[Chapter 2931](#)

Inside the Colorful Forest, Long Tengyun had been waiting for Chen Xiang for several months now and he started to worry about him. <>

Just as Long Tengyun was worrying worriedly all day, Chen Xiang suddenly came back, causing him to heave a long sigh of relief.

"I'm so worried!" Seeing that Chen Xiang was fine, Long Tengyun was relieved, and said to Chen Xiang: "Let's go, we will go back now!"

Long Tengyun did not ask Chen Xiang if he had seen World Defying Stage Dragon Ancestor, as he thought that Chen Xiang would not be able to find him, but Chen Xiang suddenly said: "I saw the Dragon Ancestor."

"Did you really see it?" Long Tengyun was surprised, and anxiously asked: "What did he tell you?"

Chen Xiang told Long Tengyun everything that he knew and what he knew.

When Long Tengyun heard it, he also felt that the situation wasn't good, and when Chen Xiang was about to go to the Dragon Ancestor's Mysterious Land, he also welcomed him very much.

"So you should go to the Flying Dragon Experience Place first. After you raise your cultivation in the Flying Dragon Experience Place, contact me. I will bring you to the Dragon Ancestor's Mysterious Land." Long Tengyun said, he would definitely help Chen Xiang find the World Defying Stage Dragon Ancestor's inheritance.

"Senior, once you return to the Dragon Ancestor's Mysterious Land, you must not tell this matter to anyone else." Chen Xiang said: "I'm worried that there might be a spy from the World Defying dragon demon in Dragon Ancestor's Mysterious Land."

Long Tengyun nodded his head, Chen Xiang's worries were not without reason. As the manager of the Dragon Ancestor's Mysterious Land, Long Tengyun himself was worried about the people inside the secret realm.

Then, are you going to the Flying Dragon Experience Place now? Long Tengyun asked.

"Not for now!" Chen Xiang had already refined a Nine-turn Yuanzun Dan, but he just did not have time to eat it.

Chen Xiang left the Myriad Tao Mausoleum with Long Tengyun and returned inside the Flying Dragon Pagoda. After that, Chen Xiang returned to the little bat's cave to cultivate.

After being refined using the Crash method, the quality of the Nine-turn Yuanzun Dan greatly increased. He felt that after consuming all the pills in his hands, he should be able to step into the middle stage of the Venerable ancestor realm. At that time, he might even be able to go to the tenth stage of Flying Dragon Experience Place.

The Nine-turn Yuanzun Dan was a pretty good pill, but Chen Xiang could not pass it down to the Master Wang and the Great Clan Elder to refine, because they needed the World Defying god fire to concoct this kind of pill, and it would not be easy for them to cultivate this kind of World Defying god fire.

"I can only refine it myself!" After Chen Xiang ate one pellet in the private room, he felt the power of the medicine refining and took out the Tianchuang furnace s, then continued to refine Nine-turn Yuanzun Dan s. Now, not only did he have to eat by himself, he also had to sell a few.

He did not have many Dao crystal left, he planned to enter the Myriad Tao Mausoleum to search for the mysterious array to obtain the inheritance from them, but he felt that the mysterious array had many good inheritances, which would help him greatly increase his strength.

Nine-turn Yuanzun Dan s could strengthen the Six souls, and with the growth of the Six souls, they could release even stronger dao energy. At the same time, they could also strengthen the body, which was the main cultivation method of the Venerable ancestor realm.

Now that he had fifty Nine-turn Yuanzun Dan that were refined after the third level of the Crash method, he felt that he could definitely step into the Venerable Ancestor Later-stage.

"No, the refining speed is still too slow!" After Chen Xiang ate one pellet, he used ten days of time to refine it. To him, this was an extremely time-consuming task, because he still needed to eat several tens of them.

Helpless, he could only head to the Myriad Tao Mausoleum to look for the Time Ghost. He bought a year's worth of time from the Time Ghost, refined thirty Nine-turn Yuanzun Dan, and successfully stepped into the middle stage of the Venerable ancestor realm!

"My strength has increased by a lot, but according to my current situation, if I want to step into the late stage, I need even more Nine-turn Yuanzun Dan!" Chen Xiang estimated that it would probably take more than 300 pills.

"Middle to late stage is also a huge hurdle, especially for me!" Chen Xiang's Six souls was very special, it were six very powerful divine beasts.

"It's a good thing I have Time Ghost's help. Otherwise, I would need more time." Chen Xiang continued to refine Nine-turn Yuanzun Dan s here, he still had 20 left, all for Jiang Sijing to eat.

Their cultivation situation was not as complicated as Chen Xiang's, so they only needed twenty pills. Moreover, they only needed to raise their cultivation.

Chen Xiang refined another fifty pills before he left Myriad Tao Mausoleum. He stayed in Time Ghost's room for two years, but two days had passed outside.

After leaving the Myriad Tao Mausoleum, Chen Xiang headed towards the Flying Dragon Experience Place, and arrived at the Fourth Flying Dragon Experience Place in a single breath. Then, he took out the message jade to contact the Flying Dragon Palace Leader.

Flying Dragon Palace Leader was almost fully recovered, and was working hard to cultivate the Myriad Tao Divine Arts. He also wanted to break through to World Defying Stage, as it would be extremely enticing to him.

Little Bat and Lin Jitian followed Flying Dragon Palace Leader to cultivate, and Chen Xiang managed to contact him very quickly.

Flying Dragon Palace Leader could go to the seventh platform, but Little Bat and Lin Jitian couldn't, so they could only stay here at the fourth platform with them.

Chen Xiang was currently in the middle stage of the Venerable ancestor realm, but when he was at the fourth Flying Dragon Experience Place, he still found it extremely difficult to do so, and it was also as if he was carrying a huge mountain on his shoulder, causing him to feel extremely heavy.

"This Flying Dragon Experience Place is truly evil!" When Chen Xiang was at the third Flying Dragon Experience Place, he could only barely stand up, but after going to the third stage to test it out, he was already able to fly very easily.

He found Flying Dragon Palace Leader, who was training with Little Bat and Lin Jitian.

The little bat is a Venerable Ancestor Later-stage, it looked to be relatively easy, but Lin Jitian is not.

Therefore, when Chen Xiang arrived, he gave Lin Jitian twenty Nine-turn Yuanzun Dan to eat. This way, he could make a breakthrough.

The Fourth Flying Dragon Experience Place had recovered very well. With the help of the Dragon and Tiger, he did not feel any pressure from the Fourth Flying Dragon Experience Place.

When Chen Xiang told him about the World Defying Stage Dragon Ancestor, he was very surprised.

"Going to the 10th platform is not easy. Even for the current me, it's extremely difficult to get there." Flying Dragon Palace Leader said: "I can barely make it to the eighth stage now."

"Why is it so hard?" Chen Xiang felt that he could at most make it to the seventh place.

"The cultivation of the Flying Dragon Experience Place is an existence that continuously unearth the potential. Although I have been in the Venerable Ancestor Later-stage for a very long time, I have many potential points that I have yet to unleash, unless I can reach the tenth stage." The Flying Dragon Palace Leader said: "The development of the Flying Dragon Experience Place's human potential is only support, and if you do not work hard, there is no point in cultivating here."

"I was like this before. No matter how I trained, I could not walk the eighth stage easily. Now that I have the Myriad Tao Divine Technique, perhaps I can develop even more potential."

[Chapter 2932](#)

Flying Dragon Palace Leader had been in the Venerable Ancestor Later-stage for many years and had not been able to improve much. Now, he placed all his hopes of breaking through on the Myriad Tao's Divine Arts.

"I am still not very familiar with the Myriad Tao's mystical techniques, so I will stay here for a period of time. You can give it a try and see if you can reach a higher level of the Flying Dragon Experience Place." Flying Dragon Palace Leader did not plan to go up with Chen Xiang.

"Good!"

If it was in the past, Chen Xiang would need Flying dragon beads to go up, but now, he didn't need them. After cultivating the Myriad Tao Divine Arts, he learnt it from the Myriad Tao Divine Arts to break through the limitations of space.

Chen Xiang quickly arrived at the Fifth Flying Dragon Experience Place!

After arriving here, he could only barely walk. It was impossible for him to fly, and even walking was extremely difficult. He had only walked for an hour before he fell flat on his stomach, panting for breath.

"This Flying Dragon Experience Place is truly terrifying. Even though I used up all of my Dao energy to resist the pressure, I was still in the same state." Chen Xiang lied on the ground, panting. He looked at a very black dot in the air, which was the Sixth Flying Dragon Experience Place.

His final target was the tenth Flying Dragon Experience Place, and he didn't know when he would be able to reach that place.

"I'll go out and try!" Long Qiumu who was inside the You Yao Mountain Villa suddenly ran out. As soon as she came out, she frowned: "The Fifth Flying Dragon Experience Place is not simple!"

Long Qiumu was from the Venerable Ancestor Later-stage, her strength was much stronger than Chen Xiang. Furthermore, she was a Dragon Demon, so her body was extremely strong.

"Yes, I don't know how long I'll be here." If Chen Xiang wanted to go to the Tenth Flying Dragon Experience Place, he would have to stay there to cultivate. Even if he consumed pills and reached the Venerable Ancestor Later-stage, without cultivating in the Flying Dragon Experience Place, he was still unable to reach the highest cultivation level in the Flying Dragon Experience Place.

In the following months, Chen Xiang and Long Qiumu trained together, familiarizing themselves with the pressure here, it was extremely difficult to start cultivation, one needed to rest many times, and the consumption was huge, but luckily they all had their pill questions to replenish.

In just half a year, Chen Xiang made an extremely huge breakthrough, and Long Qiumu was the same!

"I can fly now, maybe I can try the Sixth Flying Dragon Experience Place." Long Qiumu laughed out loud. At this moment, she was floating in the air and looking at Chen Xiang who was on the ground.

Chen Xiang was still unable to fly, so it was extremely difficult for him to float.

"Well, I'll be able to fly too soon." Chen Xiang could only continue to cultivate. While enduring the pressure, he circulated the Myriad Tao Divine Technique to absorb the special Dao Energy, causing his Myriad Tao's Golden Body to become stronger.

Although he could not fly, but it was already an arduous task for him to run while he was only in the middle stage of the Venerable ancestor realm. Long Qiumu felt that Chen Xiang would quickly reach her level, while she was at the Venerable Ancestor Later-stage.

Looking at the back of Chen Xiang who was trying his best to run, Long Qiumu sighed in her heart, she felt that Chen Xiang would surpass her soon.

"Could it be because of the Myriad Tao Divine Art?" "He's at the middle stage of the Venerable ancestor realm, and already has my strength now!" Long Qiumu imagined his battle with Chen Xiang in his mind.

He felt that his odds of winning were not high, because Chen Xiang could use the power of space in a very mysterious way.

Chen Xiang, who was in the middle of running, did not run a single step. His trembling body was affected by the pressure, as if he was being constantly hammered by a huge hammer.

Every time his body was overwhelmed with pain, a chilling energy would flow into his body. That cool energy was the special energy contained within the Flying Dragon Experience Place. It could help a person cultivate the Golden Body of the Myriad Tao and also help them strengthen the Golden Body of the Myriad Tao.

In addition, it was still very young and possessed a strong Six souls!

"Oddly, I'm absorbing that energy faster and faster now. Is it because my body can hold more energy?" "Or was it because I was cultivating the Myriad Tao technique, causing my absorption speed to increase?" The faster Chen Xiang ran, the more pressure he would suffer and the more energy he would absorb.

After running for a few hours, Chen Xiang felt his body swelling and pain. It was all caused by the energy that entered his body.

"I can't do it anymore, I have to refine that energy. Otherwise, I'll be blown away." Chen Xiang sat cross legged and began to refine the strange energy that filled every part of his body.

After a period of refining, he discovered that the refining speed was extremely slow.

"What's going on?" "You look swollen, round!" Long Qiumu walked over and poked her fat face with her jade fingers. She could not help but laugh: "You look so cute with your fat body!"

Chen Xiang rolled his eyes at her and said: "I feel so bad right now, but you're still laughing at me!"

"What's the matter with you?" "It felt like something was bulging!" Long Qiumu also felt that it was very strange.

"It's all because of the energy here" Chen Xiang told Long Qiumu about his situation, making Long Qiumu very envious. She couldn't even need this kind of absorption speed, but Chen Xiang's absorption speed was much faster than her own.

Chen Xiang helplessly shook his head, then closed his eyes and continued to refine the pellet.

"Is this something that happened only now?" Long Qiumu asked.

"Yes, that's strange!" Chen Xiang had only been able to circulate the Myriad Tao Divine Arts smoothly all of a sudden, which was why he encountered such a situation.

Long Qiumu had no other choice but to console Chen Xiang a bit, and then, he would cultivate once more.

Chen Xiang spent more than two hours to refine it, but he realized that he had not managed to refine it at all. This kind of energy had gathered inside his body, and was actually slowly gathering together.

"At this rate, it will take at least a year or so to finish!" Chen Xiang knew that absorbing energy was a good thing, but absorbing energy quickly and refining slowly was useless.

"I must find a way to absorb the Myriad Tao's power quickly!" After Chen Xiang closed his eyes, World Defying god fire appeared in his mind.

"Right, let's use the World Defying god fire to take a look!" In the past, when Chen Xiang cultivated, he would always treat his body as a medicinal ingredient and use the flames to refine it, just like refining pills.

Right now, he released a group of World Defying god fire s, allowing this lump of World Defying god fire hearts to flow within his body. He quickly discovered that wherever the World Defying god fire hearts went, the strange Myriad Tao energy that was gathered in his body was instantly refined and permeated into his muscles, bones, skin, and Six souls.

"So fast!" Chen Xiang was overjoyed.

After that, he only used six hours to completely refine all of the Myriad Tao's power. 207 + 37872--&

[Chapter 2933](#)

As he ran, his body seemed to become like a huge whirlpool, continuously devouring the power of the Myriad Tao. From afar, Long Qiumu could already see his body flashing with a weak golden light.

Chen Xiang was not bloated like before, when he was running, he had controlled the's power that was flowing in and out of his body. This way, he could absorb the Myriad Tao's power continuously for a long time and refine it at the same time.

Just like this, he ran for three days and three nights without stopping to rest!

"At this rate, I'll soon reach the top of the Fifth Flying Dragon Experience Place." Chen Xiang looked at Long Qiumu who was running quickly in the dark night, and he also worked very hard.

After resting, Chen Xiang started cultivating again!

Half a year had passed, and the Fifth Flying Dragon Experience Place no longer felt any pressure towards Chen Xiang. While he was running, he didn't absorb much of the Myriad Tao's power, so the pressure here wasn't enough to temper his body.

"It's time to go up!" Chen Xiang looked at the Sixth Flying Dragon Experience Place above.

Long Qiumu ran over as she was drenched in sweat, pouting coquettishly, "You, there's no pressure now, I feel like I can't keep up with your pace!"

"Are we going to the Sixth Flying Dragon Experience Place now?" Here, Long Qiumu still felt a bit of pressure. Only when the Flying Dragon Experience Place was completely relaxed would it mean that his cultivation in the Flying Dragon Experience Place had reached the great perfection stage.

"No, I want to go to the Seventh Flying Dragon Experience Place!" Chen Xiang laughed, "I think you can only lie flat on the ground."

"You." Are you crazy? You didn't even go to the sixth place, and now you're going to the seventh! " Long Qiumu didn't doubt Chen Xiang's words. She wouldn't even be able to stand up when she reached the seventh Flying Dragon Experience Place.

Back then, when Chen Xiang was in the Third Flying Dragon Experience Place, she had also made fun of Chen Xiang being unable to stand up. It was her turn.

She didn't want to go at all, but she also didn't want to leave Chen Xiang.

"Are you going or not?" Chen Xiang asked.

"Fine, I'll go, don't laugh at me when the time comes." Long Qiumu pouted.

"Then let's go now!" Chen Xiang allowed Long Qiumu to enter the You Yao Mountain Villa, then he teleported himself high in the air and entered the Sixth Flying Dragon Experience Place.

Just as he had expected, although he could feel the pressure from the Sixth Flying Dragon Experience Place, it was not enough. Thus, he continued forward and arrived at the Seventh Flying Dragon Experience Place.

In here, even if he had difficulty moving, he could only run for an hour!

Long Qiumu had not come out from You Yao Mountain Villa yet, and she was currently eating the Nine-turn Yuanzun Dan that Chen Xiang gave her. This would be of some help to her.

"Come out and give it a try!" Chen Xiang laughed: "I think it's alright!"

"Fine!" Long Qiumu knew that Chen Xiang was already outside more than ten times, and had already gotten a basic sense of familiarity with the Seventh Flying Dragon Experience Place.

After Long Qiumu came out of the You Yao Mountain Villa, he immediately laid on the ground, and found it difficult to stand up!

Chen Xiang chuckled as he walked over to help her up. Only then was she able to stand back up, but every step he took caused a tremor, which was extremely stimulating to the pressure, causing her to feel pain all over.

However, at the same time she was in great pain, the power she absorbed from the Myriad Tao was also astonishing! Although she was afraid of the Seventh Flying Dragon Experience Place, she still worked very hard. Since she was here, she might as well go all out.

After using all of her strength to walk a few dozen steps, she was finally exhausted. However, she had a lot of Myriad Tao's power in her body, causing her body to swell and swell like before.

Chen Xiang came to her side, looked at her delicate breathing, and stretched out his hand to pinch her round face. Long Qiumu was already very tired, and could not resist at all.

"Enough!" Long Qiumu had finally recovered some strength as she pouted.

"Well, I'll help you!" Chen Xiang gently held Long Qiumu's jade hand, then released a trace of World Defying god fire that swam through her body, helping her to refine the Myriad Tao's power.

Not long after, a large amount of Myriad Tao's power was refined by Long Qiumu's body, and she had recovered her spirit.

"So fast!" Now, she understood why Chen Xiang did not encounter such a situation before, and why his condition did not increase by leaps and bounds.

Previously, she thought that she would suffer unspeakably in the Seventh Flying Dragon Experience Place, but now, it didn't seem to be much, because Chen Xiang was able to help her refine the Myriad Tao's power.

"When you were in the Fifth Flying Dragon Experience Place, your speed of absorbing the Myriad Tao's power was too slow, so you didn't even feel full like this. This is the only place you can feel!" Chen Xiang replied: "Even if you go to the Sixth Flying Dragon Experience Place, it's more or less the same, so it's very correct for you to come here and train with your life on the line."

Long Qiumu nodded his head. As tired as he was in the Sixth Flying Dragon Experience Place, he might as well work himself to death in the Seventh Flying Dragon Experience Place. In comparison, the cultivation speed of the Seventh Flying Dragon Experience Place was much faster than the Sixth Flying Dragon Experience Place.

Of course, this was with Chen Xiang's help!

"Alright, I will leave a trace of the World Defying god fire in your body and help you refine the Myriad Tao." Chen Xiang said: "You can control that World Defying god fire yourself."

Chen Xiang had also made great progress in the use of World Defying god fire. Although he could not release them on a large scale, he could still control very little World Defying god fire.

Very quickly, they had already spent a year in the Seventh Flying Dragon Experience Place. At this time, the Seventh Flying Dragon Experience Place was still giving them a very strong pressure, which meant that they were still unable to go to the higher levels of the Flying Dragon Experience Place.

He... [,] Chen Xiang had brought Long Qiumu down to the Sixth Flying Dragon Experience Place to give it a try, but there was no pressure at all.

"If we cultivate here, we can go to the Ninth Flying Dragon Experience Place next time?" Long Qiumu asked.

"Yes, in another six months." Chen Xiang estimated that both he and Long Qiumu's levelling speed would be extremely fast.

"You're only at the middle stage of the Venerable ancestor realm, what would happen if you reached the late stage?" When Long Qiumu was together with Chen Xiang, she would often mistake him for having already broken through to the late stage, because she could clearly feel that Chen Xiang was stronger than her.

"Soon, I will step onto the Venerable Ancestor Later-stage. Sooner or later, the World Defying Stage will be the biggest challenge for me." Chen Xiang looked into the sky and clenched his fist.

He did not know what was happening in the Flying Dragon Pagoda, but no matter what happened, they did not have the power to fight the High Priest.

The highest level Flying Dragon Palace Leader only went to the Eighth Flying Dragon Pagoda, but did not stay for long!

After cultivating for half a year, Chen Xiang and Long Qiumu felt that they could already reach Ninth Flying Dragon Experience Place.

Long Qiumu had heard of something powerful going on in the Ninth Flying Dragon Experience Place. 207 + 37873--

[Chapter 2934](#)

Chen Xiang didn't know anything about the matters above in the Ninth Flying Dragon Experience Place, but hearing it from Long Qiumu right now, made him feel more surprised. He had also not heard about the rumors in the Ninth Flying Dragon Experience Place from the Flying Dragon Palace Leader before.

"Qiu Mu, there's something powerful in the Ninth Flying Dragon Experience Place. What is it?" "Is this news reliable?" Chen Xiang had originally planned to directly pass through the Eighth Flying Dragon Experience Place and straight to the Ninth by the time he finished cultivating here.

But if there was any strong and dangerous existence in the Ninth Flying Dragon Experience Place, then he would have to change his plan, because when he and Long Qiumu entered the Ninth Flying Dragon Experience Place, he would definitely be pressured by the strong pressure and wouldn't be able to move, let alone fight.

"I'm not sure. I only heard my father mention it by chance. At the time, I didn't think it had anything to do with me, so I didn't ask."

Long Qiumu shook her head, she regretted not asking so much now, since this matter was extremely important to them.

"I can only ask Flying Dragon Palace Leader!" Chen Xiang had never asked Flying Dragon Palace Leader about this, nor did Flying Dragon Palace Leader tell him about it.

Chen Xiang let Long Qiumu enter the You Yao Mountain Villa.

"They should be in the Sixth Flying Dragon Experience Place now!" Chen Xiang made a few guesses and then headed to the Sixth Flying Dragon Experience Place, where he took out the Communication jade Symbol paper and made contact with the Flying Dragon Palace Leader.

As expected, Flying Dragon Palace Leader, Bat and Lin Zong all went to the Sixth Flying Dragon Experience Place. After Lin Zia ate the Nine-turn Yuanzun Dan that Chen Xiang gave him, he also broke through.

What made him even more surprised was that Lin Zizai could rely on those Nine-turn Yuanzun Dan s to train to the Venerable Ancestor Later-stage!

"To think that you have already gone to the Seventh Flying Dragon Experience Place, this is truly amazing!" Before, the Flying Dragon Palace Leader did not dare believe it. He felt that Chen Xiang could at most only be in the Sixth Flying Dragon Experience Place, however, when he came to the Sixth Flying Dragon Experience Place, he was unable to contact Chen Xiang because Ming Chen Xiang was not in the same Flying Dragon Experience Place as him.

Lin Jia and Bat were not relaxed at all, they could only run with great difficulty. Although they both had Venerable Ancestor Later-stage s, they were not as strong as Chen Xiang, who was in the middle stage of the Venerable ancestor realm.

"Palace Lord, I'm preparing to go to Ninth Flying Dragon Experience Place now, but I heard that there are powerful and mysterious existences there." Chen Xiang said: "It belongs to Long Qiumu's father!"

Long Qiumu's father was an old enemy of the Flying Dragon Palace Leader. Even though he had gone to the Myriad Tao Mausoleum, Chen Xiang had not met her father inside.

"I never imagined that the Dragon and Demon Ancestor would know of such a thing." Flying Dragon Palace Leader frowned, his expression serious.

At this moment, he was trying to recall something.

The Flying Dragon Palace Leader had lived for a long time. Back then, when the Flying Dragon Imperial Palace was still alive, he had already existed, but he was still very young then. So he knew a lot of things.

"There should be a powerful existence above Ninth Flying Dragon Experience Place. If I'm not mistaken, your previous Dragon Ancestor's Mysterious Land should be above Ninth Flying Dragon Experience Place!" Flying Dragon Palace Leader suddenly said: "There are many powerful old families in Dragon Ancestor's Mysterious Land, but your relationship with Long Tengyun is not bad, so you shouldn't have to worry about anything when you go there."

The Dragon Ancestor's Mysterious Land was actually above the Ninth Flying Dragon Experience Place!

"I'm not sure. It's just a guess!" "Of course, the Dragon Ancestor's Mysterious Land would not be affected by the Ninth Flying Dragon Experience Place, but they could obtain the rich Myriad Tao's power, so the people inside the Dragon Ancestor's Mysterious Land would be much stronger." "The Flying Dragon Palace Leader continued," "If you go up, I recommend that you not go to Dragon Ancestor's Mysterious Land for the time being."

The Flying Dragon Palace Leader was not too worried about the people inside the Dragon Ancestor's Mysterious Land. In his opinion, as long as someone was there, they would not be safe, even though those people were all descendants of the World Defying Stage Dragon Ancestor.

Chen Xiang had previously clashed with the Dragon Ancestor's Mysterious Land before, and at that time, a young man wanted to capture his Mouse Man. After he found him, that person was ruthlessly beaten up.

"If it really is the Dragon Ancestor's Mysterious Land, then I am much more at ease." Chen Xiang said: "I will go to the Ninth Flying Dragon Experience Place right now!"

"Alright, after you go up, cultivate for a while. When you can get used to the pressure on the Ninth Flying Dragon Experience Place, go to the Dragon Ancestor's Mysterious Land." The Flying Dragon Palace Leader warned.

"Yes, I know!"

Chen Xiang greeted Bat and the others before heading to Ninth Flying Dragon Experience Place!

After passing through the Eighth Flying Dragon Experience Place, Chen Xiang felt that the pressure on the Eighth Flying Dragon Experience Place was not very strong.

When Chen Xiang came to the Ninth Flying Dragon Experience Place, the pressure he felt was not ordinary. It was already difficult for him to stand, but walking was!

"Let me go out and try!" When Long Qiumu was inside the You Yao Mountain Villa, he had already heard how terrifying Chen Xiang was outside.

After Chen Xiang let her come out, she immediately felt how terrifying the pressure of Ninth Flying Dragon Experience Place was. Even if she was forced to lie on the ground, she still had to bear the pressure, causing her face to be stuck on the ground, unable to raise her head.

Under the pressure of the invisible pressure, she felt a faint pain all over her body.

Previously, when she was in the Seventh Flying Dragon Experience Place, Chen Xiang was able to help her up.

"Much more terrible than I thought." After Chen Xiang walked a few steps, he was already unable to move. At this moment, he was slightly bending his body and slowly sat down.

And no matter how hard Long Qiumu tried, she couldn't stand up, but when she tried, the pressure on her body made her feel intense pain. This still gave her a certain amount of cultivation use, and she could feel waves after waves of Myriad Tao's power surging into her. Within his body ...

Chen Xiang and Long Qiumu were both using World Defying god fire to refine the Myriad Tao's power, so their refining speed was extremely fast. Otherwise, their bodies would have expanded greatly due to the Myriad Tao's power.

"Although it is a bit difficult, as long as you work hard to resist the pressure, a large amount of Myriad Tao's power will enter your body." Chen Xiang laughed bitterly: "At least this is not bad. Right now, we only need to use a little more time to continue our cultivation. There will definitely be someone who can easily walk here."

Long Qiumu nodded his head, "Definitely, we will work hard together!"

The environment of the Ninth Flying Dragon Experience Place was just like the other Flying Dragon Experience Place s, it was not bad. The scenery here was beautiful with many beautiful plants and flowers, and the grass and trees were not affected by the invisible pressure, otherwise they would not have been able to grow.

Chen Xiang and Long Qiumu spent half a year quickly like this, and during this half a year, they had not come across anything powerful.

This made them feel even more at ease in their cultivation here.

At this time, Chen Xiang was already able to walk quickly, and he was able to stand up and walk slowly. Compared to half a year ago, they could already make enormous progress, especially in terms of raising their strength!

...

[Chapter 2935](#)

This was mainly because of the effect of Chen Xiang's World Defying god fire, otherwise they would not have been able to refine the Myriad Tao's power so quickly!

According to their rate of absorption, just a single day would require them to refine it for a year and a half. If they did not have the World Defying god fire, it would take them hundreds, or even thousands, of years to reach this level of improvement.

Flying Dragon Palace Leader had only been able to enter the Seventh Flying Dragon Experience Place after so many years, and it was because he did not have a method to quickly refine it. But now that he did, cultivating the Myriad Tao Divine Arts would be even faster when refining the Myriad Tao's power.

"If this goes on, we may only need a few years to be able to relax in the Ninth Flying Dragon Experience Place!" Now that she was much stronger than before, it was all because of Chen Xiang's help.

"How many years? I think it will be faster!" Chen Xiang laughed: "When we are more or less done with our cultivation, we will go and see if there really is a Dragon Ancestor's Mysterious Land here!"

Chen Xiang suddenly remembered that he had given Long Tengyun a Communication Jade Charm. If Long Tengyun was on this Flying Dragon Experience Place, he would be able to send a sound transmission to Long Tengyun.

"Should I give him a message and give it a try?" Chen Xiang's and Long Tengyun's concern could be said to be pretty good, the kind that was worth trusting and trusting. However, Chen Xiang was a little worried about the Dragon Ancestor's Mysterious Land behind Long Tengyun.

It was not that he was worried, it was because even Long Tengyun himself had a lot of suspicions regarding the people inside the Dragon Ancestor's Mysterious Land, so when Chen Xiang told him not to tell the seniors in the Dragon Ancestor's Mysterious Land about the matter regarding the World Defying Stage Dragon Ancestor, he nodded in agreement.

"It's good to contact him. He should be careful." Long Qiumu said. She had always been in the You Yao Mountain Villa and was very familiar with Chen Xiang's situation, especially what happened recently.

"Alright then!" If he is really here, let's see if we can meet again. This way, I can learn a bit about the Dragon Ancestor's Mysterious Land and the Tenth Flying Dragon Experience Place from him. " Chen Xiang reached out to Long Tengyun while holding the communication jade talisman.

Very quickly, Long Tengyun responded, "Chen Xiang, where are you? Why did I receive your transmission! "

Chen Xiang did not say that he was in Ninth Flying Dragon Experience Place just now, but now that he saw that Long Tengyun was able to reply immediately, it meant that Long Tengyun was in Ninth Flying Dragon Experience Place, so Long Tengyun was very surprised too.

"I'm in the Ninth Flying Dragon Experience Place!" Chen Xiang sent a message: "Senior, if it's convenient, I will meet again. Right, I must keep this matter a secret!"

"Alright, no problem." Long Tengyun immediately agreed.

Chen Xiang told Long Tengyun his location, and said that he would be there in three days or so.

Although Chen Xiang was still unable to move freely on the Ninth Flying Dragon Experience Place, he didn't have any obstructions when using the power of space. If he encountered danger, he could still rely on the power of space to avoid it.

Three days later, Long Tengyun informed Chen Xiang that he was nearby and Chen Xiang let him enter the You Yao Mountain Villa. Long Qiumu was a Dragon Demon, so Chen Xiang was worried that she would cause unnecessary trouble, hence he hid from her.

After Long Tengyun arrived and saw Chen Xiang, he exclaimed in shock: "You really came here, you're way too fast!"

Long Tengyun remembered that he and Chen Xiang had only been separated for one or two years, but Chen Xiang had actually gone up to Ninth Flying Dragon Experience Place.

"There's no other way. The situation is forced." Chen Xiang shook his head and laughed: "Senior, is Dragon Ancestor's Mysterious Land here?"

"Yes, the Dragon Ancestor's Mysterious Land is located in a place with an extremely dense Myriad Tao energy! But I don't suggest you go right now. " Long Tengyun said.

Chen Xiang could tell that Long Tengyun was in a bit of a difficult situation. He could immediately guess that the situation in the Dragon Ancestor's Mysterious Land was not good.

"Your Dragon Ancestor's Mysterious Land is fighting for power?" Chen Xiang found it funny. He had met with this kind of thing quite a few times, but he never thought that the descendants of the World Defying Stage Dragon Ancestor would also do such a thing.

When he thought back to when he met the man who captured his Mouse Man, Chen Xiang knew that there must be something wrong with the people inside his Dragon Ancestor's Mysterious Land.

"Yes, it is more likely that chaos will arise during this time. Although I am in charge of managing the Dragon Ancestor's Mysterious Land, you should know that where there are people, there will always be many large and small circles, big and small powers fighting openly and covertly." Long Tengyun said: "If you go now, and know that you are going after the inheritance of the dragon clan, those people who forget about benefits will definitely not agree."

"I do not plan to go now. World Defying Stage Dragon Ancestor said that I will only go to the Tenth Flying Dragon Experience Place to retrieve the things he left behind."

"Oh right, Senior, have you been to the Tenth Flying Dragon Experience Place before?" Chen Xiang asked.

"I've been there. The tenth Flying Dragon Experience Place is completely different from the other Flying Dragon Experience Place!" Long Tengyun said as he furrowed his brows, "Of course, there is also a strong pressure there ... "The difference is that the environment up there isn't that good, unlike the flowers, grass and trees everywhere."

"Is it dangerous up there?" Chen Xiang asked again, he would be going up to look for something in the future.

"It's not dangerous. The few old fellows from our Dragon Ancestor's Mysterious Land don't want to go up, because with their current strength, they can't walk on stage properly." Long Tengyun laughed at himself: "I can't do it even if I'm above, the pressure on top is too strong."

"So it's like that!" Chen Xiang was looking forward to see the tenth Flying Dragon Experience Place.

"Will the thing left in the Dragon Ancestor's Mysterious Land by the World Defying Stage Dragon Ancestor be taken away?" Chen Xiang was more worried about this. Now that the Dragon Ancestor's Mysterious Land was in such a mess, he had no choice but to be worried.

"Don't worry about this, without the Dragon Ancestor's keepsake, we will not be able to enter the forbidden grounds within the Dragon Ancestor's Mysterious Land. Although those old fellows want it, they have no other choice." Long Tengyun's words made Chen Xiang feel a lot more at ease.

Chen Xiang and Long Tengyun chatted for a while before Long Tengyun returned. Right now, there were many things waiting for him in the Dragon Ancestor's Mysterious Land to take care of.

After Long Tengyun left, Long Qiumu came out of You Yao Mountain Villa and continued her cultivation with Chen Xiang. She also wanted to become stronger quickly so she could head to the Tenth Flying Dragon Experience Place with Chen Xiang.

Just now, she already knew that the strongest few old fellows in the Dragon Ancestor's Mysterious Land could not hold on for too long above the Tenth Flying Dragon Experience Place.

If she and Chen Xiang could cultivate to the Perfection Stage on the Tenth Flying Dragon Experience Place, at that time, they wouldn't have to worry about those stubborn old fellows in the Dragon Ancestor's Mysterious Land.

In the blink of an eye, Chen Xiang and Long Qiumu had already been in the Ninth Flying Dragon Experience Place for two years.

Chen Xiang felt that even if he faced Long Tengyun, he would still have the strength to fight!

"Are we going to the Tenth Flying Dragon Experience Place now?" Long Qiumu was already impatient. As long as he cultivated to the great perfection of the tenth Flying Dragon Experience Place, he would be equivalent to an existence at the peak of the Venerable ancestor realm. He might even be stronger than her father.

...

[Chapter 2936](#)

Chen Xiang looked at the sky and said: "Not now, we have already stayed in the Flying Dragon Experience Place for a few years. I plan to go down there and find out more about the Dragon Demon's recent situation."

Long Qiumu naturally followed along.

Chen Xiang not only wanted to understand the movements of the Dragon Demons in the past few years, he also wanted to make a trip to the Myriad Tao Mausoleum to buy some time.

He felt that it was time to go into seclusion to attempt breaking through the Venerable Ancestor Later-stage!

Before Chen Xiang returned, he found the Flying Dragon Palace Leader. They were still in the Seventh Flying Dragon Experience Place, and when he arrived, he coincidentally saw the small bat and Lin Jitian's swollen bodies. He gave each of them a bit of World Defying god fire s to refine, and that allowed them to advance by leaps and bounds.

"I went back previously, so the situation with the Dragon Demons is pretty stable. Just like before, they are gathering Dao crystal s everywhere. It seems like the mysterious legacies in the Myriad Tao Mausoleum are very attractive to them." Flying Dragon Palace Leader said, "Furthermore, there are already many Dragon Demons that have decided to climb up the Flying Dragon Experience Place!"

Climbing the Flying Dragon Experience Place was to use it for cultivation!

"What rank of Dragon Demons are they?" Chen Xiang asked.

"I'm sure there are people from the Venerable ancestor realm, but I haven't met them yet. If you are going to the tenth Flying Dragon Experience Place, you should be careful." The Flying Dragon Palace Leader said.

"I got it!"

Chen Xiang left the Flying Dragon Experience Place and went down to the city. He found the Great Clan Elder and the Master Wang and inquired them about recent events.

The Demonic Dragon's plan was to secretly help the sealed World Defying dragon demon recover its Evil Spirit Qi and break out of the seal.

This kind of thing would definitely be done secretly, and the Great Clan Elder and Master Wang would not be able to investigate.

"Long Tengyun might know something, if I knew earlier, I would have asked him first." Chen Xiang quickly headed to the Myriad Tao Mausoleum, went to the Time Ghost's room, and started refining the Nine-turn Yuanzun Dan.

After being in the Flying Dragon Experience Place for a few years, Su Yun had unearthed a lot of potential from his cultivation. He felt that even if he had to face the Venerable Ancestor Later-stage, defeating it wouldn't be a difficult task, even if he had to face the High Priest.

At this time, his control over his dao energy had become even more fluid. When refining the Nine-turn Yuanzun Dan, using the World Defying god fire had become much smoother as well.

"Seems like it won't be difficult to proceed with the Four Crash!" Chen Xiang used the Crash method to refine the Nine-turn Yuanzun Dan, preparing to proceed with the Four Crash.

This was something he did not dare to try before!

Bang!

The Tianchuang furnace swayed a little, and although it produced a deep sound, Chen Xiang managed to control it extremely well, and was able to successfully execute the Four Crash!

This way, he wouldn't need to refine too many Nine-turn Yuanzun Dan!

"Based on the current situation, I think 150 pills should be enough!" Chen Xiang buried himself to refine the Nine-turn Yuanzun Dan s, he planned to finish them all in one go before eating.

He did not have to worry about the time in Time Ghost, even if he had stayed for ten years it would be fine, and it would not be much longer outside.

It was just that it would consume many of his Dao crystal.

In just two years, Chen Xiang had successfully stepped into the Venerable Ancestor Later-stage. The six Divine Beasts in his body became extremely huge and lively, and if he were to let them out, they would become living powerful Divine Beasts.

There were more and more people with Venerable Ancestor Later-stage s, but the difference in strength between the realms was huge, especially for those who had never gone to the Flying Dragon Experience Place to train, the difference was huge compared to those who had.

"Alright, let's go to the Tenth Flying Dragon Experience Place!" After Chen Xiang left the Myriad Tao Mausoleum, he teleported to the Ninth Flying Dragon Experience Place in just a few moments.

And send a message to Long Tengyun!

Long Tengyun arrived very quickly, and seeing that Chen Xiang was able to walk around as he pleased, he was very surprised, because this was only the past two years.

"So fast! Many of us from Dragon Ancestor's Mysterious Land cannot be like you, who have cultivated for more than ten years. " Long Tengyun sighed: "Are you preparing to go to the Tenth Flying Dragon Experience Place?"

Chen Xiang nodded his head, and said: "Senior, what movements has the Dragon Demons been making recently, have you paid attention?"

"They have started to collect a large amount of evil power from the Myriad Tao Mausoleum. It has been going on for many years!" Talking about this matter, Long Tengyun's face turned serious.

"Can you estimate when the World Defying dragon demon will break the seal?" Chen Xiang frowned: "Did none from your Dragon Ancestor's Mysterious Land come out to stop them?"

"I still need around 10 years more time! Our Dragon Ancestor's Mysterious Land have already been divided into a few factions. They all thought that they were inside the secret realm and wouldn't be affected by the Dragon Demon's influence. Long Tengyun sighed: "Although I tried to stop them a few times, but I don't have enough power on my own, the number of powerful Dragon Demons are increasing, they were all 'created' by the High Priest."

"When I obtain the inheritance of the World Defying Stage Dragon Ancestor, I will deal with that bastard, the High Priest." Chen Xiang said: "Senior, you should also be careful, it's very likely that the people from your Dragon Ancestor's Mysterious Land will fight with Long Nan!"

"I will be careful. I wish you success in the tenth Flying Dragon Experience Place!" Long Tengyun patted Chen Xiang's shoulder: "Walk well!"

After Chen Xiang bid farewell to Long Tengyun, he instantly teleported high up in the sky and arrived below the tenth Flying Dragon Experience Place.

"Tenth Flying Dragon Experience Place, I'm here!" Chen Xiang took in a deep breath and then used the White Tiger to jump, passing through the barrier and arriving at the Tenth Flying Dragon Experience Place.

After arriving here, he cried out loudly. His knees bent and he was almost pressed down by the sudden pressure. "Motherf*cker, this is too scary!" Suddenly, with a "bang", Chen Xiang knelt on the ground, his knees struck the ground fiercely, causing his skin and flesh to crack, and fresh blood poured out.

He had originally thought that after he stepped into the Venerable Ancestor Later-stage, coming to this place would be much easier, but he never thought that it would be so difficult.

When Long Qiumu came out of You Yao Mountain Villa, her situation was even worse than Chen Xiang's. Just as she came out, her skin was already ripped apart due to the immense pressure.

Chen Xiang was worried that she wouldn't be able to hold on so he sent her into the You Yao Mountain Villa to be treated.

Chen Xiang and Long Qiumu had never encountered such a situation before. Even though those Flying Dragon Experience Places before had suffered a lot, they were at most in a difficult situation and had to endure a certain amount of pain.

But now it wasn't. It was a time of death. If he wasn't careful, his body would be torn apart by that power. It was an extremely terrifying scene!

"This requires a strong recovery ability!" Chen Xiang said: "Meimei, Sijing, see if you can pass that heaven defying power of yours to Qiu Mu. Otherwise, she won't be able to hold on here."

Chen Xiang's own recovery ability was not bad, so he could persevere on, if he wanted to cultivate till the Large Success Stage, it would only be a matter of time, but it would be very difficult!

[Chapter 2937](#)

Long Qiumu's current strength was not bad as well. She was a very good female dragon demon, a person who had been beaten up by the High Priest into a Purgatory for a few years and possessed an extremely high endurance. If she wasn't worried about dying, she would definitely be able to hold on.

"Right now, I can't even persevere. It seems like it will be difficult for me to cultivate to the Great Perfection Stage here!" Long Qiumu suddenly felt disheartened, her injuries had recovered quite a bit, but she knew very well of her own situation.

She knows that her own body is not strong enough, and is still lacking compared to Chen Xiang. At least, when Chen Xiang was resisting the pressure, he didn't nearly lose his life like her. "

"You don't have to worry about that. The two sisters will definitely think of a way to help you recover quickly!" Chen Xiang said: "You just need to learn from them seriously, if that doesn't work, then I will find a way to keep you cultivating here."

Long Qiumu was a very strong helper. Last time, she used a lot of power to help Chen Xiang deal with Zhao Clan's group.

"Alright!" Long Qiumu could only trust Chen Xiang now.

Chen Xiang himself already possessed astonishing recovery rate. Even if he was seriously injured, as long as he had time, he would be able to recover.

Now that he was using Dharmic powers to protect himself, he could lessen the pressure on his body a bit. It wouldn't be so easy to defeat him at once.

Even so, Chen Xiang's cultivation was still extremely arduous. His flesh was a mess of flesh and blood everyday and he had only just finished repairing it before he was torn apart by the pressure.

Fortunately, as time passed, this situation gradually improved. His cultivation speed was already extremely fast, and it had only been a year, but his body hadn't lost any blood.

In that previous year, his body was repeatedly torn apart, then healed, and then torn apart again. In this cycle, every time it was torn apart, a large amount of Myriad Tao's power would fuse into his flesh and blood. Over time, his body would gradually become stronger under this sort of cruel tempering.

Even though he couldn't walk fast enough, at least his body wouldn't bleed anymore!

"This progress isn't too bad. There's hope for reaching the great circle of perfection." Chen Xiang slowly walked around here.

Long Qiumu who was inside the You Yao Mountain Villa had already learnt the kind of astonishing regeneration ability that the Mei Jing Sisters used to help her cultivate using the unique Twin Life Mysterious Technique.

Long Qiumu felt that Chen Xiang had already passed the test and she had almost finished cultivating.

After Chen Xiang agreed, Long Qiumu ran out on her own. Just like last time, her entire body was instantly torn apart by the pressure, and started bleeding profusely.

Chen Xiang took out his Six Realms mirrors and combined it with his own strength to help Long Qiumu resist part of the pressure, allowing him to recover from his injuries.

In order to help Long Qiumu, Chen Xiang was also currently in a difficult situation.

Chen Xiang had only helped Long Qiumu to withstand twenty to thirty percent of the pressure, which made it much easier for him as his recovery speed could still keep up.

Although he wanted to help Long Qiumu, that did not affect his cultivation, and could be considered to be cultivation for Chen Xiang.

Just like that, with Chen Xiang helping her to withstand a portion of the pressure, Long Qiumu gradually improved. After half a year, she would no longer need Chen Xiang's help to cultivate by herself.

Long Qiumu was very clear that her progress was extremely fast right now, so it was very worth it to bear such immense pain and torture. She didn't have any complaints at all!

When she was captured by the High Priest and thrown into the Flying Dragon Imperial Palace's Purgatory, she suffered all kinds of torture. At that time, she swore that as long as she had the chance, she would make herself stronger, and only then would she not be trampled on by others.

When Chen Xiang saw that Long Qiumu, a female, was able to struggle so hard, he admired her from the bottom of his heart. He firmly believed that if the two of them could cultivate to the point of success, they could directly go and find the High Priest.

The High Priest's strength was also Venerable Ancestor Later-stage, but because of the support of the World Defying dragon demon, he was able to become much stronger than the other Venerable Ancestor Later-stage!

In addition, there were definitely many other powerful Venerable Ancestor Later-stage Dragon Demons at the side of the High Priest. If these Dragon Demons were to join forces, it would also be a terrifying power!

The key for World Defying dragon demon to break the seal was the High Priest. As long as they could kill the High Priest, they would be able to stop the World Defying dragon demon!

This was only Chen Xiang's plan now, but he couldn't guarantee if the World Defying dragon demon had any other tricks up its sleeve.

The World Defying dragon demon had a powerful World Defying Stage Evil Ancestor behind them, and that was what was most terrifying. This World Defying Stage Evil Ancestor had other actions, and that was to secretly help the leaders of the evil forces in the Myriad Tao Mausoleum step into the World Defying Stage!

This was also what Chen Xiang was worried about, he was especially worried that the Natural Law Divine Lord would step into the World Defying Stage, so he had to increase his speed to become stronger, even if he could not stop this from happening, he had enough strength to respond in a timely manner!

... ..

Chen Xiang and Long Qiumu had been cultivating in the Tenth Flying Dragon Experience Place for five years, and currently, the two of them were able to fly there. When they moved, they were not affected by the pressure, which meant that they had reached large success in their cultivation!

"We've finally succeeded, now we're definitely on par with the High Priest!" Although Long Qiumu did not go find the High Priest, she had a feeling of pride in her own strength.

"We've been here five years! According to Long Tengyun's estimation, they would probably need around ten years to help the World Defying dragon demon break the seal. I think we still have enough time to stop them. " Chen Xiang said: "Let's go find the High Priest first, then we'll go to Dragon Ancestor's Mysterious Land!"

"Hm!" Chen Xiang, thank you! " Long Qiumu gave Chen Xiang a gentle smile. "If not for you, I still don't know when I would have been able to become so strong!"

"You're welcome!" Chen Xiang laughed mischievously, and then, he rubbed Long Qiumu's face. "Let's go, I'll go look for Flying Dragon Palace Leader first, he should be in Ninth Flying Dragon Experience Place now!"

When Long Qiumu entered Chen Xiang's You Yao Mountain Villa, she also had two sisters inside, which were Mei Jing Sisters. At this moment, their relationship was very good, after all, they had been together for a long time, and even took care of each other.

Chen Xiang came to the Ninth Flying Dragon Experience Place, took out the Communication jade Symbol paper and sent a message to the Flying Dragon Palace Leader, as expected, the Flying Dragon Palace Leader was already here.

Previously, he had given it to the Flying Dragon Palace Leader and the rest, which was why they were able to cultivate so quickly.

When Chen Xiang heard that they were there, he immediately used the Six Realms Time and Space Door to look for them. When Chen Xiang saw the Flying Dragon Palace Leader, Lin Jitian and the others, he realised that they had already cultivated very well and had already reached the stage of success.

However, he saw that the little bat did not look too good, as if it was injured!

"Chen Xiang, we have to leave this place quickly. We are being watched!" When Flying Dragon Palace Leader saw Chen Xiang, he immediately said in a low voice: "This is truly strange, we have all been hiding very well, but we were still discovered."

[Chapter 2938](#)

Chen Xiang immediately used the Six Realms Time and Space Door to come here. He only knew that this was a dark secret room, and he didn't know where it was located.

"What's going on?" Chen Xiang looked around and asked: "Where are we?"

"Deep down, we were cultivating here, but we met a group of people. They were very strong, and also had a lot of people!" The Flying Dragon Palace Leader said, "Fortunately, our strength is not bad, and we were able to force them to retreat with difficulty. We even killed two of them, causing the little bats to be injured!"

"Could it be someone from the Dragon Ancestor's Mysterious Land?" Chen Xiang frowned and thought for a while, then said: "To be able to fight in the Ninth Flying Dragon Experience Place, this guy is definitely not an ordinary person. How many people are there in total?"

"Six!" I don't know if they are the Dragon Ancestor's Mysterious Land's or not, but I do know that there is a Dragon Demon among them! " After the Flying Dragon Palace Leader finished, he urged, "Let's leave this place first! "We've killed two of them. They must be holding a grudge. I've activated some of the invisible mechanisms I set up outside of this place. I believe they must have found this place."

"There's no need to go for now, I'll go and take a look at them!" Chen Xiang immediately released ten Heaven devouring rats.

The Heaven devouring rat was placed on the ground by him and probed with his spatial energy. Soon, he saw seven or eight people on it.

Three of them had the aura of Dragon Demons, so he was sure they were Dragon Demons!

"Senior, have you left the Flying Dragon Experience Place recently? How is the situation outside?" Chen Xiang asked. He felt that the reason the Dragon Demons could come here to cultivate was because they had good conditions.

In other words, the development of the Dragon Demons was very good, and the High Priest knew that if the Dragon Demons wanted to become stronger, they would have to go through the Flying Dragon Experience Place trial.

"It's still the same. There aren't any changes. As for the rest, I don't have the time to understand them clearly." Flying Dragon Palace Leader shook his head, then asked: "Do we really not need to leave now? I'm a little worried about them! "

"I came down from the Tenth Flying Dragon Experience Place, don't be afraid of them!" laughed. At this time, his Heaven devouring rat had also become very strong, he felt that it was at least as strong as the early stage of the Venerable ancestor realm.

Chen Xiang took out a piece of Communication jade Symbol paper and sent a sound transmission to Long Tengyun. He and Long Tengyun had not seen each other for five years, so he did not know how Long Tengyun was doing right now. There are powerful Dragon Demons and humans in the Ninth Flying Dragon Experience Place. Do you know what is going on? " Chen Xiang asked as he sent a sound transmission to Long Tengyun.

Not long after, Long Tengyun gave Chen Xiang a reply, "The Dragon Ancestor's Mysterious Land has already fallen, and was taken over by more than half of the Dragon Demons. My cultivation was crippled, and I am currently just an old servant of the Dragon Ancestor's Mysterious Land.

When Chen Xiang heard this news, he was extremely surprised. The strong Long Tengyun had actually fallen to such a state!

With his cultivation being crippled, and him becoming a servant of the Dragon Ancestor's Mysterious Land, it was clear that his enemy was doing this to Long Tengyun.

And Long Tengyun, in order to wait for Chen Xiang, could only endure this kind of humiliation!

The Dragon Demons actually knew about the existence of the Dragon Ancestor's Mysterious Land. Clearly, some old fellows of the Dragon Ancestor's Mysterious Land had colluded with the Dragon Demons!

"It's good that you're back. Did you find the thing left behind by the Dragon Ancestor in the tenth Flying Dragon Experience Place? "Currently, the Dragon Demons are frantically attacking the Dragon Ancestor's forbidden area, trying to take away the legacy left behind by the Dragon Ancestor." Long Tengyun asked.

"Not yet. I was planning to get rid of the High Priest first, but I didn't expect it to turn out like this." Chen Xiang really did not expect this to happen, he felt that he still had enough time.

"There's not much time left, the High Priest has already stepped into the World Defying Stage. It's said that there are a few new World Defying Stage in the Myriad Tao Mausoleum, and the current situation is

extremely disadvantageous for us." Long Tengyun also knew the World Defying Stage Evil Ancestor's plan.

"What about the World Defying dragon demon? Has he broken through the seal?!" Chen Xiang took a deep breath and asked, if the World Defying dragon demon also came out, then the situation would become even worse.

"Not yet. Back then, the seal left behind by the Dragon Ancestor was very strong. It wasn't that easy to break through. Although there are a few new World Defying Stage Warriors in the Myriad Tao Mausoleum, they cannot leave the Myriad Tao Mausoleum, so there is no need to worry too much about it." Long Tengyun said: "The most important thing now is to quickly take away the inheritance left behind by the Dragon King. I heard that the High Priest will be arriving at the Dragon Ancestor's Mysterious Land very soon!"

Chen Xiang immediately told Flying Dragon Palace Leader about this. After Flying Dragon Palace Leader heard about it, his expression turned ugly!

The High Priest of the World Defying Stage was definitely not someone they could deal with!

Chen Xiang's face became gloomy, he never thought that the High Priest would be able to break through so quickly, and actually step into World Defying Stage!

"Seems like I need to hurry to the Tenth Flying Dragon Experience Place and find the keepsake left behind by the World Defying Stage Dragon Ancestor." Chen Xiang originally wanted to work with Long Qiumu to get rid of those people who were looking for the Flying Dragon Palace Leader, but he was worried that this would alert the enemy.

Chen Xiang teleported the Flying Dragon Palace Leader and the others, left the Flying Dragon Experience Place, and headed towards the tenth Flying Dragon Experience Place himself!

"Do you know where the World Defying Stage Dragon Ancestor's keepsake is?" Long Qiumu asked.

"Of course I know. World Defying Stage Dragon Ancestor told me before, but it was a bit difficult!" This was also the reason why Chen Xiang did not go before, it might take a lot of time, but now that the situation was so critical, he could only try his best to take away the thing that World Defying Stage Dragon Ancestor left behind.

There was no blue sky above the Tenth Flying Dragon Experience Place, nor were there any plants. It looked lifeless, but there was a large amount of Myriad Tao power inside.

This place was shrouded in darkness. Chen Xiang stayed in darkness as he looked at the mountain peaks in the distance that were flickering with light. Following World Defying Stage Dragon Ancestor's instructions, they quickly arrived at a mountain range with bursts of dark wind.

It was because of the power of space that Chen Xiang was able to be so fast, otherwise, when he entered, he would definitely have been obstructed by a violent gust of wind for a long period of time.

"Is this where the keepsake of the Dragon Patriarch is?" Chen Xiang entered the middle of the mountain range and very quickly, he saw the faint shadow of a dragon using the Dao heart Eye.

There was a giant mountain below the dragon's shadow!

He entered the belly of the mountain. There was a very small stone room inside, and when he discovered it, he immediately used his spatial energy to enter it.

Inside the stone room was a small black stone box. He opened the box and saw a Hexagonal disk.

"This is it?" Chen Xiang looked carefully, and saw nothing, but to be able to find such an item here, it must be something left behind by the World Defying Stage Dragon Ancestor.

After obtaining it, he immediately returned to the Ninth Flying Dragon Experience Place!

After contacting Long Tengyun, Chen Xiang found out the way to Dragon Ancestor's Mysterious Land.

Long Tengyun did not have freedom, and his powerful strength was also gone. He was imprisoned inside the Dragon Ancestor's Mysterious Land, unable to come out to bring Chen Xiang in.

Chen Xiang could only go in.

[Chapter 2939](#)

The so-called Dragon Ancestor's Mysterious Land was located on a huge island in the middle of a lake in the Ninth Flying Dragon Experience Place.

This island was protected by a barrier. Outsiders were not allowed to enter, and only those inside were allowed to enter.

"This barrier is the strongest one I have ever encountered, it should have been set up by the World Defying Stage Dragon Ancestor!" Chen Xiang stood outside the barrier and took a deep breath, "I wonder if I can enter!"

Previously, Long Tengyun was also worried about this matter, worried that Chen Xiang would not be able to sneak in. Although he knew that Chen Xiang could use his extremely strong spatial energy, this barrier is also very terrifying. "

Chen Xiang tried to penetrate the spatial barrier in front of him, but no matter how he tried, he could not succeed!

"What the hell is going on?" Chen Xiang opened his eyes and said in a shocked tone, "The barrier that World Defying Stage Dragon Ancestor has set up is indeed not ordinary!"

Chen Xiang lingered around the outer part of the island, wanting to teleport in, but no matter how hard he tried, he couldn't.

"Senior, I already have the keepsake of the Dragon Ancestor. However, I am unable to enter. Is there any other way?" Chen Xiang asked.

"Why don't you try and take the dragon ancestor's keepsake in your hands!" Long Tengyun thought for a while, then said: "The Dragon Ancestor's keepsake should be able to allow you to ignore any of his enchantments!"

After holding the Hexagonal disk in his hand, Chen Xiang tried to teleport again.

"I'm coming in!" Chen Xiang immediately sent a sound transmission to Long Tengyun: "Where are you?"

Long Tengyun called over, her voice was excited: "Don't come to my place, I have a lot of people guarding here, I'll guide you to the Dragon Ancestor's Forbidden Land, you can leave after you get the keepsake!"

"Then what will you do?" Chen Xiang asked: "I have to save you!"

"Don't worry about me. I don't have any cultivation left anyway. If I die, then so be it. As long as you can obtain the inheritance of the Dragon Ancestor, I will let the legacy not fall into the hands of the Dragon Demon." Long Tengyun said, at that moment he only wanted to be free, he was such a strong person, but now his cultivation was gone, living with his last breath of life.

"En!" Chen Xiang had only agreed to it this way. He definitely would not let Long Tengyun die here like this.

After that, Long Tengyun told Chen Xiang the location of the Dragon Ancestor's forbidden grounds. Only with the Dragon Ancestor's keepsake could they enter into the Dragon Ancestor's forbidden grounds.

Chen Xiang used teleportation to move around freely in the Dragon Ancestor's Mysterious Land. He was not in a hurry to go to the Dragon Ancestor's Forbidden Land, but wanted to roam around. He wanted to see how many Dragon Demons were there!

Suddenly, he felt a trace of an aura that he was very familiar with. Although that aura was very weak, it was very powerful.

This made Chen Xiang suddenly quiver!

"High Priest!" Chen Xiang couldn't help but shout in his heart, "The High Priest is actually here, no wonder Long Tengyun didn't let me save him. Could it be that Long Tengyun is very close to the High Priest?"

Previously, Long Tengyun had said that the High Priest was coming here, and he had indeed come, since there was a mysterious inheritance left behind by the World Defying Stage Dragon Ancestor!

"I need to hurry to the Dragon Ancestor's forbidden area!" Chen Xiang hastily teleported to the entrance of the Dragon Ancestor's forbidden grounds.

The Dragon Ancestor's Forbidden Land was located in a cave. There was a pit at the entrance of the cave, just large enough to fit that Hexagonal disk.

Although it was daytime when Chen Xiang arrived here, there were not many people around him. Instead, he participated in a very powerful aura, which meant that there were many powerful Dragon Demons and humans that had attacked the stone door.

It was just that he did not succeed in breaking it!

"The High Priest tried it himself, but he failed!" Chen Xiang could feel the aura of the High Priest from this place.

Chen Xiang took the Hexagonal disk and walked over. He placed it in the groove and after putting it in, he saw the door have a suction force.

As for the stone door, it also turned in a circle. This way, the stone door with Hexagonal disk s inside was opened, and people outside could not come in.

"Is this the Dragon Ancestor's forbidden area?" In front of Chen Xiang was a very spacious stone room, lit up with white light.

Looking at the white light, Chen Xiang was in a daze, only to see a golden dragon suddenly flying over. He could not dodge in time, and the golden dragon drilled into his body, and he fell asleep right away!

... ..

Outside, after Chen Xiang entered the Dragon Ancestor's forbidden grounds, the commotion caused by the stone door alarmed the people of the Dragon Ancestor's Mysterious Land.

The High Priest was the first to arrive here. His entire body was red, and although his red face could not be seen, it was twisted. It was obvious that he was suffering from extreme anger.

"Yes ..." It's Chen Xiang, he actually entered the Dragon Ancestor's Forbidden Land! " The High Priest was extremely familiar with Chen Xiang's aura. He could still clearly remember the time Chen Xiang stole his Dragon Devil Grandmother. This was the first time he had suffered such a huge loss.

At this time, the other old fellows and powerful Dragon Demons of the Dragon Ancestor's Mysterious Land also arrived!

"How did he get in? Even after using such a powerful force, we were still unable to break open that stone door, but he can! " A Dragon asked.

Go and capture that old monster Long Tengyun. You must torture him properly, he must know something! The High Priest said in a low voice.

Soon after, Long Tengyun was brought over. He had already lost his power and was just an old man.

When Long Tengyun arrived and saw that the stone door that had not been touched for thousands of years had flipped over, he could not help but raise his head and laugh, because he knew that Chen Xiang had successfully entered the Dragon Ancestor's Mysterious Land!

"Old bastard, what are you laughing about?" The High Priest waved his hand, wanting to attack Long Tengyun, but he did not. He was worried that he would kill Long Tengyun with a single palm.

Long Tengyun was currently very weak, and the High Priest thought that Long Tengyun still had a great use for him, so he did not kill him. He did not dare torture him, lest he accidentally kill Long Tengyun.

"Quickly kill me!" After Long Tengyun finished laughing, he looked at the High Priest extremely happily as he sneered.

He knew that Chen Xiang would definitely receive the World Defying Stage Dragon Ancestor's inheritance, and that would allow Chen Xiang to step into the World Defying Stage!

Therefore, he felt that he would die with no regrets. After all, he had already lived for a very long time, and had lived enough. He was not afraid of death!

"Old dog, don't think that you can die so easily. I will let my own eyes see how your World Defying Stage Dragon Ancestor is truly in our hands." The High Priest had not been provoked by Long Tengyun. He could see the relationship between Chen Xiang and him.

If Chen Xiang came out, he could totally use Long Tengyun to threaten Chen Xiang, so he endured it!

It wasn't long before Chen Xiang fainted after entering, but his consciousness was extremely clear, he could even hear the High Priest's voice outside, only that he could not move his body!

"You're finally here!" There's still time. Whether or not we can turn the tide is up to you! " Chen Xiang suddenly heard World Defying Stage Dragon Ancestor's voice in his mind.

[Chapter 2940](#)

Chen Xiang never thought that the World Defying Stage Dragon Ancestor would actually wait for him here for so long, and even gave him such a great hope.

"Dragon Ancestor, how is the situation in Myriad Tao Mausoleum?" asked, now that World Defying Stage Dragon Ancestor and the World Defying Stage Tao Ancestor were inside the seal, they could suppress the Evil Ancestor.

However, there are many new World Defying Stage inside the Myriad Tao Mausoleum, all of them were raised up by the World Defying Stage Evil Ancestor, if they join hands with the World Defying Stage Evil Ancestor, the consequences would be dire. "

Although a few of them have already stepped into the World Defying Stage, they are still not that strong. Even if they were to enter the seal, they will not be able to pose much of a threat to us, and they will not be able to help the World Defying Stage Evil Ancestor escape. The World Defying Stage Dragon Ancestor said.

They had already stepped into the World Defying Stage and were no threat to them. It could be seen that there was a huge gap between them!

"The situation in Dragon Ancestor's Mysterious Land is not good. Senior Long Tengyun is currently in a very dangerous situation." Chen Xiang immediately told World Defying Stage Dragon Ancestor what happened.

World Defying Stage Dragon Ancestor was very angry after hearing this. He never thought that the descendant he left behind would actually be this virtuous and virtuous. Not only did he betray Long Tengyun, he even collaborated with the Dragon Demon!

Cooperating with the Dragon Demon was equivalent to rebelling against their World Defying Stage Dragon Ancestor. This was a heinous crime of deceiving your master and exterminating your ancestors!

If World Defying Stage Dragon Ancestor was able to escape now, he would definitely rush back and exterminate those people who rebelled against him.

"Since that's the case, I'll hand over the inheritance to you as soon as possible!" The World Defying Stage Dragon Ancestor said. After all, in the Dragon Ancestor's Mysterious Land, only Long Tengyun did not go against their teachings, which made him feel extremely gratified.

"Alright!" After Chen Xiang finished speaking, a few things appeared in his mind. This was the inheritance that the World Defying Stage Dragon Ancestor had passed on to him.

He roughly checked and discovered that He He had a deeper understanding of the Myriad Tao Divine Arts. Previously, when he understood the Myriad Tao Divine Arts, there were many things he did not understand, but now, he suddenly understood.

The Myriad Tao Divine Arts was the most important technique to enter the World Defying Stage. Only by practicing it would one be able to smoothly and steadily step into the World Defying Stage.

Although Chen Xiang and Flying Dragon Palace Leader had the Myriad Tao Divine Arts, they did not know much about it. This was also the reason why they had been stuck there.

"Thank you senior, I will definitely work hard to cultivate and enter the World Defying Stage as soon as possible." Chen Xiang said.

"Hurry up and save Long Tengyun, be careful!" World Defying Stage Dragon Ancestor said: "If he insists on dying, tell him that I let him live. When I come out, I will help him recover his cultivation."

Chen Xiang had already woken up, he now had a greater understanding of the World Defying Stage.

If one wanted to enter the World Defying Stage, the most important thing was to cultivate the World Defying soul. The World Defying soul was formed by the Six souls, and as to how to cultivate it, there was one in the Myriad Tao Divine Arts, but Chen Xiang did not understand it before.

Now that he understood, he could cultivate the Myriad Tao Divine Arts, and the moment he could cultivate the World Defying soul, he could step into the World Defying Stage!

Cultivating World Defying soul was only the first step, and this was also the most difficult step! At this stage, one's own Dao Energy would be several times stronger than before, or even ten times, or even more!

His Dao Energy had improved greatly, and now, with the help of this Dao Energy, he could cultivate his own body, and gain a prideful body, which was the true step into World Defying Stage!

Even if he had the World Defying soul, he was only half a bucket of water. Although he was also called World Defying Stage, his strength was far weaker than someone with a proud body.

The World Defying Stage Dragon Ancestor told Chen Xiang that although the High Priest and the leaders of the evil forces in the Myriad Tao Mausoleum were all World Defying Stage s, they only had World Defying soul s and were about several times stronger than those at the peak of the Venerable Ancestor Later-stage.

Furthermore, they did not cultivate their own World Defying soul. It was all given to them by the World Defying Stage Evil Ancestor as half of their World Defying soul, allowing them to use their own Six souls to repair the half of the World Defying soul, refining a complete World Defying soul!

Even though they could cultivate World Defying soul through this method, a World Defying soul like this would have a huge drawback, and the improvement it brought them would also be greatly reduced.

Only by cultivating the World Defying soul himself would he be able to obtain an even stronger power, and have a firmer foundation!

Chen Xiang was still in the cave. He could feel Long Tengyun's weak aura from the cave, and it wasn't long after he entered.

At this moment, the High Priest and a few powerful Dragon Demons outside were continuously attacking the stone door. They wanted to break it open, but to no avail!

After Chen Xiang sensed Long Tengyun's aura, he immediately used the power of space to move him in.

When Long Tengyun came in, he was stunned for a moment. When he saw Chen Xiang, he immediately understood what had happened.

"Ai!" Long Tengyun sighed helplessly. It was a good thing that Chen Xiang was able to save him, at least he wouldn't need to worry about the High Priest threatening him.

However, he no longer had any cultivation. He only wanted to die and end his own life.

"Senior, I've talked to World Defying Stage Dragon Ancestor just now. He asked me to tell you that you must survive until he comes out to help you recover your cultivation." Chen Xiang held Long Tengyun up, and smiled: "We are leaving this place now, I have already obtained the inheritance of the World Defying Stage Dragon Ancestor!"

was very happy that he was able to obtain the inheritance so quickly. He nodded his head, the World Defying Stage Dragon Ancestor valued him so much, how could he let him down?

After Long Tengyun was moved away, the High Priest who was outside was extremely furious and attacked the stone door even more forcefully!

And Chen Xiang who was inside, had long since teleported away with Long Tengyun.

He allowed Long Tengyun to be together with Master Wang, who was a Alchemist who could refine pills to help Long Tengyun extend his lifespan, and who had also been severely injured before. At that time, his cultivation had completely disappeared, and he was able to recover successfully.

Therefore, the Flying Dragon Palace Leader could also be of great help to Long Tengyun.

After Chen Xiang settled down Long Tengyun, he took out the Nine-turn Yuanzun Dan and sold it among the Flying Dragon Pagoda, and very quickly, he sold quite a few of them, and collected a billion Dao crystal.

Originally, Chen Xiang wanted to continue to sell the Nine-turn Yuanzun Dan here, but because the pill was too shocking, it quickly attracted the attention of the High Priest.

Only now did Chen Xiang have no choice but to stop and head towards the Myriad Tao Mausoleum!

Previously, when he had received the World Defying Stage Dragon Ancestor's inheritance, he had also received some useful words from the World Defying Stage Dragon Ancestor.

For example, in the Myriad Tao Mausoleum, there was an extremely strange Alchemist. The World Defying Stage Dragon Ancestor even sent Chen Xiang to find this Alchemist, and showed him the Dragon Ancestor's keepsake, asking the Alchemist to help.

The Alchemist s of the World Defying Stage s were supreme existences to Chen Xiang. He definitely had to experience them, and furthermore, he planned to look for the Inheritance Formation in the Myriad Tao Mausoleum to try his luck and see if he could see the Half-ghost Old Man again.
