

## Dan God 2841

### [Chapter 2841](#)

When Jiang Sijing's Earth Laws grew medicinal herbs, it displayed an astonishing effect. Back then, when Jiang Sijing was in the You Yao Mountain Villa, he had quickly helped Chen Xiang grow a large amount of medicinal herbs.

And now, it was not only Jiang Sijing, but also Jiang Simei. The two sisters had such high cultivation bases, if they were to grow them together, the speed would be even more terrifying.

"Great! I'm really lacking medicinal ingredients right now. I won't treat you unfairly when the time comes." Chen Xiang laughed.

"When did you mistreat us?" Jiang Simei smiled beautifully.

"Elder Brother Shen, let's go to You Yao Mountain Villa now. When we were at Heaven's Mandate Divine Sects, Grandmother also told us to cultivate the medicinal herbs for the Heaven's Mandate Divine Sects. However, the Heaven's Mandate Divine Sects's Alchemist's attitude towards us was very bad, and they didn't intend on giving us any compensation. We couldn't be bothered to help them." Jiang Sijing said.

Chen Xiang allowed the two sisters to enter the You Yao Mountain Villa, then he gave the Taiji Yuanshen Dan seeds to them along with some other medicinal ingredients.

Other than this, Chen Xiang also asked them to help him grow the Six Shenprofound Dan's medicinal herbs. He felt that the Six Shenprofound Dan could still be sold for a period of time.

"Look, does this Dragon magic herb have a way to grow it?" Chen Xiang handed over those Dragon magic herb he bought over to the Mei Jing Sisters. They have the Earth Laws, so they might have some tricks up their sleeves.

These medicinal ingredients had all been treated and could not be grown. Chen Xiang always had many clever ideas, but this time, he had no other choice.

Jiang Sijing and Jiang Simei had already planted the seeds. Now, all they needed to do was to release the power of the Ancient Code at regular intervals to water them before they could quickly grow them. Their Ancient Code Power had fused very well with the Creation God Spring and the effect would be even better.

After they finished watering, they picked up the Dragon magic herb and carefully looked at it.

"The main reason why these strange flowers and herbs can reproduce is because there is a trace of regeneration energy inside, but now the regeneration energy has been removed from the Dragon magic herb, so no matter what method is used, it is difficult to cultivate these herbs." Jiang Simei came to a conclusion after looking through it.

"Just like sister said, the Qi of rebirth is the most important! If we were to allow the plant to grow new life force, then we can use it to grow new plants." Jiang Sijing laughed, "Others may be unable to do anything, but Big Sister and I can't!"

Chen Xiang was somewhat disappointed previously, but when he heard Jiang Sijing's words, he was overjoyed: "What method? There are many powerful pill masters in Heavenly Alchemy Divine Sect, but none of them can do anything! "

"It's the same for any plants. We only need to borrow the regenerative aura from other plants!" Jiang Simei said: "You are a pill refiner, you have come in contact with many medicinal ingredients and are very clear on them, you should know that the origin of the plants are the same!"

"That's right, countless flowers, plants, and trees are all born from the same source." Chen Xiang said, he even used this principle to create the Original source refining.

"Big sister and I can be considered to be born from the same origin, so even if big sister doesn't have the Earth Laws, because we share the same origin, through some secret techniques, she can have everything I have, and I can have everything about him." Jiang Sijing said: "Big sister and I will now grasp this kind of mysterious secret method, and we will need two lives to execute it."

Chen Xiang immediately understood that what the Mei Jing Sisters needed to do now was to use the mysterious telepathic power between the twins to let the Dragon magic herb sense the other strange flowers and herbs that possessed the regenerative aura. This way, the Dragon magic herb would be able to generate the regenerative energy from its new womb.

"Can this really work?" Chen Xiang felt that this was unbelievable.

"It will definitely be possible ... We've even tried to fuse the effects of the two Spirit Flowers together to create a new breed ... It can be considered a cross! " Jiang Sijing laughed, "After blending and crossing, the effect of the new breed will be even better."

"Then give it a try!" Chen Xiang was currently very excited: "I wonder if I can create a new Dragon magic herb."

"Of course we can, we'll try it now, but first we have to see what you have here." Jiang Simei said.

Chen Xiang's You Yao Mountain Villa had also planted many different kinds of strange flowers and herbs. Although there were many low level ones, they could still grow to high levels through evolution. He had borrowed a lot from the Master Wang to make copies.

"You have a lot of flowers and plants here!" We have to play. " The last time she was here, she did not see this much.

"We can play a lot of new varieties." Jiang Simei said. At the moment, they were extremely interested in this.

"Then you guys just have to slowly mess around and come up with even better medicinal ingredients. In addition, with my alchemy skills, there will be endless medicinal pills. It would be hard for us to not become stronger." Chen Xiang laughed.

"I want to become your Ancestor!" Jiang Simei said in an extremely domineering manner, "There will always be a few fellows in Heaven's Mandate Divine Sects who look down on me. When I become a senior, I will return and teach them a lesson."

It could be seen that the sisters had suffered greatly in the Heaven's Mandate Divine Sects. Only when they were with Chen Xiang would they feel happy, because on one hand, Chen Xiang could make them stronger. On the other hand, he was very concerned about them and was always thinking for them.

Chen Xiang had originally planned to refine pills, but now that he knew that the Mei Jing Sisters and the rest had that kind of consummate technique, he anxiously ran to the Pill Street to buy many rare and precious herbs. Although there was no rebirth Qi, but since the Mei Jing Sisters and the rest could solve this problem, he did not need to buy any seeds.

"While many people are still in Heavenly Alchemy Divine Sect, I will first refine and sell a few more Six Shenprofound Dan." When Chen Xiang returned to the small island, he took out the herbs and started to refine them. He felt that three hundred billion Dao crystal s was still not enough.

Right now he did not need Dao crystal to buy seeds, but he needed to enter the Myriad Tao Mausoleum. The Myriad Tao Divine Stele came from the Myriad Tao Mausoleum, and the speed at which the Dao crystal was being absorbed by the Myriad Tao Divine Stele was extremely crazy.

"I need at least a trillion Dao crystal!" Chen Xiang felt that even if he sold the Six Shenprofound Dan now, he wouldn't be able to get his hands on the trillion Dao crystal so easily.

Right now, the time to enter the Myriad Tao Mausoleum was getting closer and closer. He didn't know if he could succeed either.

After a few days, he refined yet another thousand Six Shenprofound Dan. This also took him a few days to sell them all, and it was much harder to sell than before.

He was already so hard to sell here, let alone Zhao Kunxin and the others.

However, Zhao Kunxin's Dragon Magic Dan was selling it well, because it had been consumed many times. After eating a Dragon Magic Dan, the medicinal power would only last for a short period of time.

"It's a success. Although this is not the original Dragon magic herb, it still has the effects of the Dragon magic herb." Jiang Simei said.

Chen Xiang hurriedly entered the You Yao Mountain Villa, and saw a golden grass in Jiang Simei's hands.

"What is the combination of a Dragon magic herb and this thing?" Chen Xiang asked.

## [Chapter 2842](#)

Jiang Simei and Jiang Sijing looked extremely exhausted. It could be seen that the consumption of energy for them to complete all of this was extremely large.

"You should all rest first!" Chen Xiang said.

"Don't worry about it. You'll be able to recover very soon. Your environment is so good, and you can recover very quickly." Jiang Simei said: "The grass in your hand is called Golden Dragon Magic herb! Sister and I made it using a combination of a Dragon magic herb and a type of Gold Yuan Divine Grass that can increase a Medicine aura. "

"The Gold Yuan Divine Grass and many other medicinal herbs can be perfectly combined, so it might not be able to create a repelling force. The biggest benefit is that this kind of medicinal herb can increase Medicine aura s by many times." Jiang Sijing added.

"This Dragon Magic Dan only needs a single Dragon magic herb to be refined. If the number of Medicine aura increases, it means that the number of Golden Dragon Magic herb that comes out will be even more."

Chen Xiang immediately understood why they combined the Dragon magic herb and the Gold Yuan Divine Grass in order to produce even more pills and not affect the effects of the Dragon magic herb.

"I can only try to refine more specific things to try." Chen Xiang was already able to refine Taizun Dan.

Taiji Yuanshen Dan were indeed Taizun Dan s. Although they were only of low quality, they required a lot of medicinal ingredients to refine, and Dragon Magic Dan only required one. Not to mention that the refining speed would be much faster, the refining process would also be very easy.

To Chen Xiang, refining a Dragon Magic Dan was not difficult at all!

Shen Yi had quickly refined one of these Golden Dragon Magic herb into a pill and ten of them came out. This number of pills being given out made Chen Xiang feel that it was unbelievable!

After all, this was only a single type of medicinal ingredient, being able to refine ten pellets just by entering. This made Chen Xiang unable to believe that this was a Dragon Magic Dan.

"I have to give it a try!" In order to try out this pill, Chen Xiang could only go to the Great Clan Elder to ask for a Dragon magic poison.

The Great Elder was also in the house at the moment, and the people from the other sects were all heading towards the Transmission array to investigate. As long as they could investigate thoroughly, they could immediately head out to deal with the Dragon Demons who were occupying the Transmission array.

Seeing the Great Clan Elder, Chen Xiang anxiously took out a Dragon Magic Dan.

"Grand Elder, can you tell what kind of pill this is?" Chen Xiang asked.

The Great Elder was also an alchemist and a Taizun Dan. When he took a look at it, he immediately concluded and said, "This is the Dragon Magic Dan, and it was even refined by you, right?"

The pills Chen Xiang refined all had a faint Heavenly Alchemy immortal power, so Great Elder could feel it.

"Yes, but. This kind of Dragon Magic Dan was created by adding other things, I just don't know if it has the original effects. " Chen Xiang rubbed his hands together and laughed: "Great Clan Elder, why don't you help me try!"

While the Great Clan Elder was a Late period of Tai Zun realm, if he succeeded in the test, then there would be no problem with the other cultivation.

"Alright!" The Great Clan Elder nodded with a smile. He was curious about the Dragon Magic Dan that was refined by Chen Xiang, because he could feel that there was something different about it.

The Great Clan Elder ate a Dragon magic poison and even ate a lot, going in as little as half a cup!

When Chen Xiang saw this, he started to worry. Last time, he only ate a small drop, but it was enough for him to forget what his surname was.

"This is all for the sake of being quick with the poison." The Great Elder chuckled. This kind of test was quite comical. In order to quickly know the results, he could only use a little more of the poison.

Very quickly, the Great Clan Elder was about to fall asleep, so he immediately ate Chen Xiang's Dragon Magic Dan.

After eating, the originally listless Great Elder immediately became spirited.

"Not bad, its effects are strong. It is actually much stronger than the Zhao Clan's Dragon Magic Dan." The Great Elder praised, "What exactly did you join?"

"I've added the Gold Yuan Divine Grass ..." Chen Xiang laughed, "I am planning to sell this kind of Dragon Magic Dan, will Zhao Clan kill me when the time comes?"

"They definitely want to kill you very much, but they don't dare. I support your selling, and the number of conflicts with the Dragon Demons will only increase. When the time comes, the demand for these Dragon Magic Dan will only grow." The Great Clan Elder said: "But you have to buy the Dragon magic herb from his Zhao Clan!"

Chen Xiang smiled mysteriously: "No need!"

The Great Elder was shocked and then laughed, "That's good. Everything is under my control. You can sell it without worry!"

Chen Xiang hurriedly returned to his room. At this time, Jiang Sijing and Jiang Simei had also recovered and started to plant Golden Dragon Magic herb. According to them, it was not that hard to cultivate these Golden Dragon Magic herb.

Right now, the people of Four Great Divine Sects had already set off, but this was only their first attack, testing the strength of the Dragon Demons, because the Dragon Demons this time were very unfamiliar to them, they needed to gather more information, and only after would they launch their main attack.

Although the Four Great Divine Sects was powerful, they were cautious when facing Dragon Demons. They never underestimated the Dragon Demons because their ancestors were all killed by the Dragon Devil Emperor Venerable.

Jiang Simei and Jiang Sijing had also brought out the required medicinal ingredients for the Taiji Yuanshen Dan. These medicinal ingredients had all been combined with the Gold Origin Divine Grass before, which meant that when Chen Xiang was refining the Taiji Yuanshen Dan, he had obtained even more Medicine aura s. If he had chosen to refine many pills, he would definitely be able to refine many of them.

If he only chose to refine a single pill, the quality would definitely be very high!

The increase in Medicine aura s by a lot meant that it would be even more difficult to refine pills.

Just like this, ten days had passed and the first batch of Golden Dragon Magic herb had matured. These were low quality divine medicines, but they grew like cabbages in the hands of Jiang Simei and Jiang Sijing.

"There are a total of one hundred Golden Dragon Magic herb s. A pot of ten would make a thousand." Chen Xiang immediately began refining.

Jiang Simei and Jiang Sijing would do their best to cultivate a few Golden Dragon Magic herb s, allowing them to grow a large amount of grass seeds to grow.

"The refining time of Dragon Magic Dan is also very long. It will take at least two days to finish one furnace!" Although this was faster than Taiji Yuanshen Dan, Chen Xiang felt that it was still too slow.

There were a lot of Alchemist s in the Zhao Clan, so their production of Dragon Magic Dan was very high.

"Ten batches at the same time should not be a problem!" If Chen Xiang was only refining a single batch, he would have it easy and without any pressure. If it was ten batches at the same time, after he was done refining, he would be completely exhausted.

In order to increase his speed, this was the only way to proceed. At most, he only needed to rest for a day to recover!

In this way, he would be able to refine ten batches in three days, which would make a hundred batches per month. With a thousand pills, he would be able to produce as many as Zhao Clan s in a month.

One month later, the people who went to fight the Dragon Demons in the Transmission array had returned. Chen Xiang had also finished refining a hundred batches of Dragon Magic Dan!

"I have to hurry and find Uncle Lin and Little Bat. I have to ask them about the situation with the Dragon Demons." Chen Xiang immediately headed to the Villa that the foreign disciple lived in, at that time, he would also be able to sell his Dragon Magic Dan there.

### [Chapter 2843](#)

Chen Xiang arrived at the villa, found the room that Lin Jitian lived in, and went in. Inside, he saw Bat Super Venerable sleeping soundly on the ground, while Lin Jitian was also exhausted.

One look was enough to tell that they had all been infected by Dragon magic poison!

"What's going on? I remember that they all have Dragon Magic Dan s! " Chen Xiang hurriedly took out two Dragon Magic Dan s and stuffed them into their mouths.

They recovered their spirits immediately after eating it!

"Chen Xiang... You gave us Dragon Magic Dan s to eat? " Lin Jitian sighed: "What a waste! We're already safe now anyway, so we just need to sleep. This time, we suffered greatly from the battle with the Dragon Demons, and this is because our Dragon Magic Dan s are not enough. "

"Oh? Tell me about it! " Chen Xiang asked anxiously. When he first came in, he saw many people like Lin Jitian.

It had to be known that Lin Jitian and Bat Super Venerable were both Supreme Realm late stage Rankers. They were all extremely tired, so there was no need to talk about the rest of the Six Gods Stage s.

"The Dragon magic poison of the Dragon Demons are even more powerful now. The current Dragon Magic Dan can't hold on for long. The moment we went to the Transmission array, it rained the moment we started fighting the Dragon Demons." Lin Jitian said.

There was no need for him to continue speaking, Chen Xiang could guess.

"Are those rain clouds Dragon magic poison?" Chen Xiang asked.

Lin Jitian and Bat Super Venerable nodded their heads, "Then we will immediately retreat. We will protect the Six Gods Stage with our Tai Zun realm, and distance ourselves from the Transmission array before the poison breaks out."

"Afterwards, we were like this several times in a row. We didn't even see many Dragon Demons before we immediately retreated." Bat Super Venerable said: "The current Dragon Demons are very smart, and their overall strength is very strong. They are also very good at using the advantages of Dragon magic poison s to deal with us."

"Our Dragon Magic Dan will be back soon after it is used up. After this, the price of the Dragon Magic Dan will definitely skyrocket." Lin Jitian said in an extremely displeased tone: "This Heavenly Alchemy Divine Sect is really something, why not be a bit more generous and sell it off at a low price? To disciples of us who are not Heavenly Alchemy Divine Sect, we are actually selling them at one hundred million. I bought ten of them, but all of them have been used up. "

"Me too!" Bat Super Venerable was also helpless: "I really want to snatch the guy that sold Dragon Magic Dan!"

Chen Xiang immediately laughed: "Don't worry, I have refined all of the Dragon Magic Dan here, and their effects are even stronger! The next time you guys go, I will give you even better Dragon Magic Dan s. I promise you all, even if you drink a whole jar of Dragon magic poison, you won't sleep. "

"Really? How come I heard that the Dragon magic herb is controlled by the Heavenly Alchemy Divine Sect's Zhao Clan? Furthermore, that kid from Zhao Clan has a grudge with you. " Lin Jitian said.

"This is my secret, so don't spout nonsense. But when the time comes, you'll need the help of Little Bat." Chen Xiang said: "Little Bat, didn't I enter the Dragon Devil Dead Land with you back then? At that time, if Zhao Clan asks me about the origins of the Dragon magic herb, you can just say that you found a lot of golden grass with me in Dragon Devil Dead Land! "

"Good!" I like doing these kind of things the most. If this Zhao Clan uses this chance to raise the price, you must definitely kill them all. " The Bat Super Venerable said.

"It's unlikely for me to kill him, but I can still cripple him." Chen Xiang laughed.

There was a certain cost for Zhao Clan to cultivate and refine Dragon magic herb. Once they could not compete with Chen Xiang, they would lose a lot of money.

"Alright, I will go and see the price of the Dragon Magic Dan now!" Chen Xiang said.

Before, he had already understood that Dragon Magic Dan s required a hundred million Dao crystal even if they were disciples of the Heavenly Alchemy Divine Sect s. Previously, it was only fifty million.

After this event, the price of the Dragon Magic Dan would definitely skyrocket!

When Chen Xiang was in the Villa, he had met people from the Zhao Clan. They had actually come to sell their Dragon Magic Dan, and they had called a price of four hundred million Dao crystal for one pellet!

When many people heard this price, they immediately cursed and did not buy it!

When the people of the Zhao Clan saw that many people were so angry, they also lowered their prices, selling it for three hundred million! This was acceptable for many people, but they didn't buy it because they had used up most of the Dao crystal and didn't have much Dao crystal left.

Furthermore, they were going to fight to the death and even had to use their own Dao crystal. This made them very uncomfortable.

At this time, many people were happy that Chen Xiang had arrived, but they were also disappointed. The only thing Chen Xiang could refine was the Six Shenprofound Dan, and the fact that he had cheated Zhao Clan once made many people feel that he had done a good job.

"I have Dragon Magic Dan, and only sell them for one hundred million!" Chen Xiang suddenly said, he felt that the one hundred million Dao crystal was more suitable, many people previously bought two hundred million.

When the middle-aged man from the Zhao Clan heard that, he sneered: "Chen Xiang, do you have that many Dragon Magic Dan in your hands? And the Dragon Magic Dan you refined is authentic? "

"How could you question my, Chen Xiang's, reputation?" Chen Xiang laughed heartily, "How bad is the reputation of your Zhao Clan?"

"Chen Xiang, you really have Dragon Magic Dan. How many are there now? If it was only one hundred million Dao crystal, we would definitely buy it. " Someone suddenly said.

"I only have a thousand pills right now, and my Dragon Magic Dan's effects are twice that of the Zhao Clan's, so whoever eats it will know." Chen Xiang anxiously took out a jade box. Opening it, there were a thousand black pellets, these were all Dragon Magic Dan s.

When many people saw this, they all shouted that they wanted to buy it.

Chen Xiang restricted everyone from buying more than two pills, and at the same time, everyone here was queuing up to buy more pills, while the people from Zhao Clan beside them were extremely furious, Chen Xiang actually stole their business.

A thousand grains were soon sold out.

"No rush, no rush. I can bring out another batch very soon. Everyone, wait patiently." Chen Xiang laughed: "However, when the time comes, I hope that everyone will help me publicize the effects of my Dragon Magic Dan, so as to not let some people mock me."

"Your Dragon Magic Dan is really good, its effects are not only twice that of the Zhao Clan's!" An old man said. He was from the Late period of Tai Zun realm, and knew a lot about pills, so after he ate one, he could feel the strong medicinal power: "Your Dragon Magic Dan still contains the Heavenly Alchemy immortal power, and this Heavenly Alchemy immortal power is also resistant to Dragon magic poison!"

"Senior, thank you for appraising it." Chen Xiang immediately said gratefully: "You guys should still have to rest for another month. Wait a month for me, I will refine even more Dragon Magic Dan as soon as possible, so that everyone will be able to buy even more effective Dragon Magic Dan with just a few."

After Chen Xiang finished speaking, he hurriedly left. All of them were here to represent the sect, although they were currently using their own Dao crystal to purchase Dragon Magic Dan, their sect would definitely compensate them with Dao crystal s.

"Zhao Clan, let's see how you will die this time!" Chen Xiang whistled and flew back to the small island, waiting for the Golden Dragon Magic herb to ripen again.

#### [Chapter 2844](#)

The Six Shenprofound Dan that Zhao Kunxin bought from him last time had a loss of over 100 billion. They had originally planned to earn it back using the Dragon Magic Dan, but did not expect that Chen Xiang would actually compete with them on the Dragon Magic Dan s. Furthermore, the Dragon Magic Dan that Chen Xiang refined had a much better advantage than theirs.

What made the Zhao Clan unable to understand was where Chen Xiang actually got the Dragon magic herb! Under normal circumstances, a Dragon magic herb could at most refine two. Chen Xiang had just sold a thousand Dragon Magic Dan, he should need five hundred.

Even if it was the Zhao Clan s themselves, they would need a certain amount of time to consume so many Dragon magic herb and they would need many of their Zhao Clan s to refine them together for a month.

But Chen Xiang, who was alone, was able to refine a thousand Dragon Magic Dan in a short amount of time!

Because Chen Xiang's Dragon Magic Dan had suddenly appeared, caught the Zhao Clan by surprise. At this time, they were also discussing how to deal with it, this kind of thing had never happened before, they had extremely strict control over the Dragon magic herb seeds, only the higher ups of Zhao Clan possessed the Dragon magic herb seed!

Just when Zhao Clan was feeling suspicious, the Bat Super Venerable suddenly revealed something. He said that when he first entered the Dragon Devil Dead Land, he obtained a type of golden Dragon magic herb and gave it to Chen Xiang later on, which was why Chen Xiang had the Dragon magic herb to refine Dragon Magic Dan.

But the Zhao Clan did not believe it, they believed that only they, the Zhao Clan, had the Dragon magic herb!

Chen Xiang's Dragon magic herb s were all grown by the Mei Jing Sisters, and their methods were all extremely detailed. The YDU was very special, and it had the characteristics of fusing with other medicinal herbs, allowing him to concoct even more pills.

At this time, Jiang Simei and Jiang Sijing had become more and more familiar with the Golden Dragon Magic herbs that they were growing. The cultivation speed could increase even more quickly and with the addition of the purple gold pearl that Chen Xiang had condensed with the Heavenly Alchemy immortal power, their cultivation speed could increase by a lot.

"A batch of Dragon Magic Dan every month, this speed is still a bit slow!" Chen Xiang only had himself to concoct pills, which could be considered fast, but he was not satisfied.

If he wanted to increase his speed, he could only increase the number of Magic method furnaces. Previously, he had to refine ten batches at the same time, but now, he had to refine twenty of them!

He believed that with his own potential, he would definitely be able to hold on. At the same time, he had refined so many Furnace Taizun Dan, it was equivalent to continuously squeezing out his potential.

"Refining 20 batches in 3 days, 100 batches in 15 days, and his speed has doubled. Now, let's see if he can succeed. It's time to challenge the limit."

Chen Xiang was now full of confidence, and released twenty Magic method furnaces to begin the refinement process. With the help of the Heavenly Alchemy immortal power, he could refine medicine much more easily, which would reduce a lot of his pressure.

In the past, just the stage of refining medicinal herbs would have been a headache for him. However, that was only for a pot, let alone 20 batches.

Everything went according to Chen Xiang's expectations. Under his control, the twenty Magic method furnaces were very stable, but they consumed a lot of his energy. He did not know if he still had enough energy to complete the final step of condensing the pellet.

But now, no matter what, he had to persevere!

Three days of time was still too little for refining Taizun Dan. Many Alchemists would need at least ten days for refining their Taizun Dan, and they might even need a month or a year for refining a batch of Taizun Dan.

But Chen Xiang, who was pursuing the extremes, used the help of the divine might fire to forcefully shorten the time to three days!

"Done!" Chen Xiang was already exhausted. After he had finished refining the twenty batches, he almost fell over.

"Die of exhaustion!" Chen Xiang placed the two hundred Dragon Magic Dan into a jade box and then lied down to rest. His recovery speed was also very fast, he had only slept for half a day before completely recovering.

While Chen Xiang had been cultivating for the past three days, he did not know anything about what was happening outside. Just as he came out, the Great Clan Elder came to find him quickly.

"Chen Xiang, where did you get those Dragon magic herbs? Zhao Clan said that their medicine garden was stolen, and there are less than a thousand Dragon magic herbs." The Great Clan Elder anxiously asked: "Moreover, they now suspect that it was you, and they even say that you are a strange thief, who

previously stole the Heavenly Alchemy art from the Flying Dragon Palace and then stole the Gold pagoda Ganoderma from him, all using a strange method."

"They felt that you could have stolen the Dragon magic herb, and after that, you sold a large number of them. Now, they have reported it to the Leader, and he has come forward to investigate."

When Chen Xiang heard this, he remained calm. He was not surprised by this.

"No problem, just let them investigate!" Chen Xiang snickered: "The price of Dragon Magic Dan has already been lowered, right?"

"Zhao Clan has already lowered the price of Dragon Magic Dan to one hundred million, otherwise, no one would buy them. Now, they are prepared to destroy you." The Great Elder asked, "Will your medicinal ingredients really be alright?"

"It's definitely not a problem. You don't have to worry, Zhao Clan's tricks won't be able to deal with me." Chen Xiang laughed: "When are they coming to investigate me?"

"It should be in these two days. Just wait here for these two days, then we'll confront them face to face!" As long as your medicinal ingredients are fine, then you don't have to be afraid of them. Leader is a person who knows what's right and wrong. " The Great Elder said.

Chen Xiang did not plan to refine pills in the next two days and just waited here for the people from the Zhao Clan.

The people from Zhao Clan came quickly, and only came in the morning of the second day. A large group of people even came, and Chen Xiang even saw Zhao Kunxin.

It was not only the people from the Zhao Clan who came, but also the disciples of the other sects. This was all called over by the Zhao Clan, so it was clear that the Zhao Clan was very confident this time in being able to take Chen Xiang down.

Lin Jitian and Bat Super Venerable were also here, they obviously knew that Zhao Clan was going to deal with Chen Xiang, so they came here to support Chen Xiang.

Most of the disciples from the other sects supported Chen Xiang, because Chen Xiang could sell them cheap Dragon Magic Dan, and the effect was much better than Zhao Clan's.

Although the price of the Zhao Clan's Dragon Magic Dan had already been lowered to a hundred million, many people did not buy it because Chen Xiang's Dragon Magic Dan was also one hundred million, but the effect was two times better than that of the Zhao Clan's. Adding the fact that Chen Xiang's reputation was not bad, even if Chen Xiang sold for a hundred and fifty million, many people still chose to buy Chen Xiang.

The Leader s of the Heavenly Alchemy Divine Sect did not come, but more than ten Elders had come. All of these Elders had very high status, so the Great Clan Elder could be at ease with them coming to investigate.

"Chen Xiang, you should already know this. Today, we're here to investigate you! Your Dragon magic herb s' origins are unknown, but a large portion of our Zhao Clan's Dragon magic herb s have suddenly

been stolen. " The one who spoke was Zhao Kunxin: "Ten elders, please go investigate with our Zhao Clan and confirm that the Dragon magic herb of our Zhao Clan has been stolen."

"Now, we suspect that you stole the Dragon magic herb. Only you are suspicious."

#### [Chapter 2845](#)

Chen Xiang had also considered the possibility of such a thing happening, so he had a way to deal with it!

Now that the Zhao Clan had lost their Dragon magic herb, it should be them acting. However, since they were able to deceive the ten elders, it showed that the Zhao Clan and the rest had their own methods.

"That's good. What about the Dragon magic herb that you lost?" Chen Xiang asked.

"What else can the Dragon magic herb do? It's exactly this type of Dragon magic herb! " Zhao Kunxin took out two Dragon magic herb, which were black and red respectively. Although the colors were different, they were both Dragon magic herb s.

Chen Xiang nodded his head: "Are all of you the ones who lost these Dragon magic herb in the medicinal field?"

"That's right!" This was lost more than a month ago. " Zhao Kunxin coldly snorted. "And you just so happen to have so many Dragon Magic Dan, so we suspect that you did it."

"It was lost more than a month ago. Why didn't you respond then?" Chen Xiang laughed: "Why didn't you start investigating when I sold the Dragon Magic Dan?"

Everyone nodded, no matter how they looked at it, they seemed to be framing Chen Xiang.

"Because our medicinal field is a top secret herb field, we only go in to take a look at it once in a while." Zhao Kunxin said: "From the traces at the scene, it seems that those Dragon magic herb have been lost for about a month, and these ten elders have investigated about it."

Chen Xiang looked at the ten elders and said: "Elders, are you sure that you have lost the two Dragon magic herb s in Kunyun's hands?"

"That's right. Because there are still a few parts of the medicinal field that we haven't lost, we can be sure that we have lost these two species of Dragon magic herb ..." An elder said.

"If you doubt me, I can understand it too!" However, the Dragon magic herb that I refined was not one of these two Dragon magic herb, but a kind of golden Dragon magic herb. It was given to me by the Flying Dragon Palace. " Chen Xiang said: "He can testify for me!"

An old man from the Zhao Clan sneered: "Golden-colored Dragon magic herb ... You are simply speaking nonsense. Our Leader has planted Dragon magic herb for so many years, yet there has never been a golden variety born. Your relationship with Bat Super Venerable is not bad, and it is normal for you two to collude with each other to deceive people.

"Alright, if I can take out the golden Dragon magic herb, you should believe me!" Chen Xiang said as he took out a Golden Dragon Magic herb.

The Dragon magic herb in Chen Xiang's hands was golden and looked extremely beautiful! The shape and size of the Dragon magic herb were exactly the same, except the color was different!

"This... Hmph, it's definitely fake. It's just that you used some secret techniques to get the golden color! Now that I have ascertained that you were the one who stole the Dragon magic herb, you made such preparations in order to rid yourself of any suspicions." Zhao Kunxin insisted that it was Chen Xiang.

"Alright! How many Dragon magic herb have you lost in total?" Chen Xiang asked, there were still many Dragon magic herb in the You Yao Mountain Villa.

"Ten elders, you should be able to find an accurate number!" Chen Xiang said.

"The final result is that thirteen hundred Dragon magic herb have been lost." An elder said.

Chen Xiang secretly cursed in his heart. This Zhao Clan was too ruthless, to actually want to make him take the blame, he had originally planned to take out some Dragon magic herb, when the time came, he only needed to surpass the number of Dragon magic herb lost in the Zhao Clan, then he would be able to shake off all suspicions. But now, he could not, there were not so many Dragon magic herb in the You Yao Mountain Villa.

"You still have some Dragon magic herb s with you ... However, you have already dyed them golden, now leave them all to us! It will lessen the punishment. Then, you can give us the corresponding Dao crystal. We can let you leave the Heavenly Alchemy Divine Sect." Zhao Kunxin said.

Chen Xiang sighed: "My golden Dragon magic herb is called the Golden Dragon Magic herb, and is completely different from your Zhao Clan's Dragon magic herb! If I use this kind of Golden Dragon Magic herb to refine pills, I can refine seven of them in one furnace, so this should be enough to prove that my Golden Dragon Magic herb is not dyed! "

"Hmph, that's only because you refined it yourself. Everyone knows your pill techniques. If you refine seven pills for others, we believe that your Dragon magic herb is not like us." The elder of the Zhao Clan said.

When the people of Zhao Clan saw Chen Xiang's Golden Dragon Magic herb, they were already very surprised. They thought that Bat Super Venerable and Chen Xiang had colluded with each other, but they never thought that there was actually a golden Dragon magic herb!

So they also wanted to get their hands on this Dragon magic herb. They already understood why the effects of the Dragon Magic Dan Chen Xiang had refined were stronger than theirs, and that was because of this Golden Dragon Magic herb.

Chen Xiang was very angry in his heart. Not only did this Zhao Clan want to turn black and white and take away the Golden Dragon Magic herb in his hands, he also wanted to cheat him of his Dao crystal.

"All ten elders should know how to refine pills. If you all can refine many Dragon Magic Dan, then you can prove that my Dragon magic herb is yours and not stolen." Chen Xiang took out ten Golden Dragon Magic herb s and handed them over to the ten elders. "This may take some time, but for the truth, I think everyone should be able to wait patiently!"

Everyone nodded their heads. They were willing to wait for the results to come out!

The people of Zhao Clan gritted their teeth in anger, because Chen Xiang had really mastered Dragon magic herb s. Moreover, it was a very special kind of Golden Dragon Magic herb, much better than their Zhao Clan's red and black Dragon magic herb.

Fortunately, the alchemy level of these elders was very high, and refining Dragon Magic Dan only required refining a single medicinal ingredient, their speed was not slow either. Everyone patiently waited here for six days, they were finally done refining!

But the one with the most dan beads was actually ten. Of the ten elders, at least nine of them came out. Most of them could actually refine ten dan beads. Even those elders felt it was inconceivable!

Chen Xiang did not expect these elders to be so skilled, to actually be able to produce so many pills.

"It seems that in order to pursue speed, I only produced seven pellets. The ten elders' alchemy skills are truly outstanding." Chen Xiang hurriedly said: "These Dragon Magic Dan were all painstakingly refined by you. You can just keep them yourselves, but now it has already proven my innocence."

The people of Zhao Clan were jealous to death. Not only did Chen Xiang's Golden Dragon Magic herb give out more pills, it had better effects than them.

"Zhao Clan, your Dragon magic herb was not stolen by Chen Xiang. He has already proven that his Dragon magic herb was different from the ones you lost. An elder said.

"There's nothing else! Our Zhao Clan has suffered heavy losses this time, which is why we are suspicious, I hope the elders can understand. " The people from the Zhao Clan knew best what was going on. If they continued to harass Yue Yang, and found out that it was them who planned this play, they would be in for a lot of trouble.

"Alright, let's end this here!" One of the elders harrumphed, as if he had already noticed something.

#### [Chapter 2846](#)

Just as the ten clan elders were about to leave, Chen Xiang suddenly said: "No! This matter definitely could not be forgiven. They had to investigate thoroughly! There is an urgent need for Dragon Magic Dan and there are also people who are stealing in the Heavenly Alchemy Divine Sect. Maybe it is the doing of the Dragon Demons, I think we must continue investigating and find out who stole the Dragon magic herb that was lost in the Zhao Clan. "

"That's right, there might be Dragon Demons inside the Zhao Clan, we must investigate them thoroughly." Lin Jitian shouted.

"Right, right!"

Many people also started to shout, saying that they had to find a carriage to see who stole the Dragon magic herb.

"Our Heavenly Alchemy Divine Sect would never sneak into a Dragon Demon." The Great Clan Elder was now even more certain that this was caused by the Zhao Clan himself. He was extremely furious at the fact that they wanted to blame Chen Xiang and chase him away.

"Then it's very likely that there's a spy in the Zhao Clan. We have to find out." An elder nodded his head: "We will go to Zhao Clan now!"

Even though the people from the Zhao Clan were calm, their hearts were beating wildly. Their previous plan was extremely thorough, and they thought that they could definitely drive Chen Xiang away.

After the ten elders and the Zhao Clan's people left, Chen Xiang took out the two hundred pellets of Dragon Magic Dan that he had previously refined and started selling them all happily.

After the sales, everyone left. & I & Ben & Read & Fiction {}

"Brat, to think that you would have such a unique Dragon magic herb. You didn't even tell me about it, and you have caused me to worry to death!" The Great Clan Elder scolded jokingly: "I really thought you went to the Zhao Clan to steal Dragon magic herb!"

Chen Xiang laughed: "If I were to go to Zhao Clan to steal the Dragon magic herb, I definitely won't stay there any longer, and Zhao Clan will definitely not only lose Dragon magic herb as well! I have really succeeded in stealing so many medicinal ingredients from Zhao Clan's top secret location. According to my style, all of Zhao Clan's ingredients will definitely be looted by me. "

"Zhao Clan said that there are still a few Dragon magic herb remaining on their stolen medicinal fields ... This is really funny, if I were to make a move, I will definitely take all of it. "

"Can Golden Dragon Magic herb really refine many pills? That was a Taizun Dan! "Although it's only low-rank, to be able to refine ten medicinal plants in one go is truly unbelievable." The Great Elder said.

Great Clan Elder, if you want the Golden Dragon Magic herb, just say it, here! Chen Xiang laughed: "You can try it yourself. This Golden Dragon Magic herb contains a lot of Medicine aura, so it can produce a lot of pills."

Chen Xiang gave the great clan elder ten Golden Dragon Magic herb to refine for himself.

The Transmission array that was sent to the Myriad Tao Mausoleum was difficult to attack, it was mainly because there were too many Dragon magic poison there.

When they entered, although they were struck by the Dragon magic poison, they did not immediately flare up. Furthermore, they all had some Dragon Magic Dan s as backup, so after eating the Dragon Magic Dan, they retreated as fast as they could, otherwise, once the Dragon Magic Dan lost its effect and they were still inside the Dragon magic poison mist, they would lose their fighting strength. In the end, only death awaited them.

However, the Dragon Magic Dan that Chen Xiang refined had already been tested, and its effects were much better than those of the Zhao Clan s. A late stage Supreme Realm cultivator went to the Transmission array to test it, and discovered that after eating one of the Dragon Magic Dan Chen Xiang refined it, it would last for ten days!

In other words, as long as he could bring three pellets into his body, he would be able to survive for a month inside the Transmission array without encountering any poison.

A month's time was enough for them to snatch back the Transmission array.

Now, they were only waiting for Chen Xiang to refine the Dragon Magic Dan!

There were around a thousand people who entered the Transmission array, and Chen Xiang needed to refine three thousand Dragon Magic Dan s. Before, he had already sold more than a thousand.

In the past month, he had also successfully refined two thousand pellets, and they were sold out very quickly. Now, he had six hundred billion Dao crystal in his hands.

This was very close to his goal of a trillion.

"I have to start refining the Taiji Yuanshen Dan. There's not much time left until I enter the Myriad Tao Mausoleum. I need to level up quickly."

Right now, there was no lack of Dragon Magic Dan outside, so Chen Xiang would stop for a period of time to refine the Taiji Yuanshen Dan properly.

Mei Jing Sisters and the others had already grown a lot of s' ingredients, so Chen Xiang would not be lacking any of them for the rest of the time.

On one hand, if they had sufficient strength, he would be able to make them come out to fight when he needed their help. On the other hand, the higher their cultivation, the faster the medicinal herbs would be planted.

"The ingredients for refining the Taiji Yuanshen Dan have all been improved by us and have all fused with the Gold Yuan Divine Grass, so you need to be careful when refining it. There will be a lot of Medicine aura." Jiang Simei said. She was also a Alchemist, but her standards were not as high as Chen Xiang's. However, she had a better understanding of pill refining.

"I have to make a collision, only then will I not waste any medicinal ingredients. Moreover, the pills refined using the Crash method have the effect of self-refinement, so during the refining process, I can do other things as well."

Chen Xiang took out his Chuangshi god furnace and began to refine the super high quality Taiji Yuanshen Dan!

After an entire ten days of time, he was only able to successfully refine a Taiji Yuanshen Dan that had undergone three Crash s, and this was his limit!

The more Medicine aura there were, the higher their quality would be, and the control they would need to collide would be higher. And after the three Crash s, Chen Xiang was also exhausted, unable to proceed to the next Crash.

"That's the only way!" Chen Xiang swallowed the pellet, then went to rest and refined it at the same time.

The refining speed was extremely fast, and was completed in just half a day. Just as the refining was finished, Chen Xiang once again began to refine the Taiji Yuanshen Dan.

Just like this, a month had passed and he had eaten a total of three super high quality Taiji Yuanshen Dan s, but he still had not broken through!

It was not easy to break through Six Gods Stage, but according to the effects of the Taiji Yuanshen Dan, Chen Xiang felt that his progress was relatively fast. His current Six yuan god was much stronger than before, if he was given a little more time, he would definitely be able to enter the middle stage of Six Gods Stage soon.

The people who went to attack the Transmission array had returned as well, and they successfully took it down. The Four Great Divine Sects had sent out their experts to guard the Transmission array, and once the Myriad Tao Mausoleum was activated, they could immediately activate the ancient Transmission array and head towards the vicinity of the Myriad Tao Mausoleum.

Now that Chen Xiang was not refining the Dragon Magic Dan, he sold the Golden Dragon Magic herb to the Heavenly Alchemy Divine Sect for 700 million each.

A single Golden Dragon Magic herb could refine ten Dragon Magic Dan, so these shops could still earn three hundred million Dao crystal. This way, it would also be able to alleviate the lack of Dragon Magic Dan.

### [Chapter 2847](#)

The Great Clan Elder also knew very well that the Zhao Clan hated Chen Xiang to the core, so he also said that if anyone dared to touch Chen Xiang, it meant that they had become his enemy.

Chen Xiang was very popular in Heavenly Alchemy Divine Sect, now everyone suspected that Chen Xiang had a secret method to quickly grow medicinal herbs, if not he would not have so many Dragon magic herb.

But Chen Xiang did not admit it, he only said that those Golden Dragon Magic herb were obtained from the Dragon Devil Dead Land, he had a lot of them.

If others were to notice, it would not be a good thing, so Chen Xiang would not admit to using that ability.

Chen Xiang was currently focused on refining the Taiji Yuanshen Dan, he needed power very much. Although his pill techniques were outstanding, no matter how skilled he was in pill techniques, without sufficient strength, he would not be able to withstand the threat of danger.

Furthermore, he was going to go to the mysterious Myriad Tao Mausoleum.

After taking down the Transmission array, Four Great Divine Sects and Flying Dragon Palace had set an exact time to head to Myriad Tao Mausoleum in two months.

The Myriad Tao Mausoleum would open up for a period of time. As long as they could enter during this period of time and come out, they would not miss the opening of the Myriad Tao Mausoleum.

The biggest reason why Chen Xiang entered the Myriad Tao Mausoleum was to find and kill the Natural Law Divine Lord!

Right now, he was weak, so even if he met the God of Heaven, he might not be able to fight against him. He only hoped that when the time came, Lin Jitian would be able to talk to the God of Heaven. Bat Super Venerable had enough power to help him kill Natural Law Divine Lord.

There were still two months left, and it was a very short period of time for many people. At this time, those who had decided to head to Myriad Tao Mausoleum were all hurriedly making preparations.

... ..

Two months had passed, and the Great Clan Elder had gently knocked on Chen Xiang's door.

Chen Xiang who was still concocting pills woke up quickly. His face was filled with regret, because he had not stepped into the middle stage of Six Gods Stage yet!

"Six Gods Stage is indeed not that easy to break through!" Chen Xiang looked at the high quality Taiji Yuanshen Dan in his hand. He had refined this just now, but it was too late for him to eat it now.

Chen Xiang anxiously opened the door and saw that the Great Clan Elder had already donned a set of strong and sturdy armor, so he was probably going to head out immediately.

"Grand Elder, are you leaving now?" Chen Xiang asked.

"Not bad, we'll be starting off in an hour. Are you not ready yet?" The Great Clan Elder asked when he saw that Chen Xiang was not that excited.

"It's about time. Let's go!" Chen Xiang could only find some time to eat that piece of Taiji Yuanshen Dan and then quietly refine it, to see if he could step into the middle stage of Six Gods Stage.

Chen Xiang followed the Great Clan Elder to the great plaza of the Heavenly Alchemy Divine Sect. It was already filled with people, all of them from the Four Great Divine Sects and the Four Great Divine Sects.

The last time they attacked the Transmission array, there were only a thousand of them, but it had increased to two thousand now!

For the large Four Great Divine Sects and Flying Dragon Palace, two thousand people was considered very little. This was to keep a portion of the people here to guard, so that the Dragon Demons wouldn't take advantage of the situation to enter.

Chen Xiang had already made an agreement with Lin Jitian and Bat Super Venerable to move out together, and now that Lin Jitian and Bat Super Venerable were here, he immediately went to find them when he arrived at the plaza. He had already greeted the Great Clan Elder.

The Great Clan Elder did not say anything about this. He was very clear about the strength of the Bat Super Venerable, and that Lin Jitian was not weak either.

"Chen Xiang, when we enter the Myriad Tao Mausoleum, the ones we need to pay attention to are not the bastards inside, but the bastards hiding in the plaza." Lin Jitian said. He had entered the Myriad Tao Mausoleum before, and had a lot of experience. The last time he entered, he was tricked by humans.

When Lin Jitian was with and the Bat Super Venerable this time, they were all people that he understood. Therefore, he was very at ease, not like the last time, where it was a temporary arrangement.

"I know! I feel that the thing I need to pay attention to the most are those fellows from Zhao Clan. They should be really eager to eat my flesh and blood right now. " When Chen Xiang looked at Zhao Kunxin, he could see the viciousness in his eyes.

"Rest assured, as long as the Ancestor does not attack, Old Lin and I can withstand it. Unless there are eight late stage Overlords surrounding and attacking us, no one will be able to harm you." The Bat Super Venerable was not too worried. He understood Chen Xiang's ability to escape very well.

After everyone had arrived, they divided into more than ten teams and began to head towards the ancient Transmission array. This was still quite a distance away.

A few days later, they arrived at the ancient Transmission array.

This Transmission array was extremely huge, actually a lot wider than the big plaza in Heavenly Alchemy Divine Sect.

When Chen Xiang arrived here, he could immediately feel the remnant Evil Dragon Qi. Previously, this place was filled with the corpses of the Dragon Demons, even if they were burnt to ashes, the Qi was still very dense.

Opening the Transmission array would consume a large amount of Dao crystal. Chen Xiang had heard from the Great Clan Elder that it would take at least a hundred billion Dao crystal to successfully activate it.

These Dao crystal were produced by the Four Great Divine Sects and Four Great Divine Sects together, and each side only needed to pay twenty billion Dao crystal. To these kind of big shots, this was just a small number.

When he came back, he would need to use the same amount of Dao crystal, so he didn't need to use the Dao crystal if he wanted to follow the group.

Once the Four Great Divine Sects and the Flying Dragon Palace were teleported, they would be open to other people, and those people would need to gather enough Dao crystal to activate the Transmission array before they could head to the Myriad Tao Mausoleum.

It took more than six hours to open the Transmission array, and after it did, Chen Xiang felt a spatial ripple. Then, a golden light flashed before his eyes, and they arrived at a place with fresh air.

"He has already left the Flying Dragon Pagoda!" Chen Xiang looked around, he was very sure right now, because when he was in Flying Dragon Pagoda, he could feel the unique spatial energy of Flying Dragon Pagoda.

However, there was no space here!

"They should be on top of the Divine Wasteland. Where is the Myriad Tao Mausoleum?" Chen Xiang looked left and right, but he did not see Myriad Tao Mausoleum.

When he was on the hundred floors of the Flying Dragon Pagoda, Chen Xiang had refined and eaten the Myriad Tao Divine Tablets Formation. At that time, he saw the image of the Myriad Tao Mausoleum.

"We still have a way to go to Myriad Tao Mausoleum, the ancient Transmission array only told us to leave it, otherwise we would need to walk it layer by layer, or through it, in order to leave it." Lin Jitian said: "Let's go! The leaders are all the Great Elders of the Four Great Divine Sects and Flying Dragon Palace s.

On the way to Myriad Tao Mausoleum, they encountered over a dozen waves of terrifying Dragon beast's attacks. Luckily, the people here were all skilled and were able to push back Dragon beast.

After walking for around a month, Chen Xiang finally saw the Myriad Tao Mausoleum in his image as he was fusing with the Myriad Tao Divine Tablets Formation.

### [Chapter 2848](#)

From afar, the Myriad Tao Mausoleum looked like a giant square stone that was located on the ground, and at this time, Chen Xiang and the rest were still very far away from the Myriad Tao Mausoleum, so they could clearly see the entire appearance of the Myriad Tao Mausoleum.

"One hundred and thirty thousand feet tall, one hundred and fifty thousand feet wide, and there is also the universe inside. This is the mysterious Myriad Tao Mausoleum." Lin Jitian said: "The first time I saw it, I was extremely shocked."

It was's first time seeing it with his own eyes, but because he had seen the image before, he did not exclaim out loud like the others when he saw it.

The Myriad Tao Mausoleum was black, and on the way there, Chen Xiang also heard that the Myriad Tao Mausoleum's expression would change. Sometimes it would be white, sometimes it would be gold, and in short, it would change in various colors.

And only when it turns black would it mean that the Myriad Tao Mausoleum would be opened. Furthermore, the inside of the Myriad Tao Mausoleum would be very safe.

When it was white, a portion of the entrance to Myriad Tao Mausoleum was opened, but it was extremely dangerous inside. At this time, a majority of the people who went in were unable to come out.

"There are others!" The Bat Super Venerable suddenly said, Chen Xiang could also feel the Qi, and there were quite a number of them.

Chen Xiang immediately looked towards the direction where the Qi came from. All of them looked very familiar, he knew who these people were, they were the big shots from the Myriad Tao City, just that they were all possessed by the Evil Soul.

"Xue Yunxiong!" He couldn't help but say these three words, "This guy, he actually came as well, and even had those Leader Elders from the Divine Beast Sects in the hundred floors of the Flying Dragon Pagoda s."

"You know them?" Lin Jitian asked, he was not worried about them, because all of them were weak, with their cultivations of around the middle stage of Six Gods Stage.

"I understand, most of them are about to be possessed by the Evil Soul, you guys be careful, maybe they still have a powerful Evil Soul on their hands." Chen Xiang said.

Back then, Chen Xiang had already known that the Leader s of the Divine Beast Sect were very close to the Evil Soul s, so he suspected that those Leader s had all been possessed by the Evil Soul s.

When Xue Yunxiong and the other Evil Soul s came out of Myriad Tao Mausoleum, they had many strong Evil Soul s whose bodies had yet to be found.

And Xue Yunxiong and the rest of the Evil Soul s were only at the Six Gods Stage. In the Myriad Tao Mausoleum, the Six Gods Stage s were considered weak, Chen Xiang guessed that they had the Tai Zun realm's Evil Soul s, but he did not find a good body, so he was not able to take them out.

Chen Xiang told the worries in his heart to Lin Jitian and the Bat Super Venerable. After knowing that they were a group of Evil Soul s, they immediately became cautious.

Before, when they went to fight against the Dragon Demons, they had to always be on guard against being devoured by them. In this regard, they had some experience.

"My friends, are you from the top of Flying Dragon Pagoda?" The one who spoke was Xue Yunxiong, he had a gentle smile on his face.

Chen Xiang also felt that it was strange, why would Xue Yunxiong and the others appear here? Could it be that the hundred floors of Flying Dragon Pagoda also have an ancient Transmission array that leads to here?

"Not bad, where are you from?" An old man from Flying Dragon Palace asked. He was very cautious at the moment and did not walk over.

"They are all Evil Soul!" Lin Jitian suddenly shouted: "Everyone be careful!"

Just as he finished speaking, the expressions of Xue Yunxiong and the others changed. With a wave of their hands, they threw countless black beads.

The black beads released an evil aura, with one glance, one could tell that they were all Evil Soul!

Just as Chen Xiang had guessed, Xue Yunxiong and the rest had a large number of strong Evil Soul s in their hands. Now, they had thrown out their Evil Soul s in order to let these Evil Soul s choose the appropriate body to possess.

"A bunch of evil beings." He was an elder of the Heavenly Alchemy Divine Sect, and although his voice was low, it released a golden sound wave. The black beads that were thrown over were instantly shattered, and all of the Evil Soul s ran out.

When the elders of the Four Great Divine Sects and the Flying Dragon Palace saw so many powerful Evil Soul s, their expressions became extremely serious. They all had a tacit understanding and immediately set up a huge enchantment around everyone to protect them from the attacks of the Evil Soul.

When the time comes, these old fellows could defend against Evil Soul, but for the other juniors, it was hard to say.

"Quickly destroy them!" Bat Super Venerable shouted towards the group of people.

Xue Yunxiong and the others were still outside the barrier with a sinister smile on their faces. The barrier was covered by a mass of black fog and the fog was formed by the mighty.

"How dare the evil creature be impudent!" A burly man from the six Divine Sects shouted loudly. A few "boom boom" sounds of thunder rumbled in the air as a large amount of six colored lightning bolts fell like rain on the surroundings of the barrier.

After the Evil Soul was struck by the lightning, they all dispersed. Some of them even started to scream, floating around in the air, wailing like ghosts and howling like wolves.

"The six divine lightning from the six Divine Sects are not simple. This kind of Evil Soul is also afraid of being struck by lightning." Lin Jitian laughed: "Evil Soul is underestimating our Flying Dragon Pagoda's thousand floors!"

After that, the elders of the Heavenly Alchemy Divine Sect also took action, releasing a purple gold flame. They controlled the flame to turn into a giant palm and slapped the fleeing Evil Souls.

It had only been a moment, but the mighty and mighty Supreme Evil Soul was already scared out of her mind!

Let alone this kind of, even when they were alive and had flesh and blood, this group of elders were not afraid of them, let alone a Evil Soul who only knew how to frighten people.

Xue Yunxiong and the others were so scared that their faces turned green. Previously, they thought that the Supreme Evil Soul they had released would quickly swallow all of them.

But who would have thought that those powerful Evil Souls would not even be able to withstand a single blow, and were taken care of so quickly!

"These Evil Souls must have made a mistake. I never expected us to be so strong." Lin Jitian laughed.

This group of people could be considered to be the apex existences within the thousand floors of the Flying Dragon Pagoda.

"Kill!" Just as the voice of an old man faded, more than ten shadows flashed out from the enchantment, and the powerful aura released from their bodies rushed towards Xue Yunxiong's group like a terrifying wave.

Xue Yunxiong and the rest had a few hundred people, but the dozen or so elders were able to rush over, releasing a burst of powerful force and crushed the few hundred of them, turning them into dust.

"It's boring. We don't need to do anything." Lin Jitian yawned, but since the enchantment had been put away, everyone immediately rushed there.

What happened just now was very sudden, but right now everyone was very calm, as though nothing had happened at all. They continued to head towards the Myriad Tao Mausoleum.

"Chen Xiang, what's wrong?" Lin Jitian patted Chen Xiang's shoulder and asked softly.

"I have a strange feeling that something is following us." Chen Xiang looked behind him and said: "We have to be careful, I have a feeling that before we enter the Myriad Tao Mausoleum, we will have to go through a great battle."

#### [Chapter 2849](#)

This was not a conscious thought on Chen Xiang's part, but rather an extremely weak aura that Chen Xiang had sensed, and this aura contained a faint killing intent.

Chen Xiang had killed before, so he could feel it, even though it was weak.

Right now, he just could not confirm what that aura was. He also did not know where it came from.

"Really? Should I tell them?" Lin Jitian said.

"I'm not sure right now, but that's what I think!" However, he still sent a sound transmission to the Great Clan Elder of the Heavenly Alchemy Divine Sect.

His relationship with the Great Clan Elder of Heavenly Alchemy Divine Sect was not bad. After the Great Clan Elder heard his sound transmission, he also became cautious.

Anyways, they were about to enter the Myriad Tao Mausoleum at this time, so everyone was on high alert.

All along the way, they were extremely quiet and did not encounter any dangers. They also gradually approached the gigantic Myriad Tao Mausoleum, at this time, they could no longer see just how vast the Myriad Tao Mausoleum was. Although they had not arrived at the bottom of the Myriad Tao Mausoleum yet, they were shrouded in the gigantic shadow of the Myriad Tao Mausoleum.

Upon entering this shadow, a cold shiver went down everyone's spines.

"What's going on? This Myriad Tao Mausoleum is a little strange, different from last time." Lin Jitian said.

"That's right, it makes people uneasy. What's going on?" Bat Tai! One! Ben! Read! The Novice Sovereign had the same feeling, he had also entered the Myriad Tao Mausoleum before.

"Everyone, pay attention!" The Great Clan Elder of the Heavenly Alchemy Divine Sect shouted, "We might not even enter the Myriad Tao Mausoleum before we face a huge battle."

The Myriad Tao Mausoleum was right in front of him, but the door was not completely open. There was only a small crack, but because the door was very big, the crack that was revealed was also very big.

The wind was coming from the gap of the door!

Chen Xiang was lost in thought as he looked at the big door of the Myriad Tao Mausoleum, and said: "The big door is opening slowly, but the opening speed is very slow, adding that the big door of the Myriad Tao Mausoleum is too big, it's hard to find."

The entrance to the Myriad Tao Mausoleum was as high as the sky, and this entrance was also known as the Door of the Heavens and the Earth.

"In the past, the opening of the Gate of Heaven and Earth was much smaller than it is now, only enough for ten people to walk past it side by side as if they were walking between two mountains. But now, it's so wide, it's not a problem even pushing through the mountain." Lin Jitian also felt that it was very strange.

As they approached the Myriad Tao Mausoleum, they were enveloped by a depressing atmosphere!

This kind of feeling made people uncomfortable. If they didn't have a firm will, they would have easily collapsed by now. Everyone was already enveloped by a formless and terrifying aura.

"Should we retreat?" An elder suddenly said: "Obviously, there's something wrong with the opening of the Myriad Tao Mausoleum this time."

"That's right, how about this? Let's wait for a while longer and see. If things return to how it was in the past, we can go back inside. While we're waiting, we can notify the two ancestors and have them come over to take a look." A bald old man said.

Now that they were already here, no one wanted to return. However, they were still very cautious and didn't rush in just like that.

Everyone rested where they were and waited patiently. Chen Xiang also grabbed the opportunity to eat a Taiji Yuanshen Dan, and then had Bat Super Venerable and Lin Jitian watch over him.

As time passed, the Heaven and Earth door opened wider and wider. The darkness could be seen through the crack in the door.

Although the door was opening wider and wider, the eerie wind that was blowing out from inside was abnormally much weaker, causing people to be even more confused.

A few days had passed and Chen Xiang had already refined that Taiji Yuanshen Dan but he had still not stepped into the middle stage of Six Gods Stage.

Under such circumstances, he desperately needed power, but he still did not succeed!

"I can only refine one more." Chen Xiang immediately took out the medicinal ingredients and then calmed his heart to refine them.

He was not the only one who was concocting pills here, the elders of Heavenly Alchemy Divine Sect were also making use of their time to do so.

Ten days had passed and Chen Xiang had successfully refined one Taiji Yuanshen Dan!

"Is your ancestor not here yet? This door has been completely opened. This is an unimaginable scene! " An elder said anxiously, "There must be a problem with the Myriad Tao Mausoleum!"

The Myriad Tao Mausoleum's Gate of Heaven and Earth had been completely opened. Even though the huge ancient door was completely opened, the inside of the door was pitch black, and it was impossible to see anything. It was like the mouth of a huge beast, dark and sinister.

Just as Chen Xiang was about to eat the Taiji Yuanshen Dan, he heard someone shout, "Your ancestor is here, and it's five of them!"

Sensing the aura, everyone who was resting hurriedly stood up. The five reverends and two elders had arrived. The five reverends were all very young and not as old as everyone had imagined.

"Leader!"

"Palace Lord!"

A few of the elders shouted in shock. It was actually the Leader himself, it was obvious that the situation was not ordinary.

The Leader's and the Flying Dragon Palace's hall masters all looked very young, but they were all revered ancestors' cultivations.

"What the hell is going on?" An old man asked, "Why is there such a situation? The Heaven and Earth Gate has completely opened. This sort of thing has never happened before."

"Is it a good thing or a bad thing!"

The six Divine Sects said, "We are also not sure, so we came here personally to take a look! This time, an unprecedented situation has indeed occurred in the Myriad Tao Mausoleum. Maybe it is because of this, but the Dragon Devil Emperor Venerable is still in the Flying Dragon Pagoda! "

"Dragon Devil Emperor Venerable is doing everything possible to obtain power through the Flying Dragon Experience Place, it should be related to entering the Myriad Tao Mausoleum. Therefore, we do not know if it is safe to enter the Myriad Tao Mausoleum now, please wait patiently outside, we will go in first to investigate." The Heavenly Alchemy Divine Sect said.

Everyone nodded their heads in agreement. Given the current situation, they didn't dare to go in the same way.

The five giants turned into several streaks of light and flew into the endless darkness inside the Heaven and Earth door ...

Not long after they entered, Chen Xiang suddenly shouted out: "There's a Dragon Demon!"

He was extremely familiar with this aura, it was the extremely strong aura that Chen Xiang had sensed in the depths of Dragon Devil Dead Land that day!

"It's the Dragon Devil Emperor Venerable!" The Bat Super Venerable cried out.

When the Dragon Devil Emperor Venerable appeared, everyone immediately sank into fear. However, they could only see a black astral wind suddenly blowing towards them, and then rushing towards the Heaven and Earth Door.

"Go ..." Gone? " One of the old men was covered in cold sweat. The moment Dragon Devil Emperor Venerable appeared, they felt as if doomsday had arrived.

"Dragon Devil Emperor Venerable has entered the Myriad Tao Mausoleum, but there is still a large group of Dragon Demons around, they have been here since a long time ago." Chen Xiang said: "Prepare for battle, if we cannot win, we can only enter the Myriad Tao Mausoleum!"

[Chapter 2850](#)

These Dragon Demons came prepared, and it was not only the Dragon Devil Emperor Venerable that was powerful, there were also other Dragon Demons who were extremely terrifying, if not the Dragon Devil Dead Land would not have suffered so much at that time. From the looks of it, humans had lost that battle back then.

Many powerful ancestors of the human race had died, and the Dragon Devil Emperor Venerable was only sealed. Right now, the Dragon Devil Emperor Venerable had already broken through the seal and was nurturing a large number of powerful Dragon Demons.

No one could sense the aura of the Dragon Demon but they all thought that Chen Xiang was lying to them.

However, what happened next was that they believed it. Indeed, a large group of people suddenly appeared. These people all had a black Dragon Head Staff in their hands.

"Could it be that this was brought here by Dragon Devil Emperor Venerable when he came here earlier? How exactly did Dragon Devil Emperor Venerable and the rest come here? Transmission array has always been our ..." The Great Elder suddenly understood.

Dragon Devil Emperor Venerable and the rest had occupied the Transmission array for a period of time, and during that period of time, the Transmission array had been enveloped by a dense amount of Dragon magic poison.

It was very likely that Dragon Devil Emperor Venerable and the group of Dragon Demons had teleported here during that period of time, and were waiting for the Heaven and Earth Door to open.

"How strong are these guys?" Chen Xiang asked. At this time, the number of Dragon Demons that appeared increased to a hundred thousand. They all looked like humans.

Just like the Evil Soul, they could take over a human's body and memories. At this moment, everyone could see the successful Dragon Demons that possessed their bodies, although they had a human's body, but they also had a Dragon Demon's body and Evil Soul inside them.

"The power of the Dragon Demons are all very strong, especially the most powerful ones!" Bat Super Venerable said: "We have too few people on our side, we are not their match!"

Chen Xiang's side only had more than two thousand people, but the number of Dragon Demons on their side was as high as a hundred thousand!

"Can we really not beat them?" Chen Xiang had already discovered a few Late period of Tai Zun realm Dragon Demons, there were many with this cultivation. Among the one hundred thousand Dragon Demons, there were a few hundred late stage Supreme Dragon Demons!

This power was not something that Chen Xiang and his two thousand men could withstand!

"We can't escape, let's enter the Myriad Tao Mausoleum. At least there are five powerful ancestors inside." An elder shouted, "Now, we can only enter the Myriad Tao Mausoleum."

The Myriad Tao Mausoleum's Gate of Heaven and Earth was wide open, there were no Dragon Demons in that direction, and there were also Dragon Demons that covered the sky and the earth from all other directions.

"Hurry up and enter the Gate of Heaven and Earth, otherwise it'll be too late!" A Great Elder suddenly made a decision and shouted as he rushed towards the Heaven and Earth Gate.

If they were to hesitate any longer, the Dragon Demons would surround them and lead them in every direction!

When everyone saw that large group of Dragon Demons, they had already lost all will to fight. The difference in strength was too great. No matter how hard they fought, it would still be difficult to beat them.

"The past few years after the Dragon Devil Emperor Venerable was sealed, you have become much smarter!" Lin Jitian laughed, he was not afraid at all.

"I don't know how it is inside the Myriad Tao Mausoleum now. It won't be as safe as it was in the past." Bat Super Venerable said, "Don't be so optimistic."

The group ran very fast, and soon they entered the Heaven and Earth door. When they got close, they could see that there was a large amount of black fog inside the Heaven and Earth door.

It was this black fog that covered everything in it.

"Everyone, be careful. The Myriad Tao Mausoleum might not be as safe as it was in the past. When you go in, you must definitely be with your own team." an old man shouted. Everyone had already arrived in front of the black fog.

Many people had already dove head first into the black mist. Chen Xiang, Lin Jitian and the Bat Super Venerable looked at each other for a moment, then rushed in as well.

"There are a large number of Evil Souls, be careful!" This was Chen Xiang's voice. He was the most sensitive to Evil Soul, so the moment he entered the black mist, he could immediately feel it.

Everyone quickly passed through the black fog and arrived at a very spacious stone room. The stone room was lit up by a dim light, upon closer inspection, they could see that there were many Night Light Stones at the top of the stone room, but they were all hidden by the dark Evil Soul.

Chen Xiang counted the times and everyone smoothly came in, no one was in danger within the black fog. And recently, many late stage Overlord elders all set up enchantments, and then used their abilities to kill all the Evil Souls inside. It took less than an hour for dozens of Overlords to take action together to solve the problem.

When people were puzzled, the Dragon Demons outside didn't come in!

"Those Dragon Demons didn't come in. What's going on?" Chen Xiang was very suspicious. Many people had the same idea, and some of them already walked towards the back. After trying it out, they realized that they could still go out.

"The Dragon Demons haven't come in yet. They've already sealed off our escape route." An old man came in and said.

"What exactly are these Dragon Demons doing? Do we have to be trapped here? Myriad Tao Mausoleum is so weird, it wasn't like this the last time we came in!" A middle-aged man surveyed his

surroundings. This extremely spacious stone room had already become very bright, as though it was day.

The stone room was empty. There was nothing inside, and there was no door. He didn't know how to proceed.

"How did you come in before?" Chen Xiang asked. He used the Dao heart Eye to look around, but didn't find anything else.

"When we came in before, there were many tunnels, and every tunnel was very wide. There were many doors on both sides of the tunnel, and those doors were tomb chambers with many things hidden inside. "In short, there are many tunnels."

Just as the man finished speaking, he suddenly heard a rumbling sound. The stone chamber began to shake, and then two wide tunnels appeared. There were only two tunnels on the stone wall, unlike what the man had said earlier, there were many more!

However, these two tunnels were very wide, allowing more than ten people to walk side by side. The two tunnels also had many branches and stone rooms.

"Yes, yes, that's it." That person shouted in shock, "Why have you only appeared now?"

"This is our familiar Myriad Tao Mausoleum, there shouldn't be any changes inside, right? Everyone can go in and check, you must be careful." An elder said as he and a few other elders walked quickly towards one of the tunnels.

Chen Xiang, Lin Jitian and the Bat Super Venerable rushed towards another passage, but Bat Super Venerable and Lin Jitian were blocked outside. Only Chen Xiang could enter.

"What's going on? We can't even get in! " Lin Jitian was very surprised: "Chen Xiang, come out and take a look!"

Chen Xiang walked out, but did not encounter any obstructions.

"Change it!" Then, they walked into a passage at the side. This time, both he and Lin Jitian could smoothly enter.

But when Chen Xiang walked in, he was obstructed by a force. When it stopped him, the force released a weak power of space;
