

Dan God 2761

[Chapter 2761](#)

Chen Xiang clenched his fists, and said word by word: "I will not leave, I must let them know, I, Chen Xiang am not someone that is easily bullied, and I still have a month's time, right?"

Wu profound suddenly thought of something. Chen Xiang had asked him to buy the ten billion corpse of the Dragon beast before, and Chen Xiang had a way to quickly break through the Heaven realm. This was Chen Xiang's chance to turn the tables.

"Come, let's hurry back." He still had to go back and refine all of the Dragon beast's corpses. Right now, he had to break through to the late stage of the Heaven realm before he could remain undefeated in the upcoming battle.

The location where the third round of chaos was held was on the 100th floor. And now, they had come to the 110th floor just to make it easier for them to kill some people.

Chen Xiang asked Wu profound about it. In the second round, there were already a lot of people who did not return, and all of them went missing.

Some groups only had a few dozen people left. By that time, the number of people entering the Myriad Tao Divine Tablets Formation would definitely not reach ten thousand.

Those who entered the Myriad Tao Divine Tablets Formation, with the highest cultivation level, could only enter the Three profound realm. Now, as long as the experts from the Six Gods Stage could place their own people among the people entering the Myriad Tao Divine Tablets Formation, they could use this method to seek profits.

But after the three matches, the hosts who presided over the Flying Dragon Association had all arranged for the seats to be filled.

Thinking about this, Chen Xiang became angry in his heart. Myriad Tao Divine Tablets Formation was originally meant for outstanding people to enjoy, but now he was being manipulated like this.

Even if they knew, they couldn't say anything, because these were the work of several powerful sects on the 100th floor, unless they could report to a place above the 200th floor.

However, those who had the ability to go there did not care about so many things, and most of these people were from powerful sects.

After returning to the Flying Dragon Pagoda's Hundred Floor, Wu profound also gave him a lot of Dragon beast's corpses, which were enough for him to refine two hundred of them.

Wu profound could understand Chen Xiang's current mood. He had experienced that kind of feeling of being suppressed and being unable to resist, and in the end, he could only endure and choose to avoid it.

But now, Chen Xiang chose to resist.

Right now, Chen Xiang was refining his Law beads in a relatively remote area in the Central Region for his own safety. He was already being watched, and with a Three Profound Ranker being killed, Qin profound and the rest would definitely want to get rid of him even more.

Chen Xiang, who was in the middle stage of the Heaven realm, refined Law beads much faster than before.

Right now, he called the Law beads a law pill because it was like he was refining pills. In his eyes, it was no different from a pill.

"After the middle stage of the Heaven realm, it would actually increase by such a huge amount, opening up two profound God s would be different. If I were to open the third profound God s, my strength would definitely increase by ten times, and at that time, I would no longer have to be afraid of Qin profound. He is also only at the late stage of the Heaven realm, and is at the same level as me, it will not be that easy for him to win against me."

Chen Xiang was very confident in this.

Right now, the Law Pills he was concocting were much more effective than the ones he had concocted before. Because he had an additional Crash, he believed that he would definitely be able to use these Law Pills to advance to the late stage of the Heaven realm.

In order to ensure that he wouldn't be killed in a battle of attrition, Chen Xiang was currently refining the Rules Pellets in a crazed manner. He was in an extremely excited state and could be said to be brimming with fighting spirit.

He had to let Qin profound and the other disciples who wanted to kill him know that he, Chen Xiang, was not someone they could casually take away.

To have one's life being looked down on, in Chen Xiang's eyes, was like having one's dignity trampled upon. This was something that he absolutely could not tolerate.

Under this state, Chen Xiang worked even harder, his progress in refining the Rules Pellet was much faster than before.

"Seems like it's exactly what I thought, to open the profound God Barrier requires an extremely strong and berserk power of law to rush out in one go, requires an unending stream of power of law to rush out, all the Law Pills I've consumed before contain an extremely strong power of law, able to open all the obstacles in the profound God Barrier like a long stream of water."

"Now, as long as I continuously consume these Law Pills, I'll be able to break through the third profound God and step into the late stage of the Heaven realm."

After Chen Xiang had refined two hundred of them, he had swallowed five at a time, swallowed twenty in a day, and ate them five days in a row. Just now, he had felt an extremely distinct sensation;

"It looks like I only need a hundred Law Pills to break through the last hurdle of profound God and step into the Divine Heavenly late stage." Chen Xiang had previously predicted that he would need two hundred pills.

He still had a hundred pills in his hands, and there were only ten days left before the chaotic battle.

"I ate them all." After Chen Xiang thought about it, the dead zone would eat ten pills every day for ten days, seeing if it could break through and enter the Three profound realm.

If he had entered the Three profound realm, he believed that dealing with these disciples would be as easy as pinching ants. Thinking of this, Chen Xiang became inexplicably excited.

Ten days later, he finished consuming the remaining hundred Law Pills. The Spirit of the Dao gods and the three profound God s inside it had all become much stronger, but he didn't have any signs of breaking through.

"The Three profound realm requires three profound God s to be in one body. Although the three profound God s are in the Dao God Realm, there is no connection between them. What do I need to do?"

Chen Xiang was regretful now, because he was unable to use the Three profound realm, but he felt that with his current strength, he should be able to protect himself.

"It's starting tomorrow morning, I have to hurry to the Center of Flying Dragon City's fighting arena." After Chen Xiang became invisible, he used the power of space.

At the late stage of the Heaven realm, he had also extracted more and more Primitive Tao Power. Right now, the distance he was teleporting to was getting further and further away from the Spirit of the Dao gods.

He had told Wu profound before to head for the Center of Flying Dragon City himself first, so he didn't need to wait for him. Thus, he wasn't with Wu profound right now.

Chen Xiang and Wu profound had made an appointment and met up at the profound Wu Dan Pavilion. When Chen Xiang arrived at the profound Wu Dan Pavilion, he saw an extremely anxious Wu profound.

"What, you think I don't dare to come?" Chen Xiang laughed. He was still hiding two of his profound God s, so he looked like he was only at the early stage of the Heaven realm.

"Indeed, there is such a worry. I am relieved to see you here now." Wu profound was indeed worried that Chen Xiang would not come because of fear.

"You underestimate me so much." Chen Xiang laughed: "Let's go to the fighting arena now."

"You ... "You broke through." Wu profound asked in a low voice.

Chen Xiang smiled and nodded, causing his entire body to tremble, Chen Xiang had previously displayed astonishing potential when he tested his cultivation, and now that Chen Xiang had reached the late stage of the Heaven realm, it meant that Chen Xiang was someone as strong and powerful as Qin profound!

[Chapter 2763](#)

After taking care of the two Evil Soul s, Chen Xiang immediately rushed forward and quickly caught up to Wu profound.

"Done." Wu profound never thought that Chen Xiang would catch up so quickly, he knew that Chen Xiang was facing two Three profound realm Rankers just now.

"Yes, it's settled now. Those two fellows were once my acquaintances, but they were taken care of by Evil Soul. Sigh." When Chen Xiang killed Xue Qing earlier, he was also feeling the same way. After all, Xue Qing, Tai Bo and Tai Bao had all been his friends before.

Wu profound laughed: "If I am to be carried by the Evil Soul one day, when the time comes, you must kill me without hesitation as well. I do not wish for such a thing to be used by my body to commit evil."

"Don't say that." Chen Xiang laughed: "Although these Evil Soul are dangerous, but here they don't dare to do anything rash."

The mountains here were like volcanoes, there was a huge pit at the top of the mountain and these pits were the fighting grounds. When the time came, many people would watch from the sides of the deep pit.

"There are a total of ten arenas. Today, we will be able to complete a hundred groups of people." Wu profound started to become nervous. At that time, he would be facing Qin profound and his six powerful disciples.

Furthermore, his relationship with Chen Xiang was so close, and he was very worried that he would implicate Chen Xiang later on, because Chen Xiang's strength was already as strong as Qin profound's now, so it shouldn't be a problem for him to face Qin profound. However, his strength was only comparable to the disciples present, so he felt that he could still hold on against two or three of them.

However, the opposing side had six seats of disciples.

"I don't have much hatred towards them ... But it's hard to say if they'll focus on me. " Wu profound was very worried about this.

"If anything happens, I'll help you." Chen Xiang patted his shoulder: "I have a divine tool that can hold people back. When you can't take it anymore, I'll put you in.

"That's not bad, but if you face Qin profound and get surrounded by six other disciples, the pressure will be huge." Wu profound said.

"I'm fine." Chen Xiang felt that after he became invisible, it would not be easy for the other party to defeat him.

Of course, he was already at the late stage of Heaven realm, it was impossible for him not to fight. Furthermore, he had previously suffered from injustice and was constantly suppressing it in his heart.

After arriving here, everyone gathered and divided the fighting grounds. Chen Xiang and the others were in the third stage of the fighting arena.

At the same time, an old man appeared. He was the one who sent people to assassinate Chen Xiang, Li Li, who was only at the Late period of Three profound realm level of cultivation, but he had a lot of prestige.

This time, the Flying Dragon Association was filled with miasma, it was the result of Li Li's manipulation from behind the scenes.

"First, let's talk about the rules. Once you enter the arena, the array will open, and you can't come out. Because this is a chaotic battle and everyone's cultivation is not weak, it will be difficult to control your strength.

Li Li's cold eyes swept across the crowd, and said: "In other words, entering the fighting arena, you will easily die, even if you cannot win, there is no path of retreat, and if you want to give up now, there is still time, if not you will have to take responsibility of your own death."

Many people knew that one would be able to stay in the battle arena for an hour. However, they didn't expect that one would be stuck inside for less than an hour before they felt that something was amiss.

If they couldn't beat him, they could just leave the arena. But why did they still set such a rule? Many people felt that this rule was very cruel, and people had already given up on participating.

"Do these guys really like to see people die?" Chen Xiang said in a low voice: "At that time, we must be careful."

"Everyone may have misunderstood this rule. Let me explain, the main reason is that when the chaos breaks out, it will spread to the surroundings, so we can't enter or leave the array. On one hand, we can't let others ambush us from the outside, or we can come in and cause trouble."

Li Li had already heard the curses of many people, and his expression became extremely ugly, the voice just now had a trace of anger.

No one dared to curse anymore. Those who were afraid of death quietly withdrew. They were worried that they would not be able to defeat the other party when the time came, and there would be no retreat. It would only be a dead end for them.

Over ten thousand people were participating in this final battle, and over three thousand had given up.

Right now, many people were doubtful, because there were ten thousand slots to enter the Myriad Tao Divine Tablets Formation, with so many empty spots, was there still a need to compete, and what about the empty spots, who was going to take the top.

Of course, no matter how much doubts the crowd had, it was useless. In this place, only those with strong abilities could speak for themselves.

After arriving here, many people could see how dark the Flying Dragon Association was this time.

"The seats vacated must definitely be for the trusted aides of the upper echelons of the seven great Divine Beast Sects. This is very obvious." Wu profound sneered: "Damn it, how can there be no daylight left in the dark?"

Li Li gave everyone one hour to decide whether to leave or not. After one hour, only five thousand people would participate.

Chen Xiang was sure that there were not many people left after the third round of battles.

"Elder, there's less than a hundred people in each group right now, why can't we just directly obtain a spot in the Myriad Tao Divine Tablets Formation?" A middle-aged man boldly asked.

"Because this is a competition, and is a rule set by many generations of Flying Dragon Association, even if the number of participants is insufficient, they still have to go through the selection, although there are less than a hundred people in each group, but according to the rules of the third round, as long as we can endure for more than an hour, we will be able to pass. This test of everyone's strength, is not something that can easily enter the Myriad Tao Divine Tablets Formation, it is not so easy." Li Li's voice was cold, and used his strict gaze to look at the people who were doubtful.

"Alright, we'll start now. Everyone should know which batch you're in right now."

Chen Xiang's group was the last group on the third stage.

Right now, Chen Xiang and Wu profound were standing on top of a huge mountain, looking at the crater like competition grounds, the first batch of people who entered didn't move at all, because they only had seventy people in their group, all thinking that they would be able to pass in half an hour.

But who knew that Li Li would suddenly say that if no ten of them fell, their group would not be able to get a placing in the end, and thus, a chaotic battle would immediately occur. Everyone was worried that they would be the one to fall, so they made the first move, attacking the person closest to them.

After an hour, there were only thirty or so people on the third stage. Although ten of them had fallen early, there were too many who had fought previously, and some of them were not convinced and had to be beaten back. Even if ten of them had already fallen, they still had to fight to the death.

"It's really bloody. Those who fell must have all died." Wu profound frowned, it was still too late to leave, he actually had the thought of leaving.

[Chapter 2764](#)

Wu profound started to have a dilemma in his heart on whether to withdraw. He even wanted to advise Chen Xiang to withdraw because it was simply too dangerous.

The first group was over, and the second group was about to begin. This time, the chaotic battle was still extremely fierce. Blood splattered everywhere, and hands and feet were flying everywhere. It was truly a tragic scene to behold.

Chen Xiang looked at Qin profound who was not far away, he was actually enjoying the show even more, his face full of excitement, he wanted to rush down and kill to his heart's content.

Chen Xiang then looked at Li Li, who had the same expression as Qin profound.

"Qin profound and Li Li, this old thing must have cultivated some kind of cultivation technique, which made killing people a pleasure. Even if he didn't kill himself, he would be happy to see others kill him. Chen Xiang decided that when it was his turn to go up on stage, he would definitely kill Qin profound.

He knew that Chen Xiang was very strong, but he was also very worried. After all, Qin profound and the others were on his side, and Qin profound also had a deep grudge with him.

"Wu profound, have you decided yet?" Chen Xiang had already seen through Wu profound's hesitation.

Now that it was the ninth battle, it was very soon their turn.

"I've decided to go." Wu profound frowned: "Even if I have to risk my life, I still want to kill this fellow who wanted to kill me. I do want to see who will want to kill me that much at that time."

Chen Xiang nodded, at the moment he was also getting serious and nervous, because he was prepared to fight with Qin profound, and he did not know what the outcome would be.

He felt that when the time came, he would definitely fight Qin profound one on one. With Qin profound's personality, he would definitely not let anyone interfere in his battle.

The ninth battle was over with quite a few casualties. In the end, only twenty people survived, and the fighting arena below had long since been dyed red with blood. Even though they had used fire to clear the area after each chaotic battle, it was still difficult to conceal the strong smell of blood below.

"The tenth match." Li Li shouted. He was also a little excited, and of course he knew about the enmity between Qin profound and Chen Xiang. He also knew some things about Chen Xiang.

Therefore, Li Li would definitely not let Chen Xiang die, but he had to obtain Chen Xiang's memories and master Chen Xiang's absolute art of refining pills.

Chen Xiang and Qin profound's hatred had already spread far and wide. They admired Chen Xiang for his courage, and under such circumstances, he actually did not retreat, and there was only death waiting for him.

Chen Xiang and Wu profound jumped into the fighting arena together, and at the moment when he jumped down, Qin profound suddenly threw his head back and laughed crazily. His face was filled with a sinister look, his laughter was extremely terrifying, and at the moment, he was dancing wildly, looking like a demon.

Qin profound and the others also jumped down one after another. There were only fifty people in their group left just now.

"Chen Xiang, I have to admire you, you are actually not afraid of death, although you have that invisibility secret technique, but here, you cannot escape." Qin profound laughed sinisterly: "An hour, is enough for me to find you ... However, you don't have to worry, I won't kill you. I will slowly torture you for ten to a hundred years. "

From Wu profound's words, Chen Xiang could tell that he was going to capture him, but he was not afraid. Currently, his expression was calm, and there was no hint of fear.

Wu profound was the same, he was already determined to fight it out here.

"Begin." Li Li suddenly roared out. From his roar, one could tell that he had suppressed his excitement.

"Wu profound, you must be careful."

Just as Chen Xiang finished speaking, the sinister looking Qin profound rushed over, in an instant, his hands suddenly expanded out like a demon's claws, flickering with purple light, the claws were extremely sharp, as though they could pierce through anything.

At the same time, dozens of pairs of claws appeared and covered Chen Xiang's entire body, as if wanting to pierce his body and turn it into a stopper.

Boom.

When Qin profound came over, he had already channeled his energy and struck a palm towards the claw prints that covered the sky, releasing a powerful shockwave that exploded out waves of aura, causing Qin profound to be forced a few steps back.

Chen Xiang had only used the Heaven Blasting Palm, and had already forced Qin profound to retreat. At this moment, he had a rough understanding of his and Qin profound's powers.

Qin profound is actually being pushed back by his opponent's palm, Qin profound is comparable to Three profound realm, and the opponent is not an early stage Heaven realm, his dao energy is only stronger than a hundred, while Qin profound's energy is stronger than ten thousand.

"You didn't see wrong, Qin profound was indeed pushed back, his strength is unfathomable, no wonder he is so calm when facing the berserk Qin profound."

"Look at Qin profound ... His head changed, turning red like blood. This is too terrifying! Just what kind of demonic technique did he cultivate? "

After Qin profound was forced back by his palm, he knew that Chen Xiang's strength was not as weak as he had imagined. This caused him to have no choice but to use his full strength.

"Qin profound, do you need help?" Qilin's disciple Ren Lingyi asked.

"No need, you guys can start now. If more people die here, I will become stronger." Qin profound said in a low and cold voice, his eyes completely red.

"It seems like you two are indeed working together." With that, Chen Xiang suddenly disappeared. He teleported to the back of Qin profound and the Heavenly magic sword shot out, striking towards his neck.

The moment the sword qi appeared, a white light flashed.

The God-killing sword carried a strong killing intent as it soared, exploding from the bottom of the mountain, intimidating everyone.

"This is ..." God Murdering Sword Techniques, this guy actually knows God Murdering Sword Techniques, this is one of the four great mystical techniques. " An old man shouted.

"It really is the God Murdering Sword Techniques, haha ..." Li Li laughed wildly in his heart, because he felt that he would be able to obtain it very quickly.

For Chen Xiang to be able to cultivate such a strong God-killing sword, he definitely had to have a complete God Murdering Sword Techniques.

The white light of the competition arena dissipated, and Qin profound's head had already separated from his body.

However, although his head was split, Qin profound did not die, and his fighting strength had not decreased.

"Hmph."

Qin profound shouted, and his headless body suddenly moved, both fists striking behind him. Countless red skulls shouted out, and rushed towards Chen Xiang like a raging tide.

The invisible Chen Xiang, never would have thought that even after Qin profound's head was chopped into two, he still released such a strong power, that he was not in time to defend, and was hit by one of the heads.

Although he was hit, he didn't feel any pain.

"You are here."

Qin profound's head suddenly merged with his body, and instantly formed a knot. He took a step forward, and arrived in front of Chen Xiang who was invisible, his fists punched out, striking out one black skull after another.

"This guy ..." An immortal body. "

Chen Xiang immediately dodged, and then, instantly waved his sword several hundred times. The Sword Qi was like countless blades of air cutting across, and Qin profound's body was instantly sliced into pieces, but he did not immediately separate, nor did his blood flow.

Boom.

When Chen Xiang saw that the pieces of Qin profound's body were going to stick together and teleport above him, the Fire cloud palm shot out.

[Chapter 2765](#)

After Qin profound was struck by the Fire cloud palm, both of his palms continuously smashed down, causing the Primitive Tao Power to rush out like a torrent. Passing through the completely opened profound door, the transformed berserk dao energy caused the ground to tremble slightly.

The Heaven Blasting Palm continuously struck out, all of them striking Qin profound's body.

's current strength had already shocked everyone. Instead, they were worried about whether Qin profound could live through this.

Everyone felt that Qin profound would definitely die under this kind of crazy attack.

But Chen Xiang had done it. Qin profound did not die at this moment, he could clearly feel Qin profound's intense life force.

"This fellow, just what cultivation technique is he cultivating? To be attacked by me, even if it's a middle stage Three Profound realm expert, he would surely be reduced to nothing." Chen Xiang clenched his teeth, and continued to crazily attack the Heaven Blasting Palm.

When the Heaven Blasting Palm landed on the ground, it recalled several waves of air that blew everyone to the side. When those disciples saw how terrifying Chen Xiang's strength was, and how he could not lose to Qin profound, they were all secretly shocked in their hearts.

"Hurry and kill Wu profound." A person suddenly shouted.

Wu profound also attacked at this time, but what he did not expect was, there were not only 6 people surrounding him, there were actually 10 of them.

In their group, there were still people from the seven great sects, and they were not weak either. In fact, they were from the Three profound realm.

"I am also a disciple of the profound Marital School, but you actually dared to attack me." Wu profound blocked the attack of a big size man, which was the seat of the Celestial Sect of Wonders.

"I have never treated you as a fellow disciple. Today, you are dead for sure." The big guy laughed and said, "Quickly get rid of him."

At the same time, he released a burst of strong dao energy and released them from all directions, enveloping Wu profound in the sky and earth. Boom!

"Wu profound." Chen Xiang immediately teleported over, and when he grabbed Wu profound, he immediately teleported away, and at the same time, placed Wu profound into the ring.

Wu profound was besieged by many people, although Chen Xiang was still being saved, but he was still injured by the aura and was already vomiting blood.

When Chen Xiang stopped his attacks on Qin profound, everyone saw that Qin profound's current appearance was actually turned into a lump of meat paste.

However, in the next few moments, the lump of meat quickly grew in size, and Qin profound returned to his original appearance, looking unharmed.

"Haha ..." I'm not dead, Chen Xiang, you're underestimating me. " Qin profound laughed wildly.

Everyone felt that it was unbelievable that Qin profound did not die even after being attacked like that by Chen Xiang. It was difficult to imagine that such an immortal body actually existed in this world.

"Hurry up and kill him." Qin profound said to the disciples seated around him. Right after he finished speaking, the disciples immediately started fighting, slaughtering all the people who were not them, turning them into blood mist, and the blood mist was absorbed by Qin profound.

After Qin profound absorbed it, the aura became stronger.

"Do you really not need us to do anything?" An old man from the Three profound realm asked.

"No need, this is my own battle. I will definitely take him down." After Qin profound finished speaking, his body suddenly exploded into a big cloud of blood mist, which filled up the entire competition grounds.

Chen Xiang immediately turned invisible to prevent himself from being attacked. He did not understand what Qin profound was doing now.

Just as everyone was feeling suspicious, the blood mist suddenly shrank back and converged towards a direction. Not long later, the invisible Chen Xiang appeared, and his body was suddenly wrapped in a blood mist.

"Haha ..."

The arena resounded with Qin profound's laughter. After a few blinks of an eye, Qin profound appeared, and six long yet sinister black arms appeared behind his back. These arms tightly wrapped around Chen Xiang, and the tips of their claws were six inches long.

At this time, Chen Xiang was unable to move, and he was also unable to use the power of space to struggle free, because the six inch long claws had pierced into his body.

In truth, when he was entangled by the red blood mist just now, he was unable to circulate his body's dao energy, and his Spirit of the Dao gods was unable to activate the Primitive Tao Power, causing him to be in need of the source of his power.

Everyone only saw Qin profound's claws piercing into Chen Xiang's body one by one. His chest and back were all firmly nailed by them.

Qin profound's black arm suddenly started to wiggle, as though something was flowing out of it and into Chen Xiang's body.

"Hmph." When Chen Xiang saw the things inside Qin profound's sinister black arms that were about to be transferred over, he bellowed, and his body suddenly shot out a ball of flame. He saw a very small Qilin suddenly rushing out from his chest.

The moment the Qilin rushed out, it burned with flames. As the Qilin let out roars, the flames reached into the heavens and began to burn everything around it.

Qin profound's arm was instantly burnt to the point it shrunk, and had no choice but to withdraw from Chen Xiang's body. After Chen Xiang broke free from Qin profound's restraints, the Qilin immediately charged towards him, turning into a ray of flame that covered his arm.

The instant the Qilin attached Chen Xiang's arm, many scales appeared on Chen Xiang's body, turning into a Qilin arm with shocking power.

They had seen the real Qilin before, but it was not inside their Qilin Sect. They knew that after cultivating to a certain degree, they could also cultivate a Qilin, just like what Chen Xiang had done just now.

However, Chen Xiang was only in the Heaven realm stage right now, and he actually managed to cultivate it.

"Bastard." Chen Xiang instantly appeared in front of Qin profound and punched him hard in the face. The moment the Qilin arm was swung, sparks exploded out and a piece of flesh from Qin profound's face flew out.

However, Qin profound's face immediately returned to normal.

"Your regeneration ability is limited, let's see how long you can keep it up." Chen Xiang's fists struck back and forth against Qin profound, both arms also being torn off by Chen Xiang's powerful Qilin arm.

Qin profound did indeed have the power to revive him, but he needed a regeneration gap, otherwise he would not be able to retaliate at all.

Right now, his arm had just grown out, and was immediately smashed off by Chen Xiang. His head had just recovered, but was again smashed into pieces by Chen Xiang.

"An hour is almost up." Li Li suddenly said gloomily, he did not expect Chen Xiang to be so strong, to not be able to kill him with his own strength.

What he had just said was also to tell the other disciples to hurry up and make a move so that Qin profound could recover. There were still a few early stage Three profound realm s amongst them, and their strengths were all equally matched with Qin profound.

As expected, the first to attack were those six disciples, they wielded their divine weapons and rushed over with their fastest speed, and fiercely hacked at Chen Xiang, extremely berserk.

Chen Xiang felt the attacks from all four directions, and with a twist of his body, a Green dragon howler appeared. The dragon head collided with the female disciple of the Qilin Sect, and immediately penetrated through her body.

[Chapter 2766](#)

When the three people were attacking Chen Xiang, they instantly died the moment they entered. All the sect elders who were watching the battle felt a heart-wrenching pain.

All the disciples from the various sects were young and outstanding disciples, and were raised to be the heirs of Leader.

But now, three of them had been killed by Chen Xiang in an instant.

It was not because those disciples were too weak, but because the Chen Xiang they were facing was someone who was stronger than Qin profound. Even Qin profound was unable to do anything to him, let alone those disciples.

Chen Xiang had already seen it, a few clan elders wanted to come in, but this competition ground was protected by a big array, before an hour was up, the array would not stop working, unless the array was broken by force, and the people inside would be affected.

The massacre of the three disciples was something that many people would love to see. Many people had long seen through the layers of darkness in the Flying Dragon Association, especially those who had withdrawn from the competition.

Everyone thought that the organizers of these events must be those great sects and Flying Dragon Association s. Just a moment ago, those disciples had already massacred a lot of people.

And now, their disciples had been massacred, and their elders actually wanted to interfere.

Why was it that when ordinary people were massacred, these elders didn't have any reaction and instead watched on happily. And now that their disciples had been slaughtered, they had to intervene.

Many people were extremely pleased with this, secretly praising Chen Xiang for killing so well.

"Senior Li, is there any way to remove this formation? If we don't, I'm afraid our people will die." An elder of the Phoenix Sect asked.

"No." Li Li also looked solemn: "We have underestimated Chen Xiang's strength, but you don't have to worry, we still have a few Three profound realm s here, and two of them are at the late stage."

In the fighting arena, when the remaining three disciples saw the Azure Dragon that Chen Xiang had released was so powerful, they were all terrified and did not dare to approach. They had all personally seen the Azure Dragon kill three people of similar strength as them just now, and it was only a matter of time.

As for the elders of the Three profound realm, they were also extremely cautious, they did not dare make a move, and were worried that Chen Xiang was hiding his strength.

"The Three profound realm's ability to hold Chen Xiang back, to let Qin profound recover, and then to kill him together. Our Late period of Three profound realm is so powerful, there's no need to be afraid of him." An old man from the Late period of Three profound realm said: "Do it, there is not much time left. We must defeat Chen Xiang, we must not let him enter the Myriad Tao Divine Tablets Formation."

After he finished speaking, the elder frowned, and used a burst of majestic Dao energy from his body to pressure Chen Xiang like the collapse of the heavens.

"Pu!" Chen Xiang was struck by this berserk force from all directions and couldn't help but spit out a large mouthful of blood. The dirty air in his body ached faintly, as if it was going to be crushed.

Even if it was a very ordinary expert at the late stage of the Three Profound Realm, the minimum strength of the Dao would be around two to three hundred thousand, while Chen Xiang's current Dao strength was no more than ten thousand, the difference between the two was extremely huge.

Another old man of the late stage of the third selection also followed suit and struck at Chen Xiang from a distance, the berserk fist wind created thunderous winds that tore through the sky, shaking the entire sky. Although it was separated by an array, the entire world still surged with wind.

Boom.

The moment Chen Xiang was struck by the fist force, he flew and struck the stone wall, as though his body was going to break apart.

"Is that guy from the Late period of Three profound realm really that strong?"

Chen Xiang laid on the ground, looking at his own Qilin arm, it was already dripping with blood. The green dragon had also been swept away by the fist force, and now it had returned to his second Divine Sense Sea, looking dispirited and dispirited.

"Let's go."

Seeing that Chen Xiang was currently heavily injured, the old man shouted out, and several disciples of the stage and the elders of the Three profound realm rushed up, bombarding Chen Xiang with attacks. In an instant, the sounds did not stop, and there were waves of exposure.

"Don't go too far." The moment everyone attacked together, Chen Xiang had already teleported into the air to dodge, summoning his Emperor seal.

The Emperor seal immediately became huge, like a giant boulder floating in the sky. It covered the sky and covered the entire mountain pass, making the people above unable to see what was happening below.

"Receive it, you bunch of bastards."

Chen Xiang fiercely stomped against the Emperor seal, using all his strength, causing the Emperor seal to sway violently and fall down.

The Emperor seal trembled from the green light, as if its pressure could destroy the heavens and the earth.

Rumble ...

When the seal fell to the ground, the other Three profound realm s all took action as well, using their strongest powers to attack the giant seal, causing an even more intense movement. At this moment, the entire mountain was shaking, and many rocks were already rolling down.

"Get down." Chen Xiang increased his strength and stepped on the seal, causing the seal to continue to press down, but the power below was stronger than him, it was actually able to resist the impact of the Emperor seal.

"Is it because my Azure Dragon was injured just now, causing the movement of Emperor seal to be limited?" Chen Xiang frowned, while he was struggling to hold on, he suddenly felt something wrapping around him.

It was Qin profound.

Qin profound recovered and became a blood mist, wrapping around him and making it impossible for him to unleash his powers.

Boom.

Without Chen Xiang's support, the Emperor seal was instantly blasted away and turned into a small seal which entered Chen Xiang's body. As for Chen Xiang, he was entangled by Qin profound's few sinister arms, and just like before, his body was pierced through by multiple claws.

"Is it time to play?" Chen Xiang didn't know what Qin profound wanted to send over through his devilish arms, but he knew that it definitely wasn't anything good.

Roar ...

Chen Xiang's body flashed with a white light, and a tiger's roar filled with endless killing intent came out, the power exploding out once again shattered Qin profound's arm.

White Tiger.

Previously, after Chen Xiang released the Qilin and the Azure Dragon, he also released a White Tiger.

The ones who were the most shocked were naturally the divine beast sects. It was extremely difficult for them to cultivate even one of them, but Chen Xiang was able to cultivate three of them. They were all curious to know what kind of cultivation method Chen Xiang cultivated.

"Quickly kill the White Tiger."

roared. At this point, he had to admit that it was extremely difficult for Chen Xiang to deal with him, he was proud and arrogant, but he was also willing to accept others helping him out, because at this rate, he would be the one to die.

The late stage Three Profound Realm old man threw a punch, instantly dispersing the White Tiger.

Chen Xiang landed on the ground, and looked at the white tiger that had turned into a cloud of mist with some despair. It was one of the three divine beasts that he had obtained after breaking through the three profound God s.

All three divine beasts had lost their powers and needed some time to recover before they could be used.

"Hahaha ..."

Qin profound looked at Chen Xiang's despairing eyes, and laughed out loud, the Demon arm that was shattered earlier extended out once again, enveloping Chen Xiang, and the tip of his claw pierced into Chen Xiang's corpse once again.

"I haven't lost yet..." Chen Xiang immediately used the power of space to move all of the remaining Dragon Way Law Pills into his mouth and swallowed them.

[Chapter 2767](#)

The third time Qin profound used that ferocious demon arm to wrap around Chen Xiang, he did not succeed in delivering that thing into his body the previous two times.

But this time, he succeeded!

After Chen Xiang consumed those Law Pills, he had a feeling that the thing Qin profound channeled into his body was a turbid and scalding power. After it entered his body, it was as if it was gnawing on his flesh and bones, causing him to wish that he were dead.

"Just you wait!"

Chen Xiang roared out in his heart, and at the same time, used his own willpower to control the power of the Rules Pellet after it melted, and channeled it into his own Spirit of the Dao gods.

"What kind of expression is that?" When Qin profound saw that the despair in Chen Xiang's eyes had disappeared, he immediately stomped his foot on Chen Xiang's face.

"Do you think you still have a chance to turn things around? "Haha ..." Qin profound laughed sinisterly: "Don't worry, what I said before, I won't kill you. I will only make you live a life worse than death."

An hour would soon pass, Chen Xiang knew that even if it was time, he himself would definitely fall into their hands.

This group of people had their eyes on his cultivation technique and pill refining skills. They wanted to obtain them, so they wouldn't let him go!

The three chief disciples and the Three profound realm Rankers were watching from the side. They did not know what Qin profound was doing, but seeing Chen Xiang's painful expression, they knew that Qin profound was using some sort of method to wreak havoc on Chen Xiang. It was equivalent to torturing him.

What made them fear was that when Chen Xiang was enduring this pain, he actually did not shout out. He only furrowed his brows and silently endured it!

What had Chen Xiang not experienced before? Although Qin profound was wreaking havoc like this, he could still endure it. He had long gotten used to it.

"Just you wait, as long as I successfully step into the Three profound realm, all of you will die." Chen Xiang's eyes that were filled with killing intent swept across the crowd, causing them to feel a chill down their spines.

This kind of gaze that was filled with endless hatred and killing intent, actually made them feel fear. When they came into contact with Chen Xiang's gaze, it was as if they were facing the threat of death.

They had never experienced something like this before!

They had all seen Chen Xiang's strength just now. If not for the two Late period of Three profound realms, even if there were a few in the early and middle stages of the Three Profound Realm, it would have been difficult for them to defeat Chen Xiang.

Even Qin profound, who everyone was afraid of, was being beaten up by Chen Xiang. If it was one on one, Qin profound would have already been beaten to death!

Chen Xiang closed his eyes, enduring the pain while cultivating with his will!

There were three balls of white light within his Spirit of the Dao gods. At this moment, these three balls of white light were crazily absorbing the energy released by the Law Pellets, unceasingly growing.

Chen Xiang firmly believed that as long as these three balls of white light were powerful to a certain extent, they would be able to sense each other. At that time, the Three profound Divine Junctures would be able to take the third profound level and he would be able to step into the Three profound realm!

His current strength was ten thousand, if he stepped into the Three profound realm, it would at least increase by ten times. Adding his Divine Equipment, he would need to deal with the Late period of Three profound realm!

Time trickled by, the sand in the hourglass was running out, while the blood vessels on Qin profound's ferocious arms were wriggling, a type of power that could make one feel pain beyond death was continuously destroying Chen Xiang's body!

At this moment, Qin profound was also secretly shocked, although Chen Xiang had suffered such a destructive attack, his physical body was actually still relatively good. If it was any other person that was affected by it, their physical body would have already been destroyed, what caused him to be most alarmed was that Chen Xiang's consciousness was still extremely clear, clearly showing that he had some ability to resist this kind of pain!

Qin profound had planned to use this pain to destroy Chen Xiang's mind from the start and turn him into an idiot. At that time, it would be much easier to search for the memories in Chen Xiang's soul!

However, up till now, other than enduring the pain, Chen Xiang had not reacted in any other way that Qin profound was familiar with!

Suddenly, Qin profound saw Chen Xiang's body was glowing with a white light, and the white light looked extremely abnormal, as though there were three layers of white light overlapping each other!

"This is ..." At such a time, he actually managed to combine three profound strengths and step into the Three profound realm! " Seeing that, the expression on an early stage Three profound realm Ranked Elder's face changed, his voice carried an incomparable fear, his body was actually trembling, and could not help but retreat, because he no longer had the guts to take action against Chen Xiang.

Such a young man could break through under such vile circumstances!

Everyone knew how much rage Chen Xiang was suppressing and how much humiliation he had to endure to break through!

"The Three profound realm! Isn't he just an early stage Heaven realm? How did it become the Three profound realm? "

"Doesn't that mean that he's much stronger than Qin profound?!"

"Time is almost up. I wonder what will happen next!"

"This is definitely going to be a good show. It seems like those guys are going to suffer. Look at how scared they are!"

Qin profound's eyelids violently throbbed as he looked down, his heart starting to feel an inexplicable sense of fear.

Chen Xiang who was lying on the ground had many claws that were six inches long, infused with a type of energy that was extremely harmful to the body, it looked like he was half dead!

But now, Chen Xiang stood up, his eyes full of killing intent!

"Quick... Hurry and do it! "

"Kneel!"

As for the three chief disciples and the early stage Three profound realm's elders, they were already lying on the ground due to the incomparably mighty might, and the surface of their bodies was starting to crack.

"Qin profound, I am not as vicious as you are. I will let you die a quick death!"

B000M!

"You guys also killed a lot of people just now, I'll send you guys to meet them!" Chen Xiang had already floated high up in the sky as he took out his Emperor seal.

The remaining chief disciples and Three profound realm s were all killed by the Emperor seal!

Chapter 2768

The moment Li Li's fist rushed over, Chen Xiang struck out with his fist, hitting Li Li's fist!

Boom! The moment the two fists collided, the air surged and waves of energy surged!

Li Li's arm suddenly exploded, blood and flesh splattering in all directions, and there seemed to be many lacerations on his body.

"s with all their doors opened, you ... Just you wait! " never thought that Chen Xiang's strength would actually be so terrifying. Earlier, he was very sure that Chen Xiang's profound door was completely open.

"I don't have that kind of patience. I don't want to wait any longer. Go and die right now!" Chen Xiang summoned his Heavenly magic sword, activating the power of the Sword Spirit, he slashed towards Li Li who was running far away.

"Hua!"

Countless sword rainbows flew out with rays of red light as Sword Qi engulfed the sky. With just a hack from Chen Xiang, a deep ravine appeared on the ground in front of him. Li Li, who was flying far away, was hit by the strongest sword beams, and was instantly torn into pieces, becoming ashes that floated in the air.

"Is it over?" Chen Xiang looked around, searching for the sect elders, but they were all there. Unseen: "You sure run fast! Are they all from the Three profound realm? "So afraid of me!"

Chen Xiang immediately flew towards the Center of Flying Dragon City. The Myriad Tao Divine Tablets Formation would appear there, and he did not know what else he would face there!

Everyone looked at Chen Xiang walking far away, the shock in their hearts still did not dissipate.

"This is too terrifying. The Laws of the Flying, the Laws of the Dragon ..." And such a terrifying power! "

"Qin profound is actually dead, and this guy who is normally so arrogant is actually dead."

"Yes!" Qin profound, who has always been called a super genius, is actually dead, I truly do not dare to believe that he is still alive and kicking after an hour. "

"And those chief disciples, they are all dead!"

Everyone swallowed their saliva. Even the chief disciples of the seven great sects, with their esteemed status and unlimited potential, were killed within an hour!

"I wonder what will happen next!" That Chen Xiang even killed the person in charge of the Flying Dragon Association. "

"Hmph, those fellows deserved to be killed. Everyone must have seen how evil Flying Dragon Association was this time!"

"Exactly, that guy saw that Qin profound had been killed, and attacked Chen Xiang. I never thought that this trash would actually be killed!"

"Haha ..." The funniest thing is that he actually told them to wait for him, but they didn't have the patience to just kill him off. "

"Oh right, isn't there another Wu profound? Is he dead? "

... ..

Wu profound did not die. He had already recovered quite a bit, and came out of You Yao Mountain Villa to find out what happened afterwards from Chen Xiang.

After he finished listening, he found it hard to believe as well, but seeing Chen Xiang's invisible might, he did not dare doubt it.

"When will the Myriad Tao Divine Tablets Formation arrive? "When that time comes, I will definitely go in. If anyone stops me, I will risk my life to fight them." Chen Xiang's voice carried a domineering aura, causing him to feel somewhat fearful.

"It will appear in a short period of time, but there will definitely be someone to host it. As for how it is, I don't know. At that time, the trouble will definitely not be small." Wu profound sighed.

Chen Xiang nodded his head: "Rest well, I'll go out and check the situation!"

At this moment, the Flying Dragon City was just a part of Chen Xiang's legends, it could be said that he had made a name for himself in one fight.

Chen Xiang walked around, he did not manage to find any useful information, but when he returned to the profound Wu Dan Pavilion, he suddenly felt a strange feeling, he could sense that something was in the vicinity.

"Like Snow!" Chen Xiang was shocked, it was Feng Ruxue.

Because he had used the Flight rule beads that Feng Ruxue had refined before, he had this kind of mysterious reaction with Feng Ruxue.

Feng Ruxue must be here to find him!

"Ruxue is currently at the Phoenix Sect. I wonder how she's doing inside! I have just killed Phoenix Sect's chief disciple, so the enmity between Phoenix Sect and has already been settled! " Chen Xiang did not know how to face Feng Ruxue either. After all, he was now enemies with Feng Ruxue.

"You're not going to see her?" Chen Xiang shook his head: "Forget it, let's still have a good talk with her and let her leave Phoenix Sect. This kind of sect is not a good place!"

Knowing that Feng Ruxue was about to come, Chen Xiang waited for him at the entrance of the profound Wu Dan Pavilion.

Feng Ruxue was wearing a conical bamboo hat and a black robe. When Chen Xiang saw her, he nodded towards her and then walked into the profound Wu Dan Pavilion.

Chen Xiang brought her to the top floor before asking: "How have you been?"

Feng Ruxue chuckled: "Of course it's good, don't tell me that I look very down and out right now?"

Chen Xiang also laughed: "You aren't wearing any beautiful clothes, and indeed look a little down and out."

They entered a secret hall. Feng Ruxue took off her bamboo hat, revealing her charming and noble face.

"You know all about me, right?" Chen Xiang sighed.

"How can I not know? Your improvement is truly terrifying!" Feng Ruxue exclaimed, her eyes flickered, looking at Chen Xiang's handsome and resolute face.

"Phoenix Sect is not a good place. Your entire family better not join in on the fun." Chen Xiang said very straightforwardly: "One day, I might even push Phoenix Sect to the ground. I have already killed Phoenix Sect's chief disciple, this enmity has already been formed."

"You have done a great favor for our family. After we found out about this, we immediately decided to leave Phoenix Sect! We just joined Phoenix Sect not too long ago, so we don't have any sense of belonging, not to mention that we know Phoenix Sect so well today." Feng Ruxue nodded.

Chen Xiang heaved a sigh of relief, knowing that his previous worries were unnecessary.

"Oh right, my grandfather has news that he wants me to pass on to you! He said that the Leaders of the seven major sects were already discussing this matter and should be on their way. Other than Li Li, there were a few other elders who were previously in charge of managing the Flying Dragon Association. Feng Ruxue said.

"When will those Leaders arrive?" Chen Xiang thought about it and asked.

"Within a few days after the appearance of the Myriad Tao Divine Tablets Formation, it was a long journey, and although the elders here have access to the Six Gods Stage, they do not dare to act rashly." Feng Ruxue gave a sweet smile, "Now, even Six Gods Stage is a little afraid of you!"

Chen Xiang was a little afraid of the sect's Leader, because they were all at the late stage of Six Gods Stage. If he had dared to fight at the early stage of Six Gods Stage, he would definitely have to weigh the pros and cons of them.

At the very least, he knew that those Leaders came here after the descent of the Myriad Tao Divine Tablets Formation. That meant that he could still enter the Myriad Tao Divine Tablets Formation.

[Chapter 2769](#)

"Ru Xue, what plans do you and your family have for the future? "This time around, I am truly sorry for making things difficult for you all ..." Chen Xiang felt that this child phoenix of Feng Ruxue's was really not easy to deal with.

"This Flying Dragon Pagoda is so big, there must be a place for us here. My grandfather and the others are planning to venture into this Flying Dragon Pagoda, and I will go with them." Feng Ruxue said: "Actually, if it wasn't for you, we wouldn't even know what the face of the Phoenix Sect is like!"

"Look at the two profound Wu Dan Pavilion in the Central Region. You can go find them when you have time and chat with them." Chen Xiang said: "After all, these phoenix doors on the hundredth floor are not orthodox. It is possible that the phoenix doors on the thousandth floor and above would be a little better."

When Feng Ruxue heard that the Mei Jing Sisters and the others were here, he was pleasantly surprised. "Alright, I'll go look for them now, I won't disturb you anymore!"

Chen Xiang saw Feng Ruxue to the door, then quickly went to find Wu profound.

"Wu profound, quickly open the door! There's an urgent matter!" Chen Xiang knocked twice before he opened the door hastily.

"What is it? The seven great sects are coming for us? " When Wu profound opened the door, he was so shocked that his face turned pale.

"If the seven great sects really did attack me, do you think I would be so calm?" Chen Xiang laughed as he entered Wu profound's room.

"Since when have you been so calm?" Wu profound curled his lips: "What exactly happened?"

"The Leader s of the seven major sects are coming over!" Chen Xiang said calmly.

"What?" Wu profound had just let out a sigh of relief, but his face immediately turned green again from fear. "Look at you, you're already like this, why are you still so calm! What should we do now? "

"Don't worry, they only came a few days after Myriad Tao Divine Tablets Formation appeared. We still have time! At that time, we will quickly exchange all of the Dao crystal for Law beads s and then fly far away. " Chen Xiang said: "I heard that the Myriad Tao Divine Tablets Formation only allows Late period of Three profound realm and those below to enter, right?"

That's right, that's right, that's not bad, you are so strong, you are invincible in the Myriad Tao Divine Tablets Formation, hahaha. Wu profound laughed loudly. He knew Chen Xiang's capabilities, especially his ability to preserve his life and escape, were extremely outstanding.

Chen Xiang nodded his head: "I came to ask you, when the time comes, can we exchange all of our Dao crystal for Law beads in a short period of time?"

"I'm not too sure about that. There are so many of your Dao crystal, but it seems like no one has ever brought so many of them in before." Wu profound shook his head: "We will be able to enter very quickly, and at that time, we will know. Right now, the most important thing is for us to safely leave the Myriad Tao Divine Tablets Formation."

"At that time, the Myriad Tao Divine Tablets Formation will definitely not be safe." Chen Xiang clenched his fists and said: "I'm going to rest. I need to wait for the best preparations."

... ..

At the same time, he was also familiar with the power of the Three profound realm. At the same time, he needed to understand the Three profound realm better in order to quickly break through.

Before this, he already knew that the strength of the Three profound realm s would be extremely terrifying, but now, he could feel that it was very correct that he had chosen to open the profound doors at all costs, allowing him to lay down a very good foundation.

A few days later, in the middle of the night, there was a loud explosion accompanied by an intense earthquake.

Chen Xiang immediately stood up and looked out the window. He saw that the Center of Flying Dragon City's Wyvern Square was covered in white light.

"Chen Xiang, the Myriad Tao Divine Tablets Formation has appeared." Wu profound shouted from outside: "We need to hurry."

"Alright!" After Chen Xiang opened the door, he and Wu profound immediately headed to the Wyvern Square.

Arriving at the Wyvern Square, Chen Xiang saw many people. In the middle of the Wyvern Square, there was a large ball of white light that covered everything, making it impossible to see what was going on inside.

There was a small entrance at a place in the Myriad Tao Divine Tablets Formation, which was the entrance to the Myriad Tao Divine Tablets Formation, and at the entrance, there were a few old men guarding it.

The people who had passed the first three rounds, were now all lining up to enter the Myriad Tao Divine Tablets Formation. Chen Xiang and Wu profound's arrival made many people retreat, and even the people in front of them had to quickly move out of the way.

"The both of us have passed the third round of examination. We can enter now!" Chen Xiang asked with a very calm tone. Both he and Wu profound took out a jade tablet.

"But... You can enter! " He did not know why he suddenly became nervous. Maybe it was because he had seen Chen Xiang's lightning like strength before, and had witnessed how Chen Xiang killed Li Li with his own eyes, but when he saw Chen Xiang, he could not help but be respectful.

Chen Xiang and Wu profound anxiously walked in, this way, even if the experts of the seven big sects came, they would not be able to do anything.

"Is the Myriad Tao Divine Tablets Formation safe?" Chen Xiang looked around, all the stone tablets in the Myriad Tao Divine Tablets Formation were as tall as a person, and had only reached 10,000 just now.

It should be safe now. Even the people from the Late period of Three profound realm can't beat you. The old men at the door earlier were all from the Six Gods Stage, but they were also very afraid of you. Wu profound said as he anxiously took out a few Dao crystal s and poured them into a piece of Myriad Tao Divine Stele. "Inside this Myriad Tao Divine Stele, there is a lot of space to hold these Dao crystal s.

Very quickly, Law beads appeared on top of the Myriad Tao Divine Stele.

"This is ..." The Flight rule beads! " Chen Xiang said: "How many Dao crystal did you use?!"

"30 million!" Wu profound was overjoyed, "About ten times less!"

"Only ten times!" Chen Xiang was a little disappointed.

"Ten times is not a small amount. Under normal circumstances, a Dao crystal would need three hundred million to buy one, but ten would be bought at three hundred million." Wu profound curled his lips:

"This is enough for me."

"Do you only want to exchange for Flight rule beads?" Chen Xiang asked.

"Yes, I want to fly." Wu profound laughed.

"Fine, you exchange for 12 pills. I'll help you refine them. That should be enough for you to cultivate your flying Dao meridian." Chen Xiang said.

At this time, more and more people came in.

"That's great!" Wu profound laughed.

Chen Xiang also took out a Dao crystal and placed it inside a Myriad Tao Divine Stele.

"Chen Xiang, what Law beads are you refining?" Wu profound asked.

"Secret!" Chen Xiang chuckled, and then waited for the Law beads that were condensed at the top of the Divine Stele.

Very quickly, a Law beads appeared on the Divine Stele. This Law beads was much larger than normal Law beads.

"What kind of Law beads is this? It's actually this big!" Wu profound was shocked. He had never seen or even heard of such a Law beads.

"As for the use of Heavenly Alchemy rule Beads, I'm not sure either!" Chen Xiang took the Law beads and frowned: "It took up one billion of my Dao crystal!"

Wu profound gulped his saliva. He did not think that Chen Xiang would actually come here to get something like this, he had already told Chen Xiang before, Heavenly Alchemy rule Beads consume a lot of energy.

At this time, in the Myriad Tao Divine Tablets Formation, he had actually spent a billion Dao crystal to obtain it. He also wanted to know what this kind of Law beads could be used for, to actually be so precious.

[Chapter 2770](#)

After Chen Xiang took out one pellet, he went on to make a second Heavenly Alchemy rule Beads. However, after he put in the one billion Dao crystal, he actually did not manage to condense another.

"What's going on? Is one billion Dao crystal gone just like that?" Chen Xiang ruthlessly smacked twice on the Myriad Tao Divine Stele.

"Are you sure you have enough Dao crystal?" Wu profound asked, he also felt that it was strange.

"I'm very sure that I let a billion Dao crystal in." Chen Xiang said softly when he saw someone walk in.

Wu profound didn't know what was going on either, but he shook his head. After all, Heavenly Alchemy rule Beads were rarely seen, and a majority of people had never even heard of it.

The first time he heard of Heavenly Alchemy rule Beads, he was in the Myriad Tao City. At that time, someone told him that Heavenly Alchemy rule Beads were extremely special, and when they first started to refine, they needed extremely few Dao crystal. And later on, they would need even more Dao crystal.

Thinking about this, Chen Xiang continued to place the Dao crystal in. After he added 200 million, a Law beads appeared on top of the Myriad Tao's Divine Stele.

"Motherf * cker!" "It really is a scam!" Chen Xiang cursed in his heart, he did not know how much more he would need.

"Why is it okay again?" Wu profound asked.

"I need even more of those things." Chen Xiang said in a low voice: "I don't know if I have enough Dao crystal s or not."

"There's actually such a thing!" Wu profound was also extremely surprised.

At this moment, more and more people came in. There were more than a thousand of them, and all of them were still alive after the third battle.

Originally, those chief disciples would definitely come in, but now that they were killed by Chen Xiang, it was extremely lonely and desolate.

Chen Xiang traded the Myriad Tao Divine Stele and put in the one billion Dao crystal. He thought he could exchange for a Divine Stele so he could use fewer Dao crystal.

This time, Chen Xiang used one and a half billion Dao crystal to condense one pellet.

"It's already three pills!" Chen Xiang felt that he should be more than enough to condense a dozen pills, but he quickly felt that his idea was very wrong.

Because on the fourth pill, he used two billion Dao crystal. Each time the number of Dao crystal increased was very strange, without any pattern.

At the fifth pill, he spent three billion!

"Damn it, the fifth pill only cost thirty pills!" Chen Xiang ruthlessly struck the Myriad Tao Divine Stele. Previously, he thought that he would be able to call the wind and summon the rain here with the forty billion Dao crystal. However, he didn't expect this kind of result.

Then, the sixth grain was used four billion, the seventh was used five billion, the eighth was used six billion, the ninth was used seven billion, and the tenth was used eight billion!

"Alright, my Dao crystal is almost used up!" In less than an hour, Chen Xiang had almost used up all of the Dao crystal in his possession, leaving him with only about a billion.

"How much is it?" Wu profound knew that Chen Xiang was extremely rich. Although he had taken ten billion to buy the Dragon beast, he still had forty million, so his usage of the Dragon beast was much faster than's.

"Close to 390 ... A hundred million is only his ten pills. " Chen Xiang was so angry that he wanted to scold them, this Heavenly Alchemy rule Beads was much more precious than he had imagined.

Although there were only ten pellets, he could use the Heavenly Alchemy to refine Law beads into a pellet to increase its effectiveness! Otherwise, he would need a hundred pills.

If he used the Myriad Tao Divine Stele outside, it would be hard to imagine how many Dao crystal s he would need to gather a hundred of them. He felt that fifty billion was a conservative estimate, if it continued to grow, it would be possible even if it was a trillion.

But this also meant that the Heavenly Alchemy rule Beads were extraordinary, even with a large number of them, it was difficult to fill up the amount that was needed to increase.

"Fortunately, I came in early. If there are people who want to condense Heavenly Alchemy rule Beads, then they will definitely need more!" Chen Xiang had nothing else to do here, he observed his surroundings to see if there were any suspicious people.

The Law beads that Wu profound needed to condense all very little consumed Dao crystal, so he still needed some time.

"It's getting slower and slower, mainly because more and more people are coming in here. What dogshit Myriad Tao Divine Tablets Formation, they are basically disassembled into ten thousand pieces of the Divine Stele." Wu profound snorted.

Previously, Wu profound only needed a moment to condense one pellet, but it would take a moment to condense one pellet, but after a while, he was only able to condense three pellets in two hours.

Because the people of Myriad Tao Divine Tablets Formation had already reached three thousand!

"Only a thousand people participated in the Flying Dragon Association. Where did the rest of the two thousand come from?" Chen Xiang frowned, he now understood why the seven major sects wanted to reduce their numbers, because the more people there were, the slower they would be. Even if there were more Dao crystal, it would still take a lot of time.

"They must have come from the seven great sects. I just don't know if there will be more people coming in. There are still seven thousand seats." Wu profound said.

Chen Xiang concentrated and listened to the other people's conversations. See if he could find out if they were the people from the seven big sects.

Soon, he heard something that piqued his interest.

"What's going on? The Heavenly Alchemy rule Beads was actually unable to condense ... Didn't the Leader say that it only required a billion Dao crystal? Now, the one billion Dao crystal have already entered and been refined, but are unable to condense any Law beads. "

"Go out and ask Leader. Anyway, this Myriad Tao Divine Tablets Formation is now ours, and we can enter and exit as we wish." Another person said.

Leader s of the seven major sects had already arrived, they were outside!

What surprised Chen Xiang was that Leader s of the seven major sects were condensing Heavenly Alchemy rule Beads s, but they were too late. He was also secretly happy, just now that disciple had put in one billion Dao crystal and it had already been refined by the Myriad Tao's Divine Stele. If he did not continue putting in the Dao crystal, the Myriad Tao Divine Tablets Formation would not return it.

Chen Xiang had already condensed ten Heavenly Alchemy rule Beads before this, so if someone wanted to condense the eleventh pellet, that would require at least eight billion Dao crystal.

Just as Chen Xiang was rejoicing secretly in his heart, more than thirty elderly people suddenly came in from the Late period of Three profound realm.

"Wu profound, something's wrong!" Chen Xiang anxiously patted Wu profound and said softly: "More than thirty old fellows from the Late period of Three profound realm have come. Seems like they are here to mess with me."

Chen Xiang had done it long ago, and now he was only helping Wu profound condense his Law beads, because Wu profound himself wanted to earn his own Dao crystal using these Law beads.

Chen Xiang handed over the recently condensed Law beads to Wu profound, then he walked towards the thirty-odd elders.

They had all seen Chen Xiang's portrait before, and the reason they came here was to look for him.

"Chen Xiang!" A tall and sturdy old man at the front shouted in a cold voice.

"Are you looking for me?" Chen Xiang asked: "You want to kill me? Who sent you? "

"We are not here to kill you, we are here to capture you! We are disciples of the Three profound realm s of the seven major sects, the Leader allowed us to come in just so that we could capture you and bring you back. Do you know the crime that you have renounced? " The old man asked coldly.

"I don't know. Can you tell me?" Chen Xiang laughed and said.

"He's still laughing even when a great catastrophe is about to befall him!" "Fine, I'll tell you now!" When the old man saw that Chen Xiang was still smiling mischievously, he immediately became angry: "You are making a ruckus in Flying Dragon Association, killing the heads of the seven major sects"

"You don't need to say anything!" Chen Xiang suddenly brandished his sword, and no one knew when he had already called out his sword, nor did they see how he had stabbed it, but they only saw that a new hole had appeared on the strong elder's neck and forehead.
