

Dan God 3641

[Chapter 3641](#)

Chen Xiang did not delay any longer. After he left in a hurry, he entered the Six Realms mirrors s room and took out the dagger-like key. Fiction).

The short man's black dagger was immediately thrown out with a face full of shock.

"What are you doing? I've told you everything you asked me to do. " The short man only sensed the aura on the dagger before a look of fear appeared on his face.

Now that Chen Xiang had verified his words, everyone in Nine Creation Race was afraid of these keys.

"You're afraid of that!" Chen Xiang said.

"Where did you get it?" The short man was extremely shocked.

"Does your clan also have a dagger like that?" Chen Xiang asked.

The skinny man nodded his head, but he knew that the key in his clan's hand was a fiery red color, representing the nature of fire, and the black color that Chen Xiang was holding, was obviously from the Evil Mountain.

If there were any in the Fire-creation Race, Chen Xiang would be at ease. At least Chu Jinfeng would not do it for nothing.

"How much do you know about this thing?" Chen Xiang asked again, maybe the man knew more about keys than Chu Jinfeng.

"This is called a Chuangyuan key! There are nine in total, and in the past, each of the nine First Tao-creation Ancestor s had one pellet. As for how they obtained it, I do not know, in short, just how the keys were able to restrain each other, and how they were able to cause great harm to each other. "

The short skinny man was afraid that Chen Xiang would use this key on him, because it came from the Tao-creation's Evil Mountain, so he told him everything in detail.

"The nine First Tao-creation Ancestor s were on guard against each other, they were worried that the other party would use the key to 'kill' them. In the end, they spread the news and sealed the key, and at that time, our Nine Creation Race was also very powerful, and this was not something the nine ancestors were willing to do. That's why they sealed us and the Chuangyuan key inside the Tao-creation Mountain!"

"Actually, they wanted to kill us but in the end, they didn't. As for why I don't know, they have already gone back! Let us dominate the Tao-creation Place. "

Chen Xiang did not know where the nine ancestors had come from, but they had been fighting against each other for many years.

"Did the God-creation Race get sealed too?" Chen Xiang asked, "There is no such thing as the Tao-creation's Divine Mountain or Evil Mountain."

"Most of the God-creation Race s have been sealed! The God-creation Race is sealed within the divine island, and the whereabouts of the Evil-creation Race is unknown. " The short man said: "The key in your hand is the Chuangxie key."

Of course Chen Xiang knew, that it was the Red fire dragon that guided him to look for the key to the Killing evil dragon ...

"Besides dealing with Nine Creation Race, what other abilities does this key have?" Chen Xiang had discovered a mysterious Array from the key.

"I only know this much. If I knew more, I would have definitely told you already." The short and skinny man Xiang put the key away and heaved a sigh of relief.

Chen Xiang asked Xiao Xianglin how the situation with the Array was progressing. Xiao Xianglin said that he still needed a period of time.

Following that, Chen Xiang asked the short man a lot of questions, especially regarding the Tao-creation's Holy Crystals. The short man said that after the Tao-creation Mountain and the Seven Mountains Divine Island exploded, there would only be more and more Tao-creation's Holy Crystals here.

This allowed Chen Xiang to be completely at ease. With the Tao-creation's Holy Crystal, he would be able to learn even more Supreme Mantra and Legendary mantra.

Chen Xiang returned to Fighting Glorious City, Yang Genming returned, and told Chen Xiang some good news.

"Hehe, I just heard the news, someone has already discovered the huge Tao-creation's Holy Crystal Mine." Yang Genming laughed: "I don't lack Tao-creation's Holy Crystals anymore."

"Is that place far from here?" Chen Xiang was also very happy. He was in a hurry to 'make' several hundred thousand Tao-creation Holy Crystals so Xiao Xianglin could refine the Doppelgänger mantra into the Paternoster soul stone for him to eat.

"It's a little far, but there's already a fight over there. Maybe there will be other Creation Race joining in, so the situation will be a little messy." Yang Genming said: "As long as the Tao-creation's Holy Crystals don't decrease like before, we can earn a little."

"Okay, I'll go." Chen Xiang said.

Yang Genming gave him a location, and Chen Xiang immediately used teleportation to move there.

The mine was huge, and as he approached, he could feel waves of energy coming from there. The earth was shaking, and there was already a fight going on over there.

"This place is' chaotic 'indeed! I wonder what kind of power is fighting over it. " Chen Xiang quietly went closer, those large powers all had methods to look into the Tao-creation's Holy Crystal mine, so they could look into it at the same time.

If there were many strong warriors, they could obtain the mines through battle and protect them. Otherwise, if they discovered that their strength was weaker than others, they would only be robbed.

When Chen Xiang approached and felt the auras, he was overwhelmed with shock. It was all people with frightening strength fighting.

A large group of people were also present in the distance at this moment ...

"There's definitely more than one mine, let's just give it to them." An old man said, making them feel as if they had the ability to fight.

"It's good to find a smaller mine. If we don't get discovered, we will be able to get rich quietly. A huge mine like this is destined to be part of a big force."

"Originally, I wanted to get close to the mine to dig a small area, but now it's okay. There are many people from both sides, and there are also other great forces eyeing us like tigers eyeing their prey. Approaching would be seeking death."

The people from the small powers could only be anxious.

Chen Xiang was the same as them, they could only watch from afar, waiting for the results.

"I wonder what kind of forces are fighting over this!" Chen Xiang asked curiously.

"The Thunder Mountain Sect and the Earth Profound Sect are both part of the Seven Great Sects." One of them said, "It's still that super strong guy who's hiding in the Tao-creation Ancient Place."

Chen Xiang had also heard that the Seven Great Sects' people were comparable to the Nine Creation Races.

"Yan Shan Gate has also arrived!" Someone suddenly shouted.

A hot aura spread over and enveloped the huge mountain. The Yan Mountain Gate actually directly seized the mountain, causing the two fighting factions to become furious. They immediately joined hands to deal with the Yan Mountain Gate.

He released a scorching barrier, covering the huge mountain and a large area nearby. The other two 'sects' would find it difficult to break through the barrier, and the barrier would also release power to push them back.

"Flame Mountain Gate has obtained a large number of incantations from the Paternoster Race! Their strength is definitely not something that the other sects can compare to." Chen Xiang thought, the extremely strong barrier that was released by Yan Shan's Gate must have been directly absorbing the energy from that huge mine, in order to release such a strong power.

Now, the result was out. This Yan Shan Gate, which had suddenly appeared out of nowhere, had occupied the mine!

Since the other forces could not break into the mine, they could only give up. They were well aware of the secret movements of the Flame Mountain Sect and the Paternoster Race, and could only search for other mines.

Now, they were much stronger than the other sects. Chen Xiang finally understood why Zhou Xingzhi gave up all hope on Paternoster Race, because Paternoster Race had already been hollowed out by the Fire Mountain School for many years.

Today, although the Paternoster Race had been released, able to successfully shake off the Tao-creation Ancient Place, and was no longer threatened by the Fire Mountain School, their strength had already been greatly affected, and it was difficult to return to their former peak.

On the other hand, Fire Mountain School's power grew day by day after he received the Paternoster Race's curse, so even though the Paternoster Race hated the Fire Mountain School, there was no hope for revenge.

"Fire Mountain School will be the first to obtain the biggest mine, the other sects will definitely rush to find the mines to increase their strength, only then will they not be left behind by Fire Mountain School."

Chen Xiang was very clear that after this event, the various great sects and Nine Creation Race s would compete. Although they won't fight, they will definitely improve themselves and display their power to deter the other forces, preventing them from being attacked.

"The two pill patterns have been modified." Xiao Xianglin said: "Do you want to use it to concoct pills?"

"Let's try out the Twin dan grain first." Chen Xiang wanted to use Twin dan grain s to refine Legendary god Dan s, to see if he could refine two of them in one go.

He Fengyuan said: "If you were to use a Twin dan grain to refine it, wouldn't it mean that you would have to start using pill patterns from the start? "How did you manage to get two kinds of pill imprints in the end? Will that be a problem?"

"No problem!" For Alchemist with power, they can refine multiple World Defying Dan grain on a single pill at the same time. " Chen Xiang laughed: "And this Twin dan grain was created to coexist with other pill patterns, so it will not reject other pill patterns."

Chen Xiang found a quiet cave and went inside to try the Twin dan grain.

After the Twin dan grain was improved, it could absorb the Tao-creation's Holy Crystal itself to awaken the Pill Pattern.

"The Twin dan grain is different from the other pill patterns, this requires me to engrave it in the previous stage."

Chen Xiang had already smelted the medicine and turned them into Medicine crystal. After he finished refining the derivation method and the Crash method, he then engraved the Twin dan grain into the Medicine crystal. After he finished refining, he began to compress the Medicine crystal.

This was slightly different from what he had expected, as he was only refining it based on his senses.

"Alright, I can only give it a try. Based on my experience, there shouldn't be any problems." Chen Xiang's steps were already a little messy.

After that, he carved Huajing Dan grain and entered the pellet. Only this way would he be able to guarantee that the Twin dan grain would have an effect.

After being inscribed, one would need to awaken their Pill Patterns, and at that time, they would need to use a large amount of Tao-creation's Divine Crystals.

"It's just that I don't know how many Tao-creation Divine Crystals are needed. If I need a lot of them, then these Pill Marks would be meaningless." Chen Xiang only used five thousand Tao-creation Holy Crystals to refine a Legendary god Dan, if the amount of Tao-creation Holy Crystals he absorbed exceeded ten thousand, then it would not be worth it.

Chen Xiang placed ten thousand Tao-creation Holy Crystals into the furnace in one go, allowing the two patterns inside to be absorbed. At the same time, he patiently observed the changes in the furnace.

was pleasantly surprised by the change in the furnace because the Twin dan grain had reacted. It quickly absorbed the Tao-creation's Holy Crystal and at the same time released a strange energy, nurturing a vortex beside it.

Chen Xiang guessed that the cyclone should be the other Legendary god Dan.

"This will take quite a bit of time. I think I'll go out and look around before coming in." Chen Xiang left the Time Formation and went outside, heading towards the huge mine from before.

It had only been two to three days, yet a huge city had been built here. The name of the city was Yan Mountain and Heavenly City, and it was the peak of the mountain with the largest amount of mines.

The Fire Mountain School from before had already been destroyed in the Seven Mountains Divine Island, and the current Fire Mountain School did not have a good place to stay, so they chose to build it here.

"This is indeed a great place, around us are the Tao-creation's Holy Crystal Mines, and this is the biggest mine they will definitely not dig." Feng Ke'er said: "Because their city's enchantment array needs to absorb the energy of this mine to protect itself."

"They might not even know how to dig nearby mines! In any case, after the seven Tao-creation Mountain s exploded, there would be a large amount of Tao-creation Holy Crystals. They chose to build a city here, so this place wouldn't be riddled with holes. " Chen Xiang looked at the group of people in the distance and said: "Right now, the most important thing for them is to use the fame of their Fire Mountain School s to gather more power and at the same time, search for other mines."

The fact that the Fire Mountain School had taken over a large part of the mine meant that they were very rich, so it would be very easy for them to recruit disciples.

"This city is still very competitive." Chen Xiang sighed: "I just don't know if Fighting Glorious City can get up."

At that time, he did not expect that so many powerful sects and Nine Creation Race s would appear. He thought that he could easily be as prosperous as the Fighting Glorious City s before him.

"You should be able to help him! However, it will also bring you quite a bit of trouble. " He Fengyuan said: "Just the pills you refined are enough to attract many people to the Fighting Glorious City, and at the same time, attract a pack of wolves."

This was also what troubled Chen Xiang the most, so he didn't want to make any moves inside the Fighting Glorious City at the moment, in case he dragged the entire Fighting Glorious City down.

The hidden God-creation Race in the Super Yuan Dan Alliance was able to obtain his Legendary god Dan's medicinal formula, as well as the previous Sects from Seven Mountains and the current Paternoster Race. They were all searching for his whereabouts.

Every time Chen Xiang returned to the Fighting Glorious City, he would always keep a low profile.

"Chen Xiang, if you don't send me back, Fire-creation Race will definitely take action." He was sent as a spy, it had been a few days since Chen Xiang caught him.

"If I don't bring you back, what will happen to the Fire-creation Race?" Chen Xiang was currently in a secret room inside the Six Realms mirrors, smiling as he looked at the man.

"They will definitely attack the Fighting Glorious City." The short man had a serious expression on his face.

"I admit that they do have that kind of strength, but it won't be easy for them to take down Fighting Glorious City. Fighting Glorious City has already built a barrier." Chen Xiang laughed: "Are you trying to scare me?"

"Most of the fellows in Fire-creation Race are like the ones you killed." The short man said, "So they can do anything."

"I can let you go back! But you have to sign a Master-servant Contract with me. " Chen Xiang said: "This Master-servant Contract won't have much of a binding force on you. You are usually free, as long as you don't betray me! Nothing you know about me can be told. "

Chen Xiang had the Evil Mountain key, if Fire-creation Race knew about it, he would definitely be targeted by him.

[Chapter 3643](#)

Chen Xiang would wait for Chu Jinfeng to succeed.

If Chu Jinfeng succeeded, the Fire-creation Race would have no key, and her strength would be weakened slightly, at that time, the Fire-creation Race would have even less confidence to attack the Fighting Glorious City.

It had to be known that right now, Fire-creation Race had to rely on the key to deal with the other Creation Race, so even if they were both injured, they were not afraid of the other Creation Race attacking them.

"Alright, I promise you!" The short skinny man said: "I, Xia Changdong am willing to sign the Master-servant Contract with you."

Xia Changdong didn't have any other choice now. Chen Xiang wasn't afraid of him at all, he could torture him to death at any time. He had already fallen into Chen Xiang's hands, and whether he lived or died wasn't something he could decide.

If he signed the Master-servant Contract with Chen Xiang, then he would at least still be alive. As long as he didn't make any mistakes in the future, he wouldn't be tortured.

After Chen Xiang and Xia Changdong signed the contract with the Master-servant Contract, they released Xia Changdong.

"We'd better meet once in a while. Maybe I need you to do something." Chen Xiang said.

"No problem!" Xia Changdong nodded his head, then gave Chen Xiang a rock: "As long as you go near Fire-creation Race, I will know that you have come. You just need to wait for a little while, I will appear."

"Alright!"

Xia Changdong left. Chen Xiang also returned to the cave where he concocted pills before. Then, he took a look at the pill furnace inside the Time Formation.

"Done!" Chen Xiang smiled slightly: "The amount of Tao-creation's Holy Crystals consumed is less than what I imagined. This Twin dan grain is truly mystical! This pill pattern was given to me by Chu Jinfeng, who is Tao-creation Divine Lord's disciple ... Maybe this pill pattern was created by the Tao-creation Divine Lord. "

When Chen Xiang refined the two Legendary god Dan, he only used up eight thousand Tao-creation's Holy Crystals. Furthermore, he used one less portion of the as well.

"It's a pity, I still can't sell the Legendary god Dan." Chen Xiang sighed, because he didn't have any place to sell them. He didn't even have a place to go to a decent city.

For example, the Fighting Glorious City was about to be completed. There were already a lot of people inside, so he couldn't appear there. Then there was Yan Shan Tian City, which was the territory of the Fire Mountain School. If he were to sell the Legendary god Dan there, he would definitely be caught.

"Now we can only wait for chief." Chen Xiang really hoped that Chu Jinfeng could return to the Super Yuan Dan Alliance quickly and punish those God-creation Race s. Those God-creation Race s controlled the entire Super Yuan Dan Alliance, and if this continued, the Super Yuan Dan Alliance might even be disbanded.

The only thing Chen Xiang could do now was to continue refining the pill.

Just as he was about to release the Six Realms mirrors, it suddenly trembled.

"What's going on? Is it broken? " Chen Xiang was inside the cave, completely shocked by the trembling Six Realms mirrors.

"Master, something's wrong. The Six Realms mirrors is shaking by itself, I don't know the reason." He anxiously called out to Xiao Xianglin. Xiao Xianglin was an equipment forger, he would definitely know about the situation.

After Xiao Xianglin came out of the You Yao Mountain Villa, he carefully looked at the trembling Six Realms mirrors and said with a frown: "The Six Realms mirrors is currently absorbing the Tao-creation's sacred crystal that you had placed inside."

Chen Xiang had always kept a few thousand Tao-creation Holy Crystals inside the Six Realms mirrors. Sometimes, he would need to use the Six Realms mirrors's killing array or something like that, and the Six Realms mirrors would need to absorb the Tao-creation Holy Crystals to release its power.

"The rate at which you absorb the Tao-creation's Holy Crystals is extremely fast. I think it won't be long before you finish absorbing all your Tao-creation's Holy Crystals." Xiao Xianglin said: "You have to continue putting the Tao-creation's Holy Crystals inside."

"Why? I only have a few tens of thousands of Tao-creation Holy Crystals on me, so I need to save some time. " Chen Xiang anxiously asked: "What happened to the Six Realms mirrors?"

"I just found out that the reason the Six Realms mirrors had such a reaction was mainly because of the relatively simple Transmission array inside." Xiao Xianglin said: "That Transmission array is hidden within your Six Realms mirrors, you probably don't usually use it much, right?"

"There are too many formations inside. I have no idea." Chen Xiang said: "What's the purpose of the Transmission array absorbing all those Tao-creation's Holy Crystals?"

"Of course it's to be opened! The person who set up the Transmission array left a special method inside, allowing him to be able to control the Six Realms mirrors from the other Transmission array. " Xiao Xianglin said: "You told me before that your Six Realms mirrors had been refined by someone for you, those people should have a good relationship with you!"

There were a lot of people who had helped Chen Xiang refine Six Realms mirrors before, including his master, friends, and then Xue Xianxian and the others.

Xue Xianxian and the others had used it to study the Six Realms mirrors before, it might have been because they left some sort of mechanism inside.

Chen Xiang gave a lot of Tao-creation Divine Crystals to Xiao Xianglin, asking her to help him activate the Transmission array to see what would happen.

Xiao Xianglin was also very curious, just who was controlling the Six Realms mirrors from afar? The person who made such a formation in the depths of the Six Realms mirrors was a very skilled person.

"This Transmission array is not created using the Tao-creation's Incantation, but it can traverse so many layers of space from very far away ... This is really shocking. " Xiao Xianglin said, "It seems that this is not only because of the Transmission array. It is very likely that the people there have already grasped very strong spatial energy, which is why they are able to make this tiny connection."

After the Six Realms mirrors absorbed the close to ten thousand Tao-creation Sacred Crystals, the mirror suddenly flashed and a few faces appeared. They were Xue Xianxian, Liu Meng'er, Dongfang Xinyue and the other girls.

When Xue Xianxian and the others saw a beauty like Xiao Xianglin together, they scoffed. They were already used to it.

"It's you guys!" Don't misunderstand, she's my master ... " Chen Xiang giggled: "Her name is Xiao Xianglin"

After that, Chen Xiang introduced Xiao Xianglin to the woman who appeared in the mirror. Xiao Xianglin had long known that Chen Xiang was a romantic person, she had only secretly despised him, she did not expect that the wives of Chen Xiang were really not lazy, they actually managed to contact Chen Xiang from such a far away world.

Su Meiyao and the others also came out of You Yao Mountain Villa to greet them.

"Chen Xiang, we have a rough understanding of the things over there." Xue Xianxian laughed: "Do you feel very surprised?"

"Of course, how did you know?" Chen Xiang immediately asked: "How exactly did you contact me?"

"This is the help of Uncle Shi!" Liu Meng'er chuckled: "Uncle Shi is a good person, after finding out about your matter, he came to find us, I never expected Tao-creation Place to be like this."

The Uncle Shi was also above the Seven Mountains Divine Island at the time. After the Seven Mountains Divine Island exploded, he tore apart the space and actually went to the World Defying Stage Soul River.

"Where's the Uncle Shi?" Chen Xiang asked: "I have something to ask him!"

[Chapter 3644](#)

Dongfang Xinyue said: "Uncle Shi gave us some things, and then he left. He said he wanted us to send him to Tao-creation Place."

Chen Xiang also didn't know when the Uncle Shi would arrive, as this was a very long road.

"Chen Xiang, we want to go too!" Xue Xianxian said: "Uncle Shi has told me about the situation over there, you must be in great need of help right now! After we get there, we can help you. "

"This... What is your current cultivation level? Without the World Defying Stage Legendary Rank, don't come. The situation here is chaotic. " Chen Xiang said: "I was thinking of a way to go back earlier, master is also researching the Transmission array."

"Ah, World Defying Stage Legendary Rank... This is indeed a little far! " Xue Xianxian sighed: "We are also just Late period of World Defying magic realm!"

"This is going to happen very soon. How did you guys manage to level up?" Do you have enough resources? " Chen Xiang was very shocked about this, because the World Defying Stage Soul River didn't have that much energy to allow them to break through.

"That won't be difficult for us! Of course, most of the credit goes to Sister Feng and the others. They used the's Madness soul s and rivers to refine pills, but were able to refine many pills. Furthermore, we even passed through the World Defying Stage Soul River to find a large number of Tao-creation's Holy stone and divine medicines. "

Liu Meng'er laughed tenderly: "Don't always think that without you, we would be out of date. We are strong now, and in the few floors of World Defying Stage Soul River, we can be said to be the strongest."

The World Defying Stage Soul River already possessed a lot of energy to begin with. Although it was dangerous, if he could get rid of those dangers, he could indeed obtain an increase in energy. The energy in the World Defying Stage Soul River below came mainly from the Tao-creation Place.

"Alright, I'll think of a way to have you all come here ..." Right, have you guys learned the Tao-creation's Incantation? " Chen Xiang asked: "Uncle Shi should have told you guys before right!"

"I knew it a long time ago!" Xu Youqing said: "Aren't there a lot of Tao-creation's incantations within your Six Realms mirrors We've met before, and you also have a master here who can guide us. "

"That's good." Chen Xiang laughed: "You guys are really amazing, you are my beautiful girls alright."

The few women immediately rolled their eyes at Chen Xiang.

"The Uncle Shi gave us some Supreme Mantra s, which is a little difficult to learn, but we can quickly master them. We can use the time incantations to reverse the flow of time." Xue Xianxian said: "We were only able to contact you through the guidance of the Space mantra and the Uncle Shi."

Xiao Xianglin anxiously said: "I will give you a few incantations right now, I made these space and time incantations, when the time comes, use these incantations to create an array disc, I will also be refining an array disc here, if successful, I can think it through."

"Sure, sure!" Xue Xianxian shouted in pleasant surprise.

Then, Xiao Xianglin quickly engraved a large amount of incantations on the surface of the Six Realms mirrors's mirror. There was even a portion of the incantations, which Xiao Xianglin had comprehended when he had gone through the mysterious passage with Chen Xiang last time.

Xue Xianxian and the others had a lot of people, and their minds were linked. Each of them recorded a part of it, and at the same time, they had some crystals to save the image.

"This is a little difficult!" Liu Meng'er said, "Sister Xiang, this was all done by you alone. How amazing!"

"Un, it is indeed a little difficult... Let me explain the difficulties. " After that, through the Six Realms mirrors, Xiao Xianglin explained to them while Chen Xiang was in charge of adding the Tao-creation's Divine Crystals.

From this distance, the energy consumption was enormous.

"Brother, once we finish refining this formation plate, we will be able to see you again very soon. We've missed you so much." Dongfang Jing said sweetly.

"Mm, I missed you too, Jingjing!" Chen Xiang laughed.

Xue Xianxian and the others also needed to consume a large amount of energy, so they had stopped, in case the consumption of energy was too great.

"The following usage is thirty thousand Tao-creation Holy Crystals, but it's worth it." Chen Xiang laughed. He was still very happy to see the woman he loved.

Xiao Xianglin rolled her eyes at him, then entered the You Yao Mountain Villa. She had things to do next, even if it meant refining an array disc, it would still require a large amount of Tao-creation's Holy Crystals.

If their formation plates were good enough, then the pressure on Xue Xianxian and the others wouldn't be that big, and they would be able to be more stable.

Xiao Xianglin said that he would need at least a hundred thousand Tao-creation Holy Crystals in order to refine a relatively stable Transmission array Plate.

The way Chen Xiang earned the Tao-creation's Holy Crystals was to sell medicinal pellets, but he needed a good environment in order to do so. He did not have the conditions to do so right now.

Chen Xiang once again arrived near the Fire-creation Race, took out the stone that Xia Changdong had given him, and patiently waited there.

Xia Changdong arrived very quickly.

"Master, what are your orders?" Xia Changdong didn't think that Chen Xiang would come to find him so quickly.

"Can you do it now?" Chen Xiang asked: "I do need your help with something."

"Yes, please!" Xia Changdong said.

"I have a type of pill that I need to sell, at least fifteen thousand Tao-creation Holy Crystals. It's called the Legendary god Dan." Chen Xiang said: "It's not convenient for me to sell it now, it's mainly because I'm being closely watched by a few sects. Take a look and see if there's any way for me to sell this pellet."

When Xia Changdong returned to the Fire-creation Race, he had secretly inquired about Chen Xiang's matters. Previously, he did not know much about Chen Xiang, but after he made some inquiries in the Fire-creation Race, he was extremely shocked about Chen Xiang's achievements.

Chen Xiang was currently the number one target of the Fire-creation Race, precisely because he could refine Legendary god Dan.

"Wood-creation Race may need to buy it! Amongst the Nine Creation Race s, even though the Wood-creation Race is also a little treacherous, they can be considered to be relatively gentle. They don't have too much hatred towards the other Creation Race s and are able to maintain a good relationship with them. Xia Changdong said: "Previously, they had come to Fire-creation Race once, and it was I who was in charge of bringing them to Fire-creation Race, and at that time, they had also invited us to Wood-creation Race."

Chen Xiang understood what Xia Changdong meant. Xia Changdong wanted Chen Xiang and the people from Wood-creation Race to give it a try.

"Can you help me contact the people of Wood-creation Race? It's enough to be at the late stage of World Defying Stage Legendary Rank, I don't need to fight those that are too strong, I can't win against them." Chen Xiang said.

"Sure, take this piece of wood! As long as you go to the hidden area of the Wood-creation Race, there will be people looking for you. Xia Changdong passed Chen Xiang a piece of wood.

"Good, this time it's all thanks to me!" Chen Xiang patted Xia Changdong's shoulders and chuckled: "I will definitely not treat you unfairly in the future!"

"Thank you, master!" Xia Changdong was the quick-witted type, if not he would not be set up as a spy, he was only lacking in talent and would not be able to level up, if not his future would be bright.

Xia Changdong possessed the Evil Mountain Key, which was a terrifying thing. Xia Changdong was very clear about how terrifying this thing was to the Nine Creation Race, so he did not want to go against Chen Xiang.

Chen Xiang took the wooden block Xia Changdong gave him and immediately headed to Wood-creation Race.

[Chapter 3645](#)

Xia Changdong was already Chen Xiang's servant and he wouldn't betray Chen Xiang even if he signed the agreement with the Master-servant Contract. That was why Chen Xiang trusted him and dared to come into contact with the people of the Wood-creation Race.

Chen Xiang took the mysterious piece of wood and quickly headed to Wood-creation Race's territory.

"The speed of the Wood-creation Race is also fast, to build a city here so quickly, it seems like the Creation Race need to absorb people to increase their strength, I wonder what happened to them after they were sealed within the mountain, they all desire to strengthen their own power." Chen Xiang came to a city called Sky Wood City.

After the Seven Mountains Divine Island was destroyed, the Tao-creation Place experienced a huge change and many people were displaced. After Sky Wood City was built, people around Sky Wood City rushed over and entered Sky Wood City.

"This Wood-creation Race should be the type that keeps a low profile. I have not even heard of a city that has been built for a long time." Chen Xiang had previously learned from Xia Changdong that the Wood-creation Race had never had any conflicts with other races over the years.

And because of this, the Wood-creation Race secretly developed a very strong power, just that he did not know how strong they were.

"This Wood-creation Race is really secretly making a fortune!" After Chen Xiang entered the Sky Wood City, he took out the small piece of wood and saw that it was glowing slightly.

Chen Xiang immediately headed towards a tavern to wait. He did not know who the person who came would be, nor did he need to be a important person in the Wood-creation Race. As long as he could purchase his Legendary god Dan.

There were a lot of people in Sky Wood City, the people that were originally scattered around the city were all gathered in Sky Wood City, some of them with good talent were recruited by the Wood-creation Race.

Chen Xiang could hear a lot of shocking news when he was in the tavern, one of them was that Wood-creation Race had actually found a few huge ores, and these mines were not smaller than those that Fire Mountain School had snatched, who knew how he had found them in the Wood-creation Race.

"Seems like this Wood-creation Race is very rich. When the time comes, I have to raise the price a bit." Chen Xiang thought in his heart. The small piece of wood in his hand was getting brighter and brighter, which meant that the person was getting closer and closer to him.

Chen Xiang did not know if Xia Changdong was reliable or not, but with things having turned out this way, he could only give it a try.

The person who came in was a slightly plump man with a fat head and big ears, and a face full of smiles. The moment he came in, he looked in Chen Xiang's direction and walked over.

"You were called over by Brother Xia?" You are not someone from the Fire-creation Race! " The man smiled and said, "But I trust Brother Xia. The people he recommends definitely aren't bad!"

"This one is Shen Fei, may I know what your name is?" Chen Xiang smiled slightly: "I won't let you down, as long as you can pay me the Tao-creation's Holy Crystal."

"I'm Fatty Zhang, everyone here calls me that." Fatty Zhang chuckled.

"You don't look too fat!" Chen Xiang smiled and poured some tea for Fatty Zhang, and said: I wonder how many Holy Crystals do you have in your hands?

"Judging from Brother Shen's tone, I think there is something extraordinary! You don't have to worry about the Tao-creation Sacred Crystals, even though I, Fatty Zhang, am not one of those people with a very high position in the Wood-creation Race, I am definitely not poor. " Fatty Zhang laughed, "Take out the goods and let me see what they are. I actually hope to see some things that I cannot afford to buy. Being able to broaden my horizons is also a pretty good thing."

Chen Xiang took out the two Legendary god Dan s.

"Dan?" "What pill is this!?" Fatty Zhang immediately asked, he was a knowledgeable person, being able to discern that the two pills were of good quality, and he could also see precious World Defying Dan grain carved into them.

"Legendary god Dan! I wonder if Brother Fatty has heard of it? " Chen Xiang looked around and said.

Fatty Zhang took a deep breath and said, "Let's talk somewhere else!"

Fatty Zhang asked for a secret room in the inn.

"You should be Chen Xiang, right?!" Fatty Zhang laughed: "I never thought that Xia Changdong would actually recommend you. I really didn't misjudge you back then!"

"Brother Fatty, since you know me, then I don't need to introduce this Legendary god Dan anymore!" Chen Xiang laughed.

Fatty Zhang, as a person who specialized in handling business, was extremely sensitive to many things. He had known about Chen Xiang's situation since a long time ago, and also knew that Chen Xiang's

current situation was being targeted by the Seven Great Sects. The other Creation Race s also had their intentions on Chen Xiang.

The current Chen Xiang simply did not have any place to sell Legendary god Dan, other than secretly looking for buyers using a lot of things. However, this was extremely troublesome, as a Alchemist, he did not have that much energy to do this sort of thing.

"Of course I know. Legendary god Dan exist like legends." Fatty Zhang looked at the two beautiful Legendary god Dan s and said: "Brother Shen, then name a price, I'll see if I can accept it!"

"Twenty-five thousand Tao-creation Holy Crystals!" Chen Xiang said.

"As far as I know, Brother Shen once sold it for 15,000 pills." Fatty Zhang said.

"Things were different then!" Chen Xiang let out a long sigh, "After such a situation occurs in the Seven Mountains Divine Island, cultivating medicinal herbs would be even more difficult."

"Twenty thousand!" Fatty Zhang said.

Chen Xiang had already planned to sell one pellet of the Tao-creation's Sacred Crystals previously, so the price of twenty thousand was already considered to be not bad.

"Alright!" Chen Xiang nodded and agreed.

Fatty Zhang very decisively bought two of Chen Xiang's Legendary god Dan.

"Brother Shen, if you have successfully refined it, you can look for me." Fatty Zhang laughed: "I'm not like the other Creation Race, so you can relax."

Fatty Zhang was in the middle stage of World Defying Stage Legendary Rank, he could be considered strong. Chen Xiang could sense from the trade just now that this Fatty Zhang was definitely a good person and was easy to negotiate with.

It was just that he did not know his position in the Wood-creation Race.

"Good!" I will be refining pills in this city! Oh right, Brother Fatty, do you want to sell your pills or eat them yourself? " Chen Xiang asked: "Will you report this matter to the higher ups?"

"A Legendary god Dan is hard to find, of course I want to keep it for my people to eat! I won't report it for now. " Fatty Zhang did not inform the clan higher ups about this matter. It was clear that he was worried that the higher ups would take notice of Chen Xiang and force Chen Xiang to hand over the pill formulas.

Fatty Zhang knew about Chen Xiang's situation and knew that Chen Xiang would definitely not yield, so this was simply a thankless task. He might as well work together with Chen Xiang.

"Brother Shen, then I'll be waiting for your good news." Fatty Zhang smiled happily and then left the tavern in a happy mood.

Originally, Fatty Zhang had planned to arrange a place for Chen Xiang to refine pills.

After Fatty Zhang left the tavern, Chen Xiang changed his appearance, went to another tavern to get a secret room, and then started refining pills. This was the territory of the Wood-creation Race, he had to be vigilant.

[Chapter 3646](#)

Fatty Zhang thought about many things on the way here, he planned to temporarily hide the fact that he had Legendary god Dan s. As of now, this kind of good stuff was extremely rare, even with the Tao-creation Holy Crystals it was hard to buy, because only Chen Xiang knew how to refine them. Access:.

Chen Xiang needed to earn the Tao-creation's Divine Crystals and let Xiao Xianglin refine the formation plates so that he could meet Xue Xianxian and the others as soon as possible. With their help, he wouldn't feel so powerless anymore.

"Currently, refining the Legendary god Dan has saved me quite a bit of Tao-creation's Holy Crystals, moreover, it can be sold at such a high price. I truly never would have imagined this." Chen Xiang laughed, "Looks like there are more Holy Crystals in the Tao-creation Place than when I was in the Seven Mountains Divine Island."

"Although that fatty is sincere in cooperating with you, it's hard to say for the other Wood-creation Race s. Once those Wood-creation Race s find out, it would be hard to avoid, just like other forces, wanting to snatch the pill formulas and World Defying Dan grain from your hands." Su Meiyao said: "You must be vigilant."

"Got it, I'm on guard against this right now." Chen Xiang also knew that his cooperation with Fatty Zhang could not last long. This was only because his strength was too weak, if he revealed himself and got targeted by those big powers, he could only hide.

Chen Xiang used all of the Tao-creation's Divine Crystals to refine ten pieces of Legendary god Dan in one go.

"It has only been half a day, refining the Legendary god Dan is not difficult at all for me." Chen Xiang said: "I can definitely refine a large amount in a short period of time, but I don't have anywhere to sell."

He was looking for business opportunities and wanted to see if he could sell the Peak dan s. Su Meiyao and he had refined many Peak dan s and this Peak dan could sell at least one hundred Tao-creation Divine Crystals, although it was not as fast as the Tao-creation Divine Crystals that the Legendary god Dan had earned, it was still a very easy pill to sell.

"sister Meiyao, how many Peak dan s do you have there?" Chen Xiang asked: "This Peak dan should have a market here, many people can find a lot of Tao-creation Holy Crystals, the Peak dan will definitely sell it for more than in the Seven Mountains Divine Island."

Chen Xiang had wandered around Wood City for a whole day and learned that there were a lot of scattered Tao-creation's Divine Crystals that had fallen near Sky Wood City. As long as one wasn't too lazy, one could find a lot of them.

There was a lot of energy inside the Tao-creation's Holy Crystal, but this energy was far less useful than elixirs. Powerful elixirs could let a person directly break through a level, so many people used the Tao-creation's Holy Crystal to buy elixirs.

"In the past few days, I must have refined more than 3000 pills!" Su Meiyao said, she was using the Time array to refine the Peak dan, that was just like playing around.

"Over three thousand, that's a lot!" Chen Xiang calculated, if one pellet could really be sold for two hundred Tao-creation's Holy Crystals, then this would amount to six hundred thousand Tao-creation's Holy Crystals.

It was also because Su Meiyao was short of Holy Crystals that he stopped refining the Peak dan, and he also needed to use the Tao-creation Holy Crystals to awaken the World Defying Dan grain.

"I'll go find Fatty Zhang now." Chen Xiang took out the small piece of wood and went to the inn from last time to contact Fatty Zhang.

Fatty Zhang came over quickly, the moment he came, he brought Chen Xiang to his room.

"Brother Shen, your speed is really fast. It seems your Time array is very strong." Fatty Zhang chuckled.

"Brother Fatty, do you want the Peak dan?" Chen Xiang asked: "The kind that can let people step into the Peak of World Defying magic realm after eating them."

"Yes!" How much are you selling it for? " Fatty Zhang immediately shouted, he was very clear on the importance of Peak dan here.

In the past, the Tao-creation Place did not have as many resources as the Seven Mountains Divine Island, but now that a large amount of the Tao-creation's Holy Crystals had appeared, many people gave a small amount, Peak dan s were very useful to this group of people, they would definitely buy a lot.

"I have three thousand, two hundred Tao-creation Holy Crystals for one." Chen Xiang said.

"Hiss ..." Fatty Zhang took a deep breath. Three thousand crystals in one go?

"I saved this before." Chen Xiang laughed: "Do you want it? If you were to sell it here, you would earn a lot. "

"Doesn't this mean that you've been exposed?" Fatty Zhang said, "If I sell these pills, others will definitely know that you're in contact with me."

Fatty Zhang was in a difficult position, Chen Xiang could also think of this kind of situation.

"You are worried about your Wood-creation Race? Are you worried that they will attack me? " Chen Xiang asked.

Fatty Zhang nodded: "To tell you the truth, if my family knew, I think they would probably have ulterior motives, unlike me!"

"How about this, I will think of a way to have a secret relationship with you in the future, that should be fine!" As for the Wood-creation Race, you can settle the matter yourself. In short, we will not meet again for our future interactions with each other, and will use a very secretive method. " Chen Xiang said: "Or you could do it once every long time, that way it can be avoided."

"Alright! I'll take your Peak dan. Do you still have more Legendary god Dan? " Fatty Zhang gritted his teeth and agreed.

"Yes, ten reads!" Chen Xiang did not have much Tao-creation Divine Crystals left, if he sold this batch, it would be enough for him to use for a while.

"A total of eight hundred thousand Tao-creation Holy Crystals!" Fatty Zhang said as he placed the Tao-creation Divine Crystal inside a Storage bag and handed it over to Chen Xiang.

Chen Xiang took it and counted it, then nodded his head in satisfaction.

If Fatty Zhang switched hands, he would at least be able to earn twenty three hundred thousand Tao-creation Holy Crystals. Chen Xiang himself did not know why he would have so many Tao-creation Holy Crystals in his hands to buy his pill.

"See you later!" After Chen Xiang received the eight hundred thousand Tao-creation Divine Crystals, he was also satisfied. He did not leave Sky Wood City immediately as he wanted to see the reaction of the Wood-creation Race.

On the second day, Fatty Zhang started selling his Peak dan s openly, as expected, because he had a certain level of reputation here, he quickly sold a lot. He actually sold them for three hundred Tao-creation Divine Crystals, and increased the price by a hundred Tao-creation Divine Crystals.

Chen Xiang had thought that he would only be adding fifty Tao-creation Holy Crystals.

The twelve Legendary god Dan in his hands were equivalent to twelve World Defying Stage Legendary Rank s in value, they were incomparably precious, he was not willing to sell them, and he did not plan to let others know that he would leave them for his own use. Although Chen Xiang had secretly 'handed' them over to him, he was worried that he would not have the chance to 'exchange' them 'with Chen Xiang in the future.

After a few days, all of the Peak dan in Fatty Zhang's hands were sold, causing Chen Xiang to sigh in his heart. If he were to sell them, someone would come and create trouble at his door in less than half a day.

Chen Xiang released his illusion and entered Fatty Zhang's shop, arriving at his room.

"Brother Fatty, is there anyone from Wood-creation Race looking for you?" Chen Xiang asked.

"Someone's coming. They asked me to bring the people they arranged for me to capture you and force you to hand over the pill formula the next time I see you." Fatty Zhang was also very loyal, telling this kind of thing to Chen Xiang directly.

"It seems that in the future, it will be even more difficult to get into contact with him." Chen Xiang laughed bitterly.

"Yeah, but it doesn't matter. There will definitely be a chance." Fatty Zhang himself also made a small profit, "Those old fellows in the clan are really something. He thinks that he can get the pill formula just by capturing you. How laughable!" "If I were in his place, even if I were to die, I wouldn't hand over the pill formula."

...

[Chapter 3647](#)

Chen Xiang had enough Tao-creation Divine Crystals in his hands, he would think of a way to do it after he used them all up. Right now, he felt that it was time to level up his cultivation, otherwise, he would not be able to fight against those old fellows from the Nine Creation Race and the Seven Great Sects.

"Master, how about you refine a Doppelgänger mantra Soul Stone for me first. How about it?" Chen Xiang said. He already had eight hundred thousand Tao-creation Divine Crystals in his possession. Refining a Legendary mantra's soul stone would require five hundred thousand Tao-creation Divine Crystals.

"No problem!" Xiao Xianglin entered the Time array and he quickly completed it.

If Chen Xiang could have two more clones, his speed of refining pills and his overall strength would have increased by a lot.

"Junior sister, when you clone yourself, would you find more Divine Sense Sea?" Chen Xiang was extremely curious. He had the Red fire dragon, he didn't know if he could have two more.

"Yes!" Little White Fox said: "Senior Brother, don't you have a little dragon? If you control the Doppelgänger mantra, Xiao Long can also split two of them. "

"So powerful!" Chen Xiang was secretly pleased. Just thinking about the strength of three Red fire dragon was enough to frighten him.

Xiao Xianglin stayed in the Time array for half a day before she came out. This meant that she had refined five hundred thousand Tao-creation Sacred Crystals.

The small pearl in Chen Xiang's palm was the Legendary mantra Soul Stone. It was refined using five hundred thousand Tao-creation Divine Crystals and he excitedly popped it into his mouth and ate it.

After eating it, he quickly mastered Doppelgänger mantra. He quickly 'created' two clones in accordance to what Little White Fox had taught him before.

Those two clones were very special. Other than the fact that the You Yao Mountain Villa was not inside, everything else was similar to his original body. Chen Xiang was able to clearly see that each of the two clones had a Red fire dragon s, but these two Red fire dragon s were not as lively as his original body. Mianhuatang. [cc] is even faster, the website page is refreshing, there are few advertisements, this is my favorite website, I must give it a good review.]

"As expected of the Legendary mantra, just how powerful!" Chen Xiang could easily control the two clones as if it was as easy as controlling his own hands and feet.

There was no problem in using it to refine pills.

"These five hundred thousand Tao-creation Divine Crystals are worth it." Chen Xiang laughed, I need to earn a little more Tao-creation Holy Crystals, so that sister You You You and the others can learn it.

Xiao Xianglin was refining the Transmission array Plate, this might be able to teleport Xue Xianxian and the others over.

Chen Xiang headed towards the Fire-creation Race. He took out the Super Yuan Dan Alliance's order badge, but did not sense Chu Jinfeng's presence.

"Could it be that Alliance Master has succeeded?" Chen Xiang was also not sure if the Fire-creation Race was very strong or not. The Flame Mountain Key was very important to the Fire-creation Race, he was sure that it would protect him well.

Chen Xiang took out a rock and summoned Xia Changdong.

When Xia Changdong wasn't going out to be a scout, he would always be patrolling in the forest. Thus, when he felt Chen Xiang's summons, he immediately came to see the Immortal.

"Master!"

Chen Xiang nodded his head, "Did something big happen in your Fire-creation Race?!"

Xia Changdong was shocked, but he did not say a word, as his expression was strange.

Chen Xiang could immediately guess that Xia Changdong must have made a blood oath or something like that and could not reveal this matter. In that case, it was very possible that Chu Jinfeng had obtained the key to the Fire-creation Race.

It was hard to deal with the other Creation Race, so they did not allow this matter to leak out.

Chen Xiang nodded his head, "I know, you can't tell me!"

Xia Changdong only nodded slightly. The moment he said it, he would be breaking his own blood oath.

"When I was in Sky Wood City, I cooperated very happily with Brother Fatty. However, in the end, I was targeted by the Wood-creation Race and it was difficult for me to work with Brother Fatty in the future." Chen Xiang sighed.

"After all, Master's alchemy skills are peerless. In the eyes of all the major powers, you are nothing but a piece of meat. Everyone wants to eat you." Xia Changdong said.

"You continue to stay in the Fire-creation Race. Be careful not to expose the relationship between you and me. I might not come here often in the future." Chen Xiang patted Xia Changdong's shoulder, then gave him some Tao-creation Divine Crystals.

"En!"

Chen Xiang left the Fire-creation Race and headed towards the villa where the Super Yuan Dan Alliance was. If Chu Jinfeng succeeded, he would definitely return here the first thing.

Super Yuan Mountain Villa, it was quiet, Chen Xiang took out his order badge and lit it up, he knew Chu Jinfeng was here.

"Did the chief take care of the people inside?" Chen Xiang could only wait outside for Chu Jinfeng to come out.

He waited for a very long time, and even after two whole days, Chu Jinfeng still did not come out to look for him.

This was not a good thing!

Chu Jinfeng was not weak, he should not be trapped.

There was nothing Chen Xiang could do, he could only let the illusion enter to search for Chu Jinfeng.

Very quickly, his spirit body appeared in the plaza inside Super Yuan Mountain Villa.

Chu Jinfeng was trapped within a barrier within the plaza, and outside Chu Jinfeng, there were a few other elders, one of whom was the one who tried to capture him last time.

"Chu Jinfeng, you have truly shocked us all. You actually managed to get the Chuanghuo key from the Fire-creation Race's hands." An old man grinned fiendishly, "What a pity, this will belong to us. When the clan leader arrives, the key will be ours."

"Master, you really are something!" Back then, he should have been ruthless and sealed you all. Yet, he arranged for you all to come to me and cause trouble. " Chu Jinfeng sat on the ground, feeling very helpless.

Chen Xiang was secretly happy in his heart. Chu Jinfeng had already succeeded and obtained the Chuanghuo key, but he just did not expect that he would be tricked by the few elders and be trapped.

"We have to rescue him." Chen Xiang began to think of a plan.

The Super Yuan Mountain Villa was protected by a strong barrier, but he could use his penetrating power to easily enter. The problem was that the moment he got near the plaza, he would definitely be discovered.

"We should be able to lure these few old fellows away." Chen Xiang had to hurry up, otherwise, if the patriarch of God-creation Race came here, he would have no chance of survival.

Chen Xiang quickly thought of an idea, even though it was a bit risky.

He released an avatar, and when he was far away, he controlled the avatar to release the Red fire dragon, allowing it to release its strongest dragon aura.

Very quickly, the few old fellows could sense the aura of the Red fire dragon.

"A very strong dragon!" An old man shouted in shock, "It's a little far from here, we should be in a reverse stage when we go to the dragon. Once we grow up, maybe we can be comparable to Killing evil dragon."

In the retrograde phase, the beasts were the smallest. Due to their small size, they were considered to be the best animals to subdue.

"We have to move quickly so that the others won't get their hands on it. We'll go together." A fat old man said.

"Where's Chu Jinfeng? "No need?"

"No need. Our barrier is so strong that he won't be able to break through it. Even if someone wants to save us, it will take quite a bit of time. When the time comes, we will definitely be alerted. We'll just have to rush back."

Just like this, the five elders immediately left Super Yuan Mountain Villa. Chen Xiang never thought that the Red fire dragon s would be so enticing towards this group of people.

[Chapter 3648](#)

Chu Jinfeng was sealed inside the barrier, he did not feel the Red fire dragon's Qi, if not he would have been shocked. Now that he saw the elders rushing over to the dragon, he could tell that the dragon was not simple.

Chen Xiang saw that after the few elders left, they had immediately used their penetrating power to directly penetrate the barrier around Super Yuan Mountain Manor. Then, they carefully and quickly headed towards the plaza.

After nearing Chu Jinfeng, Chen Xiang released a clone, allowing the clone to use its piercing ability to enter the barrier that was trapping Chu Jinfeng.

"Chen Xiang?" Chu Jinfeng sensed the weak Qi undulations from the barrier, and then he sensed Chen Xiang's Qi.

"Chief, I've come to save you." Chen Xiang's clone released its piercing ability, covering Chu Jinfeng and bringing him out of the enchantment.

"Chen Xiang, it's really you!" Chu Jinfeng was pleasantly surprised, if no one came to rescue him, he would be in trouble when the God-creation Race's Patriarch and the rest arrived.

"It's me!" Alliance Chief, why were you so careless and got caught by them? " Chen Xiang immediately controlled the clone in the distance and let it disappear. At the same time, he brought Chu Jinfeng away from the Super Yuan Dan Alliance.

After Chen Xiang entered the Super Yuan Dan Alliance, all of them were quiet and no one noticed him. When they first left together, it was the same.

"I never thought that they would become so strong, and that they had already planned to deal with me, Chu Jinfeng, as he sighed," This Super Yuan Dan Alliance can be considered to be finished. "

Chu Jinfeng had already followed Chen Xiang far away from Super Yuan Dan Alliance. The few elders who were searching for the Red fire dragon could not find it, so when they returned to Super Yuan Dan Alliance and did not see Chu Jinfeng, they were extremely furious.

Chen Xiang and Chu Jinfeng were hiding in a cave deep in the mountains.

"Alliance Master, your rallying power is still there! Many Alchemist in the Super Yuan Dan Alliance must be very unsatisfied with those fellows. You should be able to think of a way to gather this group of Alchemist. " Chen Xiang said, "Then I will rebuild the Super Yuan Dan Alliance. It will be fine as long as there are no such fellows in the Super Yuan Dan Alliance."

"I also have the same idea. Let me try it out!" I really have to thank you this time. " Chu Jinfeng was extremely grateful to Chen Xiang. If not for Chen Xiang saving him, he might have been killed by the Tao-creation Divine Lord.

"Chief, didn't you get the Chuanghuo key? This should be able to deal with the few old fellows in God-creation Race. " Chen Xiang said: "You can't beat them now?"

"The Chuanghuo key has been sealed by the Fire-creation Race for many years. I have just obtained it and have yet to awaken this key." Chu Jinfeng sighed: "Otherwise, those few old fellows wouldn't even be my match."

The key was about to awaken as well!

Chen Xiang felt that the Chuangxie key he obtained had awoken. Right now, Xiao Xianglin was simply too busy, otherwise, she would have been able to create the mysterious space-time array formation and see the secrets within.

"Oh right, the pill formulas that I gave you previously have all been prepared." Chu Jinfeng laughed, "This is called the Tai Yuan Legend Pellet! Although it's a little difficult to refine, it shouldn't be too difficult for you. "

Chu Jinfeng gave Chen Xiang ten sets of ingredients and placed them in a small wooden chest.

"Alliance Master, you have to rebuild the Super Yuan Dan Alliance as soon as possible! Otherwise, they will fall behind the other forces. The Seven Great Sects and the Nine Creation Race will definitely be rapidly developing their own forces right now. " Chen Xiang said.

"Don't worry, I will definitely rebuild the Super Yuan Dan Alliance. If the God-creation Race treats me like this, I will definitely teach them a lesson." Chu Jinfeng said: "Wait for my news, if I am able to successfully rebuild the Super Yuan Dan Alliance, at that time I will be named Super Yuan Dan City, and you can directly come to this city to find me."

"Chief, where are those guys? Since you were saved by me, they would definitely be furious. If they had any news about you, they would definitely look for you for trouble. " Chen Xiang was a little worried.

"Don't worry, by then, the Chuanghuo key in my hands will already be awake. An Xin won't be able to do anything to me." Chu Jinfeng patted Chen Xiang's shoulders to reassure him.

After Chu Jinfeng and Chen Xiang parted ways, he didn't know where to go. In short, his heart was filled with anger, if the people of God-creation Race treat him like this, he would definitely take revenge.

After Chen Xiang obtained the medicinal formula for the Tai Yuan Legend Pellet, he began to carefully study it.

"Even without World Defying Dan grain, direct refinement would have a pretty good effect." Chen Xiang said: "From the description, the difficulty of the refining is rather high, even if a Alchemist like Chu Jinfeng were to refine it, it would take at least a hundred years!"

Legend rank divine pellets were all refined using legendary medicine, Chen Xiang did not know whether or not adding Huajing Dan grain s would raise their quality.

"If we use Huajing Dan grain s to refine it, it might require a lot of Tao-creation's Holy Crystals." Chen Xiang had just earned eight hundred thousand Tao-creation Holy Crystals before, but he had already spent about seventy to eighty percent of it now.

The faster the profit, the faster the expenditure. Chen Xiang felt that he would never be able to spend enough Tao-creation Holy Crystals.

Chen Xiang could only continue to refine Peak dan with Su Meiyao. Peak dan s were easier to refine, and the consumption of Tao-creation Holy Crystals was not too much. Furthermore, Chen Xiang now had three clones, so refining them was even faster.

"If I refine so many Peak dan, it might be difficult to sell." Su Meiyao said: "The pills you are concocting right now are not easy to sell."

Many of the big cities in the Tao-creation Place were drowned, and the big cities that were just built were now controlled by the Nine Creation Race s or the Seven Great Sects. The only Fighting Glorious City that he was familiar with was one that he could not go to.

So he really hoped that Chu Jinfeng could quickly build a city so that he could sell the pills. Otherwise, it would be extremely difficult to obtain the Tao-creation's Holy Crystals.

"No problem, let's first refine it first." Chen Xiang said: "If I use the Twin dan grain to refine, I should be able to save up a lot of Tao-creation's Holy Crystals."

Chen Xiang immediately went to try and see if he could refine two Peak dan out of seventy Tao-creation Divine Crystals.

Afterwards, he and Su Meiyao refined five hundred pills in one go.

"Alright, there aren't many Tao-creation Sacred Crystals left. When Master refines the array discs, he will need to add a few Tao-creation Sacred Crystals from time to time, but it's not enough for him to add on now."

The thing that troubled Chen Xiang the most was how to sell these five hundred Peak dan.

The city of Icy Jade Sect was already built, so Chen Xiang immediately came to the inside of the city. The city had its own style, the buildings were all made of white ice, but they were not very cold, just a little cold.

Chen Xiang was now in the Icy Jade Sect's city. What surprised him was that Fatty Zhang had previously sold a large number of Peak dan and even knew about this city.

"Icy Jade Sect had my intentions before. If I were to be exposed here, they would definitely capture me at the first possible moment." Just as he was at his wit's end, Chen Xiang suddenly heard that Fatty Zhang was in the city.

He immediately headed towards Fatty Zhang's shop. The reason Fatty Zhang was there was obviously to escape Wood-creation Race's watch.

[Chapter 3649](#)

"Fatty Zhang is really smart. The first thing he does is rush to this newly established city." Chen Xiang arrived outside Fatty Zhang's shop but did not enter.

Before, when Fatty Zhang came into contact with Chen Xiang, he would definitely be watched closely by the Wood-creation Race, so he had to be extremely careful.

This city was constructed by the Icy Jade Sect, so the people of the Wood-creation Race had to restrain themselves a little. They didn't dare send a lot of people here.

Chen Xiang secretly admired Fatty Zhang's courage. The reason Fatty Zhang did this, was obviously to distance himself from the Wood-creation Race, so that it would be convenient for Chen Xiang to find him.

Fatty Zhang's shop had more than ten floors. At night, one of the floors had a window.

Chen Xiang, who had been wandering around the whole time, immediately released his spirit body and entered the room, and indeed, he saw Fatty Zhang.

"Brother Fatty!" Chen Xiang immediately transmitted his voice to Fatty Zhang through his [Phantom Body].

"Brother Shen, you're really fast!" Fatty Zhang laughed, "I came to this city just to conveniently trade with you. Although there are a lot of fellows from the Wood-creation Race here, there aren't many that are good at it."

"I refined five hundred Peak dan at the same price as before." Chen Xiang said: "Put the Storage bag with the Tao-creation's sacred crystal on the table."

"Alright, one hundred thousand Tao-creation Holy Crystals!" Fatty Zhang took out a Storage bag and placed it on the table.

After that, the Storage bag slightly moved. If one did not observe carefully, it would be impossible to notice that the Storage bag was moving.

"Alright, the Storage bag is inside." Chen Xiang said.

Fatty Zhang counted the items and smiled in satisfaction. He did not know how Chen Xiang did it, but it was enough as long as the transaction was successful.

"You suddenly have Peak dan to sell, won't Wood-creation Race suspect you?" Chen Xiang asked.

"Of course not. I said that I concocted it myself, they wouldn't want to steal my pill formula right?" Just like the other forces, the internal strife within the Wood-creation Race is extremely intense. " Fatty Zhang laughed.

Chen Xiang received a hundred thousand Tao-creation Holy Crystals, and after bidding farewell to Fatty Zhang, he hurriedly returned to continue refining the pellets.

Although he was confident that he could sell the Peak dan, Chen Xiang was still worried for Fatty Zhang. To go against the Wood-creation Race in public like this was not a good thing, not to mention that Fatty Zhang's strength was not very strong, he was only a businessman.

"One hundred thousand Tao-creation Holy Crystals is simply not enough!" Chen Xiang gave Xiao Xianglin 50,000 points to refine the array disc. For the remaining 50,000 points, he was going to refine the Legendary god Dan.

If things really did not work out, he would have to dig up the Tao-creation's Holy Crystal mine. However, the source of the ore was not stable, and it would take some time, so he would have to depend on his luck to find the Tao-creation's Holy Crystal.

Chen Xiang gave Jiang Sijing and the others the medicinal ingredients for the Tai Yuan Mythical Pellet. Cultivating this medicinal ingredient would also require a large amount of Tao-creation Divine Crystals as fertilizer in order to grow it quickly.

A few days later, Chen Xiang brought ten Legendary god Dan s to find Fatty Zhang, but when he arrived at the Ice Jade City, he found out that Fatty Zhang's shop was closed. After asking around, he found out that Fatty Zhang was captured by the people from the Wood-creation Race.

"This Fatty Zhang is really ..." "Don't be too careful." Chen Xiang sighed helplessly, Fatty Zhang could be considered to have died.

Chen Xiang currently did not have any ways to sell Legendary god Dan. Last time, he had planned to borrow some from Chu Jinfeng, but after thinking about it, if Chu Jinfeng wanted to rebuild the Super Yuan Dan Alliance, he knew that he would need a lot of Tao-creation Holy Crystals, so he did not ask for it.

"Are we really going to mine?" Chen Xiang began to ask where the Tao-creation's Holy Crystal Mine could be found so that he could dig it up and pass through this difficult stage.

It was a secret that he did not know where the Tao-creation's Holy Crystal Mine was, but he did know that there was a Super Yuan Dan City under construction that was recruiting people to help with the construction of the city. At the same time, he was also recruiting people to join the Super Yuan Dan City as he started renting out the shops inside.

If a city wanted to attract people, it had to show off its strength first.

The Super Yuan Dan Alliance used a very simple and crude method to show their strength. At the gate of the city that had just been built, there were two old men from God-creation Race who were heavily injured.

These two old men were both in the late stage of World Defying Stage Legendary Rank! Because he was a traitor to the Super Yuan Dan Alliance, he was punished. This caused a lot of people to discuss about him in many cities.

Chen Xiang heaved a sigh of relief. He could also be considered to have experienced Chu Jinfeng's methods.

After Chu Jinfeng's Chuanghuo key woke up, he was no longer afraid of the people from God-creation Race.

Chen Xiang immediately headed towards the Super Yuan Dan City, and saw Chu Jinfeng from afar.

Chu Jinfeng was right at the entrance of the Super Yuan Dan City, and there were two old men covered in injuries.

"Chu Jinfeng, you are fighting against the entire God-creation Race." An old man said angrily.

"It was you who fought against me first! You asked for it, and I'm not afraid of your God-creation Race right now. Come if you have the guts, let's see who's stronger." Chu Jinfeng had already understood the power of the Chuanghuo key. Although it was mainly used to deal with the Fire-creation Race, it still had a lot of power to intimidate and intimidate the God-creation Race.

The reason why Chu Jinfeng did this was to demonstrate his might and tell everyone in Tao-creation Place that he had the power to challenge the God-creation Race, and the God-creation Race didn't dare to do anything to him.

In Nine Creation Race, if one did not have that kind of key, then they would be suppressed by others. As a result, up until now, Evil-creation Race still did not openly appear, and had only made a low-key city.

The God-creation Race did not dare to appear, so they wanted to control the Super Yuan Dan Alliance. However, they did not expect Chu Jinfeng to get the Chuanghuo key and defeat the five strong elders who were hiding in the Super Yuan Dan Alliance.

"Chief!" Chen Xiang walked over, laughing as he shouted: "Where are the other three?"

"Those three were too weak. They couldn't even fight; they died in an instant." Chu Jinfeng was also very happy to see Chen Xiang, she was his benefactor.

The two old men on top were furious when they saw Chen Xiang. They suspected that Chen Xiang was the only one who saved Chu Jinfeng, as he was the only one who had such a method.

"The city is about to be built. Pick a good place for yourself, as much as you want!" Chu Jinfeng patted Chen Xiang's shoulder: "Half of Super Yuan Dan City is yours."

Chen Xiang naturally would not refuse, and then, he would enter the Super Yuan Dan City to let Hua Liqing come out and choose a place.

The construction of the Super Yuan Dan City was very big, ten times bigger than other so-called big cities. It could be seen how ambitious Chu Jinfeng was, as he was also planning to rob people from other cities.

In the end, Hua Liqing chose a place near the city wall. There were a few small hills here, allowing her to build a large villa, because the place she chose was very big, it was better to be far away from the center of the city. Otherwise, she would feel sorry occupying a large area in the center of the city.

Hua Liqing had already begun instructing people to build shops and villas, and it wouldn't take too much Tao-creation Divine Crystals.

[Chapter 3650](#)

Chen Xiang was going to gather the Tao-creation's Divine Crystals and he was still guarding outside the city. He had to wait for the people from the God-creation Race to come.

These two old men were both at the peak of World Defying Stage Legendary Rank. To God-creation Race, they had started out as very strong people, so he definitely would not give up just like that.

Chen Xiang went to find Chu Jinfeng and wanted to ask him a few things, but he felt over a dozen powerful auras coming from outside the city.

"Is this the power of the God-creation Race?" Chen Xiang was currently in the city and he was already extremely shocked. When the aura attacked, the entire Super Yuan Dan City seemed as if it could be destroyed at any time by this pressure.

The people who were building the city were all trembling. They were intimidated by this extremely powerful aura, and fear filled their hearts.

Chen Xiang anxiously arrived at the city wall, only to see ten elders dressed in gold robes standing in front of Chu Jinfeng. These were definitely the patriarchs and powerful elders of the God-creation Race.

"Chu Jinfeng, I never thought that you would actually have a key!" When he spoke to Chu Jinfeng, it was as if he was talking to an old friend, and his expression did not express any hostility.

"If I didn't get the key, I'm afraid I would have been eaten to the bone by now." Chu Jinfeng also laughed out loud. "I say, you have been sealed for so long, yet you have not improved at all! Master was too soft-hearted back then. He should have killed you. "

"Chu Jinfeng, you don't have any descendants. You naturally don't understand why your master is so lenient." The patriarch of the God-creation Race laughed: "I have indeed underestimated your ability. This time I lost, and you also killed three of the people I sent out. You should be clear that if we were to fight here, your city would definitely not be able to survive. "

"You should also be clear that if they were to fight, we would only suffer losses on both sides ... I just need a bit more time, and if you guys get injured, your God-creation Race will definitely be swallowed alive by the other Nine Creation Race. " Chu Jinfeng said while beaming: "If it doesn't work, I can give it a try. At most, I'll lose a city and I'll just heal up from my injuries, and you guys won't even have a chance to recover."

The patriarch of the God-creation Race did not speak anymore because what Chu Jinfeng said was true.

If Chu Jinfeng did not have the key, then these ten elders, just two of them would be able to take down Chu Jinfeng. But now, they were extremely fearful of Chu Jinfeng, as this was the power of the mysterious key.

"Then what do you need to do before you release him?" The face of the patriarch of the God-creation Race turned extremely gloomy.

"I want ten Tao-creation's divine beads!" Chu Jinfeng said: "If you don't give it to me, I will kill these two old fellows on the spot for you to see."

The divine pearl of the Tao-creation? Chen Xiang was secretly shocked, he had never heard of this thing before, it must be very precious, you could tell from the ugly expressions of the ten elders.

"I will say it dozens of times!" Chu Jinfeng had already started shouting.

"Alright, we'll give it to you!" The Patriarch of the God-creation Race clenched his teeth and threw a Storage bag to Chu Jinfeng.

Chu Jinfeng received it, and took out ten very small golden pearls from inside. After that, he nodded with satisfaction and smiled, "Looks like all of you have produced quite a few Tao-creation's divine pearls over these years!"

Chu Jinfeng also kept his promise and released the two old men.

"I will definitely settle this debt with you." The old man from the God-creation Race said angrily.

"You are always welcome to settle accounts with me." Chu Jinfeng laughed complacently. The bodies of the people from the God-creation Race released a burst of golden light, and then, it gradually disappeared.

Chen Xiang immediately ran down the stairs.

"Alliance Master, what is the Tao-creation's Divine Bead? "Is it precious?" Chen Xiang asked anxiously.

"Of course it's precious, only someone from the Nine Creation Race would dare to take it out, and the Tao-creation's God Orbs are the best, and it requires the people from the World Defying Stage Legendary Rank to condense one. It would take a hundred thousand years for the entire Tao-creation Place to condense one." Chu Jinfeng took out one pellet and gave it to Chen Xiang: "This is for you."

A hundred thousand years of Tao-creation Place time, meant that he could not enter the Time array s, and needed a true hundred thousand years of time! and it was something that could only be condensed by the World Defying Stage Legendary Rank s.

"What's the use?" Chen Xiang asked: Can you eat?

"You can eat it too, but the energy released by the Tao-creation's God Orb is relatively slower, so you can't get the energy inside quickly even if you eat it! The main purpose of the Tao-creation's Divine Bead was to be used as the energy source for the great formation's barrier. I didn't manage to find a large scale Tao-creation's Divine Crystal Mine, so I had to use the Tao-creation's Divine Bead. The nine of my Tao-creation's Divine Beads would be able to sustain the operation of the large formation in this city for ten thousand years. "

Chu Jinfeng's words had scared Chen Xiang a lot of him. The energy contained in the Tao-creation's Divine Bead was scary to the extreme.

"Alliance Master, I want to sell some Legendary god Dan." Chen Xiang said.

"I'm a bit short on cash right now!" Chu Jinfeng said somewhat embarrassedly: "Wait for a while longer ... "Maybe you can sell it yourself. With me here, no one will dare to touch you."

Chen Xiang handed the task over to Hua Liqing and Feng Lanyi, Feng Lanyi was in charge of spreading the news, while Hua Liqing was in charge of auctioning.

Although the Super Yuan Dan City was not completely constructed, with Chu Jinfeng here, he could provide sufficient security. Selling Legendary god Dan here, would also let many people know that, among the Tao-creation Place, only the Super Yuan Dan City had Legendary god Dan for sale.

Chen Xiang gave the Tao-creation's Divine Bead to Xiao Xianglin.

"Master, is this thing very useful?" Chen Xiang asked.

"It's very big!" "The downside is that the release of energy is relatively slow, but this is the best thing about it as an energy source. Once I finish refining the Transmission array Disk, I won't need a large amount of Tao-creation's Holy Crystals, I can just use this Tao-creation's Divine Pearl."

In order to teleport the people from the World Defying Stage Soul River, the Transmission array Plate would need to consume a lot of energy. It would need a lot of Tao-creation's Divine Crystals, but with the Tao-creation's Divine Bead, there was no need.

After Chen Xiang waited for a few days, Hua Liqing took out over three hundred thousand Tao-creation Holy Crystals and gave them to him. These were all obtained by auctioning Legendary god Dan s, and with over thirty thousand Tao-creation Holy Crystals, they were sold at a price that was much more expensive than when he was in Seven Mountains Divine Island.

"Now, it's enough for me to refine the Tai Yuan Legend Pill." Chen Xiang had to hurry up and make himself stronger, if not, even if he had the Chuangxie key, without sufficient strength, it would be difficult for him to deal with the Rankers in Nine Creation Race.

The medicinal ingredients of the Legendary Primordial Pill were very special. They were three red fruits that looked like cherries. Although they looked very similar, they were not of the same species.

He Fengyuan told Chen Xiang that these three fruits looked the same, but the fruit trees that bore fruit were completely different, and the characteristics of the three fruits were also different.

"Feng Yuan, do you want to add something inside?" Chen Xiang asked.

"If there are many legendary medicines for me to choose, I can give it a try." He Fengyuan had already carefully looked at these three types of fruits before, and discovered that the combination of these three types of fruits had a huge reaction, and could be considered a very good pill formula.

"I'll go ask the Alliance Head!" Chen Xiang wanted to refine the best pill.
