be even more terrifying. My current Bones doesn't have any divine soul, because I have only condensed my Bones here, so I can't go out, and I can't find a good divine soul to fuse with." Yang Tianyi said: "Other than this, there is another way. It is to integrate the divine soul that you have cultivated into your own Bones, and you will also be able to obtain a very strong power."

This would allow the herbs to become more familiar with the environment of the Divine Sense Sea. It would also make it easier for Chen Xiang to refine them later, as they were Xiaping Dan after all, this was not difficult at all.

"Then why don't you just buy them directly? There should be a very strong Alchemist in the Star Law Divine Realm right." Chen Xiang asked.

In Star Law Divine Realm, not just anyone can sell divine pellets. There are also powerful forces that can sell divine pellets, and the moment it is found out that it is being sold privately, it would be against the rules of Star Law Divine Realm, and the result would be similar to me." Ling Yun laughed. When Yang Tianyi mentioned this, his face was filled with anger: "A single Bone level Dan's price was enough for me to buy over a thousand sets of medicinal herbs, so I went to many places and bought a large amount of medicinal herbs.

Chen Xiang was in disbelief. Yang Tianyi had actually been brought in because of this kind of thing.

"It's because I'm relatively strong that I wasn't directly killed. Instead, I was imprisoned inside. If they were to think of me one day, they might release me." Yang Tianyi laughed at himself: "At least I still have a glimmer of hope to get out of here."

Chen Xiang said: "Big brother Yang, I'm going to start concocting pills, help me keep an eye on this guy."

Yang Tianyi knew that he had to be extremely serious when concocting pills, and Chen Xiang was currently still in the Divine Sense Sea, so he needed to focus even more.

Chen Xiang had condensed a very small Magic method furnace inside the Divine Sense Sea. He was very familiar with using Magic method furnace to refine pills, and this also required a very deep level of control, so he was confident that he could stabilize the pill furnace inside the Divine Sense Sea.

He already had three divine soul, of which, the first one was on the small island in the middle of the Divine Sense Sea and the other two were hidden by him. Previously, he thought that he would need to use three divine soul to control them, but after trying it, he felt that it wasn't that difficult, it only required him some time.

When concocting pills, one would use the Original source refining and burn the medicinal herbs to a certain degree. Then, they would search for the Spirit blood s in the divine medicine and fuse them together.

Under normal circumstances, concocting pills would be a piece of cake for Chen Xiang, but in the Divine Sense Sea, it would be extremely difficult for him to use the Original source refining.

"Fortunately I managed to cultivate the Dao heart Eye, if I had used my previous Source Spirit Eyes, finding the Spirit blood would have been extremely difficult." Chen Xiang had to put in a lot of effort to get the Dao heart Eye to examine his own Divine Sense Sea, to carefully observe the various divine medicines among the Magic method furnace.

In order to ensure stability, Chen Xiang didn't use any fierce flames to burn them, so his progress was slower. Adding his first time refining this Bone level Dan, he didn't have much experience.

Ten days had passed and Chen Xiang suddenly saw the Seven Love Divine Flower's Spirit blood, while the other two divine medicine's Spirit blood still had not appeared yet.

"The Spirit blood appeared in the later stages of the training, so the other two should be the same." Chen Xiang judged based on the Seven Desire Divine Flower, and as expected, not long after, Spirit blood of the other two divine medicines appeared as well.

And following that, Chen Xiang faced an even more difficult trial, which was to fuse them.

"Merging and condensing pills are both extremely dangerous." This was because a furnace explosion usually occurred in these two stages. If he was outside concocting pills, there was nothing to worry about. At most, he would just be newly arrived.

But in the Divine Sense Sea, the moment he was exposed, his Divine Sense Sea would be severely injured, so there couldn't be any mistakes.

The Spirit blood of the three divine medicines were caught by his consciousness, and then slowly merged together. Because the Spirit blood was a fusion, the three Spirit blood with common characteristics quickly fused together the moment they came in contact with each other.

Once the fusion was successful, the Medicine aura could successfully fuse the three divine medicines. As long as he continued to control the flames well and maintain the firepower in the furnace to assist the Medicine aura and the medicinal powder to maintain an extremely active state, the fusion wouldn't be a problem.

Unknowingly, Chen Xiang took more than ten days to refine the pill, and there was still more than half a month until the start of the competition, so time was of the essence.

"I can only condense three pills in Divine Sense Sea, sigh." Chen Xiang sighed, if it was outside, he felt that it would not be a problem to condense five pills, but now, in order to steady himself, he could only do so.

After all the Medicine aura had fused into one, that cyclone was split into three parts, and then part of the other parts flowed out. This way, there wouldn't be too much pressure during the process of condensing the core, allowing it to remain stable.

The process of condensing the pill was also very long, it took an entire day.

Yang Tianyi was standing beside Chen Xiang the entire time as he stared closely at Wu Cang to prevent him from wreaking havoc. It was only when Chen Xiang finally opened his eyes that Yang Tianyi relaxed.

"Done." Yang Tianyi asked anxiously.

Chen Xiang smiled and nodded. Then, he took out three milky-white pills from the Divine Sense Sea.

Wu Cang saw this from afar and was shocked. He was actually able to refine three pellets in one furnace.

"Right, right, this is the Bone level Dan, you really refined it." Yang Tianyi looked at Chen Xiang with a face full of worship. If it was made outside, Yang Tianyi might not be surprised, but to be able to make it in this kind of place with a huge restriction was not something that anyone could do.

Chen Xiang laughed, "Brother Yang, you're talking nonsense. I really did refine it, didn't you see it too?"
