

Dan God 2591

[Chapter 2591](#)

Chen Xiang used the Heart Devouring Bone Poison, which could quickly melt the Bones and heart in his body, but there were already many wounds on the surface of the Strong of Divine Wasteland, and he was already severely injured, so he was unable to circulate his energy in time to resist the invasion of the poison.

Chen Xiang still had not revealed himself. He was still using the Counter Power to make himself transparent, but the Strong of Divine Wasteland was able to sense that he was right beside him.

Chen Xiang snickered in his heart, and then used the Soul Absorbing Devil Spell on the Strong of Divine Wasteland.

He had originally planned to use the Devouring magic kungfu to absorb the energy, but he was worried that there was something special about the energy he was dealing with. After all, this was someone related to the Heavenly Dao above Divine Wasteland.

The other party had a lot of memories, so Chen Xiang could only browse through a few useful memory fragments quickly before choosing to absorb them. Otherwise, if he absorbed too much, it would cause him a headache.

"So Divine Wasteland is actually such an existence." At this time, Chen Xiang also gained some understanding of the Divine Wasteland. Above it was indeed a very powerful world, and it seemed to be the starting point and destination of everything.

The origin of power was the Divine Wasteland, and the end point of strength evolution was also the Divine Wasteland.

Of course, this was still a rather distant away from Chen Xiang. He had already figured out the purpose of these Rankers from Divine Wasteland coming down here.

The Heaven Wasteland Aristocratic Family, Great Landlord and the group of Gods were originally created by the God of Heaven, and now that the Heavenly Master was in the Divine Wasteland, the God of Heaven had lost his power in the Divine Wasteland. In order to obtain power, the God of Heaven had weakened the power of the large group of Gods.

However, the Heavenly Dao God did not care, and now he had sent people down, he planned to use the "Natural Law Guardians" that was sealed back then, which was the current Black Hairs Human that had opened the path to the Evil Heaven Dao.

To fuse the Great Celestial Way of the Evil and the Natural Law World.

Back then, this Natural Law World had two worlds, positive and evil. Both worlds were in a balanced state, with human beings on both sides, except the two wouldn't interfere with each other.

Right now, because the righteous path's world was out of balance and its strength was weakening, the Heavenly Dao God could only absorb the power of the righteous path, so it would affect his strength. In order for him to gain more power, he planned to merge the two worlds together, thus allowing him to obtain a very strong power for a short period of time.

This was also what Great Landlord had said before, "I betrayed myself." Great Landlord knew many things, but he did not tell Chen Xiang.

"The Black Hairs Human army is just the prelude. The Heavenly Evil Way is the most terrifying one, I wonder how strong those fellows are." Chen Xiang kept cursing the God of Heaven in his heart. He had done so many things just for his own strength.

In order to let the doors of the evil world open, the Heaven Wasteland Aristocratic Family had to do the job of awakening the Black Hairs Human, and the God of Heaven had told them that the Black Hairs Human's body contained the "Primitive Tao Power", which could remove the restrictions on their body.

There were many limitations to the Heaven Wasteland Aristocratic Family's Heavenly Dao bloodline. Just like the Great Landlord, no matter how strong he was, he had to stay in the Natural Law Divine Realm and he could not break past the limit.

However, if they removed this restriction, they might be able to head to Divine Wasteland and escape the control of the God of Heaven. They were already tired of staying in Natural Law Divine Realm and had wanted to go to Divine Wasteland for a long time.

"Does Great Landlord know about the Primitive Tao Power?" Chen Xiang looked at Great Landlord who was standing in the distance and fighting. Great Landlord was not bad, the God of Heaven had once ordered Great Landlord to awaken those Black Hairs Human, but he did not do so, which was why he allowed Heaven Wasteland Aristocratic Family to do so.

When the God of Heaven sent people to the Sacred Wasteland, other than opening the door to the Evil Heaven Realm, he also needed to punish the Great Landlord.

Chen Xiang's expression was currently solemn, because there were seven people who had left the Divine Wasteland, but there were only three that had come to the Heaven Wasteland Aristocratic Family. He did not know where the other four were.

Great Landlord's side had also ended the battle. After the expert from Divine Wasteland was killed, Chen Xiang immediately flew over.

"One more guy was killed by me." Chen Xiang anxiously told Great Landlord.

"Oh, no wonder. I was wondering why that guy's aura suddenly disappeared. I thought he ran away, but you actually killed him." Great Landlord laughed, at this time he was extremely tired.

Chen Xiang looked at the gigantic tree that was shrinking behind him, and laughed: "Great Landlord, your tree is truly powerful."

"This is the World Tree, of course it's powerful." Great Landlord laughed: "How exactly did you kill that guy. Even though he was injured, it wasn't easy for you to kill him without him noticing."

"I used poison." Chen Xiang said.

"Did that girl give it to you?" Great Landlord laughed, he actually guessed that it was Du Xiaoling who gave it to him.

"How do you know?" Chen Xiang was surprised.

After Great Landlord put away the tree, she brought Chen Xiang and ran far away from here.

"Other than her poison, I can't think of anyone else who could have dealt with it." Great Landlord said: "She is extremely dangerous, even though she is a good person." It's a pity that she can't escape the control of the Heavenly Dao. "

"I've already gotten rid of her. I helped her." Chen Xiang laughed: "That's why she gave me this poison, in order to repay me."

This little girl is pure and kind, but she is extremely powerful. Especially when using poison, I was somewhat afraid of her. For many years, she has been controlled by the Heavenly Law. If the Heavenly Law needs her, I can make her come and destroy the world at any time. Great Landlord was pleasantly surprised.

The death poison that Du Xiaoling released was indeed terrifying.

"Great Landlord, I already know about the scheme of the God of Heaven." Chen Xiang told them everything he knew.

After hearing that, Great Landlord's face became gloomy: Of the seven people that came, two have already been killed by me. One was left in Heaven Wasteland Aristocratic Family, and the other four are still in there.

"I don't know anything about the Primitive Tao Power that can remove the restrictions, I only know that the Primitive Tao Power can open the door to the Great Way of the Evil Heaven. I thought those guys were here to deal with me, I never thought that there would be four more people that went somewhere else." Great Landlord also did not know about the Primitive Tao Power.

"Looks like I have to personally go find those fellows. The Black Hairs Human must have already exploded, there is a large number of Primitive Tao Power in the body of the Black Hairs Human, once they awaken on a large scale, if they die, the Primitive Tao Power will return to the main road. If I grasp the laws of the Primitive Tao Power, then I can absorb the Primitive Tao Power to open the gate." Great Landlord brought Chen Xiang and quickly left the Sacred Wasteland.

"Sacred Wasteland is fine." Chen Xiang was a little worried. After all, he had angered the Heaven Wasteland Aristocratic Family, and he was worried that the Heaven Wasteland Aristocratic Family would start a massacre there.

"Don't worry, there are still three Second Manor Lords blocking them." Great Landlord said: "They are not vegetarians either. They only have one less Chuangshi artifact than me."

[Chapter 2592](#)

Chen Xiang had thought that only one of the three native bank s was powerful, but he never thought that the other three Second Villa Masters were actually at the Dao God Realm.

Great Landlord brought Chen Xiang and left the Sacred Wasteland, arriving at the center of the New Eight Wastelands. Afterwards, the Great Landlord left on his own, in search of experts from the other Divine Wasteland s.

Chen Xiang sighed helplessly, he did not expect that the situation would go as planned, and something like the Great Way of the Evil Heaven would actually appear.

He returned to the Heavenly Dragon City, and told Chu Hongqing and his wife to return back to the You Yao Mountain Villa. With them there, there was no need for him to be busy growing medicinal ingredients.

The Black Hairs Human had already left the Devil Wasteland, but what made people more worried was that these Black Hairs Human did not start a massacre as soon as they came out, rather, they were building a city in an orderly manner.

This was out of the big shots of the big shots, because they had all prepared their defenses, waiting for Black Hairs Human to come out and attack them.

"According to the information sent by the scouts, a large number of Black Hairs Human s have stayed put, as if they have some sort of plan. I wonder how much they know about us." Long Jiuxiao said, he was more worried about this matter.

After that, Chen Xiang told him about the matters of the Heaven Wasteland Aristocratic Family. After knowing that Chen Xiang had killed two of the Holy Son of Heaven Wasteland, Long Jiuxiao was especially happy as he continuously patted his shoulders.

When I step into the Dao God Realm, I want to go to the Heaven Wasteland Aristocratic Family and start a massacre. These guys shouldn't have existed in the first place. Long Jiuxiao laughed.

"Senior, have you sent people to attack the Black Hairs Human yet?" Chen Xiang asked. If the number of people who killed Black Hairs Human was too great, a large amount of Primitive Tao Power would be taken away.

However, Chen Xiang felt that it was impossible to explain things so easily. The Black Hairs Human must have other motives for staying unmoving, otherwise, from the looks of the atrocities, they would not be so quiet.

At the same time, there were no movements from the profound Wasteland's side, the enchantment around the profound Wasteland had already been lifted.

At the moment, we do not plan to provoke them either. After all, our strength is limited, so we should first increase our strength a little. At the moment, the defense of the Heavenly Dragon City is still very good.

Chen Xiang nodded his head, after all, Long Jiuxiao was an expert in formations, and their strengths were not bad too. If a Black Hairs Human were to attack the city, he could handle it himself, unless he was a cultivator from the Spirit Realm.

Furthermore, Long Jiuxiao had already allied with many strong warriors and it would be difficult to support them from all sides. For example, the Three Money Divine City, the three cities inside the Spirit Wasteland, and then the Hundreds of Flowers Village.

"Looks like I have to go outside of Devil Wasteland, where the other Black Hairs Human s are." Chen Xiang wanted to see what the purpose of these Black Hairs Human s were.

"Yes, just pay attention." Long Jiuxiao wasn't even worried about Chen Xiang, he could already feel that Chen Xiang was very strong now.

... ..

Chen Xiang anxiously rushed out of the Devil Wasteland. The inside of the Devil Wasteland was already ruined by these Black Hairs Human, and now that they were inside the New Eight Wastelands, it was like a paradise for them.

"These guys have all built cities. They look more and more like humans. What the hell is going on?" Chen Xiang stood on top of a tall mountain, looking at the few gigantic cities in the distance.

"I heard from sister Viola that there are two types of Black Hairs Human. One is extremely brutal, while the other is almost human, but in my heart, I still feel great hostility towards humans. This one is also the strongest." Chu Hongqing said.

"Oh, how did elder sister Zi Lan know about this?" Chen Xiang asked.

"It's the information that Yanran and the others found out." Chu Hongqing said. She and Yang Xiangyin had stayed in Yan Zilan's shop for too long, and they had become very familiar with the woman inside.

"I almost forgot... Yanran and the others are experts at gathering information. However, I am still a little worried about them." Chen Xiang was indeed worried, because he understood those Black Hairs Humans.

"Don't worry, Yanran and the others aren't weak either." Yang Xiangyin laughed: "They have so many pills to eat, how can they recover from it?"

Yan Yanran and Lan Lan were both good seedlings, if there were enough pills for them, they would definitely not be weak, and they were both hardworking women.

After Chen Xiang observed the Black Hairs Human for a long time, a Black Hairs Human suddenly appeared in the forest below.

"Why did this guy run out by himself?" Chen Xiang immediately flew down. That Black Hairs Human was not very strong, but Chen Xiang could use a very powerful Jiuyang Dao power. Even if his cultivation was at the tenth stage of the Dao Sect, he could easily kill him, or even kill Dao Sovereign Stage experts.

The Black Hairs Human in the forest was emitting a black aura. From afar, it looked like he was covered in furry hair.

He was jumping around in the forest while whistling. Indeed, he looked very similar to a human. If he did not have that strange appearance, then he would be a human.

This Black Hairs Human seemed to be very happy at the moment. He whistled and hopped around in the forest, randomly hitting flowers as if he was a naughty monkey.

Just as the Black Hairs Human was playing with the beast bone in his hand, Chen Xiang suddenly appeared in front of him. Using the Jiuyang Dao power to form a rope, he tied the Black Hairs Human up.

"Person... "Humans." The Black Hairs Human cried out in alarm, as if he had seen a ghost. Chen Xiang had not changed his appearance yet, he thought that he looked pretty handsome, so he wasn't that scary.

"Why, you're afraid of me." Chen Xiang sneered.

"Mm, I'm very scared. Don't kill me, okay?"

The Black Hairs Human immediately nodded his head, his pale face was filled with fear, the entire Black Hairs Human was a little short, although his face was very white, but it was obvious that he was a handsome young man. Other than his fair face, his face looked no different from a human's, only that his body was covered with black Qi, which was very easy to see.

Chen Xiang never thought that this Black Hairs Human would have such a reaction, he suddenly felt that these Black Hairs Human had already changed greatly.

"Alright, I won't kill you, but you have to answer my question." Chen Xiang pretended to be very fierce.

"I know, I'll answer you." Black Hairs Human quickly said.

"Why did you come out yourself?" Chen Xiang asked: "Are there still any companions around here?"

"I feel bored inside the city, and the higher-ups have ordered me not to leave the city on my own. I spent a lot of effort and dug a tunnel to get out of here, and I'm the only one here." The young Black Hairs Human said.

"What is your goal? To come out from the Devil Wasteland and build a city. Chen Xiang asked again, this was also what he was more concerned about: "You guys were previously so brutal, you should have immediately attacked this place."

[Chapter 2593](#)

Hearing Chen Xiang's words, the youth sighed, and said: "Big brother, you misunderstood!"

Chen Xiang felt that it was very strange. Other than the fact that Black Hairs Human's outer appearance was different from a human's, other aspects were no different from a human's.

"Tell me, in short, all of the Black Hairs Human I met before didn't even say a word and directly started killing me. There were many times where I was almost killed." Chen Xiang said coldly. www.xstxt.org

"They are them and we are us. They are different! The thing that is different from them is that what they have are Jin Xin, and what we have are red hearts, the heart of flesh and blood. " The young Black Hairs Human said.

Chen Xiang immediately used the Dao heart Eye to look. If that was really the case, then if the young Black Hairs Human didn't say it, he wouldn't have used the Dao heart Eye to look for it.

"There are a lot of Black Hairs Human in Devil Wasteland, where are they now?" Chen Xiang was in a bit of a mess, there were actually two kinds of Black Hairs Human s inside the Devil Wasteland.

"Big Brother, it's a long story! Although those fellows destroyed the spirit formation, they did not step onto this land. Instead, they drove us out. " The young Black Hairs Human sighed.

Chen Xiang's heart trembled. There was indeed a problem, he immediately thought of something!

"This is bad!" Chen Xiang had a bad premonition.

"You all look the same, but why are your personalities so different?" Chen Xiang asked again.

"Because they were created, and we were. But we are born through reproduction, unlike them, so to speak. "Alright, we were originally born naturally. Because of the special places on our bodies, we were created by a single guy in accordance to our appearances, and then we were able to create a large group of those guys."

The Black Hairs Human was actually naturally nurtured? However, he felt that it was not so. Although the entire Natural Law Divine Realm was controlled by the God of Heaven, Chen Xiang did not think that he was the one who created it. If not, he would not have been so uncaring towards this world.

"There are many of them, and they are controlled by a certain force, making us our enemy. However, they cannot kill us, but they can kill many humans! I don't know why, but after they broke that spirit formation, why did they not run out and stay inside instead? " The teenager from Black Hairs Human said.

In order to confirm what the young man said, Chen Xiang had used the Soul Absorbing Devil Spell on him after knocking him out, searching through the memories in his mind.

The youth woke up and saw Chen Xiang frowning on the side. He anxiously asked: "What happened to me just now? Why did you suddenly faint? "

"Maybe you aren't used to the environment here, so you better not run around! "Because those guys who look like you did a lot of bad things, so if you go outside, it's very easy to get killed." Chen Xiang said.

"Ah... This is just as our elder said. " The youth was astonished.

"You should go back!" Chen Xiang had already guessed something. What was constructing the city outside the Devil Wasteland was not the ferocious Black Hairs Human, but a group of special species. They had a similar character to humans.

On the other hand, the savage Black Hairs Human was a creation, a bunch of incomplete items that could easily be controlled by evil.

...

At night, Chen Xiang arrived at the edge of Devil Wasteland. There was actually a barrier here, and upon seeing this barrier that was even stronger than before, Chen Xiang immediately confirmed his previous speculation.

The savage Black Hairs Human had already been controlled, and they were all inside the Devil Wasteland now. And the reason they intentionally chased the kind-hearted Black Hairs Human out was only to hide things from others!

What was that group of vicious Black Hairs Human doing in the Devil Wasteland? It was obvious, they wanted to open the door to the Great Way of the Evil Heaven!

Right now, the enchantment around the Devil Wasteland was much stronger than before, and it was clear that there were strong practitioners who had come to set it up. Only those who had come from the Divine Wasteland or above could do it in such a short period of time!

"Chen Xiang?"

"Great Landlord, you are here too!" After Chen Xiang finished speaking, the Great Landlord had already arrived beside him.

Seeing Chen Xiang's expression, Great Landlord seemed to know that Chen Xiang already knew a lot of things.

"Great Landlord, those cities' Black Hairs Human should be good, are they just a group of people?" Chen Xiang asked.

"Yes, I didn't expect them to still be alive, what a miracle! I have already informed Little Fan and the others, telling them to not make a move, they should be looking for Long Jiuxiao very soon. Great Landlord said, "What a scheme, as expected of the God of Heaven!"

"Was it planned by the God of Heaven?" Chen Xiang was very surprised.

"Other than him, who else can control so many Natural Law Guardians? These Natural Law Guardians were all created by him back then! Even though it has been sealed, he had a way to awaken it. Furthermore, the gods that have sealed these Natural Law Guardians have either died or become weaker, so the power of the seal has become much weaker. " The Great Landlord said.

"Is all of this for the sake of opening the door to the great Dao of the Evil Heaven? Wasn't this Natural Law World created by him? "Why are you wasting this world?" Chen Xiang found it hard to understand.

"Of course it wasn't created by him. He was just one of the founders, the others should already be dead, so he can do whatever he wants now. Perhaps it's because this Natural Law Divine Realm belonged to him alone, causing him to lose himself." The Great Landlord sighed.

"The fusion of Evil Wasteland and Devil Wasteland was also caused by him!" Chen Xiang said: "His power is so terrifying, we simply cannot fight against him!"

"That's right, but his control over this world is only on a higher level. If he wanted to kill you and me, that would be impossible. This is the rule that the Eight Gods of the Heavenly Dao set for the creation of this Natural Law World, but he can still send people to kill us." The Great Landlord said.

Chen Xiang looked at the dark depths of Devil Wasteland and said, "Should we go in?"

Great Landlord shook his head and sighed: "Why are you going in? The four fellows from Divine Wasteland are not people I can deal with. Furthermore, they chose to take place in the Devil Wasteland precisely to restrict my strength, because my Creation God Tree would not be able to be used in that kind of environment. "

Chen Xiang was very clear about the World Creation God Tree's strength. The reason the Great Landlord was able to defeat two of the Strong of Divine Wasteland s on his own was because he had the help of the World Creation God Tree.

"And right now, there are not only a few Strong of Divine Wasteland s inside. The restriction that Heaven Wasteland Aristocratic Family and I cannot leave the Sacred Wasteland has been lifted, so Heaven Wasteland Aristocratic Family and those guys should be inside as well." The Great Landlord continued, "So it's useless for us to enter. Prepare our defenses and see if we can survive this crisis."

The people in the evil sky, were obviously much more terrifying than the Black Hairs Human!

Great Landlord sighed a few times, then left on his own, no one knowing where he was heading to.

In the dark night, Chen Xiang stared at the Devil Wasteland inside the barrier, clenched his fist, and unleashed the White Tiger Jump. It passed through the barrier, entered the Devil Wasteland, and then teleported forward by himself!

[Chapter 2594](#)

Chen Xiang thought that even if he could not stop them, he could not let them complete their mission so easily. Although his cultivation was not high, he was extremely confident in his own strength.

Inside Devil Wasteland, it was dark even in the daytime, but at night, one could imagine how dark this place was. It was extremely dark, and there was even a cold and evil aura emanating from it.

Chen Xiang used the Counter Power to conceal himself and carefully advanced forward. Previously, when he was using the Counter Power, he was not discovered by the Strong of Divine Wasteland, so he was not worried about being detected right now.

"There's a Black Hairs Human." Chen Xiang suddenly felt something moving on the ground, he immediately used the Dao heart Eye to check, and it was actually over a million Black Hairs Human s.

"They are all relatively weak." Chen Xiang looked carefully, and did not realise that Jin Xin was the larger one, but the smaller ones instead, causing him to be able to immediately determine the strength of the Black Hairs Human s.

He obviously would not let so many Black Hairs Human s go. He searched around, but did not find any other Black Hairs Human, so he guessed that these Black Hairs Human s were temporarily placed here.

"Un, they seem to be releasing the power in their bodies ... Could they be channeling their Primitive Tao Power into the ground? " Chen Xiang was shocked. He had originally thought that only by killing off Black Hairs Human would he be able to obtain the Primitive Tao Power in their bodies.

"Just what kind of power is the Primitive Tao Power, to be able to open the door to a single level world?" Chen Xiang came to the top of this group of Black Hairs Human, and then activated Devouring magic kungfu, causing himself to produce a strong suction force that sucked in the Primitive Tao Power this group of Black Hairs Human s had released.

Originally, the Primitive Tao Power of the Black Hairs Human s flowed into the ground, but now it was all sent flying towards Chen Xiang.

Chen Xiang had opened ten stages of Tao profound Door, so he used the Devouring magic kungfu to activate the gate, causing the strong suction force produced by the Tenfold Door to be extremely terrifying.

"I didn't expect that it would be so fast when I use the Ten Layered Mysterious Gate to devour energy." Chen Xiang was secretly delighted as he continued to absorb the Primitive Tao Power.

Very quickly, he condensed a grain sized grain inside the Divine Sense Sea.

"It was condensed from the Primitive Tao Power." Chen Xiang did not dare to try how much power he had, he was afraid that if the power was too strong, it would alarm the other Rankers in the place.

The power that Chen Xiang was absorbing the Primitive Tao Power increased, but what he did not expect was that the Black Hairs Human s below him dried up very quickly, becoming desiccated corpses on the ground. He had originally planned to kill them all.

"It's still just a grain of rice, it hasn't grown that much. I wonder what use does the Primitive Tao Power have?"

Chen Xiang was very curious at the moment. Then, he took out the Chuangshi god furnace and used the power of space to move the shriveled corpses of the Black Hairs Human into the Chuangshi god furnace.

Afterwards, Chen Xiang went to look for other Black Hairs Human. He felt that the current number of Primitive Tao Power was not enough, and moreover, it could not be used again.

"Strange, I can only absorb these Black Hairs Human s when they release their Primitive Tao Power. Previously, when I was fighting against so many of them, I didn't even feel a trace of their Primitive Tao Power." Chen Xiang suddenly felt suspicious, he had killed a lot of Black Hairs Human before too.

"Could it be that all of these Black Hairs Human have hidden traps within their bodies? Only when they need to release their own Primitive Tao Power will they be released." Chen Xiang immediately thought of something.

"Natural Law Guardians should be created by the eight gods of the Heavenly Dao using a large number of Primitive Tao Power s ... In the end, they had to seal them away. Seven of the Eight Gods had died, and the remaining one was actually able to extract the Primitive Tao Power from the bodies of the Natural Law Guardians s. This must have been caused by the still alive God of Heaven, it seems that this plan was carried out very early on. "

The more Chen Xiang thought about it, the more he felt that something was amiss. Soon enough, he found another group of Black Hairs Human.

Chen Xiang floated above the Black Hairs Human, and just like before, he used the Devouring magic kungfu to devour the released Primitive Tao Power.

"The Devouring Power released after opening the Tenfold Door is powerful, the absorption speed is too fast." Chen Xiang was secretly pleased.

At this time, the particle from the Primitive Tao Power in his Divine Sense Sea had finally grown a little.

Just like this, Chen Xiang absorbed a hundred batches of Black Hairs Human, making a total of over a hundred million, but he only managed to condense a very small pearl.

There were a lot of Black Hairs Human s, especially within the Devil Wasteland s and the Devil Wasteland s, so Chen Xiang was not worried about the problem with the Primitive Tao Power, he was only worried about being discovered.

"I need at least eight, then I can use the eight Primitive Tao Power Pearls to refine pills, and use the Crash method to refine them. Only by doing so can I refine an even more powerful Primitive Tao Power, and then see if I can use the Primitive Tao Power to condense a Primitive Tao Power Gate." This was what Chen Xiang was thinking, he felt that the Primitive Tao Power must be very strong, although he could condense a pearl inside the Divine Sense Sea, but after using it, he would be done for.

He needed an endless stream of Primitive Tao Power.

If he could condense a profound door capable of absorbing Primitive Tao Power s from the Great Way of the Law, that would be the best method.

Of course, all of this was only in Chen Xiang's imagination, he didn't even know if it would succeed or not.

The further he went, the faster Chen Xiang's absorption speed increased. Previously, he only took more than four hours to absorb the hundred million Black Hairs Human s.

"Could it be that all of the Black Hairs Human s here have been arranged to release their Primitive Tao Power in some place, which should be arranged according to the location of the formation? It seems like doing this can ruin their progress."

Chen Xiang seemed to have found the rule of the location of the Black Hairs Human s. Only by setting up the array would there be this rule, which was why he had this guess.

After a few days passed, he had devoured eight hundred batches of Black Hairs Human, adding up to a total of over eight hundred million, and had finally condensed eight Primitive Tao Power Pearls.

However, the people who laid the array inside also noticed it, because the progress of the array was extremely slow, it was very different from their previous predictions, and when they checked, all the Black Hairs Human s that they had placed in their designated positions had disappeared.

When Chen Xiang devours Black Hairs Human, Black Hairs Human will become a dried up corpse, and will use this as a tool to squeeze out the last of the Primitive Tao Power.

"There are at least billions of Black Hairs Human in here. I only got rid of 800 million." Chen Xiang sighed. He could also sense several powerful auras in several different directions, and they were all extremely active, as though they were searching for something.

The Devil Wasteland could not stay for long, and Chen Xiang had already killed many of the Black Hairs Human, so he quickly retreated and prepared to refine Primitive Tao Power s. He wanted to use the Crash method to concoct pills, and wanted to see how strong the Primitive Tao Power would be.

[Chapter 2595](#)

Once Chen Xiang left the Devil Wasteland, he immediately headed towards the Beast Wasteland, and went to Du Xiaoling's underground Poison Palace. Although there were poisonous flowers, poisonous herbs and some things everywhere, every time Chen Xiang smelled that fragrance, he felt refreshed.

As soon as he arrived, he saw that there was a very large jade vat in the front of the house, with a beautiful lady soaking in it. It was actually Xia Bailing.

Xia Bailing's eyes were closed, as if she was in deep sleep, submerged in the jade vat. Even though her head was exposed, her beautiful body could still be seen through the clear and calm water.

At the beginning, Chen Xiang was lost in thought, but when he remembered that Xia Bailing was a woman with different personalities, he forcefully shifted his gaze away so that he wouldn't be discovered by Xia Bailing.

But, just as he turned his head, he heard Xia Bailing laugh: "Coward, you're a perverted one, but don't have the guts."

Chen Xiang wanted to turn his head and look again, but he resisted the urge. He looked at a strange purple flower that was in full bloom and said: "Sister Bai Ling, I accidentally saw you earlier, coupled with your beauty, I couldn't help but take a few more glances. Please forgive me."

[illegible]

"Come over here and help me rub my feet." Xia Bailing shouted.

"This... Men and women shouldn't be so intimate with each other. " Chen Xiang coughed dryly.

"What are you pretending for, hurry over." Xia Bailing shouted snappily.

Chen Xiang had no choice but to walk over, grab her tender feet, and then gently rubbed them as he asked: "Why are you rubbing your feet? Weren't you soaking in these things right now to turn you into a body of impenetrable?"

While Chen Xiang was speaking, his eyes kept glancing inside the jade vat, and through the clear and rippling water, he could vaguely see some beautiful things, but Xia Bailing was playing with the water, the ripples of the water, making it very blurry.

"It's nothing. I just want to see how I'm soaking now. Although I can lift my leg now, I can't feel that you're touching my foot. If I can feel it, then I'm done today." Xia Bailing laughed tenderly: "I will soon be able to cultivate the Body of impenetrable, at that time, I will no longer be afraid of poison."

"What is this water made of? Sister Bai Ling, after soaking it in the water for so many days, it looks much better. The more I look at it, the better it looks." Chen Xiang laughed.

"Little Scoundrel, don't treat me the sweetest. I don't even know who you are." Xia Bailing chuckled: "You're so evil, especially last time"

Chen Xiang curled his lips: "I didn't do it on purpose either. I thought you had fainted but who would have known you would be so conscious."

Xia Bailing stared at Chen Xiang, as if he had sensed something, and then shouted: "Little Scoundrel, lean your head over here."

"What are you doing? Do you want to kiss me?" Chen Xiang laughed.

"You wish, hurry up." Xia Bailing anxiously shouted.

Chen Xiang leaned his head over, and at this moment, he was also able to watch Xia Bailing's beautiful face up close. Just as he wanted to pinch Xia Bailing's face, his own face was pinched by Xia Bailing first.

"Ah... This is Infinite Dao Qi. " Xia Bailing pinched a piece of meat on Chen Xiang's face, and was very surprised: "How did you manage to cultivate Boundless Dao Qi, this is something that requires a very strong body to nurture."

"There's nothing I can do about it. I'm just that amazing. Have you fallen for me?" Chen Xiang said with a smile, and then, he also reached out his hand to touch Xia Bailing's face.

He had touched Xia Bailing's face before, but back then, he had not been able to cultivate the Limitless Dao Qi, so he could not sense it.

"You do too." Chen Xiang said.

Xia Bailing slapped Chen Xiang's hand away and said: "Of course there is. My physical body is also very strong, no?"

"Where's Elder Sister Xiao Ling and Sister Ziqian, why didn't I see them?" Chen Xiang said: "Shouldn't they be the ones watching you take a bath?"

"I used to need them to watch from the side, but now, I don't need them anymore. I can handle it myself." Xia Bailing said: "They have all left, quickly tell me about the situation outside, I have not been out for a long time, and what kind of strength you have now, I can't see through you."

"Me ... I am at the second level of Dao Shi realm, the situation outside is very complicated, it is extremely difficult to put into words, wait for Elder Sister Xiao Ling and the rest to come back, I will tell you all together. " Chen Xiang said.

"Little Scoundrel, this jade vat is very big. It's big enough to hold a single person. Come down and soak in it with me. It's very comfortable." Xia Bailing suddenly laughed.

"Really?" Chen Xiang became excited and anxiously said.

"Of course it's true. Come down quickly." Xia Bailing said very seriously.

Chen Xiang anxiously took off his clothes, but just as he was about to take off his clothes, Xia Bailing suddenly laughed: I was lying to you, look at how anxious you are, little scoundrel.

Seeing Xia Bailing giggling and Chen Xiang getting teased again, she felt extremely unhappy and wanted to take Xia Bailing on the spot.

Just as Xia Bailing was laughing until his branches trembled, Chen Xiang leaned his head over and forcefully kissed the mischievous little demon girl who was teasing him.

When she was in Hundreds of Flowers Village, she knew that Chen Xiang had always been a guy that had a lecherous heart and no guts. Furthermore, his mental fortitude had always been pretty good, which

was why she had unscrupulously teased Chen Xiang, but now, she didn't expect Chen Xiang to forcefully kiss her.

"Little Scoundrel, I won't let you off, wuwu." Xia Bailing said to Chen Xiang through sound transmission, her small mouth had already been sealed by the remnants.

It was unknown whether it was because she was soaked in that special water, causing her strength to be unable to come out, or because she was a little anticipating something from the bottom of her heart. In short, under Chen Xiang's guidance, she was a little fond of this feeling, and it even gradually quietened down as she held Chen Xiang's neck ...

Ka ka ...

The sound of the stone door opening suddenly echoed. When the three women entered, they saw Chen Xiang standing beside the jade vat, bowing with his head lowered, and kissing intimately with Xia Bailing who was soaking in the jade vat.

"You all ... "What are you guys doing? Are you guys cultivating?" Du Xiaoling chuckled.

At this time, Chen Xiang and Xia Bailing finally reacted. Xia Bailing pushed Chen Xiang away and looked at him resentfully. He wanted to say something, but he didn't.

"Sister Qinlian, you're here too. Where did you go?" Chen Xiang wiped his mouth, as if nothing happened just now, and walked over with a giggle. He was already shameless to the extreme, even Bai Ziqian and Lv Qinlian snorted.

Du Xiaoling did not care about this, and said: "We were planning to go out and capture Black Hairs Human, but we did not expect that Black Hairs Human would not come out, and instead obtained a good thing."

As he said that, Du Xiaoling took out a red ribbon that glimmered with a bewitching red light.

"This is ..." the soul poison. " Chen Xiang shouted in shock.

[Chapter 2596](#)

Chen Xiang had seen the introduction of soul poison from the Heavenly Alchemy before, it was a type of thing that specifically poisoned the soul. This kind of poison was extremely terrifying, if it was refined properly, it could produce a very terrifying poison power and destroy a person's soul.

He also found out from the Heavenly Alchemy that there was once a city whose people were infected with this kind of "soul poison", and although the people in the city weren't dead, after being controlled by the soul poison, they would massacre one another and specifically eat people to maintain the growth of the soul poison in their bodies.

"Ah, you're really something. Truly amazing. Very few people know about this sort of thing." Now, it was Du Xiaoling's turn to be surprised.

The Heavenly Alchemy came from the Divine Wasteland, and much of Du Xiaoling's knowledge was related to the things in the Divine Wasteland, so she felt that Chen Xiang should not know.

, you have to be careful with this kind of thing, this thing is as difficult to control as death poison. Chen Xiang said.

"Of course I know. I'm just curious as to why such a thing would appear here. Normally, only the people in Divine Wasteland would have the ability to create such a thing." Du Xiaoling frowned.

"Where did you get it?" Chen Xiang asked.

"Devil Wasteland, we will go to Devil Wasteland to catch Black Hairs Human and use it for research. We will see what kind of poison is best for Black Hairs Human." Du Xiaoling said.

Chen Xiang immediately thought of something. There were experts from the Divine Wasteland.

At this time, Bai Ziqian and Lv Qinlian had already reached the side of the jade vat. They worked together to help Xia Bailing absorb the energy quickly.

"Little Scoundrel, you just said that the situation outside is very complicated. We'll talk about it when Elder Sister Xiao Ling and the others return. You can tell us about it now." Xia Bailing said.

Chen Xiang nodded and then told them about the scheme of the God of Heaven.

After Du Xiaoling heard it, he did not feel surprised at all, "So that's how it is. I already felt it was strange, but luckily we did not make any moves against the group of Black Hairs Human s outside the Devil Wasteland.

Of course they couldn't find it. The Black Hairs Human outside the Devil Wasteland were basically all devoured by Chen Xiang, and none of them went deep.

"Does big sister know about this? Did you go and tell her?" Lv Qinlian asked.

"Not yet, but she will know soon enough. Anyway, everyone needs to be prepared." When Chen Xiang arrived beside the jade vat, he stuck out his tongue at him. Then, he covered his chest and shouted, "You are not allowed to look."

"If you don't want to watch, then don't. It's not like you want to fight." Chen Xiang laughed, full of ridicule.

"Little Scoundrel, wait for me to come out. I'm not done with you." Xia Bailing shouted.

Chen Xiang walked into the hut and said: "I need to concoct pills. It's more important, do you have a secret room or something here?"

"There's a secret underground room here. I'll take you there." Du Xiaoling walked over and brought Chen Xiang to the secret underground room.

After arriving here, Du Xiaoling asked in a low voice, "Chen Xiang, did you manage to cultivate the Infinite Dao power?"

Du Xiaoling was a Dao God after all, and Chen Xiang wasn't prepared for her so he didn't intentionally suppress his aura. Furthermore, since he was so close to her, she could easily detect his presence.

"Yes, I came out from eating Dao god emperor Yuan Dan." Chen Xiang nodded.

"In other words, your current Tao profound Door must be very powerful." Du Xiaoling laughed: "Maybe after you become a Dao Lord, you will be stronger than me."

"Hehe, I'll know when the time comes." Chen Xiang said.

"I plan to make a trip to Hundreds of Flowers Village with Ziqian. Ziqian said that she wants to take me for a walk, and she herself has never played around inside properly. Right now, she can completely control the poison in her body, and can frequently contact other people." Du Xiaoling said: "If you want to refine pills here, then come with us back to the Hundreds of Flowers Village."

"I will stay here. I have to make a trip to the Devil Wasteland since I am closer to the Devil Wasteland." Chen Xiang said: "Elder Sister Xiao Ling, help me bring back a message, and some medicinal ingredients."

Chen Xiang gave Du Xiaoling a few ingredients that could refine Dao god emperor Yuan Dan, as well as the experience of Dao god emperor Yuan Dan using Crash method to refine. These were all made up of Dao god emperor Yuan Dan that Feng Yujie and the others could refine their own Crash method.

"Yes, both Qinlian and Bai Ling will be here. Bai Ling will need to soak in that thing for another ten days before succeeding." Du Xiaoling nodded.

That was why she wanted to see Xu Youqing. At the same time, she wanted to get to know the girls in Hundreds of Flowers Village, because she was the same as Bai Ziqian, who rarely came into contact with others. Now that she had already escaped from control, she wanted to get to know more people.

She had heard Lv Qinlian and Xia Bailing talk about the girls in the Hundreds of Flowers Village before, and she also planned to join the Hundreds of Flowers Village in the future and become one of them.

Du Xiaoling and Bai Ziqian left, Lv Qinlian was here helping Xia Bailing absorb the energy from the water, and Chen Xiang, who was supposed to refine pills, also ran up to the stage to help him refine the poison.

"Sister Qinlian, what poison are you refining? It smells so good." Chen Xiang was inside the small hut watching Lv Qinlian seriously refining a type of purple flower, wanting to turn it into medicinal powder.

"This is the Purple Blood Poison. After being poisoned, the blood will turn black. If it is unable to be removed within three days and three nights, the purple poison blood will solidify and cause great harm to one's body. This is not a powerful poison." Lv Qinlian smiled sweetly.

Chen Xiang's nose twitched, and he once again smelled an extremely strange and infinitely attractive fragrance.

"What is this? It's so familiar." Chen Xiang said.

"Ahh ..." Lv Qinlian suddenly lowered her head, her face red: "This is the love poison in my body, but you don't have to worry" "Right now, my poison is not poisonous."

"So it's like that." Chen Xiang looked at the blushing Lv Qinlian.

Just when Chen Xiang had the urge to, he suddenly raised his head, his face full of charms, his eyes full of flirting and flirting, looking extremely flirtatious, she laughed softly: "The last time you kissed me was many years ago, now in the blink of an eye, you little rascal have eaten Ziqian."

"This... You know. " Seeing the charming Lv Qinlian in front of him, who was slightly embarrassed, Chen Xiang became even more impulsive. Although Lv Qinlian was lovely, she was not as bold as Hua Xiangyue and Su Meiyao.

Looking at Lv Qinlian's blurry eyes and smelling the unique fragrance of the emperor's lotus, Chen Xiang unknowingly fell into a very warm and sweet trance. Unknowingly, he and Lv Qinlian had already embraced and kissed, and the two of them started to entangle each other inside the small hut ...

"This little b * stard, it's this little wooden house again. And when big sister is awake, he's eating another woman covered in poison." Xia Bailing who was soaking in the jade vat outside muttered, the voice was filled with jealousy.

[Chapter 2597](#)

After Chen Xiang was done, it was unknown how long he had been immersed in this craziness. At this moment, he felt an indescribable tiredness, but it was also an incomparably wonderful feeling.

"I'm sorry, but this is the first time I've experienced such an experience and it's hard to control the love poison. However, it won't harm you, it will only make you tired for a few days." Lv Qinlian kissed Chen Xiang's forehead, and said sweetly and gently.

"Why does your poison have this kind of effect ..." Chen Xiang asked somewhat powerlessly. When he was in a passionate relationship with Lv Qinlian, he also felt that he could not stop, as if he had been poisoned.

"Love poison... Of course it's to urge you to do all sorts of things, to let you be poisoned ... And you are someone I love deeply, so you will be even more poisoned. " Lv Qinlian laughed: "But don't worry, I won't hurt you. It's just that this is my first time experiencing it and I can't control it.

"Are the two of you enough? Come out and help me absorb them." Outside, Xia Bailing shouted. "It's been three days and three nights, you guys are crazy enough! I have to say that little scoundrel's physique is really good. "

Seeing Chen Xiang's astonished expression, Lv Qinlian blushed and then, with a gentle smile, walked out of the small hut!

"Three days and three nights!" Chen Xiang was surprised, and it was continuous, but he himself did not feel it.

Chu Hongqing and Yang Xiangyin kept on giggling inside the You Yao Mountain Villa. They knew what was going on very well.

Xia Bailing's voice came from outside: "Qinlian, that emotional poison of yours is really powerful, especially to that little scoundrel ... Hehe, and you must have obtained quite a few benefits from him! "

Lv Qinlian chuckled, "Sister Bai Ling, he has absorbed quite a bit of my poison. In the future, when he accumulates it in his body, not only will his impenetrable be sufficient to cure the poison, but he will also be able to cure it."

"So powerful!" I want your lust poison as well! " Xia Bailing immediately said after hearing it.

"That won't do, because that will only work for the man I love. Even if you like you, you're not a man, so it won't work." Lv Qinlian laughed.

... ..

Chen Xiang, who was in the small cabin, only closed his eyes to rest for a while and quickly became spirited. He didn't know why, but it seemed like he could smell the intoxicating poison in Lv Qinlian's body at any time, making him feel energized.

"You two little girls, what are you laughing at? Do you believe that I won't punish you?" Chen Xiang laughed and scolded the two girls inside the You Yao Mountain Villa.

"Master, come here!" Chu Hongqing ridiculed.

Yang Xiangyin did not speak. She recalled that day when she kissed Chen Xiang and her heart was filled with anticipation, not to mention that Chen Xiang was her master. She had no complaints about anything Chen Xiang did to her.

"Am I poisoned too deeply? Why can you always smell the fragrance of Qinlian's body! " Chen Xiang was extremely suspicious, as if he could smell it all the time. However, when he told Yang Xiangyin and Chu Hongqing to come out, they didn't smell anything.

"Wait until Elder Sister Xiao Ling comes back, then ask her!" Yang Xiangyin said.

"En!" Chen Xiang took out his pill furnace and prepared to refine it.

The pills he was concocting right now were extremely special, and he would be using eight Primitive Tao Power Orbs to concoct Crash method s. As for what would happen in the end, he himself was not sure, so he could only give it a try.

In order to not let Lv Qinlian and Xia Bailing, who were above, be bored to death, Chen Xiang asked Yang Xiangyin and Chu Hongqing to go out and accompany them, especially Yang Xiangyin's zither music, which was very depressing. Xia Bailing had liked it a lot, and while Lv Qinlian was refining poisons and listening to Yang Xiangyin's unique zither music, he also felt that his heart was extremely calm, allowing her to stay in an extremely good state.

Although this was a garden filled with poisonous flowers, poisonous plants, and poisons, right now, it was reverberating with a beautiful zither song. A strange intoxicating fragrance wafted in the air, causing the people inside to feel extremely peaceful.

However, just as the four girls were enjoying the wonderful scene, the ground suddenly shook and a muffled explosion sounded out.

"What's wrong?" Lv Qinlian asked anxiously.

"Master is concocting pills... "He's concocting a very powerful pill, so it's normal for him to have some activity." Chu Hongqing anxiously said.

Lv Qinlian knew that Chen Xiang was powerful when he was refining pills, but she had rarely seen him refining pills of the highest quality, so she did not know much about it.

"How good is he at concocting those pills?" Xia Bailing hurriedly asked, it had been a long time since she had tried to concoct pills, she had often concocted poisons, and after not meeting Chen Xiang for so long, Chen Xiang had actually gotten even stronger, she knew that Chen Xiang had definitely concocted many powerful pills, which was why he could breakthrough so quickly.

"I can't explain either. The ingredients for this pill are extremely unique, and they aren't common medicinal herbs!" Chu Hongqing said. As for whether or not Chen Xiang could succeed, even Chen Xiang himself was not sure, so he was even more unsure.

However, Chu Hongqing knew about Chen Xiang refining the Dao god emperor Yuan Dan and the Nine Yang Emperor Profound Core, which was also what Chen Xiang had told her later. Previously, she had also been in the You Yao Mountain Villa to learn how to rush forward and refine pills.

She would tell Xia Bailing and Lv Qinlian about these things right now. She knew that Xia Bailing and Lv Qinlian were extremely close to each other, and they wanted to know more about Chen Xiang's situation.

"I have eaten the Dao god emperor Yuan Dan that Sister Qiao Yan refined. However, I have not gone through any collision refining, so the improvement of my body is very big." Lv Qinlian said.

"Dao god emperor Yuan Dan's are middle tier Emperor Stage pellets. They cultivate Dao god gold body flesh, so the increase in their bodies is naturally huge! However, after the collision, the medicinal effects will be even greater. This is the strength of the little scoundrel, I definitely won't be able to do what he did! This guy, he actually managed to get to the Four Crash, he's truly a monster." With regards to this, Xia Bailing had no choice but to admire Chen Xiang.

Lv Qinlian nodded and said, "Meiyao and the others have told me before, that it would be very difficult for them to grasp the Crash method as well. Sister Bai Ling, why don't you join their pill refining team and refine pills together with them? They have a method that allows you to refine pills with a connected heart and form a whole. Furthermore, there are great improvements in all aspects, making it much easier for you to use the Crash method.

"Mn, I'll go once I finish cultivating the impenetrable's physique." nodded, she had understood this method before when she was in Hundreds of Flowers Village. It was previously called the Seven Souls Refinement, but later on there were many women who joined in the refinement, so she changed her name to Heart Connecting Refinement.

The few girls were chatting happily on top, while Chen Xiang, who was pill refining below, was covered in blood, with seven holes on his head bleeding. It looked like he was severely injured.

"Alright... What a strong Primitive Tao Power!" The instant Chen Xiang had used the Crash method, he had become like this. He had also used all his strength to suppress the explosive power, otherwise, it would have completely leaked out.

Although he was severely injured, he managed to preserve the force of the charge. All of it was inside the Chuangshi god furnace.

[Chapter 2598](#)

Chen Xiang looked at the white brilliance inside the pill furnace. He had not merged yet, and Chen Xiang did not have the power to fuse the white brilliance either.

However, just as he was about to rest, the white light in the furnace suddenly flickered. As it flickered, the light balls, large and small, suddenly gathered together and merged together!

According to the time Chen Xiang had refined the Dao god emperor Yuan Dan, only when he charged out of the Spirit God Realm would he consciously fuse together!

And now, he had just activated Crash, and it actually gave birth to a Spiritual God. This meant that the Primitive Tao Power itself contained a very strong power. He had to go through a lot of Crash to refine a Dao god emperor Yuan Dan before that to get a Spiritual God Pill God.

This was the first time Chen Xiang suffered such a heavy injury during pill forging. One had to know that he was extremely powerful now, his body had a tremendous amount of Infinity Qi, and even with such a strong physique, he was injured to such an extent.

"Can I condense my own pill?" Chen Xiang saw that the white light inside the pill furnace had already shrunk and condensed into a huge ball of light.

Right now, Chen Xiang was extremely weak and could not take out any more spirit energy to condense the pellet. It was not only his fleshly body that suffered the most damage, it was also the Divine Sense Sea that suffered the most.

"I wonder when I will be able to recover. I have underestimated the might of this Primitive Tao Power, to actually be so terrifying." Chen Xiang blamed himself in his heart. Right now, it was an extremely critical period, yet he had actually caused himself to receive such a serious injury.

What made him feel gratified was that the Primitive Tao Power in the furnace was only controlled by his very weak consciousness, and actually condensed into a pellet by himself, quickly condensing it into a pellet that shone with a white light.

After condensing the pill, Chen Xiang immediately opened the lid of the pill furnace, and the instant it did, an invisible current of air flowed out. The aura he gave off immediately became much stronger, and the pain in his body gradually disappeared.

"Such powerful healing power, it actually helped me recover so much in such a short amount of time!" Chen Xiang was ecstatic, and then he ate the Primordial Dao Pill.

After eating it, he did not need to intentionally refine it. The pill would fuse itself into Chen Xiang's body and Divine Sense Sea, and with that, Chen Xiang closed his eyes and used his mind to control the medicinal energy to cultivate a Tao profound Door.

His previous goal was to see if he can cultivate a Tao profound Door to the Primitive Tao Power Profound Gate. That way, he would be able to obtain an endless amount of Primitive Tao Power!

"The Primitive Tao Power is very powerful, that's for sure." Chen Xiang was looking forward to it now. He had just personally experienced it himself, and even he, who had such a powerful physical body, was severely injured by the waves of the Primitive Tao Power.

Therefore, he was very sure about the power of this Primitive Tao Power. If he could control it, his strength would definitely become even stronger.

Not long after consuming the Primordial Dao Pill, Chen Xiang felt that the injuries on his body had almost healed. It was just that he was still feeling a little uncomfortable inside the Divine Sense Sea.

Under Chen Xiang's control, they crazily channeled into one of the Tao profound Door, continuously tempering the entire Tao profound Door. The number of times a Primitive Tao Power was refined increased, and it was extremely overbearing as well.

Chen Xiang's ten stage Tao profound Door, had already evolved two times. One was the spatial profound gate, and the other was the flame profound gate!

Although he had only trained in two profound gates of the Laws, it was enough for him to obtain extremely formidable strength! Of course, what he displayed even more was this Primitive Tao Power and Mysterious Gate.

Now that he saw the Tao profound Door that was being tempered by the Primitive Tao Power, he was very confident that he could cultivate a Tao profound Door that could stand out from the masses.

As time slowly passed, the Primitive Tao Power's refinement of the Tao profound Door was also slowly progressing ... In the blink of an eye, ten days had gone by!

When he was injured, he thought that it would take a year or so for him to recover. However, a few days ago, he had already recovered to his peak, so he did not expect that the recovery rate of his Primitive Tao Power was that strong.

"I've succeeded, I've successfully cultivated a Primordial Mysterious Gate!" Chen Xiang was extremely excited in his heart, and then he controlled the primordial profound door to open a little, absorbing some Primitive Tao Power.

These Primitive Tao Power were much purer than the ones he had obtained from the Black Hairs Human.

"The Primitive Tao Power is indeed very strong!" Chen Xiang controlled a bit of Primitive Tao Power and poured it into his arm. Originally, he planned to use it together with the Infinite Dao power in his body, but then he realised that the Primitive Tao Power had absorbed the Infinite Dao power and became even stronger.

Just a small amount of the Primitive Tao Power caused him to feel that his arm contained an extremely terrifying power, and that this power did not pass through multiple profound doors!

He felt that if he were to pass through the Tenth Dark Gate, the power would be even greater!

Chen Xiang walked out of the secret underground room. When he arrived at the garden, he saw Xia Bailing running around happily, chasing after a crow that was flying extremely fast.

"Sister Bai Ling!" After Chen Xiang shouted, Xia Bailing immediately ran over.

"What pill are you refining?" Such a huge commotion! " Xia Bailing asked curiously.

"Secret!" Chen Xiang laughed, then looked at Yang Xiangyin and Chu Hongqing, allowing the two of them to enter the You Yao Mountain Villa.

"Hmph, I hate you. You're keeping me in suspense." Xia Bailing snorted.

Lv Qinlian was refining poison in an array disc. She was doing this to prevent the poison from leaking and endangering Chu Hongqing and Yang Xiangyin.

"Qinlian, haven't the Elder Sister Xiao Ling and the others returned?" Chen Xiang asked.

"No, they should still be in Hundreds of Flowers Village!" Lv Qinlian said: "Is there anything you need from them?"

"There are some things I want to ask Elder Sister Xiao Ling!" Chen Xiang said, he just wanted to ask about the Primitive Tao Power, he felt that Du Xiaoling should know a little about it.

Xia Bailing said: "I also plan to go to Hundreds of Flowers Village to refine pills with the girls. Let's go back together!"

Lv Qinlian kept the work at hand and laughed: "Come, let's go back together now!"

After that, Xia Bailing pulled Chen Xiang and Lv Qinlian's hands and teleported outside of Hundreds of Flowers Village. Xia Bailing's spatial energy was also very strong, but Chen Xiang could do it too.

After entering the Hundreds of Flowers Village, Du Xiaoling and Bai Ziqian was there chatting with a few women.

Originally, Chen Xiang had planned to go and tease the beauties inside, but he was called away by Lv Qilian. He could only go inside Lv Qilian's room.

There were also Long Huishan, Long Shuangru and Feng Yujie.

"What is it?" Chen Xiang asked.

"It has to do with the Heavenly Evil Road, some time ago the Great Landlord came to find us, he told us to be prepared to deal with the enemies inside." Lv Qilian said in a serious tone: "From his tone, the people in the Evil Heaven Road are very scary."

[Chapter 2599](#)

"My father is already preparing. Right now, the only thing we can do is to increase our defense, lay a powerful Spirit Formation, and then develop it." Long Shuangru said: "Other than that, there is no other way, we are not a match for the evil way."

"I've already asked the wargod team to return. A while ago, your master was captured and threatened. We were worried about this, so we asked them to come back. They are all your weakness." Long Huishan laughed helplessly.

Chen Xiang pondered for a moment, then asked: "Sister Feng, are you able to concoct the second Crash's middle grade Emperor Stage pills?"

"Third, but I need the cooperation of three people. Currently, I will divide them all into small groups of three to refine the super high quality Dao god emperor Yuan Dan and Nine Yang Emperor Profound Core." Feng Yujie said.

When you guys train in Tao profound Door, try to open it up to 50 times or even higher. Chen Xiang said.

Chen Xiang had asked Du Xiaoling to pass the message earlier, so Lv Qilian and the others knew the importance of cultivating in the Tao profound Door.

Chen Xiang was completely opened by the Tao profound Door now, but they didn't have the conditions that Chen Xiang did, because they needed a lot of Dao god emperor Yuan Dan.

"Don't worry about that, we've already agreed on it. It's still difficult to completely open the 80 points like you, but 80 shouldn't be a problem, but it will take some time." Feng Yujie laughed: "You don't need to worry about us refining pills, we can do it ourselves."

"Good!" I plan to make a trip to the Devil Wasteland, the gate to the Great Way of the Evil Heaven is probably right inside, I need to check it out first! Chen Xiang said.

"Is there any danger? Why don't you accompany Elder Sister Xiao Ling!" Lv Qilian said: "She went to Devil Wasteland with Ziqian before."

"No need. It's better if she stays here." Chen Xiang said. If Du Xiaoling was here, even if Heavenly Dragon City and Hundreds of Flowers Village were to be surrounded and attacked, with her and Great Landlord working together, they would definitely be able to handle it.

Seeing that Chen Xiang wanted to take the risk and explore the Devil Wasteland, Long Huishan tactfully pulled Long Shuangru out of the room, allowing Feng Yujie and Lv Qilian to accompany him for a while.

As soon as Long Huishan and Long Shuangru left, their faces flushed red, and they snorted lightly.

"What are you laughing at, quickly come in!" Lv Qilian rolled his eyes at the Chen Xiang who was currently laughing naughtily, and then walked into the room.

"Little Scoundrel, you got Ziqian in your hands, sure!" Feng Yujie lightly pinched the flesh on Chen Xiang's arm.

Chen Xiang carried Feng Yujie with a smile, and then came to a large bed. He began to play with the two girls on it.

"Damned little scoundrel, why do you have the faint fragrance of an emperor's lotus on you ..." It can't be, you even harmed Qilian! " Lv Qilian was her sister, she never thought that this would happen so suddenly.

"Yeah, do you want to call her in? You sisters ..." Before Chen Xiang could finish, he was pinched painfully by Lv Qilian.

After that, Chen Xiang had a good time with the two girls.

... ..

Outside, Long Huishan and Long Shuangru heard the voices from inside and secretly looked down at Chen Xiang.

"This guy, relying on his own impenetrable, ate both Qinlian and Ziqian. What a little scoundrel." Long Shuangru laughed softly. Back then, Chen Xiang had also teased her before, when Chen Xiang was still very weak back then, but he did not care about his life as he teased her, this dragon.

"Hmph. You don't know. I've been taken advantage of by this little scoundrel before."

Long Huishan also felt a little uncomfortable in his heart. Previously, Chen Xiang had kissed her, and she had known him for a long time, even though the two of them had addressed each other as brother and sister, they had a very special relationship.

"We should hurry up and delay Xue Yi. If she finds out that Chen Xiang is inside, she would definitely join in the argument. At that time, it wouldn't be good." Long Huishan laughed.

Long Shuangru also smiled, then nodded and went to look for Long Xueyi with Long Huishan.

... ..

It was already past midnight after Chen Xiang finished being happy, but Xue Xianxian and the others did not rest as they were still busy studying array formations. Chen Xiang had already found out that the Great Landlord had given him some things related to array formations, so they had been completely immersed in it.

Chen Xiang had originally planned to chat with them, but after seeing them researching array formations so enthusiastically, he decided to kiss them, and then leave the Hundreds of Flowers Village.

Devil Wasteland, there is a very strong barrier here, much stronger than the previous one, but Chen Xiang can still enter! What surprised him the most was that Du Xiaoling could actually enter the Devil Wasteland as well. She had previously brought Bai Ziqian and Lv Qinlian to the Devil Wasteland to look for the Black Hairs Human.

On one hand, Chen Xiang was here to investigate the Great Way of the Evil Heaven, and on the other hand, he was here to see how powerful the Primordial Profound Gate was!

He had kept the matter of the Primordial Profound Gate a secret and never told anyone else. When Lv Qinlian and Feng Yujie had been making love with him, he had also discovered that strange power on his body.

After Chen Xiang entered a deeper part of the Devil Wasteland, he rubbed his hands together and secretly brought out a few Primitive Tao Power s from the Primordial Profound Gate, and then controlled them to pass through the first layer of the profound door!

Just as the Primitive Tao Power entered the first layer of the profound door, Chen Xiang's entire body was in intense pain, as if the Divine Sense Sea was going to collapse.

"Ahh ..."

He roared, forcing the Primitive Tao Power out of his body. At this time, the earth also violently trembled, the surrounding thousands of miles of earth started to crumble, following the eruption of the

Primitive Tao Power, the surrounding thousands of meters of soil were all turned into dust, causing a very deep place to suddenly appear.

Chen Xiang was sweating profusely as he floated in the air, panting. The Primitive Tao Power was only able to pass through the first layer of the gate, yet it already possessed such terrifying power, and the energy it could burst out was extremely violent as well. If he could control it, then it would be even more powerful through the method!

"This is too terrifying. My current physical body is unable to withstand this power!" Chen Xiang immediately used Counter Power to make himself invisible. With how loud the commotion was just now, he would definitely be noticed.

When he had first passed through the Tao profound Door while using the Infinite Dao power, he had this experience as well!

"The Primitive Tao Power has already fused with the Infinite Dao power, so it's even more frightening! I need to hurry up and raise my physical body, otherwise I won't be able to control such a terrifying power. "

Chen Xiang planned to not pass through the Tao profound Door the next time he used it. His Tao profound Door was already completely open, so the time he passed through the Tao profound Door, it became extremely terrifying, causing his body to be unable to endure it.

He could use it even if he did not use the Tao profound Door s, but he did not know how strong it was.

He continuously moved forward, and suddenly saw a red ring of light in front of him. He approached and discovered that it was a very large red screen. At this moment, there were many people walking out from the red screen!

"Evil Heaven's Gate!" Chen Xiang thought.

[Chapter 2600](#)

Although Chen Xiang had killed many Black Hairs Human, he had not been able to stop the door from opening, and he had not slowed down his speed by much!

He had observed from afar, but he did not dare to approach, there was a Strong of Divine Wasteland over there!

The people that came from the Evil Heaven Gate all looked like humans. They had already built three huge cities, and the Black Hairs Human had become their slaves.

"Just how strong are those guys from the Sky Evil Dao?" Chen Xiang moved closer and closer, he could now see even more clearly that the people inside the streets of the evil sky looked no different from the people here.

"Warriors!" Chen Xiang looked at the people in the three cities, all of them were filled with killing intent, one look was enough to tell that they were people who fought regularly.

Chen Xiang used the Dao heart Eye to observe and discovered something that looked like a red shadow!

"The Evil Spirit Race is actually here as well." Chen Xiang's heart skipped a beat. He was worried that there might be a Undead Divine Race inside that could figure out where he was.

"Strange, why are the powers of these guys from the Sky Evil Road all white?" "Bai thinks that this power is pure." Chen Xiang frowned, although the people from the Evil Heaven Road looked sturdy, and full of killing intent, they did not have that kind of evil feeling.

In order to understand more about the people in the Tian Xie Road, Chen Xiang decided to enter the world of the Avenue and take a look.

Chen Xiang used the Counter Power, but was not discovered. He teleported in front of the huge red door of the Evil God Realm, and entered.

Passing through the red light curtain, Chen Xiang saw a bright world!

"There's a sun, and it's very bright all around. There's no evil energy!" Chen Xiang looked around. This place was extremely desolate, were all those weathered giant rocks, without any flowers or trees.

At the same time, many black armoured burly men stepped onto a road filled with broken stones, entered Evil Heaven's Gate and headed towards Devil Wasteland.

Chen Xiang could see the people in the Heavenly Evil World from up close. They were not bloodthirsty barbarians.

"What exactly is the Heavenly Evil World like?" Chen Xiang was at a loss, the feelings these people gave him were not bad, but why were there such dense killing intent.

After careful observation, he confirmed that these people were not zombie puppets. This was because their eyes were all filled with emotion, but all of them were filled with sadness and anger.

"There must be something wrong with that!" Chen Xiang looked into the distance. There were a lot of big men that were preparing to enter the Devil Wasteland, and their claps were extremely long. Chen Xiang estimated that there were at least a hundred million of them.

He followed the direction in which they had come. He could already see something in their eyes. He felt that they were all being coerced. Their faces were all filled with a look of reluctance.

Not long later, Chen Xiang teleported, he was already far from the gigantic red light screen, and entered the depths of Heavenly Evil World. At this moment, he sensed a very dense Qi, and felt that this Qi was very familiar!

"The aura of a dragon, there's a dragon scolding here? And this aura is very strong. Is there a dragon fighting?" Chen Xiang was suspicious, as he followed the aura and teleported.

After teleporting away, he was suddenly stunned!

In front of him was a very large lake, and this lake was extremely thick, as thick as black blood.

Dragon Blood!

A huge lake full of Dragon Blood!

He took a closer look and discovered that there were many people soaking in the lake. All of them only had one head exposed!

At this time, some people walked up from the lake and lined up to pass through a passage on the shore. If there was water in the passage, the Dragon Blood would be washed clean.

After these people washed the Dragon Blood on their bodies, they would put on a set of black armor and then walk towards the Gate of Heavenly Evil!

The warriors that Chen Xiang saw previously all came out from the Dragon Blood lake. Now, he understood why these warriors' killing intent was so dense, and why they looked very strong.

"Just what dragon's blood is it? With such a strong killing intent!" Chen Xiang watched from a distance in the air. He felt that this Heavenly Evil World was very strange.

Suddenly, a mournful dragon's roar could be heard from afar. A giant golden dragon was wrapped in a giant net, its body covered in wounds.

The enormous golden dragon was over thirty thousand zhang in length. Its head was exposed to the outside, and the net that bound the golden dragon was extremely powerful.

Just when Chen Xiang was surprised, a red light flashed. He saw that the dragon head had been cut off and the Dragon Blood s gushed out from the neck.

"This... What the heck is going on!" Chen Xiang looked at the head of the Golden Dragon floating in mid air and looked at the Dragon Blood that was cascading down like a waterfall. He couldn't help but sigh in his heart, thinking that the fate of a dragon in this Heavenly Evil World was actually this tragic.

He began to search for the fellow who had attacked just now. Earlier, he was only able to catch a sword, but he did not see any shadow!

"Found it!" Using the Dao heart Eye, Chen Xiang saw that a black object was quickly moving, he immediately chased after it, in the direction where the Golden Dragon had floated earlier.

Chen Xiang knew how to teleport, so he was very fast, and very soon, he caught up. He saw that it was a man in black with scales on his face.

"This guy is a Draconian!" Chen Xiang immediately confirmed it, "And there's even a very dense wave of Evil Qi on his body!"

Chen Xiang continued to carefully follow the Evil Dragon Man. Although he was constantly teleporting, but he controlled himself very well, and did not emit any spatial undulations, so the Evil Dragon man that was being followed did not notice him.

Chen Xiang followed for more than an hour, when he suddenly heard a dragon's roar, and at the same time, a wave of scorching Qi rushed over!

"Fire Dragon!" Chen Xiang was sure that there was a fire dragon fighting in front of him. "These guys are hunting dragons everywhere to strengthen their warriors!"

After breaking through the defence, the arrow body formed by the Jiuyang Dao power exploded, turning the Evil Dragon Man into powder!
