

Dan God 2871

[Chapter 2871](#)

Seeing Chen Xiang coming out, the Heavenly Alchemy Sect Leader sat him down.

"I already know about your situation. You don't have to worry about the Zhao Clan, I will suppress those over there! If Zhao Clan dares to act recklessly during this period of time, I will definitely make them suffer. " Heavenly Alchemy Sect Leader's forceful words surprised Chen Xiang.

He originally thought that Heavenly Alchemy Sect Leader would be afraid of his ancestor, but now it seemed that his Heavenly Alchemy Sect Leader was actually prepared to become enemies with his ancestor.

"Leader, did something happen?" Chen Xiang asked, he also suddenly had such a feeling. "

"Latest news, there are abnormal situations in the Dragon Devil Dead Land, the number of Dragon Demons are increasing, strong Dragon Demons are also like this, and the Dragon magic poison on the Dragon Demon is even stronger, the broken Dragon Magic Dan in the Zhao Clan can't hold on for long, and they are even selling for such a high price." Mentioning this matter, the Heavenly Alchemy Sect Leader was very angry: "This is simply taking advantage of the situation. It's fine if they sell it expensive, but you actually forbid them to sell it.

"Right now, if I really need Dragon Magic Dan, even I would have a hard time refining so many. I am willing to provide cheap medicinal ingredients for Heavenly Alchemy Divine Sect's shop." Chen Xiang said: "They can sell the Dragon Magic Dan at a price of fifty million or even more. Right now, the problem is that they are afraid of the Zhao Clan, so they do not dare to take my medicinal ingredients. "

"Give me the medicinal ingredients, and I'll help you sell them. I want to see if they are afraid of the Zhao Clan or me." When the Heavenly Alchemy Sect Leader found out about what the Zhao Clan was doing, he became even more furious. If he did not urgently need power right now, he would definitely find a chance to make a move on the Zhao Clan.

Chen Xiang had given Heavenly Alchemy Sect Leader a large group of Golden Dragon Magic herbs, and Heavenly Alchemy Sect Leader was also very surprised that Chen Xiang actually had such a large amount of medicinal herbs.

Chen Xiang's You Yao Mountain Villa had a large number of these Golden Dragon Magic herbs, and he sold them at the price of thirty million each. He sold them for more than three thousand and obtained a large number of Dao crystal.

"There are even more serious situations in the Dragon Devil Dead Land. It's just that we are not certain about them yet." Heavenly Alchemy Sect Leader said in a serious tone: "Previously, Dragon Devil Emperor Venerable was already quite strong, but there seems to be something even more terrifying than Dragon Devil Emperor Venerable."

"That guy is nurturing a large amount of Dragon Demons unceasingly. He sent people to the abyss to investigate, but all of them died, they were all from the Tai Zun realm."

Dragon Devil Dead Land had always been a mysterious being, and many years ago, such a powerful being like Dragon Devil Emperor Venerable was already born. Dragon Devil Emperor Venerable was heavily injured and sealed within Dragon Devil Dead Land, but now that Dragon Devil Emperor Venerable had broken through the seal and recovered his injuries, he was even more powerful than before.

"Could it be that the Dragon Devil Emperor Venerable has another purpose for entering the Myriad Tao Mausoleum?" Chen Xiang thought about this and asked in shock: "Myriad Tao Mausoleum is also very mysterious, could it be that there is some relationship between Myriad Tao Mausoleum and himself?"

"I don't know. If only Heavenly Alchemy Venerable Ancestor and the others were still alive. Only they knew about this." The Heavenly Alchemy Sect Leader said: "Right now, the only people who are familiar with this matter are the Flying Dragon Palace Leader, but this fellow is both righteous and evil, rarely appearing, and rarely interfering with the matters of the Flying Dragon Palace."

"On the other hand, when something happened to Myriad Tao Mausoleum last time, he rushed here in a hurry. He entered the Myriad Tao Mausoleum and wandered around for a bit before returning." The Heavenly Alchemy Sect Leader said.

When he talked about Flying Dragon Palace Leader, his expression was complex, it seemed like there was some sort of story between him and the Flying Dragon Palace Leader.

"Wouldn't it be fine if we just go to the Flying Dragon Palace and ask him?" Chen Xiang said: "You should know this Flying Dragon Palace Leader!"

"Of course I know him. Speaking of him, he is my ancestor and is my grandfather's brother." Heavenly Alchemy Sect Leader sighed. "But he became enemies with my grandfather back then, and we didn't get back together."

Heavenly Alchemy Sect Leader and Flying Dragon Palace Leader actually had this kind of relationship, but Flying Dragon Palace Leader didn't seem to have come to find him, which meant that Flying Dragon Palace Leader also thought of the same thing and didn't seek revenge on his enemy's descendants.

The Great Clan Elder suddenly flew over and said, "Leader, Flying Dragon Palace Leader is here!"

Chen Xiang and Heavenly Alchemy Sect Leader revealed an astonished expression. They did not think that Flying Dragon Palace Leader would come right at the moment they were talking about the Flying Dragon Palace Leader.

"Ask him to come here." The Heavenly Alchemy Sect Leader hastily said.

The Great Clan Elder immediately left, and before long, Flying Dragon Palace Leader came over. He was dressed in black robes and had a hood covering his head, and was a tall and skinny old man with a stern expression. When he came in, he looked at Chen Xiang with his sharp eyes.

"Granduncle!" Heavenly Alchemy Sect Leader politely called out, then invited him to sit.

Flying Dragon Palace Leader nodded, and waved his hand: "I won't be sitting down, I'm just telling you, don't go to Dragon Devil Dead Land for this period of time. With your current strength, going there is

certain death! If we go and provoke him, and lure him out, we will have no choice but to quickly withdraw from the Flying Dragon Pagoda. "

With that, the Flying Dragon Palace Leader left!

Chen Xiang, Great Clan Elder and Heavenly Alchemy Sect Leader were all stunned when they heard it. There was truly something terrifying inside the Dragon Devil Dead Land.

"Why is this happening?" The Great Clan Elder was frightened, there was actually something that threatened the existence of the Flying Dragon Pagoda.

"I don't know. Even if I went to chase after him, he wouldn't tell me. My great-uncle has this kind of personality." Heavenly Alchemy Sect Leader shook his head: "Right now, the most important thing for us to do is to stop the Demonic Dragons from messing around here."

"Now we have to protect the Flying Dragon Experience Place. According to our investigations, the Draconians aren't going to enter the Flying Dragon Experience Place, they are going to destroy the Flying Dragon Experience Place. I wonder why they are doing this." The Great Elder said.

"Seems like things are getting more complicated. If I can't stay in the Flying Dragon Pagoda, could it be that I can only go on the road to enter the Myriad Tao Mausoleum?" Chen Xiang said.

The inside of Myriad Tao Mausoleum was also a very large world, it was just that the environment inside was very bad, there were even more strong people, to the weak, it was hard to survive inside.

"Chen Xiang, get ready to enter the Myriad Tao Mausoleum next time." Heavenly Alchemy Sect Leader warned.

Since Chen Xiang was able to enter the Heavenly Alchemy stone wall and pry into its secrets, Heavenly Alchemy Sect Leader felt that the secrets hidden inside would allow their Heavenly Refining Faction to become even stronger.

The Heavenly Alchemy Sect Leader didn't want Chen Xiang to involve himself in other things, so naturally, he was prepared to enter the Myriad Tao Mausoleum. Chen Xiang had just returned from the Myriad Tao Mausoleum, and he was already at the Tai Zun realm.

"Alright, when is the next time Myriad Tao Mausoleum opens?" Chen Xiang asked.

According to the information I received, there are still about nine months left. The Myriad Tao Mausoleum is opening more and more frequently, and this is mainly opened by the Divine Ghost Imperial Country. The Heavenly Alchemy Sect Leader patted Chen Xiang's shoulders: "Work hard. I'll bring you into the Myriad Tao Mausoleum when the time comes."

[Chapter 2872](#)

After Heavenly Alchemy Sect Leader left, Chen Xiang immediately returned to his room to refine Dragon Magic Dan.

The Dragon Magic Dan that he refined had been refined using many Crash s, so he had given this kind of Dragon Magic Dan to Lin Jitian and the Bat Super Venerable before.

Now that such a huge change had occurred in the Dragon Devil Dead Land, he was very worried. Therefore, he had to refine a few more high quality Dragon Magic Dan to protect himself.

One month had passed and the result of the Primordial Blood Coconut Tree in You Yao Mountain Villa had come to fruition. He was prepared to use the blood in the Primordial Blood Coconut to refine the Huazun Dan.

As long as one person from Jiang Sijing's group could step into the Tai Zun realm, they could use the Twin Life Mysterious Technique to synchronize themselves.

"The blood of the Supreme Blood Yam is truly powerful. This godly fruit is truly strange." Chen Xiang exclaimed, "The blood within the Supreme Blood Coin is much stronger than the blood of an ordinary late stage Six Gods Stage."

Chen Xiang took a careful look at the blood inside the Blood Coconut, and realized that there was a lot of blood inside. It was very thick, and he felt that it would only take ten of the Blood Coconut to refine one Huazun Dan.

"Alright, I'll start refining it now. This Supreme Blood Coin is really out of my expectations!" Before, Chen Xiang also only had the Supreme Blood Coin, so he didn't open it carefully to have a look.

Now that the coconut tree had produced so much of the Supreme Blood Coconut, he took a closer look.

Chen Xiang started to refine the Huazun Dan. This time, the refining process was different from last time, but the difficulty was still the same.

He first put all the ingredients into the pill furnace, then opened a piece of the Rare Blood Coconut. He poured the blood from the Coconut Fruit into the pill furnace, and then guided the blood into the source energy.

It had only been a short while, but Chen Xiang was already very excited, because this method worked. He saw that the six different source energies had all changed, and these changes were all the same as when he used his own blood to refine the pill.

Then, he continued to refine according to this rhythm. After ten days and ten nights, he successfully refined a Huazun Dan.

What he did not expect was that the quality of the ingredients he had refined this time was much better than what he had eaten last time. He immediately handed "them over to Jiang Sijing and Jiang Simei.

Then, Jiang Simei decided to eat the Huazun Dan.

After she ate them, Chen Xiang and Jiang Sijing continued to busy themselves with their work.

"Sijing, if you succeed, you will need to plant more of those Supreme Blood Cores." Chen Xiang said: "Perhaps when the time comes, we will need to help even more late stage Six Gods Stage s to step into the Tai Zun realm, or sell some in exchange for Dao crystal."

Chen Xiang already had a lot of Dao crystal, and he did not really "flower" them, but he still felt that the Dao crystal was very useful.

For example, Divine Ghost Imperial Country often opened the Gate of Heaven and Earth to let outsiders in just to earn a large amount of Dao crystal.

Why does the Divine Ghost Imperial Country need so many Dao crystal? Although Chen Xiang didn't know, he was sure that the Myriad Tao Mausoleum would need a large number of Dao crystal to do something important.

Therefore, he wanted to take this opportunity to earn more Dao crystal before entering the Myriad Tao Mausoleum.

When he walked out of the house, he saw that the Master Wang was also in the courtyard.

Master Wang's face was filled with joy, he was in a very good mood. When he saw Chen Xiang, he anxiously laughed and said: Haha, I have finally succeeded in refining the Huazun Dan, I have not succeeded in refining this kind of pill, it took me many years, I never thought that a brat like you would actually find a way, it is truly admirable.

"Elder Wang, I've already successfully refined it with the Supreme Blood Coconut. I just don't know how effective it is right now. I've already sent someone to test it." Chen Xiang said: "I will tell you about it later!"

Master Wang laughed: "Alright, I also want to test this Huazun Dan. Although you are able to eat this pill and enter the Tai Zun realm, if you are you, perhaps other people are different from you."

"Elder Wang, if this kind of pill can really allow late stage Six Gods Stage to easily step into the Tai Zun realm, then how many Dao crystal s should this type of pill be sold for?" Chen Xiang asked, if it was really possible, he would definitely use this pill to earn some money.

"At least a hundred billion Dao crystal s. Even though it's very expensive, it's definitely worth this price." Master Wang said, "Firstly, the effects of this pill are very mysterious. Just by its effects alone, it already far exceeds this price, and many people would definitely be willing to pay such a price for it. Furthermore, the medicinal ingredients used are rare, making it difficult to grow."

"A hundred billion Dao crystal is only a conservative estimate. If it's an auction, then the price is ... "Tsk tsk, they must be higher." The Master Wang said.

"Really? People in the later stages of Six Gods Stage were that rich? If they were not so rich, would the people behind them be willing to pay such a heavy price for them? " Previously, Chen Xiang's estimation of this kind of pellet was only 10 billion Dao crystal s, he thought that this was the limit of what the later stages of Six Gods Stage could endure.

"You don't understand. If you have sons, grandchildren, disciples, and you have a large number of Dao crystal, are you willing to give up billions of Dao crystal for them to allow the younger generation to easily step into the Tai Zun realm? You must know that if you are unable to step into the Tai Zun realm, you will die of old age after all. This is equivalent to extending your life, and furthermore, you will be able to obtain an even more powerful strength. " The Master Wang laughed.

Chen Xiang felt that it was true too. Although they could sell it, he felt that this kind of miraculous pill would benefit even more people.

This way, he could obtain even more Dao crystal!

If it wasn't that easy to get his hands on the ingredients, he would definitely not think like this and would try his best to sell the pill at the highest price.

Right now, he had a method to quickly obtain this kind of rare medicinal ingredient, so he felt that he should do something to give more people who have no hope of entering the Tai Zun realm the chance to consume this pill.

Chen Xiang told the Master Wang of his thoughts, which the latter listened to, nodding his head and praising: "Your thoughts are very good, allowing more people to enjoy the mysterious pill you concocted, this is also a kind of Dao pill spirit."

"If it is really useful, then I have decided to sell the method to refine this kind of pellet and the seed publicly, and promote this kind of Huazun Dan." Chen Xiang said.

"Alright, if you need my help at that time, I am willing to do such a thing for you." The Master Wang said.

After finishing the conversation with Chen Xiang, Master Wang went to find someone to try out his Huazun Dan.

Jiang Simei who was in the You Yao Mountain Villa still needed a period of time before he could fully display the effects of the Huazun Dan's medicine, but during this period of time, Chen Xiang made a trip to the Original Tao Gate.

He originally wanted to look for Lin Jitian, but he found out that Lin Jitian had already left the Original Tao's Door.

Lin Jitian and Bat Super Venerable's relationship was currently very good and they had been together for a long time. Chen Xiang guessed that he should have gone to find Bat Super Venerable.

But Bat Super Venerable had said before that he wanted to charge into the Venerable ancestor realm!

"Where did Uncle Long go?" Chen Xiang really wanted to ask Lin Jitian about the Myriad Gods Abyss, even though he had not decided whether or not he should go.

Just as he was about to leave the Original Tao, he suddenly felt a strong aura approaching him.

He was quite familiar with this aura.

"It's the Leader of the Six Great Divine Sects s." Chen Xiang was shocked in his heart, "What is he doing here?"

[Chapter 2873](#)

The Original Tao was the number one sect of the six Divine Sects s, however, Chen Xiang had heard from him that the s that rarely came here were at most Elders.

Chen Xiang guessed that the Six Realms Sect Leader was here to inform the disciples of the Original Tao so that they would pay attention to the Dragon Devil Dead Land.

"Chen Xiang, wait!" Just as Chen Xiang was about to rush down the mountain, he was suddenly stopped by the Six Realms Sect Leader.

He did not expect that Six Realms Sect Leader would actually come to call him. He immediately stopped and asked: "What is it?"

"Follow me!" The Six Realms Sect Leader said, following that, he flew in the air, Chen Xiang immediately flew up and followed behind him.

Chen Xiang had guessed wrongly, the Six Realms Sect Leader had actually come for him!

He followed the Six Realms Sect Leader out of the Original Tao's Gate and arrived at a barren mountain.

"Six Realms Sect Leader, what's the matter?" Chen Xiang asked in confusion.

"Yes, do you have a Divine Equipment with you? This Divine Equipment is related to the Six Realms magic kungfu." Six Realms Sect Leader asked.

"That's right!" Chen Xiang's Six Realms mirrors was a pretty good Divine Equipment, it had been by his side for a long time and was very useful.

"Can I have a look?" Then, he took off the bamboo hat on his head. To Chen Xiang's surprise, his appearance was actually very similar to Heavenly Alchemy Sect Leader's.

"What is your relationship with the Heavenly Alchemy Sect Leader?" Since Chen Xiang did not take out the Six Realms mirrors, he was still a little worried about the Six Realms Sect Leader.

"He's my big brother ... Our Four Great Divine Sects are the four brothers. " Six Realms Sect Leader laughed: "Didn't he tell you?"

Chen Xiang shook his head. Even so, he still did not fully trust Six Realms Sect Leader.

"Alright, I'll go look for my elder brother now and have him come over... Sigh, my Six Realms Sect Leader has also failed, you are a disciple of a 'sect' of the Original Tao, but you do not trust my Six Realms Sect Leader, but trust him. " Six Realms Sect Leader laughed at himself.

Chen Xiang spread out his hands: "Sorry, I have to be on guard against people, I have to be on guard against people, I have been like this before, so I have to be on guard!"

The Six Realms Sect Leader was a Dao Ancestor, but Chen Xiang felt that if he ran, the Six Realms Sect Leader could not do anything to him.

You go back to the Heavenly Alchemy Divine Sect first, and I'll look for you there. The Six Realms Sect Leader said.

"Alright!"

Chen Xiang anxiously returned to the Heavenly Alchemy Divine Sect, he was already at the early stage of the Tai Zun realm, so when he used the spatial energy to teleport, he teleported even further, allowing him to quickly return to the Heavenly Alchemy Divine Sect.

He waited in Heavenly Alchemy Divine Sect for a few days, and Heavenly Alchemy Sect Leader and Six Realms Sect Leader finally came.

After the Six Realms Sect Leader arrived, he chuckled and said, "Now you finally believe me, right?"

Heavenly Alchemy Sect Leader also laughed: "Chen Xiang, just let him take a look at that divine weapon. With me here, he won't take it."

Chen Xiang took out the Six Realms mirrors and handed it over to the Six Realms Sect Leader, saying: "This is called the Six Realms mirrors, when I obtained it, I also obtained the Six Realms magic kungfu from inside.

Six Realms Sect Leader took a look and said with a frown: "It is indeed a very powerful divine tool. No wonder when I saw you, I could always faintly feel a unique aura."

"Then Six Realms Sect Leader, what do you think of this?" Chen Xiang asked: "The most amazing thing about Six Realms mirrors is that it can replicate all kinds of formations. It's just that while replicating, it requires more dao energy to maintain it, allowing it to be completed in a short period of time."

"You probably don't know the more powerful ways to use it yet!" Six Realms Sect Leader chuckled, then returned the Six Realms mirrors to Chen Xiang.

There were stronger Six Realms mirrors s! After Chen Xiang received it, she anxiously asked: "How do I use it?"

Heavenly Alchemy Sect Leader was also very curious as he looked at his younger brother.

"Have you heard of Six Realms Time and Space Door?" The Six Realms Sect Leader said.

Chen Xiang shook his head.

Heavenly Alchemy Sect Leader knew about it and immediately replied: "I have heard about it, Six Realms Time and Space Door is a very strange place. Legend has it that there's a big door in it, after you grasp it, you can control the Six Paths of Samsara, but I do not know what its uses are."

"By mastering the Six Paths of Samsara, one can decide one's life and death, and one can control one's destiny. However, that isn't something which an ordinary person can do." The Six Realms Sect Leader said, "That 'Six Daos Gate' is itself a very strong and independent existence. Humans cannot control it, but we can use it!"

"What are the benefits of using the 'Six Daos Gate'?" Chen Xiang asked.

"The advantage is that you can use the 'Six Daos Gate' to travel to any place, and you can see anyone's fate through the 'Six Daos Gate'. Once you know where that person is, you can go there freely." Six Realms Sect Leader said, "However, this still requires a certain amount of Spatial Force. You should have already cultivated it to the Spatial Path, so it shouldn't be a problem."

Chen Xiang looked at the Six Realms mirrors in his hand and said: "You mean to say, my Six Realms mirrors can help me enter the Six Realms Time and Space Door?"

"Yes, but you need to cultivate in six different types of Law bloodlines before you can do that." Six Realms Sect Leader asked: "Do you have six Law beads now?"

"No!" How could I possibly prepare such a thing at any time? " Chen Xiang spread out his hands: "Where can I 'get' them, if you need Dao crystal s, it won't be a problem, I don't lack any Dao crystal."

"I only have ten pills here. Generally, it requires a hundred pills. " Six Realms Sect Leader took out ten six Law beads s.

"Ten is enough." Chen Xiang laughed: "I only need to refine it once, I will be refining it now." That's right, after I have cultivated the power of the six laws, how can I enter the Six Realms Time and Space Door? "

"When the time comes, as long as you are able to comprehend it yourself, you only need to use your six dao principles to activate a sufficiently powerful Six Realms' Power." The Six Realms Sect Leader said.

"Alright, I'll give it a try now." Chen Xiang quickly entered the house to refine six Law beads s.

... ..

"Big brother, if he can enter the Six Realms Time and Space Door, when the Heavenly Refining Great Dao is unable to hold on, he will be able to enter the Six Realms Time and Space Door to rest. He will come out after resting." Six Realms Sect Leader said: "He entered the early stage of the Tai Zun realm so quickly, which is already very impressive, but it is not enough for him to pass the Heavenly Refining Great Dao."

"I know, I hope he can succeed. Whether or not Flying Dragon Pagoda can be saved all depends on him, so we must help him." Heavenly Alchemy Sect Leader said: "That's right, if Zhao Clan does anything at that time, you can help me out and eliminate all of them."

"Don't worry, that won't be a problem!" I'll go back first. When he succeeds, you can tell me. " After Six Realms Sect Leader finished, he left in a hurry.

Chen Xiang, who was refining the six Law beads, did not know that he was being entrusted with such an important responsibility. Heavenly Alchemy Sect Leader did not tell him, but she did not want him to feel too pressured because of this.

[Chapter 2874](#)

When Chen Xiang returned to the house, it only took him one day to refine all of those Law beads. After eating them, he started to cultivate the six types of bloodline laws ...

As long as he had enough Law beads, cultivating dao veins was a very simple task. Chen Xiang's current cultivation speed was extremely fast, on one hand, the Law beads that he had refined before had the power to quickly refine them himself.

The other thing was that if he used the Heavenly Alchemy immortal power to refine it, it could be faster.

It was always within three days that Chen Xiang successfully cultivated all six types of bloodline.

"Dao channels are pretty good at cultivation!" Now let's see if we can open the Six Realms Time and Space Door through the Six Realms mirrors. " Chen Xiang took out the Six Realms mirrors and circulated the Dao Energy in his body.

Dao energy gushed out through his meridians, turned into Six Realms' Power, and flowed into the Six Realms mirrors.

After the Six Realms' Power entered the Six Realms mirrors, the Six Realms mirrors's mirror immediately released a golden brilliance. Chen Xiang looked at the mirror's golden radiance and his eyes flashed.

"It's just my consciousness entering, that's all. My body is still in the Heavenly Alchemy Divine Sect, could this be the Six Realms Time and Space Door?" Chen Xiang looked at the white pearls one by one. He looked at one of them, wanting to use his consciousness to investigate it, but he did not succeed.

"Now that I have entered the Six Realms Time and Space Door, how can I find someone's wheel and teleport to that person's side?" Chen Xiang's mind thinking about Xue Xianxian, only to see a white bead suddenly flying in front of him.

"Is this Xianxian's wheel of ingyun?" Chen Xiang really wanted to laugh, but he could not see it at all, but he could feel Xue Xianxian's exuberant life force from this wheel. This life force was filled with liveliness and joy, Xue Xianxian was originally a very optimistic and cheerful woman.

"It seems like she's living a good life now!" Chen Xiang couldn't help but smile, and then, he grabbed the wheel of ingyun and tried to sense Xue Xianxian's position.

Very quickly, he had a feeling. This feeling was unclear, but he knew that Xue Xianxian's current location was very far away from him.

"Let's see if we can teleport there." Chen Xiang immediately used the power of space and wanted to open a spatial tunnel to go over.

He had not succeeded, and he had expended a great deal of spatial energy, so he had no choice but to rest.

"Looks like I don't have enough strength to open up a spatial passageway and head back!" Just now, Chen Xiang could feel that his own spatial energy was continuously being transmitted out, and he wanted to pry open a large door. However, after he exhausted all of his strength and before that large door opened, he had no choice but to give up.

Chen Xiang thought for a moment, then left the Six Realms Time and Space Door. He needed to recover now, the consumption just now was too huge, causing him to be extremely listless.

He had to rest for an entire day to recover. He had lost a lot of blood while refining the Huazun Dan, so he didn't need to rest for that long.

To teleport across the Life Wheel was extremely difficult, especially when crossing a world. The consumption was even greater.

"This time it's in Flying Dragon Pagoda, this should be okay!" Chen Xiang took out the Six Realms mirrors and entered the Six Realms Time and Space Door.

He was already very familiar with it now. He would be able to enter the Six Realms Time and Space Door in a short amount of time and also be able to find the Injun Wheel that he was looking for.

This time he was looking for Lin Jitian!

He had previously gone to Yuan Shi Tao School to look for Lin Jitian, but he did not find him. He did not know where Lin Jitian had gone to, and now he wanted to see if he could teleport to's vicinity.

"Alright, take a look!" Chen Xiang took a deep breath, then, with a thought, he channeled a large amount of spatial energy, teleporting himself near Lin Jitian.

He could sense Lin Jitian's approximate location through Lin Jitian's ingyun wheel. This location was not exactly accurate, and would usually not be able to be teleported to that person's side, and would only be nearby.

In the blink of an eye, Chen Xiang felt that more than half of his power had been used up!

At the same time, he appeared on a desolate mountain. He looked around and found that there was no one here.

"What kind of place is this?" Uncle Lin is here? " Chen Xiang closed his eyes and entered the Six Realms Time and Space Door once again. After confirming Lin Jitian's exact location, he sprinted towards a small mountain, and found that Lin Jitian was right in the direction of the small mountain.

Chen Xiang arrived near the short mountain and observed around it for a while before he found a cave that was blocked by a large rock.

"Uncle Lin is inside?" Chen Xiang immediately teleported. Chi so, there was no need to move the rock.

After entering, Chen Xiang could already feel Lin Jitian's aura. He quickened his pace and quickly found Lin Jitian.

Lin Jitian was currently sleeping soundly on a stone bed, and was not cultivating.

"Uncle Lin!" Chen Xiang laughed and shouted, shocking Lin Jitian who suddenly jumped up.

After Lin Jitian sat up, he was extremely alert and almost attacked Chen Xiang, but after knowing that it was Chen Xiang, he also relaxed.

"Brat, how did you find me?" Lin Jitian was very curious about this. He felt that he had stolen it secretly and no one would know that he was here.

It would be alright if beasts from above were to accidentally enter this place, but the one who came was Chen Xiang, so he would still come in quietly.

"This is a unique skill that I've just learned." Chen Xiang laughed, "Impressive! By the way, where is this place? Uncle Lin, why are you hiding here? "

"You actually don't know this place?" So how did you get here? It appeared out of nowhere? " Lin Jitian was even more curious.

"I used teleportation to come here. Of course I don't know what kind of place this is!" Chen Xiang took out a chair and sat down, then asked: "This place is lifeless, what kind of place is this? Why did you come to this place without saying a word? "

"You don't know, this place is very strange. When I first entered the Yuan Shi Tao School, one of them brought me here." Lin Jitian said: "That Zhiongdi of mine is also a mysterious fellow. He has always believed that there is something hidden in this place."

"He brought me here several times. He was looking for that thing. I didn't believe it at first, until he was bitten to death by a rat here ... I believe there was something really powerful hidden here, and then there was a strange light here, and then overnight the whole area became bare. "

After listening to Lin Jitian's story, Chen Xiang also felt that it was very strange, and asked: "What kind of strength is that? He was actually bitten to death by a mouse? "How old is that mouse? Is it poisonous?"

Lin Jitian shook his head: "That mouse is only the size of a palm, it isn't poisonous! That mouse was extremely terrifying. It bit off a piece of my chest and drilled into my body, instantly devouring all of my bones and flesh. My strength is not weak either, he is in the middle stage of the Tai Zun realm. "

[Chapter 2875](#)

Chen Xiang couldn't believe that a middle stage Tai Zun realm could actually be eaten by a palm-sized mouse, even now, he couldn't believe it was real!

"Uncle Lin, you are taking too much risk!" There is such a powerful mouse here, and you still dare to sleep here! " When Chen Xiang came in just now, he saw Lin Jia sleeping soundly. The updates were quick.

Lin Jiexi scratched his head and smiled, "I am just a bit tired ..." But don't worry, there aren't any rats in this area. I've been searching around here for some time. "

Lin Jia took out a pearl and said, "As long as those mice approach, the pearl will light up! There will also be a lot of noise, and the rats can only move in one area, and once they leave that area, they will immediately die. "

"Uncle Lin, have you ever seen that kind of rat?" Chen Xiang also wanted to go take a look. He felt that it wouldn't be that easy for the mouse to eat him.

"Of course I've seen them before, didn't I? I've searched around here for a while, so I'm sure there's a Spirit Formation here, and those mice that are sealed within the Spirit Formation cannot escape. I was almost killed several times within the Spirit Formation, and those things are really very scary." Lin Jiexi said: "Chen Xiang, you're here now, do you want to come with me to take a look inside the enchantment?"

"Of course you can!" Chen Xiang was also very curious about the barrier, and hurriedly said, "Hand it over to me for defense."

Bat Super Venerable had previously told Lin Jia that Chen Xiang had extremely powerful defensive skills and escaping abilities in the Dragon Devil Dead Land, so Chen Xiang suddenly coming here was a good thing for Lin Jia Lai.

After Chen Xiang and Lin Jia walked out of the cave, they took out the Six Realms mirrors and sat on top of it together.

"Chen Xiang, fly higher! When the time comes, you will know where that region is!" Lin Jiexi said.

It had only been an hour, and he could already see that below him, there was a region that was surrounded by a large number of mountains. If he were to draw a straight line between those mountains, then the outside of this region would be a hexagon.

"Using the mountain as the starting point to draw formation patterns, this is a very ancient and powerful formation." Chen Xiang had some knowledge of array formations. After all, his few women were extremely adept in this area.

"This area is indeed very strange, especially this Spirit Formation. It does not restrict anything from entering or exiting from the outside, but it does restrict anything from exiting." Chen Xiang said, then controlled the Six Realms mirrors to fly downwards.

Lin Jia nodded, "There are quite a few of those rats. When I went in, I saw more than ten of them, and they wanted to attack me as soon as they saw me. I don't know what was in those rats, but my brother had been searching this area for a long time and died without finding anything."

The brother that Lin Jia spoke of was a companion that he had good relations with. When he mentioned this matter, he could not help but feel sad.

"Then did he find out anything about this place?" I think he must be hiding something from you. "Oh right, where is this place located?" Chen Xiang asked.

Lin Qi said: "Flying Dragon Palace is only three miles from here, and Flying Dragon Experience Place is also in the vicinity, but this place has always been deathly still, and is known as the Flying Dragon's Death Grounds! Flying Dragon Experience Place and Flying Dragon Palace are rather lively at the edge of the wyvern death zone. "

"This is Flying Dragon Palace's territory!" Chen Xiang did not expect him to cross such a long distance in an instant, and arrive here from the Refining Divine Sects.

"Yes!" Have you never been here before? Flying Dragon Palace is right around here. I originally wanted to invite Bat over, but he's still in closed door cultivation, so he came alone. " Lin Jiexi said.

Bat Super Venerable was still in closed-door training to break through the Venerable ancestor realm. If he successfully made a breakthrough, he might become the most eccentric ancestor in all of history.

Chen Xiang had already brought Lin Jia De into the enchantment, but just as they entered, he felt an ancient Qi, accompanied by a warm wind, which was strange and mysterious.

This area was still quite large, and there were tens of thousands of mountains here. It was a very important area.

The reason why the barrier was able to restrict the strange rats from escaping was because of the powerful barrier created by the formation on the mountain.

After Chen Xiang entered, he was so careful that he did not dare to come into the 'mess', as he was afraid that he would destroy the formation of the barrier.

"Where is the mouse?" Chen Xiang looked around and asked.

There was plenty of light inside. The sunlight was shining everywhere and everything could be seen clearly.

However, Chen Xiang did not see Lin Zong's terrifying rat.

"He must be hiding somewhere. If he wants to meet these rats, he'll have to stay here for a while longer." Ever since Lin Jia had entered this area, he had been somewhat nervous and on high alert. That terrifying rat had left behind a very large shadow for him.

Chen Xiang urged his Six Realms mirrors to move quickly towards the deeper parts of the region.

After flying for a while, he suddenly saw a black shadow approaching. Chen Xiang had extremely good eyesight, with one glance, he could tell that it was a palm sized black colored mouse, no different from a normal mouse, only its face was darker.

"It appeared!" Lin Jia immediately shouted out loudly. He threw out a beam of light from his hand, sending that terrifying rat flying.

The terrifying rat's speed was indeed very fast. If it wasn't careful, it would definitely be attacked!

His attack speed was very fast, Chen Xiang just saw the terrifying rat, and was already sent flying by Lin Qi.

He could tell that Lin Jia had a lot of experience dealing with this kind of rats!

"So powerful, he actually didn't die!" Chen Xiang felt that Lin Jia Village's attack was scary, but he didn't kill the rat when he entered.

The rat was sent flying. It whizzed away as it landed on the ground. The speed at which it escaped was very fast.

"How is it, I'm not lying to you, right? "The rats here are like dogs. The moment someone gets near, they will immediately attack." Lin Jia had just finished.

The Space Domain that Chen Xiang released immediately sensed that a terrifying rat was quickly approaching and arrived at the bottom of his Six Realms mirrors.

The Six Realms mirrors had long released a very strong protective shield, so Chen Xiang was not very worried.

However, after that terrifying rat jumped up, it unexpectedly produced a very powerful force, charging forward from the Six Realms mirrors's point of view.

In just an instant, the Six Realms mirrors was sent flying high into the sky. Luckily Chen Xiang was able to stabilize the Six Realms mirrors in time, otherwise, it would have flown even higher.

"These things are too scary!" Chen Xiang was also covered in cold sweat. This kind of terrifying rat, its strength was equivalent to a Late period of Tai Zun realm.

[Chapter 2876](#)

If anyone from the Tai Zun realm came in, no matter how cautious they were, it was still very difficult to guard against this kind of rat!

Before, Chen Xiang did not think so, but now, he suddenly admired Lin Jia, the person who was walking in and out of this place was actually still alive.

"Find a way to catch one!" Chen Xiang suddenly said, seeing him being so foolish, Lin Jia was startled.

"Ghost, this is very dangerous. What do you want this thing for?" Lin Jia found it hard to understand, and he didn't want to do that because it was too dangerous.

"Catch it and take a look, why is this thing so powerful!" Chen Xiang said: "There must be a reason why this terrifying rat is so powerful. It might even be able to discover something from the inside."

Chen Xiang laughed, "This thing is like a treasure to me! "Oh right, Uncle Lin, have you ever killed this kind of rat before?"

"Where is it?!" It was good enough that he wasn't killed by the rat. He actually wanted to kill the rat? This kind of rat is hard to kill. " Lin Qi shook his head.

Chen Xiang took out the Chuangshi god furnace!

The Chuangshi god furnace gradually grew larger under his control, then he increased his flying speed. Not long after, he sensed a terrifying rat approaching, so he immediately controlled the Chuangshi god furnace to fly over and cover the mouse.

His speed was still a bit too slow, and the rat dodged him.

Chen Xiang did not give up and continued to try. With his previous experiences, he was now very cautious of these rats, as long as a mouse approached him, he would immediately use Spatial Teleportation to avoid their attacks, to avoid being knocked away by the energy.

"What exactly is hidden inside? There are actually so many terrifying rats guarding it! " Chen Xiang felt that these mice were here to protect this place.

Half a time had passed, and he had tried using the Chuangshi god furnace many times, but failed to catch a single rat, as he was always a little bit off, and those mice were also unable to attack the Six Realms mirrors.

Lin Jia also relaxed when he saw how safe it was on the Six Realms mirrors.

"It's really hard to catch!" Chen Xiang took out another one. This was also a Divine Dao tool, but it was a bit weaker.

The rats here flew around everywhere as the number of them increased. They were all attacking Chen Xiang's Six Realms mirrors, the rats had never seen such an intruder before.

If it was before, when he was attacked by so many rats, as long as it was a Tai Zun realm, he would definitely die.

Lin Jia knew that it was very safe above the Six Realms mirrors, but seeing so many rats leaping about, his entire body was covered in cold sweat, if these rats could break through the Six Realms mirrors's defense, he and Chen Xiang would probably be eaten alive by these rats.

Chen Xiang then released his Spirit Qi and at the same time, controlled the coordination of the Chuangshi god furnace!

It finally worked. Finally, it managed to hold on to a mouse, and after it was captured, the mouse struggled non-stop. Just as it was about to struggle free, Chen Xiang's Chuangshi god furnace was covered up.

"Got it!" Chen Xiang shouted happily, and then, he controlled the Chuangshi god furnace back to his hands.

Lin Jia asked worriedly, "Is your furnace safe?" If they were to run out, we would all be in danger! "

Lin Jia did not expect Chen Xiang to catch such a terrifying rat. Seeing how the Chuangshi god furnace was shaking uncontrollably, he was worried that the rat would run out of the furnace and bite him to death.

"Don't worry, my pill furnace is very sturdy." Chen Xiang chuckled, then placed both hands on the pill furnaces, releasing an extremely strong divine might fire.

He controlled the Six Realms mirrors to fly higher, so that it wouldn't be knocked into the air by the rats below.

"What are you doing?" Lin Jia asked curiously when he saw Chen Xiang looking like he was concocting pills.

"I'm concocting pills!" Chen Xiang said.

Lin Jia was stunned, he never thought that Chen Xiang was really concocting pills!

"Heh heh, using beasts to concoct pills isn't anything strange, right? Some Alchemist s like to use beasts to concoct pills. " Chen Xiang said.

"But... A terrifying rat is no ordinary beast. " When Lin Jia saw the furnace stabilize, he hurriedly asked, "Is the rat dead?"

"I only made terrifying rats because they weren't ordinary. I wouldn't be bothered if they were normal beasts." Chen Xiang laughed: "The mouse has already been suppressed by me, it has quieted down a lot, now I will see if I can use fire to refine it."

Chen Xiang's flames were still very strong, especially when using the divine flame. It could produce an extremely terrifying heat, as if it could burn anything.

"This rat is very strange, it can actually absorb fire!" As Chen Xiang smelted the pill, he observed the terrifying monster rat in the furnace.

He had used a very strong divine flame to burn it, but that mouse had absorbed a massive amount of flames!

"It's not absorbing by itself, but the blood and flesh of a rat. Is it something that can absorb strong flames just by being alive?" Chen Xiang never thought that such a thing would happen. Although the divine flame was strong, if it was absorbed, it would be troublesome.

"Continue!" After Chen Xiang observed carefully, he determined that although this terrifying rat could absorb his divine fire, the speed at which it absorbed it was still relatively slow. As long as he could continuously increase the intensity of the flames to burn, this mouse would definitely not be able to hold on for long.

He had to burn it several times before he was able to burn the rat to death!

"He's finally dead, he's really tenacious!" Chen Xiang took out the mouse from the Chuangshi god furnace and it unexpectedly turned into a golden light that emitted a strong golden light.

Lin Jia also felt that it was very strange, he touched the golden mouse's body in his heart and shouted in shock: "This is ... This is the Myriad Tao's Golden Body that only exists in the Venerable ancestor realm Realm! "

"This rat actually has the Myriad Tao's Golden Body. No wonder it was so powerful, no wonder I couldn't kill it no matter how hard I tried."

Chen Xiang had also heard about the powerful Myriad Tao Golden Body, he never thought that such a terrifying strong body would appear on a mouse.

Chen Xiang anxiously threw the rat's corpse into the Chuangshi god furnace and said: Let me see if I can refine the pill. "Haha!"

Lin Qi took a deep breath: "Stepping into the Venerable ancestor realm, has very high requirements for the body. If I can really refine the pill, it might be able to help the strong."

Chen Xiang nodded his head: "That's right, let's give it a try first. If it's really useful, then we must catch all the rats here."

Although they haven't found the thing that was hidden here, Chen Xiang had already discovered something of value, and was waiting for him to succeed.

Lin Jia was also patiently waiting. He was currently in the Late period of Tai Zun realm, and his' flesh 'body was not strong enough. If he could be like those rats, possessing the Myriad Tao's Golden Body would be much easier for him.

After Chen Xiang refined it for a while, he frowned and said, "The Myriad Tao's Golden Body is not good for incineration. As expected, it is a very strong body, and this will take a very long time."

...

[Chapter 2877](#)

A small mouse already possessed the Myriad Tao's Golden Body. To be able to raise such a mouse in such a place, it must be something special. Chen Xiang still suspected that someone intentionally placed these mice here to protect this mysterious place.

"It would be great if I could succeed. After taking this pill, my physical body will definitely improve very quickly." Chen Xiang now really hoped that he could become stronger and faster.

It was with great difficulty that he managed to create the Huazun Dan, but the Huazun Dan only helped him step into the Tai Zun realm.

Therefore, Chen Xiang needed to find another type of pill to quickly become stronger.

"Have you made any progress?" Lin Jitian had always been patiently waiting. After the perspiring Chen Xiang opened his eyes, he immediately asked.

"No, the Myriad Tao's Golden Body is very difficult to burn. I have to burn it to refine it into a pill!" Chen Xiang sighed: "I'll have to wait a little longer. It's only been a day since I started, after a few days, will I be able to move it?"

Lin Jitian nodded his head: "Just focus on your pill refining, I'll be fine here."

Although Lin Jitian was afraid of those mice, but if they came, he could still hold them off for a while.

"Alright!" Chen Xiang then released an even stronger Fire of Heavenly Alchemy power to burn the mouse that had the Myriad Tao's body inside the pill furnace.

After Chen Xiang refined it consecutively for two days, he realized that there was still no change to the mouse.

This made him want to give up, because it was simply too difficult to burn!

"We can only look at the Chuangshi god furnace!" Chen Xiang activated a igniting array inside the Chuangshi god furnace, causing his flames to become even more intense.

If he did this, then in order to maintain the operation of the formation, it would consume a lot of his Dao power. Right now, he was in a rather dangerous place, so he hadn't done this before.

Now, in order to refine this mouse, he had no choice but to use it, and at the same time, controlled the Six Realms mirrors to fly out of the barrier.

Outside the barrier, the terrifying rat would be safer.

After leaving the barrier, Chen Xiang was even more daring to refine it. After using the fire supporting array formation of the Chuangshi god furnace, his fire intensity increased by more than twofold.

After increasing his strength, he could clearly feel some progress.

"There's movement!" Chen Xiang burned continuously in this state for two days, and finally, he had some progress. This made him very excited.

As long as it can be incinerated, there is hope that it can be refined into a pill.

"Really?" Lin Jitian was also happy and shouted.

"Hehe, with this speed, in ten days, I'll be able to burn that mouse's body." Chen Xiang laughed, he had already determined that the igniting array formation inside the Chuangshi god furnace was effective, so he decided to operate it like this.

However, the refining speed was still too slow for him. He controlled the Six Realms mirrors to leave this place and return to the cave where Lin Jitian stayed before.

After entering the cave, he took out many Dao crystal and placed them inside. In this way, the array formation inside the Chuangshi god furnace would be maintained by the Dao crystal.

If he were to use his own power, it would be hard for him to maintain the six burning array formations that he had just activated.

In addition, he also wanted to place the Six Realms mirrors inside the Chuangshi god furnace, so the Six Realms mirrors could release an even more powerful igniting array. This way, he would be able to burn off the mouse's corpse much faster.

This was also the reason why he had to stay away from danger. This way, he would be able to use Six Realms mirrors to help him refine pills.

Of course, relying on a few large arrays to refine pills would consume a lot of energy. Fortunately, he had a lot of Dao crystal.

With the addition of a few large formations, the flames of Chen Xiang's divine might became even stronger, and the speed of burning also became faster and faster. Within three days, the mouse's body was completely burnt and refined.

Those large formations had been in operation for three days, and had consumed thirty billion Dao crystal. Right now, he already had approximately two trillion of them, so these thirty billion Dao crystal were not really too much for him.

"This is great! I never would have thought that all these formations would be activated so quickly." Chen Xiang rarely used those large formations before, because his flames were strong enough. No matter how difficult the medicinal ingredients he encountered were, as long as he had a bit of time, he would be able to handle them.

Now that he had met this mouse with the Myriad Tao's Golden Body, he had no choice but to try this kind of formation. He had not expected it to have such a good effect.

After the rat's body was burned, it turned into a cloud of mist, which was formed from many tiny golden particles.

What surprised Chen Xiang the most was that the ball of mist was extremely thick.

"Could it be that this golden fog is what allowed the mouse to cultivate the Myriad Tao's Golden Body?" Although he was separated by a Chuangshi god furnace, when he used his mind to control the ball of mist, he was able to determine that the ball of mist was actually more than a million kilograms!

"Uncle Lin, can you see how heavy this pill furnace is!" Chen Xiang said, that ball of mist was extremely warm inside the pill furnace, Chen Xiang was not worried about anything else happening.

"Alright!"

Lin Jitian immediately walked over and picked up the Chuangshi god furnace Chen Xiang was carrying, and when he lifted it up, his eyebrows immediately furrowed tightly.

"At least ten million pounds. Good god, why is it so heavy?" Although Lin Jitian was carrying a heavy pill furnace, he looked to be very relaxed. This kind of weight was nothing for a cultivator like him.

"This was caused by that mouse being refined. I thought I was mistaken just now, so I let you see it." Chen Xiang said: "Now I will just have to see if I can refine it into a pill. If I succeed, maybe I can use this mouse's body to help me cultivate the Myriad Tao's Golden Body."

"Just look at him and you'll know." Lin Jitian said.

Chen Xiang continued to refine it, he did not consider using Crash method, the energy inside was so terrifying, if he were to charge into it, if he did not control it well, the Chuangshi god furnace would definitely be destroyed.

Moreover, it would not be easy for him to condense that energy into a pill.

Luckily, his Six Realms mirrors was able to help him. There were many large arrays within the Six Realms mirrors, and one of them was the large formation to assist him in condensing pills. It was especially effective against this kind of powerful energy with a single attribute.

In the previous refining stage, Chen Xiang took seven days, but the condensing of a core took eight days!

He had spent a total of half a month, which meant that he wanted to wait a long time.

"I've finally managed to condense a pill, let's call it Jinzun Dan!" Chen Xiang looked at the golden pellet and laughed: "Uncle Lin, I'm just looking. Please watch out for me!"

"Alright, but you have to be careful. This is something made from those mice." Lin Jitian said, his eyes filled with worry.

"Don't worry, based on my many years of experience, there's nothing wrong with this pill." Chen Xiang said as he ate the pellet.

[Chapter 2878](#)

After eating it, a burst of energy immediately exploded out, causing Chen Xiang's body to abruptly burst out with a burst of golden colored mist, as his body also expanded a little due to the energy. <>

Seeing this scene, Lin Jitian was so scared that he started to sweat profusely. He was worried that Chen Xiang would explode into pieces, so he anxiously walked over to inspect Chen Xiang's body.

"Don't worry, I'm fine." Chen Xiang grinned. Although the situation just now looked terrifying, Chen Xiang himself had felt it the most.

Although that power suddenly exploded inside his body, it didn't cause him any pain. Instead, it made him feel very comfortable.

After Chen Xiang consumed it, he felt that the pellet was like an eternal spring that continuously surged with energy. It surged crazily in his limbs and bones, flowed through his entire body, and fused into his body, strengthening his body.

After three days, Chen Xiang was finally able to recover from the swelling. After waking up, he felt that his condition was very good, but what he did not expect was that the Six souls inside his Divine Sense Sea had actually grown a lot larger.

The Six souls was originally one of six small Heavenly beast but it had clearly become larger now. He had only eaten one Jinzun Dan.

"How do you feel? Can I cultivate it to the benefit of the Myriad Tao's Golden Body?" Lin Jitian asked anxiously, he had been waiting anxiously for the past few days.

"I feel very good!" I am sure that this pill can help people cultivate the Myriad Tao's Golden Body. "Chen Xiang excitedly told Lin Jitian: "But there is a lot to be done. At least a hundred of them are needed in order for a person to cultivate the Myriad Tao's Golden Body."

A hundred pills meant a hundred terrifying rats.

"Are there many rats in that forbidden area?" Chen Xiang asked, as he understood the situation the best.

"Many, at least thousands, perhaps even tens of thousands of those rats!" Lin Jitian laughed: "Let's go, we're going to capture him now!"

"Alright!" If the Chuangshi god furnace of Chen Xiang could place a large amount of these mice, it would be easy for the Chuangshi god furnace to attack from the outside, but the defense of the inside was extremely strong. Wanting to come out from the inside was not easy.

Other than the Chuangshi god furnace, Chen Xiang could also lock the rats inside the Six Realms mirrors. The Six Realms mirrors had a few spaces that could store life, and one of them was specially made to hold strong things.

Chen Xiang and Lin Jitian went back to the enchantment once again, and together they captured the terrifying rats. They planned to use a long time to catch all the rats inside the enchantment.

To them, the mice inside were extremely precious medicine. As long as they could catch a large amount of it, they would be able to obtain a great fortune.

Chen Xiang calculated it and said that if he wanted to refine a hundred Jinzun Dan, then he would need three trillion Dao crystal s. This made him suddenly feel a lot of pressure, and right now, not only did he need to refine a hundred Jinzun Dan pills, he also needed to refine three hundred Jinzun Dan s for Lin Jitian and the other Mei Jing Sisters s. Then, that would be nine trillion Dao crystal s!

"I need to go back and earn more Dao crystal." Fortunately, Chen Xiang could sell the Huazun Dan now, so the Huazun Dan would definitely be very popular. At that time, he would definitely be able to earn a lot of Dao crystal from them.

In the following days, Chen Xiang and Lin Jitian were frantically catching rats. If they were to go back and tell others that they had been catching rats for the past few days, others would definitely think that they were joking. If it was true, they too thought that they had gone mad, to actually do such a thing!

Unknowingly, about nine months had passed. Chen Xiang felt that it was about time to return to the Heavenly Alchemy Divine Sect.

Because it was time for the Myriad Tao Mausoleum to open. He had promised the Leader s before, and this time he would go in with him.

Chen Xiang had already captured over a thousand terrifying rats, these types of rats were all imprisoned in Six Realms mirrors s, even he himself felt that it was a little 'hairy'. If these mice ran out, it would be a disaster!

"Uncle Lin, I'll come find you after I finish refining this pill!" Chen Xiang said: "Refining this kind of pellet requires time and a large number of Dao crystal. I am unable to complete it in a short period of time."

"Of course I know, as long as you remember, it's fine. I'm also going to the Myriad Tao Mausoleum this time, and I'll get a little more good stuff there. I'll sell you all the Dao crystal that I got." Lin Jitian laughed. He had seen Chen Xiang refining Jinzun Dan and he knew that one pellet would consume at least thirty billion Dao crystal.

If it was Chen Xiang taking all the responsibility of the Dao crystal, it would definitely be unbearable! Lin Jitian himself was too embarrassed to ask Chen Xiang to drop so many Dao crystal.

Chen Xiang used the Six Realms Time and Space Door and brought Lin Jitian back to the Heavenly Alchemy Divine Sect.

Heavenly Alchemy Sect Leader was already waiting for Chen Xiang at the island where the Great Clan Elder resided. Seeing that Chen Xiang had returned, he immediately asked, "Have you used the Six Realms Time and Space Door?"

"It's been used. Everything was successful." Chen Xiang responded, "How is Flying Dragon Experience Place doing now?"

"After a few huge battles, I finally managed to push back the Dragon Demons. However, the situation is still not looking good. It seems like the terrifying thing that is Dragon Devil Dead Land will pop out at any time." Heavenly Alchemy Sect Leader said: "Let's go, we are heading to Myriad Tao Mausoleum now!"

... ..

This time, the Four Great Divine Sects still arranged for many people to enter the Myriad Tao Mausoleum to search for treasures. Chen Xiang and the Heavenly Alchemy Sect Leader were together, walking at the front, and was the first group to enter the Myriad Tao Mausoleum.

Being together with Heavenly Alchemy Sect Leader, the entire journey went by without a hitch. Very quickly, arrived at Colorful Forest with Heavenly Alchemy Sect Leader, then followed him and flew towards the Heavenly Alchemy stone wall.

"At that time, it will inevitably be a huge battle." Heavenly Alchemy Sect Leader's expression was solemn: "The news of you being able to enter the Heavenly Alchemy stone wall has already spread, especially those people from the Purple Blood Clan, they will definitely come to take revenge."

"But you don't have to worry, the Leader can stop them."

Chen Xiang nodded his head: "Leader, after I entered the Heavenly Alchemy stone wall, what kind of good stuff can I get? Even though you all didn't say it, but I feel like you all are facing a great crisis. Are you all betting everything on me now? "

"We don't know what's inside the Heavenly Alchemy stone wall either. In short, it's just our hope." Heavenly Alchemy Sect Leader said: "When you walk down the path of the Heavenly Refining, if you are unable to continue, enter the Six Realms Time and Space Door and come out again after recovering. You should be able to reach the end of the path after repeating this way."

"So that's how it is... However, this would take a long time! Especially in the Heavenly Refining Road, not long after I entered, a lot of time had passed outside. Wouldn't that be the same as losing a lot of time? " When Chen Xiang thought of this, he felt a little uncomfortable.

"If you can reach the end of the path, what's so special about this amount of time?" The Heavenly Alchemy Sect Leader chuckled, "The Heavenly Refining Great Dao will not disappoint you. You just have to rest assured that you can go."

[Chapter 2879](#)

The Heavenly Alchemy Sect Leader's speed was extremely fast, and he had even taken many shortcuts. Very quickly, he arrived outside the oasis where the Heavenly Alchemy stone wall were. <>

It was just that outside this oasis, Chen Xiang could feel many powerful auras coming from the oasis, which made his heart tremble.

"What a terrifying power, just how many powerful fellows are gathered there?" Chen Xiang's heart couldn't help but start to pound. He had rarely felt this kind of fear before.

This feeling was as though he would die once he stepped into the oasis.

After Heavenly Alchemy Sect Leader brought Chen Xiang here, he did not immediately enter the oasis either. He also felt the terrifying aura from the oasis.

"This is trouble!" Heavenly Alchemy Sect Leader clenched his fists tightly. "I never thought that someone of this level would come!"

"What kind of people are they?" Chen Xiang wiped off his cold sweat and asked, he did not dare enter right now, even though he had many methods, but before that powerful existence, he was still nothing but trash.

"Divine Ghost Imperial Country's Ghost Marshal, White Bones Imperial's Bone King ... Also, the Flying Dragon Ghost Realm s of the Flying Dragon Ghost Realm, other than these, the purple, gold, white and black, powerful elders of the four Blood Clans are also here. " The Heavenly Alchemy Sect Leader frowned and said: "Right now they are gathered here, they should be here for you."

Chen Xiang was also horrified when he heard these names.

"Then what do we do? Would you like to return it to the King's Cage? " Chen Xiang immediately said: "Leader, can you deal with them?"

"No way!" Heavenly Alchemy Sect Leader shook his head. "Even if the Leaders of our Four Great Divine Sects join forces, we can only deal with one of them.

Heavenly Alchemy Sect Leader sighed: "Seems like I can only come next time, they guessed that I would bring you here this time, so they have been waiting here for a long time."

"What are they waiting for me for? They want to catch me? " Chen Xiang knew that this was related to him being able to enter the Heavenly Alchemy stone wall.

"I don't know, but it's not a good thing!" For the sake of safety, we can only wait. " Heavenly Alchemy Sect Leader patted Chen Xiang's shoulders: "Let's go back now."

Flying Dragon Pagoda was currently facing a crisis, and if this were to drag on, the consequences would definitely become even more serious. Heavenly Alchemy Sect Leader obviously wanted to pry into the secrets of the Heavenly Alchemy stone wall sooner so that they could obtain great strength and overcome the crisis Flying Dragon Pagoda was currently facing.

Just as Heavenly Alchemy Sect Leader was walking back with Chen Xiang, he suddenly saw a black shadow flash by. Chen Xiang was extremely familiar with this aura.

"Flying Dragon Palace Leader!" Chen Xiang could not help but shout in shock.

"You want to go back?" Flying Dragon Palace Leader looked at Chen Xiang, then looked at him and asked.

"There's nothing we can do. The strong from the Heavenly Alchemy stone wall are all gathered together. I'll bring this kid over. I know very well what the consequences will be." Heavenly Alchemy Sect Leader said helplessly.

"What if I accompany you?" Flying Dragon Palace Leader looked at the oasis in front of him: "However, I have a condition. After this guy enters the Heavenly Alchemy stone wall, he wanted to share the secret he obtained with me, telling me everything inside without reservation.

Chen Xiang felt that there was no problem with this, and said: "But you must also promise me, no matter what, you must not go against me, and must not become my enemy, and even more so, not kill me."

Although Flying Dragon Palace Leader did not directly do anything fatal to Chen Xiang, Chen Xiang did not have any good impressions towards him.

"How about establishing a blood contract?" The Flying Dragon Palace Leader said.

"Alright!" Chen Xiang readily agreed. He also urgently needed strength right now, mainly because he wanted to get rid of this bastard, Natural Law Divine Lord, so that he could return to Natural Law World as soon as possible.

After they had decided on the blood contract, Chen Xiang and Flying Dragon Palace Leader were extremely relieved. Then, he walked in front, with Chen Xiang and Heavenly Alchemy Sect Leader following behind him.

"Wait a minute, if they want to make a move, I will use all my strength to stall them. Then, it will all be up to you." At this time, they had already entered the oasis.

"Can you? They have so many powerful guys. " Chen Xiang said: "Your strength should be on par with the Dragon Devil Emperor Venerable. It's fine to deal with a single Dragon Devil Emperor Venerable, but there are several people there who are as powerful as the Dragon Devil Emperor Venerable."

"No problem at all!" The Flying Dragon Palace Leader said, "But I'm afraid not many people did it! In the past, the Dragon Devil Emperor Venerable killed all the Leaders, but I was the only one who survived, I am still very strong, and after so many years of closed door cultivation, I have also improved a lot! "

"The power of the Dragon Devil Emperor Venerable has decreased. This is mainly because he used most of his strength to create the Dragon Demon! Divine Ghost Imperial Country's Ghost Marshal should be here to watch the show, White Bones Imperial's Bone King should be here to help, Purple, Gold, White and Black, the Blood Tribe should be here to help as well, I can completely suppress them. "

This Flying Dragon Palace Leader was so scary, Chen Xiang was a little suspicious!

"White Bones Imperial's Bone King will definitely take action! If my guess is not wrong, this fellow should be Natural Law Divine Lord. I have a grudge with him, he will definitely come personally. " Chen Xiang said, "Are you really that powerful? I can't tell! "

"Hmph, Flying Dragon Experience Place has a total of nine roof, but I can already go to the seventh roof, what do you think?" Flying Dragon Palace Leader sneered: "The guy beside you, he can only go to the second floor!"

Chen Xiang looked at Heavenly Alchemy Sect Leader, who's face was also filled with shock.

It was very obvious that he was a very powerful existence that was able to go to the Seventh Heaven Stage of the Flying Dragon Experience Place!

"Great ancestor ... I didn't expect your improvement to be so great! " The Heavenly Alchemy Sect Leader exclaimed.

"Sooner or later, the Flying Dragon Pagoda will be destroyed, and the Flying Dragon Experience Place is the most precious thing to the Flying Dragon Pagoda. Before the Flying Dragon Pagoda is destroyed, I must make good use of the Flying Dragon Experience Place, or else, it will be very difficult to find a place to raise my strength in the future." The Flying Dragon Palace Leader said.

"Leader, what is the concept of Flying Dragon Experience Place's Seventh Heaven Platform?" Chen Xiang asked in a low voice.

"If we're talking about strength, then Dragon Devil Emperor Venerable can go to the third or fourth Heaven Stage ... If the White Bones Imperial's Ten Great Bone Kings are like that on the fifth Heaven Stage, they are at most number six! " Heavenly Alchemy Sect Leader said, "Do you understand now?!"

Chen Xiang never thought that the skinny black clad old man in front of him would actually contain such a terrifying power within his body!

"Looks like I can successfully enter the inner part of the Heavenly Alchemy stone wall this time." Chen Xiang said, "Is there really something good inside?"

"There must be, the Myriad Tao Divine Technique is inside!" Flying Dragon Palace Leader suddenly said.

"Myriad Tao Divine Technique?" Chen Xiang had never heard of such a godly skill.

"The most complete fusion of the Four Great Sacred Techniques is the Myriad Tao Divine Arts. After learning it, you will be able to integrate and master all the Four Great Sacred Techniques." The Flying Dragon Palace Leader said, "And the Heavenly Alchemy is the basic cultivation method of the Myriad Tao's divine arts."

Chen Xiang suddenly understood why it would be easier for him to learn the other three divine arts after learning the Heavenly Alchemy.

He had not expected the four great mystical arts to be fused into one, but they had been subtly separated!

[Chapter 2880](#)

Chen Xiang felt that the so called Myriad Tao Divine Technique existed inside the Heavenly Alchemy stone wall, but it would definitely not be easy to obtain it.

"There is a legend in the Myriad Tao Mausoleum, as long as you cultivate the Myriad Tao's divine arts, you can leave the Myriad Tao Mausoleum! Many of the fellows here are imprisoned in this Myriad Tao Mausoleum, so of course they would want to leave. However, they do not have enough power, and only by cultivating the Myriad Tao Divine Arts can they break through and obtain the power to leave this place." The Flying Dragon Palace Leader said.

Many of the people imprisoned in the Myriad Tao Mausoleum were unforgivable evildoers, such as those in the Dragon Devil Emperor Venerable and those in the Natural Law Divine Lord who were unable to leave after entering.

The reason the Dragon Devil Emperor Venerable was willing to enter this place was also to make himself stronger. Since this was a world, there were plenty of resources. The biggest benefit for him was that there was still a lot of room for growth. Otherwise, he would be restricted greatly when he was in the Flying Dragon Pagoda.

If he wasn't careful, he would still be sealed. If he was, it would take many years for him to come out of the seal.

After entering the oasis, he was not far from the Heavenly Alchemy stone wall. Chen Xiang started to get nervous, he was going to enter the Heavenly Alchemy stone wall soon.

Stepping into the Heavenly Alchemy stone wall would require him to endure a very terrifying power. This kind of power would make him wish he were dead, as if he had been pierced by many burning needles.

"Are you ready?" Flying Dragon Palace Leader said: "We will go over first. If there's anything wrong, I will immediately start a war with them! Then, you guys can decide for yourselves. "

"Alright!" Chen Xiang nodded.

"Granduncle, it's up to you!" Heavenly Alchemy Sect Leader said: "When I send Chen Xiang in, you will have to wait here for him to come out safely. Otherwise, even if he can reach the end of the Heavenly Refining Great Dao, if he is not protected after he comes out safely, it will all be for naught."

"Don't worry, I've already considered everything." Flying Dragon Palace Leader sneered: "Let's go!"

In the blink of an eye, the Flying Dragon Palace Leader had brought Chen Xiang and the others to the open space where the Heavenly Alchemy stone wall were.

The Heavenly Alchemy stone wall was still glowing with a gold light, and many of them were still in front of the Heavenly Alchemy stone wall, causing a strong Qi force to form there. If the weaker people were unable to resist the Qi force, they would not dare to come closer, and if they came closer, they would be covered in cold sweat from fright.

"Chen Xiang is here!"

A person shouted. No one knew who it was, but with this shout, the atmosphere immediately changed, becoming solemn and murderous.

Feeling the killing intent, Chen Xiang could not help but be shocked, there were many people here that wanted to kill him, but he did not know why!

"Flying Dragon Palace Leader!" Dragon Devil Emperor Venerable growled, it was a tall man dressed in black dragon scale armor, upon seeing Flying Dragon Palace Leader, his face revealed a look of hatred.

Flying Dragon Palace Leader only scanned the people here, then brought Chen Xiang and Heavenly Alchemy Sect Leader to the Heavenly Alchemy stone wall.

Just as they were walking over, a few auras immediately attacked them. At that time, Chen Xiang could feel the aura of the Natural Law Divine Lord and he immediately looked towards him.

Natural Law Divine Lord was dressed in a white robe, he was a man with a pale face and white hair. When he saw Chen Xiang, his eyes flashed with a trace of ruthlessness.

"What are you guys doing?" Flying Dragon Palace Leader shouted loudly. His black robe suddenly broke and flashed with several golden lights, each of them transforming into a flying dragon. They flew up high in the sky and turned into hundreds of huge golden dragons, covering the entire oasis's sky.

Golden rays of light shot down from the sky as the golden dragon lightning continued to strike down. A rumbling sound was accompanied by waves of majestic dragon roars, shaking the earth until it seemed as if it was about to split open.

Under the immense pressure of the dragon, many people felt that their shoulders were too heavy to move.

At this time, the Heavenly Alchemy Sect Leader brought Chen Xiang to the front of the Heavenly Alchemy stone wall. Chen Xiang immediately activated the Dao Energy in his body and released the Heavenly Alchemy immortal power.

After releasing the Heavenly Alchemy immortal power, the Heavenly Alchemy stone wall had a reaction and immediately sucked Chen Xiang into it!

After Chen Xiang entered the Heavenly Alchemy stone wall, he knew nothing about what was happening outside, and he also knew that time was of the essence. He only spent a short amount of time inside, while many days would have passed outside.

Flying Dragon Palace Leader and Heavenly Alchemy Sect Leader will stay outside for a while longer, and the danger will increase!

"The battle outside must be very intense. It's such a pity that we didn't manage to spectate for a while!" Chen Xiang did want to see it, but now was not the time.

Inside the Heavenly Alchemy stone wall, the Great Way of the Heavenly Refining appeared. After he stepped onto the Great Way of the Heavenly Refining, the power that made him feel fear appeared, and it was as if his body was suddenly struck by a few strong streams of scorching Qi. The sudden pressure made him feel as if he was being crushed, and he almost vomited blood.

"Why is this power getting stronger and stronger?" Chen Xiang was shocked, he had thought that after raising his strength, he would be able to resist the power of the Great Way of the Heavenly Refining, but who knew that as his cultivation level increased, the power inside would also increase.

"Although the power of the Great Dao of Heavenly Refining has increased, my strength has increased even more!" Chen Xiang looked at the endless great Dao of heavenly refinement, and suddenly felt powerless in his heart. He felt that reaching the end was simply too far, and he would need to suffer and suffer the entire way.

Thinking of this, he began to feel fear in the depths of his heart. He wanted to retreat!

However, in order to obtain the supreme Myriad Tao Divine Arts hidden within, in order to defeat the Natural Law Divine Lord, he had to reach the end. Only then could he obtain the Divine Arts, become stronger, seize control of the Natural Law World, and return to see his beloved that he had always missed.

As long as he thought of the lover that he had respected for many years, Chen Xiang was suddenly filled with fighting spirit. Gritting his teeth and rushing forward, in the end, he could not bear the pain and knelt on the ground, almost falling down.

"Six Realms Time and Space Door!" Chen Xiang took out the Six Realms mirrors, and let himself enter the Six Realms Time and Space Door.

Even though his mind had only gone in, his physical body outside did not experience any more pain. This surprised him; he did not expect this to be useful.

Previously, Six Realms Sect Leader was not sure if this would work, but now, he did not expect it to have such a good effect.

"This way, my body will be able to recover for a period of time. I wonder how much time has passed outside." Even when Chen Xiang was inside the Six Realms Time and Space Door, he did not feel the loss of time.

After that, he came out of the Six Realms Time and Space Door, sprinting on an extremely painful path. After he could not take it anymore, he immediately entered the Six Realms Time and Space Door to heal his injuries. After repeating this tens of times, he walked on the great path of the Heavenly Refining, and just like that, he passed a long, painful year.

The rainbow had always been after the rain, and although it had caused Chen Xiang to feel pain all over, he had finally reached the end of the Heavenly Refining Great Dao!

...
