

Dan God 3221

[Chapter 3221](#)

Although the Six Realms mirrors s refined from Myriad Tao Divine Soil Crystals looked the same as before, the color had changed a lot. Right now, the surface was a light gold crystal, when injected with the World Defying Stage Fierce Power, it could make the mirror frame emit a faint golden glow, and the mirror surface was also brighter and clearer.

"That's right, when I'm using it, can others see that this is something refined by Crystal emperor?" Chen Xiang asked: "If I can see it, isn't that too high-profile? It's very easy to be hunted down! "

"Most people can't tell, so don't worry, at least I can't tell that it's a Crystal emperor." The Spirit of Divine Alter said, "This is mainly because Chen Cai's refining technique is outstanding, and is able to conceal the aura unique to the Myriad Tao Divine Soil."

Chen Xiang relaxed and laughed: "When I took out this shovel, I was actually recognized by someone, hehe!"

Feng Ke'er scoffed, "Am I not good at refining? Back then when I was refining, I was just casually refining it. Who would have known that you would use it to fight. "

This was truly refined casually by Feng Ke'er, it was a place filled with Myriad Tao Divine Soil, she did not feel bad at all.

"I don't need to concoct any pills during this period of time, so I don't need this Tianchuang furnace for now." After Chen Xiang received the Six Realms mirrors, he felt that it was enough, he had been holding it in for a long time, he really wanted to try out the Ardent Flame Sword Technique.

"This kid, he can't sit still anymore." Chen Cai laughed.

"It must be to go out to harm our sister." Spirit of Divine Alter laughed sinisterly.

Chen Xiang stuck out his tongue at them, then left the Divine Soil Restricted Area. He could not use his Frenzy sword method here, he was worried that he would be discovered by the Spirit of Divine Alter.

After leaving the Divine Soil Restricted Area, when Chen Xiang went outside, he immediately felt that there were a lot of auras left here, causing him to take a deep breath, "Those people actually came here, and the Emperor of the Heaven Old Imperial Family, what are they doing here?"

"Could he be preparing to attack the Divine Soil Restricted Area?" Chen Xiang looked at the barrier that shrouded the Divine Soil Restricted Area. The power of the Ancient Super Yang Divine Alter had strengthened him, so he was more at ease.

"Whatever, the Spirit of Divine Alter should be able to protect this Divine Soil Restricted Area. I'll go try out my Frenzy sword method first." Chen Xiang took out the Heavenly magic sword s and refined it with the Crystal emperor s. The originally pitch-black sword blade had already turned pale golden, and it looked extremely beautiful.

However, Chen Xiang felt that it was a little unaccustomed, because he had used the Heavenly magic sword for many years.

After Chen Xiang came out, he immediately left Divine Soil Restricted Area and arrived at a mountain range.

"Let's try the basics of Frenzy sword method, Frenzy sword wind!" Chen Xiang took a deep breath, then activated the Sun madness fire and the World Defying Stage Fierce Power, following the instructions in the sword technique.

Heh!

Chen Xiang slashed out, and with a "peng" sound, the Heavenly magic sword shook violently for a while, before exploding out with a loud noise.

"It's a failure. The sword qi did not appear smoothly, and it exploded within the sword."

Failing on the first try was a very normal thing, Chen Xiang knew that it was not easy to grasp Frenzy sword method, and needed a lot of practice.

After a few days of practice, when Chen Xiang brandished the sword, a faint layer of mist could be seen on the surface of the Heavenly magic sword. This mist continuously surged.

"My Heavenly magic sword was refined using Crystal emperor in the first place. It is extremely sharp and is unable to see how strong the Frenzy sword wind is."

Chen Xiang kept the Heavenly magic sword and took out an ordinary divine sword. After successfully releasing the Frenzy sword wind, he took out a pill furnace that he did not want, and swept it towards the pill furnace.

"The Frenzy sword wind is truly powerful, but it does not have any aura, nor does it have that kind of overbearing and overbearing aura." Chen Xiang looked at the Frenzy sword wind on the sword and nodded his head in satisfaction.

Frenzy sword wind was only the basics of Frenzy sword method, and to use the later sword moves, one had to grasp the Frenzy sword wind first.

Chen Xiang then began to control his Frenzy sword wind to fly out. It could conduct long-range attacks and was very useful in battle. After ten days of practice, it was enough for him to successfully slash apart the gigantic mountain that was thousands of meters away.

"It's really mysterious. Even though the Sun madness fire was used, it did not have a single bit of flame nor was it scorching hot. This degree of restraint is really scary." Chen Xiang had thought that the Frenzy sword wind would be like the Sun madness fire, releasing an extremely tyrannical flame Qi Shi, or maybe it was a scorching power.

But now that he had mastered it, he discovered that it was not like that. Frenzy sword wind required a large amount of Sun madness fire and World Defying Stage Fierce Power to be converted into a very strong Qi.

Of course, there were a lot of content in the Frenzy sword method, with these kind of gentle and restrained sword moves, there were also berserk and surging inside, but Chen Xiang had not learnt them yet, because all he had learned was the basics, to master the basics well, to integrate and understand

them well, and to learn other sword moves later on, he would be able to use them flexibly, and would be able to master them easily.

Early in the morning, Chen Xiang watched the seven suns rise, and was extremely curious in his heart, "What exactly is within these suns ... Super Yang Old Ancestor is truly a powerful guy, to have so many Myriad Tao Divine Soil s, and even have the Sun Fire Seed ... "

Chen Xiang had always felt that these suns were strange, he suddenly felt that they were all alive, but it was difficult to communicate with them.

"Where are the two dead suns? Could it be that after a Super Yang Divine Race is destroyed, the corresponding sun will destroy itself? The destruction of such a strong sun should have had a huge impact on a world. However, two of the suns were destroyed, but this Heaven Old Super Realm was completely fine. "

The Sun madness fire that Chen Xiang was currently mastering, as well as the sun Sword Blood and the Frenzy sword method that he was learning, were all closely related to these suns. This made him curious, as he wanted to find out the secrets that were hidden within them for eternity.

"I wonder how the situation is right now. Back then, Heaven Old Divine Race had the ability to eliminate the Divine Soil Race. I can't let my guard down." Chen Xiang already treated the Divine Soil Restricted Area as his home, it was a place with an extremely good environment, and it also had a large number of Myriad Tao Divine Soil.

Chen Xiang did not want the Myriad Tao Divine Soil to be controlled by a power like the Heaven Old Divine Race, so he anxiously stopped his training and headed towards the city that the Heaven Old Imperial Palace was at.

If he wanted to pay attention to the Heaven Old Divine Race, he would need to find an old friend for help. He anxiously took out the Six Realms mirrors and found Yue Yiran.

"Boss, how is it now?" Your problem is settled, Chen Xiang needs Yue Yiran's help.

[Chapter 3222](#)

Yue Yiran understood the Heaven Old Imperial Family a little, so he planned to sneak into the Heaven Old Imperial Family to investigate. He wanted to ask Yue Yiran what he needed to pay attention to.

When Yue Yiran heard Chen Xiang's voice appearing in his mind, he answered: "I've pretty much dealt with it. Come to Sky Qi City, I'll wait for you here."

After Chen Xiang used the Six Realms mirrors to locate Yue Yiran's position, he immediately used the power of space to teleport outside Sky Qi City.

Celestial Qilin City was a relatively large city. With the protection of an array formation, one was not allowed to directly teleport in. Otherwise, it would cause a great deal of commotion.

"The formations of this city are not bad. I don't know who set them up, but they are much better than those of the previous cities." Feng Ke'er said. This was a great defensive formation that she had seen before in the Heaven Old Super Realm.

Of course, Chen Xiang did not know who had set it up, but he felt that Yue Yiran should know.

After Yue Yiran left the Heavenly Dan Mountain Villa, it was obvious that he was very trusting of the city to come to this kind of place.

Entering the Sky Qi City, Chen Xiang felt that everyone inside was strange, just as he was about to enter the city and use the Six Realms mirrors to look for Yue Yiran, Yue Yiran suddenly popped out.

"Hehe, you're really here." After Yue Yiran told him the meeting place, he hastily ran to the city gate and immediately saw Chen Xiang.

Chen Xiang looked around and whispered: "Boss, don't you need to disguise yourself?"

Yue Yiran was currently using his original appearance, and there were quite a few people who knew of him. The matter of him being captured by the Heavenly Dan Mountain Villa was extremely famous, but he seemed to not be afraid of others knowing about it.

"There's no need to be afraid here." Yue Yiran laughed as he walked on the main street with Chen Xiang in tow.

"Why don't you need to be afraid?" Chen Xiang saw that the people around him did not pay much attention to them, the people here did not seem to care about anyone else.

"Most of the people here are not from the Super Yang Divine Race." Yue Yiran laughed: "The majority of it comes from the Myriad Tao s, and this city's power is also very strong. They can avoid being bullied by Super Yang Divine Race s."

Chen Xiang understood that it was very difficult to survive above Myriad Tao, and the people who came here from the top, were mostly very strong, if they gathered here now, they could form a very strong force, this way, the Heaven Old Divine Race would not dare to bully them, if not they would have to pay a very large price.

Yue Yiran brought Chen Xiang to the house that he bought here. After entering, he asked: "Why are you looking for me?"

"I want to enter the Heaven Old Imperial Family to investigate, I'm worried that they will make some big movements." Chen Xiang said: "It's mainly because last time in the Heavenly Dan Mountain Villa, how many Myriad Tao Divine Soil s did they see when I took them out? Later on, they followed me to the outskirts of the Divine Soil Restricted Area."

Yue Yiran was also very curious about the origins of Chen Xiang's Myriad Tao Divine Soil. Now that he heard Chen Xiang say it this way, he seemed to understand that Chen Xiang's Myriad Tao Divine Soil was obtained from the Divine Soil Restricted Area.

One must know that in the Divine Soil Restricted Area, only the Divine Earth Realm people could enter the Sun God Forest, and there were a large number of Myriad Tao Divine Soil s inside, which was why Chen Xiang was able to have so many Myriad Tao Divine Soil s.

"You don't need to go to the Heaven Old Imperial Family. It's a mess there." Yue Yiran said: "Heaven Old Imperial Family does not have that strength right now, but they will definitely not show it, because

when the two realms fuse together, Heaven Old Divine Race will not let the other four Super Yang Divine Race s underestimate them."

"But I'm still worried, after all, the Heaven Old Divine Race has once sealed the Divine Soil Race successfully." Chen Xiang said.

"The Heaven Old Imperial Family doesn't have any power now, it's mainly because the experts that participated in the seal went up to the Myriad Tao, there are many strong fellows up there. If the Myriad Tao Divine Soil here is able to attract them, they will definitely come down, and that is what you need to worry about, and by then, it will not only be the power of the Heaven Old Imperial Family, the other Super Yang Divine Race will also have very powerful forces, maybe they will even join hands."

Hearing Yue Yiran's words, Chen Xiang became even more worried.

"Dong Dong Dong"

Suddenly, someone knocked on Yue Yiran's door.

Yue Yiran gave Chen Xiang a glance, then hurriedly opened the door. Three middle-aged men dressed in black, walked in, and scanned the house the moment they entered. Although they saw Chen Xiang, they did not take him seriously at all.

This was mainly because Chen Xiang's concealing ability was too strong, so they did not discover his true strength.

"What are you doing?" Yue Yiran saw that these three people were extremely rude and aggressive.

"Yue Yiran, where's the white-haired man who saved you before? "Where is he?" the middle-aged man asked with a threatening tone, his face full of malice.

Are you people from the Heaven Old Imperial Family? Yue Yiran chuckled: "I can answer you, I can't!

"Now that I've chosen not to answer, and also told you to get out of here as soon as possible, this is my territory, I don't welcome you."

Yue Yiran was very clear about the rules of this place, so he was not afraid of them at all, and he also very much hated these people.

"Do you think the scattered sand here can deal with us?" These three middle-aged men were extremely powerful, and their strength was also extremely strong. One could see that all of them wielded weapons, and all of them had long, faint golden blades in their hands.

Seeing their weapons, Chen Xiang frowned, realizing that these three middle aged men were not members of Heaven Old Imperial Family who had broken through.

"The sabers in their hands were crafted by the Myriad Tao Divine Soil. Judging by the color and luster of the sabers, there should be a lot of them, around twenty silvers at least." Feng Ke'er said.

Yue Yiran could also tell that the other party's divine blade was refined from Myriad Tao Divine Soil, his expression becoming more solemn.

"Hmph, you can still be considered sensible. You should know that we're powerful." When the leading Middle-aged Man in Black Robe saw Yue Yiran's serious expression, he laughed proudly, he knew that the divine blade that Myriad Tao Divine Soil had refined could intimidate Yue Yiran.

"You came from above Myriad Tao? Is it someone from the Heaven Old Imperial Family?" Yue Yiran asked again, although the opponent's weapon was strong, he was only a little worried, and was not very afraid.

"That's right. If you cooperate with us, we can spare your life." From what they knew, the people who had saved Yue Yiran possessed a large number of Myriad Tao Divine Soil s at their disposal. This was an extremely huge temptation to them, because even though they had been in the Myriad Tao for many years, they had only been able to find an extremely small number of Myriad Tao Divine Soil s.

Yue Yiran looked at Chen Xiang and saw that Chen Xiang was extremely calm, he said: "I'll close the door first, then we can have a good talk."

[Chapter 3223](#)

Although Yue Yiran could not see through Chen Xiang's true strength, but from Chen Xiang's fearless demeanor, he could tell that Chen Xiang was not afraid of the three middle-aged men.

After closing the door, Chen Xiang took out a pale golden mirror and threw it over to the three middle aged men.

The three middle-aged men did not expect that such an insignificant fellow would suddenly attack them. They immediately brandished their blades and wanted to rush over to kill Chen Xiang, but they did not expect that when the light golden mirror flew above their heads, it released a golden light that enveloped them in an instant.

The sealing power released by the Six Realms mirrors was extremely strong, not to mention that the Six Realms mirrors s had already refined it recently. The array formations and sealing barriers that were released had all been strengthened a lot.

"The middle stage of the World Defying crazy realm is already so rampant? I thought he was at the late stage or peak of the World Defying crazy realm." Chen Xiang said while smiling as he slowly walked over.

The reason the three Middle-aged Man in Black Robe s were so arrogant, was because of the divine blade in their hands, but they thought that Yue Yiran, the Peak of World Defying crazy realm, was afraid of them.

"Boss, it's better if you do it yourself." Chen Xiang laughed: "I'm too weak, I'm worried that I won't be able to kill them."

Yue Yiran rolled up his sleeves, and sighed while shaking his head: "I ... You fellows are able to live so well on top of the Myriad Tao, so you should treasure your own life. Even if I am a bad old man, I am still a part of the Peak of World Defying crazy realm. Don't think that just because I am a pill refiner I am very weak."

After Yue Yiran dealt with them, he placed their corpses into a furnace to burn, and he gave the three divine blades to Chen Xiang.

"Whatever, since you're so rich now." Yue Yiran laughed, those divine blades were all made from Myriad Tao Divine Soil, although it was not all Myriad Tao Divine Soil, but to many people, it was extremely precious.

"Why did the Heaven Old Imperial Family send this kind of idiot here?" Chen Xiang kept his Six Realms mirrors. Yue Yiran was captured by the Heavenly Dan Landlord because he was tricked, and was ambushed by the Heavenly Dan Landlord. But no matter what, it was an old expert of the Peak of World Defying crazy realm.

[illegible]

Yue Yiran sighed: "In the end, it's still because they're too greedy. They want to capture me, force you out, and then take all of Myriad Tao Divine Soil for themselves."

"As long as they are still World Defying crazy realm, they won't be that strong. I'm afraid that if they number more, they will be able to join hands with the other Super Yang Divine Race." Yue Yiran said: "Looks like we have to consider this matter carefully. Could it be that you are the only one who can fight in Divine Soil Race?"

"That won't do, you need to find an extra helper, otherwise, once the Divine Soil Restricted Area's enchantment barrier is broken, it will become very troublesome." Yue Yiran said: "What I am worried about is them using the power of the sun, if their Super Yang Divine Race were to join forces, they should be able to use the power of six suns."

Chen Xiang did not know about this matter, and the Spirit of Divine Alter had never told him either.

"Of course, it's best if you can destroy their Super Yang Divine Alter." Yue Yiran laughed: "But they will definitely go crazy."

Find help?

Chen Xiang immediately thought of the Sword Clan Bai Family.

"The Super Yang Realm and the Heaven Old Super Realm have fused, they should have become one entity, but the other side still calls themselves the Super Yang Realm." Chen Xiang said: "Boss, do you know in which direction?"

"What are you doing over there?" Yue Yiran was a little curious.

"Get help." Chen Xiang said.

Yue Yiran didn't ask too much and told Chen Xiang the location of the Super Yang Realm.

Chen Xiang left Sky Qi City in a hurry, and used the power of space to head to Super Yang Realm.

In merely half a day, Chen Xiang had arrived at the Super Yang Realm. It was no different from the Heaven Old Super Realm, it had the same aura, the same space, and seven suns in the sky.

"Try using the Six Realms mirrors." Chen Xiang's Six Realms mirrors possessed the ability to find people, but could only look for familiar people.

"Found it!" Chen Xiang saw that Bai Ximing had appeared on the mirror and immediately called out to him.

"Brother Bai, I'm here at Super Yang Realm." Chen Xiang laughed: "I want to meet you. I have something to discuss with you."

When Bai Ximing heard Chen Xiang's voice suddenly appear in his mind, he was extremely shocked.

"Chen Xiang, you're really amazing, to be able to contact me." Bai Ximing asked in shock: "Where are you? I'll go find you, my place is dangerous."

"I can teleport." Chen Xiang said: "I'm going over now!"

Finished, Chen Xiang immediately used his spatial energy and teleported to Bai Ximing's side. Coming here, he immediately looked around, to find a bright cave.

Bai Ximing was stunned, the method Chen Xiang used surprised him yet again.

"What is this place?" Chen Xiang looked at the path that led outside: "Weren't you in the family?"

"Of course not. I came out to meet a strong enemy to kill me, so I had no choice but to hide in this dangerous mountain range. Right now, there are powerful Tiangu beast everywhere outside." Bai Ximing said: "This is truly strange, what kind of fellow is chasing after me."

"You don't know?" Chen Xiang also thought it was strange, Bai Ximing was someone with an important position, and his strength was not bad as well.

"I think it's one of the Sword Clan's other surnames ... Three of them are in the late stage of World Defying crazy realm and one of them is at the pinnacle. They can be used for extremely powerful cosmetic surgery, if not I would not be cowering in this place. " Bai Ximing sighed.

"Where is your Bai Family? Is there any danger? " Chen Xiang asked again: "I think it's because the other surnamed races of the Sword Clan allied together, they will be very worried if they found out that you know a person with a large number of Myriad Tao Divine Soil, so before you guys rise up, it's best to strike first."

[Chapter 3224](#)

Chen Xiang was not unreasonable because he had met people from the Heaven Old Divine Race before, and all of them went to the Myriad Tao early to fight. The environment was very cruel, and those who went there to train, were all quite strong.

Bai Ximing also felt that it was possible, because he realized that those people were not the kind of people he was familiar with.

"I'll take you back to the Bai Clan." Chen Xiang said: "Your sister is still in the Bai Clan right?"

"Yes." Bai Ximing shook his head, and said with some doubt: "How are you going to bring me back?"

Chen Xiang took out the Six Realms mirrors, and checked that Bai Xuelan was cultivating, then laughed: "I'll bring you back!"

Chen Xiang brought Bai Ximing and used teleportation to quickly arrive outside the Bai Mansion.

After arriving, Bai Ximing was shocked at first, but when he realized that something was wrong, he brought Chen Xiang and hastily rushed to the front door. After activating the large array, he brought Chen Xiang into the Bai Mansion.

When Bai Ximing was closing the door, he suddenly saw a group of blue clothed people continuing. They all had swords with blue sword sheaths hanging from their waists, which looked a little similar to the Bai Clan's attire.

Chen Xiang could tell from one look that this group of blue-clothed people were definitely from the Sword Clan.

"It's the Sword Clan Lan Clan!" Bai Ximing looked at them and said softly.

"Is it powerful?" Chen Xiang asked. Right now, he was separated by a large array so he could not sense the other party's aura.

"Very strong!"

Bai Ximing opened the door, and shouted to the people from the Lan Clan: "What are you doing here? Could it be that when he passed by and became thirsty, he came to get some water to drink? "

The leader of Lan Clan's group was a young man. He smiled and said: "That's not it, we just feel that the Bai Family's second master is too lonely and came to accompany her. I hope you can let her entertain us."

"Just based on you guys, you guys aren't going to take a piss and take care of yourselves." Bai Ximing said in disdain: "My sister is a Sun Sword blood, you guys aren't even worthy to see her."

Bai Ximing's words enraged the people of Lan Clan, but they endured it.

"Haha, Bai Xuelan is just a piece of trash. So what if he has a Sword blood? The blue clothed man laughed sinisterly: "We might as well offer her to her and let us have a taste. Maybe the Sword blood will be able to shine more brilliantly on our bodies than others."

Because Bai Xuelan was a woman, she was not fused with the masculine Sun Sword blood, this was a matter that everyone knew, not only did the other surnamed races of the Sword Clan hope to get Bai Xuelan, the other three Super Yang Divine Race s also coveted for Bai Xuelan's Sword blood, and wanted to grab Bai Xuelan to let him bleed, and then drink Bai Xuelan's blood, so that they could inherit the Sword blood.

Bai Ximing was furious, he immediately shut the door.

"Brother Bai, are we going to let them go just like that?" As Chen Xiang watched from the side, he felt extremely unhappy.

"They are all the young elites of the Lan Clan. They often come here to make a ruckus ... Of course, it's not only the Lan Clan, other families would also do this kind of thing frequently, I don't mind it anymore. As long as we can endure it any longer, once our little sister has mastered it, it'll be the end of these guys. " Bai Ximing said fiercely.

Bai Ximing had already tolerated it, but the people from the Lan Clan outside did not, and started shouting.

"You cowardly turtle, let's see how long you can shrink to. Didn't your Bai Family just firm up a Divine Soil Race? You have a large number of Myriad Tao Divine Soil, you should have some confidence.

"That's right, don't tell me your Bai Clan doesn't have spirit? Your Bai Clan is really going to decline just for a woman."

Bai Ximing was furious and wanted to retaliate, but that would only make him even angrier.

"I'll go out and meet them." Chen Xiang suddenly said.

"This... Could it not be good? Their strength is not bad, but they have two World Defying Stage Fierce Soul s in the middle stages. " Bai Ximing knew that Chen Xiang had just stepped into the World Defying crazy realm.

"No problem." Chen Xiang smiled, then opened the door.

Chen Xiang used his own appearance right now, the people of Lan Clan did not know him.

"Oh? He finally dares to come out. But why is it a guy like that?" The man in the lead said with a smile, "Did you come out to beat us up?"

"That should be the case. You can tell at a glance that this fellow is very resistant to being beaten up."

"He really deserves a beating!"

Chen Xiang walked out of the Bai Clan's barrier and smiled slightly: "All of you use swords, you look elegant and graceful, and I am a guest of the Bai Clan, also a person who uses swords. In order for the Bai Clan to give me an extra reward, I wish to display my strength."

"So, I will trouble everyone to compete with me. Let the Bai Clan see my strength. This way, I will have enough confidence to ask them for more benefits."

Seeing Chen Xiang acting the part, the people from Lan Clan all believed in Chen Xiang.

However, their hearts were filled with anger. This was because the person in front of them was actually treating them as an object to demonstrate their strength. Just thinking about it made them feel extremely infuriated.

"The Bai Clan is an idiot, and you are an idiot as well! At what time, you still came to the Bai Clan to be a guest official, and the Bai Clan actually accepted a fool like you. The blue clothed man looked at Chen Xiang and sneered, his sword had already left its sheath.

The blue clothed man's sword was white, with a hint of gold. Chen Xiang saw the faint gold light that flashed past, and frowned, this sword had also been added into the Myriad Tao Divine Soil.

When Bai Ximing saw it, he was initially worried. However, when he thought about how Chen Xiang had even made shovels with the Myriad Tao Divine Soil, he did not worry anymore. At the same time, he was also a little eager to know what kind of divine tool Chen Xiang used to refine it, so he guessed that it should be Myriad Tao Divine Soil Crystals.

"You see that, don't you? Are you afraid? " When the blue clothed man saw Chen Xiang staring at his divine sword, he laughed complacently, "Among the younger generation in Lan Clan, only three people can receive this kind of divine sword prize, and I am one of them."

"You should be the weakest one, right?" Chen Xiang laughed: Actually, I am not afraid of you at all, because from your current attitude, you are extremely reliant on this sword, and the reason why you are proud of yourself obtaining the sword is not because of your sword technique and strength, but because if you did not have the sword, how inferior would you feel?

Chen Xiang's words seemed to have stabbed the blue clothed man, causing him to frown, and then floated up, the white longsword flashed, drawing a faint golden arc in the air, followed by a burst of berserk sword qi.

Clank!! With a clap of thunder, blue lightning shot out from the sword blade with a 'shua' sound. Dozens of lightning bolts turned into ten blue light swords, whizzing towards Chen Xiang.

Chen Xiang frowned as he watched the other party's movements. It was undeniable that this man, Lan Clan, was rather strong, to the point that he had already transformed into a bolt of lightning, making it difficult to catch his true form.

"I saw it!" Chen Xiang smiled slightly, a divine sword with a cold glint appeared in his hand. He waved it lightly, hitting the tip of the blue clothed man's sword, dispersing the strong sword force that was condensed there.

The lightning bolt that had seemed so frightening had also disappeared, and the blue-robed man's figure had also appeared. His face was filled with surprise; he hadn't thought that his opponent would be able to see through his sword technique so easily.

[Chapter 3225](#)

Although the sword Chen Xiang used looked good, it was still way too inferior compared to the one the blue clothed man used his Myriad Tao Divine Soil to refine. As long as the divine sword was added to the Myriad Tao Divine Soil, it could become even more sturdy and sharp. The vertex says, "The vertex says," The vertex says, "The vertex says," the vertex says, "the vertex says," the vertex says, "the vertex says," the vertex says, "the vertex says," the vertex says, "the vertex says," the vertex says, "the vertex says," the vertex says, "

And the reason why Chen Xiang did not use his Heavenly magic sword, was to see how powerful he would be if he were to secretly use the Frenzy sword wind. The opponent used a good divine sword, which was also in the middle stage of the World Defying crazy realm.

Even though the blue-clothed man was very rampant, he could tell that Chen Xiang's strength wasn't simple. When the two divine swords clashed just now, Chen Xiang's sword should have been damaged, but it wasn't. One had to know that just now, he had felt a very powerful force coming from Chen Xiang's divine sword, causing his entire divine sword to tremble.

"What sword technique is this?" The blue clothed man was extremely shocked. When Chen Xiang had brandished his sword just now, although it was a very ordinary swing, it revealed a faint aura. This kind of proud and aloof aura was precisely a kind of sword force.

"Aren't you very powerful? You can't actually tell?" Chen Xiang smiled slightly. His figure flashed and floated behind the blue clothed man, slashing his sword towards the blue clothed man's wrist, wanting to disarm his opponent's sword.

When Chen Xiang brandished his sword and chopped towards him, he managed to evade in an ingenious manner. At this moment, he was far away from Chen Xiang, and used his sword to slash at Chen Xiang ruthlessly, releasing a few rays of sword qi that were like lightning. Carrying a thunderous aura, he rushed towards Chen Xiang's chest.

Chen Xiang released the Frenzy sword wind that lingered around the Immortal Sword's body. Seeing the opponent's lightning sword Qi, he was very confident in himself and directly slashed apart.

The Frenzy sword wind was tyrannical indeed. When the opponent's lightning bolt, which was condensed with dense sword Qi, was hit by Chen Xiang, it exploded on the spot. The blue clothed man was shocked.

Chen Xiang's cultivation was not high. According to the blue-clothed man's experience, only by dodging would Chen Xiang be able to avoid the lightnings' sword auras. Even the Super Yang Divine Race's people of the same level as him did not dare to take them.

But Chen Xiang managed to receive it, and it was a very relaxed strike!

"Lan Lei's lightning sword qi has been restrained, it's a very rare occurrence, the clan elders have passed, even the later stage World Defying crazy realm s would find it difficult to face the lightning sword qi, but the other party seems to be at the early stage of the World Defying crazy realm."

"Where did this guy come from, to actually grasp such a powerful sword art."

"Don't worry, Lan Lei is an outstanding young disciple of our Lan Clan after all. Although the opposing sword techniques restrain him, he is not so easy to deal with."

Bai Ximing, who was standing at the entrance of the Bai Mansion, also did not expect the power Chen Xiang was using to be so strange, and so easily restrained Lan Lei's sword qi.

Bai Ximing was clear of Lan Lei's strength, that lightning sword qi was truly terrifying, if it was anyone else, they would have already been struck by the lightning sword qi.

Lan Lei frowned, and thought: "His Sword Qi can directly break through my Sword Qi, which is not good for me, right now we are comparing swords, as long as we destroy the opponent's sword, I can win, I should be able to fight in close combat with him, if it is a long distance battle, the Sword Qi I release, will not be able to break through his defense."

Lan Lei knew that his greatest advantage was the divine sword that was refined using quite a few Myriad Tao Divine Soil s. If he were to use an even stronger power to clash with Chen Xiang, he was confident that he would be able to destroy Chen Xiang's divine sword.

After a brief moment of consideration, Lan Lei's body turned into a flash of light. With a twist of his body, he rushed in front of Chen Xiang, grasped the sword hilt with both of his hands, and fiercely hacked at Chen Xiang in a crazed and quick manner.

Lan Lei's sword movements was extremely fast, like a bolt of lightning, using his eyes, it was impossible for him to catch the trajectory of the sword, Chen Xiang could only judge by the Qi, and anxiously counterattack.

Dang, dang, dang!

Lan Lei slashed madly, one strike after another. His speed was extremely fast and his entire person looked like a bolt of lightning. He flew back and forth in all directions towards Chen Xiang before quickly slashing.

Chen Xiang's speed was not slow either. Although the opponent's attack was extremely violent and overbearing, he was still able to block very steadily. He only used an ordinary divine sword, but was able to block hundreds of heavy slashes like Lan Lei did.

"Humph!" Using his full strength, Lan Lei struck out with his strongest attack right at Chen Xiang's head.

Chen Xiang blocked horizontally, and Lan Lei's white colored long sword hacked down onto the middle of his sword, the two sword Qis clashing extremely fiercely, directly scattering the clear sounds that just appeared.

Whoosh!

The two sword Qis exploded in all directions, forming two howling gales. A large part of the ground also collapsed.

Ding!

Chen Xiang's sword suddenly released a weak cracking sound, causing him to anxiously retreat a few steps, he only saw that his sword actually broke from the middle, but it was within his expectations, the two of them had used a very strong force to fight.

"Hmph. An ordinary sword, after all." Although Lan Lei was sneering with disdain, he knew clearly in his heart that he had spent a lot of effort to reach this step.

"Bai Ximing, your Bai Family's guest official is only so, he lost." Lan Lei laughed, his laughter was filled with ridicule and satisfaction.

They were worried that Lan Lei would lose, as Chen Xiang was extremely strong after all. Although they were sneering at the fact that Chen Xiang lost, they were very clear in their hearts that Chen Xiang was not weaker than them.

Chen Xiang swept his gaze across the excited Lan Clan people, and frowned: Who's the one that I lost? I can still keep competing. "

After the battle just now, Chen Xiang was already very familiar with using Sword Qi, and it was fortunate that he met a person like Lan Lei who knew how to use the Lightning Sword Qi, otherwise he would not have allowed him to practice so easily.

"Your sword is broken and you have already lost. Could it be that you plan to change for another sword?" Lan Lei laughed coldly: "Breaking swords means defeat!"

Chen Xiang looked at the broken sword in his hand, and said: "Alright, I will use this broken sword to fight you, right?"

"Haha ..." Lan Lei laughed out loud, and the disciples of the other Lan Clan s laughed out wildly as well.

"You want to use the broken sword to fight brother Lan Lei? Don't joke around, even you can't defeat him with your complete sword, let alone a broken sword. "

"Yeah, let's see how you were defeated."

"Lan Lei, since he wants to die, you can kill him.

Chen Xiang felt that defeating Lan Lei with the broken sword should not be a problem. He could now familiarize himself with using Frenzy sword wind during battle.

Seeing Chen Xiang's calm expression, Lan Lei secretly cursed in his heart. Deep down, he did not want to fight with Chen Xiang, because Chen Xiang's sword qi was not easy to deal with.

[Chapter 3226](#)

Lan Lei thought that if Chen Xiang had a Divine Sword that was refined using the Myriad Tao Divine Soil, defeating him wouldn't be a problem at all.

"Alright, since you want to die, then don't blame me for it." Lan Lei coldly snorted, and then tightly held onto his divine sword. He saw that Chen Xiang's calm expression was filled with confidence, which made him very unhappy.

"I never wanted to die. I just wanted to win. It was always what you think." Chen Xiang sucked in a small breath of air, and then, he quietly urged the Frenzy sword wind to flow into his broken sword.

It could be seen from this that the Frenzy sword wind was able to use a certain degree of defensive power, even if the opponent's divine sword was refined using the Myriad Tao Divine Soil s, it would still be unable to break the defense of the Frenzy sword wind.

Chen Xiang also discovered one, even if the Frenzy sword wind was insufficient to destroy the opponent's divine sword, it would still be unable to break through the opponent's defense.

In the sword competition, the most important thing was the Divine Sword, once the opponent's Divine Sword was destroyed, they would have won. Therefore, when Chen Xiang's Divine Sword was broken, the people of Lan Clan were extremely happy, because they believed that Chen Xiang had already lost.

Bai Ximing did not want Chen Xiang to continue the fight, but seeing how confident Chen Xiang was, he did not stop him.

"With a broken sword, I want to see how you will turn the tide." Lan Lei was extremely disdainful, using the kind of quick and fierce attack just now, he quickly flew from all directions and continuously hacked at Chen Xiang ferociously, like a violent bolt of lightning, it bombarded him and created streaks of lightning.

What was unbelievable was that Chen Xiang could only use the broken sword, and actually block Lan Lei's crazy attack.

It was very obvious that Lan Lei's current wild attacks were more violent than before, and for some reason, the current Lan Lei was even more desperate when he attacked. This made the surrounding disciples of the Lan Clan very suspicious.

"What's going on with Lan Lei? Why isn't he getting him down when he's dealing with such a fellow?"

"That's right, isn't he the one who used the broken sword? He can actually still resist till now, just what kind of power did he use!?"

This was also something strange.

It had to be known that after the God Sword was damaged, the inside part of the sword had already been destroyed, and there were various aspects of it that had declined greatly. It was worse than before, when Chen Xiang used the God Sword this time, it should have been completely destroyed by Lan Lei, but it could still resist it right now.

Only Lan Lei knew, that the Sword Qi around Chen Xiang's Immortal Sword was getting stronger and stronger, causing him to be unable to slash fully onto the blade of the broken sword.

The body of Chen Xiang's broken sword was wrapped with a thin layer of Sword Qi, once Lan Lei's divine sword came into contact with it, it would be repelled by the force, which was also why Lan Lei was attacking so fiercely.

Right now, Lan Lei had already realized that Chen Xiang was constantly improving. Just a moment ago, Chen Xiang's control over that sword qi was still very unfamiliar, but now, he was gradually becoming more familiar with it.

"He's actually using me to practice!" Lan Lei was not stupid, when he thought of this, he immediately got angry.

When Chen Xiang saw the furious Lan Lei, his face revealed a faint smile, to Lan Lei, this was a form of ridicule, and this made him even more furious, hence he shouted loudly.

"You trashy thing, die for me."

Both of Lan Lei's eyes surged with electricity. As he roared, his entire body was covered in lightning, and both of his arms swelled up as a large amount of lightning energy surged out from his body and rushed towards the divine sword in his hands. The divine sword was wrapped up by a large amount of blue lightning and turned into a huge lightning sword that hacked madly at Chen Xiang.

"It's about time to give it a try!" Seeing that the other party was going to be so desperate, Chen Xiang thought that he might not be able to hold on any longer.

The disciples of the Lan Clan were all dumbstruck, because this was the first time they saw Lan Lei working so hard, and had already used all his strength. Now they could already tell that Chen Xiang was not simple at all, to actually use that broken sword to fight against Lan Lei for such a long time, no wonder Lan Lei was furious.

"I should be able to control the Wild Fire Sword's aura. Let's give it a try!" Chen Xiang's expression sank and he slightly frowned. The Frenzy sword wind crazily gathered together in his body, condensing into an even more powerful force, and then surged out of his body into the broken sword.

"Not good, the Wild Fire Sword's astral form is very strong, this sword cannot be maintained for too long!" After Chen Xiang released the Raging Flame Sword's aura, he also felt extremely terrified. The Raging Flame Sword's aura contained a terrifying amount of heat, it almost melted the sword in his hands.

Lan Lei's sword already slashed over, but after Chen Xiang dodged a few times, he saw the opportunity and waved his broken sword to block Lan Lei's lightning greatsword.

"Bam!"

Lan Lei's sword struck onto the broken sword that Chen Xiang used to block his attack, unexpectedly causing a burst of extremely bright flames to erupt. The bright flames shot out in all directions, shocking everyone to the point that they were tongue-tied.

At that instant, Lan Lei also felt an extremely strong force, and one kind of force made his mind go blank, because he felt a hole being struck in his divine sword.

Sure enough, Lan Lei took a few steps back and stopped his berserk attack. His hands were trembling uncontrollably, and an extremely terrifying heat was being transmitted from his divine sword, which had already been burnt red.

The most shocking thing was that there was a hole on his divine sword that was left behind when he chopped at Chen Xiang's broken sword.

"You ..." Lan Lei raised the divine sword in his hand and looked at it carefully, his hands were trembling even more, this was a divine sword that was refined using the Myriad Tao Divine Soil, and was actually damaged by the enemy's sword qi.

Just as Lan Lei was panic-stricken, Chen Xiang had already arrived in front of him. The broken sword in his hand flickered with a golden light and slashed at Lan Lei, but when he slashed, he was slower, allowing Lan Lei to subconsciously raise the divine sword in his hand to block.

Clang!

's broken sword had already cut apart Lan Lei's divine sword, and even left a long wound on his chest, but it did not leave a mark, because the wound was still smoking, and had been burned and stitched up.

"You lost!" Chen Xiang chuckled, "Lan Clan's young swordsman is only so-so!"

After Chen Xiang finished, he slowly walked toward the main entrance of the Bai Mansion, and didn't even turn around to look at the people from the Lan Clan.

Bai Ximing only came back to his senses after seeing Chen Xiang walking over. It would have been fine if the sword Chen Xiang used was refined from a Myriad Tao Divine Soil, but it was not, because it could still cut off Lan Lei's divine sword!

Although he had been using the divine sword for a period of time, that was only given to him by the Lan Clan for him to use temporarily. He would need to take it back in the future, but now that it had been destroyed, even if he were to take the broken sword back to the furnace to recreate it, he would suffer a great loss.

[Chapter 3227](#)

Lan Lei picked up the destroyed sword, and thought back to everything that happened during the battle. He felt that if he reported this matter to the sect, he would not be punished "Let's go see the Elder." Lan Lei said: "I remember there are two elders nearby."

Although Lan Lei was not perturbed in his heart, he felt that he had discovered an important piece of information that might be helpful to the Lan Clan coming here.

Bai Family was an enemy of the Lan Clan, but now a powerful guest suddenly appeared in the Bai Family, which was not a good thing for them.

Lan Lei came to a cave. This was the reason why the Lan Clan was stationed here and was specifically responsible for investigating the information of the Bai Family.

"You ... You have entered and damaged the White Thunder Divine Sword! " The Lan Clan Elder saw the destroyed sword and was enraged. He slapped Lan Lei hard, causing Lan Lei to fly back to the stone wall.

Lan Lei crawled up. Being beaten up was something he expected, although he was extremely angry in his heart, he did not dare show any dissatisfaction on the surface.

"I have let down the Lan Clan, I never thought that the guest official invited by the Bai Family would be so powerful, he only used Sword Qi and defeated me, and even destroyed the White Thunder Divine Sword." Lan Lei knelt on the ground, self-reproach written all over his face: "This is all my fault for

being too arrogant, ignoring the other party's powerful sword qi, if not I wouldn't have allowed the White Thunder Divine Sword to destroy it."

The elders of the Lan Clan were also very curious about this matter. After carefully inspecting the White Thunder Divine Sword, they also discovered something strange. This was because the White Thunder Divine Sword was melted away by a high temperature, and a very high temperature at that.

"Could this sword qi be..." After thinking about it, the Lan Clan Elder's face suddenly changed and he anxiously went to get another elder to come out. This elder looked short, thin and old, but he had a relatively large seniority and was more knowledgeable.

"Is it that kind of sword qi?" the young elder asked.

The short elder caught it and took a look. After he was sure, his entire body trembled and his hands that were holding onto the damaged White Thunder Divine Sword also started to tremble.

"Yes, it's that kind of sword qi ..." No, it was not created by the sword qi, but by the astral sword. " The short elder said with a slightly trembling voice: "Wild Fire Sword Qi, this is something that only the people with Sword Blood can release, could it be ... Had Bai Xuelan made it through? A while ago, they went to the Heavenly Dan Mountain Villa just to treat Bai Xuelan's body. But it should not be that fast! "

"Let him be!" The young clan elder pointed at Lan Lei.

Lan Lei told him the whole story of his fight with Chen Xiang.

"It's actually not Bai Xuelan. How can a person who possesses a Sword Blood be anyone else?" The old man was very suspicious, "Let's go, we need to quickly meet the Lan Clan, this is very important!"

... ..

Bai Ximing and Chen Xiang walked along the road in the courtyard of the Bai Mansion. He was filled with suspicions, because after he thought about it carefully, the sword technique Chen Xiang had just used looked extremely similar to the Frenzy sword method. However, he didn't feel that Chen Xiang had used the Frenzy sword method since Chen Xiang possessed a very strong flame attribute. If he used any other method to cultivate it, he would be able to instantly burst forth with a very high temperature.

"Chen Xiang, your strength has really broadened my horizons." Bai Ximing sighed: "If you had my cultivation, I'm afraid I wouldn't be your match."

"Brother Bai, you're being modest." Chen Xiang laughed.

Bai Ximing shook his head, he was not modest.

"Brother Bai, your Bai Family should still have Sword Blood people. Could it be that they don't even exist? Given their abilities, they should still be alive. " Chen Xiang felt that it was strange, if the Sword Blood was here, the other clans would not dare to make a move against the Bai Family.

"They are still alive, but they have all gone to search for the Super Yang Old Ancestor. They firmly believe that the Super Yang Old Ancestor is still here, so as soon as a new Sword Blood appeared, they immediately left." Bai Ximing sighed: "It's just that they didn't expect the appearance of Sword Blood s

on a woman to have such a huge disadvantage. At the beginning we weren't sure either, we just thought that Xue Lan had grown up to be better."

This was a mistake on the part of the Sword Blood of the Bai Family, otherwise, he would definitely not have walked away so quickly.

"Chen Xiang, what business do you have with me?" Bai Ximing asked: "Our Bai Mansion is about to move in secret, we must hide it well until Xue Lan obtains control over the Sword Blood."

"I will help her recover quickly. I came to find you guys because I want to borrow the power of the Bai Family. " Chen Xiang sighed: "To be honest, I have some connections with the Divine Soil Race, you should know a little about the current situation of the Divine Soil Race."

Bai Ximing nodded his head. The only reason Chen Xiang could take out so many Myriad Tao Divine Soil s and Myriad Tao Divine Soil Crystals was because he had a very close relationship with the Divine Soil Race. Previously, Chen Xiang had also told Bai Ximing that he had a friend from the Divine Soil Race.

"I know a bit about the situation in the Divine Soil Race. Now, everyone is guessing, the strongest Ancient Super Yang Divine Alter inside has already recovered. This is also the reason why no one is able to go in now." Bai Ximing said.

"The ancient Super Yang Divine Alter has completely recovered, and at the same time, a portion of the divine natives have also recovered, but their power is still very thin. I don't know how long the Super Yang Divine Alter can hold on, if the other Super Yang Divine Race join forces to attack the Divine Soil Restricted Area, I don't know if they can withstand it."

Chen Xiang's face was filled with worry as he said, "I met with the people from the Heaven Old Divine Race who came back earlier. They should be very strong, so if they found out about the situation here, they might just come back to settle it."

The reason why they set the Divine Soil Restricted Area aside before was because they felt that the Divine Soil Restricted Area was not a threat. They would go inside to plunder the Myriad Tao Divine Soil when the great formation energy protecting the Sun God Forest dissipated.

But now that the Ancient Super Yang Divine Alter had been restored, the enchantment that he had released completely covered the entire Divine Soil Restricted Area. If they did not work together, when the Divine Land developed, all of them would be exterminated.

"Alright, once Xue Lan's power stabilizes, our Bai Family will definitely help. At that time, we will suppress the Sword Clan first. Bai Ximing agreed very quickly, because if not for Chen Xiang, his Bai Family would have been finished.

"Alright, let's go take a look at Xue Lan!" Chen Xiang said: "I have the Time Formation, I don't know if it can speed her up!"

Chen Xiang and Bai Ximing arrived at the quiet bamboo forest where Bai Xuelan was. Right now, she was eating a specially made Strong strength Dan s refined by Chen Xiang, so her physique had gradually changed.

When Chen Xiang arrived, she was practicing her sword arts. Chen Xiang was enchanted by the sword, and it was not because of Bai Xuelan's beautiful figure, but because of her sword techniques.

Bai Xuelan was currently practicing the Frenzy sword method.

[Chapter 3228](#)

The reason why Chen Xiang was so engrossed with the pill was mainly because he did not have the ability to refine it into a fourth stage, he suddenly felt that he did not have as much talent as Bai Xuelan, for Bai Xuelan to have made such a huge progress in such a short period of time.

In terms of Frenzy sword method, Bai Xuelan was ahead of Chen Xiang, and currently, he was only able to control the Frenzy sword wind, so he released the Berserker Flame Sword Force.

Bai Xuelan was extremely engrossed in his sword practice, completely unaware that Chen Xiang and her brother had arrived, and was completely immersed in the profoundness of this technique, while Chen Xiang was also engrossed in it, he wanted to grab the opportunity, to see if he could comprehend anything from Bai Xuelan's sword practice.

"Xue Lan has recovered so quickly." Chen Xiang said in a low voice.

"Yes, right now she is already able to grasp the most basic of that sword technique." Bai Ximing nodded his head in relief: "Her body is currently recovering very well. If it was before, she would always be lying on the bed or sitting on a chair to bask in the sun. Now that she has recovered, she will have sufficient energy and become very lively."

"Of course. After all, she has been extremely weak for many years and could not be like a normal person. Now that she has this chance, naturally, she will enjoy it many times more and compensate for the happiness she lost before." Chen Xiang smiled and said, "Let's not disturb her for now, she is currently in an extremely serious state, and might be trying to comprehend something."

Just like this, Chen Xiang and Bai Ximing watched Bai Xuelan practice from afar.

Only after a full six hours had passed did Bai Xuelan stop, although the sun had already begun to set, his face was still filled with contemplation.

At this time, she noticed Chen Xiang and Bai Ximing watching her from afar.

Seeing that Chen Xiang had come, Bai Xuelan was extremely happy. She was dressed in white, and with a light wave, she looked like a white spirit swallow descending to the ground. She was extremely beautiful.

"Master, brother!" Bai Xuelan respected Chen Xiang a lot, so he called him master.

"No need to call me that. Just call me Chen Xiang." Chen Xiang laughed: "You have improved quite well, are you able to control Sword Blood now?"

Bai Xuelan chuckled: "I have already mastered the basics. Right now, I can already use the Sword Blood's power to release the Sun madness fire's power to change its physique. Before long, I won't have to eat any more Strong strength Dan."

"That's good!" Chen Xiang was surprised. He had not gone there for long, to be able to release the Sun madness fire so quickly.

"Xue Lan, Chen Xiang wants to use a Time Formation on you. That way, you can quickly master the Sword Blood." Bai Ximing said.

"Alright, I still think that there isn't enough time. I don't know when those fellows will make their move against our Bai Family." Bai Xuelan knew from the start that she was the hope for Bai Family to rise to power. Now that she had gotten rid of her previous predicament, she really wanted to improve herself so that Bai Family could quickly recover to her former position.

Chen Xiang had a premonition that not long in the future, Bai Xuelan would definitely be a powerful individual within the Heaven Old Super Realm and its ranks.

"After I use the power of time on you, the day outside will be seventy-five years inside." Chen Xiang said: "I think that should be enough for you to grow up."

"Enough is enough." Bai Xuelan was very surprised and quickly nodded his head.

"These are the Huakuan Dan. You might need them when you're condensing the World Defying Stage Fierce Soul." Chen Xiang gave Bai Xuelan a box.

Inside You Yao Mountain Villa, Jiang Sihua could condense a few pills every day. With the accumulation of these pills, he already had a lot.

"Alright, then can we start now?" Bai Xuelan was already impatient.

Chen Xiang took out the Six Realms mirrors s. With the help of the Six Realms mirrors s, he could relax a lot.

After the Six Realms mirrors grew larger on the ground, it had a courtyard as big as a courtyard, which was enough for Bai Xuelan to move about in.

After Bai Xuelan entered, he immediately activated Time Domain to cover the entire Six Realms mirrors. The Six Realms mirrors was also currently enveloped by a barrier that was as calm as water.

Chen Xiang could not see what was happening inside clearly, he sat on the ground with his eyes closed, he knew, that in a day, Bai Xuelan would make great progress.

"Bai Xuelan was born with the Sword Blood, and she had never cultivated before, so once she was able to cultivate, she would immediately learn the Frenzy sword method. It's precisely because she had never cultivated before, that is why she grasped the Frenzy sword method so quickly when she was focusing on cultivating the Frenzy sword method." Feng Ke'er said.

Chen Xiang also thought that Bai Xuelan's improvement was very fast.

After a day, Chen Xiang removed the Time Domain, but's entire temperament had changed greatly. Initially, she looked elegant and indifferent, gentle and sweet, but now she had an additional imposing manner, which made her look like an untouchable beauty in the world. Her cold and aloof demeanor was like an ice sword that had been unsheathed, giving people a strong feeling that she was a thousand miles away.

When Chen Xiang saw Bai Xuelan, he thought he was mistaken. Luckily, when Bai Xuelan saw him, she smiled at him, her smile still as gentle and sweet.

"It's as if he's a completely different person. I almost couldn't recognize him!" Chen Xiang laughed.

"So this is what it feels like to master great power." Chen Xiang only saw a white silhouette flash over, and in front of a gust of cool, fragrant wind, Bai Xuelan had already arrived by his side.

"That's right!" Chen Xiang turned his head and looked at her beautiful oval face, and laughed: "You are already an expert, and have a very strong aura. Someone like me, who often steals chickens and dogs, can't cultivate to have this kind of aura."

"Chen Xiang, don't be modest, I feel that you are still very strong. And there's a special kind of intimacy, too. I don't want to say it, I just feel. I just don't feel lonely when I'm with you." Bai Xuelan found it hard to describe that feeling.

Chen Xiang actually knew the reason, because there was also a Sword Blood in his body. He had obtained it from Bai Xuelan, and after she had cultivated the Frenzy sword method, her grasp of the Sword Blood became more thorough, so she could sense an aura that was very close to Chen Xiang's body.

"That's because you ate my pill." Chen Xiang laughed and said: "You will naturally have this kind of feeling after eating my pill. This way, you won't bully me in the future."

"I won't bully you." Bai Xuelan laughed, at this time, someone came over, and Bai Xuelan's smile immediately disappeared.

This expression changed so quickly that Chen Xiang found it hard to adapt. In just an instant, Bai Xuelan became a proud and cold female Ranker.

"Brother!" Seeing that it was Bai Ximing, Bai Xuelan's face eased up, but it was not like when he was together with Chen Xiang.

Bai Ximing could feel the change in Bai Xuelan very clearly, but he was not dissatisfied.

"This is exactly how the Sword Blood of our Bai Family looks like. This kind of aura, this kind of familiar feeling, reappears, makes me feel a lot more at ease." When Bai Ximing looked at Bai Xuelan now, there was actually a trace of fear in his eyes.

Chen Xiang immediately understood that the people from the Bai Family who had Sword Blood before were also like the present Bai Xuelan.

[Chapter 3229](#)

Chen Xiang was puzzled, he did not know if he would become like this in the future. He thought about it, and felt that it would not change, because he had previously cultivated a lot of techniques, and he mainly focused on pill refining, not wholeheartedly cultivating the Frenzy sword method. To him, the Frenzy sword method could only help him unleash the Sun madness fire, a method to use them in battle. He did not need to focus all his attention on it.

And Bai Xuelan, along with the other's Sword Blood s that had always cultivated the way of the sword with one heart and one soul, had grasped the 'essence' of the Frenzy sword method.

"Xue Lan, go and talk to the elders. Familiarize yourself with the operations of the Bai Family." Bai Ximing said: "I have something important to discuss with Chen Xiang. I'll tell you about it later."

Bai Xuelan nodded, and then left.

"Brother Bai, what's the matter?" Chen Xiang saw that Bai Ximing was extremely anxious.

"Chen Xiang, I remember you saying that you have a better understanding of poisons." Bai Ximing asked, then turned and walked quickly.

"Yes!" Chen Xiang nodded and followed behind him. "One of you are poisoned?"

"I got hit by a very strange poison, sigh ... You'll know when you see it. " Bai Ximing's face was full of worry: "The ones poisoned are the three Alchemist s that we have but few."

"Is there any danger to your life?" Chen Xiang asked: "How were they poisoned?"

Bai Ximing came to the outside of a house, and when he opened the 'door' and entered, Chen Xiang saw three people dressed in robes, with hoods covering their heads and their bodies. They were wrapped tightly with their fingers and it was impossible to see even a little of their skin.

"How are they?" Chen Xiang sensed the other party's aura and frowned: "Their life force is extremely tenacious, it doesn't look like they were poisoned. Can you say that they don't have any signs of being poisoned?"

Bai Ximing sighed: "This is the only place to blame. Although they were poisoned, and are not in any life-threatening danger for the time being, and did not even cause them any discomfort, it's just that... It was just that his body had undergone a great change. Bai Ximing looked at a Alchemist wearing a white robe and said: "Let him see!"

The three Alchemist s all shook their heads. It seemed like they were extremely unwilling.

"Do you want to be like this all your life? Master Shen is really capable, he was the one who allowed Xue Lan to recover. You should know of Xue Lan's situation ... Right now, Xue Lan is a true Sword Blood. I just saw her, and that aura was extremely familiar to him. Our Bai Family won't be as aggrieved as before. "

When Bai Ximing said this, he was extremely excited.

"Therefore, now that the good days are coming for our Bai Family and yet you guys are suffering from it, this is too unfair to you guys." Bai Ximing's face was filled with sorrow, and said: "Let Master Shen see, otherwise, if this goes on, your days will not be good!"

Chen Xiang was confused when he heard it. From the looks of it, Bai Ximing and the three Alchemist s who were wrapped like dumplings must have had some sort of experience. This made him very curious, and he really wanted to strip off the robes of the three Alchemist s himself.

When one of the Alchemist took off the gloves in his hand, Chen Xiang was startled.

"This is ..." Chen Xiang took a deep breath: "Where's your blood and flesh?"

After taking off the Alchemist Gloves, there were only bones left, but... However, the bones did not scatter. The strangest thing was that Chen Xiang could sense that there was an aura of flesh and blood on his hand.

"The blood and flesh is still in my hands, but it has turned transparent and invisible ... We've been poisoned with a strange poison, all over the body. " The Alchemist said with a wry smile: "If we take off all our clothes, we would be nothing but bones of the dead."

Bai Ximing said as his brows knitted together, "They have blood and flesh all over their bodies, and even their internal organs are present as well. However, they have become transparent, only their bones are not transparent, and they are not poisoned so how to recover."

"How did you get poisoned?" Chen Xiang walked over, grabbed the Alchemist's hand, and buckled his wrist. He could indeed feel his pulse, and he also felt that the hand he was grabbing onto was skinny, it was the old man's skin.

Chen Xiang now understood that the blood and flesh of the three Alchemist s were all present.

This kind of poison wasn't fatal, but it could make one fall into an extremely bad state. Chen Xiang could feel the anxious feelings of the three Alchemist s, imagine, his blood and flesh had already turned transparent, and if he could see his own bones, and look at a skeleton in the mirror, this kind of feeling would definitely be extremely uncomfortable.

"Yes ..." It was Lan Clan who poisoned us, so when we were gathering medicinal pellets in the outside world, we were extremely unlucky. We also met with this fellow who harvested the medicinal pellets, and his cultivation was originally higher than ours, but we were chased all the way down, and in the end got poisoned by him for no rhyme or reason. " A Alchemist angrily recalled this matter.

"Chen Xiang, is there a way?" Bai Ximing asked.

Chen Xiang carefully checked on the condition of a Alchemist, and he even carefully leaked a bit of the Alchemist's blood, but he did not know what happened to the other Alchemist. However, the blood was also transparent. His jade bowl was filled to the brim with blood, yet he could not see it.

Chen Xiang summoned a Mouse Man and let the Mouse Man drink the blood.

Mouse Man was wearing a set of black tight clothes, revealing his hands, head and neck, the blood and flesh all quickly turned transparent, only his bones could be seen.

"There's poison in the blood." Chen Xiang took a deep breath, and then, he tried several methods he commonly used to detoxify the poison, but none of them worked.

"Blue Sky Poison King is indeed powerful, as expected of one of the strongest warriors in the Lan Clan." The Alchemist sighed, "We might end our lives like this. This feeling is truly worse than death."

Bai Ximing also sighed, "If it really doesn't work, you can only transfer your souls. This won't work!"

"There's another way, which is to go to Blue Sky Poison King and ask for the antidote." Chen Xiang said: "I am also very interested in this poison. I might come into conflict with the Lan Clan in the future, so I also want to use the antidote to protect myself."

Chen Xiang imagined that if he were to be poisoned by this poison, he would probably have to use the Counter Power to make himself invisible.

"Blue Sky Poison King won't give it to you." That Alchemist shook his head: "Lan Clan and our Bai Family have an extremely bad relationship to begin with, otherwise they would not have used this poison on us."

Using this poison was indeed very vicious. It was practically destroying another person's soul.

"Don't despair, I'll definitely help you get the antidote." Chen Xiang comforted them. After all, they were all Alchemist and Chen Xiang

[Chapter 3230](#)

The Alchemist put on his gloves and said, "Un, if that's not possible, we can just re-cultivate our 'flesh'. Although it will take us a lot of time, it's better than dying. Bai Ximing and Chen Xiang walked out of the house, Bai Ximing looked at Chen Xiang and asked: "Are you going to look for Blue Sky Poison King now?"

Chen Xiang nodded his head, "Mn, I am also very interested in this kind of poison, I will definitely find him for the antidote."

He had already 'obtained' a sample of this poison, which was the blood. If he were to use the derivation method to refine it, he would have the limit.

Regarding poison, Chen Xiang was not really an expert, he was just interested in it. Especially that poison he just met, it made him very interested in it, so he wanted to store it and let Du Xiaoling, Bai Ziqian and Lv Qinlian study it in the future.

"Are you confident that you can get him to give you the antidote?" Bai Ximing said: "Blue Sky Poison King is at the late stage of the World Defying crazy realm, although he is not at his peak, but he is an expert at using poison, and has mastered many different kinds of strange poisons."

"I'm confident." Chen Xiang only had a rough plan.

"Let's not talk about this anymore!" Oh right, I gave you two pieces of Myriad Tao Divine Soil Crystals before, how do you plan on using them? " Chen Xiang asked.

"Of course it's to refine a sword for Xue Lan ... But it's not easy to smelt these Myriad Tao Divine Soil Crystals. " Thinking about this, Bai Ximing couldn't help but have a headache.

"I heard that the people from your sword clan can condense their own swords." Chen Xiang asked curiously: "I heard that the swords you guys cultivated with your own bodies are even stronger than the ones you refine in Myriad Tao Divine Soil."

"That's right..." This is a sword clan sword of life, usually only the Peak of World Defying crazy realm s have that kind of power, but it still requires a large amount of materials. Bai Ximing said.

"Xue Lan can now control the Sword Blood. If she can release the Sun madness fire, let her use those Myriad Tao Divine Soil Crystals to refine a bunch of sword of life." Chen Xiang said: "If that's the case, then it can also save me a lot of things."

"En!" Bai Ximing nodded: "When are you leaving?"

"Leave now. Xue Lan's condition has already stabilized. Your Bai Family should be able to return to the peak." Chen Xiang wanted to find the Blue Sky Poison King.

"Alright, I'll tell Lan Clan how to go." Bai Ximing escorted Chen Xiang out and told him some things about Lan Clan.

After Chen Xiang left the Bai Mansion, he used the Counter Power to conceal himself, it was to prevent the people hiding in his surroundings from following him.

After using the Counter Power, he immediately teleported in the direction of the Lan Clan.

Bai Ximing told him that the Lan Clan was in charge of a very vast area. There were a few hundred huge cities inside, and there were many powerful people.

Because his strength was weaker than before, Bai Family could only swallow his anger.

... ..

Half a day later, Chen Xiang arrived at the area of the Lan Clan. On the walls and doors, there was a large flag with the word "Blue" written on it, proving that this was the city the Lan Clan was in charge of.

Just as Chen Xiang arrived at the entrance of the city gate, he saw a familiar figure, it was Lan Lei!

Lan Lei and the other disciples of Lan Clan entered Yang Dong City.

"There is still an old man behind him, could it be the Blue Sky Poison King?" Chen Xiang didn't dare be sure either. There were definitely a lot of elders in Lan Clan, and Blue Sky Poison King was just an old man.

Bai Ximing had only told him that the Blue Sky Poison King was called Azure Sky, and was an old man. Bai Ximing had never seen the Blue Sky Poison King with his own eyes, and although the three Alchemist s that were poisoned, although they were being chased by the Blue Sky Poison King, they did not see the true face of the Blue Sky Poison King.

At this time, Chen Xiang was still using the Counter Power Invisibility, he anxiously followed behind.

There were a lot of people in the city, so Chen Xiang was not afraid of being discovered.

"Elder Qing Yun, I didn't expect to meet you here ... Are you going to deal with Bai Family? " Although Lan Lei was walking on the main street, he was not afraid of others finding out that the Blue Sky Poison King was here, and did not try to cover up his words.

"No, I'm here to pick the herbs, but I met a few Bai Family s. Even though they were here, if I were to meet them, I would definitely not let them off." Blue Sky Poison King's expression and tone were cold.

Chen Xiang could now confirm that this old man was Blue Sky Poison King, who was harvesting medicine in Bai Family's territory. To think that he would still be so ruthless to Bai Family, it was only because Bai Family was weak right now.

"Sigh... Even the Alchemist that destroyed them was useless. Their Bai Family had a very powerful guest elder who was able to use the Frenzy sword method, so the godly sword that my clan gave me for temporary use was broken by that guy?" Lan Lei was furious.

"What's going on? How do guests know about Frenzy sword method? Isn't the Frenzy sword method only used by Sword Blood s?" Blue Sky Poison King was very shocked: "How come I didn't know about this?"

"You are already gathering medicinal herbs outside. If you return to the Blue Palace, you will definitely know in detail. In short, the Bai Family now is not so easy to bully." Lan Lei was extremely vexed. Although the Lan Clan did not blame him much because his divine sword had been destroyed, the young disciples of the Lan Clan had used this matter to ridicule him.

The Blue Sky Poison King did not speak as they arrived at a very luxurious hotel.

Lan Lei chose a private room and welcomed the Blue Sky Poison King with a welcoming party. He began to eat and drink to his heart's content, and he was even floating beside the private room as he eavesdropped on their conversation.

The room was on the tenth floor and it was open for business. There was no soundproof array formation, so Chen Xiang could easily hear the conversation going on inside.

"Patriarch Blue Sky, what do you think of this matter? Could it be that the Bai Family was hiding some power, and suddenly revealed a guest with a Sword Blood?" Lan Lei asked. He was curious about this matter, but the clan elders did not say anything to him.

"I only want the Sword Blood." The Blue Sky Poison King said: "It's very obvious, those Sword Blood contain a huge secret. If I were to obtain them, I can also become the person of the Sword Blood, and then, awaken the Frenzy sword method, I will be able to control the Sun madness fire. If I were to use the Sun madness fire to refine poisons, my poison will be very strong."

Chen Xiang's heart trembled, the Blue Sky Poison King was so passionate about the Sun madness fire, he was worried about Bai Xuelan, if he knew that Bai Xuelan had recovered, if he were to meet Bai Xuelan, he would definitely ignore everything.

"Next time I see Xue Lan, I have to teach her how to defend against poison." Chen Xiang thought.

Blue Sky Poison King drank a cup of wine, then said with a sneer: "I have already made my move on the three Alchemist s, and the people of Bai Family have always been loyal and loyal, they will definitely think of a way to cure the three Alchemist s of the poison, but no matter what, they will never be able to do so, because only I can cure the poison. At that time, they will only have two ways to go, one is to 'hand over' the detoxification pellets with the Sword Blood, and the second is to get them to give up their 'flesh' body."

Chen Xiang couldn't help but admire the ability of this Blue Sky Poison King. He didn't kill the three Alchemist s, but instead let them be infected by a strange poison, so that they could obtain some benefits from the Bai Family.
