

Dan God 2771

[Chapter 2771](#)

He was the old disciple of the Late period of Three profound realm. Although he was unable to step into the Six Gods Stage, he was still an old disciple after all. He had rich battle experience, and unexpectedly had two holes pierced in his body in the blink of an eye.

"What is causing a ruckus in Flying Dragon Association, killing your chief disciple? Nonsense, who the hell doesn't know what those bastards were doing to me back then? You actually have the face to say here that they are my crimes? Just allow them to kill me, not allow me to kill them? Was it my fault that I killed them? You bastards, I have seen many of you. "

As Chen Xiang spoke, his anger rose. He was using the Shrinking step and teleportation, whether or not he used invisibility to charge into the group of Three Profound experts, the Heavenly magic sword in his hands danced crazily, in the blink of an eye, a few elders were chopped into pieces.

"Attack!"

They knew that Chen Xiang was strong, but they never expected him to be this strong. They were all Late period of Three profound realm s, and in an instant, several of them died on their side.

"Celestial squad!" Chen Xiang released the Six Realms mirrors. At that time, his Six Realms mirrors had also shone upon the Celestial squad and had already been copied inside.

Under Chen Xiang's control, the Six Realms mirrors circled in the air, the mirror constantly shot out waves after waves of heaven killing power. After those Three profound realm Elders were struck, their bodies immediately turned into ashes.

At this time, Chen Xiang had already disappeared as well. Hiding to the side, he controlled the Six Realms mirrors to kill these few elders, and he also teleported in front of some of the fleeing elders from time to time to kill them.

At this time, the inside of the Myriad Tao Divine Tablets Formation was bustling with noise and excitement, the power produced by the Celestial squad was like thunder, rumbling non-stop, causing the inside of the Myriad Tao Divine Tablets Formation to shake.

In a few moments, all that was left of the thirty odd Late period of Three profound realm Elders who walked in were a pile of torn clothes and powder. All of them had been killed by Chen Xiang.

Seeing that someone was about to run out of the Myriad Tao Divine Tablets Formation, Chen Xiang immediately blocked their way and coldly said: "Are you from the seven major sects? "Don't worry, I promise I won't kill you!"

The man swallowed his saliva and said, "I... I am not from the seven major sects. I was just worried that I would be affected by it.

"Are you really not from the seven great sects?" Chen Xiang laughed, he had heard the man talking about him at Azure Dragon School just now.

"It's really not!" That person was very afraid of death, and he spoke with determination.

"I hate people who lie to me the most! I have a pill here. If you eat it, and if you lie, it will explode. "

Chen Xiang handed over a pill.

Who didn't know that Chen Xiang was a genius alchemist now? The reason why the seven major sects wanted to capture him alive was to obtain his alchemy techniques!

Thus, no one dared to suspect that the pill was fake!

But Wu profound knew that the pellet was actually a Tianhun gold Dan, and did not have the same effect that Chen Xiang had mentioned.

"I... "I ..." The man's forehead was suddenly covered in sweat as he stuttered, "I'll eat ..."

The moment he received the pellet, his expression became gloomy and cold. He then took out a short blade and quickly slashed towards Chen Xiang's neck.

Chen Xiang frowned, he only snorted, and his body released a burst of astonishing power, which directly shattered the blade.

"You're from the Azure Dragon School, don't think that I don't know you're lying to me." Chen Xiang's eyes shot out two beams of fire, striking the man's body, instantly burning him to ashes.

"Everyone from the seven great sects, come out!"

Chen Xiang released a burst of pressure that enveloped the entire Myriad Tao Divine Tablets Formation, his eyes were like lightning, bringing along a cold killing intent, he swept his gaze across the crowd and those who were seen by his eyes, all felt their hearts trembling, as though they were ants.

"I'll count to two. If you don't come out, then die. I have a way to find out whether or not you're disciples of the seven major sects ..."

"One ..." After Chen Xiang finished counting, a large group of people rushed out and stood in the most spacious area, which was also close to the entrance.

"There's actually more than 2000 people. It's not small ..." I also can't be bothered to kill you all, get out of here, tell your Leader to send a strong guy to fight me, I'm so bored to death. "

Chen Xiang opened up a path, looked at the group of people, and shouted: "What are you looking at, quickly scam! Do you want me to kill you all? "

As soon as he finished speaking, a large group of people rushed out.

"You guys aren't from the seven great sects. Continue with your matters!" Chen Xiang sat at the entrance and spoke to the people inside.

Wu profound heaved a sigh of relief and laughed: "Now, I can condense a Law beads a little faster!"

There were only eight hundred people here, so it was going to be very fast!

After entering the Myriad Tao Divine Tablets Formation, the person with the highest cultivation could only be the Late period of Three profound realm, but Chen Xiang, who was at the early stage of the Three profound realm realm, was extremely terrifying.

... ..

The area outside the Myriad Tao Divine Tablets Formation was full of people, and the seven people standing at the very front, as well as several tens of white-haired old men, were the Leaders and elders of the seven major sects.

"What do we do now? Once all of the Late period of Three profound realms are dead, the results of entering the early and middle stages of the Three profound realm will be the same. Azure Dragon School's face was filled with anger: This little beast, when he comes out, I will definitely let him know how powerful I am.

Just as he finished speaking, a large number of black pills came out from the entrance.

"What is this?"

After an old man saw it, he picked one up and looked at it. Suddenly, a 'bang' sound was heard! The black pills in his hand suddenly exploded, and the pills on the ground also exploded.

A series of explosions sounded out, and when Chen Xiang who was inside heard it, he could not help but laugh.

The people outside were originally dressed neatly in luxurious clothing. However, their clothes had been blown into rags, and many of their faces were covered with black items, making it difficult to wash them off.

gave a lot of these materials to Chen Xiang, and she also gave some of the things Du Xiaoling got from him.

Those were all refined by Chen Xiang inside the Myriad Tao Divine Tablets Formation.

"I don't understand, I want to kill him!" Azure Dragon School took out a mirror and looked at his face. It was full of black stains that were difficult to remove, his white hair had been dyed black, but the things that came out from those pills were very strange, causing his hair to be crushed into a ball.

Everyone's hair was tied into bundles, and their bodies were in tatters. Their faces were dark and unsightly, and they were all battered and exhausted.

"Haha ..." When Chen Xiang stuck his head out and saw it, he immediately laughed heartily and then immediately hid his head inside.

"Little trash, I'm going to kill you."

An elder roared, and threw a strong palm attack towards the entrance. The powerful palm strike struck towards the white light barrier outside Myriad Tao Divine Tablets Formation, which exploded with a loud sound. The light barrier suddenly flashed, and reflected an even stronger force.

"Be careful!" The dozen or so elders began to work together to resist the rebound force. Otherwise, the juniors behind them would definitely suffer heavy casualties.

[Chapter 2772](#)

had heard from Wu profound before that when the old man attacked Myriad Tao Divine Tablets Formation, he suffered such a strong counterattack. It could be seen how powerful the counterattack power of the Myriad Tao Divine Tablets Formation was.

"So powerful, what kind of existence is this Myriad Tao Divine Tablets Formation?" Just now, Chen Xiang had also felt how terrifying the power of the Divine Stele Formation was.

"I wonder how these God Tablets are formed. I have to take a look!" Chen Xiang had nothing else to do now, he was waiting for Wu profound to condense the Law beads, even if Wu profound managed to condense it, he would still have to stay here for a while, until the Myriad Tao Divine Tablets Formation disappeared.

Because he wanted to study this Myriad Tao Divine Tablets Formation!

"Chen Xiang, what are you doing?" Wu profound saw Chen Xiang taking out a sword and walking towards a Divine Stele, and anxiously shouted: "Don't do anything rash!"

"Don't act recklessly. I just want to take a look at the interior of the Divine Stele. I'm just here to take a look."

Chen Xiang said, he had already raised his sword, and when the people inside saw him, they were immediately terrified, afraid that Chen Xiang would make a big commotion while slashing at the Myriad Tao's Divine Stele, endangering them.

The Heavenly magic sword slashed at one of the Divine Stele and only let out a burst of humming sword cries, but there was no other reaction. Even though Chen Xiang had used a lot of energy, it did not cause any waves.

"To think that the Divine Stele was able to absorb energy. How amazing." Chen Xiang touched the place where he had just chopped off a few times, and discovered that there was not a single trace of it, "Who refined this, it's so strong!"

Then he held the divine tablet.

"Hey, what are you doing now?" Wu profound was also shocked a moment ago. He had thought that Chen Xiang would really be able to slash open the Myriad Tao's Divine Stele, but he never thought that even with Chen Xiang's strength, he would not be able to leave a single trace on the Myriad Tao's Divine Stele.

"Let me try and see if I can pull it out!" Chen Xiang held onto the Myriad Tao Divine Stele tightly and shouted loudly, using all his strength to lift the Myriad Tao Divine Stele up. At this moment, it looked like a very deep part of the Myriad Tao Divine Stele had stabbed into the ground.

Wu profound felt that Chen Xiang was a little funny, and laughed: "Do you think this is a radish, that easy to pull out? With Myriad Tao Divine Tablets Formation here, you must be extraordinary, even a slash from you could not hurt him at all, let alone pull him out.

Just as he finished speaking, he knew that he was wrong, because Chen Xiang had already pulled out a bit of the Myriad Tao Divine Stele, and now, he was being pulled out bit by bit.

"Hehe!" Chen Xiang laughed: "It's quite taxing, I never thought that the Myriad Tao Divine Stele would loosen up so easily."

Very quickly, Chen Xiang pulled out a piece of the Myriad Tao Divine Stele. More than half of the Myriad Tao Divine Stele was buried under the ground, and at this moment, Chen Xiang had pulled it out completely.

"This... It's really possible!" Wu profound was shocked, the others were also the same. They looked at the Divine Stele that was a level higher, this was the complete picture of it.

"What are you going to do with it?" Wu profound asked.

"It must be pretty good to use it for a fight. This thing is so sturdy!" Chen Xiang said, holding onto the Myriad Tao Divine Stele, he swept it towards another direction, causing Wu profound's face to change greatly, he never thought that Chen Xiang would actually be so mischievous like a child.

Chen Xiang swept the Myriad Tao Divine Stele towards the other one. "Boom!" A loud sound was heard, and the two pieces of the Myriad Tao Divine Stele were not damaged in the slightest. They were extremely sturdy.

"Amazing, I wonder what it would be like to use it to beat someone!" Chen Xiang exclaimed: "Seven sects' fellows, hurry up and send some people over, let me try!"

The corner of Wu profound's mouth twitched: "If I get hit, I'll definitely become a meat patty. Don't even think about using it as a weapon, because when the time comes, the Myriad Tao Divine Stele will disappear. "

"Yeah!" Chen Xiang sighed: "I even planned to take away all of the Myriad Tao's Divine Stele."

"Do you think it's your family's big radish!" Wu profound could not help but laugh and say.

"What if I put it in my storage divine tool?" Chen Xiang said: "At that time, the Myriad Tao Divine Stele won't be able to fly anymore."

Chen Xiang suddenly felt that he was extremely quick-witted.

"This... That's not good! What if the Myriad Tao Divine Stele couldn't escape and exploded? "It will hurt you." Wu profound was a little speechless, he actually wanted to take all of the Myriad Tao's Divine Stele for himself.

"Got it!"

Chen Xiang suddenly thought of an idea, and then took out the Chuangshi god furnace. He let the Chuangshi god furnace grow in size, and then placed the Myriad Tao Divine Stele inside.

"What are you doing!" Although Wu profound had guessed it, he did not dare believe that Chen Xiang would do it.

"Hehe, you know it!" After Chen Xiang stuffed the Myriad Tao Divine Stele into the Chuangshi god furnace, he sat down cross-legged.

That's right, he was planning to refine the Myriad Tao Divine Stele, as for what he was going to refine into, Chen Xiang didn't know either, he was just planning to refine it first to see.

Wu profound knew that Chen Xiang had mastered an extraordinary refining technique that could refine anything, but he never thought that Chen Xiang was actually going to refine the Myriad Tao Divine Stele now.

To Chen Xiang, this was not anything surprising; he had previously refined many things using the Heavenly Alchemy.

Chen Xiang had already released an intense flame that burned the Myriad Tao's Divine Stele!

The Chuangshi god furnace was truly worthy of its status. Under the channeling of Chen Xiang's Three profound realm, the World Creation Divine Flame that was released was incomparably strong. In less than an hour, it melted the Myriad Tao's Divine Stele.

"It turned out to be white after melting. What is this thing made of?" I just don't know if I'll be able to eat it after refining it into a pill. " Chen Xiang thought in his heart, he was really looking forward to the moment of condensing the core.

Although the Myriad Tao Divine Stele was very sturdy, when he used the Heavenly Alchemy to refine it, the difficulty wasn't that high. To Chen Xiang, it was much easier than refining many pills.

In just an hour, he would reach the Core Formation stage!

"Do you want to try using the Crash method?" Chen Xiang never thought that it would actually be a smooth process. For the more precious pills, he liked to use the Crash method to process them for a round, so that he could improve the quality.

"Let's give it a try. I'm free anyway ..."

When Chen Xiang decided to condense a core, he chose to first refine using the Crash method.

"Is the Myriad Tao Divine Stele that weak?" Chen Xiang had already stopped his attacks and started to condense his pellet.

Soon, a white pill was formed. It had only been two hours!

"This... Did I succeed? " When Wu profound saw Chen Xiang taking out a pellet from the Chuangshi god furnace, he was extremely shocked in his heart. Chen Xiang actually refined a pellet of the Myriad Tao's Divine Stele into a pellet.

"Let's see what effect it has."

Just as Chen Xiang brought the pill to his mouth, Wu profound suddenly shouted: "Wait!"

"What for?" Chen Xiang asked.

"Will anyone die if I eat it?" Wu profound was a little worried.

[Chapter 2773](#)

Chen Xiang felt that there were no problems, but he still thought about it carefully. He recalled the refining process to see if he had met with any unstable energy.

"There shouldn't be any problems."

When Chen Xiang was refining, he had a certain degree of understanding towards the power of the Divine Stele. Previously, he had thought that the Myriad Tao's Divine Stele was made out of some special material, but after he used the Heavenly Alchemy to refine it, he discovered that the Myriad Tao's Divine Stele was made out of energy.

"This Myriad Tao Divine Stele is formed from energy. The main thing is that this energy is being guided by a special energy, which is why it was able to synthesize the mysterious Myriad Tao Divine Stele. I think this energy is also something that was created by humans."

"Let's call it Myriad Tao Divine Pellet!" Chen Xiang put the pellet into his mouth, closed his eyes, and felt the power of the pellet.

At this moment, Wu profound's heart was in his throat, he was very worried that something would happen to Chen Xiang.

Picking out the Divine Stele was nothing much. At most, they could only be considered curious, but to refine the Divine Stele into a pill and eat it was not something a normal person could do.

"Any reaction?" Wu profound was also very curious. After all, this was a pellet refined using the Myriad Tao's Divine Stele.

Chen Xiang did not reply, because at this moment, he did not know why but for some reason, he had entered a very peculiar state. Previously, he was carefully sensing the flow of energy, but unknowingly, his consciousness had followed along with the flow of that + 1

Energy flows without being able to extricate itself.

At this time, he knew that Wu profound was talking to him. He answered first, but was unable to wake up no matter what, causing him to suddenly panic.

However, just as he was feeling very scared, he suddenly found himself in a very large square stone building.

This building looked as if it was made from countless huge rocks piled up in all directions. It was tens of thousands of meters high and appeared to be as large as several cities.

He had never seen such a thing before, and now that he was standing under this square shaped stone tower, he felt like he was just an ant.

"What is this?" Chen Xiang was very suspicious in his heart, "What does that have to do with the Myriad Tao's Divine Stele?"

Just as he was about to ask, he suddenly saw that one of the corners of the square shaped stone tower had collapsed, and there were many things on that corner that were the size of the Myriad Tao Divine Stele.

That corner seemed to have been attacked by something, which was why it fell down. This stone tower was extremely huge. Just one corner alone had hundreds of thousands of stones on it.

"Could it be that this is the horn that made the Myriad Tao's Divine Stele?" Just when he thought he could guess. Before long, he saw the stones that fell down forming a tower, it was the Flying Dragon Pagoda.

The Flying Dragon Pagoda was already incomparably huge, but it was only made from a corner of the square tower.

"Who built it?" Chen Xiang couldn't see who did it, he could only see that the stone with the falling horn was quickly forming a tall tower.

"This... Not the Flying Dragon Pagoda. " Chen Xiang realized that he guessed wrong again, because he saw that this tower that looked very similar to the Flying Dragon Pagoda entered the gigantic tower, and the corners of the tower returned to normal.

Now, Chen Xiang suddenly thought of something!

"This is ..." Myriad Tao Mausoleum! " Chen Xiang's heart skipped a beat. This incomparably huge tower was the Myriad Tao Mausoleum. He had heard that there was something similar to the Flying Dragon Pagoda in the Myriad Tao Mausoleum.

"Flying Dragon Pagoda and that tower are so similar, there must be a connection!" Chen Xiang guessed that because at that moment, he saw the door of the pagoda suddenly open and then close.

The square tower is so big, the door is definitely bigger, because the Flying Dragon Pagoda can enter through the door!

At that moment, he saw a huge key inserted into the key ring on the door. The door then opened. The moment the door opened, the key bounced off and turned into many rectangular rocks!

"The Myriad Tao's Divine Stele is actually the key, the key to enter the Myriad Tao Mausoleum?" Chen Xiang was extremely shocked, he did not expect that these Myriad Tao Divine Stele had just left the Myriad Tao Mausoleum to come here.

"In other words, the Myriad Tao Mausoleum is currently opening and if we want to close the gate, the key must belong to us. If we do not return the key, who knows what will happen!"

Chen Xiang had already refined one of the Myriad Tao's Divine Stele, so he felt that he wouldn't be able to restore the key.

"Chen Xiang, Chen Xiang!" Wu profound slapped Chen Xiang, his face full of anxiety.

"What for?" Chen Xiang suddenly opened his eyes and looked at his own body.

"Are you done? Did you fall asleep? " Wu profound asked: "When you ate that thing, what was your reaction?"

After Chen Xiang swallowed the pellet, he saw the Myriad Tao Mausoleum and knew that the Myriad Tao's Divine Stele was the key to opening the doors to the Myriad Tao Mausoleum. He couldn't understand why he would see such an image.

"Reaction?" Chen Xiang looked at his own Spirit of the Dao gods. He only knew that the energy generated by the Myriad Tao Divine Stele had entered one of the profound God's gates.

"There's no reaction!" Chen Xiang felt that this piece was abnormal, so he did not tell Wu profound: "Oh right, how does the Three profound realm look like? You need to train like this?"

"You don't know that? Although I am not at the Three profound realm, I have done a lot of homework on it." Wu profound said: "I have already formed the Law beads, so you have to decide when to leave, while we are still safe, I will tell you."

Chen Xiang felt that there was a reaction from his profound God, so he wanted to understand the cultivation knowledge of the Three profound realm.

"Cultivating the Three profound Divine Junctures, then integrating the three great Three profound Divine Junctures, would allow you to very much step into the Three profound realm! As for Three profound realm, it will mainly increase the number of participants from the three profound God's." Wu profound said: "You should understand now, as long as the profound God's Barrier increases in size, then the amount of dao energy coming out of the profound God's Barrier will increase."

Chen Xiang took a closer look at his own Spirit of the Dao gods, and realized that it was actually a little bigger than when he first stepped into the Three profound realm, and it was even a little bigger when all three profound God's entered at the same time, so he did not notice it just now.

"To what extent?" Chen Xiang asked.

"One profound God Entrance after another will be separated and refined. The profound God Entrance is as big as the Spirit of the Dao gods and will fill up the entire Spirit of the Dao gods. Then, the second profound God Entrance will be inside the biggest profound God Entrance and the third will be inside! This way, it means that the Spirit of the Dao gods is at the outermost layer and the three profound God's are layered on top of each other." Wu profound said: "When a profound God has the highest level, it means that the first stage is full! When I start to cultivate the second profound God Barrier, I will be in the middle stages!"

Chen Xiang nodded his head: "Alright, let me give it a try now, and see if I can speed up my cultivation. If I can, at that time, I might be able to go out and fight with those guys."

[Chapter 2774](#)

Wu profound just so happened to reach the late stage of the Divine Sky Realm and then step into the Three profound realm at a critical moment. These things truly happened to Chen Xiang.

"Since they've all left, only the two of us are left here. The guys outside probably won't dare to come in. Just do whatever you want to do now." Wu profound patted Chen Xiang's shoulder and laughed.

"Alright, then we'll start plucking radishes now!" Chen Xiang laughed.

Pulling a radish was to pull the entire Myriad Tao's Divine Stele out of the ground.

At first, Wu profound thought that it would be difficult, but he never expected that after personally testing it, it would actually be extremely easy. In just two hours, he and Chen Xiang had already pulled out over a thousand pieces.

"I will start refining it now. I only ate one pill before, so I can't exactly feel the benefits of this pill. That's why I have to eat more." Chen Xiang said.

"Alright, I will be responsible for pulling out these stone tablets." Wu profound nodded, he definitely hoped that Chen Xiang would be stronger.

Because it was extremely easy to refine the Myriad Tao Divine Stele, Chen Xiang would refine them together with tens of pieces before he went on to refine them.

"Even though there are ten thousand Divine Stele here, there isn't just a few keys to it. Therefore, I must use the Crash method to refine it, and that way, I will be able to obtain the power of an entire key. " That was Chen Xiang's plan.

Now that he had consumed two of the pellets, he channeled the energy of the pellets into one of the profound God Entrances and started cultivating in the profound God Entrances alone. This made it even clearer whether the Myriad Tao Pellets he had refined were effective or not.

This time, he did not see the same scene from before, which also made him feel weird. When he first ate, why did the image of the Myriad Tao Mausoleum appear?

Two of the Myriad Tao's divine pellets were quickly refined, but his first profound God was a lot bigger than the other two.

"There's hope!" Chen Xiang was pleasantly surprised: "There are still quite a few of the Myriad Tao's Divine Stele here, if I refine all of them into Myriad Tao's Divine Pills, I will have no problem stepping into the Late period of Three profound realm, at that time, even if I fight against Six Gods Stage's Leader, I would have the strength to fight."

Previously, Chen Xiang was still worried that the protection of the Myriad Tao Divine Stele would disappear after he took them out, but now, it had not disappeared. However, his strength was weakening bit by bit and he wouldn't be able to hold on for too long.

Chen Xiang also sped up to refine it!

He had two plans. If he had not stepped into the Late period of Three profound realm, he would have brought Wu profound and escaped using the power of space.

Secondly, if he were to step into the Late period of Three profound realm, he planned to have a good fight with the Leaders of the divine beast sects outside.

The Leaders outside turned black and white, and even shouted that they wanted him to confess. What made him most angry was that this group of people wanted to use some kind of soul searching technique on him to steal the Heavenly Alchemy and the God Murdering Sword Techniques from his memories.

Unknowingly, Chen Xiang's first profound God Barrier had already been filled to the brim with Spirit of the Dao gods, and now that he had stepped into the middle stages, he began to cultivate the second one!

"What exactly is the Myriad Tao Divine Stele made of? It actually has such a rich energy, allowing me to quickly fill up the entire profound God." Chen Xiang was very surprised. "I wonder what will happen after I finish eating all of these Myriad Tao's Divine Stele, does it have the power of the Myriad Tao's Divine Stele?"

The most peculiar thing about the Myriad Tao Divine Stele was that it could condense Law beads s. If he had the power of the Myriad Tao Divine Stele, he would be able to become like the Myriad Tao Divine Stele. As long as he had the Dao crystal s, he could condense Law beads s himself.

"Let's hope so! Hehe, then I will be a Myriad Tao Divine Stele myself. " Chen Xiang was secretly delighted.

Wu profound had already piled tens of thousands of Myriad Tao Divine Stele beside Chen Xiang, making them look like a tall wall.

Now, Wu profound had nothing else to do, observing from the side. In the short span of ten days, he could sense that Chen Xiang had become much stronger.

At this moment, Chen Xiang had not restrained his aura, because when he was refining pellets, especially when using Crash method, he needed to consume a lot of energy and it was very strong, so he would release some of it.

"How is it?" Wu profound asked: "You have already eaten over two thousand pieces!"

"Middle stage of the Three profound realm!" Chen Xiang opened his eyes and smiled to Wu profound: "Seems like I can enter the Late period of Three profound realm s here, if nothing goes wrong with this barrier!"

took in a deep breath. The Three profound realm was also a stage where progress was difficult, but Chen Xiang was still able to progress by leaps and bounds. What surprised him the most was that Chen Xiang had used the Myriad Tao Divine Stele to break through.

"You're really something!" Wu profound sighed.

"Don't worry, when I break through, I will help you refine all the Law beads once, and the effect will be ten times more!"

"Ten crystals apiece. Good, good. Hurry up! I'm afraid the shield won't hold. " Wu profound looked at the white light barrier.

"Yes, I will increase my speed." Chen Xiang frowned, he was truly short on time: "The further the journey, the harder it is for profound God to cultivate, I have to work harder and harder."

Chen Xiang had originally planned to refine the Heavenly Alchemy rule Beads here, but he never thought that after refining the Myriad Tao Divine Stele, he would receive such a huge harvest.

The protective light barrier protecting the Myriad Tao Divine Tablets Formation grew weaker and weaker. Previously, he could not see anything inside from the outside, but now he could vaguely see a little.

If this continued, people outside would definitely be able to see what was going on inside!

... ..

"According to how the Myriad Tao Divine Stele descended in the past, this barrier can only last for two months. After the barrier disappears, the Myriad Tao Divine Tablets Formation will still be here for another month, at that time we can still use the Myriad Tao Divine Stele, and only we can use it." The Azure Dragon School from the Azure Dragon School chuckled, "Let's see where this fellow Chen Xiang can hide then!"

The entire plaza was currently surrounded by experts from the seven major sects, both inside and outside, layers and layers. There were over ten Six Gods Stage s flying in the sky, and if the protective shield disappeared, they would immediately attack Chen Xiang.

"A month's time is enough for us to use Myriad Tao Divine Tablets Formation to condense Law beads." The Leader s of the Qilin Sect also laughed, "The most important thing is that if we can take down Chen Xiang, all of our seven great sects will be mobilized. Chen Xiang, however, cannot escape even if he has wings.

They were extremely patient. After waiting for another month, they could already clearly see the situation inside the barrier. The barrier of light would soon disappear.

When the experts of the seven major sects saw the situation inside, they nearly vomited blood. The Myriad Tao Divine Stele was all gone, leaving behind many holes!

Wu profound smiled and waved at the people outside, he was much calmer now, because he knew that Chen Xiang would definitely be able to enter the Late period of Three profound realm s. With the foundation of Chen Xiang's profound door, with his strength, even if he could not defeat the experts outside, running away would definitely not be a problem.

[Chapter 2775](#)

It was only then that the people from the seven major sects remembered that someone from the Myriad Tao Divine Tablets Formation had said that Chen Xiang had gone crazy and pulled out the Myriad Tao's Divine Stele.

However, at that time, Chen Xiang had only pulled out one piece, he did not expect that in the past few days, Chen Xiang had always taken out the Myriad Tao's Divine Stele one by one.

"The Myriad Tao Divine Stele is gone ... Where exactly is this fellow hiding the Myriad Tao Divine Stele? We must definitely make him hand it over! "

"That's right, he's only been hiding the Myriad Tao Divine Stele. We can still use it if he hands it over!"

"We have been preparing for a long time for the Flying Dragon Association this time, how can we just let it go like this? Wait for the shield to disappear and let this guy have his way. "

Chen Xiang was currently cultivating. When he could see the outside, he also felt very anxious as he walked around.

"Chen Xiang, are you ready? This barrier will soon have news." Wu profound asked in a low voice.

Chen Xiang did not answer. He was currently focused on cultivation, and the moment he woke up, he would definitely have a breakthrough. Wu profound was very sure of this, but he did not know if Chen Xiang could break through before the light barrier disappeared!

At this moment, there were already people outside trying to attack the light barrier. Powerful forces struck it, causing it to continuously emit booms and explosions. Various rays of light flickered continuously, causing the interior of the light barrier to change into different rays.

Chen Xiang's brows were tightly knitted, and beads of sweat dripped from his forehead. At this moment, he could feel that kind of threat from the outside world!

The light barrier was getting weaker and weaker. At the same time the light barrier was shaking, waves of energy could already penetrate in, causing Chen Xiang's hair to be blown around randomly.

"There won't be a rebound of energy anymore. We need to seize this opportunity to break this barrier of light, so that he won't be able to escape successfully after breaking through."

Everyone saw Chen Xiang cultivating and were very worried, because they had already seen Chen Xiang's cultivation speed before. It was extremely fast, and after Chen Xiang broke through, his strength would definitely increase dramatically.

This also made them want to see the alchemy skills that Chen Xiang had learned even more. They thought that the reason why Chen Xiang could improve so fast was definitely because of the powerful alchemy skills.

[illegible]

The plaza didn't erupt with noise. The onlookers all walked far away at this moment. They knew that once the light barrier was broken, a fierce battle would definitely break out.

"This is the Flying Dragon City, please give me some face and go cause trouble elsewhere, okay?" A stern voice suddenly rang out, shaking everyone's eardrums. It was a very domineering tone, causing everyone to immediately stop.

Wu profound heard the voice and was startled. He said to Chen Xiang in a low voice: "This is Flying Dragon City Lord, I had thought that this guy was in cahoots with the seven major sects, but now it seems that isn't the case!"

Chen Xiang could hear Wu profound's voice but he still did not answer. Right now, he could very well cultivate his third profound God s to the maximum.

"Flying Dragon City Lord... You have always been in the Center of Flying Dragon City, so you should know about Chen Xiang, right? Now, take a look at the Myriad Tao Divine Stele inside, it's all lost to this guy. " The Azure Dragon Leader said, "Moreover, he even killed more than thirty experts from the Three profound realm that we had sent in, causing us to suffer heavy losses."

The Flying Dragon City Lord wore a red dragon armor and a golden cape. On the cape, there was a mighty and domineering Soaring Dragon statue.

"I am aware of the rules for entering the Myriad Tao Divine Tablets Formation, only those who have passed the Flying Dragon Association's assessment can enter, your people being killed in there is completely within the rules, don't you know?" The Flying Dragon City Lord laughed coldly.

"This ..." The people from the seven great sects couldn't say anything.

"I am also very clear about the Flying Dragon Association's assessment. You all suffered a setback, don't blame others, don't think that I don't know the tricks you guys are playing in the dark! I have only turned a blind eye to all of you, as long as it did not harm Center of Flying Dragon City, I will not bother with you! "

"And now you all actually want to fight? Do you all want to destroy my Center of Flying Dragon City? If you want to hit me, then f * ck off. " Flying Dragon City Lord's tone was extremely strict, and there was even a hint of anger on his face.

If not, the Leaders of the seven major sects would not be so afraid. They did not want to become enemies with the Flying Dragon City Lord right now!

Although they did not want to become enemies with the Flying Dragon City Lord, if the dog was anxious, it would jump over the wall.

The Flying Dragon City Lord's face suddenly became gloomy, because the current atmosphere was very strange. The people from the seven major sects actually wanted to attack him!

"Flying Dragon City Lord, you have been a part of the City Lord for a long time and your days have been quite good. I advise you to obediently stay in your own City Lord's Mansion and not get involved in this matter." The Azure Dragon Leader said, with a threatening tone.

"If you guys weren't fighting in my territory, I wouldn't even bother to care about these trivial matters!" The Flying Dragon City Lord did not show any sign of backing down. His sturdy body trembled and a domineering aura surged out, causing people from the seven major sects to involuntarily take a few steps back.

"In that case, don't blame us!" The Qilin Sect Leader shouted coldly, "Do it!"

Wu profound was startled, he felt that the people of the seven major sects had all gone mad, and were actually fighting the Flying Dragon City Lord!

There were only two people who attacked: the Qilin Leader and the Black Tortoise Leader. The profound Marital School was famous for their defense, and the Qilin Sect was a powerful offensive sect. Both of them had extremely strong offense and defense, and if they worked together well, it would not be easy to defeat them.

The Flying Dragon City Lord was also very surprised, he never thought that these people would actually make their move, he fiercely jumped into the air, in case the battle spread to the Center of Flying Dragon City!

"It's enough to have these two to stall the Flying Dragon City Lord. If our seven sects join hands, this Flying Dragon City would be considered nothing." Azure Dragon School sneered: "This guy was sent down from above, he probably doesn't have much ability, which is why he was planted here as the City Lord. Since he doesn't know how to act, we will teach him how to conduct himself."

Everyone looked at the battle in the air. At this moment, waves of energy were constantly coming down from above, and the stone tiles above the Flying Dragon Square were being shattered by the energy waves. Not long after, the entire Flying Dragon Square, other than the inside of the barrier, was a complete mess.

"Flying Dragon City Lord is indeed not that strong! With just this bit of ability, we can now take care of Chen Xiang in peace. "

"It can't be said that he's not strong, after all he can fight them alone, and even hold the upper hand, he has his own concerns too, afraid that he will destroy Flying Dragon City, so he can't use his full strength, Flying Dragon City Lord's strength is still pretty strong, we can't underestimate him ..."

"Oh no, Chen Xiang is gone!" A person suddenly shouted. His voice startled the spectators.

[Chapter 2776](#)

Just a moment ago, everyone's attention was on the air, and when they entered the Myriad Tao Divine Tablets Formation, they were standing right beside them. They thought that Chen Xiang would definitely not come out, but they never expected that he would disappear in the blink of an eye.

After Chen Xiang broke through, there was the fastest way to grab onto Wu profound and let him enter the You Yao Mountain Villa. At the same time, they used invisibility and then used the White Tiger Jump to jump out of the extremely weak light barrier.

"Quick, attack!" Everyone immediately joined hands and frantically struck the light barrier. They felt that Chen Xiang was still inside, but he used invisibility, so they had a better understanding of Chen Xiang's invisibility.

With them working together and attacking with all their might, the barrier was quickly destroyed. Now, they had surrounded the Myriad Tao Divine Tablets Formation and were searching for Chen Xiang.

And the moment Chen Xiang came out, he flew into the air!

At this moment, he was in the air on the battlefield, where the Qilin Leader and Black Tortoise Leader were currently fighting extremely fiercely with the Flying Dragon City Lord.

"Enough is enough!"

At this time, Flying Dragon City was tied up with a metal chain by Black Tortoise Leader, trying to pull him down. However, the Qilin Leader used a very strong fire barrier to envelop Flying Dragon City Lord inside.

You dared to provoke us today, and wanted to ruin our big plans. You should stop at the end of the day, if you agree to properly get the hell back to become your City Lord, then we can let you go today. " The Qilin Leader sneered, "If you don't accept, then don't blame us for being impolite."

"Wishful thinking. Even if I die, I won't compromise!" The Flying Dragon City Lord roared in anger. He wanted to shake off the bindings of the Qilin Leader and Black Tortoise Leader, but he did not succeed.

The two Leaders were also fighting desperately, because they knew that the Flying Dragon City Lord was not easy to deal with.

"Then we'll just exhaust you to death little by little. In any case, we've already offended you, so we're not afraid of killing this untactful fellow."

The Flying Dragon City Lord was not weak, it was just that he was cautious of the Flying Dragon City from the start, if he used his power, the place would definitely be destroyed, and many people would be implicated, as the City Lord, he did not wish to see such a thing happen.

At this moment, he felt that he would not be able to struggle free. If this continued, he would definitely be killed, and just as he was thinking of a way, he suddenly saw an azure light shooting over, piercing through the head of the Qilin Leader!

Although that cyan light was very fast, Flying Dragon City Lord could clearly see that it was formed from an azure dragon!

The moment the head of the Qilin Leader was penetrated, his entire body exploded!

BOOOOOOOOOOOOOOOOOOOOM!

Two explosive sounds rang out. One was the sound of the body of the Leader being shattered while the other was the sound of the Flying Dragon City breaking free from his shackles and exploding!

"It's Chen Xiang!" The Black Tortoise Leader shouted in shock, "Chen Xiang is up there, he just killed the Qilin Leader!"

Chen Xiang actually had the strength to kill the Qilin Leader, which made the other Leaders and elders panic, because their strength was on par with the Qilin Leader!

Chen Xiang could kill a Qilin Leader, but he could also kill them!

"I'll let you talk too much!" Chen Xiang suddenly appeared behind the Black Tortoise Leader, the Emperor seal in his hands heavily smashing onto the Black Tortoise Leader.

Roar!

The Emperor seal shook and the green dragon roared out, piercing through Black Tortoise Leader's body. Everyone could clearly see that Black Tortoise Leader's body was pierced through like paper in an instant.

That was the Leader, he was actually killed one after another!

The Flying Dragon City Lord was also dumbstruck as he watched the floating Chen Xiang. When this young man killed these Leaders, his eyes didn't even blink.

"Sorry, I didn't expect them to be so weak. They should have been left for you to kill." Chen Xiang laughed and said.

Without waiting for the Flying Dragon City Lord to speak, he suddenly disappeared!

Just as Chen Xiang disappeared, a group of golden-armoured people suddenly appeared in the air. They were all dressed in golden armors, and the golden peepings they wore covered their faces.

Chen Xiang also felt the aura, hence he immediately ran away. He originally planned to exterminate the Leader s, elders and the others below, but who would have thought that such a group of people would suddenly appear.

"Flying Dragon Guard!" The Flying Dragon City was shocked, and hurriedly walked over: "Hundred Floor Flying Dragon City Master Yi Tianqi greets you, Flying Dragon Divine General!"

The leader, that tall and sturdy golden-armored man, nodded his head, "There's a lot of stuff going on here, what's going on?"

"The seven major sects are going to war with the Center of Flying Dragon City. Once war begins, it will definitely affect the entire Center of Flying Dragon City. I will stop them, but they will actually fight with me." Yi Tianqi said.

"Flying Dragon Divine General, all of the Myriad Tao's Divine Stele were taken by someone. We did all of this to capture that person! But it was all stopped by the Flying Dragon City Lord! Just a moment ago, the Qilin Leader and Black Tortoise Leader were ambushed and killed. " The Azure Dragon Leader hurriedly said.

"We already know that the Myriad Tao Divine Stele has been taken away, it is not something important. Every time the Myriad Tao Divine Tablets Formation descends, it is a very normal thing to have it taken away. It has happened many times on other floors." Flying Dragon Divine General said: "I want to know how the Flying Dragon Association is doing this time, because I heard that it was very unfair!"

"I will always report to you about this matter. Please come take a seat at my residence." Yi Tianqi looked at the group of people below and said.

"Alright, let's go!" Flying Dragon Divine General nodded, then slowly landed on the ground. Looking at the group of Leader and elders, he said, "You guys come together as well!"

... ..

Chen Xiang had already arrived at the central region and released Wu profound.

"So dangerous. There's actually such a terrifying person. Where exactly did they come from?" When Chen Xiang thought of that aura, he immediately felt fear. "Wu profound, have you ever heard of Flying Dragon Divine General?"

Wu profound didn't know what had just happened, because he was brought into You Yao Mountain Villa by Chen Xiang.

"Flying Dragon Divine General? You met it? " Wu profound's expression changed, and said: "This guy actually appeared, something big is going to happen!"

"Hurry up and tell me!" Chen Xiang anxiously said: "This guy is scary!"

"Flying Dragon Divine General is at the Supreme Realm, above Six Gods Stage! The scariest thing is that the Divine Soldiers and Divine Generals led by the Flying Dragon Divine General are experts within the Six Gods Stage, there are more than a thousand of them!" Wu profound said.

"The Supreme Realm!" Chen Xiang thought of the Natural Law Divine Lord. He felt that it should be the Supreme Realm.

"That's right, this is a realm above Six Gods Stage, it is very difficult to reach. Anyone with that kind of strength can leave the top levels of Flying Dragon Pagoda." Wu profound said, "Within the Flying Dragon Pagoda, there are a total of ten Flying Dragon Divine General s. No one knows their names, and no one has ever seen what they look like."

"Their main mission is to maintain order in the Flying Dragon Pagoda. This time, the Flying Dragon Association is so dark, they should be here for this reason."

Chen Xiang heaved a sigh of relief, "Right now, I'm a bit worried about getting targeted by them!"

Wu profound laughed: "Don't worry, these Flying Dragon Divine General are very reliable ... Oh right, you should be free now, right? You want to help me refine those Law beads?"

[Chapter 2777](#)

Chen Xiang was currently only in the Late period of Three profound realm and had not stepped into the Six Gods Stage, but he felt that this should not be a difficult matter! The Heaven realm and the previous two were both said to be very difficult, but they were both easily broken through by him.

"Alright, wait for me!" Chen Xiang took the Law beads that Wu profound passed over, then hurriedly ran to a secret room.

He and Wu profound did not return to the profound Wu Dan Pavilion. Although the profound Wu Dan Pavilion was Wu profound's family's property, they were still monitored by the profound Marital School. Now that the Black Tortoise Leader had been destroyed by Chen Xiang, the rest of the Leader would definitely go all out to seek revenge.

"Even though those Leader s are from the Six Gods Stage s, they are probably only in the early stages of the Six Gods Stage s. I actually killed them so easily!"

Chen Xiang guessed in his heart. He was currently in the Late period of Three profound realm, so if he was in the late stage of the Six Realms mirrors s, he definitely would not be that weak.

"Could it be that the Six Gods Stage is really a realm that is difficult to break through?" Chen Xiang had asked Wu profound about Six Gods Stage before, but Wu profound actually didn't know anything about this.

"I can only find out for myself!" We must first cultivate the Heavenly Alchemy Dao line. " Chen Xiang had promised Wu profound that he would refine Law beads s for him, so he would first refine the Law beads that Wu profound had refined.

There weren't many of these Law beads, and given that he was also at the Late period of Three profound realm, refining them was simply too easy. It just needed a bit of time.

After a few days, Chen Xiang came out of the secret room and handed over the Law Energies to Wu profound. When Wu profound saw that the quality of the Law Energies had increased by a lot, he was instantly ecstatic and immediately felt grateful to Chen Xiang.

"Wu profound, I plan to go to a higher floor, what about you? "What are your plans?" Chen Xiang asked.

"I think I will stay here for now. Since Black Tortoise Leader was killed by you, my family is prepared to take this opportunity to fight for the position of Leader." Wu profound said: "Of course, we are also not sure if we will be able to obtain it in the end. In short, this is an opportunity."

Chen Xiang nodded his head: "Then I will go cultivate first, when I come out, I will probably be leaving!"

"Mm, it's really my luck to be able to meet you!" Wu profound patted Chen Xiang's shoulder and laughed.

Chen Xiang chuckled, then entered the secret room and took out the Heavenly Alchemy rule Beads.

"The Heavenly Refining Laws, just what sort of Laws are they?" This should be a relatively rare and mysterious law, is it related to the Heavenly Alchemy? "

Chen Xiang looked at this Heavenly Alchemy rule Beads and started to frown as he thought about it. He did not manage to find any information regarding this Heavenly Alchemy rule Beads in the Heavenly Alchemy.

"Let's cultivate the Heavenly Alchemy Dao line first!" Chen Xiang placed the Heavenly Alchemy rule Beads into the pill furnace and started refining it.

He originally thought that this would be extremely difficult to refine, but he didn't think that it would be as easy to control as the other Law beads.

He only had ten of these Heavenly Alchemy rule Beads, and he needed a lot of Crash s in order to raise his quality to a very high level. This was the only way he could cultivate Rule Dao line with very few of them.

"After I refined the Myriad Tao's Divine Stele into a pill and ate it, could it be that I am the key to enter the Myriad Tao Mausoleum? I wonder what it will be used for. " This confused Chen Xiang, as he did not know if it would affect him in the future.

After all, the Myriad Tao Divine Stele was an extremely mysterious object. Even though it contained a strange and vast power, the relationship it had with the Myriad Tao Mausoleum made Chen Xiang worry.

"Right now, there's no use worrying about it. We've already eaten, and we've even cultivated to the Late period of Three profound realm. We can't regret it even if we want to. Hopefully, there won't be any problems in the future." Chen Xiang swallowed a law pill he had just refined, and then, he continued to refine it...

Although refining Heavenly Alchemy rule Beads was easy, after eating them, he would need to refine them for a much longer time than other Law beads. Right now, he needed twenty days to refine one.

In these twenty days, he had refined all of the remaining Heavenly Alchemy rule Beads into pills!

"If this continues, I'll need another half year to completely refine it." Although it would take a long time, Chen Xiang was very patient, even though he was looking forward to the moment the Heavenly Alchemy Dao line was born.

Time flew by quickly when he was training. Soon, half a year had passed.

In this past half a year, Chen Xiang had never come out of this secret room, nor did he know what had happened outside! Of course, he also managed to cultivate the Heavenly Alchemy Dao line.

"Strange, the Heavenly Alchemy Dao line cannot produce any power, what is going on?"

Chen Xiang felt very disappointed about this, because the Heavenly Alchemy Dao line could not be like the flying dao channels and the spatial dao channels.

"Could it be that this is useless?" Chen Xiang clenched his teeth, the Heavenly Alchemy Dao line that he had painstakingly cultivated with, was actually completely useless.

He had been trying in the secret room for a few days now, yet he was still unable to activate his power from the Heavenly Alchemy Dao line, which caused him to be extremely disappointed.

"It will definitely work, but I don't know how to use it! Forget about it, go out and ask Wu profound about what happened outside. "

Chen Xiang was very interested in what happened after Flying Dragon Divine General arrived. At the same time, he also wanted to know if Flying Dragon Divine General would find trouble with him.

"Wu profound, what's wrong, why do you look so ugly?" The moment Chen Xiang came out of the secret room, he saw that Wu profound's face was very white, and his spirits were low.

"Oh, I'm hurt! When we were fighting for the profound Marital School, my family lost again, and this time we lost very thoroughly. Wu profound shook his head and sighed, after which he drank a huge bowl of wine.

"When did this happen? "How did you lose in the end?" Chen Xiang came over to his side and checked his injuries. It was obvious that this had happened in the past few days.

"They have an expert assisting them ... I wish I could dig three feet out of the ground and find you as well. It is clear that there is an even stronger force that has joined in, and this is also the power that was lured out when we went to fight over the position of Black Tortoise Leader. " Wu profound said in a heavy voice, "This happened three months ago, but a few days ago, I was ambushed and almost lost my life."

Chen Xiang's eyes flickered, and said: "Seems like it's getting more and more interesting! "Rest assured, I will avenge you. I will definitely find out who ambushed you!"

"I believe you! By the way, someone wants to see you. It was even Flying Dragon City Lord Yi Tianqi, he had already been stripped of his position in the City Lord, it is also the doing of that mysterious power behind this, he said that he killed two Leader s and saved him, he is here to thank you. "

After Wu profound finished speaking, he said in a low voice, "Even so, you still have to be wary of him!"

"I understand. How do I meet him?" I will find him and ask him if he knows anything. "

Chen Xiang had already planned to visit the seven major sects after leaving seclusion. When those fellows had initially wanted to capture him alive for the Sousearch, he felt uncomfortable thinking about it now. He would not let things rest until these people were eliminated!

[Chapter 2778](#)

Wu profound helped Chen Xiang contact Yi Tianqi, and the better time it was to meet him.

Chen Xiang's impression of Yi Tianqi could also be considered to be pretty good, and when Yi Tianqi wanted to meet him, she said that she had helped him out that day in order to thank him for his help.

The better the place Chen Xiang came to, the further away from the Flying Dragon City, in the forest beside a large river.

Chen Xiang found a tree with the word "Qi" on it. This was the place where he met with Yi Tianqi.

"Chen Xiang, you are really punctual!" Yi Tianqi suddenly descended from the sky and laughed.

Chen Xiang cupped his fists and smiled: "I wonder what Flying Dragon City wants to see me about?"

Yi Tianqi waved his hand and sighed: "Don't mention it, I'm no longer some City Lord!"

"Look at me, I've forgotten about this. Wu profound mentioned this to me not long ago." Only then did Chen Xiang remember.

Yi Tianqi was no longer a City Lord, it was obvious who he had offended. Chen Xiang also wanted to know what kind of terrifying power the seven major sects had behind them.

"This is all the doing of those fellows from the seven major sects. Fortunately, they lost two Leaders, which weakened their overall strength a lot." Yi Tianqi said with a face full of resentment, "Not only did they make it so that I couldn't do anything about the City Lord, they even tried to kill me in secret. Luckily, I was alerted and could sense that something was wrong, so I hurriedly left the Flying Dragon City." A novel

"Senior Yi, then what kind of power is it to take away your position in the City Lord?" Chen Xiang asked again, "What ability do the seven major sects have to be able to mobilize such a strong force? Could it be the Flying Dragon Divine General? "

Yi Tianqi took out a table and two chairs, letting Chen Xiang sit down, and poured Chen Xiang a cup of wine.

He toasted Chen Xiang and said: "Not the Flying Dragon Divine General. Although the Flying Dragon Divine General has such power, the matters of the City Lord are not under their control. They are only responsible for maintaining order!"

"There is someone else supporting the seven great sects." Yi Tianqi lowered his voice and said: "Brother, have you heard about the matters in the Flying Dragon Palace?"

Chen Xiang shook his head, but he could guess that it was a powerful force in the Flying Dragon Pagoda!

"The Flying Dragon Palace is located at the top of the tower and they are the ones controlling the entire operation of the Flying Dragon Pagoda. They are the ones controlling the time when the Myriad Tao Divine Stele appears."

Yi Tianqi's words shocked Chen Xiang!

The Myriad Tao's Divine Stele would only appear once in awhile, appear once in awhile, and then disappear. This was the reason why it was extremely difficult to obtain the Law beads inside the Flying Dragon Pagoda.

"Doesn't that mean they know the exact location of the Myriad Tao's Divine Stele every time it appears?" Chen Xiang said: "To think that I thought they would always go through so much trouble to look for me!"

"Yes, every time the Myriad Tao Divine Stele appears, the people of the seven major sects will be able to immediately know its location. This has allowed the seven major sects to amass a large number of Dao crystal s over the years, and they will regularly supply these Dao crystal s to the Flying Dragon Palace." Yi Tianqi said: "I only just found out about this matter. Even though I was once the Flying Dragon City's master, I am only in charge of managing the entire Flying Dragon City."

"So you're saying, the Flying Dragon Palace is protecting the seven major sects?" Chen Xiang said, "Looks like I'm in even greater danger now."

"The ten great Flying Dragon Divine General s are all from within the Flying Dragon Palace! On every hundred floors, there are seven sects like the seven great sects helping the Flying Dragon Palace gather their Dao crystal. It is normal for them to protect the seven great sects ... " Yi Tianqi said: "However, I am still a City Lord, and was assigned by the Flying Dragon Palace to be a servant here. But now, they have pulled me down, and there are other things that are related to me."

Chen Xiang could tell from these words that Yi Tianqi had some background in the Flying Dragon Palace.

"What is it?" Chen Xiang was even more curious now. It was clear that the seven major sects monopolizing Myriad Tao Divine Tablets Formation s had other motives, but this time, it was destroyed by Chen Xiang.

"Have you heard of the Heavenly Refining Laws?" Yi Tianqi asked.

When he was in Myriad Tao Divine Tablets Formation, he already knew that the seven major sects were continuing their Heavenly Alchemy rule Beads s.

"I've heard of it. Could it be that the seven great sects have something to do with this?" Chen Xiang asked in shock.

"That's right!" It was extremely difficult to condense Heavenly Alchemy rule Beads, because when one condensed the Myriad Tao Divine Stele, each required more Dao crystal than the last! Even though the Flying Dragon Palace is doing everything they can to collect Dao crystal, the Myriad Tao's Divine Stele above the thousand storeys right now requires hundreds of billions of dollars to be able to condense one pellet. That's why they thought of the floors below. "

Chen Xiang had a deep understanding of this, even with his ten billion, it was only enough to condense ten pills!

"What use do they have in asking for the Heavenly Refining Laws? Could it be that this is a very terrifying law? " Although Chen Xiang had cultivated up to the Heavenly Alchemy Dao line, he didn't know how to use it. Right now was an opportunity to let him know how to use the Heavenly Refining Rules.

"I don't know what's the use of it either! In short, the higher ups of the Flying Dragon Palace are trying their best to gather Heavenly Alchemy rule Beads s, so it can be said that the refining rules will have a great use tomorrow. " Yi Tianqi shook his head: "Although I do not know what use it has, but I do know that if I want to use the law of heaven, I need a cultivation technique called the Heavenly Alchemy art. I heard that this is the second volume of the Heavenly Alchemy!"

Chen Xiang was overjoyed, there was actually a lower volume in the Heavenly Alchemy, but where could the lower volume be located? Now he understood why he was unable to use the Heavenly Alchemy Dao line.

"When I was in Myriad Tao Divine Tablets Formation before, I knew that the seven major sects would send people to congeal Heavenly Alchemy rule Beads s. Was this what the Flying Dragon Palace entrusted the seven major sects to do?" Chen Xiang asked.

"Definitely! Furthermore, Flying Dragon Palace had even given the seven great sects a fragment of Heavenly Alchemy art. It is seven pieces of jade and currently, they are all placed in the seven great sects.

Speaking to here, Yi Tianqi laughed: "But Myriad Tao Divine Tablets Formation has already been destroyed by you. If you want to fuse these seven broken pieces, you can only wait until the next time Myriad Tao Divine Tablets Formation reappears! It was also because of this that Flying Dragon Palace was so furious, that my position as City Lord was taken away from me. "

"I'm so sorry, I've dragged you into this." Chen Xiang said somewhat embarrassedly.

"It's okay, it's okay. I didn't like them for a long time, so I'm very grateful to you now!" You have to understand that the seven major sects have Flying Dragon Palace s backing them up, so even if they killed me, they wouldn't have anything to worry about. Yi Tianqi sighed, "It was only when the Flying Dragon Palace s of the seven major sects came to find me and were extremely strict with me that I found out just how powerful the backers of the seven major sects were."

"Flying Dragon Envoy?" Chen Xiang felt that this fellow must have come here for the Heavenly Alchemy art fragment. He really wanted to obtain the Heavenly Alchemy art now, this way he would be able to use the Heavenly Alchemy Dao line that he had trained so hard to obtain.

"Hmm, it is said that he will be staying here for a long period of time. When the Myriad Tao Divine Tablets Formation reappears, to people like them, this amount of time will not count for much ..." "Of course, this guy wants to catch you. You'd better be careful if he obtains that miraculous pill refining skill from you." Yi Tianqi warned.

[Chapter 2779](#)

Chen Xiang thought about it, he felt that the Flying Dragon Envoy might have guessed that he was going to use the Heavenly Alchemy to refine pills, but he did not inform the people from the seven big sects.

"Senior, do you know where the Flying Dragon Envoy is? I want to go to him. Get rid of him." Chen Xiang said.

The wine cup in his hand almost fell down. However, when he thought about the concealment technique that Chen Xiang used to sneak attack the two Leaders, he felt that Chen Xiang had sufficient confidence to say such words.

"Flying Dragon Envoy is in the middle stage of Six Gods Stage, he is way stronger than me." Yi Tianqi said: "Let's put it this way! The profound doors between me and those Leaders are all opened at around fifty years of age, and we are all at the early stage of Six Gods Stage ... But Flying Dragon Envoy's Gate of Wonders is still around seventy years old and is still at the middle stage of the Six Gods."

"You should be clear about the difference between the early and middle stage of Six Gods Stage! Your profound door is completely open, and you're also using the Late period of Three profound realm, so you can fight evenly with an early stage Six God. This is already very impressive, but a Flying Dragon Envoy at the middle stage of the Six God Realm, even if it's not as strong as you by ten times, it would still be about four or five times."

Chen Xiang now had a plan in his heart, and nodded: "Alright, I have a rough understanding of Flying Dragon Envoy's strength now! But I still want to try. Senior, do you know where that guy is?"

"It should be in Azure Dragon School! Azure Dragon School has always been the leader of the seven major sects. If you cannot beat them, you must run away quickly." Yi Tianqi patted his (1) (Fiction) head on. Chen Xiang's shoulder: "I don't wish for you to die in that guy's hands!"

Chen Xiang and Yi Tianqi drank a cup of wine and laughed, then said: "Just sit here and wait for news of his death!"

... ..

After parting with Yi Tianqi, Chen Xiang returned to find Wu profound. He asked about the location of the Azure Dragon School from Wu profound, told him that he wanted to make a trip to the Azure Dragon School, and then bade farewell to Wu profound.

The Azure Dragon School was not too far away from the Flying Dragon City. Wu profound said that if he were to walk by himself, he would need around a month or so. If he were to fly, he could reach the Azure Dragon School in ten days or even a few days.

Chen Xiang was flying in the air right now.

"Heavenly Alchemy art! I never thought that there would be a second volume of the Heavenly Alchemy, I actually didn't know about it. The Heavenly Alchemy art in the Heavenly Alchemy shouldn't have much to do with refining! Maybe it is just a method to teach us how to use the Heavenly Alchemy Dao line." Chen Xiang thought to himself. It wouldn't be so easy for him to step into the Six Gods Stage now.

He could only use pills, but he did not know what kind of pills were useful in breaking through to Six Gods Stage. He felt that he should go to a higher floor to search.

The Azure Dragon School was located in the middle of a large river, like a huge island in the middle of a large river.

Chen Xiang had already arrived at Azure Dragon Island, and looked at the peak of the mountain where ancient buildings stood not too far away.

On Azure Dragon Island, there were four big cities. The four cities were respectively east, west, east, and west of Azure Dragon School, and Chen Xiang had already arrived at the southern city.

Azure Dragon Island had existed for many years, and the four cities on top of it had all grown prosperous. These four cities allowed the Azure Dragon School to earn a lot of Dao crystal.

"Azure Dragon School is indeed very big!" Chen Xiang strolled around the city, wanting to see if he could gather any useful information.

After strolling around, he only knew that Azure Dragon School was preparing to choose a new chief disciple. At that time, the new chief disciples of the seven major sects would gather here.

The new Qilin and Black Tortoise Leaders had already been selected and would be coming when the time came!

Chen Xiang felt that the seven major sects were not gathered here for the new chief disciple, but for the Heavenly Alchemy art.

"I came at the right time, I will sneak into the Azure Dragon School tonight to check. If all the fragments of the Heavenly Alchemy art are here, that would be for the best." Chen Xiang did not want the seven major sects to go all over the place. Moreover, if he obtained one piece, the other sects would definitely be on their guard.

... ..

When night fell, Chen Xiang used an Invisibility Spell and sneaked out of the Azure Dragon School!

"Those with powerful defensive arrays must have heard of it!" When Chen Xiang approached, he could feel that the great formation was continuously releasing a repelling force. As long as he got near, he would have a feeling that he would be blown away at any time, which was why ordinary people did not dare to barge in.

However, this kind of formation array to Chen Xiang was illusory. The reason he cultivated the spatial dao vein was to deal with this kind of situation.

With just a single White Tiger jump, he could easily pass through the formations and enchantments protecting the outside of the cave.

"This Azure Dragon School is truly rich, to maintain these large formations and barriers, it needs to consume a lot of energy." Chen Xiang turned around and looked back, secretly rejoicing in his heart. These powerful formations that required a large amount of resources to circulate, he could easily break through.

Although it was night time, the Azure Dragon School was brightly lit, and the highest tower, the Azure Dragon Pagoda, was sparkling with azure light. It was also the most important place in the entire Azure Dragon School.

"Let's take a look over there first!" At the moment, Chen Xiang was invisible, so no one could detect him.

When he approached the Azure Dragon Tower, he suddenly saw a middle-aged man wearing a white tiger skin rushing over. This was the Leader of the White Tiger Sect.

"It's me, the Leader of the White Tiger Sect!" he shouted in a low voice.

After which, the door opened and the Azure Dragon Leader urged, "Come in quickly, we're waiting for you!"

When Chen Xiang heard it, he immediately teleported and entered through the door. He then held his breath and floated on top of it! Although he was very confident in his invisibility skills, he was still very nervous, because there were two powerful Leader below him.

"On the way, I was delayed because of some things. I ran into a transformed Dragon beast and fought with it for a while. If it wasn't for the fact that I was worried about him, I would have definitely caught him alive and brought him back!" From the looks of it, he was also exhausted. It could be seen that he had been through a fierce battle just now, and the opponent was not weak either.

"Transformation Dragon beast? It was very hard to see in these hundred floors! What type of Dragon beast is it? " The Azure Dragon Leader brought the White Tiger Leader up the stairs and asked.

"It's a lion. The scariest thing is that this fellow obtained a large number of Spirit Transforming Law beads from who knows where and actually led a pair of huge armies in the shape of a Dragon beast. The disciples that I brought over were slightly injured." The White Tiger Leader said.

Chen Xiang immediately thought of a fellow — Longhua Lion!

At first, when he helped the Longhua Lion refine a Spirit Transforming Law beads, he had the Longhua Lion create a large group of mutated Dragon beast. Their overall strength was extremely strong, and now that the Longhua Lion had reached the Hundred Floors, it was very possible that they knew about him.

Chen Xiang also wanted to go find Longhua Lion s, but he didn't know how to contact them.

"Wait till we obtain the Heavenly Alchemy art!"

Chen Xiang followed them up to a hall in the tower. Chen Xiang did not dare enter the innermost part of the hall, but chose to stay outside the door instead. He was worried that he would be discovered by the Flying Dragon Envoy.

The Flying Dragon Envoy appeared. Wearing a golden Soaring Dragon Golden Armor, he looked very young and handsome, but his expression was ice-cold, as if he was a proud and cold person.

"Greetings Envoy!" The Leader s of the seven sects hurriedly got up and said.

"Sit down!" Have you brought the things? " Flying Dragon Envoy took out a large black box and said, "Flying Dragon Palace told me to temporarily store the remaining parts of the Heavenly Refining Ring away because your strength is worrying me too much."

The two Leader s from before were instantly killed by Chen Xiang, who didn't know this! Flying Dragon Envoy's worry at this moment was also normal.

Even though the seven Leader s were being looked down upon, they did not dare to say anything. The person in front of them was stronger than them, moreover, his position was honorable, and was not someone they could offend.

Chen Xiang watched from outside the door, staring at the small jade pieces that the seven Leader s took out.

Flying Dragon Envoy took the jade pieces and placed them into the black box. He then activated a small scale formation on top of the black box.

"Is there any news of Chen Xiang?" Flying Dragon Envoy asked in a deep voice, "You must capture this person. He has at least a few Heavenly Alchemy rule Beads in his hands!"

Previously, when the disciples of the seven major sects entered the Myriad Tao Divine Tablets Formation to condense Heavenly Alchemy rule Beads, the Flying Dragon Envoy only deduced this reason because they were unable to use a normal amount of Dao crystal.

"Not yet... His friend was Wu profound, but Wu profound had already gone into hiding! This fellow is extremely intelligent, it would be very difficult to find him. " The Black Tortoise Leader shook his head and said, "When they attacked the profound Marital School back then, they should have captured him."

Previously, Chen Xiang was also worried about the Mei Jing Sisters, but after knowing that the Mei Jing Sisters left with an old granny, it was very clear that the Grandma Jiang took them away, which also made him feel a lot more at ease.

"Then let's properly discuss a plan now. We must quickly capture Chen Xiang!" The Flying Dragon Envoy's voice was stern, showing how much he cared about this matter.

Chen Xiang used the Dao heart Eye to look at the black chest. He was in a dilemma on whether he should make a move now or not, if Flying Dragon Envoy kept the chest inside the Storage magic treasure, it would be difficult for him to get his hands on it.

"The White Tiger's jumping strength should be able to penetrate that box's formation. That way, I can retrieve the items from the air and steal the fragments inside." Chen Xiang clenched his teeth, planning to take a risk and give it a try.

If he did not succeed, then it would very likely cause these people to be wary of him. He would be surrounded and attacked, and there was also the fact that the other party would definitely be able to protect the fragment even more.

The Flying Dragon Envoy looked at the Leader s and placed both hands on the black chest. Chen Xiang panicked and immediately made his move, channeling his spatial energy to cooperate with the White

Tiger's jump to allow his spatial energy to penetrate the black chest. He then used his spatial energy to retrieve the items from the chest and teleport them out.

In just an instant, Chen Xiang succeeded, he was overjoyed and excited, and in the moment after he succeeded, Flying Dragon Envoy also placed the black chest into his Storage magic treasure, if he was slightly slower, he would have missed this chance!

After Chen Xiang succeeded, he did not stay any longer and immediately activated the White Tiger's Teleportation Technique to leave the tower. There were seven Leader and a strong Flying Dragon Envoy here, if they found out about them, he would not be able to fight them.

Furthermore, he had obtained a piece of the Heavenly Alchemy art, so he couldn't wait to take a closer look at it.

Chen Xiang ran as fast as he could to distance himself from Azure Dragon Island. He wanted to find a quiet and safe place to study the piece of Heavenly Alchemy art!

Ever since he managed to cultivate the Heavenly Alchemy Dao line, he had been feeling very uncomfortable. It was as if his teeth had been stuffed and his whole body was in a bad mood.

After flying for several days and nights, he arrived at a mountain that was filled with ancient trees. He dug a cave into the belly of the mountain before taking out the few pieces.

The fragment looked snow-white like jade, and there were some cracks on its surface. It had been here for quite some time, and it was obvious that it was an ancient artifact.

"You need to be in the Myriad Tao Divine Tablets Formation to activate it? I just so happen to be able to refine all of the Myriad Tao's Divine Stele into pellets and eat it. I will try to use the power that I have released from the Spirit of the Dao gods to see if it can be activated. "

Chen Xiang held onto the broken piece tightly, and then activated the Spirit of the Dao gods and released some Dao Energy.

His Dao Energy immediately gushed out and poured into the shard. The shard reacted and emitted a faint white light!

"Good, it's working!" Chen Xiang was extremely excited as he continued to pour Spirit Qi into the furnace. After another two hours, he stopped.

"Bottomless Pit!" Chen Xiang let out a long sigh. It would not be as simple as he thought it to be if he wanted to activate all of these pieces.

Chen Xiang now had a general understanding of the process of fusing these broken pieces. First, he had to "live" every piece of the broken pieces, which required a lot of Dao power.

After all the fragments were activated, they would merge together on their own.

"For the Heavenly Alchemy art, let's go all out!" Chen Xiang caught the remaining seven pieces of the Primitive Tao Power in his hands, and then released them.

His Spirit of the Dao gods could continuously release dao energy, so he did not feel very tired. After all, this was not a battle, and neither his body nor soul need intense activities.

A year passed in a blink of an eye, yet Chen Xiang had not activated a single fragment of it, but it was able to sustain and release light from every single fragment!

"Anyway, I have a lot of time now. I'll go out and take a breather first!" Chen Xiang left the cave and came to a city to inquire about the movements of the seven major sects over the years.

At this time, not only were the seven major sects looking for him, they were also looking for Wu profound. They had even opened a hundred million Dao crystal s to each place a bounty on them.

"Hehe, looks like they still haven't found the fragment was stolen. Otherwise, the bounty on my Dao crystal won't be just a hundred million." Chen Xiang strolled around outside for a few days, then returned to the cave and continued activating the fragment of Heavenly Alchemy art.

Spring left and autumn came, time flew by. Several years had passed, Chen Xiang had stayed in this mountain cave for a few years, and had succeeded!

Because today, the fragment in his hand trembled. He immediately released his grip, and the seven fragments began to emit intense white light as they slowly floated up, then began to attract and gather together.

"It's about to merge!" Heavenly Alchemy art, I have waited far too long. " Chen Xiang clenched his fists tightly, and watched the seven pieces of the spirit pellet collide against each other in excitement.

The moment the fragments came into contact with each other, they burst out with an even stronger white light and fused together, turning into a large white jade piece!

Chen Xiang touched it and felt that it was extremely hot. That burning sensation made him feel pain, and this made him even more excited!

The light emitting from the jade piece gradually weakened, the scorching heat gradually disappeared, and when Chen Xiang saw the jade piece falling, he immediately grabbed it!
