

## Dan God 2191

### [Chapter 2191](#)

Chen Xiang had also eaten a Jingshen Dan, the medicinal power was extremely strong! If those precious and very useful Shangpin dan were to be refined into Jingshen Dan, then they would be able to obtain an even more powerful effect. Baidu Search for Title + 800 Tale Net

This was also what Chen Xiang had always been pursuing. He continuously broke through his limits to refine even higher quality pills, and deeply excavated the potential of these divine medicines.

"Are you all ready? Go into the ring to refine pills, that way we can enter the Time Formation to buy more time! " Chen Xiang said, "Xianxian and the others, this refining team is already inside."

Lv Qilian now also mentioned the matter of her cultivating Life-Killing Divine Deity. She had thirty Divine Deity, so she could quickly duplicate divine medicines! The Nine Yin and yang Dan that Chen Xiang had refined previously, were not all given to Long Huishan. They still kept some, which was enough for Feng Yujie and the others to cultivate Life-Killing Divine Deity.

"Of course not, this will buy us more time. As long as we become stronger ahead of time, we can make the Hundreds of Flowers Village more stable." Feng Yujie said.

Su Meiyao said: "Only refining pills isn't enough for us, right? For example, Ziqian You Lan and the rest. "

At this time, Liu Meng'er said from within the ring: "Looks like it won't work. Under normal circumstances, no matter how many people enter the ring, it won't be a problem. But if it's inside the Time Formation ... I'm afraid it won't do, there is a certain limit! Moreover, Chen Xiang will be using the hundred year old Time Formation! "

"One day outside, we will be inside the Time Formation for a hundred years!" Chen Xiang said: "Because we still have a lot of things to do, we have to speed up! How about this, we'll stay inside for a thousand years, and it's only been ten days outside, then we'll trade you and Youlan in! "

Lv Qilian nodded his head: "Then let's not waste any time, let's go quickly!"

After that, Feng Yujie and the others placed the big pill furnace into the ring, and Lv Qilian followed them in!

Chen Xiang immediately headed towards the Earth's Mind Realm, and Huo Lin had also returned. Originally, he had planned to let the woman in the ring come out and receive a present or something, but he was worried that he would scare Huo Lin, so he decided against it.

"Big brother, is sister-in-law not here this time?" Huo Lin asked curiously.

"He's here, but inside this ring ..." And it's not just a sister-in-law, do you want to meet all of them? " Chen Xiang asked with a smile.

Huo Lin was startled, then laughed: "Big brother, you are worried that they would come out to ask for my presents, so you hid them inside your storage ring, right?"

"I was just worried that you would be embarrassed. The last time you gave Sister Qilian a Divine Lotus, I felt a little embarrassed." Chen Xiang laughed.

"What's that?" That God's Lotus is only a small toy to me. As the Earthly beast, I am the Underground Autarch, can't I give it back? "Hurry up and get us all out of here, don't look like I'm too stingy." Huo Lin said very straightforwardly.

Chen Xiang laughed: "Since you said that, then I won't pity your things anymore ..."

After that, he asked the refining and refining teams to come out. Adding Lv Qilian to that, there were twelve people. Huo Lin had thought that there would only be a few of them previously, but he didn't expect there to be so many.

"Sisters, you're all like me, all of you practice fire, this is much easier!" Huo Lin took out eleven fiery-red lotuses: "These are all Earthen Spirit Lotuses, and are all good items that are bred by the Earth's Core. They have all been picked by me long ago, but they're not suitable for me to use, and only women can use."

Xue Xianxian and the others thanked them with a smile. Right now, they felt that Huo Lin was like Big Brother Chen Xiang, normally only the elders would give gifts to the juniors, but now, Chen Xiang actually had the cheek to ask this little brother to give them such valuable gifts.

"He's my brother, not my husband!" Dongfang Jing said with a red face, but she did not receive the Spirit Earth Lotus.

"Then you're my big sister, so I'll give it to you as a gift." Huo Lin was extremely happy as he laughed.

Ji Ling'er and Red Cloud were not Chen Xiang's women in the first place, but Chen Xiang still gave them the mind lotus.

After receiving the gifts, Chen Xiang allowed them to enter into the ring.

"Big Brother, why don't you let them go around for a while? Would it be fierce to stay inside the Storage magic treasure?" Huo Lin said.

"That's not it, because I want to go into the Time Formation to cultivate with them, so the Time Formation can only stay for two people, so I can only use this method! Right, you have enough energy in this earth's core, right? The Time Formation that I am using can turn into a hundred years in one day, and the amount of energy required to do so is extremely huge. " Chen Xiang said: "I'm worried that I will empty the energy in this earth's core."

"Based on the current quality of the space, the energy required to turn one into a hundred years is indeed enormous. However, the core of the earth can still withstand it, but it cannot continue! Big Brother, you better use it once every once in awhile. This way, you can give the earth's core some space to recover! " Huo Lin thought for a while, then said: "You will stop every ten days, and if you give Core Lu a day or two, he will be able to recover."

Chen Xiang said: "Alright! Oh right, Huo Lin, are you looking for some treasure that you wander around in the underground world all day? "

Huo Lin laughed: "Big brother, to be honest, I am looking for my future wife! Before Earth's Core Divine Spirit left, he told me that his other half in the heart is also a Qilin. It seems to be a Purple Qilin.

"So it's like this, then you have to put in more effort!" Chen Xiang patted his shoulder, and laughed: "I'm going to cultivate, my current strength is still very weak, I need to become stronger when Nine Heaven World devours Super God Realm."

"Alright, Big Brother, you have to work hard too!" Huo Lin said.

Chen Xiang went into the cultivation room and opened four levels of Time Formation. After entering, the Time Formation was frantically absorbing the energy from the fire liquid pond beside it.

"Ten days outside will be a thousand years!" Chen Xiang had already planned to stay here for a thousand years. During this time, he would be able to let them refine many divine pellets, which would be enough for him to obtain a lot of power.

In the pill refining team, only Feng Yujie and Su Meiyao were battle-type, but they did not intend to develop in this aspect. They had already decided to focus on refining pills, instead of enjoying violent power like Chen Xiang! Xue Xianxian and the others, on the other hand, were not very fond of fighting.

But if they were to join forces, it would allow them to nurture many powerful War Gods! Godly pills and godly weapons were very necessary for wargods.

Although Lv Qilian cultivated in the Alive Slain Method, not only could she replicate the divine medicine using her life and death powers, she could also use it to kill people as well. As for what methods she had right now, Chen Xiang was also not sure, because he had not seen Lv Qilian make a move for a long time.

"Qilian, wait until a thousand years have passed, then we will be able to get another group of berserkers. We will be refining pills for a thousand years, which is enough for Hundreds of Flowers Village and Nine Heaven School to use for a long time!" Feng Yujie said: "It's impossible without powerful wargods, only with divine pellets and powerful divine tools."

Lv Qilian nodded: "I understand, this thousand years is enough for me to cultivate many Divine Deity ... And there's even Bones! "

## [Chapter 2192](#)

Due to the appearance of a refining team, Chen Xiang did not need to be so nervous about refining pills. He only used to refine pills for a few days, and then he started to cultivate. WWW. 8 00book.net All the words, faster, no windows! >

In order to not be too bored, Lv Qilian came out from the ring to accompany him. She also knew that if they spent a thousand years together, not a single person would talk to them, it would be extremely boring. Furthermore, they were husband and wife, if they stayed together, it would be even more carefree.

"Could it be that my Bones has reached a bottleneck?" Chen Xiang wanted to cultivate up to the Fifth Bones now, but he had eaten hundreds of Bone level Dan and failed to trigger the opportunity, causing him to waste a lot of time.

"You should cultivate first. Perhaps, to you right now, your Bones has already reached its maximum capacity. Perhaps, you might need an even stronger physical body in order to be able to contain more Bones." Lv Qilian comforted him.

"Mn, I shall begin to condense Divine Deity now! Sister Qilian, tell me, do I still need to condense Life-Killing Divine Deity? " Chen Xiang asked: "My main future direction is also to refine pills!"

"I think it's necessary, because Life-Killing Divine Deity are a bit special, the life and death force produced by the transformation is not weak at all! Furthermore, you specialize in fire, so you can also convert a strong power of Life and Death Divine Flame, which is better than your original fire Divine Deity! If I feel that it's possible, then turn your other fire Divine Deity into your Life-Killing Divine Deity. "

also thought the same. Not only did Life-Killing Divine Deity possess immense violence, it also had the attribute of creating a fire Divine Deity and it was also a flame Divine Deity.

It was because there were no Nine Yin and yang Dan before, that was why they were unable to form a perfect set of Life-Killing Divine Deity.

Chen Xiang and Lv Qilian both had a large amount of divine pellets as support, and also had top-notch divine arts, so it could be said that they could cultivate unimpeded.

The long thousand years were about to pass, Lv Qilian had already cultivated up to seventy Divine Deity, and all of them were Life-Killing Divine Deity. The purple pearls she condensed out possessed an even stronger replicating ability, and Chen Xiang only had sixty Divine Deity now.

The girls who were refining pills in the ring, had cultivated for shorter periods than Chen Xiang and Lv Qilian, because they were mainly refining pills, but they could still use forty to fifty sets of Divine Deity, and they also had three in each group.

"Yue Er, almost a thousand years, right?" Yue'er was extremely sensitive to time and had a very precise timing. But during this past year, she had made a great breakthrough and cultivated up to the Sixth Divine Deity, relying solely on the that the pill refining team refined for her. She loved Su Meiyao and the others to death right now.

"Ten days is more than enough!" Yue'er said: "Chen Xiang, the Six Realms Ding have already been repaired. At that time, we can give it to Xiao Yulan, and not much time has passed for them!"

Chen Xiang nodded his head. Not only did Liu Meng'er and the others fix the Six Realms Ding, they also fixed the Five Elephant Divine Weapons on Chen Xiang's body, allowing him to become even stronger.

Of course, the most important thing was that he helped Chen Xiang refine a very strong pill furnace. Because it was a technique left behind by the Heavenly Divine Lord, it was named the Heavenly furnace.

"Husband, we've discovered a secret of the Five Elephants Godly Weapon!" Xue Xianxian said, "When we were repairing the Five Elephant Divine Weapons, we had already thoroughly studied the structure of the Five Elephant Divine Weapons, and actually found out that these five Godly Weapons can be fused together! It should be said that they were originally a whole, but for some reason, they were split into five parts. "

"Oh? "Then how can we reorganize it?" Chen Xiang was very curious about this, and wanted to see what the combination of the Five Elephant Divine Weapons would turn into. After all, these were the more powerful Divine Weapons that the Heavenly Divine Lord had left behind, and even the Divine Nations s were looking for them.

"I need to smelt it, but if I don't, it will all be wasted!" Liu Meng'er said: "Do you dare to try?"

"You dare, I believe you will succeed!" Chen Xiang said: "How long will it take?"

"I don't know yet, but the process is very complicated and will take a long time. However, I don't need any materials, because the materials used for the Five Elephants Godly Weapon are already very good." Dongfang Xinyue said: "If you want to go to Divine Cauldron Nation to exchange for Six Realms Ding, it would be best if you can wait for us for a while and combine the Five Elephant Divine Weapons."

"That's not a problem. We need to go out and rest. A group of battle maniacs will come in and train." Su Meiyao laughed.

If he lost the Five Elephant Divine Weapons, it would be a huge loss to Chen Xiang. However, he wanted to see what would happen after the fusion. He felt that he still had a Six Realms mirrors, and this thing was also very strong, he had researched it many times over the past thousand years.

The most powerful thing about Six Realms mirrors was that it had many powerful formations! After Liu Meng'er and the others analyzed and researched it, they knew that there were many uses of the Six Realms mirrors, but they were unable to copy it because the Six Realms mirrors was not made from human beings, but was naturally nurtured by the Great Dao.

Six Realms mirrors s were powerful existences, but they could use Six Realms mirrors s to shine through large formations, and could be directly imprinted inside Six Realms mirrors s. This was the reason why Six Realms mirrors s had so many powerful formations.

Furthermore, Six Realms mirrors could record many images and it could even radiate powerful attacks! It was not as simple as nurturing a Six Realms' Power, it was also a very strong killing tool.

Now Chen Xiang understood why the six Divine Lord s back then could be called emperors. With this treasure, it was hard to not be powerful, but in the end, it was still difficult to fight against four opponents. After being surrounded, the Six Realms mirrors s were heavily injured, causing the six Divine Nations s to be destroyed.

After cultivating for a thousand years, Chen Xiang and Lv Qilian finally walked out of the Time Formation. Only ten days had passed outside!

When they walked out of the Qilin Hall, both Chen Xiang and Lv Qilian were a little surprised. Originally, the outside of the hall was brimming with vitality.

"Huo Lin, I am truly sorry for making this place become like this." Chen Xiang shouted guiltily, because Huo Lin wasn't here right now.

It was also because of the excessive use of the Time Formation that caused this place to become like this.

Huo Lin suddenly appeared and giggled: "It's fine, Core Earth also knows how to protect yourself, so it has sealed off a lot of its energy, and it was not completely absorbed by you. It will become better after a few days, Core Earth is very strong. "After all, this is the energy source that maintains the laws of this world. How could something happen to your array formation?"

"Really? You scared me to death! And here I thought the core of the earth was finished. " Chen Xiang also laughed.

Chen Xiang and Lv Qilian arrived at the teleportation formation and asked, "Huo Lin, if there is another formation like this, can I come in the next time I come in?"

"Of course, but only the Earth's Core Divine Spirit can lay down this array! Of course, if you guys have experts in setting up the array, it would also be possible to take some time to break the Spirit grain. " Huo Lin nodded.

Chen Xiang laughed, held Lv Qilian's hand and floated high up in the air. Then, he shone the Six Realms mirrors in his hand onto the Transmission array, with a thought, this Transmission array would be copied inside the Six Realms mirrors.

"Next time, I'll be able to teleport here. I don't need to trouble you!" Chen Xiang laughed as he teleported away with Lv Qilian. WWW. 8 00book.net All the words, faster, no windows!

### [Chapter 2193](#)

After returning to the Hundreds of Flowers Village, there weren't any changes here because they had only been gone for ten days.

Lv Qilian immediately took out his Communication jade Symbol paper and summoned all the battle maniacs that he had to train!

Leng Youlan and Mu Qianxiang were naturally elected, and then it was Long Huishan. Long Huishan had to be in charge of training them! , Jiu Hanrou, Lv Qilian, Little Lizhi, Xiao Baifeng!

The seven women of the pill refining team and Lv Qilian would be switched out, so there were only eight spots!

These eight women were all chosen by Lv Qilian, so Lv Qilian had a better understanding of them. They were all the girls that could be beaten the most, the girls that could be beaten the most!

Originally, Chen Xiang had planned to let Xiao Jin'er and Shui Bingyan in as well, but after thinking about it, he decided to let them in again the next time. Chen Xiang did not want to affect the precious purity of their hearts.

"I shall be named Super Invincible and sweep through the world of the three realms as the strongest team!" When Leng Youlan found out that he was added into a team that specialized in battles, he was extremely excited and immediately thought of a name.

Chen Xiang was instantly speechless. It was obvious that the Inherent Skill needed to pass this title down to the White Dragon bloodline.

"It's too long, let's call it wargod team!" Chen Xiang smiled and patted her head, "I'll be going in in two days. I'll be waiting for Sister Qilian to distribute the divine pellets."

Chen Xiang did not know how many divine pills there were, although he had refined quite a few himself, the pill refining team had refined even more! Right now, they were mainly refining a large amount of divine pellets, so they did not try to attack the Jingshen Dan. They felt that this kind of task could only be accomplished perfectly by Chen Xiang first.

Two days later, other than Long Huishan, the rest of the seven girls entered the ring!

Chen Xiang took out the Six Realms mirrors and after saying his goodbyes to Lv Qilian, he brought the Transmission array that Long Huishan had copied from the Six Realms mirrors and entered the Earth Core Realm.

Only after being here for two days, Chen Xiang saw that the place had regained its vitality. He did not see Huo Lin, and instead brought Long Huishan into the secret room.

Liu Meng'er and the others, as a refining team, were still refining. Right now, they planned to refine another ring and give it to Lv Qilian so that he could bring them into this place to cultivate in the future.

"Sister Hui Shan, don't you have a lot of Bones now?" After Chen Xiang entered the Time Formation, he asked.

"There are only two Bones s. After we leave, there should be a little more, right?" Long Huishan also understood the importance of Bones, so she asked while smiling: "Kid, how much do you have?"

Chen Xiang stretched out four fingers. "More than you!"

Actually he had eight Bones, because every time he condensed Bones, it was Double bone level, which also caused it to be even more difficult the further he went.

So this time, he did not plan on continuing his Divine Deity cultivation in seclusion! He already had sixty Divine Deity, of which fifteen were spatial Divine Deity, fifteen were Celestial Phenomenon Divine Deity, and the remaining thirty were all Life-Killing Divine Deity.

"So many! However, if I train for a thousand years, there should be that many as well! " Long Huishan laughed: "I will be going in first, and give some missions to the two little girls. Other than You Lan and Qianxiang, she doesn't need me to worry about her."

Only Leng Youlan and Mu Qianxiang were relatively young, and Jiu Hanrou, Lv Qinlian, Bai Ziqian, Xiao Baifeng, and Little Lizhi, these few women, were all sly old foxes, all of them had their own systems for cultivation.

Xiao Baifeng had interacted with Little Lizhi outside for a while and she found out from him that all of the women by his side had those kinds of feelings. And although the ones with her here right now weren't completely Chen Xiang's people, they all had deep and complicated feelings for him.

Chen Xiang had to cultivate his Bones this time around. He had prepared many Bone level Dan and high quality divine medicine, if the high quality Bone level Dan could not satisfy him, he could only refine them according to his own needs.

"This is still a thousand years. In these thousand years, you will all become extremely powerful!" Chen Xiang said, then ate the Bone level Dan and began to refine the medicinal power.

In the blink of an eye, nine hundred years had passed. After Chen Xiang felt a tremor, he asked Yue'er: "How long has it been?"

He could sense that the Time Formation was moving, which meant that something was wrong with the Qilin Hall.

"Nine hundred years!" Yue Er said.

Chen Xiang mainly trained in Divine Deity. Even though nine hundred years had passed, he had only cultivated Bones three times, and every time, he would cultivate Double bone level, with his left leg, back, and chest respectively. Of course, he spent a lot of time refining Bone level Dan. Because it was not only him, Long Huishan and the wargod team also needed to refine the Bone level Dan according to their own circumstances.

"We need to go out and take a look. We should be able to stop it now!" Chen Xiang asked.

"That's enough, I already have sixty-five Divine Deity, five of them, my strength has increased by a lot!" Long Huishan said.

Chen Xiang nodded his head, following that, Leng Youlan and the others also reported on their own cultivation, and with the help of a large number of pills, they all levelled up quickly! Especially Xiao Baifeng, he actually managed to cultivate up to seventy Divine Deity and five Bones.

As for the other women, they at least had sixty-five Divine Deity and each of them could reach five Bones.

In order to raise their overall strength, Liu Meng'er and the others' refining team all had sixty Divine Deity s and four Bones s, because when necessary, they could also go onto the battlefield.

Of course, the most important thing was that they had already assembled the Five Elements Divine Weapons.

After combining forces, it turned out to be a longsword with a broken tip. Although this sword looked very ordinary, it was filled with an ancient air. Moreover, it didn't have a sword tip, but the sword aura was very threatening!

With Chen Xiang in his hand, even Long Huishan, who was standing beside him, did not dare to walk in.

"This is ..." The Heavenly magic sword! " It was precisely because of the damage done to the Heavenly magic sword that the strength of the Heavenly Divine Lord had declined by a lot. It was one of the important reasons why the Ninth Heaven's Divine Nations was destroyed.

"It's still broken. We are still unable to repair it, but it can still be used!" Liu Meng'er said: "We have already recorded down the Spirit grain s in the span of a few hundred years. Next, we will study how to repair this sword ... It must be because Heavenly Divine Lord was in a hurry to repair his own Six Realms Ding back then, that he didn't have time to fix his own divine sword. "

When Chen Xiang and Long Huishan walked out of the Time Formation, sure enough, the outside was trembling and it was extremely violent!

After walking out of the Qilin Hall, Chen Xiang saw Huo Lin pulling a petite and cute girl. This girl was dressed in purple, and when she saw Chen Xiang and Long Huishan, she immediately hid behind Huo Lin and tightly hugged onto his arms.

"Ziqi, he's the big bro I always said!" Huo Lin laughed, he was startled when he saw Long Huishan: "This must be sister-in-law!"

"Brother, sister-in-law, how do you do!" Although she was still a bit shy, she still revealed a sweet smile.

Long Huishan was a little embarrassed from being called out, because she and Chen Xiang had not reached that level yet. Although she had tacitly agreed that Chen Xiang was her man, she nodded her head now and smiled: "Little sister, no need to be courteous, we are all family."

Chen Xiang could already tell that this Zi Qi should be the purple Qilin that Huo Lin was looking for.

"Huo Lin, what happened?" As Chen Xiang was speaking, another wave of violent shaking could be heard.

"The two Geocentric Edicts are mutually beneficial. No matter who wins, in the end, they will merge together! I am also prepared to have my own battle!" Huo Lin said with a serious expression on his face, "Core of the Earth is the first to integrate with the other Core of the Earth, and I need to defeat the other Core of the Earth's Earthly beast. As long as I win, Core of the Earth will continue to be my territory."

#### [Chapter 2194](#)

Huo Lin's words made Chen Xiang extremely worried, he used to be the only one in the Nine Heaven World who had Earthly beast, but from the looks of it, the Earthly beast in the Super God Realm was very powerful, if not Huo Lin would not have said such words.

"Huo Lin, do you need help?" Chen Xiang placed his hand on Huo Lin's shoulder, and asked seriously. Since Huo Lin called him big brother, he would definitely help Huo Lin repel the enemy if he had the strength now.

"Of course not, I'm not afraid of that guy, I can defeat him, and this is also one of Earth's Core Divine Spirit's tests. Big Brother, you don't have to worry about me." Huo Lin smiled at Chen Xiang, his heart moved because he was too weak back then. If Chen Xiang had not helped him, he would have died in that fire liquid.

Therefore, he had always been training very seriously to increase his own strength.

"Then you better be careful. If it doesn't work, use this jade tablet to contact them. If you say you're Huo Lin, then there's someone to help you." Chen Xiang gave her a message talisman that allowed her to practice on Lv Qilian. Lv Qilian's current strength was very strong, comparable to a Third Rank Divine King.

Huo Lin nodded, and then sent them off with his eyes.

After returning to the Hundreds of Flowers Village, all the girls in the ring had come out. Seeing that they had become so strong, Chen Xiang was a lot more at ease.

"We have already forged a Dark Jade Ring and a Transmission array Plate that has entered the center of the earth." Xue Xianxian laughed. In the future, we can also go to the Earth's Core and use the Time Formation to cultivate.

Chen Xiang nodded. Although there was only one set of Time Formation, Chen Xiang had copied them all using his Six Realms mirrors and he would be able to activate the Time Formation through the Six Realms mirrors in the future.

"The Nine Heaven World and the Nine Heaven World are preparing to merge. The space is currently very weak, I think I can directly teleport to the Super God Realm myself." Chen Xiang looked to the sky. "Back then, I promised Xiao Yulan that I would return the Six Realms Ding to her.

Xiao Baifeng said: "I want to go with you as well."

Originally, Chen Xiang wanted to let Xiao Baifeng go with him, but he shook his head.

"No need for now. It's better if you stay here for the time being." Chen Xiang said: "Yue'er and I will go. I just need to give her the Six Realms Ding, then her strength will greatly increase, and I don't need your help either. And since you are in the Hundreds of Flowers Village, your strength is considered relatively strong, so you need to stay here."

"Alright, if anything happens, come back and tell me." Xiao Baifeng sighed, she knew the situation of the Hundreds of Flowers Village as well. If the Nine Heaven World fused with the Super God Realm, then there was a possibility that there would be a conflict with the powers in the upper echelons of the Super God Realm.

Therefore, the Hundreds of Flowers Village needed powerful warriors to watch over them. Xiao Baifeng was the stronger one amongst the wargod squads, so it would be safer for her to stay here.

"Then I will leave first. I should be back soon ..." Or it could be said that the Nine Heaven World has already fused with the Super God Realm, so it would be more convenient to travel back and forth. " Chen Xiang said.

After bidding farewell to the girls, Chen Xiang teleported out of the Hundreds of Flowers Village and went directly to the outside of the Heavenly Divine Palace.

Now, he realised that Chen Xiang had become very strong, and was extremely shocked, because the last time he had seen Chen Xiang, it was only recently.

Chen Xiang followed Jiu Canghai into a secret room.

"Did he use the Time Formation?" Jiu Canghai asked.

"Yes, this Time Formation was also left behind by your father." Chen Xiang laughed, "I didn't expect you to see through it so easily, Big Brother Canghai."

"You're pretty amazing, to be able to use that kind of Time Formation here, you need a lot of energy to maintain it, did you enter the earth's core?" Jiu Canghai understood all of this very well, he could understand it just by thinking about it.

"Yes." Chen Xiang nodded, and then took out the Heavenly magic sword that had its sword tip cut off. "Big Brother Canghai, is this sword the one that belongs to Heavenly Divine Lord?"

When Jiu Canghai saw this broken Heavenly magic sword, he lamented and then received it with trembling hands. "This is the Heavenly magic sword ... "Those girls are truly amazing. They actually discovered this secret, and even reorganized it."

"Back then, my royal father had separated this place and forged a few different kinds of divine weapons. He also did not want this Heavenly magic sword to appear again, because this Heavenly magic sword meant that he had fallen."

Jiu Canghai returned the Heavenly magic sword to Chen Xiang: "This has long been yours, you don't need to return it to me. Even though royal father doesn't want this sword to see the light of day again, I still hope that you can repair it."

Chen Xiang nodded his head, and said: "Even though the tip of the sword has been broken, this sword is still very powerful. "It's hard to imagine."

When the time comes, there will be a bloody storm. Fortunately, all my friends in Nine Heaven School are working very hard, so I think that I will definitely be able to rebuild the Nine Heavens Divine Nations. " Jiu Canghai was already full of confidence now. He smiled slightly: "You aren't the only one who has the Time Formation, the things that my royal father created back then are very powerful."

Chen Xiang smiled and said, "Big Brother Canghai, it seems like you no longer need my help."

Jiu Canghai laughed openly, it was obvious that he had made his preparations, because the Divine Nations was currently in a civil war, when the time came, it would also be his chance.

... ..

Chen Xiang left the Heavenly Divine Palace, and then went to the Nine Heaven School to find Gu Dongchen. He came to this place to find Huang Jintian and, but he found out that they had already left a long time ago.

"They probably went to the Super God Realm. These two old fellows must be thinking about the treasures in the Divine Nations." Chen Xiang laughed, then used a strong power of space to open a passage to the Super God Realm.

"a lad, do you want to come with me for a walk?" Chen Xiang asked with a smile.

"I'm not going. It won't be long before we merge. I think it's better for me to stay here. This place has more time, so I have more time to prepare." Gu Dongchen laughed, "Young senior uncle, have a safe trip."

Chen Xiang nodded and entered the spatial passageway to arrive at Super God Realm.

"Xue Yi, Qi Shi and the four Guardian Divine Beasts are here ... They must also have their own plans, so for the time being, I don't want to look for them. That's what's important. "

Chen Xiang looked at the blue sky, took out his Six Realms mirrors and stood on top of it.

"Yue Er, do you remember the direction?" The last time he went to the Divine Cauldron Nation, he rode on Huang Yantian's flying divine tool, and didn't remember the way either. On his way back, he asked for Huang Jintian and the others to open a spatial tunnel.

"Of course I remember, but if the two of us work together, we can teleport to the Divine Cauldron Star." Yue Er flew out from the ring and said.

"That would be for the best. How should we do it?" Chen Xiang did not know the location of the Divine Cauldron Star.

### [Chapter 2195](#)

Yue'er squatted on top of Chen Xiang's palm, and said: "You just need to release the power of space, leave the rest to me to control."

Chen Xiang did as he was told, releasing a very strong spatial energy which was completely absorbed by Yue'er. Yue'er had also been practicing the Time Formation with the girls for the past few years, so Chen Xiang had no idea how strong she was right now.

"It's begun." Just as she finished speaking, Chen Xiang immediately felt that his position had changed.

"Alright." Yue'er laughed and said, "However, we are outside the Divine Tripod City and we don't know what's going on inside. That's why I didn't go in."

Chen Xiang looked at the tall city walls. They were still in perfect condition and the formation had not been damaged, so it did not seem like they had experienced any great battle.

"It hasn't been long here." Chen Xiang asked.

"It's about the same as Nine Heaven World, because Nine Heaven World and this dimensional space are gradually approaching." Yue'er replied, "It should have been like this for the past 15 days. It's reasonable to say that the battle has already begun."

When Chen Xiang arrived at the city gate, he discovered that there was no one guarding it, which made his heart skip a beat. Normally, this kind of situation would happen because the city had already been thrown into chaos and there was no one guarding the gate even when they escaped.

"There doesn't seem to be anyone inside. Let's go in and see what's going on." At this time, she had also entered the ring.

Chen Xiang had changed his appearance, otherwise, it would be troublesome.

After entering the city gate, Chen Xiang saw that it was empty, although it was not destroyed, but it looked very strange.

The originally spacious and lively street was now empty. The shops that were split in half had their doors wide open, and all the people had left.

"Look over there." Yue Er said.

Chen Xiang turned his head to look, only to see that there was purple smoke coming out from the center of the city, he frowned: "That is the direction of the Imperial Nine Palace, they really started fighting."

Just as he said that, a berserk Qi wave suddenly struck Chen Xiang, causing all the stone buildings in the distance to crumble, the Qi wave was like a huge wave, it struck fiercely and the buildings were extremely weak in front of the Qi wave, they were instantly crushed into powder.

Chen Xiang immediately found a crack in the air and hid himself inside, avoiding this wave of air. Although he could block it too, it would still take a lot of effort for him to do so.

After this shock wave, he came out of the space crack and was shocked.

The huge walls of the Divine Tripod City had disappeared, and the originally neat and beautiful buildings had also disappeared. In the blink of an eye, the place had turned into a wasteland and even the Imperial Nine Palace had disappeared.

"The work of a first-tier Celestial King. It should be a battle between first-tier Celestial Kings, and only those with ninety Divine Deity would have such power." Yue Er said. She wasn't really surprised, because when she was in Star Law Divine Realm, this kind of battle was not rare.

Chen Xiang frowned: "Everything within a thousand miles radius has been destroyed, no wonder everyone in this city left. If they did not leave, many people would have died just now."

"Is this interesting? The entire Divine Tripod Imperial City was destroyed, and the grand Imperial Nine Palace was destroyed?"

Yue Er shook her head and said, "They fought like this for the Divine Nations's treasures. It doesn't matter how many treasures there are in this Divine Cauldron Imperial City, they would definitely not care."

"There's someone ahead." Yue Er suddenly shouted.

Chen Xiang raised his head to look, two figures suddenly flying past, with eight people chasing after them.

"It's Xiang Hongdao and Xiao Ping! To think that they were being chased. Could it be that the ripples from earlier were caused by them?" Chen Xiang was very shocked, and Yue'er was the same.

Xiang Hongdao and Xiao Ping were neutral, although they had indicated long ago that they would not participate in this battle, they did not expect that they would be tired from it and would even be surrounded.

"Let's use the Space wind to give them a look. It seems like the situation is very different from what I expected." Yue Er said.

He was also very nervous at the moment, because the people he was following were definitely very strong. If not, he wouldn't have let a Pill God of Xiang Hongdao's level of strength escape in a sorry state.

"Where's Xiao Yulan? She doesn't even have a Great National Master, and this Xiang Hongdao is a very powerful Great National Master. If she was beaten to the point of fleeing, Xiao Yulan would be in an even worse situation." Chen Xiang was worried, such a huge change had happened in such a short amount of time.

Chen Xiang followed him using the Space wind. He wondered if he would look outside and at the same time, use the Dao heart Eye to pay attention to the energy undulations in front of him.

"Another ultimate move." Chen Xiang suddenly saw that in front, Xiang Hongdao had condensed a ball of purple energy. After releasing the energy, he flattened a large mountain range as an attack against the people chasing after him.

After Xiang Hongdao released this move, he disappeared without a trace together with Xiao Ping.

"He's gone." At this time, Chen Xiang did not dare to use his spatial sensing domain, because at this moment, the eight experts floating in the air were all carefully searching for Xiao Ping and Xiang Hongdao.

Yue'er said: "As expected, these guys all have 90 or above Divine Deity. No wonder why when Xiang Hongdao wanted to escape, there were four Great National Master s amongst them. Why would Xiang Hongdao and Xiao Ping be attacked by them together?"

Chen Xiang shook his head. At this moment, he was hiding inside a spatial crack and sent a sound transmission to Yue'er, "Can you find Xiang Hongdao and Xiao Ping?"

"Of course, I'll take you there." Now, Yue'er was using the Space wind, and had secretly left with Chen Xiang.

After a while, Yue'er brought Chen Xiang far away from that place, and could be considered to be the other end of Divine Cauldron Star.

There was a small village there. The villagers were all simple and honest, and all of them were ordinary people. Only a few of them had cultivation bases.

When Chen Xiang appeared here, he heard someone whispering to him. "What's going on today?"

Hearing these words, Chen Xiang and Yue'er confirmed that Xiang Hongdao and Xiao Ping were here.

After asking around, they found out that Xiang Hongdao and Xiao Ping were at the village entrance. It was obvious that Xiang Hongdao knew the village chief.

When Chen Xiang arrived at the Village Chief's small courtyard, he sensed a very strong barrier, but he still went up and knocked on it.

"Is the Village Head home?" Chen Xiang asked.

Very soon, someone opened the door. It was an old man with disheveled hair. "I am the village chief. You must be a foreigner. Is there something wrong?"

The village chief was on his guard.

"Am I, Xiao Ping, inside?" Chen Xiang asked again: "My name is Chen Xiang, I have something to talk to him about."

He purposely said it very loudly just now, so that Xiao Ping inside would hear. Sure enough, Xiao Ping very quickly walked to the door.

In order to dispel Xiao Ping's suspicions, Chen Xiang had changed back to his own appearance, and was then pulled into the small courtyard by Xiao Ping.

### [Chapter 2196](#)

After entering, Chen Xiang saw a pale Xiang Hongdao, who was currently recuperating by the side of a well. The well looked extremely complicated, actually releasing waves of golden mist for him to absorb.

"Greetings, senior." Chen Xiang immediately bowed.

Xiang Hongdao nodded his head. Both he and Xiao Ping were very surprised that Chen Xiang had returned so quickly.

"No one else followed." Xiang Hongdao's voice was very low, he was currently very weak.

"Senior, don't worry. The people who are chasing after you are still searching for you there." Chen Xiang said: "Just what happened? Weren't you guys neutral? Don't get involved."

Xiao Ping said angrily, "That group of people actually conspired to deal with us long ago. They were worried that my master would help me snatch the throne away, so they attacked us instead. There were a total of four first-rate Divine Kings and four Great National Master s, and they did not plan to take the throne.

"Hmph, this group of bastards, even if they run to Star Law Divine Realm, I will not let them off, they actually sneak attacked us." Xiang Hongdao's voice was cold.

"A huge battle had already occurred in the Imperial Nine Palace. Two first-tier Divine Kings died, and several Great National Master died as well, all because of the joint attack of these eight fellows. As for the royal sisters, they were the first to be harmed. Xiao Ping said.

"Oh right, Chen Xiang, you should be staying in your Nine Heaven World. Coming here is too dangerous." At this time, Xiao Ping already saw Chen Xiang as a friend. "Those people are really concerned about your Heavenly Alchemy, once they obtain the treasures of the Divine Nations, you will be in trouble."

"I'm not afraid of them. I'm in the Divine Cauldron Star right now, but they don't even know I'm here." Chen Xiang laughed and asked: "Prince Ping, do you know where Princess Yu Lan is?"

Xiao Ping looked at Xiang Hongdao, who nodded at him.

"We only know that she is inside the Beast Wasteland. At that time, they escaped inside, and those fellows did not dare to chase after them." Xiao Ping said, "It's very dangerous inside. You have to go find her."

"Well, I have to find her." Chen Xiang nodded: "Can you tell me where Beast Wasteland is?"

Xiao Ping then told Chen Xiang the specific location and even briefly explained the situation inside, it was truly a very dangerous place, where many powerful beasts gathered. In the past, many of the stronger beasts had been forced into desperation by the humans, and in the end, they all hid in a dangerous place, and after a long time, they became places where divine beasts hid, so there were very powerful divine beasts inside.

"What are your plans now?" Chen Xiang asked.

"For now, I don't know. Let's talk after my injuries have healed." Xiang Hongdao took a few more golden pellets. Although he was heavily injured, he was still a strong pill god.

"I might be going to the Star Law Divine Realm. How is the current situation in the Divine Cauldron Nation ..." Xiao Ping sighed helplessly.

Right now, Chen Xiang couldn't help them in any way, so he could only comfort them with a few words before leaving the village to look for Xiao Yulan.

"The change in the Divine Cauldron Nation is truly fast. What exactly is the treasure deposit in that Divine Nations? It actually made them so insane that they didn't even want the throne anymore." Chen Xiang was very curious about this.

"I wonder how it was decided. It can't be that it's enough to win, right?" Yue'er was also very curious about this.

"We'll know when we find Princess Yulan." Chen Xiang used the Space wind and after an hour, he arrived at a large desert.

"This is the Beast Wasteland. It looks very desolate and lifeless." Chen Xiang floated into the air and looked towards the distance, but he did not see anything green. He then used his Dao heart Eye and saw a ball of black Qi, but he did not know what it was.

Chen Xiang took out a message talisman and sent a message to Xiao Yulan. This would require a certain amount of distance to send it to him, so he decided to give it a try first to see if there was enough distance.

"Princess Yu Lan, the Six Realms Ding has already been repaired. Where are you?

After Chen Xiang sent the message, he patiently waited for them to come out. If they could come, that would be for the best, so he wouldn't have to go in.

Not long later, the Communication jade Symbol paper began to sway: "We're inside the Beast Wasteland ... "But you must not come in. This side is very dangerous. We'll talk about it after we leave."

Xiao Yulan's voice carried a trace of excitement, because the Six Realms Ding was her only chance to counterattack.

"When will you come out?" Chen Xiang asked.

"I still don't know. Just wait patiently." Xiao Yulan replied.

Chen Xiang frowned, and said: "Tell me where you are, I will go in to look for them, and if they are slow, what happens if they obtain the Divine Nations's treasure?"

"You are too weak. If you enter, you will die." Although Xiao Yulan knew that the time in Nine Heaven World was different from the time in here, he still didn't think that Chen Xiang would be that powerful.

"Princess Yulan, trust me." Chen Xiang didn't have anything to be afraid of. Using the Space wind, it would be too easy for him to enter, and he felt that it would be faster for him and Yue'er to go in and bring them out.

"Okay, after you enter, you must first find a river, and then follow this river all the way down to an oasis." Okay, after you enter, you must first find a river, and then continue to follow this river, and then go along with it. "You must be careful of those spiderwebs, the strongest of which is a group of spiders."

"I know."

Chen Xiang used the Heaven Tour and then used a spatial teleportation to send this divine soul deep into the Beast Wasteland. In just a few moments, this divine soul found that piece of ancient forest, and the trees inside were all extremely huge.

"Is this the place? Yue Er, let's go." After Chen Xiang found Yue'er, he hugged her and used the Space wind.

He was about to take out the jade talisman to pass on the message when he suddenly saw a graceful woman quickly walking past in front of him. Behind her was a wildly laughing man chasing after her.

"It's the Imperial Concubine Lian." Chen Xiang was shocked in his heart, and then, he shouted loudly, "Imperial Concubine Lian, I am Chen Xiang."

Imperial Concubine Lian was running frantically when she suddenly heard Chen Xiang. She immediately looked over, and saw that Chen Xiang was smiling and waving at her. At the same time, she was getting further and further away from Chen Xiang, because of her fast speed.

"This little idiot, did he become stupid after staying with Jin'er for too long, yelling out loud in this place." Imperial Concubine Lian cursed in his heart.

Sure enough, just as she was worried, the big sized man who was chasing her, immediately rushed towards Chen Xiang after hearing his voice.

## [Chapter 2197](#)

Seeing Imperial Concubine Lian coming over, Chen Xiang laughed and shouted, "Imperial Concubine Lian, you're not dead yet! "I'm so worried. If a beauty like you died, my heart would really ache for her."

Imperial Concubine Lian immediately scolded: "You bastard, you still have the face to say that I'm going to be killed by you, you little bastard. Don't yell at me in this place."

Chen Xiang immediately teleported to the side of the Imperial Concubine Lian. Then, he wrapped one arm around the Imperial Concubine Lian's slender waist and teleported to a place far away.

Chen Xiang had cultivated up to fifteen spatial Divine Deity, so this kind of short teleportation was completely easy for him.

She did not expect Chen Xiang to become so powerful now, to be able to control the power of space so freely. Now that she was being embraced by Chen Xiang with her slender waist, she felt that Chen Xiang had no intention of letting go, and that hand seemed to be moving slightly, as if he was eating her tofu.

"Little devil!" Imperial Concubine Lian snorted: "Hurry up and release me!"

Chen Xiang leaned close to her charming face and fiercely kissed it.

Imperial Concubine Lian immediately shouted: "That guy is here!"

Chen Xiang brought Imperial Concubine Lian and teleported to a large tree, then concealed his presence. Now that Imperial Concubine Lian was in his arms, he could really laugh.

Imperial Concubine Lian only struggled a little. She did not dare make any big movements, as she was afraid of alerting the divine beast that had transformed into a burly man.

"Damn brat, you're really reckless!" Imperial Concubine Lian scolded with a sound transmission and then touched the place where she was kissed by Chen Xiang just now.

"You scoundrel, have you ever tried to kill Jin'er?" The Imperial Concubine Lian looked at Chen Xiang's face that was full of evil smiles and asked him with a voice transmission.

"Didn't you marry Jin'er to me? She's already my wife, and I can do whatever I want with her." Chen Xiang laughed sinisterly, then pinched her charming face that was filled with grief.

The Imperial Concubine Lian pouted and let out a light snort, but what happened next was unexpected to her, was that Chen Xiang actually dared to forcefully kiss her little mouth.

"Don't think so badly of me. Your daughter is currently very happy. I can't have any bad thoughts towards a pure and innocent girl like her. As for you, elder sister, you are always making it hard for me to control you." Chen Xiang smiled mischievously, and then, he grabbed Imperial Concubine Lian's small hand and gently stroked it. Imperial Concubine Lian only pouted his lips and did not resist.

The big sized man below lost the scent of Chen Xiang and Imperial Concubine Lian and had no idea where they were. He let out a few furious roars and ran in a certain direction.

"What is this?" After Chen Xiang finished speaking, he once again kissed Imperial Concubine Lian's cheeks. Imperial Concubine Lian merely thumped his chest once, and did not say much.

"That's a divine beast. It's very powerful, with eighty Divine Deity! After Yu Lan found out that you were here, she told me to look for you. After Imperial Concubine Lian was put down by Chen Xiang and left Chen Xiang's embrace, she actually felt that Chen Xiang hugging her really comfortably just now. She really wanted to be hugged like this by Chen Xiang.

"It's a good thing that I didn't attack him earlier, otherwise I definitely wouldn't have been able to beat him!" Chen Xiang had indeed wanted to help just now.

"I'm not completely afraid of this thing, but because there are too many of these divine beasts with seventy to eighty Divine Deity here. If I attract a group, I'll die for sure." The Imperial Concubine Lian giggled, "I didn't think that you would have so many tricks up your sleeve, you actually have such a powerful spatial power."

"So you're saying that Sister Imperial Concubine Lian is very powerful too! to actually not be afraid of these divine beasts with eighty Divine Deity!" Chen Xiang's face was filled with surprise, and then, he caressed Imperial Concubine Lian's smooth jade-like face.

"Of course, big sister is amazing! If you dare bully me again in the future, I won't be lenient anymore." Imperial Concubine Lian felt that he had suffered a little as he reached out to pinch Chen Xiang's handsome face.

"Let's go find Princess Yu Lan. Where is she?" Chen Xiang laughed, a big hand was already placed on the Imperial Concubine Lian's waist.

The Imperial Concubine Lian told Chen Xiang the approximate distance between them and he teleported to the side of a huge tree.

The trees here were all very thick, like pillars that reached the sky. If they were hollowed out, each tree would become a tall building.

"It's inside this tree!" Imperial Concubine Lian held Chen Xiang's hand and walked to the side of the tree. After activating an array, an array pattern appeared on the surface of the tree trunk.

Soon after, Imperial Concubine Lian dragged Chen Xiang into the tree trunk. Inside was a spacious hall, where Xiao Yulan was sitting in the middle of the hall. When she saw and Imperial Concubine Lian enter, she immediately stood up and asked in shock, "Why are you two so fast?"

Chen Xiang looked around, only seeing Xiao Yulan and Xiao Hongque in the hall. Adding Imperial Concubine Lian, there were only three of them!

Xiao Yulan, such a huge power, actually only had the three of them remaining!

"Princess Yu Lan!" Chen Xiang greeted.

"I'm not some princess anymore. Even the Divine Cauldron Nation is gone." Xiao Yulan was a little haggard now, and sighed. Right now, she looked a little down and out. Her clothes weren't that gorgeous anymore. Although she didn't have the aura of an Emperor, she still gave off an elegant and noble feeling.

"The Six Realms Ding has already been repaired. I wonder what secret the Divine Cauldron Supreme Lord has left inside!" Chen Xiang handed over a small bronze cauldron to Xiao Yulan.

When Xiao Yulan received the Six Realms Ding, her lily-white hands lightly trembled: "royal father left this precious thing with me, what exactly did he do it for? Based on your strength, the Venerable One is definitely not mine! "

Previously, she wasn't too clear about the origins of this cauldron, but Chen Xiang was the one who told her about it later on, so she now knew just how powerful this cauldron was.

"Drop some blood and see!" Chen Xiang replied, "This is a Great Way of the God Equipment, so dripping blood might not be effective."

Xiao Yulan nodded his head, and started dripping a drop of blood on top of the Six Realms Ding, the divine cauldron suddenly flickered with a green light, and released a ray of green light that shot into Xiao Yulan's forehead, as though it was transmitting a message.

A moment later, the brilliance from the divine furnace vanished.

"Princess, did you fuse with a Six Realms Ding?" Xiao Hongque asked anxiously, this Six Realms Ding was their hope of turning the tables around.

"Yes, but ..." This fusion is not a true fusion, although I can use this Six Realms Ding, I am unable to unleash its true power, which means to say that the Six Realms Ding does not approve of me, but due to some sort of emotion, he will give me strength. " Xiao Yulan sighed: "As expected, I am not worthy to be called an emperor."

Chen Xiang asked again, "Is there anything about the Heavenly Divine Lord?"

Xiao Yulan nodded: "Yes, the secret about Heavenly Divine Lord's broken divine sword was not leaked out by my royal father, it was ... Our Divine Cauldron Nation's First Prince, Xiao Yuanbing! Because when my royal father went there, he brought him with me, so he didn't tell Heavenly Divine Lord about this matter. "

"Later on, he also felt very guilty, but he really loved Xiao Yuanbing, so he didn't punish her! The reason why Xiao Yuanbing leaked this information, was because of the enmity that Jiu Canghai had defeated him back then! "

## [Chapter 2198](#)

"This is really complicated!" Chen Xiang frowned: "I don't know if I should tell Big Brother Canghai about this. If he knew, he would definitely blame himself."

"I hope he can get away with it! After all, Xiao Yuanbing has hated the Ninth Heaven's Divine Nations for a long time, and it was not because of Jiu Canghai. " Xiao Yulan said: "And Xiao Yuanbing is also my enemy now."

Xiao Hongque coldly snorted, "It's this bastard who attacked us so heavily. Now that they have teamed up, a total of four forces have joined hands. They are the First Class Celestial King and the Great National Master!"

"Xiao Ping and Xiang Hongdao have also been attacked, and are already heavily injured." Chen Xiang said: "I was able to find this place because of what Xiang Hongdao and the others told me."

"This is not strange! They were also worried that Xiang Hongdao had other plans, but just in case, they decided to make their move on Xiang Hongdao! Xiang Hongdao is indeed the strongest State Grandmaster, yet he actually managed to bring Xiao Ping along to escape after receiving a joint attack from the eight of them. " Xiao Yulan kept the Six Realms Divine Palace well and asked: "Did the Divine Cauldron Imperial City receive heavy injuries?"

"There are no more Divine Tripod Imperial City and Imperial Nine Palace!" Chen Xiang said as he gave a bitter laugh, "Those guys don't care about the throne at all, they only care about the Divine Nations's treasures. They plan to go to the Star Law Divine Realm together after dividing up the treasures."

"It's fine if the Divine Cauldron Nation doesn't exist, but there's no need for this kind of Divine Nations. It's fine if it's eliminated!" When Xiao Yulan was being attacked together, she hated the Divine Cauldron Nation. All these years, she had been living in this kind of oppressive environment, and if she did not keep her heart and mind safe, she would have become a kind of evil demon that would kill people without blinking an eye.

"I don't want the Divine Nations's treasures either, but I can't let those bastards get even a single drop!" Xiao Yulan said: "Even if we die, we can't let them succeed!"

"That's right, Big Sister Yulan!" How in the world did he obtain the Divine Nations's treasure? What was in it? And according to what criteria? " Chen Xiang was extremely confused by this.

"I'm not sure what's inside the Divine Nations's treasure trove, but those Great National Master must know. Otherwise, they wouldn't be so desperate!" Xiao Yulan said: "The secret to the Divine Nations's treasure trove is hidden in the Imperial Nine Palace's Imperial Palace, which is also the Dragon Throne that royal father often sits on."

"However, the dragon throne can only be taken away after a certain time, and that was also the time when the battle broke out, and it is already in their hands, if not they would not dare to destroy the Imperial Nine Palace."

Chen Xiang said: "Then is there still hope now?"

Imperial Concubine Lian laughed. "Do you want it too?"

"Of course I want to. There must be something good inside. It's better that I get it than those guys!"

Chen Xiang suddenly thought of Huang Jintian and Huang Yantian. If they were here, maybe he could let them think things through.

When he thought about Huang Jintian and the others' Heaven extended method, Chen Xiang looked at the charming Imperial Concubine Lian. This Imperial Concubine Lian was one of them, and one of them was a Sky Spill Master.

In other words, the calculation abilities of the Imperial Concubine Lian were not bad!

"Imperial Concubine Lian, you should be able to calculate where the Divine Nations's treasure deposit is, right? Now that Sister Yu Lan has a complete Six Realms Ding, her power must have risen by a lot. There won't be a problem in dealing with those guys. " Chen Xiang said: "Who knows, maybe we will still have a chance to obtain that treasure deposit ... Of course, if you don't give it to me, I won't have any objections. I'm just curious about what's inside.

Xiao Yulan looked at Imperial Concubine Lian, as if she was considering whether or not she should let Imperial Concubine Lian calculate the location of the Divine Nations's treasure. If she really did get it, she wouldn't refuse to give it to Chen Xiang.

"I'll listen to Yulan!" Imperial Concubine Lian laughed as she stuck out her tongue at Chen Xiang, then stood behind him.

"I don't know what the treasures are right now, but they are definitely good stuff. Otherwise, those Great National Master would not have broken the rules!" Xiao Yulan said: "I currently don't have any feelings for the Divine Cauldron Nation, after all, my royal father is also like this before he left, if not he would not have let us fight on purpose, he definitely would have guessed that if we were to fight, we would not be far from the destruction of our country."

Yue'er ran out from the ring and asked, "Is there any news from the other Divine Nations? If the other Divine Nations s are also fighting with each other very fiercely, then this is indeed a great opportunity for us. "

"Little kitty, what chance are you talking about?" Seeing that Yue'er was only as big as a palm and that she was so cute, Imperial Concubine Lian couldn't help but to ask in a low voice as he reached out to hug her.

"Big Sister Yulan, if you don't have any feelings for Divine Cauldron Nation, would you like to join another force ... If you ally with that power, it will be of great help to you in the future. Furthermore, that place is very united, and there won't be any internal conflicts! Right now, Jin'er is living very well inside. " Chen Xiang said.

"Is it to join Jiu Canghai?" Xiao Yulan asked.

"No, it's a force formed by a woman. It's now called Hundreds of Flowers Village, and all of them are women!" Chen Xiang said: "Right now, they are worried that when the Nine Heaven World is merged with the Super God Realm, they will be attacked by other Divine Nations s or powerful forces. This is because the Nine Heaven World is extremely vast, and at that time, anyone would want to occupy it."

Xiao Yulan thought for a while, then said: "I am not sure if I want to join or not, I need to see the leaders of the Hundreds of Flowers Village! However, I have decided right now to snatch the Divine Nations's treasure. Even though I have ninety-three Divine Deity, levelling up is already very difficult, and I hope that the Divine Nations's treasure can help me increase my strength a little. "

Xiao Hongque said: "I have already investigated, and the internal conflict in the other Divine Nations s are also very intense. If we can join another force and quickly rise in power, it would also be a good opportunity. In the future, we would need more resources.

Xiao Yulan nodded: "Let's talk about this after I've been to the Hundreds of Flowers Village! Imperial Concubine Lian, try and figure out where the Divine Nations's treasures are located. "

Imperial Concubine Lian took out an array disc, which had over ten circles on it. She turned the circle, and wrote some words on it with her blood that could not be seen. Not long after, many Spirit grain s on the array disc started to shine with red light.

"Is this the Heaven extended method?" Chen Xiang asked curiously.

"Yes, but it's different from those two seniors. They have their own Sky Spill Algorithm, I have mine, but their cultivation methods are all the same." The Imperial Concubine Lian had a serious expression on her

face as she chanted a spell, causing rain to fall. The circle on the round plate also started to spin, and the word "blood" started to form together.

An hour later, Imperial Concubine Lian shouted lightly. The center of the disc suddenly lit up and turned into a huge fireball.

"It's actually here!" Imperial Concubine Lian was surprised.

#### [Chapter 2199](#)

"On the sun?" Xiao Hongque did not dare believe it, because it would not be easy to reach the sun.

"It must be the earth's core!" Yue'er replied, "This is the middle of Divine Cauldron Star. At the heart of these stars, there is a very hot core, and that is the core of the Earth, the root that keeps the Divine Cauldron Star afloat. The energy sources on the Divine Cauldron Star are all from this core."

"This kitten is so powerful, it actually knows about these things." That place is very dangerous, even if Xiao Yuanbing and the others want to find it, it would not be easy. "

Chen Xiang had a rather good understanding of Earth Core, because Huo Lin was his brother and he had also stayed in Earth Core for a lot of time.

"The greatest danger should be the Earthly beast. The Divine Cauldron Star is the Earth-stage Stars, and the Earthly beast is more terrifying, at least ninety percent of Divine Deity. Adding the fact that he can control the power of the core, even if the Divine Lord comes, he probably won't be able to do anything to him! But from the looks of it, Divine Cauldron Supreme Lord must have been there before, and his relationship with the Earthly beast was not bad, that's why he placed the treasures there. " Yue Er said.

"What is the background of this kitten?" It's not simple at all! " Xiao Yulan reached out and rubbed Yue'er's little head.

"I am a kitten from Star Law Divine Realm ..." "Meow meow!" Yue'er called out to Xiao Yulan a few times, telling him that she knew about the Star Law Divine Realm, and that she understood him a little because the Star Law Divine Realm was a very large world. Originally, there was hope for this place to become a large world like the Star Law Divine Realm, but now that the Nine Gods Nation had become like this, it would be stagnant for a very long time.

"Little Cat, do you know how to enter the earth's core?" Xiao Hongque gently caressed Yue'er's head and asked with a smile.

"Entering through the volcano's crater is rather dangerous. One has to have a certain level of strength to do so!" Yue'er replied, "However, it should be easier for Princess Yulan to have a Six Realms Ding!"

"Then let's go now! Head towards the nearest volcano. " Xiao Yulan said: "I wonder if they have made their move yet?"

"Your royal father definitely knows the fastest way to reach the center of the earth. The Imperial Concubine Lian said.

"Let's leave this Beast Wasteland first, I feel that this place is rather dangerous." Chen Xiang said as he used his spatial energy to open up a spatial tunnel: "You guys can go in, and leave this place immediately."

"What a strong power of space, just how long did you train in Nine Heaven World? The Nine Heaven World will merge with this place very soon, the time there should be around the same as here. In such a short period of time, you were able to become so powerful, you must be using the Time Formation. " Xiao Yulan could immediately tell that at this time, Xiao Hongque and Imperial Concubine Lian had already entered the spatial tunnel.

Chen Xiang smiled and nodded, "Sister Yulan, quickly go in. The longer I open it, the more energy I'll consume."

Xiao Yulan made a "En" sound, then gently flew in, leaving Yue'er behind as well.

After exiting the spatial tunnel, they arrived outside the Beast Wasteland, where they could see a desert.

"I remember there's a volcano nearby. It should be in that direction!" Xiao Yulan took out a Jade Lotus Frisbee, turned it into a huge plate, and let Chen Xiang and the others up.

Chen Xiang really wanted to contact Huang Jintian, wanted to know where they were. If he had their help, it would definitely be easier to obtain the Divine Nations's treasure.

The Frisbee flew very fast, and before long, they saw the huge volcano.

And at this time, Chen Xiang and Yue'er were suddenly shocked, because they felt a spatial fluctuation.

"Is it starting to merge?" Chen Xiang looked into the distance. That was the direction where the Super God Realm was located, and that strong spatial fluctuation was coming from.

"It should be, but merging will take time, not to mention two spaces of this size!" When fusing, the hardest part should be fusing with the earth's core! " Yue'er said, "Maybe we won't even be able to completely fuse them by the time we return."

The Nine Heaven World was a world that had just been integrated into. Xiao Yulan and the others were very curious about this newly born and powerful world, they wanted to see how strong this fusion would be.

When the Frisbee flew to the top of the volcano, Chen Xiang and the others looked down.

"This volcano has not erupted for a long time. If it does not erupt, it will take a lot of energy to go down. How about detonating this volcano?" Yue'er laughed.

"Let me do it!" Imperial Concubine Lian's jade palm condensed a ball of blue energy and shot it downwards. That ball of blue light shot down like a beam of light.

Xiao Yulan immediately controlled the flying discs to stay far away, and at this time, the volcano erupted into a "Boom" sound, as the entire volcano was enveloped by the blue light!

Chen Xiang said in shock: "Imperial Concubine Lian, that volcano was destroyed by you! I didn't think that the power you used would be this pure thunder and lightning energy. "

"Do you know how amazing I am?!" Imperial Concubine Lian laughed. "It's fine, the volcano is gone, but the passage to the center of the earth has already been opened by me! "Look, the heat is already coming out!"

Yue'er shouted, "Something has come out!"

After the blue light disappeared, Chen Xiang and the rest only saw balls of fire shooting towards them at breakneck speeds.

"It's the Earth Flame Bee!" Xiao Yulan said seriously: "Be careful!"

There were a lot of Geocentric Fire Bees, about four hundred thousand of them. When they flew over, they were like a burst of violent fire.

Xiao Yulan waved her hand, the sky suddenly darkened and dark clouds billowed. Streaks of lightning frantically struck down, and violent lightning that was denser than a torrential rain continued to descend, enveloping an area of 100 li.

In an instant, a large area of the Geocentric Fire Bee was chopped into ashes!

This was the first time Chen Xiang saw Xiao Yulan make a move. Like Imperial Concubine Lian, she also used the Thunder power. At this moment, the Thunder power that she released was extremely terrifying.

"There's still a lot left!" Yue Er said.

Sure enough, a group of them had just been exterminated. A large number of Geocentric Fire Bees had rushed out of that huge lava hole, and their bodies were still dripping with fire.

"Looks like the source is here!" Xiao Yulan gently waved his hand again, summoning a dense wave of lightning that instantly struck down from the sky. The dense lightning covered the entire ground, and the light that flashed out in that instant caused Chen Xiang's eyes to become piercing bright, as he was unable to see anything clearly.

He destroyed another wave of the Earth Flame Bee!

"There should be more!" Xiao Yulan frowned, she saw that in the air above the giant hole, a huge whirlpool had appeared, with all the black clouds concentrated there.

"All of you, get out of my way!" Xiao Yulan's clear voice resounded throughout the world, and a gigantic purple bolt of lightning suddenly fell from the vortex, entering the huge hole in the ground.

The earth shook violently, and with the giant hole as the center, cracks of varying sizes appeared in every direction. Magma flowed into the cracks, forming rivers of lava.

Chapter 2200

Chen Xiang stood behind Xiao Yulan. Just now, he could clearly see how terrifying the hidden strength within this delicate body in front of him was! The Core Fire Bee did not come out again, it had been killed by Xiao Yulan's attack just now.

"It's quiet now. Can we go in now?" The Imperial Concubine Lian said.

"En!" This time, when Xiao Yulan took out the Six Realms Ding, she made it big.

"You want to go in?" Chen Xiang asked.

"Of course we need to go in, only this Six Realms Ding is able to resist the high temperature in the earth's core, although we don't know what's below, but right now we need to go down to the bottom first before we know." Xiao Yulan had already entered the Six Realms Ding and Imperial Concubine Lian and Xiao Hongque followed closely behind her.

Chen Xiang also jumped in, it was pitch black inside, the walls of the cauldron were all made of bronze, with many small Spirit grain carved on them, and after he entered, Xiao Yulan released the lid.

Inside the pitch black space, Chen Xiang took out a Glowing Stone, making the inside even brighter. Xiao Yulan and the other two girls sat opposite to him, and he was currently staring at the three women's beautiful faces while laughing.

"Yu Lan, this little scoundrel is really bad. You have to be careful, I've already suffered before." Imperial Concubine Lian giggled.

Xiao Yulan controlled the Six Realms Ding to fly to the top of the giant pit, and then sink into the Flame Essence, entering the center of the earth.

Six Realms Ding did not fear high temperatures, and could resist very strong heat temperatures. At this moment, Chen Xiang and the others inside the divine cauldron, did not feel any heat at all.

"What exactly is beneath the earth's core? Even though I have heard about it, I have never been there. I once asked my royal father, but he didn't tell me too much, he only told me about the earth's core and the dangers. Xiao Yulan said.

"Earth-stage Stars's Core is indeed very dangerous. Although I have been to the Core, every Core is different. Some Core is just a world, while some Core is just darkness! However, the core of the stars all have a common characteristic, which is that they are wrapped in this shell, so it looks like a big fireball. " Yue'er said: "The core of Divine Cauldron Star should already have Earthly beast! If Divine Cauldron Supreme Lord truly has put the treasure deposit here, then it means that he is very strong. "

Chen Xiang had also been to the Core of the Earth before, but he felt that the Core of the Earth he was currently heading to was different from the Core of the Nine Heaven World, so he didn't say anything more.

The core of Nine Heaven World had an Earth Core realm, he felt that this Divine Cauldron Star should have one too!

"Earthly beast were all bred by the Earth's Core Divine Spirit, then who exactly are the Earth's Core Divine Spirit s? To think that a powerful Earthly beast would be born from so many earth core! " Chen

Xiang had asked Huo Lin before, but Huo Lin wasn't sure either. He only knew that the Earth's Core Divine Spirit was very powerful.

"I don't know either. This has always been a mystery!" Yue'er shook her head.

"The speed of the descent is very fast now, and it's getting hotter. I wonder when I'll be able to reach the earth's core!" Xiao Yulan herself was connected to the Six Realms Ding, so she could sense the change in the environment outside.

"Xiao Yuanbing and the rest must have already set out. If they are faster than us, then they must have met with Earthly beast first. If they can't even deal with the Earthly beast together, we can't do anything about it." Xiao Yulan took out two pills and gave it to Chen Xiang.

"What is this?" Chen Xiang took a whiff, although there was a scent of medicine, he could not recognize what kind of divine pill it was.

Xiao Yulan chuckled: "Such a powerful Alchemist like you can't recognize this divine pellet? This was even a mind pill, a superior pill! I got you to make it for the Imperial Advisor. Eat one pellet that can last for ten days! "

"So it was even the Mental Energy Pill!" Chen Xiang also had this kind of divine pill formula. Back then, Feng Yujie had gotten this from the Dan Heart Pavilion, but he did not refine it.

"How far can it be maintained?" After Chen Xiang received them, he dripped his blood on the two Conjoined Mind Pills. Only by dripping blood on each other could a heart-to-heart connection be formed.

After dripping his blood, he gave two mind pellets to Xiao Yulan, who also dripped blood on them.

"This is a Taiping Dan, not limited to space! However, the medicinal effect is limited, and can only be sustained for ten days! " Xiao Yulan said: "Let's eat them now, just in case something happens, we can use this method to communicate."

Chen Xiang said, "It's only been ten days, isn't that a bit too short?! Can you get more? I need to maintain it for a bit longer. "

"Alright! I still have eighteen pills, and we'll each drip blood on them. When the time comes, we'll each have ten pills, and can last for a hundred days. That should be enough! " Xiao Yulan said.

Chen Xiang nodded, then started to drip blood. He was also worried that something might happen in the depths of the earth. After all, this was the core of the Earth-stage Stars, and there were still eight experts with at least ninety nine Divine Deity inside.

Chen Xiang and Xiao Yulan both consumed a Spirit Pill respectively. Right now, they only needed to think about it and they could tell each other what they wanted to say.

"We're ready to go to the end!" Xiao Yulan did not know why, but he suddenly tensed up: "Weird, it's not hot down there!"

"Not hot?" Yue'er hurriedly asked, "Are you still feeling a little cold?"

"Yes, you can sense it?" Xiao Yulan nodded.

"It's over! Weird, the lifespan of Earth-stage Stars should not be so short, the energy inside its inner core actually ran out, that means this Divine Cauldron Star will become a dead star before long. " Yue Er's voice was very serious, "Generally speaking, this kind of state of the earth's core is quite dangerous! The reason for this is that the inner core is compressing itself. It's just like how a Core Formation stage is compressing a huge amount of energy together. "

"Right now, this is the situation in the earth's core!" Yue'er looked at Chen Xiang, "You should know how dangerous this is!"

Chen Xiang took a deep breath, "When the core was compressed to a certain degree, it could no longer continue, and would explode! the entire Divine Cauldron Star will be blown up! "

"Yes!" Yue'er said: "But Divine Cauldron Star is a very young Earth-stage Stars, they shouldn't die so quickly. There must be a reason behind it."

"Can we go out now?" Imperial Concubine Lian asked.

Xiao Yulan closed her eyes, and through her own practice with the divine cauldron, she was able to sense the situation outside. Not long later, she opened her eyes and said: "That's enough, outside is darkness, and it is extremely spacious.

Yue'er asked, "The inner core is missing?" Even if it were to compress itself, the inner core would definitely release its aura.

Xiao Yulan shook his head: "This place is completely dark, other than a little cold, there's no other aura."

"What a strange core. Let's go out and take a look!" Yue Er said.
