

Dan God 3401

[Chapter 3401](#)

Although Chen Xiang knew that Xue Wenbo was not ordinary, he never thought that Xue Wenbo had ever reached such a peak.

"The human race has more than ten empires, and I am the emperor of the Snow Cloud Imperial Country. My strength should be ranked fifth and fourth, right?" Xue Wenbo said: "The inheritance of the Snow Cloud Imperial Country does not have to be passed on to our descendants, it can also be passed on to the Emperor's outstanding disciples or to the people around who are capable."

"And I took over my master's position, and became the emperor. At that time, there were many royal relatives who did not accept me and wanted to seize power from me. In the end, I had no choice but to capture them and expel them from the Snow Cloud Imperial Country."

When Chen Xiang heard this, he said, "Old Xue, it seems like you weren't a qualified person to wield this power. Even though it was extremely cruel, you should have exterminated all of them at that time, eliminating any future troubles."

Xue Wenbo let out a long sigh, drank a cup of tea and nodded: "Indeed so. I am too soft-hearted and merciful, so I am not suitable to be the emperor!"

Evidently, Xue Wenbo had been killed by the imperial family that he had let go that day, which was why he was in such dire straits.

"I have no children, and my throne will be passed down to my disciple. I treat him as my own son, and in the future, the throne will definitely belong to him. However, I have ignored human nature." Xue Wenbo said: "Because he was in love with the royal daughter whom I kicked out of the Snow Cloud Imperial Country. Under the royal daughter's instigation, he usurped the throne ahead of time and used poison on me."

Chen Xiang asked with furrowed brows: "Old Xue, then has your poison been detoxified yet?"

Xue Wenbo nodded his head: "It has already been cured, this poison has troubled me for hundreds of years, I only cured it last year, after a period of time, I will be able to recover my strength."

To be able to become the emperor of an empire in the human world, Xue Wenbo definitely had to possess powerful strength. He must be at the peak of Aoshi Holy Stage.

"Your disciple is pretty human too. He let you go, didn't he?" Chen Xiang said.

"I ran away by myself. He wanted to kill me." Xue Wenbo's expression was calm. All these years, he had seen everything.

"Your disciple shouldn't have a cultivation at the peak of Aoshi Holy Stage, right? Could he also be the emperor of the Snow Cloud Imperial Country? Will others admire him?" Chen Xiang asked.

"Of course not, but don't forget the royal daughter who was with him, she is in control of the situation now, and the royal relatives have all returned, the entire Snow Cloud Imperial Country is under their

control, because they were extremely greedy, causing the entire Snow Cloud Imperial Country to be filled with complaints, and quite a few people have already left the Snow Cloud Imperial Country."

"Later on, in order to prevent people from leaving, they even sealed every place in the city and did not allow them to leave as they pleased. If they wanted to leave, they had to pay a large amount of Myriad Tao Divine Soil Crystals."

Xue Wenbo hated himself for being indecisive in the beginning, otherwise, he would not have allowed Snow Cloud Imperial Country to become like this.

"Old Xue, do you have any plans to return?" Now that the Snow Cloud Imperial Country has become like this, you have a lot of responsibility, so I have let down the hopes that your master had for you. " Chen Xiang's words caused Xue Wenbo to sink into grief.

At first, he didn't want to be one of them, but there was a reason why his master didn't hand over the throne to those imperial relatives. It was mainly because he was too greedy, so even Xue Wenbo himself couldn't not give the throne to those greedy people.

In the end, Xue Wenbo could only do it himself, but he made the wrong decision, which was to let go of that group of greedy fellows. Just like what Chen Xiang said just now, with his character, he was not suitable to be the emperor.

"I have plans to go back, but not now." Xue Wenbo said: "All these years of travelling, I just wanted to see if I can win over some people, but I did not succeed. The Soul Race definitely would not participate in battles like these humans, and the others are not willing to take the risk."

Chen Xiang said in a low voice: "It's not that the Soul Race does not want to participate, it's just that without sufficient benefits, they would not do such a thing."

Xue Wenbo thought for a moment, then nodded: "Indeed."

It's not good, who would do this with you, Xue Wenbo already had a plan, they would accumulate wealth, only then would he be able to have the Soul Clan attack the Snow Cloud Imperial Country together with him.

"I have an idea, but I don't know if anyone believes it." Xue Wenbo suddenly said, he suddenly felt that Chen Xiang knew a lot about fighting and power, at least he knew more about it than him.

"What idea?" Chen Xiang asked quickly.

"There is a forbidden grounds inside the Snow Cloud Imperial Country. This forbidden grounds is very difficult to enter, but my master had entered this place before, and he has not appeared since he entered." Xue Wenbo said: "My master said before, there is an ancient Transmission array in the forbidden grounds. It can release a strong power of space and teleport people to the fifth floor of World Defying Stage Soul River, which is even closer to the sixth floor."

The sixth floor was the Tao-creation Place. If he could reach the fifth floor all of a sudden, that would be a very good thing.

"I will announce this to the public and cause chaos in the Snow Cloud Imperial Country's Imperial Palace. At that time, I can take advantage of it." Xue Wenbo said: "But the prerequisite is that I need to have sufficient strength, and that someone must believe me."

The ancient Transmission array s that could be teleported were obviously left behind by the Super Yang Old Ancestor and the others. Furthermore, there was also a barrier protecting them.

"Old Xue, I can help you!" "But don't tell anyone about the forbidden area." Chen Xiang suddenly said.

"Oh?" Xue Wenbo saw that Chen Xiang was only around the middle stage of Aoshi Holy Stage, but he could actually help him.

"I have this!" Chen Xiang quietly took out a piece of Crystal emperor and said: "There are very few of these here right?"

Chen Xiang wanted to go to the forbidden grounds, and he wanted to open Transmission array to go to the fifth floor of the World Defying Stage Soul River.

Xue Wenbo took a deep breath, this was a Crystal emperor, it was indeed rare here, there were a total of 10 in Snow Cloud Imperial Country, he had obtained 2 small pieces previously, but he used them to cultivate in the end.

Although a large amount of Myriad Tao Divine Soil Crystals circulated in this place, there were very few naturally born Crystal emperor, and all of them needed to be refined. What he obtained from the son of the City Lord of the almighty Sacred City, Cheng Shaoren, was only a very small piece, which was naturally born.

Chen Xiang was very big. Although it was only emitting a weak light, in Xue Wenbo's eyes, it was almost blinding.

"You must have some motive to help me." Xue Wenbo said as he kept the Crystal emperor.

"I need to enter the Transmission array. I want to go to the fifth floor of the World Defying Stage Soul River." Chen Xiang said: "That forbidden area is obviously inside the Imperial Palace. Only if you capture the Emperor's seat will I have time to test how I can enter the forbidden area."

"Good!" But how exactly are you going to help me? " Xue Wenbo asked.

"I'll give you ten of those stones, is it enough for you to recruit soldiers?" Chen Xiang laughed.

"Enough!" Xue Wenbo was shocked. Chen Xiang actually had ten pieces, who knew where he got them from.

[Chapter 3402](#)

"Old Xue, I really didn't expect that I would run into an emperor here. My luck isn't bad!" Chen Xiang chuckled, then poured some tea for Xue Wenbo.

"Actually, you don't know about it. There are many big shots in Ancient Wolf Race, not only humans, but also other big ones of the Soul Race." Xue Wenbo said: "The main reason is because the environment in Ancient Wolf Race is very good, very safe, the higher ups of the Ancient Wolf Race pay attention to the

rules, if there is anyone who violates it, they will definitely be severely punished, and if it is serious, they will even lose their lives."

Chen Xiang had seen a fellow being thrown into the water to be fed to the crocodiles before.

"Does the Ancient Wolf Race have many crocodiles? "It's very huge. I've seen one being blacklisted before and being thrown down." When Chen Xiang thought back to the Giant Alligator, he couldn't help but feel a trace of fear.

"What you are smearing is something that is meant to lure crocodiles. If you did not smeared that black stuff on your body, the crocodiles in the water would not attack you!" The Ancient Wolf Alligators here are very obedient. "Xue Wenbo laughed, "Everyone knows that the Ancient Wolf Alligators are obedient, but no one dares to run around in the water."

Just thinking about the huge crocodiles down there that were hundreds of feet long, no one would dare to run around randomly. Just thinking about it made him feel a sense of fear.

Chen Xiang now understood the Ancient Wolf Race. It was an extremely strict race, especially the rules here, which attracted many humans and spirit types who came to avoid revenge.

Even those who usually committed many evil deeds would have to behave themselves. If they were to cause trouble here and get caught by the Ancient Wolf Race, their fates would be very miserable.

"Old Xue, I trust you. This is for you first." Chen Xiang gave Xue Wenbo a piece of Crystal emperor: "This should be enough for you to temporarily recruit people, right?"

After Xue Wenbo received it, he smiled slightly: "How can you trust me that much? Aren't you afraid that I'll run away with your Crystal emperor?"

You don't seem to know much about this place, and now that you've heard at least one story from me, you believe me. Don't you think I'm making it up? "

Chen Xiang drank a mouthful of tea and laughed: "I, Chen Xiang, have always had good judgement towards people. I believe in my judgement.

Chen Xiang had lived for a long time and seen a lot of people.

"Old Xue, have you heard of the Soul Demon Clan in the World Defying Stage Soul River?" Chen Xiang was very familiar with Xue Wenbo now, so he dared to ask him a few things.

"Of course I've heard of it, it's a newborn race, we had quite a few humans there before." Xue Wenbo said: "The World Defying Stage Soul River on the first level is the youngest World Defying Stage Soul River!"

"The youngest? I even thought that the first level's World Defying Stage Soul River was the oldest! " Chen Xiang said: "Didn't the Madness soul in the first level enter the second level after cultivating? And then the second and third levels, all the way up! "

Xue Wenbo nodded his head: "That's not bad, but the first Madness soul all flowed down from the Tao-creation Place s. The sixth floor is the Tao-creation Place s, and the Madness soul that came down from

above came to the fifth floor, and after a period of reproduction, another group descended and formed the first World Defying Stage Soul River."

"The way to reproduce World Defying Stage Fierce Soul is to split!" Xue Wenbo picked up a leaf and tore it apart, saying, "One World Defying Stage Fierce Soul, split into two!"

After the leaf was torn into two pieces, Xue Wenbo continued to tear away, and in the end, tore apart numerous small pieces.

"These little pieces of leaf are the World Defying Stage Fierce Soul of the first level, and the entire leaf is the Madness soul of the Tao-creation Place! Of course, small fragments can also grow, absorb the soul power stored in the soul river, and evolve into a large fragment that returns to Tao-creation Place. In this way, the Great Madness soul of Tao-creation Place will always be able to maintain its strength. "

"And some Madness soul, by chance, will develop their spirituality and evolve into a living being! Soul Clan, or Soul Demon Clan. "

"So Madness soul are these kinds of existences. I only know about them now." At this time, Chen Xiang had gained a lot more understanding towards World Defying Stage Fierce Soul.

"The World Defying Stage Fierce Soul of the sixth floor, there is a very mysterious connection between them. After the first floor's World Defying Stage Fierce Soul evolves, they would come to the second floor, and sometimes the second floor's World Defying Stage Fierce Soul falls into the second floor as well. The second and third floor also have this kind of connection, and I feel that we can mutually maintain this connection. It's very mysterious that the Madness soul of the sixth floor can endlessly grow. " Xue Wenbo said again.

After drinking the tea, Xue Wenbo invited Chen Xiang to his residence. It was a tree hole in a large tree, and there were a few hundred tree holes in the tree itself.

"These tree holes were all constructed and sold by the Ancient Wolf Race. Although many of the trees have yet to be dug into the ground, no one dared to go and dig on their own. This is a quiet place in the Ancient Wolf Race." Xue Wenbo said, "Ancient Wolf Race also needs to earn some resources, so everyone can understand that."

"Old Xue, do you have any plans?" I want to see the Transmission array in the Snow Cloud Imperial Country as soon as possible. " Chen Xiang said.

"Yes!" There is a strong ancient wolf with a weird personality here. " Xue Wenbo said: "This guy is obsessed with weapons, and always wants to find the best materials to refine them. Although he has already found one Tao-creation Holy stone, he is still lacking one piece of the better quality Crystal emperor."

"How strong is this guy?"

The Ancient Wolf Race was able to intimidate and control so many fugitives in an orderly manner. One could tell that the people from the Ancient Wolf Race were very powerful.

"Peak of Aoshi Holy Stage! I'll go find him when it gets dark. Do you want to come with me?" Xue Wenbo said: "This guy has a strange personality. At night, he always opens his tree hole wide. If there's something you need to find him for, you can directly go in."

"Alright!" Chen Xiang was secretly looking forward to it.

When the sky darkened, Chen Xiang followed Xue Wenbo to another tree on the treetop, and continued walking like this. Chen Xiang didn't remember how many trees he had passed by.

"This tree belongs to him, we can go straight down from here." Xue Wenbo brought Chen Xiang into a tree hole in the big tree.

After entering the hollow of the tree, Chen Xiang felt a strong Qi, which made him feel even more pressured than when he was facing the Roc Old Ancestor.

Here, the powerful ancient wolves had no name, only a title!

The Ancient Wolf that Xue Wenbo came to find had a title, it was called Night lone wolf and he picked it himself.

"Who is it?" A cold and hoarse voice came from inside.

"Xue Wenbo!"

After Xue Wenbo finished, he looked at Chen Xiang.

"Chen Xiang!"

Chen Xiang immediately told her name.

The two of them were in a spacious room in the tree hole. A door slowly opened, and a tall, bearded, middle-aged man walked out.

The moment the middle aged man came out, his wolf-like eyes sized up Chen Xiang and Xue Wenbo with an ice-cold gaze. This caused Chen Xiang to secretly fear in his heart, this was truly a frightening fellow.

[Chapter 3403](#)

"Sit!" The Night lone wolf said coldly.

Before Chen Xiang came, he already knew the personality of this Night lone wolf, so he didn't think much of it. After all, it was already pretty good for a strong Ranker like him to make him sit.

After Xue Wenbo and Chen Xiang sat down, the Night lone wolf also sat on a large chair.

"What is it, speak!" The Night lone wolf spoke very briefly as if she was cherishing a piece of gold.

All those who came here to look for Night lone wolf had something to do. If they didn't know the Night lone wolf well, they would most likely be thrown out if they came here to chat with him. If they were serious, they might be hung by the tree entrance to show off their skills.

"I was once the emperor of the Snow Cloud Imperial Country!" Xue Wenbo said: "I want to fight my way back, get back the throne, and control the Snow Cloud Palace!"

"It's very difficult, I won't do it!" The Night lone wolf said immediately. It seemed that the moment he heard Xue Wenbo's name, he already knew who Xue Wenbo was.

"This is the reward!" Xue Wenbo took out the Crystal emperor that Chen Xiang had given him.

"Furthermore, I will look for other helpers, and you aren't the only one! After a period of time, I will be able to recover my strength. From my new peak Aoshi Holy Stage cultivation, I will be able to participate in battles. "

The Night lone wolf looked at the Crystal emperor in Xue Wenbo's hands, and its two ice-cold eyes seemed to ignite with flames. This was something that he needed the most.

The Night lone wolf was very strong, Chen Xiang felt that this piece of Crystal emperor was a little stingy. After that, he acted on his own accord and took out a piece of Crystal emperor, throwing it over to the Night lone wolf: "This piece is for you in advance.

To him, three Young girl Danling could condense quite a few Crystal emperor each day. He only wanted the Night lone wolf to be more at ease and join in so that he could take down the Snow Cloud Palace as soon as possible.

Two Crystal emperor s, and they were of the best quality! The Night lone wolf had also seen Crystal emperor before, but those Crystal emperor were very small. Their quality was not too good either, far less than the one Chen Xiang gave them.

"How many people are you looking for?" The Night lone wolf was already moved. After all, they were two high quality Crystal emperor. If he wanted to go collect them himself, who knows how long it would take.

"At least eight!" Xue Wenbo was not sure either, "Because I don't know if I can find enough!"

"How much is the reward?" The Night lone wolf asked again.

"At least one of these Crystal emperor, if they were as strong as you, I can give two of them to you." Xue Wenbo said.

"Give me ten Crystal emperor, and I'll help you find another ten." After the Night lone wolf finished speaking, it added: "I want to join as well!"

Xue Wenbo looked at Chen Xiang.

"No problem, but I'll give it to you when I'm done." Chen Xiang obviously had enough Crystal emperor s now.

"I'll see you in a month!" The Night lone wolf said.

Xue Wenbo nodded, and then left with Chen Xiang.

"Night lone wolf are indeed very strong, the person he chose should also be his friend." Chen Xiang said.

"Yes, although he has an eccentric personality, he still has many friends!" I think he will most likely swallow those Crystal emperor. " Xue Wenbo laughed: "He probably owes him a favor by calling his friends over."

Night lone wolf was obsessed with the way of weapons, and needed a large amount of materials to refine. He was also very curious as to why Chen Xiang had so many Crystal emperor, but he just did not ask.

"Old Xue, are you able to recover in one month?" At that time, Chen Xiang would not fight, he was only waiting for Xue Wenbo and the others to succeed, then he would go to the Snow Cloud Palace.

"It's okay, so from now on I have to go into closed door cultivation as well." Xue Wenbo said.

After Xue Wenbo entered his room, Chen Xiang also left his tree cave. He wanted to take a walk around the Ancient Wolf Race.

"I wonder if there are any pills here!" Chen Xiang had forgotten to ask Xue Wenbo earlier.

"I don't think so. After all, this isn't a place for humans. The Soul Race definitely wouldn't study this kind of thing." Su Meiyao said.

Chen Xiang asked everywhere and it was indeed the case.

However, he discovered that the Ancient Wolf Race was extremely proficient in smithing, which surprised him a little. He thought that the Night lone wolf was obsessed with weapons as an exception, but he never expected that the entire Ancient Wolf Race was like this.

He came to the core area of the Ancient Wolf Race, where the dozens of trees were the largest, and where shops were opened by members of the Ancient Wolf Race, making the place extremely lively.

Most of Ancient Wolf Race's shops were various divine tools.

Chen Xiang went to take a look. There were a lot of different kinds of God Equipment refined in the Ancient Wolf Race. There were all kinds of different God Weapons and God Defensive Armor.

Only, he did not see that what he was satisfied with was that Long Xueyi and the others were all using divine tools refined by Xue Xianxian and the others.

"Ancient Wolf Race is really a strange race!" Chen Xiang exclaimed as he walked out of a large divine tool shop.

There were indeed no medicine stores here, because the World Defying Stage Soul River s of the third floor were all made of water and it was difficult for them to produce all sorts of strange flowers and herbs.

In this regard, Chen Xiang could only give up. If he wanted to refine a better pill, then he would need a higher grade of ingredients.

"Maybe the Tao-creation Place will have it!" Su Meiyao said: "I just don't know when I'll be able to get there."

"We'll be there soon." Chen Xiang said: "This will require the Night lone wolf and the others, I hope that my Crystal emperor was not spent in vain."

Chen Xiang still had two Tao-creation Holy stone s in his possession, but no one helped him refine them.

In the following month, Chen Xiang strolled around Ancient Wolf Race. He mainly just ate and drank, because Long Xueyi liked to eat and drink the most.

When Chen Xiang returned to his tree cave, he found that Xue Wenbo had also come out of his closed doors cultivation, and his aura had grown stronger as well.

"Old Xue, I won't be participating in the battle then. I'll just wait nearby for your good news." Chen Xiang said. He was so weak, and the humans here were all powerful, so his participation in the battle wouldn't be of much use.

"Of course!" Xue Wenbo laughed, Chen Xiang had given a lot of effort, those Crystal emperor were not so easy to obtain, Chen Xiang had helped him to recruit experts, it was because he was the biggest help.

Xue Wenbo brought Chen Xiang to find Night lone wolf, but the Night lone wolf had already gathered a total of eleven helpers. Adding them all, the ten he brought here with him were both humanoid and soul-type, and all of them were very strong, but they were all wearing masks, obviously not wanting others to know who they were.

"Let's go!" A person wearing a silver mask quickly walked out. He jumped down from the tree hole and transformed into a huge, winged silver wolf. This was a Wolf eagle, it could fly!

The Wolf eagle's back was huge, and standing under twenty odd men was not a problem, not to mention Chen Xiang and the rest, who together only had around a dozen.

"Up!" The Night lone wolf was the first to jump onto the back of the Wolf eagle, and then everyone else quickly followed.

After going up, everyone sat down. The Wolf eagle had a very soft layer of silver fur, so it was very comfortable to sit on it.

[Chapter 3404](#)

The Wolf eagle flapped its wings and flew through the forest. Luckily, the giant trees here were far away, otherwise, it would really be difficult to spread its wings.

Arriving at a place without any branches or leaves, the Wolf eagle finally flew to the top of the forest.

With a Wolf eagle flying, they would not need to ride the Ancient Wolf Alligator on the water, if not who knows how long it would take for them to reach the Snow Cloud Imperial Country.

"Let's go to Blue Snow City first!" The Night lone wolf said.

"Why?" Xue Wenbo asked. "I thought you were going directly to the Snowcloud Imperial City."

"The Blue Snow City is hiding a mysterious power of the Snow Cloud Imperial Country." A person wearing a golden mask said, "This power was secretly developed by the previous Emperor's descendant!"

Back then, when they usurped your position, they did not even use this power. Thus, they have been hiding there the entire time. "

The people around the Night lone wolf were all experts, and all of them were very strong. No one knew what kind of people they were, but they actually knew so many things, which was something that Xue Wenbo did not even know about.

"Although the Blue Snow City appears to be an extremely barren place, there are people who secretly send in large amounts of resources every so often. After a bit of investigation, we discovered that there are at least ten peak Aoshi Holy Stage s with strength comparable to us hidden there." The man with the golden mask said again.

"You really shouldn't have let them go back then." A man with a wooden mask said.

They seemed to know about Xue Wenbo's situation.

Xue Wenbo could only sigh lightly. This was indeed his fault.

"Then what about the power of the Snow Cloud Palace? Is it strong? With too many Rankers stationed in the Snow Cloud Palace, wouldn't they destroy the Snow Cloud Palace if they were to fight? " Chen Xiang said, he was worried that they would destroy the forbidden grounds.

"We'll try to avoid that." The golden-masked man said.

The fellows in the Snow Cloud Palace are also very strong, at least twenty of them are at the peak of the Aoshi Holy Stage, but we will not directly face them. After we kill the people in the Blue Snow City, we will head to the Snowcloud Imperial City, and then we will have a plan to kill them one by one.

"You don't have to worry too much. We are very experienced at this kind of thing."

These ten masked men were all very strong, moreover, they were not as cold as Night lone wolf s. It was unknown what they usually did, but they were all very secretive.

"Alright!" Xue Wenbo said. He only wanted to make up for his previous mistakes by gaining control of the Snow Cloud Imperial Country.

Chen Xiang, on the other hand, needed that forbidden place. He wanted to go from the Transmission array to the fifth floor of the World Defying Stage Soul River, as that would allow him to be even closer to the Tao-creation Place.

"Big Brother, when will I finish refining that blade?" The golden-masked man asked the Night lone wolf.

"Soon!" The Night lone wolf took out a black long blade and handed it over to the golden-masked man, saying: "Take a look for yourself!"

After receiving it, the masked man took a closer look at it and nodded his head in satisfaction. "Although it is not the finished product, I am very satisfied."

"Very good ... This seems to be the Tao-creation Incantation! " Chen Xiang said in surprise as he brought his head closer to take a look.

This blade was crafted by the Night lone wolf, and the Night lone wolf actually knew the Tao-creation's Incantation. This made him very surprised.

"You know the Tao-creation's Incantation?" The Night lone wolf seemed to be even more surprised than Chen Xiang. He thought that only he knew about this kind of thing.

In his eyes, Chen Xiang was already a mysterious being, that kind of quality Crystal emperor, he had never heard of such an extravagant fellow like him if he were to casually give it away, as if he was throwing away a rock.

"A little." Chen Xiang looked at the Tao-creation's incantation on the blade, and said: "This is a thunder attributed Tao-creation's incantation, first stage!"

Only the Tao-creation's Incantation was carved on it, but it was done extremely well. When used, infuse the power of the world into it, and it would be able to release a very strong power of lightning.

"That's right!" The Night lone wolf became more interested in Chen Xiang, and then he took out a sword, showing Chen Xiang the small Tao-creation Incantation.

"This is Fire Rune!" Chen Xiang said: "These are all the first stage of the Tao-creation's incantation."

"The second level of the Tao-creation's Incantation is multiplied, but without sufficient materials, it cannot be inscribed." The Night lone wolf spoke a little more: "Otherwise, if I absorb the power of this world and my power instantly doubles, that kind of instant impact force will cause the divine tool to be destroyed."

Chen Xiang had also seen these weapons just now. Although they had all been added to the Crystal emperor, there weren't many of them, and it was mainly the Myriad Tao Divine Soil who had a lot of crystals.

"Senior Night lone wolf, then what stage of the Tao-creation's Incantation can you inscribe into it?" Chen Xiang quickly asked, the Night lone wolf seemed to have mastered the incantations for the second stage Tao-creation.

Everyone never thought that this kind of kid would actually be discussing the path of artifact forging with the Night lone wolf. Of course, they didn't quite understand what he meant.

"The highest is the ninth stage. I have mastered the third stage, the Tao-creation Incantation." The Night lone wolf said: "The third stage of the Tao-creation's Incantation is Space! The ancient Transmission array were all laid out using the third stage of the Tao-creation's incantation. "

The fact that Super Yang Old Ancestor and Gu Tong could arrange Transmission array here showed that they had mastered the third stage of the Tao-creation's Incantation.

Chen Xiang was curious about the third stage of the Tao-creation's Incantation just now!

"So that's how it is." Chen Xiang said.

"Do you also learn the Tao-creation's incantations?" The Night lone wolf asked: Who taught you?

"I taught myself!" Chen Xiang laughed bitterly: "Right now, I can only grasp the second stage and the first stage of the Tao-creation Incantation."

"Very good!" The Night lone wolf's eyes revealed a look of admiration, because Chen Xiang was only at the middle stage of Aoshi Holy Stage as well.

Chen Xiang looked at the blade and said, "I feel that the Tao-creation Incantation for this blade can be superimposed on the flames and vibrations. During battle, when the power is released, the thunder and flames would vibrate.

"Overlay?" The Night lone wolf did not think of this before, it could be seen that the person who taught him the Tao-creation's Incantation was extremely stone-cold. If he had been the one to learn it, he would definitely have a lot of thoughts.

"Is that okay?" The Night lone wolf was suddenly very interested, because it had never crossed his mind before.

"Of course you can!" Chen Xiang conjured a fire incantation in the air, added to it was a thunder incantation and the last one was a vibration incantation. He combined the three incantations together and looked extremely natural.

The Night lone wolf could see the spirit, while Xue Wenbo and the masked men were also shocked by the power.

"Hehe, let's see the results!" Chen Xiang struck towards the sky, causing the power to explode in midair.

BOOM!

After the ball of energy exploded in the air, flames spewed out in all four directions, bringing along thick streaks of fire and lightning. The shock wave swept out in all directions.

A shockwave pressed down from the sky, crushing the branches and leaves of the trees below. The tree trunks were directly shattered by the shockwave, and the water below surged, forming huge waves that rushed in all directions.

"This... This power is close to the peak of the late stage of Aoshi Holy Stage. " Xue Wenbo was extremely shocked: "If it hit me, I might get injured."

The Night lone wolf and the masked men thought so as well. Chen Xiang was only a brat in the middle stages of Aoshi Holy Stage, yet he could release such a strong power.

The Night lone wolf was also inspired, staring at the blade, as if it had plans to refine something new.

[Chapter 3405](#)

Chen Xiang's understanding of the Tao-creation's incantation was not as much as that of the Night lone wolf's. The Night lone wolf had already comprehended the third level of the Tao-creation's incantation, and Chen Xiang had only just started the second level.

However, the overlapping use of the Tao-creation Incantation was not as high as Chen Xiang's. If Chen Xiang had not told him, he would not know when he would know the stacking of the Tao-creation Incantation.

Chen Xiang was curious as to where the Night lone wolf learned the Tao-creation's Incantation, but he did not ask. The Night lone wolf was also curious about how Chen Xiang learnt the Tao-creation's Incantation, but he did not ask.

"If you had mastered enough Tao-creation's incantations, you could try fusing the first and second layers together. It might even be stronger! However, we may need better materials when refining." Chen Xiang said.

The Night lone wolf nodded its head. It kept the half-finished blade, and decided to start refining the blade from the beginning.

The speed of the Wolf eagle's flight wasn't very fast. After all, there were so many people on top of it, and this forest wasn't completely safe either.

When Xue Wenbo saw Chen Xiang make his move just now, he knew that Chen Xiang could also use the Tao-creation's incantation like Night lone wolf and use it in battle. On the other hand, the Night lone wolf's Tao-creation Incantation was used to refine divine weapons.

If Night lone wolf could also use Tao-creation's Incantation like Chen Xiang, then the Night lone wolf's power would definitely be even stronger. It could raise one's strength by several times, and was an existence at the same level as Chen Xiang.

"You don't know how to forge artifacts?" The Night lone wolf asked: "I also think that the Tao-creation's Incantation was grasped by the Refiner."

"Not proficient!" "I only know how to refine pills." Chen Xiang said: "But there aren't many alchemists here, I am a very famous Alchemist at the previous place. Furthermore, the Tao-creation's incantation can also be used to refine pills, but..." "It's just that I still don't have enough understanding of the Tao-creation's incantations. When I understand more of the Tao-creation's incantations, I will definitely be able to use them in alchemy."

The Night lone wolf nodded.

"You even know how to refine pills!" Xue Wenbo was very surprised: "This is rather difficult ..."

"Are there pills here too?" Chen Xiang asked: "I wasn't able to find it in the Ancient Wolf Race's area."

"Pills are only available in the human region, but they are also very rare. Although there are a few decent Alchemist s, they always appear and disappear mysteriously." The golden-masked man said.

Chen Xiang laughed: "If only I had the chance to see them again!"

Masked Man: "Are you really Alchemist? As far as I know, all of the Alchemist s are extremely arrogant. I had previously seen a Alchemist who looked down on everyone and he was the distinguished guest of an empire's emperor. "

"Of course I'm Alchemist." Chen Xiang laughed: "It's probably because there aren't many Six Realms mirrors here, which is why it's like this. There are a lot of Alchemist s over there."

There were definitely very few herbs here, which was why there were not many Alchemist s here. It was probably because the place was submerged that made the herbs rare, if he wanted to refine pills, Chen Xiang felt that he could only harvest water plants or mushrooms growing on trees at the bottom of the lake.

"Although I have a few medicinal ingredients, the pills I concoct are no longer suitable for experts to eat here, unless I can find a better kind of medicinal ingredient here." Chen Xiang said: "But water is everywhere here, I'm afraid it will be difficult to find."

"Yes, the third level of our World Defying Stage Soul River is not suitable for growing medicinal herbs at all." They know quite a bit about the situation here.

This made Chen Xiang want to head towards the fifth floor even more. The fifth floor might be better, as long as he wasn't immersed in water.

After a few days, the Wolf eagle began to descend into the forest.

"This is the territory of the Snow Cloud Imperial Country. The Blue Snow City is right in front." Everyone jumped onto the branch of a tree. The Wolf eagle also turned into human form.

"Chen Xiang, wait for us here. If we succeed in taking down the Blue Snow City, we will come back to find you. At that time, we will have our people control the Blue Snow City and prevent the news of the Blue Snow City from getting out." The golden-masked man said.

"I want to get a bit closer. I'm not going in, I'm just going to watch from the outside." Chen Xiang said.

"That's fine too!"

Soon after, everyone stood on top of a huge tree and carefully slashed forward. They wanted to sneak into the city for a sneak attack, so they had to try their best to not be discovered.

In front of them was the Blue Snow City, it was a city built in water, all the giant trees there had been cut down, using the huge trunk to build the city looked very stable.

Chen Xiang waited outside the Blue Snow City. There were many big trees outside too, and no one dared to make a hole inside the big trees. They would be held accountable, and the consequences would be severe.

Chen Xiang was only hiding in the densest leaves and leaves.

After the Night lone wolf s changed their appearances, they walked towards the main gate of the Blue Snow City with wooden carvings.

"They must be worried that a huge battle might happen later and destroy the Blue Snow City, which is why they didn't let me in." Although Chen Xiang had used the Tao-creation's Incantation to unleash a very strong power, everyone still could not be at ease with him, so they would not allow him to participate.

Chen Xiang was waiting outside and felt bored. He wanted Feng Ke'er to give him the golden needle to search for the Tao-creation's Holy stone, but Feng Ke'er had gone into closed door cultivation and said that he wanted to comprehend the Tao-creation's incantation.

In order to allow Feng Ke'er to comprehend it faster, Chen Xiang had to use Time Formation of the third level. He didn't have anything to do with this place anyway.

Two days passed. Chen Xiang looked at Blue Snow City.

"I wonder if they have started yet!" "Seems like there's no major movement." Chen Xiang said.

"They should be planning on assassinating someone. They will wait for a good opportunity to take action!" Bai Youyou said: "If they were to assassinate one of the five, there is a high chance that they would be able to kill one in an instant. After killing four or five in one night, the rest would be easy to deal with."

Bai Youyou was very experienced with all of these.

While he was waiting, Chen Xiang suddenly saw something moving on the water in the distance. Upon closer inspection, it was an extremely huge turtle, and atop the turtle was a small house, one could tell that it was a tycoon or something.

"This fellow is enjoying it!" Chen Xiang hid behind the big tree and watched from above.

A tall and sturdy middle-aged man stood on top of the giant turtle's head, he suddenly shouted: "Crown Prince, Blue Snow City is about to arrive, they will definitely be surprised if we send the resources over, after all, you have personally delivered it."

"That's right!" I am the crown prince, the future emperor of the Snow Cloud Imperial Country. This way, I can rope in the hidden power. " A man dressed in golden clothing walked out of the small house.

"It's actually the Crown Prince!" Chen Xiang chuckled in his heart: "I also don't know what kind of strength this guy has, I'll take a look first ... This is great! "

[Chapter 3406](#)

When Chen Xiang heard the Crown Prince's words, he knew that the internal strife in the Snow Cloud Imperial Country had already begun. Otherwise, the Crown Prince wouldn't have pulled him in so fast just to fight against the other powers that were stronger than him.

As a crown prince, he might not be able to become the emperor, but he would definitely be able to stabilize his own strength.

"We can't allow them to enter the Blue Snow City. Maybe we will destroy the plans of the Night lone wolf." Chen Xiang said to Bai Youyou: "Miss You You You, what do you think we should do?"

"Stop them!" The Night lone wolf and the rest definitely would not have expected that the crown prince would send such a gift ... The current situation is that we do not know how many people this crown prince has brought. " Bai Youyou said.

Chen Xiang quietly entered the water. Although the water was very calm, he was worried that something would suddenly appear, such as a gigantic water beast like the Ancient Wolf Alligator.

"I'll give it a try first!" Chen Xiang released the Explosion Rune, and very quickly, the water surface rose up and down, forming a huge wave, and the shock wave was aimed straight at the big tortoise.

The giant tortoise's swimming speed was still very fast, but after being shocked by Chen Xiang's shock wave, it found it difficult to move forward and continued to retreat.

"What's going on? "Why did it suddenly become like this?" The crown prince's residence was very unstable and was swaying, making him feel extremely uncomfortable inside.

In order to eliminate the suspicions of those people, Chen Xiang immediately cast a Gale Incantation, immediately setting up a berserk hurricane that directly flew towards the giant turtle, causing it to continuously retreat.

"It's a blizzard!" The middle-aged man said, "Blue Snow City's blizzard appeared too suddenly!"

Chen Xiang's heart skipped a beat. If there was a blizzard here, then he would create it.

He also had the Frost Spell, which was quickly released by him. Combined with the violent wind, it created a blizzard.

"It's not enough yet. I'll give you guys a bit more lightning ..." "Yes, blue lightning." Chen Xiang was now sure that the crown prince and his men had never been to the Blue Snow City before, so he did not understand the real Blue Snow City's Blizzard either.

At that moment, he could only allow the turtle to be blown away by the waves and the gale. They thought that it was only the edge of the storm, so they did not dare to go forward, fearing that the center of the storm would become even more violent.

Seeing that these fellows were extremely confused and panicked, Chen Xiang couldn't help but snicker in his heart.

"Chen Xiang, go and pretend you are someone from the Blue Snow City and swindle them out of the resources given to you." Bai Youyou said: "As for how to deceive people, you can freely display your abilities!"

Chen Xiang's eyes lit up. He then quickly climbed up the tree, and from a high place, he glided onto the tortoise.

The group of people the crown prince brought along was not weak either. Even in the blizzard, they had already noticed the sudden appearance of another person.

"Who is it!" Two middle-aged men immediately ran out from the house.

"Are you here to deliver resources? A blizzard just appeared here, I am from inside the Blue Snow City, I can guide you to a peaceful place. " Sun Chen Xiang said.

"Quick, quick, quick!" The Crown Prince was distressed by the bumpy ride and he quickly shouted.

Chen Xiang immediately told the middle aged man who was controlling the giant turtle to go in the direction that he had pointed.

Very quickly, the Great Turtle arrived at a tranquil place in the water, and at that moment, they were also far away from Blue Snow City.

"The people from the Blue Snow City are really strong, they managed to get us out of the snowstorm in an instant." The Crown Prince laughed and said.

The blizzard was released by Chen Xiang, he just kept it.

"This is all based on experience. If you had stayed here for a few years, you would have known how to escape the blizzard." Chen Xiang laughed.

"Do you know who he is? All these years you were hiding in the Blue Snow City, all for the sake of the entire Snow Cloud Imperial Country, so the crown prince has personally come to deliver resources to you." The middle-aged man said.

"Oh? Are you really the crown prince? "I don't quite believe it. Rumor has it that the Crown Prince is a very arrogant and arrogant guy, but you look so casual. You look so calm and easy to talk with. You don't even look like the fabled popinjay." Chen Xiang frowned, pretending that he did not believe her.

It looked like he was insulting the crown prince, but was secretly praising him, which made the crown prince not want to flare up. Furthermore, he felt that Chen Xiang's next words were more pleasing to the ears.

"This is all a deliberate framing of me by someone. You should all be aware that the battle within the palace is extremely intense. My opponents are deliberately discrediting me." The Crown Prince looked helpless, "That's why I'm here to see you. This way, I can dispel your impression of me."

"Seems like it's true!" Chen Xiang nodded.

"Of course it's true. Otherwise, who would pretend to be the crown prince and give you resources? The resources that we send over are the real deal." The Crown Prince immediately said.

"No wonder! I saw just now that even though you were a bit more amiable, you still gave off a faint feeling of Arrogant Morale, as if you were an emperor. So you really are the crown prince." Chen Xiang saw the Crown Prince take out a big box of Myriad Tao Divine Soil Crystals. This turtle was so big, he must be hiding something inside.

The Crown Prince smiled proudly.

"But, Crown Prince, this is not a good thing." Chen Xiang said again.

"Why not?" The middle-aged man frowned and asked.

"You should be clear about the use of us Blue Snow City soldiers. Only when Snow Cloud Imperial Country is in danger will we act." Chen Xiang said: "We are very strong, but now that you have sent resources over to us, we mistakenly thought that you are here to rope you in, if your opponent were to find out, they would definitely cause a ruckus here, saying that you want to usurp our position, or do something else."

The crown prince secretly made contact with the strong armies of the Empire. This was indeed a taboo. Furthermore, the warriors in the Blue Snow City were important to the Emperor. If they were to poach the Emperor's army, the consequences would be dire.

The crown prince and the others thought about it carefully and immediately felt sweat dripping down their foreheads.

"If the crown prince wants to do it in secret, then he is wrong. The Blue Snow City is filled with spies from various powers." Chen Xiang said again.

"Then... "Then you can't be spouting nonsense!" In that instant, the crown prince revealed his killing intent, but it quickly disappeared. He did not dare kill warriors like Blue Snow City, because he was very clear about the consequences if he was discovered.

"Of course I won't speak carelessly. I can understand the Crown Prince's feelings!" So, Crown Prince, please go back. " Chen Xiang said, "The resources that the palace gives us every so often are enough. There's no need for the crown prince to give us any extra."

The Crown Prince thought for a while and said, "Since you are already here, why don't you send it over for me. Say it's a small gift from the Crown Prince. I think you should understand."

"Alright, I can accept it on their behalf, but if they don't want it when the time comes, I'll send it back to you." Chen Xiang thought about it in a peculiar manner: "It's only natural for the crown prince to give us gifts."

[Chapter 3407](#)

After that, the Crown Prince asked those people to bring out many boxes filled with Crystals.

"This is a small piece of Crystal emperor, pass it to your head, I believe in you!" The Crown Prince said.

"This is too precious, let the crown prince personally hand it to him! In about ten days, the blizzard will stop and we will enter the city. " Chen Xiang said: "The Crown Prince should be able to disguise himself, and should not be discovered by spies, even if they find out, do not worry, they say you came here to play."

There were still about 10 days before the blizzard stopped, and the crown prince did not want to go in. If he came out for too long, it would arouse the suspicions of others, not to mention he was going to the Blue Snow City.

"I believe you! The warriors of your Blue Snow City are all loyal and devoted. " The Crown Prince said.

It was not bad for the rankers in the Blue Snow City to be able to bear with it here and not enter the palace to enjoy life.

"Alright then!" Chen Xiang pretended to be unwilling and took it over, then took all of the Myriad Tao Divine Soil Crystals. He jumped onto a tree and waved goodbye to the crown prince's giant turtle.

After the crown prince had left, Chen Xiang snorted, "This idiot is so stingy, he only gave us such a small gift! That small piece of Crystal emperor is very precious here, but I don't like it. "

Chen Xiang continued to return to the tree, waiting for Night lone wolf and the others to return.

Not long after, another group of people arrived. They were riding a gigantic crocodile. The mansion on top was much bigger than the crown prince's mansion and they were here to deliver resources as well.

Chen Xiang had nothing to do now, so he pretended to be a soldier of the Blue Snow City and released a strong blizzard.

The one who came this time was the third prince, and he was even stupider than the crown prince. Very quickly, he gave all of the resources delivered to Chen Xiang, which were also a large amount of Myriad Tao Divine Soil Crystals and a small piece of the Crystal emperor.

Because of the blizzard, the third prince didn't enter the city and instead hurried back to the palace.

"Did something big happen in Snow Cloud Palace? This little bastard ran over here one by one to beg for help. " Chen Xiang said as he furrowed his eyebrows, because when the crown prince and the third prince gave their gifts, they both said "you understand".

In the next two days, Chen Xiang tricked five princes, which made him even more certain that something big had happened in the Snow Cloud Palace, and these princes, in order to protect their own interests, all secretly came here to find helpers.

Of course, Chen Xiang had also gained a lot, so he got a lot of Myriad Tao Divine Soil Crystals of good quality for nothing. Although the Crystal emperor were small in size and their quality was average, they were enough for him to open the Transmission array s and such.

The Wolf eagle suddenly flew over and stopped on top of a large tree branch.

"Is the problem inside resolved?" Chen Xiang asked.

"Yes, they were all killed by us." The Wolf eagle said: "The Blue Snow City is already under our control, I will bring you in now."

They even stood on the back of the Wolf eagle and flew towards Xue Wu Xia with Chen Xiang.

"Mr. Wolf eagle, did something happen in Snow Cloud Palace?" Chen Xiang asked: "A few princes have come, all to send resources, seems like they want to win over the Blue Snow City's people."

"I don't know why the emperor suddenly died, but the inside of the Snow Cloud Palace is currently in chaos ..." What about the princes? Is this how you handle it? " The Wolf eagle knew Chen Xiang's strength, so it was fine to deal with a few princes.

"I've tricked them into stealing their resources, I'll make you guys go back and wait for news." Chen Xiang laughed.

"It looks like we have to think carefully. This is a good opportunity for us to attack the Snow Cloud Palace," the Wolf eagle said.

Chen Xiang also felt the same way. The Lone Wolf Team's strength had amazed him, in just a few short days, they had wiped out the hidden strength in the Blue Snow City.

After Chen Xiang entered the Blue Snow City, it was calm and peaceful, as if nothing had happened.

Inside the City Lord's Mansion, Chen Xiang saw the Night lone wolf and Xue Wenbo. All the people in the City Lord's Mansion belonged to the Night lone wolf.

Chen Xiang had previously tricked a large amount of resources, so he took out a part of it to give to the Night lone wolf, so he could distribute it to his people.

"Looks like the situation in the Snow Cloud Palace is extremely critical. Those princes have all come here, you can see that they are facing an intense battle, and other than the princes, there might be another group of people fighting for the throne." The golden-masked man said.

"Empress!" The Night lone wolf said.

"That's right, the empress was one of the royal relatives I let go earlier. After my disciple usurped my throne, he struggled to hold on to it, so he died for no apparent reason. The empress wanted to seize power, but the princes were unwilling." Xue Wenbo said.

"The hidden power in the Blue Snow City should belong to the Queen! However, those princes didn't know that it was all because of their Emperor Father." The golden-masked man said, "If that's the case, we will immediately charge into the Snow Cloud Palace and capture them all once we receive the Queen's notice."

"They won't use the Blue Snow City's power unless they have no other choice. When they use it, it will definitely be the best time for us to enter." The wooden mask smiled. "They must have been both sides injured by the time we entered."

"That's right, the Queen and her forces will definitely put everything under the control of the Blue Snow City, but the Blue Snow City is still under our control." The masked man with the golden mask also laughed.

Chen Xiang had to admire them, he had thought of destroying the Blue Snow City from the very beginning. Although he hadn't expected it to turn out like this, they had still thought of a long-term plan.

Not knowing why, there were quite a few Night lone wolf, and quite a few in the entire City Lord's Mansion.

"Where are those guys?" Chen Xiang asked curiously.

"They were all quietly killed by us. They sank into the water to be fed to the water beasts." The Wolf eagle laughed: "Right now, we are all here."

After the Night lone wolf took on the mission of attacking the Snow Cloud Palace, they started to plan, and planted everyone here, which was why they were so fast.

Everyone waited for a few days, and sure enough, the Queen sent people over. This person was still riddled with injuries, so he should have been attacked on the way here.

"We can set off now. Snowcloud City is three days away from here." The Golden Masked Man said. His plans seemed to have been arranged by him.

There were thousands of Night lone wolf s, and they were all from the Aoshi Holy Stage s, so their power was much stronger than the Blue Snow City s before.

In order to obtain Chen Xiang's dozen or so high quality Crystal emperor, the Night lone wolf had to use its greatest strength. If he knew that Chen Xiang had obtained more than ten Crystal emperor in two days, he would definitely not be in a good mood.

The Night lone wolf must have secretly established a great power within the Ancient Wolf Race. Normally, they would accept some difficult missions to earn resources and increase their reputation at the same time.

If they succeeded this time, they would definitely become famous again.

Chen Xiang was not at the front, because the ones in front were the charging troops. He was only sitting on an Ancient Wolf Alligator in the back, patiently waiting for the good news to arrive.

[Chapter 3408](#)

The Snowcloud Imperial City that the Snow Cloud Palace was in was in chaos, and all the people inside fled the city. Because of the war, the city that was built using huge trees was also damaged. Chen Xiang was currently very far away from the Snowcloud Imperial City, but he could see a lot of black smoke emitting from the front. The aftershocks of the battle between the strong assaulted him here, and wave after wave of auras pervaded the air around him.

"The entire city isn't destroyed, these giant trees really can carry it!" Chen Xiang lamented. Snowcloud Imperial City was also a city wall built using the trunk of a huge tree, allowing the city wall to float on the surface of the water.

Even the experts at the peak of Aoshi Holy Stage fighting inside couldn't cause this wooden city to collapse. This was all thanks to the ancient trees.

Only Chen Xiang was outside, because a great battle was happening inside. If he went in and met those strong peak Aoshi Holy Stage, there would be a certain amount of danger for him, and he would drag Night lone wolf and the rest down.

When Night lone wolf and the rest entered, they were also at the peak of Aoshi Holy Stage, walking at the very front. They directly went in to find those strong warriors, and then were swept up by other people with slightly lower cultivations.

"We'll just have to wait a little longer. The Night lone wolf's plan is very thorough. They should be able to take down Snowcloud City successfully."

The Blue Snow City was like this before, they didn't lose anything when it came to the Night lone wolf and took it down, which made Chen Xiang have a lot of confidence in them.

Time slowly passed. Chen Xiang saw many people who came out of Snowcloud City. These people all left the city because they couldn't stand the kind of battle inside.

There were still many people in the city, mainly because they couldn't bear to part with the shops they bought.

Chen Xiang asked around, only then did he know that the main focus of the battle was on the middle Snow Cloud Palace, and that the Snow Cloud Palace had some sort of enchantment around them that could stop the energy waves caused by the battle.

Chen Xiang had waited outside for two days, but the noise inside had already lessened a lot. Before, there would occasionally be shaking sounds coming from inside, but now, it was becoming less and less.

"You can go in and take a look." Chen Xiang was also a little curious about the situation inside. It was obvious that since it was the end of the war, he would not encounter any dangers inside, let alone the fact that many people were still inside.

"The war is mainly erupting in the Snow Cloud Palace. I should have no problem entering the Snow Cloud Imperial Country first." Chen Xiang controlled the Ancient Wolf Alligator to swim forward, towards the Snowcloud Imperial City.

Arriving at the Snowcloud Imperial City, the streets were empty and the shops were tightly shut. The entire city was enveloped in an aura of destruction, making people feel as if the city could be destroyed at any moment.

For Chen Xiang, since he had seen this kind of scene too many times, it was naturally not enough to scare him.

However, he still cautiously walked towards the Snow Cloud Palace.

The Snow Cloud Palace was right in the middle of the city, and there were still some energy waves being emitted from it, but it was relatively weak.

"What's going on? Even if the war was over, it shouldn't have been like this! It feels like the war has suddenly ended." Chen Xiang frowned: "Could it be that Night lone wolf and the rest did not have the advantage?"

"It could be that both of them were seriously injured..." "It was just a sudden incident." Bai Youyou said: "If the Night lone wolf and the rest have already had the upper hand, they would probably clear up the area quickly. There would be a lot of commotion as well and they would definitely not be as lifeless as they are now."

Chen Xiang also felt the same way.

"I can only go take a look!" Chen Xiang used Counter Power and hid himself.

Very quickly, he arrived at the entrance of Snow Cloud Palace. Although the walls of the Snow Cloud Palace were built with giant tree trunks, these trunks were somewhat different. There were many things placed within them that caused the entire Snow Cloud Palace to be covered by a barrier.

Since Night lone wolf was able to learn the third stage of the Tao-creation's Incantation, it meant that people with a good grasp of formations were able to create a strong barrier. It was just that they were not familiar with medicinal pills.

"He should be able to enter!" Chen Xiang used Time and space power and teleported through the barrier.

After entering, there was a very wide road. On both sides of the road, there were vast squares, and at the end of the road was a huge palace.

Chen Xiang was invisible as he walked on the main road. On both sides of the road, he saw many people sitting cross-legged on the ground. When he looked carefully, he realized that the Night lone wolf s, Xue Wenbo and the rest were sitting on the right side.

As for the people on the left, from the looks of their clothes, they should be from the palace.

They were all sitting cross-legged on the ground, their faces dark. Seeing this symptom, Chen Xiang knew that they had been poisoned.

Both sides had been poisoned. What was going on? Chen Xiang was baffled, she must have been poisoned immediately, could it be that there was a third party present?

Chen Xiang hurried over to the Night lone wolf.

"How are you doing?" Chen Xiang directly transmitted his voice into the ears of the Lone Wolf Team and Xue Wenbo's dozen or so people.

Hearing Chen Xiang's voice, they were extremely shocked, and at the same time, they sensed that something was approaching, but the Qi was extremely weak, had purposely released it, if not they would not be able to sense it.

"We've been poisoned!" Xue Wenbo said in a low voice: "In the battle just now, another group of people suddenly appeared and poisoned the two of us Fortunately the Night lone wolf reacted in time and immediately used poison to attack them. Right now, we are all poisoned. "

"What is going on?" Chen Xiang still didn't understand.

"On the other side of the great Dao are three factions. One is the Empress, one is the princes, and the other is my Junior Brother ..." Xue Wenbo continued, "Originally, when the empress fought with the princes and princes and when the princes and princes were close to defeat, we would often deal with the empress ... Just as we were about to win, my junior apprentice-brother suddenly appeared. "

Xue Wenbo had a junior brother, who had suddenly disappeared when Xue Wenbo obtained the throne.

When Master Xue Wenbo had passed down the throne to him, his Junior Brother had been extremely jealous and angry.

This was where the Night lone wolf miscalculated, because no one would have thought that such a guy would suddenly appear at this time.

Xue Wenbo, this junior brother, still had some skills. Otherwise, he wouldn't have been poisoned by all the Night lone wolf.

"Haha ..." The old man opposite of him suddenly laughed: "Senior Brother, although I do not know how you managed to get the Night lone wolf, but you did not succeed, haha ..."

Initially, they thought that they would be able to defeat the princes soon, but someone suddenly appeared to support the Blue Snow City. Just as the Empress was celebrating, the group of Night lone wolf s said nothing at all.

When they were almost beaten up, Xue Wenbo's junior brother suddenly came out, and used a secret technique to rain down a poisonous rain, causing everyone in Snow Cloud Palace to be poisoned.

[Chapter 3409](#)

After Night Lone wolf and the others were poisoned, they saw Xue Wenbo's junior brother bringing a group of people and laughing loudly as he walked in. After that, every member of Lone Wolf Team released a kind of venomous octopus.

Chen Xiang now finally understood that this was actually the case. It was a little complicated, but in short, all the people who wanted to fight for the throne were all poisoned, and had many heavy injuries.

The poison did not immediately kill people, but after it did, they felt pain all over their body. They needed to use their power to force the poison, or else the poison would get deeper.

"Yuan Lingyun, don't laugh. You're not any better off right now!" You guys have been poisoned too. " Xue Wenbo said angrily. Although Chen Xiang had arrived, he was alone, and he did not know if he could hold on.

"Humph, with your kind of detoxification, I will be able to cure it quickly!" Yuan Lingyun sneered.

"You bunch of gangsters actually dare to usurp our throne. All of you must die." A middle-aged woman said angrily. It could be seen that her tattered clothes were originally very luxurious, and her face had already turned dark. She had been poisoned by two poisons.

"Why is your Blue Snow City connected to us? I have given you resources before." Previously, when they saw the self-proclaimed Blue Snow City warriors entering the palace, he was extremely excited.

"Humph, with your resources, it's just a fart." Xue Wenbo said angrily: "The Emperor Profound Realm has always been mine. If not for my disciple betraying me, you all would never have had the chance to stay in the Imperial Palace."

In next to no time, they started arguing at the same time.

Suddenly, he heard some noises coming from the distance. Looking carefully, he saw it was dozens of young people wearing luxurious clothes and riding soul beasts.

"It's the Fire Cloud Country next door. Why would these bastards come at this time?" Xue Wenbo growled angrily, he had already thought of something.

"Prince Huo Yun, help us force the poison out." Yuan Lingyun was quite confident just now. So she was colluding with the Crown Prince of the Fire Cloud Country next door.

"You've been poisoned too?" Prince Huo Yun laughed out loud. "What a pity, I don't know how to cure the poison!"

"You!" Yuan Lingyun was instantly infuriated. It was obvious that this Prince Huo Yun wanted to monopolize the Snow Cloud Palace.

Chen Xiang laughed bitterly in his heart: "Alright, now another Prince Huo Yun has appeared. However, this guy seems to be smarter than the previous crown prince, it's the most suitable for him to come out and take advantage of us, of course ... He probably did not expect me to be here! "

Chen Xiang had already collected some venom and gave it to Su Meiyao and the others to study, to see if they could get their hands on the antidote. Right now, he was only using the first stage of Time Domain on the two girls, which would conserve more of his power for him, because he might need to make a move later.

"Oh oh oh, the Night lone wolf is also here, it's really a big fish! The previous Emperor Xue Wenbo of the Snow Cloud Imperial Country was also here, it was really lively. " Prince Huo Yun laughed out loud. "From today onwards, Snow Cloud Imperial Country is mine."

"Dream on!" Chen Xiang immediately released three Poison monkey s, and the Poison monkey immediately flew over.

It was just that Chen Xiang didn't think that he would fail this time. It had to be said that this Prince Huo Yun had some skill, after sensing the danger, the red armor on his body immediately burst into flames and caused the three Poison monkey s nearby to be pushed back.

Chen Xiang immediately summoned his Poison monkey back. The armor was very powerful, it released very strong flames, and if the Poison monkey went to attack again, it might be injured.

"Who's here!" Prince Huo Yun had already sensed that someone was in Xue Wenbo's direction.

After Chen Xiang appeared, he smiled faintly: "He's just a nobody!"

"It's you!" The few princes and idiotic princes shouted out, because they had seen Chen Xiang before and even passed all their resources to him. Now, they suddenly understood what happened, and were deceived!

"Just who are you?" At this moment, the Prince Huo Yun was extremely vigilant, because he did not have any experts at the peak of Aoshi Holy Stage with him. The strongest among them was only at the late stage of Aoshi Holy Stage.

The antidote wouldn't be that easy!

"I already said, he's just a nobody!" Chen Xiang sighed: "Looking at your looks, how can you not understand human speech? Snow Cloud Palace is ours now, I want to clean up the scene now, hurry up and get out of here, otherwise I will clean up the entire place with you. "

"Haha ..." When the Prince Huo Yun heard Chen Xiang's words, he immediately laughed out loud. "Who do you think you are? You are just a middle stage Aoshi Holy Stage and yet you dare to spout such nonsense. I think you are just bluffing, I really want to see how you are going to clean us up! "

Prince Huo Yun waved his hand, and the old man behind him suddenly rushed towards Chen Xiang, bringing up a burst of wind. In a flash, the old man's hand moved like a steel blade, directly slashing towards Chen Xiang's head, he actually wanted to hack Chen Xiang to death with his bare hands.

Chen Xiang was already at the peak of the middle stage of Aoshi Holy Stage, he was only half a step away from the late stage of Aoshi Holy Stage.

"Old Turtle, you've gone overboard!" Chen Xiang's attack was even faster, no one could see him move his hand at any time, all they could see was the old man's hand holding onto his blade. Chen Xiang's left hand had suddenly grabbed his wrist.

The old man was shocked, he wanted to use his leg to kick Chen Xiang, but his leg had already condensed a berserk energy, rushing out, releasing a sound.

But, when he stomped his foot, Chen Xiang had already struck out with his other hand, the Tao-creation's Incantation was completed inside his arm.

Chen Xiang's fist had already been thrown out, smashing right into the old man's chest. With a loud bang, the heat wave accompanied by lightning crashed in all directions, the crying and berserk vibrating power did not burst out, but completely poured into the old man's body.

[illegible]

The old man screamed as he was thrown away by Chen Xiang as if he was a piece of trash.

With just a single palm, he was able to beat up an old man who was at the late stage of Aoshi Holy Stage until his bones turned to mush. The old man was already at his last breath, if he wanted to restore his body, it would definitely take many years.

"This is how I clean up trash!" Chen Xiang clapped his hands and said: "Prince Huo Yun, if you know what's good for you, then hurry up and leave, I'm too lazy to make a move against you."

"You ..." Prince Huo Yun was furious. He, the dignified crown prince of the Fire Cloud Empire, was actually mocked by a nobody. How could he endure this? Furthermore, he had put in so much effort to support Yuan Lingyun. If he was to succeed, it would be even more impossible for him to leave, which would result in heavy losses for him.

Chapter 3410

"If you don't want to live, then kill yourself. I'm too lazy to attack something like you." The Prince Huo Yun said coldly: "Hurry up and go, I can allow you to bring the Night lone wolf and the others away!"

Chen Xiang's goal was the forbidden grounds inside the Snow Cloud Palace, and if he was going to succeed, how could he give up?

"It seems like you bunch of trash aren't willing to leave. I can only start and finish you all off." Chen Xiang said solemnly, he had already taken out his Six Realms mirrors.

"All three of you, attack together!" Prince Huo Yun shouted.

Right now, there were only three late stage Aoshi Holy Stage left. Prince Huo Yun felt that if the three of them were to join hands, they would be able to defeat Chen Xiang in no time.

The three elders immediately rushed towards Chen Xiang. Just as they charged over, Chen Xiang released the three invisible Poison monkey s.

The three elders also felt that something was approaching them quickly so they moved extremely quickly. At the same time they were shocked, they gave up on attacking Chen Xiang and immediately avoided the three Poison monkey s.

Chen Xiang immediately moved, rushing to the old man closest to him. He controlled the Six Realms mirrors, and used the mirror to face the old man, releasing the power of the killing array, the power was like a divine sword with killing intent that surged out from the mirror, directly striking the old man.

In just a split-second, the old man's entire body was covered in horrifying sword marks. There were also many bloody holes on his body. It was unknown whether or not the old man was able to get up.

When everyone saw how terrifying Chen Xiang's Six Realms mirrors was, their hearts were filled with fear. Chen Xiang's punch just now was extremely terrifying, it made an old man from Aoshi Holy Stage feel as though he was struck by mud, and now, with just a look at the mirror, it was able to make a late stage Aoshi Holy Stage Elder feel like being pierced by a hundred swords.

Chen Xiang's two elders were even easier to deal with. At this point, he had already made Qin Shuang and Long Xueyi ready to attack, because he was worried that the Prince Huo Yun would run away.

He repeatedly told Prince Huo Yun to scram, but Prince Huo Yun refused to scram. She still wanted to let the elders kill her, so he wouldn't give her the chance to do so.

Chen Xiang released the Six Realms mirrors, forming a domain and imprisoned the two elders who were near him.

These two old men were in the late stage of Aoshi Holy Stage, and their powers were still strong. Even though Chen Xiang had used the power of the Six Realms mirrors to imprison them, he could not hold on for long. But that was enough as long as it lasted for a moment, the three Poison monkey had already flashed over, scratched the two elders a few times, and injected the Drunk god magical poison into them, causing them to fall limply to the ground.

"Retreat!" Prince Huo Yun roared. He no longer rode on the remaining tiger soul beast. His armor was wreathed in flames as he used all his strength to rush towards the main gate of Snow Cloud Palace.

Although Prince Huo Yun wanted to fight with him, he realized that something was wrong and ran away immediately. This was not bad, but Chen Xiang would not give him the chance.

Qin Shuang had already exited the You Yao Mountain Villa. With the Purple Yang Excalibur in his hand, the power of ice and fire spread out, blocking the path of the Prince Huo Yun.

At the same time, Long Xueyi held the white longsword in her hand, her white skirt fluttering as she floated in the air.

The sword qi flew over. Some of them turned into raging flames, some flashed with lightning, some released frost, some erupted with vibrating power, and some even released astral winds that were like blades.

Long Xueyi's power was multi-attribute. She was a White Dragon and could replicate the power of various attributes!

Prince Huo Yun really did not expect that two girls would suddenly appear. One of them even went on a killing spree, catching the group of people he brought unprepared while the other one forcefully stopped him.

These two women were very beautiful, and also very powerful!

Especially Long Xueyi, who was actually able to resist the mysterious forbidden-level power and float in the air. Normally, only soul beasts could do this, but for Long Xueyi, who didn't have wings, to be able to fly as well, it was truly unimaginable.

Long Xueyi was a dragon, he could fly by himself, and he did not need wings.

With the addition of the three Poison monkey, they quickly exterminated the small fry Prince Huo Yun had brought with them. They were all at the early or middle stage of Aoshi Holy Stage, easily taken care of.

Right now, Chen Xiang, Long Xueyi, and the three Poison monkey were surrounding Prince Huo Yun, causing him to be unable to fly, he had no other choice but to leave. He regretted it now, because he did not want to leave when Chen Xiang was leaving, but it was too late.

"You can't kill me, or else you'll be in deep trouble after obtaining the Snow Cloud Imperial Country. Our Fire Cloud Empire will be irreconcilable with you." The Prince Huo Yun said.

The golden-masked man said from afar, "Don't be afraid of him! Furthermore, the fact that the Prince Huo Yun colluded with Yuan Lingyun to usurp the throne of a neighboring country is in itself his fault. The powers of the Fire Cloud Empire definitely wouldn't go to war with the Snow Cloud Imperial Country over this matter. "

If the Prince Huo Yun was killed, it would also be understandable. After all, he had gone to usurp the throne of another country, and there would definitely be many voices within the Fire Cloud Empire who would oppose the war, because this battle was only about face. If the war started, both sides would suffer, and it would affect the interests of the entire Fire Cloud Empire.

"It won't be like this. My royal father is the Fire Cloud Emperor. Once I die here, he will come and kill you all no matter what." Prince Huo Yun roared, he knew that he had caused a huge mess here and that he was killed, which dragged the entire Fire Cloud Empire into a war, so maybe his father would not do it, but no one would want to do it.

"That will be in the future!" Chen Xiang smiled faintly as he moved his Purple Yang Excalibur. All that was left in the air was an arc of purple light and the fresh blood that flew out.

Prince Huo Yun had already been killed by Qin Shuang with a single slash, but he actually did not even have the chance to resist.

The Prince Huo Yun was also in the late stage of Aoshi Holy Stage, but facing Chen Xiang's siege, he had no power to resist, and only wanted to use the Fire Cloud Empire to deter Chen Xiang.

Su Meiyao who was in You Yao Mountain Villa had already refined more than ten antidotes, she gave them to Chen Xiang.

Chen Xiang took out the Detoxification Pill and handed it over to the Night lone wolf and the others.

"This is the newly concocted antidote. Try to see if it has any effect." Chen Xiang said.

They had also seen the Night lone wolf, Chen Xiang had two powerful women with him, it was not strange for him to have a Alchemist hidden inside, it was just that the speed at which he concocted the antidote pill was just too fast.

The Queen and the group of princes were completely terrified. They had all seen what Chen Xiang had done just now, and it was highly likely that it would be their turn next!

"Old Xue, take care of these people properly!" Chen Xiang smiled at Xue Wenbo.

"Mm, the forbidden area is over there. You can go there yourself, it'll be easy to find it!" Xue Wenbo pointed in a direction.
