

Dan God 3501

[Chapter 3501](#)

"Those cyclones are actually Medicine soul?" Chen Xiang did not expect this, because he looked like he really wanted to breathe. %,

Relying on the high level of World Defying Stage Fierce Soul, it contained extremely powerful energy. After the Tao-creation's divine medicine was refined, it would become a Medicine soul, and Chen Xiang was able to accept that, but he never thought that the Medicine soul would actually be like that.

"After the Medicine soul was burnt and refined by your flames, it became like this. You don't have to find it strange." He Fengyuan said: "Right now, you have more important things to do. If you want to succeed in condensing the pellet, you will need a lot of time."

Chen Xiang felt that there shouldn't be any problems in using Fusion spell s. Other than that, he also planned to use derivation and Increase spell s, this would allow the quality of the pills that were refined to be even higher. If his abilities allowed it, he would definitely pursue a higher quality.

"Begin the derivation technique!" Chen Xiang was familiar with the method of derivation the crystal ball used.

However, the process was extremely slow. He felt that he could only use the derivation technique once. If he continued to use it, it would take more time and it would not be convenient to fuse them.

"I have already mastered the sixth stage of Fusion spell. The best state for me to fuse them is six." Chen Xiang decided to let the large crystal ball give birth to five small crystal balls.

The derivation took more than ten days of his time. Fortunately, he was inside the Time Domain, otherwise, he would not be able to refine much of it in one year.

"Next, I'm fusing!"

Chen Xiang was inscribing Fusion spell s on a large crystal ball and five small crystal balls.

"Xiao Ke'er, wait a moment, there might be movement." Chen Xiang said. When all the Medicine soul gathered together, they released a very strong power, and it was only because Feng Ke'er acted in time that he was able to turn the tide.

"I know, I'm always paying attention." Feng Ke'er said.

The speed at which the balls gathered was rather fast, contrary to Chen Xiang's expectations, it had actually fused together very quickly, and did not emit any sort of explosive energy.

"Actually, you don't have to worry about that. The energy of these essential medicines was already perfectly fused before. Using the derivation method, you only allowed them to give birth to Medicine crystal s that have the same energy, so there won't be much of a reaction when they are combined." Feng Ke'er said.

Chen Xiang heaved a sigh of relief and laughed: "Seems like I have already neared success!"

Following that, Chen Xiang began to compress the gigantic Medicine crystal. He wanted to compress it into a pill, which was an extremely arduous process.

"You have to be careful when you condense your final medicinal pill." He Fengyuan warned repeatedly, "I once heard from my father that when refining the Tao-creation's divine pellet, many of them failed in the process of condensing a pellet!"

"Oh? I have always felt that the Core Formation stage is the safest. Although it is a little difficult sometimes, it should not be a problem." Chen Xiang said.

"This is the Tao-creation Divine Pill." He Fengyuan said: "Just pay attention to a little bit."

Right now, Feng Ke'er was releasing a type of sealing force, combined with Chen Xiang, to gradually decrease the pressure on that group of Medicine crystal.

After going on for three days, Feng Ke'er suddenly shouted in shock.

Chen Xiang was so scared that his face turned white, because the Medicine crystal that was suppressed much smaller was shaking violently, unable to control itself, and unsure of what caused it, because it contained such a strong energy, both Chen Xiang and Feng Ke'er were extremely worried that it would explode.

"Activate the Six Realms mirrors's formation." Chen Xiang anxiously shouted.

Feng Ke'er immediately went to activate the Six Realms mirrors's array formation. At the same time, Chen Xiang threw a few pieces of Crystal emperor into the array formation, allowing the Six Realms mirrors to absorb the Crystal emperor's energy.

After the Six Realms mirrors had released the large formation, the huge crystal ball that had been frantically trembling was immediately suppressed.

"It was caused by the unstable energy." Feng Ke'er was very anxious just now.

He Fengyuan had already warned them before that they must be careful. As expected, something went wrong now, and it was fortunate that they could be controlled in time. Otherwise, the consequences would be unthinkable.

The crystal ball was still big and had not become a small pill yet, so Chen Xiang could only continue to make it smaller. Only by doing so could he get the highest quality, and eating it would have a huge effect on him.

In the following ten days, Chen Xiang and Feng Ke'er experienced the unstable state of the crystal ball everyday, and there were a few times where they almost exploded! It could be seen just how big it was. Even many experienced old Alchemist did not dare to come in this way.

This was also the reason why He Fengyuan had such a good impression of Chen Xiang.

"Tao-creation Divine Pill is just not easy to refine!" Chen Xiang saw that the pressure on the pellet was already very small, but he still did not dare relax. After going through more than ten unstable situations before, he was still on guard when concocting the pellet.

"It's a success!" Chen Xiang finally compressed the pill to the size of a standard pill, and he had to wait patiently for two hours for this pill to not be unstable.

Chen Xiang took out a shiny white pellet from the Tianchuang furnace. It looked like a white gem and was extremely beautiful.

"This should not be a Return-to-God Dan." Chen Xiang laughed: "Feng Yuanyuan, it's best if you come up with a name. After all, the pill formula is something you concocted."

"World Defying god-becoming Dan!" He Fengyuan said: "Quickly feed your Young girl Danling to see if they can evolve."

Chen Xiang immediately gave the painstakingly refined pill to Jiang Lisi.

After Jiang Lisi received it and did not eat it, she said with absolute certainty: "No matter how much we consume, it will not evolve."

"Why? "How can you be so sure!" Chen Xiang said.

"To be able to form such a pill is already beyond the scope of our cultivation ..." We are currently unable to absorb the energy contained within this pellet, and it will be hard for that energy to be regenerated. " Jiang Lisi was very sure.

"Alright, looks like I can only slowly refine it." Chen Xiang felt that the Young girl Danling's current cultivation was a little low, so he followed a lot of them. They would condense pellets or Crystal emperor everyday, but they did not manage to properly raise their own cultivation.

Chen Xiang asked Jiang Lisi to cultivate. Once Jiang Lisi had improved, he would be able to cultivate the twin life techniques with Jiang Sihua, while Su Meiyao's Young girl Danling, Su Xiao Yao, would be able to condense Crystal emperor with him.

The Crystal emperor still had a lot of use to Chen Xiang.

"I can only try the effects of this pill on myself." Chen Xiang was really looking forward to the effects of this pellet. If it was a Return-to-God Dan, it would need two hundred of them to breakthrough.

After Chen Xiang ate the World Defying god-becoming Dan, the energy that exploded outwards filled his body immediately, causing his body to swell up while the energy that poured in from the sky above the Divine Sense Sea was like an enormous waterfall falling from the nine heavens.

The sudden influx of vast energy caught Chen Xiang by surprise. He hurried to direct the energy and irrigate all of his World Defying holy soul s!

[Chapter 3502](#)

Chen Xiang never expected that there would be so much energy. After all, this was his first time refining the Tao-creation Divine Pellet, and he had even used many methods to do so.

"This is definitely not something that Return-to-God Dan can compare to." Chen Xiang had stabilized the situation inside the Divine Sense Sea, the Return-to-God Dan was only able to strengthen the peak of the Aoshi Holy Stage's Sacred Soul, that's all.

However, the World Defying god-becoming Dan he had just eaten could actually improve in all aspects. Chen Xiang felt that this pill, even after stepping into the World Defying Stage Divine Rank, would definitely have an effect.

After He Fengyuan finished describing the effects of the pill in detail, he was deeply satisfied. She herself was also looking forward to eating this pill.

Right now, Chen Xiang was in a rush to break through to save his master, so even if He Fengyuan really wanted to eat, she would not let Chen Xiang refine it for her at this time.

Chen Xiang's Time Domain continued to circulate silently. A first level Time Domain did not consume too much energy, it would automatically absorb the energy in Chen Xiang's body and circulate.

Chen Xiang needed a period of time to refine the energy inside the World Defying god-becoming Dan. If he did not use the Time Domain, he would waste a lot of time.

One month later, Chen Xiang had finally refined the pill's energy. At this moment, his body was radiating with a faint trace of great Arrogant Morale!

Chen Xiang had already clearly understood what kind of power a "Arrogant Morale" was. Entering, was just like the Tao-creation's divine medicine being refined, it was a kind of soul power!

"This is Arrogant Morale!" Chen Xiang released a strand of Arrogant Morale from his palm. Like a fiery-red mist, it floated above his palm.

Chen Xiang withdrew his Arrogant Morale and walked out of the secret room. He had spent more than two months inside the Time Domain and it had only been a little more than two days outside.

"Long Xuan should be learning the Tao-creation's incantation right now." Chen Xiang had already stepped into the World Defying Stage Divine Rank, adding the Six beasts in his body, he could be considered to have quite the strength, but to deal with the Peak of World Defying magic realm, it was still very difficult.

Chen Xiang came out to stretch his bones, then went to find Ling Yong to buy some medicinal ingredients before entering the secret room to refine the World Defying god-becoming Dan.

This time around, the refinement process was a bit shorter than before. Although he could complete it within a month, he could only refine one pill. Fortunately, the effect of this pill was very strong, and a single pill could bring a vast amount of energy.

Chen Xiang had already stepped into the World Defying Stage Divine Rank, so he only needed to use the second stage of Time Domain to refine pills. There was no pressure at all, and after refining thirty World Defying god-becoming Dan inside the Six Realms mirrors, even if thirty months had passed, it would only be one day outside!

"Thirty World Defying god-becoming Dan." Chen Xiang looked at the World Defying god-becoming Dan and took one pellet. He wanted to see what effect this pellet had on the early stage of World Defying Stage Divine Rank.

In just three days, he had completed it. This was mainly because he had made a breakthrough, and with his increase in various aspects, the rate at which he absorbed the energy was very fast.

"The effect has been reduced by quite a bit!" Chen Xiang frowned, he previously thought that he would be able to eat these kinds of pills and step into the middle stage of World Defying Stage Divine Rank, but now, he had to eat at least a hundred of them.

And he only had a hundred Giant flower, so he wouldn't be able to grow a large number in a short period of time.

Even his master Xiao Xianglin had to put in a lot of effort before being able to succeed. Xiang'er and Liu'er had long since stepped into the early stage of the World Defying Stage Divine Rank, but could not reach the middle stage for a long time.

"Forget it, increasing is increasing, but it's not that the effects are too little, I don't have enough Giant flower ..." I have to think of a way to plant more Giant flower. "

Chen Xiang's only option was to think of a way to buy Time Formation s to use.

Su Meiyao and the rest of the women were all at the peak of Aoshi Holy Stage now. The Holy Elixir condensed by the Young girl Danling had allowed them to reach the peak of Aoshi Holy Stage very early on.

"sister Meiyao, you guys eat the World Defying god-becoming Dan first to raise your cultivation. You guys enter the World Defying Stage Divine Rank first."

Chen Xiang still had twenty-nine World Defying god-becoming Dan, and those girls only had around ten in total.

Chen Xiang allowed He Fengyuan to enter the You Yao Mountain Villa, made them all stay in the same room, and then used a set of Time Domain on them.

Because there was an extra person who was using the Time Domain, Chen Xiang's consumption of energy was huge, but it did not stop him from strolling around.

Chen Xiang could only go and find Ling Yong now, because Song Longprofound was currently in closed-door training to learn the Tao-creation's Incantation so he couldn't wander around with him anymore.

"Old Ling, can you help me find the Time Formation" Like the one you gave me last time. " Chen Xiang said, he needed a large number of Giant flower.

"Speaking of which, what exactly are you doing using the Time Formation?" Ling Yong was extremely curious.

"Growing medicinal herbs!" Chen Xiang said.

Chen Xiang had already stepped into the World Defying Stage Divine Rank, and Ling Yong could feel it too. He guessed that Chen Xiang had only broken through so quickly after cultivating for a few thousand years.

Ling Yong's eyebrows twitched, because he knew that the cultivation process of Giant flower would take a long time, so he could only use Time Formation.

"I don't have that kind of flower that weighs a hundred catties." Chen Xiang said, because Ling Yong already knew that he was looking for Giant flower.

"Brother Shen, I'll be honest. Even if you can obtain that flower and refine that pill, it will be useless because the Ling family will not let you go." Ling Yong shook his head: Why do you have to go through all this trouble?

Ling Yong thought that Chen Xiang was secretly refining the Ling Family's Return-to-God Dan, because the Return-to-God Dan needed the Giant flower as a medicinal ingredient.

"Are you talking about the Return-to-God Dan?" Chen Xiang said: "What I am refining is not a Return-to-God Dan, it is another type of pill, but it is way better than that of a Return-to-God Dan! Old Ling, if you were to say that you can advance from the peak of Aoshi Holy Stage to the World Defying Stage Divine Rank after eating just one pill, what kind of price would you think this pill would fetch? "

If it was in the past, Ling Yong would definitely not agree with it. He thought Chen Xiang was joking, but when he saw Chen Xiang's confident expression, he believed that he was not spouting nonsense.

"Eating Return-to-God Dan requires a lot of time. Some people only need two hundred pills to break through, while others need three hundred, or even four hundred pills ... It has nothing to do with talent or anything like that. Back then, I took more than 500 pills before I succeeded. " Ling Yong sighed. Back then, he had to eat for many years before he could break through.

"Eat so much? He must have eaten for a very long time. If he has the time, he might even be able to endure until his breakthrough. " Chen Xiang shook his head and laughed.

"Isn't it so... Many people ate them for nothing, and wasted a lot of Crystal emperor s. " When Ling Yong thought back to it, he also felt extremely pained.

"If there really is a pill that can help one break through with just one bite, then no matter what, it should be at least two or three Tao-creation s." The price that Ling Yong was talking about was extremely conservative, this could even be higher.

[Chapter 3503](#)

Chen Xiang did not have many Tao-creation s, if he could get his hands on a group of Tao-creation Holy stone, it would be much easier to obtain Time Formation! Of course, if he were to sell it in large quantities, it would definitely attract a lot of attention.

"Old Ling, take one and see for yourself. You should be able to feel the power of this pill." Chen Xiang took out a World Defying god-becoming Dan and gave it to Ling Yong.

Although it was worth two or three Tao-creation s, Chen Xiang was willing to give it all to make Ling Yong believe it. If Ling Yong could confirm the effects of this pill, he would ask Ling Yong to help him sell it.

"Is this true?" Ling Yong's breathing quickened. He didn't really believe it, but he did not dare to doubt Chen Xiang at all.

Ling Yong took it, and after eating it, his face changed, because the energy that suddenly surged in him was simply too vast. Although he was already at the middle stage of the World Defying Stage Divine Rank, when he felt the energy, his heart would still palpitate with fear.

"How is it?" Chen Xiang laughed.

"Very strong!" Ling Yong said in a low voice: "Was it made with that flower?"

Chen Xiang nodded his head, "This is a secret, so don't spout nonsense!"

Ling Yong completely understood that the reason why Chen Xiang gave him the pellet to test it was to have him go out and sell it. This was of great benefit to himself, and was much better than the pitiful Return-to-God Dan that he had to wait for every month.

"Three Tao-creation Holy stone are not a problem." Ling Yong said.

"Help me sell ten of them. I'll give you two Tao-creation Holy stone. How about it?" Chen Xiang said.

"No problem!" In order to make Chen Xiang trust him, he even signed a blood contract with Chen Xiang. He didn't want to leak out this matter, and he would definitely not hide anything from Chen Xiang during the whole process of the transaction.

After that, Chen Xiang handed the ten World Defying god-becoming Dan s over to Ling Yong with extreme ease.

"If I eat it at the peak of Aoshi Holy Stage, it might take a month to be refined." Chen Xiang said: "Generally speaking, this kind of pill should at least have verified its effects before obtaining the Tao-creation's Holy stone, right?"

"Don't worry, the process will be quick!" This kind of pill can only be bought by the disciples of large families, and they have all bought it for important disciples, so they all have Time Formation s, so circulating it for one month does not consume much energy. " Ling Yong said: "Just wait here for a few days, I'll go look for a buyer."

Ling Yong was a person who specialized in business. He definitely had a wide range of connections, so Chen Xiang didn't need to worry.

"Xuan Fei, they haven't come out yet. Are you bored?" Chen Xiang asked.

"Don't be bored, there are so many fun things here." When Peng profoundfei was in You Yao Mountain Villa, all of the other girls had already eaten their World Defying god-becoming Dan and cultivated behind closed doors. Only Jiang Sihua and Jiang Sijing had not gone, because they could have made breakthroughs through their Twin Life Mysterious Techniques.

Chen Xiang looked at the large number of Blood devil shark in his Divine Sense Sea and said: "Xuan Fei, you, Xiang'er, Liu'er, can you help me catch some Blood devil shark? Then, I'll put it in a secret room in the Six Realms mirrors ... "

Chen Xiang wanted to use these Blood devil shark to feed Ah Hu. Although Ah Hu could eat pills, Chen Xiang felt that if Ah Hu were to fuse with these Blood devil shark, his body would become even stronger.

"No problem." Peng profoundfei also wanted to find something to do. As she had received the energy from her grandmother, she had entered the early stage of World Defying Stage Divine Rank and did not need to eat any pills.

Following that, Xiang'er, Yu'er and the three women, along with Peng profoundfei, continuously grabbed Blood devil shark s and entered them for Ah Hu to fuse with.

Chen Xiang had already stepped into the World Defying Stage Divine Rank at the moment, so he was relieved to have Ah Hu level up.

Ah Hu did not directly eat the Blood devil shark, but had directly fused it with his special type of fusion powers. Its fusion speed was extremely fast, and it was possible for him to fuse with a Blood devil shark in practically a short period of time.

Back then, Chen Xiang had caught a lot of Blood devil shark, he felt that it should be enough for Ah Hu to step into the World Defying Stage Divine Rank.

After a day had passed, the girls in the You Yao Mountain Villa had also spent a month inside the Time Domain. Other than He Fengyuan, all of them had successfully stepped into the World Defying Stage Divine Rank.

"Feng Yuan, eat another pill." Chen Xiang gave He Fengyuan another pill. The pill He Fengyuan had eaten before could only restore her damaged Divine Sense Sea, but now, she had recovered her cultivation and was at the peak of Aoshi Holy Stage.

Therefore, she needed to eat another pill!

He Fengyuan also did not expect herself to recover her cultivation so quickly and step into the World Defying Stage Divine Rank. She thought about it and was extremely excited, she felt that if she was still at the fifth floor of the World Defying Stage Soul River and still in that Heavenly Proud Imperial Palace, she would not know how long it would take for her to step into the World Defying Stage Divine Rank!

Chen Xiang had stayed in Ling Yong's living room in the Ling Family Building for two days. Now that He Fengyuan had also stepped into the World Defying Stage Divine Rank, he was even more confident than before.

The World Defying god-becoming Dan's pill formula was concocted by He Fengyuan herself, and it was extremely successful. Even she herself was very satisfied.

Ling Yong returned with a face full of smiles.

"How is it?" Chen Xiang asked anxiously.

"It went very smoothly and the buyers were very satisfied." Ling Yong laughed: "I told the buyers not to leak this information, they agreed and signed the blood contract."

"That's good then. If this were to be leaked out, it would be detrimental to both you and me." Chen Xiang nodded.

These buyers suddenly allowed their own genius disciples to enter the World Defying Stage Divine Rank. This was enough for them to boast for many years, so they were all very willing to try.

Ten pellets, each pellet was sold for three Tao-creation s, for a total of thirty pellets. Chen Xiang originally promised Ling Yong two, but he gave Ling Yong three pellets now, since he still had twenty-seven pellets.

To Ling Yong, this kind of cultivation level, a Tao-creation Holy stone was considered very expensive. If he did not have this opportunity, who knows how long it would take to obtain it.

Even if he were to sell the Time Formation, it was not always bought by people, and selling Return-to-God Dan s through selling medicinal ingredients would only earn him a small profit. At this moment, he was already blooming with joy.

"Now that I become a Tao-creation Holy stone, can someone help me get a Time Formation?" Chen Xiang asked: "Like the one I used last time ... There's no need for too much time. It's enough to change it for a hundred years every day.

The last time Chen Xiang had entered, he had used the Six Realms mirrors to replicate it, but it was not impossible for him to replicate it. It was just that it would take a long time because the Time Formation used a large number of Tao-creation Incantation and would need at least a few months to replicate it. At that time, he only had ten days.

"I can take out a total of thirty Tao-creation Holy stone s." Chen Xiang added.

"I can help you ask around, but our Ling family did not sell it, so the other families definitely have it ..." Time Formation is very expensive, and it is even in the form of an array disc. Maybe thirty Tao-creation s are not enough. " Ling Yong said.

[Chapter 3504](#)

For the sake of time, Chen Xiang felt that it wasn't a big deal to pay more Tao-creation Holy stone.

"Yes, you go and ask first, I will go back to refine pills." Chen Xiang said. Originally, he thought that he had earned quite a few Tao-creation Holy stone s, but if he wanted to use them to buy Time array s, it was simply not enough.

Returning to the tavern, Chen Xiang saw that Song Longprofound's room was empty. He walked in and discovered that Song Longprofound had left a note saying that he was going back to his clan for important matters.

Chen Xiang walked into the secret room and sighed. His Time Domain had never been able to break through, it could only be the Triple time field, and that was his limit. If he wanted to break through, he could only control the Time Curse.

"There should be a few people here who can use the Time Curse." Feng Ke'er said: "The time incantation is the seventh stage of the Tao-creation's Incantation, then it's not easy to learn."

Chen Xiang felt that even if he used all his strength, he wouldn't be able to master the Time Curse within a year. For someone like him who didn't have the talent to learn Tao-creation's Curses, learning the Tao-creation's Curses was a gradual process. He could only take it one step at a time.

"Right now, I can only continue refining World Defying god-becoming Dan!" Chen Xiang only had a total of a hundred Giant flower, and he had already refined more than thirty of them.

"This place controls a lot of precious Tao-creation Divine Pills." He Fengyuan said: "That Ling Yong basically did not dare to mention the word 'Giant flower'."

"Yes, if it wasn't for Xuan Fei obtaining the Giant flower, I probably wouldn't have any leads even now." Chen Xiang nodded his head, he had originally planned to buy pills that could help the World Defying Stage Divine Rank break through quickly, but when he thought of this problem, he felt that even if he knew the recipe, without the ingredients, it would still be difficult to refine.

"From the effects of the World Defying god-becoming Dan, I can let you step into the middle stage of World Defying Stage Divine Rank, but you need to refine more! I need a large number of Giant flower." He Fengyuan said: "Now that Mei Jing Sisters and the others have stepped into the World Defying Stage Divine Rank, the speed at which the medicinal herbs are ripened is much faster."

Chen Xiang had just remembered that after the Mei Jing Sisters and the others broke through, the speed at which they grew medicinal ingredients would be even faster, especially for Jiang Simei. He had stayed in the Time Formation for five thousand years and had learned some Tao-creation's incantations.

Right now, Jiang Sijing was training the Twin Life Mysterious Techniques with Jiang Simei, and after they finished, Jiang Sijing would be the same as him.

Chen Xiang used a second stage Time Formation on them and waited for half a day before they were done.

Chen Xiang asked the Mei Jing Sisters to come out, and then gave him a Giant flower, and three other medicinal ingredients. They were all used to refine World Defying god-becoming Dan.

"Feng Yuan, you come out too!" Chen Xiang also let He Fengyuan come out from the You Yao Mountain Villa. She was no longer in the Six Realms mirrors but was growing medicinal herbs with the Mei Jing Sisters.

"What are you going to do?" He Fengyuan saw that Chen Xiang was extremely excited and was filled with suspicions.

"Beautiful, Sijing. I remember that you two had the ability to fuse several medicinal ingredients together." Chen Xiang said. This was something that Mei Jing Sisters did when they were bored.

They asked the characteristics of several different kinds of plants and trees to be combined together, and then they came up with a medicinal herb with many different characteristics.

"Yes." Jiang Simei nodded.

"You can try and see if you can fuse these medicinal herbs." Chen Xiang pushed the Giant flower and three types of supplementary medicine over.

At this moment, He Fengyuan also felt that it was extremely mystical. She could only see the reaction after fusing a medicinal herb with a medicinal herb, but she had never thought of combining the medicinal herb with a new kind of medicinal herb.

It was unknown what Jiang Simei and Jiang Simei were doing as they shot out several beams of light from between their eyebrows into the medicinal herbs.

"It may take a little time. Furthermore, we don't seem to be able to find the Medicine souls for these medicinal ingredients. " Jiang Sijing said.

"Feng Yuan, try working together with them. If I succeed, it might make me concoct pills faster. Moreover, I can also add in the characteristics of other medicinal herbs, such as those that are easy to grow." Chen Xiang said.

"Alright!" He Fengyuan was extremely interested in this kind of thing and nodded immediately.

After the three of them entered the You Yao Mountain Villa, they began.

Chen Xiang then released his Time Domain and continued refining the World Defying god-becoming Dan.

A day later, he exited the Time Domain and had already successfully refined thirty pills. After that, he arrived at Ling Yong's counter.

"It's been over a month. I wonder how Master is doing now." Chen Xiang didn't have any news about her, and was extremely worried.

After waiting for half a day, Ling Yong returned.

"Any news?" Chen Xiang asked.

"No, Time Formation is already very difficult to arrange, it is the clan's Incantation Master used many years to complete it, and the convenient Time array is even more difficult to refine, no one is willing to give it to you, even if you have it, the price is not something you can afford." Ling Yong shook his head.

Chen Xiang sighed helplessly, he could still use the Triple time field, but with it, there would be no need for him to waste any more effort. Using it to make Jiang Simei use the World Defying Stage Divine Rank, had already consumed a lot of his energy.

His Time Domain's biggest weakness was that the higher his cultivation was in the domain, the greater the consumption he would have. Therefore, when he used the Triple time field, he could at most only enter one person.

"Time array is the most beloved of Alchemist and Refiner ... Thus, they are extremely rare, and are all controlled by a large power. " Ling Yong said: "I actually heard that on the mountain of Tao-creation, there is some Alchemist Competition. If you win, you will receive the Time array's rewards."

Chen Xiang's heart skipped a beat and asked: How can I participate?

"I am not sure right now, but you can go to the Tao-creation's Wood Mountain and ask." Ling Yong said.

"Where is the Tao-creation's Wood Mountain?" Chen Xiang was currently on one of the Tao-creation Mountain, which was very huge, there were many families there.

"This is the Tao-creation's Wood Mountain ... The so-called 'top area' means a higher place. I have never been there either. " Ling Yong said: "I heard from the clan elders that in order to reach that place, one would need at least a month."

Chen Xiang felt that he didn't need a month because he had Ah Hu and Ah Hu also knew how to use the power of space.

"Alright!" Chen Xiang had already decided to go. Once he obtained a good Time array, he would be able to buy a lot of time, which would allow him to steadily improve.

Chen Xiang immediately moved and rushed towards the higher grounds of Tao-creation Mountain.

Ah Hu's flying altitude was limited, once he reached a certain height he would be unable to go up, he could only run up the mountain. Fortunately, the mountain was very huge, so it wasn't too steep.

Ah Hu traveled through space and space at an extremely fast speed. As long as he didn't meet a strong opponent, he wouldn't be able to catch up to them.

"Why are there so many Blood devil shark s? It's not for nothing!" Seeing how much Ah Hu had improved, Chen Xiang was very pleased in his heart.

[Chapter 3505](#)

Chen Xiang had met a Wandering Old Man before, and from that place, he found out about the matters of the Tao-creation Mountain.

This mountain of wood on the Tao-creation was called Wood Mountain Sect, and was the strongest in this Tao-creation Mountain. It also accepted disciples from other countries, but the requirements towards disciples were very harsh, sometimes even those with talent might not be able to enter.

Originally, it would have only been a month's journey but with Ah Hu's mad dash, it only took him seven or eight days. Chen Xiang had already arrived at the city outside of Wood Mountain Sect.

The majority of the people here came from the various great clans and sects in the mountain range of Tao-creation. The reason they were here, was also to become the disciples of the Wood Mountain Sect.

As long as a family member was able to join the Wood Mountain Sect, it would be an extremely glorious matter.

As Chen Xiang walked on the streets, he realized that there were quite a few of them in the later stages of Aoshi Holy Stage, as well as some of the World Defying Stage Divine Rank s, but not many of them.

"The peak Aoshi Holy Stage s here should all be the genius disciples from the clan, right?" Chen Xiang saw a few teenagers who were all at the peak of Aoshi Holy Stage.

"If you were to sell the World Defying god-becoming Dan here, you would definitely sell very quickly." He Fengyuan said.

After Chen Xiang asked around, he soon found out that the Pill Refining Competition was the victor. The prize was indeed a Time array which would turn into a hundred year old Time Formation in one day.

This was already pretty good for Chen Xiang. He knew that activating this kind of formation would consume a large amount of Crystal emperor.

"To actually need ten Tao-creation Holy stone to participate in the competition, it's really a scam!" Chen Xiang secretly curled his lips. If there were a lot of people participating, then it would not be a loss for

the Wood Mountain Sect. If there were a hundred people participating, then just taking the Tao-creation Holy stone would make a thousand.

Chen Xiang arrived at the entrance of the Wood Mountain Sect. There was a small hut there.

The person in charge of receiving them was an old man. He sized up Chen Xiang and did not say anything as he let Chen Xiang take out ten Tao-creation Holy stone.

After Chen Xiang took out the Tao-creation Holy stone, he received a jade tablet. The old man had him drip blood on it, this could prove that he was a participant.

"Twenty-fifth?" "So few people?" Chen Xiang looked at his own jade tablet, and was a little surprised. He thought that there would be a lot of people participating.

"This time, it's a lot. In the past, it was even less." The old man curled his lips: "Young man, don't think that just by participating you can get an award. Even if the other Alchemists are all idiots and you don't have any real ability, you won't be able to last until the end."

"I know." Chen Xiang only wanted to give it a try.

"It will start in three days ... These kinds of competitions are always held once every month." The old man laughed: "It's just that this time's registration fee has been reduced, and Time array are the best, so there will be more people participating."

had never heard of it before.

Chen Xiang took his jade tablet and found an inn to rest.

"How are you doing?" Chen Xiang asked Jiang Sijing and the others.

"There are some results. Although it hasn't been completely successful, this method is still feasible." Jiang Simei said: "It's a good thing we have Feng Yuan's help, which is why we are able to make such progress."

"That's good. Whether or not we can step into the middle stage of the World Defying Stage Divine Rank, all depends on this pill." Chen Xiang entered the Time Domain. Right now he was learning Fusion spell, he planned to take these three days to study hard.

Three days had passed, and when Chen Xiang came out of the Time Domain, he only had a little bit of improvement in learning Fusion spell. He felt that he could soon grasp the seventh Fusion spell.

He thought that there wouldn't be many people left, but when he entered the Wood Mountain Sect, he realized that there were about two hundred people lined up together.

The competition venue was in a large plaza, and there were many stairs around the plaza. Most of the seats were filled, and most of them were disciples of the Wood Mountain Sect, while the rest were there to support the participants.

"This time, we have truly tricked Dad. We registered early, and wanted ten Tao-creation's Holy stone, but we actually only needed five people to register later on." A middle-aged man cursed in a low voice.

"That's right! Furthermore, there are still dozens of Wood Mountain Sect disciples participating. This time, we probably don't have any chances of winning. "

"This Wood Mountain Sect is so unlucky. If their disciples participate, we definitely won't have any chance of winning."

"It seems like this competition is originally for their Wood Mountain Sect's disciples. However, in order to earn some Tao-creation's Holy stone s, we are truly a group of idiots."

"He's too greedy, coveting that Time array of his."

When Chen Xiang heard the complaints of the crowd, he did not feel well. The main reason was that he had signed up with ten Tao-creation s and only used five from behind.

"This Wood Mountain Sect, is really tricked." Chen Xiang could not help but ask.

"If you feel like it's a scam, you can get lost now." This was a disciple of the Wood Mountain Sect, and all of them wore the same clothes.

"If you give me back the ten Tao-creation Holy stone, I'll leave immediately." Chen Xiang snorted.

"Humph, you're thinking too highly of yourself." The azure-robed man laughed coldly.

"So why don't you Wood Mountain Sect people complain? You black-hearted bastards. " An old man could not bear to watch any longer and shouted angrily.

"All of you shut up, you bunch of trash. Weren't you guys here because of greed?" The disciples of the Wood Mountain Sect all scolded.

"You despicable fellows, if you had explained this earlier, who would have come to participate?" A middle aged man and a Wood Mountain Sect disciple started cursing at each other.

"You bunch of weaklings, are you afraid? I knew you were trash." The disciples of the Wood Mountain Sect laughed in ridicule.

"Quiet!" An old man said in a deep voice.

Chen Xiang and the rest of the people who came to participate could only hold back their anger. Those who came to participate, were all outstanding Alchemist.

On the other hand, the disciples of the Wood Mountain Sect looked at Chen Xiang and the others proudly.

"I know that those who are participating in the competition have some complaints in their heart. We don't want to see anything like this happen. It's mainly because of some special circumstances that changed the rules ... In order to compensate you, we will increase the reward. " The old man said loudly: "As long as you can get first place, not only can you obtain Time array s, you can also obtain one of the Tao-creation's Sacred Crystals!"

The Tao-creation's Holy Crystal!

When everyone heard this, their hearts thumped wildly, because according to the legends, only one thousand Tao-creation Holy stone could be exchanged for a single Tao-creation Holy Crystal. There might not even be anyone willing to exchange for one, so it could be seen how expensive the Tao-creation's Holy Crystals were.

"It's just a pie." Someone snorted in a low voice, because the disciples of the Wood Mountain Sect were all very strong.

"Everyone, don't worry. The disciples of the Wood Mountain Sect are all young Alchemist, you should all be able to tell that the reason they are participating is just to gain experience." The old man said, "When all of you are participating in the Pill Refining Competition, you don't need to take this to heart."

Chen Xiang swept his eyes across the group of Wood Mountain Sect disciples. They were indeed a group of young people full of vigor, but he could still see that there were a few that were extremely calm.

[Chapter 3506](#)

Because they had the Tao-creation Divine Crystal as a reward, their anger had dissipated by quite a bit.

"Alright, we can start the match now." The old man said, "Now, we will begin the first round. We will determine the medicinal properties of the pills!"

"It means eating a pill and then identifying the medicinal ingredients used to concoct the pill." The old man waved his hand and asked for people to take out many large wooden boxes.

The old man opened a wooden chest and said, "There are a total of thirty types of medicinal ingredients in this wooden chest, and the pills for you guys will all require five types of medicinal ingredients. As long as you identify at least three types, you will pass the first round."

The old man waved his hand, and over 170 small rooms appeared behind him.

"All of you, wait in the small room for your selection. You just need to put the ingredients in a jade box and hand it over to our old man for inspection." The old man said, "You only have two hours. Now, I will give you a pill."

All of the participants received an Inferior Grade Tao-creation Divine Pill.

Chen Xiang brought a big box into the small room.

"We'll definitely pass the first round!" Chen Xiang laughed and said, because with He Fengyuan here, He Fengyuan's strongest ability would be to eat a pill, and then he would know what kind of medicinal ingredients the pill was made from.

Chen Xiang gave He Fengyuan the unknown low rank Tao-creation Divine Pellet.

After He Fengyuan ate it, after about an hour, he said, "The five types of medicinal ingredients that are needed, are all fruits ... It was called the Mysterious Stone Fruit! Five different Profound Stone Fruits had similar effects, but after fusing them, their effects would increase by more than ten times ... These five Profound Stone Fruits are mainly separated by color, and their colors are all different. "

Chen Xiang immediately rummaged through the big box. There were only 30 types of herbs, it was too easy to find 5 stone like fruits inside.

However, even after Chen Xiang searched thoroughly, he only found three.

"Oh yeah, Feng Yuan, what's the use of this pill?" Chen Xiang asked.

"The function is to suddenly make your muscles stronger. It has a certain degree of defense and can last for around two hours." He Fengyuan said: "They only put in three medicinal herbs, probably because they do not want others to know the specific pill formulas."

This test was very difficult for many people, because after they ate a pill, they knew the effects of this pill and could also sense a little bit of the characteristics of the medicinal ingredients. However, they had to rely on that tiny bit of feeling to guess which ones were needed from the thirty different types of medicinal ingredients, which was a very harsh test for the Alchemist.

Chen Xiang placed the three stones into the jade box and walked out of the small house. At this moment, he saw that many disciples of the Wood Mountain Sect had already come out.

As for the other contestants, a small portion of them also came out.

After two hours, even if they couldn't identify him, they would still have to guess. In the end, they could only blindly guess.

"Good, now open your jade boxes." The old man said.

After opening the jade case, Chen Xiang swept his eyes across the others. What made him a little surprised was that among the disciples of the Wood Mountain Sect, more than ten of them were wrong, and in the other jade boxes, there were three stone-like Profound Stone Fruits.

And among the foreign contestants, there were only thirty people who could tell the difference. This was not easy either; it was clear that they were very skilled.

Over a hundred people had signed up for the first round, and only thirty of them were left. The disciples of Wood Mountain Sect were also left with thirty or so.

Those people who had registered with the Tao-creation Holy stone and been eliminated, left while cursing loudly. They couldn't do anything as their skills were still lacking.

"Good, good for both of you! I believe that all of you should be aware of the two medicinal ingredients that are needed to refine this kind of medicinal pill. Yes, we did not place the other two Profound Stone Fruits in that box. " Chen Xiang did not know what the old man was doing, but the competition rules were still fair, because the disciples of the Wood Mountain Sect did not know.

"And next, we will give you the remaining Profound Stone Fruits so that you can refine them into pills. The thirty people with the highest quality will not be eliminated." The old man said.

A few people walked up and placed two Profound Stone Fruits into the jade box. Right now, the five Profound Stone Fruits in the jade box were all of different colors.

Chen Xiang looked carefully, and noticed that there was a big problem with the two profound stone fruits that he had just put in.

"All of you will enter a Time Formation to refine pills together. You only have a month's time." The old man said.

In the middle of the plaza, a Time array appeared. It had become extremely large, and there were over seventy competitors, but it was not crowded.

"It's only been one month inside the Time Formation and two hours outside. Let's begin now." As the old man's voice fell, the Time Formation opened. In the area enveloped by the spatial formation, there was a distorted barrier, and the time inside was different from the time outside. From the outside, one could not see what was happening inside.

"Those guys who came to participate in the competition really overestimated their own abilities. They definitely didn't know that among the disciples of our Wood Mountain Sect, there were a few who were the disciples of the great grandmasters."

"In the end, the Tao-creation's Sacred Crystals and Time array were still our Wood Mountain Sect's disciples."

"They are able to pass the first round. They do have some ability."

"So what? They will definitely not be able to pass the next round. As we saw earlier, the two Profound Stone Fruits that were given to us afterwards are of poor quality, and only our Wood Mountain Sect's Creation Art can raise the quality of those medicinal herbs. "

While Chen Xiang was inside the Time Formation, he heard a few young disciples from Wood Mountain Sect whispering to each other. He was secretly angered in his heart, he previously thought that the Wood Mountain Sect was more fair.

Now he knew, that was only done on purpose. The Wood Mountain Sect was still quite evil, otherwise they would not have done what they had done before. The temporary rule, to let so many disciples of the Wood Mountain Sect participate!

"I must beat these guys!" Chen Xiang thought: "What kind of Wood Creation Art do they have? It sounds pretty good, but it should be very beneficial for growing medicinal herbs. I wonder if we can get it for Mei Jing Sisters and the rest to use!"

Chen Xiang carefully examined the two Profound Stone Fruits. They looked bright on the surface, but there was very little vitality contained within them. They had been used in a unique way, absorbing all the energy within, causing the quality of the two medicinal ingredients to drop by a lot.

"Meimei, you two stop immediately." Chen Xiang said to Jiang Sijing and the others, then he sent the two Profound Stone Fruits to them, and used the Time Domain on them, allowing them to restore the original quality of the two Profound Stone Fruits.

This was a piece of cake for Mei Jing Sisters. Chen Xiang executed it using the second stage of Time Domain, and they only used one day to complete it.

After obtaining a perfect Profound Stone Fruit, Chen Xiang began to refine it. The five Profound Stone Fruits were relatively easy to refine because they had the same characteristics.

[Chapter 3507](#)

The Profound Stone Divine Pill was relatively easy for Chen Xiang to refine, and was much easier than the World Defying god-becoming Dan he had refined before. When he was refining the World Defying god-becoming Dan, he couldn't have completed it successfully without Feng Ke'er's help.

But now, when he was refining the Profound Stone Divine Core, the five Profound Stone Fruits had quickly fused together. Moreover, after their fusion, they did not emit any sort of explosive energy, unlike the World Defying god-becoming Dan he refined previously, they did not nearly explode. "..."

"Do you want to use the derivation method to refine it?" Feng Ke'er asked.

In order to improve its quality, I can feel that the Wood Mountain Sect must have cheated severely. If I don't go all out, I might not be able to last until the end, so I can't lose out on those ten Tao-creation Holy stone. "

When Chen Xiang signed up for the competition, he used ten Tao-creation Holy stone s.

After the Profound Stone Fruit melted, it became a Medicine soul. A few Medicine soul fused together to form a crystal. It had only been five days, and it was already much faster than when he was refining the World Defying god-becoming Dan.

Next, he started using the derivation method to create five small crystal balls. After that, he engraved the Fusion spell on them and began the fusion process.

The process was very smooth, and the pressure was reduced.

During the process, Chen Xiang had Feng Ke'er help. This would be faster and more stable.

The participants had already been in the Time Formation for fifteen days, Chen Xiang did not know how the others were doing, in short, he was about to succeed in condensing the pellet, and had already begun to inscribe the Increase spell.

"I wonder how Wood Mountain Sect disciples refine high quality pills." Chen Xiang was worried that the Wood Mountain Sect would intervene.

After he finished inscribing the Increase spell, Chen Xiang walked out of the Time Formation. He realized that there were already many disciples of the Wood Mountain Sect present, and a jade box was placed in front of them.

Inside the jade box that was opened, there was a Mysterious Stone Divine Pill.

Chen Xiang carefully observed around him. Their profound stones and divine pellets had only just been made, it was very easy to tell that they were all of good quality.

But Chen Xiang knew that two of the Profound Stone Fruits had been tampered with. If he could not handle the two Profound Stone Fruits properly, the refined Profound Stone Deity Pellet would not be comparable to the ones refined by the Wood Mountain Sect disciples, because the disciples of the

Wood Mountain Sect had a kind of divine technique which could raise the quality of the medicinal ingredients.

"Now, let's begin the test!" An old man shouted. He walked up with an artifact and began to test it one by one.

The first to start the test was for the Wood Mountain Sect disciples.

"300 points!" "Not bad, not bad!"

"Three hundred and twenty."

"Three hundred and ten."

"Three hundred and thirty!"

As the old man was testing, he was reporting the numbers. Everyone could see the numbers displayed on his testing equipment.

The highest quality the disciples of the Wood Mountain Sect possessed was three hundred and seventy percent. Basically, all of them were over three hundred, which made those who were participating feel a lot of pressure.

"Why are their qualities so high? This is obviously impossible! "

"That's right, I used my own equipment to test it. It's only a little over 200!"

"Could it be that their Profound Stone Fruits are all good?"

"Anyway, when I refined them, those two Profound Stone Fruits lowered their quality by a lot. If those two Profound Stone Fruits were good, then my quality would be more than three hundred!"

The outsiders that were participating in the competition were all discussing in a low voice, feeling unconvinced in their hearts. This made the disciples of the Wood Mountain Sect extremely proud, because they could be sure that those that were added to the competition would all be eliminated.

It was Chen Xiang's turn.

"Six hundred and thirty!" The old man shouted in disbelief.

Chen Xiang was very confident in the pill he had concocted. After all, he had used a Stage Nine Increase spell.

When the disciples of the Wood Mountain Sect heard this, their faces were all filled with disbelief.

"Elder, how is this possible? Is there a problem with your equipment? "

"That's right. Looking at his appearance, he's just a poor boy. How could he have refined such a high quality pill?"

"Something must have gone wrong!"

The disciples of the Wood Mountain Sect shouted. They could not accept that such a lowly kid was actually so much stronger than them.

Those people that were participating in the competition all had a whole new level of respect for Chen Xiang!

"It's absolutely true. There won't be any problems with my equipment ..." The reason why the quality of these pellets is so high is mainly because there are nine Increase spell inside. " The old man looked carefully at Chen Xiang refining the Mysterious Stone Divine Pellet, and exclaimed in shock.

After the people watching the competition heard this, they all exclaimed in surprise. To actually be able to inscribe nine Increase spell s to enter while refining pills, not everyone would have a chance to learn all of them.

Even if there was a chance, it wouldn't be that easy to grasp!

The disciples of the Wood Mountain Sect all shut their mouths, because even amongst them, the most they could grasp was three Increase spell, which was far inferior to Chen Xiang. They could only feel jealousy in their hearts.

"Twenty-fifth, what's your name?" the elder asked.

"Chen Xiang!" There was no need to even mention their names, when they signed up, they were only given a number plate. Chen Xiang was number 25.

The old man nodded. Their Wood Mountain Sect welcomes talented disciples.

The pellets they refined were at most two hundred and twenty, but they were still pretty good because they had no way to improve the quality of the two Profound Stone Fruits, but they were about the same as the disciples of the Wood Mountain Sect.

If they had all used Profound Stone Fruits of the same good quality, then it was possible that many Wood Mountain Sect s would have been eliminated.

In the end, the quality test was done, and only Chen Xiang, the foreigner, could still stay. The rest were all eliminated, and the Wood Mountain Sect disciples were also eliminated by a few.

There were only thirty people left, and twenty-nine of them were disciples of the Wood Mountain Sect s. Only Chen Xiang was an outsider.

"The Alchemist in this place are quite good as a whole." Although they were all eliminated, all of them had real abilities. With one look, one could tell that they were the pillars of a power, but facing such a huge being like the Wood Mountain Sect, they could not say anything. At most, they could only complain a little.

The participating Wood Mountain Sect disciples all felt very uncomfortable in their hearts, because in the end, the ones that remained were not their own Wood Mountain Sect disciples, but an outsider, and they were all very strong.

"For the next third round, you will all have to refine ten identical pellets, and then sell them on the spot. Within a set amount of time, the one who sells the most Tao-creation Holy stone will be the final winner." The old man began to announce the rules for the final round.

Although Chen Xiang was very strong, the disciples of the Wood Mountain Sect did not think that Chen Xiang would necessarily win in this round, because their Wood Mountain Sect's pills were even more attractive.

"According to the time of a single pill, I'll give you ten months ..." Of course it's inside the Time Formation. " The old man smiled. "We won't have to wait for too long outside before we can see the results."

[Chapter 3508](#)

Chen Xiang felt that the difficulty wasn't too high, but he was worried that the Wood Mountain Sect would cheat. After all, there were outsiders who won, and the Wood Mountain Sect had to give him a Time array and a piece of Tao-creation's Holy Crystal.

"Excuse me, but how can I be sure that all the pills will be refined by myself?" Chen Xiang asked: "If there are people who take out pills refined by their own elders to sell, won't they win for sure?"

Most of them were outsiders, although they had lost, but there was still Chen Xiang who was an outsider present, and his strength was not bad. They all hoped that Chen Xiang could get first place, this would make them feel better.

"What do you mean? Do you really think that our Wood Mountain Sect would cheat?" A disciple of the Wood Mountain Sect shouted angrily at Chen Xiang.

"When you were refining the Mysterious Stone divine pellet, you gave me the two Mysterious Stone Fruits. Both of them were of poor quality ... But the divine abilities of your Wood Mountain Sect s can raise the quality of the medicinal herbs ... Furthermore, you suddenly allowed the disciples of the Wood Mountain Sect to join us earlier, so I am not at ease at all in this last round. " Chen Xiang did not even look at the disciple who was jeering at him, which made that disciple very angry.

Being able to become the disciple of the Wood Mountain Sect was an extremely glorious thing, but Chen Xiang did not even glance at him.

Alchemist who were just eliminated heard Chen Xiang's words and could not help but scold him in a low voice.

This is a test for the Alchemist. I think it's not a big deal. "" Okay. An old man said, "Since you don't trust this final hurdle, what do you think we should do?"

"Of course it is to swear a blood oath. The pills for the last stage are not made during the competition. They will all be devoured by the blood oath." Chen Xiang said: "This is a very simple matter."

"Alright, as you wish!" The old man agreeing to Chen Xiang's request was a very simple matter. If he did not agree, he would not be convinced by the masses.

After that, Chen Xiang and the disciples of the Wood Mountain Sect swore a blood oath together, causing the curses of many to fade because the matter of refining the Profound Stone Divine Pellet previously had caused many of the eliminated Alchemist s to be unwilling to accept it.

The third round of the competition had begun. Chen Xiang and the disciples of the Wood Mountain Sect entered a Time Formation and started to refine pills.

The old man said, "The victor of the third round needs to be judged by everyone. The result will be more fair!"

There were many powerhouses present who were watching. They had all secretly planned that if it was possible at that time, they would definitely let Chen Xiang win.

"If you want to participate in the third round's assessment, you must first prepare ten Tao-creation's Holy stone ... Or more. " The old man said, "Because at that time, you will have to buy the pill they just refined... "Therefore, if we were to help one of them win, we must think clearly about whether the pills that you have bought will be of any use."

The person who wanted to help Chen Xiang just now had already left. If it was said that many Tao-creation Holy stone would buy some useless things, then that would be a huge loss.

"Alright, then everyone will begin registering ..." "If you're not satisfied with the pills, you don't need to buy them." The old man said.

The judge of the third round, was who had more pills, and although the people here were resentful towards Wood Mountain Sect, but at that time they would be able to buy a good Tao-creation Divine Pill, they would be more than happy to do so.

"At that time, each of you can only spend a maximum of ten Tao-creation s. This is to prevent cheating and there are no members of our Wood Mountain Sect s among you so everyone can be at ease. This will definitely be very fair." The elder smiled and said, "I believe everyone here should hope to be able to purchase a valuable and useful pill. When the time comes, all of you should act a bit faster."

There were a total of fifty people who signed up for the pill buying competition, and all of them were big shots of their own power. For them to be able to purchase pills with ten Tao-creation Holy stone, it meant that when the time came, many of the thirty participants would not be able to sell their pills.

What Chen Xiang had refined were obviously World Defying god-becoming Dan s inside the Time Formation. He had observed just now that the big shots of the forces who were watching the competition had brought a few late stage or peak Aoshi Holy Stage s to watch, and World Defying god-becoming Dan s were extremely useful to them as they could shorten the time needed for them to step into the World Defying Stage Divine Rank.

Chen Xiang had refined quite a few World Defying god-becoming Dan previously, but refining ten pellets did not give him much pressure. Ten months had passed, and he and the other disciples of the Wood Mountain Sect had all come out of the Time Formation.

"Alright, fifty friends on the scene, you are the buyers. You must sell them your pills. You can set the price yourselves." The old man shouted, "Just follow the sequence of messages and sell your pills."

A man from the Wood Mountain Sect anxiously shouted: "My pill is called the Green Wood Spirit Gathering Pellet. After consuming it, anyone from the middle stage of the World Defying Stage Divine Rank will immediately recover their energy when they get tired, they only need five Tao-creation s!"

Everyone was secretly thinking, if he wants five Tao-creation Holy stone like this to break through the pellet, why don't you go snatch it?

The fifty buyers were indifferent because the pill was of little use to them.

"Three Tao-creation Holy stone!" The man panicked and shouted again, cursing his master in his heart, teaching him how to refine such a useless pill.

None of the fifty buyers had any thoughts. They didn't even look at him.

It was the second person's turn.

"My name is the God Creation Pellet. After consuming the early and middle stages of the World Defying Stage Divine Rank, I can only increase my cultivation by a limited amount." A short disciple from Wood Mountain Sect said with a complacent expression, "Roughly just eating five hundred of these pellets will allow you to advance from the early stage to the middle stage! Eating 2,000 pills would allow one to advance from the middle stage to the late stage, which is a relatively famous pill in our Wood Mountain Sect. Now, only seven Tao-creation s are needed, so there are usually eight of them. "

Some of the buyers were tempted, but they didn't immediately make a move. These buyers were all elderly or middle-aged and they were very smart because even if they missed out on this pill, they would still be able to buy it from the outside.

After all, they could only spend ten Tao-creation s. If there was a good pellet later on, they would not have the chance to buy it, so they had to patiently wait for the Alchemist s to finish introducing their own pellets.

The man who refined the God Creation Pill was originally very proud, but at this moment, he looked displeased. This was because his pill wasn't attractive enough and the buyers were just waiting and watching.

"Divine Resurrection Pill!" In the middle and late stages of World Defying Stage Divine Rank, if one's body was injured, it would take around twenty hours to recover most of it after consuming it. A square-faced man said: "Only eight Tao-creation Holy stone are needed."

This was not a bad healing medicine, and was also under everyone's consideration. They were still spectating, because the Resurrection Divine Pill could also be sold outside, but it was relatively more expensive.

The pills refined by the following disciples all had decent effects. Chen Xiang was a little tempted when he heard them, but he did not have the qualifications to buy them.

Chen Xiang was the twentieth person to come out, and it was very soon for his turn. Although the disciples of the Wood Mountain Sect didn't think much of Chen Xiang, they still had some expectations. After all, Chen Xiang had merged with nine of the Tao-creation's incantations while he was refining pills!

[Chapter 3509](#)

When Chen Xiang was refining the Profound Stone Divine Pellet, many people were looking forward to the astonishing quality. Even if his usage of the pellet wasn't that outstanding, because of the quality, many people were still willing to buy it.

"Hmph, this fellow is full of confidence. Don't tell me he has a good pill?" The pills our Wood Mountain Sect refines are the best. "

"Of course, I don't know what small family he comes from, even if he has good pill formulas, how can he compare to my Wood Mountain Sect?"

"Soon it will be his turn. When that happens, his pills will only make people laugh."

Finally, it was Chen Xiang's turn to introduce his Tao-creation Divine Pellet.

Many people had quieted down and were listening attentively. Even the elders of the Wood Mountain Sect were all paying attention to what Chen Xiang said about the quality of the mystical stones and divine pellets.

"The pill I concoct is called World Defying god-becoming Dan! is not for the World Defying Stage Divine Rank to eat! " Chen Xiang said. The pellets refined by the disciples of the Wood Mountain Sect in front of him were all for the World Defying Stage Divine Rank.

They were not given to the World Defying Stage Divine Rank to eat, everyone was secretly disappointed, if they were not, how much could they be worth? He was only a Tao-creation Holy stone!

After all, even if it was the pellets required to reach the peak of Aoshi Holy Stage, there would only be a few Crystal emperor s that would need them at the very most.

When the disciples of the Wood Mountain Sect heard this, they couldn't help but laugh. To actually refine a pill for the Aoshi Holy Stage in a place like this, it was simply courting humiliation.

"Haha, he probably doesn't know how to refine the pills used in the World Defying Stage Divine Rank."

"I thought he was just that strong."

"He must be joking!"

Chen Xiang smiled slightly: "The pellet I refined is for the peak of Aoshi Holy Stage to use. As long as I consume one pellet, I can enter the World Defying Stage Divine Rank.

When the disappointed crowd heard this, they were stunned! Especially those juniors that were at the peak of Aoshi Holy Stage, they were all extremely excited when they heard this. If this was true, then they wouldn't need to wait hundreds or even thousands of years to break through, they would only need to refine it for a month!

The disciples of the Wood Mountain Sect were all suspicious of this matter, their faces filled with disbelief.

"Little brother, is what you said true?" A buyer anxiously asked, he had a disciple who had just reached the peak of Aoshi Holy Stage, and he felt a headache.

"If you eat my pills and don't step into the World Defying Stage Divine Rank, I will return twice the amount to the Tao-creation's Holy stone." Chen Xiang took out a World Defying god-becoming Dan and handed it over to the buyer, "Look carefully, there are nine Increase spell inside this pellet. This is the guarantee of quality."

After the middle-aged buyer received it, he could see the small Tao-creation's incantations, he nodded his head quickly.

"Then how much are you selling it for?" He was already moved and took the initiative to ask Chen Xiang for his price.

"Ten Tao-creation Holy stone!" Chen Xiang said.

10 Tao-creation s was also considered expensive, but they thought that if they had enough money, they could still make a lot of money.

"You can't be lying! Is there really such a good pill? I don't believe, our Wood Mountain Sect has so many grandmasters in pill refining, and we haven't been able to produce this pill for so many years, but you, a nobody, are able to do it? " The Wood Mountain Sect disciple said.

"Liar, you're going to be dismembered!"

"That's right. Everyone, before you buy it, think twice!"

The disciples of the Wood Mountain Sect mocked and ridiculed, they did not believe in the slightest in believing in the effects of Chen Xiang's World Defying god-becoming Dan.

Chen Xiang said with a cold smile, "You can just use your own efforts ... If your grandmaster can't do it, does that mean he can't allow others to do it? What kind of logic was this? There are seven Tao-creation Mountain s here, and countless of Grandmasters. Which sect dares to say that their Grandmasters are the strongest? "

"Like I said earlier, if there are any fake ones, double the amount of Tao-creation Holy stone s to return."

Chen Xiang said to the middle-aged buyer: "Uncle, you should have brought the younger generation with you, right? Why not let him try it out at the scene, there is a Time Formation here, he is inside it for a month, and outside for only two hours, everyone can afford to wait."

You will give me twenty Tao-creation Holy stone and I will still be able to earn ten of them. This is a good thing, I'm not afraid of you running away. "" Alright, I'll buy it. The middle-aged buyer laughed and straightforwardly took out ten Tao-creation s to buy Chen Xiang's World Defying god-becoming Dan.

"How can the Time Formation of our Wood Mountain Sect be used carelessly?" A Wood Mountain Sect disciple shouted in anger.

"I used ten Tao-creation Holy stone to sign up for the competition. Wood Mountain Sect shouldn't be so stingy as to not open the Time Formation, right?" Chen Xiang said coldly.

The old man from the Wood Mountain Sect nodded his head: "We can try it on the spot, but only this once!"

The middle-aged buyer let his disciple walk over, then asked him to eat the Aohun holy Dan and enter the Time Formation.

"It's just ten Tao-creation Holy stone, I'll buy it!" An old man suddenly shouted.

"Me too!"

"..."

Although the results of the test were not out, but regardless of whether they were useful or not, they would definitely not lose anything.

If the World Defying god-becoming Dan was ineffective, Chen Xiang would have to exchange for twenty Tao-creation Holy stone s each. If it was effective, they would have to buy such a miraculous pill.

Just like this, the ten World Defying god-becoming Dan that Chen Xiang refined were sold out in one go. He received a total of one hundred Tao-creation Holy stone, causing the eyes of the disciples to turn red with jealousy ... And they couldn't sell a single one.

Below, the disciples of the other Wood Mountain Sect s were introduced with their pellets. Because Chen Xiang's World Defying god-becoming Dan was in front, their pellets looked extremely ordinary, and no one bought them.

After all the Alchemist s finished introducing their own pellets, only Chen Xiang's World Defying god-becoming Dan were completely sold out, and right now, there were already people buying pellets from Wood Mountain Sect disciples.

It had already been a month since the Time Formation, and the disciple of the middle-aged buyer walked out. His entire body was filled with Arrogant Morale, and one could be sure, he had already stepped into the World Defying Stage Divine Rank!

"Master, I broke through... I just stepped into the peak of Aoshi Holy Stage last month, but now, I have actually stepped into the World Defying Stage Divine Rank! " The disciple was very excited.

This was a continuous breakthrough, and this disciple's Arrogant Morale was very plentiful. It could be seen that after breaking through, he did not have any problems, but a very steady breakthrough.

"It's too amazing, the World Defying god-becoming Dan is too amazing!" That disciple kept muttering to himself, then immediately came in front of Chen Xiang and was extremely grateful to him, even though his master was bought with ten Tao-creation s.

As long as it was a pellet, one would be able to step into the World Defying Stage Divine Rank within a month. This was indeed miraculous, as all the peak Aoshi Holy Stage present were endlessly envious, while the other buyers who bought the World Defying god-becoming Dan all revealed complacent and happy smiles.

[Chapter 3510](#)

Chen Xiang had refined a total of ten World Defying god-becoming Dan s. He had sold the most with a hundred of them. The disciples of the Wood Mountain Sect were extremely envious, because the two that they sold the most, added together, were not as good as Chen Xiang.

"Little brother, can I reserve a World Defying god-becoming Dan from you? I can give you half of the Tao-creation's Holy stone first. " An old man said, he was regretting that he did not go and buy Chen Xiang's World Defying god-becoming Dan.

"I still don't know when I'll be able to refine it. I don't have many medicinal ingredients right now either." Chen Xiang rejected it. He did not have many Giant flower anyway, and now that he did not lack Tao-creation Holy stone, he would not sell them for the time being.

The old man could only let out a long sigh. He was a bit slow earlier, otherwise, he would have been able to obtain one now.

Chen Xiang felt that even if he sold them in the future, he would still be able to get such a high price.

"I've won the final victory. What about your reward?" said that the person who obtained the final victory would be able to obtain a Time Formation and a Tao-creation Divine Crystal.

These were all very precious things, and was also why Chen Xiang was here to participate in the tournament.

The old man was expressionless as he walked over with the prize. He said, "Both of them are here ... I wonder if you are interested in joining our Wood Mountain Sect? "

The Wood Mountain Sect actually sent an invitation to Chen Xiang, which was a very rare occurrence, because many people who wished to enter the Wood Mountain Sect would need to pass a series of examinations, and even if they did pass, the Wood Mountain Sect might not necessarily accept it.

Although this kind of thing was rare, no one felt it was strange, because Chen Xiang himself was a very talented Alchemist. Just his World Defying god-becoming Dan was enough to make him famous in the Tao-creation Mountain. In the future, he would definitely become a great grandmaster.

Chen Xiang shook his head and sighed: "I still have other important things to do, and I don't know if I'll be able to survive that. So I temporarily don't have any plans to enter any sect!"

Other people dreamed of entering the Wood Mountain Sect, but now, the Wood Mountain Sect had invited Chen Xiang, but Chen Xiang had rejected it!

The Wood Mountain Sect disciple coldly snorted: "You really don't care about face. Do you really think that the World Defying god-becoming Dan you refined is that powerful?"

The old man from the Wood Mountain Sect stared coldly at the disciple, then chuckled to Chen Xiang: "It's alright, the Wood Mountain Sect's gate will open wide for you at any time."

Chen Xiang nodded, and said: "Goodbye!"

He had already gotten what he needed, and now that he was famous here, there was bound to be some trouble, so he had to get out of here as soon as possible.

Chen Xiang walked out of the Wood Mountain Sect's plaza, and after leaving the Wood Mountain Sect, he quickly hid himself within the crowd of people. He used a transformation technique to change his appearance, and then concealed his presence.

He was very clear about the kind of sect the Wood Mountain Sect was. He could tell from the many Tao-creation s that had cheated and cheated so many people.

On the surface, the old man from the Wood Mountain Sect was inviting him to join the Wood Mountain Sect, but no one knew what he was thinking about secretly. In short, Chen Xiang could not believe in such a cunning sect.

"The people from the Wood Mountain Sect must be very interested in getting the World Defying god-becoming Dan's pill formulas." He Fengyuan laughed coldly: "You have also seen the pills refined by those scarecrow disciples, although the quality is not low, they are extremely ordinary without any attraction. Because they all have replaceable pills, so they are not worth anything."

"Yes, among them, there are even middle-ranked Tao-creation Divine Pills, but they are far from being as useful as World Defying god-becoming Dan." Chen Xiang began to return to the Cang Fire City. This was the Wood Mountain Sect's territory, he did not dare to stay for long.

Chen Xiang rode on Ah Hu's back, returning to the Cang Fire City, he felt that the Cang Fire City would be safer, and there were even some familiar faces there.

Feng Ke'er was fiddling with the Time array in the You Yao Mountain Villa.

"The Tao-creation's Holy Crystal is real, but I can't be sure about this Time array." Feng Ke'er said: "There is a storage space inside the Time Formation, and it should be used to store Crystal emperor, to maintain the operation of Time array."

"You can try it yourself. After all, there are Crystal emperor in the You Yao Mountain Villa." Chen Xiang also wanted to see if this Time array was really as powerful as it had announced.

Feng Ke'er placed more than ten Crystal emperor s into the Time array's storage space and then entered it. After activating the Time array, it was enveloped by a ripple like object. From the outside, one could only see that the thing inside was distorted like waves.

It would take some time to return to the Cang Fire City. At the moment, Chen Xiang was making the most of his time, and he couldn't wait to use the Time array.

After half a day, Feng Ke'er came out from the Time array and anxiously shouted: "Chen Xiang, you must be careful! There's a problem with the Time array! "

"What problem?" Chen Xiang anxiously stopped Ah Hu.

"Let Ah Hu continue to fly. He must be fast." Feng Ke'er said: "The Time array has been refined into something, something that is related to the outside world ... If my guess is not wrong, Wood Mountain Sect can use this sort of connection to determine your position. "

"Wood Mountain Sect, these bastards." He allowed Ah Hu to enter the forest. If there really was someone chasing after him, to be able to catch him, he would most likely be flying in the air as well.

"Xiao Ke'er, do you have any way to seal that connection? If it's really like that, I won't be able to use this Time array at all. " Chen Xiang was very angry at the moment. This Wood Mountain Sect was just as he had guessed, it was not a righteous and honest sect. He could not understand why such a huge mountain would be managed by such a dirty sect.

"There should be a way. I can use a spatial formation to isolate myself from space!" Dragon Controlling Palace's Dragon horse can sense dragons, so we use the final method to avoid the end result. " Feng Ke'er said.

Suddenly, Chen Xiang felt a spatial ripple. The spatial ripple did not come from his Divine Sense Sea, but from outside!

"Someone from the Wood Mountain Sect!" Chen Xiang was very sure that this group of people did not hesitate to use spatial teleportation to catch up to him.

Chen Xiang immediately rode on Ah Hu's back, leaving the direction where the spatial ripples came from. Wood Mountain Sect must be over there.

Ah Hu's speed did not disappoint him, he flew low above the trees, and would occasionally enter the forest. Ah Hu himself had a certain amount of experience in dodging.

"Xiao Ke'er, did you seal that connection?" Chen Xiang asked.

Ah Hu and Chen Xiang both had very strong concealing abilities, but the Time array kept releasing messages, allowing the people of the Wood Mountain Sect to catch up.

"Not yet. Hold on a little longer." Feng Ke'er said, she was also extremely anxious.

Chen Xiang immediately used Time Domain on her, allowing her to do even more.

"Wood Mountain Sect group of bastards, I, your father, had clearly won, yet I have to snatch the thing back. Such a big sect, yet I can't afford to lose!" Chen Xiang kept cursing Wood Mountain Sect in his heart.
