

Dan God 391

CHAPTER 391 – THE SCHEME OF KINGS' MAINLAND

The middle-aged man who had just asked Chen Xiang the question, although felt unhappy in his heart, he still kept a smile on his face as he said, "So it was like this, I think that without Little Hero Chen, the Kings' Martial Arts Meet will definitely be a lot more dull, what a pity!"

"To be honest, I really want to participate, but it's just that I am not strong enough. If I could step into the Extreme State in half a year, then it is another thing altogether!" Chen Xiang said with a smile.

Step into the Extreme State in half a year? A majority of the audience here were experts of Nirvana Realm, and in their opinion, this was absolutely impossible. In their eyes, Chen Xiang was just a martial artist of 7th level True Martial Realm, and it was not that simple to step into the Extreme State, if it was entering the 9th level of the True Martial Realm, that was justifiable.

"If Little Hero Chen is truly successful in it, you, for sure, will be the first genius of the Mortal Martial World! Of course, apart from our Kings' Mainland martial artists." Having said all this, the middle-aged man sat down.

Chen Xiang had already known that many of the martial artists who possessed the King's Vein would be Extreme State martial artists at a young age, which was indeed very amazing.

Chen Xiang just smiled. Whoever had the hardest fist was the genius. Watching the Kings' Mainland acting so high-profile to show-off their strength, his desire to enter the Extreme State as soon as possible soared so that these people of the Kings' Mainland would lose their smile.

At this moment, that harmonious old man slightly laughed: "Now, let the alchemy competition begin, as we know Little Hero Chen's time is very tight."

"The rules of the final round are pretty simple, in a stipulated time, whoever has the highest total value for the dans refined by him or her, will be the winner! The herbs are required to be prepared by yourself, and I think, when you came here, you have already made good preparations, right!"

Having heard the rules, a slight frown crept upon Chen Xiang's forehead. The experts of other mainlands also began to whisper to each other, complaining about the rules; they were clearly dissatisfied as it was unfavorable to Chen Xiang.

Chen Xiang took a glance at the other four young men on the side, who were looking at Chen Xiang with an arrogant and provocative look in their eyes.

"In addition... you can not refine the Hundred Beasts Dan, this type of dan is meaningless! And as for the price of dans, we have a reference price right here. The final result will be evaluated in accordance with our reference price."

Chen Xiang was secretly furious in his heart. He felt that this alchemy competition was like a trap prepared just for him, it was precisely to make him lose the competition, whereupon the Kings' Mainland's prowess would go bigger.

A man came forward and handed a sheet to Chen Xiang and the others, written upon which were the prices of some dans; this was the reference price list.

“A Building Foundation Dan – 800,000 crystal stones, Elemental Spirit Dan – 1,000,000 crystal stones, Five Elements True Elemental Dan – 1,000,000 crystal stones...” What surprised Chen Xiang was that the three low-grade profound-level dans which had the highest price turned out to be the three dans he was well-versed at, and the next were also many low-grade profound level dans whose price was in between 500,000 to 800,000, all of which were a bit unconventional dans.

At the Kings’ Mainland, Chen Xiang had conducted a survey before and found herbs of some unconventional dans here, but they were very expensive. However, the difficulty to refine them was not that big, if one had a great number of these herbs, the participant could refine a lot of them, allowing them to win first.

“Humph, these unconventional dans aren’t simply worth these prices. They had intentionally raised the prices of Building Foundation Dan, Elemental Spirit Dan, and Five Elements True Elemental Dan, so that the high prices of these unconventional dans would be nothing! I guarantee that they have a lot of herbs for these unconventional dans, however, these dans are pretty much useless! Moreover, they don’t believe that you will have many herbs of precious dans in your hands.” Su Meiyao sneered.

At this time, Wu Kaiming gave a wink to Chen Xiang, seemingly asking whether he wanted to continue or withdraw, because the competition was clearly unfavorable to him, and their trick had not gone unnoticed by many among the audience. The Kings’ Mainland was vast, so the herbs in the hands of alchemist here was definitely a lot more than as compared to alchemists of other mainlands.

Now it was not a competition of alchemy technique but rather who had more resources. This point was not at all fair, it was quite clear that it was done to make Chen Xiang lose. Moreover, refining Hundred Beasts Dan wasn’t also allowed, thinking of this, made everyone feel angry.

“Little Hero Chen, is there any problem?” The elder asked with a calm smile on his face.

“No problem, no problem at all!” Chen Xiang replied with a smile, and with a 100% confident look.

At present, Chen Xiang wasn’t in lack of the herbs for the three most valuable dans. He had 80 sets of Building Foundation Dan herbs, 100 sets of Five Elements True Elemental Dan herbs as well as Elemental Spirit Dan herbs. However, he only intended to refine Five Elements True Elemental Dan, because he could refine as much as ten dans with one set of herbs! Whereas he could refine at most four Building Foundation Dans and three Elemental Spirit Dan with one set of herbs.

Moreover, he had been planning to refine a lot of Five Elements True Elemental Dans for a while, which he was going to use to impact the Extreme State!

“You have three hours, if you are all ready, take your alchemical furnace out and let the referees examine them.” The Elder said.

Chen Xiang took out the Brilliant Flame Dragon Furnace and handed to Hua Xiangyue, only to see Hua Xiangyue smiling flirtatiously at him, seemingly encouraging him.

“Now let me introduce you the contesting alchemist. Everyone has heard of Little Hero Chen, so I also don’t need to talk much about him!” The elder stood up and said.

“First is the genius alchemist of our Divine Martial Palace, Xian Yaoming, he is 35 years old this year, but he can refine middle-grade profound-level dans, next is...”

Chen Xiang turned a deaf ear to all of this, he felt that it didn't matter much, even if he knew the opponents down to the minute details, it would be completely useless during the competition.

While the elder was eloquently introducing the four young genius alchemist, Chen Xiang was conversing with Hua Xiangyue using the divine sense.

"Sister Xiangyue, you seem to be a lot confident of me!"

"But of course, since a Little Rascal like you can give so many herbs of Resurrection Dan, to capture the heart of a peerless beauty like Liu Menger, how can I not be confident of you?" Hua Xiangyue tone carried a hint of jealousy.

Chen Xiang smiled and said, "Sister Xiangyue, to be honest, I really don't want you to be my maid, I feel that it is an insult to you!"

"I don't feel any insult, I think that it will be very gratifying." Hua Xiangyue seemed to be rather excited when talking about this matter, which made Chen Xiang feel that Hua Xiangyue was a loyal and devoted maid in her past life.

"Alright, let me think about it for some time, at least let me solve the matter of Sister Menger and me." Said Chen Xiang.

Hua Xiangyue could understand where Chen Xiang was coming from because it was indeed a nerve-wracking matter.

"Who asked you to eat the master of your fairy-like wife. Now you know that you knocked down the gates of trouble! Hei hei, if you take me as your maid, I wonder what your little fairy is going to say!?" Hua Xiangyue mischievously grinned and said.

Although everyone was listening to the Elder as he introduced the four genius alchemists, everyone's gaze was gathered on Chen Xiang because Chen Xiang was blankly staring at the charming and bewitching Hua Xiangyue, and Hua Xiangyue seemed to be regarding Chen Xiang as invisible, as she supported her beautiful cheeks with her palm, seemingly thinking of something.

Only Liu Menger knew that Chen Xiang was conversing with Hua Xiangyue using divine sense. And noticing Chen Xiang's corner of lips pursed into a dirty smile, she was sure that they were definitely talking ambiguously, which made her secretly jealous.

"Cough! Cough! Is the examination of alchemical furnace finished?!" The elder was secretly angry in his heart. To his dismay, when he was speaking Chen Xiang was only gazing at the beauty, moreover, he seemed to be in a trance. Which made him doubt how Chen Xiang actually became an alchemist with such mindset?

Hua Xiangyue was very stunning, charming and bewitching as well, as long as it was an ordinary man, he would want to look at her bewitching face. But a majority of the audience were all experts, they knew that this was rather rude, so they did not look at this beauty so unscrupulously.

Chen Xiang regained from his stupor and noticing the strange expression in everyone's eyes, he forcibly coughed twice before he asked, "Right, what is the reward for the winner of the alchemy competition?"

CHAPTER 392 – ASTONISHING UNIQUE TECHNIQUE

Reward? This made the elder and the other four competing young alchemists hold him in contempt because they believed that Chen Xiang didn't have any chance of winning, yet he dare ask what was the reward!

Although the Kings' Mainland had been closed to the outside world, a lot of powerful experts did come here once in while, and many martial artists of Kings' Mainland would also traverse to other mainlands, so they were well aware of some of the situations of the other mainlands, in particular, alchemy-wise.

For instance, the situation of the Building Foundation Dan, Elemental Spirit Dan, and the Five Elements True Elemental Dan was just like that in the Kings' Mainland; they were very rare, and the same went for the herbs of other unconventional dans. But they had a lot of herbs of unconventional dans, which was why they had intentionally created such rules in order to defeat Chen Xiang in this competition.

At the beginning, they wanted Chen Xiang to participate in the martial arts competition, and then ruthlessly defeat Chen Xiang, this top youngest expert of Chenwu Mainland. However, they had never imagined that instead of Chen Xiang participating, it would be just his apprentice, Xiao Chou. Although Xiao Chou was sent back with heavy injuries, the Kings' Mainland felt it was still insufficient because their target was Chen Xiang. And Xiao Chou whom they had defeated was just someone who was under Chen Xiang, that's all, they felt no sense of superiority in defeating Xiao Chou; none at all.

Thus, this alchemy competition was customized just for Chen Xiang!

"This competition has only one winner, the prize is a White Jade Lotus Seed!" The elder said.

"Oh!" Chen Xiang lightly responded. Much to the elder's dismay, Chen Xiang had an indifferent look. Moreover, his eyes were filled with disappointment as though the White Jade Lotus Seed was nothing but cabbage.

After all, the White Jade Lotus Seed could already be considered very good, it was the main ingredient for the high-grade earth level dan, the Resurrection Dan, and some heaven-level dan also required the White Jade Lotus Seed.

"I want to know why did the reward make you so disappointed?" Taking a breath, the elder asked.

The elder could not tolerate anyone to be the slightest bit disappointed by the Kings' Mainland. When he noticed that kind of look on Chen Xiang's face, he felt very unhappy in his heart.

Chen Xiang smiled and said, "It's not that I was disappointed, it's just that sometime in the past I had won a couple of White Jade Lotus Seed in a bet with the son of the Lotus Island's lord."

Upon hearing Chen Xiang's justification, the audience was in an uproar. Everyone turned their gazes towards Lian Yingxiao. Lian Yingxiao was a famous figure in the mortal world, particularly his wealth, for which he was famous for in many mainlands.

"It's true, and also many Fire Dragon Blood Lotus!" Lian Yingxiao said.

The Lotus Island was famous for the White Jade Lotus Seed, and rumor had it that the White Jade Lotus Seed of Kings' Mainland belonged to Lian Yingxiao. And Chen Xiang had won a couple of White Jade Lotus Seed in a bet, while the reward of the huge alchemy competition held by Kings' Mainland was just one.

In contrast, the reward of Kings' Mainland was indeed a bit lacking, no wonder Chen Xiang was disappointed. Now everyone also felt that the White Jade Lotus Seed as a reward was also nothing.

"How about I add a Five Elements Profound Dan as well!?" The elder said.

Chen Xiang was pleasantly surprised. In the past, he had taken a Five Elements Profound Dan, however, it was of low quality, furthermore, because of being stored for too long, it had lost a lot of its potency; therefore, what he was eating was a discarded Five Elements Profound Dan.

After all, Five Elements Profound Dan for one was a high-grade earth-level dan, but it only let him advance from 1st level to 2nd level of the True Martial Realm, that's all. Later, when he understood the earth-level dans, only then he came to know that the dan he had eaten was just a waste dan.

And if a waste dan was so good, what if it was a better one? Wouldn't it be even better? At present, he was in a lack of dans, if he could get his hands on Five Elements Profound Dan, maybe he could step into the Extreme State in half a year.

"Can we begin now?!" The elder glanced at Chen Xiang with a disgusted look.

Chen Xiang thought that this elder definitely had some enmity with his master, or else why would he be so against him.

Once the competition began, everyone secretly cursed these alchemists of the Kings' Mainland because just as they had thought, these alchemists came up with a lot of herbs for low-grade profound-level unconventional dans, and if they refined many of them, their total value, in the end, would be the highest, thereby defeating Chen Xiang.

What made them furious was that the herbs utilized by the alchemists of Kings' Mainland had long been processed. After the elder gave the signal to start, the four alchemists immediately began refining dans, while Chen Xiang, on the other hand, was processing the herbs. With one glance, everyone recognized that the herbs he was processing were for the Five Elements True Elemental Dan.

And what disappointed everyone was that Chen Xiang was not using his "transparent" alchemical furnace. Long have many tycoons wanted to take a look at process of refining of a dan inside the alchemical furnace

Even those alchemists who were participating in the competition could not help but peer a few glances at the herbs in Chen Xiang's hands. After all, it was the Five Elements True Elemental Dan, which although they had seen, they never had the chance to refine because they were too rare, and even if they had the opportunity to refine, they were bound to fail.

Chen Xiang knew the Kings' Mainland wanted to show off, now he too wanted to show off by using his transparent alchemical furnace to refine a set of Five Elements True Elemental Dan.

"I wonder if I can refine a set of dan without the alchemical furnace, I want to do a warm-up first." Chen Xiang asked the elder.

"Of course you can!" The elder too wanted to see Chen Xiang's unique alchemy technique. He had lived for so long, but first time in his lifetime had he heard that one could refine the Five Elements True Elemental Dan without an alchemical furnace.

Those old referees eyes opened wide one by one as they stared at Chen Xiang. They were the top alchemists of the Kings' Mainland, yet they had never seen this kind of thing. Even for them, it would be very difficult. Long had they heard of this matter and had been wanting to look at it.

Chen Xiang put the Brilliant Flame Dragon Furnace aside, whereupon he released his Spiritual Energy and congealed an invisible alchemical furnace. Chen Xiang, in order to be proficient, would use Illusionary Brilliant Furnace to refine a few dans once in a while, so this did not pose him any pressure at all.

Having finished processing the herbs, Chen Xiang placed them inside the Illusionary Brilliant Furnace before he infused the furnace with the flames. At this moment, everyone could clearly see the three-level structure of the Illusionary Brilliant Furnace. In the bottom level was the flame, in the center level were the herbs and the top level was flooded with five colored and resplendent Herbal Spirit Qis.

These herbs, after being burned by flames, radiated with even more dazzling five colored splendors, making the onlooker exclaim again and again. Now everyone got to see clearly how beautiful the Herbal Spirit Qis were as they were being released bit by bit when the herbs were being incinerated; it was like a radiance of five colors.

When these Herbal Spirit Qi gathered together, they turned extremely unstable as they collided with the walls of the top level of the furnace. These glistening five colored flashes of brilliance were particularly dazzling. Whereas the unstable Herbal Spirit Qis seemingly wanted to destroy the transparent alchemical furnace, but they seemed to be suppressed by an invisible power.

Everyone who laid their eyes upon this scene for the first time was completely dumbfounded. They could be considered as a tycoon who controlled and managed a region, they had lived for so many years and seen and experienced all kinds of things, but they still had been shocked by such a beautiful scene. To their surprise, the difficult processes of alchemy were surprisingly so beautiful on the inside.

The four alchemists of the Kings' Mainland too looked at Chen Xiang with surprise as he refined the Five Elements True Elemental Dan. They were not enjoying the beautiful aura, on the contrary, they had been shocked by Chen Xiang's alchemy skills. They were all alchemists, they could see more as compared to others.

CHAPTER 393 – DUAL TASKING

Chen Xiang was quite proficient in refining Five Elements True Elemental Dan, and his speed, well it was quite fast too, which amazed some of the alchemists that were present. From how Chen Xiang, out of thin air, was proficiently refining without an alchemical furnace, made it very clear that his basics were very solid. In this regard, the young alchemists of the Kings' Mainland were not a match for Chen Xiang.

However, the populace of the Kings' Mainland who were among the audiences still believed that Chen Xiang had no chance to win, because the alchemy competition was not about alchemy techniques, but rather who had the most resources. And it goes without saying that it was a fair contest through which they could defeat Chen Xiang.

Following that, the radiance inside the transparent alchemical furnace slowly started shrinking as all the Herbal Spirit Qi and Herbal Powder gathered at the top most level of the furnace and quickly started rotating like a cyclone.

Everyone held their breaths as they were about to see the solidification process of a dan. Suddenly, the large mass of transparent mist was separated into ten parts, making it clear that Chen Xiang was going to congeal ten Five Elements True Elemental Dan, which would be worth 10 million crystal stones if calculated in accordance with the reference price. And this was just from one set of herbs, that's all.

Not even half an hour had passed, nonetheless, Chen Xiang had refined a set of Five Elements True Elemental Dan. However, his fellow participants had refined two sets, but the total value of their dans was far from Chen Xiang's Five Elements True Elemental Dans.

However, they were still convinced that Chen Xiang won't have too many Five Elements True Elemental Dan's herbs. Therefore, they were still very confident in their win. Because in accordance with their understanding of Five Elements True Elemental Dan's herbs, they knew that it was quite difficult to grow these kinds of herbs, it was impossible to possess a lot of them; usually, just one set would appear in the market.

Having placed all ten transparent dans in the jade box on the table in front, Hua Xiangyue and the old referees took them out one by one to examine them. When they discovered that it was of superior quality, those old referees were amazed.

Quality-wise, quantity-wise, and speed-wise, Chen Xiang had done everything perfectly. With such basics, he would certainly become an outstanding alchemist in the future. Now, the populace of Kings' Mainland started to get worried, for they had schemed against Chen Xiang which he would certainly remember, and that was detrimental to their future relationships.

After all, Chen Xiang's identity was kind of unique, because he was the apprentice of Huang Jintian, and was the inheritor of the Tai Chi Subduing Dragon Exercise, and maybe he would be the next Dean of Extreme Martial Sect. And just like Huang Jintian, he might stand at the apex of entire Mortal Martial World. Of course, he was also a famous alchemist, which was more terrifying than Huang Jintian himself.

"Now I am going to use the alchemical furnace!" Chen Xiang smiled as he grabbed the Brilliant Flame Dragon Furnace from the side and placed it in front of him.

Opening the lid of the alchemical furnace, Chen Xiang took out a jade box and carefully placed the herbs inside the alchemical furnace. Upon seeing those herbs, everyone let out a low and deep exclamation, because they were herbs for refining Five Elements True Elemental Dan, moreover, all of them had been processed!

When Chen Xiang saw the four alchemists of Kings' Mainland directly utilizing the processed herbs, he also asked Su Meiyao to do the same. This way, he could win more time.

"Refine some Five Elements True Element Dans and pound those guys to death." Long Xueyi said with a mischievous laughter.

Whereupon, when the Divine Martial Palace's elders of high position and status saw this, they could not help but frown. If Chen Xiang refined once again, then the total value would be twenty million crystal stones. Moreover, who could say that Chen Xiang didn't have more Five Elements True Elemental Dan's herbs? Maybe Chen Xiang could really win first place in the tournament, by then, it would be them who would lose their face.

At this time, the hubbub among the audience suddenly stopped as everyone dumbfoundedly stared at Chen Xiang. Whereupon, they saw Chen Xiang's hand was placed on the alchemical furnace which seemed to have been crafted from fiery-red color gemstone, and his other hand once again took out a jade box. As he opened the jade box, to everyone's dismay, another set of Five Elements True Elemental Dan's herbs came into their view.

"What is he doing?" Everyone's heart madly started pounding. They seemed to have guessed what Chen Xiang was planning on doing, but it was difficult to believe.

Chen Xiang faintly smiled as he grabbed the processed Five Elements True Elemental Dan's herbs inside the jade box and placed them inside the transparent alchemical furnace. To everyone's astonishment, he was going to simultaneously operate two furnaces!

"He... he is simply a madman!" Lan Hai's cried in low voice, whereas, the tycoons of other mainlands too stared at Chen Xiang with wide-opened eyes.

An alchemist refining a dan without using an alchemical furnace was already an eye-opener to them, yet Chen Xiang simultaneously refining two sets of herbs, one with an alchemical furnace, while the other without. If this was truly the case, then Chen Xiang was equivalent to two alchemists refining a dan simultaneously; this was simply a heaven defying method.

Hua Xiangyue was the closest to Chen Xiang. She already knew that Chen Xiang was in possession of many herbs, but she had never imagined that she would still be shocked by Chen Xiang; he was actually operating two alchemical furnaces simultaneously. Dual-tasking, although was a great taboo in alchemy, if one mastered it, the efficiency would definitely be higher.

The old referees were all peak-level figures in the alchemists' circle, and there were also many high-level alchemists from the other mainlands present among the audience. At this moment, all of them had been scared by Chen Xiang's actions to the point that they had been rendered speechless. Many alchemists, even in their imagination, dared not operate two alchemical furnaces simultaneously, yet Chen Xiang was doing it in front of their eyes!

Looking at Chen Xiang's wide and thick shoulder, Liu Menger secretly felt proud; she was feeling proud for Chen Xiang. Chen Xiang had always done things which would surprise others, so she had already been accustomed to his antics.

Such a move from Chen Xiang had suddenly made the populace of Kings' Mainland feel a great pressure. They had never imagined that Chen Xiang would actually have so many Five Elements True Elemental Dan's herbs; furthermore, he also seemed to be prepared. Much to their dismay, the herbs had been processed.

Chen Xiang had over hundred sets of Five Elements True Elemental Dan's herbs. If it was a contest of herbs, he was surely going to win.

As for simultaneously operating two furnaces, Chen Xiang had long thought of this method; because whenever he refined with one furnace, he always felt it was easy and there was plenty of room to do other things, especially, when using a high-level furnace like Brilliant Flame Dragon Furnace.

If he could operate two furnaces simultaneously, not only would it be faster, he could also refine a lot of Five Elements True Elemental Dans. In this way, he could win some time to step into the Extreme State in half a year!

Everything inside the Brilliant Flame Dragon Furnace was in order. He was already as proficient as he could be. Although he was pouring the flames with one hand, he had released quite a bit of flame; furthermore, it was Heavenly Sun Fire, which was a top-grade flame for alchemy.

The Illusionary Brilliant Furnace had also been infused with flames by him. The flames began to roast the herbs, and when the herbs had been appropriately roasted by the herbs, those resplendent five-colored glows once again appeared; covering the entire palace hall in a beautiful radiance.

Meanwhile, Chen Xiang was also running a simulation of both alchemical furnaces in his mind. This for him was also a kind of exercise; it was a training method for him to get proficient in the Refining Simulation Technique. If he could do this, his Refining Simulation Technique would advance by a level. At his level, it could already be considered very difficult.

If Chen Xiang had herbs for middle-grade profound-level dan, he would definitely give it a try. However, before that, he had to ensure that his divine sense had reached a certain level, otherwise, at that time, his divine sense would be insufficient to carry out refining simulation, and the consequences would be dire.

After a short while, Chen Xiang opened the lid of the Brilliant Flame Dragon Furnace and took out ten Five Elements True Elemental Dan, astonishing everyone once again; for he had actually successfully refined, which made everyone think that a long time had passed!

“Didn’t he place the herbs not long ago?” Wu Kaiming asked in surprise.

CHAPTER 394 – SMALL VICTORY

When Chen Xiang had refined Five Elements True Elemental Dan without an alchemical furnace, it was already fast, but after he had used an alchemical furnace, it was faster!

The flow of time inside and outside the Brilliant Flame Dragon Furnace was different. There were various time arrays engraved inside the furnace; its refinement method was extremely abstruse.

Some high-level dans required tens of years, even hundreds of years to refine. Only someone who wanted to save time would think of crafting such alchemical furnace. However, such alchemical furnaces were extremely rare. Only through the collaboration of a top-level alchemist and a top-level refiner could such a furnace be crafted. However, according to Su Meiyao, one person alone could craft such furnace, but he had to be both an alchemist and a refiner as well.

Many among the audience believed that if the two alchemical furnaces were operated simultaneously, the speed should be the same for both furnaces in order to have better control. However, contrary to their belief, Chen Xiang didn’t. He was truly dual-tasking as the situation inside both furnaces were completely different.

At this moment, he took out another box of processed Five Elements True Elemental Dan’s herbs and placed them inside the Brilliant Flame Dragon Furnace before he poured in the flames and continued refining dan.

Now, anyone no longer doubted that Chen Xiang would win. Everyone surely believed that Chen Xiang would be the winner of this competition. Whereas, the tycoons of the other mainlands were secretly wild with joy because they noticed that the elder's complexion was not at all good. They wanted to flaunt the prowess of the Kings' Mainland, and now they had been ruthlessly smacked down; this kind of mood can very well be imagined.

At present, the high-level figures of the Kings' Mainland's Divine Martial Palace were regretting having invited Chen Xiang. If Chen Xiang won and this news was to spread, the Kings' Mainland would definitely be ridiculed because the Kings' Mainland had thoroughly done some preparations so that Chen Xiang would lose, yet they still suffered a disastrous defeat!

The time limit for the competition was three hours, and now only one hour had passed, while Chen Xiang had refined ten sets of Five Elements True Elemental Dan which was in total 100 dans. It was already worth 100 million crystal stones in accordance with the reference price!

Chen Xiang's refining speed became even faster by simultaneously refining two sets of Five Elements True Elemental Dan. After one hour, he became more proficient in this method, and his speed became faster!

Chen Xiang was an alchemy madman who pursued the limit of alchemy speed and quantity of dans refined while making sure the quality of dan remains intact. This kind of level made many high-level alchemists feel ashamed.

"Dean Gu, your Young Martial Uncle doesn't have a wife, right? I have a daughter, her natural endowments are pretty good..." An old man stood up and went next to Gu Dongchen before he asked in a low voice.

Gu Dongchen laughed and said, "Don't even think about it, my Martial Uncle already has a wife, furthermore... hei hei."

Chen Xiang's wife was Xue Xianxian, and she too had a small reputation in the eastern seas. She was younger than Chen Xiang and had very good natural endowments, furthermore, she was an apprentice of Liu Menger; so, in the future, she may very well take over the Divine Weapon Heavenly Empire.

And of course, Gu Dongchen also knew that Chen Xiang was set with Liu Menger, and Liu Menger's other apprentice, Leng Youlan, was Chen Xiang's sworn sister... therefore, he knew that Chen Xiang was not lacking women.

Even Liu Menger like peerless beauty had been captured by him, and naturally, it would be very difficult for Chen Xiang to fancy other rubbish.

After another hour, Chen Xiang had refined fifteen sets of Five Elements True Elemental Dan. Whereas, the four alchemists of Kings' Mainland together would not have refined as much as him. Their total value, even more so, had been far left behind by Chen Xiang.

Chen Xiang secretly sneered. From the get go, these people wanted him to suffer a crushing defeat, but now, the four alchemists of Kings' Mainland could not even raise their heads. Whether it was the contest of resources or alchemy skills, they were far worse than Chen Xiang. Once the competition began, the Kings' Mainland had already lost.

At present, these alchemists of Kings' Mainland, on one side, were shocked by Chen Xiang's talent, while on the other, they also hoped that the Kings' Mainland could have such genius. And of course, they felt that whether they win or lose, it did not matter because they had been thoroughly defeated, and they were utterly convinced.

The frown, which was present of the Elder's forehead at the beginning had already disappeared, recovering his original appearance. Having witnessed Chen Xiang refine set after set of Five Elements True Elemental Dan, his heart had already gone numb.

Very soon, three hours had passed. Everyone didn't feel that a long time had passed because watching Chen Xiang refine dans made them gratified, especially when he took out each Five Elements True Elemental Dan one after another, even though it wasn't theirs.

Watching the jade box which had a couple hundred Five Elements True Elemental Dan inside before her, Hua Xiangyue's charming and stunning face was filled with shock. Over these three hours, Chen Xiang had refined a total of forty sets, where each set entailed ten dans and he didn't fail even once; making a grand total of 400 Five Elements True Elemental Dans.

Everyone among the audience saw so many Five Elements True Elemental Dan for the first time. Although these dans were transparent, an entire jade box was completely filled, which astounded everyone.

Everyone was not only shocked by Chen Xiang's alchemy skills, they were also shocked by the resources he had in his hand. Everyone could not help but wonder—where did he get so many herbs?

"You win, this is your reward!" The elder walked over and handed two jade boxes to Chen Xiang. One jade box carried the White Jade Lotus Seed, while the other had Five Elements Profound Dan. It was an high-grade earth-level dan which was several times precious than the Five Elements True Elemental Dan. Even if Chen Xiang sold all the Five Elements True Elemental Dans he had refined, he could not exchange them for Five Elements Profound Dan.

Chen Xiang took the reward with a smile. Once the competition was over, the Kings' Mainland candidly gave the reward without passing any judgment again, which surprised Chen Xiang.

Hua Xiangyue handed the jade box to Chen Xiang, inside were the Chen Xiang's Five Elements True Elemental Dans, which made many tycoons envious.

"I wonder whether these things could allow me to enter the Extreme State in half a year. To be honest, I really want the Fruit of Fortune!" Chen Xiang smiled and said.

As far as Chen Xiang was concerned, this alchemy competition was just a small victory.

"Honestly, I too hope that you can participate in the martial arts competition. At that time, my Kings' Mainland will absolutely welcome you!" The elder said. Chen Xiang had already won once, so they, of course, wanted a payback. However, Chen Xiang refused to participate in the martial arts competition.

Even if Chen Xiang entered the Extreme State, Kings' Mainland was still confident that they could make Chen Xiang suffer a crushing defeat, because that was martial arts competition, not some alchemy competition. Furthermore, the alchemy competition was simply nothing, there were also too many factors at play.

Having acquired the Five Elements Profound Dan and refined so many Five Elements True Elemental Dan, maybe Chen Xiang could truly enter the Extreme State in half a year. At this moment, everyone was in anticipation because the outstanding disciples of their mainland had suffered a thorough defeat and returned with serious injuries. The martial artists of the Kings' Mainland who had the King's Vein certainly made martial artists of many mainlands unable to raise their heads.

Very soon, the news of Chen Xiang winning the alchemy competition spread to entire Extreme Martial Sect. Many of whom, who had suffered defeat at the hands of Kings' Mainland felt a sliver of joy. At the very least, the Kings' Mainland was truly not so formidable, there was still someone who could pressure them, albeit it was just in alchemy.

Once Chen Xiang returned to the Extreme Martial Sect, he immediately went into closed-door training to cultivate. Many also came to know that Chen Xiang wanted to impact the Extreme State in half a year and participate in the King's Martial Arts Meet to get the first place again.

During this period, many people also went to the Kings' Mainland to try their luck, but in face of absolute strength, even luck could not do anything. The people who went still returned with heavy injuries. None of the martial artists who went before to participate in the King's Martial Arts Meet entered in high rankings, although they could hold on for some time, nonetheless, they were finally defeated by the King's Vein martial artists of Kings' Mainland.

CHAPTER 395 – HUANG JINTIAN'S PROGRAMME

At this moment, when Chen Xiang was carrying out alchemy, he had entered a marvelous state. After he had entered this state, even for him, it was difficult to say what he was feeling. When he entered this state, he became even more proficient in alchemy as though he had entered a space where there was only one thing inside, alchemy, and nothing from the outside world affected him. Between heaven and earth, there was only him and his alchemical furnace!

"This should be the Selfless State, during which there is only alchemy in your mind. This is indeed very rare!" Su Meiyao said in astonishment.

During the competition, when Chen Xiang was refining dans to his limit, he refined forty sets of herbs in a span of three hours by operating two alchemical furnaces at the same time. And now, as before, he was also simultaneously using two alchemical furnaces to refine dans, however, his speed was a lot slower.

During the alchemy competition of the Kings' Mainland, he had refined a total of forty sets of Five Elements True Elemental Dan, leaving him with sixty sets of Five Elements True Elemental Dan which he finished in just one day. A total of 1,000 dans, and he didn't fail, not even once.

Furthermore, every time he refined a set of herb, he would enter the Selfless State. Under this state, he only had unceasing alchemy in his mind and the alchemical furnace seemed to be connected with his flesh and blood, making him even more proficient in controlling the situation inside the alchemical furnace.

At this moment, all Chen Xiang wanted was to make the best use of his time and digest these 1,000 Five Elements True Elemental Dans. Of course, if he sold them, he would definitely make a fortune.

“He went to Old Madman! I wonder if he could enter the Extreme State in half a year!” Gu Dongchen said to Wu Kaiming who was standing beside him.

“I have to truly admire his endurance, he is actually able to bear the torture of that Old Madman!” Wu Kaiming said with emotions.

“He is a Little Madman, so naturally, he won’t be afraid of Old Madman.” Gu Dongchen laughed while shaking his head.

It had already been two-three times when Chen Xiang came looking for him with a big basket of Five Elements True Elemental Dans, thus, Huang Jintian had already gone numb; he no longer got surprised over little things.

When he heard Chen Xiang recount the competition of the Kings’ Mainland, Huang Jintian said with a frown, “Half year, it’s going to a bit tight! However, we can give it a try. First, don’t take the Five Elements Profound Dan, leave it for the last when you are going to impact the Extreme State.”

The first stage of Extreme State was the Spirit Martial Realm, in which the martial artists mainly cultivated their divine sense. And as far as Chen Xiang was concerned, this was nothing to him as he had the Divine Soul which could allow his divine sense to quickly reach the so-called extreme.

“Your divine sense is very powerful. As long as you can step into the 9th level of True Martial Realm and sufficient energy to compress, it would be not difficult for you to enter the Extreme State! Because when you are to enter the Spirit Martial Realm, your powerful divine sense must complement the True Qi in your body, so that you can open the higher-level door. At that time, your soul and martial arts will mutually fuse together, and a large amount of energy would surge out from the door and enter your body and consciousness. That’s why, an Extreme State martial artist is many times stronger than a True Martial Realm martial artist, because, during his breakthrough, he would acquire very a strong power.”

Huang Jintian was also planning on arranging a program for Chen Xiang. Surely, he wanted to make his apprentice show brilliant results in the Kings’ Mainland because now, there was no one who would dare to seize Chen Xiang’s martial exercise. Therefore, Chen Xiang won’t be like him.

“Master, since you don’t have any grievances anymore with them, you can now leave this damn place.” Said Chen Xiang.

“I can not. If I leave this place for a long time, I will be easily discovered. I, your master, should be in the Heavenly Realm, however, for now, I don’t want to go there! At present, I am invincible in the mortal world, but once I went up there, I will be just an insignificant figure. And I don’t like this.” Huang Jintian said.

“Master, do you want to hide here for a lifetime and grow old?” Chen Xiang was somewhat rendered speechless. Watching Huang Jintian who never got to see the sun and the sky, Chen Xiang felt unhappy in his heart.

“Hei hei, kiddo, you don’t understand. I will not die of old age, my strength should be comparable to that of martial artists from Heavenly Realm, and can still increase. Currently, in the mysterious realm, it is also similarly increasing, albeit slowly, but safely! Furthermore, by staying here, I can continue to develop the Extreme Martial Sect, I can help many people safely cross their Nirvana Tribulation. Had it

not for me, I am afraid, Little Bald and the others may have already reduced to nothing but slag under their Nirvana Tribulation.” Huang Jintian burst into laughter as he said.

Huang Jintian had the ability to predict the Nirvana Tribulation which could allow others to prepare well in advance, giving them an assurance to safely cross their tribulations. He was indeed a heaven-defying figure in the mortal world whose predictions were unequivocal.

“Little Brat, in the future, when your women or your apprentice needs to cross their tribulation, you can come to me without hesitation! And if you become a formidable alchemist in the future, you can give this old man a few immortal dans. I have infinite life, and in this place, I can slowly accumulate power, don’t forget, I too have the Yin and Yang Vein.” Huang Jintian burst into a maniac-like laughter.

Upon thinking it carefully, Chen Xiang felt that it was indeed right. In the future, he would need to cross Nirvana Tribulation, and there was also Xue Xianxian, Leng Youlan, and his apprentices and friends as well. At that time, he could ask for Huang Jintian’s help.

“Is a heaven-level dan useful to teacher? As long as I can enter Extreme State and win the first place, I can get a Fruit of Fortune.” Chen Xiang said with a laugh. In the future, he could refine immortal dans, and of course, he was not going to forget his teacher.

“I had never imagined that Wang Quan’s Fruit of Fortune would still be there after so long. If you brat can truly enter the Extreme State, maybe the Fruit of Fortune he had acquired in the past would be cheaply taken by you, brat.” Huang Jintian said with a laugh as he stroked his beard.

Chen Xiang asked, “Is Wang Quan the name of that elder? Master, do you know him?”

Huang Jintian laughed and said, “Of course, I know him. That guy is someone who would do anything for his face. Don’t go for his usual gentleness, when he becomes ruthless, he is a crazed madman. In the past, he used to be my strongest opponent. When I was crossing my Eighth Nirvana Tribulation, he and I had a big fight.”

Chen Xiang hastily asked, “So who won in the end?”

Huang Jintian burst into laughter as he said, “Of course, it was your teacher. I had his entire teeth broken. Of course, he used to be a very handsome young man, but his stinky face had been pummeled into a pig by me, hahaha...”

Huang Jintian once again burst into a maniac laughter.

“Is he the strongest martial artist of the Kings’ Mainland? It seems he has some position in the Divine Martial Palace.” Chen Xiang curiously asked.

“That’s right, he has the purest blood of the Human King. He had crossed his Eighth Nirvana Tribulation earlier than me, of course, he was hailed as the strongest expert in the mortal world. However, later this title had been seized by me, that’s why he hates me! However, this guy is still in the Eighth Nirvana Tribulation, it seems he dared not face the ninth tribulation, hahaha... Your Great Senior Brother, my apprentice had long flown into the Heavenly Realm. And now, my grand apprentice, Little Featherhead has also crossed Eight Nirvana Tribulation. That guy surely must have felt ashamed when he saw Little Featherhead.”

The Nirvana Ninth Tribulation was the most terrifying amongst all the Nirvana Tribulations. Many well-known experts fell in this very tribulation.

"If I am right, the Fruit of Fortune should be the reward for his few apprentices. That is the only reason why this Kings' Martial Arts Assembly is held. I suppose, his strongest apprentice must have fallen during their Nirvana Tribulation sometime in the past. He should have recently taken his current apprentices." Huang Jintian guessed.

Without Huang Jintian's ability to predict the Nirvana Tribulation, it was indeed very hard to safely cross the Nirvana Tribulation.

"Kiddo, you better train diligently. Your master is the strongest cultivator in the mortal world, moreover, I can also create a bunch of powerful experts! I have already thought of a good plan for you, now we are going to start, ok!? Let me warn you, it will be a bit more brutal than the last time." Huang Jintian said.

Very soon, the depths of the forbidden area resounded with Chen Xiang blood-curdling screams...

CHAPTER 396 – BESTOWAL OF POWER

The martial artists of the Kings' Mainland who had the King's Vein were already famous in the entire Mortal Martial World. Although everyone knew that participating in the King's Martial Arts Assembly would lead them being seriously injured, martial arts still kept on registering.

After all, everyone who practiced martial arts wanted to challenge the strongest martial artists on the mainlands. At the same time, they could test their own strength. Of course, there were also a few who wanted to try their luck, if they could reach the finals, they could garner a bit of reputation.

After five months, everyone had been waiting for Chen Xiang to appear; however, from the beginning to end, there wasn't the slightest bit of information on him. Gu Dongchen and Wu Kaiming had also been next to the sinkhole, and they could hear Chen Xiang's blood-curdling screams. They were well aware of that Chen Xiang was undergoing the most rigorous and brutal training every day.

After five months in the forbidden area, Chen Xiang had already finished all the Five Elements True Elemental Dans. However, he only happened to light up just 480 true element grains. Only after lightning 500 grains would he be able to possess sufficient power to open the gate which would lead him to the Extreme State. And after stepping into that gate could he cultivate his various aspects to the extreme!

"Finally, it's time to take the Five Elements Profound Dan. You're just a step away, but I hope you will be successful!" Huang Jintian heaved a long sigh. The speed of Chen Xiang's advancement had already given him quite a bit of surprise.

After entering the Extreme State, Chen Xiang would experience a qualitative transformation once again and at that time, he would be a lot stronger.

Until now, Chen Xiang had compressed a lot of True Qi. Furthermore, after undergoing constant compression, his True Qi had also become denser!

For instance, when he had just entered the True Martial Realm, he needed to compress True Qi of the size of a house to the size of a rice grain, and only then would he be able to light up a true element

grain. However, now, he needed the True Qi of the size of a mountain into the size of a rice grain. And through constant compression, his True Qi was a lot purer, any impurities inside it had been squeezed out. Whereupon, when it would be released, it would burst forth with even more terrifying explosive force.

Along with the advancement in his level, he needed to compress a lot more True Qi. At present, it was already too much, and when he reached the Nirvana Realm in the future, it would be definitely a lot terrifying.

“As long as you opened the extreme door, you will acquire an almost endless amount of True Qi, at that time, you will have to assimilate that power, but it would take a long time.”

Chen Xiang nodded and said, “Master, from where does that True Qi comes from? I don’t have so much True Qi!”

“Hei hei, it is bestowed by the martial arts way, it is quite mystical! I have also heard that the martial arts way would bestow heaven defying power every time a martial artist breaks through. However, when you enter the True Martial Realm, you are very weak and thus, unable to sense it.” Huang Jintian mysterious smiled.

Chen Xiang had no shred of doubt regarding this. At present, his entire body had already been completely injured by Huang Jintian, furthermore, all the True Qi within his body had been consumed completely.

When he took the Five Elements Profound Dan, the dan immediately melted inside his body. In the past, when he took the Five Elements True Elemental Dans, their potency was like a small creek that coursed through his body, but now, when he took the Five Elements Profound Dan, it was like an enormous river that had shocking amount of pure energy stored inside, turbulently coursing through his body as it charged at various parts of his body.”

The Five Elements Profound Dan he had taken today was completely different from the one he had taken in the past. The last time he obtained the Five Elements Profound Dan in the Black Tortoise Mysterious Realm was just a waste dan, while this one now was of top-grade quality. The difference was like heaven and earth.

In the past, he only took Five Elements True Elemental Dans only after he had finished training, at that time, their potency would scatter through his body without any need for him to refine them. However now, he had no choice but to operate the Tai Chi Subduing Dragon Exercise to digest that endless amount of energy. A large amount of True Qi constantly kept on surging into his dantian and subsequently purified as it transformed into his own True Qi and compressed into true element grains inside the five beast forms.

The Five Elements Profound Dan was like the sun, an enormous ball of fire in his dantian which was constantly shooting energy in every direction, giving rise to a storm of energy; it was quite shocking.

“Worthy of a high-grade earth-level dan. If this brat could also refine it basket after basket as before, then when the Great Battle of the Three Realms starts, those demons and devils would simply be turned into slag.” Huang Jintian exclaimed. Obviously, he had realized that Chen Xiang possessed the ability to

accelerate the growth of plenty of spirit herbs, and he suspected that it could all be credited to the golden liquid congealed by Chen Xiang.

This was Chen Xiang's secret. And if Chen Xiang didn't wish to talk about it, then Huang Jintian would also not ask. Just like Huang Jintian, who also had many secrets, and although Chen Xiang was curious, he too didn't ask him.

After ten days, Huang Jintian said with a laugh, "It seems he had already finished compressing his True Qi. Fortunately, this brat's body is pretty good, that's why he could digest the potency so quickly, or else, it would have taken at least half a month."

Chen Xiang could not feel the passage of time at all. He was just compressing the True Qi in the five divine beast forms in madness, lighting those dim true element grains. Unknowingly, he had congealed the enormous amount of energy provided by the Five Elements Profound Dan into twenty true element grains.

At present, he had illuminated a total of hundred true element grains in every five beast forms. He now possessed sufficient strength to open the mystical extreme door.

Suddenly, Chen Xiang body started shaking as his body surged out with a five color radiance which made Huang Jintian secretly click his tongue.

"It's a lot brighter as compared to when his Great Senior Brother broke through!" Huang Jintian looked above. The originally deep and dark sinkhole had now been illuminated by the five color radiance that was radiating from Chen Xiang, which gave off the impression of a fountain that was shooting out from the ground to high in the air.

After Gu Dongchen and Wu Kaiming sensed this, they hastily flew over. Witnessing the spectacular scene where the five color glow was gushing out from the sinkhole just like an eruption of a volcano, they were both shocked. They soon reckoned that Chen Xiang was stepping into the Extreme State because the scene was hugely similar to the scene when they had witnessed their master breakthrough a big realm.

Chen Xiang was simply oblivious to everything that was taking place. When he had lightened up 500 true element grains, he only felt that his divine sense suddenly surged out and gathered together with his True Qi before fusing into a very bizarre energy. Afterward, an explosion occurred inside his dantian but he didn't feel any pain. He only felt as though an enormous world had appeared within his dantian where a golden gate opened and endless amount of energy gushed out from the gate and entered his dantian.

Upon feeling this energy, he subconsciously started operating Tai Chi Subduing Dragon Exercise and madly started compressing. At this moment, the speed of the compression of True Qi was actually incomparably faster. And this energy was also very gentle, allowing him to compress it into true element grains inside the five beast forms very easily.

As a shocking amount of five color radiance surged out from Chen Xiang, it painted a bizarre and spectacular phenomenon. However, it didn't continue for long before the five color glow "received" into Chen Xiang's body.

“Soon, this little madman is going to turn the entire Mortal Martial World upside down! Hei hei...let’s wait and watch.” On one side, Huang Jintian was laughing, while on the other, he started baking a humongous cow.

Never in his dreams did Chen Xiang imagine that the energy bestowed by the “martial arts way” would be so much and continue pouring in a steady stream. Furthermore, the energy could be very easily converted into his own, as though it originally belonged to him and was now being given back to him.

CHAPTER 397 – EXTREME STATE

Gu Dongchen and Wu Kaiming kept on walking back and forth at the edge of the sinkhole in the forbidden area; their faces laced with anxiety.

There were just three days left until the deadline of the registration. And they knew Chen Xiang already crossed a very difficult ridge and should have entered the Extreme State. However, he still had not come out.

At present, Chen Xiang was frantically absorbing the power bestowed by the martial arts way, and as much twenty days had already passed away, but he still didn’t finish absorbing that power. Obviously, the energy was enormous.

Another two days passed, nevertheless, Gu Dongchen and Wu Kaiming had not left. At this instance, it was late at night, the pitch black sky was spotted with glamorous twinkles, along with a bright moon hanging in the sky, basking the entire sky with its moonlight.

Gu Dongchen, who was currently lying on the grass, watching the beautiful starry sky, suddenly heard a roar reverberating inside the sinkhole. It was a drawn-out roar of Chen Xiang which was filled with sufficient energy as though the sound waves carried a very fearsome power and seemed to be giving rise to ripples in the air. Whereas, back in the sinkhole, the ground was actually quaking slightly.

Having heard Chen Xiang’s excited roar, Gu Dongchen and Wu Kaiming were excited. From his roar, they were sure that Chen Xiang had stepped into the Extreme State!

After Chen Xiang opened his eyes, the first thing he did was roared to let out the fearsome power in his body, which was followed by a maniacal nauseating laughter. Upon hearing his laughter, Huang Jintian too burst into a maniac laugh.

Whereas, when Wu Kaiming and Gu Dongchen heard them, they instead felt an excruciating headache. They knew if Chen Xiang ever turned insane, then quite possibly, it would not take long for him to turn the entire Mortal Martial World upside down.

“Fuck, that energy was truly too much!”

Originally, Chen Xiang had only lightened up 500 true element grains within his dantian, but after assimilating the power bestowed by the martial arts way, he actually had 5,000 grains. Although it was ten times from before, his strength by no way meant that it had improved by ten times. On the contrary, it was much, much more. Because the more true element grains he tries to light up, the more difficult it would be and the True Qi he needs to compress will be much more. In other words, the further he tries to congeal the true element grains, the more True Qi he would need.

“Hei hei, now you understand! Since you are cultivating True Qi of five elements, therefore, the energy you obtained was five times more as compared to others. In this point, you have an advantage over the guys who have the King’s Vein, especially, the further you walk on the road of cultivation, you will experience the benefits of simultaneously cultivating multiple attributed True Qi.” Huan Jintian said with a laugh.

Chen Xiang nodded and took a long deep breath before he asked, “How much left until the deadline for the registration!”

“Probably a day or so! In the future, you better stay in this stage for some time. Your divine sense itself is very strong, you had a very high starting point, so your divine in the Extreme State may also be very high! Maybe some day when you are cultivating your divine sense, a strange thing might be created, that strange thing will be precisely the so-called Martial Soul. I will not tell you much about it, as you will understand it yourself by then.” Huang Jintian exhorted.

“Although using my training program, your foundation is stronger, it is still insufficient because you advanced very quickly. Therefore, you must stay at this stage for an extended period of time.”

Chen Xiang solemnly nodded and said, “Master, I will bear it in mind!”

“Well then, quickly get out...”

Huang Jintian voice had yet to fade away before two jets of flame gushed out from Chen Xiang’s feet, bursting forth with an extremely powerful heat which gave rise to a propulsion, making Chen Xiang leap into the sky in the blink of an eye. In this way, he was able to dodge Huang Jintian’s kick.

After entering the Extreme State, the enhancement of Chen Xiang’s flame was most obvious because his Heavenly Sun Fire Spirit could unleash a stronger power only with a more powerful True Qi.

“This brat’s wings have toughened up!” Huang Jintian scoffed.

Gu Dongchen and Wu Kaiming suddenly sensed a gust of heat rushing towards them, whereupon they saw a fiery light suddenly shooting out from the sinkhole. As they raised their heads to look above, they saw Chen Xiang who had his feet wrapped in flames while seemingly an endless amount of two jets of flames were shooting out from underneath his feet in a steady stream, which was making him float in the air.

“Brat, quickly get down, we have to go and register, there is not much time left!” Wu Kaiming shouted. Having noticed that Chen Xiang had become stronger, he was excited in his heart.

Gu Dongchen burst into a jovial laughter: “Soon we will get to see those King’s Vein martial artists wetting their pants from beating.”

Had he not been stopped by his two martial nephews, Chen Xiang would have tried the Vermillion Bird Fire Wings to see how big they were now, for Su Meiyao had told him that the stronger he was, the bigger they would be; maybe they could span across 1,000 li. Whereas, flapping those humongous fire wings could even set off a fiery storm which would have an extensive lethality.

Chen Xiang had spent half a year inside the sinkhole. When he came out, the first thing he did was to take a bath but he didn't sleep afterward. After entering the Extreme State, he was full of spirit and energy, he could not wait to take the field.

In the silence of midnight, someone humming a tune could be heard, moreover, it was occasionally accompanied by laughter. Wu Qianqian, who was resting in her residence was suddenly awakened by the sounds. Over these days, she too had been waiting for Chen Xiang's return. She wanted to see Chen Xiang shining in the Kings' Martial Arts Meet. And now she knew that Chen Xiang had returned, furthermore, he seemed to be very happy, which assured her that he had stepped into the Extreme State,

Thinking this point, Wu Qianqian secretly sighed because she knew that there was once again a big gap between Chen Xiang and her. She had already decided that once the Kings' Martial Arts Meet ended, she would leave for the place marked on the map given to her by Elder Dan. According to Elder Dan, this place could allow her to become stronger.

Chen Xiang hastily left the Extreme Dan King Courtyard and made his way to the teleportation array along with Wu Kaiming and Gu Dongchen to leave for the Kings' Mainland where he would register for the Kings' Martial Arts Meet.

"After the registration, there is going to be a sparring test, after this test, you will enter the second round, in this round, you will be ranked according to the points, and only the top fifty will get to enter the third round..."

Chen Xiang impatiently said, "Little Bald, what kind of martial arts meet is this? Isn't it a martial arts competition? How come there are so many rounds!"

"Oh, no way! I'm too lazy to explain it to you. Anyway, Young Martial Uncle will understand at that time." Wu Kaiming said.

Wu Kaiming was responsible for managing the registration process on the Chenwu Mainland. After he had handled Chen Xiang's procedures, he brought Chen Xiang upon a ginormous combat field.

The combat field was so ginormous that even with Chen Xiang's current eyesight, he was unable to find the edge of the square.

At this moment, the sun was rising from the east, basking the huge combat field in a red glow which painted a very spectacular scene. Chen Xiang came to know that many fights had already been carried out on this combat field, soaking it with the blood of many genius martial artists of other mainlands.

"Chen Xiang, I never thought that you will truly step into the Extreme State. Well, this is a good news!" An elder suddenly appeared. It was none other than Wang Quan whose teeth had been broken off by Huang Jintian in the past.

Wang Quan was very happy because Chen Xiang was going to be participating in the Kings' Martial Arts Meet. He would now have the opportunity to make a fool out of Chen Xiang, for he had a lot of confidence in the martial artists with the King's Vein. He firmly believed that even if Chen Xiang cultivated Tai Chu Subduing Dragon Exercise, he would still be miserably beaten by his disciple.

CHAPTER 398 – POWER IN EBULLITION

The matter of Chen Xiang appearing on the very last day to register for the Kings' Martial Arts Meet very soon spread to various mainlands. It was indeed surprising to everyone, furthermore, it also meant that Chen Xiang had stepped into the Extreme State.

Followed by the registration was the sparring test, only through which the participant could enter the preliminaries. At present, Chen Xiang had stepped into the Extreme State, and the first thing he must do was the cultivate his divine sense to the extreme. And if wanted to cultivate divine sense, he must do so by the means of his body. And that was also why this state was Spirit Martial Realm.

The Spirit Martial Realm was the first state of the Extreme State which was further divided into early stage, intermediate stage, and late stage. Chen Xiang was now in the early stage of Spirit Martial Realm which was the lowest level of the Extreme State. If he did enter the intermediate stage, he would get more power bestowed by the martial arts way.

When Chen Xiang was coming here, he came to learn from Wu Kaiming that the martial artists participating in the Kings' Martial Arts Meet who had powerful veins also had the same cultivation as him. However, they had stayed at the same level for a long time as compared to him. One needs to bear in mind, that these people were all young and they were also afraid that their foundation would be unstable, so they were consolidating their foundation, lest it would affect their future cultivation.

The sparring test was a martial arts contest with a martial artist of the Kings' Mainland. If won, it would be an irrefutable proof that the participant possessed enough strength to participate in the preliminaries. Since the number of people registering to participate in the Kings' Martial Arts Meet was many, it was impossible to let every person directly compare notes with each other, and in order to prevent too many people fighting together, the Kings' Mainland first tested the registering martial artists' strength in advance.

Chen Xiang heard that in this test nine out of ten would fail, moreover, the registration fee they had paid would also not be returned. If calculated, the Kings' Mainland was making a fortune through the Kings' Martial Arts Meet.

The person who was going to spar with Chen Xiang was a middle-aged man whose entire face was covered in a beard. Whereupon, when he came up, instead of converging his aura, he released, making everyone notice that he was in the Extreme State.

"They actually let us wait for one morning just for finding a right opponent for me. Do they want me to stop here?" Chen Xiang sneered.

"Why don't you let them see your colors a bit. After all, this big guy has also just entered the Extreme State and he isn't even a King's Vein martial artist. You don't need to worry! The young King's Vein martial artists are noble and ruthless, and are the best thing through which this old man can show off. Certainly, he is going to wait until the end when the tycoons of various mainlands have gathered to show them." Wu Kaiming said with a laugh.

Chen Xiang faintly smiled as he stepped forward first: "Little Bald, you are too tender! For now, I should hold my strength back and let them think that I am not overly strong. And when it is the finals, I will reveal my strength and tear their aces into pieces!"

“Do you want to play pig to eat the tiger? Suit yourself, but it won’t be that easy for you to play the pig.” Shaking his head, Wu Kaiming smiled and said.

Chen Xiang stepped onto the martial arts stage. The stage was just a tad bit higher than the ground and was square in shape with a length of thirty Zhang. It was still huge which was enough for the fighters to fight as they like.

Standing upon the stage, Chen Xiang felt that there was some kind of bizarre yet strong power underneath it. He reckoned that it was a powerful array, like a barrier which would protect the bricks, making it impossible to destroy them during a fierce fight.

When Chen Xiang saw such a huge combat field, he felt an itch in his heart. The last time when he destroyed the entire square in the Fragrance City, he felt that it was very cool. If he could also destroy the combat field of Kings’ Mainland, it would definitely make the Divine Martial Palace feel a heartache for some time.

“At the center of this combat field, there is also a bigger stage where there are stronger arrays. In here, there are many arrays just like the one laid on the combat stage and needs the top-grade crystal stones to maintain. If you could destroy the entire combat field, the Kings’ Mainland would suffer a tremendous loss because these arrays would also be destroyed! And as you know, these arrays cannot be laid within a day or two.” Long Xueyi mischievously laughed and said. She had noticed what Chen Xiang was thinking.

“Let’s talk about it later!” Chen Xiang looked at the middle-aged man, meanwhile, some people also came over from every direction. As Chen Xiang looked at Wang Quan’s side, he noticed that behind him stood some young people; it was quite clear that they were Wang Quan’s apprentices. They wanted to see how strong Chen Xiang was.

“Let’s start!” Wang Quan shouted.

The middle-aged man’s True Qi was quite overbearing and carried a lightning aura. Each of his steps was like lightning, shaking the entire martial arts stage which was also accompanied by peals of thunder one after another. His imposing manner was quite scary. Whereas, his pair of giant fists were wrapped in flashes of lightning which were shooting in every direction. From the very beginning, he had unleashed a very strong power because Wang Quan ordered him to defeat Chen Xiang with the fastest speed.

Meanwhile, when Chen Xiang saw the imposing manner of his opponent, god knows why but his blood suddenly started burning. Now he understood why Wu Kaiming said that it would be not so easy for him to play the pig to eat the tiger, because, under this kind of situation, it was indeed quite difficult to hide his strength. Not to mention, he had just stepped into the Extreme State and had obtained a lot stronger power than before, whereas this power had been suppressed inside his body which needed to be released!

Witnessing the middle-aged man swooping towards Chen Xiang like a thunderbolt, Wang Quan and the others nodded their head, for they were very satisfied with this kind of offense. Not to mention, ordinary people, even if it was the Herculean Family, it would be a little difficult for them to withstand.

Chen Xiang stood still in his place. He was wondering how he was going to hide his true strength. However, in the end, he thought that it would be cooler to beat him in simple and forthright manner, thus, he decided to utilize the strongest power and go all out from the very beginning.

A right hook with lightning flashing in all directions shot towards Chen Xiang's cheek. When everyone thought that Chen Xiang was going to spew blood from the tyrannical lightning strength, a strange scene appeared.

To everyone's dismay, the punch wrapped in lightning stopped just right before Chen Xiang's cheek, seemingly blocked by some kind of power. Meanwhile, there wasn't an ounce of power being released from any part of Chen Xiang's body.

The middle-aged man also didn't know why he stopped, in that moment, he only felt fear. Meanwhile, a monstrous Slaughter Qi suddenly spread from Chen Xiang's body and enveloped everyone, making everyone feel as though they were inside a battlefield where hundreds of millions of soldiers were killing each other.

The Slaughter Qi was extremely horrifying to the point that the temperature in the surroundings instantly plummeted and made everyone smell an intense Death Qi, making everyone feel as though they were inside a purgatory which was filled with slaughter.

Although Chen Xiang didn't move, his Slaughtering Heart, on the other hand, was beating. After entering the Extreme State, his Slaughter Qi too had advanced to the extreme, becoming even more terrifying. This was precisely the terrifying part of the White Tiger Divine Exercise.

Just from the Slaughter Qi, he had scared his opponent. This kind of Slaughter Qi already made Wang Quan and the others feel intense trepidation. In their opinion, even for a Nirvana Realm martial artist, it would be difficult for them to possess this kind of Slaughter Qi, unless it was the time of the Great Battle of the Three Realms during which they would frantically slaughter demons and devils. At present, even Wang Quan himself didn't have this kind slaughtering aura.

"Your lightning is very weak! Let me show you what true lightning power is!" Chen Xiang burst into a mad laughter as he walked towards the retreating middle-aged man.

CHAPTER 399 – FRIGHTENING THE KINGS

Having witnessed Chen Xiang giving true effort, Wu Kaiming started to frown. He had long guessed that it would be difficult for Chen Xiang to hide his true strength. At such a critical juncture, of course, he was happy, however, he was also a little worried that Chen Xiang would start ruthlessly and would cripple the middle-aged man, by then it would forge a hatred with the Kings' Mainland.

A dazzling azure aura appeared around Chen Xiang's fist as lightning which was as thick as a snake shot out from within, whereupon, dazzling flashes of lightning radiated in every direction before covering the entire martial stage in an azure light.

At this instant, Chen Xiang had unleashed the strongest Azure Dragon True Qi which contained a very overbearing lightning energy that gathered around Chen Xiang's fists.

The middle-aged man himself was a user of lightning power. He could see that the lightning power unleashed by Chen Xiang was a lot stronger than his. Before he took the stage, Wang Quan had told him

that Chen Xiang was just a little devil who had recently stepped into the Extreme State, and there was no need to be afraid of him, he could beat him as he wished without any worry.

However, now, the middle-aged was secretly cursing Wang Quan. Where was Chen Xiang just a little devil, he was simply a devil god! Take the Slaughter Qi released by Chen Xiang for instance, it already made him feel afraid.

The middle-aged man was someone who had entered the Extreme State, he was also not someone who could be trifled with easily. Although he was momentarily afraid, he could only unleash his strongest power and compete with Chen Xiang.

Step by step, Chen Xiang gradually walked over, whereas, the middle-aged man let out a roar as electric aura once again surged out from his giant fists. However, it was far inferior as compared to that of Chen Xiang.

The middle-aged man sent a very fast punch, so fast that it seemed that a lightning was piercing through the air. When the punch with this kind of speed and power suddenly clashed with air, it burst forth with a sonic boom as it rumbled towards Chen Xiang's nose.

The punch was fast as well as unleashed with a very rich True Qi which gave burst to a tremendously strong power. Chen Xiang was competing with someone who was in Extreme State just like him for the first time, which made him very excited. He admitted that the opponent was very strong, if he had not entered the Extreme State and encountered such a person, perhaps he was doomed to be miserably defeated.

"It's a bit slow!"

Chen Xiang extended his hand as he grabbed the middle-aged man's fist before he vigorously squeezed as a peal of thunder reverberated the entire field which was followed by howls of the middle-aged man as Chen Xiang sent a punch while he was wrapped in a thick Lightning True Qi that suddenly transformed into a dragon head and his arm transformed into that of a dragon before that menacing punch struck the middle-aged man's chin.

In this moment, everyone saw as though a small dragon that had lightning wrapped around its entire body charging towards the middle-aged man. Witnessing this kind of power, Gu Dongchen and the others could not help but shudder. If he was so powerful in the Extreme State, when he would step into the Nirvana Realm, perhaps they would be unable to win against Chen Xiang.

Chen Xiang had a very rich battle experience. In the sinkhole at the forbidden area, he had to deal with various kinds of attack of Huang Jintian often, whereas, Huang Jintian in his youth had challenged everyone everywhere, moreover, he also had Five Elements True Qi, thereby he could simulate many battle styles according to his memory to fight with Chen Xiang.

When Chen Xiang fought with Huang Jintian, the attack he had to face was a lot, lot faster. Therefore, the middle-aged man's speed appeared to be a lot slower in his eyes. He was already accustomed to Huang Jintian's high-speed attack. And although he often had been able to dodge, at the end of the day, he would still be beaten by an even faster attack.

Just a punch from Chen Xiang had made the middle-aged man retreat several steps, while his head was cocked to the other side and blood was flowing from the corner of his mouth!

What made everyone feel odd was that the middle-aged man had azure lightning crackling all over his body. To everyone's dismay, Chen Xiang's lightning power was crackling over the middle-aged man's body. It was quite clear that Chen Xiang's punch was infused with a lot of lightning power, which, in the blink of an eye, was blasted into the middle-aged man's body.

The middle-aged man had been hit on the head with that kind of power, one could imagine what kind of damage he had suffered!

"You can't even withstand a punch?" Chen Xiang sneered. Whereas, the middle-aged man was incessantly furious. He struggled to twist his head back, but all he saw was a sudden azure flash approaching.

Once again, Chen Xiang attacked as his dragon head-like punch smashed into the middle-aged man's mouth. The lightning power released this time was stronger than before, when he punched, it burst out with a dazzling azure light, meanwhile, the entire ground slightly shook.

Shocking Heaven Palm! Although he had used his fist to cast the technique, the subsequent shockwave secretly shocked Gu Dongchen and Wu Kaiming. They were sure that the middle-aged man already lost.

Sure enough, after Chen Xiang had punched, the middle-aged man was battered out of his wits, and in that very moment, another lightning-fast punch smashed into him. Both his fists alternatively struck the middle-aged man at fast speed. In the blink of an eye, tens of punches ruthlessly greeted the middle-aged man's face. Each punch burst forth with a dazzling brilliance. If had it been the night, the subsequent azure flashes would have been a spectacular and astonishing sight.

"Stop!" Wang Quan shouted. However, in just the short moment when he shouted "stop", Chen Xiang had already punched hundreds of times. Chen Xiang had unleashed the strongest might of Azure Dragon True Qi for his each and every punch, moreover, he had cast the Shocking Heaven Palm along with the punch.

Chen Xiang obediently stopped. Meanwhile, the middle-aged man still stood at his place. Whenever Chen Xiang battered his face, he would release a kind of suction, therefore, no matter how strong his punches were, the middle-aged man would not fly away. Which made the middle-aged man's head glued to his fists, allowing Chen Xiang to frantically bombard his face. The subsequent damage he had suffered was most terrifying.

"You have passed the test!" Wang Quan was somewhat furious because Chen Xiang was clearly displaying his dominance. And of course, he knew that Chen Xiang had already shown mercy, if he had fused the Five Elements True Qi into the Universe True Qi, the middle-aged man would have long been crippled.

The middle-aged man was after all an Extreme State martial artist. Under this kind of maddening bombardment, he had not fainted at all, but his head had already been seriously injured. When the others came to help him, the middle-aged man coughed a bit as he spewed out many broken teeth.

When Wang Quan saw the middle-aged man spew teeth along with the blood, he tightly clenched his fist, for he recalled the time when Huang Jintian had knocked out his entire teeth and then bragged about it everywhere, which made him lose face.

Chen Xiang wasn't too much concerned regarding the martial artists of Kings' Mainland, as long as no one died, everything was fine; he could torture them as he wished because the martial artists of Kings' Mainland had done the same to the martial artists of other mainlands.

As early as half a year ago, Chen Xiang's had heard that the martial artists of Kings' Mainland started viciously; many people had been crippled and rendered unable to practice martial arts ever again, for which he was also furious. And now, he wanted to give them the dose of their own medicine; let those proud and arrogant martial artists of Kings' Mainland experience how being beaten to a cripple felt like.

Chen Xiang just calmly swept a glance at the several proud young men standing behind Wang Quan and asked, "Who's next? Let me tell you in advance, kicks and punches have no eyes, if you get crippled during the fight, then don't put the blame on me! Previously, you, martial artists of Kings' Mainland had done the same, so I'll not show any mercy to you. If you are afraid, it's better for you to throw in the towel at the start of the fight!"

"And also, I don't like anyone stopping me when I am happily beating people up! The fight is between him and me, not with others, others don't have the qualifications to stop the fight, this seems to be a rule a long time ago."

Chen Xiang had his fist clenched, his voice carried anger. Had it not for Wang Quan shouting to stop, the man definitely would have been crippled by him a moment ago.

CHAPTER 400 – THREE DAYS

Hearing Chen Xiang say this, the people standing behind Wang Quan were furious. Just as they were thinking of criticizing Chen Xiang, Wang Quan raised his hand to stop them.

"You are just like your teacher! Indeed, it was my mistake. In the future, no one is going to stop someone during the competition!" Wang Quan actually restrained his anger. Although he was a bit angry in his heart, he still held back.

"Chen Xiang, don't think that just because your teacher is Huang Jintian, you can not show respect to your elders!" A luxuriously dressed young man who was standing behind Wang Quan angrily said.

Chen Xiang sneered: "What about it, not to mention my teacher, even my Great Senior Brother is a lot stronger than Senior Wang, and forget even my Great Senior Brother who had ascended, my eldest martial nephew standing beside me is also as strong as Senior Wang!"

Chen Xiang's words made Wang Quan furious.

"Chen Xiang, you... did Huang Jintian made you speak as such?" Wang Quan's entire face was laced with anger, while Gu Dongchen also pulled Chen Xiang a bit.

Chen Xiang smiled and said, "He indeed spoke to me as such, he also said that you are not his match in this life, that's why he is holding some bullshit Kings' Martial Arts Meet to show off his power."

"Master, let me teach him a lesson," another young man standing behind Wang Quan loudly said.

“Teach me a lesson? Little Bald, someone wants to fight me, what do you think I should do?” Chen Xiang laughed and said.

Wu Kaiming sighed: “Let him give it a try, then he will understand.”

Gu Dongchen laughed and said, “Old Wang, Young Martial Uncle’s character is just like this, however, you should still control your apprentice a bit, don’t ever let him arbitrarily teach a lesson to this Little Madman! Otherwise, his death is not related to us in any way.”

Having heard Gu Dongchen and Wu Kaiming’s statements, the youth who was clamoring to teach Chen Xiang a lesson had an ugly look covered his face. Gu Dongchen’s strength was unfathomable, although he didn’t cultivate the Tai Chi Subduing Dragon Exercise, he was the Dean of Extreme Martial Sect after all; he was definitely extraordinary.

Wu Kaiming was worried that Chen Xiang would continue to stir up trouble, so he pulled Chen Xiang to another place to prepare him to participate in the next round.

“To tell you honestly, this Little Madman’s alchemy skills are not taught by our Junior Sister! As for whom he learned from, I am also not clear. In short, he is a very powerful guy. It’s quite possible that it was the same guy who had saved him last time on the Heroes Mountain!” After Chen Xiang and Wu Kaiming were far away, Gu Dongchen spoke in a low voice.

Wang Quan frowned: “Isn’t taught by Elder Dan? Are you sure?”

Gu Dongchen nodded: “I’m sure. Even before he had joined the Extreme Martial Sect, his alchemy skills were already superb, furthermore, he had also mastered a few extremely powerful martial exercises, like the True Qi fire wings, some other Dragon Martial Techniques, and many others. You can investigate these things. There is obviously some powerful figure behind him!”

Wang Quan had a solemn look on his face, he indeed had heard of the happenings of the Heroes Mountain. The sudden disappearance and appearance of Chen Xiang in front of many people was indeed not the work of Huang Jintian. Furthermore, Chen Xiang had also shared a map which pointed to a mysterious realm that had many martial arts and mysterious records from the ancient period.

And when Chen Xiang had said that it was given to him by someone, Gu Dongchen could verify that he was not lying.

“Therefore, you really have to control your apprentice better, and it will not be us who are going to take any action but rather the figure that is standing beside him!” Gu Dongchen stared at those young men, whereas, those young men were drenched in sweat.

“Of course, if you can injure him in a competition in a fair and square manner, then there won’t be anything. Although you and I are powerhouses of a mainland, we are both clear that we are not the strongest in this vast Mortal Martial World.”

Gu Dongchen said this to tell Wang Quan that he should not turn his enmity with Huang Jintian at Chen Xiang, or else, he would come to regret it.

“Don’t worry, I’m not so stupid! If I hated that Old Madman, I would have long gone to your Extreme Martial Sect and fight it out with him.” Wang Quan faintly smiled.

Gu Dongchen smiled and left towards the fading figure of Wu Kaiming and Chen Xiang and disappeared in the blink of an eye.

“Young Martial Uncle, we don’t have much time! We just have three days, in these three days you have to enter the top fifty, or else you will be unable to proceed to the next round,” said Wu Kaiming.

Chen Xiang and Wu Kaiming were presently sitting in a stone building. Chen Xiang, while watching through the window at the passersby, yawned: “How many rounds are actually there?”

“I am not sure about this, I only know that you have to enter the top fifty within the next three days, or else, you won’t be able to proceed to the final round!” Wu Kaiming said while shaking his head.

“Alright, tell me about the rules!” Chen Xiang lazily said. He just wanted to fight those King’s Vein martial artists as early as possible.

Taking out a sheet, Wu Kaiming spread it on the table and gestured Chen Xiang to come closer.

“In the top fifty, not all of the participants are King’s Vein martial artists, some of them are just a bit talented and are extremely strong. However, in the final round, only four will have the chance to compete in front of many people!”

Chen Xiang noticed that the sheet was jam packed with dense characters.

“Next, you are going to challenge the participants who are under fifty for their points. And as long as your points are more than that of the participants who are in top fifty, you no longer need to challenge anyone.”

Chen Xiang took a glance at the sheet and discovered that the top fifty had a large number of points, especially the first who actually had more than 10,000 points, while the one on the fiftieth position also had as much as 3,000 points.

“Don’t underestimate 3,000 points. If you win, you will get a point, if you lose, a point will be deducted, and when you have zero points, you will be eliminated. At the beginning, every participant will be rewarded with a point!” Wu Kaiming said.

Chen Xiang said with a surprise, “You mean to say, that the guy in the first place had won more than 10,000 matches? How long did it take for him to fight?”

“Of course not, if your opponent has 1,000 points and you happen to win, then you will win his 1,000 points, then he would once again start with 1 point and continue to fight.”

Chen Xiang now understood: “So to say, the top fifty can not be challenged.”

“That’s right! At first, when many participants who had a lot of points were defeated, came to worry that all of their points will be lost, so the rules were modified and the participants who have entered the top fifty were no longer allowed to fight; fewer points does not mean that they are any weaker.”

“So I now have to find participants who had a lot of points as well and are ranked under fifty and challenge them, right!?” Chen Xiang said.

“Yes, and the deadline is after three days, after which the ranking will be finalized. That’s why you have to enter top fifty within three days! And those participants are going to have to accept the challenges, whereas challenging those who have a lot of points is also riskier, for they are relatively stronger.”

Chen Xiang pointed at a name and said, “I am going to challenge him, he has 2,000 points!”

“He...He seems to be an Extreme State King’s Vein martial artist, before, he used to be in the first position but he was defeated, so he is very strong. However, he seems to have suffered injuries, but it’s difficult to say.”

Chen Xiang smiled: “Little Bald, you are not confident in my strength?”

“Of course not, only this guy has some strange powers, I think that it would be more appropriate to challenge these guys, they have 1,400 and 1,500 points respectively. These three are the strongest under the top fifty, furthermore, they don’t challenge each other, and also received fewer challenges from others. Most of the time, it’s them who challenge others.”

Upon taking a glance at their points, Chen Xiang’s was enlivened: “Alright, I will first fight with the guys with 1,400 points and 1,500 points, and then fight with the guy with 2,000 points, so that I can rank a bit higher!”
