Chapter 0071: New Road

"What is inside the inheritance bead?" Su Meiyao seeing Chen Xiang so happy, quickly asked.

"Hei hei, it is Refiners scroll, and it also contains some refiner's experience!" Chen Xiang laughed. The demand for refiners was much more than the demand for an alchemists, and low level refiners could be found everywhere, but there were only few Grand Refiners, who were capable of refining formidable equipments. These people were like alchemists in reputation.

But after Chen Xiang saw that Refiners scroll, he was suddenly very confident that it would allow him to become a formidable refiner. Of course though, he would still have to put more practice into it than alchemy.

Su Meiyao took the inheritance bead and after taking a glance, on her face emerge out a charming smile: "This is a really good thing. There actually is a tutorial for refining brilliant grade weapons. Moreover there are many schematics, so you better try to have a good grasp of it."

"Of course." Chen Xiang said with a smile, "What is painted on the beast skin?"

"It is a map." said Su Meiyao, and at the same time she handed over the inheritance bead to Bai Youyou letting Bai Youyou take a look at it.

"What map?" Chen Xiang quickly asked.

"A map leading to a herbal garden, but to open this herbal garden you need a key, and method to refine this key is inside the inheritance bead." Su Meiyao said.

Chen Xiang quickly went through all the information that entered his mind inside just a moment ago, and soon found the refining method for the key. The materials required were very easy to find, but the difficult part was engraving the complex Spirit Veins on the key.

"The key is in my hand, it fell off while opening the map." Bai Youyou spread her white palm, only to see a small key with the size of a finger, while being covered in golden patterns. Those Spirit Veins were producing bizarre power, and these patterns were created only after numerous years of research by countless refiners.

All equipments must have Spirit Veins on them, otherwise it would be just an ordinary grade equipment. Chen Xiang's Brilliant Flame Dragon Furnace had many complex Spirit Veins inside and outside of it, and this was the reason which allowed the Brilliant Flame Dragon Furnace to have that bizarre power.

The majority of Spirit Veins are only passed down, and as long as the Spirit Veins are precisely carved upon the equipments during its refinement, then it can be considered successful. This is not that difficult and that's also why there are many refiners.

"This thing looks like it is many years old, and if the garden is still there, then maybe there will be a lot of mature spirit herbs." Su Meiyao laughed.

Chen Xiang nods his head and asked, "This herbal garden is where?"

"It's on the way to the Extreme Martial Sect, so it seems you have to leave early for the Extreme Martial Sect. If this herbal garden has a lot of spirit herbs, then you should be able to enter the 9th level of the Mortal Martial Realm." said Su Meiyao.

Finally going to Extreme Martial Sect!

Chen Xiang was slightly excited: "I'll go back now and settle everything, and bid farewell to my father."

After returning to the Chen family, Chen Xiang first went to Chen Tianhu, and seeing Chen Xiang returned safely and in one piece, Chen Tianhu let loose a big breath.

"Good, you were able to come back." said Chen Tianhu with face full of affection.

"Dad, your complexion has recovered a lot, this is a detoxication dan, after you take it, it'll allow you to recover quickly." Chen Xiang said with a smile and then threw a bottle to Chen Tianhu. This dan bottle he obtained from Jiu Duzi could detoxify a majority of the poisons.

Chen Tianhu did not ask how Chen Xiang dealt with the Jiudu Gang, as he knew that if Chen Xiang could bring back the antidote then the Jiudu Gang was no more. He clearly knew Chen Xiang's style of doing things.

"Dad, it's about time for me to depart." and although Chen Xiang said this with a face full of smiles, but in his heart he was very sad.

Chen Tianhu slightly sighed, and then said with a smile, "Yes, you ought to go because there you'll be able to fully realize your potential, and by allowing our Chen family to have a foothold in the King city, you've already contributed too much to the family."

"Dad, I'm leaving!" Chen Xiang stood up, walk towards Chen Tianhu and hugged him.

"En, you've grown up, I'm very relieved! Take care!" Chen Tianhu was completely sad. While he patted Chen Xiang's back, he knew that after Chen Xiang left to go to those Martial Arts sects, it was possible that he would only come back after many years.

Chen Xiang gave Chen Tianhu some Mortal Level High Grade dans, then left the Chen family, and rushed straight to the Dan King Hall, after which he bid farewell to Chen Luzhong and Meng Bo, embarking on his way to the Extreme Martial Sect.

While parting Chen Xiang felt a little melancholic, but he was also very looking forward to again meeting them in the future, as he believed at that time he, his father and the whole Chen family would have earth shaking changes!

Chen Xiang from afar looked at King city, and looking at one of strongest city in the secular world where many strong experts reside, countless emotion surged in his heart, as although there were many experts inside the city, but compared with those Martial Arts Sect, it can be considered as nothing!

"Xianxian, here I come!" Looking at the distant mountain range stretching ten thousand Li Chen Xiang clenched his fist, and fiercely broke into a gallop.

If he wanted to go to the Extreme Martial Sect, then he would have to pass through the mountain forest frequented by a large amount of demon beasts. It was a long way to go, full of danger, but as long as he

safely reached the other side of the forest, he would have reached the place with plenty of Spirit Qi, and that is the location of those Martial Arts Sects.

The secular world and the gathering location of all martial arts experts, was separated by a very large mountain range, and any weak person who entered this mountain range will meet their end.

“Meiyao sister, how is the research going for that [Dragon Slayer Divine Martial Skill]? Is it any good?” Chen Xiang asked, as he now urgently wanted to learn more powerful martial skills.

“Rest assured. Wait for me and senior sister to thoroughly research this book, and at that time we’ll tell you how to learn the previous Dragon Martial Technique again, so do not worry.” Su Meiyao replied.

Having these two mysterious beauty as companions, Chen Xiang was very happy, and they were equivalent to his teachers, always patiently guiding him and even helping him conquer the miseries of cultivation.

Chen Xiang had already memorized the route to the herbal garden, and after he entered the piece of forest as similar to a big mountain, it was very easy for him to find the starting point of the route, as a seemingly gourd shaped mountain was present in front of him, which was the first route marker.

In order to find that herbal garden more quickly, Chen Xiang used [Vermillion Bird Firewings], and he spread his wings and soared high into the sky. The Vermillion Bird Fire True Qi of his has already congealed out a form, and thus after the compression, his True Qi was much more vibrant, so he did not have to worry about his True Qi suddenly running out.

In order to not let anyone find him flying in the sky, Chen Xiang entered the layers of clouds, and hid himself inside of it.

His speed of flying was too quick, and all of a sudden he entered the depths of that mountain forest. Moreover, this way he could also avoid some of the demon beasts, and although he did not fear the demon beasts, avoiding some of the problems along the way was rather convenient.

The location of the herbal garden was very dangerous and also hidden inside the mountain range, located in one of the small valleys inside. Chen Xiang had been rushing for three days on the road, and only after this period of time did he see that mountain valley, but inside that mountain valley there was nothing.

Chen Xiang swooped down from the sky and landed inside the mountain valley, and although this place’s scenery was very beautiful, there were poisonous miasma drifting outside the mountain valley as well there being various poisonous weeds.

There was one cave inside the mountain valley, which was indicated on the map, and although Chen Xiang looked around for a bit and then found that cave, this cave was blocked by tall weeds. He took out a long knife and chopped off those weeds, then cautiously entered the cave, taking out a torch for illumination.

“This damn place is hidden, if there was no map, it would be really difficult to find.” Chen Xiang muttered, as he could not understand why this herbal garden was inside the cave.

After entering the depths of the cave, Chen Xiang was blocked by an iron door, and he tried a bit to open it, but no matter how hard he tried, he was not able to shake that iron door. Also, regardless of how much strength he used to strike that iron door, the cave didn't even shake a little bit, and if he was attacking an ordinary mountain, it would have collapsed into large pieces long ago.

"This door should be absorbing your power. Honestly, use the key to open it." said Su Meiyao.

Chen Xiang quickly found the keyhole on the door. He inserted the key, turns it, and heard the 'Kacha' sound, as the iron door gradually opened, a dazzling light shone from inside out.

With the opening of the iron gate, Chen Xiang was completely shocked by the scenery inside!

Chapter 0072: Big Harvest

Unexpectedly inside the iron gate wasn't a pitch-black mountainside, on the contrary, it was filled with spirit herbs and spirit trees, and this beautiful mountain valley was filled with bright light!

Su Meiyao and Bai Youyou quickly came out, and after they saw this, confusion was clearly visible on their faces.

"All the spirit herbs here are more than a thousand years old!" Su Meiyao said.

Thousand Year Ginseng, Thousand Year Spirit Grass, Thousand Year Profound Spirit Ginseng, Thousand Year Earth Spirit Grass.....Although some of these spirit herbs were auxiliary in nature, but after all, they were more than a thousand years old, and now many of these looked like a big turnip. Chen Xiang estimated there were a few hundred of these herbs!

"There are almost twenty Metal Spirit Fruits, and 1000 Vein Fruits, and there are also more than a hundred Purple Spirit Fruit.....Fuc*****, this father is not dreaming ah!" Chen Xiang cried out loud with surprise, and his heart was fiercely beating because he was incessantly excited.

Although a Purple Spirit Fruit was not as precious as a Metal Spirit Fruit, but it was still very expensively sold in the market, as it was one of the main herbs in refining a type of spirit pill.

"Humph, why're you so happy with only this small amount? What a bumpkin!" Bai Yuoyuo coldly said.

Chen Xiang curled his lips and said, "I know that the two sister's origin is out of the ordinary, and of course in your eyes these things are nothing, but currently for me they are all nothing but treasures."

"Quickly help me pick all of these spirit herbs. It should be enough for me to refine Spirit Level Dans." Chen Xiang excitedly said. Currently he didn't know how to refine Spirit Level Dans, and he knew that he would definitely fail many times, but in this herbal garden there were many auxiliary spirit herbs, so they could allow him to save a lot of his expenses.

Only someone like Chen Xiang would make the two peerless beauties work in the field which also made Su Meiyao and Bai Youyou secretly despise him.

"I'm not a man, and this beauty is used to pain but not used to the dirty work." Although these words were on Su Meiyao's mouth, she still started to pick those spirit herbs which were more than a thousand years old.

"Humph, do not be loquacious." Bai Youyou snorted, making Chen Xiang immediately shut up, as he did not dare to offend this frosty beauty.

After half a day's worth of time, the majority of the spirit herbs which were thousands of years old, in this herbal garden, had already been harvested, and stored inside the residence of Su Meiyao and Bai Youyou inside the storage ring.

"There are 120 Purple Spirit Fruits, more than twenty Metal Spirit Fruits and 1000 Vein Fruit, which should be enough for me to refine the Foundation Building Dan!" A big grin was visible on Chen Xiang's face as the Foundation Building Dan was not only useful for people entering the True Martial Realm, but was even taken by people who had already entered the True Martial Realm as this pill can allow them to raise their power level, so it was a very useful Profound Level Dan!

The High-Grade Spirit Level True Elemental Dan was already considered to be very precious, not to mention the Profound Level Dan which was even a grade above the Spirit Level.

However, Chen Xiang was not currently anxious about the issue of whether he was capable of refining it as it would take a long time for him to learn how to refine High Grade Spirit Level Dans, not to mention refining Profound Level Dans.

Inside the herb garden, some of the spirit herbs were in their growth period, and all these herbs which were auxiliary in nature, were also several hundred years old. Chen Xiang was in no hurry to pick them, as of now he had hundreds of thousand years old spirit herbs. Moreover all of them were very big.

"There are lot of powerful arrays inside this herbal garden, that can not only allow sunlight to shine through this thick rock, but can also gather a large amount of Spirit Qi, which allows this herbal garden to breed these spirit herbs. It seems that the man who created it certainly must have left the Mortal Martial World." said Su Meiyao while looking at this beautiful mountainside.

Leaving the Mortal Martial World meant that they had the power to break through space! Chen Xiang was also very much secretly yearning for it, but if he wanted to get to that state, he did not know which year or month he would reach such a stage.

"Chen Xiang, here you can be at ease and calmly cultivate, and enter the 9th level of the Mortal Martial Realm. Once you're done you can again leave for the Extreme Martial Sect." said Bai Youyou, looking like a high and might empress while she was wearing a dress shining with a golden aura, which looked noble and elegant as the soft sunlight shone upon it.

Chen Xiang bought this dress for her. Moreover, she liked to wear it a lot, and now that her and Su Meiyao could wear these beautiful clothes and bathe in sunlight, this made them feel very joyous. However, if it wasn't as a last resort, then they didn't want to stay inside that ring.

Chen Xiang now needed a massive amount of True Qi to congeal out the forms for the other three attributes of True Qi, and it should be known that he engulfed one 10th level Mortal Martial Realm practitioner, but he was only able to form two of the attributes of his True Qi. One should then consider how much True Qi he needed to transform the other three attributes True Qi into their forms.

The Spirit Qi in this herbal garden was very rich, and in addition to that Chen Xiang also had the Yin and Yang Divine Veins. Chen Xiang closed his eyes, and he imagined himself in a Spirit Qi sea that was simply

absorbing the Spirit Qi. Even after all this, it would still take quite a long time for him to enter the 9th level of the Mortal Martial Realm.

Now Chen Xiang knew why the people who entered the 9th level of the Mortal Martial Realm in the secular world are at an old age. This was because of the severely sparse Spirit Qi in the secular world!

"Now you should start learning how to refine a True Qi Dan! During the day time you should refine them while at night, you should eat those dans. At the same time as when you digest its potency, you must also absorb the Spirit Qi." said Su Meiyao, who then began passing her experience of refining the True Qi Dan to Chen Xiang.

The Grand Elemental Dan was a High Grade Mortal Level Dan, which was capable of producing a large amount of True Qi, and thereby improving the speed of cultivation! The True Qi Dan was much better than the Grand Elemental Dan, as it was a Low Grade Spirit Level Dan, and was also one of the most popular dans in Martial Arts Sects.

The True Elemental Dan was a High Grade Spirit Level Dan, similarly also capable of producing True Qi, but was a lot more expensive than the True Qi Dan, and ordinary people cannot even afford it.

The True Qi Dan required only one main herb, and that was the Purple Spirit Fruit! Currently, Chen Xiang had more than 120 of these, and also had a lot of auxiliary spirit herbs, which generally only needed to be five hundred years old, but if thousand years old auxiliary herbs were used to refine the dan instead, then only a little bit of it would be needed and it would also be very cost-effective.

Chen Xiang took a deep breath, and started digesting the alchemy experience passed on by Su Meiyao. Afterwards, he began sorting the herbs, separating each set from one another, and from this he would know how many times he had failed since he started.

Chen Xiang took out his Brilliant Flame Dragon Furnace, and Bai Youyou immediately rushed to a distant area, while quietly chatting with Su Meiyao, as their sisterly bond was very good. Although Bai Youyou was cold, she was very good to Chen Xiang and Su Meiyao, but if it was anyone else, she would be disinclined to pay any attention to them, let alone talk to them.

Not long after Chen Xiang began, he failed, and purple smoke burst out from the Brilliant Flame Dragon Furnace. On the 2nd try, he failed once again.....and until the tenth try. Only then had he entered the intermediate alchemical stage, and at this stage he had to bake all the herbs into herbal powder, and started fusing the herbal powder and herbal Spirit Qi. But at this stage, he failed once again!

"Goddamnit, this Purple Spirit Herb is like one bad apple spoiling the whole bunch. Ah, I always fail, and this Purple Spirit Fruit is the root of my trouble." Chen Xiang complainingly cursed.

Distant Su Meiyao giggled and said, "It is inevitable for the high level dan's main and auxiliary herbs to conflict, and the higher level the dan is, the more obvious the conflict is, and the more difficult it is to resolve. This is simply your job to explore."

Su Meiyao had been extremely proud of her own alchemy talent, but after the appearance of this freak Chen Xiang, she had to bear twice as much, but now seeing the expression of Chen Xiang who was experiencing failure, she was very happy to laugh.

Chen Xiang cast aside everything, and looking at that charming Su Meiyao's face brimming with a happy smile, he secretly cursed in his heart.

"Meiyao Sister, how many times did you fail?" asked Chen Xiang.

"Are you testing my memory? My memory is very clear, and it was 72 times!" Su Meiyao said, and although she failed so many times, she was very satisfied with this number. It must be known that other alchemists, if they had not failed more than a hundred times, they were embarrassed to even say they had learned how to refine the True Qi Dan.

Chapter 0073: Succeeded

Chen Xiang muttered in his heart, "I'll let you be happy for now. Wait for me and I'll definitely make you unable to laugh."

He rested for a moment and then continued refining, but this time, he did not use the Brilliant Flame Dragon Furnace, rather he took out the inferior black alchemical furnace of his that was given to him by his father.

"Oh? Using the Brilliant Flame Dragon Furnace will let you save time, otherwise you will not even be able to finish refinement once in one day." said Su Meiyao.

"You do not need to mind my feelings, it does not matter." said Bai Youyou, as she thought Chen Xiang was worried that she would not be able to adapt to the exposure of the peculiar breath of the Flame Dragon.

From then on Chen Xiang had not paid any attention to the two beauties again, and with complete dedication he started refining the dan.....

During the night, a beautiful soft moonlight shone through the special array, penetrating the thick rocks, and shining on the mountainside in the herbal garden. Su Meiyao and Bai Youyou were lying on a bed, and the two beauties were cuddling with each other. With even breathing they were already inside their dreamland. It was very rare of them to nap in this situation but as they were very relaxed around Chen Xiang, they could sleep soundly.

Chen Xiang was refining dans, and once in awhile he took a peek at the beautiful and attractive sleeping postures of the two beauties. Seeing this his mind was already a mess, and his furnace nearly burst due to this.

"It would be nice, if I was able to sleep in the middle of them!" Chen Xiang secretly thought this in his heart, and if this idea came to be known by Su Meiyao and Bai Youyou, he definitely would've been despised by them for a very long time.

A day and a night went by, and only then did Chen Xiang enter the last stage of alchemy process, the solidifying dan stage, but in the end he still failed!

Among the number of failures, Chen Xiang had learned to be very calm. He had a large amount of herbs, moreover, with only one Thousand Year Purple Spirit Fruit he would be able to refine the True Qi Dan ten times, and he had more than hundred of these, so he didn't believe he would encounter failure with all of them.

Su Meiyao and Bai Youyou only entered the ring when they took a bath and changed their clothes. Chen Xiang found out that these two beauties liked to change their clothes several times in a day, and they never wore the same clothes. Moreover they were also happy in showing it to him.

Everytime Chen Xiang saw them coming out after changing their clothes, he would offer a few good and remarkable praises, but every praise of his was different every time. This flattering was just a scratch on the surface for him, and always let Su Meiyao and Bai Youyou's hearts be filled with joy.

Chen Xiang knew these two Yaoxing(妖精) had already lived for more than a thousand years, but in the end they were girls, and girls, more than anything, liked to wear beautiful clothes. All day blindly swaying in front of men, but men only liked to watch if they weren't wearing any clothes.

"Youyou sister, Meiyao sister, I'll continue to buy more beautiful clothes even after entering the Martial Arts Sect, and I think those places should have many other styles." Chen Xiang said while laughing.

"You brat. you're quite good at playing gooseberry, and you know the ways to flatter us." said Su Meiyao with a gentle laugh.

"Thanks." Bai Youyou said in a low voice, and though her voice was still cold, Chen Xiang who listened to it, seemed to find an inexhaustible gentleness.

"Rest assured, I'll try hard to elevate my strength, and as soon as possible, I'll help you recover your strength, and eradicate your enemies, so that you can wear the clothes I buy and freely roam in the world!" Chen Xiang said with earnest look on his face, and this moved the hearts of Su Meiyao and Bai Youyou.

They were now seriously injured, and not mentioning the fact that they still had an enemy, even some slightly powerful experts could easily defeat them. Chen Xiang was their only hope and in their eyes Chen Xiang was behaving like a sensible brother so they were very pleased, even though he sometimes saw them with a wicked expression in his eyes.....

Again a day went by, and Su Meiyao and Bai Youyou were fast asleep cuddling together. When the sunlight shone down on them, they opened their pretty eyes, however, they saw Chen Xiang with both his eyes closed, and with serious face, sweating profusely and refining pills, as he was at the most crucial stage.

This was Chen Xiang's 12th try in refining the True Qi Dan, and having this much progress, Su Meiyao thought it was an accident!

A moment later, Chen Xiang took a long deep breath and opened his eyes, his whole face brimming with happiness. He look towards those two beauties sitting on the bed, and laughingly said, "Two sisters, how about you try the fresh breakfast I just made!"

After speaking, Chen Xiang opened the lid of the black alchemical furnace, and inside there were five True Qi Dans glittering with a purple light, which made Su Meiyao and Bai Youyou endlessly shocked. Their beautiful faces were full of an unbelieving expression, and quickly rushed towards that alchemical furnace and saw the 'Breakfast' inside!

Only Chen Xiang, could casually treat these True Qi Dans as breakfast.

"Meiyao sister, I only failed twelve times, but also refined it with an inferior alchemical furnace. It seems that learning to refine pills with the lowest grade alchemical furnace is a lot more subtle
Ah.....Meiyao sister, this little brother is ashamed, I was not able to reach yours 72 failure mark."
Chen Xiang grinned, and seeing this Su Meiyao could not wait to knock out those white teeth of his.

"Infuriating little rascal, When I failed 72 times at that time I was praised as a genius by my teacher, but you....." Su Meiyao tooted with her little mouth, and though her face was full of hidden bitterness, but in her heart she was very happy.

"Continue to try hard, and now use the Brilliant Flame Dragon Furnace! It'll allow you to refine a lot more in a shorter amount of time!" Bai Youyou with her jade like finger picked the True Qi Dan, and put it inside her beautiful little mouth, lightly chewing. This appearance of her's was truly attractive.

On the other hand Su Meiyao was still flighty, and while Bai Youyou was eating, these two beauties were showing the most charming aspect of theirs. Chen Xiang who was watching this was dazed, and in his heart he could not wait to put them in his arms, caressing them nicely.

With an inferior alchemical furnace it took him a little more than a day, but using the Brilliant Flame Dragon Furnace it only took him half an hour to refine it twice, and at the beginning he still failed while using the Brilliant Flame Dragon Furnace, but once he was familiar with the process, thereafter there were no failures.

During the day it was Alchemy, and during the night it was cultivation. Chen Xiang was harvesting the True Qi incomparably quickly.

Everyday he was able to refine the Low Grade Spirit Level True Qi Dan ten times, with a total of fifty dans. In the evening, after eating the dans, he cultivated and continued to compress a large amount of True Qi that was brought about by the True Qi Dan.....

Time flew by so fast, and in blink of an eye three months had past. Although Chen Xiang was repeating the same routine every day, but with the two peerless beauties as his companions, he didn't get bored.

Now Chen Xiang had already congealed out four True Qi forms; the Azure Dragon, White Tiger, Vermillion Bird, Black Tortoise. These four divine beasts inside his dantian appeared to be fuzzy, and although he had not actually seen these four divine beasts, nevertheless, after cultivating accordingly to those two divine exercises, he was mystically able to mold out the divine beasts forms, which secretly amazed him.

Chen Xiang was now 17 year old, and he was now going to impact on the 9th level of the Mortal Martial Realm. Only after congealing the last True Qi form, would he be able to successfully advance into this new stage!

If Chen Xiang had not cultivated in this special way, he would have already entered the 9th level of the Mortal Martial Realm, as he had to cultivate several times more when compared to other people!

At the center of the Tai Chi Yin and Yang diagram within Chen Xiang's dantian, there was a ball full of Earth True Qi, but currently it was absorbing a massive amount of pure True Qi, and rapidly growing. Moreover, at the same time it was also being compressed, and gradually a form was appearing out of it. This form was that of an elephant, which suppressed the Yin and Yang diagram at the center!

Spirit Qi from all around this mountain valley was madly surging into this mountain valley, and therein madly absorbed by Chen Xiang. That elephant form had slowly been taking shape, and now Chen Xiang, with his huge divine sense, was establishing contact with these five beast forms, integrating them into one form.

"I've succeeded!" Chen Xiang shouted loudly, and suddenly invisible Qi undulations burst out from his body. This was the Universal True Qi, and whenever he wished, he can arbitrary integrate five elements of True Qi into one body and release the Universal force.

Chen Xiang, using the congealed embryonic stage five divine beasts forms, compressed a large amount of True Qi, then once again using the invisible True Qi congealed out Universal True Qi, and destroyed the big door of the 9th level Mortal Martial Realm!

Chen Xiang at just seventeen year of age, entered the 9th level of the Mortal Martial Realm.

Chapter 74: Entrance Fee

Chen Xiang, as he watched those five divine beast forms be molded out by compressing a large amount of True Qi in his dantian, could not help but sigh because of all of that boundless True Qi. Common 10th level Mortal Martial Realm experts were not his match. As for True Martial Realm martial artists, as he has not seen or fought them yet, so he couldn't draw any conclusions.

"Good brother, your imposing manner is comparable to what mine was in the past!" Su Meiyao nodded her head in satisfaction, her face filled with a charming smile.

Chen Xiang proudly smiled: "Two sisters, Now can I go to the Extreme Martial Sect? Perhaps I can also get you some brand new clothes."

"Little rascal, you really know how to make us happy." said Su Meiyao with a soft snort.

"You can, but you still have to be a little cautious. Inside these martial sects there are hidden dragons and crouching tigers, and in their eyes, with this little bit of strength, you're still an ant." Bai Youyou cautioned. Although she and Su Meiyao were only active in this herbal garden, they still felt very happy.

Su Meiyao and Bai Youyou entered the ring. Chen Xiang walked out from the herbal garden and arrived at the inside of a mountain valley, his body shook a little while a pair of firewings emerged from his back. Chen Xiang took a fierce leap, jumping several tens of Zhang high in the air. The pair of Vermillion Bird Firewings behind his back flapped, making him soar in the sky.

As he flew deeper and deeper into the forest, the Spirit Qi become richer and richer, and this caused Chen Xiang to be surprised, as he knew that the martial arts sect were located in a place with very rich Spirit Qi, but he wasn't aware of how rich the Spirit Qi was. Now that he had personally experienced this rich amount of Spirit Qi, he understood why so many people yearned to join these martial arts sects.

"It is similar to paradise here!" said this while looking over the cliff of a high mountain, a giant river was flowing nearby, and there were numerous singing birds in that lush green forest below that was rich with Spirit Qi.

"In this side of the world, martial arts sects have the strongest influence. Of course, next to martial arts sect there are numerous families and empires who have similar influence. However, here there are also

ordinary people who cannot practice martial arts, and these people are not few in number." Said Su Meiyao.

As Su Meiyao spoke, Chen Xiang stood in awe of how big and strange the world was.

Martial arts sects here have an ancient inheritance, meaning they were formed around various styles created by martial artists a long, long time ago. As time passed, these martial arts sect started to develop and became even larger, as more and more people joined, they exploited more and more abundant resources. As a result, strong experts were as common as clouds here.

While flying Chen Xiang suddenly heard a sound of disturbance below, he went down, only to see a person fighting a giant bull whose entire body was wrapped in flames.

This was the demon beast, a kind of species who knew how to absorb Spirit Qi between heaven and earth. These beasts had innate Spiritual Veins, and it didn't matter whether their strength was strong or weak, every part of their body could be considered a treasure.

Chen Xiang dived down and landed next to the intense battlefield, and that flaming bull was unexpectedly fighting a seemingly 18-19 years old fat teenager, whose appearance was quite matching. His appearance was similar to that of an expert bully.

At this moment the fat teenager wrinkled his brow, his face was looking serious while dealing with the flaming bull at the other end. his strength was not bad, as he cultivated Metal True Qi, and his martial skill was also looking good. When he punched out, he played out his entire True Qi.

"Brother, do you need any help?" Chen Xiang, who was now standing close by, asked. He could see that the fat teenager's foundation was not weak, and he guessed that he should be in the 9th level of the Mortal Martial Realm.

"Elder Brother, I fought most of the fight and now you appear. You say you want to help me, yet I bet you just want to steal my catch. Not worth it!" That fatty's reply made Chen Xiang vomit blood. Unexpectedly this fatty was haggling over this.

"I simply do not need the reward, I just want to take a look at how formidable this demon beast is." Chen Xiang said with a smile.

"That's not OK, so be it, I'll give you the bull's leg!" The fatty said, and to Chen Xiang's surprise this fatty was so principled.

"Good!" Chen Xiang while speaking, took a step and in the blink of an eye, arrived behind the flaming bull. Chen Xiang's fist was starting to get wrapped in a golden aura of Slaughter Qi which was surging out, thereafter forming a golden white tiger head.

Chen Xiang used [White Tiger Storm Killing Fist], but also used Metal White Tiger True Qi. His fist struck the thick body of that flaming bull, emitted a thunderous sound, and his golden aura flashed and blasted a bloody hole through the thick skin of flaming bull, which made the fatty astonished.

"Elder Brother, what type of fist attack did you use just now? It was so overbearing!" Fatty asked with surprise, at the same a fist struck over the bull's head, and a fearsome Qi Aura burst out which even shook the air, the flaming bull emitted a heavy roar.

While the flaming bull was angry, Chen Xiang took advantage of this opportunity and let a rain of blows strike on the fat body of that flaming bull. In the blink of an eye, he had punched out tens of fearsome and tyrannical Heavenly Tiger Storm Killing Fists, and a strong Qi Aura passed through the bull's thick skin, shaking the internal organs of the flaming bull. The angry flaming bull immediately vomited a mouth full of blood, and then that bull was no longer able to use its strength.

At this time, that fatty clasped his fists together, and held them high above his head, looking similar to a giant hammer. His fists fell towards the bull's head, and vigorous Metal True Qi transformed into a Qi Aura wrapped around his fists. In the blink of an eye with thunderous sounds accompanied with Qi waves flying in all directions, the bull was killed.

"Brother's fist technique is not bad!" Chen Xiang said while praising, as he calculated the strength of this martial artist, and at such young age he was so amazing.

That fatty smiled: "I am called Zhu Rong, what's the honorable name of elder brother?"

"Chen Xiang! I'm only 17, and Zhu brother called me elder brother 老哥, you called me old 老, but I'm younger than you." Chen Xiang smiled, cupping his fists as he spoke. He did have an air about him that made others think he was more mature than his physical age.

Zhu Rong grinned: "It seems I really called you old, hehe, but I also suffered a loss, regarding this, let's start from a clean slate. I guess I should call you younger brother? Your two years younger than me and already so amazing. You must certainly be from some famous family, but I do not know what family that is."

Chen Xiang guessed Zhu Rong's family must do business, otherwise every time he opened his mouth he wouldn't have talked about transactions.

"I came from that side secular world." Chen Xiang truthfully said. Zhu Rong was starting to deal with that body of the flaming bull, and chopped down a leg for Chen Xiang, but also intentionally cut too small, which even made Chen Xiang somewhat dumbfounded.

"So do you want to enter the Extreme Martial Sect?" Zhu Rong asked, the other end of that flaming bull entirely received in the storage pouch.

"En! Zhu brother are you a Extreme Martial Sect's disciple?" Chen Xiang asked rhetorically, Zhu Rong followed behind him.

"Luckily I became a Extreme Martial Sect's disciple, and although your strength is pretty good, but you cannot enter the Extreme Martial Sect." said Zhu Rong while looking proudly.

"Why?" Chen Xiang asked curiously.

"Because you do not have a family behind you, and you should know that the Extreme Martial Sect is different from other sects, and while all other sects receive their disciples, they provide the best welfare for those disciple. While the Extreme Martial Sect charges fees while receiving disciples." Zhu Rong said this point, and his face was full of contempt, as one could see that he very much fancied money.

Chen Xiang had already heard of this thing before, that's why Su Meiyao made him take out Metal Spirit Fruit for Leng Youlan.

"You mean to say I cannot afford to enter extreme martial sect?" Chen Xiang asked.

Chapter 75: Extreme Martial Province

Chen Xiang examined Zhu Rong from top to bottom, although his appearance was a little bit mature, he was wearing very ordinary clothes. His clothing lacked any kind of visible ornaments, resulting in a very poor visage.

"Do you know how much the Extreme Martial Sect charges? Just the cost for a year will make you retreat in defeat." Zhu Rong pursed his lips as he spoke, but suddenly he heard a "kacha" sound, as if someone was biting a fruit.

Zhu Rong was a connoisseur of fine foods and he immediately turned his head, only to see Chen Xiang holding a purple fruit, taking a bite one after another, even going as far as spitting out some of the peel.

Zhu Rong was stunned for a moment, then immediately shouted, "Idiot, Are you using Purple Spirit Fruit for such thing? Quickly stop eating! Fuck your mom! Those peels are extremely valuable and you're actually spitting them....."

Purple Spirit Fruit was the main herb for refining True Qi Dan, to just consume the fruit was simply an extravagant waste. Upon seeing this, Zhu Rong could not wait to seize it from Chen Xiang's hands. In his opinion, to just directly eat the Purple Spirit Fruit was simply a blasphemy.

Chen Xiang facial expression remained indifferent, "This Purple Spirit Fruit is very tasty, and sweet too. There is even rich True Qi released after eating it."

The gluttonous Zhu Rong turned dark red as he boiled in anger, although the Purple Spirit Fruit was not his, watching it being eaten in such a way caused him to have a heartache.

"Stop eating it, I'll buy the Purple Spirit Fruit." Zhu Rong quickly shouted, but just before he finished speaking, Chen Xiang swallowed the rest of the two-thirds of the fruit. Zhu Rong boiled as he felt an urge to rush over and shatter Chen Xiang's Chin.

"How much does it cost to enter Extreme Martial Sect for a year?" Chen Xiang asked while smiling.

Zhu Rong stamped his foot as he snorted with anger, "You! Your type will never enter the Extreme Martial Sect." Although he did not know Chen Xiang's identity, he was very certain that he was extremely rich, otherwise he would not dare to eat Purple Spirit Fruit so casually.

"Forget that I even asked." Chen Xiang said as he took out another Purple Spirit Fruit to consume.

"Outer sect disciples need to pay 3000 middle-grade crystal stone for a year." Zhu Rong quickly said, then took out a few finger head size blue stone, and gave to Chen Xiang: "Here, 10 middle-grade crystal stones for your Purple Spirit Fruit."

Crystal stones and spirit coins were similar. They both were a kind of ore that contained Spirit Qi, however, the pure Spirit Qi compressed inside a crystal stone was much greater compared to a spirit coin.

Chen Xiang had learned from Su Meiyao that on this side of world, middle-grade crystal stones were the main currency used for trading, and a middle-grade crystal stone was equivalent to 1000 large spirit coins. That is to say, 10 middle-grade crystal coins were worth only 10000 large spirit coins.

"Zhu brother, do you think I am a pig? This is the main ingredient for refining True Qi Dan, do you think its value is only worth this much? I might as well simply eat it." Chen Xiang said while pursing his lips.

"30!" Said Zhu Rong with a deadpan look.

Chen Xiang shook his head, and started walking towards the front, Zhu Rong was quick to follow, he shouted: "50!"

Chen Xiang ignored him completely.

"60!"

"100!"

"150!"

"....."

"200!"

Chen Xiang turned around, and said with a smile: "Just a moment ago you wanted it to buy for only 10 crystal stones, but now, compared to a moment ago, the price is many, many times greater, you definitely are a racketeer." Chen Xiang handed the Purple Spirit Fruit over, as he received a pool of crystal stones in return.

"Don't you know, my Zhu family is famous in Extreme Martial Province for doing business, we will even fight for a coin if it fell in front of us, there is no way we would leave it alone." Zhu Rong honestly said as he looked at the fruit, "Purple Spirit Fruit prices in Extreme Martial Province are extremely inflated, because its prices have been raised by the merchants."

Chen Xiang suddenly felt that he may have made a loss in the transaction, but 200000 Large spirit coins was also his bottom line.

Although Zhu Rong was only a small racketeer, Chen Xiang talked very congenially to him since Chen Xiang now had a more thorough understanding of this side of world. The region he was in was called the 'Extreme Martial Province', a large piece of land under the jurisdiction of Extreme Martial Sect. It was very vast and all the different powers in this region had to pay tribute to the Extreme Martial Sect, and in turn the Extreme Martial Sect would guaranteed safeguard.

"Junior Brother Chen, in the future, do not eat the Purple Spirit Fruit like an idiot. If you were seen by the those alchemists, you will be certainly be beaten by every one of them." Zhu Rong said urgingly. As he thought of Chen Xiang eating a moment ago, his heart was secretly in pain.

For Chen Xiang it does not matter, as long he had [Dragon Saliva Exercise], he could quickly create Purple Spirit Fruits if he ever ran out.

"Zhu Lao, you said is it possible for me to enter Extreme Martial Sect right now?" Chen Xiang said with a laugh.

Zhu Rong with a sinister smile said: "Sell me 10 Purple Spirit Fruit and it will be possible, but you have to go through Extreme Martial Sect assessment to be able to genuinely enter, this is every sect's criteria."

Chen Xiang followed Zhu Rong and came to a city. This city was called Tianmen City, and from here, the Extreme Martial Sect was not very far away. Quite often, many people who wanted to join the Extreme Martial Sect would stay here.

Arriving there, Zhu Rong and Chen Xiang bid each other farewell. Zhu Rong said he must return, because unqualified people were not allowed to enter Extreme Martial Sect at will.

"Heavenly Gate. This is the entrance to Extreme Martial Sect?" Chen Xiang stood next to the city gate, looking at the bold and powerful characters.

As long as one walked across the city, one would be able to see a straight avenue. At the end of this avenue, there was a huge luxurious building that was comparable to a city. That was the Extreme Martial Sect!

"Little brother, this is a level-6 ordinary grade weapon. Discount price: only 999 crystal stones!" one fellow standing at a store entrance shouted as he waved towards Chen Xiang. Just like Chen Xiang there were also many other people who were looking around after having entered the city; many of them were country hicks who had entered the city for the first time, and were most likely to be deceived.

Weapons and armors could be divided into Ordinary, Spirit, and Brilliant Grade weapons. Each grade was further divided into 9 levels. Ordinary Grade weapons were the lowest ranked, and no matter what suitable material was used for forging, they were the most common materials. But a level 6 Ordinary Grade weapon was also considered to be not bad, and was close to an ordinary weapon of the 9th level.

"Little brother, want to buy some pills? A High Grade Mortal Level Grand Elemental Dan can be purchased for just 55 crystal stones, two dqn's will only cost you a 100 crystal stones." An old man from a medicine shop shouted.

Chen Xiang observed that within this Extreme Martial Province, Dan stores were located in almost every nook and corner of Extreme Martial Province. He could not help but be somewhat surprised. He went over and asked, "Do you have a Purple Spirit Fruit?"

"Of course I have it, only for 300 crystal stones!" That old shopkeeper answered.

Chen Xiang's mouth twitched slightly. He had really been fooled by that fatty, and that fatty in the start actually wanted to buy with 10 crystal stones, this time Chen Xiang also knew that here at this side of the world, dans were rather expensive, much more expensive than that they were in the Southern Martial Empire.

This was a good thing for him, because he was an alchemist! He was now already able to see many white shining crystal stone, and he also found out that one True Qi Dan costs 500 crystal stones here, moreover they were also a limited purchase.

Chen Xiang strolled around in this Tianmen City and sold a few True Qi Dans, and soon collected as much as 3000 crystal stones, which was also the entrance fee for the Extreme Martial Sect. Although he had Su Meiyao and Bai Youyou's inheritance, but after entering a sect he could learn more things, learn more martial skills, also with the identity of a sect's disciple, he could participate in all kinds of competitions, where the winner was also rewarded by the sect.

Chen Xiang walked towards the giant door in the distance., As the giant door was opened, many people came out, these few days the Extreme Martial Sect had opened their mountain entrance to recruit disciples, so many people came here to enter the sect, but the majority of these people were here to try their luck.

Chen Xiang passed through that giant door, walked on a straight and spacious bricked avenue. In the distance, Extreme Martial Sect was surrounded by a 20 or so zhang high wall. Chen Xiang also had believed previously that the Extreme Martial Sect was built on top of a mountain.

Chen Xiang stood in front of that Huge Entrance, watching 'Extreme Martial Sect Heavenly Gate' these three imposing characters, in his heart could not help but upwell a heroic spirit. That giant door was still closed, but a small door was opened.

In front of that small door was a very long queue, whose Spiritual Veins were being examined, only those who had a Spiritual Vein were qualified. Of course, if there was not enough crystal stones then it was also not acceptable.

The Spiritual Vein was examined by standing on top of a circular disc, on the disc there was an array, which could detect the Spiritual Vein within the human body, then different kinds of aura would be illuminated, along with it, the corresponding value would appear.

Chapter 76: Avenge Personal Enmity In The Name Of Public Interest

Although many people had Spiritual Veins, but most of them were unqualified, and only someone with a value above 60 will be qualified. Chen Xiang, who was lined up for half day, had only seen two people to qualify.

"Chen Xiang, when you're assessed, you must converge metal, wood, water, earth attributes using [Tai Chi Divine Exercise], so at that time that array will only detect your fire attribute, and will show that you have fire attribute Spiritual Vein." Su Meiyao said seriously, as she couldn't allow other people to know that Chen Xiang had a Yin and Yang Divine Vein. This was a very dangerous matter.

Chen Xiang's turn arrived, and when Chen Xiang stood on the disc, he did it in accordance with what Su Meiyao said and converged the metal, wood, water, earth attributes. In doing so below his feet on that disc only a red aura emerged, and a strange feeling appeared in his body, while one value also appeared in the middle of that disc.

"Fire attribute Spiritual Vein, 75, qualified, what's your name?" one middle-aged man asked, and though Chen Xiang had passed, but looking at Chen Xiang whose complexion was not good, his face fell.

Just a moment ago Chen Xiang saw not a small number of Extreme Martial Sect's disciples being respectful towards this middle-aged man, and looking at this one could know that this middle-aged man

had some status in the Extreme Martial Sect's Outer Sect. Strength was also very powerful, and Chen Xiang suspected that this middle-aged man must be a True Martial Realm martial artist!

"Chen Xiang!"

Chen Xiang's words made that middle-aged man to be surprised for a moment, and Chen Xiang felt a little strange, as he did not expect his name would spread to the Extreme martial sect.

"You came from the secular world?" That middle-aged man coldly asked.

"Yes." after hearing Chen Xiang's word, all the people around him gave a bizarre look, because people who came from the secular world were generally old men, and someone so young was very rare.

"Please go back, you've done all kinds of evil in the secular world, we do not accept these kind of people in the Extreme Martial Sect!" That middle-aged man sneered, his face full of hatred.

"What do you mean?" Chen Xiang asked with a frown.

"When you were inside the secular world, you slaughtered one family, and also eliminated one gang called the Black Wind Gang. You've killed at least more than a 1000 people, and we of the Extreme Martial Sect don't receive this kind of slaughtering human devil." The middle-aged man's voice became louder, and this made the people all around more surprised, even to kill more than 1000 people.

Chen Xiang said with a sneer, "If someone came to kill you, would you not fight back? Are you going to stand there and allow them to kill you? Not only did that family act against me again and again, but they also colluded with the gang to assassinate me! If I did not kill them, they were going to destroy my family. Everything that happened because they asked for it. In Southern Martial Empire, most people know it, so you must not have not investigated clearly, right?"

That middle-aged man faced turned gloomy, and this time Chen Xiang once again said, "Are you that Yao family member? Humph, do you want to use the power in your hands to avenge personal enmity in the name of public interest?"

"Yao Haisheng, regarding this you're wrong, the other person's Spiritual Vein is obviously qualified, and we have also heard the things about the secular world, indeed your family was wrong, always wanting to exterminate others, but were destroyed in the end. That is also a matter of course." One amiable looking, smiling middle-aged man with a long beard arrived, and behind him was actually that Zhu Rong.

Chen Xiang had guessed correctly, as that middle-aged man who making things difficult for him just a moment ago, was actually a Yao family member.

Since he was Yao family member, then he must be an alchemist, as Chen Xiang could sense the pure Fire True Qi from his body, and ordinarily only alchemists were very focused on Fire True Qi purity.

Yao Haisheng gave a disgusted look to that bearded middle-aged man, and unenthusiastically said, "Hao Dongqing, I manage the things around here, my words counts!"

Chen Xiang in his heart was secretly surprised, that bearded man, Hao Dongqing, unexpectedly was also a True Martial Realm expert. Chen Xiang hadn't expected to meet to True Martial Realm martial artists in one day. Moreover the strength of the True Martial Realm was more than what he had imagined. He was very clear that he was absolutely unable to defeat these True Martial Realm martial artists.

"Brat, also not getting out of here, is it that you want my teacher to personally send you?" One arrogant man from behind Yao Haisheng loudly reprimanded.

Hao Dongqing faintly smiled: "He cannot leave, as today many people are witnessing this matter. If he leaves, it will be bad for the Extreme Martial Sect's reputation!"

Chen Xiang knew Hao Dongqing was helping him, so he laughed and said, "The Extreme Martial Sect is Chenwu mainland's strongest martial arts sect. I think it should be fair and impartial."

Yao Haisheng was bent on Chen Xiang not entering the Extreme Martial Sect, so he coldly said, "Chen Xiang, you're very young, and your strength is also good, but you now need to hone your character, as your disposition is too easy to stir up trouble. Furthermore your strength in the Extreme Martial Sect here does not simply account for anything. If you enter the Extreme Martial Sect it will invite only trouble."

"Please go back! I have the authority to investigate various aspect of one entering the sect and becoming a disciple. Though your Spiritual Vein is qualified, but in regards to your disposition and strength you're not qualified. Come back after 3-5 years, and maybe you'll be able to qualify then. The Extreme Martial Sect's gate is always open for you."

Yao Haisheng do not want to destroy the Extreme Martial Sect's reputation, as although he was a True Martial Realm martial artist, but if he were to commit a mistake, he would be equally punished.

"Within 5 years, as long as you defeat my apprentice Fang Liang 方良, you can enter the Extreme Martial Sect and furthermore you don't have to pay a single dime. So you better go back and cultivate." Yao Haisheng contemptuously said, while behind him that arrogant man with one eye also stared at Chen Xiang.

Chen Xiang asked, "You said if I defeat your apprentice Fang Liang within 5 years, then after that I can enter Extreme martial sect and I'll be also exempted of all fees? Is this true?"

Yao Haisheng's sinister laughter resounded, and said, "Of course, you came from my hometown, and this is me giving you favourable treatment, but if you can not win in 5 years, then you can never enter the Extreme Martial Sect."

"Fang Liang? Is he that Fang family's genius, currently 18 years old, and already entered the 9th level of the Mortal Martial Realm? Moreover, he also has many Profound Level Martial Skills, and last I heard he fought the 9th Grade Demon Beast, the Fire Red Falcon. In the end the Fire Red Falcon was struck and died on a mountain top, and it is said that he is also ranked 13th in all the Outer Sect Disciples."

Fang Liang heard some commenting about him, and he became prouder, and his face was completely full of a proud look. Yao Haisheng was also similarly proud, because he was Fang Liang's teacher.

"Brat, you do not even have a teeny tiny bit chance in 100 years! Because within 5 years I will certainly enter the True Martial Realm, and you'll forever not have the chance to defeat me."

Fang Liang loudly said, his arrogance was soaring in the sky, as within 5 years he would certainly enter the True Martial Realm! This made many people, one after another, to be shock, as such a young True Martial Realm martial artist was very rare.

"Within 5 years if I win against Fang Liang, I really can enter the Extreme Martial Sect for free?" Chen Xiang asked again, as this kind of thing was better to be confirmed, because to him it seemed very easy. Before he had heard to enter the Extreme Martial Sect's Outer Sect, he had to go through a series of complex assessments.

"So many people are listening here, do you think I'll lie to you? Within 5 years you can come whenever you want and challenge him. Now quickly go, you're making many people who want to test their Spiritual Vein wait!" Yao Haisheng impatiently waved his hand, driving away Chen Xiang.

"You said within 5 years I can come whenever I want and challenge him? This is what you said!" Chen Xiang grinned, and said, "I want to compete with him today."

Chapter 77 Asking for Trouble

What? Chen Xiang wanted to compete with the genius Fang Ling today? This made many people surprised, but Yao Haisheng and Fang Liang were also shocked.

Just a moment ago Hong Dongqing also helped Chen Xiang because he was very interested in watching what was about to happen. Zhu Rong, however, secretly despised Chen Xiang, because he had just found out that Chen Xiang was an alchemist, and previously, when he had first met him, Chen Xiang had portrayed himself in a much more low profile manner.

"Hah! Quit joking and quickly leave, lest you get injured. During a competition it is difficult to control one's strength, if you get wounded, it will certainly slow you down. Come back after a few years of cultivation."

Yao Haisheng waved his hand and said. How the Yao family was eliminated was not very clear, he only knew that Chen Xiang was the cause of this incident. He speculated Chen Xiang strength might be equivalent to the 9th level of the Mortal Martial Realm, but in his opinion, the difference between a secular 9th level of the Mortal Martial Realm and an Extreme Martial Sect 9th level of the Mortal Martial Realm was like heaven and earth.

"If people want to fight, they should go ahead and fight." Hong Dongqing said, he glanced and smiled at Chen Xiang.

"Concerning this fight, I'll be able to waste him in just one move." Fang Liang had a look of impatience.

Chen Xiang didn't even expect there to be Yao family members in the Extreme Martial Sect, furthermore, they were also in the True Martial Realm. Fortunately, there were some rules in the sects. People from this side of the world are not allowed to cause trouble in the secular world.

The people standing in line for assessment all spread out, although their assessment is delayed by this battle, they looked forward to watching a good fight as they get to see Fang Liang fight. The crowd looked forward to seeing the strength of the Outer Sect's #13.

"Forewarned, if you're injured, you can not blame the other, blame yourself for being a waste." Fang Liang loudly said.

Chen Xiang nodded his head and said, "If you are seriously injured, it is your own fault and cannot be blamed on the other."

"Correct, do not talk nonsense, let's go!" Fang Liang with a look of irritability, took a step forward, only to hear Yao Haisheng shout, "Start!"

Fang Liang was the first to act, and he began running, each step exploding outward with lightning, like he was running on lightning. He moved very quickly, and both of his fists were also wrapped in white lightning. This was pure Lightning True Qi.

Chen Xiang's Lightning True Qi contained the wood attribute inside and was different from pure lightning.

"High Grade Profound Level [Treading Lightning Steps], running will result in massive impact force! This Fist Art is the High Grade Profound Level [Shocking Lightning Fist], and from what I have heard, with this Fist Art, one can split a small mountain. Its power is enormous." said one well-informed martial artist.

Chen Xiang originally was a lightning expert, and when he started to cultivate wood True Qi, he also often incited lightning to temper his body. He was struck by violent, natural lightning, but he was still able to bear it. As of now, lightning did not pose any threat to him, not to mention the fact that his body was also very formidable.

Everyone believed that when Chen Xiang was struck by the [Shocking lightning fist], a bloody hole would be left. The crowd braced themselves, in order to resist the explosion from the Lightning True Qi. However, they were all amazed, because what they envisioned didn't occur.

Fang Liang jumped out, his momentum increased by the lightning at his feet, and at the same time, also punched out a powerful [Shocking lightning fist], striking towards Chen Xiang's chest, but when his fists came in contact with Chen Xiang's chest, it felt similar to stone sinking in the sea, he didn't get a bit of response.

Because, in that moment, Chen Xiang operated [Tai Chi Divine Exercise] and his body was truly like a giant vortex, in which any kind of power striking it would, in the end, be sucked in by the vortex. Chen Xiang guided the lightning to temper his body, he does frequently, and that was also why his lightning true Qi cultivation was better.

"Extreme Martial Sect, I'll definitely enter it!" Chen Xiang laughed as he spoke. His fist blasted towards Fang Liang, who was still dazed, and a massive amount of flames surged from his fist, similar to a volcano erupting. In the blink of an eye, Fang Liang was embroiled in flames and sent flying by the momentum of Chen Xiang's fist. His whole body was quickly incinerated by that intense fire, and he was rolling on the ground howling.

"Fang Liang!" Yao Haisheng shouted with dismay and hastily flew towards him. He waved his sleeve and the flames were immediately dispersed. Fang Liang was burnt black from top to bottom. It was obvious he was severely injured, as the meridians within his body were also burnt.

Though it was quite hot, all those who were watching felt their bodies drenched in cold sweat! A simple fist attack defeated the 13th Outer Sect Disciple of the Extreme Martial Sect. When everyone thought about how Fang Liang previously looked down upon Chen Xiang, they were struck by the humor of the situation.

"I won, now is it possible for me to enter Extreme Martial Sect? Furthermore, I won't even have to pay crystal stones!" Chen Xiang grinned.

Yao Haisheng was furious, just as he wanted to say something, but he saw Hao Dongqing speaking with a smile, "Yao Haisheng, previously this precious disciple of yours said, if during the competition get's hurt, that is their own matter, and he was not going to blame the other! Is it that you want to destroy your apprentice's promise? Also, you said Chen Xiang can enter the Extreme Martial Sect. Moreover, he does not need to pay the other expenses, these crystal stones must come from you because you made him a promise."

Chen Xiang said with a laugh, "Senior brother Yao, you're really going to pay the crystal stones for me? I'm really grateful."

Yao Haisheng's face fiercely twitched, in his mind, Chen Xiang was only an ant and with just a pat of his palm Chen Xiang would be dead, but if he did so his good days would come to an end because the rules of the Extreme Martial Sect were very strict.

"I'll remember this!" Yao Haisheng picked up the burnt body of Fang Liang and entered the Extreme Martial Sect inside, and at this time the person responsible for assessment was also changed.

"Chen junior brother, welcome to Extreme Martial Sect, come with me, I'll take you to complete the formalities." Zhu Rong, that little fatty, shouted, and while watching Chen Xiang the expression in his eyes were as if he was looking at a lot of crystal stones.

Chen Xiang laughed and walked past : "Many thanks, senior brother Hao, otherwise, I would have been driven away by him."

"I just said a few words, that's is not counted any help, but saw this guy digging few fiery pits for himself and his apprentice to jump into, and I was truly laughing to death! Of course, you also pushed them into the fiery pit that they dug with their own hands." Hao Dongqing's laughter resounded as he turned around and left.

"Little fatty, how is senior brother Hao related to you? Is he your teacher?" Chen Xiang, following behind Zhu Rong, asked in a low voice. To have a True Martial Realm martial artist as a teacher, that was also a very good thing.

"He is my uncle! By the way, you actually knew alchemy and also wasted a Purple Spirit Fruit, you idiot! You really like to show off." Zhu Rong, thinking about Chen Xiang eating the Purple Spirit Fruit, his heart could not help but feel slightly sore.

Chen Xiang scoffingly said, "You treacherous fatty, in the beginning, you wanted to buy my Purple Spirit Fruit for just 10 crystal stones. Just a moment ago I asked other people and they are selling it for 300 crystal stones, you bought it from me for 200 crystal stones, you cheated me."

Zhu Rong curled his lips and said, "That is the price we agreed to, I did not force you!"

Chapter 78: 3000 Martial Courtyard

"Do you have a sister? Are they also formidable like you? Introduce them to me" Zhu Rong hastily asked, his eyes lighting up.

"Go fuck your sister. Even if I had a sister I wouldn't introduce her to you!" said Chen Xiang with disdain. Now that he had entered the sect, he wanted to find Leng Youlan, his stepsister. He was now her brother and as a brother, he wanted to take good care of her.

Zhu Rong snorted in a low voice, "Do not look at me like this. Many girls who came for this entrance test throw themselves on me. This daddy is the Zhu family's great young master, and also an Inner Sect Disciple of the Extreme Martial Sect!"

Chen Xiang was surprised by the fact that Zhu Rong was an Inner Sect Disciple. He had heard that only someone of the 10th level of the Mortal Martial Realm could enter the Inner Sect!

"Zhu Lao, in the past few months have you heard about a white haired girl coming to the Extreme Martial Sect for the assessment?" Chen Xiang asked.

"I remember, I'll never forget her!" Zhu Rong immediately said, his complexion turned serious: "This girl was very extraordinary. She actually had a Fire and Ice Dual Vein. Furthermore they seemed to be Heaven Veins. She wanted to enter the Extreme Martial Sect, but other people took her away?"

"What?" Chen Xiang was very surprised, he had not expected that Leng Youlan would have Tian Veins, moreover be taken by another sect. If it was a devil path sect, wouldn't that be bad?

"Rest assured, she was taken by the people of Icewind Valley, that place is more suitable for her! She should not be your unrequited love, right? Relying on your talent, you do not even deserve her shoes." Zhu Rong contemptuously looked at Chen Xiang, he knew Leng Youlan came from the secular world, only then would he think like this.

Chen Xiang sighed and said, "She is my sister, sworn stepsister."

"Your joking, how can you have that immortal like character as a sworn sister? If she was your sister, then Xue Xianxian of the Divine Weapon Heavenly Empire is also my sister." Zhu Rong loudly shouted, as he could not accept this fact.

Chen Xiang had also not thought that Xue Xianxian was actually so famous, his sighing sound was heard once again: "Xue Xianxian is my fiancée."

"Fuck you! This bastard is cracking jokes now! You should be careful what you say, otherwise you may be beaten flat by those who have a crush on Xue Xianxian, so do not blame me or say that I did not warn you! Xue Xianxian and Leng Youlan are but recognized as the strongest women among the younger generation. In our hearts, they are like fairies, if you violate or offend them again, I'll beat you up!" Zhu Rong angrily said.

Chen Xiang shook his head and sighed, while in his heart he said, "Xianxian is really my fiancée and Youlan is really my stepsister!"

Zhu Rong with Chen Xiang came to one large courtyard, and inside this courtyard many people were comparing notes with each other. They were not using True Qi, and they were only using their physical strength, but their attacks were still unusually strong.

"This is the 330th Martial Courtyard. The smaller their numeral digit, the stronger it is. The 330th Martial Courtyard is the strongest Martial Courtyard in the Outer Sect, and as you defeated that Fang Liang guy, this is the most appropriate place for you!" Zhu Rong said.

Everyone in this Martial Courtyard suddenly quieted down, because they had also heard the information about Fang Liang being defeated! Fang Liang was the 13th ranked disciple in the Outer Sect, and was unexpectedly defeated by a newcomer. This was but explosive information in the Outer Sect.

Everyone looked carefully at Chen Xiang. Everyone here were very able-bodied, and the youngest was about 20 years old, while the eldest was about 50-60 years old. A total of fifty people, and this was the strongest Martial Courtyard in the Outer Sect. In other words, the strongest disciples in the Outer Sect were also in here!

"Old man Zhang, this brat will be handed over to you." Zhu Rong said to one old man.

Although he looked like a fat meatball, Zhu Rong was still an Inner Sect Disciple, so even the strongest disciples of the Outer Sect were full of respect when they see him.

"Younger brother Chen, try hard to enter the Inner Martial Courtyard earlier, and do not die in the Outer Martial Courtyard." Zhu Rong patted Chen Xiang's shoulder, and sped away.

When the disciple of this Martial Courtyard saw Chen Xiang and Zhu Rong have such a good relationship, they could not help but feel a little uncertain. They definitely tried to guess which family Chen Xiang came from.

"Junior brother Chen Xiang, about the matter of you defeating Fang Liang, I've also heard. Please come with me." That old man Zhang said.

Chen Xiang followed behind him, leaving the sight of those Outer Sect Disciples in this Martial Courtyard, and at this time these disciples also started discussing.....

That old man Zhang was called Zhang De. He was seventy years old and was at the 10th level of the Mortal Martial Realm, but had failed to enter Inner Sect, because he had stayed in the Extreme Martial Sect for too long, so he just passes off as this courtyard's chief. In other words, he was the strongest person in the 330th Martial Courtyard.

Zhang De was a very good person, always having a gentle smile on his face, and was very considerate towards other, which made Chen Xiang have a very favourable impression of him.

"Senior brother Zhang, is it really hard to enter the Inner Martial Courtyard?" Chen Xiang asked.

"Difficult, difficult as ascending heaven! It has already been 15 years since I entered the 10th level of the Mortal Martial Realm, and participated in 15 assessments, but in all assessments I have never passed....." Zhang De said with a long sigh, as he handed Chen Xiang a storage pouch, "This is the Extreme Martial Sect's uniform, identity card, and some introductory books about the the Extreme Martial Sect and this world."

To enter the Inner Sect, one must pass through an assessment. This was not like what Chen Xiang had previously heard 'one must be in the 10th level of the Mortal Martial Realm to enter the Inner Sect'. It seemed that the Extreme Martial Sect was very strict.

Chen Xiang once again followed Zhang De for a long time and then arrived at his own house. This was but a small residence, only suitable for one person but Chen Xiang was very satisfied.

"Junior brother Chen, this is the strongest Outer Sect's Martial Courtyard, which only had 50 people. That's why we have this kind of treatment so you have to carefully keep this position. I'll leave now, so you should familiarize with this environment first."

After Zhang De left, Chen Xiang opened those books and started understanding more about the Extreme Martial Sect.

"The Eight Major Righteous Sects are divided into the Extreme Martial Sect 太武门, the Divine Weapons Heavenly Empire 神兵天国, the Danxiang Taoyuan 丹香桃源, the Icewind Valley 冰风谷, the Beast Martial Sect 兽武门, the Proud Sword Sect 傲剑宗, the True Martial Sect 真武门, and the Lotus Island 莲花岛."

"The Five Great Devil Sects are divided into the Devil Yang Clan 魔阳宗, the Myriad Snake Valley 万蛇谷, the Blood Refining Clan 血炼宗, the 100 Poison Sect 百毒门, and the Transforming Bone Clan 化骨门."

"Every Major Righteous Sect commands one province each, while the Five Great Devil Sects are gathered in one large province, called the Chenwu Nine Province 辰武九州....."

Chen Xiang read through the introductory book. Although Su Meiyao and Bai Youyou had once told him about the world, there were many more details written in this book.

After reading it, Chen Xiang lamented, saying, "This is just the Chenwu Continent, and it is already so big, and in addition to this, outside the seas there are other continents."

"This is not the end! We are in this mortal world, which is the lowest level world, generally called a Mortal Martial World. There hundreds of thousands of them! Each one has countless mainlands!" Bai Youyou said with disdain.

"Above Mortal Martial World is the Heaven Martial World, of which there are a couple dozen. The martial artists in that world are equivalent to immortal like existences, their powers are much stronger." Su Meiyao continued after Bai Youyou.

Chen Xiang swallowed a mouthful of saliva. He suddenly felt like he was a grain of sand in a huge world!

He shook his head, he did not want to go down.

"The Extreme Martial Sect has a total of 3000 Martial Courtyards, 330th to 3000th Martial Courtyards are outer Martial Courtyards! 16th-329th Martial Courtyards are the inner Martial Courtyards, and the 1st-15th Martial Courtyards are core disciple's Martial Courtyard. They are also the most powerful force in the Extreme Martial Sect. Above the 3000 Martial Courtyard there is one 0th Martial Courtyard, and that is the elder courtyard, a group thousands of years old codgers live in it. The Extreme Martial Sect's Dean is the 0th Martial Courtyard's Chief!" Chen Xiang continued to look at the introduction of the Extreme Martial Sect.

Chapter 79 Outer Martial Courtyard

There were many Outer Sect Disciples; however, the inner sect disciples count took a dive, and the core disciples were even meager to count. Besides, there were only 15 core disciple Martial Courtyards!

Usually, all core disciples were above the True Martial Realm.

"As long as you have enough strength, you can not only enter the Elder Courtyard but can also sit on the 0th Martial Courtyard's Chief's position! That is if you can defeat the Dean!"

Hearing this, Chen Xiang had a kind of a whimsical idea, which was to get that 0th Martial Courtyard's Chief's position. Of course, it was just an idea, as it should be known that these dean level characters had been living for hundreds of years and were somewhat like old monsters.

"The 0th Martial Courtyard's Chief position is much more difficult to achieve, but the Extreme Dan Courtyard's Chief position shouldn't be that hard." Su Meiyao said with a light laugh.

The Extreme Dan Courtyard was the organization responsible for dans here in the Extreme Martial Sect. Although there was only one courtyard, it was however divided into 8 small courtyards where all alchemists dwelled.

"Only a 2nd level Alchemist can enter the Extreme Dan Courtyard. Now I want to take a look how many levels....." Chen Xiang illuminated a list and saw that a 1st level Alchemist was required to be able to refine 3 different kinds of Middle-Grade Mortal Level Dans.

A 2nd level Alchemist was required to be able to refine three kinds of High Grade Mortal Level Dans and a Low-Grade Spirit Level Dan. The requirements to become a 3rd level Alchemist were high, and one must actually be able to refine three kinds of Middle-Grade Spirit Level Dan.

Currently, Chen Xiang himself was only a 2nd level Alchemist. 9th level was the highest rank of any alchemist. Above it was the Great Dan Master, Dan Ancestor, and then Dan King!

Chen Xiang remembered Su Meiyao saying that she was just a Dan Ancestor, and she was capable of refining Heaven Level Dans!

At last Chen Xiang once again looked at the next aspects of refining weapons. Refiners were rare in the Extreme Martial Sect, and there were hardly any. While the Chenwu Mainland's Divine Weapon Heavenly Empire was most developed in regards to refining weapons, the strongest in alchemy was Danxiang Taoyuan, and mainly the Extreme Martial Sect's strength was powerful.

That Leng Youlan went to Icewind Valley, which only cultivated in extreme yin and yang, and had the lowest amount of disciples. Nevertheless, their strength wasn't weak, as their True Qi is very extreme, so their overall strength is strong.

Although among the Eight Major Righteous Sects, the Extreme Martial Sect was recognized as the strongest, if the Extreme Martial Sect and another sect fought, the Extreme Martial Sect won't win the fight without paying a large price.

"Meiyao sister, Youyou sister, how about I find a way to make a Grandmaster Alchemist here to refine a dan for you. That way you will soon be able to recover from your injuries." Chen Xiang's eyes lit up at the moment.

"Are they able to refine Sacred Level Dan?" Bai Youyou asked.

Sacred Level Dan! Chen Xiang had not even heard of what they were speaking of, let alone seeing it.

"Is there no one here capable of refining it?" Chen Xiang asked.

"At least from what I have heard, they temporarily don't have anyone. Not to mention Sacred Level Dan, those who can refine Heaven Level Dan are rare." Su Meiyao said with a sigh, "But you may just be able to as long as you cultivate and collect good herbs because you have the [Dragon Saliva Exercise]."

Chen Xiang hadn't expected that he actually needed to refine a Sacred Level Dan; how high of a level was this existence.

"First, enter the inner sect then we will talk about it. Only after entering the inner sect, would I be able to learn a satisfying martial skill!" Chen Xiang said because Outer Sect Disciples at best could only learn Low-Grade Profound Level Martial Skills while High-Grade Profound Level and Earth Level Martial Skills needed the qualifications of an inner sect disciple to learn.

At the tenth month of every year, it was the Inner Sect Assessment, which was just around the corner, and Chen Xiang hadn't expected that it would arrive in such a timely manner.

Chen Xiang climbed onto the roof, watching all the numerous buildings around him. In the innermost part of the deep region, strong people were gathered like clouds in the inner courtyard!

The Extreme Martial Sect's disciple enjoyed much of their freedom, and sect disciples were provided with a large number of martial skills. The Extreme Martial Sect also had arranged some experienced old martial artists to teach the disciples, and there were also many types of equipment to aid in their training, as well as the martial stage for the disciples to fairly compare notes.

Sometimes, the Extreme Martial Sect arranged some missions for their sect disciple to complete, and these missions protected the Extreme Martial Province from danger.

Chen Xiang put on the Extreme Martial Sect's uniform which was a gray leotard, made of a material which could even withstand ordinary flames. Ordinary swords also could not penetrate it, and it also fit tightly to the body, making people feel very comfortable. It also had a 'warm in winter and cool in summer' effect.

Chen Xiang arrived in the middle of the Martial Courtyard, and in the middle there was one small square stage. All around the square stage there were some buildings, and inside these buildings was the equipment to help the disciples with their training.

"Newcomer, I heard you came from that secular world. It seems that you are very powerful, and was able to defeat that Fang Liang in a matter of seconds." One teenager came and said with a look of admiration.

From those previous books, Chen Xiang had learned Chenwu Mainland was shaped like a triangle, and that the secular world was located in one of its corners. That corner was also across a large mountain range, isolated from the eight major provinces, and had sparse Spirit Qi, which led to not many strong experts being there.

Chen Xiang slightly smiled, and said, "That guy underestimated the enemy too much, that's why he lost miserably."

Teenager laughed and said, "That's true since that guy Fang Liang had worshiped a teacher, he became arrogant. I wanted to teach him a lesson early on myself."

This teenager's skin was dark, and he was shorter than Chen Xiang by a head. Although he didn't look very strong, he gave off the impression that he was quick, capable and vigorous. His eyes glittered with sleekness, had an amiable smile, but there were a few scars on his face, giving off a sturdy feeling.

"Yun Xiaodao 云小刀, are you thinking whether or not to bully the newcomer once again?" From afar one middle-aged man said with a smile, "Chen Xiang, this shorty standing in front of you is this courtyard strongest disciple, but he doesn't want to become the courtyard's chief and has not challenged the old man Zhang yet."

Yun Xiaodao rubbed his nose, contemptuously side glanced at that fellow, and said, "I just wanted to compare notes with him. Martial artists originally often want to compare notes."

In this square, there were many people, and they all had temperate and gentle smiles on their faces, making Chen Xiang feel very harmonious in this Martial Courtyard. Moreover, he also learned from other people that they all thought that Fang Liang was very annoying.

Chen Xiang had just arrived; that's why people in this Martial Courtyard didn't start to cultivate, rather chatted with Chen Xiang and informed him of some things.

Chen Xiang at this time just knew that Yun Xiaodao came here three years ago, and from the 3000th Martial Courtyard fought his way up from there. He was very strong, at the 10th level of the Mortal Martial Realm and he had a prominent origin. He was a member of one of the Extreme Martial Province's four aristocratic families, the Yun family.

At this moment, Yun Xiaodao, with an avid expression in his eyes, was watching Chen Xiang, and spoke, "Great Brother Chen, except for the old man Zhang here, I've fought with everyone here. You also have to fight one round with me, and no matter if you win or lose, I'll give you five True Qi Dan, how does this sound?"

Old man Zhang was Zhang De, this Martial Courtyard's Chief, but all martial artists in here called him in the same way.

Chen Xiang knew Yun Xiaodao was very bellicose. Moreover, he was this courtyard's strongest disciple, which meant that he was the strongest disciple in the Outer Sect!

"Xiaodao, you're in the 10th level of the Mortal Martial Realm while I'm in the 9th level of the Mortal Martial Realm, the difference is too big!" said Chen Xiang while shaking his head and smiling, and to his surprise, this Yun Xiaodao was actually only 16 years old!

Inside this Chenwu Mainland's martial forest was where the talent really poured forth, and young and powerful martial artists could be found everywhere.

"But you're one year older than me, so you have the advantage. Rest assured; I'll be lenient, and whether you win or lose, I'll give you 5 True Qi Dan!" Yun Xiaodao pestered. He was not planning to let Chen Xiang go until he fought with him.

Chapter 80 Outer Courtyard First Disciple

In the eyes of other martial artists, 5 True Qi Dans might be very good, but give Chen Xiang half of an hour and he could refine them out, and currently he did not want to get seriously injured, instead he wanted to prepare for the upcoming Inner Sect Assessment.

Yun Xiaodao, this time with a sinister smile, said, "Great brother Chen, I've several sisters, each one is very nice, so if you and I compare notes, I'll introduce them to you!"

Chen Xiang could not help laughing, "You brat, do not try fool me. You just said you'll introduce them to me, but later I won't be able to pursue them, right?"

Yun Xiaodao stuck out his tongue, "Why do you've so little confidence in yourself? I've heard you know alchemy. My sister's first preference of a man is an alchemist. Rarely has there been an alchemist like you who is young, smart and handsome."

"Fuck your mother's pussy, your this flattery is not bad. I'll reluctantly fight a round with you!" Chen Xiang said with a smile, "But as for your sisters, leave it for others, I already have a fiancée."

Seeing Chen Xiang promise Yun Xiaodao, other martial artists also cheered up, because they also wanted to take a look at Chen Xiang's strength. By observing and emulating other battles could they themselves also learn some experiences.

Yun Xiaodao was also delighted, like a child, he very readily took out 5 True Qi Dans and handed them to Chen Xiang. He was a Yun family member, moreover, he was also talented, so in aspects of dans he was simply not lacking.

"Great brother Chen, to tell you the truth, even if I introduce my sisters to you, they will not fancy you. The standards of these women can be high." Yun Xiaodao took a side glance at those sitting disciple at the square edge, and these disciples revealed an angry expression, apparently they had been fooled by Yun Xiaodao.

This time, Zhang De ran over hastily, and said with a smile, "You and a newcomer are having a competition, how can it precede without me? I'll preside over it, and at appointed time will immediately stop you, as I don't want anyone getting injured in a friendly competition."

Chen Xiang and Yun Xiaodao went to the middle of the square, and here the floor was paved using a kind of very sturdy bricks. They were very difficult to destroy, therefore one could fearlessly fight till the end.

"Xiaodao, are you going to participate in the Inner Sect Assessment?" Chen Xiang asked.

"I've participated three times, but each time in the second round I failed. I just entered the 10th level of the Mortal Martial Realm this year, so this year I'll be able to enter the Inner Sect."

Chen Xiang nodded his head, and his complexion turned serious because he felt a peculiar martial artist True Qi from Yun Xiaodao. This type of True Qi gave people a kind of feeling that was very terrifying, however, it was very docile inside Yun Xiaodao's body.

"It should be Fire and Lightning True Qi. He should have a Mutated Fire Lightning Vein." said Su Meiyao.

Extreme Martial Sect, 3000 Martial Courtyards, 100,000 disciples. People who could come must be someone with decent strength. After coming here Chen Xiang had met many young and strong martial

artists, and in his front of him was a 16 year old teenager in the 10th level of the Mortal Martial Realm. This was the strongest person in the Outer Sect!

"Watch out, [Fire Lightning Chain]!" Yun Xiaodao loudly shouted, and from his palm a fiery red colored lightning suddenly spewed out, surging with fearsome hot Qi, and hitting Chen Xiang's body.

This fire lightning upon touching Chen Xiang's body, immediately tied down Chen Xiang, like a very firm chain, making Chen Xiang unable to move!

"Hei Hei, Great Brother Chen, you lose!" said Yun Xiaodao while giggling, only to once again see both of his fists explode with that fearsome Fire Lightning Qi Aura. Although Chen Xiang and Yun Xiaodao were separated by 3 zhang, but Chen Xiang could feel that strong Qi Aura, and even the ground was slightly trembling.

In the 10th level of the Mortal Martial Realm, True Qi was compressed again. After this compression, it also elevated the quality of the True Qi, doubling their True Qi qualitatively and quantitatively when compared to the previous 9th level of the Mortal Martial Realm!

But Yun Xiaodao didn't spend his true strength, otherwise it would be more frightening!

At this moment, Chen Xiang operated his True Qi trying to get rid of the Qi Aura Chain binding him. While the [Fire Lightning Chain] was binding him up, it also continued to burst with lightning and scorching flames, which in turn entered into his body. If not for him using the [Tai Chi Divine Exercise] to continue to refine them, he would certainly be a little tormented.

Yun Xiaodao swooped over, both his fists shooting towards Chen Xiang's chest. When they were about to arrive, Chen Xiang fiercely opened his mouth, and a dragon roar resounded. A large amount of Azure Qi Aura was suddenly ejected from Chen Xiang's mouth, carrying terrifying lightning, and forming one huge momentum that flew towards Yun Xiaodao and hitting him.

The sudden attack made Yun Xiaodao fly about ten zhang. This confused Yun Xiaodao and his hair was in a mess.

Chen Xiang lowered his head and shouted, only to see the [Fire Lightning Chain] binding him suddenly burst open, forming a Qi waves which blew in all directions.

"Great brother Chen, you are quite shady, and actually have these kind of tricks!" Yun Xiaodao had a look of displeasure. However, in his heart he was secretly thrilled, because Chen Xiang had not been defeated all of a sudden.

The people all around who watching were also secretly shocked. Chen Xiang having this kind of martial skill also came as a surprise to them. True Qi could be discharged from the mouth, it was indeed a kind of very shady martial skill.

The quality of Chen Xiang's True Qi was not worse than those at the 10th level of the Mortal Martial Realm as a result of being compressed, because just a moment ago if Chen Xiang had not fused the Azure Dragon and Vermillion Bird True Qi, it was also very difficult for him to get rid of the [Fire Lightning Chain].

"Xiaodao, I'll attack you now!" Chen Xiang gripped both his fists, and Azure Dragon Lightning True Qi overflowed from his fists, and once again at the same time scorching Vermillion Bird Red Fire True Qi emerged out..

At this time Chen Xiang had also used Fire Lightning True Qi!

This duel turned out to be a duel between Fire Lightning True Qi and Fire Lightning True Qi, and everyone standing was immediately excited because it was worth watching. They also found it a little unusual because they had learnt Chen Xiang had a Fire Spiritual Vein, but he was still able to come up with Lightning True Qi.

Chen Xiang took one step and arrived in front of Yun Xiaodao, "Watch out, [Heavenly Tiger Storm Killing Fist]!"

Finished speaking, numerous fists with tiger head after images burst out, surging out one after another with pressuring Aura Qi, pounding at a breakneck speed, cutting through the air, and shaking the floor. Similar to a bombardment of lightning it madly flew towards Yun Xiaodao, each one in blink of an eye. Chen Xiang punched out 100 times, and every fist was containing the strength which was capable of destroying a small mountain.

"Good fellas, this Martial Courtyard second rank is yours." Yun Xiaodao clenching his teeth said. With a palm full of Qi Aura, constantly waving, he was actually able to keep up with the speed of Chen Xiang's fist. It looked as if he had countless palms whilst resisting the impact of Chen Xiang's fist that was like violent storm..

"I want first!" Chen Xiang said while laughing, and vainly shouted, "[White Tiger Divine Fist]!"

Punching out one [White Tiger Divine Fist], suddenly a Slaughter Qi enveloped the center of this Martial Courtyard, and everyone could not help but have a shiver run down their spine, as they fell into a kind of inexplicable fear.

Only to see both of Chen Xiang's fists suddenly transform into two tiger heads with soaring Slaughter Qi, and every time he blasted a fist, it was as if a ferocious monstrous white tiger with Slaughter Qi impacted, making people fall into fear.

"[Cloud Palm]!" Yun Xiaodao complexion turned stiff, palms crossing each other, and a Fire Lightning Qi Aura from both of his palms gushed out. It transformed into a pair of giant palms crossing each other, and were warding in front of Yun Xiaodao.

Chen Xiang's [White Tiger Divine Fist] struck that pair of giant crossed palms, and emitted "BOOM" sound one after another. The floor below also fiercely trembled, triggering storms one after another, blowing all around.

At this time Chen Xiang's battle intent was rising, as he rarely met opponents with considerable strength. Rising high into the air with a leap, his palm swung downwards, and a explosive shout resounded. A huge fire palm suddenly appeared, about twenty zhang large, and fiercely pressing down.

This was Chen Xiang's killer move. It was to entirely release True Qi of only one attribute, transforming it into Qi Aura which could cause heavy casualties, and its range was also very wide!
