

Dan God 721

[Chapter 721](#)

Seeing these two beauties being tormented to the point that their bodies were drenched, Chen Xiang smiled but did not say a word.

"What are you laughing at? What the hell is this?" Liu Meng'er charmingly snorted, taking out a handkerchief and wiping her sweat.

Dongfang Xinyue was also puzzled for a while. She said in a low voice: "This dragon bone is very strong. It should be something like a immortal beast.

"Little brother, are you deliberately making things difficult for us?" Dongfang Xinyue asked gently. That call of "little brother" made Chen Xiang's bones go numb.

"Brat, you're purposely playing with us!" Liu Meng'er pretended to be angry and asked.

Chen Xiang spread out his hands and said: "You're accusing me unjustly, why didn't you say so earlier! Why didn't you ask me for help? "

"Can you?" Dongfang Xinyue was in disbelief.

"What if I do it?" Chen Xiang laughed, seeing his smile, Liu Meng'er knew that Chen Xiang had a way.

Just as Dongfang Xinyue wanted to say something, Liu Meng'er shouted anxiously: "Then why aren't you doing it already!"

If he did not stop Dongfang Xinyue, Dongfang Xinyue would have been taken advantage of by this little scoundrel.

"How much do you want to cut out?" Chen Xiang walked over and shook his head: "I'm saying why are you women trying to be brave. Even after all this time, you still can't get rid of them, why aren't you telling me about it?"

"Hmph, we can't get them all out of the way, but you can?" She knew that Chen Xiang was not an ordinary brat, but no matter what, his strength was limited.

"If you can open it, I'll ..."

Seeing that, Liu Meng'er anxiously cut Dongfang Xinyue off, and said softly: "Warm Moon, I got my Fire Soul from this brat, don't look down on him! Many people who were stronger than him have underestimated him. Now, they are all dead, without a single piece of scrap remaining! "

Dongfang Xinyue was shocked, to think that Chen Xiang could actually help someone else obtain the Fire Soul, her ability was indeed not weak, she anxiously shut her mouth, she knew Liu Meng'er would not casually say these kinds of things.

"So what?" Chen Xiang laughed: "How about you be my female slave?"

"Die!" Liu Meng'er shouted. She waved her hand and knocked on Chen Xiang's head heavily.

"Open... You must be joking! " Chen Xiang touched his head that was in pain and laughed.

"Luckily you were able to say it, let Warm Moon be your ..." Liu Meng'er glared at him with her beautiful eyes. "Kid, you're getting more and more dishonest."

Dongfang Xinyue wanted to say something, but she stopped herself. She actually wanted to ask Chen Xiang if she could get her a set of Fire Soul, but she knew that it would require a lot of rewards.

Chen Xiang thought: What's wrong with that? Hua Xiangyue is my female slave!

"Hurry, we found a big secret inside the Refining treasure book. After we crack it, we should be able to obtain a map." Liu Meng'er urged.

Map? The Refining treasure book has a map? This caused Chen Xiang to be secretly surprised, the Refining treasure book was Li Tianjun's, and the things left behind by this guy, were they not good stuff?

Dongfang Xinyue nodded his head: "The profound Spirit grain in this Refining treasure book isn't complete, but someone has deliberately left some clues inside, which can help us find something even more comprehensive."

Chen Xiang also wanted to know the secret inside. He took out the Green dragon demon-slain broadsword and fed it to the Heaven fire, and then, like cutting tofu, he cut off a small piece of the bone according to the marks on it.

This caused Liu Meng'er and Dongfang Xinyue to be dumbstruck. They had spent so much effort and had only made a few scars, but Chen Xiang had easily cut them open.

With the Green dragon demon-slain broadsword's divine tool coupled with Chen Xiang's powerful Heaven fire, he could easily cut apart the Vermillion Bird's skeleton. Furthermore, the Vermillion Bird's skeleton was already taken in by Chen Xiang, it had a high defense.

Refining the Vermillion Bird's skeleton was also very difficult, as the Vermillion Bird itself was a fire attributed Divine Bird, so of course the bones would find it difficult to melt. In the end, Chen Xiang had no choice but to participate and use its Heaven fire to melt the bones.

The process was extremely complicated, even Chen Xiang was completely baffled by it. The biggest headache was carving those very complicated Spirit grain onto the surface, then sculpting the melted materials with his mind and adding other materials. Some of the materials were even a layer of Spirit grain, covered with one kind of material, and then carved another ...

On top of Chen Xiang's Green dragon demon-slain broadsword, there were countless small Spirit grain. For example, in a small dot, there was just a Spirit grain Array, and those Spirit grain not being refiners had shrunk countless of times, carved into a dot, the refining process for the divine tool was extremely huge. Chen Xiang felt that if he were to cut open the Green dragon demon-slain broadsword, he would see some extremely complex Spirit grain.

And Death-haunting arrows were nothing to these two beauties, especially when they worked together. It would be completed very quickly.

In just two days, all the parts of the Death-haunting arrow were assembled.

The new Death-haunting arrow was a bit larger than the previous one and looked very domineering. Although the material was fiery red in color, in order to prevent it from being dazzling, it would add something and turn it black. After all, it was used to trick people in the dark.

When Chen Xiang held it in his hand, he felt that it was very handsomely made, and that its appearance was very beautiful. It was hard to imagine that this was designed by a delicate beauty.

"Let's give it a try, it should be able to help you use the Nirvana Stage. Because of the materials, it can condense a very strong energy." Dongfang Xinyue wiped his sweat and looked at the large piece of Vermillion Bird bone.

This would allow them to refine many powerful things, but only Chen Xiang could melt and cut them off, this was also what made them feel depressed.

After binding it with blood, Chen Xiang held onto the Death-haunting arrow, he secretly channeled his energy, causing the ground to slightly tremble, but very quickly it calmed down.

Chen Xiang had released the Dragon Power, and upon its appearance, the strong energy would immediately create a huge pressure, but it was quickly absorbed by the Death-haunting arrow, condensing the Dragon Power into a black Qi arrow. Although it looked like there was no Qi, Chen Xiang could feel its power.

"This is the Dragon Power?" Dongfang Xinyue's beautiful eyes flashed with a surprised light. As she was practicing the legendary Taiji Dragon-suppressed kungfu, the person who could use the same kind of power as a dragon, was extremely surprised.

only wanted to test if he could condense his Dragon Power. After seeing that it could be condensed, he smiled in satisfaction. "Thank you, sisters, for this bone as a reward.

He took out the Green dragon demon-slain broadsword and cut it in half.

"We can't cut it, and we can't melt it. What's the use of saying that we have to come? Would you like to see it?" Liu Meng'er muttered.

Looking once again at Chen Xiang's Green dragon demon-slain broadsword, Dongfang Xinyue was able to discern something. This blade was extremely powerful, especially those small Spirit grain that were flickering on top.

[Chapter 722](#)

Chen Xiang took out two pearls that were filled with flames. These were the Heaven fire that Chen Xiang had condensed over the past two days, and they were all compressed in here by him.

"When it melts, use my flame. When you cut it, wrap it around your weapon. It should be enough for you to use it for a long time!" Chen Xiang threw the two pearls out.

The two girls anxiously and carefully caught it. Chen Xiang's flame was not strong, but it could melt the bones that made them feel helpless. But this flame looked very normal and nothing special. When Chen Xiang was questioned about it, he also mysteriously refused to speak of it, causing the two girls to be extremely curious.

"If the Refining treasure book find me, come find me. I will be in the Super Martial School. I will try this."
Chen Xiang shook the Death-haunting arrow in his hand.

After Chen Xiang left, Dongfang Xinyue was filled with doubts: "Meng'er, the husband of your disciple is really amazing, the blade in his hand is no ordinary thing? Have you ever borrowed it? "

Dongfang Xinyue played with the Fire Gathering Pearl that Chen Xiang gave her. Although the fire inside wasn't very strong, it could melt those bones, which made it hard for her to understand.

"Warm Moon, this brat has a lot of secrets. Although I know a little, without his permission, I cannot speak carelessly. Please forgive me." Liu Meng'er said.

Dongfang Xinyue smiled lightly: "It's alright, hurry up and unravel the secret inside the Refining treasure book."

"This little scoundrel actually wants you to be her slave. Too bad, you have to be careful." Liu Meng'er pouted.

Dongfang Xinyue's jade face reddened, and she nodded while laughing. "He's indeed a bad boy.

----- Chen Xiang's whereabouts were extremely secretive, and he had also mastered a very powerful body transformation technique. If he wanted to hide, no one would be able to find him, so he was not worried about the ten billion bounty at all.

Now that he had returned to the Heavenly Emperor City, he had even changed into that Dongfang Rong's appearance. He was strutting about in the city, and no one would suspect him in the slightest.

The Eastern profound Realm was already sealed up, all the clan elders had been in closed doors training ever since they returned from the Super Martial School. They even stopped expanding because they knew that they were not the strongest in this new world.

Chen Xiang came back to find Dongfang profoundlong. He felt that this guy was the best candidate for the test, but he couldn't find him.

"Captain, why are you still here?" A patrolman said in surprise when he saw Chen Xiang.

"Why can't I be here?" Chen Xiang purposely had a gloomy face, scaring the soldier so much that he shivered.

"The appearance of a treasure light in the Continent of the King is possible because I heard that it's the birth of a treasure. Strange flowers, strange plants, treasures, or even immortal beasts from the sky. In short, young master Dongfang has brought a group of people with him." That soldier hastily replied.

Even in this new world, the Continent of the King was the largest continent. Adding the Devil-subduing College, Fire Divine Palace and the Vein Martial Cultivators above, these three powers made the Continent of the King very famous.

Chen Xiang had been staying with the two beauties for the past two days so he naturally did not know anything about what was happening outside. After hearing the news, he hurriedly passed through the Transmission array and arrived at Continent of the King.

The Fire Divine Palace was originally very famous in other worlds, and there were also many branch halls. After all the worlds had been fused together, the Devil-subduing College and the Fire Divine Palace would become the headquarters, and the frequency of using the Transmission array was also the highest.

There were people everywhere from the Fire Divine Palace to the Devil-subduing College, especially a lot of people from the Devil-subduing College, because even if they joined other sects, they could still enter the Devil-subduing College to learn the Demon Subduing Martial Arts, so they had the largest number of people. Adding the fact that the Great War between Three Realms was about to arrive, even some of the Nirvana Stage were shamelessly staying in the academy with a group of brats to listen to their teacher and learn the Demon Subduing Martial Arts.

It was not easy for them to plunder the Fire Soul, if not for the fact that people with Fire Soul were keeping a low profile, then there would be a few strong cultivators. There were many refiners in the Alchemist, and if they dared to act recklessly right now, it would be very troublesome.

was a little surprised to find that treasure light after some inquiry. It was actually in the Bloody Thunder Mountain Sea, which was one of the great dangers of the Continent of the King. When he and Hua Xiangyue had first entered, he had encountered a great danger.

"There is a Super Old Sacred Land inside there, and there is a dragon inside the Super Old Sacred Land! However, even if that dragon comes out, there's nothing to be afraid of. With this many experts in this new world, this dragon will be the safest to hide in." Chen Xiang laughed: "As expected, numbers make more strength."

The most frightening thing in the Bloody Thunder Mountain Sea was not the Xue Lei Beastmen and Xue Lei Beasts that were filled with poison, but the type of Xue Lei that was everywhere without any pattern, to the point where even the Nirvana Stage was afraid of them.

If it was in the past, Chen Xiang would probably be worried, but now, he had nothing to be afraid of, his body was so strong, he still wanted to give the Xue Lei a hack to see how strong it was.

Because a treasure light had appeared in the Bloody Thunder Mountain Sea, a Transmission array had been established in the City of the King. Even without the Transmission array, Chen Xiang could use that Luotian Gate to directly go to the center of the Bloody Thunder Mountain Sea.

As for him, he was only here to test the Death-haunting arrow. At the same time, he wanted to see what other powerful people were inside.

The sky above the Bloody Thunder Mountain Sea was filled with dense lightning bolts that rained down like a torrential rain, enveloping the entire Bloody Thunder Mountain Sea. Many people had set up tents outside the Bloody Thunder Mountain Sea, waiting for the "lightning rain" to end before entering to investigate what was happening.

Amongst the crowd, Chen Xiang suddenly caught a glimpse of a very shiny bald head, flashing along with the blood lightning in the distance.

Chen Xiang squeezed through the crowd and came to the side of the bald man. One look and sure enough, it was Xiao Chou.

Many people were watching the countless red lightning bolts in the sky, hoping to disappear quickly, and it was an extremely spectacular sight, so when everyone was watching, Chen Xiang suddenly extended his hand and patted Xiao Chou's little bald head hard.

Xiao Chou was enraged, he turned his head and roared: "Who dares to hit me!"

The crowd looked at each other. Chen Xiang had acted extremely quickly, and no one could see who moved the hand. Moreover, no one could hear the sound of the claps of thunder in the distance.

Chen Xiang had already become that Dong Fang Rong, and even his aura was extremely real, of course Xiao Chou wouldn't be able to recognize him. Seeing the young man's bald head looking angry, but having no place to vent it out, Chen Xiang couldn't hold back his laughter.

Xiao Chou clenched his fists tightly and glared at everyone. After being taught by Chen Xiang, he had become extremely obedient, if it was the past, the people around him would have all been beaten to the point of looking for teeth, with bruises all over.

The moment Xiao Chou turned around, when he wasn't paying attention, Chen Xiang's hand flashed like lightning and fiercely slapped that shiny bald head.

"Who the f * * k hit my head? Come out if you have the guts. Don't sneak around!" Xiao Chou roared again, causing Chen Xiang to almost laugh out loud. However, Long Xueyi had already laughed to the point where he had no heart and no lungs.

Everyone felt Xiao Chou's terrifying aura and inwardly, they were angry. Who would use such a childish method to tease the bald youth?

[Chapter 723](#)

In order to prevent Xiao Chou's anger from burning into his body, everyone scattered.

Xiao Chou scratched his head, and turned to look at the people around him. His eyes that was brimming with anger, stared straight at everyone's face, he wanted to find out who the suspect was from the crowd and be toyed with like that, in his eyes, was an insult.

"Baldy, look here!" Chen Xiang suddenly came to his back, and then fiercely slapped that bright skull.

"Bastard, I'll kill you!" Xiao Chou saw who it was and shouted loudly, throwing a punch at Chen Xiang, but Chen Xiang surprisingly dodged it. After that, he quickly passed by Xiao Chou and slapped him.

Chen Xiang laughed: "Damn baldy, how can you be so powerful!"

Xiao Chou was enraged, he stomped his feet fiercely, causing the ground to shake. Everyone was startled and quickly retreated, they could see that a battle was about to break out.

Chen Xiang's feet slipped, but he did not rush towards Xiao Chou, instead, he ran towards the side.

"Coward, don't run!" Xiao Chou roared and chased closely after him. No one expected the bald youth to be so powerful, he looked young, but his voice was loud and his strength was strong.

Chen Xiang changed back into his original form as he ran. He only stopped when he entered a forest and turned around when he saw Xiao Chou's strong and violent fist flying towards him.

Chen Xiang grabbed onto the fist, the powerful force exploding outwards, but was dissolved by Chen Xiang's Taiji Dragon-suppressed kungfu.

"Master!" Seeing that it was Chen Xiang, Xiao Chou curled his lips: "I should have long thought that you're the only one who would be so bored."

"Little baldy, your baldy is too eye-catching. I can't help but want to hit him!" Chen Xiang laughed: "Why did you come here to join in the fun?"

Xiao Chou rolled his eyes: "I'm here to gain experience, master, didn't you come as well?"

"I'm here to hunt." Chen Xiang laughed.

"What hunt?" Xiao Chou knew that by following Chen Xiang, he could always do some very exciting things.

"Are you afraid to enter the Bloody Thunder Mountain Sea right now?" Chen Xiang smiled slightly.

"We'll leave then!" Of course Xiao Chou wasn't afraid, what's more, there was still Chen Xiang.

Chen Xiang brought Xiao Chou and walked into the Bloody Thunder Mountain Sea that was filled with red lightning. There were countless gigantic mountains inside, and these gigantic mountains were also suffering from the attacks of lightning, but these gigantic mountains were able to absorb the lightning energy, and then channel it into the earth, allowing this entire Bloody Thunder Mountain Sea to give birth to a unique type of spirit energy. Thus, the spirit beasts inside were all very strong, as they cultivated this kind of Xue Lei energy.

Everyone did not expect the little baldy, who was shouting and fighting just now, to actually follow someone else into the Bloody Thunder Mountain Sea, which was filled with terrifying Xue Lei s. Right now, it was extremely dangerous, people with normal brains would not even go in.

After entering, through his sharp senses, Chen Xiang was able to avoid the attacks of the Xue Lei. If he were to strike down, he would use the Heaven Blasting Palm to blast away the Xue Lei that was condensed with great power. The remaining Thunder power would become his energy after drilling into his body.

"Xiao Chou, how long have you been here?" Chen Xiang asked, he had come here to look for Dongfang profoundlong.

I came in very early, but I was waiting for the right time to go in, because after such a dense amount of Xue Lei appeared, there would be a lot of lightning beasts. I came in to find some lightning beasts to gain experience, so I needed to increase my strength. Xiao Chou said in a serious tone.

Right now, I am at least in the middle stage of the Hundred refining realm. You will have to go to Nirvana Stage, then wouldn't that far surpass me? Chen Xiang exclaimed.

"Of course, I'm a rare genius in the Great Strength Race. Although Master was stronger than me before, I don't know for sure in the future!" Xiao Chou said very naturally.

Chen Xiang patted his bald head, "I've gotten sick again, just you wait, I definitely won't be outdone by you, don't forget, I am a Alchemist!"

"I am speaking. If everything goes smoothly, it won't take more than half a year. I am already a Great Strength Race warrior!" Xiao Chou said in an arrogant tone.

If Xiao Chou stepped into the Nirvana Stage, it would not be so simple for Chen Xiang to win. After all, the Nirvana Stage was a half-immortal cultivator, and after crossing nine tribulations, he would become a deity.

"By the way, did you see the Dongfang family come in?" Chen Xiang knew that the people of the Dongfang family were very high-profile when they were travelling, it could be seen from their clothes.

"I see. Many people from the Dongfang family, Devil-subduing College and the Fire Divine Palace have entered. Moreover, they were the earliest ones." Xiao Chou said.

The number of Xue Lei in the sky started to decrease. After more than two hours had passed, the Bloody Thunder Mountain Sea had returned to its original state.

"Aooo ..." A series of beast roars echoed throughout the mountain range.

"He's here!" Xiao Chou suddenly became agitated, while Chen Xiang was already flying, towards the direction of the voice.

Chen Xiang released the Heaven tour method, and with his fastest speed, rushed towards the direction of the roar, and very quickly, he saw a group of people surrounding and attacking a Double-headed Lion, whose body was covered in blood-red lightning aura.

The Xue Lei Double-Headed Lion is very famous in Bloody Thunder Mountain Sea. It is a type of lightning beast with a lot of breeds and is the strongest profound beast, with a lot of them.

However, that group of people were from two different forces and they were arguing right now. What surprised Chen Xiang was that one of the people on one side was from the Beast Martial School, and he even saw a beautiful figure, Yan Yanran!

From the contents of their argument, Chen Xiang knew that because they had discovered the Xue Lei Double-Headed Lion at the same time, and because they had chased it for a long time, in the end, the Xue Lei Double-Headed Lion was killed by Beast Martial School, but they did not recognize the other side.

"Brat, in a bit, it's not a lightning beast that's going to be hit, but a human. Prepare yourself!" Chen Xiang snickered.

"Who are you hitting?" Xiao Chou immediately became excited.

"It seems to be a disciple from the Thunder Heaven School!" Chen Xiang had never heard of Lei Tian, so he did not know how strong these disciples were.

"Thunder Heaven School! I know, it's one of the top ten sects in the new world, ranked third!" Xiao Chou said.

"Then what is our Super Martial School's rank?" Chen Xiang was curious.

"There's no ranking. It seems to be the Dongfang family's. The top ten are the Dongfang family's first place." But this Thunder Heaven School must have some power, otherwise he would have already been scolded to death by someone with that ranking. "

"Then let's go take a look and see how strong the third ranked sect in this new world is." Chen Xiang sneered.

There were only four people in the Beast Martial School, but there were more than ten in the Thunder Heaven School.

[Chapter 724](#)

"This is obviously our spoils of war, why should we split half of it with you?" Yan Yanran's cold and angry voice was crisp and echoed within the mountains.

"We've chased for so long, if this beast wasn't afraid of us, it wouldn't have run for its life. We used up a lot of its energy, so you can easily kill it." A handsome man from Thunder Heaven School said.

Don't try to argue with us, we discovered that the Xue Lei Double-Headed Lion was fighting against this beast long ago, and only ran away if we couldn't win against it, and only when we were chasing after it did we run into you guys, what does it have to do with you? Although Yan Yanran and the others did not have many people, they did not want to be at a disadvantage.

The man from the Thunder Heaven School sneered, and made a hand gesture. The ten plus people immediately surrounded Yan Yanran and the others.

After Chen Xiang saw this from afar, he took out a Death-haunting arrow and shot it at one of the Thunder Heaven School s.

The black crossbow bolts silently flew over as fast as light. However, the energy gathered on them wasn't too strong.

The arrow pierced through the thigh of a Thunder Heaven School man, causing him to let out a howl.

"Who is the assassin?" The Thunder Heaven School man was immediately shocked. To be able to silently pierce through his thigh, it was similarly able to pierce through a person's head.

was very satisfied with just one arrow being able to achieve such a result!

Chen Xiang and Xiao Chou slowly walked out. Chen Xiang sneered: "Thunder Heaven School right? Did you two rely on your numbers to steal someone's things?"

Seeing that Chen Xiang had arrived, Yan Yanran was ecstatic, and anxiously said: "That's right, they are like that, a sect that is ranked third in a new world, it seems to be nothing more than dog shit."

"Chen Xiang!" When Chen Xiang was offered a bounty of ten billion, it was known to many that his portrait was owned by almost everyone.

The people of Thunder Heaven School quickly took out the bounty token from the Storage magic treasure to compare. It was exactly the same.

"That's right, I'm Chen Xiang. The ten billion Spar are right here. If you have the guts, come and take it!" Chen Xiang laughed faintly, not the slightest bit afraid.

To these warriors whose cultivations were not even in the Nirvana Stage, ten billion Spar s was a huge sum of money. Even the Nirvana Stage would be moved by it.

Chen Xiang was far more precious than the Xue Lei Twin-headed Lion that was lying on the ground. The disciples of the Thunder Heaven School immediately looked at Chen Xiang with greedy and malicious eyes.

"The person who got the ten billion bounty from the Dongfang family, he should be an unpardonable scoundrel. Attack!" the leading man shouted.

"You bunch of hypocrites! If you want to kill him, then come over here and find an excuse!" Chen Xiang said in disdain as he looked at Xiao Chou.

Xiao Chou's fists were covered with a golden glow. Seeing that Chen Xiang had nodded in agreement, he stomped his feet hard, and the ground actually cracked.

When Chen Xiang appeared, everyone's attention was focused on him, and they directly ignored the bald man, Xiao Chou. However, they were currently shocked by his strength.

Just as everyone was in shock, Xiao Chou had already flashed into the encirclement of the Thunder Heaven School disciples, and actually walked right into their trap. However, Chen Xiang was not the least bit worried.

"If you want to kill my master, you have to pass through me first!" Xiao Chou roared, he leapt and descended from the sky, a strange divine power suddenly emerging from his palm, it made people feel as though there was a huge mountain pressing down on them.

When Xiao Chou's palm struck down, the range of the palm's power was very wide, and the strong pressure caused the cover to press down, two people were actually smashed deep into a pulp, their flesh and blood mixed together with the shattered ground, making them look extremely bloody.

"Pfft, with such little strength, you want to take my master's head?" Xiao Chou thought that the other side would try to resist, but instead, like a tofu bean, he was slapped flat.

Chen Xiang had a disciple of the Great Strength Race, that was something many people knew. However, Xiao Chou gave off the impression that he was a brat, and that he wasn't that strong.

After Xiao Chou killed the two disciples from the Thunder Heaven School, like a berserk leopard, he rushed towards the other person. Smashing his fist out, he instantly broke through that person's defensive Qi shield and shattered all the bones in his chest.

This young man's head was so berserk, shocking everyone present, even Yan Yanran had her beautiful eyes opened wide.

"You bunch of scum!" It wasn't that Xiao Chou was too strong, it was just that these people were too weak. When Xiao Chou attacked, he used his full strength.

If his disciple was so powerful, then what about his master? The people of Thunder Heaven School were extremely frightened, they did not dare to take the head of their master, and immediately ran for their lives.

Seeing that someone wanted to escape, Chen Xiang frowned, a bolt of lightning suddenly struck down from the sky. He was already able to use his own mana to control the lightning element Innate Qi in his body, and create a bolt of lightning in the air.

When one's magic power was strong, they could summon the wind and summon the rain. Summoning lightning was also an easy task.

"If you want to take my head, you have to have some ability!" Chen Xiang laughed coldly. The lightning had struck him like crazy, and anyone could tell that he was the one who created the purple lightning. However, no one could feel the aura he was releasing.

After being struck by the purple lightning, his entire body would only be paralyzed for a short while, and then, he would leave it to Xiao Chou to deal with.

"Leave two people alive and tell them to scam back to the Thunder Heaven School. This is the result of bullying any of our sects. Chen Xiang warned her.

Xiao Chou did as he was told, leaving the two of them to run back and then pat his hands: "What third sect, if it's a battle between the younger generation, our Super Martial School will definitely not lose."

Yan Yanran hurriedly thanked Chen Xiang and the others. On the way here, he found out about the Dragon Subduing School that Chen Xiang was talking about and knew that Yan Yanran was also his fellow sect member.

"We just came out. There were a lot of people going in at the beginning, but the number of people getting in became fewer and fewer. The people going in are all gone, and we didn't dare to go in. You guys should hurry up and leave this damn place." Yan Yanran advised.

Of course Chen Xiang knew that it was strange, the Super Old Sacred Land in the middle had a dragon trapped inside.

"Xiao Chou, you and them will be outside fighting the Thunder Beasts. Go back when it's about time, I'll go in and take a look myself." Chen Xiang said in a heavy voice.

Xiao Chou was originally here to give it a try, so he nodded his head and said: "I understand, Master, be careful!"

Chen Xiang did not use the Luotian Gate to open up some space to enter. If there was a huge change in the middle of Super Old Sacred Land, it would not be a wise decision for him to suddenly appear there.

He told Long Xueyi to use the Heaven tour method and go deeper in to see.

"Eh? Isn't this little brat Chen Xiang? Why is he here too!" Liu Meng'er flew down from a mountain and followed behind her.

[Chapter 725](#)

Liu Meng'er was also surprised that Liu Meng'er and Dongfang Xinyue suddenly appeared. Previously, they said that it would take a while for them to solve the secret inside the Refining treasure book.

"What are you doing here?" Liu Meng'er avoided a Xue Lei and slowly floated down to Chen Xiang's side. Dongfang Xinyue followed closely behind, like two fairies that suddenly descended from the heavens.

"Looking for treasures! Could it be that you guys didn't know that a precious light appeared here, and that many people came here in search of treasures?" Chen Xiang asked curiously. He had come here to watch the show, to find some powerful things to test the Death-haunting arrow, but the two beauties did not seem to know about the appearance of the treasure.

As expected, the two girls looked at each other and shook their heads.

Dongfang Xinyue said gently: "We have cracked the secrets inside the Refining treasure book and obtained a map. Then, we will go to the Continent of the King and enter the Bloody Thunder Mountain Sea."

"No wonder you all came from that direction. Could it be that the final target of the map is the center of Bloody Thunder Mountain Sea?" Chen Xiang was shocked.

Liu Meng'er and Dongfang Xinyue nodded at the same time.

"There's a Super Old Sacred Land in the middle with a dragon sealed inside!" Chen Xiang said.

Liu Meng'er also knew that he had told her when he and Hua Xiangyue had returned from the Super Old Sacred Land.

"That Super Old Sacred Land is very big, right? The map that we got was detailed on the route inside the Super Old Sacred Land." Liu Meng'er said.

Chen Xiang shrugged his shoulders, "There's a dragon inside. If I had the strength of all of you, I might be able to take him down.

"There's no need for you to worry. The Warm Moon has an array disc that is specially used to deal with dragons." Liu Meng'er laughed.

"I obtained an Immemorial Dragon Subduing Formation. I refined that formation into an array disc, which can be easily used. If it's not a critical moment, I normally do not use it because it consumes a lot of Best spar s." Dongfang Xinyue took out a snow-white disk that was as big as the table, and on it were many complicated Spirit grain s.

An array disc was a type of array formation that could move very quickly. It was a special material that was refined by an array master and used to conveniently carry around. Normally, it was very useful and powerful because there were very few materials needed to create an array disc.

"Then let's go together. I've been here a few times, so I'm more familiar with this place." Chen Xiang also wanted to see what the Super Old Sacred Land was hiding.

When Liu Meng'er and Dongfang Xinyue came, they were almost struck a few times. However, Chen Xiang had come a few times, making them to believe him, but they believed him very quickly, because

they saw Chen Xiang's fist that was able to disperse and absorb the powerful blood-red light, so they were not afraid of this kind of Xue Lei at all.

Previously, Yan Yanran had said that many people who went in had gone missing. This made Chen Xiang wonder if there was a problem with the seal dragon's array and people could go in. If that was really the case, then they would most likely be killed when they were attacked by the dragon.

After passing through the Bloody Thunder Mountain Sea, Chen Xiang and the others came to the central region.

"What's going on? Why has it changed so much? Previously, this place was filled with large trees, but now, it has become a grassland!" Chen Xiang looked around in shock. The center of the Bloody Thunder Mountain Sea was a very safe place with many ancient trees that reached into the sky. This was something that Chen Xiang had seen before.

Liu Meng'er and Dongfang Xinyue quickly discovered something. They split into two different directions and walked one step at a time, looking at something on the grass before looking at the sky.

"There is indeed a very big illusion formation. It almost covers the entire center area, but this illusion formation is very ancient. Could it be an illusion formation that activates on its own?" Liu Meng'er said.

Now, Chen Xiang understood why all the people that Yan Yanran mentioned had disappeared and entered the illusion formation.

"In the middle of this illusion formation is the Super Old Sacred Land. Do you still want to enter?" Chen Xiang asked.

"Of course we have to go in. We've all come here." As Dongfang Xinyue spoke, he stepped into the illusion array and disappeared.

Chen Xiang and Liu Meng'er were shocked, they anxiously chased after him and went into the array.

"That's what I'm familiar with." Chen Xiang finally saw those huge ancient trees.

"It's hard to get out. Look at the back." Although Dongfang Xinyue said that, he did not look worried at all.

Chen Xiang turned around to look. There was no Bloody Thunder Mountain Sea behind him, they were all thick and big trees.

"The people from the Dongfang family are coming over. Dongfang Lingyun, the three elders, and a group of people below Nirvana Stage are here." Long Xueyi suddenly said.

The people of the Dongfang family were all trapped here, but he wasn't too worried. Liu Meng'er and Dongfang Xinyue were not weak, and the two girls were both blacksmiths.

"My two sisters, the people from the Dongfang family are coming. is also here.

After Chen Xiang finished speaking, he immediately disappeared. He was indeed worried that he would drag them down, and when Liu Meng'er and Dongfang Xinyue wanted to take care of him, he would inevitably be distracted.

Dongfang Xinyue frowned, her gentle voice was filled with anger: "It's good that you are here, let's settle the score with this old fellow!"

Chen Xiang was hiding on a big tree in the distance, holding onto the Death-haunting arrow. Although the distance between them was more than three hundred meters, he could clearly see the two beauties wearing snow-white clothes.

Not long after Chen Xiang left, a large group of people quickly walked over. Dongfang Lingyun and Dongfang profoundlong were walking in front, and when they discovered Dongfang Xinyue, they couldn't help but be shocked.

As for the rest of the people from the Dongfang family, when they saw these two beauties suddenly appear here, they couldn't help but stare blankly. However, they immediately lowered their heads when they felt the power exuded from the two girls' bodies.

"Traitor!" Dongfang Lingyun shouted angrily, he obviously knew that Dongfang Xinyue did not take the life vein away, because it was definitely not something that he could take away easily. Although he did not know why the life vein would disappear, it was a good opportunity to frame him.

"Old man, you said I'm a traitor, why don't you take out the evidence! You think I'm a traitor just because of your old mouth? Although I don't really care about the Dongfang family, my contribution to the Dongfang family is definitely not less than yours." Dongfang Xinyue's jade face was filled with anger and grievance.

Dongfang Xinyue was proficient in Artifact Forging and Formation, and had contributed a lot in this area.

"So what? Take him down." Dongfang Lingyun said coldly. He also knew that the beautiful woman beside Dongfang Xinyue was not weak, but there were four of them.

Once Liu Meng'er released the power of the ice wind, a layer of frost suddenly condensed on the surrounding trees. The cold wind howled, and the surrounding hundred meters were filled with snow ice.

[Chapter 726](#)

Seeing Liu Meng'er releasing such a strong cold Qi, the elders all anxiously used their powers to block the cold Qi that was attacking the weaker people on their side.

"How dare you touch Warm Moon!" Liu Meng'er's voice was filled with incomparable majesty and fury, and an even more intense cold Qi was released from her voice, causing Dongfang Lingyun to feel somewhat fearful.

"Icwind magic kungfu, you are Chen Martial Continent, Divine Weapons Heavenly Country's Liu Meng'er!" Dongfang Lingyun had also done a very detailed investigation on the experts in the Chen Martial Continent.

"Humph!" Liu Meng'er swept the three elders with his cold gaze, not a single bit afraid.

Sensing the cold Qi, Chen Xiang also shivered, his crossbow arrow aimed at an elder who had suddenly stopped in his tracks. He poured his strongest power into the crossbow, Dragon Power and Devil-

suppressing holy power, and the two types of power merged together, through the unique Spirit grain above the Death-haunting arrow, they transformed into a crossbow arrow made of black Qi.

"He should be an elder who has survived the Nirvana tribulation. Let me see what kind of damage this Death-haunting arrow can do to him!" Chen Xiang released the arrow, the black arrow flew past soundlessly, but the elder sensed the power of the arrow and immediately released a Innate Qi Barrier.

When the arrow hit the Innate Qi barrier, it dissipated without a single ripple.

"This is the difference!" Chen Xiang sighed. If the arrow had landed on the person who had survived the tribulation of Nirvana Stage, it might have had some effect. However, it was like an egg striking a stone to the Elder who had survived the tribulation of the Eighth Nirvana.

"What kind of scoundrel dares to secretly attack someone?!" The elder roared in anger.

Chen Xiang had a bright idea and quickly imitated his master Huang Jintian's voice and started to laugh crazily, "You guys, if you don't dare to deal with Super Martial School, then you specifically came here to bully women right? What's the difference between things like you and the demons in the demon realm?"

Hearing Huang Jintian's voice, the faces of Dongfang Lingyun and the three elders changed, and they anxiously brought their people to flee.

"Dongfang profoundlong, let me give you a taste of my arrows!" Chen Xiang aimed at Dongfang profoundlong's thigh and shot an arrow. The strong arrow instantly pierced Dongfang profoundlong's thigh, causing a burst of blood to blossom, Dongfang profoundlong immediately let out a miserable scream.

Seeing that, Dongfang Lingyun grabbed Dongfang profoundlong and ran. In the blink of an eye, all the people from the Dongfang Family had left.

The ice around him started to melt as Chen Xiang walked over with a smile.

"These guys were almost killed by my master last time, but now they ran away when they heard my master's voice." Chen Xiang grinned.

Who would know if they were killed in a place like this? Dongfang Lingyun and the others did not want to die in such a useless manner.

"Do you really hate Dongfang profoundlong?" Dongfang Xinyue asked.

"Of course, who told him to keep deceiving that little fool." Chen Xiang curled his lips and said.

Of course, Dongfang Xinyue knew who that little fool was. He was her niece, Dongfang Jing.

"Oh right, why is this Dongfang Lingyun so concerned about Dongfang profoundlong's life and death?" Chen Xiang had betrayed his father, so he might betray Dongfang Lingyun in the future as well.

"Dongfang profoundlong possesses the bloodline of the Patriarch, so the Patriarch can only be inherited by our bloodline. Otherwise, the Dongfang family will meet with misfortune. This is the teachings of our ancestors." Dongfang Xinyue sighed: "But who would have known, my brother's two sons are both this

As the dimensional door opened, Dongfang Xinyue was quickly attracted by it. This kind of spatial type treasure was extremely rare, and the refining process was extremely complicated as well.

"Let's go in together, because it will close in an instant." Chen Xiang did not wait for the two girls to react as he pulled their jade hands and entered the dimensional door.

How could Liu Meng'er not see Chen Xiang taking advantage of others? Seeing Chen Xiang's guilty look, she secretly felt jealous, but now was not the time to speak.

Entering the spatial gate, they appeared in a pile of ruins, where a burst of intense dragon aura could be felt, Dongfang Xinyue anxiously took out the array disc.

Just then, a huge blue dragon flew over from the forest far away. Just as Dongfang Xinyue wanted to release the large array, the blue dragon flashed and turned into a middle-aged man dressed in blue.

"Why is it you again? Brat, are you done yet?!" That handsome middle-aged man pointed at Chen Xiang and shouted.

[Chapter 727](#)

The dragon did not attack, but had turned into a human instead. Long Yan shouted angrily and pointed at Chen Xiang.

"Brat, what tricks are you trying to pull this time?! Every single time, you just have to come for a short period of time before leaving.

The corner of Chen Xiang's mouth twitched, this was the third time he had entered, and every time he had not been caught by the dragon, he never expected that the dragon would be filled with grievances right now, and was currently scratching prison.

"Big brother, this isn't your home. It's also a very important place. Every time I come, I have to avoid you. I feel helpless too!" Chen Xiang laughed bitterly.

Seeing the thing in Dongfang Xinyue's hands, the dragon said: "Is this thing used to deal with me?"

Dongfang Xinyue and Liu Meng'er were also stunned, they never thought that Chen Xiang would actually be able to speak calmly to this angry dragon. They both wanted to laugh, Chen Xiang, this annoying brat, was even unable to endure a dragon.

"That's right. If you don't attack us, I don't want to use it either." Dongfang Xinyue said. Although the dragon had turned into a single person and had no intention of attacking, she and Liu Meng'er were still on guard.

In order to make this dragon fear him, Chen Xiang deliberately released the Dragon Power.

"Yo, Dragon Power!" The middle-aged man was slightly shocked, and what surprised him was not only the Dragon Power, but also a strange aura, "Dragon Slaying Qi!"

Dragon Slaying Qi? Chen Xiang was a little puzzled. Long Xueyi said: "After killing the dragon, and then by absorbing the dragon's pearl, this kind of aura will be condensed."

"Whatever you guys want, just don't disturb my cultivation." The dragon shook its head and leapt into the air, transforming into a blue dragon that flew into the forest.

Chen Xiang stuck out his tongue: "I didn't expect him to get scared from me."

"This is a profound Realm, and it's very big." Dongfang Xinyue immediately took out the map and looked for the direction with Liu Meng'er.

Chen Xiang actually wanted to find the dragon and talk to it, to see if he could take it, but that was a little unrealistic. He was currently very weak, and felt that he had to win against the dragon.

"It's very dangerous inside here, there are some places even I don't dare to go to." From the forest came the voice of the dragon.

"We're already here, let's go take a look first. If we really can't handle the danger, we can come back later." Dongfang Xinyue said, and Liu Meng'er nodded.

"You guys have to watch over me. I'm not as powerful as you guys!" Chen Xiang spread his hands.

"Don't be modest. Without you, we wouldn't have been able to get here so smoothly." Liu Meng'er laughed and walked in front with Dongfang Xinyue.

"A beauty's trouble. Boy, don't be killed by these two women. Your future is limitless!" Although the sound was not loud, Chen Xiang and the rest could hear it.

"It's worth dying with them, hehe ..." Chen Xiang laughed, he was not too worried.

After leaving the ruins, Chen Xiang and the two girls found out that they were originally at the top of a huge mountain. Originally, Liu Meng'er wanted to take out the Jade Lotus Frisbee, but there was a strange power in the air that forcefully suppressed the flying Jade Lotus Frisbee.

Chen Xiang lightly jumped up into the air. After jumping up into the air, he also felt the sudden pressure, and then, as if he had been ruthlessly smashed by a huge hammer, he fell heavily onto the ground.

Now, he knew how impressive that dragon was to be able to fly around. Even Liu Meng'er, Dongfang Xinyue and the others could easily fly around.

"Let's just obediently walk over." Chen Xiang also looked at the map. The place was still very far away and this was a very big profound Realm. It was also at the center of the Continent of the King.

However, he suddenly recalled his promise with Elder Dan. If he was unable to make it on time, he would definitely be despised to death by Elder Dan. He hurriedly took out the Luotian Gate, but after trying, he was unable to open the spatial door.

"Not a small one!" Dongfang Xinyue looked at the sky.

"That's right, there are many powerful formations that cover this profound Realm!" Liu Meng'er praised. To be able to create such a huge array, not only would all the powerful array masters work together, they would also be set up by a very powerful individual.

"Hurry up, I still have a date. If I can't make it, I will die." Chen Xiang anxiously shouted.

"What date?" Liu Meng'er asked curiously. Chen Xiang rarely had such a worried expression.

"Anyway, I missed it. I will be very miserable." Chen Xiang knew that the Elder Dan had a bad temper.

Liu Meng'er thought of Huang Jintian and did not ask anymore. That old madman truly scared people.

The three of them increased their pace and started running on the ground. However, Chen Xiang was pulled by two women because he was too slow.

Fortunately, his physical body was very strong, and was able to withstand the pressure of such a fast sprint.

Climbing over many mountains, passing through a large forest, and leaping over a marsh filled with foul air, he was chased by a few groups of demon beasts on the way and finally arrived at his destination. It was a huge lake that was dried up.

"The map showed that this place was originally made of water!" Liu Meng'er brought Chen Xiang to the bottom of the dried up lake, and looked at the map, looking for some markings.

Soon, they found a box that looked like it was made of mud at the bottom of the lake!

"There really is a treasure!" Chen Xiang shouted excitedly. It had been many years since someone last came here, and this was something that had existed since the Primordial Era.

Dongfang Xinyue walked over and gently caressed the box that was covered with the weathered soil. The soil outside immediately cracked and a box that looked like it was made of green jade appeared, releasing a faint green light.

Dongfang Xinyue used both hands to carry it, it looked very light, so she walked towards Chen Xiang and Liu Meng'er.

"Let's open it and see what's inside!" Dongfang Xinyue's face was full of excited smiles, causing her jade face to turn red, making her look extremely enchanting.

Just as Liu Meng'er extended his hand out, he was grabbed by Chen Xiang: "Let me do it!"

Chen Xiang's impenetrable, if there was extremely poison inside, these two beauties definitely wouldn't be able to endure it, but he wasn't afraid. Whether it was the poisonous blood of the poisonous dragon or the strange poisonous Magical corruption gas, they had no effect on him.

Seeing Chen Xiang's eyes filled with worry, Liu Meng'er felt a warm feeling in his heart and nodded.

When Chen Xiang opened the cover, there was a thick book inside. There was no poison aura, but an extremely oppressive cold qi had suddenly attacked them, and the dried up lake had suddenly turned into a world of ice and snow, the surroundings were filled with gigantic ice mountains, it was as if they had been teleported to another place, a world of ice and snow filled with cold!

"This is an illusory magic array?" Liu Meng'er looked around, feeling the bone-piercing cold wind that was so real it was hard for her to confirm.

[Chapter 728](#)

Chen Xiang and Liu Meng'er were suddenly struck by the frigid coldness, and their entire bodies shivered. Fortunately they possessed the Fire Soul, the fire energy released by it was able to dispel the severe cold.

"Warm Moon!" Liu Meng'er saw Dongfang Xinyue fall all of a sudden and could not help but be shocked, even an expert like Dongfang Xinyue could be struck down by this kind of cold energy, it could be seen that this ice and snow was not simple.

Liu Meng'er anxiously released the hot air and poured it into Dongfang Xinyue's body, allowing her to gradually recover. However, her face was completely pale and her body was trembling.

Dongfang Xinyue was a Master Refiner. Even though she did not have a Fire Soul, her flames were not weak.

"It's so cold, the fire Innate Qi in my body has been completely frozen!" Dongfang Xinyue's delicate body trembled non-stop, causing her to have no choice but to instill more heat into her.

"I... Right now, I am just like ordinary people. I cannot use the Innate Qi at all." Dongfang Xinyue was suddenly terrified, and suddenly lost his strength. This was a nightmare for every Ranker, Liu Meng'er had this experience before, she looked at Chen Xiang for help, and although Chen Xiang's strength was weaker than theirs, Chen Xiang had always been their savior.

"What about the bone I gave you last time? "Take it out and sit on it. It'll be fine!" Chen Xiang knew that the icy cold power was very powerful. If he did not have the Heaven fire soul, even his strong body would not be able to hold on.

Dongfang Xinyue anxiously took out the Vermillion Bird bone from his storage ring, and with Liu Meng'er's support, he climbed up and sat on top of it. The Vermillion Bird bone was indeed the bones of the Inferno Divine Bird, allowing Dongfang Xinyue to quickly recover.

"I almost froze to death, these bones are really good stuff!" Dongfang Xinyue gently caressed the Vermillion Bird bone as he praised.

Dongfang Xinyue was now sure that Chen Xiang also possessed a Fire Soul, and it was a very powerful one as well, otherwise nothing would happen in this strange world of ice and snow. She was a warrior who had to undergo eight tribulations in Nirvana Tribulations, but because she did not have a martial spirit, she was almost frozen to death.

"It seems like there's a mechanism within this box. Something like this happened the moment it was opened. Is this a type of test?" Chen Xiang took out the book from the chest.

"This is the secret we sought from afar." Chen Xiang handed the book over to Liu Meng'er and after Liu Meng'er received it, he read it together with him.

As the two girls watched, their eyes couldn't help but widen. Their beautiful faces were filled with excitement, and after Chen Xiang shouted a few times, they both gave up, and sunk deep into their hearts. Chen Xiang couldn't help but look, and know that the book in the book was one of the array Spirit grain s.

"The place we are in right now is indeed an illusion formation, called the Great Formation of the Freezing Sky. The terrifying icy cold power is not an illusion, but it's an illusion created by the Great Formation. Only the things we see here are illusions, and if we can't break it, we can't escape." Dongfang Xinyue frowned.

"The method to deactivate the formation is in this book. This book contains many powerful formation methods, as well as a large amount of knowledge and experience in refining immortal equipment. There are even... "A divine artifact!" Liu Meng'er's chest rose and fell, looking extremely excited.

This was actually such a powerful book! Chen Xiang was extremely shocked, he guessed that the Refining treasure book was just a small part of this book!

"How long will it take to break the formation? I still have a date! " Chen Xiang anxiously shouted, if he stayed here for a year or so, he would be scolded to death by the Elder Dan when he returned.

"We are currently looking for a way to break through the array, there is a method to arrange the array, but there are some other unknown array formations mixed in. According to the book, the nameless array formations are also in this book, but there are too many large and small array formations in this book, it's very difficult to find them!" Liu Meng'er now felt that it was extremely difficult.

"Let's take a look at the array foundation first!" Dongfang Xinyue said.

Chen Xiang also moved his head closer to the formation base. He wanted to see what the Heavenly Winter Magic Array looked like, but he couldn't understand it, because there was only a circle drawn on top of the book, and suddenly, there were many dense and messy little Spirit grains inside. If he were to look carefully, however, these Spirit grains had a certain pattern, and it would take a lot of effort for him to understand them.

Chen Xiang also had a certain level of foundation for array formations, but he was completely confused by what he saw. No wonder these two beauties were thinking about it so hard.

Dongfang Xinyue could not leave the Vermillion Bird bone, he could only drag the dragon bone away. He could not let Liu Meng'er drag it away, as there might be dangers inside, as Liu Meng'er was his only fighter.

Dongfang Xinyue was like a big boss right now, making her feel extremely embarrassed. On the way there, she gently asked Chen Xiang if he had worked hard.

"It should be here!" Liu Meng'er compared to this book, looked around him. Even though he was surrounded by a vast expanse of white ice, and he could determine that.

Suddenly, the surrounding scenery changed again. At this moment, the coldness was even more intense. However, the three of them were still able to withstand it.

Just now, they seemed to have triggered another mechanism of the array, causing them to be at the top of a very high ice mountain. Just now, they seemed to have triggered another mechanism of the array, causing them to be at the top of a very high ice mountain.

This kind of powerful illusion was something that even Long Xueyi, who had a very strong soul, couldn't see through.

Chen Xiang turned his head to look, and the surrounding scenery suddenly changed, allowing him to appear in a beautiful valley that was filled with the chirping of birds and the fragrance of flowers.

"Elder Sister Meng'er, where is Sister Warm Moon?" Chen Xiang was sitting on the grass, elegantly combing his jet-black hair. Dongfang Xinyue had already disappeared.

"She went to break the formation and told me to stay behind to protect you." Liu Meng'er charmingly smiled at Chen Xiang, his cheeks turning cherry red, making Chen Xiang feel like he was intoxicated by the sight. If not for the presence of Dongfang Xinyue, he would have long ago become intimate with Liu Meng'er, and this was a good thing.

Seeing Liu Meng'er's charming and seductive appearance, Chen Xiang's heart twitched. He hurriedly walked over and hugged Liu Meng'er, allowing her to gently hold on to her fragrant lips and her sweet tongue that made him yearn for her for many days, and continued to suck.

"Little Scoundrel, I missed you so much!" As Liu Meng'er kissed her, she whispered to herself softly and hugged Chen Xiang even more tightly.

As the two of them passionately kissed in this beautiful valley, Dongfang Xinyue was still at the top of the mountain peak where the cold wind was howling. Looking at Chen Xiang and Liu Meng'er lingering in front of her, she couldn't help but be shocked, unable to believe that this was real, and her face couldn't help but turn slightly red.

"The Confusion Array! They had long since wanted to be like this with their lover. At this moment, deep within the great formation of infatuation, every single thought within their hearts would be as they wished! So they should be in their own fantasy now. " Dongfang Xinyue's face became even redder, she did not expect herself to stop this pile of lovers from being intimate with each other.

Chen Xiang and Liu Meng'er were indeed deep inside their hearts in their fantasies, that was why their surroundings became a beautiful little valley. Dongfang Xinyue, the one who was in their way, was also not here, so they could get close to each other.

"Heavens, what are they trying to do ... No, I'm still here! " Dongfang Xinyue's heart started beating wildly, her breathing became hurried, and her face turned even more red. Because Chen Xiang had already ripped off the hem of Liu Meng'er's clothes, and her bad hand was rubbing Liu Meng'er's snow-white rabbit ...

[Chapter 729](#)

The pair of big white rabbits on Liu Meng'er's chest had already completely jumped out and was being kneaded by Chen Xiang's big hand. Their lips, on the other hand, sucked each other's lips, making sounds of honey being sucked in.

Waves of a delicate fragrance gushed out of Liu Meng'er's jade mouth along with a light groan, as if igniting Chen Xiang's evil fire, causing him to knead even more madly Liu Meng'er's sparkling snow peaks, and grip her pink lotus seeds.

Dongfang Xinyue had long since noticed that Liu Meng'er was very close to her, but she didn't think that Chen Xiang would put her wife's master ...

She really did not expect that Liu Meng'er would actually fall for her. If she did not personally see the two of them being so intimate, she would not have believed that Chen Xiang, this brat, would actually be able to capture the heart of such a high and mighty female emperor.

"If this continues, they will definitely ..." At this moment, Dongfang Xinyue's mind was in a mess. She could not leave the Vermillion Bird bone, or else she would be frozen by the icy cold power.

Chen Xiang and Liu Meng'er's lips finally parted. Just when Dongfang Xinyue was about to heave a sigh of relief, she saw Liu Meng'er's misty eyes filled with lust, and knew that something even worse was about to happen. Chen Xiang began to kiss Liu Meng'er's jade neck, and then continued to kiss it.

Inside the large array of emotions, Liu Meng'er was also extremely excited at the moment. Her soft bosom stood up slightly, and when she felt Chen Xiang sucking on it, she couldn't help but cry out.

Looking at the chaotic scene, Dongfang Xinyue's face flushed red to her ears. She took a deep breath and anxiously flipped through the thick Refining treasure books, looking for a way to break the large array of emotions. Otherwise, Chen Xiang and Liu Meng'er would have done something even more embarrassing.

At this time, it was also a test for Dongfang Xinyue. Liu Meng'er's intoxicating moans floated over, every single time striking against her soul. Fortunately she was a woman, but she only felt a little bit embarrassed and embarrassed.

"Found it!" After a moment, Dongfang Xinyue's face was filled with joy as she looked at the place that was filled with the color of spring.

At this time, Chen Xiang was lovingly playing with Liu Meng'er's beautiful snowy mountain, while Liu Meng'er was looking at him shyly. The duo's bodies were crazily magnified in the huge magic formation, causing them to do things they did not dare to do before.

"Meng'er is so big ..." How could she be casually toyed with by a man, and ... Even giving it back for him to bite ... "What am I thinking ..." Dongfang Xinyue's mind was in a mess, she could finally see Chen Xiang's ability once again, to obtain both his body and mind.

"Master and disciple... This brat was truly evil, Meng'er had said it before. So that's the meaning behind his words. We're doomed, Dongfang Jing this little idiot is definitely enchanted by him. " As Dongfang Xinyue thought of this, she looked around and very quickly sensed that there was a very weak power in the distance.

"This is the source of power of the great formation. It should be enough to destroy it!" had already taken off Liu Meng'er's clothes from the upper half of his body, and the cherry blossom on the snowy peak was in her mouth. With a wave of her hand, the Innate Qi of fire that was condensed from the snow fell onto the source of the energy.

Boom! Chen Xiang and Liu Meng'er suddenly felt a little cold. The beautiful valley had already disappeared, but Liu Meng'er suddenly became much more clear-headed, and when she turned her head to look, she saw Dongfang Xinyue looking at them with a flushed face. This made Liu Meng'er's beautiful face immediately flush red.

Just as Chen Xiang was feeling satisfied, Liu Meng'er pinched his waist and made Chen Xiang shout out loud. He suddenly saw the scenery around him, saw Dongfang Xinyue sitting on the Vermillion Bird bone, and quickly realized what had happened!

Only now did Liu Meng'er hurry up and put on her clothes, and hide her arrogant and tempting shuangfeng.

"Warm Moon, you ... Didn't you go to break the formation?" Liu Meng'er blushed and lowered his head, asking with a low voice.

Dongfang Xinyue turned his head around because Chen Xiang was currently staring at her, causing her to feel an inexplicable sense of fear. I just broke it, or. "Otherwise..."

Chen Xiang was not that shy. After all, he had gotten addicted to it, but unfortunately he did not continue.

"Then you saw it all?" Chen Xiang pretended to be embarrassed.

"En!" Dongfang Xinyue lightly nodded his head, "Even though I don't know how you all managed to get away with it, I won't tell anyone else."

Chen Xiang coughed a few times: "Sisters, you two better hurry up and break the array, if not who knows what will happen next."

It was possible for anything. Dongfang Xinyue was also worried that he would fall into an even more dangerous array, maybe he would become like Liu Meng'er and her ...

"Little Scoundrel, it's useless no matter how we call you out just now, you're really into it." Su Meiyao's voice carried jealousy, although she knew that Chen Xiang and Liu Meng'er were already close, she did not object, but when she looked, she could not help but feel a little uncomfortable.

"If it was you, I would have also invested." Chen Xiang laughed dumbly.

"Hmph."

Dongfang Xinyue said: "This is the array foundation, as long as we sense the source of the array's energy, we can destroy it and break it. The formation earlier was the same, but the formation is rather simple and crude, thus I was able to easily detect it."

Chen Xiang looked at Dongfang Xinyue strangely, as if he was reprimanding him.

"Hmph, Little Scoundrel, don't let your imagination run wild." Liu Meng'er lightly pinched Chen Xiang and snorted. Of course she knew that Chen Xiang was blaming Dongfang Xinyue for spoiling his good fortune.

"Elder Sister Meng'er, Xianxian already knew about the relationship between you and I. She's not stupid, she knew it long ago." Chen Xiang curled his lips and said.

"What?" She ... She actually already knew about it! " Liu Meng'er's eyes opened wide, her jade face flushed red again. Xue Xianxian had pretended that she did not realise it, which meant that she

acknowledged him. She did not know how to face Xue Xianxian, which was why she had always had a stone in her heart, but now, she did not need to worry at all.

This sudden joy was accompanied by many complex emotions.

"Don't think too much into it. Let's first break the formation." Chen Xiang caressed her face and smiled, his smile was rather sinister, causing Liu Meng'er to spit on it.

"The source of the formation energy is nearby. There's a very weak spot. Once it's sensed, it can be destroyed and destroyed." Dongfang Xinyue said. He then flipped through the book and continued, "Meng'er, come over here and take a look."

[Chapter 730](#)

Chen Xiang didn't know what to do now, so he could only lie on the ice, and indulge in the fantasy while looking at the two beautiful girls.

"Little Scoundrel, you're so hungry. Do you want this dragon to help you?" Long Xueyi suddenly laughed.

"Sure!" Chen Xiang immediately replied. He had always been thinking about the young girl's complexion and the devilish body of a beautiful dragon.

"You wish." Long Xueyi teased: "Wait for a day when This Dragon is in a good mood. Maybe it can, hehe ..."

This little dragon girl's laughter was filled with boundless charm, causing Chen Xiang to be unperturbed in his heart.

"Without the blueprint for the array, I'm afraid we won't be able to find the base. However, even with the blueprint, it would be very difficult to find the weak point to break the array." Liu Meng'er said.

The two girls continued to analyze the Freezing Sky Illusion Formation, but Chen Xiang had no choice but to condense a creation divine liquid, it would not be bad for him to have more of these things.

After a few days, the two girls finally found the place that broke the formation through the complex array blueprint. That weakness was very small, only as big as a needle, but it was still found by them.

"I'm going to attack the eye of the formation. Prepare yourself." Liu Meng'er said, using her powerful Innate Qi, she condensed a thin needle and waved it, releasing it out, piercing into the needle-sized weakness.

They appeared at the bottom of the dried up lake. However, Dongfang Xinyue's face was filled with pain, her face was pale white, and her cherry lips had turned a deep purple. It was obvious that she had been poisoned.

"Cold Poison... The Icy cold power in the Great Frozen Cloud Art had developed a type of cold poison, and after the Great Formation was broken through, it entered my body." Dongfang Xinyue said weakly, it looked like he was about to collapse.

Bai Youyou said anxiously, "It's the Ice Soul Devil Poison from the Demon World. This poison is only present under the Magical corruption gas s, and it has a spiritual nature, which is used to seep into the

bodies of those who do not have Fire Soul. Once someone dies from the poison, they will be able to devour the energy within their body and then slowly grow stronger."

"What should we do? Is there any hope?" Chen Xiang asked anxiously.

"If my sister was here, perhaps there would be a way ..." Bai Youyou suddenly shouted: "Yes, let her fuse with the Fire Soul!"

Su Meiyao sighed lightly, "Give her the purple Fire Soul that you extracted from Tie Ming. I don't have the use of it right now, and furthermore, I'm not worried that I won't need it in the future!"

Liu Meng'er's hand, which was holding Dongfang Xinyue's, was able to release a large amount of heat, but it was only able to alleviate for a bit.

Chen Xiang took out the purple Fire Soul that contained the pearl. This purple Fire Soul was extremely expensive, he had originally planned to give it to Su Meiyao, but now that he wanted to use it to save people, he could only take it out.

"This is the Purple Fire Soul. Elder Sister Meng'er, help her fuse it." Chen Xiang handed over the purple glowing pearl.

Liu Meng'er was stunned, Chen Xiang actually carried this thing with him, this was the Purple Fire Soul, even in the Heaven Realm, it was enough for people to rob it from him!

Dongfang Xinyue originally thought that she was dead for sure, but when she saw Chen Xiang take out the purple Fire Soul to save her, she was incomparably touched. She was very clear on the value of the purple Fire Soul, but Chen Xiang was very straightforward to use it to save her.

Not only was he able to live, he was even able to obtain the Fire Soul that she yearned for day and night.

Liu Meng'er smashed the bead, using his consciousness to control your tyrannical Fire Soul, and let it enter Dongfang Xinyue's body.

Dongfang Xinyue knew that fusing with the Fire Soul would be extremely painful. If she had a choice in the past, she would rather endure ten times the pain for the sake of obtaining the Fire Soul.

, you have experience with this. You should guide her to fuse with the Fire Soul, it is faster than trying to figure it out for herself. Chen Xiang came to Dongfang Xinyue's side and roughly pinched her tightly shut small mouth, then stuffed in a piece of Earthly fruit.

When fusing with the Fire Soul, the pain of eating a Earthly fruit would lessen by a lot. Last time at the Sacred Dan Realm, Yun Zhu was like this when fusing with the Earthly fruit, he wanted to confirm something.

With regards to the experience of fusing with the Fire Soul, Chen Xiang was much more experienced than the two great beauties in the Mortal Realm.

After eating the Earthly fruit, Dongfang Xinyue no longer felt that much pain, but there was still some pain.

"When fusing with the Fire Soul, you still need to avoid any conflicts with the Congenital kungfu soul in your body. The Fire Soul needs to be completely merged with you, including your soul!" Chen Xiang said.

Liu Meng'er began to recount her experiences while fusing with the Fire Soul, as well as some things that caught her attention.

Dongfang Xinyue's speed of fusing with the Fire Soul was extremely fast, which was outside of Chen Xiang's expectations.

's face was now very healthy, red and attractive, making people want to take a bite of him.

"Thank you, little scoundrel!" Dongfang Xinyue laughed gently, his eyes full of gratitude: "This Fire Soul is truly very precious, I really don't know how to repay you."

"Be my slave." Chen Xiang laughed. This made Liu Meng'er stomp his foot hard.

"Be more honest!" Liu Meng'er glared at Chen Xiang with her beautiful eyes.

Dongfang Xinyue smiled lightly, that charming smile was extremely intoxicating, "If I become your female slave, Meng'er will definitely be jealous."

"Warm Moon, don't listen to this brat's nonsense. Liu Meng'er was a little worried that Dongfang Xinyue would agree. After all, there was Hua Xiangyue as a precedent and Chen Xiang was extremely mysterious.

"But I have to repay him! I can't take his Fire Soul for nothing!" Dongfang Xinyue was really serious now, which made Chen Xiang's heart jump. He was joking to begin with, but if Dongfang Xinyue had agreed, he would have profited immensely, exchanging a Fire Soul for such a beautiful, powerful slave like her.

It had to be known that when he obtained the Fire Soul, it was very easy, as he could make a lot more in the future.

"Ahem, I was just joking. Elder Sister Warm Moon, please don't take it seriously." Although Chen Xiang said that, he actually liked Dongfang Xinyue taking it seriously. He thought that if he could bring Hua Xiangyue and Dongfang Xinyue, the two beautiful female slaves to serve him in the future, that feeling would explode from the bottom of his heart.

Dongfang Xinyue was originally on the verge of death, suffering from the cold poison's torture, she was already in despair, but Chen Xiang suddenly saved her, not only did she not die, she even received a purple Fire Soul.

Dongfang Xinyue had deeply felt the true meaning of these words. She had started to understand why Liu Meng'er had been captured by this little scoundrel, Chen Xiang, both physically and mentally, because Chen Xiang was really capable.

"Master-servant Contract, and it's a life and death contract!" Long Xueyi suddenly shouted, a ray of white light shot out from between Dongfang Xinyue's brows, entering Chen Xiang's soul.

was stunned, Liu Meng'er was also extremely shocked, a contract was also a form of array, it was extremely strange, and Master-servant Contract was indeed the simplest but also the most powerful type of contract, especially this type of life and death contract!

"You gave me my life. From now on, let me protect you!" Dongfang Xinyue smiled sweetly and called out: "Master!"
