

Dan God 731

[Chapter 731](#)

Seeing the beautiful female slave being so obedient, Chen Xiang felt like he was dreaming.

"This is too much of a joke!" Chen Xiang took a deep breath, he could not believe that Master-servant Contract was real, sometimes women would squirm and squirm, but when they were refreshed, they made people shocked, just like when Dongfang Xinyue was in his current state.

Liu Meng'er only let out a light snort. It was already too late for her to stop him, so it was useless to say anything now.

"Master, although I'm your slave, that doesn't mean you can do anything to me." Dongfang Xinyue smiled gently, it was a smile that was extremely ambiguous: "Master, don't bully this slave!"

Chen Xiang wanted to bully her, but he needed strength to do so. This beautiful female slave was much stronger than him.

Hua Xiangyue was charming and beautiful, Dongfang Xinyue was gentle and lovely, and to have these two beautiful female slaves, Chen Xiang would definitely cause others to be jealous to death, but until now, only a few people knew about it.

"Meng'er, are you jealous?" Dongfang Xinyue stuck out his tongue and laughed.

"No... "Yeah, a little, but you're not his first female slave. There's another little demoness who's much stronger than you." Hua Xiangyue was not one bit inferior to this Dongfang Xinyue.

Just when she wanted to find out more about her "sister" that she had never seen before, the dry lake suddenly shook, and a loud sound of tidal waves could be heard. A large amount of water suddenly rushed out from an unknown place, and rushed towards the center from both sides of the lake.

"Hurry up!" Liu Meng'er cried out in alarm as he and Dongfang Xinyue dragged each other and left the bottom of the lake at their fastest speed.

Just as they ran away, a huge black hole suddenly appeared where they stood. The water that had always been rushing into the hole from both sides formed a whirlpool, spinning crazily. Standing on the surface of the lake, it looked like a giant beast was crazily devouring the lake.

Fortunately, Liu Meng'er and Dongfang Xinyue were very fast, they were able to leave the bottom of the lake, and just as they heaved a sigh of relief, pieces of flaming stones suddenly fell from the sky, and every boulder was as big as a small mountain.

The huge rock was burning with raging flames as it landed heavily on the ground. It exploded into a wave of scorching Qi and waves of tremors. The rumbling sounds were incessant, as if the earth was roaring.

"That dragon is right, this place is really dangerous. There are powerful formations everywhere!" Dongfang Xinyue said as he frowned, he then waved his hand and shattered a gigantic meteorite that was falling down from above.

Seeing those fragments falling like countless meteors, Chen Xiang felt that they were not an illusory magic array, but a genuine meteorite from another world.

Liu Meng'er and Dongfang Xinyue pulled Chen Xiang and ran. If they continued to stay here, they would be killed by those unknown formations.

"These formations should all be from the Divine Book. I think that someone must have stayed here for a very long time and even learned to set up the formations on it. That's why there are so many strange and powerful formations here." Dongfang Xinyue looked behind him at the place that seemed to be filled with countless natural disasters. His heart still had a lingering fear.

This was a world of array formations!

When they saw the ruins, they heaved a sigh of relief. Although this place had a dragon, it was much safer than the terrifying place they had come from.

Dongfang Xinyue took out a two storey wooden chest, and placed the divine book on the top shelf. This was a copy she made, it could be quickly copied.

"Meng'er, I originally wanted to give it to you!" Dongfang Xinyue only wanted to enter a dungeon, and the many array formations inside were enough for her to learn for a very long time.

Chen Xiang also wanted to learn, but he had a headache thinking about those countless Spirit grain. Furthermore, with his young age, it was difficult for him to study these complicated things, furthermore, his current strength was still very weak, it would be difficult for him to control the large array.

"Sister Warm Moon, do you know what female slaves usually do for their masters?" Chen Xiang asked with a smile.

"What do you want to do?" Dongfang Xinyue thought for a bit, her beautiful face was at a loss, and she shook her head.

"When I sleep, you have to warm my bed, you have to coax me to sleep. When I shower, you have to help me scrub my back, the best would be to bathe together with me ..." As Chen Xiang just finished speaking, he felt Liu Meng'er emit a burst of ice-cold aura, causing him to quiver.

"This female slave is too strong. You can't control her. She is temporarily under my control. I will help you train her well!" Liu Meng'er said with a serious face, making Chen Xiang secretly look down on her.

Dongfang Xinyue laughed, "Yes, Madam!"

Chen Xiang sighed in his heart. He felt that if he wanted to truly obtain the two beautiful female slaves, he had to first make Liu Meng'er submit to him.

"Warm Moon, Xiangyue! Hehe, it seems like you are born to be this young master's female slaves. Chen Xiang laughed lowly.

"What?" Hua Xiangyue is your female slave! " Dongfang Xinyue exclaimed.

"Yeah, she's the same as you, she also has Master-servant Contract like me, but it's just that she's temporarily not under my control." Chen Xiang looked at Liu Meng'er in displeasure.

"Didn't I worry that you guys would play with fire? With your little strength, you will definitely be tormented to death by a little demon like Hua Xiangyue ... " As Liu Meng'er said that, his face couldn't help but turn red, and his voice became much weaker: "Those who train in Innate Qi, when men and women combine, they will unknowingly enter a strange state. No matter how head-on their Innate Qi is, when combined, it will always be perfectly compatible, but when the difference is huge, it will bring a great deal of harm to the weak."

Chen Xiang looked at Dongfang Xinyue and Dongfang Xinyue's jade face was also red. She nodded: "This is real, you don't know?"

Chen Xiang shook his head: "No one told me!"

"Now you know, this is called dual cultivation." Liu Meng'er said in a low voice.

Chen Xiang now understood why Liu Meng'er and Hua Xiangyue always tried to find an excuse not to let him eat them.

"Then why didn't Xianxian and I notice it when we were doing it?" Chen Xiang asked again, causing the two girls' faces to turn red again. They had lived for so long, yet they had never enjoyed such a feeling.

"You and Xianxian ... Do you do it often? " Liu Meng'er's blush had already spread all over her jade neck. It was indeed very embarrassing for her master to ask about this sort of thing about disciples.

"No, it was just one night, sigh ..." Chen Xiang sighed.

"It happened before you knew it, of course you wouldn't feel it, and it was only for one night ..." Liu Meng'er looked bashful as her voice became softer.

"Cough, cough, it's time to leave!" Chen Xiang felt that the atmosphere was extremely awkward, he anxiously changed the topic, and shouted towards the forest: "Old Dragon friend, do you want to go out for some fresh air?"

Chen Xiang suddenly felt that this blue dragon was not bad. If he could befriend it, then he would have an even more powerful backer in the future.

"If I don't go out, the situation outside will be over. It's safer for me to hide here." The dragon had answered.

"Coward." Chen Xiang snorted.

"Hmph, at least I'll live longer than idiots like you who aren't afraid of death." The dragon disdainfully said, "Hurry up and f * * k off. This is so noisy. They're all young people, yet they say such shameful things. How shameful!"

[Chapter 732](#)

Liu Meng'er and Dongfang Xinyue had become even redder after hearing what the others had said, but Chen Xiang was fine. On the contrary, he was still indignant.

"Damn, you dragons, don't you all have different surnames? You even have the right to criticize us! " Chen Xiang's face was unconvinced, and shouted.

Just because dragons liked to mess around, demon beasts with dragon's blood gave Chen Xiang a bad impression.

"Don't compare me with those noble dragons. Dragons with low status like us are all very clean." The dragon was also unwilling to accept this. "But I've evolved from snake to dragon. Although I've fully transformed into dragon, I'm different from those noble dragons."

Long Xueyi was currently very angry, as a stately Imperial Dragon Race, he was actually looked down upon by this kind of inferior dragon.

The world of dragons was similar to the world of humans. They were divided into different ranks and despised each other.

"Little scoundrel, scolding him to death is so infuriating!" Long Xueyi crazily roared from inside the Youyao Yugong, "Isn't it just that my luck is a bit better, that I can transform into a blue dragon? What's there to be arrogant about? Just wait for me to grow up, then I can smack him to death with a single claw! "

Chen Xiang laughed, spinning the circle on the Luotian Gate, opening a spatial door: "Old Dragon, my name is Chen Xiang, I will come and play with you often."

As Chen Xiang said that, he pulled the two women and walked into the spatial gate. As they disappeared, Chen Xiang heard the voice of the dragon: "My name is Lan Cang, next time don't bring a woman."

After leaving the Super Old Sacred Land, they appeared in the forest filled with giant trees. The illusion formation here was still there, which meant that the people of the Dongfang family were also here.

"Hurry up and leave this damned place. It seems like the treasures here will only attract people to play with their lives." Chen Xiang once again turned the Luotian Gate, and just as the dimensional door opened, a strange transparent Qi suddenly attacked.

The Space Gate disappeared, and the surrounding space was filled with all sorts of oppressive energy!

"This is the Space Warcraft!" Long Xueyi suddenly shouted out anxiously with fear in his voice: "This kind of thing grew up in those oppressive space tunnels, it's very powerful, and can even make space chaotic."

"Now that all the Mortal Realm s have fused together, the spatial tunnel has disappeared. The location where the Space Warcraft exist is becoming smaller and smaller, which is why they have appeared here. Following the start of the Great War between Three Realms, the space has become more and more unstable, allowing these things the chance to come into the human world."

Chen Xiang anxiously pulled the two girls, they were monsters that knew how to use spatial energy, and just as he was about to pull Liu Meng'er and Dongfang Xinyue, they suddenly disappeared!

"Elder Sister Meng'er, Sister Warm Moon!" Chen Xiang anxiously roared, but his voice was resounding all around.

"Little Naughty Dragon, have you discovered where they are?" Chen Xiang asked anxiously.

"No, but don't worry, they are still here. They were only screened by the Space Warcraft, which means that the Space Warcraft has to eat. It means that by seizing this space, it will be able to sense the stronger people in here and then separate them from the weaker ones." Long Xueyi said.

"And then?" Eating, this made Chen Xiang even more anxious.

Then, just wait for the Space Warcraft to be killed. This Space Warcraft is not very strong, otherwise, it would not hide in fear. Liu Meng'er and Dongfang Xinyue are both very strong, you don't have to worry about them.

At first, Chen Xiang did not understand why Long Xueyi made him worry about him, but he quickly received his answer, because he suddenly felt that the space in front of him was shifting, and when he stopped, he saw that there were a lot of people around him with faces full of fear and confusion.

"You weaklings have been gathered here. If the Space Warcraft can successfully eat those powerhouses, you will become its snacks!" Long Xueyi laughed tenderly: "No wonder that stupid dragon didn't dare to come out. He actually knows that there are Space Warcraft outside."

"It could be because the Space Warcraft appeared that activated the Super Old Sacred Land's array formation, causing the Bloody Thunder Mountain Sea to be shrouded in a large array. This way, the Space Warcraft would have a hard time leaving the illusion array." Bai Youyou said: "This is the weak point in space, the one who set up the formation back then had thought everything through."

"Isn't that Chen Xiang?"

Pairs of greedy eyes suddenly stared at Chen Xiang. This was a ten billion Spar, it was just like how they appeared in front of them. If they teamed up and killed Chen Xiang, they would split it among themselves.

Dongfang profoundlong's leg was previously broken by the Death-haunting arrow, but now he had recovered. If he could kill Chen Xiang, he would have even more prestige in the Dong Fang Clan, which would help him improve his position in the Dongfang Family.

The people here were all from below Nirvana Stage, and the people above Nirvana Stage were all taken away by the Space Warcraft through teleportation.

"All of you, come at me one at a time!" Chen Xiang was not afraid at all. Clenching his fists, his Dragon Power appeared and the ground trembled. The surrounding trees immediately cracked and those who had thoughts were immediately terrified, they quickly gave up on the idea.

Not only did they not go up, they backed off, and the place Chen Xiang was in became an empty area, with over 3000 people surrounding him. To the people of the new world, there were not many of them, but most of them were pretty strong.

Looking at the clothes these people were wearing, most of them were from influential powers, and they all came together. Most of them belonged to the Devil-subduing College and Fire Divine Palace, and most of them belonged to the Dongfang family.

Seeing the terrifying Dragon Power on Chen Xiang's body, everyone whispered to each other. Everyone already knew about Chen Xiang cultivating the Taiji Dragon-suppressed kungfu, to be able to spread

such a name in the Mortal Martial Realm, he must be powerful, if he did not have any ability, it would be difficult to defeat Chen Xiang.

Many people did not dare to take action, but there was still a small number of people who were ready to make a move. These people were all very confident in their own strength, and most of them were geniuses from large sects.

"That's disappointing. Let me do it! Although our sect is ranked second in this new world, our strength is definitely not just second. " A man dressed in a luxurious golden attire slowly walked out from the crowd, holding a dazzling sword in his hand.

This man was extremely handsome. He had a faint smile on his face and his demeanor was refined and refined. The moment he appeared, a few women looked at him with adoration.

"The Gold Armored Sword Sect is ranked second in the new world. It is very impressive with the sword, and the Leader is also a very amazing refiner. It is said that he is stronger than Dongfang Xinyue." A person in the crowd exclaimed.

[Chapter 733](#)

Earlier, Chen Xiang had already chased away the third ranked Thunder Heaven School, he did not expect to meet a sect ranked second.

"Lu Xianqing, the young master Dongfang and the people from the number one sect are all here. How can you steal the limelight from others?" someone shouted.

Lu Xianqing was someone from the Golden Hero Sword Sect, of course, Chen Xiang had never heard of him before, but he knew that this name would be extremely famous in this new world, and it was far from his name.

Sure enough, when the crowd heard this name, they all cried out in alarm.

"The one who got the number one sword in the Jin Hao Sword Sect. It is said that the Jin Hao sword in his hand was left behind by the patriarch of the Jin Hao Sword Sect when he ascended. It has been tempered by the ninth Nirvana, and it is almost like an immortal weapon!"

"If you take it to the auction, it would be worth at least eight to a billion Spar. It wouldn't be difficult to raise it to ten billion."

"This should be the first sword attack of this new world!"

Seeing that everyone was discussing about the gold-plated sword, Lu Xianqing had a face full of pride. He looked at Dongfang profoundlong from the Dongfang family and smiled slightly: "Brother Dongfang, if you also want this ten billion bounty, when you defeat me, I will give it to you!"

This Lu Xianqing spoke so casually, as if he could beat Chen Xiang. His expression of confidence did not make anyone sick.

If they killed Chen Xiang, not only would they be able to obtain ten billion Spar, they would also be able to become famous throughout the world.

Lu Xianqing slowly pulled out his sword, the sword body releasing a piercing cold light, a sharp killing intent accompanied with the sword body trembling and gushing out, causing everyone to feel even more shocked by the top sword in the New World, this was a treasured sword that had been passed down for many years, and had drank the blood of many strong Warriors before, so the number of people who died under it would definitely be many.

"I am Lu Xian from the Gold Hero Sword Sect..."

"Really? Who cares about your name?" As Chen Xiang said that, he punched the air, the power of the fist gushed out, rushing towards Lu Xianqing, while the ground followed the force of the fist, with a crackling sound, it exploded, as though it was pierced by a dragon.

Lu Xianqing was infuriated, she faced the incoming force and thrust her sword, causing the Sword Qi on the tip of the sword to surge out, a powerful burst of golden Innate Qi poured into the Gold Hero Sword, and on the sword's body that was radiating a cold light, it suddenly flashed with a gold light, and the Innate Qi released out from the sword became even more powerful.

"Weng!" The golden greatsword vibrated slightly. The melodious sound was so enchanting that it made people feel that it was even more precious than the golden greatsword.

After Chen Xiang threw out his punch, he rushed forward, his fists wrapped with the body of the God of Slaughterers. Slaughter God's Hand, whatever treasure sword and immortal sword they were, they were all nothing in front of this White Tiger Divine Weapon.

The Innate Qi rushed into the Slaughter God's Hand, causing Chen Xiang's claws to become even more powerful, as though he could grab onto and shatter everything in the world. Seeing Chen Xiang's hands suddenly filled with a fiendish aura, everyone could not help but feel chills down their spines.

Although Lu Xianqing was shocked, he reacted very quickly. Slashing towards Chen Xiang, the sword left behind a gorgeous beam of golden light in the midst of the hurried killing intent, an aura even more powerful than the killing intent shooting out from the sword seemed to be able to cut through space.

This was Lu Xianqing's powerful sword strike, but it was not as powerful as everyone thought. This was because the longsword that was glowing with golden light had fallen into Chen Xiang's hands and was firmly held there by Chen Xiang.

That unfathomable grab made it hard for everyone to understand. It was as if Chen Xiang's hand was born with an attraction and sucked Lu Xianqing's sword over, allowing him to grasp the timing and strength extremely accurately. The most shocking thing was that this number one treasure sword in this new world would actually be grabbed by someone else.

Shame! This was the shame of the number one treasured sword in the new world, the humiliation of the Jin Hao Sword Sect.

Lu Xianqing was immediately enraged, his refined white face was filled with killing intent, the veins on his face bulged, making him look extremely sinister, because he knew that he had destroyed the sword's reputation!

Just as everyone was feeling extremely shocked, Chen Xiang's big hand that was covered in white gloves suddenly flashed with a white light. The berserk Dragon Power rushed out, and everyone seemed to be able to hear the roar of a dragon.

"Ding!" A crisp sound rang through the air. Everyone was stunned, as if time had stopped. That golden sword had been broken!

The number one sword in the entire new world was broken by Chen Xiang just like that, causing Lu Xianqing to be completely dumbstruck. This was the Gold Armored Sword Sect's mountain suppressing treasure, he was only rewarded with the use of it for a hundred years because he was an outstanding talent, to actually destroy it now!

Although it was only the first level of Devil Subduing Method, it was created using the Dragon Power. With its might that could cover the entire sky, Chen Xiang who was in a daze was struck until he did not know his own direction, and his head was smashed into the ground.

Sword Destroyer lost miserably, while Chen Xiang only revealed a few moves. Originally, everyone thought that Lu Xianqing was just using his treasured sword to bully people, but now

In fact, Chen Xiang bullied others even more. After thinking about it, he felt that it was extremely cruel to use such a divine item to break someone's life-like thing. However, he liked to deal with these people who wanted to take his head.

"My head is here, whoever wants it can take it!" Chen Xiang held the broken golden greatsword in his hand and released a berserk Dragon Power. Using the Slaughter God's Hand, he twisted the sword into a ball and fiercely smashed it into the ground, creating a huge pit.

When everyone saw Chen Xiang's pair of calm but murderous eyes, they could not help but shiver.

Take his head? Forget about his head, whether he could even touch her hair was one thing! Lu Xianqing's strength was probably strong enough, with the powerful treasured sword, but he was slapped by Chen Xiang until he was like a dog eating shit, who would dare to go up against him?

He was only waiting to see what would happen. He felt that he would have to wait until Chen Xiang had exhausted most of his energy before going up, otherwise, he would end up like Lu Xianqing.

No one dared to duel one on one, but if more people joined hands, they might be able to win.

Two against one, this was something that would be looked down upon. But now, no one looked down on those two, because Chen Xiang was too strong, he definitely wouldn't be able to beat him alone, but if it was two, then maybe it would be possible.

"I thought that there would be a good opponent in this new world, I didn't expect that they would all be trash!" Chen Xiang coldly snorted. Within the Hundred refining realm, he did indeed have very few opponents.

"Great Strength Duo Xiong, Great Strength Gate!" Very quickly, someone recognized the two men.

"Giant Strength Gate, ranked fifth in the new world."

Chen Xiang's Super Martial School does not have a ranking, but he easily defeated the sect's second ranked disciple. "

was not afraid of the two of them fighting together, since he had the time now, he might as well train with it.

[Chapter 734](#)

Great Strength Sect, the moment they heard the name, they immediately knew that the people in the sect were cultivating a type of martial arts that allowed them to be extremely powerful. This Great Strength Duo Xiong's body looked to be stronger than most of the Hundred refining realm's warriors, and his physique was also outstanding, unlike Lu Xianqing's, who was without the golden greatsword, his strength was greatly reduced.

"You all want to attack together?" Chen Xiang asked. The two big men gave him a sense of masculinity, he did not seem like the type of person who would take advantage of others.

"Of course not!" One of the taller men said, and he put away his giant axe.

"I just don't want anyone to disrupt the fairness of the fight between us. I will make my junior brother look good and not let others plot against him!" He looked at Chen Xiang: "How about we compete in terms of physical strength?"

Chen Xiang smiled slightly. In terms of physical strength, he felt that there were very few people in Mortal Realm that could beat him.

"I am from the Giant Strength Sect!" Bao Li cupped his hands towards Chen Xiang.

From the looks of it, he only wanted to exchange pointers with Chen Xiang, and not take the bounty. When he was watching the battle between Chen Xiang and Chen Xiang, he realized that his body was strong, and thus his heart burned with fighting spirit.

"Let's fight!" Chen Xiang kept the White Tiger Gloves. The other party was a good person, he did not want to take advantage of them.

"Receive my attack!" With a loud roar from Bao Li, the thunderous roar shook the forest and caused all the birds in the forest to leap into the air.

Looking at this berserk bull that looked like an angry bull running towards him, Chen Xiang praised in his heart. It was not easy to cultivate one's body to such an extent.

Just the strength of his fleshly body was so strong, it made many young warriors, who mainly trained in Innate Qi, shocked. If it was said that only the strength of the fleshly body, other than Chen Xiang, no one else would dare compete with him.

Bao Li did not use the power of the Innate Qi, so his speed naturally decreased by a lot, but it was still quite impressive. When his iron fist struck down, it even made a sound like it was hitting the air, which was very scary.

As the fist struck towards Chen Xiang's chest, Chen Xiang didn't dodge or block it at all. He also struck back with his fist, the speed of his punch being slightly faster than Bao Li's, to the point that when Bao Li's fist had just touched Chen Xiang's clothes, his fist had already struck his chest.

With a dull boom, Chen Xiang's fist carried a strong force as it violently smashed into Bao Li's large body that was like steel. Bao Li let out a low snort and retreated a few steps, as blood involuntarily flowed out from the corner of his mouth.

It was just a single punch, but without using Innate Qi, he managed to injure the tyrannical body. This caused everyone to be dumbstruck, Chen Xiang's body was actually also very strong.

"I... I've lost!" When Bao Li was speaking, he spat out a large mouthful of blood. He could tell that Chen Xiang had already shown mercy, otherwise, he would not be able to stand up now.

Bao Li was supported by his junior brother into the crowd. The strength that Chen Xiang had displayed was more and more shocking, and it was no wonder that he had the ability to kill Dongfang Yao.

"Ten billion Spar, there are actually so many stupid pigs giving up for that f * cking morals." A sinister voice came out, whoosh whoosh whoosh, a dozen or so skinny men in black robes and silver masks, suddenly descended from the sky, and surrounded Chen Xiang.

"Ghost Killing School, this is a sect that specializes in training cold-blooded assassins, and is ranked ninth in the new world's rankings. It is said that their names are all numbers, and no one knows the identity of any of the disciples in Ghost Killing School."

It is said that there are only a hundred silver-masked Ghost Killers in the Ghost Killing School, and ten of them are enough to kill a ranker who had just entered the Nirvana Stage. The strongest in the Ghost Killing School is the Golden Face Ghost Killer, and the weakest is the tungsten faced Ghost Killer!

Shocked discussions sounded out from the crowd.

had heard of this Ghost Killing School before, when he was wandering around Sky Emperor City, he had heard many people talking about it. This was an extremely outstanding assassination organization, the weakest was a wooden mask, then an iron mask.

Chen Xiang was surrounded by ten silver-faced Ghost Killers. As long as there were Spar s, these killers, regardless of whether they were women or children, would all attack viciously. There were many assassins in the assassin's guild that had bottoms, but none in the Ghost Killing School. As long as they had Spar s, they would kill everyone! What about Chen Xiang who has ten billion Spar s?

Seeing Chen Xiang being surrounded by these 10 silver faced Ghost Killers, everyone felt chills down their spines, because they did not realise that there was a Ghost Killer here earlier, and so many people did not notice their existence.

The Ghost Killer was an assassin with a strong concealment ability. If they were discovered, they were not worthy to be the silver-faced Ghost Killer.

Very few people had seen the Ghost Killer take action, because those that they had seen were basically all dead, and now they had to do it in front of so many people? This caused many people to be afraid,

afraid that the Ghost Killer would make a move on them after he killed Chen Xiang, even though there were thousands of people watching.

A silver-faced Ghost Killer suddenly made a hand gesture, and four of them disappeared, leaving with an extremely fast speed, while the remaining six surrounded Chen Xiang, holding a very thin and long sharp needle, they pierced towards Chen Xiang. Whoosh.

The six places that he had stabbed out were also extremely deadly. If he had been stabbed in one place, even if he didn't die, he would still be seriously injured. What was even more frightening was the poison smeared on all six of the needles.

This was the first time Chen Xiang had encountered a group attack with such speed. No matter how fast he was, it was difficult to escape, and the Innate Qi in his body did not even have time to explode, as the six needles had already pierced towards him.

When they saw that Chen Xiang was about to be pierced through to death by the needles, everyone broke out in a cold sweat. However, the six needles were disappointing, because they only pierced through his clothes and not his body!

Chen Xiang was someone who possessed a divine tool like the profoundwu diamond armour. If he was pierced by these six ordinary weapons, the person who created the profoundwu diamond armour back then would have been killed.

Therefore, Chen Xiang knew that even if he couldn't dodge it, nothing would happen to him. The silver-masked Ghost Killer was indeed strong, trained well, and had a tacit understanding with each other, making people tremble with fear upon seeing him. Everyone believed that if they were to be attacked like this, they would definitely die!

Even though the six needles failed, the four silver-masked Ghost Killer s that had just disappeared immediately appeared and continued to attack Chen Xiang's head with them. Their speed was extremely fast and it only happened the instant after the six silver-masked Ghost Killer s failed.

Chen Xiang had long since prepared himself for the four silver-faced Ghost Killer s who had disappeared just now. When the four long needles pierced towards his head, the four water vines became even faster, and just as the four long needles were about to touch Chen Xiang's hair, they caught up with the four silver-faced Ghost Killer s, and with a fierce tug of the water vines, smashed the four silver-faced Ghost Killer s to the ground.

The six silver-faced Ghost Killer s had already retreated away from Chen Xiang's attack range. Although four of their companions were grabbed by Chen Xiang, they did not have any intention to save him.

The water ball exploded before it could even touch Chen Xiang, sending waves of water splashing everywhere, splashing Chen Xiang's entire body.

"It's highly toxic!" A person shouted in shock as he retreated a few steps.

[Chapter 735](#)

When the clear water fell onto the four silver-masked Ghost Killer's bodies that were entangled by water vines, the four silver-masked Ghost Killers suddenly let out heart-wrenching sounds, and then turned into a pool of blood!

Upon contact, the surrounding trees immediately withered and died, and the fallen leaves were all black!

Seeing that, everyone quickly distanced themselves from the place where the water ball exploded, worried that the poison would spread over from the air, many of them held their breaths, releasing Innate Qi's barrier, they were worried that the silver masked Ghost Killer would be killed.

"Not bad, you know how to use such a powerful poison!" Chen Xiang wiped off the poison that was on his face. He looked like a chicken that had just been splashed with water, how did he look like someone who had been splashed with the poison?

Everyone watched dumbstruck. They had personally witnessed the four silver-masked Ghost Killers on the ground being turned into a pool of blood by the poison, leaving behind only their silver masks. However, Chen Xiang was still unharmed.

Their poison was actually useless against Chen Xiang, which was also what they relied on the most. Their Innate Qi might not be too strong, but they specialized in speed and poison, which was why their Ghost Killing School had the most outstanding poison master, which was why their Ghost Killing School had become so powerful.

Just as they wanted to escape, they felt a chill run through their bodies. The water vines wrapped around their bodies, preventing them from moving.

Chen Xiang's technique was still very useful, especially against those who were weaker than the tyrannical warriors. It was very deadly, as long as they were caught in it, it would be hard for them to escape.

The six silver-masked Ghost Killers were hidden together by the water vines and then slowly dragged over. With a wave of Chen Xiang's hand, the poisonous water that fell to the ground a moment ago gathered together and gathered into Chen Xiang's palm.

"You guys are really ruthless. In order to achieve your goals, you don't even want your companions!" The cluster of poisonous water on Chen Xiang's palm miraculously floated around, causing the silver-masked Ghost Killers to tremble from head to toe when they saw it.

Everyone could see that Chen Xiang was going to use the poison to kill the six silver-masked Ghost Killers. As expected, just as the six silver-masked Ghost Killers cried out for mercy, the poison had already exploded on top of their heads.

Under the bindings of Chen Xiang's water vines, these six silver-masked Ghost Killers let out miserable howls, as their bodies were slowly corroded by the poison and turned into a pool of black blood.

At the same time, they besieged Chen Xiang, making him look like a drowned chicken, but in the end, all that was left of his corpse and bones. Although Chen Xiang did not have that frightening silver mask on his face, his faint smile made people even more terrified.

"Young Master Dongfang, we meet again. The last time you stabbed your father in the back, it was really hard to forget!" "From the looks of it, you did it pretty well!" Chen Xiang walked towards Dongfang profoundlong with a smile.

The matter of Dongfang profoundlong tricking his father had long become a topic of discussion in this new world. Many people could tell that Dongfang Chaoqun had seized this opportunity to incite them, and in order to not be purged by Dongfang Lingyun, Dongfang profoundlong did not hesitate to betray his father in order to become the Clan Chief in the future. Of course, there were other secrets as well.

Last time, Chen Xiang had used his Death-haunting arrow to secretly shoot at Dongfang profoundlong's thigh, but Chen Xiang did not feel that it had caused any mental trauma for Dongfang profoundlong, because he had used the role model Huang Jintian, this crazy old man, to scare him. In Dongfang profoundlong's eyes, being ambushed by someone who was strong was something to be proud of.

Right now, Chen Xiang wanted to make Dongfang profoundlong feel guilty, and at the same time, wanted to make the Dongfang Family to waste more pills to save Dongfang profoundlong, because the Dongfang Family's patriarch only had one bloodline that he could inherit.

Chen Xiang felt that if he was lucky, the Dongfang family's bounty on him might even increase a little. Now that there were so many people watching, if Young Master Dong Fang got ravaged and Dongfang Lingyun didn't make a sound, he would definitely be underestimated.

"Chen Xiang, you killed my twin brother. Do you still want to kill me?" Dongfang profoundlong's face was ice-cold, not the slightest bit of fear.

"A man like you, would you care about your dead brother? You even dare to poke at your father, what do you care about kinship?" Chen Xiang laughed coldly, there were truly many guards by Young Master Dongfang's side, and they were all powerful, more than twenty in total.

"Hmph, to deal with a traitor, you have to be ruthless. Even if he is my father, as the successor of the Dongfang Family, I will not let him off so easily. I will sell out my Dongfang Family for my own personal gain." Dongfang profoundlong's words were filled with righteousness and vigor, and it seemed that he really meant what he said.

However, Chen Xiang did not believe it at all. Anyone who knew Dongfang Chaoqun in the slightest would know that Dongfang Chaoqun would definitely not sell the Dongfang family. It was entirely possible that it was Dongfang Lingyun and Dongfang profoundlong.

"What a tough mouth, hehe!" Chen Xiang suddenly laughed sinisterly, his Soul Absorbing Devil Spell could make people speak the truth, but the problem was that he had to let go of Young Master Dongfang's bodyguard first.

"Arrest him!" Seeing Chen Xiang coming towards him step by step, Dongfang profoundlong anxiously shouted, and the 20 bodyguards immediately ran towards Chen Xiang, waving their blades and swords, activating Innate Qi, starting to attack with all their might.

Everyone could not help but admire the strength of the Dongfang family. That thick and violent Innate Qi made many people frightened.

"Tai Chi Dragon Formation!" Chen Xiang's face sank, his hands started to dance wildly, and from beneath his feet, waves after waves of terrifying Dragon Power surged out, turning into many thin and long white dragons and black dragons, revolving around his feet, and quickly swimming in two different directions. They formed into a ten feet wide Yin Yang Taiji array, and started to quickly spin under his feet.

The 20 people who were attacking suddenly increased in speed, but they were not under their control, and flew towards Chen Xiang, the weapons in their hands flying out first, and after entering the Tai Chi Dragon Formation below Chen Xiang's feet, they were all twisted and damaged, some had even exploded.

One must know that the power within the Tai Chi Dragon Formation was compressed by a large amount of Dragon Power. After being strengthened by the profound formation, it became extremely terrifying.

It was a technique from the Taiji Dragon-suppressed kungfu, but it consumed a lot of the Innate Qi and required a large amount of it to support it.

When Young Master Dongfang's twenty bodyguards saw the outcome of those weapons, they were overwhelmed with shock, but it was already too late. The Innate Qi in their bodies were affected by the strong suction force, causing chaos and violence, and he couldn't control them.

After the twenty people were sucked into the Tai Chi Dragon Formation by Chen Xiang, their bodies immediately emitted a "ge ge" sound of their bones shattering. Their bodies were similar to the swords and sabers, they were all broken and bent.

[Chapter 736](#)

Everyone decided in their hearts that when they saw it with their own eyes, they would become even stronger. In the future, when they saw Chen Xiang, they would definitely not show any hostility, or else they would be like the people inside the Tai Chi Dragon Formation.

In merely an instant, Chen Xiang used thirty percent of his Innate Qi. For someone like him, who had a thick Innate Qi, this was a huge consumption of his energy.

The twenty elites of the Dongfang family were taken care of just like that. Their bones were almost all broken. Although they did not die, they suffered serious injuries.

Dongfang profoundlong originally wanted to run, but after seeing that all his bodyguards had been taken care of, he knew that he wouldn't have the chance to.

It was only natural for Chen Xiang to attack Dongfang profoundlong. Who asked the Dongfang family to place a ten billion bounty on Chen Xiang? And now that Chen Xiang had such a good opportunity to deal with him, he would definitely not be lenient.

Dongfang profoundlong was a little afraid in his heart, but he could not let his reputation lose here. He took out a sharp sword, and saw that it was actually a pretty good grade treasure.

"You didn't run away, that's really out of my expectations!" Chen Xiang sneered as he walked over. Now that there were so many people watching, he definitely had to make this Dongfang profoundlong spew out the matter of him cheating his father and son.

"Our Dongfang family issued a bounty, we never thought of doing it ourselves, so as to not let others say that our Dongfang family didn't pay the price, but now you're the one who forced me to do it. Today, let's call it quits!" Dongfang profoundlong had a very confident look on his face, as if he could pierce through Chen Xiang's throat with his sword.

"That sounds good, but I'm not your father, so don't think about stabbing me in the back." Chen Xiang laughed heartily: "Of course, even if you recognize me as your father, I won't take you in, lest I get cheated by you."

Dongfang profoundlong suddenly laughed out loud: Chen Xiang, you are truly arrogant, the fact that my Dong Fang Family can stand on this new world and become the number one clan, the strongest power, this is not a coincidence! Don't think that just because you learned a powerful mystical technique, you think that you can be so arrogant, don't look down on me!

As the strongest member of the Dongfang family, for the glory of the family, even if I have to sacrifice my life, I will not lose. I am not afraid of death, the honor of the family is more important than my life, and when my father betrayed the family, I had to endure excruciating pain to kill him. Chen Xiang, you have insulted my family many times, but today, I will use your blood to wash away all of this!

His words were full of arrogance, causing others to silently admire him, but Chen Xiang knew that what he said was all nonsense.

Chen Xiang suddenly flashed, his speed was extremely fast, Dongfang profoundlong only saw a shadow flash by, followed by a burning pain on his face.

Everyone originally had a little admiration for Dongfang profoundlong. They were just planning to see how he would fight with Chen Xiang, but who knew that the self-confident Dongfang profoundlong would actually be ruthlessly slapped in the face by Chen Xiang?

Dongfang profoundlong's glorious image in the hearts of everyone suddenly plummeted!

Is this Young Master Dongfang? How is this possible? To have one of his teeth knocked out with a single slap, wasn't that a little too weak?

"Chen Xiang, you ... "Shameless, you dare to plot against me ..." Dongfang profoundlong looked at the teeth on the ground, which were lying on a pool of blood, and felt incomparable rage. Originally, he had a lot of words to say to enrich his image, but Chen Xiang didn't let him say anything.

Chen Xiang had to admit that this Dongfang profoundlong's mouth was indeed quite sharp. His ability to fool and act was top-notch, if he hadn't personally witnessed Dongfang profoundlong sneakily attacking his father from behind, he would definitely have been fooled as well.

"Who asked you to speak so much nonsense!" Chen Xiang coldly snorted. "Don't you know that when you're facing your enemies, you can't slack in the slightest?"

"I, Dongfang profoundlong, have always competed fairly with others, and only a despicable, shameless and despicable person like you would do such a thing." Dongfang profoundlong surprisingly wiped away the blood from the corner of his mouth with an extremely calm and collected expression.

Chen Xiang suddenly felt that the little fool Dongfang Jing was most likely being duped by her big brother.

"Chen Xiang, look at the sword!" Dongfang profoundlong shouted loudly. When competing with others, letting them see his moves was indeed a very upright action.

Of course, Dongfang profoundlong was not a fool like that, he was first to stab the sword and then shout, and his sword was much faster than his mouth. When he stabbed forward, his voice had just reached everyone's ears, but it seemed like he was really reminding Chen Xiang.

Just as he was about to use the profound Gang Finger to break the sword tip, he suddenly felt a resistance. One must know that he was wearing a White Tiger Gloves on his body right now, and with the power of the Slaughter God's Hand, even if he did not use the Dragon Power, he could still break all of those powerful treasures easily.

However, this sword did not exist. He realized that the quality of this sword was far better than the one he had twisted into a ball.

Dongfang profoundlong's forehead started to perspire, he did not expect Chen Xiang's fingers to be so powerful, grabbing onto the sword tip, preventing him from pulling it out.

"Humph!" Chen Xiang suddenly grabbed onto the sword blade, slipped, and directly slid onto the sword hilt, releasing a strong burst of energy, producing a huge impact. Chen Xiang directly grabbed onto the sword and used the sword hilt to ruthlessly stab Dongfang profoundlong, and then seized the sword.

"This is something that Dongfang Xinyue refined, the quality is not bad, it is much better than that bullsh * tty golden greatsword." Chen Xiang looked at this sword. Dongfang Xinyue had indeed given a lot for the Dongfang Family and had expended a lot of effort to refine weapons for their families. However, in the end, he had the reputation of a traitor to his family.

After he kept his sword, Dongfang profoundlong suddenly attacked ferociously. His fists were extremely powerful, the Innate Qi roared, and when he punched over, it was like a roaring lion, heavily smashing onto Chen Xiang's face.

Dongfang profoundlong was secretly happy. Just as he revealed a surprised look on his face, it immediately disappeared, because not only did Chen Xiang not lose his teeth and vomit blood, he did not even turn his head.

"I'm not like you. I'm not someone who would be casually ambushed by others!" Chen Xiang laughed sinisterly, the Innate Qi on his fist turned into a white tiger head filled with killing intent, letting out a terrifying roar, it smashed towards Dongfang profoundlong's face.

"Ahh ..." Dongfang profoundlong let out a blood-curdling scream. Chen Xiang's fast and fierce White tiger god fist smashed into Dongfang profoundlong's nose, smashing his nose down, causing blood to flow out.

[Chapter 737](#)

At that time, Chen Xiang thought that Dongfang Jing was very strong, but now that he saw Dongfang profoundlong's strength, he understood why that little idiot Dongfang Jing could win against Dongfang profoundlong, because Dongfang profoundlong only had a strong mouth.

Although Dongfang profoundlong's cultivation was not bad, and the Innate Qi was also very rich, he still had very little experience in actual combat, and was even worse than his younger brother, Dongfang Yao.

Dongfang profoundlong came from a distinguished background, and had never suffered through anything since he was young. He had only cultivated by relying on pills, and he had never suffered like this before. He never thought that his beautiful nose would be smashed by someone else.

"You ... "You ..." Dongfang profoundlong was so angry that he couldn't speak. Actually, even if he was given a chance to speak, he didn't want to speak because the moment he spoke, his nose would hurt and his teeth would fall.

"Young Master Dongfang, didn't you say that you won't rest until we die? Didn't you say that for the sake of our family's glory, we can even forsake our lives? You have destroyed the honor of your Dongfang family, why don't you just die? " Chen Xiang looked at Dongfang profoundlong who was covering his nose, and approached him step by step.

"Chen Xiang, ten years is not too late for a gentleman's revenge. As long as I, Dongfang profoundlong, do not die, there will be a day when I will seek your revenge. The glory of the Dongfang family will never be ruined by me!" Dongfang profoundlong covered his nose, and said some impassioned words.

Everyone could see that Dongfang profoundlong was only good at talking, and the others were not strong enough, but now they looked at him as if he was a joke.

"Glory?"

Chen Xiang slapped out his palm, the strong tremors caused the ground to crack, the force of the Heaven Blasting Palm enveloped Dongfang profoundlong, the force of the palm hit Dongfang profoundlong's face, causing the blood in Dongfang profoundlong's body to surge, the blood and energy in his body surged, it sprayed out of his mouth, at the same time, Dongfang profoundlong's teeth had shattered from the shock, and he flew out together with the blood tiger.

"You think someone like you, who sold his father for honor, is worthy of talking about glory? Not only did you not help your father fight against the Dongfang Lingyun who suppressed your clan leader's bloodline, you even came to harm your father? Do you know how powerful the weapon refined by Dongfang Xinyue was? She could easily make a whole bunch of those bullsh * t Gold Great Swords, but she was forced by Dongfang Lingyun to become enemies with the Dongfang Family. They were originally the glory of the Dongfang Family! "

What Chen Xiang said was all true, Dongfang Xinyue's smithing skills, even Su Meiyao and Bai Youyou were all praising him, such a talent would affect Dongfang Lingyun's governance in the Dongfang family, and would definitely be taken away.

"Didn't you want your father to die quickly so that you could become the next Patriarch? Sooner or later, both your father and Dongfang Lingyun will ascend to the sky. When that happens, the Dongfang

family will be yours. Chen Xiang struck the top of Dongfang profoundlong's head with his palm, activating Soul Absorbing Devil Spell to search through his memories.

After all, Dongfang Chaoqun and Dongfang Xinyue possessed the bloodline of the Dong Fang Clan's Patriarch and the Dong Fang Family was theirs. They had no reason to betray their own family that they were in charge of, so there was no need to.

"So that's how it is!" Chen Xiang was slightly shocked in his heart. Not only was Dongfang profoundlong scheming against his father to quickly obtain the position of Patriarch, there were actually other reasons as well.

"To be honest, why did you do this to your father!" Chen Xiang asked. When people used Soul Absorbing Devil Spell, they would always answer whenever they were asked a question, and they would even speak the truth.

"Because I want to quickly obtain the Patriarch's position and the Patriarch's Blood Soul. That way, I can quickly become stronger." Dongfang profoundlong said. Everyone was shocked, Dongfang profoundlong actually admitted to it.

However, everyone was very curious about what the Patriarch's Blood Soul was!

Chen Xiang also satisfied everyone's curiosity, and asked immediately: "What is the Patriarch Blood Soul?"

"It's said that it's the soul of the God blood. It's said that it's used only when the Patriarch is in the Nirvana Doom, so the person can't die while crossing the Nirvana Doom, and it's placed in the family's treasure grounds."

Nirvana Doom was the nightmare of countless warriors. With this, wouldn't they be able to cultivate to the next level without a hitch?

"Then did you get the Patriarch's Blood Soul? Where is the Patriarch's Blood Soul now? " Chen Xiang asked again.

"No, the Patriarch's Blood Soul is being guarded by Dongfang Lingyun, he wants to use the Patriarch's Blood Soul to fly to the Heaven Realm through the Nine Nirvana Tribulations, because as long as the Patriarch of the Dongfang family ascends or dies, the Blood Soul will follow the Patriarch. At that time, the new Patriarch's Blood Soul will descend onto the new Patriarch, and the Patriarch can use it with the members who possess the Patriarch's bloodline."

The Patriarch's Blood was indeed a miraculous thing, no wonder Dongfang Lingyun did whatever it took to get the Patriarch.

"Since you possess the bloodline of the Patriarch, you will definitely be able to use the Patriarch's Blood Soul to travel through the Nirvana Doom in the future. Why did you betray your father?!" Chen Xiang asked.

In fact, the Patriarch's Blood Soul can only be used by people of our Patriarch's bloodline, but my Patriarch's bloodline is unexpectedly thin, and only by fusing with the blood in my father's body can I

use the Patriarch's Blood Soul. Dongfang Jing and Dongfang Xinyue are the blood of females, so they are not suitable for me to use, so maybe their Patriarch's bloodline is not pure either.

Dongfang Lingyun and Dongfang profoundlong were doing it for the Patriarch's Blood Soul, and Dongfang Lingyun was almost flying up, which was the most important thing to him, and Dongfang profoundlong not being able to use the Patriarch's Blood Soul was the most regretful thing that he had done.

That was why they were plotting against Dongfang Chaoqun. In order to ascend in power, Dongfang Lingyun and Dongfang profoundlong had done such a thing.

Furthermore, Dongfang Lingyun was still expanding and slaughtering those who opposed him. If this continued, the new world would not be able to unite, and the only way to stop would be to pull Dongfang Lingyun, the Patriarch, down.

This was also the reason why Chen Xiang was doing this. These things were all said out by Dongfang profoundlong, and if so many people heard it, it would definitely spread out and spread to the ears of the people from the Dongfang family. At that time, those people who were deceived by Dongfang Lingyun would definitely be shaken.

If Dongfang Chaoqun and Dongfang Xinyue took advantage of this opportunity, they would definitely be able to take back the Dongfang family's power!

"Seeing as you are speaking the truth, I will let you go today. Your father will personally punish you." Chen Xiang knocked Dongfang profoundlong out with a palm.

Chen Xiang's methods had already caused these people to be deeply afraid. Even if it was a hundred billion bounty, most likely no one would dare think of targeting Chen Xiang's head.

[Chapter 738](#)

The Space Warcraft that appeared in this new world wanted to eat, so that he could move all the experts with cultivations above Nirvana Stage away in one breath. As for those that were below Nirvana Stage, they would be put together by the Space Warcraft.

This was a consistent style of the Space Warcraft, and of course, this came from Long Xueyi's inherited memories. This was because it was not easy to encounter a Space Warcraft even in the Heaven Realm s.

After beating Dongfang profoundlong down to the ground, Chen Xiang swallowed a pill and walked in the same direction. It had been a long time since Liu Meng'er and Dongfang Xinyue returned, and he was extremely worried.

What put him at ease was that he knew that Dongfang Xinyue was still alive, because he and Dongfang Xinyue both had a Master-servant Contract. He could feel them, but he could only sense that Dongfang Xinyue was still alive and did not know where she was.

Long Xueyi had already activated the Heaven tour method to search for it, but after searching through the forest, he did not find anything, not even a trace of it. Long Xueyi guessed that it was within a spatial space, and it was not difficult for Space Warcraft to find such a place.

"Wait, they are definitely fighting in that space, and that space is created by Space Warcraft, it is definitely not very strong, let me try and see if I can feel the weak spatial undulations!" Long Xueyi said.

Chen Xiang could only wait patiently, and felt the connection between him and Dongfang Xinyue that transcended space at all times. No matter where he was now, he could always feel the link between him and the two exceptionally beautiful female slaves, Dongfang Xinyue.

Just as Chen Xiang was waiting for more than two hours, a strong burst of spatial energy struck over, causing the entire forest to tremble slightly. Following that, a burst of powerful Qi surged through the forest, blowing apart many large trees, broken thick tree trunks and many large leaves.

That wave of aura formed from the intense Innate Qi was very strong, and Chen Xiang could feel Liu Meng'er's cold energy from it, which made him feel a lot more at ease.

In order to avoid the countless pieces of the tree trunk that were blowing towards him, Chen Xiang jumped into the air and advanced while facing the berserk aura. He wanted to see what the Space Warcraft looked like!

The air had disappeared, and the forest had quietened down once again. Chen Xiang had already seen a place in the distance that was extremely empty, with craters all over, caused by the uprooting of huge trees. There were more than thirty people scattered all over the place, and the most noteworthy thing was the gigantic beast lying in the middle, whose entire body had long black fur, and was as tall as three people.

This was the Space Warcraft that Long Xueyi had described, it had a human-like body, with black fur all over, and it was also huge and strong, but it was already lying there, its body was covered in frost, and one could tell that it was made by Liu Meng'er's powerful Icewind magic kungfu.

Chen Xiang could clearly see those over thirty Rankers in the distance, and he recognized a few of them. For example, he knew Man Futian and Zuo Zhenxuan from the Devil-subduing College, Dongfang Lingyun from the Dongfang Family and the elders, and even the two elders from the Divine Martial Sect.

However, their faces were not well. It could be seen that in order to avoid being devoured by the Space Warcraft, they had started to fight. Some of them were even injured.

"Hmph, Huang Jintian is not here, Dongfang Xinyue, just surrender, you are severely injured, how can you retaliate!" Dongfang Lingyun laughed sinisterly as he looked at the pale Dongfang Xinyue.

Liu Meng'er wiped the blood from the corner of his mouth, his body releasing a cold Qi, holding onto a white jade long spear, he said coldly: "Dongfang Lingyun, just now when we were dealing with this beast, we did our best, it can be said that without the two of us, you two would have been eaten by this guy!"

"So what? Now I want to capture the traitor of my Dongfang family!" Dongfang Lingyun did not immediately attack Dongfang Xinyue who was severely injured, but instead walked towards the Space Warcraft. Since the Space Warcraft was so powerful, it must be filled with treasures.

"What do you want? We all have our hands on it, do you want to keep it for yourself?" An old man's face showed that he could not accept this, but Dongfang Lingyun looked at him fiercely.

Everyone had varying degrees of injuries now, and a lot of Innate Qi had been used up, but there were four people in the Dongfang family!

"Is that all? When you're fighting, hide behind a woman. Even if they win, they steal the spoils of war from others. " Chen Xiang immediately imitated Huang Jintian's voice.

"Haha, is Huang Jintian really you? Don't think that you've lied to me once, and you still want to play with me a second time? Chen Xiang, I know it must be you! " Dongfang Lingyun laughed.

They hoped that Chen Xiang would not come out, as otherwise, it would be very dangerous. After all, Dongfang Xinyue was heavily injured, and even standing up was difficult for him. Furthermore, the others would definitely not offend the powerful Dongfang Family, as no one would help them.

Chen Xiang could also tell that the situation was not good for Liu Meng'er and Dongfang Xinyue. However, he still appeared, and very unhurriedly flew over with a faint smile on his face.

"You've got guts. Although we're slightly injured, it's not a problem to deal with them. It's as simple as crushing an ant to death!" Dongfang Lingyun laughed.

Chen Xiang shook his head and sighed, he took out a pill and quickly placed it on Dongfang Xinyue's sandalwood. Although Chen Xiang's movements was extremely fast, a few knowledgeable people still knew what pill Chen Xiang gave him.

"Eternal Dan!" An old man shouted in shock, and the thirty-odd experts immediately burst into an uproar.

Eternal Dan, middle Heaven level. Moreover, after the medicinal power of the pellet had not subsided, the Innate Qi would have an unlimited amount of time to do so, and would also be able to recover quickly after suffering an injury. It was considered one of the best pellets in the world of Nirvana Doom.

Sure enough, after Dongfang Xinyue ate it, she who was so weak that she couldn't even talk, immediately stood up, and a wave of scorching Innate Qi surged onto her delicate body.

Dongfang Xinyue was Chen Xiang's slave, so of course Chen Xiang would not be stingy with his pills. Previously, he had given Liu Meng'er a Eternal Dan and a few other Relive Dan, but Liu Meng'er had not used any of them, so he had obviously used them long ago.

After giving the Eternal Dan to Dongfang Xinyue to eat, Chen Xiang took out the Relive Dan and gave it to Liu Meng'er. When everyone saw it, they all moaned in their hearts, this was something that only those who went through tribulation would be willing to use, but now, Chen Xiang gave it to the two women to eat without even blinking his eyes.

A rich pill like Chen Xiang caused people to feel fear from the bottom of their hearts. Everyone was curious as to where he had gotten so many high levelled pills.

"Dongfang Lingyun, didn't you want to kill me?"

After eating the Eternal Dan, Dongfang Xinyue could feel the endless Innate Qi. She had an unprecedented level of fighting spirit, as she held onto a burning iron chain, and her beautiful eyes shone with killing intent as she looked at Dongfang Lingyun.

After Liu Meng'er ate the Relive Dan, his injuries immediately recovered a lot. Although he was not in his best condition, he was still better than Dongfang Lingyun and the rest.

[Chapter 739](#)

Dongfang Lingyun still did not know that many people knew about his conspiracy with Dongfang profoundlong. Before long, it would spread across the whole new world.

At this moment, his entire body was trembling with anger. One reason was because he could only look at the two good pellets that were being used for Nirvana Doom being eaten by the two women, and the other reason was that these pellets were actually from that brat, Chen Xiang. When he looked at Chen Xiang's expression while squandering, he knew that Chen Xiang did not pity these pellets at all.

There were not many Dan King in this new world, but there were many of them. However, they were still lacking in spiritual medicines, especially those that were high quality or above, so high quality or high quality Ground level pills were still very precious.

At this time, Dongfang Xinyue was growing more and more fond of her little mistress. Not only did he give her the Fire Soul, he also gave her an expensive Eternal Dan when she was heavily injured. At this moment, she was also extremely pained for herself to waste that Eternal Dan, so of course she was more moved and warm.

Chen Xiang suddenly walked over to the Space Warcraft's side and caressed its frosty fur, then laughed and with a thought, kept it in his storage ring.

The Space Warcraft was killed by everyone painstakingly, yet it was taken away by Chen Xiang just like that. Everyone was furious, but when they saw Liu Meng'er's beautiful yet cold eyes, they did not even dare fart. They had already seen the strength of the two women just now, and they were also injured, so they definitely could not beat them.

"Chen Xiang, you little bastard, hand over that corpse!" Dongfang Lingyun was instantly enraged: "Let's work together and snatch the corpse back!"

No one was willing to help them. If they offended Chen Xiang, the rich guy with the pills, when they asked for pills in the future, they would definitely be rejected, not to mention the fact that Dongfang Xinyue and Liu Meng'er, the two powerful women, were there.

"Don't worry, other than those four fellows, everyone else will have a share. I'm just keeping it safe for now, so that Dongfang Lingyun won't steal it." Chen Xiang smiled lightly at everyone, then walked to Zuo Zhenxuan's side and took out the Space Warcraft's corpse.

"Elder Zuo, can you count the number of people here? Other than me and the four guys, everyone else will get one." Chen Xiang laughed.

Seeing that Chen Xiang and his relationship was so close, Dongfang Lingyun couldn't help but feel a chill on his back. If they had attacked just now, Zuo Zhenxuan would have undoubtedly attacked them from the back.

Chen Xiang possessed a high level pellet, it was a very normal thing to be able to make friends with an expert of Zuo Zhenxuan's level. Zuo Zhenxuan's ten levels of Devil Subduing Method, shocked everyone greatly, being able to become the Principal of the Devil-subduing College was not a simple matter.

Originally, everyone had already given up hope for the Space Warcraft's corpse, but now that there was one, everyone secretly rejoiced, and revealed their enmity towards Dongfang Lingyun and the others.

Dongfang Lingyun was no fool. Seeing the situation turn against them, he scoffed, "Let's go, you guys remember this!"

When Dongfang Lingyun left, everyone heaved a sigh of relief, Zuo Zhenxuan also started to cut the Space Warcraft, he even specially gave Liu Meng'er and Dongfang Xinyue the biggest and best part, but he gave the beast cores to Chen Xiang, no one had any objections.

Although there are no treasures here, it is still a good harvest to obtain the bones of these strange beasts. Boy, come to Devil-subduing College often when you have time. Zuo Zhenxuan sincerely thanked Chen Xiang.

"I have already reported this to the Devil-suppressing Divine Palace. I think that when you go to the Heaven Realm, the Devil-suppressing Divine Palace will definitely open its doors to you." Man Futian laughed.

"Let's wait until after Great War between Three Realms." Chen Xiang sighed, which touched on the heaviest worry in everyone's hearts.

With the death of the Space Warcraft, the illusion formation shrouding the forest slowly disappeared after feeling the threat. Everyone left the Bloody Thunder Mountain Sea one by one, while Chen Xiang used the Luotian Gate to directly enter the spatial gate with the two women and returned to the Chen Martial Continent.

"It was really close, I was almost taken advantage of by Dongfang Lingyun." Dongfang Xinyue let out a faint sigh, chuckled, and then kissed Chen Xiang's cheeks.

"Master is so nice to me." Dongfang Xinyue's jade face was filled with gentleness and her eyes carried an enchanting smile, as if she was going to melt Chen Xiang down.

Chen Xiang watched in a daze as he reached out to caress her cheek: "You're welcome. I gave him a rare opportunity. If you grasp it well, he should be back to Dong Fang Clan very quickly, and continue to be his Dongfang Family Patriarch. "

Chen Xiang then told Dongfang profoundlong and Dongfang Xinyue about Dongfang profoundlong, making Dongfang Xinyue even more grateful towards him.

"Elder Sister Meng'er..." Chen Xiang pouted his lips.

"Little Scoundrel, you're so bad." Liu Meng'er lightly stomped his feet and his face turned slightly red. He then leaned his head over and hugged Chen Xiang, kissing her passionately for a moment.

"I'm going to meet my appointment. I don't know if I'll be late or not." Chen Xiang shrugged and used the Luotian Gate to leave.

When Chen Xiang returned to the Super Dan Imperial College, he opened his own door and saw a person wearing a wooden mask, causing him to be shocked.

"Little girl, you scared me to death, how can you casually enter Martial Aunt's room? How is this possible!?" Chen Xiang was often intimidated by the Elder Dan, this made him extremely unhappy.

"Did you bring a woman into my bamboo house?" "How can you smell the fragrance of other women?" The Elder Dan's voice carried anger.

Chen Xiang thought for a moment, then immediately said: "You misunderstood, that was when my recognized sister, Youlan, looked at me, and lived in there."

"The competition between us will start in three days. I have already collected the medicinal ingredients for two Earth Grade Low Rank Dan s." The Elder Dan said, his voice was still stiff and cold.

"Oh? What pill's ingredients are they all from? "How do we decide who wins?" Chen Xiang anxiously asked, he was extremely concerned about this matter, as long as he could win against this woman, he would be able to see her appearance.

"You'll know when the time comes." Elder Dan flew away.

Chen Xiang curled his lips, when the time came, he would not find it too difficult to refine two types of Earth Grade Low Rank Dan s.

"The Space Warcraft's beast core is also known as the Spatial Elemental Bead. You should be able to use this Spatial Elemental Bead as the Luotian Gate's energy. At that time, you don't need to use your own strength." Long Xueyi said.

"In that case, the Spatial Orb has a lot of Spatial Force. Can you let me travel back and forth from the Sacred Dan Realm frequently?" Chen Xiang's heart was moved.

"Of course not, the Sacred Dan Realm is not that easy to get to. The formation that Fan Yakun obtained could only allow him to travel back and forth." Long Xueyi said.

[Chapter 740](#)

Chen Xiang originally wanted to go find Yun Xiaodao and the others to see how their progress was, but he met Wu Kaiming.

"Little martial uncle, I've been looking for you for a long time." Ever since Wu Kaiming passed the Nirvana Tribulation, he had become much younger and looked much more lively. However, he still spoke like an old man.

"What is it?" Chen Xiang asked as he walked.

The headquarters for the construction of the Dan Alliance in the Continent of the King is more or less finished, and there are still many Alchemist that have gathered here. It is said that these Dan King are going to conduct a competition to elect an alliance master, do you know of this news?" Su Yun said. Wu Kaiming said. He was a member of the Wu Clan, and was the most informed about the Continent of the King.

"I don't know!" Chen Xiang also wanted to go watch the Dan King competition: "When do we start?"

"Starting tomorrow, I heard that the Alchemists that are invited to the Dan Alliance are all famous in their world. Second Senior Sister and Hua Xiangyue also received the invitation, but they did not go." Wu Kaiming said.

Chen Xiang rubbed his nose and said: "I am considered quite famous in Mortal Martial Realm, didn't they invite me?"

Wu Kaiming shook his head: "Your talent is not bad, but you do not have enough experience. Maybe they really look down on you. Even though you have Relive Dan, they knew that you did not refine it."

"You're underestimating me!" Chen Xiang grunted softly, "Then are there any other young Alchemists being invited to join the Dan Alliance?"

"Of course there is." Of course there is. Wu Kaiming laughed: "Junior master, I am sorry for you, I was actually looked down upon by this group of people."

Chen Xiang just shook his head and smiled, but he still planned to join in the fun, "How can I go watch the Dan King competition to refine pills?"

"What is it? Junior Martial Uncle, you want to go and ruin everything?" Wu Kaiming laughed craftily: "Although I am not Alchemist, I am still invited to watch. I can bring you there."

Chen Xiang laughed: "Little baldy, I'll be troubling you then."

Wu Kaiming said: "It's nothing, that's right, Junior Martial Uncle, do you have any good pills to sell recently?"

"There are some profound yang fire Dan s, Small shaping Dan s, and even Dinghun Dan s." Chen Xiang thought for a while and said, these were all high grade profound level pills.

"There's still a little Chunyuan gold Dan you want?"

Wu Kaiming opened his eyes wide: "profound yang fire Dan s, Small shaping Dan s and Dinghun Dan s are all rare high grade profound level pills, especially Small shaping Dan s and Dinghun Dan s. When I first heard about them, I was still a warrior of the Hundred refining realm."

"You can even refine these pills?" Wu Kaiming asked.

"Of course. Otherwise, how could I have so many?" Chen Xiang chuckled, "If you and a lad ever need anything in the future, come find me."

"If we sell the Small shaping Dan to the Beast Martial School, we can definitely sell it for a good price. Many sects that rear Demonic Beasts also need them very much, and can sell them as Ground level Pills." Wu Kaiming's eyes lit up, "Junior Martial Uncle, you have so many rare pills, maybe you can make that scene even more beautiful."

Chen Xiang laughed, "Don't think so badly of me. I'm only going to exchange some potion concocting techniques with them, then casually sell some medicinal pellets."

Wu Kaiming secretly despised Chen Xiang. If he had to say it, he would just go and make a fool of others while he was at it.

Although the New World was very big, to the number of martial artists competing, some high levelled pills were still very precious. For a rich person like Chen Xiang, as long as he worked hard enough and opened a pill shop to sell pills, he would definitely become a well-known figure. It wouldn't be long before he made a name for himself.

There were only a few thousand invited Continent of the King s. In this new world, it could be said that there were very few of these people, and the majority of them were pretty good Alchemist s.

"That is the Dan Alliance's tower. Alliance head will be created on the first floor and can enter the stage tomorrow. At that time, the alliance members will have a pill refining competition and a few Dan King will compete to decide on Alliance head." Wu Kaiming said.

"What is this Dan Alliance trying to do?" It was true that it was good to gather many talented Alchemist s together. Alchemist's position was originally high, and with so many Alchemist united, it was definitely a very strong force.

Wu Kaiming thought for a moment, then said: "It seems to be for an exchange, but they must have thought that it was profitable, at least I think that's good, if I were to come to the Dan Alliance to ask for pills, it would be much easier, after all, there are elite Alchemist from all over the world gathered here."

There were many empty areas above Continent of the King. Not only did the Dan Alliance build a tall tower, he even created a huge city. It was said that the Spar were all produced by the Dan King and they invited many people to build such a huge city with the fastest speed possible.

The Dan King was very rich, and it was a joint venture between several Dan King s, at the same time, some of their allies had produced Spar s, so the Dan Alliance could be said to be the wealthiest power, even if there were no strong experts, no one would dare to offend the Dan Alliance.

Chen Xiang and Wu Kaiming strolled around the city. Although it had just been established not long ago, all of the shops here had already been sold out, and those rich shops could only be bought by the members of the alliance of the Dan Alliance. In other words, in this gigantic Pill City, the good locations were almost all bought by the Dan Alliance.

"This group of people are too bored. They want to use a different method to earn Spar." As Chen Xiang walked on the street, he saw a few closed doors of shops. All of these were bought, but were not opened for sale.

Wu Kaiming could tell that Chen Xiang had the intention to open a shop, and he knew that Chen Xiang could obtain a lot of rare and precious herbs to refine pills. If he were to open a shop here, based on the rare and precious pills that he sold, no matter how crappy the place was, as long as they were advertised, it would definitely be very lively.

"Junior Martial Uncle, my Wu Clan has some prestige here. Do you want me to help you get a relatively large store?" Wu Kaiming asked with a smile.

Chen Xiang thought for a moment, then nodded: "Okay, help me arrange a shop first, when I have time in the future, I will carefully plan how to open it."

In fact, he planned to work with the Dan Fragrance Pure Land and occupy a position in the Pill City. He wanted to earn a lot of money from the Spar, but he would have to discuss this with Hua Xiangyue after seeing him.

Many members of the Dan Alliance were originally from the same sect or clan, so once Dan City was established, they all opened shop here, affecting the business of many other continents. Chen Xiang guessed that even the Dan Fragrance Pure Land was affected greatly.
