

Dan God 281

Chapter 281 - Capturing The Beast

Under that kind of fast speed, Chen Xiang's clothes turned ragged, and his hair turned extremely messy. Seeing this scene, Hua Xiangyue could not help but burst into laughter.

"Just as I was thinking of having a stroll, I did not expect you to come and look for me." Hua Xiangyue mischievously laughed and said as she helped Chen Xiang sort out his messy hair.

Chen Xiang, just from her casual dress, came to the realization that this woman had actually nothing to do. She was the supervisor of the Danxiang Taoyuan, yet a few years ago, she actually went to the secular world, moreover, she also abducted a few good seedlings from the secular world to make them an alchemist. Chen Xiang himself too was almost tempted by her.

"Sister Xiangyue, why did you went to the secular world?" Chen Xiang asked.

"Of course I went there to investigate the secular world before it disappears, and also to find the reason or clue why it would disappear. However, I didn't find anything, instead, I found you, this treasure. I'm just regretting that at that time, I didn't pressed hard enough, otherwise, I would have use tougher means to drag you to Danxiang Taoyuan." Hua Xiangyue let out a deep sigh.

Chen Xiang suspected that Hua Xiangyue already knew that he had Yin and Yang divine vein, and that was the reason why she tried to draw him to the Danxiang Taoyuan, to the point of even selling herself with clothes which would make any man's blood seeth. As her figure appeared in his mind, Chen Xiang's face slightly turned red.

Hua Xiangyue walked in the front and spoke while laughing, "You may have to stick more closer to this sister. I'll take a look how strong are you now." While speaking, she had already rushed into the forest. Chen Xiang pursed his lips, before he gave her a chase.

Chen Xiang's qing gong was quite amazing. Although he had a sturdy physique, the kind of light and nimble agility he was showing was still much better than Hua Xiangyue, all that could be credited to the wind power present inside the Azure Dragon True Qi he was using, which turned his body a lot lighter.

TLN: Qing Gong = Movement Technique/Skill

In the forest, a man and a woman were stepping on the leaves present at the crest of trees, rapidly leaping, as if they were flying horizontally to the ground. Their speed was so fast that in just a blink of an eye, they were across more than a hundred zhang.

Chen Xiang simply could not catch up to Hua Xiangyue, while Hua Xiangyue secretly praised Chen Xiang's elegant yet common agility technique. Of course, Chen Xiang's speed had given her even more surprise; it was a lot quicker than she had imagined.

Even after rushing for half a day, Chen Xiang's breath was not a bit unsteady. The True Qi within his body was so vigorous that he had not even consumed a bit of it. This caused the onlooking Hua Xiangyue to secretly praise Chen Xiang in her heart.

"Little rascal, your strength is not bad. Your body and True Qi are very formidable. Not anyone can do this, and currently, even I can't do this!" Hua Xiangyue suddenly slowed down to wait for Chen Xiang. Shoulder to shoulder, they leapt at the top of the trees.

Before, she had grabbed Chen Xiang, and in a blink of an eye, they moved outside from within the Fragrance City. If Chen Xiang didn't have a tough body, with that kind of frightening speed, he would have been already torn to pieces. Because of that, Hua Xiangyue concluded that Chen Xiang's body was very strong.

"Of course." Chen Xiang proudly laughed and said.

"No wonder Liu Menger will value you so much. Alas, you have been found by someone else. The early bird truly catches the worm." Hua Xiangyue helplessly heaved a sigh.

Chen Xiang didn't want this topic to continue, so he just said, "Dear sister, when can we see powerful spirit beasts?"

"We need to go deeper. You want to catch a spirit beast, right? Do you have the profound beast bag?" Hua Xiangyue asked.

Chen Xiang originally wanted to buy, but who knew that just as he said he wanted to catch a spirit beast, Hua Xiangyue arrested him and flew outside the city from the window.

"I don't have one. Who told you not allow me to speak and pull me?"

Just as Chen Xiang intended to return to buy, Hua Xiangyue grinned, "Take it, little rascal, count it as your gift. I remembered that in the secular world, you gave me a small piece of Hell Spirit Grass."

A profound beast bag was at least worth ten million crystal stones, moreover, it was not so easy to buy one. Since it was sent by a wealthy mistress, Chen Xiang accepted it with a peace of mind. The profound beast bag and the storage pouch, with regards to their appearance, didn't seem to be any different, yet on the inside, there was rather a big difference.

Hua Xiangyue's complexion suddenly sank as she said in a rather serious tone, "Little rascal, this world is not so common as you imagine. Although you have come into contact with many powerful Deans who can proudly breeze through the Chenwu Mainland, you have to remember, what you've seen is just the tip of the iceberg. The Chenwu Mainland, among the mortal worlds, is only a dust!"

"You'd better put in a little bit more effort, or else no one can save you from what is about to come!"

Chen Xiang's heart madly pounded, as he looked at Hua Xiangyue with a look of dismay, catching sight of her deep and beautiful eyes. Chen Xiang felt as if he was completely seen through.

"You've been so close to Liu Menger and I, it is not impossible to see some more things! Don't think we are weak just because of our appearance. I and Menger are, although not the strongest in the Chenwu Mainland, so long as we wish, destroying the Chenwu Mainland is still something we could accomplish." Hua Xiangyue's voice was very solemn, she appeared as if she was a strict senior disciplining a junior.

"Does Sister Menger know?"

Hua Xiangyue nodded her head, "Don't blame her. Her and my relation is not the same as the rumors suggests, our relations are very good. She let me listen to her analysis, allowing me to have a bit of an idea."

Chen Xiang sighed lightly, he and Liu Menger had kissed, how could she not know Chen Xiang have Yin and Yang divine vein? Liu Menger also knew that he had a very good relations with the three tycoons of the Extreme Martial Sect, so it was not farfetched to associate him with the sealed Huang Jintian in the forbidden land of the Extreme Martial Sect...

Chen Xiang really thought Liu Menger was too simple, but after all, she had lived for more than ten thousand years, and he sometimes got carried away and ignore this fact. However, Liu Menger was very good to him, and this was something that he was very clear about.

Thinking of himself capturing the heart of a proud daughter of the heaven, a proud smile emerged on his face. Seeing this, Hua Xiangyue nibbled her lips secretly.

"You'd rather die than change! You little rascal..." Hua Xiangyue gave a low spat.

Chen Xiang laughed and said, "Dear sister, I know you are worrying that I will get confused by a beautiful woman, but don't forget, previously, you were naked in front of me, yet you could not get me, ha ha..."

Hua Xiangyue's face became flushed as she spat a few times. Regarding this point, she could neither deny nor not admire Chen Xiang's state of mind.

Chen Xiang and Hua Xiangyue also did not continued speaking about this matter. Chen Xiang realized that his means of concealing were not clever enough, and he was completely seen through by the other party.

As early as in the secular world, Hua Xiangyue had already discovered that he had Yin and Yang divine vein.

Of course, even Su Meiyao and Bai Youyou too didn't expect Hua Xiangyue and Liu Menger to be so formidable. Because of them, Chen Xiang thought that his means of concealing were very clever, but now it backfired on him.

The two women inside the ring were reflecting. Before, in the Southern Wasteland, Chen Xiang was continuously being discovered by Lu Jie, and now listening to Hua Xiangyue, they were even more skeptical.

Time flew and the sky was already dark, under a tree, Hua Xiangyue and Chen Xiang were baking the flesh of some demon beast. During the entirety of the day, they had failed to find any spirit beast, and they only encountered some demon beasts.

"After eating, take out the Hundred Beasts Dans. If we don't use this trick, it will never work!" Hua Xiangyue said. At this time, her mouth was completely greasy, and seeing it made Chen Xiang very much want to lick her lips.

Chen Xiang took out ten Hundred Beasts Dan. He laughed and said, "Ten should be able to attract some powerful spirit beast!"

The Hundred Beasts Dan also had another name, it was called Attracting Beast Dan. To beasts, it was very appealing, even if they were far away in another region, a spirit beast could still smell its odor.

The Hundred Beasts Dan had not been taken out for too long, yet a beast roar completely enveloping the sky had already echoed out. Hearing this roar, Hua Xiangyue's tender body suddenly quivered as a look of fear completely covered her face.

Chapter 282 - White Tiger Family

Noticing Hua Xiangyue's complexion, Chen Xiang hastily asked, "Which beast is it?"

Hua Xiangyue just shook her head and spoke with a heavy tone, "It's better to put away the Hundred Beasts Dan, this guy isn't easy to deal with."

After Chen Xiang put away the Hundred Beasts Dan, Long Xueyi said with disdain, "It's just a White Tiger, moreover, not that old."

"What? A White Tiger!?" Chen Xiang exclaimed with astonishment.

"En, the White Tiger. The legendary God of Slaughter from legends. The White Tiger Family is widely distributed, they are almost present in every world. However, those who can arrive at the level of a White Tiger Divine Beast are very few. But then again, the White Tiger Family is nothing to be trifled with. They are very strong, each of them having extremely dense Slaughter Qi." Long Xueyi explained.

Hua Xiangyue closed her eyes as if she was trying to sense something. After a moment, she said, "It's a White Tiger in the 7th level of the True Martial Realm or so. If you want to nurture this spirit beast, not only would you need to have huge amounts of resources, you also have to show strength worthy for the White Tiger to acknowledge you. In other words, you must beat in a fight."

Chen Xiang clenched his fists. It was a 7th or 8th grade spirit beast. Even if it was a martial martial artist who was a bit stronger than it, they would barely be able to cope with it. Spirit beasts were relatively stronger than their humans counterparts. Although spirit beasts lacked any martial skills, they were naturally born with powerful bodies and considerably powerful fighting skills. Many martial skills were based on the fighting skills of the spirit beasts, from this, it can be seen that spirit beasts were comparatively stronger than humans. Especially those who had awakened their wisdom.

"Encountering the White Tiger is pretty good for you. These White Tigers are very rare. If you are afraid, I can take you away. Decide quickly, that guy is coming." Hua Xiangyue urged, "The best way is to quickly finish the fight and capture this little guy. There is definitely a much more powerful White Tiger around. If we disturb that old monster, we'll definitely be in trouble."

Chen Xiang clenched his fist and decided to just do it, "Let me try dear sister. Is the old White Tiger here very formidable?"

"Of course! Among the White Tiger Family, those who could bear White Tiger cubs are definitely not weak. At the very least, they are in the Nirvana Realm. Generally, before crossing the Nirvana Tribulation

the White Tigers will leave offspring behind. Once they crossed their Nirvana Tribulation, they can take a human form." Hua Xiangyue said.

The profound beasts had the strength of Extreme State and beyond were just like humans. The distinguishing level was the Nirvana Realm, at that time the beasts gain the ability to transform into humans.

"Little rascal, you should be careful. If the old White Tiger is here you're in for some trouble. It might even be a couple, if they discovered that you have abducted their cub, you will be in a very big trouble." Long Xueyi mischievously laughed.

Chen Xiang's mouth twitched. A White Tiger couple, moreover, both might be in the Nirvana Realm. Generally, beasts could find their companions based on the smell. If he was found out, it would indeed be very troubling.

"It's here!" Hua Xiangyue tenderly shouted, before she jumped up high into the air. At the same time, a white figure leaped over, pouncing towards Chen Xiang.

The White Tiger was the same size as any ordinary tiger, but its fur exuded a white light. In the dark night, it appeared extremely sacred and beautiful. But after a roar filled with Slaughter Qi, combined with the fierce expression in its eyes, it returned to a ferocious tiger who only knew one thing, to slaughter.

Chen Xiang didn't show any sign of weakness. When he felt the Slaughter Qi emit from the young tiger, his Slaughtering Heart was shaken. From him, a resonating cry broke loose along with a tyrannical Slaughter Qi, completely enveloping the surrounding.

While the White Tiger was pouncing over, after it felt that dense Slaughter Qi, It let out a roar, but its pounce came to stop.

Chen Xiang's Slaughter Qi made the little tiger feel a bit cordial, but also made its battle intention soar. Any descendant of the White Tiger Family loved to fight and slaughter. Even among their own kin, there would be countless battles.

After the little White Tiger roared a few times, both of its eyes glittered before it suddenly pounced again. Its speed left Chen Xiang stunned and was directly pushed to the ground. Both of his shoulders were firmly held down by the two huge tiger paws. The sharp claws pierced into Chen Xiang's shoulders as he winced in pain.

"Bang!"

The White Tiger's energy soared up as a powerful burst of Qi came out from its claws, impacting on Chen Xiang's shoulder. Making Chen Xiang feel as if his bones were about to be crushed into pieces.

Chen Xiang clenched his teeth and did his best to endure the pain. He didn't expect the White Tiger to actually be so formidable. Both its speed and power were filled with an unfathomable explosive force, if not for being in the 5th level of the Immortal and Devil Body, Chen Xiang would have been crushed to pieces by the energy released by the young White Tiger.

The young White Tiger roared several times at Chen Xiang, as if it was feeling proud for his victory. It was feeling elated because it had knocked down someone with relatively stronger Slaughter Qi than itself.

Looking at those snow white sharp teeth gradually approaching, Chen Xiang let out a thunderous dragon roar, which suddenly released a shockwave and caused the leaves in the vicinity to rustle. From Chen Xiang's mouth, an azure aura surged out, along with streaks of furious lightning. Suddenly, a wind aura filled with destructive force directly bombarded on that young White Tiger, which entered its body from its mouth, making that young White Tiger burst into stuffy roars that sounds like coughing, before it released its hold on Chen Xiang.

"Ha ha..." Although Chen Xiang's shoulder were aching in pain, he could still not help but laugh at the scene in front of him. The Azure Dragon Roar he had released surged out, and the majority of its force rushed inside the young White Tiger.

The young White Tiger furiously roared, then once again pounced at Chen Xiang like lightning. However, it was evidently slower compared to before.

Just a moment ago, Chen Xiang had taken a loss, so he already learned his lesson. This time, he didn't dodge, but instead smacked a palm as Universal True Qi surged out, which transformed into a fierce vibrational power.

The Shocking Heaven Palm struck towards the young White Tiger's head. The palm had not yet made contact with the young White Tiger, yet the palm force had already burst out causing an intense shock wave to burst forth in all directions, with Chen Xiang at its center. Suddenly, the nearby trees collapsed from the intense shock wave and even the ground had begun to split open.

The young White Tiger's body could not be considered small, yet these frightening vibrational force swept it away, causing it to collide with the close by trunk. As its heavy body fell through the wood and onto the ground, its white fur was covered in sand. From the looks of it, the White Tiger appeared to be in an extremely sorry and messy state.

"This guy seems to be rather simple-minded." Chen Xiang mischievously laughed. A moment ago, when the young Whiter Tiger was struck by the Azure Dragon Roar, its internal body had already been disturbed preventing it from releasing its full power. If it was a human, they would have definitely eliminated the effects first before continuing to attack Chen Xiang. Otherwise, their attack would be adversely affected.

Hua Xiangyue was also shocked again and again. Chen Xiang's strength was indeed very frightening; this kind of overbearing power was astonishing. She knew Chen Xiang cultivated True Qi of five elements, and speculated that Chen Xiang could already fuse these five elements True Qi together. Only then would he be able to release this kind of invisible and colorless yet strangely terrifying True Qi.

The young White Tiger let out a low-spirited roar. It looked extremely furious. It raised its head and gave out another roar, the earth suddenly shook as it slowly walked towards Chen Xiang. With each step, the ground would fiercely tremble. However, if one looked carefully, one could discover that its four limbs had already left the ground. It actually was walking on air yet still released an invisible shockwave that shook the earth.

Chen Xiang knew he had angered this young White Tiger. If the palm he had displayed a moment ago landed on a 7th level true Martial Realm martial artist's head, even if that martial artist didn't die, they would definitely suffer serious injuries. Yet the White Tiger actually seemed completely unaffected, besides turning furious.

Chapter 283 - Tiger Fist Vs White Tiger

The young White Tiger walked towards Chen Xiang, sending tremors to the surroundings with each step, and making it difficult for Chen Xiang to gather the True Qi from his dantian. This left him panic-stricken, if he could not utilise his True Qi, then it would be very terrible.

Chen Xiang slowly stepped back, his whole body was numb from the shock waves, contracting his Five Zhang and giving him an urge to vomit blood.

The young White Tiger was not so stupid as Chen Xiang had imagined, it was just a bit impetuous. At the moment, it was using its released shockwaves to slowly torture Chen Xiang, its tiger eyes filled with pride had a look of teasing, as if it caught a mouse.

"This guy..." Chen Xiang finally could not endure as he spat a mouthful of blood, this kind of shockwaves were very frequent, moreover, they would always impact whenever he began gathering True Qi, scattering it and rendering his whole body to become numb from pain.

Seeing Chen Xiang spat blood, the young White Tiger opened its jaws, followed by an earth shaking tiger roar. The land within the radius of several li fell into a fierce earthquake; the land began to split, mountains started shaking, and an even more intense shockwave surged out, directly impacting upon Chen Xiang and sending him flying. As he flew, he continuously collided into several trees.

Only someone like Chen Xiang, with his terrifying body, could get up once again under this kind of situation. However, his body was intensely aching in pain.

"Fortunately, the Black Tortoise Adamantyl Armor resisted the majority of the impact. This guy is too strong." Chen Xiang just wiped the blood at the corner of its mouth, before another shockwave suddenly invaded upon him, causing him to spew blood once again, which left a sweet taste in his mouth.

Hua Xiangyue frowned and transmitted to Chen Xiang, "You can't defeat this guy, give up, this guy seems to be stronger than I have imagined. You and that tiger are two or three levels apart, not to mention now, even if you are in the 9th level of the True Martial Realm, you might not be able to bear the brunt of its shockwaves."

"Sorry sister, just wait for a while, I have taken a liking to this guy, I'll definitely make it obediently stay in the profound beast bag!" Chen Xiang replied in a completely confident tone.

Chen Xiang, while looking at the young White Tiger coming over, rather proudly and elegantly sneered, "Little guy, I'll make you pay."

The young White Tiger let out a lazy roar filled with disdain. It simply did not place Chen Xiang in its eyes. Its roar was followed by a tyrannical step as an extremely powerful shockwave befell from the sky, landing upon Chen Xiang's head. Chen Xiang spat a mouthful blood as he fell onto the ground.

The young White Tiger's strength was mainly because it could release these kind of shockwaves. It seemed to have grasped a mysterious skill, giving it an exquisite control over these shockwaves.

The speciality of the Tai Chi Subduing Dragon Exercise was to allow Chen Xiang to absorb any kind of power. Now that he had already clearly perceived the characteristics of the White Tiger's shockwaves, he was now familiar with the shockwaves and its tyrannical attribute.

Chen Xiang operated the True Qi within his body, but this time, the True Qi would vibrate as it flowed; this was all due to Chen Xiang making his own True Qi vibrate, and through this, his True Qi would become stable, even against the shockwaves.

As a shockwave once again came over, Chen Xiang no longer felt any kind of discomfort, because the mobilization of the True Qi within his body proceeded in the mysterious way of operating of the Tai Chi Subduing Dragon Exercise. It allowed him to give birth to a kind of power which could fuse together with the shockwaves invading his body.

The young White Tiger was surprised, then fiercely took several steps again, sending continuous shockwaves at Chen Xiang. Originally, just a moment ago, it thought there was just a mistake, otherwise, how could Chen Xiang be unaffected. However, now it realized that something had really changed.

Chen Xiang's figure suddenly disappeared then reappeared behind the young White Tiger. Suddenly, he ruthlessly spanked the young White Tiger's butt with the Shocking Heaven Palm. The Shocking Heaven Palm's shockwaves were a lot more formidable compared to the young White Tiger's, and it was filled with violence and destruction.

The young White Tiger loudly roared once it got struck by Chen Xiang's palm.

"White Tiger Divine Fist!" Chen Xiang shouted as numerous silhouettes of fists flew out, completely enveloping the young White Tiger. One by one, the golden tiger heads carrying violent and slaughtering aura bombarded upon the young White Tiger's body, along with the continuous eruption of deafening tiger roars, overshadowing the young White Tiger's roars.

"Little guy, I'll hit you till you give in!"

Since Chen Xiang got this opportunity, he would absolutely not let it pass. He grabbed it ahold like a snake, deadly biting upon its prey. He would never give his enemy any breath of respite, now that he had casted the fierce storm like attacks. Each of his punches were the White Tiger Divine Fist, filled with monstrous Slaughter Qi, mercilessly landing upon the young White Tiger. It was just like the scene before, when the young White Tiger was relentlessly releasing shockwaves upon shockwaves upon him.

Chen Xiang wasn't using White Tiger True Qi for the White Tiger Divine Fists, instead, he was using the Universe True Qi. However, because of the Slaughtering Heart and the White Tiger Divine Fists, only violent and golden tiger head fists were formed.

The young White Tiger's body was pounded by numerous roaring tiger heads madly, smashing throughout upon its body. Because its body was very strong, at first, it only felt slight pain, and it

believed that this onslaught would very soon end. But to his surprise, Chen Xiang turned out to be too abnormal, and his True Qi seemed to be inexhaustible, there was no end to his attacks as they ruthlessly struck upon the White Tiger's body, making it shiver.

In the air, Hua Xiangyue was dumbfounded as she watched what was happening, her pretty face was filled with astonishment. Just a while ago, she believed that Chen Xiang would definitely give up under those kind of continuous and relentless shockwaves, yet to her surprise, Chen Xiang could suddenly endure the effects of those shockwaves, moreover, he even spanked the tiger's ass, turning the energy within the young White Tiger's body chaotic. This was followed by a rising Qi gushing out like a river, continuously releasing terrifying attacks.

When Hua Xiangyue thought about Chen Xiang in the Nirvana Realm and using this kind of move to fight with her, her tender body quivered. This was precisely Chen Xiang's potential!

"Bastard, didn't you enjoy making father spew blood. Now I'll also have a good time!" Chen Xiang, on one side, used his fists to madly pummel the young White Tiger wailing on the ground. While doing this, he was also loudly cursing. Although it was a young White Tiger, its head was still very large, however, because it was young, it was wailing.

To reign in spirit beasts, a martial artist must use their own strength to deter the spirit beast, deeply implanting a fear towards oneself in the spirit beast's soul. At this moment, that was what Chen Xiang was doing.

"Little rascal, till when are you going to hit it!" Hua Xiangyue could not bear to watch anymore. She felt pity for the young White Tiger.

"Father will hit it till he is tired, hahaha..." Chen Xiang insanely laughed as his punches turned even more fiercer. As Hua Xiangyue was here, he was not afraid of consuming his entire strength; he wanted to thoroughly implant a fear of him in this young White Tiger's heart.

The ground in the surroundings of Chen Xiang have been affected, and it was so ruined that everything was just a mess. As for the young White Tiger, it was lying in a pit, deeply sunken into the ground by Chen Xiang's punches that were like rainstorm.

After half a day passed, the sky had already turned bright. Chen Xiang too was tired, and the young White Tiger's eyes were now half opened as its battle power had already disappeared. Chen Xiang, while carrying its body, climbed out of the pit, then threw the young White Tiger's bulky body on the ground.

Chapter 284 - Reining In

The young White Tiger was as big as a cow, rumour had it that in the future, it could grow even bigger. Chen Xiang, thinking of himself riding on a huge White Tiger, wandering in the world, felt slightly elated in his heart. It was a matter of how trendy it was, but of course, he only thought about it. He still felt that it was rather good to just keep the White Tiger in the profound beast bag, and only release when fighting against someone.

Chen Xiang sat down on the ground, his whole body was profusely sweating. The White Tiger was in even more sorry state, its whole body was dark, majority of its body had wet soil stuck upon it.

"Little guy, you were attracted by this stuff! Haha... you have still not eaten, yet you already been beaten madly by me, don't you hate me very much?" Chen Xiang took out the Hundred Beasts Dans, shaking them in front of the young White Tiger, as he spoke while laughing.

Even Long Xueyi, this glutton, could not resist the temptation of the Hundred Beasts Dan, let alone this inexperienced young White Tiger.

The half-opened eyes of the young White Tiger was indeed filled with fury, but then it was also became full of fear for Chen Xiang. As it thought getting beaten by Chen Xiang for half a day, its eyes suddenly became moist.

"This little guy seems to be a female, you are not very kind." Long Xueyi mischievously laughed and said.

"Tigress!" Chen Xiang laughter turned even more hearty.

Chen Xiang, on one side, was laughing, while on the other, he had begun stuffing those Hundred Beasts Dan into the tiger's mouth, as well as several good dans. The young White Tiger was also a big-eater, otherwise, it would not have left its den to search for things to eat. Chen Xiang knew he had to quickly subdue this young White Tiger, because once its parents arrived, he could only choose to escape with Hua Xiangyue.

The young White Tiger forcefully moved its mouth and ingested those Hundred Beasts Dan into its stomach, as the look in its eyes turned somewhat grateful. Chen Xiang grinned and once again began stuffing a few more dans.

This made Long Xueyi secretly jealous, she was reluctant to eat so many at one time, and because of that, she would taste them slowly, yet this young White Tiger ate so many dans at the same time.

"This is the profound beast bag, if you are willing to follow me, you'll never be lacking these Hundred Beast Dans! You have already experienced my strength, if you follow me, it will not be an insult, moreover, I also have your ancestor's martial skill. Just a moment ago, you had experienced it!" Chen Xiang said, he knew many spirit spirit beasts could understand human language.

Chen Xiang just finished speaking, before a '王'(King) character shimmering in golden light emerged out from the White Tiger's forehead. Along with the character, there were many obscure spirit patterns, and this made Chen Xiang to feel secretly excited. This was exactly the character which would only appear when a high grade spirit beast would make a contract with humans The White Tiger family, who had inheritance, were high grade spirit beasts, that was why they understood these things.

Chen Xiang quickly cut his finger, so that his blood would drip upon the spirit formation on the young White Tiger's forehead. At that moment, Chen Xiang had a very wonderful feeling as he felt a very mystical contact between him and the young White Tiger.

"I'm now very weak, give me more to eat?" In Chen Xiang's mind, a timid girly voice resounded, as if a girl was worried about being harmed.

Chen Xiang was astonished. He now could feel a connection with his spirit beast, but what made him smile wryly was that this young White Tiger was the same as the little greedy dragon, both of them were gluttons.

Chen Xiang stuffed a few Hundred Beasts Dan in the young White Tiger's mouth, before receiving her into the profound beast bag. In his heart, he was secretly excited, he could rein in such a powerful spirit beast, moreover, a spirit beast which had such a large potential to grow.

Hua Xiangyue fiercely landed down from the sky. She grabbed Chen Xiang, before their figures appeared and disappeared for several times, leaving that battlefield from before, which was now burning in raging fire as a billowing smoke was rising up in the sky,

At the same time, from deep within the forest came a desolate yet angry roar, startling Chen Xiang's heart. This kind of roar was filled with so much Slaughter Qi, that it made him extremely panic-stricken. The Slaughter Qi had suddenly enveloped the sky over the forest. Chen Xiang had always believed his own Slaughter Qi was one of the best in the Chenwu Mainland, yet compared to the roar from a moment ago, it was a lot worse.

"Do not worry, after it entered the profound beast bag, its breath will be isolated from the world. That old man will not be able to find this small thing." Hua Xiangyue held Chen Xiang and rapidly leaped away, her speed was too fast that it made Chen Xiang unable to breathe. His body, under the impact from this high-speed movement, stimulated the injuries he had from a while ago.

Very soon, they arrived outside the Fragrance City.

"If talking about speed, mine is second to none in the Chenwu Mainland, don't think I'm bragging!" Hua Xiangyue proudly said while laughing. As she looked at the embarrassed appearance of Chen Xiang, she laughed even more happily.

Chen Xiang scoffed and said, "I'll surpass you in the future!"

"I'm waiting." Hua Xiangyue negligently said. After she finished speaking, she once again grabbed Chen Xiang and flickered, before their figures appeared inside the Danxiang Tower.

Chen Xiang was very tired, yet he still refused Hua Xiangyue's persuasion to stay. He returned to the Divine Weapon Shop, however, there was still no sign of Liu Menger.

After returning to his room, Chen Xiang swallowed a few True Elemental Dans and began to regulate his body.

"Did Hua Xiangyue intentionally took me to find the White Tiger?" Chen Xiang, in his heart, was feeling rather suspicious.

"It is very possible, but who knows, a woman's thought process is impossible to grasp, just like a needle at the bottom of a haystack!" Long Xueyi said, "Dear brother, give me a few Hundred Beasts Dan."

"You already have some, yet you are still asking me!" Chen Xiang scoffingly said. As he looked at the little White Tiger in the profound beast bag, he found the little guy was already fast asleep. Inside the profound beast bag, there was a small courtyard, with some lush green grass and some trees. There was also a pool, and overall, the environment seemed to be pretty good.

Chen Xiang said, "Did I do something cruel to her? Taking her away from her father and mother!"

"It's okay, wait till she gets familiar with you. Even if you want to send her back, she will not go. Encountering you was also not her bad luck, this little girl is going to leave her parents soon anyway." Su Meiyao said.

"Ah, right, am I not the same, kidnapped by you, little rascal!" Long Xueyi said with a pout.

"Little dragon, you're distorting the truth. From the start, you voluntarily followed me, now do you regret it? I'm certain you'll follow me despite anything. Even if I want to throw you away, you'll still follow me." Chen Xiang scolded.

Long Xueyi only grinned, she didn't retort at all. Chen Xiang was waiting for Liu Menger to return, he wanted to have her take him back to the Extreme Martial Sect to get the Azure Profound Fruit, in order to prepare for the 5th level Alchemist assessment.

He was not lacking with regards to the other materials for the Building Foundation Dan, but it was exactly the Azure Profound Fruit he was lacking, because they were still growing! As for the herbs for the Elemental Spirit Dan, he had some, but not too many. He only has five set of herbs. The herbs of these two kinds of dans were all very rare, and the Danxiang Tower definitely didn't have them.

As for the herbs of the Hundred Beasts Dan, there was no need to speak. When Chen Xiang would go take the assessment, he would definitely ask the Danxiang Tower to provide them.

He rested for a day, and when he had recovered the True Qi he had consumed, he discovered that his True Qi had elevated by a lot. In addition, Liu Menger also came back.

Chen Xiang quickly ran out of his room to look for Liu Menger, but in the room of Liu Menger, what left Chen Xiang surprised was that, he also saw Xue Xianxian and Leng Youlan there.

Liu menger actually went to the Icewind Valley in order to bring these two girls.

Xue Xianxian, after seeing Chen Xiang, quickly swooped over. Her face was full of sadness after she came to know the disappearance of the secular world. Just like Chen Xiang, she was very worried.

Leng Youlan didn't have any relatives in the secular world, now, only Xue Xianxian and Chen Xiang were her closest relatives, and seeing Xue Xianxian sad, she too also became sad.

Chapter 285 - 5th Level Assessment

Leng Youlan and Liu Menger took their leave so that Chen Xiang and Xue Xianxian could have some time alone. Chen Xiang comforted Xue Xianxian for a while, before a charming smile appeared on her face.

"Xianxian, I'm going to participate in the alchemy tournament, are you going to watch?" Chen Xiang asked as he made Xue Xianxian sit on his lap while embracing her.

Xue Xianxian shook her head and said, "I'm not going to watch, Youlan and I are going to cultivate diligently, otherwise we will not be able to keep up with you."

Seeing that delicate, pretty and fairy-like face with a trace of charm and cuteness, Chen Xiang could not help but bring his lips closer. Xue Xianxian realized his intentions and raised her head and began kissing Chen Xiang.

Both of them kissed for long a time. Since Leng Youlan and Liu Menger didn't hear any sounds of people talking coming from inside, they already guessed what was going on. In particular, Liu Menger thought about her own apprentice kissing with Chen Xiang, and herself having a kiss with Chen Xiang, she could not help but be flushed red. She secretly cursed Chen Xiang, this little rascal, took both master and apprentice as his own.

Although Leng Youlan, this white-haired beauty, usually appeared to be hot-blooded and impulsive, she was only a young inexperienced girl in regard to these matters. Peeking through the seam of the door, she was secretly envious, yet at the same time more curious about what that would feel like.

Chen Xiang, Xue Xianxian and Leng Youlan gathered back together for a short moment, before Liu Menger took them both away. Liu Menger only told Chen Xiang that she was taking both of them to a place inside Icewind Valley for cultivation, a place that would be rather beneficial for them.

Chen Xiang speculated that she was taking them to a Mysterious Realm. Originally, he wanted Liu Menger to take him to the Extreme Martial Sect to get the ripened Azure Profound Fruit, but he didn't expect Liu Menger to actually have one on hand. Seeing Chen Xiang's need for it, without any further ado, she readily and generously gave it to Chen Xiang.

Liu Menger took Xue Xianxian and Leng Youlan back, it would be few days before she would be back. Chen Xiang didn't tell Liu Menger he was taking the 5th level assessment, he was planning on giving her a pleasant surprise on her return.

After acquiring the Azure Profound Fruit, Chen Xiang had gathered all the ingredients he needed. Now he could go and apply for the alchemist assessment. Liu Menger brought Xue Xianxian and Leng Youlan to meet Chen Xiang, not only to give comfort to Xue Xianxian, but also for another purpose. It was to let Xue Xianxian and Leng Youlan relax before they went into the closed-door cultivation for quite sometime.

Just like the last time, the reason why Chen Xiang couldn't practice with Leng Youlan was also because of this,. They had been separated for a while, and at that time, he was worried to death about her. Chen Xiang had once told this to Liu Menger.

Danxiang Tower! This giant tower was the sacred place for many alchemists. It was also the examination site where they could obtain their credentials. The assessment here was very strict, it was same requirement for everyone, no matter who it was.

"What, you want to go through the 5th level assessment!?" In a room a luxuriously dressed Hua Xiangyue tenderly shouted.

Chen Xiang looked at Hua Xiangyue who was dressed just like royalty. In his heart, he felt rather bewildered, "You didn't hear wrong, I want to take the assessment. I have enough herbs to refine two dans."

Refining the dans during the assessment was comparatively a little more difficult than usual. This was because during the alchemy process, there were many onlookers, giving the participating alchemist quite a bit pressure, many people often failed at the drastic difference between refining alone and in front of others.

"Little rascal, do not joke with me! Do not waste these herbs and be obedient." Hua Xiangyue tried to persuade Chen Xiang.

Chen Xiang was very confident of himself, but this pretty alluring woman in front was actually looking down him, this made him somewhat unhappy. Of course, he knew Hua Xiangyue was worried for his sake, that he would waste precious hard to obtain herbs.

"Sister, you are underestimating me too much. If I can pass through the low 5th level assessment, how are you going to pay me back?" Chen Xiang said with an evil smile. He was preparing to have a bet with Hua Xiangyue so he could take advantage of her.

"Just go take it! I'll be your invigilator." Hua Xiangyue said while pouting. She did not take his bait.

Chen Xiang felt strange. Generally if it was someone else, they would bet, yet Hua Xiangyue didn't, this made him somewhat disappointed.

Low 5th level Alchemist rank required one to refine three kinds of Low Grade Profound Level Dans. Hua Xiangyue knew Chen Xiang could refine the Hundred Beasts Dan and the Building Foundation Dan, but that only totaled up to two kinds of Low Grade Profound Level Dans, both of which were rather easy to refine. She could not think of any other dan Chen Xiang would be able to refine.

Hua Xiangyue had a high status in the Danxiang Taoyuan. In Chen Xiang opinion, her status was probably similar to that of Elder Dan and Wu Kaiming in the Extreme Martial Sect and could make executive decisions in general situations. Very quickly, she called in three 5th level Alchemists. Although it was only three people, they were enough to approve Chen Xiang's alchemy process should he pass.

Just like last time, Chen Xiang entered a private room. These three alchemist all knew about Chen Xiang, this young and famous talented alchemist. All of them very readily came over, they were very much interested in what this young man planned to do. From the start, they were doing alchemy in Danxiang Tower, so they arrived very quickly.

Among these three alchemists, two were old men with shining white hairs, while the third was a white haired old woman. All three of them were very old, yet they were very respectful towards Hua Xiangyue.

From their faces, Chen Xiang didn't know who these three were, but after he learned their names, he was very surprised. In the alchemists circle, there was a ranking list, upon which there were the names of many outstanding alchemists. Chen Xiang had once seen this list and he could recognize the names of these three. Among all the 5th level Alchemist, these three were very remarkable. It was said all of them had expectations to enter into the 6th level.

Chen Xiang very courteously saluted these three old alchemists, who sat together with Hua Xiangyue upon stone chairs on one side of the private room, waiting for Chen Xiang to begin.

Chen Xiang only needed the Danxiang Tower to provide the herbs for the Hundred Beasts Dan, as for the other herbs, he took them out himself.

"Little brother, besides refining the Building Foundation Dan and the Hundred Beasts Dan, which other low-grade profound level dan are you planning to refine?" An old man very curiously asked. Chen Xiang was not even thirty years old, yet it was well known he could refine two different kinds of low-grade profound level dan already. He was monster among geniuses, however, it was still wasn't much to these seniors because these two Low-Grade Profound Level Dans were not that complicated.

Chen Xiang kept them guessing. He laughed and said, "Regular alchemy is too boring, three seniors, it will be more fun if you wait for me to refine then guess which dan I'm refining!"

"Good! Naughty brat...Hahaha." The old woman kindly laughed.,

Hua Xiangyue only secretly scoffed. She was also very curious, she had asked Chen Xiang before but didn't get so much as a hint to what he was going to refine.

The Elemental Spirit Dan Chen Xiang was going to refine had not appeared for a very long time. It had only been mentioned in records, whether it was the herbs or the dan, both had long been deemed extinct.

Of course, Chen Xiang was going to refine the Hundred Beasts Dan first. It was relatively easy to refine, and also allowed him to warm up. He neither anxiously or slowly processed those herbs. This one step before the actual alchemy was also an ordeal to most alchemists, although it appeared to be slow, it was very skillful. Slow in fast, fast in slow, his elegant and quick actions cause these old alchemists to be secretly astonished.

The way Chen Xiang processed these herbs made it seem as if he had been refining dans for many years. Moreover, it had increased his overall speed. While refining a large number dans, this process could save a lot of time.

The Brilliant Flame Dragon Furnace was a very powerful alchemical furnace, yet in the eyes of these old alchemists, it seemed to just be some ordinary furnace. Perhaps their own furnace were more gorgeous and beautiful than Chen Xiang's.

After processing the herbs, Chen Xiang deftly placed them inside the furnace. His action were very neat, from the time when Chen Xiang took out these herbs, all his actions were finished in one go.

In the blink of an eye, Chen Xiang began to pour the flames into the alchemical furnace, as the warm heat enveloped the private room.

Chapter 286 - Diligently Refining

In order to not let people perceive that he has a fire spirit, Chen Xiang intentionally converged the flame's aura. However, those old alchemists still could feel Chen Xiang's flames were very formidable. Although this kind of light Fire Qi was usually very weak, they could figure out it was extraordinary from the Fire Qi emitted.

Hua Xiangyue was the only one calmly watching while Chen Xiang was refining the dan. He was very serious now, focused on the alchemy with all his heart and not the least bit affected by the people around him.

Chen Xiang's control over flames had already reached an insanely high degree, these old alchemists all closed their eyes to feel the changes in the temperature inside the alchemical furnace. What made them astonished was that the temperature in the furnace seemed as if there has been no change, it was very smooth.

Only Hua Xiangyue could sense that Chen Xiang's control over the temperature of flames was very good and very subtle, which was comparable with many high-ranking alchemists.

These old alchemists felt it was a little strange because the changes in the temperature on the outside and the inside was very unique. They had seen others refine the Hundred Beasts Dan, and they themselves knew how to refine but not quite the same way Chen Xiang did it. The flames at beginning were not like this, it had too few changes. Under normal circumstances in the refinement of the Hundred Beasts Dan, the flames at the beginning would be very intense, in order to bake the herbs. Various herbs required different amount of heat, logically speaking, the different heat fluctuations from the furnace should be very obvious.

Chen Xiang opened his eyes, and laughed towards Hua Xiangyue. The onlooking old alchemists were all slightly surprised for a moment, a moment ago, Chen Xiang was dead serious, yet he was now making careless gestures which was taboo in alchemy.

Chen Xiang seeing the complexion of the three, could guess everything, he in his heart was secretly having a good laugh, "Indeed the situation you sensed in the alchemical furnace is strange, after all this is the Brilliant Flame Dragon Furnace, the flow of time is different from the outside."

Hua Xiangyue spat in low voice, a moment ago she was secretly praising Chen Xiang's seriousness in her heart, yet now he was all smiling towards her.

This caused the good impression he had created to the three old alchemists to suddenly disappear. Especially the look in his eyes when he looked at Hua Xiangyue, made them hold him secretly in contempt. During alchemy, this brat actually did not forgot to look at a beauty, it made them regret ever coming to supervise Chen Xiang.

"Be a little serious!" Hua Xiangyue scoffed.

Chen Xiang grinned, "I've finished refining."

"What?" Hua Xiangyue and the three old alchemists could not help exclaim, they hastily jumped up from their chairs with a look of disbelief hanging on their faces.

How much time had passed? They remembered Chen Xiang just closed the lid not long ago, they also had not seen even a little indication that it was done, yet Chen Xiang said he had finished refining.

"Don't joke around!" Hua Xiangyue finished speaking, before Chen Xiang opened the lid of furnace. An azure aura emerged from the inside before ten azure dans exuding bizarre herbal fragrance were calmly lying inside the furnace. This was the scene appeared in their view, before the white mist surrounding the dans slowly began to disperse.

This middle part was not in raws, and mike added it, I have no idea what it means

Unexpectedly, there were ten dans! Seeing this, these three old alchemists were dumbfounded, they quickly approached the cauldron and seriously counted three times, before deciding that there were indeed ten Hundred Beasts Dan.

"Do not doubt, these were all refined by me. Everybody here are all old seniors in the world of alchemists, I dare not play any tricks under your eyelids." Chen Xiang snappily said. He had been rather more serious than the usual in refining the Hundred Beasts Dan, that was the only reason he could refine them so quickly, but he did not expect these people would not believe what was in front of their eyes.

"Impossible! The Hundred Beasts Dan can actually be refined so quickly, how long ago have you started refining this dan?" An old man carefully observing a Hundred Beasts Dan asked.

"Not long ago, a few months ago that's all." Chen Xiang replied. As a matter of fact, he had successfully refined this dan a few days ago, he didn't want these old alchemists be scared to death which was why he didn't speak truth. Hua Xiangyue too expressed understanding regarding this.

Even then, these three elders were not so lightly scared. Their shocked expressions looked very funny, looking at their appearance, they could not wait to kill themselves. When comparing the quantity, quality and the time required to refine the Hundred Beasts Dans, their accomplishments simply didn't amount to anything in regards to Chen Xiang. If they competed in refining the Hundred Beasts Dan with Chen Xiang, it can be said they will lose ten times out of ten.

Although Hua Xiangyue was very surprised, she soon calmed down. She was very familiar with Chen Xiang, and got gradually accustomed to the shocking deeds of Chen Xiang. For instance, Liu Menger, this super beauty had been chased by millions of young martial artists ten thousand years ago, but now she had been taken by this little rascal Chen Xiang. Moreover, he had taken both master and the apprentice of two of the most beautiful women in the Chenwu Mainland. If these deeds was revealed, certainly no one would come to believe them to be the work of Chen Xiang.

"Cough Cough... I just didn't want to delay senior's valuable time, that's why I refined a bit faster!" Chen Xiang seeing those three old alchemists staring at the Hundred Beasts Dans, forcefully coughed and said.

These three old alchemists once again felt a blow, the alchemy time can not become faster when you want it to be faster. If they didn't care about their face, they would definitely pester Chen Xiang and make him impart some experience of his.

Chen Xiang's first and foremost principle of alchemy was not to waste the herbs. The herbs should be used completely out to an extreme, this way it might be possible to refine out even just one more dan. During alchemy, there would be many minute herbal powder transforming into mist and flowing out of the furnace. And this was the reason why the private room of many alchemists would be filled with the herbal fragrance. However, Chen Xiang's case, he would not let such things happen. He completely controlled everything to remain inside the furnace, this was why there would be one or two dan more refined out than other alchemists.

This point was something Hua Xiangyue and the other three also realized when Chen Xiang was refining the dan, it could be said, that there was no trace of any herbal scent. This made them feel ashamed,

because it was not something which could be achieved only through the talent, it was also a reflection of their state of mind. During alchemy, they only pursued the ability to refine the dans, sometimes even ignoring the quality of the dans! Yet Chen Xiang's requirements regarding the quality and the usage of the herbs were both very high.

Even Su Meiyao admired this point of Chen Xiang, she believed that perhaps the reason why Chen Xiang could progress so much faster in the alchemy was because of this diligence, it was also why he could refine so much better than his peers.

The second dan Chen Xiang was going to refine was the Building Foundation Dan. Although during the last assessment he had also used this dan to replace the High-Grade Spirit Level dan, he still had to refine it once again.

Chen Xiang took out the herbs for the Building Foundation Dan and cautiously processed them. At this point, the three old alchemists were watching very intently, they were worried they would miss the slightest detail from Chen Xiang's refining process. Although they could also refine the Building Foundation Dan, they had not for many years. The Azure Profound Fruit was not that easy to find, it would be even rarer for one to get the chance to see others refining it, so of course they would seriously watch the alchemy process.

In the eyes of these three old alchemists, Chen Xiang had become very tall, just like their teacher. Hua Xiangyue was the only one rather with a dull look, she already knew Chen Xiang could refine the Building Foundation Dan. On the contrary, she was much more curious about what other dan beside the Hundred Beasts Dan and the Building Foundation Dan he was going to refine, and also which type of Low-Grade Profound Level Dan he could refine.

Chen Xiang had refined a lot of Building Foundation Dans, and had a lot of them in his pockets. If he was willing and expended everything in growing the Azure Profound Fruit, he could almost eat Building Foundation Dans like they were jelly beans.

The Azure Profound Fruit Liu Menger had given him was of very high quality, he could refine four dans from it! Last time, because of the quality of the herbs, he was only able to refine two dans, which was still very shocking.

After processing the herbs, Chen Xiang placed them inside the furnace, before he covered the lid and poured in the flames. This was very tedious process, but the three old alchemists watched it with relish. Chen Xiang didn't know what in the world they were looking so intently at, they could neither sense the temperature nor the situation inside the alchemical furnace!

Chapter 287 - Zhenzhen

Refining the Building Foundation Dan was very easy for Chen Xiang, because his divine sense, compared to the time when he first refined the Building Foundation Dan, was remarkably stronger, he didn't feel the least bit of pressure.

While refining, he had a leisure expression. From time to time, he would look at Hua Xiangyue, but no matter how he looked, he would never get tired of looking. The more he looked, the more comfortable he felt, especially today that her clothes were so luxurious.

Chen Xiang speculated that Hua Xiangyue might have been affected by Liu Menger, that was why she was dressed like a Queen. However, she didn't really have that first under heaven kind of imposing manner, and she also didn't have Liu Menger's cold and noble temperament. Instead, there was another kind of charm, which was coquettish, captivating and filled with noble aura. Her attractiveness could evoke any man's desire to conquer her.

Suddenly, Chen Xiang felt some movements inside the profound beast bag. After the little White Tiger had entered the profound beast bag, it has always been sleeping. Chen Xiang eventually had to wait until she woke up.

"Little guy, it might be a bit narrow in there, but I ask you to be patiently for sometime, once I have the opportunity, I'll replace it with a little bigger space." Chen Xiang gently said.

"N...No, it's all good." The little White Tiger's timid voice rang in Chen Xiang's mind, it was clear that she had been quite scared by Chen Xiang. She was already thoroughly afraid of him, making it somewhat harder for Chen Xiang to adapt.

"What is your name?" Chen Xiang asked.

"I don't have a name, m-master, can you help me choose one?" The little White Tiger carefully asked.

Spirit beasts could not speak, they could only use divine sense. The humans were the wisest of all living beings. After the final evolution of beasts, they could take a human form, just like Long Xueyi. She would rarely transform into dragon, and most of the time, she would be in her human form.

"Let me choose for you!" Long Xueyi excitedly said.

This gave a scare to the young White Tiger, because she didn't expect Chen Xiang to also have such a powerful existence beside him, not to mention that it was a dragon.

"Since she is a White Tiger, her surname can be Bai, same as Sister Youyou. And since she seemed to be timid (胆小, Dan Xiao), her name should be Bai Dan Xiao." Long Xueyi said.

"Dan Xiao your ass, you chose such a stupid name." Chen Xiang reprimanded loudly. At first, he thought that Long Xueyi was speaking logically, yet at the end, it turned out to be shit.

"She is a female (母, Mu), lets call her Bai Mumu (白母母)." Long Xueyi quickly thought of another name.

"You're an idiot dragon, can you not even think of one normal name? According to your view, why is your name not foolish dragon or stupid dragon?" Chen Xiang was completely speechless from the names Long Xueyi had suggested. He felt that he could only rely on himself to think of a name for the young White Tiger.

At the side, Su Meiyao was snickering, she too had been thunder struck when she heard Long Xueyi's suggestion. On the other hand, Bai Youyou was very seriously thinking, because her surname was also Bai.

"How about Bai Zhenzhen?" Bai Youyou said.

Su Meiyao mischievously laughed and said, "Isn't that the name senior sister had used to deceive others."

"Good, then it is decided! Little tiger, from now on, your name is Bai Zhenzhen, Chen Xiang was quite satisfied with Bai Youyou's suggestion.

"En, thanks a lot master!" Bai Zhenzhen obediently replied. She had been completely conquered by Chen Xiang.

Being called a master by a White Tiger made Chen Xiang feel a little strange, yet it also made him have a sense of accomplishment.

"Zhenzhen, won't your parents worry about you?" Chen Xiang asked. He was most worried about this, if he was caught by two furious White Tigers, he would be completely finished.

"Rest assured, originally, I was evicted by them." Zhenzhen replied.

On one side, he was chatting with the White Tiger, while on the other, he was refining a dan with a serious look. This made the three old alchemists to secretly nod, if they came to know that Chen Xiang had just received a young beast as his slave, they would definitely vomit blood.

In the blink of an eye, half an hour went by, and under Chen Xiang's exquisite control, the refinement inside the furnace went very smoothly. At the moment, the solidification of the dan has already started, and very soon, he would be finished refining.

While refining, Chen Xiang, from his very serious appearance, suddenly stretched his waist lazily and yawned, making the three old alchemists surprised for a moment; this was not something to do while refining a dan. Because Chen Xiang had moved his palm away from the furnace, that meant that the flow of flames had already been broken, which was rather a serious mistake.

For this, Hua Xiangyue was not the slightest bit surprised, for she knew Chen Xiang had already finished refining the Building Foundation Dan.

"I've finished refining. Seniors, you can check." Chen Xiang calmly said. The three old alchemists were suddenly sweating profusely; just a moment ago, they wanted to scold Chen Xiang for committing such a big mistake, yet Chen Xiang had actually finished refining in just half an hour.

As they had already seen Chen Xiang refine the Hundred Beasts Dan, they were not really that surprised that Chen Xiang had once again succeeded. However, in their heart, they were secretly shocked by Chen Xiang's monstrous talent.

It was Hua Xiangyue who opened the lid. Inside the furnace, there were actually four Building Foundation Dans! This almost scared the shit out of the three old alchemists. Refining four Building Foundation Dans at once was something they had never even heard before, let alone seeing it with their own eyes; they almost felt like kneeling to Chen Xiang.

"Excellent quality!" Hua Xiangyue, on the contrary, was very calm as she took out a Building Foundation Dan and observed it.

Four dans, moreover, they were of excellent quality. This seemed to have given a pretty big blow to these three old alchemists. Coming here, they thought that they could take a high and mighty stance like an emperor. They were thinking about having Chen Xiang give them a salute, yet the result had left their face red from shame.

Chen Xiang received the Building Foundation Dans as he laughed, he said, "Now the final one."

Hua Xiangyue and the others were very much in anticipation regarding what was the final dan. All of them calmly sat on their chair and patiently waited.

First, Chen Xiang took out a lot of auxiliary herbs for processing, and then he took out the Divine Spirit Flower and the Raising Soul Grass. Seeing these two herbs, Hua Xiangyue let out a cry.

The three old alchemists knew that the small grass and flower was definitely not something ordinary, but they did not recognize what it was. They all looked at Hua Xiangyue, but Hua Xiangyue didn't say anything. She only shook her head, saying, "Wait for him to finish refining, you will then know it."

Chen Xiang didn't expect that these three old alchemists actually didn't know what he was about to refine. They couldn't even recognize the Divine Spirit Flower and the Raising Soul Grass. These two were but the main ingredients for refining the Elemental Spirit Dan, however, these two herbs had already disappeared for a long time. The Elemental Spirit Dan was mainly used to elevate spiritual power and cultivate the divine sense. Of course, its most important role was in the cultivation of the Divine Soul.

Chen Xiang suspected that Hua Xiangyue was an alchemist, because she had a very great knowledge about herbs. Not only this, while Chen Xiang was refining a dan, she was earnestly watching, and she could even see through each and every step. If she wasn't an alchemist, she would not be able to recognize all of these things.

It was only today that he had such a doubt. If Hua Xiangyue was an accomplished alchemist, then it could be said that she was very secretive. At the very start, Su Meiyao had said that she was a powerful woman.

While refining the Elemental Spirit Dan, Chen Xiang was very careful. Until now, this was the most difficult dan he could refine, and he had only been successful once.

Hua Xiangyue and the others, seeing Chen Xiang was a lot more serious compared to before, had a more solemn look; this made them feel that the atmosphere was somewhat tensed.

These three old alchemists firmly believed that Chen Xiang was certainly refining some unconventional, never before seen low-grade profound level dan. In their opinion, knowing how to refine this kind of dan didn't have any prospects, and the commonly used dans were comparatively harder to refine.

The Building Foundation Dans were very rare, so they were not considered commonly used, however, they were very famous. As for the Hundred Beasts Dan, it was used for practicing, and its reputation was not very small either. Beside these, there was also the Life Elemental Dan, if one took it when he was exhausted, then he would be able to recover a large amount of True Qi in the blink of an eye, allowing them to become energetic for a short span of time. In addition, it could also stimulate a person's hidden potential. As for refining the Life Elemental Dan, it was not considered too tough, it was only the herbs which were rare.

Then there was the Baptizing Marrow Dan, this was the low-grade profound level dan Chen Xiang had been wanting to refine, but it was too difficult to refine it. Moreover, its herbs were also very expensive, fetching a price several times higher than that of the Hundred Beasts Dan. It was mainly used to strengthen the body, and it was quite a popular dan.

There was also the Altering Fate Dan, which could improve its user's poor spiritual vein to a better one, it was a dan often bought by some wealthy families, and it was slightly difficult to refine. In addition, its herbs were also slightly expensive.

As for the Elemental Spirit Dan Chen Xiang was refining at the moment, it was in the forefront of the low-grade profound level dans. After all, it was used to strengthen the divine sense. Cultivating the True Qi was easy, tempering the body was rather difficult, and cultivating the divine sense was the most difficult. Chen Xiang had a Divine Soul, and only through cultivating in Shinto would enable him to make his divine sense super strong.

In the Chenwu Mainland, Chen Xiang's alchemy talent could be described as second to none, yet he was not proud and arrogant of himself. He once heard Su Meiyao speak of a place called the Sacred Dan World, and in there, the alchemists were as many as dogs, moreover, the rank of the alchemists there was different from the Chenwu Mainland. It was a very fertile world, and rumor had it, precious spirit herbs were like common grass there.

This was the place Chen Xiang had been longing for, however, going there was very difficult. In addition, Su Meiyao didn't even tell him how to go there. She only said that even if he knew, it would not be of any use, because he wasn't strong enough.

Previously, when Chen Xiang was refining the Elemental Spirit Dan, it led to many failures because his divine sense was inadequate. But now that his divine sense was so powerful, refining the Elemental Spirit Dan wasn't too much of a burden.

In the beginning, Chen Xiang was sweating profusely. Although he had succeeded once, but Chen Xiang still felt that it was a bit difficult to refine. His divine sense was indeed very strong, but he discovered that using too much divine sense all of a sudden to suppress the Herbal Spirit Qi in the alchemical furnace would result in the Herbal Spirit Qi to turn even more tyrannical, which would be counterproductive.

Looking at Chen Xiang's appearance, the three old alchemists were wondering in their hearts. In their opinion, refining this unconventional dan should be relatively simple, yet Chen Xiang was now encountering such difficulties. In their heart, they were secretly happy, at the least in this regard, they were better than Chen Xiang.

Hua Xiangyue was seriously watching, her pretty eyes were shimmering strangely again and again, as if she could see through Chen Xiang's furnace. Those three old alchemists also could not understand why the supervisor of Danxiang Taoyuan was so entranced.

"This woman is quite an expert in hiding herself, she's very formidable!" Long Xueyi said in a low voice, she was intently watching Hua Xiangyue.

Hua Xiangyue also felt inconceivable, she suddenly discovered that Chen Xiang's alchemical furnace was mysterious. Her mouth could not help but flash a charming and enthralling smile as she determined that Chen Xiang's furnace was very formidable.

Of course, what was totally out of her expectation was Chen Xiang could actually refine the Elemental Spirit Dan. This was a dan which could only be successfully refined with a very subtle control over one's divine sense, moreover, compared to numerous dans, it had a very high requirement for flames.

"Incredible, this woman's divine sense is very powerful. It seems that she have discovered something." Long Xueyi said with surprise.

Chen Xiang, at the moment, had no time to pay any attention to this, he was seeking the feeling from the last time when he had succeeded. All the Elemental Spirit Dan's herbs required to absorb his divine sense in order to solidify the dan; he could not let these herbs absorb too much or too little. Even the slightest bit of mistake would lead to failure.

Soon, he had arrived at the most crucial moment, as the alchemical furnace actually slightly began to shake. It appeared as if the furnace was about to explode, which made the three old alchemists secretly ridicule. Before, they had suffered a blow from Chen Xiang, but finally, they could regain a bit of their dignity.

"Bang!"

A muffled explosion rang, before Chen Xiang fiercely opened his eyes, his head was full of sweat. He had actually failed, moreover, an explosion in the furnace had also occurred, he secretly sighed and once again took out the herbs. On one side, he was processing, on the other, he was recalling the reason which lead to the failure a moment ago.

A slight gloating look hung up on the faces of those three old alchemists, seeing Chen Xiang blast his furnace, they felt a lot better in their heart. Even though they didn't know which dan Chen Xiang was refining, but they believed they themselves would not commit this kind of error. They felt good that Chen Xiang actually failed refining an unconventional dan.

Hua Xiangyue frowned. She was thinking about the reason behind Chen Xiang's failure. She could sense the subtle changes inside the furnace, and she could see Chen Xiang was very rich in experience regarding the refinement of the Elemental Spirit Dan; these things should not have been the reason of his failure.

"Damn girl, you chirp so continuously. If not for you chirping continuously, father would have not failed!" Chen Xiang, using his divine sense, cursed Long Xueyi.

Long Xueyi indignantly replied, "I suddenly found that seductress was very formidable, I could not help but tell you!"

"So what if you wanted to tell me, why were you yapping shit with Zhenzhen, that little white tiger. If you want to chitchat, then chitchat! Why the fuck do you want to make me listen." Chen Xiang became even more angrier.

"I'm sorry, I only felt Zhenzhen was very strange, that was why I was chatting with her, who would have thought that it will make your refinement of the Elemental Spirit Dan become so difficult." Long Xueyi pettily said, making Chen Xiang unable to get angry again.

Fortunately, there was still an opportunity to refine again, but it was the last chance.

Long Xueyi, while Chen Xiang was processing the herbs, told her findings to Chen Xiang, "Little rascal, that seductress' divine sense is very strong, she could clearly sense the situation inside the alchemical furnace."

"She knows many of my secrets, I'm not afraid if she also came to know about this." Chen Xiang sighed and said. Hua Xiangyue knew his and Liu Menger's secret, and she also knew that he was the disciple of Huang Jintian. Although she wasn't vocal about, Chen Xiang was still sure that she had definitely figured it out.

"In front of me, these women usually pretend to be stupid, but I have never thought that they were so smart." Chen Xiang cursed.

"If girls in front of you are too clever, you would not be happy. They act stupid only to seduce you." Su Meiyao said while tenderly laughing.

Chen Xiang began to place the herbs inside the furnace, and then began to pour in the flames, before he exhorted Long Xueyi, "Little girl, whatever matter it is, wait till I have finished refining. Only then can you tell me."

"I know." Long Xueyi tenderly shouted.

This once, Chen Xiang was just the same as a moment ago, profusely sweating. He began to hate refining the Elemental Spirit Dan a little. Refining this kind of dan, no matter how strong an alchemist's divine sense was, if they have not grasped it well, then they would definitely suffer a loss.

"Bring it on! Two dans!" Chen Xiang, in his heart, became resolute. Using his divine sense, he divided the fused masses of the Herbal Spirit Qi and the Herbal Powder into two. Afterwards, he began to squeeze them into dans.

For the first time, Chen Xiang was refining two dans at the same time. If he was only refining one dan, by that time, he would not be able to completely unleash the potency of the herbs. If not for him being not too familiar with the Elemental Spirit Dan, he would have definitely gone for three dans.

Now, inside the furnace, two masses of energy were slowly being squeezed. Hua Xiangyue's senses were crystal clear, in her heart, she was extremely surprised. When she looked at Chen Xiang, a look of admiration appeared in her eyes.

"Solidify!" Chen Xiang shouted in his heart as the trembling furnace suddenly calmed down. During the solidification of the Elemental Spirit Dan, as long as an alchemist's divine sense was strong enough, the process would then be very easy.

Chapter 289 - 5th Level Alchemist

The three old alchemist, after seeing Chen Xiang suddenly relax, knew that Chen Xiang must have been successful, which also meant that Chen Xiang would become a 5th level Alchemist, albeit a low 5th level alchemist. But for Chen Xiang's current age, it was still very amazing. Thinking of Chen Xiang's promising future, the three elders felt jealous in their hearts. All of them had only become 5th level Alchemists at the end of their poor lives.

"What dan have you refined?" The old woman, while walking over, asked.

Chen Xiang laughed and said, "Senior, won't you know after I open the lid?"

The other two old men and Hua Xiangyue encircled Chen Xiang. Hua Xiangyue already knew what dan Chen Xiang had refined, but she didn't expect Chen Xiang would actually be successful in refining it.

After the lid was opened, a burst of golden aura suddenly shot out from inside, dazzling everyone's eyes. But very soon, the golden aura disappeared as two bright dans circulating in a golden brilliance were lying inside the furnace, sending the three old alchemists into extreme shock. They had still not recognized which dan it was, but they knew that it was definitely a very formidable low-grade profound level dan, especially because of the slight aura it gave off, which could affect one's mind.

The three old alchemists gulped down a mouthful of saliva, they felt a little embarrassed. Before, they thought Chen Xiang was refining an unconventional dan, and they even believed that they would certainly be able to recognize it, but now, even after looking at the dans, they weren't able to recognize it. This dan was absolutely not the unconventional dan which wasn't really useful like they had imagined.

"This is the Elemental Spirit Dan, it is also the first for me to see it." Hua Xiangyue dismissively said, she took out a dan and carefully observed it.

Chen Xiang didn't expect that even Hua Xiangyue had only seen this kind of dan now. It just made it evident how rare the herbs for the Elemental Spirit Dan were.

"Elemental... Elemental Spirit Dan, the legendary Elemental Spirit Dan which can make its user's divine sense soar!" One of the old men was stunned; they had certainly heard of it, but its exact details, no one knew for sure. Even its recipe, not a single one of them knew it.

The three old alchemists were thoroughly stunned, the Elemental Spirit Dan was, although a low-grade profound level dan, its usage was very big. A long time ago, it was once set to be included among the middle-grade profound level dans, but as its degree of difficulty in refining had not yet reached the middle-grade profound level, it was set as a low-grade profound level dan.

This dan was much more valuable than the Building Foundation Dan. Chen Xiang not only had the herbs, he could even refine it. The three old alchemists who were secretly sneering at Chen Xiang for refining an unconventional dan before, now knew how wrong they were. Chen Xiang had not refined just any

unconventional dan, but instead the second to none among the low-grade profound level dans, the Elemental Spirit Dan.

"Are you willing to sell this Elemental Spirit Dan to the Danxiang Tower? We only need one, just for showcase; we will absolutely not sell it." Hua Xiangyue's eyes had a pleasant expression as she asked Chen Xiang.

The three old alchemists also wanted to buy it, but they knew how rare and precious the Elemental Spirit Dan was. They estimated that Chen Xiang would mercilessly suppress them with his price, that was why they also gave up.

In his herbal garden, Chen Xiang had planted a lot of herbs. In the future, he could still be able to refine it. Selling a dan to Hua Xiangyue was nothing, so he said with a laugh, "Of course I can, but before we talk about the price, give me the 5th level Alchemist medallion first."

Hua Xiangyue, seeing that cunning look hanging on Chen Xiang's face, knew that she would definitely be swindled by Chen Xiang. She secretly clenched her teeth as she took out a jade card with five light golden stripes engraved upon it. After taking it out, the three old alchemists, with their blood and divine sense, signed behind the jade card.

Chen Xiang waited for a short while, before they were all done. The three old alchemists politely greeted Chen Xiang, before they left fully ashamed.

Hua Xiangyue poked Chen Xiang's waist, before softly snorting, "Little rascal, when did you learn refining the Elemental Spirit Dan?"

"I've learned it long ago, I'm now a 5th level Alchemists, hahaha..." Chen Xiang, looking at the jade card, began laughing. The five golden lines were a little bleak; it was a sign of a low 5th level Alchemist. For the medium 5th level Alchemist, it was a little bit brighter, and as for the high 5th level Alchemist, the golden lines were incomparably brighter.

If Chen Xiang wanted to be assessed again, he could only ask the person in charge of the Danxiang Tower to make the golden lines a bit brighter. For the jade card was specially refined by the Danxiang Taoyuan, as such, the engraved spirit patterns were all very complex and abstruse.

"Don't be proud, quickly speak your price." Hua Xiangyue pinched Chen Xiang's arms. Thinking of herself being swindled by Chen Xiang with a big price, she felt very uncomfortable.

Chen Xiang, after seeing her complexion, pursed his lips and said, "What do you think of me? I, from the beginning, was planning to give you one."

This was contrary to what Hua Xiangyue had expected. She hastily touched the place she had pinched a moment ago, laughed and said, "You really are my dear brother, you have not wasted my love for you."

[TLN: 这倒是出乎花香月的意料，她急忙摸了摸刚才捏的地方，媚笑道：“真是我的好弟弟，没枉费我这么疼你。”，In the last part 疼 means both love and pain, Hua Xiangyue is here making fun of him, by saying this word, representing her pinching, while at the same time, her relationship with Chen Xiang.]

Before, Hua Xiangyue had given him a profound beast bag, which allowed him to catch the White Tiger. For this, Chen Xiang felt very grateful for Hua Xiangyue, and giving her a dan was nothing.

After Chen Xiang gave the Elemental Spirit Dan to Hua Xiangyue, he rushed to register for the tournament, he directly sought for Mrs. Li. Hua Xiangyue had informed Mrs. Li long ago that Chen Xiang was going to take the 5th level Alchemist assessment, but she did not expect it would be so soon.

"Young master Chen, a-are you really a 5th level Alchemist?" Mrs. Li, looking at Chen Xiang's jade card, was still a little bit doubtful. She had spent a long time in the Danxiang Tower, but it was the first time for her to see such a young 5th level Alchemist.

"Hei hei, of course, it's true! I want to register for the high rank tournament." Chen Xiang laughed and said. Mrs. Li soon accepted this fact, because she had also supervised Chen Xiang's assessment before.

After registering, Chen Xiang also asked about the content of the high rank tournament, but Mrs. Li had her lips sealed, because it must remain a secret, lest the alchemists could specially make preparation for the tournament. This was a big test to the participants.

Very soon, the alchemists circle of the Fragrance City was stirred, because an Elemental Spirit Dan was showcased in the Danxiang Tower. This was a dan that has long been lost with the passage of time. It was certainly a legendary dan.

Of course, all of them didn't know who had refined it. Hua Xiangyue had also asked the three old alchemists to keep it a secret; she couldn't allow the tycoons of the other forces to know Chen Xiang had arrived here, otherwise, it would bring him some trouble. Not to mention that this time, the devil path sects are also eyeing the tournament. Although the devil sect, after their failure in the Southern Wasteland, promised they would no longer have any conflict with the righteous sects again, their commitment was unworthy of trust.

What Hua Xiangyue was most worried was, since the devil path's plans had been ruined by Chen Xiang, he would definitely be targeted by those from the devil path.

Chen Xiang didn't return to the Divine Weapon Shop. According to Hua Xiangyue, Liu Menger would not return there anymore, so she asked him to stay here for safety. And Chen Xiang was not going to refuse a beauty, so there was no harm in staying here.

The showcased Elemental Spirit Dan attracted many onlookers, and majority among them were alchemists or someone who was learning alchemy. The Elemental Spirit Dan was placed in a transparent and sealed box, lest the potency of the Elemental Spirit Dan dissipate. Although it was only a low-grade profound level dan, in the eyes of many alchemists, it was a novelty.

Hua Xiangyue took Chen Xiang to a tour in the Danxiang Tower. On the Danxiang Tower, there were also some herbal gardens. These herbal gardens have all been covered by a large formation for gathering Spirit Qi, moreover, the water used for irrigation had all been done by someone specialized in using True Qi to nurture them. Chen Xiang also noticed that the spirit herbs used for refining the True Elemental Dan and the White Jade Dan were growing here. He noticed that after they were carefully bred, their growth rate had significantly increased.

This also opened Chen Xiang's outlook. But just as when Chen Xiang intended to go to a higher floor to have a look for more precious spirit herbs, Hua Xiangyue frowned.

At this time, a voice resounded in the entire Danxiang Tower, "Who is the supervisor of the Danxiang Tower?"

"Someone is here to make trouble!" Chen Xiang quickly shouted. In his heart, he was somewhat excited, because he knew that there would be some good show to watch.

Hua Xiangyue showed Chen Xiang the whites of her eyes, before she quickly went down.

Chapter 290 - Yue Jianglin

In a hall on the first floor of the Danxiang Tower, majority of the populace does not dare to breathe loudly, and some of the timid ones all carefully began to retreat. The center of the first floor of the Danxiang Tower was where the Elemental Spirit Dan was being showcased. Hua Xiangyue did so in order to improve the prestige of the Danxiang Tower, as well as to open the outlook of the alchemists in the Danxiang Tower; having it attract some trouble was out of her expectations.

Beside the cabinet showcasing the Elemental Spirit Dan, a middle-aged man with an extraordinary bearing stood. An oppressive and arrogant aura was being exuded from his entire body, and a long sword was hanging on his back. With a single glance, anyone could recognize him as a member of the Proud Sword Sect, but the kind of pressure he just released a moment ago deterred many people. Some of the onlookers recognized this middle-aged man, for he was the Dean of the Proud Sword Sect, Yue Jianglin!

Once Hua Xiangyue arrived, she coldly spoke, "Yue Jianglin, did you come here to make trouble?"

She most abhorred this kind of arrogant guy, especially if it was from the Proud Sword Sect. Since ancient times, all of their members were like this, that was why she most hated dealing with the people from the Proud Sword Sect.

Chen Xiang, from afar, watched as the lively scene unfold. Chen Xiang felt the same as Hua Xiangyue, he too hated the guys of the Proud Sword Sect, and he had also slaughtered a few of them. In addition, in the annals of the history, the disciples of the Proud Sword Sect had been oftenly killed by disciples from the rest of the eight righteous sects.

Yue Jianglin, seeing it was just Hua Xiangyue, had a look filled with disdain, he arrogantly said, "Are you the supervisor of the Danxiang Tower? What about your Danxiang Taoyuan's Dean? Quickly ask her to come out."

"You do not deserve to see her!" Hua Xiangyue's eyebrows pressed together as she replied in a slightly furious tone.

Everyone in the hall were extremely shocked, they all didn't recognized Hua Xiangyue. Only the disciples of the Danxiang taoyuan knew that Hua Xiangyue was the supervisor of the Danxiang Taoyuan, but how

could she dare to speak as such with Yue Jianglin. Yue Jianglin was the Dean of the Proud Sword Sect, from where was her confidence coming from?

Yue Jianglin already knew that the Dean of the Danxiang Taoyuan rarely appeared in public, yet he was taking this stance. He believed that only the Dean of the Danxiang Taoyuan could talk with him.

"Little girl, I want to buy this Elemental Spirit Dan. For this matter, you could not call the shots, quickly call your Dean out!" Yue Jianglin's tone became a bit milder, yet it did not ease up the irritation everyone felt.

Hua Xiangyue sneered, "The Elemental Spirit Dan was bought by me, if I wished for it, I can even eat it on the spot, why can't I take responsibility?"

Yue Jianglin was surprised for a moment, he thought that the Elemental Spirit Dan was refined by the Dean of the Danxiang Taoyuan. After seeing Yue Jianglin's complexion, both Chen Xiang and Hua Xiangyue were secretly excited.

Chen Xiang didn't expect that this old man, who had been living for more than ten thousand years, to actually be so stupid. Looking at his appearance, it was pretty clear that he was very much in need of the Elemental Spirit Dan. He garnered so much attention and so clearly revealed his intention, wouldn't he clearly be swindled by the others?

Chen Xiang, in his heart, quickly thought of a plan as he continued to watch the scene unfolding in front of him.

"Say your price, I want this Elemental Spirit Dan!" Yue Jianglin, with both his hands behind his back, spoke dismissively, as if no matter how much it would be, he was going to buy.

"I'm not selling!" Hua Xiangyue had no shortage of crystal stones or True Elemental Dans, as such, she was not going to sell, especially now that she was agitated at Yue Jianglin.

"Little girl, you should better know how to behave a bit, this Elemental Spirit Dan is very important to me..."

Yue Jianglin didn't even finished speaking, before Hua Xiangyue lightly stroked her hair, such an enthralling action instantly garnered the attention of some onlooking men. She put on a forced smile and said, "Little girl? Yue Jianglin, sooner or later, your Proud Sword Sect will be destroyed with this foul temper of your. I will not sell it, what are you going to do? If you have the guts, then try to destroy the Danxiang Taoyuan!"

Yue Jianglin's whole body trembled in rage, how could he not know the strength of Danxiang Taoyuan? He was clearly aware of the contacts of the Danxiang Taoyuan. If the Danxiang Taoyuan was in difficulty, the Extreme Martial Sect and the Divine Weapon Heavenly Empire would not stand idly, and he was most afraid of Gu Dongchen. He knew that his strength was far below Gu Dongchen's.

"This Elemental Spirit Dan is too important to me!" Yue Jianglin said. Now it appeared as if he was asking others, "This can allow my son to breakthrough his bottleneck, I ask you to sell it to me!"

Hearing his words, Chen Xiang was laughing even more heartily. Yue Jianglin had a genius son, and many people knew about this, because Yue Jianglin very prominently publicized his own son. But who knew

that when his son was about to advance to the Extreme State, he suffered from Qigong Deviation, and was inflicted with serious injuries. After recuperating for many years, he once again recovered to his pinnacle strength, but his spirit sea had not improved. He needed his divine sense, and only then could he fully recover.

However, the consciousness of Yue Jianglin's son at that time had taken a huge hit, he could not cultivate a bit of divine sense anymore. While there were other dans that were specialized for cultivating the divine sense, they were all still inadequate. He had already tried various ways, but he still failed to achieve any result. Before, Elder Dan advised that it might only be possible with the Elemental Spirit Dan; the moment his spirit sea recovered, he could immediately breakthrough.

Because the Elemental Spirit Dan had not appeared even once, Yue Jianglin's son had stayed in the 9th level of the True Martial Realm for many years.

When Chen Xiang heard about this, he knew that he could ruthlessly swindle Yue Jianglin.

The Elemental Spirit Dan, at most, was worth no more than one million crystal stones. For a Dean, this was only a small number, even ten million crystal stones were not even worth mentioning.

Hua Xiangyue thought of giving a price of ten million, but just as she was about to promise, Chen Xiang's voice rang in her mind.

"Dear sister, how much are you planning to swindle from him?" Chen Xiang asked.

"Ten million, ruthless, right!" Hua Xiangyue replied back.

"Ruthless my ass!" Chen Xiang said with ridicule.

"No way. If I ask for a higher price, others will say my Danxiang Taoyuan took advantage of someone's crisis and swindled him. Ten million crystal stones are already very sinister." Hua Xiangyue indeed wanted it to be a bit more higher.

"You tell him to participate in the auction. At that time, the Elemental Spirit Dan will appear, hei hei!" Chen Xiang said with an evil laughter.

Hua Xiangyue's eyes lit up, she immediately understood Chen Xiang's intent. She secretly praised Chen Xiang's approach. If Yue Jianglin was really in need, during the auction, they could intentionally raise the price. Not only would it make Yue Jianglin spew blood, their profits would also be bigger. Thinking up to this point, Hua Xiangyue was extremely excited in her heart.

Hua Xiangyue said, "No, I can not sell it to you. From the beginning, the seller had said that we could not sell it to others, we have to respect the seller's opinion, because we, the Danxiang Tower, are doing a business where credibility is everything. However, he told us that at the time of the auction, there will be another Elemental Spirit Dan."

"The auction will begin very soon, you have waited for more than a thousand years, can't you wait for such a short span of time?"

Originally, Yue Jianglin had been prepared to be ruthlessly swindled, but he didn't expect Hua Xiangyue to speak as such. In his heart, he secretly heaved a sigh of relief, if it was in the auction, maybe it could be cheaper.

Yue Jianglin let out a cold snort, before he waved his sleeve and left, making Hua Xiangyue tenderly snort in response. Here, everyone knew of the legendary Dean of the Proud Sword Sect, or at the very least, had heard rumors about him. He was a very annoying guy who could make others hate him.

Seeing such a beauty get angry, these men, in their heart, all began hating on Yue Jianglin.

Hua Xiangyue angrily snorted. She left the first floor as Chen Xiang excitedly followed her.

"This guy, in the future I'll definitely ruthlessly kill him, however in the Fragrance City, aunt will definitely make him lose his countenance." Hua Xiangyue was very angry, in a unique elegant room she tenderly cursed.

Chen Xiang laughed and said, "Dear sister, take it to the auction, at that time I'll definitely share it with you a little!"

Hua Xiangyue took the Elemental Spirit Dan, thinking of very soon she could be able to see Yue Jianglin suffer, suddenly a charming and enthralling smile appeared on her face.
