### Chapter 471 Earth's Core

Chen Xiang rushed for straight three days, along which he killed many strange beasts. When he reached the end, he didn't see anything but a stone wall.

"Did I ignore something along the way here?" Chen Xiang said it in doubt. Long Xueyi had used the God Traveling in Nine Heavens to wander around here on the way but she did not notice anything.

Beneath the abyss was a straight and wide passage. At this moment, Chen Xiang slowly walked back and paid attention to both sides and the ground. If there was a small hole on the ground, he would definitely be able to find it.

He walked back for two days, until Long Xueyi suddenly shouted, "I found a small cave!"

The small cave was right on top of the stone wall. As Chen Xiang walked over it, he saw a small cave on the stone wall near the ground.

"I'll use my divine sense to see what's inside." Long Xueyi released her spirit sense and entered the small cave.

"This small cave is very shallow, it did not take along to reach the end, but there are many spirit patterns around it! I wonder what it is for." Long Xueyi explained with depression. She originally thought that Chen Xiang would be able to go to the Earth's Core from the small cave as he transformed into a mouse.

Chen Xiang got down on his stomach and touched the surroundings of the small cave with his finger. He discovered that this small cave was perfectly round, while many bumpy things were the cave wall, and it took him a while to ascertain that these were spirit patterns.

"Could it be a keyhole?" Bai Youyou said.

Her words reminded Chen Xiang. He hurriedly took out the Azure Dragon Subduing Saber. Although the Azure Dragon Subduing Saber was square, it could change into any shape according to Chen Xiang's mind since it was fused with dragon soul.

He turned the Azure Dragon Subduing Saber into a cylindrical shape that was about the same size as the small cave, so it could just be inserted into the hole.

"We must try! If we make it, then there must be something in the Earth's Core waiting for me to obtain!" Chen Xiang took a deep breath slightly. He was a little excited.

As he stabbed the cylindrical Azure Dragon Subduing Saber into the hole, he suddenly felt a suction force. Then a light burst out of the hole and a square cave suddenly appeared on the ground beside him. It was a staircase leading to somewhere below!

It made Chen Xiang being extremely excited, so was Su Meiyao and Bai Youyou, because they did not know what kind of state the earth's core was, and now they had a chance to see it. There might be something waiting for Chen Xiang to get.

Chen Xiang pulled out the Azure Dragon Subduing Saber and walked down the stairs, after which the top immediately closed, but Chen Xiang heard a beast roar. It was the roar of the Primordial Fire Beast. It also became excited as it saw that Chen Xiang found that path.

“Go to the core of the earth and cut off that tree. Then let’s see how the big lion shows off!” Long Xueyi snorted and said. She kept an idea on the Primordial Fire Beast’s Earth’s Core Fruit, but the Primordial Fire Beast didn’t even give her a single glance, which made her mad.

Chen Xiang shook his head and smiled as he walked down the stairs. This was the staircase spinning downward, and it was very deep. It took a long time for Long Xueyi to conduct the ascertainment until she realized that something was blocking below.

The Youming Abyss was already deep enough, and now that it headed to somewhere even deeper. Chen Xiang felt that the bottom of the stairs should be very close to the Earth’s Core.

“Haven’t you heard about anything in the Earth’s Core?” Chen Xiang asked.

"I only heard that it is very hot, and there is formidable flame. " Su Meiyao answered, while Bai Youyou and Long Xueyi hurriedly agreed.

Chen Xiang flew for ten days on that staircase until he reached the end. However, there was a door below.

Above the door wrote four words, “Door of Earth’s Core”.

Seeing these four words, Chen Xiang and his folks were incomparably excited because they were certain that the Earth’s Core was right behind this door.

Chen Xiang pushed and opened stone door, and a scalding aura assaulted his face, which made a man like Chen Xiang who had Heavenly Fire to feel a burning sensation throughout his body. It could be seen just how strong that heat was.

He hurriedly released the Black Tortoise Armament Armor to protect his body. Only the armor could resist the terrifying heat waves. He was certain that even a Nirvana martial artist would find it difficult to reach the depths of the abyss.

There was still a long way to go, but Chen Xiang could not bear it even at the entrance, and the situation must be worse down there.

“Who on earth built it?” Chen Xiang was extremely puzzled, but no one could answer him.

The stone door automatically closed. The temperature inside was even more terrifying, whereas Chen Xiang was fine with protection of the Black Tortoise Armor.

“I don’t dare to ascertain with my divine sense. The flames here are too frightening, and my divine sense would be burned out promptly after it goes out!” Long Xueyi said in fear.

Even divine sense would be burned! This caused Chen Xiang to suck in a terrified breath. He could not imagine what he would do after the Black Tortoise Armament Armor disappeared!

The passageway was very dark and Chen Xiang couldn't see anything, but it was filled with a terrifying, scorching heat. Chen Xiang took out a piece of iron, and it instantly evaporated!

"No wonder only those with Black Tortoise Armor could come to this place. Even a madman like Master can't come here!" Chen Xiang's voice was filled with terror. Huang Jintian was the strongest in the Mortal Martial Realm.

After walking for a while, Chen Xiang suddenly saw a red dot in front of him, which made him excited. He quickened his pace and walked forward. In a short time, the small dots became more and more numerous. Acute red light flashed out from forward, and he speculated that it would not take long for him to see the Earth's Core in legends.

Chen Xiang walked out of the tunnel, and he was right now on a cliff. The red light was coming out from below, and the stones here were very tough. He couldn't even cut them apart with the Azure Dragon Subduing Saber.

After all, these stones can withstand a high temperature!

"Looks like the Earth's Core is still down!" Chen Xiang stood on top of the bluish-red cliff and looked ahead. There was a very wide space in this area, at least as large as the King's Mainland. Furthermore, he saw a tree trunk that was very thick and sturdy. The trunk advanced upward and penetrated some stones. That was the Earth's Core Devine Tree

"It seems like you have to jump down, or you won't be able to see the Earth's Core." Although she said so, Su Meiyao didn't want him to do that because the danger below was unknown.

"I will use my magic power to suspend my body and slowly descend!" Chen Xiang was determined as he looked at the red light shooting out from below. He must see what there was.

He knew that he was not the only one who had come here. The person who came earlier had intentionally set a trap for him to come down here to pick up something!

Chen Xiang jumped down. He relied on his magic power to support his body and float up. He slowly descended, so that he would not fall into something extremely dreadful. Dazzling red lights filled in the area below. He could not see anything, or release his divine sense. It would be instantly pieced apart by the heat after being released.

#### Chapter 472 The Earth Fire Soul

Right now Chen Xiang felt a little regretful. He could not know when this would end, while the temperature was already frightening enough. He was confident that all Nirvana Realm cultivators would die if they came here. Only creatures like the Primordial Fire Beast would be able to survive.

"Without the Black Tortoise Armament Armor, someone in your Master's level would not dare to come down. Even those who are a little bit stronger than your master would not. Nevertheless, the Earth's Core of the Mortal Martial World should not be such scary. Could there be something else underneath it?" Bai Youyou said.

"Could there be a fire soul?" Su Meiyao said in surprise.

The last time Chen Xiang and Liu Menger encountered that strange fire soul, it affected a large area. If there really was a fire spirit below, it must be tremendously strong!

In cognition of Chen Xiang and his fellows, the Heavenly Fire Soul was a king among the fire spirit, and it was extremely rare. It was given to Chen Xiang by the Primordial Fire Beast.

"There must be a stronger fire spirit other than the Heavenly Fire Soul. The world is vast, and there are countless worlds. No one could be sure of everything!" Bai Youyou said.

Chen Xiang also looked forward to this. It would be a very good news for him if he were to obtain another formidable fire soul from below.

"Sister Meiyao, if there is truly a fire soul, I will give it to you!" He generously said. It was impossible for him to have another one. Moreover, he didn't want to experience the pain of fusing with Fire Soul again.

Su Meiyao was very happy when she heard that. She smiled in shy and said, "I don't need it now. I'm afraid I cannot not bear it! I'm sure that there will be plenty of chances to obtain a fire spirit if I follow you. It is said that the fire soul has a spiritual nature and it could lead its owner to find other fire souls, then it could fuse other fire souls and become stronger!"

Chen Xiang was surprised at this. "So, I can still fuse with other fire souls?"

"Theoretically, yes, but what I've heard is that a stronger fire soul could devour a weaker one. The fire soul in the Earth's Core shouldn't be any worse than the Heavenly Fire Soul, or at least they are in the same level. It is hard to say."

Although Chen Xiang was currently being protected by the Black Tortoise Armament Armor, he could still feel the scorching heat seeping into his body, which made him worried that the armor might not be able to resist if temperature below there was even higher.

After two hours passed, entire body of Chen Xiang was covered in sweat. He felt like he was about to be baked dry. However, just as he was about to speeding down, the scorching heat suddenly disappeared!

"What the earth is going on?" Chen Xiang was startled, because he suddenly felt an indescribable cold. Although this cold caused him to shiver, it made him feeling an indescribable heat as well.

Chen Xiang told his feelings to Su Meiyao and others.

"This is the Earth Fire! Everything extreme would turn into opposite state. It seems that the heat of the Earth's Core has exceeded the limits of common sense. That's why it developed Earth Fire. If I'm not wrong, then the fire soul there must be the Earth Fire Soul! "

"Earth Fire Soul? Isn't that a fire spirit that doesn't actually but being made up by a group of old fellows?" Su Meiyao asked in confusion.

"That's right, it's actually made up by people. But these are all deductions from the wise people using their intelligence, so it's theoretically possible, which means that the Earth Fire Soul and the Heavenly Fire Soul were a match. They could melt into each other, but also against each other, just like the Yin Yang Divine Veins inside your body. If you can merge with the Earth Fire Soul... "

Hearing Bai Youyou's speculation, Chen Xiang couldn't help but feeling cold. His heart was pounding furiously. He suddenly felt an inexplicable fear, and at the same time, an extreme excitement.

"If you could fuse it, then that is the integration of heaven and earth, the Heaven-Earth Fire Soul! This is definitely stronger than the Heavenly Flame Soul or the HellFire Soul. " Su Meiyao took a deep breath and couldn't help being slightly excited. She and Bai Youyou had long since known that Chen Xiang was a pervert with Yin Yang Divine Veins. If there really was a Earth Fire Soul underneath, then they could witness the birth of an extremely powerful figure with Heaven-Earth Fire Soul.

Chen Xiang took several deep breaths and calmed himself down. "Does every Earth's Core have a Earth Fire Soul?"

"It shouldn't be all that much, otherwise it won't be worth it!" Su Meiyao said.

The abnormal heat caused Chen Xiang to feel indescribably uncomfortable. At this moment, the Heaven Fire Soul inside his body became extremely violent, as if it wanted to leave his body.

Chen Xiang's Heavenly Fire Soul was like encountering a great enemy, which allowed him to be even more certain that the Earth Fire Soul was below!

"I see it!" Chen Xiang exclaimed. He had indeed seen the Earth Fire Soul. It was a mass of black gas that was gushing out a great amount of black gas, which then fused into red lights and turned into waves of abnormal cold and heat and dispersed in all directions.

Chen Xiang saw the Earth Fire Soul first before he saw the Earth's Core. He thought that the Earth Fire Soul would be near the Earth's Core.

He didn't know why, but after he discovered the Earth Fire Soul, the first thought jumping out of his mind was to rush over to it. His mind was full of tyrannical consciousness, and he wanted to pierce the Earth Fire Soul apart. It did not take long for him to figure out that his consciousness was affected by the Heaven Fire Soul.

He also unknowingly rushed out, while the black Earth Fire Soul also flew over to him!

"Dammit, don't you want to give me some preparation time?" Chen Xiang shouted out. It was very painful to fuse with fire soul, and it would be even worse if two fire souls were to fight and fuse together in his body.

"We are done!" Chen Xiang whined in his heart. The Earth Fire Soul had already crashed into his body and spread into his flesh and soul!

"Ah!" After the Earth Fire Soul entered his body, it was as if countless poisonous insects were biting his flesh and soul, while the Heavenly Fire Soul and the Earth Fire Soul were even in a conflict; each of them wanted to devour each other in the fighting.

All of this was not something that Chen Xiang could control. He could only endure the pain that was worse than death. At this time, his Black Tortoise Armament Armor was also retracted back to his body because it was also part of his body and had to fuse into it as well.

Su Meiyao and Bai Youyou were both extremely worried. After seeing that Chen Xiang was no longer protected by the Black Tortoise Armament Armor, the two girls's faces turned deathly pale. However, Chen Xiang was not immediately eliminated by the scorching heat, but continuously falling down.

The heat that erupted from Chen Xiang's body was much higher than the temperature in the Earth's Core, and it also served as a protection.

The heart-wrenching screams echoed in the space of the Earth's Core, and the temperature became even higher due to the fusion of the two extreme fire souls.

The continuously falling Chen Xiang suddenly saw a huge fireball below there, and seemed like it was made of magma.

"Is this the Earth's Core?" Chen Xiang was extremely terrified at the same time he endured the pain, because he could not control the falling of his body, and he was about to falling into that terrifying fireball.

#### Chapter 473 The Heaven-Earth Fire Soul

Chen Xiang did not get much time to think before he fell into the giant fireball. The incomparably scorching heat seeped into his body, making him to feel like he was about to melting.

However, he was happy since his body was still fine although it was very painful. The heat being radiated from fusion of the Heavenly Fire Soul and the Earth Fire Soul within his body was even hotter than the earth's core!

Chen Xiang could do nothing but bear it. He felt that if he could master such a powerful flame in the future, he would be unimaginable strong, even hotter than the Earth's Core!

"Black Tortoise Body Strengthening Technique, now!" Su Meiyao shouted.

Chen Xiang's consciousness was still there, but he was unable to use the True Qi within his body. He couldn't making his True Qi running according to the spell on the Black Tortoise Body Strengthening Technique. Even so, he still attempted to do it.

Now he was in the heart of the earth, which was like a huge furnace. Incomparably hot flames were frantically destroying his body, causing him endless pain. If his spirit wasn't strong enough, he would have fainted long ago, but he could definitely not faint under such circumstances.

However, it was no doubt a good opportunity to cultivate the Black Tortoise Body Strengthening Technique. He was sure that as long as he could get through it, his strength would increase by a great deal.

In this agony of pain, his spirit was tempered, as well as his divine soul!

Chen Xiang knew that if his body was controlled by the Heavenly Fire Soul and Earth Fire Soul, there would be no good outcome for him in the end. He might be tortured to death. Now the two fire souls in his body were fiercely fighting, and Chen Xiang would not allow them to continue.

"You're both mine!" Chen Xiang made his heart hardened. His magic power suddenly surged out and circulated in his body, carrying the True Qi into his body to run according to the Black Tortoise Body

Strengthening Technique. At the same time, he urged his magic power to suppress the two fire souls, which consumed pretty a large amount of power since the two fire spirits had already melted into all of his cells.

Chen Xiang knew that his magic power had extensive usages, but unfortunately, now his magic power was insufficient and he almost used it up immediately. He had to use it to suppress the two tyrannical fire souls, while simultaneously instruct his True Qi to circulate within his body.

Just as his magic power was about to run out, the teenager in his consciousness suddenly opened eyes. This little person was Chen Xiang's divine soul. He looked exactly the same as Chen Xiang in his teen ages. He grew up from an infant and was still growing up.

After the little person opened his eyes, a surge of magic power suddenly surged out from his body, making Chen Xiang to be extremely joyful. He hurriedly used the flow of magic power to conduct his cultivation, and at the same time, fuse the two fire souls.

After he had enough magic power, Chen Xiang felt much better now, though his body was still in incomparably pain. Now, he could only control the situation inside his body and urge the two fire souls to fuse together.

The Black Tortoise Body Strengthening Technique was a divine technique. It utilized a very extreme way to temper one's body and allow one's physical body to strengthen rapidly. Now, Chen Xiang could clearly feel his flesh body strengthening.

"The Nine Circulation Dragon Divine Technique. It is also a good time to cultivate your divine soul." Long Xueyi shouted.

Originally, Chen Xiang was worried that his endless magic power might disappear if he circulated the Nine Circulation Dragon Divine Technique. However, since Long Xueyi had said this, he would definitely not be affected, so he immediately circulated his technique.

Two divine techniques, one of which for cultivating flesh body, the other for cultivating divine soul, could complement each other and product even better effects.

Now, Chen Xiang felt that time passed very slowly, because he was indulged in endless pain.

"Xueyi, why he suddenly has so much magic power?" Su Meiyao asked doubtfully. She and Bai Youyou had always been paying attention to Chen Xiang's condition. His situation finally stabilized, which made them much more reassured.

"I wonder why he's so lucky to comprehend the realm of 'boundless magic' so easily. Generally the little person appears only when he's in an urgent need of magic power, few in the Divine Path can do it." Long Xueyi said.

"Judging from his current speed, he'll need at least a month to fuse the Heavenly and Earth Fire Soul." Bai Youyou said.

Chen Xiang himself knew very clear that the progress of fusion was very slow. Thinking that he would stay here for a long time, he couldn't help but shouting out loud ...

The Earth's Core was filled with the heart-wrenching screams, but after a month, his voice suddenly stopped and the Earth's Core calmed down again.

After a short period of silence, still, a burst of arrogant laughter sounded out. A pillar of fire suddenly gushed out from the gigantic fireball in the Earth's Core, and Chen Xiangfei, who was in the Earth's Core, rushed out, with a huge pair of fire wings on his back.

Chen Xiang successfully merged the two fire souls. The fire souls within his body had become the Heaven-Earth Fire Soul, which, although looked like an ordinary flame, was accompanied with much stronger flame than before!

"Haha ...the Heaven-Earth Fire Soul. You Bastard from the Holy Light Sect, I'm coming! " Chen Xiang's entire body was covered in flames as he fluttered his majestic Vermilion Bird Fire Wings and flew forward.

"Not bad. Your divine soul has cultivated to the figure of eighteen years old, and your Immortal Demon body is also in stage eighteen, which is quite harmonious." Long Xueyi praised.

Su Meiyao and Bai Youyou were both happy inside. Chen Xiang's flames had become even stronger, which would help him a lot when he cultivate Dan in the future.

After his soul and body had improved a lot, Chen Xiang felt that his strength was indeed much greater.

Chen Xiang followed the route he had come on to return to the passageway beneath the abyss, then flew towards the Primordial Fire Beast.

When the Primordial Fire Beast saw Chen Xiang, it let out a roar, "It is out of my expectation that you could go to the Earth's Core. Just like I thought, there's an Earth Fire Soul there. You are a lucky dude!"

"Hehe, it's all thanks to your advice." Chen Xiang said with a smile.

"Your current Fire Soul should be strong among all the fire souls. Of course, there's someone still stronger than you. Don't be too proud! Remember to fulfill your promise, and I will be waiting for you here. " The Primordial Fire Beast said.

Chen Xiang walked out of the cave and took out the Luotian Door. He confirmed his target and opened a Space Gate!

After entering the Space Gate, he came to the small island. This uninhabited island was very close to that whirlpool, and now, that whirlpool had been closed.

"It looks like we'll have to wait a few more days!" Chen Xiang couldn't help but worry. He was worried that the three Holy Light Sect martial artists were not there.

"Wait two more days, then use your Luotian Door to get in as it is about to opening. You must go in ahead of time, because now many people are waiting for the whirlpool to open, and then come in!" Long Xueyi smiled.

Only now did Chen Xiang remember that Long Xueyi had already released the news of the White Tiger Profound Realm. The strong forces in Chenwu Continent would definitely come after they knew that there was a Profound Realm.

It was almost two months now. Perhaps people from the other continents would also come. It should be known that a Profound Realm was like a treasure trove. In this era of resources shortness, it posed huge attractiveness to every sect.

#### Chapter 474 Ambush by Heart Penetrating Demon Eyes

Chen Xiang took out the Luotian Door and asked Long Xueyi to investigate the location of the island underneath the sea. He would now enter the island in secret and kill all three of the Holy Light Sect martial artists who fought him.

He guessed that the three men must still wait there. They could wait down below even if the whirlpool didn't show up, so that they could enter the Profound Realm at the first possible moment when it opened.

Chen Xiang speculated that once the Profound Realm was closed, all people inside would have to come out, or they would be in danger. Otherwise, he wouldn't have seen three men from Holy Light Sect waiting outside the last time he reached there.

"Of the three people from the Holy Light Sect, that old man is quite powerful! So, you better get rid of those two middle age men quietly at first." Su Meiyao said.

Chen Xiang nodded. It was hard to ambush a strong person. Now that his body and soul had risen, but not his True Qi, so he still had some pressure to deal with the old man.

Of course, he had the last dependence, which was the power of Long Xueyi. He didn't know what level of cultivation Long Xueyi was, but she was definitely stronger than him.

After the Space Gate opened, Chen Xiang performed his Seventy-Two Transformation Technique and turned into a stone in the size of a head. Then, he flew into the Space Gate and appeared again on the seabed island. Although it was very flat, there were quite a few rocks. No one would notice if there suddenly was one more of them.

Although Chen Xiang had turned to a rock, he could use his magic power to suspend himself and then move forward slowly.

The island was surrounded by a powerful formation technique that prevented one from getting inside from external space or reaching outside from in. If one wanted to enter or exit, he or she could only pass through the whirlpool, which opened periodically, and had to get in before the strong force rushed in.

Chen Xiang could see clearly under the dark seabed island. His current divine sense was much stronger. Very soon, he discovered the three Holy Light Sect martial artists who attacked him before.

"These guys did not send extra people. Do they think that I need a very long time to heal my injuries?" Chen Xiang secretly smiled in his heart. His injuries had healed in the Earth's Core long ago.

The three martial artists of the Holy Light Sect separated into three different positions and they were very close to each other. Once someone came down, they could attack from three directions in the fastest rate.

All three of them were sitting with their legs crossed. It seems like they were cultivating, but it was obvious that they were constantly on high alert. However, they would never expect that someone would come in and quietly approach them in a figure of a rock.

Chen Xiang was so careless the last time that he was injured by these three jointly. He would never allow that to happen again.

"The Spiritual Aura is very dense here! I wonder what kind of resources there are in the White Tiger Profound Realm that make the Holy Light Sect to agree to the conditions of Carefree Immortal Sea. Now that the matter of the White Tiger Profound Realm is disclosed Let's see how they would handle it". Chen Xiang was secretly delighted. Long Xueyi just used the God Traveling in Nine Heavens to look at an island in the distance, where quite a few people had gathered.

In order to be more secretive, Chen Xiang turned himself into a smaller rock. It was only the size of a walnut, and it moved very slowly. No one would find him without strong divine sense, but he was still worried.

"If we get closer, this guy will observe me!" Chen Xiang noticed that the middle-aged man suddenly opened his eyes and looked over.

Chen Xiang had already experienced the strength of these three people. They were indeed very strong, especially the old man in the lead, and their strength was at the top level of Profound Martial Realm.

"Wait, wait for the whirlpool to open, and there will be quite a few movements. You can move quickly while the tyrannical aura comes in." Long Xueyi said.

When a tyrannical aura surged in, it would create a wave of air currents. It would indeed be very convenient for Chen Xiang to conduct his action at that time. However, when the time came, those strong martial artists that were waiting outside would also come.

So his time was very limited. He had to get rid of all three of them before the whirlpool appeared.

Chen Xiang waited for four days, until the island suddenly shook violently. Taking this opportunity, Chen Xiang used his magic power to levitate himself and moved towards the middle-aged man.

After the island shook, a large circular hole appeared above the center, which meant that the large whirlpool was about to opening and appearing on the surface of the sea. It would devour surrounding spiritual energy and opened the gate to the White Tiger Profound Realm.

Now that Chen Xiang had arrived behind the middle-aged martial artist, he was merely an unremarkable stone, and his aura was restrained. That middle-aged man wouldn't even notice him.

No one would believe that a person could transform into a small rock if he or she did not know that there were Seventy-Two Transformation Technique, like Chen Xiang did.

The middle aged man opened his eyes to look at the hole above and closed.

Chen Xiang quietly turned into a rectangular rock. Suddenly, two eyes appeared on the rock!

The best way to sneak was to use the Heart Penetrating Demon Eyes to straightly pierce through the enemy's vital parts, especially when the enemy had no guard, that the technique would succeed.

"Go to hell, you bastard!" The two eyes on the rock suddenly shot out two faint red lights, one of which entered the middle aged man's heart, while the other pierced through the skull, and the red light that entered the skull contained an extremely destructive power that destroyed the consciousness of the middle-aged man!

In just a moment, the Profound Realm martial artist died, but it seems like he still sat there cultivating with his eyes closed.

Of course, Chen Xiang needed to eliminate the corpse and traces. However, he was not able to do it now, so he quietly poured a flame into the middle aged man's body. The flame was very docile and had no temperature under his control, but it could burn the corpse to ash in a second once Chen Xiang operated his thought.

After easily succeeding, Chen Xiang moved towards the middle-aged man in the distance.

Chen Xiang felt that he could become the king amongst assassins, but he needed to keep this ability secret.

Several hours passed, and the first wave of tyrannical auras engulfed in the whirlpool surged into the room, causing a gust of wind. Chen Xiang also moved towards the other middle-aged man while the dust and dirt were flying on the ground.

Martial artists in the utmost level were precious to every sect, especially if they were young and had potential. These three utmost level martial artists must have high statuses in the Holy Light Sect, otherwise they would not be sent here, and the Holy Light Sect would definitely feel heartbroken if they were killed by Chen Xiang.

When Chen Xiang arrived behind the middle-aged martial artist like he did last time. All of his movements were exactly the same as before, and he easily killed the martial artist whose cultivation was higher than his.

As another wave of tyrannical aura gushed in, Chen Xiang moved behind the old man! However, he was not sure if he could make it, because the old man from the Holy Light Sect was more powerful than the two middle-aged men.

After he was prepared, Chen Xiang, who had turned into a rock, released two rays of red light. That was the Heart Penetrating Demon Eyes.

Just as he was about to succeeding, a faint golden light suddenly appeared on the old man's body and blocked out the evil lights released from the Demon Eyes.

The old man turned his head abruptly in an extremely fast speed. He immediately saw the pair of eyes on the rock. He remembered those eyes. They belonged to Chen Xiang!

This caused the old man to feel incomparably shocked. Chen Xiang's eyes could actually grow on a rock and sneaked up behind him to ambush!

The old man was shocked. He reached out his hand and grabbed it. His hawk-like hand held a very strong True Qi, but when he grabbed it, the stone suddenly exploded and Chen Xiang appeared before him.

## Chapter 475 The Heaven-Earth Fire

The old man from the Holy Light Sect was extremely horrified. He couldn't believe what he had just saw, that Chen Xiang could even turn into a rock and silently move close to him! He should have been killed by Chen Xiang if not equipped with a powerful magic weapon.

Thinking of that, the old man felt a chill on his back, as he almost died. Beside, he did not expect that Chen Xiang would return to seek revenge so quickly and in such an insidious way.

Although the old man was shocked, his reaction was prompt. He struck at Chen Xiang with a powerful palm, and the wind induced by the palm was like thunder. With a wave of tyrannical True Qi, his palm rushed towards Chen Xiang.

Chen Xiang hurriedly dodged and ducked it. The palm force attacked him suddenly. If he tried to block it, he would only suffer the impact from the strong wave of True Qi.

The old man stomped his foot and flew backwards. He shouted, "Siege him. We must kill him this time."

As soon as his voice fell, Chen Xiang laughed out loudly. Flames suddenly bursted out in bodies of the two dead middle-aged men. After the old man felt the heat, he hurriedly looked over and his expression changed greatly. He did not anticipate that Chen Xiang had already killed his two companions.

"Old dude, I'll sent you down to be with them very soon!" Chen Xiang raised his hand. With a green light appearing, the Azure Dragon Subduing Saber suddenly appeared in his hand.

The old man was enraged. He clenched his teeth tightly. He could not figure out how Chen Xiang had come to this place. Even though the whirlpool had just appeared, he couldn't arrive so soon and quietly killed his two fellows!

Of course, what shocked the old man the most was Chen Xiang's transformation technique. Thinking of that, he felt a surge of fear in his heart, and at the same time, a greedy thought appeared in his mind. If he could learn that ability, then he would be invincible in the future.

What he didn't know was that he had to cultivate in the divine path to learn this transformation technique!

The old man wanted to capture Chen Xiang alive and coerced him to teach the transformation divine technique, but he knew that it was hard to execute, since Chen Xiang's strength was not weak either, especially now that he had a powerful Azure Dragon Subduing Saber in his hand.

"Chen Xiang, it is nothing good for you to go against the Holy Light Sect..."

"Bullshit, I've already killed your Holy Light Cult people, and you wanted to kill me too! I'm telling you, that I am going to take this as the order of your headmaster. I don't just want to kill you. I'll take endless revenge on the Holy Light Sect forever! " Chen Xiang's voice was like the Azure Dragon Subduing Saber in his hand, emitting a vicious aura.

"You want to kill me? You're too naive! " The old man laughed out loud, with his laughter filled with ridicule. He believed that Chen Xiang could at most be at the same level as him, and it would not be easy for Chen Xiang to kill him.

Chen Xiang responded to him with actions. His feet sank into the ground, then cracks began to spread in all directions. He wanted to fuse the Heaven-Earth True Qi with the Heaven-Earth Fire together so that he could release even more powerful flames.

Although he possessed the Heaven-Earth Fire Flame, he had to use very thick and dense True Qi in order to unleash the power of this fire soul. Use of single property True Qi would have similar power than his original flames, or a little bit stronger at most.

He had the Yin Yang Divine Veins and cultivated the Five Elements Heaven-Earth True Qi simultaneously, while the Yin Yang Heaven-Earth Fire Soul allowed him to have the Heaven-Earth Fire the Fire. These two items were perfect for him!

The price of using the dragon power was very high, and it was consumed extremely fast. Chen Xiang now possessed the Heaven-Earth Fire, and his strength had increased greatly, so he had confidence to fight with the old man even without the dragon force.

The dragon force and Long Xuyi must be saved for the most critical moment to give the enemy the most deadly blow!

It was the first time for Chen Xiang to use the power of the Heaven-Earth True Qi to trigger force of flames. The flame was very different to Heaven-Earth True Qi, the later was shapeless and colorless, while the former was full of tyranny and destruction, with a strong energy inside it that even Chen Xiang could not describe.

The heaven and earth included everything, and the Heaven-Earth Fire could be released in various forms. It was not surprising that there were many different types of energy within it. Chen Xiang still had a long way to discover its magics. His body type was unprecedented.

The old man felt a surge of power that was even more violent than his bursting out of Chen Xiang's body, which made him to involuntarily take a few steps backwards.

Chen Xiang shouted out loud. The flame underneath his feet exploded and formed a giant circle, which ultimately constituted a diagram of the Tai Chi Yin Yang diagram. The Tai Chi diagram formed from the flame suddenly spun, without countless dancing lights appearing in the flames!

The old man was stunned, "Is that the power of the Tai Chi Dragon Subduing Art?"

The scalding hot steam caused the old man to sweat profusely. The tyrannical lightning on the flame reflected in his gaze and made him feeling a bit of fear.

"Is that the Heaven-Earth Fire?" Chen Xiang fiercely grasped the hilt of his blade. The Thunder Fire Tai Chi Diagram beneath his feet suddenly began to move and gather beneath his feet, then infilled into his body and exploded out from his right side. The Azure Dragon Subduing Saber in his right hand was instantly covered by the tyrannical thunder and fire energy, as if he was wearing a formidable armor!

Looking at Chen Xiang, whose right half was burning with thunder and fire, the old man actually opened his vision. He clearly knew how strong the thunder fire on Chen Xiang's right side was, and he took out a long sword. Although this sword was also a treasure weapon, it was insignificant in front of Chen Xiang's mighty and domineering blade.

Chen Xiang stomped his feet and used the power that erupted from his feet to charge towards the old man. The ground that he passed by would have a burn mark on it, just like a furious dragon that was burning with fire suddenly rushed through.

In the blink of an eye, Chen Xiang arrived in front of the old man who was hiding in the distance. At the same time, he waved his saber and chopped down, with a remnant of thunder and fire remained in the air showing that Chen Xiang's slash was such fast that it could left the shadow.

The old man was not a easy folk as well. Although his reaction was a bit slower, he still managed to raise the sword in his hand and cross it. The sword's body also emitted a very violent thunder True Qi and enveloped the sword.

Chen Xiang thought that his violent slash could cut off that seemingly supple longsword, but his saber would not even be able to touch that blade but being blocked by a very thick layer of thunder True Qi.

The Azure Dragon Subduing Saber was covered with raging thunder and fire True Qi, and the violent collision of that two violent waves of True Qi caused the island to shake violently. The air waves were like a tidal wave that rushed toward all directions.

"That's all you have." The old man sneered and shook his longsword. He let out a sigh of relief in his heart, but at this moment, the flames on Chen Xiang's body became even wilder. The flames that were frantically jumping up and down filled the island with an oppressive scorching heat.

The flames of Chen Xiang's rage burned even more intensely, and his Heaven-Earth Fire became more powerful. The Azure Dragon Subduing Saber in his hand was curled up by a red flame. The saber body shook slightly and discharged noisy sound, just like waves of low and furious dragon roar!

#### Chapter 476 An Arrogant Provocation

The burning fury of Chen Xiang turned into a tyrannical force that activated all the strength in his body due to the rage. The old man could not allow Chen Xiang's strength to continue growing. As he shook his longsword, a wave of True Qi leapt up from the sword. Then the old man made a step forward, just like a ray of light flashing through the sky. His speed was extremely fast, and his sword was aimed at Chen Xiang, causing sonic booms to ring out in the air.

This strike was extremely fast. Even though Chen Xiang had seen it, he did not conduct any movement. Instead, he stuck out his chest and quickly circulated the thick True Qi within his body, forming a powerful Black Tortoise Luotian Cover.

At this time, the old man remembered that the last time the three of them stabbed at Chen Xiang, Chen Xiang had a very powerful set of armor on him. He was deeply regretting when he thought of that. However, he was stabbing toward Chen Xiang's chest in a very fast speed, and it was impossible for him to change location.

The old man's attack was not only fast, but fierce as well. It penetrated through Chen Xiang's Black Tortoise Luotian Cover and pierced right into his heart. However, when the tip of the sword touched Chen Xiang's clothes, it was difficult to enter even half of inch, and the tyrannical True Qi dispersing from the tip of sword was annihilated as it entered Chen Xiang's body by his Tai Chi Subduing Dragon Subduing Technique.

"Hmph!" Chen Xiang let out an angry snort. The fast blade in his hand flew out, dragging a long shadow of the blade as it explosively flashed with lightning fury. The blade was infused with the Heaven-Earth Fire.

At this moment, the old man was so close to Chen Xiang and he just conducted a fierce slash. Before he could even react, Chen Xiang's violent blade was already chopping down. He clenched his teeth and punched out with True Qi in order to block Chen Xiang's blade.

However, Chen Xiang's blade technique was extremely nimble. With a slight turn of the blade, he changed his direction promptly and escaped the incoming fist, while his blade cut down on the old man's shoulder and chopped off one of his arms.

The Furious Dragon Strike that Chen Xiang executed was extremely formidable. Moreover, it was a slash that gathered all of his rage power on the blade without leaving the enemy with chance of survival.

He chopped down the old man's arm, after which blood on the severed arm bursted out like a fountain, causing the True Qi flashed out of the old man's, which hunted a lot. Chen Xiang took advantage of the opportunity to jump up and kick at the old man's Dantian, with all the flame of fury.

As Chen Xiang kicked at the old man's abdomen, the thick True Qi gathered under Chen Xiang's feet immediately exploded with a loud explosion, causing the old man bursting out as he vomited blood.

Chen Xiang took back the Azure Dragon Subduing Saber and rushed to the old man who was flying backward. He grabbed the old man's wrist with one hand and pulled him back, then knocked away his longsword and quickly changed his palm to strike the old man. However, he could not let the old man die so fast. He wanted to leave the old man's body and let the Holy Light Sect see the consequences of going against him.

Chen Xiang's fist was covered by the Heaven-Earth Fire, which became even more berserk with the support of the vast True Qi. Every time a fist landed on the old man's body, it would explode with a dazzling firelight and a violent lightning strike. As the fist and palm stroke down one by one, waves of terrifying sound were generated and almost made one deaf.

"The Holy Light Sect? I am going to annihilate your cult sooner or later!"

The old man did not die, but his Dantian was already shattered. He was still conscious, but he continued to withstand Chen Xiang's berserk attacks. Waves of pain spread throughout his body, wave after wave, causing him painful that made him wish he were dead, while his heart was filled with fear and despair.

Suddenly, many huge auras came, some of them were very unfamiliar to Chen Xiang and were very strong as well. The strong martial artists who had been waiting there for many days finally came down.

A group of people quickly rushed down from the gap. They were all headmasters of the various big sects and numbered over a hundred. The moment they arrived, it could be felt a scorching force filled with annihilation and anger rushing, and they quickly caught a sight of Chen Xiang's figure!

A terrifying flame was burning on the right side of Chen Xiang's body. He was using an extremely violent fist and palm to beat up an old man with a broken arm who was covered in blood.

“This is the price for trying to kill me.” When Chen Xiang felt that group of experts descending, he let out an explosive roar, while a flickering white light suddenly appeared within the flames on his fist, and the land trembled violently. This was the sign of him using the dragon force!

Chen Xiang no longer held back. Using all his strength, he filled his fist with dragon force and punched towards the old man’s head! After that, a bloody scene appeared in everyone’s eyes. The old man’s head exploded like a watermelon after being hit by Chen Xiang’s berserk punch.

Chen Xiang’s entire body was filled with killing intent. Flames were blazing, while his methods were brutal. His berserk side caused the Nirvana Realm martial artists to feel a slight of fear, because such a man would be extremely terrifying once he became strong!

The headmaster of the Holy Light Sect, Qin Zejun, had also come over, while Gu Dongchen was ahead of him and block him to protect Chen Xiang!

“Gu Dongchen ...Get out of me, I must kill Chen Xiang today!” Qin Zejun’s face warped. His eyes were filled with killing intent as he glared at Chen Xiang.

Other powerful headmasters like Wang Quan and Xiao Ziliang were all watching with interest. They were enraged by Chen Xiang before but were unable to make a move. Most of Nirvana Realm martial artists were all astonished since it was Chen Xiang who made all of those matters and even came ahead of them.

As Chen Xiang saw Gu Dongchen arriving, the flames of anger on his body were still burning. He kicked the old man’s body under his feet up and kicked the mud-like old body towards Qin Zejun, so that the bloody corpse could dirty Qin Zejun’s golden robe!

Everyone could not help but frown and exclaim in their minds as they saw such a scene.

Arrogant! Chen Xiang was just a young man, and his strength was merely as the Extreme Realm, but he was so arrogant to provoke the domineering Qin Zejun of the East Sea. This was simply a suicidal action.

Chen Xiang’s body trembled slightly. The intense killing intent dispersed from his body immediately rushed to the bottom of the seabed island, which made Liu Menger to tighten her frown. Chen Xiang was blatantly provoking Qin Zejun and did not consider him significantly at all.

Qin Zejun’s entire body was trembling. The veins on his fists and face were incomparably ferocious. The muscles on his face twitched crazily as he looked at Chen Xiang with incomparable rage.

Gu Dongchen cursed Chen Xiang in his heart. Chen Xiang continued to provoke Qin Zejun, and everyone would know clearly that Chen Xiang was not afraid because of his presence!

“I came here two months ago. However, I was severely injured by the three guys lying in ambush and was almost killed by them! After I escaped, I spread the news of this Profound Realm out and waiting for taking the revenge after I recovered from my injuries.” Chen Xiang coldly said.

This message was spread out by Chen Xiang, which triggered the rage of Xiang Ziliang. He had already thought of this long ago, but the other headmasters all thanked Chen Xiang one after another. The news of them rising prosperously from the Carefree Immortal Sea in such a short period of time indicated that there must be plenty of resources in the Profound Realm, while this Profound Realm was not completely

under the control of the Carefree Immortal Sea, so it could not take possession of it entirely, and everyone had the right to enter the realm.

As Xiao Ziliang and Qin Zejun thought that the Profound Realm was going to be divided among more than a hundred forces, they were furious. As the angry Xiao Ziliang walked behind Qin Zejun, everyone knew that he had already teamed up with the Holy Light Sect.

#### Chapter 477 Combat

As Gu Dongchen saw Xiao Ziliang and Qin Zejun standing together, he sneered, "You two want to come together? I'm not afraid of you! Although I don't wish to initiate any internal conflicts before the Great War of the Three Realms, if there is any potential threat against our Extreme Martial Sect, I will not hesitate to kill it to prevent it from being ambushed by these guys when the Three Realms War approaches!"

Xiao Ziliang had only passed the seven Nirvana Tribulations, hence Gu Dongchen could defeat him easily. Although Qin Zejun also passed the eight Nirvana Tribulations, he could only reach a standstill if combating with Gu Dongchen to a standstill.

At that time, Qin Zejun was the sole ruler of the East Sea. Now, there were many great Nirvana Realm practitioners from the East Sea. If a conflict really occurred, then there would definitely be a tsunami, and the entire Carefree Islands would eventually be drown.

Lian Yingxiao smiled as he played with the fan in his hand. He looked at Liu Menger and asked: "Aren't you going to help?"

Seeing the expression in Lian Yingxiao's eyes, Liu Menger was secretly shocked. She felt that Lian Yingxiao had seen through the relationship between her and Chen Xiang, but she coldly said: "If this brat's master becomes crazy, the entire East Sea will be stirred up. He doesn't need my help!"

Liu Menger purposely raised her voice so that Qin Zejun and Xiao Ziliang could hear! Huang Jintian's strength was unfathomable. Although there were many martial artists that had passed through the eight Nirvana Tribulations, the status of Huang Jintian still hadn't dropped. At present, Huang Jintian could be called the strongest martial artist in the Mortal Martial world!

Superficially, Huang Jintian was imprisoned in the forbidden area, but he could come out if necessary!

"It's still the same word. Your people can kill Chen Xiang and he can also kill your people. It is a grudge between them, while we should not interfere! What's more, your strength is so much stronger than that of Chen Xiang. Don't you feel ashamed to fight him all together? There are rules in the Mortal Martial Realm!" Gu Dongchen claimed that he was not afraid of fighting with two more martial artists by himself alone. He became the headmaster of the Extreme Martial Sect, and his master was a figure ascending into the sky. His strength was naturally not simple, and even Chen Xiang had never seen Gu Dongchen using his strongest strength.

Chen Xiang glanced at the strong practitioners not far away and saw several people wearing a kind of fiery-red soft armor. They were very eye-catching and looked as if their clothes were emitting a red glow.

While those people were watching indifferently, as if they didn't care about what happened at all.

"What a nostalgic costume! I didn't expect that the people from the Fire God Shrine still wore such idiotic clothes." Su Meiyao's sigh was filled with vicissitudes of life. It could be known that she and Bai Youyou were both antique level characters.

The Fire God Shrine had arrived at the Mortal Martial World! The speculation of Chen Xiang and his folks were basically the truth, but what would the Fire God Shrine do in the Mortal Martial World?

At this moment, a middle-aged man from Fire God Shrine said indifferently, "The old generation should not interfere with the grudges between juniors!"

Hearing the Fire God Shrine man's words, Qin Zejun and Xiao Ziliang immediately retreated, which made Chen Xiang extremely astonished. He could tell that the Fire God Shrine's people held a lot of weight in the eyes of these powerful men.

Chen Xiang suddenly thought of the reason why the Fire God Shrine came here. Was it because they wanted to rule the entire Mortal Martial World? If that was the case, then once the Fire God Shrine expanded, all the people in the Mortal Martial World would have to do as they said, and they could do whatever they wanted.

This was a force that specialized in stealing other people's Fire Souls. Chen Xiang didn't have any good feelings towards the Fire God Shrine!

"Is that Chen Xiang, the strongest young man in the Mortal Martial Realm?" A handsome young man with delicate features from the Fire God Shrine walked towards Chen Xiang.

"That's right, what can I do for you?" When Chen Xiang saw the young man's arrogant attitude, he secretly felt displeased.

"Just as the Hall Master said, that this is a matter between juniors. Now, I want to avenge for these two seniors!" The young man from the Fire God Shrine said indifferently.

Chen Xiang could tell that all of those strong practitioners had interacted with the Fire God Shrine before, and the Fire God Shrine must have displayed their strength to them and made these practitioners fear them. At this moment, the surrounding practitioners were secretly happy as they saw the young man from the Fire God Shrine calming to challenge Chen Xiang.

The door to the Profound realm had not opened yet, so there was nothing wrong with watching the younger generation fighting. Moreover, it was a showdown between Chen Xiang and the Fire God Shrine.

"How come do you think you deserve to challenge me? Do I know you? What's your relationship with the three dead men? They wanted to kill me first, so it's right for me to seek them out for revenge." Chen Xiang's tone was filled with disdain. The posturing of this young man from the Fire God Shrine was something he extremely disliked.

The middle-aged "Hall Master" of Fire God Shrine frowned slightly. However, he did not consider it serious as he thought that Chen Xiang didn't know the Fire God Shrine's strength. It was normal for the young man to be arrogant, especially the person who was ranked the first in the entire Mortal Martial World.

However, those who knew Chen Xiang well knew that he was definitely not an arrogant person. Moreover, he was indeed very strong, and people who shew arrogance in front of him usually suffer losses.

Chen Xiang didn't want to fight anymore because he had the Heaven-Earth Fire Soul. It would be troublesome if the Fire God Shrine found out.

"Humph, it seems that you are just so-so. I have traveled with the Hall Master dozens of worlds, including many worlds that are stronger than the Mortal Martial World. In those worlds, the so called strongest young martial artist has just gotten a tough mouth. All of them were defeated by me in the end." The young man from the Fire God Shrine sneered.

When they heard the young man mentioning the he had travelled in dozens of worlds, those strong Nirvana Realm practitioners were moved again. They had only traveled in a few dozen of "continents", at most, but this young man traveled in dozens of "world" !

"Oh!" Chen Xiang responded with indifference. He did not take the words seriously. He already had a Luotian Door, so he could take the revenge later if he had the power, let alone the young man of the Fire God Shrine got an entire Fire God Shrine behind him. It was not his strength, but just good luck.

When the young man saw the envious gazes of those experts, he was elated. However, Chen Xiang's indifferent reaction made him feel annoyed.

Chen Xiang did not pretend to show that. He simply didn't take it seriously.

"It seems that your esteemed is already the number one martial artist in the world. I really don't dare to compete with you in case my life would be taken! I don't think anyone in this world will be able to defeat you. It is better for you to ascend to the Heavenly Realm as soon as possible." Chen Xiang sarcastically said.

Chen Xiang intended to tell him that those who could not ascend into the sky had nothing to brag about. This also caused some of the strong practitioners to be extremely embarrassed, because many of them were suppressing their cultivation and did not dare to rise in order to avoid the Nirvana Tribulation.

Even though it was said that to live maliciously was better than die with nobleness, living a life that was sometimes too stifled was not a good thing either!

"Chen Xiang, it seems like you're nothing more than a despicable and shameless villain. It seems to me that you must have used some extremely vicious and sinister tactics to win those martial art contests!" The young man said in a loud voice and he was slightly angry.

Chen Xiang frowned and his eyes flashed with killing intent. He looked at the youth and said, "Fuck you!"

His fist was as fast as lightning, wrapped in a layer of white mist, and directly hit the young man's face. The youth who was caught off guard was instantly sent flying after being attacked by a fist full of dragon force. Blood and teeth gushed out of his mouth. Actually many teeth of him were shattered off by a single punch!

Who would dare to challenge the dragon force?

Chapter 478 The Rival of Flame

Chen Xiang's sudden punch stunned everyone. The several middle-aged men from Fire God Shrine frowned and shew a slightly angry expression. The youth that was sent flying by Chen Xiang was even more furious.

"Now do you see, I am indeed a despicable and shameless person!" Chen Xiang took out a piece of cloth and wiped his fist. He then threw the cloth on the ground and spat, "Right now, we two have a deep grudge. If you challenge me, I will accept it."

The middle-aged men of Fire God Shrine were all furious. They wanted to slap Chen Xiang to death, but they had said earlier that this was a matter for the younger generation and they elders should not take any action. If they did, then they would have to eat their words.

This scene made Gu Dongchen and the others secretly laugh. The people of the Fire God Shrine could be said to be throwing stones at their feet, while Qin Zejun and Xiao Ziliang both hoped that Chen Xiang would beat up the youth from the Fire God Shrine. This way, the Fire God Shrine would hate Chen Xiang, and they could attract Chen Xiang to their side as they had the same enemy.

Chen Xiang's punch was really heavy. He condensed the dragon force onto his fist and gave a violent punch with extremely fast speed!

The young man's fair face swelled up from Chen Xiang's blows. After he fell on the ground, he jumped up and roared at Chen Xiang, "Chen Xiang, I want to fight you to the death!"

"Isn't it merely a life and death battle? Come on!" Chen Xiang said with indifference. He has seen too many young and arrogant men like the young man. Moreover, he always made such individuals to suffer before, and some of them were even been killed by him.

"My name is Tie Langhao, you better remember this, in case when you meet the King of Hell ..."

"Isn't it just a battle of life and death? Why are you talking so much?" Chen Xiang impatiently interrupted him and said "It's useless even if you tell me your name. The person I killed will soon be forgotten by me. Those who died in my hands do not deserve me to remember their names!"

Tie Langhao originally thought he was arrogant enough, but Chen Xiang was even more arrogant than he was. This made him even more furious. He clenched his fists tightly as he saw the few white teeth in the pool of blood on the ground, and hatred were filled in his mind.

This was the first time someone that his teeth got knocked out. Although he hadn't gotten any serious injuries, his image as a beautiful man was completely destroyed, that was something that Tie Langhao could not bear!

"Chen Xiang!" "I will always remember you!" Tie Langhao roared and slowly walked towards Chen Xiang. With every step he took, a wave of scorching True Qi condensed under his feet, leaving numerous footprints dispersing hot gas on the ground.

Of course, men of Fire God Shrine used fire. At present, however, Chen Xiang had a Heaven-Earth Fire Soul that was even more powerful than the Heavenly Fire Soul, while martial artists who cultivated fire were no match for him!

Chen Xiang laughed, "You don't need to be polite. Actually, you should thank me for not knocking out your front teeth. Otherwise, you would have died in an even uglier manner!"

Such kind of rampant provocation made even Liu Menger slightly frown. Of course, she knew that Chen Xiang was purposely provoking Tie Langhao. However, this would arouse the hatred within Fire God Shrine. She absolutely knew how powerful the Fire God Shrine was!

"Go death!" Tie Langhao was truly enraged. His eyes were blazing with flame and blue veins extended on his forehead. He really wanted to skin Chen Xiang alive.

Along with explosive roar, Tie Langhao suddenly disappeared in front of Chen Xiang, then a crackling explosion promptly rang out. Chen Xiang only felt an extremely scorching wave of air behind him. With an extremely high speed, Tie Langhao quickly moved behind Chen Xiang and launched a fierce fist of fire.

Chen Xiang condensed his True Qi into his legs and surged it to the bottom of his feet. As the ground trembled, his feet sink into the ground and he stood firmly on the spot. In the meanwhile, a huge flaming fist suddenly appeared and struck towards Chen Xiang's back!

"Hmph!" Chen Xiang did not dodge but only grunted. He did not do anything to block the attack. Actually, he used his body to take the fierce fist of fire.

The fist of fire berserkly hit Chen Xiang's back, causing a violent explosion. The flame bursted out and generated a huge mushroom-shaped flame that enveloped Chen Xiang inside. Just as Tie Langhao successfully punched Chen Xiang, he hurriedly leaped into the distance and looked at Chen Xiang with a sneer on his face.

The flames burned crazily, while the scorching heat enveloped the entire seabed island. Still, Chen Xiang's aura completely disappeared. Those middle-aged men from Fire God Shrine were very satisfied with Tie Langhao's attack when they saw the astonished expressions on those practitioners' faces.

"What a strong flame, just how many fire divine veins are required to do it?" An old man exclaimed.

"Don't tell me there are two divine veins?" Another middle-aged man said.

"..."

The speed and flame performed by Tie Langhao appealed to waves of praise from those strong practitioners, because Tie Langhao was also a young martial artist who had just entered the Spiritual Martial Realm, and he was indeed very powerful as he could make such action.

Liu Menger said in a low voice, "he must have a Fire Soul to generate such kind of flame!"

She was the only female here, and her beautiful voice was also extremely pleasing to the ears. Very quickly, it reached the ears of many people, and when they heard that it was the legendary flames, the crowd was even more astonished.

"No wondering that you are an expert of fire usage. Good insight!" A middle-aged man from the Fire Temple Shrine praised. He was looking at Liu Menger with fiery lights. A woman like Liu Menger was the target of many strong practitioners to pursue. However, everyone knew it clearly that Liu Menger's strength was unfathomable!

“Don’t celebrate too early!” Liu Menger coldly said.

After the flames that enveloped space dispersed, everyone saw the disheveled Chen Xiang standing there. Chen Xiang’s upper body was somewhat charred, but he looked more charming with his strong and perfect muscles.

Chen Xiang lightly sighed, “It’s nothing much!”

With his eighteenth stage Immortal Demon Body and the Heaven-Earth Fire Soul in it, he would be unobstructed even in the Earth’s Core, let alone the flames released by a mere human. It was only tickling him!

Now, everyone understood why they couldn’t sense Chen Xiang’s aura. It was because Chen Xiang didn’t use his True Qi to block the flame. What did this mean? This meant that Chen Xiang could withstand the flames that Tie Langhao was proud of just with his flesh body!

Liu Menger and Gu Dongchen, who were very familiar with Chen Xiang, were also extremely surprised. They knew that Chen Xiang’s flesh body had reached another level. They were only curious as to how Chen Xiang cultivated his physical body.

Liu Menger immediately thought of the Black Turtle Body Strengthening Technique. She had seen the divine practice before and knew that it could strengthen a person’s body in a short period of time. However, the process was very painful that an ordinary person could not endure!

Liu Menger had once used molten iron to refine Chen Xiang’s body. When she thought of this, her heart throbbed with pain, because she knew that Chen Xiang must have gone through an inhumane torture to possess such a powerful body!

Those middle-aged men of Fire God Shrine all had stern expressions. Now they knew that Chen Xiang was not such arrogant for nothing. They had been to many worlds, but this was the first time they met a prodigy like Chen Xiang.

Tie Langhao’s brows were tightly knitted together as he clenched his fists closely. Chen Xiang had only used his flesh body to withstand his strong punch, which suggested that his attack didn’t have any effect on Chen Xiang at all!

However, Chen Xiang’s attack was able to knock out his teeth.

#### Chapter 479 Falling Out

Tie Langhao did not give in. He quickly moved and arrived in front of Chen Xiang, then threw another punch at him. An extremely huge fire fist, just like volcano eruption, suddenly exploded out and landed on Chen Xiang’s body.

With a rumbling sound, Chen Xiang was once again enveloped by a huge ball of intense flames.

Tie Langhao had used more than half of his True Qi to make that punch. He was very satisfied with his punch, especially when he felt the hot True Qi that made him feel proud, which made he knowing how powerful his punch was!

If Tie Langhao had used True Qi with thunder or other types of attributes to attack Chen Xiang, Chen Xiang would not have been able to withstand it so easily. However, flames were the least feared by Chen Xiang. Since he had the formidable Heaven-Earth Fire Soul, any flame could not hurt him no matter how powerful the flame was. The most powerful flames in all the worlds was at the Earth's Core.

Chen Xiang could move around in the Earth's Core without the Black Tortoise Armament Armor, not to mention the flame in front of him.

Even the flames released by a Nirvana Realm martial practitioner couldn't hurt him. Of course, if someone's skill was powerful enough to for him or her to turn fire attribute True Qi into another kind of powerful force, it would still be a threat to him.

Chen Xiang walked out of the blazing fire with a cool sneer on his face and his fists clenched.

Tie Langhao instantly felt a new fear as he saw Chen Xiang walking out unscathed. His such a powerful attack was unable to hurt him. He suspected that Chen Xiang might have entered the second stage of the Extreme Realm, the Soul Martial Realm!

"It's my turn!" Chen Xiang laughed loudly. His figure was like the wind as he flew over. His fist that was filled with dragon force turned into a huge white tiger head, emitting a fierce killing intent.

As Chen Xiang flew over, he ferociously smashed his fists like a light dancing in the air. An overwhelming killing intent enveloped Tie Langhao.

Tie Langhao's speed and reaction were both very fast. However, the moment he jumped up, he was dragged down by the water vines that Chen Xiang released. After he landed on the ground, Chen Xiang's violent fist punched on his body like countless raindrops that eroded his flesh and took out his vitality.

In Just a few breaths of time, Tie Langhao's face turned into deathly pale. As he let out mournful howls, his bones exploded inch by inch. His Dantian had been destroyed by the violent dragon force. Right now, Chen Xiang was using his dragon force to punch Tie Langhao on his head, abdomen, and chest, and all his internal organs had been shattered, while his tissues and muscles were serenely injured and his vitality was corroded by the rich killing intent.

"Stop!" The Hall Master of the Fire God Shrine could no longer bear watching any longer. With a loud roar, he waved his sleeves and released a violent force that flew towards Chen Xiang! His sudden attack was unexpected, while Gu Dongchen had already flew over to block it, but the Hall Master moved too quickly. The invisible energy that he released was like a blade that spiraled and slashed towards Chen Xiang's neck.

Seeing the Hall Master's tactics was so viciously, Chen Xiang was infuriated. With a tyrannical roar, the white dragon on his left arm exploded with white light. He threw a punch towards the incoming powerful force. The fist howled like a dragon as it smashed towards the incoming force.

A loud explosion rang out as blood shot out from Chen Xiang's mouth. The ground cracked and a formless energy swept in all directions. The surrounding rocks were all crushed into dust by the powerful energy.

Chen Xiang was actually able to block the Hall Master's attack. The Hall Master was slightly startled as he leaped up and flew over. However, Gu Dongchen suddenly appeared in front of the his way.

This time, Chen Xiang's arm that was covered in white dragon tattoo exploded again. Long Xueyi converted her strength into dragon force and continuously infused it into Chen Xiang's arm. She was lending her power to Chen Xiang!

Right now, Long Xueyi was using an extremely pure dragon force, while she was attaching to Chen Xiang's body. This power made Chen Xiang feel as if it was his, and when he felt the dragon force that Long Xueyi had lent him, the blood in his body started to boil. He stamped on his feet and jumped to Tie Langhao who had fell on the ground like mud.

"Go death!" Chen Xiang let out a furious roar like an angry dragon. His left arm was more like being possessed by a white dragon, and on the top of his fist was a stern and angry dragon head.

"Stop!" The men from Fire God Shrine shouted out loud simultaneously, but no matter how fast they were, they couldn't stop him. Chen Xiang's fist had already punched on Tie Langhao's head, smashing it into pieces. While the furious wind of fist squeezed Tie Langhao's body into jam.

Dead!

Tie Langhao was dead! The young man who was brought along by the Fire God Shrine and had a Fire Soul in his body must be nurtured by the Fire God Shrine with priority, but he was now being beaten into a meat patty by Chen Xiang!

The surrounding experts couldn't help but shiver. They felt that Chen Xiang was even crazier than Huang Jintian. He was actually so reckless.

As matters stood, Gu Dongchen could only help Chen Xiang to clean up the mess. Although the Fire God Shrine was very strong, he was only cautious and never afraid of them.

Liu Menger had been ready. She never anticipated that Chen Xiang would conduct such fierce actions as he knew that the opponent was the Fire God Shrine. Although she blamed Chen Xiang in her mind, she was secretly happy. Even though Chen Xiang's performance was insane, she admired him very much. Moreover, the Hall Master of Fire God Shrine also took a heavy attack against Chen Xiang earlier. If he was unable to block that Hall Master's attack, he might have been seriously injured by now!

All of the strong practitioners were stunned by Chen Xiang's strength once again!

"What the hell is this Fire God Shrine?" Just a moment ago, you said that you don't want to interfere in the matters of the younger generation, but why did you attack me? You are a prestigious Nirvana Realm martial artist, but you took such a heavy hand on me, who is merely at the Spiritual Martial Realm. You guys will only be a laughingstock for people all around the world!" Chen Xiang coldly said. Nevertheless, he wouldn't have been able to block that attack if Long Xueyi did not lend him the dragon force.

Gu Dongchen's face fell down, "Hall Master of the Fire God Shrine, don't go too far! All of you just heard that it was a life and death battle and they both volunteered for it. You were so harsh on my junior master. You simply didn't put our Extreme Martial Sect in your eyes! As for the alliance that you mentioned earlier, we, the Extreme Martial Sect, will not participate! We will never ally with guys like you!"

Only the Extreme Martial Sect would dare to say such words to the Fire God Shrine! Judging from Gu Dongchen's posture, he was prepared to go all out with the Fire God Shrine!

Many of the heavyweights knew that if they were to ally with the Fire God Shrine, they would be bound by the Fire God Shrine, which would make them feel very sullen. Right now, they got the lead of the Extreme Martial Sect to resist it, while Liu Menger from the Divine Martial Palace also immediately said, "That's right, we Divine Martial Palace will also not ally with a sect that eat its words."

The Hall Master of the Fire God Shrine was furious. Now, he finally felt Qin Zejun's anger. He said sinisterly, "Aren't you afraid of the Fire God Shrine?"

Lian Yingxiao waved his fan and smiled, "No, we really aren't afraid of that. If you got the guts, then come. How about you call the Fire God Shrine from all over the world to contest with us?"

#### Chapter 480 The Profound Realm Opened

Lan Shan felt that it was a very enjoyable show, but since Chen Xiang did him a favor before and he had a good relationship with Gu Dongchen, he also came to mediate the situation, "this is only a matter for the younger generation. It's not good for senior generations to make a huge ruckus due to matters of younger generation. Hall Master of Fire God Shrine, didn't you just say that?"

Wang Quan, Xiao Ziliang, and Qin Zeyun were all eager for them to fight to the death, especially Qin Zejun from the Holy Light Sect. His Sect had conquered the East Sea, while Chenwu Continent was the only land they had not conquered. Now there came a formidable Fire God Shrine that wished to rule the entire Mortal Martial Realm. It would be advantageous for him if they started fighting.

No matter what, Liu Menger always supported Chen Xiang, since Chen Xiang was her love.

As the Hall Master of the Fire God Shrine looked at the rotten flesh that was stuck together with the mud, he shouted out a furious roar and released a ball of fire that burnt Tie Langhao's body to ashes.

A young man with a Fire Soul died just like that. This caused many strong practitioners to feel pity!

All the magnets of the Mortal Martial Realm had their own forces. In their territory, they were the emperors. But now the Fire God Shrine suddenly appeared and asked them to follow its order. They would not like to do it at all, and they would definitely join the resistance if someone came to lead. The more people there were, the stronger the force.

The Hall Master of the Fire God Shrine felt secret hatred. He furiously glared at Chen Xiang, then returned to those middle-aged men of Fire God Shrine. They knew exactly what the magnets of the Mortal Martial Realm were thinking at this moment. If they pushed too hard, Gu Dongchen might initiate a resistance, while other magnets would definitely join him. If that happened, the folks of Fire God Shrine would be wiped out right there.

Now that the Great War of the Three Realms was about to begin, it was impossible to summon the Fire God Shrine in other worlds. Those Fire God Shrines in other world had successfully deployed their forces. They were all controlling huge amounts of resources, and it would be a tremendous loss if they retreat out of those places.

Chen Xiang took out a piece of clothes and put it on. He wiped his face and said, "Back then, my master was so powerful that he didn't even think of exaggerating the power of the Extreme Martial Sect to all the continents. He definitely has the power to do it. Right now, a foreign Fire God Shrine that has made

no contribution to the entire Mortal Martial Realm wants to take over all the resources here. It is just a dream!”

What Chen Xiang said was what those magnets were thinking. All continents in the Mortal Martial Realm had developed so well, why should they give it away to others?

“If anyone wants to do this, we, the Extreme Martial Sect, will fight them at all costs!” Gu Dongchen said loudly. At the same time, he looked towards Qin Zejun, whose Holy Light Sect had ruled the entire East Sea. He decided to annihilate such a risk before he ascended to the heaven.

The Hall Master of Fire God Shrine snorted coldly, “We only want to help you fight against the fiendish demons and make you come together!”

Liu Menger sneered: “we have already united, so we do not need your help. Moreover, you only have a few thousand apprentices. Are you really willing to use them? It seems to me that you want to take over the entire world as we are heavily injured in the Great War of the Three Realms!”

“It seems like the you guys from the Fire God Shrine is really dangerous. We can’t sleep after all this trouble.” Lian Yingxiao said with a smile.

The people of the Fire God Shrine were expressionless because Liu Menger and Ying Xiao were right. They had never thought that the people of the Mortal Martial World would be so united.

The reason they were so united now was mostly because of Huang Jintian. Huang Jintian was still here, and he would definitely come out if the Mortal Martial World was in an extreme chaos!

Huang Jintian traveled everywhere in the past and challenged those magnets everywhere. He had never lost, so those magnets were all very afraid of him.

At present, even though the people of the Fire God Shrine were receiving disgusting looks, they still stayed here. They knew and they were waiting for the White Tiger’s Profound Realm to open. Since they were already here, they must go in and take a look!

Chen Xiang stood beside Gu Dongchen and quietly waited with the crowd. The whirlpool also devoured the violent and tyrannical Spirit Qi, which would disappear into thin air after being absorbed in.

Soon, everyone felt that the space was moving abnormally. A place in the island was slowly splitting up, and a huge crack appeared. Endless death energy and fearful killing intent gushed out from it, causing all the people to feel extreme fear with their backs turning cold.

The White Tiger was the God of Slaughter. After millions of years of killing, it had accumulated an extremely terrifying killing intent. While the environment in the White Tiger Profound Realm was clearly built according to the White Tiger Divine Beast.

Chen Xiang couldn’t help but wonder, did someone build this White Tiger Profound Realm?

“Qin Zejun, have you guys entered it yet?” Lan Shan asked. He was worried that there might be some powerful guys inside as he felt such an intense killing intent.

"Not really. We only sent people to guard this place and wait for a proper time to go in and investigate. We sent more than ten people in to investigate, and only one came out, and that one was even a Hundred Cultivation Realm!" Qin Zejun said.

At this time, Xiao Ziliang also said, "I feel that even we old fellows could not cope with the danger concealed within it. Nevertheless, since we have so many people here, let's go in and check it up."

Lian Yingxiao asked, "Didn't you just say that one person came out alive? Did he say anything about what was going on inside? "

"The one who came out alive has gone crazy, and he lost all his cultivation." Qin Zejun let out a heavy sigh.

Gu Dongchen looked at Chen Xiang and said, "junior master, you better not go in. If anything happens to you, your master, this old lunatic, will definitely kill me!"

Chen Xiang curled his lips and said, "I am the one who released the news so you could come here. I'm not afraid of anything inside!"

Liu Menger was not worried as well. She knew that Chen Xiang was destined to be the master of the Four Symbols Divine Weapon. Even though one of these Divine Weapons belonged to her right now, that was only because the Divine Weapon had followed her for many years that it recognized her place, and it did not entirely fuse with her until Chen Xiang gave a hand.

Remembering how she fused with the Vermillion Bird String, Liu Menger couldn't help but to grunt in her heart.

"Let's go!" Lan Shan said. He was a Nirvana Realm martial artist, so he wasn't afraid by nature.

Gu Dongchen had no choice but to have Chen Xiang follow closely behind him and followed the group towards the crack.

"Little bustard, were you attacked by the people who were lying in ambush here?" Liu Menger used her Spiritual Sense to inquire. Although she knew that Chen Xiang was fine right now, she still blamed herself, since she promised come with Chen Xiang together.

"Yeah, but I still managed to escape and hide in a place to recuperate. I'm fine now!" Chen Xiang replied.

"Is it all right that you call so many people over? What if the White Tiger Divine Weapon is taken away? " Liu Menger was worried.

"Don't worry. That White Tiger Divine Weapon is definitely mine." Chen Xiang was extremely confident.

The interior of the White Tiger Profound Realm was very beautiful. There were mountains, waters, birdsong, and the fragrance of flowers. It was full of vitality, but an invisible aura of killing intent and death shrouded the skies.

Now that Chen Xiang encountered a problem, he had no idea where the White Tiger Divine Weapon was located! ~
