

Dan God 2071

[Chapter 2071](#)

In her opinion, it was extremely boring. What made her even more confused was that they had actually been bored for less than an hour, moreover, they were in this pitch black and sinister forest, and in the distance, there were even some demons roaring. No matter how she looked at it, it didn't seem like a place to do romantic things.

"Is that enough?" Long Huishan pushed Chen Xiang away and licked his lips.

"It's about time!" Chen Xiang rubbed his chest. At first, Long Huishan had indeed pinched him very hard, but then she turned into rubbing and it made him feel extremely comfortable.

"You guys are really bored. To do this kind of thing, the bath is more suitable. This kind of place is more suitable for fighting and killing." Yue Er pouted.

Long Huishan laughed: "That brat already wanted to do this to me when I was bathing, I am only going to satisfy him!"

Chen Xiang also laughed, "It's big sis Long, you wish for me to do this to you, right?" As he spoke, Chen Xiang took her hand and used the Space wind to bring her out of the dark forest, to the mountain range that had been razed to the ground.

"So fast, what is this spell?" Long Huishan only felt that when the colorful lights passed by, she could feel how fast Chen Xiang was taking her.

"It was Yue'er who taught me the Space wind. I can only learn it by using the power of space." Chen Xiang said.

Long Huishan looked at Yue'er, stroked her head, and said: "Previously, when You Lan came to find me, she told me about Yue'er's little kitten. I didn't expect her to be so powerful!"

"Oh yes, I heard Youlan mention the matter of you kissing her ... This girl actually told Jing Jing and Lingling, these two girls. "

"This... I'll talk about her later. " Chen Xiang blushed deeply. Dongfang Jing and Shen Lingling were very, very innocent girls, yet Leng Youlan actually told them this.

Long Huishan carefully observed the scene and frowned: "This should be caused by a very strong shockwave. This kind of shockwave can travel to a place far away, and can even travel a long distance! For the queen bug to be able to use this kind of power, it seems like the queen bug also has attribute power! If that's the case, then the demonic insects that were born should also possess the same familiar strength as the insect Queen. "

"Yue Er, can you still find that bug?" Chen Xiang asked.

"Of course, when you kissed me earlier, I started looking for you." Yue'er laughed. "Now that we've found it, we can go and have a look. Don't let it disturb the queen bug like last time."

Long Huishan had heard from Chen Xiang that Chen Xiang had wanted to test the Insect Queen's vigilance, but he never thought that her reaction would be so intense. Furthermore, she had even ran away, making it clear that the Insect Empress was extremely alert.

Chen Xiang brought Long Huishan to Yue'er's newest location. This time, they were even further away from the Nine Heaven City, he had only arrived there using the Space wind for an hour. This place was also inside the mountain range, but the mountains here were all desolate mountains, without any flowers or trees. The mountains were all very tall and lofty, especially within. If a huge crater appeared, it would not be discovered easily, because this place was a place where very few people came. The divine aura was also extremely sparse.

"It won't be easy to make a move. The insect knows that she is very weak right now, so once someone is nearby, no matter how strong she is, she will choose to leave."

Chen Xiang and Long Huishan were at the top of a mountain, and they saw a huge pit in front of them. This pit was just as big as the one Chen Xiang had discovered earlier. In order to not alarm the bugs, Chen Xiang used the Space Domain to cover himself and Long Huishan, preventing their auras from leaking out.

"Do you know how deep the queen is hiding?" Long Huishan asked: "If I knew the depth, I could have used the Mysterious power."

Littlemoon replied, "80,000 feet. If that's the case, then you'd better calculate at a depth of 100,000 feet."

"Chen Xiang, how strong can your Space Domain block? I need to condense my Mysterious power now, at that time, not only will I need to freeze the insect, I will also need to freeze everything around me, so that we can freeze everything within a hundred thousand meters of the ground." Long Huishan asked seriously.

"That powerful?" Would the consumption be very severe? I can stop your aura no matter how strong you are." Chen Xiang said with complete confidence. Long Huishan must be too godly, otherwise she would not willingly give it to Chen Xiang.

"Don't worry, I'm fifteen Divine Deity now, dealing with a bug is too easy. I possess the ancient Ice Dragon's bloodline after all." Long Huishan lightly patted his face and smiled gently, telling him to be at ease.

Long Huishan being able to obtain fifteen Divine Deity also surprised him. He previously thought that Long Huishan only had a dozen or so of these, and it must be because the ice dragon had helped her.

Long Huishan said that she needed time to gather her energy, but it did not take her long to finish. In just half a cup of tea's time, a white bead had condensed in her hands.

"What's next?" Chen Xiang asked.

"Go to the top of the deep hole quietly, then I'll just take this thing down." Long Huishan caught the ice pearl in the water. Chen Xiang had only sensed a trace of Icy cold power, it wasn't as terrifying as he had imagined.

He brought Long Huishan to the top of the deep pit using the Space wind. Long Huishan pointed the ice pearl at the deep pit and let out a light snort.

"If we don't quickly let the ice drop down, that fellow will have time to run away." Long Huishan said. That was why she had used her full strength to push the ice pearl into the pit.

From high up in the sky, Chen Xiang could see that after Long Huishan had entered the deep pit, a gust of cold air had quickly emerged from the deep pit. Furthermore, the ground and the ground within a hundred miles of the deep pit were covered in cold frost.

Thick layers of ice also formed on the walls of the deep pit, and at this moment, terrifying cold air continued to emit from below!

"So powerful!" Chen Xiang took a deep breath, he felt that if he was frozen, he would definitely be severely injured.

"This is the power of the fusion of the powers of my first and second Divine Deity." Long Huishan laughed: "Are you afraid?"

"Yes, Big Sis Long is so scary." Chen Xiang giggled, then suddenly kissed her on the cheek.

"There's movement from below." Just as Yue'er finished speaking, a burst of cold air emerged from Long Huishan's body, transforming into a snow-white ice dragon armor.

Long Huishan had already rushed into the deep pit.

Using the Dao heart Eye, he saw that everything below was snow-white, this was the power of the ice that Long Huishan had just frozen the ground with. In the middle of the deep hole, there was something black, he suspected that it was the Queen!

"This thing is way too small!" Chen Xiang felt that what he said and what Yue'er Fu Tiangao had said did not match up, because the bugs they spoke of were huge, like mountains.

"This isn't an insect queen!" Yue'er also realized that something was amiss as she hurriedly said.

[Chapter 2072](#)

Chen Xiang was startled, they had always thought that this thing was the descendant of bugs, but it was not right now, what was it then? And it looked so terrible!

"Will Big Sis Long be alright?" Chen Xiang said as he rushed downwards.

"Don't worry about her, she's not weak at all!" Yue'er replied, "There was originally a queen bug down there, but it suddenly turned into something. Perhaps the queen bug died, but something came out of the queen bug's body."

Chen Xiang said: "I used my Dao heart Eye to see a black mass. That is an evil force, what is it?"

Because the surrounding cave walls had been frozen by Long Huishan and there was only a vast expanse of whiteness below him, when Long Huishan arrived at the bottom, the surrounding ice was still emitting a white glow, illuminating the bottom of the cave.

"This is ..." Long Huishan stood on top of a huge black bug. This bug looked like a centipede, with many pairs of thorny legs.

The insect was already frozen, but there was a hole in its head, as if something had run out of the hole and even pierced through the thick ice.

"Who are you?"

Just as Long Huishan thought that it was strange, she heard a shout from behind her. She had just turned around, and a sword was suddenly thrust towards her throat, causing her to hastily sidestep.

"It has the power of a dragon!" He waved the sword in his hand, releasing the ice blades from Long Huishan's hands. He knew very well, if he was hit by this, he would definitely not feel good.

Long Huishan had already seen the person clearly. He was actually a white and handsome man with a set of black armor, the longsword in his hand was not an ordinary weapon, and his body was releasing waves after waves of Evil Spirit Qi!

"You're not from here!" Long Huishan had frequently clashed with the Evil Demons here in the past, but he had never met with anyone as evil as the man in front of him.

"That's right, who exactly are you? Is it from the Nine Heaven School? " He actually knew that the Nine Heaven School was going to deal with them. "But I have never heard of a person like you in the Nine Heaven School, could it be that you're the Female Dragon King that just came from the Ice Dragon Race?"

The man suddenly came to his senses, he did not waste any words, the Evil Force on his body surged, holding onto his sword, he attacked frantically, the Evil Qi of the sword gushed out, wielding the sword created a burst of Evil Qi, the Evil Qi struck Long Huishan's face, it caused her to feel pain, and after parrying a few slashes, she immediately ran away from the man, because the opponent's Evil Qi was too terrifying.

was infuriated. The other party actually knew about her, and seemed to have just found out as well. It was very obvious that someone had told him these things, and even without thinking, they already knew that it was Fu Tian School's Fu Tiangao.

Chen Xiang had already crept closer. When he came down, he had personally witnessed the process of Long Huishan and the man's battle, and had heard their conversation. At this moment, he was also secretly resentful towards Fu Tiangao.

"Looks like I have to do something!" Chen Xiang took a deep breath, then said to Yue'er: "I had previously used the power of space to bind people ... is to release a space barrier that is exactly the same as the other person's body, and trap them within this space, making them unable to move. "

"However, I had used a large amount of spatial energy back then to forcefully make it. There was no skill in that!"

Hearing Chen Xiang's words, Yue'er understood what Chen Xiang meant. He wanted to ask her if she understood this kind of method, so of course she would understand.

"Mm, this move is called Spatial Binding. It has a certain skill, and it requires one to know how to use the power of space!" Yue'er immediately used the method of divine soul exchange and transmitted it into his divine soul, allowing him to comprehend it quickly.

Chen Xiang had already used it before, so it was easier for him to learn now.

"How about this, you tie him up first, and then I'll bind him in a layer of space outside. This way, the two layers will buy Big Sis Long some time." Yue Er said.

Below, the man was fighting with Long Huishan again. The two of them were fighting intensely, and temporarily, they were on par with each other, while Chen Xiang who was above them was also blown up by the Qi waves produced when they were fighting, causing him to have no choice but to use his spatial energy barrier to separate himself from the surrounding space to prevent any side effects.

Cracks had already appeared on the thick ice on the walls of this deep pit, and large amounts of ice were falling down from above. If this continued, then this deep pit would definitely collapse.

"How's it going? We have to use it as soon as possible. Although Big Sis Long and that guy have a draw, dragging this out won't be good for us because the monsters around here are mostly him, so the other side is probably trying to stall for time for helpers." Yue Er said.

"You can use it now!" Chen Xiang took a deep breath, and allowed the Six Realms' Power within the Divine Sense Sea to flow into the spatial Divine Deity. After passing through the spatial Divine Deity, the Six Realms' Power could instantly transform into a formidable power of space.

Six Realms' Power originally contained powers of other attributes. Although it could be directly used on space, it was not enough to become stronger after being converted by Divine Deity.

"Freeze!" Chen Xiang shouted in his heart, and a large amount of the condensed spatial energy gushed out, passing through the air and wrapping around the man's body, forming an invisible spatial seal. Furthermore, the Six Realms' Power in his Divine Sense Sea was still steadily gushing out, providing energy, maintaining the spatial seal.

Yue'er had also started her cultivation at this time. When she had awakened her memories, she had already recovered quite a bit of her strength. Don't look at her like this; she had an extremely terrifying power of the stars and moon, and she could also skillfully use the power of the Space Laws!

At this moment, Yue'er had also used Spatial Binding, and had shared two Spatial Binding with Chen Xiang, causing the man to be unable to move for a moment. Now, Chen Xiang could also feel that his Spatial Binding had begun to crack, because the man's strength was extremely terrifying.

Long Huishan's reaction was extremely fast, she saw that the other party was suddenly unable to move, and was floating in mid air, she knew that someone was secretly attacking. She immediately rushed over, and using half of her Mysterious power, she condensed onto her blade, and with one slash she chopped off the opponent's head, and then with another palm strike, the headless body and the Divine Sense Sea separated, leaving behind the Divine Sense Sea's support. She became extremely weak, and was frozen up by Long Huishan in an instant.

After the headless body was frozen, Long Huishan then kicked it with his leg. It was actually a very strong vibrating force that turned the body into ice crystals.

Chen Xiang grabbed the severed head from the air and started using Soul Absorbing Devil Spell on it, but right after he used it, his face changed and he quickly let go.

Long Huishan looked down at the head curiously. She was worried that something might have happened to Chen Xiang, and cried out in alarm, but she quickly flew up, cut the head into half, and then used the strong icy cold power to freeze it.

[Chapter 2073](#)

"Are you all right? What just happened?" Just now, she was also shocked. This was the first time she had seen Chen Xiang encountering such a danger and it had almost scared her to death. She suddenly realized that she was extremely afraid of losing Chen Xiang.

"I'm fine!" Chen Xiang forehead dripped with sweat: "This guy is from the Divine Nations, I just got some of his memories."

The reason Chen Xiang used the Soul Absorbing Devil Spell just now was to see just what kind of background this person had.

"Just now, I suffered a backlash because I wanted to go to his Divine Deity. This guy protects his Divine Deity very well, and if I want to take away his Divine Deity, then his Divine Deity would become very unstable. After that, it would explode, creating a mental attack that would directly attack the opponent's divine soul." Chen Xiang said with fear still lingering in his heart. He had almost been attacked just now.

"Looks like Hell Devil Emperor has support from the Divine Nations. At first, we thought that he was abandoned by the Divine Nations but we never expected that this would only cause us to think that the Hell Devil Emperor was weakened." Long Huishan said.

Chen Xiang nodded. He looked at the insect below him and activated Dao heart Eye, discovering that there was a ball of light inside the insect's body. He used the air to retrieve the thing inside, the thing inside was a crystal the size of a watermelon.

"This is ..." Great Divine Deity! " Yue'er said: "This item was refined using a large amount of Divine Deity, and it is very pure!"

With a single glance, one could tell that the energy inside was extremely pure!

"This guy came out from the back of the bug's head." Long Huishan said.

"The Divine Nations has already found a way to control the insect. They want a person to directly enter the insect queen's Divine Sense Sea and turn them into the insect queen's divine soul. Then, they can control the insect queen's evil insects! In order to assimilate into the Insect Queen's Divine Sense Sea, the person who enters the Divine Sense Sea must cultivate an evil force that is similar to the Insect Queen. " Chen Xiang looked at the huge Divine Deity in his hands and continued, "This Divine Deity was refined by the Divine Nations and the others to quickly raise the strength of the insect, allowing the insect queen to have the power to protect herself in the initial stages."

Chen Xiang learnt all of this from the man's memories.

Long Huishan was still here, and it was already late at night, but she was still waiting in the hall. Because the bug Queen was very powerful, she was very worried about Chen Xiang and Long Huishan.

"How is it?" Lv Qilian saw that Chen Xiang and Long Huishan's faces were not as pale as when he went out, "Are you injured?"

"I'm fine!" Long Huishan sat down, "I've made a big discovery!"

Chen Xiang said, "The insect empress's matter isn't as simple as we thought it was. It's extremely complicated and was made by the Divine Nations."

Chen Xiang told Lv Qilian everything he knew!

"Currently, the three bugs that surrounded and attacked Nine Heaven City were all bred in the first batch, and all of them had a rather strong Evil Demon inside." Chen Xiang took out the Divine Deity he took out from the insect empress's body and continued, "In order for Divine Nations to cultivate this kind of thing, it also requires a lot of energy, so this kind of thing definitely cannot be produced in large quantities."

This made Chen Xiang more at ease. If there were a lot of them and they were still hiding, then when they attacked together, it would be difficult for them to resist.

Now that the Divine Nations had created a few of these things, they could be used to support the Hell Devil Emperor. At the same time, he wanted to see how effective they were.

"That Fu Tiangao should be in contact with the Hell Devil Emperor at all times, and the people hiding inside the Insect Empress Divine Sense Sea can also receive any news from the Hell Devil Emperor. That's why they found out that I had just come to the Nine Heaven School." Long Huishan said: "Are you all prepared to deal with that brat? Don't let him get away! "

"Gu Dongchen has already told him. Because of the urgent situation, he is preparing to attack the Evil Demons outside, and needs support. In order to show off, he had to go find him in the middle of the night, the elite disciples of the Fu Tian School will arrive tomorrow." Lv Qilian said: "I left the array disc with Gu Dongchen and the others, they are already arranging the receiving location, when that time comes, we will start the slaughter!"

"Are you going?" Long Huishan asked Chen Xiang.

"No, I'm going to cultivate." Chen Xiang raised the Great Divine Deity he had just obtained. He felt that this object was very suitable for his cultivation and just needed to be refined.

Long Huishan smiled at Lv Qilian: "Qilian, this brat told me that he hasn't touched a woman in a long time and it has been a few days since he came back. Didn't you all agree to not letting this brat touch me?"

"Hmph, he hasn't touched a woman for a long time, why are you telling me that? Can't you just let him touch you?" Lv Qilian said snappily, and then glared at Chen Xiang.

Chen Xiang was surprised that Long Huishan would actually tell Lv Qilian this kind of thing.

Although this was what Lv Qilian said on the surface, she had already stood up and entered a room. When she entered, she gave Chen Xiang a dubious glance.

"Good little brother, how are you going to thank me?" Long Huishan laughed.

Chen Xiang handed Yue'er over to Long Huishan, and charmingly smiled at her: "You'll know in the future!"

Yue'er saw Chen Xiang hurriedly entering Lv Qilian's room, and hearing the sounds coming from inside, she stuck out her tongue and said: "When I was at Super God Realm, he was always in the room naked with Feng Yujie, it was so boring!"

Long Huishan was shocked, "What? Feng Yujie? I actually fell in love with him too, this little brat, I have underestimated him. "

Yue'er smiled. "He was originally a wolf, but in front of all of you, he was pretending to be a little sheep. In his eyes, all of you are little white rabbits."

Inside the room, Chen Xiang and Lv Qilian had just reunited after a long time. At this moment, they both felt their love, and felt the happiness from their bodies and minds merging together. At the same time, they also cultivated the Alive Slain Method, and condensed the crystal of their love ...

"Big Sis Long, you also cultivate the Icy cold power, and your control over it is superb. If you can also master the Ice Cold Law, then you will definitely be very strong." Yue'er said: "After all, you still have the bloodline of the ancient Divine Dragon Race in you!"

Long Huishan nodded his head, "Xue Yi who has mastered the Laws of Ice is even more powerful! It's a pity that it's not easy to grasp the Laws! "

"That's not necessarily true. After you return to the Hundreds of Flowers Village, find Bing Yan and have her give you a Dao heart stone. At that time, even if you can't grasp the laws of ice, you can still obtain the profound strength of the way of ice through this." Yue'er said: "However, you have to repay Bing Yan and teach her the techniques to use the Icy cold power!"

Long Huishan did not doubt Yue'er's words. She had heard Leng Youlan and Mu Qianxiang say before that Shui Bingyan had an extremely powerful stone that, after being used by the Supreme God, could allow him to gain power that was close to controlling the laws.

This is for sure, I often share with Xue Yi the way I use the power of ice. When I go to Hundreds of Flowers Village, I will definitely carefully teach Bing Yan and I will definitely treat her as a sister. Although I have not seen her before, I have heard it from You Lan and Qianxiang. Long Huishan gently stroked Yue'er, who was lying on her lap, as she also gradually fell in love with this mysterious little white cat.

[Chapter 2074](#)

After successfully killing one insect, he had allowed Chen Xiang and the others to obtain more useful things. At the same time, he had also made Chen Xiang realize that his current strength was extremely weak.

After obtaining the Great Divine Deity, he entered the Hundreds of Flowers Village, and went inside the dragon vein. He wanted to refine the Great Divine Deity into a pellet!

"There are a lot of methods to create a Heavenly Alchemy. There must be a way to refine this Great Divine Deity into a Divine Deity that can fuse with my own." Chen Xiang urgently needed to condense his Divine Deity now, as long as he had more Divine Deity, his Divine Sense Sea's power would become even stronger.

Chen Xiang suddenly had a flash of inspiration: "I have refined a Bone level Dan inside the Divine Sense Sea before, if I can refine the Divine Deity like I would refine pills, and fuse it with my Divine Sense Sea, then I won't need to cultivate the Divine Deity so hard!"

Congeaing Divine Deity gave Chen Xiang a huge headache, especially when his cultivation method was different from others, it was harder for him to condense Divine Deity.

"In the past, only by condensing divine soul would I be able to cultivate Divine Deity, but if I were to use the method of refining pellets, maybe I would be able to condense divine soul after cultivating Divine Deity." Chen Xiang already possessed three fairly useful innate abilities, which were enough for him to use. For the time being, he did not need to cultivate any other innate abilities, so he could just condense his Divine Deity directly.

He sat in the secret room inside the dragon vein and looked at the incomparably pure Great Divine Deity in his hands. Afterwards, he injected the power of creation into it, and at the same time, he also used the method of Heavenly Alchemy to fuse the pure energy within the Great Divine Deity with the power of creation. This way, the Great Divine Deity could be assimilated by the power of creation, becoming a power that could produce Chuangzao fire s in the future!

"It works!" Chen Xiang tried it out and was extremely happy. He decided to use this method to refine his Divine Deity into a finished product before he associated it with his Divine Sense Sea.

It was also at this time that Chen Xiang suddenly thought of something, "Divine Deity are formed from the fusion of various types of energies, which is to say, I can refine Divine Deity inside the pill furnace! Divine Deity are pills formed by living beings inside the Divine Sense Sea. If I can complete them in the cauldron, my speed will definitely be even faster. "

If this method was feasible, then it would greatly increase the speed at which he condensed Divine Deity, and could even directly complete various types of Divine Deity in the pill furnace.

But the condition, was that he needed a method to refine Divine Deity, which would definitely need all kinds of precious medicinal pellets that contained all kinds of energy, and also ingredients that could continuously evolve.

"I'll begin the fourth Divine Deity!"
... ..
... .. After Chen Xiang returned from the Super God Realm, he felt that he had suffered a huge blow. Although no one would say that he was weak, he was clear that everyone thought that he was a Alchemist, and that there was no need for him to be strong. He did not need to fight all over, as long as he was concocting pills quietly.

Chen Xiang originally thought so too, but the current situation was beyond his control. He would have to roll up his sleeves and do it himself many times, so to become a powerful Alchemist, he would need to possess extremely strong strength to ensure his safety!

When they were entering, Chen Xiang had told Yue'er that he would ask Yue'er to bring them to the nest of the bug queen. If possible, he wanted them to retrieve the Great Divine Deity as soon as possible!

"It's getting more and more difficult to condense Divine Deity, because Divine Deity is constantly increasing!" Chen Xiang couldn't help but sigh. When he first condensed his Divine Deity, he was already very weak, but now he had already grown very strong. In other words, the fourth Divine Deity he condensed needs to be at the same level as the other three, or maybe even stronger than the other three.

He estimated the strength of the three Divine Deity s in his body, and then, feeling completely at ease, he took out the medicinal furnace and placed the Great Divine Deity inside it. After refining the Great Divine Deity, it would be enough to become his fourth.

"We will first use the pill furnace to refine it small, then put it into the Divine Sense Sea to refine." The current Divine Deity was extremely large, and needed to be compressed. When compressed, it would cause the Mysterious power inside the Divine Deity to explode, and when compressed, it would become very unstable, and could easily explode.

It was very dangerous to put it into the Divine Sense Sea when it was unstable.

He might have used the Heavenly Alchemy to refine Divine Deity multiple times, but it was different this time. In the past, he had refined the Divine Deity into pills to eat, and he had obtained a large amount of energy that he could not absorb from within.

Right now, even a little of the Mysterious power would not be removed, instead, after being compressed and refined, the quality would still increase by leaps and bounds, so he felt that his fourth Divine Deity would be very strong.

In order to refine the Great Divine Deity, he had to first compress it into a Qi State like when refining pills. Now, he needed to compress the Great Divine Deity into Qi State, and then compress it again.

This was Chen Xiang's first time refining this kind of Divine Deity, he had no experience at all, and the Mysterious power that he needed to condense was extremely vast.

"After I leave, I'll have Meng Er make a pill furnace." If it was a normal pill cultivating, he could use any kind of pill furnace, but right now he couldn't practice normal pill refining and had to refine such a strong Divine Deity.

Although it was difficult, Chen Xiang had faced many difficult problems over the years, and they were all overcome by him. The originally trembling pill furnace, under his hard work, calmed down and the pill furnace started to gather energy from the inside.

One of the benefits of refining pills in the dragon's vein was that he could absorb the boundless divine energy from the dragon's vein while refining pills to replenish his rapid consumption. This way, he wouldn't need to consume pills to replenish his energy.

Chen Xiang refined continuously for three days and three nights without a break, and he consumed a lot of energy at every second. Without this supplement, it would be hard for him to persevere on!

"This is really killing me!" Chen Xiang opened the pill furnace and took out the fist-sized Divine Deity. The previously crystal clear Divine Deity had now been refined into a silver-white color by him. This was because when he was refining, he had been using a large number of Chuangzao fire to assimilate it.

After resting for a long time and allowing him to return to his peak condition, he began the second stage of the refinement. This was to allow his Divine Deity to be refined in the Divine Sense Sea.

This Great Divine Deity was originally very big, but now that it had shrunk to the size of a fist, not only did it not weaken in the slightest, it even condensed into a single mass, causing the quality to greatly increase!

And the second stage of refinement, was to make this Divine Deity shrink even further.

He placed this Divine Deity inside the Divine Sense Sea, then released the Magic method furnace inside the Divine Sense Sea, and started the second stage of refinement.

Other people's Divine Deity were all created through hard work, but Chen Xiang himself had cultivated it through hard work. He felt that since he was a Alchemist, his own Divine Deity should be refined just like pill refining.

[Chapter 2075](#)

Chen Xiang began to refine the second stage, which was much longer than the first stage. Although the difficulty of the second stage was extremely high, the reason he was refining the pellet was only to reduce the risk, it was extremely dangerous for him to shrink the Divine Deity to such a small size in the Divine Sense Sea, and it was also not beneficial for him to fuse them.

"I have to refine this Divine Deity so that it can produce a sense of familiarity with me. This way, when the melted energy converges, it will be my fourth Divine Deity."

The second stage was to throw the fist-sized Divine Deity into the Divine Sense Sea to fuse, and then condense it into an even smaller Divine Deity. This was because the previous fusion had occurred within the Divine Sense Sea, and when he reassembled it, it was equivalent to his own fourth Divine Deity.

Originally, he could have done it in one go because it was his first time trying it out. In order to be complete, he divided it into two steps, and once he got used to it, he would resolve it in one go. After all, this was related to the safety of his Divine Sense Sea, so he had to be careful.

After the Divine Deity was melted, Chen Xiang used the powerful Mysterious power to wrap it up, and then soaked it in the peaceful Divine Sense Sea. He also let the divine soul within his other three Divine Deity release a trace of soul power to establish a connection with the ball of Divine Deity.

"I wonder if it will work." Chen Xiang patiently waited. Once he succeeded in establishing a good connection between this ball of Divine Deity which had taken the form of Qi and the other three, he would be able to combine them. As long as he succeeded, he would be able to condense his fourth Divine Deity.

Fortunately, Chen Xiang only needed to control the Mysterious power to wrap that ball of Divine Deity up. He didn't need to do anything too tiring, and could patiently wait.

In merely seven days of time, Chen Xiang had sensed that the other three pellets had established a connection with the ball of Divine Deity, which meant that he could now begin to gather them.

He had originally thought that it would take one to two months before those three Divine Deity s would approve of this ball of external Divine Deity, and now, it had only been a short seven days.

"The last step." Chen Xiang let that ball of Divine Deity float from the Divine Sense Sea, then he released the Magic method furnace from the Divine Sense Sea and began to gather this ball of Divine Deity.

This meant that he had two Chuangzao fire Divine Deity s. In the future, when he released the Chuangzao fire, the quantity and strength of the Six Realms' Power that he released would greatly increase after passing through these two Divine Deity s.

Originally, when he was going to transform the Six Realms' Power into a Chuangzao fire, there was only one path he could take, but now that there were two paths at the same time, after rushing out and then converging them, he could become even faster.

He needed Chuangzao fire to refine pills, so he needed to condense more Divine Deity that could increase his flames.

As the ball of Divine Deity that had turned into a gaseous state had already been assimilated by his Divine Sense Sea, and had established a connection with the other three Divine Deity, he was no longer as irritable as before.

"Alright." Chen Xiang shouted excitedly in his heart. The fourth Divine Deity had already been condensed, this was the Chuangzao fire's Divine Deity, and it was still strong, so what he needed to do now was to condense a divine soul inside.

"In eleven days, the fourth Divine Deity has been successfully condensed." Chen Xiang opened his eyes and laid on the ground. One must know that he had only condensed the third Divine Deity earlier, and it wasn't long before the fourth Divine Deity was ninety percent complete.

This kind of speed was already ridiculously fast, but he was still a Alchemist, treating his own Divine Deity like a pill refining.

"I'm still short of divine soul." In the past, he would only condense Divine Deity after cultivating divine soul, but now, it was the opposite.

"I need to train my divine soul seriously as well. This Divine Deity has a lot of meaning to me." Chen Xiang took out the Fire Qilin chain, he felt around a bit, and saw that the inside contained Divine Deity s and divine soul, but divine soul was an extremely terrifying fire attribute divine soul. For the time being, he did not know what kind of divine soul it was, but he felt that it would be beneficial for him in helping the fourth Divine Deity to manifest.

"Alright, first take a good look at what the divine soul of this Fire Qilin Chain is." Chen Xiang tried to sense it with his heart, but not long after, he saw a Fire unicorn suddenly roar, and it was a purple Qilin, emitting purple flames all over its body.

"This ..." Chen Xiang was shocked, his eyes opened wide as he looked at the Qilin fire chain that had suddenly turned purple.

Earlier, he had not only discovered the purple colored Qilin divine soul, he was also surprised because there were actually nine sets of Divine Deity inside. It was just that the inside of the Divine Deity was missing a single set of divine soul.

He took a closer look at the other divine weapons and discovered that other than the profoundwu clothing, the rest all had Nine Divine Deity. At the beginning, the profoundwu clothing had been damaged, but later on it had one Divine Deity and one divine soul, becoming extremely strong.

"As expected of something refined by the Heavenly Divine Lord. There are actually nine strange Divine Deity s inside." Chen Xiang felt that it was a pity that the profoundwu clothing was so heavily damaged, and had lost so much of its Divine Deity.

He placed the Fire Qilin chain inside the Divine Sense Sea to make the Fire Qilin chain shrink a little, and wrapped around the fourth Divine Deity. He hoped that the fourth Divine Deity would be affected by the purple Qilin divine soul and produce a similar level of divine soul.

The process of condensing divine soul was a bit long. Chen Xiang felt that in the future, he would also need to refine the same type of divine soul as the Great Divine Deity.

"Chuangzao fire has a very strong regenerative ability. Right now, after absorbing a large amount of divine power from the dragon vein, coupled with the influence of the Fire Qilin chain, it should be very easy to condense divine soul." Chen Xiang used the Heavenly Alchemy, and quickly absorbed the energy from the dragon vein to condense the divine soul.

In just two days of time, he suddenly discovered that a dot had appeared within the Fourth Divine Deity. Using his Dao heart Eye to look, he discovered that this dot was formed from purple energy and it could even move.

"What's going on? It looks like a baby." Chen Xiang was a little surprised. If that was really the case, then his divine soul Embryo had already appeared.

The divine soul in its final form was similar to a human's, and it had flesh and blood. When Chen Xiang had first cultivated the divine soul, he had already gone through this long process, and the divine soul that he cultivated afterwards became much easier, allowing him to grow to a mature and perfect state very quickly.

After another day, the divine soul within the fourth Divine Deity was already very obvious. It could be seen that it was a very small infant, only that there was a layer of faint purple colored mist surrounding the outside.

Chen Xiang continued to cultivate. A few days later, he checked again, and what surprised him was that his divine soul had already reached the level of an adult, and his body was even wearing a set of purple armor with some patterns on it. It was actually carved with Fire unicorn s, and it looked extremely beautiful.

"To think that divine soul would actually look like this." Chen Xiang suddenly had another idea. He wanted to mainly cultivate five different types of supernatural powers, which was five main divine soul. This was because he had five powerful divine weapons.

[Chapter 2076](#)

Chen Xiang had already decided to do this. This also meant that the three divine soul that he had previously cultivated needed to undergo a new round of cultivation. Of course, he did not plan to erase this possibility from the beginning;

His plan was to let the three divine soul undergo an increase in power.

"Five main Divine Deity, and these five Divine Deity and these five divine weapons are linked together. In the future, the internal Divine Deity of the divine weapons, together with the Divine Deity in my Divine Sense Sea, will certainly be even more terrifying." Chen Xiang was excited just thinking about it, because it would make him stronger.

Of course, he was a Alchemist, and he planned to use the method of refining pills. Heavenly Alchemy could be refined in a variety of situations, and it could also be used for refining many things, and what he was most familiar with was refining pills.

"Four Divine Deity s." Chen Xiang teleported from the dragon vein.

Leng Youlan saw that Chen Xiang's expression was not bad, and had a cheerful smile on his face, and asked: "Old brother, you have only been in closed door cultivation for 10 days, are you unable to sit still anymore?"

Leng Youlan was dressed in a battle attire with white armor and two large swords in her hands. She seemed to be very excited, and Chen Xiang knew that she must be very excited to be able to fight a big battle.

"What's going on outside?" Chen Xiang tapped on the hard white armor on her shoulder.

"The Insects have all been killed, and the Hell Devil Emperor has made a contract with us." Leng Youlan laughed: "These guys actually sent three representatives to challenge us, saying that as long as we win against them, they will immediately retreat, and not come out to do evil for the next ten years."

Chen Xiang frowned: "What if we lose?"

"If we lose, we have to give them ten billion Shen Yuan stone." Leng Youlan snorted lightly: "These fellows must be crazy and poor."

"This won't do, we'll lose too much. We lost, they obtained ten billion Shen Yuan stone, but they lost and they just left. They don't have any risks." Chen Xiang was a Alchemist, he often traded elixirs, and could be considered a businessman. If it was him, he would definitely not agree to this kind of thing.

Leng Youlan said: "There's no other way, this is what Gu Dongchen and the others have decided. If you want to know the specifics, you can ask them. I also know that this matter is not that simple, they are not idiots, they must have other thoughts."

"You have been arranged to fight." Seeing how excited Leng Youlan was, Chen Xiang asked.

"Yes, they requested that it be a battle of six Divine Deity, at most, it should not exceed six Divine Deity." said. It was very difficult to condense the sixth Divine Deity, which was a stage of dividing mountains and water.

Amongst the gods, there weren't many with nine Divine Deity, and in order to attack ten of them, most of them had been in closed doors cultivation for many years.

And what had just formed six Divine Deity was at its most active moment, most suitable for such extreme battles.

"I'll go ask Gu Dongchen." Chen Xiang had too many doubts in his heart.

Lv Qilian and Long Huishan who knew the truth were not here, he could only teleport to the Hundred Flowers Hall. Only Yan Zilan was there, so she did not understand much about it.

"Where is he?" Chen Xiang only saw Wu Kaiming here.

"You already went to train the little ghosts. You probably don't know yet, right?" Wu Kaiming also knew that Chen Xiang had gone in for closed door cultivation: "You came out so quickly, are you in closed door cultivation to refine pills?"

Chen Xiang shook his head: "No, I know you have agreed to Hell Devil Emperor's conditions, and we will be sending three people over to participate, right?"

Wu Kaiming nodded his head, and laughed: "Right now, we are just worrying about this matter. We have already sent about six Divine Deity's worth of people to register, and three will definitely emerge, do you want to go and try?"

Chen Xiang found it funny, because when he saw Leng Youlan's excited look, he thought Leng Youlan had already been chosen. The selection battle had not even started, yet she thought that she had won, and she was as confident as ever.

"I will go too. Hell Devil Emperor will definitely be very happy to see me." Chen Xiang laughed: "Is the agreement you made with him reliable?"

"Don't worry, we aren't idiots." Wu Kaiming said: "Even though this solution seems to be a little disadvantageous to us, but at the moment, if we can exchange it for ten years of peace, it would be a very good development for us. You must know, the power behind the Underworld Gate is very strong, it is definitely not something that we can go head to head with."

If they were to fight with the Hell Devil Emperor head on, then it would take many years, and the Nine Heaven World would be completely annihilated. At that time, when the Super God Realm was also merged with the Super God Realm, it would be much easier for the Nine Gods Nation to take action, and he could control the Nine Heaven World.

"Have you guys sent anyone to contact the Heavenly Divine Palace?" Chen Xiang now also understood why Gu Dongchen and the others agreed to this condition. No matter if they won or lost, it would stop Hell Devil Emperor from messing around with them. In the long run, it would benefit the entire Nine Heaven World.

"Yes, the Great Divine Lord has told us that he will not interfere in this matter for the time being, because if he interferes, the experts of the Divine Nations hidden here will make a move as well. The Nine Heaven World will immediately become their battlefield." Wu Kaiming said: "Nine Gods Nation does have a lot of things to do right now, so they will try their best to avoid starting a war with Great Divine Lord."

There was a lot of chaos within the countries of the Nine Gods Nation. All of their power had been dispersed and there was no time to worry about the Nine Heaven World, they could only arrange for a few people to take responsibility for it.

"Oh right, are you sure you want to participate? You're not joking around, right? I have to say, there are quite a few outstanding seedlings right now. Don't lose too badly at that time." Wu Kaiming laughed, "Let's talk about the Hundreds of Flowers Village, those girls are not weak either."

The corner of Chen Xiang's mouth rose as he smiled: "Little baldy, you're underestimating me too much. Don't think that just because I have too little Divine Deity that I can be easily bullied, and even more so, don't think that I'm just fooling around doing alchemy all day."

Wu Kaiming laughed: I have not underestimated you, if I had used any unconventional methods, I think that I would have been tortured to the point that there would not even be dust left, but in the competition that is governed by the rules, if you did not use any of those tricks, it would have been very restrictive on you.

In the past, many Rankers didn't even know how they died at Chen Xiang's hands, so Wu Kaiming had no doubts about Chen Xiang's strength, but he understood that it was Chen Xiang who used underhanded methods, if it was an open and honorable battle, Chen Xiang would not have any chance of winning.

"Of course, Junior Martial Uncle, if you go for the alchemy competition, we'll give you a spot. But for this fight, you should leave it to those kids who have been through special training all year round. They're more adept." Wu Kaiming said again. He had originally planned to speak without thinking with Chen Xiang, but he didn't expect Chen Xiang to really go.

"No, tell me a name, I must go." Chen Xiang said firmly. Wu Kaiming knew that he had made a mistake, because Chen Xiang was someone who would not admit defeat. His words just now had provoked Chen Xiang.

[Chapter 2077](#)

Seeing how determined he was, Wu Kaiming secretly regretted his decision. He should not have provoked Chen Xiang, but he was worried that he would lose during the extreme fighting.

"Remember to help me register. If you're not there, hehe." Chen Xiang laughed sinisterly, and then left the City Lord's Mansion, walking alone inside it.

Since Hell Devil Emperor had already made a promise with Gu Dongchen and the others, then what they needed to do now was to make preparations for the upcoming battle.

In order to select even more outstanding candidates, there would be a competition. When that time came, Gu Dongchen and the others, as the referees, would also be able to find outstanding seedlings to train them.

Chen Xiang was aimlessly walking on the busy streets. His mind was not on the competition, but on how to refine Divine Deity s through pill refinement. He needed to create a method to condense Divine Deity s.

Previously, he had used the method of refining pills to quickly cultivate the Fourth Divine Deity. After tasting the sweetness, he wanted to continue cultivating it even more.

"You can cultivate Divine Deity by consuming various divine pellets, and the only thing you need to do is to refine and fuse the medicinal power of the divine pellets. However, the process is extremely slow and the efficiency is also very low." Chen Xiang felt that he could directly refine the various divine pellets that raised his strength, and then refine them into Divine Deity.

He could do this, but it would take a very long time. The large Divine Deity he obtained from killing the bugs and also required the Divine Nations s to spend a lot of time and resources to condense it.

Chen Xiang strolled through the city until it was night, then returned to the Hundred Flowers Pavilion, where Long Huishan was also present.

"Where's Sister Qilian?" Chen Xiang asked, he wanted to ask Lv Qilian something.

"She knows how to teach You Lan and Qianxiang." Long Huishan said, "In ten days, he will compete with that little demon for those three spots. You should have heard of this matter."

Chen Xiang nodded his head, and he had also participated, so it was clear that Long Huishan and the others did not know about his registration.

"What about Fu Tian School's Fu Tiangao, did he succeed in killing him?" asked. Setting up a trap to kill off all of the Fu Tian School s was an extremely secretive matter, and Yan Zilan might not even know about it.

"No, Fu Tiangao and his father escaped, but the more than four thousand disciples they sent over all died in the killing array." Long Huishan shook his head: "That Fu Tian School is very strong, his strength has far exceeded our expectations, even under such circumstances he was still able to bring his son and run away."

"Then after killing the bugs, did you get the Great Divine Deity?" Chen Xiang asked again, he really liked this kind of thing.

"I didn't get it, and I don't know why we didn't discover that kind of great Divine Deity, could it be that only the first insect does." Long Huishan had also participated in the battle after killing the bugs. She knew that Chen Xiang desperately needed the Great Divine Deity, so she had paid attention to it at that time.

This caused Chen Xiang to frown. If there was only that bug queen, then it meant that the Great Divine Deity was even harder to condense than he had imagined, even the resources and power grasped by the Divine Nations would be difficult to achieve. He had originally planned to study how the Great Divine Deity was refined carefully.

"When can we compete with Hell Devil Emperor and the rest?" Chen Xiang saw that everyone was not so nervous, there was still time for the competition.

"One month later, we are worried that someone from the Divine Nations will help them carry out a competition." Long Huishan said: "That's why I am sending all of my outstanding disciples here."

Chen Xiang laughed, "Big Sis Long, do you think that if I were to participate in the selection too, I would be able to compete for those three spots?"

Yan Zilan, who had been standing quietly at the side, laughed: "Do you even need to say that? You can definitely fight for it."

Long Huishan also laughed: "That's true, this little demon is hiding his strength well, even though he is extremely well-hidden from us."

"You two have such confidence in me, to think that this little baldy Wu Kaiming was actually worried that I would lose during the selection. Chen Xiang said with gratitude.

Yan Zilan chuckled: "His worries are not without reason, because at that time, all of the participants will be using their full power, and they cannot use any other means, which would require a lot of publicity. You have always been giving people the impression that you have a lot of tricks up your sleeves, and it's also because the time between Super God Realm and here is different, which is why you have to come back, losing a lot of time and your cultivation level hasn't reached the boundary of the Six Divine Deity yet, it's normal for him to not look favorably on you."

Chen Xiang touched Yan Zilan's jade face: My analysis is not bad, then why do you think so highly of me.

When Long Huishan saw that Chen Xiang had made a move on Yan Zilan, he knew that Yan Zilan was also his man.

"Because you cultivate in the Taboo magic, so during the competition, there is no limit to how much you can use these Taboo magic, and many people do not even know much about these Taboo magic. Even we do not know much about the might of the Taboo magic that you cultivate in." Yan Zilan said:

"Although I have seen you use it before, it is full of different kinds of things."

Long Huishan nodded his head and said, "The strong thing about Taboo magic is that it has a very big effect. For example, your God Murdering Sword Techniques is different from Wang Jinshi's, but the Heavenly Alchemy is even more difficult to say. Yu Jie said before, only you have comprehended it the deepest, and the things that they have comprehended are very shallow."

Yan Zilan laughed: "Wu Kaiming is worried that your heroic name will be ruined in this selection, that's why he said that to you. But come to think of it, you really plan to participate."

Chen Xiang crossed his legs, and laughed: "The two of you aren't worried about this, are you?"

Long Huishan and Yan Zilan were silent for a while. They understood Chen Xiang's methods very well, if Chen Xiang used all of his skills, even if he was too godly, they would probably be killed by him. But if it was an open and honorable competition, it would be hard to say.

In their eyes, Chen Xiang only had three Divine Deity. In addition to that, perhaps he could also barely compete with the six Divine Deity s which were at his limits.

"That's not it, I heard that you have cultivated Bones, adding that you are using the Taboo magic during battle, there is no problem if you want to win against the Six Divine Deity." Long Huishan said. Chen

Xiang had experienced so many battles, just the accumulated fighting aura and rich experience was not something that a young person could compare with.

Chen Xiang laughed: "I have already participated in it, but I will only tell the two of you, don't mention it to You Lan and Qianxiang. They have always wanted to compete with me, at that time I will give them a surprise, and also teach them a lesson.

Yan Zilan was a little surprised: "Ah, you really participated in it! If Hell Devil Emperor knew, he would definitely be happy to death, he really wanted to kill you. At that time, he would definitely do everything he could to find the strongest Six Divine Deity Deity to fight you."

[Chapter 2078](#)

Chen Xiang wasn't really worried about this, many people only knew that he had grasped the two Taboo magic s, the God Murdering Sword Techniques and the Heavenly Alchemy. After all, it was easy to expose when using it, and it was difficult to conceal.

However, the two divine arts of the Heavenly spirit kungfu and the Six Realms magic kungfu were well hidden by him. The Six Realms magic kungfu helped him cultivate and create a strong Six Realms' Power, while the Heavenly spirit kungfu allowed him to develop his Celestial Phenomenon ability.

"Big Sis Long, Bing Yan has come out. You can go and have a good talk with her now." Yue'er suddenly flew over and said with a smile, "Bing Yan will teach you how to grasp the power of the Ice Laws."

Shui Bingyan had the Dao heart stone, so long as it was a small pellet, it could bring a lot of benefits to a person. At that time, Chen Xiang had also given some to Feng Yujie, and when Feng Yujie returned to Hundreds of Flowers Village, he had also distributed quite a bit.

Long Huishan nodded, then said to Chen Xiang: "When the time comes, I'll try my best to come out of seclusion and quickly support you."

Hearing Long Huishan's words, Yue'er immediately understood that Chen Xiang was also participating in the selection competition.

After Long Huishan left, Chen Xiang asked: "Sister Zi Lan, are there any training rooms here?"

"Yes, deep underground. I'll take you there." Yan Zilan naturally hoped that the man he loved would become stronger.

"Yue Er, I need you to guide me when the time comes." Chen Xiang carried Yue'er and followed behind Yan Zilan.

They quickly arrived at the underground training room. Yan Zilan warned Chen Xiang to pay attention to the time, then walked out and closed the door.

Yue'er flew around Chen Xiang once, and said in shock: "How did you create the fourth Divine Deity? You just managed to cultivate the third Divine Deity not long ago."

Last time when Chen Xiang was training the third Divine Deity, Yue'er was the one who was giving him pointers. Yue'er remembered it very clearly, and not too long after, Chen Xiang created a set of Divine Deity.

"I fused with that Great Divine Deity, and then I used the Qilin fire chain to cultivate my divine soul." Chen Xiang said: "When I was fusing with the Great Divine Deity, I used the method of me refining the pellet ... The specifics are a bit complicated, but in short, this is my new method. It's just that I didn't think that the bug empress would no longer have great Divine Deity, what a pity. "

"Even if it fuses with that Great Divine Deity, isn't that a little too fast ..." Yue'er, who came from the Star Law Divine Realm, found this unbelievable as well, and it was only ten-odd days ago. "Alright, this is a technique you just created, it should be related to the Heavenly Alchemy, right?"

Chen Xiang nodded his head: "I am preparing to participate in the selection, I need to master some techniques or methods to use Bones, I do not have much understanding towards Bones, of course, I mainly use them to deal with Hell Devil Emperor."

Yue'er of course knew about the selection, because the Hundreds of Flowers Village had been picking people to participate in it in the past few days, and also through competitions.

"When the time comes, your two younger sisters will participate. Aren't you afraid of hurting their hearts?" Yue'er laughed. "You might be softhearted when the time comes."

"It's not like I've never hit them before." Chen Xiang laughed: "Don't worry about that. If I meet them, I must defeat them so they won't think that I, their brother, need their protection."

"Oh right, will Xianxian participate?" Chen Xiang asked.

"No, the beauties who forge equipment and refine pills don't like fighting, but they don't look weak either." Yue Er said. These days, she had been the darling of the Hundreds of Flowers Village, and they got to know each other very well.

"Let's get down to business. The divine soul that you fused with is the Star Swallowing Divine Cow's and this guy can also be considered to be from the Star Moon Divine Race. He must definitely have a very powerful Star Moon within his divine soul, so the Bones technique that I use is suitable." Yue'er said: "I suggest that you integrate all of your Bones into the Star Moon divine soul in the future so that you can use my technique. In the future, I will teach you the Divine Star-Moon Art so that you can absorb the power of the Star Moon."

"Yue'er, you are so kind. Thank you so much." Chen Xiang rubbed her face.

"I'm very grateful to you as well. If it wasn't for you saving me, I might still be serving as a sacrifice right now." Yue'er laughed.

Yue'er entered Chen Xiang's Divine Sense Sea and passed her Bones technique to him, allowing him to familiarize himself with her first.

"The Bones and methods I use are reserved and insidious." Moon Child said, "In other words, when you attack, there won't be any aura. Only when you attack the enemy will it be effective. Strength is also the type that belongs to the Yin attribute."

"If you do not hit, then you will not need to use up your energy. You are training in the Six Realms' Power, so through the transformation of the Six Realms' Power, the power that you unleash will become even more terrifying." Yue Er said.

"Divine power of the cold moon." Chen Xiang muttered, and then used this technique to circulate the Six Realms' Power in his body, and when it flowed into his fist, it released a faint light, just like moonlight.

"Yes, this is an ice-cold power, but it will not directly freeze the surface of the enemy. For example, if you hit the body of the enemy, the cold power will be able to instantly pierce through their air filth, or even freeze their bone and blood." Yue'er replied, "Of course it's not just the effects of the cold, because the power of your Bones is already very frightening. This cold energy is only supplementary."

Chen Xiang nodded his head. Even if he did not use Six Realms' Power s, directly using his fists against it would still be able to unleash a very terrifying power. If his Bones and Six Realms' Power were to work together, the power would be even more terrifying.

"If you want to be a little more violent, then use the Meteor immortal power." Yue Er said.

Chen Xiang tried using the technique that Yue'er had just taught him and as he rolled up the sleeves of his left arm, he only saw a wave of energy that caused his skin to bulge out.

"Come here." Seeing that the power was about to burst out of his fist, Chen Xiang anxiously controlled it, otherwise, it would cause a big commotion.

"I really didn't expect that after using it, Bones and Bones would actually absorb a large portion of Six Realms' Power so fiercely. After passing through the Bones, that surge of Six Realms' Power shot out of the fist like a meteor. The power it released must be very sharp." Chen Xiang exclaimed, and was secretly overjoyed.

Chen Xiang grasped it very quickly, especially the Meteor immortal power just now. He used it several times in a row, and the power he used each time became greater and greater.

"What's going on? It's actually hotter than before." Yue'er exclaimed, "You don't seem to be directly using the Six Realms' Power."

Chen Xiang said as he nodded his head, "No, the Divine Deity that I have condensed just now is flame Divine Deity. I now have two flame Divine Deity, I want the Six Realms' Power to first pass through two flame Divine Deity and transform it into firepower, and then let the Bones absorb it and transform it into Meteor immortal power."

"So that's how it is. It's pretty good to use it like this." Yue'er replied, "These two moves are enough for you to use."

Chen Xiang looked at his left hand and sighed: "It's a pity that only this part has Bones."

[Chapter 2079](#)

Chen Xiang had mastered these two moves in just one night, but he felt that it was not enough. After that, he used a few more days of time and used a portion of the Bones techniques once or twice.

"You don't need to use weapons in battle, but you can use protective gear." Yue'er replied, "This way, you won't be able to use your God Murdering Sword Techniques at all."

The God Murdering Sword Techniques was also one of Chen Xiang's trump cards, although he did not use it much.

"I'm fine." Chen Xiang understood the Seven devil-slain kungfu, and there were similarities between the time changes in the first style and the God Murdering Sword Techniques.

Chen Xiang exited the secret room. After taking a bath, he used the Transmission array to head towards the Hundreds of Flowers Village. Under Yue'er's lead, he arrived at a large courtyard that was surrounded by three sides of a mountain.

"This is where they forged their equipment. The environment is not bad." When Chen Xiang walked into the courtyard, he immediately felt a warm wind blowing. It was extremely sultry inside, but he was able to endure it.

At this time, Dongfang Xinyue and Liu Meng'er were both sitting cross-legged on stone stools beside the stove. Although it was very hot in this place, they did not feel hot at all.

The two girls were dressed in extremely loose white dresses, and when Chen Xiang arrived, he did not disturb them. He entered the hall in the house, and the moment he entered, he saw that Xue Xianxian and Dongfang Jing were there. They were carefully looking at a drawing on a long table, and did not notice that Chen Xiang and Yue'er had entered.

"Brother." Dongfang Jing unintentionally turned her head to look outside, and suddenly saw Chen Xiang standing there smiling, and exclaimed in surprise.

When Xue Xianxian heard it, he also raised his head. After seeing Chen Xiang, he was rarely overjoyed and hastily walked over.

"I've been back for so long and finally saw you." Xue Xianxian and Chen Xiang hugged each other for a while, then looked at each other with deep emotions. They didn't need to say anything more, as they could already feel each other's feelings.

"I heard from Yue'er that you guys wouldn't be staying in seclusion during this period of time, so I came here to try my luck and see if I could see you busy beauties." Chen Xiang laughed, and gently caressed Dongfang Jing's head: "Jing Jing has become more powerful too, she is now a Master Refiner."

"Brother, I missed you so much." Dongfang Jing hugged Chen Xiang's arm and said tenderly.

Chen Xiang looked at Liu Meng'er and Dongfang Xinyue who were outside. They seemed to already know that he had come, but continued with their matter.

"What are the Elder Sister Meng'er and Xingyue doing? Why are they so serious?" Chen Xiang asked softly.

"They are smelting artifact materials, which is very critical, so they can't stop right now." Xue Xianxian held Chen Xiang's hand and chuckled: "Little scoundrel, don't go around bullying people in Hundreds of Flowers Village."

"How could I? I'm very honest, don't you believe me?" Chen Xiang looked at Yue'er, who was in Dongfang Jing's embrace, and saw Yue'er shake her head.

Xue Xianxian laughed, "Look at Yue'er, she isn't even helping you. Honestly speaking, who have you harmed this time?"

"I really don't have any. Yue Er, you're really not kind." Chen Xiang scratched his head, looking at Yue'er aggrieved, and then looking at Dongfang Jing.

"Brother, just be honest with me. It's going to be like this anyways. It's not like Sister Xianxian will say anything to you." Dongfang Jing smiled gently and sweetly.

"Jingjing, you ..." Chen Xiang was completely speechless, Dongfang Jing actually said the same thing.

"Well, yes. 'Sister Violet Orchid and Sister Hui Shan ...' And there's also Sister Qinlian." Chen Xiang told her the truth. This was the woman that he had intimate with after he returned.

"This... 'Really? Big Sister Hui Shan, you dare to move.'" Although Xue Xianxian said that, he was already stepping on Chen Xiang's feet.

Dongfang Jing also snickered by the side.

"Xianxian, can you guys help me refine a pill furnace? After so many years, I still don't have a good pill furnace. Chen Xiang purposely pretended to be pitiful. After Xue Xianxian heard this, he snorted: "Why didn't you say so earlier?"

Chen Xiang laughed: "How can it be as good as yours, using your pill furnaces to concoct pills, I will definitely make it much smoother, I will concoct many pills for all of you to eat."

Xue Xianxian looked at Dongfang Jing and immediately took out a thick piece of paper: "This is the blueprint that we found in the Divine Book, it's mainly for refining a Divine Stove, it's not difficult for us to refine it, it's just that we are lacking in the materials, because the materials that we need are materials that we have never seen before, so we have never heard of them before."

"What materials do you need? Give me a list and I'll think of a way to get it." Chen Xiang said.

Xue Xianxian immediately wrote down a list for Chen Xiang, they were only missing three items, Chen Xiang had heard of them before, but since they were lacking, then they must be very precious.

"Right, there's one more thing." Chen Xiang let the profoundwu clothing reveal himself and said: "This is the profoundwu clothing, have you all seen this before from that Divine Book?"

"I have." After Xue Xianxian learned that this was a profoundwu clothing, he suddenly became very excited. He anxiously came over and touched it, and then used his spiritual sense to investigate this profoundwu clothing, which was the same for Dongfang Jing.

"It's broken, and it's very serious." Xue Xianxian said as his brows knitted together, "Originally, there were nine Divine Deity grooves here, and they were meant for Divine Deity. Now, there's only one of them, and the fused Divine Deity does not match the profoundwu clothing either, causing the profoundwu clothing's power to decrease by a lot." Xue Xianxian said.

Dongfang Jing nodded his head: "But repairing isn't easy either, according to the records in the Divine Book, refining this profoundwu clothing back then was extremely difficult, it was one of the hardest among the five divine weapons."

"This profoundwu clothing is very hard to obtain." Chen Xiang said, then Xue Xianxian and Dongfang Jing guided him and quickly took it off according to the method written in the divine book.

Chen Xiang now knew that when Xue Xianxian and the others were refining and setting up the array, they were both involved in the coordination and usage of Divine Deity, so they had a very deep understanding of this aspect.

"Can you guys fix it? Do you need me to refine something else?" Chen Xiang asked.

"I still don't know. Let's talk after Elder Sister Meng'er and Sister Warm Moon have arrived. Although this profoundwu clothing is broken, its defensive power is still very strong. It's alright for you to just take it off like this." Xue Xianxian was a little worried, this was Chen Xiang's life saving armor.

"Don't worry, I still have other methods." The Art of Breeding Heavenly Elephants that Chen Xiang cultivates is also a very powerful defensive godly art.

"The dead man suddenly came back and threw us so many things to do." Liu Meng'er's soft groan came from outside the door. Hearing Liu Meng'er's voice, Chen Xiang couldn't help but think back to everything that had happened between him and Liu Meng'er.

Dongfang Xinyue smiled at Chen Xiang charmingly, that charming smile was filled with a myriad of emotions. As Liu Meng'er spoke, he had already reached the side of the table and picked up the profoundwu clothing, looking at it.

"I can fix it. It will take some time, but it's a bit more difficult to fill in the missing Divine Deity." Liu Meng'er handed the profoundwu clothing over to Dongfang Xinyue, and then gently wiped the sweat off Chen Xiang's forehead.

A few days ago, that girl You Lan came to find me. She said that she wanted to fight for us, the Hell Devil Emperor. Liu Meng'er asked, she was not clear about these things.

[Chapter 2080](#)

Liu Meng'er and the others weren't very clear about this matter, and Leng Youlan didn't explain in detail to them either, as if he was worried that they would stop him.

Chen Xiang told them about this matter.

"No wonder Qilian came to find me a few days ago and asked if I wanted to participate in the competition. We were not interested in that." Liu Meng'er said: "When the time comes, You Lan and Qianxiang will definitely go all out. They really like fighting against all kinds of opponents."

Seeing Chen Xiang's smile, Xue Xianxian asked: "Husband, you aren't participating right?"

I'm definitely going to participate. Don't you know how much the little baldy underestimates me? Chen Xiang said with an unconvinced face: "You're still saying that I don't have any proper methods, so I don't have any strength."

Liu Meng'er and the others were Chen Xiang's women after all, so they knew everything about this. Even though they were not clear about Chen Xiang's strength at the moment, according to their understanding of Chen Xiang, there was no way he would do something where there was no chance of victory.

"When the time comes, we won't go. You will definitely win. This is something without any suspense. Since we know you can win, there's no point in us going." Dongfang Xinyue smiled as she caressed Chen Xiang's handsome face.

Xue Xianxian said: "Sister Han Rou came to us and told us that you have collected all the Ancient Divine Weapons. Can you let us take a look?"

Liu Meng'er and the others were more interested in these things, just like how Leng Youlan and the others were obsessed with battles.

Chen Xiang placed the Azure Dragon Divine Saber, Suzaku bow, Qilin fire chain and the White Tiger Gloves on the table. These items looked extremely ordinary, but were all refined by the Heavenly Divine Lord.

"Heavenly Divine Lord has recorded all he learned about artifact forging in the Divine Book! "All of these are in that book. Now that I can see what's inside, it's pretty amazing." Liu Meng'er held onto the Green Dragon Divine Saber and waved it a few times. Although the blade looked very ordinary, the materials used and the complicated Spirit grain inscriptions drawn inside were not ordinary at all.

After playing with them for a while, they finally got Chen Xiang to keep them. The only problem was that these divine weapons did not have enough Divine Deity within them.

"Leave this profoundwu clothing with us for now. We will help you repair it as soon as possible." Liu Meng'er placed the profoundwu clothing into a wooden chest and stored it away. "What you need the most right now should be a good pill furnace!"

Chen Xiang nodded, "Didn't you guys say that you are lacking materials? The materials to refine that divine furnace must all be from the Divine Nations, and I might have to go there to find them. "

Xue Xianxian kept all the blueprints on the table, and took out a few cups, and poured some fragrant fruit juice for the people here.

"There's no need to go to the Divine Nations to find him." Xue Xianxian took out a plate, poured some juice on it and passed it to Yue'er.

"Thank you, Sister Xianxian!" Yue'er tenderly said.

Xue Xianxian smiled, gently patted Yue'er's little head, and continued: "You can ask Great Divine Lord for it. The Divine Book in our hands was originally from Nine Divine Kings, so they definitely have a lot of materials in their hands."

Dongfang Xinyue also nodded his head, "Since they have the intention to return to their country, they must be hoarding quite a bit of resources in this area."

Chen Xiang did not actually think about going to Great Divine Lord, he really did need a good pill furnace, the divine pills he refined next would require him to make all sorts of dangerous attempts, ordinary pill furnaces would not be able to handle them.

"Alright, I'll go now!" Chen Xiang nodded.

When Great Divine Lord and the others were saved, they built a Heavenly Divine Palace on that desert. Great Divine Lord even said that he wanted to open a dragon vein!

Chen Xiang still remembered where he was. He had left the Hundreds of Flowers Village and was teleported to the nearest city in the desert. After arriving at the city, he immediately found out that the Heavenly Divine Palace was openly recruiting disciples.

Right now, Great Divine Lord could not directly participate in the affairs of Nine Heaven World, or else Divine Nations would also take action, and seeing the outbreak of war here was not what Great Divine Lord wished to see, but he could take this opportunity to choose an outstanding seedling to begin nurturing. Right now, he had so many resources, and Great Divine Lord and the rest had a deep foundation, he could quickly nurture a group of outstanding disciples.

This city was still rather far from the Heavenly Divine Lord, but Chen Xiang knew where he was heading. He immediately used the Space wind to go through a mountain range, and discovered that he seemed to have taken the wrong path.

"It should be a desert ahead!" Chen Xiang looked at the beautiful prairie in front of him and started to suspect if he had recognized the wrong direction.

Just when he was unsure, he saw a group of people riding magic treasures flying over. Behind them, there were also people riding magic treasures continuously, and there were quite a few people coming and going.

This place has definitely been remodeled by the Heavenly Divine Palace before. With their powers, this place is too easy. After Chen Xiang understood everything, he continued to use the Space wind to move forward.

Not long after, he stopped because he felt a weak spatial fluctuation in front of him. This was caused by a powerful formation.

In front of them was the majestic Heavenly Divine Palace. Just the golden door was enough to shock everyone, let alone the tall buildings inside.

Through the wide open doors, one could see the magnificent buildings and the tall mountains. There were not just buildings, but also mountains and rivers, making the interior very beautiful and comfortable to live in.

Although the door was wide open, not everyone could enter. The door that led to the dragon had a translucent barrier that could be seen at a glance. Anyone who entered would be blocked by this barrier.

What Chen Xiang did not understand was that there were no guards outside the gate nor were there any other small doors. He did not know how to enter as well, but many people were currently waiting and chatting at the bottom of the gate.

An old man who was very talkative saw that Chen Xiang was at a loss, and walked over, laughing: "This little brother, is this your first time here? Don't you know how to get in? "

Chen Xiang didn't have any way to contact the Great Divine Lord right now. He nodded, he wanted to see the Great Divine Lord as soon as possible.

"Don't worry, once noon arrives, the enchantment will weaken. As long as you can enter this door, even if you pass the first stage of the examination and the next stage, I heard that there are a total of three stages. You will be able to become a member of the Heavenly Divine Palace after passing the first stage." The old man said, "I can pass the first stage, but I can never pass the second stage."

Chen Xiang finally understood that there were actually many people who came here every day to try and pass the ten trials set up by the Heavenly Divine Palace!

"Interesting!" Chen Xiang laughed, he also wanted to see the content of the Heavenly Divine Palace's examinations.

"Young man, being confident is a good thing, but being too confident is not so good! This exam was extremely difficult, especially so for the final test. It was said that not even Empyrean Gods would be able to pass it! But strangely, only a few imps from the profound God and True God could pass, so I guessed that someone was guarding the third trial. " The old man said.
