

Dan God 2821

[Chapter 2821](#)

When Chen Xiang returned to the Original Tao, there were also rumors about the Dragon Devil Dead Land here!

However, they did not panic like Chen Xiang had imagined. Instead, everyone was extremely excited and only after hearing what Chen Xiang had said, did they find out the reason.

So it turns out that after the legend of the Dragon Devil Dead Land spread, there was another story as well!

Back then, it was not only the Heavenly Alchemy Divine Sect who died in battle in the Dragon Devil Dead Land, the strongest ancestors of the Four Great Divine Sects all died in the Dragon Devil Dead Land!

And the divine tools that they had used back then, had naturally fallen into the Dragon Devil Dead Land as well.

The ten mighty Overlords that they led all possessed Heavenly Alchemy souls. Adding the Heavenly Alchemy Venerable Ancestor's divine artifacts, there were eleven divine artifacts with Heavenly Alchemy souls scattered around the Dragon Devil Dead Land.

Therefore, at this time, many people felt that there was definitely a Heavenly Alchemy soul's divine tool in the Dragon Devil Dead Land. Even if there wasn't, there were definitely a lot of good things, because the number of experts who died in there back then was just too many.

Being able to unleash the Heavenly Alchemy immortal power was something that many people wanted to possess. Now that the legends of the Dragon Devil Dead Land had been told, many people believed that although the Dragon Devil Dead Land was dangerous, it was still a treasury.

What surprised Chen Xiang was that some of the Rankers in the Original Tao also thought the same way. They actually planned to head to the Dragon Devil Dead Land to look for treasures!

"Why hasn't Uncle Lin come out yet!" Chen Xiang had known that Lin Jitian had been here for a long time and that he knew many secrets. He wanted to ask Lin Jitian about the Dragon Devil Dead Land.

Lin Jitian did not come out, so he had no choice. At this moment, he already knew that there were a lot of people heading towards the Dragon Devil Dead Land.

"This won't do, I can't be at ease!" Chen Xiang also wanted to go to the Dragon Devil Dead Land to have a look. In the end, he hid it from the Master Wang and stealthily made his way to the Dragon Devil Dead Land.

According to his knowledge, many of the Supreme Elders in the Original Tao Sect had brought their disciples there, but the Leader did not stop them. Chen Xiang felt that the Leaders in the Original Tao Sect must know a lot of things, and if the Dragon Devil Dead Land was in danger, he would definitely stop them from going there.

Chen Xiang's speed was extremely fast, and before long, he arrived at a city that was very close to the Dragon Devil Dead Land. He wanted to find some useful information, and at this moment, he also

wanted to go into the Dragon Devil Dead Land to try his luck, and see if he could find a Heavenly Alchemy artifact that possessed the Heavenly Alchemy soul.

If the legends were true, then there were 11 Heavenly Alchemy artifact inside. The chances of him obtaining them were very high, and many people had the same thoughts as him, so they all headed towards Dragon Devil Dead Land with their lives on the line.

Chen Xiang had met Gu Qingtian inside the city, and was walking on the streets alone. Compared to not having met his master once before, he was currently in the early stages of Six Gods Stage.

"Brother Gu!" Chen Xiang suddenly patted Gu Qingtian's shoulder. Although he had changed his appearance, he still used the original voice, so when Gu Qingtian heard the voice, he immediately recognized that it was Chen Xiang.

Seeing Chen Xiang's change in appearance, Gu Qingtian could understand. Now that news of Chen Xiang had spread, he did this to avoid trouble.

"Brother Gu, are you alone?" Chen Xiang asked, and then chatted with Gu Qingtian as they walked.

"Of course not, my master and I came here! You're the one who came here yourself!" Gu Qingtian laughed: "Brother, it's all thanks to you that I managed to enter Six Gods Stage now, if not I would have been waiting for so long!"

"There's no need to be so polite, I didn't waste any effort anyway!" But are you really not afraid of going to Dragon Devil Dead Land? " Chen Xiang said: "You have just broken through, yet you want to go to such a dangerous place?!"

Gu Qingtian did not immediately answer Chen Xiang. Instead, he brought Chen Xiang to a place far away from the city and towards a quiet place where there were few people.

"Dragon Devil Dead Land is indeed very dangerous. We all thought so too! However, our Original Tao s tell us that there is no danger inside. Even if there is, it is very deep inside, and all we need to do is to walk around outside. " Gu Qingtian replied, "His news came from the six Divine Sects s, so it shouldn't be a fake. Otherwise, there wouldn't be so many of them."

"Is this true? If it was outside, would it be possible to find Heavenly Alchemy artifact? " Chen Xiang was pleasantly surprised. At least, the inside wasn't as scary as he had imagined.

"You already have a Heavenly Alchemy soul, and you even assimilated into your own body. You are a very strong Heavenly Alchemy artifact yourself, and you still want it!" Gu Qingtian laughed.

"The more of these things the better!" Chen Xiang laughed: "People are always so greedy!"

"Are you sure you want to go in there yourself? If you were the only one, you might be in danger. "We have quite a few of them. They are the teachers of Mu Rong Ling and his group. They definitely wouldn't mind if you join us." Gu Qingtian said.

Chen Xiang had teleportation and invisibility. He felt that it wouldn't be a problem for him to be careful.

"No need, I'm not sure if I want to go in yet!" I always thought it was weird inside. " Chen Xiang had initially been floating in the air outside of Dragon Devil Dead Land, but he could feel that an extremely terrifying evil energy was hidden inside.

"Alright then!" If you decide, you can come find me anytime. I'll stay at the hotel on the street. " Gu Qingtian patted Chen Xiang's shoulders: "We will leave in three days. When we are certain of the situation inside, we will leave immediately!"

"Determine the situation?" Chen Xiang asked curiously.

"Yes, this is mainly the news from the six Divine Sects. Their news is extremely reliable! However, there are already people who have entered. It shouldn't take long for them to find out more about what is going on inside. " Gu Qingtian said: "This Dragon Devil Dead Land is also strange. In the past, he was always enveloped by a barrier, but after the wyvern was bathed in blood, the barrier disappeared!"

Hearing that, Chen Xiang had a bad premonition, he was willing to be enveloped by the enchantment of the Dragon Devil Dead Land, and now that it was suddenly gone, coupled with the strange sight of the wyvern being bathed in blood, it was definitely not a good thing.

Suddenly, someone shouted: "Good news! Someone just obtained a Heavenly artifact from Dragon Devil Dead Land, it was used by one of the Supreme Elders back in the days. From this, you can see that there are people who have preserved the Heavenly Alchemy artifact in the Dragon Devil Dead Land."

"I heard that the people from Flying Dragon Palace obtained it too."

When Chen Xiang and Gu Qingtian heard this, they both had the same thought, and wished that they could go in and see.

"I'll go back and find Master. Are you coming?" Gu Qingtian said, he wanted to quickly go in.

"No!" Chen Xiang shook his head.

"Alright, farewell!" Gu Qingtian ran away hastily.

Chen Xiang also immediately went to the Dragon Devil Dead Land. When the news of the Heavenly Alchemy seal seeing the light of day spread, there would definitely be more people heading to the Dragon Devil Dead Land.

[Chapter 2822](#)

Chen Xiang used the fastest speed he could muster to get to the outskirts of the Dragon Devil Dead Land.

The last time he came here, the ground of the Dragon Devil Dead Land was covered in black soil and it was completely empty. In the depths of the Dragon Devil Dead Land, there were many broken gigantic mountains and huge rocks exploding everywhere.

However, now that they were here, it was a sea of people below them. Many people were digging randomly, and there were many big pits, and many huge rocks were being broken ...

"I wonder if the Heavenly Alchemy seal is powerful." Chen Xiang increased his speed and headed inside, but he did not know how to find it.

The reason the Flying Dragon Palace could find the Heavenly Alchemy artifact in such a short period of time was obviously not because they were lucky. They definitely had some way to sense the existence of the Heavenly Alchemy artifact.

Many people only dared to 'randomly' dig outside, but they did not dare to go inside. Heavenly Alchemy artifact were found inside, and only those with the Supreme Lord's cultivation level dared to go inside to investigate.

"Chen Xiang, what's the situation outside? What code did the Leaders of the Original Tao have to say? " Master Wang did not know what was happening outside, he was very concerned about it and asked anxiously.

"I'm already inside the Dragon Devil Dead Land!" Chen Xiang said, his words caused Master Wang to be unable to say anything, maybe Master Wang wanted to say some dirty words, but he was unable to do so due to his self-control.

"Elder Wang, you don't have to worry. The Leaders of the Original Tao's Gate allow disciples to enter. Some of the overlords have already brought their disciples on their way and are waiting for the final news. Then, they will enter this place to investigate." Chen Xiang said: "Not long ago, a person from the Flying Dragon Palace obtained a Heavenly Alchemy seal from the Dragon Devil Dead Land.

The Master Wang didn't say anything. After thinking about it carefully, he said, "Anyway, there are dangers inside the Dragon Devil Dead Land. You must be careful."

"I know!" Chen Xiang laughed: "You and I are together, if I die, I will be very irresponsible towards you."

"It's good that you know that. I thought you forgot." Master Wang laughed bitterly: "Right, do you know which guy in Flying Dragon Palace got the Heavenly Alchemy seal?"

"I don't know!" Chen Xiang really wanted to know who it was, but he didn't know: "I just heard that this person rode a dragon bat in there!"

"The guy riding the dragon bat?" Master Wang shouted, "It's actually this guy, many people don't know him, but I do know, I know this guy!"

"What?" Do you know him? " Chen Xiang never thought that the Master Wang would actually know a Ranker in the Flying Dragon Palace.

"Yes, no one knows his name, but he has a nickname called Bat Super Venerable. His strength is unfathomable, and the dragon bat he's raising is also a special beast among the Dragon beast. It's extremely powerful, able to fight against one of the Grand Elder alone." Master Wang said, "Back then, because I refined a type of pill, he needed the blood of dragon bats. When I found this guy, he agreed to give me some dragon bat blood and had me prepare five billion Dao crystal for him!"

"At that time, I had prepared a Dao crystal, but this guy didn't know his words well, so he still cheated and raised the price temporarily. He wanted me to pay seven billion Dao crystal before he was willing to give me a jar of dragon bat blood."

"And then?" Chen Xiang asked anxiously.

"I didn't agree later on, and then he stole my Dao crystal, and I was even beaten up by him! It was also because the Leaders of the Original Taoists had appeared afterwards that they helped me get back the five billion Dao crystal." Master Wang sighed helplessly. "This is the most humiliating part of my past. I rarely bring it up to others and he himself didn't even spread it!"

"Elder Wang, how much do you know about this fellow?" Chen Xiang asked.

"He is the target of the Heavenly Alchemy Divine Sect's pursuit, because he once snatched away the Prime Emperor of a Heavenly Alchemy Divine Sect, and his Heavenly Alchemy artifact! Initially, Flying Dragon Palace was also worried that Heavenly Alchemy Divine Sect would take revenge on him, so he kicked him out of Flying Dragon Palace, but after a period of time, he returned back to Flying Dragon Palace."

The Master Wang continued, "I heard that the Flying Dragon Palace valued the Bat Super Venerable very highly, that's why I paid a huge price later on to make the Heavenly Alchemy Divine Sect let go of this enmity!"

Chen Xiang's eyes lit up, and said: "For Bat Super Venerable to be able to find a set of Heavenly Alchemy artifact in such a short period of time, it means that he wasn't blindly looking for it! You said earlier that he had a Heavenly Alchemy artifact, right?"

"Yes, that's a big fork. It's called the Heavenly Refining Divine Trident! Initially, this Bat Super Venerable arrogantly said that this weapon was most suitable for him to use, so it was his, and then he snatched it away." Master Wang said: "This guy is just like that. I was robbed by him before, but fortunately he only simply beat me up a few times."

"It sounds like this guy is a bastard!" Chen Xiang couldn't help but laugh. Right now, I'll also try to see if I can detect the location of the Heavenly Alchemy artifact.

Chen Xiang's own body was equivalent to a Heavenly Alchemy artifact. He slightly released a bit of the Heavenly Alchemy immortal power, and after a short while, a reaction occurred. Even though the distance between them was far, he could clearly feel it.

After sensing something, Chen Xiang excitedly flew over with his fastest speed!

In the depths of Dragon Devil Dead Land, there was a patch of greyness and confusion, just like before a storm.

An hour later, Chen Xiang was getting closer and closer to a Heavenly Alchemy artifact, but when he neared it, he discovered that there was a gigantic black shadow in front of him.

He took a closer look and realized that the shadow had wings. It was fat and fluttering its wings as it hovered in the air.

"Dragon Bat!" Chen Xiang was startled, he never thought that he would actually meet Flying Dragon Palace, and see that black colored bat.

It was really big, like a big house. It was pitch-black in color, and its fur was soft and fluffy. It looked like a lizard and had a pair of huge black wings.

This dragon bat was currently spitting out a black coloured flame towards a small mountain below.

When Chen Xiang got closer, he also tried his best to conceal himself. Dragon bats and Bat Super Venerable were both very strong, and not something he could deal with.

"What's going on? Why did we meet this guy?" Chen Xiang observed carefully as he saw Bat Super Venerable.

The Bat Super Venerable was dressed in a black robe and sitting on the back of a Dragon Bat. He wore a funny mask on his face and his appearance could not be seen.

"Who's sneaking around?" Bat Super Venerable suddenly spoke. It sounded like a child's voice.

"Don't think that I don't know that you are nearby. I can sense you. If you don't come out now, don't blame me for being ruthless." Bat Super Venerable shouted using the child's voice again.

Chen Xiang did not dare to appear. Bat Super Venerable was so powerful, if he appeared, he might be killed immediately, even though the other party's voice sounded like a child's.

[Chapter 2823](#)

Chen Xiang thought that the Bat Super Venerable only knew what was around there, but he did not know the exact location, so he was not really worried about getting hurt by them, so he continued to stay silent.

The Bat Super Venerable did indeed know that something was nearby. This was something that the dragon bat he rode had told him, so he was unable to sense where Chen Xiang was.

Chen Xiang hovered in the air. Seeing the dragon bat turning around and flying towards him, he was suddenly shocked, and then quickly floated upwards, letting himself be in the air, and then teleported to the other side.

As he teleported behind the giant dragon-bat, the dragon-bat immediately turned to him, and now he was sure that the bat knew where he was.

"Ah Fu, hurry up!" Bat Super Venerable bellowed, following that, the gigantic dragon bat started to increase its speed, but it was still not fast, and was much slower than a human flying speed.

Chen Xiang released three clones from three different directions and then the dragon bat stopped!

"Hehe, this guy is really easy to deal with!" Chen Xiang snickered in his heart, then used his Dao heart Eye to look at the small mountain below. That small mountain was burned by the flames spat by the dragon bat just now, there should be something inside.

"Could it be that there is a Heavenly Alchemy artifact inside?" Chen Xiang did not dare to release the Heavenly Alchemy immortal power to sense, otherwise the Bat Super Venerable would sense him.

"Ah Fu, continue burning that small mountain. Don't bother with that person. He definitely doesn't have any strength. Otherwise, he wouldn't dare to show himself." Bat Super Venerable let out a childish snort, and then, the huge dragon bat slowly flew back.

Chen Xiang didn't dare to get too close to the hill. The Bat Super Venerable and the powerful Dragon Bat were right on top of the hill.

"Elder Wang, what kind of fellow is Bat Super Venerable exactly? I met him, he doesn't look that bad! " Chen Xiang asked. Bat Super Venerable's voice was like that of a child's.

"This guy is a child... You met him? Do not ever come into conflict with him, as long as you do not have any connections with him, nothing should happen to you! " Master Wang's words made Chen Xiang speechless.

A strong and powerful Supreme Lord was actually a child! Of course, this Bat Super Venerable was definitely not young, and it was definitely because of some reason.

Master Wang told Chen Xiang not to get too close to Bat Super Venerable, but Chen Xiang chose not to do as Master Wang told him. Previously, Master Wang told Chen Xiang not to enter this Dragon Devil Dead Land, but Chen Xiang still went in ...

"Bat Super Venerable, are you looking for a Heavenly Alchemy artifact? There are Heavenly Alchemy artifact beneath this mountain? " Chen Xiang transmitted to the Bat Super Venerable.

"That's right, who exactly are you? "You're sneaking around, hurry up and come out!" Bat Super Venerable heard Chen Xiang's sound transmission and immediately said that. He knew that there was someone in the vicinity, but he did not know who it was.

"You're right. My strength is inferior to yours, so I don't dare to show myself. I'm just a weak fellow!" Chen Xiang replied: "I'm worried that you will kill me once I discover my monk."

"Humph, my Bat Super Venerable isn't a person who kills innocents." Bat Super Venerable scoffed, "Hurry up and show yourself. You can see me and I can't see you. This is very unfair!"

Chen Xiang secretly laughed, this Bat Super Venerable was indeed a little childish.

"You're wearing a mask, so I can't see you either. We should be even now." Chen Xiang said.

"No, you can't see Ah Fu, you can see where I am, you can see my body, but I don't know where you are, I can't even see your hair." Bat Super Venerable seemed to be very anxious and was even a little angry.

"What does it matter? I can't beat you, I can't kill you, I'm not a threat to you! I just want to see what kind of Heavenly Alchemy artifact you can dig out, I'm very curious! " Just as Chen Xiang finished speaking, the dragon bat stopped its flames to burn that mountain.

"I'm not digging anymore, that way you won't be able to see the Heavenly Alchemy artifact. You'll die from anxiety." The Bat Super Venerable said with her somewhat proud and tender voice.

"Alright then, goodbye!" Chen Xiang said, and then did not speak anymore.

Bat Super Venerable waited for a while, then scratched his head and yelled: "Just who are you, with your weak strength, but with such methods, even my Ah Fu is not able to pinpoint your location."

Chen Xiang still did not speak. He wanted to make this Bat Super Venerable go crazy because this Bat Super Venerable was extremely curious about him.

A little while later, Bat Super Venerable said: "You also have a Heavenly Alchemy artifact, I sensed it ... You are also here to look for the Heavenly Alchemy artifact right ... Haha, this Heavenly Alchemy artifact is mine now, don't think of getting it! "

My Heavenly Alchemy artifact is very powerful, so I do not wish to obtain it. Furthermore, you are so powerful, I cannot defeat you, so I do not hope to obtain it myself, I just want to see what this Heavenly Alchemy artifact is. Chen Xiang laughed: "Don't worry, I have plenty of time, but you ... " If the people from the Heavenly Alchemy Divine Sect were to come in, they might be able to find this place. "

"You're lying. I have two Heavenly Alchemy artifact s in my hands right now, and none of them are stronger than you. Even though your Heavenly Alchemy artifact has Heavenly Alchemy immortal power, it's very weak. The two Heavenly Alchemy artifact s in my hands, both of them are very strong." The Bat Super Venerable said.

"Just because the Heavenly Alchemy immortal power is weak doesn't mean that the Heavenly Alchemy artifact is weak." Chen Xiang retorted.

"How about we compete? If we can win against the Heavenly Alchemy artifact in my hands, I'll give it to you." Bat Super Venerable replied: "Don't worry, I won't hit you. I'm not that kind of person."

"But I heard you did a lot of bad things. I don't really trust you." Chen Xiang said.

"Have you ever heard of me killing someone? Surely not! Although what I have done is a bit disgraceful, at least I have not taken the lives of others. I am much stronger than some people. " The Bat Super Venerable said.

Chen Xiang immediately asked the Master Wang about it. The Master Wang thought for a moment, then told Chen Xiang that although the Bat Super Venerable was lacking, but in the Flying Dragon Palace, he was considered kind. He had never heard of him killing anyone.

"Competing with the Heavenly Alchemy artifact is not fair! This is because the strength of a Heavenly Alchemy artifact has a lot to do with its user. " Chen Xiang said: "How about this, we'll use their respective Heavenly Alchemy artifact, and see who can unleash their full strength."

"Not good, you said it earlier, this is related to the strength of the user. I am so strong, so when using the Heavenly Alchemy artifact, I can definitely unleash a stronger power." The Bat Super Venerable said, "I have also taken advantage of you."

Chen Xiang felt that this Bat Super Venerable was a little interesting. After pondering for a while, he revealed his true appearance.

"The Heavenly Alchemy seal in your hands are very suitable for me to use, because I also have a Divine Equipment that is somewhat similar to this one." Chen Xiang said as he took out the Emperor seal.

Chapter 2824 - Divine Might Divine Seal

As expected, the Bat Super Venerable did not attack Chen Xiang. He looked at the Emperor seal in Chen Xiang's hands and shook her head: "This thing of yours is not a Heavenly Alchemy artifact, it doesn't have any Heavenly Alchemy immortal power.

Chen Xiang's body was like a Heavenly Alchemy artifact, but he did not plan to tell Bat Super Venerable yet.

"This is not a Heavenly Alchemy artifact. I just feel that if we fuse with a Heavenly Alchemy seal, it will become stronger. How do you use that Heavenly Alchemy seal?" Chen Xiang asked.

"By infusing Dao power, the Heavenly Alchemy seal would be able to wield a very strong Heavenly Alchemy immortal power and produce an even stronger power of Heaven Refinement and Destruction!" Bat Super Venerable said: "I admit, I am indeed unable to fully display the Heavenly Alchemy seal's greatest power, this is indeed not suitable for me, if it is truly suitable for you to use, I can consider giving it to you."

Chen Xiang remembered that Master Wang had said that it was because he felt that the Heavenly Alchemy artifact in that person's hands were suitable for him to use.

"Alright, then how do you confirm that I am suitable to use this Heavenly Alchemy seal?" Chen Xiang asked.

New book's recommendation: Humans Cultivate Immortal Realm flying sword to ask the Futian Emperor the Three Inches Earth Dragon King Legend of the Dragon King. Legend has it that the Mad Waves Holy Ruins Sword came to Mu Shen to remember the life of the great king of Hanxiang. The plot of "The Primordial Era's Pill God" was striking, captivating, and it was an urban novel with an excellent plot and writing style.

[Chapter 2825](#)

The parents of Bat Super Venerable were both high ranking members of the Flying Dragon Palace, but they died mysteriously later on. The Bat Super Venerable was talented and intelligent, his talent was extremely high, he had been too respected since a long time ago, and right now, he was still in the late stage of the Supreme Lord Realm. He stayed in the Flying Dragon Palace, all so that he could find out the truth behind his parents' deaths.

Because he felt that his parents found the higher ups of the Flying Dragon Palace to kill him, he did not have any sense of belonging to the Flying Dragon Palace and had often caused trouble for the Flying Dragon Palace. But because of his powerful strength and his powerful dragon bat, the people inside the hall did not dare to say anything.

The only reason why Bat Super Venerable had such an appearance was because of the strange technique he was cultivating. He did not say what kind of cultivation technique he was training in, but only said that this cultivation technique would make him grow up to be like this his entire life.

"You are also very mysterious. What kind of method did you use to take away the Heavenly Refining Upanishads?" Bat Super Venerable was very curious about this matter.

"This is my secret, I can't tell you. Otherwise, others will be on their guard." Chen Xiang laughed.

"So you're saying that the Golden Pagoda Lingzhi was stolen by you as well?" The Bat Super Venerable said.

Chen Xiang nodded.

"Heh heh, they really are the same kind of people." Bat Super Venerable started laughing, this was the first time Chen Xiang saw him smile, his smile was extremely sinister and cunning.

"My methods are much gentler than yours, you seem to be using all kinds of methods to snatch it, right? And they're even hitting people!" Chen Xiang said: "Super Origin Dan Hall's Master Wang was beaten by you."

"That guy asked for it after getting beaten up. He actually wants my A'Fu's blood. I'm not giving it to him!" At first, I only promised him that I would play with him, but in the end, I beat him up, but I gave him back his Dao crystal. " Bat Super Venerable replied, "I was just teaching him a lesson."

Chen Xiang would never tell Master Wang that the brat who beat him was actually above the six divine mirrors. Master Wang also didn't know, because the interior of the six divine mirrors had already been sealed by Chen Xiang.

"Since the Flying Dragon Palace is so well-informed, then do you know why the seal on this place has suddenly disappeared?" Chen Xiang kept having the feeling that nothing good could happen to the Dragon King's land.

"It was broken through by the blood of a wyvern. As for why, I'm not too sure either. Anyway, it's relatively safe here right now. It will be hard to say later!" Speaking of that, Bat Super Venerable's expression became serious: "The Dragon God's Land of Death will be sealed by a barrier, which means that there must be something very powerful inside. My Ah Fu can also sense it, but that thing still hasn't woken up yet."

"What could it be? The legendary Dragon Demons?" Chen Xiang started to worry, one had to know that the Bat Super Venerable was a Late period of Tai Zun realm, and the Leader of the Original Tao Sect was also this kind of cultivation.

The Late period of Tai Zun realm was one of the few strong practitioners amongst the thousand floors, and the Bat Super Venerable was one of them.

"What's that on that side?" Chen Xiang suddenly shouted.

Bat Super Venerable also saw it. In the distance, there was a huge blood pillar of light. If one looked carefully, they would see many black figures flying around.

"Hurry up and take a look!" Although Bat Super Venerable was a little worried, he was even more curious, so he wasn't afraid.

The reason why he could see the pillar of light from afar was because the pillar of light was simply too big. When he got near, he could only see a black curtain of light in front of him, unable to see just how big the pillar of light was.

In front of this blood-red pillar of light, they were nothing more than ants!

"Those inside are all Dragon Demons!" The Bat Super Venerable suddenly shouted, "Leave this place quickly!"

Just as he said that, the group of black shadows suddenly flew out from the light pillar. Upon closer inspection, they were humanoid figures.

The Dragon Demon had the appearance of a huge human, covered in black scales, hands and feet with black dragon claws, and a black dragon head.

Although this group of flying Dragon Demons looked the same, there was still one thing different about them, and that was their horns.

Some of the Dragon Demons had a pair of black antlers, while others had a pair of sharp horns.

There were a few smaller Dragon Demons, and some with smaller horns as well. They should be weaker in size.

Seeing the Demonic Dragons flying over, Chen Xiang anxiously used the six divine mirrors to distance himself from the place. The Demonic Dragons did not chase after them, they only scared them away, and then returned to the huge blood light pillar.

The blood-colored pillar of light seemed to have sprung up from the ground, containing some kind of power that could give birth to a powerful Dragon Demon.

"I never thought that there would be so many Dragon Demons inside. I just don't know when they will make a move!" Chen Xiang now understood the fear of the Heavenly Refining Divine Sects Great Clan Elder.

In that massive blood-colored pillar of light, there were a lot of Dragon Demons, and all of them looked very powerful.

"I have no idea. In short, these Dragon Demons are very brutal. Let's go back!" Bat Super Venerable did not want to continue staying here. Although he was strong, he knew that there were terrifying existences within the Dragon Demons.

Chen Xiang activated the six divine mirrors and flew out of the Dragon Demon's Lair. However, after half an hour, Chen Xiang suddenly felt a strong killing intent coming from his back.

"The Dragon Demon is out!" Bat Super Venerable shouted in shock.

Chen Xiang immediately increased his speed, the ruthless Qi wasn't released by just one Dragon Demon, but countless Dragon Demons.

"Did we lure it out?" Chen Xiang asked anxiously, he had already used his spatial energy.

"I don't think so. We just happened to make it in time, in short, those who entered the Demonic Dragon's land of death, if they weren't strong enough, most of them would have died." Bat Super Venerable said, "Fly upwards and hide!"

Chen Xiang flew into the air and then used the Counter Power to hide himself. The Draconic Demons below him were like a swarm of locusts filling the sky.

"Look at their bodies. They are all wrapped in a faint red light, and it is these red lights that make them fly extremely fast. They should be trying to fly to all parts of the Dragon Demon's Death Ground in one go." The Bat Super Venerable said.

Chen Xiang looked at the location of the blood light pillar: "Look over there, the light pillar is getting smaller and smaller!"

"Not bad indeed!" The Bat Super Venerable said, "This Flying Dragon Tower is really scary. It can't believe there are so many of these things hidden."

Chen Xiang activated the six divine mirrors, flying towards the direction of the light pillar: "Let's go take a look, the light pillar is no longer there, we should be able to see something clearly."

Bat Super Venerable also nodded in agreement. Because they had already hidden themselves, it should be safer.

[Chapter 2826](#)

When the Six Realms mirrors flew to the place where the light pillar had appeared, Chen Xiang and the Bat Super Venerable above all saw a gigantic Sky Cavern. It was so deep that they couldn't see the bottom, a black mist came out from it, the evil aura continuously spreading out, and from time to time, a cold wind would blow.

"What's down there?" Chen Xiang asked the Six Realms mirrors to come to the top of the deep pit.

"I don't know, there definitely won't be any good stuff!" What is certain is that this is definitely the lair of the Dragon Demons. A large number of Dragon Demons came from this place. " Bat Super Venerable shook his head. Even though he was at the late stage of the Supreme Realm, he didn't have the guts to go down.

"It's done, let's go back!" Chen Xiang said: "It's very strange down there, it should be very dangerous!"

"En, hurry up and leave this place." Although the Bat Super Venerable was curious, he didn't dare take the risk and urged Chen Xiang to leave the deep pit as soon as possible.

Chen Xiang activated his Six Realms mirrors, and the moment he started flying, the Bat Super Venerable started shrieking.

Chen Xiang also felt it, the suction force was extremely strong, to the point that his Six Realms mirrors could not move at all under the rapid pace of flying, and was even being pulled backwards a little.

Roar!

The gigantic and unfathomable Sky Cavern suddenly released a wild roar, shaking Chen Xiang and the Bat Super Venerable's Qi and blood all over the place, almost fainting, and the suction force was getting stronger and stronger!

"What a terrifying thing!" Chen Xiang immediately used the power of space to incite the White Tiger to jump, and in the blink of an eye, it had already teleported far away from the deep pit.

Chen Xiang had teleported once. Even though he had already left the deep pit, they still felt that they were in an extremely dangerous situation!

In the depths of the pit, there was clearly a very terrifying Dragon Demon. At this time, the Dragon Demon roared once again, and the sky ditch once again spat out a blood-colored pillar of light.

The blood-colored beam of light was exactly the same as before, shooting up into the sky!

"Look at the blood-red light pillar!" Bat Super Venerable shouted, "Coming!"

There were many dense black shadows inside the blood-colored pillar of light. Those black shadows were all Dragon Demons of various sizes. The blood-colored pillar of light suddenly exploded, and the Dragon Demon inside the pillar of light came crashing over like a churning wave.

"What exactly is down there? It can spit out so many Dragon Demons in one go! " Chen Xiang frowned, he activated the Six Realms mirrors and flew quickly, although they were already invisible, the powerful Dragon Demon at the bottom of the pit was still able to sense their existence.

Chen Xiang had originally planned to fly high in the sky and see if he could avoid the raging tides of the Dragon Demons, but after he flew high in the sky, the Dragon Demons had also flown up with him.

"Looks like there's something guiding this group of dragon demons!" Bat Super Venerable said as he took out his Heavenly Refining Divine Trident. This divine trident was very long and golden, it radiated with golden lightning bolts. He held the divine trident in both hands and swept it backwards.

Golden lightning surged forth like waves. The massive golden lightning waves didn't pale in comparison to the Dragon Tide.

The golden lightning quickly clashed with the violent waves of Draconic Dragons!

At the moment of impact, the miserable cries of the Dragon Demons came out sinisterly and sharply, enveloping the world, causing people to feel a chill run through their bodies after hearing it. And the lightning waves released by the Dragon Demons that touched the Bat Super Venerable were immediately chopped into pieces by the lightning waves, and the remnant ripples even created a berserk lightning hurricane that forced a large group of Dragon Demons to retreat.

"Hurry up!" Bat Super Venerable shouted.

Chen Xiang had already channeled his spatial energy and continuously used spatial teleportation. Just as he had teleportation for a moment, he felt a spatial collapse behind him, which made him extremely terrified!

Only an absolutely powerful force could cause space to collapse. This was obviously the move of the super dragon devil below the Sky Cavern!

"What just happened?" Why is that feeling so terrifying! " Bat Super Venerable was also frightened to the point that he broke out in a cold sweat. His reaction to space was not as deep as Chen Xiang's, but he still felt such fear.

"That big guy attacked just now. If we were a bit slower, we would have died already." Chen Xiang was also drenched in cold sweat, but his forehead was still perspiring profusely.

At this moment, Bat Super Venerable knew that Chen Xiang had an ability that could travel very far in an instant, which was why they were able to escape the attack range of the super dragon demon in a short period of time.

"Looks like we have to keep running. That guy is too scary. The farther away we have to get, the better." Chen Xiang said, then he continuously teleported, and after half a day, they had already left Dragon Devil Dead Land.

"Weren't there still a wave of Dragon Demons before this? Why are there no attacks on the outside of Dragon Devil Dead Land? "

When Bat Super Venerable saw that they were far away from the Dragon Devil Dead Land, he felt a lot more at ease. He put on his mask now and said, "I'm going back to the Flying Dragon Palace, the old fellow inside the Flying Dragon Palace should know something about this."

"Mn, I also want to return to the Yuan Shi Tao School. Right now, all of the large sects are probably discussing this matter." Chen Xiang said.

"Oh right, help me pass this Heavenly artifact to Heavenly Alchemy Divine Sect. Tell them, I will not return the Heavenly Refining Divine Trident, but I am willing to use this Heavenly Alchemy artifact to compensate them." Bat Super Venerable gave the heaven refined fan he got earlier to Chen Xiang.

Chen Xiang received it, and laughed: "You trust me this much?"

"Does that even need to be said?" Bat Super Venerable snickered, "See you later!"

After Bat Super Venerable left, Chen Xiang immediately returned to the Yuan Shi Tao School. He was very curious about where the group of Dragon Demons that came out of the Dragon Devil Dead Land had gone to.

"I wonder how the others are doing now!" Chen Xiang saw that a lot of people were rushing over, and the Dragon Devil Dead Land was becoming more and more dangerous. It was not bad that there were Heavenly Alchemy artifact inside, but at the same time that they were looking for Heavenly Alchemy artifact, they would definitely meet those Dragon Demons.

On the way back, Chen Xiang saw that many people were headed towards the Dragon Devil Dead Land. He also asked a few people along the way, but they had never seen any Dragon Demons!

"Strange, that Bat Super Venerable and I clearly saw many Dragon Demons running out!" Chen Xiang confirmed that she was not mistaken at the time.

Those Dragon Demons were like the raging waves in the vast sea. He remembered them clearly. Coupled with their imposing auras, they were definitely not illusions!

"I have to figure out where these Dragon Demons are going!" Chen Xiang kept feeling that this was a huge hidden danger.

After returning to the Yuan Shi Tao School, Chen Xiang went to walk around Lin Jitian, but Lin Jitian was still in closed door cultivation. He went to look for a few Supreme Elders, but these elders had all left with their disciples!

"I can only ask Leader." Chen Xiang came to the place where the Leader was undergoing closed door cultivation. It was a cave.

[Chapter 2827](#)

Chen Xiang waited outside the cave. Although the Leader s outside were in closed-door training, they did not come out for a long time. Every once in a while, he would come out to see if there was anything important.

Chen Xiang's luck was good. After waiting for only a day, Leader came out from inside, he was actually an elegant youth with a delicate face and dressed in green clothes. This was actually the first time Chen Xiang had seen a Leader.

"Disciple Chen Xiang greets Leader." Chen Xiang immediately bowed.

"Chen Xiang?" After the Leader heard this, he smiled and asked, "What business do you have with me?"

It was obvious that the Leader knew about Chen Xiang's situation.

"It's about that Dragon Devil Dead Land. I just came back from there! I understand you said there wouldn't be any danger in it. But I met something strange in there. " Chen Xiang hurriedly told the Primordial Leader about him encountering a Dragon Demon.

When the Primordial Leader was listening, his face was solemn. After hearing it, he asked, "Why is it like this? The six Divine Sects told me that there weren't any big dangers inside ... But from what you said, there is danger. "

"I'll go ask the people from the six Divine Sects s. Wait for me here, I'll be back soon." The Leader returned to his cave in the mountain.

Chen Xiang guessed that there must be something to contact the six Divine Sects s, such as a communication array.

Not long after, the Leader came out. He frowned and said, "Something bad has happened! This time, we are going to be hurt badly by the six Divine Sects s, so we have to hurry to the Dragon Devil Dead Land and call back all of our Supreme Elders, otherwise they will be in danger. "

"Leader, what's going on with those Dragon Demons? I clearly saw them running out, but I didn't see a single one." Chen Xiang asked, both he and the Bat Super Venerable were extremely confused by this.

"The current Dragon Demon has evolved ... This was something that the six Divine Sects s had just discovered not long ago. After these Dragon Demons came out, they all transformed into human forms and hid themselves, and maybe they would come out once in awhile, and when the time was right, they would gather together to commit evil. "

Chen Xiang had previously seen those Dragon Demons before, and those Dragon Demons that looked extremely ferocious were actually able to turn into humans. With so many Dragon Demons hidden in the human world, just thinking about them made her feel terrified.

"Then how do we know who the demons are?" Chen Xiang asked, he had never seen the Dragon Demon before using the Dao heart Eye, so he did not know the characteristics of the Dragon Demon.

"This is what we are most worried about right now. The Dragon Demons have the same ability as the Evil Soul ... Evil Soul, you should be aware of this! " The Leader said.

If the Evil Soul was able to take over the human body and soul, then Chen Xiang's two friends would be in trouble. He had even killed the Evil Soul before, so he naturally knew of the Evil Soul's tricks.

"Understood, does that mean we can only use the justice Law beads to distinguish?" Chen Xiang said as he took out a justice Law beads.

"That's right, the most important thing right now is to go to the Dragon Devil Dead Land and gather all our people. Dragon demons are much more terrifying than Evil Soul. Dragon demons can live in a human's body, so the original body of the Dragon Demon is still retained. "

The Leader took out a large bell and tossed it into the air. As the large bell shook, waves of golden light flashed and it made a "dang dang dang" sound.

"The body of a Dragon can be stored in a human body? This ... This is too scary! " Chen Xiang's heart was full of goosebumps whenever he thought about it.

"That's right. If the human body is damaged during battle, they will use their own body! If they were to be stored in the human body, it would be equivalent to having a layer of meat shield around them. "

After the threw out the big bell, many people started to come over, they were all from the Six Gods Stage and the Supreme Emperor.

Chen Xiang saw Yu Jingming and made a mistake. He was punished to ponder over the matter for more than a thousand years, but when there was an emergency, he could come out. For example, the current bell sound must have been released because of an extremely urgent situation.

The Primordial Leader had everyone head towards the vicinity of the Dragon Devil Dead Land to spread the news, informing our clan's disciples to return quickly, and also bring the righteous Law beads with them.

Chen Xiang did not go. He had more important things to do, which was to raise his strength.

The Bat Super Venerable was strong enough, at the latter stage of the Supreme Realm, but he was still scared and ran away inside the Dragon Devil Dead Land. His little strength was not even worth mentioning in the Dragon Devil Dead Land.

"I wonder if they will still be going to the Myriad Tao Mausoleum ... Could it be that every time the Myriad Tao Mausoleum opened, there were always this many things? " Chen Xiang returned to his living quarters. Right now, he did not go to Super Origin Dan Hall as there were too many things about that place.

However, it would be much better in the Original Tao Sect. At least, when many disciples saw that he was a Six Gods Stage, they would all be respectful to him.

The matter of the Dragon Devil Dead Land suddenly appearing when the Myriad Tao Mausoleum was about to open made Chen Xiang feel extremely helpless. He anxiously wanted to enter the Myriad Tao Mausoleum to take a look, but he did not dare go forward because of his own words, and he was also unfamiliar with it.

But if everyone were to go together, they would definitely want to settle the matters of the Dragon Devil Dead Land, because those that went there were all experts. If they were to leave, the Dragon Demons in the Dragon Devil Dead Land would definitely cause a ruckus.

"Could it be that the reason the Dragon Demon hid was to wait for this opportunity? The brains of these Dragon Demons are pretty good, they actually know how to scheme." Chen Xiang took out the Compendium of Medicinal Materials written by the Master Wang. He wanted to familiarize himself with the majority of the ingredients here and refine a pill that would be useful in raising the strength of the Six Gods Stage.

Chen Xiang read it for three days and memorized it all.

Although there were quite a few medicinal ingredients in the Master Wang, none of these ingredients were helpful for the advancement of the Six Gods Stage. This made Chen Xiang feel somewhat depressed.

"The last time you participated in the Heavenly Refining Conference, you should know where there were the most medicinal ingredients." The Master Wang laughed.

"Heavenly Alchemy Divine Sect should have a lot of rare medicinal ingredients ... But is it easy to get it?" Chen Xiang shook his head: "What's more, we don't even know where Heavenly Alchemy Divine Sect is."

"Didn't that bat spirit ask you to help him transfer a Heavenly Alchemy artifact to the Heavenly Alchemy Divine Sect? As long as you can find the people from the Heavenly Alchemy Divine Sect, it should be easy for you to do so. It would be best if you go to that village and search for them. Master Wang was quite clear about this kind of thing.

"Alright, I'll go take a look now." Chen Xiang immediately set off, heading to the small village where the Heavenly Refining Auction was held.

He did not need to worry about the Dragon Devil Dead Land, he only needed to pay attention to identifying the Dragon Demons. The matters of the Dragon Devil Dead Land will be dealt with by the Four Great Divine Sects, his strength is so weak, it will not help him at all.

After arriving at the small village, Chen Xiang saw that most of the people here were ordinary people, unlike the last time, when there were many strong warriors.

...

...

[Chapter 2828](#)

Chen Xiang wandered around the little village for a long time, before suddenly realizing that his righteous Law beads had lit up! This meant that there were either Dragon Demons or Evil Souls in this area. He immediately became vigilant, and then used the Dao heart Eye to observe his surroundings. The updates were quick.

He wanted to try and see if he could see through the Dragon Demon with his Dao heart Eye, but he didn't expect that after trying for a bit, he was able to see through it immediately!

Under the observation of the Dao heart Eye, the surface of the people walking around the village was enveloped by a layer of white mist, and although the Dragon Demon's outer appearance was also a layer of white mist, there was a ball of red light inside. Chen Xiang could easily see it with his Dao heart Eye.

The person the Dragon Demons were attaching themselves to was an old man, so Chen Xiang did not make any moves, he only followed this old man, and waited for a place with no people before making his move.

He planned to search through the memories of the dragon and find out what plans the dragon had.

However, while he was following the Dragon Demon, he suddenly discovered that there were quite a few people following the Dragon Demon. These people were all middle-aged, and had pure auras of fire on their bodies.

"Are these guys the Heavenly Alchemy Divine Sect's men?" Chen Xiang had met many people from the Heavenly Alchemy Divine Sect before, and all of them had this kind of aura.

"Looks like this is the case for Heavenly Alchemy Divine Sect. I'll follow them now and let them do it ..." When the time comes, I'll ask them if they can help me contact the higher ups of Heavenly Alchemy Divine Sect. " After Chen Xiang made up his mind, he had no plans to attack again.

The Great Clan Elder of the Heavenly Alchemy Divine Sect gave Chen Xiang a good impression, so Chen Xiang thought that the people of the Heavenly Alchemy Divine Sect should still be pretty good. Although that Kunyun had a rather extreme idea, he still couldn't represent a Heavenly Alchemy Divine Sect.

Inside the Heavenly Alchemy Divine Sect, the Great Clan Elder and the other old men were all relatively reliable when it came to seeing if the higher ups were reliable.

Chen Xiang very carefully followed the Dragon Demon, but those few middle-aged Heavenly Alchemy Divine Sect s did not notice Chen Xiang, so they could not make their move inside the village. Thus, they could only wait for the Dragon Demon to leave the village, or go to a place without people.

"I wonder how many of these things are inside!" Chen Xiang used the Dao heart Eye to observe his surroundings, but he only saw one Dragon Demon.

"This Dragon Demon shouldn't be too strong. If it's a powerful Dragon Demon, it would invade the body of an even stronger human, but right now, this Dragon Demon is only an old man with a Late period of Three profound realm." Chen Xiang thought so, and all the Evil Soul were the same.

At night, the Dragon Demon finally returned to his residence, it was a remote manor. Chen Xiang was currently floating in the air, watching the extremely vigilant Dragon Demon.

Just as the Dragon Demon entered the courtyard, the five middle aged men from Heavenly Alchemy Divine Sect suddenly flew out. At the same time, a huge golden net descended, enveloping the old man.

Then, he quickly withdrew the net and captured the Dragon Demon alive!

"They actually caught the Dragon and Demon alive? What are they trying to do?" Chen Xiang was very suspicious about this, and now he felt that he had appeared as well.

After the few middle-aged men withdrew their nets, Chen Xiang immediately appeared behind them. Sensing that something was wrong, they all took out their weapons one after another.

"Greetings, big brothers!" Chen Xiang immediately bowed: "This one is Chen Xiang, I noticed him on the streets today, and followed him all the way here. I didn't expect the other big brothers to also be like me."

Of course they had heard of Chen Xiang before. They had just obtained the Heavenly Alchemy Divine Sect's Heavenly Alchemy soul, it would be difficult even if they hadn't.

"How did you find this guy?" A middle-aged man asked.

"Pass this!" Chen Xiang took out a piece of righteous Law beads. "I will bring this with me ... Is this fellow a Dragon King or a Evil Soul? "

"You know about the Demonic Dragon?" The middle-aged man was somewhat surprised, because they had only just found out about this sort of thing.

"It was my Original Tao s who told me!" Chen Xiang laughed: "I wonder why my brothers want to capture this Dragon Demon alive?"

"These are the orders from the higher-ups, this is the tenth one we've caught." A middle-aged man sighed, "These Dragon Demons are very cunning. Moreover, there are a lot of them hiding in the crowd right now. I don't know what to do."

"Are you guys from the Heavenly Alchemy Divine Sect?" Chen Xiang asked.

"Yes sir!" The middle-aged man nodded.

"I have something important to see your Great Elder. Can you help me tell him?" Chen Xiang said again.

"No problem!" The middle-aged man knew that Chen Xiang's identity was special and immediately agreed. Since he was only passing the information to the Great Clan Elder, the Great Clan Elder seeing him or not had nothing to do with him.

Then, Chen Xiang said that if the Great Clan Elder of Heavenly Alchemy Divine Sect was willing to come, they would meet there.

... ..

Chen Xiang waited there for three days before finally seeing the Great Elder of the Heavenly Alchemy Divine Sect.

"I wanted to come earlier, but there's nothing I can do. I have been through too many things in this period of time ... are all related to the existence of Dragon Devil Dead Land s. " The Great Clan Elder of the Heavenly Alchemy Divine Sect saw Chen Xiang and smiled apologetically. His impression of Chen Xiang was also very good.

"Do you have something important to talk to me about?" The Great Elder asked.

Chen Xiang took out the Heavenly Refining Divine Fan and handed it over to the Great Clan Elder.

Of course the Great Clan Elder recognized this fan. When he saw it, he could not help but be startled, "You obtained this fan from the Dragon Devil Dead Land?"

As the Great Clan Elder of the Heavenly Alchemy Divine Sect, he was very clear who owned the fan, so he immediately thought of the fan that could only be found in the Dragon Devil Dead Land, and now that Chen Xiang wanted to give it to him, he was very surprised.

"I found it inside the Dragon Devil Dead Land, but it wasn't me who found it. It was the Bat Super Venerable ... He wants me to give this thing to your Heavenly Alchemy Divine Sect as compensation! "

Chen Xiang laughed helplessly: "He said that he wants the Heavenly Refining Divine Trident, and since it is very suitable for him to use, he will not return it."

The Great Clan Elder laughed, "It is already not bad that this kid has such intentions ... The Bat Super Venerable has a rather good personality, but it's just that there's a bit of a problem with his character. If he can be guided properly, he'll still be a pretty good guy."

The Great Clan Elder kept the fan away. He was already more familiar with the Bat Super Venerable, and the latter's strength was very strong as well. Just this point made him not dare to underestimate him.

"Grand Elder, I hope you can agree to another matter." Chen Xiang said: "I will definitely repay you."

"What is it?" The Great Clan Elder knew that the relationship between Chen Xiang and Bat Super Venerable was not bad. Otherwise, Bat Super Venerable would not have allowed him to transfer the Heavenly Alchemy artifact.

"Can I stay in Heavenly Alchemy Divine Sect for a while? "I need some ingredients to concoct pills. It's not easy to find them outside." Chen Xiang said.

"No problem, the Heavenly Alchemy Divine Sect has many disciples who can refine pills, at that time you can also 'interact' with them!" Of course, the medicinal ingredients that you need, can only be bought with Dao crystal s. " The Great Clan Elder immediately agreed. He felt that inviting Chen Xiang into the Heavenly Alchemy Divine Sect was a good thing.

"Oh right, Great Elder, why did you capture the Dragon Demons alive?" Chen Xiang asked again, this was a question that he was more curious about.

...

...

[Chapter 2829](#)

As the Great Clan Elder of the Heavenly Alchemy Divine Sect, he definitely had a lot of understanding about Dragon Demons. Dragon Demons were a big threat now, and Chen Xiang was very concerned about them, if he could get a clear understanding of Dragon Demons now, he could deal with them a little more easily in the future.

"This time, the dragon demon is different!" When Chen Xiang mentioned the Dragon Demon, the Great Clan Elder's expression became serious, and he was worried.

Chen Xiang was also aware of this point. The Dragon Demon has the same ability as the Evil Soul, which can take over a human's body and sneak into a human's body.

"Is it because the Dragon Demons and Evil Soul are very similar?" Chen Xiang said, "Where exactly did the Dragon Demons come from? There are a lot of them! "

When Chen Xiang and Bat Super Venerable entered the Dragon Devil Dead Land, they had witnessed how the Dragon Demons were born.

"You have entered the Dragon Devil Dead Land before, right? Did you go in with Bat Super Venerable? What did you see inside? " Great Clan Elder asked: "Let's go, I will bring you to Heavenly Alchemy Divine Sect and talk to me on the way. Up until now, none of us have entered the Dragon Devil Dead Land, so we know nothing about it."

It could be said that Chen Xiang and Bat Super Venerable were the two people who entered the deepest part of the Dragon Devil Dead Land after the Dragon Devil Dead Land's barrier disappeared.

"Alright!"

Chen Xiang boarded the flying disc that the Great Clan Elder used to talk about everything he saw in the Dragon Devil Dead Land in detail. The Great Clan Elder's face was filled with fear when he heard it.

"This is too scary. These Dragon Demons have already reached such a stage of growth. This time, we're in deep trouble!" Sigh, the Heavenly Alchemy Venerable Ancestor s of our Heavenly Alchemy Divine Sect died in vain back then. " The Great Elder shook his head and sighed, his face filled with frustration.

"What does that mean? "What on earth is so scary about that pit?" Chen Xiang asked, he knew that there was something powerful down there, but he did not know what it was.

"The Dragon Devil Emperor Venerable is down there! This guy actually did not die. Back then, the Four Great Divine Sects's Ancestor was this guy who was fighting, but I never expected him to not be completely killed, and now, he is actually alive again. " The Great Elder replied, "It's alright to be alive, but to evolve to such a terrifying state, the Dragon Demons that he condensed are as powerful as the Evil Soul. This time, we'll have trouble!"

"We only thought that the Dragon Demons that appeared now were the ones that weren't killed and sealed. We never thought that they were all new breeds bred by the Dragon Devil Emperor Venerable."

Dragon Devil Emperor Venerable!

Chen Xiang's heart skipped a beat. The person he had previously met with Bat Super Venerable was very likely to be the same person as his Dragon Devil Emperor Venerable, the guy who was surrounded and killed by the four powerful ancestors!

It could be said that he and Bat Super Venerable were truly lucky to be able to return alive!

Right now, the Great Clan Elder was looking at Chen Xiang with this kind of expression, as if saying, "You're really lucky"!

"Are they fast enough for Heavenly Alchemy Divine Sect? Great Clan Elder, do you have any revered ancestor level fellows in your Heavenly Alchemy Divine Sect? If we don't, then aren't we done for? " Chen Xiang said.

"Of course! After so many years had passed, the Four Great Divine Sects would always have a senior presiding over them, and there would be more than one of them! However, the current ancestor's strength could not compare to the Heavenly Alchemy Venerable Ancestor back then ... But with a lot of numbers, it should be enough to suppress that Dragon Devil Emperor Venerable! " The Great Clan Elder said, "In the first place, the Flying Dragon Pagoda was created by suppressing the Dragon Devil Emperor Venerable. The people who refined the Flying Dragon Pagoda thought that the Flying Dragon Pagoda could only suppress the Dragon Devil Emperor Venerable for a short period of time, which was why they left such a huge and vast amount of resources in the Flying Dragon Pagoda."

"In this way, it would attract a large number of humans, and with the limitless resources inside becoming more and more powerful, they would be able to suppress the Dragon Devil Emperor Venerable."

To think that the Flying Dragon Pagoda had such a goal, Chen Xiang did not expect it at all.

"The person who refined the Flying Dragon Pagoda is really powerful! But can he not kill Dragon Devil Emperor Venerable even though he was able to refine such a thing? " Chen Xiang was very curious about this.

"I don't know about that. In short, I found out about it from the Heavenly Alchemy Venerable Ancestor's mouth. As for who was the one that refined the Flying Dragon Pagoda, we don't even know ... However, I do know that the Flying Dragon Pagoda and the Flying Dragon Pagoda were created by the same person, and our Four Great Divine Sects participated in the construction. " The Great Clan Elder replied, "At that time, I was still a child and my elders were all involved in the construction. However, they kept a tight mouth and did not tell me much about the details.

Chen Xiang was very excited to hear such a secret message from the Great Clan Elder.

"The Four Great Divine Sects participated in the construction of the Myriad Tao Mausoleum, but they wanted to enter the Myriad Tao Mausoleum to look for treasures. This sounds rather strange." Chen Xiang laughed.

"It is indeed... The main reason is that the people who will be participating in the construction of the Myriad Tao Mausoleum will be the seniors in our current group, and most of them are already dead. The Great Elder sighed helplessly. "I don't know if this will harm or benefit the descendants. After all, many people have obtained many good things from it."

Every time the Myriad Tao Mausoleum opened it, many people would die inside, and only those with good luck and strength would be able to come out alive. It was said that as long as they could go in and survive successfully, their future life would be extremely comfortable.

Of course, this was only rumoured to be true, as Chen Xiang had seen a few people from the Myriad Tao Mausoleum who did not have a good life, such as Lin Jitian!

"Great Clan Elder, you have entered the Myriad Tao Mausoleum before, what kind of treasures did you get from there?" Chen Xiang was very curious.

"Heh heh, I've been in there three times already, and I've been able to come out alive every time! I've picked up a lot of Heavenly Alchemy rule Beads s, around a hundred of them. " The Great Elder said.

"What, it's so easy to pick up!" Chen Xiang found it hard to believe, the heaven refined rules were so precious, but this Great Clan Elder could pick up over a hundred of them.

In short, you think that those very precious Law beads are like stones in the Myriad Tao Mausoleum, and can easily come across them. Therefore, this is also the reason why many people would want to enter. " The Great Clan Elder laughed, "That depends on your luck. However, those who enter will be able to see some of them!" Actually, most of those who died in there died fighting over it. "

"Only the unlucky kind will trigger the mechanism inside, and then die a horrible death inside, or be trapped inside and devoured by the Evil Soul."

What Chen Xiang knew was that Lin Jitian had fought because of the fight, and it was mainly because of the strange six divine sticks that Lin Jitian had obtained.

While they were chatting, time unknowingly passed. The speed of the Frisbee was also very fast. They had already entered a desolate land filled with sand.

"Is Heavenly Alchemy Divine Sect in here?" Chen Xiang looked around, the atmosphere was lifeless and lifeless, moreover, it was extremely hot. Occasionally, a few poisonous creatures would crawl out from the desert.

[Chapter 2830](#)

"This is the most dangerous place within the thousand floors of Flying Dragon Pagoda. If you enter without even a bit of strength, you will most likely die! If we can pass this trial and reach the Heavenly Alchemy Divine Sect, after a round of observation, we can become the disciples of the Heavenly Alchemy Divine Sect. "Access:." The Great Elder said.

Not long after, Chen Xiang saw a large green area in front of him, within it was a beautiful lake, the surroundings of the lake was green, and some flowers were floating within the lake.

Many wooden buildings were constructed on the oasis, all of which were not very tall, but rather simple and looked very peaceful.

"This is a really good place!" Chen Xiang could not help but exclaim.

"Our Heavenly Alchemy Divine Sect is the lowest-profile within the Four Great Divine Sects, and the other three great Divine Sects are all extremely luxurious. If you have the chance in the future, you can go take a look." The Great Clan Elder said, "You are from the Original Tao, and with your ability, becoming a disciple of the six Divine Sects s is not a difficult matter. Even my Heavenly Alchemy Divine Sect wants to accept you as a disciple."

Chen Xiang and the Great Clan Elder were heading to Heavenly Alchemy Divine Sect together, so it was extremely safe and they did not encounter anything along the way.

The Grand Elder's Frisbee flew to the top of the oasis and landed on the small island in the middle of the oasis's large lake. There was only one house on this small island.

"This is my residence!" The Great Elder said, "You're my guest now. You can stay here from now on. Choose a better room to be satisfied with!"

"I don't care. It's so quiet here." Chen Xiang was very satisfied.

"Great Clan Elder, we need to buy the herbs here. I do not have that many Dao crystal s, do you have a place to earn them?" Chen Xiang asked.

"Of course, all of the pills here can be freely traded! If you want to earn Dao crystal here, don't keep a low profile anymore, you do not need to hide your strength here. Although there are some disciples in Heavenly Alchemy Divine Sect who are easily jealous, they do not dare to come recklessly. The Great Elder laughed. "I know that you still have some powerful methods up your sleeves."

"Great Clan Elder... Could it really be like this? I'm worried that it will have a huge impact on the Heavenly Alchemy Divine Sect later on. " Chen Xiang said: "Because if I want to earn Dao crystal, I would mainly sell it myself. I am worried that I would rob the business of your Heavenly Alchemy Divine Sect disciples!"

"This is a good thing!" The disciples of the Heavenly Alchemy Divine Sect were far too unambitious. They were content with the current situation and if they did not give them some pressure, they would think themselves to be high and mighty ... Especially those disciples who don't know how to refine pills. They always look down on those who don't know how to refine pills, so when they sell the pills, the price they offered was very good. "

"Over time, this group of alchemy disciples will form an alliance. With the high price of the pills, they will be able to squeeze out the Dao crystal of the other disciples ... Of course, although we have controlled them before, these brats have joined hands to resist us. They refused to refine pills for a few months to protest, and in the end they had no choice but to do so. "

Speaking of these things, the Head Elder was helpless, "If you can lower the price of the pill, I will thank you very much. When the time comes, those fellows will not be able to say anything!"

"Then I won't be polite!" Chen Xiang laughed: "The disciples of Heavenly Alchemy Divine Sect should all be very rich, I can very quickly fish up a large number of Dao crystal."

"Isn't your purpose here to buy rare medicinal ingredients?" You should have a method to hasten the growth of the medicine right? Generally speaking, you do not need to buy too much, but there are benefits to getting more Dao crystal. You will need more Dao crystal to enter the Myriad Tao Mausoleum! " The Great Elder said.

"Is this true? "Don't lie to me!" Chen Xiang already knew that the Great Clan Elder wanted him to fight against the group of disciples, maybe he could think of a reason to stay for a little longer.

"It's absolutely true. If you don't believe me, you can go and ask the other people that have entered the Myriad Tao Mausoleum! Sometimes, when encountering a formation that needs to be activated, a large number of Dao crystal s or mechanisms that require Dao crystal s to resolve. " The Great Clan Elder laughed: "Some people simply do not have enough Dao crystal with them, and thus miss the chance to

obtain treasures. At the very least, you will have to have several tens of billions of Dao crystal on you before you can take anything you see. "

"Sounds pretty fun! I really want to quickly enter Myriad Tao Mausoleum to take a look. " Chen Xiang was just joking, there were dangers inside the Myriad Tao Mausoleum, and now the Natural Law Divine Lord was trapped inside.

"Then you better stay here. I will tell the others that you are my guest! I have to find the other elders and the Leader to discuss about the Dragon Devil Dead Land. " Mentioning the Dragon Devil Dead Land, the Great Clan Elder's mood immediately grew heavy.

Chen Xiang nodded, then watched as the Great Clan Elder left. He took out a map that the Great Clan Elder gave him, and on it, introduced the layout of the Heavenly Alchemy Divine Sect on this green area.

"Right now, I should go to the Heavenly Alchemy Alchemy Street and take a look. Those people over there are all selling medicinal pills." Chen Xiang immediately flew up towards that street.

The reason why there were so many rare medicinal ingredients in the Heavenly Alchemy Divine Sect was because the elders of many disciples were able to enter the Myriad Tao Mausoleum and obtain many strange and strange medicinal ingredients from it before growing many more.

When Chen Xiang arrived at the Medicine Street, the shops there released a rich fragrance of flowers and herbs. Medicinal materials were expensive here too, but they were not as outrageous as the pills.

Chen Xiang came to a shop, and after he went in to ask around, the ingredients used were indeed relatively cheap, but the ingredients here had gone through a special process, making it impossible for them to grow seeds. Many ingredients used in this way were used, it was to avoid buying their own ingredients.

"These guys are really cunning. This way, even with the World God's Spring, I won't be able to grow them in large quantities. I can only duplicate them through the purple pearl, but the purple pearl needs a lot of them, especially the Supreme God Potion."

When Chen Xiang came, he did not think of this!

All of the medicinal ingredients possessed by the people who sold them were unique, passed down from their ancestors. In order to rely on the unique medicinal ingredients to earn Dao crystal s, they would use special methods to process the medicinal ingredients, not affecting the quality of the medicinal ingredients. At the same time, they would make it impossible for these medicinal ingredients to grow and reproduce.

This way, the medicinal herbs sold in the stores only repeated those that were common to them. Each store had their own special medicinal herbs, and the more expensive the ingredients, the more expensive they were.

"The price of medicinal ingredients has also caused the price of the pill to rise." Chen Xiang shopped in more than ten shops, and those medicinal materials that were unique to him were all very expensive.

In this way, the Taizun Dan that was refined using this kind of medicinal material was extremely valuable. One could only imagine, it would cost at least five thousand Myriad Tao Crystals each!

Only after Chen Xiang visited the pill shop, did he realize how naive he was. Here, the cheapest Taizun Dan was still worth a hundred million pills!

Of course, the price of Natural Law Dan s was much better, with tens of thousands of Myriad Tao Crystals like this, it was still acceptable! And there were even good Natural Law Dan s with tens of millions on them.

For example, the Converse Profound God Pellet that Kunyun refined last time was already beginning to sell. Five thousand Myriad Tao Crystals for one pellet, that was simply snatching.

There were many disciples in the Heavenly Alchemy Divine Sect and this place was similar to a city, so many people did not know about the presence of Chen Xiang.

"The last time I refined the Six Shenprofound Dan's medicine, there were still some, and they were not processed at all, haha" This kind of pill can definitely be sold. "

Chen Xiang was secretly rejoicing in his heart. The Six Shenprofound Dan s' medicine were in the hands of the Great Clan Elder, but the Great Clan Elder did not sell these pills to him. Instead, he regularly rewarded some outstanding Late period of Three profound realm disciples.
