

Dan God 3721

[Chapter 3721](#)

Chen Xiang had indeed grasped many important things. He now began to talk about the situation of the various great Creation Race s here, and then focus on the matter of him annihilating the Thunder-creation Sacred Race. There was also the plot of the God-creation Race s to swallow the Most Ancient Era.

"Master, sigh!" When Chu Jinfeng heard that Tao-creation Divine Lord was dead, he was extremely excited and clenched his fists.

Tao-creation Divine Lord's death had a great deal to do with her.

"Previously, there were people from the God-creation Race who came over to talk to our clan empress. According to what you said, the Beast-creation Race may have already allied with the God-creation Race." Chu Jinfeng frowned: "God-creation Race is so despicable, to think that our clan empress would actually join hands with them."

"Maybe the God-creation Race has told your clan empress about that plan, and your clan empress plans to get involved as well." Chen Xiang said with a stern expression, "Alliance head, I will definitely not allow anyone to destroy Most Ancient Era. On one hand, Most Ancient Era was created by the Tao-creation Divine Lord back then, and on the other hand, if the Most Ancient Era were to be destroyed, we would have nowhere else to go!"

"I know. I will think of a way to deal with this matter. If the emperor insists on acting on his own, I will use my method to fight him." Chu Jinfeng had just told him that the Beast-creation Race's actions after arriving here were extremely strange, and had already made him suspicious of everything. But hearing Chen Xiang's words, he completely understood what the Beast-creation Race would do here in the future.

"Chief, do you know about the First Beast-creation Ancestor?" Chen Xiang asked.

Chu Jinfeng shook his head: "I had asked Master before, but Master had not let go. He was never willing to talk about the First Beast-creation Ancestor!"

The reason the Tao-creation Divine Lord didn't tell him was because he was worried that he would go find the First Beast-creation Ancestor. That place was extremely dangerous, and if Chu Jinfeng were to go now, it might even be in great danger.

After that, Chen Xiang told Chu Jinfeng about the First Tao-creation Ancestor, causing Chu Jinfeng to be pleasantly surprised, because he had always thought that the First Beast-creation Ancestor had died.

"I must meet him when I have the chance!" Chu Jinfeng said.

"Alright!" Chen Xiang nodded his head: "I will be returning to Medicine God Mountain Villa first, if there is any news, we will meet again!"

Chu Jinfeng warned Chen Xiang, telling him not to casually enter the Sky Split Mountain Range, because there were many strong beasts inside.

... ..

Chen Xiang flew for a few days and returned to the Medicine God Mountain Villa. However, when he arrived at the Medicine God Mountain Villa, he heard many people talking about what happened in the past ten days.

Chen Xiang immediately headed towards a hall. When he arrived, he saw that the person seated at the head of the hall was not Pill God but a long and old man dressed in a white robe.

The Medicine God could only stand by his side with an extremely ugly expression.

When the Medicine God saw Chen Xiang, he immediately sent a sound transmission to Chen Xiang, "Chen Xiang, hurry up and leave this place. This guy is extremely evil, I've been tricked by him!"

"What's going on?" Chen Xiang anxiously asked, at this time, the old man only glanced at him casually.

Chen Xiang astonishedly discovered that the old man in front of him had a very powerful Qi, but he had hidden it extremely well and did not release much of it, but he was still able to detect it. This Qi was the World Defying Stage Divine Source! He had sensed it from Ah Ying's body earlier!

"This guy concocts pills very hard, the ten odd famous Pill Gods in our Medicine God Mountain Villa have all lost to him." The Medicine God replied, "As long as you lose to him, you have to follow him for ten thousand years. You absolutely must not gamble with him."

"Who is this kid?" The old man with a long beard laughed and asked, because he noticed that the eyes of the Medicine God when he looked at Chen Xiang, seemed to be sending a sound transmission to him.

"He is..."

"I am a Alchemist!" Chen Xiang said as he walked over. He was using his own appearance and his real name to fight against this old man with a long beard.

The main reason was that the long-bearded old man was a very strong Alchemist, and he had even managed to cultivate the World Defying Stage Divine Source. Chen Xiang felt that he had to obtain something from the long-bearded old man no matter what.

"Oh? Pretty young! What pill can you forge? Do you want to compete with me?" The bearded elder looked interested, but there was also a trace of contempt in his eyes.

Because he saw that Chen Xiang was very young, different from the old Pill Gods in the Medicine God Mountain Villa.

"There aren't many pills that I can refine!" Chen Xiang said: "I am friends with the Medicine God, he has already told me about the matter here! I wonder how senior intends to compete with this kid? Senior does not seem to be an evil person, I believe you can compete fairly with me! "

"My rules are very simple! "Whatever pill you concoct, I will follow you to concoct and whatever pill I concoct, you will also have to follow me to concoct. I will concoct the medicinal ingredients and pill formula myself, but I do not need your pill formula, I only need to consume one of yours to concoct them."

The old man with a long beard left his chair and walked down as he smiled: "I am the one who concocts a pill. You follow me and concoct one. If anyone is unable to forge the other party's pills, they will lose! "

"It doesn't seem fair to you!" Chen Xiang smiled slightly: "I will refine your pills, you will provide me the pill formulas and ingredients, but do you only need the ingredients to refine my pills?"

"Yes!" However, there is one condition. First, you must refine a cauldron with me! " The old man chuckled. "If you can't refine it, you will lose!"

Alchemist had always been a proud and aloof person. Other people had already given him the pill formulas and ingredients, but he felt that he would definitely be able to make it.

"Also, the pills we refine will not use World Defying Dan grain." The old man added.

"I think the rules should be changed!" Chen Xiang thought about it and said.

"How?" This was the first time the old man had heard someone ask him to change the rules. He had used this rule to win a lot of people over the years.

"I might not be able to concoct your pills, but you might not be able to. If we can't concoct the pills of the other party, we'll be able to tie the knot and then continue comparing the other pills, how about that?" Chen Xiang said.

"You look very confident!" The old man laughed, "Alright, alright, let's change things as you say. If you lose, then you will be my follower for ten thousand years and I will listen to you. If you lose, then you will also be my follower for ten thousand years."

The Medicine God had sent a sound transmission to Chen Xiang just now in order to remind him not to agree. Who would have thought that Chen Xiang would actually want to compete with this bearded old man himself?

"Alright, it's a deal!" Chen Xiang nodded in agreement.

"Hold on, there is one more thing. The pills that we refine need to be refined within five hours!" Therefore, most of these pills are low-grade. This test of skill can be made by concocting one pill three times in total! The old man chuckled, "Of course, if you can refine high level pellets this fast, it is also possible!"

[Chapter 3722](#)

Chen Xiang was very confident in his pill techniques. This kind of competition was a test of his pill techniques, and at this moment, he had already asked He Fengyuan to pick out the medicinal ingredients from the You Yao Mountain Villa.

He wanted He Fengyuan to concoct a suitable pill formula for him to use in his pill refining skills.

"Senior's strength is extraordinary, you must not be a nobody, right? "May I know how to address you?" Chen Xiang asked.

"Hu Jingyuan!" The bearded old man had already taken out a blue jade pill furnace and laughed: "I will refine a batch of mine and then you will refine a batch of yours. After that, we can exchange them to refine the pill that the other party had just concocted!"

"Alright, please enter first!" Chen Xiang said.

Hu Jingyuan took out a blanket and sat on it as he started to refine his pills.

The Medicine God and the others were watching from the side. A lot of the Alchemy Gods had lost just now.

"It's the same pill as before!" The Medicine God said.

"Little brother, you have to be careful later ..." The pill god was one of Hu Jingyuan's followers now, they couldn't talk about the details of the pill refining anymore, they were worried that Hu Jingyuan would get angry.

"Aren't you going to start?" Hu Jingyuan asked.

He Fengyuan still hadn't prepared the pill formulas yet, so of course Chen Xiang couldn't start.

"It's fine. You refine it first. Let me take a look." Chen Xiang laughed.

There were more than ten Pill Gods here, as well as dozens of other Alchemist. They felt that Chen Xiang was being too confident! Of course, they did not know Chen Xiang's identity now.

"Young man, you are too conceited. This is not good!" They all thought that Chen Xiang would lose, and would be like him, and become Hu Jingyuan's follower.

The Medicine God was still very confident in Chen Xiang and said, "Everyone might not know this, but this little brother is the Pill God who created the peak of the prideful god realm pill. He has a certain level of strength!"

Everyone present was immediately shocked, and even Hu Jingyuan revealed a surprised expression!

The Proud God Peak Pill was precisely the Peak dan. After Chen Xiang sold this pill formula to the Medicine God, the Medicine God changed his name and became very popular. It could be said to be the most sold pill in the history of the Medicine God!

Everyone in the Alchemist knew about the power of the Proud God's Pill, but very few knew who created it. Now that they knew about this seemingly young brat in front of them, they were all shocked. No wonder he was so confident!

Hu Jingyuan laughed: "This is truly disrespectful, so it turns out that your esteemed self is a pill god with extraordinary strength, it's truly interesting!"

Hu Jingyuan was not worried at all. It seemed that dueling with the strong Pill God was a very passionate thing to him, and he was also full of confidence in himself.

Chen Xiang felt that this Hu Jingyuan definitely had a huge background, it was just that no one had heard of him before, so he had to win against Hu Jingyuan and ask him how he cultivated World Defying Stage Divine Source Qi.

Two hours later, He Fengyuan had already concocted a pill formula. She had been refining pills with Chen Xiang often and thus, she had a very good understanding of Chen Xiang's pill techniques.

Chen Xiang had also started to refine his pills, but when the crowd saw the herbs he took out, they all nearly vomited blood.

Although they were all low levelled medicinal herbs, every single one of them could be used as main medicinal herbs. They felt that in order to defeat Hu Jingyuan, Chen Xiang was really putting in too much effort!

The pill could only be refined three times. If the pill could not be refined three times, then it was a loss. However, it was extremely difficult to concoct a combination of fifty or so medicinal herbs. One might not be able to successfully concoct it after three times.

"You really have the leisure to create such a pill formula. I wonder just how effective it is?" Refining pills wasn't something that could be done just with a large amount of herbs. What was important was the energy generated from the reaction between the ingredients! For some pills, as long as a single medicinal ingredient is refined, it would produce an intense reaction. Its energy is more than ten times greater than that of the medicinal herb itself! "

"There are also some pills that have a violent reaction after fusing two or three types of medicinal herbs. The energy produced by them is a hundred times greater than that of the medicinal herbs themselves." Hu Jingyuan laughed: "Medicinal ingredients and medicinal ingredients have their own counteractions, and can cancel each other out. Even though you have a lot of medicinal ingredients, the pills you refine might not necessarily be good!"

"I know that!" Chen Xiang had already put all the ingredients in the pill furnace. He also realized that the ingredients He Fengyuan had picked out were of the water attribute and the fire attribute.

"Right, Senior Hu, do I have any requirements for the quality of the pills I refine?" Chen Xiang asked.

"Without the requirements, it's already quite difficult to refine it." Even though he had a relaxed expression, at the moment, he felt quite a bit of pressure in his heart, mainly because of the basket of medicinal ingredients that Chen Xiang had just taken out.

He Fengyuan told Chen Xiang that the pills he had refined would be mainly used to heal injuries and would be able to quickly heal fire injuries. There were some strong flames that could burn a person's muscles to the point that it would be difficult to recover.

This kind of injury was mostly caused by carelessness on the part of beasts that used extreme fire, or by fighting. To many people, this kind of injury was only a shadow.

The process of Chen Xiang's refinement was rather easy as well. After all, the refinement of water and fire could completely refine all the medicinal ingredients in an instant. All he needed to do was perform the fusion and refine the medicinal energy.

In order to be of better quality and have stronger effects, he had even gone through a derivation collision. Finally, he had used pressure to condense the pill. Because this was a low-grade pill, the refining process wasn't too difficult.

Very quickly, five hours had passed. Hu Jingyuan and Chen Xiang had finished refining the pill.

"This is the Jade Marks Pill that I refined!" Chen Xiang took out a white pill from the furnace, which shocked everyone. Chen Xiang really refined a pill.

He then started to talk about the effects of this pill, and everyone nodded in agreement. The uses of this pill were quite high.

Hu Jingyuan said: "I want to verify your pill ... I will have a person in the early stage of the World Defying Stage Divine Rank come here to try out a pill like yours! "

Hu Jingyuan released a clone that looked exactly like him. This clone came out from his cultivation and didn't use the Doppelgänger mantra like Chen Xiang did.

This clone of his was indeed only at the early stage of the World Defying Stage Divine Rank. He used flames to burn the clone a little more, leaving behind a fire wound that would be difficult to heal, and then let the clone take the pellet.

Because the clone ate it, Hu Jingyuan was very clear about the reaction of the pill after it entered the body.

After consuming the pill, the clone quickly recovered from the additional fire wounds on his body. Even Hu Jingyuan was exclaiming in his eyes, the pill was indeed more practical.

"Alright, here comes my pill!" This is called the Hard Body Pill, as long as it is an early stage World Defying Stage Divine Rank or middle stage pill, after consuming my pill, my body will become very strong, and I will be able to increase my defense. " Hu Jingyuan handed over a black pellet to Chen Xiang.

[Chapter 3723](#)

Chen Xiang released a Mouse Man, and these Mouse Man s were equivalent to his clones, but they were very weak. Not long after, Mouse Man's body suddenly became as sturdy as a rock, but her movements were not affected at all.

If one took a pill like this before the battle, their body would become stronger and their injuries would be reduced during the battle. This was also a pretty good divine pill.

Chen Xiang gave Hu Jingyuan a total of three sets of ingredients needed to concoct the Jade Marks Pill. Each bottle had more than 50 types of medicinal ingredients, which gave Hu Jingyuan a headache.

And the hard body pills Hu Jingyuan had refined just now were only three types of medicinal herbs. He had given the medicinal ingredients to Chen Xiang and even provided the details of the refining process to Chen Xiang, so this could be considered a complete pill formula.

Chen Xiang did not need to provide him with the refining process, this was what Hu Jingyuan had said before.

"Although the challenge is quite difficult, it is only now that we can face it!" Hu Jingyuan gave a casual smile before he started to sort the medicinal ingredients. He was able to quickly distinguish the attributes of more than fifty medicinal ingredients, and then, he categorized them.

Meanwhile, Chen Xiang had already started refining.

Although Hu Jingyuan's Hard-Body Pellet was of the lower tier, there were many other Pill Gods who were unable to concoct it previously.

"This guy's alchemy skills are extremely high, I can't let my guard down." Chen Xiang looked at Hu Jingyuan and realised that Hu Jingyuan had placed the fire-attribute medicinal ingredients into the furnace to refine them. He had to refine them in batches.

If Hu Jingyuan really managed to refine it, then the following fusion stage would be much more difficult.

"These medicinal ingredients are all very sturdy. No wonder your body is so tough after eating them." Chen Xiang put the three types of fruits into the furnace and secretly used his power to suppress them, making it hard for him to transform.

For Hu Jingyuan to be able to control the World Defying Stage Divine Source's Qi, the flames he released must be very strong as well.

Chen Xiang guessed that the refining difficulty should be at this stage.

Two hours had passed, and Chen Xiang frowned, because he had used many different refining methods to try the three fruits, but they had not melted.

"Do I really have to use pressure to refine it together with the legendary dragon fire?" Chen Xiang only missed this method by a little. He was worried that this method would be too berserk and cause the ingredients to be damaged.

Now that there was no other way and there was a time limit, he had no choice but to try it out.

Through his clone, he released an even stronger pressure and legendary dragon fire, pressing it into the medicinal herbs and fiercely burning them.

In just a short moment, a crack had appeared on the surface of the three fruits!

"This is bad!" Chen Xiang was anxious, but it was already too late. The three fruits had already been broken, and the energy stored inside had flowed out, fusing into the flames.

Now, the only thing left of the Tianchuang furnace was blazing fire. The herbs had already turned into energy, strengthening the flames.

"At least this will work." Chen Xiang secretly heaved a sigh of relief, following this, he just needed to be careful, and the situation wouldn't occur anymore.

Seeing Chen Xiang's failure, everyone felt that it was all within their expectations. Especially the Pill God who failed here just now, they were already very familiar with this situation.

Chen Xiang put in the second batch of medicinal ingredients. This time, he controlled the pressure and the legendary dragon flames well, and after that he increased them bit by bit, each time with a slight tremble. This way, he could avoid damaging the medicinal ingredients in an instant.

"There's movement!" After Chen Xiang saw that the medicinal ingredients were vaporized by the burning, he immediately controlled the flames to become much weaker. After that, he observed carefully and slowly increased the fire pressure to burn them again.

Just like this, Chen Xiang gradually familiarized himself with the flames and pressure this type of medicinal ingredient could withstand, and then very smoothly burned the medicinal ingredient into a Medicine crystal.

"I've finally succeeded!" Although Chen Xiang had only progressed to this stage, he still felt it was extremely relaxed. As long as he continued to maintain this pace, he would be able to concoct the Hard Body Pill.

It had already been six hours, and Hu Jingyuan also felt that it was unexpected. This was because Chen Xiang was actually able to be this stable while refining the second furnace.

Chen Xiang secretly admired Hu Jingyuan as well. Even after six hours, he still had not failed a single time.

The pills refined by Hu Jingyuan required over fifty medicinal ingredients, and it was his first time refining such a smooth process. Everyone was extremely shocked, and looking at Hu Jingyuan's expression, he seemed to be half done.

Chen Xiang was the clearest about the process of refining the Jade Marks Pill, it was not easy, and at this moment, he gained a new understanding of Hu Jingyuan's strength.

When it was about to end, Hu Jingyuan announced that he had successfully refined a pill and opened his pill furnace.

He really did concoct the Jade Marks Pill, it was just that the quality did not seem to be as high as the one Chen Xiang had concocted previously.

Chen Xiang finished the refinement a bit later than Hu Jingyuan, he opened his pill furnace, and also refined a hard body pill.

Everyone was equally puzzled and felt that it was strange. The hard body pills refined by Chen Xiang were actually of a higher quality than the ones refined by Hu Jingyuan!

Those Pill Gods were extremely impressed by Chen Xiang's control of quality, even Hu Jingyuan himself revealed an admiring expression. He also realised that the Jade Marks Pill that he had refined was far inferior to Chen Xiang's pill from before. If he had to request for quality, he would definitely lose this round.

"We are even!" Chen Xiang said.

Although Chen Xiang said that, Hu Jingyuan secretly felt guilty, because he knew that he was slightly inferior to her in this competition. This was mainly because of the quality of the pills, but he suddenly felt that this was his greatest weakness.

"Then let's continue! Just like before!" Hu Jingyuan smiled slightly: "You are indeed powerful. Today, no matter what, we must decide who is stronger!"

Those Pill God previously thought that Chen Xiang did not have any chances of winning, but now they had a whole new level of respect for him!

What gave Hu Jingyuan an even more headache this time was that Chen Xiang actually took out over a hundred medicinal herbs. Seeing those medicinal herbs, Hu Jingyuan's back was already covered in cold sweat.

The Jade Marked Pill that required more than 50 types of medicinal ingredients was not a problem for him. However, this 100 over was hard to say, as he was not 100% confident.

These medicinal ingredients were all picked out by He Fengyuan in the You Yao Mountain Villa just now. The difficulty of refining them wasn't difficult for Chen Xiang, but for the other Alchemist s, it was extremely difficult.

"This time is different from the last time. Among the herbs, the difficulty is in fusing 10 of them. The rest of the ingredients are all supplementary and won't cause too much trouble." He Fengyuan said. She had already told Chen Xiang the characteristics of the medicinal herbs.

When Chen Xiang started refining, he was very surprised with the pill formulas that He Fengyuan had made. She had actually been able to pick out so many medicinal ingredients.

[Chapter 3724](#)

Five hours later, Chen Xiang and Hu Jingyuan managed to refine a batch of pills.

What Hu Jingyuan had refined was a pill shining with a red light. It seemed as if there was blood flowing inside it.

"This pill is the Blood Transformation Pill!" Hu Jingyuan spoke of his pill with a face full of pride, "The Blood Transformation Pill is used to cure poisons! After a person dies from poison, the poison will spread into their bloodstream. After consuming the Blood Transformation Pill, they will be able to dissolve the entire blood poison and not only will it not harm the blood in their body, it will also breed fresh blood. "

"Since it's an antidote pill, then I'll just eat it myself. There's no need for me to try using my avatar." Chen Xiang took it and ate it, feeling the power of the Blood Transformation pill.

After Chen Xiang consumed the Blood Transformation Pill, he closed his eyes.

The energy of the Perception Pill was helpful in determining the quality of the medicinal herbs.

"Where is the pill you refined?" At this moment, his heart felt extremely heavy, because he did not know whether or not he could refine Chen Xiang's pellet.

He only hoped that Chen Xiang would also not be able to refine the Blood Transformation Pill, and he had already used nine or nine types of medicinal ingredients to refine the Blood Transformation Pill.

"This pill of mine is called Divine Eye Pill!" Chen Xiang laughed: "If in battle, my eyes were pierced or dug out, as long as you eat my God's Eye Pill, you can refine and grow a pair of eyes, and my eyes are even more beautiful than before! When met with strong light, will not be stinging. "In addition, it can also improve your eyesight, allowing you to see further and more clearly."

This pill may not have a wide range of uses, but it had a unique effect.

Hu Jingyuan nodded his head, this time he was also going to use one of his clones to test his pill, only to see him release a clone whose eyes had been dug out.

"My clone's eyes have been damaged for many years. Even if they were to grow back, they wouldn't be as good as they were before." Hu Jingyuan said: "This is just nice for testing your pills."

Chen Xiang gave the God's Eye Pill to Hu Jingyuan.

Hu Jingyuan let the doppelgänger eat it, and very quickly, the two eye sockets of the doppelgänger emitted a faint golden light as well.

"Not bad indeed!" Hu Jingyuan exclaimed.

The next step was to exchange ingredients and refine the pill from before.

After Chen Xiang received the ingredients for the Blood Transformation Pill, he was secretly surprised. The ingredients for this Blood Transformation Pill were all rather strange, he did not know if he could successfully refine it.

Chen Xiang already knew about the refining process from Hu Jingyuan, which was of great help to him.

"These medicinal herbs are actually roots!" Chen Xiang looked at those strange looking roots. Although it was only a very short length, every piece of the roots were different.

Chen Xiang placed all these roots inside the Tianchuang furnace, and just like before, he used pressure and the legendary dragon fire to refine them. He realized that this kind of medicinal ingredient was also very difficult to refine, so he used this method from the start and didn't try any other refining methods.

Before long, he encountered a problem. He had never thought that the roots could absorb the energy within the flames and grow at a faster rate.

The eight tree roots were growing very quickly, and they couldn't stop them no matter what. Once they released the flames to burn, the tree roots would grow incessantly.

If the fire was stronger, it would grow faster.

"This is really strange!" Chen Xiang immediately told He Fengyuan about this situation.

"There must be a large amount of regeneration power contained within. I suggest that you control the regeneration power inside the medicinal plant and separate it from the medicinal plant." He Fengyuan said. She could be said to be the person who had the most understanding of medicinal herbs. Even the Medicine God was inferior to her.

Chen Xiang immediately did as he was told. First, he went to feel the power of regeneration inside the roots of the tree, which was not easy to discover. It took him a long time to lock onto it.

"These medicinal materials definitely have phoenix blood!" Chen Xiang secretly suspected, because the phoenix had this kind of characteristic.

Chen Xiang will refine it after separating the power of rebirth inside. As expected, the roots did not continue growing.

On the other side, Hu Jingyuan didn't have time to look at Chen Xiang's situation, because he was too busy to listen.

Chen Xiang was currently progressing very smoothly, since after the medicinal herbs grew, they had gained a lot of energy, but it was nothing to Chen Xiang, as it could even greatly increase the quality of the medicinal herbs.

Everyone knew that the pills refined by the two parties this time round would be extremely difficult. They could tell from Chen Xiang and Hu Jingyuan's expressions.

"I have to figure out where this Hu Jingyuan came from. This kind of powerful guy definitely did not appear out of nowhere, at least those roots are not ordinary things. Although they are considered low level medicinal herbs, these types of medicinal herbs do not grow naturally."

According to Chen Xiang's description, she could understand the situation very clearly. At the same time, she also found out that there were some gray fruits that could be used to concoct the Hard Body Pill.

"Not growing naturally? Isn't that what Sijing and Beauty did?" Chen Xiang laughed: "There's nothing to be surprised about!"

"What I mean is that these medicinal plants are not made like this by nature, but are made by someone. Perhaps they are formed by some sort of method or technique." He Fengyuan said: "This is more similar to Beautiful and the others' methods of fusing the medicinal herbs."

"Do they also know how to merge medicinal ingredients?" Chen Xiang asked.

"This isn't the fusion of medicinal herbs, but rather the creation of a medicinal herb. I just don't know how they managed to do it!" I can clearly feel that this medicinal herb is not something that can be found naturally. " He Fengyuan was extremely sensitive to the aura of medicinal herbs and he believed what she had said.

"Let's defeat him first. As long as I can defeat him, he will become my follower for the next ten thousand years." Chen Xiang said: "From this guy's expression, he shouldn't be someone who acts shamelessly."

Chen Xiang could tell that Hu Jingyuan was someone who really liked to compete in pill refining, and he had never met an opponent before, only, he had met Chen Xiang this time.

Hu Jingyuan's heart was extremely heavy, because he knew that it was extremely likely for him to lose.

The five hours had ended, and Hu Jingyuan had failed once. Even though he had persevered to the very end, he had not succeeded.

"There isn't enough time!" Hu Jingyuan sighed, he felt that if he had enough time, he would definitely be able to refine it, and the previous failure had wasted a lot of his time.

"I've refined it!" Chen Xiang smiled and took out a Blood Dissolving Pill from the furnace.

Hu Jingyuan understood the Blood Transformation Pill very well, so when he smelled the pill's fragrance, he was sure that it was a newly concocted Blood Transformation Pill, and the quality was even better than what he had concocted.

"I've lost!" Hu Jingyuan sat on the ground with a dull expression.

[Chapter 3725](#)

Chen Xiang passed the Blood Transformation Pill to Hu Jingyuan.

"The Blood Transformation Pill you refined is of good quality!" Hu Jingyuan looked at the Blood Transformation Pill for a long time before finally speaking in a daze.

The other Pill Gods were secretly happy in their hearts. When they lost to Hu Jingyuan previously, they were also in the same mood.

"You are my master now, I, Hu Jingyuan, will do as I say." After Hu Jingyuan accepted the truth, he stood up, and it was as if he suddenly became spirited again, no longer in his bald and useless state just now.

"Well, now you have to listen to me." Chen Xiang laughed: "In the future, they will no longer be your followers. Give them back their freedom!"

Chen Xiang pointed to the Pill Gods.

Hu Jingyuan nodded his head, he felt that the Pill God would be useless as his follower. This caused the other Pill Gods to continuously thank Chen Xiang. At this moment, Chen Xiang was even more important to them in their hearts, and none of them dared to call themselves a Pill God anymore.

After greeting the Medicine God, Chen Xiang brought Hu Jingyuan to his residence in Medicine God Mountain Villa.

... ..

"Master, can you guide me to refine the Divine Eye Pill?" Hu Jingyuan asked when he saw that he had come to a quiet place.

"Of course you can!" After that, Chen Xiang told Hu Jingyuan about the characteristics of the medicinal herbs in the God's Eye Pill one by one, as well as detailing the main points that he needed them to do.

After Hu Jingyuan finished listening, he suddenly realized what was going on and immediately thanked him.

"Old Hu, I can vaguely feel that you have cultivated World Defying Stage Divine Source Qi, your cultivation is considered very strong here, and yet you can still abide by your words, it is truly admirable." Chen Xiang said.

"Even this can be discovered by you. Awesome!" Hu Jingyuan was slightly shocked, and said: "Actually I feel that as a Alchemist, you still have to have the basic character, that way you can concoct a good pill! To Alchemist, being kind is extremely important. Even though I am getting ahead of myself, I can't do something that goes against my conscience. "

Chen Xiang nodded with a smile, "Since you can think like this, you can definitely ascend to greater heights in the Pill Dao in the future!"

Hu Jingyuan chuckled: "Master, your master must be very powerful!"

"My masters are quite a few! There are some strong ones, but not many of them concoct pills. " Chen Xiang laughed, "I am curious about your background, your medicinal ingredients are all very strange."

Hu Jingyuan said: "That, I have directly created all of the medicinal herbs, using the power of humans to create them! "As long as you look more carefully, you will be able to see how strange the medicinal herbs are."

"Old Hu, how did you manage to cultivate World Defying Stage Divine Source Qi?" Chen Xiang was confused: "If you had taught me, then you wouldn't have to be my follower."

"Well... "It's more difficult!" Hu Jingyuan frowned: "Being able to cultivate it is also due to luck!"

"Can you tell me a little?" Chen Xiang asked quickly.

"The place I come from is very special. It is a place where everyone understands how to refine pills! There are a lot of Alchemist like me there, so the powerful Alchemist over there isn't too precious. What's more valuable is the creator of the alchemist, they can create all kinds of medicinal herbs! "

"Is this a race?" Chen Xiang was surprised, there was actually such an existence.

"You can say that! I am also a member of the Innate Medicine Clan, but I do not have talent for Innate Medicine. " Hu Jingyuan sat down and sighed: "So, on my side, a Alchemist like me can only be a subordinate of an Inheritor. I was just lucky enough to get the medicinal ingredients rewarded by the creator of the medicine, so I carefully refined that medicinal ingredient into a pill, then condensed the World Defying Stage Divine Source Qi. "

"After I successfully condense the Divine Origin Qi, I'll leave that place."

That kind of medicinal herb could actually be condensed by a person.

"There's actually such a Creation Race!" Chen Xiang was very interested in the medicinal ingredients that Hu Jingyuan had mentioned just now.

"It's not that easy to get that medicinal herb." Hu Jingyuan said: "After I left my hometown, I found out that the medicinal ingredients outside were so scarce, so I admired all of you for being able to cultivate to the peak of World Defying Stage Legendary Rank in an environment like this where there are so few medicinal ingredients."

"In your hometown, are there many people who can cultivate World Defying Stage Divine Source Qi?" Chen Xiang wanted to go there and see.

"Not much, but it's better than yours. You guys would definitely have fewer people here who can cultivate World Defying Stage Divine Source Qi." Hu Jingyuan said.

"Can you take me to that place?" Chen Xiang laughed: "This shouldn't be a big deal! After you left your hometown and experienced the outside world, it's time for you to return. "

"However, I was brimming with confidence the moment I came out. Yet, I was defeated by you." Hu Jingyuan laughed bitterly.

Chen Xiang patted Hu Jingyuan's shoulder, and laughed: "As long as you bring me to your hometown, I won't mention anything about you losing to me! And then you'll be free. "

"Alright!" Hu Jingyuan felt that following Chen Xiang for a period of time was not bad, at least he could learn a few things.

Beast-creation Race was currently so powerful, and had teamed up with God-creation Race to form a very powerful force. If they were to succeed, they would definitely engulf the entire Most Ancient Era.

The only way to stop Beast-creation Race and the rest was to become stronger!

Chen Xiang told Hu Jingyuan to wait for him in the Medicine God Mountain Villa for a period of time. He wanted to go to the Sky Split Mountain Range and find Chu Jinfeng to understand the situation there, but after he went there, he did not see Chu Jinfeng.

"Could it be that the chief is no longer in the Skysplit Mountains?" Chen Xiang waited for a few more days, but there were no movements on the order badge, so he could only return to Medicine God Mountain Villa.

There were many strong beasts hidden in the sky above the mountain range, and he dared not enter unless he could cultivate World Defying Stage Divine Source Qi.

Returning to the Medicine God Mountain Villa, Chen Xiang talked about matters regarding the Beast-creation Race with the Medicine God and the Ice-creation Race Emperor, then left the Divine Power City with Hu Jingyuan.

"Master, that Peak Ascendant pill is really not bad, we don't even have such a pill in our place." Hu Jingyuan took out a small boat and flew high up in the sky with Chen Xiang on it. There was a Proud God Peak Pellet in his hand.

"Originally called the Peak dan. I didn't give the recipe to the Medicine God." Chen Xiang said.

"The most difficult part should be the World Defying Dan grain inside right?" Hu Jingyuan seemed to be extremely interested in this kind of pellet.

"No, the World Defying Dan grain inside is not some sort of profound pill pattern." Chen Xiang laughed: "If you want to learn, I can sell it to you!"

"Alright, when I bring you back to my hometown, I'll buy your pill formula." Hu Jingyuan naturally wanted to learn more about the better pills. The pills that he had refined with Chen Xiang previously, were all pills that Chen Xiang had purposely concocted in order to win against him. There were a lot of medicinal ingredients required to refine those pills, and making them was extremely difficult, not something that could be easily sold.

"How far is it?" Chen Xiang asked.

"It will take me about two months to fly. It's not too far!" Hu Jingyuan said.

Hu Jingyuan's speed of flight was not any slower than Chen Xiang's Six Realms mirrors, as even this required him to fly for two months. It could be seen that his hometown was in a very distant place, far away from the flourishing region of the Most Ancient Era.

[Chapter 3726](#)

At this time, Hu Jingyuan was also in a hurry to bring Chen Xiang to his hometown. This way, he would be able to buy Chen Xiang's Peak dan s' pill formulas.

"Old Hu, your pill refining skills are not bad. How's your battle skills?" Chen Xiang asked with a smile, giving Hu Jingyuan a bad premonition.

"Master, are you telling me to bully someone?" Hu Jingyuan laughed dryly.

"No, I just want to be safe on the road." Chen Xiang laughed, "Don't worry, I am a very obedient person. I won't casually cause trouble."

Even Chen Xiang himself didn't believe that he was someone obedient, but Hu Jingyuan didn't know about what happened to Chen Xiang, so he believed it to be true and nodded his head in relief.

Although I'm not specialized in combat, I'm still quite good at it. After all, those who come out to mess around, as well as those who have to be tough enough, will inevitably meet some people who seek their own deaths. Hu Jingyuan rubbed his fist, "Master, don't worry, we will definitely be very safe on our journey."

"That's good!" Chen Xiang lied on the chair and looked at the scenery below him through the window. The little boat was flying very high and steady and its speed was very fast, so Chen Xiang felt that it should not be ambushed at this height.

After the small boat flew for three days, it suddenly swayed. Chen Xiang who was originally resting with his eyes closed, was woken up by the slight movement.

This small boat was protected by a very strong barrier. For it to be able to cause such a weak tremor, it meant that there was quite a bit of movement outside.

"Old Hu, what's going on outside?" Chen Xiang could only see from the window.

"There are some lusty guys attacking from below!" Hu Jingyuan's face was also filled with anger. "Let's go down and see who exactly is this blind fellow. Even though we flew so high, we didn't offend them."

Chen Xiang had originally wanted to let him quickly fly away, but it was already too late. Hu Jingyuan controlled the small boat to quickly descend to the ground, and then, he rushed out of the small boat.

Chen Xiang also followed Hu Jingyuan out, and saw five middle-aged men.

Chen Xiang recognized the clothing of two of the middle aged men. They were two from the God-creation Race s, the peak of the World Defying Stage Legendary Rank.

"You attacked our boat?" Hu Jingyuan shouted in anger.

"Hand over the Chuangshen key!" A middle-aged man from the God-creation Race snorted: "Hurry up or I'll kill you all!"

Chen Xiang finally understood that his Chuangshen key was not sealed, so the God-creation Race sensed it.

"Old Hu, this is my business!" Chen Xiang walked forward and said to Hu Jingyuan in a low voice: "You can just watch from the back. If I can't beat him, it won't be too late for you to make a move."

Hu Jingyuan nodded.

"The Chuangshen key is with me!" Chen Xiang took out the Chuangshen key, his eyes filled with killing intent: "You bastards, you must have participated in the assassination attempt on Senior Gu Tong!"

"Gu Tong? So it turns out that your Chuangshen key was obtained from Gu Tong. No wonder we couldn't find anything at your place!" The middle-aged man from the God-creation Race laughed loudly. "That good-for-nothing Gu Tong, who doesn't have much ability of his own, yet wants to stubbornly defend the Chuangshen key without letting go, he is courting death!"

Who the hell are you? What exactly is his relationship with Gu Tong, and why are there Chuangshen keys?"

Chen Xiang paid attention to the other three middle-aged men, who were not from God-creation Race, but they were very strong, and were not weaker than the two elders from God-creation Race.

"Who am I? I am your Grandpa Shen!" Chen Xiang laughed coldly: "You are all from the God-creation Race. Could it be that you are no longer afraid of Chuangshen key?"

"Hahaha... You must be Shen Fei? I never thought that you would have so many Chuangshen keys in your hands. Perhaps you have already gathered all nine of them, The middle-aged man from the God-creation Race laughed loudly.

The other middle-aged man continued to sneer: "We are no longer afraid of the Chuangshen key anymore, you should surrender now, hand over all the Chuangshen keys and we can let you live!"

This caused Chen Xiang to be secretly shocked in his heart. Then, he looked at the other three middle-aged men, and suddenly thought in his heart, that these three middle-aged men were definitely from the Beast-creation Race.

He guessed that it was extremely possible that the people of the God-creation Race, with the help of the Beast-creation Race, would no longer fear the restraint of the Chuangshen key!

If weakness was really like that, then God-creation Race would be even more difficult to deal with in the future!

Chen Xiang immediately kept the Chuangshen key.

"Don't worry, I won't give you the Chuangshen key even if I die! If you kill me, the Chuangshen key will disappear with me." Chen Xiang was not afraid of the people in front of him, if he could not defeat them, there would be Hu Jingyuan behind them.

Hu Jingyuan was not weak, after all, he was able to produce World Defying Stage Divine Source Qi which far exceeded the level of the people in front of him.

"I don't need to worry about that. As long as I capture you, I have a hundred ways to torture you. I'll have you obediently hand over those Chuangyuan keys."

As the middle-aged man spoke, he had already arrived in front of Chen Xiang, his fist carrying the force of a spatial crack as he charged towards Chen Xiang's nose. The ground shook violently, and the wind created by his fist created a violent thunderstorm.

"With your little strength, you still dare to be so arrogant in front of me!" Chen Xiang also channeled his strength, and struck towards the incoming fist. The Bone-melting magic power, accompanied by a burst of pressure, surged out from the fist and poured into the opponent's fist, instantly burning away the bone in that fist.

Very quickly, it melted all the bones in the opponent's body. After that, Chen Xiang jumped over and crazily stepped on it, stomped on it until it split the mountain. The middle-aged man's body was trampled to the point that not even his bones were left.

Chen Xiang used the power of two clones. As long as it wasn't the power of those Legend rank pinnacle experts who had cultivated World Defying Stage Divine Source Qi, he was not afraid in the slightest. That middle-aged man from before was a Legend rank pinnacle expert with decent strength.

"Don't think that I always rely on the Chuangshen key to deal with you! Trash like you, I can easily kill you all. " When Chen Xiang's voice came out, for some reason, a Red fire dragon suddenly appeared. It was not small, and wrapped around another middle aged man whose face was filled with shock.

After the Red fire dragon had wrapped itself around the middle-aged man, it let out a low growl and the flame shot out explosively, turning the middle age man into ashes!

"This is ..." The middle-aged man from the Beast-creation Race had already seen how powerful Chen Xiang's Red fire dragon was. Their faces were not filled with fear, but with shock and greed.

What Chen Xiang did not expect was that when one of the middle aged men released his aura, it was actually Divine Qi. He immediately rushed towards Chen Xiang's Red fire dragon with a chain in his hand.

"Old Hu!" Chen Xiang anxiously shouted.

After Hu Jingyuan saw Chen Xiang's Red fire dragon, he was also surprised, because the Red fire dragon's aura was too terrifying. After hearing Chen Xiang's shout, he immediately rushed over to stop the middle-aged man.

[Chapter 3727](#)

When Hu Jingyuan came out, he immediately took out his pill furnace and the middle aged man punched it, releasing a "weng" sound. The middle-aged man was immediately enraged, and after he roared loudly, scales appeared on his body, his hands transforming into dragon claws. He was actually a person with a Dragon Blood vein.

Seeing the formation, Hu Jingyuan was startled, and immediately retreated a few steps.

At the same time, Chen Xiang had already attacked the middle-aged men from the other two Beast-creation Races.

These two middle aged men did not have any Divine Origin Qi, so Chen Xiang did not feel much pressure from them. He could use Six Realms mirrors s, two clones and the Red fire dragon to easily kill these two middle aged men.

When the middle-aged Beast-creation Race who had become a Draconian saw his two companions die, he was extremely furious. They had originally thought that they could easily take down Chen Xiang while cultivating Divine Qi, who knew that Chen Xiang and the others had one too, and it was not weak either.

Chen Xiang used the Red fire dragon to disturb the middle aged man, coordinating with Hu Jingyuan.

This made Hu Jingyuan feel much more relaxed.

"What do you two against one count?" The middle-aged man shouted angrily: "Our Beast-creation Race is extremely powerful. You used such a despicable method to defeat me, you will all die a horrible death!"

B000M!

Hu Jingyuan's pill furnace fiercely smashed into the middle aged man's head, causing him to bleed profusely, causing the middle-aged man to become even more furious.

Bang!

Chen Xiang's Six Realms mirrors also smashed over ruthlessly, striking many of the dragon scales on the middle-aged man's body off.

Under Chen Xiang and Hu Jingyuan's continuous attacks with their pill furnaces and Six Realms mirrors, the middle-aged man was already covered with wounds, and before long, he fell to the ground with heavy injuries.

"Give this fellow to me, I want to use it to forge pills!" Hu Jingyuan laughed.

"Alright!" Chen Xiang spread out his hands: "This guy is really a treasure in your eyes!"

Hu Jingyuan had already cultivated the Divine Origin Qi, and the reason he used the middle-aged man's body to refine pills, was also to increase his own Divine Origin Qi.

This was actually not very useful to Chen Xiang.

"You two bastards!" The middle-aged man was furious, but he could only curse.

Hu Jingyuan was not one bit afraid of the Beast-creation Race, he laughed and threw the middle-aged man into the pill furnace, then took out the small boat and walked with Chen Xiang to continue their journey.

"Old Hu, I didn't expect you to be so good at fighting!" Chen Xiang laughed, just now, what Hu Jingyuan faced was not a person who simply cultivated deity's origin energy, but a guy who could turn into a human dragon.

"If it wasn't for master's help, I might not have been able to get away with it that easily." Hu Jingyuan seemed to be very happy at the moment. The flesh of the Draconian was a good ingredient for him to refine pills.

"Old Hu, do you know anything about those Creation Race s?" Chen Xiang asked.

"I know a little, they are the people who created this Most Ancient Era. Because this Most Ancient Era was created by them, no matter how strong they are, they cannot surpass the peak of power. They are already restricted by the world that they created." Hu Jingyuan said: "It's hard for them to surpass us, but it's even harder for us."

Hearing that, Chen Xiang's eyes flashed, and said: "Old Hu, there is a place called Initial God-creation Realm, and there are many people here who have cultivated up to the World Defying Stage Divine Source! This guy is very strong, you know? "

"To be able to cultivate World Defying Stage Divine Source, that is indeed very scary. In my hometown, those who can cultivate World Defying Stage Divine Source are very scary people." Hu Jingyuan frowned: "Maybe I'm ignorant and ignorant, I do not know about the Initial God-creation Realm, but it is possible that people in my hometown know about it, I will think of a way to ask about it after I return."

Chen Xiang also understood the Initial God-creation Realm, and knew that there was a group of strong people hidden there. They had cultivated the World Defying Stage Divine Source, and the God-creation Race Emperor did not have any strength to fight back against them. The last time Chen Xiang encountered such a guy, he was almost killed as well.

Almost two months had passed, and Hu Jingyuan was extremely excited while on the ship.

"We're almost there!" Hu Jingyuan shouted, "I have already left my hometown for almost ten years, I wonder how much of a change I will experience!"

"Your hometown must have a name, right?" Chen Xiang looked down from afar and did not see anything.

"This place is called Medicine-creation Divine Continent!" Hu Jingyuan said proudly.

"Why can't I see anything? It's just a mountain." Chen Xiang looked again carefully, but he still could not see anything.

"That's because there's a Spirit Formation up ahead. Of course I can't see it." Hu Jingyuan laughed out loud: "Only the people from the Medicine-creation Divine Continent know how to pass through this barrier. If it's someone else, they would need a bit of effort."

Sure enough, Hu Jingyuan's small boat soon touched a barrier. He took out a rock, and the rock released a red light that enveloped the small boat, allowing it to fly past the barrier.

After passing through the barrier, Chen Xiang was immediately shocked. He saw a large expanse of buildings in the distance, as far as the eye could see, with a few rivers of various sizes crisscrossing in the middle.

The most shocking thing was that he saw nine very large trees.

In the area in front of them, there were quite a few towering mountains, but those huge trees were much taller than the tall mountains.

"There are a lot of people here!" Chen Xiang exclaimed.

"That's right!" Hu Jingyuan laughed: "This is much more prosperous than your cities."

"En!" Chen Xiang looked at those giant trees and asked, "What are those giant trees?"

"It's a giant tree... The people in the trees were all from the Medicinal Clan. They used their own power to keep these trees growing! Then, they released energy to nourish the Medicine-creation Divine Continent. These trees looked similar in size, but upon closer inspection, one could tell that these trees were of different heights.

"If one's tree is the highest, then their overall strength will be a bit stronger."

Chen Xiang carefully observed and still could not determine the height of the giant tree, because it was difficult for him to see the top of the tree.

"Alright, in Medicine-creation Divine Continent, there are no urgent matters that require us to fly." Hu Jingyuan immediately controlled the small boat to descend.

The small boat landed on a river and then quickly entered the bustling area. Now, Chen Xiang finally understood why Hu Jingyuan's flying-type Divine Equipment was a small boat.

There were many small boats here, all of them were about the same size as Hu Jingyuan, and the larger ones were all for fishing.

After entering the bustling area, Hu Jingyuan brought Chen Xiang ashore.

"I've been gone for more than ten years, so there shouldn't be too much of a change. Let's find a place to stay first." Hu Jingyuan said as he brought Chen Xiang and ran towards an inn.

After entering the tavern, Hu Jingyuan asked some questions. The shopkeeper's reply also assured Hu Jingyuan that nothing big had happened here.

Hu Jingyuan and Chen Xiang stayed in a small house in the backyard of the inn.

[Chapter 3728](#)

Chen Xiang was eating the dishes and snacks gifted by the tavern.

"Fortunately, nothing big happened!" Hu Jingyuan heaved a sigh of relief.

"What will happen? Your place looks very stable. " After Chen Xiang finished speaking, he sighed: "It's different outside. You don't know that God-creation Race has joined forces with the Beast-creation Race, and is going to devour the entire Most Ancient Era. Then, they will absorb the energy of the Most Ancient Era, and break through their bottleneck."

When Hu Jingyuan heard it, he could not help but laugh: "They are too naive! Even if they were able to cultivate World Defying Stage Divine Source, it would still be difficult for them to break through after devouring a few more Most Ancient Era! "

Chen Xiang was shocked, and immediately asked: "Old Hu, that shouldn't be possible right? Most Ancient Era has a lot of energy! "

Hu Jingyuan shook his head: "How strong were the people who created the Most Ancient Era back then? Not very strong, they can't even cultivate World Defying Stage Divine Source! "

"That is not right, because in the Most Ancient Era, there is still someone who can cultivate the World Defying Stage Divine Source." Chen Xiang said: "The energy contained in the Most Ancient Era is very strong!"

"You are wrong, although there is a lot of energy hidden in the Most Ancient Era, there is a lot of energy that does not exist in the Most Ancient Era itself." Hu Jingyuan said: "If there is a lot of energy in the Most Ancient Era, then the ancestors who created the Most Ancient Era could absorb this energy and help themselves become stronger."

"The reason why his < > book doesn't become very strong is because they are unable to absorb energy that doesn't belong to the Most Ancient Era! So, even if some fellows engulfed the entire Most Ancient Era, they would not succeed. "

Chen Xiang was very doubtful as he frowned: "Most of the energy in the Most Ancient Era does not belong to the Most Ancient Era, what does that mean?"

"That's right... Many of the energies in the Most Ancient Era were created when things grew. These energies all possess a consciousness, so they do not belong to the Most Ancient Era. " Hu Jingyuan laughed: "You and I are both a type of energy. Do you think you belong to the ancestors who created the Most Ancient Era? Even if they engulf Most Ancient Era, they can only destroy the entire Most Ancient Era. The energy in our bodies is not controlled by them. "

"Even if they have very strong power and can devour the energy in our bodies, we can control all of it. If we can control it to dissipate, they will not be able to get it."

After Chen Xiang finished listening, he nodded slightly, but he was still very worried. "Those fellows' plans, will still disrupt the Most Ancient Era!"

Chen Xiang had already experienced the destruction of too many worlds before, so he did not want to experience it again. Most Ancient Era was a painstaking effort on his part, and Gu Tong and Luo Jiuyang had sacrificed themselves to protect the Most Ancient Era.

"Don't worry, our Medicine-creation Divine Continent won't let them succeed." Hu Jingyuan was not worried at all.

"Now that you've brought me here, according to our previous agreement, we aren't in a master-servant relationship anymore." Since he was able to come to this place, he believed that he would definitely be able to find a way to cultivate the World Defying Stage Divine Source.

"Um ..." "Little Shen, name a price and sell me the Peak dan's pill formula," Hu Jingyuan kept thinking about this matter.

"I do not lack the Tao-creation's Divine Crystals right now." Chen Xiang said. After he sold it to the Medicine God last time, he had quite a few Tao-creation Divine Crystals.

"Then what do you want? This kind of pill formula is extremely valuable, why don't you tell me about it! See if I can fulfill your request. " Hu Jingyuan also knew that Chen Xiang did not lack Tao-creation's Divine Crystals.

"I want to learn some good Supreme Mantra or Legendary mantra, do you have them?" Chen Xiang asked.

"I do have a Supreme Mantra, but it's not too good!" Hu Jingyuan revealed a difficult expression, he shook his head: "Legendary mantra are also very precious, I have only grasped one myself, and am unable to pass it down to you in a short period of time."

"I have Legendary mantra too, but it's too hard to learn." Chen Xiang sighed: "Especially studying the second and third techniques, I simply do not know how to master them."

"So that's how it is!" Hu Jingyuan laughed: "In our place, there is a type of pill called Spirit Communication Pill. The use of this pill is extremely wonderful, it can allow people to quickly grasp Legendary mantra s."

"There's actually such a pill!" Chen Xiang was very surprised: "How do I buy it?"

"I can buy two for you. They are quite expensive and quite rare! But I can get it. " Hu Jingyuan said.

"The sooner the better!" Xiao Xianglin had two Legendary god Dan s that she found hard to control right now. If she could get ahold of these two pellets, she would be able to learn them and when the time came, she could refine another Paternoster soul stone which would allow him to master the pellets quickly.

Hu Jingyuan told Chen Xiang to stay here and wait for him to return. He said that he would go and inquire about some things.

Chen Xiang also did not run around randomly. In the future, he would have time to stroll around here.

"Looks like there are all kinds of weird pills in Medicine-creation Divine Continent." Chen Xiang rejoiced in his heart, "To me, this is the sacred ground of the Alchemist."

"If that's really the case, then my clone won't be learning the Legendary mantra. It's too difficult to learn." Xiao Xianglin said, "Sometimes I feel like I'm about to master it, but later on, I feel like I still need to continue to learn."

The Most Ancient Era had existed for much longer than the Myriad Tao, so there were even more pills and herbs here.

"Perhaps there were people who were troubled by the difficulty of learning the Legend rank curse, which is why the Legend rank pill appeared." Chen Xiang laughed, even a Heavenly Incantation like Xiao Xianglin had difficulty controlling a large number of Legendary mantra, let alone others.

At night, Hu Jingyuan returned.

"Old Hu, what news are you looking for?" Chen Xiang asked.

"I want to know where my master is." Hu Jingyuan said: "My master was able to refine a Legend rank pill. He is not in this area, he is at the Purple fire tree s area, in the area where the huge tree glistened with a purple light."

There were nine regions in the Medicine-creation Divine Continent, and each tree was responsible for containing one region.

"We're at the Blue Fire God Tree. We'll need to walk for two days to get there. Let's go now." Hu Jingyuan said.

Hu Jingyuan actually had a very strong master, no wonder he was able to cultivate deity's origin energy.

"My master has many disciples, but I am only one of them. My performance is not bad, so he treats me pretty well." Hu Jingyuan had already left the inn and arrived at a small river, then boarded the boat and headed towards the Purple fire tree.

"Old Hu, is your master from the Innate Medicine Clan?" Chen Xiang asked.

"Yes, he can create his own medicine and forge pills!" "He can both create medicine and refine pills, so he's quite famous." When Hu Jingyuan talked about his master, his face was full of respect.

[Chapter 3729](#)

It would take two days to get to the Purple fire tree s. Chen Xiang could see the Purple fire tree s in the distance, but he did not expect it to take that long. The novel at the apex of the horizon.

It was because the water path here was winding, from a small river to a large river, and then from a large river to a small river. Sometimes, he would even encounter crowded situations.

"Can't we go ashore and walk?" Chen Xiang looked at the small boats everywhere and felt helpless. If he flew over directly, it would probably only be half a day.

"It's the same when you're ashore. If you encounter a crowded area, you'll be walking very slowly." Hu Jingyuan was extremely familiar with this place, and laughed bitterly: "There are a lot of people here in Medicine-creation Divine Continent, that's why it's so crowded, but we cannot fly casually here, only patrolling people can fly here."

The crowded river had been cleared and the boat could once again move smoothly.

"This water seems to contain a lot of energy!" Chen Xiang fished around with his hands.

"Of course, the Medicine-creation Divine Continent's water source is connected to nine huge divine trees." Hu Jingyuan said, "A lot of the energy released by the Divine Tree permeated into the water."

The Medicine-creation Divine Continent seemed to be a peaceful area, but it was too crowded. When he and Hu Jingyuan had entered earlier, he had seen from the sky that this place was filled with densely packed houses.

"You should be patient. We're already here!" Hu Jingyuan laughed, he controlled the small boat very leisurely.

Chen Xiang just wanted to quickly eat those legendary Spirit Communication Pills, so that he could learn more about those Legendary mantra. He was extremely impatient, he had always been very curious about those two Legendary mantra.

Xiao Xianglin had learned for such a long time, yet he still did not master those Legendary mantra s, which made him even more anxious.

More than two days had passed, Hu Jingyuan controlled the small boat and sailed to the bottom of the Purple fire tree.

From underneath the incomparably huge Purple fire tree, Chen Xiang was simply unable to see its top. When he raised his head to look, he saw that it was blocked by the densely packed and criss-crossing gigantic leaves.

"Your master is really amazing, being able to live within the divine tree." Chen Xiang said.

"That's right!" Hu Jingyuan looked forward to it, and said to the giant tree: "Only when I receive an invitation can I live on it. I don't have the qualifications to live on it anymore anyway!"

Chen Xiang curled his lips and said: "Then, can we go in?"

After Hu Jingyuan brought Chen Xiang ashore, he smiled and said: "It's hard to say, but of course we can't enter. I can only wait patiently beside the big tree."

Chen Xiang looked at Hu Jingyuan with disdain. He had thought that Hu Jingyuan would bring him in.

"You're much worse than I thought." Chen Xiang said.

"I can be considered very powerful. Although I can't enter the Purple fire tree, I can freely enter and exit my master's medicine shop outside." Seeing that Chen Xiang was looking down on him, Hu Jingyuan immediately shouted out: "Let's go, I'll bring you to my master's shop. He will come here every so often, we'll go there to wait for him."

Chen Xiang could only follow Hu Jingyuan to the shop, he felt that if he wanted to obtain the Legendary Pills, it would take a long time, he had thought that Hu Jingyuan would bring him to the Legendary Pills immediately.

Hu Jingyuan led Chen Xiang through the streets and alleys, and finally reached a ten story tall tower. This tower was relatively large, and its location was not bad either.

"Manager, when will my master come?" The moment Hu Jingyuan walked in, the shopkeeper ran out excitedly and greeted Hu Jingyuan immediately.

Hu Jingyuan looked at Chen Xiang as if to say: "Did you see that, all of the shopkeepers here are bowing to me!"

Chen Xiang only smiled slightly.

"He'll probably be here in two or three days, because there's a guest waiting for him." The shopkeeper bent his waist slightly. Seeing him being so respectful to Hu Jingyuan, he knew that Hu Jingyuan had some status.

"What important guest?" to actually be able to get Master to come personally! " Hu Jingyuan was actually very curious.

"It's from the Golden fire tree." The shopkeeper said softly: "Because of some reasons, he cannot enter the Purple fire tree, so he can only wait here."

"Take me to see this esteemed guest." Hu Jingyuan laughed: "Just state my identity directly!"

"Alright!" Then, he brought Chen Xiang and Hu Jingyuan upstairs. In the end, he arrived at the seventh floor.

Chen Xiang and Hu Jingyuan were in the same hall, and met the esteemed guest. It was a tall and skinny old man with an extremely good temperament, who had a friendly smile on his face as he received Hu Jingyuan with a smile.

Behind this tall and skinny old man, there was a young man with a pale face who looked extremely weak. He forced out a smile and greeted Chen Xiang.

"I never thought that it would actually be the Golden fire tree's old man, Yu Weizhou." Hu Jingyuan said respectfully, "When you first killed that group of wasps, it was to prevent the Golden fire tree from suffering a calamity. Even though I was still young, I already have a lot of respect for senior."

"It's all the past!" Yu Weizhou laughed awkwardly: "Your master also helped me back then. Otherwise, I wouldn't have had the confidence to help you all."

Chen Xiang didn't understand much about these things and could only listen on the side. He could see that this Yu Weizhou should be someone important, but from the tone of his voice just now, he should be in a rather dire situation.

"Master Yu, this is?" Hu Jingyuan looked at the weak youth and asked.

"This is my grandson, Yu Lirong ... Sigh, because of sparring with others, he was heavily injured, and his illness was severe, he was unable to recover even after many years. I have looked for many Alchemist s, but none of them have any good methods! " Yu Weizhou said.

"Why didn't you come find my master earlier?" Hu Jingyuan laughed: "My master will definitely have a way!"

"I went to look for your master at the first possible moment! Back then, if it wasn't for your master, this grandson of mine would have died long ago. "He refined a type of pill, and can finally stabilize his injuries." Yu Weizhou said.

Now it seemed that Yu Lirong had suffered from his old injuries again, or perhaps because of some reason, his injuries had worsened.

Chen Xiang also felt that it was strange. Someone like Yu Weizhou, with such powerful strength, actually had an injury that he could not cure. Even Hu Jingyuan's extremely strong master had not completely healed him.

"Then how can I recover? This kind of injury is too weird! " Hu Jingyuan had already walked to Yu Lirong's side, and was carefully observing him.

Suddenly, a handsome youth with a face full of arrogance walked in. He arched his eyebrows and said with a sneer, "Hu Jingyuan, don't make a fool of yourself here, don't embarrass Master!"

[Chapter 3730](#)

Seeing this youth, Hu Jingyuan was immediately angered, and said coldly: "Meng Tianhao, don't think that just because you obtained the qualifications to enter the Purple fire tree that you are able to look down on others, in terms of strength, I am stronger than you!"

Meng Tianhao and Hu Jingyuan were senior and junior brothers, but Meng Tianhao looked so young, and Hu Jingyuan looked so old.

Meng Tianhao laughed, "So what? "You are just lucky enough to have cultivated the Divine Origin Qi. But in terms of alchemy, you are far inferior to me!"

Chen Xiang snickered in his heart, the fact that his junior and junior brothers were bickering here had already caused their sect to lose face.

"I say ... "Sigh!" Yu Weizhou sighed helplessly, he was already annoyed enough.

"Senior, I've let you down." Hu Jingyuan anxiously said: "I was only concerned about your grandson's condition, that's why I asked, who knew that this guy would be so arrogant, and even dare to speak so rudely to me."

Yu Weizhou nodded his head: "Thank you for your concern, let's wait for your master!"

When Meng Tianhao saw Chen Xiang, his eyes were filled with disdain: "Who is this guy? You have the right to sit here! Hu Jingyuan, is this the guy you brought back from outside Medicine-creation Divine Continent? Don't you know that the majority of the people outside the Medicine-creation Divine Continent are weak? They actually brought him to Master's shop! "

"He's my friend, so what? Don't you often bring your friends here? " Hu Jingyuan was instantly enraged.

"Hmph. My friends are all well-known people. How can they be like the trash you brought back and the chairs he made? I even find them dirty." Meng Tianhao's eyes were full of hostility and ridicule, staring at Chen Xiang.

"Only when trash looks at things do I feel like trash." Chen Xiang indifferently said without waiting for Hu Jingyuan to scold him.

"Oh, you actually said that again!?" If you really came from outside Medicine-creation Divine Continent, then I am not wrong, the people outside are all trash! If you don't believe me, ask old senior Yu Weizhou. " Meng Tianhao sneered.

"That may not be the case. The world is big, and there are many strange things about it. The Medicine-creation Divine Continent is so vast, and not only are there strong warriors in there." Yu Weizhou chuckled and then said to Chen Xiang: "Outside, it should still be the era of those eight Creation Races. It's been a long time since I've been out."

"No, Thunder-creation Sacred Race is finished." Chen Xiang laughed, and that was what he had done: "Moreover, there is an additional Beast-creation Race!"

Yu Weizhou was shocked, his brows knitted: "Beast-creation Race is actually here, this is truly incredible, Beast-creation Race is truly powerful!"

The strong people inside actually knew of the existence of the Beast-creation Race.

At this time, Meng Tianhao said to Chen Xiang: "This shop belongs to my master, you should leave! You are from outside Medicine-creation Divine Continent, we don't trust you! "

Chen Xiang stood up and said with a cold face, "I am currently speaking with Elder Yu, why are you interrupting? Did you know that just based on your words and actions, you're already very annoying! With such a highly respected expert like Elder Yu here, even if we have any deep grudges or grudges, we shouldn't have any conflicts here. You don't even understand the basic principles of how we conduct ourselves. "

Yu Weizhou nodded slightly. He did not have a good impression of Meng Tianhao, even though he had seen him twice before.

Meng Tianhao's expression was ugly to the extreme, which made him even more furious. He said coldly: "You actually dare to speak to me in such a way! Then you should scram even more! If I say you are trash, then you are trash. If you still don't admit it, all the fellows outside Medicine-creation Divine Continent are trash, quickly scram. Otherwise, don't blame me for being impolite. "

Hu Jingyuan said angrily: "Meng Tianhao, Chen Xiang is someone who can defeat me in pill refining, don't look down on me! Chen Xiang's pill refining skills are definitely not inferior to yours. You, who are in charge of observing the world, should go and have a look at the outside world. "

Meng Tianhao laughed loudly: "You actually lost to such a fellow, and you still have the nerve to say it! You truly are a shameless person, the Alchemist inside the Medicine-creation Divine Continent, actually lost to trash outside! "

"Fine, you've always thought I was trash, but do you dare to spar with me?" Chen Xiang said in a cold voice. Towards this kind of person who spoke in such a manner, he definitely had to teach him a lesson.

"Why would I not dare to compete? Say, if I lose to you, I'll kowtow to you. " Meng Tianhao sneered: "If you lose, why don't you kowtow to me too?"

"Kowtow means nothing to me! How about we bet the Tao-creation's Holy Crystals? Fifty million Tao-creation Holy Crystals, do you dare to bet? " Chen Xiang said: "Anyways, senior Yu is bored here, how about we let him witness?"

The first thing he said was fifty million Tao-creation Holy Crystals, even Yu Weizhou was shocked!

Meng Tianhao was even more shocked, how could he have fifty million Tao-creation Holy Crystals? Although he could refine pellets, he would need many divine medicines and a lot of time to refine one pellet. Although he could sell a lot of Tao-creation Holy Crystals, he could not concoct even fifty million.

Chen Xiang obtained the Tao-creation Divine Crystals from selling the pill formulas, which were accumulated by the Medicine God for many years. Therefore, this amount of Tao-creation Divine Crystals was very high even in the Medicine-creation Divine Continent.

"Don't scare me, you don't even have that many!" Meng Tianhao shouted in anger.

Chen Xiang took out a Storage bag and coldly laughed: "If you don't believe me, you can look for yourself!"

"There really are fifty million Tao-creation's Holy Crystals inside." Yu Weizhou scanned the place with his consciousness, and exclaimed.

Meng Tianhao was speechless. Someone who could take out fifty million Tao-creation Holy Crystals so casually was definitely not some ordinary guy. At least, he wouldn't be able to take it out.

"Haha, Meng Tianhao, you don't even have that many Tao-creation Holy Crystals, you don't dare to gamble!" Hu Jingyuan laughed.

"That's right, I do not have that many Tao-creation Divine Crystals! However, this does not prove that my level is weaker than him. I can at most take out ten million Tao-creation Divine Crystals, that is all I have left. " Meng Tianhao said as he grinded his teeth. He believed that for people like Chen Xiang who came from outside the Medicine-creation Divine Continent, their pill refining level was not as good as his.

He had beaten Hu Jingyuan before, so he could always mock Hu Jingyuan, even though it was a long, long time ago that Hu Jingyuan had lost to him.

But this made him feel that he was stronger than Hu Jingyuan!

Hu Jingyuan was actually very strong, otherwise he would not be able to cultivate the Divine Origin Qi! This made Meng Tianhao jealous. Although he could enter the Purple fire tree s, he wished that he could cultivate the Deity's Origin Qi.

"I'll bet ten million. I'll decide the rules." Chen Xiang said.

"Alright, you decide on the rules! If this rule is unfair, I believe that even Master Yu will be able to see through it. " Meng Tianhao knew that Yu Weizhou was a very righteous person, so he was not worried that Chen Xiang would act shamelessly.

"However, I must first take a look at your Tao-creation's Sacred Crystals." Chen Xiang said with a look of despise.

Meng Tianhao was furious in his heart, as he clenched his teeth and took out a Storage bag, but there were only nine million Tao-creation Divine Crystals inside. "I was wrong, it was only nine million!"

"It doesn't matter!" Chen Xiang felt that as long as Yue Yang lost, he would be bankrupt.
