

## Dan God 3651

### [Chapter 3651](#)

Chu Jinfeng was the alliance master of the Super Yuan Dan Alliance, he definitely had some legendary medicine in his possession, Chen Xiang wouldn't take them all, he just wanted to borrow them and see.

Chu Jinfeng commanded the construction of the Super Yuan Dan Alliance's Villa within the Super Yuan Dan City.

"Chief, how many legendary medicines do you have?" Chen Xiang finally found Chu Jinfeng, as this Super Yuan Dan City was not small, he was running all over the place.

"Not much, only about ten." Chu Jinfeng said: "You want?"

"Lend it to me!" I'll return it to you later. " Chen Xiang said: "I'm more curious about the legendary medicine, so I want to learn more about it."

Chu Jinfeng immediately took out the legendary divine medicine in his hands and gave it to Chen Xiang.

Chen Xiang placed the legendary divine medicine inside the You Yao Mountain Villa, allowing He Fengyuan to check it out.

"Chen Xiang, I just received the notice, a few more Creation Race will be coming over." Chu Jinfeng's expression became serious.

"What are they doing here? Could it be that they are going to fight against the Super Yuan Dan Alliance together? " Chen Xiang was startled, if it was really like that, then it would be difficult for the Super Yuan Dan City to be successfully completed.

"I'm not sure, but even so, they won't be able to defeat me that easily." Chu Jinfeng said: "The Chuanghuo key in my hands are very deterring. If they were to come and deal with me, they will definitely suffer a huge loss."

"Then why did they come?" Chen Xiang was more worried, if the Super Yuan Dan City was destroyed, then it would be difficult for him to find a place to sell pills in the future.

"You'll know when they come! You don't have to worry. Although these fellows are usually very domineering, they are all bullies. " Chu Jinfeng said: "However, for this period of time, you should leave this place temporarily. Once they come, I will confirm what exactly happened before you return."

Chen Xiang nodded, and then went to look for Hua Liqing.

Hua Liqing was supervising the construction of the shop and the villa, so after Chen Xiang found her, he immediately brought her and left the Super Yuan Dan City.

He Fengyuan quickly found a type of medicinal ingredient that could fuse with the three red fruits within the Time array. Soon after, she immediately grew that kind of medicinal ingredient together with Jiang Sijing and the others.

Chen Xiang was hiding outside Super Yuan Dan City. When he was bored, he suddenly felt that the stone Xia Changdong gave him was glowing. Under normal circumstances, if Xia Changdong got close, the stone would light up.

He immediately took out that rock and controlled it to send out a signal for Xia Changdong to come and find him.

Very quickly, Xia Changdong arrived.

"Master, you are really here!" When Xia Changdong saw Chen Xiang, he was not surprised at all.

"Zhang Dong, why are you here?" Chen Xiang was surprised.

"I was sent here to look into the situation." Xia Changdong said. He knew that Chen Xiang had a good relationship with him from the start, and now that Chu Jinfeng had constructed the Super Yuan Dan City here, it was not strange for Chen Xiang to appear here.

"Oh right, what's the situation with your Fire-creation Race? You should be aware of what happened to the God-creation Race already." asked. God-creation Race being threatened by Chu Jinfeng was a huge matter.

Even if God-creation Race didn't want to say it, he would be secretly spread the news by Chu Jinfeng, because Chu Jinfeng wanted others to know how strong he was.

"I know! Now, Super Yuan Dan City is very powerful." Xia Changdong even knew that Chu Jinfeng stole their Fire-creation Race's Chuanghuo key, causing the higher ups in God-creation Race to jump up and down in anger, but they could not do anything about it.

Fire-creation Race was unable to take back the Chuanghuo key from Chu Jinfeng's hands, even if they killed Chu Jinfeng, they would not be able to take it back, and might even fight with Chu Jinfeng until both of their sides were injured.

"Did the Fire-creation Race send you here to inquire about the enemy's Super Yuan Dan Alliance?" Chen Xiang laughed, he was very clear about the Fire-creation Race's current situation.

"No!" The clan wanted me to pay attention to the movements in the Super Yuan Dan City during this period of time and see if there were any other movements, such as the arrival of other Creation Race s. " Xia Changdong said: "The clan has heard of this news, a few Creation Race s will be coming over later."

"Don't these Creation Race include you?" Chen Xiang had thought that the Fire-creation Race would be one of them.

Xia Changdong shook his head: "We don't know the purpose of those Creation Race s coming to the Super Yuan Dan City now."

"Then what do you think the purpose of those Creation Race s are?" Chen Xiang suddenly felt that the few Creation Race s did not have any malicious intentions, otherwise, they would definitely come too.

"Peace talk." Xia Changdong said: "I think that's the only possibility! Furthermore, there is one more Super Yuan Dan City and it's so powerful, that's why those few Creation Race s came here to negotiate peace. I hope that when they are fighting with others, the Super Yuan Dan City will not interfere. "

"The goal is to make the Super Yuan Dan City neutral towards the battles in the Tao-creation Place." Chen Xiang said.

"Yes!" At the same time, I feel that there is a possibility that those Creation Race s might be able to give us some benefits. " Xia Changdong said: "Of course, this is just my guess."

Chen Xiang felt that his guess was very reliable, but he did not return to the Super Yuan Dan City yet.

"Changdong, have you investigated the other Creation Race s' movements recently?" Chen Xiang asked: "The other Creation Race s just now seem to be relatively low-key, especially those who possess Chuangyuan key."

"There seems to be a secret hidden in that mysterious key." Xia Changdong said: "Those Creation Race with the keys, they might be secretly planning something."

Xia Changdong must have heard of something from the Fire-creation Race, it was just that he could not say it out loud, so he said it like that.

Chen Xiang and Xia Changdong chatted with each other for a while, before finally decided to let him investigate the situation.

In the evening, Chen Xiang who was outside the Super Yuan Dan City could sense a few powerful auras pressing down from the skies, he immediately looked up to the sky above Super Yuan Dan City, only to see four elderly men in robes appearing in the sky, soaring through the clouds, looking extremely imposing.

"Is it the patriarch of the Creation Race? As expected, they were all very strong! Their strengths are all above the Alliance Master, but the Alliance Master has Chuanghuo key, so there is no need to be afraid of them. " Chen Xiang was also very nervous, he was worried that a huge battle would break out inside the Super Yuan Dan City.

He patiently waited outside. Four hours later, the patriarchs of the Creation Race s had all left, but there were no conflicts inside the Super Yuan Dan City. Everything seemed to be very calm.

"Is everything alright?" Chen Xiang took out an order badge and looked at it, this was Chu Jinfeng's signal for him to go back.

Chen Xiang immediately returned to the Super Yuan Dan City, only to see Chu Jinfeng relaxed.

"Chief, what are they doing here?" Chen Xiang asked quickly.

"Even if they came to build a good relationship with me, none of them would dare to make an enemy out of me now." Chu Jinfeng laughed and said: "Also, those fellows from the Thunder-creation Race broke their Chuanglei key's secret, saying that they can create some kind of great door for the Initial Thunder-creation Realm, and that they would invite me to take a look inside."

## [Chapter 3652](#)

Previously, Xiao Xianglin had obtained a piece of paper from the Chuangxie key. Inside it was a space-time array, so he now had no doubt that the Thunder-creation Race could create something big. However, he was still a bit worried.

"Alliance Head, could this be a trap? Maybe these guys are plotting to deal with you." Chen Xiang said.

"I'm not afraid of that, let's talk first!" They said that the inside of the Initial Thunder-creation Realm might be a very ancient place, it might be the home of the ancestors that was abandoned back then. " Chu Jinfeng laughed: "Don't be afraid of them, if they were to play around, they would not sign the blood contract with me, so this time is definitely true."

"The blood contract has been signed! "That's good!" Chen Xiang was also relieved.

"At that time, if the situation permits, I will bring you there," Chu Jinfeng said.

"Mm, we'll talk about it when the time comes."

The small stone that Xia Changdong gave Chen Xiang suddenly lit up again. It was Xia Changdong who had something to tell him, so he immediately found an excuse to leave the city.

After arriving outside the city, Chen Xiang and Xia Changdong secretly met.

"Changdong, have you found any news?" Chen Xiang asked.

"Yes." Xia Changdong said, "Thunder-creation Race has already cracked the secret inside the key. The secret inside can guide them to the abandoned house left behind by the Creation Clan."

"How do you know that?" Chen Xiang felt that it was strange, Xia Changdong was just wandering around outside and yet he knew about these things.

"There are also spies from the Thunder-creation Race outside. I heard it from them." Xia Changdong said.

"One thing is true!" Chen Xiang nodded his head, then asked: "Do you know anything about that abandoned place?"

"I only know that the First Tao-creation Ancestor back then, was a clan of Creator. Their self-blame was to create Myriad Tao Era World everywhere, at various times ... They are a race, and we are the descendants of that race.

"Advertisement" Xia Changdong said: "The ancestor and the others left earlier, because their mission was already completed."

"The reason they couldn't bear to leave and engage in all kinds of battles was mainly because this Myriad Tao era that they created was the most perfect and best one. All of them wanted to lead it, while their boss's Tao-creation Divine Lord wouldn't allow it, and only fought in the end."

Chen Xiang was very clear about what they were only fighting for, but he never thought that it would be because of this reason.

"There's a lot of good stuff in the abandoned house." Chen Xiang said: "After all, he used to live in the past with such a group of mysterious and powerful fellows."

"Yes!" Therefore, there would definitely be a lot of people going there when the time comes! I will go investigate more. If there is anything that I can discover, I will come back here to find Master. " Xia Changdong said.

Chen Xiang also wanted to go to the Initial Thunder-creation Realm but he was worried that it would be more dangerous there.

"Let's forget about it for now. We'll talk about it when the time comes. My top priority right now is to refine the Tai Yuan Legend Pill." Chen Xiang thought, and hurriedly returned to the Super Yuan Dan City, returning the ingredients back to Chu Jinfeng.

"Chen Xiang, you're going to start refining the Tai Yuan Myth Pill?" Chu Jinfeng asked.

"Yes, when I refine it, the effects of using my own World Defying Dan grain would be very different." Chen Xiang laughed: "Alliance Master, when the time comes, you will not be ridiculed."

"Why would I laugh at you? You're so powerful when refining Legendary god Dan, I already want to acknowledge you as my master." Chu Jinfeng laughed: "Go ahead and concoct pills, I'm really looking forward to it."

Chen Xiang went into the secret room, entered the Time array, and started refining the pills.

"Right now, I can release two clones, and at the same time, I can even use the Pressure mantra. I should be able to solve many problems by myself."

Chen Xiang could refine pills now without relying on anyone else.

"I just started refining, so I don't need the Twin dan grain for now." As usual, Chen Xiang placed the ingredients into the furnace.

The ingredients were hard to burn, and this was how the pill formula described it.

But Chen Xiang was not afraid, because he had the Pressure mantra.

"Bring out the two clones. It won't be a waste of your energy anyway, there's no need to use them." Chen Xiang released two clones and then released the legendary dragon fire together with the clone. At the same time, he also released the Pressure mantra.

He wanted to be like Little White Fox, fusing the two ingredients together, and then pressing them into the ingredients to quickly burn the ingredients. Little White Fox had also helped him burn the ingredients before.

"So fast!" After Chen Xiang gave it his best try, he had quickly smelted the medicinal ingredients. It had only been a month, and this had exceeded his expectations.

"Seems like it went smoothly. What's next is the derivation technique!"

Using the Fusion spell, Chen Xiang allowed the balls of 'medicine' crystals to fuse together, and then used the derivation method, producing nine balls of 'medicine' crystals that were half the size of each other, and then fiercely clashed against the largest 'medicine' crystals.

Because Chen Xiang had grasped Pressure mantra, and also had the help of two clones, he dared to go against them with extreme boldness.

Boom! The sound of the collision caused Chen Xiang to feel very excited.

Although the impact created a lot of noise, the pill furnace remained relatively stable and only trembled slightly. This allowed Chen Xiang to experience the power of Doppelgänger mantras and Pressure mantras, and allowed him to have a great use in pill refining.

"The collision went very smoothly." Then, together with his doppelgänger, he released a strong pressure. The large amount of shattered crystals that rammed into the furnace gathered together, and at the same time, released a strong legendary dragon fire, causing the countless crystals of various sizes to soften and fuse together.

The countless large and small crystals within the pill furnace were like a vast sea of consciousness but they were all suppressed by the pressure walls Chen Xiang released from all directions, turning them into a blazing sun that radiated red light.

"Second Derived Collision!" Before this, Chen Xiang had only used the first stage, because he did not have enough strength to restrain the intense energy that was erupting, so he did not dare to try the second stage.

Now he dared!

Even after he had collided with the second layer, Chen Xiang still didn't feel too pressured. He was still able to complete the third layer, and after grasping the Pressure mantra and the Doppelgänger mantra, his improvement was extremely huge.

After the third round of attacks ended, Chen Xiang felt a lot of pressure, but he still continued with the fourth round of attacks.

After completing the fourth stage, his forehead was drenched in sweat.

"This is my limit." Chen Xiang finally stopped and stopped his attacks. He started to use the power of the Pressure mantra to condense that scorching sun-like medicinal crystal.

The process of condensation was very slow, because the quality of the crystal was very scary. It was equivalent to pressing a trillion stones into a small ball, and now it had to continue compressing the ball into a small pill.

"This is probably the time that's needed the most." Chen Xiang closed his eyes and patiently released the pressure to compress it. This would be a long process.

### [Chapter 3653](#)

Chen Xiang was concocting pills inside the Time array, and in the blink of an eye, 50 years had passed.

After condensing the pellet, he had even succeeded in inscribing the Huajing Dan grain, causing the pellet to become even more frightening.

After Chen Xiang finished refining the pill, she immediately ate it.

This pill did not disappoint him. He had only just eaten it when he felt the effects of this pill.

Because there was a lot of energy contained within, he needed a very long time to refine it. Just like the Legendary god Dan from before, refining it would require a thousand years.

Right now, Chen Xiang had used three thousand years to refine this pellet. He could feel that her cultivation had increased by a large amount, if he ate a few more, she would be able to step into the middle stage of World Defying Stage Legendary Rank.

More than thirty days had passed since he came out of the Time array.

The speed at which the Super Yuan Dan City was being built was originally very fast, but now that it had been completely completed, it became extremely lively.

The moment Chen Xiang came out, she immediately understood from Hua Li, that it was because the Super Yuan Dan City and the other four Creation Race s had a good relationship with each other that the four Creation Race s were connected to each other, and that was why there were so many people attracted to him all of a sudden.

"That's good!" Chen Xiang was currently in his villa, so 'Flower' Li Qing also had pills for sale. They were all Peak dan s that Su Meiyao had refined.

The Peak dan could be sold for three hundred Tao-creation Divine Crystals, and Su Meiyao could refine a hundred of them every day. So in this month, she had sold a total of three thousand, and earned eight hundred thousand Tao-creation Divine Crystals.

Peak dan s were only for sale for the time being, and many people had already stepped into the Peak of World Defying magic realm, so the demand for this type of pill was small. However, Chen Xiang felt that she would be able to make a profit from this kind of pill for a short period of time. There are almost all of them. They are much more stable than the average station and can be updated much faster. There are no advertisements in the entire text.]

Xiao Xianglin had already refined quite a few Pressure mantra Soul Stones, and he gave one to Su Meiyao because she wanted to help her with the pill refining. Then, she refined the Doppelgänger mantra Soul Stone for Su Meiyao.

At this time, Chen Xiang was also indulging in her fantasies, letting Xiao Xianglin refine the World Defying Dan grain into a Paternoster soul stone to test her control.

If it was possible, the other Alchemist would not have to spend so much time on this.

"Master, how is the refinement for that Transmission array Plate progressing?" Chen Xiang asked.

"I've already finished refining it!" "Now, we just have to wait for them to finish. If they can't, we can't communicate with each other." Xiao Xianglin used five hundred thousand Tao-creation Divine Crystals to refine a Doppelgänger mantra Soul Stone for Su Meiyao.

After Su Meiyao ate it, she would immediately have two clones.

"Hehe, I can refine Legendary god Dan too in the future." Su Meiyao was able to refine it previously, she only needed Little White Fox's help, but now that she could complete it herself, the pressure on Chen Xiang also lessened.

Xiao Xianglin was currently refining the World Defying Dan grain spirit stone while Chen Xiang was at the side refining the World Defying Dan grain and going in. He had to try the Twin dan grain first because Su Meiyao did not know how to refine the World Defying Dan grain now.

"The amount of Tao-creation Holy Crystals used is pretty high. It requires a hundred thousand." Xiao Xianglin said.

"It's worth it!" Chen Xiang laughed: "Actually, this is not much. Once we control the World Defying Dan grain, then the speed of refining pills, tsk tsk!"

Xiao Xianglin nodded, and with her and Chen Xiang's cooperation, they quickly completed a Twin dan grain Soul Stone.

"sister Meiyao, if you really succeed, you won't need to study the World Defying Dan grain that gives you a headache anymore in the future." Chen Xiang handed the soul stone over to Su Meiyao, and laughed.

"It will definitely succeed." Su Meiyao laughed, he took it and ate it, and a moment later, she revealed a charming smile.

"It's a success!"

Previously, Xiao Xianglin had refined a lot of things, and used up a lot of Tao-creation's Holy Crystals. The amount of money she earned previously was still only a little, but these things were used for profit, for their pills, they would need to use up a lot of Tao-creation's Holy Crystals, and it wouldn't be possible if they didn't have a large amount of Tao-creation's Holy Crystals.

Xiao Xianglin and Little White Fox were both very busy, because they were responsible for setting up the great formation and enchantment around Boss Shen Zhui. Although Qin Shuang and Peng Xuan were not very smart, they could still help a little.

Inside the Time array, Chen Xiang had refined another two Tai Yuan Legend Pills, and this time she used the Twin dan grain.

"It's finally stable now. Awakening the Huajing Dan grain will require fifty thousand Tao-creation Holy Crystals." Chen Xiang said: "I don't know if it's worth it."

"This pill should be called Tai Yuan Legend Pill." Chen Xiang said, because the pill formula itself was given by Chu Jinfeng, he did not need to change his name.

"To refine two pills with fifty thousand gold coins is still worth it!" The early stage of World Defying Stage Legendary Rank is considered very strong here, and is also the group with the most people in the World Defying Stage Legendary Rank. Su Meiyao said: "At that time, the price will be one hundred thousand Tao-creation Holy Crystals, and refining it inside the Time array, by using the Twin dan grain, we will be able to refine four pellets in a hundred years, and that would be four hundred thousand. After deducting the cost of refining, we can also earn another three hundred thousand."

Chen Xiang consumed these two Tai Yuan Legend Pills and entered a long process of refinement. This instantly took two months of time, because Su Meiyao had grasped the Doppelgänger mantra and Twin dan grain, so with her refining, he did not need to worry about the store not selling any pills, she could rest assured and go into closed door cultivation for a long period of time.

"I'll be able to breakthrough after eating three pills, while the others can only eat two." Chen Xiang secretly operated the Legendary gas, and the released Legendary gas congealed into a crystal shape.

A Legendary gas condensing a crystal was something that could only be done by a middle stage Legendary gas.

After Chen Xiang came out of his meditation, she thought that she could fix the array formation on Xue Xianxian's side, but there was nothing to be done. Chen Xiang could only continue to wait, if she could link it with the Hundred Blossom Village, then she would have the female alchemists inside all control the World Defying Dan grain ...

When he thought about it, Chen Xiang felt excited. At that time, he would be able to hide a powerful force behind him, and once someone attacked him, he would be able to counterattack with lightning speed.

"The Peak dan have already reduced their price." Hua Li Qing replied: "Otherwise, it will be hard to sell. We will only get fifty Tao-creation's Holy Crystals, and we will still be able to earn two hundred more."

In the past two months, just with Su Meiyao refining the pellet, she earned over a million Tao-creation Divine Crystals.

There were indeed a lot of Holy Crystals in Tao-creation Place, Chen Xiang felt that he would be able to earn even more in the future.

"After you sell the Peak dan in your hands, close the door for a period of time." Chen Xiang laughed: "At that time, when there are people who need Peak dan s, they will have more Tao-creation Holy Crystals before selling them."

However, they could not do anything about it, and even they were purchasing Peak dan s, so they could only regret in their hearts about why they did not go all out to capture Chen Xiang at that time.

"sister Meiyao, you continue to refine Legendary god Dan s. Have Sister Li Qing auction one from time to time, keep the price high!" Chen Xiang said: "I want to refine a Legendary Primordial Pill so that you all can enter the middle stages of World Defying Stage Legendary Rank first. I want to make some preparations to enter the Initial Thunder-creation Realm."

#### [Chapter 3654](#)

The amount of time it would take for Chen Xiang to refine a Legend Pellet of Primal Chaos, as the Time Formation could help him shorten it quite a bit, but the main reason was that the time it would take to refine a pellet was very long, and it would need around three thousand years to refine one pellet.

After a while, Chen Xiang had already refined enough Tai Yuan Legend Pills, and he had also spent most of the Tao-creation's Holy Crystals. Fortunately, Hua Liqing had sold another batch of pills, so he had been able to earn a lot. He fed them to Bai Youyou and the others one after another.

"Master, is there any reaction from the Transmission array?" Chen Xiang asked again, he had already asked him a few times.

Xue Xianxian and the others were all proficient in smithing and setting up arrays, and they also had Time Formation s and such. It would not take them that long, so he felt that there must be a problem with it.

"No!" It's been a long time. " Xiao Xianglin was also puzzled. "Let's wait a little longer, there's nothing we can do right now."

Chen Xiang could only continue to wait.

Chu Jinfeng was currently managing the Super Yuan Mountain Villa, and there was a large group of Alchemists gathered here. There were all sorts of rich and varied pills, and although they weren't as powerful as the ones Chen Xiang had refined, they were still not bad, and were something that most people could afford.

"Alliance Master, what's the situation in Initial Thunder-creation Realm?" Chen Xiang asked. There lived a group of people who were related to the Tao-creation Divine Lord in the past. They were extremely mysterious.

"They say it will take some time, until they open a door." Chu Jinfeng laughed: "I can't rush such things! Hehe, I also found this from the Chuanghuo key!"

Chu Jinfeng took out a piece of paper and gave it to Chen Xiang.

There was an Array above, which was different from the one he had inside the Chuangxie key. Right now, he was sure that there was such a thing in the key.

"I'm guessing that Thunder-creation Race found it from inside." Chu Jinfeng laughed: "When I have time, I will refine an array disc based on this. At that time, I might even be able to open a door."

"Alliance Master, maybe the nine keys will merge together to create an array disc. After that, the door will open and lead to other places." Chen Xiang said.

"I would like to give it a try, but unfortunately, I will never get that chance because I am unable to gather all nine keys." Chu Jinfeng sighed, two of them were in Tao-creation Divine Lord's hands, and it was very likely that Tao-creation Divine Lord would never return.

As for the other keys, it would be difficult to obtain them.

"Alliance master, I'll go to Fighting Glorious City to take a look, and then return after a while." Chen Xiang hadn't went to Fighting Glorious City for a while.

Because the relationship between the Fighting Glorious City's City Lord and Chen Xiang was not bad, there was also a Transmission array between the Fighting Glorious City and the Super Yuan Dan City.

When they were at the top of Seven Mountains Divine Island, there were many people who liked to soak in the Fighting Glorious City, mainly for the World Defying Stage Peak Divine Rank Colosseum. Now, most of these people had returned, and the World Defying Stage Peak Divine Rank Colosseum had become very lively as well.

When Chen Xiang came to the City Lord's Mansion, he saw that Yang Genming was there and did not go to the arena.

"City Lord, what's wrong?" Chen Xiang asked: "Did something happen?"

"I told Old Yan to investigate the Tao-creation's Divine Crystal Mine, but... But he has a problem." Yang Genming said: "I really need to go and take care of it, I won't be able to call you out during this time."

"What is it? Let me go! " Chen Xiang said. Yan Jiu and him could be considered good friends, they had saved each other's lives before.

"Alright then!"

After that, Yang Genming explained everything to Chen Xiang in detail.

Yan Jiu had gone out to look for the Tao-creation's Holy Crystal mine, and he had even looked into it, but suddenly there was no news, and before Yan Jiu lost contact with him, he had already told him the location of the holy crystal mine.

"Looks like Old Yan's situation isn't looking good right now, or else he would have definitely sent a message back." Chen Xiang also felt that the matter was extremely serious, "I will rush over to take a look now."

Chen Xiang had already stepped into the middle stage of World Defying Stage Legendary Rank, and had two clones. As long as they weren't people at the peak of World Defying Stage Legendary Rank, he would be able to deal with them.

"Alright, you have to be careful. Maybe there will be an ambush." Yang Genming warned.

Chen Xiang took out the Six Realms mirrors and immediately headed towards the location of the mine that Yan Jiu had discovered.

Yan Jiu was quite familiar with the Tao-creation Place, he had traveled there before, so he was responsible for the investigation. This was because there were many Holy Crystal mines in the Tao-creation Place, if he could find one, the Fighting Glorious City would also have some other income.

"This place is quite far from here." Chen Xiang continuously used spatial teleportation, and after half a day, he finally arrived at a mountain forest filled with blue mist. He entered this huge mountain shrouded in strange blue mist, and released two clones and three illusory bodies.

His doppelganger could also unleash illusions, which would allow him to search even further.

"This blue fog is everywhere inside. I can't see far away, I can only sense it through the illusions." Chen Xiang only knew the shape of the mountain and he needed to see it to know the location of the vein.

Two or three days later, he finally found a mountain that looked like a giant wolf lying on the ground.

"Just how did Old Yan find the place in the middle?" Chen Xiang was extremely curious and immediately headed over.

He did not retrieve the clones and illusions, but rather allowed them to roam the vicinity, looking around to see if he could find anyone else.

When Chen Xiang got closer, he took out the Communication jade Symbol paper. This was the Communication jade Symbol paper that Yan Jiu had given him.

"Old Yan, Old Yan, I am Chen Xiang!" Chen Xiang used the Communication jade Symbol paper to send a message to Yan Jiu, but there was no response. This could be due to Yan Jiu being unconscious.

Chen Xiang was able to sense where Yan Jiu was from the direction of the Communication jade Symbol paper, which meant that Yan Jiu was not sealed.

After a while, Chen Xiang arrived at a mountain. Using subtle senses, he arrived at a place close to the mountain peak.

There were more than ten people inside the cave, one of them was in the middle stage of World Defying Stage Legendary Rank, the other three were in the early stages of World Defying Stage Legendary Rank, and the rest were all Peak of World Defying magic realm.

"Yan Jiu, the man whom our Fire Mountain School had wanted to kill for a long time, has now joined the Fighting Glorious City. I never thought that he would be able to enter the World Defying Stage Legendary Rank." The leading old man sneered: "But in the end, he still ended up in our hands. He still has some ability, to be able to discover a Tao-creation's sacred crystal mine."

"Captain!" He's only unconscious right now. If he wakes up, would it be possible for him to expel the poison himself? " one of them asked.

"It can be, but it will take time. In short, he is now at our mercy." The old man laughed heartily: "We are really lucky, right after we found the Tao-creation's sacred crystal mine, we met this guy, and then followed behind him, finding another, much bigger than the one we had."

Chen Xiang never thought that in this bizarre blue fog, he would actually see two Tao-creation's Divine Crystal lode. He secretly laughed in his heart, this meant that his luck was not bad.

#### [Chapter 3655](#)

Chen Xiang did not need Little White Fox to sell it, he just needed her to watch over him from the outside. If there were any fish that escaped from the net, he would 'hand' it over to her. "Senior brother, these fellows are all members of Flame Mountain Sect!" When Little White Fox was in Tao-creation Ancient Place, there were many people who avoided the doors of Flame Mountain City, so she was very familiar with the auras of this group of people.

"Yes, let's see how senior will deal with them!" Chen Xiang laughed and then quietly entered with his two clones.

After entering, the group of people continued their conversation with great pride. They thought that they had accomplished a great deed and were just thinking about what rewards they would receive.

As they were talking and laughing, they suddenly felt a few waves of pressure coming from all directions. The most frightening thing was that this wave of pressure carried a scorching aura.

Chen Xiang was already very familiar with the skill of Chen Xiang being able to easily fuse the flames and the pressure together.

"Yan Jiu is gone." Someone suddenly shouted in shock, they did not know when, but they had been lying in the corner the whole time, and Yan Jiu had disappeared.

Chen Xiang had used the power of space to quietly move it away, so no one noticed.

"Who is it!" Until now, the old man leading the group was still very confident, because he felt that since he was at the middle stage of World Defying Stage Legendary Rank, it was difficult for him to be a match for someone in there.

"My name is Chen Xiang, and I'm just a nobody." Chen Xiang withdrew his Invisibility Spell and revealed himself.

If it was anyone else who did not know about Chen Xiang, that would not be strange, but Yan Shan and the others all knew very well who Chen Xiang was. Back then, when Chen Xiang was in the Seven Mountains Divine Island, he had killed many strong late stage World Defying Stage Legendary Rank s from the four forces.

"Don't worry everyone, just be careful not to attack his mirror! The reason why he was so terrifying was because the mirror could reflect back so much power! His cultivation is usually only at the early stage of World Defying Stage Legendary Rank, but I am at the middle stage, so he is not our match. "It's even faster, the website pages are fresh and the advertisements are few. He likes this type of website the most, I must give him good reviews!" The old man didn't know where he got his confidence from, but he said proudly, "The one who dies in the end will definitely be him."

After he said this, everyone else let out a sigh of relief. This was because the old man's words were filled with confidence.

"So powerful, you scared me to death." Chen Xiang laughed and then increased the pressure, allowing the pressure to quickly pass. The Peak of World Defying magic realm s closest to the pressure just touched the scorching pressure and instantly turned into mist, scaring the others so much that their faces turned pale, and their faces filled with fear.

"You ... What are you doing? Our Flame Mountain Sect was founded by the First Tao-creation Ancestor. It would be treason for you to kill the members of our Flame Mountain Sect. " The old man secretly used his strength, but he had no way to break through the pressure walls that came from all directions.

"The Seven Great Sects? I've killed a lot of your people and have already committed great treason, but I am still alive and well! " Chen Xiang laughed, "On the other hand, you guys are always so lucky to meet me."

Chen Xiang had already walked over, his fist condensed a strong pressure, bringing along the legendary dragon fire, it fiercely smashed into the chest of the old man. The old man was originally pressured by the pressure from all sides to the point where he was unable to move, but now, with Chen Xiang's fist, he immediately spat out a large mouthful of blood.

"Tell me honestly, where is the Tao-creation's Sacred Crystal mine that you discovered?" Chen Xiang said in a gentle tone, "Otherwise, I would just kill you with my fists like this."

Before the old man could reply, the other Peak of World Defying magic realm that was afraid of death immediately informed Chen Xiang in detail.

"Chen Xiang, don't you hope to take over the two Tao-creation's Divine Crystal lode. We have already sent a message back, the Yan Mountain Sect already knows about this, they are sending people here to

mine." The old man sneered. Although he was injured, he still said in a loud voice, "You'd better let me go. At that time, I might be able to say a few good words for you."

Chen Xiang ruthlessly slapped him, "Old fellow, I have never been afraid of the Yan Mountain Sect! Oh right, you must know where the Paternoster Race is! Paternoster Race and I still have an old debt that we haven't settled yet. "

When they were in the Seven Mountains Divine Island, the Paternoster Race had come to find trouble with him time and time again, even forcing him to hand over the Legendary god Dan s' pill formulas, and even wanted to seize Little White Fox's Pressure mantra.

The old man had a stubborn mouth, but the others were all afraid of death, so they immediately told Chen Xiang where Paternoster Race was, making the old man so angry that he was about to die.

"Alright, you can all go die now." Chen Xiang released his pressure flame to its strongest and instantly turned the group of people into ashes.

Yan Jiu had already woken up.

"I really didn't expect that I would be poisoned by this group of fellows." Yan Jiu berated himself for being too careless.

"They also found another Tao-creation's sacred crystal mine here." Chen Xiang said, "Furthermore, the Yan Mountain Sect will be coming to mine soon."

"This is not a good thing. Our Fighting Glorious City is simply unable to contend against their Flame Mountain Sect." Yan Jiu sighed helplessly.

"I have a plan!" How about this, you guys go find the Super Yuan Dan City and work together with them to mine the Tao-creation's sacred crystal mine, what about that? "

"Alright, we will also give you a share when the time comes. The other mine belongs to you." Yan Jiu immediately nodded his head: "We need to hurry back. We need to quickly take care of this matter."

Chen Xiang teleported outside the Fighting Glorious City with Yan Jiu so that Yan Jiu could look for Yang Genming, who was representing the Fighting Glorious City, and talk to Chu Jinfeng.

Chen Xiang had other things to do, if not he would definitely talk about it.

Earlier, Xiao Xianglin had told him that there was a reaction from the array disc, but the reaction was very strange, and told him to find some time to take a look.

After Chen Xiang arrived at a secret and safe place, he took out the Transmission array Plate. This plate could lead to the Hundred Blossom Village, and was able to teleport Xue Xianxian and the others there.

Xiao Xianglin came out from the You Yao Mountain Villa and said, "It's exactly this kind of reaction, which kept emitting and trembling."

Chen Xiang looked at the array in his hand that was shaking non-stop, and felt that it was very strange. He placed it on the ground, and said: "Master, let your Transmission array plate become a little bigger."

After Xiao Xianglin enlarged the Transmission array Plate, it was the same.

"Could it be that there isn't enough energy?" Chen Xiang didn't know why, "Maybe the Transmission array Plate wasn't good enough?"

"The energy source is the Tao-creation's divine pearl, there definitely won't be a problem! If there was an error in the refinement of the Transmission array Plate, it would be impossible to 'stimulate' the entire Transmission array Plate. But right now, I have already succeeded in doing so." Xiao Xianglin said as he furrowed his brows, "Normally, this kind of situation occurs because the two Transmission array Disks have been obstructed greatly and are unable to communicate with each other completely. They can only resonate with each other."

"Is there a way to increase energy and break through the obstacles? Master, you should have considered this when you were refining the formation plate." Chen Xiang said: "Previously, they were able to contact me through the Six Realms mirrors, and it was clear that they relied on my Six Realms mirrors's energy to break through the obstruction."

"This requires me to activate the power inside the Tao-creation's Divine Bead, but it will cause the consumption to be quite large, so it might be useless to me in the future." Xiao Xianglin said.

"Un, I don't care about this anymore. I want to be able to contact them!" Chen Xiang made a decision.

#### [Chapter 3656](#)

Xiao Xianglin did not delay the matter and immediately went to do it. Even faster, the pages of the website were refreshing, and there were few advertisements. He liked this type of website the most, so he must give it a good review.]

Not long later, Xiao Xianglin released the powerful energy from the Tao-creation's God Orb and poured it into the Transmission array plate.

At the same time, it allowed Chen Xiang to feel a strong wave of Time and space power being released. This Transmission array Plate was originally made using a lot of Tao-creation Divine Crystals, it could pierce through many worlds and connect with the Transmission array, making it extremely strong.

Now that he had absorbed so much energy, the Transmission array's penetrating power was even stronger.

The space above the Transmission array disk quickly fluctuated. This was a sign that a spatial tunnel was about to be opened, but after continuing for a period of time, it was always like this, unable to completely open a spatial tunnel.

"Chen Xiang, are you over there?" Suddenly, Liu Meng'er's voice came out.

"Elder Sister Meng'er, it's me!" Chen Xiang anxiously shouted: "What happened? Why is it so bad! "

"Chen Xiang, something big happened over here." Xue Xianxian's voice sounded. "Right now, we are also not clear about what is happening, all I know is that the World Defying Stage Soul River has already been devoured and assimilated into another world, and is not a world with the same system as you."

"What's going on?" Chen Xiang was confused as he looked at Xiao Xianglin.

"Could it be that the place you are at has been swallowed up by another world?" The Tao-creation Incantation is different from the incantations you all are familiar with in this world? " Xiao Xianglin asked anxiously.

"That's about it! This happened more than a month ago, when we were still unable to finish refining this formation plate. Dongfang Xinyue sighed lightly: "I don't know what happened either, but all of a sudden I felt a strong wave of Time and space power enveloping us, and we sensed that we were enveloped by another space."

"The reason why I'm still unable to open the space channel is because the laws of these two spaces are different!" Xiao Xianglin said: "Unless I know of the Space mantra in your space, just a few more improvements and I'll be successful."

"We need to 'figure out' what is going on. You can contact us after a while." Liu Meng'er said, and then they stopped.

Xiao Xianglin took out a white pearl from the Transmission array Plate, and with a light pinch, it turned into dust.

"It broke?" Chen Xiang said in shock, he knew that the Tao-creation's Divine Bead would be damaged, but the damage was too severe.

"Just now, I exhausted the energy of the Tao-creation's divine pearl." Xiao Xianglin sighed: "This is troublesome, the world they live in, has actually been swallowed!"

Chen Xiang also didn't understand, and said: "I have to quickly 'get' another Tao-creation Divine Bead, or else I won't be able to contact them! You can't ask the Alliance Master for it, all of his Tao-creation's divine beads will definitely be used to arrange a formation to protect the Super Yuan Dan Alliance. "

After Chen Xiang thought about it carefully, he went to look for Chu Jinfeng.

Chu Jinfeng had already agreed with Yang Genming that they would mine the Tao-creation's Divine Crystal mine in the Blue Mist Forest together. Chu Jinfeng wasn't afraid of the Flame Mountain Sect at all.

"Chief, I have something to ask you!" After Chen Xiang saw Chu Jinfeng, he directly asked: "The Tao-creation Place we are in ought to be the strongest place above Myriad Tao! You should know that above Myriad Tao, there is a place called World Defying Stage Soul River! Now, the first floor of World Defying Stage Soul River has been devoured. "

Chu Jinfeng was the disciple of the Tao-creation Divine Lord, so he might understand this phenomenon.

After Chu Jinfeng heard this, he immediately took a deep breath. "How did you know about this?"

Chen Xiang told Chu Jinfeng about the process of him communicating with Xue Xianxian and the others.

"If this is true, it means that... which means that the people above Myriad Tao are slowly merging into other spaces. " Chu Jinfeng said: "Back then, Master said that the era of Myriad Tao that they created could be considered to be pretty good. They need to maintain it for a while!"

"But now, they have left. Could it be that they already knew that the era of the Myriad Tao they created would be devoured?" Chen Xiang quickly said: "Is this a good thing for us?"

"This is not a good thing!" Chu Jinfeng said, "In the Myriad Tao Era World, the energy released by our Tao-creation Place will flow to other worlds, large and small, to allow the other worlds to nurture all life, and for all life to release energy, this energy will flow back to the Tao-creation Place.

"And now, all of the energy released by the Tao-creation Place to different realms has been completely devoured. Without any refluence, the Tao-creation Place will be faced with destruction."

When Chen Xiang heard this, he also felt that this was not a good thing.

"Then maybe the Tao-creation Place would also be swallowed." Chen Xiang said: "When the time comes, we can continue the cycle!"

"No, Tao-creation Place and the rest of the world are separate! At that time, Tao-creation Place will definitely be isolated, and at that time, he will be in danger. " Chu Jinfeng walked back and forth a few steps. "Master must have known about this, so he gave up here? What was going on? Could it be that other realms are devouring the Myriad Tao's era? "

"Why don't we go to another world now?" Chen Xiang said: "If that happens, I will also be swallowed, and then nothing will happen."

"If it doesn't work, the path back will definitely be sealed!" Chu Jinfeng looked up at the sky: "I understand now ... This was extermination! this is trying to destroy the Tao-creation Place. "

Chen Xiang thought about the matter of the Tao-creation Ancient Place earlier. The reason he had "created" the Eight ancestor contract map Seal was so that he could preserve the genius of the Tao-creation Place and store their energy. Afterwards, he would destroy the entire Tao-creation Place and the various realms and start over from scratch.

Now that the energy of the Seven Mountains Divine Island had been released to all realms and all realms had been engulfed, on the Tao-creation Place, although there were Nine Creation Race and the Seven Great Sects, everyone was the same. They were trapped on top of the Tao-creation Place and even though there were a lot of Tao-creation's sacred crystals that could be dug out, in the end everyone would have no way of retreating and followed the Tao-creation Place to its destruction.

"Could this be for the sake of destroying the seven major sects and the Nine Creation Race s in one go? There must be something that can make them completely give up on the Tao-creation Place, even me ... " Chu Jinfeng was very helpless because his master did not tell him about this matter.

"Was the main reason why the Tao-creation Divine Lord and the rest wanted to eliminate the influence of the Tao-creation Evil Ancestor?" Chen Xiang asked.

"Yes!" At that time, the evil power of Tao-creation Evil Ancestor could not be suppressed ... However, in the end, the Tao-creation Evil Ancestor was successfully suppressed. It was just that the other seven ancestor were infected with the Evil Spirit Qi of the Tao-creation Evil Ancestor and were in a half evil state. Furthermore, the Killing evil dragon had also broken the seal. " Chu Jinfeng said: "The Killing evil dragon might still be in the Tao-creation Place, their target is the Killing evil dragon!"

was very clear that the Killing evil dragon had already been eaten by the Red fire dragon, so he felt that there must be another reason.

"It seems that our final resort will be the Chuangyuan key." Chu Jinfeng took out the Chuanghuo key. "The Initial Thunder-creation Realm from before is an independent world. It might be able to help us avoid the calamity brought about by the destruction of the Tao-creation Place."

### [Chapter 3657](#)

The great doors of the Initial Thunder-creation Realm had not yet been opened, and they had not yet entered inside. No one knew what was going on inside.

"Chief, do you think the seven major sects and Nine Creation Race s know about this?" Chen Xiang felt that the destruction was drawing closer and closer. There must have been some kind of sign before this.

"I don't know about them." Chu Jinfeng frowned: "I will go and ask those few Creation Race s who are talking about peace with me, they might know something, if not, I will tell them, and see what they have in mind."

Chu Jinfeng took this matter very seriously, he immediately left Super Yuan Dan City and went to the cities of the Creation Race to look for their Patriarch.

Chen Xiang had originally planned to give this villa to Xue Xianxian and the others, but now that he had encountered this kind of thing, he realized that there was no one present at this place.

It was swallowed up by an entire world.

"Don't worry, we can contact them now, so we'll definitely have a way to meet them." Xiao Xianglin said, as he comforted Chen Xiang.

"Okay, now I have to wait for news from the chief." Chen Xiang was currently sitting atop a very tall building in the Villa, looking at the entire Villa.

Chu Jinfeng only went for two hours before returning. After returning, he directly rushed over to Chen Xiang's side, extremely full.

"Chen Xiang!" Chu Jinfeng immediately flew to the top of the tower, landing beside Chen Xiang, his expression was stern.

"Chief, what's wrong?" Seeing Chu Jinfeng's expression, Chen Xiang knew that nothing good would happen.

"There's something you must tell me honestly." Chu Jinfeng pressed both hands on Chen Xiang's shoulders, his expression becoming heavy.

"I will answer truthfully." Chen Xiang realized that this was a serious matter, if not Chu Jinfeng would not have such an expression.

"Have you heard of the Dragon Controlling Palace s, Dragon-Elephant School s, Mortal Life Sect, Tao-creation School s and other sects?" Chu Jinfeng asked.

Of course Chen Xiang had heard of it, he had once entered the Dragon-Elephant School, and Xiao Xianglin was even a disciple of the Dragon-Elephant School.

As for the Dragon Controlling Palace, when he was at the fifth floor, he had a conflict with the people of the Dragon Controlling Palace.

These few sects and Dragon Controlling Palace s were all in Tao-creation Place. After Chen Xiang went to Tao-creation Mountain, he never went back there, nor did he receive any news from there.

Now that there was such a huge change in the Tao-creation Place, all of the sects like the Dragon-Elephant School had gathered here.

Chen Xiang could tell from Chu Jinfeng's serious expression that he knew he would always be a Killing evil dragon! He had previously exposed his own Killing evil dragon, and thus was targeted by the Dragon Controlling Palace and other sects.

"I've heard of it." Chen Xiang nodded.

"Then is the fact that you possess a Killing evil dragon true as well?" Chu Jinfeng took a deep breath and asked.

"No!" Chen Xiang shook his head: "I originally did have a Killing evil dragon, but the Killing evil dragon had already been suppressed by me. It is now a very strong dragon, and it has nothing to do with Killing evil dragon at all."

"Alliance Master, do you remember the last time I saved you, those few old fellows from God-creation Race were attracted away by a dragon? I let that dragon out. "

In order to convince Chu Jinfeng, Chen Xiang had no choice but to release the Red fire dragon.

"A divine beast from the apocalyptic era!" Chu Jinfeng looked at the beautiful little Red fire dragon and exclaimed: "This dragon is indeed comparable to a Killing evil dragon!"

"If I had a Killing evil dragon, I would have been devoured by it long ago! I have clashed with Dragon-Elephant School and other forces, they had previously wanted to force my Killing evil dragon out. When I get very angry, I might lose control, and the Killing evil dragon will appear. " Chen Xiang said: "They almost succeeded last time, luckily I was able to stabilize them at the last moment."

Chu Jinfeng patted Chen Xiang's shoulders and said: "I believe you! It's just that those fellows might not believe that those Creation Race s told me of this! Now, everyone knows just how terrifying Killing evil dragon are. This matter will spread throughout the entire Tao-creation Place before long. "

"I know!" Chen Xiang knew that he could not hide this matter, and would reveal it sooner or later, so he replied calmly, "I will leave the Super Yuan Dan City, and wait for the great entrance to the Initial Thunder-creation Realm to open."

If he continued to stay here, it would definitely cause a huge commotion. At this stage of the game, he did not want any sort of chaos. The most important thing was to find a way to escape from this calamity.

"That's fine too! Anyway, you have already earned a lot of Tao-creation Divine Crystals in this period of time, which is enough for you to use for a while. " Chu Jinfeng also felt that this matter was very troublesome to deal with.

Killing evil dragon s were a nightmare to the seven major sects and the Nine Creation Race.

"Alliance Master, why would the Killing evil dragon appear on me?" Chen Xiang had never been able to understand why.

"There are many complex reasons for this. It will require many coincidences to form, but for you to be able to make the Killing evil dragon transform right now is a good thing. " Chu Jinfeng smiled slightly: "That reverse little dragon of yours will grow up and will be able to possess the same terrifying power as the Killing evil dragon, but it won't be as evil and ferocious as the Killing evil dragon."

"Maybe this is just two sides of the coin! You should have always been cultivating that Divine Dragon before, and that Divine Dragon itself is of the same type as the Killing evil dragon, but one positive and one evil, becoming Killing evil dragon. It's all because you have no way of controlling the evil thoughts in your heart, so with a thought from you, you turned them into Killing evil dragon. "

At that time, Su Meiyao and Long Xueyi had already felt that the Red fire dragon was scary, but Chen Xiang himself did not. This was because he had already been assimilated by the Red fire dragon's evil side, and he had gradually improved on it later on.

"Chief, did you go and talk to the patriarchs of those Creation Race s about the annihilation of the world?" Chen Xiang asked.

"He said it, they've already detected it!" They said, the world opened by the Chuangyuan key, was the last path of retreat! At the moment, they can only open the Initial Thunder-creation Realm's door and prepare to go in. " Chu Jinfeng said: "In order to increase the stability of that huge door, they will need my Chuanghuo key."

"If that's the case, they definitely won't let me in." Chen Xiang sighed, the Nine Creation Race and the seven big party Killing evil dragon were extremely afraid, and they were extremely jealous of Chen Xiang's Heaven Defying Pill Art, because they could not obtain it, so they would definitely be willing to join hands to fight against Chen Xiang.

"Yes!" Don't worry, I'll explain everything to them. " Chu Jinfeng assured Chen Xiang, but Chen Xiang did not have any hope.

"They must have thought that the destructive power was directed at me." Chen Xiang sighed: "Alliance head, forget it, let me settle this matter myself, farewell!"

After Chen Xiang left the Super Yuan Dan City, he was worried that if he did not leave now, there might be people who would come and find trouble with him.

"I also have a Chuangyuan key!" Chen Xiang took out the Chuangxie key s. He had already told Xiao Xianglin to refine the space-time array disc.

[Chapter 3658](#)

Chen Xiang left the Super Yuan Dan Alliance and headed towards the Fighting Glorious City. He changed his appearance and hid within the Fighting Glorious City.

Since the Fighting Glorious City was connected to the Super Yuan Dan City, he didn't go and find Yang Genming when he received the latest news. If others were to find out that he and Yang Genming had been very close during this period, then it would implicate the entire Fighting Glorious City.

Chen Xiang's current strength was insufficient to fight against those sects and Creation Races who were at the peak of World Defying Stage Legendary Rank.

In only two days, the news of Chen Xiang possessing a Killing evil dragon had spread throughout all the newly built big cities in Tao-creation Place.

The Killing evil dragon was the most evil incarnation of the Tao-creation Evil Ancestor, so everyone had it. The Tao-creation Evil Ancestor represented destruction and disaster, but today, another person had actually cultivated the Killing evil dragon out of nowhere.

Yan Jiu had long known about this, it was just that he had never mentioned it before, it was because Chen Xiang possessed the Killing evil dragon, but he knew very well what kind of person Chen Xiang was.

Zhou Xingzhi sighed: "I never thought that Chen Xiang was actually such a terrifying guy. I had underestimated him. But speaking of which, even though he had Killing evil dragons, he did not seem to have let them out."

"If he lets it out, he won't be him anymore! The Killing evil dragon was accidentally created by him, so he had to be extremely careful, and be vigilant at all times to not be engulfed by the Killing evil dragon."

Yan Jiu said: "He should have already left the Super Yuan Dan City, with his personality, he will definitely not implicate Alliance Master Chu."

"We know very well how Boss Shen's people are." Yang Genming sighed: "I hope he can avoid this time, although he can suppress the Killing evil dragon, but the seven major sects and the Nine Creation Races will definitely take action against him in order to prevent future troubles."

Chen Xiang arrived at the Flame Mountain Sky City, the most important city in the entire Flame Mountain Sect.

At this time, Yan Shan and his sect were already stirred up by their stupidity and desire to go and suppress Chen Xiang. Their enmity with Chen Xiang was not small either, the most important thing was still to take a fancy to Chen Xiang's medicinal formula.

Just when they had finished preparing and were about to head to Super Yuan Dan City, Chen Xiang arrived at the top of the Yan Mountain and Heavenly City.

"What's the use of these guys going to the Super Yuan Dan City? I have already left the Super Yuan Dan City, could it be that they have a way to get their Alliance Master to hand me over?" Chen Xiang used a transformation technique to turn into a normal looking man and strolled around the city.

Sky City was constructed on top of a huge Tao-creation Divine Crystal mine. Chen Xiang used three illusions to explore the area below, but he didn't find any strong individuals.

"This mine should be enough for me to activate the Transmission array."

After Chen Xiang finished inspecting the mine, he immediately went to the top and bottom of the mine, and then used his penetrating power to easily penetrate into the mine.

It was rare to see mines like this one with Tao-creation Divine Crystals inside. After Chen Xiang entered, he felt the aura emitted by a large number of Tao-creation Divine Crystals.

"The experts guarding this city have all gone to the Super Yuan Dan City. This is just right for me." Chen Xiang took out the Transmission array Plate, and then, working together with Xiao Xianglin, they had the Transmission array madly absorb the energy of the mine.

This Transmission array could connect to Xue Xianxian and the others. After the Transmission array trembled for a while, Chen Xiang heard Liu Meng'er's voice.

"Chen Xiang, we can now confirm that we have already merged into another world of our own." Liu Meng'er said: "We have already understood that the time and space here are different, but there are still similarities."

"This is a good thing!" Xiao Xianglin said in surprise.

"Hm!" How's it going over there? Do you 'figure out' what's going on? " Liu Meng'er asked.

"Almost done!" Chen Xiang told Liu Meng'er about the annihilation of the world.

After Liu Meng'er found out about this, he was also very worried.

"Elder Sister Meng'er, I have resolved this issue, there is no need for you to be anxious." Chen Xiang laughed, then gave it a try, to be able to inscribe Legendary mantra s and other World Defying Dan grain s, and then teleport over using the Transmission array.

Xiao Xianglin had even brought out two Huajing Dan grain spirit stones, but were unable to teleport over now. "Master! We have to teleport the materials and the spirit stone over. " Chen Xiang said: "As long as we can teleport these over, with their abilities, they will definitely be able to grasp them well."

"I do have a way, but I can't guarantee success and I've lost quite a bit." Xiao Xianglin said: "If it's not 'good', this Time array will be crippled! Of course, the most important thing is that it will consume a lot of energy. "

"Isn't this a mine?" Chen Xiang said.

"Yes, it might absorb all the energy in this mine!" Xiao Xianglin nodded: "Are you sure you want to try?"

Of course Chen Xiang wanted to try. He gave Xiao Xianglin a look.

"Alright!" Xiao Xianglin took a deep breath, and then, controlled the Transmission array plate to frantically devour the energy of the mine.

On top of the array disc laid a Storage bag, inside it was the thing that Chen Xiang wanted to teleport over.

"The spatial and temporal channels opened might be very unstable, and the teleportation device might disappear in the wrong time and space." Xiao Xianglin said.

"I'm fine!" Chen Xiang and Xiao Xianglin stabilized the array disc together, and asked: "Master, do you think it's possible for me to teleport there?"

"Of course not! However, your own energy is very strong. After entering the space-time tunnel, the tunnel will have to endure a lot of energy, but right now, it's impossible to open a stable channel. If you try to force yourself to open it, you will be torn apart by space-time." Xiao Xianglin immediately said.

The Transmission array Plate that was shaking crazily burst out with a blinding light. The Storage bag above suddenly disappeared while it was shaking.

"We see the Storage bag." Xue Xianxian anxiously said.

"Okay, we may need some time next time to contact you." Chen Xiang saw that there were many cracks on the Transmission array plate, and quickly said: "You all better learn the incantations! I'll hand it over to Sister Feng and the others."

After saying that, the Transmission array plate shattered with a "boom". Previously, the formation plate had crazily devoured the energy of the mountain and used a powerful force to open a unstable small pathway in order to send the Storage bag over.

The people on the roof felt it was strange. The reason was that the aura of the Tao-creation Holy Crystal was becoming weaker and weaker, and the enchantments and formations covering the Sky City of Flame Mountain had also lost their effectiveness.

Chen Xiang and Xiao Xianglin anxiously left, this alarmed Yan Mountain City, and before long, they would come to check.

"Just like that, the energy from a mine was absorbed." Chen Xiang looked at the formation plate in his hand and said, "Master, it seems that as long as I have enough energy and a formation plate that is strong enough, I can open a stable passage."

Xiao Xianglin nodded his head: "The passage is unstable, the most important thing is that the array disc is not strong enough, and the instant injection of energy is not strong enough! "The ideal situation is that the array discs of Meng'er and the others can also absorb a great deal of energy at the same time."

### [Chapter 3659](#)

The method that Chen Xiang had mentioned earlier was not the best method to teleport. Xiao Xianglin could only refine a new Transmission array Plate, and when he contacted Liu Meng'er and the others again, he would ask them if they had comprehended the Time and Space Laws there. As long as they could comprehend the Time Incantation and the Space mantra, teleporting would not be difficult. Newer, clearer, less advertising, like this site, you have to be good] -79xs--

This incident in the Sky City of Flame Mountain City made the upper echelons of the city extremely depressed. This was because it was clear that someone had suddenly absorbed the energy of the entire mine. Usually, only extremely powerful formation plates would have this kind of devouring ability.

Originally, the Heavenly City of Flame Mountain was very attractive. Furthermore, the members of the Flame Mountain Sect were very proud of themselves for being able to build a city in such a huge mine. However, it was gone now.

In the mines below the Sky City of Flame Mountain, there were only a very small amount of Tao-creation Divine Crystals.

Chen Xiang originally had enmity with Flame Mountain Sect, so he did this kind of thing very happily.

"How do I activate the entire array disc?" is it like opening the Transmission array plate? " Chen Xiang looked at the black array disc in his hands. This was something Xiao Xianglin had refined using the Array in the key.

"I need energy, and I need to insert it into the groove at the center of the formation plate." Xiao Xianglin said: "The source of the energy was originally the best one among the Tao-creation's divine beads. Then the Array would have ten spots to place in the Tao-creation's divine beads.

They just needed to find an extremely large Tao-creation Divine Crystal mine, and then use the power of the hand washing mine to activate the array disc.

Back then, when Chu Jinfeng asked the God-creation Race for it, it was already extremely difficult. At that time, they already gave Chu Jinfeng quite a bit of it, but it was even more difficult to get it now.

At this time, Chen Xiang thought of a person, and immediately left to find Xia Changdong.

Xia Changdong was in the Fire Heaven City of the Fire-creation Race. When Chen Xiang came here, he used the stone to summon him over.

As a spy, Xia Changdong had the best information, he had long known that Chen Xiang had Killing evil dragon s, and at that time, he was not surprised, because he had seen Chen Xiang's Chuangxie key s before. Before, he was still curious why Chen Xiang had Chuangxie key s, but now, he finally understood, himself had Killing evil dragon s!

"Zhang Dong, you should already know about my situation! This is very bad for me. " Chen Xiang said: "This caused me to not be able to enter the Initial Thunder-creation Realm."

"Master, you have the Chuangxie key. With your strength, you should be able to open the Initial Evil-creation Realm!" Xia Changdong said.

"I do want to, but I'm too lacking in energy right now. Do you know how to 'get' the Tao-creation's Divine Bead?" Chen Xiang needed ten Tao-creation's Divine Beads, "Your Fire-creation Race's Fire Beads are also fine!"

"Even in our Fire-creation Race s, there are only a dozen or so fire pearls left." Xia Changdong was shocked in his heart, and said: "It's not good to 'make' this kind of bead, it would take a very long time to condense it."

"Master, you want these beads, is it to open the Initial Evil-creation Realm?" Xia Changdong asked.

Chen Xiang nodded, "It requires a lot of energy!"

Xia Changdong suspected that it was very possible that the mines beneath the Sky City of Yan Mountain were actually destroyed by Chen Xiang.

"Master, relying on your own strength to open the great 'door' of the Initial Evil-creation Realm is extremely difficult! I think you can go and find Evil-creation Race. " Xia Changdong said: "The people from the Evil-creation Race also built a city, and they were extremely low-key, but we were still able to find out about it."

"Alright, I'll go to Evil-creation Race to take a look." Chen Xiang had Chuangxie key, so he was not afraid of the people from Evil-creation Race.

Xia Changdong told Chen Xiang the location. The city was relatively large, but in order to keep a low profile, they did not set up Transmission array s with other large cities. Chen Xiang could only walk over there.

"Is this Evil-creation Race really that scary? If it's really scary, why would he keep such a low profile? " The Evil-creation Race was also one of the Nine Creation Race s, they were very afraid of the Killing evil dragon, so they had said before that they would suppress Chen Xiang.

Chen Xiang came to this city called Zang Ming City. There were quite a lot of people inside, and their appearances were not bad as a whole, with no signs of "evil".

The city was constructed by the Evil-creation Race, so the City Lord here must be someone from the Evil-creation Race as well.

The City Lord's Mansion had all kinds of enchantments on it, but Chen Xiang easily penetrated through it with his penetrating abilities, and then aimlessly wandered around the City Lord's Mansion. After more than an hour, he finally saw the City Lord.

City Lord was a short and fat middle-aged man with a big beard. He wore a set of black clothes and walked lazily in a flower garden, bathing in the sun.

"Hello, City Lord!" When Chen Xiang appeared, he used the Chuangxie key to press it against the City Lord's waist, and that wave of evil energy immediately seeped in, causing the City Lord to tremble all over.

"You ... Who are you? Why would there be a sacred object of the clan? " The City Lord trembled as he asked.

"I want to see your Patriarch!" Chen Xiang said: "I have something important to talk to him about. Is he here?"

City Lord mustered his courage and turned around. Seeing a face that he had seen in a portrait, his lips trembled: "Shen ... Chen Xiang! "

"Stop talking nonsense. Quickly, bring me to see your chief." Chen Xiang sneered.

The City Lord was even more afraid of Chen Xiang now that he had cultivated a Killing evil dragon.

"I... I'll take you there. " City Lord immediately brought Chen Xiang to a secret room, where there was a Transmission array.

After the Transmission array opened, Chen Xiang came to a forest. The forest was filled with huge trees, on top of these big trees there were some doors, and people from the Evil-creation Race actually lived inside the big trees, making him doubt whether this was the Wood-creation Race.

Chen Xiang's Chuangxie key had a special kind of Qi, so the moment he came here, anyone who had the Evil Bloodline could immediately feel it, and they all came out from the big tree's cave mansion.

Very quickly, thousands of Evil-creation Race people appeared, none of them dared to get close to Chen Xiang, as they were all filled with fear of the dagger in his hand.

A hunchbacked old man walked out with a black dragon walking stick.

The dragon on the dragon cane was exactly the same as the Killing evil dragon, and it also had a trace of Qi. This hunchbacked old man had a very scary eye, and it was not his own, but something else's eye, very much like a dragon's eye, which was emitting a red glow.

"You're the Patriarch?" Chen Xiang asked. With the Chuangxie key in his hands, he did not feel any fear towards the hunchbacked old man who had a higher cultivation than him.

"As expected, only the Killing evil dragon knows where the Chuangxie key is. The hunchbacked old man was the only one who didn't show any fear, but his tone was very gentle.

"Please forgive my rudeness, but I really have no better way to meet you in this manner." Chen Xiang had taken care of the City Lord, and the City Lord immediately ran to the side, frightened to the point that he was covered in cold sweat.

"That's understandable! It seems like you have something important to discuss with me, so please follow me. " The hunchbacked old man laughed heartily, then, using the black dragon cane, he unhurriedly led Chen Xiang towards the largest tree.

He didn't know why, but throughout the journey, he had kept staring at the black dragon cane of the hunchbacked old man. He kept feeling that this black dragon cane was very familiar to him.

The old man brought Chen Xiang into the hole on the tree.

After entering, it was very quiet, giving people a very comfortable feeling. Chen Xiang sat on a wooden chair, looking at the hunchbacked old man.

"How should I address you?" Chen Xiang asked.

"Just call me Old Evil." Old Evil smiled slightly, then poured a cup of something black for Chen Xiang. He didn't know what it was, but Chen Xiang still drank it all, unexpectedly delicious.

"Old Evil, I have the Chuangxie key in my possession. I obtained a Array from it and used it to refine an array disc." Chen Xiang said: "If I'm not mistaken, that formation plate should be able to open up Initial Evil-creation Realm s."

"You really managed to refine that array disc? Can I see it? " The Old Evil found this somewhat inconceivable, because in his impression, that kind of array disc was extremely difficult to refine, because one had to master a lot of incantations.

Chen Xiang took out the array disc and showed it to the Old Evil.

Old Evil only saw it and he was sure that it was real.

"I can indeed open the Initial Evil-creation Realm, but you have to be clear that it requires a very large amount of energy." Old Evil shook his head. "I need at least ten Tao-creation's divine beads!"

"I don't have the Tao-creation's Divine Orb ... But in your Evil-creation Race, do you have any Evil Orbs of the Tao-creation? " Chen Xiang asked, this was the reason why he came here.

"Of course we have the Evil Orbs of the Tao-creation, it's just that the energy of the Evil Orbs are not comparable to the Tao-creation's God Orbs." The Old Evil sighed: "This is also the reason why the God-creation Race is stronger than us. Right now, our two races do not have Chuangyuan key s, so we are definitely being suppressed by them."

"But you seem to be on good terms with each other." Chen Xiang had previously heard that the Evil-creation Race and other Creation Race would come together to deal with him.

"That's only on the surface. We were forced to do it." Old Evil was very helpless, "You must have come here to find us because of an energy source!"

"Looks like I came here for nothing!" I feel like even if you guys have an energy source, you won't give it to me! " Chen Xiang laughed bitterly, this energy source was indeed an extremely difficult problem to deal with.

"If we had, we'd help you." Old Evil laughed: "Why aren't we helping you? You have cultivated a Killing evil dragon, and possess a Chuangxie key. In a sense, you are equivalent to a Tao-creation Evil Ancestor, but your cultivation is just a little low. "

was secretly shocked, possessing Killing evil dragon was really the standard for becoming a Tao-creation Evil Ancestor!

"This... I have indeed released the Killing evil dragon once before, but after it was suppressed by me, it no longer exists. " Chen Xiang felt that he needed to clarify this matter with the Old Evil, he did not want to be seen as a fellow like the Tao-creation Evil Ancestor.

"Even so, you once possessed a Killing evil dragon ... Although it was suppressed by you, it could very possibly become another powerful existence! As long as you don't die, the Killing evil dragon's power will be on your body. " The Old Evil laughed.

What he said was right, the Killing evil dragon had already become a Red fire dragon and that terrifying power was still there.

"No matter what, you guys don't have any energy source. I can only think of another way." Chen Xiang spread out his hands and self-deprecatingly laughed, "Your Tao-creation Place will be destroyed very soon. Your Evil-creation Race will definitely be able to enter the Initial Thunder-creation Realm at that time. You don't have to worry about that."

"Not really!" Old Evil got up, his face was stern: "Opening the door to enter Initial Thunder-creation Realm is not easy, the other eight Creation Race have teamed up, naturally it will not be a problem! We had previously said that we would join them, and we would go together to suppress you. They had also agreed to allow us to enter the Initial Thunder-creation Realm! But only ten of us are allowed in. "

There were so many people in the Evil-creation Race, and only ten of them had entered. This meant that the others would perish alongside the Tao-creation Place.

"That's easy. Why don't you just take the rest of the people with you into a storage divine tool?" Chen Xiang laughed.

"No, they can detect it. They are not stupid!" The Old Evil said, "The reason they are restricting us is because they are worried that our Evil-creation Race will gradually grow stronger after entering the Initial Thunder-creation Realm and suppress us in the end."

Chen Xiang found it somewhat funny and said: "Right now, you're not even comparable to God-creation Race who doesn't have Chuangyuan key, and they're actually afraid of you? These are all excuses! "

"That's not true, because the people of our Evil-creation Race are extremely likely to produce Killing evil dragons. After all, we have the bloodline of the Tao-creation Evil Ancestor." Old Evil laughed: "This is why they are so worried about us. Furthermore, I'm guessing that when I enter the Initial Thunder-creation Realm, they will definitely think of a way to kill us all."

Chen Xiang understood, the Old Evil also wanted to use Chen Xiang to enter the Initial Evil-creation Realm, that was the place that belonged to them.

"But you guys have no way of helping me get the energy source." Chen Xiang looked at the array disc in his hands. If there was an energy source, it could be activated right now, and they would be safe inside.

"There's only one way now, and that is to get enough energy to activate the array disc and enter the Initial Evil-creation Realm." The Old Evil said: "Firstly, we will give you ten Tao-creation's Evil Beads, and you will need to collect a large amount of Tao-creation's Sacred Crystals in the later stages. Through alchemy or refining, you will refine the energy of the Tao-creation's Sacred Crystals into the Evil Pearl, and transform the Evil Pearl into the Tao-creation's Divine Pearl."

"How many Tao-creation's Holy Crystals do I need?" Chen Xiang's heart skipped a beat. There was still a way to go about it, but the difficulty was in collecting the Tao-creation's Holy Crystals.

"A single Evil Spirit Orb of the Tao-creation would probably need ten million Tao-creation Holy Crystals to refine." Old Evil took a deep breath, "This is the difficulty."

Ten Thousand Tao-creation Crystals! Chen Xiang could not help but be taken aback.

"The huge mine underneath the Sky City of Yan Mountain only has a little more than ten million Tao-creation Holy Crystals. It's not easy to find ten of these huge mines." Chen Xiang said as he furrowed his brows, "This is equivalent to finding one hundred million Tao-creation Holy Crystals!"

Even if he sold pills, it wouldn't be that easy. He had no way to sell pills right now, and the Evil-creation Race wouldn't help him sell them either, if not his existence would be exposed.

"When the nine ancestors created this era of the Myriad Tao, they brought something from their homeland called the Tao-creation's Crystal Mother. All of the Tao-creation's Divine Crystals were birthed from this Tao-creation's Crystal Mother." The Old Evil continued, "And now, the Tao-creation's crystal mother has not been taken away. The crystal mother who has been maturing this whole time also feels that the Tao-creation Place is about to find a way out, to escape from this place."

"Tao-creation crystal mother? She can create a large amount of Tao-creation's Divine Crystals for me? "

This was the first time Chen Xiang had heard of this.
