

Dan God 2451

[Chapter 2451](#)

The most obvious characteristic of Qiao Yu's Crosscut Pill Technique was that it could release a special kind of flame. When refining the medicinal ingredients with this flame, the quality of the medicinal liquid that was separated would be higher.

Chen Xiang remembered that there was a similar method in the Heavenly Alchemy, but he was not sure if the Sky Zong School's Sky Crossing Pill Art was good enough.

He just sat there on the chair with his eyes closed, searching. It wasn't until late at night that he opened his eyes.

"Could it be that all sorts of pill techniques in this era were learned from the Heavenly Alchemy?" Chen Xiang had already found a method to cultivate the Sky Crossing Pill Art, it was called the Sublimation refining method, it was formed from the fusion of several methods.

"I can find the Infinite Dan method in the Heavenly Alchemy, and now I found the Crosscut Pill Technique." At this time, Chen Xiang was even more curious about the origin of the Heavenly Alchemy. It had actually spread among the various great powers of this era, and these great powers were all sects with extremely high alchemy skills.

Chen Xiang entered the secret room, took out the Dao mark Dan's medicine, and used the Sublimation refining method that he had just comprehended. After using this method of refinement, the flames he released were actually purple.

This kind of purple flame consumed a lot of Daoyuan immortal power, and was more than ten times the flame that he normally used. Even so, Chen Xiang was secretly excited, because this proved that the Sublimation refining method that he had just comprehended was the same as the Sky Crossing Pellet, it was just that the color of the flame that he released was different.

"Is it this kind of purple-colored power of mine or the golden flames of Qiao Yu's group that's strong?" Chen Xiang was very curious about this, he immediately used this flame to refine the Dao mark Dan.

This time, he did not plan to use the Crash method. He wanted to see how high of a quality the Dao mark Dan would be made out of by using this kind of flame. Right now, he could only use this kind of flame to refine the Dao mark Dan's medicinal ingredients and then use the pattern refining method to refine the three types of into one.

After releasing the purple flames with all his strength, the refining speed of the spirit herbs was extremely fast. In a short moment, all the spirit herbs were refined, and he immediately used the pattern refining technique to refine the scattered Spirit grain.

"Much faster." Chen Xiang was secretly pleasantly surprised, of course, the fastest was when he used the Bones in his eyes to refine it, it was just that the quality was not as high as it was now.

"Just condense four pills just like before." Chen Xiang only wanted to know how much the quality of the flames he used increased.

He quickly formed four Dao mark Dan.

"The quality is much higher, and the outside is even emitting a faint purple luster. Is this because of the purple flames?" Chen Xiang looked carefully at the four Dao mark Dan s.

He did not have any quality testing tools in his hands, so he looked at Xie Qiaoyan's room.

He had only knocked twice on Xie Qiaoyan's door when Xie Qiaoyan's voice came from inside, "Little bastard, there's something that's happened in the middle of the night, why not say it again in the morning?"

Chen Xiang had originally planned to look for Xie Qiaoyan in the morning, but he was very curious now. If he did not get the results, he would definitely not be able to rest in peace.

"Sister Qianyan, there's something important that I didn't want to disturb you with. I promise I won't do anything bad and be honest." said. A man knocking on a woman's door in the middle of the night would definitely raise her guard, not to mention that Chen Xiang had forcefully kissed her yesterday.

"Hmph." Xie Qiaoyan snorted, and opened the door.

"What is it? Tell me." Xie Qiaoyan said.

"Lend me the items for your test." Chen Xiang said somewhat embarrassedly.

"Were you training in refining Dao mark Dan yesterday? You were going all out too, take it ..." Xie Qiaoyan handed over the test disc to Chen Xiang, and decided to attend the Jiang Clan Master's birthday banquet at dawn. At that time, Chen Xiang would have to bet 10 billion, so it would be normal for him to train.

After Chen Xiang received it, he immediately took out the Dao mark Dan that he had refined using his normal flames. After continuously testing a few of them, he found that they were all of around one hundred and eighty to two hundred and thirty in quality.

"What are you doing? Weren't you the one who created the Dao mark Dan after the collision? Why are you only of this little quality?" Xie Qiaoyan frowned slightly, "You didn't mean to disturb me, did you?"

"Of course not, I just learned a method. I was testing the quality of the Dao mark Dan that I refined before." Chen Xiang laughed.

Now he took out the Dao mark Dan he had refined using the Sublimation refining method s to release flames. Its appearance carried a layer of purple luster, and Xie Qiaoyan could tell the difference with a glance.

"The quality of what you just refined is indeed higher than the ones you tested. Quick, let's see what the quality is." Xie Qiaoyan urged.

Chen Xiang nodded, and then picked up one of the stones. The results of the test made Chen Xiang and Xie Qiaoyan very surprised, as it was actually three thousand high quality pills.

After that, Chen Xiang took the remaining three pellets. Their quality also reached 3000, making it into a total of 12,000 pills.

"It's still a little low." Chen Xiang said, because it was much lower than the ones he refined using the Crash method, he refined two of them using the Three Crash s.

"How did you do it?" Xie Qiaoyan asked. She knew that if Chen Xiang did not use the Crash method, the pills refined would be of a lower quality, around two to three hundred, but now, it was three thousand.

"Kiss me and I'll tell you." Chen Xiang laughed.

"Hmph, don't even think about it." Xie Qiaoyan remembered that Chen Xiang had forcefully kissed her, and was secretly angry in his heart, as he immediately closed the door.

"Hold on..." Chen Xiang immediately said: "Qiao Yan, do you still remember the Qiao Yu's pill techniques yesterday?"

"Unhindered Pill Art? Have you learned the Unhindered Pill Art? You only took one look to learn it. This is impossible." Xie Qiaoyan was slightly surprised. The quality of the pills refined by Qiao Yu's Crossing World Pill Technique was indeed very high.

Of course, I did not watch him learn it, but chose to comprehend it myself. I was able to release a kind of flame that would raise the quality of the medicinal liquid while refining medicinal ingredients. Moreover, releasing this kind of flame is ten times more than what I used to possess. Chen Xiang said.

"How is that possible? You only needed to look at it for a moment to realize that pill techniques are that easy to comprehend. I have my own Infinite Dan method, but I have not been able to comprehend anything for so many years." Xie Qiaoyan was even more surprised, but she had no choice but to believe Chen Xiang's words.

"I feel like I'm still improving. I was just using the Crossing Pill Arts and didn't even join the two small techniques I taught you." Chen Xiang chuckled: "If I use my Crash method again, my quality will definitely breakthrough once more."

Chen Xiang was excited just thinking about it, but Xie Qiaoyan was a little jealous. She knew that Chen Xiang himself had a very mysterious and powerful pill technique, but now he had even learned the Crossing World Pill Technique.

Seeing Xie Qiaoyan's jealous expression, Chen Xiang smirked: "Do you want to learn?"

Xie Qiaoyan coldly snorted. "I don't want to." Then he closed the door.

[Chapter 2452](#)

Chen Xiang returned to his room and laid on his bed. He needed to rest well for tomorrow's competition, if he won, he would have twenty billion Jade money.

When dawn was about to break, Chen Xiang woke up.

Xie Qiaoyan had also woken up very early. She now knew that Chen Xiang was a bad guy, so she was always on guard against him.

Of course, with her strength, she could definitely beat Chen Xiang up, but she couldn't do it.

"Today, I will definitely obtain complete victory!" Chen Xiang laughed.

"There will definitely be a lot of people coming today. The Jiang family's head has a lot of face, there might be more than ten people from the Dan God List of Eight Wastelands!" Xie Qiaoyan said.

She also did not sleep well last night. On one hand, her emotions were complicated by the fact that she had been forcefully kissed, and on the other hand, she was racking her brains to think of how Chen Xiang had managed to comprehend the Crossing World Pill Technique.

"That's even better. I'll let them know that the Dan God List of Eight Wastelands is just a child's play." Chen Xiang was now full of confidence. Today, he had competed with Qiao Kun in refining Dao mark Dan, and he would use all of the techniques available to him. After all, those were ten billion.

Jiang Xian shouted from outside: "Brother Shen, wake up quickly, the sun is shining on your buttocks!"

Hearing that, Chen Xiang laughed: "This boy has come to find me. Let's go, we will go to the Jiang Clan together."

The core members of the Jiang Clan had also moved into the city. This birthday banquet was only being held with the participation of the core members of the Jiang Clan. They would then invite a few more famous figures to attend.

Old guys usually had a lot of face, so they would try their best to invite the big shots, showing that they had a lot of power.

Chen Xiang and Xie Qiaoyan walked over to open the door. Originally, Jiang Xian wanted to tease Chen Xiang a little more, but when she saw Xie Qiaoyan's ice-cold beautiful face, she immediately became speechless.

Jiang Xian had also heard that Chen Xiang and Xie Qiaoyan were very close. Now that he saw Chen Xiang and Xie Qiaoyan coming out together, and it was so early, Xie Qiaoyan must have spent the night inside.

"So the two of you are together!" Jiang Xian coughed dryly, then laughed: "That's good too, Master Xie is also an esteemed guest of our Jiang Family, let's go together!"

Chen Xiang patted Jiang Xian's shoulder, and laughed: "Don't be so formal, we are all on the same side! Jiang Xian, you actually didn't mention this to me. "

Jiang Xian knew right away that it was Xie Qiaoyan who told Chen Xiang, so he curled his lips: "This is too embarrassing, of course I won't tell you. Although I left the Limitless Battlefield, my whole body relaxed, and people aren't staying in that place!"

Xie Qiaoyan also had the same thought.

Jiang Xian had his own carriage, so he only got in after he invited Chen Xiang and Xie Qiaoyan in.

"Brother Shen, you are now a famous person with ten billion in wealth. You are a great benefactor. My grandfather was extremely happy when he heard that I invited you here." Jiang Xian laughed.

"Today, I will be sparring pill refining with Qiao Kun at the lower price. I will defeat him ruthlessly, at that time, will your grandfather be unhappy?" Chen Xiang said.

"Of course not. If something like that happened during his birthday banquet, it would be a good thing for him. In the future, when he brags with others, he would be able to talk about a lot of things." Jiang Xian laughed.

"Oh right, I didn't prepare any present!" Chen Xiang looked at Xie Qiaoyan, then asked: "Qiao Yan, have you prepared a birthday present? I forgot about that! "

"Of course. I thought you were already prepared." Xie Qiaoyan said as he took out a wrapped case: "This is an Emperor Pill I refined. Its main effect is to let it have a young appearance."

"Master Xie, you are so generous!" If my grandfather knew, he would definitely be very happy. He has always wanted to regain his youthful appearance like this. " Jiang Xian said in shock.

"The birthday present I gave him should be the Dao mark Dan that I refined! It's useless to him, but it will make a lot of sense. " Chen Xiang laughed.

"Could the quality be very high?" Jiang Xian knew immediately.

"Of course, that will be the unique Dao mark Dan with the highest quality." Chen Xiang laughed. He gave Xie Qiaoyan the pill he refined previously, it had a 2% chance of quality, but at that time, he had yet to learn the Sublimation refining method.

Xie Qiaoyan also wanted to know how high the quality of Dao mark Dan would be after Chen Xiang comprehended that kind of pill technique!

After Chen Xiang and Xie Qiaoyan got off the carriage, they attracted the attention of the crowd and many people started to discuss about them softly. Regarding those rumors, Xie Qiaoyan did not mind them at all, after all, she felt that being together with Chen Xiang was something that had a lot of face.

Jiang Xian led Chen Xiang and to a luxurious hall, there were many tables full of food and drinks, the moment Chen Xiang entered, he saw Ning Quan and Huang Tian's stinky faces, and they also saw Chen Xiang.

Jiang Xian's grandfather was called Jiang Yingqi and was a very straightforward old man. There were a lot of wrinkles on his face, but he had a face full of smiles.

Xie Qiaoyan went forward and said a few words of congratulations, then presented his own gift.

"This is Master Xie's unique Cosmetics Pill, it's a low-grade Emperor Stage pill. It's most suitable for an old guy like me. Many thanks." Jiang Yingqi never thought that Xie Qiaoyan would gift him such a generous gift, he immediately thanked him, his voice was very loud, causing many of the pill refining masters to be secretly surprised upon hearing it.

"There's no need to be so polite. Elder Jiang, why don't you try out the effects of this pill?" Xie Qiaoyan said.

Jiang Yingqi ate the pill on the spot, and after consuming it, he returned to his normal appearance as a middle aged man. His hair became completely black, which made many of the wrinkled elderly people feel extremely envious.

Xie Qiaoyan took out such a gift. If she needed help in the future, Jiang Yingqi would definitely help out, it showed just how strong Jiang Yingqi was. Otherwise, Xie Qiaoyan would not gift him such a gift.

Normally, Alchemist above Dan God List of Eight Wastelands would be called a master, that was why Jiang Yingqi and Jiang Xian called him that.

"This is Master Shen?" Jiang Yingqi looked at Chen Xiang and chuckled. Although Chen Xiang was able to defeat him wasn't in the Dan God List of Eight Wastelands, in Jiang Yingqi's eyes, he was still a master.

"I am not a master yet, I have yet to refine a Dijie Dan!" Chen Xiang laughed faintly: "Elder Jiang, I really do not know what kind of gift to prepare for you, I am truly sorry! But later, I will compete with Mr. Qiao Kun from the Skyclane Sect, and at that time, I will gift the Dao mark Dan I refined to you, how about it? "

"No problem. I heard that the quality of your single Dao mark Dan exceeds ten thousand. This is extremely rare! "To me, this is a rare collection." Jiang Yingqi laughed: "When you compete with Master Qiao later, I hope that you will not hurt our friendship, this is not good."

"Of course not, the reason we arranged to compete here today is to add fuel to the fire." Chen Xiang said, then looked at Qiao Kun and Qiao Yu father and son. Beside him was an old man, and that old man was clearly the Leader of the Skypiercing Sect.

"Qiao Wushuang is here too. I thought he was in closed door cultivation! He is ranked second in Dan God List of Eight Wastelands! " Xie Qiaoyan said.

Jiang Yingqi laughed: "Not only is Grandmaster Wu Shuang from the Skysword Sect here, even the Infinite Master of the Limitless Pill Dao is there. He is over there!"

[Chapter 2453](#)

Chen Xiang and Xie Qiaoyan looked in the direction that Jiang Yingqi pointed. There, a white-haired old man wearing a Taiji yin and yang map robe was conversing with a few other elders.

"In the past, Infinite Master of the Limitless Pill Dao was ranked second, but later on, he was defeated by Qiao Wushuang. However, later on, Infinite Master also defeated third place, and was still ranked third in the Dan God List of Eight Wastelands." Jiang Xian said.

"Then what about the first? Why didn't they go for the first place! " Chen Xiang asked.

"The one ranked first is very mysterious, I only know that he is called Kong Ming. He did not have any background, but his pill techniques are very superb. Grandmaster Wu Shuang and Infinite Master both lost miserably to him." Jiang Yingqi said.

Xie Qiaoyan also nodded his head, "And it rarely appears even when it's fake for so many years! Everyone would also dare to challenge him, because he would have to pay a huge price. As for what the price is, I will have to ask the person in charge of the Dan God List of Eight Wastelands in charge to know. "

Jiang Xian patted Chen Xiang's shoulder, and laughed: "Master Shen, with so many masters present, do you feel pressured?"

Chen Xiang chuckled: "I don't feel the slightest bit of pressure, but I am looking forward to fighting with Mr. Qiao Kun as soon as possible!"

A lot of people gradually came over, and everyone sat at their seats. Chen Xiang, Xie Qiaoyan and Jiang Xian all sat at the same table.

At this time, Jiang Yingqi had also walked up to the raised platform constructed above the great hall. After exchanging some polite words, he publicly expressed his gratitude to Xie Qiaoyan for the Beauty Emperor Pill he gave to him, allowing him to regain his middle-aged appearance.

His current fame was so great, and was also paid much attention to by the masters. After all, Chen Xiang had defeated Xie Qiaoyan before, and even won over that many Jade money, and now, he was even prepared to bet ten billion with Qiao Kun!

"Today, two of my friends on the stage will compete and refine a Dao mark Dan just to cheer this old man on. Although it is a relatively ordinary Dao mark Dan, it will be the highest quality furnace that they have ever refined." Jiang Yingqi laughed loudly: "Now, I invite Master Qiao and Master Shen to come up!"

Chen Xiang and Qiao Kun immediately walked over, and cupped their hands to everyone on the stage.

"In order to increase the pressure on themselves, they all took out ten billion Jade money to gamble, and this might be the richest bet in the city. If I can personally witness this at my birthday banquet, it would be a very generous congratulatory gift." Jiang Yingqi laughed openly.

This matter had already spread since yesterday, so the match between Chen Xiang and Chen Xiang was also the focus of attention today!

At this time, Qiao Wushuang walked up as well. Just as he walked up, the Infinite Master of the Limitless Pill Dao also came up.

"Grandmaster Wu Shuang and Infinite Master are currently ranked second or third in Dan God List of Eight Wastelands. With them watching the competition on the spot, we can guarantee a fair certificate." Jiang Yingqi then asked the two masters: "I'll leave this to you two!"

"Before the competition, both parties have an hour to adjust their state of mind!" Qiao Wushuang said blandly. He was Qiao Kun's father, a Leader of the Skylands Sect. Even though his voice was calm, it carried a sense of majesty.

That Grandmaster Wushuang did not say anything. He just stood to the side and watched.

Mr. Qiao Kun is also from the top of the Dan God List of Eight Wastelands. Although he is only ranked fifteenth, he has been ranked since many years ago. He definitely has improved a lot over the years, and even his son has challenged Xie Qiaoyan. This was what Ning Quan had said.

Furthermore, he entered the Dan God List of Eight Wastelands a lot earlier than Xie Qiaoyan. It's just that for the past few years, he didn't want to challenge the higher ranks, otherwise his ranking would have been even higher. "

was Qiao Yu's father when they competed. Furthermore, he was an extremely famous master, so he might be able to refine a single pellet at least five thousand of them, if it was four or five of the Dao mark Dan, the total quality would be twenty thousand. "

"It seems that after the three great native banks have built the city, it's time for the Dan God List of Eight Wastelands to be updated. Many masters have made great progress, and their rankings are also from long ago."

"Everyone should not underestimate Chen Xiang. He is still very young right now, and his cultivation is still in the early stages of the Dao Dan realm."

Everyone was discussing, after all this era was dominated by pills, otherwise the Alchemist above the Dan God List of Eight Wastelands would not be called a master.

Chen Xiang took out the Heavenly furnace. He felt that the Heavenly furnace was enough to handle today's competition! Of course, if Qiao Wushuang and Infinite Master were not by his side, he would have taken out his Chuangshi god furnace.

"This pill furnace looks a little familiar!" Jiang Yingqi suddenly said, and then he walked up the stage.

"Can I take a look?" Jiang Yingqi asked.

"Of course you can. In any case, I'll have the two masters check it out later!" Chen Xiang smiled slightly.

Qiao Wushuang and Infinite Master also frowned slightly, because the pattern on the outside of the pill furnace looked very mysterious.

"Sure enough!" Jiang Yingqi exclaimed: What's the name of this pill furnace?

"Heavenly furnace!" Chen Xiang said.

Qiao Wushuang and Infinite Master were startled, their faces full of shock!

"This is Long Jiuxiao's work!" Infinite Master quickly replied: "But he has already been missing for many years. In the past, he was Eternal Life Native Bank's famous money maker."

"He's also a very terrifying dragon!" Qiao Wushuang frowned: "How did you obtain this pill furnace?"

"I picked it up!" Chen Xiang said.

Qiao Wushuang and Infinite Master both had looks of disbelief. How could this be picked up so easily?

"Ah Kun, take out your pill furnace." Qiao Wushuang said.

Qiao Kun immediately took out a Three-legged Pill Furnace. It looked like a cauldron, but it was not.

"This is the Jutian Dan Ding!" Jiang Yingqi was surprised: "Grandmaster Wushuang, this is the cauldron you used to concoct pills!"

"I've already passed it on to A'Kun!" Qiao Wushuang said.

"Junior is ill-informed, may I ask if this Jutian Dan Ding is powerful?" Chen Xiang looked at the extremely ancient cauldron that he was facing.

"This is a Heavenly artifact!" Qiao Wushuang said indifferently: "It's much stronger than your Heavenly furnace!"

"So that's how it is!" Chen Xiang praised: "I also have a Heavenly artifact, but that thing is too small, and can't be used to refine pills. Senior Wushuang's Jutian Dan Ding is truly envious of the younger generation!"

Chen Xiang actually had a Heavenly artifact as well? This was something like a phoenix feather or a qilin horn, and there were only a handful of people in the entire Wasteland who had such a thing, even Chen Xiang, the guy from the Dao Dan realm, had one!

"Can you broaden my horizons!?" Jiang Yingqi asked quickly.

[Chapter 2454](#)

Chen Xiang and Qiao Kun were currently in a very good state. They were very happy and thought that they would win, being able to get the six divine artifacts from the other party.

"Let's prepare to start. Let's check the pill furnace." Qiao Wushuang said to the Infinite Master, he even purposely revealed a proud smile towards him.

After the inspection, Qiao Wushuang said: "Since this competition is so important, how about we raise the time limit to four hours?"

"No problem." Chen Xiang nodded his head, the more time passed, the more beneficial it would be for him, and Qiao Kun, who was on the other side, also thought the same.

When the time comes, all the testing tools will be used by the three great native banks. All three great native banks are represented at the scene, and when the time comes, they will use their three great instruments to test it out. Qiao Wushuang said.

"Alright, I have a lot of trust in the Three Great native banks." Chen Xiang said, then took out the Dao mark Dan's medicinal ingredients.

The Dao mark Dan was a type of pill that could be said to be difficult to make and difficult to make. The current competition was about how to make higher quality Dao mark Danks.

After both parties took out the Dao mark Dan's medicinal ingredients, Qiao Wushuang and Infinite Master inspected them once more. Then, Jiang Yingqi announced the start of the competition.

He was already very familiar with the Heavenly furnace that Chen Xiang was using to refine pills. Whether there was a pill furnace or not, the speed of the Heavenly furnace was the same as the Chuangshi god furnace.

If he were to refine a pill that he was not familiar with, the use of Chuangshi god furnace would be more stable. This was because Chuangshi god furnace had an extremely strong flame, and all sorts of mystical powers within the furnace would be able to play a stable role.

He was only worried that the secret of the Chuangshi god furnace would be exposed. After all, they were still Qiao Wushuang and Infinite Master.

From the very beginning, Chen Xiang had always used the Sublimation refining method with all his might, releasing extremely strong purple flames, and from beginning to end, he had always used these flames to refine Dao mark Dan.

In addition, he would also join the Crash method. This way, he would be able to continuously improve its quality and break through to the next level.

Very quickly, he refined all of the Spirit grain's ingredients. This was only for an hour. Then, he used the pattern refining technique to quickly refine all of the Spirit grain into a clump of medicinal liquid.

Currently, he was still using the purple flames to refine it. As long as he continued to refine it, he would be able to slowly improve the quality of the medicinal liquid.

Qiao Kun on the opposite side was the same, Chen Xiang had learned the Sublimation refining method from their Unhindered Pellet Technique, only that the opponent had a golden flame.

"When this purple flame burns, it consumes an extraordinary amount of Daoyuan immortal power, but it can also increase the quality of the medicinal pellet through the usage of the flame. It can also convert the Daoyuan immortal power into a special power, and refine the pellet."

After Chen Xiang stabilized the clump of medicinal liquid, he split it into eight clumps.

He was going to use the Crash method. Before using it, he had secretly used the Black Tortoise Marks to form a spatial defense against the walls of the pill furnace. This would be able to block out the shockwaves from hitting the furnace.

Because he had the experience of colliding with it many times, during the first collision, Chen Xiang was very proficient and easily passed through. At this time, he was using his purple flames to burn the small particles that came out of the explosion, the quality of these small particles rose very fast under the incineration of the purple flames.

'Could it be that because of the collision, the absorption of the purple fire's sublimation force sped up?' Chen Xiang also didn't think that it would be like this; he had never tried it before.

He quickly condensed these small particles into a group, then divided them into eight groups. After using the purple flames to burn for a period of time, he once again began to collide with them.

A violent purple light burst out from within the pill furnace along with a powerful shockwave. Luckily, he had already used his spatial energy to isolate the pill furnace.

"What a strong explosive force." Chen Xiang was incomparably shocked. This was only the second Crash, but it was actually even more ferocious than the first three.

It could only mean that the quality of the Medicine crystal had increased by a lot under the Purple Flame's incineration.

The small particles that had rammed into the pill furnace were just like the Milky Way on a summer night, but they were emitting purple rays of light.

He once again released the purple flames to burn and sublimate.

Chen Xiang and Qiao Kun had not even finished refining the pill. It seemed that the time limit of four hours had made them feel much more relaxed, and they did not have a sense of urgency in their hearts, which would allow them to refine even higher quality pills.

Chen Xiang had already split the newly formed Medicine crystal into eight groups, and was preparing to proceed with the three Crashes.

There were many people who had witnessed Chen Xiang and Xie Qiaoyan refining Dao mark Dan during their competition. At that time, Chen Xiang's pill furnaces shook continuously, with some movement that was very strong, but it was very stable now.

Ning Quan and Huang Tian obviously wished for Chen Xiang to lose. This way, not only would Chen Xiang lose ten billion Jade money, he would also lose a very precious Heavenly artifact.

If Chen Xiang won, they would die of jealousy and hate Chen Xiang even more.

With so many experts present, even if Ning Quan and Huang Tian wanted to disturb Chen Xiang, they didn't have the strength to do so. If they were discovered, the consequences would be severe.

Although Xie Qiaoyan wanted to stop Chen Xiang from making a bet earlier, she knew that Chen Xiang had a high chance of winning, because Chen Xiang had just learned the Sublimation refining method.

She also knew that Chen Xiang had never tried mixing the ingredients together like this before, so it was hard to say whether he would succeed or not.

Furthermore, she was more worried about Qiao Kun.

Qiao Kun had always been an expert in the Crossing Worlds Pill Art, and was even a Pill God of the Dan God List of Eight Wastelands. Now that he used the most powerful pill furnace in the entire wasteland, he was extremely strong.

Chen Xiang was still going to refine a single pill this time. If this Medicine crystal was to split into a few groups to compress, then the pressure would definitely be much less.

If he were to compress a very large Medicine crystal into a small pellet, the quality would definitely be very high, it would be even higher than dispersing. However, this was risky, and very difficult.

This was also the reason why Xie Qiaoyan always liked to separate when competing against Chen Xiang before, because there was a possibility that something might go wrong. As long as there was even the slightest mistake, it would be fatal.

For example, during the first competition between Chen Xiang and the Dao mark Dan that he had refined, they had failed, but the quality was still very high.

Very quickly, the four hours were over. Qiao Kun was the first to complete it, he took out four golden Dao mark Dan s from the pill furnace and started to condense the pills separately, thus it would be much easier and faster.

[Chapter 2455](#)

Chen Xiang and Qiao Kun were currently in a very good state. They were very happy and thought that they would win, being able to get the six divine artifacts from the other party.

"Prepare to start, let's check the cauldron!" Qiao Wushuang said to the Infinite Master, he even purposely revealed a proud smile towards him.

After the inspection, Qiao Wushuang said: "Since this competition is so important, how about we raise the time limit to four hours?"

"No problem!" Chen Xiang nodded his head, the more time passed, the more beneficial it would be for him, and Qiao Kun, who was on the other side, also thought the same.

"Alright, I have a lot of trust in the Three Great native banks." Chen Xiang said, then took out the Dao mark Dan's medicinal ingredients.

Dao mark Dants were a type of pill that was hard to find, but not easy to find! The competition now was between refining higher quality Dao mark Dan. The overall quality of the Dao mark Dan could be one pellet, or it could be a few pellets added together.

After both parties took out the Dao mark Dan's medicinal ingredients, Qiao Wushuang and Infinite Master checked again, and then Jiang Yingqi announced the start of the competition!

He was already very familiar with the Heavenly furnace that Chen Xiang was using to refine pills. Whether there was a pill furnace or not, the speed of the Heavenly furnace was the same as the Chuangshi god furnace.

If he were to refine a pill that he was not familiar with, the use of Chuangshi god furnace would be more stable. This was because Chuangshi god furnace had an extremely strong flame, and all sorts of mystical powers within the furnace would be able to play a stable role.

After Chen Xiang stabilized the clump of medicinal liquid, he split it into eight clumps!

He was going to use the Crash method! Before he used it, he had secretly used the Black Tortoise Marks to form a defensive space around the walls of the pill furnace. This would be able to block out the shockwaves and prevent too much noise.

Because he had the experience of colliding with it many times, during the first collision, Chen Xiang was very proficient and easily passed through. At this time, he was using his purple flames to burn the small particles that came out of the explosion, the quality of these small particles rose very fast under the incineration of the purple flames.

"Is it because after the collision, the Ascension of the Purple Flame was even faster?" Chen Xiang also didn't think that it would be like this; he had never tried it before.

He quickly condensed these small particles into a group and then divided them into eight groups. After using the purple flames to burn for a period of time, he once again began to collide with them!

A violent purple light burst out from within the pill furnace along with a powerful shockwave. Luckily, he had already used his spatial energy to isolate the pill furnace.

"What a strong explosive force!" Chen Xiang was incomparably shocked. This was only the second Crash, but it was actually even more ferocious than the first three.

It could only mean that the quality of the Medicine crystal had increased by a lot under the Purple Flame's incineration!

The small particles that had rammed into the pill furnace were just like the Milky Way on a summer night, but they were emitting purple rays of light.

He once again released the Violet Flame to incinerate and sublimate!

Chen Xiang and Qiao Kun had not even finished refining the pill. It seemed that the time limit of four hours had made them feel much more relaxed, and they did not have a sense of urgency in their hearts, which would allow them to refine even higher quality pills.

Chen Xiang had already split the newly formed Medicine crystal into eight groups, and was preparing to proceed with the three Crash s.

There were many people who had witnessed Chen Xiang and Xie Qiaoyan refining Dao mark Dan during their competition. At that time, Chen Xiang's pill furnaces shook continuously, with some movement that was very strong, but it was very stable now.

Ning Quan and Huang Tian obviously wished for Chen Xiang to lose. This way, not only would Chen Xiang lose ten billion Jade money, he would also lose a very precious Heavenly artifact!

If Chen Xiang won, they would die of jealousy, and hate Chen Xiang even more!

With so many experts present, even if Ning Quan and Huang Tian wanted to disturb Chen Xiang, they didn't have the strength to do so. If they were discovered, the consequences would be severe.

Although Xie Qiaoyan wanted to stop Chen Xiang from making a bet earlier, she knew that Chen Xiang had a high chance of winning, because Chen Xiang had just learned the Sublimation refining method.

She also knew that Chen Xiang had never tried mixing the ingredients together like this before, so it was hard to say whether he would succeed or not.

Furthermore, she was more worried about Qiao Kun!

Qiao Kun had always been an expert in the Crossing Worlds Pill Art, and was even a Pill God of the Dan God List of Eight Wastelands. Now that he used the most powerful pill furnace in the entire wasteland, he was extremely strong.

Chen Xiang was still going to refine a single pill this time. If this Medicine crystal was to split into a few groups to compress, then the pressure would definitely be much less.

If it was just compressing a big ball of Medicine crystal into a small pellet, the quality would definitely be high, higher than dispersing, but there was risk, and the difficulty was too high!

This was also the reason why Xie Qiaoyan always liked to separate when competing against Chen Xiang before, because there was a possibility that something might go wrong. As long as there was even the slightest mistake, it would be fatal!

For example, during the first competition between Chen Xiang and the Dao mark Dan that he had refined, they had failed, but the quality was still very high.

Very quickly, the four hours were over. Qiao Kun was the first to complete it, he took out four golden Dao mark Dan s from the pill furnace and started to condense the pills separately, thus it was much easier for him.

[Chapter 2456](#)

Qiao Kun had performed the best in refining Dao mark Dan this time, so he believed that its quality would definitely be very high.

"It seems like the overall quality is quite scary this time." Qiao Wushuang laughed, he could not wait to see how high the quality would be.

The three elders from the three great native bank s also walked up. They first took out other pills to test their own equipment to confirm that it was correct.

Xie Qiaoyan also walked up and took out his own pills to test the three instruments.

"Dad, this time, the quality will definitely be very high. It will be the highest in history." Qiao Kun was very confident.

However, he was still unable to take the test, because Chen Xiang was not done yet. If he took the test now, it would affect Chen Xiang, so he was not allowed to.

"Mine is good too!" Chen Xiang let out a long sigh. He opened the pill furnace and took out a deep purple pellet. It didn't look like a Dao mark Dan in the slightest, but it was indeed made from Dao mark Dan's medicinal ingredients.

The color of this super-high quality pill was also different, so no one felt it was strange. They were only concerned about the quality.

"You can start the test now. The first one that you refined is the one you tested." Chen Xiang said.

"Alright!" Qiao Kun walked over and placed his shining Dao mark Dan onto a pit.

"Eight thousand!" Jiang Yingqi shouted in shock.

A single pellet for eight thousand, this caused the people in the hall to let out a startled cry. Previously, when Xie Qiaoyan and Qiao Yu was competing, the total number of Dao Gu Dan that was refined had reached five thousand, this was already considered very high.

But now, Qiao Kun had reached eight thousand, which was more than Xie Qiaoyan by three thousand!

Qiao Kun had tested them using three native bank's test discs, and all she had received were 8,000 points. Xie Qiaoyan had also taken out her test discs, she was only thinking for Chen Xiang's sake, it would make her feel more at ease.

Even using Xie Qiaoyan's testing equipment, it was still worth eight thousand points!

"The first eight thousand!" Qiao Kun waved the pellet towards the people on stage and placed it into another jade box. Then, he picked up the second pellet to test its quality.

"Nine thousand!" This Qiao Kun was Qiao Wushuang's son, but the pill he refined was of such high quality. This was definitely because of that Jutian Dan Ding, he finally understood why he lost to Qiao Wushuang all those years ago.

The second pill cost nine thousand yuan, and there was another commotion in the audience! It seemed like the four pellets Qiao Kun refined were not of the same quality.

These pills had also been tested on the four array discs. They were all of the same quality!

Xie Qiaoyan's face became even colder, she was very worried that Chen Xiang would lose!

The third pill was still 9000!

At the time of the fourth pill, it had actually reached 10,000 pills!

"The total quality of the four pills is thirty-six thousand!" Qiao Wushuang smiled at Chen Xiang: "The entire process of the test was very fair, you saw it yourself."

During the second competition between Xie Qiaoyan and the inner sect disciples, the quality of the Dao mark Dan that Chen Xiang had refined was over twenty thousand, which was still around fifteen thousand away from Qiao Kun's. And now that he had joined the Sublimation refining method, it was unknown just how much it had increased.

Chen Xiang nodded his head: "With such high quality, even if I lose, I am convinced of it!"

"It's your turn now!" Qiao Kun smiled, as if the Six Realms God Cup was already theirs.

"It's my turn!" Chen Xiang's expression was calm, so much so that it was hard to tell if he was worried or not.

Chen Xiang was very confident in his own pill. He could refine more than 20,000 Magic method furnace before, but now, after adding the Sublimation refining method, he would definitely level up by a lot.

"How high can a single grain be? So what if it's twenty thousand?" Ning Quan sneered.

"If we give him 30,000, he won't even be able to win!" Huang Tian also nodded his head: "Chen Xiang only has that much power, he only knows how to refine single pills!"

"Huang Tian, to think that you are an Alchemist. How can you not know that a single pill is the hardest to refine?" Hearing his words, Chen Xiang smiled faintly and then placed the purple Dao mark Dan in his hand onto the pit.

Very quickly, the quality was shown. The numbers left everyone dumbfounded!

Fifty-seven thousand!

Chen Xiang was also shocked. He felt that 40,000 was enough, he didn't think that there would be that much more!

The first one who did not believe him was Qiao Wushuang, which meant that he would lose his beloved Jutian Dan Ding. He quickly picked up Chen Xiang's pellet and placed it on another testing machine, showing that he still lost fifty-seven thousand!

He was unwilling to give up. He tried a few more times but they were all the same, and later he even took out his own. It was still 57,000 yuan.

"Impossible, impossible ..." Qiao Wushuang read these words as he shook his head. He could not accept this reality.

"You've lost!" Chen Xiang gave a bland laugh, "According to the blood contract, you two are going to give me the Jutian Dan Ding and the ten billion Jade money!"

In the quiet hall below, a wave of exclamations and discussions broke out!

Huang Tian and Ning Quan were so angry that their hearts were bleeding. Chen Xiang had two Heavenly artifact now, compared to the ten billion Jade money, it was even more eye-catching.

"Grandmaster Wushuang, hurry up!" Chen Xiang laughed.

Xie Qiaoyan was already stunned beside Chen Xiang, and was unable to say a word. Although she was not the one who won, she felt excited just thinking about it, Chen Xiang alone had two Heavenly artifact, and the quality of the single pill he refined was actually so high.

Long ago, Chen Xiang had felt that no matter what pill it was, there was no limit to the quality of it during refinement. At the very least, he was constantly breaking through his so-called limit.

Qiao Wushuang's hands trembled as he handed the Jutian Dan Ding over to Chen Xiang. His face was filled with depression, and so was Qiao Kun.

Just one Jutian Dan Ding had fallen, even if they lost 100 billion, they would not do such a thing, but this Jutian Dan Ding had taken half of their lives.

Although Infinite Master was expressionless, he was still overjoyed in his heart. He decided to wait for this matter to pass and then challenge Qiao Wushuang. Because the last time Qiao Wushuang defeated him, she was relying on this Jutian Dan Ding.

However, Infinite Master was still very jealous of Chen Xiang. The two Heavenly artifact in Chen Xiang's hands were both his dreams, yet they were both actually in his possession.

Chen Xiang smiled as he received the Jutian Dan Ding and the ten billion Jade money. At this time, Qiao Wushuang and Qiao Kun both wished that they could kill him, but they did not dare to.

Thank you, you two. If you two get another Heavenly artifact, we can have another round. Chen Xiang laughed.

Again? They didn't even come if they were beaten to death, was what Qiao Wushuang and Qiao Kun had said to them! Even though they really wanted to kill Chen Xiang, under the control of the three great native bank s, doing so was undoubtedly equivalent to committing suicide. If they left the city controlled by the three great native bank s, they would definitely not hesitate to make their move.

"Elder Jiang, this is a congratulatory gift for you!" Chen Xiang passed the purple Dao mark Dan over to Jiang Yingqi, and laughed: "This Dao mark Dan isn't very useful, I hope Elder Jiang does not dislike it!"

"Why would I mind? This pill has a huge meaning! " Jiang Yingqi sighed. In his heart, this was already considered a great gift, to have nearly sixty thousand quality Dao mark Dan in his hands was already very heavy.

[Chapter 2457](#)

Chen Xiang only smiled, he did not seem very excited. He was already used to this kind of thing, and this was not the first time he had won such a good thing.

Qiao Wushuang looked a lot older now. After all, no one would be happy if they lost such a precious thing.

After Chen Xiang walked off the stage, Jiang Xian also quickly came over and praised Chen Xiang's strength. He even asked Chen Xiang to take out the Jutian Dan Ding s and show it to him.

In this birthday banquet, only Qiao Wushuang and the others were sad. Although the others looked alright on the surface, they were secretly gloating in their hearts.

He had originally wanted Xie Qiaoyan to stay in the Villa for a few more days. However Xie Qiaoyan said that he had something he needed to do and wanted to return to the Infinite Divine Mountain. He would be leaving the city for a period of time.

Returning to the Villa, Chen Xiang took out the Jutian Dan Ding and easily fused with the cauldron. He unexpectedly discovered that Qiao Wushuang and the others had never merged with the Jutian Dan Ding before, which also meant that they were unable to unleash the power of the Jutian Dan Ding.

"This Jutian Dan Ding seems to be much stronger than that Six Realms Ding, it should be considered very strong amongst the Heavenly artifact." Chen Xiang played around with it, and praised it.

He felt that Jutian Dan Ding were about as precious as Chuangshi god furnace, and the strong thing about Chuangshi god furnace was that the flames they released were extremely terrifying.

Jutian Dan Ding were very suitable for concocting pills, they could concoct higher quality pills!

"Let's give it a try!" Chen Xiang took out the Qingyuan Dan's medicinal ingredients, and placed them inside the Jutian Dan Ding to refine them, using the same Sublimation refining method.

However, right from the start, he had felt that this Jutian Dan Ding required a very large amount of Daoyuan immortal power to maintain its circulation and absorb the energy of heaven and earth. Afterwards, it condensed into a special type of energy within the pill furnace.

"Even if I am an ordinary alchemist, the quality will definitely be very high!" Chen Xiang calculated for a bit before he continued to refine the medicinal ingredients.

Two hours had passed and he had refined ten Qingyuan Dan. He was not clear as to how high the quality was, but he knew that the quality was definitely high!

"Two more, and of a very high quality!" Chen Xiang's ten Qingyuan Dan said: "It seems that no matter what pill this furnace refines, the quality will become very high and it will also need the Daoyuan immortal power very badly."

Although it could increase the quality, there was a price to be paid as well, and that was that the consumption of Daoyuan immortal power was ten times more than that of other pill furnaces!

Chen Xiang calculated in his heart. If he were to use a large amount of pills to concoct pills, this pill furnace would not be too suitable. If he was going to concoct a high quality pill, this pill furnace would be extremely good.

"I had thought that this pill furnace would be more suitable to concoct pills than the Chuangshi god furnace." Chen Xiang then took out the Chuangshi god furnace again: "The Chuangshi god furnace can refine anything, the Jutian Dan Ding might not be able to do it."

Chen Xiang had quite a few Qingyuan Dan in his possession, after eating a few, he started to cultivate. He needed to raise his strength, if not he would need to use up a lot of Daoyuan immortal power to refine those high levelled pellets in the future.

Right now, he was only at the first stage of Dao Dan realm! The advantage of Dao Dan realm was that it could comprehend a stronger power of the Ancient Code. At the same time, it could also strengthen the dao core and quickly create more Daoyuan immortal power.

After Chen Xiang ate the Qingyuan Dan, he began to circulate his cultivation technique and cultivate his spirit pellet above Divine Sense Sea. Only by making this spirit pellet grow, would he be able to better understand the power of the Ancient Code.

The city that the three great native banks had jointly constructed was called Three Money Divine City. The scale of the city was extremely large and the center was gradually becoming bustling with activity.

In order to make the city even more lively, the three great native banks lowered their standards and invited more people to enter these cities.

Chen Xiang had secluded himself in the Villa for three months and he had eaten a lot of Qingyuan Dan s before finally stepping into the second level of Dao Dan realm. At this moment, he could feel the extremely strong spatial and flame energy of heaven and earth.

However, the higher his cultivation, the more he would be able to absorb! In other words, Dao Dan realm could be used to borrow the power of the Heavenly Dao. The higher the cultivation, the more one could use it.

The last time he fought with Jiang Xian, Jiang Xian suddenly increased his power by a lot because he borrowed the power of the Heavenly Dao.

Chu Hongqing and Yang Xiangyin had also grown quite a few medicinal herbs in the You Yao Mountain Villa. The majority of them belonged to Qingyuan Dan s and Dao Gu Dan s.

"We'll talk after we return to the Hundreds of Flowers Village. Bring the Dao Gu Dan back!" When Chen Xiang walked out of the Villa, the Dao Gu Dan s had both the use of the Dao Dan realm and the Dao Po realm, and their main purpose was to strengthen the body.

The stronger the body, the stronger the dao core would be. If the dao core borrowed more Heavenly Energy, the body would also be able to withstand more. Otherwise, the body would be too weak to withstand a large amount of Heavenly Energy, and might even cause serious injuries.

Therefore, in the Dao Dan realm, it was common for people to have a victory in a battle with a cultivation level above them, and to have a victory in a battle with a cultivation above them, they would usually have a strong fleshly body.

Chen Xiang opened the door and walked out. He saw an old man sitting at the entrance.

"Master!" Chen Xiang was shocked, and immediately pulled Huang Jintian in: "Why are you so down and down? Didn't I give you quite a few Jade money? "

"Well, we have too many people, and we also encountered many things on the way, but at least our journey was smooth sailing. I have settled them down." Huang Jintian chuckled.

"Are you pretending to be pitiful so I can give you Jade money!" Chen Xiang curled his lips.

"Where? I am not that kind of person! " Just as Huang Jintian finished speaking, he saw Chen Xiang pass over a Storage bag.

"I knew that you were a filial child. Quite a few!" Huang Jintian laughed, he knew that with Chen Xiang's twenty billion Jade money, they would definitely not treat him badly.

"Master, you have nothing better to do anyways, how about this, help me bring something back, and give it to Qilian!" Chen Xiang chuckled.

"No problem!" Huang Jintian promised straightforwardly. He was indeed free.

Chen Xiang took out a jade box and handed it over to Huang Jintian. Inside the box were many Dao Gu Dan s' medicinal ingredients and a jade plate. Inside the box, there was also the memories Chen Xiang had inserted into it.

He had yet to refine the Dao Gu Dan but he felt that it would not be difficult. Feng Yujie and the rest would definitely be able to solve the problem that was troubling them, and it would not take long for him to go back and forth with the Hundreds of Flowers Village. He was just worried that once he left the city built by the Three Great native bank s, he would be targeted.

Huang Jintian had told him before that the Undead Divine Race back in the Star Law Divine Realm era would be able to calculate where he was. If he were to leave the city, he would coincidentally get caught by those Undead Divine Race.

[Chapter 2458](#)

Huang Jintian took the things that Chen Xiang had given him and left the city, while he planned to refine a Dao Gu Dan.

"Brother Shen, are you inside?" This was Jiang Xian's voice.

Chen Xiang immediately went to open the door, and laughed: "I just came out and you're already here.

"I've got someone waiting here! When they saw you open the door, they informed me immediately, and I came as fast as I could. " Jiang Xian laughed.

"Come in!" Chen Xiang said.

"No, I have an urgent matter to discuss with you!" Jiang Xian took out a piece of Communication jade Symbol paper and said, "Take a look for yourself! I heard that it was Xie Qiaoyan who gave it to you, I don't know what was inside, it should be an urgent matter. "

Back then, Xie Qiaoyan said that there was an important matter to attend to when she returned to the Infinite Divine Mountain, but she would be back very soon. But now, three months had passed and she had yet to return.

Chen Xiang took the jade talisman, and sent his divine sense inside, immediately hearing Xie Qiaoyan's voice, "Chen Xiang, do not leave the city controlled by the three great native bank s. There are many forces outside trying to capture you, and they are all very strong, including the Undead Divine Race!"

With how famous he was now, the Undead Divine Race s and Evil Spirit Race s of the same generation as him would definitely hear about his achievements here. It was normal for them to know about him now.

"Do you have any news about Xie Qiaoyan? She said that she would be back, so why is it you can help her send a message to me now? " Chen Xiang asked.

"She came here a month ago, but she can't enter your villa. She said that she still has something to do in the Infinite Divine Mountain, so she asked me to pass this on to you! What did it say? Is this a very important matter? " Jiang Xian asked.

"She warned me to be careful and stay in these cities as much as possible. Once I leave, there will be many powerful organisations that will capture me." Chen Xiang said: "I can guess that!"

"That's for sure. You have two Heavenly artifact s in your possession, and twenty billion of them at that. Xiuwen isn't that high and you don't have any powerful experts by your side either." Jiang Xian said: "If you leave now, others will find out where you are. You don't even need to think to know what kind of situation you will be in."

Chen Xiang sighed helplessly: "Looks like I have to become stronger in this city, or else if I go out, I'll be robbed."

"Actually, it's not like you can't go out. You're so rich, and your alchemy skills are so profound, you can definitely have a few strong bodyguards. That way, you can have some protection as well." Jiang Xian laughed: "You can go take a look at the Three Great native bank s. They might have someone suitable for you."

"I've already registered for the gambling match, do you want to take a look? The preparation is about to begin. "

"No, I know you will win." Chen Xiang laughed.

"That's true, but you can't bet on it even if you go. The Three Great native bank s can't allow someone like you to gamble. If you go, they will lose a lot." Jiang Xian laughed as he patted Chen Xiang's shoulders. Then, he quickly walked towards the fighting arena.

Jiang Xian was already very strong in the Limitless Battlefield. Although he retreated, he was quickly increasing his strength and fighting to gain more combat experience.

Chen Xiang wanted to see if he could use the Jade money to hire a few strong bodyguards. That way, he would have a guarantee when he goes out.

Right now, he was the most famous person in the city. As he walked on the street, there were many people watching him and discussing him.

When Chen Xiang came to the Eternal Life Native Bank, the shopkeeper immediately became anxious. Chen Xiang was their big client, but they were worried that Chen Xiang was here to earn money.

Chen Xiang directly went upstairs, where there was some slave sale and other stuff. He wandered around, but did not find anything satisfactory, it was just that they were too weak, he felt that there was not much of a guarantee.

Being too famous also made Chen Xiang a bit troubled. He had no choice but to use his transformation technique to change his appearance, and at this time, he was much more peaceful inside and out of the native bank.

He was currently in the Three Lives native bank, and wanted to see if there were any good servants to sell, but he unintentionally heard someone talking about Xie Qiaoyan.

"Xie Qiaoyan actually lost, and was defeated by a man inside the Infinite Divine Mountain, and now she is no longer a master above the Dan God List of Eight Wastelands!"

"Yeah, I thought she was close to Chen Xiang and had learnt a few moves from him, but she still lost in the end!"

"I heard that he is preparing to challenge the champion of the Infinite Divine Mountain's Unrivaled Master Wu Shuang, who has just returned to the second place! Right now, the momentum of the Infinite Divine Mountain was very strong! The Skysword Sect has been suppressed by them! "

"The Skysword Sect doesn't have any Jutian Dan Ding, so they are destined to decline. They are simply too arrogant, to actually use this kind of thing as a bet. They are truly reaping what they sowed."

"Haven't you heard? Right now, the place is bustling with noise and excitement, we are too plain and dull in the Three Money Divine City! All the heroes are gathered in the Eastern Wasteland! "

"Why are you going to the Eastern Wastelands? Did something big happen? How come we don't know about this? "

"I only found out about it after entering from the outside. You will probably know about it in a few days, and I heard that an extremely huge mountain range suddenly descended from the Eastern Wastelands. I heard that the reason the Skysword Sect went all out was to search for the Heavenly artifact. "

Hearing this news, Chen Xiang did not dare to be sure that it was true, but he felt that it was possible. Maybe Xie Qiaoyan had also gone there, which was why he did not come looking for him.

"This happened a few days ago! Of course, if one wanted to obtain Heavenly artifact s, there was a lot of risk! The mountain range that suddenly appeared is extremely strange, and even now, we still have not figured out what happened. "

When Chen Xiang heard this news, he also wanted to take a look, but he was extremely worried about his own safety. He was at the second stage of the Dao Dan realm, and compared to the experts of the sects and families, there were a lot of people watching him.

"I'll just have a look. Anyway, I haven't come to this Big Chaotic Times and have yet to experience it properly!" Chen Xiang made up his mind. After that, he left the Three Lives native bank and came to the Eternal Life Native Bank.

At this moment, he had already used a transformation technique to change his appearance. If he did not have a unique technique, it would be impossible to see through.

The Transmission array in the Eternal Life Native Bank could be teleported to various large cities in the Wasteland, while Chen Xiang could teleport to the Haotian City in the Wasteland.

The city was very crowded, and he could only walk along the streets close to people. From the large crowd gathered here, he knew that what he had heard before was true.

Of course, this group of people didn't gather here to go to the mysterious mountain range, but to do business here. After all, there were many places to earn money.

Chen Xiang had experienced the terror of the Wasteland. Amongst the people who were gathered here, there were many Dao Po realm s, but these people looked to be very poor, not very rich.

Chen Xiang had bought some information from the mouth of a Dao Po realm middle aged man. That person specifically told him that someone else had obtained the Heavenly artifact, and that it was the people from the Infinite Divine Mountain!

[Chapter 2459](#)

In just 10 short days, in the mysterious mountain range that suddenly descended, two Heavenly artifact appeared. This was enough to make many experts go crazy!

He suddenly felt that the three great native banks intentionally sealed off the news, all to prevent the people in those cities from finding out! On one hand, he was worried that the competition would be more competitive, and on the other hand, he was worried that the people from Three Money Divine City wouldn't be able to come back after they went there.

"The big powers and upper echelons in the Three Money Divine City must be aware of this, but they have kept it a secret, so Jiang Xian does not know either." Yang Xiangyin said: "Master, you must be careful when entering that mountain range! Not only is there danger inside, the experts who go in to search for Heavenly artifact are also a great threat to you. "

"En, I will be careful!" Chen Xiang said.

After Chen Xiang left the city, he saw that the countryside outside the city was filled with tents or small wooden houses. There were a lot of people outside the city and it had become a simple and crude city.

Of course, there were also a lot of people who were here to search for companions. This way, they would be safer.

When Chen Xiang was in the city, he had already asked around for the location of the mountain range.

Chen Xiang travelled for half a day and also saw the mountain range. From afar, he could see jade-green mountains that stretched for tens of thousands of miles.

Occasionally, there would be clouds floating in the middle of the mountains. Some of the mountains even had silver waterfalls hanging down. If one listened carefully, they would even hear the sound of the water splashing. It was as beautiful and magnificent as an immortal mountain.

"It suddenly appeared? "This is quite magical. Let's go in and take a look. If anything goes wrong, we can run again." Chen Xiang had also heard that there were a lot of people who could come out after going in, if not no one would be able to find Heavenly artifact.

Chen Xiang quickly entered the mountain range and walked in the fragrant mountain forest. Listening to the pleasant birdsong, he instantly felt refreshed.

"This is not in any other space. How strange, why would such a beautiful mountain suddenly appear?" Chen Xiang pondered the entire way.

He had come here to roam around, so he was in no hurry to travel. He walked slowly along the way, feeling the beauty of this strange mountain range.

"These plants are fairly old. They should have been growing for a long time." Chen Xiang gently touched a flower, then he used the God's Eye to look around.

Now, he was even more certain that this was a mountain range that should have existed for many years, and it was not an illusory formation. This was because he could see that the flowers, plants, and trees were greedily absorbing the Dao Qi of heaven and earth.

"The environment here is much better than other places. It seems like those sects and aristocratic families didn't just come here for the treasure, they are also seizing territory!" Chen Xiang suddenly thought of this, this place was so good, even he himself wanted to stay here for the long term.

"How did they find the Heavenly artifact in here? This mountain range is not small!" Chu Hongqing asked.

"I don't know. That person just wants to see how lucky he is!" "I'm still at the outer layer of the mountain range. I'll go deeper in and see if it's the same place as this place." Chen Xiang used his Space wind, and quickly sensed that there were people ahead of him, and he had also entered a deeper place, he was just unsure if this was the place with the deepest depths of the mountain range.

There were a lot of people ahead, so Chen Xiang turned into a bird that flew over and stopped on a tree.

There were more than a thousand people resting beside a small river. With so many of them, they must belong to the same faction.

"When will we be able to reach the position where the Patriarch is? They have been gone for several days!" A person complained.

"I don't know. The Patriarch and the Elders went there with great difficulty. We should still have to walk for a few more days!"

"I don't know what's in there either. I heard that it's pretty dangerous, but there's Heavenly artifact! If our Ning Family has one of the Heavenly artifact, then we don't need to care about Infinite Divine Mountain's face anymore. "

"No, we need at least two. Infinite Divine Mountain has already gotten one Heavenly artifact!"

"Chen Xiang has two, but this guy is too weak. As long as we leave the city of the three great native bank, once we are discovered, we will be robbed."

Chen Xiang did not expect to hear someone talking about him here, and he did not know whether to laugh or cry. Now that he knew that these people were from the Ning Family, they were all relatively weak. They were probably called in to build shelter or something.

Based on his deductions, Chen Xiang believed that there would not be any danger from the depths, if not the Ning Family would not let such a group of people in.

Just as Chen Xiang flew to another tree and was about to fly forward, an old man suddenly took out a piece of Communication jade Symbol paper. After he read the contents inside, he immediately shouted: "Patriarch has sent news, saying that Chen Xiang has already entered the mountain range! Let's split into groups to search for him. Once we discover him, do not alert me by any means, and let me notify the Patriarch. "

"So fast!" It seems like the Undead Divine Race is also inside, only they can calculate that I am inside! " Chen Xiang was on his guard now, although he knew that there were powerful enemies in front of him,

he still wanted to go in and see. He wanted to know why there were Heavenly artifact here, and even more of them.

Chen Xiang guessed that, and only after Undead Divine Race calculated his approximate location, did he inform the other forces that Undead Divine Race did not care about the Heavenly artifact in his body. They only hoped to kill Chen Xiang, as they were very clear of Chen Xiang's potential, and would definitely become his rival in the future.

"I haven't played this game in a long time!" Chen Xiang secretly laughed in his heart. In the past, he would often deal with existences that were a lot stronger than him.

He continued to move forward, turning into a bird as he flew. In order to be more hidden, he even blended into the flock, imitating the smell of the bird as he flew forward.

There were countless birds in the forest, with a variety of species and there were birds everywhere, so it was best for Chen Xiang to hide as a bird.

What made Chen Xiang felt even weirder was that the birds in this place were all bold. Even if there were people flying everywhere, the beasts roaring in front of them, the birds would not be scared.

"Where are the birds going?" Chen Xiang mingled with the flock of birds and felt that there was something different about this group of birds. They seemed to have been summoned by something and were rushing towards a certain place.

Chen Xiang flew with the flock of birds until the morning of the second day. Suddenly, he heard a crisp and gentle cry, accompanied by a burst of Qi, which he felt to be very familiar with.

With a puzzled expression, he followed the flock of birds out of the forest. In front of them was a vast grassland with all kinds of birds circling in the sky. These birds arranged themselves in an orderly manner, soaring high in the sky. In the middle of the plains below was a small mound, and on top of it stood a beautiful giant bird covered in fiery feathers.

"Phoenix!" Chen Xiang exclaimed. "This aura is so familiar ... Could it be Xue Ying's? "

Xue Ying is the Phoenix Princess, and also Lv Qilian's disciple. His relationship with Chen Xiang is not bad, and he should be in the Hundreds of Flowers Village right now!

Therefore, Chen Xiang was not sure if this phoenix was the one he recognized!

Chen Xiang looked at the beautiful fiery red phoenix and had the urge to fly over.

"This is a Heavenly beast!" Chu Hongqing exclaimed: "I never thought I'd see someone alive!"

"The phoenix is the emperor among birds, it's said that it has an immortal body, this strange mountain actually has this kind of Heavenly beast, it's really magical," Yang Xiangyin said.

"There's a phoenix in the Hundreds of Flowers Village. She's even Big Sister Qilian's disciple. The aura of this Phoenix in front of us, is very similar to that of Hundreds of Flowers Village's. " Chen Xiang said.

Although Chu Hongqing had stayed in Hundreds of Flowers Village for a period of time, she didn't know about this sort of thing.

Chen Xiang wanted to go over to take a look, but he was worried that he would alarm the phoenix. Moreover, the phoenix was covered in a holy light, he did not know what it was doing.

"It's really a Heavenly beast here, no wonder it has such a terrifying aura!" A person suddenly appeared with a face full of pleasant surprise, followed by a large group of people.

"It's a phoenix, you must definitely catch it. Also, make this phoenix our Ning Family's guard Heavenly beast. This is something even more honorable than obtaining the Heavenly artifact." An old man laughed loudly and immediately rushed over.

The phoenix let out a long cry and flapped its wings, creating a blazing fire. The fire spread out in all directions and instantly enveloped the entire prairie in a sea of fire.

The countless birds circling in the air scattered in all directions and disappeared in the blink of an eye. The phoenix also turned into a streak of red light and flew towards the forest, disappearing in the blink of an eye.

"Quickly chase!" The Ning Family elder shouted.

Previously, the Ning Family wanted to capture him, but now, they wanted to capture the phoenix. If not for the sudden arrival of these people, he might be able to converse with the phoenix and ask about some things here. This way, he could confirm that the phoenix was not the Xue Ying he knew.

Chen Xiang was not worried about that phoenix either. The power that the phoenix used just now was extremely strong, and it ran very fast.

He also wanted to catch up, but he needed to find Xie Qiaoyan first. Xie Qiaoyan would be more familiar with the situation here, she was the first person to enter.

Chen Xiang continued to fly in the middle of the forest. This mountain range was extremely strange, especially in the depths, there were many weird-looking flowers, plants and trees. He was currently in a blue colored forest.

The trees inside were not very big, but the bark of the trees were all blue, and would even flash. Some of the trees grew flowers, and from time to time, a drop of blue liquid would drop.

"I wonder if there are any medicinal herbs here that can concoct pills!" Chen Xiang was very careful now, he used his own experience to search around here.

Not long after, he found a small hollow tree under the root of a big tree. Traces of light blue mist were coming out from the hollow of the tree.

"There are strange and wondrous flowers and plants in the tree hole. This is also to protect myself. At the same time, I absorb Dao Qi from the heaven and earth through the big tree." Using the Dao heart Eye, Chen Xiang could see that tiny blue flower.

He immediately flew over, and just as he was about to enter the tree cave, the big tree suddenly shook violently, releasing a very strange power, making Chen Xiang feel as if he was suddenly blown away by a strong gust of wind.

He immediately turned back into his human form and ran towards the tree once more, but this time he was blown away by the strange power released by the tree.

"How strange, I wonder how it was formed!" The roots of this huge tree actually formed a natural formation beneath the ground, protecting the entire tree from being invaded. The flowers that are hidden inside the hole in the tree also get very good protection. " Chen Xiang looked around, there were no traces of people coming here, he was the first person to discover this blue flower.

After his previous two attempts, he had already discovered that this tree was protected by a naturally formed array formation. Against this sort of array formation, he had an extremely good method of dealing with it.

He immediately tried it, and as expected, it was very easy to pass through the formless array and reach the roots. He reached into the small tree hole, and just as he was about to pick it, he felt a trace of movement from the ground. He immediately wanted to teleport away, but he was still a little too slow.

"AA
AAAAAAAAAAAAAAAAAAAAAAAAAAAA!" Chen Xiang shouted in shock, and then he was hung upside down.

It turned out that his feet were tied up by the vines that hung him upside down beside the big tree. Moreover, there were also many vines that extended onto his body, instantly binding him like a dumpling, exposing only his head.

"This tree has become a spirit!" Chen Xiang exclaimed in his heart, he then wanted to struggle free from the tree, but realised that the Daoyuan immortal power was not able to flow into his body.

"Do you want me to go out and help you?" Chu Hongqing asked.

"Don't come out, this tree is very dangerous!" Chen Xiang had never encountered such a thing. After his feet were bound by the tree vines, the tree vines actually released a strange power that seeped into his body and absorbed the hidden Daoyuan immortal power in his flesh.

After a few tries, Chen Xiang realised that as long as he was able to release a bit of Daoyuan immortal power, it would all be sucked dry immediately. As long as it was the energy that escaped from Divine Sense Sea, it would all be sucked into the big tree!

"Then what should we do? Use your sword!" Chu Hongqing immediately said.

I have to be released at the same time, I am bound like this, I am unable to use it, if I want to control the sword, I have to release a very strong Daoyuan immortal power to control it, but the speed at which the Daoyuan immortal power is absorbed by the tree is extremely fast. Chen Xiang laughed bitterly, he was currently thinking of a way, for the moment, he was much safer.

His physical body's strength was not strong enough, and all the energy inside the Divine Sense Sea would be instantly absorbed. Originally, he wanted to borrow the Natural Law Principles's power, but like before, he was also sucked dry, which gave Chen Xiang a huge headache.

If he called Chu Hongqing out, then he was worried that they would also be tied up by the vines, which would be even more troublesome.

"Someone's coming!" Chen Xiang frowned, he heard a lot of footsteps: "It's Huang Xiaotian!"

He recognized this Qi. Chen Xiang was currently unable to use the power of the Divine Sense Sea, so he was unable to use his transformation technique.

"It's Chen Xiang!" After Huang Xiaotian arrived, he shouted in joy. He was not stupid and immediately said to the people around him: "Everyone be careful, there's a problem with this tree!"

"They are all from the Fire Reverent School!" Chu Hongqing said anxiously: "Do you really not want us to go out? You are in danger now! "

"Not for now, they won't be able to make it!" Chen Xiang said.

Huang Xiaotian laughed from afar, "That's great, we can find any place with our broken steel shoes now, and Chen Xiang will fall into our hands!"

To be able to obtain two Heavenly artifact s just by obtaining Chen Xiang, many people thought so!
