

## Dan God 2181

### [Chapter 2181](#)

After consuming the Nine Yin and yang Dan, Chen Xiang immediately felt his body being struck by the medicinal power. Surprisingly, his body became extremely cold.

"My body has to undergo nine transformations?" Chen Xiang felt that his body was incomparably cold, but he didn't feel very uncomfortable.

"Your body is emitting a terrifying cold energy. This Nine Yin and yang Dan is not simple indeed!" Just as she finished speaking, her body fiercely spewed out flames.

Chen Xiang was engulfed in flames, but he didn't feel like anything was wrong, "My body is only warm, I can still endure it. Now it's my second transformation!"

Yue'er watched from the side. Her speed of change was quite fast, which meant that her medicinal strength was very strong and her performance was very good.

"It was hot and cold just now! Now is Righteousness!" Chen Xiang said, "After the heat, I felt that my body had suddenly become very strong, just like an iron fist. Then, it became very soft again, like soft."

Yue'er nodded. "It's already been four transformations. How do you feel?" She had just finished asking, when she suddenly cried out in alarm.

Because she saw Chen Xiang had suddenly melted, little by little, as if he was a wax that was being burned by a big fire, and turned into something on the ground.

Yue'er was frightened, and just as she was about to do something, she melted but Chen Xiang slowly changed back into her normal form.

"The sixth and seventh forms have been completed. Melting and solidifying are the complete opposite. It might be the corresponding Yin and Yang forms!" Just as Chen Xiang finished speaking, his body suddenly started to shrink.

Seeing this, Yue'er's eyes turned round as she shouted in alarm, "What change is it now?"

"I'm getting smaller!" Chen Xiang's voice also became tender, and in the blink of an eye, he had turned into a very small child.

After Yue'er saw it, she flew over happily and circled above his head. "Little guy, brat, haha ... .." You were pretty cute when you were young, I really want to pinch you! "

She had already nuzzled Chen Xiang's face with her little face.

"Little thing, I've just become smaller, and I'm about to become bigger. Hurry up and leave!" Chen Xiang laughed, after he said that, he started to get bigger again, and his body started to swell up, in a few blinks of an eye he had turned into a giant, his clothes were also swollen till they were torn apart.

"Previously, it was hot and cold, but now it has been melted and solidified. Now it has been changed in size. It has already changed eight times. What is the final change?" Yue'er was extremely curious, looking at the giant Chen Xiang.

"The final change is, of course, metamorphosis!" Chen Xiang could clearly feel it himself.

Sure enough, right after he finished speaking, his body suddenly turned black. At this moment, his entire body, including his eyes and hair, was wrapped in a layer of black, hard skin, as if he was burnt.

"My body has become stronger, and my Divine Sense Sea has already condensed this kind of Qi, I can now condense my Divine Deity, this Nine Yin and yang Dan is truly powerful!" Chen Xiang immediately used his Star Shift to cultivate the spatial Divine Deity.

Yue'er watched the pitch black Chen Xiang from the side, patiently waiting for him to break the "shell". Suddenly, she wanted to try this Nine Yin and yang Dan as well.

After two days, she suddenly heard a cracking sound, and the layer of black shell that wrapped around Chen Xiang started to crack. Chen Xiang shouted loudly, and shattered all of it.

"Get dressed!" Littlemoon covered her eyes with her two little paws.

Chen Xiang laughed and anxiously put on his clothes, then said: "I have condensed a Divine Deity, this Nine Yin and yang Dan not only can condense a powerful Divine Deity, it can also strengthen my fleshly body, I feel that after eating the Zhongpin bone level Dan, I can refine it for a good six hours, I can go condense the Bones now."

Every single time Chen Xiang would condense Double bone level, and if he condensed eighteen Bones nine times, these eighteen Bones would be as powerful as twenty or thirty times, which would be able to increase his strength tremendously.

"Where is your divine soul?" Yue'er asked: "Aren't you going to give your new Divine Deity first?"

Chen Xiang laughed complacently: "No need, the Nine Yin and yang Dan have already been formed for me!" After he finished speaking, he ate a Zhongpin bone level Dan.

Right now, his eyes, left arm and right leg all had Bones, and had already congealed three times. He could still condense six more times, but he did not know whether he would still be able to condense Double bone level next.

The Zhongpin bone level Dan's medicine had already been refined, and it took six hours, and it was just right! Right now he no longer had a middle tier Bone level Dan, but it was easy for him to refine. He used his eyes to release the fire in his eyes and instantly formed six pellets.

"I don't believe that I can't condense it!" Chen Xiang took one pellet, and refined the medicinal power of the pellet ...

The more Bones he had, the harder it was to condense. He ate more than three hundred pills, and after half a year, his right arm finally had a feeling. After that, he very calmly channeled all of his energy towards his right arm.

After two days, he had successfully condensed the fourth position, the Bones, at the right arm. At this time, his left and right arm already had the Bones.

"You ... I only have four Bones now, how could you finish it so quickly?" Yue'er muttered: "How do we deal with your Bones?"

Chen Xiang laughed and said: "I use fire as the main element, and in this heart of the earth, I am not worried about natural divine soul without fire attribute, I just need to ask Huo Lin."

"That's true!" Yue'er nodded, as long as it was a strong flame divine soul.

Chen Xiang and Yue'er walked out of the Time Formation and left the underground secret room.

Knowing that he had exited the secret room, Huo Lin hurried over.

"Big brother, you've only been in for less than a day and you've already come out!" Huo Lin knew that Chen Xiang was using a formation to cultivate, but he did not know that it was Time Formation.

"He has already stayed in that array for more than half a year. His array formation is the Time Formation." Yue Er said.

"Oh right, what is the background of this kitten?" I always felt that you were very powerful! " Huo Lin smiled as he touched Yue'er.

You are also a beast, have you heard of Cat Race? Yue'er asked, "Then Earth's Core Divine Spirit will probably give you some information, right? Otherwise, you will be a fool who doesn't know anything."

Huo Lin laughed: "That's right, I do have a lot of knowledge, I have heard of the Cat Race you are talking about before, but I do not know much about it.

Chen Xiang looked at Yue'er, this little girl whom he had grabbed over and placed in his palms, "Yue'er, what kind of strange power do you have? Could it be the power of space? But it does not seem to be some strange power! "

Yue'er might not be able to communicate with Xingyue, but that was because she possessed the bloodline of the Star Moon Divine Race.

"Hmph, this lady is amazing. My strange power is more than enough to scare the two of you to death!" Yue'er raised her little head and said with a very proud expression.

## [Chapter 2182](#)

Chen Xiang had been together with Yue'er for a long time, recalling all sorts of strange powers she had, but none of them could scare him to death. He had admitted that Yue'er's abilities were not small, but now, he felt that she was exaggerating.

"Is it true? Why have I never seen you use that kind of frightening power before?" Chen Xiang laughed, his face had a look of disbelief.

Chen Xiang suddenly thought of Yue'er's other power, which was that every once in a while, the power of the stars and moon would descend upon her. This could also be considered as a strange power, but this wasn't the power of her Cat Race, it was triggered by the power of her bloodline, the bloodline of the stars and moon.

Chen Xiang thought about it carefully. Up until now, he and Yue'er had indeed not seen her use the power of the Cat Race, and she had only become a little kitten.

Yue'er raised her head, and snorted: "I won't tell you. In short, I just need to use a certain amount of Divine Deity to use my bizarre power."

Chen Xiang was truly curious, he hurriedly rubbed Yue'er's small belly, causing Yue'er to giggle and shout, "You're not going to tell me, I'm going to let you keep me in suspense."

"Big brother, it's actually not like that. The Cat Race's strange powers are very mysterious and would normally not tell anyone else. Even those that you trust a lot would not tell you." Huo Lin laughed.

"Exactly." Yue'er escaped from Chen Xiang's grasp and flew over to his head.

Chen Xiang did not pursue the matter any further. After all, this matter concerned Yue'er's secret.

"Huo Lin, can you help me get a set of fire attribute divine soul? Chen Xiang said. He had just condensed his Bones and needed to integrate his divine soul.

Huo Lin nodded: "Of course there is. It is very easy to produce powerful fire divine soul from the core of the earth. These are the ten fire attribute divine soul I gathered before.

Chen Xiang was very happy that there were suddenly ten sets of powerful fire divine soul. To Huo Lin, divine soul was not something precious, he could go to the center of the earth to search for them whenever he had the time, and it would be very easy to find them.

After Chen Xiang obtained the divine soul, he immediately returned to the secret underground room and entered the Time Formation to cultivate.

"After fusing, my arms are considered to be balanced." Chen Xiang had wanted to let his right arm possess Bones and divine soul since a long time ago, and now that his Bones was not only used to fight, it could also be of great help to him in refining pills.

The Bones condensed out from his right arm was also a Double bone level. This time, he had fused with two extremely strong fire divine soul, so the strength of his right arm was slightly stronger than his left arm.

The fourth condensed Bones had already been completed, and next, Chen Xiang ate another Zhongpin Dan. This was the last pellet, and he only had one mid-grade Bones pellet, while the rest were all pellet of the Shangpin bone level Dan.

"Chen Xiang, do you really want to know what that bizarre power of mine is?" Yue'er suddenly asked with a smile.

"I am indeed curious, but this is your secret. If it is leaked, it might have a great effect on you." Chen Xiang said.

"If my enemies knew, it would indeed have a great effect, but for a bizarre power like mine, I would need seventy Divine Deity to use it even a little, and even a little would make me very powerful. It's just that I did not reach seventy Divine Deity back then, otherwise, I wouldn't have been ambushed by those fellows from the Divine Nations." Yue'er tenderly snorted.

"He actually needs seventy Divine Deity to use it. He's really powerful." Chen Xiang replied: "Is this innate strength."

Yue'er nodded her head, "It's innate strength. That kind of ability is mainly to make my body reflect any kind of power, and the strength it reflects will be increased by ten times, or at most, ten times. I should be able to reach the peak of my power."

"Is this for real? You've never used it before, how do you know you have this ability?" Chen Xiang was very shocked. This was indeed very terrifying, no matter what power it was hit at, it would always reflect back, and the highest would increase by ten times.

If she didn't know, then it would be suicide to use her strongest power to attack her. No wonder she kept this kind of ability a secret from him, but Yue'er telling Chen Xiang now meant that she trusted Chen Xiang a lot.

"When I was born, I already knew about my innate strength. Back then, I was only a bit away from cultivating to seventy Divine Deity." Yue'er sighed. "It will take some time before I can recover."

Chen Xiang touched her, and laughed: "I am a Alchemist, it is very easy for you to become stronger if you want, but the prerequisite is that you have to wait for me to become stronger. Aren't you lacking Bones?"

Yue'er nodded her head: "It's rather hard for me to eat Bone level Dan in Star Law Divine Realm, especially high-grade Bone level Dan. Even if I can buy one, its quality is not suitable for me.

In the time she had with Chen Xiang, she had discovered that condensing Bones could actually be that easy. It wasn't just easy for Chen Xiang, even the people around him were like this.

"Let me refine this Bone level Dan and take a look." What Chen Xiang had previously eaten was also a middle ranked Bone level Dan, after condensing the fourth set of Double bone level, he didn't know what kind of Bones was more suitable for him.

It had only been four hours, Chen Xiang had already refined the medicinal force, and previously, before he managed to condense the fourth Bones, it had taken more than six hours.

"What's going on? I only cultivated the Fourth Double bone level, and my body already became so strong. I didn't even feel it myself." Chen Xiang was very suspicious.

"It's not strange, if you condense Double bone level four times, that would make a total of eight Bones. Yue Er said.

Chen Xiang could only refine high quality Bone level Dan now, Xiao Ping had given him a hundred batches of Shangpin bone level Dan's medicinal ingredients, he had given Feng Yujie and the others fifty batches, and he himself had left half of them.

Bone level Dan were originally easy to refine, especially for Chen Xiang. He could easily refine low and middle graded Bone level Dan, so he did not feel any pressure when refining high ranked Bone level Dan.

He quickly refined one furnace, and he felt that if he refined a few more batches, he would be able to use the Bones in his eyes to instantly form the pellet.

It was the same as the lower middle graded one, as he could produce six pills while refining the Shangpin bone level Dan.

Chen Xiang and Yue'er ate one pellet each, and then refined the medicinal power together.

"Yue'er, can your body cultivate Bones now?" Chen Xiang was curious about this.

"Of course you can. I am already in the Cat Race, and my cat form does not affect my ability to unleash my power, not to mention that this is my main body." Yue'er laughed: "Let's compete to see who can condense Bones first."

### [Chapter 2183](#)

The Bone level Dan Chen Xiang and Yue'er had eaten were of the same quality, and both he and Yue'er were going to undergo their fifth set of Bones condensing as well, so the comparison was extremely fair ...

Very quickly, six hours had passed. Yue Er was the first to refine the medicinal power, but she did not trigger the opportunity to condense her Bones. She giggled: "Seems like you are a lot slower than me."

Chen Xiang frowned, and said: "Seems like I need eight hours to refine the Shangpin bone level Dan's power, is my body not as strong as yours?"

"Of course, I have been through a hundred tempering, and my Cat Race is also a relatively strong divine beast with a strong fleshy body, although its body is quite small." Yue'er smiled and said, "I've taken my second pill."

Yue'er used her small tongue to pick at a Bone level Dan in the jade box, then opened her mouth wide to bite its owner, raising her head and swallowing it into her stomach.

Just as he had guessed, it would take nine hours. This meant that his body was simply too weak, and if his body was slightly stronger, then it would allow him to finish refining the Bone level Dan within the next six hours. That would be the best stage to trigger the opportunity.

Chen Xiang looked at Yue'er who was lying on the ground. He really did not think that this little thing's body was actually stronger than him, capable of refining Shangpin bone level Dan s in six hours.

Currently, Bone level Dan were not suitable for Chen Xiang. Of course, he could also compress the quality of Bone level Dan, but that would weaken the Bones that he had condensed.

Only by increasing the strength of the body or the quality of the Bone level Dan would it affect the quality of the Bones that were condensed.

When Yue Er refined his medicinal strength, he refined another two batches of Shangpin bone level Dan and placed them in that jade box for Yue Er to eat.

Yue'er did not succeed in refining the second pellet. The further she went, the more required she would need to eat more Bone level Dan in order to trigger the opportunity of condensing Bones. Hence, two pellets failed, and Yue'er felt that it was very normal.

"I've refined the Nine Yin and yang Dan, eat the Nine Yin and yang Dan, I should be able to condense another set of Divine Deity, and at the same time, strengthen my fleshy body, when that time comes, eating this Shangpin bone level Dan will be very suitable." Chen Xiang said.

"Yes, these ten pills are enough for me to eat for a while." Yue'er replied: "When I condense the fifth Bones, I'll have to head out for a while. The power of the stars and moon will descend, and at that time, I'll be able to recover more or less of my strength."

Yue'er's recovery was also something that Chen Xiang was looking forward to very much, because once Yue'er recovered her strength, she would be an expert with a Divine Deity approaching seventy. Adding that she had the five Bones, her strength would be comparable to that of the Third Rank Divine King s.

Chen Xiang was very worried that he was the same as Xiang Hongdao, who was unable to refine another Nine Yin and yang Dan.

Chen Xiang had always been worried when he was refining the pill, but in the end, he discovered that there was no need for this worry, because his progress was extremely smooth. He felt that Xiang Hongdao's failure was possibly related to his refining skills, he used the Heavenly Alchemy, so such a thing shouldn't happen.

The Three disasters destroy flower quickly underwent nine tribulations, transforming into black death aura. After throwing the merciful god fruit into it, he began to refine it and quickly entered the latter natural stage.

Just like last time, when two divine medicines' Spirit blood s came into contact, he did not need to control them himself to fuse them into a pill naturally. This allowed him to once again see the natural scene of the two divine medicines.

"This time, it's going to be very fast. We'll be refining Nine Yin and yang Dan in six hours." Yue'er replied, "I remember that the pellet you refined previously had some kind of Pill Calamity, but this pellet didn't. Could it be that it's in the center of the earth, and that this is the Time Formation?"

Just as she finished speaking, a dense black cloud suddenly condensed in the space of the Time Formation, slashing down a strange lightning bolt that struck the divine pellet.

"The power of the Great Dao is everywhere. There is no way to avoid it." Chen Xiang laughed: "But Nine Yin and yang Dan are not afraid at all, and after experiencing the Pill Tribulation, they can be considered to have truly succeeded in condensing a pill."

Chen Xiang laughed: "Don't let me surpass you, maybe once I eat this Nine Yin and yang Dan, my physical body will level up, and then I'll be suitable to eat high grade Bone level Dan, and maybe I'll be faster than you."

Yue'er tenderly snorted. "I don't believe it, I'm definitely the fastest."

After eating the warm Nine Yin and yang Dan, Yue'er did not make a fuss this time because of what she had experienced previously. However, after seeing Chen Xiang experience eight other changes, she still felt that it was extremely mystical.

After the final transformation of his fleshly body, Chen Xiang began to condense his Divine Deity. This time, he wasn't condensing the Divine Deity of fire, nor was he condensing the Divine Deity of space and constellations. He was going to condense the fourth innate ability, Divine Deity, because it would be very useful to him and he wasn't sure if it would be the same as he expected.

"This is the only way now." Chen Xiang activated Alive Slain Method, he wanted to cultivate up a set of Life-Killing Divine Deity, then at that time he would be able to use the Life and Death God Power to replicate the divine medicine.

If one Life-Killing Divine Deity was not enough, he would condense two, and if two was not enough, he would condense three, and condense four ... In short, this was of great use to him. Right now, he only had fifty sets of Shangpin bone level Dan, which was not even enough for him and Yue Er.

"I don't know if Qilian's thinking is the same as mine, starting from condensing Life-Killing Divine Deity, if you want to do it, you have to first have a very good understanding of Alive Slain Method. Sister Qilian is so familiar with Alive Slain Method, what does she not have, does she have no condensing Life-Killing Divine Deity, could it be that it is impossible to condense?"

Chen Xiang had his doubts before, but he always forgot to ask Lv Qilian.

Very quickly, in less than three days, Chen Xiang had activated the method to gather power in the Alive Slain Method, and condensed a piece of Life-Killing Divine Deity. The process was actually this simple, and it was even hard for him to believe.

"This Life-Killing Divine Deity is actually of the fire attribute. Is this even a Life-Killing Divine Deity?" Chen Xiang took a closer look at that Life-Killing Divine Deity, and discovered that it had a very strong fire energy, it didn't seem like it could replicate a divine medicine's Divine Deity.

"Did something go wrong?" Chen Xiang also noticed that this Divine Deity was slightly different from his previous flame Divine Deity, and was a little weaker.

Even if it isn't Life-Killing Divine Deity, I still wouldn't suffer much of a loss. This Divine Deity merging into the fire divine soul, is also about as strong as the other fire Divine Deity. "" So what?

Chen Xiang still had eight fire divine soul, so he didn't know what kind of divine soul was suitable for him. After all, the power of the Life-Killing Divine Deity was biased towards flames, so he had decided to use fire divine soul to fuse them.

Yue'er was also very much looking forward to Chen Xiang condensing the new attribute Divine Deity, so she naturally knew that the amount of Shangpin bone level Dan and divine medicine in Chen Xiang's hands was not even enough for the two of them.

#### [Chapter 2184](#)

What Chen Xiang was suspicious of was why his Life-Killing Divine Deity was so easy to condense, and why Lv Qilian should have also known that he had done so, but she had never mentioned it. He felt that Lv Qilian definitely had thought of this, but did not succeed, that was why he did not mention it.

After fusing with the divine soul, Chen Xiang's new Divine Deity could be considered to have been successfully completed.

"Hurry up and test the effects." Yue'er shouted in anticipation.

Chen Xiang nodded, activated the Alive Slain Method, and controlled his Life-Killing Divine Deity to absorb the large amount of Six Realms' Power, quickly transforming the Six Realms' Power into a life and death force.

Not long after, Chen Xiang's palm released a pale purple light, and after a while, the purple light became even stronger. His palm was filled with purple mist, and after spinning for a while, it gathered together, and condensed into a purple bead.

Seeing the purple pearl, Yue'er said, "Isn't this the purple pearl condensed from your dual cultivation with them? You can do it yourself now, and the quality seems to be much better."

Chen Xiang nodded his head, "Yes, and I haven't finished it yet." He continued to circulate his Qi. Very quickly, the life and death force he released was no longer able to be absorbed by the purple pearl. This meant that this purple pearl had already reached its peak, unable to further enhance its quality.

"It's only been two hours. It's pretty fast, isn't it?" Yue'er replied, "How can I test it out?"

Chen Xiang said: "I need to go and ask Sister Qilian before I know. Only she knows about the Purple Beads, and needs to leave the Earth Core for a trip."

... ..

Chen Xiang brought Yue'er through the Transmission array of Huo Lin's Qilin Hall to the surface, then he used an array disc to head to Hundreds of Flowers Village.

After arriving at the Hundreds of Flowers Village, Chen Xiang felt that this place was extremely deserted and there were at least a few beautiful girls chattering away in the past.

"Little Lizhi." Chen Xiang suddenly saw an exquisite figure appear in front of him. She seemed to be in a hurry.

Hearing Chen Xiang's shout, Little Lizhi immediately turned her head over. She looked like she had something urgent, but she still walked over quickly.

"Chen Xiang, didn't you go back to cultivate? Little Lizhi asked as he walked over.

Chen Xiang looked at her while grinning. He did not see this petite beauty before.

Little Lizhi was dressed in black tight clothes, as though she was going to fight.

Just as she finished speaking, Chen Xiang reached out his hand and touched her face. If it was anyone else, she would have definitely cut off her opponent's face with one strike, but she could not do anything to Chen Xiang when he touched her face. She could have avoided him originally, but she did not.

"I'm going to find Sister Qilian." Chen Xiang giggled and retracted his hand: "Did you see Elder Sister Bai Feng? She is a woman that is very similar to you, you two should be able to get along well with her right?"

"Yes, we did, and I don't know why." Little Lizhi nodded his head: "I just so happen to be going to look for Asgard Mistress, let's go together."

Chen Xiang nodded and even pulled her jade hand. She did not refuse and brought Chen Xiang over to Lv Qilian's house with quick steps.

"Why is it so quiet here? Where did all those girls go?" Chen Xiang asked curiously. After walking for a while, he still did not see anyone.

"Some of them went to the Heavenly Divine Palace and received guidance from them." Little Lizhi said: "I had stayed there for a period of time before. At that time, I was responsible for guiding us, and Hannya is also there now."

After all, the Great Divine Lord is the strongest existence in the Nine Heaven World. Chen Xiang nodded her head: "You guys must work harder, and help Qilian to complete her great undertaking in Divine Nations."

"Of course." Little Lizhi brought Chen Xiang to Lv Qilian's residence and immediately opened the door and entered.

Lv Qilian was in the secret room, but Little Lizhi did not inquire any further. He gently opened the stone door of the secret room and brought Chen Xiang in.

Lv Qilian was sitting cross-legged on a jade lotus throne. She opened her eyes slightly, and when she saw Chen Xiang and Little Lizhi, she softly asked.

"Little Lizhi, you go first." Chen Xiang hugged Yue'er, and directly sat on the side of her larger lotus seat. Lv Qilian spat out lightly, and then moved his body, allowing Chen Xiang to enter.

Little Lizhi had already known that Chen Xiang and Lv Qilian had cooked raw rice until they became ripe, so he was not surprised by it at all.

I was originally together with Xue Yi, but she didn't know why she suddenly mentioned that she wanted to go to Super God Realm. She said that the All-beast Divine Lord there needed her help, so she went there. Little Lizhi said: "She asked me to tell you that the things she is responsible for will need to be arranged differently."

Chen Xiang said: "I haven't even come back to see this Little Naughty Dragon, what are you and her so busy with?"

"Collect the materials for setting up the formation. Meng'er and the others told us to make these materials a long time ago. We've only collected half of them." Little Lizhi said.

"Go find Baifeng and see if she's good in this aspect." Lv Qilian said, "If she's willing, then let's go together."

"He's definitely good. When I was in Divine Cauldron Nation, she was the one who bought the divine medicine for me." Chen Xiang laughed. "She and Little Lizhi are like two sisters, they will definitely be compatible. I had told Elder Sister Bai Feng before, and Elder Sister Bai Feng also said that she was my little wife."

Little Lizhi spat softly before turning around and leaving the secret room.

When Little Lizhi left, Chen Xiang immediately smiled and revealed Lv Qilian's delicate body. "My beautiful female emperor, you've missed me to death."

Lv Qilian snorted lightly, and then looked at Chen Xiang with a gaze that was as gentle as water. At this moment, she was also hugged by Chen Xiang, and raised her head slightly to kiss Chen Xiang.

Yue'er speechlessly replied, "You really don't take me seriously. I'm still here."

An hour later, Lv Qilian's beautiful face slowly tidied up her clothes. It had been a long time since she had received Chen Xiang's warmth.

"All of you have finished your work. It's about time to get down to business." Yue Er smiled.

Lv Qilian's jade face slightly flushed, and asked: "You little scoundrel, didn't you say that you would cultivate for many days? It's only been two or three days, what exactly do you want to return for?"

Chen Xiang took out a purple pearl and gave it to Lv Qilian, saying, "Sister Qilian, take a look."

Seeing the purple pearl, Lv Qilian immediately frowned: "How did you get it, you are dual cultivating with a woman who cultivates Alive Slain Method and is extremely strong at that." When she said this, she was full of jealousy.

Chen Xiang pinched Lv Qilian's slightly bulging jade face, and laughed: "I made this myself, you are extremely proficient with Alive Slain Method, and for powerful women, other than you, I don't think Sister Feng's grasp of Alive Slain Method is as good as yours."

#### [Chapter 2185](#)

Lv Qilian still found it hard to believe that Chen Xiang had cultivated it himself. It was indeed just as Chen Xiang had said, other than the fact that she and Chen Xiang had dual cultivated together, the other woman had no way of cultivating this kind of purple pearl with Chen Xiang. But during this period of time, she had only been doing it with Chen Xiang just now, and they had not dual cultivated either.

"The quality is not bad. It can copy four different Zhongpin medicine!" Lv Qilian estimated, "But it will be difficult to replicate the Shangpin medicine."

"Sister Qilian, how many purple pearls does it take to copy a Shangpin medicine? For example, Bone level Dan s! " Chen Xiang immediately asked, as he currently lacked a Shangpin bone level Dan's divine medicine.

"I need at least 30 pills!" Lv Qilian sighed: "So right now, Shangpin medicine is our quality, and Zhongpin medicine is relatively easier for us to obtain!"

"Oh right, how did you do that?" Lv Qilian leaned in Chen Xiang's embrace, and played with the purple pearl. "You little scoundrel, you wouldn't possibly have a woman hidden inside your Youcai ring, right?"

"Of course not!" Chen Xiang laughed: "I was condensed out using my Divine Deity, I just managed to cultivate out a Life-Killing Divine Deity, it's just that this Life-Killing Divine Deity is a bit strange, it's actually fire attributed, and can also be used as a flame type Divine Deity."

Lv Qilian suddenly left Chen Xiang's embrace, and looked at him seriously: "Can you let me see your Life-Killing Divine Deity?"

"Of course you can, you can enter my Divine Sense Sea and I will release you." Chen Xiang also wanted to know why the Life-Killing Divine Deity he condensed were so strange.

As Lv Qilian's divine soul entered Chen Xiang's Divine Sense Sea, he immediately saw that silver Life-Killing Divine Deity, which was around the same color as Chen Xiang's fire Divine Deity from before.

"Sister Qilian, you mainly cultivate Alive Slain Method, so logically speaking, you should also be able to condense Life-Killing Divine Deity, and then directly condense purple pearls!" Chen Xiang said: "Your Divine Deity must be quite a lot now, if you had a lot of Life-Killing Divine Deity, the purple pearls that you condense would definitely be even more powerful."

"I already have thirty Divine Deity now. I mainly cultivate a single set of Divine Deity, my innate divine ability should have been a Life and Death divine ability! However, I don't know why, but I was still unable to unleash my strongest power from the very start, and was even unable to condense a purple pearl like you did." Lv Qilian said: "You wanted me to find a way to break through the Alive Slain Method and condense an even stronger purple pearl, I have been working hard but to no avail! Initially, I had thought that condensing Life-Killing Divine Deity was the only way out, but it had failed on my side."

Chen Xiang frowned, and said: "Sister Qilian, Life-Killing Divine Deity requires the combination of Yin and Yang, if you are a woman, then you are yin! So, when you were condensing your Divine Deity, you were only halfway done, causing your Divine Deity to be incomplete! "

"Could it be that I need you to dual cultivate while I condense my Divine Deity?" When Lv Qilian said this, his face was red.

"That's right, hehe!" Chen Xiang laughed.

"Little Scoundrel!" Lv Qilian spat softly, "Who told you not to be by my side and make me make such a huge mistake? How do I make it up to you? But what about you, this Life-Killing Divine Deity of yours is complete! "

Lv Qilian left Divine Sense Sea and lightly pinched the flesh on's chest as he looked at him reproachfully.

"My queen, I was wrong! I have already found a way to make up for it! " Chen Xiang laughed: "That Life-Killing Divine Deity I condensed was made from Nine Yin and yang Dan. Nine Yin and yang Dan already possess the power of Yin Yang, so my Life-Killing Divine Deity is complete!"

"Now, you just need to eat thirty Nine Yin and yang Dan s, and when you refine the medicine, refine the Yang energy inside your Divine Deity. You just need to handle the extra Yin energy yourself, it won't affect you in any way." Chen Xiang rubbed Lv Qilian's chest, making Lv Qilian moan repeatedly.

"I'll refine the Nine Yin and yang Dan for you right now. The thirty pellets will be completed soon! Once your Life-Killing Divine Deity is complete, you will be able to help me copy a large number of Shangpin medicine. " Chen Xiang said: "Don't go busy yourself these two days. I'll be back soon."

Yue'er suddenly said: "Chen Xiang, can't you just bring Sister Qilian along? I just need to stay here, and only two creatures can enter that Time Formation, so you two can save a lot of time. "

Chen Xiang patted his head, and laughed: "Why didn't I think of it?"

"Sister Qilian, let's go!" Chen Xiang pulled Lv Qilian's hand. Lv Qilian didn't know where Chen Xiang was taking her, but she didn't ask.

She took out a jade talisman and told Long Huishan some things, then they used an array disc to teleport out of the Hundreds of Flowers Village.

Then, Chen Xiang used the Space wind and brought him to the bottom of You Ming Deep Abyss.

"You Ming Deep Abyss?" Lv Qilian didn't really understand what was going on below.

"Mm, my secret place of cultivation!" Chen Xiang brought her to the bottom, passed through the stone door, and entered the tunnel.

"Huo Lin!" Yue'er was not here, so he could not bring Lv Qilian deeper in. He felt that if he were to stay here, Huo Lin would be able to bring him into the Qilin Hall.

Sure enough, not long after he finished shouting, he and Lv Qilian suddenly disappeared, and then appeared on the grass in front of the Qilin Hall's entrance.

Lv Qilian also didn't know where he was. He only felt that this was an independent and stable space, and it was filled with dense energy, as if it was inside a dragon's vein.

"Brother, is this eldest sister-in-law?" Huo Lin laughed as he walked out.

"That's right, I brought her here to cultivate together with me!" Oh right, when you first met your eldest sister-in-law, didn't you give her any gifts? " Chen Xiang chuckled: "Sister Qilian, this is Huo Lin, a pretty good kid, he's a Fire unicorn!"

Huo Lin curled his lips: "These are all gifts from the elders to the juniors, how can any of the juniors give them to the elders?"

Lv Qilian chuckled: "He's joking, don't listen to him!"

Huo Lin also laughed, "Sister-in-law, I really do have a present for you!" As he spoke, he took out a snow-white lotus flower.

"This is called the Divine Lotus of All Living Things. I can sense the Life Power that Sis cultivates, so I think it should be more suitable for you!" Huo Lin passed the lotus flower to Lv Qilian.

"Brat, you actually didn't give it to me. You're too ungrateful!" Chen Xiang scolded with a smile as he received the Lotus of All Living Things and stuffed it in Lv Qilian's hands. He was very clear on the background of this Huo Lin, since the Core of the Earth was the treasure of the Nine Heaven World, so he definitely had a lot of good stuff on hand.

When Lv Qilian saw this divine lotus, he had felt a trace of Qi from it and felt that he liked it a lot. However the moment she touched the divine lotus, the divine lotus's radiance blossomed and then disappeared!

"What's going on?" Chen Xiang was shocked. "Sister Qilian, what about the divine lotus?"

[Chapter 2186](#)

Huo Lin chuckled, "The divine lotus is a divine tool, and it was birthed from a great Dao. She recognized it by herself!"

"In my Divine Sense Sea, we can release very strong life energy! Thank you, Huo Lin! " Lv Qilian said with gratitude.

Chen Xiang was also very happy that he got such a good thing. He asked: "Huo Lin, how did you get hold of this thing?"

"This is the Core Area of the Earth Core Realm, the Nine Heaven World. I found it while I was out playing with it." Huo Lin laughed: "Only I can come and go freely in this Core, otherwise, not only will I get lost, I will also be killed by the Earth Core Fire Spirit, so big brother, you better not run around!"

"If you have anything suitable, remember to leave it to me. We'll go cultivate first." Chen Xiang patted his shoulder, then pulled Lv Qilian along and ran into the Qilin Hall, into the secret underground room.

Lv Qilian walked in and saw the pool of fire. He exclaimed, "So that's how Nine Heaven World's core is, then what's going on with Huo Lin? I never knew that you knew such a powerful guy! "

"I am his savior!" Chen Xiang explained about the Earthly beast briefly and Lv Qilian quickly understood.

Chen Xiang took out the array disc of the Time Formation, and went in with Lv Qilian.

"Sister Qilian, how good is that Divine Lotus of All Living Things?" Chen Xiang was extremely curious.

"How so? In short, I feel that if the Earth Core Lotus were to grow, it would at least increase my Divine Deity by ten more rays of Divine Deity. Lv Qilian laughed: "Are you jealous?"

"A little!" Chen Xiang touched her face, then gave her a kiss. "I'm going to start refining the Nine Yin and yang Dan now.

Lv Qilian also kissed him, then closed his eyes and started to cultivate, familiarizing himself with the Lotus of All Living Things.

As Chen Xiang was still unable to control his later stages of refining the Nine Yin and yang Dan, he was unable to refine the Nine Yin and yang Dan for the third time.

Just like last time, he refined it in six hours. Lv Qilian who was initially cultivating heard the rumbling sounds and opened his eyes to look, and asked in shock: "What is this?"

"Pill tribulation is nothing!" Just as Chen Xiang finished speaking, a bolt of lightning struck the black and white Nine Yin and yang Dan ...

"Completed!" Chen Xiang passed the Nine Yin and yang Dan to Lv Qilian: "Sister Qilian, after you eat it, you should know how to refine it, I will continue to refine it!"

Lv Qilian nodded his head: "If it is successful, I will need to acquire more of these Nine Yin and yang Dan, especially Yu Jie and the rest, who will need to cultivate more Life-Killing Divine Deity! If possible, it would be best if the original Divine Deity within their bodies were to be completely transformed into Life-Killing Divine Deity. "

Chen Xiang continued to refine pills, and at the same time, observed Lv Qilian.

"Sister Qilian, don't be surprised, after the first eight transformations, the last time was when your body underwent the transformation and finally managed to condense the Yin and Yang energies." Chen Xiang said.

"I got it!" Lv Qilian very quickly felt the change in power. She herself was also very surprised, but Chen Xiang found it strange.

Just like him, after the nine transformations, she would be covered by a hard black shell, and Lv Qilian had now begun to merge the yang energy into her first Divine Deity. It would be a success in no time, and the extra yin energy would be absorbed by the Lotus of All Living Gods, as well as allowing it to contain the Lotus of All Living Gods.

In less than half a day's time, she had finished refining the pill. At this time, the black shell outside of her also left, revealing her beautiful and perfect body.

Seeing Chen Xiang's bad hand reaching over, Lv Qilian patted it and laughed: "Little scoundrel, you want to come again!" After she finished speaking, she put on her clothes and kissed Chen Xiang on the lips.

"Success, one of my Life-Killing Divine Deity has finally been completed." Lv Qilian was very happy, she then opened her jade palm and used her life force to condense a purple pearl. It seemed that the quality of the purple pearl was a little better than the one that Chen Xiang had condensed.

Chen Xiang laughed: "I can refine a Nine Yin and yang Dan too, continue to eat!"

Lv Qilian nodded her head and accepted the Nine Yin and yang Dan but she did not immediately eat it. Instead, she said: "Right now, both you and I have a piece of Life-Killing Divine Deity, I wonder if it will still have any miraculous effects after us dual cultivating using the life and death energy?"

"Won't you know once you try?" Chen Xiang laughed.

"You want to do something to her again!" Lv Qilian giggled, then gently took off the clothes on his body.

The two cultivated for more than two hours before they were able to form a bead, and it was a purple bead.

"It seems like Duo Cultivation's effect isn't very obvious! After all, our Life-Killing Divine Deity already contains the power of yin and yang. " Lv Qilian looked at the purple pearl carefully: "However, the quality is still quite good."

In the following half a month, Chen Xiang refined a total of thirty Nine Yin and yang Dan s, and Lv Qilian succeeded in completing the thirty Life-Killing Divine Deity in his body. In these past few days, Chen Xiang was also living an extremely happy life, spending the entire day with Lv Qilian.

"Alright, now I can go back and tell those girls about this news. Tell them to hurry up and cultivate their Life-Killing Divine Deity!" Lv Qilian was also comforted by Chen Xiang to the point that she was even more beautiful.

"Remember to help me copy a little more of the Nine Yin and yang Dan's divine medicine. I'm really lacking these right now." Chen Xiang said.

Lv Qilian did have thirty Life-Killing Divine Deity, so her speed of copying was very fast.

"How about this, I'll hand over the matters outside to Hui Shan and then accompany you in cultivating. How about that?" Lv Qilian gave a sweet smile, "It's also been a long time since we last cultivated together!"

Chen Xiang immediately nodded, and laughed: "If only there were more people entering this place!"

"Let's go back and have Meng'er transform. Let's get out of here first!" Lv Qilian nodded his head. This Time Formation was indeed easy to use, they had been inside for so long, not even half a day had passed outside.

Leaving the Core Realm, Chen Xiang and Lv Qilian returned to the Hundreds of Flowers Village. He went to look for Xue Xianxian, while Lv Qilian went to look for Feng Yujie and the others.

Chen Xiang and the others arrived at their group's Villa with the light carriage as they were already familiar with the route, and the moment he entered, he saw the few girls smelting the materials.

"What's the matter?" Xue Xianxian lifted his eyelids, looked at Chen Xiang, and asked doubtfully: "Didn't you go to cultivate? "Why are you here?"

"Are you guys repairing that cauldron?" Chen Xiang saw that the things inside the furnace that were being smelted were extremely sturdy and asked.

"Mm, Sister Yulan needs this cauldron!" Xue Xianxian said.

"Xianxian, do you have any way to modify the Time Formation? "We can add a few more people!" Chen Xiang said: "Right now, only Qilian and I can cultivate inside."

### [Chapter 2187](#)

"This is a little difficult!" Liu Meng'er said: "We also need to find a new combination of Spirit grain ... It would be better to strengthen the ring! "

"The Dark Dragon Ring has been strengthened?" Before, Chen Xiang had heard that it would be strengthened, because when he came back, he had put the few of them inside the ring. Now, they all had strong Divine Deity, and the ring was only at the Immortal Grade.

"En, as long as I enter the ring, the time inside will also follow the time of the wearer!" It was just that the ring was too fragile. If one cultivated inside it, they would need to absorb the energy from the outside, or the divine force released from within would be too great, causing it to collapse! Although it is called strengthening, it is actually equivalent to a new refining method. " Dongfang Xinyue said: "Although the difficulty is not small, it is a little easier than strengthening the Time Formation."

"How long will it take?" Chen Xiang now understood that Xue Xianxian and the others were really busy with refining teams, no wonder they did not have time to see him before.

He had a lot of things he had given them to do, such as repairing the profoundwu clothing, and now he was going to let them refine the ring again, so they needed to repair the Six Realms Ding as well.

Dongfang Jing said softly, "Big brother, once we have finished smelting this material, we will be able to help you refine it. "Don't be in such a hurry!"

Chen Xiang walked over and touched her pure and beautiful face: "Jingjing is so amazing, even big brother needs your help now!"

Dongfang Jing smiled sweetly. She was very happy to be able to help Chen Xiang.

Dongfang Xinyue laughed: "This girl was worried that she would implicate you!"

"Actually, ever since we started refining the ring, we were able to refine artifacts inside it while you were inside the Time Formation. This way, we would be able to buy more time." Xue Xianxian laughed: "I can even supervise this little scoundrel."

Chen Xiang laughed, "Then you guys must refine the Dark Dragon Ring even more. That way, you can let Xiang Yue and the rest to refine pills."

Chen Xiang planned to bring a large group of women to Huo Lin to receive their gifts. He felt that Huo Lin definitely had a lot more treasures.

The unlucky Huo Lin was still lying on the lawn bathing in the sun, completely unaware that Chen Xiang was plotting against him.

Chen Xiang took out all the useful things from the ring, and then gave the ring to Xue Xianxian.

"Brother, did you use four formation plates at the same time?" Dongfang Jing asked.

Then the Time Formation would only be used for the first level, which meant that outside of the Time Formation, one day was equivalent to inside for a month. If two levels were outside, then one day would be inside, and inside for a year, and the third level would be ten years, and the fourth level would be a hundred years!

Because the time difference was too huge, and because he would sometimes stay inside for a period of time, he would come out again. The large array had just absorbed a lot of energy and would have to stop for a while, so it would be quite expensive.

Moreover, he was worried that the Core would affect him, so he didn't use the ones that were at least ten or a hundred years old.

"I usually use a month or a year. Is there a problem?" Chen Xiang asked.

"If you use the 10 or 100 year old ones, it would be best if you use them at full capacity at once. These Time Formation s are the best if used at full strength for one day, it can maintain the problem. Of course, if you use the Month and the Year, then it doesn't matter. " Liu Meng'er said: "This Time Formation is also one of the more powerful array discs in the Heavenly Divine Lord, it just consumes a lot of energy."

"I understand!" Chen Xiang nodded his head, "I'll go look for Sister Qilian now, I'll come back in a month!"

Chen Xiang felt that it was about time, just as he was about to turn around and leave, he saw Lv Qilian walking over.

"It's all settled!" Lv Qilian nodded towards Chen Xiang, then asked: "Meng'er, can you break through the Time Formation?"

"No, if it's not enough, we can use the ring to change it ..." Xue Xianxian told Lv Qilian their thoughts.

Right now, Chen Xiang needed a large number of Nine Yin and yang Dan. This kind of divine pellet could quickly condense Divine Deity and divine soul, and with the addition of the Time Formation, the Hundreds of Flowers Village's overall strength would increase by a lot very quickly.

Chen Xiang and Lv Qilian once again headed towards the Earth Core Realm. This time, they would be staying for a while, and Lv Qilian's current job was to condense a large amount of Nine Yin and yang Dan's medicinal ingredients.

"The Nine Yin and yang Dan's divine medicine is really miraculous, it doesn't need much Life Power to be able to be copied! When I condense a purple pearl, I can make a copy, which will allow me to make at least five copies a day." Lv Qilian said: "How long are we going to stay here?"

Lv Qilian and Chen Xiang were already inside the Time Formation.

"This is the first month, and the first day outside!" As for Xianxian and the rest, they will need more than thirty days to finish refining You Yao ring.

"Doesn't that mean it's been thirty months?" Lv Qilian said.

"Yes, we want to refine a few more Shangpin bone level Dan!" Chen Xiang nodded.

To Lv Qilian, this was not a difficult task. Back then, in order to let Feng Yujie and the others have enough divine medicines, she had also frequently helped them copy the divine medicines! Furthermore, she was with Chen Xiang right now, so she didn't feel it was boring at all.

"So many women are really hard to raise!" Chen Xiang laughed.

"You know that too! I've helped you raise it for so many years, hehe!" Lv Qilian scoffed, "You only know how to throw it at me."

Chen Xiang hugged her, and laughed: "Aren't I going to make it up to you now?"

The rest of the time, Chen Xiang was in charge of concocting pills and Lv Qilian was in charge of replicating divine medicines. The two of them stayed together all day, flirting and flirting from time to time, leading a happy life.

Lv Qilian was able to replicate five sets of Nine Yin and yang Dan's divine medicine in a day, and Chen Xiang's speed of refining Nine Yin and yang Dan was also able to catch up. In just a thousand days, Chen Xiang had refined two thousand Nine Yin and yang Dan's and a thousand pieces of Shangpin bone level Dan's!

During this period, Chen Xiang had also trained for a period of time, and now he possessed ten Divine Deity, and stepped into the Super God Realm!

"Fortunately, I am with you. If I were myself, I would be very bored." Chen Xiang looked at the results of the past few days and laughed.

Lv Qilian kissed his cheeks: "Let's go out now! This is just the beginning. "

Chen Xiang understood that his current cultivation was too low, if he wanted to become stronger before the Divine Nations invaded, he would need a lot of time.

When Chen Xiang left, he did not see Huo Lin, but he knew where the array formation was! Huo Lin had also said before that he would usually search the depths of the Earth for treasures and that he would be able to hear him once he shouted when he entered. Huo Lin didn't even need to be in this place to bring him in.

### [Chapter 2188](#)

When Chen Xiang and Lv Qilian returned to the Hundreds of Flowers Village to look for Xue Xianxian and the others, it was just as they had said.

Chen Xiang took the ring and looked inside, the space inside was even larger, but he was unable to enter. Inside the ring, there was still a huge mansion, and his spirit sense could not penetrate inside, it was the same as before, if not Chen Xiang could see what was going on inside!

"The space inside has already been newly refined. Because we are already familiar with those Spirit grain, we were able to create it so quickly." Seeing Chen Xiang's surprised face, Xue Xianxian laughed: "Did you get scared?"

"It's indeed impressive, the space inside is very stable! I reckon even Yue Er can enter! " Chen Xiang said. At this time, Yue'er also flew over.

"I'll try!" Because of her previous self, she had been unable to enter the ring. But now that the ring had been strengthened so much, there shouldn't be any problems.

Chen Xiang tried it and successfully let Yue'er enter the ring!

"Haha, I'm coming in!" Yue'er flew around inside. "It's not bad here, it's equivalent to refining a small world! I'm just very curious, why did you bring so many spatial materials? If you want to maintain this level of spatial stability, just having Spirit grain s is not enough, you will need very special and rare spatial refining materials. "

"When we were in Divine Cauldron Nation, we got Yu Lan to help us collect them. This is the reward that she promised us, we wanted a lot of it at that time." Liu Meng'er said: "Let's go in and see how it goes!"

Although Liu Meng'er and the others had refined it before, they had never used it before. Only after Chen Xiang had dripped blood on it to confirm his ownership did they enter, and even though they had refined this ring before, it still held a lot of significance to Chen Xiang. Liu Meng'er and the others all knew the meaning of this ring's name.

"Chen Xiang, go find Yu Jie and the others first, I will pass these divine pills to Hui Shan to distribute." Although she and Chen Xiang had a lot of Nine Yin and yang Dan s to refine in the Time Formation, they didn't need that right now.

In the future, they would be able to get even more, because Feng Yujie and the others, this Pill Refining Team, would also be able to get in!

Lv Qilian was very clear that her Hundreds of Flowers Village could not always rely on Chen Xiang. Chen Xiang had only helped her to establish a position, in the future, they would still have to rely on themselves.

The Youyao Yugong inside the ring had also been expanded and reconstructed by Liu Meng'er and the others. This was because their refining team needed a relatively large secret room, and it was the same for hot Feng Yujie and the others' refining team.

When Chen Xiang came to their villa, he immediately felt a trace of hot air coming out from the ground. He immediately knew that Feng Yujie and the others were concocting pills in a secret underground room!

He tried to sense the secret underground room. The security there wasn't very tight, so he teleported immediately to this secret room. and the other seven girls were surrounding a two man tall big pill furnace, concocting pills together.

"Is this the Seven Souls Art?" Chen Xiang immediately released his Dao heart Eye and looked at the big pill furnace and his surrounding. He could see the shape of the energy flow.

Feng Yujie and the others were very serious, they did not notice Chen Xiang's appearance here!

"A very uniform output of Fire God Power!" Chen Xiang could see the seven girls' uniform divine fire power slowly being released, finally turning into flames of the same intensity and entering into the Great Pill Furnace.

He followed the flow of the fire divine power and looked at the interior of the great pill furnace. He could only vaguely make out some things and could not see any changes within the pill furnace.

Furthermore, when he was refining pills, in order to prevent the Qi inside the furnace from leaking, the Alchemist had also set up a barrier. This way, it would be difficult to find any changes within the pill furnace.

"They are actually refining Nine Yin and yang Dan? That is to say that they have already successfully refined it previously?" Chen Xiang was still a little doubtful, because Nine Yin and yang Dan were not that easy to refine, even though he had already guided quite a few of them.

If we were to talk about Heaven god fire Dan s, Chen Xiang did not doubt them at all. These seven women all cultivate Heavenly Alchemy s and have accumulated a lot of experience over the years.

"He's really refining Nine Yin and yang Dan!" Chen Xiang could vaguely see several balls of black and white yin and yang energy mixed together inside the pill furnace.

This caused Chen Xiang to be extremely shocked, because these seven women were refining a few Nine Yin and yang Dan s at the same time! Even though Chen Xiang had that thought, up till now, he still did not know what he should do!

"Could it be that this Seven Souls Refinement is really powerful? It could actually allow them to refine many Nine Yin and yang Dan s at the same time!" Chen Xiang was very curious, and wanted to know how they did it right now. That way, he could learn something from it.

This was because when he was refining Nine Yin and yang Dan, he could only refine one furnace at a time and could only produce one pill at a time. This caused him to refine these pills very slowly.

Chen Xiang could only wait patiently, he knew that he wouldn't have to wait too long, because the Nine Yin and yang Dan had already entered the later stages of the natural pill condensation phase.

Sure enough, Chen Xiang had only waited a short while before Feng Yujie and the other girls opened their eyes at the same time.

"You scared me!" Su Meiyao scoffed, "How long have you been in here?"

"Not long!" Seeing you beauties concocting pills at the same time is also a type of enjoyment! " Chen Xiang laughed, he had already arrived by the side of the big pill furnace and floated: "Can you open the lid of the pill furnace now?"

"Do you know what pill we are refining?" Hua Xiangyue smiled charmingly: "You guessed right, I will give you some rewards!"

"Nine Yin and yang Dan! And it's even five pills. " Chen Xiang said confidently. Although he couldn't see everything clearly, he could still catch a few things.

Hua Xiangyue laughed tenderly: "Amazing, one kiss!" With that, she gently floated to Chen Xiang's side and kissed his cheeks.

Chen Xiang opened the lid of the pill furnace and said, "Five Nine Yin and yang Dan, I wonder what the simultaneous Pill Calamity will be like?"

Feng Yujie asked: "How do you know that we are refining Nine Yin and yang Dan? And it can even be said that it's five pills! "

Not only Feng Yujie, Su Meiyao and the others were also very curious, because when concocting pills, it was best to not reveal any of it. Furthermore, Feng Yujie and the others thought that when they were using the Seven Souls Refinement Method, they had already done so to not leak any of it, but Chen Xiang could still see through it.

### [Chapter 2189](#)

Wu Qianqian thought of something and said softly: "His eyes are very strange. Last time, he used those eyes to refine a batch of Bone level Dan s in an instant."

"Not with your eyes! If I look with my eyes, hehe. I can see more of you! " Chen Xiang could directly see someone's Divine Sense Sea with his eyes, and if his defense was insufficient, he would even be attacked by him.

"It's even stronger than the Source Spirit Eyes!" "It's a bit hard to cultivate." After Chen Xiang opened the lid, the five Nine Yin and yang Dan floated up. The Pill Calamity arrived in a flash, and a few bolts of lightning struck the Nine Yin and yang Dan.

After the Nine Yin and yang Dan passed through its Pill Calamity, Chen Xiang extended his hand out to receive it. Looking at the quality, there was not much difference between the quality he had refined and it.

"When did you learn it?" Chen Xiang asked: "Looking at you guys, refining it is very easy! If that Great National Master from Divine Cauldron Nation knew about this, he would definitely vomit blood! "

"It took us ten days to succeed. This is our third batch!" Feng Yujie said: "Compared to you, we are still lacking a lot. If we were to refine it ourselves, it would be a bit more difficult!"

"Then how long will it take for you all to craft this furnace together?" Chen Xiang asked again, "Although your seven souls are more powerful, you shouldn't rely too much on them, unless you guys can refine it on your own at a very high level. If you use it together, the effects will definitely be better."

Su Meiyao nodded his head: "We will use the refinement of the seven spirits, the fastest we can refine five pellets in an hour and a half, and we will also need to use five sets of Nine Yin and yang Dan s as medicinal ingredients! If we were to forge it alone, it would take at least eight to nine hours. "

"Chen Xiang, how much time do you need to refine a batch of Misty Rain River South?" Du Yanyao asked.

"Around four hours. If I were to use my full strength, two hours shouldn't be a problem!" The difficulty that I am currently unable to overcome is the later stage! You all should know that when you condense your cores later on, it's all naturally formed. I can't control it, so it's very difficult for me to break through my limits. " Chen Xiang sighed.

"This... You still want to break through your limits? " Ji Ling'er was extremely surprised, her mouth wide open, "What other limits is there to break through?"

"Spiritual Light!" Chen Xiang laughed: "Refining a Nine Yin and yang Dan with spirit light is definitely very difficult! And this is only my current goal, I have a higher goal in the future! "

All the girls were shocked by Chen Xiang's words. Refining the Spiritual Light was indeed difficult, and they needed to concoct the medicine, but they could not control the Nine Yin and yang Dan at all! It was almost impossible to refine a Spiritual Light!

"Is there anything higher than Spiritual Light?" Hong Xia thought for a moment, then shook her head: "The spiritual light should not appear on the Nine Yin and yang Dan, right?"

Feng Yujie nodded his head: "This Nine Yin and yang Dan is already very mysterious, divine medicine isn't something that's very rare, but the divine pills that are refined are actually this powerful, I think that this is already the limit, we are unable to refine any spirit lights, we need to follow the laws of nature."

Su Meiyao pinched Chen Xiang's face, and said with an enchanting smile: "Little Scoundrel, you must have made a breakthrough, are you hiding it from us? And then he was going to hit us again, wasn't he? "

Chen Xiang laughed, "Of course not! I've already said it before, I still have no way to break through the second slash! Although this is the power of nature and contains the power of law, since this is the power of law, then it can still be broken! "

"Oh yeah, you all should have refined Tianhuo Dan, right?" Chen Xiang took out a Tianhuo Dan.

"Yes, the Tianhuo Dan was easily refined. It was a success." Wu Qianqian nodded, then she took out the Tianhuo Dan she refined for Chen Xiang to see.

There were two Tianhuo Dan in Wu Qianqian's palm. One of them was a normal high quality Tianhuo Dan, and the other was a Tianhuo Dan that had a spirit light.

"Not bad, a Tianhuo Dan that can already refine Spiritual Light!" Chen Xiang laughed, and touched Wu Qianqian's jade face, causing her to wrinkle her nose at him, the smile was extremely sweet and gentle.

"Why do you ask?" Feng Yujie said: "We can all refine Tianhuo Dan with Spiritual Light!"

Chen Xiang laughed: "The Tianhuo Dan I refine is extremely terrifying. It far surpasses you Spirit Soul Tianhuo Dan, and is close to the existence of Jingshen Dan."

"Impossible!" Feng Yujie spoke with determination. She knew a lot about divine pellets, so she had naturally heard about the Jingshen Dan s before. "Jingshen Dan s usually only appear with their divine pellets, or even with their divine pellets! The power contained within the Tianhuo Dan's divine medicines is simply unable to crystallize. "

When Chen Xiang taught them his experiences before, he did not tell them this part because he did not succeed in refining a Jingshen Dan either. Although he had almost succeeded, in his opinion, it was a huge failure.

All of the Tianhuo Dan that he had competed in the Divine Cauldron Nation with Xiang Hongdao had been given to him, and Xiang Hongdao said that he wanted to conduct research on them! Therefore, he didn't have it right now, but he planned to personally refine a batch.

"Qilian is outside, I'll open the door!" Ji Ling'er immediately opened the door.

When Lv Qilian entered and saw that Chen Xiang and the girls were discussing something, and was even serious, she was extremely curious. After asking, she also found it difficult to learn that Chen Xiang was actually going to use Shangpin medicine s to refine Jingshen Dan.

Without saying anything, Chen Xiang took out the pill furnace and laughed: "I will refine one for you all to see, but let me explain first, I was just a step away from success, I am still unable to pass the last step, although it is only an incomplete pill, but it proves that I might have succeeded."

As he said that, Chen Xiang had already begun to put in the Tianhuo Dan's divine medicine, and then began to refine!

At the beginning, he quickly entered the final stage of fusing the medicinal liquid. It was the same as before, what he refined was also mutated!

"It's the critical moment!" Chen Xiang immediately circulated the Eight Day Sea Suppressing Orb, preparing to suppress the changes that occurred inside the furnace.

At this moment, the purplish-gold medicinal liquid had already been split into six, and he poured sufficient Fire God Power into each of them.

"Begin!" Chen Xiang used his six strongest Fire God Power to drive the six balls of medicinal liquid forward.

It was just that from the start, Chen Xiang felt much more at ease. He realized that Su Meiyao and the other two's Soul Refining techniques were not only limited to neutralizing their powers, they were also much stronger than the combined forces of the seven women.

"You quit and let us do it. If you can't cooperate with us, it will affect us." Feng Yujie said.

Chen Xiang nodded his head: "I am about to withdraw, get ready ... One, two, three, retreat! "

The moment he withdrew his power, the seven girls immediately felt a heavy force surging towards them. Now, they couldn't help but admire Chen Xiang for being able to suppress them for so long by himself! Of course, when the seven of them united, it was much easier compared to Chen Xiang.

Just like that, after an hour, the five pills had been compressed to a certain extent, and no longer produced any resistance!

"Alright!" Feng Yujie exhaled: "It's really hard to deal with!"

Lv Qilian took out a jade plate, walked over, and with Chen Xiang still resting, he smiled: "Now do you believe what I said! Is this a Jingshen Dan? "

"Yes, it's very sturdy!" Lv Qilian said as he pinched himself hard, "This is usually the rigidity of the condensed energy crystal! It's hard to imagine, just a portion of the Shangpin dan could be refined into a Jingshen Dan! "

Feng Yujie wiped his sweat and nodded: "And it's five of them!"

Su Meiyao and Hua Xiangyue, the two Goblins had already arrived beside Chen Xiang, and helped him wipe his sweat, clearing away the dirt on his body that was caused by the explosion.

Chen Xiang chuckled: "The Tianhuo Dan can do it! Bone level Dan s and Heaven god fire Dan s can also, and even Nine Yin and yang Dan s, I feel that it is possible, but I have yet to find a way to break through! "

"Actually, I had an even more daring idea. I would like to make a second attempt and cause that half crystal Tianhuo Dan to crash into me again!"

Su Meiyao lightly pinched the muscles on his back, and said with a smile: "If I hit him again, this entire place would collapse!"

Ji Ling'er sighed: "We are still too inexperienced, we did not expect the divine pellet's quality to be able to unceasingly break through, if it was really successful, wouldn't it mean that ordinary divine pellets can refine extremely high quality divine pellets?"

Wu Qianqian said: "Chen Xiang, have you ever tried using a low level divine medicine before? "Then it might be easier?"

Chen Xiang shook his head: "I have never tried it before, I plan to try out low rank Bone level Dan s in the future, and if they can continuously break through the limits of quality, to our Alchemist, they will be able to temper an even thicker foundation."

Lv Qilian picked up one pellet and placed it next to Feng Yujie's mouth, like he was feeding candy to a child, causing both she and Feng Yujie to laugh involuntarily.

After Feng Yujie ate this piece of Heavenly Flame Jingshen Dan, he could not help but take a deep breath: "With this level of medicinal power, it's equivalent to at least ten Heaven god fire Dan s!"
