

Dan God 2411

[Chapter 2411](#)

Chen Xiang did not consume much energy if he was to fill fifty Energy Gathering Pearls with Counter Power and he was only able to do it in a moment's time. It was very easy for him but this way, he could exchange for a hundred portions of Dao mark Dan's medicinal herbs.

Chu Hongqing never thought that Chen Xiang would actually be able to cooperate so happily with the Spirit Demon race. Furthermore, Chen Xiang had gained a lot of benefits from this cooperation.

"Elder, not good! The Fang family's people are here!" A teenager shouted as he knocked on the door.

"I knew they would come. There's nothing to be afraid of." This elder was not weak either, he said to Chen Xiang: "Do you want to go watch the show?"

"Of course!" Chen Xiang laughed, then turned into the appearance of a middle aged man and followed Elder Shi out.

The Tree Elder did not know the reason why Chen Xiang had become the real enemy of the Fang family. Most people only thought that Chen Xiang had threatened the Fang family because he knew how to refine Qiyuan Dan, but they did not know that Chen Xiang had once been trapped by the Fang family's powerful seal.

Chen Xiang followed Elder Lu to the bottom of the big tree, and saw the Fang family's people, the father and son duo of Fang Heng and Fang Dai Qi were actually also here.

"Your Fang Clan actually has the face to come. You've once killed a lesser demon of our Demon Clan. This debt has yet to be settled with you." Elder Shi's face was ice-cold as he said angrily.

"Since we dare to come, we naturally aren't afraid of you demi-humans. If your Treant Emperor doesn't come out, you'll only have that bit of ability." An old man from the Fang family sneered.

Hearing that, Chen Xiang's heart turned cold, this was one of the three elders who sealed him last time, he had already intended to kill, if not for him restraining his killing intent, it would have already been exposed.

"Don't be complacent about your Fang Clan. When we, the Tree Emperor, come out, it will be a day of great calamity for your Fang Clan." Elder Tree snorted: "What business do you have here? If you have nothing to do, then hurry up and f * ck off.

Moreover, our Fang family has never allowed you to sell it. If you don't want to cause too much trouble, you should know what to do. "Ling Chen said." Alright. The Fang family elder said, "This is a rule that everyone follows. You demi-humans should also be clear about it."

"Our Qiyuan Dan was sold for Chen Xiang. I remember that you promised Chen Xiang that you could refine it and sell it, so we didn't violate the rules!"

Before this, they were not sure that Chen Xiang was the culprit. After all, Chen Xiang was only him, so he could not refine so many Qiyuan Dan. However, they still believed that Chen Xiang must have cooperated with the demon clan and told them the secret of the Qiyuan Dan.

"We don't believe you. Call Chen Xiang out and have him admit it in front of his face. Furthermore, we still have something we want to confirm." The Fang family's elder said.

While Elder Mu was thinking of a countermeasure, Chen Xiang, who was in the form of a middle-aged man, suddenly spoke: "Clan Elder, I'm going to call Master Shen out!"

Not caring about the reaction of the Tree Elder, Chen Xiang ran into the big tree's cave and changed back into his own appearance before walking out.

Seeing Chen Xiang, the expressions of Fang Heng, his father, son, and the Fang family elder changed, filled with anger and killing intent.

"I understand now, those Qiyuan Dan were all refined by me. I let the demon race help me sell them, there's nothing wrong with that right!" Chen Xiang smiled.

"You can sell the Qiyuan Dan, or the Goblin Tribe can help you sell it. However, you cannot do so without the consent of our Fang Family. There were so many Qiyuan Dan on the market, it was impossible for you to refine it yourself, it was only for such a short period of time." The Fang family's elder said angrily.

"Oh? I was the one who discovered the Qiyuan Dan's secret, why can't I spread it?" Chen Xiang asked.

"This is the rule, because the Qiyuan Dan's pill formula is ours!" The Fang family's elder said coldly, "Clearly, you have already violated the rules. Within this region, you will be wanted."

"Don't you guys slander me with your blood. I didn't break the rules, and those Qiyuan Dan were all refined by me." Chen Xiang said.

"Impossible, it's only been a few months, and you can refine three to four thousand pills? Our Fang family has so many alchemists refining, but we only get a thousand of low-grade Heaven-step pills in a month!" The Fang family's elder snorted: "I know that Treant Tribe has many outstanding alchemists, and they also specialize in growing medicinal herbs. Furthermore, they also sold Qiyuan Dan, so you must have passed down the Qiyuan Dan's secret technique to them."

Chen Xiang laughed: "Just because you can't do it, doesn't mean that I can't! I would like to ask you guys, how long is the fastest time you can refine a cauldron? "How many pills can you produce?"

"I can refine one furnace in two hours, and produce five pills in ten hours a day, which is equal to fifty pills a day. I can refine 1500 pills a month, is that not enough?" Chen Xiang laughed: "If your Fang family uses force, every month, you would not only refine a thousand pills, you refine so little, just to control the value of the Qiyuan Dan, the lesser the price, the more expensive it will be, right?"

"But... From the many Qiyuan Dan we bought, we can see that all of your Qiyuan Dan were refined within this month, and you can only refine three to four thousand of them in a month. The Fang family's elder said.

Many people came over, the humans who came to Demon Forest were all here to buy Qiyuan Dan s, they knew that the monthly sales here was more than the Fang family, and was also cheaper, so naturally they all gathered here.

Chen Xiang looked at his surroundings, and laughed: "There are so many people here today, then I will demonstrate how fast I can create Qiyuan Dan, and prove that I can refine all of them."

"Fine, I want to see how you prove it!" The Fang family's elder snorted.

"In order to ensure that I don't do anything, how about using your Fang family's medicinal ingredients?" Ten portions! " Chen Xiang said.

"Take it!" That Fang Family elder was also worried that Chen Xiang would mess with him, so he immediately took out ten batches of low-grade Heaven Stage Qiyuan Dan s and threw them at Chen Xiang.

After Chen Xiang received it, he immediately released the ten Illusory Treasure Furnace, threw it in the beast meat, and then started to refine it!

A faint glow appeared in the ten Magic Treasure Furnace. Next, everyone saw an unforgettable scene in their lifetime ... Chen Xiang was actually refining ten batches of Qiyuan Dan at the same time!

They stared blankly at the changes in the furnace. First, the medicinal herbs turned into a medicinal liquid, then they quickly mixed together and separated into three balls, condensing into three Qiyuan Dan s!

Ten pill furnaces. Every cauldron had three pills, meaning thirty pills. This hour had not even passed!

Everyone was stunned, just when they were in disbelief, Chen Xiang had already taken out the Qiyuan Dan!

"How is it? It shouldn't be a problem for me to refine three to four thousand pills a month, right? " Chen Xiang threw the thirty pellets of Qiyuan Dan over. "Take a look and see if this was just refined a moment ago."

No one caught the Qiyuan Dan and it fell to the ground, because the people from the Fang family were all stunned by what they had just seen!

It was not only the Fang family, even the Spirit Demon alchemists like Elder Lu and the others were all shocked by Chen Xiang's amazing pill refining skills!

[Chapter 2412](#)

Chen Xiang only refined three pellets per furnace so that the Elder Tree would not know he had taken too many, but even so, it was still very shocking.

They never thought that Chen Xiang would actually have such a high level of alchemy skills, being able to refine ten batches of pills at the same time. This was the highest quality of their Alchemist, if they were to focus on refining for a few months, as long as they had enough medicinal ingredients, they would be able to refine a lot more Qiyuan Dan than their entire Fang Family.

Right now, the Fang family felt even more threatened by Chen Xiang. If Chen Xiang could do the same to them when he was refining high and middle grade Heaven Stage, then their Fang family would be in even more danger.

Of course, Chen Xiang was the most skilled at refining with his eyes, he could concoct one furnace in an instant.

"You guys saw it just now. I can refine a lot of Qiyuan Dan by myself." Chen Xiang said. He did this so that the Elder Tree would no longer need to be bothered by the Fang family in the future.

Now that Elder Tree had finally seen how Chen Xiang concocted pills, he felt more at ease and happy about working with Chen Xiang.

The Fang family's elders could not say anything at this point. Originally, they had planned to come here and cause a ruckus, but they did not expect such a thing to happen.

"Let's go." The Fang family's elders were furious, and quickly left with their men.

At this time, the Fang family knew that Chen Xiang was determined to take revenge on them, which was why he had cooperated with the Spirit Demon race, and that the Spirit Demon race also had enmity with the Fang family.

Otherwise, the Fang family would not have come looking for them. Chen Xiang and Elder Tree looked at each other and smiled, then returned back to the big tree.

"Little brother, I really didn't expect your alchemy skills to be so profound, much more so than I imagined." The Elder Tree chuckled, then handed over a Storage bag to Chen Xiang and said, "This is over a hundred sets of King Stage lower tier Qiyuan Dan. This King Stage Qiyuan Dan is extremely expensive."

"Oh, what's the usual price?" Chen Xiang asked. King Stage Qiyuan Dan s were extremely useful to many people with high cultivation.

"A million Jade money. Usually, it's only the Fang family's minority who come out to auction." Elder Tree said: "If you can refine a hundred pellets, I will pay you back with five hundred thousand Jade money." Elder Tree said: "You should refine this kind of high level Qiyuan Dan. I'm worried that if we refine it, we will expose ourselves and the Fang family will see through us."

"Alright." Chen Xiang nodded. He felt that if he were to refine it himself, these hundred portions of medicinal ingredients would not only be able to refine a hundred pellets, there would definitely be a lot more of them.

Chen Xiang entered the secret room and immediately started refining the pills. He gave Chu Hongqing more than ten portions of the ingredients to try.

The Three lotus Dan that Chen Xiang had refined before was of a very high level, and he had refined so many Qiyuan Dan before, so it was very easy for him to learn how to refine low rank king level Three lotus Dan now.

It took him six hours to produce one furnace and five pills.

"A low rank king realm Qiyuan Dan is indeed quite difficult." Chen Xiang laughed: "But after getting used to it, it will be completed very quickly."

Chu Hongqing was not as fast as Chen Xiang, she was still concocting.

"Hongqing, what realm are you at now? The Qiyuan Dan is of great use to you." Chen Xiang asked.

"Right now, I am at the seventh level of the Dao Dan realm. The first major stage of the Heavenly Dao Realm is the Dao Ti realm, the Dao Yuan realm and the Dao Dan realm." Chu Hongqing said: "Qiyuan Dan are still rather useful to me, especially this kind of high level Qiyuan Dan, because Dao Dan realm still needs to cultivate."

Chen Xiang nodded his head. Right now, he had only just stepped into the Dao Ti realm, so he needed to cultivate till there were ten marks on his body before he could enter the Dao Yuan realm.

"You should be able to enter the Dao Dan realm very quickly. If you can refine Dao mark Dan, with its help, you can easily comprehend the ten Dao marks, and the Dao Yuan realm is even easier as well. The Qiyuan Dan can very easily let you cultivate and produce a strong Daoyuan immortal power." Chu Hongqing said: "The most difficult part is the Dao Dan realm, when you reach this realm, you will understand."

Fang Heng was at the peak of the Dao Yuan realm and he still could not step into the Dao Dan realm no matter what, so he could tell from this.

"As long as enough Jade money are present to purchase the Qiyuan Dan, the Dao Yuan realm will quickly reach the great perfection stage." Chu Hongqing continued: "Right now, you need to cultivate Dao marks. Of course, don't think that the Dao Dan realm is already very strong, since there are still many realms above the Dao Dan realm."

Of course, Chen Xiang understood. He asked, "What are the realms of the Fang family's elders?"

"They are all experts at the Great Circle of the Dao Po realm and have been stuck at the Dao Po realm for many years. After the Dao pill comes the Dao Po realm, and every step forward is extremely difficult." Chu Hongqing said: "That would require a very long time to finish."

"It seems that the Dao Ti realm and the Dao Yuan realm in front are very easy, but the Dao Dan realm and the Dao Po realm at the back are very difficult." said. As long as he could wait another month, he would be able to obtain the Dao mark Dan s and herbs that the Tree Demoness had helped him cultivate. By that time, as long as he could refine them, he would be able to step into the Dao Yuan realm very quickly.

"Hongqing, is there anything special about the Dao Dan realm?" Chen Xiang asked again: "The Dao Ti realm cultivates a Dao mark. The Dao mark possesses a very strong power, and the Dao Yuan realm can be used to cultivate and produce a Daoyuan immortal power. When the Daoyuan immortal power is used in combination with the Dao mark, it should also be very terrifying, right?"

"The Dao Dan realm mainly condenses a dao core. This dao core is a single source of power, everyone can only condense one. The dao core can make the dao energy stronger, but the most obvious thing is that when the Daoyuan immortal power is activated by the dao core, it will obviously improve." Chu Hongqing knew that Chen Xiang did not know much about cultivation, so he patiently explained: "Of course, when the Dao pill is used with the Dao Soul, it will be even more powerful."

"Doesn't that mean when the time comes, Divine Deity will condense into a dao pill? Usually there will be two Divine Sense Sea s and two Divine Sense Sea s will condense their Divine Deity into a dao pill." Chen Xiang asked.

"Yes, the Divine Deity will condense into a Dao-Core and the Bones will condense into a Dao-Soul. You'll know when the time comes." Chu Hongqing said.

Chen Xiang nodded his head. This was still a bit far away from him, he continued to refine lower tier king level Qiyuan Dan s.

Very quickly, a month had passed. When Chen Xiang came out of the secret room, the Elder Tree found out that he had come out, and hurried over to see him.

"These are the ingredients for a hundred Dao mark Dan s." Elder Tree passed the medicinal ingredients to Chen Xiang: "Take a look, I'm not satisfied."

"Very satisfied." Chen Xiang laughed and then handed a hundred low-grade king level Qiyuan Dan over to Elder Tree. Elder Tree took a look at them and paid him with the Jade money.

Chen Xiang refined a total of three hundred and fifty low-grade king level Qiyuan Dan s. He kept two hundred and fifty of them, and after giving Elder Tree fifty Energy Gathering Beads of the Counter Power, he chatted with the Elder Tree for a while, then went to the secret room to refine pills.

[Chapter 2413](#)

had seen many different kinds of medicine, but this was the first time he had seen one like the Dao mark Dan. This was because the three kinds of Dao mark Dan's medicine were all round, small fruits that were black, white, and transparent.

The strangest thing was that these fruits had Spirit grain s on top of them, and using Chu Hongqing's words, these fruits all had natural Dao marks.

However, the Dao marks on the black, white and and transparent fruits were completely different. also did not understand what the Dao marks on the fruits represented, and what Chu Hongqing did not know, was that the three fruits could refine Dao mark Dan s out of them.

Chen Xiang had seen the Dao mark Dan's pill formulas, Chu Hongqing had also seen it, and the two of them had even discussed what they should take note of when refining it.

"It seems that the most complicated part is the fusion of the Dao marks. I can't believe that a thousand Dao marks would form a complete Dao mark by connecting them together." Chu Hongqing said: "Just thinking about it makes my head hurt, no wonder this Dao mark Dan is so expensive, it can be sold for three million Jade money s per pellet."

"Is it really that expensive?" Chen Xiang did not expect that, because 3 million Jade money was a huge number for the majority of the people. Forget about Yu Yan and Lv Ying, just based on the fact that Chu Hongqing had a good position in Fire Reverent School, it would be difficult for her to take out that many Jade money.

Although she was a Alchemist, she did not have a large amount of medicinal ingredients to refine, so she could only be controlled by others. Thus, she was very envious of the Alive Slain Method, which meant that there would be an unlimited amount of medicinal ingredients.

Back then, I did not eat Dao mark Dan s, but there were many examples to prove it. As long as you eat Dao mark Dan s, the condensing of Dao marks is extremely fast, and the fastest is to eat one to form a Dao mark. Of course, these are all for those who have cultivated their Dao Body at a young age. Chu Hongqing said.

Once you finish cultivating the Dao Body, you will eat Dao mark Dan and step into the Dao Yuan realm. Then, you will eat Qiyuan Dan and quickly cultivate to the Great Perfection Stage. Chen Xiang said.

"That's right. Back then, I had to use my own time concocting pills to improve myself." Chu Hongqing said.

"Hehe, if only you knew me earlier." Chen Xiang laughed.

"Pill refining? I don't know when I'll be able to finish it. Back when Huang Tian closed up for a few months, he only managed to refine one or two pills. It's not easy at all." Chu Hongqing sighed.

Of course, Chen Xiang would not go according to the pill formulas. If he went along to refine the pills, it would take a lot of time, especially so to link all the Dao marks together. There were over a thousand of them, and he would need to connect them with the corresponding pill formulas one by one.

Therefore, from the very beginning, Chen Xiang had already used the Original source refining to try, but he did not succeed. The Dao marks did not have any obvious patterns, if he randomly tried to connect the Dao marks to them, it would cause the medicinal liquid to go crazy, and explode at the end.

Chu Hongqing didn't know much about Heavenly Alchemy, so she combined it with the methods of Heavenly Alchemy and started to refine according to the instructions of the pill formulas.

Because Chen Xiang understood the Heavenly Alchemy, he would find a way to solve this difficult problem from the Heavenly Alchemy. It was like this for many years, where he only used the Heavenly Alchemy to take many shortcuts.

"The Alchemist who created the Dao mark Dan back then must have discovered some sort of pattern, so he knows how to arrange the thousands of marks. Otherwise, if he tried it in groups, who knows how many years he would have to try it out for, and he would even waste a lot of medicinal ingredients." Chen Xiang tried again to see what the rules were, but failed in the end.

"Oh right, there is a special method for refining Spirit grain in the Heavenly Alchemy. This mark has quite a lot in common with the Spirit grain, I wonder if I can try that method." Chen Xiang had only skimmed through this method before, but he had never used it before. However, he knew that this method was specially used to link many complex Spirit grain together.

This was after all, the Heavenly Alchemy, so it could be used to refine anything strange. He felt that this method was more useful in setting up arrays or in refining formation plates.

Chu Hongqing was currently very quiet as he focused on refining the Dao mark Dan.

Chen Xiang then began his third attempt, using the pattern refining method to refine, he began to refine the three fruits. After the fruit was refined, lines would appear on it.

"Tattoo Forging Technique." The trick behind Chen Xiang's technique was to release his own spirit sense and use the method in the technique to release his spirit power.

It was just that in the beginning, the thousand lines of marks inside the pill furnace started to dance about chaotically, causing the entire Chuangshi god furnace to tremble. Initially, Chen Xiang was very worried, but later on he could clearly feel that the marks were decreasing.

"It's getting smaller and smaller. Originally, there were more than a thousand marks, but now there are only more than 800. Could it be that they've all fused together?" Chen Xiang wondered in his heart. Until he succeeded, he did not dare to confirm whether it was a success or not.

"His speed is very fast. Did he succeed or not?" Chen Xiang wondered in his heart. Only four hours had passed, but there were only about two hundred marks on the pill furnace.

Another two hours passed, and only one Dao mark remained.

The recipe of the Dao mark Dan stated that if it was at this time, it would need to use an ingenious power to disperse this only scar.

Chen Xiang tried it and only saw the long scar turn into a pale white black Qi, which then fused into the medicinal liquid.

"Done." Chen Xiang didn't have any confidence so he could only continue to refine more pills.

"Four won't be a problem." Chen Xiang easily split the medicinal liquid into four clumps, and then formed four pellets. From start to end, he had only used eight hours.

"Hongqing, I succeeded." Chen Xiang chuckled: "Are Dao mark Dan like that?"

Chu Hongqing, who was initially focused on refining pills, immediately opened his eyes when he heard Chen Xiang's voice. He looked at the four white pellets on Chen Xiang's palm.

"Yes, you really refined it." Chu Hongqing was startled, and shouted in shock.

"Of course, you can refine it according to the pill formula, but it will take a long time. Are you still connecting to those Dao marks?" Chen Xiang laughed.

"Mm, I've already connected more than ten Dao marks. It's very difficult to connect Dao marks to Dao marks, and I don't know how long you'll have to refine them." Chu Hongqing asked.

Chen Xiang arrived in front of her body, and tapped the center of her brows with his finger: "You can be as fast as me."

Chu Hongqing also had the entire Heavenly Alchemy, and with Chen Xiang's guidance, she flipped through her mind and took out the Inscription Method, then used the Inscription Method to refine it.

[Chapter 2414](#)

Not long after Chu Hongqing started, she already felt the effects of the Inscription Method. It was much faster than the method she used before.

Chen Xiang said: "I'll try eating one first and see if it's really as powerful as the rumors say."

Previously, Chu Hongqing had said that eating a single pill could condense it into a line. He did not believe it, because the Dao mark required one to comprehend.

"Have you thought about what kind of Dao mark you want to form? If you need to form a Dao mark, then after you eat it, use the flame power to rush into your heart. That way, you will be able to form a Dao mark." Chu Hongqing said.

"I've thought about it." Chen Xiang needed two kinds of Dao marks now, the Spatial Dao mark and the Flame Dao mark.

Fire was his main cultivation method, and it was also of great help to alchemy. This was a Dao mark that he had to form, and the power of space was also of great help to him. It had saved his life many times, so it had to be there.

The Dao Ti realm could only create a total of ten scars, he planned to create five flame and five spatial marks.

"Hongqing, are all the flame marks different?" Chen Xiang asked again.

"Everyone's different, so there shouldn't be any repetition. The Dao marks are all different and strange, and vary from person to person." Chu Hongqing replied, "The power one possesses is also very different."

After Chen Xiang asked around, he immediately ate a Dao mark Dan and began to circulate the Flame power in his heart.

Not long after, he felt his body itch. It was as if something had suddenly appeared in his body, and he could not help but go grab at it.

"You have successfully formed a Dao mark. Try it." Chu Hongqing couldn't help but giggle when she saw Chen Xiang grabbing every part of his body like a monkey.

Chen Xiang closed his eyes. As expected, he felt the first scar in his body, one that grew within his body. At the same time, he also had a very close relationship with the Divine Sense Sea.

After he opened his palm, he saw what seemed to be a long sword shaped mark, on it were many small Spirit grains that formed a group.

"This is a Dao mark." Chen Xiang asked as he pointed his palm at Chu Hongqing.

"That's right, the Dao mark is just like that. You can give your own Dao mark a name." Chu Hongqing smiled and nodded.

"It looks like the shape of a sword, and it's also fiery red. Let me try it out first." Chen Xiang channeled the divine power inside the Divine Sense Sea into his body, and then poured it into the Dao mark.

He only felt his palm heat up, and then he placed his palm against a wall. A flame appeared in his palm, and countless flaming light swords shot out from his palm, all hitting the wall. Fortunately, he had only used very weak divine power, and the wall was also very firm, so it did not cause much damage.

"So powerful." Chen Xiang said in shock: "Just a tiny bit of divine power is already so powerful."

Just a moment ago, he was very satisfied because he had simply released so many fire swords that were very powerful. Then, he tried again and this time, he managed to form a very large sword. When the sword was about to pierce through the wall, he hurriedly retrieved it.

He was also able to retract his power with just a thought.

"This is an offensive Dao mark, and it's also very strong. This is quite rare." Chu Hongqing said somewhat enviously, "My Dao marks are all flowers, plants and little birds. Sigh."

"This is called the Path of the Fire Sword, is it really that rare to see an attack type Dao mark?" Chen Xiang asked.

"I rarely see anyone use it. Continue eating the Dao mark Dan and see what the next scar is." Chu Hongqing urged, she had not finished refining her Dao mark Dan yet.

Chen Xiang ate another Dao mark Dan and the speed at which he condensed the marks was indeed very fast. In a short moment, he succeeded, opening his palm and looking at his second mark.

"This is a Fire unicorn, the mark of the Qilin Dao." Chen Xiang said: "I don't know if it's the type of attack."

As he said that, he channeled his divine power, his palm facing the ground. A red light flashed and a palm-sized Fire unicorn appeared in front of him.

"It's so small, could it be because I'm using too little divine power?" Chen Xiang laughed as he used his divine hand to grab the Fire unicorn that was younger than Yue'er.

Chu Hongqing said in shock: "Isn't this the Heavenly beast, your Dao marks are all these powerful stuff, each one is more terrifying than the other."

After Chen Xiang grabbed onto the Fire unicorn, he shouted in shock, "This thing is actually real ...
"What's going on?"

Chu Hongqing said: "This is a beast type Dao mark, as long as you use your divine power, you can create a very realistic beast."

The scales on the little Fire unicorn's body were also very stiff. Then, with a thought, the little Fire unicorn disappeared, and he also felt a burst of divine power return into his body.

Now, Chu Hongqing was even more jealous, her face filled with hidden bitterness, because her Dao marks were all ordinary things, she also wished to have such a strange Dao mark.

Chen Xiang ate another Dao mark Dan. After his body started itching, it showed that he had successfully formed a Dao mark.

"What is it this time?" Chu Hongqing asked curiously.

"It's a bird. This is very ordinary, right?" Chen Xiang said as he channeled his divine power, releasing a small flame bird.

"This..." "This is no ordinary bird. This is a Vermillion Bird, and also a Heavenly beast. Why are your Dao marks so powerful? I am so happy to have a Dao mark like that." Chu Hongqing could no longer stay calm.

At this moment, her mood was like a gambler who had lost nine times in a row and had seen others win every single round. She felt extremely upset and wanted to cry, because once the Dao mark was cultivated, it could not be changed.

"There's one more." Chen Xiang looked at the little Vermillion Bird that was flying around, "What's next?"

Chen Xiang was not surprised by this, because his second Divine Sense Sea had a Qilin and a Vermillion Bird, these were all fire attribute Heavenly beast.

Chen Xiang was also very curious about the marks that would appear next. There were no longer any fire attribute Heavenly beast in his second Divine Sense Sea.

After eating his fourth pellet of Dao mark Dan, Chen Xiang refined the medicinal power, and waited expectantly for the moment the Dao mark appeared. Not long later, he felt his body itching, which meant that he had succeeded again.

Chu Hongqing also stretched out her neck at this time, staring at the center of Chen Xiang's palm. Even though she was jealous, she still hoped that Chen Xiang's fourth scar was as powerful as the one before.

"This is ..." "One eye." Chen Xiang looked at the eye pattern on his palm. This pattern was the same as the one before, formed by many complex Spirit grain.

"It's the first time I've seen a Dao mark that looks like an eye. Dao marks are truly strange. Let's see what's so powerful about it." Chu Hongqing exclaimed.

Chen Xiang felt that this eye could be related to the Bones that had congealed in his eyes. If the Dao mark was his eyes, then the effects of using it would definitely be very strange.

[Chapter 2415](#)

When Chu Hongqing saw the eyes on Chen Xiang's palm, she was also wondering what kind of use it would have. Not only had she never seen this kind of strange Dao mark before, but she had never even heard of it.

"I'll try." Chen Xiang channeled his Spirit power and released the eye-shaped marks. Facing the wall, the eyes on his palm suddenly emitted a weak white light, which was not a flame color.

The white light illuminated a wide area, but not long after, the area turned green and pale white.

Chen Xiang and Chu Hongqing could see many green and white ribbons of light appear in that area. They looked like a river flowing with some kind of energy.

Chen Xiang moved his palm and shone it on other places. It was the same thing, but when he shone it on Chu Hongqing's furnace, he could see that it was fiery red.

"This is the Dao heart Eye." Chen Xiang was shocked, and then, he also used the Dao heart Eye to observe his surroundings. Sure enough, it was the same as what his eyes had just seen from the center of his palm.

"It's really strange. It can restore the true form of energy." Chu Hongqing said.

Chen Xiang nodded his head. The Dao heart Eye indeed had such an effect, but he felt that it was definitely not that simple.

"No, this is not a fire attribute Dao mark." Chen Xiang used the eyes once again and channeled his divine power. This time, for some reason, his eyes actually blinked once, and in the blink of an eye, a terrifying flame suddenly rose from the place he had locked on to.

"There's spatial energy too." Chen Xiang said in surprise, "These eyes are the combination of space and fire."

Chu Hongqing was even more depressed. Why wasn't this strange and powerful mark on her body?

"Seems like there are many uses for it." Chen Xiang was now certain that these eyes were not only Dao heart Eye s, but also that special type of Bones in his eyes.

He immediately took out a set of low-grade Heaven Stage Qiyuan Dan medicinal herbs, and let his eye trace appear on his two palms. As he held the Qiyuan Dan's medicinal ingredients, his mind moved, and the eye trace on his palm immediately blinked, spitting out scorching flames.

The medicinal ingredients held by Chen Xiang immediately turned into five Qiyuan Dan s.

When Chu Hongqing saw it, he could not help but shout out. This time, Chen Xiang did not use the method of spitting out fire from his eyes, but used his hands to feel the medicinal ingredients, making them turn into pills, moving much faster.

"Sure enough." Chen Xiang laughed. He now understood that this was a fusion of the Dao heart Eye and the Bones in his eyes. Other than this, it was also a fusion of fire and spatial energy.

"Let's call it the God's Eye Dao mark." Chen Xiang laughed, and then, he placed his palm against the wall. Under his control, the divine eye mark on his palm opened, shining a gentle white light.

The walls that were shot by the white light started to show signs of impact. It was the big tree in the middle of the Demon Forest, and the angle of impact was looking down from the sky.

Chen Xiang increased his spatial strength and the image on the wall appeared in the sky above Fire Tao Divine Place. He could see the bustling city center.

"Is this the power of space?" Chu Hongqing said in shock. If Chen Xiang could see that far through the sky, then that was the only possibility.

"Yes, the Dao mark is indeed very useful." Chen Xiang laughed: "This should be the Space Eye."

"Each of your Dao marks is stronger than the last." Chu Hongqing pouted. She was so jealous that she said, "Dao marks and Dao marks can be fused together. Try it yourself, but it will consume a lot of divine power."

A thought flashed through Chen Xiang's mind. He first used the Eye of Space to project an image of himself on the wall.

The image that was projected on the wall was extremely clear. Chen Xiang and Chu Hongqing could clearly see those beautiful flowers as if it was right in front of their eyes.

Chen Xiang's heart stirred. The Divine Eye's Dao mark and the Vermillion Bird flashed, and in the image, he saw a very small Vermillion Bird flying back and forth amidst the flowers.

"Success." Chu Hongqing cried out in shock. Chen Xiang had just released the Vermillion Bird into a flower bush tens of thousands of miles away, and he could even personally see the Vermillion Bird.

"The consumption rate is indeed huge." Chen Xiang immediately took back the Vermillion Bird.

"Too terrifying. If you used it together with your previous fire sword, wouldn't you be able to kill people?" Chu Hongqing said in shock. She also found it hard to believe.

"If my power is strong enough, I should be able to do it." Chen Xiang laughed, the four marks he had just formed were all very good, which made him very satisfied.

"Hongqing, have you not finished refining the first batch?" Chen Xiang walked over and asked.

"Not yet. You can start refining it yourself. Even if I am to refine it, it would be impossible for me to refine four pills in one furnace. I am not as amazing as you." Chen Xiang daintily said. Chen Xiang walked over and caressed her jade face, then began to refine the Dao mark Dan.

As long as he could cultivate all 10 Dao marks, he would be able to step into the Dao Yuan realm.

With the Daoyuan immortal power, he was able to unleash the power of the Dao mark. Just now, when he used his divine power to activate the Dao mark, the effect was very ordinary.

Although Chu Hongqing was envious, she was still very happy. After all, Chen Xiang was her master, and she was the one who liked to concoct pills the most. Chen Xiang had also imparted her a very profound pill refining technique, so she had already achieved her primary goal of becoming Chen Xiang's servant.

In the past, she would have headaches for the Jade money from time to time, but now, Chen Xiang had an unlimited number of Jade money.

After a few hours, Chu Hongqing had successfully refined a Dao mark Dan. Although there were only two pellets, it made her extremely excited.

"In the past, Huang Tian always used to force himself on me with Dao mark Dan. If he were to compete with me in refining Dao mark Dan now, he would definitely be no match for me." Chu Hongqing laughed proudly, she knew that Huang Tian needed to go into closed door cultivation for a period of time before being able to refine the pill much.

"I've finished refining it too." Chen Xiang laughed, he had still refined four pills, if he wanted to level up, he could only use the Crash method, but he did not need them now, because Dao mark Dan of this level were already enough.

"I've only managed to cultivate four Dao marks at the moment, but I've managed to refine four. You can refine two of them, perfect." Chen Xiang laughed.

"En, quickly eat it. Let me see if there are any more powerful Dao marks behind you." Chu Hongqing was also very curious, she thought that Chen Xiang's following marks would definitely not be any worse than the previous four.

Chen Xiang ate one pill, and not long after, he cultivated out the fifth scar. This time, he was still using the Flame power to cultivate, so this should also be a flame scar.

[Chapter 2416](#)

Previously, the God's Eye Dao mark was an accident and he did not understand that it was a combination of fire and space. However, that mark did not disappoint him.

"It's an elephant!" Chu Hongqing said: "This is also beast type, not bad!"

"It's not an ordinary elephant, it's a Ground-suppressing immortal elephant!" Chen Xiang replied: "Have you heard of it?"

"Of course I've heard of it. Legend has it that there's a hell in here that's guarded by an elephant. If it's really a Ground-suppressing immortal elephant, then it must be very scary. It's said that it's a very magical Heavenly beast." Chu Hongqing said in shock: "How did you know this was a Ground-suppressing immortal elephant?"

Chen Xiang's Dao marks were all related to his body, so when he saw the Elephant Dao marks, he knew that it was a Ground-suppressing immortal elephant.

Chen Xiang pressed his hand on the ground, then activated his Spirit power, and suddenly an elephant shaped array formation appeared on the ground.

"This is the divine flame formation used to suppress demons. It's very powerful." Chen Xiang also suddenly had this information in his head just now, letting him know the use of the Divine Image Dao Marks.

"If I'm strong enough, I can use my Dao mark to summon a huge Ground-suppressing immortal elephant. It has a very frightening power." Chen Xiang said.

"Another extremely terrifying Dao mark!" Chu Hongqing exclaimed. She seemed to be already used to it.

Chen Xiang nodded his head, and suddenly ate another Dao mark Dan. This time, he began to cultivate the spatial attribute Dao mark, he was extremely curious about what kind of special power this spatial Dao mark held.

The sixth slash appeared quickly, Chu Hongqing was not concocting pills now, but was watching him cultivate by Chen Xiang's side.

"This is ..." This pattern is very similar to your Heavenly artifact! " Chu Hongqing said.

Chen Xiang's sixth mark, the pattern looked to be exactly the same as his Six Realms mirrors. Upon seeing it, Chu Hongqing suddenly understood that Chen Xiang's first mark was a sword, which was the same as his own Heavenly magic sword, and now this Six Realms mirrors's mark had appeared.

This meant that the marks that Chen Xiang had created were all closely related to him! Thinking about it till here, Chu Hongqing's heart suddenly shook. For Chen Xiang to be able to condense so many marks from Heavenly beast, it showed that he definitely had a close relationship with them.

"What is the use of this scar?" Chu Hongqing asked.

"I can connect to the Transmission array!" Chen Xiang said, as he placed his palm on the ground. He channeled his spatial energy, and something similar to a Six Realms mirrors appeared, which looked like an array disc.

Then, he released another Six Realms mirrors to the other side. This was all condensed out of spatial energy, it wasn't a real Six Realms mirrors.

"Let me try!" Chen Xiang stood on top of one of the Six Realms mirrors, and with a thought, he went over to the other Six Realms mirrors.

Chu Hongqing also walked up. In Chen Xiang's space, she had teleported from two Six Realms mirrors s.

"This Demon Forest should be able to connect to it too, right? Let me see if I can!" Chen Xiang first used his Divine Eye to lock onto one of the Transmission array s inside the Demon Forest.

Then, he released another Six Realms mirrors. Afterwards, he pulled Chu Hongqing and stepped onto that Six Realms mirrors, and under his control, they instantly arrived at the Transmission array that he had locked onto in the Transmitting Square.

"Awesome!" Chu Hongqing yelled in excitement. Chen Xiang also laughed mischievously, then he returned to the secret room.

Chen Xiang had thought that Dao marks were extremely difficult to cultivate, but he never thought that a single pill could produce one. No wonder this Dao mark Dan was so precious, and was even treated like a treasure by the Fire Reverent School, but now that he obtained it, he could quickly and quickly refine it.

The uses of the Dao marks were very wide, and they could even be used ingeniously to coordinate with each other. Right now, Chen Xiang was only using the basic power.

"The seventh one is here, hurry up and eat it!" Chu Hongqing urged Chen Xiang.

Chen Xiang swallowed another Dao mark Dan, and after condensing the Dao mark, Chu Hongqing immediately grabbed Chen Xiang's palm and examined it carefully.

"Is this a house?" Chu Hongqing suddenly felt that it was familiar, and shouted in alarm: "This is the You Yao Palace inside the ring!"

Chen Xiang was also very surprised, he never thought that he would actually form such a scar.

"What's the use?" Chen Xiang's palm faced an open space, and after channeling his spatial energy, a white light flashed from his palm, shining on an open space and congealing a door.

"Could it be that he entered through the gate of the ring?" Chu Hongqing anxiously walked over, opened the door and entered, after that a surprised shout came from inside: "Master, quickly come in!"

Chen Xiang immediately walked over, and after entering, he saw Youyao Palace!

He had carried the ring for who knows how many years. When he sent his soul consciousness into the ring, he could only see the palace, but he had never entered it before!

And now, with Youyao palace right in front of him, Chu Hongqing was skipping over, opening a door and walking in.

"This really is the palace of Youyao, my clothes are still inside!" Chu Hongqing laughed, "Now, you can also enter Youyao palace."

"Yeah, I really didn't expect it!" Chen Xiang looked at the scenery around him. He had previously only seen the scenery with his divine sense, but now that he was able to see it with his own eyes, he felt that it was very different.

"So you're saying that you can hide in your own ring in the future?" Chu Hongqing felt that he could not understand: "You should take the Dark Jade Ring with you, how did you manage to enter this place?"

"Actually, when the ring and my soul fused together, it was also in my real world! So I can come in, and it's really nice." Chen Xiang laughed: "In the future, I can hide like this, I don't need to look for inns everywhere."

"The Dao mark is truly magical on your body. Quickly get out and take a look at the next Dao mark." Chu Hongqing pulled Chen Xiang and walked towards the door that led outside.

After arriving outside, Chen Xiang immediately ate a Dao mark Dan. It was just as he had expected, a Dragon shaped mark on it that was a little cyan in color.

When he used it, he discovered that it could release a very strong power of Thunder power and wind, as well as oscillating power through the air. It possessed a very strong attack power.

The last two Dao marks he got were the Beast elephant Dao marks, the White Tiger Dao mark and the Black Tortoise Dao mark. Right now, he only knew that the White Tiger Dao mark could have a very strong jumping power in space, and he felt that this jumping power could allow him to jump out of the space seal.

As for the Black Tortoise Dao-mark, it had a very strong space defensive power. This was only what he had discovered. Now, he had already formed 10 Dao marks!

After having ten Dao marks, he also felt that the divine power in his own Divine Sense Sea was different!

"You can start cultivating the Daoyuan immortal power now, try eating a piece of Qiyuan Dan!" Chu Hongqing said.

[Chapter 2417](#)

Chen Xiang never thought that everything would happen so quickly, especially after he cultivated the ten Dao marks, the Spirit Force in his body had clearly become much stronger.

After eating the Qiyuan Dan, under the Qiyuan Dan's power, his Divine Sense Sea actually started to boil, and was converting his power bit by bit.

At this moment, he also felt that there was a very mystical phenomenon occurring in his Divine Sense Sea World.

For example, he could see that the air above his real world was filled with condensed mist. These mist gathered together, forming a heavy rain. Rain was divine force!

Above the clouds, there was a huge ball of air. That ball of air was the Daoyuan immortal power that had just been formed!

"Has he condensed Dao Yuan?" Chu Hongqing asked.

Chen Xiang told Chu Hongqing about the situation of the ball of air.

"That's Dao-Yuan, but it hasn't completely formed yet. After it's fully formed, it'll be like a scorching sun hanging in the sky." Chu Hongqing said: "However, right now you can be considered to have just stepped into the Dao Yuan realm, and once you train to the first layer, there will be a white sun in the sky above your real world, and it will not have any effect on the earth."

"In other words, I need to train up to ten Dao-Acupoints here before I can be considered a Paragon, right?" Chen Xiang asked.

"Yes!" Chu Hongqing laughed: "Now you should be able to produce your own divine power right? Dao Yuan realm is to upgrade your divine power to Daoyuan immortal power and condense it in the air, you just need to extract the divine power from the Tao Yuan."

"The Daoyuan immortal power is indeed very strong!" Chen Xiang used the Daoyuan immortal power to activate his Fire Sword Dao mark. As he held the sword hilt, he could feel how terrifying this Fire Sword was.

"It's best not to use the Dao mark carelessly. You should rarely see anyone use it, right? Because this is a secret!" Chu Hongqing said.

Chen Xiang nodded his head. Previously, when he and Lv Ying were fighting against beasts, they did not use the power of the Dao mark.

"What rank of Qiyuan Dan should I eat now?" Chen Xiang asked, he had hoarded a lot of Qiyuan Dan and could finally eat them now.

"Xiantian High Rank!" Chu Hongqing thought about it, because many cultivators that had just stepped into the Dao Yuan realm did not choose such a high rank Qiyuan Dan like Chen Xiang.

Chen Xiang took out a high-grade heaven stage Qiyuan Dan and ate it, then he began to cultivate. His Divine Sense Sea was unceasingly boiling, and the rising mist all gathered in the air above the Divine Sense Sea World, fusing into that ball of Dao Yuan.

The high-grade Heaven Rank Qiyuan Dan was different, it was much better than the low-grade Qiyuan Dan from before, there were a lot of seething Daoyuan immortal power.

After Divine Sense Sea stopped his boiling, he ate another ...

He had only swallowed more than ten pills, and was already able to condense a very large amount of Dao Yuan in the air.

Chen Xiang consumed another high-grade Qiyuan Dan and discovered that although the Divine Sense Sea was boiling with spirit energy, he was unable to condense the second ball of spirit energy.

"Hongqing, what's going on?" Chen Xiang quickly told Chu Hongqing about the difficult problem he had encountered, while Chu Hongqing was refining a Dao mark Dan.

"You have condensed a Dao Yuan, so you need to wait a while before you can start cultivating the second Dao Yuan. This is mainly because your Divine Sense Sea's power has gotten used to the first Dao Yuan." Chu Hongqing said: "Generally, you will have to wait for a few months. Your cultivation speed right now is already very fast."

Chen Xiang could only sigh, take out his pill furnace and refine a Dao mark Dan. Right now, he could only refine Dao mark Dan to take revenge on the Fire Reverent School.

The Fire Reverent School was plotting against Chu Hongqing, and he had even joined hands with the Fang family to seal him, so he had to take this lying down. After a month, all a hundred batches of Dao mark Dan's medicinal ingredients were refined into pills, a total of three hundred pills.

After coming out, he found the Elder Tree and gave him fifty Energy Gathering Pearls, in exchange for a hundred portions of Dao mark Dan's medicinal herbs.

"Elder Tree, the business of the Qiyuan Dan is not bad right now!" Chen Xiang laughed.

"Very good. The Fang family is already stomping their feet in anxiety, the speed at which they produce the pills is too slow. It seems like they don't have much medicinal ingredients, but we do have a lot of Alchemist s." The Elder Tree laughed, "The Fang family can't come looking for trouble right now, but we still have to be wary of them."

"It can only hit the Fang family, it's not fun enough!" Chen Xiang laughed mischievously as he suddenly took out a few Dao mark Dan. "Elder Tree, how is Fire Reverent School's production of Dao mark Dan right now?"

"They sell at most twenty of them every month, and they sell them at a very high price!" Elder Tree asked anxiously: "How many pills do you have right now?"

"Three hundred pills!" Chen Xiang said.

"So many!" Elder Tree could not help but take a deep breath.

"Yes, Fire Reverent School's Huang Tian is really annoying." Chen Xiang laughed. He knew that his Dao mark Dan would definitely send Huang Tian into a rage.

"Little brother, it's best not to provoke Fire Reverent School for now, because an old Leader from Fire Reverent School has suddenly appeared. I wonder why?" The Elder Tree said: "If this old Leader were to attack our Demon Forest, and our Treant Emperor cannot, it would be more dangerous."

Chen Xiang nodded: "I understand!"

The Demon Forest had already angered the Fang family. If they provoked them, the old Leader would also fight, and they, the Demon Forest, would not be able to hold on. At that time, the Fire Reverent School and the Fang family would have to join hands and attack.

"As long as you don't sell it in the Demon Forest, I will go to the Divine Air City and sell it!" Chen Xiang laughed.

"Then be careful! The old Leader of the Fire Reverent School is not simple at all. Even the Treant Emperor is afraid of him." The Elder Tree replied, "However, I'm not worried about Divine Void City. It would be easier to escape from there."

After Chen Xiang bid farewell to the Elder Tree, he immediately headed to the Divine Void City. From here, he could hear the news of the Qiyuan Dan! The Fang family's Qiyuan Dan production was low, and the quality was not very good. Adding to the fact that the price was expensive, no one was interested in the Fang family and they all went to the Demon Forest to buy them.

Chen Xiang had also heard the news of Old Leader's return. He did not know why he came back, but this old Leader was extremely prestigious and he had no idea where he went after he abdicated his throne.

"Hongqing, do you have any impression of the old Leader?" Chen Xiang asked.

"No, when I entered the Fire Reverent School, the old Leader had already left, but there were some rumors about him." Chu Hongqing said.

"That guy must be related to the Undead Divine Race!" Chen Xiang had a new understanding of the Undead Divine Race s here, and they were different from the s that he knew.

He came to the house Long Shuangru bought before, and thought about how to advertise the Dao mark Dan. At the same time, he also thought about the old Leader!

He had previously killed Huang profound, but that Huang profound had a very high status in the Undead Divine Race. He felt that the old Leader had probably come back for this!

Of course, the Undead Divine Race did not know that he did it, otherwise he would have calculated it using the Heaven extended method. He came from the future, so he was not an existence of this era.

[Chapter 2418](#)

The lake that Chen Xiang currently resided on was beside his old house, and since this island was considered a relatively large empty island within the Spirit Sky City, many people would often come here to jump into the lake and teleport.

Therefore, Chen Xiang did not plan to spend so much time and effort to advertise, and directly set up a stall in front of his house, and then write a few large words on it.

In order to let everyone on this empty island know, he even used ten thousand Jade money to hire dozens of youths who had nothing to do to make announcements.

Just then, someone came up to ask about the price of the Dao mark Dan. It was a very decently dressed old man, and it was obvious that he was relatively wealthy. Furthermore, his cultivation was quite good, so he probably bought the Dao mark Dan for the younger generation.

"Two million Jade money, the quality is better than the one refined by Fire Reverent School, and Fire Reverent School's Dao mark Dan are hard to buy. Most importantly, my Dao mark Dan is cheaper than theirs by one million." Chen Xiang smiled at the old man: "Old sir, you should be able to see the quality of this Dao mark Dan."

The old man nodded: "I previously bought one for my disciple, it was from Fire Reverent School! Your quality is indeed better than Fire Reverent School's, but when I bought it, it was four million more. "

The advantage of Dao mark Dan was that it could quickly cross the Dao Ti realm and cultivate up to ten Dao marks. If one did not use Dao mark Dan s, it would take at least ten years to cultivate them.

"I'll buy one!" The old man was straightforward. Seeing that the quality was not bad and the price was much cheaper than the Fire Reverent School, he immediately took out his Jade money and bought it.

Of course the old man knew who the seller of Dao mark Dan was. Other than the Fire Reverent School, only Chen Xiang could refine Dao mark Dan!

Previously, the Fang Family's Qiyuan Dan had already shaken Chen Xiang's name in every direction. Especially when the Fang Family went to the Demon Forest, Chen Xiang being able to refine ten batches of Qiyuan Dan in an hour was truly impressive, and had even become a legend.

Not long after, the people of the floating island knew that Chen Xiang was selling the Dao mark Dan here, and the news of this event quickly spread throughout all of Divine Sky City.

Those who needed to buy Dao mark Dan all rushed over to the island, because Chen Xiang's Dao mark Dan was one million cheaper than the Fire Reverent School's Jade money.

They were already very familiar with the pills refined by Chen Xiang, the quality of the Qiyuan Dan was much better than the Fang family's.

Two million Dao mark Dan s was still very expensive for many people, but there were still a few rich people. This area had been around for many years, and for many small and large forces, they had accumulated quite a few Jade money s over the years. Dao mark Dan s could allow their disciples to grow quickly, so even spending a lot of Jade money s was worth it.

Very quickly, Chen Xiang sold fifty of them. He was not lacking in Jade money s right now, and doing this was because he was unhappy with Fire Reverent School.

In just half a day's time, this matter had spread to Fire Tao Divine Place and other nearby big cities, attracting many big shots from different forces, thus Chen Xiang quickly sold another fifty pills.

In the evening, he had sold a total of two hundred pellets. Because there were already many people waiting to buy the Dao mark Dan, but they had to wait for the Fire Reverent School to open for sale. So

when Chen Xiang opened the sales today, he immediately took away all the Jade money this group of people had been preparing for a long time.

Chen Xiang comfortably sat at the door of the house. He planned to set up the house for one day and one night, until all the Dao mark Dan on his body were sold out.

However, when the sky was about to turn dark, he suddenly felt a very familiar aura!

"Huang Tian and Huang Xiaotian!" Chen Xiang was shocked, he anxiously kept the Dao mark Dan that was displayed on the table, but he did not expect that, at that moment, Huang Xiaotian would actually attack him.

"Chen Xiang, it's time for your death!" Huang Xiaotian suddenly came to the front of Chen Xiang, the blade in his hand struck towards Chen Xiang.

Chen Xiang immediately dodged. This Huang Xiaotian was from the Dao Dan realm, the current Daoyuan immortal power on his body was extremely vigorous, that aura made it difficult for Chen Xiang to get close to him, and his strength was also extremely terrifying. That blade just now had left a very, very deep crack.

"What does your Fire Reverent School mean? You want to kill me because you can't sell me a pill? " Chen Xiang shouted, it was a bustling place, when everyone saw Huang Xiaotian attacking, they quickly dodged, but in their hearts, they secretly despised Fire Reverent School.

The Fire Reverent School had also made a lot of profit from selling the Dao mark Dan, so it was normal for the Fire Reverent School to come knocking on his door to look for Chen Xiang's business.

"Hmph, that day you destroyed the Heavenly Law Auction and even did many heinous things. I was only acting on behalf of the heavens." Huang Xiaotian laughed coldly, and once again rushed towards Chen Xiang.

Huang Xiaotian had a very strong Daoyuan immortal power protecting his body, and he had no way of dealing with Chen Xiang at all. Even if the Heavenly magic sword stabbed at him, it wouldn't be able to destroy Huang Xiaotian's Daoyuan immortal power, unless Huang Xiaotian was distracted and didn't use the Daoyuan immortal power protecting his body.

Long ago, many people already knew that the Fang family and the Fire Reverent School were discrediting Chen Xiang, so everyone did not believe what Huang Xiaotian had just said.

Chen Xiang was furious in his heart. He still could not beat Huang Xiaotian, so he could only escape first. Otherwise, he would very likely be taken down by Huang Xiaotian.

"Father, he's going to run away!" Huang Xiaotian saw that Chen Xiang had suddenly disappeared, and immediately shouted.

Chen Xiang immediately teleported towards the lake, but he did not expect to be blocked by a powerful force, as a spatial enchantment suddenly enveloped him.

Just as Chen Xiang was thinking of a way, a loud sound came out, Chen Xiang felt an intense pain all over his body, it was as if his bones and flesh were being torn apart.

"Huang Tian!" Chen Xiang looked up, it was Huang Tian who had struck him with his palm just now. Although the distance was quite far, Huang Tian was an expert of the Dao Po realm, so the power that came from afar was also very terrifying.

"Quickly hand Chu Hongqing over, I can spare your life." Huang Tian coldly said.

"Dream on!" Chen Xiang secretly activated the White Tiger Dao mark, allowing the power of the White Tiger Dao mark to flow into his body.

Chen Xiang was sealed by a spatial enchantment, so he could only move inside the enchantment. As Huang Tian's palm attack came over, it covered the entire enchantment, and if he did not run, Chen Xiang's injuries would be even worse.

"Space Jump!" Chen Xiang used the power of the White Tiger Dao mark to release a White Tiger. The moment the palm attack came, he immediately trapped the White Tiger and with a huge leap, he jumped out of the barrier that sealed him and into the lake.

He had already known that Chen Xiang had the power to break free from the seal, so when he came, he specially prepared a spatial enchantment disc to trap Chen Xiang. However, he did not expect Chen Xiang to escape in the end.

After entering the lake, Chen Xiang immediately appeared on another floating island. He was lying on the ground, his entire body filled with energy, while Huang Tian's palm attack was still wreaking havoc in his body.

"This father and son duo, just you wait!" Chen Xiang used a hidden jade mark and opened a door leading to the ring. Then, he walked in.

Seeing Chen Xiang coming in, Chu Hongqing anxiously walked over and supported him. She was planning to come out just now, but Chen Xiang did not allow her to, even though she was from Dao Dan realm, she was far from Huang Tian, and would only be taken away by Huang Tian.

[Chapter 2419](#)

"It's just a physical injury, it's fine." Chen Xiang saw Chu Hongqing's face filled with worry and said.

"Huang Tian seems to be extremely anxious. I'm guessing that he wants to use me as a cultivation furnace so that he can break through his bottleneck. He has been stuck in the Dao Po realm for a very long time." Chu Hongqing sighed.

As Chen Xiang recovered from his injuries, he scolded, "This bastard, you can forget about breaking through your bottleneck in your entire life. I'll let him die in the Dao Po realm."

Chen Xiang was currently only at the first level of Dao Origin Stage, and Huang Xiaotian was at the Dao Dan realm, so he was one realm higher than him, so there was no need to mention Huang Tian. The peak of the Dao Po realm was two to three great realms higher than him.

Fire Reverent School knew that Chen Xiang was still in Shen Kong City, so he was anxious for the disciples of the Fire Reverent School to quickly rush over to the various floating islands to search for Chen Xiang.

Huang Tian just wanted to catch Chen Xiang quickly and force Chen Xiang to hand him over so that he could use Chu Hongqing to cultivate and break through his current bottleneck.

"Fortunately, the Dao marks I've been training in are very useful. Otherwise, I would've been in big trouble just now." Chen Xiang was most afraid of spatial seals, but just now, when he used the White Tiger Dao mark, he actually easily brought him out of the spatial enchantment.

It had been a long time since Chen Xiang had received such a heavy injury, and he had only recovered after a full month of healing. Furthermore, in this one month, Chu Hongqing had also improved a lot in refining Dao mark Dan.

After Chen Xiang recovered from his injuries, he ate a high grade Heaven Stage Qiyuan Dan. After eating it, he felt that he could condense his second Tao Yuan.

"I need to eat a few more pills before I can condense the second element." Chen Xiang took out a few more high-grade Heaven-ranked Qiyuan Dan and ate them.

After eating it, it only took him half a day to cultivate up to the second Yuan Li.

I need to quickly cultivate to the Tenth Perfection, then enter the Dao Dan realm. Only at that time can I break through Huang Xiaotian's defense, so I must kill this guy. " Chen Xiang said coldly.

"It seems like you can eat once a month. If nothing goes wrong, you will be able to reach the great circle of perfection within a year." Chu Hongqing said. What Chen Xiang lacked the least right now were Qiyuan Dan, since Chen Xiang had hoarded a lot of Qiyuan Dan for himself to eat.

I have to hurry, I can't wait anymore, I definitely won't be able to kill Huang Tian in a short time, but I can still kill Huang Xiaotian. Chen Xiang would never let these people who wanted to kill him off, especially the father and son duo like Huang Xiaotian, who were extremely despicable.

The Dao mark Dan was given to them by their Fire Reverent School as a reward for the celebration of the Heavenly Dao. Chen Xiang had obtained it with his own abilities, but they were unwilling to let it go, seeing that Chen Xiang was selling it, they had come to make trouble. Furthermore, they had been spreading rumors everywhere previously, trying to embarrass Chen Xiang.

Chen Xiang didn't dare to be so arrogant right now, because Fire Reverent School was already very shameless. He dared to do such a shameless thing in public.

He made a trip to the Demon Forest and exchanged two hundred portions of Dao mark Dan's medicinal ingredients from there.

The Elder Tree also knew about Chen Xiang's matter at the Divine Void City, and now that he saw that Chen Xiang was fine, he was a lot more relieved. This was because they needed the Energy Gathering Beads that Chen Xiang provided in order to refine the Qiyuan Dan.

The Fang family's Qiyuan Dan was already heavily affected, even if the Fang family were to lower the price, it would be difficult to save it. This was because if they were to lower the price, the Demon Forest's side would also lower the price.

"From the looks of it, the Fang family is already prepared to take action against us. If it was just against one of the Fang family, we are not afraid, but we do not know if the Fire Reverent School will intervene." The Elder Tree said.

Right now, the Fang family must have realized something. They knew that was not the only person refining the Qiyuan Dan, because the number of Qiyuan Dan was increasing. Furthermore, after Chen Xiang was injured, they had no evidence against him.

What the Fang family hated the most was that now, there were more and more king level Qiyuan Dan.

Fang Heng and Fang Daiqi, who had bet Qiyuan Dan and Chen Xiang back then, hated Chen Xiang even more, because they were often scolded at by the clan elders. Now, they were also thinking of a way to save them.

"What if Fire Reverent School interferes?" Chen Xiang was safe in Demon Forest. He drank a cup of fruit juice and licked his tongue.

"We can only go all out against them." Elder Tree said, "If our entire Demon Forest fights with them, the final result will be a mutual destruction. Let's see if they dare to or not, since we are not afraid."

"If I had a little more time, I would have been able to overturn them all by myself." Chen Xiang snorted.

"Little brother, I advise you not to go to Divine Sky City, it is even more impossible for the Fire Tao Divine Place to return. Our place is also in danger." The Elder Tree said.

"Then where to?" Chen Xiang asked: "I'm not familiar with this place, Elder Tree, you can recommend me a place."

"I know of a safe place." The Elder Tree replied, "You should be very familiar with the Eternal Life Native Bank."

Chen Xiang nodded his head. He had not received the one billion Jade money that he won at the last Heavenly Mystery.

"Eternal Life Native Bank is very safe." Chen Xiang asked.

"Of course not, it's a place the Eternal Life Native Bank can help you go to that is called Eternal Life City. It's said that you won't die in there, and it's very orderly. It's just that it requires ten million Jade money to buy a pass." The Elder Tree said.

"Really." Chen Xiang had never heard Chu Hongqing talk about such a thing.

"Why would I lie to you? You can go to Demon Forest and ask." The Elder Tree said.

... ..

When Chen Xiang came to the Eternal Life Native Bank, he had asked Chu Hongqing about it on the way there but he had never heard of such a place.

"The last time I won against the Jade money, I came to exchange." Chen Xiang took out a jade piece.

"You must be Chen Xiang. Although you fake your name to be Yun Fei, but you still suppressed yourself in the end, so we will also give you Jade money. Here, a billion Jade money." A young man at the counter said with a smile.

Chen Xiang had to admit that this Eternal Life Native Bank was indeed very mysterious. With so many Jade money stored inside, if they wanted to keep these Jade money, they would definitely have a very powerful strength.

"Oh right, I want to go to Eternal Life City. How do I go?" Chen Xiang asked.

"Oh, we usually only invite people at the sixth level of Dao Dan realm or above." The man laughed, then took out a crystal ball and said, "Let me see what cultivation you have now. Put your hands on it."

Chen Xiang placed his hands on it, and two white dots of light appeared inside the crystal ball.

"You are currently only at the second level of Dao Yuan realm, which is not enough." The man shook his head.

Chen Xiang remembered that Chu Hongqing was at the seventh stage of the Dao Dan realm, but he was not invited.

Although I am not at the sixth level of the Dao Dan realm, I am indeed a rather good Alchemist. You should not act according to the level of your cultivation. " Chen Xiang said.

For example, Fire Reverent School Leader's son, Huang Xiaotian, was only at the second level of the Dao Dan realm. However, because he was the son of the Fire Reverent School Leader, we let him in. "" That's true. The man nodded.

"That little bastard is also inside." Chen Xiang asked anxiously.

[Chapter 2420](#)

Chen Xiang really wanted to pinch Huang Xiaotian to death right now, so when he heard Huang Xiaotian's name, he had a huge reaction.

The man was naturally aware of the hatred between Chen Xiang and the Fire Reverent School. He smiled and said, "You cannot have private duels when entering the Eternal Life City.

"En, I understand. Then can I go in now? Can I sell my pills after I enter?" Chen Xiang asked again, to be able to enter the Eternal Life City, he was definitely the rich one, he would definitely be able to earn a lot by selling pellets inside.

"Of course you can sell pills. Fire Reverent School, Fang Family and Treant Tribe are all selling pills, but you need to pay taxes to our Eternal Life Native Bank, for example if you can sell one billion Jade money, you have to pay one hundred million. Of course, your taxes are not for nothing, you can get our protection inside." The man said.

"If that's the case, then the Eternal Life City is not big. If it's just a small city, then there will be many pill sellers. They have a lot of competitiveness." Chen Xiang asked again.

"You don't have to worry about that, although the Eternal Life City has just been opened, there are a lot of people inside, they are all from different regions and our Eternal Life Native Bank is spread out very widely, all of the people we invited have status and status." The man laughed.

"How many Jade money s do you need?" Chen Xiang asked.

"Your words... You need five hundred million, because you are special. If you were invited by us, ten million would be enough. " The man said.

"You must be trying to scam me." Chen Xiang laughed: "Are you joking?"

You have paid five hundred million Jade money and you can freely enter and exit the Eternal Life City. Furthermore, your identity will be even more respected and you will be able to enter many places easily. " The man said again.

"Here." Chen Xiang only wanted to quickly meet Huang Xiaotian, even if he could not fight, he had to reprimand him.

"Alright, here is the jade token for you to come in and out ..." Oh right, do you have any Storage magic treasure with you that can hold people within? If there is anyone inside, enter the Eternal Life City and don't let them come out. Once they find you, the consequences will be severe. " The man gave Chen Xiang a jade plate.

Chen Xiang released Chu Hongqing and said: "She is at the seventh level of the Dao Dan realm. Ten million Jade money should be enough, right?"

"Enough."

Chen Xiang helped Chu Hongqing turn in ten million Jade money a year, and Chu Hongqing also received a jade token.

"Follow me." The man brought Chen Xiang and Chu Hongqing to the underground stone room of the native bank. There was a Transmission array there.

Chen Xiang and Chu Hongqing entered the Transmission array and were teleported away in the blink of an eye.

Very quickly, Chen Xiang and Chu Hongqing arrived at the Eternal Life City. They were in the same Transmission array.

"Not bad."

Chen Xiang looked around, the buildings here were all very impressive, there were hundreds of floors of stone towers, and also some relatively short wooden buildings. There were mountains and water in here, and from time to time, a group of birds would fly across the sky.

"I should enter the ring. I still need to concoct pills." Chu Hongqing chuckled: "You can start by strolling around by yourself."

Chu Hongqing entered the Serene Jade Ring. Chen Xiang's own jade tablet was purple while Chu Hongqing's was white. He too did not know what this purple jade tablet signified.

At this moment, a youth ran over in a hurry. The youth was thin and tender, and his clothes were very tidy. His young face was filled with smiles.

"Chen Xiang, Master Shen, right?" The youth laughed, "I am Sun Jun, Eternal Life Native Bank has sent me to receive Master Shen."

Chen Xiang looked at the purple jade medallion in his hand, and immediately understood that the purple jade medallion meant his identity as an elder.

"I spent a lot of Jade money to get in, you guys can't afford to just eat and sleep." Chen Xiang asked.

"It's all within one or two years, and the ones that eat are the best ones. They're in the Immortal Restaurant, that one." Sun Jun pointed to the tallest white jade tower, which was several hundred stories high.

"Not bad, the money wasn't spent in vain." Chen Xiang nodded his head in satisfaction: "Let's go."

Sun Jun immediately released a horse carriage and invited Chen Xiang up. He then drove the carriage towards the Immortal Tower.

"Sun Jun, what does my purple jade token represent? Besides being a bag of food and shelter, is there any other good use for it?" Chen Xiang asked.

"Uncle Shen, there are many benefits to being able to sit in the front row of the Eternal Fragrance Pavilion and listen to the beautiful ladies of the Eternal Fragrance Pavilion singing and playing. You can also sit in the front row and freely enter and exit the Eternal Fragrance Pavilion."

"Is that all?" Chen Xiang felt that this was too ordinary.

Of course, if you encounter any danger, you can use a jade plate to contact the experts of the Eternal Life City.

"It's just so-so." Chen Xiang looked at the purple jade tablet, and then put it away.

When they arrived at the front door of the Immortal Restaurant, Sun Jun brought Chen Xiang in. When they went in, Chen Xiang felt that there were many terrifying auras in the Immortal Restaurant.

Previously, Lv Ying had told them that this world was extremely grand, but the Fire Tao Divine Place was located in a very small area.

In other words, this Eternal Life City could very well be one of the Rankers that had gathered in many different regions.

"Master Shen, the pavilion master of the Eternal Fragrance Pavilion is playing the zither right now. Do you want to go in and take a look? That pavilion master is really beautiful, and she is also extremely powerful." Master Shen, the pavilion master of the Eternal Fragrance Pavilion is playing the zither right now. Sun Jun said.

"Alright, let's go in and take a look." Chen Xiang didn't have anything to do now, so he followed Sun Jun to the Eternal Fragrance Pavilion.

The Eternal Fragrance Pavilion was also on top of the Immortal Deity Restaurant. Strangely, after entering, it seemed like they had gone to another space. There was a beautiful lake here, and a three story tall elegant building was right beside the lake. That was Eternal Fragrance Pavilion.

"Strange, isn't this playing a zither? Why is it so hot?" Chen Xiang asked curiously after he entered, and immediately saw that on the stage in front of him, there were two people sparring pill refining.

"It's actually that little bastard Huang Xiaotian." Chen Xiang thought.

There were dozens of rows of seats in this spacious hall. There were only a few people in the first five rows, but the dozens of rows behind them were all filled.

"Sun Jun, didn't you say that there was a peerless beauty playing the zither? Why are there two men refining pills on top of the zither?" Chen Xiang walked in and said hoarsely.

Sun Jun also felt this was strange, but he didn't dare to say anything at the moment because the people here were all very strong.

Everyone was quietly watching, when Chen Xiang suddenly spoke, everyone heard him, and his voice was very loud.

Just when everyone was frowning, they realized that Chen Xiang had a purple jade tablet in his hands, and was relieved, because those who had purple jade tablets were all my lord.
