

## Dan God 2381

### [Chapter 2381](#)

Chen Xiang wiped his sweat. When Chu Hongqing saw this, he also quickly helped him wipe his sweat.

"Hongqing, how many Jade money s do you think I can sell these five pills for?" Chen Xiang asked.

"This is a light gold crystal pill, selling it for fifty thousand is not a problem." Chu Hongqing said: "But you should just eat by yourself!"

Chen Xiang nodded his head, "Then, I shall go into closed door cultivation for a while."

After he finished speaking, he entered a secret room and ate the pill that he had just refined ...

Five days later, Chen Xiang refined all of the medicinal powers of the pellets. What he did not expect was that these five pellets actually allowed him to condense nine Azure Dragon Bones.

The Azure Dragon inside the Second Divine Sense Sea was already filled with Bones, and his fleshly body had also risen by a lot!

"In addition to the Bones that the Azure Dragon has just condensed, the flames that I have released are even stronger. If not for the help of the Chuangshi god furnace, my previous flames would not have been able to refine high-grade Heaven-ranked Yaoge Dan."

was extremely excited. He felt that he would need to cultivate in a Dao Body soon!

"When I finish cultivating the Dao Body, I will go back to look for Qilian and the others." Chen Xiang had already understood that the forest where the Great Heaven Star was located was a deathly still place. The barbaric beasts would not go, nor would they grow medicinal herbs.

Walking out of the secret room, Chen Xiang shouted, "Hongqing..."

"She's not here!" Chen Xiang frowned. He then looked around the room and the hall but he did not find Hongqing.

When he was outside, he could smell the aroma of the wine and knew that Yu Yan was drinking again.

"Younger Brother Shen, you've finally come out from closed door cultivation!" Yu Yan laughed: "Quickly come over and drink a few bowls."

"I've only been in closed door cultivation for five days, right? What do you mean finally! " Chen Xiang laughed, he walked over and drank a big bowl: "Have you seen my servant girl?"

"She has returned to the Fire Reverent School. The Fire Reverent School is hosting a grand gathering for the Heavenly Dao Sect, and as the goddess of the Fire Reverent School, how can she not return? It was Fire Reverent School Leader who came to call her. " As Yu Yan spoke, his expression became serious: "Bro, you might be in trouble. Fire Reverent School Leader is very dissatisfied with you taking the spirit demon woman as your slave, you need to be careful!"

"I will pay attention!" Chen Xiang nodded, "Then what's the Heavenly Dao Sect gathering?"

"It's just a bunch of guys showing off, what's wrong? Are you interested?" Yu Yan's eyes lit up, and he laughed: You are so good at refining pills, then maybe you will be able to shine there, which is good for you!

"Tell me about this gathering!" Chen Xiang laughed: "I still prefer to join in on the fun."

"It's a group of powerful sects and families gathering together to compare! However, little brother, your current power is still a bit off from being able to cultivate a Dao Body. Yu Yan said: "It's already too late, there's still three months of time!"

"Why can't I return in time?" Chen Xiang laughed, "I have complete time! "Right, how do I contact my young maid?"

"She said she would come every few days. You just wait patiently!" "Don't go look for her in the Fire Reverent School right now, those fellows from the Fire Reverent School have been bewitched by this witch to the point of having their divine soul turned upside down. When they found out that you took her as your slave, they couldn't help but want to tear you into pieces. Yu Yan laughed: "Right now, there are many young masters who want to see you, they should be trying to curry favor with you."

"I'm too lazy to see them!" Chen Xiang said with a smile, and then took another sip of the wine.

"Brother Yu, in this world, are Fire Reverent School's Leader the strongest?" Chen Xiang asked.

"If it is in the Fire Tao Divine Place's eyes, he is considered stronger! However, I am also not sure just how big this world is. Although there are many powerful sects and ancient families in this region, outside of this region, Fire Reverent School Leader is probably not even worth a fart. " Yu Yan said: "Of course, we might not leave this area for the rest of our lives, and we don't have the ability to."

Chen Xiang was shocked, he never thought that this Big Chaotic Times would actually be so vast, even Yu Yan felt that he was unable to leave this area!

Chen Xiang suddenly felt that Yu Yan and the others did not know about the existence of those Natural Law Divine Spirit s!

Not long after, Chu Hongqing arrived. When she saw Chen Xiang drinking, she chastised him with her charming voice, and Chen Xiang then pulled her away.

"Hongqing, is your Leader dissatisfied with me?" Chen Xiang asked: Do you want me to rescind the master and servant blood contract?

"No need, this is my own problem. Even if he's unhappy, it doesn't matter." Chu Hongqing smiled at Chen Xiang: "Don't worry about this, I will settle this matter! How is it going after you ate those five pills? "

"The effects of condensing nine Bones are very good! Right, where is the Lightning dragon eagle's divine soul? My Bones needs to be integrated with the divine soul. " Chen Xiang said.

"Here. That Lightning dragon eagle has quite a few Divine Deity s, they have all been taken out, and that can also be used to refine pills! " Chu Hongqing took out a small red bag. "Take a look!"

Chen Xiang looked inside, there were more than a hundred Divine Deity and more than ten Bones, all of them seemed to be very strong.

"What about the beast meat and beast blood? "Give it all to me, I want to concoct pills, I want to cultivate my Dao Body as soon as possible so that I can participate in the gathering!" Chen Xiang laughed.

"You really want to go!" Chu Hongqing frowned slightly.

"Can't you go?" Chen Xiang said.

"Yes, yes. But now ... Even the disciples of Fire Reverent School hate you, I'm worried that something might happen to you if you go. " Chu Hongqing said.

"Then I won't go!" Chen Xiang laughed: "Hongqing, why don't you leave Fire Reverent School! You should be clear that following me is much better than staying in Fire Reverent School. "

My father has a good relationship with the Leader, if I were to leave the Fire Reverent School now, the Leader would definitely not agree to it. " Chu Hongqing shook her head. She gave all the refined beast meat and beast blood to Chen Xiang, as well as the Lightning dragon eagle's scales, Bones, dragon tendons and other good materials.

"What about your father?" Chen Xiang asked.

"He died a long time ago!" Chu Hongqing sighed: "Right now, you better raise your strength first, and give me another Lightning dragon eagle, I'll help you get it!"

Chen Xiang nodded.

When Chu Hongqing left, he started to refine pills again. Just now, Chu Hongqing had given him more than ten sets of medicinal ingredients, which were enough for him to refine quite a few Heaven Stage High Rank Yaoge Dan.

Chen Xiang had originally wanted to join in on the fun, but she could tell that Chu Hongqing wasn't too willing to join in. It might be because of his master-servant relationship with Chu Hongqing, otherwise, it would attract too much attention and attract a lot of trouble.

"I better be honest in concocting pills. We'll talk about it when I have the strength."

This time, Chen Xiang was refining a batch of pills a day faster than before. Right now, he felt that he could already completely master the high-grade Heaven-ranked Yaoge Dan, so he planned to challenge even more difficult people with Crash method s, in order to refine even more high-grade or in order to produce even more pills!

## [Chapter 2382](#)

Chen Xiang liked to challenge things that were even more difficult. In the eyes of others, the harder it was to reach, the more he liked to challenge them! Especially this kind of Crash method, if other Alchemist were able to produce as many pills as he did, they would definitely be very satisfied.

However, he was not. In his eyes, this was not the limit. He was very clear about this. In his eyes, there was no limit to refining pills and cultivating.

"This is a Jingshen Dan from the start, what would happen if we were to clash again?" Chen Xiang had never tried it before. In the era of the Star Law Divine Realm, when he was refining the King grade and divine pellet, it was very difficult to use the Crash method.

Now that his strength had increased by a lot, and he even had Chuangshi god furnace, he wanted to give it a try!

"Bang bang!" Chen Xiang controlled the five clumps of medicinal liquid inside the pill furnace to collide with each other at the same time. Previously, he had injected a very powerful force into the pill furnace to push them forward, so at the moment of impact, the Chuangshi god furnace was trembling violently.

"AA  
AAAAAAAAAAAAAAAAAAAA!" Chen Xiang could not help but cry out in pain, he did not expect that the energy would actually affect his divine soul, causing his head to feel intense pain. Luckily it only lasted for a short period of time, or else he would not be able to control himself.

"It's fine now!" Chen Xiang looked at the inside of the Chuangshi god furnace, which had turned into many little floating balls of golden mud, floating inside the pill furnace, occupying a lot of space. Although these balls of mud collided with each other, they did not fuse together.

This meant that these small clumps of mud were repelling each other. This was mainly because the energy within them was inconsistent and needed to be refined so that they could unify and fuse together.

Chen Xiang was very experienced with this. He immediately released a strong flame and burned it, at the same time channeling his energy into many small clumps of mud, making them all equal in quality.

This step required a lot of time, and even after continuing for a few days, Chen Xiang was only halfway done. However, he was very patient with this process, as long as he succeeded, the quality of this pill would be very high, many times better than the ordinary pills.

As for the specific effects, they could only be seen after the refinement process was completed.

More than ten days had passed, Chen Xiang finally managed to fuse all of these small clumps of mud into one!

Although it had been fused, the most difficult part was that the Chuangshi god furnace already had a crystal ball as big as a watermelon!

"This... This is the quality of the Jingshen Dan, if I were to directly smash it into pieces, I would be able to obtain at least a hundred high-grade Heaven-ranked Yaoge Dan, and it would even be merged with a beast's meat." Chen Xiang himself was shocked, he felt that the reason it was like this was mainly because it had injected too much of his own strength during the collision.

Of course, this was all because he had too many Life-Killing Divine Deity, so the Life and Death God power was already capable of helping him replicate them. When he had charged into the fray just now, he had injected thirty to forty percent of his Life and Death God power, which was almost half of it.

"It seems that I have to split this bead into ten pieces and compress it ..." Chen Xiang could not imagine what kind of pill it would be once it was compressed to the size of a peanut.

He was also very curious about this. Even though it was very difficult, he had to do it!

After a day had passed, Chen Xiang had finally split the large crystal into ten parts. He used the split refining method inside the Heavenly Alchemy to split the large ball of crystal into ten small beads, and then started to compress it with his powerful divine power.

The compression process was the most difficult because the crystal was already very solid and was the ultimate form of energy. It could be said that there was no space for compression anymore.

"It's difficult to suppress it..." Chen Xiang tried for a long time, but unexpectedly, there was no progress. The ten pearls were still as big as ever, and did not shrink in any way.

"What should I do?" Chen Xiang stopped. He realized that even if he ignored them now, the ten little pearls would not change at all. If he took them out now, it would be ten very big Jingshen Dan s.

However, he was unwilling. He really wanted to know what it would be like if he continued to compress them!

"Six Realms mirrors!" Chen Xiang immediately thought of the Heavenly artifact, the Six Realms mirrors had many powerful formations.

After he took out the Six Realms mirrors, it became very small and he put it inside the Chuangshi god furnace.

"When that time comes, as long as I control the flame to concentrate on those crystal beads, I won't burn any more Six Realms mirrors!" Chen Xiang would definitely be very careful, Six Realms mirrors were rare Heavenly artifact, and many times they had helped him in critical moments.

After he was ready, Chen Xiang started again. He controlled a formation inside the Six Realms mirrors to activate, and this formation released a very strong pressure. If he controlled it correctly, it could crush a mountain into grains.

Right now, Chen Xiang was going to turn ten apple sized crystal balls into peanut sized pills.

"It's starting!" Chen Xiang controlled the Chuangshi god furnace to release a fierce flame and the crystal ball would become softer under the fierce flames.

The Six Realms mirrors activated the formation and released a squeeze of power. Chen Xiang immediately saw that the dozen or so burning red pearls were changing shape, and were being pressured down little by little.

"It's working!" Chen Xiang was overjoyed, but he was also a little worried. This was because he had exhausted a lot of his energy, and the main reason was that the Six Realms mirrors was frantically absorbing his energy.

It could be seen that the Six Realms mirrors required a lot of energy to maintain the array and release its suppressing power. Otherwise, it would be impossible to suppress the crystal balls.

Right now, Chen Xiang could only endure the battle. He was already in the middle of it, and even if it wasn't for a reason, he couldn't stop midway, otherwise the compressed crystal beads would erupt! Once it started to compress a little, the crystal ball would become very unstable and could only continue to compress. Once it let go, the furnace would explode!

Since he had already reached this step, Chen Xiang definitely would not give up. No matter how difficult it was, he had to persevere!

Right now, Chen Xiang felt that time was passing very slowly, as though it was every day of the year.

Ten days had passed, Chen Xiang suddenly let out a long breath, and then laid on the ground. He successfully compressed the ten crystal balls to become as small as a normal pill.

He didn't go to see how it was. He was already very tired and just wanted to have a good rest.

After lying on the ground for most of the time, Chen Xiang finally recovered. After that, he opened up the Chuangshi god furnace, but there was no aura being emitted from inside, not even the smell of medicine.

"What's going on? I clearly succeeded! " Chen Xiang thought in his heart, and anxiously took out the ten completed pills.

"What is this?" Chen Xiang looked at the ten transparent little pellets in his hand, inside which a bunch of golden flames were pulsating.

### [Chapter 2383](#)

Chen Xiang took a closer look and discovered that other than the things that looked like golden flames inside the pellets, there was a small dot in the middle of the pellets. This small dot was emitting energy, maintaining the flame's burning.

"This ..." Chen Xiang took a deep breath in shock: "This Divine Deity ... "No, it should be called Dan!"

The fact that the pellet could actually condense his own Divine Deity had already exceeded his imagination!

"As expected, there is no limit to the quality." Chen Xiang confirmed his method once again.

"These pills not only have Divine Deity, they also have their own divine soul. I wonder what will happen if I eat them!" Chen Xiang was secretly excited, he then swallowed a pill and started to refine.

The pill entered his body and he only needed to slightly circulate his cultivation technique. The medicinal strength was quickly refined and assimilated into his body, entering his second deep sea.

Inside Chen Xiang's second Divine Sense Sea, the Azure Dragon had already gathered all of its Bones. Next, he guided the medicinal power to the Ground-suppressing immortal elephant s, and just as he entered the Ground-suppressing immortal elephant s, he began to condense his Bones.

"Very fast!" Chen Xiang was wild with joy: "A single pill could allow me to condense two Bones, this is too unbelievable!"

After he completely condensed the Azure Dragon's Bones, it would be even harder for him to condense Bones, but now he had condensed two of them in an instant!

"Not much time has passed, not only has my Bones condensed a lot faster, it's also much easier to refine and easier to absorb!" Chen Xiang felt that as long as he refined a few more batches, he would be able to cultivate Dao Body very quickly.

After that, he ate all the remaining pills!

Each pellet allowed him to condense two Bones. In less than two days, with the help of this kind of Yaoge Dan with Divine Deity, he allowed the Ground-suppressing immortal elephant and the heavenly qilin to condense ten Bones each. "It won't take long, I'll continue refining!" Chen Xiang took out another set of medicinal herbs. Just one set of these herbs, along with beast blood and beast meat, had such an effect after going through a variety of refining methods. If other Alchemists were to know about this, they would definitely be shocked.

Chen Xiang had been in closed door cultivation for two months, and in total he had managed to refine three batches of Heaven Pellets with the right to do so.

"Why hasn't there been any change?" Chen Xiang did not feel that he had a Dao Body. If he were to raise his Dao Body to a large realm, he would definitely feel an obvious change.

"Could it be..." Chen Xiang thought about it carefully, and said with a frown: "Could it be that my second Divine Sense Sea needs another Hundred gods level?"

According to what he felt, the second Divine Sense Sea no longer needed Divine Deity!

"The Yaoge Dan can condense Divine Deity too, give it a try!" Chen Xiang still had five pills, he ate one and channeled his Alive Slain Method to condense his Divine Deity in the second Divine Sense Sea.

Not long after, he managed to condense several Divine Deity in the second Divine Sense Sea!

"It's fast, how much Divine Deity can a pellet condense?" Chen Xiang was extremely shocked. Previously, when this pellet condensed two Bones, he was shocked, but now, the condensing of Divine Deity was like laying eggs, continuous and unending.

"Thirty Divine Deity!" Chen Xiang's heart trembled, the value of this was too heaven defying.

He discovered that one of the Beast statue could hold twenty Divine Deity, and the green dragon was quickly filled up by him.

"So, my second Divine Sense Sea can condense a hundred and sixty Divine Deity?" Chen Xiang was very excited. This meant that when he stepped into the Dao Ti realm, he would become a lot stronger, and be able to possess a very powerful dao body.

After that, he consumed the remaining four pellets, and spent three days to condense a hundred and twenty Divine Deity.

"We still lack ten Divine Deity!" Chen Xiang still had a few Yaoge Dan in his possession, all of which he had refined using ordinary methods before. After eating them all, he continued to cultivate.

Only he could consume so many powerful pills to cultivate quickly!

Not long after, his Divine Deity at the second Divine Sense Sea were completely full. Right now, he had not stepped into the Dao Body because his divine soul was not enough!

Regardless of whether it was Divine Deity or not, both required one to either integrate divine soul inside, or cultivate it themselves. This required a total of more than two hundred sets of divine soul!

But Chen Xiang did not feel it was difficult, because he had the Lightning dragon eagle's corpse in his hands, these Lightning dragon eagle all had two Divine Sense Sea s, if he was careful, he could obtain a lot of divine soul from their bodies, he felt that the divine soul in these few Lightning dragon eagle s were sufficient for him to use.

A few days later, Chen Xiang's body started to shine with a white light. He could feel his body being immersed in a warm and comfortable water and the warm energy that was flowing within his body made him feel extremely comfortable.

"Have I stepped into the Dao Ti realm?" Chen Xiang thought, at this moment, not only did he feel a change in his body, even the six Beast elephant in the Second Divine Sense Sea seemed to have life.

"My first Divine Sense Sea has already become a real world ... How magical! " Chen Xiang could clearly feel that the Divine Sense Sea World in the First Divine Sense Sea was no longer his illusion, but actually existed in a world that contained its own laws.

"I can change the time inside!" Chen Xiang increased the speed of the time so that the plants inside could grow quickly. It was just that it required a lot of energy.

"I can use my control of the laws of the real world to comprehend Natural Law Principles!" Chen Xiang was shocked in his heart, because just now, when he controlled the real world, he had already felt the subtle changes in time.

Chen Xiang opened his eyes and thought, "I understand! The so called Dao Ti realm is to cultivate a real world, where one can experience the workings of the Heavenly Dao for themselves, and experience the power of Natural Law Principles from it! "

"I can even create a Natural Law Principles, but right now, I have already created a Natural Law World. My body is just a container for a Natural Law World!"

When he thought about this level, Chen Xiang was immediately shocked. He felt that it was very likely that he was in someone's real world, and the only thing he did not realize was that this person had cultivated an extremely huge Natural Law Divine Realm that had been operating for many years. Normally, this person would not even be in charge of it.

"Are we really in the real world of a living being?" Chen Xiang looked at his own real world. He believed that as long as he had time, he would be able to make his real world stronger. There would also be many creatures born inside that would form a system that would operate.

Of course, this would take a very long time. If it were in the past, he might not care about the world that he had created!

All of this was only his guess, but it also became a direction of exploration. He felt that if it was truly as he thought, he wanted to meet the master of this world, and that was the true Heavenly Dao.

Upon entering the Dao Ti realm, the most obvious increase was in strength. After all, his Bones and strength had both increased by almost two hundred, so the increase in strength was definitely extremely huge!

#### [Chapter 2384](#)

The one hundred and twenty Divine Deity that Chen Xiang had cultivated in the Second Divine Sense Sea had all been for the sake of helping him condense even stronger purple pearls that could help him quickly duplicate medicinal ingredients.

Furthermore, when using the Crash method, the best and most effective life and death divine power condensed by the Life-Killing Divine Deity would allow him to refine a heaven pellet that had the right to do so.

"With just a few medicinal ingredients, I was able to increase my cultivation by such a huge amount. The Heavenly Alchemy is indeed frightening, who exactly was the one who created this Heavenly Alchemy?" This was a question that had been in Chen Xiang's heart for many years.

After taking a bath, Chen Xiang walked out of the secret room!

Yu Yan and Lv Ying were drinking wine, and were both surprised to see Chen Xiang walk in.

"You've cultivated Dao Body?" Yu Yan asked anxiously: "You managed to cultivate to Dao Body in less than three months? How did you do it? Furthermore, you are on the verge of a breakthrough! "

"I am a Alchemist, you understand!" Chen Xiang laughed, and picked up the wine that Lv Ying poured for him, and drank it all in one gulp.

Before he formed his Dao Body, he could get drunk from drinking this wine, but now he felt like he was drinking water!

"Good boy, amazing!" Yu Yan immediately poured wine for him, and then the three of them filled the bowl with wine.

"You're not in a hurry to attend the Heavenly Law Auction?" Yu Yan asked again.

"No, I don't plan on going. This will bring trouble to my little maid!" Chen Xiang laughed: "Has she been here before?"

"Of course I have. Come on time! It's just that I didn't see you, you brat. This demoness was previously made of steel and no one could bite her, but who would have thought that you would make her obedient. " Yu Yan laughed wickedly: "She told me to tell you, if you came out, you should go participate in the Heavenly Law Auction, she should have dealt with all of those troubles."

"Really?" Chen Xiang had already given up on that idea.

"Of course it's true! Furthermore, she was even invited to go by the Fire Reverent School's Leader. You are very famous now, I wonder how many people come to this shop to find you every day. " Yu Yan

laughed and patted Lv Ying's back: "Boss Lu, your shop's business is so good now. It's all thanks to Younger Brother Shen, how are you going to thank him now?"

Lv Ying smiled as he poured wine for Chen Xiang. "I will thank you so much little brother!"

Chen Xiang laughed: That's unnecessary, you just have to take care of the food and shelter, and from time to time, let Big Brother Yu drink some wine.

Just as the three of them were happily drinking, someone suddenly walked in. It was the shopkeeper.

"Boss, another person has come to cause trouble. This time, the person who has come is not someone to be trifled with. We can't just chase him away like we did in the past." The shopkeeper said with a worried expression.

"What are you doing here?" Chen Xiang asked anxiously, he guessed that it must be related to him, and from the shopkeeper's words, it must have been something like that.

Lv Ying sighed: "Even they came to challenge you! Because you took Chu Hongqing as your female slave, mercilessly defeated Niu Hao, and closed the door on him. You could be said to have become famous in the Fire Tao Divine Place in one fight! "A lot of people who want to be famous are trying to beat you. They think that as long as they can beat you, they will be able to get such a reputation just like you."

"Right now, I only know how to refine Yaoge Dan. Compared to them, I can't even concoct other pills." Chen Xiang shook his head and laughed, "Of course, I can compete with the Yaoge Dan s on the Heaven Stage."

"Younger Brother Shen, do you know how to refine Heaven Stage Yaoge Dan?" Yu Yan was suddenly so shocked that he almost choked on his wine.

Lv Ying was also very surprised, and could not believe it.

"What is it? Is that strange? " Chen Xiang didn't really think so.

"Of course it's strange. This crappy shop of Boss Lu's only had Heaven Stage pellets at its highest. That King's Pellet he kept here was a treasure used to hold shop!" Yu Yan said.

"Little brother, are you serious? Refining a Heaven Ranked Yaoge Dan would take a lot of time, so I would need ten days. " Lv Ying said.

"Ten days? "It's a little slow!" Chen Xiang laughed: "If I refine it, adding the beast meat and beast blood, it'll be done in a day ... Right now, it should be more than one day. "

The corner of Lv Ying's mouth twitched. He did not dare to not believe what Chen Xiang had said, so he asked: "Not just for a day, but for how long?"

Adding Beast Blood Beast meat would definitely increase the difficulty by a lot, and it wasn't just something he could refine in a day. He could only use the word 'monster' to describe Chen Xiang.

"I'm not sure either... We have to give it a try to know! " Chen Xiang had refined a few batches of Heavenly Pellets before, so his skill at refining Heaven stage had increased by a lot. Furthermore, he had

already stepped into the Dao Ti realm, although he was only at the first stage of the Dao Ti realm, it was still a huge improvement compared to previous stages.

"Go, aren't there bastards that want to cause trouble? Kill him!" Yu Yan said: "I'll go and give it a try now!"

Yu Yan pulled Chen Xiang, "You don't need to refine those on the Heaven Stage, and those in the middle will suffice. You don't need to add the Beast Blood Beast meat to challenge those ignorant brats who don't know their place, they can only refine those on the Heaven Stage if they push themselves to their deaths."

Lv Ying nodded: "Let's try it out!"

"Alright!"

Chen Xiang smiled, then shared a bowl with them before walking downstairs.

The luxurious lobby on the first floor was already filled with people. The commotion caused by the people was not small, and with a single glance, one could tell that they had some sort of background.

"Hongqing!" Chen Xiang saw that Chu Hongqing was also there, and there were a few other handsome men beside her.

Chu Hongqing had also just arrived, when a few men came up to chat with her, but when she saw Chen Xiang, she anxiously went over, and although she was surprised, she did not come out.

"You haven't seen me for so long, do you miss me?" Chen Xiang giggled as she pinched Chu Hongqing's beautiful face, causing everyone to curse him in their hearts. He actually treated such a beauty so rudely.

"Humph!" Chu Hongqing pouted coquettishly, then walked behind Chen Xiang.

"You're just Chen Xiang?" A blue-clothed man walked up. Behind him were two attendants and a few beautiful maidservants.

"Nonsense!" Chu Hongqing scoffed.

Chen Xiang sized him up, then he turned out to be a little handsome, looking somewhat arrogant, but with no special characteristics.

"Lan Taotian from Lan Clan?" Lv Ying said.

"That's the guy." Yu Yan said: "After staying in the Fire Reverent School for a while, I have learned quite a good pill refining skill and then went back. I should be able to conveniently come to participate in this Heavenly Mystery to challenge the Younger Brother Shen."

Chen Xiang had also heard that the Tian Dao Family had quite a bit of power in this region, they normally wouldn't dare to provoke anyone, so he had to be careful around Lv Ying.

At this time, everyone wanted to see if Chen Xiang was really as powerful as the rumors said he was! Because Chen Xiang had accepted Chu Hongqing as a servant, the young masters at the scene were furious. They all hoped that Chen Xiang would lose to him.

"Not bad, I wonder if Young Master Shen will accept my challenge?" Lan Taotian smiled at Chen Xiang, it was a smile filled with confidence.

"I can accept that, but I can only refine Yaoge Dan, and now I can barely make Heaven Ranked ones, so if you want to challenge me, you can only compete with me on this." Chen Xiang said.

#### [Chapter 2385](#)

Those who watched the competition that day knew that Chen Xiang was still not very familiar with refining Yaoge Dan. Those who heard about it later on knew about it too, so Lan Taotian was very clear about it too.

"If you want to challenge me, you can only challenge me to refine Yaoge Dan s. I do not know how to refine other pills, I will definitely lose," Chen Xiang said.

Chen Xiang had refined a low-grade Heaven Ranked Yaoge Dan, and he could produce ten of them in one furnace! Not to mention this Lan Taotian, even if the strongest old Alchemist from the Fire Tao Divine Place s were to be invited, it would still be very difficult for him to win against Chen Xiang.

But what about middle-grade heaven-step? Everyone was thinking about this matter. The middle grade Heaven Stage was much harder to refine than the lower grade. They all felt that it would not be as easy for Chen Xiang to refine middle grade Heaven Stage.

Lan Taotian could not say anything now. After all, Chen Xiang had already very directly told him that he could not possibly have a competition with someone else for a pill that they were not familiar with.

"Alright, let's compete in refining a middle grade Heaven Stage Yaoge Dan." Lan Taotian had also come prepared, so he only considered for a moment before agreeing.

Chen Xiang smiled and nodded, "Then let's begin! From the looks of it, you seem to be very good at refining Yaoge Dan too! "

Chu Hongqing did not say anything, she knew that Chen Xiang's pill refining skills were very high, let alone middle ranked, even if it was high ranked, with beast meat and blood, he could still refine five pills, and she could not compare to Chen Xiang.

"I heard that Lan Taotian's middle tier Yaoge Dan was also very powerful. Most of the middle tier Yaoge Dan that his Lan Clan s sold were refined by him!" Those who were familiar with this area discussed with the people around them in a low voice.

"I also know that I bought a Yaoge Dan refined by Lan Taotian. It was mixed with beast blood and beast meat. Although it was a bit expensive, I felt that it was worth it!"

"A middle ranked Yaoge Dan with beast blood meat added on it? This Lan Taotian is not bad! I just wonder how many pills he can refine in a single furnace. "

"Three pills!" If we do not add them, it is possible to get four or five of them! "

Although everyone knew that Lan Taotian was more outstanding in refining a middle tier Yaoge Dan, they did not dare to underestimate him. After all, Chen Xiang was able to refine ten low tier Yaoge Dan in one furnace, which was quite heaven-defying.

The reason why Lan Taotian came to challenge Chen Xiang was also to increase his fame. He felt that it wasn't a big deal even if he lost, because he was already outstanding and had a very high position in the Lan Clan.

Chen Xiang did not have any mid-grade Yaoge Dan medicinal ingredients, so he asked Lv Ying for a portion of it. Then, he took out a pill furnace.

"Isn't this pill furnace Chu Hongqing's? "The pill furnace is the life of the Alchemist, and he would normally not casually borrow it. It looks like his relationship with Chu Hongqing is not just ordinary."

"Hehe, so what! The Fire Reverent School was very unsatisfied with this, after Chu Hongqing learnt this brat's consummate pill techniques, he would probably force him and Chu Hongqing to remove the Master-servant Contract! This is probably why Chu Hongqing became his Master-servant Contract. "

Although Chen Xiang heard these words, he did not put it to heart. What kind of thoughts did Chu Hongqing have? Master-servant Contract was not a joke, it was equivalent to handing over his heart and life to him.

Of course, Chen Xiang still had to be wary of Fire Reverent School!

After inspecting each other's pill furnaces and ingredients, Chen Xiang and Lan Taotian began to refine pills!

It was just an ordinary refinement, so there wasn't anything difficult for Chen Xiang. He was able to easily refine that kind of pill, let alone an ordinary Medial Grade Yaoge Dan.

When concocting the pills, Chen Xiang noticed that there was a rather strong strand of consciousness inspecting his pill furnace. After he discovered it, he immediately stopped it.

Chen Xiang immediately followed this consciousness and discovered that it was released by a black clothed man in the back of the crowd.

"Hongqing, who is that guy from the outer sect? Do you know him? This fellow is not simple! " Chen Xiang quickly transmitted to Chu Hongqing and sent the image of the man to her mind.

"It's him!" Chu Hongqing was shocked: "I know him, he is from the Fang family! The most powerful family of the Fire Tao Divine Place, the Heavenly Dao Family. "

"Oh? He was very strong! It almost disturbed me! " Chen Xiang said.

"The Fang family and the Lan Clan have a good relationship. Did he try to disturb you? This guy is definitely trying to collude with Lan Clan on purpose. " Chu Hongqing scoffed, "If he dares to do it again, you can tell me. I'll go and take care of him!"

"His name is Fang Heng, a Alchemist at the peak of the Dao Yuan realm, a disciple of Supreme Flame.

Chen Xiang continued to refine pills. Although the other party wanted to disturb him, he was still a little weak and was discovered.

Last time, Chen Xiang used a Magic method furnace to refine pills because he did not have a good pill furnace. Now that he had Chu Hongqing's pill furnace and was more familiar with the refining process of a Yaoge Dan, it was not as difficult as last time.

After half an hour had passed, Chen Xiang suddenly opened his pill furnace!

Completed?

Everyone was startled, they never thought that Chen Xiang had improved so much. Previously, he was still a stranger to Yaoge Dan, but now, he was so familiar with it.

Lan Taotian had not finished refining the pill, and the rules were only set to four hours. The competition was only about the quantity and quality of the pills being produced.

"Ten pills!" Chen Xiang casually took out ten Yaoge Dan s from the furnace and the entire place suddenly became quiet.

Ten low-rank ones, ten mid-rank ones, and ten high-rank ones. That would be too heaven-defying!

Chu Hongqing was also a little surprised, she thought that she had caught up to only seven or eight pills, but she never expected that Chen Xiang could actually maintain his low-ranked strength! Only now did she remember that Chen Xiang had refined five High Rank Yaoge Dan with beast blood meat before, and it was not an ordinary process.

If it was an ordinary refinement, refining ten pills wouldn't be a problem!

When Lan Taotian saw Chen Xiang being able to refine ten pills in one go, causing him to be extremely shocked, his mind was not at ease. His pill furnace shook violently, and with a "bang", he exploded the furnace.

"I... I've lost! " Lan Taotian still had time to concoct new pills, but he was very clear that no matter how many batches he concocted, he would not be able to produce more than Chen Xiang.

Chen Xiang stood up. Even though everyone was looking at him as if they were looking at a monster, he did not feel anything.

"You only know how to refine Yaoge Dan!" Fang Heng suddenly spoke out, he took off his bamboo hat and walked over.

Lan Taotian immediately came to his side, and knew that they were not bad with just a glance, which immediately made Chen Xiang secretly angry.

"So what?" Chen Xiang said coldly, facing such a despicable person, the other party did not look good.

Just by looking at his appearance, Fang Heng was someone who would easily give others a good impression. He was handsome, and did not carry a haughty look like Lan Taotian, but Chen Xiang knew that this Fang Heng was very sinister.

## [Chapter 2386](#)

Fang Heng laughed faintly: "Nothing, to be able to refine Yaoge Dan to such an extent, in Fire Tao Divine Place, there is no one who can rival you! But so what? "You only know how to refine this kind of pill."

"For you to be able to forge such a pill, you definitely won't focus on the other pills!" If you did not have such accomplishments in refining other pellets, you would have definitely suffered a huge blow and then, you would have spent your entire life refining Yaoge Dan. Because, as long as you refine Yaoge Dan, you would not feel any sense of defeat. "

"Therefore, no matter how well you have refined the Yaoge Dan, in my eyes, you are not a real Alchemist. A real Alchemist should be proficient in many different types of pills, even if you have refined other pills, it would still be extremely outstanding."

Chen Xiang sneered: "You are just like me, what right do you have to assert that I only know how to refine Yaoge Dan? Why are you so confident that I will only refine Yaoge Dan in my lifetime? "

"Oh? Didn't you only know how to refine Yaoge Dan? This is yours! " Fang Heng also sneered.

One look was enough to tell that he was looking for trouble. Chu Hongqing had already wanted to go over to fix Fang Heng, but he was stopped by Chen Xiang.

"That's because I just learned how to refine pills, and I only know how to refine Yaoge Dan. I have yet to try out any other pills!" Chen Xiang answered honestly: "So you and I will only refine Yaoge Dan s for your imagination.

Lan Taotian suddenly sneered: "What big words, don't you know who the person in front of you is? He is definitely qualified to say those words, he is a disciple of the Fire Reverent School Leader! "

So that's how it is, I finally understand, as long as you become a Leader, you can be a hero! If that's the case, then it would be my honor, for a disciple of the Fire Reverent School to come all the way here to fight Hu Ba. " Chen Xiang also mocked him.

"Who do you think you are to dare insult Fire Reverent School like that?" Lan Taotian was immediately enraged. Thinking back to how he had lost just now, his own heart was filled with anger.

"I don't have anything, I'm human! Do you think everyone has something in their eyes? And you think everyone else is the same just because you think you have something of your own? " Chen Xiang laughed.

"Chen Xiang, if you want to prove yourself, then compete with me in another batch of pills! Since you have just started learning pill refining, you just need to compete with those below Heaven Stage. " Fang Heng said.

Everyone present immediately understood that Fang Heng's previous words had already incited him to compete with him in refining other pills. Only by doing so could they win.

"You're giving me the pill formula?" Chen Xiang asked: "If you give it to me, I'll agree to compete with you!"

"Alright, I'll agree to the medicinal formula and ingredients." A pleased look flashed across Fang Heng's eyes. He had been waiting for Chen Xiang's words.

Seeing that Chen Xiang had been provoked, Chu Hongqing and the others secretly blamed him for being too reckless. Chu Hongqing even lightly pinched Chen Xiang.

"Before the competition, we should at least make a bet. Only then will there be any meaning." Fang Heng said.

"Alright, what do you want to bet?" Chen Xiang asked, he was not afraid of the other party.

"If you lose, give me your control over Chu Hongqing." Fang Heng said.

That meant, Chen Xiang had lost, and Chu Hongqing was Fang Heng's female slave!

"Then please go back. Although Hongqing is my servant, she is not a wager in my eyes. I will definitely not use her as a wager." Chen Xiang's expression changed, and everyone could see that he was extremely resolute, causing Chu Hongqing to be secretly moved in his heart.

Seeing how determined Chen Xiang was, Fang Heng became even more furious in his heart, because now, everyone could tell that Chen Xiang was very concerned about Chu Hongqing's body and heart were both on the same level as Chen Xiang.

The lofty Hierarch Flame had been taken over by such a stinky kid. Everyone present felt uncomfortable just thinking about it!

"Alright, then how about we bet a million on the Jade money?" No matter what, Fang Heng would definitely compete with Chen Xiang today, and would even defeat him, causing him great losses.

"Only a million?" You still have the nerve to say that, young master of the Fang family, and a disciple of Supreme Flame's Leader, would you bet so little? " Chen Xiang sneered.

The crowd immediately went into an uproar. A million Jade money, no ordinary person would be able to afford that, even the owner, Lv Ying, wouldn't be able to afford that.

To many people, a million Jade money was considered very big.

"10 million!" Fang Heng clenched his teeth. Previously, he was still rather arrogant, but now, he had actually been flipped over by Chen Xiang.

"50 million!" Chen Xiang shouted indifferently: "If you don't want to, then go back!"

Chen Xiang could have rejected Fang Heng earlier, because he was betting on Chu Hongqing, and Fang Heng was even taking the initiative to challenge Chen Xiang!

If Fang Heng rejected the Jade money s who were gambling on him now, then he would be terrified. As the challenger, if he left with his tail between his legs, he would definitely be laughed at.

One million was Fang Heng's limit! He was confident that he would not lose, but's fifty million now was giving him a lot of pressure!

"Don't speak nonsense. Do you have fifty million on you?" Fang Heng said coldly.

"No, but do you have ten million?" How could Chen Xiang not know about the situation of the Jade money?

"I don't, but my Fang family's reputation is right here! What do you have? " Fang Heng sneered.

"I have refined ten Yaoge Dan. I believe that I can also refine them to this degree!" Chen Xiang said: "Boss Lu, if I can produce ten pellets in one furnace and refine ten batches in a day, how many Jade money can I earn in one day?"

"Five thousand Jade money is a portion of the Yaoge Dan's medicinal ingredients! If a Yaoge Dan goes one on top, then it would be ten thousand Jade money going one pellet, and a furnace would have ten thousand Jade money going ten thousand, while ten stoves would have a hundred thousand, and a million. Excluding ten sets of medicinal ingredients for fifty thousand Jade money, you can earn nine hundred and fifty thousand Jade money for a day. " Lv Ying said.

When everyone heard that, they could not help but jump in fright. One day, it was close to a million Jade money, in one month, it would be 30 million! After all, s were rather popular and had a lot of medicinal ingredients. If Chen Xiang really wanted to refine them this way, it would be a blessing for many cultivators.

"If I lose, I could pay back fifty million Jade money at most in half a year!" Chen Xiang said: "Fifty million Jade money, do you dare to bet?"

Fang Heng did not answer immediately. After all, this was a huge amount of money and if he lost and the Fang family did not give him the money, it would definitely cause him to lose his reputation. And he would be blamed.

"Can you really refine ten batches of Yaoge Dan in one day?" Suddenly, someone walked in. Upon hearing the voice, the anxious Fang Heng was overjoyed, because his father had come.

"Father!" Fang Heng immediately walked over, he did not know what to do earlier.

"That's right!" He only refined normal Yaoge Dan, he did not need to add beast blood and meat, so he felt that it would definitely not be a problem.

### [Chapter 2387](#)

When Chen Xiang saw the middle aged man come over, it was like seeing a Jade money. This middle-aged man would definitely gamble in order to support his son.

"His Fang family's second clan head, Fang Daiqi, is quite strong. The Fire Reverent School Leader has often praised him." Chu Hongqing whispered to Chen Xiang.

"Let's see how I'll trick him to death!" Chen Xiang laughed.

Fang Daiqi thought for a while, and said: "But I don't believe that you can refine ten batches a day! However, I believe that you can refine ten batches of Yaoge Dan in one day! The price of Yaoge Dan s are not bad, if you lose, you can pay back the gambling debts within a year! "

"Then, you're willing to bet?" Chen Xiang smiled lightly: "Fifty million's is between Fang Heng and I. How about we bet a hundred million? Only then can we face Senior's status. "Of course, I wonder if senior represents the Fang family?"

Fang Daiqi also knew the rules. His son would give him the pill formulas and ingredients, and then compete with Chen Xiang in refining a batch of Heaven Tier lower pellets.

With regards to Chen Xiang, who suffered a bit because he had never concocted that kind of pill before, although he was able to concoct ten Yaoge Dan s as soon as he came into contact with them, Fang Daiqi had also heard that Chen Xiang had taken out a lot of Yaoge Dan s medicinal ingredients at that time, so he felt that Chen Xiang had a certain understanding towards Yaoge Dan s.

After careful consideration, Fang Daiqi made a decision, and said: "If you lose, you have to go to our Fang Family to refine Yaoge Dan, enough to pay off your gambling debts!"

Only an ancient clan like the Fang family could afford to gamble like that, but Chen Xiang was even more admirable, because he, too, could afford it. He concocted pills quickly and got a lot of pills.

Right now, everyone suddenly felt that it was very worthwhile for Chu Hongqing to be Chen Xiang's servant.

Chu Hongqing did not have any objections, she felt that even if Chen Xiang loses, he would only be able to concoct pills for a short period of time, at that time, she would also help refine it, and it wouldn't be for long.

"Younger Brother Shen, that's a hundred million!" Yu Yan was also shocked. Although he came from a tribe deep in the mountains, he knew that this was not a small amount.

"Nothing, I can afford it." Chen Xiang smiled faintly.

He walked to the front and asked, "Alright, refine the Heaven stage pill. Give me the pill formula and ingredients!"

Fang Heng took out a jade tablet and gave it to Chen Xiang, saying: "This recipe!"

He then took out a jade box and placed three sets of medicinal ingredients inside.

"Qiyuan Dan?" Chen Xiang frowned.

When everyone heard this, they cried out in alarm.

Lv Ying said in a serious tone: "This is a miraculous pill, and is extremely difficult to refine. Furthermore, it can only be concocted with Daoyuan immortal power, and even if one has Daoyuan immortal power, it is very difficult to successfully refine it, because this pill requires the Fang family's unique divine power."

"Fang family, don't you think this is too despicable?" Chu Hongqing was furious, "You clearly can only concoct such a pill in your Fang family, and yet you take it out? You don't have a big family background?"

Everyone knew that the Fang family had such a miraculous pill, but they never thought that they would actually be willing to give it to Chen Xiang! But it didn't matter as long as he thought about it. After all, no one else would be able to refine it, and he would be able to obtain a hundred million Jade money.

The father and son duo of Fang Daiqi was so lucky, they probably wouldn't even need to compete to win.

"You bastard of a father and son, you've put on a good show. You all did it on purpose before." Yu Yan shouted in anger.

When they thought about it, they could understand why. Previously, Fang Heng pretended to act that way in order to lure Chen Xiang into a trap.

"Haha ..." Fang Heng laughed out loud: "I remember that previously, he had only been below Heaven Stage, our Qiyuan Dan was also below Heaven Stage, and it was very precious. After eating the Dao Yuan realm, it could increase the power of Dao Origin, although the difficulty is great, but it sold for a high price, it is worth it for him to buy it for one hundred million, it is definitely not a loss."

Chen Xiang was very calm, and asked: "So, if I win, I can sell this kind of pill? Won't your Fang family interfere? "

"This is our gift to you. If you really can refine it, we will not interfere." What? You want to try it? " Fang Heng laughed coldly: "It's alright, without our Fang family's special mystical powers, you won't be able to refine it. No, you, even my master cannot succeed, you can't not ask Chu Hongqing. "

"It's true!" Chu Hongqing understood this the best. Even the few she was familiar with did not succeed.

"Rules!" Chen Xiang did not care about this, he just wanted to give it a try.

"I will only give you three sets of medicinal herbs within the six hours limit. If you fail, it will be considered your loss!" "As for me, I can only use three sets of ingredients at most. Victory and defeat will determine the quantity and quality of the pills." Fang Heng said, he had already thought that Chen Xiang would definitely lose, so Chen Xiang could only struggle out of nowhere.

Even Chu Hongqing and the others did not think highly of Chen Xiang, because they had been in the Fire Tao Divine Place for so many years, so they understood this very well.

"Alright!" Chen Xiang was extremely confident, everyone thought that he was that confident because he did not know much about Qiyuan Dan.

"You'll know in a moment." Fang Heng laughed and took out a black pill furnace.

Chen Xiang still used Chu Hongqing's pill furnace. After inspecting the other party's ingredients and pill furnaces, the competition immediately began.

Chen Xiang was not too worried about that strange God Power, because he only cultivated six God Power, and it contained all the power of the Heavenly Dao!

"There are ten stages to the Dao Ti realm. Refining this kind of pill requires Daoyuan immortal power, I don't have it right now! " This point that Chen Xiang was more worried about, he had already seen the pill formula before, it was clear to him that it required Daoyuan immortal power to be injected during the process of condensing the pill.

That was the most crucial point!

"Hongqing, what's the condition of the Daoyuan immortal power?" Chen Xiang whispered to Chu Hongqing.

"When one's Dao Body reaches the peak of its power, their powers will be channeled into a powerful Dao Body, which is a type of power that can only be activated by powerful Dao Body. Normally, one would only be able to attempt it once they have reached the tenth stage of the Dao Ti realm, and once they succeed, they will be able to enter the Dao Yuan realm." Chu Hongqing said.

"So, the Lightning dragon eagle's flesh also contains this kind of Daoyuan immortal power?" Chen Xiang asked.

"That's right, the Lightning dragon eagle are all savage beasts from the Dao Yuan realm." Chu Hongqing replied.

Chen Xiang heaved a sigh of relief, because this was a huge problem for him. But now, he felt that it was nothing.

"Young Master Fang, I'm not at the Dao Yuan realm yet. Can I add some other materials into the mix?" Chen Xiang asked.

"Do you want to add the meat of a savage beast? Of course you can, but you won't succeed." Fang Heng said: "You just need to refine the Qiyuan Dan yourself, adding anything else is fine."

#### [Chapter 2388](#)

When Fang Heng heard that Chen Xiang wanted to add something, he knew what Chen Xiang was thinking. The reason why he usually added meat from a savage beast into his pill was to allow the pill to produce this kind of Daoyuan immortal power.

Since he could join, Chen Xiang had nothing to worry about right now. He believed that he would definitely succeed.

"Let's begin!" Fang Daiqi said. Everyone present thought that Chen Xiang would not succeed, especially the Fang family's father and son, because they understood the Qiyuan Dan very well.

Now that Lv Ying and Chu Hongqing were so confident, they could only hope that Chen Xiang really had a way to concoct the pill.

Qiyuan Dan were also very expensive, because in the entire Fire Tao Divine Place, only the Fang family could refine such a pill. Furthermore, the usage of the pill was not small, and to cultivators in the Dao Yuan realm, the use of the pill was extremely important. If enough Jade money could buy such a pill, it would only be a matter of time before they surpass the Dao Yuan realm.

From the very beginning, Fang Heng's speed was extremely fast. After handling the medicinal herbs and releasing the flames, he completed it in a single breath in a few blinks of an eye.

Fang Heng's level was originally very high. After all, he was a disciple of the Fire Reverent School Leader and a Young Master of the Fang family. It would be strange if he did not have such a level of skill.

Chen Xiang was the same as usual. When refining this kind of strange pill, he would observe his opponent first. This way, he could have a direction to go.

Qiyuan Dan did not require much medicinal ingredients, but the conditions to refine it were extremely harsh. This medicinal formula was created by the Fang family's ancestors, so only members of the Fang family could refine it.

Chen Xiang carefully observed Fang Heng's pill furnace and used the Dao heart Eye to look at it. Chen Xiang stared at his pill furnace without blinking, making him feel uncomfortable, as if he had been spied on.

After observing for a while, Chen Xiang realized that Fang Heng had released an extremely strong flame from the very beginning, which then gradually weakened.

"The time it takes to refine this kind of pill should be very short!" Chen Xiang was also prepared to start concocting. He looked at the herbs in the jade box, there were three of them in each, a black bean, a white flower and finally a golden fruit.

He did not know what kind of ingredients those were, but he would send a sound transmission to Chu Hongqing. did not know either, so it could be seen that the Fang Family was extremely well-prepared in this area.

"If the concoction is successful, the Fang Clan will definitely take back the remaining medicinal materials!" Chen Xiang thought that if he were to succeed after only using one portion of the ingredients, there would be two more left.

In order to prevent him from bringing them back for planting, the Fang family would definitely take them all back. Therefore, the first thing he would do next was to secretly hide a copy.

Finally, everyone saw Chen Xiang start to concoct pills, just like how Fang Heng did, he tidied up the ingredients, and then placed them into the pill furnace.

At this time, Chen Xiang had also secretly circulated his power, transferring the medicinal ingredients that had been put into the furnace into the ring, and then condensed a ball of violent fire into the furnace.

He purposely waited for a moment before he detonated the ball of fire!

B000M! The furnace released a muffled sound, causing Chen Xiang to purposely sigh!

The furnace exploded! This was the reaction of everyone, but everyone felt that it was normal, since even Fire Reverent School Leader would not be able to succeed, let alone a boy that had not cultivated for long.

Seeing Chen Xiang's explosion, Fang Heng and his father looked at each other and laughed. They had already expected this to happen.

Chen Xiang had purposely made it for the sake of transferring the medicinal ingredients to him for him to copy later on. Now, he was truly going to start concocting the pills.

He still had two more medicinal herbs. If he didn't succeed, he would lose 100 million!

Chen Xiang placed the second batch of ingredients into the furnace and released the flame. He then started to refine the ingredients extremely carefully.

When he was refining medicinal ingredients that he had never refined before, he usually needed the shortest amount of time to understand the special characteristics of these medicinal ingredients and use a very gentle flame. Otherwise, if the medicinal ingredients were too violent in the beginning and too fragile, they would be burnt.

Chen Xiang had conducted many such competitions before, so he had a lot of experience, and he did not plan to succeed this round, because he wanted to understand the characteristics of the three medicinal ingredients thoroughly before he could proceed to the final stage of Core Formation.

"These ingredients are all relatively soft. Too strong of a flame can be instantly burnt to ashes. Looks like it's the same as the Bone level fruit, it needs to be refined with water and fire." Chen Xiang had comprehended many different methods from the Heavenly Alchemy. He could use different methods to refine the ingredients according to their condition.

After a short period of purification, he was able to immediately determine the characteristics of the three medicinal ingredients in the furnace. Then, he used the Six Realms' Power to condense a liquid and pour it into the furnace, soaking the three medicinal ingredients.

"I wonder if the Six Realms' Power can replace the Fang family's mysterious powers!" Chen Xiang didn't dare to be sure now, so he could only try it out.

These medicinal ingredients were all low-grade Heaven-ranked medicine, so they were relatively easy to refine. In just an hour's time, Chen Xiang had completely refined all of them.

Inside the pill furnace, the three spheres of black and white gold were submerged in the water. These were three medicinal liquids, Chen Xiang used his divine power to gather the three liquids together, but he was unable to succeed!

When the three medicinal liquids merged together, they all had a very peculiar reaction. It was just that they overlapped together, but they were incompatible. If one withdrew their divine force, the overlapping medicinal liquids would once again run out and form the three original lumps.

"I should first put it into the savage beast meat!" Chen Xiang tried a few times but all was the same, he then threw in a large amount of beast meat.

Seeing that Chen Xiang had added something, and had a serious expression, Fang Heng was secretly pleased. At this time, he could guess the problem Chen Xiang was facing, because other than the Fang Family, the problems he had in the Alchemist were all the same.

"Adding flesh and blood is useless! I heard that Fire Reverent School Leader tried to join hundreds of different kinds of flesh and blood but failed. "

"Many of his old Alchemist have tried hundreds of times, but none of them succeeded. And now, he has two more chances."

"In order to prove the uniqueness of the Qiyuan Dan, the Fang family distributed medicine everywhere and even organized a large assembly for the Alchemist to refine.

"That's right, the Qiyuan Dan has also become famous because of this!"

Chen Xiang also learned from the discussions of the crowd how the Qiyuan Dan became famous. At this point in time, he had already refined the savage beast's flesh and split it into three equal groups, merging them into the three medicinal liquids.

The process of fusing them was extremely smooth. After completely fusing them, Chen Xiang once again tried to fuse the three clumps of medicinal liquid!

However, they still did not succeed. The three medicinal liquids could converge but not fuse together, and once they retracted their powers, they would immediately separate. When they squeezed the three medicinal liquids together, it would also be very easy, and they would not need any divine powers.

Chen Xiang finally understood that in order to fuse the three medicinal liquids together, he would have to use the Fang family's unique divine power.

"What kind of divine power is this?" Chen Xiang used the Dao heart Eye to look at Fang Heng's furnace.

He used water and fire refinement to refine all the medicinal ingredients extremely quickly. Although he had observed for a while, in the end, he still caught up to Fang Heng.

At this time, Fang Heng had also made progress. Using the Dao heart Eye, he could see that there were three batches of medicinal liquid slowly gathering in Fang Heng's pill furnace.

"Is that the Mysterious God ability?" Chen Xiang looked carefully, and noticed that it was a light red light, and in order to look more carefully, he even stealthily released a bit of his divine soul and used the power of space to infiltrate it.

His wisp of divine soul was extremely weak and would not disturb Fang Heng from concocting pills, but it would let him understand the situation inside the opposing party's furnace more clearly.

"This is ..." Chen Xiang was ecstatic, he suddenly understood why the three clumps of medicinal liquid required the so called "Mysterious God Power" to gather together.

The strange divine power that Fang Heng was using was the Counter Power that he was very familiar with!

For some reason, the three medicinal liquids were mutually exclusive. No matter what, they could not be fused! However, if they were to use Counter Power, they would initially reject each other, and they would then become attracted to each other.

"Haha, I understand!" Chen Xiang was ecstatic, he did not think that it would be so easy to overcome this difficulty, it did not even require a bit of effort.

Although he was happy, he still had doubts in his heart. Why does the Fang family know about this Counter Power?

He urged the Counter Power in his body to enter the three lumps of medicinal liquid. As expected, the three lumps of medicinal liquid did not need him to condense them, they all sucked on each other, gathering together with confidence.

The moment it gathered, Chen Xiang felt a very violent power. At the same time, it also erupted with a strong white light, causing the pill furnace to shake violently!

B000M!

Chen Xiang did not expect such a sudden change. Before he even had the chance to control it, the ball of liquid medicine that had just merged burst open!

The furnace exploded again!

No one was surprised at all, Fang Heng even revealed a smile, although he had seen too much of this kind of thing, but seeing that Chen Xiang had gone crazy with happiness, he was extremely happy in his heart.

Chu Hongqing could only sigh, now that Chen Xiang only had one chance, if he failed again, in the period of time that he had left, he would have to help the Fang Family refine Yaoge Dan.

It had only been an hour, and under normal circumstances, it would take at least two hours for a Fang Family disciple to refine a cauldron of Qiyuan Dan.

Everyone felt that Chen Xiang would lose in less than two hours!

Chen Xiang was thinking about why the furnace had exploded just now, and the replayed sequence of events continuously replayed in his mind. He slowed down the process and carefully analyzed it, in order to find out the reason.

The time limit was six hours, which was still more than enough for Chen Xiang.

Unknowingly, Chen Xiang had already pondered for more than an hour. At this time, Fang Heng also opened his pill furnace and took out two Qiyuan Dan s, their quality was top-notch.

All of the Alchemist present were full of envy. They all knew that the value of this Qiyuan Dan was much higher than that Yaoge Dan.

Chen Xiang also looked at Fang Heng's Qiyuan Dan, it was white, he felt that he was about to succeed too. He could already gather all of them, but he did not know what went wrong.

Chen Xiang only had a portion of medicinal ingredients left, and seeing that he was still thinking, everyone started to urge him.

"Hurry up and start, or you can just admit defeat and dilly-dally!"

"A pointless struggle!"

can't do it, it's normal that you can't do it, no one will laugh at you! It's not a bad thing for young people to fall down a lot. "

Chen Xiang suddenly said: "I can refine ten Yaoge Dan in one furnace, but Fire Reverent School Leader cannot! So what he can't do, it's not necessarily something I can't do either. "

Chen Xiang's words made him speechless!

He was right, because it was not luck but strength that allowed him to concoct ten Yaoge Dan s in one go. He definitely had a very unique pill refining technique, which was why he was able to reach such shocking levels.

Yu Yan said: "Fang Heng being able to refine Qiyuan Dan is not that amazing. Even the Fang family knows how to refine, they can't possibly just say that he has good pill refining skills, right? Even the Fire Reverent School Leader could not refine Qiyuan Dan. Could it be that Fang Heng was stronger than the Fire Reverent School Leader? Fang Heng only did so because he possessed the special power of the Fang family. "

"But my Younger Brother Shen is different, because he succeeded under very fair conditions, not like Fang Heng, who relied on his own special kind of God Power, and he has also refined Qiyuan Dan for many years, now that he has refined two, he is full of pride. I really can't see what's so special about him, his ability is just that!"

Fang Heng was so angry that his face was flushed red. He was, after all, a small celebrity, yet he was belittled in front of so many people. Furthermore, he did not know how to refute, as it was equivalent to slapping his face.

"What is it? Are you unconvinced? Even if Younger Brother Shen loses, it's just because he was tricked by you and your father. Although you guys won, other than obtaining the one hundred million Jade money, are you guys trying to touch your own conscience and ask yourself, did you win in terms of glory? Right, you all should have no conscience, right? "

Many people immediately cheered for Yu Yan's words. After all, the Fang family's father and son were intentionally scammed by Chen Xiang, and at this moment, even the Fang family's father and son did not say anything.

"If my Younger Brother Shen knew how to use your strange dao powers, this Qiyuan Dan would definitely be able to refine four pills." Yu Yan said again, he was cheering for Chen Xiang, but at the same time, it was because he was feeling displeased when he saw how pleased Fang Heng was with himself.

Chen Xiang suddenly laughed: "No, I think I can at least refine five pills!"

Fang Heng snorted: "Then you must at least refine one. Our Fang family's ancestors can only refine three pills at most, and not a single one of them can be refined by the Fang family."

"What is it? Shall we add some stakes now? " Chen Xiang laughed, if he was a person who was familiar with Chen Xiang, he would have rejected him immediately, all those years ago, Chen Xiang had tricked many people.

It was just that no one here knew that Chen Xiang had once used such underhanded methods on the dead, and that this was one of his most common moves.

"Do you really think you can refine it?" "You've failed twice ..."

Before Fang Heng could finish, Chen Xiang interrupted him and said: "With the two hundred million Jade money, do you dare?"

Fang Heng looked at Fang Daiqi, and this was decided by his father, who also hesitated for a moment before saying: "Alright, let's go. I want to see how you refine five Qiyuan Dan s! If you can really refine it, then I will spend money to broaden my horizons. "

#### [Chapter 2389](#)

Fang Daiqi looked at the crowd. He knew that if he reneged on the debt, it would definitely affect the Fang Family's reputation, and he didn't have that many Jade money in his hands.

"I'll have someone send it over right away." Fang Daiqi said in a heavy voice. He had already thought of a way to convince the Fang Family and he himself would have to sacrifice a lot of things in order to obtain these two hundred million Jade money.

Fang Daiqi took out the Communication jade Symbol paper and passed the news back to the Fang family. For him to be so sure that the Fang family would deliver this information, it must be because of some exchange, since he also had a high position in the family.

After the Fang family found out about this, the entire Fang family was shocked.

The Heavenly Dao Auction held by the Fire Reverent School had already gathered many powers, so it was spread very quickly. Basically, the big families of the Fire Tao Divine Place knew about it, and while they were shocked, they also took pleasure in it. Although these families had a good relationship on the surface, there were quite a few conflicts in the dark.

This competition caused Chen Xiang's reputation to once again reach a new height. Chen Xiang had long since gotten used to it, but what made him excited was that he had obtained the Qiyuan Dan's pill formula. In the future, he would be able to refine these Qiyuan Dan and earn a large amount of Jade money s.

Right now, Chen Xiang also did not know what to do with the two hundred million Jade money.

Very quickly, an old man walked in and handed Fang Daiqi a Storage bag. Although he did not say anything, he must have talked to Fang Daiqi secretly.

Fang Daiqi took out twenty jade plates from the Storage bag and said: "Although these are not Jade money, but you can exchange for Jade money from the three great native bank s of Fire Tao Divine Place."

Chen Xiang took the jade plates and looked at them. These were all specially made jade plates and were hard to copy, one was worth ten million Jade money s and the other 20 were worth two hundred million.

"It's true." Chu Hongqing took it and looked at it, and said.

"Hongqing, when you have time, take it out and trade it with the native bank." Chen Xiang said, then he handed over all the jade slips in his hands to Chu Hongqing.

By giving the Jade money to his servant so casually, it could be seen how good of a relationship Chen Xiang had with Chu Hongqing, but thinking about it, it was pretty normal. After all, they only had the Master-servant Contract, so Chu Hongqing did not dare to betray Chen Xiang.

Fang Daiqi had calmed down as well. What made him puzzled was how Chen Xiang was able to refine Qiyuan Dan s, and even five of them.

The most important thing about Qiyuan Dan was their Fang family's mysterious Dao Divine Powers. Only by cultivating their Fang family's special techniques could they condense them.

Fang Daiqi couldn't understand, so he could only find out by asking.

"You haven't reached the Dao Yuan realm, and don't have it, but you can use the flesh of a savage beast instead. However, you can't use the Mysterious Dao's divine power, so how did you do it?" Fang Daiqi asked.

Right now, he had more than just losing two hundred million Jade money. If he really lost these Jade money, he wouldn't have to worry about it.

However, he allowed the Fang family's Qiyuan Dan's pill formula, which they had earned so many years, to leak out, and this was what he was more worried about. If the Fang family's elders were to blame him, he would definitely receive a heavy punishment.

"I don't know, I just used my alchemy skills to solve the problem." Chen Xiang smiled faintly, he guessed that the Fang family's grasp of the Counter Power was not very high, it was only a little bit, in terms of refining pills, that was enough.

He had devoured many Counter Power s, so he could cultivate on his own. His body had also merged with the Counter Power, and if he needed, he could transform the Six Realms' Power into a Counter Power.

Seeing Chen Xiang being so proud, Fang Heng felt upset. Especially when he remembered that Chen Xiang not only had a delicate Chu Hongqing by his side, but he had also won over two hundred million of their Jade money s, and even obtained the Qiyuan Dan 'medicinal formula, he was so angry that he wanted to spurt blood.

"Don't be happy too early, be careful." Fang Heng said in a low voice.

"What, I defeated your Jade money, but you all still want to take revenge on me? Is that what the number one Dao family in Fire Tao Divine Place is like?" Chen Xiang sneered.

"Hmph, I told you to be careful and not sell your Qiyuan Dan without permission, or else you will have to bear the consequences ... .." Fang Heng wanted to say more, but was pulled out of the shop by Fang Daiqi.

Qiyuan Dan was a pill that allowed the Fang family to earn many Jade money over the years. The reason the Fang family was able to become the number one family in Fire Tao Divine Place was all because of this Qiyuan Dan.

The Qiyuan Dan was only known to be refined by the Fang family, and although their uses were great and their prices were expensive, there were still many people who bought them. Currently, there were already people who could refine them, and if the price was lowered, it would definitely affect the Fang family's Qiyuan Dan sales.

"What's going on with the Fang family? Didn't that guy say it himself? I can sell Qiyuan Dan s." Chen Xiang shook his head and laughed.

"Lad, if you really touch their interests, they will kill you even if they don't want your reputation." Yu Yan's face became gloomy: Be careful.

"I will." Chen Xiang nodded, and then walked upstairs with Chu Hongqing.

Although Chen Xiang did not refine pills for him, but because Chen Xiang was here, Lv Ying's shop was extremely lively. This period of time was the best period of time for him to open the shop.

Chen Xiang sat on a chair and looked at the Qiyuan Dan in his hands while grinning: "Hongqing, how many low-grade heaven stage Qiyuan Dan s are there?

"What about a thousand Jade money? It's quite expensive. It's the most expensive low-grade Heaven-ranked pill." Chu Hongqing said: "You aren't thinking of selling the Qiyuan Dan in bulk are you?"

A thousand Jade money was indeed very expensive. Chen Xiang remembered that the difference between the two was huge for a Yaoge Dan of only eighty.

"I don't have any plans yet. Let me use those two hundred million Jade money for a long time." Chen Xiang laughed: "Hongqing, eat one and see how my Qiyuan Dan will compare to the Fang Family's."

"You can tell that it's much better than the Fang family just by looking at it. If you want to sell it, you don't have to lower the price. It's even more popular than the Fang family's." Chu Hongqing said, and she ate one as well.

"As expected, it's much better. Usually, it's better to only eat the first three stages of Dao Yuan realm." Chu Hongqing licked her lips, looking very charming.

Chen Xiang said: "Bring the Jade money out, I'm worried that there might be some problems inside."

Chu Hongqing said: "You don't have to worry about that, the three great native bank s are all very trustworthy, and if you put them in there, you will receive very good treatment when you go to the native bank."

Chen Xiang nodded his head, "I will listen to you, Hongqing. I can now participate in the Heavenly Dao Auction."

Yu Yan had mentioned it to him before.

"Sure, Leader said he won't make things difficult for you ... You don't have to worry, with me here, he won't do anything to you." Chu Hongqing laughed: "Oh yes, how did you refine a Qiyuan Dan, you are truly too amazing. Back then, Leader had closed up many times just to refine this Qiyuan Dan, but he was unable to. You are truly a strange person, you can always do things that others cannot, and you can even do them very easily."

[Chapter 2390](#)

Chen Xiang trusted Chu Hongqing a lot, not only because he had his own Master-servant Contract, but also because of the feeling he had with Chu Hongqing. Therefore, he had decided to give Chu Hongqing a little gift as well.

"Hongqing, you must have refined Qiyuan Dan many times." Chen Xiang asked, seeing Chu Hongqing nod his head, he asked again, "Are they all stuck at the stage where the three medicinal liquids are unable to fuse together?"

"That's right. It's not just me, all of the other Alchemist in the Fang family are unable to progress at this stage. The Fang family also told us that we need the Fang family's Dao Spiritual Force to reach that stage." Chu Hongqing said, "Leader has tried all kinds of methods, but to no avail."

Chen Xiang laughed: "I coincidentally have the Fang family's so-called Mysterious God Force, that kind of power is indeed strange, and being called the Mysterious God Force is not an exaggeration. Back then, it was by chance that I obtained it."

Chu Hongqing said in shock: "So that's how it is, no wonder you succeeded, I thought it was because you used your powerful pill refining skills."

Chen Xiang chuckled, took out a transparent pearl and poured it inside the Counter Power. The pearl slowly turned red.

If you leave the pearl, it will become transparent. If you fuse the blood with this pearl, even if that power leaves the pearl, you will be able to sense it, and you will also be able to control it. You only need to draw a little of it each time, and it will be enough for you to use the three globes of medicinal liquid. Chen Xiang handed the pearl over to Chu Hongqing.

"Can I really refine it too?" Chu Hongqing was ecstatic, and quickly took it. She was also a Alchemist, if she could concoct a pill that she had not been able to concoct for many years, she would feel a sense of accomplishment.

Sometimes, the Alchemist did not refine pills for the sake of eating, but for the joy of producing pills, especially those that were extremely difficult to refine.

"Right, do you have any Qiyuan Dan's medicinal ingredients?" Chen Xiang asked.

"In the past, the Fang family gave us quite a bit of money, but we've lost it all in these past few years, and the Fang family didn't give it back either. Now, if I go and ask them for it, they definitely won't give it back, and it seems like only the Fang family can grow those herbs." In the past, the Fang family gave us quite a bit of money, but we've lost all our money in these past years, and the Fang family hasn't given it back. Chu Hongqing said.

"You don't have to worry about that, I have a way." Chen Xiang had already anticipated this problem, so he had pretended to fail before and moved the Qiyuan Dan's ingredients away.

The total Life-Killing Divine Deity of Chen Xiang's first and second Divine Sense Sea were about two hundred, and the purple pearls he condensed out also had a very strong replicating ability. He only used ten Life and Death Pearl to make a copy of the medicinal ingredients, and because there were Six Realms God Cup s present, he discovered that if he placed the purple pearls inside the Six Realms God Cup for a period of time, the replicative ability would increase even more.

"Here, go and have a try." Chen Xiang quickly copied a portion of it from the ring and gave it to Chu Hongqing.

"Where did you come from ..." The moment Chu Hongqing asked that question, he immediately thought of the first time Chen Xiang detonated a furnace, and knew that it was Chen Xiang who had moved it away at that time.

Chu Hongqing received the medicinal ingredients and smiled coquettishly: "No matter how I look at it, you don't look like an inexperienced brat from the depths of the mountains. You look like a cunning fox."

Chen Xiang laughed, and pinched Chu Hongqing's jade face: You can finally see it, you're still young in my eyes, little girl.

From the moment the Fang family's father and son were cheated so badly by Chen Xiang, Chu Hongqing could already tell.

"I'm going to refine some pills." Chu Hongqing ran into the secret room.

Chen Xiang looked at the Qiyuan Dan and said: "Are the Qiyuan Dan useless against the Dao Ti realm? I'm now at the first level of the Dao Body.

He did not know a thing about cultivation in the Heavenly Dao Realm. When Chu Hongqing came out, he would ask him for some advice.

More than two hours later, Chu Hongqing came out. Looking at her expression, one could tell that she had succeeded in refining it, she had refined it many times before, but all of them were stuck in one place. Now that she had passed that step, it was normal for her to succeed in one furnace.

"Success." Chen Xiang asked with a smile.

"Yes, it's just that I only managed to refine two pills." Chu Hongqing passed Chen Xiang two Qiyuan Dan s: "There's a difference in quality."

"Of course, you're my servant girl. It's normal for there to be a gap between us." Chen Xiang laughed.

The Heavenly Law Auction is about to begin, when the time comes, I will inform you to come, and if you go, it will only be to compete with those guys in refining pills, but I heard that the Leader will especially change the rules for you, I am not very clear on the specifics, although this guy said that he won't make things difficult for you, but in his heart, he is still very unhappy with you. Chu Hongqing said, and poured Chen Xiang a cup of tea.

"There's nothing to be afraid of." Chen Xiang laughed: "As long as you promise me that you won't kill me."

"Of course, I will die even if you die." Chu Hongqing laughed.

"Hongqing, I'm already at the first stage of the Dao Body Realm, what do I need to do next? I don't know much about this." Chen Xiang said.

Chu Hongqing was a little surprised. She thought Chen Xiang was very good at cultivation, but didn't expect him to actually ask her.

"When I'm cultivating, it's basically the same as before. Cultivating two Divine Sense Sea s with a powerful fleshly body is basic. Other than this, the more difficult part is comprehending Natural Law Principles." Chu Hongqing said, then opened up her jade palm, and ten strange lines gradually appeared on her palm.

If you gain enlightenment on a Dao mark, you will be able to obtain even more powerful Dao Force, which is Heavenly God's divine power. The owner has to use the Divine Sense Sea World to comprehend it for himself, which is when you step into the Dao Ti realm. Chu Hongqing said, "Stepping into the Heavenly Dao Realm, the use of cultivation techniques only increases the strength of one's physical body and powerful Divine Sense Sea s. Their physical bodies and Divine Sense Sea are strong enough, so comprehending Dao marks would be easier."

Chen Xiang held Chu Hongqing's jade hand. Looking at the ten lines of marks on top that resembled Spirit grain s, they indeed carried a certain charm within, and was naturally formed.

"What kind of law is this Dao mark?" Chen Xiang asked.

"These are all Dao marks of fire. When you use one Dao mark in battle, you will be able to release a very strong flame energy. If you combine the two, the power will be different and you will also be able to use different combinations of Dao marks to release different flame energy." Chu Hongqing said: "My main task is to refine pills, so I have to go and comprehend the Dao mark of fire. You should also do the same."

"Probably." This was also the first time Chen Xiang had seen this mark, and he felt that it was very mystical. Right now, he was not sure of the direction of his mark, because he would need to use spatial energy frequently.
