CHAPTER 381 – SEASIDE

As Chen Xiang, who grew excited after watching the Luo Tian Door appear, stepped into the door, he appeared in another forest as though he had entered a room.

This piece of forest was very bright because the leaves in this forest were not at all dense, moreover, at the hilltop, the night sky was full of stars which were exceptionally bright.

“The Luo Tian Door had disappeared! In that case, if I want to return, do I have to open it once again?” after Chen Xiang came out, there was no sign of any gateway. Wu Canghong had never said anything about this.

“You have also exhausted too much of your True Qi. It seems if you want to cross to another continent, you are far from enough. It should not be a problem to traverse to a nearby place, but for a far away place, it’s no good,” said Su Meiyao.

After having tested the mystique of Luo Tian Door, Chen Xiang immediately flew into the sky and gazed at the distant sea under the illumination of stars. He was very excited as he spread open the wings and flew away.

When he was in the air, he took off his clothes and directly dived into the sea.

Chen Xiang found himself to be an insignificant figure in front of the endless sea. He knew the sea was vast. Even when he was faced with countless powerful figures, he had never felt that he was an ant-like figure.

Gazing at the countless stars in the sky as he floated on the water, Chen Xiang muttered, “I wonder whether I could fly to the distant stars. Are there people living on these stars?”

“Don’t think too much about it! Just enjoy!” Su Meiyao said with a laugh.

Chen Xiang pursed his lips as a smile crept over his space: “I am getting all bored up here alone. Why don’t you come out and take a bath with me!”

“Fat chance!” Su Meiyao tenderly snorted and said. However, she and Bai Youyou still came out but they stood at the beach. Long Xueyi followed them out too as they stepped on the soft and delicate sand on the beach.

Watching the two come out, Chen Xiang swam towards the shore as a lascivious smile spread across his face. At present, he only wore a pair of pants, whereas, Su Meiyao and Bai Youyou both wore a knee-length white skirt that was revealing their snow white, beautiful pair of calves. The two’s jade-like legs stepped on the beach while they held each other hands and felt the gradually rolling sea waves as they stroll on the beach.

What spell bounded Chen Xiang was when he looked at the current Bai Youyou, she looked a lot more beautiful as compared to the past. Although she still had an ice-cold appearance, her pair of pretty eyes added a particular charm. It gave the misconception that a beautiful flower which had been sealed inside the ice had suddenly thawed, like her indifferent and noble bearing along with a peculiar chill which was accompanied by her stunning appearance came alive in the warm sunlight.

“Hey, quickly look there!” Chen Xiang suddenly shouted.

Su Meiyao and Bai Youyou immediately looked, only to see Chen Xiang suddenly wave his hand as a huge tide of water covered them, soaking their tender bodies.

When the naughty Long Xueyi saw this, she hurriedly ran into the water and with her power, splashed water over Su Meiyao and Bai Youyou. On one hand, she was playing, while on the other, she was emitting a naughty laughter.

“Little Rascal, quickly stop!” Su Meiyao tenderly scolded. She did not show any iota of weakness, no matter whether her clothes had been soaked by the water, she walked into the water and started splashing water at Chen Xiang and Long Xueyi.

“Senior Sister, quickly help me!” Su Meiyao shouted in a tender tone.

Bai Youyou was slightly taken aback, but she still walked up to Su Meiyao and just like Su Meiyao, using her both hands splashed water at Chen Xiang and Long Xueyi.

At this quiet seaside, Chen Xiang and the three girls were having fun. Also when Chen Xiang saw the happy smile on Bai Youyou’s face, and heard Bai Youyou’s gentle laughter, Chen Xiang felt gratified in his heart.

Having played for a long time, everyone was completely soaked. Long Xueyi seemed to not like this as a white brilliance radiated from her body before she had changed into a set of white clothes.

Bai Youyou and Su Meiyao were still in the water along with Chen Xiang. They were completely wet. Their graceful figure was perfectly visible, which made Chen Xiang’s blood rushed to his head, especially when he saw their snow-white skin across their wet dress; Chen Xiang could not help but peer glances at them.

“Little Rascal, you did this on purpose!” Su Meiyao gently snorted.

Although Bai Youyou’s entire body was wet, she was instead smiling at Chen Xiang as she said, “Thank you, Chen Xiang, this made me so happy!”

“Sister Youyou, how are you going to thank me?” said Chen Xiang as a lascivious smile crept over his face. Su Meiyao was well aware that Bai Youyou was changing and that was all because of Chen Xiang, which she had never even dreamt of. Of course, this was a good thing. She was also grateful to Chen Xiang.

Bai Youyou’s face turned slightly red, however, her lips still carried a sliver of smile as she tiptoed and kissed Chen Xiang’s cheek. Although it was only a peck, it still blanked Chen Xiang’s mind; it was as if time has stopped for him.

He had never expected that Bai Youyou would actually thank him in such a way. Since the beginning, he was just joking. Bai Youyou chuckled when she saw the dull-witted look on Chen Xiang before she returned inside the ring.

Su Meiyao lightly slapped Chen Xiang’s cheek as she gently laughed and said, “Little Rascal, wake up!”

Chen Xiang regained his senses. The charming figure that stood in front of him was especially enticing, especially, with the thin wet clothes sticking on her body!

In his heart, Chen Xiang secretly agonized. He couldn't help but recall the time when he hugged Su Meiyao. Su Meiyao returned to the ring with a scoff, which made him extremely disappointed.

After having played around enough, Chen Xiang sat down on the beach wearing nothing, gazing at a white speck of light far away, asked, "Is that the Lotus Island?"

Su Meiyao and Bai Youyou, having changed their clothes, sat next to Chen Xiang, gazing with him at the vast sea, at the horizon where the sea met with the sky.

Whereas, Long Xueyi had piled up the sand into a dragon on the beach.

"It should be. Don't you have the Emperor Crystal? How about you give it a try and check whether you can sense any crystal lode!?" said Su Meiyao.

Chen Xiang laughed and said, "You rarely accompany me, let's wait till dawn!" now, he truly wanted to hug the two beauties beside him, but he dared not.

So, they enjoyed the sea breeze, chatting on one side, while on the other, waiting for the break of dawn.

After they had watched the beautiful sunrise, Su Meiyao and Bai Youyou once again returned to the ring, while Long Xueyi too had finished piling the sand into a vivid giant dragon, which was instead ravaged by Chen Xiang.

"Little Rascal, I hate you!" Long Xueyi threw sand at Chen Xiang, however, a smile was still hung on her face.

Chen Xiang took out the Emperor Crystal after Long Xueyi returned to his body. However, the Emperor Crystal did not show any reaction. At this point, he turned into a fish and swam towards the Lotus Island.

Because Long Xueyi was here to monitor everything around him, he did not need to worry about some huge fishes. Not to mention, Long Xueyi also had the ability to drive away or attract animals, which made him feel safe.

After Chen Xiang turned into a fish, his speed also became very fast. He had long wanted to use the Emperor Crystal to find lodes in the sea near the Lotus Island. He was planning to go all out.

When he was close to the giant island, Chen Xiang returned to his human form and took out the Emperor Crystal. Just as the Emperor Crystal appeared in his hand, there was a big response.

CHAPTER 382 – DEEP SEA TREASURE

The larger the response from the Emperor Crystal, the richer the load. Chen Xiang closed his eyes as he sensed all the veins around him through the Emperor Crystal.

Very soon, an image of a seabed appeared in his mind. It was located on the other side of Lotus Island, and there was something exuding a brilliant white aura. No doubt, those were crystal stones. However, what was totally out of Chen Xiang's expectations was that there were so many mountains under the sea!

“There are actually so many crystal stones! It seems that the people on Lotus Island don’t know the location of the top-grade crystal stones. I guess they can only sense the location of the crystal veins!” Chen Xiang was wild with joy. He transformed into a fish and swiftly swam towards the location.

The Lotus Island was huge. If one looked at it from the sky, it would bear resemblance to a giant lotus. As Chen Xiang swam along the shore of Lotus Island, he could hear hustle and bustle coming from above. However, he currently had no plan to embark on exploring the rest of the island; he only wanted to take advantage of Lian Yingxiao’s absence and grab a few top-grade crystal stones.

Lian Yingxiao was extremely powerful. Chen Xiang worried that if some problem occurred in the crystal lodes, he would be discovered by Lian Yingxiao. It would be troublesome if Chen Xiang were to be captured.

Besides, Lian Yingxiao, who was far away in the Extreme Martial Sect, probably never would have imagined that Chen Xiang would appear in the vicinity of the Lotus Island overnight! Even if Chen Xiang traveled at his fastest speed, this would still be an impossible feat.

Although Chen Xiang had a pretty good impression of Lian Yingxiao, he believed that these crystal lodes formed naturally. As long as they were discovered by him, it was for him to take. Moreover, the folks on Lotus Island are unable to extract these top-grade crystal stones anyways, so Chen Xiang did not feel the least bit sorry.

“Smelly Dragon, it’s your turn!” At a very quick speed, Chen Xiang arrived near a crystal vein. At this moment, he was still under the sea.

Long Xueyi said, “It’s strange, these crystal veins should have people working on them right? How come there isn’t anyone here?”

“Are they already finished with this vein? Then why did they leave the top-grade crystal stones?” Chen Xiang was perplexed. After Long Xueyi had determined that there was no one around, he reverted back to his true form and took out the Emperor Crystal once again to check the location of the top-grade crystal stones.

With the help of the divine power of the Emperor Crystal, a scene gradually appeared in Chen Xiang’s mind. Inside some of the mountains on the seabed, there were faint specks of white light. At the bottom, there was a huge glaring ball of light. Chen Xiang reckoned that this was precisely the top-grade crystal stone. Moreover, there was such a vast amount.

From the scene Chen Xiang acquired from the Emperor Crystal, he could see that there was indeed an abandoned crystal lode under the seabed. All that remained was the top-grade crystal stones which were hidden deep under the seabed and a few high-grade crystal stones which were not discovered by anybody.

“Let’s get to work, I’ll tell you the location!”

Chen Xiang told Long Xueyi the coordinates with his divine sense, only to see a flash on his right arm before a white light shot out. It was none other Long Xueyi who turned into a beam and shot into the mountain under the sea. At this moment, Chen Xiang had dove so deep into the ocean that he was

unable to withstand the pressure. Moreover, it was very dark in here; it would be truly difficult to mine crystal stones here for a long period of time.

However, he knew that Lotus Island definitely had some special methods otherwise Lian Yingxiao would probably not be so rich.

“If you have many top-grade crystal stones, you can lay out a Tianyuan Array for cultivation. This array can gather a large amount of Spirit Qi which thereafter is converted into True Qi, and this True Qi can be poured into anyone. This method can accelerate the cultivation speed! I think your teacher should be able to it. You can ask him later,” said Bai Youyou.

Chen Xiang nodded and continued to sense everything around him as he took out the Emperor Crystal again. He was trying to find another vein.

Shortly thereafter, Long Xueyi came up and stuffed a storage pouch in Chen Xiang’s hand before she attached herself to his arm. At present, there were still some crystal stones left, however, they were all high-grade crystal stones, and scattered around. If he wanted to get them, it would take a long time and he was too lazy to get them. The main target of his trip were top-grade crystal stones.

“What a big crystal stone, I could cut it into at least 50,000 pieces!”

Chen Xiang sucked a cold lump of air. Currently, he was not in dire need of money, what he needed were some precious spirit herbs. Whereas these rare and precious spirit herbs sometimes could not be bought with money.

50,000 top-grade crystal stones would be equivalent to 500 million middle-grade crystal stones. However, generally, no one is willing to exchange the top-grade crystal stones.

Now he knew why Lian Yingxiao was so rich. The total value of crystal vein was far more than just this top-grade crystal stone. He decided that if an opportunity precedes itself in the future, he would definitely swindle Lotus Island ruthlessly.

Chen Xiang once again turned into a fish and swam within in the deep sea. From time to time, he would take out the Emperor Crystal to check whether there was a crystal vein nearby or not. Bit by bit, Chen Xiang increased the range of his search around the Lotus Island.

“There are many people in front of us! Strange, they seemed to be under the sea!” Long Xueyi suddenly said.

Chen Xiang hastily took out the Emperor Crystal. Soon, an image which was full of white brilliance appeared in his mind. Before, the image in his mind had always been pitch black, but now the pitch black image was exuding multitudes of white brilliance. Wherever there was white brilliance, it was the location of crystal veins, he was sure they were definitely mining the crystal vein, moreover, at a huge scale.

“I’m gonna be rich!” Chen Xiang was incessantly excited. He turned into a fish before swimming towards the front.

After two hours, much to his surprise, the seabed was surprisingly exuding a faint white light. Upon looking carefully, he found that it was a huge shield of light that had enveloped a huge part of the

seabed. On further peering through the shield of light, he saw that there many people and building inside.

“Is this the secret of deep sea mining of Lotus Island?” Chen Xiang was secretly astonished. He hadn’t imagined that the residents of Lotus Island would actually build a city under the sea. Whereas the seawater could not enter the light shield, moreover, many powerful martial artists were also guarding inside.

“This should be a large array, the deep sea resources are certainly more abundant than the land, not to mention, the area occupied by the sea is larger than that of land. It is no wonder that the Lotus Island is filthy rich. If my guess is right, they should have some ability to find the crystal lodes in the sea and the strength to mine the crystal stones under the seabed,” said Su Meiyao.

Chen Xiang smiled and said, “Since they can not mine the top-grade crystal stones that are deep under the seabed, let’s not let them go to waste!”

The top-grade crystal stones are hidden deeper, even on the land, it is extremely difficult to find them, needless to say about them under the sea. However, Long Xueyi could directly penetrate the earth and enter the deeper parts of the seabed.

“Little Beautiful Dragon, have you rested enough?” Chen Xiang asked. He knew that Long Xueyi would get exhausted whenever she dug deeper, moreover, she would spend some time digging. However, with the gradual increase in her strength, she seemed to be getting a lot faster.

Every day, Chen Xiang would give many Hundred Beasts Dans to her. Whenever these dans were eaten by spirit beasts, the effect was equivalent to a hundred times that of True Elemental Dan. Moreover, spirit beasts were unlike mankind, they did not need to worry about any instability in their foundation, so, Long Xueyi and Bai Zhenzhen, that Young White Tiger could unscrupulously eat dans.

“I have rested enough, let’s start!” Long Xueyi mischievously smiled. As long as she got to eat dans, she was happy to help Chen Xiang. Especially, after accompanying Chen Xiang for so long, she gradually felt that she could not part with Chen Xiang, and she too did not want to leave.

CHAPTER 383 – TEMPORARILY NOT GOING

The top-grade crystal stones which were deep under the seabed happened to be out of the huge barrier of light, so Long Xueyi did not need to enter inside the light barrier.

Chen Xiang, from the induction of the Emperor Crystal, reckoned that the top-grade crystal stones were almost the same size as that of the crystal stones which he had acquired before and were equivalent to 50,000 normal top-grade crystal stones, or worth 500 million middle-grade crystal stones!

Chen Xiang decided that he should come often at the vicinity of Lotus Island in the future in order to find the other crystal veins. At that time, he could also play with Su Meiyao and Bai Youyou at the beach. He felt that it was an extremely good day today.

Chen Xiang waited for about two hours before Long Xueyi returned. She sounded a bit tired: “The crystal stones were very deep but I still got them. I am going to take a break now!”

“Thanks a lot!” Having taken a look after Long Xueyi handed him the storage pouch, Chen Xiang noticed that his estimate was indeed right; the size of the top-grade crystal stone was approximately equivalent to 50,000 normal top-grade crystal stones.

Chen Xiang continued looking for the crystal veins; for him, they were never too many. After all, these top-grade crystal stones were extremely advantageous to him. He could use them to lay out a formation to help him cultivate. However, if he used this kind of method to increase his cultivation, he would have to ask Huang Jintian to help him consolidate his foundation, and that would be extremely painful, but on the other hand, his efforts would be hugely rewarded.

After two days, Chen Xiang was already quite far away from Lotus Island, yet he didn't find any crystal lode. In the vicinity of the Lotus Island, there were only two veins. If he continued looking, he would need to venture deep into the sea.

“Let's go back! You already have enough top-grade crystal stones and I think even the Lotus Island won't have so many!” Bai Youyou said.

The top-grade crystal stones were very hard to acquire. Even though there were many crystal veins, they were hidden very deep under the ground which made it very difficult to sense them, unless you had the Emperor Crystal. However, the Emperor Crystal was countless times rarer than the top-grade crystal stones. The only reason Chen Xiang could get it was all thanks to Long Xueyi, this Little Dragon Beauty who had an extremely powerful divine sense.

Now, Chen Xiang knew why the dragons in legend had so much treasure. It was all because the dragons cultivated Shinto which made their divine sense formidable, through which they were able to sense the treasures that exuded even a weak energy!

Chen Xiang went back to the very same forest where he arrived from the Luo Tian Door. He recorded the coordinates of this place so that it would be convenient for him in the future and he would not need to judge the distance to set the coordinates.

He opened the Luo Tian Door once again, and the moment he stepped inside, the Luo Tian Door disappeared while Chen Xiang appeared in the forest outside the Tianmen City.

He had never imagined that this trip to the Lotus Island would bring him such a huge harvest. If he had been strong enough, he would have checked farther into the sea, and he would have been able to find much more.

The sea domain farther from the land was dangerous. There were various powerful spirit beasts in the sea, powerful beasts like Profound Beasts. Chen Xiang who was only in the True Martial Realm was just an insignificant existence in the endless seas.

If one wanted to travel to other continents, they would generally form a team of 9th level True Martial Realm martial artists and use the safe routes to travel. And the map marking these routes could be bought. So a majority of the time, one could safely cross the seas. However, if one wanted to blindly wander in the sea, he must at least had the strength of Extreme State!

During these two days, the entire Extreme Martial Sect knew that Chen Xiang was the apprentice of Huang Jintian which surprised all the disciples of Extreme Martial Sect. This information proliferated to the entire Chenwu Mainland like a storm.

Especially Yao Haisheng and Xiao Chou, these two apprentices of Chen Xiang who were now peers of Gu Dongchen, Wu Kaiming, and Elder Dan! Now many thought of taking Chen Xiang as their teacher, however, they knew that Chen Xiang would not so easily take anyone as his apprentice.

“Young Martial Uncle, so you weren’t inside the Extreme Dan King Courtyard!?” Gu Dongchen immediately flew over when he noticed Chen Xiang enter the Extreme Martial Mysterious Realm. Now that Chen Xiang’s identity had been disclosed, Gu Dongchen and the others would have to call Chen Xiang as martial uncle even if there were others present.

This also made Chen Xiang extremely happy. He smiled and said, “I was out of the city. Now, what are you going to do next?”

“First we will seal the rift at the One Hundred Thousand Devil Mountains, thereafter, we will annihilate all the demons and devils, and finally we will depart for the Kings’ Mainland. Do you want to go with us?” Gu Dongchen asked.

Chen Xiang said while shaking his head, “Forget it, the whole trip will take a lot of time!”

“But of course, our Chenwu Mainland is at the edge of eastern seas. We are very far away from the center of the Mortal World. A one side trip will at least take us three months, while the entire trip will take half a year.” Gu Dongchen said,

Chen Xiang found it incredibly tedious to travel half a year on the sea. He shook his head and said, “I am not going. I will use this time to cultivate. As far as I am concerned, this trip is a waste of time.”

Gu Dongchen nodded: “I guess, that’s alright. If we could find the method to arrange the ancient teleportation array at the Kings’ Mainland, it would be a lot better. Rumor has it that 100,000 years ago, various continents had a network of teleportation array that extended to everywhere on the Mortal World; it was very convenient. However, in order to prevent demons and devils disperse to every part of Mortal World, many teleportation arrays were destroyed, and eventually, we even lost the method too.”

Chen Xiang had also heard of this. However, even if the teleportation arrays were still there, a large number of top-grade crystal stones would be needed to teleport, which ordinary people could not afford; only Chen Xiang could have so many of these things.

Chen Xiang arrived at the Divine Weapon Shop of the Tianmen City.

“Sister Menger, are the two girls also going to the Kings’ Mainland?” Chen Xiang, lying beside the window, watched at Xue Xianxian and Leng Youlan who were having a competition downstairs.

“They are not going, it’s a waste of time. So I will send them to the secret land of Icewind Valley where they will focus on cultivation! The two have a very strong determination, they don’t want to lag behind you.” Liu Menger smiled and said before her jade-like hand was quietly pulled by Chen Xiang.

When Liu Menger saw that Chen Xiang was secretly trying to caress her hand, she lightly snorted: “What about you?”

“I’m also not going. We, little guys, are not like you.” Chen Xiang said.

“It seems that I will be going alone, sigh! I will be very bored on the journey! However, maybe I could get some powerful martial exercise, so I still have to make the trip.” Liu Menger also didn’t want to go; she seemed to be a little disgusted of the Kings’ Mainland.

Chen Xiang said in a low voice, “How about you take Hua Xiangyue’s help? If not, you can ask my martial nephews, they are stronger than you. You have to be careful as you still have to cope with your Nirvana Tribulation.”

“Alright, I really hate to go that place! I have been there. There is a disgusting guy there! I will ask Xianyue to come with me.”

Chen Xiang said with a laugh, “Who made Sister Menger so beautiful that you could easily evoke every men’s desire to conquer you!”

“You got a big mouth!” Liu Menger spat and said.

“Sister Menger, did the Divine Weapon Sect exist 100,000 years ago?” asked Chen Xiang.

“No, it did not exist at that time. However, the era during which my ancestor established the Divine Weapon Sect, he was a well-renowned figure.”

Chen Xiang once again asked, “How about Danxiang Taoyuan? According to her, it was she who had founded the sect!”

Liu Menger laughed and said, “Don’t believe her lies, Danxiang Taoyuan is a lot older than her! Otherwise, she would not be going to the Kings’ Mainland. If she truly had founded the sect, why would she even care about the martial exercises and records in the Kings’ Mainland Mysterious Realm.”

CHAPTER 384 – KING’S DESCENDANT

Chen Xiang held a lot of curiosity for the Kings’ Mainland. He thought that if an opportunity presented itself in the future, he would definitely go. And since Wu Kaiming came from the Kings’ Mainland, he was not worried that he would not find it.

“The citizens of the Kings’ Mainland believe that they are very noble. They believe that they are the descendants of kings! To be precise, the descendant of the Mortal World’s first king of mankind, that’s why it is called Kings’ Mainland! The residents of the Kings’ Mainland are really strong. It is vast and has abundant resources. It is not just a mainland that is over a hundred times bigger than Chenwu Mainland, it is also located at the center of Mortal World which is perennially covered by a natural barrier. If someone who doesn’t know the way, tries to go that place, he would simply unable to find it,” said Liu Menger.

Xue Xianxian and Leng Youlan, after having fought until they were soaked in fragrant perspiration, came up. Only now did Chen Xiang let go of Liu Menger’s hand.

“How formidable are they? If an opportunity presents itself, I will go and teach them a lesson so that they will know that no matter how good they think they are, there is always someone better out there!” Leng Youlan loudly proclaimed. This white-haired beauty’s temper was just like this, nonetheless, she indeed had the qualifications to say as such. After all, she was younger than Chen Xiang and also had divine veins!

“Brother Xiang, are you not going?” asked Xue Xianxian.

Chen Xiang squeezed her face before he wiped the fragrant perspiration on her forehead as he said with a smile, “I’m not going, I can’t waste my time! You two are closely chasing after me, if in a million chance you happened to surpass me, I will lose my face.”

“Brother, you are wrong! If your younger sister and your wife are very powerful, you should be proud! You can rest assured, one day I will definitely make you proud.” While Leng Youlan was speaking, Chen Xiang helped her wipe her perspiration and also sort out her somewhat messy white hair.

Thereafter, Chen Xiang spent some quality time with Xue Xianxian in a room where they kissed for a while because very soon, they were going to be separated for some time.

“Brother is always touching senior sister there, does it feel so good? Why don’t I feel like that?” Leng Youlan while peeping asked Liu Menger who was sitting in the hall.

At the beginning, she wanted to call Xue Xianxian, sister-in-law, however, she felt that she was just a bit younger than Xue Xianxian, that’s why she addressed her as an elder sister. However, when she came to know that Liu Menger was also the Dean of Icewind Valley and also her teacher, she addressed Xue Xianxian as a senior sister.

“You are touching yourself, of course, you won’t feel good!” Liu Menger tried to stop herself from laughing. Her face also turned red, obviously, she was well aware of what Chen Xiang and Xue Xianxian were doing inside.

“Next time when we bath, I will ask senior sister to touch me!” Leng Youlan arrived beside Liu Menger and stared at her chest, afterward, she pointed at her own: “Teacher, yours seems to be a little bigger than mine!”

Leng Youlan would usually speak whatever came to her mind and she was courageous as well. Liu Menger had a headache, her face turned red as she scoffingly said, “Little Girl, how can you be so stupid? We both have the same size, besides, what good would come out by comparing them?”

Leng Youlan stuck her tongue out, her face was filled with doubt as she asked, “Teacher, in the past, brother taught me ‘big white rabbit’, is it not this? Now that I think about it, they are indeed white and big as well! Teacher, why would brother asked me to say so? And after you heard it, why was your reaction so big!?”

Liu Menger was completely rendered speechless by this white-haired beauty. She knew Leng Youlan was not someone stupid, however, she was completely oblivious to these matters, and insensitive too.

“You are not allowed to mention this thing in the future!” Liu Menger said in a low voice. As she recalled the time when she had let Chen Xiang look at her chest, those big, snow-white rabbits, she felt shy in her heart, and her face flushed red as well.

Liu Menger suspected that even if Leng Youlan was naked in front of Chen Xiang, she would not feel shy, which made it difficult for her to understand.

Chen Xiang after having embraced Xue Xianxian, parted ways and returned to the Extreme Dan King Courtyard. Liu Menger was also going to leave for some time to send Xue Xianxian and Leng Youlan back to Icewind Valley.

At present, he was going plant some herbs of Five Element True Elemental Dan, Building Foundation Dan, and Elemental Spirit Dan. The Building Foundation Dan was going to be used for selling, while he would use the other to promote his strength. He didn't know when the Great Battle of the Three Realms going break out, but he must elevate his strength as soon as possible before the great battle starts.

For now, Chen Xiang did not cultivate. All day long he was busy congealing a lot of Golden Dragon Saliva. This would not exhaust him, as while he was in the process of congealing, he would absorb the Spirit Qi to recover.

After the herb garden had been moved to the ring, Chen Xiang did not need to worry about watering these spirit herbs; he left everything to Su Meiyao and Bai Youyou. Su Meiyao herself was an alchemist, so naturally, taking care of these spirit herbs was nothing to her. As for Bai Youyou, as she often stayed together with her, could be considered as knowledgeable regarding this. Because of the two taking care of the herbs, Chen Xiang could save a lot of time.

After having stayed in the Extreme Dan King Courtyard for ten days, Chen Xiang went out to inquire about the state of affairs. Gu Dongchen and Wu Kaiming was not at the Extreme Martial Sect. From an Elder, he came to know that all the experts had gone to the One Hundred Thousand Devil Mountains to seal the rift.

After which they would leave for the Kings' Mainland and would return after half a year at least.

Since the Herb Garden's soil became spirit soil, watering the herbs with the divine Golden Dragon Saliva made their growth as fast as grass, which made Chen Xiang wild with joy.

After Heroes Assembly was over, the entire Chenwu Mainland returned to its previous calm. Chen Xiang too holed himself inside the Extreme Dan King Courtyard to focus on planting spirit herbs. In the blink of an eye, three months were over. After having been busy for so long, he finally welcomed the harvest.

"Now, we have a total of 200 sets of Elemental Spirit Dan's herbs, 150 sets of Five Elements True Elemental Dan's herbs, and 80 sets of Building Foundation Dan's herbs!" said Su Meiyao. Chen Xiang mainly planted these, as for the other herbs like White Jade Lotus Seed and Resurrection Grass, he was not in a hurry, so he ignored them.

These days, Chen Xiang was also refining dans. He had refined Building Foundation Dans and Hundred Beasts Dans. He also had many Building Foundation Dans herbs left over from before, while the Hundred Beasts Dans had been almost consumed as he had to feed Little White Tiger and Small Dragon.

"You already have 200 Building Foundation Dans, for now, you don't need them! And these days you have refined too many Hundred Beasts Dans which are enough to feed those two greedy guys for some time. Next, you should refine Elemental Spirit Dans and Five Elements True Elemental Dans," Su Meiyao said.

Chen Xiang would often give some Building Foundation Dans to Yun Xiaodao and the others. However, he would charge them crystal stones. But Lian Mingdong, Lei Xionglin, and Lei Zhong didn't have any crystal stones, they could only owe. Whereas Yun Xiaodao, Zhu Rong, and Xu Weilong were descendants from wealthy families, not to mention, they were the key focus of Extreme Martial Sect training, and they also received a lot of resources from their respective family, so they could still afford.

As for his apprentice Xiao Chou, Chen Xiang simply didn't care about him because Xiao Chou was from Herculean Family who had his own way to increase his cultivation. As for Yao Haisheng, he didn't need dans, he only needed alchemy materials, and Chen Xiang would also often guide him a little.

"Three months have passed, they should have reached the Kings' Mainland by now! The King's descendants, if I have the opportunity, I will definitely go and take a look!" After gazing at the sky, Chen Xiang returned to the private room and began refining Elemental Spirit Dans and Five Elements True Elemental Dans.

CHAPTER 385 – SWEET AFTER SWEAT

The herbs of dans like Elemental Spirit Dan and Five Elements Spirit Dan were rare. Usually, just eating a single dan would allow the martial artist to save a lot of cultivation time, least of all Chen Xiang who stuffed dans like he was eating beans.

And of course, all of this could be credited to the divine exercises he had that enabled him to produce Dragon Saliva which could accelerate the growth of many precious spirit herbs, only because of this could he acquire so many dans.

Now, Chen Xiang reckoned that in the past, Su Meiyao and Bai Youyou were very strong. They may have been experts of the Heavenly Realm because Su Meiyao also knew Dragon Saliva Exercise.

For many people, alchemy was very tedious as they had to observe the alchemical furnace for a long period of time which could even last for good several months. Nonetheless, as far as alchemists were concerned, even though alchemy was tedious, they would feel gratified when they had successfully refined a dan.

Even if it was Chen Xiang whose speed of refining dan was extraordinary would still feel happy when he was successful in solidifying the dan.

Since the time when he had learned the Refining Simulation Technique which was a high-rank alchemy technique, his rate of success had increased. Now he could ensure a 100% rate of success in refining Elemental Spirit Dans and Five Elemental Dans which were very difficult to refine!

The herbs of Elemental Spirit Dan grew the fastest, so he had the most of them which amounted to 200 sets in total. Out of which, he intended to refine only half of those. The Five Elements True Elemental Dan's herbs were comparatively easier to grow, as such in three months, he had grown 150 sets, of which he intended to refine 50 sets. If he was successful in refining them all, it would amount to 500 Five Elements True Elemental Dans!

As for 80 sets of Building Foundation Dan's herbs, he planned to refine them in the future. Currently, he had many Building Foundation Dans, furthermore, they didn't have any obvious effect on his cultivation.

Chen Xiang's current alchemy skills had gone up a notch as compared to the alchemy competition in the Fragrance City. Now, he could refine three Elemental Spirit Dans with one set of herbs, whereas, when he refined for the very first time, it was only one dan.

At that time, he was using Illusionary Brilliant Furnace, whereas now, he was using Brilliant Flame Dragon Furnace, which was obviously easier.

Now, Su Meiyao and Bai Youyou had sorted the herbs inside the ring which saved Chen Xiang a lot of time from processing the herbs.

After half a month had gone by, Chen Xiang was in the private room where he was gasping for air; apparently, he was too tired, but his face was beaming with joy.

"Challenging the limit, sure enough, is pretty exhausting. I'm really tired from refining 100 sets of Elemental Spirit Dans and 50 sets of Five Elements True Elemental Dan in these fifteen days!" Chen Xiang having stretched his body, directly entered the land of dreams.

The Five Elements True Elemental Dan and Elemental Spirit Dan were very different from Building Foundation Dan. They were very difficult to refine. Furthermore, Chen Xiang was also using Refining Simulation Technique while he was refining, which was a lot more taxing on his divine sense. It was a form of training for him. He had been refining continuously for fifteen days during which he had never taken any rest. He was much more tired as compared to continuously fighting for fifteen days.

After having woken up, Chen Xiang took out two huge jade boxes, one of which had 300 Elemental Spirit Dans, while the other had 500 Five Elements True Elemental Dans.

The Elemental Spirit Dan was exquisitely carved and had a bunch of flames flickering at the center. Whereas the Five Elements True Elemental Dan was completely transparent.

Chen Xiang thought that it was still not as spectacular as Building Foundation Dan which shone with dazzling azure brilliance. A few hundred together would definitely strike a brilliant visual impact.

"Sigh, I can not eat them. It seems I have to ask teacher for help!" Chen Xiang bitterly laughed: "I really don't want to go."

"It's not a big deal, after a few more times, you will get accustomed to it, besides, it is good for you." Bai Youyou said.

Although Chen Xiang didn't want to go, to quickly improve his strength, as well as to eliminate all future sequelae, he could only bite the bullet and go to Huang Jintian at the forbidden area. Even though Huang Jintian was insane, he had a very rich experience in regards to cultivation. He could arrange a training program which would allow him to take many dans and advance by leaps and bounds without any drawbacks which would consolidate his foundation as well as make his body stronger.

This could be considered sweet after sweat!

Inside the pit, Chen Xiang, while biting a chicken leg, asked, "Teacher, the Herculean Family's little rascal has worshipped me as a teacher, you don't have any objections, right?"

“Wow, awesome! You have actually taken a guy from the Herculean Family as an apprentice, of course, I don’t have any objections! You brat can always do something unexpected, just like me in the past.” Huang Jintian said with a jovial laugh.

“Hei hei, if am not like this, then I will not be worthy of your elder apprentice!” Chen Xiang laughed and said.

Now, when Huang Jintian recalled how Chen Xiang made a fool of Lan Hai and the others, he suddenly started laughing maniacally and also kept on patting Chen Xiang while praising him.

After Chen Xiang arrived at the forbidden area, Huang Jintian was surprised. Huang Jintian believed that Chen Xiang must have fled far away. However, when he came to learn about as Chen Xiang narrated about everything, he understood and also supported Chen Xiang’s decisions. This way, he had resolved the contradictions between them. If not, it would have been very dangerous for Chen Xiang, as Chen Xiang would have been stared at by a bunch of Nirvana Realm martial artists who were far stronger than him at present.

“Teacher, have you ever been to the Kings’ Mainland?” Chen Xiang curiously asked. He was suddenly interested in this continent.

“I have gone once, all the guys there are indeed abnormal. They are ridiculously strong! It’s true, their bragging of having the King’s Vein is not at all false! From my research, the guys with the King’s Vein are just like the Herculean Family, furthermore, they are more formidable than the Herculean Family, because it is very difficult for the Herculean Family to cultivate True Qi which is also the reason for the population of Herculean Family to be poor. However, the guys with the King’s Vein are many.” Huang Jintian seriously said. Anyone who was strong by his standard was definitely not weak.

Much to Chen Xiang’s surprise, they were stronger than the Herculean Family which made his heart pound crazily! Now, having awakened his strength, Xiao Chou was very strong. Even Chen Xiang was not 100% sure that he could defeat Xiao Chou. How would he fare against the martial artists of the Kings’ Mainland?

“Isn’t Little Bald from the Kings’ Mainland? Why do I feel he is very weak, moreover, also very old.” Chen Xiang doubtfully asked.

“Haha, you say Little Bald is weak! Little Bald is formidable, as for why he is older, it is because there was some problem with his King’s Vein. But, when there was no hope of him having any breakthrough, his King’s Vein had been awakened! After his King’s Vein had been awakened, his strength had advanced by leaps and bounds. All of a sudden, he had jumped to Nirvana Realm, afterward, he met your senior brother. I don’t know what your senior brother had cooked for him, later, he worshipped your senior brother as teacher and joined the Extreme Martial Sect.”

“Little Bald is someone with a gentle temperament, he rarely takes any action. When there is no need for him to act, he would be too lazy to move. If he, who had crossed eighth Nirvana Tribulation took any action, then, hei hei.” Huang Jintian didn’t continue. Chen Xiang could easily understand. Someone with King’s Vein was far stronger than any ordinary martial artists of the same level, just like the Herculean Family.

“Kid, you didn’t just come here to talk to me, right? Just so you know, I knew you could escape, I also don’t need to waste my strength to come out. Quickly speak, what did you come here for?”

Chen Xiang looked at Huang Jintian with surprise. He didn’t expect, Huang Jintian could actually come out!

Chen Xiang didn’t say anything, he just took out two jade boxes and opened them. When Huang Jintian saw the Elemental Spirit Dan and Five Elements True Elemental Dan inside, he cried in astonishment. His gaze was completely transfixed on these dans.

CHAPTER 386 – TRAINING PLAN

Huang Jintian remembered that not long had passed since the last time Chen Xiang came to him with many dans. In addition, the dans are far more than the last time.

“Elemental Spirit Dan, I have seen this thing only once and the guy who had it treated it like a treasure. I had never imagined that you would actually have a basket of it. Brat, where the hell did you get these?” Huang Jintian having picked up a dan, whereupon he meticulously observed it, “Moreover, it’s a top-grade quality dan, and it should be just refined out, right?”

Chen Xiang scratched his head as an idiotic grin appeared on his face: “Of course, it is refined by your very own apprentice. Teacher, I want to quickly become stronger, I don’t want to die during the calamity.”

“Of course I know this, or else why would you come to me! When I took you as an apprentice, I was a little worried in regards to your cultivation resources, but who would have thought that you would actually solve it yourself. Since you are a formidable alchemist, I am relieved. Let me make a plan for you on how to use these dans.” Huang Jintian looked at the fire as the depths of his pair of old eyes glittered with a sharp aura.

Chen Xiang, who tore a leg from the nearby roasted cow, thought that he must ask his insane teacher to teach him how he cooked it as he took a bite out of that delicious beef.

“If you want to take so many dans, I can arrange a training plan for you but it would need some time because only this way would it be possible for you not to get any sequelae.” Huang Jintian said.

“It’s alright! When I came here, I had already prepared my heart. Teacher, no matter what you have planned for me, I will grit my teeth and complete it, I am not afraid of anything!” Chen Xiang said with a smile. Although he said it lightly, he clearly knew that it would not be so easy to complete.

“Hahaha, you really understand it well, in the past, your senior brother didn’t have this kind of mentality!” Huang Jintian said with a laugh.

Chen Xiang heaved a sigh in his heart. Huang Jintian’s training plan was very tortuous. Every time, he would be subjected to slightly more than his tolerance limit, for example, during the fight last time, Huang Jintian would fight Chen Xiang until he was completely exhausted, and even after he was exhausted, he would make Chen Xiang continue to fight, or else, he would beat Chen Xiang.

His body was also trained like this. At the beginning, he would make Chen Xiang suffer at the brink of his tolerance limit, afterward, he would increase it bit by bit by making Chen Xiang’s body subjected to all

kinds of destruction while making sure that Chen Xiang did not lose his consciousness from pain. After a while, when Chen Xiang would gasp for breath, he would let Chen Xiang take a rest for a certain amount of time so that his body could recover on its own before torturing him again.

Because Huang Jintian was very powerful, he had an absolute control over his True Qi, that was why he could take Chen Xiang's training to the extreme without him ending up dead.

Training almost every day with Huang Jintian would be bloody which made it unforgettable for Chen Xiang. However, he was now slowly getting used to it. In order to pursue strength, he feared nothing.

At the beginning, Chen Xiang felt as though his own body weighed 10,000 kilograms, it would take every ounce of his strength to take each step, and in this condition, he would still have to fight with Huang Jintian.

Whereas, Huang Jintian would suppress his level to Chen Xiang's when they fight, which was to train Chen Xiang's fighting experience. So Chen Xiang, in the course of the fighting, had to rely on these experience to win, which was very rare.

"I will give you some dans after I have beaten you half to death, this way, you can digest it better! But let me remind you, my attack will not only hit your body, it will also attack your spirit, take care!" Just as Huang Jintian finished speaking, he sent a punch at Chen Xiang.

At this moment, facing Huang Jintian's quick fist, Chen Xiang was as heavy as a mountain, his movements were like a turtle, he was simply unable to resist, he could only allow himself to get beaten.

Just as Huang Jintian's punch landed on his body, two of his ribs were broken. Huang Jintian laughed and said, "You have to hold on! From now on, your everyday training will be just like this."

Chen Xiang secretly cursed. He couldn't understand what Huang Jintian had done to him so as to make his body so heavy. Just standing was taking his every ounce of energy. At this moment, even moving his jaw to speak was incredibly difficult.

With a bang, another punch landed on his chest as a suppressed groan escaped his mouth and blood trickled down from his closed mouth. Yet Huang Jintian did not show any mercy, his next attacks got increasingly heavier. At this moment, Chen Xiang was nothing more than a human punching bag which could only be frantically beaten by Huang Jintian.

Chen Xiang didn't know how long had passed, but he felt as though his entire bones had been broken, moreover, he felt an incomparable aching in his consciousness; Huang Jintian had used spiritual attacks to hone his divine sense.

"Take it, quickly recover, I will give you an hour to rest!" Huang Jintian stuffed two dans in Chen Xiang's mouth, one was an Elemental Spirit Dan and the other was a Five Elements True Elemental Dan.

Just as the two dans entered his mouth, their potency was quickly digested. He simply didn't need to do anything to digest their potency. The energy of the dans automatically melted away and quickly fused with his body, which made him feel like he was drinking cold water in a scorching desert.

However, he felt that he had only drunk a small amount; which was simply insufficient. He closed his eyes and relaxed his body so as to let his damaged body recover on its own.

One hour was quickly over. Chen Xiang had only recovered 80%, but he was pulled up by Huang Jintian before he continued wrecking Chen Xiang...

In this way, Chen Xiang was frantically beaten in the daytime and when the night arrived, it was still difficult for him to relax because Huang Jintian had released some kind of strange power which was attacking his body. He felt as if his body was fiercely getting pounded by a hammer, and in order to resist this kind of power, he had to mobilize the True Qi within his body to resist.

Just like this, two months passed away. Now, Chen Xiang's body was still as heavy as before, but he could now dodge. However, he was very slow, he still could not avoid Huang Jintian's attack.

Every day, he ate 6 Five Elements True Elemental Dans and 5 Elemental Spirit Dans. Whenever he took them, the energy inside the dan automatically and quickly assimilated into his body. Their efficacy was played to the limit.

Having eaten all the Elemental Spirit Dan, the divine soul in Chen Xiang's consciousness had grown a lot. Before, it looked like it was ten years old, and now it was already eleven years old!

As for his cultivation, he was already just a step away from the 8th level True Martial Realm. A total of 390 true element grains in his five beasts forms had been lit, as long as he lit up another ten true element grains, he would step into the 8th level.

"Not bad, your cultivation speed is beyond my expectations!" Huang Jintian nodded and laughed.

Chen Xiang had stayed in the forbidden area for two months. Even Huang Jintian could see that he was tired, so Huang Jintian let him leave and relax, or else, he would feel oppressed.

Having left the forbidden area, Chen Xiang returned to the Extreme Dan King Courtyard and directly went to sleep for a whole day. Afterward, he gave the Golden Dragon Saliva which he had been congealing in these two months to Su Meiyao and Bai Youyou.

Huang Jintian had already found him congealing Golden Dragon Saliva, but he did not ask him anything because he could see that Chen Xiang wanted to keep it a secret. Although he was curious, he respected Chen Xiang's wishes.

"Young Martial Uncle, you are finally back, quickly open the door!" Just as Chen Xiang had woken up, he found Gu Dongchen shouting at the door which was perplexing to him. It should have taken Gu Dongchen and the others half a year for their trip to Kings' Mainland and yet they had returned ten days in advance.

CHAPTER 387 – KINGS' MARTIAL ART MEET

Chen Xiang brought Gu Dongchen to a small hall. Along the way, he noticed that Gu Dongchen did not dare to speak anything.

"What's the matter? Spit it out, I am busy!" Chen Xiang exhorted.

"W-we have returned from the Kings' Mainland. There, we found the martial arts left behind by many seniors, so the map is true." Gu Dongchen said.

"Get to the point!" Chen Xiang knew that Gu Dongchen definitely didn't want to talk about this.

“Alright, I will not hide it from you! The Kings’ Mainland is preparing to hold a Kings’ Martial Art Meet! I advise you not to go because the Kings’ Mainland guys are ridiculously strong. They had actually invited you, they clearly want to entrap you intentionally.” Gu Dongchen said with a sigh.

Chen Xiang snorted: “I was wondering what it was, if this is it, it is no big deal, I’m not going.”

“What? You are actually not going?” Gu Dongchen was a little surprised. He knew Chen Xiang very much enjoyed taking part in these kinds of competition, even more so, a competition with the Kings’ Mainland martial artists.

“From what I hear, the Kings’ Mainland had asked other continents too. Sacred Light Temple has naturally returned, they, for sure, are going to be sending some peak young martial artists to compete.” Gu Dongchen said.

Chen Xiang pursed his lips and said, “I am too lazy to go. At my current strength, I am nothing more than a fart in your Nirvana Realm martial artists’ eyes. Just find others in the Extreme Martial Sect to deal with it.”

If it was before, perhaps Chen Xiang would have been excited. But after being threatened by numerous Nirvana Realm martial artists, he felt that even if he was invincible at the same level, he was still far off from those Extreme State and Nirvana Realm martial artists. He thought that he should refine dans in his free time, only cultivation should take priority over everything.

“That’s good! Those guys are truly strong, moreover, you should better be ready for the Great Battle of the Three Realms. Maybe, after the Great Battle of the Three Realms starts, they would still not suffer any loss.” Gu Dongchen said with an anticipating look.

“Humph, if none of us mainlands were blocking the demons and devils, then how can they be able to live so smoothly?” Chen Xiang said with a despising tone.

“I guess that’s right.”

Just as Gu Dongchen was about to leave, Chen Xiang hastily asked, “How were you able to return so quickly?”

“It was all because Junior Brother Wu had set up a teleportation array on the Kings’ Mainland. After he had determined our coordinates, we were teleported to the Extreme Martial Sect’s entrance. Who would have thought that junior brother had researched in this aspect.” Gu Dongchen laughed and said.

Chen Xiang was astonished: “So to speak, we now have an ancient teleportation array?”

“But of course, moreover, it belongs to our Extreme Martial sect. In the future, it will be convenient to travel to the Kings’ Mainland. And because junior brother’s relation with the people there is good, they allowed the teleportation array to remain.” Gu Dongchen said with a laugh.

After Gu Dongchen left, Chen Xiang pondered whether he should go to the Kings’ Mainland or not.

“How about you endure it for now? After you have entered Extreme State, it would not be too late. And since those guys with the King’s Vein are stronger than the Herculean Family, they should be extremely strong.” said Su Meiyao.

Chen Xiang had always been longing to live the life of traveling in other continents. For now, he could only be patient. In order to quickly improve his strength, after resting for a day, he left for the forbidden area to accept Huang Jintian's training.

After the Extreme Martial Sect publicized the matter of Kings' Martial Art Meet at the Kings' Mainland, many were incredibly excited. Originally, many people didn't know a thing about the Kings' Mainland. But after they heard about it, they came to know that the Kings' Mainland was a vast and a powerful continent.

The Kings' Martial Art Meet was directed at True Martial Realm and the Extreme State. It was divided into three groups, low-rank, middle-rank, and high-rank. Originally, many people wanted to go, but after noticing the unfair grouping, they dispelled this notion.

"What the hell is this? 100,000 crystal stones just for registering, the low-rank group is 1st level to 3rd level, the middle-rank group is 4th to 6th level, and the high-rank group is from 7th level True Martial Realm to 1st stage of Extreme State. Even with such difference, they want us to fight, my ass!" Yun Xiaodao cursed.

"1st level and 3rd level True Martial Realm are grouped together, certainly the 3rd level will have the advantage. The most ridiculous is grouping the 7th level True Martial Realm martial artists together with Extreme State martial artists, and they still want us to fight, my ass! The Extreme State martial artists will certainly kill the True Martial Realm." Zhu Rong sneered.

"If Chen Xiang went, he would definitely be grouped in the high-rank group, but perhaps even he would be defeated when facing an Extreme State martial artist." Xu Weilong said.

The Extreme State is divided into three sub-stages which are Spirit Martial Realm, Soul Martial Realm, and Tempering Realm! They are also called the Three Heavens. After entering the Extreme State, first and foremost, the divine sense is cultivated to the extreme, which is also called the great perfection of Spirit Martial Realm. At this point, the martial artist gives birth to a peculiar soul which is also called Martial Soul. Following that, the Martial Soul is cultivated to the extreme and the martial artist will stride into the Tempering Realm, then the body is finally cultivated to the extreme and then the martial artists can enter nirvana, which will draw Nirvana Tribulation, only after crossing the Nirvana Tribulation will the martial artists stride into the Nirvana Realm!

The 1st stage of Extreme State was far more powerful than the True Martial Realm. One did not need to use their brain to know that the Extreme State martial artists would win, so many people had sneered at this grouping by the Kings' Mainland.

"Elder Brother Chen will definitely not go, isn't this clearly cheating others?" Yun Xiaodao said with disdain, "If Elder Brother Chen was an Extreme State martial artist, no matter if it was a King's descendant or not, they would be beaten to a pulp."

The winner of the Kings' Martial Art Meets could get very rich rewards, moreover, the winner of the high-rank group who would be rewarded a Good Luck Fruit.

"What! The reward is actually a Good Luck Fruit!" Chen Xiang, who was walking on the road, when heard Wu Kaiming mention this could not help but shout in astonishment.

A Good Luck Fruit was a heaven-level spirit herb which could be considered as a top level spirit herb in the mortal world. It was the main ingredient for refining Good Luck Dan. One could say that if they used price to measure its value, it would absolutely reach an astronomical figure.

“Rumor has it that there is just one fruit because the Good Luck Tree had already been dead!” Wu Kaiming said.

“It makes no sense, it’s just a tournament, but they have actually taken out such a precious thing, are the organizers crazy?” Chen Xiang could not understand why there was such an expensive reward.

“To the tell you the truth, the reward is for one person. According to the rumors, he is the strongest youth of the Kings’ Mainland, and he is just 20 years old. The organizers of the Kings’ Martial Art Meet are very optimistic about this youth, so they have prepared this reward for him.” said Wu Kaiming.

Chen Xiang shook his head as he heaved a sigh: “Unfortunately, I am only in the 7th level of True Martial Realm now, or else I would have also given it a try.”

“That person is more formidable than you imagine, in just 20 years, he is already in Extreme State! So, I came to tell you that you should not be fooled by them. The organizers are holding the Kings’ Martial Art Meet for their own people. Their objective is to humiliate the martial artists of other continents, meanwhile making Kings’ Mainland famous.” Wu Kaiming looked slightly furious.

“Does the Kings’ Mainland want to unify the entire mortal world?” Chen Xiang was surprised for a moment before he asked with a frown.

“Hard to say, although I came from there, I have rarely stayed there.” Wu Kaiming said while shaking his head, “The Kings’ Martial Art Meet has always been one influence, that’s why it is hard to figure out.”

Having told all these to Chen Xiang, Wu Kaiming immediately left. While, Chen Xiang, carrying an indescribable mood, jumped into the pit before he resumed his brutal training.

CHAPTER 388 – POWERFUL VEINS

The whole matter of the Kings’ Martial Arts Meet had sent the entire Chenwu Mainland in a hubbub. However, very few people registered for it. Only a few martial artists who were comparatively strong dare to register.

“Wow! The middle-rank group’s rewards are also marvelous! It is actually a White Jade Lotus Seed!” A man cried in surprise.

At the beginning, only a few people registered. But later on, the number of people registering started to rise. And the one who was responsible for all this work was Wu Kaiming, which was also the condition that the Kings’ Mainland demanded in order for the teleportation array to remain.

“Junior Brother, do you truly want to go? Your teacher had but declined in a clear-cut manner.” Gu Dongchen, after handing an invitation card to Xiao Chou, didn’t expect that Xiao Chou would actually participate in the high-rank group competition.

Xiao Chou, regardless of how many or how strong his competitors were, wanted to give it a try.

“Great Senior Brother, isn’t it alright if you look after me a bit at that time so that I won’t be killed by those guys! I am not like before, if I am against a powerful guy, I will throw in the towel. However, if I encounter someone who is almost at the same level as me, I will fight it out.” Xiao Chou said with a smile.

Gu Dongchen heaved a sigh: “Before the competition, there is also a preliminary round, and it seems it is calculated by integral points, and the top four will finally go up on the stage to compete.”

Chen Xiang, who was still inside the forbidden area where he was still undergoing torturous training, was completely oblivious to the fact that Xiao Chou had already registered. At present, Chen Xiang was on the brink of a breakthrough.

In the blink of an eye, ten days had already passed. Chen Xiang, after taking a Five Elements True Elemental Dan was zealously compressing his True Qi as a true element grain was slowly being illuminated! Over these ten days, he would light up a true elemental grain every day. Moreover, the training this time was even more torturous than before, and the dans he had taken were also much more. This had been intentionally arranged by Huang Jintian, it was all for him to impact his bottleneck.

Whereas, five beast forms in his dantian had eighty specks of light brightly shining, a grand total of four hundred true elemental grains. When the four hundredth true elemental grain was lit, he felt his power suddenly soaring.

After reaching four hundred true elemental grains, the true elemental grains seemed to create a sky, as if all the grains had mutually fused together and had some kind of connection. Due to which, Chen Xiang felt his strength soaring to a whole new level.

Chen Xiang burst into laughter. Finally, after two months of pain, he had broken through. The joy he felt could not be described with words alone.

“You are now already in the True Martial Realm, yet you could break through the later stages so quickly, it is all because of those dans. If you would not have persisted through the training program set by me, I’m afraid you would not have been so fast! Go now, continue refining dans.” Huang Jintian said as he kicked Chen Xiang out of the pit.

After Chen Xiang had stepped into the 8th level of the True Martial realm, he had completely used up all the Five Elements True Elemental Dans. Huang Jintian’s plan was well calculated.

Every time Chen Xiang came out of the forbidden area, he would first take a bath before taking a big nap. However, this time, just as he finished taking a bath, he met Wu Qianqian.

“Your apprentice is injured, quickly visit him!” After Wu Qianqian saw Chen Xiang, immediately said.

“Which one?” Chen Xiang asked with a frown.

“Your youngest apprentice. However, he is already stabilized now! Sure enough, the guys from the Kings’ Mainland are formidable, even a guy like Xiao Chou could only crawl his way back.” Wu Qianqian said with emotions.

Having heard this, Chen Xiang could guess the cause of it. He was a little bit angry because Gu Dongchen had actually allowed Xiao Chou to participate in the Kings’ Martial Arts Meet.

“From what I hear, all the disciples of the Extreme Martial Sect who participated had returned with heavy injuries. Chen Xiang, you better not go!” Wu Qianqian said in worry.

“I am not so stupid!” Chen Xiang followed Wu Qianqian to Xiao Chou’s residence. Xian Chou was also a member of King Martial Courtyard.

“Little Devil, how are you?” When Chen Xiang saw Xiao Chou’s weak appearance, he pinched Xiao Chou’s face.

“Better than dead! Teacher, you absolutely can’t go to avenge me. The top experts of Kings’ Mainland are truly formidable. The guy who I was competing with was also in the 8th level True Martial Realm, and yet, I was beaten to this state! Not only do they have divine skills like the Herculean Family, their martial skills are also very powerful, and their True Qi is very overbearing as well.” Xiao Chou persuaded Chen Xiang. Since he had taken Chen Xiang as his teacher, he had also matured a lot; he wasn’t rash anymore like before.

Although Xiao Chou was seriously injured, he had already recovered a lot. However, Chen Xiang still fed him a bit of Hell Spirit Grass, so that he could recover a bit quickly.

Chen Xiang smiled: “Do you think I am as stupid as you. If I don’t have absolute strength, I would not go. And once I go, I will take the first place and return.”

Chen Xiang was still a True Martial Realm martial artist. And the high-rank group actually allowed the participation of Extreme State martial artists. No matter how strong a True Martial Realm martial artist was, it would be very difficult for him to deal with an Extreme State martial artist.

“Fortunately, I heard that there are not many powerful experts like him, only those who have the King’s Vein are so strong. Previously, I have encountered a few 7th level, 8th level, and 9th level True Martial Realm martial artists who were defeated by me. However, when compared to the martial artists of other mainlands he was very strong! The guy who defeated me was in 8th level True Martial Realm, I am sure that that guy must have the King’s Vein.” Xiao Chous unhappily said.

Chen Xiang smiled and said, “The guy who had been previously defeated by you would also be feeling the same as you do! Your Herculean Family has a higher starting point than those guys, if you were in the 8th level of True Martial Realm, you should have been able to fight on par with him.”

“Maybe I would have been able to win too!” Xiao Chou burst into laughter.

Because there was the teleportation array, it was very easy to visit the Kings’ Mainland from the Chenwu Mainland. At this moment, standing at the entrance of the Extreme Martial Sect, Chen Xiang was looking at the complex spirit patterns of the array laid on the ground, this array was precisely the teleportation array.

“What do you think? Do you want to go and take a look?” Wu Kaiming appeared behind Chen Xiang.

“I want to, but I am afraid, if I go, I may not be able to hold myself and fight with those guys!” Chen Xiang said with a smile. Although nothing was shown on his face, he was furious in his heart.

Wu Kaiming smiled: “You are afraid that in a fight you would not be able to defeat them. But if it was alchemy, I think, you have a chance to win. Alchemy wise, King’s Mainland is also very prosperous. There

are many young and outstanding alchemists there. They too had sent an invitation to you, asking you to participate in their alchemy competition.”

Chen Xiang eyes immediately brightly lit up as he asked, “I am just an early stage 5th level Alchemist, if the competition rules are unfavorable to me, I am not going.”

“The competition rules should rather be fair and surely, in accordance with every level of the alchemists. It is definitely not unfavorable like the martial arts competition.” Wu Kaiming said.

Chen Xiang wanted to give it a try: “Alright, I guess, I will accept their invitation! If the competition rules are unfavorable to me, I will return at the drop of a hat.”

Wu Kaiming nodded and said, “But of course, lest you will be knocking your head against the wall. This time, the Kings’ Mainland is completely suppressing other mainlands to the point that they could not even breathe because the Kings’ Mainland is truly powerful. And after many people from Chenwu Mainland went there, they all had to return after getting defeated. I have also heard that a few outstanding Extreme State disciples of the Lotus Island had also been seriously injured!”

Chen Xiang had accepted the invitation and was going to use the teleportation array after three days to participate in the alchemy competition. After many people came to know this information, they were very eager to visit the Kings’ Mainland. However, they needed to pay the cost to use the teleportation array.

CHAPTER 389 – EMBARKING UPON THE KING’S SOIL

For the convenience of exchange between the various mainland during the Great Battle of the Three Realms, all the mainlands had established teleportation arrays with the Extreme Martial Sect. This way, the various mainlands of the mortal world were no longer far away.

100,000 years ago, in order to prevent the demons and devils to quickly reach the various mainlands through teleportation arrays, they had been destroyed. However, later, it proved to have no major effect. So, establishing the teleportation arrays would further increase the exchange and trade between various mainlands, and allow the mainlands to develop quickly.

In the following month, many teleportation arrays were already finished being constructed. Whereupon, the martial artists of these mainlands registered for the Kings’ Martial Arts Meet one by one, and went to the Kings’ Mainland through the teleportation arrays. However, in the end, they returned with heavy injuries.

“In order to participate in the Kings’ Martial Arts Meet, the first test is a fight between two people where only the one who has won will be allowed to participate the preliminaries and will go on the stage to fight with various martial artists. Many participants are seriously injured in this very test.” Said Xiao Chou. Now, he had already recovered a lot from his injuries. When he heard that his teacher was going to participate in the alchemy competition of Kings’ Mainland, he too was very excited.

The martial artists of Kings’ Mainland, due to powerful veins, were very powerful. But in regards to alchemy, just having a good vein wasn’t enough. Otherwise, there won’t be so few expert alchemists.

At present, if Chen Xiang took part in martial arts competition, there was no guarantee that he could win, however, if it was the alchemy competition, he had a huge chance to win.

In this one short month, martial artists of many mainlands had embraced and learned from hands-on experience the formidability of the Kings' Mainland. Furthermore, some sects of the said mainlands had recommended the martial artists who were registering for the Kings' Martial Arts Meet to carefully consider and be prudent, lest they hurt themselves as well as waste their wealth.

"The martial artists of Kings' Mainland who have the King's Vein are truly strong!" Chen Xiang said with emotions.

Although Xiao Chou was unwilling, he had no choice but to admit the fact that the martial artists possessing the King's Vein were indeed ridiculously strong. And he also believed that if there was someone who could defeat these martial artists, it could certainly be his teacher.

"Teacher, suppose you were in Extreme State, will you register?" Xiao Chou asked.

"But of course!" Chen Xiang smiled. He was an alchemist, and a martial artist as well. And as long as one was a martial artist, he or she would want to test the results of their cultivation through the martial arts competition, in particular, competing against some powerful guys.

"There is still half a year before the registration is finished. Teacher, after three days, you will go to participate in the alchemy competition which should only take one or two days, that's all, you still have time, right!?" At this moment, Xiao Chou sensed that Chen Xiang was a lot stronger than before which was because Chen Xiang had broken through, and that was why he was very confident of Chen Xiang.

Chen Xiang smiled and said, "Let's talk about it after half a year, for now, I am going to the Kings' Mainland to take a look, you coming?"

"No, I don't want to be ridiculed by those people." Xiao Chou stuck his tongue out and capered away. He was a lot mature now.

Before, others were comparing the Herculean Family and the martial artists with the King's Vein, but now, the Herculean Family had instead been defeated. Thus, Xiao Chou was very depressed. Until he had the absolute strength, he wasn't planning on stepping on the Kings' Mainland.

Danxiang Taoyuan, at the top floor of Danxiang Tower.

"Menger, congratulation for crossing your seventh tribulation!" Hua Xiangyue said with a smile.

"This is all thanks to the Resurrection Dan refined by you. I had taken three dans, and had it not for these, I'm afraid I would not have been able to cross! The seventh tribulation was truly terrifying! Of course, there is also that Little Rascal who had given me the herbs."

Liu Menger said with emotions. She could only be successful in crossing her tribulation was first due to Chen Xiang who had let her know the details of her Nirvana Tribulation, which let her do enough preparations. And the second due to the Resurrection Dan, this life-saving dan, which was indispensable.

Hua Xiangyue giggled and said. "How are you going to thank that Little Rascal? With your body?"

"You little fox..." Liu Menger's face was flushed red as she tenderly spat: "This time, those guys of the Kings' Mainland had attacked the self-esteem of various mainlands. Now that Little Rascal, Chen Xiang is going to be participating in the alchemy competition, I wonder if he could scrub off the spirit of those guys."

“Little Rascal is terrifying in alchemy. Those guys with the King’s Vein won’t be able to easily defeat him! Chen Xiang, that brat is also very depressed, he wants to fight, but he doesn’t have enough strength.”

Hua Xiangyue heaved a sigh as she peered out of the window at the square below. Right there, Chen Xiang had won the alchemy competition, and his strength had also shaken the entire Chenwu Mainland. Recalling Chen Xiang’s stalwart figure from that day, a sliver of inexplicable feeling could not help but emerge in her eyes.

“Let’s go, let’s go to the Kings’ Mainland and cheer for that Little Rascal!” Liu Menger smiled at her. At this moment, one thing that Liu Menger could not understand was why Hua Xiangyue would have inexplicable feelings for Chen Xiang.

Chen Xiang was now an influential figure. He was the apprentice of Huang Jintian. He had fooled experts of various mainlands during the Heroes Assembly. He had defeated a clansman of the Ancient Herculean Family and later taken him as an apprentice. Not only does he practice the Tai Chi Subduing Dragon Exercise, he was also a 5th level Alchemist who had mastered an otherworldly alchemy technique at such a young age...

He had so many titles that it was hard to remember them all. He had done far too many earth-shattering things. And when too many mainlands had been defeated by the Kings’ Mainland, Chen Xiang suddenly came forward to fight, which for sure had sent many people into ebullition, many people hoped that someone ordinary could defeat these martial artists with King’s Vein, even if it was just in alchemy.

Tycoons of various mainlands also had a very deep impression of Chen Xiang. It was hard for them to forget him. They too had heard of Chen Xiang’s superb alchemy technique, but they had not had the chance to witness it. Now that Chen Xiang had dared to go the Kings’ Mainland to take part in the alchemy competition, these tycoons were also very interested.

The Kings’ Mainland flaunting their strength had made these tycoons very unhappy. If Chen Xiang could take first place in the alchemy competition, no doubt it would hinder the Kings’ Mainland plan of becoming famous.

Chen Xiang followed Gu Dongchen and the other to the Kings’ Mainland, which was indeed a prosperous place. Here, the buildings were one of a kind, all of which constructed from somewhat huge bricks. Moreover, all of the buildings had several floors. One could not help but halt their footstep while walking on the street, gazing at these magnificent building on either side.

The Spirit Qi here was also very rich. Although it was not as good as the mysterious realm, Chen Xiang felt that it was twice as much as the Chenwu Mainland, which was also one of the reason for the martial artists here to be stronger.

What surprised Chen Xiang the most was that the citizens of the Kings’ Mainland more or less practiced martial arts. While walking on the streets, he discovered that the manager of the stores and even the attendants of hotel were at the very least in the 3rd level of the Mortal Martial Realm. The martial arts atmosphere here was very good, this point alone made him feel admiration.

“This mainland is a hundred times bigger than the Chenwu Mainland, moreover, the resources here are also very rich, and the population is also not as much as the Chenwu Mainland. The fecundity of people here is not very good, however, their overall qualifications are very high. So no matter who it is, as long

as they are born on this mainland, they would learn martial arts from their childhood. If it is the poor, the Divine Martial Palace of the Kings' Mainland would send some crystal stones and dans, so that the poor could practice martial arts." Wu Kaiming narrated the matters of Kings' Mainland. After all, he was from here, and so he had a very good understanding of this place.

CHAPTER 390 – FRUIT OF FORTUNE

"So it was like this. This way, the people with some potential will not be buried! The Kings' Mainland is indeed rich and powerful. Is the Divine Martial Palace in-charge of the forces of the Kings' Mainland?" Asked Chen Xiang.

"Yes, the guys of the Divine Martial Palace are extremely strong, and the people in power are all possessors of the King's Vein. As long as someone has the King's Vein, he can take an important post in the Divine Martial Palace." Said Wu Kaiming.

Having strolled here and there a bit, Chen Xiang discovered that the dan industry of the Kings' Mainland was very poor. The herbs sold were a lot, however, the dans were fewer. Now he understood why many citizens of the Kings' Mainland were trapped in the 3rd level and the 6th level of the Mortal Martial Realm, it could all be credited to the lack of dans here.

However, the refiners here were still pretty good. Chen Xiang went to a few magical equipment stores and found them selling spirit-level equipment.

"It seems that even after being closed for so many years, Kings' Mainland still wasn't able to foster many alchemists. Sure enough, alchemy is not that easy! Now that they are open to the outside world, it should be to attract some alchemists or to want to buy dans from other mainlands." Chen Xiang muttered to himself.

Gu Dongchen and Wu Kaiming were both inside a stone building, which was the residence of Wu Kaiming. At this moment, Chen Xiang just came out from that house to wander alone.

"The Fruit of Fortune is a heaven-level fruit, which is also very expensive even in the Heavenly Realm. It will be better if you can get it!" Su Meiyao said, these days she would always mention this.

"Is the Fruit of Fortune required for your dan?" Asked Chen Xiang. Su Meiyao and Bai Youyou had lost their power, and only through a dan could they recover it back. And according to them, it was a very high-level dan.

"No, you are wrong. If you have a heaven-level fruit now, you can plant it, which will bear you a lot more in the future. And after you have arrived at the Heavenly Realm, you can earn a lot of wealth by selling them, which would provide the wealth for you to gather herbs for the dan. When you have gone to the Heavenly Realm, you will understand how difficult it is to roam in the Heavenly Realm." Su Meiyao said.

Chen Xiang licked his lips as he said, "There is still half a year till the deadline of registration. If I have not stepped into the Extreme State, I don't dare to participate. Can I step into the Extreme State in half a year period?"

"It's hard to say! Don't you have some top-grade crystal stones? If you can lay out a Tian Yuan Array, it will be rather helpful in your cultivation, moreover, you can also quickly refine dans, you have a lot of herbs too!" Said Su Meiyao.

Bai Youyou said, "First, don't refine Elemental Spirit Dan, only refine Five Elements True Elemental Dan, then just maybe you can enter the Extreme State in half a year!"

"Alright, after returning to the Extreme Martial Sect, I will go for broke. Since the Fruit of Fortune is an ingredient to refine heaven-level dan, then I am going to grasp this good opportunity."

Chen Xiang had decided that he would impact at the Extreme State in half a year by all means!

"Little Rascal, if you can do it, at that time, this elder sister will let you taste something sweet, such as... a kiss on your lips." Su Meiyao's flirtatious voice could make anyone's bones grow numb; her charming voice suddenly sent Chen Xiang in high spirits.

"To boost your morale, maybe your Sister Youyou will also give you a kiss on your lips." Su Meiyao laughed again and again, while Chen Xiang's heart was in a turmoil; he could not wait to execute this thing on the spot.

Chen Xiang was suddenly a lot more confident.

"Sister Youyou, is it true?" Chen Xiang took a long deep breath as he mustered up his courage to ask. He suspected that Su Meiyao was deceiving him.

"En!"

Upon hearing Bai Youyou's soft voice, Chen Xiang felt as though his body was filled with power. He could not wait to go and register; he felt that his blood was already on fire!

"Indeed, a Little Rascal. Only using such dirty reward can make you so passionate." Su Meiyao giggled. In any case, she had already kissed Chen Xiang once, she was not afraid for the second time, not to mention, that kind of feeling had left a memorable aftertaste.

Long Xueyi said with a laugh, "Elder Sisters, if you agree to get naked and take a bath with him, I'm afraid it would not be any difficult for him to destroy the entire King Mainland, hei hei..."

"Maybe!" Chen Xiang said with a lewd smile on his face.

"Pooh!" Su Meiyao and Bai Youyou, both snorted at the same time.

Chen Xiang wandered on the Kings' Mainland for three days, during which he had bought a lot of herbs for refining Hundred Beasts Dan. Here, these herbs were very cheap and a lot. All of which was going to be used to feed Long Xueyi and Bai Zhenzhen.

Just like the Chenwu Mainland, precious herbs were very rare here too. For instance, when Chen Xiang asked for the herbs required for refining Building Foundation Dan, he could only find them in one store, moreover, it belonged to the Divine Martial Palace and were very expensive.

There were no Elemental Spirit Dan and Five Elements True Elemental Dan. However, some unconventional profound-level low-grade dans which were rarely used could still be found, but they too were very expensive.

And like other mainlands, apart from the herbs of Hundred Beasts Dan, herbs for other profound-level low-grade dans were very rare. Chen Xiang reckoned that the overconsumption of them during the Great Battle of the Three Realms 100,000 years ago had led to their extinction.

From the profound-level dans, the herbs were all very valuable. However, spirit-level high-grade dans like True Elemental Dan and White Jade Dan were quite many, but as far as ordinary people were concerned, they were still very expensive.

The alchemy competition was going to be held in the Divine Martial Palace, which was a magnificent and huge palace. It was completely built from huge stones. Just the walls surrounding it were twenty odd zhang high. And on the inside, it was as big as a city, and with enormous magnificent palaces of all shapes and sizes.

At this moment, Chen Xiang was in the center of a huge palace hall, which was jam-packed with 3,000 to 4,000 people sitting on all sides. Many of whom were familiar to Chen Xiang; they were none other than the tycoons of various mainlands. Even Qin Zejun of Sacred Light Temple was here.

Chen Xiang felt a bit uncomfortable when looking at these people; however, it didn't affect him.

In the palace hall, a total of ten people were also sitting in a row together, and Hua Xiangyue was one of them, while the other nine were old men and women. Chen Xiang reckoned that they were the referees.

Chen Xiang's most attention was garnered by an old man who was dressed in a simple white robe. This old man appeared very ordinary, his eyes, on the other hand, were full of bizarre color. And even though they appeared to be very gentle, others dared not stare at him intently.

Even though this elder looked harmonious, it made others feel that his entire body was releasing an inexplicable imposing aura, which made others have an impulse to kneel before him. Chen Xiang figured that this elder must be an expert of Divine Martial Palace.

"To tell you the truth, we didn't believe that Little Hero Chen would accept our invitation to participate in the alchemy competition. However, I have one doubt, why did you not participate in the martial arts competition?" A middle-aged man sitting next to Wu Kaiming asked.

Chen Xiang smiled and said, "Because I can't defeat the experts of Kings' Mainland."

He had not participated because he couldn't defeat them. This was indeed the best reason. If you couldn't defeat them and yet let the others participate, then it would hardly be justifiable. The middle-aged man didn't expect Chen Xiang's answer would be so direct, moreover, it seemed that he didn't place it in his heart. In his opinion, Chen Xiang should have found other reasons, because this reason would cost him his face.

Only now did Chen Xiang come to know that the alchemy competition was already in the final round; there was a total of four participants. And because he had accepted the invitation, and as he was a young and famous alchemist in the Chenwu Mainland, the Divine Martial Palace had made an exception and allowed him to enter the finals directly.
