

Dan God 2091

[Chapter 2091](#)

Chen Xiang did not dodge, because with this unnecessary action, he did not know what powerful array Leng Youlan used, to actually have such a miraculous power.

At this moment, raging flames were raging under his skin. He had used the Scorching Sun Heavenly Elephant from his Art of Breeding Heavenly Elephants to make his body feel the scorching heat on the surface of the scorching sun.

In just ten breaths of time, Chen Xiang felt as if he was being pierced by over a thousand of these cold greatswords. The Killing Array that Leng Youlan used was not simple, if he did not focus his attention to deal with it, he would definitely die here. Chen Xiang understood this type of Killing Array the best.

The killing array stopped its attack, the runes floating in the air slowly dimmed down, the place was filled with the icy cold power that Leng Youlan had released, the runes that were quickly forming in mid air! could instantly form an array pattern, this must have been done many times. Chen Xiang never thought that the who always hated Spirit grain could actually train to such an extent.

Leng Youlan was still far away and she knew that it was extremely dangerous to approach Chen Xiang, especially that fist strike Chen Xiang used to attack him was something she secretly remembered in her heart. The moment Chen Xiang got close to her, if she could not push him back, it would be extremely dangerous.

Right after the Ice Sword Killing Formation ended, Chen Xiang felt that something was wrong with the ice beneath his feet. He instantly thought of something and jumped fiercely, but his legs were firmly held back and he was actually unable to raise his feet.

"So all of that was done on purpose to distract me. The formation beneath my feet is..." Just as Chen Xiang reacted, Leng Youlan had already rushed over from behind him. She used her large sword to slap him ruthlessly from the side, wanting to knock him down so that Chen Xiang would lose.

However, the moment her ice greatsword touched Chen Xiang's cheek, Chen Xiang's cheeks suddenly turned into a red-hot lump of metal. When her ice sword touched Chen Xiang's extremely hot cheek, it directly melted into mist.

"Come here!" Chen Xiang channeled his energy with his two swords, and the thick ice beneath his feet started to spin, turning into a vortex. Leng Youlan who was standing far away, suddenly appeared in front of Chen Xiang in the blink of an eye, and she was actually brought over by Chen Xiang.

"Spatial energy!" Leng Youlan was extremely shocked, she had never seen spatial energy of this level before. Without her permission, he actually allowed her to move, and under normal circumstances, would require her to be in a relaxed state to be able to move.

Right now, she was fighting and did not relax at all, but Chen Xiang had actually managed to get her here without anyone noticing.

"Hey!" Chen Xiang laughed, the impact of the Meteor immortal power's punch had already struck towards Leng Youlan's jade face. Surprised, Leng Youlan immediately wanted to retreat, but found himself stepping on the ground, his fist accurately landing on her face.

[illegible]

The moment Chen Xiang's fist struck, she could only block it with her face, but of course, she was still in great pain.

Leng Youlan was originally going to be knocked flying, but when she flew to the edge of the fighting stage, for some reason, she suddenly changed directions and flew towards Chen Xiang who was in the middle of the stage. She could very clearly see Chen Xiang's fist flying towards her, but right now, her face was flying towards Chen Xiang's fist.

B00M!

The shock wave produced by the explosion of his power was even more powerful than the shock wave caused by the frost above the arena turning into ice crystals. Although Leng Youlan had also created a thick layer of ice to block on his face, the power of the Meteor immortal power was not only scorching hot, it also had a very strong penetrating power.

Leng Youlan was completely dazed by Chen Xiang's punch. Divine Sense Sea trembled slightly, the sound reverberating throughout the air, and he immediately flew out of the fighting arena.

"Aiya!"

Leng Youlan fell onto the ground, then sat up and shook her head. After her headache had lessened by a lot, she looked at Chen Xiang who was giggling on the stage with a face full of resentment.

"I... I can try again." Leng Youlan was unconvinced: "Bro, you're using your spatial power, this is not fair."

Zhu Rong secretly rejoiced in his heart when he saw that Leng Youlan had been punched twice. If Chen Xiang had also used that spatial energy to play with him, then he would have truly become a pig head.

After so many years, Chen Xiang's control over spatial energy had also improved greatly.

Chen Xiang laughed: "I never said I won't use it, it's also a part of my power! You Lan, when you go back, learn how to seal the space around you! "

Chen Xiang patted You Lan's head and laughed: "You're already not bad, your series of attacks just now, surprised me! Of course, even if I don't use Spatial Force, I can defeat you. However, I need a bit more time, so I want to end it quickly. "

Seeing Chen Xiang easily defeat Leng Youlan, everyone had a new understanding of his current strength. What made them fearful was that Chen Xiang had still hidden terrifying strength, and it was far from being as simple as it seemed on the surface.

"Alright, I admit defeat." Leng Youlan pouted and said. Just now, she had personally felt Chen Xiang's Meteor immortal power, and it was truly terrifying, in order to block these two punches, she had already

used the majority of her Mysterious power. If she had blocked a few more punches, her Divine Sense Sea would have been hollowed out.

At this time, Mu Qianxiang and Yun Xiaodao were still engaged in an intense battle, and Mu Qianxiang was actually suppressed by Yun Xiaodao. Chen Xiang could not help but frown, and Yun Xiaodao's hidden strength also surprised him.

"This Little Yun, actually did not bring out his true strength against Wang Jing! On the contrary, using schemes and tricks, look at Wang Jing, his face is turning green. " Zhu Rong laughed out loud. "Looks like this guy will use the same tactics on whoever he wants to deal with."

Chen Xiang nodded his head: "He felt that if he were to use that tactic on Wang Jing, he would definitely win, and it would not consume too much energy, and he would not reveal his true strength, that's why he acted like that. At the same time, he treated the battlefield as a training ground."

"Xiao Xiang's ultimate move has been called." Leng Youlan suddenly shouted, the entire stage started to tremble, six swords of different shapes surrounded Mu Qianxiang, and these were not real swords.

Chen Xiang was shocked: "What is this?"

After Mu Qianxiang fell into a difficult situation and was just about to be defeated by Yun Xiaodao, the moment she released these six divine swords, which surrounded her body, Yun Xiaodao immediately did not dare to get closer.

"Let's go!" Mu Qianxiang controlled the six swords to fly towards Yun Xiaodao.

Yun Xiaodao retreated a few steps, he was fully prepared to counterattack, but all of the six swords suddenly turned into rays of light and lit up Yun Xiaodao. Surprisingly, this ray of light had a strong impact, causing him to feel as if his body was struck by a flying boulder.

"Bastard!" Yun Xiaodao cursed under his breath, and then was flung off the stage.

[Chapter 2092](#)

Mu Qianxiang heaved a sigh of relief when he saw Yun Xiaodao fall off the stage: "That was close, I initially did not want to use this move, but I did not expect to be forced out here."

It was astonishing that she was able to release six such strange swords, but she was actually not a real weapon. Just like Leng Youlan, she had condensed them using her own divine power, and some cultivators were even able to condense their own portion of the divine power into a divine weapon in times of danger.

The next round would be drawing lots. As long as they could obtain the victory of the next round, then two spots would be determined. Then, the two people who had lost would fight another round, and they would obtain the final spot.

Chen Xiang and Mu Qianxiang had both entered the next round, and were drawing lots with two men who looked extremely similar.

"You two are brothers." Chen Xiang asked curiously. The two men looked handsome and wore white clothes. They both smiled and nodded.

After drawing lots, Chen Xiang actually did not fight with Mu Qianxiang, but chose to be modest and polite with one of the men. The big brother's name was Zhou Qiang and the little brother's name was Zhou Sheng.

Chen Xiang understood that the strength of the Divine City was also not bad, and the City Lord was also a rare genius. This was what he had heard from Wang Jinshi and Yan Zilan, and they did not know much about it either.

Chen Xiang and Mu Qianxiang had four hours of rest. At this time, Yan Zilan and the others were also gathering various information on their opponents, but they didn't gain anything.

We noticed their fight just now. These two are very strong, and they won easily, or their opponents were too weak, so we couldn't force them to use their strongest power. In short, their fight ended very quickly, and their opponents wouldn't be able to last three moves. Duan Sanchang said. The two brothers were also the highlight of today's match.

Mu Qianxiang said: "Brother, as long as we win this fight, we will be able to fight."

Leng Youlan laughed: "Xiao Xiang, don't hide it from the beginning. Use your strongest strength as soon as possible to prevent yourself from being defeated like me, who has yet to unleash my true strength."

Mu Qianxiang nodded his head, but Chen Xiang was a little worried. That pair of brothers of the Zhou family seemed to be not bad, and they were also very talkative, giving pointers to the people who lost to them just now, making them feel extremely respectful to them.

"I have been to the Great Zhou Empire once, and this Divine City existed since long ago. Every time there was a crisis, this Divine City would mysteriously disappear. Penalty Heavenly God said: "This City Lord is a good person, I have come into contact with him twice, and it is all because someone ran to his Divine City with me as my captor. I am only greeting him, he will bring the person I am capturing here soon."

"These two brothers aren't simple. Several of their opponents were not bad, but they were not able to withstand three moves. Furthermore, from the beginning to the end, they didn't use any techniques. All of them were very simple punches and kicks." Gu Dongchen said: "What's strange is that the power they are using is not the kind of fierce physical body power, nor is it divine power with an attribute. What exactly is the power they are using?"

Devil-killing Heavenly God shook his head: "I can't tell either, but it might be because their father created some kind of powerful divine technique, or he obtained it from somewhere. After cultivating it, he would be able to obtain that kind of power."

Chen Xiang used the Dao heart Eye to look at the Zhou brothers. Surprisingly, he did not find any obvious energy flowing through their bodies.

"Yue Er, what do you think of those two brothers? Did you notice them on the side just now?" Chen Xiang sent a sound transmission to Yue'er. Chen Xiang used the Dao heart Eye to sweep across everyone present, and more or less, could see the obvious trajectory of the energy in these people's bodies.

Chen Xiang felt that he should have already seen it. It was just that the power was transparent, so he could see the power of the semi-transparent state of the mist.

Unknowingly, it was time for the break. The two matches would be held at the same time.

Yue'er replied, "I didn't discover anything. Unless they can use more of that power, their strength and aura aren't very obvious."

Chen Xiang was sparring with his big brother Zhou Qiang. After walking onto the stage, he forcefully smiled and said: "Brother Shen, I've heard a lot about you. It's my honor to be able to fight with you today, even if I lose."

"Brother Zhou, don't be so modest. To be able to reach this step, you must have extraordinary strength." Chen Xiang replied with a smile.

"Begin."

Chen Xiang knew that Zhou Qiang usually only defeated him in three moves, so he was extremely cautious from the start, and used a very conservative method, to let his opponent attack first.

The strongest indeed was the first to attack. It looked like he had only taken a few light steps, but in Chen Xiang's eyes, his movement skills were extremely strange, and he was actually dazzled by it.

"What is this movement technique?" Chen Xiang released the Spatial Perception Domain, which accurately sensed the movements of everyone around him. However, at this moment, he felt that there were seven to eight Zhou Qiang on stage, having been here from all directions, but he could only see one Zhou Qiang.

"There's one more up there." Chen Xiang was shocked. In that moment of danger, he found a gap and dodged all the attacks from Zhou Qiang.

Chen Xiang was completely shocked in his heart. No matter if he was using his eyes or the divine soul floating in the air, all he saw was a single Zhou Qiang. However, seven or eight of them suddenly appeared just now.

Chen Xiang dodged, but Mu Qianxiang, who was on the other stage, did not, with just two shouts, Mu Qianxiang was pushed off the stage, with a face of confusion, it was clear that she had met with the same situation as Chen Xiang.

"As expected of Chen Xiang, he actually dodged the first move." Those below who had fought with Zhou Qiang before cried out in alarm. They had all experienced that kind of extremely strange attack, and although they had clearly dodged it, they were still struck by this strange attack, which was followed by the second move, and were blasted off the stage.

Mu Qianxiang had already finished her battle and was defeated by Zhou Sheng in two moves, which made Mu Qianxiang extremely unwilling, but she could not say anything, because the other party had used her own strength to defeat him. Hearing the discussions of the others, she knew that the two brothers had grasped this strange offensive movement technique.

"Xiao Xiang, what happened just now?" Leng Youlan asked anxiously. The three teachers, Wang Jinshi, Bai Youyou and Bai Ziqian, were extremely curious to know about Mu Qianxiang's strength.

"There were at least four guys attacking me from four directions just now, and they were very fast too. I only managed to dodge two, and then I was hit. The next second move was the same as well. I didn't

dodge them, and was already hit." Mu Qianxiang frowned, and looked at Chen Xiang's stage: "You are truly worthy of being my brother, to actually be able to avoid such an attack unscathed."

[Chapter 2093](#)

When Zhou Qiang saw that Chen Xiang was able to dodge his first move, his face revealed a look of shock: "Brother Shen is truly amazing, he has fought with me before, and has never been able to avoid my first move, your first person."

"You're too kind, you're very powerful, this is the first time I've encountered such a technique." Chen Xiang laughed, he was also secretly curious what kind of technique Zhou Qiang was using, not only was his movement skill so strange and powerful, the power he was using was also very mysterious.

"Look at this." Zhou Qiang laughed lightly, shouted, and rushed towards Chen Xiang once again.

"16, double the number." Chen Xiang was shocked once again. Sixteen Zhou Qiang who had the same strength attacked from sixteen different directions, it was difficult for him to find a blind spot to dodge.

Chen Xiang looked at Zhou Qiang who was rushing over in front of him, he himself also flew over, raised his fist, and channeled Meteor immortal power to attack him.

He was very sure that his fist was on Zhou Qiang's face, because he could feel the warmth of his skin, but just as he was about to touch Zhou Qiang, Zhou Qiang suddenly disappeared.

"He missed. He dodged it, but it was definitely impossible, because I already touched his face. There's no way he could have dodged it in that instant. What exactly is going on?" When Chen Xiang threw out his punch, he had already activated his Heavenly Elephant Constellation and used Cloud and Heavenly Elephant, causing his body to instantly become like a cloud.

Just as he had guessed, the moment he punched, attack power from all directions hit his body, as though they were being attacked by dozens of Zhou Qiangs at the same time. However, those fists seemed to have been struck by clouds, and were unable to harm Chen Xiang's body.

It was hard for Chen Xiang to understand why the Zhou Qiang he just attacked had disappeared, and was now right behind him. He noticed that there were no marks left on Zhou Qiang's face from the punch he received.

Zhou Qiang attacked Chen Xiang the second time, but did not harm him either. He retreated to the side of the fighting stage and looked at Chen Xiang with furrowed brows, because he knew that he had met a strong opponent. Chen Xiang only had four Divine Deity, and two less than him.

"Just what is going on with this guy? His face was hit by my brother's fist, but he was able to quickly dodge and attack my brother from behind." Leng Youlan said as he frowned.

Just now, it was indeed very strange, and many people saw it clearly. It was like a blade suddenly chopping down on a demon beast, the speed of the chopping motion was very fast, the blade edge had already cut into the skin of the demon beast, but the demon beast suddenly dodged and rushed from the back, violently attacking.

"I see." Chen Xiang sent a sound transmission to Yue'er. "Yue'er, if you knew how to grasp the laws of time and use some techniques, would you be able to do what you've just done?"

"That's right, this fellow is using the Law of Time." Yue'er replied, "This is an extremely rare Law Energy. Although it is everywhere, the people who grasp it are very few."

In the past, when Chen Xiang used the God Murdering Sword Techniques and the speed of his Seven devil-slain kungfu to change, he also had this kind of state. It could create two different types of time in the same space and then produce an effect, which would then cause the other person's movements to become very slow while himself became very fast. In this way, in the eyes of outsiders, an inconceivable speed would appear.

Zhou Qiang, on the other hand, was even more proficient in using the power of time. He who was able to split a few periods of time and then use these few people to quickly attack, and the one who was injured, could immediately recover before being injured.

Chen Xiang only had a very vague idea of how to use time to attack. He did not know the specifics, but the two brothers Zhou Qiang were not only able to control the power of the Time Laws, they also had some methods to use it, which was why it looked so strange.

"We've encountered a powerful opponent." Chen Xiang didn't know why, but he felt a kind of secret excitement in his heart. All he knew was that the Azure Dragon controlled the Time Laws, but because of so many reasons, he couldn't even meet with the Azure Dragon once, and could only ask him about the power of time.

Now that he had encountered one and was even able to be his opponent, if he had fought a match, then he would definitely have a better understanding of the power of the Time Laws.

"Looks like there's only one way to defeat him." Chen Xiang took a small breath.

Zhou Qiang also felt that he had met a strong opponent. This was the first time he had met someone who was not only unscathed after two moves, but also capable of injuring a time clone.

"It's the power of time..." After that, he said what he had seen and said, which was more or less what Chen Xiang had thought just now.

There were also disciples in the crowd who were experienced and knowledgeable, because Chen Xiang was the first person to probe out Zhou Qiang's strength. From the strange situation before, some people inferred that it was the power of the Time Laws.

Many people did not understand, but those who understood found this difficult to decipher because the other side controlled time. If their bodies were to continuously return to a situation where they did not consume any energy nor were they injured, wouldn't that mean that they were invincible and would never waste energy?

Previously, Chen Xiang had also used a similar method to treat his wounds, and it was indeed very useful, but his control over time was not strong enough, so he rarely tried it again.

"This place is indeed a crouching tiger, hidden dragon. I didn't expect it to be seen through so quickly." Zhou Qiang smiled slightly: "Brother Shen, I hope that you do not disappoint me, let me see how capable you are."

"Alright." After Chen Xiang said this word, he immediately released an even stronger power of the spatial laws that formed a Space Domain. This allowed him to more clearly control his surroundings's movements.

"Space Domain, huh? Not bad, not bad." Zhou Qiang looked around, although the Space Domain was invisible, he could feel it.

Not long after Chen Xiang released the Space Domain, he felt that something was wrong, because his Space Domain did not seem to be here. This feeling was very strange, because even though he had released the Space Domain, his Domain had not appeared, and it had not been broken.

"Time Domain, make the time on the stage compare to before my Space Domain, this way my Space Domain will have no effect." Chen Xiang frowned, his power of the spatial laws was actually suppressed.

"That's right, your Space Domain is still here, but it's not on this stage. The stage that your Space Domain covered is still here, but you can't see because it's already been covered by the stage." Zhou Qiang laughed bitterly: "Perhaps this is a little complicated, but to put it simply, the past, future, and now can all be folded together, and this stage is just like the past, while your Space Domain is covered with the present, which I have hidden."

Leng Youlan scratched his head: "It's so complicated."

Yue'er said: "It's more difficult to understand, the fighting stage that we are now seeing is a few hours away, at that time there are no Space Domain, and Chen Xiang is continuing to use the Space Domain on the stage, then as long as Zhou Qiang can push the time forward, the Space Domain disappeared again."

[Chapter 2094](#)

Mu Qianxiang said: "Doesn't that mean they can easily make people older, or younger?"

Zhou Sheng, who was beside her, shook his head and laughed, "Of course not, the only thing we can use the power of the Time Laws is our own body, or something that doesn't have any life in them, such as a stone or metal, our control over the Law of Time is only on the skin of our hands."

It was just that the situation was so dire that no one could think of a way to break it.

Chen Xiang had already given up on using his spatial energy, because the other party could control time to control the changes in this space.

"It's the Heavenly dragon seal." Leng Youlan suddenly shouted.

Although Chen Xiang had not used it for a long time, his speed was still much faster than before, and could almost release it in an instant. In the air above the fighting stage, hundreds of dragons roared ferociously like lightning, and hacked down continuously.

Just as the first attack landed on Zhou Qiang's head, it suddenly disappeared.

"What?" Chen Xiang looked at the condensed Qi Vortex in the sky, and suddenly disappeared.

"I just sent it to another time slot, hehe." Zhou Qiang laughed and then he disappeared. Once again, he controlled the time difference between him and others, allowing himself to achieve an extremely fast speed. At the same time, he appeared and attacked Chen Xiang from all directions.

Chen Xiang's body turned into a scorching sun that was as hot as billowing magma. At the same time, he also poured all of the fire energy within the Fourth Divine Deity out, forming an extremely scorching barrier that was connected to him.

When Zhou Qiang attacked him from all directions, he struck the Scorching Sun Heavenly Elephant and the scorching shield of Qi and immediately retreated. He could not endure the scorching heat.

"What a powerful flame power." Zhou Qiang was unable to directly control the power that was tightly connected to Chen Xiang to undergo the change in time. The hand that he had struck Chen Xiang's abdomen earlier was already burnt red.

However, he quickly recovered. Clearly, he had used a change in time at the place where he was scalded to produce a change in time. It was now the time when he was not injured.

Chen Xiang suddenly realised that Zhou Qiang's own strength was not very strong, if not he would not be scalded by his defense. What was more powerful about Zhou Qiang was that he was using time to increase his own speed while making other people's attacks useless, and was able to produce multiple time clones to attack him, but his true strength was not very strong.

"There's simply no solution. If this goes on, Chen Xiang will be exhausted sooner or later, and his attacks are getting stranger and stranger. He might even have some tricks up his sleeve." Zhu Rong said.

"Although I don't know what kind of attack time can make, I do know that it can dissolve a very strong power. This talent is too terrifying." Duan Sanchang said.

Zhou Qiang also felt a headache, because Chen Xiang was like a hedgehog right now. He had no way to start attacking him, and he knew his own weakness, which was that his attack power was too weak, causing him to be unable to break through Chen Xiang's defense.

Chen Xiang had told Liu Meng'er and the others before that even if he did not have a profoundwu clothing, he would still be able to possess an extremely terrifying defense by relying on his Celestial Phenomenon Art.

When Zhou Qiang attacked again, Chen Xiang still did not move, but used defense instead. When Zhou Qiang's fist struck his body, his body did not become as hot as the blazing sun, instead, it produced icy cold power.

What shocked Zhou Qiang the most, was that his fist actually stuck tightly onto Chen Xiang's body, because he had already been frozen by an extremely strong chill, causing him to be unable to pull his fist back from Chen Xiang's chest. The frightening thing was that the extremely strong suction force produced by Chen Xiang's body made it even harder for him to struggle free.

Chen Xiang smiled slightly, the Meteor immortal power that he had been preparing for a long time started to surge violently in his left arm, his fist was like a burning iron fist, fiercely smashing towards Zhou Qiang's face.

Boom!

Chen Xiang's divine fist, which was produced by the Meteor immortal power, struck Zhou Qiang's face, causing brilliant sparks to fly. Zhou Qiang also cried out in pain, the Bones on his face had also cracked, and Chen Xiang's fist was truly very berserk. When Zhu Rong saw this, his heart couldn't help but tremble.

Boom.

Chen Xiang quickly punched again. Sparks once again flew from Zhou Qiang's swollen face, and half of his face was a tragic sight to behold. However, his fist was still glued to Chen Xiang's body, unable to be pulled out.

"At the same time period, it is impossible for several of you to appear, and since you are in contact with other lifeforms, your time clone cannot be replaced with you." As Chen Xiang said this, he threw out his third punch, using the Meteor immortal power to carry out three consecutive punches that caused Zhou Qiang to feel dizzy.

"Ah!" Suddenly, Zhou Qiang screamed in pain, blood spurted out from his arm, he had actually broken off one of his own arms, that way he could separate himself from Chen Xiang, if not he would have been punched a few more times, he would have been defeated.

After Zhou Qiang left Chen Xiang, he immediately controlled the time, so that his face back to before he was beaten up and his arm back to that time as well, so he was fine again. However, that pain was already deeply imprinted in his memories, making him feel fear just thinking about it.

Chen Xiang looked at the broken arm on his chest. It had actually disappeared, probably destroyed by Zhou Qiang using the power of the Time Laws.

"This... There's no need at all. " Yun Xiaodao said: "Seeing that he has the upper hand, Zhou Qiang was even punched a few times, but in the blink of an eye, he has turned back into a normal person."

Zhou Sheng said: "Chen Xiang is too terrifying, we have never met such an opponent, if my big brother wants to win, it won't be easy, and we do not know how long this battle will last."

Mu Qianxiang scoffed: You two brothers are clearly relying on your talent to bully others, but then again, if you guys were to fight with Hell Devil Emperor and the rest, don't lose.

If Zhou Qiang lost to Chen Xiang, then victory would be determined with Mu Qianxiang. Mu Qianxiang felt that he would not be able to win against Zhou Qiang, this abnormal guy.

"Chen Xiang, your strength is truly frightening. I can't compare to you in this aspect, but I must beat you." Zhou Qiang said firmly.

"If you continue to raise your strength and break through my defenses, not being affected by the spiritual power of the attributes, you will become even more powerful." Chen Xiang laughed: "I will definitely win this battle."

"Thank you for your advice." Once Zhou Qiang finished speaking, he rushed towards Chen Xiang once again. This time, his speed was even faster, and he even used the profound mysteries of time, making

the time on the stage continuously change. This way, the sensing power Chen Xiang released would be affected, and it would be difficult to determine his direction.

The only problem he had was trying to break Chen Xiang's terrifying defense, but he had already found a way.

"Multiple time overlaps." Chen Xiang had already sensed it, this was equivalent to multiple powers combining together. He estimated that it would probably be around the sixteenth stage, and this kind of power would be extremely terrifying.

[Chapter 2095](#)

This time, Zhou Qiang was also betting everything on one throw, because he knew that delaying would be disadvantageous for him, and Chen Xiang would discover his weakness.

Because it was multiple powers, when they overlapped each other, it would produce a very strong energy fluctuation. Chen Xiang could clearly feel that if this energy were to hit his body, he would probably be severely injured, so suddenly, a Yin Yang Array appeared beneath his feet. Zhou Qiang's time clones that were hiding in the surroundings suddenly slowed down a little when they rushed towards Chen Xiang.

"What's going on?" Zhou Qiang was shocked, he never thought that the time clones he controlled would suddenly be slowed down by Chen Xiang by a little, causing them to be unable to merge together.

This was something he did not expect, he thought that it would be like what happened just now. Chen Xiang had once again released cold energy to bind his arm, he had already prepared for the possibility of losing an arm, but Chen Xiang had disappeared, leaving him panicking in his heart.

When Chen Xiang who had disappeared once again appeared, Zhou Qiang felt a powerful force colliding into his back, causing his entire body to feel intense pain, especially the Divine Sense Sea, which trembled violently. Chen Xiang then used the Divine Sense Sea to attack him.

"Not good." Zhou Qiang quickly adjusted his condition to remove the pain from his body, but he discovered that he had fallen out of the fighting arena.

This was something he had learned from the God Murdering Sword Techniques and the Seven devil-slain kungfu; only then would he be able to defeat Zhou Qiang. The power of the Time Laws Zhou Qiang had used was transformed from the power of the Divine Sense Sea, and as long as his Divine Sense Sea was unable to circulate his energy for a short period of time, he would be unable to use the power of time.

Zhou Qiang looked at Chen Xiang who was on the stage and was left speechless. He had thought that he would be able to defeat Chen Xiang, but he did not expect to be defeated so quickly by Chen Xiang. He was very clear on what had happened in that instant.

"Zhou Qiang actually lost, but looking at him, he should still be able to continue fighting, it's just that the rule is that he will be able to continue fighting if he falls, but if he continues, it'll be hard to say who will win in the end."

"Chen Xiang is also very strong. Zhou Qiang hasn't defeated him for so long, on the contrary, he himself has been defeated."

"Right now, we have already determined two spots, namely Zhou Sheng and Chen Xiang. Next, Zhou Qiang will decide on a third spot with Mu Qianxiang."

"It must be Zhou Qiang's. Mu Qianxiang lost to Zhou Sheng in the last two moves, and even Little Brother couldn't beat him, so Big Brother's loss must be faster."

Although Zhou Qiang had lost, he had lost wholeheartedly and wholeheartedly. He knew that Chen Xiang had also concealed a very powerful strength, and the power that had disturbed his multiple clones just now was inconceivable to him.

"Even though I lost to Brother Shen, I will definitely be able to fight with Chen Xiang against Hell Devil Emperor and the rest in the end." Zhou Qiang chuckled, because he felt that he would have no suspense if he were to fight Mu Qianxiang right now.

"Bro ..." I give up. I'm not as good as you are. " Mu Qianxiang said with a bitter face. Her power was not weak, she had only met people who knew how to use their strange time and energy.

Zhou Qiang laughed out loud: "If that's the case, then that's for the best. Of course, I feel that Miss Mu should also go all out.

Chen Xiang smiled faintly and said to Mu Qianxiang: "Qianxiang, I'll teach you a move, maybe you really will defeat him. But first, I have to ask you, did you see through his weakness just now?"

This caused Zhou Qiang and Zhou Sheng to be slightly shocked. They themselves could not think of anyone else other than Chen Xiang, who could defeat them. Mu Qianxiang had already fought with Zhou Sheng, and was defeated in two moves.

"Their Mysterious power is not very strong. Perhaps it's because they are controlling the laws of time, so the strength of the Mysterious power is not high. Just now, he was unable to break through your defense, and you can see it." Mu Qianxiang said. Basically, everyone present could see that.

"Not bad, is there anything else?" Chen Xiang asked again.

Everyone pricked up their ears. They wanted to hear if Zhou Qiang had any other weaknesses, and that way, if they fought with these two brothers again in the future, they might be able to win.

Mu Qianxiang frowned, thought for a while, and then shook his head. "No, I can't see any other weaknesses.

Zhou Qiang frowned, and said: "Chen Xiang, if you discover any other weaknesses, please tell me, you can say them out in front of the crowd, I am not afraid of everyone knowing, I am afraid that I do not know, this way I can make up for it in the future."

"One more thing. When you use the power of time, as long as you are slightly affected by the time interference from the outside world, you will be in serious trouble." Chen Xiang said, "Initially, you had planned to use the combined power of sixteen avatars of time to attack me, but after being disturbed by me, the fusion had failed, and it had even consumed a lot of your energy."

Zhou Qiang nodded his head, "That's right, but not everyone can interfere with my time. I'm still very curious about how Chen Xiang did it, so logically speaking, you should need to use your time and energy to do it."

The Infinite refining that Chen Xiang used was able to absorb various types of energy to refine it. After releasing the Infinite refining, he circulated it to the limit and absorbed a little of the time power that Zhou Qiang released, but this actually caused a great deal of disturbance to Zhou Qiang.

Mu Qianxiang pouted and said: "Brother, then tell me how to disturb his time, I can't even do it if you tell me."

Chen Xiang pinched her face, and laughed: He still has another fatal weakness, I will quietly tell you.

Zhou Qiang's and Zhou Sheng's expression changed. They completely believed what Chen Xiang had said, the fatal weakness that Chen Xiang had mentioned, was definitely fatal.

"Brother Shen, can you tell me more about it?" Zhou Qiang asked quickly.

"You'll know after the match between Qianxiang and yourself. Whether you win or lose, you'll know." Chen Xiang smiled slightly: "Originally, I planned to use it a moment ago, but I somewhat have a bit of selfishness in mind. I want Qianxiang to win against you."

"Chen Xiang's recognized sister is indeed very strong. If I do not use my time and energy, I'm afraid I won't be able to take ten of her attacks." Zhou Qiang's face was now very serious. It seemed that he would have to use all his strength in the next round.

After resting, Mu Qianxiang and Zhou Qiang walked up the stage. Everyone was looking forward to the battle, because they had already known that Chen Xiang would teach Mu Qianxiang and let him defeat Zhou Qiang.

Just now, Shen Shi had told Mu Qianxiang sound transmission and told him the way to defeat Zhou Qiang.

[Chapter 2096](#)

From the start, Mu Qianxiang had brandished both of his hands, releasing hundreds of small swords that flew in all directions. All of these small swords were condensed from the Mysterious power, their power was extremely terrifying, able to easily penetrate skin of beasts, and even exploded when they entered.

Zhou Qiang had also used a skillful time clone to attack Mu Qianxiang from multiple directions from the very beginning, but because Mu Qianxiang had continuously released those small flying swords, his time clone had been obstructed.

"You're too slow." Mu Qianxiang could feel the energy that was approaching him from other times, so the moment it got close to her, she immediately dodged. The reason why Zhou Qiang was slow was also because of the small flying swords, because he wanted to use the time energy to make those flying swords disappear.

Zhou Qiang's first attack did not hit Mu Qianxiang, but his second attack immediately started as well. After Mu Qianxiang dodged the attack, he immediately used the Mysterious power to condense a chain to bind Zhou Qiang.

"It's useless." As soon as Zhou Qiang finished speaking, he changed the time, and the chain in Mu Qianxiang's hand suddenly disappeared, because the entire space was controlled by Zhou Qiang, he only needed to return the time before the chains condensed, and the chain would disappear.

"Sure enough." When Mu Qianxiang saw that Zhou Qiang had attacked again, she locked onto Zhou Qiang's original body and once again swung out a chain towards him.

Zhou Qiang did not expect that after Mu Qianxiang had failed just now, he would still return. When he felt the chains flying towards him, he immediately brought the time of this space back to how it was before. At this time, he also released multiple time clones, all of which attacked Mu Qianxiang from different directions.

However, this time he couldn't turn Mu Qianxiang's chain into nothingness.

"Haha, I'm trapped." She then quickly ran around Zhou Qiang, and in the blink of an eye, she had already tied Zhou Qiang up into a dumpling.

"What's going on?" Zhou Qiang was tied up by the chains, and was unable to move. He frantically circulated the power of time, wanting to make the damned chains on his body disappear, but to no avail. He was sure that the time in this space before the chains came out was when the chains would no longer exist.

But he did not. Zhou Qiang had already failed twice, and this caused him to be greatly shocked. As expected, Chen Xiang discovered a fatal weakness in his body.

Mu Qianxiang immediately rushed up, channeled his Mysterious power, and struck the chain with his palm, releasing a strong impact that sent Zhou Qiang flying out. Zhou Qiang lost even faster this time, and was even defeated by Mu Qianxiang.

Zhou Sheng, who was watching from below the stage, was stunned. Mu Qianxiang, who had just been defeated by him in two moves, had now also defeated his brother in a very short amount of time.

"I won." Mu Qianxiang was extremely excited.

Gu Dongchen frowned: "What did this girl do? Logically speaking, Zhou Qiang should have destroyed her chain, but he did not succeed."

The Devil-killing Heavenly God also found it hard to understand, "Zhou Qiang failed both times when he tried, and it was clear that he was unable to control the time change on the chain."

"What the hell is going on?" Even though Zhou Qiang lost, what he cared the most about was how Mu Qianxiang actually did it, because this was a fatal weakness.

Zhou Sheng also wanted to know: "Brother Shen, please tell us that if you are able to discover our fatal weakness, you will be our great benefactor."

Zhou Qiang said: "Our father told us before that we have a great weakness, but he was unwilling to tell us; he wanted us to understand it for ourselves."

Chen Xiang said as he laughed, "Your father should have told you guys this earlier, because that way, you wouldn't have to rely too much on the power of time. Just now, the chains Qianxiang released were not very strong, so it isn't difficult for a person with six Divine Deity to break free from them.

Secondly, you said before, your Time Laws are unable to control lifeforms other than yourself. Just now, Qianxiang's chain was wrapped with multiple strands of her hair, even though those hairs had already

left her body, they are still flesh and blood to you. Your Time energy cannot affect the change of her hair, so you did not succeed. Chen Xiang said: "Of course, if it's at the extreme, I can directly use the power of blood to defeat you."

"How did you think of using your hair?" Zhou Qiang took a deep breath. As long as his power merged with his life form, then the power of time would not be able to change it.

Chen Xiang laughed: "Because of the power of your time, the competition stage has returned a few times, and even some of the sand on the stage has disappeared, but your hair is not there, it is still there."

The three spots, Chen Xiang, Mu Qianxiang and Zhou Sheng, had already been determined.

"Zhou Sheng, the devil arts Hell Devil Emperor and the rest are using are not simple, so in these twenty days, you have to think of a way to make your Mysterious power go berserk, otherwise you will be in danger." Although the two brothers were controlling the power of time, their own strength was very weak, and could not form any offensive power. On the other hand, those who walked the path of the Evil Demon, had very strong physical bodies.

"Thank you very much." Zhou Qiang and Zhou Sheng hurriedly thanked him.

Now, they knew that during the competition with the Hell Devil Emperor, they could be on guard. After all, when the time came for the competition, they would not be as simple as stepping down from the stage.

Originally, they were only here to train Zhou Sheng, but because they were brothers, and because they were also very good seedlings, they started to train together.

Mu Qianxiang, on the other hand, was handed over to Lv Qilian and the others. As for Chen Xiang, no one could give him any pointers.

"Twenty days is simply too little." Chen Xiang felt that he did not have enough time, he faintly felt that the resources sent by the Hell Devil Emperor would be very strong, and might even be from those Divine Nations s.

"We can't let them win." Chen Xiang returned to the Hundreds of Flowers Village with Mu Qianxiang and the others. Mu Qianxiang went to look for Lv Qilian and the others.

Xue Xianxian and the others were busy repairing the profoundwu clothing for Chen Xiang. When they saw Chen Xiang return, they knew that the competition had already concluded.

"I thought you were the first one to come here, Youlan. I didn't expect that it would be you, little scoundrel. Did you lose and come here to complain?" Xue Xianxian chuckled, she was currently smelting something in the hall using a small stove.

"She lost to me, but she lost very willingly, and now she is going to cultivate together with the beautiful immortal, Qianxiang and the others." Chen Xiang laughed, "Qianxiang has obtained one of the spots"

The girls were all here, each of them with their own things to do. Some of them were smelting, some were analyzing blueprints, and some were drawing Spirit grain ...

Chen Xiang told them what happened during the competition. By the time he finished, it was already night.

"Elder Sister Meng'er, I remember that you guys used to have a Time Formation, you can get more time by going in, there are only twenty days left. I hope that you guys can have more time to help me improve." said. Back then, Leng Youlan and Xue Xianxian would often enter that place to cultivate.

[Chapter 2097](#)

Dongfang Xinyue put down the work at hand and walked over to Chen Xiang's side. He picked up the drink Chen Xiang had made and drank a little, then said: "Aren't you very strong now?"

"But the ones sent out by the Hell Devil Emperor might be from there." Chen Xiang said: "If it's really Divine Nations, with our little strength, we will definitely lose."

Liu Meng'er said, "There are of course array formations that can reverse time, but the current Nine Heaven World's space is different from before. In the past, when Nine Heaven World was still very weak, the Time Formation he used was a very high level one, so it could easily reverse time. But now it's different."

Time and space were intertwined to a certain extent, and Chen Xiang was fairly clear about this.

"How much energy will I need to gain more time?" Chen Xiang asked: "Is this dragon vein not enough?"

"The formation has been in operation for twenty days, which will allow you to obtain at least two hundred days. However, the consumption of energy from the dragon fountain is very great. If you want to obtain twenty years, I reckon ten days will be enough time for the dragon fountain to enter a very weak state." Xue Xianxian said as he took out an array disc, and saw that it was square.

Liu Meng'er, Dongfang Jing and Dongfang Xinyue also took out a square formation plate.

"This was originally created by us, and can be overlapped four times. If we use one alone, it will be a month. If we keep one in, it will be a month. If we add one in, it will be a year." Xue Xianxian gave the square formation plate to Chen Xiang.

Liu Meng'er and the others handed it over as well. Chen Xiang hurriedly took the four array discs and said, "If I were to stack them all together and use them, then two hundred years of time would have only passed twenty years for me inside."

"Yes, but you need to find a place with sufficient energy to use it. We refined this array disc based on the records of the Heavenly Divine Lord's Nine Heavens Treasured Artifact, and it can absorb energy to maintain the array formation." Liu Meng'er said: "I can't use it on the dragon's vein. It will drain the energy in the dragon's vein."

Chen Xiang thought for a while, then said: "Seems like we can only go to the old place. Oh right, how many people can enter at once?"

"It's best if it's just one. With one more living being inside, the amount of energy required will increase by several times." Liu Meng'er sighed lightly, "If it was in that kind of lower level world in the past, then Time Formation would be everywhere and the amount of energy needed would not be much. At that time, many powers would use the Time Formation to grow medicinal herbs."

It was indeed different now. Space was strong on one side, but changing time was also very difficult. It required a very large amount of energy to do so.

"What's the old place you were talking about? Is it dangerous?" Xue Xianxian asked.

"The earth's core, that place isn't dangerous for me." Chen Xiang laughed: "Don't worry, it's very safe there."

Dongfang Jing said: "Brother, now that the Nine Heaven World is growing stronger, the core of the earth is becoming stronger and stronger. It's not like in the past, you have to be careful."

"Got it." Chen Xiang caressed it and said: "I will go look for Yu Jie and get some divine medicine from her."

"There's a pill furnace here, you can keep it for now." Dongfang Xinyue passed a very small pill furnace to Chen Xiang. "After recognizing the master, you can enlarge it."

Chen Xiang accepted the pill furnace, and after bidding farewell to the girls, he went to find Feng Yujie.

Feng Yujie was not concocting pills at the moment, but he had found Lv Qinlian in the Hundreds of Flowers Village and asked her to send a message to him on an urgent matter.

Feng Yujie hurried back after learning that Chen Xiang had important matters to discuss with her.

"I was planning to go to Heavenly Divine Palace to have a look. There's something important I need to do." When Feng Yujie saw Chen Xiang's smiling face, she scoffed.

"I really have something urgent to do. Give me some Bone level Dan's medicinal herbs, I want a hundred sets like this." Chen Xiang said, he wanted to stay in the Time Formation for a while, at that time he would try to condense Bones.

"I have it here. It was originally meant for Great Divine Lord and the rest to refine, but if you need it, I'll give it to you." Feng Yujie passed Chen Xiang a Storage bag: "What are you planning to do with it?"

"I need to go into closed-door training for a period of time. At that time, I plan to try condensing another Bones." Chen Xiang said: "Of course, what I need more is a pill that can condense Divine Deity after consuming it."

"If you don't have this kind of pill formula, you can think of creating one. At that time, it will definitely be very easy to sell." Feng Yujie laughed: "If that was the case, I wouldn't have to work so hard to condense my Divine Deity throughout the day."

Chen Xiang laughed heartily, "There will be one sooner or later. He took the opportunity when Feng Yujie wasn't paying attention to kiss her on the lips, then flew out of the room.

"I wonder if the You Ming Deep Abyss is still here." When Chen Xiang arrived at the City Lord's Mansion, Wu Kaiming was also there. He asked Wu Kaiming to show him how to get to the You Ming Deep Abyss.

Wu Kaiming took out a guide for him, inside it were many cities and dangerous places.

"That You Ming Deep Abyss is very scary now. That place is very dangerous, you have to be careful." Wu Kaiming said.

Chen Xiang nodded and then was teleported to the city closest to You Ming Deep Abyss. After walking out of the city, he used the Space wind and quickly arrived beside the You Ming Deep Abyss.

"It has indeed become very frightening." Chen Xiang never thought that the You Ming Deep Abyss would actually turn into a steaming abyss, and that he could even see the scene below it.

"The same place. I'm here." Chen Xiang jumped down and immediately felt the scorching heat coming from below. When he reached the bottom, he was already somewhat unable to endure it, so he had no choice but to use the Ice and Snow Constellation to resist the heat.

Arriving at the bottom, he found it strange that the stones below had evolved to withstand such a high temperature.

"The core's heat has been leaked. It must have come from that tunnel." When Chen Xiang took out the Fire Dragon Sword, all the heat in the place disappeared, causing him to be secretly pleasantly surprised. Although the Fire Dragon Sword was not at the Divine Artifact level, it had this kind of ability, allowing him to walk around in the earth's core with ease.

"This is the passage." Chen Xiang saw that the hole on the Green dragon demon-slain broadsword had been destroyed and it could no longer be opened. But that was fine, because he could use spatial travel to go through the door.

He teleported to the passage. The passage was covered in a fiery red mist and was filled with a strange fire energy. It was so dense that tiny particles could be formed and floated inside the passage, causing the passage to be covered in red.

"In a place like the Core, there's no doubt that it can give birth to living creatures, or even powerful beasts." He had been to the earth's core a few times, so he was well aware of how terrifying the energy of the earth's core was. This was the energy source that maintained the flow of the entire Nine Heaven World.

[Chapter 2098](#)

immediately thought of the Super Old Fire Beast. He looked at the passageway and immediately felt more at ease. The passageway was very narrow.

"Although the Nine Heaven World has devoured the Gods Realm and the Endless Heaven Realm, the core of the earth still hasn't grown much in size. However, its energy has become even stronger." Chen Xiang walked forward with the Fire Dragon Sword in his hand. Under the protection of the Fire Dragon Sword, he did not sense any heat but he knew clearly that if he did not have the Fire Dragon Sword, he would not be able to continue right now.

"We can't continue any further! This place is already the limit!" Chen Xiang looked at the red light tunnel in front of him. However, under the protection of the mystical energy emitted by the Fire Dragon Sword, he could still feel the scorching heat.

Chen Xiang took out his green dragon blade and fiercely stabbed it into the cave wall, creating a series of "dang dang dang" sounds. However, the cave wall only had a few scratches on it, that was all.

"What's going on?" Just now, Chen Xiang had used his left hand to swing the sword. With the Double bone level in his left hand, he had used quite a bit of strength to slash at the stone wall, but was unable to harm it.

Chen Xiang looked at the red granules that were floating in the cave and suddenly understood that the stone walls here had been absorbing so much powerful energy from this environment for many years. Furthermore, after being tempered by the powerful air pressure for a long time, it had become extremely sturdy.

"It seems like the earth's core is extremely hard and indestructible." Chen Xiang withdrew his Azure Dragon Blade and activated the Six Realms' Power. The veins on his left arm bulged and with a loud shout, he punched the stone wall with his powerful fist.

The explosion of the Meteor immortal power produced a loud explosion that reverberated through the passageway. The entire passageway trembled slightly earlier, but other than that, there was no other reaction.

"As expected, it is very sturdy!" Chen Xiang took a deep breath.

The reason he conducted this test was so that he would be able to enter the Time Formation and feel a bit more at ease ... because he couldn't be disturbed like this ...

"The energy here should be enough to operate all four formation discs." Because the passageway was too small, Chen Xiang allowed these four formation discs to grow larger, so they couldn't grow much larger and could only sit on top of the formation discs by themselves.

"We can start now," Chen Xiang said somewhat excitedly. If he could succeed, he could fight for twenty years.

He activated the formation plate, and waves of white light flashed out. The red mist in the tunnel was quickly absorbed by the formation plate as it rushed towards the bottom of the formation plate.

Not long after, a ball of white light was suspended above the array disc. Chen Xiang felt that it was a bit uncomfortable because the array disc was too small, but he had no choice but to step on it.

When he stepped onto it, a light flashed in front of his eyes. He actually came to a space surrounded by white light. This space was about the size of a room.

"Xianxian and the others are pretty strong huh? There's actually a spatial formation inside these array discs?" Chen Xiang looked at the door of light that flashed on the white wall. That was the door to the Time Formation.

He took out a pill furnace and then the Bone level Dan's ingredients. He planned to first try and see if he could condense Bones to use on his left arm and the Double bone level that was condensed there would allow him to experience the benefits of Bones. If other parts of his body also had Bones, then it would make him even stronger ...

"I'm just going to cultivate all nine of my Bones to the Supreme God level right now!" Chen Xiang was a little excited just thinking about it. His Bones would become stronger as his Divine Deity increased, and then fuse with the powerful energy ... It was even more difficult to imagine ...

In just half a day's time, Chen Xiang had already refined eighteen Bone level Dan s, which were not difficult to refine. Previously, during the competition, he had used a very short period of time to refine one batch of Bone level Dan s and it was even six. Currently, he was only refining three batches of Bone level Dan.

After consuming it, he dispersed the medicinal energy within his body and began to control the medicinal energy to circulate through his entire body. He then waited for the opportunity to condense the pill to appear.

"It didn't succeed and the medicine scattered very quickly ... What's going on?" Chen Xiang had previously eaten twice before, and every time, he had to refine it for half a day before using up all the medicinal power. But now, he had only used an hour ...

"Remember You Lan and the others mentioned that they took three days to refine the Bone level Dan? Could the stronger their body be, the shorter the refining time?" Chen Xiang surmised that he was not very sure if he had eaten yet another pellet.

This time, he only used half of the last time to refine it faster than last time ...

"What's going on?" When Chen Xiang refined the medicinal power, he did not sense any signs in his body, which meant that he had failed to condense the Bones. He could only continue eating ...

The speed at which he refined the eighteen pills was very fast. He could refine four of them in two hours. Right now, it was not even half a day and he had already refined eighteen Bone level Dan. It was completely useless ...

"Looks like being unable to sustain the medicinal power for too long is not a good thing. It's not possible for it to exist in his body for too long as well." Chen Xiang recalled how he had previously consumed two Bone level Dan pellets.

"Is the Bone level Dan not strong enough? Or is my body not strong enough?" Chen Xiang did not know because even he did not know whether Yang Tianyi had relied on eating a lot of medicinal ingredients to condense it ...

As Chen Xiang thought about this question, he suddenly felt that the space was gradually weakening and the white light surrounding it disappeared. Right now, he was sitting cross-legged on top of the four Overlapping Formation Disks.

"This ..." Chen Xiang looked at the two sides of the passageway. Originally, there were many red particles floating around, but now, all of them had disappeared.

"I just stayed inside for a day, that's all." Chen Xiang anxiously jumped down from the array disc: "This Time Formation really consumes a lot of energy and absorbed all of the energy outside in one go."

Chen Xiang looked at the depths of the tunnel. "This formation plate needs to be near the energy source to absorb it, right? It seems like there's still some distance between here and the center of the earth that the formation plate cannot absorb and absorb."

"Bring Yue'er here right now! This time, I need to get very close to the core of the earth," Chen Xiang decided to let Yue'er enter the Time Formation with him. After all, Yue'er had a lot of experience and

she was an existence equivalent to a noble, so she must have eaten high ranking Bone level Dan s and condensed their Bones before.

[Chapter 2099](#)

Chen Xiang returned from the core to the surface and returned to the Hundreds of Flowers Village. He brought Yue'er here with him and did not need much time. Right now, he was in a rush because he could not afford to waste any time, especially outside. He did not need to be so nervous inside the Time Formation.

Yue'er followed Chen Xiang into the tunnel. Chen Xiang asked, "Yue'er, are you afraid of the heat?"

"You're not afraid that my Spatial Barrier is relatively strong?! The heat from the earth's core should be able to resist the heat! If you use Spatial Barrier, wouldn't that be fine?" Moon Child said.

Chen Xiang shook his head, "My spatial protection is also very limited."

Yue'er smiled tenderly, "Then I'll cover you ... but don't you fear going to the earth's core like that? Although currently the Nine Heaven World's core hasn't reached its complete state, it won't be weak either. It's probably because of the cultivation of the Earthly beast at this time."

"Earthly beast?" Chen Xiang asked in surprise, "Is it really that powerful?"

"I'm not sure about the Nine Heaven World's Earthly beast either. When Nine Divine Kings created this world, he had probably already set this up. It's hard to say whether it was aggressive or not ... Let's go check it out first. With our escaping abilities, there's nothing to be afraid of." Yue'er didn't seem to be afraid at all as she flapped her wings and flew slowly through the tunnel.

"Lalalalala ..." Yue'er hummed a cheerful melody, as if she was taking a leisurely stroll ...

"Yue'er, does your Star Law Divine Realm also have a core?" Chen Xiang asked her earlier.

"Our Star Law Divine Realm is a planet with a core, but only the largest primary planet has Earthly beast. I went there twice with my grandfather the first time, but when I went there, I couldn't take the heat any longer. After I got back, I rested for a month," Yue'er said. "The second time was when I went to the central core of the core during the Law Enforcement Assessment. It was very relaxing for me, but I didn't dare to go there."

Although he had been here a few times, every time he had come, it would increase to a different degree. And this time, the increase in power was the greatest ...

Not long after, Chen Xiang saw those fiery-red granules slowly floating over from the tunnel in front. There were such granules everywhere, but they were all absorbed by the four formation plates.

"Coming!" Yue'er immediately flew onto Chen Xiang's shoulder and released a spatial barrier.

Chen Xiang only felt a slight heat from it for a moment, and then, he did not sense it again. At this moment, he was already in the middle of the fiery red grain and the tunnel was once again filled with the fiery red glow of light.

In this kind of place, neither Chen Xiang nor Yue'er dared to use the Space wind because there was an unknown danger in front of them.

Chen Xiang was in a hurry so he quickened his pace and rushed through the tunnel ...

The tunnel continued downwards diagonally. Gradually, they entered the depths. After running madly for four hours, he finally arrived at the end of the tunnel.

He stood at the end and looked down at the fiery red light. That was the depths of the earth's core. Now, he could absorb the energy from the earth's core from the formation plate inside the small hole.

Chen Xiang took out the formation plate and successfully activated it. He brought Yue'er and entered the formation plate.

"The energy absorbed by this array disc will be several times more than what a living creature absorbs." Yue Er seemed to be able to sense the energy being absorbed by the array disc. "If another person were to enter, I'm afraid that would exceed the limits of the array disc!"

Chen Xiang said: "Yue'er, previously, when you condensed your Bones, did you only rely on eating Bone level Dan?"

Yue'er nodded her head and replied, "Of course, even if you don't eat Bone level Dan, you can still condense them. But that doesn't mean anyone can do it. Only those with extremely high innate talent can do it."

Chen Xiang asked again, "Do you remember how long it took you to refine the Bone level Dan you ate when you condensed the Bones?"

"Roughly half a day's time. Whether the Bone level Dan is refined too fast or too slow, it will take around half a day to finish." Yue'er said, "This refinement refers to the situation where my fastest refining speed is the slowest in an instant under the condition of natural refining. It took me a month's time, but even this cannot trigger the opportunity to condense a Bone level Dan."

Yue'er's words confirmed Chen Xiang's previous guess. He asked, "Then how do we complete the natural refining state for around half a day?"

"This is the reason why it is difficult to condense Bones after eating Bone level Dan. The reason why refining pills is so fast is usually because the body and cultivation level are too strong and need to improve the quality of the Bone level Dan. As for the balance being too slow, it's because the body is not strong enough so it will take a very long time to absorb all the medicinal energy in one go."

"So that's how it is. I understand now." Chen Xiang immediately took out a portion of Bone level Dan's medicinal ingredients.

"These are all low-grade medicinal ingredients! How long are you going to take one now?" Yue'er asked.

"He can refine four pellets in two hours!" Chen Xiang said. He already had a way to solve the problem.

"Right now, you need a Medial Grade Bone level Dan and at the same time, you also need to strengthen your body to be able to control it for around half a day ..." Yue'er curiously asked Chen Xiang when she

saw him throw the medicinal herbs into the pill furnace, "Chen Xiang, do you have some kind of strange idea now?"

Yue'er had already seen Chen Xiang's refining skills before, and even though she was experienced and knowledgeable, she was still shocked by Chen Xiang several times.

"This is a method of refining Heavenly Alchemy. My furnace's limit is to refine six Bone level Dan, but I have to compress it into three, so I can condense the excess medicinal power into one. This can improve the quality of Bone level Dan," Chen Xiang said.

In his current situation, it would take some time to produce a middle tier Bone level Dan medicine! First, he would have to condense the elixir and increase the age of the herbs bit by bit ...

Right now, he did not have that much time, so he could only use the compressed medicinal energy to improve his quality. This was one of the methods in the Heavenly Alchemy. He had previously used this method to force out high quality pills ...

"I hope it's effective! If it doesn't work, you should just be more honest and use a normal method!" Yue'er patiently watched the pill furnace as she laid on the ground.

"A normal method is not suitable for me." Chen Xiang laughed and began to refine the pill.

[Chapter 2100](#)

Chen Xiang was refining the Bone level Dan now, unlike before, he needed to suppress it in order to enhance the quality of the Bone level Dan, which was why he had taken a bit more time than before.

Yue'er had never heard of such a method of refinement, especially for the sake of increasing the quality, but now that Chen Xiang had concocted so few of them, she had no idea that it was possible for her to use such a method to refine Bone level Dan ...

"Done!" Chen Xiang took out three milky-white Bone level Dan pearls and leaned over to open her pair of cute cat eyes.

"It looks like the quality is quite high! It's really amazing! If you press it into a single grain, the quality will be even higher!" Moon Child said in surprise.

"Let me give it a try first." Chen Xiang ate one pellet and started refining it. After four hours, he finished refining it.

"It looks like I still need to be refined a bit more." Chen Xiang put away the two Bone level Dan s in his hands, took out a portion of medicinal ingredients and said, "I will directly press them into a single pellet."

Right now, Chen Xiang did not have a method to quickly condense Divine Deity, but there was a direction for him to quickly condense Bones.

Of course, he felt that four Bones was not enough for him right now. He had no other choice, so he planned to first condense Bones so that he could at least increase his strength and at the same time strengthen his physical body. If he still had time, he would do his best to condense Divine Deity to six Bones.

Chen Xiang quickly finished refining the pill. This time, he had crushed the six Bone level Dan into a single pellet, which was already of extremely high quality among the Xiaping Dan. That was why when he opened the pellet furnace, it immediately burst out a bright light.

"This time, it should be enough, right?" After taking it out, Chen Xiang showed Yue'er the highest quality Xiaping bone level Dan.

"Very good. If the Star Law Divine Realm can sell it, then this Bone level Dan should be able to sell it at a very high quality because it is very easy to reach a balance. If it is directly sold as a middle quality Bone level Dan, then it will take a lot of time and effort to refine and refine the body and the spirit of the Bone level Dan." Yue'er felt that it was very rare for Chen Xiang to be able to control the quality of a high quality divine pellet.

After Chen Xiang consumed it, he began to refine it ...

After Chen Xiang refined the medicinal force, he opened his eyes. This pellet did not allow him to condense Bones, but only by controlling the time that he had to refine the Bone level Dan would he have more opportunities to condense Bones.

Yue'er laughed. "A Alchemist like you, you are really frightening! You can really adjust the quality of medicinal pills according to your own circumstances! There are also Alchemist s in Star Law Divine Realm who do this, but it's not very successful!"

"If you're lucky, about ten of them should be able to condense Bones," Yue'er said. "However, after you condense Bones this time, the next time won't be so easy. You'll need to adjust the quality of the Bone level Dan and you'll need to raise the strength of your body."

Chen Xiang nodded his head before starting to refine the pill again.

After successfully refining the second pellet, he continued. When he went to receive Yue'er earlier, he had instructed her to duplicate as many of the Bone level Dan's medicinal ingredients as possible. Lv Qilian had already passed down the Alive Slain Method to many girls who were very familiar with Chen Xiang, and they could all trust each other.

It was not easy to condense Bones, Chen Xiang was clear on that point, then Yang Tianyi had to spend a lot of time eating medicinal ingredients and vomiting to condense three pellets, thus Chen Xiang was mentally prepared as well.

The third pellet still did not succeed in the fourth, fifth, sixth ... Until the seventh pill ... Chen Xiang suddenly felt some pain in his eyes.

"What's going on? There's actually pain in the eyes! This should be a sign of an opportunity ... But why would it be in the eyes?" When Chen Xiang's left arm condensed Bones, there was a slight pain. That was an opportunity!

If it were the eyes, they would inevitably suffer a bit! And the pain they would suffer would definitely be much worse than cheating ...

Yue'er saw Chen Xiang frown and ask in a low voice, "Are they coming?"

"I'm not sure because I feel a little pain in my eyes," Chen Xiang said. "Is the Bones in my eyes?"

"Of course! Eyes are also part of the body! In short, if there's an opportunity, don't give up! Once you give up, it'll be even more difficult to appear next time!" Yue Er was also very surprised. It actually appeared in her eyes.

"Gather all of your physical strength into your eyes ..." 'Although it's painful, just endure it! You should be familiar with her from the past, right?' Moon Child said.

Chen Xiang gritted his teeth and started to channel all his strength into his eyes to condense his Bones. He was also very curious about what would happen if his eyes could condense Bones, and if he were to focus on his limbs to attack, his punches and kicks would definitely be able to create a very powerful force.

Yue'er was also thinking about this question. In the past, she had only heard from the elders about the condensed Bones of those people. She also did not know how the strength of the Bones was used, nor did she know how those elders had raised it ...

's face was pale from the pain, but he still clenched his teeth and did not make a sound.

'As long as I can endure it! 'All these years of his cultivation had been this long and painful every time he had to endure! But he had never backed down from it ...

[illegible]

"Chen Xiang finally roared out in pain ...

In the past two days, the pain on Chen Xiang's head had gradually subsided. At this moment, his eyes were emitting white rays of light.

"It's really torturous," the white light around Chen Xiang's eyes disappeared, and his eyes returned to normal. He wiped away the blood tears on his face ...

"How is it?" Yue'er asked. "What kind of power can Bones allow you to obtain?"

"Yue Er... "It's really strange that both eyes of mine have a Bones inside! Bones should be inside the bones! Why is it inside the eyes this time?" Chen Xiang also felt it was inconceivable.

"Actually, this is within the skull ... The eye sockets ... These two places are considered more useful parts of the human body, so the condensed Bones are in the eyes ... This belongs to a special part, but only a few people have this part ... You're special ... The Double bone level has actually appeared twice ... Isn't that equivalent to having four Bones?" Yue'er was more surprised because Chen Xiang had condensed two Bones each time. And that Yang Tianyi had spent so many years imprisoned in the Star Hell only managed to condense three profound energies ... If he knew that Chen Xiang was so quick, the four Bones would have definitely caused him to faint.
